The California Municipal Law Handbook Reader Suggestion Form

© The Regents of the University of California

Preface

Originally published by the League of California Cities in 1993, this handbook is the collective product of hundreds of municipal attorneys' efforts. The purpose of the book is to provide municipal law practitioners a "source of first resort" in researching a given area of California municipal law. Updated annually since its inception, the book (and the League) reached a milestone this year when the University of California's Continuing Education of the Bar (CEB) assumed publication of the annual update. Partnering with CEB has allowed the League to tap into CEB's legal editing expertise and superb reputation. An electronic, searchable version of this handbook, with links to California statutes and cases, may be found at CEB.com.

Like every edition since 1993, the 2010 handbook has been updated by an Editorial Board of city attorneys appointed by the President of the League's City Attorneys' Department. The League expresses its deep appreciation to each of the 2010 Editorial Board members, all of whom contributed countless hours to this important project. The League also gratefully acknowledges the work of the many reviewers who assisted the committee in producing the final handbook. The names of the attorneys who served as Editorial Board members or reviewers are listed in the Acknowledgments.

The California Municipal Law Handbook is meant as a "source of first resort" when researching an issue in municipal law. It is not intended to function as a comprehensive "treatise" on California municipal law. Whenever possible, the handbook provides references to other sources that may cover a particular topic in more detail. In keeping with the emphasis on practicality, the handbook also offers a host of "practice tips" for municipal lawyers.

Because of the scope of the handbook, certain legal or factual issues in any given area of municipal law may receive only a passing reference or may be omitted altogether. As with any legal publication, there is a risk that the law will change the day after the document comes back from the printer. Attorney readers are urged to read the statutes and cases cited in the handbook to make sure they remain good law.

The handbook is for general information only and is not intended as legal advice or as a substitute for consultations with an agency's municipal attorney. Subtle variations in circumstances can produce differing results under the law. Reasonable city attorneys can disagree on what the law requires in a given situation. Non-attorneys using this handbook are urged to consult with their agency's attorney when confronting a situation that may have legal ramifications.

The California Municipal Law Handbook is just one of a number of legal resources that the League makes available to city attorneys. Along with this handbook and primary legal resources, city attorneys should check the City Attorneys' Department webpage at www.cacities.org/attorneys for city attorneys' conference papers, city attorney opinions, sample forms, sample ordinances, and League publications that may also be of assistance in researching a given area of municipal law. CEB also has many additional publications to assist attorneys in the area of public and municipal law. See CEB.com and the CEB catalog.

CEB Real Property Practice Group Manager John K. Chapin, Attorney Editor Ann H. Davis, and Legal Editors Julie Brook, Ragnhild Fougner, Karen Nutter, Dorothy Robins, and Philip Weverka contributed to the 2010 edition. Administrative support was provided by Nila Kanzaria and Akanke Peyton. Karen Lamoreux handled copyediting and production. CEB's Indexing staff prepared the index. Composition was performed by CEB's Electronic Publishing staff.

Nature of Municipal Corporations

I. INTRODUCTION §1.1
A. Distinction Between Cities, Counties, and Other Local Agencies
1. Counties Are State Agents §1.2
2. Cities' Relationship to the State
a. Establishment of Cities §1.3
b. Limitations on Legislature's Power Over Cities §1.4
(1) Prohibition Against Special Legislation §1.5
(2) Prohibition Against Legislative Delegation of Municipal Authority §1.6
3. Charter Counties Versus Charter Cities §1.7
4. Special Districts §1.8
B. Legal Foundation of Cities
1. Constitutional Foundation §1.9
2. Laws Governing City Formation §1.10
3. Classes of Cities §1.11
a. General Law Cities §1.12
b. Charter Cities §1.13
C. Constitutional Grants of Municipal Authority §1.14
1. Police Power §1.15
a. Scope of Police Power §1.16
b. Preemption §1.17
c. Penalties §1.18
2. Taxing Power §1.19
a. Scope of Taxing Power §1.20
b. Compared to Police Power §1.21
3. Eminent Domain Power §1.22
4. Public Works Power §1.23
a. Scope of Public Works Power §1.24
b. Municipal Utilities §1.25
5. Corporate Power §1.26
a. General Law Cities §1.27
b. Charter Cities §1.28
(1) Constitutional Basis of "Municipal Affairs" Doctrine §1.29
(2) "Municipal Affair" Defined §1.30
(3) Relationship to Preemption §1.31
D. Constitutional Limits on Municipal Authority
1. Public Purpose §1.32
2. Federal Preemption Doctrine §1.33
a. Preemption Due to Occupation of Field §1.34
b. Preemption Due to Conflict With Federal Law §1.35
c. Preemption Due to Conflict With State General Law §1.36
(1) Duplication of State Law §1.37
(2) Contradiction of State Law §1.38
(3) State Law Occupies Field §1.39
d. Defining the Preempted Field §1.40
e. Examples of Valid Overlapping State and Local Regulation §1.41
3. Prohibition Against Gifts of Public Funds §1.42
a. Public Purpose Exception §1.43
b. Charter City Exception §1.44
4. Additional Compensation §1.45
5. Debt Limit §1.46
a. Special Fund Doctrine §1.47
b. No Pledge of Revenue Beyond 1 Year §1.48
c. Contingency Exception §1.49
d. Appropriations Exception §1.50
6. Tax and Appropriations Limits §1.51
a. General Property Tax Limit §1.52
b. Appropriation Limit §1.53

c. Voter Requirement for Imposition of Taxes §1.54
d. Special Assessments and Property-Related Fees and Charges §1.55
e. Other Tax Limitations §1.56
7. Contract Limitations §1.57
8. First Amendment Limitations
a. United States Constitution §1.58
b. California Constitution §1.59
c. Religion Issues
(1) Establishment Clause §1.60
(2) Invocations §1.61
(3) Religious Displays §1.62
(4) Public Aid to Religious Organizations §1.63
(5) Free Exercise Clause §1.64
9. Fourth Amendment Limitations §1.65
10. Fifth Amendment Limitations §1.66
11. Fourteenth Amendment Limitations §1.67
a. Equal Protection Clause §1.68
b. Due Process Clause §1.69

4. City Treasurer §1.258
5. Police Chief §1.259
6. Fire Chief §1.260

© The Regents of the University of California

§1.1 I. INTRODUCTION

A municipal corporation is a public corporation, created for public purposes. *City of San Francisco v Canavan* (1872) 42 C 541, 558 (citing *Payne & Dewey v Treadwell* (1860) 16 C 221, 233). The state may create, expand, diminish, or abolish municipal corporations and other public corporations subject only to the state's own laws and the California Constitution. *Weber v City Council* (1973) 9 C3d 950, 957, 109 CR 553. "Every city organized under this part shall have a name, and by such name has perpetual succession, and may sue and be sued. It shall have a common seal, alterable at the pleasure of the legislative body." Govt C §34501.

The legislature must prescribe uniform procedures for formation of cities. Cal Const art XI, §2. Once formed, a city may make and enforce within its limits all local, police, sanitary, and other ordinances and regulations not in conflict with general law. Cal Const art XI, §7. General laws have a uniform statewide operation and generally prohibit local or special legislation. Cal Const art IV, §16.

For further information on municipal corporations, see California Government Tort Liability Practice (4th ed Cal CEB 1999); California Land Use Practice (Cal CEB 2006); Condemnation Practice in California (3d ed Cal CEB 2005).

§1.1 I. INTRODUCTION

A municipal corporation is a public corporation, created for public purposes. *City of San Francisco v Canavan* (1872) 42 C 541, 558 (citing *Payne & Dewey v Treadwell* (1860) 16 C 221, 233). The state may create, expand, diminish, or abolish municipal corporations and other public corporations subject only to the state's own laws and the California Constitution. *Weber v City Council* (1973) 9 C3d 950, 957, 109 CR 553. "Every city organized under this part shall have a name, and by such name has perpetual succession, and may sue and be sued. It shall have a common seal, alterable at the pleasure of the legislative body." Govt C §34501.

The legislature must prescribe uniform procedures for formation of cities. Cal Const art XI, §2. Once formed, a city may make and enforce within its limits all local, police, sanitary, and other ordinances and regulations not in conflict with general law. Cal Const art XI, §7. General laws have a uniform statewide operation and generally prohibit local or special legislation. Cal Const art IV, §16.

For further information on municipal corporations, see California Government Tort Liability Practice (4th ed Cal CEB 1999); California Land Use Practice (Cal CEB 2006); Condemnation Practice in California (3d ed Cal CEB 2005).

A. Distinction Between Cities, Counties, and Other Local Agencies

§1.2 1. Counties Are State Agents

Counties are expressly designated as political subdivisions of the state in the California Constitution. See Cal Const art XI, §1(a). See also Govt C §23002 ("The several existing counties of the State and such other counties as are hereafter organized are legal subdivisions of the State"); *People ex rel Younger v County of El Dorado* (1971) 5 C3d 480, 491, 96 CR 553 (counties have also been declared public corporations or quasi-corporations). A major function of counties is to assist the state in administering state programs. See *County of Marin v Superior Court* (1960) 53 C2d 633, 638, 2 CR 758 (counties were created to advance state policies in areas of finance, education, social welfare, transportation, and administration of justice); *Wilkinson v Lund* (1929) 102 CA 767, 772, 283 P 385 (noting county is governmental agency of state exercising some of powers of state government). See also *Central Pac. Ry. Co. v Costa* (1927) 84 CA 577, 586, 258 P 991.

2. Cities' Relationship to the State

§1.3 a. Establishment of Cities

Cities have not been designated as political subdivisions of the state in either the California Constitution or statute. Cities are created as instruments of local self-government for the residents of cities under uniform procedures established by the legislature. Cal Const art XI, §2; Govt C §§56000-57550. Once established, cities have certain constitutional authority to govern local affairs, but remain subject to general law. Cal Const art XI, §§5, 7. Thus, cities may assist the state in providing government services. See, *e.g., Arques v City of Sausalito* (1954) 126 CA2d 403, 406, 272 P2d 58 (municipal corporations exercise part of state sovereignty in management and control over streets). Cities may be treated as political subdivisions of the state for certain federal law purposes. See *City of S. Lake Tahoe v California Tahoe Reg'l Planning Agency* (9th Cir 1980) 625 F2d 231, 233, cert denied (1980) 449 US 1039 (cities considered political subdivision of state for federal standing purposes).

© The Regents of the University of California

§1.4 b. Limitations on Legislature's Power Over Cities

The constitution limits the power of the legislature to interfere with the governance of cities. In addition to the requirement that the powers granted to cities by Cal Const art XI, §7 be limited only by general laws (see §1.3), two important limitations are the prohibition against local or special legislation found in Cal Const art IV, §16 and the prohibition against delegation of municipal powers to a private person or other legal entity found in Cal Const art XI, §11(a).

§1.4 b. Limitations on Legislature's Power Over Cities

The constitution limits the power of the legislature to interfere with the governance of cities. In addition to the requirement that the powers granted to cities by Cal Const art XI, §7 be limited only by general laws (see §1.3), two important limitations are the prohibition against local or special legislation found in Cal Const art IV, §16 and the prohibition against delegation of municipal powers to a private person or other legal entity found in Cal Const art XI, §11(a).

© The Regents of the University of California

§1.5 (1) Prohibition Against Special Legislation

The legislature may not enact local or special legislation when general law can be made applicable. Cal Const art IV, §16. This provision has been construed as the substantial equivalent of the equal protection clause of the Fourteenth Amendment to the United States Constitution. *City of Los Angeles v State* (1982) 138 CA3d 526, 533 n2, 187 CR 893. It generally precludes the legislature from singling out a specific city for individualized treatment. However, a statute that applies to a class of cities that includes only one city may be sustained so long as the individualized treatment bears a rational relationship to a legitimate state purpose. *City of Los Angeles v State,* 138 CA3d at 534; *Pasadena v Stimson* (1891) 91 C 238, 251, 27 P 604; *White v State* (2001) 88 CA4th 298, 305, 105 CR2d 714. For example, it is common practice to use population as a basis for the determination of areas in which particular requirements must apply. *Keenan v San Francisco Unified Sch. Dist.* (1950) 34 C2d 708, 713, 214 P2d 382. The legislature may establish other reasonable classifications among cities and prescribe different powers and regulations for each of the classes. However, the powers and regulations must be uniform within each of the classes. *In re Application of Jacobson* (1936) 16 CA2d 497, 500, 60 P2d 1001. Further, if the classification goes beyond designation by a general classification, and effectively results in singling out a particular city, then the law is no longer a general law. *Desmond v Dunn* (1880) 55 C 242, 250.

§1.6 (2) Prohibition Against Legislative Delegation of Municipal Authority

The legislature may not delegate to a private person or body power to make, control, appropriate, supervise, or interfere with city improvements, money, or property, or levy taxes or assessments, or perform municipal functions. Cal Const art XI, §11. The legislature may, however, authorize the deposit of public money in banks and other financial institutions and the investment of public money. Thus, for example, the legislature cannot delegate the municipal function of setting employee salaries to an arbitration panel. *County of Riverside v Superior Court (Riverside Sheriff's Ass'n)* (2003) 30 C4th 278, 132 CR2d 713. The test of whether an entity to which the legislature seeks to delegate authority is a public or private entity depends on case-by-case evaluation of applicable executive and legislative controls. *California Ass'n of Retail Tobacconists v State* (2003) 109 CA4th 792, 817, 135 CR2d 224.

The constitutional prohibition against delegation of municipal authority does not apply when it is the local agency, not the legislature, that is doing the delegation. 109 CA4th at 828. Delegation of municipal authority by a city itself, although not governed by the provisions of the constitution, is subject to the settled rule against delegation of legislative power. Generally, a city may delegate specific administrative power to subordinate boards or persons subject to imposition of standards that constrain the discretion of the board or person. See, *e.g., Pacific Legal Found. v Brown* (1981) 29 C3d 168, 201, 172 CR 487; *Bagley v City of Manhattan Beach* (1976) 18 C3d 22, 26, 132 CR 668; *Kugler v Yocum* (1968) 69 C2d 371, 71 CR 687.

§1.7 3. Charter Counties Versus Charter Cities

Charter cities enjoy more autonomy than charter counties do. See *Johnson v Bradley* (1992) 4 C4th 389, 405, 14 CR2d 470 (noting constitutional provisions relating to charter counties contain no general reservation of local autonomy and no grant of "plenary" authority over local election matters and quoting Sato, *"Municipal Affairs" in California,* 60 Cal L Rev 1055, 1115 (1972)).

© The Regents of the University of California

§1.7 3. Charter Counties Versus Charter Cities

Charter cities enjoy more autonomy than charter counties do. See *Johnson v Bradley* (1992) 4 C4th 389, 405, 14 CR2d 470 (noting constitutional provisions relating to charter counties contain no general reservation of local autonomy and no grant of "plenary" authority over local election matters and quoting Sato, *"Municipal Affairs" in California,* 60 Cal L Rev 1055, 1115 (1972)).

© The Regents of the University of California

§1.8 4. Special Districts

Special districts are public corporations formed to perform particular governmental functions within a specific territory. Such districts first appeared in California after the legislature passed the Wright Act of 1887 (Stats 1887, ch 29) to establish a system of irrigation districts. The first special district formed in California was the Turlock Irrigation District in Stanislaus County.

Special districts may be created under general law or, under appropriate circumstances, a special act. *American River Flood Control Dist. v Sweet* (1932) 214 C 778, 782, 7 P2d 1030; *South Santa Clara Valley Water Conserv. Dist. v Santa Clara Valley Water Dist.* (1978) 76 CA3d 852, 143 CR 193. Special districts have only those powers conferred on them by the legislature. *Los Angeles County Flood Control Dist. v Southern Cal. Edison Co.* (1958) 51 C2d 331, 339, 333 P2d 1; *In re Bonds of Madera Irrig. Dist.* (1891) 92 C 296, 315, 28 P 272; *Turlock Irrig. Dist. v Hetrick* (1999) 71 CA4th 948, 84 CR2d 175. Examples of government services provided by special districts include: fire protection, public education, health care, parks and recreation, water, sewer, power, and transportation. Establishment of special districts does not violate the constitutional prohibition against delegation of municipal powers to private bodies. *Joint Highway Dist. No. 13 v Hinman* (1934) 220 C 578, 584, 32 P2d 144. See §1.6. Special districts have been variously characterized as "public corporations," "municipal corporations," "quasi-municipal corporations," "state agencies," "public agencies," "agencies or auxiliaries of the state," and by a variety of other descriptions, depending on the purpose for which the classification is being made. *Turlock Irrig. Dist. v Hetrick,* 71 CA4th at 952. Regardless of classification, such districts have only those limited powers specified by the legislature. *Turlock Irrig. Dist. v Hetrick, supra*. The distinction between cities and special districts is thoroughly discussed in *People ex rel City of Downey v Downey County Water Dist.* (1962) 202 CA2d 786, 796, 21 CR 370.

On special districts, see §1.72.

© The Regents of the University of California

B. Legal Foundation of Cities

§1.9 1. Constitutional Foundation

"The Legislature shall prescribe uniform procedure for city formation and provide for city powers." Cal Const art XI, §2(a). Municipalities receive their power from the California Constitution and/or applicable general laws. *Long v City of Fresno* (1964) 225 CA2d 59, 65, 36 CR 886.

© The Regents of the University of California

§1.10 2. Laws Governing City Formation

Procedures for city formation and annexation of territories to cities are governed by the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000. See Govt C §§56000-57550. See also *County of Los Angeles v City Council of the City of Lawndale* (1962) 202 CA2d 20, 25, 20 CR 363; *County of San Mateo v City Council of Palo Alto* (1959) 168 CA2d 220, 221, 335 P2d 1013 (annexation of territory to city is governed by general laws of state and is not municipal affair). On procedures for organization and reorganization of cities, see §§1.107-1.178.

© The Regents of the University of California

§1.11 3. Classes of Cities

The California Government Code classifies cities as charter or general law cities. See Govt C §§34100-34102. General law cities derive their corporate powers from general laws enacted by the legislature. See generally *Irwin v City of Manhattan Beach* (1966) 65 C2d 13, 51 CR 881. Charter cities, on the other hand, derive their corporate powers directly from the constitution, subject to limitations of their respective charters and enactments of the legislature on matters of statewide concern. See *Johnson v Bradley* (1992) 4 C4th 389, 394, 14 CR2d 470 (discussing historic foundations of home rule in California).

© The Regents of the University of California

§1.12 a. General Law Cities

General law cities are organized as provided in the California Government Code. See Govt C §34102. The term "city" includes a city and county and an incorporated town. Govt C §20. By ordinance, general law municipalities may change their corporate name from city to town or from town to city. Govt C §§34502-34504. Any city may enact, amend, or repeal a charter for its own government. Govt C §34450.

NOTE: Some Government Code provisions apply only to general law cities (see, *e.g.,* Govt C §36501 (governing officers and employees)), and others apply to both general law and charter cities. See, *e.g.,* Govt C §34090 (on destruction of city records).

Cities organized under the laws of the state are subject to all constraints imposed by the general law, even those applicable to municipal affairs. Such cities have those powers conferred by the California Constitution, including the "police power" and those powers conferred by state law. See Cal Const art XI, §7.

General law establishes the organizational structure of general law cities. See, *e.g.,* Govt C §§34851-34906 (providing for alternative forms of government), 36501 (requiring general law cities to be governed by city council of five members, city clerk, city treasurer, police chief, fire chief, and such subordinate officers or employees as required by law). General law cities may also, by vote of the people, exercise the option to be governed by a council of from four to nine council members "by" or "from" districts and to impose term limits on council membership. Govt C §§34871, 36502.

§1.13 b. Charter Cities

A charter is a written document, approved by the electorate, which operates as a "constitution" for the adopting city. The provisions of Cal Const art XI, §3(a) authorize the adoption of a city charter and provide that such a charter has the force and effect of state law. Charter cities have the power to make and enforce all ordinances and regulations with respect to municipal affairs, including those relating to the creation and regulation of a police force and sub-government within the city, the conduct of city elections, and the dealings with municipal officers and employees. Cal Const art XI, §5(b). Charters act as instruments of limitation on the broad power of charter cities over matters of municipal affairs. *City of Glendale v Trondsen* (1957) 48 C2d 93, 98, 308 P2d 1.

The provisions of Cal Const art XI, §5(a), the "home rule" provision, affirmatively grant charter cities supremacy over "municipal affairs," *i.e.,* a city charter is subject only to conflicting provisions in the state or federal constitutions and preemptive state law on matters of statewide concern.

NOTE: What was once a matter of local concern can later become a matter of statewide concern, controlled by the general laws of the state. *California Fed. Sav. & Loan Ass'n v City of Los Angeles* (1991) 54 C3d 1, 13, 283 CR 569 (rejecting static and compartmentalized description of "municipal affairs"); *Codding Enters. v City of Merced* (1974) 42 CA3d 375, 377, 116 CR 730.

Charters are effective when filed with the Secretary of State; the charter must also be published in the official state statutes. Amendments, revisions, and repeal of a charter are handled in the same manner as adoption of a charter. An amendment or repeal to a charter may be proposed by the governing body or by initiative; the governing body's consent is not needed in the case of an initiative. *Birkenfeld v City of Berkeley* (1976) 17 C3d 129, 143, 130 CR 465.

© The Regents of the University of California

§1.14 C. Constitutional Grants of Municipal Authority

The California Constitution contains a number of grants of power to cities. On constitutional limits to many of these powers, see §§1.32-1.69.

© The Regents of the University of California

§1.15 1. Police Power

Any city may make and enforce within its limits all local, police, sanitary, and other ordinances and regulations not in conflict with general laws. Cal Const art XI, §7. The word "police" is derived from the Greek word "polis" meaning "city." McQuillin, Municipal Corporations §24.02 (3d rev ed 1988). The term "police power," in its original and most comprehensive meaning, denotes the power of government in every sovereignty, the power to govern persons and things. *Munn v Illinois* (1877) 94 US 113, 125, 24 L Ed 77, 84. The police power of a state is its right to adopt regulations designed to promote the public convenience or the general prosperity, as well as regulations designed to promote the public health, the public morals, or the public safety. *Chicago, B. & Q. Ry. Co. v Illinois* (1906) 200 US 561, 592, 50 L Ed 596, 26 S Ct 341.

© The Regents of the University of California

§1.16 a. Scope of Police Power

The legislative power of a city under Cal Const art XI, §7, within its boundaries, is as broad as that of the state legislature, subject only to limitations of general law. *Candid Enters., Inc. v Grossmont Union High Sch. Dist.* (1985) 39 C3d 878, 885, 218 CR 303; *Birkenfeld v City of Berkeley* (1976) 17 C3d 129, 140, 130 CR 465; *Carlin v City of Palm Springs* (1971) 14 CA3d 706, 711, 92 CR 535. The police power "is not a circumscribed prerogative, but is elastic and, in keeping with the growth of knowledge and the belief in the popular mind of the need for its application, capable of expansion to meet existing conditions of modern life and thereby keep pace with the social, economic, moral, and intellectual evolution of the human race." *Miller v Board of Pub. Works* (1925) 195 C 477, 485, 234 P 381. The exercise of police power must:

- Be reasonably related to a legitimate governmental purpose. *Birkenfeld v City of Berkeley* (1976) 17 C3d 129, 159, 130 CR 465. See *Consolidated Rock Prods. Co. v City of Los Angeles* (1962) 57 C2d 515, 522, 20 CR 638 (there must be reasonable basis in fact to support legislative determination of regulation's wisdom and necessity); and
- Have reasonable tendency to promote the public health, morals, safety, or general welfare of the community. *Carlin v City of Palm Springs* (1971) 14 CA3d 706, 711, 92 CR 535 (city has broad discretion in determining what is reasonable in endeavoring to protect public health, safety, morals, and general welfare of community).

© The Regents of the University of California

§1.17 b. Preemption

The California Constitution's grant of broad police power to cities also imposes a limitation on the exercise of that power; local laws may not conflict with "general" or state laws. See Cal Const art XI, §7. When such general laws are adopted, the state law is said to have "preempted" the power of a city to adopt a local law. For example, the state has exclusive power to regulate the manufacture, sale, purchase, possession, and transportation of alcoholic beverages. Cal Const art XX, §22. Thus, local regulation is constitutionally preempted and is subject to legislative authorization.

On the federal preemption doctrine, see §§1.33-1.41.

© The Regents of the University of California

§1.18 c. Penalties

A city has authority to impose criminal or civil penalties to ensure obedience to its regulations; however, those penalties must not be "oppressive" or "unreasonable." *Hale v Morgan* (1978) 22 C3d 388, 398, 149 CR 375.

© The Regents of the University of California

§1.19 2. Taxing Power

Taxation is the power of the government to raise revenue for public purposes. *City of Madera v Black* (1919) 181 C 306, 310, 184 P 397; *Perry v Washburn* (1862) 20 C 318, 350. Local governments may impose taxes authorized by the legislature. See Cal Const art XIII, §24.

On taxation power, see chap 5.

© The Regents of the University of California

§1.20 a. Scope of Taxing Power

Charter authority is comprehensive enough to provide for the levying of taxes for municipal purposes without the specific delegation of authority from the legislature. *Ex Parte Braun* (1903) 141 C 204, 74 P 780; *Security Sav. Bank & Trust Co. v Hinton* (1893) 97 C 214, 32 P 3. Historically, taxation has been considered to be a municipal affair for charter cities (*West Coast Adver. Co. v San Francisco* (1939) 14 C2d 516, 95 P2d 138), subject to control by the legislature on matters of statewide concern. *California Sav. & Loan Ass'n v City of Los Angeles* (1991) 54 C3d 1, 283 CR 569. A general law city, with certain limitations, may levy any tax that a charter city may levy. Govt C §37100.5. State law may specifically exempt certain matters from taxes levied by general law cities. See, *e.g.,* Rev & T C §7282 (no occupancy tax on state park campsites).

NOTE: The state legislature may not impose taxes for local purposes but may authorize local governments to impose them. Cal Const art XIII, §24.

© The Regents of the University of California

§1.21 b. Compared to Police Power

The power to regulate is different from the power to generate revenue. The power to impose regulatory fees is not dependent on a legislatively authorized taxing power but exists under the police power. *Mills v County of Trinity* (1980) 108 CA3d 656, 662, 166 CR 674. However, a requirement for payment for a particular municipal service, such as solid waste disposal, may be considered an exercise of the police power or the taxation power. See *City of Glendale v Trondsen* (1957) 48 C2d 93, 103, 308 P2d 1.

© The Regents of the University of California

§1.22 3. Eminent Domain Power

A municipal corporation has no inherent power of eminent domain and can exercise it only when expressly authorized by law. *City of Menlo Park v Artino* (1957) 151 CA2d 261, 266, 311 P2d 135; *City & County of San Francisco v Ross* (1955) 44 C2d 52, 55, 279 P2d 529. The source of government's general eminent domain power is Cal Const art I, §19. The constitutional derivation of the eminent domain means a city cannot contract away the power of eminent domain. *Glendale v Superior Court* (1993) 18 CA4th 1768, 1778, 23 CR2d 305.

On eminent domain power, see chap 8.

© The Regents of the University of California

§1.23 4. Public Works Power

Cities may establish, purchase, and operate public works to furnish residents with light, water, power, heat, transportation, or means of communication. Cal Const art XI, §9. It is a self-executing grant of power. *City of Mill Valley v Saxton* (1940) 41 CA2d 290, 294, 106 P2d 455. The courts have extended this provision to airports. *City & County of San Francisco v Western Air Lines, Inc.* (1962) 204 CA2d 105, 126, 22 CR 216; *Pipes v Hilderbrand* (1952) 110 CA2d 645, 647, 243 P2d 123.

NOTE: The constitutional grant of authority does not obligate a city to establish a municipal utility. See, *e.g., Glenbrook Dev. Co. v City of Brea* (1967) 253 CA2d 267, 274, 61 CR 189 (dealing with water services).

© The Regents of the University of California

§1.24 a. Scope of Public Works Power

A city may furnish public works services outside its boundaries, except within another municipal corporation that furnishes the same service and does not consent. Cal Const art XI, §9(a). A city may establish conditions and regulations for persons or corporations that establish and provide these services. Cal Const art XI, §9(b).

© The Regents of the University of California

§1.25 b. Municipal Utilities

Publicly owned municipal utilities are a proprietary activity, but they are not regulated by the Public Utilities Commission or any other supervising agency absent a legislative grant of authority under Cal Const art XI, §9 and Govt C §39732. *American Microsystems, Inc. v City of Santa Clara* (1982) 137 CA3d 1037, 1042, 187 CR 550. See generally Pub Util C §§10001-10303 (general laws relating to municipally owned utilities). A municipal utility is delegated certain powers of government; only in reference to those delegated powers will it be regarded as a governmental entity. *Davoust v City of Alameda* (1906) 149 C 69, 71, 84 P 760. Generally, in the conduct of its proprietary functions, it is to be treated as a private entity. See also *Ravettino v City of San Diego* (1945) 70 CA2d 37, 42, 160 P2d 52; *Logan v City of Glendale* (1933) 132 CA 169, 170, 22 P2d 552.

Rates charged by a municipally owned utility must be fair, reasonable, just, uniform, and nondiscriminatory; reasonable discretion is given to the officers whose duty it is to fix rates. *American Microsystems, Inc. v City of Santa Clara* (1982) 137 CA3d 1037, 1042, 187 CR 550. The person challenging the rate has the burden to show it is unreasonable or unfair. *Hansen v City of San Buenaventura* (1986) 42 C3d 1172, 1180, 233 CR 22. In certain situations, a municipality may charge out-of-city users a higher rate than city users pay. 42 C3d 1172 at 1184 (city entitled to rate of return on water services to non-city residents). See also *Howard Jarvis Taxpayers Ass'n v City of Roseville* (2002) 97 CA4th 637, 649, 119 CR2d 91 ("*Hansen*'s observations, however, were made 10 years before Proposition 218 added article XIII D to the state Constitution").

On municipal utilities, see chap 6.

© The Regents of the University of California

§1.26 5. Corporate Power

A municipal corporation has the power "to do everything necessarily incident to a proper discharge of its public functions but no right to do more can be implied, and in the absence of express legislative sanction, it has no authority to engage in any independent business enterprise or occupation such as is usually pursued by private individuals." *Ravettino v City of San Diego* (1945) 70 CA2d 37, 44, 160 P2d 52. The concept of the public welfare is extremely broad; thus, cities may engage in a wide variety of enterprises that may also be provided by private persons. Further, cities have significant latitude in the management and disposal of public property for the common benefit.

On management of public property, see chap 8.

© The Regents of the University of California

§1.27 a. General Law Cities

A general law city has only those corporate powers expressly conferred on it by the constitution or legislature, together with such powers as are "necessarily incident to those expressly granted or essential to the declared object and purposes of the municipal corporation." *Irwin v City of Manhattan Beach* (1966) 65 C2d 13, 20, 51 CR 881; *Wiltshire v Superior Court* (1985) 172 CA3d 296, 302, 218 CR 199.

NOTE: *Irwin v City of Manhattan Beach, supra,* is a restatement of the traditional "Dillon's Rule" of the powers of subordinate governments. With respect to matters within the scope of city power granted by Cal Const art XI, §7, its holding is difficult to reconcile with later cases describing the broad scope of the police power. See §§1.15-1.18.

"Implied powers" includes those powers that "arise by natural implication from the grant of express powers, or by necessary inference from the purposes or functions of the municipality." Rhyne, The Law of Local Government Operations §4.7 at 65 (1980). See also *Frisbee v O'Connor* (1932) 119 CA 601, 7 P2d 316.

© The Regents of the University of California

§1.28 b. Charter Cities

By virtue of Cal Const art XI, §5, corporate powers are a municipal affair for charter cities that are to be "free from legislative interference with respect to matters of local or internal concern." *Butterworth v Boyd* (1938) 12 C2d 140, 147, 82 P2d 434.

© The Regents of the University of California

§1.29 (1) Constitutional Basis of "Municipal Affairs" Doctrine

The provisions of Cal Const art XI, §5 generally vest charter cities with plenary authority over municipal affairs, free from any constraint imposed by the general law and subject only to constitutional limitations. See *California Fed. Sav. & Loan Ass'n v City of Los Angeles* (1991) 54 C3d 1, 12, 283 CR 569; *Bishop v City of San Jose* (1969) 1 C3d 56, 62, 81 CR 465; *Ex Parte Braun* (1903) 141 C 204, 209, 74 P 780. However, in addition to explicitly granting sovereignty over municipal affairs, the home rule provision also implicitly recognizes state legislative supremacy over matters that are not municipal affairs and are, instead, "statewide concerns." *California Fed. Sav. & Loan Ass'n*, 54 C3d at 13.

© The Regents of the University of California

§1.30 (2) "Municipal Affair" Defined

There is no exact definition of the term "municipal affairs," and what is deemed a municipal affair may change over time as conditions in society change. *Committee of Seven Thousand v Superior Court* (1988) 45 C3d 491, 505, 247 CR 362; *Bishop v City of San Jose* (1969) 1 C3d 56, 62, 81 CR 465; *Isaac v City of Los Angeles* (1998) 66 CA4th 586, 599, 77 CR2d 752. Whether a given activity is a municipal affair, over which a charter city has sovereignty, or a statewide concern, over which the legislature has authority, is an issue for the courts that depends on the facts and circumstances of each particular case. The terms "municipal affair" and "statewide concern" are "ultimate legal conclusions rather than factual descriptions." *California Fed. Sav. & Loan Ass'n v City of Los Angeles* (1991) 54 C3d 1, 17, 283 CR 569. A matter is of statewide concern rather than only a municipal affair when its impact is "primarily regional," even if its impacts are not truly statewide. *Committee of Seven Thousand,* 45 C3d at 505 (although construction of local roads has been considered local concern, construction of major highways is not).

© The Regents of the University of California

§1.31 (3) Relationship to Preemption

The issue of whether an area is a "municipal affair" is part of the overall preemption analysis for charter cities. The threshold inquiry is whether a conflict exists between a charter city law and a state law. If no conflict exists, the charter city law stands. If an actual conflict exists, the court will find the matter is a municipal affair unless it qualifies as a matter of statewide concern. Even if the subject matter is one of statewide concern, the state law must be reasonably related and narrowly tailored to addressing that statewide concern. See *Johnson v Bradley* (1992) 4 C4th 389, 14 CR2d 470; *California Fed. Sav. & Loan Ass'n v City of Los Angeles* (1991) 54 C3d 1, 283 CR 569.

© The Regents of the University of California

D. Constitutional Limits on Municipal Authority

§1.32 1. Public Purpose

Exercise of the police power must be reasonably related to a legitimate governmental purpose. *Birkenfeld v City of Berkeley* (1976) 17 C3d 129, 159, 130 CR 465. A reasonable basis in fact to support the legislative determination of the regulation's wisdom and necessity must exist. *Consolidated Rock Prods. Co. v City of Los Angeles* (1962) 57 C2d 515, 522, 20 CR 638.

© The Regents of the University of California

§1.33 2. Federal Preemption Doctrine

Under the supremacy clause of the United States Constitution, state laws that interfere or conflict with federal law are "preempted" or invalid. US Const art V, cl 2; *Wisconsin Pub. Intervenor v Mortier* (1991) 501 US 597, 604, 115 L Ed 2d 532, 111 S Ct 2476 (citing *Gibbons v Ogden* (1824) 22 US 1, 6 L Ed 23). This doctrine is referred to as the federal preemption doctrine. See *Garcia v San Antonio Metro. Transit Auth.* (1985) 469 US 528, 83 L Ed 2d 1016, 105 S Ct 1005.

Federal preemption analysis is generally the same for state and local laws. *Wisconsin Pub. Intervenor v Mortier* (1991) 501 US 597, 605, 115 L Ed 2d 532, 111 S Ct 2476 (citing *Hillsborough County v Automated Med. Labs., Inc.* (1985) 471 US 707, 85 L Ed 2d 714, 105 S Ct 2371, and *City of Burbank v Lockheed Air Terminal, Inc.* (1973) 411 US 624, 36 L Ed 2d 547, 93 S Ct 1854). Federal law may preempt a state or local law in one of two general ways (*Crosby v National Foreign Trade Council* (2000) 530 US 363, 372, 147 L Ed 2d 352, 120 S Ct 2288):

(1) Congress demonstrates its intent to occupy the field of regulation and supplant state or local authority; or

(2) State or local law conflicts with federal law by making it impossible to comply with federal law or by creating an obstacle to the goal of the federal law.

The key focus of any preemption analysis is to ascertain congressional intent and the purpose of the allegedly preemptive law. *Cipollone v Liggett Group, Inc.* (1992) 505 US 504, 120 L Ed 2d 407, 112 S Ct 2608; *E. I. Malone v White Motor Corp.* (1978) 435 US 497, 504, 55 L Ed 2d 443, 98 S Ct 1185. Congressional intent to preempt state legislation is not presumed. Historic police power regulation is not assumed to be invalidated by federal law unless that was the "clear and manifest purpose of Congress." *Columbus v Ours Garage & Wrecker Serv., Inc.* (2002) 536 US 424, 432, 153 L Ed 2d 430, 122 S Ct 2226 (citing *Wisconsin Pub. Intervenor v Mortier* (1991) 501 US 597, 606, 115 L Ed 2d 532, 111 S Ct 2476 (quoting *Rice v Santa Fe Elevator Corp.* (1947) 331 US 218, 230, 91 L Ed 1447, 67 S Ct 1146)). Congressional intent is evidenced by the language, structure, and purpose of the federal statute. *CSX Transp. v Easterwood* (1993) 507 US 658, 123 L Ed 2d 387, 113 S Ct 1732.

© The Regents of the University of California

§1.34 a. Preemption Due to Occupation of Field

Federal intent to supplant local regulation may be expressly stated in the terms of the federal statute, or may be implied in the following circumstances (*Wisconsin Pub. Intervenor v Mortier* (1991) 501 US 597, 604, 115 L Ed 2d 532, 111 S Ct 2476):

- a scheme of federal regulation is so pervasive as to leave no room for local regulation;
- the federal interest is so dominant the federal system will be assumed to preclude enforcement of state laws on the same subject; or
- the goals "sought to be obtained" and the "obligations imposed" by the federal statute reveal a purpose to preclude state authority. A city cannot impose conditions on a subject matter within its authority if the conditions interfere with the federal regulatory scheme. *Golden State Transit Corp. v City of Los Angeles* (1989) 493 US 103, 107 L Ed 2d 420, 110 S Ct 444.

A state law that regulates in an area just outside the preempted field is valid, unless Congress intended that the particular activity be unregulated. For example, some labor practices have been left unregulated, to be controlled by economic forces. These areas are not open to state or local government regulation. *Machinists v Wisconsin Employment Relations Comm'n* (1976) 427 US 132, 49 L Ed 2d 396, 96 S Ct 2548. Another example is the Employee Retirement Income Security Act of 1974 (ERISA) (29 USC §§1001-1461). Although ERISA preempts laws that "relates to" employee benefit plans, a law that requires the payment of severance benefits but does not require the establishment of an ongoing plan is not preempted. *Fort Halifax Packing Co. v Coyne* (1987) 482 US 1, 23, 96 L Ed 2d 1, 107 S Ct 2211.

NOTE: Federal regulations can also have a preemptive effect when Congress confers discretion on an administrator to implement a statute by the issuance of regulations intended to preempt state law. The preemption analysis focuses on whether the federal agency properly exercised the authority delegated to it by Congress. *City of New York v FCC* (1988) 486 US 57, 64, 100 L Ed 2d 48, 108 S Ct 1637; *Louisiana Pub. Serv. Comm'n v FCC* (1986) 476 US 355, 90 L Ed 2d 369, 106 S Ct 1890.

© The Regents of the University of California

§1.35 b. Preemption Due to Conflict With Federal Law

Preemption does not occur by mere fact that the state or local requirement is more demanding than the federal statute. State or local laws may impose regulatory requirements that are more stringent than federal requirements, but the state cannot completely exclude federally licensed commerce. More stringent state or local laws, however, may be preempted if it is physically impossible to comply with both the state or local law and the federal requirement or the subject area has been occupied or requires occupation by the federal government. *Florida Lime & Avocado Growers, Inc. v Paul* (1963) 373 US 132, 141, 10 L Ed 2d 248, 83 S Ct 1210.

PRACTICE TIP 1: Courts are more inclined to uphold state and local regulation when applying the federal preemption doctrine than they are inclined to uphold local regulation when applying the state preemption doctrine.

PRACTICE TIP 2: The courts look for an actual manifestation of affirmative congressional intent to occupy the field and do not seem to imply it easily, especially in the area of historic police power regulations.

PRACTICE TIP 3: City attorneys should create a record to: (1) demonstrate why the city's regulation achieves significant public purposes historically within the states' police power; (2) show why it is compatible with or furthers any existing federal laws in the area; and (3) identify any language in the federal statute, regulations, or legislative or regulatory history which recognizes or accepts related state or local regulation.

© The Regents of the University of California

§1.36 c. Preemption Due to Conflict With State General Law

A city may not enact local laws that conflict with "general" or state laws. Cal Const art XI, §7. Local legislation that conflicts with the general laws of the state is void. *Cohen v Board of Supervisors* (1985) 40 C3d 277, 290, 219 CR 467; *People ex rel Deukmejian v County of Mendocino* (1984) 36 C3d 476, 204 CR 897. A local law conflicts with state law within the meaning of Cal Const art XI, §7 if it either (1) duplicates, (2) contradicts, or (3) enters a field which has been fully occupied by state law, whether expressly or by legislative implication. *California Fed. Sav. & Loan Ass'n v City of Los Angeles* (1991) 54 C3d 1, 283 CR 569; *Candid Enters., Inc. v Grossmont Union High Sch. Dist.* (1985) 39 C3d 878, 885, 218 CR 303; *Bravo Vending v City of Rancho Mirage* (1993) 16 CA4th 383, 397, 20 CR2d 164.

NOTE: Charter cities are exempt from this restriction as to judicially declared "municipal affairs." *Johnson v Bradley* (1992) 4 C4th 389, 397, 14 CR2d 470; *Bishop v City of San Jose* (1969) 1 C3d 56, 61, 81 CR 465.

The mere fact that the state, in the exercise of its police power, has enacted certain regulations does not prohibit a municipality from imposing additional requirements. So long as no conflict exists between the two, the requirements of the municipal ordinance are not unreasonable or discriminatory, and the state has not preempted the field, both will stand. *California Rifle & Pistol Ass'n, Inc. v City of West Hollywood* (1998) 66 CA4th 1302, 78 CR2d 591.

© The Regents of the University of California

§1.37 (1) Duplication of State Law

The principle that local law may not "duplicate" state law is reiterated in many cases, but is best explained in *Pipoly v Benson* (1942) 20 C2d 366, 371, 125 P2d 482. According to that court, when the local law is identical to state law, there is an "inevitable conflict of jurisdiction," and because of this conflict, the local law is not valid "supplementary legislation," but conflicts with state law and is invalid. *Pipoly* also describes the duplicative local law as purporting to operate in a field occupied by the state law it duplicates. However, later cases treat occupation of a field by state law as a separate and independent basis for invalidating a local law on the basis that it is duplicative of state law. Duplication is not present when state and local laws are not coextensive. *Sherwin-Williams Co. v City of Los Angeles* (1993) 4 C4th 893, 897, 902, 16 CR2d 215 (state law regulating transfer and possession of aerosol paint and requiring retailers to post warning against vandalism does not duplicate and thus preempt local law regulating display of aerosol paint and broad-tipped marker pens; although both are graffiti prevention measures, they are "different in scope and substance").

For examples of local laws invalidated as duplicative of or substantially identical to state law, see *A & B Cattle Co. v City of Escondido* (1987) 192 CA3d 1032, 1043, 238 CR 580 (city licensing scheme regulating sale of materials marketed for use with illegal drugs is invalid because it substantially duplicated state drug paraphernalia law); *Cohen v Board of Supervisors* (1985) 40 C3d 277, 292, 219 CR 467 (provisions of local licensing scheme for escort services that prohibit escort from engaging in criminal conduct are invalid as duplicative of state criminal law, but remainder of licensing scheme is not preempted by state law). See also *O'Connell v City of Stockton* (2005) 128 CA4th 831, 27 CR3d 696 (court found that city ordinance was preempted by state's Uniform Controlled Substances Act (Health & S C §§11000-11651) in connection with civil forfeiture in drug trade, disagreeing with contrary holding in *Horton v City of Oakland* (2000) 82 CA4th 580, 98 CR2d 371).

© The Regents of the University of California

§1.38 (2) Contradiction of State Law

A local law contradicts state law when its purpose is inimical to the purpose of the state law (see *Ex Parte Daniels* (1920) 183 C 636, 641, 192 P 442); prohibits what the legislature intends to authorize (see *Northern Cal. Psychiatric Soc'y v City of Berkeley* (1986) 178 CA3d 90, 105, 223 CR 609); or otherwise fails to follow state mandates (see *Bank of the Orient v Town of Tiburon* (1990) 220 CA3d 992, 269 CR 690). The mere fact that the local law imposes restraints that the state law does not impose does not establish a conflict. "On the contrary the absence of a statutory restraint is the very occasion for municipal initiative." *Fisher v City of Berkeley* (1984) 37 C3d 644, 707, 209 CR 682, aff'd (1986) 475 US 260.

© The Regents of the University of California

§1.39 (3) State Law Occupies Field

State law may occupy a field either expressly or by implication. *Candid Enters., Inc. v Grossmont Union High Sch. Dist.* (1985) 39 C3d 878, 886, 218 CR 303. When the state law contains provisions that expressly declare the legislature's intent to preempt local regulation, a local law will be invalidated unless it is found to regulate a different "field" of regulation.

In determining whether the legislature has impliedly occupied or preempted a field to the exclusion of local regulation, the court must look at "the whole purpose and scope of the legislative scheme." *Candid Enters., Inc. v Grossmont Union High Sch. Dist., supra*. An intent to occupy the field will be found in any one of the following circumstances: "(1) the subject matter has been so fully and completely covered by general law as to clearly indicate that it has become exclusively a matter of state concern; (2) the subject matter has been partially covered by general law couched in such terms as to indicate clearly that a paramount state concern will not tolerate further or additional local action; or (3) the subject matter has been partially covered by general law, and the subject is of such a nature that the adverse effect of a local ordinance on the transient citizens of the state outweighs the possible benefit to the municipality." *In re Hubbard* (1964) 62 C2d 119, 128, 41 CR 393, overruled in part on other grounds by *Bishop v City of San Jose* (1969) 1 C3d 56, 81 CR 465. See *Western Oil & Gas Ass'n v Monterey Bay Unified Air Pollution Control Dist.* (1989) 49 C3d 408, 423, 261 CR 384; *Fisher v City of Berkeley* (1984) 37 C3d 644, 708, 209 CR 682, aff'd (1986) 475 US 260; *People ex rel Deukmejian v County of Mendocino* (1984) 36 C3d 476, 485, 204 CR 897.

Preemption will *not* be implied when

- the legislative scheme either permits or recognizes local regulation (*People ex rel Deukmejian,* 36 C3d at 485);
- there is a significant local interest that may differ from one locality to another (*Fisher,* 37 C3d at 707; *Gluck v County of Los Angeles* (1979) 93 CA3d 121, 133, 155 CR 435); or
- there is a long tradition of local regulation and a legislatively imposed duty to preserve and protect the public health (*Western Oil & Gas,* 49 C3d at 424; *People ex rel Deukmejian,* 36 C3d at 484).

© The Regents of the University of California

§1.40 d. Defining the Preempted Field

Because a local law can be invalidated as preempted only when it regulates the same "field" in which the legislature has evinced its intent to occupy, either expressly or by implication (see §1.39), the way in which the relevant field is described is often crucial to the result: a narrow definition of the field limits the preemptive effect of state law, and a broad definition increases its preemptive reach. *Candid Enters., Inc. v Grossmont Union High Sch. Dist.* (1985) 39 C3d 878, 886 n4, 218 CR 303; *California Water & Tel. Co. v County of Los Angeles* (1967) 253 CA2d 16, 27, 61 CR 618.

In defining a "field" for purposes of preemption, apply a patterned approach, *i.e.,* a field should not be defined merely by uniting a series of statutes containing a common noun such as "rent" (see *Fisher v City of Berkeley* (1984) 37 C3d 644, 707, 209 CR 682, aff'd (1986) 475 US 260); rather, an area of legislation that is logically related and reflects a patterned approach to the subject constitutes a potentially preempted field. *Galvan v Superior Court* (1969) 70 C2d 851, 862, 76 CR 642. In addition, consider whether the local law has a separate and independent purpose from the allegedly preemptive state law, in which case it may be found to regulate a separate field. *Santa Monica Pines, Ltd. v Rent Control Bd.* (1984) 35 C3d 858, 869, 201 CR 593; *Birkenfeld v City of Berkeley* (1976) 17 C3d 129, 148, 130 CR 465; *Kelly v Yee* (1989) 213 CA3d 336, 341, 261 CR 568.

© The Regents of the University of California

§1.41 e. Examples of Valid Overlapping State and Local Regulation

Local governments may enact laws, even on matters of statewide concern, in the absence of a preemptive state law. *Bishop v City of San Jose* (1969) 1 C3d 56, 62, 81 CR 465. Such enactments must be under some identified source of authority (*i.e.,* police power, statute, charter, constitution). Local laws that overlap state laws have been upheld in various areas and on various theories, including the following:

- **Zoning ordinances.** See *Santa Monica Pines, Ltd. v Rent Control Bd.* (1984) 35 C3d 858, 869, 201 CR 593 (Subdivision Map Act does not preempt local regulation of condominium conversion because local law has "evident, independent police power source and purpose" to conserve rental housing). But see *Morehart v County of Santa Barbara* (1994) 7 C4th 725, 29 CR2d 804 (merger provisions of local zoning ordinance impliedly preempted by Subdivision Map Act).
- **Eviction regulations.** *Birkenfeld v City of Berkeley* (1976) 17 C3d 129, 148, 130 CR 465 (procedural regulation of evictions by landlords serves purpose distinct from local law establishing substantive defenses and thus local law is not preempted).
- **Trespass laws.** *In re Cox* (1970) 3 C3d 205, 220, 90 CR 24 (state law on trespasses does not reflect legislative intent to preempt local law prohibiting person from remaining on business premises after being asked to leave); *Sports Comm. Dist. 37 AMA, Inc. v County of San Bernardino* (1980) 113 CA3d 155, 169 CR 652 (local law on trespass not preempted by state trespass law).
- **Gun laws.** *Galvan v Superior Court* (1969) 70 C2d 851, 859, 76 CR 642 (regulation of numerous aspects of registration, possession, and discharge of guns does not preempt local regulation of licensing of guns); *California Rifle & Pistol Ass'n, Inc. v City of West Hollywood* (1998) 66 CA4th 1302, 78 CR2d 591 (prohibition on sale of certain handguns not preempted by state firearm regulations). But see 77 Ops Cal Atty Gen 147 (1994) (state law preempts city prohibition on sale of handgun ammunition).
- **License taxes.** *Pesola v City of Los Angeles* (1975) 54 CA3d 479, 126 CR 580 (local government may assess equine license tax despite state scheme for taxing racehorses);
- **Drug laws.** *People v Orozco* (1968) 266 CA2d 507, 72 CR 452 (local government may ban glue-sniffing despite existence of numerous statutes regulating dangerous and intoxicating drugs and other substances);
- **Safety regulations.** *DeAryan v Butler* (1953) 119 CA2d 674, 260 P2d 98 (local requirement regarding fluoridation of water not preempted by state regulation of water quality). But see *City of Watsonville v Department of Health Servs.* (2005) 133 CA4th 875, 35 CR3d 216 (local ordinance affecting fluoridation of public water system preempted by state law); 83 Ops Cal Atty Gen 24 (2000) (concluding state law requiring fluoridation supersedes charter city's ordinance prohibiting fluoridation when funds are made available to install and operate fluoridation system).

PRACTICE TIP 1: Create a good record before the city council when it adopts an ordinance that arguably may be preempted. Describe in staff reports the important public purposes to be served, especially those that address local problems that differ from one jurisdiction to another.

PRACTICE TIP 2: Define a separate and independent purpose for the city's regulation from that of any existing state law on the subject.

PRACTICE TIP 3: Describe the city's purposes and goals in such a way as to fit within areas of regulation that have been traditionally treated as the province of the city or that state law has recognized as subject to local regulation.

PRACTICE TIP 4: Beware of relying on preemption cases without verifying the continued effectiveness of their holdings. This area of law is changing very rapidly, and older decisions may have been effectively overruled by the legislature or later cases. Although this handbook gives a conceptual framework to be applied, the specific holdings on preemption of particular subjects should be carefully checked.

© The Regents of the University of California

§1.42 3. Prohibition Against Gifts of Public Funds

A city may not make a gift of public funds. Cal Const art XVI, §6. An appropriation benefiting a private party constitutes an unconstitutional gift of public funds if the public agency receives no consideration in exchange for the expenditure (*Allen v Hussey* (1950) 101 CA2d 457, 473, 225 P2d 674) or if the expenditure does not fulfill a public purpose (*County of Alameda v Janssen* (1940) 16 C2d 276, 281, 106 P2d 11).

© The Regents of the University of California

§1.43 a. Public Purpose Exception

This prohibition against gifts of public funds does not preclude expenditures and disbursements for public purposes, even if a private person incidentally benefits. *Redevelopment Agency of San Pablo v Shepard* (1977) 75 CA3d 453, 457, 142 CR 212; *Schettler v County of Santa Clara* (1977) 74 CA3d 990, 1003, 141 CR 731. The determination of a public purpose lies with the legislative body; the concept is liberally construed and the legislative action is upheld unless it is totally arbitrary. *Mannheim v Superior Court* (1970) 3 C3d 678, 690, 91 CR 585; *Community Mem. Hosp. v County of Ventura* (1996) 50 CA4th 199, 207, 56 CR2d 732. In determining whether a public purpose exists, only the legal propriety of the expenditure should be examined, not economic or governmental wisdom. *City of Oakland v Oakland Raiders* (1982) 32 C3d 60, 73, 183 CR 673.

NOTE: Redevelopment is held to serve a public purpose. *In re Redevelopment Plan for Bunker Hill Urban Renewal Project 1B of Community Redev. Agency* (1964) 61 C2d 21, 41, 37 CR 74, cert denied sub nom *Babcock v Community Redev. Agency* (1964) 379 US 899, cert denied sub nom *Trautwein v Community Redev. Agency* (1964) 379 US 28; *Board of Supervisors v Dolan* (1975) 45 CA3d 237, 245, 119 CR 347.

On redevelopment, see chap 5.

© The Regents of the University of California

§1.44 b. Charter City Exception

The constitutional prohibition on a gift of public funds has been held not to apply to a charter city, unless the city's charter itself contains a similar prohibition. *Tevis v City & County of San Francisco* (1954) 43 C2d 190, 272 P2d 757; *Los Angeles Gas & Electric Corp. v City of Los Angeles* (1922) 188 C 307, 205 P 125.

© The Regents of the University of California

§1.45 4. Additional Compensation

A city may not grant additional compensation to any officer, employee, or contractor after a contract has been performed or services rendered. Cal Const art XI, §10. Public agency actions authorizing retroactive salary increases to employees have been held not to violate this section and are not a gift of public funds. *San Joaquin County Employees' Ass'n, Inc. v County of San Joaquin* (1974) 39 CA3d 83, 113 CR 912. Similarly, a contract providing severance pay for termination was found not to be a gift of public funds. *Miller v City of Sacramento* (1977) 66 CA3d 863, 136 CR 315.

PRACTICE TIP: To avoid violating this section (Cal Const art XI, §10), bonus or pay for performance programs should be authorized in advance as part of the compensation plan. Individual bonuses for senior officials, such as the city manager, may be paid in consideration of a contract renewal.

© The Regents of the University of California

§1.46 5. Debt Limit

A city may not "incur any indebtedness or liability in any manner or for any purpose exceeding in any year the income and revenue provided for such year, without the assent of two-thirds of the voters of the public entity." Cal Const art XVI, §18. This prohibition prevents the pledge of general fund revenue beyond the year in which that revenue is received. *Rider v City of San Diego* (1998) 18 C4th 1035, 1045, 77 CR2d 189. The purpose of this constitutional provision is to provide the people who must pay the cost of providing public services an opportunity to express their approval of a long-term indebtedness. *City of Saratoga v Huff* (1972) 24 CA3d 978, 989, 101 CR 32.

There are several exceptions to the constitutional debt limitation, including the special fund doctrine (see §1.47).

© The Regents of the University of California

§1.47 a. Special Fund Doctrine

Under the special fund doctrine, revenue bonds or other obligations of a governmental body payable solely from a special fund do not violate the constitutional debt limitation. The governmental body must not be liable to maintain the special fund out of its general fund or by tax levies, if the special fund is insufficient. *California Hous. Fin. Agency v Elliott* (1976) 17 C3d 575, 587, 131 CR 361; *City of Palm Springs v Ringwald* (1959) 52 C2d 620, 624, 342 P2d 898. The indebtedness cannot be a general indebtedness or obligation of the governmental body concerned; thus the payments into the special fund beyond the current year cannot be a charge on the general fund. The revenue must be supplied by the agency to be benefited. *City of Palm Springs v Ringwald, supra*. Additionally, the municipality may not suffer a loss if the special fund is insufficient to pay the obligation incurred. *Board of State Harbor Comm'rs v Dean* (1953) 118 CA2d 628, 633, 258 P2d 590. A city reserving the right to make discretionary contributions to the special fund does not vitiate the application thereto of the special fund doctrine. *Board of Supervisors v Dolan* (1975) 45 CA3d 237, 248, 119 CR 347. An example of the application of the special fund doctrine would be the pledge of revenues from a water system to fund the construction of additional water facilities. *Shelton v City of Los Angeles* (1929) 206 C 544, 551, 275 P 421.

© The Regents of the University of California

§1.48 b. No Pledge of Revenue Beyond 1 Year

If a lease or other agreement does not create an immediate indebtedness for aggregate installments, but confines the liability to each installment as it falls due and each year's payment is for consideration furnished that year, then there is no violation of the constitutional debt limitation. *City of Los Angeles v Offner* (1942) 19 C2d 483, 122 P2d 14; *Mayhew Tech Ctr., Phase II v County of Sacramento* (1992) 4 CA4th 497, 508, 5 CR2d 702 (upholding lease-purchase agreement that allowed state to unilaterally terminate lease without penalty). If an instrument creates full and complete liability on its execution (*e.g.,* if it is actually a conditional sales contract of which an immediate indebtedness or liability exceeding the limitation arises), then the contract is void. *Mayhew Tech Ctr., supra*. See *Dean v Kuchel* (1950) 35 C2d 444, 447, 218 P2d 521.

PRACTICE TIP: Carefully examine each agreement to determine whether it is legally classified as a lease or as a conditional sales contract; the latter is prohibited.

© The Regents of the University of California

§1.49 c. Contingency Exception

An obligation that the local agency does not have to pay until a condition precedent to the obligation occurs is treated as a debt only when the legal obligation for payment exists. 67 Ops Cal Atty Gen 349, 352 (1984).

© The Regents of the University of California

§1.50 d. Appropriations Exception

An obligation for which an appropriation is made at the time of its creation from reasonably anticipated funds subject to appropriation is not within the constitutional limitation on indebtedness. *Pooled Money Inv. Bd. v Unruh* (1984) 153 CA3d 155, 160, 200 CR 500. For this doctrine to be invoked, there must be an underlying appropriation for expenditures and an actual or expected cash deficit in the general fund resulting in insufficient money to pay the expenditures when they become due. 153 CA3d at 164. There must also be the constructive presence of anticipated revenues in the treasury.

© The Regents of the University of California

§1.51 6. Tax and Appropriations Limits

The provisions of Cal Const arts XIIIA, XIIIB, XIIIC, and XIIID, all added by initiative, limit the taxation and appropriation power of local government.

These provisions are also discussed in chap 5.

© The Regents of the University of California

§1.52 a. General Property Tax Limit

California Constitution article XIIIA was enacted by the voters in 1978 as Proposition 13. Under its terms, the maximum amount of any ad valorem tax on real property is not to exceed 1 percent of the full cash value of the property. Cal Const art XIIIA, §1(a). "Full cash value" means the appraised value of real property when purchased, newly constructed, or a change in ownership has occurred. The 1-percent tax limit does not apply to a tax levy to pay bonded indebtedness for the acquisition or improvement of real property previously approved by two-thirds of the voters. The California Supreme Court upheld Proposition 13 in *Amador Valley Joint Union High Sch. Dist. v State Bd. of Equalization* (1978) 22 C3d 208, 149 CR 239. The United States Supreme Court upheld Proposition 13 in *Nordlinger v Hahn* (1992) 505 US 1, 120 L Ed 2d 1, 112 S Ct 2326.

© The Regents of the University of California

§1.53 b. Appropriation Limit

The provisions of Cal Const art XIIIB (also known as the "Gann Initiative") establish an appropriation limit for local governments. Whereas Cal Const art XIIIA was aimed at controlling ad valorem property taxes and the imposition of new special taxes (see §1.52), Cal Const art XIIIB was aimed at placing limits on the authorization to expend the proceeds of taxes. *City Council of the City of San Jose v South* (1983) 146 CA3d 320, 333, 194 CR 110.

The provisions of Cal Const art XIIIB limit the amount of tax revenues a government entity may appropriate each year. Annual appropriations that are subject to limitation may not exceed an appropriations limit based on a calculated limit for fiscal year 1978-1979, adjusted annually for population and cost of living increases. Cal Const art XIIIB, §§1, 8(h).

Appropriations subject to limitations are authorizations to spend "the proceeds of taxes levied by or for that entity." Cal Const art XIIIB, §8(b). Proceeds of taxes include, but are not restricted to, "all tax revenues and the proceeds to an entity of government, from (1) regulatory licenses, user charges, and user fees to the extent that those proceeds exceed the costs reasonably borne by that entity in providing the regulation, product, or service; and (2) the investment of tax revenues." Cal Const art XIIIB, §8(c). There are provisions for the return of all revenues received in excess of the spending limit. Cal Const art XIIIB, §2(b). There is also a provision for emergency spending above the appropriations limit. Cal Const art XIIIB, §3(c)(1).

© The Regents of the University of California

§1.54 c. Voter Requirement for Imposition of Taxes

The provisions of Cal Const art XIIIC establish requirements for voter approval of all general and special local taxes. It also provides that the power of initiative to affect local taxes, assessments, and property-related fees and charges is applicable to all local governments, and that such power cannot be prohibited or otherwise limited in matters of reducing or repealing any local tax, assessment, fee, or charge. See *Rossi v Brown* (1995) 9 C4th 688, 38 CR2d 363 (use of initiative power to repeal tax ordinance or to bar adoption of tax is not prohibited). See also *Santa Clara County Local Transp. Auth. v Guardino* (1995) 11 C4th 220, 45 CR2d 207 (tax approved by less than two-thirds of voters is invalid under Proposition 62).

© The Regents of the University of California

§1.55 d. Special Assessments and Property-Related Fees and Charges

The provisions of Cal Const art XIIID establish procedural and substantive limitations on special assessments and property related fees and charges.

© The Regents of the University of California

§1.56 e. Other Tax Limitations

The provisions of Cal Const art XIII contain a variety of tax limitations. Included among these are limitations on local taxes on nonprofit organizations (Cal Const art XIII, §26), banks (Cal Const art XIII, §27), and insurance companies (Cal Const art XIII, §28).

© The Regents of the University of California

§1.57 7. Contract Limitations

Public agencies may not discriminate against or grant preferential treatment to individuals or groups on the basis of race, sex, color, ethnicity, or national origin in the operation of public employment or public contracting. Cal Const art I, §31.

© The Regents of the University of California

8. First Amendment Limitations

§1.58 a. United States Constitution

Congress shall make no law "abridging the freedom of speech or the press," or "respecting an establishment of religion, or prohibiting the free exercise thereof." US Const amend I. In addition, the First Amendment to the United States Constitution protects an individual's right to privacy. *Lawrence v Texas* (2003) 539 US 558, 156 L Ed 2d 508, 123 S Ct 2472; *Roe v Wade* (1973) 410 US 113, 35 L Ed 2d 147, 93 S Ct 705.

© The Regents of the University of California

§1.59 b. California Constitution

Every person "may freely speak, write and publish his or her sentiments on all subjects"; laws "may not restrain or abridge liberty of speech or press." Cal Const art I, §2. "Sentiments" are protected from any prepublication sanctions (prior restraints). *Pines v Tomson* (1984) 160 CA3d 370, 392, 206 CR 866. These protections extend to city council members in certain circumstances when petitioning their own government for the redress of grievances. *Levy v City of Santa Monica* (2004) 114 CA4th 1252, 1261, 8 CR3d 507. Provisions of the California Constitution have been construed as "more protective, definitive and inclusive of rights to expression of speech" than their federal counterparts. *Robins v Pruneyard Shopping Ctr.* (1979) 23 C3d 899, 908, 153 CR 854, aff'd (1980) 447 US 74.

The California Constitution also guarantees the "[f]ree exercise and enjoyment of religion without discrimination or preference" and prohibits the legislature from making any "law respecting an establishment of religion." Cal Const art I, §4. The state constitution strictly prohibits any governmental support for religious purposes (Cal Const art XVI, §5) and the use of public money for religious schools (Cal Const art IX, §8). "These sections are 'proof' of the framers' intent to build a Jeffersonian wall of separation between church and state in California." *Sands v Morongo Unified Sch. Dist.* (1991) 53 C3d 863, 909, 281 CR 34, cert denied (1992) 505 US 1218.

California's right to privacy is express and thus more expansive than its federal counterpart. The provisions of Cal Const art I, §1 makes the pursuit and obtaining of privacy an "inalienable right." This right to privacy protects a citizen's participation in a medical procedure, including an abortion. *Chico Feminist Women's Health Ctr. v Scully* (1989) 208 CA3d 230, 241, 256 CR 194.

