Supp. To CHAPTER 77 FORFEITURE

9-77 Thompson on Real Property, Thomas Editions Supp. to § 77.04

Supp. to § 77.04 Defenses to the Seizure.

[Go To Main]

§ 77.04(a) Standing. [Go To Main]

Add:

U.S. v. 40 Acres of Real Property, More or Less, 629 F. Supp. 2d 1264, 1275 (S.D. Ala. 2009) (Claimant was deprived of statutory standing to pursue a claim to property after failing to file an answer).

Add:

U.S. v. Browne, 552 F. Supp. 2d 1342 (S.D. Fla. 2008) (the wife, a joint owner of the property with her husband, who was convicted of racketeering, was held to have no interest in the property).

United States v. Eight Hundred Sixty Thousand Three Hundred and Ten Dollars in U.S. Currency, 2001 U.S. App. LEXIS 13253 (10th Cir., Jun. 13, 2001) (claimant who acquired title to seized properties through forged documents did not have sufficient interest in the properties to establish standing to challenge civil forfeiture); *United States v. One Lucite Ball Containing Lunar Material, 252 F. Supp. 2d 1367 (S.D. Fla. 2003)* (Claimant had standing to contest forfeiture of moon rock, despite government's assertion that he had not abided by the contract to sell the materials); United States v. $ 1,790,021 in *U.S. Currency, 261 F. Supp. 2d 310 (M.D. Pa. 2003)* (Claimant did not have standing to request suppression of evidence obtained in alleged violation, as he disclaimed ownership in the target vehicle); United States v. $ 746,198 in *United States Currency, 299 F. Supp. 2d 923* (S.D. Iowa, 2004) (neither the son, in possession of a large sum of cash, nor the father, the alleged finder, had standing to claim the seized money since neither had complied with state's finder's laws); *Wash. County Water Conservancy Dist. v. Morgan, 82 P.3d 1125 (Utah 2003)* (finding that a water conservation administrative body lacked standing to make a claim on the granting of water rights by the state engineer to private parties).

Add:

United States v. 8402 W. 132nd Street, Palos Park, Illinois, 103 F. Supp. 2d 1040 (N.D. Ill. 2000) (neither beneficiary nor trustee of trust had standing to contest forfeiture of property).

Add:

See also United States v. 100,348.00 in U. S. Currency, 354 F.3d 1110 (9th Cir. 2004) (where a bailee of cash was declared to have an interest in the money as to bring suit to claim its recovery).

§ 77.04(b) Innocent Owner. [Go To Main]

Add to text:

The statutory definition of innocent owner formerly set forth in *21 U.S.C. § 881(a)(7)* was deleted in 2000. However, *18 U.S.C. § 983(d)* provides an innocent owner provision which reads, in part:

(1) An **innocent owner's** interest in property shall not be forfeited under any civil forfeiture statute. The claimant shall have the burden of proving that the claimant is an **innocent owner** by a preponderance of the evidence.

(2) (A) With respect to a property interest in existence at the time the illegal conduct giving rise to forfeiture took place, the term **"innocent owner"** means an **owner** who--

(i) did not know of the conduct giving rise to forfeiture; or

(ii) upon learning of the conduct giving rise to the forfeiture, did all that reasonably could be expected under the circumstances to terminate such use of the property.

Add:

U.S. v. Shefton, 548 F.3d 1360, (11th Cir. 2008) (forfeiture was invalid, because another party had a superior interest in the property).

Add:

But see Conservation Force v. Salazar, 677 F. Supp. 2d 1203, 1208 (N.D. Cal. 2009) (innocent owner defense is not available under *18 USC § 983(d)(4)* for property that is illegal to possess).

Add:

United States v. Gilbert, 244 F.3d 888 (11th Cir. 2001) (forfeiture reaches only the defendant's interest in the property); United States v. Real Property, Buildings, Appurtenances and Improvement located at 221 *Dana Avenue, Hyde Park, Massachusetts, 239 F.3d 78 (1st Cir. 2001)* (dower interest was sufficient basis for innocent owner defense); *Williams v. Auto Owners Insurance Company, 779 So. 2d 563 (Fla. App. 2001)* (the relation-back provision of a forfeiture statute did not divest an assignee of her interest); *State v. Burgraff, 542 S.E.2d 909 (W. Va. 2000)* (evidence must show a connection between the property and the crime); *United States v. Brooks, 112 F. Supp. 2d 1035 (D. Haw. 2000)* (defense claimant had to prove that her interest vested before the commission of the criminal acts); *United States v. Real Property Known as 1700 Duncanville Road, 1703 South Main Street, and 1707 Main Street, in Duncanville, Texas, 90 F. Supp. 2d 737 (N.D. Tex. 2000)* (forfeiture of property purchased in party with non-tainted funds did not violate the *8th Amendment*); *United States v. Real Property, Buildings, Appurtenances and Improvements Located at 221 Dana Avenue, Hyde Park, Massachuseetts, 81 F. Supp. 2d 182 (D. Mass. 2000)* (a wife was not an innocent owner if she did not acquire an interest in the property until after becoming aware of the husband's criminal activities).

Add:

See also U.S. v. United States Currency in the Amount of United States, 2004 U.S. Dist. LEXIS 7072 (No. CV-01-5036 (SJF) (ASC), Apr. 14, 2004) (where a suspected drug smuggler's claim of innocence to the knowledge of illegal activity regarding the money in question was tainted by the man's criminal history);

Add:

United States v. Funds from *Prudential Sec., 362 F. Supp. 2d 75, 83 (D.D.C. 2005)* (upholding a decree for forfeiture against a defendant who failed to prove she was not involved in illicit drug trade).

United States v. Twenty One Thousand Dollars in United States Postal Money Orders and*United States, 298 F. Supp. 2d 597 (E.D. Mich. 2004)* .

Add:

See also United States v. Cleckler, 270 F.3d 1331 (11th Cir. 2001) (holding that "without knowledge or consent" owner had to be read in the disjunctive, and citing Civil Asset Forfeiture Act of 2000, stating that innocent owner defense available to owner who (i) has no knowledge of illegal conduct; or (ii) upon learning of illegal conduct, takes no steps to terminal illegal conduct; *see 18 U.S.C. § 983(d)*); *but see United States v. Carrell, 252 F.3d 1193 (11th Cir. 2001)* (read conjunctively).

Add:

U.S. v. Brewer, 591 F. Supp. 2d 864 (N.D. Tex. 2008) (the wife could not claim an ownership interest in the propery based on the mortgage or on the payments she had made).

United States v. Nava, 404 F.3d 1119 (9th Cir. 2005) (claimant's success in having forfeiture set aside depending on claimant's proving ownership of the property).

Add:

See also United States v. $746,198 in U.S. Currency, 299 F. Supp. 2d 923 (S.D. Iowa, 2004) (where it was held that a bailee cannot be, by definition, an innocent owner).

Add:

See also United States v. $100,348 in U. S. Currency, 354 F.3d 1110 (9th Cir. 2004) (even though the petitioner was not the true "owner" of the seized money, he did have a strong enough interest in the money as the courier to justify his assertion of the "innocent owner" defense).

Add:

See also United States v. Real Property in Section 9, Town 29, North, Range United States, 308 F. Supp. 2d 791 (E.D. Mich. 2004) .

Add:

U.S. v. Wahlen, 459 F. Supp. 2d 800 (E.D. Wis. 2006) (forfeiture included certain substitute property and directly-forfeitable property in the account of defendant's wife). *See Laase v. 2007 Chevrolet Tahoe, 776 N.W.2d 431 (Minn. 2009)* (reversed lower court ruling, and held that innocent owner defense does not apply when one joint owner of property is the offender that caused forfeiture).

See also United States v. Bennett, 2004 U.S. Dist. LEXIS 6595 (No. 97 Cr. 639 (SAS), S.D. N.Y., Apr. 14, 2004); United States v. Real Property Identified as: PARCEL 03179-005R, Legal Description Sec 19 TWN 9, *RNG 10, Port St. Joe, Florida, With All Appurtenances and Attachments Thereon 287 F. Supp. 2d 45 (D.D.C. 2003)* ; *United States v. Wendling, 359 F. Supp. 2d 850 (D. N.D. 2005)* (property used for growing marijuana and owned jointly with another was forfeited); *Pacheco v. Serendensky, 393 F.3d 348 (2d Cir. 2004)* (partial forfeiture of real estate).

Add:

U.S. v. Carmichael, 433 F. Supp. 2d 1259 (M.D. Ala. 2006) (materialmen's lien against forfeited property was not extinguished).

United States v. Harris, 246 F.3d 566 (6th Cir. 2001) (mortgage lenders were entitled to agreed upon prepayment premiums upon forfeiture of the mortgaged property).

§ 77.04(c) Excessive Fine. [Go To Main]

Add:

Cody Discount, Inc. v. Merritt, 629 S.E.2d 697 (S.C. App. 2006) (forfeiture held to be a penalty and not enforceable in equity).

United States v. 1948 South Martin Luther King Drive, 270 F.3d 1102 (11th Cir. 2001) (Punitive forfeitures are subject to excessive fines clause of *8th Amendment*); *Hooper v. State, 555 S.E.2d 842 (Ga. Ct. App. 2001)* ; *United States v. Bernitt, 392 F.3d 873 (7th Cir. 2004)* (forfeiture held to not violate *8th Amendment*).

Add:

But see United States v. One 1995 Grady White 22' *Boat, 2006 U.S. Dist. LEXIS 6069 (D. Md. 2006)* (forfeiture of a residence, boat, and trailer used in connection with marijuana production was not grossly excessive).

Rabern v. State, 531 S.E.2d 373 (Ga. 2000) (forfeiture of house and 5.2 acres of land held excessive); *State v. Real Property at 633 East 640 North, Orem, Utah, 2000 UT 17, 994 P.2d 1254 (Utah 2000)* (forfeiture of residence was held to be a grossly disproportionate penalty).

Add:

See U.S. v. Sabhnani 559 F.3d 215 (2d Cir. 2010) (forfeiture of entire home was not grossly disproportionate to the offense of forced labor and peonage and therefore not a violation of the Excessive Fines Clause).

Add:

United States v. One Hundred & Twenty Thousand Eight Hundred & Fifty Six Dollars in United States Currency More Or Less, 394 F. Supp. 2d 687, 694 (D.V.I. 2005) (forfeiture of property held to be "totally unconscionable" because the government did not produce any evidence connecting the forfeiture to any illegal activities).

In re One Residence at 319 E. Fairgrounds Dr., 71 P.3d 930, (Ariz. App. 2003) ; *Wilson v. Comm'r of Revenue, 656 N.W.2d 547 (Minn. 2003)* ; *One Car, 1996 Dodge X-Cab Truck v. State, 122 S.W.3d 422,* (Tex. App. 2003) .

Add:

See United States v. Santosdedios, 240 F. Supp. 2d 414, 422-423 (D. Md. 2002) (finding the administrative costs of $200 demanded from Defendant for theft were not excessive in relation to the purpose of the demand).

Add:

United States v. Approximately 600 Sacks of Green Coffee Beans, 381 F. Supp. 2d 57, 64 (D.P.R. 2005) (holding that an in rem forfeiture that was both remedial and punitive did not violate the *Eighth Amendment*).

Add:

Howell v. State, 656 S.E.2d 511 (Ga. 2008) (forfeiture was not an excessive fine). *See also U.S. v. Hull, 2010 U.S. App. LEXIS 10696 (8th Cir. 2010)* (forfeiture of nineteen acres of property for distribution of child pornography was not a violation of the Excessive Fines Clause, because the offense was especially serious, and the value of the property was within the maximum fine for such an offense); *U.S. v. Sabhnani, 599 F.3d 215 (2d Cir. 2010)* (forfeiture of home was not in violation of the Excessive Fines Clause because the forfeiture was not grossly disproportionate to the severity of the offenses relating to forced labor and peonage); *U.S. v. Cheeseman 600 F.3d 270 (3d Cir. 2010)* (forfeiture of 609 firearms was not grossly disproportionate to the offense of abusing drugs while illegally possessing firearms).

United States v. 32 Medley Lane, 372 F. Supp. 2d 248, 272 (D. Conn. 2005) (forfeiture of residence was held not to be unconstitutionally excessive).

§ 77.04(d) Double Jeopardy. [Go To Main]

Add:

U.S. v. Venturella, 585 F.3d 1013 (7th Cir. 2009) (enforcement of restitution and forfeiture for mail fraud did not create double jeopardy).

Add:

Dye v. Frank, 355 F.3d 1102 (7th Cir. 2004) ; United States v. Real Prop. Identified As Parcel 03179-005*R, 287 F. Supp. 2d 45* (D.D.C., 2003) ; *Davis v. State, 819 N.E.2d 863 (Ind. App. 2005)* (criminal convictions after civil forfeiture of property did not constitute double jeopardy).

Add:

U.S. v. Wittig, 575 F.3d 1085, 1096 (10th Cir. 2009) ("Double jeopardy does not apply to the forfeiture findings

because forfeiture is a component of a sentence rather than an 'offense' for which the defendants were tried").

Add:

United States v. Santosdedios, 240 F. Supp. 2d 414, 421-422 (D. Md. 2002) (holding the defendant subject to both civil penalty and criminal punishment for the same theft).

United States v. One Parcel Property Located at 7079 Chilton County Road 37, Clanton, Chilton County, Alabama, 123 F. Supp. 2d 602 (M.D. Ala. 2000) (forfeiture of property held to be not unconstitutionally excessive).

After the first two full paragraphs, delete the balance of the subsection and replace with the following:

Halper has since been overruled by *Hudson v. United States, 522 U.S. 93 (U.S. 1997)* . *Halper's* test proved unworkable, creating confusion by attempting to distinguish between "punitive" and "nonpunitive" penalties. The Court thus returned to the "traditional" methods of determining double jeopardy; determining if the case was primarily civil or criminal in nature, and evaluating the statute to determine whether it provided for, what amounted to, a criminal sanction.

See Megan R. Wischmeier, *Protecting Individuals from "Double Jeopardy" in a Post-Hudson Era, 90 Iowa L. Rev. 1275 (2005);* Troy D. Cahill, Note, *The Supreme Court's Decision in Hudson v. United States: One Step Up and Two Steps Back for Multiple Punishment Protection Under the Double Jeopardy Clause , 33 Wake Forest L. Rev. 439 (1998).*

Add:

See also Royal C. Gardner, *Invoking Private Property Rights For Environmental Purposes: The Takings Implications of Government-Authorized Aerial Pesticide Spraying, 18 Stan. Envtl. L.J. 65 (1999).*

Dye v. Frank, 355 F.3d 1102, 1108 (7th Cir. 2004) (finding the reasoning from *Kurth Ranch* still applicable post *Hudson* and holding that a tax statute applicable to possession of narcotics was so punitive that it qualified as a criminal punishment subject to double jeopardy analysis).

§ 77.04(e) Undue Delay [Go To Main]

Add:

United States v. Tunkara, 385 F. Supp. 2d 1119, 1124-1125 (D. Kan. 2005) (disallowing the forfeiture of cash seized more than three years before the marijuana offense at issue).

United States v. Ninety-Three Firearms, 330 F.3d 414 (6th Cir. 2003) ; *United States v. Assorted Computer Equip.,*

2004 U.S. Dist. LEXIS 6334 (No. 03-2356V, W.D. Tenn., Jan. 9, 2004); *Crawford v. State, 859 A.2d 624 (Del. 2004)* (expiration of one-year statute of limitations resulted in state's waiver of its entitlement to seek forfeiture of property).

Add:

See U.S. v. $131,551.03 Plus Accrued Interest from *Sale of 10 Table Bluff Road, 2010 U.S. Dist. LEXIS 26524 (N.D. Cal. 2010)* (four-year delay between the seizure of property and trial did not constitute undue delay because the government was able to present sufficient reasons for the lengthy delay).

§ 77.04(f) Statutes of Limitations. [Go To Main]

After first sentence " ... in appropriate situations," add new footnote: n310.1

Modify Text. Add, at the end of the second paragraph:

The statute was modified in 2000 to include the text: "or in the case of forfeiture, within 2 years after the time when the involvement of the property in the alleged offense was discovered, whichever was later."

§ 77.04(g) Self-Incrimination. [Go To Main]

Add:

United States v. Twelve Pieces of Real Prop., 54 Fed. Appx. 461 (9th Cir., 2003) ; *United States v. All Meat & Poultry Prods., 2003 U.S. Dist. LEXIS 17677* (No. 02 C 5145, N.D. Ill., Oct. 3, 2003).

§ 77.04(h) First Amendment. [Go To Main]

Add:

See also United States v. Ganley, 300 F. Supp. 2d 200 (D. Me., 2004) (claimant asserted his *First Amendment* rights after he had property seized for broadcasting without a license).

§ 77.04(i) Other Defenses. [Go To Main]

Add:

Rashid v. Powell, 210 F.3d 201 (3d Cir. 2000) (forfeiture did not qualify as a fraudulent conveyance under the Bankruptcy Code).

After the end of the second sentence in the first paragraph, " ... and disapproved Coffey." add new footnote: n351.1

Add:

Carlisle v. One (1) Boat, 195 P.3d 1177 (Haw. 2008) (forfeiture denied because seizure was under authority of an administrative regulation that did not authorize forfeiture as a remedy).

Add:

Silver Chevrolet Pickup v. State, 99 S.W.3d 874 (Tex. App. 2003) (failure to timely file a lis pendens on seized real property deprived the court of jurisdiction to conduct forfeiture proceeding).

Add:

Hooper v. State, 572 S.E.2d 340 (Ga. App. 2002) (forfeiture applied to only the mobile home and the real property on which it rested).

FOOTNOTES:

(n4)Footnote 310.1. *See United States v. Rodriguez-Aguirre, 264 F.3d 1195 (10th Cir. 2001)* (motions for return of seized property are governed by six-year statute of limitations, which generally may not be shortened by laches; limitations period begins to run when claimant has reasonable inquiry notice about forfeiture, but where no forfeiture proceeding is brought, limitations period begins to run when criminal proceedings have concluded); *United States v. Carrell, 252 F.3d 1193 (11th Cir. 2001)* (limitations period did not commence running until government discovered connection between drug sales and properties, not on earlier date when properties were titled in names of drug dealer's family members); but see *United States v. Twenty-seven Parcels of Real Property Located in Sikeston, Scott County, Mo., 236 F.3d 438 (8th Cir. 2001)* (Limitations period began to run when drug offense was discovered, not at the later time when connection of properties to offense was discovered).

(n5)Footnote 351.1. *See also United States v. Real Property Located at U.S. Highway South, Maryville, Tennessee, 2001 U.S. App. LEXIS 26673* (6th Cir., Dec. 12, 2001) (government was not prohibited from filing civil forfeiture complaints by the holding of *Apprendi* on the ground that the forfeiture actions had not been part of criminal trial process, civil forfeiture proceeding not an extension of criminal proceedings and penalties); *United State v. Cabeza, 258 F.3d 1256 (11th Cir. 2001)* (*Apprendi* rule does not apply to forfeiture proceedings following a criminal conviction).

Supp. To CHAPTER 77 FORFEITURE

9-77 Thompson on Real Property, Thomas Editions Supp. to § 77.05

Supp. to § 77.05 Rights of Successful Claimant.

[Go To Main]

Add:

United States v. $293,316 in United States Currency, 2005 U.S. Dist. LEXIS 22860, 5-6 (D.N.Y. 2005) (denying a reward of attorney's fees under EAJA based on its finding that the United States was substantially justified in the litigation); *United States v. Pease, 137 Fed. Appx. 220 (11th Cir. 2005)* (finding the district court did not abuse its discretion in denying the defendants' motion for attorney's fees under EAJA because the matter was substantially justified).

United States v. $30,006.25, etc., 236 F.3d 610 (10th Cir. 2000) (sovereign immunity prohibited awarding interest upon return of property).

Add:

United States v. Harris, 246 F.3d 566 (6th Cir. 2001) (mortgage lenders were entitled to prepayment premiums upon forfeiture of the mortgaged property); *United States v. 100,348.00 in U.S. Currency, 354 F.3d 1110, 1124* (9th Cir., 2004) ; *Krecioch v. United States, 316 F.3d 684* (7th Cir., 2003) ; *In re Mgndichian, 2003 U.S. Dist. LEXIS 25260* (No. CV 02-09580 MMM (Shx), C.D. Calif., Oct. 21, 2003); United States v. $ 60,201.00 *United States Currency, 291 F. Supp. 2d 1126* (C.D. Calif., 2003) .

CHAPTER 78 REGULATION OF TRANSACTIONS

9-78 Thompson on Real Property, Thomas Editions § 78.01

AUTHOR: Professor Richardson R. Lynn School of Law Pepperdine University

§ 78.01 Overview of the Regulation of Transactions.

The regulation of land sales protects the buyer of land from abuses in land sales. Congress initiated regulations in response to the inadequate remedies available to the buyer. n1 Federal regulation, followed by state regulation, was initially prompted by the marketing of underdeveloped and raw land primarily to senior citizens for retirement homes, as well as to other consumers for investment purposes. n2

There were concerns about the sales techniques being employed. Often, sales were made, sight unseen, via the mail, advertisements in magazines, and by telephone solicitation. n3 These techniques left open wide opportunities for fraud. Consumers were lured into purchasing through misleading property descriptions, including material omissions or blatant deception. Often, out-of-state consumers were solicited and were, thus, more susceptible to sight unseen techniques, and were more willing to let the seller handle the details of the sale.

Consumers were purchasing land which was uninhabitable. Often land purchased for home sites was not fit for development due to its location in deserts, on swampland, or in remote areas. Also, large tracts of completely undeveloped land were sold. Consumers were purchasing future home sites in areas which had no utilities, sewage systems, or roads. Further, many of the larger development plans presented to potential buyers were not feasible for development. When a large tract is subdivided into several small lots a great demand is imposed upon the local government to immediately supply drainage facilities, proper sanitation, roads, water, and other utilities. A demand is also created for schools, hospitals, police, and other public services. These increased demands were difficult to meet in the proposed site for development, due to the unavailability of an adequate tax base, which would be necessary to finance such services. In many instances potential buyers were not given this information.

The problem first arose during a short boom of land sales in the 1920's. n4 Another boom occurred during the 1940's, and the problem came to a head during the 1960's. n5 By 1963, it was estimated that the sale of sight unseen land was $500 million annually. n6 This figure was revised to $1 billion by 1967. n7 Consumers were spending their lifesavings on home sites to find that the land they purchased was either unfit for development, or not suitable for habitation.

CHAPTER 78 REGULATION OF TRANSACTIONS

9-78 Thompson on Real Property, Thomas Editions § 78.02

AUTHOR: Professor Richardson R. Lynn School of Law Pepperdine University

§ 78.02 Outline of the Chapter.

This chapter discusses the regulation of transactions as it applies to real estate -- primarily subdivided land. A brief history of regulations which either directly or indirectly affect property is discussed in § 78.03. Section 78.04 discusses the hearings held by the Senate Special Committee on Aging. The Interstate Land Sales Full Disclosure Act which resulted from the Special Committee is comprehensively set forth in § 78.05. The Federal Trade Commission is briefly covered in § 78.06. Regulations put forth by the Securities Exchange Commission which may pertain to property transactions are addressed in § 78.07. Section 78.08 is an overview of state regulations which pertain to property transactions. Although individual state regulations are set forth, this section is organized according to the predominant type of regulation in each state. Accordingly, this section is an overview of state disclosure requirements, specific regulations dealing with out-of-state land transactions, the Uniform Land Sales Act, real estate licensing, blue sky laws, laws requiring compliance with other state regulations, regulations affecting planned communities, state condominium acts, time share acts, membership camping practices, horizontal property acts, mobile home parks, senior citizen housing, and recovery funds. Section 78.09 contains information regarding procedures and drafting complaints.

CHAPTER 78 REGULATION OF TRANSACTIONS

9-78 Thompson on Real Property, Thomas Editions § 78.03

AUTHOR: Professor Richardson R. Lynn School of Law Pepperdine University

§ 78.03 History of Regulation.

[Go To Supp]

§ 78.03(a) Caveat Emptor.

Under the common law, the purchaser usually has no remedy against a seller under the doctrine of Caveat Emptor. n8 This doctrine dictates "let the buyer beware." n9 The buyer bears the burden of proof to establish that the seller has intentionally misrepresented a material fact upon which the buyer relied. Failure to meet this burden allows the buyer virtually no recourse. Another problem is that the tort action of misrepresentation is limited to false statements regarding a present fact, thus false representations regarding future development is not covered. n10 Therefore, a buyer who purchases raw or semi-developed land has no remedy, under this doctrine, against a seller who makes material misrepresentations upon which the buyer relies, regarding future development.

COMPUTER-ASSISTED RESEARCH:

LEXIS: caveat emptor w/50 misrepres! misrepresentation w/50 false statement w/50 present fact

§ 78.03(b) Warranty of Habitability.

Under case law, and statutory law, the buyer can find some relief through the warranty of habitability. Under this doctrine, the courts imply that the seller warrants that the premises are fit for habitation. n11 However, protection under the warranty of habitability can be denied by disclaiming reliability. n12 Protection can also be denied due to the date of the contract vis-a-vis the stage of completion of the building at the time of the contract. n13 Further problems arise as the courts distinguish between active misrepresentation and passive non-disclosure. n14 In these situations the buyer has no adequate remedy.

COMPUTER-ASSISTED RESEARCH:

LEXIS: warranty of habitability w/50 disclaim! warranty of habitability w/50 date w/50 contract w/50 complete! warranty of habitability w/50

§ 78.03(c) Federal Mail Fraud Statutes.

The Post Office Department had developed two devices which can be used against fraudulent land sales practices. One is the issuance of civil and criminal sanctions which allow fines to be levied for fraudulent use of the mails. n15 The other is the "fraud order," which is used upon a finding that the mails are being used to perpetuate fraudulent schemes. n16 The "fraud order" permits the local postmaster, under the direction of the Postmaster General, to return fraudulent mail to its sender, and to refuse payment of money orders and postal notes which are payable to the fraudulent promoter. n17 However these devices are only appropriate in cases where the mail is used to perpetuate the scheme. It is not appropriate for fraudulent land sales practices which do not use the mails. Further, a specific intent to defraud must first be established in order to trigger the use of the fraud order. n18 Establishing specific intent can take time, which allows the promoter of a fraudulent scheme more opportunities to defraud before being stopped. The fraudulent promoter can eventually be fined, jailed, or stopped from further solicitation through the mails. However, this device only protects future buyers, but is an ineffective remedy to those already defrauded.

COMPUTER-ASSISTED RESEARCH:

LEXIS: fraud! w/10 land sale w/50 mail mail fraud w/50 fraud order mail w/10 fraudulent scheme w/50 specific intent

§ 78.03(d) Federal Trade Commission Act.

Section 5 of the Federal Trade Commission Act (FTCA) allows the Federal Trade Commission (FTC) to take administrative steps against fraudulent and deceptive land sales brochures and printed advertisements. n19 However there is a waiting period of ninety days before the FTC can block the furtherance of deceptive land sales literature. n20 Further, during the waiting period, the commission is not permitted to issue temporary cease and desist orders. Thus, as with the mail fraud statutes, the promoter is permitted time to continue fraudulent practices, and those buyers already defrauded are not given an effective remedy.

§ 78.03(e) Federal and State Securities Regulation.

With the exception of state blue sky laws, which specifically refer to land sales transactions, the typical land sale agreement is not seen as a security. However, certain dispositions of land may meet all the criteria of a security. For example, a buyer sells a lot at a price which reflects the completion of improvements which the seller has promised. n21 The price is only realistic if the buyer in fact makes those improvements. The initial price paid by the buyer includes a portion which is based upon the buyer improving the land. In this case, the buyer is actually financing the seller, with the portion of the purchase price which exceeds the present value of the unimproved land, so that the seller can improve the land to the extent that the land will eventually equal or exceed what the buyer paid. Another example is where lots are sold on the basis of supposed oil or mineral exploration. n22 In some instances, installment lot transactions where the buyer does not take possession or title of the land until all installments are paid, can also be seen as a security interest. n23 This applies when payments are not escrowed to guarantee their application against encumbrances upon the land, penalties are applied for early payment, and no title search is made, or title insurance offered. n24 In this case, the buyer is in fact making a loan to the developer in exchange for a debt from the buyer which will be repaid with the specific property. n25 This type of transaction is distinguishable from a typical installment sale of property where the buyer takes immediate possession. The latter could not be construed as a security. However, land sale transactions which can be construed as securities may be subject to security laws. In those cases the buyer may be required to make certain disclosures under the Securities Act of 1933, or applicable state security laws.

COMPUTER-ASSISTED RESEARCH:

LEXIS: securit! w/50 land or property w/5 sale w/5 transaction

§ 78.03(f) State Regulation of Land Sales.

Prior to 1963, state regulation of land sales was either non-existent, uneven, or inadequate. For those states that did have regulations, they generally fell into three categories: The first required registration of land information. n26 The second type required registration plus the use of administratively approved selling reports. n27 By requiring the selling report, the state agency was given the opportunity to supply an editorial regarding the quality of the land offered. n28 The third type was most protective of the purchaser. It not only required registration of land information and a seller's report, but also gave the administrative agency the power to prohibit advertisements and land offerings which, in the agency's opinion were not "fair, just, and equitable." n29 In addition to the absence of land sales regulations in some states, there was also the problem of inconsistencies with respect to the differing state laws. This problem arose with respect to interstate land sales. For example, problems arose when the developer operated in another state, or where the offeree was situated in another state. The worst scenario was when the developer operated from one state, made the offer of land located in another state, to offerees located in a third state. In such a scenario problems arose with respect to jurisdiction for service of process, jurisdiction to regulate, choice of law, full faith and credit, and practical enforcement. Because of such problems, state regulation alone appeared inadequate.

COMPUTER-ASSISTED RESEARCH:

LEXIS: interstate w/25 land sale w/50 jurisdiction

§ 78.03(g) Industry Self-Regulation.

Traditionally, when an entire industry is faced with the inevitable possibility of federal regulation, the response is usually an attempt to voluntarily regulate itself. In the case of land sales, the industry had more than five years to initiate and establish industry standards. Five years transpired from the time Congress began hearings on the matter and time they passed federal legislation. n30 Yet, from the commencement of the hearings until the passage of legislation, any attempts at self-regulation were insufficient. The industry had attempted to voluntarily provide purchasers with full disclosure of material information prior to their purchases. However, the less reputable sellers, those individuals whom consumers most needed protection from, were not furnishing potential purchasers with full disclosure. n31

CHAPTER 78 REGULATION OF TRANSACTIONS

9-78 Thompson on Real Property, Thomas Editions § 78.04

AUTHOR: Professor Richardson R. Lynn School of Law Pepperdine University

§ 78.04 Hearings Before the Senate Special Committee on Aging.

§ 78.04(a) 1963 Hearings.

By 1963, two things were clear: present regulations were insufficient to deal with less than reputable promoters, and federal regulation of the industry was necessary. Originally prompted by the exploitation of elderly purchasers, Congress began hearings on the problem. n32 The hearings revealed that a large segment of the population was being defrauded, not just the elderly. n33 The primary problems were in the marketing of raw and semi-developed land. n34 Abuses appeared to be rampant.

§ 78.04(b) Full Disclosure or Paternalism.

By 1968, Congress was ready to enact some sort of legislation. The question was what form should it take? Consumers needed protection; this much was clear. However, the sale of land was viewed as an industry essential and favorable to the economy. n35 Thus, heavy regulation, it was feared, could be detrimental to the industry. n36 Further, it seemed that state authorities were actually in a better position to regulate due to their close proximity to land within their state. n37 However, it was also clear that state regulation had proven to be insufficient -- especially when more than one state was involved.

There were arguments from the industry for preemption from state regulation if federal regulations were complied with. This argument had merit. Absolute preemption would establish a uniform system of regulation for those who complied with federal regulation. Also, it would eliminate the uncertainties created when state laws were applied to interstate transactions, e.g., choice of law, etc. However, Congress had already expressed concern regarding a complete heavy-handed federal takeover. n38 It could stifle the industry. Therefore, Congress decided against absolute preemption. n39 Deciding against total preemption would allow states, who were in a better proximity to the individual land offerings, room for local regulation as well.

This is not to say that Congress decided against federal regulation. The hearings indicated that some sort of federal regulation was necessary. The next step was to decide which kind of regulation was in order. There were arguments in favor of requiring full disclosure on the part of the land promoters. This faction was led by New Jersey's Senator Williams and supported by then Chairman of the Securities Exchange Commission, Manuel Cohen. n40 Full disclosure

would require promoters of land to file a comprehensive informational report, and would mandate supplying potential buyers with this information as well. The theory was "Inform the buyer fully and give him liberal fraud remedies, but don't babysit with him." n41

The alternative was a more paternalistic regulatory scheme that would require not only full disclosure, but also an opportunity for administrative comments on land offerings, as well as the authority to prohibit certain land offerings which were deemed unfair. However, requiring this paternalistic approach would be fought by states having no laws, and those states which required disclosure only. Additionally, Congress wanted to encourage states to come up with their own regulation in addition to federal regulation of land sales, and a too paternalistic federal takeover might discourage additional regulation on the part of the states. n42

§ 78.04(c) Senate Bill 2672

In 1965, Senator Williams introduced bill 2672 which reflected the full disclosure philosophy and approach. n43 It was inspired by, and closely paralleled, the Securities Act of 1933, but was applied to the sale of land. n44 This bill contained two main components. The first provided liberal fraud remedies to those purchasers who detrimentally relied on fraudulent representations. The second required full disclosure. Full disclosure required a registration statement and the use of a prospectus. n45

§ 78.04(d) Senate Bill 275.

In 1967, Senate bill 2672 was succeeded by Senate bill 275. n46 Despite minor changes in the bill, the basic approach and structure still paralleled the Securities Act of 1933. There was opposition to Senate bill 275. Land, it was argued, was not like securities. Securities were viewed as something intangible, while land could be seen and touched. Proponents of the bill pointed out the similarities between land purchased sight unseen, with no opportunity to inspect, and securities. Even an inspection of land might not reveal quality of title, hidden geographical characteristics, weather trends, or the reliability of the land promoter who promised future development. In those respects, land sales were similar to security interests.

Opponents also argued that requiring disclosure would affect the industry by forcing promoters to charge purchasers higher prices to compensate for the cost of registration and providing a prospectus. However, as SEC Chairperson Cohen pointed out, many legitimate developers were already providing this information to potential purchasers of their own volition, or in accordance with state regulations, and it did not appear to adversely affect land costs. n47 The less than reputable land promoters, those individuals who avoided disclosure, and the individual purchasers who needed protection most, were not voluntarily providing this information. n48 On balance, any slight increase in land costs would be offset by the benefits to those purchasers who would be protected by the act. During discussions on the bill, alternatives to full disclosure were considered. Allowing states to sue in federal court when interstate land sales resulted in violation of the state's regulations was one alternative. n49 Another was the imposition of federal criminal penalties for state violations. n50 A third alternative was to create a federal agency to take action against promoters who violated state law. n51 There were problems with those alternatives however. Federal decision makers did not want to take on the task of developing, interpreting, and applying state law. n52 The alternatives to federal disclosure regulations did not address land sale abuses occurring in states with no regulations. Further, none of the alternatives were prophylactic in nature and Congress recognized the need for some sort of preventive measure. Full disclosure and liberal fraud remedies provided a preventive mechanism as well as remedy for those purchasers who had been victimized by detrimentally relying on fraudulent representations.

CHAPTER 78 REGULATION OF TRANSACTIONS

9-78 Thompson on Real Property, Thomas Editions § 78.05

AUTHOR: Professor Richardson R. Lynn School of Law Pepperdine University

§ 78.05 The Interstate Land Sales Full Disclosure Act.

[Go To Supp]

§ 78.05(a) 1968 Passage of the Act.

In 1968, Congress passed the Interstate Land Sales Full Disclosure Act. n53 Consistent with Congressional proposals during discussions, this act was modeled after the Securities Act of 1933. n54 Elements requiring full disclosure via a registered report and prospectus to be filed, coupled with a report to be given to the potential purchaser were included in the act. Liberal fraud remedies, derived from Congressional discussions, were also included in the final version passed by Congress. n55 The Department of Housing and Urban Development (HUD) would oversee the act, and the Office of Interstate Land Sales Registration (OILSR) was established as the administrative body to monitor compliance and file the required property report and prospectus. n56

§ 78.05(b) 1979 Revision.

By 1979, the act had been in effect for over a decade. The act appeared overly broad. Problems were also found with the effectiveness of the act because HUD tended to rely on voluntary compliance. n57 Although the act mandated informational disclosure reports to be supplied to the potential purchaser of land, many purchasers were not being supplied with those disclosure reports. n58

Due to the ineffectiveness of the act as it stood, Congress proposed and passed several amendments by the end of 1979. n59 The amendments were designed to aid in the effectiveness of the act by making its provisions more specific, particularly in regard to enforcement. The effects of the 1979 amendments were fourfold.

First, amendments were added which increased damages. n60 Revisionists saw that allowing for increased damages as a vehicle to encourage compliance would ultimately increase the effectiveness of the act.

Second, more comprehensive contractual rights were established which allowed for private enforcement. n61 The new contractual provisions would make it easier for individuals to sue on their own behalf.

The 1968 version of the act only applied to land sales of subdivisions which included more than one hundred lots. n62

Thus, the act was not an effective remedy to purchasers who were defrauded by promoters whose subdivisions included fewer lots. The third set of amendments lowered the applicability of the fraud provisions to subdivisions with twenty-five or more lots. n63

Because the 1968 version of the act required separate filing procedures from state regulations, there were, in some cases, duplicate registration requirements. The fourth group of amendments passed in 1979 allowed for state certification procedures which eliminated the need to register twice. n64

§ 78.05(c) Overview of the Act.

The underlying purpose of the Interstate Land Sales Full Disclosure Act is twofold. One purpose is to ensure that a purchaser of land, prior to purchasing certain types of real estate, is fully disclosed of facts which will enable the purchaser to make an informed decision with regard to purchasing such property. n65 To fulfill this goal, the act establishes rigorous disclosure provisions and requirements. A second purpose of the act is to provide a means by which to prohibit and punish fraud in land development sales and offerings. n66

The basic provisions of the act are designed with an emphasis on protecting the consumer. In particular, the act is aimed at protecting the consumer from abuse by real estate developers through interstate commerce, the use of mails, and other advertising techniques, in promotion and sales of property, with emphasis given to properties offered as part of a common promotional plan. n67 The act is a flexible, widely encompassing statute. n68 Its construence should be liberal, rather than technical, to allow the greatest leeway to effectuate its remedial purpose. n69

Finally, officers or directors of corporate developers of real estate projects, as well as any participating planners, can be held liable for violations of the act, notwithstanding that they do not fall within the statutory definition of developers or selling agents. n70

§ 78.05(d) Definitions.

For purposes of construing the act, § 1701 provides the following definitions:

(1) "Secretary" means the Secretary of HUD;

(2) "person" means an individual, or an unincorporated organization, partnership, association, corporation, trust, or estate;

(3) "subdivision" means any land which is located in any state or in a foreign country and is divided or is proposed to be divided into lots, whether contiguous or not, for the purpose of sale or lease as part of a common promotional plan;

(4) "common promotional plan" means a plan undertaken by a single developer or a group of developers acting in concert, to offer lots for sale or lease; where such land is offered for sale by such a developer or group of developers acting in concert, and such land is contiguous or is known, designated, or advertised as a common unit or by a common name, such land shall be presumed, without regard to the number of lots covered by each individual offering, as being offered for sale or lease as part of a common promotional plan;

(5) "developer" means any person who, directly of indirectly, sells or leases, or offers to sell or lease, or advertises for sale or leases any lots in a subdivision; n71

(6) "agent" means any person who represents, or acts for or on behalf of, a developer in selling or leasing, or offering to sell or lease, any lots in a subdivision; but shall not include an attorney at law whose representation of another person consists solely of rendering legal services;

(7) "blanket encumbrance" means a trust deed, mortgage, judgment, or any other lien or encumbrance, including an offer to contract to sell or a trust agreement, affecting a subdivision or affecting more than one lot offered within a subdivision, except that such term shall not include any lien or other encumbrance arising as the result of the imposition of any tax assessment by any public attorney;

(8) "interstate commerce" means trade or commerce among the several states or between any foreign country and any state;

(9) "state" included the several states, the District of Columbia, the Commonwealth of Puerto Rico, and the territories and possessions of the United States;

(10) "purchaser" means an actual or potential purchaser or lessee of any lot in a subdivision;

(11) "offer" includes any inducement, solicitation, or attempt to encourage a person to acquire a lot in a subdivision. n72

§ 78.05(e) Exemptions.

§ 78.05(e)(1) General Exemptions.

In regard to the sale or lease of lots, the act provides for several exceptions to its disclosure and anti-fraud provisions. n73 However, if the disposition of an exception arises for the purpose of evading the provisions of the act, the exception will not apply. n74

The sale or lease of lots in a subdivision containing fewer than twenty-five lots is excepted from the provisions of the act. n75 The sale of any improved land which contains a residential, commercial or industrial building, or a condominium is also excluded, as is the sale or lease of land under a contract which obligates the seller or lessor to erect such a building within a time period not exceeding two years. n76 The sale of evidences of indebtedness secured by a mortgage or deed of trust on real estate, the sale of securities issued by a real estate investment trust, and the sale or lease of real estate by any government or government agency is also excluded. n77 Additionally, the sale or lease of cemetery lots is excluded from the act. n78

Further exemptions to the act include the sale or lease of lots to those persons who purchase the lots with the intention of engaging in the business of constructing residential, commercial or industrial buildings, or with the intention of reselling or leasing to such persons. n79

Additional exemptions apply to the sale or lease of real estate which is zoned by an appropriate governmental authority for industrial or commercial development, or which is restricted to such use by covenants, conditions, or restrictions which are officially recorded when local authorities have approved access from such real estate to a public road or highway; the purchaser of such land is a corporation, partnership, trust, or business entity engaged in commercial or industrial practice; the purchaser of such real estate is represented in the transaction by a representative of the purchaser's own choosing; the purchaser of such real estate affirms in writing to the seller or lessor that it either is purchasing or leasing such land substantially for its own use, or has a binding commitment to sell, lease, or sublease such real estate to a corporation, partnership, trust, or business entity, is engaged in commercial or industrial business, and is not affiliated with the seller, lessor, or agent thereof; and a title insurance policy or a title opinion is issued in connection with the transaction showing that title to such land is vested in the seller or lessor, subject only to those exemptions which are approved in writing by such purchaser prior to recordation of the instrument of conveyance or signing of the lease. n80 Any purchaser may waive, via a separate written document, this requirement of issuing a title insurance policy or opinion in connection with the transaction. n81

COMPUTER-ASSISTED RESEARCH

LEXIS: interstate land sales full disclosure act w/50 exempt! or except!

§ 78.05(e)(2) Exemption for Lots Subject to Other Disclosure Requirements.

Other provisions of the Act exempt transactions from the disclosure and registration requirements, but not from the anti-fraud or mandatory contract provisions of the Act. n82 However, if the disposition of an exception under this category arises for the purpose of evading the provisions of the act, the exception will not apply. n83

Among exemptions under this category are the sale or lease of lots in a subdivision containing fewer than one hundred lots, the sale or lease of lots in a subdivision in which not more than twelve lots are sold in a twelve month period, and the sale or lease of lots in a subdivision if each non-contiguous part contains not more than twenty lots and a personal inspection has been made by the purchaser or lessee prior to signing any agreement. n84 Also included in this category of exemptions is the sale or lease of lots in a subdivision in which each of the lots is at least twenty acres. n85

Further exemptions include the sale or lease of lots located within a municipality or county where a unit of local government specifies minimum standards for the development of subdivision lots taking place within its boundaries when each lot is zoned or limited to single family residences; the lot is situated on a paved street of highway; potable water, sanitary sewage disposal, and electricity have been extended to the lot; the contract for sale includes delivery of a general warranty deed; a title insurance binder or opinion is issued which indicates that marketable title is vested in the seller; an on-lot inspection by the purchaser has been made prior to signing the contract or agreement; there are no offers by direct mail or telephone solicitation of gifts, trips, dinners, or other such promotional techniques to induce the prospective purchasers or lessees to visit the subdivision or to purchase or lease a lot. n86

The sale or lease of a lot is also exempted if a mobile home is to be erected or placed thereon as a residence within a period of two years, and provisions are made for all funds received by the seller to be placed in an escrow account, controlled by an independent party, until the transactions are completed. n87 Further, the escrowed funds are to be released to the buyer on demand without prejudice if the mobile home is not erected or placed on the property within two years, or if potable water, sanitary sewage disposal, electricity, access to roads, or marketable title are not provided. n88 If common facilities are non-existent, but are to be provided, they must be fully funded. n89

The sale or lease of real estate by a developer who is engaged in intrastate development is exempt if the lot is free and clear of all liens, encumbrances, and adverse claims; the purchaser has made an on lot inspection; and prior to signing any agreement, the purchaser has received a written good faith estimate of the cost of providing electric, water, sewer, gas, and telephone services to the lot. n90

The sale or lease of a lot in a subdivision containing fewer than three hundred lots is exempt if the principal residence of the purchaser or lessee is within the same standard metropolitan area; the lot is free and clear of liens at the time of the signing of the contract or agreement and until a deed is delivered to the purchaser, or the lease expires; the purchaser or lessee has made a personal inspection of the premises; the purchase agreement contains a clear and specific statement as to when utilities will be available, and a seven day option to revoke the agreement; the purchaser has received a written statement by the developer setting forth in concise terms all liens, reservations, tax assessments, beneficial property restrictions which would be enforceable by other lot owners in the subdivision, adverse claims which are applicable to the particular lot, and a good faith estimate of the cost of providing electric, water, sewer, gas, and telephone services to such lot. n91

COMPUTER-ASSISTED RESEARCH

LEXIS: interstate land sales full disclosure act w/10 requirement w/50 exempt! or except! interstate land sales full

disclosure act w/10 requirement

§ 78.05(e)(3) Secretary's Exemption.

The Secretary of HUD may from time to time, pursuant to the rules and regulations issued by HUD, exempt from any of the provisions of the Act any subdivision or any lots in a subdivision, if the Secretary finds that the enforcement of the Act with respect to such subdivisions or lots is not necessary in the public interest and for the protection of purchasers by reason of the small amount involved, or the limited character of the public offering. n92

§ 78.05(f) Requirements Respecting Sale or Lease of Lots.

§ 78.05(f)(1) Prohibited Activities.

Under the Act, it is unlawful for any developer, either directly or indirectly, to use any instrument of transportation or communication in interstate commerce, or of the mails to sell any lot or subdivision, which does not fall within one of the exemptions without first filing the required statement of record or providing a printed property report to the prospective purchaser. n93 The Act also prohibits selling or leasing any lot if either the statement of record or property report contains a false statement or omitted material fact, or if advertising or promotional material is inconsistent with the statement of record or property report. n94

The Act further prohibits the sale or lease or offer to sell or lease any land if any device or scheme to defraud is attempted. n95 Further, any attempt to acquire property or money is prohibited if false material statements are made, or if material facts are omitted. n96 It is also unlawful, under the Act, to represent that any roads, sewers, water, gas, electric, or recreational amenities will be provided without stipulating such in the contract. n97

§ 78.05(f)(2) Revocation of Non-exempt Contract.

Any contract or agreement for the sale or lease of land which does not fall within one of the exemptions of the Act may be revoked at the option of the purchaser or lessee within seven days of signing, or any later time which state laws may mandate. n98 The contract must stipulate this. n99

§ 78.05(f)(3) Revocation Where Property Report Supplied.

Under the Act, where a property report is required, but not supplied to the purchaser prior to signing any contract or agreement, such contract or agreement may be revoked at the option of purchaser within two years of signing. n100

§ 78.05(f)(4) Additional Authority for Revocation.

The Act further stipulates that any contract for the sale or lease of a lot, which is not exempt from the Act, and which does not include an adequate description of the lot allowing for clear identification and recording, may be revoked within two years of signing at the option of the purchaser or lessee. n101 Revocation within two years is also available to the purchaser or lessee in the event of a default or breach of the agreement by the purchaser or lessee in which the seller or lessor did not provide written notice to the purchaser or lessee which allowed at least twenty days to remedy such default or breach. n102 Revocation within two years is also available to the purchaser or lessee if the purchaser or

lessee loses rights and interest in the lot as a result of a breach, which occurs after the purchaser has paid 15% of the purchase price. n103 In that case, the seller may not keep more than 15% of the purchase price as liquidated damages. n104

This entire section does not apply if within one hundred and eighty days after the signing, the purchaser receives a general warranty deed, or in jurisdictions where such deeds are not commonly used, the purchaser receives a deed or grant that warrants that the grantor has not conveyed the lot to another person, and that the lot is free from encumbrances made by the grantor or any agent thereof. n105

§ 78.05(f)(5) Repayment of Money Paid.

If a contract is revoked pursuant to the revocation provisions of the Act, and if the rights and interest in the lot are in a condition similar to the condition in which they were conveyed, or purported to be conveyed, to the purchaser or lessee, such purchaser or lessee shall be entitled to all money paid by the purchaser under the contract or agreement. n106

§ 78.05(g) Registration of Subdivisions.

§ 78.05(g)(1) Filing of Statement of Record.

The act allows a subdivision to be recorded by filing a statement of record with the secretary, or by meeting the requirements of the Act, and such rules and regulations as may be prescribed by the secretary in furtherance of the provisions of the Act. n107 The statement of record is only deemed effective to those lots specified in such statement. n108

§ 78.05(g)(2) Payment of Fees.

The Act mandates a payment not to exceed $1000 at the time of registration, in accordance with a schedule to be fixed by the secretary. n109 Such fees are to be used to cover the costs of rendering services consistent with the Act which are not to be considered administrative. n110

§ 78.05(g)(3) When Filing Deemed to Take Place.

Filing is deemed to take place upon the receipt of filing the statement of record and payment of the required fee. n111

§ 78.05(g)(4) Public Access to Information.

The information provided in, or filed with, the statement of record shall be made available to the public under regulations prescribed by the secretary. n112 Copies of such statements shall be furnished to every applicant at a reasonable charge to be determined by the secretary. n113

§ 78.05(h) Information Required in Statement of Record.

Under the Act, the statement of record, in the interest of informing and protecting the purchaser, shall contain information, and be accompanied by the specified documents, which include the name and address of each person having an interest in the lot or subdivision and the extent of such interest. n114 The statement shall also contain a legal description of the total area included in the lot or subdivision together with a map showing the division proposed, and dimensions of the lots to be covered, and their relation to existing streets and roads. n115

The Act also mandates that the statement include the condition of title to the land comprising the subdivision, including all encumbrances, deed restrictions, and applicable covenants; a statement of general terms and conditions, including the range of selling prices or rents at which it is proposed to dispose of the lots in the subdivision; and a statement of the

present condition of access to the subdivision, the existence of any unusual conditions relating to noise or safety which affect the subdivision and are known to the developer, the availability of sewage disposal facilities and other public utilities in the subdivision, the proximity in miles of the subdivision to nearby municipalities, the nature of any improvements to be installed by the developer, and the developer's estimated date of completion. n116

In the case of any subdivision against which there exists a blanket encumbrance, the Act requires a statement of the consequences for an individual purchaser of the developer's failure to fulfill obligations under the instrument or instruments creating the encumbrances and the steps, if any, taken to protect the purchaser in such eventuality. n117

According to the Act, a copy of its articles of incorporation with all amendments must be included if the developer is a corporation. n118 This includes copies of all instruments by which the trust is created or declared, if the developer is a trust, or copies of its articles of partnership or association and all other papers pertaining to its organization if the developer is a partnership, incorporated association, joint stock company, or any other form of organization. n119

Copies of the deed or other instrument establishing title to the subdivision in the developer or other person, and copies of any instrument creating any lien or encumbrance upon the title of developer or other person, or copies of the opinion or opinions of counsel in respect to the title to the subdivision in the developer or other person, or copies of a title insurance, must be included in the statement of record. n120

The statement of record, under the Act, must also include copies of all forms of conveyance to be used in selling or leasing lots to purchasers, copies of instruments creating easements or other restrictions, certified and uncertified financial statements of the developer which the Secretary deems necessary, and any other information, documents, or certifications which the Secretary reasonably believes is necessary or appropriate to protect the purchaser. n121

§ 78.05(i) Effective Date of Statements of Record and Amendments Thereto.

§ 78.05(i)(1) Thirtieth Day After Filing.

The effective date of filing the statement of record, or any amendment thereto, shall be thirty days after filing. n122 However, the Secretary has the discretion to set an earlier date, although the Secretary must take into consideration the public interest and protection of the purchaser. n123 If an amendment is filed after the original report, such report will be effective thirty days after the filing of the amendment unless the Secretary permits otherwise. n124 When a developer records additional lands, the subsequent statement may be consolidated with the earlier statement. n125 If there are any material changes in the original statement, they must be included in the consolidated statement. n126

§ 78.05(i)(2) Incomplete or Inaccurate Statements.

The Secretary has a reasonable time with which to notify the developer if the statement, on its face, appears materially inaccurate or incomplete. n127 However, the Secretary must notify the developer prior to the date the statement would otherwise become effective. n128 This notification will suspend the effective date of the statement or amendment until thirty days after the developer makes the required changes or corrections. n129 Upon receipt of such notification, the developer may request a hearing which will be held within twenty days of the receipt of such request by the Secretary. n130

§ 78.05(i)(3) Amendment of Statement of Record.

The developer is required to file an amendment to the statement if a change occurs which will have a material effect on any fact which is required, and contained, in the statement. n131 The Secretary has the discretion to suspend the statement until the amendment becomes effective. n132

§ 78.05(i)(4) Untrue Statement or Omission of Material Fact.

If there appears to be an untrue statement of a material fact or omission of a material fact, the Secretary may issue an order suspending the statement of record. n133 Prior to suspension, the Secretary must give notice, and an opportunity for a hearing within fifteen days after such notice. n134 When the statement has been appropriately amended, the order shall cease to be effective. n135

§ 78.05(i)(5) Power of Secretary to Examine.

Under the Act, the Secretary is also empowered to make an examination to determine if an order of suspension should be issued. n136 In making this examination, the Secretary or a designee is permitted access to, and may compel, the production of any relevant books or papers. n137 Failure to produce requested materials is sufficient grounds for issuing an order of suspension. n138

§ 78.05(i)(6) Service of Notice.

Any required notice is to be sent to, or served on the developer or the developer's agent. n139

§ 78.05(j) Information Required in Property Report; Use for Promotional Purposes.

The Act stipulates that the property report which is to be supplied to purchasers and lessees shall contain the information included in the statement of record and its amendments which the Secretary deems necessary. n140 To protect the purchaser, the property report must contain this warning: "READ THIS PROPERTY REPORT BEFORE SIGNING ANYTHING." This warning must occupy three vertical lines, be centered and printed in one half inch capital letters in red type with one quarter inch space between the lines. The report must also contain a section entitled: "Risks of Buying Land, Warnings." The Secretary may also require the report to contain additional relevant information which is not necessarily contained in the statement of record in the interest of the public, and to protect the purchaser. n141

Until the property report becomes effective, the Act does not permit its contents to be used for promotional purposes. n142 Once the report does become effective, its contents may be used for promotional purposes only if the report is used in its entirety. n143 Further, the Act stipulates that no portion of the report may be underscored, italicized, or printed in larger or bolder type unless the Secretary requires or permits it. n144

LEXIS: interstate land sales full disclosure act w/50 property report

§ 78.05(k) Certification of Substantially Equivalent State Law.

§ 78.05(k)(1) Criteria; Request by State.

The Secretary has the authority to certify a state whereby those who meet the certified state's regulation are relieved of the duty to also file under the federal provisions. n145 The Secretary may certify a state upon determination that the laws and regulations of the state which apply to the sale of lots or subdivisions require the seller or lessor to disclose information which is substantially equivalent to the disclosure requirement of the Act. n146 Further, the administration of the state's law and regulations must provide that such disclosure is accurate to the greatest degree that practicality permits. n147

If this determination is not made, the Secretary may still certify the state upon a determination that the state's laws and regulations provide sufficient protection for purchasers and lessees with respect to the matters for which disclosure is required under the Act. n148 The administration of the state's law and regulations must still provide that such disclosure is accurate to the greatest degree that practicality permits. n149

Any state which requests certification must agree to accept a property report covering land located in another certified state which is offered in the state requesting certification so long as the other certified state has approved the report. n150 Such report will be the only report required. n151

§ 78.05(k)(2) Filing of State Material for Purposes of Federal Requirements.

After a state has been certified within the provisions of the Act, the Secretary will accept for filing, and declare effective as the Federal statement of record and property report, such materials and documents which meet the state requirements. n152 A second filing with HUD is not necessary. n153

§ 78.05(k)(3) Failure by State to Meet Requirements.

If a state fails to meet the standards for certification as stipulated in this Act, the Secretary will notify the state in writing. n154 The writing will state the changes in law regulation and administration that are necessary to obtain certification. n155

§ 78.05(k)(4) Review of State Certification.

The Secretary is also under a duty to periodically review the laws and regulations, and their administration, of certified states. n156 Certification may be withdrawn upon a finding that such laws and regulations, and their administration, no longer meet the certification requirements of the Act. n157

§ 78.05(k)(5) State and Local Governmental Authorities Affected.

The Act should not be construed to prevent or limit the authority of any state or local government to enact or enforce its own regulations which do not conflict with the federal Act. n158

§ 78.05(l) Civil Liabilities.

§ 78.05(l)(1) Violations; Relief Recoverable.

The Act provides for strong enforcement provisions, particularly by allowing for stiff remedies against those who contain untrue material facts or omit material facts in their statement of record or property report. n159 The relief provisions are designed to assure that the statement of record and property report are prepared with extraordinary diligence. n160 A purchaser or lessee may bring an action at law or in equity against a developer or agent if the sale was made in violation of the Act. n161 The court may order damages, specific performance, or such other relief as it deems fair, equitable, and just. n162 To determine damages the court is free, but not limited to, consider the following: the contract price of the lot or leasehold, the amount the purchaser or lessee actually paid, the cost of any improvements to the lot, the fair market value of the lot or leasehold at the time relief is determined, and the fair market value of the lot or leasehold at the time such lot was purchased or leased. n163

§ 78.05(l)(2) Enforcement of Rights.

In addition to bringing suit for sale violations, the purchaser or lessee may bring an action at law or in equity for any violation of the Act. n164

§ 78.05(l)(3) Amounts Recoverable.

The amount recoverable in a suit under this Act may also include interest, court costs, and reasonable amounts for attorney's fees, independent appraiser's fees, and travel to and from the lot. n165

COMPUTER-ASSISTED RESEARCH

LEXIS: interstate land sales full disclosure act w/50 amount recoverable

§ 78.05(l)(4) Contribution.

Any person found financially liable in a suit brought under the Act may recover contribution from any person who would have been liable, if sued separately, to make the same payment. n166

§ 78.05(m) Review of Orders; Modifications of Findings; Stay.

Any person found in violation of the Act by an order or determination of the Secretary, after a hearing has been held, may appeal to the United States Court of Appeals by filing with the court within sixty days of such order or determination a written petition. n167 The petition may ask that the order or determination be modified or set aside in whole or in part. No objection to such request will be considered unless made by the court. The findings of the Secretary, as to the facts, if supported by substantial evidence, shall be conclusive. n168 The court may order additional evidence if it finds such evidence to be material. n169 The jurisdiction of the court is exclusive, and its judgment shall be considered final, subject to review by the Supreme Court of the United States upon certiori or certification as provided by section 1254 of Title 28. n170

The commencement of proceedings of this portion of the Act shall not operate as a stay of the Secretary's orders unless specifically ordered by the court. n171

§ 78.05(n) Statute of Limitations.

No action for violations of the Act, with respect to the sale or lease of a lot or subdivision, may be maintained more than three years after signing the contract for sale or lease. n172

No action for any other violation under the Act may be maintained more than three years after discovery of such violation, or after discovery should have been made by the exercise of reasonable diligence. n173

No action in law, or in equity, may be maintained unless brought within three years of signing the contract, notwithstanding delivery of the deed to the purchaser. n174

LEXIS: interstate land sales full disclosure act w/50 statute of limitations

§ 78.05(o) Waiver of Act.

Compliance with any provision of the Act may not be waived by any condition, stipulation, or provision which binds any person acquiring any lot in a subdivision. n175 The rights and remedies provided by the Act are to be considered in addition to all other rights and remedies which exist in law or equity. n176

§ 78.05(q) Investigations, Injunctions, and Prosecution.

§ 78.05(q)(1) Injunction or Restraining Order.

If it appears that a person is engaged, or about to be engaged, in any act which would constitute a violation of the Act, the Secretary has the discretion to bring an action in any district court of the United States to enjoin such practices. n177 Upon a proper showing, the court shall grant a permanent or temporary injunction without bond. n178 The Secretary may also submit such evidence to the Attorney General who has the discretion to institute appropriate criminal proceedings. n179

§ 78.05(q)(2) Investigations.

The Secretary also has discretion to make necessary investigations to determine whether any person has violated or is about to violate any provision of the Act. n180 The Secretary may require any person to file a written statement, under oath, as to all the relevant facts and circumstances. n181 The Secretary has further discretion to publish any information concerning violations, and to make any investigations to secure information which will serve as a basis for recommending further legislation consistent with the Act. n182

§ 78.05(q)(3) Oaths; Subpoena Power.

For purposes of any such investigation, or any proceeding under the Act, the Secretary or a designee is empowered to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, or other records deemed material to the inquiry. n183 The attendance of witnesses and production or records may be required from any place in the United States, or any state at the designated place of hearing. n184

§ 78.05(q)(4) Contempt.

During hearings and investigations consistent with the Act, cooperation with the Secretary is mandatory. n185 In the case of willful disobedience of a summons, or refusal to obey a subpoena, the Secretary may invoke assistance from any court of the United States within the relevant jurisdiction. n186 The court is authorized to issue orders requiring cooperation with the Secretary. n187 Those failing to obey such court orders may be held in contempt. n188

LEXIS: interstate land sales full disclosure act w/50 contempt

§ 78.05(r) Administration.

§ 78.05(r)(1) Delegation.

The authority to administer the Act lies with the Secretary of HUD. n189 The Secretary may delegate any functions, duties, or powers to any employees within HUD. n190

§ 78.05(r)(2) Hearings.

All hearings arising from the laws, rules, and regulations of the Act are required to be public. Appropriate records are to be kept, and orders issued after such hearings shall be based on those records. n191

§ 78.05(r)(3) Applicable Procedures.

The Secretary is required to conduct all actions under the Act in accordance with chapter 5 of Title 5. n192 Notice shall be given of any adverse action or final disposition. n193 Such notice and the entry of any order must be accompanied by

a written statement of supporting facts and legal authority. n194

§ 78.05(s) Unlawful Representations.

The filing of a statement of record is not to be construed as a presumption that the statement is true and accurate on its face. n195 Nor should it be presumed that the Secretary has passed judgment on the merits of, or given approval to, the subdivision. n196 However, it is unlawful to make, to any prospective purchaser, any representation which is contrary to the foregoing. n197

§ 78.05(t) Penalties for Violations.

The Act allows little tolerance for those who deliberately violate its provisions. n198 Any person who willfully violates any of the provisions of the Act, or the rule and regulations prescribed pursuant to the Act, or any person who willfully, in a statement of record filed under the Act, makes an untrue statement or willful omission of a material fact, is to be fined not more than $1,000 for each violation, except that the maximum penalty during any one year period shall not exceed $1,000,000, imprisonment for more than five years, or both. n199

§ 78.05(u) Rules, Regulations, and Orders.

The Act gives the Secretary the authority to make, issue, amend, and rescind such rules and regulations and such orders as deemed necessary. n200 The Secretary may also classify persons and matters within jurisdiction of the Act, and prescribe different requirements for different classes of people or matters. n201

§ 78.05(v) Jurisdiction.

The district courts of the United States, the United States courts of any territory, and the United States District Court for the District of Columbia have jurisdiction of offenses and violations surrounding the Act. n202 Any suit may be brought to enforce any liability or duty created under the Act. n203 The suit must be brought in the district where the defendant is found or is an inhabitant or transacts business, or in the district where the offer or sale took place. n204 Process may be served in any other district where the defendant is an inhabitant or wherever the defendant may be found. n205 Judgments and decrees regarding such matters are subject to review as provided in sections 1254 and 1291 of Title 28. n206 No costs may be brought against the Secretary in any proceeding under the Act in the United States Supreme Court or any other court. n207

§ 78.06 Federal Trade Commission Act.

[Go To Supp]

The Federal Trade Commission has also responded to problems in real estate transactions by coming forth with its own set of regulations. Section 5 of the Federal Trade Commission Act gives the FTC authority to prohibit unfair or deceptive practices in commerce. n209 The FTC is particularly concerned with certain practices employed by the real estate industry, including anti-competitive practices and improper tactics in the area of sales promotion. In one case, the FTC took action against one of the largest land developers in the country for using unfair, deceptive, and misleading practices. n210 The FTC secured a judgment totaling over $17 million in refunds and land exchanges. n211

CHAPTER 78 REGULATION OF TRANSACTIONS

9-78 Thompson on Real Property, Thomas Editions § 78.07

AUTHOR: Professor Richardson R. Lynn School of Law Pepperdine University

§ 78.07 The Securities Exchange Commission.

In response to the need for regulations regarding real estate, and the uncertainty surrounding the applicability of security laws to the sale of land, the SEC issued its own guidelines. Specifically, the SEC guidelines apply to the offering and sale of condominiums or units in real estate developments. n212 The SEC requires that certain condominium or other similar real estate offerings be registered as securities. n213 Any offering which involves "a contract, transaction or scheme whereby a person invests ... money in a common enterprise and is led to expect profits solely from the efforts of the promoter or a third party, ..." must be registered as a security. n214 Thus, the SEC's focus on the substantive nature of the transaction, which holds that "the expected return need not be solely from the efforts of others" allows some basis for reasoning that certain land sales lie within the scope of the SEC's regulatory power.

Once security laws are found to be applicable, certain advertising practices are prohibited. Prohibited practices include the dissemination of sales literature, brochures, or publicity concerning the land offered for sale. Further, after the filing of the registration statement but before its effective date, a written offer to sell need only be made via a statutory prospectus. n215

CHAPTER 78 REGULATION OF TRANSACTIONS

9-78 Thompson on Real Property, Thomas Editions § 78.08

AUTHOR: Professor Richardson R. Lynn School of Law Pepperdine University

§ 78.08 State Regulations.

[Go To Supp]

§ 78.08(a) Introduction.

Most states have adopted some sort of land sale regulations. Many require disclosure which is similar to, or stronger than the Federal Land Sales Full Disclosure Act. Some states with their own disclosure acts have been certified by the Secretary of HUD, and meeting their statutes are a sufficient alternative to registering with HUD. A few states have adopted the Uniform Land Sales Act. Other states require only that a real estate broker be licensed. Those states not specifically requiring disclosure must still meet federal disclosure requirements. A few states do not have specific land sale regulations, although certain real estate transactions may fall under their blue sky laws. Additionally, some states have specific regulations for planned communities, condominium sales, time shares, membership camping grounds, horizontal property, and disclosure requirements for psychologically impacted land.

§ 78.08(b) Disclosure.

§ 78.08(b)(1) Overview.

Many states have legislated their own specific land sale acts to deal with fraudulent land sale practices. Some of those states go so far as to prohibit transactions which are deemed unjust. Other states have not passed comprehensive acts, although they still have passed some disclosure regulations. The following is a compilation of states which have passed disclosure legislation.

§ 78.08(b)(2) Arizona.

In Arizona, an offer to sell or lease any subdivided land must be made by a licensed real estate broker. n216 The seller must also provide a statement of record, and deliver a deed in good form to convey marketable and merchantable title. n217 Permanent access to subdivided land is also required. n218 The purchaser is allowed seven days after signing a contract or agreement to rescind the transaction without cause, or six months if the purchaser has not inspected the property. n219 Any person who knowingly violates any provision of Arizona's regulation or omits or misstates a material fact in the statement of record is subject to felonious prosecution. n220

LEXIS: A.R.S. w/5 [relevant section]

§ 78.08(b)(3) California.

Before selling land in California, the owner must disclose a legal description of the land, statement as to the condition of land and title, and a statement of the terms and conditions on which the vendor intends to dispose of the land. n221 The owner must also include any provisions for public utilities and facilities, location of all airports within two miles, and indebtedness or possible liens on the property. n222 It is deemed unlawful to sell lots in a subdivision subject to a blanket encumbrance, unless the encumbrance is unconditionally released upon the purchaser's compliance with the terms and conditions of the agreement. n223 Upon meeting the Commissioner's requirements, the Commissioner will then issue a public report authorizing the sale of such lot. n224

COMPUTER-ASSISTED RESEARCH

LEXIS: BUS w/5 [relevant statute]

§ 78.08(b)(4) Colorado.

Any developer desiring to do business in Colorado must register with the Real Estate Commission. n225 The application must include any felony which the developer has been convicted of in the preceding ten years; evidence that the subdivision has been registered with the state in it which is located; if there is a blanket encumbrance, documentary evidence that any mortgage or deed of trust will release the lot from the blanket encumbrance; a true statement providing for legal access, sewage disposal, and public utilities; a true statement as to whether or not the land has been surveyed; and the required registration fee. n226

LEXIS: C.R.S. w/5 [relevant statute]

§ 78.08(b)(5) Florida.

Florida's Land Sales Practices legislation will be repealed on October 1, 1995, pursuant to § 11.61 of the Regulatory Sunset Act. n227

The legislative intent of Florida's land sales regulations is to balance the interests of encouraging the industry while at the same time protecting purchasers. n228 To sell land in Florida, the seller must file disclosure documents. n229 Registration, property reports, or other disclosure documents required by other states are acceptable, as are meeting the federal requirements. n230 If it appears that a person is in violation of any provision of the state regulations, the division may bring an action in circuit court to enjoin the violation and to enforce compliance with the regulations. n231 Upon a proper showing, injunctive relief or temporary restraining orders may be granted, and a receiver or conservator may be appointed without posting a bond. n232

LEXIS: F.S.A. w/5 [relevant statute]

§ 78.08(b)(6) Georgia.

Georgia has passed the Georgia Land Sales Act. n233 This act requires a registration statement to be made for non-exempt land which must include the name, address, and phone number of the subdivider; the total acreage in the subdivision including land held for future expansion; statements with respect to existing or contemplated improvements, including drainage control systems, streets, roads, sewage facilities, sidewalks, electrical services, telephone connections, water supply, gas supply, clubhouses, golf courses, and other recreational facilities; the provisions of any applicable zoning ordinances; and a statement of all existing taxes or assessments affecting the subdivided land. n234

A property report must also be provided to the purchaser. n235 Language substantially similar to the following is required in tenpoint type on the top two-thirds of the property report:

> UNLESS YOU RECEIVED THIS PROPERTY REPORT PRIOR TO OR AT THE TIME YOU ENTER INTO A CONTRACT, YOU MAY VOID THE CONTRACT BY WRITTEN NOTICE TO THE SELLER. IF YOU RECEIVED THE PROPERTY REPORT LESS THAN 48 HOURS PRIOR TO SIGNING A CONTRACT OR AGREEMENT YOU HAVE UNTIL MIDNIGHT OF THE SEVENTH DAY FOLLOWING THE SIGNING OF SUCH CONTRACT OR AGREEMENT TO REVOKE YOUR CONTRACT BY WRITTEN NOTICE TO THE SELLER. n236

The following language must be overprinted in light red type over the paragraph cited above, in the style used to mark sample documents, and in letters one-half inch in size with one-half inch space between the lines:

**"PURCHASER
SHOULD READ
THIS DOCUMENT
BEFORE SIGNING
ANYTHING."**

The following must appear on the cover page in boldface print or capital type:

> THIS LAND HAS BEEN REGISTERED WITH THE GEORGIA REAL ESTATE COMMISSION. THE GEORGIA REAL ESTATE COMMISSION, BY ACCEPTING REGISTRATION, DOES NOT IN ANY WAY ENDORSE OR RECOMMEND THE PURCHASE OF ANY OF THIS LAND. n237

LEXIS: [Ill.] subdivi! w/10 land or property w/50 register!

§ 78.08(b)(8) Michigan.

Michigan's regulations regarding the disposition of lots, parcels, units, or interests in lands within real estate subdivisions are codified under the Land Sales Act. n242 The authority to enforce land sales regulations which was once under the Department of Licensing and Regulations is now under the Department of Commerce. n243

The Act does not permit offering any land for sale within the state or any land offered outside the state to anyone within the state prior to registering in accordance with the Act. n244 An application for registration must contain an irrevocable appointment of the department to receive service of any legal process in any civil proceeding arising under the act; the applicant's occupation for the past five years and of each agent with a 10% or greater interest; a legal description of the property based on a professional survey; a statement as to the condition of the title which includes encumbrances, deed restrictions, and covenants; proof of marketable title; and a statement of the present condition of access to the subdivision, the availability of sewage disposal facilities and other public utilities, and the proximity in miles to nearby municipalities. n245 Additionally, a narrative description of the promotional plan for disposition of the land including copies of all advertising materials must be included. n246 The administrative department may require additional materials they deem fit. n247

A current property report must be delivered to the purchaser, and the purchaser is permitted a reasonable time to examine such report. n248 Further, each contract or agreement for the disposition of a lot, parcel, unit, or, interest in a subdivision shall prominently contain upon its face the following notice printed in at least eight point type which shall be at least four point bold type larger than the body of the document:

NOTICE TO PURCHASER

> YOU ARE ENTITLED TO CANCEL THIS AGREEMENT AT ANY TIME IF YOU HAVE NOT RECEIVED THE PROPERTY REPORT IN ADVANCE OF YOUR SIGNING THIS AGREEMENT. IN ADDITION, YOU ARE ENTITLED TO CANCEL THIS AGREEMENT FOR ANY REASON WITHIN FIVE DAYS FROM THE DAY YOU ACTUALLY RECEIVE A LEGIBLE COPY OF THIS DOCUMENT. n249

COMPUTER-ASSISTED RESEARCH

LEXIS: MCLA w/5 [relevant statute]

§ 78.08(b)(9) Minnesota.

Minnesota's legislation regarding the sale of subdivided land is administered by the commissioner of commerce. n250 At least twenty days prior to sale, the subdivider must submit to the commissioner the subdivider's name and address; location and legal description of the land; a title opinion or title insurance; a copy of each instrument which will be delivered to the purchaser to evidence the purchaser's interest in the subdivided land and a copy of each contract or other agreement that the purchaser will be required to sign; and a list of fees the purchaser will be required to pay for any amenities or memberships in groups. n251 Furthermore, a public offering statement must disclose fully and accurately the subdivided land being offered, and must make known to prospective purchasers all unusual and material circumstances or features affecting the subdivided land. n252

Advertisements are also strictly regulated, and many specific acts are prohibited, including advertisements that are considered deceptive or misleading; that offer travel, accommodations, gifts, meals, or entertainment to encourage prospective purchasers to visit; that describe offers or inducements to purchase as "prizes" or "awards;" that refer to

purchasers as "specially selected" or "winners;" and that contain the words "free" or "without obligation," unless the offer is unequivocally without condition. n253

COMPUTER-ASSISTED RESEARCH

LEXIS: [Minn.] subdivide! w/10 land w/50 sale or sell!

§ 78.08(b)(10) Nebraska.

Nebraska's regulations are known as the Nebraska Real Estate License Act. n254 It is unlawful for any person other than a licensed real estate broker to offer or sell any lot in a subdivision. n255 In addition to heavy regulations regarding licensing of brokers, there are also disclosure requirements designed to protect the purchaser. n256

Prior to the time when land in a subdivision is offered for sale, the broker must apply for a subdivision certificate to the commission. n257 The application must include a legal description of the area to be offered, including maps and recorded plats; the name and address of the legal owner, the applicant, and, if the applicant is a partnership, the names and addresses of the partners; a certified, audited financial statement fully and fairly disclosing the current financial condition of the developer; copies of the instruments by which the land was acquired; and a true statement of the terms and conditions on which it is intended to dispose of the real estate together with copies of any contracts to be used, which contracts shall contain a provision entitling the purchaser to an unconditional right of refund of all payments made under the contract if the purchaser has not seen the land prior to signing, and if after inspection, if made not less than four months after signing, the purchaser rescinds within fourteen days. n258 If the land is located outside the state, a provision must be included to limit the right of recovery to foreclosure without a deficiency judgment against the purchaser. n259 A statement of zoning and other governmental regulations must additionally be disclosed, and a copy of an offering statement must be included which sets forth the material facts regarding the land to be sold. n260

The commission is given the authority to investigate all relevant matters, and no application shall be approved by the commission unless the subdivider offers satisfactory proof of the ability to provide promised public improvements such as, but not limited to, water, sewer, gas, and streets. n261 Obtaining a certificate of registration constitutes sufficient contact with the state for the exercise of personal jurisdiction over such applicant in any action arising out of the applicant's activity in the state. n262 The Attorney General may maintain an action in the name of the state when, in the judgment of the commission, a person has engaged or is about to engage in violations of the Act. n263

LEXIS: nebraska real estate license act w/5 [relevant statute]

§ 78.08(b)(11) Nevada.

For the sale of subdivided land in Nevada the developer is exempt from filing a statement of record if such statement has been registered with HUD in compliance with the federal Act. n264 Aside from such statement, the developer must meet all other state requirements including applying for a license to sell any subdivision or lot. n265

Such application shall include the name, principal occupation, and address of every officer, partner, director, owner, associate, or trustee of the subdivider, and a legal description of the area of the lands. n266 Further, true statements must be supplied as to the condition of title including any encumbrances; terms and conditions on which the land is to be disposed; provisions, if any, for public utilities; for what purposes the land is to be offered; the maximum depth of fill used, or proposed to be used on each lot which must also include the soil conditions supported by engineering reports; the amount of indebtedness which is a lien upon the subdivision; and any agricultural activities in the area which may adversely affect residents of the subdivision including odors, cultivation, related dust, agricultural burning, application

of pesticides, or irrigation and drainage. n267 Further, purchasers must be disclosed as to public services, and all advertising must be approved. n268

The division must fully investigate each application before issuing a license, and has the authority to deny such licensing for non-compliance, fraud, or deceit. n269 The division may also order cease and desist orders. n270

COMPUTER-ASSISTED RESEARCH

LEXIS: NRS w/5 [relevant statute]

§ 78.08(b)(12) New Hampshire.

New Hampshire's regulations fall under its Land Sales Full Disclosure Act. n271 Under the provisions of the Act, a subdivider must apply for registration. n272 The application must include all required documents and information, and an irrevocable appointment of the agency to receive service of any lawful process. n273 Required information in the application includes information regarding public utilities, encumbrances, relevant zoning regulations, a statement as to provisions for access, a description of the promotional plan, the proposed offering statement, and copies of the instruments which will be delivered to the purchaser to evidence interest in the subdivided land, and of contracts and other documents the purchaser will be required to sign, in addition to any other information deemed required by the agency. n274 The public offering statement must also fully and fairly disclose relevant information to the purchaser. n275

Upon failing to conform with any provision of the Act, the agency may order cease and desist orders, and willful violations can result in prosecution for a class B felony. n276

§ 78.08(b)(13) New Jersey.

New Jersey's predominant land sales regulation can also be found in the state's Land Sales Full Disclosure Act. The Act is administered by the Bureau of Subdivided Land Sales Control. n277 Under the Act, registration fees range from $500 to $3,000. n278 The application for registration must include naming the New Jersey brokers who are authorized representatives of the subdivider, accompanied by the appropriate fee, and a statement of record. n279 The bureau has 60 days to approve or decline registration. n280 During this period, the bureau will initiate an examination to determine that the subdivider can convey or cause to be conveyed the interest in the subdivided land being offered; that there are reasonable assurances that all proposed improvements will be completed as represented; the advertising material and the general promotional plan are not false, misleading, or discriminatory and comply with the standard prescribed by the commission in its rules and afford full and fair disclosure; that vacation certificates or similar visitor campaigns contain a full disclosure of pertinent information; that the subdivider and any agents have not been convicted of a crime or civil defense regarding land dispositions; and that the public offering statement of this act have been satisfied. n281

The statement of record, which is available to the public, must contain information including the name and address of each person having an interest in the property; a legal description of, and total area included in, the subdivision, and a statement of the topography thereof; a statement as to the condition of title including all encumbrances and restrictions; a statement as to the present condition of access to the subdivision, the existence of any unusual conditions relating to noise and safety, the availability of sewage disposal facilities and other public utilities; a statement by a licensed civil engineer that the overall plan of the subdivision is adequate to prevent damage to property by reason of flooding, erosion, and other natural occurrences which are usual or predictable for the area. n282

Additionally, the statement must include, if there exists a blanket encumbrance, a statement of the consequences of the individual purchaser of a failure, by the persons bound to fulfill the obligation, and the steps taken, if any, to prevent such eventuality; copies of the deed or instrument establishing title to the subdivision, copies of all forms of conveyance

to be used in selling or leasing the lot, and any other information the commission requires. n283

§ 78.08(b)(14) New Mexico.

New Mexico regulates the sale of subdivisions under the Land Subdivision Act. Specific county regulations regarding the sale of subdivisions fall within the New Mexico Subdivision Act. Both Acts provide for subdivision approval, disclosure, advertising standards, road development, schedule of compliance, and penalties for violations. n284

COMPUTER-ASSISTED RESEARCH

LEXIS: [N.M.] subdivision act w/5 [relevant statute]

§ 78.08(b)(15) New York.

Before a subdivider may sell, lease, or offer for sale or lease to the public, the broker or agent must file in the department of state an offering statement, business and personal data regarding the subdivider, a complete description of the land offered, including a certified survey map, and a title search including liens, encumbrances, and covenants. n285

Advertising is also regulated, and must contain a reference that the offering statement exists and is on file with the department. n286

The offering statement must be received by the purchaser prior to consummation of the sale or lease, and must include the name, address, and business background of the subdivider, the subdivider's financial statement, a description of the subdivision, material terms of any liens, encumbrances, or restrictions, information concerning improvements such as access and public utilities in existence, and the estimated cost and date of completion. n287 The department may also require any other additional information it deems necessary. n288

COMPUTER-ASSISTED RESEARCH

LEXIS: [N.Y.] prop! w/s law w/5 337

§ 78.08(b)(16) North Dakota.

North Dakota regulates property transactions through its Subdivided Lands Disposition Act. n289 Unless the subdivided land is exempt from the act, it is unlawful to offer or dispose of an interest in land without registering the subdivided land, and delivering a public offering statement to the purchaser. n290 The purchaser must be allowed a reasonable time to examine the public offering statement prior to disposition of the offered land. n291

The application for registration must include an irrevocable appointment of the commission to receive legal process; a legal description of the land with a map which shows the land's relation to streets, roads, waterways, schools, churches, shopping centers, public transportation facilities, and other off-site improvements; any adverse judgments against the applicant respecting land dispositions from other jurisdictions, the applicant's principal occupation for the past five years; the condition of title of the land, including any encumbrances; copies of the instruments that will be delivered to the purchaser to evidence interest and of the contracts and other documents which will be signed; information concerning blanket encumbrances and their consequences, liens, restrictions, other encumbrances, and applicable zoning information; a statement of provisions for physical access to the land; a narrative description of the promotional

plan; the proposed offering statement; and any financial statements or other information which the commission may require. n292

The public offering statement must accurately disclose the physical characteristics of the land, and all unusual and material features of the land. n293

The commission has the authority to issue cease and desist orders, and may revoke registration for failure to comply with such orders. n294 Civil remedies are also available, and a purchaser may rescind within five years for certain violations. n295

LEXIS: NDCC w/5 [relevant statute]

§ 78.08(b)(17) Oklahoma.

Oklahoma's code regarding land sales is known as the Oklahoma Subdivided Land Sales Code. The Code requires registration and delivery of a public offering statement to the purchaser. n296

The application for registration must contain the name, address, and occupation of the subdivider and agents thereof; whether the subdivider and any agents have been disciplined, debarred, censured, suspended, or convicted in connection with any land sales or securities sales dealing; a copy of any statements filed with other jurisdictions or with the Federal Land Sales Full Disclosure Act; a legal description of the land and the recorded plat thereof; a satisfactory statement as to the condition of title including all encumbrances, liens, restrictions, and covenants; copies of the instruments by which the subdivider acquired the land; copies of the instruments which will evidence the purchasers interest in the land and all appropriate contracts and agreements that will be required; a statement of compliance with any zoning regulations; a statement as to provisions for access to the subdivision, sewage disposal, and other public utilities, the proximity in miles to nearby municipalities, the availability and scope of fire and police protection, and the location of schools; a narrative description of the promotional plan to be used; three copies of the public offering statement; and any other information the administrator may require. n297

The public offering must disclose fully and accurately all material circumstances of features which affect the subdivided lands or would be a material consideration in making the purchasing decision. n298 The public offering statement may not be used for any promotional purposes before registration, and afterward it may only be used in its entirety. n299

Advertising is also regulated by the Act. n300

§ 78.08(b)(18) Oregon.

Prior to negotiating within the state for the sale or lease of subdivided lands located outside the state, or prior to the sale or lease of any subdivided or series partitioned lands located within the state, the subdivider, partitioner, or agent must by a "Notice of Intention" notify the commissioner in writing of such intention, and include required information as the legislation dictates. n301 The commissioner may also require additional information. Further, the commissioner is authorized to make an examination of the land. n302 Before land may be sold by means of a land sale contract, a collection escrow must be established within the state with a person authorized to receive escrow under the laws of Oregon. n303 As required by legislation, additional information and documents may also be required to be deposited into escrow. n304 A purchaser has three days to cancel any contract for the sale or lease of subdivided or partitioned land. n305

COMPUTER-ASSISTED RESEARCH

LEXIS: [Ore.] sale or lease w/20 subdivi! w/20 land or property or real estate

§ 78.08(b)(19) Virginia.

Virginia enacted the Subdivided Land Sales Act of 1978. n306 Under the provisions of the Act, it is unlawful for any developer or agent to offer or dispose of land without first filing a notice of intention to offer or dispose of real property with the Virginia Real Estate Board. n307 Notice shall include an irrevocable appointment of the Board to receive service of any relevant lawful process; a legal description of the lots offered together with a plat showing the division made, the dimensions of the lots, and the relationship of lots to existing streets, roads, and other off-site improvements; the name and address of each principal, officer, partner, or trustee of the developer, along with a list of any violations, bankruptcy, or disciplinary actions for the preceding five years; and a copy of the developer's effective HUD Property Report, certified as such by the developer, if it has been filed in compliance with the registration requirements of the Interstate Land Sales Full Disclosure Act. n308

The Act makes it unlawful to sell or lease lots in a subdivision that is subject to a blanket encumbrance, unless the blanket encumbrance or effective supplemental agreement contains a release provision permitting legal title to individual lots to be obtained free and clear of the blanket encumbrance. n309

The Board may issue cease and desist orders or bring an action in the appropriate circuit court for violations of the Act. n310

§ 78.08(b)(20) Washington.

Under Washington's Land Development Act, unless exempt, no person may offer or dispose of any interest in a development located within or without the state, prior to the time the development is registered in accordance with the Act. n311 Furthermore, any contract or agreement to purchase any interest is void at the option of the purchaser if the purchaser has not received a public offering statement in advance of signing. n312

The application for registration must include all required documents and information including, but not limited to, an irrevocable appointment of the director to receive process for related legal proceedings; a legal description of the offered land and its relation to existing streets, roads, and other off-site improvements; the states or jurisdictions where similar filings have occurred, and whether any adverse order, judgment, or decree has been entered in connection with land development; the name and address of all persons holding an interest of at least five percent; a statement as to provisions for access, sewage, and public utilities; a statement as to the condition of title including easements of record, encumbrances, liens of record, blanket encumbrances, and the existence of partial release clauses; copies of instruments which will be delivered to the purchaser to evidence interest, and copies of all contracts and agreements which must be signed; a statement as to applicable zoning ordinances; a narrative description of the promotional plan for the disposition of the development, together with copies of all advertising materials prepared for public distribution; a statement of any hazard on or around the development; the proposed public offering statement; and any other required information.

The proposed public offering statement must include the name and principal address of the developer; a general description of the development; the significant terms of any encumbrances, easements, liens, or restrictions; a statement of the use for which the property is offered, information concerning improvements, their estimated cost, means of financing, date of completion, and responsibility for construction and maintenance; a statement as to hazards on or around the development; and any other required information. n313

The director may issue cease and desist orders for violations of the Act, or in the event it appears a violation is about to occur. n314 Upon proper showing, injunctive relief or temporary restraining orders may be granted, and a receiver or

conservator may be appointed. n315 Legal remedies are also available. n316

§ 78.08(c) Out-of-State Regulation.

§ 78.08(c)(1) Overview.

In addition to general licensing or disclosure requirements, the following states have enacted specific regulations pertaining to out-of-state land transactions.

§ 78.08(c)(2) California.

Out-of-state land promotions are regulated through section 10249 of Section 8 of the California Business and Professional Code. n317 Before such land is offered for sale, the owner must apply for a permit from the Real Estate Commissioner. n318 To receive a permit, the owner must disclose a legal description of the land, a statement as to the condition of land and title, and a statement of the terms and conditions on which the vendor intends to dispose of the land. n319 Additionally, the owner must pay the maximum reimbursement rate per mile authorized for an employee of the state using a privately owned automobile on official state business to aid the prospective purchaser to personally inspect the land. n320 The owner must also include any provisions for public utilities and facilities, location of all airports within two miles, and indebtedness or possible liens on the property. n321 It is deemed unlawful to sell lots in a subdivision subject to a blanket encumbrance, unless the encumbrance is unconditionally released upon the purchaser's compliance with the terms and conditions of the agreement. n322 Upon meeting the Commissioner's requirements, the Commissioner will then issue a public report authorizing the sale of such lots. n323

LEXIS: [Cal.] out of state w/20 land w/50 transaction or promotion or sale

§ 78.08(c)(3) Connecticut.

Out-of-state developers are exempt from Connecticut's regulations if they have complied with the federal Act. n324 Under Connecticut's land sales regulations, an out-of-state developer must appoint the secretary of state to receive service of process; submit documents, promotional plans, and advertising materials to the real estate commission; submit to an investigation by the commission prior to obtaining a license; and pay the appropriate fee. n325

§ 78.08(c)(4) Delaware.

No subdivision, lot, parcel, unit, or interest in any subdivision located in whole, or in part, outside of the state may be promoted, offered, or disposed of within the state until such person has appointed the Delaware Secretary of State to receive service of process, submitted an application with the commission which includes a property report, prospectus, or any offering statement which the commission deems necessary, submitted a license application, and paid a filing fee of $100 for each subdivision or portion thereof to be offered or disposed of. n326 The commission is authorized to make appropriate investigations. n327 Further, no promotions or advertisements are permitted until the commission inspects, approves, or otherwise passes on the offered land. n328

§ 78.08(c)(5) Idaho.

Idaho's Subdivided Land Disposition Act is specific legislation geared to the sale or disposition of land located outside

the state. n329 No land, unless exempt, may be offered for sale within the state prior to registering within the provisions of the act, and providing a current offering statement to the purchaser. n330 The statement must include the name and address of the subdivider; a general description of the land; a statement for the use of which the land is offered; the significant terms of any encumbrances, easements, liens, and restrictions; information regarding streets, water supply, levees, drainage control systems, irrigation systems, sewage disposal facilities, customary utilities; and the estimated cost, date of completion, and responsibility for construction and maintenance of existing and proposed improvements. n331 The commission has the authority to make inquiries and examinations to determine that the conveyer has the power to convey, proposed improvements will be as represented, advertising materials are not false and misleading, the subdividers have not been convicted of crimes involving land disputes, and that there is no evidence which would reasonably lead the commissioner to believe the subdivider is contemplating a fraudulent or misleading sales promotion. n332 The commission may issue cease and desist orders in appropriate circumstances. n333

COMPUTER-ASSISTED RESEARCH

LEXIS: [Idaho] subdivided land disposition

§ 78.08(c)(6) Iowa.

Iowa has specific legislation in respect to sales of subdivided land outside of Iowa. n334 To sell land in Iowa, a subdivider must apply with the real estate commission and include an offering statement. n335 No business may take place until the application is accepted. n336 Unless the land offered qualifies as an exemption, the developer must additionally meet the requirements of the Federal Land Sales Full Disclosure Act. n337 Civil as well as criminal penalties may be imposed for violations. n338

No person may sell land inside or outside of Iowa, in the capacity of a real estate broker without first obtaining a real estate broker's license. n339

§ 78.08(c)(7) Montana.

Montana has bifurcated regulation in this area. Subdivision regulation is classified as either "out-of-state sales of in-state subdivisions" or "in-state sales of out-of-state subdivisions." n340

Prior to selling or leasing in-state subdivisions out-of-state, the owner must notify the board in writing of that intention. n341 The notice shall contain the name and address of the owner and subdivider; a legal description of the area of lands including a map showing the layout proposed and relation to existing streets; a true statement to the existence of title including any encumbrances; a true statement of the provision for legal access, sewage disposal, and public utilities; and copies of any advertising, information, promotional brochures, or similar materials which may cause or induce purchase of the property. n342 A filing fee of $50 must accompany the notice of intent. n343 If the board decides more information is necessary, it may require an additional questionnaire to be filed with an additional fee attached of $100. n344

To protect purchasers, a proper release must be supplied for any blanket encumbrances, and a bond in the amount of $2500 must be furnished to the state. n345 Willful violations are punishable as misdemeanors. n346

Legislation regarding in-state sales of out-of-state land may be cited as the Foreign Land Sales Act. Under the Act, the board may intervene in all suits regarding subdivided land. n347 The board must cooperate with other states to establish uniform filing procedures, public offering statements, advertising standards, and common administrative practices. n348 The board may make necessary public or private investigations within or outside the state to determine if a person has violated or is about to violate any rule under the Act, and upon its own motion may administer necessary oaths, affirmations, and subpoenas. n349

Unless the land qualifies as an exemption, no offer to dispose such land may be made until the land is registered. n350 The application for registration must contain a legal description of the property with a map showing its relation to roads and off-site improvements; a statement as to the condition of title including any encumbrances; copies of the instruments which will be delivered to the purchaser to evidence the purchaser's interest in the land, and of the contracts which will be signed; if there is a lien or encumbrance, a statement of the consequences for a purchaser for failure to discharge the lien, and the steps taken to protect the purchaser in case of this eventuality; a statement of zoning and other regulations which affect the land; and a statement of existing provisions for access, sewage disposal, and other public utilities. n351

The application must also include an irrevocable appointment of the department to receive service of any lawful process in any relevant non-criminal proceeding, a narrative description of the promotional plan for the disposition of the land, together with copies of all advertising materials, the proposed public offering statement, and any other information, including a financial statement which the board requires for the protection of purchasers. n352

The public offering statement must include a statement for the use which the property is offered, and information regarding, but not limited to, improvements including streets, water supply, levees, drainage control systems, irrigation systems, sewage disposal facilities, and customary utilities, and the estimated cost, date of completion, and responsibility for its construction and maintenance. n353

Advertising is also regulated. n354 Additionally, a bond of not less than $50,000 must be posted. n355 The board may also issue cease and desist orders for the prevention of unlawful activities. n356 In addition to civil remedies and injunctive relief, one who willfully violates the law may be extradited, fined not less than $1,000 nor more than $5,000, or may be imprisoned for no more than two years, or both. n357

§ 78.08(c)(8) Rhode Island.

Rhode Island has adopted specific legislation for out-of-state real estate sales and dispositions. Before any person or broker may advertise, offer, or dispose of any subdivided land within the state, the person must submit such particulars as the department may require including, but not limited to, a prospectus, property report, or offering statement embodying all the terms relative to the offering and disposition; a detailed statement of intended and proposed advertising and sale methods and techniques; a complete license application; and a filing fee. n358 Further, the director of business regulation must be appointed in writing to receive legal process. n359 Any broker, real estate salesperson, or developer who violates any provision of this chapter will be guilty of a misdemeanor, and in addition to any other penalties imposed by law, have his or her real estate license suspended or revoked. n360

§ 78.08(c)(9) Wisconsin.

Under Wisconsin legislation, offerings and sales of out-of-state land require meeting the state's disclosure requirements, and submitting a conforming property report. n361

§ 78.08(d) Uniform Land Sales Practices Act.

§ 78.08(d)(1) Overview.

The following states have adopted the Uniform Land Sales Practices Act.

§ 78.08(d)(2) Alaska.

Alaska has adopted the Uniform Land Sales Practices Act in addition to incorporating some provisions of the Federal Land Sales Full Disclosure Act. n362 A seller of land in Alaska is required to disclose the access of existing streets or

roads; liens or encumbrances; access to sewage disposal, water, and other public utilities; and a current financial statement for the protection of the purchaser. n363 An inquiry is also made to determine that the offeror has the power to convey. n364 Any out-of-state real estate broker must be licensed. n365 To sell land in Alaska, an out-of-state developer must also appoint a representative within the state to receive service of process for legal proceedings. n366

LEXIS: [Alaska] uniform land sales or 34.55

§ 78.08(d)(3) Hawaii.

Hawaii has enacted the Uniform Land Sales Practices Act. Under Hawaii's legislation, no purchaser may offer land for sale without first registering such land with the commissioner of securities unless the land qualifies as one of the exemptions. n367 The purchaser must receive a current public offering statement which must stipulate all unusual and material circumstances or features affecting the subdivided land. n368 The statement must also include information concerning improvements including streets, water supply, levees, drainage control systems, irrigation systems, sewage disposal facilities, customary utilities, and the estimated cost and date of completion, and responsibility for construction and maintenance of existing and proposed improvements. n369 Additional information is also required by the director to ensure full disclosure including zoning regulations, and a seven day period to rescind the contract. n370 If the administrative director finds violations, the director may issue a cease and desist order. n371 Willful violations are punishable by both civil and criminal penalties. n372

§ 78.08(d)(4) Kansas.

Under Kansas' Uniform Land Sales Practices Act, a developer must apply for registration with the real estate commission. n373 Disclosure of material facts concerning the land must be included in a required public offering statement. n374 Required information includes information concerning improvements such as streets, water supply, levees, drainage control systems, irrigation systems, sewage disposal facilities, customary utilities, and the estimated cost and date of completion, and responsibility for construction and maintenance of existing and proposed improvements. n375 The commissioner may issue cease and desist orders for violations of the Act, or for fraudulent or misleading advertisement practices. n376 Willful violations are punishable by both civil and criminal penalties including not less than one thousand dollars, or double the amount of gain from the transaction, whichever is larger, but not to exceed fifty thousand dollars. n377 A violator may also be imprisoned for up to three years. n378

COMPUTER-ASSISTED RESEARCH

LEXIS: [Kan.] uniform land sales

§ 78.08(d)(5) South Carolina.

South Carolina has passed the Uniform Land Sales Practices Act. According to South Carolina's Act, no person may offer or sell land, unless exempt under the provisions of the Act, prior to registering with the South Carolina Real Estate Commissioner, and delivering a public offering statement to the purchaser. n379 The application, aside from requiring documentation and disclosure as to title, easements, restrictions, encumbrances, other covenants, zoning regulations, provisions for access and public utilities, and a narrative description of the promotional plan, also requires an irrevocable appointment of the real estate commissioner to receive service of lawful process. n380

The public offering statement must disclose fully and accurately the physical characteristics of the subdivided land, and make known to purchasers all unusual and material circumstances or features affecting the land. n381

The commissioner may issue cease and desist orders, and one who willfully violates any provision of this Act may be found guilty of a misdemeanor, and may be fined not less than $1,000, or double the amount of gain from the transaction but not more than $50,000. n382

COMPUTER-ASSISTED RESEARCH

LEXIS: [S.C.] uniform land sales

§ 78.08(d)(6) Utah.

In 1973, Utah adopted the Uniform Land Sales Practices Act. n383 The Act is administered by the Division of Real Estate of the Department of Commerce. n384 Unless a subdivision falls under one of the exemptions of the Act, no person may offer or dispose of such land located or offered in the state prior to registering the subdivision in accordance with the Act. n385 However, the division may grant a temporary permit allowing the developer to begin a sales program while the registration is in process. n386

Any contract or agreement for the disposition of a subdivision may be rescinded by the purchaser without cause by midnight of the fifth calendar day after the execution of the contract or agreement. n387 This right may not be waived. The contract or agreement must state in boldface type on the signature page above all signatures:

> YOU HAVE THE OPTION TO CANCEL YOUR CONTRACT OR AGREEMENT OF DISPOSITION BY NOTICE TO THE SELLER UNTIL MIDNIGHT OF THE FIFTH CALENDAR DAY FOLLOWING THE SIGNING OF THE CONTRACT OR AGREEMENT. WRITTEN NOTICE OF CANCELLATION MUST BE PERSONALLY DELIVERED OR SENT BY CERTIFIED MAIL, POSTMARKED BY MIDNIGHT OF THE FIFTH CALENDAR DAY FOLLOWING THE SIGNING OF THE CONTRACT OF THE AGREEMENT, TO THE SELLER AT: (address of the seller). n388

Furthermore, no person may dispose of any interest in subdivided land without delivering to the purchaser an effective public offering statement. n389 The statement must disclose fully and accurately the physical characteristics of the subdivided lands offered, and must make known to prospective purchasers all unusual circumstances or features affecting the subdivided lands. n390 The proposed public offering statement must include all specific information and documentation required by the terms of the Act, and any other information which the division may require. n391

For violations of the Act, the division may issue cease and desist orders, revoke registration, or suspend or revoke the subdivider's real estate license. n392 Willful violations are subject to criminal penalties of not less than $1,000 or double the amount of the gain from the transaction, whichever is more, but not to exceed $50,000, two years imprisonment, or both. n393 Civil remedies are also available. n394

§ 78.08(f) Blue Sky Laws.

§ 78.08(f)(1) Overview.

Blue sky laws are a popular name for state statutes which provide for the regulation and supervision of securities offerings and sales. They are designed to protect consumers from investing in fraudulent companies, and to stop the sale of such stock in fly-by-night concerns, visionary oil wells, distant gold mines, and other fraudulent exploits. n431 A statute is called a "blue sky law" because it pertains to speculative schemes which have no more basis than so many feet of blue sky. n432 The following is a compilation of some states that regulate land transactions primarily through blue sky laws.

§ 78.08(f)(2) Missouri.

Any contract for any deferred payment sale of any interest in out-of-state real estate falls within the state's securities regulation. n433 A securities broker-dealer must be registered with the state. The land to be offered or sold must also be registered with the Missouri secretary of state prior to offering or selling the land. n434 The prospectus and other materials are subject to filing requirements, and investigation are made as necessary. n435

COMPUTER-ASSISTED RESEARCH

§ 78.08(g) Compliance with Other State Regulation.

§ 78.08(g)(1) Overview.

Although a state may not have specific legislation regarding an out-of-state land transaction, they may require compliance with the regulations of the state where the land is located. The following is Puerto Rico's compliance requirement.

§ 78.08(g)(2) Puerto Rico.

Under Puerto Rico's legislation which is known as "An Act To Regulate the Sale on the Island of Real Estate Located Outside Puerto Rico," any person who offers for sale in Puerto Rico any land located outside Puerto Rico must comply with the laws, regulations, and orders of the jurisdiction of where the land is located. n440 Willful violations are punishable as misdemeanors. n441 As such, the violator may be fined not less than $100 nor more than $5,000, be jailed for time of not less than one month nor more than five years, or both. n442 It is also unlawful to use false, exaggerated, or misleading information in advertising materials, and violators are subject to misdemeanor prosecution. n443

§ 78.08(h) Planned Communities.

§ 78.08(h)(1) Overview.

Planned communities are regulated by laws which deal with specific acreage to be developed under a single plan. They usually contain one or more residential clusters, and/or one or more public, quasi-public, commercial, or industrial areas. Planned communities are subject to municipal zoning regulations enacted pursuant to the conventional zoning enabling act of the state. The following is a brief overview of Oregon's regulations regarding planned communities.

§ 78.08(h)(2) Oregon.

Oregon has substantial regulations regarding planned communities. The creation of planned communities are regulated, and many of the laws affecting subdivisions are applied to planned communities. n444 The developer's control of administrative associations, homeowner associations, and management of planned communities are also regulated under this legislation. n445

§ 78.08(i) Condominium Regulation.

§ 78.08(i)(1) Overview.

The following states, in addition to other regulations regarding the sale of land, have substantial legislation with respect to condominium transactions. Many have adopted the Uniform Condominium Act.

§ 78.08(i)(2) Alabama.

§ 78.08(j) Time Shares.

§ 78.08(j)(1) Overview.

Some states also regulate time shares. The following is a brief overview of such regulations.

§ 78.08(j)(2) California.

California's "Qualified Resort Vacation Club" is deemed a time share project under § 11003.5. n465 To sell a time share in California, the owner must qualify for a permit with the Real Estate Commissioner, and follow applicable laws and regulations. n466

§ 78.08(j)(3) Georgia.

Georgia has specific legislation dealing with time shares. The General Provisions include recording transfers and encumbrances, and the application of zoning and other local codes. n467 Annual reports must be filed by exchange companies and multilocation developers, and a public offering statement must be provided to the purchaser with provisions for cancellation of the sales agreement. n468

§ 78.08(j)(4) Louisiana.

It is unlawful for a person to engage directly in the business of selling timeshares without first registering as a timeshare interest salesperson, unless such person is exempt as specified within the legislation. n469

§ 78.08(j)(5) Maine.

Before a developer may convey a timeshare in Maine, specific disclosure requirements must be met. n470 A written statement disclosing all required information shall be provided to the purchaser. n471 The front cover or first page of such document must contain only the following: the name and address of the developer, the project, and the location of the time share property; and the following statements in conspicuous type:

> (a) THIS CONTAINS IMPORTANT MATTERS TO BE CONSIDERED IN ACQUIRING A TIME SHARE. STATE OF MAINE LAW REQUIRES THAT THESE DISCLOSURES BE MADE BUT NO STATE AGENCY OR OFFICIAL HAS REVIEWED THE INFORMATION CONTAINED IN THIS BOOKLET.
>
> (b) YOU MAY CANCEL THE PURCHASE TRANSACTION WITHIN FIFTEEN DAYS FOLLOWING THE DATE OF EXECUTION OF THE CONTRACT OR THE RECEIPT OF A CURRENT WRITTEN STATEMENT, WHICHEVER IS LATER.
>
> (c) THE STATEMENTS CONTAINED INSIDE ARE ONLY SUMMARY IN NATURE. IF YOU ARE THINKING OF BUYING A UNIT, YOU SHOULD TALK TO YOUR ATTORNEY AND LOOK AT ALL EXHIBITS INCLUDING THE DECLARATION, PROJECT INSTRUMENT FLOOR PLAN, PLOT PLAN, BYLAWS AND CONTRACTS.
>
> (d) YOU SHOULD ASK YOUR ATTORNEY AND THE DEVELOPER TO TELL YOU WHAT WILL HAPPEN TO YOUR DEPOSIT, INTEREST IN THE UNIT, OR COSTS AND EXPENSES IF THE DEVELOPER OR OWNER IS DECLARED BANKRUPT. OBTAIN THE ANSWER FROM THE DEVELOPER IN WRITING. n472

§ 78.08(k) Membership Camping Practices Acts.

§ 78.08(k)(1) Overview.

Laws and statutes relating to contracts for membership camping generally apply to agreements to offer or sell, within a state, a right or license to use for more than one year a campground owned or operated by a membership camping operator. The following is an overview of some of the regulations for such transactions by states which have substantial regulations in this area.

§ 78.08(k)(2) Minnesota.

In Minnesota, a membership campground operator must apply for registration. n481 The application involves substantial disclosure including, but not limited to, whether the operator or any agent thereof in the last ten years has been convicted of a felony, enjoined or received an adverse administrative order relating to the sale of land or campgrounds; the availability of sewage disposal facilities and other public utilities; a statement of amenities which will be installed and constructed and who will be responsible for their cost; the operators financial statement for the last fiscal year; and any other information the commissioner deems appropriate. n482 Advertisements are also strictly regulated, and many specific acts are prohibited including advertisements which are considered deceptive or misleading, those that offer travel, accommodations, gifts, meals, or entertainment to encourage prospective purchasers to visit, describe offers of inducement to purchase as "prizes," "awards," or refer to purchasers as "specially selected" or "winners," or contain the words "free" or "without obligation" unless the offer is equivocally without condition. n483 Pictorial advertisements for off-site distribution which depict more than the on-site condition of the campgrounds, unless labeled as such, are also prohibited. n484

COMPUTER-ASSISTED RESEARCH

LEXIS: [Minn.] membership w/10 campground

§ 78.08(k)(3) Nevada.

A permit is required to sell memberships in campgrounds, and the seller must be a licensed broker. n485 The permit application must include the description in the public offering statement, and other disclosure. n486 The applicant is then investigated before a permit is issued. n487 All advertising materials must be approved, and prospective members must be supplied with certain information concerning development of the campground, and programs for exchange of occupancy rights. n488 Cease and desist orders may be issued for non-compliance, fraud, or deceit. n489

COMPUTER-ASSISTED RESEARCH

LEXIS: [Nev.] membership w/10 campground

§ 78.08(k)(4) Oregon.

Registration is required in order to sell membership camping contracts in Oregon. n490 Written disclosure is also required, and the application for registration as well as the membership contract must contain specific information and documents as required by Oregon's legislation. n491

§ 78.08(l) Horizontal Property Act.

§ 78.08(l)(1) Overview.

Horizontal property acts deal with condominiums, as well as cooperatives. The following states regulate land sales primarily under this category, or have substantial regulation in this area.

§ 78.08(l)(2) Hawaii.

Horizontal property pursuant to chapter 514A of Hawaii's Revised Statutes is exempted from the state's Uniform Land

Sales Practices Act. n492

COMPUTER-ASSISTED RESEARCH

LEXIS: [Hawaii] horizontal property

§ 78.08(l)(3) South Carolina.

Once property, such as an apartment, is submitted to the horizontal property regime, such property may be individually conveyed and encumbered and may be the subject of ownership, possession or sale independent of other apartments. n493 Who may own; the master deed or lease; provision required in bylaws, and systems of administration; records of receipts and expenditures; liability; liens; insurance; and sharing expenses in cases of disaster are all regulated under the Act. n494

§ 78.08(m) Mobile Home Parks.

§ 78.08(m)(1) Overview.

Some states also regulate land transaction which specifically apply to mobile home parks. New Mexico is one such state. The following is a brief overview of New Mexico's regulation respecting mobile home parks.

§ 78.08(m)(2) New Mexico.

Under New Mexico's Mobile Home Parks Act, entry fees, selling fees, and closed parks are expressly prohibited. New developments and parks and rentals to dealers are also regulated, as are mobile home park common areas. n495 Mediation as an alternative to court actions for dispute resolution is permitted under certain circumstances within the provisions of the Act. n496

LEXIS: [Cal.] 11010.05

§ 78.08(o) Recovery Fund.

§ 78.08(o)(1) Overview.

To compensate victims of fraudulent or deceptive land sales practices, most states have established real estate recovery funds. Generally, real estate brokers and salespersons are required to pay a fee into the fund when such persons become licensed or renew their licenses. The following is a brief overview of a few selected recovery fund programs.

§ 78.08(o)(2) Colorado.

When renewing a license, each licensee must pay, in addition to any other fees, a license renewal fee of $40 which is deposited in the state's real estate recovery fund. n499 For those persons renewing their license, a fee of $30 is required which is deposited in the real estate recovery fund.

A person who obtains a final judgment in court against a real estate broker or salesperson may file a verified application in such court directing payment out of the recovery fund. n500 The fund is liable for reimbursement of actual direct loss excluding loss for pain and suffering and mental anguish, and include court costs and attorney's fees which remain unpaid upon the judgment. n501 The real estate recovery fund is not liable for more than $15,000 with respect to any one transaction, nor is the fund liable for any one licensee for more than $50,000. n502

COMPUTER-ASSISTED RESEARCH

LEXIS: [Colo.] real estate w/50 recovery fund

§ 78.08(o)(3) Indiana.

Indiana has established a real estate recovery fund to be administered by the real estate commission. n503 The treasurer of the state invests the money not currently needed to meet the obligations of the fund in the same manner as other public funds may be invested. n504 Generally, money left at the end of the fiscal year does not revert to the state general fund. n505

COMPUTER-ASSISTED RESEARCH

LEXIS: [Ind.] real estate w/50 recovery fund

§ 78.08(o)(4) Minnesota.

Minnesota's fund is actually a real estate education, research, and recovery fund which is administered by the commissioner of commerce. n506 Any person who receives a real estate license must pay a fee of $50 in addition to other fees payable. n507 If the amount in the fund is at any time less than the commissioner believes is necessary to carry out the purposes of this section, then those renewing their license can be required to pay a further sum, in addition to other required fees, not to exceed $100. n508

Supp. To CHAPTER 78 REGULATION OF TRANSACTIONS

9-78 Thompson on Real Property, Thomas Editions Supp. to § 78.05

Supp. to § 78.05 The Interstate Land Sales Full Disclosure Act.

IOWA CODE § 567.1

§ 78.05(a) 1968 Passage of the Act IOWA CODE § 567.1

Add:

See also IOWA CODE § 567.1.

§ 78.05(b) Revision [Go To Main]

Add:

For cases construing §§ 1702, 1704, see *Stein v. Paradigm Mirasol, LLC, 586 F3d 849 (11th Cir. 2009)* ; *Gentry v. Harborage Cottages-Stuart, LLLP, 602 F. Supp. 2d 1239 (S.D. Fla. 2009)* ; *Pilato v. Edge Investors, L.P., 609 F. Supp. 2d 1301 (S.D. Fla. 2009)* .

Add:

See also Fortunato v. Windjammer Homebuilders, Inc., 2006 U.S. Dist. LEXIS 5216 (M.D. Fla. Jan. 25, 2006) (*Citing 15 U.S.C. § 1702*)

§ 78.05(c) Overview of the Act. MONT. REV. STAT § 72-2-214

note 65, add:

Dongelewicz v. PNC Bank Nat'l Ass'n, 104 Fed. Appx. 811 (3d Cir. 2004) ; *Burns v. Duplin Land Dev., Inc., 621 F. Supp. 2d 292 (E.D. Ky. 2009)* (construing the Act broadly in declining to imply an ignorance requirement).

See also Fortunato v. Windjammer Homebuilders, Inc., 2006 U.S. Dist. LEXIS 5216 (M.D. Fla. Jan. 25, 2006) (holding that exemptions should be narrowly and strictly construed.)

Add:

Trotta v. Lighthouse Point Land Co., LLC, 2008 U.S. Dist. LEXIS 25906 (S.D. Fla. Mar. 19, 2008) (a purchase agreement was governed by the provision of Interstate Land Sales Full Disclosure Act requiring the contract to include a lot description); Goldberg v. 401 North Wabash Venture LLC, No. 09 C 6455, *2010 U.S. Dist. LEXIS 39774, at 28* (N.D. Ill. Apr. 22, 2010) .

Add

See Aikin v. WCI Cmtys., Inc., 26 So. 3d 691 (Fla. App. 2010) (applying the Act to condominiums).

Add

Akers v. Classic Props., 2003 Ohio 5436 (Ohio Ct. App., 2003) (the Interstate Land Sales Full Disclosure Act was inapplicable to a lot purchased from a builder who had purchased the lot from a developer and the company he managed); *Tomlinson v. Vill. Oaks Dev. Co., LLC, 2003 U.S. Dist. LEXIS 8488 (D. Ind. 2003) See Aboujaoude v. Poinciana Dev. Co. II, 505 F. Supp. 2d 1266 (S.D. Fla 2007)* (holding that a buyer could assert a § 1703(a)(2) claim against a president of a corporation)..

§ 78.05(d) Definitions [Go To Main]

Add:

See also Board of Supervisors v. Royal (In re Royal), 137 Fed. Appx. 537, 2005 U.S. App. LEXIS 9618 (2005) (holding that the county is not trying to comply or have the intention of correcting any violations of the public benefit law and that the county is not "enforcing" its police and regulatory power. Therefore, the county is not entitled to the Section 362(b)(4) exception.)

Add:

Johnson v. Orr, 551 F.3d 564 (7th Cir. 2008) (the Interstate Land Sales Full Disclosure Act was inapplicable to a state tax sale, which did not involve a transfer of an interest of the property owner in the land).

[Go To Main]

§ 78.05(e)(1) General Exemptions.

Add:

200 *East Partners, LLC v. Gold, 997 So. 2d 466 (Fla. App. 2009)* (no exemption could be claimed for circumstances that would materialize in the future).

Add:

See also Sun Kyung Ahn v. Merrifield Town Ctr. Ltd., 584 F. Supp. 2d 848 (E.D. Va. 2008) (holding that the buyer's signing of the sales contract triggers the two-year period under § 1702(a)(2).

Add:

See also Jankus v. Edge Investors, L.P., 619 F. Supp. 2d 1328 (S.D. Fla. 2009) (holding that a buyer who had closed on only two properties in nine years was not in the land sales business), vacated, *650 F. Supp. 2d 1248 (2009)* .

§ 78.05(e)(2) Exemption for Lots Subject to Other Disclosure Requirements.

Add:

Bush v. Bahia Sun Assocs., Ltd. P'ship, *, 543 F. Supp. 2d 1295* ***543 F. Supp. 2d 1295 (M.D. Fla. 2008)*** (contract did not fall within statutory exemption of Interstate Land Sales Full Disclosure Act).

[Go To Main]

§ 78.05(f)(3) Revocation Where Property Report Supplied.

Add:

Mayersdorf v. Paramount Boynton, L.L.C., 910 So. 2d 887 (Fla. App. 2005) (holding that the interpretation of the word "exempt" should not be too narrow. Also, because there was undisputed evidence that the subdivision had fewer than 100 lots which would allow the sale under the "100--lot" exemption allowed in *15 U.S.C. 1702(b)(1)*. Therefore because both *15 U.S.C 1702(b)* and *15 U.S.C. 1702(d)* expressly applied to contracts which are not exempt under Ind. Code Ann. § 32-17 these sections did not apply.)

Add:

See Degirmenci v. Sapphire-Fort Lauderdale, LLLP, 642 F. Supp. 2d 1344 (S.D. Fla. 2009) (holding that a claim could not be brought under § 1703(d) where the purchaser sought return of her deposit and did not claim that she was not informed of her right to seek a return of her deposit).

§ 78.05(l)(2) Enforcement of Rights.

Add:

See Murray v. Holiday Isle, LLC, 620 F. Supp. 2d 1302 (S.D. Ala 2009) (holding that buyers were damaged as matter of law because they were not told about their rescission rights until it was too late to exercise them).

Supp. To CHAPTER 78 REGULATION OF TRANSACTIONS

9-78 Thompson on Real Property, Thomas Editions Supp. to § 78.06

Supp. to § 78.06 Federal Trade Commission Act.

31-1-8-2

§ 78.06(d) Federal Trade Commission Act [Go To Main]

Add:

See also Ill. Tool Works, Inc. v. Indep. Ink, Inc., 2006 U.S. LEXIS 2024 (U.S. Mar. 1, 2006) (exemplifying the FTC and holding that in all cases involving a typical arrangement between two parties the plaintiff must prove that the defendant controls the marketing power in the product. Some arrangements will be held unlawful, such as those that were a true monopoly or a marketwide conspiracy.)

Supp. To CHAPTER 78 REGULATION OF TRANSACTIONS

9-78 Thompson on Real Property, Thomas Editions Supp. to § 78.08

Supp. to § 78.08 State Regulations.

[Go To Main]

§ 78.08(b) Disclosure. Iowa Code §567.1

§ 78.08(b)(2) Arizona.

delete § 32-2185.04. The civil penalties are set out in Ariz. Rev. State. Ann.§ 32-2185.09.

§ 78.08(b)(4) Colorado.

delete:

Delete the "-03" at the end of the citation.

§ 78.08(b)(5) Florida.

In the first sentence, change "will be" to "was."

These Florida statutes referenced in the footnotes have been repealed.

§ 78.08(b)(6) Georgia.

Add after the first sentence:

The text of the George act was substantially rewritten in 1995.

Add:

Mancuso v. Steyaard, 640 S.E.2d 50 (Ga. App. 2006) (a subdivision lot was held to be exempt from the land sale act).

Delete the provision beginning UNLESS YOU RECEIVED. ... Replace it with the following language:

I hereby acknowledge that I have received the property report of (insert name of subdivision) on (insert date) at (time). If I receive the property report less than 48 hours prior to signing any contract or agreement, I understand that my right to cancel that contract or agreement is midnight of the seventh day, Sundays and holidays excepted, following the signing of such contract or agreement. I understand that I must notify the developer or the developer's agent in writing within the cancellation period of my intent to cancel by sending notice by certified mail or statutory overnight delivery, return receipt requested, to (insert name and address of developer or developer's agent). Notice will be effective on the date that it is mailed.

GA. CODE ANN. § 44-3-3.

change:

The Georgia statute does not require this statement below to be in light red type, nor does it require letters to be one-half inch in size with one-half inch space between the lines:

"THE PURCHASER SHOULD READ THIS DOCUMENT BEFORE SIGNING ANYTHING";

Instead, it requires: "A conspicuous statement on the bottom third of the front cover of the property report which reads as follows: 'THE PURCHASER SHOULD READ THIS DOCUMENT BEFORE SIGNING ANYTHING'"

GA. CODE ANN. § 44-3-3.

change:

The statement in the text "THIS LAND HAS BEEN REGISTERED" is no longer in the text of the statute.

GA. CODE ANN. § 44-3-3.

§ 78.08(b)(7) Illinois.

Add:

The Condominium Property Act requires the seller of a condominium to "make full disclosure of, and provide copies to the prospective buyer of" various information items relating to the condominium. *See 765 Ill. Comp. Stat. Ann. 606/22* (LexisNexis 2010).

Add:

In 1999 Illinois created the Land Sales Registration Act of 1999. This act will be repealed in 2020.

765 Ill. Comp. Stat. Ann. 86/1-1 (LexisNexis 2010).

change the citations to:

765 ILL. COMP. STAT. ANN. 86/5-10 (LexisNexis 2010).

§ 78.08(b)(10) Nebraska.

The section cited has been repealed, the correct section is *NEB. REV. STAT. § 81-885*.

§ 78.08(b)(11) Nevada.

The section that should be cited is *NEV. REV. STAT. § 119.130*.

§ 78.08(b)(13) New Jersey.

change the citation to N.J. STAT. ANN. § 45:15-16.29.

change the citation to § 45:15-16.34.

change the citation to § 45:15-16.30a.

change the citation to § 45:15-16.33. The bureau now has 90 days to reject the registration.

change the citation to § 45:15-16.35.

change the citation to § 45:15-16.36.

§ 78.08(b)(19) Virginia.

delete Section 55-339

Add:

The penalties for violation of the Act are now in § 55-347. There is no longer any provision for a cease and desist order. The section merely makes a violation a Class 2 misdemeanor.

§ 55-345 has been repealed.

§ 78.08(c) Out-of-State Regulation [Go To Main]

§ 78.08(c)(4) Delaware.

delete notes 326-328.

§ 78.08(c)(7) Montana

delete this subsection. Montana no longer has any provisions regulating either in-state or out-of-state subdivided

real property sales.

CHAPTER 79 FOREIGN OWNERSHIP OF LAND

9-79 Thompson on Real Property, Thomas Editions § 79.01

AUTHOR: Professor James B. Wadley School of Law Washburn University

§ 79.01 General.

[Go To Supp]

Throughout the history of our nation, there have been varying amounts of concern over the extent to which individuals from foreign countries are or have been investing in land in this country. n1 Although the amount of such investments has tended to be somewhat small at any one time, n2 concern over such matters has prompted a variety of responses at both the state and the federal level. It is interesting that there appears to have been somewhat less concern throughout our history regarding foreign investment in or ownership of businesses n3 in this country. While that investment may be more significant in some respects than is investment in land, this chapter explores only efforts to regulate foreign ownership of and investment in land.

In recent years, the most intense concern has been over the level or foreign ownership of United States farmland. Most recent reports indicate that approximately 14.5 million acres of privately-owned agricultural land were held by foreign interests. n4 This is approximately 1% of all privately-owned United States agricultural land, a percentage which has remained fairly constant since 1981. n5 Forest land, most of which is located in Maine, accounts for nearly half of all foreign owned acreage. n6 Canadian investors are the largest group of foreign owners, at 25%, with Japanese investors holding only 3% of the foreign-held acreage. n7 The restrictions considered in this chapter relate to the issue of ownership of land by foreign individuals or other legal persons. In jurisdictions that have such restrictions, it appears that the restrictions are grounded in the notion that land ownership is a significant issue. Historically, that has been the case more than it appears to be at the present. Today, access to land may be more significant than actual ownership. This is so even among citizens of our own country. Farmers, who are the largest single land user in the nation, appear less concerned with ownership and therefore increasingly rent the land that they use.

That may diminish the significance of restrictions on land ownership by foreigners. Where there are still strong feelings about excluding foreigners or particular groups of foreigners, there may be an increase in the use of alternate strategies, such as restrictions on foreign business entities or on tax policies n8 that create economic disincentives for locating the activity within the United States. n9 One area that appears to be generating concern regarding foreign businesses is trade policy. With the recent adoption of the North American Free Trade Agreement (N.A.F.T.A.), n10 the Canadian Free Trade Agreement, known as the Canada-U.S. Trade Agreement (C.U.S.T.A.) n11 and the ratification of the new

General Agreement on Tariffs and Trade, there seems to be a growing concern that foreign businesses in the free trade area may be more than able to merely compete with domestic industries and may actually cause domestic industries to fail. While this is not the same kind of issue that the law of foreign ownership had to deal with, it represents a resurgence of the same "anti-foreign" attitude that has been prevalent in the past, that foreigners should be somehow excluded. In this case, however, both the expression of the attitude and the battleground are different. It is now more a question of excluding goods and services than excluding the entity from owning land in this country. n12 And as such, the battle will be fought in the arena of trade policy (which is a matter to be dealt with at the national level) rather than in the arena of restrictions on the location of foreign entities within the United States (which tends to be a state-level issue).

Another emerging issue that invokes the old attitude but in a somewhat different scenario, is the concern with illegal immigration. Here, the fear is that "illegals" will enter the country and supplant the "natives." But, like the trade issue, this battle does not involve questions of land ownership as much as simply the presence of such individuals in the local economy or society. One final development merits initial consideration. In recent years, there has been a definite move toward a global economy. As part of this movement, many businesses are now structured so that they are truly global in nature. In that situation, it becomes increasingly difficult to determine whether the entity is truly "foreign" or simply a domestic entity that has moved abroad to better compete on a global scale. Such moves may have important advantages to the businesses that have little to do with the issue of where or under what circumstances they own or have access to land in the United States. One need only recall that not much more than a decade ago, the primary group of foreign investors in United States farmland were businesses in the Netherland Antilles. As it turned out, most of these entities were simply U.S. corporations that had gone abroad to take advantage of favorable tax laws. Since that time, most of the loop holes in the tax structure that had prompted that movement have been eliminated. The result was to significantly reduce the number of Netherland Antilles corporations that were owners of farmland in this country. Two interesting points should be noted. First, not every "foreign" entity may be truly "foreign," and the decision to locate abroad may be based on policies that have very little to do with the question of land ownership. From this, it is probable that jurisdictions that are seriously interested in excluding foreign entities will increasingly turn to restrictions or policies which relate directly to those issues rather than to the now somewhat narrow matter of land ownership as the primary means by which to exclude such entities. n13

In recent years, the locus of interest in the area of foreign ownership appears to have centered on the taxation and financial aspects of international trade. For example, in 1996, Congress amended the Internal Revenue Code to impose a tax on certain transfers of property by a citizen or resident of the United States, or by a domestic corporation or partnership or by an estate or trust to a foreign corporation. n14 It has recently been reported by the American Peace Network that foreign investment in the United States has grown from $276 billion in 1976 to $2 trillion in 1990. n15 This compares with official State Department figures that put direct foreign investment by the United States in the rest of the world at $805 billion in 1996. n16 According to the Bureau, the amount of foreign investment by the United States increased 15% between 1995 and 1996. In contrast, according to the Bureau, the United States is the world's largest recipient of foreign direct investment, slightly over $85 billion in 1996. However, nearly one quarter of the world's total ($349 billion) flowed into the United States, nearly double that of the nearest competitor, China, with $42 billion. This foreign investment constituted 6% of total private direct investment in the United States in 1996. The Bureau of Economic Analysis collects three broad sets of data on foreign direct investment in the United States: new investment data, financial and operating data of U.S. affiliates and balance of payments and direct investment position data. n17 At the end of the reporting period, foreign persons owned 14.3 million acres. Forest lands account for approximately 45 percent of this ownership, cropland 17 percent, pasture and other agricultural uses 35 percent and nonagricultural land for 3 percent. n18 The remaining 3 percent is held by trusts, institutions and associations. n19

Negotiations are currently underway under the auspices of the Organization for Economic Cooperation and Development (OECD) to establish a broad, high-standard multilateral framework for international investment. The goal of this negotiation is to eliminate discrimination against foreign investors regarding the establishment, expansion and operation of the investments. The Bureau of Economic and Business Affairs has noted that the proposed Multilateral Agreement on Investments will not compel any of its members to allow unrestricted foreign investment in any or all

economic sectors. *See Multilateral Agreement on Investment (MAI): The Facts*, released by the Bureau of Economic and Business Affairs, March 23, 1998 and available at http://www. state.gov./www/issues/ economics/fs_980323_multilat.html.

Since the law requires that corporations in which foreign holdings amount to 10 percent or more must register their land ownership, approximately 61 percent of reported foreign holdings are actually held by U.S. corporations. Only 39 percent of the foreign-held land is owned by investors that are not affiliated with United States firms. When the 14.3 million acre total is adjusted for these partial interests, the amount drops to approximately 13.1 million acres. According to the Agriculture Fact Book: 1998, published by the U.S. Department of Agriculture, Office of Communications, the level of foreign ownership of U.S agricultural land has remained relatively steady from 1981 through 1997 and has been slightly above or below 1 percent of the privately owned agricultural land in the United States. The total currently stands at 14.3 million acres, up 199,419 from 1996. *Id.* Chapter 2-H. *See also* Charles Barnard, *Foreign Ownership of U.S. Agricultural Land Through December 1, 1996*," Economic Research Service, United States Department of Agriculture, SD #941, July 1998.

CHAPTER 79 FOREIGN OWNERSHIP OF LAND

9-79 Thompson on Real Property, Thomas Editions § 79.02

AUTHOR: Professor James B. Wadley School of Law Washburn University

§ 79.02 Typical Reasons for Foreign Interest in American Land.

[Go To Supp]

American land, particularly farmland, appears to be quite attractive to foreign investors for a variety of reasons. The primary incentives to invest might be broadly enumerated as follows: n20

1. The historic stability of United States governments allows investment in American land to be considered safer than a corresponding investment in the land of the investor's origin.

2. The popular perception that the United States is very protective of private property rights suggests that investments in land will be highly regarded and protected.

3. The popular perception that the economic system of the United States encourages capital development and protects capitalistic investments suggests that investment in land will be profitable and can be used to achieve meaningful economic objectives of the investor.

4. There is much land that is readily available for purchase at reasonable prices, in contrast to the situation in many foreign countries where land may be held in the same family for generations and therefore is simply not available, or may be a relatively scarce and very expensive commodity.

5. The relative cheapness of the United States dollar in relation to currencies of other countries makes investment in the United States even cheaper.

Other reasons include the possibility that an investment in United States land may be an effective hedge against inflation; that it may provide a refuge against land reform efforts and political disorders abroad; that the investment will significantly appreciate as a result of increases in United States land values relative to land prices throughout the world; that the investments will safely balance investment portfolios in terms of income and capital appreciation; that strategic resources may be controlled; that there may be a basis for political and economic influence within the United States; and that there is somehow prestige associated with owning land in this country. n21

From time to time there have been significant tax-related reasons for foreign investment, but in recent years most of those have been eliminated or restructured. n22

The reasons for foreign investment appear to be largely economic in nature and do not appear to suggest that the investment is politically motivated. This is important to note since the concerns regarding foreign investment tend to be broader than the reasons for the investments and do tend to raise issues regarding political and other matters. With the development of a truly global economy, there may be a shift away from an interest in American land from an investment basis to an interest simply as a "local physical plant" for the business activity. In that sense, the issue of "ownership" will be less significant than the question of "access." This may stimulate the law to be more interested in the idea of reciprocity as a basis for admitting the foreign entity. In the past, except with respect to the matter of inheritance, n23 reciprocity has tended not to be an issue. To the extent that reciprocity becomes a concern, it becomes increasingly necessary to understand the possible restrictions at the other end. That this is happening is reflected in the growing body of literature relating to foreign investment and the restrictions on doing business abroad. n24

The interests of foreigners in United States land appears to remain strong from an economic point of view. This interest runs a very broad range from pure investment concerns to strategic tax planning. In many cases, the object is not necessarily the acquisition of land title for any particular purpose but the achievement of international business objectives. n25

(n1)Footnote 20. For additional discussion of reasons for foreign investment in land in the United States, *see* Bruce Zagaris, *Investment by Nonresident Aliens in United States Real Estate, 31 U. Miami L. Rev. 565 (1977);* Peter DeBraal & Kenneth Krause, *Corporate, Foreign and Financial Investors in U.S. Agriculture, 29 S.D. L. Rev. 378 (1984). See* Jeremy D. Smith, The Foreign Investor's Guide to U.S. Real Estate (New York: Oceana Pubs., Inc., 1990); George F. Bernardi, *A Foreign Investor's Guide to Real Property Investments in the United States*, 20 Int'l Tax J. 39 (1994); Benjamin A. Jablow, *Counseling the Foreign Investor in the Acquisition of U.S. Real Property, 68 Fla. B.J. 55 (1994);* David L. Callies, *Land Ownership, Use and Property Rights: The Balance Between Local Ownership and Foreign Investor Security*, 21 Int'l Bus. Law. 535 (1993); Steven A. Musher, *Revenue Reconciliation Act of 1989 from the Perspective of the Foreign Investor in U.S. Real Estate, 6 Tax Mgmt. Real Est. J. 67* (April 4, 1990).

The real estate that foreign-born citizens are most likely to invest in apparently is homes. *See* Pamela Reeves, *Foreign-Born Citizens Establish Stake in U.S. Land*, The Detroit News, Monday, Sept 22, 1997. In fact, according to the survey, done by the Census Department, foreign-born citizens are more likely to be home owners than are native born citizens.

(n2)Footnote 21. *See* Christopher Stern, *Invasion of the American Heartland*, Saturday Review, (Oct. 15, 1977), at 19.

(n3)Footnote 22. *See* Bruce Zagaris, *Investment by Nonresident Aliens in United States Real Estate, 31 U. Miami L. Rev. 565 (1977).*

(n4)Footnote 23. *See* § 79.09 *infra*.

There appears to be considerable foreign investment in commercial, rather than agricultural, real estate. It has been reported that international firms bought $1.77 billion worth of commercial real estate in Arizona alone in 1995 and an

additional $1.87 billion in 1994. *See* Catherine Reagor, *Foreign Investors Skip Valley This Time*, The Arizona Republic, Sunday May 17, 1998 (Special Section). *1998 WL 7772349.* Much of this appears to be in the form of purchases of existing buildings or structures rather than raw land. These non-agricultural investments in United States real estate seem to be growing. In a recent survey of foreign investors, 67 percent said they planned to increase the level of investment in properties here in 1998. Robert Burgess, *Foreign Investors More Bullish on the U.S. Real Estate Market*, The Commercial Appeal, (Memphis Tenn), Sunday, Nov. 9, 1997. Non-farm foreign investments in real estate have tended to occur in cities and increasingly involve office buildings. In the past, non-farm foreign investments in real estate have tended to occur in the retail area. This type of investment ranked first from 1992 to 1995 but slipped to fourth in 1996 and was second to office buildings in 1997. *Survey of Foreign Investors Show Confidence*, Real Estate Weekly, Wed. Nov. 19, 1997 (Vol. 44, No. 16).

In 1997, for the first time ever, foreign investors selected Boston as their first choice of cities in which to invest. Second on the list was Washington D.C, followed by San Francisco, and then Atlanta, which had headed the list for the past three years. New York was in fifth place. Both Los Angeles and Chicago have dropped significantly in popularity in recent years. *Survey of Foreign Investors Show Confidence*, Real Estate Weekly, Wed. Nov. 19, 1997 (Vol. 44, No 16). Across the United States, the total investment in commercial real estate appears historically to have been dominated by Japanese investments. With current problems in the Far East, Japanese investments seem to be diminishing. Non-Japanese investments have grown sharply since the mid-1990's, totaling $6.3 billion between 1993 and 1996. The bulk of the non-Japanese investment appears to come from Hong Kong, which totaled $2.9 billion. *See* Catherine Reagor, *Foreign Investors Skip Valley This Time*, The Arizona Republic, Sunday May 17, 1998 (Special Section). *1998 WL 7772349.*

Rev. 371 (1994);* Rodolpho Sandoval, *Chapter Eleven: Investments Under the North American Free Trade Agreement, 25 St. Mary's L.J. 1195 (1994).*

It has recently been reported by the American Peace Network that foreign investment in the United States has grown from $276 billion in 1976 to $2 trillion in 1990. www.apn.org/ beyond/ref306.html. This compares with official State Department figures that put direct foreign investment by the United States in the rest of the world at $805 billion in 1996. *See Multilateral Agreement on Investment (MAI): The Facts*, released by the Bureau of Economic and Business Affairs, March 23, 1998 and available at http://www.state.gov./www/issues/ economics/ fs_980323_multilat.html. According to the Bureau, the amount of foreign investment by the United States increased 15% between 1995 and 1996. In contrast, according to the Bureau, the United States is the world's largest recipient of foreign direct investment, slightly over $85 billion in 1996. However, nearly one quarter of the world's total ($349 billion) flowed into the United States, nearly double that of the nearest competitor, China, with $42 billion. This foreign investment constituted 6% of total private direct investment in the United States in 1996. The Bureau of Economic Analysis collects three broad sets of data on foreign direct investment in the United States: new investment data, financial and operating data of U.S. affiliates and balance of payments and direct investment position data. Detailed discussion of the differences between these data is found in Alicia M. Quijano, *A Guide to BEA Statistics on Foreign Direct Investment in the United States*, SURVEY 70 (Feb. 1990): 29-37. This guide is available at the BEA website. *See* www.bea.doc.gov/bea/ai/0698iid/box1.htm.