NOTE: California and the federal courts are struggling to balance the right to speech enjoyed by persons who wish to picket against the right to privacy enjoyed by persons who choose to participate in a medical procedure. See *City of San Jose v Superior Court (Thompson)* (1995) 32 CA4th 330, 38 CR2d 205, cert denied (1995) 516 US 932; *Feminist Women's Health Ctr. v Blythe* (1993) 17 CA4th 1543, 22 CR2d 184, vacated and remanded (1995) 512 US 1249, 129 L Ed 2d 888, 114 S Ct 2776, on remand 32 CA4th 1641, 39 CR2d 189, cert denied (1995) 516 US 987 (upholding ordinance prohibiting targeted picketing within 300 feet of residence.); *Schenck v Pro Choice Network of Western New York* (1997) 519 US 357, 137 L Ed 2d 1, 117 S Ct 855 (upholding 15-foot fixed buffer, but rejecting floating buffer around medical clinics); *Madsen v Women's Health Ctr.* (1994) 512 US 753, 129 L Ed 2d 593, 114 S Ct 2516 (upholding buffer zone around medical clinic). But see *Hill v Colorado* (2000) 530 US 703, 147 L Ed 2d 597, 120 S Ct 2480 (upholding eight-foot floating buffer around person from others who knowingly approach without consent).

© The Regents of the University of California

c. Religion Issues

§1.60 (1) Establishment Clause

A regulation or activity that does not "establish" religion will (*Lemon v Kurtzman* (1971) 403 US 602, 29 L Ed 2d 745, 91 S Ct 2105)

- have a valid state secular purpose;
- have a principal or primary effect that neither discriminates nor inhibits religion; and
- not produce excessive government entanglement with religion.

Government may accommodate the free exercise of religion, but government may not coerce anyone to support or participate in religion or its exercise or act to establish a state religion or religious faith. *Board of Educ. of Kiryas Joel v Grumet* (1994) 512 US 687, 129 L Ed 2d 546, 114 S Ct 2481 (statute creating school district to serve only Satmar Hasidic community not constitutional as it delegated state's discretionary authority over public schools to religious community, in violation of establishment clause); *Lee v Weisman* (1992) 505 US 577, 120 L Ed 2d 467, 112 S Ct 2649. See *Stark v Independent Sch. Dist.* (8th Cir 1997) 123 F3d 1068, cert denied (1998) 523 US 1094 (school attended primarily by students belonging to particular religion did not violate establishment clause because government can neutrally provide benefits to broad class of citizens defined without reference to religion). See also *Paulson v City of San Diego* (9th Cir 2002) 294 F3d 1124, cert denied (2003) 538 US 978 (proposed sale of government land that gave financial inducement to bidders to preserve cross-violated California Constitution).

© The Regents of the University of California

§1.61 (2) Invocations

Including clergy in a public school graduation who offer nonsectarian prayers violates the establishment clause of the United States Constitution. *Lee v Weisman* (1992) 505 US 577, 120 L Ed 2d 467, 112 S Ct 2649. See *Sands v Morongo Unified Sch. Dist.* (1991) 53 C3d 863, 281 CR 34, cert denied (1992) 505 US 1218 (school district's practice of conducting prayers at public school graduation ceremonies violates establishment clause; practice involved governmental selection or approval of religious speakers and governmental approval of content of public prayer). But see *Edwards v Aguillard* (1987) 482 US 578, 96 L Ed 2d 510, 107 S Ct 2573 (approach in *Marsh* is not appropriate in analyzing proper roles of church and state in public schools); *Marsh v Chambers* (1983) 463 US 783, 790, 77 L Ed 2d 1019, 103 S Ct 3330 (upholding practice of opening legislative sessions with prayer based on "unique history" of legislative prayer); *Rubin v City of Burbank* (2002) 101 CA4th 1194, 124 CR2d 867, cert denied (2003) 538 US 1034 (interpreting *Marsh* as requiring preclusion of words "Jesus Christ" from invocation at city council meeting); 76 Ops Cal Atty Gen 281 (1993) (concluding that board of supervisors may open meeting with invocation).

© The Regents of the University of California

§1.62 (3) Religious Displays

Secular displays do not violate the establishment clause. See *County of Allegheny v American Civil Liberties Union* (1989) 492 US 573, 106 L Ed 2d 472, 109 S Ct 3086 (annual menorah display was secular display of cultural diversity). Religious displays implicate the question of whether avoiding an establishment clause violation provides a compelling state interest justifying a content-based restriction on speech in a public forum. See *County of Allegheny, supra* (display of crèche inside county courthouse violated establishment clause as it patently endorsed Christian message). See also *McCreary County v American Civil Liberties Union* (2005) 545 US 844, 162 L Ed 2d 729, 125 S Ct 2722; *Van Orden v Perry* (2005) 545 US 677, 162 L Ed 2d 607, 125 S Ct 2854; *Separation of Church & State Comm. v City of Eugene* (9th Cir 1996) 93 F3d 617 (display of 51-foot Latin cross violates establishment clause when, despite contention of secular purpose, display may reasonably be perceived as governmental endorsement of religion); *Kreisner v City of San Diego* (9th Cir 1993) 1 F3d 775, cert denied (1994) 510 US 1044 (in public park, a traditional public forum, city may not forbid private group's overtly religious Christmas display based on its religious nature without unconstitutionally violating free speech); *Ellis v City of La Mesa* (9th Cir 1993) 990 F2d 1518, cert denied sub nom *County of San Diego v Murphy* (1994) 512 US 1220, cert denied sub nom *City of San Diego v Paulson* (1994) 513 US 925 (city-approved display of Latin crosses in public parks and on city's official insignia violated "no preference clause"); *Hewitt v Joyner* (9th Cir 1991) 940 F2d 1561, cert denied (1992) 502 US 1073 (county's ownership and maintenance of public park containing exclusively immovable religious statuary depicting scenes from New Testament violate establishment clause of both United States and California constitutions); *Fox v City of Los Angeles* (1978) 22 C3d 792, 150 CR 867 (annual display of lighted cross by city violates state constitution's establishment clause).

© The Regents of the University of California

§1.63 (4) Public Aid to Religious Organizations

California's constitution prohibits public agencies from supporting religious institutions. Cal Const art XVI, §5. See also Cal Const art IX, §8 (no public money for religious schools). The constitution prohibits not only material aid to religion, but also any official involvement that promotes religion. *California Educ. Facilities Auth. v Priest* (1974) 12 C3d 593, 116 CR 361.

This constitutional prohibition is intended to ensure the separation of church and state and to guarantee that the power, authority, and financial resources of the government are never devoted to the advancement or support of religious or sectarian purposes. This includes aid in the intangible form of prestige and power. *Sands v Morongo Unified Sch. Dist.* (1991) 53 C3d 863, 281 CR 34, cert denied (1992) 505 US 1218.

© The Regents of the University of California

§1.64 (5) Free Exercise Clause

Courts evaluate the following factors in determining whether a governmental practice impermissibly interferes with the free exercise of religion (*Callahan v Woods* (9th Cir 1984) 736 F2d 1269, 1273):

- the magnitude of the statute's impact on the exercise of the religious belief;
- the existence of a compelling state interest justifying the imposed burden on the exercise of the religious belief; and
- the extent to which recognition of an exemption from the statute would impede the state's objectives.

Examples of cases involving the free exercise clause include *City of Boerne v Flores* (1997) 521 US 507, 138 L Ed 2d 624, 117 S Ct 2157 (striking down Religious Freedom Restoration Act of 1993); *Christian Gospel Church, Inc. v City & County of San Francisco* (9th Cir 1990) 896 F2d 1221, cert denied (1990) 498 US 999 (denial of zoning permit that would have enabled church to hold worship services in residential neighborhood was not violation of free exercise clause); *Cottonwood Christian Ctr. v Cypress Redev. Agency* (CD Cal 2002) 218 F Supp 2d 1203 (court held that Religious Land Use and Institutionalized Persons Act of 2000 preempts state land use and zoning regulations that substantially burden religious use of property unless law is shown to be in furtherance of compelling governmental interest and is least restrictive means of furthering that interest; see chap 10).

© The Regents of the University of California

§1.65 9. Fourth Amendment Limitations

"The Fourth Amendment and the personal rights which it secures have a long history. At the very core stands the right of a man to retreat into his own home and there be free from unreasonable government intrusion." *Silverman v U.S.* (1961) 365 US 505, 511, 5 L Ed 2d 734, 81 S Ct 679. The ban on unreasonable searches and seizures is directly applicable to the federal government by the Fourth Amendment, and to the states and political subdivisions, including cities, indirectly by the Fourteenth Amendment. *Mapp v Ohio* (1961) 367 US 643, 6 L Ed 2d 1081, 81 S Ct 1684. The standard of reasonableness under both amendments is the same. *Ker v California* (1963) 374 US 23, 10 L Ed 2d 726, 83 S Ct 1623. Homes, personal property such as cars, private correspondence, and conversations are all covered.

© The Regents of the University of California

§1.66 10. Fifth Amendment Limitations

The federal government, under the Fifth Amendment, and the states under the Fourteenth Amendment, can regulate the use of private property whenever such regulation is reasonable and reasonably related to the public health, safety, morality, or general welfare. *Goldblatt v Town of Hempstead* (1962) 369 US 590, 8 L Ed 2d 130, 82 S Ct 987. Unreasonable, arbitrary, or capricious interference with the use of private property is unconstitutional. *Nectow v City of Cambridge* (1928) 277 US 183, 72 L Ed 842, 48 S Ct 447. On use of police power, see §§1.15-1.18.

Due process of law requires that just compensation be made by a government to the owner of private property taken by that government. On eminent domain power, see chap 8.

© The Regents of the University of California

§1.67 11. Fourteenth Amendment Limitations

The Fourteenth Amendment, a post-Civil War addition to the Constitution, has been construed to apply the principles of the Bill of Rights to the States and other governmental entities.

© The Regents of the University of California

§1.68 a. Equal Protection Clause

The Fourteenth Amendment provides that no state shall "deny to any person within its jurisdiction the equal protection of the laws." This clause creates no new rights, but it requires that persons under like circumstances be given equal protection and security in the enjoyment of personal and civil (including political) rights, the acquisition and enjoyment of property, the enforcement of contracts, and the prevention and redress of wrongs. Everyone must be subject to similar taxes and penalties. These issues are discussed in the context of specific subjects throughout this handbook.

© The Regents of the University of California

§1.69 b. Due Process Clause

The Fourteenth Amendment provides that no state shall "deprive any person of life, liberty, or property, without due process of law." The California Constitution also contains due process guarantees. Cal Const art I, §§7, 15. Originally, due process was strictly procedural. The protection was against administrative or judicial procedures that failed to provide adequate notice and an opportunity to be heard before an individual was deprived of property or personal rights. The clause has also been interpreted as a limitation to prevent unreasonable or arbitrary legislation. This aspect is known as substantive due process. Substantive due process is well-illustrated by cases dealing with the police power and with taxation. Both procedural due process and substantive due process issues are discussed in the context of specific subjects throughout this handbook.

© The Regents of the University of California

E. Other Public Purpose Entities

§1.70 1. Within the Boundaries of Municipalities

There are other public purpose entities that exist within the boundaries of municipalities. These are entities of limited powers that cover all or a portion of the territory in an incorporated city and have a specifically prescribed purpose specified by the statute under which it is established or activated within a city. Among the more prevalent of these entities are the following.

- **Redevelopment agencies.** These agencies have broad powers within an established redevelopment project area and their legislative body often is identical in membership to the city council. See Cal Const art XVI, §16; Health & S C §§33000-33855.
- **Industrial development authorities.** These entities exist to issue bonds to companies interested in constructing industrial and/or research and development facilities, and their legislative body may be completely different from or the same as that of the city. See Govt C §§91500-91574.
- **Housing authorities.** These authorities are creatures of statute that are activated and conduct business only after the city council has adopted a resolution declaring the need for the authority to function in the city. See Health & S C §§34200-34380.

NOTE: Generally, the purpose of housing authorities is to provide safe and sanitary residential dwelling accommodations for lower income residents. Housing authorities must conduct their operations in accordance with the state law providing for their existence.

- **Subsidiary districts.** These districts have limited powers under which the city council has designated and empowered them to act as the ex officio board of directors of the district. See Govt C §56078.

© The Regents of the University of California

§1.71 2. Independent of Municipal Boundaries

Public agencies of limited powers, including special districts described §1.72, may overlap all or a portion of the territory of a city. These entities generally provide specific services such as water service, sewer service, flood control, vector control, fire protection, parks and recreation services and facilities, and a variety of other specific services. Many of these districts exercise the police power of the state within their boundaries and thus function independently. See *Rodeo Sanitary Dist. v Board of Supervisors of Contra Costa County* (1999) 71 CA4th 1443, 1447, 84 CR2d 601.

PRACTICE TIP: When dealing with a municipal corporation of limited power, determine whether general laws apply to its affairs or whether the enabling statute is the exclusive source of power and limitations.

© The Regents of the University of California

§1.72 a. Special Districts

Special districts are public corporations formed to perform particular governmental functions within a specific territory. For purposes of the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (Govt C §§56000-57550), a special district is "an agency of the state, formed under general law or special act, for the local performance of governmental or proprietary functions within limited boundaries." Govt C §56036(a). Although county service areas are considered special districts, agencies such as counties, cities, the state, school and community college districts, special assessment, and improvement districts, are not. Govt C §56036(a)(1).

Special districts may be created under general law or, under appropriate circumstances, a special act. *American River Flood Control Dist. v Sweet* (1932) 214 C 778, 782, 7 P2d 1030; *South Santa Clara Valley Water Conserv. Dist. v Santa Clara Valley Water Dist.* (1978) 76 CA3d 852, 857, 143 CR 193. The California Constitution did not formally recognize special districts before the adoption of Proposition 13 in 1978. Since then, the only references to special districts in the Constitution are in connection with tax limitation provisions. See Cal Const arts XIIIA, §4; XIIIB, §8(d); XIIIC, §1.

© The Regents of the University of California

§1.73 b. Statutory Authority for Special Districts

The statutory authority for a special district is in either a principal act or a special act. A principal act is a statute that applies to all special districts of a particular type. Examples include the Fire Protection District Law of 1987 (Health & S C §§13800-13970) and the Local Health Care District Law (Health & S C §§32000-32492). There are approximately 60 principal act statutes that can be used anywhere within the state to create a special district. There are more than 3000 principal act districts in California. The most common types, accounting for more than 50 percent of all such districts, are county service areas, fire protection districts, community service districts, and cemetery districts.

NOTE: A list of the principal act statutes appears in Appendix A to the Special District's Annual Report for fiscal year 2006-2007, available at the website of the Controller of the State of California at www.sco.ca.gov).

Special act districts are formed under legislation tailored to the unique needs of a specific area. Examples include districts that are regional in nature, provide unique services, require special financing, or have specific governing board requirements. There are approximately 120 special act districts in California. Unlike principal act statutes, special act statutes are not codified as part of the California State Codes. However, the majority of all special act districts are water districts whose special acts appear as an appendix to the California Water Code.

NOTE: Special districts have only those powers conferred on them by the legislature. *Los Angeles County Flood Control Dist. v Southern Cal. Edison Co.* (1958) 51 C2d 331, 338, 333 P2d 1; *In re Bonds of Madera Irrig. Dist.* (1891) 92 C 296, 315, 28 P 272; *Turlock Irrig. Dist. v Hetrick* (1999) 71 CA4th 948, 953, 84 CR2d 175. Special districts are subject to the provisions of the Ralph M. Brown Act (Govt C §§54950-54963), the California Public Records Act (Govt C §§6250-6276.48), the Political Reform Act of 1974 (Govt C §§81000-91014), and other laws applicable to local government.

© The Regents of the University of California

§1.74 c. Changes in Organization

The authority and procedure for changes of organization (which include formation, annexation, detachment, consolidation, merger, and dissolution (Govt C §§56035, 56100)), are provided by the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (Govt C §§56000-57550), except that proceedings for the formation of a district are conducted as authorized by the principal act of the district with the LAFCO serving as the conducting authority. Govt C §56100. If a conflict arises between the procedural requirements of the principal act and those of Cortese-Knox, the Cortese-Knox procedural requirements prevail. Govt C §56100.

© The Regents of the University of California

§1.75 d. Characteristics of Special Districts

The following are characteristics of special districts:

- **Voters.** A landowner-voter district is one whose principal act provides that owners of land within the district are those entitled to vote on the election of district officers and other district matters. Govt C §56050. A registered-voter district is one whose principal act provides that registered voters residing within the district are those entitled to vote on the election of district officers and other district matters. Govt C §56072.
- **Dependent or independent.** Special districts may have their own governing board, or they may be governed by an already existing general purpose government (*i.e.,* a city or county). Special districts governed by an existing county board of supervisors or city council are known as "dependent districts." Those with their own elected or appointed governing boards are known as "independent special districts." See Govt C §56044.
- **Enterprise or non-enterprise.** Special districts that rely primarily on the ability to charge fees for their services are known as enterprise districts. Those that rely primarily on general revenues, such as property taxes, are known as non-enterprise districts.
- **Single function or multifunction.** Special districts that provide only one type of public service are known as single-function districts; those that provide more than one service are known as multifunction districts.

© The Regents of the University of California

§1.76 3. Joint Powers Agencies

Under Govt C §§6500-6536, public agencies may enter into agreements to jointly exercise common powers. A joint powers agreement may establish a joint powers agency or take the form of an operating agreement. A public agency may not acquire new functions or powers through a joint powers agreement. *City of Oakland v Williams* (1940) 15 C2d 542, 549, 103 P2d 168. Joint powers agreements may be made with public agencies and with certain other entities such as hospitals and mutual water companies. See, *e.g.,* Govt C §§6524-6525.

NOTE: If the joint powers agreement creates an agency or entity separate from the parties to the agreement, a notice of the creation must be filed with the Secretary of State. Govt C §§6503.5, 53050-53051.

PRACTICE TIP: When creating a joint powers agency, carefully review the provisions of Govt C §§6500-6536.

© The Regents of the University of California

§1.77 a. Delegated Powers Under Joint Powers Agreements

The powers that may be delegated by a joint powers agreement include the power of eminent domain. *Burbank-Glendale-Pasadena Airport Auth. v Hensler* (2000) 83 CA4th 556, 562, 99 CR2d 729. The delegated powers may include implied as well as express powers, but the implied powers must be necessary to carry out the powers expressly granted. 33 Ops Cal Atty Gen 156 (1959).

NOTE: The common power to be exercised may be exercised within the entire territorial jurisdiction of all participating agencies or within only a portion of the territorial jurisdiction of any one or more of the participating agencies. Govt C §6502. The agreement may authorize the issuance of bonds for projects outside the territorial jurisdiction of the participating agencies only under the conditions specified in Govt C §6586.5(b). 83 Ops Cal Atty Gen 82 (2000). On use of joint powers agencies in financing, see §1.78.

© The Regents of the University of California

§1.78 b. Use of Joint Powers Agencies in Financing

Each joint powers entity has the power to issue revenue bonds for a wide range of public projects. Examples include exhibition halls; sports arenas; public buildings; parks and recreation centers; generation or transmission of electrical energy; disposal, treatment or conversion to energy and reusable materials; water or waste water facilities; local streets, roads, bridges; major thoroughfares; mass transit facilities; airports; police or fire stations; public works facilities; public health facilities; criminal justice facilities; libraries; parking garages; publicly operated low income housing; public improvements in redevelopment project areas; telecommunication systems or services; and equipment necessary to support such public facilities and deliver public services. Govt C §6546. See *Rider v City of San Diego* (1998) 18 C4th 1035, 77 CR2d 189 (upholding lease revenue bonds issued by joint powers agency to finance convention center).

NOTE: If an agreement creating a joint powers agency as a separate legal entity is not filed with the Secretary of State, the agency cannot issue bonds or otherwise incur indebtedness until the filing is complete. Govt C §6503.5.

The Marks-Roos Local Bond Pooling Act of 1985 (Govt C §§6584-6599.3) provides specific authorization for a joint powers agency to pool all of the capital needs of the agencies that are party to the agreement into one bond issue.

© The Regents of the University of California

§1.79 4. Regional Governments

Although regional government has been proposed and considered by various legislators and groups such as Bay Vision 20/20 and LA 2000, regional government is still only a concept in California. The closest division California has to regional government is an air pollution control district, such as the South Coast Air Quality Management District (Health & S C §§40400-40540) and the Bay Area Air Quality Management District (Health & S C §§40200-40276). These districts have the authority to adopt rules and regulations to reduce air pollution in their respective areas. The legislature has also created regional agencies for the comprehensive planning and implementation of regional transportation facilities. See, *e.g.,* Pub Util C §§132350-132372.4 (San Diego Regional Transportation Consolidation Act); Pub Util C §§170000-170084 (San Diego County Regional Airport Authority Act).

© The Regents of the University of California

§1.80 5. Council of Governments

A council of governments (referred to throughout this chapter as COG) is a single or multi-county council created by a joint powers agreement under Govt C §§6500-6536. See Govt C §65582(b). On joint powers agreements, see §§1.76-1.78. One of the functions of a COG is to determine housing needs for the counties and cities within its region. COGs may also assist in regional planning by preparing congestion management plans, transportation plans, and air quality plans.

© The Regents of the University of California

§1.81 a. Determination of Housing Needs

Based on data provided by the Department of Finance in consultation with each COG, the Department of Housing and Community Development (HCD) determines the regional share of the statewide housing need at least 26 months before each required revision of the housing element. Govt C §65584.01. The HCD must provide the COGs with data describing the HCD assumptions and methodology used in determining statewide need. Govt C §65584.01.

After the HCD makes its determination, each COG determines the existing and projected housing need for its region based on information provided by the HCD; the HCD may revise the COG's determination if necessary to obtain statewide consistency. Govt C §65584.01. Each COG must submit information regarding the assumptions and methodology to be used in allocating regional need to the HCD and to the cities and counties within its jurisdiction. Govt C §65584.01.

© The Regents of the University of California

§1.82 b. Proposed Revisions to Housing Needs Determination

Within 60 days of the COG's determination of regional housing needs, a city or county may propose to revise the determination of its share. The proposed revision must be based on available data and accepted planning methodology, and must be supported by adequate documentation. Govt C §65584.05(b). The COG then has 60 days after the 60-day time period to accept, modify, or reject the proposed revision. Govt C §65584.05(c). When certain conditions are met, the COG must reduce the share of regional housing need for a county. Govt C §65584.05(g).

If the proposed revision is not accepted, the city or county has a right to a public hearing. Govt C §65584.06(d)(2). Determinations of the COG are subject to judicial review under CCP §1094.5 (administrative mandate). Undoubtedly, a city would first have to request a hearing to avoid a failure to exhaust administrative remedies. *State Bd. of Equalization v Superior Court* (1980) 111 CA3d 568, 571, 169 CR 3.

© The Regents of the University of California

§1.83 c. Housing Share Transfers

Cities and counties may transfer a percentage of regional housing needs to another city or county. The transfer requires an agreement between the two local entities and is subject to COG review. See generally Govt C §65584.07.

© The Regents of the University of California

§1.84 6. Nonprofit Corporations and Other Organizations

Cities are empowered to provide many services that are often carried out, with or without the involvement of the city, by nonprofit corporations, unincorporated associations, and similar entities, such as volunteer emergency services organizations, homeowners' associations, and animal welfare leagues. Nonprofit corporations are established and recognized by the Secretary of State under the Nonprofit Corporation Law (Corp C §§5000-10841) and are permitted to carry out the broad powers defined therein. See Corp C §§5140, 7140, 9140.

To qualify for exemption from federal, state, and local taxation, nonprofit corporations must generally satisfy the requirements of §501 of the Internal Revenue Code which governs exempt organizations. 26 USC §501. Many organizations qualify under §501 because they serve charitable purposes that supplement or replace governmental duties. For example, a nonprofit organization that provides fire protection, ambulance, and rescue services is a qualified "501(c)(3)" organization that "lessens the burdens of government." Rev Rul 74-361, 1974-2 Cum Bull 159. Cities are authorized to establish, fund, and operate nonprofit organizations (Corp C §§5065, 5120); however, many nonprofits carrying out public services are run independently of government involvement.

© The Regents of the University of California

F. Intergovernmental Relations

1. Regulation of Federal Lands

§1.85 a. Supremacy Clause

The supremacy clause prevents state and local agencies from regulating land owned or leased by the federal government if such regulation would burden or interfere with the federal function or if the development takes place in an area under the exclusive jurisdiction of the federal government. See US Const art V, cl 2. For that reason, the federal government need not comply with zoning regulations on land owned or leased by the federal government in constructing a building that serves an instrumentality of the federal government, such as a post office. Even on land not owned or leased by the federal government, state and local agencies cannot burden or interfere with federal functions, *e.g.,* a building owned by the United States Postal Service need not comply with county zoning regulations. 68 Ops Cal Atty Gen 310-311 (1985).

© The Regents of the University of California

§1.86 b. Property Clause

State and local agencies are also prohibited from regulating land owned or leased by the federal government under the property clause, which provides that the Congress has the power "to dispose of and make all needful rules and regulations respecting the territory or other property belonging to the United States." US Const art IV, §3.

© The Regents of the University of California

§1.87 c. Implied Immunity

Even in the absence of the supremacy clause or property clause, the federal government would be immune from state and local regulation because there is an implied constitutional immunity of the federal government from state and local regulation. *Penn Dairies, Inc. v Milk Control Comm'n* (1943) 318 US 261, 269, 87 L Ed 748, 63 S Ct 617.

© The Regents of the University of California

§1.88 d. Intergovernmental Cooperation Act

To prevent the federal government from completely disregarding local land use concerns, the Intergovernmental Cooperation Act (31 USC §§6501-6508) provides that "[t]o the extent possible, all national, regional, state and local viewpoints shall be considered in planning development programs and projects of the United States." 31 USC §6506(c). See also 40 USC §901.

© The Regents of the University of California

§1.89 2. Power Reserved for States Under Tenth Amendment

The Tenth Amendment to the United States Constitution provides the "powers not delegated to the United States by the Constitution, not prohibited by it to the states, are reserved to the states, respectively, or to the people." US Const amend X. Courts have had great difficulty discerning the line drawn by the Tenth Amendment between federal and local power.

© The Regents of the University of California

§1.90 a. Generally Applicable Laws

Several cases interpreting the Tenth Amendment have concerned the federal government's power to subject state and local governments to generally applicable laws. The United States Supreme Court's decisions in this area have flip-flopped. See, *e.g., Maryland v Wirtz* (1968) 392 US 183, 20 L Ed 2d 1020, 88 S Ct 2017 (state schools and hospitals are subject to Fair Labor Standards Act (FLSA) (29 USC §§201-219)); *National League of Cities v Usery* (1976) 426 US 833, 49 L Ed 2d 245, 96 S Ct 2465 (overruling *Wirtz*; state employers are not subject to FLSA); *Garcia v San Antonio Metro. Transit Auth.* (1985) 469 US 528, 83 L Ed 2d 1016, 105 S Ct 1005 (overruling *Usery*; transit authority is subject to FLSA).

In *South Carolina v Baker* (1988) 485 US 505, 99 L Ed 2d 592, 108 S Ct 1355, the Supreme Court upheld the elimination of federal tax exemptions for interest on state and local bonds, rejecting the state's argument that the elimination of these exemptions was the result of a defect in federal tax policy that would require the Court to invoke Tenth Amendment protection for the state. *Baker* makes it clear that judicial intervention is only appropriate in the narrow instance of an extraordinary defect in the political process itself. *U.S. v County of San Diego* (9th Cir 1995) 53 F3d 965 (county can tax possessory interest private firm has in nuclear device that operates for Federal Department of Energy).

PRACTICE TIP: Although presently state and local governments are subject to federal laws that apply to private parties (for example, labor laws), many municipal lawyers are including Tenth Amendment defenses in pleadings to preserve the defense in the event the United States Supreme Court chooses to reconsider the approach taken in *Garcia v San Antonio Metro. Transit Auth., supra*.

© The Regents of the University of California

§1.91 b. When Local Governments Are Used as Implements of Federal Regulation

A second issue under the Tenth Amendment to the United States Constitution is the extent to which Congress may use the states and local governments as implements of federal regulation. The issue is whether Congress may direct or otherwise motivate state and local government to regulate in a particular field or in a particular way. See *New York v U.S.* (1992) 505 US 144, 166, 120 L Ed 2d 120, 112 S Ct 2408. Although Congress has substantial powers to govern the nation directly, the constitution has never been understood to confer on Congress the ability to require the states to govern according to Congress's instructions. 505 US at 162. Congress cannot compel the states to enact or enforce a federal regulatory program. See *Printz v U.S.* (1997) 521 US 898, 138 L Ed 2d 914, 117 S Ct 2365.

Congress can, however, encourage states to regulate in a particular way and may hold out incentives as a way of influencing states' policy choices. *New York v U.S.* (1992) 505 US 144, 120 L Ed 2d 120, 112 S Ct 2408 (under its spending power, Congress may attach conditions on receipt of federal funds). When Congress has the authority to regulate private activity, it has the power to offer the states the choice of regulating the activity according to federal standards or having state law preempted by federal regulation. 505 US at 167, 175 (determining Congress "crossed the line distinguishing encouragement from coercion" by giving states the "choice" of either regulating low-level radioactive waste according to federal specifications or taking title to all such waste generated in their borders).

© The Regents of the University of California

§1.92 3. Immunity Under the Eleventh Amendment

The Eleventh Amendment to the United States Constitution provides that the "[j]udicial power of the United States shall not be construed to extend to any suit in law or equity, commenced or prosecuted against one of the United States by Citizens of another State, or by Citizens or Subjects of any Foreign State" and was directed specifically toward preventing suits against states by citizens of other states or by citizens or subjects of foreign jurisdictions. Immunity flows from concepts of state sovereign immunity generally.

Over the years, the United States Supreme Court has not been consistent with respect to what the amendment really does and how it relates to the other parts of the Constitution. In dealing with questions of governmental immunity from suit, the Court has traditionally treated interchangeably precedents dealing with state immunity and those dealing with federal governmental immunity.

© The Regents of the University of California

§1.93 a. State Immunity

The immunity of a state from suit is a privilege that it may waive at its pleasure by either a law specifically consenting to suit in the federal courts, or by initiating or participating in litigation.

With respect to governmental entities that derive their authority from the state (*e.g.,* Tahoe Regional Planning Agency, Bay Conservation and Development Commission, Coastal Commission) but that are not the state, the Supreme Court closely examines state law to determine

- the nature of the entity,
- whether it is an arm of the state, or
- whether it is to be treated like a municipal corporation or other political subdivision.

An arm of the state has immunity: "agencies exercising state power have been permitted to invoke the [Eleventh] Amendment in order to protect the state treasury from liability that would have had essentially the same practical consequences as a judgment against the State itself." *Lake Country Estates, Inc. v Tahoe Reg'l Planning Agency* (1979) 440 US 391, 400, 59 L Ed 2d 401, 99 S Ct 1171 (citing *Edelman v Jordan* (1974) 415 US 651, 39 L Ed 2d 662, 94 S Ct 1347).

NOTE: The fact that a state agency can be indemnified for the costs of litigation does not divest the agency of its Eleventh Amendment immunity. *Regents of Univ. of Cal. v Doe* (1997) 519 US 425, 431, 137 L Ed 2d 55, 117 S Ct 900.

In *Seminole Tribe of Florida v Florida* (1996) 517 US 44, 64, 134 L Ed 2d 252, 116 S Ct 1114, the Supreme Court ruled that Congress lacks the power under US Const art I to abrogate state immunity under the Eleventh Amendment, and ruled in *Alden v Maine* (1999) 527 US 706, 754, 144 L Ed 2d 636, 119 S Ct 2240, that the broad principle of sovereign immunity reflected in the Eleventh Amendment bars suits against states in state courts as well as federal.

© The Regents of the University of California

§1.94 b. Municipality Immunity

Municipal corporations, though they partake under state law of the state's immunity, do not have immunity in federal court and the states may not confer it. See *Moor v County of Alameda* (1973) 411 US 693, 36 L Ed 2d 596, 93 S Ct 1785.

NOTE: In *National League of Cities v Usery* (1976) 426 US 833, 49 L Ed 2d 245, 96 S Ct 2465, the Court extended the state immunity from regulation to political subdivisions.

Entities created through interstate compacts (subject to congressional approval) may also be subject to suit. *Lake Country Estates, Inc. v Tahoe Reg'l Planning Agency* (1979) 440 US 391, 401, 59 L Ed 2d 401, 99 S Ct 1171.

© The Regents of the University of California

4. Federal and State Grants

§1.95 a. Acceptance of Grants

Cities in California are authorized directly and by implication to accept grants from other public entities that are authorized by appropriate law to make such grants. See, *e.g.,* Govt C §§16366.1-16367.8; Health & S C §50517.5; Pub Res C §5096.151. Grants are most commonly found in state and federal areas in which congressional or legislative grant programs are established for particular fields of activity.

© The Regents of the University of California

§1.96 b. Compliance With Grants

When a federal grant authorizes expenditures for purposes that would not otherwise be expressly authorized under applicable state law, the local entity is still authorized to act in accordance with the provisions of the federal grant.

When a federal grant's terms require affirmative action in hiring or contracting, the city may comply with federal requirements despite the general prohibition against preferential treatment in employment or contracting. Cal Const art I, §31(e).

© The Regents of the University of California

5. State Intergovernmental Relations

§1.97 a. State Mandates

Whenever the legislature or any state agency mandates a new program or higher level of service on any local government, the state must provide a subvention of funds to reimburse the local government for the costs of such program or increased level of service. Cal Const art XIIIB, §6. The legislature may, however, but need not, provide for such subvention of funds for the following mandates: legislative mandates requested by the local agency affected; legislation defining a new crime or changing an existing definition of a crime; or legislative mandates enacted before January 1, 1975, or executive orders or regulations initially implementing legislation enacted before January 1, 1975. Cal Const art XIIIB, §6. See also *City of Sacramento v State* (1990) 50 C3d 51, 266 CR 139; *Hayes v Comm'n on State Mandates* (1992) 11 CA4th 1564, 15 CR2d 547; 2 Cal Code Regs §§1184.5-1184.11-; Govt C §§17615-17617 (additional "exceptions" to mandate).

PRACTICE TIP: The state may suspend mandated programs as part of the budget process. See Govt C §17581. Accordingly, review each year's state budget bills for suspended or repealed mandates.

© The Regents of the University of California

§1.98 b. Public Utilities Commission

The Public Utilities Commission (PUC) is a constitutionally created entity in California that is vested with jurisdiction to regulate and control enumerated public utilities. Cal Const art XII, §§1-9. The PUC has regulatory power and rate-making power over the designated public utilities. Contacts involving the PUC generally arise when the local agency is dealing in some capacity or manner with a regulated utility. The PUC has the powers assigned to it under the California Public Utilities Code and other applicable general laws. See generally Pub Util C §§201-2119.

© The Regents of the University of California

§1.99 (1) Overriding Authority

To the extent the PUC has by general order or specific regulation directed the activity of a particular utility within the boundaries of a city, the PUC's authority will control to the exclusion of the power of the city except as to the usage of city property by a utility. A city's police power is limited in regulating public utilities. Cal Const arts XI §7, XII §8; Pub Util C §701. See *San Diego Gas & Elec. Co. v City of Carlsbad* (1998) 64 CA4th 785, 75 CR2d 534.

© The Regents of the University of California

§1.100 (2) Authority Over Cellular Siting

Under General Order 159A (May 8, 1996), the PUC has authority to preempt local jurisdictions and authorize cellular facilities when the cellular utility can demonstrate it has provided the local agency with two or more acceptable sites, but the cellular utility is unlikely to obtain a permit for either site.

NOTE: The PUC staff take the position the PUC has plenary authority over the siting of certain facilities and transmission substations. On the PUC's rule-making and rate-making authority, see 53 Cal Jur 3d, Public Utilities.

© The Regents of the University of California

§1.101 c. State Agencies

Numerous state agencies interact with cities in a variety of ways. Some of the more significant ones for municipalities include the following:

- **Office of Planning and Research** (OPR) (www.opr.ca.gov), which assists the governor and the administration in land use planning, research, and liaison with local government; small business advocacy; rural policy; environmental justice; renewable energy research and support; innovation in government; service, volunteerism, and mentoring; policy and legislative research and support; community vitalization and development; and coordination of interagency task forces. The OPR is viewed by other state agencies as the coordinator for several environmental and state planning programs. The OPR is also engaged in ongoing reviews of state policies relating to community development. Major activities of the OPR with an impact on local governments include: recommending and implementing state policies with regard to land use and growth planning; providing technical planning advice to local governments; advising project proponents and government agencies on provisions of the California Environmental Quality Act; and operating the State Clearinghouse for environmental and federal grant documents. See Govt C §§65025-65054.5.
- **Housing and Community Development** (HCD) (www.hcd.ca.gov), California's principal housing agency, has the mission of providing leadership, policies, and programs to expand and preserve safe and affordable housing opportunities and promoting strong communities for all Californians. The HCD advocates for and supports housing development; develops, administers, and enforces building codes, manufactured housing standards, and mobile home park regulations; and administers state and federal housing, community development, and childcare facilities finance programs. The HCD issues determinations on the compliance of a city's housing element with state-mandated requirements for general plan housing elements. Govt C §§65580-65589.8.
- **California Coastal Commission** (www.coastal.ca.gov), which has primary responsibility for implementing the California Coastal Act of 1976 (Coastal Act) (Pub Res C §§30000-30900). The Coastal Act is a comprehensive scheme to govern land use planning in the coastal zone. The Coastal Act requires each local government lying in whole or in part within the coastal zone to prepare and submit a local coastal program to the Coastal Commission. Pub Res C §30500(a). The Coastal Commission consists of 15 members, not all of whom are voting members. Pub Res C §§30301, 30301.5.
- **State Lands Commission** (www.slc.ca.gov), which has primary responsibility for oil and gas drilling production and operations on lands within the offshore territorial boundaries, inland bays, and waterways of California, except for lands upstream from a line running north and south through the point where Contra Costa, Sacramento, and Solano Counties meet, and lands in the Bolsa Chica field of Orange County. Pub Res C §§6101-6111; 2 Cal Code Regs §§1900-2980.9. Developments in these areas may require approval by the State Lands Commission as well as the local entity.
- **California Environmental and Natural Resources Agencies.** The following state agencies have various roles and responsibilities with regard to aspects of the environment and may have authority over various activities undertaken by cities or developers. On their roles in protecting the environment, see chap 11.
- California Air Resources Board
- California Department of Conservation
- California Department of Fish and Game
- California Department of Forestry and Fire Protection
- California Department of Pesticide Regulation
- California Department of Toxic Substances Control
- California Department of Water Resources
- California Environmental Protection Agency
- California Integrated Waste Management Board
- California Resources Board
- State Water Resources Control Board

- **Office of Mine Reclamation** (OMR), created in 1991 to administer the Surface Mining and Reclamation Act of 1975 (SMARA) (Pub Res C §§2710-2796.5), provides assistance to cities, counties, state agencies, and mine operators for reclamation planning and promotes cost-effective reclamation. OMR strives to reclaim mined lands to a beneficial end-use through the implementation of SMARA; to prevent or minimize the adverse environmental effects of mining by providing assistance to lead agencies and miners in the review of reclamation plans; and to minimize residual hazards to public health and safety through the Abandoned Mine Lands program.

© The Regents of the University of California

§1.102 d. Intergovernmental Immunity

The liability of one governmental entity to another is the subject of a considerable body of appellate opinions.

© The Regents of the University of California

§1.103 (1) Federal Supremacy

The federal supremacy clause generally limits any responsibility of federal agencies to a local governmental entity except when congressional enactment or judicial decisions have conferred jurisdiction.

© The Regents of the University of California

§1.104 (2) Immunity From Assertion of Constitutional Rights

An entity that is judicially determined to be a political subdivision of the state (for example, a county, a redevelopment agency, or a housing authority) is not generally permitted to assert constitutional rights of, *e.g.,* equal protection and due process against its parent public entity because it is an agent of that state government. See *Star-Kist Foods, Inc. v County of Los Angeles* (1986) 42 C3d 1, 6, 227 CR 391; *City of S. Lake Tahoe v California Tahoe Reg'l Planning Agency* (9th Cir 1980) 625 F2d 231, 233-234, cert denied (1980) 449 US 1039 (cities bound by "political subdivision" rule); *San Diego Unified Port Dist. v Gianturco* (SD Cal 1978) 457 F Supp 283, 289, aff'd (9th Cir 1981) 651 F2d 1306 (protections afforded by Fourteenth Amendment and contract clause do not extend to political subdivisions).

© The Regents of the University of California

§1.105 (3) State Immunity From Zoning and Building Code Regulations

Subjecting the state in its exercise of sovereign activities to local zoning and building code regulation constitutes a conflict with the general laws and thus is prohibited unless the state consents to local regulation. *Hall v City of Taft* (1956) 47 C2d 177, 183, 302 P2d 574 (school property immune from local plan check and building permit requirements).

NOTE: The fact that a city is a charter city does not by itself authorize the application of local zoning regulation to state agencies. *Regents of Univ. of Cal. v City of Santa Monica* (1978) 77 CA3d 130, 136, 143 CR 276.

The law governing regulation of "local agencies" by cities and counties was enacted in response to *Hall v City of Taft* (1956) 47 C2d 177, 183, 302 P2d 574. See Govt C §§53090-53097.5. These provisions require that local agencies comply with all applicable building and zoning ordinances of the city or county in which the territory of the local agency is situated, but that local agencies are immune from city or county regulation of facilities for water storage or treatment or electrical energy. For purposes of these provisions, the definition of "local agency" excludes a city, county, or state, and certain rapid transit districts and bridge and highway districts. Govt C §53090(a).

NOTE: School district boards and other local agencies may nullify a city or county zoning ordinance. See Govt C §§53094(b) (school district boards), 53096 (other local agencies).

Cities and counties are mutually exempt from each other's planning and zoning ordinances with respect to city-owned property situated within a county, and county-owned property situated within a city, irrespective of whether the city or county is acting in a governmental or proprietary capacity. See *Lawler v City of Redding* (1992) 7 CA4th 778, 783, 9 CR2d 392; 40 Ops Cal Atty Gen 243, 244 (1962). But see 68 Ops Cal Atty Gen 114, 118 (1985) (governmental agency may not transfer its "section 53090 immunity" to lessee for purely private purposes).

NOTE: State law does impose certain procedural requirements on uses of property that are not in conformity with the relevant general plan. See Govt C §65402.

© The Regents of the University of California

§1.106 6. Eminent Domain

Property owned by a public entity and devoted to a public use is not subject to the exercise of another entity's powers of eminent domain unless the use for which the property is sought is a more necessary public use than the existing public use. CCP §1240.610. A redevelopment agency cannot condemn another public entity's property without consent. Health & S C §33395.

© The Regents of the University of California

II. MUNICIPAL ORGANIZATION AND REORGANIZATION

§1.107 A. Local Agency Formation Commissions (LAFCOs)

The legislative branch has the power to create local governments and set their boundaries. The California legislature has delegated much of its authority over the boundaries of cities and special districts to a local agency formation commission (referred to throughout this chapter as LAFCO) in each county. Each county must have a LAFCO. Govt C §56325.

© The Regents of the University of California

§1.108 1. History and Purpose

The Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (the Act) (Govt C §§56000-57550) took effect January 1, 2001. It substantially amended the Cortese-Knox Local Government Reorganization Act of 1985, which took effect January 1, 1986. The Act unified into one statutory scheme the three major laws that governed local agency boundary changes: the Knox-Nisbet Act of 1963, which established a local agency formation commission in each county and gave it regulatory authority over local agency boundary changes; the District Reorganization Act of 1965, which combined the separate laws governing special districts into a single statute; and the Municipal Organization Act of 1977, which consolidated the laws governing city incorporation and annexation. *Fallbrook Sanitary Dist. v San Diego Local Agency Formation Comm'n* (1989) 208 CA3d 753, 758, 256 CR 590.

PRACTICE TIP: The statutory changes made by the consolidation of these three acts were largely non-substantive (*L.I.F.E. Comm. v City of Lodi* (1989) 213 CA3d 1139, 1144 n3, 262 CR 166); thus, cases decided under the repealed acts are often still authoritative.

Among the stated legislative purposes for the creation of LAFCOs are: discouraging urban sprawl and preserving open space and prime agricultural lands, efficiently providing government services, and encouraging orderly formation and development of new local agencies. See Govt C §§56300, 56377. When forming a new local agency, a LAFCO must determine whether existing agencies can feasibly provide the needed services in a more efficient and accountable manner. Govt C §56301.

NOTE: Section 286 of the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (Govt C §§56000-57550) declares that it is intended to implement the recommendations of the Commission on Local Governance for the 21st Century. The commission ceased to exist on July 1, 2000.

PRACTICE TIP: For information on the Act, obtain a copy of the Guide to Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (revised annually; published by the Assembly Committee on Local Government and available online at www.assembly.ca.gov/acs/newcomframeset.asp?committee=17 (click on Committee Publications).

© The Regents of the University of California

§1.109 2. General Role

LAFCO has been described as the "watchdog" that the legislature has established to guard against duplication of services that result from the indiscriminate formation of new local agencies or the haphazard annexation of territory to existing local agencies. *Timberidge Enters., Inc. v City of Santa Rosa* (1978) 86 CA3d 873, 884, 150 CR 606. Any formation of a new district, incorporation of a city, annexation to or detachment from a city or district, disincorporation of a city, dissolution of a district, consolidation of cities or special districts, or merger or establishment of a subsidiary district is a "change of organization" that must be approved by LAFCO. See Govt C §§56021, 56375. A "reorganization" is any two or more changes of organization initiated in a single "proposal." Govt C §§56069, 56073. A "special reorganization" is a reorganization consisting of the detachment of territory from a city, or from a city and county, and incorporation of the detached territory as a city. Govt C §56075.5.

LAFCOs are required to adopt written policies and procedures and to exercise their powers in a manner that is consistent with those policies and procedures and encourages and provides for planned, well-ordered, efficient urban development patterns. Govt C §56300. LAFCOs are also required to adopt written procedures for the evaluation of proposals; and standards and procedures for evaluating service plans and initiating a change, organization, or reorganization. Govt C §56375(a), (g)-(h).

PRACTICE TIP: Each LAFCO must provide access to notices and other commission information through an Internet website. Govt C §56300(f). Cities should become familiar with local LAFCO procedures and standards.

© The Regents of the University of California

§1.110 3. Composition of LAFCOs

Most LAFCOs consist of seven members; two members from the county board of supervisors, two from the city councils within the county, two from the legislative bodies of independent special districts within the county, and one member of the public chosen by the other six members. Govt C §56325.

NOTE: The composition and number of members of LAFCOs in Los Angeles, Sacramento, San Diego, Santa Clara, and Kern counties are governed by specific statutes. See Govt C §§56326-56328.5. Special rules also apply in a county with no cities. See Govt C §56329.

A LAFCO's members must exercise independent judgment on behalf of the interests of residents, property owners, and the general public in furthering the Act's purposes. Those appointed on behalf of local agencies must represent the public's interests, not solely the interests of their appointing agencies. Govt C §56325.1.

© The Regents of the University of California

§1.111 4. Funding for LAFCOs

LAFCO costs are divided evenly among cities, special districts, and the county. Each LAFCO must adopt an annual budget following noticed public hearings, which budget must be approved by the board of supervisors, cities, and each independent special district. Govt C §56381.

© The Regents of the University of California

§1.112 5. Powers of LAFCOs

A LAFCO "is a creature of the legislature and has only those express (or necessarily implied) powers which are specifically granted to it by statute." *Simi Valley Recreation & Park Dist. v Local Agency Formation Comm'n* (1975) 51 CA3d 648, 687, 124 CR 635. Nevertheless, a LAFCO's delegated powers are formidable, in light of the legislature's declaration that the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (Govt C §§56000-57550) provides the "sole and exclusive authority and procedure" for changes of organization and reorganizations. Govt C §56100.

© The Regents of the University of California

§1.113 a. Particular Powers of LAFCOs

The powers and duties of LAFCOs are enumerated in Govt C §§56133, 56375, 56425. The most significant of these powers are the following:

- Adopt and update a sphere of influence for each local agency (Govt C §§56425, 56430);
- Approve or disapprove all boundary change proposals (Govt C §56375(a));
- Impose conditions on boundary changes (Govt C §56886);
- Initiate proposals for the formation of a new district or districts, consolidation of districts, dissolution of a district, merger of a district with a city, establishment of a subsidiary district, and a reorganization that includes any of those changes (Govt C §56375(a)); and
- Review and approve or disapprove requests from cities and districts to provide new or extended services outside their jurisdictional boundaries (Govt C §§56133-56434).

© The Regents of the University of California

§1.114 b. Changes of Organization

The authority and procedure for changes of organization (which include formation, annexation, detachment, consolidation, merger, and dissolution (Govt C §§56035, 56100)) are provided by the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (Govt C §§56000-57550). Proceedings for the formation of a special district are conducted as authorized by the principal act of the district, with the LAFCO serving as the conducting authority. Govt C §56100. The Act will prevail in any conflicts between the procedural requirements of the principal act and those of the Act. Govt C §56100.

A LAFCO has broad powers to approve or disapprove, wholly or partially, with or without conditions, any annexations or other changes of organizations initiated either by citizens or by local agencies. Govt C §56375(a). A LAFCO has the power to initiate certain changes of organization affecting special districts. Govt C §56375(a).

NOTE: A confirmation election is required when a LAFCO initiates a change of organization affecting a special district and receives a timely and sufficient petition requesting that the proposal be submitted to the voters. Govt C §57113.

© The Regents of the University of California

§1.115 (1) Changes Relating to Farmland Security Zones

As to a change of organization or reorganization initiated after January 1, 2003, there are specific rules relating to farmland security zones:

- A LAFCO may not approve a proposal resulting in annexation of land unless the city's facilities or services will benefit the land uses in that zone and the landowner consents to the annexation. Other narrow exceptions apply. See Govt C §56749. See also Govt C §51296.3.
- A LAFCO may not approve a proposal resulting in annexation of land subject to a farmland security zone contract to a special district that provides certain urban facilities or services, unless those facilities or services benefit land uses allowed under the contract and the landowner consents to the annexation. Govt C §51296.4.
- A LAFCO may not approve or conditionally approve a proposal resulting in annexation to a city or special district of land subject to a California Land Conservation Act (Williamson Act) contract if the city or district provides certain urban facilities or services, unless (Govt C §56856.5(c)):

NOTE: Williamson Act subvention payments to local governments were suspended for fiscal year 2009-2010 due to the ongoing state budget crisis. This means that counties administering Williamson Act contracts are no longer receiving money from the state to make up for the loss in revenue caused by land being subjected to Williamson Act contracts. Although subvention payments have been customary for many years, they have never been guaranteed. The Williamson Act contracts between landowners and local governments remain in force, however, regardless of the availability of subvention payments. See www.conservation.ca.gov/dlrp/lca/Pages/Index.aspx.

- those facilities or services, or other facilities or services of the city or district, benefit land uses allowed under the contract,
- the city or county administering the contract after the annexation has policies and measures in place to ensure long-term continuation of the land uses allowed under the contract, or
- the proposal encourages and provides efficient urban development patterns that consider preservation of existing open space lands, or the proposal is necessary to provide services to such development patterns.

© The Regents of the University of California

§1.116 (2) Conditions on Changes

A LAFCO has extensive powers to impose terms and conditions on any change of organization or reorganization. For the applicable terms and conditions, see Govt C §56886. A LAFCO also may impose any conditions not specifically enumerated, but necessary or incidental to the conditions specified. Govt C §56886(v).

Most conditions are of a fiscal nature, *i.e.,* the transfer of debt and of authority for and revenue from taxes, service fees, or assessments. The general terms and conditions of Part 5 (commencing with Govt C §57300) of the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (the Act) (Govt C §§56000-57550) apply to a proposal only to the extent that a LAFCO has not imposed specific terms and conditions under Govt C §56886. Govt C §57302. A LAFCO can make any additions or deletions to a proposal that do not alter the general nature of the proposal. *Fallbrook Sanitary Dist. v San Diego Local Agency Formation Comm'n* (1989) 208 CA3d 753, 765, 256 CR 590. A LAFCO may also impose certain procedural requirements or limitations on a proposal. Govt C §56885.5.

A LAFCO may conditionally approve a change of organization or reorganization subject to certification by the California Coastal Commission of an amendment to the local coastal program of a city or county. Govt C §56887. Similarly, a LAFCO may conditionally approve (re)organization changes subject to the acquisition, improvement, sale, transfer, or division of real or personal property, as long as such changes do not regulate land use, property development, or subdivision requirements. Govt C §56886.

© The Regents of the University of California

§1.117 c. Spheres of Influence

A sphere of influence is a plan for the probable physical boundaries and service area of a local agency. Govt C §56076. A LAFCO must adopt a sphere of influence for each city, county service area, and district or special district within the county, except for school districts, community college districts, special assessment districts, improvement districts, and Mello-Roos Act community facilities districts. Govt C §§56036, 56054, 56425(a). Each LAFCO must enact policies designed to promote the logical and orderly development of areas within its sphere. Govt C §56425(a). All LAFCO determinations on changes of organization must be consistent with the spheres of influence of affected agencies. Govt C §56375.5. A LAFCO may recommend governmental reorganizations to agencies, using their spheres of influence as the basis for the reorganizations. Govt C §56425(h). A LAFCO may not approve a proposed incorporation unless it finds that the proposal is consistent with the spheres of influence of affected agencies. Govt C §56720(b).

© The Regents of the University of California

§1.118 (1) Factors Considered Determining Sphere of Influence

In determining a sphere of influence, a LAFCO must consider and make a written determination on the following (Govt C §56425(e)):

- the present and planned uses in the area,
- the need for public facilities and services,
- the present capacity of public facilities and adequacy of services, and
- the existence of any social or economic community interest that may be relevant to the agency.

A LAFCO is to give great weight to an agreement between a city and county on a new or updated sphere of influence for the city. Govt C §56425(b); 84 Ops Cal Atty Gen 66 (2001).

NOTE: Sphere of influence determinations alone are not subject to environmental review under the California Environmental Quality Act. *City of Agoura Hills v Local Agency Formation Comm'n* (1988) 198 CA3d 480, 493, 243 CR 740.

© The Regents of the University of California

§1.119 (2) Mandatory Service Reviews

For spheres of influence prepared after January 1, 2001, LAFCOs must conduct a service review of the municipal services provided in the county or other appropriate area designated by the LAFCO and prepare a written statement of its determination on each of the following (Govt C §56430):

- infrastructure needs or deficiencies;
- growth and population projections for the affected areas;
- financing constraints and opportunities;
- cost-avoidance opportunities;
- opportunities for rate restructuring;
- opportunities for shared facilities;
- government structure options, including an evaluation of consolidation or reorganization of service providers;
- evaluation of management efficiencies; and
- local accountability in governance.

In conducting a service review, a LAFCO must comprehensively review all the agencies that provide the identified services within the area designated by LAFCO. Govt C §56430(b). See Govt C §56378.

© The Regents of the University of California

§1.120 (3) Updates and Amendments to Sphere of Influence

After adopting a sphere of influence, a LAFCO is required to review and update, as necessary, the adopted sphere at least once every 5 years. Govt C §56425(g). The same service review required for establishing a sphere of influence (see §1.119) is required for a sphere update. Govt C §56430(a). In addition, any person or local agency may file a written request with a LAFCO for amendment of a sphere of influence or urban service area adopted by the LAFCO. A LAFCO may charge a fee that does not exceed its estimated reasonable cost in providing this service. Govt C §§56383(a)(3), 56428(f). Changes to a sphere of influence determination require prior notice and a public hearing. Govt C §§56427-56428. A LAFCO may approve or disapprove the request with or without amendment, wholly, partially, or conditionally. Govt C §56428(e).

NOTE: A LAFCO may not approve or conditionally approve change to a sphere of influence for land subject to a farmland security zone contract or a California Land Conservation Act of 1965 (Williamson Act) contract if the affected local agency provides certain urban facilities or services, unless these facilities or services benefit land uses allowed under the contract and the landowner consents to the change. Govt C §§56426, 56426.5.

PRACTICE TIP 1: The Governor's Office of Planning and Research has guidelines for the service review a LAFCO must conduct when adopting or updating a sphere of influence (Govt C §§56425, 56430). These guidelines are available online at www.opr.ca.gov/planning/docs/MSRGuidelines.pdf.

PRACTICE TIP 2: An applicant for a sphere of influence amendment should submit substantial evidence relating to each of the factors considered by the LAFCO. *City of Agoura Hills v Local Agency Formation Comm'n* (1988) 198 CA3d 480, 493, 243 CR 740. Applicants should review the LAFCO guidelines and policies to ensure satisfaction of any additional requirements for information. An applicant may wish to concurrently process a sphere of influence amendment and related change(s) of organization.

© The Regents of the University of California

§1.121 d. Provision of New or Extended Services Outside of Boundaries

With limited exceptions, a city or district cannot provide new or extended service by contract outside of its jurisdictional boundaries without prior written LAFCO approval. LAFCO may authorize a city or district to provide new or extended service outside its boundaries, but within its sphere of influence, in anticipation of a later change in organization. Under certain conditions, LAFCO may also authorize a city or district to provide new or extended services outside its jurisdictional boundaries and outside its sphere of influence to respond to a threat to the health or safety of residents of the affected territory. Govt C §56133.

© The Regents of the University of California

§1.122 e. LAFCO as Project for CEQA Purposes

LAFCO determinations are often deemed "projects" within the meaning of the California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177). *Bozung v Local Agency Formation Comm'n* (1975) 13 C3d 263, 282, 118 CR 249; *City of Agoura Hills v Local Agency Formation Comm'n* (1988) 198 CA3d 480, 243 CR 740. CEQA exemptions may apply to some changes of organization. See 14 Cal Code Regs §§15300, 15319-15320.

© The Regents of the University of California

6. Limitations on LAFCO Power

§1.123 a. Limitations on Imposing Conditions

Although a LAFCO's power to impose conditions is broad (see §1.116), a LAFCO cannot impose conditions that:

- Directly regulate land use density or intensity, property development, or subdivision requirements (Govt C §§56375(a), 56886);

NOTE: A LAFCO must require a city to either prezone land to be annexed to the city or present evidence that existing development entitlements on the land are vested or already at buildout and are consistent with the city's general plan. A LAFCO decision on a proposal to annex territory to a city must be based on the general plan and prezoning of the city. A LAFCO may not specify how the land is to be prezoned. Govt C §56375(a).

- Require a city to provide services to an area outside its sphere of influence, unless that condition mitigates effects resulting directly from an annexation (Govt C §56376); or
- Impose on a local agency annexation standards or frequency of maintenance requirements for any existing street or road within the annexed area, or require that the agency maintain an existing public facility it does not own (Govt C §56376.5).

© The Regents of the University of California

§1.124 b. Limitations on Approving or Disapproving Changes of Organization

Although LAFCOs possess broad discretion when considering changes of organization (see §1.114), they are limited in approving or disapproving changes of organization in the following circumstances:

- **Non-contiguous Territory.** With limited exceptions (see Govt C §§56742-56747), territory to be annexed to a city or district must be contiguous to it and territory proposed to be incorporated must be contiguous to other territory included in the proposal. Govt C §§56031, 56119, 56741.
- **State Tidelands and Submerged Lands.** State tidelands or submerged lands cannot be annexed by a city except when approved by the State Lands Commission. Govt C §56740.
- **Creation of Islands.** Territory cannot be annexed to, or incorporated into, a city if that would create an unincorporated pocket surrounded by the city or the city and the ocean. Govt C §56744. This requirement may be waived when it would be detrimental to orderly growth and the territory cannot reasonably be annexed to another city or incorporated. Govt C §56375(m).
- **Revenue Neutrality of Incorporation.** A LAFCO may not approve a reorganization that includes an incorporation unless it finds that the effect of the incorporation is revenue neutral. Govt C §56815.

© The Regents of the University of California

§1.125 c. Mandatory LAFCO Approval

LAFCO approval is mandatory on a proper application by resolution for annexation to a city of territory contiguous to it if the territory is (Govt C §56375(a)(4))

- not prime agricultural land,
- designated for urban growth by the general plan of the annexing city,
- either substantially developed or developing, not within the sphere of another city, and
- substantially surrounded by the annexing city or contiguous to a county boundary or the ocean, within an urban service area determined by the LAFCO, or an island, within a city, of unincorporated territory no larger than 150 acres and meeting certain other statutory requirements.

© The Regents of the University of California

§1.126 7. LAFCO Proceedings

The procedures applicable to LAFCO proceedings vary based on the type of proposal for change of organization. See Govt C §§56650-56898.

© The Regents of the University of California

§1.127 a. Evidence Gathering

LAFCOs hold hearings primarily to gather information. Govt C §56666. They have broad discretion to approve or disapprove a proposal based on the evidence presented at the hearings. Govt C §§56107, 56375, 56880. However, in reviewing a proposal, LAFCOs must consider the factors listed in Govt C §56668, and for district annexations and some city detachments, the factors listed in Govt C §56668.3.

© The Regents of the University of California

§1.128 b. Time Limits

The limits established by the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (Govt C §§56000-57550) for action by an official or LAFCO are directory, not mandatory, except as to the following (Govt C §§56106, 56658(i), 56895(b)):

- notice requirements,
- setting the date for a LAFCO hearing on a proposal, and
- requests to amend or reconsider LAFCO resolution-making determinations.

© The Regents of the University of California

§1.129 c. Judicial Review

LAFCOs act in a quasi-legislative capacity when exercising discretion in making determinations on proposals. *City of Santa Cruz v Local Agency Formation Comm'n* (1978) 76 CA3d 381, 387, 142 CR 873. This means LAFCO decisions are likely to be upheld as long as statutory procedures are followed and any substantial evidence supports LAFCO determinations. Technical noncompliance with certain statutory procedures will not invalidate the affected proceedings. Govt C §56107. See *City of Agoura Hills v Local Agency Formation Comm'n* (1988) 198 CA3d 480, 492, 243 CR 740.

Judicial inquiry into LAFCO determinations and decisions is limited to the question of whether there was fraud or prejudicial abuse of discretion evidenced by a lack of substantial evidence, in light of the whole record, to support the determination or decision. Govt C §56107.

PRACTICE TIP 1: Challenge incomplete LAFCO decisions by traditional mandate under CCP §1085. *Bozung v Local Agency Formation Comm'n* (1975) 13 C3d 263, 271, 118 CR 249.

PRACTICE TIP 2: Challenge a completed change of organization, reorganization, or sphere of influence determination by a validation action. CCP §§860-870.5; Govt C §56103. A completed change of organization or reorganization may also be challenged by a quo warranto action. *Hills for Everyone v Local Agency Formation Comm'n* (1980) 105 CA3d 461, 466, 164 CR 420.

© The Regents of the University of California

§1.130 d. Jurisdictional Overlaps

A proposal regarding a district may apply to more than one county, in which case the LAFCO of the principal county has exclusive jurisdiction. Govt C §§56123, 56387. The principal county is the county where all or the greatest portion of the entire assessed value of all taxable property within the district is located. Govt C §56066.

Exclusive jurisdiction may be vested in the LAFCO of a non-principal county if (Govt C §§56124, 56388):

- the LAFCO of the principal county so agrees;
- the LAFCO of the principal county officially designates the LAFCO of the non-principal county; and
- the LAFCO of the non-principal county agrees to assume exclusive jurisdiction.

© The Regents of the University of California

§1.131 8. Subsidiary Districts

A subsidiary district is a district of limited powers for which the city council is designated and empowered to act as the ex officio board of directors. Govt C §56078. Examples of such districts include: fire protection districts, harbor districts, municipal water districts, port districts, library districts, hospital districts, sanitary districts, and public cemetery districts. See Govt C §56037.

© The Regents of the University of California

§1.132 a. Initiating Proceedings to Establish Subsidiary District

A LAFCO may initiate a proposal to establish a subsidiary district. Govt C §56375(a). In addition, a resolution by the legislative body of the affected local agency or a petition by the requisite number of voters or landowners may be submitted to The LAFCO to apply for the establishment of a subsidiary district. Govt C §§56652-56654, 56866. The signature requirements for a petition are 5 percent of the registered voters of the district or of the registered voters within the territory of the city outside the boundaries of the district. Govt C §56866(a). For a landowner district, the petition must be signed by 5 percent of the landowner-voters within the district who also own not less than 5 percent of the assessed value of land, or 5 percent of the registered voters residing within the territory of the city outside the boundaries of the district. Govt C §56866(b).

© The Regents of the University of California

§1.133 b. Conducting Proceedings to Establish Subsidiary District

The LAFCO is the conducting authority in subsidiary district proposals. Govt C §§56854, 57077. The LAFCO must hold a protest hearing on a proposal to establish a subsidiary district. Govt C §57002. If, before the conclusion of proceedings on a proposal to establish a subsidiary district, the LAFCO receives a majority protest to the district, and such protest is not withdrawn, it must terminate proceedings and the proposed district must be abandoned. Govt C §§57077-57078.

NOTE: When proceedings on the establishment of a subsidiary district have been terminated, either because of a majority protest or because the voters have voted not to confirm establishment of the district, no similar proposal may be filed with the LAFCO within 2 years thereafter unless LAFCO waives the restriction. Govt C §57090.

If, at the conclusion of proceedings on a proposal to establish a subsidiary district, the LAFCO does not receive a majority protest to the subsidiary district, it must take one of the following actions if it determines to establish the district:

- Order establishment of the district subject to confirmation by the voters, or in the case of a landowner district, subject to confirmation by the affected landowners, unless the enabling statute authorizing establishment of the district provides otherwise (Govt C §57077(a)(1)); or
- Order establishment of the district without an election if the proposal meets any of the conditions described in Govt C §56854(a), and the city has consented to the proposal as required by Govt C §§56854(b) and 57077(a)(2).

© The Regents of the University of California

§1.134 c. Revenue Consequences of Subsidiary District Merger Into City

When the city council is the governing body of the subsidiary district, the merger of that district into the city will not be subject to the property tax exchange formulas and negotiations requirements of Rev & T C §§99 and 99.01 if by resolution the city (Govt C §57087.3):

- continues to provide the subsidiary district's services to areas outside the city but within the district at the same levels as provided within the city, and
- assumes all district's assets, liabilities, and revenues.

© The Regents of the University of California

§1.135 B. Incorporation

Incorporation is a "change of organization" subject to the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (the Act) (Govt C §§56000-57550), and the Act provides the exclusive authority and procedure for incorporation of a city. See Govt C §§56021, 56100. Courts must take judicial notice of the existence and organization of cities incorporated under the Act. Govt C §57380.

PRACTICE TIP 1: The Governor's Office of Planning and Research is required to promulgate minimum statewide advisory guidelines for the incorporation process. Govt C §56815.2. Final incorporation guidelines and related documents are available at www.opr.ca.gov/planning/publications/LAFCO_October_21_guidelines.pdf.

Because the procedures for incorporation described in the Act are complex, this section provides only an overview of the procedures applicable to an incorporation initiated by citizen petition and does not discuss all statutes prescribing the incorporation process.

PRACTICE TIP 2: For relevant resources, see Guide to Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (revised annually, published by the Assembly Committee on Local Government and available online at www.assembly.ca.gov/acs/newcomframeset.asp?committee=17 (click on Committee Publications); and Curtin, Curtin's California Land Use and Planning Law (revised annually and published by Solano Press, P.O. Box 773, Point Arena, California 95468).

© The Regents of the University of California

§1.136 1. Initiating Incorporation Proceedings by Petition

The proceeding is deemed initiated on the date the petition for incorporation is accepted for filing and a certificate of filing is issued by the executive officer of the local agency formation commission (LAFCO). Govt C §56651. The petition's contents and notice requirements are set by statute. Govt C §§56700, 56700.4. The petition may propose the name of the proposed city (Govt C §56722), and may provide for appointment of a city manager and elective offices, except the city council. Govt C §56723.

The petition must be signed by either (Govt C §56764):

- 25 percent or more of the registered voters in the area to be incorporated; or
- 25 percent or more of the landowners who own not less than 25 percent of the assessed value of land in the area.

All signatures must be affixed within 6 months of the date of the first signature and filed within 60 days of the last. Govt C §56705(a).

NOTE: The same timelines apply to petitions for a special reorganization, *i.e.,* detachment of territory from a city and incorporation of that territory as a new city. Govt C §§56705(b)(2), 56075.5.

The executive officer of the LAFCO has 30 days to determine the sufficiency of the petition. Govt C §56706. Insufficient petitions are filed with the executive officer as a public record without prejudice to a new filing. Govt C §56709.

© The Regents of the University of California

§1.137 2. Conducting Incorporation Proceedings

The application (see Govt C §56652), petition (see §1.136), and fees are filed with the executive officer of the LAFCO. If sufficient, the executive officer issues a certificate of filing and the LAFCO proceeds to act by setting the petition for hearing not more than 90 days following the issuance of the certificate of filing. Govt C §56658(i). The hearing may be continued, but not more than 70 days from the original date. Govt C §56666.

The executive officer must issue a report with recommendations 5 days before the hearing and provide copies to particular persons and entities. Govt C §56665. The executive officer prepares (or causes to be prepared) a comprehensive fiscal analysis of the proposed city's projected public service and facilities costs and projected revenues for the first 3 years of incorporation and the fiscal impacts on other entities. Govt C §56800. The state controller may be requested to review the fiscal analysis, with 45 days to issue a report. Govt C §56801.

PRACTICE TIP 1: Do not rely on the fiscal analysis after incorporation as setting out a completely accurate picture of the city's financial status. The financial officer of a new city may need to perform further research as to potential liabilities of the city, because the fiscal analysis may have omitted significant liabilities (such as those associated with a merged district) or the costs associated with legal mandates (such as preparation of a general plan).

© The Regents of the University of California

§1.138 3. Deciding on Incorporation

In making its decision, the LAFCO must consider a broad array of factors, including population, land use, and community services. Govt C §56668. The LAFCO determines the amount of the property tax exchange. If all services are not transferred (Govt C §56810):

- The county auditor determines the proportion of all property taxes to all general revenue;
- The LAFCO determines the total net cost of providing services; and
- The LAFCO multiplies the ratio of property tax to general revenue by total cost of services to determine the property tax transfer.

PRACTICE TIP: Counsel to a newly incorporated city should review the decision in *City of Highland v County of San Bernardino* (1992) 4 CA4th 1174, 6 CR2d 346 to ensure that this calculation is consistent with its holdings. Counsel may also recommend an audit be performed on these calculations.

The LAFCO evaluates the exchange of both revenue and responsibility for service delivery. See Govt C §56815. The LAFCO may not approve a proposal that includes an incorporation unless it finds that the revenues lost by the county as a result of incorporation are substantially equal to the county's reduction in expenditures for services the new city will assume. Govt C §56815(b). The LAFCO may impose tax sharing or other conditions to mitigate the negative fiscal effect of an incorporation. Govt C §56815(c).

© The Regents of the University of California

§1.139 a. Appropriations Limits

The LAFCO determines provisional appropriations limits; the city council determines permanent appropriations limits. Govt C §§56812, 57120. See also Cal Const art XIII B, §4; Govt C §§7900-7914. It determines the provisional appropriations limit by estimating the amount of revenue from proceeds of taxes for the first full fiscal year, then adjusting for cost of living and population increases for the next fiscal year. Govt C §56812(a). The city determines the proposed permanent limit by calculating the actual revenue received from proceeds of taxes for the first fiscal year and adjusting for cost of living and population increases in the second fiscal year. Govt C §56812(b). The permanent appropriations limit is set at the first municipal election following the first full fiscal year. Adoption of the permanent appropriations limit is not considered a change in the city's appropriations limit for purposes of Cal Const art XIIIB. Govt C §56812(c).

PRACTICE TIP: Because the first municipal election need not be held unless there is a proposition to be voted on or non-council offices to be filled (see Govt C §57379), the city council may need to establish by resolution a further provisional appropriations limit for the second fiscal year.

© The Regents of the University of California

§1.140 b. Approval or Disapproval of Proposal

Within 35 days after the hearings, the LAFCO adopts a resolution making determinations approving or disapproving the proposal, with or without amendments or conditions. Govt C §56880. The resolution making determinations must include the information required by Govt C §56881.

The LAFCO's resolution accepts or rejects each of the findings or recommendations made in the executive officer's report and fiscal analysis. Govt C §56803. To approve or conditionally approve an incorporation, the LAFCO must also find that the proposal is consistent with the Act and the spheres of influence of affected agencies, and that the comprehensive fiscal analysis, executive officer's report, and testimony received have been reviewed. Govt C §56720.

NOTE: The resolution approving an incorporation must, on the applicant's request, specify that the first election of city officers is to be held after voter approval of the proposal. Govt C §56724. If the proposal is disapproved, no similar proposal involving the same territory may be initiated for 1 year from the date the resolution terminating proceedings is adopted. Govt C §56884(a). The LAFCO may, however, waive the requirements of Govt C §56884(a) if it determines that they are detrimental to the public interest. Govt C §56884(b).

© The Regents of the University of California

§1.141 c. Reconsideration of Decision on Proposal

The LAFCO must review any request for reconsideration submitted within 30 days of adoption of the resolution approving or denying the proposal. Govt C §56895. The request must (Govt C §56895(a)):

- Specify the modification to the LAFCO resolution being requested; and
- State what new or different facts could not have been presented previously or what new law warrants the reconsideration.

Any such request tolls the time to file an action under Pub Res C §21167 (California Environmental Quality Act). Govt C §56895(d). However, a request for reconsideration is not a jurisdictional prerequisite for judicial review of a LAFCO's determinations. *Sierra Club v San Joaquin Local Agency Formation Comm'n* (1999) 21 C4th 489, 510, 87 CR2d 702. See §1.129.

© The Regents of the University of California

§1.142 d. Decision on Proposal

Following adoption by a LAFCO of a resolution making determinations, the proposed incorporation is considered by the LAFCO sitting in its capacity as the commission. Govt C §57000. The executive officer sets the proposal for hearing and gives notice within 35 days of the adoption of the resolution, and the hearing is held no sooner than 21 days and no later than 60 days after notice. Govt C §57002(a). The hearing may be continued for no more than 35 days for a proposal that includes an incorporation. Govt C §57050.

NOTE: Once the notice goes out, the LAFCO cannot accept or act on a conflicting application. Govt C §57003.

Within 30 days after the hearing concludes, the conducting authority must adopt a resolution making a finding on written protests and either terminate the proceedings, if a majority protest exists as described in Govt C §57078, or order the incorporation subject to the confirmation of the electors or landowners. Govt C §57076. The required contents of the resolution ordering a change of organization, including an incorporation, are described in Govt C §57100. When the resolution orders an incorporation subject to an election, the required contents of the resolution are described in Govt C §§57115-57116 and 57120.

Proposals not completed within 1 year after approval by a LAFCO will be deemed "abandoned," unless the time is extended by the LAFCO. Govt C §57001.

© The Regents of the University of California

§1.143 e. Elections to Confirm Incorporation

The election is controlled by the Elections Code and Govt C §§57125-57150. See Govt C §57125.

NOTE: In cases of conflict, the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (Govt C §§56000-57550) governs over the Elections Code. Govt C §57125(a)(2).

The ballot questions are set out in statute. Govt C §§57133-57135. The executive officer prepares an impartial analysis of not more than 500 words to be approved or modified by the LAFCO and included in the ballot pamphlet. Govt C §§57144, 57148(a)(1). Opponents and proponents may prepare ballot arguments for the ballot pamphlet of not more than 300 words. Govt C §§57145-57148. If more than one argument is submitted for or against a measure, the election official chooses the arguments for the ballot pamphlet, giving preference and priority to the arguments, if any, submitted by the legislative body (or members thereof) of an affected agency. Govt C §57145(b).

Only voters residing in the territory to be incorporated may vote to confirm the incorporation. Govt C §57118. This limitation has been upheld against a constitutional challenge. *Board of Supervisors v Local Agency Formation Comm'n* (1992) 3 C4th 903, 13 CR2d 245, cert denied (1993) 507 US 988. However, for a special reorganization, an election is called in both the territory to be detached from the city and in the entire territory of the city from which the detachment is proposed. Govt C §57119.

If a majority vote "yes," the LAFCO will confirm the results by issuing a certificate of completion confirming the order for the change of organization and indicating the name and the highest vote-getters for offices or calling an election to fill city offices. Govt C §§57176, 57178. For a special reorganization, a majority vote of approval is required in both elections for the proposal to be confirmed. Govt C §57176.1. If a majority votes "no," the LAFCO executes a certificate of termination of proceedings. Govt C §57179.

© The Regents of the University of California

4. Effects of Incorporation

§1.144 a. City Jurisdiction

After the effective date of an incorporation, all territory incorporated, and all inhabitants of or voters residing within the new city, are subject to the jurisdiction of, and have rights and duties conferred on them as inhabitants and voters of, the new city. Govt C §57375.

© The Regents of the University of California

§1.145 b. Effect of County Ordinances

If the new city includes territory formerly unincorporated, the city must immediately adopt an ordinance continuing the effectiveness of county ordinances previously applicable within that territory. The ordinances remain in effect for 120 days, or until specifically superseded by the city, whichever occurs first. Special provisions govern Orange County cities. Govt C §57376.

PRACTICE TIP 1: After expiration of the 120-day period, the county ordinances that have not been superseded, or the ordinances of another jurisdiction, should be adopted by reference. If a district was merged into the new city, the ordinances and resolutions of that entity should be adopted by the city to the extent consistent with the objectives of the incorporation or needed to provide services previously provided by the district.

PRACTICE TIP 2: After *Santa Clara County Local Transp. Auth. v Guardino* (1995) 11 C4th 220, 45 CR2d 207, and Proposition 218, any ballot question on incorporation should include a request for approval of the continuation of county taxes. See Memorandum from League of California Cities Ad Hoc Proposition 62 Advisory Committee, p 16 (December 11, 1995).

PRACTICE TIP 3: The League of California Cities has published the Proposition 218 Implementation Guide (2007), available at 1400 K Street, 4th Floor, Sacramento, CA 95814, telephone (916) 658-8257; fax (916) 658-8220; or online at www.cacities.org/munilaw.

© The Regents of the University of California

§1.146 c. City Council Terms of Office

The three council members elected with the lowest winning number of votes hold office until the first succeeding election and the two with the highest number of votes serve until the second municipal election. Govt C §57377. The exception is when the first municipal election is less than 1 year from the incorporation election; then the three lowest vote-getters will serve until the second municipal election and the two highest vote-getters will serve until the third municipal election. The first election need not be held unless some other office or proposition is on the ballot. Govt C §57379.

© The Regents of the University of California

§1.147 d. Property

Property held in trust for the city, by officers, boards, or persons, must be conveyed to the city. Govt C §57382. Roads or highways previously accepted by the county into the county road system become city streets on the effective date of the incorporation. Govt C §57385.

© The Regents of the University of California

§1.148 e. Services in First Full Fiscal Year

When a new city was previously unincorporated territory, the county must continue services, without additional charge, for the remainder of the fiscal year of incorporation or until the city requests a discontinuation, whichever occurs first. On request of the board of supervisors, the LAFCO must condition the incorporation on reimbursement of the county by the city over 5 years for the net cost, which includes the direct and indirect costs of providing the services, of county services so provided. Govt C §57384.

© The Regents of the University of California

§1.149 C. Annexation and Detachment

Annexation and detachment are "changes of organization" subject to the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (Govt C §§56000-57550). See Govt C §56021. "Annexation" adds territory to a city or district, and "detachment" removes area from a city or district. Govt C §§56017, 56033. As with incorporation, the procedures are specifically governed by statute.

PRACTICE TIP: A resource on the Act is the Guide to Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (revised annually; published by the Assembly Committee on Local Government and available online at www.assembly.ca.gov/acs/newcomframeset.asp?committee=17 (click on Committee Publications).

© The Regents of the University of California

§1.150 1. Procedures for Annexation

The Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (Govt C §§56000-57550) provides that LAFCO proceedings for annexation of territory, as with other reorganizations, may be initiated either by:

- resolution of the affected local agency (Govt C §56654(a)), or
- petition with the required signatures of landowners or registered voters (Govt C §56767).

The resolution or petition must state whether or not the city will succeed to any existing California Land Conservation Act of 1965 (Williamson Act) contracts. Govt C §§56738, 56752.

© The Regents of the University of California

§1.151 a. When Annexation Is Appropriate

A LAFCO may approve annexation to a city after notice and hearing (see §1.156) if the proposed annexation is (Govt C §56375(d)):

- located in unincorporated, noncontiguous territory, subject to the limitations specified in Govt C §56742,
- located in the same county as that in which the city is located, and
- owned by a city and used for municipal purposes.

© The Regents of the University of California

§1.152 b. Property Tax Negotiations

Local agencies affected by an annexation must negotiate an exchange of property tax revenues within 60 days. Rev & T C §99(b)(4). For annexations initiated before January 1, 1998, or after January 1, 2005, the failure of a city and county to reach a property tax agreement deprives the LAFCO of jurisdiction to continue annexation proceedings. The LAFCO may not issue a certificate of filing under Govt C §56658 and continue processing an application for annexation unless the city and county reach a property tax agreement under Rev & T C §99. There is no statutory duty on the city to reach a property tax agreement with the county, but it is likely the city can be required to negotiate in good faith. *Greenwood Addition Homeowners Ass'n v City of San Marino* (1993) 14 CA4th 1360, 1377, 18 CR2d 350.

For annexations initiated between January 1, 1998, and January 1, 2010, additional analysis, mediation, and public hearings are required if the city and county fail to reach an agreement regarding property taxes. Rev & T C §99.

© The Regents of the University of California

§1.153 c. Effect of Annexation Agreement Requiring Waiver of Protest Rights

A city may enforce an annexation agreement that requires the landowner, as a condition of receiving city sewer services, to waive the right to protest the annexation of the property to the city. The waiver is binding on the landowner, future owners, and long-term lessees of the property, but not other occupants unless they have actual knowledge of the agreement. 76 Ops Cal Atty Gen 227 (1993). But see *Hussey v City of Portland* (9th Cir 1995) 64 F3d 1260 (similar agreement in which residents were required to consent to annexation in return for receiving subsidized hook-up costs was unconstitutional).

PRACTICE TIP: A city might attempt to reach a master property tax exchange agreement with the county so that each annexation's tax issues need not be negotiated separately.

© The Regents of the University of California

§1.154 2. Procedures for Detachment

The Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (Govt C §§56000-57550) provides that LAFCO proceedings for detachment of territory, as with other reorganizations, may be initiated by either:

- resolution of the affected local agency (Govt C §56654(a)), or
- petition with the required signatures of landowners or registered voters (Govt C §56768).

NOTE: A detachment of territory from a city and the incorporation of the detached territory as a new city is a "special reorganization" governed by specific statutes. Govt C §§56075.5, 56734, 57119, 57132.5, 57176.1.

© The Regents of the University of California

3. LAFCO Approval or Disapproval

§1.155 a. With No Notice and Hearing

Annexations and detachments may be approved or disapproved without notice or hearing by the LAFCO when all the owners of land affected by the proposal have given a written consent to the proposal and there is no objection by the affected city or district. Govt C §56663.

© The Regents of the University of California

§1.156 b. With Notice and Hearing

If the LAFCO holds a hearing, it must within 30 days after the hearing make findings as to the value of the written protest and (Govt C §57075):

- terminate the proceedings, if a majority protest exists;
- order annexation or detachment subject to voter confirmation when the requisite number of written protests were made; or
- order the annexation or detachment without election.

NOTE: Special requirements apply when inhabited territory is proposed to be annexed to a city with more than 100,000 people that is located in a county with more than 4 million in population. Govt C §57075.5. Special requirements also apply to landowner-voter districts (Govt C §57076), and when a reorganization includes a detachment of territory from a city. Govt C §56668.3.

The majority protest provision applicable to annexations in uninhabited territory contained in Govt C §57078(a) does not violate constitutional equal protection requirements. *Broadmoor Police Protection Dist. v San Mateo Local Agency Formation Comm'n* (1994) 26 CA4th 304, 314, 31 CR2d 536.

© The Regents of the University of California

§1.157 4. Elections on Annexation or Detachment

Elections on the annexation of territory to a city or the detachment of territory from a city ordinarily will be held only within the territory to be annexed or detached. Govt C §57118. However, an election held on the question of annexation to a city in which the value of the land to be annexed equals 50 percent or more of that within the city or the number of registered voters equal 50 percent or more of the number in the city must be held within the city as well as in the affected territory. Govt C §56759. Special election requirements apply for "special reorganizations." Govt C §§57119, 57132.5, 57176.1.

© The Regents of the University of California

5. Effects of Annexation

§1.158 a. Jurisdiction

On and after the effective date of the annexation, the territory, inhabitants, and voters of the area annexed are subject to the jurisdiction of the city or district and have rights and duties as if the area had been a part of the city or district at incorporation or formation. Govt C §57325.

© The Regents of the University of California

§1.159 b. Service Provision

As an alternative to the prescribed division of taxes and assessments collected in a district, the city and the district can agree the district will continue to provide services for the annexed territory until the end of the fiscal year for which taxes or assessments have been levied. Govt C §57326.

© The Regents of the University of California

§1.160 c. Charges for Property Use

No charge for the use or right of use of property of a district or city may be required because of the annexation. Govt C §57327.

© The Regents of the University of California

§1.161 d. Responsibility for Bonds

The annexed area becomes responsible for bonds and other contracts and obligations of the city or district, but not for bonds, contracts, or obligations of any improvement district. Govt C §57328.

© The Regents of the University of California

§1.162 e. Acceptance of County Roads and Highways

Any roads or highways within the annexed area that had been accepted into the county road system become city streets on the effective date of the annexation, but need not be improved to city standards. Govt C §57329.

© The Regents of the University of California

§1.163 f. Previously Authorized Taxes, Assessments, Fees, or Charges

The annexed area becomes subject to the previously authorized taxes, benefit assessments, fees, or charges of the city. Govt C §57330.

© The Regents of the University of California

6. Effects of Detachment

§1.164 a. Jurisdiction

On and after the effective date of the detachment, the territory, inhabitants, and voters of the detached area cease to have the rights and duties of the city or district and are not subject to its jurisdiction. Govt C §57350.

© The Regents of the University of California

§1.165 b. Interest and Principal on Debts

The city/district from which territory is detached retains liability for payment of interest and principal on debts from before the detachment, and may levy and collect from the detached area payments to cover that area's proportional liability for the debt. Govt C §57351.

The detached area continues to be liable for principal and interest on bonds in the city or district. Govt C §57354.

© The Regents of the University of California

§1.166 c. Taxing Authority

If the detached area pays its obligations, the city or district loses its authority to levy taxes on the detached area. Govt C §57352.

NOTE: No one in the detached area is entitled to refunds of taxes, assessments, or charges paid to the city or district. Govt C §57353.

© The Regents of the University of California

§1.167 d. Public Employees in Special Reorganizations

Special requirements apply to the continuing status of public employees, collective bargaining agreements, and certain employee benefits as a result of special reorganizations. Govt C §56734.

© The Regents of the University of California

§1.168 D. Consolidation, Dissolution, and Disincorporation

"Consolidation," "dissolution," and "disincorporation" are changes in organization under the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (Govt C §§56000-57550). Govt C §56021.

A "consolidation" is the uniting or joining of two or more cities located in the same county into a single new successor city, or two or more districts formed under the same principal act into a single new successor district. Govt C §56030. Streamlined procedures apply when the legislative bodies of two or more local agencies adopt similar resolutions of application proposing consolidation regardless of whether the districts were formed under the same enabling act. Govt C §56853.

A "dissolution" means the dissolution, disincorporation, extinguishment, and termination of the existence of a district and the cessation of all its corporate powers, except for the purpose of winding up the district's affairs. Govt C §56035. Similarly, a "disincorporation" means the disincorporation, dissolution, extinguishment, and termination of the existence of a city and the cessation of its corporate powers, except for the purpose of winding up the city's affairs. Govt C §56034.

PRACTICE TIP: A resource on the Act is the Guide to Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (revised annually; published by the Assembly Committee on Local Government and available online at www.assembly.ca.gov/acs/newcomframeset.asp?committee=17 (click on Committee Publications).

© The Regents of the University of California

1. Types of Consolidation

§1.169 a. Consolidation of Cities

Two or more cities may consolidate to form a new city. The prior cities are referred to as the "predecessors" and the resulting city is the "successor." Govt C §57475. If the successor is a charter city, the charter will control. If the successor is a general law city, it will be treated as a newly incorporated city. The predecessor cities are dissolved, charters suspended and annulled, and the offices of the city surrendered. Govt C §57475.

© The Regents of the University of California

§1.170 b. Consolidation of Districts

Two or more districts may consolidate to form a new district. The prior districts are the "predecessors" and the resulting district is the "successor." Govt C §57500. The successor district possesses all the powers of the predecessors. Govt C §57500.

For certain types of districts, the LAFCO may, in approving a consolidation or reorganization of districts, increase the number of directors to serve on the board of directors to seven, nine, or 11. See, *e.g.,* Pub Res C §5527.1; Wat C §21552.1.

© The Regents of the University of California

2. Effects of Consolidation

§1.171 a. Property Rights and Debts

Title to the predecessor city's property is vested in the successor city (Govt C §57476), and payment for use of property acquired by a predecessor district may not be required because of the consolidation with other districts. Govt C §57501.

Existing debts of the predecessor city are unaffected, *i.e.,* the successor assumes all rights and liabilities. Govt C §57477. Similarly, the successor district is liable for the principal and interest on bonds, contracts, and liability of the predecessor districts. Govt C §57502.

© The Regents of the University of California

§1.172 b. Civil and Criminal Liability

Most ordinances of the predecessor city are repealed, but no one is discharged from existing criminal or civil liability. Govt C §57478. Ordinances that are not repealed include those that create a vested right, relate to street or other public improvements, or relate to zoning and land use; proceedings under these ordinances continue and are conducted by the successor. Govt C §57479.

© The Regents of the University of California

§1.173 c. Taxation

Property in the consolidated cities may not be taxed to cover liability of any other city contracted for or incurred before the consolidation. Govt C §57481. Instead, there is a separate levy of taxes for pre-consolidation liabilities. Govt C §57482.

© The Regents of the University of California

3. Effects of Dissolution/Disincorporation

§1.174 4. Powers Cease

On and after the effective date, all inhabitants and voters cease to be subject to the jurisdiction of the disincorporated city and have none of the rights or duties of inhabitants or voters of a city. Govt C §57400.

Similarly, all powers of the district cease on the effective date. Govt C §57450. The successor to the district will be either a city or county, depending on where the district boundaries lie, or according to the terms of the dissolution. Govt C §57451. To wind up the district's affairs, the successor has the powers of the predecessor. Govt C §57453.

© The Regents of the University of California

§1.175 a. Debts Must Be Paid

The conducting authority, or the board of supervisors, determines and certifies the indebtedness of the city, the amount in the treasury and the amount of unpaid obligations due the city. Govt C §§57402, 57404. Uncollected taxes are paid to the county treasury. Govt C §57405. A special fund must be set up to settle the affairs of the disincorporated city. Govt C §57407. Warrants for city indebtedness are drawn on the special fund. Govt C §57408. If the funds are insufficient, taxes may be levied only on the area that was part of the disincorporated city. Govt C §§57409-57410, 57419. The county may sue for debts owed to the city. Govt C §57413.

Until a district's bonds are paid off, the successor cannot distribute the revenue-producing enterprise of the district; such revenue is to be used to pay off the debt. See Govt C §§57459-57461. No person can get a refund of taxes or charges paid. Govt C §57454.

© The Regents of the University of California

§1.176 b. Revenues Go to Successor

By ordinance, the board of supervisors may assume control of public utilities previously operated by the city and, if necessary, can levy a special tax for the administration, conduct, and improvement of such utilities. Govt C §§57415-57416. Monies relating to public utilities are placed in a separate fund. Govt C §57417.

Control of the existing and uncollected revenues of a district go to the successor district. Govt C §57452. The successor can continue to levy taxes for payment of debts. Govt C §57458. The money and funds must be used for the benefit of the lands and inhabitants of dissolved district. Govt C §§57462-57463. On distribution of assets, see Govt C §§57456-57457. Money from the asset distribution goes to pay off the bonds and debts of the dissolved district. Govt C §57455.

© The Regents of the University of California

§1.177 c. Public Property Must Be Returned

Before the effective date, all public officers turn over public property to the board of supervisors. Govt C §57401. All money is turned over to the county treasurer. Govt C §57403.

© The Regents of the University of California

§1.178 d. Effects of Reorganization Generally

On and after the effective date of a reorganization (including consolidation, dissolution, and disincorporation), each change of organization must be given the force and effect of a change of organization of that type. Govt C §57550.

© The Regents of the University of California

III. INTERNAL ORGANIZATION OF CITIES

§1.179 A. Forms of Government

In a charter city, the city's charter establishes the form of government for that city. See Govt C §§34450-34462. For example, a decision to utilize a "city manager" form of government typically would be described in a charter.

For a general law city, state law describes the procedures for a city council to establish its form of government. See Govt C §36501. Absent formal action by a city council, the council retains authority over the management of a city. However, "alternate" forms of government are specifically authorized by state law (*e.g.,* "city manager" form of government, see §1.180). General law cities may also, by vote of the people, exercise the option to be governed by a council of from four to nine council members "by" or "from" districts. Govt C §34871.

© The Regents of the University of California

§1.180 1. Council/Manager

The provisions of Govt C §§34851-34859 establish the general law parameters for the council/manager form of city government. On the powers of the city manager, see §1.255. Similar provisions can be described in a city charter, which often contains a prohibition against "councilmanic interference," reinforcing the manager's authority to make decisions without direct interference from elected council members.

© The Regents of the University of California

§1.181 2. Council/Administrator

California general law does not explicitly authorize the council/administrator form of city government. Indeed, the terms "city manager" and "city administrator" are sometimes used interchangeably. However, a city council may "define the powers and duties of the city manager" as it chooses, so presumably a council could limit the authority of its "manager" to administrative duties. Govt C §34852. Adopting such an ordinance would mean that the council would retain the management authority not "defined" for its "administrator."

Nothing precludes a charter city from creating a city administrator position. Charter cities that have chosen such a form of government typically assign to the city administrator the day-to-day operations of the city, but retain for the council significant authority over personnel matters (*e.g.,* hiring and firing of department heads, financial transactions, contracts, and similar matters) that would be within the purview of a manager in the council/manager form of government.

© The Regents of the University of California

§1.182 3. Strong Mayor

The strong mayor form of government is available to charter cities and, as such, must be approved by the voters. As the name implies, the difference between this form of government and the others (see §§1.180-1.181) is the breadth of the mayor's power.

In a strong mayor form of government, the mayor will have the authority to hire and fire the city manager and many of the department heads and may have the authority to present a budget to the city council much as the governor presents a budget to the state legislature. Political power is concentrated in the mayor, who typically will be more involved in the day-to-day management of the city because the office is a full-time job. For an example of the strong mayor form of government, see the City of Oakland Charter §305.

© The Regents of the University of California

B. City Council

§1.183 1. Qualification of Members

The city council judges the qualifications of its members. Govt C §36812. However, the city council's determination is subject to judicial review.

Qualifications differ depending on whether it is a general law city (see §1.12) or a charter city (see §1.13).

© The Regents of the University of California

§1.184 a. General Law Cities

A candidate for city council office must be a registered voter when nomination papers are issued to him or her, and when he or she assumes office, he or she must be a United States citizen 18 years of age or older and a resident of the city at least 15 days before the election. Elec C §321; Govt C §36502(a). When city council members are elected by district (see Govt C §34871), the candidate must also reside in the geographical area making up the district from which he or she is elected.

© The Regents of the University of California

§1.185 b. Charter Cities

City council candidate qualifications are established by charter under Cal Const art XI, §5, the "home rule" provision of the California Constitution. 82 Ops Cal Atty Gen 6, 8 (1999). However, qualifications set by charter are restricted by the "privileges and immunities" clause of the United States Constitution. *Johnson v Hamilton* (1975) 15 C3d 461, 472, 125 CR 129 (durational residency requirement in excess of 30-day prefiling residency violates equal protection).

© The Regents of the University of California

§1.186 2. At-Large or District Elections

A city charter may establish a structure for the election of council members-at-large without regard to where in the city they reside or by geographic district. General law cities elect council members-at-large unless they choose to create district elections, as permitted by Govt C §34871.

Section 34871 also permits a city council to submit to city voters an ordinance that provides for election of council members either "by" districts or "from" districts. A system for electing council members "by" districts requires that council members be elected by the vote of the residents of a geographic district within the city. Govt C §34871. The candidates must be residents of the district. Govt C §34882. A system for electing council members "from" districts provides that all voters of the city cast votes for candidates who reside in specific geographic districts. Govt C §34871. The number of districts must be five, seven, or nine, unless there is an elected mayor, in which case the number is four, six, or eight. Govt C §34871(a)-(d).

© The Regents of the University of California

§1.187 3. Oath of Office

Before commencing any term, a council member must take and subscribe to the oath of office specified in the Constitution. Govt C §1360; Cal Const art XX, §3.

© The Regents of the University of California

§1.188 4. Vacancies and Termination of Office

The entitlement of a public officer to hold office has frequently been contested in quo warranto proceedings. See CCP §§803-811.

PRACTICE TIP: The Attorney General often publishes opinions granting or refusing leave to bring quo warranto proceedings. See, *e.g.,* 79 Ops Cal Atty Gen 21 (1996). Consequently, there is an extensive body of law on the occurrence of vacancies. These authorities are directly applicable to general law cities and can be persuasive authority in charter cities as well. No effort is made to catalogue this body of law here; instead, a few key authorities are cited. A useful way to supplement the listed authorities is to begin with the annotations to Govt C §1770.

By contrast, relatively few statutes govern the filling of vacancies.

PRACTICE TIP: This discussion focuses on council vacancies, but most authorities cited are equally applicable to other appointed and elective positions, including those of city clerk and treasurer.

© The Regents of the University of California

§1.189 a. Vacancy Defined

The provisions of Govt C §1770 set out 12 separate circumstances in which a public office becomes vacant, include death, absence from jurisdiction, conviction of a felony, mental incapacity, resignation, failure to perform official duties, and electoral irregularities. See also Govt C §§36502(a), 36513. These rules may be supplemented by the general definitions of vacancy in *People ex rel Drew v Rodgers* (1897) 118 C 393, 50 P 668 ("A vacancy exists when there is no person lawfully authorized to assume and exercise at present the duties of the office," construing predecessor to Govt C §1770), and *Fields v Fong Eu* (1976) 18 C3d 322, 327, 134 CR 367 ("vacancy is simply a state of being empty, unoccupied, or unfilled, without regard to when or how the condition arose").

NOTE: A vacancy is not created when a council member is called to military service. Mil & V C §395.8. An interim council member may be appointed and the elected council member resumes his seat on return from duty, provided the term of office has not expired, the council member has not been dishonorably discharged, and the council member reports back to the city within 6 months from the discharge date.

© The Regents of the University of California

b. Common Bases for Finding of Vacancy

§1.190 (1) Resignation

An effective resignation creates a vacancy. Govt C §1770(c). To be effective, a resignation should be in writing and filed with the city clerk. Govt C §1750(e).

NOTE: A resignation that is not consistent with these rules may nonetheless be effective under the doctrine of abandonment of office (see §1.192).

A resignation takes effect by its terms and need not be accepted. *Meeker v Reed* (1924) 70 CA 119, 123, 232 P 760. Although a resignation can be withdrawn before it becomes effective, once effective, it may not be withdrawn. *American Fed'n of Teachers v Board of Educ.* (1980) 107 CA3d 829, 840, 166 CR 89. See also *Armistead v State Personnel Bd.* (1978) 22 C3d 198, 149 CR 1 (suggesting same rule).

© The Regents of the University of California

§1.191 (2) Non-residence

A city council member who moves his or her residence outside the city or district from which he or she was elected immediately vacates his or her office. Govt C §§36502(a) (city), 34882 (district). See Govt C §1770(e). See also 72 Ops Cal Atty Gen 63 (1989) (applying rules).

Legal residence is defined as physical presence combined with an intent to remain. *Fenton v Board of Dirs.* (1984) 156 CA3d 1107, 1113, 203 CR 388. A person has a legal residence at all times and retains a prior legal residence until a new residence is established. *Walters v Weed* (1988) 45 C3d 1, 7, 246 CR 5. A number of statutes provide aids to determining residency. See, *e.g.,* Elec C §§2021 (temporary departure or stay does not affect residence), 2031 (homeowner's property tax exemption and renter's credit can create rebuttable presumption of residence); Govt C §244 (rules regarding residency).

© The Regents of the University of California

§1.192 (3) Abandonment

An office may be vacated by acts or words of the officeholder indicating an intent to relinquish the office; this doctrine can be useful to give effect to a technically imperfect resignation (*Walter v Adams* (1952) 110 CA2d 484, 490, 243 P2d 21):

> In order to constitute an abandonment of office, the abandonment must be total, and under such circumstances as clearly to indicate an absolute relinquishment. Moreover, the officer should manifest a clear intent to abandon the office and its duties, although his intentions may be inferred from conduct. If the acts and statements clearly indicate absolute relinquishment, a vacancy is thereby created without the necessity of a judicial determination.

A statutory version of this rule appears in Govt C §36513, which provides 60 days' unexcused absence from council sessions (or 70 days if the council meets once a month) will vacate the office of the absent council member. See Govt C §1770 (other events causing vacancy). The Attorney General has opined failure to discharge the duties of a redevelopment agency member for 3 months in contravention of Govt C §1770(g) does not vacate the city council seat of the absent member. 67 Ops Cal Atty Gen 459 (1984).

© The Regents of the University of California

§1.193 (4) Incompatible Offices and Activities

The common law doctrine of incompatible offices prevents simultaneously holding two public offices if the performance of the duties of either office could adversely affect the other. 80 Ops Cal Atty Gen 74 (1997). The doctrine has been codified in Govt C §1099.

Incompatibility arises if the nature of the jobs' duties potentially places the two jobs in conflict, as when one is subordinate to the other. *People v County of Santa Clara* (1996) 49 CA4th 1471, 1481, 57 CR2d 322. Acceptance of a second office that is incompatible with an office currently held automatically vacates the first office. *People ex rel Chapman v Rapsey* (1940) 16 C2d 636, 644, 107 P2d 388. See also 73 Ops Cal Atty Gen 354 (1990). The statutory prohibition against incompatible activities for non-elected officers and employees can include an incompatible or conflicting employment or office. Govt C §§1126-1127. However, this section is not self-executing and must be implemented through adopted rules. See §§2.175-2.179.

© The Regents of the University of California

§1.194 (5) Accepting Free Transportation

Under Cal Const art XII, §7, "A transportation company may not grant free passes or discounts to anyone holding an office in this state; and the acceptance of a pass or discount by a public officer, other than a Public Utilities Commissioner, shall work a forfeiture of that office." This proscription applies to all forms of transportation. The Attorney General has provided limiting interpretations of this section. See 85 Ops Cal Atty Gen 40 (2002) (member of board of directors of public transit agency may accept passes for free transportation on agency's buses to perform member's duties of monitoring agency's transportation services); 80 Ops Cal Atty Gen 146 (1997) (constitutional provision does not prohibit accepting ticket earned with "frequent flier" miles); 76 Ops Cal Atty Gen 1 (1993) (Attorney General granted leave to sue mayor to test his right to hold office in view of his acceptance of airline ticket upgrade); 74 Ops Cal Atty Gen 26 (1991) (constitutional provision did not prohibit upgrade to honeymooning official when airline's policy was to upgrade all honeymooners); 67 Ops Cal Atty Gen 81 (1984) (constitutional provision did not prohibit free or discounted pass when it was offered to all members of greater class, *i.e.,* spouses of flight attendants).

© The Regents of the University of California

§1.195 (6) Recall

When a recall petition is filed and certified, and a majority of the voters approve the recall of an officer, the officer's term terminates on appointment of a successor or a special election, as determined by the recall election. See Elec C §11000-11007.

© The Regents of the University of California

§1.196 (7) Conviction

A criminal conviction, including the entry of a nolo contendre plea, may result in an immediate forfeiture of office. See Govt C §§1021, 1770(h), 1770.2; 82 Ops Cal Atty Gen 6 (1999).

© The Regents of the University of California

§1.197 c. Filling Vacancies

Within 30 days of its occurrence, the council must fill a council vacancy by either appointment or a special election; the successor serves until the expiration of the predecessor's term. Govt C §§34902(a), 36512 (same as to elected mayor).

A city may require by ordinance that (1) all vacancies be filled by special election; (2) a vacancy be filled by special election if requested by petition; or (3) officials appointed to fill vacancies may serve only until a special election is held. Govt C §36512(c).

© The Regents of the University of California

§1.198 (1) Limits on the Appointment Power

The general rule is a public agency may not appoint one of its own officers to a vacant position. 23 Ops Cal Atty Gen 75 (1954). See also 73 Ops Cal Atty Gen 357 (1990). This rule is applied to city councils by Govt C §1752, which also includes an exception to expressly authorize a council to fill a vacancy in the office of elected mayor by appointing one of its members.

In addition, a council vacancy may not be filled by appointment if the appointment would result in a majority of the council members having been appointed; in this circumstance, the office must be filled by election. Govt C §36512(d)(1).

© The Regents of the University of California

§1.199 (2) Result of Appointment

An officer appointed to fill a vacancy has all the rights and privileges of the prior officeholder. Govt C §1777.

© The Regents of the University of California

§1.200 5. Challenges to Right to Hold Office

If it appears a person holds a public office illegally, the attorney general, or any person acting by leave of the attorney general, may file an action in *quo warranto* to vacate the office. CCP §§803-811. Such an action is the exclusive remedy in cases when it is available. *Nicolopulos v City of Lawndale* (2001) 91 CA4th 1221, 1225, 111 CR2d 420.

© The Regents of the University of California

§1.201 6. De Facto Officers

A person who has held office without entitlement will likely be deemed a "de facto" officeholder and actions taken with his or her participation will be valid as to third persons. *In re Redevelopment Plan for Bunker Hill Urban Renewal Project 1B of Community Redev. Agency* (1964) 61 C2d 21, 41, 37 CR 74, cert denied sub nom *Babcock v Community Redev. Agency* (1964) 379 US 899, cert denied sub nom *Trautwein v Community Redev. Agency* (1964) 379 US 28; *Oakland Paving Co. v Donovan* (1912) 19 CA 488, 126 P 388. See also *Marine Forests Soc'y v California Coastal Comm'n* (2005) 36 C4th 1, 54, 30 CR3d 30.

© The Regents of the University of California

§1.202 C. Office of Mayor

The mayor of a general law city is usually selected by a vote of the members of the city council. Govt C §36801. However, on a vote of its citizens, a general law city may establish a system for direct election of the mayor by voters. Govt C §§34900-34906.

In a charter city, the charter may determine the procedures for selecting a mayor and such charter provisions override any conflict in general law. See *Rees v Layton* (1970) 6 CA3d 815, 820, 86 CR 268.

The provisions of Govt C §34904 describe the qualifications for an elected mayor.

© The Regents of the University of California

§1.203 1. Establishing/Eliminating the Office of Elected Mayor

The procedures for holding an election to create the position of elected mayor are described in Govt C §§34900-34906. There are provisions regarding the following:

- The form of the ballot measure, including a provision to determine whether the mayor is elected for 2 or 4 years (Govt C §34901);
- The procedures for designating a council seat as the mayor's seat and the filling of that seat by subsequent election (Govt C §34902);
- The issues posed by the mayor's and two other council seats expiring in the same year (Govt C §34906).

A vacancy in the office of elected mayor may be filled by appointment by the council or by election. Govt C §34902(a). A council member may be appointed to a vacancy in the mayor's office despite the general rule against self-appointment. See Govt C §1752(a)-(b); §1.198.

The council may ask the voters to eliminate the office of elected mayor. If the vote is affirmative, the office of elected mayor expires with the term of the incumbent. Govt C §34902(b).

© The Regents of the University of California

2. Features of the Office of Elected Mayor

§1.204 a. Authority

An elected mayor "is a member of the city council and has all the powers and duties of a member of the city council." Govt C §34903. An elected mayor has the same powers as an appointed mayor. See Govt C §§40601-40604.

© The Regents of the University of California

§1.205 b. Salary

An elected mayor may draw a salary in addition to the salary established for members of the council if approved by the electorate or by an ordinance adopted by the council under Govt C §36516.1. See also 89 Ops Cal Atty Gen 159 (2006).

© The Regents of the University of California

§1.206 c. Making Appointments

An elected mayor, "with the approval of the city council, must make all appointments to boards, commissions, and committees unless otherwise specifically provided by statute." Govt C §40605.

© The Regents of the University of California

§1.207 3. Mayor Pro Tempore

The mayor pro tempore is selected by the city council. Govt C §§34905, 36801.

© The Regents of the University of California

D. Compensation and Expenses

§1.208 1. Strict Construction

It is "the settled rule that compensation for official services depends entirely on the law; that statutes relating to such compensation are strictly construed in favor of the government; that a public officer may only collect and retain such compensation as is specifically provided by law, and that any money paid by a governmental agency without authority of law may be recovered from such officer." *County of San Diego v Milotz* (1956) 46 C2d 761, 767, 300 P2d 1. See also *Madden v Riley* (1942) 53 CA2d 814, 822, 128 P2d 602 (same rules apply to expense reimbursements).

An expense must meet four requirements to be reimbursable (65 Ops Cal Atty Gen 517, 521 (1982) (interpreting Govt C §36514.5)):

(1) It must be an expense of a member of the city council;

(2) It must be an "actual" expense;

(3) The expense must have been "incurred in the performance of official duties"; and

(4) It must be a "necessary expense."

Moreover, these statutes authorize but do not require reimbursement; the ultimate decision is made by the council itself. 65 Ops Cal Atty Gen at 523.

NOTE: In addition to the limitations on council compensation, expense reimbursement, and benefits provided by state and federal law, local legislation on these subjects helps reduce or eliminate payments to which an official would otherwise be entitled. 65 Ops Cal Atty Gen 517, 524 (1982). Provisions dealing with these topics may take a variety of forms and include a variety of reimbursable expenses.

© The Regents of the University of California

§1.209 a. Gifts of Public Funds

An unauthorized payment to a public officer can also be challenged as a gift of public funds. Cal Const art XVI, §6. See *Albright v City of S. San Francisco* (1975) 44 CA3d 866, 870, 118 CR 901. Compensation and reimbursement of expenses of local officers and employees is a matter of local concern as to which a city charter may expressly control. Cal Const art XI, §5(b)(4). See also 57 Ops Cal Atty Gen 11 (1974).

© The Regents of the University of California

§1.210 b. Ethics Training

If a city provides any type of compensation or payment of expenses to council members, then all of the council members are required to have 2 hours of specified ethics training. Govt C §§53234-53235. See §2.161.

PRACTICE TIP: For options on obtaining or conducting the training, see the Institute for Local Government website (www.ca-ilg.org).

© The Regents of the University of California

§1.211 2. Compensation

The salary of council members of general law cities is controlled by Govt C §36516(a), which permits a city council to establish by ordinance a salary up to a ceiling determined by the city's population. The electorate may approve a higher salary. Govt C §36516(b). A council member appointed or elected to fill a vacancy is compensated in the same amount as his or her predecessor. Govt C §36515.

A directly elected mayor may receive additional compensation with the consent of the electorate or by ordinance of the city council. Govt C §36516.1.

PRACTICE TIP: Although Govt C §36516 applies to general law cities, a redevelopment agency, housing authority, or community development commission is created by state statute. Thus, an argument can be made that those entities, as opposed to the charter city itself, may still be subject to compensation limits in state statutes.

© The Regents of the University of California

§1.212 a. Salary Adjustments

A salary established by council action may be increased, "but the amount of the increase may not exceed an amount equal to 5 percent for each calendar year from the operative date of the last adjustment of salary." Govt C §36516(c). The Attorney General has opined that the 5-percent increase is non-compounded (5 percent times the number of years since last salary adjustment). 89 Ops Cal Atty Gen 159 (2006).

Any salary increase may take effect only when at least one member of the council commences a new term. Govt C §36516.5. See 54 Ops Cal Atty Gen 112 (1971) (salary increase triggered by increase in census population takes effect following next municipal election). The salary of a council member may not be reduced during his or her term. Govt C §36516.5; 80 Ops Cal Atty Gen 119 (1997).

NOTE: The provisions of Govt C §36516.5 have no application to a charter city.

© The Regents of the University of California

§1.213 b. Compensation for Service on Other Commissions, Committees, Boards, or Authorities

Unless specifically authorized by another statute, a city council may not enact an ordinance providing for compensation to city council members, including compensation for service on a commission, committee, board, or authority, in excess of the limits in Govt C §36516. Govt C §36516(d). If the other statute does not specify the amount of compensation for service on a particular commission, committee, board, or authority, then the maximum compensation must be $150 per month. Govt C §36516(d). The Attorney General has opined that compensation received by a council member for service on commissions, committees, boards, or authorities may not be reduced during his or her term. 89 Ops Cal Atty Gen 159 (2006). See §1.212. In a city with a population less than 200,000 in which the city council designates itself as a redevelopment agency, council members may be compensated for agency service by up to $30 per meeting, up to four meetings per month. Health & S C §33114.5. For cities with a community development commission, the limits on compensation are somewhat different. Health & S C §34130.5.

NOTE: If all members of a city council serve on the board of another agency ex officio, no additional compensation is permitted absent express statutory authorization; if fewer than all council members serve, additional compensation may be permissible. Compare 44 Ops Cal Atty Gen 170 (1964) (before adoption of Health & S C §33114.5, city council could not receive additional compensation for service to redevelopment agency, notwithstanding Health & S C §33114) with 50 Ops Cal Atty Gen 87 (1967) (two of five county supervisors who serve on local agency formation commission may receive additional compensation for that service).

© The Regents of the University of California

§1.214 c. Compensation for Attendance Beyond Certain Meetings

If council members are to be compensated for attending occurrences/events beyond council meetings, meetings of an advisory body, conferences, or organized educational activities, the city council must adopt a compensation policy at a public meeting. Govt C §53232.1(b). An exception applies for those council members receiving a "salary," as defined by the statute. Govt C §53232.1(c).

© The Regents of the University of California

§1.215 3. Expenses

"City council [members] may be reimbursed for actual and necessary expenses incurred in the performance of official duties." Govt C §36514.5. See also Health & S C §33114 (similar authority as to expenses of redevelopment agency members). If a city reimburses council members for such expenses, the city council must adopt a policy at a public meeting on payment of expenses for council members. Govt C §53232.2(b). In addition, if a city provides any type of compensation or payment of expenses to council members, then all of the council members are required to have 2 hours of ethics training every 2 years. Govt C §§53234-53235.

PRACTICE TIP: For model expense policies, see the Institute for Local Government's website (www.ca-ilg.org).

NOTE: Some cities provide equipment to council members, such as fax machines, or provide a telephone calling card, rather than reimburse for these expenses.

© The Regents of the University of California

§1.216 a. Expenses for Meals for Third Parties

The Attorney General has opined that city council members cannot be reimbursed for purchasing meals for third parties, such as constituents, legislators, and private business owners. 85 Ops Cal Atty Gen 210 (2002).

© The Regents of the University of California

§1.217 b. Expenses of Council Spouses

The Attorney General has twice opined the expenses of spouses who accompany public officials in the conduct of their public duties cannot be reimbursed. 75 Ops Cal Atty Gen 20 (1992); 65 Ops Cal Atty Gen 517, 521 (1982). See also *Albright v City of S. San Francisco* (1975) 44 CA3d 866, 869, 118 CR 901 (unauthorized reimbursement is illegal gift).

© The Regents of the University of California

§1.218 c. Flat Expense Allowances

There has been some debate about whether a council may authorize a flat monthly expense allowance for which council members are not required to submit receipts. See Govt Code §1223 (auto allowances); *Citizen Advocates, Inc. v Board of Supervisors* (1983) 146 CA3d 171, 194 CR 61; *Albright v City of S. San Francisco* (1975) 44 CA3d 866, 870, 118 CR 901. However, Govt C §53232.3 requires a council member to submit, within a reasonable period of time as determined by the legislative body, an expense report form with receipts to document expenses incurred. All documents related to reimbursable agency expenditures are public records subject to disclosure under the California Public Records Act (Govt C §§6250-6270).

© The Regents of the University of California

§1.219 4. Benefits

A city may provide health and welfare benefits, such as medical, dental, and life insurance, to members of its city council. Govt C §§53200-53210. "Any amounts paid by a city for retirement, health and welfare, and federal social security benefits" are not subject to the salary limits in the Government Code "provided the same benefits are available and paid by the city for its employees." Govt C §36516(e). See 83 Ops Cal Atty Gen 124 (2000); 89 Ops Cal Atty Gen 107 (2006) (addressing cash in-lieu payments for waived benefits). However, for council members whose first service begins after January 1, 1995, such benefits may not exceed the most generous schedule of benefits being received by any category of non-safety employees. Govt C §53208.5.

NOTE: Although it is beyond the scope of this handbook, federal law provides complex rules governing tax-exempt benefits that limit the degree to which benefits may distinguish between council members and members of staff.

© The Regents of the University of California

§1.220 E. Limitations on the Right to Hold Office

The right to hold public office is not generally characterized as fundamental unless its infringement is coupled with a corresponding infringement on the right to vote. "However, the rights of voters and the rights of candidates do not lend themselves to neat separation; laws that affect candidates always have at least some theoretical correlative effect on voters." *Anderson v Celebrezze* (1983) 460 US 780, 786, 75 L Ed 2d 547, 103 S Ct 1564; *Bullock v Carter* (1972) 405 US 134, 143, 31 L Ed 2d 92, 92 S Ct 849 (struck down Ohio's early filing deadline for independent candidates); *Edelstein v City & County of San Francisco* (2002) 29 C4th 164, 175, 126 CR2d 727 (upheld ban on write-in voting in run-off election). Thus, when an elections law discriminates on the basis of some suspect classification or on the basis of wealth or poverty, it is invalid unless justified after it is " 'closely scrutinized' and found reasonably necessary to accomplish legitimate state objectives." 405 US at 144. See *Clements v Fashing* (1982) 457 US 957, 967, 73 L Ed 2d 508, 102 S Ct 2836 (no close scrutiny required and no discrimination found when state law requires certain officeholders to complete terms before running for certain other public offices); *Stiles v Blunt* (8th Cir 1990) 912 F2d 260 (minimum candidacy age requirement was rationally related to legitimate state interest and was not subject to strict scrutiny).

© The Regents of the University of California

§1.221 1. Analyzing Limitations on the Right to Hold Public Office

The California Supreme Court has determined term limitations do not impermissibly infringe on a candidate's right to hold public office or on an individual's right to vote for the candidate of his or her choice. *Legislature of the State v Eu* (1991) 54 C3d 492, 517, 286 CR 283, cert denied (1992) 503 US 919. The court said such limitations serve substantial governmental interests, *i.e.,* discouraging entrenched incumbencies and encouraging public participation in civic affairs. The court also noted the incidental burden placed on the right to hold office or the right to vote was outweighed by those substantial governmental interests.

In analyzing laws that place limitations on the right to hold public office, identify:

- the effect of the limitation on the right to hold office,
- the governmental interest supporting the limitation, and
- whether the law makes distinctions based on suspect classifications (color, gender, wealth).

If the law makes distinctions on the basis of suspect classifications, it will likely be invalidated. If it does not, then it will be upheld if the governmental interest asserted to support the law is substantially furthered by the law, the limitation does not unduly restrict the right to run for office, and preemption does not apply.

© The Regents of the University of California

§1.222 2. Term Limitations in Cities

Term limitations either may limit an elected official's successive terms in office or they may place an absolute limit on the number of terms in office that an elected official may serve. The reported California cases primarily deal with limitations on successive terms in office and pre-date the 1995 amendment to Govt C §36502. See, *e.g., Steinkamp v Teglia* (1989) 210 CA3d 402, 258 CR 265.

The California Supreme Court has upheld an absolute limitation on California legislative terms in office. *Legislature of the State v Eu* (1991) 54 C3d 492, 286 CR 283, cert denied (1992) 503 US 919. See *Bates v Jones* (9th Cir 1997) 131 F3d 843, cert denied (1998) 523 US 1021 (upholding absolute limitation on California legislative terms in office in light of federal Constitution). Further, in *Cawdrey v Redondo Beach* (1993) 15 CA4th 1212, 19 CR2d 179, the appellate court upheld the city charter provision placing an absolute limit on the number of terms a city council member could serve.

© The Regents of the University of California

F. Conduct of Council Members

§1.223 1. Rights and Roles of Council Members

A person elected to a city council plays two roles, *i.e.,* a member of a body elected to represent the city in its entirety or a specific district within the city, and a private resident of the city. The second role is not relinquished when the first role is assumed.

PRACTICE TIP 1: It is important to distinguish between the two roles at all times and to conduct business in one role separately from the other.

The elected council member retains the right to speak as an individual, not as a member of the city council, but must make it very clear when he or she speaks on his or her own behalf and not as a member of the city council. This is because when the council acts, it acts as a whole, not as a group of individuals. Likewise any approved use of city resources, such as city letterhead, is only appropriate if the individual is acting in the role as an elected city council member representing the city or district.

PRACTICE TIP 2: Pay special attention to the laws that prohibit the use of public resources for private purposes, such as campaign activity. See Institute for Local Government, Ethics Law Reference for Local Officials, Principle #2: No Personal Advantages and Perks (2007), available at www.ca-ilg.org.

© The Regents of the University of California

§1.224 2. Public Decorum

The city council may establish rules of order and decorum. Govt C §36813. The court upheld the city's rules of decorum for conduct at council meetings in *White v City of Norwalk* (9th Cir 1990) 900 F2d 1421.

The key to validity of such rules is that any prohibited words or conduct must disrupt, disturb, or otherwise impede the orderly conduct of the meeting. The rules must apply to the conduct and not to the content of the speech. See *Richard v City of Pasadena* (CD Cal 1995) 889 F Supp 384 (emphasizing need for awareness of First Amendment issues and clarity of rules). Further, such rules may not "prohibit public criticism of the policies, procedures, programs or services of the [city] or of the acts or omissions of the legislative body." Govt C §54954.3(c).

© The Regents of the University of California

§1.225 3. Enforcement of Decorum

The city council may designate a sergeant-at-arms of the council who carries out all orders given by the mayor for the purpose of maintaining order and decorum. The council may punish a member for disorderly behavior at a meeting. Govt C §36813. Any person in the audience who willfully engages in disorderly conduct, which disturbs the peace and good order of the meeting, may be removed. Govt C §54957.9. Additionally, any person who willfully disturbs or breaks up any assembly or meeting is guilty of a misdemeanor. Pen C §403. But see *In re Kay* (1970) 1 C3d 930, 942, 83 CR 686 ("activity itself—and not the content of the activity's expression"—must substantially impair effective conduct of meeting; thus, city cannot prohibit arm bands, flags, hand-held signs, buttons, or leafleting). Any person willfully disrupting the meeting, after warning by the presiding officer, may be asked to leave the meeting without violating the Ralph M. Brown Act's requirement for all city council meetings to be open and public. See Govt C §54957.9 (for sanctioned procedures). See also Institute for Local Government, Ethics Law Reference for Local Officials, Principle #3: Transparency (2007), available at www.ca-ilg.org. On open meeting laws, see §§2.36-2.118.

NOTE: Many cities have adopted rules of decorum in some formal manner. Such rules often include a list of those actions that constitute willfully disrupting a council meeting, including addressing the council without first being recognized; repetitiously addressing the same subject; failing to relinquish the podium when directed to do so; and unruly applause, whistles, yells, or raucous demonstrations. Some cities have adopted rules focused more on the behavior of council members toward one another as well as toward the public. These types of rules are more difficult to formalize as well as to enforce.

© The Regents of the University of California

§1.226 4. Censure

Censure is defined as the "formal resolution of a legislative, administrative, professional or other body reprimanding a person, normally one of its own members, for specified conduct." Black's Law Dictionary (1983). The person who is censured is entitled to due process, with notice and an opportunity to respond. *Little v City of North Miami* (11th Cir 1986) 805 F2d 962. See *Richard v City of Pasadena* (CD Cal 1995) 889 F Supp 384, 391 (censuring for conduct versus content of speech). In *Braun v City of Taft* (1984) 154 CA3d 332, 201 CR 654, the court set aside the council's censure of one of its members for release of documents because it determined that the documents released were not confidential. Without any discussion, the court seemed to assume that a city council had authority to censure a member. There was also no discussion of either the nature of the censure action or due process requirements. In *Scott v McDonnell Douglas Corp.* (1974) 37 CA3d 277, 112 CR 609, a city manager brought an action for damages for defamation because a majority of the city council had signed a letter criticizing him, and it was read and distributed at a city council meeting. The court held the letter was one of censure and reprimand and not actionable as defamation given legislative immunity.

PRACTICE TIP: Alternatives to "censure" that do not have disciplinary meaning include "criticize," "disapprove," or "condemn." An expression of council opinion is not disciplinary in nature; the council has free speech authority to express its opinion.

© The Regents of the University of California

§1.227 G. Exercise of Legislative Authority

A city council may exercise its authority through an ordinance, resolution, or minute order (motion). The appropriateness of a given procedure depends on whether there are state statutory provisions and on the effect the action is to have.

The procedure for types of action is usually established by the legislative body. However, such rules are procedural and not mandatory; if they are not followed, the action may still be valid. *City of Pasadena v Paine* (1954) 126 CA2d 93, 96, 271 P2d 577.

© The Regents of the University of California

§1.228 1. Distinction Between Ordinances and Resolutions

In the absence of statutory or charter provisions to the contrary, a legislative act may be either by resolution or ordinance. *Crowe v Boyle* (1920) 184 C 117, 149, 193 P 111. But see *Midway Orchards v County of Butte* (1990) 220 CA3d 765, 774, 269 CR 796 (county resolution not equivalent of ordinance). Thus, a resolution in effect encompasses all actions of the municipal body other than ordinances. McQuillin, *Municipal Corporations* §15.02 (3d ed 1988). The court in *Central Mfg. Dist., Inc. v Board of Supervisors* (1960) 176 CA2d 850, 860, 1 CR 733 noted the difference between a resolution and an ordinance by quoting 35 Cal Jur 2d, §392, p 200.

> An ordinance in its primary and usual sense means a local law. It prescribes a rule of conduct prospective in operation, applicable generally to persons and things subject to the jurisdiction of the city. "Resolution" denotes something less formal. It is the mere expression of the opinion of the legislative body concerning some administrative matter for the disposition of which it provides.

NOTE: When a statute requires a local agency to take legislative action by resolution and the agency is required by its charter to take legislative action by ordinance, the action by ordinance constitutes compliance with the statute. Govt C §50020. Conversely, when a statute requires action by ordinance, passage of a resolution will not suffice. *Pinewood Investors v City of Oxnard* (1982) 133 CA3d 1030, 1038, 184 CR 417 (adoption of sewer fees).

© The Regents of the University of California

§1.229 2. Ordinances

An ordinance generally prescribes some permanent rule of conduct or government that remains in force until the ordinance is repealed. An ordinance may be penal or non-penal in nature. An ordinance is the only mechanism by which a city can impose a fine and/or jail sentence as a penalty for violations. See Govt C §§36900-36901.

© The Regents of the University of California

§1.230 a. Authority

A city may "make and enforce within its limits all local, police, sanitary, and other ordinances and regulations not in conflict with general laws." Cal Const art XI, §7. A "legislative body may pass ordinances not in conflict with the Constitution and the laws of the State or the United States." Govt C §37100.

© The Regents of the University of California

§1.231 b. Effect

Ordinances involve a command or prohibition and have the force of law in the city for which an ordinance is adopted. *Monterey Club v Superior Court of Los Angeles* (1941) 48 CA2d 131, 147, 119 P2d 349. An ordinance passed by a municipal corporation within the scope of its authority has the same force within its corporate limits as a statute passed by the legislature has throughout the state. *Marculescu v City Planning Comm'n of City & County of San Francisco* (1935) 7 CA2d 371, 373, 46 P2d 308.

© The Regents of the University of California

§1.232 c. Validity

To be valid, an ordinance must be consistent with the general powers and purposes of the municipality. It also must harmonize with the general laws of the state (unless the city is a charter city and the ordinance involves a municipal affair), the charter, and common law principles. *Ferran v City of Palo Alto* (1942) 50 CA2d 374, 378, 122 P2d 965.

An ordinance must be drawn in definite and certain terms so that enforcement is not accomplished without clear guidelines. *In re Hubbard* (1964) 62 C2d 119, 122, 41 CR 393, overruled in part on other grounds by *Bishop v City of San Jose* (1969) 1 C3d 56, 81 CR 465.

© The Regents of the University of California

§1.233 d. Permissible Subjects

A city may enact an ordinance in an area that is within the city's police power authority and that does not conflict with the constitution or the laws of the state or federal governments. Accordingly, a city may adopt an ordinance in areas that affect the health, safety, and welfare of its citizens. *S.D. Myers, Inc. v City & County of San Francisco* (9th Cir 2003) 336 F3d 1174, cert denied (2004) 541 US 936.

NOTE: The city's police power can be applied only within its own territory and is subject to preemption by general state law, but otherwise is as broad as the police power exercisable by the state legislature. *Birkenfeld v City of Berkeley* (1976) 17 C3d 129, 140, 130 CR 465. See §§1.15-1.18.

© The Regents of the University of California

§1.234 e. Severability Clauses

Severability clauses protect portions of ordinances that may later be invalidated by a court because of unconstitutionality or other reasons. When a severability clause is included in an ordinance, the valid portion of the ordinance will be upheld if the remaining portion is severable. *City & County of San Francisco v Cooper* (1975) 13 C3d 898, 930, 120 CR 707; *Curtis v Board of Supervisors of Los Angeles County* (1972) 7 C3d 942, 964, 104 CR 297; *EWAP, Inc. v City of Los Angeles* (1979) 97 CA3d 179, 188, 158 CR 579.

Three criteria exist for severability (*Calfarm Ins. Co. v Deukmejian* (1989) 48 C3d 805, 821, 258 CR 161):

- **Grammatical Separability**: Can the invalid provision be removed without affecting the meaning of any other provision?
- **Functional Separability**: Do the remaining provisions retain their utility?
- **Volitional Separability**: Would the legislative body have adopted the ordinance had it foreseen the invalidity of the provision?

© The Regents of the University of California

f. Ordinance Procedure

§1.235 (1) Drafting Ordinances

The city attorney has the responsibility of framing all ordinances. Govt C §41802. The enacting clause of ordinances must be as follows: "The city council of the City of _____ does ordain as follows:" Govt C §36931.

Ordinances are not required to have a title. *People v Norton* (1930) 108 CA Supp 767, 775, 288 P 33; *Trebilcox v City of Sacramento* (1928) 91 CA 257, 264, 266 P 1015; *Ex Parte Snowden* (1910) 12 CA 521, 526, 107 P 724. However, for ease of reference, and to allow for waiver of reading of the entire ordinance for adoption (see §1.236), ordinances should be given a title.

All ordinances must be signed by the mayor and attested by the city clerk. Govt C §36932.