CHAPTER 79 FOREIGN OWNERSHIP OF LAND

9-79 Thompson on Real Property, Thomas Editions § 79.03

AUTHOR: Professor James B. Wadley School of Law Washburn University

§ 79.03 Typical Concerns Regarding Foreign Investment in United States Land in General.

[Go To Supp]

Concerns regarding foreign investment in land in the United States appear to be more varied than the reasons for the investment. This might suggest that some of the concerns are unfounded. Nevertheless, they appear to be widely held and have had an impact upon the nature of regulation, especially at the state level. The most common specific concerns appear to be the following:

1. The ability to own land vests the landowner with a significant measure of control over that land and how it is used. As a result, there is some concern regarding the extent to which economic control over the land may be usurped from United States citizens or from the state or federal governments. n26

2. The comparative low price of United States land suggests a potential for "bidding-up" the value of land for United States citizens who may not have the investment resources that the foreigner does. This may have the effect of driving United States citizens out of the market, which could pose serious problems for family-sized farmers. n27

3. There is some fear that foreign investors will own larger (and therefore possibly more efficient) areas of land than United States citizens and will therefore have a correspondingly larger control over that particular sector of the economy. n28

4. The level of protection given to aliens under the law may restrict the level of control a community or the city may have in determining its own land use patterns and future development.

5. There appears to be a significant concern that the productive capacity on foreign-owned farmland might be diverted from meeting the needs of the population of the United States to supplying the food needs of the foreign countries from which the investors originate. n29

6. There appears to be some sentiment that economic activities of foreigners ought to be generally restricted as they pose a potential threat to our general economic structure n30 or because their allegiance might be suspect. n31

Other reasons include fears that foreign investors will use their financial clout to undermine the United States' economic sovereignty; that foreign ownership may result in the establishment of feudal land control systems, a system of absentee landlords, and foreign control of rural communities. n32

These reasons, in contrast to the reasons typically given for foreign investment, suggest that our national fears regarding foreign investment tend to be dominated by concerns regarding the extent of control asserted by outsiders over land within this country and the extent to which foreign landowners should influence decisions regarding our nation's land use patterns and food production capacity. Indeed, it has been suggested that most concerns simply reflect emotional responses to what is perceived as a foreign threat to American economic stability, n33 to dominate and control domestic agricultural production, n34 or force small, family farmers n35 out of business. n36 It is clear that although these fears have and will play a major role in legislative decisions regarding alien ownership of land, there is and has been little basis for most of these fears. n37

The most restrictive statutes relating to foreign ownership tend to operate in much the same fashion as restrictions on corporations in that they tend to exclude a particular group or class n38 from the ownership privilege. n39 With the shift in focus toward a global economy, the issue of fear regarding "foreign" interests in the United States necessarily changes somewhat from that of fear regarding control over land (with its attendant political baggage and overtones) to that of fear regarding economic competition (with perhaps, some attendant cultural baggage). n40 However, in that scenario, ownership is far less significant than the question of access and in some ways less threatening.

One area of access and ownership continues to cause a fair amount of concern, and that is the issue of access to the public domain for purposes of acquiring valuable mineral resources. Historically, there have been restrictions on alien ownership of mineral claims. n41 These restrictions have been fairly easy to circumvent because once title to the land upon which the minerals were located was perfected, it was considered to be like any other private title to land and could be sold, transferred, leased, etc. to anyone, including foreigners. This, however, has resulted in the acquisition of major deposits of gold and other minerals by foreign corporations. n42

In recent years, the major concerns regarding foreign investment seem to focus on the investment dimensions rather than the purely ownership dimensions. That is, the concerns tend to be more of a social and economic nature than that the foreign entity becomes a physical presence with which our system must contend. That is, there seems to be more of a fear that various aspects of the economic structure of an industry will be dominated or controlled by investors from outside this country than that there will be any monopoly over the land base itself. n43

One factor that may moderate attitudes toward foreign ownership of land in the United States is the interest in protecting the possibility that citizens of the United States should have the opportunity of owning land in other countries. Indeed, there is a strong sense that investment opportunities for citizens of the United States need to be expanded and there may be a concern that restrictions at home may translate into restrictions abroad. n44

Finally, there seems to be an emerging concern that foreign entities with ownership interests in the United States have not acquired them for purposes of tax evasion or that the transfers to the foreign entities are not made for purposes of tax avoidance. n45 In at least one state, it has recently been determined that corporate ownership of farmland (whether domestic or foreign) is inimical to the public welfare. In Kansas, by statute, most corporations are barred from owning an interest, directly or indirectly, in farmland. Recent amendments have given counties the option of permitting dairy and swine corporations to locate within the county. The issue before the Attorney General was whether the county could rescind such a grant of permission and, if the county did so, whether it would constitute a "taking" of a property interest from the corporation. The Attorney General found that the state may exercise its police power to totally prohibit persons from engaging in occupations or businesses that are detrimental to the public welfare. n46

LEXIS: concern! w/30 foreign! invest! or own! w/50 land w/15 america! or united states

FOOTNOTES:
(n1)Footnote 26. For a discussion of similar concerns regarding ownership of farmland by corporations, *see* ch. 47, *supra*.

(n2)Footnote 27. *See* discussion of the family farm problem in ch. 47, *supra*.

(n3)Footnote 28. For a discussion of this fear in the context of regulation of corporate ownership of farmland, *see* ch. 47, *supra*.

(n4)Footnote 29. Although the data suggests that the amount of agricultural land held by foreign interests is small and appears to be quite stable, and interest in further restrictions has waned since the mid 1980's, a number of states have considered changing statutes regarding foreign ownership. It is presently estimated that approximately 1% of privately-owned agricultural land in the United States, or about 14.8 million acres, is held by foreign interests. This level has remained constant since 1981. Further, much of the land is actually held by U.S. corporations that are partly owned by foreigners. Federal reporting law requires that a corporation be identified as foreign if as little as 10% of the stock is held by foreign investors. Only 47% of all foreign-held land is actually owned by investors not affiliated with domestic firms. Peter DeBraal, *Foreign Ownership of U.S. Agricultural Land in '91*, *Agricultural Law Update* 6 (April 1992).

(n5)Footnote 30. Joshua Weisman, *Restrictions on the Acquisition of Land by Aliens, 28 Am. J. Comp. L. 39 (1980).*

(n6)Footnote 31. *See Terrace v. Thompson, 263 U.S. 197 at 221:* "The quality and allegiance of those who own, occupy and use the farm lands within its borders, are matters of highest importance, and affect the safety and powers of the state itself."

(n7)Footnote 32. For further discussion, *see* Clifton B. Luttrell, *The "Danger" from Foreign Ownership of U.S. Farmland*, 61 Fed. Res. Bank., St. Louis Rev. 2 (1979).

It has been reported by the American Peace Network that foreign investment in the United States has grown from $276 billion in 1976 to $2 trillion in 1990. www.apn.org/ beyond/ref306.html. Official State Department figures that put direct foreign investment by the United States in the rest of the world at $805 billion in 1996. *See Multilateral Agreement on Investment (MAI): The Facts*, released by the Bureau of Economic and Business Affairs, March 23, 1998 and available at http://www.state.gov./www/issues/ economics/fs_ 980323_multilat.html. According to the Bureau, the amount of foreign investment by the United States increased 15% between 1995 and 1996. In contrast, according to the Bureau, the United States is the world's largest recipient of foreign direct investment, slightly over $85 billion in 1996. However, nearly one quarter of the world's total ($349 billion) flowed into the United States, nearly double that of the nearest competitor, China, with $42 billion. This foreign investment constituted 6% of total private direct investment in the United States in 1996. The Bureau of Economic Analysis collects three broad sets of data on foreign direct investment in the United States: new investment data, financial and operating data of U.S. affiliates and balance of payments and direct investment position data. Detailed discussion of the differences between these data is found in Alicia M. Quijano, *A Guide to BEA Statistics on Foreign Direct Investment in the United States*, Survey 70 (Feb. 1990): 29-37. This guide is available at the BEA website. *See* www.bea.doc.gov/bea/ai/ 0698iid/box1.htm.

Across the United States, the total investment in commercial real estate appears historically to have been dominated by Japanese investments. With current problems in the Far East, Japanese investments seem to be diminishing. Non-Japanese investments have grown sharply since the mid-1990's, totaling $6.3 billion between 1993 and 1996. The bulk of the non-Japanese investment appears to come from Hong Kong, which totaled $2.9 billion. *See* Catherine

Reagor, *Foreign Investors Skip Valley This Time*, The Arizona Republic, Sunday May 17, 1998 (Special Section). *1998 WL 7772349.* On the other hand, investment in agricultural land tends to be from Canada or Western Europe. Most (57 percent) of the investors in United States farmland are from the countries of Canada, the United Kingdom, Germany and France, in that order. Agriculture Fact Book: 1998, United States Department of Agriculture, Office of Communications. Chapter 2-H. *See also* Charles Barnard, *Foreign Ownership of U.S. Agricultural Land Through December 1, 1996*, Economic Research Service, United States Department of Agriculture, SD #941, July 1998.

Concerns regarding the impact of foreign investment on national economic independence have produced significant restrictions that apply to specific industries. Most of these restrictions affect the aviation industry, telecommunications, maritime commerce, power generation, banking, insurance, and real estate, including agricultural land and minerals. For further discussion of the general restrictions affecting these areas, *see* Peter Burkard, *Foreign Direct Investments: Restrictions and Reporting Requirements* (Jan. 22, 1993), at http://www.eskimo.com/ larrygj/ burkard.html. A further discussion of foreign investment in the U.S. airline industry is found in Angela Edwards, *Foreign Investment in the U.S. Airline Industry: Friend or Foe?* available online at http://www.law.emory.edu/ EILR (reprinted from 9 Emory International Law Review 1995). Regarding alien ownership in the telecommunications industry, *see* Edwin Krasnow and Andres Martinez, *An Alien Ownership Primer: A Fifth Here, a Fourth There*, (File Papers, Communications Media Center at New York Law School. Available at www.cmcnyls. edu/ PUBLIC/papers/ALIENOWN.HTM.)

(n8)Footnote 33. *See* Clifton B. Luttrell, *The "Danger" from Foreign Ownership of U.S. Farmland*, 61 Fed. Res. Bank, St. Louis Rev. 2 (1979); *Invasion of the American Heartland*, Saturday Review (Oct. 15, 1977); Foreign Investment Legislation: Hearings on S. 329, S. 995 and S.1303 Before the Subcomm. on Foreign Commerce and Tourism of the Senate Comm. on Commerce, 94th Cong., 1st Sess. 142 (1975).

(n9)Footnote 34. John Davidson, *Report: Agricultural Foreign Investment Disclosure Act of* 1978, 1 Agricultural L.J. 228, 235 (1979). In *Invasion of the American Heartland*, Saturday Review, (Oct. 15, 1977), the author states on p. 19 that: "In a few decades of harvesting, foreign investors in U.S. farmland could eclipse American ownership. Then the nation's single greatest source of power would pass from the hands of American citizens."

(n10)Footnote 35. For further discussion of the significance of the family farm to American agriculture, *see* ch. 47, *supra*.

(n11)Footnote 36. *See* Clifton B. Luttrell, *The "Danger" from Foreign Ownership of U.S. Farmland*, 61 Fed. Res. Bank, St. Louis Rev. 2 (1979).

(n12)Footnote 37. *Id.*

(n13)Footnote 38. In *Lendorff Geneva, Inc., v. Warren, 246 N.W.2d 815 (Wis. 1976)* it is stated that it is constitutional to exclude non-resident aliens from land ownership since non-resident aliens are not a "suspect" class.

(n14)Footnote 39. *See, e.g.*, Iowa Code Ann. §§ 567.1 - 567.11, which is generally regarded as one of the most restrictive of the state statutes. This statute excludes non-resident aliens, foreign businesses and foreign governments from acquiring any interest in agricultural land in Iowa. If such land is acquired, it must be divested within two years or it will escheat to the state. Land acquired for non-agricultural purposes is limited to 320 acres and must be put to such use within five years.

(n15)Footnote 40. *See, e.g.*, Daina C. Chiu, *The Cultural Defense: Beyond Exclusion, Assimilation, and Guilty Liberalism, 82 Cal. L. Rev. 1053 (1994);* James R. Mason, Jr., *"Pssst, Hey Buddy, Wanna Buy a Country?" An Economic and Political Policy Analysis of Federal and State Laws Governing Foreign Ownership of United States Real Estate, 27 Vand. J. Transnat'l L. 453 (1994).*

Foreign owners do not appear to be taking the land out of agricultural production and no change has occurred in 94

percent of the acres. Agriculture Fact Book: 1998, United States Department of Agriculture, Office of Communications. Chapter 2-H. *See also* Charles Barnard, *Foreign Ownership of U.S. Agricultural Land Through December 1, 1996*, Economic Research Service, United States Department of Agriculture, SD #941, July 1998.

(n16)Footnote 41. The General Mining Law of 1872, *22 U.S.C. § 22* has limited the acquisition of valuable hard rock minerals to "citizens of the United States and those who have declared their intention to become such...."

In addition to the issue of acquisition of mineral rights, there has been some concern regarding foreign interests in the aviation industry, telecommunications, maritime commerce, power generation, banking, insurance, and real estate, including agricultural and mineral land. For further discussion of the general restrictions affecting these areas, *see* Peter Burkard, *Foreign Direct Investments: Restrictions and Reporting Requirements* (Jan. 22, 1993), at http://www.eskimo.com/ larrygj/burkard.html. A further discussion of foreign investment in the U.S. airline industry is found in Angela Edwards, *Foreign Investment in the U.S. Airline Industry: Friend or Foe?* available online at http://www.law.emory.edu/ EILR (reprinted from 9 Emory International Law Review 1995). Regarding alien ownership in the telecommunications industry, *see* Edwin Krasnow and Andres Martinez, *An Alien Ownership Primer: A fifth Here, a Fourth There*, (File Papers, Communications Media Center at New York Law School. Available at www.cmcnyls. edu/PUBLIC/papers/ALIENOWN.HTM.)

CHAPTER 79 FOREIGN OWNERSHIP OF LAND

9-79 Thompson on Real Property, Thomas Editions § 79.04

AUTHOR: Professor James B. Wadley School of Law Washburn University

§ 79.04 History of Restrictions on Foreign Ownership of Land.

[Go To Supp]

The ability of a nation to exclude citizens from other nations from owning land within its boundaries is well-settled and frequently done throughout the world. n47 In our legal system, we have had a series of periods in which extensive measures to exclude aliens were adopted. These periods have been followed by periods of relaxation of the restrictions.

The intensity of exclusionary efforts tends to ebb and flow with the strength of perceived threats of the kind noted *supra*. Thus, the history of regulation of alien ownership of land is a history of periods of intense concern followed by periods of relative disinterest.

§ 79.04(a) Colonial Period.

The English feudal system, which was the precursor of our common law heritage, gave rise to rules which disfavored alien land ownership. n48 These rules generally provided that land could be granted to individuals only upon an oath of loyalty. n49 This predilection toward exclusion became a part of American law during the colonial period and was an important part of our legal system in the early decades of United States history. n50

During the early and middle decades of the 19th century, the country enjoyed a period of amelioration in the severity of the restrictions on alien ownership and, indeed, in some cases, favorable treatment was extended to alien landowners. n51

§ 79.04(b) Early Settlement Periods.

Speculation in Western lands was fairly rampant during the colonial period, with such dignitaries as George Washington himself a major player. n52 After the Civil War, as intense settlement occurred in the Great Plains and Rocky Mountains, it was discovered that foreign investors had begun to acquire substantial land holdings in these areas. n53 This sparked a variety of responses, fueled undoubtedly by fears that the foreign interests would control much of the prime new settlement areas of the country. These included statutes such as the Territorial Land Act of 1887 n54 which limited landholdings by aliens unless they had applied for citizenship. Other statutes of this period which

restricted alien ownership included the Homestead Act, n55 grazing statutes, n56 and mining laws. n57

These statutes became the pattern for many mid-western state restrictions on alien ownership. n58

§ 79.04(c) Anti-Oriental Period.

Shortly after the turn of the century, a second period of restriction of alien ownership occurred. This period focused almost exclusively upon aliens of Oriental ancestry and appears to have been motivated by racial intolerance or fear of competition from such aliens. n59 Restrictions of this period were framed in terms of eligibility for citizenship and denied the right to own land to aliens who were ineligible for citizenship under federal immigration laws. At the time, Orientals were the only racial class excluded from citizenship. n60 These statutes were initially upheld as constitutional, n61 but in *Oyama v. California*, n62 at least four Justices suggested that the legislation may be susceptible to challenge. Most states who patterned their restrictions after this approach n63 found that these statutes were rendered ineffective when the federal immigration laws were amended in 1952 to eliminate the class of "ineligible aliens." n64

There has been little interest in restricting Oriental investment in United States land in recent years, and data suggests that investments have been relatively small. n65 In a recent situation in Nebraska, however, a century-old state statute barring alien ownership of land was invoked to force Japanese investors to give up ranchland in Lincoln County. n66 The County Attorney who brought suit to block the purchase of the 3,680-acre ranch land said that the suit was not racially motivated, though that was disputed by the eventual purchaser of the land -- a Japanese-American. n67

§ 79.04(d) Iron Curtain Restrictions.

After World War II, a period of restriction commenced that was primarily concerned with the possible diversion of American wealth to citizens residing in countries ruled by totalitarian governments. Statutes of this period typically did not proscribe aliens from owning land *per se* but rather sought to allow probate courts to impound the proceeds of inherited lands where it was apparent that an alien heir would not have the real enjoyment of the lands. n68

§ 79.04(e) Oil Embargo Hysteria.

The most recent period of activity in this area followed the successful oil embargo of the mid-1970's. There was considerable concern that the new-found wealth of the oil-producing nations would translate into a high level of petrodollars being invested in American land -- especially farmland. n69 This hysteria soon became a xenophobic attitude toward foreign investment generally n70 and prompted legislatures in a number of states to revisit their efforts to restrict aliens. At least one state made major revisions in an effort to further restrict such ownership. n71 During this period, it was reported that more than half the states had restrictions of some kind on alien ownership of land. n72

§ 79.04(f) The Present.

As discussed *supra*, the intensity of restriction on alien ownership varies directly with the strength of the perceived threat from such alien ownership. After the adoption of the International Investment Survey Act of 1976 n73 and the Agricultural Foreign Investment Disclosure Act of 1978, n74 it was discovered: 1) that the actual level of investment was somewhat less than initially feared n75 and 2) that the land holdings were primarily owned by our "friends" rather than our enemies. n76 The data generated by these acts revealed that the bulk of the land was held by foreigners from Canada, West Germany, Hong Kong, Netherlands Antilles, and the United Kingdom -- not O.P.E.C. or Eastern European nations as popularly feared. As a result, a number of states that at the time were considering legislation that would have intensified restrictions on aliens refused to adopt the proposed statutory changes n77 or actually relaxed the restrictions that were already in place. n78

Since the late 1970's and early 1980's, very little new legislation has been adopted at either the federal or the state level that would suggest that the nation is in another period of intense concern over foreign investment in United States land,

though there are some indications of growing concern relative to the acquisition of mineral patents on the public domain by foreign interests which may develop into significant efforts to restrict such ownership. n79

FOOTNOTES:
(n1)Footnote 47. For a discussion of relatively recent restrictions in other countries, *see* Joshua Weisman, *Restrictions on the Acquisition of Land by Aliens, 28 Am. J. Comp. L. 39 (1980).*

Negotiations are currently underway under the auspices of the Organization for Economic Cooperation and Development (OECD) to establish a broad, high-standard multilateral framework for international investment. The goal of this negotiation is to eliminate discrimination against foreign investors regarding the establishment, expansion and operation of the investments. The Bureau of Economic and Business Affairs has noted that the proposed Multilateral Agreement on Investments will not compel any of its members to allow unrestricted foreign investment in any or all economic sectors. *See Multilateral Agreement on Investment (MAI): The Facts*, released by the Bureau of Economic and Business Affairs, March 23, 1998 and available at http://www.state.gov./ www/issues/ economics/ fs_980323_multilat.html.

(n27)Footnote 73. *22 U.S.C. §§ 3202*-3208.

(n28)Footnote 74. *7 U.S.C. §§ 3501*-3508.

(n29)Footnote 75. *See, e.g., Foreign Ownership of Farm Land in Kansas Minimal*, Topeka Capital-Journal, Sept. 8, 1987, A-8; *Bergland believes foreign investors have 4 million acres of U.S. farms*, Topeka Capital-Journal, Sept. 21, 1979, A-14.

(n30)Footnote 76. *See, e.g.*, Alexander Majchrowicz & Peter DeBraal, *Foreign Ownership of U.S. Agricultural Land Through December 31, 1983: County-Level Data*, U.S.D.A. Economic Research Service, Natural Resource Economics Division, (1984). Data revealed that much of the land was held by foreigners from Canada, West Germany, Hong Kong, Netherlands Antilles, and the United Kingdom, not O.P.E.C. or Eastern European nations as popularly feared.

Most (57 percent) of the investors in United States farmland are from the countries of Canada, the United Kingdom, Germany and France, in that order. Agriculture Fact Book: 1998, United States Department of Agriculture, Office of Communications. Chapter 2-H. *See also* Charles Barnard, *Foreign Ownership of U.S. Agricultural Land Through December 1, 1996*, Economic Research Service, United States Department of Agriculture, SD #941, July 1998.

Maine is the state that continues to have the largest number of acres owned by foreign persons: 3,037,198. This amounts to 17 percent of the state's privately owned agricultural land and 21 percent of all the reported foreign holdings of agricultural land nationwide. Ninety-one percent of the foreign holdings in Maine are owned by four companies. Two of these companies are Canadian, one is a combined United States-French venture and one is a combined United States-Canadian enterprise. Agriculture Fact Book, 1998, United States Department of Agriculture, Office of Communications. Chapter 2-H. *See also* Charles Barnard, *Foreign Ownership of U.S. Agricultural Land Through December 1, 1996*, Economic Research Service, United States Department of Agriculture, SD #941, July 1998.

There appears to be considerable foreign investment in commercial, rather than agricultural, real estate. It has been reported that international firms bought $1.77 billion worth of commercial real estate in Arizona alone in 1995 and an additional $1.87 billion in 1994. Much of this appears to be in the form of purchases of existing buildings or structures rather than raw land. Across the United States, the total investment in commercial real estate appears historically to have been dominated by Japanese investments. With current problems in the Far East, Japanese investments seem to be diminishing. Non-Japanese investments have grown sharply since the mid-1990's, totaling $6.3 billion between 1993 and 1996. The bulk of the non-Japanese investment appears to come from Hong Kong, which totaled $2.9 billion. *See* Catherine Reagor, *Foreign Investors Skip Valley This Time*, The Arizona Republic, Sunday May 17, 1998 (Special Section). *1998 WL 7772349.* Non-farm foreign investments in real estate have tended to occur in cities and increasingly involve office buildings. In 1997, for the first time ever, foreign investors selected Boston as their first choice of cities in which to invest. Second on the list was Washington D.C, followed by San Francisco and then Atlanta, which had headed the list for the past three years. New York was in fifth place. Both Los Angeles and Chicago have dropped significantly in popularity in recent years. *Survey of Foreign Investors Show Confidence*, Real State Weekly, Wed. Nov. 19, 1997 (Vol. 44, No. 16).

In the past, non-farm foreign investments in real estate have tended to occur in the retail area. This type of investment ranked first from 1992 to 1995 but slipped to fourth in 1996 and was second to office buildings in 1997." *Survey of Foreign Investors Show Confidence*, Real State Weekly, Wed. Nov. 19, 1997 (Vol. 44, No. 16). In a recent survey of foreign investors, 67 percent said they planned to increase the level of investment in properties here in 1998. Robert Burgess, *Foreign Investors More Bullish on the U.S. Real Estate Market*, The Commercial Appeal, (Memphis Tenn), Sunday, Nov. 9, 1997.

(n31)Footnote 77. For example, in Kansas, H.B. No. 2930 was defeated in 1978 and H.B. No. 2758 died on the Senate Floor in 1980.

(n32)Footnote 78. *See, e.g.*, Connecticut which repealed §§ 42-57, 54-57 and 45-278a in 1985. These provisions, which restricted alien ownership of land, were replaced by § 45-58a which provides that any alien, whether or not a resident in the United States, may acquire, lease, inherit or transfer any real estate in the state in the same manner as citizens.

(n33)Footnote 79. *See The New Gold Rush*, U.S. News and World Report 44-56, October 28, 1991, detailing the extent to which the gold mining industry is dominated by foreign investors. It is claimed that 15 of the biggest 25 gold mines are foreign-owned and that overseas owners hold 40 to 90% of three others.

This has occurred despite restrictions in federal mining law that allows only citizens of the United States or those who have applied for citizenship to patent mining claims on public domain land. The fear of foreign domination of the industry has motivated some efforts to reform and update the General Mining Law. *Id*.

Philip Hocker, President of Mineral Policy Center in Washington, D.C., is quoted as saying that "in the next 10 years, more than $10 billion in gold owned by the taxpayers will pass into private hands in Nevada alone. No other country flat gives away its resources like this. Would we allow domestic or foreign corporations to mine coal, pump oil or cut timber free?" *Id*.

CHAPTER 79 FOREIGN OWNERSHIP OF LAND

9-79 Thompson on Real Property, Thomas Editions § 79.05

AUTHOR: Professor James B. Wadley School of Law Washburn University

§ 79.05 Defining Alienage for Purposes of Restriction.

[Go To Supp]

Provisions of state and federal statutes which restrict foreign ownership of land tend to apply to "aliens." It is necessary to understand who is or is not covered by such provisions.

A number of factors may be relevant to the determination of alienage. For example, with respect to individuals, it may make a difference:

1) whether the individual is eligible for citizenship; n80

2) where the individual resides; n81

3) whether the individual has become a bona fide resident of the state; n82

4) whether an individual has expressed an intention to become a United States citizen; n83 or

5) whether the affected individual is acting in a representative capacity n84 for foreign interests. n85

In most cases, where individuals are concerned, citizenship and residence factors tend to dominate such that the determination of alienage will be based on both citizenship and place of residence. For example, the Agricultural Foreign Investment Disclosure Act n86 applies to:

1) Individuals who are not U.S. Citizens or citizens of the Northern Mariana Islands or the Trust Territory of the Pacific Islands;

2) Individuals who are not lawfully admitted to the United States for permanent residence or who are not paroled into the United States under the Immigration and Nationality Act. n87

Thus, "aliens" are commonly defined as any persons who are not citizens of the United States and who are not residents of the United States or of some state, territory, trusteeship, or protectorate of the United States. n88

"Non-resident aliens" are typically defined as individuals who are not citizens of the United States and who have not been classified as permanent resident aliens by the United States Immigration and Naturalization Service. n89 "Citizenship" tends to be defined in terms of United States citizenship. n90 In some states, the acceptable class of individuals is those from nations "at peace" with the United States n91 or "not enemies" of the United States. n92 Residence may be defined as simply lawful admittance to the country or the state for purposes of permanent residence. n93 In some states, the residency must be "bona fide." n94 The class of residents may also include those who have stated their intent to become citizens. n95

Foreign business entities may also be subject to restriction as "aliens." In some cases, the entity must be truly foreign in the sense that it is owned or controlled by individuals who reside in a country other than the United States to qualify. n96 In others, however, all that may be required is that the corporation be organized outside of the state in which the restriction has been adopted -- even though that may simply be another state within the United States. n97 In a case in Oklahoma, n98 it was argued that "aliens" included only natural persons and therefore excluded corporations. The District Court agreed, but on appeal, the Oklahoma Supreme Court affirmed that the corporation in question was not barred by the Constitution from holding land, but for a different reason. The court found that although corporations were "persons" and "aliens" under the terms of the provision, the corporation had become "domesticated" by virtue of becoming licensed in the state.

Definitions of foreign entities tend to be broader than those involving individuals. This reflects the fact that there is greater fear of outside control from business entities than from individuals. n99

The general result of approaching the problem of alienage as a matter of both citizenship and residence has been to structure the restrictions such that they may apply differently to resident aliens than to non-resident aliens, with the latter being more severely restricted. n100 The Telecommunications Act of 1966 restricts ownership opportunities by aliens in two ways. First, it adds a restriction to Section 310 which limits the granting of certain licenses to corporations in which more than a specified amount of capital stock is owned by aliens. n101 No broadcast, common carrier, aeronautical en route or aeronautical fixed radio station license is to be granted to or held by any corporation in which more than one fifth of the capital stock is directly or indirectly held by an alien, or a representative thereof, or by a foreign government or by a corporation organized under the laws of a foreign country. Similarly, such licenses cannot be held by corporations that in turn are controlled by such foreign interests. Second, it includes within the categories of exclusion, not only "aliens" but entities such as foreign governments and corporations organized under the laws of foreign countries. n102

As a general rule, foreign investors enjoy the same rights and privileges as U.S. citizens in that there are very few restrictions on foreign investors in the United States regarding repatriation of capital, the remittance of profits and dividends, or the transfer of royalties from the United States. Most of the restrictions affect the aviation industry, telecommunications, maritime commerce, power generation, banking, insurance, and real estate, including agricultural land and mineral. n103

CHAPTER 79 FOREIGN OWNERSHIP OF LAND

9-79 Thompson on Real Property, Thomas Editions § 79.06

AUTHOR: Professor James B. Wadley School of Law Washburn University

§ 79.06 Defining Land for Purposes of Restriction.

[Go To Supp]

Many statutes proscribe the "indirect" as well as "direct" "ownership" of any "interest" in the land though such terms are often undefined in the statutes themselves. n104 These acts may exclude security interests, n105 leaseholds of short duration, n106 contingent future interests, non-contingent future interests which do not become possessory upon the termination of the present possessory interest, surface or subsurface easements, and mineral rights. n107

Some statutes proscribe the ownership of any interests in any land. For example, one state restricts aliens not eligible for citizenship from transmitting or inheriting any "real estate, or any interest therein" in that state. n108 In Wyoming, non-resident aliens are prohibited from "acquiring, possessing, transferring, transmitting or inheriting real property or having in whole or in part the beneficial use thereof except for use as a personal residence and not in excess of one acre." n109 Even indirect interests may be covered by the statutes. For example, in Wisconsin, n110 non-resident aliens and certain corporations n111 may not "acquire, own or hold any interest, directly or indirectly, except for debt security purposes, in more than 640 acres of land except as authorized by this section. The section contains a number of exceptions, such as for railroad and pipeline corporations, mineral interests, oil and gas leases and so forth." Similarly, it has been argued in at least one jurisdiction that a contract between a farmer and a corporation to raise hogs for the corporation constituted an indirect acquisition of an interest in agricultural land and was therefore subject to the statutory prohibition. n112

In contrast, some statutes may restrict only the foreign "ownership" of a particular kind of land. These statutes typically enjoin the ownership of "agricultural land." n113 Where the restriction is limited to agricultural land, that land tends to be broadly defined as land "which is capable, without substantial modification to the character of the land, of supporting an agricultural enterprise." n114 What constitutes an "agricultural enterprise" may be similarly broadly defined. n115 The land, to be defined as agricultural land, may be required to meet minimum size n116 or location criteria. n117 In Alaska, n118 classes of people are listed who can acquire mineral rights in public land.

In some states, the location of the land may be critical. In Nebraska, the prohibition has been construed to apply to land located more than three miles outside the city limits of an incorporated city. n119

Liens have posed an interesting problem. In one situation, n120 the Missouri statute was construed such that a mortgage-type lien was not considered to be an interest in real property subject to the statute since it was considered to be neither an estate in land nor a right to any beneficial interest therein. Thus, an alien did not violate the statute by purchasing land with the proceeds of a loan from an alien that was secured with a deed of trust. However, it was opined that the alien lender could not acquire an interest in the land in the event of foreclosure either directly or through an agent, trustee or other fiduciary.

In contrast, it has been held n121 that the acquisition of land as a result of foreclosure of a lien did not violate restrictions on alien ownership since the original purpose of the lien was to secure satisfaction of the debt and not for the purpose of acquiring land.

Licenses may also be treated as not representing an interest in the land. In one case, n122 it was held that a one-year license to fish held by a corporation, the majority of the capital stock of which was held by aliens, which entitled the corporation to locate and occupy a fishing site for the duration of the license, did not violate restrictions against alien ownership since the holder of the license did not acquire a title interest of any kind in real property.

In some jurisdictions, it has been held that restrictions on the ownership of realty will not bar the ownership of stock in a corporation where the stock may be considered personalty instead of realty and where the corporation is considered to be a legal entity distinct from its shareholders. n123

FOOTNOTES:

(n1)Footnote 104. Agricultural Foreign Investment Disclosure Act of 1978, *7 U.S.C. 3501*-3508; 7 C.F.R. § 781.2(c). In some states, the restriction on ownership pertains only to agricultural land. The Attorney General in Kansas has recently ruled that swine finishing facilities do not constitute "farming" under the Kansas statute restricting the ability of certain corporations to own farmland in the state. The opinion cited as authority *T-Bone Feeders, Inc. v. Martin, 236 Kan. 641 (1985),* which held that there was a distinction between a commercial feedlot and farming. The commercial feedlot was a specialized agri-business that was engaged in an agricultural endeavor but not engaged in farming. Att'y Gen. Op. 97-72 (Sept. 15, 1997). In exactly the opposite manner, the Iowa Supreme Court recently eliminated the distinction between traditional and commercial agriculture for purposes of zoning restrictions. In *Thompson v. Hancock County, 539 N.W.2d 181 (Iowa 1995),* and *Keuhl v. Cass County, 555 N.W.2d 686 (Iowa 1996),* the Iowa Supreme Court determined that large commercial hog facilities were engaged in agriculture for purposes of zoning laws. In so doing, the court overturned long-standing precedent, *Farmegg Products, Inc. v. Humboldt County, 190 N.W.2d 454 (Iowa 1971).* The rule in Iowa had been that agricultural use was to be defined in terms of "traditional" activities.

(n2)Footnote 105. *But see* Op. Att'y Gen. Mo. 89-84 (August 1, 1984) which extends the foreign ownership restriction to land acquired as a result of enforcement of security provisions in a trust deed.

(n3)Footnote 106. *Id.* Leases of less than 10 years are excluded. Iowa Code § 567.1 *et seq.*, excludes leases which do not exceed 5 years in duration.

(n4)Footnote 107. *Id.*

(n5)Footnote 108. Kan. Stat. Ann. § 59-511.

(n6)Footnote 109. Wyo. Stat. § 34-15-101.

(n7)Footnote 110. Wis. Stat. Ann. § 710.02.

(n8)Footnote 111. Affected are such corporations that are owned in excess of 20% by aliens not residents of a state of the United States or by corporations not created under the laws of the United States or a state of the United States. *Id*.

(n9)Footnote 112. Op. Att'y Gen. 87-160 (Kansas, Oct. 30, 1987).

(n10)Footnote 113. Mo. Ann. Stat. § 442.560. Minn. Stat. § 500.221, subd. 2, limits rights to acquire, directly or indirectly, any interest in agricultural land to those who are permanent citizens of the United States or permanent residents. Land acquired for security interests or taken by devise or inheritance is excluded.

(n11)Footnote 114. Mo. Ann. Stat. § 442.556(1).

(n12)Footnote 115. *See, e.g.*, Mo. Ann. Stat. § 442.556(1) in which "agricultural enterprise" is defined to include but is not limited to "land used for the production of agricultural crops or fruit or other horticultural products, or for the raising or feeding of animals for the production of livestock or livestock products, poultry or poultry products, or milk or dairy products."

(n13)Footnote 116. Mo. Ann. Stat. § 442.566(1) requires that the land be more than 5 acres. Iowa Code § 567.1 *et seq*. allows for the purchase of up to 320 acres so long as the land is converted to a non-farm use within five years. Adjacent parcels of land under the same ownership may be deemed part of a single tract. Mo. Ann. Stat. § 442.566(1).

(n14)Footnote 117. For example, prior to the adoption of the present version of Iowa Code § 567.1 *et seq*., non-resident aliens were allowed to acquire up to 640 acres outside the corporate limits of a city and unlimited holdings inside city limits.

(n15)Footnote 118. Alaska Stat. § 38.05.190.

CHAPTER 79 FOREIGN OWNERSHIP OF LAND

9-79 Thompson on Real Property, Thomas Editions § 79.07

AUTHOR: Professor James B. Wadley School of Law Washburn University

§ 79.07 State Power Over Alien Landowners, Generally.

[Go To Supp]

The authority of states to restrict aliens is well settled. It has been held that:

> [t]he law of nations recognizes the liberty of every government to give foreigners only such rights, touching immovable property within its territory, as it may see fit to concede... In our country, this authority is primarily in the States where the property is located. n124

Likewise, it has been held that "[t]he power of the State to regulate the tenure of real property within her limits, and the modes of its acquisition and transfer ... is undoubted." n125 This has been extended to grant to the states great latitude regarding the ability to limit, condition or even abolish the power of testamentary disposition. n126

Nevertheless, the power of the states to regulate is not unlimited and may be affected by the federal constitutional principles of equal protection and due process n127 and by potentially pre-emptive federal authority over commerce and foreign affairs. n128

As noted *infra*, n129 many states do not restrict alien ownership of land. Indeed, in these jurisdictions, the statutes simply affirm the right of aliens to be treated in the same manner as citizens.

CHAPTER 79 FOREIGN OWNERSHIP OF LAND

9-79 Thompson on Real Property, Thomas Editions § 79.08

AUTHOR: Professor James B. Wadley School of Law Washburn University

§ 79.08 Restrictions on the "Acquisition, Holding or Transfer" of Land by Alien Individuals.

[Go To Supp]

Many statutes which limit the right of aliens to own land appear to restrict the "acquisition," "holding," or "transfer" of land by or to aliens. In a number of states, the prohibition is rather absolute n130 -- particularly for non-resident aliens. n131 In some states, statutes limit the time and/or amount of such holdings. n132

"Acquisition" tends to be defined broadly to include taking title or any lesser-covered interest by grant, purchase, devise, descent or otherwise. n133 Kentucky includes aliens who have "contracted to purchase" within the regulated class. n134 Oklahoma provides that an alien may not hold title in fee simple but may hold it under certain other circumstances, such as where the purchase is made under any legal proceeding foreclosing liens in favor of the aliens. n135

Even though the land may be lawfully acquired, restrictions on "holding" may limit ownership to a specific length of time. For example, in Iowa, aliens may acquire up to 320 acres of farmland so long as that land is converted to a non-farm use within five years. n136 If the status of the alien changes such that ownership is no longer permitted, divestiture of the land must occur within two years. n137 Similarly, land inherited by aliens in Kentucky must be divested within eight years from the date of the final settlement of the decedent's estate from which it was acquired. n138

Restrictions on "transfers" generally do not refer to the disposition of land improperly acquired by aliens. Rather, they tend to address transfers to aliens and in most respects seems to be designed to cover anything that the term "acquisition" may overlook.

COMPUTER-ASSISTED RESEARCH

LEXIS: restrict! w/15 acquisition! or holding! or transfer! w/5 land! w/15 alien!

FOOTNOTES:

(n1)Footnote 130. *See* Neb. Rev. Stat. Ann. § 76-402, which prohibits aliens and corporations not organized in the state of Nebraska from acquiring title to (or any lesser interest in) or a leasehold interest of more than 5 years in any land in the state. Land acquired by aliens must be disposed of within 5 years.

(n2)Footnote 131. At the height of restriction in the late 1970's, six states were reported as having restrictions of this type. These included Alaska, Hawaii, Mississippi, New Hampshire, New Jersey and Oklahoma. *See* Note, *Our Land is Your Land: Ineffective State Restriction of Alien Land Ownership and the Need for Federal Legislation, 13 J. Marshall L. Rev. 679, 689 (1980).*

The Alaska and Hawaii restrictions were the result of *48 U.S.C. § 1501,* which prohibited alien ownership of land in United States territories, which had not been repealed at the time of statehood. Alaska now provides that aliens, resident or non-resident, have the same rights as citizens. Ala. Code § 35-1-1. Haw. Stat. § 560:2-112 provides that no person is disqualified to take as an heir because the person or a person through whom the person claims is or has been an alien.

Mississippi currently limits ownership only by non-resident aliens from Syria and Lebanon. Miss. Code Ann. § 89-1-23. Currently, Okla. Const. art. 22, § 1 provides that no alien or person who is not a citizen of the United States shall acquire title to or own land in the state. There is an exception for aliens who become bona fide residents of the state. In *State v. Hillcrest Inv., Ltd., 444 U.S. 984 (1979)* it was held that this restriction applies only to alien natural persons and not to corporations. On appeal, the Oklahoma Supreme Court affirmed that the corporation in question was not barred by the Constitution from holding land. The court reasoned, however, that although corporations were "persons" and "aliens" under the terms of the provision, the corporation had become "domesticated" by virtue of becoming licensed in the state.

In New Hampshire, N.H. Rev. Stat. § 477:20 allows alien residents to obtain and grant land as citizens. However, non-resident aliens have been held to be barred from inheriting land by virtue of this restriction. *Lazarou v. Moraros, 143 A.2d 669 (N.H. 1958); In re Estate of Constan, 384 A.2d 495 (N.H. 1978).*

(n3)Footnote 132. At the height of the most recent hysteria regarding alien landownership, 9 jurisdictions reported having restrictions of this type. *See* Note, *Our Land is Your Land: Ineffective State Restriction of Alien Land Ownership and the Need for Federal Legislation, 13 J. Marshall L. Rev. 679, 689 (1980).*

These included Illinois, Indiana, Kentucky, Missouri, Nebraska, Pennsylvania, South Carolina, South Dakota and Wisconsin.

Of these states, Illinois has made the most extensive revisions in recent years. While the provisions in some of the other listed states have remained intact, there have been changes in several other states as well.

For example, non-resident aliens in Indiana are still limited to hold the land only 5 years before it must be sold. Ind. Code Ann. § 32-1-7. Ind. Code Ann. § 31-1-8-2 limits aliens to the acquisition of 320 acres. The excess must be sold within 5 years or it escheats to the state.

Likewise, in Kentucky, Ky. Rev. Stat. § 381.300 provides that land of non-resident aliens escheats to the state after 8 years unless the alien becomes a citizen. Ky. Rev. Stat. § 381.320 limits resident aliens landownership for residence, business, trade or manufacturing purposes to not more than 21 years.

In Mississippi, Miss. Code Ann. § 89-1-23 grants resident aliens the same rights to own property as are possessed by citizens. Non-residents (except non-resident Syrian and Lebanese) are not given the same rights and if the property is taken for security, they may not hold it more than 20 years. Acreage acquired is limited to 320 acres for industrial development and 5 acres for residential purposes.

In Wyoming, Wyo. Stat. § 34-15-101 prohibits non-resident aliens from acquiring, possessing, transferring, transmitting or inheriting real property or having in whole or in part the beneficial use thereof except for use as a personal residence and not in excess of one acre.

CHAPTER 79 FOREIGN OWNERSHIP OF LAND

9-79 Thompson on Real Property, Thomas Editions § 79.09

AUTHOR: Professor James B. Wadley School of Law Washburn University

§ 79.09 Restrictions on Inheritance.

[Go To Supp]

Many states restrict the right of aliens, especially non-resident aliens, to inherit land in the United States. This is done in a variety of ways. In some states, the ability to inherit may be denied outright or severely restricted unless the alien is a resident or a citizen. n139 In other states, the right to inherit may be predicated upon eligibility for citizenship. n140 In a number of states, the right to inherit land may be based upon a determination of whether the recipient will actually receive the benefit, use or control of the land. n141 Finally, the right to inherit may depend upon whether the foreign nation grants reciprocal rights to American citizens. n142 The statutes of these last two kinds of jurisdictions are of questionable validity in light of the Supreme Court's decision in *Zschernig v. Miller*. n143

CHAPTER 79 FOREIGN OWNERSHIP OF LAND

9-79 Thompson on Real Property, Thomas Editions § 79.10

AUTHOR: Professor James B. Wadley School of Law Washburn University

§ 79.10 Restrictions of Alien Business Entities.

[Go To Supp]

Business entities such as corporations may also be restricted under state and federal statutes. Several states, n144 primarily in the midwest, have adopted statutes that restrict corporate ownership of farmland or otherwise limit the farming activities of corporations. n145 These statutes apply to corporations or other covered business entities regardless of where the entity may be organized and as a result are a primary means by which land ownership by foreign corporations is restricted. n146

Many of these statutes seek to restrict the *ownership* n147 of farmland while others seek to discourage corporations from engaging in *farming activities*. n148 In the latter case, of course, there may be serious questions as to what constitutes farming, which is generally broadly defined. n149

Most of the statutes which restrict corporate ownership of farmland actually permit corporations to own farmland to the extent that they comply with such limitations as the size or nature of the business, the family status of the incorporators, or engage in a particular agricultural activity. n150 Many of these statutes n151 appear designed to prevent corporations not actually engaged in farming from owning farmland. This apparently is designed to exclude corporations, such as insurance companies and banks, from investing in farming and thereby removing the land from availability to individual farmers. Even though the land may be leased to individuals for farming purposes, and perhaps actually farmed, these statutes appear to be more concerned that farmers not be denied an opportunity to own the land than that the land actually be used for farming purposes.

Generally, the corporate restriction statutes typically exempt interests taken for security purposes, or land acquired in the process of debt collection, land operated for research or experimental purposes, acreage needed for normal non-farm business n152 expansion purposes, and so forth, n153 from the prohibition against owning land or engaging in agriculture. On the other hand, it has been argued in at least one jurisdiction that a contract between a farmer and a corporation to raise hogs for the corporation constituted an indirect acquisition of an interest in agricultural land, and therefore, such contracts are subject to the statutory prohibition. n154

In some states, the prohibition against foreign corporations acquiring land within the jurisdiction does not seem to restrict individual aliens from owning stock in domestic corporations which own land within the jurisdiction. n155 The rationale for such an approach appears to be that the stock is to be considered personalty instead of realty and the corporation is considered to be a legal entity distinct from its shareholders. n156

Under some statutes, even when land acquired is lawfully acquired by corporations pursuant to stated exceptions, that land may not be held beyond a specified time or must be disposed of within a certain period of time. n157 If the land is not disposed of during that time, the jurisdiction orders that the land be sold at public sale, n158 or it may escheat to the state. n159 In a recent case, the North Dakota three-year holding period that required a bank to divest itself of land acquired as a result of the foreclosure of a mortgage n160 was challenged on the ground that it was different from and therefore pre-empted by the longer n161 (five-year) federal holding period of the National Bank Act. n162 The court held that there was no pre-emption. n163 The court reasoned that both provisions essentially served the same function -- to prevent the accumulation of farmland and ranchland by corporations -- and that the state law actually enhances the primary purpose of the federal law. n164

A recent Kansas Attorney General opinion considered whether the acquisition of farmland by an insurance company constituted land "necessary for the operation of the business" under exceptions to the statute which restricts corporate ownership of farmland. n165 In this case, an insurance company had acquired farmland as a result of the foreclosure of a loan. The company understood that under Kansas law, that land had to be disposed of within 10 years. n166 It determined that the value of the land could be enhanced if additional land was added to it. It therefore wanted to purchase adjacent property to sell with the foreclosed land. The Attorney General ruled that later acquisition was not essential to the company's non-farm business purposes and would be barred by the statute. n167

In 1988, the Attorney General had ruled that hog production contracts between farmers and corporations resulted in the creation of an interest in farmland on the part of the corporation that violated the Kansas corporation statute. In response, the legislature enacted Kan Stat. Ann. § 17-5904(b) which provides:

Production contracts entered into by a corporation, trust, limited liability company, limited partnership or corporate partnership and a person engaged in farming for the production of agricultural products shall not be construed to mean ownership, acquisition, obtainment or lease, either directly or indirectly, of any agricultural land in this state.

In 1994, the legislature adopted Kan. Stat. Ann. § 17-5908 which permitted swine production facilities to locate in counties upon approval of a local ordinance authorizing the same. The question was whether a production contract that involves the raising of swine constitutes a "production contract" under § 17-5904(b), which is exempt from the statute, or constitutes a "swine production facility" under § 17-5908, which can be permitted only by local option. In the case at issue, the land, structures and related equipment would be owned by the farmer and the nursery pigs would be owned by the corporation. The Attorney General ruled that under those circumstances, the facility was not a swine production facility nor is it subject to the general prohibition against corporate farming because of § 17-5904(b). n168 In a related opinion, the Attorney General held that "swine finishing facilities" were not even considered "farming" for purposes of the corporate farm statute. In that opinion, the Attorney General ruled that finishing facilities were commercial feedlots and therefore not considered farming as defined in Kan. Stat. Ann. § 17-5903(h). n169

In an opinion relating to the procedures necessary to allow hog corporations to locate in a particular county under Kan. Stat. Ann. § 17-5908, the Kansas Attorney General has ruled that timely publication is jurisdictional in nature. Thus, an ordinance adopted by the county will not be effective until it has been published as required by the statute. The statute requires that a notice be published twice, in consecutive weeks, after the ordinance has been enacted. In a case arising in Hodgeman County, a local option was adopted in 1994 but the notice was only published once at that time. In January 1997, the ordinance was published again, this time two consecutive times as required by statute. The Attorney General ruled that that publication was valid and resulted in the institution of the ordinance, notwithstanding that more than two years had passed between the time of the adoption of the ordinance and the publication. The ordinance did not lapse

because of that delay, nor was the defect cured by the passage of time because the statute did not set a time frame within which publication must occur. n170 As a result of the fact that the ordinance took affect upon publication in 1997, a statutory 60-day period in which opponents could protest began to run. As a result of a timely protest petition, an election was held pursuant to the statute and the county residents voted against the resolution. According to the terms of the statute, that rendered the county ordinance invalid.

The Kansas corporate farming statute which permits the local option regarding swine and dairy production allows for a protest election, after the adoption of an ordinance permitting hog farms to locate in a particular county. n171 Whether or not such a protest is held, the Attorney General has ruled that the county may rescind its own resolution giving that permission. n172 The question has arisen whether the question of rescission may be delegated to the electorate by placing the matter on the ballot and making the outcome dependent upon the outcome of the vote. Here, the Attorney General has ruled that home rule powers will only permit an advisory election rather than a binding one since the matter at law is not a charter resolution. n173

The primary concern regarding corporations appears to be directed at land used for agricultural purposes. There has been little historic concern regarding ownership of non-agricultural land by foreign investors. In fact, foreign investment in commercial real estate has been considerable throughout the recent history of our nation and seems to be growing. n174 Except in the areas of aviation, telecommunications, maritime commerce, power generation, banking, insurance and mineral rights, the investments have generally been unrestricted and, as a general rule, foreign investors in non-agricultural land tend to enjoy the same rights and privileges as U.S. citizens. n175

COMPUTER-ASSISTED RESEARCH

LEXIS: restrict! w/15 alien! w/15 business! w/30 land!

FOOTNOTES:

(n1)Footnote 144. Although federal legislation has been proposed from time to time, none has been adopted. *See, e.g.*, the Family Farm Antitrust Act of 1979, § 334, which would have limited corporate investment in farmland, banned foreign ownership of U.S. farms and would have mandated periodic reporting requirements; H.R. 941 (1977); H.R. 6526 (1975).

For further discussion, *see* Brian Stayton, *A Legislative Experiment in Rural Culture: The Anti-Corporate Farming Statutes, 59 UMKC L. Rev. 679 (1991);* Winston Smart & Allen C. Hoberg, *Corporate Farming in the Anti-Corporate Farming States*, Nat'l Center for Agric. L. Res. & Info., (1989). *See also* Christopher F. Corr, *A Survey of United States Controls on Foreign Investment and Operations: How Much is Enough?, 9 Am. U. J. Int'l L. & Pol'y 417 (1994);* James R. Mason, Jr., *"Pssst, Hey Buddy,Wanna Buy a Country?" An Economic and Political Policy Analysis of Federal and State Laws Governing Foreign Ownership of United States Real Estate, 27 Vand. J. Transnat'l L. 453 (1994).*

Corporations own 79 percent of foreign held acreage, partnerships own 12 percent and individuals own 6 percent. The remaining 3 percent is held by trusts, institutions and associations. Agriculture Fact Book: 1998, United States Department of Agriculture, Office of Communications. Chapter 2-H. Since the law requires that corporations in which foreign holdings amount to 10 percent or more must register their land ownership, approximately 61 percent of reported foreign holdings are actually held by U.S. corporations. Only 39 percent of the foreign-held land is owned by investors that are not affiliated with United States firms. When the 14.3 million acre total is adjusted for these partial interests, the amount drops to approximately 13.1 million acres. Charles Barnard, *Foreign Ownership of U.S. Agricultural Land Through December 1, 1996*, Economic Research Service, United States Department of Agriculture, SD #941, July 1998.

(n2)Footnote 145. These include Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Oklahoma, South Dakota, and Wisconsin. In 1982, the voters in Nebraska adopted a constitutional amendment in a

statewide referendum that restricted corporate ownership of farmland. In addition, a number of states considered but did not adopt such legislation: Colorado, Illinois, Indiana, Tennessee, Montana and Kentucky. Virginia, and Oregon have had minor restrictions. Some states, such as California, Kentucky, Michigan, Mississippi, and Texas have limited, from time to time, the length of time farmland can be owned, leased or farmed. For further discussion, *see* Edmonson & Krause, *State Regulation of Corporate Farming*, Agricultural Economic Report No. 419, Economics, Statistics & Cooperative Service, U.S. Dep't of Agriculture (1978); Note, *An Equal Protection Analysis of the Classifications in Initiative 300: The Family Farm Amendment to the Constitution of the State of Nebraska, 62 Neb. L. Rev. 770 (1983);* Morrison, *State Corporate Farm Legislation, 7 U. Tol. L. Rev. 961 (1976);* Phelps, *Corporate Farming Statutes*, 2 Whitier L. Rev. 277 (1981);* Note, *North Dakota's Corporate Farming Statute: An Analysis of the Recent Change in the Law, 58 N.D. L. Rev. 282 (1982);* Stanton, *A Legislative Experiment in Rural Culture: The Anti-Corporate Farming Statutes, 59 UMKC L. Rev. 679 (1991).* Shuler, Ruhlin & Karr, *Obstacles to Foreign Investment in U.S. Agriculture*, 7 Cal. Int'l Pract. 36 (1996); Geist, *Toward a General Agreement on the Regulation of Foreign Direct Investment, 26 Law & Pol'y Int'l Bus. 673 (1995).*

(n3)Footnote 146. *See, e.g.*, Op. Att'y Gen. Kan. 88-54 (April 8, 1988), holding that a corporation domiciled in a foreign country is affected by the provisions of the Kansas Farm Corporation statute in the same manner as domestic corporations and a change in the place of incorporation will not cause the corporation to lose any exempt status it may enjoy under the Kansas statute.

(n4)Footnote 147. *Id.*

(n5)Footnote 148. Compare Minn. Stat. Ann. § 500.24 subd. 3:

"No corporation or pension or investment fund shall engage in farming; nor shall any corporation or pension fund, directly or indirectly, own, acquire or otherwise obtain an interest, whether legal, beneficial or otherwise, in any title to real estate used for farming or capable of being used for farming in this state...."

(n6)Footnote 149. In at least one case, a court has held that land leased on a cash-rent basis did not constitute "farming" since there was no control over or involvement with any of the farming activities. *See* Kansas ex rel. Stephan v. E.I. Du Pont de Nemours & Co., #80 CV 893 (Dist. Ct. Shawnee County, Kan., Feb. 18, 1981).

Farming is typically defined fairly broadly under these statutes to include the cultivation of and the production of agricultural crops, the raising of poultry, the production of eggs, the production of milk, the production of fruit or other horticultural crops, grazing or the production of livestock. Kan. Stat. Ann. § 17-5903(h). Farming may not include the production of timber, forest products, nursery products or sod or include contracts to provide spraying, harvesting or other farm services. *Id.* For further discussion of what constitutes farming, *see* ch. 47, *supra*.

(n7)Footnote 150. *See, e.g.*, Kan. Stat. Ann. § 17-5904(a):

No corporation, trust, limited partnership or corporate partnership, *other than a family farm corporation, authorized farm corporation, limited agricultural partnership, family trust, authorized trust or testamentary trust* shall, either directly or indirectly, own, acquire or otherwise obtain or lease any agricultural land in this state. [emphasis added]

Family farm corporations are defined to include only those operations that are founded for the purpose of farming, and in which the majority of voting stock is held by natural persons related to each other, all of whom have a common ancestor within the third degree of relation, either by blood or adoption, or are the spouses or stepchildren of such persons. At least one of the stockholders must reside on the farm or be actively engaged in the labor or management of the farming operation. § 17-5903(j).

Authorized farm corporations are defined as corporations founded for the purpose of farming, other than family farm

corporations, in which all of the incorporators (which must be natural persons and cannot exceed 15 in number) are Kansas residents. At least 30% of the stockholders must be persons residing on the farm or actively engaged in the day-to-day labor or management of the farm. § 17-5903(k).

Limited agricultural partnerships are defined as partnerships founded for the purpose of farming which do not involve more than 10 partners, who must be natural persons and at least one of which must reside on the farm or be actively engaged in the labor or management of the farming operation. § 17-5903(d).

Family trusts are trusts in which a majority of the equitable interest is held by and the majority of the beneficiaries are natural persons related to each other, all of whom have a common ancestor within the third degree of relation, either by blood or adoption, or are the spouses or stepchildren of such persons. § 17-5903(m).

Authorized trusts are trusts, other than family trusts, in which the beneficiaries are natural persons, not exceeding 15 in number, and the income thereof is not exempt from taxation under either state or federal law. § 17-5903(n).

Testamentary trust is a trust created by bequeathing or devising property in a will.

(n8)Footnote 151. *See, e.g.*, Kan. Stat. Ann. § 17-5904.

(n9)Footnote 152. *See* Op. Att'y Gen. 88-170 (Dec. 20, 1988), holding that land an insurance company wished to purchase that was located adjacent to farmland acquired through foreclosure in order to enhance the value of the foreclosed land was not "necessary to the operation of the business and therefore prohibited by the act."

(n10)Footnote 153. *See, e.g.*: Kan. Stat. Ann. § 17-5904; Minn. Stat. Ann. § 500.24 subd. 3; Neb. Const. art. XII, § 8(1).

(n11)Footnote 154. Op. Att'y Gen. 87-160 (Kansas, Oct. 30, 1987).

(n12)Footnote 155. *See, e.g.*, Op. Att'y Gen. Ky. 78-585 (Aug. 23, 1978).

(n13)Footnote 156. Op. Att'y Gen. Ky. 78-585 (Aug. 23, 1978).

(n14)Footnote 157. *See, e.g., Asbury Hosp. v. Cass County, 7 N.W.2d 438 (N.D. 1943), aff'd, 326 U.S. 207 (1945),* upholding forced divestiture against a due process challenge. The rationale for the holding was that due process did not guarantee a return on the investment, only a fair opportunity for the same, and that the time provided by the statute, during which the owner could enjoy the land and seek a buyer, gave the owner ample time in which to seek to maximize the return from the property.

(n15)Footnote 158. *See, e.g.*, Minn. Stat. Ann. § 500.25 subd. 5.

(n16)Footnote 159. *See* Ky. Rev. Stat. § 381.300.

(n21)Footnote 164. *Id. See also National Bank v. Matthews, 98 U.S. 621 (1878).* For further discussion, *see* Hartwin Bungert, *Equal Protection for Foreign and Alien Corporations: Towards Intermediate Scrutiny for a Quasi-Suspect Classification, 59 Mo. L. Rev. 569 (1994).*

(n22)Footnote 165. Att'y Gen. Op. 88-170 (Dec. 20, 1988).

(n23)Footnote 166. Kan. Stat. Ann. § 17.5904(4).

(n24)Footnote 167. Att'y Gen. Op. 96-42 (April 29, 1996).

(n25)Footnote 168. Att'y Gen. Op. 96-42 (April 29, 1996).

(n26)Footnote 169. The opinion cited as authority, *T-Bone Feeders, Inc. v. Martin, 236 Kan. 641 (1985),* held that there was a distinction between a commercial feedlot and farming. The commercial feedlot was a specialized agri-business that was engaged in an agricultural endeavor but not engaged in farming. Att'y Gen. Op. 97-72 (Sept. 15, 1997).

(n27)Footnote 170. Att'y Gen. Op. 97-27.

(n28)Footnote 171. Kan. Stat. Ann. § 17-5908.

(n29)Footnote 172. Att'y Gen. Op. 97-83 (Oct. 8, 1997).

(n30)Footnote 173. Att'y Gen. Op. 97-72 (Sept. 15, 1997).

(n31)Footnote 174. It has been reported that international firms bought $1.77 billion worth of commercial real estate in Arizona alone in 1995 and an additional $1.87 billion in 1994. *See* Catherine Reagor, *Foreign Investors Skip Valley This Time*, The Arizona Republic, Sunday May 17, 1998 (Special Section). *1998 WL 7772349.* Much of this non-agricultural investment seems to be in the form of purchases of existing buildings or structures rather than raw land. Across the United States, the total investment in commercial real estate appears historically to have been dominated by Japanese investments. With current problems in the Far East, Japanese investments seem to be diminishing. Non-Japanese investments have grown sharply since the mid-1990's, totaling $6.3 billion between 1993 and 1996. The bulk of the non-Japanese investment appears to come from Hong Kong, which totaled $2.9 billion. *See* Catherine Reagor, *Foreign Investors Skip Valley This Time*, The Arizona Republic, Sunday May 17, 1998 (Special Section). *1998 WL 7772349.*

(n32)Footnote 175. CHAPTER 79 FOREIGN OWNERSHIP OF LAND

9-79 Thompson on Real Property, Thomas Editions § 79.11

AUTHOR: Professor James B. Wadley School of Law Washburn University

§ 79.11 A State-by-State Look at Some Statutes.

[Go To Supp]

If there is one thing that characterizes the manner in which states deal with aliens, it appears to be the variety with which the issue is addressed. Not every state has restrictions limiting aliens. Indeed, an examination of the little legislative activity there has been in recent years suggests that the trend appears to be toward fewer restrictions. Indeed, many of the statutory provisions that are present in the various states affirm that aliens have the same rights to own, dispose of, and inherit real property as citizens. n176

Alabama:	Ala. Code § 35-1-1 provides that aliens, resident or non-resident, have the same rights as citizens.
Alaska:	Alaska Stat. § 38.05.190 lists the classes of people who can acquire mineral rights in public land; allows aliens to own land if their country of origin grants similar rights to United States citizens.
	Alaska Stat. § 34.15.160 validates conveyances executed out of state or in foreign countries if they are valid under the laws of those states or countries.
Arizona:	Ariz. Rev. Stat. § 33-411 validates conveyances and deeds executed in foreign states.
Arkansas:	Ark. Const. Art. 2, § 20 provides that no distinction shall ever be made by law between resident aliens and citizens in regard to the possession, enjoyment or descent of property. n177
	Ark. Stat. § 28-9-211 provides that aliens can inherit and transmit property by inheritance.
	Ark. Stat. § 2-3-101 (Arkansas Agricultural Foreign Investment Act). requires registration and notice of the acquisition of an interest in agricultural land.)
California:	Cal. Const., Art 1, § 20 provides that noncitizens have the same prop-

erty rights as citizens.

Cal. Civ. Code § 671 provides that any person may take, hold or dispose of property in California.

Colorado: Colo. Const., Art. 2, § 27 allows bona fide residents the same property rights as native-born citizens.

Colo. Rev. Stat. § 15-11-112 makes alienage irrelevant in intestate or testamentary succession.

Connecticut: Conn. Gen. Stat. Ann. § 47-58a provides that any alien, whether resident or not, may hold, acquire, lease, inherit and transfer real estate in this state in the same manner as native-born citizens.

Delaware: Del. Code Ann. tit. 25, § 305 grants foreign corporations the right to hold or convey land the same as a Delaware corporation.

Del. Code Ann. tit. 25, § 306 provides that all real and personal property situated in this state may be taken, acquired, held and disposed of by an alien in the same manner as by a citizen.

Del. Code Ann. tit. 25, § 307 grants aliens the same rights to inherit as are granted to citizens. n178

Florida: Fla. Const., Art. I, § 2 grants aliens that are eligible for citizenship constitutionally protected property rights.

Georgia: Ga. Code Ann. § 79.303 [1-2-11] grants the same rights as are granted citizens to citizens of any country that is at peace with the United States.

Ga. Code Ann. § 113-1206 includes among those who may act as an executor of a will of a resident of Georgia "aliens lawfully admitted to the United States for permanent residence."

Hawaii: Hawaii Rev. Stat. § 560:2-112 provides that no person is disqualified to take as an heir because the person or a person through whom the person claims is or has been an alien.

Idaho: Idaho Code § 15-2-112 allows aliens to inherit property.

Idaho Code § 55-103 allows any person, whether a citizen or alien, to take, hold and dispose of real or personal property.

Illinois: Illinois recently repealed the Property Owned by Aliens Act and replaced it with reporting requirements contained in the Agricultural Land Ownership Act, 765 I.L.C.S. 55/5 and the Illinois Agricultural Foreign Investment Disclosure Act, 765 I.L.C.S. 50/1 et seq.

Indiana: Ind. Code Ann. § 32-1-7 allows aliens to hold and convey real estate, provided they have declared their intention to become United States citizens. Other aliens may hold land for 5 years and then must sell or dispose of the land unless the alien becomes a naturalized citizen. n179

Ind. Code Ann. § 31-1-8-2 limits aliens to the acquisition of 320 acres. The excess must be sold within 5 years or it escheats to the state.

Iowa: Iowa Const. Art. I § 22 grants the same rights to own property as are possessed by citizens to "foreigners who are, or may hereafter become

residents of this state."

Iowa Code Ann. § 567.1 generally prohibits non-resident aliens, foreign businesses and foreign govern-ments, or their agents, trustees or fiduciaries, from acquiring agricultural land in the state unless the land is converted to non-agricultural use within 5 years of the date of acquisition.

Iowa Code Ann. § 567.3 limits leasehold interests to 640 acres.

Iowa Code Ann. § 567.5 requires that aliens who acquire an interest in land in violation of the statute divest within 2 years.

Kansas: Kan. Stat. Ann. § 59-511 grants rights to inherit property to all aliens who are eligible for citizenship.

Kentucky: Ky. Rev. Stat. § 381.290 allows aliens who have declared their intention to become citizens to acquire or transfer real estate.

Ky. Rev. Stat. § 381.300 provides that land of non-resident aliens escheats to the state after 8 years unless the alien becomes a citizen.

Ky. Rev. Stat. § 381.320 limits resident aliens landownership for residence, business, trade or manufacturing purposes to not more than 21 years. n180

Maine: Me. Rev. Stat. tit. 33, § 451 gives aliens the same rights as citizens.

Maryland: Md. [Real Prop.] Code Ann. § 14-101 grants the same rights to aliens who are not "enemies" as are granted to citizens.

Massachusetts: Mass. Gen. Laws, Ann. ch. 184 § 1 allows aliens to take, hold, transfer and convey real property.

Minnesota: Minn. Stat. § 500.221, subd. 2 limits rights to acquire, directly or indirectly, any interest in agricultural land to those who are permanent citizens of the United States or permanent residents. Land acquired for security interests or taken by devise or inheritance is excluded.

Minn. Stat. § 524.2-112 provides that no person is disqualified to take as an heir because that person or the person through whom that person claims is, or has been, an alien.

Michigan: Mich. Const. Art. 10, § 6 grants the same rights as citizens to aliens who are residents.

Mississippi: Miss. Const. Art. 4, § 84 allows the state to limit rights of aliens to own real property.

Miss. Code Ann. § 89-1-23 grants resident aliens the same rights to own property as are possessed by citizens. Non-residents (except non-resident Syrian and Lebanese) are not given the same rights, and if the property is taken for security, they may not hold it more than 20 years. Acreage acquired is limited to 320 acres for industrial development and 5 acres for residential purposes.

Missouri: Mo. Ann. Stat. § 442.560 prohibits aliens from owning farmland except 1) that person is or shall become a citizen; or 2) the farmland is no longer used as farmland.

Mo. Ann. Stat. § 442.560 allows foreign corporations to acquire, hold

	or alienate real estate, except agricultural land.
Montana:	Mont. Rev. Stat. § 72-2-214 provides that no person will be disqualified to take property as an heir because the country in which the person resides does not grant reciprocal rights to United States citizens.
Nebraska:	Neb. Rev. Stat. Ann. § 76-402 prohibits aliens and corporations not organized in the state of Nebraska from acquiring title to (or any lesser interest in), or a leasehold interest of more than 5 years, in any land in the state. Land acquired by aliens must be disposed of within 5 years.
Nevada:	Nev. Rev. Stat. § 111.055 allows non-resident aliens, persons and corporations to hold real property.
New Hampshire:	N.H. Rev. Stat. § 477:20 allows alien residents to obtain and grant land like citizens. Non-resident aliens have been held not to be able to inherit land by virtue of this restriction. n181
New Jersey:	N.J. Stat. Ann. § 46-3-18 grants alien "friends" the same property rights as citizens. (Alien "friends" are considered to be residents of the United States.)
New Mexico:	N.M. Stat. Ann. § 45-2-112 provides that aliens may acquire, hold, grant and inherit land the same as citizens.
New York:	N.Y. [Real Prop.] Laws § 10.2 grants the same rights to aliens as to non-aliens to take, hold, transmit and dispose of real property.
	N.Y. [Real Prop.] Laws § 15 provides that the alienage of a person shall not be grounds to question or impeach the right of an individual to acquire title to land.
Oklahoma:	Okla. Const. Art. 22, § 1 provides that no alien or person who is not a citizen of the United States shall acquire title to or own land in the state. There is an exception for aliens who become bona fide residents of the state. n182
North Carolina:	N. C. Gen. Stats. § 64-1 makes it lawful for aliens to take real property by purchase, descent, or by operation of law any interest in land and to convey the same as fully as any citizen of the state.
	N.C. Gen. Stats. § 64-3, however, limits rights of aliens living outside the United States unless the laws of the nation of which the alien is resident grant reciprocal rights to citizens of the United States. n183
North Dakota:	N.D. Cent. Code § 47-01-11 grants the right to own land to anyone, limited by the restrictions found in § 47-10.1 et seq.
Ohio:	Ohio Rev. Code Ann. § 2105.16 grants heirs of aliens the right to hold land.
Pennsylvania:	Pa. Stat. Ann. tit. 61, § 41 limits aliens to the ownership of not more than 100 acres of agricultural land.
Rhode Island:	R.I. Gen. Laws § 34-2-1 grants aliens the same rights as citizens.
South Carolina:	S.C. Const. Art. 3, § 35 authorizes the general assembly to limit the rights of aliens.
	S.C. Code § 27-13-30 prohibits aliens from owning or controlling more than 500,000 acres of land.

	S.C. Code § 27-13-40 allows aliens to hold land in excess of 500,000 acres if acquired in foreclosure proceedings and if not held longer than 5 years.
South Dakota:	S.D. Const. Art. VI, § 14 provides that no distinction shall ever be made by law between resident aliens and citizens in reference to the possession, enjoyment or descent of property.
	S.D. Comp. Laws § 43-2A-1 et seq. limits non-resident aliens to the ownership of not more than 160 acres of agricultural land except where the land is inherited or acquired as security for a debt. Such inherited or security lands must be disposed of within 3 years of the time of acquisition. Lands held in violation of these restrictions are forfeited to the state.
Tennessee:	Tenn. Code Ann. § 66-2-101 grants aliens, whether resident or non-resident, the same rights to take or hold real property as are held by citizens.
	Tenn. Code Ann. § 66-2-102 grants the same inheritance rights to aliens as are held by citizens.
Texas:	Tex. Rev. Civ. Stat. § 1527 limits the extent to which aliens may control international trading corporations.
	Tex. Tax Code denies preferential tax appraisals for open space land to land owned by corporations controlled by non-resident aliens. n184
	Tex. Tax Code § 211.053 imposes a tax on the transfer, at death, of property located in the state but owned by non-resident aliens.
Utah:	Utah Code Ann. § 75-2-112 provides that no person will be disqualified to take as an heir because the heir or the person through whom the heir takes is or has been an alien.
Vermont:	1989 Adj. Sess. Amendment, Subsection (e), effective May 31, 1990, amended tit. 32, § 5847 to impose a transfer withholding tax of 2.5% of the transfer consideration of the purchase if by a non-resident of the state of Vermont.
Virginia:	Va. Code § 55-1 provides that any alien, not an enemy, may acquire property by purchase or descent in the same manner as citizens. This provision was amended in 1993 to restrict the rights of non-resident aliens in countries where the individual will not receive the use, benefit or control of the property.
Washington:	Wash. Rev. Code § 64.16.005 recognizes that aliens have the same rights as citizens of the State of Washington or the United States.
West Virginia:	W. Va. Const. Art II, § 5 provides that no distinction shall be made between resident aliens and citizens regarding the acquisition, tenure, disposition or descent of property. n185
	W. Va. Code § 36-1-21 grants any alien the same inheritance rights as enjoyed by citizens.
Wisconsin:	Wis. Const. Art. I, § 15 provides that no distinction shall be made between resident aliens and citizens regarding the acquisition, tenure, disposition or descent of property.

Wis. Stat. Ann. § 710.01 grants aliens generally the right to own and dispose of property subject to the limitations in § 710.02.

Section 710.02 provides that non-resident aliens and certain corporations n186 may not acquire, own or hold any interest, directly or indirectly, except for debt security purposes, in more than 640 acres of land except as authorized by this section. The section contains a number of exceptions, such as for railroad and pipeline corporations, mineral interests, oil and gas leases and so forth.

Wyoming: Wyo. Const. Art I, § 29 prohibits any distinction between resident aliens and citizens regarding the possession, taxation, enjoyment and descent of property.

Wyo. Stat. § 34-15-101 prohibits non-resident aliens from acquiring, possessing, transferring, transmitting or inheriting real property or having in whole or in part the beneficial use thereof except for use as a personal residence and not in excess of one acre.

Wyo. Stat. § 2-4-105 limits non-resident alien inheritance rights to aliens of countries that grant reciprocal rights to United States citizens.

Maine is the state that continues to have the largest number of acres owned by foreign persons: 3,037,198. This amounts to 17 percent of the state's privately owned agricultural land and 21 percent of all the reported foreign holdings of agricultural land nationwide. Ninety-one percent of the foreign holdings in Maine are owned by four companies. Two of these companies are Canadian, one is a combined United States-French venture and one is a combined United States-Canadian enterprise. CHAPTER 79 FOREIGN OWNERSHIP OF LAND

9-79 Thompson on Real Property, Thomas Editions § 79.12

AUTHOR: Professor James B. Wadley School of Law Washburn University

§ 79.12 Constitutionality of Restrictions.

[Go To Supp]

Aliens, including foreign corporations, n187 are clearly within the definition of "persons" n188 as used in the United States Constitution and are therefore protected by the equal protection and due process clauses thereof since the Constitution protects "all persons within the territorial jurisdiction, without regard to any difference of race or color, or of nationality." n189

Nevertheless, it has been held that, in the absence of a treaty provision to the contrary, a state may deny non-resident aliens the right to own land within the state even though both the equal protection and due process clauses of the Fourteenth Amendment apply to resident aliens as well as to citizens. n190 The Supreme Court was persuaded that control over the land by aliens was within the scope of issues that could be addressed under the police power of the state, and that "[t]he quality and allegiance of those who own, occupy, and use farmlands within its borders are matters of highest importance, and affect the safety and power of the state itself." n191 Further, it has been held n192 that non-resident aliens are not entitled to equal protection of the law under the same terms as resident aliens since "the Fourteenth Amendment, by its own terms, has no application to aliens not within the jurisdiction of the United States." n193

In at least one state, it has recently been determined that corporate ownership of farmland (whether domestic or foreign) is contrary to the public welfare. In Kansas, by statute, most corporations, including foreign corporations, are barred from owning an interest in farmland, directly or indirectly. Recent amendments to the farm corporation statute have given counties the option of permitting dairy and swine corporations to locate within the county. This requires the adoption of a resolution by the County Commission permitting the location of the businesses. The issue before the Attorney General was whether the county could rescind such a grant of permission and, if the county did so, whether it would constitute a "taking" of a property interest from the corporation. The Attorney General found that the state may exercise its police power to totally prohibit persons from engaging in occupations or businesses that are detrimental to the public welfare. n194

§ 79.12(a) Equal Protection Concerns, Generally.

As a general rule, the equal protection doctrine is not an absolute bar to disparate treatment. Laws may be adopted which apply different rules to different individuals or classifications of individuals so long as the treatment is not constitutionally repugnant. n195

For most classifications, all that is required is that there be a rational relation to a legitimate state interest in order to justify the separate classes. This approach tends to be used where economic interests, as opposed to fundamental rights, are involved. n196

On the other hand, where the class involves a "suspect" class for which additional protection may be necessary, the law will scrutinize closely the classification and require that a compelling state interest be present to support the distinctions. n197

It has been argued that non-resident aliens lack standing to invoke the equal protection of the laws since they do not reside within the jurisdiction. This argument has been rejected as without substance where there are minimal contacts with the jurisdiction. n198

It has also been argued that the equal protection doctrine applies only to constitutional rights and not to privileges and benefits that the law itself may create. This, too, has generally been rejected. n199

COMPUTER-ASSISTED RESEARCH

LEXIS: equal protection w/30 alien!

§ 79.12(b) Alienage as a Suspect Class.

Under some circumstances, alienage has been held to be a "suspect" classification, such that the state has been required to demonstrate that there is a compelling public policy in having that status restricted in order to justify disparate treatment between aliens and non-aliens. In one case, n200 the Court dealt with an Arizona statute which prohibited aliens from receiving public assistance payments. The state argued that it had a legitimate interest in insuring that citizens received a portion of the state's limited welfare funds before non-citizens. The Court disagreed, holding that the state must show a compelling reason for the distinction between citizens and non-citizens and that it had not done so. Further, the court was persuaded that the resident aliens in question were not different, in some respects, from the citizens of the state. For example, the court found that the resident aliens did contribute to the tax revenues of the state just as did citizens. In addition, they may be compelled to serve in the military and contribute to the general economic growth of the state.

In a later case, n201 the court applied this holding to strike down a New York statute which prohibited all aliens from holding state civil service positions in the state. The court conceded that the state had the right to limit alien involvement in government but felt that the statute was too restrictive, since it disallowed aliens access to even the lowest, non-policy making positions. A similar rationale was used by the court to invalidate a Connecticut statute which prohibited aliens from membership in the state bar, n202 and a Puerto Rican statute which restricted engineering licenses to U.S. citizens or to those educated in Puerto Rico. n203

All of these cases suggest that aliens will receive a fair amount of protection. The common denominator throughout these cases, however, is that they involved *resident* aliens who bore the burdens imposed by society but could not claim

the sought-after benefits, nor could they participate in the political process which is the normal avenue of redress for citizens who are displeased with the imposed burdens. Where this situation has occurred, courts repeatedly have therefor held that "Heightened judicial solicitude" is appropriate.

At least two reasons suggest that the protections accorded to resident aliens should necessarily be greater than those extended to *non-resident* aliens:

1) Non-resident aliens will generally not qualify as a suspect class since they do not constitute a "discrete minority" within this country for which heightened judicial solicitude is required. They have their own government to protect them and oversee their rights and, where they reside, they actually constitute a majority capable of protecting their own rights.

2) Non-resident aliens typically do not pay taxes (other than those associated with the development of the land itself), serve in the United States military nor do they reside permanently in the United States. As such, their participation in local and national affairs is limited, and the role they play in local economics and politics is obviously less significant than those who permanently reside in the area. If protected status were based on the fact of ownership alone, non-resident aliens could exercise a disproportionate influence over local policy and perhaps disrupt decision-making that would otherwise be in the best interest of the resident population.

This suggests that states may well restrict non-resident aliens from the ownership of land so long as that power is not exercised arbitrarily or without a reasonable purpose. n204 This comports with the position taken by the United States Supreme Court in a case dealing with a New York statute which forbade permanent certification as a public school teacher to any person not a citizen of the United States. n205 There, the court held that there must be a rational relationship between the statute and a legitimate state interest. n206 The court found that the state's interest in insuring the loyalty of its public school teachers was a legitimate state interest. A similar relationship between the owner of the land and the local government may be found in such interests as the need to promote the preservation of open-space land, the desirability of protecting the family farm, the need to control local taxation of the land, and so forth. n207

Applying the equal protection tests, in light of the general proposition that any resident aliens constitute a "suspect class," it is likely that a restriction limiting the rights of non-resident aliens to invest in United States land would be judged on the basis of the "rational relation" test, rather than the "strict scrutiny" test, because the proprietary interests at stake are purely economic in nature. n208 On the other hand, the right to inherit land as a resident alien may involve a more fundamental right and therefore be more likely to require a compelling state interest before the rights could be abrogated. n209

LEXIS: suspect class w/30 alien!

§ 79.12(c) Due Process Concerns, Generally.

The due process requirements of the Constitution specifically protect against laws that are unfairly enacted or implemented. Substantive due process addresses the legitimacy of the purpose of the law and assures that the purposes are consistent with good government and order. Procedural due process addresses the adequacy of the manner in which the law is executed and assures that laws will not unfairly impinge upon free activity. In the context of alien ownership, substantive due process guards against the adoption of arbitrary or capricious laws. Due process protects against the unreasonable confiscation of their interests in the land.

Substantive due process is generally satisfied if there is a rational relation between the purpose of the restriction and a legitimate state interest. n210 Acceptable purposes would appear to be similar to those required to satisfy the rational

relation test of the Equal Protection Clause.

The law has been somewhat less certain regarding the manner in which the requirements of procedural due process may be satisfied. For example, one court, in upholding a state statute which absolutely barred ownership of land by non-resident aliens, noted that "[t]he Supreme Court has never indicated in unequivocal terms whether a State is required to give [procedural] due process to non-resident aliens." n211

COMPUTER-ASSISTED RESEARCH

LEXIS: due process w/30 alien!

§ 79.12(d) Restrictions on Ownership as a Denial of Procedural Due Process.

The Fourteenth Amendment requires that no state shall "deprive any person of life, liberty, or property without due process of law." n212 The issue regarding alien landownership tends to arise most frequently either in the context of forced disposition provisions of the statutes which compel the alien to dispose of the land within a specified period, n213 or where there are prohibitions that would prevent someone from otherwise taking title to the land.

In *Shames v. Nebraska*, n214 the United States District Court upheld a Nebraska statute which prohibited aliens from owning land more than three miles from the corporate limits of any city. In this case, a resident alien who owned land covered by the statute died intestate. The only heirs were four nationals and residents of Syria. While the estate was being probated, the State of Nebraska intervened and asked that the land escheat to the state because there were no heirs that could lawfully own the land. The court upheld the statute on the basis of the United State Supreme Court's decision in *Terrace v. Thompson*, noted *supra*. n215 The court specifically held that:

> a state's absolute bar of ownership of land by non-resident aliens has been held by the Supreme Court to be within the valid exercise of that state's police power, and not violative of due process of law under the Fourteenth Amendment. n216

In *Asbury Hospital v. Cass County*, n217 *Id.* at 212-213, the Supreme Court dealt with a statute which required that all corporations holding farm lands divest such lands within ten years from the date of the act. If divestiture did not occur, the lands would escheat to the county in which they were located. The court upheld the statute, holding that:

> [t]he due process clause does not guarantee that a foreign corporation when lawfully excluded as such from ownership of land in the state shall recapture its costs. It is enough that the corporation, in complying with the lawful command of the state to part with ownership, is afforded a fair opportunity to realize the value of the land, and that the sale, when required, is to be under conditions reasonably calculated to realize its value at the time of the sale. n218

§ 79.12(e) Restrictions that Interfere with Federal Foreign Affairs Powers.

It is well settled that the federal government has the exclusive authority to conduct the foreign affairs of the nation "entirely free from local interference." n219 Several cases have explored the extent to which state restrictions on the ability of aliens to inherit land in the United States interfere with the ability of the federal government to conduct foreign affairs.

In *Zschernig v. Miller*, n220 the court considered an Oregon statute which provided that when a resident died with

non-resident aliens as the sole heirs, the land would escheat to the state unless specific requirements were met. These requirements were:

> 1) that American citizens were determined to have reciprocal rights to inherit in the alien's country;
>
> 2) that United States citizens had the right to receive payments within the United States from estates of decedents dying in the subject foreign country; and
>
> 3) that there be proof that the alien heir of the American decedent would receive the benefit, use, control and enjoyment of the inheritance without fear of confiscation by the government of that nation.

Whether the above conditions were satisfied was a determination to be made by the court in the district where the estate was being probated. This required an extensive study of the law of the foreign country and the rendering of a specific judgment as to the satisfaction of the relevant restrictions. The Supreme Court struck the statute down as being in conflict with the federal government's exclusive power to conduct the foreign affairs of the nation since the court found that Oregon courts had consistently engaged in:

> [J]udicial inquiries into the type of governments that obtain in particular foreign nations ... whether the so-called "rights" are merely dispensations turning upon the whim or caprice of government officials, whether the representations of consuls, ambassadors, and other representatives of foreign nations is credible or made in good faith, whether there is in the actual administration in the particular foreign system of law any element of confiscation. n221

As a result of inquiries of this type, the court said that "[t]he statute as construed seems to make unavoidable judicial criticism of nations established on a more authoritarian basis than our own." n222

The court did make clear that statutes which required only a cursory reading of foreign laws would not interfere with the federal government's ability to conduct the foreign affairs of the nation. n223

> In *Mora v. Battin* n224 another court considered another so-called "Iron Curtain" statute and gave similar direction as to specific matters that were not to be considered cursory. There, the court held that: [W]here a statute permits inquiry into the type of government existing in a foreign nation, or into the question of whether the legal "rights" guaranteed by that nation are rights in fact, or into the question of whether statements by the representatives of the foreign nation are credible or made in good faith, or into the likelihood that the legatees will actually receive the property left to them, such a statute, so applied, intrudes into the exclusive right of Congress to regulate foreign policy.

Courts have not always been consistent in interpreting statutes of this type. A Nebraska statute n225 was upheld in *Shames v. Nebraska* n226 as valid even though it "may have an incidental or indirect effect on the relations of the United States and foreign nations." The statute was considered not to intrude upon the federal power over foreign affairs since the statute "left no room for judicial comment of any kind about foreign governments." n227 In contrast, a similar statute was held to interfere in *In re Estate of Kraemer*. n228

COMPUTER-ASSISTED RESEARCH

LEXIS: foreign w/1 affairs w/30 alien! w/15 land!

§ 79.12(f) Preemption by Federal Treaties.

Treaties with foreign nations are considered to be the supreme law of the land n229 and have long been held to prevail

over state laws that are inconsistent therewith. n230 A number of foreign governments have negotiated treaties which permit foreign citizens to engage in a variety of business activities in the United States. Some of these agreements permit the foreign citizens to purchase or lease such real estate as may be necessary for those commercial or industrial activities. n231 What is more likely to be of concern, however, are the "Treaties of Friendship" n232 which grant "most favored nation status" to those nations and which therefore provide the beneficiary countries the same treatment under the laws of the United States as is given to the nationals of those nations with which the United States has negotiated preferential treaty provisions -- including those which permit the owning of land for factories and other business activities.

Treaties typically defer to state inheritance laws but tend to stipulate that the foreigner who receives such lands be given ample time to sell the land, and that it cannot be taken except for public benefit and then only in return for just compensation. n233 State statutes contrary to such treaty provisions would necessarily be invalid. In at least one state, n234 the rights of aliens that are not eligible for citizenship to inherit land in the United States are granted, if at all, only by treaties between the government of the Untied States and the country in which the alien resides.

LEXIS: treaties w/30 state! w/2 law! or statute! w/30 alien! w/15 land!

§ 79.12(g) Preemption by Federal Statutes or Regulatory Power.

The federal government enjoys the status of being the superior sovereign in our federal system. The Constitution grants the federal government extensive power over activities that may involve aliens. Some of this authority, such as to provide for naturalization n235 and citizenship and for the deportation of aliens, n236 is vested exclusively in the federal government. n237 Other powers, such as the authority to regulate foreign and interstate commerce, n238 or to provide for the national defense n239 are potentially preemptive of state action.

Federal authority over immigration also empowers Congress to regulate the conduct of alien residents and the specific terms of their residency. n240 It is possible for the federal government, though it has not yet chosen to do so, to condition the entry and residence of an alien upon the fact that no interest in property be acquired in the United States. Nevertheless, states must be careful in their regulation of aliens not to intrude upon the federal authority. Where such occurs, the state restriction on resident aliens will be invalidated. n241

Federal authority over foreign and interstate commerce likewise gives Congress considerable authority over economic activities of aliens within the United States, and indeed, it has been suggested that foreign commerce perhaps is in need of greater protection against state interference. n242

Unless the power is vested exclusively in the federal government, states are generally free to act unless or until such action is inconsistent or contrary to federal interests or objectives. Thus, unless the federal government has taken action in these areas which has the effect of preempting state action, states are typically free to act within the sphere of their own legitimate powers. As yet, the federal government has not legislated in the general area of landownership by aliens. n243

With respect to the question of landownership by corporations, a recent case dealt with the possible preemption of state restrictions posed by federal banking laws. In *State v. Liberty National Bank and Trust Co.*, n244 a court dealt with a challenge to a North Dakota statute n245 that required that banks divest themselves of foreclosed farmland within three years. It was argued that this provision was preempted by federal banking laws which gave the bank five years in which to dispose of the property. n246 The court upheld the North Dakota statute, finding them both to promote the same objective: to prevent the accumulation of farmland and ranchland by corporations. As such, the state law was found to actually enhance the primary purpose of the federal law since the time period was shorter. n247

§ 79.12(h) Commerce Clause Restrictions.

It is arguable that state restrictions against alien ownership of land purposefully discriminates against foreign commerce by curbing foreign competition in the local marketplace. n248 If such is the case, state restrictions may be considered impermissible barriers to both interstate and foreign commerce. n249 On the other hand, the state interest in keeping prices of land, particularly farmland, in line with the productive capacity of the land, such that the local farmer is not precluded from purchasing land as a result of the propensity of the foreign investor to pay more, may well be seen as within the legitimate powers of the state to define land tenure within its borders, n250 and to provide for the health, safety, and well-being of its populace. n251

§ 79.12(i) Specific Challenges to Restrictions on Foreign Corporations.

The limitations on foreign corporate ownership of land or from engaging in farming activity have survived a variety of legal challenges. At the state level, there has been a long history of approval of such restrictions. n252 In at least one case, n253 a very restrictive corporation landownership statute has been upheld by the United States Supreme Court against a challenge that the restrictions violated due process guarantees of the Constitution. Similar challenges have been rebuffed including those relating to equal protection, n254 privileges and immunities clauses, n255 pre-emption by federal banking laws n256 and violations of interstate commerce protection. n257

The court also held that:

> [i]t seems inescapable that the type of probate law that Oregon enforces affects international relations in a persistent and subtle way. The practice of state courts in withholding remittances to legatees residing in Communist countries or in preventing them from assigning them is notorious. The several States, of course, have traditionally regulated the descent and distributions of estates. But those regulations must give way if they impair the effective exercise of the Nation's foreign policy.

CHAPTER 79 FOREIGN OWNERSHIP OF LAND

9-79 Thompson on Real Property, Thomas Editions § 79.13

AUTHOR: Professor James B. Wadley School of Law Washburn University

§ 79.13 Federal Statutes.

[Go To Supp]

Apart from provisions of the Homestead, n258 Mining, n259 Mineral Leasing, n260 Grazing n261 and a few miscellaneous statutes n262 which were adopted during the last century, the federal government has not had the extensive involvement in the question of alien ownership of land that states have had. Nevertheless, there are two important federal statutes that specifically address the issue. These were adopted in the late 1970's to identify and monitor the extent of foreign interests in United States land. n263 Two recent federal statutes deal with issues of foreign ownership in areas where there heretofore has been little concern. In 1996, Congress amended the Internal Revenue Code to impose a tax on certain transfers of property by a citizen or resident of the United States, or by a domestic corporation or partnership or by an estate or trust to a foreign corporation. n264

The Telecommunications Act of 1966 added a restriction to Section 310 which limits the granting of certain licenses to corporations in which more than a specified amount of capital stock is owned by aliens. n265 No broadcast, common carrier, aeronautical en route or aeronautical fixed radio station license is to be granted to or held by any corporation in which more than one fifth of the capital stock is directly or indirectly held by an alien, or a representative thereof, or by a foreign government or by a corporation organized under the laws of a foreign country. Similarly, such licenses cannot be held by corporations that in turn are controlled by such foreign interests.

§ 79.13(a) The International Investment Survey Act of 1976.

The International Investment Survey Act of 1976 n266 was adopted to identify the location, nature, and magnitude of and changes in the total investment activity, primarily of multinational corporations, in the United States. n267 This act is not designed to restrict foreign investment but rather to identify the extent and source of such investment. n268 The act, which is administered by the Department of Commerce, is structured to generate information regarding investments in two different ways. First, not more frequently than once every five years, the President is to conduct a comprehensive benchmark survey of direct foreign investment and foreign portfolio investment in the United States in which the following information is obtained: n269

1) the location and magnitude of total investment of parent n270 companies into their United States affiliates; n271

2) the gross sales by primary line of business of parent corporations and affiliates in each country where they have significant operations;

3) employment data, including the number of United States and foreign employees and their compensation;

4) tax payments by these businesses.

Second, the President is to conduct a regular data collection program to secure current information on international capital flows and to conduct such surveys and studies as may be necessary to assess the adequacy of that information. n272

Information is detailed in forms that may be required to be filed by "any person subject to the jurisdiction of the United States." n273 As implemented, the primary disclosure forms are required from any foreign investor, called a "parent," n274 who has acquired a 10% or greater interest in an American business. n275

Most of the disclosure requirements relate to the ownership and operational structure of the enterprise. Thus, the "chain of ownership" of the business enterprise will be disclosed which will include information about the ultimate beneficial ownership of the parent. If more than 50% of the parent is owned by another person, the ownership chain must be traced back to a point at which an owner is disclosed who, in turn, is not owned more than 50% by another person. In each such link in the chain, the name of each beneficial owner must be reported. n276

Where land is purchased exclusively for personal use and not for profit-making purposes, no report will be required unless the purchaser is a corporation. n277

When investment involves real estate, information to be disclosed includes: n278

1) the name and location of the real estate;

2) the amount of debt and equity invested;

3) the names and addresses of the foreign investors;

4) gross annual operating revenues, net income, number of employees and employee compensation.

Persons, such as attorneys for the seller of land, who "intervene" in the transaction must also be disclosed. n279

Failure to file a report n280 as required may result in a civil penalty of not less that $2,500 nor more than $25,000. Where the failure is willful, imprisonment for not more than a year may be imposed, in addition to a fine of not more than $10,000. n281 These reports are confidential n282 and also appear to be exempt n283 from discovery under the Freedom of Information Act. n284 Even though the reports are considered confidential, the President is charged with the responsibility of making the aggregate information available for the use of the general public in the form of periodic, regular and comprehensive statistical reports. n285 This information on foreign investment is to be reported by country and is to disclose business entities the ownership or control of which by foreign countries is more than 50% of the voting securities, and the business entities in which the control is less than 50%. n286

Where the parties may be concerned about the disclosure of the purchase price or the identity of the parties to the transaction, it is unlikely that the confidential nature of the forms will totally prevent some of that information from becoming public since some, at least, will be revealed as a result of the recording of the deeds and the filing of ad valorem tax information.

LEXIS: international investment survey act w/1 1976

§ 79.13(b) Agricultural Foreign Investment Disclosure Act of 1978.

The Agricultural Foreign Investment Disclosure Act of 1978, n287 like the International Investment Survey Act of 1976, n288 was adopted to identify who is investing in United States real estate. This act, which is administered through the United States Department of Agriculture, is limited to generating information about who is purchasing agricultural land, how much is being purchased, and for what purpose.

The act requires that any foreign "person" holding, acquiring or transferring an "interest" in United States agricultural land must file a report with the Agricultural Stabilization and Conservation Service in the county where the land is located. n289

"Person" is defined to include any individual, corporation, company, association, partnership, society, joint stock company, trust, estate, or any other legal entity. n290 Person, however, appears to be defined so as to exclude permanent resident aliens. "Foreign" persons include only individuals who are not citizens or nationals of the United States, those who are not lawfully admitted for permanent residence in this country, foreign governments and persons created under the laws of a foreign nation or have their principal place of business in a foreign country. n291

"Interest" is defined to include "all interest acquired, transferred or held in agricultural lands by a foreign person." n292

The act specifically excludes the following from the definition of a reportable interest: n293

1) security interests;

2) leaseholds of less than ten years;

3) contingent future interests;

4) non-contingent future interests which do not become possessory upon termination of the present possessory estate;

5) surface or subsurface easements; and

6) any interest solely in mineral rights.

"Agricultural land" is defined as land in the United States that is currently used or has been used within the last five years for farming, ranching, forestry or timber production. n294 Specifically excluded is land which does not exceed ten acres, land which failed to generate gross receipts of at least $1000 per year, and land, the products of which are produced for the personal or household use of the person holding the interest in the agricultural land. n295

Reports are required from a significant interest or if substantial control over the interest is vested in the foreign person. For purposes of this requirement, a significant interest or substantial control is deemed to exist when the interest held by the person is a 10% or greater interest in the land. n296 Any individual named in any report must also file their own limited report. n297 Information required to be reported includes the name and address of the foreign person acquiring the interest being reported, the type of interest held, the legal description and acreage of the land, the purchase price, the intended purpose for the land, the date acquired, and, if the foreign person intends to transfer the land to another, the

name of the transferee. n298

If the foreign person acquiring the interest in agricultural land intends to change the use of the land from agriculture to some non-agricultural use, a report detailing the same must be filed within 90 days from the time the land ceases to be used for agricultural purposes. n299 A similar report must be filed if the land use is changed from non-agricultural use to agricultural use.

Civil penalties may be imposed for failure to file a report, for knowingly omitting information in a report or for including false or misleading information in the report. The penalty may be an amount not to exceed 25 percent of the fair market value of the agricultural land involved in the violation. n300

The information generated from reports filed pursuant to the Agricultural Foreign Investment Disclosure Act of 1978 is specifically available for public inspection and is collected by the United States Department of Agriculture and is periodically disseminated to the states. n301 These reports are to be made to the respective state departments of agriculture within 30 days after the end of each six months beginning with the effective date of the statute, and will identify the holdings of foreign persons in each county of the state, the acreage involved and the country of origin. n302

Mason, Jr. *"Pssst, Hey Buddy, Wanna Buy a Country? An Economic And Political Policy Analysis of Federal and State Laws Governing Foreign Ownership of United States Real Estate," 27 Vand. J. Transnat'l L. 453 (1994).*

Negotiations are currently underway under the auspices of the Organization for Economic Cooperation and Development (OECD) to establish a broad, high-standard multilateral framework for international investment. The goal of this negotiation is to eliminate discrimination against foreign investors regarding the establishment, expansion and operation of the investments. The Bureau of Economic and Business Affairs has noted that the proposed Multilateral Agreement on Investments will not compel any of its members to allow unrestricted foreign investment in any or all economic sectors. *See Multilateral Agreement on Investment (MAI): The Facts* released by the Bureau of Economic and Business Affairs, March 23, 1998 and available at http://www.state.gov. /www/issues/ economics/ fs_980323_multilat.html.

Supp. to § 79.01 General

[Go To Main]

Add:

Foreign ownership of farmland has remained relatively steady since 1981. For most recent data regarding foreign ownership of farmland, see USDA Agricultural Fact Book at www.petrik.com/PUBLIC/library/USDA_fact-1998/ch2h.htm. For a discussion of the history of alien restrictions on land ownership, *see* Peter J. Spiro, *Foreign Affairs Law at the End of the Century. Part II: Role of the State in Foreign Affairs,* 70 U. Colo. L.R. 1223 (1999).

Add:

The actual amount of farmland has varied since 1993. In 1995, it was calculated that approximately 15.1 million acres were foreign owned. *See* USDA, ERS [Economic Research Service], Agricultural Foreign Investment Disclosure Act data. At the end of 1997, it was reported as 14.3 million acres of land. *See* USDA Agricultural Fact Book at www.petrik.com/PUBLIC/library/USDA_fact-1998/ch2h.htm. When foreign ownership is adjusted for partial interests, the total foreign-owned acreage drops to 13.8 million acres. *See* www. econ.ag.gov/epubs/htmlsum/krupa.htm.

Add at end of Note 8:

Jeffrey, *Equal Protection in State Courts: The New Economic Equality Rights*, 17 Law And Ineq. 234 (1999).

Add:

(now repealed)

§ 79.04(f) The Present. [Go To Main]

Add:

7 U.S.C. § 3504 has been repealed.

Add:

At the end of 1997, (the last year for which comprehensive data has been generally released by USDA), it was reported as 14.3 million acres of land. *See* USDA Agricultural Fact Book at www.petrik.com/PUBLIC/ library/USDA_fact-1998/ch2h.htm. When foreign ownership is adjusted for partial interests, the total foreign-owned acreage drops to 13.8 million acres. *See* www.econ.ag.gov/ epubs/htmlsum/krupa.htm. Further, the data suggests that only 16 percent of foreign owned land is in cropland and 31 percent in pasture and other agricultural purposes. Forest land accounts for fully 50 percent of foreign owned land and nonagricultural land constituted 3 percent. *See* www.econ.ag.gov/epubs/htmlsum/ krupa.htm.

In 2008, it was reported by the USDA that foreign persons hold an interest in 20.9 million acres of U.S. agricultural land. This was a 1.4 million-acre increase from 2007. Canadians own 7.3 million acres, the most of any other country. Other notable countries include: the Netherlands (about 3.9 million acres), the United Kingdom (over 1.5 million acres), and Germany (almost 1.4 million acres.) See Greg Lamp, "Foreigners own more U.S. Farmland" available at http://cornandsoybeandigest.com/mag/1101-foreigners-own-us-farmland/

Add:

In the early 1990's there was a brief concern over ownership by individuals from Japan. This concern appears to have dissipated. Anecdotal evidence suggests that the current concern over foreign ownership, at least in the Midwest and Great Plains, appears be focused more on the structure of the entity claiming the interest than the purpose for which the land was acquired, and tends to reflect concerns in those areas over generally increasing corporate domination of agriculture. Current data suggests that corporations in which foreign persons have a significant interest or substantial control owned 56 percent of the foreign-held acreage. Most of these interests (60 percent) are claimed by persons from Canada, the United Kingdom, Germany, Switzerland, the Netherlands Antilles and the British Virgin Islands. Persons from Japan accounted for only 3 percent. *See* www.econ.ag.gov/epubs/htmlsum/krupa.htm. *See also* David K.Y. Tang., *Special Concerns of Foreign Investors in Sophisticated Real Estate Transactions*, 453 PLI/Real 473 (2000); Douglas Woodward and Douglas Nigh, eds., Foreign Ownership and the Consequences of Direct Investment in the United States: Beyond Us and Them, Quorum Books, Westport Conn. 1998.

Add:

See also Von Kerssenbrock-Praschma v. Saunders, 48 F.3d 323 (8th Cir. 1995) and *Von Kerssenbrock-Praschma v. Saunders, 121 F.3d 373 (8th Cir. 1997)* upholding a Missouri statute which provided that "no alien or foreign business shall acquire by grant, purchase, devise, descent or otherwise agricultural land in this state. No person may hold agricultural land as an agent, trustee, or other fiduciary for an alien or foreign business." *Missouri Rev. Stat. § 442.571.1*. In the 1995 case, the court held that where the alien owner of farmland owned the land on the effective date of the statute and disposed of the land to his two sons, who were also aliens, the grandfather clause of the statute

provided the alien with a legally protected interest in the land and to exclude such aliens from the class of potential grantees would limit the right of the owner to dispose of the land, one of the recognized incidents of property ownership. In the 1997 case, the court held that the statute is rationally related to a legitimate state interest and is not unconstitutional.

Add:

Supp. To Chapter 79 FOREIGN OWNERSHIP OF LAND

9-79 Thompson on Real Property, Thomas Editions Supp. to § 79.09

Supp. to § 79.09 Restrictions on Inheritance.

[Go To Main]

Add:

See also Missouri Rev. Stat. 442.571.1 (as of Aug. 28, 1999), which provides that "except as provided in sections 442.586 and 442.591, no alien or foreign business shall acquire by grant, purchase, devise, descent or otherwise agricultural land in this state. No person may hold agricultural land as an agent, trustee, or other fiduciary for an alien or foreign business." This statute was interpreted and upheld against constitutional challenges as rationally related to a legitimate state interest in *Von Kerssenbrock-Praschma v. Saunders, 48 F.3d 323 (8th Cir. 1995)* .

Add:

MONT. REV. STAT § 72-2-214 has been renumbered and is currently M.R.S. § 72-2-121.

Supp. To Chapter 79 FOREIGN OWNERSHIP OF LAND

9-79 Thompson on Real Property, Thomas Editions Supp. to § 79.10

Supp. to § 79.10 Restrictions on Alien Business Entities.

[Go To Main]

Amend first sentence of third paragraph to read:

Corporations currently own 72 percent of foreign-held acreage, partnerships 20 percent and individuals own 16 percent. The remaining two percent is owned by estates, trusts, institutions, associations and others. USDA, ERS, Agricultural Foreign Investment Disclosure Act data (1999).

Add:

William Meade Fletcher, Chapter 67, "Foreign Corporations V. Particular Rights and Powers of Foreign Corporations B. Rights and Powers with Respect to Real Property." 17 *Fletcher Cyc. Corp.* § 8353; Annotation, "State Regulation of Land Ownership by Alien Corporation," *21 A.L.R. 4th 1329.*

Add:

In the case of *State v. Hillcrest Investment, Ltd, 630 P.2d 1253 (Okla. 1981)* , the state sought to force a foreign corporation to divest itself of farmland. The court held that once the corporation had lawfully completed the domestication process required by law for corporations, it was a bonafide resident of the state for purposes of the foreign restrictions on land statutes.

Add:

See e.g., Missouri Rev. Stat. 442.571.1 (as of Aug. 28, 1999), which provides that "except as provided in sections 442.586 and 442.591, no alien or foreign business shall acquire by grant, purchase, devise, descent or otherwise agricultural land in this state. No person may hold agricultural land as an agent, trustee, or other fiduciary for an alien or foreign business."

Missouri Rev. Stat. 442.571.2 provides that "[a]ny alien or foreign business who acquires agricultural land in violation of sections 442.560 to 442.591 remains in violation of sections 442.560 to 442. 591 for as long as he holds an interest in the land. This statute was interpreted and upheld against constitutional challenges as rationally related to a legitimate state interest in *Von Kerssenbrock-Praschma v. Saunders, 48 F.3d 323 (8th Cir. 1995)* ; *Von Kerssenbrock-Praschma v. Saunders, 121 F.3d 373 (8th Cir. 1997)* .

Add:

This statute was amended to prohibit certain tax exemptions for entities such as poultry and rabbit confinement facilities.

Add to note 168:

Supp. To Chapter 79 FOREIGN OWNERSHIP OF LAND

9-79 Thompson on Real Property, Thomas Editions Supp. to § 79.11

Supp. to § 79.11 A State-by-State Look at Some Statutes.

[Go To Main]

Add after first paragraph:

One author summarized the variety among the states as follows: twenty-eight states have some type of law restricting alien ownership of land, These states include California, Georgia, Idaho, Illinois, Indiana, Iown, Kansas, Kentucky, Maryland, Minnesota, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Oklahoma, Oregon, Pennsylvania, South Carolina, South Dakota, Virginia, Wisconsin and Wyoming. Fifteen of these states restrict the extent to which aliens can own farmland and/or engage in farming. *See* J. David Aiken, *State Laws Relating to the Ownership of U.S. Land by Aliens and Business Entities, as of December 31, 1989*, Economic Research Service, U.S. Department of Agriculture, Staff Report No. AGES 9111, March 1991, as reported at www/ssu.missouri.edu/courses/ fs97/agec256/alienld.htm (Dec. 12, 1999).

Nine states require aliens to report their landholdings within the state. These include Arkansas, Georgia, Illinois, Iowa, Minnesota, Missouri, North Carolina, North Dakota and Virginia. *See* J. David Aiken, *State Laws Relating to the Ownership of U.S. Land by Aliens and Business Entities, as of December 31, 1989*, Economic Research Service, U.S. Department of Agriculture, Staff Report No. AGES 9111, March 1991, as reported at www/ssu.missouri.edu/courses/ fs97/agec256/alienld.htm (Dec. 12, 1999).

Revise last paragraph of note to read as follows:

Maine continues to have more acres of foreign owned land than any other state though the percentages are changing. According to most recent data, foreign holdings in Maine now account for 16 percent of all privately owned agricultural land in the state and one-fifth of all foreign owned agricultural land in the United States. These holdings are primarily forest land and are still owned by relatively few companies. Four companies continue to own 91 percent of the foreign

land in Maine. Two of these companies are Canadian, one French and one is a United States corporation that is partially Canadian owned. *See* www.econ.ag.gov/epubs/htmlsum/krupa.htm. Outside of Maine, foreign holdings tend to be concentrated in the West (with 34 percent) and the South (with 32 percent). USDA ERS, Agricultural Foreign Investment Data (1995).

About 61 percent of the reported foreign holdings involve land actually owned by U.S. Corporations which are required to register if as little as 10 percent of their stock is held by foreign investors. The remaining 39 percent of foreign-held land is owned by investors with no U.S. firm affiliation. *USDA Agricultural Fact Book (1998) Ch 2-H,* available at www. petrik.com/PUBLIC/library/USDA_fact_1998/ch2h.htm.

Change: Colo. Rev. Stat §15-11-112 to Colo. Rev. Stat. § 15-11-111.

Add to Connecticut:

Conn. Gen. Stat. Ann. § 47-58a has been transferred to C.G.S.A. § 47-7a.

Add to Indiana:

Ind. Code Ann. § 32-17 and *31-1-8-2* have been repealed.

Add to Kansas:

K.S.A. § 59-511 has been repealed.

Add new footnote 179.1 after Iowa Section: n179.1

Add new footnote to entry for the state of Missouri: n180a

Change: N.M. Stat. Ann. § 45-2-112 to N.M. Stat. Ann. § 45-2-11

Add to Pennsylvania:

61 P.S. § 41 has been repealed.

Add to Texas:

Vernon's Ann. Tex. Civ. St. Art 1527 has been repealed.

Add to Wyoming:

W.S. 1977 § 34-15-101 has been repealed.

FOOTNOTES:
(n1)Footnote 179.1. *Iowa Code §567.1* was transferred to §§ 9I.1 to 9I.12

(n2)Footnote 180a. According to *Missouri Rev. Stat. 442.571.1* (as of Aug. 28, 1999), "except as provided in sections 442.586 and 442.591, no alien or foreign business shall acquire by grant, purchase, devise, descent or otherwise agricultural land in this state. No person may hold agricultural land as an agent, trustee, or other fiduciary for an alien or foreign business.

Missouri Rev. Stat. 442.571.2 provides: Any alien or foreign business who acquires agricultural land in violation of sections 442.560 to 442.591 remains in violation of sections 442.560 to 442. 591 for as long as he holds an interest in the land.

This statute was interpreted and upheld against constitutional challenges as rationally related to a legitimate state interest in *Von Kerssenbrock-Praschma v. Saunders, 48 F.3d 323 (8th Cir. 1995)* ; *Von Kerssenbrock-Praschma v. Saunders, 121 F.3d 373 (8th Cir. 1997)* .

Supp. To Chapter 79 FOREIGN OWNERSHIP OF LAND

9-79 Thompson on Real Property, Thomas Editions Supp. to § 79.12

Supp. to § 79.12 Constitutionality of Restrictions.

First Amendment

Add:

For further discussion, *see* Peter J. Spiro, *Foreign Affairs Law at the End of the Century. Part II: Role of the State in Foreign Affairs*, 70 U. Colo. L.R. 1223 (1999); Keith Aoki, *No Right to Own- The Early Twentieth-Century "Alien Land Laws" as a Prelude to Internment, 19 B.C. Third World L.J. 37 (1998);* Randall S. Jeffrey, *Equal Protection in State Courts: The New Economic Equality Rights*, 17 Law And Ineq. 234 (1999).

Add:

But see Von Kerssenbrock-Praschma v. Saunders, 48 F.3d 323 (8th Cir. 1995) . In this case, the court held that where the alien owner of farmland owned the land on the effective date of the statute and disposed of the land to his two sons, who were also aliens, the grandfather clause of the statute provided the alien with a legally protected interest in the land and to exclude such aliens from the class of potential grantees would limit the right of the owner to dispose of the land, one of the recognized incidents of property ownership.

Add

See also Peter D. Ehrenhaft, *International Joint Ventures: Setting Them Up, Taking Them Apart.* 2 American Law Institute-American Bar Association Continuing Legal Education. Sept. 29-Oct 1, 2005 Going International:

Fundamentals of International Business Transactions

Add:

In *Jones v. Gale, 470 F.3d 1261 (8th Cir. 2006)* , the 8th Circuit Court of Appeals held that a Nebraska law which prohibited corporations from owning farmland was unconstitutional because it violated the dormant *commerce clause*.

§ 79.12(a) Equal Protection Concerns, Generally. [Go To Main]

Add:

For further discussion, *see* Peter J. Spiro, *Foreign Affairs Law at the End of the Century. Part II: Role of the State in Foreign Affairs*, 70 U. Colo. L.R. 1223 (1999); Keith Aoki, *No Right to Own- The Early Twentieth-Century "Alien Land Laws" as a Prelude to Internment, 19 B.C. Third World L.J. 37 (1998) ;* Randall S. Jeffrey, *Equal Protection in State Courts: The New Economic Equality Rights*, 17 Law and Ineq. 234 (1999); *Headley v. INS, 92 Fed. Appx. 35 (3d Cir. 2003)* (appellate court denied an alien's equal protection claim that was based on a provision that denied lawful permanent resident aliens but permitted non-lawful permanent resident aliens to obtain waivers of removal); *Tovar-Landin v. Ashcroft, 361 F.3d 1164 (9th Cir. 2004)* (court found here was no violation of an equal protection interest because the alien had not shown that the different treatment for aliens that had been present in the U.S. for longer than a year was wholly irrational).

Add:

Soskin v. Reinertson, 353 F.3d 1242 (10th Cir. 2004) (Colorado bill that repealed optional Medicaid coverage, terminating Medicaid benefits to approximately 3,500 aliens, survived under rational basis scrutiny, because the aliens were within a non-suspect classification).

Add:

In the case of *Von Kerssenbrock-Praschma v. Saunders, 48 F.3d 323 (8th Cir. 1995)* , the court held that where the alien owner of farmland owned the land on the effective date of the statute and disposed of the land to his two sons, who were also aliens, the grandfather clause of the statute provided the alien with a legally protected interest in the land and to exclude such aliens from the class of potential grantees would limit the right of the owner to dispose of the land, one of the recognized incidents of property ownership. However, in *Von Kerssenbrock-Praschma v. Saunders, 121 F.3d 373 (8th Cir. 1997)* , the court did not apply a strict scrutiny test but rather held that the statute was rationally related to a legitimate state interest and therefore was not unconstitutional.

§ 79.12(b) Alienage as a Suspect Class. [Go To Main]

Add new footnote 199.1 after first sentence: n199.1

Add:

In recent decisions, the 5th and the 6th Circuit Courts of Appeal have held that nonimmigrant aliens should not be analyzed under strict scrutiny but rational scrutiny. See *LULAC v. Bredesen, 500 F.3d 523, 533 (6th Cir. 2007)* ; *LeClerc v. Webb, 419 F.3d 405, 417-19 (5th Cir. 2005)* ; see also Adam B. Wall, "Justice for All?: The *Equal Protection Clause* and Its Not-So-Equal Application to Legal Aliens." *84 Tul. L. Rev. 759 (2010).*

§ 79.12(c) Due Process Concerns, Generally. [Go To Main]

Add:

For further discussion, *see* Peter J. Spiro, *Foreign Affairs Law at the End of the Century. Part II: Role of the State in Foreign Affairs*, 70 U. Colo. L.R. 1223 (1999); Keith Aoki, *No Right to Own- The Early Twentieth-Century "Alien Land Laws" as a Prelude to Internment, 19 B.C. Third World L.J. 37 (1998);* Randall S. Jeffrey, *Equal Protection in State Courts: The New Economic Equality Rights*, 17 Law And Ineq. 234 (1999).

Add:

In the Missouri case of *Von Kerssenbrock-Praschma v. Saunders, 48 F.3d 323 (8th Cir. 1995)* , the court held that where the alien owner of farmland owned the land on the effective date of the statute and disposed of the land to his two sons, who were also aliens, the grandfather clause of the statute provided the alien with a legally protected interest in the land and to exclude such aliens from the class of potential grantees would limit the right of the owner to dispose of the land, one of the recognized incidents of property ownership. However, in *Von Kerssenbrock-Praschma v. Saunders, 121 F.3d 373 (8th Cir. 1997)* , the court upheld the statute as being rationally related to a legitimate state interest. *See R.L. Investment Limited Partners v. Immigration and Naturalization Service., 86 F. Supp. 2d 1014 (2000)* where the Immigration and Naturalization Service denied a petition for preferred visa status as a foreign investor. This denial was upheld against challenges that INS abused its discretion and that the action violated the Administrative Procedures Act. The reason the petition was denied was because the alien refused to document the source of his capital.

§ 79.12(d) Restrictions on Ownership as a Denial of Procedural Due Process. [Go To Main]

Add

For a discussion on Nebraska farming law and its relation to the due process law see Anthony Shutz, "Nebraska's Corporate-Farming Law and Discriminatory Effects Under the Dormant *Commerce Clause*," *88 Neb. L. Rev. 50 (2009).*

§ 79.12(e) Restrictions that Interfere with Federal Foreign Affairs Powers. [Go To Main]

Add

For further discussion, *see* Peter J. Spiro, *Foreign Affairs Law at the End of the Century. Part II: Role of the State in Foreign Affairs*, 70 U. Colo. L.R. 1223 (1999). *See also* D. Tang, *Special Concerns of Foreign Investors in Sophisticated Real Estate Transactions*, 468 PLI/Real 495 (2001).

§ 79.12(g) Preemption by Federal Statutes or Regulatory Power. [Go To Main]

Add:

Where the issue is whether the laws of foreign states rather than those of the states govern, the state law may be preempted by the laws of the foreign state. In *Wong v. Tenneco, Inc., 702 P.2d 570 (Cal 1985)* , the Mexican restrictions against foreign ownership of land in that country precluded an action by a U.S. citizen who owned farmland in Mexico against a produce broker. The court held that based upon the principles of comity, the Mexican law would govern and denied relief to both parties.

CHAPTER 80 THE POWER OF EMINENT DOMAIN

9-80 Thompson on Real Property, Thomas Editions § 80.01

AUTHOR: Professor David A. Thomas J. Reuben Clark Law School Brigham Young University

§ 80.01 Introduction.

[Go To Supp]

§ 80.01(a) Definition of Eminent Domain.

The term eminent domain is first found in the works of Grotius. n1

Eminent domain is the right of the sovereign to acquire title to property through the process of condemnation and is based upon the concept that the state is the ultimate owner of all realty. This sovereign power resides in and may be wielded by a federal or state government, or agency or subdivision or nominee thereof. The power of eminent domain is inherent in all sovereignties, and is defined as the right of the nation or state, or of those to whom the power has been lawfully delegated, to condemn private property for public use, and to appropriate the ownership or possession of such property for such use upon paying the owner due compensation, to be ascertained according to law. n2 Rights in real property cannot ordinarily be taken from the owner except through eminent domain. n3 When those rights are taken, however, it is somewhat equivalent to a forced sale for an amount of money equal to the value of the rights. n4 This sovereign right is vested in the people. n5

The concept of eminent domain includes nothing in the nature of contract between the landowner and the state, or the corporation to which the power is delegated; n6 it is, in effect, a compulsory sale. n7 The owner of the realty cannot prevent its taking, and the right of the public is independent of the owner's consent. n8 It is not unconstitutional for the power of eminent domain to require the acceleration of a mortgage. n9

The power to exercise eminent domain is not itself a property right and can be taken away without compensation. n10

COMPUTER-ASSISTED RESEARCH

LEXIS: "eminent domain" w/5 definition

§ 80.01(a)(1) Distinguished from Taxation Power.

It is distinguished from the power of taxation in that its exercise operates upon an individual person without reference to

what is exacted from any other person or class of persons, and without reference to a person's ability to contribute toward the necessities of government. n11

COMPUTER-ASSISTED RESEARCH

LEXIS: "eminent domain" w/20 "tax! power"

§ 80.01(a)(2) Distinguished from Police Power.

It is also distinguished from the police power, by which the state assumes to direct the use that a landowner shall make of the property so as not to interfere with the reasonable use and enjoyment by others of their property. In the exercise of eminent domain, private property is taken for a public use and the owner is compensated, while the police power regulates the owner's use and enjoyment of property or deprives the owner of the property for the public welfare, usually without compensation. n12 When police power regulation becomes too oppressive, a "regulatory taking" may be said to have occurred and compen-sation must be paid; when the state's use of its own property too adversely affects the rights of nearby landowners, a compensable taking also occurs. n13

The difference between the police power and the power of eminent domain is mostly one of degree, n14 and there is no set formula to determine where regulation ends and a taking begins. n15

The power of eminent domain is superior to zoning power, which is an exercise of police power. n16 Some courts have confused the police power and the eminent domain power. n17

LEXIS: "eminent domain" w/20 "police power"

§ 80.01(a)(3) Distinguished from War Powers.

And the power of eminent domain is further distinguished from the sovereign power to take and destroy property in the course of actual warfare; n18 in such situations the owner of the property taken or damaged is not entitled to compensation, n19 whereas the eminent domain power may be exercised only if compensation is given. Indeed, the destruction of property in wartime where necessary for the safety of the armed forces is an exercise of police power and not a taking for which compensation should be paid. n20

If property is taken for public use without compensation, the owner may claim damages for inverse condemnation. n21 To constitute inverse condemnation, the public interest must suffer if a use already attached is discontinued. n22

§ 80.01(b) The Origin and Basis of the Power.

The power of eminent domain is a very ancient prerogative of the sovereign, antedating American state and federal constitutions and surviving their adoption. n23 In Anglo-American common law, the power is a logical outgrowth of the king's prerogative, which later was inherent in the fundamental conception of feudalism. n24 Eminent domain is a power reserved as an inherent attribute of sovereignty rather than a power granted to the state. n25 The power is not conferred by, but only limited by, the federal n26 and state constitutions. n27 It has been held that the power of eminent domain was originally founded on state or political necessity, but most courts now hold that its exercise can be justified

only by the public benefit, safety, necessity, convenience, or welfare. n28

The existence of the power of eminent domain and the exercise thereof are justified on the theory that the rights of individual persons must yield to the public good, and that the welfare of the state is paramount to that of the individual citizen. n29

The power of eminent domain is innate, and is not derived through conferral by a constitution. It is said to lie dormant until its use is ordered by legislative enactment. n30

§ 80.01(b)(1) Based on Sovereign Ownership of the Land.

The state power to resume possession and ownership of property, whenever the public good requires it, n31 is perhaps a natural result of William the Conqueror's asserting ultimate ownership of almost all English land following the Norman conquest, 1066-1085A.D. This rendered the sovereign state the fundamental owner of all realty, and the individual person as holder of only such rights in the land for such period of time as the sovereign permits. The power to recall such land for the benefit of the state is an essential element of sovereignty. n32

The United States may take possession of land without formal condemnation proceedings. The property owner's remedy is to determine just compensation. n33

LEXIS: "eminent domain" w/10 sovereign w/10 land

§ 80.01(b)(2) Based on Political Necessity.

The power of eminent domain is also founded on important political considerations. n34 It arises out of the conflict between the interest of the people in public projects and the principle of indemnity to the landowner. n35 It is based on the theory that all sovereignties acquire property they need in order to perform governmental functions. n36 Sovereign states have the inherent right to appropriate private property for the purpose of promoting the general welfare. n37 In this country, the power has always been recognized as a necessary but distinct right of sovereignty. n38 A state possesses the power of eminent domain for uses over which it has a sovereign right of control and regulation. n39 The right of condemnations cannot be surrendered by grant or contract, n40 since its continued exercise is essential to the existence of organized society. n41

§ 80.01(c) Limitations on the Power.

In the United States, the power of the sovereign to take private property is limited by the conditions of public purpose and just compensation, n42 imposed by the Fifth and Fourteenth Amendments of the federal constitution and by similar state constitutional provisions. The public purpose requirement is also innate in the common law.

According to one theory, the power of eminent domain may be exercised only if the land taken is for public use and even public necessity, not merely public benefit. n43 The determination of necessity can be made by the entity exercising the power, and the determination can be overturned only if arbitrary or capricious. n44

If an entity with eminent domain power attempts to take possession without first following the condemnation procedure,

no title is acquired. n45 Because the condemnation is a governmental function, the condemnor is usually entitled to immunity, even if the ultimate function served by the condemnation is a proprietary function. n46

CHAPTER 80 THE POWER OF EMINENT DOMAIN

9-80 Thompson on Real Property, Thomas Editions § 80.02

AUTHOR: Professor David A. Thomas J. Reuben Clark Law School Brigham Young University

§ 80.02 The Source of Authority for the Power of Eminent Domain.

[Go To Supp]

§ 80.02(a) Inherent or Common Law Authority.

The power of eminent domain is an inherent power of sovereignty, so no constitutional or statutory source is necessary for its creation or existence. n47 Thus a state or federal government has a right to take and apply the private property of its citizens to public uses, n48 subject to the condition that just compensation therefor be paid. n49 Even though the eminent domain power itself is inherent, the authority for specific applications or exercise of the power may still require direction from constitutional or statutory provisions.

COMPUTER-ASSISTED RESEARCH

LEXIS: "eminent domain" w/20 "common law"

§ 80.02(a)(1) Eminent Domain Power in the States.

Each of the states holds this power as an attribute of the state's sovereignty, and the power is independent of constitutional or statutory expression; n50 with this power a state may even take lands of the federal government that are located within the state. n51

§ 80.02(a)(2) Eminent Domain Power in the Federal Government.

The federal government also has an inherent power of eminent domain that may be used in exercises of the government's own constitutional purposes and powers. n52 What the proper purposes may be for exercise of eminent domain power by the federal government is to be determined by federal law, not state law. n53 Just as a state may exercise its power of eminent domain to take federal land, so may the federal government condemn lands owned by a state or one of its political subdivisions. n54

§ 80.02(b) Constitutional or Statutory Authority.

According to the prevailing view, the inherent eminent domain power of the state necessarily lies dormant until legislative action specifies the occasions, modes, conditions and agencies for exercise of the power; n55 only when the state legislatively determines that a public purpose exists requiring use of the eminent domain power can the power be actually applied. n56

Another view holds that the eminent domain power, being inherent in the sovereign, may also be exercised without statutory authority, and that such statutory provisions as are made to apply to the power are in fact in derogation of and restrictions upon the power. n57

Whether eminent domain legislation is viewed as affirmatively authorizing exercise of the condemning power or simply limiting an inherently broad power, n58 states, considering themselves as governments of limited powers, have traditionally taken a restrained approach toward exercise of the power. The restraint is usually manifested by a strict construction of the enabling statutes themselves, n59 as if they were the ultimate source of the power rather than merely defining its exercise. The early common law reflected this attitude with the rule that the power of condemnation is a harsh remedy, and that the statutes authorizing its exercise are in derogation of the common law and should be strictly construed. n60 Thus the common law rule was that the right to exercise the power of eminent domain would not be extended beyond, and must conform in every respect to, the statutory authority. n61 Despite this common law rule, some courts have held for a liberal construction of eminent domain statutes, n62 and others hold that a rule of strict interpretation properly applies only to those statutes defining delegations of the power. n63

§ 80.02(b)(1) Constitutional Limitations.

The 5th Amendment to the federal Constitution imposes three limitations on exercise of the eminent domain power over private property: the power is to be exercised by means of a taking; just compensation must be paid for any taking; and the taking must be only for public use. n64 The state constitutions impose similar limitations, n65 and most also require that the compensation be paid or secured before the property is taken. n66

Both constitutional and statutory authority must be present to sustain an exercise of the eminent domain power. If the power can be exercised only according to the law of the land and with due process of law, the valid statute constitutes the law of the land n67 and its proper and orderly execution constitutes due process of law. n68 When the legislature determines which projects are appropriate for exercise of the eminent domain power, the legislature is acting within its constitutional authority. n69

Other issues may arise within the sphere of constitutional governance of eminent domain. A constitutional right to jury trial does not require jury trials for condemnation proceedings, n70 although some states authorize jury trials to determine compensation amounts. The presence of condemnation authority does not limit the state's right to obtain property rights by means of prescriptive easement or adverse possession, n71 although this view has been questioned. n72 The constitution is a guarantee that compensation will be paid for a taking, n73 so a claim in federal court for a taking by the federal government may be based either on implied contract to pay n74 or directly on the 5th Amendment to the constitution itself. n75 The 5th Amendment does not require payment in advance of the taking. n76 The payment provisions of the federal and state constitutions are considered self-executing, requiring no additional statutory authority either to waive govern-mental immunity or to create the remedy. n77 Condemnation to anticipate future needs and to reduce future costs of eminent domain has been held unconstitutional, n78 although contrary authority exists. n79

§ 80.02(b)(2) Statutory Limitations.

When the power of domain is exercised, it is done so by legislative authority. The legislature may exercise this power either directly n80 or by delegation. To exercise the power directly, the legislature may by enactment specify the property required and the use to which it is to be devoted. n81 Such an enactment is considered the law of the land and no further finding or adjudication on the matter is required, unless additional requirements are imposed by the

constitution of that jurisdiction. n82

If the power is delegated to an agency or subordinate governmental entity, n83 the exercise remains subject to control and regulation by the legislature. n84 A state or its agency may acquire property by eminent domain for public use or authorize a private person to so acquire property, if the property is to be dedi-cated to a public use. A private business which is given the power of eminent domain is obligated to serve the public without discrimination and at a reasonable rate. n85 A state may delegate the right to exercise eminent domain power to other agencies performing public service; if such agency is a private corporation, its duties must be of such a public nature as to make it expedient for the corporation to possess such power. n86 Accordingly, the power of eminent domain may be conferred upon municipal corporations n87 and political subdivisions such as counties, n88 drainage and water districts, n89 public utility districts, n90 school districts, n91 and also public officials, boards and commissions. n92 Valid delegations have also been made to private corporations, n93 railroads, n94 foreign corporations, n95 and even some private persons. n96 However delegated, the power remains primarily and immediately the act of the state; delegees of the power are but agents of the state. n97

The power of eminent domain may also be delegated by a general act which confers the power upon any parties complying with the conditions for the delegation. n98 The legislature may declare the purpose for which property may be taken and delegate to other persons or agencies the power of actually selecting the property. n99 At the federal level, those determinations have been held not subject to judicial review. n100

When the state has reached a decision to exercise the power of eminent domain, it is free to choose the means for exercising that power, if that means effectively provides for ascertaining just compensation for the owner. n101 The legislative authority, of course, has the power to revoke or change a statutory delegation. n102

Once a valid delegation of the power has been made, the delegee may exercise the power without judicial interference or control, unless to curb an abuse of the power. n103 The courts usually will not enjoin a corporation from condemning land for a public purpose on the ground that the corporation was irregularly organized, n104 nor will they, in many jurisdictions, allow the legality of the incorporation of a de facto company to be questioned in condemnation proceedings. n105 Some contrary authority exists. n106 A landowner is usually not permitted to prove that a private corporation with delegated eminent domain power was not organized for a public use. n107

§ 80.02(b)(3) Inverse Condemnation Compared.

A direct or indirect taking of a private interest in property by an agency of the government without legal proceedings is a de facto taking and leads to compensable inverse condemnation. n108 Where an action by the sovereign injures real property without there being an actual physical invasion, the question of inverse condemnation arises, and the term regulatory taking is often applied to that situation.

CHAPTER 80 THE POWER OF EMINENT DOMAIN

9-80 Thompson on Real Property, Thomas Editions § 80.03

AUTHOR: Professor David A. Thomas J. Reuben Clark Law School Brigham Young University

§ 80.03 The Requirement That the Eminent Domain Power Be Exercised for a Public Use.

[Go To Supp]

§ 80.03(a) General Rules.

The sovereign authority may exercise the right eminent domain condemnation only in order to devote the property to a public use. While it was once said that private property thus taken could not be given to another private party, that restriction is relaxed if the purpose of the taking is for a public use. The property taken must actually be used, and the use must be for public purpose. n109 Even if an owner of private property is fully compensated for a taking, the taking may not occur, unless it is for a public use. n110 A public use is a use in which the public interest is involved. n111 The constitutional authority for the public use restriction is not wholly straightforward.

§ 80.03(b) Constitutional Limitations.

The Fifth Amendment to the U.S. Constitution simply commands: "... nor shall private property be taken for public use, without just compensation." While the natural inference from this statement is that no takings, compensated or otherwise, may be for other than a public use, n112 the statement as expressed does not absolutely foreclose the possibility that takings could be for purposes other than public use. Indeed, some states have permitted takings for private benefit. n113 It has been held, however, that unless the power to condemn property for private uses has been expressly delegated by a provision in the constitution, n114 private property cannot be taken for what is only an ostensible public use, n115 or given in the first instance to a public grantee to be ultimately conveyed to a private party. n116 The words "public use" in the constitutional provisions means use by the public and not necessarily benefit to the public. n117 They imply possession, occupation, and enjoyment of the property by the public or by public agencies to be used for public purposes. n118 Condemnation to anticipate possible future needs and to reduce future costs of eminent domain is unconstitutional. n119

§ 80.03(c) "Public Use" as Interpreted by the Courts.

Courts have often referred to the meaning of "public use" in the eminent domain context as a perplexing and difficult question, n120 incapable of exact definition. n121 The meanings of both the words "public" and "use" have been thoroughly scrutinized and debated in the courts.

§ 80.03(c)(1) The Meaning of "Public Use."

The traditional, conservative approach of the meaning of "public" in "public use" has been that the property may be taken and used only by the sovereign, and not for the benefit of any private persons or even for the benefit of the citizens as a group. n122 This last distinction injects more confusion than clarity into the discussion, as illustrated by the example of condemnation for highway purposes, routinely approved as "public." n123 Some courts have also held to an even stricter standard, insisting that a taking must be for public necessity, rather than merely in the public interest. n124 A more liberal view holds that it is sufficient if there is a public purpose, which is a less exacting standard than public use. n125

For a use to be public, it is not required that all members of the public be directly benefited, n126 but the use must be available in common to all members of the public or community who choose to avail themselves of it. n127 In those states which equate public use with public benefit, it is not necessary that the whole community or any large part of it should actually use or be benefited by the property condemned. n128 Property may be condemned for a use that benefits only a small group or even a single person. n129

A use may be public even if public use is not its sole object. n130 The fact that the advantage of a particular public improvement also inures to a particular individual or group of individuals does not deprive the use of its public character. n131 However, a use or service in whose benefits only a few directly participate must still be of such a nature that it affects all as a community and not merely as individuals. n132 Thus the use of water power for the development of electricity for private domestic, mining and manufacturing purposes is a public use justifying the exercise of eminent domain. n133 It has also been held that a condemnation of private property for lease of parking facilities to private operators is for public use despite preclusion of state control over parking rates, and still subject to a privately enforceable common law duty to serve the public at reasonable rates. n134 Some state constitutions provide that any use that is necessary to complete the development of the state's material resources is a public use. n135

The use that is deemed public must be in the nature of a right. The general rule is that the general public must have the right to a definite and fixed use of the property appropriated, not as a mere matter of favor or by permission of the owner, but as a matter of right. n136 The public must have a legal right to the use, which cannot be denied or withdrawn at the pleasure of the owner. n137 The term public use pertains not only to such purposes as have to do with public health or public safety, but also includes public need and welfare. n138

§ 80.03(c)(2) Judicial Review of Legislative "Public Use" Deter-minations.

The initial determination of what is public use is within the legislative power, but that determination is subject to judicial review. n139 Not only is the legislature the proper authority for determining whether the power may or should be exercised, but that determination, when made within constitutional limits, is often held to be conclusive. n140 Other courts have held the legislative determination to be entitled to great respect, n141 but is not conclusive. n142 According to those courts, no amount of authority can change a non-public use into a public use. n143 While courts may review a legislative determination of the propriety of using eminent domain power in a particular situation, n144 the means for exercising that power is usually not subject to judicial review. n145 The exercise of the power, however, must be

reasonable, not arbitrary or capricious, and must be based on need. n146

§ 80.03(d) The Element of Necessity in Public Use.

Some jurisdictions hold that a public use also be necessary, n147 and they disa-gree over whether necessary means essential or merely useful. n148 In other words, must the condemnor establish whether the property is necessary for the public or is only expedient or reasonable. n149 If necessity is a required element in con-demnation, it is only a reasonable necessity rather than an absolute necessity. n150

In those jurisdictions where necessity is an element of public use or purpose, states differ over whether the determination of necessity is an administrative, legislative or judicial function. n151 Where this function is legislative, the legislature may empower another body, such as a public utility, to decide the question of necessity, and that is subject to judicial review only if the decision was arbitrary. However, some courts claim a fuller power to prevent abuse in the exercise of the right of eminent domain. n152 The Fourteenth Amendment does not require a hearing to determine the necessity of use in those situations. n153

§ 80.03(e) Examples of Public Use.

At opposite ends of the conceptual spectrum of public use are the strict view which limits public use to actual use by the general public, and the more liberal view which equates public use with public benefit. n154 The examples of public use described in this subsection reflect those positions and positions in between.

The problem of aesthetics as a public use is present in some eminent domain takings as in some applications of police power regulation. n155 Traditionally, aesthetic purposes were not considered to be within the meaning of public use. n156 However, the removal by taking of a "public eyesore" or elimination of visual pollution are now considered public purposes in many situations. n157 A military purpose is a public use for which land may be condemned. n158 Private property may be taken for a railroad right of way, n159 for improvement of watercourses, lakes or ponds, n160 for producing and supplying electric power, n161 for school purposes, n162 and to establish or enlarge a cemetery or a public monument. n163 The establishment of an airport is a public purpose, n164 even if a municipality eventually leases its airport to a private person for a term. n165 Likewise, low-level flying over land adjacent to an airport is the taking of an easement for a public purpose, n166 although courts have disagreed over whether there can be a taking without a physical trespass. n167 The construction, maintenance, and operation of airports or landing fields is a public purpose justifying use of eminent domain power to acquire lands for such uses; n168 the public purpose is not diminished by the fact that the benefit of the facility may extend beyond the borders of the state whose eminent domain power is exercised. n169

The taking of property in furtherance of a governmental project for slum clearance and the providing of housing accommodations to be rented to a class designated as "persons of low income" or to be leased or sold to limited dividend corporations is for a public use in some courts. n170 The fact that the property taken might be resold to private parties at a later date does not prevent condemnation. n171 When land was condemned primarily to permit private development of a shopping center and air space over the parking facilities for which there would have been no public need absent the shopping center, the taking was held unconstitutional. n172 Increasingly, the courts and legislatures permit eminent domain to be used for projects that may ultimately provide indirect benefits to private parties. n173 It is common now for land to be condemned for slum clearance and then ultimately sold or leased to private parties. n174 This is rationalized in some courts by the notion that public use is determined by the manner and purpose for which the property is used, rather than who the precise grantee happens to be. n175 Other courts still resist this position. n176 And

courts are divided as to whether a condemnation for the purpose of a housing development site is a public purpose or whether it is an appropriation of one's property for the benefit of the inhabitants or the housing site. n177 Some statutes permit condemnation of a right of way for the benefit of others than the general public, n178 but a statute which permits establishment of a private road upon application of public authorities over the private land of another may be unconstitutional. n179 However, in a substantial number of states statutes now permit as a public use the condemnation of an easement to reach privately owned landlocked property. These all require the condemnor to pay for the way. n180 Courts have disagreed as to constitutionality of such statutes. n181 A public use is not limited to surface of land, but may include areas both above and below to the extent necessary. n182

§ 80.03(f) Excess Takings.

The condemning authority usually may not take more property than is necessary to meet the requirements of the approved public use. For example, a municipality that has acquired a determinable fee is usually not permitted to condemn the possibility of reverter, if that reversionary interest is in excess of the property interest that is required for the public use. n183 However, some courts have permitted a taking of excess land upon one of three theories: to protect the utility, safety and beauty of an improvement even where the excess land is sold to a private person; where the excess is merely a remnant of a parcel and is so small as to justify taking the whole; and to enable the condemnor to recoup the value of the benefits made to the property by sale to a private person. n184 Some courts take the position that an excess taking may not occur in the absence of statutory authorization, n185 and other courts view such statutes as unconstitutional. n186

The United States government, in taking by eminent domain, is not restricted to take only the land that would be actually used, but may take additional land for industrial and recreational development to be resold to private parties as demand for such land increases. n187 Thus the Tennessee Valley Authority had power to condemn land beyond that which was actually to be inundated, such excess land to be later sold to private parties for industrial and recreational purposes, pursuant to congressional determination that such acquisitions and dispositions reflected the need for the project to speed the growth of employment in the area. n188 Nevertheless, eminent domain usually cannot be employed to take private property for predominantly private use. n189

A statute authorizing a municipal authority to condemn vacant land that is unmarketable, clear the land and sell it to a private corporation for development and construction of new homes has been upheld as permitting takings for public use. n190

If only part of a parcel of land is required in the taking, the rest of the parcel usually may not be taken. It is most often the prerogative of the condemnor to determine how much property is to be taken. n191 Some jurisdictions have attempted "substitute condemnation," taking private land for private use to substitute for land condemned elsewhere. n192 Land that is sold to the state under threat of condemnation is not under the restriction of public use.

Houston Lighting & Power Co., 153 S.W.2d 628 (Tex. App. 1941); Carnegie Natural Gas Co. v. Seiger, 79 S.E. 3 (W. Va. 1913).*

(n21)Footnote 129. *United States v. Boyle, 52 F. Supp. 906 (N.D.Ohio 1943).*

(n22)Footnote 130. *Riche v. Bar Harbor Water Co., 75 Me. 91 (Me. 1883); Allydonn Realty Corp. v. Holyoke Hous. Auth., 23 N.E.2d 665 (Mass. 1939); Mueller v. Supervisors of Courtland, 135 N.W. 996 (Minn. 1912); Denihan Enters. v. O'Dwyer, 100 N.Y.S.2d 512 (1950); Miller v. City of Tacoma, 378 P.2d 464 (Wash 1963). See* Michael John Matheson, *Excess Condemnation in California: Proposals for Statutory and Constitutional Change, 42 S. Cal L. Rev. 421* (1968-1969). Slum clearance is a proper purpose regardless of subsequent use of the property. *City of Chicago v. Gorham, 400 N.E.2d 42 (Ill. App. 1980).*

(n23)Footnote 131. *In re Kansas City Ordinance No. 39946, 252 S.W. 404 (Mo. 1923); Denihan Enters. v. O'Dwyer, 99 N.E.2d 235 (N.Y. 1951). See Kaskel v. Implellitteri, 115 N.E.2d 659 (N.Y. 1953)* (urban development). A railroad spur is a public use though it benefits but a single industry. *Reter v. Davenport, R.I. & N.W. Ry., 54 N.W.2d 863 (Iowa 1952).* A public parking garage to be leased to a private party was a "public purpose" for eminent domain. The

incidental private benefit is immaterial. *Denihan Enters. v. O'Dwyer, 99 N.E.2d 235 (N.Y. 1951).* That private parties or private interests may be benefited is not fatal, so long as the use intended is not restricted to such parties or interests but is open to the whole public. *Hudson River Regulating Dist. v. Fonda, J. & G. Ry. 217 N.Y.S. 781 (1926).* Incidental benefit of a private use does not defeat exercise of eminent domain for a public purpose. *Berger v. Howlett, 182 N.E.2d 673 (Ill. 1962).*

(n24)Footnote 132. *In re Opinion of the Justices, 8 N.E.2d 753 (Mass. 1937).* Supplying of electricity is a public purpose. *Public Serv. Co. v. Shannon 192 A.2d 608 (N.H. 1963). In re Opinion of Justices, 131 N.E. 25 (Mass. 1921)* (public use implies public service); *Mumpower v. Hous. Auth., 11 S.E.2d 732 (Va. 1940)* Aesthetic reasons may be considered as justification for eminent domain. *Berman v. Parker, 348 U.S. 26 (1954).* Eminent domain lies even though the school corporation condemning the land proposed to convey the realty so acquired to privately owned leasing company, and to lease the premises under a situation by which at the expiration of the lease title would revert to the condemning authority. The public purpose was not defeated by the fact that incidental private use would result. *First Nat'l Bank v. Penn-Harris-Madison Sch. Corp., 231 N.E.2d 238 (Ind. 1967).* Taking property by eminent domain is proper even though portion of the property will be devoted to production of incidental income. *Courtesy Sandwich Shop, Inc. v. Port of N.Y. Auth., 190 N.E.2d 402 (N.Y. 1963).*

(n25)Footnote 133. *State ex rel. Chelan Elec. Co. v. Superior Court, 253 P. 115 (Wash. 1927).*

(n26)Footnote 134. *Foltz v. City of Indianapolis, 130 N.E.2d 650 (Ind. 1955).* Private corporation for profit can develop slum clearance area. *Chicago Land Clearance Comm'n v. White, 104 N.E.2d 236 (Ill. 1952), cert. denied, 344 U.S. 824 (1952),* and also in "conversation areas" in danger of becoming slum areas. *People ex rel. Gutknecht v. City of Chicago, 121 N.E.2d 791 (Ill. 1954); Zisook v. Maryland-Drexel Neighborhood Redev. Corp., 121 N.E.2d 804 (Ill. 1954).* Land taken by eminent domain may be later devoted to private purposes as in condemnation of blighted areas. *People ex rel. Adamowski v. Chicago Land Clearance Comm'n, 150 N.E.2d 792 (Ill. 1958). Contra Adams v. Housing Auth., 60 So. 2d 663 (Fla. 1952); Housing Auth. v. Johnson, 74 S.E.2d 891 (Ga. 1953); Edens v. City of Columbia, 91 S.E.2d 280 (S.C. 1956).* Off-street parking is a proper subject for eminent domain. *Sammons v. Beaufort, 83 S.E.2d. 153 (S.C. 1954).*

(n27)Footnote 135. *Codd v. McGoldrick Lumber Co., 279 P. 298 (Idaho 1929).*

(n28)Footnote 136. *Rogers v. Toccoa Elec. Power Co., 137 S.E. 272 (Ga. 1927).* The mere fact that the legislature has authorized the taking of private property for private purposes, as well as public, will not in itself nullify the authority to take for the public use alone, at least where they are separable. *Smith v. Western Maine Power Co., 132 A. 740 (Me. 1926).* If a private use is combined with a public one, in such a way that the two cannot be separated then the right of eminent domain cannot be invoked to aid the state. *State ex rel. Puget Sound Power & Light Co. v. Superior Court, 233 P 651 (Wash. 1925).* The courts have the authority to determine whether a "public use" is involved in the taking. *United States v. 58.16 Acres of Land, 478 F.2d 1055 (7th Cir. Ill. 1973). See* Erwin E. Leiter, 51 Chicago-Kent L. Rev. 645 (1974-1975). Mere fact that some other property might have been taken is not sufficient objection to eminent domain. *KEM Elec. Co-op, Inc. v. Materi, 247 N.W.2d 668 (N.D.1976).*

(n29)Footnote 137. *Fountain Park Co. v. Hensler, 155 N.E. 465 (Ind. 1927)* (statute attempting to confer power of eminent domain on a Chautauqua Association held unconstitutional).

See Ferguson v. Illinois Cent. Ry., 210 N.W. 604 (Iowa 1926); Paine v. Savage, 136 A. 664 (Me. 1927); Pontiac Imp. Co. v. Cleveland Metro. Park Dist., 135 N.E. 635 (Ohio 1922); Smith v. Cameron, 210 P. 716 (Or. 1922) (irrigation of private land not a public use); *Nichols v. Power Co., 130 S.E. 764 (Va. 1925).* When the public use is not sufficiently specific and definite but is remote and undefined it is insufficient to form the basis of condemnation proceedings. *Wise v. Abilene Water Co., 261 S.W. 549 (Tex. App. 1924). See also* Osborne M. Reynolds, Jr., *Is Public Necessity Necessary? 29 Okla. L. Rev. 861 (1976).*

(n30)Footnote 138. *United States v. Certain Parcels of Land, 54 F. Supp. 943 (W.D.Pa. 1944); In re Petition of City of Detroit, 14 N.W.2d 140 (Mich. 1944).*

(n31)Footnote 139. *City of Charlotte v. Cook, 498 S.E.2d 605 (N.C. 1998)* (condemnation proceedings can only be instituted when the taking is for a public purpose; it is up to the courts to determine whether a taking is for a public purpose); United States v. 1603 Acres, 26 F.3d 349 (2d Cir. 1994); *United States ex rel. T.V.A. v. Three Tracts of Land, 377 F. Supp. 631 (N.D.Ala. 1974).* Nature and extent of the interest to be acquired lies within the discretion of authorized federal officials and cannot be changed by the courts. *United States v. Winnebago Tribe of Neb., 542 F.2d 1002 (8th Cir. 1976); Greenwood County v. McDonald, 394 S.E.2d 325 (S.C. 1990).*

CHAPTER 80 THE POWER OF EMINENT DOMAIN

9-80 Thompson on Real Property, Thomas Editions § 80.04

AUTHOR: Professor David A. Thomas J. Reuben Clark Law School Brigham Young University

§ 80.04 Property Rights That May Be Taken by Eminent Domain.

[Go To Supp]

Theoretically, all types of property and property rights -- both personal and real -- are subject to condemnation by eminent domain power. n193

§ 80.04(a) Property Rights That May Be Taken by Eminent Domain.

The following list of property rights that have been held subject to condemnation demonstrates, in miscellaneous order, the huge range of rights over which eminent domain power may be exercised:

An adjoining landowner's interest in fee in a street n194

Church property n195

Contractual rights n196

The top of a dike taken for road purposes n197

Designation of a historical landmark, curtailing development rights n198

Dower rights n199

Easements n200

Fixtures n201

Franchises n202

Intangible property n203

Interests held by a toll-bridge company n204

Interests held by a turnpike company n205

Land held by a state other than where the land is located n206

Mortgaged property n207

Native American claims to land n208

Any possessory or future interest in realty n209

Property held under a lease n210

Property in the hands of a receiver n211

Property rights held by municipalities n212

Railroad property n213

Rights of reversion to land n214

Rights of way n215

Subsurface stratum for storage of gas by a public utility n216

Turnpike roads n217

Other cases have held that materials stored may be condemned for road building purposes. Intergovernmental relations are often at stake in certain condemnation situations. For instance, property held by a state or governmental subdivision of the state may be condemned by the federal government. n218 Likewise, property of a municipal corporation may be taken by the state. n219 Under some rare circumstances, property held by the federal government is subject to taking by the state. n220

COMPUTER-ASSISTED RESEARCH

LEXIS: "eminent domain" w/20 rights w/3 property

§ 80.04(b) Property Rights Whose Susceptibility to Eminent Domain Power is Disputed or Conditional.

Condemnation of some property rights is approved in some jurisdictions and not permitted in others. Many courts, for instance, hold that options to purchase realty can be condemned, n221 while other courts disagree. n222 Likewise, some courts approve condemnation of utility easements n223 or other property, n224 and other courts do not; n225 and a public utility franchise is also permitted in some states, n226 but not in others. n227 According to some courts, a public utility having facilities on public highways is not entitled to compensation when relocation is required, while other courts disagree. n228

In some jurisdictions property already devoted to a public use is protected from further condemnation, but some courts disagree. Generally, property already devoted to a public use is protected from invasion by other uses if such new uses

will be so substantial as to amount to destruction of the original use, unless express legislative action permits the new eminent domain proceeding. n229 However, the federal government may, by eminent domain, take property already devoted to a public use. n230 And as a general rule, property devoted to a public use may not be taken by eminent domain for an inconsistent public use, n231 unless the property taken is not in active public use n232 and there is express statutory authority for such a taking. n233 Under this so-called "prior public use" doctrine, therefore, one arm of the sovereign cannot condemn property held by another arm, n234 unless the legislature decrees otherwise. n235 However, under the so-called "superior use" doctrine, land previously devoted to public use may, by the exercise of the power of eminent domain, be condemned for another public use, when the latter use is more beneficial to the general public and not destructive of the rights of the public under the first use. n236 Some courts reject this doctrine. n237 A mere general grant of eminent domain power, without express legislative authorization to take property already in public use, does not permit such condemnation. n238

Land held by a public service corporation for purposes other than those pertaining to its franchise may be taken, n239 but in some states property of such corporations is considered as being devoted to or held for a public use, so as to exempt it from condemnation for a different public use under general authority. n240

Personal property that is party of condemned realty may also be condemned, but only if conditions of annexation, adaptability and intent are met. n241

§ 80.04(c) Property Rights That Are Not Subject to Eminent Domain Takings or to Compensation.

Some property rights are not subject to condemnation or, if terminated, are not considered as having been taken. For instance, termination of a revocable franchise or permit is not a taking. If a condemning authority takes the subject matter of a contract, but does not assume the rights and obligations under the contract, there is no condemnation of the contract. The contract is considered at an end and the loss that follows is noncompensable. n242

If the federal government takes or destroys property, or diminishes property's value, under the war or commerce powers, the losses are not takings and are not compensable to the owners. Destruction of property order by the U.S. military authorities to prevent the property's use by invading military forces of an enemy nation does not constitute a compensable taking. n243 Likewise, regulations limiting use of property during wartime are not compensable takings.

A traditional rule was that Native American claims to land could be extinguished without compensation unless the federal government recognized the claims. n244 The United States Supreme Court has since ruled, however, that certain original Native American claims, even though never officially recognized by Congress, are property rights for the taking of which the owners must be compensated. n245

Under the rule of comity, property in the hands of a federal court receiver cannot be condemned in a state court. n246 Indeed, without express federal authority, a state cannot condemn any federal property, including that not being used for governmental purposes. n247 And a state is without authority to interfere with the federal exercise of eminent domain. n248

Each state holds all the property within its boundaries free from the eminent domain of all other states, so that no state can take or authorize the taking of property located in another state. n249 On the other hand, all the rights and powers of a municipality are derived from the state, and all its property is held subject to the inherent right of the state to appropriate it to public use whenever the public good may require it. If the municipality holds property in a governmental capacity, it is held as an agency of the state, and the property so held may be reclaimed by the state under superior right at any time without compensation. n250 If the property is held by the municipality in its private or proprietary capacity such property may be appropriated to public use the same as any other privately-owned property but cannot be taken without compensation. n251

(n15)Footnote 207. *State v. St. Louis S.W. R.R., 165 S.W. 491 (Tex. App. 1913); Alabama & F.R.R. v. Kenney, 39 Ala. 307 (1864).*

(n16)Footnote 208. *Northwestern Shoshone Indians v. United States, 324 U.S. 335 (1945); Tee-Hit-Ton Indians v. United States, 120 F. Supp. 202 (Ct. Cl. 1954); United States v. Alcean Band of Tillamooks, 329 U.S. 40 (1946).*

(n17)Footnote 209. *Houston North Shore Ry. v. Tyrrell, 98 S.W.2d 786 (Tex. 1936).* Loss of easement is not compensable where easement rights are not condemned, nor would the condemnation operate directly on such easements, even though the condemnation of the fee nullified the intended use of the easement. *United States v. 40.60 Acres of Land, 324 F. Supp. 573 (N.D. Cal. 1971).* Lease from year to year terminable on 60 days' notice by either party created a property right requiring condemnation. *Batcheller v. Iowa State Hwy. Comm'n, 101 N.W.2d 30 (Iowa 1960).*

(n18)Footnote 210. *Houston North Shore Ry. v. Tyrrell, 98 S.W.2d 786 (Tex. 1936).* So in the case of cemeteries. *Clarendon County v. Holliday, 189 S.E. 885 (S.C. 1937).* Covenant of quiet enjoyment in lessee is not breached by a taking in eminent domain. *Dolman v. United States Trust Co., 138 N.E.2d 784 (N.Y. 1956).* Taylor Grazing Act permits are not property subject to compensation. *United States v. 40,021.64 Acres of Land, 387 F. Supp. 839 (D.N.M. 1975).*

(n19)Footnote 211. *Western Union Tel. Co. v. Atlantic & Pacific Tel. Co., Fed Cas. No. 17445, 7 Biss 367 (C.C. Ind. 1877); Central R.R. v. Pennsylvania R.R., 31 N.J. Eq. 475 (1879).*

(n20)Footnote 212. *Reclamation Dist. v. Superior Court, 154 P. 845 (Cal. 1916).* The cases are divided as to whether the United States must compensate a state for property taken from the state. *Cass v. Morgan Counties, 62 N.E. 207 (Ill. 1901)* (no compensation required); *St. Louis v. Western Union Tel. Co., 148 U.S. 92 (1893); Bedford v. United States, 23 F.2d 453 (1st Cir. 1927); see also United States v. Des Moines County, 148 F.2d 448 (8th Cir. 1945).* County commissioners were authorized to condemn so much of the land owned by incorporated village as was necessary for park and recreational purposes, but not that which the village intended to use for municipal buildings. *Richmond Heights v. Board of County Comm'rs, 166 N.E.2d 143 (Ohio App. 1960); Nahant v. United States, 136 F. 273 (1st Cir. Mass. 1905); State Hwy. Comm'n v. Elizabeth, 140 A. 335 (N.J. 1928).* The rule is that a municipality is not entitled to compensation for land held by it and devoted to a public use when the property is taken by the state, but a public use does not apply when such property is condemned by virtue of the authority of United States and not under authority delegated to the United States by the states. *Beford v. United States, 23 F.2d 453 (1st Cir. 1927).* Where the taking by

the state is for a proprietary and not for a sovereign purpose, a public utility is entitled to damages for its installations, though made on a public highway. *In re Gillen Place, 106 N.E.2d 897 (N.Y. 1952).*

(n21)Footnote 213. *Ferguson v. Illinois Cent. R.R., 210 N.W. 604 (Iowa 1926); Houston N. Shore Ry., v. Tyrrell, 98 S.W.2d 786 (Tex. 1936).* Unexercised option to purchase or renew lease must be valued in eminent domain. *Sholom, Inc. v. State Rds. Comm'n, 229 A.2d 576 (Md. 1967).*

(n22)Footnote 214. The value of a possibility of reverter is so low that a state must pay the full value though it takes but a determinable fee. *State v. Cheyenne County, 60 N.W.2d 593 (Neb. 1953); North Carolina State Hwy. v. Black, 79 S.E.2d 778 (N.C. 1954).* Apportionment of the award between the immediate estate and future interest has been allowed in *United States v. 1,119.15 Acres of Land, 44 F. Supp. 449 (E.D.Ill. 1942); United States v. 2,184.81 Acres of Land, 45 F. Supp. 681 (W.D.Ark. 1942); United States v. 2,086 Acres of Land, 46 F. Supp. 411 (W.D.S.C. 1942); United States v. 16 Acres of Land, 47 F. Supp. 603 (D.Mass. 1942).* The courts upon condemnation have refused to give condemnation awards to the possibility of reverter or right of re-entry. *First Reformed Dutch Church v. Croswell, 206 N.Y.S. 132 (1924); In re Cook's Will, 277 N.Y.S. 26 (1935); Lutes v. Louisville & N. R.R., 164 S.W. 792 (Ky. 1914);* unless the breach has occurred prior to the condemnation. *In re Opening and Extending of North Conduit Ave., 27 N.Y.S.2d 841 (1941).*

(n23)Footnote 215. *Gwin v. Greenwood, 115 So. 890 (Miss. 1928); State ex rel. Colyn v. Superior Court, 232 P. 282 (Wash. 1925)* (private road); *In re Condemnation of Lands, 196 N.W. 575 (Wis. 1923).* In Montana a private individual can condemn a right-of-way across another's property. *Simonson v. McDonald, 311 P.2d 982 (Mont. 1957).*

(n24)Footnote 216. *Wilcox v. Illinois Commerce Comm., 178 N.E.2d 873 (Ill. 1961); Peoples Gas Light & Coke Co. v. Buckles, 182 N.E.2d 169 (Ill. 1962).* State may give a public utility right to condemn underground reservoirs. *Iroquois Gas Corp. v. Gernatt, 272 N.Y.S.2d 291 (1966).* Taking by eminent domain of means of access to land otherwise landlocked held valid as substitute condemnation. *North Carolina State Hwy. Comm'n v. Asheville Sch., Inc.,169 S.E.2d 193 (N.C. App. 1969).*

CHAPTER 80 THE POWER OF EMINENT DOMAIN

9-80 Thompson on Real Property, Thomas Editions § 80.05

AUTHOR: Professor David A. Thomas J. Reuben Clark Law School Brigham Young University

§ 80.05 What Constitutes a Taking.

first amendment

§ 80.05(a) Introduction.

Uncompensated takings of private property by the sovereign are prohibited by the Fifth and Fourteenth Amendments to the United States Constitution and by similar provisions in state constitutions. The limitations thus imposed on state power are absolute, except for takings by forfeiture and restrictions imposed by police power regulations.

Takings may be in form of actual seizures of property, limitations of possessory interests not actually seized, damage to other property, and inverse condemnation. n252 Some restrictions on property interest imposed by police power regulations are serious enough to constitute takings, but others are not. n253 When only a portion of a parcel of land is actually taken, the part not taken may be so severely limited in use that the entire parcel may be considered taken and compensation for the whole required. n254 Generally, the damage to property that gives rise to a taking means some direct physical disturbance of a right which owners enjoy in connection with their property. n255 Thus a limitation imposed on property by federal environmental legislation has usually not been held to constitute a taking. n256

§ 80.05(b) The Types of Deprivations That May Be Takings.

Although states differ widely in application of taking principles, they generally agree that any deprivation of an owner's interest in or right to land may be considered a taking. n257

Stated another way, any interference with ownership, enjoyment, or the value of private property is usually considered a taking, n258 but the breadth of that formulation has been limited by the courts. n259

§ 80.05(b)(1) Takings That May Result From Exercise of Police Power.

A taking may occur when a property owner is deprived of the property's use, n260 following an invasion of the property by public authority and damage or deprivation resulting from the invasion. n261 A taking may also occur even if no actual entry takes place, n262 a situation frequently arising when property is regulated under exercise of governmental police power. n263 Such land regulations may produce a change of title, destruction of a substantial right, imposition of an easement or other burden, or interference with use and enjoyment of the property, all of which have been held to be takings. n264 Therefore, an obstruction on or restriction upon use of property may be as much a taking as actual seizure of the property. n265

If police power regulation of private property is exercised within constitutional restraints, then no compensation need be paid. n266 One of those restraints is whether the use of the police power is to promote or preserve the health, morals, safety or general welfare of the community. n267 Ordinarily, no compensable taking occurs when the damage to property results incidentally from governmental activities or from laws passed to promote the general welfare. n268 However, even lawful activities may be so conducted as to inflict compensable injury on property. n269 Some actions held not to be compensable takings have included regulation of hazardous conditions, n270 the creation of a mere inconvenience, infringement upon lateral support n271 (although destruction of the lateral support right may be compensable), n272 or building a limited access highway on a new right of way. n273 On the other hand, takings have been found in pollution of water, n274 prohibiting renovation of a historic structure under a land-marks statute, n275 and overburdening by new uses an easement held by the state. n276

Courts have persistently disagreed over whether certain actions constitute takings or noncompensable exercises of police power. For instance, only in some jurisdictions does the use of highways by public utilities entitle the owner to additional compensation; n277 authorities divide over whether destruction or invasion of a restrictive covenant is a compensable taking; n278 and legislative requirements for developers to dedicate portions of their projects for certain public purposes have also received varying treatments in the courts. n279

A special set of takings problems has resulted from airplane flights, including problems of overflights, pollution, noise and nuisance. n280 The traditional theory that a landowner has rights in the space above the land has resulted in compensation when low flights interfered with those rights. n281 This theory has been extended to the problems on nearby lands, not directly under the flight approaches, which have suffered from noise and fumes of the airplanes. n282 Low-flying aircraft have been held to have taken an easement, n283 or to have constituted a trespass, n284 for which compensation must be given. Airflights even within navigable airspace have been held to be takings, n285 and the prohibition of building structures above a certain height when within certain proximity to the airport has also been held to be a taking. n286

Another type of interference with air or airspace rights is obstruction of view. Most courts hold that no compensation is owed for mere obstruction of view, but a minority view disagrees. n287 Where a landowner holds an easement that effectively preserves access to light, air, and view, interference is com-pensable. n288 When an easement is sought by condemnation, in order for an improvement to be constructed, evidence as to the unsightliness of the proposed improvement may be introduced as relevant to the amount of just compensation. n289

However, no compensation is required when the condemnation is shown to likely cause a general depreciation of property values in a neighborhood. n290 A viaduct that carried a highway over a railroad line and obstructed the view from nearby property created a right to compensation under a statute authorizing takings payments for injuries to property not taken. n291

§ 80.05(b)(2) Takings by Inverse Condemnation.

Inverse condemnation generally consists of the taking of property rights-through interference with the use and enjoyment of property n292 - rather than taking the property itself. n293

When the sovereign, by action other than the proper exercise of the police power, interferes with or takes a property right without paying compensation, inverse condemnation results and the property owner may sue for damages. n294 However, inverse condemnation is based on the constitutional requirement of just compensation, not on tort theory. n295 Most inverse condemnation cases require that, whatever the diminution of property value, the damage to property rights be severe and not a mere inconvenience. n296 To be a taking by inverse condemnation, the action must be either a physical taking or a physical injury. n297

Many actions that result in takings are treated as inverse condemnations. n298 Thus a taking and inverse condemnation results when the state increases the burden of a servitude which it has acquired, n299 such as installing power lines along a public highway. n300 Under the concept of transferable development rights, taking occurs when a property is designated as a historical landmark and such rights are thus taken by inverse condemnation. n301

If a government action that allegedly resulted in a taking was negligent, it must usually be challenged in a tort action of trespass or nuisance. n302 Thus, an abutting landowner whose property was damaged by a nearby taking but not actually taken may sue for damages, if the bar of sovereign immunity as applied in tort actions can be overcome, n303 but some cases have found injury resulting from negligent acts of government to be takings rather than ordinary tort actions. n304

Despite these cases, and even though inverse condemnation is raised in some actions where the "taking" is inadvertent and negligent, inverse condemnation is not appropriate to avoid sovereign immunity in a true tort action against the government. n305

Inverse condemnation has been invoked as a weapon against zoning ordinances and other land use regulation interferences with use of property that do not involve physical invasion. n306 When an actual taking significantly alters a neighborhood, owners of land not taken may not claim damages to their portion under a theory of inverse condemnation. n307

Also, temporary inconvenience suffered during construction of public improvements is not a taking unless the landowner's property rights in remaining property were seriously impaired. n308

LEXIS: "eminent domain" w/20 taking w/10 "inverse condemnation"

§ 80.05(b)(3) Takings by Denial of Access.

In many situations, a taking that denies access to or from other land not taken is treated as a taking with respect to that other land, and damages for loss of access are not necessarily confined to adjacent landowners. n309 A landowner who is denied access to a highway may be compensated, n310 but a taking that causes mere inconvenience rather than completely eliminating access will not be entitled to compensation. n311

A temporary inconvenience of diminished access caused by construction of public improvements is not compensable in the absence of severe or permanent damage to the property not taken. n312 In general, a permanent loss of access --whether caused by grade elevation, street closing, obstruction or by a non-accessible highway -- is considered a taking, n313 although contrary authority exists. n314 The same competing rules prevail with respect to water access. n315

As an example of how the general rules just stated are applied, in some jurisdictions one who owns property abutting a public street has a right to an easement of access to that street and compensation for damage to property caused by lowering the grade of that street. n316 Other jurisdictions treat the mere lowering of the grade of street as noncompensable unless access is actually destroyed. n317 This latter situation arises frequently with the construction of nonaccess freeways, which usually requires payment of compensation to owners of adjacent land who are deprived of access to an established highway. n318 Construction of statutes authorizing such payments is usually liberal. n319 However, if access is not completely destroyed, the common law denies damages for discontinuance of a street which still leave suitable access by another street, n320 and a taking which merely creates an inconvenience is usually not compensable. n321 A mere casual and limited interference with access does not usually constitute a taking. n322

Thus, it is not a taking if a property owner is required to travel a greater distance to reach a street. n323 The changing of the route of a highway in such a manner that the highway no longer passes a landowner's property does not constitute a compensable taking, if the landowner is not deprived of ingress and egress. n324 Some courts, however, have awarded damages resulting from increased circuitry of travel caused by closing an access. n325

One whose property abuts an established road may not have that access denied by police power without compensation. n326 Courts are split as to whether one who has lost access to a freeway because the access road was closed is entitled to damages. n327 However, the access point on an existing highway may be controlled either through condemnation n328 or through police power. n329

When an easement for access is taken, that interest, too, is a property right whose taking is compensable. n330 There is no *right* of access to a new highway. n331

Taking of air access or interference with airspace may also be compensable. n332 When a right of way by necessity through the air was taken by an executive order that barred air travel lower than 4,000 feet, those who held the right of way were entitled to compensation. n333 Control of traffic patterns can give rise to a taking. n334 There is usually no property right in a particular traffic pattern, n335 and the construction of a median strip that interferes with the free flow of traffic past particular property is not a taking. n336 However, loss of business caused by construction of a median divider has given rise to damages. n337 Neither the establishment of one-way streets n338 nor the denial of access to traffic in one direction is a taking in eminent domain. n339

Some states impose limitations on circumstances in which recovery for loss of access may be awarded. In those states, the right of access is not absolute, but is limited to reasonable ingress and egress so that existing access can be frozen and future access points limited under the police power, with no compensation required. n340 If the denial of existing access merely restricts the existing access to reasonable access, it is a proper and noncompensable exercise of police power. n341 But if the regulation denies completely existing access or destroys its utility, compensation for condemnation is necessary. n342 If a public highway has once been legally abandoned to the adjoining landowners, any reopening of the highway constitutes a taking by the state. n343

§ 80.05(b)(4) Takings of Water and Water Rights.

A water right is a property right which cannot be taken without the payment of just compensation. n344 Subject to the federal right of control of navigation, interference with water rights is a taking. Thus, the construction of a public way which deprives the owner of the use of a nonnavigable stream is a compensable taking. n345 So also is a destruction of the right of wharfage, n346 the flooding of land with water, n347 and the subjecting of land to overflow n348 or

subterranean seepage. n349 Riparian or littoral water rights as well as appropriation rights may be the subject of eminent domain, n350 as may the right to divert water in a running stream. n351 An interest in accretion lands is property and may be condemned for public use. n352

The cases, however, are inconsistent as to condemnation of water rights. One line of authority holds that as far as navigable waters are concerned the sovereign has an absolute right of control. n353 This is in some cases limited by the theory that some riparian rights attach to the soil and hence any taking requires compensation. n354 There is division of authority as to whether riparian owners can recover for consequential damages caused by changes in the stream bed. n355 The taking of the foreshore has been held compensable, n356 but a taking of water below the owner's boundary in a flowing stream is not. n357 Regulation of a public water supply is not a taking. n358

Flooding of land is a compensable taking, n359 even when it was caused by a change in grade to fend off surface water. n360 Subterranean flooding caused by a rising water table following construction of a government dam was compensable. n361

A constitutional amendment affecting reasonable water use is not a taking of riparian rights. n362

§ 80.05(b)(5) "De Facto" Takings.

A legal interference with the owner's power of disposition over property which constitutes a substitution of the condemnor's dominion and control over property is a de facto taking. n363 Thus, a condemnor's actions in threatening eminent domain may go so far as to amount to a de facto taking. n364 The de facto taking concept exists in a narrow or federal version n365 and a more liberal version. n366

Where condemnation is projected but not carried through, the owner may be able to claim injury because of the threat. Depending upon the applicable statute and the extent to which eminent domain proceedings have progressed, the courts differ as to the liability of the condemnor to the owner for damages and expenses if condemnation proceedings are abandoned. n367

Where condemnation proceedings are instituted and the owner moves in anticipation of such proceedings and condemnation is thereafter abandoned, the condemnor is usually not liable to the owner for expenses and damages incurred in anticipation of the forced move. n368 Thus, no compensation is payable where there is no condemnation, even though the landowner has changed his position in expectation of the taking. n369 However, it has also been held that the condemnor may not abandon the proceedings without liability after there has been detrimental reliance on the proceedings. n370 Compensation may be owed in some instances where the threat of a taking results in a diminution of property value, even though the condemnation never occurs. n371 Courts are divided as to whether the owner is entitled to compensation for undue delay in beginning a condemnation action. n372

The mere enactment of legislation authorizing condemnation of property is not a taking of the property, n373 nor is the filing of a municipality's general plan n374 or the sovereign's refusal to consent to an action to clear a title. n375 Other municipal actions may informally impact on property but do not constitute taking. Examples are statutes permitting utilities to make surveys for establishing the line of an easement, n376 planning in anticipation of a public improvement, n377 and publicity regarding proposed urban redevelopment plans, even though the publicity hinders the sale of the property. n378

App 1958).* Mere planning for condemnation is not a taking. *Hilltop Props., Inc. v. State, 43 Cal. Rptr. 605 (Cal. App. 1965).* The removal of lateral support from approved realty, by the state, and interference with property owner's rights of ingress and egress and view were not a taking. *Weir v. Palm Beach County, 85 So. 2d 865 (Fla. 1956).* The character of the invasion on the property and not the amount of damage resulting from it determines the question of whether there has been a taking. *Phelps v. Board of Supvrs. of County of Muscatine, 211 N.W.2d 274 (Iowa 1973).* A statute creating a public right of passage along the shore between mean high waterline and extreme low waterline without compensation to the owner of the upland was an unconstitutional taking. *Opinion of the Justices, 313 N.E.2d 561 (Mass. 1974).* Creation of a perpetual easement is a taking in eminent domain. *Crane v. Brintnall, 278 N.E.2d 703 (Ohio 1972).* Any serious interference with the use of property is a taking; actual invasion is not required. *Masheter v. Boehm, 295 N.E.2d 917 (Ohio App. 1973); Central Bucks Jt. Sch. Bldg. Auth. v. Rawls, 303 A.2d 863 (Pa. 1973).* Flights of aircraft so low and frequent as to be a direct and immediate interference with the use and enjoyment of land are a "taking." *Gardner v. Allegheny County, 114 A.2d 491 (Pa. 1955).* Mere devaluation of property caused by condemnor's acts is not sufficient to constitute a formal taking unless there is physical injury by the condemnor or physical ouster of the owner of illegal interference with physical use, compensation or enjoyment of property or legal interference with the owner's power of disposition of the property. *Central Bucks Jt. Sch. Bldg. Auth. v. Rawls, 303 A.2d 863 (Pa. 1973).* An abutting property owner has no property right in the continuing flow of traffic past the property. *Walker v. State, 295 P.2d 328 (Wash. 1956).* A statute authorized a utility to make a preliminary survey before damaging the property in *Indiana and Mich. Electric Co. v. Stevenson, 337 N.E.2d 150 (Ind. App. 1975). See* Joseph L. Sax, *Takings, Private Property and Public Rights, 81 Yale L.J. 149 (1972). See also* Daniel R. Mandelker, *Inverse Condemnation: The Constitutional Limits of Public Responsibility, 1966 Wis. L. Rev. 3.* James L. Magavern, *The Evolution and Extension of the New York Law of Inverse Condemnation, 24 Buff. L. Rev. 273 (1975).* Inverse condemnation through loss of access occurs only when all existing accesses have been effectively blocked. *Biff's Grills, Inc. v. Michigan State Hwy. Comm'n, 254 N.W.2d 824 (Mich. App. 1977).*

Manufactured Housing Communities of Washington v. State, 951 P.2d 1142 (Wash. App. 1998) (a statutory right of first refusal belonging to mobile home park tenants giving them the right to buy the park is not a taking of the park owner's property by means of physical occupation); *City of Laredo v. R. Vela Exxon, Inc., 966 S.W.2d 673 (Tex. App. 1998)* (no taking results from inhibiting of traffic where the government has not directly limited plaintiff's use of the property); *Maritrans, Inc. v. United States, 40 Fed. Cl. 790 (1998)* (the first step in analyzing a takings claim is to determine whether or not the plaintiff has a legal interest in the property); *Brewer for Value-Added Communications, Inc. Litigation Trust v. State, 672 N.Y.S.2d 650* (N.Y. Ct. of Claims 1998) (the appropriation of funds does not constitute a taking under New York's state constitution as money is a fungible commodity); *Karam v. State, Dep't of Environmental Protection, 705 A.2d 1221 (N.J. Super. App. Div. 1998)* (where government regulation substantially eliminates or bars all economic use of the land, a taking has occurred and just compensation must be paid to the

landowner).

(n7)Footnote 258. *United States v. Lynah, 188 U.S. 445,* (1903); *Prescott v. Northeast Utils., 1998 Conn. Super. LEXIS 29* (holding that "a constitutional taking occurs when there is a substantial interference with private property which destroys or nullifies its value or by which the owner's right to its use or enjoyment is in a substantial degree abridged or destroyed"); *U.S. West Communs., Inc. v. City of Longmont, 1997 Colo. LEXIS 1009* (holding that "a taking occurs when an entity with the power of eminent domain substantially deprives a property owner of the use and enjoyment of that property"); *County of Anoka v. Blaine Bldg. Corp., 566 N.W.2d 331 (Minn. 1997)* (holding that a taking "includes every interference, under the right of eminent domain, with the possession, enjoyment, or value of private property"); *Finke v. State, 521 N.W.2d 371 (Minn. App. 1994); Burger v. St. Paul 64 N.W.2d 73 (Minn. 1954); Zettlemoyer v. Transcontinental Gas Pipeline Corp., 657 A.2d 920 (Pa. 1995); Harris v. Town of Lincoln, 668 A.2d 321 (R.I. 1995); Piper v. Ekern, 194 N.W. 159 (Wis. 1923).* Settlement by a condemner with one whose property has been appropriated is equivalent to the full and complete exercise of the power of eminent domain. Formal entry is not requisite to a taking. *Pennsylvania R.R. v. Sagamore Coal Co., 126 A. 386 (Pa. 1924).* The rule is not limited to a permanent taking only but includes a temporary destruction or injury. *Stuart v. Gimbel Bros., 131 A. 728 (Pa. 1926).* Under the constitution of Utah the damages for which compensation is allowed are those that are the direct consequence of the lawful exercise of the right of eminent domain. *Lund v. Salt Lake County, 200 P. 510 (Utah 1921)* (property totally destroyed or rendered valueless considered as taken). An "entry" under the West Virginia statutes concerning the taking of land for road purposes means the establishment of the road on, and an appropriation of, the land by a proper order of the county court. To effect an entry under the statutes it is not necessary that the county court go upon the land and begin the work of construction. *McGibson v. Roane County Court, 121 S.E 99 (W. Va. 1924). Rothwell v. Linzell, 127 N.E.2d 524 (Ohio 1955).* A "taking" implies acquisition of property by government without regard for wishes of the owner and can be accomplished by use of governmental powers of eminent domain or other forms of action. *Amen v. City of Dearborn, 363 F. Supp. 1267 (E.D.Mich. 1973).* A taking is not necessarily an appropriation of the fee but anything that substantially deprives one of the use and enjoyment of the property or a portion thereof. *Phelps v. Board of Suprs. of County of Muscatine, 211 N.W.2d 274 (Iowa 1973); Foss v. Maine Tpk. Auth., 309 A.2d 339 (Me. 1973).* Arbitrary, unreasonable or capricious conduct by government authority constitutes a taking even though there has been no physical taking. *Arnold v. Prince George's County, 311 A.2d 223 (Md. 1973).* Airport noise and air pollution diminishing property value are a taking, even where there was no direct overflight. Overflights resulting in a definite and measurable diminution of the market value and limiting the practical enjoyment of the property constitute inverse condemnation. *Alevizos v. Metropolitan Airports Comm'n of Minneapolis & St. Paul, 216 N.W.2d 651 (Minn. 1974).* Termination of a nonconforming use may be so onerous as to be a "taking" in eminent domain. *North Castle v. Windmill Farm Homes, Inc., 232 N.Y.S.2d 551 (N.Y. Sup. 1962).* To be a taking it is not essential that there be a physical seizure or appropriation; any actual or material interference with private property rights constitutes a taking. *Board of Comm'rs of Lake County v. Mentor Lagoons, Inc., 216 N.E.2d 643 (Ohio 1965); see Jackson Municipal Airport Auth. v. Evans, 191 So. 2d 126 (Miss 1966).* A statute prohibiting deposit of strip-mine waste in public waters amounted to a taking because it prohibited mining. *State v. Consolidation Coal Co., Cent. Div., 335 N.E.2d 403 (Ohio Co. 1974).* Enforcement of building codes is not a taking. City of Gary by and through *Dep't of Redev. v. Roberto, 354 N.E.2d 786 (Ind. App. 1976).* See also *Compensation for a Lessee's Trade Fixtures in Condemnation Proceedings, 1966 Wis. L. Rev. 1215.*

Karam v. State, Dep't of Environmental Protection, 705 A.2d 1221 (N.J. Super. App. Div. 1998) (where government regulation substantially eliminates or bars all economic use of the land, a taking has occurred and just compensation must be paid to the landowner); *White v. North, 708 A.2d 1093 (Md. Ct. App. 1998)* (denial of an application for a permit to construct a swimming pool did not amount to a taking because enjoyment of the land is still possible; the swimming pool would simply be an additional luxury); *Maritrans, Inc. v. United States, 40 Fed. Cl. 790 (1998)* (the first step in analyzing a takings claim is to determine whether or not the plaintiff has a legal interest in the property); *Manufactured Housing Communities of Washington v. State, 951 P.2d 1142 (Ct. App. 1998)* (a statutory right of first refusal belonging to mobile home park tenants giving them the right to buy the park is not a taking of the park owner's property by means of physical occupation).

(n8)Footnote 259. *Peterman v. State Dep't of Nat. Resources, 521 N.W.2d 499 (Mich. 1994).* The United States having a dominant servitude over water power of a navigable stream need not pay compensation to adjoining landowners when a power-plant site is destroyed by the building of a dam by the *United States. United States v. Twin Cities Power Co., 350 U.S. 222 (1956), rev'g 221 F.2d 299 (5th Cir. 1955).* Interference with owner's use may go to the extent of being a taking. *Benenson v. United States, 548 F.2d 939 (Ct. Cl. 1977).*

Maritrans, Inc. v. United States, 40 Fed. Cl. 790 (1998) (The first step in analyzing a takings claim is to determine whether or not the plaintiff has a legal interest in the property); *Manufactured Housing Communities of Washington v. State, 951 P.2d 1142 (Ct. App. 1998)* (a statutory right of first refusal belonging to mobile home park tenants giving them the right to buy the park is not a taking of the park owner's property by means of physical occupation); *White v. North, 708 A.2d 1093 (Md. Ct. App. 1998)* (denial of an application for a permit to construct a swimming pool did not amount to a taking because enjoyment of the land is still possible; the swimming pool would simply be an additional luxury).

(n9)Footnote 260. *Cohen v. City of Hartford, 710 A.2d 746 (Conn. 1998)* (when the state, in exercise of police power, authorizes a physical taking of property or title, just compensation must be paid); *Harris v. Town of Lincoln, 668 A.2d 321 (R.I. 1995); Early v. South Carolina Pub. Serv. Auth., 90 S.E.2d 472 (S.C. 1955)* (overflow caused by dam upstream created a compensable taking). An unreasonable government regulation under the police power may amount to a taking. *Charles v. Diamond, 366 N.Y.S.2d 921 (N.Y. App. Div. 1975).*

(n10)Footnote 261. *Cohen v. City of Hartford, 710 A.2d 746 (Conn. 1998)* (when the state, in exercise of police power, authorizes a physical taking of property or title, just compensation must be paid); *Ehrlich v. City of Culver City, 911 P.2d 429 (Cal. 1996); Miller Levee Dist. No. 2 v. Wright, 111 S.W.2d 469 (Ark. 1937).* Prohibiting of erection of structures below high watermark in salt marsh was not a taking. *United States v. Lewis, 355 F. Supp. 1132 (S.D.Ga. 1973).* Mere enactment of a general plan for future development of an area is not a taking or inverse condemnation of some valuable property right which directly and especially affects and landowner. *Selby Realty Co. v. City of San Buenaventura, 514 P.2d 111 (Cal. 1973).* No compensation for inability to sell caused by official highway proposal. *Bakken v. State Hwy. Comm'n, 382 P.2d 550 (Mont. 1963).* Requirement for a permit to fill in "wetlands" was not a taking. *Just v. Marinette County, 201 N.W.2d 761 (Wis. 1972).*

(n11)Footnote 262. *Manufactured Housing Communities of Washington v. State, 951 P.2d 1142 (Wash. App. 1998)* (A statutory right of first refusal belonging to mobile home park tenants giving them the right to buy the park is not a taking of the park owner's property by means of physical occupation); *Cohen v. City of Hartford, 710 A.2d 746 (1998)* (When the state, in exercise of police power, authorizes a physical taking of property or title, just compensation must be paid); *Harris v. Town of Lincoln, 668 A.2d 321 (R.I. 1995).* A landlord is not entitled to compensation for damage sustained by reason of the release, by a county, of logs, trees and stumps after their removal from the pier of a bridge at a place where they would be swept across the complainant's land instead of following the main channel of the river. *Xidis v. Gulfport, 72 So. 2d 153 (Miss. 1954); Milhous v. State Hwy. Dep't, 8 S.E.2d 852 (S.C. 1940); White v. Southern Ry., 140 S.E. 560 (S.C. 1927); Gearin v. Marion County, 223 P. 929 (Or. 1924)* (deprivation of access to water of owners of land bordering on road along water was not a "taking"). If an abuse of the power of eminent domain contributes to or hastens and aggravates, acting alone or in combination with other causes, the decline of property values in the neighborhood, there is a taking by inverse condemnation. *Sayre v. United States, 282 F. Supp. 175 (N.D.Ohio 1967).* Destruction of lateral support is a "taking." *Sanders v. State Hwy. Comm'n, 508 P.2d 981 (Kan. 1973).* Whenever a special assessment exceeds the special benefits to the property assessed there is a taking. *Hylen v. Owens, 251 N.W.2d 858 (Minn. 1977).* A statute authorizing a utility to make a preliminary survey before instituting eminent domain did not justify damaging the property. *Indiana & Mich. Elec. Co. v. Stevenson, 337 N.E.2d 150 (Ind. App. 1975).* Where the value of property is affected by unsightliness of power lines and living next to the power lines is disturbed, there is a taking. *Southwest La. Elec. Membership Corp. v. Duhan, 313 So. 2d 366 (La. App. 1975).*

(n12)Footnote 263. *Bass Enterprises Production Co. v. United States, 133 F.3d 893 (Fed. Cir. 1998)* (when government regulation precludes all economically beneficial use of a property, a 5th Amendment taking has occurred

and compensation must be paid); *Eastern Enterprises v. Apfel, 118 S. Ct. 2131 (1998)* (economic regulation can effect a taking when it alters economic life for one individual in order to benefit the public as a whole (opinion written by Justice O'Connor with three justices concurring and one justice concurring in the judgment)); *Manufactured Housing Communities of Washington v. State, 951 P.2d 1142 (Wash. App. 1998)* (a statutory right of first refusal belonging to mobile home park tenants giving them the right to buy the park is not a taking of the park owner's property by means of physical occupation); *Hoeck v. City of Portland, 57 F.3d 781 (9th Cir. 1995); Alexander v. Town of Jupiter, 640 So. 2d 79 (Fla. App. 1994). Pennsylvania Coal Co. v. Mahon, 260 U.S. 393 (1922)* (statute prohibiting mining of coal under dwellings and streets of a city when such right was reserved was held unconstitutional.) *Pennsylvania-Reading Seashore Lines v. Board of Pub. Util. Comm'rs, 74 A.2d 265 (N.J. 1950), cert. denied, 340 U.S. 876 (1950); Eggebeen v. Sonnenburg, 1 N.W.2d 84 (Wis. 1941); State ex rel. Carter v. Harper, 196 N.W. 451 (Wis. 1923).* Any regulation which imposes a restriction upon an owner may be a sufficient impairment of enjoyment to constitute a taking. *In re Kansas City Ordinance No. 39946, 252 S.W. 404 (Mo. 1923).* A valid regulation requiring exceptionally restrictive land use classifications for protection of public interests may nevertheless constitute a taking of private property for public use, entitling the owner to compensation. *Brown v. Tahoe Reg'l Planning Agency, 385 F. Supp. 1128 (D.Neb. 1973).* Mere enactment of a general plan for future development of an area is not a taking. *Selby Realty Co. v. City of San Buenaventura, 514 P.2d 111 (Cal. 1973).* Only when police power restriction is so great that the landowner ought not to bear such a burden does restriction become a constructive taking. *Omernik v. State, 218 N.W.2d 734 (Wis. 1974).* Enforcement of building codes is not a taking. City of Gary by and through *Dep't of Redev. v. Roberto, 354 N.W.2d 786 (Ind. App. 1976).* Mere diminution of profits through zoning is not a taking. *LaSalle Nat'l Bank v. City of Evanston, 312 N.E.2d 625 (Ill. 1974).*

(n13)Footnote 264. *Northern Transp. Co. v. Chicago, 99 U.S. 635 (1878); Akins v. State, 50 Cal. Rptr. 2d 531 (Cal. App. 1996); Dible v. City of Lafayette, 678 N.E.2d 1271 (Ind. App. 1997)* (holding that "a taking by eminent domain or inverse condemnation includes any substantial interference with private property which destroys or impairs one's free use, enjoyment, or interest in the property"); Walker v. Old Colony & N. R.R., 51 N.H. (1969); *Finke v. State, 521 N.W.2d 371 (Minn. App. 1994); Dumont v. Town of Wolfeboro, 622 A.2d 1238 (N.H. 1993); Eaton v. Boston, C. & M. Co., 14 Conn. 146 (1877); Ashley v. Port Huron, 35 Mich. 296 (1876); Brisbine v. St. Paul & S.C. R.R., 23 Minn. 114 (1876); State Dep't of Roads v. Dillon, 121 N.W.2d 798 (Neb. 1963)* (mere damage is compensable even though there is not physical invasion); *Correy v. Town of Merrimack, 666 A.3d 1359 (N.H. 1995); Silverman v. Rent Leveling Bd. of Cliffside Park, 649 A.2d 1342 (N.J. Super. 1994); Miller v. Beaver Falls, 82 A.2d 34 (Pa. 1951); Arimond v. Green Bay & M. Canal Co., 31 Wis. 316 (1872). See McKinney v. High Point, 74 S.E.2d 440 (N.C. 1953).* Allowing damages for discomfort, disturbance, inconvenience and financial loss resulting from highway construction. *Reymond v. State Dep't of Hwys., 231 So. 2d 375 (La. 1970).* Sovereign liable for damage due to vibration from public works. *Chaney v. Travelers Ins. Co., 249 So. 2d 181 (La. 1971). But see Bakken v. State Hwy. Comm'n, 382 P.2d 550 (Mont. 1963),* right of compensation is for the physical taking of property. Lacking a relationship between community needs and a restriction imposed on property used, an unconstitutional taking results. *Pure Oil Div. of Union Oil Co. v. City of Brook Park, 269 N.E.2d 853 (Ohio App. 1971).* The New York Historical Preservation Act held to effect an unconstitutional taking. Lutheran Church in *Am. v. City of New York, 316 N.E.2d 305 (N.Y. 1974).* Increase in noise as decreasing value in severance damages is allowable evidence. *State Road Comm'n v. Rohan, 487 P.2d 857 (Utah 1971).* Interference with owner's use may go to the extent of being a taking. *Benenson v. United States, 548 F.2d 939 (U.S. Ct. Cl. 1977).* Statute requiring cessation of strip mining may be a "taking." *Bureau of Mines of Md. v. Georgia Creek Coal & Land Co., 321 A.2d 748 (Md. 1974). See* William B. Stoebuck, *Condemnation by Nuisance: The Airport Cases in Retrospect and Prospect, 71 Dick. L. Rev. 207 (1971).*

Dodd v. Hood River County, 136 F.3d 1219 (9th Cir. 1998) (when government regulation results in a partial limitation in economic use instead of a complete destruction of use, the fact that there has not been an overt taking does not preclude the continuation of a takings analysis under federal law); *Cohen v. City of Hartford, 710 A.2d 746 (1998)* (when the government simply regulates the use of property instead of taking physical occupation, compensation must be paid only if the regulation forces the landowner to bear a burden individually which should be borne by the general public); *City of Laredo v. R. Vela Exxon, Inc., 966 S.W.2d 673 (Tex. App. 1998)* (No taking results from inhibiting of traffic where the government has not directly limited plaintiff's use of the property); *Karam v. State, Dep't of Environmental Protection, 705 A.2d 1221 (N.J. Super. App. Div. 1998)* (where government regulation substantially eliminates or bars all economic use of the land, a taking has occurred and just compensation must be paid to the landowner); *Manufactured Housing Communities of Washington v. State, 951 P.2d 1142 (Wash. App. 1998)* (A statutory right of first refusal belonging to mobile home park tenants giving them the right to buy the park is not a taking of the park owner's property by means of physical occupation); *Bass Enterprises Production Co. v. United States, 133 F.3d 893 (Fed. Cir. 1998)* (when government regulation precludes all economically beneficial use of a property, a 5th Amendment taking has occurred and compensation must be paid); *Eastern Enterprises v. Apfel, 118 S. Ct. 2131 (1998)* (economic regulation can effect a taking when it alters economic life for one individual in order to benefit the public as a whole (opinion written by Justice O'Connor with three justices concurring and one justice concurring in the judgment)).

(n15)Footnote 266. *Manufactured Housing Communities of Washington v. State, 951 P.2d 1142 (Wash. App. 1998)* (A statutory right of first refusal belonging to mobile home park tenants, giving them the right to buy the park, is not a taking of the park owner's property because the statute advances a bona fide public interest in providing inexpensive housing and the owner of the property is not subject to any financial detriment); *Karam v. State, Dep't of Environmental Protection, 705 A.2d 1221 (N.J. Super. App. Div. 1998)* (A regulation restricting land use will not always constitute a taking, and thus no compensation need be paid, even if the land is made less profitable to the owner as a result of the taking; this is particularly true when the regulation is one of benefit to the public as a whole); *White v. North, 708 A.2d 1093 (Md. Ct. App. 1998)* (Denial of an application for a permit to construct a swimming pool did not amount to a taking because enjoyment of the land is still possible; the swimming pool would simply be an additional luxury); *City of Virginia Beach v. Bell, 498 S.E.2d 414 (Va. 1998)* (Because a city's zoning ordinance was instituted well before a

landowner's acquisition of property within the area, a decision by the Wetlands Board to deny an application for property development does not constitute a taking by inverse condemnation, this despite developer's claim that all potential economic benefit the land may have is gone with the ordinance in place).

Balent v. City of Wilkes-Barre, 669 A.2d 309 (Pa. 1995); Giddens v. City of Shreveport, 912 F. Supp. 953 (D.La. 1995); Spitler v. Munster, 14 N.E.2d 579 (Ind. 1938). Rezoning of property from residential to industrial use does not constitute a taking of eminent domain by lowering the value of the property. *Smith v. County of Santa Barbara, 52 Cal. Rptr. 292 (Cal. App. Div. 2 1996); In re City of Austin, 567 N.W.2d 529 (Minn. App. 1997)* (holding that "the construction of the proposed grade crossing without compensation to Soo Line would not be an unconstitutional taking of property because the state has authority under its police power to establish new grade crossings without compensating railroads"); *Jackson Municipal Airport Auth. v. Evans, 191 So. 2d 126 (Miss. 1966).* Refusal on health grounds to grant an application for building a refinery was not taking. *In re Maine Clean Fuels, Inc., 310 A.2d 736 (Me. 1973).* Prohibition of signs on private property is within the meaning of the police power and does not constitute taking. *Whitmier & Ferris Co. v. State, 230 N.E.2d 904 (N.Y. 1967).* Denial of a curb cut and driveway permit across a sidewalk area held a valid exercise of police power and not an act of eminent domain. *City of San Antonio v. Pigeonhole Parking of Texas, Inc., 311 S.W.2d 218 (Tex. 1958).* Indicating that compensation might be allowed where taking was by a public utility but would not be if it was a government or government agent. *State ex rel. Wells v. City of Dunbar, 95 S.E.2d 457 (W. Va. 1956).* If damage resulting from exercise of the police power is so great that the owner should not bear it for the public good, there is a "taking." *Just v. Marinette County, 201 N.W.2d 761 (Wis. 1972),* limited by *City of Milwaukee v. Wroten, 466 N.W.2d 861 (Wis. 1991).*

(n16)Footnote 267. *Goodenow v. City Council of Maquoketa, Iowa, 574 N.W.2d 18 (Iowa 1998)* (local ordinances requiring landowners to trim grass and weeds on city-owned property at their own expense promoted public health, safety, and welfare, and thus did not constitute a taking of their property); *Balent v. City of Wilkes-Barre, 669 A.2d 309 (Pa. 1995); Cienega Gardens v. United States, 33 Fed. Cl. 196 (Fed. Cl. 1995).* Prohibition of apartment houses held taking. *Youngstown v. Kahn Bros. Bldg. Co., 148 N.E. 842 (Ohio 1925).* Statute prohibiting billboards was not a taking. *National Advertising Co. v. State Hwy. Dep't, 195 S.E.2d 895 (Ga. 1973).* Where adjoining landowner has right of access to highway, such owner cannot insist on right of access at any place the owner sees fit, since the owner holds such right subject to the superior right of the state; nevertheless, access must be suitable and mere inconvenience of property owner does not stamp a means of access unsuitable. *Meloon Bronze Foundry v. State, 166 N.Y.S.2d 586 (1957).* There may be uncompensated diminution of a property right if it is accomplished by valid exercise of the state's police power. *Knight v. Grimes, 127 N.W.2d 708 (S.D.1964).*

(n17)Footnote 268. *State v. Heller, 196 A. 337 (Conn. 1936). See Mansfield v. West Orange, 196 A. 225 (Conn. 1937).* Economic loss caused by urban renewal does not constitute a taking under the *Fifth and Fourteenth Amendments. Sayre v. City of Cleveland, 493 F.2d 64 (6th Cir. 1974), cert. denied, 419 U.S. 837 (1974).* Every prohibitory regulation to some extent diminishes the owner's right to property, but such diminution is not necessarily a taking. *Minden Beef Co. v. Cost of Living Council, 362 F. Supp. 298 (D.Neb. 1973).* A taking can result from action of the sovereign other than by eminent domain. *Amen v. City of Dearborn, 363 F. Supp. 1267 (E.D.Mich. 1973).* Prohibition against open burning on property did not constitute taking of property without due compensation. *Cobin v. Pollution Control Board, 307 N.E.2d 292 (Ill. App. 1974).* Acquisition by the city from a power company of a power plant upon expiration of the company's franchise is not taking by eminent domain but instead is a statutory option that arises only upon termination of the franchise contract. *City of Kiowa v. Central Tel. & Utils. Corp., W. Power Div., 515 P.2d 795 (Kan. 1973). See* Note, *Land Use Regulation and the Concept of Takings in Nineteenth Century America, 40 U. Chi. L. Rev. 854 (1973).*

Lee County v. Kiesel, 705 So.2d 1013 (Fla. Ct. App. 1998) (when government regulation affects a piece of property, compensation will be awarded only when the regulation substantially precludes all beneficial use of the property); *Goodenow v. City Council of Maquoketa, Iowa, 574 N.W.2d 18 (Iowa 1998)* (local ordinances requiring landowners to trim grass and weeds on city-owned property at their own expense promoted public health, safety, and welfare, and thus

did not constitute a taking of their property); *Manufactured Housing Communities of Washington v. State, 951 P.2d 1142 (Wash. App. 1998)* (a statutory right of first refusal belonging to mobile home park tenants, giving them the right to buy the park, is not a taking of the park owner's property because the statute advances a bona fide public interest in providing inexpensive housing and the owner of the property is not subject to any financial detriment); *City of Virginia Beach v. Bell, 498 S.E.2d 414 (Va. 1998)* (because a city's zoning ordinance was instituted well before a landowner's acquisition of property within the area, a decision by the Wetlands Board to deny an application for property development does not constitute a taking by inverse condemnation, this despite developer's claim that all potential economic benefit the land may have is gone with the ordinance in place).

(n18)Footnote 269. *Lee County v. Kiesel, 705 So.2d 1013 (Fla. Ct. App. 1998)* (when government regulation affects a piece of property, compensation will be awarded only when the regulation substantially precludes all beneficial use of the property); *Zealy v. City of Waukesha, 534 N.W.2d 917 (Wis. App. 1995); Interstate Cigar Co. v. United States, 32 Fed. Cl. 66 (Fed. Cl. 1994); Schuler v. Wilson, 153 N.E. 737 (Ill. 1926); Winchester v. Ring, 144 N.E. 333 (Ill. 1924).* The entry upon private property by a water company for the purpose of making excavations and boring test wells in order to determine whether or not the property is suitable for its purposes constitutes a taking for which the owner of the property entered upon is entitled to compensation. *Jacobsen v. Superior Court, 219 P. 986 (Cal. 1923).* A city which, by the construction and maintenance of an incinerator, reduces the value of neighboring property may be held liable as for a taking of property by right of eminent domain. *See also Dayton v. Asheville, 115 S.E. 827 (N.C. 1923); Schuler v. Wilson, 153 N.E. 737 (Ill. 1926);* school playground as depreciating value of adjoining property. "*Sic utere tuo ut alienum non laedas*" as applied to public agencies requires eminent domain. *Beckley v. Reclamation Board, 23 Cal. Rptr. 428 (1962).* Salting operations on street which damaged neighboring property were taking. *Foss v. Maine Tpk Auth., 309 A.2d 339 (Me. 1973).* The designation of property as a "landmark" by the Landmarks Preservation Commission, thus preventing its sale, was a "taking." Lutheran Church in *Am. v. City of New York, 316 N.E.2d 305 (N.Y. 1974).* Increase in power load over electric transmission easement was an improper burden of the easement and required condemnation. *Yoder v. Columbus & S. Ohio Elec. Co., 316 N.E.2d 477 (Ohio App. 1974).* A purported assessment for public which is greater than the value of the property after the improvement is a taking. *Arvidson v. Board of County Comm'rs, 269 N.E.2d 432 (Kan. 1977).*

(n19)Footnote 270. *Starzenski v. City of Elkhart, 659 N.E.2d 1132 (Ind. App. 1996); Dayton v. Asheville, 115 S.E. 827 (N.C. 1923); Oklahoma City v. Vetter, 179 P. 473 (Okla. 1919).* The mere fact that the owner has need to travel a short distance further to reach the remaining property as the result of a road being closed on a nonaccess highway is not subject to damages. *In re Appropriations of Land of Mitchell, 228 A.2d 53 (Pa. Super. Ct. 1967).*

(n20)Footnote 271. *State ex rel. Missouri Hwy. & Transp. Comm'n v. Behle, 863 S.W.2d 898 (Mo. App. E.D.1993).* The removal of lateral support from approved realty by the state and interference with property owner's rights of ingress and egress and view were not a taking. *Weir v. Palm Beach County, 85 So. 2d 865 (Fla. 1956).*

(n21)Footnote 272. *Holtz v. San Francisco Bay Area Rapid Transit Dist., 552 P.2d 430 (Cal. 1976); Sanders v. State Hwy. Comm'n, 508 P.2d 981 (Kan. 1973).*

Supp. 652 (D.Utah 1962).* The increase of a servitude is a taking. *Beckley v. Reclamation Bd., 23 Cal. Rptr. 428 (1962); McCubbin v. Gretna, 116 N.W.2d 287 (Neb. 1962)* (purchaser from original condemnor). Loss of access through a street vacation is a compensable taking. *People v. Guimarra Vineyards Corp., 53 Cal. Rptr. 902 (Cal. App. 1966); Roth v. Wilkie, 354 P.2d 510 (Colo. 1960).* Loss of windbreak was compensable. *Ventura County Flood Control Dist. v. Security First Nat'l Bank, 93 Cal. Rptr. 653 (1971).* The condemnation of an equitable servitude is not compensable. *Board of Public Instr. v. Bay Harbor Islands, 81 So. 2d 637 (Fla. 1955).* Destruction of a license by eminent domain is a taking of a property interest. *State Hwy. Dep't v. Morton, 121 S.E.2d 275 (Ga. App. 1961).* The destruction of easements is a taking. *Gulf Interstate Gas Co. v. Garvin, 368 S.W.2d 309 (Ky. 1963); State ex rel. Dep't of Hwys. v. Caldwell Bros. Real Est., Inc., 155 So. 2d 231 (La. App. 1963)* (easement is property). The adjacent owner is entitled to reasonable, convenient and suitable access. *Hendrickson v. State, 127 N.W.2d 165 (Minn. 1964).* Any interference by the holder of a public utility easement with the use of the land which use interferes with the proper exercise of the easement itself is a de facto appropriation. *Clark v. State of N.Y., 207 N.E.2d 606 (N.Y. 1965).* Use of highway easement for gas mains entitled holder of underlying fee to inverse condemnation damages. *Heyert v. Orange & Rockland Utils., 218 N.E.2d 263 (N.Y. 1966).* The taking of equitable rights of owners of lots in subdivision was compensable. *Minner v. Lynchburg, 129 S.E.2d 673 (Va. 1963).* Owner of dominant tenement was not entitled to compensation for the taking of servient tenement where the servitude claimed was the restrictive covenant in the deed limiting its use to residential purposes, and the taking of such tenement was for purpose of erecting a bridge, such use being a governmental activity as distinguished from a proprietary use. *State ex rel. Wells v. Dunbar, 95 S.E.2d 457 (W. Va. 1956).* City may construct sewers and gas, water or other piping in streets without compensation to adjoining landowners so long as the construction does not materially affect the owner's use or enjoyment. *Awbrey v. City of Panama City Beach, 283 So. 2d 114 (Fla. App. 1973).* After condemnation, the highway cannot be constructed in a manner not in accordance with the plans and specifications introduced by the state in a prior condemnation action. *Fauske v. Dean, 101 N.W.2d 769 (S.D.1960).* Statute of limitations held to bar recovery of damages for injuries not anticipated in previous condemnation action. *Polk v. Davidson County, 281 S.W.2d 257 (Tenn. App. 1955).* State could not grant a pipeline easement over a road on which the state had only a right-of-way without a taking by eminent domain. *Wells v. Air Products & Chems., Inc., 383 F. Supp. 146 (N.D.W. Va. 1974).*

(n26)Footnote 277. *Boehm v. Backes, 493 N.W.2d 671 (N.D.1992); Reisenauer v. State Dep't of Hwys., 813 P.2d 375 (Idaho App. 1991); Harris County v. Felts, 881 S.W.2d 866 (Tex. App. 1994).* Requiring additional payment. *Heyert v. Orange & Rockland Utils., 218 N.E.2d 263 (N.Y. 1966). Contra Pittsburgh Nat'l Bank v. Equitable Gas Co., 220 A.2d 12 (Pa. 1966).* City may construct sewers and gas, water or other piping in streets without compensation to adjoining landowners so long as the construction does not materially affect the owner's use or enjoyment. *Awbrey v. City of Panama City Beach, 283 So. 2d 114 (Fla. App. 1973).*

(n27)Footnote 278. *Manufactured Housing Communities of Washington v. State, 951 P.2d 1142 (Wash. App. 1998)* (a statutory right of first refusal belonging to mobile home park tenants giving them the right to buy the park is not a taking of the park owner's property even though the owners claim that their interest in the land has been detrimentally affected); *Bowles v. United States, 31 Fed. Cl. 37 (Fed. Cl. 1994); Bourque v. City of Yonkers, 790 F. Supp. 486 (S.D.N.Y. 1992); Rubano v. Department of Transp., 656 So. 2d 1264* (Fla., 1995); *Morley v. Jackson Redev. Auth., 632 So. 2d 1284 (Miss. 1994).* A restriction against use as a "stable" was lost by the passage of time; a garage was not a stable. *Blakeley v. Gorin, 313 N.E.2d 903 (Mass. 1974).* Restrictive covenants are property rights compensable in eminent domain. *Southern Cal. Edison Co. v. Bourgerie, 507 P.2d 964 (Cal. 1973), overruling, Friesen v. City of Glendale, 288 P. 1080 (Cal. 1930); disapproving Sackett v. Los Angeles City Sch. Dist., 5 P.2d 23 (Cal. App. 1931).*

Circuity of travel not compensable. *Department of Pub. Works & Bldgs. v. Grenwell, 359 N.E.2d 780* (Ill. 921). Allowing recovery. *Board of Pub. Instr. v. Bay Harbor Islands, 81 So. 2d 637 (Fla. 1955); Arkansas State Hwy. Comm'n v. McNeill, 381 S.W.2d 425 (Ark. 1964). Contra Adaman Mutual Water Co. v. United States, 278 F.2d 842 (9th Cir. 1960); City of Shelbyville v. Kilpatrick, 322 S.W.2d 203 (Tenn. 1959).* Compensation must be paid to the owner of an affirmative equitable servitude on condemnation. *Adaman Mut. Water Co. v. United States, 278 F.2d 842 (9th Cir. 1960).* Property rights created by restrictive covenant cannot be taken for private use. *Pulos v. James, 302 N.E.2d 768 (Ind. 1973).* A restrictive covenant creates a property right that must be compensated in eminent domain. *Pulos v. James, 302 N.E.2d 768 (Ind. 1973).* Requiring compensation to owners of other lots when the purpose for which the use was condemned violated these restrictions on the plan. *Shelbyville v. Kilpatrick, 322 S.W.2d 203 (Tenn. 1959).* Restrictive covenant is a real property interest in eminent domain. *City of Houston v. McCarthy, 464 S.W.2d 381 (Tex. App. 1971).* Allowing compensation to dominant estates where a restrictive covenant of use is affected by condemnation. *Stamford v. Vuono, 143 A. 245 (Conn. 1928); Department of Pub. Works & Bldgs. v. Wilson & Co., 340 N.E.2d 12 (Ill. 1975); Ladd v. Boston, 24 N.E. 858 (Mass. 1890); Allen v. Detroit, 133 N.W. 317 (Mich. 1911); Burger v. St. Paul, 64 N.W.2d 73 (Minn. 1954); Peters v. Buckner, 232 S.W. 1024 (Mo. 1921); Hughes v. Cincinnati, 195 N.E.2d 552 (Ohio 1964); Flynn v. New York, W. & B. R.R., 112 N.E. 913 (N.Y. 1916); Raleigh v. Edwards, 71 S.E.2d 396 (N.C. 1952); Meagher v. Appalachian Elec. Power Co., 77 S.E.2d 461 (Va. 1953); Fuller v. Town Bd. of Madison, 214 N.W. 324 (Wis. 1927). Contra* and denying compensation. *Friesen v. Glendale, 288 P. 1080 (Cal. 1930); Anderson v. Lynch, 3 S.E.2d 85 (Ga. 1939); Doan v. Cleveland Short Line R.R., 112 N.E. 505 (Tex. App. 1925); Houston v. Wynne, 279 S.W. 916 (Tex. App. 1925).* Restrictive covenant is a real property interest in eminent domain. *City of Houston v. McCarthy, 464 S.W.2d 381 (Tex. App. 1971). See* Arlvo Van Alstyne, *Taking or Damaging by Police Power: The Search for Inverse Condemnation Criteria, 44 So. Cal. L. Rev. 1 (1971). State ex rel. Wells v. City of Dunbar, 95 S.E.2d 457 (W. Va. 1956).* Property rights created by restrictive covenant cannot be taken for private use. *Pulos v. James, 302 N.E.2d 768 (Ind. 1973).* View criticized in Ralph W. Aigler, *Measure of Compensation for Extinguishment of Easements by Condemnation, 1945 Wis. L. Rev. 5.* Holding personal restrictive covenants that do not run with the land are compensable. *Hartford Nat'l Bank & Trust Co. v. Redevelopment Agency of the City of Bristol, 321 A.2d 469 (Conn. 1973). Board of Pub. Instr. v. Town of Bay Harbor Islands, Fla., 81 So. 2d 637 (Fla. 1955)* and *Anderson v. Lynch, 3 S.E.2d 85 (Ga. 1939)* (holding a right to enforce a restrictive covenant is not entitled to compensation when the servient is taken by eminent domain). *Restrictive Covenant or Right to Enforcement Thereof as a Compensable Property Right, 4 A.L.R. 2d 1137.* Holding no property right in a restrictive covenant ruined by eminent domain. *Arkansas State Hwy. Comm'n v. McNeill, 381 S.W.2d 425 (Ark. 1964).*

(n28)Footnote 279. *Nollan v. California Coastal Comm'n, 483 U.S. 825 (1986).* Held burdensome in the case of school dedication. *Pioneer Trust & Sav. Bank v. Village of Mount Prospect, 176 N.E.2d 799 (Ill. 1961).* Upheld: *Malmar Assocs. v. Board of County Comm'rs, 272 A.2d 6 (Md. 1971).*

(n29)Footnote 280. *Persyn v. United States, 34 Fed. Cl. 187 (Fed. Cl. 1995).* Increase of number of air flights over land, *Davis v. United States, 295 F.2d 931 (Ct. Cl. 1961),* or use of a new type of aircraft, *Avery v. United States, 330 F.2d 640 (Ct. Cl. 1964)* may be a new "taking" of airspace. Low and frequent air flights are a taking. *Davis v. United States, 295 F.2d 391 (Ct. Cl. 1961); American Airlines, Inc. v. Town of Hempstead, 272 F. Supp 226 (E.D.N.Y. 1967), cert. denied, Town of Hempstead v. American Airlines, Inc., 393 U.S. 1017 (1969); Loma Portal Civic Club v. American Airlines, 394 P.2d 548 (Cal. 1964); Jacksonville v. Schumann, 199 So. 2d 727 (Fla. App. 1967) cert. denied, 390 U.S. 981 (1968); State ex rel. Royal v. City of Columbus, 209 N.E.2d 405 (Ohio 1965), cert. denied, City of Columbus v. Royal, 383 U.S. 925 (1966).* Air activity up to navigable airspace is a taking. *Johnson v. Omaha Airport Auth., 115 N.W.2d 426 (Neb. 1962).* Inverse condemnation resulting from low airflights from airport. *Hoyle v. City of Charlotte, 172 S.E.2d 1 (N.C. 1970). Contra* and to effect noise from aircraft may be a nuisance though not coming from the perpendicular. *Thornburg v. Port of Portland, 376 P.2d 100 (Or. 1962).* Extension of airport runway which resulted in increase of noise over adjoining property was a taking. *City of Houston v. McFadden, 420 S.W.2d 811 (Tex. App. 1967).* Noise from low flying aircraft resulting in diminishing value of land is a taking though the flights are not directly over the land. *Martin v. Port of Seattle, 391 P.2d 540 (Wash. 1964), cert. denied, Port of Seattle v. Martin, 379 U.S. 989 (1965). See* William B. Stoebuck, *Condemnation by Nuisance: The Airport Cases in Retrospect and Prospect, 71 Dick.*

L. Rev. 207 (1967). Flights under 500 feet were held a "taking." *Aaron v. United States, 311 F.2d 798 (Ct. Cl. 1963); Bowling Green-Warren County Airport Bd. v. Long, 364 S.W.2d 167 (Ky. 1962).* Continuous low flights by government-owned helicopters over others' property constituted a taking. *Speir v. United States, 485 F.2d 643 (Ct. Cl. 1973).* Noise of jet aircraft constituted inverse condemnation. *City of Jacksonville v. Schumann, 167 So. 2d 95 (Fla. App. 1964).* Low altitude flights constitute a taking through adverse condemnation. *City of Atlanta v. Donald, 141 S.E.2d 560 (Ga. App. 1965), overruled on other grounds, 143 S.E.2d 737 (Ga. 1965).* Interference with easements of air, light and view may be compensable. *Department of Pub. Works v. Horejs, 223 N.E.2d 207 (Ill. App. 1966).* Owners of land adjoining airport are entitled to compensation for invasion of airspace. *Bowling Green-Warren County Airport Bd. v. Long, 364 S.W.2d 167 (Ky. 1962).* Condemnation of an incorporeal aviation easement is a "taking." *Johnson v. Omaha Airport Auth., 115 N.W.2d 426 (Neb. 1962).* Landowner may have cause of action against a municipal corporation for nuisance from noise and vibration, but, in the absence of overflights, there is no cause of action for inverse condemnation. *Ferguson v. City of Keene, 238 A.2d 1 (N.H. 1968).* Inverse condemnation resulting from low airflights from airport. *Hoyle v. City of Charlotte, 172 S.E.2d 1 (N.C. 1970).* Airport noise and air pollution diminishing property value is a taking, even where there was not direct overflight. Overflights resulting in a definite and measurable diminution of the market value and limiting the practical enjoyment of the property constitute inverse condemnation. *Alevizos v. Metropolitan Airports Comm'n of Minneapolis & St. Paul, 216 N.W.2d 651 (Minn. 1974).* Flights of aircraft so low and frequent as to be a direct and immediate interference with the use and enjoyment of land are a "taking." *Gardner v. Allegheny County, 114 A.2d 491 (Pa. 1955).* Low flights by landings and takeoffs constitute a "taking." *Ackerman v. Port of Seattle, 348 P.2d 664 (Wash. 1960).*

(n30)Footnote 281. *Persyn v. United States, 34 Fed. Cl. 187 (1995); Fitzgerald v. City of Iowa City, 492 N.W.2d 459 (Iowa 1992); Ackerman v. Port of Seattle, 348 P.2d 664 (Wash. 1960).* Frequent low altitude flights are an inverse condemnation. *City of Jacksonville v. Schumann. 167 So. 2d 95 (Fla. App. 1964). See* Vincent J. Rossi, *Inverse Condemnation and Nuisance: Alternative Remedies for Airport Noise Damage, 24 Syracuse L. Rev. 793 (1973).*

(n31)Footnote 282. *Persyn v. United States, 34 Fed. Cl. 187 (Fed. Cl. 1995); Thornburg v. Port of Portland, 376 P.2d 100 (Or. 1962).* Substantial interference with beneficial use of property from noise and fumes caused by adjacent military aircraft operations held not constitutional taking. *Batten v. United States, 306 F.2d 580 (10th Cir. 1962). See* Vincent J. Rossi, *Inverse Condemnation and Nuisance: Alternative Remedies for Airport Noise Damage, 24 Syracuse L. Rev. 793 (1973).*

(n32)Footnote 283. *Institoris v. City of Los Angeles, 210 Cal. App. 3d 10 (Cal. App. 1989); United States v. Causby, 328 U.S. 256 (1946); Trippe v. Port of N.Y. Auth., 231 N.Y.S.2d 818 (N.Y. Sup. 1962); Ackerman v. Port of Seattle, 348 P.2d 664 (Wash. 1960).* Airport airflights resulting in reduction of fair market value were inverse condemnation. *Thornburg v. Port of Portland, 415 P.2d 750 (Or. 1966). See* Note, *Inverse Condemnation and Nuisance: Alternative Remedies for Airport Noise Damage, 24 Syracuse L. Rev. 793 (1973).*

(n33)Footnote 284. *Brenteson Wholesale, Inc. v. Arizona Pub. Serv. Co., 803 P.2d 930 (Ariz. App. 1990); Ackerman v. Port of Seattle, 348 P.2d 664 (Wash. 1966).* No compensation for diminution in value due to bombing on adjacent federal proving ground. *Nunnally v. United States, 239 F.2d 521 (4th Cir. 1956).* Landowners not on a glide path are not entitled to compensation for noise of airplanes. Vibration, noise and smoke from jets on adjoining airbase which did not render house inhabitable is not a taking. *Batten v. United States, 306 F.2d 580 (10th Cir. 1962), cert. denied, 371 U.S. 955 (1963).* To be taking by low flights, they must be so frequent as to be permanent or of indefinite duration. *Wilfong v. United States, 480 F.2d 1326 (Ct. Cl. 1973).* Overflights resulting in a definite and measurable diminution of the market value and limiting the practical enjoyment of the property constitute inverse condemnation. *Alevizos v. Metropolitan Airports Comm'n of Minneapolis & St. Paul, 216 N.W.2d 651 (Minn. 1974).* Air activity up to navigable airspace is a taking. *Johnson v. Omaha Airport Auth., 115 N.W.2d 426 (Neb. 1962).* Inverse condemnation results from low flights from airport. *Hoyle v. City of Charlotte, 172 S.E.2d 1 (N.C. 1970). See The Airport Noise Cases: Condemnation by Nuisance and Beyond, 7 Wake Forest L. Rev. 271 (1971).*

(n34)Footnote 285. *Jackson v. Metropolitan Knoxville Airport Auth., 1996 W.L. 31005 (Tenn. 1996); Thornburg v.*

Port of Portland, 376 P.2d 100 (Or. 1962). Too low airflights on approaches to airfield constitute a "taking." *State ex rel. Royal v. City of Columbus, 209 N.E.2d 405 (Ohio 1965), cert. denied, City of Columbus v. Royal, 383 U.S. 925 (1966).* Condemned low flights over land adjacent to an airport were a taking. *Ackerman v. Port of Seattle, 348 P.2d 664 (Wash. 1960).*

(n35)Footnote 286. *Indiana Toll Road Comm'n v. Jankovice, 193 N.E.2d 237 (Ind. 1963).* Ordinance regulating height of structures adjacent to airport is a taking. *Roark v. City of Caldwell, 394 P.2d 641 (Idaho 1964).*

(n36)Footnote 287. *Lee County v. Kiesel, 705 So.2d 1013 (Fla. Ct. App. 1998)* (a compensable taking can occur when a bridge, though not physically occupying any of plaintiff's property, substantially obstructs plaintiff's view from the property); *State v. Weiswasser, 149 N.J. 320, 693 A.2d 864 (N.J. 1997)* (holding that generally the right to receive compensation for loss of visibility has been denied, principally on the theory that one does not have control over his neighbor's property and therefore could not prevent him from erecting some structure that would effect his visibility); *Pierce v. Northeast Lake Washington Sewer and Water Dist., 870 P.2d 305 (Wash. 1994); State v. Munday Enters., 868 S.W.2d 319 (Tex. 1993)* (compensation). 8.960 *Square Feet, More or Less v. State, Dep't of Transp. and Public Facilities, 806 P.2d 843 (Alaska 1991)* (no compensation). Where the value of properties is affected by unsightliness of power lines and by living next to the power lines there is a taking. *Southwest La. Elec. Membership Corp. v. Duhan, 313 So. 2d 366 (La. App. 3 Cir. 1975).* Change of grade which interferes with the adjacent owner's unobstructed view was not a taking. *State ex rel. Schiederer v. Preston, 166 N.E.2d 748 (Ohio. 1960).* Unsightliness of power lines and fear of power lines may reduce value of the remaining property. *Southwest La. Elec. Membership Corp. v. Duhan, 313 So. 2d 366 (La. App. 3 Cir. 1975). Contra Liddick v. Council Bluffs, 5 N.W.2d 361 (Iowa 1942); Smith v. State Hwy. Comm'n, 346 P.2d 259 (Kan. 1959); Collins v. Mississippi State Hwy. Comm'n, 102 So. 2d 678 (Miss. 1958). Cutting off a view. Barnes v. Commonwealth, 25 N.E.2d 737 (Mass. 1940); Champlin Ref. Co. v. Donnell, 49 P.2d 208 (Okla. 1935). Drilling a well. Calor Oil & Gas Co. v. Franzell, 109 S.W. 328 (Ky. 1908). Earl v. Arkansas State Hwy. Comm'n, 405 S.W.2d 931 (Ark. 1966); State by Mondale v. Gannons, Inc., 145 N.W.2d 321 (Minn. 1966).*

(n37)Footnote 288. *Lee County v. Kiesel, 705 So.2d 1013 (Fla. Ct. App. 1998)* (a compensable taking can occur when a bridge, though not physically occupying any of plaintiff's property, substantially obstructs plaintiff's view from the property); *People ex rel. Dep't of Transp. v. Wilson, 25 Cal. App. 4th 977 (Cal. App. 1994); Collins v. Mississippi State Hwy. Comm'n, 102 So. 2d 678 (Miss. 1958); Crowell v. State, 238 N.Y.S.2d 72 (N.Y. App. Div. 1963).* Increase of traffic, speed, fumes and noise is not compensable. *Berkeley v. Von Adelung, 29 Cal. Rptr. 802 (Cal. App. 1963); State ex rel. State Hwy. Comm'n v. Turk, 366 S.W.2d 420 (Mo. 1963).* Impairment of light, air and view is compensable; loss of privacy is also a compensable element. *Sacramento & San Joaquin Drainage Dist. ex rel. Reclamation Board v. Reed, 29 Cal. Rptr. 847 (Cal App. 1963).* To the effect that increased traffic noise, lights and odors are part of damages in inverse condemnation. *Dennison v. State, 239 N.W.2d 708 (N.Y. 1968).* Abutters on highways have right of access, light, air and view. *State ex rel. Dep't of Hwys. v. Allison, 372 P.2d 850 (Okla. 1962).* No compensation for loss of light, air and view arising from bridge construction where there was not actual taking and legislature had not authorized consequential damages. *In re Delaware River Bridge, 182 A.2d 514 (Pa. 1962).* No damage for noise caused by passing of vehicles on new highway. *Sperry v. State, 374 N.Y.S.2d 421 (N.Y. App. Div. 1975).* Increase of noise gives rise to severance damages. *State Dep't of Hwys. v. United Pentecostal Church of Hodge, 313 So. 2d 886 (La. App. 1975).* No compensation for noise arising from highway where there had been no physical taking of property. *Washington Market Enter., Inc. v. City of Trenton, 343 A.2d 408 (N.J. 1975).*

(n38)Footnote 289. *Central Illinois Pub. Serv. Co. v. Westervelt, 342 N.E.2d 463 (Ill. App. 1976), cert. denied, 434 U.S. 1070 (1978).*

App. 1974).* No damages should be awarded for market value of property adjoining that taken. *Commonwealth Dep't of Hwys. v. Williams, 487 S.W.2d 290 (Ky. 1972).* Decrease in value of adjoining property due to contemplated condemnation use. In re South Twelfth Street in *City of Allentown, 66 A. 568 (Pa. 1907). See* James Cada, *Depreciation Damages: A Condemnor's Windfall, 51 Neb. L. Rev. 147 (1971).* Urban renewal plan is not violative of the *United States Constitution. Dilley v. City of Des Moines, 247 N.W.2d 187 (Iowa 1976).*

(n57)Footnote 308. *Gifford v. City of Colorado Springs, 815 P.2d 1008 (Colo. App. 1991); Hay's Western Wear, Inc. v. State Dep't of Transp. & Dev., 624 So. 2d 975 (La. App. 1993); DeBruin v. Green County, 241 N.W.2d 167 (Wis. 1976).* Property which is rendered without any practical value is considered to be taken. State Hwy. Comm'n in *Novi Twp. v. Mobarak, 211 N.W.2d 539 (Mich. App. 1973).* Historical Landmarks Designation Law preventing use of by owner of historic property was a taking. Lutheran Church in *Am. v. City of New York, 316 N.E.2d 305 (N.Y. 1974).*

(n58)Footnote 309. *But see Finke v. State, 521 N.W.2d 371 (Minn. App. 1994)* (no compensable right of access where property didn't abut the street or road); *State ex rel. State Hwy. Comm'n v. Kemper, 542 S.W.2d 798 (Mo. App. 1976); Bowden v. State Dep't of Transp., 556 So. 2d 1343 (La. App. 1990)* (abutment on public road not necessarily a prerequisite to recover damages for loss of access); *accord State ex rel. State Hwy. Comm'n v. Zahn, 633 S.W.2d 185 (Mo. Ct. App. 1982).*

(n59)Footnote 310. *City of Laredo v. R. Vela Exxon, Inc., 966 S.W.2d 673 (Tex. App. 1998)* (The 5th Amendment requires that compensation be paid whenever access to a piece of property is substantially and materially restricted); *Schwartz v. State, 900 P.2d 939 (Nev. 1995)* (property owner's right of easement to public highway abutting his or her property may not be substantially impaired without payment of damages to affected property owner); *Sebree v. Board of County Comm'rs, 840 P.2d 1125 (Kan. 1992)* (property owner whose land abuts existing highway has compensable right to access); *People ex rel. Gutknecht v. City of Chicago, 111 N.E.2d 626 (Ill. 1953); Hover v. City of Warren, 1997 Ohio App. LEXIS 6032* (holding that "substantial loss of access to a property owner's land will constitute a taking... The interference with access to or from the property must be substantial, material or unreasonable").

(n60)Footnote 311. *Kemp v. City of Claxton, 496 S.E.2d 712 (Ga. 1998)* (a landowner can collect for an inconveniencing of access to the property only when that inconvenience is limited to the landowner and not to the public as a whole); *Landsman v. State, 671 N.Y.S.2d 868 (N.Y. App. Div. 1998)* (when following a government taking adequate access to a highway was provided after the closest access was blocked, the state was not liable for consequential damages resulting from the loss of close access); *City of Laredo v. R. Vela Exxon, Inc., 966 S.W.2d 673 (Tex. App. 1998)* (no taking results from an impairment of access where the government has not directly restricted the use of the plaintiff's property); *Liontos v. County Sanitation Districts of Los Angeles County, 72 Cal. Rptr. 2d 107 (Ct. App. 1998);* (no right of recovery exists when access to a restaurant is temporarily impeded by construction); *Cohen v. City of Hartford, 710 A.2d 746 (Conn. 1998)* (when reviewing a takings claim, a court must determine to what extent access is impaired by government regulation, including the difference in convenience of access before and after the regulation); *San Diego Metro. Transit Dev. Bd. v. Price Co., 44 Cal. Rptr. 705 (Cal. App. 1995)* (increased travel time to property alone is not compensable taking); *Jackson Gear Co. v. Com. Dep't of Transp., 657 A.2d 1370 (Pa. 1995)* (detour of 6 miles is compensable); *Rubano v. Department of Transp., 656 So. 2d 1264 (Fla. 1995)* (detour of 2 miles is not compensable); *Cody v. North Dakota Dep't of Transp., 472 N.W.2d 467 (N.D.1991)* (way of access is not substantially impaired, then no compensable injury). It has been held also that inconvenience of going to and from condemnee's remaining land after location of a highway is a compensable item. *State ex rel. State Hwy. Comm'n v. Casey, 490 S.W.2d 373 (Mo. Ct. App. 1973).* No compensation for limitation of access to a limited-access highway where ingress and egress, after the creation of the highway, were not unreasonably circuitous. *State ex rel. Herman v. Schaffer, 467 P.2d 66 (Ariz. 1970).* Landowner entitled to damage on condemnation where access is materially and substantially impaired, even though there has not been a deprivation of all reasonable access. *City of Waco v. Texland Corp., 446 S.W.2d 1 (Tex. 1969).* Denying compensation in the absence of deprivation of access to abutting highway; "a reasonable access to the highway": the access had only been limited, but not shut-off. *Wilson v. Iowa State Hwy. Comm'n, 90 N.W.2d 161 (Iowa 1958); Hanson v. City of Omaha, 59 N.W.2d 622 (Neb. 1953).*

(n61)Footnote 312. *Kemp v. City of Claxton, 496 S.E.2d 712 (Ga. 1998)* (A closing of two railroad crossings is not a compensable taking for neighboring landowners when none of the landowners' properties are adjacent to the closed sections, even though the closings make access to the properties less convenient and direct); *State v. Traina, 537 So. 2d 792 (La. Ct. App. 1989)* (temporary impairment is not compensable); *accord Hay's Western Wear, Inc. v. State Dep't of Transp., 624 So. 2d 975 (La. App. 1993); DeBruin v. Green County, 241 N.W.2d 167 (Wis. 1976).* Property which is rendered without any practical value is considered to be taken. State Hwy. Comm'n in *Novi Twp. v. Mobarak, 211 N.W.2d 539 (Mich. App. 1973).* Deprivation of the ordinary beneficial use and enjoyment of property is a taking. *Spradley v. South Carolina State Hwy. Dep't, 182 S.E.2d 735 (S.C. 1971).* Historical Landmarks Designation Law preventing use of owner of historic property was a taking. Lutheran Church in *Am. v. City of New York, 316 N.E.2d 305 (N.Y. 1974). See* Edward E. LeinClueber, *Environmental Control -- Land Use -- Historical Preservation, 1975 Wis. L. Rev. 260.*

(n62)Footnote 313. *Campbell v. Lower Providence Township, 1997 Pa. Commw. LEXIS 123* (holding that the change in grade on the paved portion of a street amounted to a taking because "the plaintiff's access to the newly paved street was substantially impaired." However, the court found no taking because the plaintiff had access to the property from an intersecting street upon which his property abutted); *Taub v. City of Deer Park, 912 S.W.2d 395 (Tex. App. 1995)* (impaired access is compensable special damage in situations in which normal access is still reasonably available,

but access for which property was specially intended is rendered unreasonably deficient; landowner can recover compensation when access to property is materially and substantially impaired); *Behlman v. City of Florissant, 548 S.W.2d 619 (Mo. Ct. App. 1977). See Right of Way Acquisition, Damage Problem Created by the Limited Access Hwy., 35 Ind. L. Rev. 508 (1960); Dick & Bros. Quincy Brewing Co. v. City of Quincy, 167 N.E. 40 (Ill. 1929)* (change in grade); *Gohman v. City of St. Bernard, 146 N.E. 291 (Ohio 1924); Cabell v. City of Cottage Grove, 130 P.2d 1013 (Or. 1942)* (vacation of street); *White v. Southern Ry., 140 S.E. 560 (S.C. 1927); Fry v. O'Leary, 252 P 111 (Wash. 1927)* (vacating).

(n63)Footnote 314. *Crane v. Harrison, 232 P. 578 (Idaho 1925)* (change of grade); *Wine v. Commonwealth, 17 N.E.2d 545 (Mass. 1938); Barrett v. Union Bridge Co., 243 P. 93 (Or. 1926). See In re Hull, 204 N.W. 534 (Minn. 1925)* (to the effect that owner must show special damage). If a limitation by a city as to what vehicles shall pass over a certain street impairs or prevents access to adjoining property there is a taking. *Metropolitan Atlanta Rapid Transit Auth. v. Datry, 220 S.E.2d 905 (Ga. 1975).*

(n64)Footnote 315. *In re Ford, 313 N.Y.S.2d 42 (N.Y. App. Div. 1970)* (access to water compensable interest). Denial of access held a taking. *Hewitt-Lea Lumber Co. v. King County, 194 P. 77 (Wash. 1920).* Not a taking. Peck v. Alfred Olsen Constr. Co., 245 N.W.131 (Iowa 1932). Construction of a median causing circuitous route of access was not a taking. *Commonwealth of Pa. v. Nod's, Inc., 321 A.2d 373 (Pa. 1974).*

(n65)Footnote 316. *D.S.S. Enters. v. State, 557 N.Y.S.2d 811 (N.Y. App. Div. 1990)* (change of grade of street and sidewalk compensable). *City of Gulfport v. Anderson, 554 So. 2d 873 (Miss. 1989)* (change in grade compensable). *Bruener v. Los Angeles County Metro. Transp. Auth., 43 Cal. Rptr. 2d 314 (Cal. App. 1995)* (major change in grade -- highway underpass, overpass, off-ramps -- that prevent direct access to property is compensable). To effect that a taking of a right of access must be compensated, *see State by Burnquist v. Miller Home Dev., 65 N.W.2d 900 (Minn. 1954).* Michigan now holds that if a change in highway grade so impairs an access that there is a diminution of the value of an abutting owner's property there is a "taking compensable."

Thom v. State, 138 N.W.2d 322 (Mich. 1965), overruling Pontiac v. Carter, 32 Mich. 164 (1875). Denying damages on construction of controlled access highway. *Busby v. State ex rel. Herman, 420 P.2d 173 (Ariz. 1966).* Allowing compensation for material impairment of ingress and egress because of controlled access highway. *State ex rel. Morrison v. Thelberg, 350 P.2d 988 (Ariz. 1960).* Diversion of traffic in naming a new highway as a controlled access facility was an element of damages. *Riddle v. State Hwy. Comm'n., 339 P.2d 301 (Kan. 1959).* Landowner along county road has property right of reasonable access to public highway system but he has no property right in continued maintenance of county road. *Department of Hwys. v. Jackson, 302 S.W.2d 373 (Ky. 1957).*

(n66)Footnote 317. *Oddo v. State, 912 S.W.2d 831 (Tex. App. 1995)* (change of grade not compensable). Lowering of grade of highway is not compensable unless access is cut off. *Young v. State, 246 N.E.2d 377 (Ind. 1969), cert. denied, 396 U.S. 1938, 90 S. Ct. 685 (1970); State v. Lovett, 257 N.E.2d 298 (Ind. 1970); Behlman v. City of Florissant, 548 S.W.2d 619 (Mo. App. 1977).*

(n67)Footnote 318. *County of Anoka v. Maego, Inc., 541 N.W.2d 375 (Minn. App. 1996)* (property owners cannot be denied access to abutting public highway without compensation); *Bruener v. Los Angeles County Metro. Transp. Auth., 43 Cal. Rptr. 2d 314 (Cal. App. 1995)* (major change in grade of road, such as construction of highway underpasses, overpasses, and freeway off-ramps, which prevents direct access to property abutting the new construction is substantial impairment of access); *Mississippi State Hwy. Comm'n. v. Spencer, 101 So. 2d 489 (Miss. 1958). But see Muse v. Mississippi State Hwy. Comm'n., 103 So. 2d 839 (Miss. 1958) and Harreld v. Mississippi State Hwy. Comm'n., 103 So. 2d 852 (Miss. 1958)* (permitting police power to regulate rights of ingress and egress). No compensation payable for taking of an easement of access. *State v. Calkins, 314 P.2d 449 (Wash. 1957). Bacich v. Board of Control, 144 P.2d 818 (Cal. 1943); Beals v. Los Angeles, 144 P.2d 839 (Cal. 1943)* (right of access treated as a property interest); *State ex rel. Rich v. Dunclick, Inc., 286 P.2d 1112; Claim of Kincade, 119 N.E.2d 314 (Ohio App. 1953).* No deprivation where access still remains, though not as convenient as formerly. *United States v. Alderson, 53 F. Supp. 528*

(S.D.W. Va. 1944). One who has no access to a highway before its conversion into a limited, accessible freeway has no action for compensation for loss of access. *Schnider v. State, 241 P.2d 1 (Cal. 1952); United States v. General Motors Corp., 323 U.S. 373 (1945); White v. Southern Ry., 140 S.E. 560 (S.C. 1927). See Hanks v. Port Arthur, 48 S.W.2d 944 (Tex. 1932); Alexander Co. v. City of Owatonna, 24 N.W.2d 244 (Minn. 1946)* (upon theory that this is a valid exercise of police power). *Mississippi State Hwy. Comm'n v. Spencer, 101 So. 2d 499 (Miss. 1958); Hendrick v. Graham, 96 S.E.2d 129 (N.C. 1957); Rothwell v. Linzell, 127 N.E.2d 524 (Ohio 1955); Farmers-Kissinger Market House Co. v. City of Reading, 165 A. 398 (Pa. 1933).* Conversion from an unlimited to a limited access highway gave right of action to filling station. *Clayton County v. Billups Petr. Co., 123 S.E.2d 187 (Ga. 1961).* Unreasonable impairment of ingress and egress is compensable. *Department of Transp. v. Galley, 299 N.E.2d 810 (Ill. App. 1973).* Denial of access as a taking. *State by Mondale v. Gannons, Inc., 145 N.W.2d 321 (Minn. 1966). See* Kerry R. Brittain , *Navigation Servitude -- The Shifting Rule of No Compensation, 7 Land & Water L. Rev. 501 (1972);* Larry W. Harrison, *Municipal Corporations -- Eminent Domain -- Public Impairment of Right to Access is Compensable, 5 St. Mary's L.J. 400 (1973).* No definite right of access to through highway. *Brock v. State Hwy. Comm'n., 404 P.2d 934 (Kan. 1965).* Abutters have property right in easement of street so loss of access is compensable in eminent domain. *People v. Guimarra Vineyards Corp., 53 Cal. Rptr. 902 (Cal. App. 1966); State by Mondale v. Gannons, Inc., 145 N.W.2d 321 (Minn. 1966); Mississippi State Hwy. Comm'n v. Irby, 190 So. 2d 445 (Miss. 1966).* Loss of access is measurable in severance damages. *Santa Clara County v. Curtner, 54 Cal. Rptr. 257 (Cal. App. 1966).* Compensation for ten years' loss of access. *Anhoco Corp. v. Dade County, 144 So. 2d 793 (Fla. 1962).* Loss of access compensable. *State Dep't of Transp. v. Stubbs, 285 So. 2d 1 (Fla. 1973); Arnold v. Prince George's County, 311 A.2d 223 (Md. 1973).* Taking by eminent domain covers abutting owner's rights in adjacent street. *Langston v. City of Miami Beach, 242 So. 2d 481 (Fla. App. 1971).* Rights of access are property rights so that one is entitled to compensation where the building of street grade cuts off his right of access. *Hughes v. State, 328 P.2d 397 (Idaho 1928), overruling Crane v. City of Harrison, 232 P. 578 (Idaho 1928)* which held that the city could change the level of the street grade without paying compensation. *Farris v. City of Twin Falls, 347 P.2d 996 (Idaho 1959)* (impairment of access to residential property was a taking of property for public use). Substantial and material loss of access is compensable. *State v. Diamond Lanes, Inc., 242 N.E.2d 632 (Ind. 1986).*

(n68)Footnote 319. *Schwartz v. State, 900 P.2d 939 (Nev. 1995)* (Property owner abutting public highway has special right of easement in public road for access purposes, and has a compensable interest under eminent domain law). *But see Commonwealth v. Richards, 556 A.2d 510 (Pa. 1989)* (statute permitting compensation of landowners with respect to permanent interference with access to a road or highway resulting from Commonwealth's road building activities is limited to cases where interference is substantial). Loss of access through a street vacation is a compensable taking. *People v. Guimarra Vineyards Corp., 53 Cal. Rptr. 902 (Cal. App. 1966); Roth v. Wilkie, 354 P.2d 510 (Colo. 1960).* Dead ending of streets caused by condemnation is not damage peculiar to the land abutting the cul *de sac. Tift County v. Smith, 131 S.E.2d 527 (Ga. 1963).* Loss of access compensable if substantial. *State v. Tolliver, 205 N.E.2d 672 (Ind. 1965).* Noise and other inconvenience of temporary duration during construction are not recoverable as damages in eminent domain unless unduly prolonged. *Masheter v. Yake, 225 N.E.2d 540 (Ohio App. 1967).* Substantial damage to value of property caused by loss of easement of access is compensable. *Arkansas State Hwy. Comm'n v. Rye, 499 S.W.2d 624 (Ark. 1973); City of Los Angeles v. Ricards, 515 P.2d 585 (Cal. 1973).* Where the code did not differentiate between consequential and inconsequential violations, taking of right of ingress and egress is taking by eminent domain. *State v. Lovett, 257 N.E.2d 298 (Ind. 1970).* Right of access to a highway is a property right for which compensation must be paid in eminent domain. *Creasy v. Stevens, 160 F. Supp. 404 (W.D.Pa. 1958), rev'd, 360 U.S. 219 (1959),* holding unconstitutional a limited access law. Impairment of freedom of access is compensable. *State ex rel. Morrison v. Thelberg, 350 P.2d 988 (Ariz. 1960).* Property not damaged by being denied access to limited access highway where there was another frontage road. *State v. Wineberg, 444 P.2d 787 (Wash. 1968). See* Larry W. Harrison, Note, *Municipal Corporations -- Eminent Domain -- Public Impairment of Right to Access Is Compensable, 5 St. Mary's L.J. 400 (1973).*

Normally, the right of access to and from a public highway is one of the incidents of the ownership or occupancy of the land abutting thereon, and it exists when the title to the way is in the public as well as when it is in private ownership subject to public easement. *County Park Comm'n. of Camden County v. Kimble, 93 A.2d 647 (N.J. Super.*

1952). Limited access highway approved. *Hedrick v. Graham, 96 S.E.2d 129 (N.C. 1957).* Abutting owner has right of ingress and egress to highway, subject to state's paramount right to improve and control highway in public interest but he cannot insist on such right at any place he sees fit, since he holds such right subject to superior right of the state. *Little v. Burleigh County, 82 N.W.2d 603 (N.D.1957).* Owner of property has no right to continuation of maintenance or flow of traffic past his property. *New Way Family Laundry, Inc. v. Toledo, 168 N.E.2d 885 (Ohio 1960).*

Movement of bridges was not consequential damages and not entitled to eminent domain compensation. *City of Columbus v. Farm Bureau Co-op Ass'n, 273 N.E.2d 888 (Ohio App. 1971).* Right of access may be regulated under the police power. *Farmers-Kissinger Market House Co., Inc. v. City of Reading, 165 A. 398 (Pa. 1933).* Denying parking lot's entire access to one street in order to protect pedestrians was valid. *City of San Antonio v. Pigeonhole Parking of Texas, Inc., 311 S.W.2d 218 (Tex. 1958). See* Laurence W. Knowles, *Loss of Access: A Twentieth Century Enigma, 6 St. Louis U. L.J. 204 (1961);* William B. Stoebuck, *The Property Right of Access Versus the Power of Eminent Domain, 47 Tex. L. Rev. 733 (1969);* J. Thomas Carroll Jr., *Compensability for Impairment of Abutting Owner's Easement of Access: A Century of Michigan Supreme Court Analysis*, 52 J. Urb. L. 505 (1972); *Condemnation Blight and the Abutting Landowner, 73 Mich. L. Rev. 583 (1975).* Complete destruction of access is a taking. *Department of Pub. Words & Bldgs. v. Wilson & Co., 340 N.E.2d 12 (Ill. 1975).* Mere inconvenience resulting from clogging of exit is not a taking. *State ex rel. Noga v. Masheter, 330 N.E.2d 439 (Ohio 1975).*

(n69)Footnote 320. *Kemp v. City of Claxton, 496 S.E.2d 712 (Ga. 1998)* (a closing of two railroad crossings is not a compensable taking for neighboring landowners when none of the landowners' properties are adjacent to the closed sections, even though the closings make access to the properties less convenient and direct); *Landsman v. State, 671 N.Y.S.2d 868 (N.Y. App. Div. 1998)* (when following a government taking adequate access to a highway was provided after the closest access was blocked, the state was not liable for consequential damages resulting from the loss of close access); *City of Grapevine v. Grapevine, 804 S.W.2d 675 (Tex. Ct. App. 1991)* (no compensation if still access by other means). Where adjoining landowner has right of access to highway, such owner cannot insist on right of access at any place deemed fit, since the right is held subject to the superior right of the state; nevertheless, access must be suitable, and mere inconvenience of property owner does not stamp a means of access unsuitable. *Meloon Bronze Foundry v. State, 166 N.Y.S.2d 586 (N.Y. Ct. Cl. 1957).* Mere circuity of travel caused by road vacation is not a taking. *In re Appropriation for Hwy. Purposes, 261 N.E.2d 142 (Ohio App. 1970).* Diversion of traffic caused by closing of a street is not compensable. *City of San Antonio v. Olivares, 505 S.W.2d 526 (Tex. 1974).* Holding that:

a. There is no property right to direct access to a highway.

b. There is a right of reasonable access.

c. Such right is not infringed unless the access provided is unduly circuitous.

State ex rel. Herman v. Schaffer, 467 P.2d 66 (Ariz. 1970).

(n70)Footnote 321. *Landsman v. State, 671 N.Y.S.2d 868 (N.Y. App. Div. 1998)* (when following a government taking adequate access to a highway was provided after the closest access was blocked, the state was not liable for consequential damages resulting from the loss of close access); *Kemp v. City of Claxton, 496 S.E.2d 712 (Ga. 1998)* (a closing of two railroad crossings is not a compensable taking for neighboring landowners when none of the landowners' properties are adjacent to the closed sections, even though the closings make access to the properties less convenient and direct); *Department of Transp. v. First Interstate Commercial Mtg. Co., 881 P.2d 473 (Colo. App. 1994)* (Mere circuity of route and inconvenience do not constitute compensable damages); *State v. Schmidt, 867 S.W.2d 769 (Tex. 1993)* (inconvenience of access constituted "community" injury for which eminent domain damages were not available). *But see Department of Transp. v. Taylor, 440 S.E.2d 652 (Ga. 1994)* (inconvenience which is special to landowner is compensable). It has been held also that inconvenience of going to and from condemnee's remaining land after location

of a highway is a compensable item. *State ex rel. State Hwy. Comm'n v. Casey, 490 S.W.2d 373 (Mo. App. 1973).* No compensation for limitation of access to a limited-access highway where ingress and egress, after the creation of the highway, were not unreasonably circuitous. *State ex rel. Herman v. Schaffer, 467 P.2d 66 (Ariz. 1970).* Landowner entitled to damage on condemnation where access is materially and substantially impaired, even though there has not been a deprivation of all reasonable access. *City of Waco v. Texland Corp., 446 S.W.2d 1 (Tex. 1969); A.E. Ottaviano, Inc. v. State, 273 N.Y.S.2d 789 (N.Y. App. Div. 1966).*

(n71)Footnote 322. *City of Laredo v. R. Vela Exxon, Inc., 966 S.W.2d 673 (Tex. App. 1998)* (No taking results from an impairment of access where the government has not directly restricted the use of the plaintiff's property); *Kemp v. City of Claxton, 496 S.E.2d 712 (Ga. 1998)* (a closing of two railroad crossings is not a compensable taking for neighboring landowners when none of the landowners' properties are adjacent to the closed sections, even though the closings make access to the properties less convenient and direct); *State v. Westgate, Ltd., 798 S.W.2d 903 (Tex. App. 1990)* (temporary limited restriction of access is only compensable if brought about by illegal activity or one that is negligently performed or unduly delayed). A road vacation is a taking only if it results in damage to residue or to real property to which the property right pertains. *In re Appropriation for Hwy. Purposes, 261 N.E.2d 142 (Ohio App. 1970).* Holding unreasonable interference with right of access is a compensable taking, even though temporary. *San Antonio River Auth. v. Garrett Bros., 528 S.W.2d 266 (Tex. App. 1976); Boulder v. Kahn's, Inc., 543 P.2d 711 (Colo. 1975).* Requirement of mere security of highway access does not justify allowance and an award. *Sun Oil Co. of Pa. v. State, 377 N.Y.S.2d 252 (N.Y. App. Div. 1975).* Denying compensation for inconvenience caused by street vacation where another but more convenient access removed. *Hanson v. Omaha, 59 N.W.2d 622 (Neb. 1953).*

(n72)Footnote 323. *Landsman v. State, 671 N.Y.S.2d 868 (N.Y. App. Div. 1998)* (when following a government taking adequate access to a highway was provided after the closest access was blocked, the state was not liable for consequential damages resulting from the loss of close access); *San Diego Metro. Transit Dev. Bd. v. Price Co., 44 Cal. Rptr. 2d 705 (Cal. App. 1995)* (increased distance of travel from property is not compensable interest); *Commonwealth v. Comer, 824 S.W.2d 881 (Ky. App. 1991)* (increased travel time not compensable). Landowner's access to a highway may be limited under the police power, with no compensable interest in the flow of traffic. *Commonwealth v. Carlisle, 363 S.W.2d 104 (Ky. 1962).* The municipalities have, under the police power, a reasonable right to control access of an abutting owner to a street and to prohibit it without payment. *City of San Antonio v. Pigeonhole Parking of Texas, Inc., 311 S.W.2d 218 (Tex. 1958).* Allowing compensation for loss of right of access. *State ex rel. Morrison v. Thelberg, 350 P.2d 988 (Ariz. 1960), overruling, Grande v. Casson, 72 P.2d 676 (Ariz. 1937). Commonwealth Dep't of Transp. v. Gayeski, 344 A.2d 730 (Pa. Commw. 1975).*

(n73)Footnote 324. *Maloley v. City of Lexington, 536 N.W.2d 916 (Neb. App. 1995)* (When owner's ingress and egress to property abutting street or highway has been destroyed or substantially impaired, owner may recover damages that are nominal or severe). *United States v. 19.86 Acres of Land, 141 F.2d 344 (7th Cir. 1944); State v. Noyes, 47 Me. 189 (1859); Minnesota Canal & Power Co. v. Koochiching Co., 107 N.W. 405 (Minn. 1906); People v. Adirondack R.R., 54 N.E. 689 (N.Y. 1899); Kramer v. Cleveland & P. R.R., 5 Oh. St. 140 (1855).* Buildings, though owned separately from the fee, are "real estate" within the meaning of condemnation statutes. *United States v. 19.86 Acres of Land, 141 F.2d 344 (7th Cir. 1944).*

(n74)Footnote 325. *City of Laredo v. R. Vela Exxon, Inc., 966 S.W.2d 673 (Tex. App. 1998)* (no taking results from an impairment of access where the government has not directly restricted the use of the plaintiff's property); *State v. Regard, 567 So. 2d 1174 (La. Ct. App. 1990)* (compensable interest when landowners would have to travel additional 8.5 miles on public roads to reach best location for proposed new access road). *See Taylor v. Department of Transp., 429 S.E.2d 108 (Ga. App. 1993)* (compensable damage when owner suffers circuity of travel and loses access to property). *State Hwy. Dep't v. Irvin, 112 S.E.2d 216 (Ga. App. 1959); Hendrickson v. State, 127 N.W.2d 165 (Minn. 1964).* The mere fact that the route available after the condemnation is more circuitous does not permit the award of consequential damages. *A. E. Ottaviano, Inc. v. State, 273 N.Y.S.2d 789 (N.Y. App. Div. 1966);* Richard S. Mayberry & Frank A. Aloi, *Compensation of the Loss of Access by Eminent Domain in New York, 16 Buff. L. Rev. 603* (1966-67). Loss of access is compensable. *State ex rel. Ashworth v. State Road Comm'n, 128 S.E.2d 471 (W. Va. 1962). Ward v.*

Georgia Terminal Co., 84 SE 374 (Ga. 1915) (where cul de sac results from a limited access highway only the properties in the first block are entitled to damages for circuity of access). *Tift County v. Smith, 129 S.E.2d 172 (Ga. App. 1962)* applied the "first block" rule to rural property, but it was reversed by the supreme court; *Tift County v. Smith, 131 S.E.2d 527 (Ga. 1963). Giarrusso v. State, 240 N.Y.S.2d 579 (N.Y. App. Div. 1963)* (resulting circuity of access is damnum absque injuria); *American Oil Co. v. Mississippi State Hwy. Comm'n, 146 So. 2d 355 (Miss. 1962)* (loss of access compensable only when there is no other suitable means of access); *State by Mondale v. Gannons, Inc., 145 N.W.2d 321 (Minn. 1966).* Riparian rights are property rights, not to be taken without adequate compensation. *Mud Creek Irr., Agric. & Mfg. Co. v. Vivian, 11 S.W. 1078 (Tex. 1889); Arverne Bay Constr. Co. v. Thatcher, 15 N.E.2d 587 (N.Y. 1938); Vernon Park Realty, Inc. v. Mt. Vernon, 125 N.Y.S.2d 112 (N.Y. App. Div. 1953).*

(n75)Footnote 326. *San Diego Metro. Transit Dev. Bd. v. Price Co., 44 Cal. Rptr. 2d 705 (Cal. App. 1995)* (substantial interference of property access by police power is compensable right). *But see Dickie's Sportsman's Centers, Inc. v. Department of Transp., 477 So. 2d 744 (La. App. 1985)* (Limitation of the abutting owner's right of access to the highway by the Department of Transportation and Development in exercise of its police power to make improvements to the highway did not amount to a substantial interference). *Huff v. Indiana State Hwy. Comm'n, 149 N.E.2d 299 (Ind. 1958); State v. State Hwy. Comm'n, 346 P.2d 259 (Kan. 1959); Moorlane Co. v. State, 360 S.W.2d 918 (Tex. App. 1962)* (access to public highway may be denied without compensation under the police power); *State ex rel. Ashworth v. State Road Comm'n., 128 S.E.2d 471 (W. Va. 1962)* (taking of right of access requires compensation).

(n76)Footnote 327. Held, compensable interest. *County of Anoka v. Maego, Inc., 541 N.W.2d 375 (Minn. App. 1996). Bruener v. Los Angeles County Metro. Transp. Auth., 43 Cal. Rptr. 2d 314 (Cal. App. 1995)* (where proposed access road is too narrow for the intended use of property there may be a compensable interest); *State v. Munday Enters., 824 S.W.2d 643 (Tex. App. 1992).* Held, not compensable. *Rubano v. Department of Transp., 656 So. 2d 1264 (Fla. 1995)* (Severance of interchange between interstate highway and road on which landowners' property fronted did not constitute a taking). Damages allowed. *State ex rel. Morrison v. Thelberg, 350 P.2d 988 (Ariz. 1960). Denied. Arkansas State Hwy. Comm'n v. Bingham, 333 S.W.2d 728 (Ark. 1960); Gilmore v. State, 143 N.Y.S.2d 873 (N.Y. Ct. Cl. 1955).* Farm road and spring held property compensable in eminent domain. *Texas E. Transmission Corp. v. Allen, 282 S.W.2d 338 (Ky. 1955).* A mere change in mode of access is not compensable if it does not result in impairment to the access. *Streeter v. Winnebago County, 357 N.E.2d 1371 (Ill. App. 1976).*

(n77)Footnote 328. 0.958 *Acres More or Less v. State, 762 P.2d 96 (Alaska 1988)* (after state condemned land to construct controlled access highway, including strip in which it already owned section line right-of-way easement, property owners did not have right of direct access to controlled access highway); *State ex rel. Eastvold v. Superior Court, 287 P.2d 494 (Wash. 1955).*

(n78)Footnote 329. *High Horizons Dev. Co. v. State, 575 A.2d 1360 (N.J. 1990)* (right of access must be consonant with traffic conditions and reasonable and uniform police requirements). *City and County of San Francisco v. Safeway Stores, In., 310 P.2d 68 (Cal. App. 1957).* Holding that a regulation of passage by vehicles over streets is compensable if access to adjoining properties is prevented or impaired. *Metropolitan Atlanta Rapid Transit Auth. v. Datry, 220 S.E.2d 905 (Ga. 1975).*

(n79)Footnote 330. *Schwartz v. State, 111 Nev. 998, 900 P.2d 939 (Nev. 1995)* (right of access is an easement which is compensable if taken); *Department of Transp. v. Taylor, 440 S.E.2d 652 (Ga. 1994); Sebree v. Board of County Comm'rs, 840 P.2d 1125 (Kan. 1992).* The change in grade of street is compensable only where injury results to an existing structure. *In re Appropriation of Easement, 185 N.E.2d 485 (Ohio App. 1961).* The fact that a property owner is required to use a frontage road is not a taking. *State v. Wineberg, 444 P.2d 787 (Wash. 1968); Mississippi State Hwy. Comm'n. v. Spencer, 101 So. 2d 499 (Miss. 1958); Pauly v. State, 179 N.Y.S.2d 88 (1958)* (where portion of tract taken was utilized for widening public highway and became part thereof, condemnee was entitled to enter upon highway from any point at which remainder of tract abutted new highway line); *State ex rel. State Hwy. Comm'n v. Silva, 378 P.2d 595 (N.M. 1962)* (requiring a more circuitous route is not a taking of access); *Slicker v. Board of Educ., 187 N.E.2d 392 (Ohio App. 1961)* (mere circuity of travel caused by loss of access is not actionable); *Sease v. City of*

Spartanburg, 131 S.E.2d 683 (S.C. 1963). Reasonable loss of access as damage. *Stom v. City of Council Bluffs, 189 N.W.2d 522 (Iowa 1971); Boney v. State Dep't of Transp., 250 So. 2d 650 (Fla. Dist. Ct. App. 1971).* But mere circuity of access is not compensable. *Commonwealth Dep't of Hwys. v. Diuguid, 469 S.W.2d 707 (Ky. 1971); Dr. T. C. Smith Co. v. North Carolina State Hwy. Comm'n., 182 S.E.2d 383 (N.C. 1971). Creasy v. Stevens, 160 F. Supp. 404 (W.D.Pa. 1958); State by Mondale v. Ohman, 116 N.W.2d 101 (Minn. 1961)* (adjacent landowners' access to trunk highways may be cut off by condemnation).

While denial of access of travel from one direction is not of itself a "taking," recovery may be had under a measure of interference with the access of travel from another direction. *Prow's Motel, Inc. v. State, 200 N.W.2d 910 (Minn. 1972); Huff v. Indiana State Hwy. Comm'n., 149 N.E.2d 299 (Ind. 1958); State ex rel. Rich v. Fonburg, 328 P.2d 60 (Idaho 1958); Moore v. State Hwy. Comm'n. 383 P.2d 549 (Kan. 1963).* Inconvenience to residue in use of property resulting from a condemnation of a portion of the tract. *Arkansas State Hwy. Comm'n v. Coffman, 473 S.W.2d 873 (Ark. 1971).* Even where a loss of access is compensable, though there is no taking of property, *State v. Geiger & Peters, Inc., 196 N.E.2d 740 (Ind. 1964).* A loss of profits resulting from such denial is not compensable. *State v. Hastings, 206 N.E.2d 874 (Ind. 1965).*

Puyper v. Pure Oil Co., 60 So. 2d 569 (Miss. 1952). Damages for loss of access cannot be claimed unless the claimant's land abuts on the land taken. *Earl v. Arkansas State Hwy. Comm'n, 405 S.W.2d 931 (Ark. 1966). Gilmore v. State, 143 N.Y.S.2d 873 (N.Y. Ct. Cl. 1955).* Farm road and spring held property compensable in eminent domain. *Texas E. Transmission Corp. v. Allen, 282 S.W.2d 338 (Ky. 1955).* Limited access highways are a public purpose. *State ex rel. State Hwy. Dep't v. George F. Lang Co., 191 A.2d 322 (Del. 1963); Utah Rd. Comm'n v. Hansen, 383 P.2d 917 (Utah 1963); State ex rel. Eastvold v. Superior Court, 287 P.2d 494 (Wash. 1955).*

(n80)Footnote 331. *Williams v. Arkansas State Hwy. Comm'n, 730 S.W.2d 245 (Ark. App. 1987)* (landowner is not entitled to compensation for the loss of access to the new highway). An abutting property owner has no property right in the continuing flow of traffic past the property. *Walker v. State, 295 P.2d 328 (Wash. 1956); Los Angeles v. Geiger, 210 P.2d 717 (Cal. App. 1949); State ex rel. State Hwy. Comm'n v. Clevenger, 291 S.W.2d 57 (Mo. 1956);* State by and through *State Hwy. Comm'n v. Burk, 265 P.2d 783 (Or. 1954); State v. Calkins, 314 P.2d 449 (Wash. 1957); Carazalla v. State, 70 N.W.2d 208, 71 N.W.2d 276 (Wis. 1955); Prow's Motel, Inc. v. State, 200 N.W.2d 910 (Minn.1972); Hendrickson v. State, 127 N.W.2d 165 (Minn. 1964); State ex rel. Dep't of Hwys. v. Strickland, 290 So. 2d 714 (La. App. 1974).*

(n81)Footnote 332. *Humphrey v. Strom, 493 N.W.2d 554 (Minn. 1992)* (dealing with construction of controlled access highways for public use, requires compensation of owners for "any elimination of existing access, air, view, light, or other compensable property rights"). *Eller v. Board of Educ., 89 S.E.2d 144 (N.C. 1955).* Noise, vibrations and smoke which interfere with the use and enjoyment of property without a physical invasion do not constitute a compensable "taking." *Batten v. United States, 306 F.2d 580 (10th Cir. 1962), cert. denied, 371 U.S. 955 (1983).*

One who conveys property to the state for right-of-way is not precluded from recovering damages from the state in inverse condemnation if it is proved that additional damages were occasioned by either improper or negligent construction of the right-of-way. *State v. Lovett, 257 N.E.2d 298 (Ind. 1970).* Landowner entitled to damages for construction of second pipeline on easement. *Baker v. Columbia Gulf Transmission Co., 218 So. 2d 39 (Miss. 1969).* Construction of sewage disposal plant resulting in reduction in value of land was a taking regardless of negligence. *City of Abilene v. Downs, 359 S.W.2d 642 (Tex. App. 1962) rev'd, 367 S.W.2d 153 (Tex. 1963).* Contamination of wells by sewage disposal plant was a taking. *Cunningham v. Town of Tieton, 374 P.2d 375 (Wash. 1962). See* Orval C. Harrison, *Use and Enjoyment of Land -- Compensation for Noise Damage,* 4 Nat. Resources L. 429 (1971).

(n82)Footnote 333. *Persyn v. United States, 34 Fed. Cl. 187 (Fed. Cl. 1995)* (frequent flying over property results in an easement for the government at the lowest level usually flown and applies to all types of aircraft that do not substantially interfere with the use and enjoyment of the property); *Jackson v. Metropolitan Knoxville Airport Auth.,*

1996 WL 31005 (Tenn. 1996) (noise, vibration, pollution that is caused by air traffic near, but not over property is a compensable interest); *Bydlon v. United States, 175 F. Supp. 891 (Cl. Ct. 1959).* Planes flying high over property was not a taking. *Kirk v. United States, 451 F.2d 690* (10th Cir. Okla.). Frequent low flights of aircraft into airport was a taking, but not noise and soot from aircraft in airport. *Town of East Haven v. Eastern Airlines, Inc., 331 F. Supp. 16 (D. Conn. 1971).* Air activity up to navigable airspace is a taking. *Johnson v. Airport Auth., 115 N.W.2d 426 (Neb. 1962).* Where compensation is payable for a change of grade of a highway any change from that of an established highway is compensable. *City of Fayettewille v. Stone, 148 S.W. 524 (Ark. 1912); Folmsbee v. City of Amsterdam, 36 N.E. 821 (N.Y. 1894).* A property owner has a state constitutional right of access extending in both directions to the next intersecting street, so that an act creating a cul-de-sac, whether by the sovereign or an individual, is improper. *Breidert v. Southern Pac. Co., 394 P.2d 719 (Cal. 1964).* Access right is to be considered as part of the property taken. *Klumok v. State Hwy. Dep't, 167 S.E.2d 722 (Ga. App. 1969).* No compensation for loss or impairment to easements of light and air due to change in highway grade. *Crowell v. State, 238 N.Y.S.2d 72 (N.Y. App. Div. 1963).* Alteration of grade by the state causing washing by surface water was a "taking." *Lucas v. Carney, 149 N.E.2d 238 (Ohio 1958).* Loss of access is compensable if the access is materially and substantially impaired even though there has not been a deprivation of all reasonable access. *City of Waco v. Texland Corp., 446 S.W.2d 1 (Tex. 1969).* But mere improvement to make the road usable does not establish a compensable claim. *Schrock v. King County, 349 P.2d 594 (Wash. 1960).*

(n83)Footnote 334. *State v. Austex, Ltd., 862 S.W.2d 1 (Tex. App. 1991)* (change in traffic pattern admissible as evidence of taking). No compensation for diminution of traffic. *Meltzer v. Hilsborough County, 167 So. 2d 54 (Fla. App. 1964). Stevenson v. Downey, 23 Cal. Rptr. 127 (Cal. App. 1962); Iowa State Hwy. Comm'n v. Smith, 82 N.W.2d 755 (Iowa 1957); Nelson v. Iowa State Hwy. Comm'n., 115 N.W.2d 695 (Iowa 1962)* (circuity of access not compensable); *Morton v. State, 181 A.2d 831 (N.H. 1962); Creasy v. Stevens, 160 F. Supp. 404 (W.D.Pa. 1958).*

(n84)Footnote 335. *City of Laredo v. R. Vela Exxon, Inc., 966 S.W.2d 673 (Tex. App. 1998); Circle K Gen. Inc. v. Dep't of Transp., 396 S.E.2d 572 (Ga. App. 1991)* (no right to traffic flow past a business); *see also Bruener v. Los Angeles County Metro. Transp. Auth., 43 Cal. Rptr. 2d 314 (Cal. App. 1995); Northern Lights Shopping Inc. v. State, 247 N.Y.S.2d 333 (N.Y. App. Div. 1964)* (divided highways are not a taking by diminishing traffic), *cert. denied, 382 U.S. 826 (1965).*

(n85)Footnote 336. *Bruener v. Los Angeles County Metro. Transp. Auth., 43 Cal. Rptr. 2d 314 (Cal. App. 1995)* (concrete separator not a taking); *County of Anoka v. Maego, Inc., 541 N.W.2d 375 (Minn. App. 1996)* (Property owners are not entitled to damages resulting from construction of median in abutting highway if they continue to have access in one direction). The construction of a median strip on a highway is a proper exercise of police power and is not a taking, even though circuity of access results. *Richley v. Jones, 310 N.E.2d 236 (Ohio 1974); State v. Cheris, 287 N.E.2d 777 (Ind. App. 1972).*

(n86)Footnote 337. *See Brown v. City of Twin Falls, 855 P.2d 876 (Idaho 1993)* (Placement of road median barriers by city and state, which restrained business traffic flow to shopping center, did not amount to compensable taking). Right of access in private owners' abutting pre-existing road. *Royal Transit, Inc. v. Village of West Milwaukee, 63 N.W.2d 62 (Wis. 1954); Carazalla v. State, 70 N.W.2d 208, 71 N.W.2d 276 (Wis. 1955).* Severance damage is not payable where the property was not taken for the highway proper. *People ex rel. Dep't of Public Works v. Symons, 357 P.2d 451 (Cal. 1960). See Wolfram v. State by Burnquist, 74 N.W.2d 510 (Minn. 1956),* to the effect that the establishment of a heavily travelled highway adjacent to land does not set up compensable injury; William L. Weismantel, *Public Power to Close Residential Streets to Through Traffic, 25 Mo. L. Rev. 37 (1960).* An abutting landowner has no personal easement in a highway which interest must be compensated when the highway is abandoned. *State ex rel. Merrett v. Linzell 126 N.E.2d 53 (Ohio 1955),* but deprivation of access by construction of a limited-use highway is a taking compensable in eminent domain. *Rothwell v. Linzell, 127 N.E.2d 524 (Ohio 1955), appeal dis., 350 U.S. 1012 (1956).* Compensation given when all direct access is denied to limited access highway. *McMoran v. State, 345 P.2d 598 (Wash. 1959).* Damages for loss of access. *State ex rel. Riddle v. Department of Hwys., 179 S.E.2d 10 (W. Va. 1971).* Loss of business caused by construction of median divider gives rise to severance damages. *State ex rel. Dep't of Hwys. v. Strickland, 290 So. 2d 714 (Cal. App. 1974).* Traffic diverted from lessee's service station as a result of

road improvement was a circumstance which could be considered in determining the compensation for loss of business. *State Hwy. Comm'n v. Keneally 384 P.2d 770 (Mont. 1963).*

(n87)Footnote 338. Loss of access is not compensable. *County of Winnebago v. Rico Corp., 296 N.E.2d 867 (Ill. App. 1973).* Changing to a one-way street is a valid exercise of police power and not a taking of a right of ingress and egress. *City of Memphis v. Hood, 345 S.W.2d 887 (Tenn. 1961).* Designation of a one-way street is not a "taking." *Goycoolea v. City of Los Angeles, 24 Cal. Rptr. 719 (Cal. App. 1962).*

(n88)Footnote 339. *Cobb County v. Princeton Assocs., 421 S.E.2d 102 (Ga. App. 1992)* (denying property owners left hand turn out of property is not compensable). Closing of one end of street was the "taking" of an easement of adjoining landowners. *Bacich v. Board of Control, 144 P.2d 818 (Cal. 1943).* Title does not pass until compensation is paid except under "quick take" statute. *Board of Junior College v. Carey, 250 N.E.2d 644 (Ill. 1969).* When freedom of access is impaired to the extent that property value is affected, there is a taking. *Arkansas State Hwy. Comm'n v. Rye, 499 S.W.2d 624 (Ark. 1973).* Substantial temporary impairment of access results in an award for reduction of use or rental value during the period of impairment. *City of Los Angeles v. Ricards, 515 P.2d 585 (Cal. 1973).* Denial of access is a taking. *Arnold v. Prince George's County, 311 A.3d 223 (Md. 1973).* Refusing to allow compensation for vacating an alley vacation resulting in denial of access as contrasted with vacating a street vacation. *Phillips Merc. Co. v. City of Albuquerque, 287 P.2d 77 (N.M. 1955). See Kirby Terminal Co. v. City of Detroit, 63 N.W.2d 601 (Mich. 1954). Contra Beals v. Los Angeles, 144 P.2d 839 (Cal. 1943).* Damages caused by temporary obstruction of streets during period of construction of public project are not compensable. *Hill v. State Hwy. Comm'n, 516 P.2d 199 (N.M. 1973).* There is no property right in the flow of traffic past the owner's land. *Department of Pub. Works & Bldgs. ex rel. People v. Bills, 213 N.E.2d 110 (Ill. App. 1965); Department of Pub. Works & Bldgs. v. Wilson & Co., 340 N.E.2d 12 (Ill. 1975).* Diversion of traffic is not compensable. *Traendly v. State, 382 N.Y.S.2d 365 (N.Y. App. Div. 1976).* There is no vested interest in the flow of traffic past the premises. *Deyle v. State Dep't of Roads, 194 Neb. 36, 229 N.W.2d 565 (Neb. 1975).* There is no vested right in traffic passing in front of an owner's property. *Labriola v. State, 351 N.Y.S.2d 464 (N.Y. App. Div. 1974). See Deyle v. State Dep't of Roads, 229 N.E.2d 565 (Neb. 1975).* No compensation where change in highway results in a diversion of traffic. State through *Dep't of Hwys. v. Chesson, 229 So. 2d 763 (La. App. 1969).* Adjoining landowners have no right to control the type of traffic on public highways. *Rust v. Reeher, 198 N.E.2d 783 (Ohio App. 1963).* Property owners have no right in the continuation or maintenance of the flow of traffic past their property. *Walker v. State, 295 P.2d 328 (Wash. 1956).*

CHAPTER 80 THE POWER OF EMINENT DOMAIN

9-80 Thompson on Real Property, Thomas Editions § 80.06

AUTHOR: Professor David A. Thomas J. Reuben Clark Law School Brigham Young University

§ 80.06 The Permissible Extent of a Taking.