© The Regents of the University of California

§1.236 (2) Adopting Ordinances

With the exception of urgency ordinances, no ordinance may be passed within 5 days of its introduction. Govt C §36934. Two readings are thus required: one to introduce and a second to adopt the ordinance.

Ordinances may only be passed at a regular meeting or at an adjourned regular meeting; except for urgency ordinances, ordinances may not be passed at a special meeting. All ordinances must be read in full either at the time of introduction or at the time of passage, unless a regular motion waiving further reading is adopted by a majority of all council persons present. Govt C §36934.

If an ordinance other than an urgency ordinance is altered after introduction, it may be passed only at a regular or an adjourned regular meeting held at least 5 days after its alteration. However, ordinances in which corrections are made because of typographical or clerical errors are not required to be reintroduced. Govt C §36934.

NOTE: An ordinance passed by a city in violation of Govt C §36934 is invalid or ineffective, regardless of the subject matter. *National Indep. Bus. Alliance v City of Beverly Hills* (1982) 128 CA3d 13, 22, 180 CR 59; *City of Colton v City of Rialto* (1964) 230 CA2d 174, 180, 40 CR 766.

All ordinances require a recorded majority vote of the total membership of the city council. Govt C §36936.

© The Regents of the University of California

g. Effective Date

§1.237 (1) Generally on 31st Day After Adoption

Ordinances take effect on the 31st day after adoption. Govt C §36937.

© The Regents of the University of California

§1.238 (2) Certain Ordinances Take Effect Immediately

The following ordinances take effect immediately (Govt C §65858):

- Ordinances relating to an election;
- Urgency ordinances for the immediate preservation of the public peace, health, or safety;

NOTE: Urgency ordinances must contain an urgency clause stating valid, constitutional, and persuasive facts to justify such a determination and must be passed by a four-fifths vote of the city council. *Parr v Municipal Court* (1971) 3 C3d 861, 868, 92 CR 153, cert denied sub nom *City of Carmel-By-The-Sea v Parr* (1971) 404 US 869 (urgency clause had discriminatory language; operative language was invalidated). However, courts normally will not investigate the truth of facts declared by a city council. *Crown Motors v City of Redding* (1991) 232 CA3d 173, 179, 283 CR 356. If the court finds that the facts do not support an urgency determination, the ordinance would not be an urgency ordinance and would not take effect until 30 days after passage (*i.e.*, second reading). Thus, when an urgency clause was invalidated and there was no second reading, an ordinance was found to be void. *County of Los Angeles v City Council of the City of Lawndale* (1962) 202 CA2d 20, 26, 20 CR 363.

PRACTICE TIP: Adopt an identical "back-up" ordinance by way of the usual procedure (two readings) if there is any doubt regarding the defensibility of the urgency clause. If the urgency clause is successfully challenged, the non-urgency version of the ordinance will have already taken effect. Only actions taken or citations issued during the 30-day "gap" period are then vulnerable to challenge.

- Ordinances on street improvement proceedings;
- Ordinances on taxes for the usual and current expenses of the city;
- Ordinances covered by other provisions of law that prescribe the manner of its passage and adoption; and
- Interim ordinances. (When passed by four-fifths vote, interim ordinances may prohibit any uses that may conflict with contemplated zoning proposal that is being or will be considered or studied soon; such ordinances must be periodically extended but not for more than 2 years.)

All ordinances that take effect immediately should include findings that support the determination the ordinances take effect immediately. See Govt C §36937. Except for urgency ordinances (including interim land use ordinances; see Govt C §65858), ordinances that take effect immediately on adoption still require a 5-day period between introduction and passage. Govt C §36934.

© The Regents of the University of California

§1.239 h. Publication of Ordinance

The city clerk must cause publication of each ordinance within 15 days after passage as follows (Govt C §36933):

- In a newspaper of general circulation published and circulated in the city, or if there is none:
- Posted in at least three public places in the city; or
- Published in a newspaper of general circulation printed and published in the county and circulated in the city.

This requirement may be satisfied by publishing a summary of the proposed ordinance and posting a certified copy of the proposed ordinance in the city clerk's office at least 5 days before the city council meeting at which the ordinance is to be adopted. Within 15 days after adoption of the ordinance, a summary of the ordinance must be published with the names of the council members voting for and against the ordinance. Govt C §36933(c). If a fair and adequate summary is not feasible, the city council may order publication of an advertisement of at least one-quarter page at least 5 days before the city council meeting at which the proposed ordinance is to be adopted, and within 15 days after adoption. The advertisement must indicate the general nature of, and provide information about, the proposed or adopted ordinance. Publication after the ordinance is adopted must include the names of the council members voting for and against the ordinance. Govt C §36933(c).

Failure to publish or post an ordinance, or its summary in substantially the manner and at the time required by Govt C §36933, prevents the ordinance from taking effect or being valid (unless the ordinance becomes effective immediately on adoption as provided in the Government Code).

PRACTICE TIP: Anyone may file with the city clerk, or other person designated by the city council, a request for notice of a specific proposed ordinance or proposed amendments to ordinances. The city must transmit notice to any such person at least 5 days before the council will take action on the proposed ordinance or place the person on a general mailing list for city council agendas. Govt C §36933(d).

© The Regents of the University of California

§1.240 i. Adoption by Reference

The procedures for adopting a code (*i.e.*, ordinances, codes, or parts thereof of another governmental entity) by reference include the following (Govt C §§50022.1-50022.10):

- **First Reading.** After first reading of the title of the adopting ordinance, which includes the title of the code to be incorporated, the city council sets a public hearing.
- **Notice.** Notice of the hearing must be published under Govt C §6066.
- **Action.** After the hearing, the legislative body may amend, adopt, or reject the adopting ordinance, as it does with other ordinances. Govt C §50022.4.
- **Title.** The ordinance's title must include the title of all ordinances being adopted by reference. Govt C §50022.2.
- **Amendments.** The body may adopt any amendments to the code previously adopted by reference in the same manner (by reference), or the body may adopt the amendments in the standard manner, by setting out the entire text of such amendment. Govt C §50022.7.
- **Penalty Clauses.** Penalty clauses must be set out in full. Govt C §50022.4.

NOTE: An exception to the procedures for adoption by reference exists if adoption of the code is expressly required or permitted as a condition of compliance with a state statute. Govt C §50022.2. For example, the Uniform Building, Plumbing, Mechanical, Housing and Electrical codes are required to be adopted by reference by Health & S C §17922 and amendments may be made to the Uniform Codes to reflect local climatic, geological, and topographical conditions. Health & S C §§17958.5, 17958.7. See *Building Indus. Ass'n v City of Livermore* (1996) 45 CA4th 719, 52 CR2d 902 (findings to support amendments must be supported by substantial evidence; court upheld amendments to the Uniform Building Code).

© The Regents of the University of California

§1.241 j. Penalty for Violation of Ordinance

Violation of a city ordinance is a misdemeanor, unless by ordinance it is made an infraction, which may be prosecuted by city authorities in the name of the People of the State of California, or redressed by civil action. Govt C §36900. A city may, by ordinance, authorize the city attorney, at his or her discretion, to charge and prosecute any ordinance violation as either a misdemeanor or an infraction.

The penalties for misdemeanor violations are established in Pen C §19 and penalties for infractions are established in Govt C §36900. See §§12.28-12.65.

As an alternative remedy, a city may make any violation of an ordinance subject to an administrative fine or penalty. Govt C §53069.4. See §§12.25, 12.77-12.80.

© The Regents of the University of California

§1.242 k. Amendment or Repeal of Ordinance

A city's power to legislate, by implication, includes the power to amend or repeal existing legislation. *Blotter v Farrell* (1954) 42 C2d 804, 811, 270 P2d 481. The city council has the power to amend or modify an ordinance and such legislative authority may not be delegated. *Whitmire v City of Eureka* (1972) 29 CA3d 28, 34, 105 CR 185. If an amendment is unconstitutional, then the ordinance stands in its original form. *Sapiro v Frisbie* (1928) 93 CA 299, 312, 270 P 280.

NOTE: Ordinances adopted by initiative may only be amended or repealed by a vote of the people unless the initiative grants the city council that authority. Elec C §9217.

An ordinance may be expressly or impliedly repealed by enacting a subsequent ordinance. See *Blotter v Farrell, supra*. A subsequent ordinance that conflicts with an earlier ordinance so the two cannot stand together is controlling and the earlier ordinance is repealed by implication. *Iscoff v Police Comm'n of City & County of San Francisco* (1963) 222 CA2d 395, 409, 35 CR 189. However, repeals by implication are disfavored and will not be found if it is possible to harmonize the laws by construction. See *Roberts v City of Palmdale* (1993) 5 C4th 363, 379, 20 CR2d 330.

© The Regents of the University of California

§1.243 3. Resolutions

Unlike ordinances, resolutions do not have the force of law within the jurisdiction but are merely expressions of opinion or evidence of a decision made by the body and often relate to the administrative business of the municipality. *Sausalito v County of Marin* (1970) 12 CA3d 550, 565, 90 CR 843.

An ordinance may only be adopted by the legislative body (*i.e.,* city council), but the city council may delegate to subordinate commissions or boards of the city the authority to make certain decisions, which implies delegation of the authority to adopt resolutions to such subordinate bodies. For example, the city council may establish a planning commission by ordinance and that commission may then make decisions on zoning applications (see Govt C §§65100-65101) and adopt a resolution reflecting the action taken.

A resolution may be amended by another resolution or by ordinance.

© The Regents of the University of California

§1.244 a. Resolutions as Ordinances

If a resolution is passed with all the formalities of an ordinance it thereby becomes a legislative act; it is not important whether it is called a resolution or an ordinance. *Associated Home Builders of Greater East Bay, Inc. v Walnut Creek* (1971) 4 C3d 633, 648, 94 CR 630. But see *City of Sausalito v County of Marin* (1970) 12 CA3d 550, 565, 90 CR 843 (when resolution did not meet all requirements of ordinance, resolution was invalid).

© The Regents of the University of California

§1.245 b. Permissible Subjects for Resolutions

Some subjects are specifically authorized by statute as being appropriately addressed by resolution. See, *e.g.,* Veh C §22507 (preferential parking). Payment of money by a city may be done by resolution or order, which must be adopted or made only at a regular meeting or at a special meeting for which the notice specifies the business to be transacted. Govt C §36935. Such resolution or order for payment of money requires a recorded majority vote of the total membership of the city council. Govt C §36936. The rates of taxes to be levied or the amount of revenue required to be raised by taxation must be fixed either by ordinance or resolution. Govt C §36936.1. If such tax rate or amount of revenue is fixed by resolution, the resolution must be published in the same manner and within the same time as ordinances are required to be published. See §1.239.

In addition to these statutory authorized subjects, any decision within the city's police power may be evidenced by resolution unless there is a statutory or other requirement providing otherwise. See *Pollok v San Diego* (1897) 118 C 593, 595, 50 P 769; McQuillin, Municipal Corporations §15.06 (3d rev ed 1988).

© The Regents of the University of California

§1.246 c. Procedure for Adopting Resolutions

The procedures for adopting resolutions are not as strict as the procedures for adopting ordinances. See §§1.235-1.238. For example, resolutions do not require two readings for passage, need not be read in full or even by title, are effective immediately unless otherwise specified, do not need to be in any particular format unless expressly required, and, with the exception of fixing tax rates or revenue amounts, do not require publication. However, like ordinances, all resolutions require a recorded majority vote of the total membership of the city council. Govt C §36936.

The legislative body may establish rules on the procedure to be followed in adopting resolutions, but when such rules are not complied with, that failure is not jurisdictional and does not invalidate an action that is otherwise valid. *City of Pasadena v Paine* (1954) 126 CA2d 93, 96, 271 P2d 577 (resolution valid when read by title only, although rules required full reading).

© The Regents of the University of California

§1.247 d. Effective Date

Resolutions generally become effective immediately on adoption by the city council. However, any resolution that constitutes a legislative act subject to referendum (such as a general plan amendment) does not become effective for 30 days. *Midway Orchards v County of Butte* (1990) 220 CA3d 765, 781, 269 CR 796.

© The Regents of the University of California

§1.248 4. Minute Order or Motion

The minute order or motion is appropriate when

- the action is not of a penal nature or intended to be a local law;
- an ordinance or resolution is not specifically required; or
- a formal document reflecting the body's action is unnecessary.

The only record of such action is in the form of minutes taken of the meeting at which the action is taken.

© The Regents of the University of California

§1.249 H. Appointed Commissions and Boards

A city council has broad authority to appoint boards and commissions as part of the sub-government of the city, unless otherwise limited by city charter or, for general law cities, state law. See Govt C §65100 (planning commission). The powers, duties, and method of appointment should be established by the city council. The authorizing act, whether a resolution or ordinance, should also clearly define the extent of the board or commission's authority and whether the city council's review of board or commission action is de novo or based solely on the record developed by the board or commission.

PRACTICE TIP: Although not legally required, unless specified in the authorizing act, bylaws for the advisory body are often very helpful.

© The Regents of the University of California

§1.250 1. Methods of Selection

A city may adopt reasonable methods of selecting members of its boards and commissions. In cities with elective mayors, however, the mayor, with the approval of the city council, makes all appointments to boards, commissions, and committees unless otherwise specifically provided by statute. Govt C §40605.

Appointments must be discussed and made in open session. See Govt C §54957. See also *Gillespie v San Francisco Pub. Library Comm'n* (1998) 67 CA4th 1165, 79 CR2d 649 (Ralph M. Brown Act establishes that only candidate's actual appointment and corresponding roll call, and not candidate's nomination, need be reported in open session on day of action). On requirements for annual preparation of local appointment list and posting notices of unscheduled vacancies on boards, commissions, or committees, see Govt C §§54970-54975.

© The Regents of the University of California

§1.251 2. Qualifications

A city can adopt criteria for membership on its boards and commissions, but should ensure that the criteria do not discriminate based on sex, race, creed, color, or national or ethnic origins. See Cal Const art I, §8.

A city cannot have unreasonably long residency requirements for membership on city boards and commissions. *Bay Area Women's Coalition v San Francisco* (1978) 78 CA3d 961, 144 CR 591.

© The Regents of the University of California

§1.252 3. Removal

Appointed officers hold office at the pleasure of the city council. Govt C §36506. See *Lumpkin v Brown* (9th Cir 1997) 109 F3d 1498, cert denied (1997) 522 US 995 (removal of human rights commissioner because of his statements condemning homosexuality did not violate his freedom of expression or establishment clause). But see *Hyland v Wonder* (9th Cir 1992) 972 F2d 1129, cert denied (1993) 508 US 908.

PRACTICE TIP: Before removing a commissioner, the local agency should consider whether the commissioner has a liberty interest that might require a name clearing hearing, or First Amendment rights that might be implicated.

© The Regents of the University of California

§1.253 4. Compensation

The city council must fix the compensation of all appointive officers and employees by resolution or ordinance. Govt C §36506.

© The Regents of the University of California

§1.254 5. Delegation of Authority

A city may delegate specific administrative acts to specific administrative officers or boards. The power delegated must be in fact administrative and not legislative (*e.g.,* power to grant a conditional use permit as opposed to a change in zone classification) and the standards that guide the administrative official must be sufficiently definite and certain to ensure the action taken will not be left to the uncontrolled discretion of that official or board. See *County of Riverside v Superior Court (Riverside Sheriff's Ass'n)* (2003) 30 C4th 278, 132 CR2d 713; *Bagley v City of Manhattan Beach* (1976) 18 C3d 22, 132 CR 668; *Kugler v Yocum* (1968) 69 C2d 371, 375, 71 CR 687.

© The Regents of the University of California

I. Officials: Powers and Duties

§1.255 1. City Manager

Under the city manager form of government (Govt C §§34851-34859), the city manager has the power to

- administer the day-to-day affairs of the city,
- hire and fire city employees (except the city attorney), and
- perform such other functions as the council chooses to authorize by ordinance.

The city council can vest the appointment power for the city clerk and city treasurer in the city manager by ordinance. Govt C §34856. The city manager holds office at the pleasure of the city council. Govt C §36506.

© The Regents of the University of California

§1.256 2. City Attorney

The city council may appoint a city attorney. Govt C §36505. The city attorney's duties include framing ordinances and regulations and providing other legal advice, and may include prosecuting misdemeanors with the consent of the district attorney. See Govt C §§41801-41805. "[C]ontrolling law vests wide latitude in city councils to define and control the duties of their city attorneys. This result is consistent with the general principle that an attorney's duties are ordinarily defined and controlled by his client." *Montgomery v Superior Court* (1975) 46 CA3d 657, 670, 121 CR 44.

© The Regents of the University of California

§1.257 3. City Clerk

If the office of city clerk is appointed, the city council makes the appointment unless that power is vested in the city manager. Govt C §34856. If the office is elective, the city clerk must be a resident of the city and registered to vote there. Govt C §36502. The position of elected city clerk may be made appointive on approval of the voters at a regular or special election. See Govt C §§36508-36510.

On duties of city clerk, see Govt C §§40801-40814.

© The Regents of the University of California

§1.258 4. City Treasurer

If the office of city treasurer is appointed, the city council makes the appointment unless it vests this power in the city manager. Govt C §34856. If the office is elective, the city treasurer must be a resident of the city and registered to vote there. Govt C §36502. The position of city treasurer may be made appointive on approval of the voters at a regular or special election. See Govt C §§36508-36510. The compensation of a city treasurer in a general law city may be set by initiative. 84 Ops Cal Atty Gen 13 (2001).

On the duties of city treasurers, see Govt C §§41001-41007, 53630-53683.

© The Regents of the University of California

§1.259 5. Police Chief

"The police department of a city is under the control of the chief of police." Govt C §38630. However, this section may not apply to charter cities, depending on the provisions of the charter. *Berkeley Police Ass'n v City of Berkeley* (1977) 76 CA3d 931, 143 CR 255.

Depending on the structure of the city government, the city council may appoint the chief of police (Govt C §36505), or this power may be vested in the city manager (Govt C §34856). No police chief may be removed by a public agency, or appointing authority, without written notice and an opportunity for an administrative appeal. Govt C §3304.

On the duties of the chief of police, see Govt C §§41601-41612.

© The Regents of the University of California

§1.260 6. Fire Chief

"The fire department is to be under the charge of a chief who shall have had previous training and experience as a fireman [firefighter]." Govt C §38611. Based on the structure of the city government, either the city council or city manager has the power to appoint and dismiss the fire chief. Govt C §§34856, 36505, 38611.

§2.1 I. INTRODUCTION

This chapter deals generally with meetings of public bodies and procedural and ethical aspects related to those meetings. In particular, the chapter details the requirements and procedures related to the conduct of public meetings (see §§2.2-2.35); covers open meeting laws and their impact on meetings, the types of meetings public bodies may conduct, agenda and posting requirements, and Ralph M. Brown Act (Govt C §§54950-54963) considerations (see §2.36-2.118); outlines ethical obligations and mandatory training, regulations of the Political Reform Act of 1974 (PRA) (Govt C §§81000-91014), conflicts of interest, and disqualification and disclosure requirements (see §§2.119-2.217); and, finally, explores the requirements of the California Public Records Act (Public Records Act) (Govt C §§6250-6276.48), particularly examining records covered, disclosure requirements, exemptions, and related permissible record retention and destruction policies (see §§2.218-2.269).

On topics covered by this chapter, including meetings and related procedures, the California Public Records Act and related concerns, and the Political Reform Act of 1974, see generally Advising California Nonprofit Corporations (3d ed Cal CEB 2009); California Administrative Hearing Practice (2d ed Cal CEB 1997); California Administrative Mandamus (3d ed Cal CEB 2003); California Civil Writ Practice (4th ed Cal CEB 2008); and California Government Tort Liability Practice (4th ed Cal CEB 1999).

II. CONDUCT OF CITY COUNCIL MEETINGS

§2.2 A. Quorum and Voting Requirements

A majority of the city council constitutes a quorum for transaction of business. Govt C §36810. Resolutions, orders for the payment of money, and all ordinances require a recorded majority vote of the total membership of the city council. Govt C §36936. Some actions, such as the passage of an urgency ordinance or adoption of a resolution of necessity, require a super-majority vote. Govt C §§36937, 65858; CCP §1245.240. Absent the provisions discussed above, a specific charter provision, or some other local law, rule, or regulation dictating otherwise, a majority of the quorum may act on behalf of the city. Under the Political Reform Act of 1974, a member with a financial conflict of interest regarding a matter before the member's board must leave the room while that matter is being discussed, heard, or acted on, so that member should not be counted towards the quorum for that matter. Govt C §87105; 2 Cal Code Regs §18702.5.

PRACTICE TIP: Also consider local procedural rules adopted under Govt C §36813, which may require a majority vote of the total membership of the city council for actions or a super-majority for certain actions.

© The Regents of the University of California

B. Rules of Procedure and Decorum

§2.3 1. Role of City Attorney

The city attorney's role is typically to render advice about the rules of procedure and decorum at city council meetings.

PRACTICE TIP: The city attorney may want to recommend that each city council member read the Ralph M. Brown Act (Brown Act) (Govt C §§54950-54963). See Govt C §54952.7 ("A legislative body of a local agency may require a copy of [the Brown Act] be given to each member of the legislative body"). See also Govt C §§53234-53235.2, requiring all local elected officials and legislative body members who receive reimbursements and designated employees to receive training in open government and ethics laws every 2 years.

© The Regents of the University of California

§2.4 2. City Council's Authority to Promulgate Rules of Procedure and Decorum

City meeting procedures are not prescribed by state law, with the exception of requirements contained in the Ralph M. Brown Act (Brown Act) (Govt C §§54950-54963). A council may establish rules for the conduct of its proceedings. Govt C §36813. These rules may be enacted by ordinance or by resolution. See *Central Mfg. Dist., Inc. v Board of Supervisors* (1960) 176 CA2d 850, 1 CR 733. The rules must preserve constitutional rights and be reasonable and not arbitrary and capricious. See *Nevens v City of Chino* (1965) 233 CA2d 775, 44 CR 50; *Pasadena v Paine* (1954) 126 CA2d 93, 271 P2d 577.

PRACTICE TIP: Many cities have resolutions or ordinances establishing procedural rules for the conduct of meetings. Some of these procedural rules preclude council members from abstaining in the absence of a legitimate conflict of interest. Although there is some authority for the proposition council members should not abstain without that degree of justification, it is doubtful a council member can be compelled to vote.

© The Regents of the University of California

3. Procedures for Regular Meetings

§2.5 a. Ralph M. Brown Act Requirements

The Ralph M. Brown Act (Brown Act) (Govt C §§54950-54963) creates certain minimum procedural requirements for conducting meetings.

NOTE: Application of the Brown Act is not limited to city council meetings. See Govt C §54952. The Brown Act also applies to a variety of committees and advisory boards determined to be "legislative bodies" under the Act. Govt C §54952. Entities covered by the Brown Act include bodies created by a city council or over which a city council retains authority. See, *e.g., Epstein v Hollywood Entertainment Dist. II Bus. Improvement Dist.* (2001) 87 CA4th 862, 104 CR2d 857 (nonprofit corporation formed to administer business improvement district funds subject to the Brown Act). For further discussion, see §2.36.

© The Regents of the University of California

§2.6 b. Order of Business

The order of business generally is divided into three parts: the opening, the business, and the closing.

- **Opening the Meeting.** At the opening, the presiding chair calls the meeting to order. The national anthem, pledge of allegiance, or other cultural ceremonies may follow. The United States Supreme Court has held a non-denominational invocation or, alternatively, a silent meditation of short duration, before the commencement of a regular city council meeting does not violate the establishment clause of the First Amendment. See *Marsh v Chambers* (1983) 463 US 783, 77 L Ed 2d 1019, 103 S Ct 3330; *Marsa v Wernik* (NJ 1981) 430 A2d 888. Allowing sectarian prayer before a city council meeting, however, has been held to be unconstitutional. *Rubin v City of Burbank* (2002) 101 CA4th 1194, 124 CR2d 867, cert denied (2003) 538 US 1034.
- **Business.** The archetypal "business" involves approval of the minutes of the last meeting, proclamations, council member reports, committee reports, staff reports, public hearings, audience communications, specially scheduled business, unfinished business, and new business.
- **Closing.** Meetings close by a motion to adjourn or by order of the chair. A regular city council meeting continues until it is terminated by an order of final adjournment or by operation of the law. See *Ex Parte Mirande* (1887) 73 C 365, 14 P 888.

The city clerk is directed to keep minutes of city council proceedings. Govt C §36814.

© The Regents of the University of California

§2.7 4. Mayor as Presiding Officer

The mayor is the presiding officer at all city council meetings. Govt C §36802. If the mayor is absent or unable to act, the mayor pro tempore serves until the mayor returns or is able to act. Govt C §36802. The mayor pro tempore has all of the powers and duties of the mayor. Govt C §36802.

© The Regents of the University of California

§2.8 a. Powers of Presiding Officer

The powers of the presiding officer are prescribed by state law or by city charters and ordinances, and local rules passed under state law. The presiding officer may refer to rules of parliamentary procedure, such as Robert's Rules of Order, for guidance and supplementation of city council's procedural rules.

The mayor may participate in decision making and make or second any motion and present and discuss any matter as a member of the council. Govt C §36803.

© The Regents of the University of California

§2.9 b. Duties of Presiding Officer

The presiding officer has a duty to adhere to and enforce the procedural law or rules applicable to the city council, keep order, and follow the course of the proceedings. McQuillin, Municipal Corporations §13.21 (3d rev ed 1988). In addition, the mayor or other officer in control of the police force in the city must direct a sufficient number of police officers to attend and keep order at any public meeting in the city at which, in his or her opinion, a breach of the peace may occur. Govt C §38638. In the event a meeting is willfully interrupted by a group of persons so as to render the orderly conduct of such meeting unfeasible, and orderly conduct cannot be restored by the removal of the disruptive individuals, the members of the legislative body conducting the meeting may order the meeting cleared and then continue in session with members of the press remaining unless they participated in the disturbance. Govt C §54957.9. Willfully disturbing a public meeting may result in criminal penalties if the disruptive behavior is not constitutionally protected, substantially impairs the conduct of the meeting, and constitutes a violation of the body's rules or customs. Pen C §403; *In re Kay* (1970) 1 C3d 930, 83 CR 686; *McMahon v Albany Unified Sch. Dist.* (2002) 104 CA4th 1275, 1285, 129 CR2d 184, cert denied (2003) 540 US 824.

© The Regents of the University of California

5. Parliamentary Rules of Procedure

§2.10 a. Purpose and Function of Rules

The purpose of parliamentary rules of procedure is to expedite the transaction of city business in an orderly fashion. See *City of Pasadena v Paine* (1954) 126 CA2d 93, 271 P2d 577. Parliamentary law refers to the rules, laws, or regulations of organizations, governing the orderly, expeditious, and efficient transaction of business at meetings. See Demeter, Demeter's Manual of Parliamentary Law and Procedure 5 (1969) (purpose of parliamentary law is "to transact the assembly's business legally and to control the conduct of its members").

© The Regents of the University of California

§2.11 b. Source of Rules

A city council may adopt and change its own procedural rules. See *Nevens v City of Chino* (1965) 233 CA2d 775, 44 CR 50. However, the procedural rules cannot violate the federal or state constitutions, mandatory charter, or statutory provisions. The city council may also abolish, suspend, modify, or waive its own procedural rules. *City of Pasadena v Paine* (1954) 126 CA2d 93, 271 P2d 577. Many city councils use the latest edition of Robert's Rules of Order as a non-binding guide to the conduct of meetings. Nevertheless, because Robert's Rules of Order does not directly apply to city council meetings, Robert's Rules of Order cannot be strictly followed and should not be formally adopted by the council except as a guide to conduct.

© The Regents of the University of California

§2.12 c. Object of Rules

Motions, orders, and resolutions in a city council meeting are generally subject to the rules of parliamentary law. Most motions are debatable and amendable and may be reconsidered.

© The Regents of the University of California

§2.13 d. Effect of Failure to Follow Rules

Parliamentary rules are procedural only. A city council's failure to follow parliamentary rules will not invalidate an action so long as the requisite number of city council members have agreed to the particular measure. *City of Pasadena v Paine* (1954) 126 CA2d 93, 271 P2d 577.

© The Regents of the University of California

§2.14 e. Judicial Review of Parliamentary Procedures

A city council's action will be presumed to be in conformity with its own rules or parliamentary usage as to procedure. McQuillin, Municipal Corporations §13.42.10 (3d rev ed 1988). Nevertheless, courts are not required to recognize all of the parliamentary rules used by a city council. McQuillin, Municipal Corporations §13.42.10.

PRACTICE TIP: The city attorney may act as the parliamentarian to the city council. The city attorney should check with the mayor to ascertain whether the city attorney is expected to perform this duty, become familiar with the applicable procedures, and consider suggesting the adoption or modification of rules if necessary.

© The Regents of the University of California

§2.15 6. Rules of Decorum and Their Enforcement

The city council may establish rules of order and decorum. Govt C §36813; *Socialist Party v Uhl* (1909) 155 C 776, 103 P 181. These rules govern the following parties:

- Council members should preserve order and decorum while the council is in session. The council may punish a member for disorderly behavior at a meeting. Govt C §36813. However, California law provides little guidance on such punishment and admonitions from the chair and other council members usually suffice.
- City staff should observe the same rules of order and decorum as the city council members.
- Members of the audience are bound by the rules. Any person in the audience who engages in disorderly conduct, which disturbs the peace and good order of the meeting may be punished under the rules of conduct established by the city council and may be removed. Govt C §§36813, 54957.9. However, such rules may not "prohibit public criticism of the policies, procedures, programs or services of the [city] or of the acts or omissions of the legislative body." Govt C §54954.3(c). Additionally, any person who willfully disturbs or breaks up any assembly or meeting is guilty of a misdemeanor. Pen C §403.

PRACTICE TIP: The city attorney should be prepared to advise the council on the balance between the council's right to keep order and individuals' rights to petition their government and exercise freedom of speech.

The city council may designate a sergeant at arms of the council. The sergeant at arms carries out all orders given by the mayor for the purpose of maintaining order and decorum.

© The Regents of the University of California

7. Procedures That Regulate Public Speech

§2.16 a. Right to Testify

The public has a right to address the city council at any meeting on any subject that is within the council's subject matter jurisdiction. Govt C §54954.3(a). Public comment can address issues that a legislative body is permitted to consider in closed session under the Ralph M. Brown Act (Brown Act) (Govt C §§54950-54963), such as personnel matters. See *Leventhal v Vista Unified Sch. Dist.* (SD Cal 1997) 973 F Supp 951, 959. The right to express one's views in a public place is fundamental to a free society; however, it is not absolute and is subject to valid regulation. A legislative body may limit public comment to matters that serve the purpose for which the council holds meetings. 78 Ops Cal Atty Gen 224, 226 (1995). This aim is not achieved if public comment addresses items outside of the jurisdiction of the council. 78 Ops Cal Atty Gen 224, 226 (1995).

NOTE: Courts balance the right of the public to address the council with the need to ensure that public comment does not unduly disrupt the orderly conduct of the meeting. The public has the right to testify on all matters within the jurisdiction of the council, but the council may limit speech that is irrelevant to the issue at hand. *White v City of Norwalk* (9th Cir 1990) 900 F2d 1421, 1425.

© The Regents of the University of California

b. Permissible Forms of Regulation

§2.17 (1) Reasonable Time, Place, and Manner Regulations

A city council meeting is a "limited public forum." 78 Ops Cal Atty Gen 224 (1995); *Kindt v Santa Monica Rent Control Bd.* (9th Cir 1995) 67 F3d 266; *White v City of Norwalk* (9th Cir 1990) 900 F2d 1421, 1425; *Leventhal v Vista Unified Sch. Dist.* (SD Cal 1997) 973 F Supp 951. See discussion in §§9.118-9.153.

Nevertheless, it is clear that city councils have authority to limit speech through the imposition of agendas and rules of order and decorum, many of which are plainly contrary to ordinary First Amendment principles. However, the regulations on public comment must be reasonable and not so broad as to constitute "prior restraints." *White v City of Norwalk,* 900 F2d at 1425. For instance, a city council may prohibit a member of the public from speaking on a matter not within the council's subject matter jurisdiction. 78 Ops Cal Atty Gen 224 (1995).

© The Regents of the University of California

§2.18 (2) Request to Speak Limitations

A city council may require members of the public wishing to address the city council to fill out a speaker's card and submit it to the city clerk. *White v City of Norwalk* (9th Cir 1990) 900 F2d 1421, 1425.

© The Regents of the University of California

§2.19 (3) Time Limitations

A city council may regulate the total amount of time on particular issues and for each individual speaker, subject to the requirements of due process in quasi-judicial hearings. Govt C §54954.3(b). See also 75 Ops Cal Atty Gen 89 (1992) (upholding time limit); *Manufactured Home Communities, Inc. v County of San Luis Obispo* (2008) 167 CA4th 705, 84 CR3d 367 (due process requirements). Many cities place a time limit on comments by the public, unless it is otherwise prohibited by law, to ensure all members of the public have an opportunity to speak and the council is able to complete its business. Time limits of 1 to 5 minutes are not unusual. In order to effectively enforce a time limit, the city clerk should monitor the time for each speaker; the mayor should be responsible for enforcing the time limit.

© The Regents of the University of California

§2.20 (4) Repetitious or Irrelevant Comment Limitations

Irrespective of any time limits, the city council may regulate a speaker who is speaking too long, being unduly repetitious, or extending discussion of irrelevancies. A moderator is vested with a great deal of discretion to determine at which point speech becomes unduly repetitious or irrelevant. Attacks against the character or motives of any person may be ruled out of order. See *White v City of Norwalk* (9th Cir 1990) 900 F2d 1421, 1425.

© The Regents of the University of California

§2.21 (5) Requirement to Set Spokesperson for Groups

Some cities take the position that the right to limit testimony on a given subject implies the right to request that a spokesperson be chosen for a group and/or limit the number of such persons addressing the council whenever a group of persons wishes to address the council on the same subject matter. Other cities shorten time limits to accommodate more speakers. Govt C §54954.3.

© The Regents of the University of California

§2.22 (6) Out of Order Enforcement

A city council may rule speakers out of order for cause. A speaker may not be ruled out of order due to the substance of the comments (unless irrelevant to the subject at hand). See *White v City of Norwalk* (9th Cir 1990) 900 F2d 1421, 1425.

© The Regents of the University of California

c. Content-Oriented Regulation

§2.23 (1) No Limitation on Political Speech

A city council may not prohibit public criticism of the policies, procedures, programs, or services of an agency or its acts or omissions. Govt C §54954.3. When a citizen is given the right to speak at a city council meeting, his or her speech is considered political speech. See *Perry Educ. Ass'n v Perry Local Educators' Ass'n* (1983) 460 US 37, 60, 74 L Ed 2d 794, 103 S Ct 948. As such, a speaker may not be stopped from speaking because the moderator disagrees with the viewpoint he or she is expressing. *Perry Educ. Ass'n v Perry Local Educators' Ass'n, supra.*

© The Regents of the University of California

§2.24 (2) May Limit Disruptive Speech

"Fighting words" are usually intended as a personal insult to the person addressed, which by their very utterance tend to incite an immediate breach of the peace. *Madison Joint Sch. Dist. v Wisconsin Employment Relations Comm'n* (1976) 429 US 167, 175 n8, 50 L Ed 2d 376, 97 S Ct 421. "Fighting words" are not protected by the First Amendment. *Virginia v Black* (2003) 538 US 343, 359, 155 L Ed 2d 535, 123 S Ct 1536. Offensive language does not necessarily constitute "fighting words." *Cohen v State* (1971) 403 US 15, 29 L Ed 2d 284, 91 S Ct 1780 ("Fuck the Draft").

To limit such speech, it must be "disruptive." By the very nature of a city council meeting, a speaker can become "disruptive" in ways that would not meet the test of actual breach of the peace (*Gooding v Wilson* (1972) 405 US 518, 526, 31 L Ed 2d 408, 92 S Ct 1103) or of "fighting words" likely to provoke immediate combat (see *Chaplinsky v State of New Hampshire* (1942) 315 US 568, 572, 86 L Ed 1031, 62 S Ct 766). Any ordinance regulating speech at council meetings must be narrowly drafted or narrowly construed, so that speech is regulated only when it disturbs or impedes the meeting. *White v City of Norwalk* (9th Cir 1990) 900 F2d 1421, 1425.

© The Regents of the University of California

§2.25 (3) Intra-Council Speech May Not Be Limited

A city council member who addresses the council or engages in debate with it is exercising a right of "pure speech" under the First Amendment. See *Kucinich v Forbes* (ND Ohio 1977) 432 F Supp 1101. A council member may not be suspended for the content of his her speech in the absence of a showing his statements create a clear and present danger to society. *Kucinich v Forbes, supra.* See also *Bond v Floyd* (1966) 385 US 116, 17 L Ed 2d 235, 87 S Ct 339 (refusal of state legislature to seat member because of statements about controversial issue violated his First Amendment rights); *Ammond v McGahn* (D NJ 1975) 390 F Supp 655, rev'd on other grounds (3d Cir 1976) 532 F2d 325. The Ralph M. Brown Act (Brown Act) (Govt C §§54950-54963) provides protection for a council member who engages in public criticism of policies, procedures, programs, services of the agency, or acts or omissions of the council. Govt C §54954.3.

© The Regents of the University of California

8. Rules Regulating Public Conduct

§2.26 a. Right to Make Rules

The city council may make reasonable rules to control the manner in which the public participates at its meetings. The council has the absolute right to adopt and enforce rules and regulations necessary to protect its ability to conduct meetings. *Nevens v City of Chino* (1965) 233 CA2d 775, 44 CR 50.

© The Regents of the University of California

§2.27 b. Exclusion for Disorderly Conduct

The city council may exclude or expel all persons from a meeting in which a disturbance has been created that will not allow the meeting to continue unimpeded. Govt C §54957.9. See also *White v City of Norwalk* (9th Cir 1990) 900 F2d 1421, 1425 (certain expression and conduct in connection with city council meetings may be prohibited under "breach of the peace" or "disorderly conduct" ordinances, provided such ordinances are narrowly drafted or narrowly construed). In the event that the meeting is willfully interrupted by groups of persons so as to render the orderly conduct of such meeting unfeasible and order cannot be restored, the members may order the meeting room cleared and continue in closed session. Govt C §54957.9.

On disorderly conduct, see Counseling California Corporations (3d ed Cal CEB 2008).

© The Regents of the University of California

§2.28 c. Exception for Journalists

In a disruptive situation, journalists who are not involved in the disturbance must be permitted to attend the continued session. Govt C §54957.9.

© The Regents of the University of California

§2.29 d. Readmission

The city council may establish a procedure for readmitting an individual or individuals not responsible for willfully disturbing the orderly conduct of the meeting. Govt C §54957.9.

© The Regents of the University of California

§2.30 e. Punishment

The city council "may punish a member or other person for disorderly behavior at a meeting." Govt C §36813.

© The Regents of the University of California

§2.31 C. Due Process Requirements

City council action on matters that implicate constitutionally protected property and liberty interests may invoke quasi-judicial fair hearing requirements. Under the Fourteenth Amendment to the United States Constitution, people with an interest at stake in the decision must be accorded due process before a decision is rendered. This typically takes the form of a properly noticed and fairly conducted hearing. Ordinarily, these due process requirements do not apply to purely legislative actions.

For further discussion between the distinction between legislative actions and adjudicatory actions, see California Administrative Mandamus (3d ed Cal CEB 2003).

© The Regents of the University of California

§2.32 1. Legislative Actions

Matters deemed legislative in character, such as adoption of broad policies, general plans, or ordinances of general application, do not require quasi-judicial procedures and are presumed valid. *Associated Home Builders, Inc. v City of Livermore* (1976) 18 C3d 582, 607, 135 CR 41; *Terminal Plaza Corp. v City & County of San Francisco* (1986) 177 CA3d 892, 223 CR 379. Every conceivable finding in support of their validity is presumed to have been relied on in taking the action. Specific findings are not strictly necessary, although in cases potentially infringing on constitutional rights (such as ordinances prohibiting adult bookstores) legislative fact findings are advisable. Unless specified by law, legislative acts need not be preceded by a public hearing. However, the Ralph M. Brown Act (Brown Act) (Govt C §§54950-54963) requires that the public be permitted to comment on every agenda item before action on the item. Govt C §54954.3(a). Examples of legislative acts include adoption of ordinances, purchases of property, and awarding of contracts.

© The Regents of the University of California

§2.33 2. Quasi-Judicial Actions

Quasi-judicial or "administrative" actions are subject to the due process requirements of the Fourteenth Amendment to the United States Constitution, which provides that a governmental regulation may not deprive a person of life, liberty, or property without due process of law. The procedure employed must be fair and accord those with an interest in the matter a meaningful opportunity to prepare and be heard. Formal rules of evidence are not required. Public hearings are not required unless specified by state law or local ordinance.

The decision-maker must be fair and impartial. *Golden Day Schs. v Department of Educ.* (2000) 83 CA4th 695, 99 CR2d 917 (head of agency making decision may not sit on review board); *Clark v City of Hermosa Beach* (1996) 48 CA4th 1152, 56 CR2d 223, cert denied (1997) 520 US 1167 (explaining basic requisites of due process in context of council's quasi-judicial action on zoning appeal). Due process requires both actual fairness and the appearance of fairness. *Nightlife Partners, Ltd. v City of Beverly Hills* (2003) 108 CA4th 81, 133 CR2d 234 (due process violation when lawyer, advocate for defendant city, later acted as advisor to the judge of administrative appeal). Comments made by an agency member before hearing may constitute evidence of an unacceptable probability of actual bias such that the member could not act as a "reasonably impartial, non-involved reviewer." *Nasha v City of Los Angeles* (2004) 125 CA4th 470, 22 CR3d 772. However, "in the absence of financial or other personal interest, and when rules mandating an agency's internal separation of functions and prohibiting ex parte communications are observed, the presumption of impartiality can be overcome only by specific evidence demonstrating actual bias or a particular combination of circumstances creating an unacceptable risk of bias." *Morongo Band of Mission Indians v State Water Resources Control Bd.* (2009) 45 C4th 731, 741, 88 CR3d 610.

Examples of quasi-judicial actions include issuance of discretionary land use permits, business licenses, civil service grievance hearings, rent control hearings on applications for rent increases or decreases, and other similar actions in which a property interest is at stake and the body is charged with applying legal standards to a specific factual situation. For further discussion, see California Administrative Hearing Practice (2d ed Cal CEB 1997); California Administrative Mandamus (3d ed Cal CEB 2003); California Civil Writ Practice (4th ed Cal CEB 2008); California Land Use Practice (Cal CEB 2006); and California Subdivision Map Act and the Development Process (2d ed Cal CEB 2001).

© The Regents of the University of California

§2.34 3. Requirement for Public Hearings

Some actions must be preceded by a public hearing; they may be legislative (such as a general plan, amendment or zone change) or quasi-judicial (such as a conditional use permit or subdivision map). A public hearing must be properly and timely noticed, though it is difficult to overturn an action on the basis of a notice defect. Govt C §65945.7. If considerations of due process apply, a meaningful opportunity to prepare and be heard before an impartial decision-maker must be accorded. Decision-makers must avoid distractions and pay attention during public hearings.

PRACTICE TIP: If a decision is to be rendered at a separate meeting from the meeting during which the public hearing took place, a council member who was absent during the public hearing should not participate in the decision unless the member has listened to or watched a tape of the public hearing.

© The Regents of the University of California

§2.35 D. Time and Location of Meetings

The Ralph M. Brown Act (Brown Act) (Govt C §§54950-54963) requires the legislative body to provide the time and the place of its regular meetings. Furthermore, the legislative body must meet within the boundaries of the local jurisdiction, subject to certain exceptions in Govt C §54954. See §§2.36-2.118.

© The Regents of the University of California

III. OPEN MEETING LAWS

§2.36 A. Open and Public Local Government Meetings Required

"The people have the right of access to information concerning the conduct of the people's business, and, therefore, the meetings of public bodies and the writings of public officials and agencies shall be open to public scrutiny." Cal Const art I, §3(b)(1). Statutes, court rules, and other authorities (including those currently in effect) must be broadly construed if they further the people's right of access, and narrowly construed if they limit the right of access. Cal Const art I, §3(b)(2). The Ralph M. Brown Act (Brown Act) (Govt C §§54950-54963) requires meetings of "legislative bodies" of local public agencies be open and public. Govt C §54953(a).

NOTE: The California Constitutional right to access information was not intended to change any exemptions that existed before its adoption. 87 Ops Cal Atty Gen 181 (2004) (copy of private check obtained by Fair Political Practices Commission through issuance of administrative subpoena during the investigation of complaint was exempt from disclosure under California Public Records Act (Govt C §§6250-6276.48)). See also 88 Ops Cal Atty Gen 16 (2005) (personnel exception set out in Govt C §54957 predates California Constitution's right of access and thus remains in full force and effect); *Sutter's Place Inc. v Superior Court (City of San Jose)* (2008) 161 CA4th 1370, 75 CR3d 9 (deliberative process privilege not eliminated by amendment to California Constitution).

© The Regents of the University of California

B. Entities and Persons Covered

§2.37 1. Legislative Bodies

Legislative bodies must conduct open meetings. The term "legislative body" under the Ralph M. Brown Act (Brown Act) (Govt C §§54950-54963) means:

- Decision-making bodies of both chartered and general law cities. Govt C §§54951.
- The agency's governing body and any permanent or temporary advisory or decision-making commission, committee, board, or other body created by charter, ordinance, resolution, or formal action of the legislative body. Govt C §54952(a)-(b).
- Standing committees that have either:
- continuing subject matter jurisdiction; or
- a meeting schedule fixed by charter, ordinance, resolution, or other formal action of the legislative body. Govt C §54952(b).
- The governing body of a private corporation, limited liability company, or other entity if either of the following characteristics is found:
- The private entity is created by the elected legislative body to exercise lawfully delegated authority; or
- The private entity receives funds from the local agency and the private entity's governing body includes a member of the legislative body who was appointed by the legislative body. Govt C §54952(c). See also *McKee v Los Angeles Interagency Metro. Police Apprehension Crime Task Force* (2005) 134 CA4th 354, 362, 36 CR3d 47 (board of directors and executive council of entity organized under a memorandum of understanding by a county police chiefs association is legislative body of local agency under either Govt C §54952(a) or (c)); *Epstein v Hollywood Entertainment Dist. II Bus. Improvement Dist.* (2001) 87 CA4th 862, 104 CR2d 857; *International Longshoremen's & Warehousemen's Union v Los Angeles Export Terminal, Inc.* (1999) 69 CA4th 287, 81 CR2d 456 (expansive reading of what constitutes private corporation subject to the Brown Act).
- Hospital lessees subject to post-1993 leases under Health & S C §32121(p), which exercise any material delegated authority.

© The Regents of the University of California

§2.38 2. The Statutory Less-Than-a-Quorum Exception

The term "legislative body" specifically excludes less-than-a-quorum advisory committees composed solely of members of the legislative body, provided they are not standing committees that have continuing subject matter jurisdiction or a meeting schedule fixed by charter, ordinance, resolution, or formal action of a legislative body. Govt C §54952(b). See also *Taxpayers for Livable Communities v City of Malibu* (2005) 126 CA4th 1123, 24 CR3d 493.

NOTE: The statutory less-than-a-quorum exception codifies a version of the "unitary body" rule by limiting the exception to committees "composed solely" of members of one legislative body. *Joiner v City of Sebastopol* (1981) 125 CA3d 799, 178 CR 299.

In order not to qualify as a standing committee, the ad hoc committee should have a defined task and be of limited duration. If the committee membership includes persons other than members of a legislative body, or a quorum of any legislative body, then it is a legislative body. Govt C §54952(b). See also *Frazer v Dixon Unified Sch. Dist.* (1993) 18 CA4th 781, 791, 22 CR2d 641.

© The Regents of the University of California

§2.39 3. Elected Officials Who Have Not Yet Assumed Office

"Member of a legislative body of a local agency" includes elected officials who have not yet assumed office. Govt C §54952.1. An official-elect must "conform his or her conduct" to the Ralph M. Brown Act (Brown Act) (Govt C §§54950-54963). Govt C §54952.1. Officials-elect are subject to criminal prosecution for Brown Act violations. Govt C §54960.

NOTE: Government Code §54952.1 was intended to prevent newly elected but not yet installed members of an elected body, who constitute a majority of the body among themselves or in concert with incumbent members, from meeting privately and discussing city business before their installation.

Government Code §54952.1 should not be read to imply that the body increases in size during this in-between period, that the quorum changes, or that not-yet-installed members have any official role in the city government until they are properly installed into office.

© The Regents of the University of California

§2.40 C. What Constitutes a Covered Meeting

A "meeting" means any congregation of a majority of the members of a legislative body at the same time and location to hear, discuss, or deliberate on any item that is within the subject matter jurisdiction of the legislative body or the local agency to which it pertains. Govt C §54952.2(a). A majority of the members of the legislative body must not, outside an open and noticed meeting, use a series of communications of any kind, directly or through intermediaries, to discuss, deliberate, or take any action on any item of business that is within the subject matter jurisdiction of the legislative body. Govt C §54952.2(b)(1). However, the prohibition does not prevent an employee or official of a local agency from engaging in separate conversations or communications, outside of an open and noticed meeting, with members of a legislative body in order to answer questions or provide information about a matter, provided that person does not communicate to members of the legislative body the comments or position of any other member or members of the legislative body. Govt C §54952.2(b)(2) (legislatively superseding footnote 6 to *Wolfe v City of Fremont* (2006) 144 CA4th 533, 50 CR3d 524, which states that the Ralph M. Brown Act (Govt C §§54950-54963) is violated only if the series of meetings by members of the legislative body actually results in a collective concurrence).

PRACTICE TIP: The provisions of Govt C §54952.2 defining "meetings" are inclusive, rather than exclusive, so there is a possibility other forms of meetings may be implied by the courts.

© The Regents of the University of California

1. Statutory Exemptions

§2.41 a. "Individual Contacts" (Lobbying)

Individual contacts or conversations between a member of a legislative body and any other person are permitted, despite open meeting requirements. Govt C §54952.2(c)(1). However, this section does not permit an individual contact to serve as a communications intermediary to develop collective concurrence among a majority on action to be taken by the legislative body. Govt C §54952.2(b)(1). See also *Wolfe v City of Fremont* (2006) 144 CA4th 533, 50 CR3d 524 (legislatively overruled by statute only as to footnote 6).

PRACTICE TIP: The due process-based restrictions on ex parte contacts during consideration of quasi-judicial matters exist independently of the Ralph M. Brown Act (Brown Act) (Govt C §§54950-54963) and may restrict individual contacts on such matters. See *Clark v City of Hermosa Beach* (1996) 48 CA4th 1152, 56 CR2d 223, cert denied (1997) 520 US 1167; *Safeway Stores, Inc. v City of Burlingame* (1959) 170 CA2d 637, 648, 339 P2d 933.

© The Regents of the University of California

§2.42 b. Conferences and Seminars

Attendance of a majority of the members of a legislative body at a conference or similar gathering is not a meeting subject to the Ralph M. Brown Act (Govt C §§54950-54963) provided that the gathering (Govt C §54952.2(c)(2)):

- is open to the public;
- involves a discussion of issues of general interest to the public or to public agencies of the type represented by the legislative body; and
- a majority of the members do not discuss among themselves, other than as part of the scheduled program, business of a specific nature that is within the subject matter jurisdiction of the local agency.

The requirement that a participant or registrant pay a fee to attend the conference or seminar does not defeat the exemption, and nothing in the exemption should be construed to allow members of the public free admission. Govt C §54952.2(c)(2).

© The Regents of the University of California

§2.43 c. Open Community Meetings to Address Local Concerns

Some meetings are excluded from open meeting laws. The attendance of a majority of the members of a legislative body at an open and publicized meeting organized to address a topic of local community concern by a person or organization other than the local agency, may be excluded. The exclusion applies provided a majority of the members do not discuss among themselves, other than as part of the scheduled program, business of a specific nature that is within the subject matter jurisdiction of the legislative body of the local agency. Govt C §54952.2(c)(3).

PRACTICE TIP: Members of a legislative body in attendance at an open community meeting should exercise caution to avoid collectively voicing the views of a quorum on matters within the city's jurisdiction.

© The Regents of the University of California

§2.44 d. Other Bodies of the Agency and Other Agencies

The attendance of a majority of the members of a legislative body at an open and noticed meeting of any other elected or appointed body of the local agency, or of another local agency, may be excluded from open meeting laws. The exclusion applies provided a majority of members do not discuss among themselves business of a specific nature that is within the subject matter jurisdiction of the legislative body, other than as part of the scheduled meeting. See Govt C §54952.2(c)(4).

© The Regents of the University of California

§2.45 e. Social and Ceremonial Gatherings

The attendance of a majority of the members at a purely social or ceremonial occasion may be excluded from open meeting laws. The exclusion applies so long as a majority of the members do not discuss among themselves business of a specific nature that is within the subject matter jurisdiction of the legislative body of the local agency. See Govt C §54952.2(c)(5).

© The Regents of the University of California

§2.46 f. Meeting of Standing Committees

The attendance of a majority of the members of a legislative body at an open and noticed meeting of a standing committee of that body may be excluded from open meeting laws. The exclusion applies provided that the members of the legislative body who are not members of the standing committee attend only as observers. Govt C §54952.2(c)(6) (legislatively overruling the Attorney General opinion at 79 Ops Cal Atty Gen 69 (1996)). See also Govt C §54952.2(b). The phrase "only as observers" means the attending members may be physically present at the meeting but may not participate in the proceedings or sit in their usual places on the dais. 81 Ops Cal Atty Gen 156 (1998).

© The Regents of the University of California

2. Types of Lawful Meetings

§2.47 a. Regular Meetings

Each legislative body except advisory committees and standing committees must take formal action to establish a time and place for holding regular meetings. Meetings of advisory committees or standing committees for which an agenda is posted 72 hours in advance of the meeting are considered to be regular meetings for all purposes under the Ralph M. Brown Act (Govt C §§54950-54963), even if the committee does not have a regular meeting schedule. Govt C §54954(a).

© The Regents of the University of California

§2.48 b. Special Meetings

A special meeting may be called by the presiding officer of the legislative body (usually the mayor or mayor pro tem) or by a majority of the members of the legislative body. Govt C §54956.

© The Regents of the University of California

§2.49 c. Emergency Meetings

Emergency meetings may be called in "emergency situations." An emergency situation exists when a majority of the members of the legislative body determines a "work stoppage, crippling activity or other activity" or a "crippling disaster, mass destruction, terrorist act, or threatened terrorist activity" has occurred that severely impairs or threatens to impair the public health or safety. Govt C §54956.5.

© The Regents of the University of California

§2.50 d. Adjourned Meetings

Any regular or special meeting, or any adjourned regular or special meeting, may be adjourned to a time and place specified in the order of adjournment. Govt C §54955.

© The Regents of the University of California

§2.51 e. Continued Hearings

Any hearing may be continued to any subsequent meeting. The time and place when the hearing will resume must be announced at the time of the continuance. Govt C §§54955-54955.1.

© The Regents of the University of California

§2.52 f. Teleconferenced Meetings

Teleconferencing, through either audio or video means of electronic transmission, or both, may be used to conduct a meeting of a legislative body. Govt C §54953(b). At least a quorum of the members of the legislative body must participate from locations within the local agency's jurisdictional boundaries. Govt C §54953(b)(3). Teleconferenced meetings must comply with all of the following requirements (Govt C §54953(b)-(c)):

- The meeting must comply in all other respects with the Ralph M. Brown Act (Brown Act) (Govt C §§54950-54963) and is in all respects the same as a meeting where the members are all physically present;
- All votes taken during a teleconferenced meeting must be by roll call and no action may be taken by secret ballot (whether preliminary or final);
- Agendas must be posted at all teleconference locations, and the notice and agenda of the meeting must identify each teleconference location;
- Each teleconference location must be accessible to the public and the public must have the same rights to address the body as if physically present;
- Teleconferenced meetings must be conducted "in a manner that protects the statutory and constitutional rights of the parties or the public appearing before the legislative body" (Govt C §54953(b)(3)); and
- A quorum of the body must participate from a location within the territorial boundaries of the jurisdiction.

PRACTICE TIP: The Brown Act does not address whether persons other than members of the legislative body may participate in a meeting via teleconference.

© The Regents of the University of California

§2.53 g. Extraterritorial Meetings

Regular and special meetings may be held outside a local agency's jurisdictional boundaries only to:

- Comply with state or federal law or court order, or attend a judicial or administrative proceeding to which the local agency is a party. Govt C §54954(b)(1).
- Inspect real or personal property that cannot be conveniently brought within the boundaries of the territory over which the local agency exercises jurisdiction, provided that the topic of the meeting is limited to items directly related to that real or personal property. Govt C §54954(b)(2).
- Participate in meetings or discussions of multiagency significance that are outside the boundaries of a local agency's jurisdiction. However, any meeting or discussion held pursuant to this subdivision must take place within the jurisdiction of one of the participating local agencies and be noticed by all participating agencies as provided for in this chapter. Govt C §54954(b)(3).
- Meet in the closest meeting facility, if the local agency has no meeting facility within the boundaries of the territory over which the local agency exercises jurisdiction, or at the principal office of the local agency if that office is located outside the territory over which the agency exercises jurisdiction. Govt C §54954(b)(4).
- Meet with elected or appointed officials of the United States or the State of California when a local meeting would be impractical, solely to discuss a legislative or regulatory issue affecting the local agency and over which the federal or state officials have jurisdiction. Govt C §54954(b)(5).
- Meet outside their immediate jurisdiction if the meeting takes place in or nearby a facility owned by the agency, provided that the topic of the meeting is limited to items directly related to the facility. Govt C §54954(b)(6).
- Visit the office of the local agency's legal counsel for a closed session on pending litigation held pursuant to Govt C §54956.9, when to do so would reduce legal fees or costs. Govt C §54954(b)(7).

PRACTICE TIP: "Team building" city council retreats outside the city's jurisdiction are not permitted. See *Sacramento Newspaper Guild v Sacramento County Bd. of Supervisors* (1968) 263 CA2d 41, 69 CR 480.

© The Regents of the University of California

§2.54 3. Prohibited Meetings

Except during an open, noticed, and public meeting, the Ralph M. Brown Act specifically prohibits use of a series of communications, of any kind, directly or through intermediaries, to discuss, deliberate, or take action on any item of business that is within the subject matter jurisdiction of the legislative body. Govt C §54952.2(b)(1); *Stockton Newspapers, Inc. v Redevelopment Agency* (1985) 171 CA3d 95, 214 CR 561. See also 65 Ops Cal Atty Gen 63 (1982); 63 Ops Cal Atty Gen 820 (1980). Substantive staff briefings are permitted to answer questions and provide information so long as staff does not attempt to develop a collective concurrence among the legislative body, or share comments among a majority of the legislative body. Govt C §54952.2(b). See also 65 Ops Cal Atty Gen 63, 66 (1982) (private citizen lobbying elected officials is not barred by seriatim meeting rule).

PRACTICE TIP: Substantive staff briefings are permissible if conducted in accordance with Govt C §54952.2(b)(2), which allows separate conversations or communications outside of a meeting with members of a legislative body to answer questions or provide information regarding a matter that is within the subject matter jurisdiction of the local agency, if that person does not communicate to members of the legislative body the comments or position of any other member or members of the legislative body.

NOTE: Although the language of Govt C §6252.2(b)(1) does not expressly prohibit nonpublic communications, directly or indirectly through intermediaries, to discuss, deliberate, or take action on an item of business during an open meeting, those communications create at least the appearance of impropriety. Therefore, nonpublic communications during an open public meeting should be discouraged absent the clear existence of a privilege, *e.g.,* attorney-client or attorney work product protection).

© The Regents of the University of California

D. Agenda Requirements and Other Procedural Issues

1. Regular Meetings

§2.55 a. Seventy-Two-Hour Posting Requirement

Regular meeting agendas must be posted at least 72 hours before the meeting in a location that is freely accessible to the public. Govt C §54954.2(a). Weekend hours may be included to satisfy this requirement, but the agenda must be accessible for the entire 72-hour period. 78 Ops Cal Atty Gen 327 (1995). The agenda may be posted on a touch-screen electronic kiosk that is accessible without charge to the public in lieu of posting a paper copy of the agenda on a bulletin board. 88 Ops Cal Atty Gen 218 (2005).

© The Regents of the University of California

§2.56 b. Required Agenda Contents

The agenda must specify the time and location of the meeting and a "brief general description" of each item of business to be transacted or discussed. Govt C §54954.2(a). The agenda must designate and provide the address of a location where members of the public may inspect the agenda and any associated writings, such as staff reports. Govt C §54957.5. The agenda must also contain information on how a person may request a disability accommodation to participate in a meeting. Govt C §54954.2(a)(1).

PRACTICE TIP: Agenda item descriptions "generally" need not exceed 20 words in length. Govt C §54954.2(a). Agenda descriptions should give enough information to permit a person to make an informed decision about whether they want to attend or participate in a discussion on an issue. For example, a listing should say more than simply "staff report." Similarly, the listing should not say "zone change" when the action is more than that (*e.g.,* it includes vacating an entire street). See *Carlson v Paradise Unified Sch. Dist.* (1971) 18 CA3d 196, 95 CR 650. Also, agenda descriptions should not be misleading, *e.g.,* a proposed "elimination of a service or department" should not be listed as a reorganization. 18 CA3d at 200.

There are no reported cases on how the 20-word standard on agenda items is to be interpreted. See Govt C §54954.2(a). It appears that the "generally" applicable 20-word standard may not justify failure to include each formal action item connected with a particular subject. The more cautious practice is to list each formal action connected with a particular item of business (*e.g.,* title of both a development agreement ordinance and related general plan amendment resolution) regardless of the length of the overall listing.

The agenda should contain a notice stating that, on request, the agenda and the documents in the agenda packet can be made available to persons with a disability. Many cities request receiving this notice in advance (from 1-5 days) to allow them to make the appropriate arrangements. Such arrangements include providing listening devices, making an audio recording, or providing documents in large print.

Closed-session business must be identified on the agenda. Govt C §54954.2(a). See also Govt C §54954.5. Government Code §54954.5 sets forth "safe harbor" closed session agenda descriptions.

© The Regents of the University of California

§2.57 c. Mailing of Agendas

On written request, agencies must mail agendas or agenda packets, or both, to any person at such time as the agenda is posted or distributed to the legislative body, whichever comes first. The agency may charge a fee to recover the cost of providing this service. Govt C §54954.1.

PRACTICE TIP: If an agenda item refers to bulky reports or documents that are not included with the agenda packet, the agenda should indicate where those materials are available for pre-meeting review.

© The Regents of the University of California

§2.58 d. ADA Requirements for Agendas and Agenda Packets

On request, the agendas and agenda packets must be made available in appropriate alternative formats to persons with a disability, as required by §202 of the Americans with Disabilities Act of 1990 (ADA) (42 USC §§12101-12213) and the implementing federal rules and regulations. Govt C §54954.2(a). See §2.57.

© The Regents of the University of California

§2.59 e. No Action or Discussion of Matters Not on the Agenda

Except as provided in Govt C §54954.2(a)-(b), no action or discussion may occur with respect to any item not appearing on the posted agenda. Govt C §54954.2(a)- (b).

© The Regents of the University of California

f. Exceptions to Requirements for Agenda Contents

§2.60 (1) Brief or Limited Communications

Limited questions, requests, and responses on matters not appearing on the posted agenda are allowed under Govt C §54954.2(a) as follows:

- Brief responses by members of the legislative body and staff to statements or questions posed by the public;
- Questions for clarification;
- References to staff or other resources for factual information;
- Requests to staff to report back on an issue at a subsequent meeting;
- Requests to agendize a matter of business for some future meeting; and
- Brief announcements by members of the body or staff and brief reports on their activities.

PRACTICE TIP: Responses, reports, and directions to staff should be brief and not entail lengthy discussion. If there is disagreement over whether to place a matter on a future agenda or whether to have staff return with a report, the matter should be put to an immediate vote without discussion. Note that the provisions allowing individual members of the body to give direction to staff do not override the city's procedural rules governing the authority of individual members to give such directions. Govt C §54954.2(a).

© The Regents of the University of California

§2.61 (2) Emergencies

Discussion and action on an item not appearing on the posted agenda may occur if a defined statutory emergency situation is determined to exist by a majority vote of the legislative body. Govt C §54954.2(b)(1). See also Govt C §54956.5.

© The Regents of the University of California

§2.62 (3) Need for Immediate Action

Discussion and action on an item not appearing on the posted agenda may occur if immediate action is necessary. This necessity is determined if the legislative body establishes by a two-thirds vote of the members of the legislative body present at the meeting (or a unanimous vote if less than two-thirds of the members are present) that both of the following requirements exist (Govt C §54954.2(b)(2); see also *Cohan v City of Thousand Oaks* (1994) 30 CA4th 547, 35 CR2d 782):

- The need exists to take action immediately; and
- The need for action came to the attention of the agency after the agenda was posted.

PRACTICE TIP: Government Code §54954.2(b)(2) requires both (1) the need for immediate action, and (2) that the need for action "came to the attention of the local agency" after the agenda was posted. In this context, "local agency" probably does not mean the same thing as "legislative body." Matters for which the need to take action was known to staff before the agenda was posted, but that were not known to the legislative body, probably should not be discussed or acted on under this exception.

© The Regents of the University of California

§2.63 (4) Items on Agenda for Prior Meetings

Discussion and action on an item not appearing on the posted agenda may occur if the item was posted for a prior meeting that occurred not more than 5 days earlier and the item was continued. Govt C §54954.2(b)(3).

© The Regents of the University of California

§2.64 g. Public Comment or Testimony Must Be Allowed

Every agenda for a regular meeting must provide an opportunity for members of the public to address the legislative body on any item of interest to the public that is within the legislative body's subject matter jurisdiction. The public must also be allowed to comment on a specific item of business before or when it is considered by the legislative body. Govt C §54954.3(a).