[Go To Supp]

It is an established rule of eminent domain that the amount of property to be taken, the extent of the interest to be obtained and the time it is to be held are linked to the necessity of the taking, n379 and the power of the condemning authority. n380 The state, however, has the right to declare upon what property or to what extent the right of eminent domain is to be exercised; n381 through its legislature, the state may determine the amount of land to be taken and its location. n382 If the legislature has not fixed the amount of land to be taken, then no more property may be condemned than the public use requires. n383 The legislature may leave the determination of the particular property and the amount needed "to the discretion of those upon whom the authority is conferred, with or without limitation." n384

If a corporation has statutory power of eminent domain, with the estate and exact quantity of land to be taken statutorily prescribed, no other estate or amount of land than that prescribed can be seized under such authority. n385 However, if the authorizing statute does not definitely declare what estate or what quantity of property shall be taken, the general rule is that the corporation may take only so much land as is reasonably necessary for its corporate purposes. n386 No precise rule is available for determining what is an appropriate amount of land in the absence of specific statutory authority, n387 and, within the general rule, the company usually has broad discretion in the selection of the land and the amount to be taken. n388

The right to take is limited to present or reasonable future needs n389 to carry out the public purpose. n390 However, the power of eminent domain, at least in the case of streets, is a continuing one, to be exercised when and to the extent that the public good may require, and streets previously condemned may be straightened and widened under a subsequent exercise of the power. n391 It is usually provided by statute that the question shall be tried and determined by appraisers, commissioners, or a jury, or some other tribunal. Usually the condemnor does not acquire mineral rights. n392 The rules against excess takings are gradually weakening. n393

CHAPTER 80 THE POWER OF EMINENT DOMAIN

9-80 Thompson on Real Property, Thomas Editions § 80.07

AUTHOR: Professor David A. Thomas J. Reuben Clark Law School Brigham Young University

§ 80.07 Nature of the Title or Interest Acquired.

[Go To Supp]

§ 80.07(a) General Rules.

§ 80.07(a)(1) Legislative Power to Determine Interest Taken.

The legislature has the sole right to determine to what extent the exercise of the power shall be carried, that is, whether an easement or fee is taken. n394 If the use is a public one, the legislature is the exclusive judge of the amount of land and the estate therein which the public end to be served requires to be taken. n395 Its power to withdraw property from private control and subject it to public use, whatever interest or estate is necessary to accomplish the intended purpose, is complete and perfect. n396 The interest taken, according as the legislature may determine, may be purely temporary, n397 or may consist of an estate for years, for life, a mere easement, a conditional fee, or a fee simple absolute. n398 Thus the legislature may, in its discretion, authorize land to be taken in fee simple, for a public use, although such use is special, and not necessarily permanent or perpetual. n399 So land condemned in fee simple did not revert to the original condemnees on failure of use for the purpose originally condemned. n400 The same rule applies where the title is taken by deed in lieu of condemnation.

§ 80.07(a)(2) Easement Rather Than Fee Is Taken.

The general rule is that the exercise of the power of eminent domain, particularly when exerted in behalf of corporations, extends only to the use of the property appropriated, and does not include the fee. n401 In the absence of an express statutory provision to the contrary, the taker under eminent domain proceedings acquires only a right to use and occupy the land for the purposes for which it is taken, that is to say, only an easement is required, n402 or at most a determinable fee or a fee subject to a condition subsequent. n403 Where land is taken for school purposes, in the absence of special circumstances, a fee title is presumed to be taken. n404

LEXIS: "eminent domain" w/20 taking w/10 easement

§ 80.07(b) Incidents of Eminent Domain Titles Generally.

A new title, not based on that of the previous owner, arises out of eminent domain. n405 Title acquired by eminent domain is independent of infirmities of and claims against the original owner. n406 The title of eminent domain is a new and independent one and the taker is not in privity with the former owner as the taker would be if the title were derivative. n407 Where, however, the proceedings are directed against only the holder of an immediate estate, the rights of those owning future interests are not affected. n408 The nature of the title or rights acquired by the condemnor depends upon the extent of the title or rights which may be adjudged under the pleadings in the particular action. n409 When a part of mortgaged property is taken in condemnation proceedings the award is subject to the lien of the mortgage on the whole. n410

In condemnation the time of taking is when the condemnor interferes with any substantial elemental right growing out of ownership. n411 Under some rules title to property condemned does not vest until the damages awarded by the judgment are paid. n412 When this happens it relates back to the time the action was instituted. n413 Under a prepayment statute title vests in the condemnor when the consideration is paid. n414

A decree condemning a right of way for use as a public highway is held to have the force and effect of a deed. n415 The condemnor acquires title to all personal property on the condemned premises which cannot be removed. n416

An eminent domain action does not of itself bar an action for earlier trespasses, n417 but some contrary authority holds that the award in condemnation is all embracing. n418

§ 80.07(c) Incidents of Easements Condemned.

If an easement is taken, possession and control are usually limited to the purpose for which the easement was taken. n419 However, the condemnor of an easement acquires all rights which are necessary for the contemplated use of the land. n420

The easement is often expanded beyond the usual easement concept by permitting the condemnor to use the subsurface as long as it is not sold or given away. Thus the "easement" or "right of way" obtained by condemnation often is a hybrid interest with characteristics of both an easement and a fee. A further problem is the extent to which the condemnor can "overburden" the easement by permitting others to use it for power or telephone lines buses or similar public utility purposes.

Ordinarily only an easement is obtained when condemnation is for a high-way, n421 street, n422 railroad purpose, n423 transmission line of a power company, n424 or a reservoir site. n425 Because ordinarily only an easement is obtained by condemnation, the common easement problems of overburdening and termina-tion of use are often encountered.

Once the easement is obtained, the owner of the underlying fee may use the land for every purpose not incompatible with the use to which the easement has been appropriated. n426 When such use becomes impossible or is abandoned, the right of the easement holder ceases, and the property reverts to the original owner. n427

If an easement is taken, the material beneath the surface belongs to the owner; however, some states recognize a superior easement or right of way whereby although only an easement is condemned, the holder of the easement acquires the subsurface and any minerals. This gives the condemnor the right to use the profits, earth, sand and gravel for the proper purposes of the easement as long as those resources are not sold or given away. n428 Sometimes a distinction is made between a condemnation for utilities purposes in an urban area, often of fee title, and in rural areas, usually of easements only. n429 When a utility easement is taken in that portion of a strip of land that is not to be physically occupied by poles and towers, the taking is equivalent to condemnation of a fee. n430

A condemnation for highway purposes usually only takes an easement. n431 However, under some statutes the state acquires a fee upon condemnation of the land for highway purposes. n432 Once the highway easement is acquired, courts are divided on the question of the state's right to make or grant to others the right to make additional use of the highway easement without giving additional compensation to the owners of the subjacent fee. n433 Courts generally agree that uses of the easement for sewer, gas and water pipes were contemplated under the original highway or roadway easement and were not additional servitudes requiring additional compensation.

Except in those states where the fee passes as an incident of condemnation and excludes any remaining rights in the former owner, n434 any language in the authorizing statutes that clearly shows an intention that title in fee shall pass in condemnation proceedings sufficiently provides for title in fee to the taker. n435

COMPUTER-ASSISTED RESEARCH

LEXIS: "eminent domain" w/20 easement w/10 incidents

§ 80.07(d) Incidents of Fee Titles That Are Condemned.

If compensation is made for the fee, and the fee is necessary for the full use of the property under the authorizing act, the fee will be deemed to have been taken even in the absence of express words. n436 In such a case the property does not revert to the former owner when the original case closes. n437 If full and complete consideration was paid, the right of reverter does not arise except from the clearest and most explicit language. n438

When an unlimited use of the property taken is contemplated, all interest in the land taken is abrogated except such interest as is specifically excepted. n439 Thus, a condemnation in fee generally passes riparian rights n440 and minerals. n441

CHAPTER 80 THE POWER OF EMINENT DOMAIN

9-80 Thompson on Real Property, Thomas Editions § 80.08

AUTHOR: Professor David A. Thomas J. Reuben Clark Law School Brigham Young University

§ 80.08 Compensation.

[Go To Supp]

§ 80.08(a) General Principles.

Eminent domain compensation is one of the most confused areas of the law. It has been described by such terms as "fair," "fair market," "just replacement," "highest and best use," "adequate," "loss to the landowner," "most profitable use," "before and after," and "substituted facilities." To meet constitutional requirements, a taking must be accompanied by the payment of just or adequate compensation. n442 This is imposed by the Fifth Amendment, n443 and similar requirements are found in many state constitutions. n444 "Compensation," whether used singly or in connection with the intensifying adjectives "just" or "adequate," means a full indemnity for the loss sustained by the owner of the property when it is taken or injured for public use. n445 In general, compensation is based on the damage suffered by the owner, not the benefit received by the condemnor. n446 Further, the damages recoverable are those arising as a consequence of the condemnation, and from no other cause. n447 The measure of damages is the owner's loss, not the state's gain, n448 but future profits are too remote to be counted as part of the loss. n449

Compensation involves four factors: (a) direct compensation for the land or interest therein actually taken, (b) actual injury or damage to adjoining land not taken, (c) incidental consequential injury or damage to such adjoining land, and (d) inverse condemnation. n450

Compensation is a matter of judicial determination. The legislature cannot fix an arbitrary amount. n451 The court on condemnation may determine the interests of the parties entitled to the award, but may not distribute more than the full amount of the award. n452 Compensation is not required when the state grants its lands to a corporation for the construction of public improvement works. n453

The court decisions vary widely as to the extent a state and the federal government are liable for damages as between themselves in condemnation cases. The traditional test is the extent of participation in the construction that takes place on the condemned land. n454

§ 80.08(b) Compensation That Is Just.

§ 80.08(b)(1) Constitutional Origin of Just Compensation Guaranty.

The expression "just compensation" under the Fifth Amendment of the Constitution is synonymous with "due process of law" under the Fourteenth Amendment, as far as eminent domain proceedings are concerned. n455 Because of this constitutional source for the requirement of compensation, a state statute that authorizes the taking of private property by eminent domain usually provides that the owner shall be compensated for the property taken, and unless such provision is made the statute is invalid. n456 Stated otherwise, the constitutional guaranty of just compensation is paramount to any statute and a statute not in keeping with such guaranty would be unconstitutional. n457 When the state has not appropriated sufficient money to compensate a taking of the land an entry thereon is illegal, but if a subsequent appropriation makes the money available, a lawful recondemnation of the land will terminate the illegality of the entry. n458

COMPUTER-ASSISTED RESEARCH

LEXIS: "eminent domain" w/10 compensation w/2 just

§ 80.08(b)(2) Meaning of the Term "Just."

§ 80.08(b)(2)(i) In General.

Although the usual test for appropriate compensation is "just," n459 "just" cannot be determined by exact rules. n460 "Just compensation" as called for under the constitution cannot be reduced to inexorable rules. n461 Market value is the ordinary standard used, n462 but if there is no "market value" establishable, resort must be had to other means of establishing value. n463 Always, however, it is the value of the interest taken, not the owner's interest therein, which is of importance, n464 and it is the owner's loss, not the taker's gain, which must be considered. n465 Peculiar needs or attachment of the owner to the property are of no importance, such loss being part of the burden of common citizenship. n466 "Just compensation" means the market value of the property at the time of the taking and may be more or less than the investment. n467 Just compensation includes the increment of value resulting from the completed government project to lands originally outside but later drawn into the project. n468 As stated, the value of the land taken by condemnation is fixed as of the date the suit is filed. n469

§ 80.08(b)(2)(ii) "Before and After" Rule.

Where the taking is not total, the "before and after" rule is commonly used. n470 Just compensation for a partial taking is calculated either at (a) the value of the remainder before taking minus the value of the remainder after taking, or (b) the value of the entire tract before the taking minus the value of the remainder after the taking. n471

COMPUTER-ASSISTED RESEARCH

LEXIS: "eminent domain" w/10 compensation w/50 "before and after"

§ 80.08(b)(2)(iii) "Highest and Best Use."

"Market" or "Fair Market" is a standard commonly applied, n472 and while market value is the value in view of all available uses, and not necessarily value for the best use, n473 there is strong authority for the "highest and best use" test. n474 Proof of highest and best use of condemned property only requires a showing that the property is physically adaptable to that use and that there is a need for that use in the area as shown in the property's market at the time of

condemnation. n475 Courts speak of the value as determined by the highest and most valuable use for which the land is suited, n476 plus the amount of damage to the remainder of the tract less the general or special benefits accruing thereto by reason of the condemnation. n477 It means a fair equivalent in money for the property taken as nearly as its nature will permit, and the market value is generally the measure of compensation, although it is not necessarily so. n478

"Highest and best use" raises the question of present versus potential future uses. n479 Therefore, the possibility of increased values resulting from a potential zoning change is a property factor in determining valuation. n480 Land's potential for subdivision development is also a proper factor in valuation. n481 However, some courts oppose considering possible future uses in determining compensation as too speculative. n482 A possible change in zoning is a factor in determining highest and best use. n483

COMPUTER-ASSISTED RESEARCH

LEXIS: "eminent domain" w/10 compensation w/50 "highest and best"

§ 80.08(b)(2)(iv) Fair Market Value.

"Market value" and "highest and best use" are not identical. n484 In arriving at market value of land for condemnation purposes the courts have considered rental value, n485 actual use of the land, and values peculiar to a particular use so long as not speculative. n486 It includes not only the actual cash value or market value of the property taken, but also the actual cash value of the use of such property from the date of the taking of possession up to the date of the judgment, if possession is taken by the condemnor prior to the judgment. n487 Just compensation includes all elements of value that inhere in the property taken, but it does not exceed the market value fairly determined. n488 The sum required to be paid the owner does not derive from subjective considerations, that is, the value does not depend upon the uses to which the owner has devoted the land, or because its strategic location makes it desirable or indispensable for the owner's purposes; the value is to be arrived at upon a just consideration of all the uses for which it is suitable. n489 Nevertheless, nonconforming uses from which the owner derives positive and demonstrative economic value are considered in reaching the value for condemnation. n490 Similarly, the existence of a restrictive covenant burdening the property taken is also considered in determining fair market value for an eminent domain award. n491

The measure of damages for land taken for public use is the fair and reason-able market value of the land actually appropriated and the difference in the fair and reasonable market value of the remainder of the land before and after taking. n492 In determining that amount, the value of the land for the most advantageous uses to which it may be applied is to be taken as the measure of damages. n493 The value of the property taken controls, not the value of the right acquired. n494

For income-producing property, net income is the best test of value. n495 Comparable sales are also a well-accepted measure of compensation. While mere inconvenience is not "damage" for purposes of compensation, n496 the jury, in fixing damages, may take into account every element of annoyance and disadvantage resulting from the improvement which would influence an intending purchaser's estimate of the market value of the property. n497

COMPUTER-ASSISTED RESEARCH

LEXIS: "eminent domain" w/10 compensation w/50 "market value"

§ 80.08(b)(2)(v) Value of Interests Affected But Not Taken.

The constitutional prohibition against the taking of private property without just compensation extends not only to the property actually taken, but to damages, if any, done to property not taken. n498 Where a part of a tract of land is taken from the owner of the entire tract, the adaptability of the part not taken for use in view of the improvement to be made

may be a proper element to be considered, and hence any expenditures reasonably necessary to make such adaptation may enter into the damages awarded. n499

Where the taking is only partial, the question of consequential damages becomes important. n500 The whole question of compensation for damage to interests not taken is complicated, because as property interests they are damaged, but not taken. The result depends partially on the extent to which the statute awards "damages" as compensation for the land actually taken. But there is sound authority for the giving of constitutional protection against the taking of property rights on adjoining land without compensation. If the taking is of an estate less than a fee, then the problem is whether the measure of compensation is the amount of injury done to the interests not taken or whether it is the entire value of the land less the value of the undisturbed interests. n501 Where the issue concerns land not taken, such as adjoining properties, the issue is drawn between actual but incident injury, on the one hand, and speculation damages, on the other hand. n502

§ 80.08(b)(2)(vi) Other Elements of Just Compensation.

Interest is an allowable factor in the award, but attorney fees are not, unless the condemning authority has abused its power, or abandons the action, or it is determined that the property cannot be taken. n503 Thus, where condemnation is provided for to gain private ways of necessity, attorney fees are not included among the "expenses to be paid by the party to be benefited." n504

Just compensation requires payment of interest on the eminent domain award from the date thereof until time of payment. n505 Interest on the award between time of taking and date of rendition of judgment is a constitutional right but post-judgment interest is a matter of legislative grace. n506 Conversely, if interest is a part of "just compensation," payment cannot be denied by statute. n507

§ 80.08(c) The Date for Taxing the Award of Damages.

States differ as to whether the time for fixing the award and the consequent running of interest is the time of taking, n508 the time of judgment, n509 the time of notice of taking, n510 or the time of passing of title. n511 If the time of taking is the pivotal point, the taking is complete when there is an entry made upon the property by the condemnor and an act committed which indicates an intent to appropriate. n512

Where there has been a taking prior to institution of the condemnation, the value is of the date of taking, together with interest. n513 Some courts, however, hold that value is fixed as of the time of condemnation rather than at the time of tortious entry, n514 especially when the taking is by a private corporation. n515 And the date of damages for inverse condemnation is the time the owner sends a demand letter. n516

Where the threat of condemnation and the actions by the condemnor constitute an unlawful taking of property, a landowner is entitled to compensation from the time such threat and actions constitute a taking. n517 If the sovereign actually takes possession before beginning a condemnation proceeding, the owner is entitled to compensation even if the condemnation is later abandoned. n518 In that case, the date of taking is fixed as of the date of payment rather than the time the action is started. n519

Even where the state's planning has not reached the taking stage the resulting activities may be considered in fixing the damages ultimately awarded when the condemnation is finally completed. Under federal eminent domain statutes the right to an award arises not at the time of taking but at the time of filing the declaration of taking. n520

COMPUTER-ASSISTED RESEARCH

LEXIS: "eminent domain" w/10 compensation w/50 date

§ 80.08(d) The Time When Compensation Is to Be Paid.

To be constitutionally sufficient, a provision authorizing eminent domain must also authorize compensation in such a way that the landowner has power to coerce the payment without unreasonable delay, either through the courts or otherwise. n521 Where such a provision is applicable, its associated procedures must be followed. n522

By the common law, and by statute in some states, the payment of compensation must be concurrent with or precede the taking. n523 However, the general rule today is that where adequate provision is made for the certain payment of the compensation without unreasonable delay, the taking may precede payment. n524 Aside from any constitutional prohibition, in some states compensation need not be paid or the amount of compensation be ascertained before the rights of the condemnor become fixed, provided that a reasonably certain, prompt, and adequate provision for payment is made, or the public faith is pledged for such payment, n525 such as land with proper sureties. n526 In any event, the owner is entitled to have the compensation determined and paid at the earliest time possible. n527

The legislature cannot indefinitely postpone the payment of the compensation for the land taken under the power of eminent domain. n528 Indeed, in those states where either constitutional or statutory provisions require that the compensation be ascertained and paid in advance of the taking, payment or tender of payment is a condition precedent to the taking. n529 The landowner may waive a right to prepayment. n530

A special problem of timing for payment arises with respect to owners of adjacent tracts or future interests in the taken land, who may seek to recover for injury resulting from the taking after the condemnation has taken place. Courts are divided on this question. n531

The date of taking rather than the time the action is started, is the time of payment. n532 The war and the commerce powers may also avoid the paying of compensation by the federal government. Likewise, public safety may dispense with compensation. The constitutional requirement that the government must pay just compensation for what it takes is one which war does not suspend, n533 but there is no obligation to make compensation where the taking is what would, if not taken, be destroyed by the force of nature or by an enemy, n534 or where buildings are pulled down or blown up by the authorities to prevent the spread of fire. n535

COMPUTER-ASSISTED RESEARCH

LEXIS: "eminent domain" w/10 compensation w/50 time

§ 80.08(e) Including the Value of Personal Property in the Award.

Early cases limited recovery in eminent domain proceedings to the value of the real estate, and excluded the value of personal property from the award. n536 Later cases sometimes included in the condemnation awards amounts for any personal property destroyed, injured or taken, or for the cost of removing the personal property. n537 Under a variety of other special circumstances, payment for personal property may be required, n538 although, in general, payment for movable personal property is not required. n539

Where the personal property is not taken or paid for, but must be removed, courts are still divided as to the extent, if any, the condemnee is entitled to damages for the cost of removal. n540 Under the common law, if property of a public utility is condemned by a higher sovereign power, there is no allowance for relocation expenses unless the condemnation was for a proprietary as proposed to a governmental function. n541 This rule does not apply if the company's private easement is condemned. n542 The value of nonremovable fixtures is usually taken into consideration in fixing damages. n543

COMPUTER-ASSISTED RESEARCH

LEXIS: "eminent domain" w/10 compensation w/50 "personal property" or "personalty"

§ 80.08(f) Awards for Taking of Business Property.

Where business properties are condemned there are two conflicting considerations as to value: (1) past and prospective earnings must be considered, n544 and (2) income cannot be used as the basis of an award. n545 Even though the state takes an easement instead of a fee, the measure of damages is the same. There is further disagreement as to the extent there can be compensation for intangible losses when the business is taken. n546

Where a business is conducted on the property taken, the weight of authority denies compensation for the value of the business or for prospective profits as too speculative, n547 and courts further refuse to consider profits as an element in calculation of damages. n548 But it has been held that loss of profits caused when eminent domain forces relocation of the business is compensable. n549 Although there is much authority for the proposition that injury to or loss of business resulting from a taking is not subject to compensation, n550 a business may be interlocked with the value of the land so that loss of the business may be compensable. n551 Where the going concern value did not derive primarily from the location of the leased premises, no damages were payable in eminent domain for a loss of good will. n552 Courts differ as to the admissibility of evidence on loss of business or diminution of traffic flow in limited access highways. n553 The cases are also not in agreement as to whether a liquor license loss, because of a change in location, in eminent domain is compensable. n554

As a general rule, where a leasehold is taken by eminent domain there is no compensation for the going concern value of a business conducted on the property. n555

COMPUTER-ASSISTED RESEARCH

LEXIS: "eminent domain" w/10 compensation w/50 "business property"

§ 80.08(g) Awards for Taking of Easements.

In condemning an easement, not limited to a term of years, the rule is to award to the owner the value of the entire fee at the time of taking. n556 The general rule is further that damages to land by reason of a taking for a right-of-way for a power line must be direct and proximate and not merely remote, contingent, or speculative. n557 But the damages should not be diminished by reason of the fact that the state may possibly abandon the easement sometime in the future. n558 Special damages to land located outside of an easement may be allowed where it is shown that a physical disturbance of a right enjoyed in connection with the land not taken is causing damage in excess of that sustained by the public generally. n559

COMPUTER-ASSISTED RESEARCH

LEXIS: "eminent domain" w/10 compensation w/50 easement!

§ 80.08(h) Awards for Improvements.

Improvements situated on the realty taken are an element of damages. n560 A condemnor who has placed improvements on the land prior to the taking is not required to compensate the landowner therefor, n561 but compensation is required if the improvements were made to the land rather than being placed on the land. n562 Courts have divided on the question of whether an owner can be denied compensation for improvements made by the owner with knowledge of the impending condemnation. n563 Upon a partial taking, the condemnee may recover for injury caused to improvements on that part of the land not taken. n564 And these severance damages may be recovered even

though a condemned parcel may be physically separated from the remaining parcel. n565 For determining the amount of such severance damages, the reduction in market value is the proper measure of damages; however, "cost to cure" may be used if curing truly restores the landowner to as good a position as before and such cost is less than the decrease in market value or the market value cannot be determined. n566

COMPUTER-ASSISTED RESEARCH

LEXIS: "eminent domain" w/10 compensation w/50 improvement!

§ 80.08(i) Awards for Taking of Use Restrictions.

Where equitable servitudes are considered as being part of a taking, the value to the dominant tenement of the equitable servitudes condemned is the diminution in value of the dominant tenement as the result of the servitude's loss. n567 If land taken has been subject to a use restriction, the compensation for the taking is based on the land's normal value. n568

COMPUTER-ASSISTED RESEARCH

LEXIS: "eminent domain" w/10 compensation w/50 restriction!

§ 80.08(j) Awards When the Taking Includes Mineral Rights.

If the interest taken is underlain by valuable minerals, the minerals are included in the award, n569 but if the mineral estate has already been separated from the surface, the owner of the minerals is entitled to be compensated separately. n570

Where land is condemned, the owners of mineral rights must show special damages to be entitled to compensation. This is because mineral deposits have value for condemnation purposes only to the extent they enhance the market value of the land, not from the standpoint of their own value in place or when extracted. n571 The value of minerals under land is compensable, n572 but should be considered as part of the land itself and not taken separately. n573

COMPUTER-ASSISTED RESEARCH

LEXIS: "eminent domain" w/10 compensation w/50 mineral!

§ 80.08(k) Compensation for Special Uses or Features of the Land.

The older viewpoint did not permit aesthetic considerations to enter into the calculation of damages, so loss of view was not compensable. More modern courts disagree, n574 and aesthetic injury to the remaining property may be compensable. n575 Trees planted for aesthetic, shading, and screening purposes and taken by condemnation are items of severance damage in a partial taking. n576

Under modern rules, courts must now take into consideration the special uses to which property is put in fixing damages in eminent domain. n577 Some courts hold that special use may enhance market value but not exclude it. n578 Sometimes the special use is simply that the property has a special value to the owner, either practical or merely sentimental. n579 Historical landmarks, for instance, may have a special value, n580 although a few courts deny such "special value" to the condemnee. n581

§ 80.08(l) Condemnor's Rights to Set Off.

Many states give the condemnor a right to set off for benefits the owner received to other property as a result of the

condemnation. n582 So in some states where only a portion of the owner's property is taken, the condemnor may set off against severance damages any special benefits accruing to the remainder of the property by reason of the improvements resulting from the condemnation. n583

States differ over whether the benefits may be set off against only the severance damages relating to the land taken or only against damages to the land remaining. The rule in some states is that benefits may be deducted from both the value of the land taken and the remainder. In other states it is the rule that the benefits may be a setoff only to damages awarded to the remainder. n584 A more specific variant of that rule is applied by those courts holding the offsets based on benefits to the remainder may be set off only against damages to the remainder. n585 A few states permit both special and general benefits from a partial taking to be set off against the value of the land taken as well as to the remainder. n586 If the land eventually to be taken is enhanced in value merely by the proposition of a taking, the condemnor is not required to pay that enhancement value as part of the condemnation award. n587 Likewise, a lowering of value because of imminent condemnation is not the proper value for the condemned land. n588

Courts vary considerably in the extent to which they entitle a condemnor to have set off against the award special benefits arising to other land of the condemnee from the new public use. n589 It has been held that, to be deductible, the benefits must be reasonably certain, n590 and must be special to the particular property. n591 Under this latter rule, benefits cannot be set off against damages to remaining land if the benefits accrue to all the property in the area, whether or not abutting on the improvement. n592 Because the test for the amount of the award is reduction in market value, there is no separate rule for consequential injuries and thus no setoff for consequential injuries. n593

Hatcher, 18 S.E.2d 207 (N.C. 1942). Donaldson v. Bismarck, 3 N.W.2d 808 (N.D.1942); Symonds v. Cincinnati, 14 Ohio 147 (1846); Bragg v. Yeargin, 238 S.W. 78 (Tenn. 1922); Southern R.R. v. Memphis, 148 S.E. 662 (Tenn. 1912); State v. Hale, 146 S.W.2d 731 (Tex. 1941); Parks v. Wisconsin Cent. R.R., 33 Wis. 413 (1873). No damages in condemnation for loss of view. *Earl v. Arkansas State Hwy. Comm'n, 405 S.W.2d 931 (Ark 1966); State by Mondale v. Gannons, Inc., 145 N.W.2d 321 (Minn. 1966),* but treated as an element of damages in determining value of property remaining. *State ex rel. Dep't of Hwys. v. Singletary, 185 So. 2d 642 (La. App. 1966); State ex rel. Dep't of Hwys. v. Allison, 372 P.2d 850 (Okla. 1962).* To receive damages in condemnation the landowner must show that the injury is special and peculiar to his real estate and not some inconvenience suffered by the public generally. *Young v. State, 246 N.E. 377 (Ind. 1969).* The extent of the damages is the use to which the condemnor acquires the right, not merely that which he intends. *Henderson v. Iowa State Hwy. Comm'n, 151 N.W.2d 473 (Iowa 1967).* Traffic noise is a proper element for consideration in determining consequential damages in a partial condemnation of land if the noise element cannot be separated from other factors reducing the market value of the remaining property. *Dennison v. State, 239 N.E.2d 708 (N.Y. 1968). See* W. Reeves Lewis, Sr. *The Phantom of Federal Liability for Pollution Abatement in Condemnation Action, 17 Mercer L. Rev. 364 (1966);* Note, *Judicial Review of Displacee Relocation in Federal Urban Renewal Projects: A New Approach?* 3 Va. U. L. Rev. 258 (1969).

(n5)Footnote 446. *Property Owners Imp. Dist., No. 247 of Pulaski County v. Williford, 843 S.W.2d 862 (Ark. App. 1992).* True test is value of land to the condemnee, not the condemnor. *Greystone Heights Redev. Corp. v. Nicholas Inv. Co., Inc., 500 S.W.2d 292 (Mo. App. 1973).* It is the owners's loss not the taker's gain which is the measure of compensation in eminent domain. *State Hwy. Dep't v. Thomas, 154 S.E.2d 812 (Ga. App. 1967); Mathis v. State Dep't of Roads, 135 N.W.2d 17 (Neb. 1965).* Compensation for land taken must rest on its loss to the landowner, not its benefit to the condemnor. *State v. Howald, 315 S.W.2d 786 (Mo. 1958).* Value to owner as basis for condemnation. *Housing Auth. of Savannah v. Savannah Iron & Wire Works, 87 S.E.2d 671 (Ga. App. 1955).* The value of the property to the condemnor or its need is not an element of damages. Value is what owner lost not what condemnor gained. *St. Agnes Cemetery v. State, 143 N.E.2d 377 (N.Y. 1957).*

(n6)Footnote 447. *Humphrey v. Strom, 493 N.W.2d 554 (Minn. 1992).* Damages for lost profits, goodwill or income are too speculative to be considered. *Miller v. Campbell County, 854 P.2d 71 (Wyo. 1993).* Proper measure of compensation is fair market value of property taken and personal loss; particularly recovery for emotional distress is not allowed. *Gissel v. Kenmore Twp., 512 N.W.2d 470 (N.D.1994).* Landowners' compensation for damages incurred included substantial impairment of established access. *In re Platte Valley Pub. Power & Irr. Dist. 289 N.W. 383 (Neb. 1939).* In Michigan the condemnor who discontinues proceedings must pay expenses and reasonable attorney's fees. *Kent County v. Ryan, 118 N.W.2d 824 (Mich. 1962).* Consequential damage is a diminution of the market value of the remaining property after the taking. *Weeks v. DeKalb Co., 230 S.E.2d 79 (Ga. App. 1976).*

(n7)Footnote 448. *Azul Pacifico, Inc. v. City of Los Angeles, 740 F. Supp. 772 (C.D. Cal. 1990); Matter of County of Clinton, 612 N.Y.S.2d 496 (1994); United States v. Chandler-Dunbar Water Power Co., 229 U.S. 53 (1913).* Where Indian lands are taken by eminent domain, the court must consider, in addition to fair market value, the fact that the lands were exempt from taxation. *United States v. Certain Parcels of Land, 327 F. Supp 181 (W.D.N.Y. 1970).* Value to owner as basis for condemnation. *Housing Auth. of Savannah v. Savannah Iron & Wire Works, 87 S.E.2d 671 (Ga. App. 1955).* It is the owner's loss not the taker's gain which is a measure of compensation in eminent domain. *Mathis v. State Dep't of Roads, 135 N.W.2d 17 (Neb. 1965).* Compensation for land taken must rest on its loss to the landowner, not its benefit to the condemnor. *State v. Howald, 315 S.W.2d 786 (Mo. 1958).* Loss of view is compensable. *State ex rel. State Hwy. Comm'n v. Hesselden Inv. Co., 504 P.2d 634 (N.M. 1972).* No liability to condemnor because of delay in perfecting the taking. There is no recovery for manifestation of intent to condemn on theory of de facto taking. *City of Buffalo v. J.W. Clement Co., 269 N.E.2d 895 (N.Y. 1971).* Restricting the "cost to cure" formula to temporary damage.

San Antonio River Auth. v. Hunt, 405 S.W.2d 700 (Tex. App. 1966). See Bernard R. Adams, *Eminent Domain, Police Power and Urban Renewal: Compensation for Interim Depreciation in Land Values, 7 Ga. L. Rev. 226 (1973).*

(n8)Footnote 449. *City of Blue Springs v. Central Dev. Ass'n, 831 S.W.2d 655 (Mo. Ct. App. 1992).* Evidence of damages and its effect on future sales was too speculative and remote to be considered. *Fonticello Mineral Springs Co. v. Richmond, 137 S.E. 458 (Va. 1927).* Loss of business is not a proper element in eminent domain. Loss of a liquor license as the result of condemnation is not compensable. *Restaurants, Inc. v. City of Wilmington, 274 A.2d 137 (Del. 1971).* Loss of profits caused by reduction in traffic flow, standing alone, is not subject to compensation in eminent domain. *Weldon v. State 279 N.E.2d 554 (Ind. 1972).* If the value of the business operated on a leasehold being condemned and the value of the leasehold itself cannot readily be separated, good will can be taken as an element. *In re Larned-Bates Rehab. Project, 202 N.W.2d 816 (Mich. App. 1972).* Overflow caused by storm sewer construction was compensable as damage to remainder of property. *Department of Transp. v. Jones, 358 N.E.2d 402 (Ill. App. 1976).* Loss of profits is compensable if not too remote and speculative. *Venable v. State Hwy. Dep't 227 S.E.2d 509 (Ga. App. 1976).* Public fear of pipeline explosion is an element of value to adjacent land. *Louisiana Interstate Gas Corp. v. Broussard, 336 So. 2d 1049 (La. App. 1976).*

(n9)Footnote 450. *Locklin v. City of Lafayette, 867 P.2d 724 (Cal. 1994); Texas v. Schmidt, 805 S.W.2d 25 (Tex. App. 1991); Hope v. United States, 23 Cl. Ct 776 (1991).* Damages for inverse condemnation are measured as of the date on which notice of the action was served on the state rather than on the date the state entered and took possession of the property. *State Hwy. Comm'n v. Blackiston Land Co., Inc., 301 N.W.2d 663 (Ind. App. 1973).* Severance damages are not allowable because an assessment lien will be placed on the remaining property to finance the improvement for which the land is taken. *City of Baldwin Park v. Stoskus, 503 P.2d 1333 (Cal. 1972).* License not compensable in a condemnation proceeding. *Belmont County Water Dist. v. State, 135 Cal. Rptr. 163 (Cal. App. 1976).* Contra *Costa Water Dist. v. Vaquero Farms, 68 Cal. Rptr. 2d 272 (Cal. App. 1997)* (holding "when a condemnation action severs the land by taking only a part of it, the owner may be entitled to an additional sum as compensation for the economic effect of the condemnation on the value of the remaining property").

(n10)Footnote 451. *Sintra, Inc. v. City of Seattle, 935 P.2d 555 (Wash. 1997)* (holding the determination of compensation "must be guided by equitable principles and the measures of such compensation will vary with the facts"); *McDonald's v. State Hwy. Comm'n of Miss., 592 So. 2d 927 (Miss. 1991); Glendale Redev. Agency v. Parks, 23 Cal. Rptr. 2d 14 (1993); State Plant Bd. v. Smith, 110 So. 2d 401 (Fla. 1959).*

No. 1, 148 So. 2d 663 (Miss. 1963); State ex rel. State Hwy. Comm'n v. Warner, 361 S.W.2d 159 (Mo. Ct. App. 1962); State Dep't of Roads v. Mahloch, 116 N.W.2d 305 (Neb. 1962); State ex. rel. Comm'r of Transp. v. Shein, 662 A.2d 1020 (N.J. App. 1995)* (fair market value means a willing buyer and a willing seller); *City of Cleveland*

v. Carcione, 190 N.E.2d 52 (Ohio App. 1963); State Hwy. Comm'n v. Anderson, 381 P.2d 707 (Or. 1963); contra Garner v. Gwinnett County, 125 S.E.2d 563 (Ga. App. 1962). Market value, not the "substituted site," is the proper eminent domain theory. *South Dakota Game, Fish & Parks Dep't v. United States, 329 F.2d 665, cert. denied, 379 U.S. 900 (1964).* Fair market value means a willing buyer and a willing seller. *United States v. 147.47 Acres of Land, 352 F. Supp. 1055 (M.D.Pa. 1972).* Fair cash market value in eminent domain. *Department of Pub. Works & Bldgs. ex rel. People v. Hufeld, 215 N.E.2d 312 (Ill. App. 1966).* Willing buyer vs. willing seller determines fair market value for eminent domain. *Department of Pub. Works & Bldgs. v. Oberlaender, 247 N.E.2d 888 (Ill. 1969).* Value of property at forced sale is not fair market value for purposes of eminent domain. *Masheter v. Brewer, 318 N.E.2d 849 (Ohio 1974).* Market value may not be based solely on capitalization of income expected to be realized from newly constructed buildings. *Arlen of Nanuet, Inc. v. State, 258 N.E.2d 890 (N.Y. 1970).*

(n22)Footnote 463. *Landau, Inc. Co. v. City of Overland Park, 261 Kan. 394, 930 P.2d 1065 (Kan. 1997)* (providing "the landowner shall have a right to have a fair appraisal by fair and impartial commissioners who are possessed of all the facts necessary to determine what just and full compensation for the landowners shall be under the circumstances"); *Granite Valley Hotel L.P. v. Jackpot Junction Bingo & Casino, 559 N.W.2d 135 (Minn. App. 1997)* (providing "just compensation can be determined by pretrial agreement or either side can demand a right to a jury trial and the appellate process on what is fair compensation"); *Sheldon v. United States, 34 Fed. Cl. 355 (Fed. Cl. 1995)* (market value not an absolute test); *United States v. Cors, 337 U.S. 325 (1949); Kimball Laundry Co. v. United States, 338 U.S. 1 (1949).* The market value is not an absolute test. United States v. 45,131.44 Acres of Land, 483 F.2d (19th Cir. 1973). Burden of determining value of fixture taken in condemnation is on the lessor. *United States v. Certain Land in Manhattan, 357 F. Supp. 1382 (S.D.N.Y. 1972).* Concerning valuation in condemnation, Pennsylvania holds strictly to the "before and after" rule. *Dyer v. Commonwealth, 152 A.2d 760 (Pa. 1959). See* Donald E. Wintrode, *Determination of Just Compensation in Eminent Domain Proceedings for Land Subjected to Illegal Uses or Conditions, 38 Notre Dame Law 196 (1963);* Keith Miller, *Land Condemnation -- Federal Income Tax Consequences, 38 Neb. L. Rev. 507 (1958). State Dep't of Transportation and Development v. Latiolais, 690 So. 2d 66 (La. App. 1996)* (the value of a bulk fuel facility located within the city limits was required to be based on the cost of constructing a new facility within the city limits).

(n23)Footnote 464. *Richardson v. City & County of Honolulu, 124 F.3d 1150 (9th Cir. 1997)* (holding "just compensation is the full monetary equivalent of the property taken"); *Community Redev. Agency of Hawthorne v. Force Elecs., 64 Cal. Rptr. 2d 209 (Cal. App. 1997)* (holding "the just compensation to which the owner is constitutionally entitled is the full and perfect equivalent of the property taken. This means substantially that the owner shall be put in as good position pecuniarily as he would have been if his property had not been taken."); *United States v. 50 Acres of Land, 469 U.S. 24 (1984); Kinter v. United States, 156 F.2d 5 (3d Cir. 1946); United States ex rel T.V.A. v. Powelson, 319 U.S. 266 (1943); Mississippi State Hwy. Comm'n v. Gilich, 609 So. 2d 367 (Miss. 1992)* (historical, architectural or aesthetic aspects not to be considered unless they enhance market value of house); *State v. Resolution Trust Corp., 827 S.W.2d 106 (Tex. App. 1992)* (unaccepted offer represents opinion of offeror and is not conclusive as to for market value). Historical and architectural aspects of house were not items of value unless they enhanced its market value as a residence. *City of Mechanicsville v. Fort, 349 N.Y.S.2d 215 (N.Y. App. Div. 1973).*

Landowner entitled to compensation on basis of most advantageous use to which the land can be put. *City of Orangeburg v. Buford, 87 S.E.2d 822 (S.C. 1955).* Unaccepted offer to purchase land merely represents the opinion of the offeror and is not evidence of the value in a condemnation action. *Hans v. Gulf, Colo. & Santa Fe Ry., 320 S.W.2d 333 (Tex. 1959).*

(n24)Footnote 465. *Bass Enterprises Production Co. v. United States, 133 F.3d 893 (Fed. Cir. 1998)* (just compensation should put the property owner in as good a position economically as the owner would have been if the taking had never occurred); *Fulton County v. Funk, 463 S.E.2d 883 (Ga. 1995)* (owners' loss, not takers' gain is to be considered); *State v. 3M Nat'l Adver. Co., 653 A.2d 1092 (N.H. 1995)* (special benefits may be offset against damages); *Brooklyn E. Dist. Terminal v. New York, 139 F.2d 1007 (2d Cir. 1944), cert. denied, 322 U.S. 747 (1944).* True test is

value of land to the condemnee, not the condemnor. *Greystone Heights Redev. Corp. v. Nicholas Inv. Co., 500 S.W.2d 292 (Mo. App. 1973).* Special benefits may be offset against damages, even those directly attributable to the value of the land taken. *Smith v. City of Greenville, 92 S.E.2d 639 (S.C. 1956).*

Hillman, 198 So. 565 (Miss. 1940).* Before and after taking rule in partial taking. *Arkansas State Hwy. Comm'n v. Ptak, 364 S.W.2d 794 (Ark. 1963). Hunter Press, Inc. v. Ives, 183 A.2d 842 (Conn. 1962)* (cost of moving presses and other equipment should be considered); *Department of Pub. Works & Bldgs. v. Divit, 182 N.E.2d 749 (Ill. 1962)* (replacement value is an element); *Comstock v. Iowa State Hwy. Comm'n, 121 N.W.2d 205 (Iowa 1963); Commonwealth Dep't of Hwys. v. Tyree, 365 S.W. 472 (Ky. 1963); City of Baltimore v. State Roads Comm'n, 192 A.2d 271 (Md. 1963); State by Lord v. North Star Concrete Co., 122 N.W.2d 118 (Minn. 1963); Connor v. State Dep't of Roads, 120 N.W.2d 916 (Neb. 1963).* Where there has been a partial taking the owner is entitled to the difference between the market value of the remainder after the taking. *Schwartz v. City of New London, 120 A.2d 84 (Conn. 1955);* Boldt v. State, 230 N.Y.S.2d (N.Y. Ct. Cl. 1962). Or as otherwise stated the market value of the land taken plus the diminution in value of the remainder. *Valentino v. Commonwealth, 108 N.W.2d 556 (Mass. 1952).* If part not taken is injured, owner is entitled to difference in value before and after taking. *Department of Pub. Works & Bldgs. v. Crumbaugh, 274 N.W.2d 161 (Ill. App. 1971); Orleans Parish Sch. v. Montegut, Inc., 255 So. 2d 613 (La. App. 1971).* Strict "before and after" rule in damages on condemnation. *Brown v. Commonwealth, 159 A.2d 881 (Pa. 1960).* Granting of an aviation easement over the appellant's land limited damage to the difference between the value of the property before and after the easement rather than a taking of the fee. *Minkowitz v. City of West Memphis, 406 S.W.2d 887 (Ark. 1966).* Concerning valuation in condemnation, Pennsylvania holds strictly to the "before and after" rule. *Dyer v. Commonwealth, 152 S.2d 760 (Pa. 1959).* Where only part of a tract is taken damage to the balance is measured on the before and after rule. *Sanderson Farms, Inc. v. State Hwy. Comm'n, 324 So. 2d 243 (Miss. 1975).*

(n30)Footnote 471. *Walkenhorst v. State, Dep't of Roads, 573 N.W.2d 474 (Neb. 1998)* (when trees are planted for a special purpose (windbreaks, shade, aesthetics) the proper measure of the value of condemned land is the difference in value of the land before and after the removal of the trees; any evidence of this nature that is presented to the court must be relevant to a determination of the fair market value of the land); *In re Condemnation by Com., Dep't of Transp., 709 A.2d 939 (Pa. Cmwlth. 1998);* (the proper measure of just compensation is effected through a comparison of the fair market value of the property immediately before and immediately after the taking); *Danamere Farms, Inc. v. Iowa DOT, 567 N.W.2d 231 (Iowa 1997)* (holding "the ordinary measure of compensation in eminent domain cases involving a partial taking is the difference between the fair market value of the condemnee's property immediately before the taking and the value of the property that remains following the taking"); *County of Anoka v. Blaine Bldg. Corp., 566 N.W.2d 331 (Minn. 1997)* (defining the "before and after rule" as "the difference in market value of the land before the taking and the market value of the remaining land after the taking"); *Lantis v. Omaha, 467 N.W.2d 649 (Neb. 1991)* (fair market value of the remainder of the land before and after the taking is proper measure of damages); *United States v.*

Banisadr Bldg. Joint Venture, 65 F.3d 374 (4th Cir. 1995) (just compensation is the difference between the fair and reasonable market value of the land immediately before the taking and the fair and reasonable market value of portion that remains after the taking); *St. Clair County v. Bukacek, 131 So. 2d 683 (Ala. 1961).* Depreciation suffered in common by all land in vicinity of highway is not comparable. *Department of Pub. Works & Bldgs. v. Horejs, 223 N.E.2d 207 (Ill. App. 1976).* For severance damages to be awarded there must be a unity of title, use and contiguity. *State v. Church of Nazarene, 354 N.E.2d 320 (Ind. App. 1976).*

(n31)Footnote 472. *Trustees of Wade Baptist Church v. Mississippi State Hwy. Comm'n, 469 So. 2d 1241 (Miss. 1985)* ("Value," used in eminent domain proceedings, refers to appraisal and economic concept of fair market value). Fair market value in eminent domain. *Department of Pub. Works & Bldgs. ex rel. People v. Hufeld, 215 N.E.2d 312 (Ill. App. Ct. 1966).* Measure of damages in eminent domain is diminution of market value by reason of taking. *Western Slope Gas Co. v. Lake Eldora Corp., 512 P.2d 641 (Colo. App. 1973).* Market value as of time of taking is the test. *City of Medina v. Cook, 418 P.2d 1020 (Wash. 1966).* Market value not the "substituted site" is the proper eminent domain theory. *United States v. South Dakota Game, Fish & Parks Dep't, 329 F.2d 665 (8th Cir. 1964), cert. denied, 379 U.S. 900 (1964);* George S. Mickelson, S.D.L. Rev. 1965 (1965). Test in eminent domain is market value at time of taking. *Kinney v. Commonwealth, 126 N.E.2d 365 (Mass. 1955); Tigar v. Mystic River Bridge Authority, 109 N.E.2d 148 (Mass. 1952).* The fair market value is a proper test in condemnation regardless of whether the property is actually being used for its highest possible use. *Suffolk County v. Firester, 339 N.E.2d 154 (N.Y. 1975).*

(n32)Footnote 473. *Frazee v. C.I.R., 98 T.C. 554 (T.C. 1992)* (The fair market value of property is not affected by whether the owner has actually put the property to its highest and best use, nor whether the owner ever intends to do so). *But see Robinson v. Town of Westport, 610 A.2d 611 (Conn. 1992)* (The "highest and best use" concept, chiefly employed as a starting point in estimating the value of real estate by appraisers, has to do with the use which will most likely produce the highest market value). The market value is not an absolute test. *United States v. 45,131.44 Acres of Land, 483 F.2d 569 (10th Cir. 1973). Davidson County Bd. of Educ. v. First Am. Nat'l Bank, 301 S.W.2d 905 (Tenn. 1957).* Market value is the true test. *Speir v. United States, 485 F.2d 643 (Ct. Cl. 1973); State ex rel. Dep't of Hwys. v. Entre Nous, Inc., 283 So. 2d 291 (La. State, 388 N.Y.S.2d 749 (App. Div. 1976).*

(n36)Footnote 477. *Los Angeles County Metro. Transp. Auth. v. Continental Dev. Corp., 48 Cal. Rptr. 2d 466 (Cal. App. 1995); Taub v. City of Deer Park, 912 S.W.2d 395 (Tex. App. 1995); North Carolina State Hwy. Comm'n v. Black, 79 S.E.2d 778 (N.C. 1954).* Consequential benefits in excess of consequential damages cannot be set off against

value of condemned part. *Fulton County v. Bailey, 130 S.E.2d 800 (Ga. App. 1963).* Detriment to the "looks" of the property is not a proper element of damages in condemning an electric power easement. *Kamo Elec. Coop. v. Brooks, 337 S.W.2d 444 (Mo. App. 1960).* Condemnor need not plead benefits to condemnee to be entitled to set off. *State Hwy. Comm'n v. Bailey, 319 P.2d 906 (Or. 1957).*

(n37)Footnote 478. *In re Condemnation of Private Property, 536 N.W.2d 598 (Mich. App. 1995)* (Purpose of just compensation for private property taken for public use is to put property owner in as good a position as the owner would have been had taking not occurred); *L.U. Sheep Co. v. Board of County Comm'rs, 790 P.2d 663 (Wyo. 1990)* (Landowner should be compensated for all losses that can be established as attributable to taking); *Town of Winchester v. Cox, 26 A.2d 592 (Conn. 1942).* The measure of compensation is a sum of money that is the equivalent of the value of the property, which means such a sum as the property would sell for cash under ordinary circumstances, assuming that the owner is willing to sell and the purchaser is willing to buy. *City of Chicago v. Cunnea, 160 N.E. 559 (Ill. 1928)* (just compensation means the payment of such sum of money as will make the owner whole, so that on the receipt of the compensation the owner will not be poorer by reason of the property being taken). If the land has an enhanced value by reason of the minerals it contains or by reason of the use or uses for which it may be adopted, but to which it has not been put, the owner is entitled to the market value as so increased. *Alberson Cemetery Ass'n v. Fuhrer, 137 N.E. 545 (Ind. 1923).* The measure of damages is the difference between the value of the land before and immediately after the appropriation. *Wood v. Syracuse School Dist., 193 P. 1049 (Kan. 1920). Compare Schuler v. Wilson, 153 N.E. 737 (Ill. 1926)* (depreciation in value of property resulting from location of school playground on adjoining land). In the absence of a constitutional provision or statute providing for compensation in case of damage to property by reason of use by the public of abutting property, the common-law rule against the recovery of consequential damage when no part is taken prevails. *Barrett v. Union Bridge Co., 245 P. 308 (Or. 1926).* Cost of removal of personal property from realty taken in eminent domain is compensable. *General Ice Cream Corp. v. State, 99 N.Y.S.2d 312 (Ct. Cl. 1950);* Colorado M. Ry. v. Brown, 26 P.87 (Colo. 1890); *Harvey Textile Co. v. Hill, 67 A.2d 851 (Conn. 1949); Chicago, M. & St. P. Ry. v. Hock, 9 N.E. 205 (Ill. 1886); New York, N.H. & N.R. Ry. v. Blackstone, 69 N.E. 315 (Mass. 1904).* Evidence of gross income is improper. *Commonwealth Dep't of Hwys. v. Smith, 358 S.W.2d 487 (Ky. 1962).*

(n38)Footnote 479. *Mississippi Transp. Comm'n v. Bridgforth, 709 So.2d 430 (Miss. 1998)* (When determining the value of land for condemnation purposes, the appraising authority should take into consideration the highest and best use to which the land can be reasonably put. This does not necessarily have to be the current use of the land, but there must be reason to believe that such a use could be made of the land either at the present time or in the near future); *City of New Orleans v. McKendrick, 485 So. 2d 653 (La. App. 1986)* (consider highest and best use of property, rather than only present value of property, in determining value of homeowner's property); *Ford Motor Co. v. Edison Twp., 10 N.J. Tax 153 (N.J. Tax Ct. 1988)* (potential, but likely use is considered). Reasonable probability of rezoning is a factor to be considered in valuing land for eminent domain. *Masheter v. Kebe, 295 N.E.2d 429 (Ohio App. 1973).* "Highest and best use" must not be in the too distant future. *Dixie Elec. Membership Corp v. Riddle, 277 So. 2d 476 (La. App. 1973).* Value of condemned land at its total future permissive use immediately before and after expropriation. *Parish of E. Baton Rouge v. S & H. Heating Co., 216 So. 2d 360 (La. App. 1968).* In determining the value of the property for future use the court may take into account the prospective future use where there is a reasonable probability of a change in a zoning ordinance. *State Roads Comm'n v. Warriner, 128 A.2d 248 (Md. 1957); People ex rel. Dep't of Public Works v. Dunn, 297 P.2d 964 (Cal. 1956); Hall v. City of West Des Moines, 62 N.W.2d 734 (Iowa 1954);* In re Armory Site in *Kansas City, 282 S.W.2d 464 (Mo. 1955). Contra Euclid v. Lakeshore Co., 133 N.E.2d 372 (Ohio App. 1956), cert. denied, 352 U.S. 1025 (1957).* A "conjunctive use" of the parcel taken would give rise to the value at the most profitable use in connection with other land, but only if the proposed conjunctive use was reasonably probable at the time of the taking. *County of Hawaii v. Sotomura, 517 P.2d 57 (Haw. 1973), cert. denied, 419 U.S. 372 (1974).* An increase in market value attributable to a change in the highest and best use of the property is a deductible benefit. *State ex rel. State Hwy. Comm'n v. Bailey, 319 P.2d 906 (Or. 1957).* Evidence of intent to subdivide farm was admissible. *Commonwealth Dep't of Hwys. v. Vincent, 357 S.W.2d 678 (Ky. 1962).* Permitting evidence in eminent domain of possible future use. *Iske v. Metropolitan Utils. Dist., 157 N.W.2d 887 (Neb. 1968).* Proof of highest and best use of condemned property only requires a showing that the property is physically adaptable to that use and that there is need

for that use in the area as shown in the properties market at the time of condemnation. *In re Legislative Route 1094, 352 A.2d 244 (Pa. 1976).* Property owner given compensation based on possible increase in value because of pending zoning change. *Palazzi v. State, 319 A.2d 658 (R.I. 1974).* Evidence of potential uses for which the property may readily be converted is admissible. *United States v. 158.24 Acres of Land, 515 F.2d 230 (5th Cir. 1975).*

(n39)Footnote 480. *West Jefferson Levee Dist. v. Coast Quality Constr. Corp., 640 So. 2d 1258 (La. 1994)* (where such uses are not speculative, remote or contrary to law, may be considered as part of damages), *cert. denied, Bayou Des Familles Dev. Corp. v. West Jefferson Levee Dist., 115 S. Ct. 736 (1995); State by Comm'r of Transp. v. Caoili, 639 A.2d 275 (N.J. 1994)* (Reasonable probability of a zoning change occurring to allow for that higher use). The fact that zoning or other regulations limit the use of the land does not prevent a showing that it is better suited to other uses which increase its valuation. *Swift & Co. v. Housing Auth. of Plant City, 106 So. 2d 616 (Fla. Dist. App. 1958).* Impending zoning regulations may be considered in fixing market value. *Civils v. Fulton County, 134 S.E.2d 453 (Ga. App. 1963).*

(n40)Footnote 481. *United States v. 2,175.86 Acres of Land, 687 F. Supp. 1079 (E.D.Tex. 1988); West Jefferson Levee Dist. v. Coast Quality Const. Corp., 640 So. 2d 1258 (La. 1994)* (where such uses are not speculative, remote or contrary to law, may be considered as part of damages), *cert. denied, Bayou Des Familles Dev. Corp. v. West Jefferson Levee Dist., 115 S. Ct. 736 (1995).* Where subdivision has progressed to the point of lots being ready for sale to the public, the owner, on condemnation, is entitled to value as lots, not merely as raw land. *United States v. 147.47 Acres of Land, 352 F. Supp. 1055 (M.D.Pa. 1972).*

(n41)Footnote 482. *Bellevue Plaza, Inc. v. City of Bellevue, 851 P.2d 662 (Wash. 1993); United States v. Consolidated Mayflower Mines, Inc., 60 F.3d 1470 (10th Cir. 1995).* Market value, not income potential is the true test, future income being too speculative. *In re Appropriation of Easements for Hwy. Purposes, 190 N.E.2d 446 (Ohio 1963).* Availability for future use is not an element unless it affects its present market value. *Carolina Power & Light v. Clark, 91 S.E.2d 569 (N.C. 1956).*

(n42)Footnote 483. *West Jefferson Levee Dist. v. Coast Quality Const. Corp., 640 So. 2d 1258 (La. 1994)* (where such uses are not speculative, remote or contrary to law, may be considered as part of damages), *cert. denied, Bayou Des Familles Devel. Corp. v. West Jefferson Levee Dist., 115 S. Ct. 736 (1995); State by Comm'r of Transp. v. Caoili, 639 A.2d 275 (N.J. 1994)* (reasonable probability of a zoning change occurring to allow for that higher use). Recognizing that the cost of substitute land may be used where public facilities are taken under eminent domain. *State Road Comm'n v. Board of Park Comm'rs of Huntington, 173 S.E.2d 919 (W. Va. 1970). See Just Compensation and the Public Condemnee, 75 Yale L.J. 1053 (1966).* A minority rule is *contra, Union Free Sch. Dist. No. 8 v. State, 230 N.Y.S.2d 416 (8th Cir. 1964),* permitting substitution cost under limited circumstance. *United States v. South Dakota Game, Fish & Parks Dep't, 329 F.2d 665* (8th Cir.), *cert. denied, 379 U.S. 900 (1964).*

(n43)Footnote 484. *Estate of Lloyd v. C.I.R., T.C. Memo. 1996-30,* (T.C. 1996) (The fair market value of property is not governed by whether the owner has actually put the property to its highest and best use, nor whether he or she ever intends to do so.); *Davidson County Bd. of Educ. v. First Am. Nat'l Bank, 301 S.W.2d 905 (Tenn. 1957).* Market value is the true test. *Speir v. United States, 485 F.2d 643 (Ct. Cl. 1973); State ex rel. Dep't of Hwys. v. Entre Nous, Inc., 283 So. 2d 291 (La. App. 1973); Thurow v. City of Dallas, 499 S.W.2d 347 (Tex. App. 1973).* Market value at time of actual taking of possession. *People ex rel. Dep't. of Public Works v. Simon Newman Co., 112 Cal. Rptr 298 (Cal. App. 1974);* Housing Auth. of Bridgeport v. Lustig, 90 A.2d (Conn. 1952). The fair market value is a proper test in condemnation regardless of whether the property is actually being used for its highest possible use. *Suffolk County v. Firester, 339 N.E.2d 154 (N.Y. 1975).*

(n44)Footnote 485. *Bass Enterprises Production Co. v. United States, 133 F.3d 893 (Fed. Cir. 1998)* (fair market value is the standard for determining just compensation for a permanent taking; rental value is the standard for determining just compensation for a temporary taking); *Smith v. Papio-Missouri River Natural Resources Dist., 576 N.W.2d 797 (Neb. 1998)* (fair market value is the price a piece of property would fetch on the open market when no

party is obligated to buy or sell); *Shoemaker v. United States, 147 U.S. 282 (1893); Columbia Gas Transmission Corp. v. An Exclusive Natural Gas Storage Easement, 620 N.E.2d 48 (Ohio 1993); Wray v. Parsson, 655 N.E.2d 1365 (Ohio App. 1995).* Compensation for growing crops. *Department of Water Resources v. Gianni, 105 Cal. Rptr. 248 (Cal. App. 1972).* Even though the use of the land is subject to a restriction, the compensation in eminent domain is the value of the land for commercial uses. *In re Appropriation of Easement for Hwy. Purposes, 159 N.E.2d 612 (Ohio 1959). Bill Ledford Motors v. Dep't of Transportation, 484 S.E.2d 510 (Ga. App. 1997)* (fair market rental value is the measure for value of leasehold).

(n45)Footnote 486. *Department of Transp. v. Sharpe, 445 S.E.2d 343 (Ga. App. 1994)* (peculiar value of land not considered); *Kankakee County Bd. of Review v. Property Tax Appeal Bd., 544 N.E.2d 762 (Ill. 1989)* (actual rents received are element to be considered); *Olson v. United States, 292 U.S. 246 (1934)* (set as "the highest and most profitable use for which the property is adaptable and needed or likely to be needed in the near future"). Evidence of intent to subdivide farm was admissible. *Commonwealth Dep't of Hwys. v. Vincent, 357 S.W.2d 678 (Ky. 1962).* Change in market value attributable to a change in the highest and best use of the property is to be considered *State ex rel. State Hwy. Comm'n v. Bailey, 319 P.2d 906 (Or. 1957).*

(n46)Footnote 487. *City of Hollister v. McCullough, 31 Cal. Rptr. 2d 415 (Cal. App. 1994); Metropolitan Water Dist. v. Adams, 107 P.2d 618 (Cal. 1945); McArthur v. State Hwy. App. 1962)* (present use for subdivision purposes is to be considered). *And see Department of Pub. Works & Bldgs. v. Barton, 19 N.E.2d 935 (Ill. 1939); Muskingum Watershed Conservancy Dist. v. Funk, 16 N.E.2d 454* (Ohio, 1938). The accessibility of public lands available for grazing leases was not an element of damages in condemnation of lands owned in fee. *United States v. Cox, 190 F.2d 293* (10th Cir.), *cert. denied, 342 U.S. 867 (1951).*

Value as a going business is compensable in eminent domain. *Priolo v. City of Dallas, 234 S.W.2d 1014 (Tex. App. 1950).* Reasonable probability that contiguous land might be incorporated into main areas of a developed and integrated plant permitted consideration of integration into the whole industrial complex for valuation purposes. *United States v. 105.40 Acres of Land, 471 F.2d 207 (7th Cir. 1972).* Impoundment of water, impairment of surface drainage, decreased value of improvements, difficulty in travel by cattle over land and increased difficulty of cultivation are elements of damage. *Arkansas Louisiana Gas Co. v. McGaughey Bros., Inc. 468 S.W.2d 754 (Ark. 1971).* Evidence of potential uses to which property may readily be converted is admissible. *United States v. 158.23 Acres of Land, 515 F.2d 230 (5th Cir. 1975).* In determining the "highest and best possible use," the possibility of zoning change may be considered. *Sayers v. City of Mobile, 165 So. 2d 371 (Ala. 1964).* Permitting evidence of possible rezoning in eminent domain action. *Department of Pub. Works & Bldgs. v. Rogers, 233 N.E.2d 409 (Ill. 1968).* Price obtained seven years and two months prior to condemnation was proper evidence as against complaint that passage of time made it inadmissible. *State v. Valley Dev. Co., 268 N.E.2d 73 (Ind. 1971).* The amount of damages in eminent domain is determined not by what condemnor intends to do but what condemnor acquires the right to do. *Henderson v. Iowa State Hwy. Comm'n, 151 N.W.2d 473 (Iowa 1967).* Best use is a proper element of damages if there is likelihood that the zoning ordinance would be amended to permit such use. *Morgan v. City of Overland Park, 483 P.2d 1079 (Kan. 1971).* "Highest and best use" must not be in the too distant future. *Dixie Elec. Membership Corp. v. Riddle, 277 So. 2d 476 (La. App. 1973).* Growing trees may not be valued separately from the property taken, and recovery for growing trees is limited to the extent to which they enhance the value of the property. *Montgomery County v. Old Farm Swim Club, Inc., 313 A.2d 458 (Md. 1974). See* Sidney Goldstein, *Economic Evidence in Right-of-Way Litigation, 50 Geo. L.J. 205 (1961).* Cost of substitute where public property taken. *State Road Comm'n v. Board of Park Comm'rs, 173 S.E.2d 919 (W. Va. 1970).*

(n53)Footnote 494. *Wheeler v. City of Pleasant Grove, 896 F.2d 1347 (11th Cir. 1990)* (accurate measure of damages had to be based on difference in fair market value of right to develop apartment complex when building permit was received and fair market value of what remained after city withdrew permit and passed ordinance forbidding construction of new apartments); *Broadway Coal Mining Co. v. Smith, 125 S.W. 157 (Ky. 1910); Tri-State Tel. & Tel. Co. v. Cosgriff, 124 N.W. 75 (N.D.1909).* The rental income from the property taken is always an important element in determining the value of property, yet that cannot be made the sole basis of calculation. *Department of Pub. Works & Bldgs. v. Diggins, 27 N.E.2d 826 (Ill. 1940).* In eminent domain, on navigable waters, the owner's right is valued subject to federal navigational servitude regardless of the purpose of federal taking. *United States v. Stoeco Homes, Inc., 498 F.3d 597 (3d Cir. 1974), cert. denied, 420 U.S. 927 (1975).* Damage to leasehold is the difference between market value during the remainder of the term less any amount to be paid to the lessee. *Peek v. Dep't of Transp., 229 S.E.2d 554 (Ga. App. 1976).*

(n54)Footnote 495. *United States v. 6.321 Acres of Land, 479 F.2d 404 (1st Cir. 1973); In re Cool, 81 B.R. 614*

(Bankr. D.Mont. 1987) (Income producing capacity of real estate is one of the most, if not the most important consideration in determining the value of real estate); *In re James Madison Houses, 234 N.Y.S.2d 799 (N.Y. App. Div. 1962).* Capitalization of income is a factor in measuring damages. *Johnson v. State, 474 S.W.2d 327 (Tex. App. 1971).* Evidence of gross income is improper. *Commonwealth Dep't of Hwys. v. Smith, 358 S.W.2d 487 (Ky. 1962).*

(n55)Footnote 496. *Rubano v. Department of Transp., 656 So. 2d 1264 (Fla. 1995)* (community has obligation to suffer inevitable inconveniences associated with public works construction without compensation); *City of Winchester v. Ring, 144 N.W. 333 (Ill. 1924); Felts v. Harris County, 915 S.W.2d 482 (Tex. 1996)* (landowners cannot recover damages from inconveniences incident to building of highway).

(n56)Footnote 497. *Oddo v. State, 912 S.W.2d 831 (Tex. App. 1995)* (damages were not for state's use of preexisting right-of-way, diversion of traffic, increased circuitry of travel, lessened visibility or inconvenience due to construction, nor were the damages community damages, since injuries affected value of remaining property uniquely); *Maloley v. City of Lexington, 536 N.W.2d 916 (Neb. App. 1995)* (Diversion of travel, inconvenience of access, and diminution of business carried on upon property, should not be considered as independent items of damage, but considered for purpose of determining market value of property before and after construction of improvement); *Chicago, R.I. & P. Ry. v. O'Neill, 78 N.W. 521 (Neb. 1899); Adirondack Power & Light Corp. v. Evans, 235 N.Y.S. 569 (N.Y. App. Div. 1929); United States v. 6.321 Acres of Land, 479 F.2d 404 (1st Cir. 1973).* Where property taken has unique value but such value exceeds the market value, intrinsic value and actual value to the owner are the proper measures and not speculations on probable market value. *Kind v. United States, 292 F. Supp. 767 (D.Colo. 1968).* Holding that one whose property was not taken by eminent domain was not subject to compensation as being specially damaged where both his own property and the property taken was subject to a restrictive covenant of use. *Arkansas State Hwy. Comm'n v. McNeill, 381 S.W.2d 425 (Ark. 1964).* Fair market value of shrubs, trees and flowers growing in nursery and cost of relocation thereof was proper evidence as to value of parcel taken and severance damage to remainder. *City of Riverside v. Kraft, 21 Cal. Rptr. 425 (Cal. App. 1962).* Loss of view, while not compensable *per se,* is an element of damages. *State ex rel Dep't of Hwys. v. Singletary, 185 So. 2d 642 (La. App. 1966).* Changes in value due to enactment of eminent domain statutes or the filing of the petition for condemnation prior to actual taking are no more than incidents of ownership. Values determined and interest begins to run when there is an entry and possession. *Town of Swampscott v. Remis, 215 N.W.2d 777 (Mass. 1966);* this is also the federal rule. *Bauman v. Ross, 167 U.S. 548 (1897).* A reasonable possibility that a zoning classification might be changed may be considered in testimony as to valuation on condemnation. *In re Mackie's Petition, 127 N.W.2d 890 (Mich. 1964).* Missouri courts have disagreed whether the unsightliness of power transmission lines in the appurtenances is an element of damage to be awarded when there is a condemnation for a power line easement over farm land. *Kamo Elec. Coop, Inc. v. Cushard, 416 S.W.2d 646 (Mo. App. 1967)* (affirmative); *Kamo Elec. Coop v. Brooks, 337 S.W.2d 444 (Mo. App. 1960)* (negative). Under the leading rule, the valuation time is the date of the actual taking. *State ex rel. State Hwy. Comm'n v. Jones, 142 A.2d 232 (N.J. 1958).* General as well as special benefits may be set off against severance damages by eminent domain. *State ex rel. State Hwy. Comm'r v. Atchison, T. & S. F. R.R., 417 P.2d 68 (N. M. 1966).* Market value may not be based solely on capitalization from newly constructed buildings. *Arlen of Nanuet, Inc. v. State, 258 N.W.2d 890 (N.Y. 1970).* On the question of just valuation for compensation,*see* the discussion in *Wilmot v. State, 297 N.W.2d 90 (N.Y. 1973).* Market value, not income potential is the true test, future income being too speculative. *In re Appropriation of Easements for Hwy. Purposes, 190 N.E.2d 446 (Ohio 1963).* Fear is an element of damages in eminent domain. *Heddin v. Delhi Gas Pipeline Co., 522 S.W.2d 886 (Tex. 1975). See* Gardner Cromwell, *Some Elements of Damage in Condemnation, 43 Iowa L. Rev. 738 (1958);* Ralph E. Boyer & John P. Wilcox, *Economic Appraisal of Leasehold Valuation in Condemnation Proceedings, 17 U. Miami L. Rev. 245 (1963).* Under one rule, compensation is required where separate ascertainment of damages is impossible. *Andrews v. Cox, 29 A.2d 587 (Conn. 1942).*

(n57)Footnote 498. *Walkenhorst v. State, Dep't of Roads, 573 N.W.2d 474 (Neb. 1998)* (the landowner in an eminent domain action is entitled to receive the fair market value of the property being taken and any decrease in fair market value which results from the taking); *United States v. 99.66 Acres of Land, 970 F.2d 651 (9th Cir. 1992); United States v. 27.7 Acres of Land, 214 F. Supp. 707 (W.D.Ark. 1963)* (severance damages); *Thompson v. City of Mobile, 199*

So. 862 (Ala. 1941); State Life Ins. Co. v. Arkansas State Hwy. Comm'n, 148 S.W.2d 671 (Ark. 1941); People ex rel. Dep't of Public Works v. Hayward Bldg. Materials Co., 28 Cal. Rptr. 782 (Cal App. 1963) (severance damages); *Andrews v. Cox, 17 A.2d 507 (Conn. 1941); City of Detroit v. Grigg Hanna Lumber & Box Co., 296 N.W. 310 (Mich. 1941); In re Town Ditch No. 1, 295 N.W. 47 (Minn. 1940); Mississippi State Hwy. Comm'n v. Colonial Inn, Inc., 149 So. 2d 851 (Miss. 1963)* (severance damages) (severance damages are properly allowable in a condemnation action); *Arkansas State Hwy. Comm'n v. Union Planters Nat'l Bank, 333 S.W.2d 904 (Ark. 1960)* (overflow caused by storm sewer construction was compensable as damage to remainder of property); *Department of Transp. v. Jones, 358 N.E.2d 402 (Ill. App. 1976).*

(n58)Footnote 499. Tennessee *Gas Pipeline Co. v. 104 Acres of Land, 780 F. Supp. 82 (D.R.I. 1991); Andrews v. Cox, 17 A.2d 507 (Conn. 1941).*

(n59)Footnote 500. *United States v. Bodcaw Co., 440 U.S. 202 (1979). See* A. Chris Heinrichs, *Compensation For Partial Takings in Texas, 6 St Mary's L.J. 206* (1974-75). Where only an easement is condemned the consideration is the market value of the property before and after taking. *Denman v. Colorado Interstate Gas Co., 294 P.2d 207 (Kan. 1956).* If partial taking destroys usable value of land, corpus may be used to restore the premises. *Bradley v. Bradley, 185 So. 2d 655 (Miss. 1966).* Non-consequential damages are payable in absence of legislative authority. *In re Delaware River Bridge, 182 A.2d 514 (Pa. 1962).* Valuation for the taking of an easement is the difference between the market value of the land free of the easement and the market value of the land burdened with the easement. *United States v. 1,129.75 Acres of Land, 473 F.2d 996 (8th Cir. 1973).* Damages for taking of an easement are not equivalent to those for the taking of a fee. *Carolina Power & Light Co. v. Clark, 91 S.E.2d 569 (N.C. 1956).* Damages to part not taken are allowable whether the taking is of a fee or an easement. *State by Lord v. North Star Concrete Co., 122 N.W.2d 118 (N.C. 1971); City of Charlotte v. Charlotte Park & Recreation Comm'n, 178 S.E.2d 601 (N.C. 1971).* Holding that landowner subject to partial taking was not entitled to aesthetic damages resulting from taking of adjoining property. *Department of Hwys. v. Williams, 487 S.W.2d 290 (Ky. 1972).*

(n60)Footnote 501. *Villas of Lake Jackson, Ltd. v. County of Leon, 906 F. Supp. 1509 (N.D.Fla. 1995).* Generally, timber fixtures and improvements are to be valued together with the land as a whole. In re Civic Center in *City of Detroit, 56 N.W.2d 375 (Mich. 1953); Minneapolis-St. Paul Metro. Airports Comm'n v. Hedberg-Friedheim Co., 32 N.W.2d 569 (Minn. 1948); Dougherty v. Allegheny County, 88 A.2d 73 (Pa. 1952).* In Nebraska it is held that the measure of damages from land taken for public use is the fair and reasonable market value of the land actually appropriated and the difference in the fair and reasonable market value of the remainder of the land before and after taking, and that dual or speculative or excessive damages are not recoverable for consequential depreciation in the value of the land not taken. *Woodgate v. Central Neb. Pub. Power & Irr. Dist., 292 N.W. 461 (Neb. 1940); United States v. 5139.5 Acres of Land, 200 F.2d 659 (4th Cir. 1952); United States ex rel. T.V.A. v. Powelson, 319 U.S. 266,* (1943); *Hollister v. Vox, 41 A.2d 93 (Conn. 1945); State v. Platte Valley Pub. Power & Irr. Dist., 23 N.W.2d 300 (Neb. 1946); In re Dodge's Application, 103 N.Y.S.2d 517 (1951).* Where eminent domain proceedings were commenced and completed against property during a period of redemption and tax sale, the tax purchaser was only entitled to the amount necessary to redeem, not the entire award. *Delano, Inc. v. Arnold, 263 N.E.2d 830 (Ill. 1970), cert. denied, 401 U.S. 994, 91 S. Ct. 1233 (1971).* Where only an easement is condemned the consideration is the market value of the property before and after taking. *Denman v. Colorado Interstate Gas Co., 294 P.2d 207 (Kan. 1956).* No damages should be awarded for market value of property adjoining that taken. *Commonwealth Dep't of Hwys. v. Williams, Ky. 487 S.W.2d 290 (Ky. 1972).* Damages to part not taken are allowable whether the taking is of a fee or an easement. *State by Lord v. North Star Concrete Co., 122 N.W.2d 118 (Minn. 1963); City of Charlotte v. Charlotte Park & Recreation Comm'n, 178 S.E.2d 601 (N.C. 1971). See* David S. Willenzik, *The Possessor's Right to Compensation, 31 La. L. Rev. 491 (1971).* Another line of authority permits deduction from award only for land not taken. *People v. Pera, 12 Cal. Rptr. 129 (Cal. App. 1961).* Denying severance damages for lack of access where property had frontage on two roads. *Maykut v. Saugure, 370 A.2d 923 (Conn. 1976).* One who had an option to purchase only part of a tract of which a part was taken, he was not entitled to damages for eminent domain. *Department of Conservation v. Frandsen, 356 N.E.2d 1245 (Ill. App. 1976).*

(n61)Footnote 502. *Kemp Industries, Inc. v. Safety Light Corp., 857 F. Supp. 373 (D.N.J. 1994).* Likening proximity of government grazing land to riparian rights on navigable streams, compensation for loss of proximity to grazing land has been denied on condemnation. *United States v. Cox, 190 F.2d 293 (10th Cir. 1951). See Wine v. Commonwealth, 17 N.E.2d 545 (Mass. 1938), cert. denied, 342 U.S. 867 (10th Cir. 1951).* Held too remote. *People v. Ocean Shore Ry., 196 P.2d 570 (Cal. 1948).* Indirect damages allowed. *Dunlap v. Loup River Public Power Dist., 284 N.W. 742 (Neb. 1939). See* Thomas J. Dempsey, *Evidence of Prices in Pennsylvania Eminent Domain Proceedings, 63 Dick. L. Rev. 5 (1959).*

(n62)Footnote 503. *City of Lake Elsinore v. Ranel Development Co., 70 Cal. Rptr. 2d 715 (Cal. Ct. App. 1998)* (Litigation expenses should not be awarded to a landowner when there is no concrete evidence of an abuse of power by the taking authority or an unreasonable offer of compensation by the same authority); *Department of Transp. v. Woods, 494 S.E.2d 507 (Ga. 1998)* (eminent domain statute permits an award of attorney's fees when there is evidence of abuse of power, impropriety, or an intent to delay or harass); *St. Tammany Parish Hosp. Service, Dist. No. 2 v. Schneider, 707 So.2d 156 (La. Ct. App. 1998)* (landowner is not entitled to an award of attorney's fees unless it is determined that the property cannot be taken or the proceedings are abandoned by the condemning authority); *State, Dep't of Transp. v. Hall, 707 So.2d 1163 (Fla. Ct. App. 1998); In re Condemnation of Property for Highway Purposes, 576 N.W.2d 719 (Mich. Ct. App. 1998); Pierpont v. Lee County, 710 So.2d 958 (Fla. 1998); State v. Trask, 957 P.2d 781 (Wash. Ct. App. 1998); Brevard County v. Caveral Props., Inc., 696 So. 2d 1244 (Fla. App. 1997)* (holding "there is no basis for an excessive appellate attorney's award in eminent domain"); *Resolution Trust Corp. v. Town of Highland Beach, 18 F.3d 1536 (11th Cir. 1994); Wolf v. Commonwealth, 170 A.2d 557 (Pa. 1961).* Condemnee was not entitled to attorney fees. *Bowers v. Fulton County, 183 S.E.2d 347 (Ga. 1971). Department of Transportation v. Pitman, 479 S.E.2d 112 (Ga. App. 1996)* (condemnee had duty to minimize or mitigate damages). Regarding attorney fees, *see Application of New York Convention Ctr. Dev. Corp., 651 N.Y.S.2d 479 (1996)* (award of only $40,000 in attorney fees was arbitrary and an abuse of discretion); *Georgia Dep't of Transp. v. Edwards, 482 S.E.2d 260 (Ga. 1997)* (condemnor's bad faith allowed condemnee to recover attorney fees).

(n63)Footnote 504. *City of Lake Elsinore v. Ranel Development Co., 70 Cal. Rptr. 2d 715 (Cal. Ct. App. 1998)* (Litigation expenses should not be awarded to a landowner when there is no concrete evidence of an abuse of power by the taking authority or an unreasonable offer of compensation by the same authority); *Department of Transp. v. App.), *cert. denied, 409 U.S. 982, 20 (1972).* Fair market value of shrubs, trees and flowers growing in nursery and cost of relocation thereof was proper evidence as to value of parcel taken and severance damage to remainder. *City of Riverside v. Kraft, 21 Cal. Rptr. 425 (Cal. App. 1962). See* Gilbert S. Solomon, *Moving Expenses in Condemnation Proceedings, 21 U. Pitt. L. Rev. 97 (1959).* Cost of removal of personal property taken by eminent domain not compensable. *State ex rel. State Hwy. Comm'n v. Superbilt Mfg. Co., 281 P.2d 707 (Or. 1955).* Property which was affixed to realty became personalty by seeking damages for removal. *In re City of Rochester, 255 N.Y.S. 801 (N.Y. App. Div. 1932).* Cost of moving personalty not compensable. *State ex rel. State Hwy. Comm'n v. Lynch, 471 S.W.2d 261 (Mo. 1971).* But, items which would lose substantial value are compensable, though readily removable. *In re Ruppert Brewery Urban Renewal Project, 325*

N.Y.S.2d 438 (1921). Condemnation award need not include machinery. *State v. Hammer, 550 P.2d 820 (Alaska 1976);* In re Whitlock Ave. in *City of New York, 16 N.E.2d 281 (N.Y. 1938); City of Huron v. Jergeruis, 97 N.W.2d 314 (S.D.1954).* Owner entitled to compensation for cost of removing personal property. *State Road Dep't v. Thibaut, 190 So. 2d 53 (Fla. Dist. App. 1966).* Permitting damages for cost of removal of business. *Bowers v. Fulton County, 146 S.E.2d 884 (Ga. 1966).* Cost of moving property is not a separate element of damages. *Skaff v. Sioux City, 120 N.W.2d 439 (Iowa 1963).* Denying removal costs. *Port of N.Y. Auth. v. Howell, 157 A.2d 731 (N.J. 1960), aff'd, 173 A.2d 310 (N.J. Super. 1961), cert. denied, 174 A.2d 927 (N.J. 1961).* A municipality that condemns for school purposes is exercising in a public not a proprietary function, and hence is not liable to public utility for costs of removal of transmission lines. *Consolidated Edison Co. v. Lindsay, 300 N.Y.S.2d 321 (1969).* While the cost of removal of property of land condemned is not allowable as a separate element of damage, it may be taken into account in fixing the before and after value. *Dyer v. Commonwealth, 152 A.2d 760 (Pa. 1959).* The right of renewal is a factor in determining the value of a leasehold. *Almota Farmers Elevator & Warehouse Co. v. United States 409 U.S. 470 (1973).* Allowing costs of removal. *Naegle Outdoor Adver. Co. v. City of Lakeville, 532 N.W.2d 249 (Minn. App. 1995)* (statute governing billboards requires upon removal of billboards compensation only for those who have property rights). *Plastic Distribs, Inc. v. Burns, 497 A.2d 1005 (Conn. App. 1985)* (Uniform Relocation Assistance Act [C.G.S.A. §§ 8-226 to 8-282], was designed to compensate those displaced by state agency for actual and reasonable costs of relocating). A majority of the State Courts hold that, "in the absence of a statute or agreement to the contrary, the removal costs of ... personal property ... cannot be considered as an element of damage, since such loss is not a taking of property." *City of North Charleston v. Claxton, 431 S.E.2d 610 (S.C. App. 1993). State by Humphrey v. Kouri, 415 N.W.2d 412 (Minn. App. 1987); Drax Servs., Ltd v. Webb/Henne Dayton Arcade Ctr., 1994 Wl 220394 (Ohio App. 1994); Hawkins v. City of La Gerade, 843 P.2d 400 (Or. 1992);* 1 Orgel on Valuation Under the Law of Eminent Domain 306, § 69 (1953); *State v. Teasley, 1995 WL 416988 (Tenn. App. 1995); State v. Weber-Connelly, Naegele, Inc. 448 N.W.2d 380 (Minn. App. 1989).*

(n100)Footnote 541. *HHM Assocs. v. Appleton, 597 N.Y.S.2d 894 (N.Y. Sup. Ct. 1993)* (the utility company must relocate its facilities at its own expense when public necessity comes into play); Consolidated Edison Co. v. Lindsay, 300 N.Y.S.2d (1969).

(n101)Footnote 542. *Sussex Rural Elec. Coop. v. Township of Wantage, 526 A.2d 269 (N.J. App. 1987)* (where utility lines originally placed on private property are required to be relocated to accommodate a subsequently created public right of way, the utility is entitled to be compensated for its relocation costs); *City of Grand Prairie v. American Tel. & Tel. Co., 405 F.2d 1144 (5th Cir. 1969).*

(n102)Footnote 543. Holding that articles of personal property are not compensable unless they cannot be removed without material injury to themselves or to the improvements of the realty, or are so designed, constructed or specially adapted to the purpose for which the improved realty is used that they are essential accessory parts of the improved realty not capable of use elsewhere and which would substantially lose all value if removed. *Town of Montclair, Montclair Redev. Agency v. D'Andrea, 351 A.2d 397 (N.J. 1976).* Corporation's just compensation included value of any nonremovable improvements that corporation owned under terms of lease. *State v. Teller Native Corp., 904 P.2d 847 (Alaska 1995).* Right to just compensation in condemnation action includes property owner's choice regarding whether to remove movable trade fixtures and be compensated for their removal and reattachment at new location, or to leave trade fixtures behind and be compensated for their value-in-place. *In re Condemnation of Private Property, 536 N.W.2d 598 (Mich. App. 1995).* Fixtures are compensable in eminent domain proceeding only to the extent that they enhance the value of the land. *United States v. Five Parcels, 1.11195 Acres of Land, 765 F. Supp. 1283 (E.D.Mich. 1991).*

(n103)Footnote 544. *United States v. Brooklyn Union Gas Co., 168 F.2d 391 (2d Cir. 1948); Columbia Delaware Bridge Co. v. Geisse, 38 N.J.L. 39 (N.J. Super. Ct. 1875).* Where land was being condemned, court reversed lower court and refused to admit in evidence the net profit that could be made therefrom if it were devoted to market gardening. Court admitted a split of authority as to admissibility of evidence on projects on agricultural land, but said no law will admit potential profits. *State v. Cerruti, 214 P.2d 346 (Or. 1950).* To be able to use reproduction value it must be shown that reproduction would be a successful business venture. *United States v. Buhler, 305 F.2d 319 (5th Cir. 1972).*

"Income return" approach is an acceptable property valuation method. State through *Dep't of Hwys. v. Gras, 41 So. 2d 35 (La. App. 1962). Lucre Corp. v. County of Gibson, 657 N.E.2d 150 (Ind. App. 1995)* ("capitalization" is method of computation for determining property's fair market value which gives value to land in relation to income it produces). *See* Comment, *Valuing an Unprofitable Business Taken for Continuing Public Use, 68 Colum. L. Rev. 977 (1968). See also Matter of City of Albany, 523 N.Y.S.2d 652 (N.Y. App. Div. 1988)* (use of capitalization of income method for valuation of income-producing rental property was proper, absent comparable sales upon which to base market data approach). *But see In re Cool, 81 B.R. 614 (Bankr. D.Mont. 1987)* (generally, evidence of profits derived from business conducted on land is too speculative, uncertain, or remote to be considered as a basis for computing market value, since such profits depend on particularized considerations such as market conditions, skill and knowledge of operation, and managerial competency).

(n104)Footnote 545. *United States v. 561.14 Acres of Land, 206 F. Supp. 816 (W.D.Ark. 1962)* (damage to business is not a proper element); *United States v. Certain Land, 209 F. Supp. 50 (D.Md. 1962)* (frustration of business opportunity is not compensable); *DeFreitas v. Town of Suisun, 149 P. 553 (Cal. 1915); Ogden v. Pennsylvania Ry., 78 A. 929 (Pa. 1911); Kirkman v. State Hwy. Comm'n, 126 S.E.2d 107 (N.C. 1962)* (loss of profits is not an element except as it renders land less valuable for any use to which it is adopted). Frustration of future business plans is not compensable in eminent domain. *United States ex rel. T.V.A. v. T. Indus., Inc., 489 F.2d 921 (6th Cir. 1974). See* Frank A. Arthur, *Aloi & Goldberg, A Re-Examination of Value, Goodwill and Business Losses in Eminent Domain, 53 Cornell L. Rev. 604 (1968).* Business damages that are intangible do not constitute property under eminent domain. *Jamesson v. Downtown Dev. Auth., 322 So. 2d 510 (Fla. 1975); State by Comm'r of Transp. v. Copper Alloy Co., 347 A.2d 365 (N.J. App. 1975); State Dep't of Roads v. Dillon, 122 N.W.2d 223 (Neb. 1963)* (all nonspeculative elements of inconvenience, annoyance and disadvantage which influence the value of property for sale are compensable). Imposition of special assessment lien upon remaining property is not an element of damages. *City of Baldwin Park v. Stoskus, 503 P.2d 1333, 105 Cal. Rptr. 325 (Cal. 1972). Department of Transp. v. Fleming, 436 S.E.2d 407 (N.C. App. 1993)* (Generally, loss of profits from operation of business conducted on property is not element of recoverable damages in award pursuant to eminent domain taking); *Workman v. Agency of Transp., 657 A.2d 174 (Vt. 1994)* (Business losses were not compensable in condemnation action for property on which landowner had intended to construct warehouses where landowner had merely obtained permits and had graded land in preparation of construction, and landowner had been compensated for permits and grading in trial court's award; further compensation would be either duplicative or for business activity that never existed).

(n105)Footnote 546. *People ex rel. DOT v. Leslie, 55 Cal. App. 4th 918, 64 Cal. Rptr. 2d 252 (Cal. App. 1997)* (citing statute which "provides compensation for loss of goodwill in eminent domain proceedings by a whole or partial taking"). Loss of business profits is not applicable in eminent domain proceedings. *State ex rel. State Hwy. Comm'n v. Schwartz, 526 S.W.2d 952 (Mo. App. 1975).* Permitting allowance of loss of good will in a taking by eminent domain, valued with relation to business volume not to profit and loss. *Matthews v. Division of Admin. State Dep't of Transp., 324 So. 2d 664 (Fla. App. 1975).* Loss of business is not a proper element in eminent domain. Loss of a liquor license as the result of condemnation is not compensable *Restaurants, Inc. v. City of Wilmington, 274 A.2d 137 (Del. 1971).* Loss of profits caused by reduction in traffic flow, standing alone, is not subject to compensation in eminent domain. *Weldon v. State, 279 N.E.2d 554 (Ind. 1972).* If the value of the business operated on a leasehold being condemned and the value of the leasehold itself cannot readily be separated, good will can be taken as an element. *In re Learned-Bates Rehab. Project 202 N.W.2d 816 (Mich. App. 1972). United States v. Miller, 317 U.S. 369 (1943); Cullum v. Van Buren County, 267 S.W.2d 14 (Ark. 1954); Collins v. State Hwy. Comm'n, 66 P.2d 409 (Kan. 1937); Wayne Co., Inc. v. Newo, Inc., 182 A.2d 369* (lessee is not entitled to damages for loss of business good will, fixtures and cost of removal); *Board of Comm'rs v. Gardner, 260 P.2d 682 (N.M. 1953); Yancey v. North Carolina State Hwy. & Pub. Works Comm'n, 19 S.E.2d 489 (N.C. 1942);* State by and through *State Hwy. Comm'n v. Bailey, 319 P.2d 906 (Or. 1957).* Pennsylvania allows damages for business dislocation. *Mobil Oil Corp. v. Dep't of Transp., 315 A.2d 639 (Pa. 1974).* Some states permit the offset of benefits against both the value of the land actually taken and severance damages. *Commonwealth Dep't of Hwys. v. Sherrod, 367 S.W.2d 844 (Ky. 1963); Smith v. City of Greenville, 92 S.E.2d 639 (S.C. 1956);* however, in most states benefits subject to offset can only be deducted from severance damages. *State v. Meyer, 391 S.W.2d 471*

(Tex. App. 1965), aff'd, 403 S.W.2d 366 (Tex. 1966); State v. Ahaus, 63 N.E.2d 199 (Ind. 1945); City of Hayward v. Unger, 15 Cal. Rptr. 301 (Cal. App. 1961). No compensation for loss of good will of business. *Auraria Businessmen Against Confiscation, Inc. v. Denver Urban Renewal Auth., 517 P.2d 845 (Colo. 1974).* When the business is so inextricably related to the land that a taking of the lands is a taking of the business, loss of business is compensable. City of St. Louis v. Union Quarry & Constr. Co., 394 S.W.2d (Tex. App. 1968). *See* Frank A. Arthur, *Aloi & Goldberg, A Re-examination of Value, Good Will, and Business Losses in Eminent Domain, 53 Cornell L. Rev. 604 (1968).* Injury to or destruction of business taken by eminent domain is not compensable, but if land has special value owing to its adaptability of particular use, this must be considered. *Seferi v. Ives, 236 A.3d 83 (Conn. 1967), appeal dismissed, 391 U.S. 359 (1967).* Destruction of business through partial taking was compensable. *Young v. Hillsborough County, 215 So. 2d 300 (Fla. 1962). See also* William E. Williams, *Eminent Domain -- Compensation for Business Damages in Florida, 22 U. Fla. L. Rev. 163 (1969). Outdoor Graphics, Inc. v. City of Burlington, Iowa, 103 F.3d 690 (8th Cir. 1996)* (no recovery for city ordinance prohibiting billboards).

(n106)Footnote 547. *Department of Pub. Works & Bldgs. v. Bloomer, 191 N.E.2d 245 (Ill. 1963); Commonwealth Dep't of Hwys. v. Fultz, 360 S.W.2d 216 (Ky. 1962)* (loss of business is not compensable); *Commonwealth Dep't of Hwys. v. Sherrod, 367 S.W.2d 844 (Ky. 1963); Green Acres Mem'l Park, Inc. v. Mississippi State Hwy. Comm'n 153 So. 2d 286* (anticipated profits are not a proper consideration); *Cleveland Boat Serv., Inc. v. City of Cleveland, 136 N.E.2d 274 (Ohio 1956)* (injury to business and loss of profits are too speculative to be damages in eminent domain). Business losses are not compensable. *A.S. Davis Ice Co., Inc. v. United States, 362 F.2d 934 (1st Cir. 1966); United States v. 620.98 Acres of Land, 255 F. Supp. 427 (W.D.Ark. 1966); State Hwy. Comm'n v. Peters, 416 P.2d 390 (Wyo. 1966).* Profits are not an element of damages. *State v. Nelson, 296 N.E.2d 908 (Ind. App. 1973).* Loss of profits, business and good will are not compensable. *Indiana & Mich. Elec. Co. v. Whitley County Rural Elec. Membership Corp., 312 N.E.2d 503 (Ind. App. 1974).* No right to loss of profits caused by impassability of streets where widening and repairing operations were being conducted when there was no taking of realty. *Papp v. City of Hammond, 230 N.E.2d 326 (Ind. 1967).* Evidence of volume or profits on business conducted on the property is not proper in eminent domain proceedings. *City of Chicago v. Budd, 257 N.E.2d 161 (Ill. App. 1970).* But holding that loss of business value per se as separately and independently from fair market is improper. *State ex rel. Secretary of Dep't of Hwys. and Transp. v. Davis Concrete of Del., Inc., 355 A.2d 883 (Del. 1976).* Loss of business is not compensable. *Kayo Oil Co. v. State, 340 So. 2d 756 (Ala. 1976).*

CHAPTER 80 THE POWER OF EMINENT DOMAIN

9-80 Thompson on Real Property, Thomas Editions § 80.09

AUTHOR: Professor David A. Thomas J. Reuben Clark Law School Brigham Young University

§ 80.09 Parties Entitled to the Proceeds of the Condemnation Award.

[Go To Supp]

§ 80.09(a) In General.

In addition to a single owner being compensated for the entire interest in a single parcel of land, four situations face courts in determining the parties entitled to damages in a "taking": (a) where the entire parcel is taken and there are several owners; (b) where different parties own different types of interest in the parcel taken; (c) where only a partial interest is taken; and (d) where there is no physical taking but only injury to the particular property from the action. Additionally, some questions about entitlement to compensation arise even between a single condemnor and single condemnee.

LEXIS: "eminent domain" or "condemnation" w/10 award w/20 part!

§ 80.09(b) When a Single Condemnee's Entitlement is Questioned.

As a matter of practice, the state may take without compensation any property that is held and used by a local entity for governmental purposes. n594 However, where the property is held by a condemnee other than a governmental unit, such as a privately owned public utility, and a "higher use" justifies condemnation, the utility is entitled to compensation. And it is held that if a municipality holds title to property through a private proprietary interest rather than for general public use as an agency of the state, it is entitled to compensation for property taken for a superior use by the state. n595 Where the sovereign holds the property in a fiduciary capacity for others, the beneficiaries are entitled to compensation. n596

If the owner of the land condemned waives the right to be compensated at or before the time of the taking, an action for the price of the land may be brought after the taking. n597

Where land has been entered upon without a resort to proper proceedings, the measure of compensation will be the same as if it had been duly condemned, except where the circumstances are as such as to call for vindicatory damages.

n598

§ 80.09(c) Rights to Compensation Among Several Interest Holders.

§ 80.09(c)(1) Rights Among Parties to a Sale of the Property.

The right to an award in eminent domain is personal and does not run with the land upon sale of the property. n599 The owner at the time of the taking, not those who acquired an interest subsequently, is entitled to the condemnation award, n600 and, with the exception of leases, n601 it is not the responsibility of the condemnor to be concerned with the rights of different parties in the land. n602 The vendee under a sales contract has been held entitled to the difference between the condemnation award and the sales price, n603 but if property subject to an executory sales contract is condemned, the vendee is limited to recovery of the purchase price if the vendee has not yet gone into possession. n604 A lessee with an unexercised option to purchase is not entitled to such excess amount. n605

However, where the property has completely changed hands after the action of condemnation is filed, the purchaser is entitled to the award. If a sale for the land is entered into during the pendency of the condemnation action, the award is paid to the original owner, n606 but the buyer's rights to that award depend on the terms of the sale agreement. n607 If the sale is involuntary, then the buyer's rights are limited to the purchase price. n608

A purchaser of property in the process of condemnation is entitled to become a party to the proceedings; the eminent domain action does not terminate the liability of the purchaser as to the sales contract. n609 Where a landowner issues a license for a right of way and later sells the land and the buyer revokes the license, the buyer, rather than the predecessor in interest, is entitled to damages in eminent domain. n610

LEXIS: "eminent domain" or "condemnation" w/10 award w/20 sale

§ 80.09(c)(2) Rights of Mortgagees and Other Lienholders.

If there is a lien on the damaged or taken property, the lien attaches to the condemnation award. n611 The mortgagee is not entitled to the entire award, but only to a proportionate part by which the security is diminished. n612 The condemnation extinguishes a mortgage the lien of which attaches to the purchase price; n613 however, if the mortgagee has not been made a party to the condemnation proceedings, the mortgagee may recover the debt from the condemnor even though the mortgagor has been paid the full proceeds. n614 Upon condemnation after tax sale, the original owner is entitled to the eminent domain compensation, subject to the tax lien. n615

LEXIS: "eminent domain" or "condemnation" w/10 award w/20 mortgag!

§ 80.09(c)(3) Rights of Servitude and Future Interest Holders.

If there is an outstanding future interest of sufficient quality to constitute a property right, the compensation must be divided between the possessory estate and the future interest. n616

A future interest, to be compensable, must be capable of evaluation and the owner must own a compensable interest in the condemned property. n617 In some jurisdictions, the rule persists that all proceeds of the condemnation award are given to the holder of the fee, n618 and where the land condemned is a fee simple determinable, a fee simple subject to a condition subsequent, or a fee simple subject to an executory limitation, the leading rule is that the holder of the future interest is not entitled to any of the proceeds of the condemnation award in the absence of a showing that the defeasance

of the possessory estate is probable. n619

Where the property has been dedicated for a specific purpose so that a reverter arises upon condemnation of the property, the original grantor or the grantor's heirs are entitled to the proceeds of the eminent domain award to the extent that the value of the award exceeds the value of the land as so restricted. n620 Compensation has been refused for a contingent future interest.

Where defeasible fees are involved and either held by the condemnee or taken by the condemnor, the problem of apportionment of the award arises. A condemnor who condemns only a defeasible fee must pay the full value, because the value of a possibility of reverter is so low. n621 Similarly, no compensation is payable to the holder of a right of re-entry upon a condition subsequent. n622 For condemnation of other future interests, court have employed various approaches. n623

The courts have reached four results where property subject to a future interest is taken by condemnation: (a) the immediate estate takes the entire award; n624 (b) the future interest receives the award; n625 the immediate estate is required to hold the proceeds in trust; n626 and (d) the proceeds should be apportioned between the immediate estate and the future interest. n627

Usually, where there are several estates in the land condemned, each holder of an interest is entitled to compensation in accordance with the value of his estate. n628 With this variety of approaches, therefore, some courts invest the proceeds in trust for the duration of the life estate. n629

Others divide the proceeds using mortality tables to calculate the respective interests. A voluntary sale of the premises during the pendency of the condemnation carries the right to the entire proceeds. n630 Sale of the life estate entitles the new life tenant to receive compensation.

Where a covenant is held to be a property right, the holder or owner is entitled to compensation. Whether this is in addition to a full value award given to the servient estate or whether the award must be divided is questionable, just as there is a division as to whether there is a compensable property in such a restrictive covenant of use in favor of the owners of the dominant tenement. n631

Some courts hold that the owners of property adjacent to that taken are entitled to damages if the property taken was subject to an equitable servitude in favor of the adjoining property arising out of restrictive covenants, where the use for which the land was condemned violates such covenant, n632 and the covenant created a property right. n633 Contrary authority is based on the theory that the rights are only contractual in nature. n634 A beneficiary of a donor's land trust is not a necessary party to condemnation actions. n635

§ 80.09(c)(4) Rights of Parties to a Leasehold.

Where a lease is taken, the problem arises as to apportionment of the value between the lessor and the lessee, the method of determining the value of the lessee's interest, n636 the incidental expenses payable, the inclusion of personal property in the valuation, and what must be the extent of the lessee's interest. n637 Courts do not agree on the proper method for establishing value of leaseholds. Determination of value is not a matter of formula, but of sound discretionary judgment, based on the relevant facts in each case. n638 Some courts value the lessor's and lessee's interests separately n639 while others lump the value of the lease and the reversion together. n640 It has been held that a reversion after a long-term lease has no value. n641 In the absence of a statute, where the fee subject to a leasehold is

condemned, the fee is valued as a unit and the award is apportioned between the lessor and lessee. n642 When the reversion is valued separately, the terms of the lease are considered n643 so a lease favorable to the owner will enhance the value of the property and the reversion.

Under the majority rule, if there is a partial taking of a leasehold by eminent domain, the relationship of landlord and tenant continues and the lessee must look to the condemnor for damages. The rent is not abated. n644 In that situation, the lessee has been allowed moving costs when the lessee remained liable to the lessor. The tenant is not entitled to moving expenses if the entire leasehold is taken. n645 It is further questioned whether a lessee is entitled to the value of the lessee's leasehold improvements. n646 Usually, the value of a leasehold is its fair market value in excess of the rental paid, n647 plus fixtures, n648 and improvements. n649 Under one theory, trade fixtures are to be considered in valuing the realty, even though they may be removed by the tenant. n650

By another rule, the owner of removable fixtures is entitled to the difference between their value in place and their value after removal. n651 The measure of value of a leasehold is its fair market value in excess of rental to be paid, n652 plus fixtures n653 and improvements. n654

The value of non-removable fixtures is not recoverable. n655 The cases are not in accord, however, as to whether the lessee can upon condemnation of the leased premises claim as an element of damages improvements which the lessee is not entitled to remove prior to or at the termination of the lease. n656 The loss of business goodwill and profits and the costs of removal are not proper elements of damage to the lessee. n657 However, costs of removal and reinstallation are allowable, if only a part of the term outstanding is condemned. n658 The general rule values leasehold estates for condemnation purposes at the difference between the economic rent -- that is, the price which could be obtained on a sale of the lease in the open market less the contract rent. n659

Where ranchers owned land in fee with grazing licenses on adjacent public lands (which licenses could be restricted or withdrawn by the Secretary of the Interior), and the fee could be taken by eminent domain, the availability and accessibility of the public land could be considered in evaluating the fee. Considering this factor, however, was permissible only if the project for which the fee was taken did not include the licensed land; the availability and accessibility of the public land could not be considered in evaluating the fee where the proposed project was to include the fee and the public land licensed to the owner of the fee. n660 Where the taking is only temporary, the measure of damages is the fair rental value under the peculiar circumstances, not the profits the state derives during the taking. n661

As a general rule the lessee is limited to the difference between the rental value of the lease and the actual rent. n662 Where land under a lease contract for a term of years is condemned, the amount payable to the lessor and the lessee is generally considered to be the respective values which the thing taken has to the lessor and lessee. n663

Where the entire leasehold is taken by eminent domain the universal rule seems to be that the lease is terminated and the obligation of the lessee is discharged. n664

Under a partial taking, the obligation to pay rent continues, n665 and the lessee's sole remedy is to share in the award. n666 Under the minority view, the rent is abated proportionately on a partial taking. n667

A tenant at will has been held not entitled to damages, n668 but it has also been held otherwise. n669 The right of renewal in a lease is to be considered in deter-mining the value of the leasehold. n670

CHAPTER 80 THE POWER OF EMINENT DOMAIN

9-80 Thompson on Real Property, Thomas Editions § 80.10

AUTHOR: Professor David A. Thomas J. Reuben Clark Law School Brigham Young University

§ 80.10 Procedure in Condemnation Actions.

[Go To Supp]

§ 80.10(a) Applicable Law.

Proper procedure in eminent domain proceedings is a matter of the law of the jurisdiction applicable to the condemnor. In the case of the federal government or its authorized agencies and instrumentalities, federal law governs. Otherwise, the particular state statutes control.

COMPUTER-ASSISTED RESEARCH

LEXIS: "eminent domain" or "condemnation" w/10 procedure w/20 law

§ 80.10(b) Proper Parties.

Condemnation proceedings have two purposes: (a) to transfer to the condemnor the possession of and the essential degree of interest in the land taken; and (b) to fix the amount of compensation to be paid the owner for the taking. n671 The only necessary parties in condemnation proceedings are the record owners and the parties in possession. n672 All persons whose interests are to be condemned must be made parties to determine their rights. n673 But if the condemnation is had subject to outstanding interests, the holders thereof are not indispensable parties. n674 The power of eminent domain may be exercised by the state without notice to the interested landowner, n675 but a statute which undertakes to determine the matter of compensation without notice is void. n676

Usually the statute designates the necessary parties. But anyone having an interest in the land to be taken is a proper party. n677 Since a mortgagee merely has a lien and not an interest in the land, the mortgagee is not a proper party in eminent domain proceedings. n678 The holder of an option to purchase the land to be condemned is entitled to damages received for an eminent domain taking where the option precedes the taking but is not exercised until afterwards. n679

COMPUTER-ASSISTED RESEARCH

LEXIS: "eminent domain" or "condemnation" w/10 procedure w/20 part!

§ 80.10(c) Prelitigation Requirements.

Eminent domain proceedings are purely statutory, and a trial in court, in the first instance, is not necessary to an appropriation. So long as an impartial tribunal is provided so that the claim for damages can be fairly considered and awarded, whether by disinterested viewers, commissioners, or assessors, the condemning party need not resort to the court. n680

Before a condemnation proceeding can be instituted, there must have been a good faith attempt to agree with the owner and a bona fide offer and reasonable effort made to induce the owner to accept it. A perfunctory attempt to purchase or settle is not sufficient. n681

Where no proceedings have been instituted, but an actual or threatened entry upon private land under color of eminent domain has occurred, an injunction will lie to restrain such actual or threatened entry. n682 An injunction will also lie to restrain a municipal or other corporation from taking land in excess of the power granted by the legislature, n683 or the taking of property not subject to appropriation because already devoted to a public use. n684

Some statutes permit a forceful taking and relegate the landowner to an action for damages. n685 Others permit an entry on the filing of an action and permit damages to be awarded later. n686 In such a case there is a question as to whether the damages are to be measured as of the time of entry or time of the award. n687 Such "quick taking" statutes are upheld generally where (a) the court fixes the initial deposit, (b) the deposit is made with the court, and (c) the condemnor is required to furnish a bond to cover additional allowances. The statutes often make an attempt to agree with the owner on the amount of compensation to be paid a condition precedent to the filing of a petition to condemn. n688 A statutory requirement of this character is jurisdictional and there can be no failure or inability to agree, within the meaning of the statutes, unless some effort to agree has been made in good faith. A perfunctory offer for the property, or one not genuine, or one made upon conditions that are impossible is insufficient. n689 The petitioner has the burden of proving compliance with the conditions precedent essential to the right to condemn the property. n690

LEXIS: "eminent domain" or "condemnation" w/10 procedure w/20 law

§ 80.10(d) Nature of the Proceeding.

Eminent proceedings depend so much upon different statutory provisions in the various states that the procedure is not by any means the same in detail in all jurisdictions; but there are certain general principles, and many features or provisions common to a number of statutes, in regard to which decisions have been rendered by the courts. n691 Subject to constitutional restrictions, the legislature may prescribe the procedure for condemnation, n692 which must be strictly followed before an owner can be deprived of the property involuntarily. n693 A proceeding to condemn land, either for a public use or for a private way of necessity, is not an action at law nor a suit in equity as these terms are commonly understood. In its nature, the action is a proceeding *sui generis*, or of its own kind. n694 Such proceedings are, however, judicial in character. n695 Normally, the purpose of such proceedings is to regain possession, and incidentally some degree of ownership, of particular real property. n696 The purpose is to determine without undue delay the right to condemn and fix the amount of compensation to be paid the owner for the property taken, and not to try controversies as to the title. n697 Ordinarily, there must be a strict compliance with the statutes regulating the exercise of the power of eminent domain, but mere informalities in procedure are not necessarily fatal to the validity of the proceeding. n698 Moreover, such statutes prescribing the procedure are not to be construed with such strictness as to defeat their purpose and intent. n699

Eminent domain proceedings are usually considered as being strictly in rem, n700 and not in personam, n701 the res being within the jurisdiction of the state. n702 And, being essentially an adversary proceeding, some kind of notice is

requisite to its validity. n703 Other courts, however, have denied that such proceedings are proceedings in rem, since the court itself never assumes possession or dominion over the property. n704 Whatever the precise nature of the proceeding, it has been held that publication for three successive weeks in three successive issues of some newspaper circulating generally in the county of notice of the initiation of eminent domain proceedings satisfies all the requirements of due process of law. n705

§ 80.10(e) Stages of the Proceeding.

The usual proceeding for condemnation consists of a petition or application to the court, upon due notice to all persons interested in the land to be affected, which, if successful, results in a judgment or decree to the effect that, upon making just compensation to such persons, the petitioner shall take the property for the uses and purposes set forth in the petition. A petition under the exercise of eminent domain must describe the land or easement sought to be appropriate with such particularity as to enable the court to determine that no more property is being appropriated than is reasonably necessary for the purposes for which it is being acquired. n706

It is not proper to allege in defense of a petition to condemn property that the petitioner will apply the property to a use different from that for which it is being appropriated. n707 The court having once obtained jurisdiction over the subject matter, the parties may retain jurisdiction until final judgment. n708 The consolidation by the court of a number of actions brought by the same plaintiff to condemn land of various owners is within the discretion of the court. n709

After the petition is filed, commissioners are appointed by the court, who view the land, receive evidence as to its value, and determine upon the amount of compensation to be paid; and, upon having their report confirmed and making provision for payment of the award the petitioner becomes entitled to the use and possession of the land.

In the absence of a specific constitutional provision granting the right of trial by jury in condemnation proceedings, such right does not exist as a constitutional right. n710 In the absence of any provision in the statutes submitting the matter to a court or jury, the decision of the question lies with the body or parties to whom the state has delegated the authority to take. They have the same power as the state would have, acting through any regularly constituted authority, n711 and there is no restraint in this power except as to compensation. Generally, the only issue before the jury is the reasonable value of the property to be taken. n712 Under the law of some states, the state as well as the property owner is entitled to a trial by jury upon the issue of compensation, unless such trial is waived. n713 After the land has been appropriated and bond filed to secure the payment of the compensation awarded, the condemnor cannot, without the landowner's consent, decrease the amount of recovery by surrendering any of the rights acquired by the filing of the bond or by discontinuing or abandoning the whole or any part of the condemned property. n714

The decree of condemnation passes title to the realty and no further conveyance by the former owner is necessary. n715 Under the rule in most states, title does not vest in the condemnor until the judgment for condemnation is entered and paid, n716 but then it relates back to the time the petition was filed. n717

In the absence of a statutory provision on the question, discontinuance of the proceedings may be had at any time before the rights of the parties have become reciprocally vested. n718 A judgment of a federal court in a condemnation action of the United States need not be recorded in the state court records to be binding upon subsequent purchasers. n719 Condemnation proceedings which are fatally defective are subject to collateral attack. n720

The courts will review condemnation proceedings to determine whether the requirements of the constitution have been complied with, but beyond that they have no power to interfere with the exercise of a purely legislative function. n721 Thus virtually the only substantive question for judicial review in a condemnation proceeding is whether the purpose for which property was taken is an authorized public use. n722

167, *aff'd by Minnesota v. United States, 125 F.2d 636 (8th Cir. 1942)* .

Add:

Forest Preserve District of Du Page County v. Brown Family Trust, 753 N.E.2d 1110 (Ill. App. 2001) (the district's ordinance authorizing its staff to acquire property by condemnation did not improperly delegate eminent domain power); *Condemnation of 110 Washington St., etc., 767 A.2d 1154 (Pa. Commw. 2001)* (unlawful delegation of eminent domain power).

Add:

The generally accepted definition of eminent domain is, "[T]he power of a sovereign state to take private property for a public use without the owner's consent, conditioned upon the payment of just compensation." *25 A.L.R 4th 671* .

Add:

People By and Through Dep't of Public Works v. Glen Arms Estate, Inc., 41 Cal. Rptr. 303 , Cal. App. 1965 (1964). The controversial case of *Poletown Neighborhood Council v. City of Detroit, 304 N.W.2d 455 (Mich. 1981)* , which resulted in destruction of residential areas to make way for an automobile manufacturing plant, was unanimously overturned by the Michigan Supreme Court in *County of Wayne v. Hathcock, 684 N.W.2d 765 (Mich. 2004)* , the latter court emphasizing that an eminent domain taking must be for a public use; *Kelo v. City of New London, 843 A.2d 500 (Conn. 2004)* (the city's delegation of eminent domain power to a private, non-profit economic development corporation was held constitutional).

§ 80.01(a)(2) Distinguished from Police Power.

Add:

Seeman v. Iowa Dept. of Human Services, 604 N.W.2d 53 (Iowa 1999) ; *Santa Monica Beach, Ltd. v. Superior Court, 81 Cal. Rptr. 2d 93 (Cal. 1999)* ; *Phillips v. King County, 943 P.2d 306 (Wash. Ct. App. 1997)* .

In *Brutsche v. City of Kent, 193 P.3d 110 (Wash. 2008)* , the court stated that its decision rested upon the "distinction between police power and the power of eminent domain." It reasoned that eminent domain takes private property for public use, whereas police power regulates the use of private property. In *Englewood v. Turner 897 N.E.2d 213 (Ohio App. 2008)* , the court explained that state police power is "entirely separate and distinct" from the power of eminent domain.

§ 80.01(a)(3) Distinguished from War Powers.

Add:

Santa Monica Beach, Ltd. v. Superior Court, 81 Cal. Rptr. 2d 93 (Cal. 1999) .

§ 80.01(b) The Origin and Basis of Power. [Go To Main]

Add:

City of Smithville v. St. Luke's Northland Hosp. Corp., 972 S.W.2d 416 (Mo. Ct. App. 1998) .

§ 80.01(b)(1) Based on Soverign Ownership of Land.

Add:

Cenex Pipeline L.L.C. v. Fly Creek Angus, Inc., 971 P.2d 781, (Mont. 1998) .

§ 80.01(b)(2) Based on Political Necessity.

Add

City of Phoenix v. Harnish, 150 P.3d 245 (Ariz. App. 2006) (city, seeking to establish a nature preserve, was not permitted to exercise its eminent domain power outside of its boundaries).

§ 80.01(c) Limitations on the Power. [Go To Main]

Add:

City of Annapolis v. Waterman, 745 A.2d 1000 (Md. 2000) .

Add:

In *Board of County Commissioners of Muskogee County v. Lowery, 136 P.3d 639 (Okla. 2006)* , the court explained that the eminent domain power does not allow the government to take property for the purpose of conferring a private benefit on a private party; *Mt. San Jacinto Community College District v. Superior Court, 151 P.3d 1166 (Cal. 2007)* ("The only constitutional limitations on the right of eminent domain are that the taking be for public use, and that just compensation be paid.").

Supp. To CHAPTER 80 THE POWER OF EMINENT DOMAIN

9-80 Thompson on Real Property, Thomas Editions Supp. to § 80.02

Supp. to § 80.02 The Source of Authority for the Power of Eminent Domain.

[Go To Main]

§ 80.02(a) Intent or Common Law Authority. [Go To Main]

Add:

State *ex rel. Dept. of Transp. v. Moore, 217 P.3d 165 (Okla. Civ. App. 2009)* ("Eminent domain provisions are not grants of power, but are limitations upon the government's exercise of power.").

§ 80.02(a)(1) Eminent Domain Power in the States.

Add:

But see Oxford v. Northeast Mississippi Elec. Power Ass'n, 704 So. 2d 59 (Miss. 1997) (municipalities' authority for eminent domain must be statutory because they do not have the inherent power).

Add to the list of cases:

Montara Water and sanitary *District v. County of San Mateo, 598 F. Supp 2d. 1070 (N.D. Cal. 2009)* ;

§ 80.02(b) Constitutional or Statutory Authority. [Go To Main]

Add:

State ex rel. Dept. of Transp. v. Moore, 217 P.3d 165 (Okla. Civ. App. 2009) .

§ 80.02(b)(1) Constitutional Limitations.

Add:

Opinion of the Justices, 555 A.2d 1095 (N.H. 1989) .

Add:

Dakota, Minnesota & Eastern Railroad Corp. v. South Dakota, 236 F. Supp. 2d 989 (D. S.D. 2002) (exercise of eminent domain held unconstitutional on several grounds).

Add:

Adelphia Cablevision Associates of Readnor, L. P., v. University City Housing Authority, 755 A.2d 703 (Pa. Super. 2000) (Tenants' Right to Cable Television Act held consistent with the constitutional requirement of just compensation for a taking of property).

Add:

But see Housing Fin. & Dev. Corp. v. Ferguson, 979 P.2d 1107 (Haw. 1999) (noting a state constitutional right to jury trial).

§ 80.02(b)(2) Statutory Limitations.

Add:

See Edward Imperatore, "Discriminatory Condemnations and the Fair Housing Act," *96 Geo. L.J. 1027, 1038 (March 2008)* (arguing that states have taken a piecemeal approach to narrowing and redefining the eminent domain power).

Add:

In re Condemnation by Borough of Hanover of Land, 950 A.2d 373 (Penn. Comm. 2008) (the borough had no statutory authority to acquire property from the school district by eminent domain).

Department of Transp. v. Callender Const. Co., 711 N.E.2d 1199 (Ill. Ct. App. 1999) .

Add:

Eggleston v. Pierce County, 64 P.3d 618 (Wash. 2003) (state constitution's eminent domain provision does not require compensation to be paid for seizure and preservation of evidence); *General Building Contractors, L.L.C. v. Board of Shawnee County Commissioners of Shawnee County, 2003 Kan. LEXIS 191* (No. 89,029, Apr. 18, 2003) (counties have power of eminent domain under home rule and related statutes); *Kelo v. City of New London, 843 A.2d 500 (Conn. 2004)* (the city's delegation of eminent domain power to a private, non-profit economic development corporation was held constitutional).

Add:

City of Long Branch v. Anzalone, 2008 N.J. Super. Unpub. LEXIS 2204 (App.Div. 2008) (city's eminent domain authority properly delegated to a developer).

Add:

Mercies v. Midtexas Pipeline Company, 28 S.W.3d 712 (Tex. App. 2000) (a pipeline partnership qualified as a gas corporation imbued with a statutory right of eminent domain to obtain a right of way for a natural gas pipeline); *Burbank-Glendale-Pasadena Airport Authority v. Hensler, 99 Cal. Rptr. 2d 729 (2000)* (three cities could delegate their eminent domain authority to a joint-power airport authority).

Add:

City of Arnold v. Tourkakis, 249 S.W.3d 202 (Mo. App. 2008) (non-charter city authorized to exercise power of eminent

domain).

Add:

Water Dist. No. 1 of Johnson County v. Mission Hills Country Club, 960 P.2d 239 (Kan. 1998) .

Add:

West Linn-Wilsonville School Dist. 3 J T v. Seida, 968 P.2d 1268 (Or. 1998) .

Add:

Appeal of Condemnation of 110 Washington Street, Borough of conshohocken, *Pennsylvania, 767 A.2d 1154 (Pa. Comm. 2001)* (agreements with a developer requiring the developer's prior written consent to a condemnation were unlawful delegations of eminent domain powers).

Add:

City & County of Honolulu v. Sherman, 129 P.3d 542 (Haw. 2006) (city council's delegation of eminent domain power to the Department of Community Services was permissible); Wight-Axling, Heather G. "Will the Durational Element Endure: Only Time Will Tell: Temporary Regulatory Takings in the Court of Federal Claims and Federal Circuit after Sierra-Tahoe," 45 *Nat. Resources J.* 201 (Winter 2005).

Department of Transp. v. Callender Const. Co., 711 N.E.2d 1199 (Ill. Ct. App. 1999) .

§ 80.02(b)(3) Inverse Condemnation Compared.

Add:

People ex rel. Dep't of Transp. v. Southern Cal. Edison Co., 996 P.2d 711 (Cal. 2000) .

Thompson on Real Property, Thomas Editions

Supp. To CHAPTER 80 THE POWER OF EMINENT DOMAIN

9-80 Thompson on Real Property, Thomas Editions Supp. to § 80.03

Supp. to § 80.03 The Requirement that the Eminent Domain Power Be Exercised for a Public Use.

[Go To Main]

§ 80.03(a) General Rules. [Go To Main]

Add:

Greater Omaha Realty Co. v. City of Omaha, 605 N.W.2d 472 (Neb. 2000) .

Add:

Port Authority of City of St. Paul v. RLR, Inc., 758 N.W.2d 604 (Minn. App. 2008) (eminent domain requirement invalid because a public use was not identified).

Add:

Ranauro v. Town of Owasco, 735 N.Y.S.2d 332 (2001) (the condemnation was rationally related to a conceivable public purpose); *Dept. of Transportation v. Stapleton, 2004 Colo. LEXIS 22* (No. 03SC616, Jan. 12, 2004) (condemning land for transit parking falls within the authority to condemn land for state highway purposes).

§ 80.03(b) Constitutional Limitations. [Go To Main]

Add:

Aspen Creek Estates v. Town of Brookhaven, 904 N.E.2d 816 (N.Y. 2009) (holding that the *Fifth Amendment* was not offended when a town took farmland through its eminent domain power.)

Add:

But see City of Bozeman v. Vaniman, 898 P.2d 1208 (Mont. 1995) (a public use is required by statute).

§ 80.03(c) "Public Use" as Interpreted by the Courts. [Go To Main]

§ 80.03(c)(1) The Meaning of "Public Use."

Add:

Kelo v. City of New London, 125 S. Ct. 2655 (2005) (use of eminent domain power to further an economic development plan satisfied the constitutional "public use" requirement).

Christiansen v. Gerrish, 608 N.W.2d 83 (Mich. Ct. App. 2000) ; *Wong v. City of Long Beach, 82 P.3d 259 (Wash. App. 2004)* (the city was permitted to condemn land for a recreational trail that fell within the definition and purpose of a park).

Add:

Village of Round Lake v. Amann, 725 N.E.2d 35 (Ill. Ct. App. 2000) .

The controversial case of *Poletown Neighborhood Council v. City of Detroit, 304 N.W.2d 455 (Mich. 1981)* , which resulted in destruction of residential areas to make way for an automobile manufacturing plant, was unanimously overturned by the Michigan Supreme Court in *County of Wayne v. Hathcock, 684 N.W.2d 765 (Mich. 2004)* , the latter court emphasizing that an eminent domain taking must be for a public use; *Kelo v. City of New London, 843 A.2d 500 (Conn. 2004)* (the city's delegation of eminent domain power to a private, non-profit economic development corporation was held constitutional).

§ 80.03(c)(2) Judicial Review of Legislative "Public Use" Determinations.

Add:

State v. Collom, 720 N.E.2d 737 (Ind. Ct. App. 1999) ; *Port Authority of City of St. Paul v. RLR, Inc, 758 N.W.2d 604 (Minn. App. 2008)* (holding that a port authority did not fulfill the statutory requirements of eminent domain.)

Add:

American Tel. & Tel. Co. v. Proffitt, 903 S.W.2d 309 (Tenn. Ct. App. 1995) .

§ 80.03(d) The Element of Necessity in Public Use. [Go To Main]

Add:

Rabun County v. Georgia Transportation Corporation, 575 S.E.2d 474 (Ga. 2003) (showing of reasonable necessity not required to exercise eminent domain); *St. Andrew's Epispocal Day School v. Mississippi Transportation Commission, 806 So. 2d 1105 (Miss. 2002)* (condemnation was justified by public necessity).

Condemnation by Valley Rural Electric Cooperative, Inc. v. Shanholtzer, 982 A.2d 566 (Pa. Cmwlth. 2009) . For a discussion of what historically has constituted a "necessity," see Robert C. Bird and Lynda J. Oswald, "Necessity as a Check on State Eminent Domain Power," *12 U. Pa. J. Const. L. 99* (October, 2009).

Add:

Banks v. Georgia Power Co., 481 S.E.2d 200 (Ga. 1997) .

Add:

Aspen Creek Estates v. Town of Brookhaven, 904 N.E.2d 816 (N.Y. 2009) (Holding that the taking of farmland in order to support a policy of farmland preservation was a public purpose.); *Whittaker v. County of Lawrence, 674 F.Supp.2d 668 (W.D.Pa. 2009)* (development of a high technology business park was a public purpose); *Goldstein v. Pataki, 516 F.3d 50,* (2d Cir. 2008) (development of blighted areas, creation of affordable housing, and various mass-transit improvements were public purposes).

§ 80.03(e) Examples of Public Use. [Go To Main]

Add

Board of County Com'rs of Muskogee County v. Lowery, 136 P.3d 639 (Okla. 2006) (under Oklahoma law, economic development alone does not constitute a public use or public purpose).

Add:

Hill v. City of Bethlehem, 909 A.2d 439 (Pa. Cmwlth. 2006) (a city properly exercised its eminent domain power when it condemned and demolish a private owner's property, making it unimproved real estate); *Mount Laurel Tp. v. MiPro Homes, L.L.C., 910 A.2d 617 (N.J. 2006) , cert. denied, 188 N.J. 531, 910 A.2d 617* (eminent domain power could be used to condemn property for open space).

Mount Laurel Township v. Mipro Homes, L.L.C., 878 A.2d 38 (N.J. Super. 2005) (eminent domain power could be used to acquire land for open space).

Add:

Bingham Township v. RLTD Railroad Corp., 603 N.W.2d 795 (Mich. App. 1999) .

Add:

J.C. Penney Corp., Inc. v. Carousel Center Co., L.P., 306 F. Supp. 2d 274 (N.D. N.Y. 2004) (under New York law, community renovation was a proper public purpose).

Rukab v. City of Jacksonville Beach, 811 So. 2d 727 (Fla. App. 2002) (landowners entitled to a full hearing in an eminent domain action even if other opportunities to challenge the action have already been given).

Add:

Pequonnock Yacht Club, Inc. v. City of Bridgeport, 790 A.2d 1178 (Conn. 2002) (the agency failed to establish that the taking of the property was essential to the redevelopment plan); *Redevelopment Agency of the City of Chula Vista v. Rados Bros., 115 Cal. Rptr. 2d 234 (2002)* (taking of property by eminent domain for redevelopment was for a public use).

Add

Norwood v. Horney, 853 N.E.2d 1115 (Ohio 2006) (in Ohio, economic benefit alone does not satisfy the public use requirement).

Add:

Stockman v. Unified Government of Wyandotte County/Kansas City, Kansas, 6 P.3d 900 (Kan. App. 2000) (the development of a race track was a public purpose within the eminent domain powers); *D'Addario v. Truskoski, 749 A.2d*

38 (Conn. App. 2000) (condemnation of right of way by landowner of landlocked property).

§ 80.03(f) Excess Takings. [Go To Main]

Add

Michael v. City of Bloomington, 804 N.E.2d 1225 (Ind. App. 2004) (board of public works could perhaps have condemned less land, but that would not show that it acted arbitrarily or capriciously).

Add:

Grunwald v. Community Dev. Auth., 551 N.W.2d 36 (Wis. Ct. App. 1996) .

Thompson on Real Property, Thomas Editions

Copyright 2010, Matthew Bender & Company, Inc., a member of the LexisNexis Group.

Supp. To CHAPTER 80 THE POWER OF EMINENT DOMAIN

9-80 Thompson on Real Property, Thomas Editions Supp. to § 80.04

Supp. to § 80.04 Property Rights That May Be Taken by Eminent Domain.

[Go To Main]

Add:

Outdoor Systems Advertising, Inc. v. Korth, 607 N.W.2d 729 (Mich. Ct. App. 1999) .

§ 80.04(a) Property Rights That May be Taken by Eminent Domain. [Go To Main]

Add:

Harrington v. Commonwealth, 792 A.2d 669 (Pa. Commw. 2002) (claim for damage caused by roadway grade change could be brought under the eminent domain statute).

Add:

Leigh v. Village of Los Lunas, 108 P.3d 525 (N.M. App. 2004) (restrictive covenants are property rights subject to eminent domain protection).

Add:

Kaufman's Carousel, Inc. v. City of Syracuse Industrial Development Agency, 750 N.Y.S.2d 212 (2002) (under eminent

domain a tenant's rights under a lease could be acquired without acquiring the underlying real property).

Add

Michael v. City of Bloomington, 804 N.E.2d 1225 (Ind. App. 2004) (condemning land for a multi-use pathway was for a public purpose).

§ 80.04(b) Property Rights Whose Susceptibility to Eminent Domain Power Is Disputed or Conditional. [Go To Main]

Add:

Mount Juneau Enterprises, Inc. v. City and Borough of Juneau, 923 P.2d 768 (Alaska 1996) .

Add:

The *takings clause* can apply to both tangible property and intangible property. *See* 29 Cal. Jur. 3d Eminent Domain § 20.

Add:

Mack v. Eldorado Water Dist., 354 P.2d 917 (Wash. 1960) .

§ 80.04(c) Property Rights That Are Not Subject to Eminent Domain Takings or to Compensation. [Go To Main]

Add:

The reverse is also true; the federal government cannot interfere with states' exercise of eminent domain. *See, e.g.*, *Santini v. Connecticut Hazardous Waste Management Serv., 739 A.2d 680 (Conn. 1999)* .

Thompson on Real Property, Thomas Editions

Copyright 2010, Matthew Bender & Company, Inc., a member of the LexisNexis Group.

Supp. To CHAPTER 80 THE POWER OF EMINENT DOMAIN

9-80 Thompson on Real Property, Thomas Editions Supp. to § 80.05

Supp. to § 80.05 What Constitutes a Taking.

[Go To Main]

§ 80.05(a) Introduction. [Go To Main]

Add:

Wells v. Consolidated Judicial Retirement System, 526 S.E.2d 486 (N.C. Ct. App. 2000) .

§ 80.05(b) The Types of Deprivations That May Be Takings. [Go To Main]

Add:

Aladdin, Inc. v. Black Hawk County, 562 N.W.2d 608 (Iowa 1997) .

Add:

Santini v. Connecticut Hazardous Waste Management Serv., 739 A.2d 680 (Conn. 1999) ; *Armadillo Partners, Inc. v. State of Florida Department of Transportation, 780 So. 2d 234 (Fla. App. 2001)* (appraiser was required to consider loss of aesthetic value of a landscaped area severed from a lot); *Harrington v. Commonwealth, 792 A.2d 669 (Pa. Commw. 2002)* (a landowner's claim for damage caused by a roadway grade could be brought under the eminent domain statute).

§ 80.05(b)(1) Takings That May Result from Exercise of Police Power.

Add:

Bezayiff v. City of St. Louis, 963 S.W.2d 225 (Mo. Ct. App. 1997) .

Add:

409 *Land Trust v. City of South Bend, 709 N.E.2d 348 (Ind. Ct. App. 1999)* .

Add:

Department of Transport. v. Blevins, 670 S.E.2d 621 (N.C. App 2009) ("The state must compensate for property rights taken by eminent domain; damages resulting from the exercise of police power are noncompensable.").

§ 80.05(b)(2) Takings by Inverse Condemnation.

Add:

Mendenhall v. City of Indianapolis, 717 N.E.2d 1218 (Ind. App. 1999) .

Add:

Wickham v. San Jacinto River Auth., 979 S.W.2d 876 (Tex. App. 1998) .

Add:

Paterno v. State of California, 87 Cal. Rptr. 2d 754 (Cal. App. 1999) .

§ 80.05(b)(3) Takings by Denial of Access.

Add:

Isla Verde Intern. Holdings, Inc. v. City of Camas, 990 P.2d 429 (Wash. Ct. App. 1999) .

Add:

Pande Cameron and Co. of Seattle, Inc. v. Central Pugent Sound Regional Transit Authority, 610 F. Supp. 2d 1288 (W.D. Wash 2009) (holding that the effects of a construction project did not constitute a taking).

Add:

State *ex rel. Hilltop Basic Resources, inc. v. City of Cincinnati, 886 N.E.2d 839 (Ohio 2008)* (holding that the cities' denial of access to the plaintiff's property was not a taking).

Add:

Ocean City v. Maffucci, 740 A.2d 630 (N.J. Super. A.D. 1999) .

Add:

Vinciguerra v. State, 693 N.Y.S.2d 634 (N.Y.A.D. 1999) .

Add:

State *ex. rel. Thieken v. Proctor, 904 N.E.2d 619 (Ohio App. 2008)* (holding that the construction of a concrete curb which would prevent customers from accessing the plaintiff's property from the highway was a taking).

Add:

State ex rel. Dep't of Transp. v. Hanson, 987 P.2d 538 (Or. App. 1999) .

§ 80.05(b)(4) Takings of Water and Water Rights.

Add:

Intracoastal North Condominium Ass'n, Inc. v. Palm Beach County, 698 So. 2d 384 (Fla. Ct. App. 1997) .

Add:

Kennedy v. City of Seattle, 617 P.2d 713 (Wash. 1980) .

In *The Estate of Hage v. U.S., 90 Fed. Cl. 388 (Fed. Cl. 2009)* the court held that a change in the Forest Service's policy which limited ranchers' ability to graze livestock constituted a taking of water rights.

Add:

Arkansas Game and Fish Com'n v. U.S., 87 Fed. Cl. 594 (Fed. Cl. 2009) (holding that inevitable recurring floods constituted a taking); *Scureman v. Judge, 747 A.2d 62 (Del. Ch. 1999)* .

§ 80.05(b)(5) "De Facto" Takings.

Add:

In re Flowers, 734 A.2d 69 (Pa. Commw. Ct. 1999) ; *Manufactured Housing Communities of Washington v. State, 13 P.3d 183 (Wash. 2000)* (statute granting first-refusal right to mobile home park tenants violated state constitutional eminent domain provision).

Add:

In *Colombari v. Port Authority of Allegheny County, 951 A.2d 409 (Pa. Cmwlth. 2008)* , the court upheld the lower court's decision that a de facto taking occurred when a county's port authority changed the flow of a stream, causing

erosion to the shoreline.

Supp. To CHAPTER 80 THE POWER OF EMINENT DOMAIN

9-80 Thompson on Real Property, Thomas Editions Supp. to § 80.08

Supp. to § 80.08 Compensation.

[Go To Main]

§ 80.08(a) General Principles. [Go To Main]

Add:

Minneapolis v. Meldahl, 607 N.W.2d 168 (Minn. Ct. App. 2000) . For an overview of condemnation compensation see Yun-chien Chang, "An Empirical Study of Compensation Paid in Eminent Domain Settlements: New York City, 1990-2002," *39 J. Legal Stud. 201 (January 2010);* see also Ashley Owens, "The Jury's Role in Eminent Domain Compensation as Explained in Metropolitan Water District of Southern California v. Campus Crusade for Christ, Inc.," 22 *J. Nat. Resources & Envtl. L.* 219 (2009).

Add:

Palazzolo v. State ex rel. Tavares, 746 A.2d 707 (R.I. 2000) .

Add:

Los Angeles County Metro. Transp. Auth. v. Continental Dev. Corp., 941 P.2d 809 (Cal. 1997) .

Add:

Land Clearance For Redevelopment Auth. v. W.F. Coen & Co., 773 S.W.2d 465 (Mo. Ct. App. 1989) .

Add:

Although the legislature cannot fix an arbitrary amount it may require that condemnors and condemnees make reasonable efforts to settle the amount in trying to find a fair amount of compensation. *See* John Chalk and Sadie Harrison-Fincher, "Eminent Domain Power Granted to Private Pipeline Companies meets with Greater Resistance from Property Owners in Urban Rather than Rural Areas," *16 Tex. Wesleyan L. Rev. 17, 25- 26 (Fall 2009)* .

§ 80.08(b) Compensation That Is Just. [Go To Main]

§ 80.08(b)(1) Constitutional Origin of Just Compensation Guaranty.

Add:

L.A. Ray Realty v. Town Council, 698 A.2d 202 (R.I. 1997) .

§ 80.08(b)(2) Meaning of the Term "Just."

§ 80.08(b)(2)(i) In General.

Add:

Strom v. City of Oakland, 583 N.W.2d 311 (Neb. 1998) .

Add:

Board of County Supervisors of Prince William County v. United States, 47 Fed. Cl. 714 (Ct. Ct. 2000) (just compensation for 16.05 acres taken by the federal government for the Manassas National Battlefield Park was $1.65 per square foot).

Add:

Burgan v. City of Jacksonville, 920 So. 2d 70 (Fla. App. 2006) (jury did not fulfill its duty under eminent domain when it awarded an amount less than the lowest value in evidence).

Mamo v. District of Columbia, 934 A.2d 376 (D.C. 2007) (an owner was not entitled to compensation for business losses, goodwill and other such consequential damages).

§ 80.08(b)(2)(ii) "Before and After" Rule.

Add:

Ocean City v. Maffucci, 740 A.2d 630 (N.J.Super. 1999) .

Add:

In *Liberty Development Corp. v. Metropolitan, 751 N.W.2d 608 (Neb. 2008)* the court explained that the value of real property taken by eminent domain can be determined by one of three methods: "(1) ascertaining the value of the property for the period it is held by the condemnor, (2) ascertaining the difference in the value of the property before and after the taking, or (3) looking at the fair market rental value of the property during the time it was taken."

§ 80.08(b)(2)(iii) "Highest and Best Use."

Add:

Revocor Corp. v. Commw. Transp. Comm'r, 526 S.E.2d 4 (Va. 2000) .

State, ex rel. Dept. of Transp. v. Pilothouse 60, LLC, 185 P.3d 487, 491-92 (Or. App. 2008) ("Oregon condemnation law requires that just compensation be based on the value of the property at hits highest and best use.");

Add:

State ex rel. Dep't of Transp. v. El Dorado Properties, 971 P.2d 481 (Or. Ct. App. 1998)

§ 80.08(b)(2)(iv) Fair Market Value.

Add:

Shields v. Garrison, 957 P.2d 805 (Wash. App. 1998) .

Add;

The court in *Walter C. Diers Partnership v. State of Nebraska, Department of Roads, 767 N.W.2d 113 (Neb. App. 2009)* , explained that there are three main approaches to arrive at a the fair market value of real property: "(1) the market data approach, or comparable sales method, which establishes value on the basis of recent comparable sales of similar properties: (2) the income, or capitalization of income, approach which establishes value on the basis of what the property is producing or is capable of producing in income; and (3) the replacement or reproduction cost method, which establishes value upon what it would cost to acquire the land and erect equivalent structures, reduced by depreciation."

Add:

Morley v. Jackson Redevelopment Auth., 632 So. 2d 1284 (Miss. 1994) .

§ 80.08(b)(2)(v) Value of Interests Affected But Not Taken.

Add:

Williams Natural Gas Co. v. Perkins, 952 P.2d 483 (Okla. 1997) .

§ 80.08(b)(2)(vi) Other Elements of Just Compensation.

Add:

Jersey City Redevelopment Agency v. Clean-O-Mat Corp., 673 A.2d 1360 (N.J.Super. 1996) ; *People v. Woodson, 113 Cal. Rptr. 2d 559 (2001)* (the transportation department's offer was not reasonable, so it was appropriate to award litigation expenses). Attorney fees may be awarded if expressly permitted by statute. For a list of cases regarding attorney fees in eminent domain cases see 27 Am. Jur. 2d Eminent Domain § 672.

Delete "for."

Add:

People ex rel. Dept. of Transp. v. Southern Cal. Edison Co., 996 P.2d 711 (Cal. 2000) .

§ 80.08(c) The Date for Taxing the Award of Damages.

Add:

Arkansas Game and Fish ComAEn v. U.S., 87 Fed. Cl. 594 (Fed. Cl. 2009) .

Add:

People ex rel. Department of Transportation v. Southern California Edison Co., 94 Cal. Rptr. 2d 609 (2000) (the proper date for accrual of interest to begin was the date the owner asserted a statutory right to compensation).

Add:

Normandy Corp. v. South Carolina Department of Transportation, 688 S.E.2d 136 (S.C. App. 2009) .

§ 80.08(d) The Time When Compensation Is to Be Paid. [Go To Main]

Add:

County of Los Angeles v. Smith, 127 Cal. Rptr. 666 (Cal. Ct. App. 1976) .

Add:

Many states allow for interest to be paid if there is a delay between the taking and the date the compensation is paid. *See, e.g., Town of Branford v. Santa Barbara, 988 A.2d 221 (Conn. 2010)* .

Add:

Hartleb v. Department of Transportation, 778 So. 2d 1063 (Fla. App. 2001) (landowner entitled to post--judgment interest on deposited money).

§ 80.08(e) Including the Value of Personal Porperty in the Award. [Go To Main]

Add:

Seminole County v. Sanford Court Investors, Ltd., 743 So. 2d 1165 (Fla. Ct. App. 1999) .

Alternative Networking, Inc. v. Solid Waste Authority of Palm Beach County, 758 So. 2d 1209 (Fla. Ct. App. 2000) (the incidental frustration of a personal contract between the landowner and a company was not a property interest compensable in eminent domain).

Add:

In re Condemnation of 1. 169 Acres, 745 A.2d 66 (Pa. Commw. 2000) .

§ 80.08(f) Awards for Taking Business Property. [Go To Main]

Add:

Siding Sales, Inc. v. Warren County Water Dist., 984 S.W.2d 490 (Ky. Ct. App. 1998) .

§ 80.08(g) Awards for Taking of Easements. [Go To Main]

Add:

Scureman v. Judge, 747 A.2d 62 (Del. Ch. 1999) .

Add:

Scureman v. Judge, 747 A.2d 62 (Del. Ch. 1999) .

§ 80.08(h) Awards for Improvements. [Go To Main]

Add:

In re Condemnation of 1. 169 Acres, 745 A.2d 66 (Pa. Commw. 2000) .

§ 80.08(i) Awards for Taking of Use Restrictions. [Go To Main]

Add:

See Abraham Bell and Gidean Parchomovsky, "Taking Compensation Private," *59 Stan. L. Rev. 871 (2007).*

Add:

Peter Rock Associates v. Town of North Haven, 756 A.2d 290 (Conn. App. 2000) (evidence concerning an option to purchase and a proposed zoning change was not admissible).

§ 80.08(j) Awards when the Taking Includes Mineral Rights. [Go To Main]

Add:

Captline v. County of Allegheny, 727 A.2d 169 (Pa. Commw. 1999) .

§ 80.08(k) Compensation for Special Uses or Features of the Land. [Go To Main]

Add:

Armadillo Partners, Inc. v. State of Florida Department of Transportation, 780 So. 2d 234 (Fla. App. 2001) (appraiser was required to consider loss of aesthetic value of a landscaped area severed from a lot).

Add:

In the *Matter of Queens West Development Corporation, 734 N.Y.S.2d 208 (2001)* (the condemnee was not entitled to compensation for air rights more than 22 feet above the surface).

Add:

United Artists' Theater Circuit, Inc. v. City of Philadelphia, 635 A.2d 612 (Pa. 1993) .

Add:

Bi-State Development Agency of Missouri-Illinois Metropolitan Dist. V. Ames Realty Co., 258 S.W. 3d 99 (Mo. App. 2008) ; *Clark Cty. Bd. of Commrs. v. Seminole Ave. Realty, 900 N.E.2d 672 (Ohio App. 2008)* .

Supp. To CHAPTER 80 THE POWER OF EMINENT DOMAIN

9-80 Thompson on Real Property, Thomas Editions Supp. to § 80.09

Supp. to § 80.09 Parties Entitled to the Proceeds of the Condemnation Awards.

[Go To Main]

§ 80.09(c) Rights to Compensation Among Several Interest Holders. [Go To Main]

§ 80.09(c)(1) Rights Among Parties to a Sale of the Property.

Add:

City of Virginia Beach v. Bell, 498 S.E.2d 414 (Va. 1998) .

§ 80.09(c)(2) Rights of Mortgagees and Other Lienholders.

Add:

City of Long Beach v. Aistrup, 330 P.2d 282 (Cal. Ct. App. 1958) . *City of Englewood v. Exxon Mobile Corp., 966 A.2d 1082 (N.J. Super. 2009)* ("[A] condemnation award is a substitute for the land when all or part of the mortgaged land is taken for public use; the lien of a mortgage attaches to the condemnation award.").

§ 80.09(c)(3) Rights of Servituede and Future Interest Holders.

Add:

Lawson v. State, 730 P.2d 1308 (Wash. 1986) .

§ 80.09(c)(4) Rights of parties to a Leasehold.

Add:

Seminole County v. Sanford Court Investors, Ltd., 743 So. 2d 1165 (Fla. Ct. App. 1999) .

Add:

Tilden Groves Holding Corp. v. Orlando/Orange County Expressway, 2002 Fla. App. LEXIS 2875 (Mar. 8, 2002) (rights of lessee required to be included in assessing value of land). Courts will typically enforce condemnation clauses which provide that a lease terminates upon condemnation of the land. *See, e.g., Metropolitan Airports Com'n v. Noble, 763 N.W. 2d 639 (Minn. 2009)* ; *New York City School Construction Authority v. The Slane Co., 877 N.Y.S.2d 47 (2009)* .

Add:

In re Condemnation of Right of Way for State Route 0060, Section A01, 720 A.2d 154 (Pa. Commw. 1998) .

City of Roeland Park v. Jasan Trust (In re Acquisition of Prop. by Eminent Domain), 281 Kan. 668 (Kan. 2006) (No. 94,987, Kan., Apr. 28, 2006) (a tenant is entitled to eminent domain compensation if the taking damages the leasehold).

CHAPTER 81 REGULATORY TAKINGS

9-81 Thompson on Real Property, Thomas Editions § 81.01

AUTHOR: Professor Michael J. Davis, Esq. University of Kansas School of Law

§ 81.01 Introduction.

§ 81.01(a) Overview of Regulatory Takings.

The law of regulatory takings concerns when, if ever, a property owner can seek judicial redress for a statutory or administrative regulatory action that results in a diminution in the uses to which the claimant's property may be put, or results in a consequent diminution of its value.

For most of the 200+ years of the development of property law under the United States Constitution, the subject of regulatory takings was of little importance. For the first century the issue did not exist in the federal courts and was raised only rarely in state tribunals. The second century brought increasing, though highly diverse, activity in the state courts, activity in which the courts frequently held an imposition to be a "taking" without reference to the specific constitutional standard that had been offended. For the first several decades of the same period, regulatory takings were recognized in the federal courts only in cases involving public utility rate limitations. After a landmark decision finally established that mere diminution of value of property could be a taking, federal court activity again receded from the forefront until a 1978 decision marked the beginning of a flurry of United States Supreme Court attention. n1

Yet in the period since 1978 no aspect of property law -- and few of constitutional law -- has received more notice from the courts, the commentators, and even the popular press. The principal source of this attention has been a series of U.S. Supreme Court decisions that have struggled to define the concept of a regulatory taking and its constitutional base, and to apply the doctrine to an ever-burgeoning series of regulatory schemes, especially ones aimed at preserving historical and environmentally important properties. This struggle has spread to the lower federal courts and to the state appellate courts as well, and the issue of when a regulation is declared a taking has evolved into nothing less than a major battleground of both legal philosophy and public policy.

LEXIS: regulatory taking

§ 81.01(b) Outline of the Chapter.

The modern law of regulatory takings cannot be comprehended in a jurisprudential vacuum. Its historical roots are deep, if obscure, and its definition is linked to the exercise of the police power in the modern state. The ancestry of the doctrine may be traced through several important nineteenth century Supreme Court decisions interpreting the Due Process Clause of the Fourteenth Amendment, as well as through related decisions marking the Court's acceptance of the idea of inverse condemnation under the Fifth Amendment.

Review of the current law begins with an analysis of the historic 1922 Supreme Court decision that established the regulatory takings doctrine as a matter of federal constitutional law, and then follows the takings doctrine through its significant interpretations and reinterpretations over the subsequent seventy years. This section is followed by a directly related but more eclectic section tracing the development and current status of the principal factors encompassed within modern regulatory takings jurisprudence. Each subset of constitutional orthodoxy is examined as it has ebbed and flowed through Supreme Court opinions. The final section on current federal law reviews the procedural limitations and remedies issues concerning regulatory takings that have sprung up over the past two decades.

The final section moves from a federal to a state focus. As indicated above, state courts have declared regulatory takings for a longer period of time and more frequently than federal courts. These decisions are summarized in this section, after which follows a discussion of the growing tendency of state tribunals to follow the newer federal standards.

CHAPTER 81 REGULATORY TAKINGS

9-81 Thompson on Real Property, Thomas Editions § 81.02

AUTHOR: Professor Michael J. Davis, Esq. University of Kansas School of Law

§ 81.02 Historical Development of Takings Law.

[Go To Supp]

§ 81.02(a) Early History of Takings Law.

In early eighteenth century Britain, property was considered by many as an inherent right of every Englishman. The origins of the United States Constitution's Fifth Amendment were nourished in versions of this premise developed in the years following the American Revolution. But its roots were much deeper.

Grotius and other early writers recognized that when a state, exercising its sovereign power, deprived a citizen of property rights, the state could do so only for some public advantage, and the citizen had to be compensated for the deprivation. n2

Yet the concept of compensation for governmental deprivation of private property did not originate as a protection against government intrusion into property rights per se. It emerged, rather, as a byproduct of action taken in furtherance of the government's duty to regulate and adjust economic power to "make life pleasant and agreeable for all fellow creatures in society." n3 Objections to government action stemmed primarily from specific situations in which the state seized houses and goods for use by the army during wartime. n4 The solution required the government, when taking property for the public good, to pay the owner a "just price." Thus parity was achieved on behalf of the property owner by placing the state in the position of a party to a sales transaction.

Legislatures took responsibility for compensating their citizens according to their own criteria. n5 Courts, however, hesitated to impose compensatory fines where the legislatures chose not to award the owner for property taken. n6

Colonial America did not embrace these earlier notions of fairness, and uncompensated takings occurred regularly throughout the Revolutionary War. Indeed, the republican ideology that dominated the era was highly suspicious of property and the power it bestowed. Thomas Jefferson and Benjamin Franklin relegated property rights to a position vulnerable to the "calls of society." Legislatures had the duty to promote and protect the common good, including property, but in the democratic society they envisioned, the concentration of wealth and power possessed by the property owners would not overwhelm the interests of the common good. n7

Over time that view changed, and the concept of government as protector of the public good gave way to the colonists' distrust of any government action adversely affecting their self-interests. This reflected a change in the fundamental approach to the relationship between government and its citizenry, out of which came laws to protect several individual freedoms from government interference.

One of these was the Just Compensation Clause of the Fifth Amendment, though it almost certainly was designed only to limit physical takings by the federal government. n8 In practice the amendment forced courts to evaluate the constitutional justifications for legislation that impaired existing property rights by weighing the private and public interests at stake. n9 But most courts found that the amendment left little deference to the legislatures.

In 1837 the United States Supreme Court (the "Court") held in *Charles River Bridge v. Warren Bridge* that the Massachusetts Legislature did not violate the constitutional rights of Harvard College when it authorized construction of a second bridge, adjacent to the plaintiff's bridge, across the Charles River. n10 The decision was based on the state's obligations under contract law, and all but ignored the takings arguments set forth by the plaintiffs. Justice Taney, writing for the majority, stated:

> [I]t is apparent that the plaintiffs [cannot establish] that vested rights of property have been divested ... They must show that the state entered into a contract with them ... not to establish a free bridge at the place where the Warren bridge is erected. Such, and such only, are the principles upon which the plaintiffs in error can claim relief in this case. n11

In his concurring opinion Justice M'Lean explained that because the legislation did not directly involve the plaintiff's bridge, no taking could be found: n12

> Had this court established the doctrine that where an act of a state legislature affected vested rights held by a grant from the state, the act is repugnant to the constitution of the United States, the same principle must have applied to all vested rights. n13

So it was established early in constitutional history that legislation that merely affected property values would not be held a taking under the Fifth Amendment or its state equivalents. Given the origin of the amendment as a check on the authority of the federal government to expropriate the property of private citizens, that is hardly a remarkable conclusion.

§ 81.02(b) Foundations of Modern Takings Law, 1865-1922.

The history set out above reflects a Fifth Amendment Taking Clause seldom invoked and not very relevant to questions of the day concerning economic rights. All that changed after the Civil War when two tributaries of constitutional law, each with an important and separate history and identity, gradually flowed together to establish the mainstream of the current federal law of regulatory takings. The first of these branches involved the definition, exercise and restraint of the states' police power; the second concerned the gradually expanding definition of the Takings Clause and its eventual application to state and local activity. The first two subsections below discuss the police power and its chief restraints. Subsection 81.04(c) then discusses the Fifth Amendment expansion. Much of these analyses applies equally to state court developments during the same time period, which will be covered in § 81.06.

COMPUTER-ASSISTED RESEARCH

LEXIS: taking! w/1 clause

§ 81.02(b)(1) The Police Power of the States.

The idea that the legislative bodies of sovereign governments have the inherent authority to restrain, regulate and prohibit private conduct that negatively affects the public welfare is deeply embedded in Anglo-American law. In the mid-eighteenth century Blackstone summarized how the concept had developed in Great Britain by referring to "the due regulation and domestic order of the kingdom, whereby the individuals of the state, like the members of a well governed family, are bound to conform their general behavior to the rules of propriety, good neighborhood, and good manners, and to be decent, industrious, and inoffensive in their respective stations." n14

How this authority came to be called the police power seems lost to history, though it was clearly related to the traditional "police" function of protecting the citizenry. n15 Neither the term nor any working definition was written into the U.S. Constitution, an appropriate absence given that the federal government was created as one of limited, enumerated powers. Thus, whether Congress has exercised the police power is a semantic question -- it can legislate only through its express powers or the Necessary and Proper Clause, regardless of the nomenclature applied to its actions.

So it was the several states, and later their governmental delegates, that became the sole repositories of police power authority. Whether the authority never left the states when the enumerated powers were delegated to the federal government, or whether it was specifically reserved to the states through the Tenth Amendment again seems unimportant. n16 What became both important and very clear by the early nineteenth century was that the federal courts were recognizing and deferring to an exclusive state power to legislate in myriad areas of social and economic concern. An early and principal example of this view came in the headwater case of *Gibbons v. Ogden* when Chief Justice Marshall wrote that "state governments ... retain and exercise all powers not delegated to the Union," while noting that the Union had "no claim of a direct power ... to act directly on [a state's] system of police." n17

For some time the Court had difficulty giving precise definition to the power or powers in question. Surely the widest-sweeping example was that offered by Chief Justice Taney in the License Cases:

> But what are the police powers of a state? They are nothing more or less than the powers of government inherent in every sovereignty to the extent of its dominions. n18

Within a quarter century, however, the Court, while admitting that the [police] power was "incapable of any very exact definition," had modified Taney's view toward a more traditional one:

> [The police power] extends ... to the protection of ... all persons, and the protection of all property within the State; ... and persons and property are subjected to all kinds of restraints and burdens in order to secure the general comfort, health, and prosperity of the State. n19

By 1887 the Court had again modified its formula, coming very close to what has been considered the working definition of the police power ever since:

> It belongs to [the legislative branch] to exert what are known as the police powers of the State, and to determine, primarily, what measures are appropriate or needful for the protection of the public morals, the public health, or the public safety. n20

By the turn of the century the "general welfare" n21 was added to health, safety and morals to form what has become known as the "orthodox quartet" of values that can be the object of valid state legislative actions restraining, regulating or prohibiting private acts for the common good.

The police power is the most general, far-reaching and intrusive authority recognized by our constitutional system, and the exercise of this powerful authority lies at the heart of regulatory takings claims. But the police power is not unfettered. The federal courts have long found at least two constitutional limitations on its exercise, one of which has played a pivotal role in the development of the law of regulatory takings.

COMPUTER-ASSISTED RESEARCH

LEXIS: police w/1 power! w/15 state!

§ 81.02(b)(2) Federal Courts Restraining the Police Power: Substantive Due Process.

The first constitutional limitation imposed on the police power by the federal courts had little to do with regulatory takings. In *Gibbons v. Ogden*, Chief Justice Marshall opined that the police power, whatever its source, did not give states exclusive authority over matters within the power's reach. Congress, too, could regulate matters of state concern if those fell within one of its express or implied powers. And if Congress so chose to regulate, federal regulation was supreme. n22

The more relevant limitation began developing a half-century later when the federal courts had to determine whether the newly-ratified Fourteenth Amendment to the U.S. Constitution created any *substantive* limitation on the police power. The critical language in the amendment was: "[n]or shall any State deprive any person of ... property, without due process of law...." n23 It was evident from the beginning that this restraining language imposed new procedural limitations on state activity. n24 What was not evident was whether it also imposed a limitation on the overall reach of the police power.

The idea that the ancient right to "due process" was a restraint on legislative -- as opposed to judicial or executive -- action sprang up without either warning or stated foundation in a pre-Civil War federal case interpreting the Fifth Amendment. n25 But that interpretation involved procedural protection, and the only case in which the concept was employed as a substantive limitation was discredited by the war itself. n26 Thus, by the time the Fourteenth Amendment was ratified there was no particular reason to believe that the Due Process Clause would be interpreted as a substantive limitation on the exercise of state legislative authority.

And it was not, at least for some time. The argument was raised and answered in the *Slaughter-House Cases*, n27 where New Orleans butchers and citizens argued that they had been denied due process by an act of the Louisiana Legislature granting an exclusive slaughtering franchise to a single entity. n28 The response from the majority of the Court was direct:

> [U]nder no construction of [the Due Process Clause] that we have ever seen, or any that we deem admissible, can the restraint imposed by the State of Louisiana ... be held to be a deprivation of property with the meaning of that provision. n29

Yet only four years later the court's view began to change. As more states passed more extensive legislation regulating the harmful effects of both unrestrained capitalism and the industrial revolution, now in full bloom, legal representatives of those regulated continued to push the federal courts to recognize a due process limitation on state legislative authority. The breakthrough came in *Munn v. Illinois*, where the Court, while holding the particular rate regulations before it constitutional, did so because the grain elevators involved were "affected with a public interest." n30 As Professor Currie has written:

> By stressing the public interest in grain elevators, the Court seemed to imply that they were extraordinary, and that similar regulation of other businesses might not pass muster. By employing the rhetoric of substantive due process without ever having justified its acceptance, moreover, Waite made it

> easy for his successors to argue that the principle had already been established...." n31

On several occasions over the next decade the Court teetered on the edge of formally declaring a substantive due process limitation on state legislation. But it was not until the *Minnesota Rate Case* in 1890 that the Court actually invalidated an act on that ground. n32 The final step came seven years later when it struck down legislation prohibiting insurance sales to companies not admitted to business in the regulating state. n33 While most of that unanimous opinion centered on state authority over foreign corporations, the Court also offered a broad interpretation of the Due Process Clause as a limitation on police power legislation. A new era was formally underway, one in which the Court took a very active role in reconciling state legislation with its own (quite conservative) economic and social views.

The case that would give this era its nickname also contained the clearest exposition of the Court's vision:

> It must, of course, be conceded that there is a limit to the valid exercise of the police power by the State. There is no dispute concerning this general proposition. Otherwise the Fourteenth Amendment would have no efficacy and the legislatures of the States would have unbounded power, and it would be enough to say that any piece of legislation was enacted to conserve the morals, the health, or the safety of the people ... n34

The so-called *"Lochner era"* lasted for over three decades after that statement, and several more police power measures were struck down during its time at center stage. n35

The Court used many different word combinations to describe its formulation of the substantive due process limitation during its development. n36 Fundamentally, though, as the *Lochner* quote indicates, the doctrine required police power legislation to have an objective related to protection of health, safety, welfare or morals, and for the means employed in the legislation to advance that legitimate purpose.

The Court's adoption of the substantive due process doctrine had several lasting effects on the development of regulatory takings law. First, for the next several decades substantive due process was the principal federal limitation on state laws restricting or prohibiting certain land uses (see § 81.03(a), *infra*). Second, the ends/means substantive due process formulation became the first half of the modern definition of when a statute or regulation effects a regulatory taking under the Fifth and Fourteenth Amendments (see § 81.03(d), *infra*). Third, this close historical relationship with substantive due process became the centerpiece of an important modern issue regarding the very nature of regulatory takings (see § 81.04(g), *infra*). Finally, in a recent, highly controversial decision, certain violations of the substantive due process standard may have become the automatic equivalents of regulatory takings without regard to other, more traditional tests (see § 81.04(h), *infra*).

§ 81.02(b)(3) From Title to Invasion: The Early Federal Appropriation Cases.

The Fifth Amendment Takings Clause reads as a limitation on an unstated, but assumed, power. n37 By the end of the nineteenth century, however, any question of authority was well settled, with the Court having recognized that all sovereigns have the inherent authority to condemn property for public use. n38

But what if the government in question simply took the property without bothering to condemn it? Is the landowner protected nevertheless? What if the government only used the property rather than appropriating title? What if it

physically invaded, but only briefly? Permanently? Such questions seldom arose during the initial constitutional era when the federal government took little interest in acquiring private interests in land. But the expansion of regulatory controls that accompanied the industrial explosion after the Civil War eventually raised all these questions, and others. And the answers the Court gave became the basic jurisprudence that would join with the concept of substantive due process to form modern regulatory takings law.

The question of whether the government could destroy an existing property interest through confiscatory legislation rather than condemnation was decided early in American constitutional history. In one of his many watershed opinions, Chief Justice Marshall stated:

> It may well be doubted whether the nature of society and of government does not pre-scribe some limits to the legislative power; and, if any be prescribed ... if the property of an individual ... may be seized without compensation. n39

The next step, and the Court's first significant interpretation of any takings clause, came shortly after the Civil War when a landowner sued because his land had been flooded by the overflow from defendant's dam. Defendant relied significantly on a Wisconsin statute that had permitted the dam to be constructed, maintaining that the Wisconsin Takings Clause was irrelevant because plaintiff's land was not "taken or appropriated." In *Pumpelly v. Green Bay Co.*, the Court rejected the defense as an overly narrow reading of the state takings provision, and hinted that the action would likewise violate the Fifth Amendment provision: "[B]y the construction now sought to be placed upon the Constitution it would become an instrument of oppression rather than protection of individual rights." n40 Two later flooding cases made clear that permanent, governmentally-sanctioned occupation constituted a taking under the Federal Takings Clause, whether or not condemnation was invoked. n41

The Court's final important Fifth Amendment interpretation of the nineteenth century was significant in two ways. First, *Chicago, B. & Q. R.R. v. Chicago* n42 reemphasized Chief Justice Marshall's point that the mandatory appropriation of title was a taking, adding that the procedure employed could not change that outcome:

> The mere form of proceeding against the owner, even if he be admitted to defend, cannot convert the process used into due process of law, if the necessary result be to deprive him of his property without compensation. n43

Of even greater long-term importance, the Court ruled that the Fifth Amendment Takings Clause would henceforth be applicable to state actions, thereby reversing its own position announced in *Pumpelly*. n44

And so it was that there developed three distinct lines of cases that eventually came together to form the law of regulatory takings. Early judicial interpretations of the police power gave the states great authority to restrict the private use of property, without compensation, through legislation designed to protect health, safety and morals. Later, the federal courts began using their own judicially-created substantive due process doctrine to curtail use of the police power by carefully examining both the ends of police power legislation and the means employed to achieve those ends. And finally, the Fifth Amendment Takings Clause was interpreted to protect property owners against "invasions" that were something less than outright appropriations of title, and to apply that protection against regulation by all levels of government.

The stage was thus set; the players were all in place. The next question was inevitable, and it came to the Court again and again in those formative years.

CHAPTER 81 REGULATORY TAKINGS

9-81 Thompson on Real Property, Thomas Editions § 81.03

AUTHOR: Professor Michael J. Davis, Esq. University of Kansas School of Law

§ 81.03 Development of Modern Takings Law.

[Go To Supp]

§ 81.03(a) Can Regulation Alone Be A Taking? The Supreme Court Says "No."

Between the Civil War and World War I, new technologies in manufacturing, communication and transportation changed the face of the American continent. But, as usual, progress came at a price, and a substantial part of the price of the industrial revolution was a shocking explosion of urban problems, environmental ravaging, and novel health and safety hazards.

To deal with this "Brave New World" the states and their local delegates flexed their police power muscles and began a far more detailed regulation of daily life than had ever before occurred in America. A full list of subject matters of "reform" legislation passed during that era would fill a tomb. Put simply, state and local governments, all of which had previously been concerned primarily with building an occasional road or public building, now found themselves regulating everything from what their citizens ate and drank to where and how long they could work, to how they could or could not use their real and personal property. In a nation built on individualism and "Governing Best by Governing Least," this new perspective of public responsibility was bound to face a series of stiff legal challenges.

One of the early challenges came from a Chicago transportation company blocked from its docks by tunnel work being performed by the city. The owner also alleged that the work had directly damaged some of the docks' structures. In *Transportation Co. v. Chicago*, the Court held that the owner had no claim under the Takings Clause for either set of alleged damages because:

> [A]cts done in the proper exercise of governmental powers, and not directly encroaching upon private property, are universally held not to be a taking within the meaning of the [takings] provision. They do not entitle the owner of such property to compensation from the State ... n45

The Court referred to Cooley's famous treatise on constitutional law for an authoritative explanation of this doctrine, and cited *Pumpelly* as the notable and distinguishable exception to this holding, emphasizing the permanency of the invasion there. n46

This and other similar cases were constructed and decided on an assumption, only partially articulated in its early stages, that became the cornerstone of regulatory takings jurisprudence during that initial era. The assumption was that in taking claims involving neither direct appropriation nor permanent occupation, the only issue before the Court was the legitimacy of the governmental conduct involved. The severity of the impact of that conduct on the plaintiff/owner was irrelevant so long as the governmental activity was legitimate. In other words, these cases were treated simply as substantive due process cases, focusing exclusively on the relationship of the regulation to the police power. On rare occasions the Court seemed to stray from this viewpoint, and at a later time its position would be explained more narrowly. n47 But a careful reading reveals that these cases were decided purely and simply on due process grounds, with no mention made of, and no consideration given to, the impact of the regulation on the claimant.

Any doubt about the dominance of this viewpoint within the Court was erased a decade after the *Transportation Co.* decision, when an unhappy brewery owner challenged Kansas's early experiment with prohibition. Peter Mugler claimed that the constitutional amendment and executing legislation creating prohibition had taken his brewery without compensation. In *Mugler v. Kansas* n48 the Court upheld the state's position. After reiterating its decision in *Transportation Co.* and again distinguishing *Pumpelly*, the Court offered a clearer exposition of a view of the relationship between substantive due process and takings that would dominate this early period:

> [T]he present case must be governed by principles that do not involve the power of eminent domain... A prohibition simply upon the use of property for purposes that are declared, by valid legislation, to be injurious to the health, morals, or safety of the community, cannot, in any just sense, be deemed a taking or appropriation of property for public benefit. Such legislation does not disturb the owner in the control or use of his property for lawful purposes, nor restrict his right to dispose of it ... Nor can legislation of that character come within the Fourteenth Amendment ... unless it is apparent that its real object is not to protect the community, or to promote the general well-being, but, under the guise of the police regulation, to deprive the owner of his liberty and property, without due process of law. n49

Roughly translated, the Court held that so long as a police power regulation met its substantive due process ends/means test, the regulation could not be a Fifth Amendment taking, regardless of its impact on the claimant.

With only occasional exception, the Court maintained this position on regulatory takings claims until the 1920s. In the very case in which it incorporated the Fifth Amendment takings limitations into the Fourteenth Amendment Due Process Clause, it held that the Takings Clause "imposes no restriction upon the inherent power of the State by reasonable regulations to protect the lives and secure the safety of the people." n50 Eight years later it flatly stated that "uncompensated obedience to a [police power] regulation ... was not taking property without due compensation." n51 Sometimes the Court seemed to be stating a narrower rule, one holding that a state could always regulate a nuisance out of existence. n52 But as late as its famous 1926 decision upholding the constitutionality of zoning, the Court upheld a challenge solely through the substantive due process test, even though there were unchallenged allegations of serious diminution in value and despite the fact that at least some of the owner's desired uses would not have been nuisances if allowed to develop. n53

So for a half century, from the early days of the substantive due process doctrine until after World War I, the dominant view on the Court was that there was really no such thing as a regulatory taking -- a property owner might bring an inverse condemnation action if a government appropriated the title without bothering to condemn the interest, or if it permanently occupied the property without payment or permission. But pure regulation of use was not, could not be, an unconstitutional taking of the regulated property.

Only occasionally was there a hint of a different view, one that considered the impact of the regulation on the property owner as part of the calculus, thus anticipating the possibility of a regulatory taking. In *Lawton v. Steele*, for example, the Court stated for the first time in a land use context that "unduly oppressive" regulations could be considered a taking. n54 Fourteen years later, writing a unanimous opinion upholding the contested regulation in *Hudson Water Co.*

v. McCarter, Justice Holmes noted in dictum that if a regulation did not permit a property owner a reasonable use the "police power would fail." n55 In a third case, a somewhat jumbled opinion by Justice Harlan not only made reference to both the traditional view and the idea that regulations could be takings, but added a third way that the Court might view the relationship between Fourteenth Amendment Due Process and the now incorporated takings clause. n56

§ 81.03(b) Directions Change: Regulations As Takings.

Holmes' opinion in *McCarter* was not the first indication that this Justice had a somewhat different view of the due process/taking relationship than the one that had predominated the Court. While serving as a Justice on the Supreme Judicial Court of Massachusetts, Holmes wrote an opinion reflecting a view that the difference between a valid police power restriction and a taking of property was one of degree rather than kind:

> It may be said that the difference is only one of degree; most differences are when nicely analyzed. At any rate, the difference is one of the distinctions by which the right of the legislature to exercise the police power is determined.

Some small limitations of previously existing rights incident to property may be imposed for the sake of preventing manifest evil; larger ones could not be except by the exercise of eminent domain. n57

Holmes brought this view to the Court, though he participated as a member of the majority in many opinions of the era treating regulatory takings claims solely as substantive due process cases. The first mention was in *McCarter,* some eight years after his arrival on the Court, and it was not until after World War I that he successfully promoted the concept among the other justices.

The initial indication that something new was afoot came, as is often the case, in an opinion upholding the restriction in question. Faced with an acute shortage of rental property and the resultant rapid increase in rents in the District of Columbia after the war, Congress responded by imposing emergency rent control legislation. Holmes wrote for a 5-4 majority upholding the restrictions. The nub of the opinion was prosaic; the anti-gouging provisions were no different than many restrictions that had previously been upheld under due process challenges. But he did not stop there. Uncharacteristically, the usually pithy Holmes added a brief lecture on constitutional theory:

> All the elements of a public interest justifying some degree of public control are present. The only matter that seems to us open to debate is whether the statute goes too far. For just as there comes a point at which the police power ceases and leaves only that of eminent domain, it may be conceded that regulations of the present sort pressed to a certain height might amount to a taking without due process of law. n58

The next year, though, the world of takings jurisprudence permanently changed to accommodate Holmes' relativist view. After long study of the terrible subsidence problems in the northeast corner of the state of Pennsylvania caused by mining the rich beds of anthracite coal there, in 1921 the Pennsylvania Legislature passed a statute which, among other things, prohibited mining that caused subsidence of public or private property. Much of the private property in the area had originally been owned in fee by coal companies, which had then sold off the surface rights to homeowners. One owner of such surface rights sought an injunction under the legislation to prevent the coal company that owned the mining rights from digging beneath the property. The coal company claimed that the operation of the Act in such circumstances effected a taking of its property. The Pennsylvania Supreme Court disagreed, holding that the legislation

was within the police power, and that the usual substantive due process analysis was unaffected by the nature of the title holding. The coal company appealed to the U.S. Supreme Court, where Justice Holmes awaited the opportunity to change the course of takings jurisprudence. n59

Pennsylvania Coal v. Mahon n60 instantly became the headwater case of regulatory takings law, and Justice Holmes' majority opinion included several concepts that have dominated all regulatory takings decisions since. Yet nothing about the opinion was more important than what it did *not* discuss, which was the chilling evidence brought forth by those defending the statute concerning the perils to health and safety from subsidence, evidence that had convinced the Pennsylvania Legislature to pass the law in the first place. n61 Unlike any previous "takings" decision, the Court showed little interest in the substantive due process link between the harm the regulation targeted and the means selected to serve that end. If the validity of the governmental conduct had been the question, the legislation would easily have fallen within constitutional bounds.

Holmes actually began within the traditional analysis by stating that the case involved only "a single private house," concluding that the public interest in protecting such a small interest failed to justify the considerable intrusion into the Company's property rights. Had the opinion ended there, little would be remembered of the decision. But it did not. Having rendered his decision, Holmes proceeded, again characteristically, to offer the Court's views on the "general validity of the Act." It was this second aspect of the opinion, arguably dictum, that formed the foundation of modern regulatory takings law.

Holmes first noted that the regulation made it "commercially impracticable" to mine the affected coal, which had "very nearly the same effect as appropriating or destroying it." n62 He then distinguished another Court decision upholding a Pennsylvania regulation requiring each operator to leave a support pillar along its property line. As all operators left a pillar, thereby protecting the safety of all employees collectively, this latter legislation "secured an average reciprocity of advantage" to the regulatee that the legislation did not bring. n63

Preliminaries dispensed with, Holmes brought his relativist philosophy to center stage. Property can only be taken through the Fifth Amendment with just compensation, he noted, except as "qualified by the police power." n64 But the police power must itself be qualified to protect individuals against the natural tendency of governments to destroy private interests for public gains "until at last private property disappears." n65 He then announced the "general rule" that became the modern standard: "[W]hile property may be regulated to a certain extent, if regulation goes too far it will be recognized as a taking." n66 After a paragraph of review of cases that did not "go too far," he ended with an assurance that Pennsylvania could battle subsidence in the chosen way so long as it was prepared to give just compensation for coal owners' losses.

Several aspects of Holmes' majority opinion troubled dissenting Justice Brandeis. He first reminded the Court that the accepted test of police power legislation was the validity of the governmental act, not its impact on the property owner, especially when the restriction was "merely the prohibition of a noxious use." n67 In such instances "[t]he State does not appropriate [the property] ... [it] merely prevents the owner from making a use which interferes with paramount rights of the public." n68

He was no more impressed with Holmes' view that the right to mine was separately protected by the Fifth Amendment. By limiting mining, the regulation unquestionably destroyed some of the value of the fee simple interest. But it also improved the value of the surface rights, perhaps to an even greater extent. Thus, had the same person owned the entire fee, no taking could possibly have been found. Yet regulation was held unconstitutional because the fee had been divided between the mineral owner and the surface owner. In an argument that directly foreshadowed the next great regulatory takings case, Brandeis asked:

> [N]o one would contend that by selling his interest above one hundred feet from the surface he could prevent the State from limiting, by the police power, the height of structures in a city. And why should a

> sale of underground right bar the State's power? n69

Brandeis finally challenged the idea that a police power regulation had to carry "an average reciprocity of advantage" to be constitutional. That might be so, he conceded, when the purpose of legislation is to confer a public benefit: "But when the police power is exercised, not to confer benefits ... but to protect the public from detriment and danger ... there is no room for considering reciprocity of advantage." n70 To bolster his point he cited several cases in which the Court had upheld extremely burdensome regulations without mention of reciprocity of advantage "unless [it was] the advantage of living and doing business in a civilized community." n71

It was not apparent immediately after *Pennsylvania Coal* that the jurisprudence of takings law had changed dramatically. Indeed, before five more years passed, Holmes had voted with the majority in two cases that reverted to a pure substantive due process analysis for determining the constitutionality of regulations that severely reduced the value of private property. (*See* § 81.03(c), *infra*). But over time its importance grew until it had become the bellwether of all regulatory takings cases.

The reasons for this ascension to prominence were several. First and most important, the opinion recognized that a regulation could take property without either appropriating title or causing a physical invasion. Second, it introduced a nebulous test to determine when a regulation crossed the invisible line to unconstitutionality. Third, it gave birth to the idea of reciprocity of advantage as a key element in takings decisions. Fourth, it set off an argument about how the nature of the "property" taken should be evaluated. Fifth, it initiated a debate about whether regulatory takings were qualitatively different than traditional takings for the purpose of invoking a remedy. Finally, it introduced the concept of the "nuisance exception," the idea that some uses could be regulated out of existence without compensation. All six of these aspects of the decision came back again and again to affect future Court determinations of how *Pennsylvania Coal* should be invoked, and each will be analyzed separately in the sections below.

§ 81.03(c) 1928-1978: A Half-Century of Drift.

As indicated above, the Court seemed to forget *Pennsylvania Coal* once it had been decided. Four years later in *Village of Euclid v. Ambler Realty Co.,* n72 virtually the same Justices upheld the facial constitutionality of zoning through a straight due process analysis, despite evidence that the mere imposition of the ordinance reduced the plaintiff's land values between 67-75%. Regulatory takings went unmentioned even though the nub of the case was that some of the uses the ordinance barred from plaintiff's tracts would not have been nuisances. Two years later the Court upheld the state of Virginia's right to destroy a landowner's cedar trees because their spores were despoiling nearby apple orchards. n73 Again there was no reference to either *Pennsylvania Coal* or regulatory takings, and the Court was very definite in its views:

> [W]here the public interest is involved, preferment of the [legislatively determined] interest over the property interest of the individual, to the extent even of its destruction, is one of the distinguishing characteristics of every exercise of the police power which affects property. n74

Justice Holmes was in the majority in both this decision and *Ambler Realty*.

During the fifty years following the Virginia decision, the Court took few opportunities to review the constitutionality of land use regulations. In the two most significant cases when it did, the confusion left over from the Holmes era was apparent. In *United States v. Central Eureka Mining Co.* n75 it denied gold mine owners' request for compensation for a government-ordered closing of non-essential mines during World War II. Striking a pose it asserted to be "traditional" but which was, in fact, brand new, the Court said regulatory takings claims were "a question properly turning on the particular facts of each case," citing *Pennsylvania Coal*. n76 The next sentence recognized that regulations "can so diminish the value of property as to constitute a taking," but cited two physical invasion cases for the proposition. n77 Then to muddle matters totally, the majority cited *Mugler* for the proposition that depriving an owner of the "most

profitable use" did "not necessarily" create a taking.

The second decision, *Goldblatt v. Hempstead* n78 began no better. In holding constitutional a regulation effectively terminating plaintiff's profitable sand dredging business, the Court first repeated *Central Eureka's* dictum about prohibiting the most profitable use, then cited *Pennsylvania Coal*, for the proposition that "[t]here is no set formula to determine when regulation ends and taking begins." n79

But the *Goldblatt* decision went beyond *Central Eureka*, adding a passage that would lead to a significant development. The plaintiff's fundamental claim was based on impact, alleging a taking by significant diminution in value. The Court found insufficient proof for such a claim; it then added that the regulation was therefore constitutional "if it is otherwise a valid police regulation." n80 This unheralded, perhaps accidental, analysis was the first time the Court had melded the Holmes' "too far" test with the traditional substantive due process test as a *combined* test of constitutionality.

Thus, while little happened between 1928 and 1978, the era was not totally without influence, for in *Central Eureka* and *Goldblatt* the Court offered a preview of the modern era to come, both by refusing to develop a formula clarifying what regulating "too far" meant, and by suggesting that regulations would thereafter be required to pass both *Pennsylvania Coal* and the traditional ends/means test to be constitutional.

§ 81.03(d) Development of the Modern Takings Test.

In the late 1960s the owner and lessee of Grand Central Terminal in New York City applied for permission to build an office tower atop the existing structure. The terminal had been designated a "landmark" by the city, and the designated city agencies denied the tower applications because the plans were not "appropriate" on either historical or aesthetic grounds. The owner then filed an action in the New York courts alleging, among other things, that the city had "taken" the property by denying the permit. After a victory in the trial court, the plaintiff lost at both New York appellate courts. The United States Supreme Court granted certiorari, and the modern takings era began.

The principal importance of *Penn Central Transportation v. City of New York* n81 was that Justice Brennan's majority opinion affirming that no taking had occurred marked the first occasion in the Court's history when it attempted a systematic review and exposition of its views on the topic of regulatory takings. By discussing virtually every aspect of federal takings law, *Penn Central* offered a restatement of prior Court opinions and also set the agenda for every federal takings decision handed down since. Most relevant to this subsection, it laid the conceptual and semantic foundations for the modern, and current, test of when a regulation constitutes a taking.

Brennan's recap of previous decisions began by repeating the *Goldblatt* confession that the Court had failed "to develop any 'set formula' for determining when [a takings had occurred]" and the *Central Eureka* pronouncement that decisions turned largely "upon the particular circumstances [of the] case." n82 But there were, he stated, "several factors that have particular significance." n83 It was in identifying these factors that Brennan formed the basis of the modern takings test.

At least two factors were mentioned almost in passing. The interest invaded had, of course, to constitute "property" to fall within the protection of the Fifth and Fourteenth Amendments. n84 Also, government actions "characterized as acquisitions of resources to permit or facilitate uniquely public functions" were more susceptible to takings claims. n85

Clearly critical to the calculus were three other factors:

1) "The economic impact of the regulation on the claimant and, particularly, the extent to which the regulation has interfered with distinct investment- backed expectations;" n86

2) "the character of the government action;" n87 and

3) "instances in which a state tribunal reasonably concluded that 'the health, safety, morals, or general welfare' would be promoted by prohibiting particular contemplated uses of land." n88

The opinion recognized that there would be times when the factors were in opposition, and gave a strong boost to regulatory authority. Zoning laws were "the classic example" of when economic impact had to give way to the police power. More directly, the Court had decided a number of cases when "the challenged governmental actions prohibited a beneficial use to which individual parcels had previously been devoted and thus caused substantial individualized harm." n89

In retrospect, the most interesting aspect of this sweeping review was a single sentence that became, apparently unwittingly, the seed from which the modern test grew. In his last paragraph analyzing the cases upholding governmental authority to prohibit certain uses without regard to impact on the property owner, Brennan summarized:

> It is, of course, implicit in *Goldblatt* that a use restriction on real property may constitute a "taking" if not reasonably necessary to the effectuation of a substantial public purpose ... or, perhaps, if it has an unduly harsh impact upon the owner's use of the property. n90

This recapitulation became the officially adopted test two years later when the Court again held for the government in a takings challenge. In *Agins v. Tiburon* n91 the claimant argued that the failure of the city to rezone his tract to allow a more intense residential development "completely destroyed its value." The Court's unanimous opinion found no taking, and for the first time unequivocally set forth what it deemed the federal test -- a regulation "effects a taking if [it] does not substantially advance legitimate states interests ... or denies an owner economically viable use of his land ...." n92 So the combined test, first hinted at in *Goldblatt* and repeated in a conclusory way in *Penn Central*, had now become the official definition. It has remained so since, though as the next several subsections make clear there has been great disagreement within the Court on precisely how the test should be employed and what remedies follow from a finding that a regulation has violated one or the other part of the test.

CHAPTER 81 REGULATORY TAKINGS

9-81 Thompson on Real Property, Thomas Editions § 81.04

AUTHOR: Professor Michael J. Davis, Esq. University of Kansas School of Law

§ 81.04 Specific Aspects of Federal Takings Law.

[Go To Supp]

Developing a test for adjudicating when a regulation can become a taking was a monumental task for the Court. It was almost a century from *Mugler* to *Agins*, and several models had suggested themselves in the interim. But choosing the combined substantive due process/economic impact test was less than half the battle. As federal judicial decisions since *Agins* have demonstrated, the more difficult problem is applying the test to a myriad of fact patterns. Critical to this application have been a great variety of subissues that plaintiffs have raised during takings litigation. Many come from unique fact patterns, though the roots of a surprising number can be found in *Pennsylvania Coal*, *Penn Central*, or both.

§ 81.04(a) What is "Property" Under the Fifth Amendment?

The Fifth and Fourteenth Amendments refer only to "property." Other valuable economic interests must look elsewhere for protection. Only a limited number of cases address the question of what interests are covered by the property rubric. They generally fall into two categories: those that consider the broad question of what interests are covered, and those that wrestle with how a particular property interest is viewed *vis-a-vis* the fee simple title.

LEXIS: property w/5 defin! w/15 fifth w/1 amendment

§ 81.04(a)(1) When is an Economic Interest "Property"?

While offering his comprehensive review of the previous Court takings decision in *Penn Central*, n93 Justice Brennan noted that "this Court has dismissed 'takings' challenges on the ground that, while the challenged government action caused economic harm, it did not interfere with interests that were sufficiently bound up with the reasonable expectations of the claimant to constitute 'property' for Fifth Amendment purposes." n94 The principal case he cited remains one of the leading analyses of when an economic interest rises to the level of "property."

In *United States v. Willow River Power Co.* n95 the claimant was awarded $25,000 by the Court of Claims as Fifth

Amendment compensation for the diminution of the operating head on its hydroelectric plant caused by a federally built dam on the navigable St. Croix River, which backed water up the unnavigable Willow River. The ordinary elevation on the Willow increased three feet, thus reducing the amount of electricity the claimant could generate.

The Court reversed the award because the United States' dominant public interest in navigable waters gave the government the right to override other economic interests without compensation. n96 The Court held that the claimant's interest in the preexisting water level (or, as it is more fun to think about, the previously empty three feet of space) did not amount to a "property right" under the Fifth Amendment. n97 Justice Jackson noted that the interest alleged was akin to that of a riparian landowner on a navigable waterway, and that such interests are held at the grace of the federal government. Jackson's attempt at defining what is and is not compensable was, alas, circular and unhelpful:

> [N]ot all economic interests are 'property rights'; only those economic advantages are 'rights' which have the law back of them, and only when they are so recognized may courts compel others ... to compensate for their invasion. n98

As Professor Berger plaintively asked: "Did [Willow River] lose because it had no property or did it have no property because it lost?" n99

A year later the Court decided *United States v. Causby,* n100 involving a claim by owners of a chicken farm that the glide path of fighter planes landing nearby was so low that it interfered with the use of the airspace above their property. The excessive noise and bright lights caused the claimants to suffer frequent loss of sleep and constant nervousness, and killed a number of their chickens.

This time the Court found a taking, stating that "[i]f the landowner is to have full enjoyment of the land, he must have exclusive control of the immediate reaches of the enveloping atmosphere." n101 It also provided considerably more help in determining how to identify protectible interests, holding that even in federal cases "local law" should be referred to in order to determine what matters of value are constitutionally protected. n102 Because North Carolina law provided that extremely low aircraft flights could be an unlawful interference with the use of real property, the Court concluded that the claimants were entitled to compensation for their losses.

The importance of state law in defining Fifth Amendment property interests was solidified in *Board of Regents of State Colleges v. Roth,* a Fourteenth Amendment claim involving the alleged intangible property right to continued employment. n103 The Court held that the claimant had no property right meriting the procedural due process protections of the Fourteenth Amendment. A property right, it noted, must be more than an abstract need or desire for a benefit. It must, rather, involve a legitimate claim of entitlement:

> Property interests are not created by the constitution but by existing rules or understandings that stem from an independent source such as state law. n104

Because here the expectation on which claimant relied could not be found in either state law or his own employment contract, it was not a constitutionally protected interest.

§ 81.04(a)(2) What Property Interest Can Be Taken Without Compensation?

A more frequent question than what interests are protected under the Fifth Amendment is what identifiable property interests can be interfered with or taken without compensation. A number of important takings cases have involved this

issue, including both *Pennsylvania Coal Co.* and *Penn Central*.

Pennsylvania Coal Co. turned in significant part on Holmes' statement that "[t]o make it commercially impracticable to mine certain coal has very nearly the same effect for constitutional purposes as appropriating or destroying it." n105 Brandeis' dissent challenged the statement, accusing the majority of increasing an owner's rights in property by dividing the title. If the same person owned the entire fee interest, he reasoned, the lost rights would be compared with those retained in an overall assessment of whether the government had exceeded its authority. "[T]he value of the coal kept in place by the restriction may be negligible as compared with the value of the whole property...." n106

A very similar issue arose in *Penn Central*. One of the claimant's arguments was that the air rights above the terminal constituted valuable, recognizable property that the city had taken by denying its application. Justice Rehnquist's dissent accepted the argument in modified form. n107 Justice Brennan's majority opinion did not:

> [T]he submission that appellants may establish a 'taking' simply by showing that they have been denied the ability to exploit a property interest that they heretofore had believed was available for development is quite simply untenable ... 'Taking' jurisprudence does not divide a single parcel into discrete segments and attempt to determine whether rights in a particular segment have been entirely abrogated ... [T]his court focuses rather ... on ... the interference with rights in the parcel as a whole ... n108

Subsequent jurisprudence followed the Brennan view. In *Andrus v. Allard* n109 the Court denied a claim by the owners of eagle parts that regulations forbidding the sale of such parts acquired before the effective date of the law constituted a taking. With Brennan again writing for the majority, it held that the regulations only prohibited one means of disposing of the artifacts and that "destruction of one 'strand' of the bundle [of property rights] is not a taking because the aggregate [of such rights] must be viewed in its entirety." n110 More ironically, in *Keystone*, the soft coal analog of *Pennsylvania Coal* itself, the Court denied the argument that the requirement of keeping fifty percent of coal in place constituted a taking *per se* because such coal did not "constitute a separate segment of property for takings law purposes." n111 The Court's latest pronouncement raises some questions about its ongoing allegiance to this "undivided fee" doctrine, but it remains the law of the land. n112

The "bundle of rights" that is property is generally considered to include three principal strands -- the right to use, the right to dispose, and the right to exclude. After *Penn Central*, *Andrus*, and *Keystone*, it was clear that interference with the rights of use or disposal did not automatically constitute a taking. But, as the following section demonstrates, not all rights in the bundle are equal, at least in takings jurisprudence.

§ 81.04(b) Physical Invasions v. Physical Occupations.

As recently as *Penn Central*, the Court apparently considered physical intrusion merely a factor to be considered in determining whether a regulatory scheme had "gone too far" and had thus become a taking. In his restatement of prior holdings Brennan noted that "[a] 'taking' may more readily be found when the interference with property can be characterized as a physical invasion by government...." n113 But it soon became clear that the word "invasion" covered only some of government's intrusions onto private property. Two decisions and four years later, the Court distinguished physical "invasion" from physical "occupation," and in the process engendered the only hard and fast rule in the takings calculus.

The initial indication that the Court was moving toward an absolute rule came during the term after *Penn Central*, in

Kaiser Aetna v. United States. n114 In holding that the Corps of Engineers' assertion of the traditional public easement for navigation could constitute a takings in certain circumstances, Justice Rehnquist's opinion noted the importance of the right to exclude:

> In this case we hold that the 'right to exclude,' so universally held to be a fundamental element of the property right, falls within this category of interests that the Government cannot take without compensation. n115

Three years later this hint that some physical invasions would no longer be "weighed" with other factors became black letter law. In *Loretto v. Teleprompter Manhattan CATV Corp.,* n116 the Court held that all physical "occupations" are takings. For precedent the majority harkened back as far as *Pumpelly* and the other nineteenth century cases first establishing the inverse condemnation right. n117 For policy, the majority argued that "the power to exclude has traditionally been considered one of the most treasured strands in the owner's bundle of rights" because without that right the concomitant rights of use and disposal are worthless. n118 In a footnote the Court cautioned that not all invasions are occupations: "Not every *invasion* is a taking... [T]emporary limitations are subject to a more complex balancing process to determine whether they are a taking." n119 The Court gave no guidance on how to identify which invasions are occupations, though the degree of permanence was clearly the essential basis.

§ 81.04(c) Creating Benefits and Preventing Harms.

One idea that grew out of the long stretch of Supreme Court inactivity between *Pennsylvania Coal* and *Penn Central* was that the essential distinction between regulatory schemes that constitute takings and those that do not concerned their natures -- schemes aimed at preventing public harms need not provide compensation to the regulated, those aimed at creating public benefits must. The concept arose from Brandeis' dissent in *Pennsylvania Coal* where he rejected Holmes' call for reciprocity of advantage by distinguishing between kinds of police power legislation:

> [W]here the police power is exercised not to confer benefits on property owners but to protect the public from detriment and danger, there is, in my opinion, no room for considering reciprocity of advantage. n120

The principal progenitor of the idea was Professor Allison Dunham, who relied on both Brandeis' dissent in *Pennsylvania Coal* and the majority in *Goldblatt* for his foundation. n121

To the extent it ever existed, the distinction seemed short lived. It was argued by the claimant in *Penn Central* as one basis for unconstitutionality of the historic preservation scheme, and was specifically rejected by Justice Brennan in an important footnote. n122 Brennan pointed out that many of the Court's takings precedents had upheld schemes banning uses that were lawful prior to institution of the challenged regulations. Those cases were constitutional not because they prohibited "noxious" uses but because they forwarded implementation of a policy of widespread public benefit. The footnote ended with a paragraph discussing the slippery semantic problems inherent in distinguishing regulations that created public benefits from those that prevented public harms.

The idea took an even more direct hit in *Lucas v. South Carolina Coastal Council*. n123 In rejecting the state's claim that the impact of its legislation on the claimant was irrelevant because it was preventing harm to the citizens of the State, the majority strongly rejected the notion that the police power had two sides. The opinion reiterated Brennan's arguments from the *Penn Central* footnote, then explained that the early emphasis on preventing public harms "was merely our early formulation of the police power justification necessary to sustain (without compensation) *any*

regulatory diminution in value." n124

The Court has thus at every opportunity rejected Brandeis' idea of distinguishing between preventing harm and creating benefits. Yet, as will be demonstrated later, the distinction still exists, now in the form of the so-called "nuisance exception." n125

§ 81.04(d) Reciprocity of Advantage.

The idea of "reciprocity of advantage" as an important element in takings jurisprudence stems from its use by Justice Holmes in *Pennsylvania Coal* to distinguish a precedent on which the claimant had relied. Only a few years earlier, a unanimous Court that included Holmes had upheld another Pennsylvania state coal mining regulation, requiring each extractor to leave a coal pillar along its property line as part of a network of walls to prevent cave-ins. n126

The difference between that regulation and the Kohler Act, Holmes wrote in *Pennsylvania Coal,* was that the first scheme "secured an average reciprocity of advantage that has been recognized as a justification of various laws." n127 The statement was clearly dictum and not further explained. Yet the concept endured, and eventually became an important element in takings analysis.

But not immediately. Reciprocity of advantage was not mentioned in the handful of takings cases the Court decided in the fifty-six years between *Pennsylvania Coal* and *Penn Central,* when Justice Rehnquist made it a focal point of his dissent. Rehnquist had already written that denial of the approval for claimant to build its office towers had literally "taken" its property. n128 This taking could only be justified, he opined, if the regulatory action in issue either prevented a nuisance n129 or contained an "average reciprocity of advantage." n130 While never specifically defining the term, Rehnquist seemed to consider it a shorthand expression of an older idea -- that the Takings Clause exists to prevent the state "from forcing some people alone to bear public burdens which, in all fairness, should be borne by the public as a whole." n131

Justice Brennan's majority opinion in *Penn Central* neither accepted nor specifically responded to Rehnquist's analysis. It did, however, acknowledge that one of claimant's arguments was that they had been "singled out to endure financial hardship," n132 to which it offered a three part response: 1) the designation of claimant's property came as a result of a comprehensive planning process; 2) social welfare legislation often results in some persons bearing a greater burden than others; and 3) everyone in New York, including claimants, benefitted from historic preservation. n133 Reciprocity of advantage was not necessary, but it was there anyway.

This re-introduction of the concept of reciprocity of advantage into takings jurisprudence spawned increased attention by the Court to the balancing aspect of prohibitory regulation. Sometimes it invoked Holmes' specific words, sometimes not. In *Agins v. City of Tiburon,* for example, the majority opinion stated that one reason the zoning ordinance in question did not effect a taking was that:

> [t]here is no indication that the appellants' ... tract is the only property affected ... Appellants therefore share with other owners the benefits and burdens of the city's exercise of its police power. In assessing the fairness of the zoning ordinance, these benefits must be considered along with any diminution in market value that the appellants might suffer. n134

Similarly, though not identically, in *MacDonald, Sommer & Frates v. Yolo County* n135 the Court noted that "local

agencies charged with administering regulations governing property development are singularly flexible institutions; what they take with the one hand they may give back with the other." n136

The original phrase returned in *Keystone,* the mirror image of the case in which it was first written. One of the reasons the mining limitations at issue there were constitutional, wrote Justice Stevens, was because "reciprocity of advantage" showed "the [s]tate's interest in the regulation" was present. n137 Later the same term the Court noted in *Hodel v. Irving* that an otherwise unconstitutional scheme limiting the transferability of Indian property holdings was rendered more acceptable because "there is something of an 'average reciprocity of advantage' [citing *Pennsylvania Coal*] to the extent that [all tribe members indirectly benefitted from the statute.]" n138

Note there are at least three different ideas entering cases under the rubric of "reciprocity of advantage." The first, introduced in *Pennsylvania Coal* and picked up in Rehnquist's dissent in *Penn Central,* is that a regulation is unconstitutional if it places too heavy a public burden on a private owner. The second, hinted at in *Agins* and *Yolo County,* then specifically invoked in *Hodel v. Irving,* is that a regulation that otherwise "goes too far" can be saved if the claimant obtains sufficient benefits from the scheme of which the regulation is a part. The third, and most idiosyncratic, is Stevens' concept in *Keystone* that reciprocity of advantage is related to the state's valid interest in regulating in the first place. n139

§ 81.04(e) Distinct (Reasonable) Investment-Backed Expectations.

Many of the factors "of particular significance" Justice Brennan identified in *Penn Central* in his attempted restatement of previous Court takings decisions were clearly recognizable from those prior opinions. Only one appeared as completely new. In discussing the importance of the impact of a regulation on the claimant, Brennan wrote that a particularly important aspect of impact was "the extent to which the regulation has interfered with distinct investment-backed expectations." n140 The opinion cited *Goldblatt* for this proposition, but a search of the referenced page reveals neither the words Brennan invoked nor any idea apparently related to the words. n141

The motivation for this innovation was revealed three pages later. For several paragraphs after the introduction of the term "distinct investment-backed expectations" Brennan discussed regulatory schemes that had been held constitutional despite very substantial impacts on the claimants because the schemes fell within the police power. One case, though, did not fit within the pattern, and was of such significance that it could not be ignored. So Brennan concluded his discussion of police power regulations by noting that:

> *Pennsylvania Coal Co. v. Mahon* ...is the leading case for the proposition that a state statute that substantially furthers important public policies may so frustrate distinct investment-backed expectations as to amount to a 'taking.' n142

The idea of distinct investment-backed expectations was thus born as either a nice or an artificial way of distinguishing an important case that looked, except in result, like many others before and after it.

Its surprise origin notwithstanding, the concept immediately became a frequently invoked dictum in takings opinions. The first hint of the Court's definition of the phrase came the following year in *Andrus v. Allard,* when Brennan indicated in a footnote that whether the claimants obtained their eagle artifacts before or after the restricting regulation might affect the substantive outcome of the case, because "[t]he timing of the acquisition ... is relevant to a takings analysis of [their] investment-backed expectations." n143 And while the term was mentioned only in passing that same term in *Kaiser Aetna,* n144 a year later the same author commented that "[t]he Government's attempt to create a public

right of access ... interfered with Kaiser Aetna's 'reasonable investment backed expectations.'" n145 No one seemed to notice, or care, that "distinct" expectations had turned to "reasonable" ones.

Because the term had been invented to distinguish *Pennsylvania Coal* from apparently similar cases in which takings were not found, it was inevitable that investment-backed expectations would be raised in *Keystone*. Justice Stevens' majority opinion did not quarrel with Brennan's earlier characterization of *Pennsylvania Coal* as turning on interference with investment-backed expectations. But the regulation in *Keystone* did not. The key distinction was the Court's finding in *Pennsylvania Coal* that the regulation prohibited the "profitable" mining of the hard coal. Because *Keystone* was a facial attack on the constitutionality of the regulatory scheme, and because only seventy-five percent of the soft coal could be mined "in any event," the Court concluded that "there is no showing that petitioners' reasonable investment-backed expectations have been materially affected ...." n146

A second case that term also invoked the concept. Section 81.04(h) *infra* sets out in full the facts and holding in *Nollan v. California Coastal Commission*. n147 But it may be briefly noted here that the Court held the commission could not condition claimants' building permit on their granting a public easement across their property. In his dissent Justice Brennan attempted to turn the investment-backed expectations concept on its head, arguing that the condition should have been constitutional because, as the structure claimants sought permission to build had not yet been built, the denial of a permit did *not* interfere with any such expectations. n148 The majority's willingness to ignore the backside impact of the concept in *Nollan* prompted at least one commentator to declare the "death-knell" of the idea. n149 That view received a boost in *Lucas,* n150 where the claimant bought beachfront property on a South Carolina barrier island for almost a million dollars, then saw its value plummet two years later when a coastal protection measure passed by the South Carolina legislature rendered it unimprovable. Despite both the substantial "investment" and almost immediate impact of the regulatory scheme, the majority opinion -- while generally favorable to the claimant -- mentioned the concept only in a footnote. n151 Neither dissent mentioned it either, and only Justice Kennedy's solo dissent seemed to believe the outcome should be affected in any way by the timing of the government's action. n152

Whether the idea of protecting investment-backed expectations remains viable or merely led a short life from 1978-1987 is currently in doubt. Lower courts have continued to use the doctrine after *Nollan,* n153 but it is as yet too early to evaluate the long range effect of the Court's failure to employ it in *Lucas,* a case where it seemed to fit so well. Until that is determined minor issues such as the precise definition and the difference between "distinct" and "reasonable" expectations will be on hold.

COMPUTER-ASSISTED RESEARCH

LEXIS: distinct or reasonable w/2 investment-backed w/2 expectation!

§ 81.04(f) Economic Impact.

The economic impact of a disputed regulation on the claimant has been highly relevant to the takings calculus since Holmes' famous "go too far" dictum in *Pennsylvania Coal*. In the now unanimously accepted, two-step test of constitutionality formulated in *Agins,* the degree of impact makes up half the inquiry. n154 In truth, because the substantive due process requirement that constitutes the first half of the takings equation will almost always be present, "impact" is often the only issue in a takings challenge.

Its importance notwithstanding, the Court has had great difficulty attempting to verbalize the precise *degree* of impact that converts an otherwise valid regulation into a takings. Indeed, the Court's continuous statement that it has adopted no "set formula" for takings questions refers more specifically to the impact aspect than to any other identified "factor." n155

The concept of investment-backed expectations, while an obviously related doctrine, is simply an aspect of the overall

"economic impact" inquiry. To the degree it is still of importance, n156 the "investment-backed expectation" concept emphasizes the timing and amount of the claimant's expenditure on the property. The more general inquiry of overall impact involves the total amount of diminution without regard to any timing or aggregate of the claimant's expenditure.

Holmes' only hint about when a measure might "go too far" was his remark that the Kohler Act had made mining the coal in question "commercially impracticable," n157 a condition he equated with "appropriating or destroying it." It appears, then, that what was important to Holmes was what the claimant lost. This idea received a further boost in *Goldblatt*, where the Court indicated that "a comparison of values before and after [the regulatory action] is relevant, [but] is by no means conclusive." n158

Brennan's attempt to restate federal takings law in *Penn Central* included not only the *Pennsylvania Coal* and *Goldblatt* aphorisms, but three additional descriptions that changed the focus of the diminution inquiry. At various points in the opinion Brennan mentioned an "unduly harsh impact," n159 a resultant use that produces no "reasonable return," n160 and a diminution that leaves no "economically viable use." n161 While this last formulation was in a footnote, it eventually became the second half of the takings test set out in *Agins*.

The importance of *Penn Central*, though, is less its exact verbal formulation of what "goes too far" than its shift in focus from what the claimant lost to what the claimant has left. That shift was underscored by Brennan when he found that the historic preservation regulation did not "go too far" because of the remaining uses, and value, of the claimant's property. n162

Justice Scalia's majority opinion in *Lucas* was the first to attempt to explain why the impact test had become an inquiry into whether the regulation in question left the claimant with an "economically viable use." First, regulations that fail to leave an economically viable use go beyond the normal adjustments one must expect in a democratic society, and secure no reciprocity of advantage. Second, the need to allow governments leeway to make such adjustments fades out when governmental action wipes out a private owner's property value. Third and finally, such regulations "carry ... a heightened risk that private property is being pressed into public service." n163

The principal question remaining from *Lucas* is whether the Court said that *only* regulations that leave no economically viable use go too far. A footnote indicated as much:

> [In applying the rule] it is true that ... in some cases the landowner with 95% loss will get nothing, while the land-owner with total loss will recover in full. But that occasional result is no more strange than the gross disparity between the landowner whose premises are taken for a highway (who recovers in full) and the landowner whose property is reduced to 5% of its former value by the highway (who recovers nothing). n164

LEXIS: economic w/2 impact w/50 fifth w/1 amendment

§ 81.04(g) Regulating Without Regard to Impact: The "Nuisance" Exception.

As demonstrated in § 81.03(a), *supra*, for many years the Court looked upon regulatory takings claims as nothing more than a subset of substantive due process claims. If police power legislation had a rational relationship to a legitimate public purpose, it was constitutional without regard to any impact on the property owner. Mugler's brewery, Reinman's livery stable and Hadcheck's brickyard were all closed down by regulation, and the substantiality of their losses was not a factor in determining the constitutionality of the regulation that effected the change. n165

Without doubt that view changed with Holmes' opinion in *Pennsylvania Coal Co*. n166 What remained at issue was

whether impact was now an issue in all, or only in some, takings cases. Brandeis' dissent in *Pennsylvania Coal* made clear his view that some kinds of legislation were constitutional without regard to impact. n167 But the issue was not addressed by the majority, and lay dormant through the following half-century of relative inattention the Court gave takings issues generally.

What was to become a principal debate in takings jurisprudence began with Brennan's restatement of the applicable law in *Penn Central*. After isolating several other "factors" that had influenced the outcome of prior regulatory takings claims, Brennan cited favorably:

> [I]nstances in which a state tribunal reasonably concluded that 'the health, safety, morals, or general welfare' would be promoted by prohibiting particular contemplated uses of land, this Court has upheld land-use regulations that destroyed or adversely affected recognized real property interests. n168

He then stated that such authority covered not only "contemplated," but also "existing" uses of land, citing, among other cases, *Mugler*, *Hadacheck*, and *Goldblatt*. He especially relied on *Miller v. Schoene*, n169 a post-*Pennsylvania Coal* case stating that:

> [T]he State had not exceeded its constitutional powers by deciding upon the destruction of one class of property [without compensation] to save another which, in the judgment of the legislature, is of greater value to the public. n170

This apparent relapse by the majority to the pre-*Pennsylvania Coal* view stirred Justice Rehnquist. In his dissent he argued that while the cases the majority cited did, indeed, ignore impact, they did so because the legislation in question outlawed particularly noxious uses. But this kind of legislation must be distinguished from the exercise of the police power generally:

> The nuisance exception to the taking guarantee is not conterminous with the police power itself. The question is whether the forbidden use is dangerous to the safety, health, or welfare of others. n171

The question, he indicated, was whether the use was a lawful one before the regulation. If not, no takings had occurred.

This debate on whether and to what degree regulations could be constitutional without regard to impact seemed to suffer a serious setback when the modern takings formula was developed in *Agins*. In holding that to pass constitutional muster in the face of a regulatory takings claim the law must pass both the substantive due process and impacts tests, the Court seemed to indicate that there was no zone of safety where impact could be ignored. n172

Yet, when the question next arose in *Keystone*, the *Penn Central* majority was back, still unwilling to concede that impact must always be judged. But Rehnquist's dissent in *Penn Central* had now set the agenda, and the majority view was far less frisky than it had been in *Penn Central* :

> The Court's hesitance to find a taking where the State merely restrains uses of property that are tantamount to public public nuisances is consistent with the notion of reciprocity of advantage ... n173

and later:

> [T]he public interest in preventing activities similar to public nuisances is a substantial one, which in many instances has not required compensation. n174

It is a long way from Brennan's reference in *Penn Central* to cases in which property values could be destroyed for "contemplated" or even "existing" uses when the police power was lawfully invoked, to Stevens timid assertion about "hesitancy" to find a takings when uses "tantamount" or "similar to" public nuisances were involved. But even this

fading luster of the classic approach to regulations aimed at eliminating harmful uses could not survive its next, and perhaps final, attack.

The principal position of the State in *Lucas* n175 was that its regulations were aimed at preventing barrier island erosion, and this harm-preventing purpose rendered the scheme constitutional without regard to its effect on the claimant. The South Carolina Supreme Court agreed:

> [T]he fact remains that the [U.S.] Supreme Court has time and again held that when a State merely regulates use, and acts to prevent a serious public *harm*, there is no 'taking' for which compensation is due. See *Mugler, Hadacheck, Miller* and *Goldblatt* ... n176

But the U.S. Supreme Court did not agree. Justice Scalia's response to the South Carolina Court's opinion conceded that "many of our prior opinions have suggested that 'harmful or noxious uses' of property may be proscribed ... without ... compensation." But he then divorced the Court from that position, asserting that the state court had been "too quick to conclude that that principle decides the present case." n177

The next several paragraphs marked the first, though probably not the last, time a majority opinion directly addressed the "nuisance exception." Scalia explained that all references in prior opinions to such a concept were merely restatements of the substantive due process requirement of a nexus to health, safety, welfare or morals. He reiterated the problem of distinguishing "harm" from "benefit" both generally and in the facts of the case before the Court. That meant, Scalia concluded, that the mere recitation by a legislature that its regulatory scheme was aimed at preventing serious harm could not be taken at face value, liberating the scheme from a determination of whether it had an unconstitutional impact on the claimant:

> The South Carolina Court's approach would essentially nullify *Mahon's* affirmation of limits to the noncompensable exercise of the police power. Our cases provide no support for this ... n178

There is, however, a "nuisance exception" of sorts, the Court decided. No impact analysis is necessary if "the proscribed use interests were not part of [the claimant's] title to begin with." First, some diminution in value is expected in a regulated society. More important, a total prohibition of uses can be imposed if it only prevents uses that would have been nuisances under the common law:

> [The regulation] ... must ... do no more than duplicate the result that could have been achieved in the courts ... under State's law of private nuisance, or ... under its complementary power to abate nuisances that affect the public generally, or otherwise. n179

Although the Court found it "unlikely that common-law principles would have prevented the erection of any habitable or productive improvements on petitioner's land," it remanded the matter as "a question of state law." n180

Justices Kennedy (concurring), Blackmun (dissenting) and Stevens (dissenting) each believed the majority had too narrowly drawn the limits of the exception, and they probably constitute enough opposition to signal a continuing struggle in cases ahead. But as of the summer of 1992 the Supreme Court had, for the first time, ruled that all takings analyses required an impact test, unless the interest prohibited was not "property" in the first place, because it was a common-law nuisance.

LEXIS: nuisance w/2 exception w/2 taking! w/2 guarantee!

§ 81.04(h) Substantive Due Process in the Modern Court: The *Nollan* Case.

While under the *Agins* test a regulation must both "substantially advance [a] legitimate state interest" and not "deny an owner economically viable use" of the property, without question most takings questions since *Pennsylvania Coal Co.* have involved the second, or impact, half of that formulation. The first half was generally thought merely to determine general applicability, and came into issue only when governments, like South Carolina in *Lucas*, attempted to say that the state interest was so strong that no impact analysis was necessary. n181

That view ended in 1987 when the Court decided *Nollan v. California Coastal Commission*. n182 The defendant commission granted the claimants permission to rebuild a home within its territorial jurisdiction, but conditioned approval on claimants' granting a walking easement between their seawall and the mean high tide line. The ultimate purpose was to allow the public to more easily traverse between public beaches in either direction from claimants' property.

The Court found the condition a taking, not because of any adverse impact -- there was none -- or, as might have been expected, because the condition authorized a permanent, public invasion. Rather the Court found that the condition failed the first half of the *Agins* test by not "substantially advanc[ing] a legitimate state interest."

The majority opinion, written by Justice Scalia, first indicated that the "substantially" adverb was critical, raising the inquiry in takings cases beyond what would be required in a usual, substantive due process inquiry. It then added that, even if the traditional substantive due process test was employed, the condition would fail, because there was absolutely no relationship between it and the public objective the commission purported to advance.

This unique analysis stirred three strong dissents, the most pointed from Justice Brennan, who accused the majority of returning constitutional jurisprudence to the *Lochner* days when it was in vogue for the Court to employ the Due Process Clause to second-guess state economic and social legislation. n183 None of the dissenters picked up the oddest aspect of the decision -- if an *ultra vires* act can be a taking, *Nollan* taken in conjunction with *First English*, means that a state or local government can be liable in damages simply for exceeding its power in enacting legislation, a unique remedy in American constitutional history. n184

Criticisms notwithstanding, *Nollan* makes clear that the Court will seriously consider takings claims based on either aspect of the *Agins* formulation, and is prepared to enter willingly into the kind of careful review of state and local regulatory schemes that most thought had been abandoned a half century ago.

§ 81.04(i) The Current State of Federal Takings Law: A Summary.

An attempt to review and restate substantive federal takings law is more like describing a cluttered room than explaining the design of an integrated, well-ordered house. For over one hundred years the Court has piled federal takings decisions atop, beside and underneath its own precedents, with little apparent order in mind. No takings decision has ever been overruled, and each new opinion attempts to manipulate the past to justify the holding at hand. The predictable consequence is a very messy collage of strewn concepts and aphorisms that must pass for a rational jurisprudence. All articles are "in play"; any Justice can pick one up and wear it at any time. Almost all have.

That said, there are a few aspects of takings law that seem to evoke general agreement in the Court, at least until the next majority opinion is written. The most important of these is that the *Agins* test seems to be unanimously accepted as a shorthand requirement for constitutional regulation. n185 While there is widespread disagreement of how to interpret the formulation, the twin factors of the legitimacy of the governmental ends and means on the one hand, and the impact on the claimant on the other, seem well ensconced.

Another point of apparent agreement -- at least for now -- is that in determining whether a regulation has eliminated economic viability a court should assess the overall impact on the fee simple absolute rather than on a lesser, identifiable property right that is a component of the fee title. Here there is not unanimity, however, and the influence of the growing conservative view of takings generally could undermine what has been a majority view at least since *Penn Central Co.*. n186

Despite dissents at the time, there seems no backsliding on the absolute rule set out in *Loretto* that any permanent, physical invasion occasioned by regulation is a taking. n187 The only oddity came in *Nollan*, when Justice Scalia offered a *dictum* that the defendant governmental commission could have constitutionally required the claimants to allow the public a permanent viewing spot on their property. n188

The vagueness of Holmes' injunction against going "too far" long kept the Court from defining with any precision the degree of diminution required to violate that prohibition. Certainly it has been clear since *Pennsylvania Coal Co.* that a regulation which destroyed all value went "too far." Yet even after *Agins* spoke of denying "economically viable use" it was unclear whether going too far meant (1) only 100% diminutions, (2) all diminutions that made the property more costly to own than to give away, or (3) diminutions that eliminated a "reasonable return." That question may have been answered in *Lucas*, which seemed to hold that only 100% diminutions must be found to be takings. n189 Yet to say that all 100% diminutions *are* takings is not to say that all other diminutions *are not*, and it will take at least one more case for the Court to answer that most basic question.

One definite holding of *Lucas* was that there is no "nuisance exception" in the sense that a legislature can regulate without regard to impact based on its own determination that the proscribed use is a serious public harm to be terminated or prevented. The same analysis purported to bury the "prevent harm" versus "confer benefit" dichotomy. The narrow exception remaining for uses that could have been stopped by private or public nuisance action prior to regulation has no relationship to the *Agins* test, and is merely a derivative of the requirement that "property" must be lost before a takings claim can succeed. Yet the suddenness of the "no exception" holding in *Lucas*, taken in light of both a century of precedents to the contrary and three explicit statements of opposition by other Justices, reflects enough doubt within the Court to presage more discussion of the issue. And by turning back to common law nuisances, the Court, words notwithstanding, has returned again to a "prevent harm" standard.

The *Nollan* holding that violation of the first half of the *Agins* test can also be a taking is both unsurprising at one level and shocking at another. By welding the classic due process and impact tests in *Agins*, the Court obviously suggested that a regulation failing either side of the formulation should be found to be a taking. Yet the proscription against a deprivation of property without due process and the proscription against a taking without just compensation appear in different clauses of the Fifth Amendment, and only violations of the latter have ever produced damage remedies. This is a serious conceptual -- and perhaps economic -- problem for local governments, and the Court will either have to clear it up or treat *Nollan* as the odd duck it seems to have been.

Finally, there are a few concepts, notably "reasonable investment-backed expectations" and "reciprocity of advantage" that have popped up almost randomly in the past, the futures of which are completely unknown at the present. Reciprocity of advantage has been around since *Pennsylvania Coal*, but several important cases have been decided without mention of the concept. Likewise, investment-backed expectations appeared destined in *Penn Central* to become a major component of the jurisprudence, but its absence from the majority's analysis in *Lucas* indicates it has been downgraded in importance. There is no doubt it is helpful to a regulatory scheme to encompass reciprocity of advantage and hurtful to diminish reasonable investment-backed expectations, but how helpful or how hurtful is at present a considerable mystery.

CHAPTER 81 REGULATORY TAKINGS

9-81 Thompson on Real Property, Thomas Editions § 81.05

AUTHOR: Professor Michael J. Davis, Esq. University of Kansas School of Law

§ 81.05 The Takings Cause of Action.

[Go To Supp]

The overwhelming emphasis in regulatory takings jurisprudence has always been on the development of the substantive law that has been extensively reviewed in the preceding sections of this chapter. Yet there is a distinct cause of action involved in bringing a takings case, and that cause of action has itself been the object of considerable attention. Some of this scrutiny has concerned the application of general principles of federal procedural law to takings law. Issues of jurisdiction, abstention and immunity particularly fall into this set. Other issues generated by takings cases include ripeness, immunity and remedies. This section will review aspects of the federal takings cause of action in the general chronological order they might arise in an actual case.

§ 81.05(a) Inverse Condemnation Under the Federal Constitution.

§ 81.05(a)(1) The Takings Cause of Action.

The initial issue a claimant confronts in bringing a lawsuit alleging regulatory takings by the government is setting forth the basis on which the plaintiff can claim access to the court for redress. While even the question may seem puzzling today, for much of the history of the Fifth and Fourteenth Amendments the answer was not obvious.

The Supreme Court has seldom addressed the issue of the source of the right for property owners to bring claims for inverse condemnation. While the Tucker Act, *28 U.S.C.A. § 1346* (1992 Supp.), waiving federal immunity in certain instances, has been law for more than a century, there has never been a federal statute specifically creating an inverse condemnation action against the federal government, much less against a government at any other level. n190 The question, then, has been whether such a right arises from the constitution itself.

The initial answer came in a case alleging a traditional, rather than a regulatory, takings against the United States. When

a circuit court ruled that the federal government need not pay interest on certain inverse condemnation claims against it under the Tucker Act because there was no statutory basis for such an award, the Court responded:

> This ruling cannot be sustained. The suits were based on the right to recover just compensation... That right was guaranteed by the Constitution... [T]hat condemnation proceedings were not instituted and that the right was asserted in suits by the owners did not change the essential nature of the claim... It rested upon the Fifth Amendment.

Statutory recognition was not necessary. n191

A much later suit against the United States confirmed that the modern Court would take a similar view. In holding that a certain statute did not authorize an inverse condemnation action, Justice Rehnquist differentiated between eminent domain and its claimant-initiated analog by offering the Court's view of the nature of inverse condemnation:

> The phrase "inverse condemnation" appears to be one that was coined simply as a shorthand description of the manner in which a landowner recovers just compensation for a taking of his property when condemnation proceedings have not been instituted... A landowner is entitled to bring such an action as a result of the "self-executing character of the constitutional provision with respect to compensation ...." n192

The applicability of the idea of a self-executing Fifth Amendment to regulatory takings claims against state or local governments depended on two extensions of the Court's view of actions against the United States. First and most important, the Court had to accept the argument that the remedy for a regulatory takings should be the same as that for a traditional taking. That was done in *First English Evangelical Lutheran Church v. County of Los Angeles*, n193 a case discussed in detail in § 81.05(c)(3), *infra*. Additionally, it had to determine that nothing in the federal system prevented imposition of the same standards against state and local governments as were imposed against the federal government.

This second extension occurred implicitly. Less than two years after the Rehnquist opinion accepting the "self-executing" nature of the Fifth Amendment against the federal government, the Court refused, on ripeness grounds, to hear a regulatory takings claim against a municipality. In what became a famous dissent, Justice Brennan disagreed on the ripeness issue, then stated his views that (1) inverse condemnation actions could be brought against all governments, and (2) that Rehnquist's earlier distinction between eminent domain and inverse condemnation notwithstanding, successful inverse condemnation actions against state and local governments must be treated just like condemnation suits:

> It should be noted that the Constitution does not embody any specific procedure or form of remedy that the States must adopt... The only constitutional requirement is that the landowner must be able meaningfully to challenge a regulation that allegedly effects a "taking" and recover just compensation if he does so. n194

While this broad view of the nature of the inverse condemnation right is but a decade old, it has never been challenged by a single member of the Court. By the time *First English* was decided in 1987 Rehnquist merely announced that the right to bring the claim under the Fifth and Fourteenth Amendments was self-executing, apparently feeling no need to mention that the defendant was neither a state nor the federal government, even though the Court had never formally held the self-executing right was good against an abusing government at any level. n195

amendment

§ 81.05(a)(2) Jurisdiction.

Once the right to bring an action for inverse condemnation is established, a property owner faces little difficulty locating a jurisdictional base on which to ground a complaint. If the action is against the United States, the claim must be brought under the Tucker Act, which waives sovereign immunity under the terms set out in the statute. The relevant language of the statute grants jurisdiction over: "Any ... claim against the United States ... founded ... upon the Constitution ... in cases not sounding in tort ...." n196

The Act grants concurrent jurisdiction for claims up to $10,000 to the district courts and the United States Claims Court. Claims above that amount must be brought in the Claims Court.

If the action is brought against any other government in federal court, it must be filed under the *28 U.S.C.A. § 1343*, the general federal question jurisdiction statute. The critical language grants jurisdiction to the district courts to hear: "[A]ny civil action ... [t]o redress the deprivation, under color of any State law ... ordinance ... any right ... secured by the Constitution of the United State ...." n197 The language precisely covers takings claims against all governments except the United States, because all such actions must be grounded in an allegation of a deprivation of due process under the Fourteenth Amendment.

The takings cause of action against a government other than the United States may, and often must, n198 be filed in a state court of general jurisdiction, which has concurrent jurisdiction to hear complaints alleging a deprivation of a federal constitutional right. n199

§ 81.05(b) Restrictions on Bringing Takings Claims.

The previous section demonstrates that a claimant alleging a regulatory takings has a universally accepted cause of action operating through universally accepted jurisdictional bases. There remain, however, a number of possible impediments between filing the action and receiving a determination on the substantive merits of that action. At least one of these -- a statute of limitations defense -- can arise without regard to where the claimant files the action. Others arise exclusively or most frequently in the federal court system. This section reviews the principal nonsubstantive restrictions on takings actions, most of which involve merely the application of general principles to the regulatory takings field.

COMPUTER-ASSISTED RESEARCH

LEXIS: restrict! w/15 taking! w/2 claim!

§ 81.05(b)(1) Statute of Limitations.

Regardless of the forum in which an owner files a takings claim, there exists the possibility of a statute of limitations challenge to the action. If the claim is filed against the United States in an appropriate federal forum under the Tucker Act, the applicable limitation is clearly established. If, on the other hand, the complaint is lodged against a state or local government, there is a considerable diversity of view on the appropriate limitation to employ, regardless of whether the claim is brought in state or federal court.

As indicated, any action against the United States under the Tucker Act brings with it a well marked statutory road map.

The general statute of limitations for claims against the federal government requires such actions to be commenced within six years. n200 As indicated above, any action for more than $10,000 under the Tucker Act must be filed in Claims Court. A separate statute on actions filed in that forum establishes the same six-year limitation. n201

Claims against other governments are not so easily categorized. This uncertainty exists in both state and federal courts. Each of those forums applies state statutes of limitations to such actions, and a disagreement about the nature of the takings action has resulted in widely diverse treatment of the limitations question.

There is no federal statute for inverse condemnation actions arising directly under the Fifth and Fourteenth Amendments. To fill this void, federal courts have generally, though not exclusively, turned to state statutes as the most logical "borrowing" source for limitations, a determination explicitly grounded on analogous treatment of claims of deprivation of constitutional rights arising under § 1983. n202

This search for the proper state source has brought a variety of answers. Probably the most thoughtful federal court analysis of the problem to date has come from the Ninth Circuit in *Azul Pacifico Inc. v. City of Los Angeles*. n203 The regulation in question was a Los Angeles ordinance restricting rights of mobile home parks. After finding a regulatory taking and noting that compensation was owing under *First English*, the court turned to the limitation issue. It first determined that a parallel 1983 claim was barred by the one-year statute of limitations applicable under California law. Recognizing that the "self-executing" claim under the Fifth Amendment was a separate action, however, the court noted:

> Although the Constitution gives [claimant] a right of action, it does not provide a statute of limitations. In such situations, federal courts generally adopt the analogous state statute of limitations ... n204

It then determined that as an "inverse condemnation" action the claim was generally subject to that state's five-year statute of limitations. It also noted, however, that courts "will not adopt state limitations periods if doing so would contravene the governing federal policy," and discussed the six-year allowance under the Tucker Act. n205 The court then completed its analysis by declining to choose between state and federal law, because the complaint was filed timely in either instance.

Other federal courts have not considered the Tucker Act alternative, and have simply borrowed directly from the state of the alleged taking. A predictable mix of choices has resulted. n206

State courts have had more opportunities to apply their own statutes of limitations to takings actions, but the trend toward considerably varying outcomes is the same as in the federal courts.

The most recent and complete treatment by a state high court came from the Kansas Supreme Court on a certified inquiry from the United States District Court of Kansas. The formal inquiry was whether the state's three-year statute of limitations for "implied contracts" was applicable to an inverse condemnation action. In its search for a proper answer the Kansas court considered the statute in question, three alternative statutes, and even the possibility that there was no statute applicable at all. n207 The court rejected the implied contract statute suggested by the federal court, even though it had itself frequently referred to an inverse condemnation action as "akin to an action on implied contract." n208 The proper limitation statute, the court noted must recognize that "the basic right to compensation for property taken for public purposes is a constitutional one." n209 After determining that a statute should apply, then rejecting both the adverse possession and general catchall limitation statute, the court decided upon Kansas Statutes Annotated § 60-507:

> No action shall be maintained for the recovery of real property or for the determination of any adverse claim or interest therein ... after fifteen (15) years from the time the cause of action accrued. n210

This analysis, emphasizing the nature of the takings claim as the basis of determining the appropriate limitations statute, is a model other state courts have followed, though most assume rather than explain their choice. Some state courts have ultimately chosen a statute similar to that selected in Kansas, analogizing the action to an adverse possession claim. n211 At least one state chose the statute that Kansas rejected, that for actions in implied contract. n212 At least one state applied its general trespass limitation statute, n213 and another the catchall statute for unspecified wrongs. n214 Again, the diversity of outcomes has stemmed directly from the different characterizations of the takings action by the reviewing courts.

§ 81.05(b)(2) Abstention.

The next subsection discusses the difficulties that will often prevent a claimant from filing a regulatory takings claim in federal court. But even if "ripeness" and all other justiciability requirements are met, the claimant may confront the "abstention" doctrine, which holds that in certain circumstances a federal court should not adjudicate a claim over which it has full authority, because a decision could be avoided through clarification of state law. The abstention doctrine has three principal subsets, each named for the Supreme Court decision that spawned it: 1) abstention to avoid federal constitutional rulings [*Pullman* abstention]; 2) abstention to avoid interference with complex state administrative processes [*Burford* abstention]; and 3) abstention to avoid interference with state court proceedings [*Younger* abstention]. Each of the first two kinds of abstention have been invoked in land use cases generally, and each can be or has been invoked in regulatory takings claims filed in federal court.

The purposes of the *Pullman* abstention, which requires deference to state court interpretations of state law, are to lessen friction between the federal and state governments, to reduce the possibility of error in interpreting state laws and regulations, and to avoid constitutional rulings. n215 Before it can abstain from a federal action the court must satisfy itself that the state law is substantially uncertain and that there is a reasonable possibility that a federal constitutional interpretation can be avoided. n216

An example of the application of *Pullman* to a regulatory takings claim came in *Rancho Palos Verdes Corp. v. City of Laguna Beach,* n217 where the Ninth Circuit approved a district court abstention from a broad scale attack on city policies regarding the claimant's large, recently-annexed tract. Abstention was proper because:

> The state is also struggling with the problem facing cities and counties in those cases where their zoning efforts to preserve open space ... may unwittingly have resulted in a seizure of property rights ... Federal courts must be wary of intervention that will stifle innovative state efforts to find solutions to complex social problems. n218

A more typical *Pullman* abstention came in the case examined in the previous subsection, in which the federal district court abstained so that the Kansas Supreme Court could determine the statute of limitations for a regulatory takings claim. n219 This same desire to avoid federal constitutional questions has motivated abstention by other lower federal courts as well. n220

The same policies that underlie *Pullman* abstention impel *Burford* abstention, which dictates deference when complex state administrative machinery exists that could be used to resolve a controversy. The *Burford* doctrine exists especially, though, to avoid mistakes in interpretation and to avoid friction with state entities. n221

The fundamentally local nature of land use control in this country almost eliminates any possibility that traditional land

planning regulations would be subject to *Burford* abstention. Indeed, several federal courts have refused to abstain on *Burford* grounds, while none has abstained solely on that basis. Yet *Burford* was used in conjunction with *Pullman* to provide abstention grounds in at least two cases. n222

More important, one can foresee the time when complex state-initiated and administered environmental controls such as those at issue in *Lucas* n223 could well fall directly within the reach of this doctrine.

It is clear that if abstention occurs under *Burford* the district court must dismiss the case. In a *Pullman* abstention, however, the federal court can retain jurisdiction until the state issues are decided. n224 The most satisfactory solution in *Pullman* cases is often to have the district court "certify" the state question to a state appeals court. While such a procedure can only be used if the state has a statute allowing it, a substantial majority now do. n225 The time and cost savings that certification brings in *Pullman* abstentions are obvious, and that is why the procedure has been specifically praised by the Supreme Court. n226

LEXIS: abstention w/15 taking! w/2 claim! or regulat!

§ 81.05(b)(3) Ripeness.

The chief obstacle to bringing a takings case in federal court is not abstention. It is ripeness, a doctrine that over the past fifteen years has been virtually custom made by the U.S. Supreme Court for the regulatory takings cause of action, and which has grown to become an almost insurmountable barrier to using the federal courts for litigating these claims. It has also grown to be a significant threat to bringing takings claims in state court.

To the very alert, the first hint that a major procedural problem might be developing came near the end of Brennan's analysis in *Penn Central Co.*, when he suggested that one reason the decision had not effected a taking was because the city had denied the claimant only two specific plans, leaving the possibility open for approval of a subsequent plan. n227 Two years later in *Agins* the tone became a bit more direct when the unanimous opinion noted that the claimants had "never ... sought approval for development of their land under the [applicable regulations]" and thus were "free to pursue their reasonable investment expectations by submitting a development plan to local officials." n228 The first claimant which was denied access to the federal courts under the still-nascent ripeness doctrine came the following year when the Court held that a regulatory takings claim arising under the Surface Mining Control and Reclamation Act of 1977 should not have been decided by the district court, because it was not "ripe." n229 The reason the claim was not ripe was that:

> There is no indication in the record that appellees have availed themselves of the opportunities provided by the Act to obtain administrative relief by requesting either a variance ... or a waiver ... n230

None of these decisions received a great deal of attention, at least for the developing idea of ripeness. Thus it still came as a major shock to most when the Court used the next possible opportunity to cite *Penn Central Co.*, *Agins*, and *Hodel* as bases for the development of a sweeping new restriction on takings actions generally and takings actions in the federal courts especially.

The issue in *Williamson County Planning Commission v. Hamilton Bank* n231 was whether the claimant was barred from bringing its regulatory takings action because it had failed to seek a variance from certain local regulations that otherwise prevented the development. The Court held that the claim was indeed premature, and for the first time tied the ripeness doctrine directly to the nature of the regulatory takings claim:

> [T]his Court consistently has indicated that among the factors of particular significance in the

> [regulatory taking] inquiry are the economic impact of the challenged action and the extent to which it interferes with reasonable investment-back expectations... Those factors simply cannot be evaluated until the administrative agency has arrived at a final, definitive position regarding how it will apply the regulations at issue to the particular land in question. n232

Nor was the Court through; it had yet another ripeness barrier to erect, this one especially designed for the federal courts:

> A second reason the taking claim is not yet ripe is that [claimant] did not seek compensation through the procedures the State has provided ... [I]f a State provides an adequate procedure for seeking just compensation, the [claimant] cannot claim a violation of the Just Compensation Clause until it has used the procedure and been denied just compensation. n233

The Court then noted that Tennessee law gave claimant an inverse condemnation action, thus rendering premature any claim in federal court.

A similar case a year later, in 1986, was again turned away, this time solely on the ground that the claimant had not attempted to use the procedures that could have affected the relevant agency's decision on its submission. n234

After 1986 the Court began to back off the ripeness issue, apparently for two reasons. First, most takings claims after *Williamson Bank* were filed in state courts, so the second half of the new standard was generally met. More important, much of the ripeness focus during its decade of development had been on the remedy question of whether successful claimants in regulatory takings actions were entitled to a money damage remedy. When that nagging issue was at last decided in *First English*, the momentum behind the ripeness surge died. Indeed, the turning point seemed to come in *First English* itself, when the Court found the remedy issue "ripe" in a procedural posture difficult to distinguish from *San Diego Gas & Electric* and *Agins*. n235 This trend to bypass ripeness and decide substance continued in *Lucas*, where the majority rendered a decision on the merits despite administrative changes in the South Carolina law that could have mooted the claimant's alleged unconstitutional deprivation. n236

Two aspects remain of the ripeness development. The first is that henceforth an overwhelming percentage of cases will be filed, like *Lucas*, in state rather than federal court. A more subtle but also more fundamental impact will be to make it far more difficult to file takings claims at any level based on owner-initiated regulatory decisions.

When the regulatory body has acted first, as it did in such cases as *Keystone*, *First English* or *Lucas*, it is quite easy for an inverse condemnation claimant to meet the *Williamson County* requirement that the defendant government must have reached a definitive position. But when a claim is based on a denial by the defendant of a proposal for change initiated by the landowner, as in *Agins*, *Penn Central*, or *Williamson Bank*, it is very difficult to establish that the regulatory body might not approve something of lesser intensity than that requested yet more than currently allowed. The Court may later change its position on this half of the ripeness requirement, but until that occurs it is hard to imagine circumstances under which owner-initiated claims can be heard on the merits.

§ 81.05(c) Remedies for Takings Claims.

Even after all procedural shoals have been avoided and a substantive takings case established, a claimant must battle for the desired remedy. Depending on the stage of the proceedings and the circumstances of the taking, that remedy might be declaratory relief, an equitable order requiring the defendant government to permit a particular use, or money

damages.

COMPUTER-ASSISTED RESEARCH

LEXIS: remed! w/15 taking! w/2 claim!

§ 81.05(c)(1) Declaratory Relief.

If a dispute between a landowner and a government is far enough along to pass the ripeness test, it would seem to fit comfortably within most state declaratory judgment acts. Indeed, the widely adopted Uniform Declaratory Judgment Act includes a provision seemingly made for such challenges:

> Any person ... whose rights ... are affected by a ... municipal ordinance ... may have determined any question of construction or validity arising under [the ordinance] ... and obtain a declaration of rights, status or other legal relations thereunder. n237

Declaratory judgments with accompanying injunctive relief have often been given to successful takings claimants, sometimes as the only alternative available to a successful claimant. n238

There are far fewer examples of declaratory judgment actions under the federal statute, n239 but the submission of a request for regulatory action that cannot be granted because of existing rules has been held to establish an "actual controversy" sufficient to invoke jurisdiction. n240

COMPUTER-ASSISTED RESEARCH

LEXIS: declaratory w/1 relief or judgement! w/15 taking! w/1 claim! or regulation!

§ 81.05(c)(2) Specific Equitable Relief.

The relatively recent imposition of tough ripeness standards on federal takings claims has considerably undercut the ability of landowners to establish regulatory takings when they are refused permission to bring a more intense use to their property. n241 In the instances when that remains possible, however, a successful claimant will sometimes seek the specific equitable relief of having the court order the defendant government to grant the use requested without further legislative consideration.

While there is little federal court precedent on the question of whether such orders can issue, states have varied in their responses to such specific prayers. A majority of courts have refused to order specific relief, holding that such a mandate would interfere too much with the legislative prerogatives of the local governing body. One court explained its choice in a zoning refusal case:

> The judiciary has no right or authority to substitute its judgment for that of the legislative branch ... Courts are not super zoning commissions and have no authority to classify property according to zones. n242

The outcome of a finding of unconstitutionality in such jurisdictions is either a remand to the legislative body for further consideration, or a simple invalidation that leaves the property unregulated until the local government acts again.

Other courts, unhappy with such cumbersome alternatives, have been willing to allow courts to grant such orders on the theory that the trial court has adjudicated the appropriateness of the claimant's desired use as well as the constitutionality of the defendant's position:

> In such cases the relief awarded may guarantee that the owner will be allowed to proceed with [the desired] use without further litigation and that he will not proceed with a different use. n243

A growing number of courts have tried to walk between these extremes by giving the legislative body another chance to review independently the reasonableness of the proposed use:

> [T]he trial court should give notice to the zoning authority that, within a reasonable time, it may, at its option, rezone the property. Further notice should be given that, if the property is not rezoned within such a period of time, the court will authorize the property owner to proceed with the proposed use if, on the basis of the evidence before it, the court determines the proposed use to be reasonable. n244

Such a position seems to fit neatly between the Scylla of starting over and Charybdis of a judicially-mandated regulation.

COMPUTER-ASSISTED RESEARCH

LEXIS: equitable w/1 relief w/15 taking! w/1 claim!

§ 81.05(c)(3) Damages.

By far the most attention in the remedies area has been focused on the question of damages. Interestingly, it was over a half century after *Pennsylvania Coal* when the question first arose whether a successful claimant in a regulatory takings case could receive interim or permanent damages. The plaintiff in *Pennsylvania Coal Co.* had sought only equitable relief, and for the next several decades it was assumed that invalidation or some equitable equivalent was the only relief available to successful regulatory takings litigants.

By the 1970s this assumption had been transformed into a question, drawn out in significant part by the pens of academia. n245 The real issue soon became apparent, which was whether Holmes' reference to a "takings" in *Pennsylvania Coal Co.* was equating overregulation with traditional invasion or merely a shorthand way of describing an *ultra vires* act that involved land use regulation.

The first answers came from prominent state high courts, both of which held that no damage remedy could be awarded for a regulatory takings. The New York Court of Appeals ruled out damages, holding that there was not only a jurisprudential difference between regulatory and traditional takings but that the regulatory variety were not takings at all. n246 Three years later the California Supreme Court agreed with New York's conclusion, but on the policy grounds that such a specter would greatly damage local land use planning and regulation. n247

This view flowed primarily from the perspective that Holmes had used the word takings metaphorically in *Pennsylvania Coal Co.*, and this was the view directly attacked by Brennan in his dissent in *San Diego Gas & Electric Co.*. The metaphor position, Brennan opined, "fails to recognize the essential similarity of regulatory taking and other 'takings'." A taking is a taking, and once one is found just compensation is required. The compensation need not be for the full market value of the property, for the government always has the opportunity to roll back the unconstitutional regulation. But even if the regulation is lifted, interim damages must be paid for the time during which the taking occurred. n248 The sudden popularity of the ripeness doctrine delayed by several years the Court's formal acceptance of Brennan's position. n249 That came finally in *First English*, in which the majority at last removed the quotation marks from regulatory "takings," equating them fully with their traditional brethren in requiring the award of just compensation on either an interim or permanent basis. n250

In the rare case where a government maintains a regulation that "goes too far" after a final adjudication of unconstitutionality, the claimant would be entitled to fair market value of the lost development rights as a permanent

taking. n251 The method of measuring the more usual interim damage is not so clear. State courts and lower federal courts have employed at least a half-dozen formulae for calculating temporary damages. Among the most popular have been:

> 1) Rate of return. This method calculates the fair return on the diminution in market value over the period of deprivation. n252
>
> 2) Fair rental value. This method is particularly useful when a preexisting use is denied. The rental allowed is usually at the highest and best use of the property for the period. n253
>
> 3) Before/after valuation. This method is often used in permanent takings, but cannot be used in temporary takings if appreciation has eliminated any recovery. n254
>
> 4) Option value. This method has been used by several state courts and is calculated on the basis of the cost of purchasing a one-year option on the property if it were unregulated. n255

There is little hint in *First English* of the evaluation method the Court would itself employ when a regulatory taking is found. Chief Justice Rehnquist's majority opinion did, however, compare temporary deprivations to leases, a signal that fair rental value might be preferred. The Court also indicated that the evaluation should be based on the owner's loss, not the government's gain. That viewpoint can be particularly useful for claimants in most regulatory takings cases, where it is far more difficult to determine the government's gain than the claimant's loss. n256 As a final consideration, the timing of the taking apparently begins when the regulation meets the ripeness test, usually the date on which the restriction was imposed. n257

COMPUTER-ASSISTED RESEARCH

LEXIS: damage! w/15 taking! w/1 claim!

§ 81.05(d) The § 1983 Alternative.

Any discussion of remedies for unconstitutional takings is incomplete without mention of an important, if little used, alternative to the inverse condemnation cause of action implied under the Fifth and Fourteenth Amendments. § 1983 of the Civil Rights Act of 1871 provides:

> Every person who, under color of any statute, ordinance, regulation ... subjects ... any[person] to the deprivation of any rights ...secured by the Constitution ... shall be liable to the party injured in an action at law, suit in equity, or other proper proceeding for redress. n258

Not every land use decision is subject to challenge under § 1983, but there is no fundamental reason why an unconstitutional deprivation of a claimant's property under the Fifth and Fourteenth Amendment would not be. n259 But while a § 1983 action carries certain advantages of the traditional inverse condemnation action, there are also very significant barriers to its use.

The most important advantage the § 1983 cause of action carries over inverse condemnation is a broader choice of both defendants and remedies. The Court has likened a § 1983 action to a constitutional tort, opening the possibility of consequential damages not available under inverse condemnation. n260 While punitive damages are not available against local governments, they are available against local officials, even if the claimant can establish only nominal actual damages. n261 A successful claimant can also receive attorney's fees under *42 U.S.C. § 1988,* whether success is achieved through settlement or final judgment. n262

These advantages notwithstanding, most "takings" actions are not brought under § 1983, for the simple reason that the disadvantages inherent in that cause of action are even greater than the advantages. Because states are not considered "persons" under § 1983, there can be no money damage judgments against a state defendant under its provisions. That alone eliminates from the reach of the statute claims based on state regulatory schemes such as those in *Keystone* and Lucas. n263 Local governments and their individual members are "persons," subject to damage liability, but federal circuit courts have held they have absolute immunity for their legislative actions. n264 With that, cases such as *Agins* and *First English* disappear, where the action in question is legislative by state definition.

Local officials are also absolutely immune if the action in question is adjudicatory in nature. n265 Thus, the only actions local officials can be held accountable for under § 1983 are administrative acts, and even then the officials have a qualified immunity that renders them liable only if they have acted in derogation of a clearly established constitutional right, a circumstance very difficult to establish in the takings field. n266 Imagine the difficulty of proving that the officials in *Penn Central* or *Nollan* took their actions in knowing violation of the claimant's constitutional rights.

In sum, actions for takings under § 1983 at first seem tempting because of theoretical advantages this cause of action brings over the implied action under the Constitution. But those advantages fade quickly when held to the light of Court interpretations of § 1983 which, taken as a whole, eliminate almost all likely defendants from most cases in which damages are sought.

CHAPTER 81 REGULATORY TAKINGS

9-81 Thompson on Real Property, Thomas Editions § 81.06

AUTHOR: Professor Michael J. Davis, Esq. University of Kansas School of Law

§ 81.06 Takings Under State Law.

[Go To Supp]

While the federal courts, particularly the United States Supreme Court, were fashioning the substance and procedures of the federal regulatory takings cause of action, there were fifty parallel analyses of the problem being formed in state appellate courts. These parallel systems were often based on state constitutions and were seldom reviewed in the federal system. Not surprisingly, a crazy quilt pattern of treatments of the issue arose, some offering more protection to property owners than federal law offered, others less.

A general development, as well as a specific development have recently moved the state systems closer to the federal norm. Unquestionably, the more frequent and thoughtful attention given to the regulatory takings question by the U.S. Supreme Court has raised the visibility and attractiveness of its treatment of the issue. The predictable result has been more state courts using federal precedents as the basis for deciding their own cases. Additionally, the newly minted ripeness doctrine, coupled with *First English*'s requirement that a damage remedy always be available when a taking is found, have combined to pull state jurisprudence closer to the federal norm.

Yet traditional variances remain. Whether state appellate courts purport to apply federal substantive standards or to interpret their own constitutions, recurring examples of cases seem to have been decided differently than if they had been adjudicated in a federal court.

LEXIS: taking! w/15 state! w/15 law

§ 81.06(a) Historical Treatment of Regulatory Takings in State Courts.

The Fifth Amendment did not limit state conduct until 1897. n267 The U.S. Supreme Court did not recognize the regulatory takings cause of action until 1922. n268 For many years thereafter the Court took no further interest in the issue, n269 and it did not become actively involved in defining the substance and process of federal regulatory takings until the late 1970s. n270 Yet, the industrial revolution and the explosion of health, safety and welfare legislation it

spawned began after the Civil War. It is hardly shocking, then, that for over a century state appellate courts were the principal sources of regulatory takings law.

Nor is it surprising that the states developed highly diverse standards for adjudicating regulatory takings claims. Even after *Pennsylvania Coal Co.* there was no guidance from the U.S. Supreme Court on what degree of intrusion went "too far." Moreover, several states had constitutional provisions that differed from the text of the Fifth and Fourteenth Amendments by requiring just compensation whenever property was taken *or damaged*. n271 These factors added to the simple differences in philosophy among fifty appellate courts, yielding decisions that varied widely in the degree of freedom offered governmental entities in regulating real property use. Indeed, while all states had decisions that spanned part of the takings spectrum, some handed down decisions that still represent the absolute polar positions on how far is "too far." Examples from principal jurisdictions representing each pole are offered below.

§ 81.06(a)(1) New York: Protecting the Property Owner.

Few states have consistently rendered regulatory takings decisions more favorable to property owners than New York. Two of the famous state cases in takings history were handed down by its Court of Appeals. Though the opinions were written in different eras, each became a prime example of the extreme protection given private property rights under the Takings Clause.

The first decision came in 1938 when a property owner claimed a city ordinance restricting its rural Brooklyn lot to residential uses effected a taking under both the U.S. and New York Constitutions. The Court of Appeals reversed the Appellate Division, holding that no taking had occurred. Without saying which constitution had been violated, the high court held that the ordinance took the claimant's property because the tract could not be "profitably" used as a residence until some time in the future. n272 This apparent obligation to provide a "profitable" use is a considerably larger one than the obligation to leave an "economically viable" use, which is why *Arverne Bay* is a well-known example of a takings decision highly protective of private property rights.

An even more famous pro-claimant decision came in 1954 when the same court held that a rezoning of property from residential to "Designated Parking" effected a taking. n273 It reached this decision even though (1) the claimant had used the property as a parking lot for twenty-five years, (2) it had been a nonconforming use all that time, and (3) the parking lot use was a profitable one. In perhaps the most quoted sentence in claimants' appellate briefs since, the court said the taking occurred because the rezoning "will operate to destroy the greater part of the value of the property since ... it necessarily permanently precludes the use for which it is most readily adapted...." n274

The suggestion that any restriction is a taking that permanently "precludes the use for which [a tract] is most readily adapted marks the most extreme example of how short a distance "too far" can be.

§ 81.06(a)(2) California: Freedom to Regulate.

Across the country, the state destined to supplant New York as the nation's most populous was developing a contrary jurisprudence based on the principle of deference to state and regulatory decision making. Two of the California Supreme Court's many takings cases reflect a very different view of that issue than that espoused above by the New York Court of Appeals.

The more extraordinary case came first in California. For a number of years the City of Manhattan Beach had tried to purchase claimant's beachfront property. When the claimant at last determined to sell it to another private party, the city rezoned it from residential to "beach recreational," allowing only guard towers and signs. The claimant had paid thousands of dollars in taxes over ten years while trying to sell the property or have it upzoned. Finally, as a result of the rezoning, the claimant brought a takings action, which the California Supreme Court denied. n275 The court discussed the importance of the police power, then noted that the recreational classification gave "the owners the right to derive an

income" from the property. Of course there was no proof that the claimant could in fact derive such an income.

Another well-known case came eight years later. The claimant sought the right to extract rock, sand and gravel in an area of great value for that purpose. The area was zoned for residential and agricultural uses, but the trial court concluded it had "no appreciable economic value" as zoned and that any contrary conclusion was "preposterous." n276 Again the California Supreme Court found no taking, principally on the basis that the city's legislative judgment should be honored.

Together these decisions show a great willingness to defer to state and local regulatory actions without regard to impact on the owner. Both are difficult to reconcile with the modern takings test from *Agins*. *Manhattan Beach* almost certainly fails the first half of the test, and probably the second as well. And the *Consolidated Rock* decision is impossible to square with the requirement that a regulation leave the owner an "economically viable use."

§ 81.06(b) Modern State Takings Decisions.

The New York and California cases were not representative of state takings decisions generally. Most states vacillated across the takings spectrum, with the facts of the case and the prevailing philosophy of their high courts, creating what Professor Williams has termed "stomach jurisprudence." n277 A few even seemed to bounce from pole to pole without regard to the source of the constitutional restriction. n278

But that all seems truly history now. The merging of several forces has brought a new discipline and commonality to state regulatory takings decisions. Without doubt the most important of those forces is the intense attention the U.S. Supreme Court has devoted to the takings issue. That same Court's apparent determination to move more takings decisions to the states through the ripeness doctrine has also played an important part. The result is a new federalization of regulatory takings jurisprudence based on U.S. Supreme Court decisions. Yet, as might be expected, there are still a few holdouts among the states, reaching their own determinations either through idiosyncratic applications of federal standards or through interpretations of their own constitutions. n279

§ 81.06(b)(1) The Federalization of Takings Jurisprudence.

The point has been made elsewhere in this chapter that it was not until the *Penn Central Co.* case in 1978 that the U.S. Supreme Court began to treat the regulatory takings issue with anything approaching earnest resolve. n280 Once that began happening, however, there was an almost immediate reaction in the state appellate courts, with many adopting substantive federal standards as the Court revealed them over the next decade.

The movement toward federalization was predictable. Most state decisions handed down during the long period of U.S. Supreme Court inattention to the takings issue had been heavily fact-dependent, seemingly in wait for higher direction on how far was "too far." That was the prevailing posture regardless of whether the state in question had a constitutional provision similar to the Fifth Amendment or one that protected against both "takings" and "damage," as tribunals in the latter states generally held that the extra noun provided no extra protection in regulation cases. n281

This movement toward federal homogenization has been, and will continue to be, spurred by two of the U.S. Supreme Court's important decisions of the 1980s. As explained in § 81.05(b)(3), *supra*, the ripeness doctrine now funnels the preponderance of regulatory takings cases into the state courts. It is only natural for federal standards to follow. Also, the requirement of *First English* that all takings, temporary as well as permanent, be compensated, will apparently force all states to offer a full panoply of remedies in these cases. Again, federal standards will likely come along. n282

Most significant state land use and takings cases decided since the 1987 trilogy have reflected this trend toward federalization, n283 as have several decisions issued earlier in the decade. n284 All of these opinions purport to apply the *Agins* two-step test of constitutionality, and most use all principal federal precedents from *Pennsylvania Coal Co.* to

Keystone to resolve the substantive issue. While many do not differentiate between applying the federal constitutional amendments and their own constitutional provision, at least one tribunal acknowledged that federal standards were being used for both, even though it was a "takings or damages" state. n285

COMPUTER-ASSISTED RESEARCH

LEXIS: taking! w/15 federalization

§ 81.06(b)(2) Other Drummers: States Applying Their Own Standards.

While the homogenization described above is the clear trend, there remains a handful of states apparently intent on using their own set of standards to determine how far is "too far." These idiosyncratic positions have stemmed both from unique interpretations of the federal substantive standards and determined application of those states' own takings clauses. The great majority of these decisions have found takings when it was unlikely they would have been found in the federal system, though an occasional state court has found no taking when the intrusion seemed to have gone "too far" by federal standards. n286

A recent example of a state offering greater protection to a property owner through interpretation of federal standards was *Corrigan v. City of Scottsdale,* n287 where the court held that preventing development above an established elevation line effected a taking of claimant's property under the *Agins* test. It reached this conclusion despite the defendant's expert testimony that the regulation effected no diminution in value of the tract as a whole, and even the claimant's expert testimony that there was merely a diminution in total value from thirty-one million dollars to eighteen million dollars. It seems impossible for the court to have reached such a decision under the "no economically viable use" test, and the court itself admitted that the regulation was substantially related to a legitimate governmental interest.

The second way of giving additional protection to property owners has been to ignore the Fifth Amendment standards and utilize only the state constitution to adjudicate a regulatory takings claim. Using such a methodology both the Georgia and Pennsylvania Supreme Courts recently struck down amortization schemes -- the former for signs, the latter for adult bookstores -- as takings under their own constitutions. n288 Each of these decisions was rendered despite any evidence that the remaining uses were not "economically viable." The Minnesota Supreme Court also recently relied on its "taken, destroyed or damaged" constitutional standard to require compensation in a non-land use case, n289 and has handed down other recent decisions reflecting a similarly protective posture toward private rights in the land use context. n290

§ 81.06(c) Summary of State Takings Cases.

A full review of state regulatory takings cases leaves several lessons. First, for decades state appellate courts were the chief sources of takings decisions, and those decisions ranged over an extremely wide spectrum of philosophical and jurisprudential positions. Second, the great increase in United States Supreme Court opinions in takings cases over the past fifteen years has tended to unify takings jurisprudence around federal standards, a trend likely to continue as more cases are relegated to state court systems through the ripeness doctrine. And finally, while the federalization trend seems inevitable it is equally inevitable that state court systems will still occasionally offer decisions that reach a different result than strict application of federal standards would suggest.

Supp. To CHAPTER 81 REGULATORY TAKINGS

9-81 Thompson on Real Property, Thomas Editions Supp. to § 81.02

Supp. to § 81.02 Historical Developments of Takings Law.

[Go To Main]

§ 81.02(b) Foundations of Modern Taking Law, 1865-1922. [Go To Main]

§ 81.02(b)(1) The Police Power of the States.

Add:

but see Leisy v. Hardin, 135 U.S. 100 (1890) .

Add:

Francis v. Morial, 455 So. 2d 1168 (La. 1984) (There is no precise definition of the police power except in the context of a case-by-case analysis. However, in general terms, the police power allows states to govern persons and things within Constitutional limits, to protect the health, security, morals, and welfare of the general public).

§ 81.02(b)(2) Federal Courts Restraining the Police Power: Substantive Due Process.

Add:

but see Shaffer v. Heitner, 433 U.S. 186 (1977) .

Add:

Superseded by Constitutional Amendment, U.S. Const. Amend. XIII

§ 81.02(b)(3) From Title to Invasion: The Early Federal Appropriation Cases.

At the end of the last paragraph add new footnote: n36.1

Add:

overruled in part, United States v. Chicago, M., St. P. & P. R. Co., 312 U.S. 592 (1941) .

FOOTNOTES:
(n1)Footnote 36.1. *Kahuna Land Co. v. Spokane County, 974 P.2d 1249 (Wash. App. 1999)* (Even when a decision of the County is not a regulatory taking, it must still pass the reasonableness test of substantive due process.); *Daley v. Commissioner, Dep't of Marine Resources, 698 A.2d 1053 (Me. 1999)* (It would be surprising if a regulation complied with the due process clause but at the same time violated the regulatory takings analysis, but it is still necessary to treat the due process clause and the regulatory takings analysis as separate legal standards).

Thompson on Real Property, Thomas Editions

Supp. To CHAPTER 81 REGULATORY TAKINGS

9-81 Thompson on Real Property, Thomas Editions Supp. to § 81.03

Supp. to § 81.03 Development of Modern Takings Law.

[Go To Main]

§ 81.03(d) Development of the Modern Takings Test. [Go To Main]

Add:

Parise v. Commonwealth, State Board of Funeral Directors, 415 A.2d 153 (Pa. Commw. Ct. 1980) (When the police power is properly exercised no taking can occur, regardless of the economic impact on the landowner).

Add:

Hamer v. School Bd. of City of Chesapeake, 393 S.E.2d 623 (Va. 1990) (Determination of what constitutes a public purpose is a judicial question. However, once a public purpose has been established, the expediency of the condemnor's project is a legislative question).

Add

Palm Beach Isles Assocs. v. United States, 58 Fed. Cl. 657 (Ct. Cl. 2003) (Army Corps of Engineers had a bona fide navigational purpose in denying a dredge and fill permit, which was a complete defense to a regulatory takings claim); *Chevron USA, Inc. v. Lingle, 363 F.3d 846 (9th Cir. 2004)* (Hawaii law prescribing maximum rent for oil company dealers did not advance a legitimate state interest and therefore constituted a regulatory taking); *Lingle v. Chevron U.S.A., Inc., 125 S. Ct. 2074* ; *161 L. Ed. 2d 876 (2005)* (the formula inquiring whether a government regulation "substantially advances" a legitimate state interest only prescribes the inquiry into the nature of due process, but is not the test for determining whether a taking has occurred).

Add new text and new footnote 92.1 at end of subsection:

The U.S. Supreme Court has recently announced two leading decisions, which have expanded prospects for inconsistency in takings decisions.[92.1]

Add:

Thompson on Real Property, Thomas Editions

Copyright 2010, Matthew Bender & Company, Inc., a member of the LexisNexis Group.

Supp. To CHAPTER 81 REGULATORY TAKINGS

9-81 Thompson on Real Property, Thomas Editions Supp. to § 81.04

Supp. to § 81.04 Specific Aspects of Federal Takings Law.

[Go To Main]

§ 81.04(a) What Is "Property" Under the Fifth Amendment? [Go To Main]

§ 81.04(a)(1) When Is An Economic Interest Property?

Add:

Anaheim Gardens v. United States, 444 F.3d 1309 (Fed. Cir. 2006) (Nos. 01-50ll, 01-5012, Fed. Cir., 2006) (low-income owners brought action to have restrictions on a right to prepay mortgages declared to be a regulatory taking); *Chiancola v. Board of Appeals of Rockport, 843 N.E.2d 108 (Mass. App. 2006)* (denial of a variance was not a regulatory taking); *Matter of Jamaica Recycling Corp. v. City of New York, 2006 NY Slip Op 26007 (N.Y. Misc. 2006)* (newly promulgated siting rules did not constitute a regulatory taking).

Theisen Vending Co., Inc. v. United States, 58 Fed. Cl. 194 (Ct. Cl. 2003) (adoption of regulations did not constitute a regulatory taking in the absence of enforcement); *Amaliksen v. United States, 55 Fed. Cl. 167 (Fed. Cl. 2003)* (takings claimant failed because unable to prove an ownership interest in the underlying land).

Add:

Lingle v. Chevron U.S.A. Inc., 125 S. Ct. 2074 (2005) (whether a property regulation advances a state interest is not the appropriate test for determining if a taking has occurred; *Agins* test is abrogated).

Champion Builders v. City of Terrell Hills, 70 S.W.3d 221 (Tex. App. 2001) (the passage of an ordinance increasing the minimum square footage requirement for single family apartments beyond what was contemplated for the project was

not a regulatory taking); *R.W. Docks & Slips, v. State, 617 N.W.2d 519 (Wis. App. 2000)* (refusal to grant a dredging permit did not constitute a regulatory taking); *Turntable Fishery & Moorage Corp. v. United States, 52 Fed. Cl. 256 (2002)* .

Add

Small Property Owners of San Francisco v. City and County of San Francisco, *47 Cal. Rptr. 3d 121 (2006)* (ordinance requiring landlords to pay above market-rate interest on security deposits was not a regulatory taking).

Add:

Benson v. State, 710 N.W.2d 131 (S.D. 2006) (a statute possibly diminishing the value of hunting servitudes did not constitute a regulatory taking).

Weatherford v. City of San Marcos, 157 S.W.3d 473 (Tex. App. 2005) (denial of rezoning requests did not amount to an unconstitutional regulatory taking); *Intermountain Sports, Inc. v. Department of Transportation, 103 P.3d 716 (Utah App. 2004)* (periodic closures of access roads during construction did not constitute a compensable taking).

§ 81.04(a)(2) What Property Interest Can Be Taken Without Compensation?

Add:

Walcek v. United States, 303 F.3d 1349 (Fed. Cir. 2002) (the relevant portion of the property for a takings analysis was the entire parcel, not just the portion designated as wetlands).

State *ex rel. Shelly Materials, Inc. v. Clark Cty. Bd. of Commrs., 875 N.E.2d 59* (Ohio, 2007) (a mineral estate may be the relevant parcel for a compensable taking claim, if the mineral estate has been severed from the other interests in the real property).

Add new text and footnotes at the end of the subsection:

In Lucas v. South Carolina Coastal Council n112.1, the U.S. Supreme Court was concerned with whether the plaintiff had, under state law, an established property right, the deprivation of which through land use regulation triggered a right to compensation. The existence of such an established property right held by the plaintiff was a question of state law to be determined on remand. Nearly twenty years later, in a similar case in Florida, the U.S. Supreme Court affirmed the Florida Supreme Court's determination that beachfront owners' shoreline rights were not established property rights. Therefore, regulation of those shoreline rights did not "take" an established right of private property so as to require

compensation. n112.2

Add:

San Remo Hotel v. City and County of San Francisco, 41 P.3d 87 (Cal. 2002) .

§ 81.04(b) Physical Invasions.

Add

McCarran Intern. Airport v. Sisolak, 137 P.3d 1110 (Nev. 2006) (a height restriction on use of property adjacent to an airport constituted a per se regulatory taking).

Hsu v. County of Clark, Nev., 173 P.3d 724 (Nev. 2007) (transition zone height restrictions, allowing aircraft to fly through the airspace at altitudes below 500 feet were a per se regulatory taking, relying on the *Sislak* holding).

§ 81.04(d) Reciprocity of Advantage. [Go To Main]

Add:

Karam v. State, Dep't of Environmental Protection, 705 A.2d 1221 (N.J. Super. Ct. App. Div. 1998) (Even if the land use regulation does cause some decrease in the value of the property, as long as the owner benefits from average reciprocity of advantage, there has been no taking.); *Creppel v. United States, 41 F.3d 627 (Fed. Cir. 1994)* (Reciprocity of advantage occurs when the property owner has received benefits from the very regulation the property owner is challenging. On the other hand, a partial taking occurs when a few property owners bear the burdens, while the benefit is spread throughout the community)

§ 81.04(e) Distinct (Reasonable) Investment-Backed Expectations. [Go To Main]

Add:

Resource Investments, Inc. v. United States, 85 Fed. Cl. 447 (Ct. Cl. 2009) (regulatory takings claim based on delaying and denying a permit to construct a landfill).

Add:

Lindsey Coal Min. Co. Liquidating Trust v. Shalala, 901 F. Supp. 959 (W.D. Pa. 1995) (A new regulation to preserve health benefits was not considered a taking even though to some degree it affected the reasonable investment-backed expectations by requiring payment of 60% of current income, and by reaching 40 years into the past and requiring the company to enforce a promise the company never actually made); *Palm Beach Isles Associates v. United States, 231 F.3d 1354 (Fed. Cir. 2000)* (reasonable investment-backed expectations were not a proper part of the *Fifth Amendment* takings analysis); *Rith Energy, Inc. v. United States, 270 F.3d 1347 (Fed. Cir. 2001)* ; *Tahoe-Sierra Pres. Council, Inc. v. Tahoe Reg'l Planning Agency, 122 S. Ct. 1465 (2002)* .

§ 81.04(f) Economic Impact. [Go To Main]

Add:

Webster v. U.S., 90 Fed. Cl. 107 (9th Cir. 2009) (the city's mobile home rent control ordinance, which effected a nearly 90% transfer of the property value from the park owners to the tenants, constituted a regulatory taking).

After the citation K & K Constr., Inc. v. Department of Natural Resources add:

overruled, K & K Const., Inc. v. Department of Natural Resources, 575 N.W.2d 531 (Mich. 1998) ; *Coalition for Gov't Procurement v. Fed. Prison Indus., 154 F. Supp. 2d 1140 (W.D. Mich. 2001)* .

After the citation Volkema v. Department of Natural Resources add:

aff'd in part, Volkema v. Department of Natural Resources, 586 N.W.2d 231 (Mich. 1998) .

Add:

State Department of Environmental Protection v. Burgess, 772 So. 2d 540 (Fla. App. 2000) (permit denial did not deprive the owner of all economically viable use of the property); *Tahoe-Sierra Preservation Council, Inc. v. Tahoe Regional Planning Agency, 216 F.3d 764 (9th Cir. 2000)* (a temporary moratorium on development did not amount to a categorical taking); *Metropolitan Development Commission of Marion County v. Schroeder, 727 N.E.2d 742 (Ind. App. 2000)* (a variance condition did not constitute a regulatory taking depriving the owner of all economically viable use of the property).

Add:

Resource Investments, Inc. v. United States, 85 Fed. Cl. 447 (Ct. Cl. 2009) (regulatory takings claim based on delaying

and denying a permit to construct a landfill); *Scofield v. State, Dept. of Natural Resources, 753 N.W.2d 345 (Neb. 2008)* (regulatory taking which did not deprive owners of all economic use of their property).

§ 81.04(f) Economic Impact. [Go To Main]

Add:

Davis v. Brown, 851 N.E.2d 1198 (Ill. 2006) (a statute authorizing the state to reserve rights of way for future highways did not create a regulatory taking).

Blue Ribbon Properties, Inc. v. Hardin County Fiscal Court, 50 Fed. Appx. 671 (6th Cir. 2002) (applicant not deprived of meaningful economic use of land).

§ 81.04(g) Regulating Without Regard to Impact: The Nuisance Exception. [Go To Main]

Add:

Parise v. Com., State Bd. of Funeral Directors, 415 A.2d 153 (Pa. Commw. Ct. 1980) (When the police power is properly exercised no taking can occur, regardless of the economic impact on the landowner).

Add:

Keshbro, Inc. v. City of Miami, 801 So. 2d 864 (Fla. 2001) .

FOOTNOTES:
(n5)Note 112.1. *505 U.S. 1003 (1992)* .

(n6)Note 112.2. *Stop the Beach Renourishment, Inc. v. Florida Dept. of Environmental Protection, 78 USLW 4578* (U.S. Sup. Ct. No. 08-1151, June 17, 2010).

Supp. To CHAPTER 81 REGULATORY TAKINGS

9-81 Thompson on Real Property, Thomas Editions Supp. to § 81.05

Supp. to § 81.05 The Takings Cause of Action.

[Go To Main]

§ 81.05(a) Missing [Go To Main]

§ 81.05(a)(1) The Takings Cause of Action.

Add:

Treasure Island v. Provident Management Corp., 718 So. 2d 738 (Fla. 1998) (Even an improperly issued injunction can be considered as a taking for which compensation is required).

Restrictions on Bringing Takings Claims. [Go To Main]

§ 81.05(b)(1) Statute of Limitations.

Add:

Nance v. U.S., 92 Fed. Cl. 41 (Ct. Cl. 2010) (regulatory taking claim time-barred under the Tucker Act); *Webster v. U.S., 90 Fed. Cl. 107 (9th Cir. 2009)* (regulatory takings claim time-barred).

Change the citation *Foster v. City of Detroit, 405 U.S. 138 (6th Cir. 1968)* to:

Foster v. Detroit, 405 F.2d 138 (6th Cir. 1968) .

Change the citation Lerman v. City of Portland to:

Lerman v. Portland, 675 F. Supp. 11 (D. Me. 1987) .

Add:

Kottschade v. City of Rochester, 760 N.W.2d 342 (Minn. App. 2009) (claim was ripe for review even though developer failed to renew a permit based upon conditional general development plan approval).

§ 81.05(b)(3) Ripeness.

At the end of the last sentence of the first paragraph in this section add new footnote: n226.1

Add:

Sandy Creek Investors, Ltd. v. City of Jonestown, Texas, 2003 U.S. App. LEXIS 5651 (No. 02-50402, Mar. 24, 2003, 5th Cir.) (takings claim not ripe because not all available administrative or state remedies had been exhausted); *Kottschade v. Cilty of Rochester, 319 F.3d 1038 (8th Cir. 2003)* (failure to prosecute state claim rendered federal claim unripe); Reddell v. Calilfornia Coastal Comm'n, *103 Cal. Rptr. 3d 383 (2010)* (regulatory takings case was not ripe because the government agency had not yet rendered a final decision on the use of the property); Ashe v. New Fairfield Conservation Comm'n 2001, Conn. Super. LEXIS 2882 (2002). *Hill-Grant Living Trust v. Kearsarge Lighting Precinct, 986 A.2d 662 (N.H. 2009)* (takings claim was not ripe because it was not futile for applicant to submit a new variance application).

At the end of the last paragraph of this section add new footnote followed by new paragraph below. n236.1

Yet another aspect of the ripeness doctrine has emerged in a U.S. Supreme Court opinion announced in June 2001. One who obtains land already burdened by regulation may still press a takings claim when proposed development is rejected, if prior owners have not previously produced a takings claim that is ripe for adjudication.[236.2]

Add:

St. Johns River Water Management Dist. v. Koontz, 5 So. 3d 8 (Fla. App. 2009) (court had jurisdiction to consider claim even though the owner failed to accede to the river management district's attempted exaction); *City of Sherman v. Wayne, 266 S.W.3d 34 (Tex. App. 2008)* (regulatory takings claim was ripe for review when the city reached a final decision regarding the use of the landowner's property).

Casey v. Mayor and City Council of Rockville, 929 A.2d 74 (Md. App. 2007) (historic designation regulatory claim was not ripe absent a final determination on a demolition permit); *Cormack v. Settle-Beshears, 474 F.3d 528 (8th Cir. 2007)* (federal regulatory takings claim barred by owner's failure to exhaust his inverse takings claim in state court).

§ 81.05(c)(3) Damages.

Add:

Forty Mill Realty v. State ex rel. Missouri Highway & Transp. Dept., 872 S.W.2d 528 (Mo. Ct. App. 1994) (Owners of a shopping center were not allowed to argue that the loss of visibility and traffic caused by the state rebuilding a highway constituted inverse condemnation. The court distinguished this case from a previous case where the court allowed evidence concerning the loss of visibility and traffic when considering consequential damages of a taking of 20,000 square feet of land).

After the citation Front Royal Indus. Park Corp. v. Front Royal add:

reversed, Front Royal Indus. Park Corp. v. Front Royal, 135 F.3d 275 (4th Cir. 1998) .

Add:

reversed, Anastasio v. Planning Bd., 507 A.2d 1194 (N.J. Super. App. Div. 1986) ; *Board of County Supervisors of Prince William County, Virginia v. United States, 276 F.3d 1359 (Fed. Cir. 2002)* (claimant entitled to recover what value the land would have commanded in the open market at the time of the taking); Portland Natural Gas Transmission System v. 19. 2 *Acres of Land, 195 F. Supp. 2d 314 (D. Mass. 2002)* (measure of damage is fair rental value plus negative value of taking on retained land); *Borough of Jewett City v. Slater Mill Associates, 2002 Conn. Super. LEXIS 569* (No. 121714, Feb. 20, 2002) (proper measure of damages was diminution of value after the taking).

§ 81.05(d) The § 1983 Alternative. [Go To Main]

Add:

but see Ngo v. Reno Hilton Resort Corp., 140 F.3d 1299 (9th Cir. 1998) .

Change the citation Butz v. Economou to:

Butz v. Economou, 466 F. Supp 1351 (S.D. N.Y. 1979) .

FOOTNOTES:
(n2)Footnote 226.1. *Eberle v. Dane County Bd. of Adjustment, 595 N.W.2d 730 (Wis. 1999)* (The Supreme Court uses the same analysis for ripeness regardless of whether the claim was brought under the *Fourteenth Amendment* or the *Fifth Amendment*); *see also Community Treatment Centers, Inc. v. Westland, 970 F. Supp. 1197 (E.D. Mich. 1997)* .