When a general public comment period was provided at a prior meeting of the legislative body for an item of business, and the item of business is continued for one or more sessions, there is no requirement to allow an additional public comment period. *Chaffee v San Francisco Library Comm'n* (2004) 115 CA4th 461, 9 CR3d 336. The legislative body is not required to allow members of the public to address it on whether to place an item on the agenda. Govt C §54954.3(a). See also *Coalition of Labor, Agriculture & Business v County of Santa Barbara Bd. of Supervisors* (2005) 129 CA4th 205, 28 CR3d 198. The legislative body cannot prohibit public criticism of the policies, procedures, programs, or services of the agency or the acts or omissions of the legislative body. Govt C §54954.3(c).

PRACTICE TIP: For the purposes of First Amendment analysis, public meetings of legislative bodies have been found to be "limited" public fora, and attempts to restrict the content of such speech must be narrowly tailored to serve a compelling interest. *Leventhal v Vista Unified Sch. Dist.* (SD Cal 1997) 973 F Supp 951; *Baca v Moreno Valley Unified Sch. Dist.* (CD Cal 1996) 936 F Supp 719.

© The Regents of the University of California

2. Special Meetings

§2.65 a. Twenty-Four-Hour Posting and Personal Notice Requirements

At least 24 hours before the meeting, a notice that contains the time and place for the meeting, with a statement of the business to be transacted and an opportunity for the public to address the legislative body on that item, must be posted in a location freely accessible to the public. The notice must be delivered personally or by any other means to all members of the legislative body (unless waived in writing before the meeting) and to any newspaper, radio, or television station that has requested notice in writing, and received at least 24 hours before the time of the meeting. Govt C §54956.

Special meeting notice requirements apply even if the entire meeting is conducted in closed session.

For forms and discussions of special meetings in the context of California nonprofit corporations, see Advising California Nonprofit Corporations (3d ed Cal CEB 2009).

© The Regents of the University of California

§2.66 b. No Action or Discussion of Matters Not Covered by Notice

Only business listed on the special meeting notice can be discussed or transacted at a special meeting. Govt C §54956.

PRACTICE TIP: The agenda posting exceptions in Govt C §54952.2(b)(1)- (3) do not apply to special meetings. If a matter is not listed, there cannot be discussion or action on it. But see *Boyle v City of Redondo Beach* (1999) 70 CA4th 1109, 83 CR2d 164, which can be read to hold that the addition of an item of business to a special meeting agenda does not violate Govt C §54956 if no action is taken. The court also held that conferring with and giving direction to staff did not constitute "action taken" for Ralph M. Brown Act (Govt C §§54950-54963) purposes, and therefore there was no remedy for a violation. Nevertheless, it is advisable not to add items of business to special meeting agendas.

© The Regents of the University of California

§2.67 c. Public Comment or Testimony Must Be Allowed

The public must be given an opportunity to address the legislative body before or during consideration of any matter described in the special meeting notice. Govt C §54954.3.

© The Regents of the University of California

3. Emergency Meetings

§2.68 a. Limited Media Notice and Subsequent Posting Required

No written notice or posting is required for an emergency meeting in an emergency situation. Govt C §54956.5(b)(1). Nevertheless, each newspaper and radio or television station requesting notice of special meetings must be given telephone notice at least 1 hour before the meeting. However, in the case of a dire emergency with consequences so immediate and significant that providing the 1-hour notice may endanger the public health or safety, or both, as determined by the legislative body, the notification need not be provided until at or near the time that the presiding officer or designee notifies members of the legislative body. If telephone services are not functioning, the notice requirements are deemed waived, but the legislative body must give newspapers, radio stations, and television stations notice as soon as possible after the meeting. The notice must contain the fact of the holding of the emergency meeting, the purpose of the meeting, and the action taken at the meeting. Govt C §54956.5(b)(2). All special meeting requirements, other than 24-hour notice, apply. Govt C §54956.5(d).

As soon as possible after the meeting, the local agency must post, in a public place for 10 days, a copy of the minutes, a list of persons notified or attempted to be notified, a copy of the roll call vote, and any actions taken at the meeting. Govt C §54956.5(e).

For forms and discussions of emergency meetings in the context of California nonprofit corporations, see Advising California Nonprofit Corporations (3d ed Cal CEB 2009).

© The Regents of the University of California

§2.69 b. Closed Sessions

The legislative body may meet in closed session under Govt C §54957(a) regarding matters posing a threat to the security of public buildings or essential public services. The members must agree to a closed session by a two-thirds vote of the members of the legislative body present, or if less than two-thirds of the members are present, then by a unanimous vote of the members present. Govt C §54956.5(c).

© The Regents of the University of California

4. Adjourned and Continued Meetings

§2.70 a. Adjournment Procedures

Any regular or special meeting may be adjourned, and an adjournment may be ordered if less than a quorum attends. If no members attend, the clerk or secretary may declare the meeting adjourned to a stated time and place. In that case, written notice of the adjournment must be given in the same manner as notice of special meetings as provided in Govt C §54956 (see §2.65); in all cases, notice of adjournment must be posted on or near the door of the meeting room within 24 hours of the adjournment. Govt C §54955.

© The Regents of the University of California

§2.71 b. Continuance Procedures

If a hearing is continued, the time and place when the hearing will resume must be announced at the time of the continuance. Written notice of the continuance must be given in the same manner as notice of adjourned meetings under Govt C §54955, unless the hearing is continued to a time less than 24 hours after the order of continuance, in which case notice of the continuance must be posted immediately following the meeting at which the order of continuance was made. Govt C §54955.1.

© The Regents of the University of California

§2.72 5. Teleconferenced Meetings

Teleconferencing may be used in connection with meeting, but the agenda must specify each teleconferencing location and must be posted at each meeting site. Govt C §54953(b)(3). Each teleconferencing location must be open and accessible to the public and the public must have the opportunity to address the legislative body directly from each teleconference location. During the teleconference, at least a quorum of the members of the legislative body must participate from within the body's jurisdiction. Govt C §54953(b)(3). All votes taken during a teleconferenced meeting must be by roll call. Govt C §54953(b)(2). See §2.52.

© The Regents of the University of California

§2.73 6. Closed Sessions: Procedures and Safe Harbor Protection

Closed sessions must appear on regular meeting agendas (as well as special meeting notices). Govt C §54954.2(a). The Ralph M. Brown Act has specific language that may be used for closed session agenda descriptions. Govt C §54954.5. Substantial compliance with the statutory language creates a kind of "safe harbor" against allegations that the closed session agenda description was inadequate (as a "brief general" description) under Govt C §54954.2. Specific agenda language is provided in Govt C §54954.5 for the following kinds of closed sessions:

- License or permit determinations (Govt C §54956.7);
- Conference with real property negotiator (Govt C §54956.8);
- Conference with legal counsel—existing litigation (Govt C §54956.9);
- Conference with legal counsel—anticipated litigation (Govt C §54956.9);
- Liability claims (joint powers agency claims) (Govt C §54956.95);
- Threat to public services or facilities (Govt C §54957);
- Public employee appointment (Govt C §54957);
- Public employment (Govt C §54957);
- Public employee performance evaluation (Govt C §54957);
- Public employee discipline, dismissal, or release (Govt C §54957);
- Conference with labor negotiator (Govt C §54957.6);
- Case review or planning (multijurisdictional drug law enforcement agency) (Govt C §54957.8);
- Report involving trade secret (Health & S C §§1461, 32106, 32155; Govt C §§37606, 37624.3);
- Hearings (Health & S C §§1461, 32106, 32155; Govt C §§37606, 37624.3);
- Charge or complaint involving information protected by federal law (Govt C §54956.86);
- Conferences involving joint powers agency (Govt C §54956.96); and
- Audit by Bureau of State Audits (Govt C §54956.75).

PRACTICE TIP 1: For closed-session meetings regarding *anticipated litigation,* based on a significant exposure to litigation, the safe harbor language in Govt C §54954.5 must be supplemented with a public statement, either in the agenda or in an oral announcement, before going into closed session. That public statement must, if the facts and circumstances are known to a potential plaintiff, disclose the "existing facts and circumstances" justifying an opinion that there is significant exposure to litigation. Govt C §54956.9(b)(3)(A)-(B). The facts and circumstances may either be included in the agenda notice or announced at the meeting before considering the agenda item. Also, if the closed session is based on the receipt of a claim, the claim itself must be made available for inspection. Govt C §§54956.9(b)(3)(C), 54957.5.

PRACTICE TIP 2: For closed-session meetings regarding *existing litigation,* the safe harbor language requires the disclosure of the case name unless the legislative body states to do so "would jeopardize service of process or existing settlement negotiations." Govt C §54956.9.

Even though use of the safe harbor language is not mandatory, substantial compliance is strongly advisable. See *Moreno v City of King* (2005) 127 CA4th 17, 25 CR3d 29. "Substantial compliance" is usually interpreted to mean compliance with each of the statutory requirements. See*, e.g., Hall v City of Los Angeles* (1941) 19 C2d 198, 120 P2d 13. This means the only flexibility likely to be found in the safe harbor language is with the form of the agenda, rather than its contents. Likewise, it is certainly possible litigants will argue the "safe harbor" is actually the legislature's view of the minimum agenda notice required for closed sessions.

Before holding a pending litigation closed session, the legislative body must state on the agenda or publicly announce which subdivision of Govt C §54956.9 authorizes the session.

On closed sessions, see §§2.82-2.110.

© The Regents of the University of California

7. Rights of the Public Who Attend Open Meetings

§2.74 a. Anonymity of the Public

The public cannot be required to give names or sign a register as a condition of attendance. Govt C §54953.3.

PRACTICE TIP: It is unclear whether members of the public can be required to provide their name, address, or other information as a condition to participating in (as opposed to attending) a meeting. If such information is relevant to issues presented by the subject matter of a public hearing or evidentiary proceeding, it probably can be required (*e.g.,* a speaker's address may bear on the credibility or weight of the speaker's testimony). On the other hand, it seems less likely such information can be required as a prerequisite to addressing the legislative body during oral communications on general matters within the subject matter of the agency. Govt C §54954.3(b).

Many cities do ask for names and addresses during oral communications in order to facilitate staff responses or the preparation of minutes. This practice is certainly allowable if it is identified as being voluntary. Govt C §54954.3(b). However, cities should consider the privacy implications of recording and publishing personally identifying information.

© The Regents of the University of California

§2.75 b. Audio, Video, and Photographic Recording Rights

Any person may record a meeting by audio or videotape, or by still or motion picture camera, unless the legislative body makes a reasonable finding the recording cannot continue because noise, illumination, or disruption of a view constitutes disruption of the proceedings. Govt C §54953.5.

PRACTICE TIP: Radio and television broadcasting (as opposed to recording) of meetings is permitted as a matter of right, provided the equipment is silent and does not require auxiliary lighting. Govt C §6091. See also Govt C §54953.6 (broadcasting must be permitted as long as it does not disrupt the proceedings). But see 38 Ops Cal Atty Gen 52 (1961).

© The Regents of the University of California

§2.76 c. Public's Right to Access Documents

Agendas and other nonexempt documents distributed by any person to a majority of the legislative body in connection with any matter subject to discussion at a public meeting item are public records that must be made available to the public "without delay." Govt C §54957.5. Documents related to an open session agenda item that are distributed to the legislative body less than 72 hours before the meeting must be made available for public inspection, at the location specified on the agenda, at the same time the writing is distributed to a majority of the legislative body. Govt C §54957.5(b)(1). If the agency distributes material prepared by it (including consultants) or a member of the legislative body during a meeting, copies of the material must be available for public inspection at the meeting. Govt C §54957.5(c). Materials prepared by some other person and distributed during a meeting must be made available after the meeting. Govt C §54957.5(c).

PRACTICE TIP 1: Agenda and other related materials become public records and must be made available upon request "without delay." Govt C §54957.5(a). This language is probably aimed at (and probably forbids) the practice of withholding completed and final agenda materials until distribution of the agenda packet to the legislative body. The practical problem created is significant; elected and appointed officials are not in a position to give complete, accurate responses to inquiries from the public and press before they have in hand any relevant agenda materials.

PRACTICE TIP 2: Because any document distributed to a majority of the legislative body must be disclosed, letters delivered directly to a majority of council members must be available for public review. Council members appear to have the responsibility to inform city staff of correspondence received outside of city channels. This is particularly important in light of the requirement that all documents given to a majority of the legislative body less than 72 hours before a meeting must also be immediately available to the public. Govt C §54957.5(b)(1).

© The Regents of the University of California

§2.77 (1) Compliance With ADA

On request, such documents must be made available in alternative formats appropriate for a person with a disability, as required by §202 of the Americans with Disabilities Act of 1990 (ADA) and the implementing federal rules and regulations. Govt C §54957.5(b).

© The Regents of the University of California

§2.78 (2) Tapes Made by the Agency to Assist in Preparation of Minutes or Otherwise

Any tape or film record of a meeting made by or at the direction of the agency is a public record that must be retained and made available to the public for at least 30 days. Govt C §54953.5(b). The agency must provide to the public, without charge, equipment to review the record.

PRACTICE TIP: City attorneys must also be aware of the mandatory duty to prepare and retain a record of land use hearings on written request made before the date of the hearing. Govt C §65804. This section expressly applies to chartered cities.

© The Regents of the University of California

§2.79 (3) Exception: Attorney-Client Privileged Written Communications

A written legal opinion distributed to members of a legislative body is not a public meeting document. *Roberts v City of Palmdale* (1993) 5 C4th 363, 20 CR2d 330 (city attorney's confidential written letter to members of the city council was not a meeting document, even though it responded to an eight-page letter submitted to the city council at a public hearing).

© The Regents of the University of California

§2.80 d. Public Communication Rights

At all regular meetings, the public must have the opportunity to address the legislative body, before or during its deliberations, on matters within the subject matter jurisdiction of the agency, unless the matter has been heard in committee, has not substantially changed, and the public had the opportunity to speak to the committee. Govt C §54954.3(a). This includes criticism of the policies and programs of the agency and the acts and omissions of the legislative body. Govt C §54954.3(c); *Baca v Moreno Valley Unified Sch. Dist.* (CD Cal 1996) 936 F Supp 719 (rule prohibiting criticism of school district employees by name during open board meetings violates First Amendment). See also 78 Ops Cal Atty Gen 224 (1995) (for a discussion of limiting speakers to the subject matter jurisdiction of the agency).

Reasonable regulations, including but not limited to time restrictions on issues and speakers, are allowed. Govt C §54954.3(b). See also *Chaffee v San Francisco Pub. Library Comm'n* (2005) 134 CA4th 109, 36 CR3d 1 (public entities are allowed to exercise reasonable discretion in departing from normal time limits); *Kindt v Santa Monica Rent Control Bd.* (9th Cir 1995) 67 F3d 266 (upholding time limits). Limitations on speech must be reasonable and viewpoint neutral. *Kindt v Santa Monica Rent Control Bd., supra.* At all special meetings, the public must have the opportunity to speak to the matter under consideration before or during any consideration of the matter. Govt C §54954.3.

PRACTICE TIP 1: Because members of the public must be allowed to comment on any matter before or during deliberations on that matter, if a closed session is scheduled on the agenda before the general opportunity for public comment, then members of the public should be given the opportunity to comment on the closed session agenda before the body goes into closed session. Also, if the body uses a consent calendar for routine items of business and does not allow members of the public to remove those items from the consent calendar for discussion, and the consent calendar is scheduled before the general opportunity for public comment, then a general audience comment period must precede action on the consent calendar to ensure that the public has an opportunity to comment on any item on the calendar before action is taken.

PRACTICE TIP 2: Do not interpret the phrase, "within the subject matter jurisdiction of the legislative body," too narrowly. Cities have expansive authority under the police power to regulate in myriad subject matter areas. The fact that a city has not yet created a particular regulation, or may have no intention of doing so, does not limit the public's right to address these areas.

© The Regents of the University of California

§2.81 e. No Right to Disrupt Meetings

A portion or all of the public may be removed if "willful" disruption makes conducting the meeting "unfeasible." The press may remain unless it participates in the disruption. If the room is cleared, the legislative body cannot consider anything not on the agenda. Govt C §54957.9. See also *White v City of Norwalk* (9th Cir 1990) 900 F2d 1421.

© The Regents of the University of California

§2.82 E. Closed Sessions

Closed sessions (sometimes archaically referred to as "executive sessions") are meetings conducted in private without the attendance of the public or press. They are permitted for specified purposes as part of a regular or special meeting, and during an emergency meeting, under certain circumstances. Govt C §54956.5; 43 Ops Cal Atty Gen 79 (1964).

© The Regents of the University of California

§2.83 1. Agenda Notice Requirements

Regular meeting agendas and special meeting notices must include a description of the matters to be discussed in closed session. Govt C §§54954.2, 54956. Closed session agenda descriptions may follow a prescribed statutory format; substantial compliance with this format creates a "safe harbor" against challenges to the adequacy of the notice. Govt C §54954.5. See §2.73.

© The Regents of the University of California

§2.84 2. Permissible Attendees

Attendance of a closed session should be limited to those actually necessary to advise or take direction from the body given the specifically permitted purpose of the session. This may include the body's legal counsel, senior management staff, experts, negotiators, or consultants. Third parties not serving as agents of the body cannot attend, with the exception of witnesses in the event of a closed session to hear charges or complaints. Govt C §54957. For example, a closed session cannot be used as a vehicle for a private negotiating session between the entire body and an adverse party. *Sacramento Newspaper Guild v Sacramento County Bd. of Supervisors* (1968) 263 CA2d 41, 69 CR 480. However, the Attorney General has opined that a county retirement board may permit an applicant and his or her representative to participate as an interested party or advocate if the board believes that they would have an official or essential role to play in the closed session. 88 Ops Cal Atty Gen 16 (2005). In addition, the Attorney General has ruled that an alternate member of a body may not attend a closed session of the body if the regular member is present and participating in the session. 82 Ops Cal Atty Gen 29 (1999).

© The Regents of the University of California

§2.85 3. Must Announce Intended Subject Matter of the Closed Session in Open Session

Before conducting any closed session, the legislative body must announce in open session the items to be discussed. Govt C §54957.7(a). The disclosure may be a simple reference to the agenda item number or letter. The required announcements may be made at the location announced in the agenda for the closed session, as long as the public is allowed to be present at that location for the purpose of hearing the announcements. Govt C §54957.7(c).

NOTE: Closed sessions are prohibited except as "expressly authorized." Govt C §54962. also Govt C §54956.9 (there is no implied attorney-client privilege basis for closed sessions).

© The Regents of the University of California

§2.86 a. Announcement of Real Estate Negotiations

Before conducting any real estate negotiations closed session, the legislative body must hold an open session during which it identifies the property that the negotiation may concern, the identity of the agency's negotiator(s), and the persons with whom the local agency negotiator may negotiate. Govt C §54956.8.

© The Regents of the University of California

§2.87 b. Announcement of Pending Litigation

Before holding a pending litigation closed session, the legislative body must state on the agenda or announce publicly which subdivision of Govt C §54956.9 authorizes the closed session. If Govt C §54956.9(a) is the authority (existing litigation on file), the case must be identified by title or otherwise, unless to do so would jeopardize service of process or settlement negotiations. Govt C §54956.9.

© The Regents of the University of California

§2.88 c. Announcement of Personnel Sessions on Specific Complaints or Charges

Before conducting any closed session on specific complaints or charges brought against an employee, the affected employee must be delivered at least 24 hours' written notice of his or her right to have the charges heard in open session. Govt C §54957. Failure to deliver the notice renders any disciplinary or other action "null and void."

© The Regents of the University of California

§2.89 d. Announcement of Labor Negotiations

Before conducting any closed session to give direction to the agency's labor negotiators, the legislative body must hold an open session during which it identifies the agency's designated negotiators attending the closed session. Govt C §54957.6.

PRACTICE TIP: All of the specific information noted above may be provided on the face of the agenda, so the oral announcement at the beginning of the closed session may be limited to a reference to the agenda. Govt C §54957.7(a). This practice may require more work to prepare the agenda, but it eliminates both time-consuming announcements and the problem of inadvertent omissions at the meeting.

© The Regents of the University of California

4. Major Reasons for Permissible Closed Sessions

§2.90 a. To Instruct Negotiators of Real Property Transactions

The legislative body may conduct closed sessions to instruct real property negotiators about relevant transactions for which they are responsible. Govt C §54956.8. Such discussions about real property transactions should be limited to giving instructions to negotiators on a particularized and realistically anticipated transaction. *Shapiro v San Diego City Council* (2002) 96 CA4th 904, 117 CR2d 631.

© The Regents of the University of California

§2.91 b. To Instruct Negotiators Who Are Meeting and Conferring With Represented and Unrepresented Employees

The legislative body may conduct closed sessions to instruct negotiators about employee issues. The term "employee" includes officers and independent contractors who function as officers or employees. Govt C §54957.6. Government Code §54957.6 expressly allows "discussion of an agency's available funds and funding priorities, but only insofar as these discussions relate to providing instructions to the local agency's designated representative." The legislative body may give direction to its negotiator regarding the compensation of unrepresented individuals, including senior management employees, under this section, but may not negotiate directly with unrepresented individuals in closed session nor take final action on compensation of unrepresented individuals in closed session (unlike final approval of contracts with represented employees, which may occur in closed session).

© The Regents of the University of California

§2.92 c. To Discuss "Pending Litigation" With the Agency's Attorney

Closed sessions are permitted to confer with, or to receive advice from, legal counsel regarding pending litigation when discussion in open session would prejudice the agency's position in the litigation. Govt C §54956.9. However, a local agency may not meet in closed session with legal counsel for another local agency when the other agency is not a party to the lawsuit. *Shapiro v Board of Directors* (2005) 134 CA4th 170, 185, 35 CR3d 826. Whether to settle a lawsuit is a permissible subject. 75 Ops Cal Atty Gen 14 (1992). The legislative body may not decide on or adopt in closed session a settlement that accomplishes or provides for action for which a public hearing is required by law, without such a hearing. *Trancas Prop. Owners Ass'n v City of Malibu* (2006) 138 CA4th 172, 187, 41 CR3d 200.

PRACTICE TIP: City attorneys may wish to (1) document their reasoning and justification for pending litigation closed sessions in a written attorney memorandum, and (2) create a contemporaneous, permanent record of the legislative body's voting tally. Confidential minutes may be kept by "a clerk or other officer or employee of the local agency" under Govt C §54957.2 (preferably, someone other than the city attorney).

© The Regents of the University of California

§2.93 (1) What Constitutes "Pending Litigation"

Litigation includes court actions (including eminent domain proceedings, regardless of Govt C §54956.8) and adjudicatory proceedings before an administrative agency, hearing officer, or arbitrator. Govt C §54956.9. Litigation is deemed pending in four situations:

(1) Litigation has been formally initiated (Govt C §54956.9(a));

(2) There is significant exposure to litigation in the opinion of the legislative body on the advice of legal counsel, based on "existing facts and circumstances" (Govt C §54956.9(b)(1));

(3) Based on "existing facts and circumstances," the legislative body is meeting only to decide whether there is significant exposure to litigation that would authorize a closed session under Govt C §54956.9(b)(1) (Govt C §54956.9(b)(2)); or

(4) The legislative body has decided, or is deciding, whether to initiate litigation (Govt C §54956.9(c)).

© The Regents of the University of California

§2.94 (2) What Constitutes "Existing Facts and Circumstances" Under Govt C §54956.9(b)(1)-(2) and Related Required Disclosures

Five exclusive situations justify an opinion that there is significant exposure to litigation. Govt C §54956.9(b)(3). For the purposes of these situations, significant exposure to officers or employees of the agency, whether or not arising from within the course and scope of office or employment, is deemed significant exposure for the agency. The five situations and whether the attendant facts and circumstances must be disclosed are:

(1) Facts and circumstances that might result in litigation against the agency but which the agency believes are not yet known to a potential plaintiff or plaintiffs, which facts and circumstances need not be disclosed. Govt C §54956.9(b)(3)(A).

(2) Facts and circumstances, including, but not limited to, an accident, disaster, incident, or transactional occurrence that might result in litigation against the agency and that are known to a potential plaintiff or plaintiffs, which facts or circumstances must be publicly stated on the agenda or announced. Govt C §54956.9(b)(3)(B).

(3) The receipt of a claim under the California Tort Claims Act (Govt C §§810-998.3) or some other written communication from a potential plaintiff threatening litigation, which claim or communication must be available for public inspection under Govt C §54957.5. Govt C §54956.9(b)(3)(C).

(4) A statement made by a person in an open and public meeting threatening litigation made on a specific matter within the responsibility of the legislative body. Govt C §54956.9(b)(3)(D).

PRACTICE TIP: While there is no specific disclosure requirement for such public threats, the better practice is to identify them on the agenda when feasible.

(5) A statement threatening litigation made by a person outside an open and public meeting made on a specific matter within the responsibility of the legislative body, provided the official or employee of the local agency receiving knowledge of the threat makes a contemporaneous or other record of the statement before the meeting, which record must be available for public inspection. Govt C §54957.5.

NOTE: The records so created need not identify the alleged victim of unlawful or tortious sexual conduct or anyone making the threat on their behalf, or identify a public employee who is the alleged perpetrator of any unlawful or tortious conduct on which a threat of litigation is based, unless the identity of the person has been publicly disclosed. Govt C §54956.9(b)(3)(E).

© The Regents of the University of California

§2.95 d. To Consider the "Appointment, Employment, Evaluation of Performance, Discipline, or Dismissal of a Public Employee"

Closed sessions are permitted to consider the appointment, employment, evaluation of performance, discipline, or dismissal of a public employee or to hear complaints or charges brought against the employee. Govt C §54957(b)(1). See also *Morrow v Los Angeles Unified Sch. Dist.* (2007) 149 CA4th 1424, 57 CR3d 885 (personnel exception).

© The Regents of the University of California

§2.96 (1) Covered Employees

The "employees" covered do not include elected officials or members of the legislative body. Govt C §54957. Independent contractors are now covered provided they are functioning as officers or employees. Govt C §54957(b)(4).

© The Regents of the University of California

§2.97 (2) Valid Closed Session Employee-Related Topics

Personnel matters discussed in closed session under Govt C §54957 must relate to specific individuals. See *Santa Clara Fed'n of Teachers v Governing Bd.* (1981) 116 CA3d 831, 846, 172 CR 312.

Government Code §54957 expressly bars "discussion or action on proposed compensation except for a reduction of compensation that results from the imposition of discipline." Govt C §54957(b)(4). Compensation of represented employees and individual, unrepresented employees, including senior management, however, may be addressed in a closed session conducted under Govt C §54957.6 in order to give direction to the body's negotiator, but negotiations may not take place directly with unrepresented individuals in closed session, and final action may not be taken in closed session on compensation of unrepresented individuals (unlike final approval of contracts with represented employees, which may occur in closed session).

PRACTICE TIP 1: Although discipline and dismissal actions are permissible subjects for a closed session under the Ralph M. Brown Act (Brown Act) (Govt C §§54950-54963), consideration should be given to whether the body possesses the authority to address these issues, or whether that authority resides elsewhere (*e.g.,* in the city manager). If a body possesses the authority to address the issue, it does not necessarily have authority to make the final decision in order to convene a closed session. Subordinate legislative bodies that function in a purely advisory capacity may convene a closed session under Govt C §54957. See *Gillespie v San Francisco Pub. Library Comm'n* (1998) 67 CA4th 1165, 79 CR2d 649; 80 Ops Cal Atty Gen 308 (1997).

Complaints against employees may be heard in closed session, unless the employee requests a public hearing. Govt C §54957(b)(1). Consideration of a performance evaluation does not constitute the hearing of charges or complaints even though negative aspects of performance are considered. See *Fischer v Los Angeles Unified Sch. Dist.* (1999) 70 CA4th 87, 82 CR2d 452, and *Furtado v Sierra Community College* (1998) 68 CA4th 876, 80 CR2d 589, which hold that the notice requirement only applies if the proceeding is adjudicative in character. *Furtado* further holds that a body may take disciplinary action following review of an adverse performance evaluation even if the posted agenda does not list disciplinary action. The safer practice, however, is to take the disciplinary action at a subsequent meeting when it is properly agendized. See also *Duval v Board of Trustees* (2001) 93 CA4th 902, 113 CR2d 517 (a broad reading of Govt C §54957 pertaining to employee evaluations, holding in part that a legislative body may develop the evaluation criteria and form in closed session and that compliance with the safe harbor notice is sufficient).

PRACTICE TIP 2: After hearing complaints and charges in open session at the request of the employee or in closed session, the legislative body may exclude the employee and deliberate and take action in closed session. See *Bollinger v San Diego Civil Serv. Comm'n* (1999) 71 CA4th 568, 84 CR2d 27.

© The Regents of the University of California

§2.98 (3) Notice Requirements for Investigation of Employee Complaints

The employee must be given 24 hours' written notice of his or her right to a public hearing of the charges. Govt C §54957(b)(2). Failure to give this notice renders any closed-session disciplinary action "null and void." The 24-hour notice requirement applies only if the body considers specific charges or complaints against an employee. See *Bell v Vista Unified Sch. Dist.* (2000) 82 CA4th 672, 98 CR2d 263, holding that a school board violated the Ralph M. Brown Act (Govt C §§54950-54963) when it failed to provide a coach with the required 24-hour notice before conducting a closed session in which it considered complaints about the coach contained in a state athletic federation report and on which it relied in terminating the coach's employment. See also *Morrison v Housing Auth. of City of Los Angeles Bd. of Comm'rs* (2003) 107 CA4th 860, 132 CR2d 453, holding that authority's board of commissioners conducted a hearing when they rejected officer's findings of fact, and thus former employee was entitled to notice of right to have complaint held in open session; and board's failure to give notice rendered decision null and void, even though actual decision was made at a later meeting.

© The Regents of the University of California

§2.99 e. License and Public Security Topics in Closed Sessions

The legislative body may conduct closed sessions to resolve the following specific issues:

- To consider license applications by persons with criminal records. Govt C §54956.7.
- To meet with law enforcement about public security. Govt C §54957.

© The Regents of the University of California

5. Action and Vote Disclosure in Open Session After the Closed Session

§2.100 a. Governing Statutes

After any closed session, the legislative body must reconvene in open session and make a public report of specified actions and the vote or abstention of every member present. Govt C §54957.7(b). The reports may be made orally or in writing. Govt C §54957.1(b).

PRACTICE TIP: The interrelationship of Govt C §§54957.1 and 54957.7 is neither totally consistent nor entirely logical. Govt C §54957.7(b) apparently requires the legislative body to reconvene in open session after a closed session even if no disclosure is required under Govt C §54957.1.

© The Regents of the University of California

§2.101 b. Contents of the Closed-Session Disclosure Report

Closed-session disclosure is required in one of two forms—either an oral or written public report made during the same meeting as the closed session or disclosure on inquiry thereafter. The required reports or disclosures are specified in Govt C §54957.1. These reporting and disclosure statements are the minimum requirements; cities may choose to provide more information when it would not harm the city's interests.

© The Regents of the University of California

§2.102 (1) Disclosure Report on Approval of Agreements Concluding Real Estate Negotiations

Agreements concluding real estate negotiations must be reported after the agreement is final. Govt C §54957.1(a)(1).

If *city action finalizes the agreement*, the disclosure report must include (Govt C §54957.1(a)(1)(A)):

- The approval action;
- The voting tally; and
- The substance of the agreement.

The disclosure report must be made after the closed session, in open session, during the same meeting.

If the *other party must finalize the agreement*, the disclosure report is not required. Govt C §54957.1(a)(1)(B). On inquiry by any person, however, the legislative body must disclose (see Govt C §54957.1(a)(1)(B)):

- The approval action;
- The voting tally; and
- The substance of the agreement.

The disclosure report must be made on inquiry by any person, as soon as the other party has informed the city of its approval. Govt C §54957.1(a)(1)(B).

© The Regents of the University of California

§2.103 (2) Disclosure Report on Approval of Litigation Defense, Appellate Review, or Amicus Curiae Participation

If the legislative body approves a litigation defense, appellate review, or amicus curiae participation, the disclosure report must include (Govt C §54957.1(a)(2)):

- The approval action;
- The adverse parties (if known);
- The substance of the litigation; and
- The voting tally.

The disclosure report must be made after the closed session, in open session, during the same meeting. Govt C §54957.1(a)(2).

© The Regents of the University of California

§2.104 (3) Disclosure Report on Approval of Initiation of or Intervention in Litigation

If the legislative body approves initiation of or intervention in litigation, a disclosure report must be made. Before the action has been commenced, the disclosure report must include advice that direction to initiate or intervene in an action has been given. The disclosure report must be made after the closed session, in open session, during the same meeting. Govt C §54957.1(a)(2).

After the approved action is formally commenced, and only on inquiry, and provided that *disclosure would not jeopardize* the city's ability to serve process or to conclude existing settlement negotiations to the city's advantage, the disclosure report must include (Govt C §54957.1(a)(2)):

- The approval action;
- The voting tally;
- The defendant(s); and
- Other particulars, presumably including the substance of the litigation.

As noted, the disclosure report must be made only on inquiry by any person. See Govt C §54957.1(a)(2).

PRACTICE TIP: The delayed disclosure provisions pose a significant administrative burden, as well as a recordkeeping requirement. Written closed-session reports may be the simplest means of keeping track of closed-session actions and voting records. City attorneys should confer with the city clerk to make arrangements for proper closed-session recordkeeping. One recordkeeping option is to maintain a minute book under Govt C §54957.2.

If, after the approved action is formally commenced, it is determined that *disclosure would jeopardize* the city's ability to serve process or to conclude existing settlement negotiations to the city's advantage, no disclosure is required until process has been served or settlement negotiations have been concluded. Thereafter, the report must disclose the following on inquiry by any person (Govt C §54957.1(a)(2)):

- The approval action;
- The voting tally;
- The defendant(s); and
- Other particulars, presumably including the substance of the litigation.

© The Regents of the University of California

§2.105 (4) Disclosure Report on Approval of Pending Litigation Settlements

Pending litigation settlements are to be reported after the settlement is final. Govt C §54957.1(a)(3). If city action finalizes a *signed* settlement offer, the disclosure report must include (Govt C §54957.1(a)(3)(A)):

- The acceptance action;
- The voting tally; and
- The substance of the agreement.

The report must be made after the closed session, in open session, during the same meeting.

If the *other party or a court must finalize* the litigation settlement, no disclosure report is required**.** Govt C §54957.1(a)(3)(B). On inquiry by any person, however, a report must disclose:

- The fact of the approval action;
- The voting tally; and
- The substance of the agreement.

The report must be made only on inquiry by any person, and as soon as the settlement becomes final. Govt C §54957.1(a)(3).

© The Regents of the University of California

§2.106 (5) Disclosure Report on Disposition of Joint Powers Agency Claims

If the legislative body decides joint powers agency claims, the disclosure report must include:

- The voting tally;
- The name of the claimant;
- The name of the local agency claimed against;
- The substance of the claim; and
- The monetary amount approved for payment and agreed on by the claimant, if any.

The disclosure report must be made "as soon as [disposition of the claim is] reached." The statute does not specify whether an open session report must be made or whether disclosure on inquiry is sufficient. See Govt C §54957.1(a)(4).

© The Regents of the University of California

§2.107 (6) Disclosure Report on Actions Affecting the Employment Status of Public Employees

If the legislative body takes action that affects the employment status of public employees, a disclosure report must be made including (Govt C §54957.1(a)(5)):

- A description of any action taken to appoint, employ, dismiss, accept the resignation of, or otherwise affect the employment status of a public employee;
- The voting tally; and
- The title of the position involved.

The disclosure report may be deferred if a dismissal or nonrenewal of an employment contract is subject to *further administrative remedies*. The report must be deferred until the first public meeting following the exhaustion of administrative remedies.

For all other employment actions, the disclosure report must be made after the closed session, in open session, during the same meeting. Govt C §54957.1(a)(5). When the legislative body meets in a closed session to consider the proposed dismissal of a public employee, however, but ultimately rejects that proposal and retains the employee, the legislative body is not thereafter required to publicly report its decision or the vote or abstention of each member. 89 Ops Cal Atty Gen 110 (2006).

© The Regents of the University of California

§2.108 (7) Disclosure Report on Approval of Agreements Concluding Labor Negotiations

When a legislative body approves agreements concluding labor negotiations, a disclosure report must be made including:

- The item approved;
- The voting tally; and
- The other party to the agreement.

The disclosure report must be made after the agreement is final and has been accepted or ratified by the other party. The statute does not specify whether an open-session report must be made or whether disclosure on inquiry is sufficient. Govt C §54957.1(a)(6).

© The Regents of the University of California

§2.109 6. Disclosure of Attorney-Client Communications

The Ralph M. Brown Act (Brown Act) (Govt C §§54950-54963) is the exclusive regulation on conducting closed sessions. Govt C §54956.9. The holder of the attorney-client privilege is the legislative body and the privilege can only be waived by a majority of the body. See *Roberts v City of Palmdale* (1993) 5 C4th 363, 373, 20 CR2d 330. In addition, disclosure of confidential information acquired at closed session is prohibited, unless authorized by the legislative body. See §§2.79, 2.203, 2.254 on prohibition of disclosure of confidential information.

PRACTICE TIP: Not all communications during closed session are protected by the attorney-client privilege merely because legal counsel is present. See *North Pacifica, LLC v City of Pacifica* (ND Cal 2003) 274 F Supp 2d 1118 (attorney-client privilege protects communications with city attorney at closed session of city council about condition imposed on approval of development project only to extent any particular communication was related primarily to seeking of legal advice; to extent communications merely went to substantive decision making, communications would not be privileged). The confidentiality that the Brown Act grants to closed-session communications is not recognized under federal law. *North Pacifica, LLC v City of Pacifica, supra*.

© The Regents of the University of California

§2.110 7. Minute Book Confidentiality

The city council may, by ordinance or resolution, require a clerk or other employee to attend each closed session and keep a record of topics discussed and decisions made at the meeting. A minute book or other record is not a public record but is available to a court if a Ralph M. Brown Act violation is alleged. Govt C §54957.2(a); *County of Los Angeles v Superior Court* (2005) 130 CA4th 1099, 30 CR3d 708.

© The Regents of the University of California

§2.111 F. Ralph M. Brown Act Violations in Closed Sessions

As a general matter, Ralph M. Brown Act (Govt C §§54950-54963) violations may be avoided if caution is taken to:

- Avoid substantive discussions about matters that are not on the agenda. When in doubt, notice further discussion for a subsequent meeting.
- Be certain that a specific statutory exception applies before a closed session is permitted. Closed sessions cannot be held just because an issue is sensitive, controversial, or unlawful.

© The Regents of the University of California

§2.112 1. Criminal Prosecution of Member of the Legislative Body Possible

A member who attends a meeting of his or her legislative body when a violation of the Ralph M. Brown Act (Brown Act) occurs is guilty of a misdemeanor if the member intends to deprive the public of information to which the member knows or has reason to know the public is entitled under the Brown Act. Govt C §54959.

© The Regents of the University of California

§2.113 2. Civil Action Possible; Remedies Available

The district attorney or any interested person may also bring a civil action for a Ralph M. Brown Act (Brown Act) (Govt C §§54950-54963) violation, but only after the city has been given the opportunity to cure the violation. The district attorney or any interested person may sue either to prevent violations or to have past actions declared null and void. Tape recording of closed sessions can now be ordered as a remedy for a violation. Govt C §54960(c). Any citizen of the State of California is an "interested person" within the meaning of Govt C §54960 for purposes of having standing to bring a lawsuit under this section. See *McKee v Orange Unified Sch. Dist.* (2003) 110 CA4th 1310, 2 CR3d 774. One remedy is to compel the legislative body to record its sessions. See *Shapiro v San Diego City Council* (2002) 96 CA4th 904, 117 CR2d 631 (court grants injunctive relief for "future" violations based on past conduct). See also Govt C §§54960(a), 54960.1. But see *Boyle v City of Redondo Beach* (1999) 70 CA4th 1109, 83 CR2d 164 (despite failure to properly notice an item, no Brown Act violation occurred because there was no action on the item).

© The Regents of the University of California

§2.114 a. Judicial Determination and Its Effect on Criminal Prosecution

The district attorney or any interested person may likewise commence an action by mandamus or injunction in order to obtain a judicial determination that an action taken in closed session under specified sections is null and void. Govt C §54960.1.

The injunctive relief provisions of the Ralph M. Brown Act (Govt C §§54950-54963) are not available to deter the district attorney from investigating or prosecuting alleged violations. See *Ingram v Flippo* (1999) 74 CA4th 1280, 89 CR2d 60.

© The Regents of the University of California

§2.115 b. Opportunity to Cure Claimed Past Violations Required

The party who alleges a violation must make a written demand to the legislative body to cure or correct the violation within 30 days of an open session when a violative action was taken and within 90 days of any other alleged violation. Govt C §54960.1(b), (c)(1). The legislative body may still cure or correct the defect and have the action dismissed with prejudice. Govt C §54960.1(e).

PRACTICE TIP: As one approach to cure and correct a challenged action, a city council might consider the challenged action in a subsequent, duly agendized open-session meeting. Note that when a noticed hearing to consider an employee performance evaluation is transformed into a hearing to consider "complaints or charges" against the employee, the new hearing triggers employee noticing requirements and the opportunity for the employee to respond. However, the cure provisions do not apply to a violation of Govt C §54957(b)(2) because the action would have been declared null and void. See *Moreno v City of King* (2005) 127 CA4th 17, 25 CR3d 29.

© The Regents of the University of California

§2.116 c. Costs and Attorney Fees Awarded Unless Unjust

A court may award a plaintiff court costs and reasonable attorney fees when it finds a violation of the Ralph M. Brown Act (Brown Act) (Govt C §§54950-54963). The court has discretion to deny fees only if the defendant shows special circumstances exist that would make such an award unjust. See Govt C §54960.5. The absence of special circumstances mandates a fee award. See *Los Angeles Times Communications v Los Angeles County Bd. of Supervisors* (2003) 112 CA4th 1313, 5 CR3d 776, in which the court discussed instances in which special circumstances were found to justify a denial of a fee award, including, but not limited to, outrageous conduct on the part of plaintiff, and situations in which a defendant is powerless to provide the remedy sought by plaintiff. *Los Angeles Times Communications v Los Angeles County Bd. of Supervisors, supra*, citing *Society of Prof. Journalists v Briggs* (D Utah 1988) 687 F Supp 1521, 1524. Unlike other cases when the defendant's willingness to settle played an important role in the court making a finding that special circumstances existed, in the *Los Angeles Times* case, the Los Angeles County Board of Supervisors resisted appellants' legal challenge, forcing the matter to trial and judgment, rather than acknowledging the Brown Act violations and agreeing not to repeat such actions. Such resistance to admit and remedy a violation played a part in the court finding an absence of special circumstances and granting appellants their attorney fees.

© The Regents of the University of California

§2.117 3. Prohibition on Disclosure of Confidential Information

Disclosure of confidential information acquired at a closed session is prohibited, unless the legislative body authorizes disclosure. Govt C §54963(a). The local agency may enforce this prohibition by seeking injunctive relief to prevent disclosure, disciplinary action against an employee who has willfully disclosed confidential information, or referral of a member of the legislative body who has disclosed confidential information to the grand jury. Govt C §54963(c). A city may not enact an ordinance making it a misdemeanor to disclose information discussed in closed session. 76 Ops Cal Atty Gen 289 (1993).

IV. ETHICAL CONSIDERATIONS AND CONFLICTS OF INTEREST

§2.119 A. Political Reform Act of 1974

The Political Reform Act of 1974 (PRA) (Govt C §§81000-91014) addresses the financial conflicts of interests of public officials (see Govt C §82048 (defining public officials)) through disclosure of financial interests and prohibitions on participation in the making of decisions in which the official knows or has reason to know he or she has a financial interest. The Fair Political Practices Commission (FPPC) has also adopted regulations implementing the PRA (2 Cal Code Regs §§18110-18997) and issues formal opinions and advice letters on the application of the PRA to particular situations. The FPPC maintains a website at www.fppc.ca.gov that contains the PRA forms, regulations, opinions, and advice letter summaries. Copies of advice letters are available on Lexis and Westlaw.

PRACTICE TIP: FPPC staff consultants and attorneys are available to give informal telephone advice at (866) 275-3772. However, the immunities against FPPC enforcement for reliance on FPPC advice only apply to written opinions, not telephonic opinions. Govt C §83314. See also 2 Cal Code Regs §18329(c)(3).

On ethical considerations and conflict of interest issues, see generally Advising California Nonprofit Corporations (3d ed Cal CEB 2009) and California Administrative Hearing Practice (2d ed Cal CEB 1997).

§2.120 1. Disqualification of Public Officials in the Event of Conflict of Interest

Public officials are prohibited from making, participating in, or in any way attempting to use their official position to influence a governmental decision in which they know or have reason to know they have a financial interest. Govt C §87100. See also 2 Cal Code Regs §§18700, 18702-18702.4.

An official has a conflicting financial interest "if it is reasonably foreseeable that the decision will have a material financial effect, distinguishable from its effect on the public generally, on the official, a member of his or her immediate family," (Govt C §87103) or on a specified interest in any relevant business entity, real property, or income or gift source. The specified financial interests that trigger a disqualifying conflict of interest are detailed below. See §§2.121-2.125.

© The Regents of the University of California

§2.121 a. Direct or Indirect Investment in Business Entity

An official will be disqualified from acting on any matter related to any business entity in which the official has a direct or indirect investment worth $2000 or more. 2 Cal Code Regs §18703.1.

© The Regents of the University of California

§2.122 b. Direct or Indirect Interest in Real Property

An official will be disqualified from acting on any matter related to any real property in which the public official has a direct or indirect interest worth $2000 or more. Govt C §82033 (definition of "interest in real property"), 82035 (definition of "jurisdiction"). See also 2 Cal Code Regs §18703.2.

© The Regents of the University of California

§2.123 c. Interest in Income Source

An official will be disqualified from acting on any matter related to any source of income (other than gifts or certain loans from a commercial lending institution) aggregating $500 or more provided to, received by, or promised to the public official within 12 months before the time the decision is being made. Govt C §82030 (definition of "income"). See also 2 Cal Code Regs §18703.3. Campaign contributions do not constitute income, as income is defined in the PRA. Govt C §82030(b)(1). Salary and reimbursement for expenses received from a governmental agency is also exempt from the definition of "income." Govt C §82030(b)(2).

© The Regents of the University of California

§2.124 d. Management Position Held in Business Entity

An official will be disqualified from acting on any matter related to any business entity in which the public official is a director, officer, partner, trustee, employee, or holds any position of management. 2 Cal Code Regs §§18703.1, 18703.3.

© The Regents of the University of California

§2.125 e. Interest in Gift Source

As of January 1, 2009, an official will be disqualified from acting on any matter related to any source of a gift or gifts totaling $420 or more provided to, received by, or promised to the public official within 12 months before the time when the decision is being made. Govt C §82028 (definition of "gift"); 2 Cal Code Regs §§18703.4, 18940-18961. The amount of the value of gifts specified by this subdivision is adjusted biennially by the Fair Political Practices Commission (FPPC), effective January 1 of every odd-numbered year. Govt C §89503(f). See also 2 Cal Code Regs §18940.2.

© The Regents of the University of California

§2.126 2. Disqualifying Conflict of Interest Analyzed Under Eight-Part Test

To determine whether a given individual has a disqualifying conflict of interest under the Political Reform Act of 1974 (PRA) (Govt C §§81000-91014), proceed with an eight-part analysis. 2 Cal Code Regs §18700. See §§2.127-2.140.

© The Regents of the University of California

§2.127 a. Must Be Public Official Involved

Determine whether the individual is a "public official." Govt C §87100. A "public official" is defined as any member, officer, employee, or consultant of a state or local government agency. Govt C §82048(a). See also 2 Cal Code Regs §18701. The terms "officer" and "employee" are not defined by the Political Reform Act of 1974 (PRA) (Govt C §§81000-91014) or the Fair Political Practices Commission (FPPC). The term "member" applies to all members of all boards or commissions with decision-making authority, whether salaried or unsalaried, public members or elected. See 2 Cal Code Regs §18701(a)(1). Members of advisory bodies whose advice is generally followed are also regulated by the PRA. See 2 Cal Code Regs §18701(a)(1)(A)(iii). The term "consultant" applies to individuals delegated specified decision-making authority or who perform the duties of an officer or employee of a government agency. See 2 Cal Code Regs §18701(a)(2). If the individual is not a public official, there is no conflict of interest under the PRA.

© The Regents of the University of California

§2.128 b. Must Be Making or Influencing a Governmental Decision

Determine whether the public official is making or participating in decisions, or is using or attempting to use his or her official position to influence a governmental decision. Govt C §87100. See also 2 Cal Code Regs §§18700, 18702-18702.4. If not, then there is no conflict of interest under the PRA. Actions that are solely ministerial, secretarial, manual, or clerical do not constitute participation in decision making. 2 Cal Code Regs §18702.4(a)(1). Participation with regard to a public official's own compensation or terms of employment is also excepted. 2 Cal Code Regs §18702.4(a)(3). Under certain circumstances, an official may appear before his or her agency in the same manner as any other member of the general public to represent his or her personal interests. 2 Cal Code Regs §18702.4.

© The Regents of the University of California

§2.129 c. Official Must Have Identifiable Economic Interests

Determine whether the public official has an economic interest potentially affected by the governmental decision. Govt C §87103; 2 Cal Code Regs §§18703-18703.5. The Political Reform Act of 1974 (PRA) (Govt C §§81000-91014) regulates six types of economic interests (Govt C §87103(a)-(e)):

- Investments in business entities (see §2.130);
- Interests in real property (see §2.131);
- Sources of income (see §2.132);
- Sources of gifts, including gifts from agents or intermediaries (see §2.134);
- Positions with business organizations (see §2.133); and
- Personal finances of the official and the official's immediate family (see §2.135).

© The Regents of the University of California

§2.130 (1) Business Entities

Any business entity in which the official has a direct or indirect investment worth $2000 or more is considered an economic interest. Govt C §87103(a). See Govt C §82005 (definition of "business entity"), §82034 (definition of "investment"), §82035 (defining "jurisdiction"). See also 2 Cal Code Regs §18703.1 (defining economic interest in business entities). An indirect investment includes "any investment or interest owned by the spouse or dependent child of a public official, by an agent on behalf of a public official, or by a business entity or trust in which the official, the official's agents, spouse and dependent children own directly, indirectly or beneficially a ten percent interest or greater." Govt C §87103. See also *Metropolitan Water Dist. v Fair Political Practices Comm'n* (1977) 73 CA3d 650, 141 CR 8; *Commission on Cal. State Gov't Org. & Econ. v Fair Political Practices Comm'n* (1977) 75 CA3d 716, 142 CR 468; *Witt v Morrow* (1977) 70 CA3d 817, 139 CR 161. A business entity that is a parent or subsidiary, or is otherwise related to a business entity in which the official has an investment, is also included as an economic interest. See 2 Cal Code Regs §18703.1(c).

© The Regents of the University of California

§2.131 (2) Real Property

Any real property in which the public official has a direct or indirect interest worth $2000 or more constitutes an economic interest. Govt C §87103(b). See Govt C §82033 (defining "interest in real property"), §82035 (defining when realty is within a jurisdiction); see also 2 Cal Code Regs §18703.2 (defining economic interest in real property). The $2000 threshold is based on fair market value of the property. See Govt C §82033. The real property interest includes equity, option, or leasehold interests (*e.g.,* ownership, mortgages, deeds of trust, options to buy, or joint tenancies) located in, or within two miles of, the geographical jurisdiction of the official's agency (*e.g.,* the city boundaries). Govt C §§82033, 82035. An interest of a tenant in a periodic tenancy of 1 month or less is not an "interest in real property" for the purposes of the Political Reform Act of 1974 (PRA) (Govt C §§81000-91014). 2 Cal Code Regs §18233. Indirect interests in real property include any investment or interest owned by the spouse or dependent child of the public official, by an agent on behalf of the public official, or by a business entity or trust in which the official, the official's agents, spouse, or dependent children own directly, indirectly, or beneficially a 10-percent or greater interest. Govt C §87103.

© The Regents of the University of California

§2.132 (3) Source of Income

Any source of income (other than gifts or certain loans from a commercial lending institution) aggregating $500 or more provided to, received by, or promised to the public official within 12 months prior to the time the decision is being made is considered an economic interest. Govt C §87103(c). See Govt C §82030 (defining "income"); see also 2 Cal Code Regs §18703.3 (defining economic interest in a source of income). A conflict can arise if the governmental decision will increase or decrease the source of income by the threshold amount. See 2 Cal Code Regs §18705.3 (economic interests in persons who are sources of income). Exemptions from the definition of "income" include campaign contributions, governmental salary and reimbursement for expenses, certain income from former employers or nonprofit organizations, informational materials, inheritances, dividends and interest, alimony, and certain loans and indebtedness. Govt C §82030(b); see also 2 Cal Code Regs §18703.3. Special rules apply analyzing "Sources of Commission Income to Brokers, Agents and Salespersons." 2 Cal Code Regs §18703.3(c).

© The Regents of the University of California

§2.133 (4) Business Position

Any business entity in which the public official is a director, officer, partner, trustee, employee, or holds any position of management is considered an economic interest. Govt C §87103(d); 2 Cal Code Regs §18703.1(b).

© The Regents of the University of California

§2.134 (5) Source of Gifts

As of January 1, 2009, any source of a gift or gifts totaling $420 or more provided to, received by, or promised to the public official within 12 months prior to the time when the decision is being made is considered an economic interest. 2 Cal Code Regs §18703.4. See Govt C §82028 (definition of "gift"); 2 Cal Code Regs §§18704.1, 18940-18961 (guide to gift regulation). The amount of the value of gifts specified by this subdivision is adjusted upward by the Fair Political Practices Commission (FPPC), effective January 1 of every odd-numbered year. Govt C §89503(f); 2 Cal Code Regs §18940.2.

© The Regents of the University of California

§2.135 (6) Personal Finances

A public official has an economic interest in the official's personal finances and those of the official's immediate family. 2 Cal Code Regs §18703.5. A governmental decision will affect the official's personal finances if the decision will result in an increase or decrease in the personal expenses, income, assets, or liabilities of the official, or of his or her immediate family. 2 Cal Code Regs §18703.5. The term "immediate family" means spouses and dependent children. Govt C §82029. The term "spouse" includes "registered domestic partners recognized by state law". 2 Cal Code Regs §18229.

© The Regents of the University of California

§2.136 d. Relationship of Interest to Governmental Decision

For each of the public official's economic interests, determine whether that interest is directly or indirectly involved in the governmental decision. Govt C §87103. See also 2 Cal Code Regs §§18704-18704.5 (regulations guiding determination of whether there is direct or indirect involvement).

© The Regents of the University of California

§2.137 e. Materiality of Economic Interest Necessary

For each of the public official's direct and indirect economic interests potentially affected by the governmental decision, determine whether the effect on the interest is material. Govt C §87103; 2 Cal Code Regs. §18704. See §2.136. The "materiality" standards are defined in 2 Cal Code Regs §§18705-18705.5 for each type of financial interest. The standards vary based on whether an economic interest is directly or indirectly involved in the decision. In general, materiality is presumed when the public official's economic interest is directly involved. See 2 Cal Code Regs §18705(a).

© The Regents of the University of California

§2.138 f. Foreseeability Analysis Relevant

Determine whether it is reasonably foreseeable (meaning substantially likely) that one or more of the materiality standards applicable to the public official's direct or indirect economic interest will be met as a result of the governmental decision. 2 Cal Code Regs §18706. The concept of foreseeability hinges on the specific facts of each individual case. Although certainty is not required, an effect on an economic interest that is merely a remote possibility is not reasonably foreseeable and thus not material. See *Downey Cares v Downey Community Dev. Comm'n* (1987) 196 CA3d 983, 991, 242 CR 272.

PRACTICE TIP 1: In evaluating the materiality of the effect of a decision on a *business entity* in which an official has an interest, it may be necessary to have a current list of Fortune 500 companies. That list is available through the Fair Political Practices Commission (FPPC) website at www.fppc.ca.gov.

PRACTICE TIP 2: In determining if an official's *real property interest* may require disqualification, determine how far that real property interest is from the property that is the subject of the decision. If any part of the official's property is within 500 feet of the subject property, the official's property is considered to be directly involved in the decision and the decision is presumed to have a material financial effect on that real property interest. 2 Cal Code Regs §§18704.2, 18705.2(a). The materiality presumption can be rebutted, however, by proof that it is not reasonably foreseeable that the governmental decision will have any financial effect on the official's real property or any effect on certain terms and conditions of the official's leasehold interest. 2 Cal Code Regs §18705.2(a), (b).

PRACTICE TIP 3: An official may have *several different economic interests* that should be analyzed to determine if disqualification is necessary on a particular decision. For example, an official who owns a business may have four different economic interests: an investment interest in the business, a source of income from the business, a business position, and a real property interest in the property (either leasehold or ownership) on which the business is located.

© The Regents of the University of California

§2.139 g. Exception: Public Generally Affected Also

Notwithstanding a determination that the reasonably foreseeable financial effect of a governmental decision on a public official's economic interests is material, a public official does not have a disqualifying conflict of interest in the governmental decision if the official can establish that the governmental decision will affect the public official's economic interests in a manner that is indistinguishable from the manner in which the decision will affect the public generally. 2 Cal Code Regs §§18707-18707.10. The term "public generally" refers to a significant segment of the public. See 2 Cal Code Regs §§18707, 18707.1. To determine if the effect of a decision is indistinguishable from the effect on the public generally, a four-step analysis is applied. 2 Cal Code Regs §18707(b). However, a different analysis is applied to certain governmental decisions and circumstances such as ones involving rates and assessments (2 Cal Code Regs §18707.2); certain appointed board members (2 Cal Code Regs §18707.4); customers of retail business owners (2 Cal Code Regs §18707.5); states of emergency (2 Cal Code Regs §18707.6); industries, trades, or professions (2 Cal Code Regs §18707.7); residential properties (2 Cal Code Regs §18707.9); and small jurisdictions (2 Cal Code Regs §18707.10).

© The Regents of the University of California

§2.140 h. Exception: Legally Required Participation

The Political Reform Act of 1974 (Govt C §§81000-91014) does not prevent any public official from making or participating in a governmental decision to the extent the official's participation is "legally required" for the action or decision to be made. Govt C §87101. See also 2 Cal Code Regs §18708. The exception applies only if there is no reasonable alternative manner of decision making, and the public official involved must act in order for a decision to be made. 2 Cal Code Regs §18708(a). The fact that an official's vote is needed to break a tie or to create a quorum to act if another member without a conflict is absent, however, does not make the vote "legally required." Govt C §87101. See also 58 Ops Cal Atty Gen 670 (1975); 2 Cal Code Regs §18708. A quorum for "legally required participation" is the minimum number of members needed to approve the item of business. 2 Cal Code Regs §18708(c)(3), (d). A random means of selection may be used to select the officials needed for the quorum. Once selected, an official remains selected for the duration of the proceedings in all related matters until his or her participation is no longer legally required. 2 Cal Code Regs §18708(c)(3).

PRACTICE TIP: If a conflict exists, consider whether the decision in which the public official has a financial interest may be segmented into separate decisions using the Fair Political Practices Commission's four-part test. See 2 Cal Code Regs §18709. The conflicted public official must still leave the room during discussion and decision making on the segmented decision. Govt C §87105(a)(3); 2 Cal Code Regs §18702.5(b)(3).

© The Regents of the University of California

§2.141 3. Requirements After Disqualification

A public official has a conflict of interest if the decision will have a reasonably foreseeable material financial effect on one or more of his or her economic interests, unless that effect is not distinguishable from the effect on the public generally. Govt C §§87100, 87103. See also 2 Cal Code Regs §18700. See §§2.120-2.139. An official who has a disqualifying conflict of interest is not counted towards achieving a quorum on a particular vote. 2 Cal Code Regs §18700(c)-(d). See also 59 Ops Cal Atty Gen 604 (1976). An official who has a conflict must, immediately before consideration of the decision (see Govt C §87105):

- Publicly identify in detail the financial interest that causes the conflict (except that he or she need not disclose the street address of a residence);
- Recuse himself or herself from discussing and voting on the matter; and
- Leave the room until after the decision has been made, unless the matter is on the portion of the agenda reserved for uncontested matters (generally understood to mean the consent calendar). Govt C §87105; see also 2 Cal Code Regs §18702.5(b)(3).

During a closed session of the agency, a disqualified official must not be present when the governmental decision on which he or she is disqualified is considered and the official must not obtain or review any nonpublic information about the governmental decision. 2 Cal Code Regs §§18702.1(c), 18702.5(c). The only exception to the official's required absence is that the official may speak on a matter as a member of the general public during the period for public participation about a matter related to his or her personal interests. Govt C §87105. See also 2 Cal Code Regs §18702.4(b)(1). In this situation, an official's "personal interests" for participation include, but are not limited to (2 Cal Code Regs §18702.4(b)(1)):

- An interest in real property that is wholly owned by the official or members of his or her immediate family;
- A business wholly owned by the official or members of his or her immediate family; or
- A business entity over which the official exercises sole direction and control, or over which the official and his or her spouse jointly exercise direction and control.

© The Regents of the University of California

§2.142 4. Local Conflict of Interest Code

Under the Political Reform Act, every city must adopt a local conflict of interest code. Govt C §§87300-87313; see also 2 Cal Code Regs §18730. This code must specifically enumerate positions which involve making or participating in decisions that may foreseeably have a material effect on any financial interest. Govt C §§82019, 87302, (defining such persons as "designated employees"); 2 Cal Code Regs §18219 (including consultants and employees in newly created positions in the definition of designated employees). This code must be reviewed every 2 years and amended when circumstances change, such as when new positions are created or duties of existing positions change. Govt C §§87306, 87306.5. The code must be consistent with the minimum requirements of the Political Reform Act. See Govt C §87302; 2 Cal Code Regs §18730.

PRACTICE TIP: 2 Cal Code Regs §18730 can be adopted by reference to form the core of a local conflict of interest code. 2 Cal Code Regs §18730(a).

© The Regents of the University of California

5. Conflict of Interest Statements and Disclosure

§2.143 a. Who Must File Official Disclosure Statements

Mayors, city council members, planning commissioners, city managers, city attorneys, city treasurers and other officials who manage public investments, and candidates for those offices at any election must file conflict of interest disclosure statements using the official Fair Political Practices Commission (FPPC) form Statement of Economic Interests (FPPC Form 700), located online at www.fppc.ca.gov/Pdf/Int99-00.pdf. Govt C §§87200, 87202-87203. In addition, employees and consultants designated as filers by the city's own conflict of interest code (designated employees) must file Statements of Economic Interest. Govt C §87302. See also 2 Cal Code Regs §18730. An employee in a newly created position that is not yet listed in the agency's conflict of interest code is nevertheless a designated employee who must file an interim disclosure. 2 Cal Code Regs §§18219, 18734(a).

© The Regents of the University of California

§2.144 b. Contents of Disclosure Statements

The statement must disclose the filer's sources of income and interests in real property, except the filer's primary residence. Govt C §§87203, 87206-87207. The public official must disclose specified types of investments, interests in real property and businesses, income, gifts, and loans. See Govt C §§87103, 87206-87207. A filer must also disclose the income and real property interests held by his or her spouse, dependent children, and immediate family. Govt C §87103. See §2.131.

© The Regents of the University of California

§2.145 c. Timing of Disclosure Statements

Officials must file various statements on the occurrence of certain triggering events and dates:

- Upon assuming office (see §2.146);
- Annually while holding office or a designated position (see §2.147); and
- Upon leaving office or a designated position (see §2.148).

Any person who resigns from office within 12 months of appointment need not file an assuming or leaving office statement of economic interests so long as that person did not make or participate in governmental decisions and did not receive any compensation. 2 Cal Code Regs §18730(b)(5.5). It has been the authors' experience that the filer may amend a disclosure statement at any time, and that amending an incorrect or incomplete statement may be considered evidence of good faith.

© The Regents of the University of California

§2.146 (1) Assuming Office Statements

Appointed and elected officials specified in Govt C §87200 and code filers must file an "assuming office statement" listing the required economic interests within 30 days after assuming office. Govt C §§87202, 87302; 2 Cal Code Regs §18722(a).

© The Regents of the University of California

§2.147 (2) Annual Statements

Thereafter, an annual "statement of economic interests" must be filed no later than April 1. Govt C §87203. See also 2 Cal Code Regs §§18723(b)(2), 18732. If an office is assumed between October 1 and December 31, and an assuming office statement is completed, an annual statement of economic interests need not be filed until 1 year later than would otherwise be required. 2 Cal Code Regs §§18723(c), 18732(a).

© The Regents of the University of California

§2.148 6. Leaving Office Statements

The officeholder must file his or her last disclosure statement within 30 days after leaving office. Govt C §87204. See also 2 Cal Code Regs §18722(b). If a person leaves office specified in Govt C §87200 between January 1 and the filing deadline for his or her annual Statement of Economic Interests, the leaving office statement may serve as the person's annual statement, so long as the person notifies the filing officer in writing. 2 Cal Code Regs §§18723(d), 18732(b).

© The Regents of the University of California

§2.149 a. Penalties

All reports and statements filed under the Political Reform Act of 1974 (PRA) (Govt C §§81000-91014) must be signed under penalty of perjury and verified by the filer, indicating that all reasonable diligence was used in its preparation and that to the best of his or her knowledge, it is true and complete. Govt C §81004.

© The Regents of the University of California

§2.150 b. Retention

Original statements of economic interest must be retained by the officer with whom they are filed for at least 7 years. Govt C §81009.