(n3)Footnote 236.1. *TJ's South, Inc. v. Town of Lowell, 895 F. Supp. 1116 (N.D. Ind. 1995)* (A tavern owner's substantive due process claim, seeking an exception to allow live entertainment at the tavern, effectively avoided the ripeness requirements because the claim was based on *first amendment* rights, not *fifth amendment* rights.)

CHAPTER 82 TRANSFERS BY DEED

9-82 Thompson on Real Property, Thomas Editions § 82.01

AUTHOR: Professor Ronald R. Volkmer School of Law Creighton University

§ 82.01 Overview of the Law of Deeds.

Modern day American law recognizes a number of methods by which the title to real estate can be transferred. These methods of transfer have traditionally been classified according to differing criteria relating to both the method by which the transfer takes place and the time at which the transfer takes place. Thus, we find in the law traditional distinctions being drawn between: (1) transfer by voluntary act of an owner versus transfer by operation of law; (2) transfer during lifetime (inter vivos) versus transfer at death (testamentary); and (3) gratuitous transfer (gift) as opposed to bargained-for transfer (sale).

The term "conveyance" has traditionally been employed to encompass those methods of an inter vivos transfer of land by the voluntary act of the owner. While the common law of England recognized more than one form of conveyance, modern-day American law of conveyancing is more highly standardized and uniform. In American law, the law of deeds is the focal point of the law of "conveyancing." The law of deeds is concerned with inter vivos transfers of interests in real estate, bargained for or gratuitous. The touchstone for discussion is the written instrument: "the deed."

The law of deeds has origins going back to the common law of England. At the time Blackstone wrote on the topic of "Alienation by Deed," n1 the law of deeds was already moving from a common law basis to a statutory one. The shift toward a statutory basis for deed law accelerated in early American law, as the writings of Chancellor Kent illustrate. n2 In modern-day American law, the law of deeds is an amalgam of common law rules and statutory rules.

The logical starting point for a discussion of the law of deeds is the definition of the term "deed." While the common law meaning of the term is still relevant for many purposes, the definition of a deed in modern-day American law is more likely to be statutorily based. When we begin discussing the issue of what constitutes a "deed," we are confronted immediately with the formalities requirements for a deed. Formalities requirements for a deed are usually phrased in terms of the elements of "due execution." Although there may be varying interpretations of what elements are included in the phrase "due execution," there can be no dispute over the necessity of complying with the formalities requirements for "due execution" of a deed.

Formalities requirements go to the essential requisites for a deed. As a matter of custom and tradition, non-essential materials are typically included within the language of a deed. Of these non-essential materials, the most significant are

the so-called "covenants of title." These contractual undertakings, designed to provide a grantee with a measure of protection in regard to matters of title, have historically been considered a part of "deed law." These covenants have given rise to the familiar adjective "warranty," as applied to deeds.

In addition to the requirement of a validly executed deed, the law of conveyancing emphasizes the separateness of two other legal requirements: delivery and acceptance. A validly executed deed is insufficient, in and of itself, to transfer title; the validly executed deed must also be delivered and accepted by the grantee. Problems of delivery abound in the context of gratuitous transfers, particularly in situations where the intentions of the owner are unclear as to whether the transfer is to take place during the owner's lifetime or at the owner's death. Acceptance by the grantee is usually presumed, as is generally true in the law of gifts, and not in issue in the typical case.

A deed validly executed, delivered and accepted transfers title, but further questions may remain. The deed language may be unclear as to either what is being conveyed, who is doing the conveying, who is to receive title, under what conditions the grantee is to receive title, etc. In short, there may be ambiguity present, arising either from the face of the deed or from application of the deed language to the facts at hand. It is at this point where courts engage in the process of construction to clarify the meaning and legal effect of the instrument. In so doing, the courts have developed a number of well-settled constructional rules.

Although one specific section of this chapter deals exclusively with "Drafting Considerations," the entire chapter is, in a sense, devoted to drafting considerations; a deed, as the voluntary act of a grantor, is always the product of some person's draftsmanship. Problems of execution and construction are the end-result of faulty draftsmanship. The lawyer who fails to exercise due care in drafting a deed faces the potential of a malpractice lawsuit.

CHAPTER 82 TRANSFERS BY DEED

9-82 Thompson on Real Property, Thomas Editions § 82.02

AUTHOR: Professor Ronald R. Volkmer School of Law Creighton University

§ 82.02 Outline of the Chapter.

The substantive discussion of deeds begins with the definition of a deed and a comparison to other instruments, followed by a brief history of the law of deeds (§ 82.03). This is followed by a recitation of modern-day types and forms of deeds (§ 82.04).

Next is a review of selected issues affecting transfer by deed (§ 82.05), followed by a section focusing in on specific "formalities" requirements(§ 82.06). Succeeding sections address the following: parts of a deed (§ 82.07), essential elements of a deed (§ 82.08), and non-essential elements of a deed (§ 82.09). Covenants of title and estoppel by deed are the next topics considered (§ § 82.10, 82.11).

Section 82.12 addresses issues related to the consent of the grantor. Section 82.13 is devoted to one of the most important and least understood topics in the law of deed -- the process of construction and rules of construction. The concluding sections (§ § 82.14, 82.15) offer drafting considerations as well as a bibliography.

CHAPTER 82 TRANSFERS BY DEED

9-82 Thompson on Real Property, Thomas Editions § 82.03

AUTHOR: Professor Ronald R. Volkmer School of Law Creighton University

§ 82.03 Definition and History of Deed.

§ 82.03(a) Definition and Comparisons.

§ 82.03(a)(1) Definition.

As is true with other legal definitions, no all-encompassing definition of the term "deed" is universally agreed upon. One of the reasons for this lack of uniformity may be traced to the approaches taken; the "elements" approach or the "consequential" approach. The former emphasizes the legal requirements for a deed; the latter, the function of a deed.

Blackstone gave a common law definition for a deed, referring to it as a "writing sealed and delivered by the parties," n3 a definition similar to that of Chancellor Kent. n4 This definition stresses the legal requisites -- an elements approach. Modern definitions of the term "deed" are varied, although most of them include within the definition the "conveyance" function -- the transfer of an interest in real property from the grantor to the grantee. n5 This aspect of the definition is the consequential approach, indicating the function of a deed.

In modern-day law a comprehensive definition of the term "deed" will likely include both the consequential approach and the elements approach. n6 What is most significant for purposes of definition today are the state statutes. Many of these statutes incorporate the traditional definitions of a deed, while, at the same time, broadening the scope of what is included within the term. For example, a state statute which broadly defines "deed" to include any instrument which transfers an interest in real estate might incorporate leases or mortgages as well. n7 In the present discussion the term "deed" will be used in a more conventional, restricted sense. The following subsection will indicate the traditional dichotomies between deed law and other areas of law.

§ 82.03(a)(2) Other Instruments Compared.

The requirement of a written contract for the sale of real estate has produced a body of law generically referred to as the law of vendor/purchaser. Chronologically, the written contract precedes the actual conveyance, with the conveyance taking place on what has historically been referred to as "law day." The law of vendor/purchaser governs up to the moment of transfer on law day. Once the conveyance takes place on law day and the deed is delivered, the deed becomes the controlling instrument. Under the "merger doctrine," the deed supersedes the provisions of the contract of

sale n8 and takes the place of the contract as the controlling instrument. Although covenants may be contained within the deed, in its purest form the deed is a conveyance governed by property rules. Further discussion of the contractual aspects of a deed will be considered in various contexts.

Instruments transferring interests in real property for security purposes are governed by the law of mortgages, not the law of deeds. Historically speaking, the mortgage started out as a conveyance -- a conveyance of a fee simple upon a condition subsequent. In modern-day law, certain transfers for security purposes are accomplished through execution of so-called "deeds of trust." These, too, are governed by the law of mortgages, as well as by the law of trusts. It is axiomatic under the law of mortgages that a deed absolute on its face, can be shown to have been executed for security purposes. These instruments are governed by the law of mortgages as well.

Transfers of less than a freehold interest historically have been governed by the law of landlord/tenant. n9 The instrument of conveyance has customarily been referred to as a "lease," not a deed. Transfers of incorporeal interests, such as easements and profits, have been governed by property rules separate and apart from the law of deeds, n10 although the written instrument creating such interests is still today referred to as a deed. The same is true for instruments transferring mineral rights.

The most critical legal distinction for purposes of deed law is the distinction between a deed and a will, which will be considered in the succeeding chapter.

§ 82.03(b) History of Deeds.

As might be expected, the historical antecedents of the deed are traceable to conveyancing practices during the medieval period in England. The rich history of this period has been recounted in detail by other authors. n11 For present purposes it will suffice to recount the major developments and events that set the stage for the modern era of conveyancing. While English history explains much as to how the modern-day deed came about, the modern law of deeds has moved gradually from a common law basis to a statutory one. A brief review of common law conveyancing will be followed by discussion of the two acts of the English Parliament that greatly affected the development of the modern-day deed.

§ 82.03(b)(1) Common Law Conveyances.

The outstanding characteristic of English land law in the 11th through 13th centuries centered upon the concept of feudalism. n12 Out of this method of landholding developed the common law doctrine of estates. The doctrine of estates evolved into an elaborate system of present and future interests, and the concept of ownership, in a famous historian's phrase, "spread upon the plane of time." n13

Central to the development of this system of estates was the concept of alienability -- the right of an owner of an estate to freely transfer that interest to another person. The concept of free alienability was established in the landmark act of Parliament entitled *Quia Emptores* in 1290. n14 At the same time that the concept of free alienability was being established, the common law courts established some rather rigid, technical rules that effectively prohibited certain conveyances having certain characteristics. n15 The basis for these rules was the medieval concept of "seisin" and the rigid requirement that someone must always be "seised" of the land. In fashioning the concept of seisin, the common law courts created the concept of a freehold estate, the most important of which was the fee simple. n16

At common law, the exclusive method of transfer of a freehold estate was by livery of seisin. n17 In order to transfer a freehold estate, it was necessary for the transferor and transferee to actually go upon the land and perform the ceremonial rite of livery of seisin, during which the transferor, in the presence of witnesses, would hand over a clod or twig to the transferee. This ritual, known as feoffment, was necessarily a present operative act -- title to the subject property passed by feoffment at that time or not at all. Any attempt to pass seisin at a date subsequent to the actual

ceremony would be void. n18 Thus, conveyancing at common law did not necessarily involve a writing, for feoffment consisted of the physical actions of the parties to the transfer.

As custom developed, however, the parties at the time of the feoffment ceremony executed a charter of feoffment, a writing that would serve as evidence that the feoffment had actually taken place. The charter of feoffment was evidentiary in character, a written testimonial to *past* action. n19 The form and structure of the charter of feoffment greatly influenced the manner and form of what would later be called deeds. Thus, the charter of feoffment served as the historical antecedent to the modern deed.

In addition to the transfer of possessory freehold estates, the common law courts also permitted the transfers of non-possessory interests in land. These transfers were effectuated by grant. These "grants" were written documents under seal -- true instruments of conveyance. Interests that were transferable by grant included future interests as well as non-corporeal interests such as easements. n20

The status of the common law of conveyancing may be summed up in the famous common law maxim, "All lands lie in livery or in grant." n21 While influential in the development in the common law history of deeds, the concepts of livery and grant were not nearly as influential as the methods of transfer recognized in the courts of equity. The role of the equity courts in the enforcement of use estates was the next major development in the history of deeds. The recognition of the use estate ultimately produces one of the most famous English Parliamentary acts, the Statute of Uses. n22

§ 82.03(b)(2) Effect of the Statute of Uses.

The Statute of Uses, an act of Parliament of 1535, has been called the most influential statute in the history of English land law. n23 This is because of the powerful impact it had on two areas of real property law; future interests and conveyancing. The present focus is on the latter, particularly as it relates the development of the modern-day deed. In order to appreciate the significance of the Statute of Uses as it affected conveyancing, the concept of the use estate must be briefly explored.

The concept of the use estate developed shortly after the Norman Conquest of 1066, as part of the tenurial landholding system. The central concept of the use estate was that of a person holding fee simple title to real estate for the use and benefit of another person. Conceptually, it is the forerunner of the modern day trust. Property held in use estate gave rise to a form of bifurcated ownership; the person holding the legal title, the "feoffee to uses," was seised and regarded by the law courts as the owner of the property. According to the terms of the transfer, the feoffee to uses was obligated to hold the property conveyed for the use and benefit of some other person, the *cestui que* use. For the use concept to be successful, it was necessary for the *cestui que* use to have a right against the feoffee to uses. Recognition and legal protection of the *cestui que* use's interest came from the Chancellor and, ultimately, the courts of equity. Thus, it came to be that the *cestui que* use's interest in the property conveyed was recognized as an equitable interest. Because of the many advantages of holding property in use, most of the land in England after the Conquest was held in use estates. n24

The methods of creation of use estates are relevant to a discussion of the history of deeds. For some period after the Conquest, it appears that the most prevalent method of creating use estates was by a feoffment to uses, with livery of seisin being employed. However, other methods of creating use estates were recognized in equity, and these methods turned out to be far more significant in the law of conveyancing. The two other methods of "raising" a use, recognized in equity, were: (1) a bargain and sale transaction and (2) a covenant to stand seised. n25

The "bargain and sale" and the "covenant to stand seised" methods did not involve livery of seisin, instead, they utilized written documents. In the bargain and sale transaction, the transferor and transferee, by written instrument, would agree to the sale of the property for a consideration. n26 No livery of seisin would take place, and the law courts would therefore rule that no transfer had taken place. Courts of equity, however, looking to the substance of the transaction, would deem it unfair for the transferee to retain the consideration and the title. The equity courts exercised their powers

in holding that the transaction "raised a use" in the bargainee and left the bargainor holding legal title for the use and benefit of the bargainee. n27 While not transferring legal title, the writing, consideration, and parties' intent created an equitable interest in the bargainee.

A covenant to stand seised also involved a written instrument under seal. In this transaction, a person would covenant with another person to hold the property for that person's use and benefit. No livery of seisin would take place. So long as the parties to the covenant were related by blood, the equity courts would enforce the covenant despite lack of consideration. n28 Equity courts thus recognized a covenant to stand seised as a third method of "raising" a use.

The Statute of Uses did not abolish use estates. For those transactions to which the Statute applied, the use estate was "executed" and converted into the corresponding legal estate. In terms of conveyancing law, the bargain and sale transaction now became a legally recognized method of transferring a freehold estate without resorting to the cumbersome ritual of feoffment. In short, it became possible to transfer freehold estates by a written instrument. The bargain and sale contract became the instrument of transfer; the medieval deed. Likewise, covenants to stand seised were similarly effected: the covenant raised a use which the Statute of Uses executed. The result was the transfer of legal title from the covenantor to the covenantee. n29 The Statute of Uses, whether by design or chance, introduced into the common law the transfer of present freehold estate by written instrument. Thus, the stage was set for the modern era of conveyancing.

The common law history of conveyancing in England includes several other methods, such as the fine and common recovery, which, though now obsolete, played a significant role for centuries in medieval England. Some of the methods of conveyance mentioned by Blackstone n30 are still very much a part of modern-day law but are usually taken up in conjunction with other topics.

Contemporaneous with the Statute of Uses was Parliament's attempt to compel public recordation of transfers of fee interests. Parliament sought to do this through the Statute of Enrollments n31 by applying its requirement to the enrollment of bargains and sales of freehold interests. n32 The manner in which the Statute operated left a very large loophole, which was soon exploited by those interested in preserving secret transfers.

With only minor exceptions, the history of conveyancing in the United States does not include the concepts of tenure and livery of seisin. Some of the early American cases indicate that conveyances made by bargain and sale and covenant to stand seised would be recognized. n33 In those instances it was necessary for a court to hold that the Statute of Uses existed statutorily or as part of the common law of the state. No late 20th century lawyer will likely come into contact with a situation raising the question of "common law conveyances." As will be seen below, the modern-day basis for conveyancing in the United States is statutory; state statutes either prescribe formalities for a conveyance or authorize conveyances by written instruments meeting certain formalities requirements.

§ 82.03(b)(3) Effect of the Statute of Frauds.

As has been noted above, the common law required a deed for a valid transfer of an incorporeal interest. When Parliament enacted the Statute of Frauds in 1677, it left that requirement intact and required for the first time that the creation or transfer of a corporeal interest be evidenced by a writing. Section One of the Statute stated the creation of "leases, estates, interests of freeholds, or terms of years" must be by an instrument in writing. n34 Section Three of the Statute dealt with *transfers* of such interests:

> No leases, estates, ... shall be assigned, granted, or surrendered, unless it be by deed or note in writing signed by the party so assigning, granting or surrendering the same. n35

The deed referred to in this statute was the common law concept of a deed; an instrument under seal. The "note in writing" alternative permitted writings lacking a seal. For purposes of modern-day law it is not necessary to delve into

the fine points of interpretation of this landmark statute.

The effect of the Statute of Frauds upon modern-day conveyancing and the law of deeds has been profound. It was the Statute of Frauds that started modern-day conveyancing procedure by its requirement of a writing. It was the Statute of Frauds that initiated the modern-day requirement that deeds must be signed by the grantor. It was the Statute of Frauds that served as a prototype for similar statutes enacted by the various state legislatures in this country. n36

CHAPTER 82 TRANSFERS BY DEED

9-82 Thompson on Real Property, Thomas Editions § 82.04

AUTHOR: Professor Ronald R. Volkmer School of Law Creighton University

§ 82.04 Types and Forms of Deeds.

[Go To Supp]

The term "deed" is generic, used to describe a particular type and form of legal instrument, distinguished from other legal documents. Within the broad framework of the term "deed," there are distinctions that have been drawn between the various forms and types of deeds. Many of these distinctions are the products of history, evolving during the formative period of the law of deeds. They play no significant role in modern day law and will be examined only cursorily. The emphasis in this section will be on the modern day distinctions and developments.

§ 82.04(a) Historical Considerations and Modern Statutes.

§ 82.04(a)(1) Historical Considerations.

Both Blackstone n37 and Kent n38 wrote of the "several species" of conveyances at common law. These "species" were adverted to in the historical background above. Two of the "species," feoffment with livery of seisin and alienation "by fines and common recoveries," had ceased to have any significance in the United States by 1830. n39

The other methods of conveyance did play a significant role both in the manner in which deeds in this country were referred to and in the language of the instruments. These methods of conveyance, as listed by Kent, were: (1) grant, (2) covenant to stand seised to uses, (3) lease and release, and (4) bargain and sale. The methods were divided into two categories; "conveyances at common law, and conveyances which receive their efficacy from the statute of uses." n40 The grant fit into the first category; the others into the second.

The grant was the common law method of conveyancing incorporeal interests "which cannot passe without deed." n41 The operative words used, according to Blackstone, were "have given and granted." n42 Thus, from an historical standpoint, "grant deeds" were those conveying incorporeal interests using the "given and granted" language.

The covenant to stand seised was a method by which a use estate was raised. The primary limitation on this method was the requirement that "it must be founded on the consideration of blood or marriage." n43 As conveyances, covenants to stand seised owed "their efficacy to the statute of uses," n44 insofar, that is, as the Statute of Uses would "execute" the

use; the person formerly seised of the use of the land was "put at once into corporal possession of the land, without ever having seen it, a kind of parliamentary magic." n45

The conveyance by lease and release owed its efficacy to the Statute of Uses as well, but owed its popularity to the loophole in the Statute of Enrollments. n46 The lease and release was a two-step process requiring two instruments: (1) a one year term was "bargained and sold" to a tenant for a valuable consideration, raising a use; and (2) the owner of the freehold "one day later" released the reversion to the tenant. Thus, the tenant ended up with a fee simple estate with livery of seisin not having taken place and the transfer not subject to the Statute of Enrollments. n47 According to Blackstone, the common law release used the words "remised, released, and for-ever quitclaimed." n48

The bargain and sale conveyance was based in contract, or as Blackstone called it, "a kind of real contract." This "real contract" involved the following: "the bargainor for some pecuniary consideration bargains and sells, that is contracts to convey, the land to the bargainee; and becomes by such a bargain a trustee for, or seised of, the bargainee; and then the Statute of Uses completes the purchase." n49 Thus, the contract's "execution" under the Statute of Uses resulted in, as Chancellor Kent put it, a "complete transfer of title." n50 Although there were no "magic words" necessary for this type of conveyance, n51 the term "bargain and sale" came from the contract language that Blackstone described. n52

Blackstone also wrote of the distinction between a deed indenture and a deed poll, the former being a deed "made by more parties than one," n53 while the latter was a deed "made by one party only.'" n54 The deed "made by one party only" refers to a deed signed only by the grantor.

What of these "species" of conveyances in modern-day law? What about the modern-day statutes of deed poll and deed indenture? The next section deals with these questions.

§ 82.04(a)(2) Modern Statutes.

As to the "species" of conveyances, the distinction between conveyances operating "at common law" or "under the statute of uses" no longer obtains. What we have today are conveyances by deed operating by virtue of state statutes which (1) require a written instrument (deed) for the conveyance of any interest in land and (2) prescribe the formal requirements for the written instrument. Some traces of the common law methods of conveyancing are found in these statutes.

The first and foremost method of common law conveyancing was feoffment, with livery of seisin. Certain state statutes even today refer to "livery of seisin," primarily for the purpose of declaring that this method of transfer is no longer recognized. n55

The common law method of conveyance known as "grant" has been swallowed up in the modern-day statutes requiring the transfer of *any* interest in real estate by deed. Today, we occasionally find statutes which state that conveyances may be made by grant instead of livery of seisin. The primary legacy of this common law conveyance method in modern-day statutory law is the legal significance of the term "grant" when used as the operative word of conveyance in a deed; implied warranties of title may result. n56

Covenants to stand seised are rarely referred to today, but an occasional reference to them will be found in state statutes. n57 The same is true of the lease and release. n58 Both of these common law methods, operating under the "efficacy" of the Statute of Uses, have no statutory basis to support them, except as will be found occasionally in state law. The modern-day remnant of the lease and release is found in the modern-day quitclaim deed, discussed at § 82.04(b), *infra*.

The bargain and sale method of conveyance at common law depended upon the Statute of Uses. n59 Conveyancing under modern-day law does not operate under the Statute of Uses. Conveyances today operate under those statutes referred to above that require a deed and specify the legal requirements for a deed. One can find an occasional case

applying the common law bargain and sale theory as a basis for a conveyance, but that is rare. There are many modern-day deeds, some statutorily based, employing the terms "bargain and sale" as the operative words of conveyance in a deed. In that sense there are modern-day bargain and sale deeds -- deeds which bear that term as a heading. The only practical and significant factor involved in so-called bargain and sale deeds relates to the topic of implied warranties. Like the grant deed, the bargain and sale deed may trigger implied warranties of title. n60

Modern-day deeds are of the "deed poll" variety -- signed only by the grantor. The distinction between an "indenture" and a deed poll in modern-day law is obsolete. n61 As will be noted *infra*, n62 the requirement of the grantor's signature or its equivalent is a universal requirement for the validity of a deed. The fact that a deed is not signed by parties occupying the status of grantee is of no legal significance, despite the fact that the deed contains promises of the grantee. n63

LEXIS: deed w/3 indenture w/5 distinction

§ 82.04(b) Modern Types of Deeds.

In modern-day law, deeds are usually categorized according to the presence or absence of warranties of title contained therein. n64 As will be shown below, a deed need *not* contain warranties in order to be a valid deed. In the United States, a deed containing no warranties of title has traditionally been referred to as a "quitclaim" deed. n65 The quitclaim deed is denominated a deed of release, conveying to the grantee whatever interest, if any, the grantor has in the property. n66 So long as the essential elements for a deed are present, the fact that the deed is quitclaim in nature does not in any way impair its validity as a deed. n67 At one time, the status of one purchasing under a quitclaim deed raised questions as to whether the grantee would have the status of a bona fide purchaser under the recording act. The modern-day view is that bona fide purchaser status is not imperiled by taking under a quitclaim deed. n68

COMPUTER-ASSISTED RESEARCH

LEXIS: quitclaim w/25 warrant! w/3 title
quitclaim w/5 convey w/5 interest w/5 grantor
quitclaim w/5 grantee w/5 acquir! w/5 same w/5 grantor
quitclaim w/5 good w/5 title
quitclaim w/5 convey! w/5 effective

Deeds containing the optional warranties of title are generically referred to as "warranty" deeds. The nature of warranties of title and their legal effect will be explored in § 82.10, *infra*. As a general proposition, warranty deeds are classified as general or special, depending upon the types of warranties contained therein. However, the binary distinctions between warranty deeds and quitclaim deeds and between general warranty deeds and special warranty deeds are not the same from state to state. Because of particular state statutes, the terminology of "warranty," "quitclaim," "general warranty," and "special warranty" deed is not always applied. n69

Deeds are sometimes identified by reference to the status of the grantor. Thus, a deed might be described as a "sheriff's deed," an "executor's deed," a "trustee's deed," a "guardian's deed," etc. In some states these deeds are referred to in statutes prescribing deed forms. n70 Regardless of the identity of the grantor, the substantive law of deeds requires that certain requirements be met before the instrument is legally effective as a deed.

Deeds are occasionally referenced by the subject matter of the conveyance. Thus, in the transfer of an easement, the deed employed is sometimes referred to as a "right-of-way" deed. n71 Another example is a so-called "timber deed." n72 The law of natural resources has produced its own set of deeds relating to transfers of oil and gas interests, mineral

interests, water rights, etc. n73 In these specialized areas of law, the person drafting a deed needs to take note of the peculiar problems inherent in drafting a deed conveying a particular type of real property interest.

§ 82.04(c) Statutory Short Form Deeds.

The drafting of deeds during the formative period of the English common law was marked by formalism. The common law conveyancers followed a rigid format -- a set pattern consisting of several parts. n74 The result was a prolix document; the typical deed was characterized by one critic as being "difficult to read, disgusting to touch and impossible to understand." n75

In the early days of the American republic, the conveyances followed the English format, with all of their redundancy and complexity. Chancellor Kent, writing in 1830, recognized that the language of a deed could be considerably simplified, n76 but acknowledged that the force of custom was great and that the "formality," "prolixity," and "usual redundancy of language" would likely continue. n77

The simplification desired by Chancellor Kent came about primarily because of the enactment, by state legislatures, of so-called "short form" statutes. These statutes set forth language for warranty, quitclaim and other forms of deeds that would fulfill the legal requirements for a deed and would be deemed sufficient under local law. By receiving statutory assurance of validity, conveyancers were being encouraged to simplify the forms of deeds, with a streamlined document being the end-product. The statutory forms, with their deed prototypes, encouraged a "fill in the blank" form of drafting.

Today, roughly three-fourths of the jurisdictions in this country have some form of a statutory short form deed. Categorization of the various state statutes is no simple task because of the variety of statutes and the interplay between two unrelated topics: (1) a statutory recitation of language sufficient to meet minimum requirements for a deed, and (2) creation of covenants of title by implication. This latter topic will be explored in a later section. n78

Below is a state-by-state listing of states having statutory short form deeds. The table includes pertinent statutory references as well as indications of the types of statutory form deeds in the jurisdiction. The final column refers to "short form" instruments that are either (1) particularized forms of warranty or quitclaims deeds or (2) specialized forms for mortgages, leases, etc. The process of drafting a deed in the individual circumstance might profitably begin by consulting this table.

CHAPTER 82 TRANSFERS BY DEED

9-82 Thompson on Real Property, Thomas Editions § 82.05

AUTHOR: Professor Ronald R. Volkmer School of Law Creighton University

§ 82.05 Issues Affecting Transfer by Deed.

A conveyance may fail for a variety of reasons. When examined more carefully, the failure is attributed to a violation of, or non-compliance with, a narrowly-defined legal rule. The applicable legal rule is typically considered part of the "law of deeds," and there is no great difficulty in applying the applicable rule from that general body of law. In the substantive law of deeds, there are various methods of categorization of the defects affecting the validity of the transfer. One method of approach is to consider intrinsic and extrinsic defects of deeds, which method will be employed in the succeeding discussion.

On the other hand, a conveyance may fail for reasons having nothing to do with the law of deeds, strictly speaking. The difficulty presented is the artificiality of distinctions that have evolved in land transfer law; there are no bright-line tests separating "the law of deeds" from other areas of law. What distinctions have been drawn are the result of custom and convention. While certain topics undoubtedly form the "core" of the law of deeds, there are related but peripheral topics that are worthy of note. As might be expected, these topics are not easily addressed in a work devoted to the law of deeds. In § 82.05(c), *infra*, some of the more pertinent of these peripheral issues will be briefly noted.

Regardless of the source of the legal rules involved and how they are categorized, one studying the law of deeds must take into account the types of rules involved. This matter will be briefly addressed in the concluding subsection.

§ 82.05(a) Intrinsic Defects -- Formalities Requirements.

The first and most basic reason for a failed conveyance is a defect in the "deed" itself; the instrument does not satisfy formalities requirements imposed by the common law or by statute.

Formalities requirements will be addressed *infra* under the heading of "Due Execution." Issues of due execution generically pertain to the form and the language of the instrument; what *must* be contained in a deed. When an instrument fails to contain what is legally required, the defect may be characterized as "intrinsic" to the instrument. The defect arises out of the form and language of the instrument itself.

§ 82.05(b) Extrinsic Defects.

A conveyance may fail for a variety of defects unrelated to issues of due execution. These defects are not apparent on the face of the instrument. Blackstone wrote of methods by which a deed may be "avoided, or rendered of no effect." n79 After listing defects of due execution, Blackstone proceeded to discuss facts and circumstances outside the instrument affecting the validity of the instrument. n80

Legal defects of this type includes such matters as legal competency of the grantor and grantee, consent of the grantor, delivery, and acceptance. In this work these issues will not be treated as issues of "due execution," but will be addressed separately. While there is some artificiality in this separation, it appears unavoidable. Issues of delivery and acceptance, arising primarily in the context of donative transfers, will be discussed in the succeeding chapter.

§ 82.05(c) Related Issues.

§ 82.05(c)(1) Interests Subject to Deed Requirement.

The assumption underlying the law of deeds is the unstated doctrine that the transfer in question is subject to the law of deeds. Exactly what types of transfer, however, are subject to the law of deeds? An analogous issue arises in the law of wills but, in that arena, it is easy to identify the law of wills as the Statute of Wills which regulates testamentary transfer via formalities requirements. Courts have developed a test for determining what transfers are "testamentary" for purposes of compliance with the Statute of Wills.

In the history of deed law, the inquiry begins with examination of Section Three of the English Statute of Frauds, which provided that "no leases, estates, or interests, either of freehold or terms of years ... shall be assigned, granted, or surrendered, unless it be by deed or note in writing ...." n81

There was no confusion about the scope of this statute or what it was designed to do; the first three sections of the statute "affect the creation and transfer of estates in *land*." The "deed or note in writing" requirement applied to the creation of transfers of interests *in land*. To the extent that a transferor was creating or transferring interests in personal property, this section of the statute was inapplicable. n82

COMPUTER-ASSISTED RESEARCH

LEXIS: deed w/10 not w/10 property w/2 personal w/5 real w/2 property

In the United States the "deed" requirement is governed by state statutory law. Some states have Statutes of Frauds that are similar to the English prototype, including Section Three. Other state statutes follow a different format, generally providing that a conveyance of an interest or of an estate in real property or land may be made by deed of conveyance. The terms "estate" and "interest" in land have a well-developed meaning, as evidenced by decades of case law. There can be little doubt, for instance, that an easement n83 or a future interest, such as a reversion, is subject to the formalities requirements of deed law. Not so clearly defined, however, are other interests which arise out of contract.

COMPUTER-ASSISTED RESEARCH

LEXIS: deed w/10 conveyance w/10 easement w/10 pass

Restrictive covenants and installment land contracts are but two examples in modern-day law. If one views the restrictive covenant as an equitable servitude, the interest is treated as tantamount to an easement, and thus, the formalities requirements of deed law would apply. Installment land contracts are even more difficult to categorize because of the equitable conversion doctrine. If the interest of the land contract vendor is treated as personal property under the legal fiction of equitable conversion, it would not be subject to the law of deeds. n84 The categorization of the respective interests of the land contract vendor and vendee is important not only for the law of conveyances, but also for

the law of security. Similarly, a question can arise pertaining to the characterization of contractual interests arising from ownership of mineral rights. n85

COMPUTER-ASSISTED RESEARCH

LEXIS: installment contract w/10 equitable conversion oil or gas w/5 inchoate w/5 interest

Whether an interest is considered real or personal property is the focal point of the law of fixtures. The property in question may become part of the soil and treated as an interest in real property for transfer purposes. n86 A partner's interest in a real estate partnership may raise a question as to the nature of the interest owned by a partner. n87

The law of deeds is the by-product of a legal system that has historically distinguished real property from personal property and conveyances from contracts. While modern law tends to discount and obliterate these distinctions, these fundamental distinctions underlie the structure of the law of deeds and may be outcome-determinative in particular cases.

§ 82.05(c)(2) Inalienable Interests.

Assuming that the interest in question is classified as "real property," and further assuming that the deed in question meets all statutory criteria, the conveyance may still fail. The failure could result from the fact that the interest is legally "inalienable" -- not capable of being transferred inter vivos. An "inalienable" property interest may result from a statutory or common law rule that makes certain interests, such as future interests, not transferable. n88 Transferors often impose restrictions on alienation in deeds or wills. Whether or not such restrictions are valid depends upon a body of law known as the restraints on alienation doctrine. n89 This doctrine has a long history and survives today in various forms. n90

One example of an inalienable interest at common law was the legal rule which developed in England that land in the hostile possession of another could not be transferred. n91 The legacy of that rule in this country are state statutes, some of which are still extant, which explicitly state that land in the hostile possession of another may be transferred by deed. n92 Although the precise status of the common law rule may theoretically be in doubt in certain states, it would be hard to imagine a modern-day court invoking a common law rule with nothing to commend it but history.

§ 82.05(d) Rules of Law and Rules of Construction.

The distinction between intrinsic and extrinsic defects goes to the issue of whether a valid conveyance has taken place. Thus posed, the issue is binary in form; the conveyance is either void or valid. Issues of this type are governed by the applicable rules of law, primarily statutory rules. Detailing the precise scope and nature of these rules is one of primary goals of this chapter. All of the legal rules pertaining to due execution are rules of law; these rules are standards to which the parties must conform. Rule compliance is paramount. At its most basic level, the law of deeds consists of the definition of these rules of law and application thereof to specific factual situations.

Assuming that a conveyance is valid, there might still exist a legal dispute over the interpretation of the deed. It is at this point that rules of construction enter in. Note that while the issue in deed construction cases is in binary form -- does this construction or that construction prevail? -- the issue presented is not one of validity but construction. As will be discussed in § 82.13, *infra*, courts have adopted rules to follow in the interpretive process, the so-called rules of construction.

Considered more generally, the law of deeds consists of rules governing validity (rules of law) and rules governing interpretation (rules of construction). The distinction between rules of law and rules of construction is basic to the law of property and must be constantly kept in mind in the analysis of all of the issues pertaining to deeds. This distinction

is important for both the lawyer-draftsman and the lawyer-litigator, but it is especially important to the former.

CHAPTER 82 TRANSFERS BY DEED

9-82 Thompson on Real Property, Thomas Editions § 82.06

AUTHOR: Professor Ronald R. Volkmer School of Law Creighton University

§ 82.06 "Due Execution" -- Formalities Requirements.

[Go To Supp]

The phrase "due execution" of a deed does not appear in the writings of Coke or Blackstone. In 1830, Chancellor Kent employed the phrase "of the due execution of a deed" in his work. As to the meaning of the phrase "due execution," Kent stated that for a deed to be "duly executed," it "must be written on paper or parchment, and signed, sealed, delivered, and recorded." n93 Modern-day writers on the law of deeds, while not agreeing on all of the elements of "due execution," have regarded the elements of delivery and recordation as separate and distinct elements of deed law, not as components of "due execution." n94

§ 82.06(a) "In Writing."

Chancellor Kent's listing of the elements of due execution began with the writing requirement. This was most fitting since the first and most basic formalities requirement is that of a writing. As noted, n95 the English Statute of Frauds of 1677 introduced into law the requirement of a writing for the creation or transfer of corporeal interests in real estate. Blackstone noted that this statutory requirement was to abrogate the former practice of conveyances being made "by parol, or word of mouth." n96 The writing must be "upon paper or parchment" and may be "printed." n97

In the United States, the "in writing" requirement for deeds is a matter of state statutory law. State legislatures, using the English Statute of Frauds as a prototype, have enacted statutes requiring transfers of real estate to be made by "deed or note in writing." n98 Drafting and litigation have focused precisely on what this writing must contain, not on whether writing itself is required. n99 As noted *supra*, n100 the modern-day definition of deed invariably incorporates the writing requirement. Nothing is more basic to the very concept or definition of a deed than the "in writing" requirement.

COMPUTER-ASSISTED RESEARCH:

LEXIS: title w/5 real estate w/10 transfer! w/10 writ!

Where the law permits transfers of interests of real property without a writing, the law being applied is not the law of deeds. Wrongful possession of land may result in an original title through the doctrine of adverse possession. n101

Fraud and other forms of wrongdoing might result in a transfer through principles of restitution and the constructive trust remedy. n102 A purported oral gift of land cannot be given effect if the "in writing" requirement for deeds is taken seriously. n103 The doctrine of part performance, which equity courts recognized in the contracts section of the Statute of Frauds, has received some slight recognition in older cases involving oral gifts of real estate. n104

COMPUTER-ASSISTED RESEARCH:

LEXIS: part performance w/20 oral gift

§ 82.06(b) "Signed" by the Grantor.

The signature of the grantor is the second most basic and universal element encompassed in the phrase "due execution." Like the writing requirement, the necessity of the grantor's signature is traceable to the English Statute of Frauds. n105 Sir Edward Coke's discussion of the "incidents" of a deed, authored some fifty years before the Statute of Frauds, does not mention signing. Blackstone's treatise acknowledged the change wrought by the Statute of Frauds in stating that "signing now seems to be now as necessary as sealing." n106 Chancellor Kent, writing in 1830, in deference to the Statutes of Frauds provisions of the various states, declared that a deed must be signed. n107

In every American jurisdiction, a statute requires signing by the grantor, or, as stated in some states, the deed must be "subscribed" by the grantor. n108 Litigation over the signature requirement has arisen in a variety of contexts: what constitutes a "signature"; n109 placement of the signature; n110 whether signing by mark is sufficient; n111 whether a disabled grantor may be assisted in signing; n112 whether signing by an agent is allowed; n113 and the effect of an erroneous signature. n114 If the grantor is an entity and not a natural person, additional questions are presented with regard to statutory compliance. n115

COMPUTER-ASSISTED RESEARCH

LEXIS: grantor w/5 signs
w/5 mark w/10 witness!
signature w/10 hand w/25 aid
deed w/5 corporate seal

The not-so-obvious issue raised by the statutory requirement of the grantor's signature is the question of "who is the grantor?" The issue of whose signature is required arises most frequently in conjunction with grantors who own property in their individual names but are married at the time of the conveyance. The complicating factor is the inchoate interest of the spouse, which may be lawfully conveyed away only by deed signed by the spouse. n116 This issue of "spousal joinder" is a long-standing problem in the law pertaining to marketable title. n117 Technically, this issue is not one of "due execution" affecting the validity of the deed, but given the history and prevalence of this problem, it needs to be dealt with at the time of the transfer. n118

COMPUTER-ASSISTED RESEARCH

LEXIS: deed w/20 signature w/20 inchoate w/20 dower

What appears to be the signature of the grantor on the deed may turn out to be a forgery. n119 Obviously, if forgery is proved, the statutory requirement has not been met. The topic of forgery will be taken up in conjunction with "Consent Issues," § 82.12, *infra*.

COMPUTER-ASSISTED RESEARCH

LEXIS: forg! w/5 void

§ 82.06(c) Seal.

According to Chancellor Kent, "Deeds were originally called charters, and from the time of the Norman Conquest, the charter was authenticated by affixing to it a seal of wax, and it derived its validity from the seal." n120 The Statute of Frauds, Section Three, referred to a "deed or note in writing." n121 Blackstone and Kent interpreted this language to mean that the common law definition of "deed" as a sealed instrument remained after the passage of the Statute of Frauds. n122

Issues relating to the requirement of a seal are practically nonexistent in the modern-day law. Modern state statutes referring to a "deed" cannot rationally be construed as adopting the common law definition of a deed as an instrument under seal. n123 In the vast majority of states, there are statutes that have been adopted which either render a seal unnecessary or make its presence legally irrelevant. n124 Even in the rare jurisdiction which ostensibly requires a seal, n125 the courts appear to recognize various legal doctrines to satisfy this requirement. n126

COMPUTER-ASSISTED RESEARCH

LEXIS: deed w/5 seal

When the grantor is a corporation, the lack of a corporate seal may be legally significant. n127 To the extent that modern-day deeds bear evidence of "seals," it is more likely that the seal is that of the notary public, placed thereon in conjunction with the acknowledgment of the instrument. n128

COMPUTER-ASSISTED RESEARCH

LEXIS: deed w/5 corporate seal

§ 82.06(d) Attestation.

"Attestation" is, according to Blackstone, the "execution of [the deed] in the presence of witnesses." n129 Although initially described by Blackstone as a "requisite to the validity of a deed," the same author backtracks substantially in stating that attestation is necessary more "for preserving the evidence, than for constituting the essence of a deed." n130 Unlike the law of wills, which by statute incorporated "attestation" and "subscription" requirements as part of the execution process, n131 neither the common law nor the Statute of Frauds required attestation of deeds.

In the United States, there being no common law requirement of attestation, deed attestation became solely a matter of local statutory law. n132 Today, only the states of Florida and Ohio have statutes generally requiring attestation as an element of due execution. n133 State statutes typically require witnessing in conjunction with a statute that allows a grantor to sign by mark. n134 Attestation may also be a requisite to recording under local law. n135

§ 82.06(e) Acknowledgment.

Whereas the common law incorporated the requirement of a seal into the definition of a deed, that aspect of the common law of deeds has no modern-day vitality. n136 In the modern scheme of deed law, the requirement of an acknowledgment has, as a practical matter, been substituted as an element of due execution.

Acknowledgment of instruments is a modern-day statutory device designed to allow persons to rely upon the authenticity of the signatures appearing on deeds and other instruments. While the meaning and content of acknowledgment is subject to statutory definition from state to state, the general pattern of an acknowledgment

procedure involves two steps: (1) the person executing an instrument goes before an officer, signs the document and declares the action to be the voluntary act and deed of the person signing; (2) the officer then places a certificate of acknowledgment on this instrument, showing the name of the person making the acknowledgment, the date, the officer's authority and the officer's seal. n137

To what extent are deeds *required* to be acknowledged under modern-day law? Since acknowledgment was unknown at common law, there is no common law basis for requiring it as an element of due execution of a deed. As a purely statutory creation of the various jurisdictions, acknowledgment of a deed is required to the extent required by governing law, in this instance, state statutes. In examining these statutes, some basic distinctions need to be drawn.

In many jurisdictions, the courts have concluded that an unacknowledged instrument is valid as between the grantor and the grantee. n138 Courts taking this view do not regard the acknowledgment as an essential part of the deed nor as a part of the "due execution" formalities. n139 On the other hand, in these same jurisdictions, state statutory law might specifically require a valid acknowledgment for the transfer of an interest in a particular type of property, such as homestead. n140 As to such types of property, the acknowledgment of the deed is regarded as an execution formality, with non-compliance resulting in invalidity. n141 This is the rare case in which the type of property being conveyed affects the formalities requirements.

COMPUTER-ASSISTED RESEARCH

LEXIS: unacknowledged deed w/10 grantor w/10 grantee
instrument w/5 acknowledged w/15 grantor w/15 grantee
conveyance w/10 valid w/20 acknowledged w/20 homestead

Acknowledgment of a deed is typically required before the deed is entitled to be recorded. n142 Recordation is another area of law that is grounded in statutory law. As a general proposition, it is said that recordation is not a required formality for a deed; thus, the aphorism states that "title passes by deed and not by the registration." n143 As a practical matter and for good reason, the vast majority of deeds are recorded. Thus, whether acknowledgment is technically required or not becomes a moot point; the grantee in practically every instance imaginable will want to have the deed recorded promptly and to do so, the deed must be acknowledged. In this area of the law the practice is more important than the theory. Acknowledgment of a deed has become a de facto, if not a de jure, requirement.

COMPUTER-ASSISTED RESEARCH

LEXIS: deed w/2 recording w/5 essential w/5 validity
deed w/10 real estate w/10 delivery w/10 recording
deed w/5 not w/5 recorded w/10 effective

The issue of the validity of the acknowledgment might arise in varying contexts. Questions of this nature are governed by the law of acknowledgments, a body of law distinct from the law of deeds. Many of the issues pertaining to the validity of acknowledgments are strictly factual issues. Some purely legal questions do arise, but the number of recent cases involving alleged defective acknowledgments is relatively small. n144

In a lawsuit contesting the validity of a deed, the contestant would ordinarily be required to state specific grounds for invalidity. As to the matters discussed in this section, the contestant could make a challenge based upon alleged non-compliance with the signature requirement or the acknowledgment requirement. The burden of proof would be on the contestant in those cases in which a certificate of acknowledgment, regular in form, appears on the instrument. n145 Just as there are precautions that one should take in anticipation of a will contest, the person drafting a deed should always consider the advantages gained by having a deed properly acknowledged, even though the instrument does need to be acknowledged to be valid and will not be presented for recording.

(n23)Footnote 115. *See generally* the discussion in Thompson, *supra* n.94, at: § § 3221-3223 (partnerships); § 3224 (unincorporated associations); § 3225 (fiduciaries); § 3226 (corporations); § 3227 (governments). For a conveyance by a corporation, the lack of a corporate seal on the instrument may be fatal. *Catawba County Horsemen's Ass'n v. Deal, 419 S.E.2d 185 (N.C. App. 1992).*

(n24)Footnote 116. *See Morrison v. Brooke, 432 So. 2d 1227 (Ala. 1983); In re Estate of Mayer, 133 N.W.2d 322 (Wis. 1965).* Whether or not a spouse who signs a deed to release marital interests will be held liable on title covenants is an open question. *Compare Nordberg v. Green, 638 So. 2d 91 (Fla. App. 1994)* (spouse held liable on breach of warranty) *with Hughes v. Young, 444 S.E.2d 248 (N.C. App. 1994)* (spouse who joined in deed solely to release inchoate interest not liable on title covenants). The problem is an ancient one; in some states there are statutes which exonerate the joining spouse from liability on title covenants. *See, e.g.,* Mo. Rev. Stat. § 442.030; Va. Code Ann. § 55-42.

(n25)Footnote 117. The lack of the spouse's signature may create an unmarketable title in the grantee. *See Taylor v. Bailey, 271 S.E.2d 296 (N.C. App. 1980); Auen v. DiCesare, 404 A.2d 1324 (Pa. Super. 1979).*

(n26)Footnote 118. In addition to the foregoing 'signature' issues, the case of *Wachter Dev., L.L.C. v. Gomke, 544 N.W.2d 127 (N.D. 1996)* discusses another problematic signature issue: the signing by one grantor when not all grantors sign. According to the North Dakota court, although every signer of a deed conveys whatever interest that signer has, the exception to this general rule is if each signer intends the other grantors to sign, each signer's signature "is not effective as to any of the grantors unless all of them." Although the instant case involved a land sale contract and not a deed, the court referred to the "rule that applies to deeds." The issue thus presented is whether a deed may be "partially valid," binding only signing grantors, or void. This is a rare instance in the law of deeds where such choice is presented.

(n27)Footnote 119. *Southeast Bank N.A. v. Sapp, 554 So. 2d 1193 (Fla. App. 1989), review denied, 564 So. 2d 1087 (Fla. 1990); Lewis v. Barnett, 694 S.W.2d 743 (Mo. App. 1985); Bannerson v. Small, 842 F.2d 710 (3d Cir. 1988), cert. denied, 488 U.S. 845 (1988).*

(n28)Footnote 120. Kent, *supra* n.2, at 443.

(n29)Footnote 121. 29 Charles II, ch. 3, § 3 (1677).

(n30)Footnote 122. Blackstone, *supra* n.1, at *306; Kent, *supra* n.2, at 444.

(n31)Footnote 123. In the prior edition of this work the statement is made that "So a seal is essential to a conveyance of land, except in those states in which the use of a seal is dispensed with by statute." Thompson, *supra* n.94, § 3261 at 470. The underlying assumption in this statement is the notion that the common law definition of "deed" includes a seal, and it is the common law definition that modern-day statutes are adopting. While it is true that certain required elements of a deed are, even today, not statutorily based, it is hard to believe that modern-day legislators, in utilizing the term "deed," sought to resurrect 14th and 15th century concepts.

CHAPTER 82 TRANSFERS BY DEED

9-82 Thompson on Real Property, Thomas Editions § 82.07

AUTHOR: Professor Ronald R. Volkmer School of Law Creighton University

§ 82.07 Parts of a Deed.

[Go To Supp]

§ 82.07(a) History.

Sir Edward Coke, writing in the early 17th century, referred to a deed's "formall or orderly parts ... not of the essence of a deed of feoffment." n146 Thus, it appears that from the dawn of deed history, legal commentators have drawn the distinction between those parts of deed essential to its validity and those parts "not of the essence" of a deed. The succeeding sections discuss the essential and non-essential elements of a deed.

Blackstone emphasized that the "formal and orderly parts" of a deed, while "not absolutely necessary," should not be departed from "without good reason or urgent necessity." n147 Chancellor Kent noted that English and early American conveyancers conformed to Blackstone's admonition, not departing from the "formal and orderly parts of a deed, which have been well considered and settled." n148 The result of this adherence to formalism in the drafting of a deed was a lengthy and prolix document, described by one English judge as "difficult to read, disgusting to touch, and impossible to understand." n149

Following the pattern set forth by Coke, Blackstone listed the "formal and orderly" parts of a deed as: (1) premises; (2) habendum and tenendum; (3) reddendum; (4) conditions, if any; (5) clause of warranty; (6) covenants and; (7) conclusion. n150 The legal significance of these parts in the modern law of deeds will be briefly addressed.

§ 82.07(b) Current Significance.

A modern-day Chancellor Kent would likely conclude that there has been a wholesale departure from the form of deed espoused by Blackstone. Modern-day deeds are more simplified and concise than those of decades past; many of the "formal and orderly parts" are regarded today as neither legally necessary nor advisable. n151 The adoption of statutory short form deeds by state legislatures, previously discussed, n152 has played a significant role in the rather wholesale departure from the "formal and orderly part" format that prevailed into the 20th century. n153 An emphasis on simplification forces a re-examination of the traditional "set form" for deeds, and, in many instances, a re-examination reveals that certain of the "formal and orderly" parts are unnecessary. n154

The "premises," or introductory clause, covered such topics as the identity of the parties, recitals, and the consideration. n155 Each of these topics will be taken up in the succeeding sections. The "habendum and tenendum" clause, introduced by the familiar "to have and to hold" language, survived long after all reasons for its usage disappeared. n156 As to the habendum portion of the clause, Blackstone indicated that "the office of the habendum is to determine what estate or interest is granted in the deed, though this may be performed, and sometimes is performed, in the premises." n157 Issues arising out of the estate or interest conveyed are constructional problems and will considered in § 82.13(c)(2), *infra*. To the extent the habendum clause has any modern significance, it is in conjunction with deed construction. The habendum clause is not legally required, n158 and its inclusion in modern deed forms is explainable only by the force of habit and custom. n159

COMPUTER-ASSISTED RESEARCH

LEXIS: deed w/5 habendum clause w/5 not w/5 essential

By the reddendum clause, according to Blackstone, the grantor creates or reserves "some new thing to himself out of what he had before granted." n160 Under a system of tenure, the reddendum clause served to identity the services owed the feoffor by the feoffee. n161 In modern-day law, the reddendum survives in substance if not in form; the discussion of the "reservation," to be considered in § 82.09(c), *infra*, will show the modern-day legacy of the reddendum.

The "condition" part of a deed referred to is "a clause of contingency, on the happening of which the estate granted may be defeated." n162 The topic of estates upon a condition will be briefly discussed in § 82.09(d), *infra*.

Blackstone defined the "clause of warranty" as the language "whereby the grantor doth, for himself, and his heirs, warrant and secure to the grantee the estate so granted." n163 This topic in modern law is subsumed under the heading of "Covenants of Title" and will be considered in § 82.10, *infra*.

As to the part of a deed labelled "covenants," Blackstone wrote, these "are clauses of agreement contained in a deed, whereby either party may stipulate for the truth of certain facts, or may bind himself to perform, or give, something to the other." n164 In this passage there is a reference to three types of agreements very much a part of modern day law: (1) a grantor's covenant of a right to convey and of quiet enjoyment; n165 (2) a "covenant real," binding upon the heirs n166 and; (3) a grantee's covenant to pay rent and make repairs. n167

The contractual undertakings contained in a deed most often treated as a part of the substantive law of deeds are the grantor's title covenants, to be taken at § 82.10, *infra*. The topic of "real covenants," which is concerned primarily with the running of benefit and burden to successors in interest, is beyond the scope of this chapter. Oftentimes intertwined with the topic of "real covenants" are the rules pertaining to restrictive covenants and building restrictions. These topics as well are generally not considered as part of the substantive law of deeds. They will be briefly addressed in § 82.09(d), *infra*.

The conclusion of a deed has traditionally taken the form of a "testimonium clause" which recites the date of execution of the instrument. n168 The date of deed is not essential to the validity of the deed. This was true at common law n169 and is true today as well. n170

Blackstone recognized that in setting forth the "formal and orderly" parts of a deed he was describing matters of form and not of substance. In other words, there were no common law rules specifying that a deed, in order to be valid, had to take a certain form. In sum, Blackstone was lecturing on the virtues of good drafting, having previously addressed the "requisites" for a deed. n171 The various state legislatures, by design, simplified this topic considerably with the adoption of the statutory short form deeds. n172 Judicial decisions today explicitly reject the notion that technical forms and parts of a deed are required. n173

COMPUTER-ASSISTED RESEARCH

LEXIS: land w/2 interest w/5 technical w/5 language
deed w/2 valid w/50 notwithstanding w/50 technical
deed w/5 formal w/5 not w/5 necessary

In the modern era, about the only area of deed law in which the formal parts have played some significant role is in the area of deed construction. As will be shown later, n174 the significance of the parts of a deed is of diminishing significance in that area of deed law as well.

CHAPTER 82 TRANSFERS BY DEED

9-82 Thompson on Real Property, Thomas Editions § 82.08

AUTHOR: Professor Ronald R. Volkmer School of Law Creighton University

§ 82.08 Essential Elements of a Deed.

1978 Bankruptcy Code

Given the diminished significance of the formal parts of a deed, modern commentators on the law of deeds have tended to focus on the distinction between the essential and non-essential elements of a deed. n175 Recent judicial decisions, in listing the requirements for a valid conveyance, likewise emphasize the essential elements of a deed. n176 Whereas the required elements of "due execution" are primarily statutorily based, n177 the essential elements discussed in this section are of common law origin.

§ 82.08(a) Parties -- Grantor and Grantee.

In listing the component parts of a deed, Chancellor Kent listed first "the names of the parties," n178 and then stated that "the parties must be competent to contract, and be truly and sufficiently described." n179 Kent's statements are epigrams of what the expositors of the common law, Coke n180 and Blackstone, n181 had listed as "incidents" and "requisites," respectively, of a deed. The common law requirement, as it pertains to parties, goes beyond the simple notion that there must be a grantor and a grantee. n182 The issues pertaining to "parties" to a deed, as the common law authorities noted, may be separated or subdivided into two categories: (1) the identification issue -- the "sufficiently described" requirement, and (2) the legal capacity issue -- the "competency to contract" requirement. Both of these topics will be separately addressed.

In the discussion of the identity and legal capacity issues, the underlying assumption is that the applicable rules are rules of law. Failure to comply with these rules results in, as the courts are wont to say, a "nullity." n183 The types of issues addressed in subsections (1) and (2) are the types of issues usually categorized as part of the substantive law of deeds. There are numerous identification and capacity issues that, while closely related the issues discussed in subsections (1) and (2), are customarily categorized in property law under different headings or topics. The inter-relationship of these issues will be briefly addressed in the concluding subsection.

§ 82.08(a)(1) Identities of Grantor and Grantee.

Blackstone stated that in every grant there must be a grantor and a grantee "expressed by sufficient names." n184 This is

true in modern-day law as well -- the deed must identify the grantor and grantee with sufficient certainty. n185

Many of the problems involving the identity of the grantor are related to the statutory requirement of the grantor's signature. n186 The inquiry focuses on the question of where on the deed the "identity" of the grantor must be disclosed. The general rule is that the identity of the grantor must be found in the "body" of the deed. n187 The courts are somewhat lenient in interpreting this requirement; the identity requirement is satisfied if a pronoun such as "I" or "we" is used and the pronoun can be linked to the signatures. n188 On the other hand, if the only identity of the grantor is from the signature, and the body of the deed makes no reference to the signer as grantor, courts applying the general rule find the deed void as to that signer's interest, but there are decisions to the contrary. n189

COMPUTER-ASSISTED RESEARCH

LEXIS: conveyance w/20 signer w/20 void

Conversely, if the deed recites the names of the grantors and not all grantors sign the deed, the deed is not void, and is effective to convey the signers' interests. n190

Some of the more nettlesome grantor identity problems are "variance" problems; the grantor's name in the body of the instrument is incomplete, incorrect or does not "match" the signature with precision. In these instances, the courts have been loath to invalidate a deed on these rather technical grounds. n191 The most vexing of the "variance" problems are those involving two instruments -- where the person named as grantee in an earlier deed is alleged to be the grantor of a later deed. Because of some variance in the names on the two instruments, title problems are raised. This matter will be considered in subsection (3), *infra*.

The starting point for discussion of identity of the grantee is the same as for that of the grantor; the law requires that the grantee be described with reasonable certainty. n192 Once again, courts are loath to invalidate a deed because the identity of the grantee is clouded because of misspellings, misdescriptions, variances, etc. n193 If the name of the grantee is omitted entirely from the body of the instrument, the violation of the general rule results in the invalidity of the deed. n194

The most problematic of the issues relating to the identity of the grantee is that of the "blank deed." What is the legal status of a deed in which the grantee's name is left blank, and someone is given authorization by the grantor to fill in the grantee's name at a later date? The prevailing view seems to be that the deed passes equitable title at the time it is handed over, and legal title passes when the name of the grantee is filled in. n195 There are troublesome issues in such cases complicated by such factors as the death of the grantor prior to the filling in of the deed, the parol authority of the agent, the precise time the instrument takes effect, and so forth, and the status of bona fide purchasers from the grantee. n196

COMPUTER-ASSISTED RESEARCH

LEXIS: conveyance w/20 name w/20 blank

§ 82.08(a)(2) Legal Capacity of Grantor and Grantee.

The modern statement of the rule pertaining to legal capacities of grantor and grantee is not the common law standard of "competency to contract." The modern rule is that the grantor and grantee must be legally recognized entities capable of holding legal title to the property conveyed. n197 This is the more precise and accurate interpretation of the requirement that every deed requires "a grantor and a grantee." n198 Presumably, the grantor and grantee must be separate and distinct legal entities, for, as the rule goes, a person cannot convey to oneself. n199

The identified grantor may be a natural person or an entity. External facts might reveal that the identified grantor either (1) never existed, or has ceased to exist, (2) is a legal entity that has *no* capacity to hold title to the subject real estate or, (3) is a legal entity that holds title to the subject property but whose ability to transfer is clouded by questions of legal disabilities, desire and intent. It is only in situations (1) and (2) that, for purposes of this discussion, involve legal capacity. In these two situations there is no legal entity holding title to the subject property and, hence, no grantor. The outstanding example of the nonexistent grantor is the purported conveyance by a dissolved corporation. n200 The death of a title holder will ordinarily terminate a power of attorney given by that person. A deed executed by the power holder after the death of the grantor is void. n201 Oddly enough, a person who assumes a fictitious name in receiving title to real estate has the power to convey using the fictitious name. n202

There are certain individuals or entities that are legally recognized for certain purposes but are either barred from owning real estate or limited in the amount or type of real estate that they may own. These bars or limitations arise from state constitutional or statutory provisions and, in the modern era, have been directed primarily at aliens and so-called "foreign" corporations. n203

There are a host of issues surrounding the legal ability of a grantor holding legal title to make a transfer. For purposes of this subsection, they are not considered "legal capacity" issues. Many of the topics under the heading of "ability to make a transfer" are primarily concerned with grantors who are natural persons affected by either minority status, marital status, mental competency, duress, or undue influence. Many of these topics will be discussed at § 82.12, *infra*. The rules pertaining to legal capacity go the validity of the conveyance, with the result that violation of the applicable rules results in an invalid conveyance. By contrast, the rules arising out of ability to transfer are treated quite differently, at least in theory: a defect or non-compliance with the rule results in a *voidable* transfer. n204

Grantors that are not natural persons, such as partnerships, corporations, and trusts, present specialized issues relating to ability to transfer. Restrictions or limitations on transfer by these entities are not within the scope of this chapter; neither are the issues relating to specialized formalities requirements applicable to the deeds in which these entities appear as grantors.

The legal capacity issue as it relates to grantees is relatively straightforward; as indicated above, the named grantee must be a legal entity capable of holding legal title. n205 The classic example of deed failure for want of a grantee is a purported conveyance to a "non-entity," wherein the court finds that the named grantee does not exist legally. n206 In the case of a named natural person, a nullity results if the court finds the named person to be "fictitious" n207 or deceased at the time of the transfer. n208 In the case of a named non-natural person as grantee which has no legal existence, such as a dissolved corporation, n209 the courts deem the deed void, sometimes utilizing the oxymoronic phrase "non-existing entity." n210

Two special problems of grantees under the heading of "non-existent" entity are worthy of note: (1) the estate of a deceased person as grantee, and (2) an "incipient corporation," i.e., an entity that arises after the date of the purported transfer. The traditional view of the status of a conveyance to an "estate" of a deceased person is to treat the deed as nullity. n211 There is, however, modern case law to the contrary. n212 The analogous situation has arisen in wills cases, with the courts generally recognizing the "estate" of a deceased person as a devisee. n213

The "incipient corporation" problem is that of a deed which names as grantee a corporation to be organized or in process of organization. To make a determination of validity in cases of this type, there must be, in theory, a determination of validity fixing upon a particular point in time. The effective date of a deed is usually stated to be the date of delivery, n214 and if at that date the corporation is "non-existent," the ordinary rule governs and the deed is treated as a nullity. n215 However, one recent decision allows the later-organized corporation to take and uphold the deed. n216 There seem to be two intersecting "date" problems in these cases: the date the deed is "effective" and the date the corporation acquires legal status. If the latter is later than the former, and the conveyance is effective, what we have is similar to what future interests scholars would call a "springing" future interest.

§ 82.08(a)(3) Issues Arising Out of Recordation.

Many of the issues relating to parties to a deed arise out of the system of public land recordation that exists in this country. Some of the more significant features of the land recordation system affecting parties to a deed are: (1) the marketable title concept; (2) the method of indexing and; (3) the concept of bona fide purchaser for value. n217

The marketable title concept, an extremely important aspect of vendor/purchaser law, is based on an inspection of the public land records and an assessment by a lawyer or title insurance company of the status of the title. This inspection involves a title search, with resort to the indexing system of the public land records and a compilation of the "chain of title." This is the stage where title problems are discovered; some of which are serious enough to render title unmarketable, others of which are inconsequential or remediable. Because most indices of public land records are based on surnames of the grantor and grantee, the importance of proper identification of grantor and grantee assumes critical importance. It is probably fair to state that most of the legal issues pertaining to identity of the grantor and the grantee arise in the context of a dispute over marketable title, as opposed to a lawsuit seeking to invalidate a conveyance. To the extent that the marketable title issues are litigated, the courts typically apply rules of construction in order to clear up discrepancies.

Recording statutes establish priorities between competing claimants to the same land. The most prominent concept introduced by these statutes is that of the bona fide purchaser for value, by which a later in time claimant may lawfully prevail over a prior in time claimant. In creating the law of bona fide purchaser, the courts have construed the recording statutes in such fashion as to distinguish between "void" and "voidable" transfers. A purchaser and the successors in interest to the purchaser receive no protection in taking under a void deed. The legal capacity defects, as defined in subsection (a)(2), *supra*, result in nullities, or void deeds. As noted as well in subsection (a)(2), certain defects relating to ability to transfer, result in a transfer that is voidable. Bona fide purchaser status is possible for those who take from one holding under a voidable deed.

§ 82.08(b) Words of Conveyance and the Intent to Convey.

Sir Edward Coke emphasized that for a deed to be valid at common law, it must "give land to another." n218 The modern day statement of this rule is that a deed must contain operative words of conveyance which indicate the grantor's intent to convey the property. n219 Two related questions arise out of this requirement: (1) Does the instrument contain the required "operative words?" and (2) Did the person executing the instrument intend to transfer the property by this instrument? Both of these questions go to the validity of the instrument, since no instrument will be valid as a deed unless the court finds that the requisite operative words are present and the grantor intended to transfer the subject property.

The issue of "operative words" consists of a search for a verb that meets the test. There is a lengthy history with regard to this issue. One of the criticisms of the deed forms of yesteryear was their prolixity, n220 resulting in part from the surplusage of the words of conveyance. There was no "magic words" requirement in the common law, although certain verbal formulas became almost mystical incantations: "gives, enfeoffs, grants, bargains and sells, leases and releases, surrenders, remises, yields up, alienates, confirms, assigns, covenants to stand seised, quitclaims and conveys." n221 One of the reasons for the enactment of legislation authorizing short form deeds n222 was to wean lawyers away from the litany of verbs long associated with proper deed drafting. The choice of the precise verb may be significant in modern law for a reason unrelated to validity. As will be discussed *infra*, n223 certain words of conveyance may carry with them, by virtue of state statutes, implied warranties of title.

In modern law, there are cases in which the words of conveyance requirement has not been satisfied. n224 In an occasional case, the court may exhibit great leniency in finding the requirement met. n225

The law of wills requires testamentary intent. n226 There is an analogous requirement for deeds, but there is no adjective to describe the intent. In deed cases, courts simply state that the purported grantor must have intended to convey the property. n227 The intent to transfer is typically evidenced by the form and heading of the document, as well as by the operative words of conveyance. The widespread use of deed forms tends to obviate questions of intent to transfer. On the other hand, there are informal documents, akin to holographic wills, sometimes hand-written and with varying headings, that are claimed to be deeds. In the wills cases, the courts do not admit to probate an instrument lacking testamentary intent. n228 Similarly, on the deeds side, the court does not uphold an instrument which the court finds to be unintended by the maker to be a deed. n229 The fact that an instrument is not captioned "deed" is not determinative. n230 Thus, instruments labelled "affidavit," n231 "joint venture agreement," n232 "contract," and "private annuity agreement" n233 have been held to be deeds. On the other hand, the fact that an instrument is in the form of a deed creates a presumption the instrument is a deed. n234

§ 82.08(c) Legal Description.

Sir Edward Coke stated that one of the functions of the premises clause of a deed was to "comprehend the certainty of the land or tenements to be conveied...." n235 The phrase "certainty of the lands and tenements to be conveied" brings us to the topic of legal descriptions, an extremely important and broad topic. The topic of legal descriptions is not peculiar to the law of deeds; it is of critical importance in other areas of property law, both public and private. n236 Because legal descriptions of land play such an important role in real property law, every lawyer should have some basic familiarity with the systems of legal description in current use. For a general discussion of the topic of legal descriptions, refer to Chapter 39, *supra*, of this treatise.

This section focuses on the legal description as an essential element of a deed. The issues presented relate to the validity of the deed. The applicable rules are rules of law, which must be met before the instrument is deemed valid. In addition to the issues pertaining to validity, there are a host of issues pertaining to legal descriptions which focus on the meaning and the interpretation of the language of the legal description found in the instrument. The problems of an ambiguous legal description and rules of construction applicable to deeds will be discussed at § 82.13(c)(3), *infra*. The fine line separating validity issues from construction issues sometimes breaks down. If certain language is alleged to be so vague as to invalidate the instrument, a court may be asked to "construe" the language so as to validate the instrument. n237 Oftentimes, the focal point in such a case is the admission of extrinsic evidence which will, if admitted, clarify the ambiguous language and render the uncertain language certain. It is not surprising, therefore, that many of the cases pertaining to legal descriptions bring into play evidentiary considerations such as the "plain meaning rule" n238 and the "parol evidence rule." n239

As a general rule, it may be stated that any description in a deed is adequate if it affords the means of identification of the property. n240 The deed description will be considered adequate if it contains sufficient information to permit the identification of the property to the exclusion of all others. n241

COMPUTER-ASSISTED RESEARCH

LEXIS: property description w/10 sufficient w/5 identification

The deed "in blank" case, previously considered with respect to a grantee, n242 can also arise in the context of a legal description. The courts uniformly hold that an instrument which lacks a legal description entirely is void; n243 some courts specifically acknowledge that, while the grantor may authorize the filling in of the name of the grantee at some later date, there is no comparable authority that may be delegated by the grantor to fill in the legal description. n244

It is the vague or indefinite language of legal descriptions that most often runs afoul of the general rule requiring a sufficient means for identification of the property. While it is true that courts will not declare a deed void for uncertainty if, by any reasonable construction, it is possible to locate the land, n245 the language of the instrument may be so vague or indefinite that the courts are unable to identify, with certainty, the property to be conveyed. Under such circumstances, the faulty legal description results in invalidation. n246

COMPUTER-ASSISTED RESEARCH

LEXIS: description w/8 certain w/30 location w/5 sufficient w/15 location

One type of legal description contained in a deed is generic in nature, analogous to a residuary clause in a will. These descriptions, referred to as "Mother Hubbard" clauses, take the following form: "all of the grantor's property located in a certain county of a certain state." As between grantor and grantee, such descriptions are valid. n247 Such a clause is strictly construed, n248 however, and the recordation of the deed will not give notice to third parties. n249

COMPUTER-ASSISTED RESEARCH

LEXIS: mother hubbard clause w/50 notice w/15 subsequent purchasers

Coke had written of a description of property "which may by reference be reduced to a certainie." n250 The "Mother Hubbard" clause is one example of the "reduced to a certainie" theory in operation. A far more common example of this theory is a deed description which, by reference to another existing writing, furnishes the means or data by which particular land may be identified with reasonable certainty. n251

The existing writing requirement is consistent with the legal doctrine known as "incorporation by reference," a doctrine applied to contracts n252 and wills. n253 Incorporation by reference is used extensively in deed descriptions, and so long as the reference to the existing document is clearly set forth so as to connect the two documents, the courts will give effect to the incorporated legal description. n254 Another example of an incorporated document is the so-called "being" clause, wherein the property being transferred is referenced back to the next preceding recorded document by or through which the grantor claims title. n255 As might be expected, discrepancies and mistakes of various kinds may create problems in the incorporation by reference cases, but in most instances these problems may be remedied through the process of construction or a reformation action.

§ 82.08(d) Special Statutory Requirements.

For an instrument to be entitled to the status of "deed," the requirements of "formalities of execution" and essential elements must be met. The requirements discussed in the preceding sections are customarily and generally imposed by common law and state statutes. Because the validity of a deed is a jurisdiction specific inquiry, however, lawyers need to be sensitive to considerations other than the customary and general requirements. One of these considerations is the issue of the governing law; the other is the special or peculiar statutory requirements that might exist under the governing state's law.

§ 82.08(d)(1) Conflicts of Law Rule.

A lawyer preparing a deed to out-of-state property needs to be especially cautious, inasmuch as the validity of a deed is governed, under ordinary conflicts of law rules, by the law *in situs*, i.e., the law of the state where the property is located. n256 Some states recognize out-of-state deeds if they comply with the law of the state of execution. n257

§ 82.08(d)(2) Recordation Requirements and Validity.

Despite the literal language of various state statutes, n258 the recording of a deed is not essential to its validity; n259 in other words, the unrecorded deed is binding upon the parties. n260 Exceptions to the general rule are found in Maryland n261 and North Carolina. n262

Despite the fact that recording is not generally required for a deed to be valid, the fact is that the vast majority of deeds are promptly recorded. n263 Although some doubt may surround the topic of what instruments are recordable, n264 there can be no doubt that deeds are recordable documents. When presented for recordation, however, the law of recordation may impose additional requirements as to what the deed must contain in order for the deed to be entitled to be recorded. Each state's statutory law needs to be examined carefully as to what *additional* requirements are imposed for deed recordation. Given the reality that the vast majority of deeds are, in fact, recorded, these additional requirements, though technically not necessary for validity, become *de facto* required elements or formalities.

In recent years there has been a trend in state statutory law imposing additional requirements for recordation of a deed. This trend began with the acknowledgment requirement for deeds, which requirement does not, in the ordinary case, go to validity but to recordation. n265 As the acknowledgment requirement for recordation has become wide-spread, it has become, as a practical matter, just as much a part of the law of deeds as the signature requirement. n266

The state legislatures have imposed varying requirements in order for a deed to be recorded. Examples are the name and address of the grantor n267 and grantee, n268 the street address of the property conveyed, n269 the identity of the person who prepared the deed, n270 the amount of consideration, n271 and the filing of a confidential tax statement. n272 Each state's requirements are, of course, subject to change and must be reviewed yearly. n273 Some of the statutes referred to explicitly state that failure to comply does not affect the validity of the instrument. n274 It may be inferred that the statutes which do not contain this statement will be interpreted similarly. n275

§ 82.08(e) Curing Defects.

Deeds may be characterized as defective for a variety of reasons. In the preceding sections the emphasis has been on the formalities of due execution and essential elements of a deed. To the extent that a deed is defective for failure to meet common law and statutory requirements, it is a nullity. While defects arising out of the language of an instrument may be cured through a process of construction, n276 defects going to validity of the instrument are not easily cured. The methods by which defects of this type may be cured are varied.

§ 82.08(e)(1) Curative Statutes.

The topic of curative and marketable title acts is beyond the scope of the current discussion. The reader is referred to Chapter 91 of this work for more detailed discussion. n277 Of the topics previously discussed, the defective acknowledgment problem has been the subject of extensive statutory regulation. n278 While the statutes are helpful when applicable, n279 the problem is that the statutes do not address some of the more problematic acknowledgment defects. n280 The most helpful of the statutes are those which cure all problems of acknowledgment by virtue of the instrument being of record for a specified period of time. n281 Such statute types allow a subsequent purchaser to place complete confidence on the state of record title.

§ 82.08(e)(2) Action of the Parties.

The parties to a deed can take certain actions to remedy the defect. One method is for the parties to have a so-called corrective deed placed on record. Only certain defects may be remedied by the corrective deed. n282 An important limitation on the use of corrective deeds is that rights of third parties may not be impaired. n283 Another method that is recognized under modern statutes is the use of an affidavit, oftentimes authorized by marketable title legislation. n284

§ 82.08(e)(3) Judicial Proceedings.

To the extent that the defect in a deed is the result of a mutual mistake, a suit to reform the instrument would be available. n285 If, however, third party rights have intervened, the action would be unavailable. n286 A quiet title lawsuit could be employed to make an existing owner's title marketable. n287 When a vendor and a purchaser litigate the status of the vendor's title in a suit to determine marketability, the resultant lawsuit oftentimes results in a judgment eliminating any questions pertaining to defects in the vendor's title. n288

(n24)Footnote 198. Blackstone had stated that "in every grant there must be a grantor, a grantee." Blackstone, *supra* n.1, at *296.

(n25)Footnote 199. *See Thompson, supra n.94,* § 3007 n.68. Whether or not one can convey to oneself for the purpose of severing a joint tenancy is the usual factual background for the rule quoted. In recent cases and statutory law, there is an emerging trend allowing a person to convey to oneself for the purpose of severing a joint tenancy. *See Riddle v. Harmon, 162 Cal. Rptr. 530 (1980);* Cal. Civil Code § 683.2 (Supp. 1992); Neb. Rev. Stat. § 76-118(1) (1990). A grantor who conveys property, reserving a life estate and a power to revoke, can exercise the power of revocation by conveying back to the grantor. *Kalinoski v. Kalin, 829 S.W.2d 24 (Mo. App. 1992)* (no need to resort to "straw man" in order to exercise power of revocation).

(n26)Footnote 200. *Brend v. Dome Dev., Ltd., 418 N.W.2d 610 (N.D. 1988)* (conveyance by dissolved corporation a nullity). The issue of a "deceased grantor" (as well as a deceased grantee) arose in *Rhodes v. Hunt, 913 S.W.2d 894 (Mo. App. 1995)* (deed delivered after the death of one of the co-grantors who was also a co-grantee; dissent argued that the delivery failed "because the deed does not name grantors capable of conveying real estate at the time of delivery").

(n27)Footnote 201. *See generally* 3 A.L.P., *supra* n.94, § 18.55. *See also Jay v. Dollarhide, 84 Cal. Rptr. 538 (1970); Dickerson v. Murfield, 191 P.2d 380 (Or. 1948).*

(n28)Footnote 202. *See Thompson, supra n.94,* § 3121 n.70. A deed conveying land to a nonexistent or wholly fictitious grantee is treated differently that a conveyance to a person or business operating or using an "assumed name." In the former case, the deed is void (see text at note 206 *infra*); in the later case the requirement of having a "grantee" has been met. Or, as a recent case puts it, the assumed named "is sufficient." *Roeckl v. F.D.I.C., 885 P.2d 1067 (Alaska*

1994).

(n29)Footnote 203. *See Thompson, supra n.94,* § 3010 (alien land ownership), § 3014 (foreign corporations). State legislation imposing restrictions on foreign corporations in recent years has been directed primarily at the holding of agricultural land, *e.g.*, N.D. Cent. Code § 47-10.1-.02; S.D. Codified Laws § 47-9A-1.

(n30)Footnote 204. The outstanding exception to the rule is forgery, where the transfer is deemed void. Forgeries, however, can, and perhaps should, be considered violations of the signature requirement. *See* § 82.06(b) *supra*. As a practical matter, the void/voidable distinction comes into play most prominently in conjunction with successors in interests to the transferee and the claim of bona fide purchaser status.

(n31)Footnote 205. *Sharp v. Riekhof, 747 P.2d 1044 (Utah 1987).*

(n60)Footnote 234. *Dimond v. Kelly, 629 P.2d 533 (Alaska 1981).*

(n61)Footnote 235. Coke, *supra* n.41, *6a.

(n62)Footnote 236. Legal description issues can and do arise in the context of brokerage contracts, vendor/purchaser agreements, title insurance, and mortgages, to name a few outstanding examples. On the public law side, consider the role legal descriptions play in the herculean task faced by assessors who are charged with the responsibility of listing all parcels of real estate within a county for tax purposes. A further example of the pervasiveness of the problems of legal descriptions is illustrated by a recent decision invalidating a city ordinance establishing a taxing district. *Christensen v. City of Tekamah, 432 N.W.2d 798 (Neb. 1988)* (applicable statute required that ordinance "state the outer boundaries of the district"); The adequacy of the legal description might also be raised in a condemnation proceeding. *Lin v. Houston Comm. Coll. Sys., 948 S.W.2d 328 (Tex. App. 1997)* (legal description held adequate).

(n63)Footnote 237. The law of wills, in theory, involves a two-step process: (1) admission of the will to probate, involving compliance with applicable rules of law pertaining to formalities, and (2) once the "will" is admitted, an action to "construe" the will. Since there is nothing exactly comparable in the law of deeds as admission to probate, the two-step process does not, in theory, apply to deeds, yet, as we will see, there are lawsuits involving deeds which, if examined carefully, are "construe to validate" actions.

(n64)Footnote 238. *See* 3 A.L.P., *supra* n.94, § § 12.89 n.15; 11.91 n.10.

(n65)Footnote 239. *See Thompson, supra n.94,* § 3027.

(n66)Footnote 240. *Chicago Title Ins. Co. v. Wetherington, 490 S.E.2d 593 (N.C. App. 1997)* (adequate description); *McDonald v. Jones, 852 P.2d 588 (Mont. 1993)* (deed void for indefiniteness); *Wallace v. McKinzie, 869 S.W.2d 592 (Tex. App. 1993)* (easement described with sufficient certainty); *Wyatt v. McGregor, 855 S.W.2d 5 (Tex. App. 1993); Podlesak v. Wesley, 849 S.W.2d 728 (Mo. App. 1993).*

(n67)Footnote 241. *Mendelson v. Great Western Bank, 712 So.2d 1194 (Fla. App. 1998)* (divorce decree operated as deed; case remanded for consideration of extrinsic evidence);*Wilder v. Finnegan, 642 N.E.2d 496 (Ill. App. 1994)* ("part of" a certain tract challenged as too vague; court upheld the deed description); *Nationsbank Mtg. Corp. v. Cazier, 908 P.2d 572 (Idaho App. 1995)* (deed challenged on vagueness of legal description; court considered deed language ambiguous, construed it, and validated instrument). The specificity requirement is not as exacting in cases involving easements. *See Murdock v. Ward, 477 S.E.2d 835 (Ga. 1996); Adams v. City of Ila, 471 S.E.2d 310 (Ga. App. 1996); Hoelscher v. Simmerock, 921 S.W.2d 676 (Mo. App. 1996)* (easement location need not be specific); *McDonald v. Jones, 852 P.2d 588 (Mont. 1993); Bajrangi v. Magnethel Enters., 589 So. 2d 416 (Fla. App. 1991).*

(n68)Footnote 242. *See* § 82.08(a)(1), *supra*.

(n69)Footnote 243. *Rekis v. Lake Minnewaska Mtn. Homes, Inc., 573 N.Y.S.2d 331 (1991), appeal dismissed, 588 N.E.2d 99 (N.Y.2d 1992). See generally 11 A.L.R.2d 1365.*

(n70)Footnote 244. *West v. Witschner, 428 S.W.2d 538 (Mo. 1968); Mehus v. Thompson, 266 N.W.2d 920 (N.D. 1978).*

(n71)Footnote 245. *See Haney v. Molko, 844 P.2d 1382 (Idaho App. 1992); Citizens Nat'l Bank v. National Fire Ins. Co., 597 So. 2d 1130 (La. App. 1992); Bass Pro Outdoor World, L.P. v. Wilson, 965 S.W.2d 890 (Mo. App. 1998)* (construction rendering deed void for uncertainty "not favored").

(n72)Footnote 246. *Croft v. Tillman, 489 S.E.2d 852 (Ga. 1997)* (lack of described beginning point of description); In re Tennessee *Gas Transp., Inc., 169 B.R. 643 (Bankr. M.D. Tenn. 1994)* (deed is void since it failed to identify a particular tract of land). The "faulty legal description" may be the result of a clerical error in the legal description. A court may be inclined to "construe" or "reform" the deed to save it, a result that is likely to obtain in the usual case. *See, e.g., Saterlie v. Lineberry, 962 P.2d 863 (Wash. App. 1998)* (deed description reformed to match plat map); *Gwathmey v. State, 464 S.E.2d 674 (N.C. 1995)* (clerical error ("high" for "low") corrected by court). *But see Mull v. Mickey's*

Lumber & Supply Co., Inc., 461 S.E.2d 270 (Ga. App. 1995) (lot 20 mistakenly described as lot 21; mechanic's lien invalidated on basis of incorrect description); *Highway Props. v. Dollar Sav. Bank, 431 S.E.2d 95 (W. Va. 1993)* (alleged easement "from and to all parcels for ingress and egress from and to all other parcels" totally inadequate); *McDonald v. Jones, 852 P.2d 588 (Mont. 1993)* (even considering extrinsic evidence, "two acres" not identified); *Undernehr v. Sandelin, 827 S.W.2d 164 (Ark. App. 1992)* (metes and bounds did not "close").

(n73)Footnote 247. *Whitehead v. Johnson, 467 So. 2d 240 (Ala. 1985); Roeder Co. v. Burlington N., Inc., 716 P.2d 855 (Wash. 1986).*

(n74)Footnote 248. *Partnership Props. Co. v. Sun Oil Co., 552 So. 2d 246 (Fla. App. 1989)* ("Mother Hubbard" clause not controlling over specific description).

(n75)Footnote 249. *Luthi v. Evans, 576 P.2d 1064 (Kan. 1973).*

(n76)Footnote 250. Coke, *supra* n.41, *6a.

(n77)Footnote 251. *Kmiec v. Reagan, 556 S.W.2d 567 (Tex. 1977).*

(n78)Footnote 252. 17A C.J.S. *Contracts* § 299. *See also Childers & Venters, Inc. v. Sowards, 460 S.W.2d 343 (Ky. App. 1970); J.S. & H. Constr. Co. v. Richmond County Hosp. Auth., 473 F.2d 212 (5th Cir. 1973).*

(n79)Footnote 253. *See* Atkinson, *supra* n.130, § 80 (1953). *Auerbach v. County of Hanover, 478 S.E.2d 100 (Va. 1996)* (referenced plat referred to recorded deeds; these deeds become incorporated as well).

(n80)Footnote 254. *Podlesak v. Wesley, 849 S.W.2d 728 (Mo. App. 1993)* (maps, plats, surveys, assessor's plans may be incorporated); *Catelano v. Woodward, 617 A.2d 1363 (R.I. 1992)* (plat referred to in deed becomes part of deed for legal description purposes); *Triplett v. David H. Fulstone Co., 849 P.2d 334 (Nev. 1993)* (inadequate legal description remedied by reference to county assessment roll). The incorporation doctrine is properly applied to the "determination of physical bounds and quantity of land conveyed," not to the "quality and durational extent" of the estate conveyed. *Tattan v. Kurland, 588 N.E.2d 699 (Mass. App. 1992).*

(n81)Footnote 255. *See* West's Legal Forms § § 27.1, 27.3 (2nd ed. 1986). "Being" clauses are particularly recommended in Kentucky and Tennessee since in each of these jurisdictions, the deed is not entitled to recordation unless it refers to the next immediate source from which the grantor received title. Ky. Rev. Stat. § 382.110; Tenn. Code Ann. § 66-24-110.

(n82)Footnote 256. *Leasing Enters. v. Livingston, 363 S.E.2d 410 (S.C. 1987); Gabrielian v. Gabrielian, 473 A.2d 847 (D.C. 1984). See generally* Restatement (Second) of Conflict of Laws § 223 (1971). *Lex rei sitae* rule applies to grant from federal government. *Fontenelle v. Omaha Tribe, 298 F. Supp. 855 (D. Neb. 1969);* Estate of Lampert through Thurston v. Estate of Lampert through *Stauffer, 896 P.2d 214 (Alaska 1995); Sportsmen's Wildlife Defense Fund v. United States Dept. of Interior, 949 F. Supp. 1510 (D. Colo. 1996).*

(n83)Footnote 257. *E.g.*, Ind. Code Ann. § 32-1-2-4; Mich. Comp. Laws § § 554.44, 565.601; Neb. Rev. Stat. § 76-219; 16 Okla. Stat. Ann. § 376; Tenn. Code ann. § 66-23-105; Wyo. Stat. § 34-1-116.

(n84)Footnote 258. *E.g.*, neb. Rev. Stat. § 76-211 (Reissue 1990) (deeds of real estate *must* be signed by the grantor, acknowledged and "*recorded*").

(n85)Footnote 259. The classic statement is that of Judge Ames, in *Earle v. Fiske, 103 Mass. 491 (1870):* "Title passes by the deed, and not by the registration." *Gill v. Carborundum Corp., 238 A.D.2d 955, 661 N.Y.S.2d 165 (1997)* (title passes by delivery; recordation not required); *Crowther v. Mower, 876 P.2d 876 (Utah App. 1994)* (recordation immaterial in context of severance issue).

(n86)Footnote 260. *Blakely v. Kelstrup, 708 P.2d 253 (Mont. 1985).* The classic language of Judge Ames accurately summarizes the state of the law: "A deed duly signed, sealed and delivered is sufficient, as between the original parties to it, thought the instrument of conveyance may not have been acknowledged or recorded." *Earle v. Fiske, 103 Mass. 491 (1870).*

(n87)Footnote 261. Md. Real Prop. Code Ann. § 3-101 has been judicially construed such that under Maryland law, title does not pass until a deed is properly executed *and* recorded. *See Bourke v. Krick, 304 F.2d 501 (4th Cir. 1962)* (applying Maryland law, *citing Nickel v. Brown, 23 A. 736 (Md. 1892)).*

(n88)Footnote 262. N.C. GEN. STAT. § 47-26 (deed of gift void if not recorded within two years).

(n89)Footnote 263. Cunningham et al., *supra* note 11, at 826. The penalty for non-recordation, insofar as the grantee is concerned, is quite harsh: possible invalidation of the deed under which the grantee claims. The incentive for recordation is quite high as the penalty for non-recordation is so great. *Id.*

(n90)Footnote 264. *Id.* at 831-32.

(n91)Footnote 265. *See* § 83.06(e), *supra.*

(n92)Footnote 266. In a popular formbook, the topic of acknowledgments is placed in the same section with deeds. *See* West's Legal Forms, vol. 20, Part II, "Deeds and Acknowledgments" (2d ed. 1986).

(n93)Footnote 267. Ariz. Rev. Stat. § 42-1612.

(n94)Footnote 268. The requirement of providing the name and address of the grantee is somewhat common. Ariz. Rev. Stat. § 42-1612; Haw. Rev. Stat. § 502-34; 33 Me. Rev. Stat. Ann. § 457; Mass. Gen. Laws ch. 183, § 6 (residence and post office address); Mo. Rev. Stat. § 59.330(1); S.D. CODIFIED LAWS ANN. § 7-9-71.

(n95)Footnote 269. Colo. Rev. Stat. § 38-35-122; N.Y. REAL PROP. LAW § 333.

CHAPTER 82 TRANSFERS BY DEED

9-82 Thompson on Real Property, Thomas Editions § 82.09

AUTHOR: Professor Ronald R. Volkmer School of Law Creighton University

§ 82.09 Non-essential Elements of a Deed.

[Go To Supp]

The non-essential elements that will be included in this section and the succeeding section are those most prominent in the modern law of deeds. It is important to reiterate the fact that what is deemed essential or non-essential is a matter of state law, which is an amalgam of common law and statutory law.

The modern complexity of deeds results from the reality that deeds today are serving purposes beyond the basic purpose of conveying title to real estate. The rather simplistic conveyance of fee simple title from grantor to grantee can be accomplished under modern law by a streamlined instrument. n289 It is unlikely that the lawyer preparing a deed will face difficult challenges in ascertaining the minimal requirements for a conveyance. What the modern lawyer will more likely struggle with are those additions to a deed that make it more than a simple conveyance. Thus the non-essential elements become more problematic for persons drafting deeds. Many of these problems arise out of the law of contracts and are not, strictly speaking, part of the substantive law of deeds. The law of deeds has traditionally been intertwined with the law of contracts, as the first topic to be discussed illustrates. As the various sections will illustrate, the law of contracts and the law of property intersect in the modern law of deeds.

§ 82.09(a) Consideration.

Blackstone summarized the common law view of the consideration in stating that one of the requisites for a deed is that "the deed must be founded upon good and sufficient consideration." n290 Chancellor Kent succinctly explained how the element of consideration became a "requisite" for a deed:

> The necessity of consideration came from the courts of equity, where it was held requisite to raise a use; and when uses were introduced at law the courts of law adopted the same idea, and held, that a consideration was necessary to the validity of a deed of bargain and sale. n291

If the reason cited by Chancellor Kent is the only rationale for the requirement of consideration, the common law rule should not exist today. Modern deeds, even those labelled "bargain and sale," do not operate under the theory of an executed use. n292 If there is a modern reason for the requirement of consideration, the rationale must be founded in

contract law.

The modern definition of a deed as instrument of conveyance denotes that a deed is grounded in property law, not contract law. The universally accepted modern rule is that a conveyance may be gratuitous; consideration need not be present for a deed to be valid as between grantor and grantee. n293

COMPUTER-ASSISTED RESEARCH

LEXIS: deed w/5 valid w/5 invalidated w/10 failure w/2 consideration

While the deed between grantor and grantee may be valid without consideration, the law of creditors' rights may apply in allowing a creditor of the grantor to set aside the transfer. Under the fraudulent conveyance acts of the various states n294 and the Federal Bankruptcy Act, n295 a conveyance to hinder, delay or defraud creditors may be treated as voidable by the creditors of the grantor.

The next subsection discusses recital clauses in deeds. One of the traditional recitals contained in deeds related to consideration: the deed might simply recite the actual consideration paid, typically with an acknowledgment of receipt thereof, or it might recite a consideration of "one dollar and other valuable consideration." Since the receipt of consideration was not required to transfer title to the grantee, the natural question is: Why did the customary form of a deed contain a recital of consideration? What reasons, if any, justify this practice today?

It is sometimes stated that the recital of consideration is for the purpose of rebutting the presumption of a resulting trust. n296 The resulting trust doctrine applies only in cases where the consideration was paid for by someone other than the grantee. n297 To the extent that the recital falsely states that the consideration was paid for by the grantee, the recital in the deed does not preclude evidence of the true payor. n298

Persons entitled to the protection of the recording acts must, as a general rule, have the status of being bona fide purchasers. n299 Purchasers are those having given up something of value. n300 To the extent the recital in a deed indicates payment of money by the grantee to the grantor, it would be presumed that the grantee has "purchaser" status. n301 If the evidence revealed that the transfer was without consideration, the transferee would not have protection of the recording act as a bona fide purchaser. n302

Cases involving alleged "failure of consideration" for a conveyance can become quite complicated. A conveyance of land may be in exchange for money -- the ordinary purchase and sale -- or it may in exchange for other consideration. So long as the consideration is not illegal, n303 it may take any form.

The conveyance may be in satisfaction of a pre-existing debt. A question might arise as to whether such a grantee qualified as a purchaser under the recording acts, n304 but such cases do not present a "failure of consideration" argument. The conveyance may take place in the context of a contemporaneous exchange of consideration, n305 or the conveyance may be in exchange for future consideration. The future consideration may be the payment of money or the rendition of services.

Under what circumstances, however, might a "failure of consideration" argument be properly invoked as basis for canceling or invalidating a deed? n306 The general rule is that a deed otherwise valid will not be invalidated for total or partial failure of consideration. n307 One particular factual pattern in the case law has proved troublesome in the application of the general rule: promises to support a grantor for life in exchange for a conveyance of land. Some courts will invalidate the conveyance for failure of consideration, n308 while others relegate the non-breaching party to an action at law for damages n309 or other appropriate remedy. n310 A state statute may make conveyances based upon these types of promises voidable at the option of the grantor. n311 Recitals may play a significant role in these types of cases in proving the actual consideration. n312

LEXIS: deed & (failure w/3 consideration) & (support w/5 life)

§ 82.09(b) Recitals.

The first "formal and orderly" part of a deed, in Blackstone's listing, was named the "premises." According to Blackstone, this part of a deed states the number and names of the parties and the consideration. In addition, it may also "contain the recital, if any, of such deeds, agreements, or matters of fact as are necessary to explain the reasons upon which the present transaction is founded." n313 From Blackstone's time until the present day, recitals in deeds have been used for the purposes outlined by Blackstone and for other purposes as well.

Some of the reasons for recitals of consideration were discussed in the previous subsection. Statement of the actual amount of consideration is a statutory requirement for recordation in certain states. n314 Recall, as well, the prior discussion relating to other types of recitals required before a deed may be recorded. n315

The more traditional purposes of recitals, going back to Blackstone, is to identify the parties, with regard to their role, i.e., taking in their individual or representative capacities. In this regard the *descriptio personae* doctrine, which regards the description as simply describing the taker and not indicating representative capacity, is oftentimes employed. n316 In certain instances, the recital may create ambiguity with regard to that status of the party. n317 A deed by a fiduciary grantor should contain recitals showing the authority by which the fiduciary acts. n318 To alleviate some of the marketable title problems arising out of these types of conveyances, title standards in various states have been enacted to address questions of authority and status of the grantor. n319

Recitals are added to a deed to explain the reason, purpose or motivation for a conveyance. In some contexts, a court may find the recital legally insignificant. One illustration is from the law of estates; in determining whether a conveyance was made in the form of a defeasible estate, a court may find that a so-called "purpose clause," explaining the motivation for the transfer, does not convert the estate granted into a defeasible estate. n320 In other situations, the recitals may have legal significance in areas of law not even contemplated by the parties. Two examples are as follows: (1) An instrument appears, by its form, to be a quitclaim deed rendering the doctrine of estoppel by deed inapplicable. However, the recitals in the deed give rise to an estoppel, and the estoppel by deed doctrine is now applicable. n321 (2) A recorded deed recites that is it given to replace a "lost" deed. Persons claiming through this recorded deed claim bona fide purchaser status. A court finds that these claimants are on notice as to the "lost" deed. The rationale is that the recital in the recorded deed, in the chain of title, is "constructive notice" of all deeds referred to in the recorded deed. n322 Consider as well the "promise to support" cases referred to in the previous subsection. If the purpose of the conveyance is spelled out in the deed and that purpose is to provide support of the grantor for life, one important evidentiary issue has been satisfied. n323

The extent to which courts give effect to recitals depends in large measure on the type of recital involved. The general rule is that recitals are binding upon the grantor, the grantee and those in privity with them. n324 The grantor, the one likely responsible for the language of the recital and whose signature appears upon the instrument, is typically bound by the recital as courts invoke an estoppel theory. n325 Courts mention the estoppel theory in holding the grantee bound by the recital; n326 the more persuasive theory is that the acceptance by the grantee of a deed is the act binding the grantee. n327 On the other hand, courts have not given effect to the recital when it conflicts with other parts of a deed n328 or when it does not go to the essence of the contract. n329 Recitals relating to consideration are those most likely not to be given conclusive effect; at most, the recitals relating to consideration are given presumptive effect. n330

§ 82.09(c) Reservations and Exceptions.

Reservations and exceptions are very much a part of the modern law of deeds, even though they truly merit the label of a "non-essential" element of deeds. Reservations and exceptions began as common law concepts and continue today as such. This topic is one of the few subject areas of deed law where state statutes play no role. In the latter half of the 20th century, there have been some evolutionary, if not revolutionary, developments in the law pertaining to reservations and exceptions. A few words of explanation are in order.

§ 82.09(c)(1) Background and Theory.

The modern-day developments begin at the most basic of all levels: the matters of definition and distinction. Much of the law pertaining to reservations and exceptions has historically been premised on the separateness of the two concepts. Indeed, the distinction between the two concepts is the traditional starting point for discussion. The reason for carefully distinguishing between the two was based upon the assumption that different legal rules applied to them, yet, when applying these so-called "rules," the courts were, in most instances, simply construing language in instruments. What "law" there was existed primarily in the form of rules of construction applicable to reservations and exceptions. In the context of this section, these rules might more properly be discussed in the materials in § 82.13, *infra*, pertaining to specific rules of construction. n331

While there is much to be said for labelling the law of reservations and exceptions as a separate subset of problems in deed construction, that approach would not be entirely accurate either. To the extent that any rules of law exist in this area, the topic cannot simply be written off as a series of constructional rules, and, even assuming that the age-old distinction between reservations and exceptions is no longer viable, there remains the stubborn fact that whatever this deed language is called, it can significantly affect the legal rights of parties to the deed. Certainly from a drafting perspective, one needs to know the methods available to achieve certain desired results. Reservations and exceptions have been used, are used, and will continue to be used precisely because they are a permissible method of accomplishing a desired result. To say that care and caution should be exercised in drafting them is an understatement. As is true in most areas of deed law, there is very little in the law of reservations and exceptions standing in the way of what the parties to a deed want to accomplish. With this background in mind, we turn to some of the policy issues in the law of reservations and exceptions. To do so, we begin with the basics -- the definitions.

The traditional definition of "reservation" is that it is a clause in a deed by the which the grantor creates and reserves in the grantor some right or interest in the estate granted, which had no previous existence. n332 The concept has been called a "legal fiction" because it considers the grantor's "reserved" interest a result of an implied grant from the grantee back to the grantor. n333

The traditional definition of an "exception" is that it withdraws from operation of the deed part of thing granted which would otherwise pass to the grantee. n334 In this instance the grantor has never parted with the pre-existing interest. n335

As a matter of theory, it is hard to justify the distinction between the two because the difference appears to be a classic matter of form over substance; difference without distinction -- intellectual sleight-of-hand. The artificiality of the distinction has been revealed in numerous cases in which the terms were used interchangeably and indiscriminately.

In the more recent cases courts have recognized that the terms were being used interchangeably, and thus, the distinction between the two had become meaningless. n336

COMPUTER-ASSISTED RESEARCH

LEXIS: deeds & (reservation w/10 exception w/10 interchang!)

The new approach is to focus on the intent of the parties or to look to the character and effect of the provision itself.

n337 This new approach may be the courts' way of acknowledging that the substantive law of reservations and exceptions is practically non-existent and that almost all of the reservation/exception issues are constructional in nature. It also reveals the courts rebelling over the perceived form over substance mentality of the traditional distinction.

While it is true that the reservation/exception distinction reeks of artificiality, there is at least one way to look at the distinction which might cast it in a different light. If the concept of reservation is attached to the issue of what estate or interest is retained by the grantor n338 and if the concept of exception is linked to the legal description of the property conveyed, n339 the distinction between the two becomes manageable. It turns out, in fact, that a reservation is most often used in conjunction with the estate or interest retained by the grantor. Similarly, the exception is most often linked to the legal description of the property. So viewed, the traditional distinction, as it pertains to the actual practice, has some reality attached to it.

A final note regarding the modern trend as it relates to the utility and practicality of these two concepts: they allow grantors to accomplish what they desire by one deed rather than two. Consider the classic instances of reservation and exception: A grantor desires to convey Blackacre in fee simple and end up with an easement over the property and also desires not to transfer the north ten feet of Blackacre. The grantor could deed Blackacre to the grantee, who, in turn, could grant back an easement and the north ten feet of Blackacre. By use of the reservation and exception, however, the parties can accomplish all of the grantor's desires in a single instrument. The only possible objections to such procedure is that the stability of titles is somehow affected or that third party rights are in some way threatened. These concerns, if real, are legitimate. To the extent that the law of exceptions and reservations is simply a matter of effectuating expressed intent, the only basis for not giving effect to that intent is that rules of law or public policy stand in the way. In the succeeding subsection, we will turn to some of the modern issues pertaining to reservations and exceptions as exemplified by the case law.

§ 82.09(c)(2) Modern Issues.

This subsection will be addressing issues based on the assumption that courts will continue, as a general proposition, to make a distinction between a reservation and an exception on the terms outlined above. n340 As noted above, n341 there are courts which use the terms interchangeably; in these jurisdictions, the law we are examining would be referred to as the law of "reservation/ exception," for want of a better term.

Reservations are newly created interests, arising out of appropriate language of a deed. The fact that the interests being created are contained in a writing does homage to the Statute of Frauds and, to the extent the deed is recorded, gives notice to third parties of that created interest. An outstanding example of an interest created by a reservation is a reserved easement. With regard to the creation of easements, it might be noted that easements may be created by implication, without any writing. n342 When the easement arises by implication in favor of the grantor, the easement is known as "implied reservation." n343 Implied reservations are treated as part of the law of easements, not the law of deeds. n344

A wide variety of interests may be reserved by a grantor: profits, easements, life estates, water rights, mineral interests, oil and gas, timber rights, etc. This list further illustrates how reservations operate; the grantor conveys away an estate and receives back, in the classic metaphor of property law, one of the sticks in the bundle of ownership. What may be "excepted" by the grantor is any pre-existing interest. n345 The most problematic and hotly debated issue pertaining to the creation of reservations and exceptions involves not "what," but "in whom."

The traditional common law rule is that reservations and exceptions can only be created in favor of the grantor.

COMPUTER-ASSISTED RESEARCH

LEXIS: estate w/5 stranger w/5 deed w/5 reservation

An attempt to create a reservation or exception in favor a third party (someone other than the grantor or grantee) is void; a grantor cannot reserve title in a stranger to the grant. n346 The "stranger rule" has been the subject of vigorous criticism in that it is grounded in feudal notions and lacks any rational public policy basis. Within the past thirty years, courts have re-evaluated the "stranger rule," and some have rejected it. n347

Other courts have re-examined the rule and retained it. n348 A few states have statutes which effectively abolish the stranger rule. n349 One commentator, in critiquing the stranger rule, has noted that any rule that may be avoided by using two pieces of paper is inherently suspect. n350 Although the New York Court of Appeals has recognized the method by which the stranger rule may be frustrated, it felt that the stability of land titles depends upon settled and certain rules and that the stranger rule was a property rule entitled to respect for that reason. n351 That rationale suggests that there is reliance on the stranger rule by drafting attorneys and parties, an assumption which seems dubious, if not unbelievable. n352 The common law rule serves only as a penalty for faulty lawyering at the drafting stage, with the parties paying the price. n353 Unless some evidence from those states rejecting the stranger rule is forthcoming which shows that the abolition of the stranger rule creates title problems, there is no compelling policy reason for courts to adhere to the stranger rule.

The most prevalent construction issues pertaining to reservations and exceptions are (1) whether an exception or reservation was created by the language used and (2) whether the language of reservation or exception or similar language was intended to be a limitation on the grantor's title warranties.

With regard to the creation issues, at least two general rules can be identified: (1) The language of a deed must be sufficiently definite and clear in order to create a reservation or an exception. n354 (2) In accord with the general rule that deeds are to be strictly construed against the grantor, n355 exceptions and reservations are to be narrowly construed. n356 The obvious reason for the litigation over the creation issue is that the language used is not clear, the implication being that the language in question departs from the clear and customary language ordinarily used for creation of such interests. The analysis of this issue is not as simple as it may appear.

In examining form books pertaining to exceptions and reservations in deeds, one can appreciate some of the difficulties in the selection of the proper words. Some of the leading form books, in specifying the form for a reservation, use the phrase "excepting and reserving," or "except and reserve." n357 If the two concepts are interchangeable, this language is appropriate. However, if the two concepts are distinct, the phrase "except and reserve" is troublesome. Exceptions, ordinarily employed in conjunction with descriptions of land, are more likely to be introduced by the term "except." n358

Words or phases other than the classic language of "reserve" or "except" have been held to create valid reservations or exceptions. The ubiquitous "subject to" phrase has been held to constitute the granting of easement to someone other than the grantee. n359 A deed which states that it is "to become effective at the death of the grantor" has been construed as a reservation of a life estate in the grantor. n360 The word "less" has been construed as an exception. n361

Following the legal description in a deed, a grantor may add language such as "except," "subject to," or similar language. What follows thereafter may be a particularly described portion of the land conveyed or a more generic phrase reciting an interest held by a third party, such as an easement or a life estate. If the term is "except," followed by a particular legal description, the usual verbal formula for an exception is met. n362 On the other hand, if the word "except," or "subject to," is *preceded* by a legal description and followed by a description of a particular interest, such as a road or a railroad right of way, the construction to be given by the court is likely to change. Instead of finding that the "except" or "subject to" clause creates an exception, the courts construe the language of the "except" or "subject to" clause as simply indicative of the grantor's intent to: (1) put the grantee on notice of the third party interest, and (2) convey the property subject to the interest of the third party. n363 So construed, the grantor's entire interest passes. n364 The practical result of such construction is that the grantor does not end with "gores and strips," a policy consideration

that is explicitly recognized in one other area of deed construction. n365

Terms such as "except," n366 "reserve," "subject to," n367 "less," and similar language are oftentimes used in conjunction with the covenants for title contained in the deed. As will be shown later, the grantor may limit the covenants of title in the deed, in particular, the covenants of warranty and the covenant against encumbrances. If the grantor desires to limit the warranty under the covenant against encumbrances, the usual language of the covenant of encumbrances is followed by the term "except," followed by the interests specifically not warranted. In this context "except" is not being used in the technical sense of an exception as that term has been defined and used in this subsection.

Issues pertaining to the reservations and exceptions and their relationship to title warranties arise frequently in the context of the transfer of mineral interests and oil and gas interests. n368 The prototypical case is where the grantor, owning only a one-half interest in the oil, gas and other minerals, conveys by warranty deed "reserving" a one-half interest in the oil, gas and other minerals. There are two possible constructions: (1) "reserving" is construed in the technical sense of an exception, with the grantor retaining a one-fourth interest and the grantee receiving a one-fourth interest, or (2) "reserving" is construed as "except" simply to indicate the existence of the outstanding one-half interest. Under the former construction, the grantor may have violated one of the title covenants; under the latter construction, the grantee receives all of the grantor's interest (one-half), and there is no breach of any of the title covenants. n369 As should be obvious by now, the use of the words "except" or "reserve," in conjunction with the title covenants, is fraught with peril, and extreme care is called for in the drafting of the appropriate language in the deed.

§ 82.09(d) Covenants, Conditions and Restrictions.

Covenants and conditions, as formal parts of a deed, were briefly considered in their common law context in § 82.07, *supra*. The term "restrictions" is a modern term that, while in popular use, is more descriptive than definitional, more generic than specific. It will be the final topic discussed in this section.

Blackstone called covenants "clauses of agreement," n370 in other words, contracts between the grantor and the grantee. n371 The next section, "Covenants for Title," will consider the contractual undertaking of the grantors that, because of tradition and widespread use, are considered part of the law of deeds. To the extent that the covenants of the grantor and the grantee are in some way connected to the use of the land conveyed, the covenants start moving out of the law of contracts and into the substantive law of property. Questions of creation and enforceability of these covenants is a topic unto itself; the reader is referred to other portions of this treatise. n372

The modern day definition of "condition" is a slightly expanded version of Blackstone's definition. n373 "Condition" has been defined as a qualification or restriction attached to a conveyance whereby it is provided that in case a particular event occurs or does not occur, or if the grantee does or omits to do a particular act, the estate may commence, be enlarged, or be defeated. n374 The condition is attached, not so much to the conveyance or to the land, but to the estate conveyed. The doctrine of conditional estates in the law of property is a well-recognized body of law considered elsewhere in this treatise. n375

In the present discussion, the focus will be on the constructional issue of whether a covenant or a condition was created by the deed language. Courts faced with this issue employ a number of fairly predictable constructional rules in deciding cases of this type. While the case law is important in ascertaining the judicial attitude toward covenants and conditions, perhaps the more important point is that the deed contains ambiguous language -- a testament to the person who drafted the instrument.

In approaching the covenant or condition issue, the courts are quite explicit in taking an outcome-oriented approach. This is quite understandable in light of the drastic consequences of the court finding that the language created a condition, as opposed to a covenant. Breach of condition results in what the courts term a "forfeiture" of the estate; n376

other courts speak of the "destruction" of the estate. n377 By contrast, breach of a covenant does not involve the defeating or forfeiture of the estate; the typical remedies for breach of covenant are actions at law for damages or actions in equity for specific performance. n378

COMPUTER-ASSISTED RESEARCH

LEXIS: breach w/2 covenant w/10 damages w/10 specific
performance

Given the choice between covenant and condition, and considering the consequences of what follows, the judicial approach is quite predictable and understandable. The following are some of the rules of construction laid down by the courts in cases of this type: (1) conditions are disfavored in the law and are strictly construed, n379 (2) no provision will be interpreted as a condition if the language is susceptible of any other reasonable construction; and (3) condition will be found only if deed plainly and unequivocally admits of no other construction. n380 Given these guidelines, it is rare for a court to find that a condition has been created and even more rare to find that a forfeiture has occurred. n381 Whether a particular provision is a covenant or a condition may have significance beyond the issue of breach and forfeiture. n382

Unlike the terms "covenant" and "condition," the term "restrictions" is not found in the early writers' discussion of deeds. Only recently has the term "restrictions" begun to be recognized as a term of art in the law of property. n383 The term has been judicially construed on a limited number of occasions; the setting for the discussion is either the meaning of the term in a contract n384 or in a statute. n385 The term "restrictions" has been and continues to be associated with law of deeds. n386 In the current era, the question arises as to whether the term connotes a body of law independent of the traditional "covenant/condition" distinction. To answer the question, the term must be precisely defined.

"Restriction," for deed purposes, could be broadly defined to include restrictions on transfers by the grantee, n387 covenants, conditions, or outstanding third party interests such as easements. n388 However, the term "restriction" has come to have a narrower meaning: a limitation on the use of the property by the grantee. n389 This definition, while narrowing, is still problematic for the reason that the "use restriction" may take the form of a covenant or a condition. n390 The definition states that the grantee is restricted, but it does not indicate the consequence of violation of the restriction. The term as defined is generic; it is not an independent substantive legal concept apart from covenant and condition.

To gain further insight into the use and meaning of the term "restrictions," one can look to see how deed restrictions can be structured. The first is in the form of a conveyance upon a condition, with the appropriate language attached to the estate conveyed. The second is the form of a covenant, with the making of promises relating to the use of the land. The third form of restriction may be phrased in a variety of formats, unlike the traditional language of a condition or a restrictive covenant; the deed might simply state the grantee is restricted in the use of the land (a negative prohibition), or it might simply state that the land is to be used for a specified purpose only. In either case, the traditional language of condition and covenant is lacking. Will these negative prohibitions or declarations be found binding on the grantee, creating a valid restriction? Suppose the grantor states that the grantee is restricted in the type of building to be erected on the property. Will a building restriction be given effect? The conceptual difficulty with holding that restrictions of this type are binding on the grantee as covenants is the absence of language whereby the grantee expressly promises to do or not to do something.

Despite the conceptual difficulty, courts have enforced such restrictions as covenants. The theory, though often not expressed or expressed very clearly, is that the grantee's acceptance of the deed is tantamount to a promise to abide by the restriction. n391 When the deed contains the negative prohibition or declaratory language, there is no great difficulty in classifying the grantee's implied promise as a "restrictive covenant," the prototypical "restriction."

In the context of the modern residential subdivision, the declarations, restrictions, and covenants are usually separately recorded, prior to the conveyances of any lots in the subdivision. Subsequent deeds to the subdivision lots may or may not refer to the recorded declaration of covenants and restrictions. Once again the contractual basis for the restriction is not immediately apparent. In this situation as well, the courts have interpreted the grantee's acceptance of the deed with notice of the restrictions as tantamount to an agreement to abide by the restrictions. n392

COMPUTER-ASSISTED RESEARCH

LEXIS: restriction w/10 property w/15 notice w/2 restrictive
covenants

In the modern era of planned real estate subdivisions, the subdivision restrictions should be contained in the deed conveying the property to the grantee or placed of record prior to the grantee's purchase. n393 The form of the restriction can be either the traditional "covenant" form n394 or by negative prohibitions or declarations of the grantor. In the modern real estate subdivision development plan, the labels "covenants" and "restrictions" fit together because the grantee is to be bound to affirmative promises and to negative restrictions.

Deed restrictions in the form of conditions are still possible, although usually not advisable. Disputes over deed restrictions taking the form of conditions are most likely to involve public entities. While courts generally give effect to such conditions, so long as they are not unreasonable or contrary to public policy, n395 the judicial attitude toward construing the language as covenants is particularly evident in cases of this type. n396

(n64)Footnote 352. The California court in *Willard* rejected the argument relating to reliance, both by the affected parties and the title insurance company. *Willard v. First Church of Christ, Scientist, Pacifica, 498 P.2d 987, 991 (Cal. 1972).*

(n65)Footnote 353. Legal malpractice might be present, a point emphasized by Dukeminier. *See* Dukeminier, *supra* n.349, at 174.

(n66)Footnote 354. *Durden v. Reynolds, 440 S.E.2d 170 (Ga. 1994)* (reservations and exceptions fatally defective unless property can be located with reasonable certainty); *Highway Props. v. Dollar Sav. Bank, 431 S.E.2d 95 (W. Va. 1993)* (easement failed for lack of insufficient description); *Colucci v. Colucci, 596 A.2d 1099 (N.J. Super. 1991)* (exceptions must be specifically set forth); *Hancock v. Planned Dev. Corp., 791 P.2d 183 (Utah 1990)* ("subject to" language not intended as reservation); *Kauka Farms v. Scott, 352 S.E.2d 373 (Ga. 1987)* (extent of reserved life estate not too indefinite).

(n67)Footnote 355. *See* § 82.13(b)(2), *infra. Graham v. Kuzmich, 876 S.W.2d 446 (Tex. App. 1994)* (reservations

and exceptions strongly construed against grantor); *Carter v. Heitzman, 603 N.Y.S.2d 614 (N.Y. 1993).*

(n68)Footnote 356. *Stevens Mineral Co. v. State, 418 N.W.2d 130 (Mich. App. 1987). See also Norken Corp. v. McGahan, 823 P.2d 622 (Alaska 1991)* (rule of construction favoring grantees should be subordinate to polestar rule of giving effect to intent of the parties); *Notch Mountain Corp. v. Elliott, 898 P.2d 550 (Colo. 1995)* (reservations construed more strictly than grants); *In re Condemnation by County of Allegheny of Certain Coal, Oil, Gas, Limestone, Mineral Properties, 719 A.2d 1 (Pa. Cmwlth. 1998)* (rule of construction favoring grantee not applied "where the language is sufficiently clear to define the character and extent of the reservation or exception").

(n69)Footnote 357. West's Legal Forms, § § 31.11, 31.14. As the textual discussion illustrates, the "excepting and reserving" language is problematic. *See Townsend v. County of Allegany, 649 N.Y.S.2d 296 (App. Div. 1996)* ("reserving and excepting" construed as limitation on warranty); *Sheaffer v. Caruso, 676 A.2d 204 (Pa. 1996)* (by using excepting and reserving language, grantor "protected herself from liability under the general warranty deed and created in herself an estate in the oil and gas").

(n70)Footnote 358. *Id.,* § 31.3. *Fairfax County Park Auth. v. Atkisson, 445 S.E.2d 101 (Va. 1994)* ("except" language followed title warranty language; language construed as an exception); *Polizos v. Skoro, 877 P.2d 662 (Or. App. 1994)* ("excepting" language followed legal description).

(n71)Footnote 359. *Katkish v. Pearce, 490 A.2d 626 (D.C. 1985). Compare Davis v. Henning, 462 S.E.2d 106 (Va. 1995)* ("subject to" language of deed did not reserve easement in grantor) *with Camino Sin Pasada Neighborhood Ass'n v. Rockstroh, 889 P.2d 247 (N.M. App. 1994)* ("subject to" language held to have created an easement by reservation in grantor). The New Mexico court cited other recent cases on point and also discussed the issue of admissibility of extrinsic evidence.

(n72)Footnote 360. *Grimmett v. Estate of Beasley, 777 S.W.2d 588 (Ark. App. 1989).* This problem will be considered at § 83.03(c), *infra,* as well.

(n73)Footnote 361. *Lincoln Sav. & Loan Ass'n v. State, 768 P.2d 733 (Colo. App. 1988).*

(n74)Footnote 362. *See* text at note 333, *supra.*

(n75)Footnote 363. *Fairfax County Park Auth. v. Atkisson, 445 S.E.2d 101 (Va. 1994)* ("subject to" language reenforced intention of grantor previously expressed in "except" clause); *Carter v. Heitzman, 603 N.Y.S.2d 614 (N.Y. 1993)* ("excepting and reserving" clause, as applied to street, construed as consistent with passing of fee title to grantee; neither a "reservation" nor an "exception" was technically possible); *Walker v. Foss, 930 S.W.2d 701 (Tex. App. 1996)* ("subject to" used to protect grantor against claimed breach of warranty); *City and County of San Francisco v. Union Pac. R.R., 58 Cal. Rptr.2d 1 (Cal. App. 1996)* ("subject to" language typically connotes reservation of rights in grantor rather than limitation of estate conveyed); *Hancock v. Planned Dev. Corp., 791 P.2d 183 (Utah 1990); Lillich v. Lowery, 320 N.W.2d 463 (Neb. 1982); Pollnow v. State Dep't of Nat. Resources, 276 N.W.2d 738 (Wis. 1979).* The grantee may well be on constructive or inquiry notice of the third party interest. Lurking beneath the surface of cases of this type, and sometimes mentioned in passing, is the liability of the grantor on the title covenants. The term "less" was held to be exception in *Lincoln Sav. & Loan Ass'n v. State, 768 P.2d 733 (Colo. App. 1988).*

(n76)Footnote 364. There is in practically every state a presumption of the grantor's entire interest passing. *See* § 82.13(c)(2), *infra.*

(n77)Footnote 365. *See* § 82.13(c)(3), *infra*. The court in *Carter v. Heitzman, 603 N.Y.S.2d 614 (N.Y. 1993),* noted that it would be "illogical" to construe an "excepting and reserving" clause in a fashion that would result in the grantor's heirs retaining "ownership of the street but none of the surrounding property." This is a reference to the "strip and gore" doctrine in a context in which it is not normally found. As indicated in the discussion *infra,* at § 82.13(e), the public policy considerations which prompted the "strip and gore" doctrine are, on occasion, equally applicable in an

"exceptions and reservations" case. *Carter* is a rare case in which the court takes into account the policy behind the "strip and gore" doctrine in a factual setting not normally associated with it. Another example of a court taking into account the policies behind the "strip and gore" doctrine is *Ritz v. Indiana and Ohio R.R., 632 N.E.2d 769 (Ind. App. 1994).* In discussing the "fee v. easement" issue, the court in *Ritz* noted that the "public policy of this state does not favor the conveyance of strips of land by simple titles to a railroad for right-of-way purposes." As indicated in the text at § 82.13(c)(2), the prevailing approach in these types of cases is founded upon the "greatest estate" canon, a constructional rule, which results in a presumption of a fee simple.

(n78)Footnote 366. West's Legal Forms § 30.20 (2d ed. 1986).

(n79)Footnote 367. *Id.* at § 30.11.

(n80)Footnote 368. *See, e.g., O'Brien v. Village Land Co., 794 P.2d 246 (Colo. 1990); Ford v. Raab, 744 P.2d 956 (Okla. 1987); Cole v. Minor, 518 So. 2d 61 (Ala. 1987).*

(n81)Footnote 369. The Colorado court in *O'Brien* (*O'Brien v. Village Land Co., 794 P.2d 246 (Colo. 1990))* emphasized the distinction between the granting clause and the warranty clause; the Alabama court in *Cole* (*Cole v. Minor, 518 So. 2d 61 (Ala. 1987))* saw the issue as a conflict between the granting clause and the reservation. Both courts also discussed the question of whether the language was "unambiguous," thus barring any extrinsic evidence. Both courts ruled the deed language to be unambiguous, barred extrinsic evidence, and ruled that the "reserving" language was not a reservation in the technical sense, and thus the grantor's entire interest passed under the deed. *Peoples Bank and Trust Co. v. Nettleton Fox Hunting & Fishing Ass'n, 672 So. 2d 1235 (Miss. 1996)* (grantor conveyed mineral rights and did not reserve them; grantor "was merely trying to protect its warranty"). *See also Sheaffer v. Caruso, supra* at note 356).

CHAPTER 82 TRANSFERS BY DEED

9-82 Thompson on Real Property, Thomas Editions § 82.10

AUTHOR: Professor Ronald R. Volkmer School of Law Creighton University

§ 82.10 Covenants of Title.

[Go To Supp]

Although covenants of title are properly listed among the non-essential elements of a deed, the long-standing and widespread use of these covenants justifies their separate treatment in the law of deeds. The covenants of title are but one of a number of so-called title assurance devices, whereby the grantee of a deed receives some measure of protection against a grantor whose title is lacking or defective in some respect. There are many and varied issues relating to title defects. The reason for the continuing struggle over title issues can be traced, in large part, to the system of conveyancing generally employed in the United States. With few exceptions, n397 title in this country is based upon title instruments, such as deeds, and the recording of these instruments. The theory is that a real estate purchaser is entitled to rely upon the state of record title and receives protection through the recording acts, n398 but the validity of the instrument, even when recorded, may later be challenged. Deeds, wills, and other similar instruments are evidence of title, but they do not constitute conclusive evidence of title. The prudent purchaser should, of course, and ordinarily does, make a careful examination of the vendor's title prior to purchasing. Just as the landlord's careful screening of tenants is the best security, so a purchaser's careful examination of title prior to purchasing is the best protection against title problems. n399 The system, however, is not perfect, and even those who diligently check the title records may not receive protection against title failure or title flaws. n400 Title insurance is the more recent method of title protection in widespread use; the most ancient and more widely method used today is the deed containing title covenants.

Topics of importance in the modern law of covenants of title include types of covenants, scope of covenants, breach, remedy, and damages. All of these topics are essentially contract based doctrines. In addition to these standard topics, there are two other topics arising out of covenants of title that deserve special consideration: the topic of runnabilty of covenants and the doctrine of estoppel by deed. The latter topic will be discussed in the next section.

There are some inherent limitations on the scope of protection, as the following materials will indicate. There are also some limitations which naturally flow from the fact that the remedy for breach is typically an action for damages against an immediate or remote grantor. The defendant grantor may not exist, may not be amenable to service of process, or may be insolvent. In addition, the cause of action may be barred by a statute of limitations, which, in the case of a deceased grantor, may be a short statute of limitations. Finally, there is the question of damages. If what is

recovered are considered nominal damages, the lawsuit may be justifiable only for the purpose of establishing marketable title.

§ 82.10(a) Common Law Background.

In § 82.07(b), *supra,* it was noted that the clause of warranty in a deed was the medieval version of a title covenant. Coke's commentaries contain a lengthy chapter to the topic of warranties, n401 and the lengthiest discussion on parts of deeds by Blackstone is on the topic of the clause of warranty. n402 Chancellor Kent, writing in 1830, summarily reviewed the common law of warranties and concluded that the remedy by the ancient warranty had been superseded by "personal covenants." n403 Thus, by 1830 the common law of deed warranties had changed in two significant respects: the covenants were no longer to be implied, and they were no longer treated as binding upon successors in interest to the grantor. In addition, the remedy for breach had shifted from the ancient *warrantia chartae*, whereby the grantor might be required to "yield other lands" equal in value to the land warranted, to damages. n404

§ 82.10(b) Covenant Creation and the Statutory Law of Covenants.

The creation of covenants of title is the starting point for the law of covenants. The starting point for the creation of covenants of title is the language of the deed, for if title covenants are, as Kent said, "personal covenants," they are express contractual undertakings of the grantor. The ordinary method of creation of covenants for title is the language of the deed. In many jurisdictions, however, the creation of covenants is not just a matter of contract. There are a number of jurisdictions in which the use of certain language in a deed will be deemed to include certain covenants of title. These statutes vary considerably in their detail. In the concluding subsection there is a state-by-state listing of the various statutes pertaining to covenants of title. This listing includes the implied covenants of title arising from the use of certain language in a deed, as well as the statutes pertaining to runnability and estoppel by deed. The topics and scope of these statutes vary considerably. Given the extent of legislation in this area, the starting point for any research in the field should begin with a review of the state's statutory law to determine to what extent, if any, the common law rules pertaining to covenants for title have been abolished or modified.

§ 82.10(c) Types of Covenants.

There are six common law covenants of title: (1) seisin; (2) right to convey; (3) against encumbrances; (4) quiet enjoyment; (5) further assurances; and (6) warranty. n405 It is a matter of local custom and usage as to whether all six of these covenants are ordinarily included in the general warranty deed. n406

COMPUTER-ASSISTED RESEARCH

LEXIS: seisin w/5 convey w/5 encumbrances w/5 "quiet enjoyment"
w/5 warranty w/5 "further assurances"

Covenants of title have been divided into two categories -- present covenants and future covenants. Traditional common law classification places the covenants of seisin, right to convey, and against encumbrances in the first category and the covenants of quiet enjoyment, further assurances and warranty in the second category. n407 Covenants of warranty are classified as general or special. n408 The legal significance of these classifications will be considered below.

§ 82.10(c)(1) Covenant of Seisin.

The traditional language creating the covenant of seisin states, in simplified modern form, that the "[Grantor] covenants that [grantor] is lawfully seised of the said real estate" or that the grantor is "seised of an indefeasible estate in fee simple in said real estate." There is a technical difference between the formulations, going back over a century to the debate over the concept of "actual seizin."

Without benefit of a statute defining the covenant of seisin, the American courts early on struggled with the concept of actual seizin as complying with the covenant. The debate was whether the grantor's covenant of being "lawfully seised" was satisfied by delivering actual possession to the grantee, as some courts had held. n409 By 1860, the leading commentator on the topic stated that the weight of American authority was opposed to the doctrine of actual seizin as satisfying the covenant. n410 The controversy over actual seizin did not occur when the language of the covenant included the words "seized of an indefeasible estate." n411

What, then, is the modern definition and meaning of a covenant of seisin? In some states the definition of the covenant is statutorily defined. n412 In states where there is no statutory definition, the courts do not parse the language of the covenant itself or examine the technicalities of the medieval concept of seisin. The modern cases construe a covenant of seisin as a promise by the grantor that the grantor is the owner of the estate in the same quantity and quality which the grantor purports to convey. n413 The covenant of seisin, as thus construed, is truly a covenant of *title;* the focal point is the transfer of title, which, technically speaking, involves a conveyance of an *estate* in land. Thus defined, the covenant of "seisin" is a guaranty or warranty of the estate or interest conveyed, be it a fee simple, a life estate, an easement or mineral interests.

Some of the modern cases, however, state that the covenant of seisin is breached if the grantor has neither possession nor the right of possession. n414 This approach is the converse of the actual seizin doctrine of a century ago: lack of possession violates a warranty of title. n415 There is an analogy in the law of landlord/tenant regarding the landlord's duty to deliver actual possession to the tenant. Some courts hold that a landlord is under an *implied* covenant to deliver actual possession to the tenant. n416 If courts "construe" a covenant of seisin as requiring a delivery of actual possession, they are going beyond the notion traditionally expressed by the term "covenant of *title*."

The covenant of seisin is a "present" covenant, meaning that the covenant is breached, as Kent put it, "as soon as the deed is executed." n417 The statute of limitations begins running at that time. n418 The key to understanding what circumstances would give rise to a breach is the manner in which a court goes about defining the covenant. If a covenant of seisin is defined as a warranty by the grantor that the grantor is owner of the very estate the grantor is purporting to convey, the breach issue become clear. The alleged breach must relate to a failure of title; the mere existence of an encumbrance is not a breach. n419 The breach of a covenant of seisin has been found in cases where the grantor lacked title to the "appurtenance" conveyed n420 and the grantor did not own the mineral rights to the property conveyed. n421

COMPUTER-ASSISTED RESEARCH

LEXIS: seisin or seizin w/25 present covenant breach w/5 covenant
w/5 seisin or seizin w/20 failure w/5 title

As to the measure of damages for breach of a covenant of seisin, the courts continue to adhere to Chancellor Kent's statement of the law: "The buyer on the covenant of seisin, recovers back the consideration money and interest, and no mOr." n422 This restitutionary theory is supported by the traditional present-future covenant dichotomy. The cause of action for breach of a covenant of seisin accrues in the ordinary case at the time of the closing when the deed is delivered. At that time the grantee is "hurt" to the extent that the grantee has not received all the grantee has contracted for. A partial failure of title results in a *pro tanto* damage assessment. n423 The *pro tanto* rule has been applied in an exchange case as well as sale. n424

LEXIS: measure w/5 breach w/5 covenant w/5 seisin or seizin or
warranty

The extent to which the grantee can recover attorney fees and other costs of litigation in the suit for breach is very much dependent upon the facts of the individual case. A suit for attorney fees and costs resulting from the grantee's unsuccessful defense of title against a third party is distinct from a grantee's attempt to collect fees and costs in the direct suit against the grantor. Recovery of attorney fees and costs is granted in the first instance n425 and denied in the second. n426 In cases involving covenants of seisin, courts have awarded both attorney fees n427 and costs n428 against the breaching grantor.

§ 82.10(c)(2) Covenant of Right to Convey.

The typical deed language creating a covenant of right to convey is: "Grantor hereby covenants with the grantee that [grantor] has good right, full power and lawful authority, to convey the said land ...." This covenant is said to be synonymous with the covenant of seisin n429 and thus redundant, but that may not always be true. If a deed executed by a fiduciary, such as personal representative or trustee, recites as its only covenant that the grantor has the legal power and lawful authority to convey, it may be construed strictly as a covenant which simply relates to the grantor's power to convey, not to title. Thus construed, the deed is more like a quitclaim deed than a warranty deed. n430

COMPUTER-ASSISTED RESEARCH

LEXIS: covenant w/10 "personal representative" w/10 authority
trustee w/5 power w/5 bind w/5 warranty

Issues of breach and of damages are treated the same under the covenant of right to convey as under the covenant of seisin. n431 Under the traditional view, the covenant of right to convey is a present covenant. n432

§ 82.10(c)(3) Covenant Against Encumbrances.

The typical deed language creating a covenant against encumbrances is short and direct: "Grantor hereby covenants that, at the time of execution hereof, the premises are free and clear of all encumbrances." The grantor can, and often does, limit this covenant so as to exclude existing encumbrances. This can be accomplished by a carefully drawn "subject to" clause: "subject to easements, covenants, or other encumbrances of record." n433 Using the word "except" to limit the covenant creates problems because of the concept, previously discussed, of an "exception" in a deed. n434

Many of the cases involving alleged breach of this covenant come down to the question of how the term "encumbrance" is defined. n435 The more recent cases define "encumbrance" as any right or interest in land subsisting in a third person, to the diminution of the value of the land, not inconsistent with the passing of fee simple title. n436 Examples can be found of definitions that are more expansive. n437

Because of the vague contours of the definition of encumbrance, there are numerous cases addressing the issue of whether the challenged interest or defect is violative of the covenant. Historically, liens and easements constituted the bulk of the case law raising the issue of breach. Liens are classic covenant violations; n438 easements are likewise violations, whether or not the grantee had knowledge of the easement. n439 In cases involving public easement, such as highways and railroad rights of way, knowledge of the grantee may be relevant. n440

Public land use restrictions and regulations are the focal points of many of the recent cases. In cases of this type, it is not the existence of the restriction or regulation that is at issue; the question is whether a violation of the public restriction

or regulation, existing at the time of the transfer, constitutes an encumbrance. n441 The courts have found no breach of the covenant in cases of violation of county zoning requirements, n442 county subdivision ordinance, n443 building code, n444 land use regulation, n445 or hazardous waste regulation. n446 There are some cases finding a breach when the violation pertains to zoning laws. n447

covenant or warranty w/25 breach w/25 subdivision ordinance
covenant or warranty w/25 breach w/25 building code covenant
or warranty w/25 breach w/25 land use regulation covenant or
warranty w/25 breach w/25 hazardous waste

Problems of location give rise to claims that an encumbrance exists. Encroachments can give rise to breaches of the covenant, n448 but the mere fact that a driveway, sewer line or septic tank is located on adjacent property may not be considered a breach. n449

COMPUTER-ASSISTED RESEARCH

LEXIS: covenant w/10 convey w/10 breach w/50 encroach!
covenant against encumbrances w/10 breach w/25 driveway or sewer line or septic tank

The traditional view is that a covenant against encumbrances is a present covenant, with any breach occurring at the time of the conveyance. n450 The damages for breach of the covenant are determined by the difference between the value of the property without the encumbrance and the value of the property with the encumbrance. n451 The cost of removing the encumbrance may, in appropriate cases, be the measure of damages. n452 However, this amount may not exceed the consideration paid. n453 In certain instances, the courts have awarded nominal damages for the breach. n454 Attorney fees are usually not awarded. n455

§ 82.10(c)(4) Covenant of Warranty.

In addition to the "covenant of warranty," there are closely related terms that come up in the discussion of covenants of title. These terms include: "warrant," "warranty of title," "warranty deed," "general warranty deeds," and "special warranty deeds." These terms may constitute the source of confusion if distinctions are not carefully made. This is particularly true as regards the peculiarities and vagaries of state statutory law pertaining to covenants of title. The reader is referred to subsection (e), *infra*, for more detailed information pertaining to the laws of the various jurisdictions.

In certain states the statutes provide that the term "warrant" implies all of the usual covenants of title. n456 In these jurisdictions the courts may use the term "warranty of title" as embracing all of the covenants n457 and the term "breach of warranty of title" to indicate that one of the usual covenants has been breached. n458 In other words, "warranty of title" is used generically in the sense of "covenants of title." "Warranty deed" is another term that is used generically to describe a deed containing the usual covenants of title. n459 The opposite of a warranty deed is "quitclaim deed," a deed containing no covenants of title. n460 One must be careful here as well, however, since in some states, what is ordinarily regarded as a special warranty deed is referred to as a "quitclaim deed." n461

LEXIS: lien or encumbrance w/15 warranty deed w/15 breach
warranty

Now we move to the covenant of warranty, one of the "usual covenants," according to Chancellor Kent. As Kent put it, this covenant states that "the grantor will warrant and defend the title against all lawful claims." n462 Kent's statement of the covenant of warranty is still accurate today. n463 In the language of some deeds, the grantor covenants to "warrant and defend the premises" against the claims of "all parties." It is the grantor's promise to warrant and defend the title against *all* claimants that makes the covenant of warranty a covenant of general warranty. n464 The grantor's covenant of warranty may be limited to warranting and defending the title against the claims of persons who claim by, through, or under the grantor. By limiting the warranty in this fashion, the grantor has given a covenant of special warranty. n465

COMPUTER-ASSISTED RESEARCH

LEXIS: fee simple title w/5 lawful claim general warranty deed w/15
grantee w/15 breach or broken

The terms "general warranty deed" and "special warranty deed" are terms of art used in conveyancing. Putting aside the statutorily-based meanings of these terms, the question arises whether the distinction is based solely upon the presence of a covenant of general or special warranty. At least one authority so states. n466 However, the case law discussing the definition of "special warranty deed" opens up the possibility of differing definitions of the term. A special warranty deed may be construed as a limitation on the grantor's covenants such that, as to all of the covenants, the warranties are limited against the grantor's own acts only. n467 As noted previously, n468 covenants of title are often limited by "subject to" or "except" language. To confuse matters even more, a court may refer to a deed containing this type of language as a "limited" warranty deed. n469 To repeat a basic point, the terminology varies from jurisdiction to jurisdiction, and thus, any "general discussion" is perilous, as is any attempt to generalize from the various cases from the several jurisdictions.