© The Regents of the University of California

§2.151 7. Conflicts of Interests and Campaign Contributions

Campaign contributions do not constitute income under the Political Reform Act of 1974. Govt C §82030(b)(1). However, the effect of an officer's acceptance, solicitation, or direction of contributions may require disclosure, or even disqualification, depending on (Govt C §84308; 2 Cal Code Regs §18438.1):

- The amount of the contribution and the time of the contribution in relation to a proceeding before the agency;
- Whether the members of the legislative body are directly elected by the voters; and
- Whether the official in question was elected by the voters or appointed to office.

© The Regents of the University of California

§2.152 a. Definitions and Prohibited Acts

The solicitation, making, and acceptance of campaign contributions greater than $250 by a covered officer triggers certain disclosure requirements and disqualifications. Govt C §84308.

The following are important definitions in analyzing the impact of a campaign contribution:

- *Covered officer:* A "covered officer" means any officer appointed to a city board or commission as well as alternates and candidates, but does not include city council members who are directly elected by the voters except when they serve as voting members of another board, commission, or agency. Govt C §84308(a)(3)-(4). See also 2 Cal Code Regs §18438.1.
- *Party:* A "party" is any applicant or subject of a covered proceeding. Govt C §84308(a)(1).
- *Agent:* An "agent" is any person who represents a party in a covered proceeding. 2 Cal Code Regs §18438.3.
- *Participant:* A "participant" is any person who is not a party to a covered proceeding, but who actively supports or opposes a particular decision in the proceeding. Govt C §84308(a)(2). See also 2 Cal Code Regs §18438.4.
- *Covered proceeding:* A "covered proceeding" is an item for business before an agency involving a license, permit, or other entitlements for use. Govt C §84308(a)(5), (b). See also 2 Cal Code Regs §18438.2.

These acts are prohibited:

- *Covered officers* are prohibited from receiving, soliciting, and directing campaign contributions of more than $250 from a party or participant during the pendency of a covered proceeding and for 3 months thereafter. Govt C §84308(b)-(c). See also 2 Cal Code Regs §§18438.5-18438.6.
- A *party and its agents* are prohibited from making any contribution of more than $250 to a covered officer during the pendency of the covered proceeding and for 3 months thereafter. Govt C §84308(d). A party is presumed to have a financial interest in the proceeding, but the prohibition directed at the participant only applies when the officer knows or has reason to know the participant has a financial interest. Govt C §84308(b). See also 2 Cal Code Regs §18438.7. To determine whether the threshold of more than $250 for triggering the contribution prohibition or disqualification requirement has been reached, contributions made within the preceding 12 months from parties or participants are aggregated with those of their agents. 2 Cal Code Regs §18438.3(b).

© The Regents of the University of California

§2.153 b. Disqualification and Disclosure Requirements

Covered officers must disqualify themselves from participating in the proceeding if they received contributions of more than $250 during the previous 12 months from a party or a financially interested participant. Govt C §84308(c). If a covered officer returns the contribution (or that portion which is over $250) within certain time limits, disqualification is not required. Govt C §84308(c).

Disclosure requirements are:

- Before any decision, any *covered officer* who has received a contribution of more than $250 within the preceding 12 months from a party or participant must disclose that fact on the proceeding's record. Govt C §84308(c). See also 2 Cal Code Regs §18438.8(a). An officer is permitted to participate in the proceeding if the officer returns the contribution within 30 days from the date he or she knows, or should have known, about the contribution and the proceeding. Govt C §84308(c).
- At the time *parties* initiate proceedings, they must list all contributions of more than $250 to covered officials within the previous 12 months. Govt C §84308(d). See also 2 Cal Code Regs §18438.8(b).

© The Regents of the University of California

8. Gifts and Honoraria Restrictions

§2.154 a. Honoraria

No local elected officeholder, candidate for local elected office, or designated employee may accept any honorarium. Govt C §89502. "Honorarium" means a payment in consideration for a speech given (or other form of oral presentation), article published, or attendance at any public or private conference, meeting, or like gathering. Govt C §89501(a). An honorarium does not include earned income for personal services that are customarily provided in connection with the practice of a bona fide business or profession, unless the sole or predominate activity of the business or profession is making speeches. Govt C §89501(b)(1). See also 2 Cal Code Regs §§18930-18933. The limitations on honoraria do not apply if, within 30 days of the receipt of the honorarium, it is returned unused, donated to the general fund of the agency in question, or donated to charity under certain circumstances. Govt C §89501(b)(2); 2 Cal Code Regs §§18932.5, 18933.

© The Regents of the University of California

§2.155 b. Gifts

No local elected officeholder, candidate for local elected office, or designated employee of a local agency may accept any gift or gifts from a single source aggregating in excess of $420 in any calendar year. Govt C §89503. See also 2 Cal Code Regs §18940.2. Gifts worth $50 or more must be reported on a statement of economic interest. Govt C §87207. Gifts are ordinarily valued based on their fair market value on the date they are received or promised to the recipient. 2 Cal Code Regs §§18941(a), 18946-18946.6. The Fair Political Practices Commission (FPPC) is required to adjust the gift limit biennially to reflect changes to the Consumer Price Index. Govt C §89503(f). See also 2 Cal Code Regs §18940.2. "Gifts" generally include any payment to the extent that consideration of equal or greater value is not received and includes a rebate or discount in the price of anything of value, unless the rebate or discount is being offered to the general public in the regular course of business. Govt C §82028. See also 2 Cal Code Regs §18940-18950.4. A gift can take many forms, including money, food, beverages, lodging, entertainment, goods, services, passes, or tickets. 2 Cal Code Regs §18940-18950.4. A gift may be reportable whether it is made by an outside donor or by the official's own agency. See 2 Cal Code Regs §18944.3. Within the meaning of the Political Reform Act of 1974 (Govt C §§81000-91014), gifts generally do not include information material, gifts that are returned or donated to a charity within 30 days without being claimed as a tax deduction, gifts from certain family members, campaign contributions, inheritances, personalized plaques or trophies with a value of less than $250, hospitality (including food, beverages, and lodging) provided by an individual in his or her home, and presents exchanged between the official and an individual other than a lobbyist on holidays, birthdays, or similar occasions provided that the presents exchanged are not substantially disproportionate in value. Govt C §82028. See also 2 Cal Code Regs §18942; 2 Cal Code Regs §§18940-18950.4 (FPPC regulations applicable to gifts and travel). Gifts may be exempt from regulation if unused and returned within 30 days to the donor or donated to a government agency or 501(c)(3) nonprofit entity, so long as a charitable tax deduction is not taken. Govt C §82028(b)(2); 2 Cal Code Regs §18943. Gifts may be reportable even when they are received indirectly. A gift to a city official's immediate family is a reportable gift if it confers a clear personal benefit on the official, or if the gift is made by a donor who has been directly involved in a governmental decision in which the official has or will participate in the prior 12-month period. 2 Cal Code Regs §18944. A gift received by an employee from a non-agency source in an agency's employee raffle may be a reportable gift. 2 Cal Code Regs §18944.4. Intermediaries of gifts have an obligation to disclose the identity of the actual donor to the recipient. 2 Cal Code Regs §18945.3. Gifts of tickets or passes to events are regulated by 2 Cal Code Regs §18944.1, which in some circumstances requires both the city's ticket and pass gift policy and individual gifts to be posted to the city's website.

© The Regents of the University of California

§2.156 9. Loan Prohibitions

Public officials may not receive any personal loan aggregating more than $250 from any officer, employee, member, or consultant of, or from anyone who contracts with or is under the control of, the public official's governmental agencies. Loans made, or offered in writing, before January 1, 1998, are exempt from the prohibition. Govt C §87460. In addition, elected officials may not aggregate more than $500 from a single lender unless certain terms of the loan are specified in writing. Govt C §87461. Under certain circumstances, a personal loan that is not being repaid or is being repaid below certain amounts may become a gift to the official who received it. Govt C §87462.

© The Regents of the University of California

§2.157 10. Mass Mailing Restrictions

The sender of a mass mailing of 200 or more substantially similar pieces of mail sent at private expense and for a political purpose must place the name and address of the committee or candidate on the outside of the envelope. Govt C §§82041.5, 84305; see also 2 Cal Code Regs §18435. The sender is the candidate or committee who pays for the largest portion of expenditures attributable to the mailing. 2 Cal Code Regs §18435(b).

Mass mailings of 200 or more substantially similar pieces of mail in a single calendar month sent at public expense are subject to strict regulation. For example, the mailing may not contain the name, signature, or picture of an elected official affiliated with the agency except as part of a standard letterhead. Govt C §89001; 2 Cal Code Regs §18901. This restriction is inapplicable to a variety of items, such as press releases sent to members of the media, legal notices, telephone directories, agendas, and business cards. 2 Cal Code Regs §18901(b).

Local agencies are prohibited from sending campaign-related mailings. 2 Cal Code Regs §18901.1. The regulation prohibits sending at public expense, during the course of an election, more than 200 substantially similar items, such as a writing, videotape, or button that either (a) expressly advocates the election or defeat of a clearly identified candidate, or the qualification, passage or defeat of a clearly identified measure; or (b) unambiguously urges a particular result in an election. See Govt C §§8314, 54964, 82041.5, 89001; 2 Cal Code Regs §18901.1; see also *Stanson v Mott* (1976) 17 C3d 206, 130 CR 697 (distinguishing informational communication from campaign activities with respect to public agency's ability to spend public funds in connection with ballot measure election); *Vargas v City of Salinas* (2009) 46 C4th 1, 92 CR3d 286 (upholding *Stanson* and "style, tenor and timing" test to distinguish informational from campaign communications); Pen C §424 (embezzlement and falsification of accounts).

An item unambiguously urges a particular result in an election if it (a) is clearly campaign material or a campaign activity, such as a bumper sticker, billboard, door-to-door canvassing, or mass media advertising; or (b) can be reasonably characterized as campaign material and is not a fair presentation of facts serving only an informational purpose considering the style, tenor, and timing of the communication. See 2 Cal Code Regs §18901.1(c). A payment of public monies by a local agency or its agent made in connection with such a communication may also be considered a contribution under Govt C §82015 or an independent expenditure under Govt C §82031. See 2 Cal Code Regs §18420.1.

© The Regents of the University of California

§2.158 11. Revolving Door Prohibitions

Local elected officials, chief administrative officers, and city managers are prohibited from appearing before or communicating with their former agency for compensation in an attempt to influence legislative or administrative action or matters involving a permit, license, grant, or contract, or the sale or purchase of goods or property for 1 year after leaving that position. Govt C §87406.3. Local regulations may establish stricter (but not more lenient) revolving door standards than Govt C §87406.3. Govt C §87406.3(c).

© The Regents of the University of California

§2.159 12. Charitable Fund-Raising Under the Political Reform Act of 1974

Elected officials who solicit or behest contributions for principally a legislative, governmental, or charitable purpose equal to or exceeding $5000 in the aggregate from the same source in the same calendar year are subject to special disclosure requirements under the Political Reform Act of 1974. Govt C §82015(b)(2)(B)(iii). Within 30 days following the date on which the contribution or contributions equal or exceed $5000, the official must file a report with his or her agency that contains (Govt C §82015(b)(2)(B)(iii)):

- the name of and address of the contributor;
- the amount of the contribution;
- the date or dates on which the contribution(s) were made;
- the name and address of the contribution recipient; a brief description of the goods or services provided or purchased, if any; and
- a description of the specific purpose or event for which the contribution or contributions were made.

Once the $5000 aggregate threshold from a single source has been reached for a calendar year, all contributions for the calendar year made by that source must be disclosed within 30 days after the date the threshold was reached or the contribution was made, whichever occurs later. Within 30 days after receipt of such reports, local agencies must forward copies to the officer with whom elected officers of that agency file their campaign statements. Govt C §82015(b)(2)(B)(iii).

© The Regents of the University of California

§2.160 13. Enforcement of the Political Reform Act

The California Attorney General, the Fair Political Practices Commission (FPPC), and local district attorneys are empowered to enforce the Political Reform Act of 1974 (PRA) through criminal sanctions, civil liability, civil penalties, and administrative sanctions. Govt C §§83115-83124, 91000-91014.

- **Criminal Enforcement.** Generally, criminal violations of the PRA are prosecuted as misdemeanors. Govt C §91000. However, under certain circumstances, felony charges may be brought. Govt C §91002. A person convicted of violating the Act cannot be a candidate for elective office or act as a lobbyist for 4 years following the conviction. Govt C §91002.
- **Civil Enforcement.** Civil prosecution may be pursued by various persons, including residents of the jurisdiction, depending on the circumstances. Govt C §91004. Although the penalties for violations of various provisions of the PRA vary, civil penalties are generally based on the amount of money or value of a gift or contribution not reported. Penalties can be as high as $10,000 or three times the amount not reported, whichever is greater. Govt C §§89521, 91000. Other remedies available include injunctive relief, voiding of a governmental decision, civil damages, and attorney's fees. Govt C §§91003-91005, 91012.
- **Administrative Penalties.** The FPPC may levy administrative penalties after a hearing or by stipulation. Govt C §§83115-83124. Administrative penalties include a $5000 fine per violation, cease and desist orders, and orders to file reports. Govt C §83116.
- **Mitigating Factors/Immunity.** Because good faith is relevant in determining criminal and civil liability (Govt C §91001(c)), it is particularly important that affected individuals seek advice from their city attorney or the FPPC, or both, whenever a potential problem appears. However, only a formal written advice letter from the FPPC will confer immunity from liability under the PRA. Govt C §83114. City attorneys' liability for providing incorrect advice to local officials has been limited and clarified by regulatory provisions. Govt C §83116.5; 2 Cal Code Regs §18316.5.
- **Statute of Limitations.** The statute of limitations for civil and criminal enforcement actions is 4 years from the date of violation; and for administrative actions brought by the FPPC, 5 years from the date of violation. Govt C §§91000(c), 91000.5, 91011(b).

© The Regents of the University of California

§2.161 14. Mandatory Ethics Training

State law (AB 1234) imposes mandatory ethics training requirements on all local elected officials, legislative bodies eligible to receive reimbursements, and employees designated by the legislative body. Govt C §§53234-53235. Each local agency official must receive 2 hours training in ethics within the first year of service. Thereafter, those officials must receive 2 hours of training every 2 years. Govt C §§53235, 53235.1(b). The statute lists topics to be covered. Govt C §§53234-53235. Certified lobbyists are also required to complete an ethics orientation course. See Govt C §§8956, 86103, 86106; 2 Cal Code Regs §18603.1.

© The Regents of the University of California

§2.162 B. Prohibited Contracts Under Govt C §1090

City officers and employees may not have financial interests in contracts made by them or by any board or body of which they are members. Govt C §1090. Section 1090 was enacted before the Political Reform Act of 1974 (PRA) (Govt C §§6250-6276.48) and reflects the common law prohibition against self-dealing. See *Lexin v Superior Court* (2010) 47 C4th 1050, 103 CR3d 767; *City of Oakland v California Constr. Co.* (1940) 15 C2d 573, 576, 104 P2d 30; *Berka v Woodward* (1899) 125 C 119, 57 P 777; *Stockton Plumbing & Supply Co. v Wheeler* (1924) 68 CA 592, 597, 229 P 1020. Government Code section 1090 has been described as embodying the principle that the "duties of public office demand the absolute loyalty and undivided allegiance" of the office holder. *County of San Bernardino v Walsh* (2007) 158 CA4th 533, 550, 69 CR3d 848.

PRACTICE TIP: Section 1090 is liberally interpreted to prohibit any form of self dealing. *Thomson v Call* (1985) 38 C3d 633, 647, 214 CR 139, cert denied (1986) 474 US 1057. Extreme caution is warranted when providing advice on Section 1090 because of the severe consequences of a violation, and because reliance upon the advice of an attorney is not a defense. Govt C §1097; *People v Honig* (1996) 48 CA4th 289, 347, 55 CR2d 555.

Section 1090 was not repealed by the enactment of the PRA. See *City of Vernon v Central Basin Mun. Water Dist.* (1999) 69 CA4th 508, 81 CR2d 650; 59 Ops Cal Atty Gen 604, 617 (1976). In any situation, a person must act in a manner that satisfies the requirements of both the PRA and Section 1090. Govt C §81013; 59 Ops Cal Atty Gen 604, 617 (1976). Consequently, if a member of a body or board that authorizes a contract has a financial interest in the contract, the member may avoid a violation of the PRA by disclosure of the interest and abstention from participation in the decision, but disclosure and abstention will not avoid a violation of Section 1090, unless the member's financial interest is a "remote" or "non-interest" under narrow exceptions. See §2.167.

© The Regents of the University of California

§2.163 1. When Govt C §1090 Applies

The provisions of Govt C §1090 apply in two basic situations. First, if the financially interested city officer or city employee is a member of a board or other body that actually approves or executes the contract (*e.g.,* a city council), the potential conflict prohibits the city from entering into the proposed contract, regardless of whether or not the officer participates in or abstains from the actual decision. See *Thomson v Call* (1985) 38 C3d 633, 649, 214 CR 139, cert denied (1986) 474 US 1057. Second, if a staff or advisory board member has a financial interest in a contract with the city, there is a conflict only if that staff or advisory board member actually participates in making the contract. See *Fraser-Yamor Agency, Inc. v County of Del Norte* (1977) 68 CA3d 201, 137 CR 118; 82 Ops Cal Atty Gen 126, 129 (1999). In either case, if such a contract is made, the city may void it. Govt C §1092. Moreover, the agency may bring an action to disgorge any profit made by the financially interested official, in addition to receiving restitution for any payments made by the agency. *County of San Bernardino v Walsh* (2007) 158 CA4th 533, 69 CR3d 848.

© The Regents of the University of California

§2.164 2. To Whom Govt C §1090 Applies

Virtually all board members, officers, employees, and consultants of a public entity are considered public officials under Govt C §1090. See *Thomson v Call* (1985) 38 C3d 633, 214 CR 139, cert denied (1986) 474 US 1057 (council member); *California Hous. Fin. Agency v Hanover/Cal. Mgmt. & Accounting Ctr., Inc.* (2007) 148 CA4th 682, 692, 56 CR3d 92 (attorney whose official capacity carries the potential to exert "considerable" influence over the contracting decisions of public agency is "employee" under Section 1090, regardless of whether he or she would be considered independent contractor under common law tort principles); *Campagna v City of Sanger* (1996) 42 CA4th 533, 49 CR2d 676, and 70 Ops Cal Atty Gen 271 (1987) (contract city attorney); *City Council v McKinley* (1978) 80 CA3d 204, 145 CR 461 (parks and recreation board member); *People v Vallerga* (1977) 67 CA3d 847, 136 CR 429 (county employee); *Millbrae Ass'n for Residential Survival v City of Millbrae* (1968) 262 CA2d 222, 69 CR 251 (advisory board member); *Schaefer v Berinstein* (1956) 140 CA2d 278, 295 P2d 113 (person in advisory position to contracting agency); 46 Ops Cal Atty Gen 74 (1965) (consultant).

© The Regents of the University of California

§2.165 3. Contract-Making Broadly Defined

Government Code §1090 forbids a financially interested public official from any participation in the making of a contract, including preliminary discussions, negotiations, compromises, reasoning, planning, drawing of plans and specifications, and solicitations for bids and subsequent modifications to a contract and "follow-on" contracts. See *Stigall v City of Taft* (1962) 58 C2d 565, 25 CR 441; *City of Imperial Beach v Bailey* (1980) 103 CA3d 191, 162 CR 663; *City Council v McKinley* (1978) 80 CA3d 204, 212, 145 CR 461; *People v Sobel* (1974) 40 CA3d 1046, 115 CR 532; *Millbrae Ass'n for Residential Survival v City of Millbrae* (1968) 262 CA2d 222, 69 CR 251; 81 Ops Cal Atty Gen 134 (1998). However, participation in a statutorily mandated process in connection with the sale of property through eminent domain is not subject to §1090. See *Santa Clara Valley Water Dist. v Gross* (1988) 200 CA3d 1363, 1369, 246 CR 580. Section 1090 may also be applied to prohibit a former public official from benefiting from a contract after the official leaves office. *Stigall v City of Taft* (1962) 58 C2d 565, 25 CR 441; *City Council v McKinley* (1978) 80 CA3d 204, 212, 145 CR 461; 81 Ops Cal Atty Gen 134 (1998). But see 66 Ops Cal Atty Gen 156 (1988); 63 Ops Cal Atty Gen 868 (1980); 63 Ops Cal Atty Gen 19 (1980). On the other hand, the courts have rejected extending §1090 liability to those who merely aid and abet the violator. *D'Amato v Superior Court* (2008) 167 CA4th 861, 84 CR3d 497.

© The Regents of the University of California

§2.166 4. Financial Interest Under Govt C §1090

The financial interest of the public official may be either a direct or indirect interest. See *Thomson v Call* (1985) 38 C3d 633, 214 CR 139, cert denied (1986) 474 US 1057 (a complex multiparty transaction); *People v Deysher* (1934) 2 C2d 141, 146, 40 P2d 259 (a "devious and winding chain" of indirect interests); *People v Honig* (1996) 48 CA4th 289, 55 CR2d 555 (interest need not be direct or material); *Fraser-Yamor Agency, Inc. v County of Del Norte* (1977) 68 CA3d 201, 137 CR 118 (shareholder insulated from contract payments); *People v Vallerga* (1977) 67 CA3d 847, 136 CR 429 (contingent payment); *People v Sobel* (1974) 40 CA3d 1046, 115 CR 532 (primary shareholder in contracting party); *People v Watson* (1971) 15 CA3d 28, 92 CR 860 (debtor-creditor relationship); *Nielsen v Richards* (1925) 75 CA 680, 243 P 697 (spousal property); 86 Ops Cal Atty Gen 133 (2003) (council member's law firm providing pro bono services to the city); 69 Ops Cal Atty Gen 255 (1986) (spousal property); 66 Ops Cal Atty Gen 376 (1983) (public officers to receive commissions); 58 Ops Cal Atty Gen 670 (1975) (public official is employee of contract provider).

© The Regents of the University of California

§2.167 5. Statutory Exceptions: "Remote Interests" and "Non-interests"

Statutorily defined "remote" interests in a contract do not create a conflict if the officer or employee publicly discloses his or her financial interest, abstains from influencing or attempting to influence any member of the body in the making of the contract, the interest is noted in the body's official records, and the legislative body authorizes the contract in good faith by a sufficient vote without counting the vote of the party with the remote interest. Govt C §1091; see also Gov't Code §§1091.1-1091.4, 1091.5(a)(4). These sections contain a long list of remote financial interests that have developed iteratively over the years in response to court decisions and the Attorney General's opinions.

Government Code §1091.5 lists circumstances that are considered "non-interests" and therefore not subject to the prohibition of Govt C §1090. Each of these sections applies only in limited, highly particularized situations. Some non-interests under §1091.5 do not require disclosure or disqualification.

PRACTICE TIP 1: The remote interest and non-interest statutes are frequently amended and should be consulted each time the city attorney provides advice under §1090.

PRACTICE TIP 2: Care should be given to analyze and determine whether there are multiple financial interests involved in the same transaction.

© The Regents of the University of California

§2.168 6. The Rule of Necessity

The common law rule of necessity provides another exception to Govt C §1090 and ensures that essential government functions are performed even if a conflict of interest exists. The rule of necessity provides that a governmental agency may acquire essential goods or services despite a conflict of interest. *Eldridge v Sierra View Local Hosp. Dist.* (1990) 224 CA3d 311, 321, 273 CR 654. In nonprocurement situations, it permits a public officer to carry out the essential duties despite a conflict of interest when the officer is the only one who may legally act. 224 CA3d at 321; see also 88 Ops Cal Atty Gen 106 (2005).

The rule of necessity is rarely applied, such as "in extreme cases of emergency, or where no alternative source of supply of goods or services existed." 59 Ops Cal Atty Gen 604, 619, n 18 (1976). Although a city council's approval of the renewal, sale, assignment, or transfer of cable television franchise held by a city council member constitutes the making of a contract, the contract might not be prohibited if the rule of necessity could be applied under a particular set of circumstances. 76 Ops Cal Atty Gen 118 (1993); see also 88 Ops Cal Atty Gen 106 (2005).

© The Regents of the University of California

§2.169 7. Exception: "Salary"

The receipt of salary, per diem, or reimbursement for expenses from a government entity is a non-interest "unless the contract directly involves the department of the government entity that employs the officer or employee." Govt C §1091.5(a)(9).

© The Regents of the University of California

§2.170 8. Exception: Existing Contracts

Government Code §1090 is not violated if a public official has an interest in a contract that has been entered into before the official assumes office, and the contract may continue in force until its expiration. However, the pre-existing contract cannot be amended, extended, or renegotiated, and it is unclear whether it may be assigned, if such assignment requires the consent of the legislative body. See *City of Imperial Beach v Bailey* (1980) 103 CA3d 191, 162 CR 663. See also 76 Ops Cal Atty Gen 118 (1993).

© The Regents of the University of California

§2.171 9. Reliance on Legal Advice Not a Defense

Even good faith reliance on the advice of the city attorney that one's conduct is legal will not constitute a defense to a Govt C §1090 violation. See *People v Chacon* (2007) 40 C4th 558, 53 CR3d 876. Nor can an official convicted of violating Govt C §1090 maintain a legal malpractice action against such government attorney. *Chapman v Superior Court* (2005) 130 CA4th 261, 29 CR3d 852.

© The Regents of the University of California

§2.172 10. Applicable Penalties

The maximum penalty for a willful violation of Govt C §1090 is a felony conviction with a maximum fine of $1000 or imprisonment in the state prison and the official is "forever disqualified from holding any office in this state." Govt C §1097. Also, a contract made in violation of Section 1090 is void and payment prohibited. Govt C §§1092, 1095. See also *Thomson v Call* (1985) 38 C3d 633, 214 CR 139, cert denied (1986) 474 US 1057. Moreover, the agency may bring an action to disgorge any profit made by the financially interested official. *County of San Bernardino v Walsh* (2007) 158 CA4th 533, 69 CR3d 848.

PRACTICE TIP: No city employee, including the city attorney, should participate on behalf of the city in making that employee's own contract with the city. If the city requires legal advice on the city attorney's contract, the city attorney cannot provide it. As to contract city attorneys, see 2 Cal Code Regs §18700(d)(3); the Fair Political Practices Commission's McEwen Advice Letter No. I 92 481 and the Eckis Advice Letter No. A 93 270; *People v Gnass* (2002) 101 CA4th 1271, 125 CR2d 225; *Campagna v City of Sanger* (1996) 42 CA4th 533, 49 CR2d 676. These authorities consider the application of the Political Reform Act of 1974 (Govt C §§81000-91014) to a contract city attorney participating in the making of his or her contract with the city and participation in city decisions that could affect the amount of fees paid to that contract attorney.

© The Regents of the University of California

§2.173 11. Statute of Limitations Under Govt C §1090

The statute of limitations for a criminal prosecution under Govt C §1090 is 3 years and is tolled until the crime is discovered. Pen C §§801, 803(c). The courts interpret "discovery" to require reasonable diligence by persons or agencies with a legal duty to report and investigate crimes. See *People v Zamora* (1976) 18 C3d 538, 572, 134 CR 784. See also *People v Honig* (1996) 48 CA4th 289, 55 CR2d 555; *People v Kronemyer* (1987) 189 CA3d 314, 340, 234 CR 442. An action by a city to avoid a contract based on a violation of §1090 must be commenced within 4 years after the plaintiff has discovered, or in the exercise of reasonable care should have discovered, a violation. Govt C §1092(b).

PRACTICE TIP: The 4-year statute of limitations in Govt C §1092(b) to avoid a contract for a violation of §1090 appears to supersede *Brandenburg v Eureka Redev. Agency* (2007) 152 CA4th 1350, 62 CR3d 339 (§1090 challenge to the approval of a development and disposition agreement is subject to 1-year statute of limitations applicable to actions on a "statute for a penalty or forfeiture"). See Stats 2007, ch 68 (adding Govt C §1092(b)).

© The Regents of the University of California

§2.174 C. Common Law Doctrine Against Conflicts of Interest

The common law doctrine against conflicts of interest is the judicial expression of the public policy against public officials using their official positions for private benefit. See *Terry v Bender* (1956) 143 CA2d 198, 206, 300 P2d 119. This doctrine has been primarily applied to require a public official to abstain from participation in cases when the public official's private financial interest may conflict with his or her official duties. 64 Ops Cal Atty Gen 795, 797 (1981). By virtue of holding public office, an elected official is impliedly bound to exercise the powers conferred on him or her with disinterested skill, zeal, and diligence and primarily for the benefit of the public. See *Noble v City of Palo Alto* (1928) 89 CA 47, 51, 264 P 529. An elected official bears a fiduciary duty to exercise the powers of office for the benefit of the public and is not permitted to use those powers for the benefit of private interest. See *Nussbaum v Weeks* (1989) 214 CA3d 1589, 1597, 263 CR 360. Violation of the common law duty to avoid conflicts of interest can constitute official misconduct and result in a loss of office. Govt C §§3060-3-74; *Nussbaum v Weeks, supra*.

The Common Law Doctrine survived the enactment of the Political Reform Act of 1974 (Govt C §§81000-91014). See *Clark v City of Hermosa Beach* (1996) 48 CA4th 1152, 1171, 56 CR2d 223, cert denied (1997) 520 US 1167. However, a more recent court decision indicates a reluctance to find a violation of the common law doctrine against conflicts of interest when statutory conflict of interest laws are not violated. See *BreakZone Billiards v City of Torrance* (2000) 81 CA4th 1205, 1233, 97 CR2d 467.

© The Regents of the University of California

D. Incompatible Activities and Offices

§2.175 1. Incompatible Activities

A non-elected local agency officer or employee may not engage in any employment, activity, or enterprise for compensation that is inconsistent, incompatible, or in conflict with his or her duties as a local agency officer or employee. Govt C §1126(a)-(b); *Mazzola v City & County of San Francisco* (1980) 112 CA3d 141, 169 CR 127; 70 Ops Cal Atty Gen 271 (1987). A local agency must adopt rules on incompatible activities and include provisions to give notice of the determination of prohibited activities, of any disciplinary action to be taken for engaging in prohibited activities, and for the appeal of such determination and application. Govt C §1126(c).

PRACTICE TIP: Notice of the incompatible activity can be achieved by adopting a policy identifying those activities. However, if a particular activity is not covered, but later found to be incompatible, a notice of determination should be given to the employee along with an opportunity to conform before discipline is considered.

© The Regents of the University of California

§2.176 2. Incompatible Offices

Under the traditional common law rule, a public officer who is appointed or elected to another public office and enters the duties of the second office automatically vacates the first office if the two offices are incompatible. See *People ex rel Chapman v Rapsey* (1940) 16 C2d 636, 644, 107 P2d 388. Offices are incompatible, in the absence of statutes suggesting a contrary result, if any significant clash of duties exists between the two offices, if the dual office holdings would be improper for reasons of public policy, or if either officer exercises a supervisory, auditory, or removal power over the other. 16 C2d at 640; 38 Ops Cal Atty Gen 113 (1961). Although the common law doctrine of incompatible offices is in Govt C §1099, an uncodified provision provides the statute was not intended to expand or narrow the common law and also that courts be guided by already developed precedent in interpreting this provision. Govt C §1099. See also Stats 2005, ch 254, §§1-2 (SB 274).

© The Regents of the University of California

§2.177 a. "Offices"

The common law rule applies only to offices. Govt C §1099(c). Courts usually first determine whether the positions are offices and, second, whether they are compatible. See 90 Ops Cal Atty Gen 24 (2007); 56 Ops Cal Atty Gen 556, 557 (1973); 40 Ops Cal Atty Gen 238, 239 (1962). The most general characteristic of a public officer is that a public duty is delegated and entrusted to him or her as an agent, the performance of which is an exercise of a part of the governmental functions of the particular unit for which he or she, as agent, is acting. See *Spreckels v Graham* (1924) 194 C 516, 529, 228 P 1040; *Coulter v Pool* (1921) 187 C 181, 187, 201 P 120; 56 Ops Cal Atty Gen 557, 558 (1973). A position as an "employee" or advisory board member is not necessarily a position as an "officer" for purposes of incompatibility. Govt C §1099(c)-(d); 83 Ops Cal Atty Gen 153 (2000); 73 Ops Cal Atty Gen 191 (1990) (a schoolteacher is an employee, not an officer).

© The Regents of the University of California

§2.178 b. Potential for Conflict

For the second part of the analysis, the court considers whether the offices are incompatible. It is enough if there is a potential for a significant clash between the two offices at some point in the future. See 64 Ops Cal Atty Gen 288 (1981). So long as some of the principal or important duties of the offices are in conflict, then the offices are incompatible. See *People ex rel Deputy Sheriff's Ass'n of Santa Clara County v County of Santa Clara* (1996) 49 CA4th 1471, 1481, 57 CR2d 322. See also *People ex rel Chapman v Rapsey* (1940) 16 C2d 636, 107 P2d 388.

© The Regents of the University of California

§2.179 c. Examples of Incompatible Offices

Some examples of incompatible offices are:

- Offices of city council member and director of water reclamation district wholly encompassing the city; see 91 Ops Cal Atty Gen 25 (2008);
- Offices of city council member and county planning commissioner; see 63 Ops Cal Atty Gen 607 (1980);
- Offices of city council member and school board member; see 65 Ops Cal Atty Gen 606 (1982);
- Offices of city planning commissioner and county planning commissioner; see 66 Ops Cal Atty Gen 293 (1983);
- Offices of deputy sheriff and county supervisor, see 68 Ops Cal Atty Gen 7 (1985); and
- Water district and city council member; see 82 Ops Cal Atty Gen 74 (1999).

PRACTICE TIP: There is no prohibition on spouses serving on a city council or on a council and an appointed commission. See *Kimura v Roberts* (1979) 89 CA3d 871, 152 CR 569, which suggests this might present a conflict of interest, but the case may be read in a number of ways and should not be regarded as dispositive of this issue.

© The Regents of the University of California

§2.180 E. Impermissible Bias

Due process requires in a quasi-judicial proceeding the decision-maker be fair and impartial. A personal interest or involvement in the outcome of a matter, or with any participants, that is unrelated to the merits requires disqualification. See *City of Fairfield v Superior Court* (1975) 14 C3d 768, 122 CR 543. See also *Mennig v City Council* (1978) 86 CA3d 341, 150 CR 207. This rule does not preclude holding opinions, philosophies, or strong feelings about issues or specific projects; it also does not proscribe expression of views about matters of importance in the community, particularly during an election campaign. See *City of Fairfield v Superior Court* (1975) 14 C3d 768, 122 CR 543. However, it does preclude participation by even a reasonably impartial non-involved decision-maker who has been demonstrated to have an unacceptable probability of actual bias such as through prejudgment. See *Nasha v City of Los Angeles* (2004) 125 CA4th 470, 22 CR3d 772. See also *Cohan v City of Thousand Oaks* (1994) 30 CA4th 547, 35 CR2d 782. However, in the absence of financial or other personal interest, and when rules mandating an agency's internal separation of functions and prohibiting ex parte communications are observed, the presumption of impartiality can be overcome only by specific evidence demonstrating actual bias or a particular combination of circumstances creating an unacceptable risk of bias. *Morongo Band of Mission Indians v State Water Resources Control Bd.* (2009) 45 C4th 731, 741, 88 CR3d 610. Moreover, a council member who receives campaign contributions from an applicant that seeks a quasi-judicial land use decision from the city or who is the appellant that brings the matter before the city council for review is not automatically disqualified from participating due to bias or prejudgment of adjudicative facts. See *BreakZone Billiards v City of Torrance* (2000) 81 CA4th 1205, 1235, 97 CR2d 467.

© The Regents of the University of California

F. Disclosure Requirements and Prohibited Redevelopment Agency Conflicts

§2.181 1. Redevelopment Agency Officers and Employees

Officers and employees of a redevelopment agency are required to disclose any property owned, and direct or indirect financial interests in any property, within the redevelopment project area. The disclosure must be made in writing to the city and the redevelopment agency, and entered in their respective minutes. Health & S C §33130(a).

Officers and employees of a redevelopment agency are generally prohibited from acquiring any interest in property included within that redevelopment project area if the officer or employee is required to participate in formulating or approving plans or policies for the redevelopment project. Health & S C §§33130, 33130.5; *Old Town Dev. Corp. v Urban Renewal Agency of the City of Monterey* (1967) 249 CA2d 313, 326, 57 CR 426. However, an exception allows an officer or employee to acquire a property interest within the project area for the purpose of participating as an owner or reentering into business under Health & S C §33130, when the officer or employee owned a substantially equal interest to that being acquired for the 3 years before the selection of the project area. Health & S C §33130(b). Another exception allows an officer or employee to purchase or lease property in the project area if the redevelopment agency has completed certification of the improvements to the property or have certified that no work needs to be done. Health & S C §33130.5. If one of the exceptions applies, immediate disclosure of the property interest is required and failure to do so constitutes misconduct in office. Health & S C §§33130(a), 33130.5.

PRACTICE TIP: If a city has a redevelopment plan, new council members and commissioners participating in redevelopment plans or policies should be advised of the above prohibition when they take office. If they own any property interest within a redevelopment project area when they take office, such interest should be disclosed and entered into the minutes of both the city council and the redevelopment agency. Health & S C §§33130(a), 33201(b)(1).

© The Regents of the University of California

§2.182 2. Redevelopment Commission Members

Any member of a community redevelopment commission is prohibited from acquiring any interest in property located within the redevelopment project area. Health & S C §33201. A member who owns or has any direct or indirect financial interest in any property within a project area must immediately make a written disclosure of that interest to the legislative body. Health & S C §33201.

© The Regents of the University of California

§2.183 3. Acquiring Property From Agency Personnel

"An agency shall not acquire from any of its members or officers any property or interest in property except through eminent domain proceedings." Health & S C §33393.

© The Regents of the University of California

§2.184 G. Local Incompatible Activity Regulations

Many local jurisdictions have charter provisions and other legislative or administrative provisions related to ethics, conflicts, campaign financing, and incompatibility of office. If the provisions affect employees, these rules are to include a provision for giving notice of prohibited activity, disciplinary action if employees engage in prohibited activity, and a procedure for employees to appeal a determination of the violation. Govt C §1126; *Long Beach Police Officers Ass'n v City of Long Beach* (1988) 46 C3d 736, 250 CR 869.

© The Regents of the University of California

§2.185 H. City Lobbying Allowed

Cities have specific statutory authority to participate in lobbying. Govt C §50023. See also *Lehane v City & County of San Francisco* (1972) 30 CA3d 1051, 106 CR 918, appeal dismissed (1973) 410 US 962, 35 L Ed 2d 698, 93 S Ct 1445 (upholding San Francisco's contributions to the League of California Cities under Govt C §50023).

© The Regents of the University of California

§2.186 1. Lobbying Reporting Requirements

State and local agencies are required to file periodic reports that describe lobbying efforts, including dues paid to organizations that expend $15,000, or more than 10 percent of their total expenditures, to influence legislative or administrative actions. Govt C §§86115-86116, 86116.5.

© The Regents of the University of California

§2.187 2. Local Regulation of Lobbying

Cities have limited authority to control and register lobbyists appearing on behalf of clients before boards or agencies of that city. The registration of lobbyists is, of necessity, restricted by other state laws that control particular areas. See, *e.g., Baron v City of Los Angeles* (1970) 2 C3d 535, 86 CR 673 (power of the city to register and regulate lobbyists limited to those areas where there is no preemption by other regulatory measures).

On revolving door prohibition of former agency personnel, see §2.158

© The Regents of the University of California

§2.188 I. Ethical Obligations for Government Lawyers

The following sections of this handbook (see §§2.189-2.216) deal with professional obligations of lawyers under the California Rules of Professional Conduct and related sections of the California Business and Professions Code regulating lawyers. It does not discuss ethical obligations faced by all lawyers in private practice or by public lawyers with personal financial or other interests adverse to their clients. It also briefly discusses related but distinct constitutional due process and conflict of interest standards as they apply to government lawyers. The League of California Cities has also published a guidebook, Practicing Ethics: A Handbook for Municipal Lawyers (2004), which provides a more focused and expanded discussion of a public lawyer's professional ethical issues. (Contact the League of California Cities, 1400 K Street, Sacramento, California 95814, telephone (916) 658-8257; website www.cacities.org.) In addition, the City Attorney's Department for the League of California Cities has adopted the Ethical Principles for City Attorneys, available at www.cacities.org/attorneys.

© The Regents of the University of California

§2.189 1. Professional, Situational, Categorical Ethics—Distinguished

The professional ethical standards imposed on lawyers discussed in this handbook are only a partial answer to ethical dilemmas. Professional ethical laws and rules are created to provide a society's members a common level of cooperation and are often the result of compromise. They do not address categorical ethics. Professional and situational ethics likely rely on a given set of facts as a foundation to rationalize an action and involve a determination of what is right or wrong depending on the circumstances. Categorical ethics, by contrast, involve that which is right or wrong in some absolute sense. Situational or professional ethics do not necessarily tell that society's members whether they are conforming to a categorical ethical standard. The discussion of categorical ethics is beyond the scope of this handbook. For a brief bibliography of sources discussing categorical ethics see §2.217.

© The Regents of the University of California

§2.190 2. Regulation of California Attorneys

In California, lawyers are regulated by both the California State Legislature and the California Supreme Court under California Rules of Professional Conduct promulgated by the California State Bar Board of Governors and approved by the Court. See State Bar Act (Bus & P C §§6000-6238); Bus & P C §6076. "In the field of attorney-client conduct … the judiciary and the Legislature are in some sense partners in regulation." *Santa Clara County Counsel Attorneys' Ass'n v Woodside* (1994) 7 C4th 525, 543, 28 CR2d 617, overruled on other grounds by *Coachella Valley Mosquito & Vector Control Dist. v California Pub. Employment Relations Bd.* (2005) 35 C4th 1072, 29 CR3d 234. Courts can apply standards higher than the minimum set by the Legislature. *Santa Clara County Counsel Attorneys' Ass'n,* 7 C4th 525, 544. Not all duties of attorneys are described in the California Rules of Professional Conduct. *Santa Clara County Counsel Attorneys' Ass'n,* 7 C4th at 544. The ABA Model Code is not applicable in California; it is only applicable to jurisdictions, unlike California, that have specifically adopted its provisions. California courts do look to the ABA Model Code for guidance when California does not have a rule directly addressing an issue. See *State Compensation Ins. Fund v WPS, Inc.* (1999) 70 CA4th 644, 655, 82 CR2d 799. See also Cal Rules of Prof Cond 1-100 (noting that members may look to rules and standards promulgated by other bar associations). California courts also refer to cases from other jurisdictions when interpreting sections of the ABA Model Code that are analogous to particular California Rules of Professional Conduct.

© The Regents of the University of California

§2.191 3. State Bar Rules Apply to Government Attorneys

The California Rules of Professional Conduct apply to public lawyers. See *People ex rel Deukmejian v Brown* (1981) 29 C3d 150, 157, 172 CR 478.

PRACTICE TIP: The State Bar's compendium on professional responsibility is a helpful looseleaf, two-volume binder. It contains the current rules and ethics opinions of the Bar and of local bar associations. Its index includes a heading for "government lawyers," which is further broken down into particular subjects pertaining to government lawyers. Relevant case law is organized under this index in a useful way.

© The Regents of the University of California

4. Representing Governmental Entities

§2.192 a. Cal Rules of Prof Cond 3-600(A): Organization as Client

California Rules of Professional Conduct 3-600 governs the ethical obligations of a lawyer who represents an entity rather than a natural person. The client in such a representation is the entity itself as embodied in the "highest authorized officer, employee, body or constituent overseeing the particular engagement." Cal Rules of Prof Cond 3-600(A). Thus, for the city attorney, the city itself, and not any individual public official, is the client. See *Ward v Superior Court* (1977) 70 CA3d 23, 32, 138 CR 532 (county counsel's client is County of Los Angeles and not county assessor in his individual capacity and thus county counsel was not disqualified from representing the county in a suit brought against it by county tax assessor). State Bar Ethics Opinion No. 2001-156 concluded the city was the client and that a city attorney could advise both the mayor and city council about the legality of an ordinance even though the mayor and the council had antagonistic positions and the council had the power to adopt the ordinance and the mayor had the power to veto it.

PRACTICE TIP: The rule that the city itself is the client helps obviate the need for city attorney disqualification merely because council members are at odds with one another over an issue, or the council and manager have a dispute. The highest official or body with the requisite authority is ascertained by a review of the organic law applicable to the city or other client entity. For most cities, this is usually the city council. There can be instances in which the public lawyer has more than one client. When the government attorney has more than one client whose interests are adverse as to the same matter, the attorney is disqualified under Cal Rules of Prof Cond 3-310 from representing either client, absent informed written consent. See §§2.197-2.198, 2.202.

© The Regents of the University of California

§2.193 b. Cal Rules of Prof Cond 3-600(B): Reporting Illegal Activity

Under Cal Rules of Prof Cond 3-600(B), an entity's lawyer who becomes aware of the conduct of an entity's agent that may be or is a violation of law "reasonably imputable to the organization" or "is likely to result in substantial injury to the organization," may take the matter to the "highest internal authority within the organization." No confidential information may be disclosed beyond the organization, unless it is to prevent a criminal act that the attorney reasonably believes is likely to result in death of, or substantial bodily harm to, an individual, but only after the attorney has exhausted all options to convince the client not to commit the criminal act. See Cal Rules of Prof Cond 3-600; Bus & P C §6068(e)(2). The attorney also retains the right and duty to resign employment, if appropriate. See Cal Rules of Prof Cond 3-600(C), 3-700.

PRACTICE TIP 1: Be sure that the matter being reported is a failure to cure a legal problem or to advise of a substantial legal risk, not a failure to resolve a policy problem in the way the city attorney believes is best. The city attorney's obligation is to provide all legal options available and to advise of any legal risk. The official receiving that advice has the right to make policy decisions, based on the legal options provided and legal risk entailed.

PRACTICE TIP 2: Although not clearly established in the California Rules of Professional Conduct, or by case law, many city attorneys believe that an obligation likely exists to report significant wrongdoing to the highest body in the client entity, when the lower level officials fail to take the recommended corrective action.

© The Regents of the University of California

§2.194 c. Cal Rules of Prof Cond 3-600(D): Duty Not to Treat Agent as Client or to Promise Confidentiality

Under Cal Rules of Prof Cond 3-600(D), whenever the government attorney becomes aware that an official's interest may be adverse to that of the client entity, the attorney must explain to the official that he or she represents the client entity and not the individual official and must not mislead the official into thinking that information provided by the official will be withheld from the organization.

PRACTICE TIP 1: Make clear from the outset that the city attorney's duty runs to the city itself and the entire council, rather than to an individual elected official or city employee. Some city attorneys provide standing memoranda to their councils explaining this principle.

PRACTICE TIP 2: When giving advice to an individual council member, make it clear that advice is provided to the council member in his or her official capacity and that the advice is subject to disclosure to the entire council. A city attorney should consider sharing any advice given to an individual council member on matters that could invalidate the city council's action (for example, issues related to preemption or the constitutionality of a particular action) with the entire council.

© The Regents of the University of California

§2.195 d. Cal Rules of Prof Cond 3-600(E): Joint Representation of Official or Employee and Entity

California Rules of Professional Conduct 3-600(E) requires the consent of the entity before the entity's lawyer undertakes to represent the entity and its official or employee. However, the California Tort Claims Act imposes a duty to defend and indemnify public officials. Govt C §995. Although this statutory obligation, in effect, embodies consent to employee representation by operation of law, these areas of joint representation can create Cal Rules of Prof Cond 3-310 conflicts of interest. See §§2.196-2.203.

PRACTICE TIP: Evaluating the facts behind the case and the representation are critical to determining whether the agency and the employee or official may be represented by the same counsel. Such situations may involve cumis counsel, *Lybarger* concerns, and other joint counsel issues when the parties may have disparate interests. See *Lybarger v City of Los Angeles* (1985) 40 C3d 822, 221 CR 529. See also §4.294 on *Lybarger* warnings and §13.143 on Cumis counsel and duty to defend.

© The Regents of the University of California

§2.196 5. Cal Rules of Prof Cond 3-310: Conflicts of Interest

California Rules of Professional Conduct 3-310 governs conflicts of interest. The rule itself applies broadly to a wide range of possibly conflicting interests, including personal, business, or other interests of the lawyer that are adverse to those of the client. The following sections of this handbook (see §§2.197-2.198) only examine conflicts of interest caused by the simultaneous or successive representation of clients whose interests are adverse to one another. Such conflicts of interests involving adverse clients generally fall into two categories: (1) simultaneous representation of adverse interests and (2) successive representation of adverse interests.

© The Regents of the University of California

§2.197 a. Simultaneous Representation of Adverse Interests

The simultaneous representation of adverse interests arises when two or more clients who are concurrently represented by the same lawyer, firm, or office, are adverse to one another, in either the same or a different matter. Such simultaneous representation as to the very same matter is per se prohibited because it violates the duty (and client's expectation) of loyalty and notwithstanding the language of Cal Rules of Prof Cond 3-310, clients cannot give informed written consent. See *Flatt v Superior Court (Daniel)* (1994) 9 C4th 275, 284, 36 CR2d 537. Simultaneous representation as to different matters is permitted by Cal Rules of Prof Cond 3-310, provided the parties each execute informed written consents. See also §2.204.

© The Regents of the University of California

§2.198 b. Successive Representation of Client With Interest Adverse to That of Former Client

This issue arises when the representation of a current client creates an adverse relationship with a former client. Such successive representation is prohibited if there is a substantial relationship between the current matter and the prior representation. If there is a substantial relationship, the majority opinion presumes the lawyer acquired confidential information and the subsequent adverse representation is barred without the prior client's informed written consent. In addition, under the rule of vicarious disqualification, not only the lawyer who represented the former client, but also his or her entire office, is also disqualified. The major ethical concern in such cases of successive representation is violation of the duty of confidentiality. See *Flatt v Superior Court (Daniel)* (1994) 9 C4th 275, 283, 36 CR2d 537. However, this is only a presumption that can be rebutted if an attorney or firm resisting the disqualification can show that a conflict does not exist, that the disqualification creates a hardship to the new client, or that the presumed conflict is being abused as an improper tactical maneuver. In those situations, courts have declined to order vicarious disqualification of a firm if the challenged attorney is unlikely to have acquired confidential information from the former client. See *Rhaburn v Superior Court* (2006) 140 CA4th 1566, 1575, 45 CR3d 464. The California Supreme Court upheld the vicarious disqualification of the entire San Francisco City Attorney's Office when the lead attorney had a conflict. *City & County of San Francisco v Cobra Solutions, Inc.* (2006) 38 C4th 839, 43 CR3d 771. See §2.205. The California Supreme Court revisited public law office disqualification in *In re Charlisse C. v Shadonna C.* (2008) 45 C4th 145, 84 CR3d 597. Reflecting a more pragmatic view, the court held that "ethical screening might suffice to shield a senior supervisory attorney with a personal conflict and thus avoid vicarious disqualification of the entire government legal unit under that attorney's supervision." 45 C4th at 165 (quoting *City & County of San Francisco v Cobra Solutions, Inc.* (2006) 38 C4th 839, 850, 43 CR3d 771).

© The Regents of the University of California

§2.199 c. Determining Client in Representation of Quasi-Independent Boards and Officials

The client is the entity itself as embodied in the "highest authorized officer, employee, body or constituent overseeing the particular engagement." Cal Rules of Prof Cond 3-600(A). See also §2.192. When evaluating conflicts of interests in the representation of an advisory body, it is essential for the attorney to determine whether the advisory body is an agent of the entity, or a separate entity and therefore an independent client.

© The Regents of the University of California

§2.200 (1) Civil Service Commission or Advisory Bodies

In *Civil Serv. Comm'n v Superior Court* (1984) 163 CA3d 70, 209 CR 159, county counsel representing the civil service commission was disqualified under Cal Rules of Prof Cond 3-310 from representing the county board of supervisors in a suit against the commission because the entities were separate and county counsel could not represent both agencies in the same matter. On the other hand, a Project Advisory Board with purely advisory powers was found not to be a separate client of the city attorney and thus not entitled to independent counsel. *North Hollywood Project Area Comm. v City of Los Angeles* (1998) 61 CA4th 719, 71 CR2d 675.

© The Regents of the University of California

§2.201 (2) Attorney General and Sheriff

California Rules of Professional Conduct 3-310 prohibited the Attorney General from suing a client department on a matter on which he advised that department. *People ex rel Deukmejian v Brown* (1981) 29 C3d 150, 172 CR 478. An independently elected sheriff may become a client separate from the county entitled to separate representation. See 80 Ops Cal Atty Gen 127 (1997), in which the Attorney General advised that when a county counsel takes a position in favor of the interests of the county board of supervisors and adverse to the interests of the sheriff, a conflict of interest may exist that entitles the sheriff to separate legal representation in that matter by independent counsel, at the agency's expense.

© The Regents of the University of California

§2.202 d. Ethical Walls to Avoid Conflicts in Public Law Offices

Devices employed to screen lawyers in separate branches of publicly funded law offices from one another have been allowed for the representation of clients with adverse interests. See cases discussed in *People v Christian* (1996) 41 CA4th 986, 997, 48 CR2d 867. See also *City & County of San Francisco v Cobra Solutions, Inc.* (2006) 38 C4th 839, 43 CR3d 771. Subject to an ethical wall, the county counsel's office may simultaneously represent both the public guardian in the conservatorship proceeding and the county in a petition to declare the conservatee's child a ward of the court. *In re Lee G.* (1991) 1 CA4th 17, 1 CR2d 375 (separate matters being handled by different divisions and different attorneys).

PRACTICE TIP: Agreeing in advance how to resolve conflicts can avoid problems when the conflict arises. See, *e.g., Elliott v McFarland Unified Sch. Dist.* (1985) 165 CA3d 562, 571, 211 CR 802, in which two school districts entered into a joint powers agreement and the agency thus created was represented by one of their counsel. The districts agreed that if a conflict of interest arose, that counsel could continue to represent his own district and the other district would obtain its own counsel. Thus, the other school district had granted informed written consent to the successive adverse representation by the school district counsel of his own district.

Informed written consent is an option to avoid a conflict, but it must be based on the circumstances actually contemplated by the consent granted. If the consent was not informed or circumstances change so that consent is vitiated, the waiver is not effective.

© The Regents of the University of California

§2.203 e. Duty of Confidentiality, Whistle-Blowing

Separate and distinct from the attorney-client privilege are lawyers' ethical duties to maintain their clients' confidences. Bus & P C §6068. Neither the attorney-client privilege, codified in Evid C §954, nor the ethical duty to protect client confidences under Bus & P C §6068 are subordinated to the whistle-blowing provisions of California law. 84 Ops Cal Atty Gen 71 (2001). To the extent the whistle-blowing may prevent a criminal act that the attorney reasonably believes is likely to result in death of, or substantial bodily harm to, an individual, Cal Rules of Prof Cond 3-100 and Bus & P C §6068(e)(2) would permit, but not require, disclosure of confidential information after the attorney exhausts attempts to convince the client not to commit the criminal act. In light of the public nature of most information in a public entity and the recognition, in other contexts, that public lawyers have special duties to the public, lawyer whistle-blowing may be permissible when the information is not confidential. In some very limited instances, there may be a statutory duty to report wrongdoing. Govt C §1096 (imposing a duty on any officer involved with payments on contracts to report violations of Govt C §1090 to district attorney).

© The Regents of the University of California

6. Special Considerations for the Public Sector

§2.204 a. Public Attorney's Simultaneous Representation of Adverse Interests

The general rule is that "a public attorney, acting solely and conscientiously in a public capacity, is not disqualified to act in one area of his or her public duty solely because of similar activity in another such area." *In re Lee G.* (1991) 1 CA4th 17, 29, 1 CR2d 375. "The question, therefore, is not whether a lawyer in a particular circumstance 'may' or 'might' or 'could' be tempted to do something improper, but whether the likelihood of such a transgression, in the eye of the reasonable observer, is of sufficient magnitude that the arrangement ought to be forbidden categorically." *Castro v Los Angeles County Bd. of Supervisors* (1991) 232 CA3d 1432, 1444, 284 CR 154. See also *In re Lee G.,* 1 CA4th at 29. See §2.197.

© The Regents of the University of California

§2.205 b. Public Attorney's Successive Representation of Adverse Interests

In *City of Santa Barbara v Superior Court (Stenson)* (2004) 122 CA4th 17, 18 CR3d 403, the Santa Barbara city attorney's office hired a new deputy city attorney from a private law firm. That law firm had been currently representing a private, adverse party in litigation against the city. While at that private firm, the new deputy had provided legal services to the firm's client on the same litigation. The court approved the use of an "ethical wall" to permit the city attorney's office to continue to represent the city. In making its decision not to disqualify the entire city attorney's office, the court considered the added costs that a client disqualification can cause, the right of a client to select counsel, the effectiveness of a city attorney's office to carry out its duties, the ability of private and public law offices to hire experienced lawyers, and whether use of an ethical screen would be likely to erode public confidence in the administration of justice, the integrity or the bar, and the professionalism of the city attorney's office.

In *City & County of San Francisco v Cobra Solutions, Inc.* (2006) 38 C4th 839, 43 CR3d 771, the San Francisco city attorney's office prosecuted a case that was adverse to a former client of the elected city attorney. The city attorney was screened from all involvement in the case and the chief assistant city attorney and deputy city attorneys litigated the case. Nonetheless, the California Supreme Court upheld the disqualification of the entire office, imputing the city attorney's conflict to the whole office on the rationale that attorneys, working together and practicing law in a professional association, share each other's and their clients' confidential information. *City of Santa Barbara* was distinguished because the attorney who was subject to ethical screening was simply one of the attorneys in the government office, not the city attorney under whom and at whose pleasure all deputy city attorneys serve. The California Supreme Court reserved judgment on the question of whether ethical screening might suffice to shield a senior supervising attorney with a personal conflict and thus avoid vicarious disqualification of the entire government legal unit under that attorney's supervision. *City & County of San Francisco v Cobra Solutions, Inc.,* 38 C4th at 853. See §2.198. The California Supreme Court revisited public law office disqualification in *In re Charlisse C. v Shadonna C.* (2008) 45 C4th 145, 84 CR3d 597. Reflecting a more pragmatic view, the court held that "ethical screening might suffice to shield a senior supervisory attorney with a personal conflict and thus avoid vicarious disqualification of the entire government legal unit under that attorney's supervision." 45 C4th at 165 (quoting *City & County of San Francisco v Cobra Solutions, Inc.,* 38 C4th at 850).

© The Regents of the University of California

c. Conflicts in Joint Representation of Employees and the Entity

§2.206 (1) Duty to Defend

Conflicts of interest can arise in the joint representation of employees and the city. For example, conflicts can occur when the city is considering disciplinary action against the employee at the same time as it is contemplating representing the employee in a civil action arising out of the conduct. In that situation, the agency should retain separate legal representation for the employee, with a reservation of rights for the payment of such services if warranted. Nevertheless, there are also times when the agency can simply deny the employee a separate defense when the city offered a joint defense. See *City of Huntington Beach v Petersen Law Firm* (2002) 95 CA4th 562, 115 CR2d 568.

PRACTICE TIP 1: Whenever an employee is potentially subject to discipline for the same acts as the ones at issue in the suit, there will always be a conflict of interest under Cal Rules of Prof Cond 3-310 because the interests of the entity and the individual are adverse to one another, and the same lawyer simply may not represent both. In a large city attorney's law office, it may be possible to employ screening devices to wall off the lawyers prosecuting the disciplinary matter from the lawyers handling the tort suit, but screening has been employed in very limited circumstances and may not be found to satisfy the prohibitions imposed by Cal Rules of Prof Cond 3-310.

PRACTICE TIP 2: For a more detailed discussion of the issues presented by the joint defense of the entity and its employees and officials, review Albuquerque, *Joint Defense of Suits Brought Against Public Entities and Their Employees: Are Conflicts of Interest Manufactured or Real?* (on file with the League of California Cities, and available at www.cacities.org).

© The Regents of the University of California

§2.207 (2) Generally No Conflict When Punitive Damages Sought

The mere fact that punitive damages are sought is not sufficient to require separate representation, even if the agency advises the employee it will not pay punitive damages on behalf of the employee. See *Laws v County of San Diego* (1990) 219 CA3d 189, 198, 267 CR 921 (noting that obligation of public entity to defend and indemnify employee is governed by statute). A city had no duty to reimburse a city council member for retaining a private lawyer to defend her in a suit brought against her in her official capacity, when the council member refused to agree to the city's condition that she cooperate in her defense and allow the city to control the defense. See *DeGrassi v City of Glendora* (9th Cir 2000) 207 F3d 636.

© The Regents of the University of California

§2.208 d. Role of Attorney in Due Process—Improper Combination of Functions

Different constituent elements of an entity may need to be represented by two or more separate lawyers in order to protect the due process rights of the individual who is subject to the quasi-judicial administrative procedure in question. See *Nightlife Partners, Ltd. v City of Beverly Hills* (2003) 108 CA4th 81, 133 CR2d 234 (city violated due process rights of land use applicant when the lawyer advising hearing officer was lower level decision-maker whose decision was on appeal); *Howitt v Superior Court* (1992) 3 CA4th 1575, 5 CR2d 196 (county counsel's office must establish that its attorney who advised county's appeals board was completely segregated from attorney representing the department that terminated the employee, or else county counsel would be disqualified from advising county appeals board; the role of advocate is inconsistent with role of neutral decision-maker); *Walker v City of Berkeley* (9th Cir 1991) 951 F2d 182 (when jury determined that city attorney advising city manager on post-termination appeal was decision-maker and that attorney also represented city in arguing that suit filed by employee during the pendency of administrative appeal was premature, city violated employee's right to neutral decision-maker, because attorney's role as advocate for city was inconsistent with role of neutral decision-maker). In another case, due process was violated when a lawyer who regularly advised a personnel board appeared before the board as an advocate in an unrelated matter, even though the board was advised by a separate lawyer in that matter. *Quintero v City of Santa Ana* (2003) 114 CA4th 810, 7 CR3d 896. The court reasoned that the ongoing relationship of the lawyer as adviser to the board is likely to make the board defer to the position asserted by the lawyer in his advocacy role in the new matter, notwithstanding the fact that the Board has a separate legal adviser as to that matter. *Quintero v City of Santa Ana, supra.* Most recently, the California Supreme Court has held that in the absence of financial or other personal interest, and when rules mandating an agency's internal separation of functions and prohibiting ex parte communications are observed, the presumption of impartiality can be overcome only by specific evidence demonstrating actual bias or a particular combination of circumstances creating an unacceptable risk of bias. *Morongo Band of Mission Indians v State Water Resources Control Bd.* (2009) 45 C4th 731, 741, 88 CR3d 610.

PRACTICE TIP: The 2005 and 2009 ad hoc Due Process Committees of the City Attorney's Department have published two guides on interpreting and implementing these cases. The 2009 Ad Hoc Due Process Committee Report and the 2003 Municipal Law Institute symposium paper on *Demystifying Due Process* shed light on this issue (both documents are on file with the League of California Cities at www.cacities.org).

© The Regents of the University of California

§2.209 e. Application of Govt C §1090 and the Political Reform Act of 1974

A city attorney who was also counsel for a joint powers agency (JPA) that included his city, violated Govt C §1090 and the Political Reform Act of 1974 (Govt C §§81000-91014) because he had an undisclosed fee-splitting arrangement with bond counsel who issued bonds for the JPA. See *Campagna v City of Sanger* (1996) 42 CA4th 533, 49 CR2d 676. Counsel are not precluded from negotiating compensation outside their regular city attorney's duties for additional work on matters, but in this case the contract was with the outside counsel and not the city. See also 46 Ops Cal Atty Gen 74 (1965) (the attorney general analyzes hypothetical situations for possible conflicts of interest). See 66 Ops Cal Atty Gen 376 (1983), deciding that a city may not enter into an employment contract with its city attorney, a city administrator, a redevelopment agency counsel, a redevelopment agency consultant, or a redevelopment agency financial officer and compensate them with a percentage of the increase in assessed value of parcels of property within the city's boundaries. The official involvement of such persons in contracts that may increase the assessed value of parcels violates Govt C §1090.

© The Regents of the University of California

§2.210 f. City Attorney's Right to Defense and Indemnification

The city attorney is a public official who is entitled to defense and indemnification as to suits concerning acts or omissions arising out of the course and scope of the city attorney's employment. See *Fireman's Fund Ins. Co. v City of Turlock* (1985) 170 CA3d 988, 216 CR 796, disapproved on other grounds by *Vandenberg v Superior Court* (1999) 21 C4th 815, 88 CR2d 366. When charges are filed with the State Bar against a public lawyer, which constitutes the initiation of an administrative proceeding, the public entity has no duty to provide the public lawyer with a defense, but has the discretion to do so. Govt C §995.6, which requires city to determine if the alleged act or omission in question arose out of scope of the employment, that such defense would be in the best interest of the entity, and that employee acted, or failed to act, in good faith, without actual malice, and in the apparent interests of the entity.

PRACTICE TIP: The public lawyer is acting in his or her capacity as an employee when making a request for representation in an administrative proceeding, and thus should so advise the entity and recommend it seek legal advice from independent counsel on the legality or propriety of providing the public lawyer with representation.

© The Regents of the University of California

7. Special Duties for Prosecutors

§2.211 a. City Attorneys as Prosecutors

Many city attorneys also act as criminal prosecutors. Violations of municipal codes are misdemeanors or infractions. Govt C §36900. Crimes are defined to include infractions under Pen C §16. Accordingly, city attorneys involved in enforcement of their city's municipal code by filing charges as misdemeanors or infractions are subject to the special duties imposed on prosecutors. California Rules of Professional Conduct 5-110 prohibits the filing of criminal charges when the prosecuting attorney knows or should know that the charges are not supported by probable cause. If a prosecuting attorney discovers the lack of probable cause, the attorney must notify the court in which the charges are pending.