Chancellor Kent stated that the covenant of warranty and the covenant of quiet enjoyment are "prospective, and an eviction is necessary to constitute a breach of them." n470 The prospective nature of these covenants causes them to be labelled "future" covenants in modern law. The modern cases continue to adhere to Kent's statement with regard to both the timing of the breach n471 and the necessity for an eviction, actual or constructive. n472 "Constructive eviction," a convenient legal fiction, has been utilized for over a century n473 and continues to be used today. n474

There are a variety of circumstances that might constitute the eviction, but the four main categories constituting an eviction are: (1) an eviction under paramount title existing at the time of conveyance, (2) a failure to obtain possession under deed because of possession in another with paramount title, (3) a surrender of possession after hostile assertion of paramount title, and (4) a purchase or extinction of such title by the purchaser. n475 The running of the statute of limitations commences when the breach occurs, which necessitates a finding of when the eviction took place. So long as the eviction is actual, a certain date is more likely to be easily calculable. When the eviction is constructive, the fact that the court is engaging in a legal fiction makes the accrual date more difficult to ascertain with precision. n476

The measure of damages issue for a breach of a covenant of warranty may be complicated by the status of the covenantee. In this discussion of damages, it is assumed that the covenantee is the immediate grantee. n477 In such case, the normal measure of damages is the purchase price with interest from date of the eviction. n478 There are older cases from New England which allow the covenantee to recover the value of the land at the time of eviction and the value of improvements. n479

COMPUTER-ASSISTED RESEARCH

LEXIS: eviction w/10 measure damages & breach warranty

The general rule is that a grantee who is involved in an unsuccessful defense of title is entitled to recover costs and attorneys' fees, n480 whereas a grantee who has successfully defended title is not so entitled. n481 Exactly when the grantee has successfully defended title and whether a lawsuit has drawn into question the grantee's title are not always easy to determine. n482

The general rules of the previous paragraph are subject to qualification and exception. n483 Even though a grantee's defense of title may be successful, recovery of costs may be allowed where the litigation was caused by grantor's negligence, n484 or where the wrongful act of the grantor thrusts the grantee into litigation with the third party. n485 In many jurisdictions the covenantee, in order to recover costs, must give the grantor notice of the pending litigation and, in some instances, request the grantor to appear and defend. n486 The general rule, along with its qualifications and exceptions, is being re-examined, and in at least one important recent case has resulted in a new test of liability of the grantor for the costs of a grantee's defense of an adverse claim. n487 This new test involves two factors: (1) the grantor's responsibility for the adverse claim or its actual or constructive knowledge of that claim, and (2) the grantee's demand of the grantor to defend the title. n488 Under this test the grantor might be held liable for the costs of the defense, regardless of whether the defense of the title is successful.

§ 82.10(c)(5) Covenant for Quiet Enjoyment.

Chancellor Kent stated that one of the usual covenants of a deed is a grantor's promise "that the grantee shall quietly enjoy." n489 The covenant for quiet enjoyment is generally regarded as identical in scope and in operation as a covenant of warranty. n490 Because the covenants of warranty and quiet enjoyment are, in truth, one and the same, there is no reason to attempt to state a separate set of rules applicable to the covenant for quiet enjoyment. The law applicable to the covenant of warranty becomes the law applicable to the covenant for quiet enjoyment. Typically, in referring to the combination warranty/quiet enjoyment covenant, the courts simply use the term "covenant of warranty." n491

COMPUTER-ASSISTED RESEARCH

LEXIS: quiet enjoyment w/10 identical or similar w/10 warranty

Occasionally, a court will give a nod to the covenant for quiet enjoyment in defining the covenant for warranty as a covenant against loss of possession. n492 There are few modern cases in which the covenant of quiet enjoyment is the covenant relied on exclusively by the grantee. n493

§ 82.10(c)(6) Covenant for Further Assurance.

The covenant for further assurances is a promise by the grantor to do those acts reasonably required in the future to perfect the grantee's title. n494 While deed forms and statutes may continue to refer to this covenant, it is doubtful whether it plays any significant role in the modern law of deeds. It is also doubtful whether this covenant has ever played any significant role in American law: Chancellor Kent did not list this covenant as one of the "usual covenants" in a deed. n495

COMPUTER-ASSISTED RESEARCH

LEXIS: further assurances w/15 perfect w/15 title

§ 82.10(d) Enforcement by Remote Grantee -- "Real" Covenants.

Chancellor Kent did not use the terms "present" and "future" covenants in listing the covenants of title. The terms Kent used to distinguish the various covenants were "personal" and "real." According to Kent, the covenants of seisin, right to convey, and against encumbrances were the personal covenants -- "not running with the land, or passing to the assignee." In contrast, the covenants of warranty and for quiet enjoyment were "real" covenants -- "they run with the land conveyed and descend to heirs, and vest in assignees." n496 Kent's set of rules as to which covenants "run with the land" has routinely been accepted by the courts as an accurate statement of the law. n497 Today, in some jurisdictions, the "present" covenants are treated as "real" covenants and run with the land. This result came about either by judicial decision n498 or by state statute. n499

The fact that a covenant runs to the benefit of remote grantees creates some special problems relating to breach and enforcement. Issues may arise as to: (1) standing, (2) accrual of the cause of action for statute of limitations purposes, and (3) measure of damages.

With regard to the issue of standing, the remote grantee suing on the covenant must show a connection to the original covenantee, the so-called "vertical" privity requirement. n500 This requirement is satisfied by showing that the remote grantee has succeeded to the estate or interest of the covenantee. n501

For this purpose, the fact that intermediate conveyances contain no covenants is not significant. n502 The plaintiff may elect to sue the original covenantor, intermediate grantors who gave warranties, or all of them. n503

COMPUTER-ASSISTED RESEARCH

LEXIS: vertical privity w/25 grantee or covenant!

If a present covenant runs with the land, the date of the accrual of the cause of action, for statute of limitations purposes,

remains the same: the date of the conveyance. n504 As to the issue of damages, the long-standing issue is whether the remote grantee can sue for more than the consideration given by the remote grantee, in a case where that amount is less than the consideration received by the covenantor. There are no recent cases on point; the older cases are divided on this issue. n505

§ 82.10(e) State Statutes.

Statutory provisions relating to covenants of title may relate to a variety of topics. The focal point of the following state-by-state listing is the topic of "implied covenants." Implied covenants take a variety of forms and result in terminology differences that have the potential to create confusion in reviewing individual cases. Included within the listing are other topics relating to covenants for title: (1) statutes pertaining to runnability of covenants for title, constructive eviction, and covenant of seisin, and (2) estoppel by deed. While efforts have been made to make this list as complete and as up-to-date as possible, the reader is advised to check in great detail the statutes of the state the reader is investigating. The statutes may contain, in a section not pertaining to "deed" or "conveyances," a provision that could affect the legal rules pertaining to covenants for title. Finally, the reader is advised to review the case law of the individual jurisdiction to find out how the statutory language has been interpreted. As an example, the Alabama statute pertaining to implied covenants, cited below, n506 appears to create the typical "general warranty" covenants. As interpreted by the Alabama Supreme Court, however, the implied covenants of title are deemed "special," not general. n507

ALABAMA

1) IMPLIED COVENANTS

The words "grant," "bargain," or "sell" imply the following covenants by the grantor to the grantee, and the grantee's heirs and assigns, unless it is clear from express language of the document that the covenant does not exist:

- The grantor was seised of an indefeasible estate in fee simple;
- The property is free from encumbrances made by grantor, except rents and services reserved in the document;
- Quiet enjoyment of the property against the grantor, and the grantor's heirs and assigns.

These covenants may be acted upon as if they were expressly in the document. n508

ALASKA

1) IMPLIED COVENANTS

A deed substantially following the following form: "The grantor [name and residence of grantor] for and in consideration of [consideration] in hand paid, conveys and warrants to [name and residence of grantee] the following described real estate [description of property], located in the State of Alaska. Dated this [date] day of [month], [year]," implies the following covenants on the grantor to the grantee and the heirs and assigns of the grantee:

- At the time of delivery the grantor is lawfully seized of an indefeasible estate in fee simple;

- The grantor has the right and power to convey the premises;
- At the time of the delivery, the property is free from encumbrances;
- The grantor warrants quiet and peaceable possession of the property;
- The grantor will warrant and defend the title against all persons claiming the premises.

These covenants may be acted upon as if they were expressly in the document. n509

ARIZONA

1) IMPLIED COVENANTS

The words "grant" or "convey" imply the following covenants to the grantor and the grantor's heirs to the grantee and the grantee's heirs and assigns, and may be limited by express language in the document:

- Before the conveyance, the grantor has not conveyed the estate or any right, title or interest to any person other than the grantee;
- At the time of the conveyance, the property is free from encumbrances, which includes taxes, assessments, and all liens on real property;

These covenants may be acted upon as if they were expressly in the document. n510

ARKANSAS

1) IMPLIED COVENANTS

The words "grant, bargain and sell" act as express covenants that the grantor is seized of an indefeasible estate in fee simple; free from encumbrances made by the grantor other than the rents and services expressly reserved in the document; for quiet enjoyment against the grantor, and the grantor's heirs and assigns; unless expressly disclaimed in the document. These covenants may be acted upon as if they were expressly in the document. n511

2) ESTOPPEL BY DEED

If the grantor purports to sell the property without having legal or equitable title, and subsequently acquires such title, legal and equitable title immediately passes to the grantee. The grantee's title is as valid as if the grantor had full title at the time of the conveyance. n512

CALIFORNIA

1) IMPLIED COVENANTS

The word "grant" in a conveyance of a fee simple estate implies a covenant on the grantor and the grantor's heirs for the grantee, and the grantee's heirs and assigns, unless expressly disclaimed in the document:

- Before the conveyance, the grantor has not conveyed the estate or any right, title or interest to any person other than the grantee;

- At the time of the conveyance, the property is free from encumbrances made by the grantor or any person claiming under him;

These covenants may be acted upon as if they were expressly in the document. n513

2) ESTOPPEL BY DEED

When a person who purports to transfer title in real property with a proper instrument does not have title, then subsequently acquires title, the title passes by operation of law to the grantee or the grantee's successors. n514

3) RUNNABILITY OF COVENANTS

Covenants contained in grants of real property run with the land. n515

COLORADO

1) IMPLIED COVENANTS

The words "warrant(s) the title" in a warranty deed or a mortgage imply the following covenants for the grantor:

- At the time of the conveyance, the grantor was lawfully seized of an indefeasible estate in fee simple;

- The grantor has good right and full power to convey the estate;

- The property was free of encumbrances except those stated in the document;

- The grantor warrants the grantee and the grantee's heirs and assigns the quiet and peaceable possession of the property;

- The grantor will warrant and defend the title against all persons who lawfully claim it.

These covenants may be acted upon as if they were expressly in the document. n516

2) ESTOPPEL BY DEED

The words "and warrant the title to the same" will pass any after-acquired title of the grantor. n517

If the grantor acquires title after distribution of the property to the grantee, and subsequently acquires title, title immediately passes to the grantor and the grantor is deemed to hold the property in trust for the grantee. n518

3) RUNNABILITY OF COVENANTS

Covenants of seisin, peaceable possession, freedom from encumbrances, and warranty contained in any conveyance of real estate, or any interest therein, run with the premises and inure to the benefit of all subsequent purchasers and encumbrancers. n519

CONNECTICUT

1) IMPLIED COVENANTS

A deed substantively following the "Warranty Deed" statutory form implies the following covenants on the grantor for the grantee and the grantee's heirs, executors and administrators:

- At the time of delivery, the grantor was seized of an indefeasible estate in fee simple;
- The premises are free from all encumbrances except those in the document;
- The grantor has good right, full power and lawful authority to sell and convey the property to the grantee;
- The grantor, and the grantor's heirs, executors and administrators will warrant and defend the premises for the grantee and the grantee's assigns forever against the claims of all persons, except as laid out in the document. n520

The phrase "with warranty covenants" has the effect as if it read "The grantor covenants with the grantee that he is lawfully seized in fee simple of the granted premises; that the same are free from all encumbrances except as therein set forth, that he has good right, full power and lawful authority to sell and convey the same to the grantee and that the grantor shall, and his heirs, executors and administrators shall, warrant and defend the same to the grantee and his heirs and assigns forever against the claims and demands of all persons except as therein set forth." n521

The phrase "with mortgage covenants" has the effect as if it read: "The mortgagor covenants with the mortgagee that he is lawfully seized in fee simple of the mortgaged premises; that the same are free from all encumbrances except as therein set forth, that he has good right, full power and lawful authority to sell and convey the same to the mortgagee and that he, the mortgagor and his heirs and assigns, executors and administrators shall and will warrant and defend the same to the mortgagee and his heirs and assigns forever against the claims and demands of all persons except as therein set forth." n522

GEORGIA

1) RUNNABILITY OF COVENANTS

A purchaser of land obtains all rights the former owner had by virtue of any covenants of warranty of title, of quiet enjoyment, or of freedom of encumbrances contained in the conveyance from any former grantor unless the transmission of the covenants with the land is expressly prohibited in the covenant. n523

IDAHO

1) IMPLIED COVENANTS

The word "grant" implies the following covenants on the grantor and the grantor's heirs for the grantee, and the grantee's heirs and assigns unless expressly disclaimed in the document:

- Before the conveyance, the grantor has not conveyed the estate or any right, title or interest to any person other than the grantee;
- At the time of the conveyance, the property is free from encumbrances made by the grantor or any person claiming under him.

These covenants may be acted upon as if they were expressly in the document. n524

ILLINOIS

1) IMPLIED COVENANTS

The words "grant," "bargain," or "sell" in any conveyance of a fee simple estate acts as an express covenant to the grantee, the grantee's heirs and other legal representatives that the grantor was the owner of an indefeasible estate in fee simple; that the estate was free from encumbrances made by the grantor, except those rents and services reserved in the document; for the quiet enjoyment against the grantor, and the grantor's heirs and assigns unless expressly limited in the document. These covenants may be acted upon as if they were expressly in the document. n525

2) ESTOPPEL BY DEED

A quitclaim deed will not pass after-acquired title. n526

If a person purports to convey an estate in fee simple absolute who does not own of such an interest at the time of the conveyance, and subsequently acquires such an interest, the later acquired interest is held to be taken by the grantor in trust for the use of the grantee, and the conveyance will be valid as if the grantor had full title at the time of the conveyance. n527

INDIANA

1) IMPLIED COVENANTS

A conveyance which substantively follows the form: "A.B. conveys and warrants to C.D. [description of property] for the sum of [consideration]" and dated, signed, sealed, and acknowledged by the grantor will act as a covenant by the grantor, and the grantor's heirs and personal representatives that the grantor is lawfully seized of the property; has good right to convey the same; guarantees the quiet possession thereof; that the property was free from all encumbrances; and that the grantor will warrant and defend the title against all lawful claims. n528

IOWA

1) ESTOPPEL BY DEED

If a deed purports to transfer a greater interest than the grantor had at the time of the conveyance, any after-acquired interest of the grantor inures to the benefit of the grantee. This does not apply if the spouse joins in a conveyance for relinquishing dower or homestead only. n529

KANSAS

1) IMPLIED COVENANTS

Any conveyance which substantively follows the form: "A.B. conveys and warrants to C.D. [description of premises] for the sum of [consideration]" and dated, duly signed and acknowledged by the grantor implies a covenant from the grantor and the grantor's heirs and personal representatives that the grantor is lawfully seized of the property; has good right and convey the property; guarantees the quiet possession of the property; that the property is free from all encumbrances; and that the grantor will warrant and defend the property against all lawful claims. n530

2) ESTOPPEL BY DEED

When a grantor by the terms of the deed conveys to the grantee an indefeasible estate in fee simple and does not have such an estate at the time, and afterwards acquires it, the legal estate immediately passes to the grantee, and is as effective as if the grantor had full title at the time of conveyance to the grantee. n531

KENTUCKY

1) IMPLIED COVENANTS

The phrase "that he will warrant the property hereby conveyed" or words of like import, or the phrase "with warranty" or "with general warranty" act as if the grantor covenanted that the grantor, and the grantor's heirs and personal representatives would forever warrant and defend the property against the claims and demands of all persons for the grantee, and the grantee's heirs, personal representatives, and assigns. n532

The phrase "that he will warrant specially the property thereby conveyed" or words of like import, or the phrase "with special warranty" act as if the grantor covenanted that the grantor, and the grantor's heirs and personal representatives would forever warrant and defend the property against the claims and demands of all persons claiming under the grantor for the grantee, and the grantee's heirs, personal representatives, and assigns. n533

MAINE

1) IMPLIED COVENANTS

The phrase "warranty covenants" acts as if it read: "The grantor covenants with the said grantee, his heirs and assigns that he is lawfully seized in fee of the premises, that they are free of encumbrances, that he had good right to sell and convey the same to the said grantee to hold as aforesaid, and that he and his heirs shall and will warrant and defend the same to the said grantee, his heirs and assigns forever, against the lawful claims and demands of all persons." n534

The phrase "quitclaim covenants" acts as if it read: "The grantor covenants with the grantee, his heirs and assigns that he will warrant and forever defend the premises to the said grantee, his heirs and assigns forever, against the lawful claims and demands of all persons claiming by, through, and under him." n535

MARYLAND

1) IMPLIED COVENANTS

The phrase "that he will warrant generally the property hereby granted" implies a covenant that the grantor will warrant forever the property to the grantee against every lawful claim and demand of any person. n536

The phrase "that he will warrant specially the property hereby granted" implies a covenant that the grantor will warrant forever and defend the property to the grantee against any lawful claim and demand of the grantor and every person claiming or to claim by, through, or under him. n537

MASSACHUSETTS

1) IMPLIED COVENANTS

The phrase "warranty covenants" acts as if it reads: "The grantor, for himself, his heirs, executors, administrators and successors, covenants with the grantee, his heirs, successors and assigns, that he is lawfully seized in fee simple of the granted premises; that they are free from all encumbrances; that he has good right to sell and convey the same, and that

he will, and his heirs, executors, administrators and successors shall, warrant and defend the same to the grantee and his heirs, successors and assigns forever against the lawful claims and demands of all persons." n538

MICHIGAN

1) IMPLIED COVENANTS

No covenant is implied in any conveyance of real estate, except for oil and gas leases. n539

A conveyance which substantively follows the form: "A.B. conveys and warrants to C.D. [description of premises] for the sum of [consideration]" dated, duly signed, sealed and acknowledged by the grantor implies a covenant on the grantor, and the grantor's heirs and personal representatives to the grantee and the grantee's heirs and personal representatives that the grantor is lawfully seized of the premises, has good right to convey the same, that the property is free from all encumbrances, guarantees the quiet possession of the property, and will warrant and defend the title against all lawful claims. n540

MINNESOTA

1) ESTOPPEL BY DEED

A quitclaim deed will not pass after-acquired title. n541

MISSISSIPPI

1) IMPLIED COVENANTS

The word "warrant," without any limiting words, implies covenants of seizin, power to sell, freedom from incumbrance, quiet enjoyment, and warranty of title. n542

The words "warrant specially" in a conveyance implies a covenant that the grantor will warrant and defend the title of the property unto the grantee and the grantee's heirs against all persons claiming through the grantor. n543

The phrase "grant, bargain and sell" operates as an express covenant to the grantee, and the grantee's heirs and assigns that the grantor was seized of an estate free from incumbrance made by the grantor except reserved rents and services; for quiet enjoyment against the grantor, and the grantor's heirs and assigns unless expressly limited. These covenants may be acted upon as if they were expressly in the document. n544

2) ESTOPPEL BY DEED

A conveyance of quitclaim and release will estop the grantor and the grantor's heirs from asserting a subsequently acquired adverse title to the lands conveyed. n545

MISSOURI

1) IMPLIED COVENANTS

The phrase "grant, bargain and sell" implies the following covenants, unless expressly disclaimed in the document, which are binding on the grantor, and the grantor's heirs and assigns:

- Grantor was at the time of the conveyance seized of an indefeasible fee simple;

- The real estate was at the time of the conveyance free from encumbrances made by the grantor or anyone under whom the grantor claims;

- That further assurances of such real estate will be made by the grantor and the grantor's heirs to the grantee and the grantee's heirs and assigns.

These covenants may be acted upon as if they were expressly in the document. n546

2) ESTOPPEL BY DEED

When a grantor undertakes to convey an indefeasible estate in fee simple absolute as does not, at the time of the conveyance, have the legal title to the property, but afterwards acquires it, the legal estate immediately passes to the grantee, and the conveyance shall be as effective as if the grantor had full title at the time of the conveyance. n547

MONTANA

1) IMPLIED COVENANTS

The word "grant" implies the grantor has not conveyed the same estate or any right, title, or interest to anyone other than the grantee; and that at the time of conveyance the estate is free from encumbrances made by the grantor or anyone claiming under him. These covenants may be acted upon as if they were expressly in the document. n548

2) ESTOPPEL BY DEED

If the grantor purports to sell the property without having legal title, and subsequently acquires legal title, the title passes immediately to the grantee by operation of law. n549

3) RUNNABILITY OF COVENANTS

Every covenant contained in a grant of real property made for the direct benefit of the land or some part of it then in existence runs with the land. n550

NEBRASKA

1) IMPLIED COVENANTS

Unless expressly negated in the document, a covenant in a conveyance of real property that the grantor is seized, or lawfully seized, or words to that effect, shall be interpreted as a covenant that the grantor has good title to the very estate in quantity and quality that the grantor purports to convey. n551

2) RUNNABILITY OF COVENANTS

All covenants for title in a conveyance of real estate, including covenants of seizin, right to convey, freedom from encumbrances, quiet enjoyment, and warranty run with the land. n552

3) BREACH OF COVENANTS BY CONSTRUCTIVE EVICTION

Covenants of quiet enjoyment and of warranty may be breached by an eviction, actual or constructive. Constructive eviction occurs when the covenantee is kept out of possession by the paramount title holder; when the covenantee

surrenders possession to the paramount title holder; or when the covenantee in order to retain possession is forced to buy off the paramount title holder. n553

4) ESTOPPEL BY DEED

After-acquired title inures to benefit of grantee; however, after-acquired title does not inure if deed was either quitclaim or special warranty. Grantor not estopped from claiming title at judicial or tax sale. (Neb. Rev. Stat. § 76-209).

NEVADA

1) IMPLIED COVENANTS

The phrase "grant, bargain and sell," in all conveyances made after December 2, 1861, imply the following covenants, and no others, on the grantor and the grantor's heirs and assigns:

- The grantor has not transferred the property or any right, title, or interest in the property to anyone other than the grantee;

- At the time of the conveyance, the property is free from encumbrances made by the grantor or any person claiming under him.

These covenants may be acted upon as if they were expressly in the document. n554

2) ESTOPPEL BY DEED

If the grantor purports to sell the property without having legal title, and subsequently acquires legal title, the title immediately passes to the grantee. The grantee's title is as valid as if the grantor had full title to the property at the time of the conveyance. n555

NEW HAMPSHIRE

1) IMPLIED COVENANTS

No covenant will be implied from the use of the word "grant." n556

NEW JERSEY

1) IMPLIED COVENANTS

The phrase "that he will warrant generally the property hereby conveyed" implies a covenant that the grantor, and the grantor's heirs and personal representatives will warrant and defend the property for the grantee, and the grantee's heirs and personal representatives against all claims and demands. n557

The phrase "that he will warrant specially the property hereby conveyed" implies a covenant that the grantor, and the grantor's heirs and personal representatives will warrant and defend the property for the grantee, and the grantee's heirs and personal representatives against any claims or demands from the grantor or any person claiming by, through, or under the grantor. n558

NEW MEXICO

1) IMPLIED COVENANTS

The phrase "bargained and sold," or words to that effect, imply the following covenants unless expressly disclaimed in the document:

- At the time of the conveyance, the grantor had an irrevocable possession in fee simple of the property;

- At the time of the conveyance, the property is free from encumbrances made by the grantor or anyone claiming under him.

These covenants may be acted upon as if they were expressly in the document. n559

The phrase "warranty covenants" acts as if it read "the grantor for himself, his heirs, executors, administrators and successors, covenants with the grantee, his heirs, executors and successors and assigns, that he is lawfully seized in fee simple of the granted premises; that they are free from all former and other grants, bargains, sales, taxes, assessments, and encumbrances of what kind and nature soever; that he has good right to sell and convey the same; and that he, and his heirs, executors, administrators, and successors shall warrant and defend the same to the grantee and his heirs, successors and assigns forever against the lawful claims and demands of all persons." n560

The phrase "special warranty covenants" acts as if it read "the grantor for himself, his heirs, executors, administrators, and successors, covenants with the grantee, his heirs, successors and assigns that the granted premises are free from all encumbrances [encumbrances] made by the grantor, and that he will, and his heirs, executors, administrators, and successors shall warrant and defend the same to the grantee, and his heirs, successors and assigns forever against the lawful claims and demands of all persons claiming by, through, or under the grantor, but against none other." n561

NEW YORK

1) IMPLIED COVENANTS

No covenants are implied in any conveyance of real property. n562

NORTH DAKOTA

1) IMPLIED COVENANTS

The word "grant" implies the following covenants on the grantor, unless expressly disclaimed in the document:

- Before the time of the conveyance, the grantor has not conveyed the same estate, nor any right, title, or interest to any person other than the grantee;

- At the time of the conveyance, the property is free from encumbrances made by the grantee or any person claiming under him.

These covenants may be acted upon as if they were expressly in the document. n563

2) ESTOPPEL BY DEED

If the grantor purports to sell the property without having legal title, and subsequently acquires legal title, the title passes to the grantee by operation of law. n564

3) RUNNABILITY OF COVENANTS

All covenants contained in a grant of an estate in real property, made for the direct benefit of the property or some part of it then in existence, run with the land. Such covenants include covenants of warranty; for quiet enjoyment; for further assurance; and for the payment of rent, taxes, or assessments upon the land on the part of the grantee. n565

OHIO

1) IMPLIED COVENANTS

The phrase "general warranty covenants" acts as if it read "the grantor covenants with the grantee, his heirs, assigns, and successors, that he is lawfully seized in fee simple of the granted premises; that they are free from all encumbrances; that he has good right to sell and convey the same, and that he does warrant and will defend the same to the grantee and is heirs, assigns, and successors, forever, against the lawful claims and demands of all persons." n566

OKLAHOMA

1) IMPLIED COVENANTS

A deed made in substantial compliance with the warranty deed form implies the following covenants:

- At the time of the conveyance, the grantor was legally seized of an indefeasible estate in fee simple;
- The grantor has good right and full power to convey the estate;
- The estate is clear of all encumbrances and liens;
- The grantor warrants grantee, and the grantee's heirs and assigns quiet and peaceable possession of the property;
- The grantor will defend the title against all persons who make lawful claims.

These covenants may be acted upon as if they were expressly in the document. n567

2) ESTOPPEL BY DEED

All rights of a grantor in property subsequently accruing, and conveyed by the deed, accrue to the grantee. n568

OREGON

1) IMPLIED COVENANTS

A deed following the warranty deed form implies the following covenants:

- At the time of delivery, the grantor is seized of the estate the grantor purports to convey.
- At the time of delivery, the property is free from encumbrances except those expressly reserved in the deed.

- The grantor will warrant and defend the title against all persons who lawfully claim it. n569

A deed following the special warranty deed form implies the same warranties as the warranty deed form, except that the covenant of freedom from encumbrances is limited to only those encumbrances made by the grantor, and the grantor will only warrant and defend the title against all who lawfully claim by, through, or under the grantor. n570

2) ESTOPPEL BY DEED

A warranty deed passes all after-acquired title. n571

A bargain and sale deed will imply no covenants on the grantor, but will pass all after-acquired title. n572

PENNSYLVANIA

1) IMPLIED COVENANTS

The words "grant" or "convey" implied a covenant on the grantor to the grantee, and the grantee's heirs and assigns that the grantor is seized of an indefeasible estate in fee simple; that the property is free from incumbrances done by the grantor; for quiet enjoyment from the grantor, and the grantor's heirs, and assigns. These covenants may be expressly disclaimed in the document. n573

The phrase that the grantor or grantors "will warrant generally the property hereby conveyed" acts as if the grantor or grantors covenanted that the grantors and their heirs and personal representatives or successors will forever warrant and defend the property against the lawful claims of all persons for the grantee, and the grantee's heirs, personal representatives and assigns. n574

The phrase that the grantor or grantors "will warrant specially the property hereby conveyed" acts as if the grantor or grantors covenanted that they and their heirs and personal representatives or successors will forever warrant and defend the property for the grantee, the grantor's heirs, personal representatives and assigns against the lawful claims of all persons by the grantor or grantors and all persons claiming by, through, or under the grantor or grantors. n575

RHODE ISLAND

1) IMPLIED COVENANTS

The phrase "with warranty covenants" acts as if it reads: "The grantor, for himself and for his heirs, executors, and administrators, covenants with the grantee and his heirs and assigns, that he is lawfully seised in fee simple of the granted premises; that he has good right, full power and lawful authority to sell and covey the same to the grantee and his heirs and assigns; that the grantee and his heirs and assigns shall at all times hereafter peaceable and quietly have and enjoy the granted premises; and that the grantor will, and his heirs, executors and administrators shall, warrant and defend the same to the grantee and his heirs and assigns forever against the lawful claims and demands of all persons," n576

No covenants or warranties will be implied from the use of the words "grant," grantor," or "grantee." n577

SOUTH DAKOTA

1) IMPLIED COVENANTS

The word "grant" in a conveyance implies the following covenants on the grantor and the grantor's heirs and assigns

unless expressly disclaimed in the document:

- Before the conveyance, the grantor had not conveyed the estate or any right, title, or interest in the property to anyone other than the grantee;

- At the time of the conveyance, the property is free from encumbrances made by the grantor or any person claiming under him.

These covenants may be acted upon as if they were expressly in the document. n578

The words "remise," "release," or "quitclaim" imply the following covenants on the grantor, unless specifically disclaimed in the document:

- At the time of the conveyance, the property is free from encumbrances made by the grantor or any person claiming under him.

- At the time of the conveyance, the property is free from encumbrances made by the grantor. n579

2) ESTOPPEL BY DEED

A quitclaim deed will not pass after-acquired title. n580

3) RUNNABILITY OF COVENANTS

The only covenants contained in grants of estates run that with the land are those made for the direct benefit of the property or some part of it then in existence; covenants of warranty for quiet enjoyment or for further assurance on the part of the grantor; covenants for payment of rent or taxes or assessments upon the land, on the part of the grantee; and all covenants incidental to the above covenants. n581

TEXAS

1) IMPLIED COVENANTS

The words "grant" or "convey" implies a covenant on the grantor and the grantor's heirs to the grantee and the grantee's heirs that prior to the conveyance, the grantor had not conveyed the estate or any interest in the estate to any person other than the grantor; and that at the time of the conveyance, the property was free of encumbrances. These covenants may be acted upon as if they were expressly in the document. n582

UTAH

1) IMPLIED COVENANTS

A deed substantially following the following form: "[name], grantor, of [residence of grantor], hereby conveys and warrants to [name], grantee, of [residence], for the sum of [number] dollars, the following described tract of land in [county name] County, Utah, to wit: [description of premises]. Witness the hand of said grantor this [date] day of [month], [year]," implies the following covenants on the grantor, and the grantor's heirs and personal representatives for the grantee, and the grantee's heirs and representatives:

- The grantor is lawfully seized of the premises;

- The grantor has good right to convey the premises;

- The grantor guarantees the grantee quiet possession of the premises and that the premises is free from all encumbrances;

- The grantor will warrant and defend forever against all lawful claims.

These covenants may be acted upon as if they were expressly in the document. n583

2) ESTOPPEL BY DEED

If the grantor purports to sell the property without having legal title, and subsequently acquires legal title, the title immediately passes to the grantee. The grantee's title is as valid as if the grantor had full title to the property at the time of the conveyance. n584

VIRGINIA

1) IMPLIED COVENANTS

The phrase "that he will warrant generally the property hereby conveyed" acts as if the grantor covenanted that the grantor, and the grantor's heirs and personal representatives will forever warrant and defend the property for the grantee, and the grantee's heirs, personal representatives and assigns against the claims and demands of all persons. n585

The phrase "that he will warrant specially the property hereby conveyed" acts as if the grantor covenanted that the grantor, and the grantor's heirs and personal representatives will forever warrant and defend the property for the grantee, and the grantee's heirs, personal representatives and assigns against the claims and demands of all persons claiming by, through, or under the grantor. n586

The phrase "with general warranty" acts as if it was a covenant by the grantor "that he will warrant generally the property hereby conveyed." n587

The phrase "with special warranty" acts as if it was a covenant by the grantor "that he will warrant specially the property hereby conveyed." n588

The phrase "with English covenants of title" or words of similar import will imply covenants of the right to convey, of quiet possession and freedom from encumbrances, for further assurances, and of no act to encumber. n589

2) ESTOPPEL BY DEED

When a deed purports to convey property which the grantor does not own at the time of the conveyance but subsequently acquires title, the deed has the same effect as if the title was vested in the grantor at the time of the conveyance. n590

WASHINGTON

1) ESTOPPEL BY DEED

If the grantor purports to sell the property without having legal title, and subsequently acquires legal title, the title passes to the grantee. n591

A quitclaim deed will not pass after-acquired title. n592

WEST VIRGINIA

1) IMPLIED COVENANTS

The phrase "that he will warrant generally the property hereby conveyed," or a covenant of like import, or the phrase "will warrant generally," acts as if the grantor had covenanted that the grantor, and the grantor's heirs and personal representatives will forever warrant and defend the same property unto the grantee, and the grantee's heirs and personal representatives and assigns, against the claims of all persons. n593

A covenant by a grantor "that he will warrant specially the property hereby conveyed," or a covenant of like import, or the use of the words "special warranty," has the same effect as if the grantor had covenanted that the grantor, and the grantor's heirs and personal representatives will forever warrant and defend the said property unto the grantee, and the grantee's heirs, personal representatives and assigns, against the claims and demands of the grantor and all persons claiming by, through, or under him. n594

2) ESTOPPEL BY DEED

When a conveyance purports to convey a greater interest than the grantor owns, it shall operate as an alienation of such right or interest in such real property as such person might lawfully convey. n595

3) RUNNABILITY OF COVENANTS

Each of the covenants used in a conveyance delivered after January 1, 1931, shall be considered a covenant running with the land, unless contrary intent is apparent from the conveyance. n596

WYOMING

1) IMPLIED COVENANTS

The substantial following of the warranty deed statutory form implies the following covenants on the grantor, and the grantor's heirs and personal representatives:

- At the time of the conveyance, the grantor was lawfully seized of an indefeasible estate in fee simple;
- The grantor had good right and power to convey the same;
- The property was free from encumbrances;
- The grantor warrants to the grantee, his heirs and assigns, the quiet and peaceful possession of the property;
- The grantor will defend the title against all persons who lawfully claim the property.

These covenants may be acted upon as if they were expressly in the document. n597

2) ESTOPPEL BY DEED

A quitclaim deed will not pass after-acquired title. n598

(n16)Footnote 412. *See* § 83.10(e), *infra.*

(n17)Footnote 413. *Seymour v. Evans, 608 So. 2d 1141 (Miss. 1992); Ives v. Real-Venture, Inc., 388 S.E.2d 573 (N.C. App. 1990), review denied, 388 S.E.2d 174 (N.C. 1990); Booker T. Washington Constr. & Design Co. v. Huntington Urban Renewal, 383 S.E.2d 41 (W. Va. 1989)* (construing W. Va. Code § 36-4-2); *Howard v. Clanton, 481 So. 2d 272 (Miss. 1985).*

(n18)Footnote 414. *Bosnick v. Hill, 731 S.W.2d 204 (Ark. 1987); Ethen v. Reed Masonry, Inc., 313 N.W.2d 19 (Minn. 1981).* Under this theory the presence of an adverse possessor constitutes a breach. *Double L Props., Inc. v. Crandall, 751 P.2d 1208 (Wash. App. 1988). See also* 21 C.J.S., *Deeds* § 43 nn.6-8.

(n19)Footnote 415. The "actual seizin" doctrine held that actual possession satisfies the "lawfully seized" requirement.

(n20)Footnote 416. *See* Cunningham et al., *supra* note 11, at § 6.21.

(n21)Footnote 417. Kent, *supra* note 2, at 459. Chancellor Kent's listing of the elements of due execution include delivery. *Id.* at 442. *Ethen v. Reed Masonry, Inc., 313 N.W.2d 19 (Minn. 1981)* (covenant of seisin breached "at time of execution of deed'). The modern authorities speak of the time of breach as the date of delivery. *See* 21 C.J.S., Covenants § 17 n.56. *See also Bosnick v. Hill, 731 S.W.2d 204 (Ark. 1987)* (covenant of seisin "broken as soon as made").

(n22)Footnote 418. *Riddle v. Nelson, 353 S.E.2d 866 (N.C. App. 1987); Brown v. Lober, 389 N.E.2d 1188 (Ill. 1979).*

(n23)Footnote 419. *Alexander v. Blackstone Realty Associates, 684 A.2d 60 (N.H. 1996)* (covenant of seisin not breached in transfer of leasehold); *Century 21 Deep South Props., Ltd. v. Corson, 612 So. 2d 359 (Miss. 1992); Riddle v. Nelson, 353 S.E.2d 866 (N.C. App. 1987)* (existence of public roadway). As we shall soon see, the definition of "encumbrance" is a bit problematic. If the jurisdiction construes the covenant of seisin as promise relating to possession, the breach issue changes as well. *See, e.g., Double L Props., Inc. v. Crandall, 751 P.2d 1208 (Wash. App. 1988)* (adverse possessor).

(n24)Footnote 420. *Ethen v. Reed Masonry, Inc., 313 N.W.2d 19 (Minn. 1981).*

(n25)Footnote 421. *Koelker v. Turnbull, 899 P.2d 972 (Idaho 1995)* (third parties holding ostensible claims to well and water on granted land of date of delivery). *Ralston v. Thacker, 932 S.W.2d 384 (Ky. App. 1996)* (breach of covenant of seisin in oil and gas lease; knowledge of grantor's defective title not a bar); *Ives v. Real-Venture, Inc., 388 S.E.2d 573 (N.C. App. 1990).*

(n26)Footnote 422. Kent, *supra* note 2, at 462. As to the current law on point, *see Woods v. Schmitt, 439 N.W.2d 855 (Iowa 1989); Sun Exploration & Prod. Co. v. Benton, 728 S.W.2d 35 (Tex. 1987); St. Paul Title Ins. Co. v. Owen, 452 So. 2d 482 (Ala. 1984).* So long as grantee is undisturbed in possession, the grantee is entitled only to nominal damages. *In re Health Science Prods., Inc., 183 B.R. 903 (N.D. Ala. 1995)* (dicta, applying Alabama law). *Schorsch v. Blader, 209 Wis.2d 401, 563 N.W.2d 538 (Wis. App. 1997)* (Wisconsin statute (706.10(5)), requiring rules of contract law to apply to warranties of title, did not change common law rule regarding measure of damages).

(n27)Footnote 423. *Wilson v. Downtown Orange Beach, Inc., 641 So. 2d 282 (Ala. App. 1993)* (apparent shortage in land conveyed; court appears to favor benefit of the bargain theory of damages as opposed to restitutionary theory); *Ralston v. Thacker, 932 S.W.2d 384 (Ky. App. 1996)* (pro tanto recovery); *Finucane v. Prichard, 811 S.W.2d 348 (Ky. App. 1991); Palazzo v. Atha, 242 So. 2d 417 (Miss. 1970).*

(n28)Footnote 424. *Maxwell v. Redd, 496 P.2d 1320 (Kan. 1972).*

(n29)Footnote 425. *Woods v. Schmitt, 439 N.W.2d 855 (Iowa 1989); but see Koelker v. Turnbull, 899 P.2d 972 (Idaho 1995)* (grantees successfully defended title; court nonetheless considered covenant breached, awarding attorney fees as "damages").

(n30)Footnote 426. *Barber v. Peringer, 877 P.2d 223 (Wash. App. 1994)* (unsuccessful attempt to invoke statutory warranty deed statute as basis for recovery of attorney fees incurred in direct suit against grantor); *Keilbach v. McCullough, 669 N.E.2d 1053 (Ind. App. 1996)* (grantor not liable for grantee's attorney fees when grantee successfully defended title); *Rauscher v. Albert, 495 N.E.2d 149 (Ill. App. 1986); Bridges v. Heimburger, 360 So. 2d 929 (Miss. 1978).*

(n31)Footnote 427. *Greenlee v. Mitchell, 607 So. 2d 97 (Miss. 1992); Howard v. Clanton, 481 So. 2d 272 (Miss. 1985).*

(n32)Footnote 428. *Doubl L. Props., Inc. v. Crandall, 751 P.2d 1208 (Wash. App. 1988); Bosnick v. Hill, 731*

S.W.2d 204 (Ark. 1987).

(n33)Footnote 429. *Seymour v. Evans, 608 So. 2d 1141 (Miss. 1992); Walker & Withrow, Inc. v. Haley, 653 P.2d 191 (Okla. 1982); Colonial Capital Corp. v. Smith, 367 So. 2d 490 (Ala. Civ. App. 1979).*

(n34)Footnote 430. *Ihde v. Kempkes, 422 N.W.2d 788 (Neb. 1988).* The underlying theory is that a person may have title, but not have the right to convey. Similarly, the fiduciary grantor may lack authority to execute a deed containing full warranties of title. *Moss v. Twiggs, 397 S.E.2d 707 (Ga. 1990).* In drafting a distinction is made between a "covenant for seisin by executors" and a "covenant by executors." West's Legal Forms, § § 30.15, 30.32 (2d ed. 1986).

(n35)Footnote 431. *Ethen v. Reed Masonry, Inc., 313 N.W.2d 19 (Minn. 1981).*

(n36)Footnote 432. *Howard v. Clanton, 481 So. 2d 272 (Miss. 1985).*

(n37)Footnote 433. The grantor may also limit liability on the covenant by creating a "special covenant against encumbrances" as opposed to a "general covenant against encumbrances." This distinction is most prominent in Maryland law due to two statutes in the Md. Real Prop. Code§ § 2-110 and -111. As to the status of the special covenant against encumbrances under Maryland law, *see Magraw v. Dillow, 671 A.2d 485 (Md. 1996)* (right of redemption created by tax sale was encumbrance).

A cotenant executing a warranty of deed may limit the liability of the granting cotenant by "words of severance" in the language of the deed. *See* Windell v. Miller, 687 N.E.2d (Ind. App. 1997) (one cotenant not liable for encumbrance of other cotenant due to "words of severance" contained in deed).

Hancock v. Planned Dev. Corp., 791 P.2d 183 (Utah 1990); Pruitt v. Meadows, 393 So. 2d 986 (Ala. 1981). See also Decatur v. Barnett, 398 S.E.2d 706 (Ga. App. 1990) ("subject to" language not acceptance of zoning violation), *rev'd, Barnett v. Decatur, 403 S.E.2d 46 (Ga. 1991).*

(n38)Footnote 434. *See* § 82.09(c)(2), *supra.*

(n39)Footnote 435. The concept of "encumbrance" is significant as well in definition of a marketable title, inasmuch as an encumbrance is the type of defect that might render a title unmarketable.

(n40)Footnote 436. *S. Utsunomiya Enters., Inc. v. Moomuku Country Club, 866 P.2d 951 (Haw. 1994); Analytical Measurements, Inc. v. Keuffel & Esser Co., 843 F. Supp. 920 (D.N.J. 1993)* (encumbrance generally means "an infringement on the title"); *Frimberger v. Anzellotti, 594 A.2d 1029 (Conn. App. 1991); Proffitt v. Isley, 683 S.W.2d 243 (Ark. App. 1985); Monti v. Tangora, 425 N.E.2d 597 (Ill. App. 1981).*

(n41)Footnote 437. For an extensive discussion of the meaning of the term "encumbrance," *see Magraw v. Dillow, 671 A.2d 485 (Md. 1996). See also: Webb v. Interstate Land Corp., 920 P.2d 1187 (Utah 1996)* (more than "mere contractual interest" required in order to qualify as an "encumbrance"); *Commonwealth Land Title Ins. Co. v. Stephenson, 399 S.E.2d 380 (N.C. App. 1991)* (encumbrance is "claim, lien, charge, or liability attached to and binding real property"); *Feit v. Donahue, 826 P.2d 407 (Colo. App. 1992)* (encumbrance includes third party interest which "interferes with free enjoyment" of land conveyed).

(n42)Footnote 438. *Hughes v. Young, 444 S.E.2d 248 (N.C. App. 1994)* (lien on a mobile home); *S. Utsunomiya Enters., Inc. v. Moomuku Country Club, 866 P.2d 951 (Haw. 1994)* (lis pendens an encumbrance; "equitable lien" until judicially recognized, not an encumbrance); *Margate Inv. Corp. v. Lupowitz, 638 So. 2d 143 (Fla. 1994)* (1980 real estate taxes, not assessed until 1985, did not breach 1981 covenant); *Century 21 Deep South Props., Ltd. v. Corson, 612 So. 2d 359 (Miss. 1992); Northside Title & Abstract Co. v. Simmons, 409 S.E.2d 885 (Ga. App. 1991)* (tax lien); *Northeast Petr. Corp. v. State, 466 A.2d 1164 (Vt. 1983)* (judgment lien a breach of "warranty"); *Weaks v. Gress, 474 S.W.2d 424 (Tenn. 1971)* (judgment lien). *See also Inland Real Estate Corp. v. Oak Park Trust & Sav. Bank, 469 N.E.2d*

204 (Ill. App. 1983) (claim for back taxes a breach). *Compare Colonial Capital Corp. v. Smith, 367 So. 2d 490 (Ala. App. 1979)* (paid mortgage, unsatisfied of record, not a breach).

(n43)Footnote 439. *Tammac Corp. v. Miller-Meehan, 643 A.2d 370 (Me. 1994)* (prior mortgage; knowledge of encumbrance no defense); *Seigle v. Jasper, 867 S.W.2d 476 (Ky. 1993)* (easement an encumbrance); *Stephenson v. First Missouri Corp., 861 S.W.2d 651 (Mo. 1993); Hughes v. Young, 444 S.E.2d 248 (N.C. App. 1994)* (knowledge of lien no defense). *Compare Roberts v. Malu Constr., Inc., 458 S.E.2d 146 (Ga. App. 1995)* (existence of drainage easement not considered breach; present nature of covenant apparently disregarded); *Bergstrom v. Moore, 677 P.2d 1123 (Utah 1984).* In the case of open and obvious prescriptive easements, some courts would find the covenant has not been violated. *See, e.g., Marathon Bldrs., Inc. v. Polinger, 283 A.2d 617 (Md. 1971); Tabet Lumber Co. v. Golightly, 457 P.2d 374 (N.M. 1969); Merchandising Corp. v. Marine Nat'l Exch. Bank, 106 N.W.2d 317 (Wis. 1961).* In other contexts, the courts have ruled that a grantee's knowledge of the encumbrance is not a defense. *See Baldin v. Dube, 751 P.2d 388 (Wyo. 1988). Lockhart v. Phenix City Inv. Co., 488 So. 2d 1353 (Ala. 1986). See also Juhan v. Cozart, 403 S.E.2d 589 (N.C. App. 1991)* (mere existence of sewer line, not established as easement, no violation).

(n44)Footnote 440. *See generally Jones v. Grow Inv. & Mtg. Co., 358 P.2d 909 (Utah 1961).* As to the visible and known easement exception, *see McKnight v. Cagle, 331 S.E.2d 707 (N.C. App. 1985); Hawks v. Brindle, 275 S.E.2d 277 (N.C. 1981)* (knowledge of grantee or obvious and notorious nature of the encumbrance results in no breach). This view is not always followed. *McClaskey v. Bumb & Muller Farms, Inc., 547 P.2d 302 (Ind. App. 1989)* (public highway easement a violation when deed language contained no exception for it); *Smith v. Tolbert, 438 S.E.2d 655 (Ga. App. 1993)* (purchasers aware of alley which was a public easement).

(n45)Footnote 441. Although the existence of publicly created restrictions does not constitute an encumbrance, the existence of a restrictive covenant may be deemed an encumbrance. *See Blissett v. Riley, 667 So. 2d 1335 (Ala. 1995)* (actual or constructive knowledge by grantee of restriction irrelevant); *Seymour v. Evans, 608 So. 2d 1141 (Miss. 1992).*

(n46)Footnote 442. *Barnett v. Decatur, 403 S.E.2d 46 (Ga. 1991).*

(n47)Footnote 443. *Seymour v. Evans, 608 So. 2d 1141 (Miss. 1992). Compare Hunter, Inc. v. City of Burlington, 670 A.2d 836 (Vt. 1995)* wherein the court held that a grantor who failed to obtain state subdivision approval breached the covenant against encumbrances.

(n48)Footnote 444. *Monti v. Tangora, 425 N.E.2d 597 (Ill. App. 1981).*

(n49)Footnote 445. *Frimberger v. Anzellotti, 594 A.2d 1029 (Conn. App. 1991)* ("latent" nature of violation stressed); *Fahmie v. Wulster, 408 A.2d 789 (N.J. 1979)* (culvert constructed by grantor in violation of requirement of governmental agency).

(n50)Footnote 446. *Analytical Measurements, Inc. v. Keuffel & Esser Co., 843 F. Supp. 920 (D.N.J. 1993); Cameron v. Martin Marietta Corp., 729 F. Supp. 1529 (E.D.N.C. 1990); United States v. Allied Chem. Corp., 587 F. Supp. 1205 (N.D. Cal. 1984).*

(n51)Footnote 447. *Bianchi v. Lorenz, 701 A.2d 1037 (Vt. 1997)* (certificate of occupancy lacking due to inadequate sewer system; encumbrance held to exist "at least when the seller can determine from municipal records" that violation of zoning ordinance exists); *Feit v. Donahue, 826 P.2d 407 (Colo. App. 1992); Wilcox v. Pioneer Homes, Inc., 254 S.E.2d 214 (N.C. App. 1979); Brunke v. Pharo, 89 N.W.2d 221 (Wis. 1958). See also First Am. Fed. Sav. & Loan Ass'n v. Royall, 334 S.E.2d 792 (N.C. App. 1985)* (failure to install water line, as promised to city council, a violation).

(n52)Footnote 448. *Bryant v. Moritz, 776 P.2d 1299 (Or. App. 1989); Campbell v. Karb, 740 P.2d 750 (Or. 1987).*

(n53)Footnote 449. *Polizos v. Skoro, 877 P.2d 662 (Or. App. 1994)* (adjacent street right-of-way); *Commonwealth*

Land Title Ins. Co. v. Stephenson, 399 S.E.2d 380 (N.C. App. 1991); Magun v. Bombaci, 492 A.2d 235 (Conn. Supp. 1985). Compare Eithen v. Reed Masonry, Inc., 313 N.W.2d 19 (Minn. 1981) ("appurtenance" concept basis for breach of covenant of seisin).

(n54)Footnote 450. *S. Utsunomiya Enters., Inc. v. Moomuku Country Club, 866 P.2d 951 (Haw. 1994); Blankenship v. Stovall, 862 S.W.2d 333 (Ky. App. 1993); Omega Chem. Co., Inc. v. Rogers, 524 N.W.2d 330 (Neb. 1994); Tammac Corp. v. Miller-Meehan, 643 A.2d 370 (Me. 1994). But see HSL Linda Gardens Properties, Ltd. v. Freeman, 859 P.2d 1339 (Ariz. App. 1993)* (statute of limitations does not begin to run until injury occurs, not upon breach). By statute in some states the covenant runs with the land, but in Vermont this result obtains by judicial decision. *See Hunter, Inc. v. City of Burlington, 670 A.2d 836 (Vt. 1995).* The rule in Maryland is that the covenant does not run "unless the parties have contracted otherwise." *Magraw v. Dillow, 671 A.2d 485 (Md. 1996); Frimberger v. Anzellotti, 594 A.2d 1029 (Conn. App. 1991); Lockhart v. Phenix City Inv. Co., 488 So. 2d 1353 (Ala. 1986).*

(n55)Footnote 451. *Clark v. Cypress Shores Dev. Co., 516 So. 2d 622 (Ala. 1987)* (depreciation in value of land due to encumbrance proper measure of damages; no recovery for improvements); *Yonkers City Post No. 1666, VFW v. Josanth Realty Corp., 494 N.E.2d 452 (N.Y. 1986).*

(n56)Footnote 452. *Campbell v. Karb, 740 P.2d 750 (Or. 1987)* (must be reasonable in amount and not exceed consideration paid).

(n57)Footnote 453. *Ticor Title Ins. Co. v. Graham, 576 N.E.2d 1332 (Ind. App. 1991); Forrer v. Sather, 595 P.2d 1306 (Utah 1979).*

(n58)Footnote 454. *In re Health Science Prods., Inc., 183 B.R. 903 (Bnkr. N.D. Ala. 1995)* (dicta, applying Alabama law); *Century 21 Deep South Props., Ltd. v. Corson, 612 So. 2d 359 (Miss. 1992); Proffitt v. Isley, 683 S.W.2d 243 (Ark. App. 1985); Fechtner v. Lake County Sav. & Loan Ass'n, 337 N.E.2d 193 (Ill. App. 1975).*

(n59)Footnote 455. *Stephenson v. First Missouri Corp., 861 S.W.2d 651 (Mo. App. 1993)* (attorney fees allowed for collateral litigation but not in direct suit against grantor). *But see S. Utsunomiya Enters., Inc. v. Moomuku Country Club, 879 P.2d 501 (Haw. 1994)* (action for breach of covenant against encumbrances is "in the nature of assumpsit," allowing for recovery of attorney fees under Haw. Rev. Stat. § 607-14). *Compare Hunter, Inc. v. City of Burlington, 670 A.2d 836 (Vt. 1995)* wherein the court held that a grantor who failed to obtain state subdivision approval breached the covenant against encumbrances and was liable for "consequential damages for attorney's fees." *Century 21 Deep South Props. Ltd. v. Corson, 612 So. 2d 359 (Miss. 1992); Campbell v. Karb, 740 P.2d 750 (Or. 1987); Forrer v. Sather, 595 P.2d 1306 (Utah 1979).*

(n60)Footnote 456. *See* § 83.10(e), *infra.*

(n61)Footnote 457. Another example of this phenomenon is the use of the phrase "covenant of general warranty" as including all of the usual covenants. *O'Brien v. Village Land Co., 794 P.2d 246 (Colo. 1990).*

(n62)Footnote 458. As an example, a court may use the term "breach of warranty" as method of indicating that a covenant against encumbrances was breached. *See Northeast Petr. Corp. v. State, 466 A.2d 1164 (Vt. 1983).*

(n63)Footnote 459. *Black, supra* note 5, at 1589.

(n64)Footnote 460. *Id.* at 1251.

(n65)Footnote 461. *See* subsection (e), *infra*.

(n66)Footnote 462. Kent, *supra* note 2, at 459.

(n67)Footnote 463. *Bloom v. Hendricks, 804 P.2d 1069 (N.M. 1991)* (typical warranty covenant provides that

grantor will warrant and defend the title conveyed "against any lawful claim that may be asserted against it in the future"); *Booker T. Washington Constr. & Design Co. v. Urban Renewal Auth., 383 S.E.2d 41 (W. Va. 1989)* (general warranty covenant is covenant "to warrant and defend the title against the claims of all persons whatsoever").

(n68)Footnote 464. *Black, supra* note 5, at 365.

(n69)Footnote 465. Black's Law Dictionary at 1398 (6th ed. 1990). For acknowledgment of the distinction between a general and special warranty of title, *see Booker T. Washington Const. & Design Co. v. Huntington Urban Renewal Auth., 383 S.E.2d 41 (W. Va. 1989).*

(n70)Footnote 466. See the definition of "special warranty deed" in Black's Law Dictionary. Black, *supra* note 5, at 1398. In this work there is no definition for "general warranty deed"; the definition of "warranty deed" is a bit vague but seems to indicate that a covenant of general warranty is included in a warranty deed. *Id.* at 1589.

(n71)Footnote 467. *Colorado Land & Resources, Inc. v. Credithrift of Am. Inc., 778 P.2d 320 (Colo. App. 1989); Harris v. Sklarew, 166 So. 2d 164 (Fla. App. 1964); Central Life Ins. Soc. v. Impelmans, 126 P.2d 757 (Wash. 2d 1942).* The manner in which courts construe the "implied covenants statutes in a particular jurisdiction needs to be checked very carefully." By way of example, the Alabama Supreme Court has construed its Implied Covenant Statute (Ala. Code § 35-4-71) as creating warranties limited to "acts of the grantor and those claiming under him." In short, the covenants implied are all "special" warranties. The court does not use the term "special warranty" in describing these warranties in a recent opinion. *St. Paul Title Ins. Co. v. Owen, 452 So. 2d 482 (Ala. 1984).* At the other extreme is a court's willingness to construe special warranty language as a general warranty. *See Galentine v. First Family Fin. Serv., 557 So. 2d 1164 (La. App. 1990).*

(n72)Footnote 468. *See* § 83.09(c)(2), *supra*.

(n73)Footnote 469. *Northside Title & Abstract Co. v. Simmons, 409 S.E.2d 885 (Ga. App. 1991).*

(n74)Footnote 470. Kent, *supra* note 2, at 459.

(n75)Footnote 471. *Washington Const. v. Urban Renewal Auth., 383 S.E.2d 41 (W. Va. 1989); St. Paul Title Ins. Co. v. Owen, 452 So. 2d 482 (Ala. 1984); Brown v. Lober, 389 N.E.2d 1188 (Ill. 1979).* The only apparent exception is when there is, at the time of conveyance, paramount title in one who is in possession. *Booker T. Washington Constr. & Design Co. v. Urban Renewal Auth., 383 S.E.2d 41, 44 n.8 (W. Va. 1989). See also Foley v. Smith, 539 P.2d 874 (Wash. App. 1975)* (breach occurs if eviction occurs under paramount title existing at time of conveyance).

(n76)Footnote 472. *Stevenson v. Ecklund, 865 P.2d 296 (Mont. 1993); Omega Chem. Co., Inc. v. Rogers, 524 N.W.2d 330 (Neb. 1994)* (citing Neb. Rev. Stat. § 76-207); *Roberts v. Malu Constr., Inc., 217 Ga. App. 551, 458 S.E.2d 146 (Ga. App. 1995)* (unrecorded drainage easement; no loss of possession shown); *Upton v. Griffitts, 831 P.2d 504 (Colo. App. 1992); Thompson v. Flack-Haney Timber Co., 567 So. 2d 345 (Ala. App. 1990); Shortt v. Chandler, 522 N.Y.S.2d 334 (1987); Self v. Petty, 469 So. 2d 568 (Ala. 1985).*

(n77)Footnote 473. *See* Rawle, *supra* note 404, at 251-311.

(n78)Footnote 474. *Booker T. Washington Constr. & Design Co. v. Urban Renewal Auth., 383 S.E.2d 41 (W. Va. 1989); King v. Anderson, 618 S.W.2d 478 (Tenn. App. 1980).* A state may have a statute which goes to the issue of breach and eviction. See the statutory listing in subsection (e), *infra.* As an example of a court's construction of such type of statute, *see Upton v. Griffitts, 831 P.2d 504 (Colo. App. 1992).*

(n79)Footnote 475. *White v. Long, 612 N.Y.S.2d 482 (1994)* (submerged leaking oil tank not a constructive eviction); *Omega Chem. Co., Inc. v. Rogers, 524 N.W.2d 330 (Neb. 1994)* (no hostile assertion by paramount title holder); *Stevenson v. Ecklund, 865 P.2d 296 (Mont. 1993)* (adjoining landowner dispute; no eviction shown); *Hull v.*

Federal Land Bank, 353 A.2d 577 (Vt. 1976). A recent example of the second category of case is *Upton v. Griffitts, 831 P.2d 504 (Colo. App. 1992);* an example of the fourth category of case is *Thompson v. Flack-Haney Timber Co., 567 So. 2d 345 (Ala. App. 1990).* The third category pertaining to surrender of possession after "hostile assertion" would include a final judgment or decree adverse to the covenantee's right of possession. *See St. Paul Title Ins. Co. v. Owen, 452 So. 2d 482 (Ala. 1984); Foley v. Smith, 539 P.2d 874 (Wash. App. 1975)* (no eviction or its equivalent where title defect was remedied). The presence of an outstanding title in a third party that could be asserted in a judicial proceeding is sometimes stated to be a constructive eviction. *See St. Paul Title Ins. Co. v. Owen, 452 So. 2d 482 (Ala. 1984); King v. Anderson, 618 S.W.2d 478 (Tenn. App. 1980)* (where title is in government, constructive eviction applicable). The "surrender of possession" after assertion of a hostile claim is exemplified by a settlement with the person asserting the hostile claim. Two recent decisions indicate that such a settlement, if entered into in good faith, is tantamount to an eviction (or as some courts, put it, an "ejectment"), thus giving rise to a breach of warranty to defend the title. *See Mastro v. Kumakichi Corp., 951 P.2d 817 (Wash. App. 1998); Garcia v. Herrera, 959 P.2d 533 (N.M. App. 1998).*

Compare Bridges v. Heimburger, 360 So. 2d 929 (Miss. 1978). The problematic nature of this theory in discussed in *Brown v. Lober, 389 N.E.2d 1188 (Ill. 1979)* (covenant of seisin applies where title is defective and no interference with possession).

According to another court, constructive eviction occurs if (1) the covenantee surrenders possession voluntarily or involuntarily to the holder of the paramount title; (2) avoids dispossession by buying that title; or (3) is unable to take possession. *Spiegle v. Seaman, 390 A.2d 639 (N.J. Super. 1978).*

(n80)Footnote 476. *See Pagosa Springs Inv. v. Sivers, 886 P.2d 307 (Colo. App. 1994)* (Colo. Rev. Stat. § 38-30-122 did not delay running of statute of limitations); *Upton v. Griffiths, 831 P.2d 504 (Colo. App. 1992)* (knowledge by landowners of hostile possession of third party started running of statute); *Hull v. Federal Land Bank, 353 A.2d 577 (Vt. 1976)* (neither grantor or grantee in actual possession at time of conveyance; statute began to run from date of deed). *See also St. Paul Title Ins. Co. v. Owen, 452 So. 2d 482 (Ala. 1984)* (date of trial court ruling adjudicating rights date of breach); *Foley v. Smith, 539 P.2d 874 (Wash. App. 1975)* (where rights under covenant are subject of pending litigation, statute does not begin to run until final decree against covenantee entered).

(n81)Footnote 477. As to damages issue when the remote grantee is suing, see subsection (d), *infra*.

(n82)Footnote 478. *St. Paul Title Ins. Co. v. Owen, 452 So. 2d 482 (Ala. 1984); Booker T. Washington Constr. & Design Co. v. Urban Renewal Auth., 383 S.E.2d 41 (W. Va. 1989); King v. Anderson, 618 S.W.2d 478 (Tenn. App. 1980).* This matter may be governed by state statute; *see* subsection (e) *infra.* A transfer by gift may result in no damages. *See Tarrant v. Schultz, 441 S.W.2d 868 (Tex. App. 1969).* The same result may obtain even if a state has a statute pertaining to damages. *See Smith v. Smith, 252 S.E.2d 484 (Ga. 1979)* (statute not applicable to ousted donee).

(n83)Footnote 479. 21 C.J.S. *Covenants*, § 58 n.35. The explanation for this, according to Kent, was that the value of the land "consisted chiefly in the improvements," and thus the covenant "would not have been of much benefit," if the damages were limited to the purchase price. Kent, *supra* n.2, at 463. Under the majority rule, improvements are not recoverable. *King v. Anderson, 618 S.W.2d 478 (Tenn. App. 1980).*

(n84)Footnote 480. *Rieddle v. Buckner, 629 N.E.2d 860 (Ind. App. 1994); Rauscher v. Albert, 495 N.E.2d 149 (Ill. App. 1986); Booker T. Washington Constr. & Design Co. v. Urban Renewal Auth., 383 S.E.2d 41 (W. Va. 1989).*

(n85)Footnote 481. *Cary v. Guirgossian, 508 S.E.2d 403 (Ga. 1998)* (attorney fees not awarded under statute relating to breach of warranty or under statute awarding fees in case of "bad faith"); *Omega Chem. Co., Inc. v. Rogers, 524 N.W.2d 330 (Neb. 1994); Stevenson v. Ecklund, 865 P.2d 296 (Mont. 1993); Seratt v. Liberty State Bank, 816 P.2d 584 (Okla. App. 1991); McDonald v. Delhi Sav. Bank, 440 N.W.2d 839 (Iowa 1989); Chaney v. Haeder, 752 P.2d 854 (Or. App. 1988).*

(n86)Footnote 482. *See St. Paul Title Ins. Co. v. Owen, 452 So. 2d 482 (Ala. 1984)* (grantee's suit must be with "the claimant of an outstanding superior right"); *Jablonski v. Buckeye Dev. Corp., 597 So. 2d 905 (Fla. App. 1992)* ("successful defense" by grantee on claim of voidable title; grantor still held liable for costs). *Jablonski* raises the issue of whether a "voidable title" (*see* § 82.12, *infra*) is a defective title in the context of covenants for title. This issue has arisen infrequently.

See also Mastro v. Kumakichi Corp., 951 P.2d 817 (Wash. App. 1998); Garcia v. Herrera, 959 P.2d 533 (N.M. App. 1998) (covenantee settled lawsuits with third parties; covenant of warranty breached).

(n87)Footnote 483. *Bloom v. Hendricks, 804 P.2d 1069 (N.M. 1991).*

(n88)Footnote 484. *McDonald v. Delhi Sav. Bank, 440 N.W.2d 839 (Iowa 1989).*

(n89)Footnote 485. *First Fid. Corp. v. Blanco, 276 N.W.2d 30 (Minn. 1979).*

(n90)Footnote 486. *See Thompson, supra* note 94, § 3203. *See also Mastro v. Kumakichi Corp., 951 P.2d 817 (Wash. App. 1998)* ("tender of defense" discussed).

(n91)Footnote 487. *Bloom v. Hendricks, 804 P.2d 1069 (N.M. 1991).*

(n92)Footnote 488. *Id.* at 255, 804 P.2d at 1074-75. The Bloom case arose out of a boundary line dispute, a perennial subject of litigation and a true "title" problem. Many grantors would have actual, if not constructive, knowledge of title defects of this type. If the "voidable" title problem is considered a title defect (*see* Jablonski, n.481, *supra*), the extent of the grantor's knowledge should be relevant since a grantor may have no way of knowing of this type of defect in a prior conveyance.

(n93)Footnote 489. Kent, *supra* note 2, at 459.

(n94)Footnote 490. *Brown v. Lober, 389 N.E.2d 1188 (Ill. 1979); Spiegle v. Seaman, 390 A.2d 639 (N.J. Super. 1978), Hull v. Federal Land Bank, 353 A.2d 577 (Vt. 1976).*

(n95)Footnote 491. One court has referred to the covenant of warranty as "the principal covenant of a deed," and then goes on to state that the covenant of warranty and covenant for quiet enjoyment "are substantially the same." *Foley v. Smith, 539 P.2d 874 (Wash. App. 1975).*

(n96)Footnote 492. *Knieper v. United States, 38 Fed. Cl. 128 (1997)* (covenant of quiet enjoyment does not cover physical condition of the property); *Wilder v. Wilhite, 376 P.2d 797 (Kan. 1962).*

(n97)Footnote 493. A recent example is *Callon Institutional Royalty Investors I. v. Dauphin Island Prop. Owners Ass'n, 569 So. 2d 343 (1990)* (grantor's action in asserting paramount title against assignee breached covenant of quiet enjoyment).

(n98)Footnote 494. *Martin v. Floyd, 317 S.E.2d 133 (S.C. App. 1984); Spiegle v. Seaman, 390 A.2d 639 (N.J. App. 1978).*

(n99)Footnote 495. Kent, *supra* note 2, at 471.

(n100)Footnote 496. Kent, *supra* note 2, at 459. The general topic of "real covenants," covenants running with the land, is considered in chapter 61 of this treatise.

(n101)Footnote 497. *See* 21 C.J.S., *Deeds* § 29; A.L.P., *supra* note 94, § § 12.124, 12.131.

(n102)Footnote 498. *See* cases cited in A.L.P.,*supra* note 94, § § 12.127 n.8, 12.128 nn.3-4; 12.131.16.

(n103)Footnote 499. *See* state-by-state listing in subsection (e) *infra*, which includes references to state statutes pertaining to running of covenants.

(n104)Footnote 500. *American Law of Property, supra* note 94, § 12.124 n.39.

(n105)Footnote 501. *Deason v. Findley, 40 So. 220 (Ala. 1906).* The "connection" is usually established by showing that the "chain of title" from the original covenantee to the plaintiff. The court in *Sandler v. New Jersey Realty Title Ins. Co., 178 A.2d 1, 8 (N.J. 1962)* stated that a real covenant is "operative on behalf of a grantee and each successive transferee thereafter." The requirement of privity between the grantor and grantee, so-called "horizontal privity," is not required under the modern day decisions and statutes. The classic case rejecting the "horizontal privity" requirement is *Wead v. Larkin, 54 Ill. 489 (1887).* As an example of a statute rejecting the "horizontal privity" requirement, *see* Neb. Rev. Stat. § 76-208.

(n106)Footnote 502. *St. Paul Title Ins. Co. v. Owen, 452 So. 2d 482 (Ala. 1984); Sandler v. New Jersey Realty Title Ins. Co., 178 A.2d 1 (N.J. 1962).*

(n107)Footnote 503. *Robertson v. Webster, 52 S.E.2d 511 (Ga. App. 1949).* By contrast, in a situation where the present covenants do not run, the grantee may sue only his immediate grantor on a breach of a present covenant. *Proffitt v. Isley, 683 S.W.2d 243 (Ark. App. 1985).*

(n108)Footnote 504. *Bernklau v. Stevens, 371 P.2d 765 (Colo. 1962).*

(n109)Footnote 505. *Compare Taylor v. Wallace, 37 P. 963 (Colo. 1894)* (remote grantee limited by amount paid to immediate grantor) with *Brooks v. Black, 8 So. 332 (Miss. 1890)* (remote grantee not so limited; may sue for amount of consideration received by remote grantor). The Brooks holding on measure of damages still obtains in *Mississippi. Bridges v. Heimburger, 360 So. 2d 929 (Miss. 1978).* The Brooks rule and its relationship to recovery of attorney fees, is discussed in *Howard v. Clanton, 481 So. 2d 272 (Miss. 1985).*

(n110)Footnote 506. Ala. Code § 35-4-271.

(n111)Footnote 507. *St. Paul Title Ins. Co. v. Owen, 452 So. 2d 482 (Ala. 1984).* The court does not use the term "special warranty," but the limitation the court reads into the statute (only those claiming by, through, or under the grantor) makes the deed a "special warranty deed" as that term is ordinarily used. *See* discussion at n.466, *supra*.

CHAPTER 82 TRANSFERS BY DEED

9-82 Thompson on Real Property, Thomas Editions § 82.11

AUTHOR: Professor Ronald R. Volkmer School of Law Creighton University

§ 82.11 Estoppel by Deed (After-acquired Title).

[Go To Supp]

Estoppel, as applied to real property, covers a variety of legal doctrines quite disparate in application and effect. At common law there were said to be three varieties of estoppel: (1) by deed, (2) by matter of record, and (3) by matter *in pais*. n599 In the present discussion the focus will be on the topic of "estoppel by deed" or, more accurately stated, one aspect of estoppel by deed.

COMPUTER-ASSISTED RESEARCH

LEXIS: (types or varieties or kinds) w/5 estoppel w/20 *in pais*

The various definitions of estoppel by deed are not uniform. n600 The broader definition of this term is that it is a bar precluding one party to a deed, and those in privity with that party, from asserting against the other party, and those in privity with that party, any right or title in derogation of the deed, or from denying the truth or any material facts asserted in the deed. n601 The latter half of this definition, which precludes both parties from denying matters asserted in the deed, is not restricted to matters of title. n602 What is commonly referred to as the estoppel by deed doctrine is, more precisely, the doctrine of after-acquired title, a form of estoppel by deed. n603 Although many courts use the term "doctrine of after-acquired title" or similar language, the term "estoppel by deed" continues to be used by some courts in describing the after-acquired title doctrine. In the current discussion, the term "after-acquired title doctrine" will be employed.

The after-acquired title doctrine states that title acquired by a grantor, who previously attempted to convey title to land which the grantor did not in fact own, inures automatically to the benefit of prior grantees. n604 Some cases, in defining this doctrine, add that the grantor's attempted conveyance must have been accompanied by a warranty of title. n605 This factor, as we will shall see, is one of the major issues in cases involving the doctrine.

There is widespread acceptance of the doctrine by the courts; in some jurisdictions there are statutes either codifying the doctrine or mentioning the doctrine. n606

COMPUTER-ASSISTED RESEARCH

LEXIS: title w/10 property w/10 afterwards acquired title

Courts have articulated various rationales and policy reasons in their statements of the basis for the doctrine: (1) the enforcement of the grantor's obligation to deliver a good title, n607 (2) to prevent the grantor from perpetrating a fraud on the grantee, n608 (3) to give the grantee all that was bargained for, and n609 (4) to protect an unwitting grantee who relies upon the good title of the grantor. n610

As mentioned previously, many courts refer to the doctrine of after-acquired title as "estoppel by deed." Not surprisingly, courts that refer to the after-acquired title doctrine as "estoppel by deed" explain the doctrine in a bit different terms. For these courts, the doctrine of estoppel by deed/after-acquired title is based upon the grantor's warranty of title in the deed. n611 Having warranted title, the grantor is later estopped to deny that an estate passed to the grantee. The doctrine, so explained, now has another rationale: avoiding circuity of actions. n612 The theory underlying the doctrine is of extreme practical importance, since it provides a basis for determining whether the doctrine applies in a particular case.

While courts generally agree on a definition of the doctrine of after-acquired title, there are still numerous legal issues that arise in attempting to apply the doctrine to the facts of a particular case. These disputes go to the details of the doctrine and, to some extent, the very basis for the doctrine. In some instances, the facts present a case where the doctrine of after-acquired title affects rights of third parties. This type of case presents a different analysis regarding the applicability of the doctrine.

The doctrine of after-acquired title has been found applicable in cases involving a deed of trust, n613 a mortgage, n614 mineral interests, n615 and an expectancy interest. n616 The doctrine has also been applied to vendor/purchaser agreements under limited circumstances. n617 The prototypical case applying the after-acquired title doctrine is where a grantor executes a deed purporting to convey land to which the grantor has no title or defective title. n618 Suppose that the interest under the deed does not pass due to invalidity of the deed, not because of lack of title in the vendor. A strict reading of the doctrine of after-acquired title, as traditionally defined, implies that the doctrine would not apply in such cases. n619

The application of the doctrine to quitclaim deeds, i.e., deeds without warranties, has been and continues to be, a topic of great interest and importance. In looking at the standard definition of the after-acquired title doctrine, there is nothing inherent in the statement of that doctrine which would prevent the application of the doctrine. A grantor who executes a quitclaim deed surely "purports" and "attempts" to convey title. If one looks to the various rationales given for the doctrine, the fact the instrument was a deed without warranties appears irrelevant. Thus many courts have found the doctrine can apply to a purported conveyance by quitclaim deed. n620

COMPUTER-ASSISTED RESEARCH

LEXIS: estoppel by deed w/10 quitclaim deed

Even if a court finds that a taker under a quitclaim deed is generally not entitled to the benefit of the doctrine, the courts have been resourceful in finding the general rule inapplicable. n621

The doctrine of after-acquired title is sometimes referred to as "estoppel by deed" and, as defined, may incorporate the requirement of a "warranty deed." n622 Some judicial decisions still refer to a warranty of title requirement for the doctrine to apply. n623

COMPUTER-ASSISTED RESEARCH

LEXIS: estoppel by deed w/50 warranty w/20 requir!

One limitation on the application of the after-acquired title doctrine relates to the estate or interest intended to be conveyed: the after-acquired title must be the same title or part of the title purportedly conveyed. n624 Generally speaking, there is nothing in the statement of the after-acquired title doctrine that makes any distinction as to the source of the title that the grantor acquires. Judicial decisions have engrafted an exception, however. If the title is acquired by the grantor from the earlier grantee, the doctrine does not apply. n625 This is an example of the after-acquired title doctrine being grounded in an estoppel principle. With modern courts speaking of the doctrine of after-acquired title applying "by operation of law," there would seem to be no room for subjective factors, such as motive, n626 knowledge, n627 intent, n628 or reliance. n629

The doctrine of after-acquired title is applicable only to the parties and those in privity with them. n630 The grantee asserting rights under the after-acquired title doctrine may find that the contesting party is claiming superior rights under the recording acts. In some cases, there is a direct clash between a person asserting after-acquired title and a person who claims bona fide purchaser status under the recording act. n631 As an example of the type of conflicts that might be encountered by the grantee, consider the status of a judgment lien creditor whose lien attaches the moment the grantor acquires the title. Is this a superior interest to that of the grantee who receives title via the after-acquired title doctrine? n632 Cases of this type will be decided on policies broader than the after-acquired title doctrine and necessitate a precise delineation of what property interest the grantee receives at the time of the conveyance. n633

LEXIS: estoppel by deed w/20 privity w/20 validity

FOOTNOTES:

(n1)Footnote 599. Black, *supra* note 5, at 551. The first two were called "legal estoppels," the third "equitable estoppels." *See also* 700 *Lake Ave. Realty v. Dolleman, 433 A.2d 1261 (N.H. 1981)* (four types of estoppel; estoppel "by recitals in instruments" the other listed type of estoppel).

(n2)Footnote 600. The confusion surrounding the definition of the term is illustrated by the two definitions given in Black's Law Dictionary for "Estoppel by deed" and "Deed, estoppel by." Black, *supra* n.5, at 551, 415. The latter definition is broader than the first.

(n3)Footnote 601. *Id.* at 551. This same idea has been expressed more simply: "Estoppel by deed in effect precludes the grantor from asserting against the grantee any right or title in derogation of the deed, or from denying the truth of any materials asserted in it." *McLaughlin v. Lambourn, 359 N.W.2d 370, 372 (N.D. 1985).*

(n4)Footnote 602. *See Cutright v. Wilson, 410 So. 2d 1274 (La. 1982)* (grantor precluded from attacking deed description); *Peoples Fed. Sav. & Loan Ass'n v. Myrtle Beach Golf & Yacht Club, 425 S.E.2d 764 (S.C. App. 1992)* (junior mortgagee estopped on issue of subordination); *Nodvin v. Plantation Pipe Line Co., 420 S.E.2d 322 (Ga. App. 1992)* (grantee estopped from denying validity of easement). *See also Buhecker v. R.B. Petersen & Sons Constr. Co., Inc., 929 P.2d 937 (Nev. 1996)* (grantors estopped to deny validity of conveyance); *Hilco Property Servs., Inc. v. United States, 929 F. Supp. 526 (D.N.H. 1996)* (grantors precluded from asserting that deed under which they received title was voidable); *Grennan v. Solomon, 472 S.E.2d 54 (Va. 1996)* (servient tenement owners estopped from asserting that dominant tenement owner had not actually owned dominant tenement).

(n5)Footnote 603. *Dominex, Inc. v. Key, 456 So. 2d 1047 (Ala. 1984); Hays v. King, 784 P.2d 21 (N.M. 1989)* (doctrine of after-acquired title "subcategory" of general doctrine of estoppel by deed).

(n6)Footnote 604. Black, *supra* n.5, at 61. *See Campbell v. Butler, 770 P.2d 7 (Okla. 1988); Dominex, Inc. v. Key, 456 So. 2d 1047 (Ala. 1984)* (doctrine of after-acquired title "a form of estoppel by deed"); *Franks Petr., Inc. v. Mayo, 438 So. 2d 696 (La. App. 1983); Kirby v. Holland, 316 N.W.2d 746 (Neb. 1982).*

(n7)Footnote 605. *Turner v. Lassiter, 484 So. 2d 378 (Ala. 1985); Daley v. Hornbaker, 472 A.2d 703 (Pa. Super. 1984); Pascoe v. Keuhnast, 642 S.W.2d 37 (Tex. App. 1982).*

(n8)Footnote 606. *See* the state-by-state statutory listing in § 82.10(e), *supra*. *Petition of Willmus, 568 N.W.2d 722 (Minn. App. 1997)* (doctrine of estoppel by deed does apply to registered land).

(n9)Footnote 607. *Hays v. King, 784 P.2d 21 (N.M. 1989).*

(n10)Footnote 608. *Id.*

(n11)Footnote 609. *Harkins & Co. v. Lewis, 535 So. 2d 104 (Ala. 1988).*

(n12)Footnote 610. *Schwenn v. Kaye, 202 Cal. Rptr. 374 (1984).*

(n13)Footnote 611. *Wood v. Sympson, 833 P.2d 1239 (Okla. 1992)* (purpose of doctrine is to assure grantor's "warranty" effectuated); *Daley v. Hornbaker, 472 A.2d 703 (Pa. Super. 1984)* (grantor who conveys "under warranty"); *Franks Petr., Inc. v. Mayo, 438 So. 2d 696 (La. App. 1983)* (doctrine generally limited to cases where grantor "warranted title"); *Pascoe v. Keuhnast, 642 S.W.2d 37 (Tex. App. 1982)* (doctrine dependent upon "covenant of warranty" in deed); *Sorensen v. Wright, 268 N.W.2d 203 (Iowa 1978)* (deed recites or affirms grantor is seized of a particular estate). In some of these states the court is referring to a statutory version of the doctrine, which, under the statute, is called the doctrine of "estoppel by deed."

(n14)Footnote 612. *McLaughlin v. Lambourn, 359 N.W.2d 370 (N.D. 1985).* The rationale of avoiding the circuity of actions emphasizes one aspect of the after-acquired title doctrine: the automatic "inurement" of title in the grantee. Older cases held that the grantee had the option of suing on the title covenants and was not "compelled" to accept the after-acquired title. *See* Thompson § 3207 note 80. Recent cases have not raised this issue; the courts using the term "after-acquired title doctrine" are clearly embracing the automatic inurement theory. The courts using the term "estoppel by deed," based on a warranty theory, also stress automatic inurement. *See, e.g., Wood v. Sympson, 833 P.2d 1239 (Okla. 1992)* (title passes to grantee "by operation of law"). *See also Miller-Long v. John Hanson Sav. & Loan, Inc., 676 F. Supp. 298 (D.D.C. 1987)* (after-acquired title inures "by operation of law").

(n15)Footnote 613. *Miller-Long v. John Hanson Sav. & Loan, Inc., 676 F. Supp. 298 (D.D.C. 1987).*

(n16)Footnote 614. *Harkins & Co. v. Lewis, 535 So. 2d 104 (Ala. 1988).*

(n17)Footnote 615. *Wood v. Sympson, 833 P.2d 1239 (Okla. 1992); Mau v. Schwan, 460 N.W.2d 131 (N.D. 1990); Turner v. Lassiter, 484 So. 2d 378 (Ala. 1985).*

(n18)Footnote 616. *Zayka v. Giambro, 594 N.E.2d 894 (Mass. App. 1992); Hipps v. Hipps, 343 S.E.2d 669 (S.C. 1986).*

(n19)Footnote 617. *Hardigan v. Kimball, 553 A.2d 1265 (Me. 1989); McLaughlin v. Lambourn, 359 N.W.2d 370 (N.D. 1985)* (contract for deed). But see *Kesinger v. Logan, 779 P.2d 263 (Wash. 1989)* (doctrine cannot apply unless there is a purported deed).

Hardigan was a routine vendor/purchaser case involving husband and wife, joint tenants as vendors. Only the wife signed the purchase agreement, the husband passing away prior to closing date. The wife, as surviving joint tenant, was required to complete the contract. The Maine court stated the "concepts of fairness and justice that support" application

of the after-acquired title doctrine when a grantor delivers a warranty deed "are equally applicable" to a purchase and sale agreement. *Compare Ianotti v. Ciccio, 591 A.2d 797 (Conn. 1991)* (quitclaim deed signed by one only joint tenant void; doctrine not applicable).

(n20)Footnote 618. *Hays v. King, 784 P.2d 21 (N.M. 1989).*

(n21)Footnote 619. *See Yaali, Ltd. v. Barnes & Noble, Inc., 506 S.E.2d 116 (Ga. 1998)* (doctrine cannot be used "to transfer title or to cure flaws in the legal requirements for the creation of a property interest"); *Dominex, Inc. v. Key, 456 So. 2d 1047 (Ala. 1984)* (application of doctrine "presuppose that the instrument relied on is valid). *Compare Houston First Am. Sav. v. Musick, 650 S.W.2d 764 (Tex. 1983)* (trust deed invalid; doctrine applied).

(n22)Footnote 620. *Zayka v. Giambro, 594 N.E.2d 894 (Mass. App. 1992)* ("If estoppel by deed is a sound principle, no compelling logic or binding precedent proscribes its application to a quitclaim deed."); *Hays v. King, 784 P.2d 21 (N.M. 1989); Tunnell v. Barry, 326 S.E.2d 288 (N.C. App. 1985)* (doctrine will apply "when the deed shows the grantor intended to convey and the grantee expected to acquire a particular estate").

(n23)Footnote 621. *Franks Petr., Inc. v. Mayo, 438 So. 2d 696 (La. App. 1983)* (deed in question not intended to be "mere quitclaim"). In certain instances, the "quitclaim" deed, by virtue of statute, contains implied warranties. *White v. Ford, 471 A.2d 1176 (N.H. 1984).* If the doctrine is statutory and the statute proscribes the doctrine when a quitclaim deed is used, a court may find the quitclaim deed in question is not a "quitclaim deed" within the meaning of the statute. *Walliker v. Escott, 608 P.2d 1272 (Wyo. 1980). Webster Oil Co., Inc. v. McLean Hotels, Inc., 878 S.W.2d 892 (Mo. App. 1994)* (estoppel by deed statute applicable only where grantor "undertakes to convey an indefeasible estate in fee simple"; conveyance by quitclaim did not satisfy statutory requirement).

(n24)Footnote 622. *See* Black, *supra* n.5, at 551 (estoppel by deed defined: "grantor under warranty deed...")

(n25)Footnote 623. *Turner v. Lassiter, 484 So. 2d 378 (Ala. 1985)* (title inures to benefit of grantee "under warranty deed"); *Pascoe v. Keuhnast, 642 S.W.2d 37 (Tex. App. 1982)* (doctrine dependant "upon the covenant of warranty"); *Sorenson v. Wright, 268 N.W.2d 203 (Iowa 1978)* (deed recites or affirms grantor is seized of a particular estate).

(n26)Footnote 624. *Lampley v. United States, 17 F. Supp.2d 609 (N.D. Miss. 1998)* (applying Mississippi law); *Rosewood Properties Inc. v. Community Credit Union, 944 S.W.2d 46 (Tex. App. 1997)* (estoppel does not apply to any after-acquired interest which was not purportedly granted); *Harkins & Co. v. Lewis, 535 So. 2d 104 (Ala. 1988)* (grantors only intended to convey three-fourths interest); *Jennings v. Wessley Energy Corp., 720 S.W.2d 811 (Tex. App. 1986)* (conveyance of "all our undivided interest" not applicable to after-acquired interest); *Kirby v. Holland, 316 N.W.2d 746 (Neb. 1982).*

(n27)Footnote 625. *Torgerson v. Rose, 339 N.W.2d 79 (N.D. 1983); Sorenson v. Wright, 268 N.W.2d 203 (Iowa 1978).* The only dissent from this doctrine appears to be *Lewicki v. Marszalkowski, 455 A.2d 307 (R.I. 1983)* (grantor estopped to invoke adverse possession).

(n28)Footnote 626. *Daley v. Hornbaker, 472 A.2d 703 (Pa. Super. 1984)* (doctrine applies whether grantor committed honest mistake or committed fraud).

(n29)Footnote 627. *McLaughlin v. Lambourn, 359 N.W.2d 370 (N.D. 1985)* (grantee's constructive or actual knowledge of lack of vendor's title no bar to application of doctrine).

(n30)Footnote 628. *Schwenn v. Kaye, 202 Cal. Rptr. 374 (1984)* (grantor's intent in reacquiring title irrelevant). Given the fact that the doctrine is remedial in nature and is supposed to carry out the parties' intention, the recent emphasis on intent is logical and overdue. *See Zayka v. Giambro, 594 N.E.2d 894 (Mass. App. 1992)* (doctrine turns on "obvious intention of the parties"). Perhaps what is emerging is the gradual shifting from the estoppel-based theory of

the doctrine to an expectation-based theory.

(n31)Footnote 629. So long as the doctrine of after-acquired title does not incorporate any "estoppel" theory, reliance should not, and is not, a factor under the standard definition of after-acquired title. On the other hand, when the doctrine is stated as "estoppel by deed," one can expect to find statements that the doctrine applies when the unwitting grantee takes a conveyance "in reliance" upon the grantor's good title. *See McLaughlin v. Lambourn, 359 N.W.2d 370 (N.D. 1985).*

(n32)Footnote 630. *State Street Bank & Trust Co. v. Heck's Inc., 963 S.W.2d 626 (Ky. 1998); Mayo v. Simon, 646 So. 2d 973 (La. App. 1994)* (grantee acquired title from third party); *Board of County Comm'rs v. Ogden, 870 P.2d 143 (N.M. App. 1994)* (grantor did not purport to convey lots in question); *Daley v. Hornbaker, 472 A.2d 703 (Pa. Super. 1984); Kraker v. Roll, 474 N.Y.S.2d 527 (1984).*

(n33)Footnote 631. The classic issues in these situations have to do with chain of title and the scope of search. *See* Ch. 92, *infra*. The courts' discussion in *Zayka v. Giambro, 594 N.E.2d 894 (Mass. App. 1992)* and *Schuman v. Roger Baker & Assocs., 319 S.E.2d 308 (N.C. App. 1984)* refer to these "chain of title" and "burden of search" considerations in their decisions.

(n34)Footnote 632. *See United Okla. Bank v. Moss, 793 P.2d 1359 (Okla. 1990)* (grantee prevails under first in time rule).

(n35)Footnote 633. If the deed conveys "nothing" to the grantee because the grantor had nothing to convey, the notion that the grantee receives an "equitable title" at that time is anomalous. See *United Okla. Bank v. Moss, 793 P.2d 1359 (Okla. 1990); Life Sav. & Loan Ass'n v. Bryant, 467 N.E.2d 277 (Ill. App. 1984).*

CHAPTER 82 TRANSFERS BY DEED

9-82 Thompson on Real Property, Thomas Editions § 82.12

AUTHOR: Professor Ronald R. Volkmer School of Law Creighton University

§ 82.12 Consent Issues.

[Go To Supp]

After discussing the requisites for a deed and its formal and orderly parts, Blackstone next considered "how a deed may be avoided, or rendered of no effect." If a deed lacks any of the "requisites," he wrote, "it is a void deed *ab initio*." The requisites Blackstone listed included the "essentials" previously discussed, as well as the requirement of delivery, which will be taken up in the next chapter. Blackstone then considered how deeds "may also be avoided by matter ex post facto." The last of the five ex post facto methods is "By the judgment or decree of a court of judicature ... when it appears that the deed was obtained by fraud, force, or other foul practice; or is proved to be an absolute forgery." n634

The common law, it appears, has always made a distinction between deeds that are "void *ab initio*" and those which "may be avoided" by court decree. In modern law the courts refer to this as the difference between a deed that is "void" and one that is "voidable." n635 A deed that is void is a nullity; the grantor still owns the property since no title passes pursuant to the void instrument. n636 A deed that is voidable is quite different. The title passes to the grantee, subject to defeasance. The grantor, the grantor's successor in interest, or person acting on the grantor's behalf, must take affirmative action to revest title in the grantor. n637 Failure to do so may result in a running of the statute of limitations and thus the grantee's title becomes indefeasibly vested. n638

COMPUTER-ASSISTED RESEARCH

LEXIS: (deed w/10 void w/15 voidable) w/20 distinction

The void/voidable distinction plays a central role in the protection under the recording acts: a person otherwise qualifying as a bona fide purchaser under the recording act receives no protection under a "void" deed. n639 On the other hand, a person otherwise qualified as a bona fide purchaser for value does receive protection in purchasing from one whose title is merely "voidable." n640 Deeds which appear to be valid on their face, but turn out to be void, present insurmountable off-the-record risks for persons relying on the state of record title. It should not be surprising that practically all of the defects discussed in this section present instances of voidable title, not void. The two classic cases of "void" deeds are those involving lack of delivery and forgery. The latter topic will be taken up in the next chapter.

Forgery is treated differently under modern law than it was in Blackstone's treatise.

Blackstone listed "absolute forgery" as an example of a deed that may be avoided ex post facto. n641 This is not the treatment given forgery in the modern era. In § 82.06(b) *supra*, the signature of the grantor was listed as an essential element as a result of statutory enactments. A deed lacking the grantor's signature is a nullity. A forgery, by definition, is not the grantor's signature; thus, the conclusion is that the forged deed is void. n642 In terms of giving protection to third parties who rely on the state of record title, the courts could have drawn a distinction between a deed that contained no signature and one that has on it a forged signature of the grantor, with an acknowledgment. While the policy of protecting innocent purchasers is strong, the property owner's moral claim is superior. The stability of land titles is crucial in our society and a policy giving effect to forgeries would encourage unlawful behavior. The policy of protecting bona fide purchasers must yield to the greater good. There is no bona fide purchaser protection for one who takes under or through a forged deed. n643

COMPUTER-ASSISTED RESEARCH

LEXIS: forged deed w/10 void w/10 title purchaser w/10 bona fide purchaser w/15 forged deed

In the discussion which follows, the various topics all relate to the reality of the grantor's consent. The first topic, mental competency, looks solely to the grantor's status. The other three topics, duress, undue influence, and fraud, all focus on the conduct of the grantee or other persons as it relates to the voluntariness of the grantor's act. As to these three, there can be, and oftentimes are, overlapping elements.

The substantive law, as it relates to the topics discussed herein, is usually well-settled and fairly straightforward. The issues arising in the "consent" cases tend to be more factual than legal, more procedural than substantive. The more problematic of the issues are those relating to procedure, particularly as it relates to presumptions. There is a parallel body of law in the field of wills, with many of the same substantive concepts being applied in will contest cases. An action brought to set aside a deed of a deceased grantor is very similar to a will contest case, and is likely to involve many of the exact same issues.

The final topic of this section, error or mistake, is problematic in many ways. Issues of error or mistake often go to the question of consent, inasmuch as the error or mistake may give rise to the question of whether the grantor consented to a deed with the error or mistake contained therein. Some of the cases of this type may go to the question of validity; the more standard issue likely to be litigated is whether reformation of the deed is possible.

§ 82.12(a) Mental Competency.

An individual conveying property by deed must have the requisite mental capacity to understand the nature, effect, and legal significance of the act being performed. n644 The capacity of the grantor is determined as to the date of execution of the instrument. n645

COMPUTER-ASSISTED RESEARCH

LEXIS: (capacity or competence) w/5 determined w/5 (date or time) w/2 (execution or conveyance)

Courts do not agree whether the tests of mental capacity for executing a deed and a will are different n646 or the same. n647 In some discussions of the test for competency, the courts refer to the test employed in contract cases. n648 Those challenging the grantor's capacity have the burden of proof, as there is a rebuttable presumption that the grantor is competent. n649 A deed executed by a grantor who lacks mental competency is voidable, not void. n650

COMPUTER-ASSISTED RESEARCH

LEXIS: deed w/10 mental w/10 void w/5 voidable

§ 82.12(b) Duress.

Duress is a condition of mind produced by improper threats or coercion, destroying the free agency of the grantor and causing the grantor to do an act the grantor would not otherwise have done. n651 Threats of force and violence constitute duress. n652 A deed executed under duress is voidable, not void. n653 Once again, the difficult issues relate not to the substantive legal concept or definition, but to the proof of facts allegedly constituting duress. One of the purposes of acknowledgment in the law of deeds is to provide evidence on the face of the instrument that the deed was not executed under duress. n654

§ 82.12(c) Undue Influence.

Like duress, the concept of undue influence goes to the voluntariness of the grantor's act in executing the instrument. n655 Undue influence is generally defined as that influence which destroys the free agency of the grantor such that the instrument represents not the grantor's will, but the will of another. n656

COMPUTER-ASSISTED RESEARCH

LEXIS: undue influence w/10 destroy! w/5 free agency w/5 grantor

While a person alleging undue influence has the burden of proof, n657 that burden may be met and the burden shifted if a presumption of undue influence obtains. n658 There is considerable litigation over the circumstances under which a presumption of undue influence arises. The central concept in regard to the finding of a presumption is the existence of a confidential relationship between the grantor and the person allegedly exercising the undue influence. The predominant view is that a finding of a confidential relationship gives rise to a presumption of undue influence. n659 The fact that a confidential relationship does not exist does not mean that a presumption cannot arise, n660 or that undue influence cannot be proven. n661 On the other hand, the existence of a confidential relationship, in and of itself, is not grounds for voiding a conveyance. n662 The presence or absence of a confidential relationship, which plays a central role in determining whether a presumption of undue influence arises, depends upon what circumstances a court will find as giving rise to such relationship. In many undue influence cases, the issue of when a confidential relationship arises plays a crucial role in the outcome. The case law on this topic is fairly voluminous, and the rules vary from state to state. n663 A deed executed under undue influence is voidable. n664

COMPUTER-ASSISTED RESEARCH

LEXIS: deed w/5 undue influence w/10 voidable w/5 void

§ 82.12(d) Fraud.

While courts are in general agreement as to the definition and elements of fraud, there are complicating factors arising in deed cases alleging fraud because there are two types of fraud with differing legal consequences. The procedural issue most problematic in alleged fraud cases relates to pleading, not with the burden of proof and presumptions.

Fraud is grounded in tort law, and the standard tort law definition of fraud is utilized in deed cases. The standard definition of actual fraud encompasses nine elements: (1) a representation of an existing fact; (2) its materiality; (3) its falsity; (4) the speaker's knowledge of its falsity or ignorance of its truth; (5) the speaker's intent that it should be acted upon by the person to whom it is made; (6) ignorance of its falsity on the part of the person to whom it is made; (7) the latter's reliance on the truth of the representation; (8) the latter's right to rely upon it and (9) the latter's consequent

damage. n665 In the ordinary fraud case, the grantee sues for cancellation of a deed based on the misrepresentation by the grantor, and no mention is made of the two types of fraud. n666 If the court finds that the requisite elements have been met, the court will deem the transaction "voidable" and restore title to the grantor. n667

COMPUTER-ASSISTED RESEARCH

LEXIS: fraud w/2 inducement w/10 voidable w/5 void

This type of case, although not always so labelled, is the standard "fraud in the inducement" case. n668

In contrast with the "fraud in inducement" category of cases, there are cases in which the courts emphasize the distinction between "fraud in the inducement" and "fraud in the execution," or as it is sometimes called, "fraud *in factum*." n669 This distinction is legally relevant when rights of third parties are in question, for the deed which was procured by fraud in the execution is regarded as void, not voidable. As a result, the bona fide purchaser doctrine will not be applied in the case of the deed procured by fraud in the execution. n670 On the other hand, if the court finds that the fraud in question fits the category of "fraud in the inducement," the title of the grantee is voidable, and the bona fide purchaser doctrine can be asserted by a third party. n671 The courts have not been very successful in drawing clear lines between the two types of fraud. Other than stating that fraud in the execution is fraud that goes to the nature of the instrument itself, n672 the courts have given few definitional guidelines. n673

COMPUTER-ASSISTED RESEARCH

LEXIS: fraud w/2 execution w/10 void w/5 voidable

The usual pleading rule relating to pleading fraud with particularity applies in cases involving deeds. n674 There are few circumstances giving rise to a presumption of fraud. In some instances the courts have indicated that a confidential or familial relationship ordinarily may give rise to presumption of fraud, n675 but the ordinary rule is that the burden of proof is on the person alleging the fraud. n676 The only instance in which the courts routinely engage in a presumption of fraud is in the "promise to support" cases. In this type of case, for the promise to be fraudulent, the grantee must have made the promise with no intent to carry it out. n677 The fact that a grantee later fails to keep the promise may give rise to a presumption that the promise was fraudulent at its inception. n678

COMPUTER-ASSISTED RESEARCH

LEXIS: (confidential or familial) w/2 relationship w/10 presumption w/5 fraud

§ 82.12(e) Mistake.

There is limited case law recognizing the authority of a court to cancel a deed based upon mistake, but the grounds for so doing are narrowly circumscribed: the mistake must be mutual such that the deed does not express the true intent of the parties. n679 If the grantor fails to read the deed, the grantor's negligence in not doing so precludes relief based upon mistake. n680 The relief sought in mutual mistake cases is more likely to be reformation of the instrument. Relief will be granted if the mistake was mutual, n681 or if one party's mistake was accompanied by fraud or inequitable conduct on the other party. n682 Reformation will not be granted, however, against persons having the status of bona fide purchasers for value. n683

(n30)Footnote 663. One of the most litigated issues in this area relates to transfers among family members. The typical issue is whether or not a presumption of confidential relationship exists when the grantor and grantee are related by blood or marriage. *See, e.g., Dixon v. Bradsher, 779 S.W.2d 727 (Mo. App. 1989)* (deed from parent to child not inherently a fiduciary relationship); *Seals v. Seals, 423 So. 2d 222 (Ala. 1982)* (deed from parent to child; relationship "confidential" in nature); *Wilson v. Wehunt, 631 So. 2d 991 (Ala. 1994)* (transfer from parent to child; no presumption "in absence of subservience on the part of the parent"); *Womack v. Womack, 622 N.E.2d 481 (Ind. 1993)* (law "no longer recognizes presumption of undue influence in a transaction between spouses"). *Avery v. Whatley, 670 A.2d 922 (Me. 1996)* (existence of confidential relationship must be established by a preponderance of the evidence); *Thorn v. Taylor, 679 So. 2d 1120 (Ala. App. 1996)* (lack of "dominance" led to finding of no undue influence).

(n31)Footnote 664. *First Interstate Bank of Sheridan v. First Wyo. Bank, N.A. Sheridan, 762 P.2d 379 (Wyo. 1988); Reynolds v. Molitor, 440 A.2d 192 (Conn. 1981); Reynolds v. Owen, 380 A.2d 543 (Conn. Super. 1977).*

(n32)Footnote 665. *Pedersen v. Bibioff, 828 P.2d 1113 (Wash. App. 1992); Wright v. Blevins, 705 P.2d 113 (Mont. 1985); Felonenko v. Siomka, 55 Or. App. 331, aff'd, 653 P.2d 1263 (Or. 1981); Troxell v. Troxell, 563 S.W.2d 135 (Mo. App. 1978). See also Spence v. Griffin, 372 S.E.2d 595 (Va. 1988)* (six elements listed); *Grohn v. Marquardt, 657 S.W.2d 851 (Tex. App. 1983)* (three elements listed).

(n33)Footnote 666. *E.g., Spence v. Griffin, 372 S.E.2d 595 (Va. 1988); Grohn v. Marquardt, 657 S.W.2d 851 (Tex. App. 1983).*

(n34)Footnote 667. *Hill v. Watts, 801 S.W.2d 176 (Tex. App. 1990)* (deed valid until successful suit to set aside deed accomplished).

(n35)Footnote 668. *Spence v. Griffin, 372 S.E.2d 595 (Va. 1988); Holland v. Hoffman, 443 So. 2d 931 (Ala. 1983).*

(n36)Footnote 669. *Akins v. Vermast, 150 Or. App. 236, 945 P.2d 640 (Or. App. 1997); Pedersen v. Bibioff, 828 P.2d 1113 (Wash. App. 1992); Bennion Ins. Co. v. 1st OK Corp., 571 P.2d 1339 (Utah 1977).*

(n37)Footnote 670. *Sheffield v. Andrews, 679 So. 2d 1053 (Ala. 1996)* (signature obtained by fraud); *Nygaard v. Robinson, 341 N.W.2d 349 (N.D. 1983); Bennion Ins. Co. v. 1st OK Corp., 571 P.2d 1339 (Utah 1977).*

(n38)Footnote 671. *Fallon v. Triangle Mgt., 215 Cal. Rptr. 748 (1985); McCoy v. Love, 382 So. 2d 647 (Fla. 1979).*

(n39)Footnote 672. *Pedersen v. Bibioff, 828 P.2d 1113 (Wash. App. 1992).*

(n40)Footnote 673. *Koo v. Robert Koo Wine & Liquor, Inc., 611 N.Y.S.2d 4 (1994)* (defendant signed plaintiff grantor's name without authorization; court characterized as "fraud in factum"); *McCoy v. Love, 382 So. 2d 647 (Fla. 1979)* (fraud in execution limited to "cases where there has been a complete failure of delivery"); *Bennion Ins. Co. v. 1st OK Corp., 571 P.2d 1339 (Utah 1977)* (fraud in execution limited to cases where forgery is involved or conduct "tantamount to forgery"). Lack of delivery and forgery are classic "void" deed cases; the inability of the courts to clearly

articulate the distinction between fraud in inducement and fraud in execution suggests the distinction may be more apparent than real.

(n41)Footnote 674. *Pedersen v. Bibioff, 828 P.2d 1113 (Wash. App. 1992); Nodland v. Plainsmen Petr., Inc., 265 N.W.2d 252 (1978).*

(n42)Footnote 675. *Hanson v. Harding, 429 S.E.2d 20 (Va. 1993)* (familial relationship may give rise to presumption where confidential relationship exists, consideration is grossly inadequate and grantor suffers from weakness of mind); *Pedersen v. Bibioff, 828 P.2d 1113 (Wash. App. 1992)* (confidential relationship).

(n43)Footnote 676. *Clay v. Clay, 501 S.E.2d 208 (Ga. 1998); Lipe v. Thomas, 600 S.W.2d 921 (Ark. App. 1980); Johnson v. Keener, 370 So. 2d 265 (Ala. 1979); Brecel v. Carlstedt, 381 N.E.2d 1174 (Ill. App. 1978).*

(n44)Footnote 677. *Popwell v. Greene, 465 So. 2d 384 (Ala. 1985).*

(n45)Footnote 678. *Royal v. Parado, 462 So. 2d 849 (Fla. App. 1985); Hayden v. Hayden, 378 N.E.2d 631 (Ill. App. 1978).* The special treatment given this type of case is not surprising in light of the manner in which courts treat such a type of case in the context of a "failure of consideration" claim. See discussion *supra* at § 82.09(a).

(n46)Footnote 679. *Schep v. Hess, 770 P.2d 34 (Okla. 1989); Davis v. Weatherington, 514 So. 2d 943 (Ala. 1987); Larsen v. Potter, 571 N.Y.S.2d 121 (1991)* (rescission granted based on mutual mistake concerning boundaries of property); *Greer v. Higgins, 338 So. 2d 1233 (Miss. 1976)* (mistake in inducement). *See also Bascetta v. Bascetta, 470 A.2d 1232 (Conn. App. 1984)* (unilateral mistake induced by other party sufficient for rescission).

(n47)Footnote 680. *See also Gold v. New York State Business Group Inc., 679 N.Y.S.2d 476 (App. Div. 1998)* (mistaken belief that deed was recorded not sufficient); *Jackson v. Reed, 438 So. 2d 750 (Ala. 1983); Miller v. Davis, 423 So. 2d 1354 (Ala. 1982).*

(n48)Footnote 681. *Fox v. Washburn, 451 S.E.2d 476 (Ga. 1994)* (reformation granted on basis of mutual mistake; strong dissent charges that majority holding will "nullify the statute of frauds and the parol evidence rule"); *Kishter v. Seven Courts Community Ass'n, 626 A.2d 993 (Md. App. 1993); Gunzinger v. C. & G. Estates, 610 A.2d 735 (Me. 1992); Bourne v. Lajoie, 540 A.2d 359 (Vt. 1987).*

(n49)Footnote 682. *Reasor v. Putnam County, 615 N.E.2d 131 (Ind. App. 1993), vacated, remanded, Estate of Reasor v. Putnam County, 635 N.E.2d 153 (Ind. 1994); McCoy v. McCoy, 611 So. 2d 957 (Miss. 1992).*

(n50)Footnote 683. *Department of Conserv. v. Nevois, 600 N.E.2d 91 (Ill. App. 1992); United States v. LaRosa, 765 F.2d 693 (7th Cir. 1985).*

CHAPTER 82 TRANSFERS BY DEED

9-82 Thompson on Real Property, Thomas Editions § 82.13

AUTHOR: Professor Ronald R. Volkmer School of Law Creighton University

§ 82.13 Construction.

[Go To Supp]

§ 82.13(a) Introduction and Comparisons.

§ 82.13(a)(1) Introduction.

Judicial "construction" of instruments encompasses a wide variety of documents -- deeds, wills, contracts. Precisely what is meant by "construction" is the obvious starting point. *The Restatement of Property* defines "construction" as "the ascertainment, in accordance with judicial standards, of the meaning of the language of a will or deed." n684 The *Restatement* continues by identifying the ascertainment of the meaning of language as "this process of construction," and states that the product of this process is the "judicially ascertained intent" of the conveyor. n685 Thus, "construction" is a process of determining the conveyor's "judicially ascertained intent." How a court is to go about making this determination is the next task. According to the Restatement, the "judicially ascertained intent" is "normally determined by the language used in the conveyance, read as an entirety and in the light of the surrounding circumstances." n686 The *Restatement* definition is a useful starting point, in that it emphasizes the "process" oriented nature of the topic; it likewise raises the major issues to be encountered in the process. These will be discussed in greater detail below.

The underlying assumption in cases involving deed construction is that there is a valid deed, i.e., the instrument in question contains the essential elements, meets all formalities requirements, has been duly delivered, and is not subject to "avoidance" on grounds outlined in the previous section. In theory, at least, issues pertaining to validity are separate and apart from issues of construction. After all, if the instrument is not a "deed," there is nothing for the court to construe.

In light of the foregoing discussion, it is surprising to find an occasional reference to a rule of construction which states that a court should construe an instrument in such fashion so as to render the deed valid or operative. n687 When a court is asked to find that language in an instrument is sufficient so as to satisfy the requirements pertaining to words of conveyance n688 or adequate legal description, n689 the court is not "construing" a deed in the usual sense of the term. The court in such case is asked to construe language in order to make the instrument a valid deed. n690 The phenomenon of "construing to validate" occurs in will cases, as well as in deed cases. n691 Whether or not an

instrument is a deed depends upon compliance with rules of law; rules of construction are not designed or intended to deal with issues of validity.

§ 82.13(a)(2) Construction of Wills and Contracts Compared.

While commentators have examined the theories of construction that underlie the process of will and contract construction, the topic of deeds is usually obliquely referred to. In attempting to understand the theory of construction applicable to deeds, it may be helpful and useful to contrast the general theories of construction applicable to wills and contracts. n692

In the law of wills, courts refer to the so-called pole star rule of construction: It is the duty of the court to ascertain and give effect to the intention of the testator.

COMPUTER-ASSISTED RESEARCH

LEXIS: constru! w/10 testator w/5 intent w/2 control!

As a unilateral instrument, a will represents the testator's intent; it is the testator's intent that is controlling. n693 Precisely what evidence should be taken into consideration by the court is dependent upon whether courts engage in "strict" or "liberal" theories of construction. The "strict" theory is embodied in the so-called "plain meaning" rule, whereby the court excludes extrinsic evidence on the theory that the language of the will is unambiguous and not subject to construction. The "liberal" theory emphasizes the search of the subjective meaning of the testator's language and looks to evidence outside the will, typically the "circumstances of its formulation." n694

A contract is the result of negotiation and is a bilateral agreement. Resort to the subjective intent of the parties is problematic, because the two parties are likely to have divergent intents. Given this dilemma, the prevailing contract interpretation theory is based on an "objective" theory of contracts. n695

A deed, if donative in nature, is similar to a will. As a conveyance, a deed might be regarded as the unilateral act of the grantor just as a will is regarded as the unilateral act of the testator. A deed may, and often does, contain numerous covenants. The contractual undertakings in a deed, supported by consideration, involve bilateral promises. This deed, like many leases, serves two functions -- as a conveyance and as a contract.

Construction of wills and construction of contracts are based upon different theories of interpretations. Deeds are susceptible of being fitted under either theory, as the *Restatement of Property* has recognized. According to the *Restatement*, to the extent that *any* instrument contains a "contractual aspect," an additional element affects the process of construing the instrument: "a conveyor is bound by the meaning which he reasonably should have anticipated that the conveyee would derive from the language used." n696 In short, the fact that there are "donative and non-donative conveyances," according to the Restatement, affects the process of construction.

The cases construing deeds do not reflect the "donative/non-donative" distinction, but do evidence some confusion as to whether a deed should be treated more like a will or more like a contract. This confusion begins with the most basic rule applicable to deeds -- the pole star rule.

§ 82.13(a)(3) The Pole Star Rule.

The pole star rule of construction in deed cases begins with the premise that a court should effectuate intent, but the question immediately arises as to *whose* intent the court should be effectuating. Viewing a deed as a conveyance by the grantor, the deed is similar to a will. From this perspective, it makes perfect sense for courts to enunciate a pole star rule of construction which emphasizes effectuating the *grantor's* intent. n697

COMPUTER-ASSISTED RESEARCH

LEXIS: object w/10 deed w/10 ascertain w/5 intent! w/5 grantor

On the other hand, a deed may be considered a bilateral transaction since two parties are always involved -- the grantor and the grantee. Then, too, many deeds contain covenants. By emphasizing the contractual and bilateral aspects of the deed, it makes perfect sense for most courts to say, as they do, that the role of a court in a deed construction case is to effectuate the intent of the *parties*. n698 Of course, the prototypical deed construction case presents a situation where the grantor's and the grantee's interpretations conflict; it is not possible to effectuate both parties' intent, given the fact that each party is proposing a method of interpretation based on that party's (supposed or real) intent.

COMPUTER-ASSISTED RESEARCH

LEXIS: object w/10 deed w/20 ascertain w/5 intent! w/5 parties

The critical issues in deed construction cases do not relate to the issue of whose intention is to be ascertained, but as to how the court will go about ascertaining that intent. More specifically, the critical issues are: (1) what evidence will the court consider; (2) what "rules of construction" exist; (3) why do they exist, and (4) when they will be applied.

To say that the deed will be construed according to the intent of the parties does not indicate the process to be used, nor does it indicate what evidence will be considered. The latter considerations constitute the real issues in deed construction cases. The pole star rule serves as little more than a ritual function in describing the judicial role in deed construction cases. To the extent that the pole star rule is meaningful, it is in conjunction with the distinction between rules of construction and rules of law. n699 Intent of the parties will be not effectuated where to do so would violate a rule of law. n700

§ 82.13(a)(4) The Language of the Instrument.

All courts agree that the starting point in the search for the parties' intent is the language of the deed. n701 In this process, the court examines all parts of the deed in the attempt to ascertain the meaning of the language used in the deed. n702

COMPUTER-ASSISTED RESEARCH

LEXIS: constru! w/2 deed w/10 intent w/8 language

After the court has carefully scrutinized the deed language and its meaning in light of the parties' contentions, the court will reach one of two possible conclusions: (1) the parties' intention "clearly appears" from the language of the deed and the court renders its decision or (2) the deed language is deemed "ambiguous" and the court must now turn to other evidence or rules of construction to cure the ambiguity.

Under the first conclusion, the court engages in the "plain meaning" theory of construction: Where the language and its meaning is adjudged definite and unambiguous, the court is required to give effect to such language, even though this meaning may not be, in fact, what the parties intended. n703 When a court finds that the parties' intent is revealed by the plain and unambiguous language of the instrument, technically the deed is not being construed, since there is no language requiring construction. n704 This methodology is sometimes called the "four corners" approach to deed construction, because the initial step in the process is "look to the four corners of the document." n705 In concluding that the deed language is clear and unambiguous, courts emphasize two points: (1) rules of construction are not applicable n706 and (2) the construction of a deed is a matter of law to be determined by the court. n707

COMPUTER-ASSISTED RESEARCH

LEXIS: constru! w/10 deed w/10 first w/10 four corners

The second conclusion, a finding of ambiguity, opens the door to the receipt of extrinsic evidence and the application of rules of construction. n708 Once this occurs, courts are more likely to characterize the issue as one of fact, rather than law. n709 Given the dramatic consequences flowing from the ambiguous/ unambiguous distinction, the process by which a court makes this determination is crucial. How a court goes about making this distinction and resolving it lies at the heart of the process of deed construction. While it may be difficult to explain the process, other than to say that a deed is ambiguous or unambiguous simply because a court says it is, there are some judicial statements about the process of determination that may shed some light on it.

The determination of whether a deed is ambiguous or unambiguous is a matter of law to be determined by the court. n710 The practical consequences flowing from this are truly significant: trial courts decide the critical issue rather than juries; appellate courts review the critical issue de novo. By confining the evidentiary search to the "four corners," and by giving appellate courts a rather free hand in their review, the appellate courts exert great control over the process of deed construction; whether that policy is the appropriate one probably depends upon how strongly one believes in the "plain meaning" theory of construction, and how disposed one is to freely admit extrinsic evidence.

The heart of the matter at hand is the concept of "ambiguity." When is a deed ambiguous? Courts have formulated various tests for ambiguity: (1) "when good arguments can be made for either of several contrary positions as to the meaning of a term"; n711 (2) "when language is of doubtful import, admits of being understood in more than one way, admits of two or more meanings, or refers to two to more things at the same time" n712 and (3) "only when the application of pertinent rules of construction leaves it genuinely uncertain which of two reasonable meanings is the proper one." n713 There are also judicial statements as to when a deed is not ambiguous: (1) "a deed which accurately and correctly describes the land and interest conveyed" n714 and (2) "if there is no reasonable doubt as to the meaning of the words." n715 Just because a dispute has arisen or parties disagree as to the meaning of the language, does not, in and of itself, render the deed ambiguous. n716

COMPUTER-ASSISTED RESEARCH

LEXIS: (two or several) w/10 meaning w/35 deed w/10 ambigu!

However stated, the tests are not helpful either in terms of explaining a process or articulating a policy. The conclusion that a deed is ambiguous appears, in most cases, as little more than an *ipse dixit* of the courts. If there is any theme to the approach of the courts, it is the heavy emphasis placed on the language of the instrument. There are policy reasons for this, but they are seldom discussed. At the conclusion of the discussion, this topic will be addressed. Next to be considered are the methods by which courts go about resolving ambiguities in deeds. This brings into play the role of extrinsic evidence and the rules of construction, general and specific.

§ 82.13(b) Resolving Ambiguities.

§ 82.13(b)(1) Extrinsic Evidence.

The modern day cases do not distinguish between "patent" and "latent" ambiguities when discussing the admissibility of extrinsic evidence. n717 This age-old distinction between ambiguities on the face of the instrument (patent), and those arising when the deed language is applied to extrinsic circumstances (latent), restricted the introduction of extrinsic evidence to cases involving so-called latent ambiguities. n718

Once a finding of ambiguity occurs, the door is opened to the admission of extrinsic evidence, namely the situation and circumstances of the parties at the time of execution. n719 The courts will generally look to subsequent acts of the parties as well, as these acts indicate how the parties themselves construed the deed. n720

COMPUTER-ASSISTED RESEARCH

LEXIS: deed w/20 ambigu! w/30 situation w/5 circumstances w/30 parties

A finding of ambiguity not only opens the door to the receipt of extrinsic evidence, it also allows a court to apply "rules of construction" in attempting to resolve the ambiguity. Surrounding circumstances and rules of construction, for most courts, are on equal footing. n721 Depending upon the type of case, a court may rely exclusively on the extrinsic evidence n722 or rules of construction. n723 Occasionally, a court will establish a hierarchy; either one favoring extrinsic evidence over rules of construction, n724 or rules of construction over extrinsic evidence. n725

There are numerous rules of construction applicable to deeds. The general rules seem to be little more than ritual incantations as courts mouth them along the way in their decision making process. The specific constructional rules tend to operate more in the fashion of "true rules of construction," i.e., as creating presumptions which greatly affect the outcomes of a case.

Practically all of the constructional rules are well established and non-controversial. All of these rules are subordinate to the pole star rule of construction: ascertaining the intention of the parties. n726 Although the rules are being applied in cases where the parties' intent is not clear, the basis for the various rules is *implied* intent. Based on what is regarded as the normal expectations of persons similarly situated, the courts believe the rules carry out the normal expectations of the parties. n727 When it comes to some of the more specific constructional rules, the rationales are based on public policy grounds that look less to the intent of the parties and more to societal interests.

COMPUTER-ASSISTED RESEARCH

LEXIS: purpose w/10 rules w/2 construction w/10 intent! w/5 parties

§ 82.13(b)(2) General Rules of Construction.

Blackstone listed "a few general rules and maxims" laid down by the courts for the construction and exposition of deeds and wills. n728 Most of these general rules survive to the present day. The general rules of construction, as articulated in modern day deed construction cases, are:

(1) The intent of parties must be ascertained from the whole instrument and not from isolated portions thereof. n729

(2) The court will attempt to harmonize all parts of a deed so that none of the provisions are rendered meaningless and none of the language is treated as surplusage. n730

(3) While the courts routinely state that in resolving an ambiguity, the deed will be construed against the grantor and in favor of the grantee, n731 this conclusion is based on the more precise rule that a deed will be construed against the party responsible for its preparation. n732

COMPUTER-ASSISTED RESEARCH

LEXIS: deed w/5 construed w/5 against w/5 grantor w/5 grantee

The first two rules appear as little more than guidelines for interpreting the language of the instrument. They furnish

starting points for analysis, but do not necessarily indicate which interpretation should be preferred. The third constructional rule has more potential effect on the process of construction, since it points in one direction or another with regard to the two possible constructions: If a court is to "strictly construe" a deed "against" a grantor, presumably that means that the grantor's interpretation is less favored than the grantee's.

§ 82.13(c) Other Issues of Ambiguity.

§ 82.13(c)(1) Specific Constructional Rules.

The constructional issues that arise out of ambiguous deed language are many and varied. Certain types of constructional issues have recurred with much greater frequency than others. In dealing with these recurring issues, the courts have fashioned fairly specific and well-developed rules of construction. The two most prominent issues which courts have addressed are those pertaining to: (1) the estate or interest conveyed by the deed and (2) the legal description, which, in the ordinary case, relates to the boundaries of the property conveyed. The rules of construction that courts employ in deciding issues of this kind will be considered separately.

§ 82.13(c)(2) Estate or Interest Conveyed.

Blackstone wrote that the function of the habendum clause of a deed was "to determine what estate or interest is granted by the deed." n733 However, Blackstone added, the habendum clause could not divest an estate created in the granting clause; the habendum language was deemed "repugnant" to the granting language and would be void. n734 By 1830, Chancellor Kent noted, the habendum clause had "degenerated into a mere useless form." n735 At the same time, however, Kent acknowledged that the deed forms continued to follow the "formal and orderly parts" format of the ancient writers, n736 which format included the habendum clause. Well into the 20th century, deed forms continued the traditional format, with the habendum clause as an integral part. A significant number of cases arose presenting conflicts between the granting clause of a deed and the habendum clause with regard to the estate or interest conveyed. The courts developed rules of construction pertaining to these conflicts. n737 The more recent cases construing inconsistent habendum and granting clauses rejected the notion of dividing deeds into formal parts, and simply adopted the more general rule of carrying out the intention of the parties. n738 Because the habendum clause is not currently widely utilized, there are few modern day cases discussing the habendum clause and the nature of the estate granted. n739

It is technically possible for a deed to contain a description of the estate conveyed that is so vague and indefinite as to result in the purported transfer being declared void. n740 This is another example of the "construe to validate" phenomenon, and is rarely encountered.

COMPUTER-ASSISTED RESEARCH

LEXIS: deed w/10 descri! w/15 vague w/15 void

The background for the present discussion is the common law doctrine of estates, which distinguishes between present possessory interests and future interests, and between possessory estates and non-possessory interests. The process of determining what estates or interests were created by the deed language is primarily one of classification. In the usual case, the court is called upon to determine whether the deed language, alleged to be ambiguous, creates one type of estate or another. If a court finds the deed language to be "unambiguous," the process of construction does not begin; the court simply pronounces judgment as to the estate or interest conveyed. In the present discussion the assumption is that the deed language is ambiguous, i.e., susceptible to two possible interpretations. Because of the ambiguity, the court turns to rules of construction to assist it in the process of construing the language.

There are two principal rules of construction that modern day courts apply in deed cases in determining the estate or

interest conveyed. The first rule is that the entire estate or interest of the grantor passes to the grantee, unless there is specific language to the contrary. n741 The second rule is that the deed language will be construed so as to pass the "greatest estate" that the grantor is capable of conveying. n742 Since grantors usually own an estate in fee simple, and the "greatest estate" in the law of estates is a fee simple, the combination of the rules have the effect of a presumption in favor of a fee simple estate passing to the grantee.

The constructional rule favoring a fee simple would be significant in cases in which the issue was whether the language created a fee simple or life estate, but in modern case law, the issue seldom arises. n743 In modern case law, the abandonment of railroad rights of way has led to a flurry of litigation over century-old deeds, and the nature of the estate or interest granted to the railroad companies. Although these cases are sometimes labelled as "fee v. easement" cases, that is technically inaccurate. The question arising in the cases is whether the deed language created a non-possessory interest in the nature of an easement or some type of possessory fee simple estate. The cases on point are legion, and the results vary from jurisdiction to jurisdiction as the cases are very fact-sensitive, heavily dependent upon the exact language of the grant. n744 As will be discussed below, the well-recognized presumption of a fee simple passing under the grant might be given lesser deference in these types of cases due to other public policy considerations.

There are a host of constructional issues common to deeds and wills relating to the doctrine of estates. These encompass a wide variety of topics which are beyond the scope of the present discussion. n745 The reader is referred to other chapters of this work for consideration of these topics. n746

The older deed forms, in the habendum clause, included a reference to "tenements, appurtenances and hereditaments" passing to the grantee along with the estate. Deed forms in current use are not likely to include a habendum, but may still contain references to "appurtenances," and occasionally, to "tenements" and "hereditaments." n747 The general rule is that even if these interests are not mentioned, they pass to grantee along with the land described. n748 An occasional case presents a constructional issue as to what constitutes an appurtenance in the context of deed language, n749 or what passes as an appurtenance. n750

§ 82.13(c)(3) Legal Descriptions.

A legal description may be so ambiguous so as to render the deed invalid, as previously noted. n751 The more common situation of faulty legal description does not involve validity, but construction: the deed's legal description creates doubt as to the precise dimensions of the property conveyed. Many of the cases of this type are the classic boundary line disputes, involving adjoining property owners. Specific constructional rules have been developed by the courts to deal with the recurrent description problems.

Ambiguities often arise in the context of a "metes and bounds" description. Metes and bounds descriptions typically employ natural or artificial monuments and course and distance designations, beginning from an identified starting point and ending with the last deed call that "closes," i.e., returns to the point of beginning. When the deed calls are located on the surface of the earth, conflicts between deed calls may arise, or the description may not "close." To resolve these ambiguities and conflicts, the courts have developed an order of preference governing inconsistent descriptions: Courts will look first to natural objects or landmarks, then to artificial monuments or established lines, then to boundary lines of adjacent owners, next to course and distance, and finally, to quantity. n752 The hierarchy just listed is well accepted and recognized. It should be emphasized, however, that the rules given are subsidiary rules of construction employed to carry out the intent of the parties. The priorities listed will not be given effect if to do so would produce results that are "absurd," or manifestly inconsistent with the parties' intention. n753 The great number of cases applying these rules is indicative of the necessity of drafting a metes and bounds description with great care.

COMPUTER-ASSISTED RESEARCH

LEXIS: natural objects w/20 monuments w/20 boundary lines

Property bordering upon a street, alley or highway presents a unique, but recurring, constructional issue. The grantor of the property oftentimes owns not only the property bordering on the street, alley, or highway, but also owns to the center of the street, alley, or highway. When the grantor conveys the land adjoining the street, alley or highway, the recurring question is whether the transfer of the property bordering on the street, alley or highway carries with it the grantor's interest in the street, alley or highway.

In dealing with cases of this type, the courts have developed and applied the following rule of construction: the conveyance of property bordering on a street, alley or highway carries with it the grantor's interest in the street, alley or highway, *unless* the instrument shows an intent not to convey such interest. n754 As will be discussed below, this rule is based upon strong public policy considerations. A similar treatment is given to property bordering upon a railroad right of way, n755 or a lake or stream. n756

§ 82.13(d) Merger Doctrine.

In the typical real estate purchase, a contract of sale is entered into by the seller and purchaser, and, at closing, the sale is consummated by the seller conveying title by executing and delivering a deed to the purchaser. In determining the legal rights of the parties thereafter, the so-called merger doctrine becomes relevant: the contract provisions "merge" into the deed, and the rights of the parties are thereafter governed by the language of the deed. n757 The theory is that the acceptance of the deed is, prima facie, full performance of the contract to convey. n758 It is conclusively presumed that the deed represents the final agreement of the parties. n759 While the merger doctrine is universally accepted, it is only the starting point, inasmuch as the exceptions to the rule are at least as important as the rule itself.

COMPUTER-ASSISTED RESEARCH

LEXIS: contract w/20 closing w/20 merge w/10 deed

It is clear that the merger doctrine will not be applied if the court finds there is fraud or mistake involved. n760 This exception is relatively easy to apply. On the other hand, courts generally find that the merger doctrine will not apply if there are collateral or independent agreements that the parties intended to survive the delivery of the deed. n761 In other words, if the collateral agreement was not to be performed or satisfied by the execution of the deed, the agreement is "collateral" and is independent of the deed. n762 Given the fact that the main function of a deed is to convey title, collateral agreements are usually those matters not related to title. n763

COMPUTER-ASSISTED RESEARCH

LEXIS: deed w/50 doctrine w/5 merge! w/15 fraud w/20 mistake

The merger doctrine is sometimes referred to as a "rule of law"; n764 that characterization is apt if a court determines that the merger "rule" applies. However, the exceptions to the rule are almost co-extensive with the rule. These exceptions are very heavily dependent upon the intentions of the parties. n765 Thus, the applicability of the exceptions to the rule are treated as constructional issues, with an indication that the issue involved is one of fact, not of law. n766 Cases involving the merger doctrine and the exceptions to it are part vendor/purchaser law; part deed law. Given the fact that this area bridges contract law and property law, one should not be surprised to find courts struggling to find a coherent rationale for the rule and its exceptions.

§ 82.13(e) Policy Considerations in Deed Construction.

The rules of law pertaining to the formalities of execution and essential elements of a deed form the basis for the substantive law of deeds. Those foundational rules are of utmost importance in the drafting stage, since these rules address the issue of validity of the instrument. Drafting considerations will be addressed in the succeeding subsection.

As important as the substantive rules are to the law of deeds, it appears in modern day law that the litigated appellate cases are more likely to address issues of construction rather than validity. n767 This is not surprising if one considers that the substantive rules of deed law pertaining to validity are mainly statutory, and that the requirements for a valid deed are fairly minimal. Legislation encouraging the use of statutory deed forms has assisted as well, in insuring that the requirements imposed by law have been met. The substantive law of deeds has become more simplified and less formalistic, easier to understand and to apply in practice.

By contrast, study and discussion of the theory and rules pertaining to deed construction have been neglected. The settled rules of deed construction are seldom questioned; even rarer is there an inquiry into the policy basis for the constructional rules that are being applied. The present discussion is intended to provide insights as to the process of deed construction and to raise questions regarding the policy bases for the rules of construction in current use.

The starting point in re-examination of this topic is what is meant by the process of construction. Viewed in the broad sense of that term, construction of a deed consists of three elements: (1) the idea in the minds of the parties to the deed; (2) the language of the deed and (3) the external object, person or legal consequences referred to by the words. Consideration of the meaning of the language of every deed necessarily involves the process by which the words are identified with the things to which they refer. This process of identification may be referred to as "construction." If one accepts the foregoing meaning, all deeds are subject to construction and, in every case, one must go outside the "four corners" of the instrument to make the identification.

Under the traditional manner in which courts go about construing deeds, the critical step is a finding of ambiguity, which opens the door to rules of construction and consideration of extrinsic evidence. Under the broader view of construction, the finding of ambiguity may not occur; the relevant inquiry is not initially limited to the deed language, inasmuch as the process of identification always involves relating the words of the deed to reality.

COMPUTER-ASSISTED RESEARCH

LEXIS: rules w/3 construction w/5 necess! w/10 ambigu!

The general rules of construction begin with the pole star rule -- the touchstone -- that of carrying out the intention of the parties. The comparable rule for will construction is carrying out the intention of the testator. This pole star rule is described by one author as a process that, in the main, turns out to be "purely fictitious," for the reason that the testator never had any intention with regard to the particular point in question. n768 In deed construction cases, when courts speak of effectuating the *parties'* intent, the problem is even more complicated: even assuming that one or both of the parties had something in mind using certain language, what does the court do when the intentions of the parties conflict? The reason the parties are before the court is precisely for the reason that they do not agree as to what was intended. To say that the starting point in deed construction cases is to effectuate the intention of the parties suggests that courts are engaging in a process more closely resembling the process of interpretation for contracts. n769 One of the other general rules of construction, identified above, illustrates the confusion as to whether deeds are to be construed more like contracts than wills. The rule that a deed will be "construed strictly" against its preparer indicates that a contract

analysis is being applied. Yet, many decisions simply assume that the grantor is responsible for preparation of the deed, and announce a rule of "strict construction" against the grantor.

Analysis of the rules of construction applicable to deeds tends to follow the comparable model of analysis applied to wills: the starting point is the pole star rule (giving effect to "intentions of the parties" or the "intention of the testator"). From this follow subsidiary rules of construction designed to assist the court in ascertaining the intention of the parties or the intention of the testator. In will construction cases, the underlying basis for a rule of construction can be based on what the court assumes the typical testator would desire in like circumstances. n770 This inquiry may be the safest guide in attempting to ascertain the subjective intention of the testator. Other commentators have questioned, however, whether the adoption of these subsidiary rules of construction are in fact more motivated by considerations of policy than the carrying out of the testator's subjective intent. n771

When it comes to the process of construing deeds, the inquiry as to the basis of the subsidiary rules of construction is more problematic. Whereas in will cases one can speak of subsidiary rules of construction as being based on what the average testator would have intended under like circumstances, n772 in deed cases it is more difficult to hypothesize the situation of the "typical grantor" and the "typical grantee." n773

Some of commentators who have examined the process of will construction, and the stated bases for the rules of will construction, conclude that it would be preferable for the courts to recognize openly the various policies behind the rules of construction. n774 The various rules of will construction, it is said, "necessarily contain something more than guides for finding subjective intent." n775 When it comes to deed construction, there is even more justification and basis for moving away from an analysis based on subjective intent, inasmuch as the fact that there are two parties makes the process of ascertaining and giving effect to subjective intent practically impossible. n776

With regard to the oft-repeated general rules of will construction, it is only the rule pertaining to "strict construction" that seems to have any genuine effect on the manner in which courts construe deeds. n777 When it comes to the most widely cited specific rules of construction, however, the policy considerations are often quite explicit and detailed.

The constructional rule which presumes that the grantor has conveyed the "greatest estate" possible is but one of many rules n778 which has as its goal the promotion of alienability, a policy deeply ingrained in the common law. n779 The constructional rules which courts have established pertaining to deed calls in ambiguous legal descriptions n780 are heavily fact dependent, as the court attempts to place itself into the position of the parties to the conveyance. In cases of this type, the type of dispute is such as to allow the court to utilize the rules of construction as aids to carrying out the parties' intentions.

The public policy considerations underlying a constructional rule are most evident in the cases in which property bordering upon a street, alley or highway is conveyed. As previously noted, n781 the presumption is that the grantor is conveying whatever interest the grantor owns in the street, alley or highway, along with the described property. This common law rule is based on the public policy of preventing "strips and gores," which policy is clearly and forcefully articulated in the case law. n782 This constructional rule is a "strong" rule of construction, in that there must be clear and explicit language to the contrary to prevent the rule from applying. n783

COMPUTER-ASSISTED RESEARCH

LEXIS: grantor w/10 presum! w/15 conve! w/15 interest w/5 (street or alley or highway)

Given the clearly articulated and strongly held views of the courts pertaining to the "strip and gore" doctrine, it is somewhat surprising to find that the courts have not applied this rationale in other deed construction cases. Recall that one of the more litigated deed construction issues in modern day law pertains to the nature of the estate granted to railroads for the construction and maintenance of a right of way. n784 The standard rules of deed construction are at

odds in cases of this type: the rule presuming the "greater estate" would point in favor of the language being construed as a possessory fee simple estate, rather than as an easement. On the other hand, the "strip and gore" doctrine would favor an easement construction. Given the fact that the two well-recognized and established rules of construction conflict, perhaps it is not surprising that the courts go back to the "intention of the parties" theory of construction, even though the instrument being construed may have been executed over 100 years ago. If the two rules of construction are deemed in conflict, the policies underlying the rules need to be examined and weighed in the context of the particular facts of the case. To decide the case upon the basis of the "intent of the parties" is subject to the criticism that the process engaged in is "entirely fictitious." Much of the same criticism may be directed at those cases in which the courts are construing language pertaining to "exceptions" and "reservations." n785 In these types of cases, the public policy considerations relating to alienability and "strips and gores" are present as well. The courts, however, once again, get mired in considerations of the "intentions of the parties," and fail to consider the relevant policy considerations.

The most vexing question pertaining to constructional issues goes back to the question of ambiguity and the admissibility of extrinsic evidence. n786 By subscribing to the "plain meaning" rule in the interpretation of deed language, the courts in deed construction cases have tended to emulate the approach they have taken in will construction cases. This approach is somewhat understandable, if one considers the fact that deed construction issues go back to the English common law at a time when the deed was being utilized primarily as a family settlement device.

In the present era, there is a growing recognition that in many respects the deed is more like a contract and should be construed by the rules governing contracts. The modern day deed is more likely the culmination of an arm-length business transaction than an inter-family gratuitous transfer. Viewed from a contract-based perspective, deed construction cases should mirror the process courts employ in the interpretation of contracts. In terms of legal theory, this would translate into a greater utilization of and resort to the parol evidence rule. There are an increasing number of cases where courts, faced with the allegation that a deed is ambiguous and needs construction, are resorting to the parol evidence rule to reject the proffered evidence. n787 Along these same lines, the number of recent cases raising issues pertaining to the "merger" rule continue to increase. As a result, courts are being forced to re-examine the underlying policy basis for the "merger" rule. It should not be surprising to find that, while some courts still refer to the "merger" rule in property terms, n788 more and more are the decisions pertaining to merger beginning to take on the appearance of a contracts case. n789

COMPUTER-ASSISTED RESEARCH

LEXIS: plain import w/40 parol w/2 evidence w/30 deed

The growing tendency to construe deeds as contracts should not be surprising, particularly in light of what has occurred in landlord/tenant law. Leases were traditionally regarded as conveyances and governed by property rules. There has been a marked trend in recent years to apply contract principles to leases. A fair number of the deed cases presenting construction issues arise out of the transfer of an easement. In most instances, the easement was bargained for and the deed transferring the easement constituted the performance called for by a contract. Given these circumstances, the tendency of the courts to look to contract principles of interpretation is a natural evolutionary development.

This is not to suggest, however, that the law of contract is the only pathway to follow in deed construction cases. Recall that some deeds are gratuitous transfers, the product of the unilateral act of a grantor. In deed construction cases involving transfers of this type, the contract analogy may be inappropriate.

The general rules of deed construction are generally not outcome-determinative and, therefore, are of limited effect. The more specific rules of deed construction, when examined carefully in terms of their rationales, are not based on "fictitious intent," but on factors that are generally regarded as evidencing sound public policy. While courts should be loathe to impose their own notions of public policy in construing a deed, there are certain circumstances where, it appears, the courts are explicit in articulating the public policy factors entering into the constructional process. So long

as the courts keep within proper limits, and the rationales are clearly articulated, the judicial role is properly served. It is doubtful that the legislature, which created the substantive rules for the validity of a deed, can come up with a set of constructional rules that would provide the necessary certainty and flexibility.

FOOTNOTES:

(n1)Footnote 684. 3 Restatement of Property § 241(1) (1940). Chapter 18 of the Restatement, entitled "General Rules of Construction," is part of Division III -- Future Interests. The general rules of Chapter 18, insofar as they describe the process of construction and indicate the role of extrinsic evidence, have applicability beyond the narrow topic of "future interests."

(n3)Footnote 686. *Id.* at § 242.

(n4)Footnote 687. *See also Vigil v. Sandoval, 741 P.2d 836 (N.M. App. 1987); Jones v. Cox, 629 S.W.2d 511 (Mo. App. 1981).*

(n5)Footnote 688. *See* § 82.08(b), *supra*.

(n6)Footnote 689. *See* § 82.08(c), *supra*.

(n7)Footnote 690. Another example of "construing to validate" is the problem arising from language in the instrument which states that the instrument is to be effective from the date of the grantor's death. This matter will be explored in § 83.03(c), *infra*.

(n8)Footnote 691. In will cases, there is a two-step process: First the instrument is admitted to probate and becomes a "will." Secondly the will is "construed." This neat two-step process suffices in the ordinary will construction case. However, when an informal instrument is offered for probate and the question is whether the requirement of testamentary intent has been met, the courts are forced into the process of "construing" the language of the proffered instrument. If the court finds the requisite testamentary intent, the instrument has been "construed" into being a will. Usually in cases of this type the issue becomes one of admissibility of extrinsic evidence. *See, e.g., Kauffman's Will, 76 A.2d 414 (Pa. 1950).*

(n9)Footnote 692. There is a technical difference between "interpretation" and "construction" in will cases. *See* Atkinson, *supra* n.130, 809-814. In contract law, what is called "construction" in the Restatement of Property is referred to as "interpretation" in the Restatement of Contracts. Restatement of Property § 241, cmt. e.

(n12)Footnote 695. The Restatement of Property states that in regard to "two-party commercial transactions," the conveyor is bound "by the meaning which he reasonably should have anticipated that the conveyee would derive from the language employed." Restatement of Property § 241, cmt. c (1940).

(n13)Footnote 696. Restatement of Property § 241, cmt. d (1940).

(n14)Footnote 697. *See, e.g., Lake View Acres Dev. Co. v. Tindal, 412 S.E.2d 457 (S.C. 1991); Seseney v. Jeffrey, 799 S.W.2d 636 (Mo. App. 1990); Skoog v. Fredell, 332 N.W.2d 333 (Iowa 1983).* Some language from the decisions indicates doubt as to whose intent the court should be looking to. *See, e.g., Hartman v. Potter, 596 P.2d 653 (Utah 1979)* (object of construction is to ascertain intention of the parties, "especially that of grantor"); *Saxon v. Johnson, 393 So. 2d 1007 (Ala. App. 1980)* (court is to ascertain intention of the parties, "especially the grantor"), *cert. denied, Ex*

parte Johnson, 393 So. 2d 1012 (Ala. 1981); Wilson v. Brown, 897 S.W.2d 546 (Ark. 1995) (construction of granted easement); *Williams v. Brown, 267 Ga. 215, 476 S.E.2d 741 (Ga. 1996)* (gratuitous transfer).

(n15)Footnote 698. *See, e.g., Nature Conservancy v. Clayton Kolb, 853 S.W.2d 864 (Ark. 1993); Milligan v. Milligan, 624 A.2d 474 (Me. 1993); Harris v. Ski Park Farms, Inc., 844 P.2d 1006 (Wash. 1993); Crum v. Butler, 601 So. 2d 834 (Miss. 1992); Glover v. Giraldo, 824 P.2d 552 (Wyo. 1992); Crockett v. McKenzie, 867 P.2d 463 (Okla. 1994); Sword v. Sword, 620 N.E.2d 199 (Ohio App. 1993); Foundation for Preservation of Historic Georgetown v. Arnold, 651 A.2d 794 (D.C. App. 1994)* (deeds, *like contracts*, to be construed according to intention of the parties). Recent cases interpreting deed language and the right to strip mine have both emphasized that is the intent of the *parties* that govern. *See Graham v. Drydock Coal Co., 667 N.E.2d 949 (Ohio 1996); Empire Coal Min. & Dev., Inc. v. Department of Envtl. Resources, 678 A.2d 1218 (Pa. Cmmw. 1996).*

(n16)Footnote 699. As to which, see § 82.05(d), *supra*.

(n17)Footnote 700. If one follows the technical distinction between "interpretation" and "construction," the process of determining the meaning of the language is "interpretation"; the process of determining the consequences of that meaning is "construction." *See* Atkinson, *supra* n.130, at 809-814. In deed cases that distinction has not been followed. As an example of a court construing an instrument and then determining its legal effect, one example in the perpetuities area will suffice: A deed, in addition to vesting in the grantee, purports to give the grantor "an option to repurchase" for a fixed price. If this option is unlimited in duration, it is violative of the common law rule against perpetuities. If, however, the court "construes" the deed as creating a right of repurchase that is personal to the grantor, the rule against perpetuities is not violated. The first step, determining whether the option is personal to the grantor, presents a classic deed "construction" issue. If the intent of the parties, as determined by the court, is that the option is not personal to the grantor, that intent cannot be given effect because to do so would violate a positive rule of law. The "intent of the parties" may be the "touchstone," as one court put it, but the authoritative construction may end up invalidating the instrument. Presumably this result is not ordinarily intended by the parties.

(n18)Footnote 701. *Smith v. Nugget Exploration, Inc., 857 P.2d 320 (Wyo. 1993); Smith v. Smith, 622 A.2d 642 (Del. Sup. 1993); Lake View Acres Dev. Co. v. Tindal, 412 S.E.2d 457 (S.C. 1991); Gilich v. Mississippi State Hwy. Comm'n, 574 So. 2d 8 (Miss. 1990); Sally-Mike Props. v. Yokum, 332 S.E.2d 597 (W. Va. 1985).*

(n19)Footnote 702. Many courts emphasize that in interpreting the language of a deed, the question is not what the parties may have *intended* to say, but the meaning of what they *did* say. *American Trading Real Estate Props., Inc. v. Town of Trumbull, 574 A.2d 796 (Conn. 1990); Withington v. Dick, 572 A.2d 912 (Vt. 1990). Smith v. Williams, 779 S.W.2d 479 (Tex. App. 1989), rev'd, 786 S.W.2d 665 (Tex. 1990); Modrzynski v. Wolfer, 651 N.Y.S.2d 782 (App. Div. 1996)* ("Intent" at issue is objective intent of the parties).

(n20)Footnote 703. *Concord Oil Co. v. Pennzoil Exploration & Prod. Co., 878 S.W.2d 191 (Tex. App. 1994)* (expressed intention of parties in deed "may not have been the parties' subjective intent"); *Vines v. McKenzie Methane Corp., 619 So. 2d 1305 (Ala. 1993); Isbrandtsen v. North Branch Corp., 556 A.2d 81 (Vt. 1988); Pocohontas Land Corp. v. Evans, 332 S.E.2d 604 (W. Va. 1985); Amos v. Coffey, 320 S.E.2d 335 (Va. 1984).*

(n21)Footnote 704. *McDonough Co. v. E.I. DuPont de Nemours & Co., 280 S.E.2d 246 (W. Va. 1981). See also Smith v. Smith, 622 A.2d 642 (Del. Super. Ct. 1992)* (if no reasonable doubt as to the meaning of the words of the deed, court's role is limited to application of the meaning of the words).

(n22)Footnote 705. *Gilich v. Mississippi State Hwy. Comm'n, 574 So. 2d 8 (Miss. 1990); Norken Corp. v. McGahan, 823 P.2d 622 (Alaska 1991).* This approach is particularly evident in the case law of Texas. *See, e.g., White v. White, 830 S.W.2d 767 (Tex. App. 1992); Temple-Inland Forest Prods. Corp. v. United States, 988 F.2d 1418 (5th Cir. 1993)* (applying Texas law of deed construction); *Hart v. United States, 945 F. Supp. 1009 (E.D. Tex. 1996)* (applying Texas' "four corners" rule).

In cases involving the scope of easements, there is increasing evidence that courts may be more willing to depart from a strict "four corners" approach. *See Lazy Dog Ranch v. Telluray Ranch Corp., 965 P.2d 1229 (Colo. 1998)* (court cites *Restatement (Third) of Property* and other judicial decisions favoring a "more flexible approach" as opposed to a "strict" four corners approach).

(n23)Footnote 706. *Norken Corp. v. McGahan, 823 P.2d 622 (Alaska 1991); Alabama Medicaid Agency v. Wade, 494 So. 2d 654 (Ala. App. 1986); Bennett v. Henderson, 663 S.W.2d 180 (Ark. 1984).*

(n24)Footnote 707. *Church of God Pentecostal, Inc. v. Freewill Pentecostal Church of God, Inc., 716 So.2d 200 (Miss. 1998); Sylvan Properties Co. v. State Planning Office, 711 A.2d 138 (Me. 1998)* (supreme court's review of deed language found it to be unambiguous, reversing lower court); *Ely v. Briley, 595 S.W.2d 723 (Tex. App. 1998); Iulucci v. James H. Maloy, Inc., 606 N.Y.S.2d 59 (1993); Smith v. Nugget Exploration, Inc., 856 P.2d 320 (Wyo. 1993); Pickens v. Kemper, 847 P.2d 648 (Colo. App. 1993); Phillips Indus. v. Firkins, 827 P.2d 706 (Idaho App. 1992); Vause v. Mikell by Solomonic, 348 S.E.2d 187 (S.C. App. 1986).*

(n25)Footnote 708. *Phillips Indus. v. Firkins, 827 P.2d 706 (Idaho 1992); Williams v. Hawthorne, 601 So. 2d 672 (La. App. 1992); First Hartford Corp. v. Kennebec Water Dist., 490 A.2d 1209 (Me. 1985); Sally-Mike Props. v. Yokum, 332 S.E.2d 597 (W. Va. 1985); Heyen v. Hartnett, 679 P.2d 1152 (Kan. 1984).* It is not always true that a finding of ambiguity opens the door to the receipt of extrinsic evidence. *See James v. Taylor, 969 S.W.2d 672 (Ark. App. 1998)* (statute pertaining to creation of joint tenancy required that evidence of intent to create joint tenancy appear from language of deed).

(n26)Footnote 709. *Phillips Indus. v. Firkins, 827 P.2d 706 (Idaho App. 1992); Russell v. Bryan, 797 S.W.2d 112 (Tex. App. 1990); Latham v. Garner, 673 P.2d 1048 (Idaho 1983); Gregory v. Sanders, 635 P.2d 795 (Wyo. 1981). See also American Trading Real Estate Props., Inc. v. Town of Trumbull, 574 A.2d 796 (Conn. 1990)* ("intent of parties" a question of fact).

(n27)Footnote 710. *Pennsylvania Elec. Co. v. Waltman, 670 A.2d 1165 (Pa. Super. 1995)* ("the court determines whether a written instrument is ambiguous"). *Compare Wintemberg v. Kowal, 1997 WL 35208 (App. Div. 1997)* (where evidence as to parties' actual intent is equivocal, fact question presented); *Phillips Indus. v. Firkins, 827 P.2d 706 (Idaho App. 1992); Whittington v. Whittington, 608 So. 2d 1274 (Miss. 1992); Chambers v. Huggins, 709 S.W.2d 219 (Tex. App. 1985); Knadler v. Adams, 661 P.2d 1052 (Wyo. 1983).*

(n28)Footnote 711. *Monson v. Dwyer, 378 N.W.2d 865 (N.D. 1985).*

(n29)Footnote 712. *Hoglund v. Omak Wood Prods., Inc., 914 P.2d 1197 (Wash. App. 1996)* (if statement is capable of two or more meanings, it is ambiguous); *Allen v. Green, 331 S.E.2d 472 (Va. 1985).*

(n30)Footnote 713. *Prairie Producing Co. v. Schlachter, 786 S.W.2d 409 (Tex. App. 1990).* This statement is not representative in that courts ordinarily do not apply rules of construction until *after* a determination of ambiguity has been made.

(n31)Footnote 714. *Pickens v. Kemper, 847 P.2d 648 (Colo. App. 1993).*

(n32)Footnote 715. *Smith v. Smith, 622 A.2d 642 (Del. Super. Ct. 1993).*

(n33)Footnote 716. Yaali, Ltd. v. Barnes & Noble, Inc., 506 S.E.2d (Ga. 1998); *Whittington v. Whittington, 608 So. 2d 1274 (Miss. 1992); Hudgeons v. Tenneco Oil Co., 796 P.2d 21 (Colo. App. 1991); Isbrandtsen v. North Branch Corp., 556 A.2d 81 (Vt. 1988).*

(n34)Footnote 717. Occasionally courts will refer to a "patent ambiguity" or a "latent ambiguity" but the

"patent-latent" distinction is not brought up. *See Doman v. Brogan, 592 A.2d 104 (Pa. Super. 1991)* (latent and patent); *Mason v. Superior Ct., 210 Cal. Rptr. 63 (1985)* (patent ambiguity); *Ouellette v. Butler, 480 A.2d 76 (N.H. 1984)* (latent ambiguity); *Flanagan v. Prudhomme, 644 A.2d 51 (N.H. 1994)* (patent and latent defects distinguished); *Dillingham v. Ryan, 651 A.2d 833 (Me. 1994); Slipp v. Stover, 651 A.2d 824 (Me. 1994).*

(n35)Footnote 718. *Carson v. Palmer, 190 So. 720 (Fla. 1939).*

(n36)Footnote 719. *Haney's Chapel United Meth. Church v. United Meth. Church, 716 So.2d 1156 (Ala. 1998)* (extrinsic circumstances considered); *Lawton v. Richmond, 690 A.2d 953 (Me. 1997)* (when latent ambiguity occurs, court determines intention of grantor from "contemporaneous circumstances and rules of construction"); *Flanagan v. Prudhomme, 644 A.2d 51 (N.H. 1994); Hare v. McClellan, 662 A.2d 1242 (Conn. 1995)* (circumstances surrounding execution considered); *Lakeview Assoc. v. Woodlake Master Cond. Assoc., 687 A2d 1270 (Conn. 1997)* (always "admissible to consider" situation of the parties and surrounding circumstances); *Phillips v. Fox, 458 S.E.2d 327 (W. Va. 1995)* (implied grant of right to surface mine); *Harris v. Ski Park Farms, Inc., 844 P.2d 1006 (Wash. 1993); Milligan v. Milligan, 624 A.2d 474 (Me. 1993); Norken Corp. v. McGahan, 823 P.2d 622 (Alaska 1991).*

(n37)Footnote 720. *Doman v. Brogan, 592 A.2d 104 (Pa. Super. 1991); Riverchase Homeowners Protective Ass'n v. City of Hoover, 531 So. 2d 645 (Ala. 1988); Heyen v. Hartnett, 679 P.2d 1152 (Kan. 1984); MacKay v. Breault, 427 A.2d 1099 (N.H. 1981).*

(n38)Footnote 721. *Milligan v. Milligan, 624 A.2d 474 (Me. 1993); Sally-Mike Props. v. Yokum, 332 S.E.2d 597 (W. Va. 1985); Heyen v. Hartnett, 679 P.2d 1152 (Kan. 1984).*

(n39)Footnote 722. *E.g., Riverchase Homeowners Protective Ass'n v. City of Hoover, 531 So. 2d 645 (Ala. 1988); Ouellette v. Butler, 480 A.2d 76 (N.H. 1984).*

(n40)Footnote 723. *E.g., Bernard v. Nantucket Boys' Club, 465 N.E.2d 236 (Mass. 1984).* When courts are construing deeds executed many years ago, the dearth of evidence as to surrounding circumstances makes resort to rules of construction a practical necessity.

(n41)Footnote 724. *Ashley v. Baker, 867 P.2d 792 (Alaska 1994); Foundation for Preservation of Historic Georgetown v. Arnold, 651 A.2d 794 (D.C. App. 1995)* (extrinsic evidence considered first, then, if necessary, court will resort to rules of construction); *Norken Corp. v. McGahan, 823 P.2d 622 (Alaska 1991).*

(n42)Footnote 725. *Pursue Energy Corp. v. Perkins, 558 So. 2d 349 (Miss. 1990)* (mineral deed).

(n43)Footnote 726. *Latchis v. John, 85 A.2d 575 (Vt. 1952); Swope v. Pageton Pocohontas Coal Co., 41 S.E.2d 691 (W. Va. 1947).*

(n44)Footnote 727. Purlo Corp. v. 3925 Woodward Ave., 67 N.W.2d 684 (Mich. 1954) (only purpose of rules of construction is to enable the court to reach probable intent of parties when it is not otherwise available).

(n45)Footnote 728. Blackstone, *supra* n.1, at *379-380.

(n46)Footnote 729. *Grill v. West Virginia R.R. Maint. Auth., 423 S.E.2d 893 (W. Va. 1992); Urbaitis v. Commonwealth Edison, 575 N.E.2d 548 (Ill. 1991); Gilich v. Mississippi State Hwy. Comm'n, 574 So. 2d 8 (Miss. 1990); Gasway v. Reiter, 736 P.2d 749 (Wyo. 1987); Chambers v. Huggins, 709 S.W.2d 219 (Tex. App. 1985); Heyen v. Hartnett, 679 P.2d 1152 (Kan. 1984).* This rule goes back to Blackstone's time. *See* W. Blackstone, *supra* n.1, at 379-380 ("the construction be placed on the entire deed, and not merely upon disjointed parts of it").

(n47)Footnote 730. *Loveland v. CSX Transp., Inc., 622 So. 2d 1120 (Fla. App. 1993); Carter v. Heitzman, 603 N.Y.S.2d 614 (N.Y. 1993); Luckel v. White, 819 S.W.2d 459 (Tex. 1991); Pursue Energy Corp. v. Perkins, 558 So. 2d*

349 (Miss. 1990); Bennett v. Henderson, 663 S.W.2d 180 (Ark. 1984); Goin v. Eater, 438 N.E.2d 234 (Ill. App. 1982). This rule as well is derived from Blackstone. *See* Blackstone, *supra* n.1, at *380 ("therefore every part of it be (if possible) made to take effect; and no word but what may operate in some shape or another").

(n48)Footnote 731. *E.g., Harris v. Ski Park Farms, Inc., 844 P.2d 1006 (Wash. 1993); D'Addario v. D'Addario, 603 A.2d 1199 (Conn. App. 1992); Heyen v. Hartnett, 679 P.2d 1152 (Kan. 1984); Loveland v. CSX Transp., Inc., 622 So. 2d 1120 (Fla. App. 1993)* (rule applied to deed "restriction"); *Notch Mountain Corp. v. Elliott, 898 P.2d 1081 (Colo. 1995)* (ambiguities in reservation construed against grantor).

(n49)Footnote 732. *Rath v. Haycock, 905 P.2d 854 (Or. App. 1995); Wilson v. Brown, 897 S.W.2d 546 (Ark. 1995); Messner v. Moorehead, 787 P.2d 1270 (Okla. 1990); Bennett v. Henderson, 663 S.W.2d 180 (Ark. 1984); Baker v. Gulf Transmission Co., 218 So. 2d 39 (Miss. 1969). See also Williams v. Phillips Petr. Co., 453 F. Supp. 967 (S.D. Ala. 1978).* Once again, this rule goes back to Blackstone, who had written that a deed "be taken most strongly against him that is the agent of the contractor, and in favour of the other party." Blackstone, *supra* n.1, at *380. However, Blackstone went on to distinguish between a deed indenture and a deed-poll, with the latter being construed "against the grantor," as the words of the deed "are the words of the grantor only." *Id.*

(n50)Footnote 733. Blackstone, *supra* n.1, at *298.

(n51)Footnote 734. *Id.*

(n52)Footnote 735. Kent, *supra* n.2, at 456.

(n53)Footnote 736. *Id.* at 453.

(n54)Footnote 737. *See* A.L.P., *supra* n.94, at § 12.47. The most prominent of these rules was the rule that the estate created by the granting clause could not be cut down or invalidated by the habendum or other language in the deed. This rule, dubbed the "repugnancy rule," has gradually faded into oblivion, although an occasional decision may refer to it and, in an isolated instance, apply it. *See* Cunningham, Stoebuck & Whitman, *supra* n.11, at 768 nn.60-62. *Smith v. Nugget Exploration, Inc., 857 P.2d 320 (Wyo. 1993)* (doctrine of repugnancy not recognized); *Grennan v. Solomon, 252 Va. 50, 472 S.E.2d 54 (Va. 1996)* (estate unequivocally granted in one part of instrument will not be diminished or destroyed by inconsistent language in another part of instrument).

(n55)Footnote 738. *E.g., Batesburg-Leesville Sch. Dist. No. 3 v. Tarrant, 361 S.E.2d 343 (S.C. App. 1987); Grayson v. Holloway, 313 S.W.2d 555 (Tenn. 1958). But see Goodson v. Capehart, 349 S.E.2d 130 (Va. 1986)* (granting clause always prevails over other parts of deed).

(n56)Footnote 739. *See, e.g., Knell v. Price, 569 A.2d 636 (Md. 1990)* (habendum clause prevailed over granting clause); *Anderson v. Jackson County Bd. of Educ., 333 S.E.2d 533 (N.C. App. 1985); Jolynne Corp. v. Michels, 446 S.E.2d 494 (W. Va. 1994)* (habendum clause in oil and gas lease known as "term" clause); *In re Laurel Run Corp., 166 B.R. 242 (Bankr. M.D. Pa. 1994)* (habendum clause cannot be used to expand grant); *Elton Schmidt & Sons Farm Co. v. Kneib, 507 N.W.2d 305 (Neb. App. 1993)* (granting clause prevails over habendum and description clauses).

(n57)Footnote 740. *E.g., Ellette v. Liedtke, 668 S.W.2d 880 (Tex. App. 1984)* (granting one half of "an undivided interest" in property held void); *Dahlberg v. Holden, 238 S.W.2d 699 (Tex. 1951)* (granting clause conveying "an undivided interest" legally insufficient).

(n58)Footnote 741. *State Dep't of Rds. v. Union Pac. R.R., 490 N.W.2d 461 (Neb. 1992); Harrell v. McMeans, 598 So. 2d 957 (Ala. App. 1992); Davies v. Radford, 433 N.W.2d 704 (Iowa 1988); Farmers Reservoir & Irrig. Co. v. Sun Prod. Co., 721 P.2d 1198 (Colo. App. 1986).* State statutes are often cited in the judicial opinions as providing the basis for the rule that a grantor's entire estate passes unless an intent to convey a lesser estate if effectively manifested.

(n59)Footnote 742. *Goodson v. Capehart, 349 S.E.2d 130 (Va. 1986); Mercer v. Bludwurth, 715 S.W.2d 693 (Tex. App. 1986); Stevens Mineral Co. v. State, 418 N.W.2d 130 (Mich. App. 1987).* This rule is sometimes stated in the context of another rule -- the deed will be "strictly construed" against the grantor. *Jolynne Corp. v. Michels, 446 S.E.2d 494 (W. Va. 1994). But see, Concord Oil Co. v. Pennzoil Exploration & Prod. Co., 878 S.W.2d 191 (Tex. App. 1994)* (greatest estate "canon" not appropriate in multi-grant case); *Ritz v. Indiana and Ohio R.R., 632 N.E.2d 769 (Ind. App. 1994)* (railroad right-of-way case; presumption against fee passing).

(n60)Footnote 743. Recent examples are: *Cole v. Thrasher, 272 S.E.2d 696 (Ga. 1980)* (life estate created); *Hacker v. Carlisle, 388 So. 2d 947 (Ala. 1980).*

(n61)Footnote 744. Cases holding that an easement was created: *CSX Transp., Inc. v. Rabold, 691 N.E.2d 1275 (Ind. App. 1998); Drazich v. Lasson, 964 P.2d 324 (Utah App. 1998); Crowell Land and Mineral Corp. v. Verneco, Inc., 610 So. 2d 1078 (La. App. 1993); City of Eunice v. Sunland Props., Inc., 597 So. 2d 1198 (La. App. 1992); Estate of Rockafellow v. Lihs, 494 N.W.2d 734 (Iowa App. 1992); Buhl v. U.S. Sprint Commun. Co., 840 S.W.2d 904 (Tenn. 1992); Notelzah v. Destival, 489 N.W.2d 744 (Iowa 1992); Crum v. Butler, 601 So. 2d 834 (Miss. 1992); Quarry Office Park Assocs. v. Philadelphia Elec. Co., 576 A.2d 358 (Pa. Super. 1990); City of Boyne City v. Crain, 446 N.W.2d 348 (Mich. App. 1989); Brewer and Taylor Co. v. Wall, 769 S.W.2d 753 (Ark. 1989); Lincoln Sav. & Loan Ass'n v. State, 768 P.2d 733 (Colo. App. 1988); Brown v. Penn Cent. Corp., 510 N.E.2d 641 (Ind. 1987); Roeder Co. v. Burlington N., Inc., 716 P.2d 855 (Wash. 1986).*

Cases holding that a fee simple was created: *Grill v. West Va. R.R. Maint. Auth., 423 S.E.2d 893 (W. Va. 1992); State Dep't of Rds. v. Union Pac. R.R., 490 N.W.2d 461 (Neb. 1992); Machado v. Southern Pac. Transp. Co., 284 Cal. Rptr. 560 (1991); Concord & Bay Land Co. v. City of Concord, 280 Cal. Rptr. 623 (1991); Maberry v. Gueths, 777 P.2d 1285 (Mont. 1989); Penn Cent. Corp. v. Commonwealth Edison Co., 512 N.E.2d 118 (Ill. App. 1987); Sowers v. Illinois Cent. Gulf R.R. Co., 503 N.E.2d 1082 (Ill. App. 1987). In re Laurel Run Corp., 166 B.R. 242 (Bankr. M.D. Pa. 1994); Bidstrup v. Brignac, 631 So. 2d 637 (La. App. 1994); Elton Schmidt & Sons Farm Co. v. Kneib, 507 N.W.2d 305 (Neb. App. 1993).* The Georgia Supreme Court noted that the railroad's interest in the right of way terminated upon abandonment regardless of whether the granted interest was an easement or a defeasible fee. *Giddens v. Barrantine, 448 S.E.2d 441 (Ga. 1994). Giddens* is an example of the type of case where the "fee v. easement" characterization does not accurately portray the actual issue.

Some of the cases involve the application of federal statutes or state eminent domain statutes. *Harris v. Ski Park Farms, Inc., 844 P.2d 1006 (Wash. 1993); Nature Conservancy v. Kolb, 853 S.W.2d 864 (Ark. 1993); City of Maroa v. Illinois Cent. R.R., 592 N.E.2d 660 (Ill. App. 1992); Estoril Producing Corp. v. Murdock, 822 P.2d 129 (Okla. App. 1991); Abrams v. Royse, 569 N.E.2d 1329 (Ill. App. 1991); Westman v. Kiell, 455 N.W.2d 45 (Mich. App. 1990).*

Conveyances of a "right of way" for a road or highway are usually found to be grants of easements. *See Greaves v. McGee, 492 So. 2d 307 (Ala. 1986); Chournos v. D'Agnillo, 642 P.2d 710 (Utah 1982)* (words "right of way" usually construed as grant of easement, citing cases); *Titeca v. State, 634 P.2d 1156 (Mont. 1981). But see American Trading Real Estate Props., Inc. v. Town of Trumbull, 574 A.2d 796 (Conn. 1990)* ("for purpose of a road or passage way" not indicative of easement; fee simple created).

The most recent cases favor the construction of fee passing to the railroad rather than an easement. *See Tazian v. Cline, 673 N.E.2d 485 (Ind. App. 1996)* (fee simple rather than easement), *aff'd, 686 N.E.2d 95 (Ind. 1997); Brown v. State, 924 P.2d 908 (Wash. 1996)* (statutory warranty deed form; fee simple created); *City of Manhattan Beach v. Superior Court, 52 Cal. Rptr. 2d 82 (Cal. 1996)* ("remise, release and quitclaim" language of fee simple preferred over "right of way" easement language); *Chevy Chase Land Co. v. United States, 37 Fed. Cl. 545 (Fed. Cl. 1997)* (fee simple absolute granted); *City and County of San Francisco v. Union Pac. R.R., 58 Cal. Rptr. 2d 1 (Cal. App. 1996)* (the preference for fee simple over easement has also been applied in a grant to a city for an aqueduct).

(n62)Footnote 745. In the law of estates, the following are examples of some of the standard rules of construction: (1) as between a fee simple determinable and a fee simple upon a condition subsequent, the latter is preferred; (2) language that might be construed as creating a defeasible fee simple will be construed to create a covenant, a trust, or an equitable charge, if the language permits of such construction; (3) there is a constructional preference for vested estates over contingent estates. Numerous constructional rules exist in the law of class gifts, most notably, the "rule of convenience" pertaining to maximum membership in a class (the class closing rules). Another well-recognized constructional rule from the law of concurrent estates is the preference for a tenancy in common over a joint tenancy.

(n63)Footnote 746. *See* Chs. 17-27; 31-32 *supra*.

(n64)Footnote 747. *See* West's Legal Forms, ch. 32 (2d ed. 1986).

(n65)Footnote 748. *See* A.L.P., *supra* n.94, at § 12.87. *See also Olmos v. Pecan Grove Mun. Util. Dist., 857 S.W.2d 734 (Tex. App. 1993)* (absent specific reservation in deed, building and other improvements constituting appurtenances pass as a matter of course).

(n66)Footnote 749. *McIlvaine v. Florida E. Coast Ry., 568 So. 2d 462 (Fla. App. 1990)* (restricted meaning given to "appurtenance" in context of deed to railroad).

(n67)Footnote 750. *Dimond v. Kelly, 629 P.2d 533 (Alaska 1981)* (conveyance of building carries with it undescribed land).

(n68)Footnote 751. *See* § 82.08(c), *supra*.

(n69)Footnote 752. *Milligan v. Milligan, 624 A.2d 474 (Me. 1993); Garrett v. Locke, 419 S.E.2d 842 (S.C. App. 1992); Morris v. Sigur, 584 So. 2d 729 (La. App. 1991); Spainhour v. B. Aubrey Huffman & Assocs., 377 S.E.2d 615 (Va. 1989); Thomas v. Brown, 535 N.Y.S.2d 836 (1988); D.D. & L., Inc. v. Burgess, 753 P.2d 561 (Wash. App. 1988); Franks v. Burks, 688 S.W.2d 435 (Tenn. App. 1984); Chao v. Richey, 455 A.2d 1008 (N.H. 1982). In re St. James Methodist Church of Hahnville, 666 So. 2d 1206 (La. App. 1995); Koennicke v. Maiorano, 682 A.2d 1046 (Conn. App. 1996)* (monuments over course and distance); *Snyder v. Haagen, 679 A.2d 510 (Me. 1996)* (hierarchy detailed in text described as the "familiar rule"). *Compare Modrzynski v. Wolfer, 651 N.Y.S.2d 782 (App. Div. 1996)* (discrepancy between measured distance and distances set forth in deed "does not create ambiguity in an otherwise unambiguous deed").

(n70)Footnote 753. *See Milligan v. Milligan, 624 A.2d 474 (Me. 1993)* (two dissenting judges regarded majority's application of rule as "mechanistic" and producing an "absurd" result). *Pennsylvania Elec. Co. v. Waltman, 670 A.2d 1165 (Pa. Super. 1995)* (course and distance given priority over natural monument).

(n71)Footnote 754. *Near v. Calkins, 946 P.2d 537 (Colo. App. 1997)* (highway rule applied); *Besneatte v. Gourdin, 21 Cal. Rptr. 2d 82 (1993); Christian v. Purdy, 808 P.2d 164 (Wash. App. 1991); Tidewater Area Charities, Inc. v. Harbour Gate Owners Ass'n, 396 S.E.2d 661 (Va. 1990); Belfast Water Dist. v. Larrabee, 570 A.2d 828 (Me. 1990); Town of Moorcroft v. Lang, 779 P.2d 1180 (Wyo. 1989).*

The usual rule may not apply if the grantor is a municipality. *See City of Albany v. State of N.Y., 270 N.E.2d 705 (N.Y. 1971). But see City of Webster v. City of Houston, 855 S.W.2d 176 (Tex. App. 1993).*

(n72)Footnote 755. *Descendants of Bulloch, Bussey & Co. v. Fowler, 475 S.E.2d 587 (Ga. 1996); Smith v. Smith, 622 A.2d 642 (Del. 1993); Roeder Co. v. Burlington N., Inc., 716 P.2d 855 (Wash. 1986).*

(n73)Footnote 756. *Burnham v. City of Farmington, 956 P.2d 1163 (N.M. App. 1998)* (river); *Stott v. Stevens, 873 P.2d 380 (Or. App. 1994)* (property bordering on ocean); *Glover v. Giraldo, 824 P.2d 552 (Wyo. 1992); Selkirk Island Corp. v. Standley, 683 S.W.2d 793 (Tex. App. 1984); Nilsson v. Latimer, 664 S.W.2d 447 (Ark. 1984).*

(n74)Footnote 757. *Estes v. Barry, 967 P.2d 284 (Idaho 1998)* (merger applied to bar evidence of purchaser's understanding of obligation to repay FHA "recapture" liability contained in warranty deed); 40 *North Corporation v. Morrell, 964 P.2d 423 (Wyo. 1998)* (subordination agreement contained in contract merged into deed); *Cleveland v. Tinaglia, 582 N.W.2d 720 (S.D. 1998)* (dispute over extent of easement; merger rule applied); *City of Memphis for Use & Benefit of State v. Moore, 818 S.W.2d 13 (Tenn. App. 1991); G.G.A., Inc. v. Leventis, 773 P.2d 841 (Utah App. 1989);* 37 *Robinswood Assocs. v. Health Indus., 547 N.E.2d 1019 (Ohio App. 1988); Reed v. Hassell, 340 A.2d 157 (Del. Super. 1975).*

Pennsylvania Elec. Co. v. Waltman, 670 A.2d 1165 (Pa. 1995) (option merged into deed); *Alexy v. Salvador, 630 N.Y.S.2d 133 (N.Y.A.D. 1995)* (contract providing for beach privileges merged into deed). If the parties stipulate in the contract that the purchase and sale agreement will be abrogated upon closing, it is likely the court will apply the merger doctrine. *See Schafir v. Harrigan, 879 P.2d 1384 (Utah App. 1994)* ("abrogation clause" in purchase agreement; merger applied); *Embassy Group v. Hatch, 865 P.2d 1366 (Utah 1993)* ("abrogation clause" present; merger applied). If the covenant in question relates to or is connected with "the title, possession, quantity or emblements" of the land, the merger doctrine will be applied. *See Urquart v. Teller, 958 P.2d 714 (Mont. 1998)* (merger rule applied; covenants relating to construction of improvements and transfer of property); *S. Utsunomiya Enters., Inc. v. Moomuku Country Club, 866 P.2d 951 (Haw. 1994)* (agreement to deliver property not subject to any liens; merger applied); *Analytical Measurements, Inc. v. Keuffel & Esser Co., 843 F. Supp. 920 (D.N.J. 1993)* (hazardous waste on property; merger language dicta since covenant against encumbrance was contained in deed); *Quigley, Inc. v. Miller Family Farms, 629 A.2d 110 (N.J. Super. 1993)* (claimed "right of access" in reality an easement; policy underlying merger doctrine undermined if "easement by estoppel" is upheld); *Village of Warsaw v. Gott, 649 N.Y.S.2d 605 (App. Div. 1996)* (contract of sale merged into deed); *Boser v. Boser, 239 A.D.2d 924, 654 N.Y.S.2d 509 (App. Div. 1997)* (separation agreement provision merged into deed); *Hunt v. Kojac, 666 N.Y.S.2d 330 (App. Div. 1997)* (contract provision relating to location of leach field and septic system merged into deed).

Reliance by a court upon the quoted language above relating to "title, possession, quantity or emblements" is both a test for determining when the merger doctrine applies and when the "collateral exception" applies. Note that under this approach merger is viewed primarily as a titles doctrine.

(n75)Footnote 758. *Barnhart v. Gold Run, Inc., 843 P.2d 545 (Wash. App. 1993); Dobrusky v. Isbell, 740 P.2d 1325 (Utah 1987).*

(n76)Footnote 759. *Haronian v. Quattrocchi, 653 A.2d 729 (R.I. 1995)* (option merged into deed); *Resolution Trust Co. v. Kahn, 501 N.W.2d 703 (Minn. App. 1993); Noufrios v. Murat, 598 N.Y.S.2d 82 (1993).*

(n77)Footnote 760. *Hill v. Spencer & Son, Inc., 973 S.W.2d 772 (Tex. App. 1998)* (merger doctrine not applicable to cases involving "accident, fraud, or mistake"); *GXG, Inc. v. Texacal Oil & Gas, 977 S.W.2d 403 (Tex. App. 1998)* (merger doctrine not applicable where deed was "ambiguous"); *Taylor v. Seaman, 932 S.W.2d 912 (Mo. App. 1996)* (merger not applicable where no evidence of deed's existence was lacking); *Roberts v. Roberts, 856 S.W.2d 28 (Ark. App. 1993); Embassy Group v. Hatch, 865 P.2d 1366 (Utah 1993)* (similarly, if grounds for reformation exist, the merger doctrine will not be applied); *Voss v. Brooks, 907 P.2d 465 (Alaska 1995).* Conversely, if grounds for reformation do not exist, merger will be applied. *Bryan v. Breyer, 665 A.2d 1020 (Me. 1995)* (if mistake is found, merger will not be a bar); *Groff v. Kohler, 922 P.2d 870 (Ala. 1996)* (grounds for reformation did not exist); *West v. Bowen, 898 P.2d 59 (Idaho 1995). See* also *Fitton v. Barrington Realty Co., 273 Ill. App. 3d 1017 (Ill. App. 1995)* (sale of real estate by acreage; no merger if misrepresentation or mistake present).

Compare Beal v. Schewe, 291 Ill. App. 3d 204, 683 N.E.2d 1019 (Ill. App. 1997) (sale in gross; merger doctrine applied). According to a Utah court, there are four exceptions to the merger doctrine: (1) mutual mistake in the drafting of the instrument; (2) ambiguity in the final documents; (3) existence of rights collateral to the contract of sale; and (4) fraud in the transaction. *Maynard v. Wharton, 912 P.2d 446 (Utah App. 1996); Winberg v. Cinfel, 532 N.W.2d 35 (Neb.*

1995) (merger not applicable unless the contract and the deed relate to the same lands); *Holec v. Heartland Bldrs., Inc., 600 N.E.2d 489 (Ill. App. 1992); Purbaugh v. Jurgensmeier, 483 N.W.2d 757 (Neb. 1992); Grahn v. Gregory, 800 P.2d 320 (Utah App. 1990); Hammerquist v. Warburton, 458 N.W.2d 773 (S.D. 1990).*

(n78)Footnote 761. *See generally* the discussion in *Knight v. McCain, 531 So. 2d 590 (Miss. 1988)* listing decisions from thirty-seven jurisdictions recognizing that collateral or independent agreements are not merged into the deed. With the decision in *Knight*, Mississippi became the thirty-eighth state; Nebraska became the thirty-ninth state in 1992. *See Purbaugh v. Jurgensmeier, 483 N.W.2d 757 (Neb. 1992). See also Bruggeman v. Jerry's Enterprises, Inc., 583 N.W.2d 299 (Minn. App. 1998)* (agreement to repurchase deemed both a "condition subsequent and "collateral"). The remaining states have not yet addressed the issue.

(n79)Footnote 762. *New Prospect Area Fire Dist. v. New Prospect Ruritan Club, 429 S.E.2d 791 (S.C. 1993)* (where deed constitutes only "part performance" of contract, other distinct and unperformed contract provisions are not merged); *Andreychak v. Lent, 607 A.2d 1346 (N.J. Super. 1992)* (contract covenants not necessarily satisfied by execution and delivery of deed are collateral and not merged).

(n80)Footnote 763. *Hammerquist v. Warburton, 458 N.W.2d 773 (S.D. 1990)* (test as whether agreement is collateral depends, in part, "on whether the collateral contract forms an integral part of the principal purpose of the deed, namely conveyance of title and quantity of land").

(n81)Footnote 764. *Maynard v. Wharton, 912 P.2d 446 (Utah App. 1996)* (merger doctrine "an admittedly harsh rule of law"); *Alvardo v. Bolton, 749 S.W.2d 47 (Tex. 1988)* (referring to the merger rule, "no rule of law is better settled") (Wallace, J., dissenting).

(n82)Footnote 765. Some courts are more forthright on this point than others. In determining whether an agreement will be characterized as collateral, many courts stress the parties' intent. *See, e.g., Andreychak v. Lent, 607 A.2d 1346 (N.J. Super. 1992); Hammerquist v. Warburton, 458 N.W.2d 773 (S.D. 1990); Reed v. Hassell, 340 A.2d 157 (Del. Super. Ct. 1975).* If a court is inclined to apply the "collateral agreement" exception, it is likely that the court will stress the parties' intent.

Hansen v. Stichting Mayflower Recreational Funds, 898 F. Supp. 1503 (D. Utah 1995) (parties' intent relevant only if "collateral" terms are involved, not matters of title). If the parties expressly stipulate that a particular covenant is to survive closing, some courts reject the merger doctrine on the basis that the parties did not intend to have the particular duty abrogated by a subsequent deed. *See Rubell v. Finkelstein, 679 So. 2d 889 (Fla. App. 1996)* (parties agreed that warranties would survive closing); *Carstensen v. Chrisland Corp., 442 S.E.2d 660 (Va. 1994)* (contract provision relating to future encumbrances by vendor stipulated that "this provision will survive settlement"; merger not applied); *H.R. Jay Realty v. Gross, 611 N.Y.S.2d 578 (1994)* (contract of sale contained one-year guarantee against defects which "guarantee was to survive closing"; merger not applied). If a court approaches the merger doctrine from the perspective of the parties' intent, there is no necessity that this intent be found in a writing. *See Roberts v. Roberts, 856 S.W.2d 28 (Ark. App. 1993)* (property settlement agreement rendered in divorce proceeding not merged because it "was not intended by the parties to be merged in the deed"). Under the rationales employed in the opinions cited in this paragraph, it is patently clear that the merger doctrine is not a rule of law, but a rule of construction. The same may be said of the cases relying upon an "abrogation clause." *See* note 756 *supra*.

If the contract calls for future performance by seller after closing, and that is expressly stipulated in the contract, the courts have little difficulty in concluding that the parties did not intend to merger the agreement into the contract. *See Lanterman v. Edwards, 689 N.E.2d 1221 (Ill. App. 1998)* (warranty in real estate sales contract not merged); *Davis v. Tazewell Place Assoc., 492 S.E.2d 162 (Va. 1997)* (express warranty contained in sale of townhouse not merged); *See Lasher v. Paxton, 956 P.2d 647 (Colo. App. 1998)* (attorney fee covenant not merged into deed); *Timothy Christian Schs. v. Village of Western Springs, 675 N.E.2d 168 (Ill. App. 1996)* (court order not merged in deed); *Wyatt v. Palmer, 683 A.2d 1353 (Vt. 1996)* (agreement to build house); *Olivier v. Alden, 634 N.E.2d 418 (Ill. App. 1994)* (two provisions

of contract merged into deed; third provision, relating to seller's obligation for six months after closing not merged); *Kelsey v. Nathey, 869 S.W.2d 213 (Mo. App. 1993)* (seller's promise to repair septic tank survived closing; deemed "collateral"). *Goldsmith v. Knapp, 637 N.Y.S.2d 343 (N.Y.A.D. 1996)* (post-closing maintenance duties); *Gaudet v. Starr, 451 S.E.2d 476 (Ga. App. 1994)* (agreement to make repair caused by termite infestation). *Compare Link v. Breen, 649 N.E.2d 126 (Ind. App. 1995)* (termite infestation clause in agreement not a warranty; merger applied). *See also Greco v. Vollmer, 890 S.W.2d 307 (Mo. App. 1994)* (contractual arrangements "to be performed at successive periods do not merge into the deed").

(n83)Footnote 766. *Sullivan v. Chesire, 380 S.E.2d 294 (Ga. App. 1989).*

(n84)Footnote 767. Many years ago Professor Atkinson observed that will construction issues accounted for "most" of the litigation in connection with decedents' estates. Atkinson, *supra* n.130, at 809.

(n85)Footnote 768. Atkinson, *supra* n.130, at 816.

(n86)Footnote 769. Professors Simes and Smith were sensitive to this point. In a footnote reference to deed construction, they observed that "deeds, like contracts, may be the result of a bilateral transaction involving the intentions of two or more persons." Simes & Smith, *supra* n.692, § 463, at 450 n.8. The Restatement of Property makes the same point in the context of donative and non-donative transfers. *See* Restatement of Property § 241, cmt. d (1940).

(n87)Footnote 770. Atkinson, *supra* n.130, at 815.

(n88)Footnote 771. Simes & Smith, *supra* n.692, § 465. Atkinson, *supra* n.130 at 816. Of course, the two bases are not mutually exclusive since the policy bases are, in the usual case, reflective of what the average testator intended.

(n89)Footnote 772. *See* William M. McGovern, *Facts and Rules in the Construction of Wills, 26 UCLA L. Rev. 285 (1978)* (hereinafter "McGovern"). Professor McGovern's article considers whether rules of construction in will cases provide "useful clues" to the testator's intent. He concludes that many of the rules of will construction do reflect "common sense assumptions concerning the normal testator's desires" and thus further the primary goal of will construction: effectuation of the testator's intent. At the same time, however, Professor McGovern maintains that in many situations the facts surrounding the will execution provide "more reliable guides than the words of the will." *Id. at 286.*

(n90)Footnote 773. Recall the distinction between donative and non-donative transfers, a distinction not mentioned in the case law, but noted by some of the authorities.

(n91)Footnote 774. Simes & Smith, *supra* n.692, § § 465, 468; Atkinson, *supra* n.130, at 816. Professor McGovern's article, *supra* n.771, lists policy bases for the various rules of construction in the law of estates.

(n92)Footnote 775. Simes & Smith, *supra* n.692, § 465 at 454.

(n93)Footnote 776. This approach is premised on the fact that a deed is a bilateral agreement, not the unilateral act of the grantor.

(n94)Footnote 777. *See* text at notes 730-731, *supra*. The rule construing an instrument strictly against the maker or preparer is prominent in contract law. Presumably the policy justifications for application of the rule in a contract setting apply with equal force in a deed setting.

(n95)Footnote 778. *See* McGovern, *supra* n.771, at 293-299. Professor McGovern's listing of constructional rules promoting alienability are not limited to interests created by will.

(n96)Footnote 779. *See* Restatement (Second) of Property (Donative Transfers) (Part II) 142-44 (Introductory Note) (1983).

(n97)Footnote 780. *See* § 82.13(c)(2) *supra*.

(n98)Footnote 781. *See text* at n.753 *infra*.

(n99)Footnote 782. One of the more explicit articulations of this doctrine is contained in *Bowers v. Atchison, T. & S.F. Ry., 237 P. 913 (Kan. 1925)* ("Experience revealed that separate ownership of long narrow strips of land distinct from the territory adjoining on each side, was prolific of private dispute and public disturbance, and public policy became an important factor in the interpretation.") The courts of Texas refer to this rule as the "strip and gore doctrine." *State v. Brazos River Harbor Nav. Dist., 831 S.W.2d 539 (Tex. App. 1992).* The Wyoming Supreme Court refers to this doctrine as the "presumed intent rule." *Town of Moorcroft v. Lang, 779 P.2d 1180 (Wyo. 1989).* In California the rule is referred to as the "doctrine of marginal streets." *Besneatte v. Gourdin, 21 Cal. Rptr. 2d 82 (1993).* California and Illinois have statutory rules of construction applicable to cases of this type. *See* Cal. Civil Code § 1112; Ill. Comp. Stat. ch. 765, § 5/7a.

(n100)Footnote 783. Professor Simes points to this distinction in regard to rules of construction in the context of future interests cases. *See* Lewis Simes, Handbook of the Law of Future Interests 183 (2d ed. 1966).

(n101)Footnote 784. *See* text at n.743 *supra*.

(n102)Footnote 785. *See* § 82.09(c)(2), *supra*. For recent examples of courts taking into account public policy considerations and departing from the more traditional approach of relying upon well-settled rules of construction, see the discussion at note 364 *supra*.

(n103)Footnote 786. The Simes and Smith analysis of "Theories of Construction" is one of the most carefully thought out reflections on the constructional process. These authors, however, finessed one of the most difficult issues when they stated the problem they were considering assumed "that all relevant evidence is before the court and there is still an ambiguity." Simes & Smith, *supra* n.692, § 465, at 452 n.10.

(n104)Footnote 787. *See, e.g., Wechsler v. New York State Dep't of Envtl. Conserv., 597 N.Y.S.2d 507 (App. Div. 1993); Schulz v. Miller, 837 P.2d 71 (Wyo. 1992).* The North Dakota Supreme Court has held that the North Dakota statutory parol evidence rule (N.D. Cent. Code § 9-06-07) applies to deeds. *Redspinner v. Charlesworth, 369 N.W.2d 109 (N.D. 1985).* The Supreme Court of Kansas, in refusing to admit extrinsic evidence to alter deed language it judged unambiguous, noted that the rule being applied was obvious, for "were it otherwise little protection would be afforded by the rule against modification of the terms of a written agreement by parol testimony." *Siegel v. Hackler, 310 P.2d 914 (Kan. 1957). Langman v. Alumni Ass'n of the U. of Va., 442 S.E.2d 669 (Va. 1994)* (parol evidence rule applies to deeds); *Abercrombie v. Hayden Corp., 883 P.2d 845 (Or. 1994)* ("Quitclaim deeds are within the parol evidence rule.") There is evidence that state appellate courts are beginning to resort to contract rules in the construction of deeds. *See Khamis Enters., Inc. v. Boone, 480 S.E.2d 364 (Ga. App. 1997)* (rules of contract law apply in interpreting easements); *United States v. Johansen, 93 F.3d 459 (8th Cir. 1996)* (under North Dakota law, "principles of contract law guide the inquiry"); *Crockett v. McKenzie, 867 P.2d 463 (Okla. 1994)* (ambiguous mineral deed; court cites and applies contract interpretation rules); *People ex rel. Dept. of Transp. v. Wilson, 31 Cal. Rptr. 2d 52 (Cal. App. 1994)* (deeds are to be construed "according to general principles of contract law"); *Homer v. Smith, 866 P.2d 622 (Utah App. 1993)* (deeds are to be construed "like contracts"); *Hansen v. Stichting Mayflower Recreational Funds, 898 F. Supp. 1503 (D. Utah 1995)* ("Deeds are construed according to ordinary rules of contract construction."); *Hare v. McClellan, 662 A.2d 1242 (Conn. 1995)* (parol evidence rule no bar to receipt of extrinsic evidence in construing ambiguous deed). *But see Ashley v. Baker, 867 P.2d 792 (Alaska 1994)* (contract and deed interpretation rules distinguished; "rigid" three-step approach to deed interpretation contrasted with more "fluid" approach to contract interpretation).

(n105)Footnote 788. Primarily by phrasing the merger rule as a "titles" doctrine.

(n106)Footnote 789. *See, e.g., City of Memphis for Use and Benefit of State v. Moore, 818 S.W.2d 13 (Tenn. App. 1991)* (parol evidence inadmissible to vary, alter, amend, modify or otherwise contradict an unambiguous instrument);

Reed v. Hassell, 340 A.2d 157 (Del. Super. Ct. 1975) (doctrine of merger can be explained as "sort of accord and satisfaction"). Many of the modern cases involve the exception to the merger rule, i.e., agreements that are "collateral or independent," to be performed subsequent to the conveyance. Discussion in these cases as to whether the agreements are "collateral or independent" bear similarity to the classic contract issue of "integration" and the parol evidence rule.

The influence of contract law principles is beginning to extend beyond deed construction issues. *See Bragdon v. Drew, 658 A.2d 666 (Me. 1995); Bowden v. Griffith, 675 A.2d 968 (Me. 1996)* (applying Bragdon test); (Restatement (Second) of Contracts rule cited as governing in case involving alleged incompetency of grantor). *Soursby v. Hawkins, 763 P.2d 725 (Or. 1988).*

CHAPTER 82 TRANSFERS BY DEED

9-82 Thompson on Real Property, Thomas Editions § 82.14

AUTHOR: Professor Ronald R. Volkmer School of Law Creighton University

§ 82.14 Drafting Considerations.

Lawyers drafting deeds should be aware that a defectively drafted deed can constitute legal malpractice. n790 The lawyer's liability may extend, in certain cases, to non-clients. n791

In this area of law, the importance of skillful drafting cannot be overemphasized. The attorney's goal is threefold: (1) satisfy the common law and statutory requirements for a valid deed; (2) comply with local law requirements regarding the requirements for recordation and (3) utilize language that is clear and unambiguous with regard to: exceptions or reservations; covenants for title; the estate or interest conveyed and the property legally described.

Form-books published on a national or state level can be a useful starting point, as these works typically contain checklists and warnings regarding particular quirks of local law. While forms and checklists are helpful, there is no substitute for knowledge of the substantive rules of real property law, which encompasses a wide variety of topics such as the law of estates in land and future interests, the law of real covenants, the law of oil and gas, the law of solid minerals, the law of easements, etc. In many instances, it is not the law of deeds that presents the difficult problems; it is the substantive law in the other property-related fields that is the source of the difficulties.

The lawyer may do a first rate job in all of the areas mentioned above, but fail to do an adequate job of follow-up. The drafting lawyer needs to make sure that the documents are meticulously proofed by someone, to eliminate, so far as humanly possible, the inadvertent mistake. The "mistakes" discovered some time after execution and delivery of a deed may not be such as to invalidate the deed, but they may create serious marketability of title problems.

The initial step in deed drafting is the selection of the type of deed to be given: will the deed contain warranties and, if so, of what type? If the jurisdiction in question has a statutory short-form deed, will that form suffice in the individual case? If the grantor is an entity or a fiduciary, are there special considerations regarding the type of deed to be used? Is the "standard warranty deed" appropriate and suitable in the case at hand?

The common law and statutory requirements for validity of a deed are wholly a matter of state law. The formalities requirements and essential elements tend to be fairly minimal in modern-day law. The most basic of these requirements is that the deed be "in writing." That requirement does not present a drafting problem. The requirement of the grantor's

signature is straightforward enough and, barring any issue of forgery, easily met. However, when the grantor is not a natural person, the lawyer must take some care in deciding who it is that should sign the deed on behalf of the entity.

The grantor who is a fiduciary presents special problems as well, both with regard to describing the status of the grantor and the selection of the type of deed to be used.

The most common statutory and common law requirements for a valid deed are: identifiable grantor and grantee; legally sufficient words of conveyance; an adequate legal description and an indication of the precise estate or interest received by the grantee. Identification problems relating to the grantor and grantee may not be immediately apparent. As to the grantor, the lawyer needs to determine precisely how the grantor acquired title and what name appears in that instrument granting title to the grantor. A discrepancy in the two instruments, with regard to the grantor's identity, can occur quite easily when corporations are involved; leaving out a word of the corporate name can create marketable title problems. If the grantor is a fiduciary, that fact should also be made very clear in the deed. The grantee or grantees' names should be complete and accurate; once again, the correct corporate name is of special concern.

It is not likely that a lawyer-drafted instrument will fail to contain words of conveyance that render the conveyance invalid. What the drafting lawyer needs to recall is that, in certain states, the use of certain words will trigger statutorily implied warranties. While a deed must contain an adequate legal description and an indication of the estate being conveyed, it is a rare case in which a deed fails for having not met either one of these two requirements. The generic "Mother Hubbard" clause, describing the property conveyed as all of the grantor's property in a certain county, should be used only in emergency circumstances, when it is not possible to use the precise legal description. Faulty drafting of legal descriptions usually results in an ambiguous deed, not an invalid deed.

In certain circumstances, local law might require that a deed be witnessed or acknowledged in order for the deed to be valid. These requirements for validity are exceptions to the general rule but, if one is unfamiliar with local law, these matters need to be investigated. The fact that the property being conveyed is "homestead" property under state law oftentimes triggers an acknowledgment requirement.

As emphasized in prior discussion, since the usual procedure calls for recordation of a deed after its execution, local law must be consulted with regard to the requirements for recordation. The most common and traditional requirement for recordation is the requirement that the deed be acknowledged. Most lawyers are familiar with this requirement. In recent years, state legislatures have added to the list of special requirements for recordation of a deed. The time to address these special requirements is at the drafting stage. Whatever special or additional information that must appear on the deed, in order for it to be recorded, is one more factor the lawyer drafting the instrument needs to consider. Inasmuch as these special or additional requirements pertaining to recordation vary considerably from jurisdiction to jurisdiction, the drafting lawyer must be aware of particularities of local law.

In certain states, statutory deed forms include the pertinent language for the creation of covenants for title. In other states, particular words included in a deed have the effect of implying covenants for title. The effect of statutes on the creation of title covenants needs to be taken into account in the drafting process. The distinction between a covenant of general warranty and a covenant of special warranty is another distinction that arises in the drafting of "warranty" deed. Perhaps the most problematic issue in the drafting of title covenants is the use of language limiting the title covenants, particularly the covenant against encumbrances. The use of the phrases "subject to" or "except" must be approached with caution for the reason that the substantive law of "exceptions and reservations" might create ambiguities.

Exceptions and reservations are especially troublesome concepts for the drafting lawyer. The confusion surrounding these concepts is evidenced by the fact that the terms are sometimes used interchangeably; judicial decisions often consider the two concepts as indistinguishable. As has been pointed out in prior textual discussion, there is a technical distinction between the two. The two concepts, at least historically, had no connection with covenants for title. The classic example of a reservation, the easement reserved in favor of the *grantor*, presents no special drafting

considerations. An attempt to create an interest in someone other than the grantor, by way of an exception or reservation, is permitted only in certain jurisdictions. The "exception" is used most commonly in conjunction with the legal description; when so used no special drafting problems are encountered.

A grantor may limit the warranties under the title covenants, but the use of certain language and the placement of that language is critical. The phrase "subject to," when placed in the clause creating the covenant against encumbrances, indicates the intent of the grantor to exclude certain encumbrances from the warranty. When the phrase "subject to" is not connected to the title covenants, it may operate as a reservation, e.g., "subject to a life estate in the grantor." The phrase "except" should be used with extreme care. The reason is that the "except" clause can create ambiguities as to whether the "except" language creates a technical exception or whether it is merely a limitation on the title warranties.

The estate or interest conveyed, or the estate or interest retained, should be expressed in language which clearly delineates the precise estate granted or retained. In this area, the lawyer needs to be familiar with the law of estates and future interests, the law of easements, and the law of concurrent estates. Mineral estates and oil and gas interests are specialized topics in the law of estates, with their own special terminology. These specialized areas require knowledge and expertise beyond that of the average lawyer.

The area of deed drafting that is the most subject to error and mistake is the part of the deed which contains the legal description of the property conveyed. In many instances the lawyer simply relies on a description from another instrument. In some instances, the lawyer relies on a legal description furnished by a surveyor. While a few of the legal description problems are evident only upon a visual inspection or survey, some of the problems of legal description are evident from the face of the document. It is in this area that careful proofreading is required, in order to avoid the inadvertent mistake that may later create marketability problems. Property adjacent to a boundary having width, such as a street, highway, alley, or stream, can present unique drafting issues relating to the conveyance of the grantor's interest to the center of the adjoining street, alley, highway, or stream.

§ 82.08(a)(1) Identities of Grantor and Grantee.

Add:

Tomika Investments, Inc. v. Macedonia True Vine Pentecostal Holiness Church of God, Inc., 524 S.E.2d 591 (N.C. App. 2000) (misnomer in need of corporate grantee does not render deed invalid).

§ 82.08(a)(2) Legal Capacity of Grantor and Grantee

See also Canterbury v. Kovacich, 74 P.3d 457 (Colo. App. 2003) (deed from one joint to himself did not result in severance).

In re County Treasurer of Cook County, 763 N.E.2d 900 (Ill. App. 2002) ("misnomer" did not affect validity of deeds); *Kelly v. Hard Money Funding, Inc., 87 P.3d 734 (Utah. App. 2004)* (insignificant variation in name of corporation did not affect validity of identity of grantee).

Journeay v. Berry, 953 So.2d 1145 (Miss. App. 2007) (misnomer did not invalidate restrictive covenants).

Gifford v. Linnell, 579 S.E.2d 440 (N.C. App. 530) (trust not yet created).

In re Estate of Savich, 671 N.W.2d 746 (Minn. App. 2003) .

Add:

Foster v. Foster, 682 S.E.2d 312 (S.C. App. 2009) (trust named as grantee not in existence; deed void).

See also In re Estate of Kiser, 72 P.3d 425 (Colo. App. 2003) (deed to co-trustees not naming beneficiaries, not complying with *Colo. Rev. Stat. § 38-30-103(b)*, not effective to transfer property to trust); *Hill v. Hill, 102 P.3d 1131 (Idaho 2004)* (trust as named grantee could be deemed "person" under Idaho statute).

Sullivan v. Buckhorn Ranch Partnership, 119 P.3d 192 (Okla. 2005) .

Stone v. Jetmar Properties, LLC, 733 N.W.2d 480 (Minn. App. 2007) (transfer to limited liability corporation void as entity was not in existence; court rejects application of "de facto corporation" doctrine).

Add:

Corporate Dissolution of Ocean Shores Park, Inc. v. Rawson Sweet, 134 P.3d 1188 (Wash. App. 2006) (deed made to corporation before its organization valid between the parties); *Heartland, L.L.C. v. McIntosh Racing Stable, L.L.C., 632 S.E.2d 296 (W. Va. 2006)* (deed to corporation to be formed valid, citing earlier edition of treatise); *Allen v. Scott, Hewitt and Mize, L.L.C., 186 S.W.3d 782 (Mo. App. 2006)* ("equitable rights" vest in entity to be formed in the future).

Sullivan v. Buckhorn Ranch Partnership, 119 P.3d 192 (Okla. 2005) (statutory estoppel under *16 O.S.2001 § 11* discussed).

Belcher Center LLC v. Belcher Center, Inc., 883 So. 2d 338 (Fla. App. 2004) (doctrines of estoppel by deed or equitable estoppel could be applied to cure problem of non-existent corporate entity).

§ 82.08(b) Words of Conveyance and Intent to Convey. [Go To Main]

Add:

Blazer v. Wall, 183 P.3d 84 (Mont. 2008) ("easement by reference" doctrine discussed in context of requirement of words of conveyance).

Johnson v. Ramsay, 67 S.W.3d 598 (Ark. App. 2002) (language "shall create" and "is hereby granted" sufficient, distinguishing *Zini* case).

Add:

City of Kellogg v. Mission Mountain Interests LTD., Co., 16 P.3d 915 (Idaho 2000) ("desires to sell" and "agrees to purchase" sufficient).

Add:

Mountain Properties, Inc. v. Tyler Hills Realty Corp., 767 A.2d 1096 (Pa. Super. 2001) (instrument denominated "Agreement" held to be a deed).

§ 82.08(c) Legal Description. [Go To Main]

Add:

Burlington Northern R.Co. v. Fail, 751 N.W.2d 188 (N. D. 2008) (reserved railroad easement did not fail for lack of particularity as to location; North Dakota statute required that easement be described "properly").

Payton v. Hadley, 819 N.E.2d 432 (Ind. App. 2004) ("errors in legal description do not render the deed void as a matter of law"); *Dixon v. Amoco Prod. Co., 150 S.W.3d 191 (Tex. App. 2004)* (land must be able to be identified with "reasonable certainty"); *Apex Financial Corp. v. Garza, 155 S.W.3d 230 (Tex. App. 2004)* (street address sufficient).

Add:

AIC Management v. Crews, 246 S.W.3d 640 (Tex. App. 2008) (property description is sufficient "if the writing furnishes within itself, or by reference to some other existing writing, the means or data by which the particular land to be conveyed may be identified with reasonable certainty").

Jablonowski v. Logan, 169 S.W.3d 128 (Mo. App. 2005) (deed's description is sufficient if it affords the means of identification of the property); *Adams v. Anderson, 127 P.3d 111 (Idaho 2005)* (property description is sufficient so long as the quantity, identity or boundaries of the property can be determined from the face of the document); *City of Kellogg v. Mission Mountain Interests LTD., Co., 16 P.3d 915 (Idaho 2000)* (map attached to agreement, though not

incorporated, helped clarify vague description); *Ratcliff v. Cyrus, 544 S.E.2d 93 (W. Va. 2001)* (description of easement held valid).

Cavazos v. Cavazos, 246 S.W.3d 175 (Tex. App. 2007) (description of land conveyed in 1976 presented issue of fact precluding summary judgment).

Add:

Braun v. Petty, 31 S.W.3d 521 (Mo. App. 2000) (invalidation will occur "only where relying upon oral proof or other evidence the ... property conveyed remains a matter of conjecture"); *Siegert v. Seneca Resources Corp., 28 S.W.3d 680 (Tex. App. 2000)* ("nucleus of description" test articulated).

Gaut v. Daniel, 293 S.W.3d 764 (Tex. App. 2009) ; *Lord v. Holland, 655 S.E.2d 602 (Ga. 2008)* (deed did not contain a "beginning point"; held invalid due to lack of means of identification of land to be conveyed).

Field v. Mednikow, 631 S.E.2d 395 (Ga. App. 2006) (inadequate legal description); *Smith v. Tolar, 636 S.E.2d 112 (Ga. App. 2006)* (easement void for lack of adequate legal description).

Strickland v. CMCR Investments, LLC, 610 S.E.2d 71 (Ga. 2005) (language in deed too vague and indefinite); *Harpagon Company, LLC v. Gelfond, 608 S.E.2d 597 (Ga. 2005)* (tax sale deed; "impossible to determine with certainty the parcel of property it purports to convey").

Pirkle v. Turner, 588 S.E.2d 733 (Ga. 2003) ; *Firma, Inc. v. Twillman, 126 S.W.3d 790 (Mo. App. 2004)* (tax collector deed did not meet "reasonable certainty" test).

Lord v. Holland, 655 S.E.2d 602 (Ga. 2007) (deed did not contain a "beginning point": held invalid due to lack of means of identification of land to be conveyed).

Dargan v. Tankersley, 671 S.E.2d 73 (S.C. 2008) ("catch--all" provision of deed valid).

But see Greer v. J. Hiram Moore, Ltd., 72 S.W.3d 436 (Tex. App. 2002) ("Mother Hubbard" clause not effective where evidence showed that grantor did not intend to convey).

J. Hiram Moore, Ltd. v. Greer, 172 S.W.3d 609 (Tex. 2005) (extensive discussion by divided Texas Supreme Court regarding "cover all" clauses in oil and gas leases).

Add:

Deljoo v. SunTrust Mortg., Inc, 668 S.E.2d 245 (Ga. 2008) (recorded deed in chain of title gives notice of documents incorporated by reference); *Blazer v. Wall, 183 P.3d 84 (Mont. 2008)* (reference to plat or survey may be properly incorporated by reference); *Burdette v. Brush Mountain Estates, LLC, 682 S.E.2d 549 (Va. 2009)* (plat).

Add:

Jones v. Bowen, 535 S.E.2d 501 (Ga. App. 2000) (deed incorporated plat by reference).

Add:

O'Brien v. Bocchino, 787 N.Y.S.2d 797 (App. Div. 2004) ("same premises" language in second deed, referencing prior deed, not sufficient to convey other noncontiguous land).

§ 82.08(d) Special Statutory Requirements. [Go To Main]

§ 82.08(d)(1) Conflicts of Law Rule.

Add:

Pellow v. Cade, 990 S.W.2d 307 (Tex. App. 1999) .

§ 82.08(d)(2) Recordation Requirements and Validity.

Add:

The converse of this proposition is that the recording of an "invalid deed" does not somehow convert it into a valid deed. *See, e.g., Special Property VI v. Woodruff, 730 N.W.2d 753 (Mich. App. 2007)* ("the recording of an instrument cannot, of itself, make an invalid grant valid"). *In re Thornton, 220 P.3d 395 (Mont. 2009)* ; *Borromeo v. DiFlorio, 976 A.2d 388 (N.J. Super. 2009)* . *See also Cavazos v. Cavazos, 246 S.W.3d 175 (Tex. App. 2007)* (deed effective upon delivery to grantee; delivery to County Clerk not necessary to effectuate delivery).

Marlanx Corp. v. Lage, 764 N.Y.S.2d 6 (A.D. 2003) .

Add:

Montgomery County v. Wildwood Medical Center, L.L.C., 934 A.2d 484 (Md. App. 2007) .

Add:

Fulcher v. Golden, 554 S.E.2d 410 (N.C. App. 2001) (recording of deed twenty years after making invalidated deed). Missouri law requires that so-called "beneficiary deeds" be recorded (*RSMo. § 465.021.1*). *See Estate of Dugger v. Dugger, 110 S.W.3d 423 (Mo. App. 2003)* .

Add:

City of Kellogg v. Mission Mountain Interests LTD., Co., 16 P.3d 915 (Idaho 2000) (municipality was grantee; statute requiring "address" of grantee satisfied by simply naming municipality).

Add:

KEB Enterprises, L.P. v. Smedley, 101 P.3d 690 (Idaho 2004) (grantee address on deed satisfied state statute requiring "complete address").

§ 82.08(e)(2) Action of the Parties

Grantor cannot use correction deed to unilaterally terminate or revoke interest conveyed by deed. *Gallups v. Kent, 953 So. 2d 393 (Ala. 2006)* . Similarly, an alteration of a deed, once delivered, cannot legally change the original deed. *See Z & Y Corp. v. Indore C. Stores, Inc., 638 S.E.2d 760 (Ga. App. 2006)* ; *McNertney v. Kahler, 710 N.W.2d 209 (Ia. 2006)* ; *Knapp v. Hughes, 808 N.Y.S.2d 791 (N.Y. A.D. 2006)* ; *Spence v. Spence, 628 S.E.2d 869 (S. C. 2006)* .

CenterPoint Energy Houston Elec., L.L.P. v. Old TJC Co., 177 S.W.3d 425 (Tex. App. 2005) (a correction deed can do more than simply correct a scrivener's error in the description of the property).

A correction deed can be used only in "limited circumstances." *Myrad Properties, Inc. v. LaSalle Bank Nat. Ass'n, 300 S.W.3d 746 (Tex. 2009)* . A "void" deed resulting from forgery may be "ratified" by the grantors. *Scott D. Erler, D.D.S. Profit Sharing Plan v. Creative Finance & Investments, L.L.C., 203 P.3d 744 (Mont. 2009)* . Material alteration of deed renders deed void. Lee v. Lee, *97 Cal. Rptr.3d 516 (Cal. App. 2009)* .

Arnold Industries, Inc. v. Love, 464 Utah Adv. Rep. 3 (2002) (corrective deed did not impact third parties).

In addition to the methods of curing defects noted, there is a possibility that a "voidable" deed may be "ratified" to make it valid. *See*: *Ockey v. Lehmer, 189 P.3d 51 (Utah 2008)* .

§ 82.08(e)(3) Judicial Proceedings.

Add:

Hughes v. Fisher, 129 P.3d 1223 (Idaho 2006) (easement).

Drake v. Hance, 673 S.E.2d 411 (N.C. App. 2009) (mutual mistake); *In re Estate of Munawar, 981 A.2d 584 (D.C. 2009)* (reformation denied).

Wynhoff v. Vogt, 608 N.W.2d 400 (Wisc. App. 2000) (emphasizing limited grounds (fraud and mistake) for reformation

of deed).

Supp. To CHAPTER 82 TRANSFERS BY DEED

9-82 Thompson on Real Property, Thomas Editions Supp. to § 82.09

Supp. to § 82.09 Non-essential Elements of a Deed.

[Go To Main]

§ 82.09(a) Consideration. [Go To Main]

Watson v. Tipton, 274 S.W.3d 791 (Tex. App. 2008) ; *Celtic Corp. v. Tinnea, 254 S.W.3d 137 (Mo. App. 2008)* (deed valid despite alleged lack of adequate consideration).

Estate of Dykes v. Estate of Williams, 864 So. 2d 926 (Miss. 2003) ; *Cox v. Cox, 71 P.3d 1028 (Idaho 2003)* . *Wayt v. Urbigkit, 152 P.3d 1057 (Wyo. 2007)* (as between the parties, a deed for conveyance of real property is good without consideration so long as there is no wrongful act, such as fraud or undue influence, on the part of the grantee).

Add:

In re Rudell Estate, 780 N.W.2d 884 (Mich. App. 2009) (recital of consideration may be rebutted).

Add:

Rebuild America, Inc. v. Milner, 7 So. 3d 972 (Miss. App. 2009) (tax deed set aside "due to lack of consideration").

Add:

West America Housing Corp. v. Pearson, 171 P.3d 539 (Wyo. 2007) (quitclaim deeds voided for "lack of consideration)."

Martin v. Martin, 998 So.2d 1081 (Ala. App. 2008) (deed set aside for lack of consideration).

See also Gilbert *ex rel. Roberts v. Rainey, 71 S.W.3d 66 (Ark. App. 2002)* (rescission granted).

Dixon v. Dixon, 608 S.E.2d 849 (S.C. 2005) (lifetime care agreement incorporated into deed; consideration "did not fail"); *Fischer-Marsh v. Fischer, 822 N.E.2d 1055 (Ind. App. 2005)* (alleged oral care agreement did not give rise to "condition subsequent"; rescission denied).

Add after statutory citation: Ex parte Alexander, -- So. 2d -- (Ala. 2001):

806 So. 2d 1222 (Ala. 2001) (construing *Ala. Code § 8-9-12*).

Add:

Alexander v. Wade, 806 So. 2d 1215 (Ala. App. 1999) (parol evidence admissible to establish promise to support).

§ 82.09(b) Recitals. [Go To Main]

Add:

Station Associates, Inc. v. Dare County, 513 S.E.2d 789 (N.C. 1999) (fee simple absolute passed; recitals expressed motive or purpose); *Swanberg v. City of Tybee Island, 518 S.E.2d 114 (Ga. 1999)* (recitals showed intent to create fee simple absolute).

§ 82.09(c) Reservations and Exceptions. [Go To Main]

§ 82.09(c)(1) Background and Theory.

Calvert Joint Venture #140 v. Snider, 816 A.2d 854 (Md. 2003) (pointing out distinction between exception and reservation).

Add:

Bright v. Johnson, 302 S.W.3d 483 (Tex. App. 2009) .

Add:

American Energy Corp. v. Datkuliak, 882 N.E.2d 463 (Ohio. App. 2007) (two terms used "interchangeably"; so-called "exception" was more in the nature of a "reservation").

Add:

Hinojos v. Lohmann, 182 P.3d 692 (Colo. App) (grantor's intention is determinative; use of the world "except" not dispositive); *Winegar v. Martin, 304 S.W.3d 661 (Tex. App. 2009)* (reservation of mineral interest).

§ 82.09(c)(2) Modern Issues.

Calvert Joint Venture #140 v. Snider, 816 A.2d 854 (Md. 2003) .

Add:

Barry Simon Development, Inc. v. Hale, 210 S.W.3d 312 (Mo. App. 2006) (Missouri courts have not adopted "stranger to the deed" doctrine).

Loomis v. Luraski, 36 P.3d 862 (Mont. 2001) (stranger rule rejected in apparent dictum).

Add:

Clearmount Property, LLC v. Eisner, 872 N.Y.S.2d 725 (App. Div. 2009) ; *Windham v. Riddle, 672 S.E.2d 578 (S.C. 2009)* ; *Midcoast Cohousing Land Acquisition, LLC v. Riverhouse Trust, 946 A.2d 421 (Me. 2008)* (stranger rule recognized but not applicable on facts stated).

Gilstrap v. June Eisele Warren Trust, 106 P.3d 858 (Wyo. 2005) (attempted reservation of mineral right in non-owning co-grantor).

U.S. Bank, N.A. v. Koenig, 650 N.W.2d 820 (N. D. 2002) (court construed inconsistent language (apparently the result of a mistake) to validate the reservation clearly spelled out in the deed).

Cundy v. Range Telephone Cooperative, Inc., 123 P.3d 901 (Wyo.2005) (reservations are to be narrowly and strictly construed against the grantor and in favor of grantee); *Kinney v. Keith, 128 P.3d 297 (Colo. App. 2005)* (reservations are construed more strictly than grants; any ambiguities in a reservation are construed against the grantor).

Springbob v. Farrar, 514 S.E.2d 135 (S.C. App. 1999) (dissenting opinion).

Shirley v. Shirley, 525 S.E.2d 274 (Va. 2000) .

Add:

City of Del Rio v. Clayton Sam Colt Hamilton Trust, 269 S.W.3d 613 (Tex. App. 2008) ("we view grants in deeds expansively and reservations restrictively"); *Rox Petroleum, L.L.C. v. New Dominion L.L.C., 184 P.3d 502 (Okla. 2008)* ("the intent to reserve or except a reversionary interest from a grant must be unambiguous and unequivocal").

In re Estate of Harding, 878 A.2d 201 (Vt. 2005) ("excepting and reserving" construed as exception; easement created in grantors).

Add:

Tri-County Metro. Transp. Dist. v. Portland Gen. Elec. Co., 985 P.2d 222 (Or. App. 1999) (language in deed "excepting" railroad right of way contained in deed description and warranty clause; construed as an exception); *Boswell Energy Corp. v. Arrowhead Homes, Inc., 976 P.2d 1113 (Okla. App. 1999)* ("less and except" in mineral deed created ambiguity precluding summary judgment).

Add:

Rennaker v. Gleason, 913 N.E.2d 723 (Ind. App. 2009) (easement created); *Blazer v. Wall, 183 P.3d 84 (Mont. 2008)* ("Subject to" wording is commonly used in a deed to refer to existing easements, liens, and real covenants that the grantor wishes to exclude from warranties of title.); *Smith v. Huston, 251 S.W.3d 808 (Tex. App. 2008)* ("subject to" language is language of limitation).

Reniere v. Gerlach, 752 A.2d 480 (R.I. 2000) ("Subject to" language created life estate person other than grantee). "Subject to" has been construed to mean "subordinate to," "subservient to," "limited by," or "charged with." *See Beattie v. State ex rel. Grand River Dam Auth., 2002 OK 3, 41 P.3d 377 (Okla. 2002)* ("subject to" limits the estate); *N.P., Inc./Jerald A. Turboff v. Turboff, 54 S.W.3d 886 (Tex. App. 2001)* ("subject to" a "limiting clause"); *Natural Gas Pipeline Co. of America v. Law, 65 S.W.3d 121 (Tex. App. 2001)* ("subject to" a "limiting clause"); *Thompson v. Chase Manhattan Mtg. Corp., 90 S.W.3d 194 (Mo. App. 2002)* .

Herr v. Herr, 957 A.2d 1280 (Pa. Super. 2008) ("save and except" language did not prevent grantor's interest from passing); *Hinojos v. Lohmann, 182 P.3d 692 (Colo. App. 2008)* ("except" did not prevent grantor's estate from passing).

Imerys Marble Co. v. J.M. Huber Corp., 577 S.E.2d 555 (Ga. 2003) (property conveyed subject to mineral leases). *Capstar Radio Operating Co. v. Lawrence, 152 P.3d 575 (Idaho 2007)* ("except" language construed as limitation on grantor's warranty).

Gilstrap v. June Eisele Warren Trust, 106 P.3d 858 (Wyo. 2005) (where the grantee is a co-tenant and owner of an outstanding interest, that interest must be subtracted from the interest purportedly warranted by the grantor).

Add (before "See also"):

Miller v. Kloeckner, 600 N.W.2d 881 (N.D. 1999) (reservation language in both granting and habendum clauses; construed as limitation on the warranty; the *"Duhig"* rule discussed and applied even though the deed was a "special warranty" deed); North Dakota has applied the "*Duhig"* rule in the context of an "overconveyance" of mineral interests. *Gawryluk v. Poynter, 654 N.W.2d 400 (N.D. 2002)* .

§ 82.09(d) Covenants, Conditions and Restrictions. [Go To Main]

Add:

Green Tree Servicing, LLC v. Williams, 659 S.E.2d 193 (S.C. App. 2008) (grantee "returned" property after breach).

St. Mary's Medical Center, Inc. v. McCarthy, 829 N.E.2d 1068 (Ind. App. 2005) (charitable devise; conditions subsequent are not favored and receive a strict construction).

Add:

Metcalf v. Black Dog Realty, LLC, 684 S.E.2d 709 (N.C. App. 2009) (no limitation or condition attached to fee simple in land deeded to County for courthouse).

Thompson on Real Property, Thomas Editions

Copyright 2010, Matthew Bender & Company, Inc., a member of the LexisNexis Group.

Supp. To CHAPTER 82 TRANSFERS BY DEED

9-82 Thompson on Real Property, Thomas Editions Supp. to § 82.10

Supp. to § 82.10 Covenants of Title.

[Go To Main]

§ 82.10(c) Reservations and Exceptions. [Go To Main]

§ 82.10(c)(1) Covenant of Seisin.

Add:

Estate of Patterson v. Carroll, 646 S.E.2d 885 (S.C. App. 2007) (whether grantee had status of bona fide purchaser over outstanding claim not decisive in suit against grantor).

O'Connell v. O'Connell, 694 N.W.2d 429 (Wis. App. 2005) (right to claim reimbursement for improvements by co-tenant in partition action; no equitable lien existed). *Holmes Develop., LLC v. Cook, 48 P.3d 895 (Utah 2002)* (nominal damages only).

Bedard v. Martin, 100 P.3d 584 (Colo. App. 2004) (purchase price plus interest).

Add:

Bedard v. Martin, 100 P.3d 584 (Colo. App. 2004) (rule stated in text regarding recovery of attorney fees recognized).

§ 82.10(c)(3) Covenant Against Encumbrances.

Campbell v. Summit Plaza Associates, 192 P.3d 465 (Colo. App. 2008) (lack of access to real property not an encumbrance); *Foxley & Co. v. Ellis, 201 P.3d 425 (Wyo. 2008)* (profit is an encumbrance; status of federal grazing

rights discussed).

Holmes Develop., LLC v. Cook, 48 P.3d 895 (Utah 2002) (issue of *lis pendens* as an encumbrance mentioned, but not decided).

Kitchen v. Schmedeman, 71 P.3d 486 (Kan. App. 2003) (mortgage; escrow agent failed to pay at closing).

Kohlbrand v. Ranieri, 823 N.E.2d 76 (Ohio App. 2005) (pipeline easement; no duty to check records).

Add:

Webster v. Ragona, 836 N.Y.S.2d 381 (N.Y.A.D. 2007) (actual knowledge of easement no defense).

Arnell v. Salt Lake County Bd. of Adjustment, 112 P.3d 1214 (Utah App. 2005) (county slope ordinance).

§ 82.10(c)(4) Covenant of Warranty.

Add:

Juniata Valley Bank v. Martin Oil Co., 736 A.2d 650 (Pa. Super. 1999) (purchaser at foreclosure sale was suing for environmental degradation of property, not suing for breach for title).

Rich, Rich & Nance v. Carolina Const. Corp., 570 S.E.2d 212 (N.C. App. 2002) .

See also: *Wilkinson Homes, Inc. v. Stewart Title Guar. Co., 610 S.E.2d 187 (Ga. App. 2005)* ("breach of warranty" used to describe failure of title; breach of covenant of seisin not cited).

Add:

Lewis v. Jetz Service Co., Inc., 9 P.3d 1268 (Kan. App. 2000) (interpreting and applying *K.S.A. § 58-2203* which refers to *lawful* claims).

Add:

See also Mason v. Loveless, 24 P.3d 997 (Utah App. 2001) (emphasizing the distinction between special and general warranties of title).

Add:

House v. First American Title Co., 883 N.E.2d 197 (Ind. App. 2008) .

Add new paragraph:

In reading the language of the "special warranty" deed, the most recent cases have tended to construe the language of the "special warranty" *not* as a covenant of warranty (requiring eviction, actual or constructive) but as a more all-inclusive warranty of title and freedom from encumbrances. Illustrative of this trend are decisions of the supreme courts of Iowa and North Dakota. *See Egli v. Troy, 602 N.W.2d 329 (Iowa 1999)* (grantor breached special warranty deed by "acquiescing" in establishment of an encumbrance); *State Bank & Trust v. Brekke, 602 N.W.2d 681 (N.D. 1999)* (title arising by adverse possession breached special warranty); *Morello v. Land Reutil. Comm'n, 659 N.W.2d 310 (Neb. 2003)* (special warranty protected party against prior defect in title).

Bennett v. Investors Title Ins. Co., 635 S.E.2d 649 (S.C. App. 2006) (habendum clause limited special warranties contained in deed).

Add:

The case of *Solares v. Solares, 232 S.W.3d 873 (Tex. App. 2007)* , indicates that eviction (actual or constructive) may not be required "when the true owner is in possession at the time of the conveyance and the grantee is not, and at that time the grantee 'finds the premises already in the possession of one claiming under a paramount title, the covenant of warranty is breached, and the [grantee] may maintain an action ... .' " *Compare* the South Carolina Court of Appeals decision in *Estate of Patterson v. Carroll, 646 S.E.2d 885 (S.C. App. 2007)* (lower court found that covenant of quiet enjoyment had been breached by outstanding third party interest; appellate court ruled that covenant of seisin was violated).

Add (after Spiegle case):

Kramer v. Dunn, 749 A.2d 984 (Pa. Super. 2000) (constructive eviction occurred when grantees were forced to pay third party for land they originally believed had been conveyed to them by warranty deed).

Holmes Develop., LLC v. Cook, 48 P.3d 895 (Utah 2002) (no eviction proved); *Weiss v. Old Republic Nat. Title Ins. Co., 584 S.E.2d 710 (Ga. App. 2003)* ("yielding title to property to a paramount title amounts to an eviction and constitutes a breach of warranty").

Black v. Patel, 572 S.E.2d 295 (S.C. 2002) (successful defense of title); *Black v. Patel, 594 S.E.2d 162 (S.C. 2004)* .

Add:

Coco v. Jaskunas, 986 A.2d 531 (N.H. 2009) (failure of grantor to defend lawful claim; grantor liable for attorney fees and costs).

§ 82.10(e) State Statutes. [Go To Main]

See Kitchen v. Schmedeman, 71 P.3d 486 (Kan. App. 2003) .

Add:

Outback Properties, LLC v. Johnson, 201 P.3d 246 (Or. App. 2008) ("conveys" did not give rise to implied covenant).

Add:

Bitting v. Gray, 897 A.2d 25 (R.I. 2006) .

Add:

Winters v. County of Clatsop, 150 P.3d 1104 (Or. App. 2007) (bargain and sale deed contained no warranties).

Arnold Industries, Inc. v. Love, 464 Utah Adv. Rep. 3 (Utah 2002) (statute applied to creation of easement).

Supp. To CHAPTER 82 TRANSFERS BY DEED

9-82 Thompson on Real Property, Thomas Editions Supp. to § 82.11

Supp. to § 82.11 Estoppel by Deed (After-acquired Title).

[Go To Main]

Add:

Anderson v. Pease, 727 N.Y.S.2d 717 (App. Div. 2001) .

Add:

Gutierrez v. Rodriguez, 30 S.W.3d 558 (Tex. App. 2000) (doctrine applied to special warranty deeds).

Add:

But see Premier Bank v. Board of County Comm'rs, 214 P.3d 574 (Colo. App. 2009) .

Add:

Mack Oil Co. v. Garvin, 39 P.3d 775 (Okla. 2002) ; *Jones v. P.A.W.N. Enterprises, 988 S.W.2d 813 (Tex. App. 1999)*

(doctrine applied; grantees took with notice).

Add:

Smith v. Smith, 637 S.E.2d 662 (Ga. 2006) (doctrine inapplicable where deed was invalid due to lack of capacity).

Sullivan v. Buckhorn Ranch Partnership, 119 P.3d 192 (Okla. 2005) (grantor is not necessarily estopped from showing that the supposed legal entity did not exist).

King v. King, 760 So. 2d 830 (Miss. App. 2000) (estoppel by deed cannot be used "to effectuate a conveyance of real estate"); *Elrod v. Elrod, 272 Ga. 188, 526 S.E.2d 339 (Ga. 2000)* (citing OCGA § 24-4-24(b)(4), estoppel statute pertaining to "ancient deeds and other instruments more than 30 years old ..."); *Reece v. Smith, 577 S.E.2d 583 (Ga. 2003)* (doctrine of estoppel by deed "cannot be used to transfer title or cure flaws in the legal requirements for a property interest").

Add:

Conte v. Marine Lumber Co., Inc., 848 N.E.2d 1246 (Mass. App. 2006) (Zayka case distinguished; doctrine not applicable).

Add:

As to Wyoming law, see, in addition to *Walliker*, see: *Kennedy Oil v. Lance Oil & Gas Company, Inc., 126 P.3d 875 (Wyo. 2006)* . *West America Housing Corp. v. Pearson, 171 P.3d 539 (Wyo. 2007)* (doctrine not applicable to quitclaim deed (dicta)).

Add:

After acquired title doctrine does not apply if deed is a quitclaim deed. Johnson v. E-Z Ins. Brokerage, Inc., *95 Cal. Rptr.3d 782 (Cal. App. 2009)* ; *Premier Bank v. Board of County Comm'rs of County of Bent, 214 P.3d 574 (Colo. App. 2009)* (interpreting Colorado estoppel by deed statute).

Rendleman v. Heinley, 149 P.3d 1009 (N.M App. 2006) (successor to second purchaser from grantor estopped to challenge title of first purchaser); *Glover v. Union Pacific R. Co., 187 S.W.3d 201 (Tex. App. 2006)* (repudiation of deed may prevent application of doctrine).

Gilstrap v. June Eisele Warren Trust, 106 P.3d 858 (Wyo. 2005) (estoppel by deed cannot be used to confer upon the grantee a greater title than the deed would have conferred had it been effective.)

The doctrine could be barred by the doctrine of "issue preclusion." *See Hughes v. Insley, 845 A.2d 1 (Md. App. 2003)* .

The Oklahoma Supreme Court has likewise refused to adopt the rationale of the *Sorenson* case. *See Mack Oil Co. v. Garvin, 39 P.3d 775 (Okla. 2002)* .

Angell v. Bailey, 225 S.W.3d 834 (Tex. App. 2007) ("To determine whether the doctrine of estoppel by deed should apply, we must again focus on the intention of the parties to the instrument and ask whether the parties intended to bind themselves to the terms of the recital at issue").

Add after citation to Zayka case:

Bigelow v. Wiley Mt, Inc., 26 P.3d 162 (Or. App. 2001) (no intent of grantor demonstrated that after-acquired title should inure to the benefit of the grantee).

Arnold Industries, Inc. v. Love, 464 Utah Adv. Rep. 3 (Utah 2002) (reasonable reliance shown).

Add:

Ackerman v. Abbott, 978 A.2d 1250 (D.C. 2009) .

Freeman v. Stephens Production Co., 171 S.W.3d 651 (Tex..App. 2005) (no requirement for party invoking doctrine to be a party against whom estoppel is sought or a privy to such party).

See also Dalessio v. Baggia, 783 N.E.2d 890 (Mass. App. 2003) .

For another example of a situation where the estoppel by deed doctrine gets "trumped" by another legal doctrine, *see Rocket Oil and Gas Co. v. Donabar, 127 P.3d 625 (Okla. App. 2005)* (marketable record title act vested mineral rights in claimant despite claim made by adverse party asserting estoppel by deed).

Supp. To CHAPTER 82 TRANSFERS BY DEED

9-82 Thompson on Real Property, Thomas Editions Supp. to § 82.12

Supp. to § 82.12 Consent Issues.

[Go To Main]

Add:

Ockey v. Lehmer, 189 P.3d 51 (Utah 2008) ("The distinction between void and voidable is important, although the terms are not always used precisely").

Chand v. Steuben Hill Management Corp., 798 N.Y.S.2d 521 (N.Y.A.D. 2005) (forged instrument rendered transfers void *in initio*).

Add:

Whether an altered deed should be treated as void or voidable in the context of a dispute over bona fide purchaser for value status is not clear. *See Spence v. Spence, 628 S.E.2d 869 (S.C. 2006)* .

Karan v. Hoskins, 803 N.Y.S.2d 666 (N.Y.A.D. 2005) (person cannot be a bona fide purchaser or encumbrancer for value through a forged deed, as such a deed is void and conveys no title).

Schiavon v. Arnaudo Brothers, 100 Cal. Rptr. 2d 801 (Cal. App. 2000) (void/voidable distinction emphasized).

Add:

Scott D. Erler, D.D.S. Profit Sharing Plan v. Creative Finance & Investments, L.L.C., 203 P.3d 744 (Mont. 2009) .

GMAC Mortg. Co. v. Chan, 867 N.Y.S.2d 204 (2008) ; Delsas *ex rel. Delsas v. Centex Home Equity Co., LLC, 186 P.3d 141 (Colo. App. 2008)* .

Beasley v. Burns, 7 S.W.3d 768 (Tex. App. 1999) Knowles v. Edwards, 967 So.2d 255 (Fla. App. 2007) ; *Wayt v. Urbigkit, 152 P.3d 1057 (Wyo. 2007)* ; *Cruz v. Cruz, 832 N.Y.S.2d 217 (N.Y.A.D. 2007)* .

Add at end of citations:

Burk v. Demaray, 646 N.W.2d 635 (Neb. 2002) (forged deed is "void").

Public Administrator of Kings County v. Samerson, 750 N.Y.S.2d 301 (N.Y. App. Div. 2002) ; *Wu v. Wu, 733 N.Y.S.2d 45 (App. Div. 2001)* ; *Wu v. Wu, 733 N.Y.S.2d 45 (App. Div. 2001)* . *Second Refuge Church of Our Lord Jesus Christ, Inc. v. Lollar, 653 S.E.2d 462 (Ga. 2007)* .

§ 82.12(a) Mental Competency. [Go To Main]

Add:

Street v. Street, 211 P.3d 495 (Wyo. 2009) (standard articulated; "post-execution memory" rejected as part of test).

Turner v. Hendon, 269 S.W.3d 243 (Tex. App. 2008) ; *McMahan v. Webb, 990 So.2d 825 (Miss. App. 2008)* .

In re Estate of Green, 755 So. 2d 1054 (Miss. 2000) (deed set aside; "clear and convincing evidence" standard satisfied). *In re Conservatorship of Moran, 821 So. 2d 903 (Miss. App. 2002)* .

Landers v. Sgouros, 224 S.W.3d 651 (Mo. App. 2007) ("the issue is whether the grantor had the mental capacity to understand the nature of the transaction, to know the extent of her property, and to recognize the objects of her bounty").

Add:

Lockridge v. Smith, 680 S.E.2d 501 (Ga. App. 2009) (court can consider evidence for a "reasonable period of time" before and after the deed is executed).

Cox v. Cox, 976 So.2d 869 (Miss. 2008) .

Lee v. Hiler, 141 S.W.3d 517 (Mo. App. 2004) .

Jolly v. Clarkson, 157 S.W.3d 290 (Mo. App. 2005) (differing standards for "gift deed" and "business deed").

Add:

Buckley v. Ritchie Knop, Inc., 838 N.Y.S.2d 84 (N.Y.A.D. 2007) .

Ex parte Chris Langley Timber & Management, Inc., 923 So. 2d 1100 (Ala. 2005) (insanity existing prior to conveyance; presumption of incapacity); *Jordan v. Clinton, 796 N.Y.S.2d 629 (N.Y.A.D. 2005)* (certified hospital records shifted burden of proof); *In re Estate of Johnson, 739 N.W.2d 493 (IA. 2007)* (incompetent grantor B deed "invalid").

Add:

Delsas *ex rel. Delsas v. Centex Home Equity Co., LLC, 186 P.3d 141 (Colo. App. 2008)* .

§ 82.12(c) Undue Influence. [Go To Main]

Add:

Gellert v. Eginton, 770 N.W.2d 190 (Minn. App. 2009) .

Chapman v. Varela, 213 P.3d 1109 (N.M. 2009) ("influence, improperly exerted, which acts to the injury of the person swayed by it, or to the injury of those persons whom [he or she] would have benefited")

Lasen v. Anderson, 187 P.3d 857 (Wyo. 2008) (elements stated).

McCormick v. Jeffers, 637 S.E.2d 666 (Ga. 2006) (undue influence is such "as amounts either to deception or to force and coercion which destroys free agency").

In re Conservatorship of Moran, 821 So. 2d 903 (Miss. App. 2002) (presumption did not arise);

Smith v. Ellison, 15 P.3d 67 (Or. App. 2000) (definition of undue influence quoted from *Restatement (Second) Contracts § 177(1)*); *Stephenson v. Warren, 525 S.E.2d 809 (N.C. App. 2000)* (seven "factors" listed as relevant in establishing whether undue influence has taken place).

Add:

Krueger v. Ary, 205 P.3d 1150 (Colo. 2009) (extensive discussion of the legal effect of the presumption as it relates to the burden of proof and the effect on evidence rebutting the presumption); *see also*: *Hill v. Harper, 18 So.3d 310 (Miss.*

App. 2009) (discussion of rebutting the presumption of undue influence).

Add:

Stevens v. Estate of Smith, 19 So.3d 764 (Miss. App. 2009) (factors listed for determining whether confidential relationship exists); *Krafczik v. Morris, 206 P.3d 372 (Wyo. 2009)* (factors listed for determining whether confidential relationship existed.);

In re Estate of Price, 273 S.W.3d 113 (Tenn. App. 2008) (no confidential relationship).

Supervised Estate of Allender v. Allender, 833 N.E.2d 529 (Ind. App. 2005) (fiduciary relationship gave rise to presumption).

Arnold v. Dubose, 740 So. 2d 979 (Miss. App. 1999) (presumption arose and was rebutted); *Holmes v. O'Bryant, 741 So. 2d 366* Miss. App. 1999) (confidential relationship not proved); *Lancaster v. Boyd, 803 So. 2d 1285 (Miss. App. 2002)* (presumption arose); *Wright v. Roberts, 797 So. 2d 992 (Miss. 2001)* (presumption arose); *Brooks v. Kay, 530 S.E.2d 120 (S.C. 2000)* (presumption arose). *See also Robertson v. Robertson, 15 S.W.3d 407 (Mo. App. 2000)* (confidential relationship "alone is not enough to raise a presumption of undue influence"); *In re Estate of Bontkowski, 785 N.E.2d 126 (Ill. App. 2003)* (lack of inadequate consideration and other factors led to finding of undue influence); *In re Conservatorship of Groves, 109 S.W.3d 317 (Tenn. App. 2003)* (presumption arose). *In re Estate of Hood, 955 So.2d 943 (Miss. App. 2007)* (presumption arose but was rebutted); *Spencer v. Hudspeth, 950 So.2d 238 (Miss. App. 2007)* (six factor test for determining whether confidential relationship existed).

Add:

Chesser v. Chesser, 643 S.E.2d 764 (Ga. App. 2007) (undue influence not established as a matter of law unless "the grantee of a gift of real property stands in a confidential relationship with the grantor of real property, *and* the grantor is of a weak mentality"); *Landers v. Sgouros, 224 S.W.3d 651 (Mo. App. 2007)* ("confidential relationship ... *alone* is not enough to raise a presumption of undue influence").

Add:

Duerbusch v. Karras, 267 S.W.3d 700 (Mo. App. 2008) ; *In re Estate of Summerlin, 989 So. 2d 466 (Miss. App. 2008)* (transfer from father to son; no presumption of undue influence); *Turner v. Hendon, 269 S.W.3d 243 (Tex. App. 2008)* (transfer from mother to daughter; no presumption); *Figgins v. Cochrane, 942 A.2d 736 (Md. 2008)* (transfer from father to daughter; confidential relationship arose).

In re Conservatorship of Cook, 937 So. 2d 467 (Miss. App. 2006) (presumption rebutted); *Meyer v. Wright, 854 N.E.2d 57 (Ind. App. 2006)* (presumption rebutted).

In re Estate of Reid, 825 So. 2d 1 (Miss. 2002) (presumption arose where undue influencer was adopted son); *Hayes v. Apperson, 826 So. 2d 798 (Ala. 2002)* (stepson held to have unduly influenced testatrix, reversing lower court finding); *Augenstein v. Augenstein, 737 N.E.2d 613 (Ohio. Com. Pl. 2000)* (deed from father to children sustained); *Long v. Waggoner, 558 S.E.2d 380 (Ga. 2002)* (grantor not of "weak mentality"; no presumption of undue influence). *Van*

Cleave v. Estate of Fairchild, 950 So.2d 1047 (Miss. App. 2007) (deed from parent to child a result of undue influence).

§ 82.12(d) Fraud. [Go To Main]

Add:

Petrol Props. v. Stewart Title Co., 225 S.W.3d 448 (Mo. App. 2007) .

Add:

Ford v. Exxon Mobil Chemical Co., 235 S.W.3d 615 (Tex. 2007) ; *Webb v. Kirkland, 899 So. 2d 344 (Fla. App. 2005)* (rescission ordered but grantee not required to quitclaim interest back to grantor).

Add:

Delsas *ex rel. Delsas v. Centex Home Equity Co., LLC, 186 P.3d 141 (Colo. App. 2008)* .

Svanidze v. Kirkendall, 169 P.3d 262 (Colo. App. 2007) (discussing "fraud in factum"and void deed).

Add:

Shappy v. Downcity Capital Partners, Ltd., 973 A.2d 40 (R.I. 2009) (negligence of grantor in signing documents discussed in context of void/voidable distinction).

In re Estate of Law, 852 So. 2d 33, 2002 Miss. App. LEXIS 327 (Miss. App. 2002) (deed to person who falsely represented herself to grantor as his wife not "fraudulent"), *reversed by In re Estate of Law, 869 So. 2d 1027* ; *2004 Miss. LEXIS 339* .

§ 82.12(e) Mistake. [Go To Main]

Add:

Johnson v. Conner, 260 S.W.3d 575 (Tex. App. 2008) (no mutual mistake of fact existed);

Estate of DeLoach v. DeLoach, 873 So. 2d 146 (Miss. App. 2004) (mutual mistake not sufficiently pleaded); *Jabour v. Calleja, 731 So. 2d 792 (Fla. App. 1999)* (unilateral mistake; rescission denied); *Syversen v. Hess, 665 N.W.2d 23 (N.D. 2003)* (mistake not proved; court emphasized parole evidence rule). *Ward v. Ward, 874 N.E.2d 433 (Mass. App. 2007)*

(unilateral mistake of grantor; rescission denied).

Smith v. Smith, 639 S.E.2d 711 (W.Va. 2006) (to justify the reformation of a clear and unambiguous deed for mistake, the mistake must be one of fact, not of law; the mistake must be mutual and common to both parties to the deed; the unambiguous deed must fail to express the obvious intention of the parties; and the mutual mistake must be proved by strong, clear and convincing evidence).

Brenco v. South Carolina Dept. of Transp., 609 S.E.2d 531 (S.C. App. 2005) (unilateral mistake); *Davis v. Smith, 922 So. 2d 814 (Miss. App. 2005)* (mutual mistake proved).

Hilterbrand v. Carter, 27 P.3d 1086 (Or. App. 2001) (no mutual mistake shown; relief denied).

Ottaco Acceptance, Inc. v. Larkin, 733 N.W.2d 539 (Neb. 2007) (cancellation or reformation appropriate remedies).

Add:

Myrad Properties, Inc. v. LaSalle Bank Nat. Ass'n., 300 S.W.3d 746 (Tex. 2009) (rescission based upon mutual mistake; refusal to grant relief would result in "unjust enrichment").

Supp. To CHAPTER 82 TRANSFERS BY DEED

9-82 Thompson on Real Property, Thomas Editions Supp. to § 82.13

Supp. to § 82.13 Construction.

[Go To Main]

§ 82.13(a) Introduction and Comparisons. [Go To Main]

§ 82.13. (a)(3) The Pole Star Rule.

Add:

Windham v. Riddle, 672 S.E.2d 578 (S.C. 2008) (intention of the grantor must be ascertained and effectuated).

Main Street Landing, LLC v. Lake Street Ass'n, Inc., 892 A.2d 931 (Vt. 2006) ("master rule" is that the intent of the parties govern).

Patterson v. Paul, 863 N.E.2d 527 (Mass. 2007) (presumed intent of the *grantor*).

Add:

Estate of Smith v. Spinelli, 216 P.3d 524 (Alaska 2009) (intention of the parties governs; court goes on to describe the court's "three step approach" to deed interpretation); *Zimmerer v. Romano, 679 S.E.2d 601 (W. Va. 2009)* (intent of the parties).

Chebatoris v. Moyer, 757 N.W.2d 212 (Neb. 2008) (effectuate intent of the parties); *Porter v. Bassett, 195 P.3d 1212 (Idaho 2008)* (effectuate "real intention" of the parties): *Medicine Lodge Investments, L.L.C. v. EAR Inc., 197 P.3d 502 (Okla. App.2008)* (ascertain true intent of the parties); *Porter v. Morrill, 949 A.2d 526 (Conn. App. 2008)* (expressed intentions of the parties).

Second Refuge Church of Lord Jesus Christ, Inc. v. Lollar, 653 S.E.2d 462 (Ga. 2007 (ascertain and give effect to the intent of the *parties*); *Hoskins Heirs v. Bogg, 242 S.W.3d 320 (Ky. 2007)* (intention of the parties); *Ottaco Acceptance, Inc. v. Larkin, 733 N.W.2d 539 (Neb. 2007)* (intention of the parties); *Ecosystem Resources, L.C. v. Broadbent Land & Resources, L.L.C., 158 P.3d 685 (Wyo. 2007)* (intention of the parties).

Add:

K & A Acquisition Group v. Island Pointe, LLC, 682 S.E.2d 252 (S.C. 2009) .

§ 82.13(a)(4) The Language of the Instrument.

Add:

Ecosystem Resources, L.C. v. Broadbent Land & Resources, L.L.C., 158 P.3d 685 (Wyo. 2007) ; *North Sebago Shores, LLC v. Mazzaglia, 926 A.2d 728 (Me. 2007)* .

Add:

Connall v. Felton, 201 P.3d 219 (Or. App. 2009) (deed not ambiguous).

Add:

Bennett v. Tracy, 740 A.2d 571 (Me. 1999) (if the words of the deed, given "their general and ordinary meaning," create no ambiguity, the deed is "clear and unambiguous"); *Schwarm v. Mexia Holdings, L.P., 720 N.E.2d 330 (Ill. App. 1999)* (language of mineral deed contained "no ambiguity"; extrinsic evidence barred).

Add:

Cherokee Water Co. v. Freeman, 33 S.W.3d 349 (Tex. App. 2000) ("three tiered" process of deed construction articulated).

Windham Land Trust v. Jeffords, 967 A.2d 690 (Me. 2009) .

Silsby v. Belch, 952 A.2d 218 (Me. 2008)

Utsch v. Utsch, 581 S.E.2d 507 (Va. 2003)

Tanguay v. Biathrow, 937 A.2d 276 (N.H. 2007) .

Main Street Landing, LLC v. Lake Street Ass'n, Inc., 892 A.2d 931 ("if the court determines that the writing is ambiguous, interpretation of the parties' intent becomes a question of fact to be determined based on all of the evidence - not only the language of the written instrument, but also evidence concerning its subject matter, its purpose at the time it was executed, and the situations of the parties' "). *DeGraff v. Burnett, 939 A.2d 472 (Vt. 2007)* (court deemed language to be ambiguous).

Read v. Harvey, 112 P.3d 785 (Idaho 2005) (whether a conveyance instrument is ambiguous is a question of law; however, interpretation of an ambiguous deed is a question of fact to be settled by the language of the conveyance instrument and the facts and circumstances of the transaction).

Stefanoni v. Duncan, 923 A.2d 737 (Conn. 2007) ; *DeGraff v. Burnett, 939 A.2d 474 (Vt. 2007)* .

Gilbert v. Geiger, 747 N.W.2d 188 (Wis. App. 2008) ; *Marrujo v. Sanderson, 191 P.3d 588 (N.M. App. 2008)* .

Add:

Garrett v. O'Dowd, 775 N.W.2d 549 (Wis. App. 2009) . The Kansas Supreme Court has responded to the criticism that the usual method of approach--determining first whether a deed is "ambiguous"--is a proper method to be used in determining whether extrinsic evidence should be allowed. The Kansas court defended its traditional method of "ambiguity analysis," noting "The ambiguity analysis simply endeavors to give effect to what the parties actually said they meant at the time contracting." *See*: *Central Natural Resources, Inc. v. Davis Operating Co., 201 P.3d 680 (Kan. 2009)* .

Add:

Longoria v. Lasater, 292 S.W.3d 156 (Tex. App. 2009) .

§ 82.13(b)(1) Extrinsic Evidence.

Add:

Emerald Pointe, L.L.C. v. Jonak, 202 S.W.3d 652 (Mo. App. 2006) (patent latent distinction recognized).

Marshall v. Soffer, 756 A.2d 284 (Conn. App. 2000) (discusses circumstances giving rise to latent ambiguity).

Add:

Zimmerer v. Romano, 679 S.E.2d 601 (W. Va. 2009) .

If deed is ambiguous, ascertaining the parties' intentions is a question of fact. *Porter v. Bassett, 195 P.3d 1212 (Idaho 2008)* .

Baney v. Eoute, 784 A.2d 132 (Pa. Super. 2001) (extrinsic facts may be introduced to show that apparently "clear and unambiguous language is in fact latently ambiguous").

The Montana Supreme Court, in *Mary J. Baker Revocable Trust v. Cenex Harvest States, Cooperatives, Inc., 164 P.3d 851 (2007)* discusses a Montana statute (§ 1-4-101 MCA) allowing for the receipt of extrinsic evidence even when the instrument (deed) is "umambiguous on its face." The Supreme Court of Wyoming, in *Ecosystem Resources, L.C. v. Broadbent Land & Resources, L.L.C., 158 P.3d 685* , expressed a similar approach in analogizing the construction of deeds to contracts.

Thrasher v. Arida, 858 So. 2d 1173 (Fla. App. 2003) .

Add:

Central Healthcare Services, P.A. v. Citizens Bank of Philadelphia, 12 So. 3d 1159 (Miss. App. 2009) .

Cf LeBaron v. Wright, 938 A.2d 891 (N.H. 2007) (subsequent grantee's interpretation of language in a deed, however, has no bearing upon court's interpretation, which focuses upon the intention of the parties at the time of the conveyance).

Add:

Carpenter v. Luke, 689 S.E.2d 247 (W. Va. 2009) ; *Arnold v. Palmer, 686 S.E.2d 725 (W. Va. 2009)* ..

Add:

Central Natural Resources, Inc. v. Davis Operating Co., 201 P.3d 680 (Kan. 2009) ; *Range Resources Corp. v.*

Bradshaw, 266 S.W.3d 490 (Tex. App. 2008) ; *City of Del Rio v. Clayton Sam Colt Hamilton Trust, 269 S.W.3d 613 (Tex. App. 2008)* ; *City of Huntington Woods v. City of Detroit, 761 N.W.2d 127 (Mich. App. 2008)* .

DeGraff v. Burnett, 939 A.2d 472 (Vt. 2007) ; *Angell v. Bailey, 225 S.W.3d 834 (Tex. App. 2007)* .

Add:

Olde Severna Park Improvement Ass'n v. Barry, 982 A.2d 905 (Md. App. 2009) ; *Zimmerer v. Romano, 679 S.E.2d 601 (W. Va. 2009)* ; *City of Del Rio v. Clayton Sam Colt Hamilton Trust, 269 S.W.3d 613 (Tex. App. 2008)* ; *Bon Aventure, L.L.C. v. Craig Dyas L.L.C., 3 So.3d 859 (Ala. 2008)* .

American Energy Corp. V. Datkuliak,, 882 N.E.2d 463 (Ohio. App. 2007) ; *Hoskins Heirs v. Boggs, 242 S.W.3d 320 (Ky. 2007)* ; *Barnett v. Estate of Anderson, 966 So.2d 915 (Ala. 2007)* .

§ 82.13 (b) (2) General Rules of Construction

Add:

Carpenter v. Luke, 689 S.E.2d 247 (W. Va. 2009) ; *Arnold v. Palmer, 686 S.E.2d 725 (W. Va. 2009)* .

Add:

Central Natural Resources, Inc. v. Davis Operating Co., 201 P.3d 680 (Kan. 2009) .

Add:

Olde Severna Park Improvement Ass'n v. Barry, 982 A.2d 905 (Md. App. 2009) ; *Zimmerer v. Romano, 679 S.E.2d 601 (W. Va. 2009)* .

§ 82.13(c) Other Issues of Ambiguity. [Go To Main]

§ 82.13(c)(2) Estate or Interest Conveyed.

Add:

Metcalf v. Black Dog Realty, LLC, 684 S.E.2d 709 (N.C. App. 2009) (repugnancy rule stated and adopted); *Premier Bank v. Board of County Comm'rs of County of Bent, 214 P.3d 574 (Colo. App. 2009)* (granting clause prevails over habendum clause).

Other recent cases mentioning the "repugnancy rule" are: *Lucareli v. Lucareli, 614 N.W.2d 60 (Wis. App. 2000)* (power to appoint reserved to grantor conflicted with grant of fee simple); *Reniere v. Gerlach, 752 A.2d 480 (R.I. 2000)* (reservation of life estate not repugnant to granting of fee).

Add:

Kipp v. Estate of Chips, 732 A.2d 127 (Vt. 1999) (" ... the division of the deed into such parts as the premises, the habendum and the tenendum, was pretty much a matter of capitalization and punctuation, and our Court was never very much impressed with the idea that it is of vital importance in what part of a deed the intention is expressed so long as it finds somewhere clear and adequate expression").

Add:

Consol Pennsylvania Coal Co. v. Farmers Nat. Bank of Claysville, 960 A.2d 121 (Pa. Super. 2008) (purpose of habendum clause is to "determine what estate passes.").

See Bennett v. Investors Title Ins. Co, 635 S.E.2d 649, 660 (S.C. App. 2006) (court discusses habendum and granting clauses in context of limiting grantor's warranties).

Harlingen Irr. Dist. Cameron County No. 1 v. Caprock Commun. Corp., 49 S.W.3d 520 (Tex. App. 2001) (granting clause prevails over habendum); *Hunt v. Forestry Comm'n, 595 S.E.2d 846 (S.C. App. 2004)* (granting clause cannot be "cut down" by subsequent language; "forever" not required to grant a fee simple absolute).

Eastin v. Dial, 288 S.W.3d 491 (Tex. App. 2009) ; *Wiser v. Elliott, 209 P.3d 337 (Or. App. 2009)* .

Johnson v. Conner, 260 S.W.3d 575 (Tex. App. 2008) .

Cellco Partnership v. Shelby County, 172 S.W.3d 574 (Tenn. App. 2005) (grantor's entire estate passes under *Tenn. Code Ann. § 66-5-101*). *Estate of Haan v. Haan, 237 S.W.3d 231 (Mo. App. 2007)* .

Add:

Eastin v. Dial, 288 S.W.3d 491 (Tex. App. 2009) .

Tripp v. F & K Assam Family, LLC, 755 N.W.2d 106 (S.D. 2008) .

Tripp v. F & K Assam Family, LLC, 755 N.W.2d 106 (S.D. 2008) (fee title transferred). See also: *City of Huntington Woods v. City of Detroit, 761 N.W.2d 127 (Mich. App. 2008)* (golf course transferred to City with reverter clause).

Add to citation "Cases holding that an easement was created":

Timberlake, Inc. v. O'Brien, 902 N.E.2d 843 (Ind. App. 2009) .

After Line 3 of the text, add new paragraph:fp:

In a textbook case involving construction of railroad right of way deeds, the Supreme Court of South Dakota, in *Swaby v. Northern Hills Regional R.R. Authority, 769 N.W.2d 798 (2009)* , concluded that certain deeds created a fee simple determinable, certain deeds created a fee simple upon a condition subsequent and a third category of deeds created easements.

Kershaw Sunnyside Ranches, Inc. V. Yakima Interurban Lines Ass'n, 126 P.3d 16 (Wash. 2006) (grant to railroad created easement); *King Associates, LLP v. Bechtler Development Corp., 632 S.E.2d 243 (N.C. App. 2006)* (fee simple created in railroad).

Neider v. Shaw, 65 P.3d 525 (Idaho 2003) ; *Michigan Dept. of Natural Resources v. Carmody-Lahti Real Estate, Inc., 699 N.W.2d 272 (Mich. 2005)* (grant to railroad created easement); *Cornfield Point Ass'n v. Town of Old Saybrook, 882 A.2d 117 (Conn. App. 2005)* (conveyance to city for "highway purposes" created fee).

Add to second paragraph, beginning "Cases holding that a fee simple was created":

Moss v. Williams, 822 So. 2d 392 (Ala. 2001) ; *C & G, Inc. v. Rule, 25 P.3d 76 (Idaho 2001)* ; *Ray v. King County, 86 P.3d 183 (Wash. App. 2004)* .

Add to end of second paragraph ("fee simple was created"):

Louisville & Indiana R. Co. v. Indiana Gas Co., 792 N.E.2d 885 (Ind. App. 2003) .

Add to citations beginning with "Conveyances for a 'right of way' for a road":

Bird Peak Road Ass'n v. Bird Peak Corp., 771 A.2d 260 (Conn. App. 2001) (conflicting language of deed construed as an easement); *Gregg Neck Yacht Club, Inc. v. County Comm'rs of Kent County, 769 A.2d 982 (Md. App. 2001)* (deed created easement; "right of way" language deemed significant); *Realvest Corp. v. Lane County, 100 P.3d 1109 (Or. App. 2004)* (deed conveying 80 feet "right of way" conveyed fee).

Add at beginning of fifth paragraph ... The most recent cases ... .:

Chevy Chase Land Co. v. United States, 733 A.2d 1055 (Md. 1999) (easement); *Moore v Missouri Friends of Wabash Trace Nature Trail, Inc., 991 S.W.2d 681 (Mo. App. 1999)* (easement).

Roeder Co. v. K & E Moving & Storage Co., 4 P.3d 839 (Wash. App. 2000) (fee simple conveyed).

[Add at end of footnote:]

In the most recent Indiana case, the appellate court upheld a lower court ruling that classified some transfers to the railroad as easements and others as transfers of fee simple. *See Clark v. CSX Transp., Inc., 737 N.E.2d 752 (Ind. App. 2000)* .

Add to citations in second paragraph beginning "Cases holding that a fee simple was created":

Poznic v. Porter County Development Corp., 779 N.E.2d 1185 (Ind. App. 2002) ; *Severns v. Union Pacific Railroad Co., 125 Cal. Rptr. 2d 100 (Cal. App. 2002)* .

Add to citation in first sentence "Cases holidng that an easement was created":

Hanson Industries, Inc. v. County of Spokane, 58 P.3d 910 (Wash. App. 2002) ; *Mackall v. Fleegle, 801 A.2d 577 (Pa. Super. 2002)* ; *Faulkenberry v. Norfolk Southern Ry. Co., 563 S.E.2d 644 (S. C. 2002)* ; *Diaz v. Home Fed. Sav. & Loan Ass'n, 2002 Ill. App. LEXIS 921 (Ill. App. 2002)* .

Panetta v. Equity One, Inc., 875 A.2d 991 (N.J. Super. 2005) (deed conveyed riparian rights as an appurtenance; court

cited *N.J.S.A. 46:3-16* in support of decision).

§ 82.13(c)(3) Legal Descriptions.

Add:

Akers v. D.L. White Const., Inc., 127 P.3d 196 (Idaho 2005) (references to monuments control over conflicting calls for courses and distances if the monument is of a permanent nature and established with reasonable certainty).

Via v. Beckett, 617 S.E.2d 895 (W.Va. 2005) (specific call to line in both deeds was a monument establishing the property line).

Lisiewski v. Seidel, 806 A.2d 1121 (Conn. App. 2002) ; *Wallingford v. Kennedy, 753 A.2d 493 (Me. 2000)* ; *McGeechan v. Sherwood, 760 A.2d 1068 (Me. 2000)* ; *Eaton v. Town of Wells, 760 A.2d 232 (Me. 2000)* ; *Pion v. Bean, 833 A.2d 1248 (Vt. 2003)* ; *Khalsa v. Ward, 101 P.3d 843 (Utah App. 2004)* (fixed monuments prevail over course and distance); *Miller v. Callear, 91 P.3d 1117 (Idaho 2004)* (monuments prevail over course and distance).

Add:

Kitt v. Crosby, 672 S.E.2d 851 (Va. 2009) ("rule of preference" not "inflexible").

Kitt v. Crosby, 672 S.E.2d 851 (Va. 2008) (so called "rule of preference" not inflexible and will not be applied if to do so would frustrate the intent of the parties to the deed).

Add:

Warner v. Brown, 659 S.E.2d 885 (Ga. App. 2008) ; *Pomona Mobile Home Park, LLC v. Jett, 265 S.W.3d 396 (Mo. App. 2008)* .

Lovell v. Rea, 629 S.E.2d 459 (Ga. App. 2006) (moiety rule applied to road); *Bitting v. Gray, 897 A.2d 25 (R.I. 2006)* (limitation on moiety rule enunciated: "if a road is created wholly over the land of one person, the presumption of ownership to the centerline of a road is defeated and a conveyance of property bounded by such road conveys title only to the roadside"); *Hanson v. Cadwell Crossing, LLC, 848 N.E.2d 1240 (Mass. App. 2006)* (Massachusetts' "derelict fee statute [G.L. c. 183, § 58] codifies common law rule moiety rule); *Glover v. Union Pacific R. Co., 187 S.W.3d 201 (Tex. App. 2006)* (articulating elements of "strip and gore doctrine").

For an interesting case applying the "highway" rule when the bordering land was a railroad right of way (easement), *see*: *Diaz v. Home Fed. Sav. & Loan Ass'n, 2002 Ill. App. LEXIS 921* (Ill. App. No. 2-01-1165, Oct. 3, 2002); *Reagan v. Marathon Oil Co., 50 S.W.3d 70 (Tex. App. 2001)* (extensive discussion of "strip and gore" doctrine as applied by Texas courts); *Carney v. Heinson, 985 P.2d 1137 (Idaho 1999)* (vacated alley); *Ruddick v. Bryan, 989 S.W.2d 202 (Mo. App.*

1999) (vacated alley); *Kimberling North, Inc. v. Pope, 100 S.W.3d 863 (Mo. App. 2003)* ; *Watts v. Watts, 818 A.2d 1031 (Me. 2003)* ; 1845 *La Dawn Lane, LLC v. Bowman, 594 S.E.2d 373 (Ga. 2004)* (recognizing rule). *Minerva Partners, Ltd. v. First Passage, LLC, 731 N.W.2d 472 (Mich. App. 2007)* .

Add to citations in second paragraph:

A conveyance by the grantor after the vacation of the street or alley usually does not change the standard rule, but courts have differed on this point. *See Alexander v. McClellan, 39 P.3d 1265 (Colo. App. 2001)* ; *Moore v. Energy States, Inc., 71 S.W.3d 796 (Tex. App. 2002)* .

Add:

Coussens v. Stevens, 113 P.3d 952 (Or. App. 2005) (presumption is that when a grantor conveys "blocks and lots" that are separated by a roadway from a strip of waterfront property, the grantor intended to retain ownership of the waterfront strip unless there was also an express conveyance of that property)

Henry v. Malen, 692 N.Y.S.2d 841 (App. Div. 1999) (1867 deed "to the brook" rebutted presumption).

§ 82.13(d) Merger Doctrine. [Go To Main]

Add (at beginning):

Sentlowitz v. Cardinal Development, LLC, 882 N.Y.S.2d 267 (App. Div. 2009) (claims other than fraudulent concealment claim merged into deed); *Arnold v. Wilkins, 876 N.Y.S.2d 780 (App. Div. 2009)* (promise to convey a sewer system in good working order merged into deed);

Add new paragraph before last paragraph:

If the seller sues for payment of the purchase price or a contractor sues for "extra" work, the merger doctrine will likely be applied. *See CGM Const. Co. v. Miller, 693 N.Y.S.2d 763 (App. Div. 1999)* ; 527 *Smith Street Brooklyn Corp. v. Bayside Fuel Oil Depot Corp., 691 N.Y.S.2d 560 (App. Div. 1999)* . *See also Krajcir v. Egidi, 712 N.E.2d 917 (Ill. App. 1999)* (post closing action for balance of contract remanded for determination of whether parties' intention was for obligation to survive closing).

Bixler v. Oro Management, L.L.C., 86 P.3d 843 (Wyo. 2004) (it is "conclusively presumed that the deed represents the final agreement of the parties").

Add:

Sentlowitz v. Cardinal Development, LLC, 882 N.Y.S.2d 267 (App. Div. 2009) (fraudulent concealment claim did not merge); *JEM Acres, LLC v. Bruno, 764 N.W.2d 77 (Minn. App. 2009)* (alleged fraud by vendors relating to sewer system problems); *Sunset Beach Development, LLC v. AMEC, Inc., 675 S.E.2d 46 (N.C. App. 2009)* (alleged misrepresentation of vendor regarding violations of environmental laws).

Kagan v. Freedman, 866 N.Y.S.2d 216 (N.Y. App. Div. 2008) (merger doctrine precluded fraud and breach of contract claims); *Bickerstaff Real Estate Management, LLC v. Hanners, 665 S.E.2d 705 (Ga. App. 2008)* (merger doctrine precluded breach of warranty claim).

Cook v. Wilson, 845 N.E.2d 563 (Ohio App. 2006) (doctrine applied); *Ka Foon Lo v. Curis, 815 N.Y.S.2d 131 (N.Y. A.D. 2006)* (fraud claim rejected; doctrine applied); *Emerald Pointe, L.L.C. v. Jonak, 202 S.W.3d 652 (Mo. App. 2006)* (rule applied; no exceptions applied); *Bedrosian v. Guzy, 822 N.Y.S.2d 181 (N.Y. A.D. 2006)* (doctrine applied); *South Kitsap Family Worship Center v. Weir, 146 P.3d 935 (Wash. App. 2006)* (repurchase option did not survive closing).

Panos v. Olsen and Associates Const., Inc., 123 P.3d 816 (Utah App. 2005) (height restriction in deed "final, integrated agreement of the parties"; no exception to merger applied); *Sells v. Robinson, 118 P.3d 99 (Idaho 2005)* (merger applied; fact that deed was ambiguous would not preclude doctrine's application); *Harrodsburg Indus. Warehousing, Inc. v. MIGS, LLC, 182 S.W.3d 529 (Ky. App. 2005)* (purchase agreement merged into deed); *Chapman v. Anchor Lumber, 823 N.E.2d 594 (Ill. App. 2005)* (contract real estate tax provision merged into deed). *Unrau v. Kidron Bethel Retirement Services, Inc., 27 P.3d 1 (Kan. 2001)* (deed superseded residency agreement); *Lizotte v. Mitchell, 771 A.2d 884 (R.I. 2001)* (claims by purchasers of real estate contract barred by merger); *Mason v. Loveless, 24 P.3d 997 (Utah App. 2001)* (real estate purchase agreement superseded by deed); *In re Estate of Rosenbaum, 624 N.W.2d 821 (S.D. 2001)* (alleged oral agreement superseded by deed); *Dansie v. Hi-Country Estates Homeowners Ass'n, 987 P.2d 30 (Utah 1999)* (contract stipulating that purchasers take subject to covenants, conditions and restrictions merged into deed; covenants, conditions and restrictions "burden the title"); 1455 *Washington Ave. Assoc. v. Rose & Kiernan, Inc., 687 N.Y.S.2d 791 (App. Div. 1999)* (alleged promise by vendee to construct office building on transferred property; merger applied); *Kiec v. Sherrerd, 764 A.2d 39 (Pa. 2000)* (alleged non-compliance by seller with Sewage Facilities Act could not used as basis for rescission by purchaser who had accepted deed; court's long-standing commitment to merger doctrine emphasized); *Richardson v. Hardin, 5 P.3d 793 (Wyo. 2000)* (recovery of attorney's fee as required in purchase agreement barred by merger doctrine); *Dourountoudakis v. Alesi, 706 N.Y.S.2d 476 (App. Div. 2000)* (contract provision entitling purchaser to prepaid rents deemed merged); *DRT Const. Co., Inc. v. BH Associates, 702 N.Y.S.2d 738 (App. Div. 2000)* (obligation to deliver warranty deed did not survive closing); *Tripp v. C.L. Miller, 105 S.W.3d 804 (Ark. App. 2003)* ; *Rothstein v. Yaroscak, 750 N.Y.S.2d 625 (App. Div. 2002)* (breach of contract claims in vendor-purchaser agreemetn merged); *Warner v. Estate of Allen, 776 N.E.2d 422 (Ind. App. 2002)* (insurance claims under purchase agreement merged); *Andrew Lunsford Properties, LLC v. Davis, 572 S.E.2d 682 (Ga. 2002)* (alleged discrepancy in shortage of land barred by merger); *Taylor v. McConchie, 569 S.E.2d 35 (Va. 2002)* (rights to easement under contract merged); *Tungsten Holdings, Inc. v. Olson, 50 P.3d 1086 (Mont. 2002)* (road easement did not survive closing); *Estate of Fisher v. Fisher, 645 N.W.2d 841 (S.D. 2002)* ("first chance to buy" did not survive delivery of deed); *Richman v. Gehring Ranch Corp., 37 P.3d 732 (Mont. 2001)* (access rights merged); *Gloucester Landing Associates, Ltd. Partnership v. Gloucester Redevelopment Authority, 802 N.E.2d 1046 (Mass. App. 2004)* (merger clause contained in purchaser agreement). *Goodman v. Lothrop, 151 P.3d 818 (Idaho 2007)* (contract providing for life estate merged into deed); *Simone v. Homecheck Real Estate Services, Inc., 840 N.Y.S.2d 398 (N.Y.A.D. 2007)* (doctrine of merger barred contract claims); *Rivietz v. Wolohojian, 832 N.Y.S.2d 505 (N.Y.A.D. 2007)* (merger clause in contract precludes claim for breach of contract).

Add:

Illingworth v. Bean, 894 N.E.2d 958 (Ill. App. 2008) (rescission suit based upon misrepresentation not barred by merger doctrine); *Price v. Godby, 263 S.W.3d 598 (Ky. App. 2008)* (mistake).

Ross v. Ticor Title Ins. Co., 143 P.3d 885 (Wash. App.) (misrepresentation barred merger).

Geodyne Energy Income Production Partnership I-E v. Newton Corp., 161 S.W.3d 482 (Tex. 2005) (merger doctrine may not prevent proof of prior misrepresentations under the Deceptive Trade Practices-Consumer Protection Act); *Yeager v. McLellan, 177 S.W.3d 807 (Ky. 2005)* (fraud exception);

Brown v. Johnson, 34 P.3d 1233 (Wash. App. 2001) (action for misrepresentation; merger not applied); *Munawar v. Cadle Co., 2 S.W.3d 12 (Tex. App. 1999)* ; *Fehling v. Wicks, 687 N.Y.S.2d 868 (1999)* (merger rule not applied where latent defects discovered by purchaser after closing); *Greenfield v. Heckenbach, 797 A.2d 63 (Md. Spec. App. 2002)* .

Nunes v. Meadowbrook Develop. Co., 824 A.2d 421 (R.I. 2003) (doctrine not applied if there is proof of "fraud or mutual mistake"). *Ross v. Kirner, 172 P.3d 701 (Wash. 2007)* (negligent misrepresentation claim not merged; merger doctrine "does not bar actions based on fraud, misrepresentation, or mistake"); *Moore v. Smith, 158 P.3d 562 (Utah App. 2007)* (negligent misrepresentation claim not barred); *Czarobski v. Lata, 862 N.E.2d 1039 (Ill. App. 2007)* (mutual mistake regarding property tax assessment; merger not applied); All *Brands Fork Lift Corp. v Yetish, Inc., 840 N.Y.S.2d 685 (N.Y.Sup. 2007)* (pre-purchase agreement between co-purchasers of property not merged).

After the reference to the Bruggeman case, add:

Davencourt at Pilgrims Landing Homeowners Ass'n v. Davencourt at Pilgrims Landing, LLC, 221 P.3d 234 (Utah 2009) (implied warranty of workmanlike quality in sale of new home did not merge); *Golden v. Woodward, 15 So. 3d 664 (Fla. App.2009)* (duty of vendees to make payments survived closing); *Miller v. Hutson, 281 S.W.3d 791 (Ky. 2009)* (vendor's extension of liability agreement survived closing); *Shah v. Smith, 908 N.E.2d 983 (Ohio App. 2009)* (agreement to convey easement to purchases survived closing); *Brogden v. Durkee, 16 So.3d 113 (Ala. App. 2009)* (time for performance clause in purchase agreement did not merge).

Franklin Park Plaza, LLC v. V & J Nat. Enterprises, LLC, 870 N.Y.S.2d 193 (N.Y. App. Div. 2008) (merger doctrine rebutted by express intention of parties' intention); *Arnold v. Williams, 876 N.Y.S.2d 780 (N.Y. App. Div. 2008)* (parties intended obligation to survive closing); *Givens v. Ward, 272 S.W.3d 63 (Tex. App. 2008)* (merger doctrine does not bar reformation action); *Goodall v. Whispering Woods Center, L.L.C., 990 So.2d 695 (Fla. App. 2008)* (reformation action not barred by merger doctrine);

The Minnesota Supreme Court, in its review of the appellate court ruling, held that the "presumption of merger does not apply to a repurchase agreement, which cannot, by its very nature, be performed prior to closing." *See also* cases cited in note 765 *infra*.

Coe v. Crady Davis Corp., 60 P.3d 794 (Colo. App. 2002) (fee shifting provision did not merge; provision did not relate to "title, quality, possession or emblements of the land"); *Coughlin v. Gustafson, 772 N.E.2d 864 (Ill. App. 2002)* (warranties related to condition of dwelling deemed collateral); *Sainsbury Const. Co., Inc. v. Quinn, 47 P.3d 772 (Idaho App. 2002)* (no merger; covenants in contract were "collateral to and independent of the conveyance"); *Spears v. Warr, 44 P.3d 742 (Utah 2002)* (irrigation water agreements not merged; "collateral rights" exception applied); *Premier Title Co. v. Donahue, 765 N.E.2d 513 (Ill. App.2002)* (two exceptions to merger doctrine noted and both applied to facts of

case).

Neely Devel. Corp. v. Service First Investments, Inc., 582 S.E.2d 200 (Ga. App. 2003) (survival/nonmerger clause given effect).

Williams v. Younginer, 851 N.E.2d 351 (Ind. App. 2006) (implied warranties as to quality of improvements deemed collateral).

Add:

Novelty Crystal Corp. v. PSA Institutional Partners, L.P, 850 N.Y.S.2d 497 (N.Y. App. Div.) (agreement not deemed collateral)