© The Regents of the University of California

§2.212 b. Prosecutors Must Maintain Objectivity

Prosecutors are subject to special limitations designed to avoid any appearance of partisanship and to maintain an appearance of objectivity. See *People v Conner* (1983) 34 C3d 141, 193 CR 148, in which court held that when criminal defendant was accused of shooting deputy sheriff and narrowly missing deputy district attorney, entire district attorney's office should be recused from prosecuting the case. But see *Trujillo v Superior Court* (1983) 148 CA3d 368, 196 CR 4, in which deputy district attorney was victim of crime committed when he became involved with fleeing defendant who had just been convicted of a crime. No recusal of the office was required because injuries were minor, district attorney's office was very large and a different division was prosecuting the case. *Trujillo v Superior Court, supra*. Absent a direct connection to the defendant or to the actual charge being prosecuted, the California Supreme Court has been reluctant to mandate recusal. See *Haraguchi v Superior Court* (2008) 43 C4th 706, 76 CR3d 250 (prosecutor's publication of novel about fictional sexual assault case did not warrant recusal from actual sexual assault case). See also *People v Superior Court (Humberto S.)* (2008) 43 C4th 737, 76 CR3d 276 (prosecutor's request for a guardian ad litem to protect a minor's medical records in a sexual abuse case did not warrant recusal because the zealous assertion of legal arguments did not create a conflict); *Hollywood v Superior Court* (2008) 43 C4th 721, 76 CR3d 264, cert denied (2008) __ US __, 172 L Ed 2d 327, 129 S Ct 458 (prosecutor's release of information in a kidnapping and murder case to make a movie based on the defendant's alleged life and crimes, although negligent and subject to sanctions, did not warrant recusal because the actions did not influence the case and were intended to lead to the defendant's capture). A similar duty has been deemed to exist in civil enforcement actions such as the abatement of nuisances. On civil enforcement actions, see generally §§12.2-12.27.

PRACTICE TIP: For other principles applicable to criminal proceedings, review Albuquerque, *City Attorney Ethical Issues and Related Addenda* (on file with the League of California Cities, and available at www.cacities.org).

© The Regents of the University of California

§2.213 c. City Attorney May Not Threaten Criminal Charges to Obtain Advantage in Civil Dispute

A lawyer may not threaten to present criminal, administrative, or disciplinary charges to obtain an advantage in a civil dispute. Cal Rules of Prof Cond 5-100.

© The Regents of the University of California

§2.214 d. Limitations on Criminal Defense Practice by City Prosecutors

Government Code §41805 allows a city attorney and his or her firm to represent criminal defendants in cases other than violations of city ordinances, as long as the city attorney has been expressly relieved of all prosecutorial responsibilities on the city's behalf and the accused has been expressly informed of the defense counsel's role as city attorney and has waived any conflict created by his attorney's position as a city attorney. See *People v Rhodes* (1974) 12 C3d 180, 115 CR 235. A city is not precluded from limiting or prohibiting the private practice of any attorney it employs. In *People v Pendleton* (1979) 25 C3d 371, 158 CR 343, the city attorney failed to comply with Govt C §41805 because he was not expressly relieved of the duty of prosecuting municipal code violations and yet was engaged in defending a criminal defendant for violations of state law. Moreover, the criminal defendant had not been expressly advised of and waived any potential conflict. Nevertheless, the court found that, because the city attorney did not, in fact, prosecute city crimes and had aggressively represented the criminal defendant, there was no prejudice to the criminal defendant as a result of the city attorney's failure to comply with Govt C §41805 and thus the conviction of the criminal defendant would not be reversed.

© The Regents of the University of California

8. Enhanced Ethical Duty for Public Attorneys

§2.215 a. Furthering Justice

The courts have enunciated the principle that public lawyers have special ethical obligations to further justice. In *People ex rel Clancy v Superior Court* (1985) 39 C3d 740, 745, 218 CR 24, a private attorney retained by a city under a contingent fee arrangement to prosecute civil nuisance abatement actions was ordered disqualified, in the interests of justice, because his personal stake in the actions was inconsistent with the neutrality required of a government lawyer when prosecuting a nuisance abatement action. The court relied on former Ethical Consideration (EC) 7-14, published in a prior version of the ABA Model Code, and held that the heightened ethical responsibilities of government lawyers apply irrespective of whether they are prosecuting criminal actions or representing the government in a civil action. (Former EC 7-14 provided: "A government lawyer in a civil action or administrative proceeding has the responsibility to seek justice and to develop a full and fair record, and he should not use his position or the economic power of the government to harass parties or to bring about unjust settlements or results.") See also *City & County of San Francisco v Philip Morris, Inc.* (ND Cal 1997) 957 F Supp 1130, 1135 (tort action against tobacco companies may proceed on a contingent fee basis, especially when city attorney was also co-counsel and controlled the litigation). See also *In re City of San Diego* (9th Cir 2008) 291 Fed Appx 798 (private tort action by city acting as a private property owner, and not as sovereign, may proceed on contingent fee basis). Former EC 7-14 was partially the basis for a holding that a city attorney in a condemnation case committed misconduct. The city attorney had claimed there was no need for airport parking (a claimed highest and best use of the condemned property), even though the attorney knew that his condemnor city had itself determined there was a need for airport parking. *City of Los Angeles v Decker* (1977) 18 C3d 860, 871, 135 CR 647.

© The Regents of the University of California

§2.216 b. Statutory Duties

Statutes may, however, impose a duty on city attorneys that they owe directly to the public. Elec C §§9203 and 9280 on preparation of a title and summary for initiatives and an impartial analysis of ballot measures. See *Widders v Furchtenicht* (2008) 167 CA4th 769, 84 CR3d 428, in which court found the relief of city attorney of duty to prepare ballot titles and summaries for two initiative measures and the direction to city council to exercise its judgment to craft and adopt laws relating to chain stores and affordable housing as measures to be an improper exercise of initiative power. It has been held that a similar duty imposed on the Attorney General for state initiatives is a ministerial one that must be performed even when the Attorney General intends to sue to invalidate the measure. See *Amador Valley Joint Union High Sch. Dist. v State Bd. of Equalization* (1978) 22 C3d 208, 243, 149 CR 239. See also *Schmitz v Younger* (1978) 21 C3d 90, 92, 145 CR 517.

V. CALIFORNIA PUBLIC RECORDS ACT

§2.218 A. California Constitution Establishes Public's Right of Access to Information

California Constitution Article I, §3 states "the people have the right of access to information concerning the conduct of the people's business, and, therefore, the meetings of public bodies and the writings of public officials and agencies shall be open to public scrutiny." Moreover, statutes, court rules, and other authorities must be broadly construed if it furthers the people's right of access, and narrowly construed if it limits the right of access. Cal Const art I, §3 Furthermore, that the government has the burden of proof to show a record should not be disclosed. Cal Const art I, §3. Nevertheless, the Constitutional right to access documents does not affect the right of privacy or modify any of the statutory or case law in existence when the article became effective, including the California Public Records Act (Public Records Act) (Govt C §§6250-6276.48). Cal Const art I, §3. See *BRV, Inc. v Superior Court* (2006) 143 CA4th 742, 49 CR3d 519. See also 87 Ops Cal Atty Gen 181 (2004) (copy of a private check obtained by the Fair Political Practices Commission through issuance of an administrative subpoena during the investigation of a complaint was exempt from disclosure under the Public Records Act).

© The Regents of the University of California

§2.219 1. California Public Records Act

Combined with the California Constitution, the California Public Records Act (Govt C §§6250-6276.48) ensures the public's right to inspect public records. When it adopted the Act, the legislature found and declared that access to information about the conduct of the people's business is a fundamental and necessary right of every person in the state. Govt C §6250. The general policy of the Act favors disclosure and a refusal to disclose information must be justified by the specific exceptions enumerated in the Act. *Cook v Craig* (1976) 55 CA3d 773, 781, 127 CR 712; *State ex rel Division of Indus. Safety v Superior Court of Los Angeles County* (1974) 43 CA3d 778, 783, 117 CR 726.

© The Regents of the University of California

§2.220 2. Freedom of Information Act

The federal Freedom of Information Act (FOIA), on which the California Public Records Act (Public Records Act) was modeled, gives the public the right of access to information held by federal agencies. See generally 5 USC §§552-559; *Black Panther Party v Kehoe* (1974) 42 CA3d 645, 652, 117 CR 106. But see *Williams v Superior Court* (1993) 5 C4th 337, 19 CR2d 882, in which court declined to use "parallel construction" with FOIA in interpreting Govt C §6254(f), because the Public Records Act did not incorporate FOIA criteria and both statutes have been substantially revised.

© The Regents of the University of California

§2.221 3. Other Right to Access Statutes

A number of statutes and decisions independent of the California Public Records Act either grant or restrict the right to inspect particular public records. See*, e.g.,* Pen C §1534 (documents and records relating to issuance of search warrant); Pen C §1203.05 (records of probation officer); Health & S C §§19850-19853 (building plans); *Smith v Paul* (1959) 174 CA2d 744, 345 P2d 546 (architect's plans); *Runyon v Board of Prison Terms & Paroles of the State* (1938) 26 CA2d 183, 79 P2d 101 (documents in possession of parole board). The legislature has attempted, at Govt C §§6275-6276.48, to alphabetically list other statutes that create exemptions to the disclosure of public records. Although extensive, this list is not all inclusive, and it is intended to be used to assist in identifying those other statutes.

© The Regents of the University of California

§2.222 B. Inspection Rights Under California Public Records Act

Under the California Public Records Act, public records are ordinarily open to inspection at all times during the office hours of the state or local agency in which they are kept. Govt C §6253(a).

© The Regents of the University of California

§2.223 C. Agencies Covered by the Public Records Act

"State agency" is defined by the California Public Records Act (Public Records Act) to mean every state office, officer, department, division, bureau, board, and commission or other state agency, except those agencies provided for in the articles of the California Constitution relating to the legislative and judicial departments. A "local agency" includes a county, city, city and county, school district, municipal corporation, district, political subdivision, or any board, commission, or agency thereof. Govt C §6252(a), (f). See also Cal Const art IV. Under the Public Records Act, a "local agency" also includes any entity deemed to be a "legislative body" within the meaning of the Ralph M. Brown Act. Govt C §§6252(a), 54952(c)-(d). An owner's association under contract with a city to administer or implement activities and improvements specified in a management district plan must also comply with the Public Records Act. Str & H C §36614.5.

© The Regents of the University of California

§2.224 D. Records Subject to Inspection Under California Public Records Act

"Public records" that are subject generally to inspection and copying include any writing containing information relating to the conduct of the public's business prepared, owned, used, or retained by any state or local agency regardless of physical form or characteristics. Govt C §6252(g).

© The Regents of the University of California

§2.225 1. Air Pollution Data Are Public Records

Specified air pollution data are public records. See Govt C §6254.7. But see *Masonite Corp. v County of Mendocino Air Quality Mgmt. Dist.* (1996) 42 CA4th 436, 49 CR2d 639 (manufacturer's emission factors used to calculate emission data are trade secrets that need not be disclosed).

© The Regents of the University of California

§2.226 2. Certain Code Violations Are Public Records

Designated housing and building code violations are public records. Govt C §6254.7(c).

© The Regents of the University of California

§2.227 3. Ballot Measure Information Generally Not a Public Record

Initiative, referendum, and recall petitions, and all memoranda prepared by the election officials when examining such petitions indicating which registered voters signed particular petitions are not considered public records and cannot be inspected except by the public officer or public employees who have the duty of receiving, examining, or preserving such petitions, or who are responsible for the preparation of such memoranda. Govt C §6253.5. However, if such a petition is found to be insufficient, then the petition is subject to inspection by the proponents of the petition and their designated representatives, to determine which signatures were disqualified and the reasons for such disqualification. With court approval, city attorneys and the Fair Political Practices Commission are permitted to examine these materials. Govt C §6253.5.

© The Regents of the University of California

§2.228 4. Recordings of Public Meetings Are Public Records

Any tape or film record of a meeting made by or at the direction of a local agency is a public record that must be retained and made available to the public for at least 30 days. The agency must provide to the public, without charge, equipment to review the record. Govt C §54953.5(b).

© The Regents of the University of California

§2.229 5. E-Mail, Photographs, Photocopies, and Faxes May Be Public Records

The manner or medium in which a record is stored is irrelevant for purposes of defining a public record under the California Public Records Act. If the information in an e-mail would be retained and used if it were in a non-electronic format, the e-mail should be similarly treated. E-mail, photographs, photocopies, and facsimile transmissions are public records if (Govt C §6252(e), (g)):

- They contain information relating to the conduct of the public's business; and
- They are prepared, owned, used, or retained by the agency.

PRACTICE TIP: Cities should draft policies that govern the use and retention of e-mail and clarify whether it is the agency's policy to retain or discard e-mail. Special duties to preserve electronically stored information arise out of the Federal Rules of Civil Procedure and state e-discovery laws. See Fed R Civ P 26(f)(3), 34(a)-(b); CCP 2031.280; Cal Rules of Ct 3.724(8).

© The Regents of the University of California

§2.230 E. Public's Right to Inspect

Every person has a right to inspect any such record, except as otherwise provided in the California Public Records Act (Public Records Act). Govt C §6253(a). The subject of the particular records sought does not, because he or she is personally affected, have any greater right than any other person to examine the records. See *Los Angeles Police Dep't v Superior Court* (1977) 65 CA3d 661, 135 CR 575. Likewise, a subject person has no right under the Public Records Act to prevent disclosure of the record to any other person. *Los Angeles Police Dep't v Superior Court, supra.*

News organizations do not have any greater right than other individual citizens to inspect or receive copies of public records. *Board of Trustees of Cal. State Univ. v Superior Court* (2005) 132 CA4th 889, 896, 34 CR3d 82. A public agency is authorized to seek disclosure of public records in the possession of another public agency. *Los Angeles Unified Sch. Dist. v Superior Court* (2007) 151 CA4th 759, 60 CR3d 445 (city attorney for one agency is a person under the Public Records Act authorized to request public documents). A city may not allow another party to control the disclosure of information that is otherwise subject to inspection under the Public Records Act. Govt C §6253.3.

The right to inspect is not necessarily the same as the right of a litigant to obtain documents through discovery. See *State ex rel Division of Indus. Safety v Superior Court of Los Angeles County* (1974) 43 CA3d 778, 117 CR 726. Exemptions in the Public Records Act do not determine whether records are privileged in pending litigation so as to defeat a party's right to discovery. See *Marylander v Superior Court* (2000) 81 CA4th 1119, 97 CR2d 439. A court hearing a Public Records Act request is not bound by prior discovery rulings unless all of the collateral estoppel factors are present. See *County of Los Angeles v Superior Court (Axelrad)* (2000) 82 CA4th 819, 98 CR2d 564.

PRACTICE TIP: Simply because a matter is in litigation does not mean that otherwise disclosable documents may only be obtained through discovery. A litigant may avail itself of the right to access under the Public Records Act to the same extent as any other person. Often it is easier to provide documents this way than through discovery. Also, a document that is disclosable before litigation is filed does not become exempt from disclosure by virtue of litigation. See 71 Ops Cal Atty Gen 235 (1988). But see *County of Los Angeles v Superior Court* (1993) 18 CA4th 588, 22 CR2d 409 (court construed Govt C §6254(f) as only requiring disclosure of contemporaneous information in arrest records, noting section should not be interpreted to circumvent court rulings denying discovery sought under Evid C §§1043 and 1045 (*Pitchess* motions)). Conversely, access to a document under the Public Records Act does not mean that the document will be admissible in litigation.

© The Regents of the University of California

F. Requests for Copies or Data Under the California Public Records Act

§2.231 1. Right to Exact Copy of an Identifiable Record

Unless an exemption applies, a state or local agency must comply with requests for copies of public records that reasonably describe an identifiable record by promptly making the record available for inspection and by providing a copy. Govt C §6253(b). The state or local agency may charge a fee for copies which covers only the direct costs of duplication. *North County Parents Org. for Children with Special Needs v Deptartment of Educ.* (1994) 23 CA4th 144, 28 CR2d 359. An exact copy of the record must be provided unless it is impracticable to do so. Govt C §6253(b). See also *Rosenthal v Hansen* (1973) 34 CA3d 754, 110 CR 257 (word "impracticable" in former Govt C §6256 modifies the words "exact copy" and does not apply to question of furnishing copies). An agency is not required to respond to requests that are unduly burdensome. *State Bd. of Equalization v. Superior Court* (1992) 10 CA4th 1177, 13 CR2d 342.

PRACTICE TIP: One possible response to a records request that could consume substantial time and resources to locate and review records is to help the requestor make a more focused request. Govt C §6253.1.

© The Regents of the University of California

§2.232 2. Public's Right to Assistance From Agency

Agencies must provide reasonable assistance to persons in locating public records. Govt C §6253.1(a)(2). See also *State Bd. of Equalization v Superior Court* (1992) 10 CA4th 1177, 1192, 13 CR2d 342. First, agencies must assist in identifying records responsive to the request or its purpose. Govt C §6253.1(a)(1). Second, agencies must describe the information technology and the physical location in which the records exist. Govt C §6253.1(a)(2). Third, agencies must provide suggestions for overcoming any practical basis for denial of records access. Govt C §6253.1(a)(3). The obligation to assist a requestor does not apply if the city makes the requested records available under Govt C §6253, makes available an index of its records, or determines the records are exempt under Govt C §6254. Govt C §6253.1(d). A city is also relieved of its obligation to assist the requestor if the requestor fails to provide additional clarifying information in response to the city's reasonable efforts to identify the requested information. Govt C §6253.1(b). Cities are not required to create new records in response to a request. *Rosenthal v Hansen* (1973) 34 CA3d 754, 110 CR 257.

PRACTICE TIP 1: The identity of the person making the request, and the reason for the request, cannot be used as a basis to withhold a record. See *Connell v Superior Court (InterSource, Inc.)* (1997) 56 CA4th 601, 65 CR2d 738. This prohibition may create a tension between the city's obligation to assist a requestor and a possible perception that the city is impermissibly requiring the requestor's identity as a condition to the record's release. Caution is urged when assisting requestors to avoid misunderstandings.

PRACTICE TIP 2: Although it is not obligated to do so, a city can fulfill its production obligations by producing an index of its records. See *Haynie v Superior Court* (2001) 26 C4th 1061, 1074, 112 CR2d 80.

© The Regents of the University of California

§2.233 3. Request Must Be Focused and Specific

The request for public records must be focused and specific. See *Rogers v Superior Court* (1993) 19 CA4th 469, 481, 23 CR2d 412. See also *State Bd. of Equalization v Superior Court* (1992) 10 CA4th 1177, 1192, 13 CR2d 342. However, requestors do not need to precisely identify the record sought. See *California First Amendment Coalition v Superior Court* (1998) 67 CA4th 159, 165, 78 CR2d 847. Also, requests do not need to be in writing. See *Los Angeles Times v Alameda Corridor Transp. Auth.* (2001) 88 CA4th 1381, 107 CR2d 29.

© The Regents of the University of California

§2.234 4. Fees: Direct Cost of Duplication

An agency must promptly make copies of requested records available on payment of fees reimbursing the agency for the direct costs of duplication, or a statutory fee, if applicable. Govt C §6253(b). See also *North County Parents Org. for Children With Special Needs v Department of Educ.* (1994) 23 CA4th 144, 28 CR2d 359. The cost of copying may not include personnel time retrieving, inspecting, or handling the file from which the copy is extracted; it only covers "the cost of running the copy machine, and conceivably also the expense of the person operating it." 23 CA4th at 148.

Some statutes specify a precise reproduction cost. For example, charges for reproducing disclosure statements required by the Political Reform Act cannot exceed 10 cents per page, except that an agency may charge an additional $5 fee for retrieving records that are 5 or more years old. Govt C §81008. Note that under certain circumstances, an agency can recover all costs associated with retrieving electronic data. See §2.238.

© The Regents of the University of California

§2.235 5. Time Limits: 10-Day Rule; 14-Day Extension

Within 10 days after receiving a request for copies of records, an agency must determine whether the request, in whole or in part, seeks copies of disclosable public records in the possession of the agency. Govt C §6253(c). The agency must determine whether the records are disclosable. If records are partially or wholly nondisclosable, the agency must notify the person making the request of the determination, the decision-maker's identity, and the reasons for the determination. Govt C §6253(c). An agency must also inform the persons seeking records when any wholly or partially disclosable records will be made available. Govt C §6253(c). The 10-day time limit may be extended if "unusual circumstances," as described in Govt C §6253(c), are found to exist. The agency executive or designee must give written notice to the person making the request, providing the reasons for the extension and the date on which a determination is expected to be made. The extension must not be more than 14 days. Govt C §6253(c).

PRACTICE TIP: Watch for shorter time periods for production established by statute. For example, the Statement of Economic Interests (FPPC Form 700) and various campaign statements and filings required by the Political Reform Act of 1974 (Govt C §§81000-91014) are required to be made available to the public as soon as practicable, and in no event later than the second business day following their receipt. Govt C §81008.

© The Regents of the University of California

§2.236 6. Notification of Denial: Names and Titles Required

Any notification of denial of any request for records must, in addition to the reasons for the denial, state the names and titles or positions of each person responsible for the denial. Govt C §§6253(d), 6255(b). An agency may not delay or obstruct the inspection or copying of public records. Govt C §6253(d).

PRACTICE TIP: Under some circumstances, persons seeking records may opt to use photocopying services rather than pay an agency's duplication fee. Original documents should not leave the agency's offices, and photocopying under such circumstances should be supervised to ensure that documents remain undamaged and under the agency's control.

© The Regents of the University of California

§2.237 G. Segregated Records Must Be Made Available

Any reasonably segregable portion of a record must be available for inspection by any person requesting the record after deletion (redaction) of the portions that are exempted by law. Govt C §6253(a). The Political Reform Act of 1974 (Govt C §§81000-91014) does not require the agency to create a "privilege log" or list that identifies specific records being withheld. *Haynie v Superior Court* (2001) 26 C4th 1061, 112 CR2d 80.

© The Regents of the University of California

§2.238 H. Electronic Format Information

Information that constitutes an identifiable public record not otherwise exempt from disclosure that is in an electronic format must be made available in an electronic format when requested. Govt C §6253.9(a). Under specific circumstances, the requestor bears the cost of programming and computer services necessary to produce a record not otherwise readily produced. Govt C §6253.9(b). The information does not need to be released in the electronic form in which it is held if its release would jeopardize or compromise the security or integrity of the original record or any proprietary software in which it is maintained. Govt C §6253.9. See also 88 Ops Cal Atty Gen 153 (2005). When requested, a city must also provide the record in an alternative electronic format used by the city. Govt C §6253.9(e).

© The Regents of the University of California

§2.239 I. Faster or Greater Access Requirements Possible

Except as provided by law, an agency may adopt requirements for itself that allow for faster, more efficient, or greater access to records than prescribed by the minimum standards created by the California Public Records Act. Govt C §6253(e).

© The Regents of the University of California

J. Nondisclosure

§2.240 1. General Exemption Under California Public Records Act

An agency must justify withholding any record by demonstrating the record is expressly exempt under the California Public Records Act (Govt C §§6250-6276.48) or that on the facts of the particular case the public interest in nondisclosure clearly outweighs the public interest served by disclosure. Govt C §6255. The public interest in disclosure will be balanced against the agency's justification for maintaining the confidentiality of the record. See *California State Univ., Fresno Ass'n, Inc. v Superior Court* (2001) 90 CA4th 810, 108 CR2d 870 (names and address and license agreements of persons who purchased luxury suites at the California State University's arena are disclosable public records because public interest in disclosure clearly outweighs privacy concerns of persons who purchased suites). To justify nondisclosure, the agency must "demonstrate a clear overbalance on the side of confidentiality." *Michaelis, Montanari & Johnson v Superior Court* (2006) 38 C4th 1065, 1071, 44 CR3d 663 (agency may withhold records relating to bids for public contract while agency negotiates with winning bidder, but later must disclose records to allow reasonable time for public input before making a final award).

The burden of proof is on the public agency. See *CBS Broadcasting Inc. v Superior Court* (2001) 91 CA4th 892, 110 CR2d 889 (identity of individuals granted criminal conviction exemptions at licensed daycare facilities considered a matter of public record when the Department of Social Services failed to show that public's interest in nondisclosure clearly outweighed public interest in disclosure). See also *New York Times Co. v Superior Court* (1990) 218 CA3d 1579, 268 CR 21; *Braun v City of Taft* (1984) 154 CA3d 332, 201 CR 654. The motive or interest of the records requester is "generally" irrelevant under the Govt C §6255 balancing test. See *Connell v Superior Court (InterSource, Inc.)* (1997) 56 CA4th 601, 65 CR2d 738 (a commercial entity using information for strictly commercial purposes is sufficient public interest).

© The Regents of the University of California

§2.241 2. Deliberative Process Privilege Under California Public Records Act

The deliberative process privilege is largely a product of cases interpreting the federal Freedom of Information Act (FOIA) and has been included in the "catchall" exemption in Govt C §6255. See *Times Mirror Co. v Superior Court* (1991) 53 C3d 1325, 283 CR 893. The deliberative process privilege originated as a common law privilege that attached to confidential intra-agency advisory opinions, a privilege that was later codified in the FOIA. The deliberative process privilege is applicable to requests for records made under the California Public Records Act (Govt C §§6250-6277). *Times Mirror Co. v Superior Court, supra*. The deliberative process privilege protects materials reflecting deliberative or decision-making processes.

The key question of whether an official may invoke the deliberative process privilege depends on whether disclosure of the requested materials would expose the agency's decision-making process in such a way as to discourage candid discussion within an agency and thus undermine the agency's ability to perform its functions. This privilege is designed to protect materials reflecting deliberative or policymaking processes and not purely factual, investigative matters. See *Sutter's Place Inc. v Superior Court (City of San Jose)* (2008) 161 CA4th 1370, 75 CR3d 9. See also *Wilson v Superior Court* (1996) 51 CA4th 1136, 59 CR2d 537; *Rogers v Superior Court* (1993) 19 CA4th 469, 23 CR2d 412. This privilege gives chief executives the freedom to think out loud, which enables the testing of ideas and debating of policy and personalities uninhibited by the danger of tentative but rejected thoughts becoming subjects of public discussion. See *Wilson v Superior Court* (1996) 51 CA4th 1136, 59 CR2d 537. See also *California First Amendment Coalition v Superior Court* (1998) 67 CA4th 159, 78 CR2d 847. It is grounded in the unromantic reality of politics and rests on the understanding that if the public and the decision-making executive were entitled to precisely the same information, neither would likely receive it. See *Wilson v Superior Court* (1996) 51 CA4th 1136, 59 CR2d 537.

The privilege is not absolute. It applies only if the public interest in nondisclosure clearly outweighs the public interest in disclosure. See *Marylander v Superior Court* (2000) 81 CA4th 1119, 97 CR2d 439.

© The Regents of the University of California

§2.242 3. Specific Record Exemptions

Certain records are expressly declared exempt from the disclosure requirements of the California Public Records Act. Govt C §§6253.5-6253.6, 6254-6254.1, 6254.3-6254.4, 6254.6-6254.7, 6254.9-6254.11. The most commonly raised exemptions are discussed in §§2.243-2.257.

© The Regents of the University of California

§2.243 a. Election Documents Exempted

Referendum, initiative, and recall petitions may not be reviewed by anyone other than the city clerk and the proponents (not even the city attorney) in the absence of a court order. Govt C §6254.4. Government Code §6254.4 prohibits the disclosure of voter registration information such as address, telephone number, e-mail address, precinct number, and voter identification number except to certain specified individuals identified in Elec C §2194. Nomination papers must be made available for inspection, but they cannot be copied by the public. Elec C §17100.

© The Regents of the University of California

§2.244 b. Preliminary Drafts, Notes, and Inter-Agency or Intra-Agency Memoranda May Be Exempted

If preliminary drafts, notes, and inter-agency or intra-agency memoranda are not retained by the agency in the ordinary course of business and if the public interest in nondisclosure outweighs the interest in disclosure, these documents are exempt from disclosure. Govt C §6254(a). This is not an absolute, unqualified exemption.

© The Regents of the University of California

§2.245 c. Litigation Records Exempted

Records pertaining to pending litigation, until the litigation is finally adjudicated or settled, are exempt from disclosure. Govt C §6254(b). The exemption was primarily designed to prevent a litigant opposing the government from using the California Public Records Act (Public Records Act) (Govt C §§6250-6277) to accomplish earlier or greater access to pending litigation or tort claims than would otherwise be allowed by the rules of discovery. See *Board of Trustees of Cal. State Univ. v Superior Court* (2005) 132 CA4th 889, 897, 34 CR3d 82. See also *Poway Unified Sch. Dist. v Superior Court (Copely Press)* (1998) 62 CA4th 1496, 1504, 73 CR2d 777.

This exemption applies only if the document was specifically prepared for use in litigation; it does not permit the retroactive classification of documents that are normally disclosable under the Public Records Act simply because litigation has been initiated. See 71 Ops Cal Atty Gen 235 (1988). See also *City of Hemet v Superior Court* (1995) 37 CA4th 1411, 1417, 44 CR2d 532. A government claim is not exempt from disclosure under Govt C §6254(b). See *Poway Unified Sch. Dist. v Superior Court (Copley Press), supra*. See also *Board of Trustees of Cal. State Univ. v Superior Court, supra* (depositions also not exempt from disclosure).

Once litigation is concluded, the documents are subject to disclosure. See *City of Los Angeles v Superior Court* (1996) 41 CA4th 1083, 49 CR2d 35 (deposition transcripts may be privileged during pendency of litigation, but are subject to release under the Public Records Act after litigation is concluded). See also *Board of Trustees of Cal. State Univ. v Superior Court, supra* (deponent has no expectation of privacy because deposition transcript is publicly available under CCP §2025.570).

© The Regents of the University of California

§2.246 d. Personnel, Medical, or Similar Records May Be Exempted

Personnel, medical, or similar personal records are exempt from disclosure only if disclosure would constitute an unwarranted invasion of privacy. Govt C §6254(c); *BRV, Inc. v Superior Court* (2006) 143 CA4th 742, 49 CR3d 519 (despite confidentiality agreement between agency and employee, public's interest in disclosure requires agency to disclose redacted report detailing investigation into school superintendent's alleged misconduct). This exception covers personal information about employees (evaluations, Social Security numbers, home addresses, medical history, and so on), but does not exempt employees' salary ranges or performance bonuses. See *Braun v City of Taft* (1984) 154 CA3d 332, 201 CR 654; 68 Ops Cal Atty Gen 73 (1985). The California Public Records Act (Public Records Act) does not require the release of Social Security numbers, which must be redacted from a record before it is disclosed. Govt C §6254.9.

The California Supreme Court has determined that the names and salaries of public employees, including peace officers who earn $100,000 or more per year, are subject to public disclosure under the Public Records Act. See *International Fed'n of Prof. & Tech. Eng'rs v Superior Court* (2007) 42 C4th 319, 64 CR3d 693. Notably, public officials have a significantly reduced expectation of privacy in matters related to their public employment than other public employees. *BRV, Inc. v Superior Court* (2006) 143 CA4th 742, 758, 49 CR3d 519 (investigation report about a school superintendent's alleged misconduct is subject to disclosure under Public Records Act). Further, the Peace Officers Standards and Training records of officers' names, employing agencies, and dates of employment are subject to disclosure under the Public Records Act and are not confidential under Pen C §832.7. *Commission on Peace Officer Standards & Training v Superior Court* (2007) 42 C4th 278, 64 CR3d 661. Likewise, employment contracts with public officials or employees are not exempt from production. Govt C §6254.8.

© The Regents of the University of California

§2.247 e. Peace Officer Personnel and Citizen Complaints Exempted

Peace officer personnel records and records of citizens complaints against law enforcement personnel are made confidential by Pen C §832.7 and are not subject to disclosure except by discovery under Evid C §§1043 and 1046. Confidentiality provided by these more specific provisions is incorporated into the California Public Records Act (Public Records Act) through Govt C §6254(k), which provides that disclosure is not required for public records that are exempt from disclosure under federal or state law. See *City of Hemet v Superior Court* (1995) 37 CA4th 1411, 44 CR2d 532. However, police officers do not have a private right of action for damages for an agency's unauthorized release of their confidential personnel files in violation of these statutory procedures. See *Rosales v City of Los Angeles* (2000) 82 CA4th 419, 98 CR2d 144. Also, a peace officer's salary is not exempt from disclosure. *International Fed'n of Prof. & Tech. Eng'rs v Superior Court* (2007) 42 C4th 319, 64 CR3d 693, disapproving of *City of Los Angeles v Superior Court (Williamson)* (2003) 111 CA4th 883, 3 CR3d 915. Absent unique circumstances, such as when a peace officer's anonymity is essential to his or her safety, the names and salaries of peace officers are subject to disclosure under the Public Records Act. *Commission on Peace Officer Standards & Training v Superior Court* (2007) 42 C4th 278, 64 CR3d 661.

© The Regents of the University of California

§2.248 f. Personal Financial Data Required of Licensees Exempted

Personal financial data required by a licensing agency from its licensees is exempt from disclosure. Govt C §6254(n). This exemption does not include financial data supplied by a city's franchisee to justify a rate increase. See *San Gabriel Tribune v Superior Court* (1983) 143 CA3d 762, 192 CR 415.

© The Regents of the University of California

§2.249 g. Arrest Records Exempted

Government Code §6254(f)(3) prevents commercial exploitation of arrest records and limit access to addresses of arrestees and most crime victims by making it a crime to use them for commercial purposes. These addresses are private unless they are requested by a private investigator or for scholarly, journalistic, political, or governmental purposes. When the person making the request submits a sworn declaration that the request is made for a journalistic purpose, the agency may not require that the requester present additional evidence that he or she is a journalist. 89 Ops Cal Atty Gen 97 (2006). Government Code §6254(f)(3) is not subject to a facial challenge as an abridgment of the right to engage in speech, but is simply a law regulating access to information in the government's hands. See *Los Angeles Police Dep't v United Reporting Publ'g Corp.* (1999) 528 US 32, 145 L Ed 2d 451, 120 S Ct 483.

© The Regents of the University of California

§2.250 h. Other Personal Information Subject to Balancing Test

Questions often arise on whether a city must disclose personal information obtained from citizens in the course of regulatory activities. Govt C §6255. Examples include addresses and telephone numbers of permit parkers and tenants in rent-controlled units. The public agency bears the burden of proving the release of this information constitutes an unwarranted invasion of privacy and disclosure serves no valid purpose. *New York Times Co. v Superior Court* (1990) 218 CA3d 1579, 268 CR 21. An agency must be mindful of the right of individuals to privacy, particularly when personal information is recorded in government files. See *CBS, Inc. v Block* (1986) 42 C3d 646, 230 CR 362 (right to privacy in public record is no less important than right to disclosure). See also *Rackauckas v Superior Court* (2002) 104 CA4th 169, 176, 128 CR2d 234 (court must consider individual's privacy in uncharged police report because release of information could be "ruinous to personal reputations, careers, or relationships if released to the general public in unvarnished form"). The home address and telephone number of an elected or appointed official cannot be posted on the Internet without the written permission of that individual. Govt C §6254.21.

PRACTICE TIP: Counsel should add a caveat to permit forms and other similar documents stating that the city cannot guarantee information on the form will be exempt from disclosure under the California Public Records Act (Govt C §§6250-6276.48).

© The Regents of the University of California

§2.251 i. Criminal Investigation Records Exempted

Investigation records of state and local police and other law enforcement agencies are exempt from disclosure under Govt C §6254(f). The courts have distinguished between the exemption that applies to "investigatory records" and the exemption for "investigatory files." See *Haynie v Superior Court* (2001) 26 C4th 1061, 1069, 112 CR2d 80. The exemption for "investigatory records" applies to records of investigations undertaken for the purpose of determining whether a violation of law may occur or has occurred. 26 C4th 1061, 1071. If a violation is detected, the exemption also extends to records of investigations conducted for the purpose of uncovering information surrounding the commission of the violation and its agency. 26 C4th at 1071. The exemption for "investigatory files" applies to records contained in investigation files once the prospect of enforcement proceedings becomes concrete and definite. 26 C4th at 1069. The "investigatory file" exemption protects information because of its inclusion in an investigatory file, whether or not the information is exempt based on its content. 26 C4th at 1069.

The exemption from disclosure for these records under Govt C §6254(f) extends indefinitely, even after the investigation is closed. See *Williams v Superior Court* (1993) 5 C4th 337, 19 CR2d 882. Post-investigative closing reports containing investigators' opinions, thoughts, and conclusions on potential criminal misconduct are also exempt from disclosure. See *Rackauckas v Superior Court* (2002) 104 CA4th 169, 128 CR2d 234. However, certain information, such as the names of witnesses and descriptions of property must be disclosed unless such disclosure would endanger the witness or investigation.

© The Regents of the University of California

§2.252 j. Utility Customer Records May Be Exempted

The disclosure of the name, credit history, utility usage data, home address, or telephone number of utility customers of local agencies generally is not required under Govt C §6254.16. Nevertheless, the information may be disclosed if (Govt C §6254.16):

- Information is requested by an agent of the customer, another governmental agency, or a law enforcement agency;
- A customer misuse of services determination has been made;
- The customer is an elected or appointed official with authority to determine utility usage policies; or
- The public interest in disclosure of the information clearly outweighs the public interest in nondisclosure.

© The Regents of the University of California

§2.253 k. Concealed Weapons Permits Generally Not Exempted

Applications for concealed weapons permits and the permits themselves are public records and must be provided to a requestor. *CBS, Inc. v Block* (1986) 42 C3d 646, 230 CR 362. However, certain portions of these records are exempt from disclosure, including home addresses and telephone numbers of peace officers, judges, and others as described in Govt C §6254(u). In addition, certain other information may be redacted from the records.

© The Regents of the University of California

§2.254 I. Additional Statutory Exemptions and Privileges

Additional exemptions, including privileged communications under the Evidence Code, are found in other statutes. These exemptions are referred to in Govt C §6254(k). These statutory exemptions and privileges are found in Govt C §§6275-6276.48. The statutes listed are not to be considered all-inclusive and the listing does not create the exemption. Requestors and public agencies must review the specific statutes to determine the extent to which the statute, in light of the circumstances surrounding the requests, exempts public records from disclosure. Govt C §6275.

PRACTICE TIP: Various attorney-client and attorney work product privileges also find their genesis in statute and may be asserted as a basis of exemption. Evid C §§952, 954 (attorney-client communications); Evid C §§952, 954 and CCP §2018.030 (attorney work product protection); Evid C §1552 (privileged communications).

© The Regents of the University of California

§2.255 m. Trade Secrets May Be Exempted

Provisions exempting the disclosure of specific trade secrets are found in the list of statutory exemptions at Govt C §6276.44. The only specific provisions in the California Public Records Act itself are found in Govt C §§6254.2 (pesticide safety and efficacy data) and 6254.7(d)-(e) (which define a trade secret and contain two exceptions relating to air pollution emission data and standardized testing). However, trade secrets as defined in the Uniform Trade Secrets Act (CC §§3426-3426.11) may be privileged, as recognized in CC §3426.7(c). The trade secrets privilege contained in Evid C §§1060-1063 may also exempt trade secrets submitted to a public agency from disclosure under Govt C §6254(k).

© The Regents of the University of California

§2.256 n. Architectural and Engineering Plans Generally Exempted

Architectural plans are copyrighted under CC §980, and the compulsory filing of them as required by an ordinance does not give others the right to use them. See *Smith v Paul* (1959) 174 CA2d 744, 345 P2d 546. Health & Safety Code §§19850-19853 require a city building department to maintain the building plans for every building in the city, with certain exceptions, and states that they are open for inspection as a public record. However, copying of the plans is prohibited unless written permission is requested from the professional who prepared them and also obtained from the current owner of the building. Further, the person requesting the plans must file an affidavit containing certain specified statements. Health & S C §19851(c).

© The Regents of the University of California

§2.257 o. Citizens' Names, Addresses, and Phone Numbers Generally Exempted

The California State Legislature has, over time, amended the California Public Records Act (Public Records Act) (Govt C §§6250-6277) to protect the names, addresses, and phone numbers of citizens. For example, the addition of Govt C §6254.4 prohibits the disclosure of home addresses, telephone numbers, and e-mail addresses submitted for voter registration purposes. Similarly, the Public Records Act now exempts from disclosure the home address and telephone number of various public officials, including peace officers and judges, who apply for concealed weapon permits (Govt C §6254(u)(2)-(3)); and utility customers of local agencies (Govt C §6254.16). It also restricts posting such information of various public officials on the Internet (Govt C §6254.21). The courts have also moved to permit the exemption of personal information such as names and addresses of persons who make noise complaints. *City of San Jose v Superior Court* (1999) 74 CA4th 1008, 88 CR2d 552 (disclosure of information would have had chilling effect on future complaints). However, absent unique circumstances, such as when a peace officer's anonymity is essential to his or her safety, the names of peace officers are subject to disclosure under the Public Records Act. *Commission on Peace Officer Standards & Training v Superior Court* (2007) 42 C4th 278, 64 CR3d 661.

Although no appellate cases have determined whether the names, addresses, telephone numbers, and e-mail addresses of applicants for permits are exempt from disclosure, the balancing test in Govt C §6255 suggests nondisclosure of such personal information, especially when persons are required to obtain such permits from the agency. A distinction could be made for persons voluntarily submitting applications to an agency, such as applicants for appointed positions, because the person need not apply if he or she does not wish such information to be released.

© The Regents of the University of California

§2.258 K. Remedies for Improper Withholding of Records

Any person may institute proceedings for injunctive or declaratory relief in any court to enforce his or her right to inspect or receive a copy of any public record or class of public records under the California Public Records Act. Govt C §6258. Government Code §§6258-6259 provide the exclusive procedure for litigating a public agency's obligation to comply with a public record request. See *Filarsky v Superior Court* (2002) 28 C4th 419, 121 CR2d 844. A public agency may not circumvent Govt C §§6258-6259 by denying an individual's public record request and then initiating declaratory relief proceedings against that individual for the sole purpose of determining the agency's obligation to disclose records under the Public Records Act.

© The Regents of the University of California

§2.259 1. Timing for Pleadings

The times for responsive pleadings and for hearings in such proceedings must be set by the judge of the court with the object of securing a decision as to such matters at the earliest possible time. Govt C §6258.

© The Regents of the University of California

§2.260 2. Disclosure Ordered

Whenever it is made to appear by verified petition to the superior court of the county when the records or some part of the records are situated that certain public records within the coverage of the California Public Records Act (Public Records Act) are being improperly withheld from a member of the public, the court must order the officer or person charged with withholding the records to disclose them or show cause why nondisclosure is appropriate. Govt C §6259(a). A court generally will not order disclosure of an otherwise exempt document as a remedy for the agency's failure to comply with the timing requirements specified in the Public Records Act, which are discussed in §2.235. See *Michaelis, Montanari & Johnson v Superior Court* (2006) 38 C4th 1065, 1072, 44 CR3d 663.

© The Regents of the University of California

§2.261 3. In Chambers Review and Order

The court may examine the records in camera if permitted under Evid C §915(b), which allows such review. Govt C §6259; Evid C §915(a)-(b).

If the court finds that the public official's decision to refuse disclosure is not justified under the California Public Records Act (Govt C §§6250-6276.48), the court must order the official to make the records public. If the court determines that the public official was justified in refusing to make the records public, the court must return the records to the official without disclosing their content with an order supporting the decision refusing disclosure. Govt C §6259(b).

© The Regents of the University of California

§2.262 a. Review of Order by Writ

Government Code §6259(c) makes a petition for extraordinary writ the exclusive mode of appellate review for California Public Records Act actions, and this statute does not violate state constitutional provisions granting courts of appeal the power to review final judgments in all proceedings. See *Powers v City of Richmond* (1995) 10 C4th 85, 40 CR2d 839 (finding constitution does not specify the form of appellate review). An award of sanctions in a public records case is appealable under CCP §904.1. See *Butt v City of Richmond* (1996) 44 CA4th 925, 52 CR2d 232.

© The Regents of the University of California

§2.263 b. Attorney Fees May Be Recovered

A prevailing plaintiff in litigation filed under the California Public Records Act (Public Records Act) is entitled to recover costs and reasonable attorney fees from the state or local agency. Govt C §6259(d). The party who prevails under the Public Records Act in an action that is the functional equivalent of a proceeding to compel production under the Public Records Act is a prevailing "plaintiff" and thus entitled to recover costs and attorney fees, even if that party is not denominated as a plaintiff in the action. See *Fontana Police Dep't. v Villegas-Banuelos* (1999) 74 CA4th 1249, 88 CR2d 641. A prevailing party who has been denied attorney fees under the Public Records Act may appeal that denial and is not required to file an extraordinary writ. See *Los Angeles Times v Alameda Corridor Transp. Auth.* (2001) 88 CA4th 1381, 107 CR2d 29.

The costs and fees do not become a personal obligation of the interested public official. If an agency makes a timely effort to respond to a party's vague document request, a plaintiff will not be awarded attorney fees as the prevailing party in litigation resulting in the issuance of a writ. See *Motorola Communication & Electronics, Inc. v State Dep't. of Gen. Servs.* (1997) 55 CA4th 1340, 64 CR2d 477. However, if the court finds that plaintiff's case is clearly frivolous, the state or local agency is entitled to costs and reasonable attorney fees. Govt C §6259(d). See also *Belth v Garamendi* (1991) 232 CA3d 896, 283 CR 829.

PRACTICE TIP: Entering into a settlement agreement under which an agency agrees to comply with the Public Records Act may lead to a finding that the requestor was the prevailing party and subject the agency to attorney fees. See *Galbiso v Orosi Pub. Util. Dist.* (2008) 167 CA4th 1063, 84 CR3d 788.

© The Regents of the University of California

§2.264 L. Records Retention

Retention of public records is governed by the provisions of Govt C §§34090-34090.8. Destruction of records is prohibited unless in compliance with these sections. Generally, records must be retained for a minimum of 2 years. Govt C §34090. Some records must be retained indefinitely (Govt C §34090):

- Records affecting title to real property;
- Records required to be kept by the state;
- Court records and the minutes; and,
- Ordinances and resolutions of any city legislative body.

© The Regents of the University of California

§2.265 1. Record Defined

For the purposes of record retention, there is no statutory definition of a "record" as is the case in the California Public Records Act. Govt C §6252(e). However, the attorney general defines a record as any writing or recording of an event or information that is kept in the custody of a public officer, either because a law requires it to be kept or because it is necessary or convenient to the discharge of the public officer's duties, and was made or retained for the purpose of preserving its information content for future reference. See 64 Ops Cal Atty Gen 317, 326 (1981).

© The Regents of the University of California

§2.266 2. Specific State Law Requirements on Record Retention

Various state laws require retention longer than 2 years. See*, e.g.,* Pen C §832.5(b) (requiring retention of citizen complaints against police personnel for 5 years). See also Lab C §§1174, 1197.5. Other record retention requirements are found in various sections of the Unemployment Insurance Code and the California Occupational Safety and Health Act (Lab C §§6300-9104). See also Advising California Employers §9.117 (2d ed Cal CEB 1996) (table of selected personnel records retention requirements); Patterson, Public Employer's Compliance Review 98-99 (checklist on records retention; available for purchase from the League of California Cities, 1400 K Street, Sacramento, California 95814; telephone (916) 658-8257; website www.cacities.org).

© The Regents of the University of California

§2.267 3. Specific Federal Law Requirements on Record Retention

Various federal laws require retention of documents, mainly dealing with labor and personnel. See*, e.g.,* 29 USC §§201-219 (Fair Labor Standards Act); 26 USC §§3301-3310 (Federal Unemployment Tax Act); 29 USC §§1001-1461, generally (Employee Retirement Income Security Act of 1974 (ERISA)); 42 USC §§2000a-2000h-6 (Civil Rights Act of 1964); 29 USC §§621-634 (Age Discrimination in Employment Act); 29 USC §206 (Fair Labor Standards Act of 1938). In some instances, these statutes require retention of records for as long as 4 years.

© The Regents of the University of California

§2.268 4. Records Destruction

Records that have been retained for the requisite period may be destroyed after following the procedure described in Govt C §34090. Destruction must be approved by the city attorney and the city council. Government Code §34090.6 governs destruction of telephone and radio communication recordings (100 days, with approval), and Govt C §34090.7 allows for local agencies to develop procedures for destruction of duplicate records.

© The Regents of the University of California

§2.269 5. Preservation in Alternative Media

The California Government Code addresses the procedures for reproducing records on film, optical disk or any other trusted medium and then destroying public records. Govt C §34090.5. The procedures of that section should be followed strictly. The procedures are described in an Attorney General's opinion. See 57 Ops Cal Atty Gen 307 (1974). The procedures include (57 Ops Cal Atty Gen 307 (1974)):

- Two copies must be made, one to be kept in a safe place;
- Originals may be destroyed after reproduction; and
- A suitable reading device must be provided to the public for access and disclosure.

See also Evid C §1551 (admissibility of microfilmed records).

PRACTICE TIP 1: Two years should be considered an absolute floor for retention guidelines, and certain documents should be kept longer. Consider the statute of limitations for legal actions that may involve the documents, especially claims involving minors, employees and contracts. Many employee records should be kept indefinitely. Many records should be kept a minimum of 4 years and perhaps up to 10 years, for statute of limitations purposes Using electronic or photographic storage media is one way to cope with space limitations.

PRACTICE TIP 2: Every city should have a record retention schedule approved by the city council that sets forth every type of document retained by the city and the prescribed period of retention. Many cities have adopted detailed record retention manuals, which, in addition to prescribing a time schedule, address the process for reviewing and approving requests for records destruction. Cities that have not adopted such a manual may wish to ask their city clerks to see which ones may serve as models.

§3.1 I. INTRODUCTION

In California, general law cities are obligated to conduct general and special municipal elections in accordance with the California Elections Code. See Elec C §§10101-10312. Charter cities may establish their own rules and regulations for elections, depending on their charter provisions. Cal Const art XI, §5(b); *People v Hill* (1899) 125 C 16, 20.

Other statutes in other codes also bear on the election process. For example, the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (Govt C §§56000-57550) contains a number of statutes pertaining to when elections must be called in the event of annexations, incorporations, and reorganizations.

PRACTICE TIP: For other resources on election issues, see Martin & Chapman Co., Municipal Election Handbook (resource for research relating to election problems); League of California Cities, The City Clerk's Handbook (2004) (overview of election process); and Campaign Disclosure Information Manuals, available from Fair Political Practices Commission at www.fppc.ca.gov (containing annual schedules for filing campaign reports, summary of recent legislative changes, and campaign provisions of Political Reform Act for elected state and local officers). County Registrars often have local compliance guidelines and tips. On lobbying issues, see Advising California Nonprofit Corporations (3d ed Cal CEB 2009).

© The Regents of the University of California

II. ELECTION PROCEDURES

§3.2 A. The Elections Official

The city clerk is the elections official unless the city council designates another person. See Elec C §320. The city council, by resolution, may request the board of supervisors to permit the county clerk to render specified elections services to the city. See Elec C §10002.

© The Regents of the University of California

B. Types of Elections

1. Regular Elections

§3.3 a. Definition

A "regular election" is "an election, the specific time for the holding of which is prescribed by law." Elec C §348.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/3 Elections/§3.4 b. Regular Election Dates

§3.4 b. Regular Election Dates

The regular election dates each year are (Elec C §1000):

- The second Tuesday of April in each even-numbered year;
- The first Tuesday after the first Monday in March of each odd-numbered year;
- The first Tuesday after the first Monday in June of each year;
- The first Tuesday after the first Monday in November of each year; and
- The first Tuesday in February of each year evenly divisible by the number four.

© The Regents of the University of California

§3.5 2. Special Elections

Special elections must be held on one of the established regular election dates unless the election falls within one of the exceptions in Elec C §1003. See Elec C §1002. The city council must issue a proclamation or a resolution calling the special election. Elec C §12001.

© The Regents of the University of California

3. Municipal Elections

§3.6 a. Legal Framework

The general provisions governing municipal elections are in Elec C §§10100-10312. Other topics covered elsewhere include: absentee or vote-by-mail voting (see Elec C §300); recalls (see Elec C §§11000-11386); initiatives and referenda (see Elec C §§9200-9247); ballots (see Elec C §§13000-13317); conduct of elections (see Elec C §§14000-14003); and election contests (see Elec C §§16000-16940).

© The Regents of the University of California

§3.7 b. General Municipal Election Dates

General municipal elections normally are held the second Tuesday in April of even-numbered years or on the first Tuesday after the first Monday in March of odd-numbered years. Govt C §36503; Elec C §1301. Subject to the approval of the county board of supervisors, a city council may enact an ordinance requiring its general municipal election to be held on the first Tuesday after the first Monday of March in each odd-numbered year, on the second Tuesday of April in each year, on the same day as the statewide direct primary, the day of the statewide general election, or the day of the school district elections. Elec C §1301. No term of office may be increased or decreased by more than 12 months as a result of the adoption of such an ordinance. Elec C §10403.5(b).

© The Regents of the University of California

§3.8 c. Consolidation of Elections

A city may consolidate its election with that of another governmental entity to be held on the same day, in the same territory, or in territory that is in part the same. See Elec C §§10400-10418.

© The Regents of the University of California

d. Publishing/Posting Notice of Municipal Election

§3.9 (1) Newspaper Notice

Not earlier than the 127th nor later than the 113th day before any municipal election to fill offices, the city elections official must publish a notice of election at least once in a newspaper of general circulation. Elec C §12101.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/3 Elections/§3.10 (2) Notice Content

§3.10 (2) Notice Content

The notice must be entitled "Notice of Election" and must contain a statement of (Elec C §12101(a)):

- the time of the election; and
- the office to be filled, specifying full term or short term, as the case may be).

See Elec C §12102 (for format of notice of election).

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/3 Elections/§3.11 (3) Posting When There Is No Newspaper

§3.11 (3) Posting When There Is No Newspaper

If there is no newspaper of general circulation published and circulated in the city, the notice must be typewritten and copies posted conspicuously within the time prescribed in at least three public places in the city. Elec C §12101.

© The Regents of the University of California

§3.12 e. Publishing List of Nominees

When the municipal election is held to fill offices, the city clerk must publish the list of nominees with the respective offices for which they have been nominated not later than 1 week before the election in a newspaper of general circulation. See Elec C §12110. If there is no newspaper of general circulation published and circulated in the city, the list must be posted within the prescribed time in at least three public places in the city. See Elec C §12110 (form of list).

NOTE: If no one or only one person has been nominated, the elections official submits a certificate of these facts to the city council and after publication or posting of notice, the city council may either appoint the person who has been nominated, appoint any eligible elector if no one is nominated, or hold the election. Elec C §10229.

© The Regents of the University of California

§3.13 f. Publishing List of Polling Places and Precinct Board Members

Not later than 1 week before any election, the city clerk must publish a list of the polling places in the same manner as that used for publication of the notice of election. Elec C §12105. See §§3.9-3.11. Not less than 1 week before the election, the city clerk must also post a list of all current polling places in each precinct and a list of precinct board members appointed by the 15th day before the election. Not later than 28 days after the election, the city clerk must post an updated list of precinct board members who actually served on election duty. These lists must also be posted on the city clerk's official website. Elec C §12105.5.

© The Regents of the University of California

§3.14 g. Publishing Synopsis of Measures

In a municipal election on any measure, the city clerk must publish a synopsis of the measure in the manner provided for publication of the list of nominees (see §3.12) and in the form provided for in Elec C §12111.

A city council has the power to submit to the electorate such delegable measures as it determines appropriate. See Elec C §306. When such matters are submitted to the electorate, they are deemed adopted or rejected based on the result of the election.

The city council may also submit "advisory measures" for the electorate. Elec C §9603. Such measures are advisory only and do not bind the council in the legal sense. The topics for advisory measures include almost any relevant topic, clearly labeled as such, as prescribed by the California Elections Code.

© The Regents of the University of California

4. Nomination of Candidates

§3.15 a. Nomination Papers

Not earlier than the 113th day nor later than on the 88th day before the election, voters may nominate a candidate by signing a nomination paper. See CC §10; Elec C §10220; Govt C §6800 (for computation of time).

NOTE: If an incumbent officer of a city fails to file nomination papers by the close of business hours on the 88th day before the election, the filing period is extended 5 days until. the close of business hours on the 83rd day for voters to nominate candidates other than the incumbent for the incumbent's elective office. Elec C §10225.

On the form and other substantive requirements of the nomination papers, see Elec C §§10221-10228.

© The Regents of the University of California

§3.16 b. Needed Signatures

The number of signatures needed for nomination of a candidate depends on the population of the city. No voter may sign more than one nomination paper for the same office. Each council position is a separate office. Elec C §10220.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/3 Elections/§3.17 c. Filing Fees

§3.17 c. Filing Fees

A nomination paper filing fee may be imposed by ordinance; the fee may not exceed $25.00. Elec C §10228.

© The Regents of the University of California

§3.18 d. Circulators

Any person registered to vote at the election and qualified to vote for the elective office of the city for which the nomination is made may circulate a nomination paper. Only one person may circulate each nomination paper. Elec C §10220. Election Code §§10221-10228 describe the form and other substantive requirements of the nomination papers and affidavit of circulator.

© The Regents of the University of California

5. Conduct of Elections

§3.19 a. Pre-Election Day Procedures

At least 29 days before the election, the city clerk must (Elec C §12286(a)):

- Establish a convenient number of election precincts for the city;
- Define the precinct boundaries;
- Designate a polling place for each precinct;
- Appoint a precinct board to be in charge of the election in each precinct (board consists of at least one inspector, one judge, and two clerks); and
- Notify each precinct board member of their appointment and the location of the precinct where they will serve.

See Elec C §§12302-12304. The city elections official is generally responsible for procuring all necessary supplies and equipment, such as ballots, voting booths, and the ballot box. See Elec C §§10240, 14100-14113.

© The Regents of the University of California

§3.20 b. Election Day Procedures at the Polling Place

Each polling place must be open during the period determined by the city council and specified in the notice of election, but not less than eight consecutive hours. Elec C §10242. A majority of the members of the precinct board must be present at the polling place while it is open. Elec C §10243. For other specific procedures, see Elec C §§14210-14443.

© The Regents of the University of California

6. Canvass of the Vote and Declaration of Results

§3.21 a. Basic Procedure

For basic procedures on canvassing (counting) of the vote and declaring the results of an election, see generally Elec C §§15000-15702. A canvass is the public process of collecting, processing, and tallying ballots in an election. Elec C §§335.5, 353.5.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/3 Elections/§3.22 b. Location of Count

§3.22 b. Location of Count

Votes are generally to be counted at the precinct (Elec C §10260); however, votes may be counted at a central counting place provided notice is given. See Elec C §12109. See also Elec C §§15150-15290.

© The Regents of the University of California

§3.23 c. Vote-by-Mail Ballots

The city elections official or a canvassing board appointed by the city elections official must count the votes cast by vote-by-mail voters. The canvass must be conducted in the manner prescribed in Elec C §§15100-15376.

NOTE: In 2007 the terminology of the Elections Code was changed throughout to rename "absentee" voters as "vote-by-mail" voters.

© The Regents of the University of California

§3.24 d. What Is Counted

Any name written in on a ballot, including a reasonable facsimile of the spelling of such a name, must be counted unless specifically prohibited. Elec C §§10103, 15340-15342. See 2 Cal Code Regs §§20101-20105 (instructions relating to canvassing incomplete write-in votes, *e.g.,* no office is indicated or is incorrect, or name is incomplete or misspelled).

© The Regents of the University of California

§3.25 e. Provisional Ballots

The use and verification of provisional ballots are governed by Elec C §14310. Some election officials separate "provisional" or irregular ballots from the marked ballots to be counted, and do not count these "provisional" ballots unless either the election contest is very close or a candidate calls for a recount. Practices appear to vary between election officials in different counties regarding these provisional ballots. Election Code §14310(c), however, requires the elections official to examine all provisional ballots cast during the official canvass to determine the voter's eligibility. If the ballot meets certain criteria, the vote must be counted. The federal Help America Vote Act of 2002 (HAVA) includes similar requirements for elections that include federal offices. HAVA requires provisional ballots in elections for federal office be transmitted to the appropriate election official for "prompt verification." 42 USC §15482(a)(3). If the election official determines the voter is eligible to vote, the provisional ballot "shall be counted as a vote in that election in accordance with State law." 42 USC §15482(a)(4).

Both California and federal law require that the election official establish a free-access system that any person who casts a provisional ballot may use to determine whether their provisional ballot was counted and, if not, the reason(s) why. Elec C §14310(d); 42 USC §15482(a)(5). When federal offices are included on the ballot, HAVA requires the election official provide written information to the voter on how to access such a system at the time the voter casts a provisional ballot. 42 USC §15482(a)(5).

PRACTICE TIP: It is customary in many counties for the city council to request the county election official to perform the official canvass of the votes, especially if the municipal election has been consolidated with statewide elections.

© The Regents of the University of California

§3.26 f. Certification of Results

The elections official must canvass the votes and certify the results by the fourth Friday after the election; if the election was consolidated, the city elections official certifies the results to the city council no later than the fourth Friday following presentation of the 28-day canvass of returns by the county election official. Elec C §10262.

On completion of the canvass of votes, the city council adopts a resolution reciting the election and results. Elec C §§10263-10264 (matters to be addressed in resolution). The city council must declare the results and install the new officers no later than the fourth Friday after the election; however, in consolidated elections, the city council must meet to declare the results at the next regularly scheduled city council meeting, or a special meeting called for this purpose, following the presentation of the 28-day canvass from the county elections official.

© The Regents of the University of California

§3.27 g. Recordation and Oath

Once the election results are declared, the city elections official must enter in its records a statement of the results containing the information in Elec C §10264. Thereafter, the city elections official must deliver a certificate of election to each person elected and administer the oath of office to each elected official. Elec C §10265.

© The Regents of the University of California

§3.28 7. Recount of Votes

Recounts arise by being:

- Ordered by the elections official,
- Requested by a voter, or
- Ordered by a court by way of a request from the county board of supervisors or grand jury.

See Elec C §§15600-15640.

NOTE: When a voting system is used, there is a mandatory public manual recount of a sampling of votes cast. See Elec C §15360; *County of San Diego v Bowen* (2008) 166 CA4th 501, 82 CR3d 818 (finding "post-election manual tally requirements" do not exceed Secretary of State's authority under Elec C §15360).

A recount requestor may choose to have paper ballots recounted manually and have electronic ballots recounted electronically. See *Nguyen v Nguyen* (2008) 158 CA4th 1636, 1654, 70 CR3d 753; Elec C §15627.

© The Regents of the University of California

C. Methods of Election

§3.29 1. At-Large

In an at-large election, voters may vote for any candidate on the ballot.

© The Regents of the University of California

§3.30 2. District Election System

A system of electing the city council by or from districts must be established by ordinance, and approved by the voters. The ordinance may be a city council-initiated measure, or an initiative. Govt C §34871.

© The Regents of the University of California

§3.31 a. By Districts

A municipal or special election may be held "by district," in five, seven, or nine districts, meaning the "election of members of the legislative body by voters of the district alone." Govt C §34871.

© The Regents of the University of California

§3.32 b. From Districts

A municipal or special election may be held "from districts," in five, seven, or nine districts, which means "election of members of the legislative body who are residents of the district from which they are elected by the voters of the entire city." Govt C §34871.

© The Regents of the University of California

III. CANDIDATE QUALIFICATIONS

§3.33 A. Residency Requirement

A candidate for a municipal legislative body must maintain a legal residence or domicile within the city or, if elected by or from a district, be a resident of the geographical area comprising the district from which he or she is elected. Govt C §34882. See 87 Ops Cal Atty Gen 30 (2004). The candidate must have been a registered voter of the city at the time nomination papers are issued. Govt C §34882. See also Elec C §§201, 349.

© The Regents of the University of California

B. Qualifications for Particular Office

§3.34 1. Qualifications for Elected Mayor

To hold office as elected mayor, a person must, at the time he or she assumes office, be an elector of the city and be a registered voter of the city at the time nomination papers were issued. Govt C §34904.

NOTE: An "elector" is any person who is a United States citizen at least 18 years of age and a resident of an election precinct at least 15 days before an election. Cal Const art II, §2; Elec C §321. A voter is an elector who is registered as such. See Elec C §359.

© The Regents of the University of California

§3.35 2. Qualifications for Council Member, Clerk, or Treasurer

To hold the office of council member, clerk, or treasurer, a person must be an elector of the city at the time of assuming office and a registered voter at the time nomination papers are issued. If a candidate moves his or her residence to a place outside the city limits or ceases to be an elector, the office held by that person immediately becomes vacant. Govt C §36502.

NOTE: An "elector" is any person who is a United States citizen at least 18 years of age and a resident of an election precinct at least 15 days before an election. Cal Const art II, §2; Elec C §321. A voter is an elector who is registered as such. See Elec C §359.

© The Regents of the University of California

§3.36 C. Term Limits

General law and charter cities may limit the number of terms that may be served by members of the city council and/or an elected mayor. A term limit measure must be approved by the voters at a regular municipal election as either an initiative measure or a measure proposed by the city council. If approved, a term limit measure applies prospectively only. Govt C §36502(b).

NOTE: Term limit measures in charter cities in effect before January 1, 1996, were not preempted and remain in effect. Govt C §36502(b). See *Cawdrey v City of Redondo Beach* (1993) 15 CA4th 1212, 19 CR2d 179.

On limitations on the right to hold office, including term limits, see §§1.220-1.222.

© The Regents of the University of California

IV. BALLOTS

§3.37 A. Ballot Content

The ballot must contain the following information (Elec C §13103):

- Title of office;
- Names of all qualified candidates; and
- Titles and summaries of measures submitted to voters.

© The Regents of the University of California

§3.38 1. Headings

In heavy-faced gothic, capital type, of at least 30 point, the words "OFFICIAL BALLOT" must appear on the top of the ballot. The ballot must designate (Elec C §13203):

- whether it is a partisan or non-partisan election,
- the number of the United States Congressional, state senate, and assembly district involved,
- the name of the county where the ballot is voted, and
- the date of the election.

If two or more officers are to be elected for the same office for different terms, the term for each office, including the words "Full Term" or "Short Term" if applicable, must appear as part of the title of the office. Elec C §13220. See Elec C §§13215-13219 (rules on ballot stubs and ballot number).

© The Regents of the University of California

§3.39 2. Candidates' Names

Candidates' names must be printed on the ballot, without indentation, in roman capital, boldface type not smaller than eight-point, between light lines or rules at least three-eighths of an inch apart but not more than one-half inch apart. Elec C §13211.

© The Regents of the University of California

§3.40 a. Name Changes

If a candidate's name changes within 1 year of any election, that "new" name may not appear on the ballot unless the name change resulted from marriage or court order. Elec C §13104.

© The Regents of the University of California

§3.41 b. Candidates With Similar Names

If a candidate for office believes another person with a similar name has or will file a nomination paper for the same office, the candidate may request the city clerk issue the candidate a number. Elec C §13118(a). That number will be printed beside the candidate's name as a distinguishing mark. Elec C §13118(b). If two or more candidates have the same name and a statement is filed, the elections official must place a warning on the ballot, sample ballot, ballot pamphlet, and other official mailings. See Elec C §13118(d).

© The Regents of the University of California

§3.42 c. Designation of Status

At the candidate's option, his or her name printed on the ballot may be followed by a designation of status (elective office held, "incumbent," or no more than three words describing the candidate's current principal profession). See Elec C §§13107, 13107.5 (allowing "community volunteer" as valid principal profession); *Rubin v City of Santa Monica* (9th Cir 2002) 308 F3d 1008.

© The Regents of the University of California

§3.43 3. Voter Instructions

The California Elections Code provides very specific language that must be included in the instructions to voters appearing on the ballot and stub. See Elec C §§13204, 13210, 13216. These sections and the statutory updates should be consulted during the preparation of any ballot.

© The Regents of the University of California

§3.44 4. Order of Offices, Names, and Initiatives

The California Elections Code determines the order in which office and candidates' names appear on the ballot. See Elec C §§13109, 13111. The order of candidates' names is determined by random alphabet drawing. Elec C §§13112-13114. See *Bradley v Perrodin* (2003) 106 CA4th 1153, 131 CR2d 402 (randomized alphabet drawing from primary election should be used for subsequent runoff election).

The appropriate format for designating and numbering all state and local ballot measures appears in Elec C §13116.

© The Regents of the University of California

B. Other Ballot Rules

§3.45 1. Translations

Whenever the federal Voting Rights Act of 1965 (FVRA) (42 USC §1973) requires a foreign language translation of the ballot, the translation must be placed to the right of the voting square. Elec C §13209. A number of California counties are "covered jurisdictions" under the Voting Rights Act; the Justice Department has determined, based on census data, those jurisdictions subject to the minority language assistance provisions of §203 of the Voting Rights Act, as well as which languages must be translated. However, not all cities in these counties are required to translate municipal election ballots into all of the languages used in the county ballots. On the Voting Rights Act, see §§3.65-3.71.

PRACTICE TIP: The best sources of information on which languages city ballots must use are the city clerk and county registrar.

© The Regents of the University of California

§3.46 2. Political Affiliation

A candidate may be identified by party affiliation when the party is qualified to participate in an election. Elec C §13105. When candidates allege participation in a party that is not so qualified and the candidates have thus been designated as "independent" on the ballot, their challenges to have the non-qualified party affiliations placed on the ballot with their names have repeatedly failed. See Elec C §13105; *Libertarian Party v Eu* (1980) 28 C3d 535, 170 CR 25; *Peace & Freedom Party v Shelley* (2004) 114 CA4th 1237, 8 CR3d 497; *Socialist Workers Party v March Fong Eu* (9th Cir 1978) 591 F2d 1252.

Identification of party affiliation in local government elections is prohibited because judicial, school, county, and municipal offices are nonpartisan offices. Elec C §334.

© The Regents of the University of California

§3.47 3. Blank Spaces in the Ballot

Ballots must have as many blank spaces under the designation of the office as the number of candidates to be elected to office. Elec C §13212.

© The Regents of the University of California

§3.48 4. Stubs and Numbering of Ballots

There are statutorily prescribed rules regarding the stubs of the ballot as well as the ballot number. See Elec C §§13215, 13219 (technical ballot requirements).

© The Regents of the University of California

§3.49 5. Terms of Office

If two or more officers are to be elected for the same office for different terms, the term for each candidate must appear as part of the title of the office. Elec C §13220.

© The Regents of the University of California

§3.50 6. Proposed Initiatives

The California Elections Code prescribes the form of the ballot to be used for initiative measures and referendum measures. Elec C §§13119 (initiative measures), 13120 (referendum measures).

The length of ballot measures is limited to 75 words or less. Elec C §§9051, 13247.

© The Regents of the University of California

§3.51 7. Polling Stations

An election official may ban photography and videotaping at a polling station, which is a nonpublic forum under the First Amendment. *Poniktera v Seiler* (2010) 181 CA4th 121, 104 CR3d 291.

© The Regents of the University of California

C. Voters' Pamphlets

§3.52 1. Candidates' Statements

Each candidate for non-partisan office is entitled to submit a candidate's statement to be included in a voter's pamphlet distributed to all registered voters in the appropriate geographical area. The contents of this statement and the rules governing its distribution are in Elec C §§13307-13312.

Candidates' statements must be limited to a recitation of the candidates' own personal background and qualifications, and cannot make reference to other candidates or to another candidate's qualifications, character, or activities. Elec C §13308. Candidates' statements are mailed to voters along with a sample ballot and notice of election. Elec C §13307. See also Elec C §13313 (availability of candidates' statements for inspection). The statements must be kept confidential until the expiration of the filing deadline. Elec C §13311.

© The Regents of the University of California

2. Arguments on City Measures

§3.53 a. City Attorney's Impartial Analysis

Whenever a city measure qualifies for a place on the ballot, the city attorney, on direction of the city council, must prepare an impartial analysis of the measure showing the effect of the measure on existing law and the operation of the measure. This analysis is limited to 500 words, and, unlike the ballot title and summary prepared by the city attorney, may discuss the legality or constitutionality of the measure (although many city attorneys decline to do so for the analysis to appear as neutral as possible). Elec C §9280. See *King v Lewis* (1990) 219 CA3d 552, 268 CR 277.

© The Regents of the University of California

§3.54 b. Ballot Arguments

The city council, any council member, or any registered voter or combination of voters may file a written argument for or against any city measure that must be distributed to voters along with each sample ballot. The argument cannot exceed 300 words. Elec C §9282. See *Huntington Beach City Council v Superior Court* (2002) 94 CA4th 1417, 115 CR2d 439 (holding that Elec C §9282 should be liberally construed).

The ballot argument must be accompanied by the names and signatures of the authors to be accepted. Elec C §9283. In non-consolidated elections, the city clerk must set the deadline for submittal of arguments as 14 days from the date of calling the election. Elec C §9286. Charter cities may have different provisions governing arguments. Elec C §9281.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/3 Elections/§3.55 c. Multiple Arguments

§3.55 c. Multiple Arguments

If more than one argument is submitted for or against any measure, the city clerk must select only one argument based on the following priority (Elec C §9287):

- The city council, or any member or members of the council authorized by the city council;
- The bona fide sponsor of the measure;
- Bona fide associations of citizens; and
- Individual voters eligible to vote on the measure.

Arguments may be signed by up to five persons. Elec C §9283. Persons signing a ballot argument may identify themselves by both name and affiliation. Council members may identify themselves as such with or without the consent of the council.

© The Regents of the University of California

§3.56 d. Rebuttal Arguments

Rebuttal arguments of no more than 250 words may be submitted for city measures if the city council has adopted a resolution permitting rebuttal. Rebuttal arguments can be written by the author of the argument or the author may authorize, in writing, any other person to prepare, submit, or sign the rebuttal argument. Elec C §9285.

© The Regents of the University of California

§3.57 e. Public Examination and Challenge

The city clerk must make a copy of the election materials available for public review for a period of 10 days immediately following the filing deadline for submission of these materials. Elec C §§9295(a), 13313(a). During this period any voter in the city may seek a writ of mandate or injunction to have election materials amended or deleted. Elec C §§9295(b)(1), 13313(b)(1). A writ of mandate will issue only on a clear and convincing showing the material in question is false, misleading, or inconsistent with the requirements of state law and the issuance of the writ or injunction will not substantially interfere with the printing or distribution of the election materials. See Elec C §§9295(b)(2), 13313(b)(2); *Horneff v City & County of San Francisco* (2003) 110 CA4th 814, 2 CR3d 79.

PRACTICE TIP: The city clerk should be advised to perform a prima facie examination of voter pamphlet material when submitted. Initiative, referendum, and recall law is clear: procedurally defective petitions should not be accepted for filing or certified for placement on the ballot. See *Myers v Patterson* (1987) 196 CA3d 130, 136, 241 CR 751. The law is not so clear about whether the city may refuse to accept voter pamphlet material that is procedurally defective on its face (*e.g.,* a candidate's statement that attacks another candidate in violation of Elec C §13307). Alternatives for the city attorney include rejection or redaction, but the more cautious approach is to accept the defective material and institute a mandamus action to amend or delete the material. See Elec C §13313; *Clark v Burleigh* (1992) 4 C4th 474, 14 CR2d 455. See also §§13.2-13.27 (on mandamus actions). If the clerk can persuade the candidate to eliminate the defect at the counter before the material is accepted for filing, litigation may be avoided.

© The Regents of the University of California

§3.58 D. Sample Ballots

The elections official must mail a sample ballot not more than 40 or less than 21 days before each election to each voter who is registered at least 29 days before the election. The sample ballot must be identical to the official ballot for that election and must be in the form described in Elec C §13303.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/3 Elections/ E. Mailed Ballot Elections/§3.59 1. Conduct of Municipal Mailed Ballot Election

E. Mailed Ballot Elections

§3.59 1. Conduct of Municipal Mailed Ballot Election

The conditions under which a mailed ballot election may be conducted are in Elec C §4000. That statute provides that any local, special, or consolidated election may be conducted wholly by mail provided that all of the following conditions apply:

- The governing body of the local agency authorizes the use of mailed ballots for the election;
- The election is held on an established mailed ballot election date under Elec C §1500;
- The election is one of the following:
- An election in which no more than 1000 registered voters are eligible to participate;
- An election on a measure or measures restricted to the imposition of special taxes, expenditure limitation overrides, or both, in a city or other agency with 5000 or fewer registered voters;
- An election or assessment ballot proceeding required or authorized by Proposition 218; or
- Certain specified water issues (as listed in Elec C §4000).

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/3 Elections/§3.60 2. Small City Mailed Ballot Election Authorization

§3.60 2. Small City Mailed Ballot Election Authorization

Election Code §4004 authorizes a "small city" (a city with a population of 100,000 or less, as determined by the State Department of Finance) to conduct an all-mailed ballot election, subject to the following conditions:

- The city council of the small city authorizes, by resolution, the use of the mailed ballots for the election;
- The election is a special election to fill a vacancy in the city council;
- The election is not held on the same date as a statewide primary or general election;
- The election is not consolidated with any other election; and
- The return of the voted mailed ballots is subject to the same rules that otherwise apply to vote by mail ballots (see Elec C §3017).

© The Regents of the University of California

§3.61 3. Mailed Ballot Election Dates

Election Code §1500 establishes the following mailed ballot election dates:

- The first Tuesday after the first Monday in May of each year;
- The first Tuesday after the first Monday in March of each even-numbered year;
- The last Tuesday in August of each year.

© The Regents of the University of California

V. VOTERS AND THE VOTING RIGHTS ACT

A. Voter Qualifications

§3.62 1. California Constitutional Provisions

Under the California Constitution, a voter must be (Cal Const art II, §2):

- a United States citizen,
- at least 18 years of age, and
- a resident of California.

The legislature must define residence and provide for registration and free elections. Cal Const art II, §3.

© The Regents of the University of California

§3.63 2. Determination of Residence and Domicile

Residence for purpose of voting means a person's domicile. Elec C §349(a). Domicile is defined as that place where (Elec C §349(b))

- his or her habitation is fixed,
- he or she intends to remain, and
- he or she intends to return after an absence.

At a given time, a person may only have one domicile. Elec C §349(b). See also Elec C §§2020-2035; *Walters v Weed* (1988) 45 C3d 1, 8, 246 CR 5; *Collier v Menzel* (1985) 176 CA3d 24, 31, 221 CR 110.

© The Regents of the University of California

§3.64 3. Ex-Felons' Right to Vote

Persons imprisoned or on parole for the conviction of a felony are disqualified from voting. Cal Const art II, §4; Elec C §2201(c); *League of Women Voters of Cal. v McPherson* (2006) 145 CA4th 1469, 52 CR3d 585. Persons on felony probation, however, are not disqualified. 145 CA4th at 1475.

© The Regents of the University of California

B. Federal Voting Rights Act

§3.65 1. Original Requirements

Section 2 of the Federal Voting Rights Act (FVRA) (42 USC §1973) applies nationwide. As originally enacted (see Pub L 89-110, 79 Stat 437), it prohibited voting qualifications or prerequisites to voting, and standards, practices, or procedures by any state or political subdivision to deny or abridge the right of a citizen to vote on account of race or color. The FVRA required proof that the challenged electoral scheme was intentionally designed or maintained for a discriminatory purpose. *City of Mobile v Bolden* (1980) 446 US 55, 62, 64 L Ed 2d 47, 100 S Ct 1490. Section 5 of the FVRA is a special temporary provision that freezes election practices or procedures in certain states and political subdivisions until the new procedures have been reviewed and approved ("precleared") by either the United States Attorney General or the United States District Court for the District of Columbia. See 42 USC §1973c, Pub L 89-110 §5, 79 Stat 437. Covered states and political subdivisions are identified by a formula contained in §4 of the FVRA. In California, four counties are covered: Kings, Merced, Monterey, and Yuba, but the State itself is not covered. All political subdivisions subject to the FVRA may seek to "bail out" from the preclearance requirements of FVRA §5 by establishing compliance with a series of provisions in 42 USC §1973b(a)(1)(A)-(F). *Northwest Austin Mun. Util. Dist. Number One v Holder* (2009) ___ US ___, 174 L Ed 2d 140, 129 S Ct 2504.

© The Regents of the University of California

2. Amendments

§3.66 a. 1982 Amendments

In 1982, Congress amended §2 of the Federal Voting Rights Act (FVRA) (42 USC §1973) to make it a violation when, based on the totality of the circumstances, a plaintiff shows the electoral process leading to nomination or election is not equally open to participation by a class of protected citizens. 42 USC §1973(b). The rationale is that the members of the protected class have less opportunity to participate in the process and elect representatives of their choice. The report of the Senate Committee on the Judiciary on these amendments (S Rep No. 97-417, 97th Cong, 2d Sess (1982), p. 28) listed the following non-exclusive factors for courts to consider when determining if, under the totality of the circumstances, a challenged electoral practice resulted in a violation of §2 of the FVRA:

- The history of official voting-related discrimination in the state or political subdivision;
- The extent to which voting in the elections of the state or political subdivision is racially polarized;
- The extent to which the state or political subdivision has used voting practices or procedures that tend to enhance the opportunity for discrimination against the minority group, such as unusually large election districts, majority-vote requirements, and prohibitions against bullet voting;
- The exclusion of members of the minority group from candidate slating processes;
- The extent to which minority group members bear the effects of discrimination in areas such as education, employment, and health, which hinder their ability to participate effectively in the political process;
- The use of overt or subtle racial appeals in political campaigns; and
- The extent to which members of the minority group have been elected to public office in the jurisdiction.

© The Regents of the University of California

§3.67 b. Language Minority Amendments

The language minority provisions require that when a covered state or political subdivision "provides registration or voting notices, forms, instructions, assistance, or other materials or information relating to the electoral process, including ballots, it shall provide them in the language of the applicable minority group as well as in the English language." 42 USC §1973b(f)(4). See also §203 of the Federal Voting Rights Act (FVRA) (42 USC §1973). Congress adopted the language minority provisions in 1975, extended them in 1982, 1992, and 2006, extending through 2032. The State of California and numerous California counties are covered.

NOTE: The minority language requirement does not apply to recall or initiative petitions initiated, circulated, and paid for by private proponents. *Padilla v Lever* (9th Cir 2006) 463 F3d 1046, 1051; *In re Monterey Initiative & Referendum Cases* (ND Cal, May 17, 2007, Nos. 06-1407, 06-1730, 06-2369, 06-2202) 2007 US Dist Lexis 39557 (refusing to alter judgment that referendum petition privately initiated, drafted, and circulated is not subject to minority language requirements).

PRACTICE TIP: To determine whether a jurisdiction is covered and, if so, which language(s) must be used, see 67 Fed Reg 48871 (July 26, 2002) at www.usdoj.gov/crt/voting/sec_203/fedreg_July.html. Additionally, the website for the United States Department of Justice, Civil Rights Division, Voting Section (www.usdoj.gov/crt/voting/sec_203/activ_203.htm) contains practical guidelines for election officials to comply with the language minority requirements.

© The Regents of the University of California

3. Challenges to Elections Under the Federal Voting Rights Act

§3.68 a. Challenges to At-Large Elections

Cities with at-large electoral systems have been challenged under §2 of the Federal Voting Rights Act (42 USC §1973(b)) on the premise that the at-large system dilutes minority voting strength. A facially neutral act or process, such as an "at-large" system, can be shown to violate §2 if a plaintiff establishes all the following *Gingles* preconditions (*Thornburg v Gingles* (1986) 478 US 30, 49, 92 L Ed 2d 25, 106 S Ct 2752):

- The minority group harmed is sufficiently large and geographically compact to constitute a majority in a single-member district;
- The minority group is politically cohesive; and
- The majority group votes as a bloc to enable it to usually defeat the minority group's preferred candidates.

NOTE: When a city is integrated, it may be more difficult to show the requisite size and compactness of the minority group (see *Romero v City of Pomona* (9th Cir 1989) 883 F2d 1418, 1426, overruled on other grounds in *Townsend v Holman Consulting Corp.* (9th Cir 1990) 914 F2d 1136) and if the group's numbers are too low, the court may deny the claim. See *Skorepa v City of Chula Vista* (SD Cal 1989) 723 F Supp 1384. Showing cohesiveness of the minority group may be problematic when the claim shows two minority groups joining together; if the groups' votes cancel one another out, the cohesiveness is not met. See *Romero v City of Pomona, supra*.

In addition to these three threshold "preconditions," the plaintiff must also prove that, under the totality of the circumstances, the "at-large" electoral system is not equally open to participation by a class of protected citizens in that they have less opportunity to participate in the electoral process and elect representatives of their choice.

© The Regents of the University of California

§3.69 b. Challenges to District Elections

Electing council members by district raises two potential issues: principles of equal protection under the Fourteenth Amendment and §2 of the Federal Voting Rights Act (42 USC §1973(b)). In adjusting district lines to satisfy the former, the requirements of the latter must be considered. The Fourteenth Amendment can be violated when districts are not reasonably equal in population or through gerrymandering; §2 can be violated by packing minority voters into districts in excess of the number needed to elect a candidate of choice or dividing their numbers among districts to dilute their voting strength.

© The Regents of the University of California

§3.70 (1) Intentional Discrimination—Fourteenth Amendment

With regard to the requirements of reasonably equal population, decisions involving congressional districting, which is based on US Const art I, §2, the United States Supreme Court has prescribed a rule of equality "as nearly as is practicable." *Wesberry v Sanders* (1964) 376 US 1, 7, 11 L Ed 2d 481, 84 S Ct 526. By contrast, state and local apportionment is guided by the dictates of the equal protection clause; for such jurisdictions, the constitutional mandate, enunciated first in *Reynolds v Sims* (1964) 377 US 533, 579, 12 L Ed 2d 506, 84 S Ct 1362*,* has been "substantial equality." In *Silver v Reagan* (1967) 67 C2d 452, 458, 62 CR 424, the California Supreme Court recognized, however, that deviations from equality "cannot be presumed valid but must be justified by a specific showing that a permissible state policy is thereby promoted."

When the court finds intentional discrimination against minority voters in drawing district lines, the *Gingles* preconditions (see §3.68) need not be proven. *Garza v County of Los Angeles* (9th Cir 1990) 918 F2d 763, 771. Intent to preserve incumbency can constitute intentional vote dilution when the means to that end is to divide minority groups among districts to dilute their voting strength. A reapportionment plan that creates an unusually shaped district to take in minority neighborhoods that are otherwise geographically separated may violate the equal protection clause of the Fourteenth Amendment. Such a plan may be "irrational on its face" and understood only as an effort to segregate voters into separate voting districts based on race. *Shaw v Reno* (1993) 509 US 630, 645, 125 L Ed 2d 511, 113 S Ct 2816. However, it need not be shown that the redistricting plan is bizarre on its face to establish an equal protection violation; although the shape of the district may be persuasive evidence, other evidence may be used to show that race was a predominate motivating factor for redistricting and a violation of equal protection. *Miller v Johnson* (1995) 515 US 900, 913, 132 L Ed 2d 762, 115 S Ct 2475.

When district lines are drawn with race as a predominant factor, the validity of the district is subject to a strict scrutiny standard of review that can be met by demonstrating the existence of a compelling state interest in ameliorating the effects of racially polarized voting attributable to the state's history of discrimination against minorities in electoral processes. The required showing of past discrimination must be specific. In addition, a state is not entitled to draw district lines solely to ensure continued electoral success to a particular minority group. Rather, the Federal Voting Rights Act (FVRA) (42 USC §1973) mandates that the minority group's opportunity to elect representatives of its choice not be diminished, directly or indirectly, by the state's actions. *Bush v Vera* (1996) 517 US 952, 976, 135 L Ed 2d 248, 116 S Ct 1941; *Shaw v Hunt* (1996) 517 US 899, 914, 135 L Ed 2d 207, 116 S Ct 1894.

© The Regents of the University of California

§3.71 (2) Unintentional Dilution—§2 of the Federal Voting Rights Act

When there is no intentional discrimination, the *Gingles* preconditions (see §3.68) must be established and discrimination proven under the totality of the circumstances. *Growe v Emison* (1993) 507 US 25, 41, 122 L Ed 2d 388, 113 S Ct 1075 (*Gingles* factors apply to claim for dilution of minority voting strength). See also *Voinovich v Quilter* (1993) 507 US 146, 157, 122 L Ed 2d 500, 113 S Ct 1149. If the *Gingles* preconditions are not met, there is no prohibition against concentrating minority voters in a district. 507 US at 155.

© The Regents of the University of California

§3.72 C. National Voter Registration Act

Congress enacted the National Voter Registration Act (42 USC §§1973gg-1973gg-10) in 1993, commonly known as the Motor Voter Act. In addition to a state's provisions for voter registration, the Motor Voter Act requires states to provide the opportunity to register to vote for federal elections:

- At the same time voters apply for or renew a driver's license;
- At all public assistance offices and offices providing state-funded services to persons with disabilities; and
- By mail using mail-in forms.

The Motor Voter Act requires notification to all applicants of whether or not their voter registration applications were accepted. It also requires states to maintain accurate and current voter registration lists, and establishes safeguards for these lists and the right to vote. 42 USC §1973gg-6. The Motor Voter Act is enforced by the Department of Justice through a civil action in federal court to enforce its requirements. 42 USC §1973gg-9.

© The Regents of the University of California

§3.73 D. Help America Vote Act

The Help America Vote Act of 2002 (HAVA) (42 USC §§15301-15545)

- creates a new federal agency for election administration information,
- provides funds to states to improve election administration and replace outdated voting systems, and
- creates minimum standards for election administration.

HAVA is enforced by the United States Attorney General. For HAVA requirements on provisional ballots, see §3.25.

© The Regents of the University of California

E. California Voting Rights Act

§3.74 1. Scope and Effect

The California Voting Rights Act (CVRA) (Elec C §§14025-14032), enacted in 2002, applies only to (Elec C §§14026(a), 14027)

- "At-large" electoral systems (in which each member of the governing board is elected by all of the voters in the jurisdiction),
- Electoral systems with an "at large" component, and
- "From-district" electoral systems (in which each member of the governing board must reside within a particular district, but is elected by all of the voters in the jurisdiction).

The CVRA is broader than the Federal Voting Rights Act in that the CVRA prohibits both at-large elections that prevent minority members from electing their chosen candidates, as well as elections that impair the ability of minority voters to influence elections. The CVRA states that it was enacted to implement the equal protection and voting rights provisions of the California Constitution. Elec C §14031. Its constitutionality has been upheld against a facial challenge. *Sanchez v City of Modesto* (2006) 145 CA4th 660, 51 CR3d 821, cert denied (2007) 552 US 974.

© The Regents of the University of California

2. Challenges to Elections Under the California Voting Rights Act

§3.75 a. What Constitutes Violation

An at-large method of election may not be imposed or applied in a manner that impairs the ability of a protected class to elect candidates of its choice or its ability to influence the outcome of an election, as a result of the dilution or the abridgement or the rights of voters who are members of a protected class. Elec C §14027. A violation of the California Voting Rights Act (CVRA) (Elec C §§14025-14032) is established if it is shown that racially polarized voting occurs in elections for members of the governing body or in elections incorporating other electoral choices by the voters of the political subdivision. Elec C §14028(a). The methodologies for estimating group voting behavior that may be used to prove that elections are characterized by racially polarized voting are those approved in federal cases enforcing the Federal Voting Rights Act (FVRA). Elec C §14026(e). See §§3.68-3.71.

NOTE: The CVRA defines "protected class" as a class of voters who are members of a race, color, or language minority group, as referenced and defined in the FVRA (Elec C §14026(d)) and "racially polarized voting" as voting in which there is a difference, as defined in case law under the FVRA, in the choice of candidates or other electoral choices preferred by voters in a protected class, as compared to the rest of the electorate.

© The Regents of the University of California

§3.76 b. Burden of Proof

Unlike the Federal Voting Rights Act (FVRA) (42 USC §1973), the California Voting Rights Act (CVRA) does not require a plaintiff to prove at the liability stage of litigation that the minority group is sufficiently large and geographically compact to form a majority in a single member district. Elec C §14028(c). The CVRA also does not include the FVRA requirement for a plaintiff-proved discrimination under the "totality of the circumstances" test. Instead, a violation of the CVRA may be established by showing that racially polarized voting occurs in elections for members of the governing body. Elec C §14026(e). In this regard, one circumstance that may be considered in determining a CVRA violation is the extent to which candidates who are members of a protected class and who are preferred by voters of the protected class, as determined by an analysis of voting behavior, have been elected to the governing body that is the subject of the CVRA challenge. Elec C §14028(a)-(b).

The following factors are probative, but not necessary, to establish a violation of the CVRA (Elec C §14028(e)):

- History of discrimination;
- Use of electoral devices or other practices/procedures that may enhance the dilutive effects of at-large elections;
- Denial of access to processes that determine which groups of candidates will receive financial or other support in a given election;
- Extent to which members of a protected class bear the effects of past discrimination in areas such as education, employment, and health; and
- Use of overt or subtle racial appeals in political campaigns.

Like the FVRA, the CVRA does not require proof of intent on the part of either voters or elected officials to establish a violation. Elec C §14028(d).

© The Regents of the University of California

§3.77 c. Action for Violation

Any voter who is a member of a protected class and who resides in a political subdivision where a violation of the California Voting Rights Act (CVRA) is alleged may file an action in the superior court in which the political subdivision is located. Elec C §14032.

If it finds a violation of the CVRA, the court must implement "appropriate" remedies, including the imposition of district-based elections tailored to remedy the violation. Elec C §14029.

NOTE: Although the fact that members of a protected class are not geographically compact or concentrated does not support a violation of the CVRA (see §3.76), it may be a factor in determining an appropriate remedy. Elec C §14028(c).

A successful CVRA plaintiff (other than a governmental entity) is entitled to reasonable attorney fees and litigation expenses, including, but not limited to, expert witness fees and expenses. A prevailing defendant, by contrast, is not entitled to recover any costs unless the court finds the action to have been frivolous, unreasonable, or without foundation. Elec C §14030.

© The Regents of the University of California

F. Restrictions on Right to Vote

§3.78 a. When Subject to Strict Scrutiny

The right to vote is a fundamental right. *Wesberry v Sanders* (1964) 376 US 1, 17, 11 L Ed 2d 481, 84 S Ct 526. The principle of "one-person, one-vote" is firmly grounded in the Fifth Amendment of the United States Constitution. *Reynolds v Sims* (1964) 377 US 533, 562, 12 L Ed 2d 506, 84 S Ct 1362. When a law impinges on the right to vote of a person qualified to do so, it will ordinarily be subject to strict judicial scrutiny. Under this very severe standard, a discriminatory law will not be given effect unless its classification bears a close relation to promoting a compelling state interest, is necessary to achieve the government's goal, and is narrowly drawn to achieve the goal by the least restrictive means possible. *Board of Supervisors v Local Agency Formation Comm'n* (1992) 3 C4th 903, 913, 13 CR2d 245, cert denied (1993) 507 US 988. In general, absent a special interest, any classification restricting the franchise on grounds other than residence, age, and citizenship cannot stand unless the public agency can demonstrate that the classification serves a compelling interest. *Hill v Stone* (1975) 421 US 289, 44 L Ed 2d 172, 95 S Ct 1637.

© The Regents of the University of California

§3.79 b. When Subject to Rational Basis Test

The mere fact that a state law touches on the right to vote does not necessarily require the application of strict scrutiny. *Burdick v Takushi* (1992) 504 US 428, 119 L Ed 2d 245, 112 S Ct 2059. Restricting the franchise to residents is subject to a rational basis test. *Neilson v City of Cal. City* (2005) 133 CA4th 1296, 35 CR3d 453, cert denied (2006) 549 US 816 (rational basis test satisfied, because City could have determined that the residents are most knowledgeable and interested in all aspects of local affairs).

The rational basis test also applies to a restriction when a special-purpose unit of government is involved and that unit performs functions affecting a definable group of constituents. Under these circumstances, voting power may be apportioned to give greater influence to the citizens most affected by the agency's functions without violating equal protection guarantees, as long as the resulting classification is reasonably related to the statutory objective. *Southern Cal. Rapid Transit Dist. v Bolen* (1992) 1 C4th 654, 3 CR2d 843. See also *Board of Supervisors v Local Agency Formation Comm'n* (1992) 3 C4th 903, 13 CR2d 245, cert denied (1993) 507 US 988. However, apportioning voting power in such a manner is never mandatory. *Foothill-DeAnza Community College Dist. v Emerich* (2007) 158 CA4th 11, 19, 69 CR3d 678; *Neilson v California City, supra* (landowner vote not required to impose property tax).

© The Regents of the University of California

§3.80 VI. INITIATIVES AND REFERENDA

California Constitution article II, §§8-11 provide the basis for the powers of initiative and referenda in California.

- Initiative is "the power of the electors to propose statutes and amendments to the Constitution and to adopt or reject them." See Cal Const art II, §8(a).
- Referendum is "the power of the electors to approve or reject statutes or parts of statutes, except urgency statutes, statutes calling elections and statutes providing for tax levies or appropriations for usual current expenses of the state." Cal Const art II, §9(a).

"Initiative and referendum powers may be exercised by the electors of each city or county under procedures that the Legislature shall provide." Cal Const art II, §11(a). "This section generally does not affect a city having a charter." But see Cal Const art II, §11(b)-(c).

NOTE: Initiatives, referenda, and recall petitions, as well as any memoranda prepared by the elections official in examining the petitions, are not public records. Disclosure of such documents is limited to the clerk, the proponent, and specified law enforcement officials. Govt C §6253.5. Petitions must be retained by the clerk for 8 months after certification of the election results. Elec C §17200.

© The Regents of the University of California

A. Statutory Provisions Applicable To Cities

§3.81 1. Initiatives

The statutory procedures for city initiatives are found in Elec C §§9200-9226. These sections frequently refer to "ordinances," but in fact the initiative power is applicable to all city legislative acts regardless of the form.

NOTE: The distinction between a legislative act and an administrative act is important in this context; only legislative acts are subject to the power of initiative. On legislative acts, see §§3.106-3.107.

© The Regents of the University of California

§3.82 a. Petition for Proposed Initiative

A proposed initiative may be submitted to the legislative body of the city by a petition filed with the clerk after being signed by not less than the required number of votes. The petition may be in separate sections, as long as each section complies with all the requirements. The first page of each section must contain the title of the petition and the text of the initiative. Elec C §9201; *Mervyn's v Reyes* (1998) 69 CA4th 93, 81 CR2d 148.

© The Regents of the University of California

§3.83 (1) Notice of Intent to Circulate Petition

The initiative process is begun by the filing of a notice of intent to circulate petition with the city clerk together with text of the initiative. Elec C §9202. A notice of intent that does not contain the name(s) of the proponent(s) of the initiative must be rejected by the city clerk. 83 Ops Cal Atty Gen 139 (2000).

The city attorney must provide an impartial and non-argumentative ballot title and summary, in fewer than 500 words, within 15 days of the filing of the notice of intent. Elec C §9203.

PRACTICE TIP: The city attorney should simply summarize what the initiative says; analysis should not be included in the summary. On completion, the ballot title and summary should be provided promptly to the filer.

Preparation of the ballot title and summary is a ministerial act, and the documents must be prepared even if the city attorney believes the initiative to be illegal. *Schmitz v Younger* (1978) 21 C3d 90, 145 CR 517; *Widders v Furchtenicht* (2008) 167 CA4th 769, 84 CR3d 428 (city attorney properly obtained prior judicial authorization before preparing title and summary of initiative that appeared to be illegal). Any elector of the city may seek a writ of mandate to amend the ballot title or summary if either is false, misleading, or inconsistent with the requirements of Elec C §9204. Elec C §9204; *San Francisco Forty-Niners v Nishioka (Comstock)* (1999) 75 CA4th 637, 89 CR2d 388.

PRACTICE TIP 1: Compliance with statutory requirements is the responsibility of the initiative proponent. It is not the responsibility of the city attorney to advise the proponent or correct the proponent's errors. Even if the city has provided input on the statutory requirements, the city is unlikely to be estopped later from rejecting a petition if the input is incorrect. See *Creighton v Reviczky* (1985) 171 CA3d 1225, 217 CR 834.

PRACTICE TIP 2: The city attorney and city clerk should use the time before the petition is filed with the signatures affixed to review all of the statutory requirements for initiatives and the text of the initiative. This enables the attorney and clerk to anticipate and prepare to address any potential problems that may arise when the petition is filed. The city clerk should be prepared to reject the petition if the statutory requirements are not met.

PRACTICE TIP 3: The city attorney should prepare a checklist of the statutory requirements for such petitions to give to the city clerk to use in reviewing the petition.

A notice of intention and the title and summary of the proposed initiative must be published or posted. Elec C §9205.

© The Regents of the University of California

§3.84 (2) Circulating Petition

After publication or posting the notice of intention and the title and summary of the proposed measure (see §3.83), the proponents may circulate the petitions among the registered voters of the city. Elec C §9207.

Each section of the petition must have a declaration of the person soliciting the signatures attached. For required declaration form, see Elec C §§9022, 9209. *Buckley v American Constitutional Law Found., Inc.* (1999) 525 US 182, 142 L Ed 2d 599, 119 S Ct 636. Circulators need not declare that they are voters or are qualified to register as voters of the city. See *Preserve Shorecliff Homeowners v City of San Clemente* (2008) 158 CA4th 1427, 71 CR3d 332 (concluding city residency requirement of Elec C §§9209 and 9238(c) violates First Amendment's free-speech guarantee).

NOTE: Any circulator who intentionally either misrepresents or makes false statements on the contents, purpose, or effect of the petition is guilty of a misdemeanor. Elec C §18600. Allegations of misrepresentation or false statements do not affect the clerk's duty to accept the petition and count the signatures. *San Francisco Forty-Niners v Nishioka (Comstock)* (1999) 75 CA4th 637, 89 CR2d 388. The petition must be signed and circulated in accordance with Elec C §§100-106, 9207-9209. Physical interference with the circulation of a petition is a criminal offense (Elec C §§18620, 18630, 18631), but petition opponents are not prohibited from urging prospective signers not to sign the petition.

Any voter who has signed a petition may withdraw his or her signature by filing a written request with the elections officer before the date that the petition is filed. Elec C §9602. The voter's written request does not need an attached declaration from the circulator of the petition. Elec C §§104, 9602.

© The Regents of the University of California

§3.85 (3) Filing Petition

Signatures and sections must be secured, and the petition and all sections filed within 180 days of the receipt of the title and summary. Elec C §9208. All sections of the petition must be filed at one time by the proponents or persons authorized in writing by the proponents. Elec C §9210.

Signatures lacking the signer's full residential address must not be counted as valid (*Mapstead v Anchundo* (1998) 63 CA4th 246, 268, 73 CR2d 602), but invalidated signatures do not affect the validity of the other valid signatures on the particular section of the petition. Elec C §105. A petition lacking the dates of circulation or the declarant's signature must also be rejected. See Elec C §18600; *Albert v Jamieson* (1954) 124 CA2d 298, 268 P2d 542.

© The Regents of the University of California

b. City Council Action on Petition

§3.86 (1) Council Options

If the petition qualifies, the city council must either (Elec C §§9214-9215)

- adopt it without change, or
- submit the proposal to the voters.

If the petition measure is lawful and procedurally in compliance with law, the city has a ministerial duty to place the measure on the ballot if the council declines to adopt the initiative.

NOTE: The city council may on its own submit an initiative for voter approval without a petition. Elec C §9222.

City councils cannot refuse to put an initiative on the ballot because of perceived unlawfulness of the initiative's subject matter. See *Save Stanislaus Area Farm Econ. v Board of Supervisors* (1993) 13 CA4th 141, 16 CR2d 408 (registrar must put on ballot duly qualified initiative that complies with formal requirements for submitting initiative). If the city believes the initiative is substantively unlawful, it can take the matter to court for declaratory relief or mandamus to remove the initiative from the ballot. See *Save Stanislaus Area Farm Econ., supra*; *Yost v Thomas* (1984) 36 C3d 561, 205 CR 801 (criticizing city for rejecting referendum); *Schmitz v Younger* (1978) 21 C3d 90, 145 CR 517 (Attorney General had no authority to refuse to prepare title and summary for state initiative that he thought violated single-subject rule). But see *Widders v Furchtenicht* (2008) 167 CA4th 769, 84 CR3d 428 (city attorney properly obtained prior judicial authorization before preparing title and summary of initiative that appeared to be illegal). Nor should the clerk consider extrinsic evidence in determining compliance with the statutory procedural requirements. *Alliance for a Better Downtown Millbrae v Wade* (2003) 108 CA4th 123, 133 CR2d 249.

PRACTICE TIP: The city clerk should perform an initial review of submitted materials and not accept for filing any document that, on its face, does not comply with the statutory procedural requirements. See *Myers v Patterson* (1987) 196 CA3d 130, 241 CR 751 (registrar has duty to reject initiative petition when it did not have requisite notice of intent).

© The Regents of the University of California

§3.87 (2) City Council May Request Impartial Analysis

When directed by the city council, the attorney must prepare an impartial analysis on an initiative. The analysis must not exceed 500 words. The analysis should explain the effect of the initiative on existing law and its operation. Elec C §9280. The analysis should be drafted in plain, clear, and objective language. If the city attorney believes the measure may be unlawful, the analysis may indicate that the initiative has potential legal problems. See *King v Lewis* (1990) 219 CA3d 552, 268 CR 277.

© The Regents of the University of California

§3.88 (3) City Council May Refer Petition for Report

The city council may refer the petition to any city agency or agencies for their reports on fiscal impacts, general and specific plan consistency, various land use issues, and "any other matters." Elec C §9212.

PRACTICE TIP: The report must be presented no later than 30 days after the elections official certifies the sufficiency of the petition. Thirty days may not be long enough to ask the city council if a report is desired, see what topics should be included, prepare the report, and properly notice the report on an agenda. Depending on the magnitude of issues, it may be prudent to seek city council direction on the report *before* the petition is determined to be sufficient to provide enough lead-time. In addition, the timing to get the initiative on the ballot may be a factor because it could add 30 more days to city council action to either adopt the initiative or call for an election.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/3 Elections/§3.89 c. Timing of Election

§3.89 c. Timing of Election

The timing of the election depends on the number of signatures on the petition.

© The Regents of the University of California

§3.90 (1) Special Election

If the petition contains the signatures of at least 15 percent of the registered voters (or, if a city has 1000 or fewer registered voters, the signatures of 25 percent or 100 voters, whichever is less) and expressly requests a special election, the council must call a special election. Elec C §9214.

The special election must be held not fewer than 88 nor more than 103 days after the date of the order of elections. Elec C §§1405, 9214. However, when it is legally possible, the special election may be held on the same date as an election occurring wholly or partially within the same territory if the petition qualifies within 180 days before that election (Elec C §1404(a)(1)), and the special election may be held on the same date as the statewide general election if the petition qualifies during the period between the primary and general election in the same year (Elec C §1405(a)(2)).

The city council is not required to, but may, call a special election even if the initiative does not otherwise qualify for a special election. Elec C §§9215(b), 10201.

© The Regents of the University of California

§3.91 (2) Regular Election

If the petition contains the signatures of at least 10 percent of the registered voters (or, if a city has 1000 or fewer registered voters, the signatures of 25 percent or 100 voters, whichever is less), or at least 15 percent of the registered voters for a charter amendment (Elec C §9255), the council must place the initiative on the ballot at the next regular election held not fewer than 88 days after the date of the order of election. Elec C §§1405, 9215.

NOTE: Under Proposition 218 (Cal Const art XIIIC, §3), a measure for the repeal or reduction of a tax, assessment, fee, or charge qualifies if the petition contains the signatures of at least 5 percent of the votes cast in the city for all candidates for governor in the immediately proceeding gubernatorial election. An election for the purpose of imposing a "general tax" must be consolidated with a regularly scheduled general election for members of the city council, except in cases of emergency declared by a unanimous vote of the council. Cal Const art XIIIC, §2(b).

© The Regents of the University of California

§3.92 d. Adoption of Initiative

A majority vote is required to adopt an initiative, except for those that establish, increase, or extend a "special tax," which require a two-thirds vote of the electorate for passage. Cal Const art XIIIC, §2(d); Govt C §53722.

If an initiative is adopted by vote of the city council without submission to the voters, or adopted by the voters, it can only be repealed or amended by the voters (unless its language provides otherwise). Elec C §9217; *Mobilepark West Homeowners Ass'n v Escondido Mobilepark West* (1995) 35 CA4th 32, 41 CR2d 393 (city council-adopted ordinance purporting to clarify and implement existing rent control initiative declared invalid).

© The Regents of the University of California

§3.93 e. Conflicting Initiatives

When two or more conflicting initiatives pass, the one receiving the highest number of affirmative votes controls. Elec C §9221. Initiatives "conflict" if they present themselves as conflicting, or if each creates a comprehensive regulatory scheme relating to the same subject. *Taxpayers to Limit Campaign Spending v Fair Political Practices Comm'n* (1990) 51 C3d 744, 274 CR 787.

PRACTICE TIP: To avoid disputes regarding whether two initiatives compete when a city council places a competing measure on the ballot, the council's measure should contain a "poison pill" explicitly providing that it is in conflict with any other measure on the subject, and that none of the others will take effect if the council's measure receives the most votes. See *Concerned Citizens v City of Carlsbad* (1988) 204 CA3d 937, 251 CR 583.

© The Regents of the University of California

§3.94 2. Referenda (Ordinances)

The statutory procedures for city referenda are in Elec C §§9235-9247. As with initiatives, sections on referenda frequently use the word "ordinance." The referendum power, however, is applicable to all legislative acts regardless of the form (*i.e.,* ordinance or resolution). On legislative acts, see §§3.106-3.107.

© The Regents of the University of California

§3.95 a. Petition for Proposed Referenda

The referendum petition must be in a form prescribed by statute and each section must have a declaration of the circulator attached. The declaration must include a statement the circulator is a voter or is qualified to be a voter in California. Elec C §§102, 104, 9238. See *San Francisco Forty-Niners v Nishioka (Comstock)* (1999) 75 CA4th 637, 89 CR2d 388 (suggesting that referendum petition that contains objectively inaccurate information and calculated untruths that substantially mislead and misinform reasonable voter would be unlawful under Elec C §18600). On circulating the petition, see §3.96.

Each section of a referendum petition must contain the identifying number or title of the ordinance that is subject to the referendum. Elec C §9238. If the number and title are included, any error in either may render the petition invalid. See *Hebard v Bybee* (1998) 65 CA4th 1331, 77 CR2d 352.

The text of any ordinance or resolution for which a referendum is sought must be attached to the petition. Elec C §9238. See *Defend Bayview Hunters Point Comm. v City & County of San Francisco* (2008) 167 CA4th 846, 858, 84 CR3d 486 (finding referendum petition to overturn development plan fatally defective when petition failed to include copy of redevelopment plan); *Nelson v Carlson* (1993) 17 CA4th 732, 21 CR2d 485 (finding petition to amend general plan fatally defective because entire general plan was not attached to petition). But see *We Care—Santa Paula v Herrera* (2006) 139 CA4th 387, 42 CR3d 577 (full text of general plan unnecessary for initiative adding new language rather than amending existing language).

© The Regents of the University of California

§3.96 (1) Circulating Petition

A person who is a voter or qualified to vote may circulate a petition. Elec C §102; *Buckley v American Constitutional Law Found., Inc.* (1999) 525 US 182, 142 L Ed 2d 599, 119 S Ct 636 (finding Colorado statute requiring circulators be registered voters violates First Amendment free speech guarantee, as voter registration requirement drastically reduced number of available circulators without justification); 82 Ops Cal Atty Gen 250 (1999). The circulator, however, does not need to be a resident of the city. See *Preserve Shorecliff Homeowners v City of San Clemente* (2008) 158 CA4th 1427, 71 CR3d 332 (concluding city residency requirement of Elec C §§9209 and 9238(c) violates First Amendment free speech guarantee); 82 Ops Cal Atty Gen 250 (1999).

© The Regents of the University of California

§3.97 (2) Filing Petition

Petitions are filed with the city clerk, who must determine the number of signatures and certify the results. Elec C §§9239-9240. Petitions must be filed during normal office hours as posted. Elec C §9242. Petition signatures must also meet the requirements of Elec C §§100-106. But see *Malick v Athenour* (1995) 37 CA4th 1120, 44 CR2d 281.

NOTE: A petition protesting the adoption of an ordinance must be submitted within 30 days after the adopted referendum is attested by the city clerk and signed by not less than 10 percent of the registered voters (or, if the city has 1000 or fewer registered voters, the signatures of 25 percent or 100 voters are required). Elec C §9237. The submission of such a petition suspends the effective date of the ordinance. Elec C §9237.

© The Regents of the University of California

§3.98 b. City Council Action on Petition

If a valid petition containing the requisite number of signatures is timely submitted, the city council must either (Elec C §9241):

- repeal the entire ordinance, or
- submit the ordinance to a vote.

© The Regents of the University of California

§3.99 (1) Effect of Repeal

If the city council repeals the ordinance, the same or similar ordinance cannot be again enacted for 1 year from the date of the repeal. Elec C §9241.

© The Regents of the University of California

§3.100 (2) Election on Ordinance

If not repealed, the council must submit the ordinance to the voters at the next regular municipal election (if it occurs within not fewer than 88 days), or, if there is no regular election within that time, at a special election called not fewer than 88 days after the order of the city council. Elec C §9241. Election procedures are the same as those for initiatives. See Elec C §§9217-9225, 9243.

To become effective, the ordinance must be approved by a majority vote. If not approved by a majority vote, the same or similar ordinance cannot be again enacted for 1 year from the date of the election. Elec C §9241.

© The Regents of the University of California

§3.101 c. Effective Date of Ordinances

Ordinances are effective 30 days after adoption except for those relating to an election, urgency ordinances, street improvement proceedings, and ordinances governed by particular provisions of state law prescribing the manner of their passage and adoption. Elec C §9235.

© The Regents of the University of California

§3.102 B. Applicability to Charter Cities

Consistent with the state constitutional provisions, the statutory schemes for initiative and referendum "do not apply to cities having a charter adopted under section 3 of Article XI of the California Constitution, and having in their charters any provision for the direct initiation of ordinances by the voters …" Elec C §9247. Charter cities, however, may not diminish referendum powers reserved by the California Constitution. *Rubalcava v Martinez* (2007) 158 CA4th 563, 571, 70 CR3d 225.

NOTE: The requirements for initiatives to change the charter itself are slightly different from the requirements for initiative ordinances. Elec C §9255.

© The Regents of the University of California

C. Limitations on Use of Initiative and Referendum

1. Constitutional Limitations

a. Limitations on Initiatives

§3.103 (1) Single-Subject Rule

"An initiative measure embracing more than one subject may not be submitted to the electors or have any effect." Cal Const art II, §8(d). An initiative measure will not violate the single-subject rule if, despite its varied collateral effects, all of its parts are "reasonably germane" to each other. See *Amador Valley Joint Union High Sch. Dist. v State Bd. of Equalization* (1978) 22 C3d 208, 149 CR 239; *San Mateo County Coastal Landowners' Ass'n v County of San Mateo* (1995) 38 CA4th 523, 45 CR2d 117. Election Code §9218 prohibits voting on ordinances with the same subject matter within any 12-month period at a special election.

NOTE: The single-subject rule does not apply to city council-initiated ballot measures. See *Hernandez v County of Los Angeles* (2008) 167 CA4th 12, 18, 84 CR3d 10.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/3 Elections/§3.104 (2) Naming Individuals or Corporations to Governmental Positions

§3.104 (2) Naming Individuals or Corporations to Governmental Positions

An initiative that names an individual to hold any office, or names or identifies any private corporation to perform any function or to have any power or duty, does not have any effect. Cal Const art II, §12. Such a measure may not be submitted to the voters. *Pala Band of Mission Indians v Board of Supervisors* (1997) 54 CA4th 565, 63 CR2d 148 (applies to local initiatives).

© The Regents of the University of California

§3.105 b. Limitations on Referenda

The referendum power does not extend to any of the following (Cal Const art II, §9(a)):

- urgency statutes under Govt C §§36934, 36937, 65858 (interim land use ordinances),
- statutes calling elections, and
- statutes providing for tax levies or appropriations for usual current state expenses.

See also *City of Westminster v County of Orange* (1988) 204 CA3d 623, 251 CR 511. But see *Rossi v Brown* (1995) 9 C4th 688, 38 CR2d 363 (initiative repealing charter city's utility tax is not referendum on tax measure and not prohibited by charter and constitutional provisions); *Santa Clara County Local Transp. Auth. v Guardino* (1995) 11 C4th 220, 45 CR2d 207 (applying *Rossi* to initiative subjecting all new local taxes proposed by local legislative body to condition of prior voter approval). See also Cal Const art XIIIC (Proposition 218) (expressly authorizing use of initiatives and referenda for purpose of reducing taxes).

© The Regents of the University of California

2. Judicial Limitations on Initiatives and Referenda

§3.106 a. Only Apply to Legislative Acts

Initiatives and referenda may only be applied to legislative acts. *DeVita v County of Napa* (1995) 9 C4th 763, 38 CR2d 699. Legislative acts generally involve the formulation of rules to be applied in all future cases, whereas adjudicatory acts generally involve the application of a fixed rule to a specific set of existing facts.

© The Regents of the University of California

§3.107 (1) Examples of Legislative Acts

- Zoning and rezoning ordinances (see *Arnel Dev. Co. v City of Costa Mesa* (1980) 28 C3d 511, 169 CR 904; *Associated Home Builders, Inc. v City of Livermore* (1976) 18 C3d 582, 135 CR 41).
- General and specific plans (see *DeVita v County of Napa* (1995) 9 C4th 763, 38 CR2d 699; *Nelson v Carlson* (1993) 17 CA4th 732, 21 CR2d 485; *Midway Orchards v County of Butte* (1990) 220 CA3d 765, 269 CR 796).
- Road abandonments (see *Heist v County of Colusa* (1984) 163 CA3d 841, 213 CR 278).
- Development agreements adopted under Govt C §§65864, 65867.5.
- Local coastal programs (see *San Mateo County Coastal Landowners' Ass'n v County of San Mateo* (1995) 38 CA4th 523, 45 CR2d 117).
- Fixing of compensation of local officials (see *Bagley v City of Manhattan Beach* (1976) 18 C3d 22, 132 CR 668; 84 Ops Cal Atty Gen 13 (2001)).

© The Regents of the University of California

§3.108 (2) Examples of Adjudicatory Acts

- Conditional use permits (see *Wiltshire v Superior Court* (1985) 172 CA3d 296, 218 CR 199).
- Variances (see Topanga Ass'n for a Scenic Community v County of Los Angeles (1974) 11 C3d 506, 113 CR 836).
- Planned unit development permits (see *Fishman v City of Palo Alto* (1978) 86 CA3d 506, 150 CR 326).
- Subdivision map approvals (see *Horn v County of Ventura* (1979) 24 C3d 605, 156 CR 718).
- Employee discipline and appeals.
- Matter subject to review under CCP §1094.5.

© The Regents of the University of California

§3.109 b. Cannot Direct Council to Perform Legislative Act

An initiative measure is invalid if, instead of itself being a legislative act, it directs the city council to perform a legislative act. See *Marblehead v City of San Clemente* (1991) 226 CA3d 1504, 277 CR 550 (invalidating initiative that directed city council to revise plan and zoning ordinances to reflect concepts expressed in measure); *Widders v Furchtenicht* (2008) 167 CA4th 769, 784, 84 CR3d 428 (city attorney properly obtained prior judicial authorization before preparing title and summary of initiative that appeared to be illegal).

© The Regents of the University of California

§3.110 c. Cannot Relate to Matters Committed to Council

Courts have held the electorate may not exercise the power of initiative or referendum on matters that the legislature has committed to the discretion of the city council. *Committee of Seven Thousand v Superior Court* (1988) 45 C3d 491, 247 CR 362; *Mitchell v Walker* (1956) 140 CA2d 239, 295 P2d 90, overruled on other grounds in *Kugler v Yocum* (1968) 69 C2d 371, 71 CR 687.

© The Regents of the University of California

§3.111 d. Cannot Impair Essential Government Functions

Courts have also said the power of initiative and referendum does not extend to "essential government functions." See *City of Atascadero v Daly* (1982) 135 CA3d 466, 185 CR 228 (impairment of fiscal management abilities); *Simpson v Hite* (1950) 36 C2d 125, 222 P2d 225 (siting courthouse); *Newsom v Board of Supervisors* (1928) 205 C 262, 270 P 676 (franchising authority).

© The Regents of the University of California

§3.112 e. Cannot Regulate Preempted Matters

An initiative may not regulate matters that have been preempted by the state. See, *e.g., Voters for Responsible Retirement v Board of Supervisors* (1994) 8 C4th 765, 35 CR2d 814; *Wiltshire v Superior Court* (1985) 172 CA3d 296, 218 CR 199 (solid waste management); *Bruce v City of Alameda* (1985) 166 CA3d 18, 212 CR 304 (subsidized rental housing); *Redevelopment Agency v City of Berkeley* (1978) 80 CA3d 158, 169, 143 CR 633 (redevelopment).

NOTE: The city council, when functioning as an agency of the state, is beyond the reach of a municipal initiative or referendum unless the state explicitly reserved such right under the relevant circumstances. See *Jahr v Casebeer* (1999) 70 CA4th 1250, 83 CR2d 172.

© The Regents of the University of California

§3.113 f. Cannot Be Arbitrary and Discriminatory

An initiative that constitutes arbitrary and discriminatory regulation is not within the proper exercise of the city's police power and is thus invalid. *Arnel Dev. Co. v City of Costa Mesa* (1981) 126 CA3d 330, 178 CR 723.

© The Regents of the University of California

§3.114 g. Must Be Consistent With the General Plan

Initiatives and referenda must be consistent with the city's general plan (*Lesher Communications, Inc. v City of Walnut Creek* (1990) 52 C3d 531, 277 CR 1; *deBottari v City Council of Norco* (1985) 171 CA3d 1204, 217 CR 790 (zoning ordinance referendum petition), although the charters of some cities may not require the same consistency. See *Garat v City of Riverside* (1991) 2 CA4th 259, 3 CR2d 504, disapproved on other grounds in *Morehart v County of Santa Barbara* (1994) 7 C4th 725, 29 CR2d 804.

On general plan requirements, see §§10.16-10.83.

© The Regents of the University of California

§3.115 h. Must Be Consistent With State and Federal Constitutional Requirements

An initiative is subject to constitutional requirements like any other statute. *Rossi v Brown* (1995) 9 C4th 688, 38 CR2d 363. See *Hawn v County of Ventura* (1977) 73 CA3d 1009, 141 CR 111 (court invalidated initiative that discriminated between voters in city and voters in county as violative of equal protection). See also *Citizens for Responsible Behavior v Superior Court* (1991) 1 CA4th 1013, 2 CR2d 648 (anti-gay rights initiative).

© The Regents of the University of California

§3.116 3. City's Choices When It Believes Initiative or Referendum Is Unlawful

If the city believes an initiative or referendum is unlawful (as opposed to procedurally defective), the city may take one of the three actions discussed in §§3.117-3.119.

© The Regents of the University of California

§3.117 a. Refuse to Prepare Title and Summary

The city attorney may refuse to prepare the title and summary, seek a declaration that the proposed initiative is unconstitutional, and seek relief from the duty to prepare a title and summary. See *Widders v Furchtenicht* (2008) 167 CA4th 769, 84 CR3d 428 (city attorney properly obtained prior judicial authorization before preparing title and summary of initiative that appeared to be illegal); *Jahr v Casebeer* (1999) 70 CA4th 1250, 83 CR2d 172.

© The Regents of the University of California

§3.118 b. Refuse To Place Measure on Ballot

The city council may refuse to place the measure on the ballot. The initiative proponents then may file a mandamus action against which the city will defend. The court may uphold the refusal (see *City of Irvine v Irvine Citizens Against Overdevelopment* (1994) 25 CA4th 868, 30 CR2d 797 (pre-election challenge to referendum petition that was inconsistent with city's general plan upheld); *Citizens for Responsible Behavior v Superior Court* (1991) 1 CA4th 1013, 2 CR2d 648) (anti-gay rights initiative)), or order the measure placed on the ballot, subject to a later (separate) suit after the election if the measure is adopted.

NOTE: This approach was repudiated in *Save Stanislaus Area Farm Econ. v Board of Supervisors* (1993) 13 CA4th 141, 16 CR2d 408 (registrar must put duly qualified initiative that complies with formal requirement for submitting initiative ballot). See *Schmitz v Younger* (1978) 21 C3d 90, 145 CR 517 (Attorney General had no authority to refuse to prepare title and summary for state initiative that he thought violated single-subject rule).

PRACTICE TIP: In any pre-election review, courts much prefer to defer ruling on an initiative or referendum's validity until after the election. On judicial review, see §3.123.

© The Regents of the University of California

§3.119 c. Place Measure on Ballot

If the city council decides to place the measure on the ballot, if may then take one of the following three actions:

(1) Direct the city attorney to file an action to remove the measure from the ballot. See *Yost v Thomas* (1984) 36 C3d 561, 205 CR 801 (criticizing city for rejecting referendum and noting only courts can decide such difficult matters); *Save Stanislaus Area Farm Econ. v Board of Supervisors* (1993) 13 CA4th 141, 16 CR2d 408; *City of Atascadero v Daly* (1982) 135 CA3d 466, 185 CR 228 (city's declaratory relief action on initiative requiring voter approval of any revenue-raising measure).

(2) Defend the validity of the measure once adopted. See *Arnel Dev. Co. v City of Costa Mesa* (1980) 28 C3d 511, 514 n3, 169 CR 904.

NOTE: The notion that a city has a duty to defend the validity of initiative measures passed by its electorate has been questioned. See *City of Burbank v Burbank-Glendale-Pasadena Airport Auth.* (2003) 113 CA4th 465, 6 CR3d 367. Should the city choose to defend the measure, it may be more difficult for the city attorney to do so if the city attorney's ballot measure analysis said the measure was unlawful.

(3) File a post-election challenge seeking a judicial determination of the validity of the measure. See *City of Burbank v Burbank-Glendale-Pasadena Airport Auth.* (2003) 113 CA4th 465, 6 CR3d 367 (court upheld post-election challenge to initiative filed by city, despite fact that city had not earlier brought pre-election challenge to that measure).

© The Regents of the University of California

D. Procedural Exemptions

§3.120 1. Notice and Hearing

Notice and hearing requirements generally do not apply to the enactment of initiatives. *Associated Home Builders, Inc. v City of Livermore* (1976) 18 C3d 582, 135 CR 41.

© The Regents of the University of California

§3.121 2. California Environmental Quality Act (CEQA)

"The submittal of proposals to a vote of people of the state or of a particular community" is not considered a "project" under California Environmental Quality Act (CEQA) (Pub Res C §§21000-21178). 14 Cal Code Regs §15378(b)3. Thus, environmental review of initiatives is not required under CEQA before putting a voter-initiated measure on the ballot. See *Stein v City of Santa Monica* (1980) 110 CA3d 458, 168 CR 39 (codified by CEQA Guidelines). However, an initiative generated and placed on a ballot by a city council is considered a discretionary project under CEQA and thus environmental review under CEQA is required. *Friends of Sierra Madre v City of Sierra Madre* (2001) 25 C4th 165, 105 CR2d 214.

PRACTICE TIP: The requirement of environmental review under CEQA will hamper cities' ability to place city council-generated counter-initiatives on the ballot. If a city believes that a voter-sponsored initiative is ill-advised because it will have an adverse impact on the environment, the city may refer the matter for an abbreviated environmental review under Elec C §§9111 and 9212.

On CEQA, see chap 11.

© The Regents of the University of California

§3.122 3. Housing Limitation Findings

Evidence Code §669.5, which states that cities bear the burden of proof as to growth control ordinances, applies to initiatives, but Govt C §65863.6, which requires that growth control ordinances contain findings as to public health, safety, and welfare, does not. *Building Indus. Ass'n v City of Camarillo* (1986) 41 C3d 810, 226 CR 81.

NOTE: It is unclear whether the logic used in *Camarillo* may be extended to exempt initiative measures from other types of findings.

© The Regents of the University of California

§3.123 E. Judicial Review

Courts are generally more willing to review an initiative or referendum *after* the election. See *Bailey v County of El Dorado* (1984) 162 CA3d 94, 210 CR 237 (overruling trial court decision to keep "Homeowners Protective Initiative" off ballot); *Brosnahan v Eu* (1982) 31 C3d 1, 181 CR 100 (in pre-election challenge, California Supreme Court allowed "Victims' Bill of Rights" initiative to be placed on ballot).

In some circumstances, however, courts have kept measures off the ballot. See *Committee of Seven Thousand v Superior Court* (1988) 45 C3d 491, 247 CR 362; *San Francisco Forty-Niners v Nishioka (Comstock)* (1999) 75 CA4th 637, 89 CR2d 388; *Citizens for Responsible Behavior v Superior Court* (1991) 1 CA4th 1013, 2 CR2d 648; *deBottari v City Council of Norco* (1985) 171 CA3d 1204, 217 CR 790. The test for pre-election review is whether the challenger can make a compelling showing that the initiative's invalidity is clear beyond a doubt. *Save Stanislaus Area Farm Econ. v Board of Supervisors* (1993) 13 CA4th 141, 16 CR2d 408. This test is more easily met when the challenge is to the measure's alleged non-compliance with procedural requirements or subject matter limitations. The test is much more difficult to meet when the challenge is to the substantive validity of the measure. See *Costa v Superior Court* (2006) 37 C4th 986, 39 CR3d 470 (pre-election review is proper to assess petition's compliance with procedural requirements); *Senate of the State v Jones* (1999) 21 C4th 1142, 90 CR2d 810 (pre-election review is proper to evaluate whether petition complied with single-subject rule).

© The Regents of the University of California

§3.124 VII. ELECTION CONTESTS

The result of an election may be challenged in an election contest. See Elec C §§16000-16940. Such a proceeding is purely statutory and is wholly distinct from the common law remedy of quo warranto, which may also be used to determine a person's claim to an office. See §1.188.

An election contest is not adversarial in the ordinary sense, as when two individuals assert conflicting personal rights or interests. Instead, the primary purpose of an election contest is to ascertain the will of the people and to make certain that mistake or fraud has not frustrated the public volition. *Hardeman v Thomas* (1989) 208 CA3d 153, 166, 256 CR 158. However, it is a primary principle of law as applied to election contests that it is the duty of the court to validate the election if possible. *Friends of Sierra Madre v City of Sierra Madre* (2001) 25 C4th 165, 192, 105 CR2d 214.

PRACTICE TIP: On election contests, see Armento, *Term Limitations for Council Members and A Primer on Election Contests* (League of California Cities Annual Conference, City Attorneys Department Session, 1989).

© The Regents of the University of California

A. Contests at General Elections

§3.125 1. Who May Contest a Local Election

Any elector of any county or city, or of any political subdivision of either, may contest any election held therein. See Elec C §16100. An election contest is considered to belong to the elector in his or her individual capacity.

© The Regents of the University of California

§3.126 2. Grounds for Contest

An election may be contested on the following grounds (see Elec C §16100):

- A precinct board or any member thereof was guilty of malconduct;
- The person declared elected was ineligible to hold office at the time of the election, *i.e.,* the person lacked the legal qualifications as prescribed for the office by statute (see *Shinn v Heusner* (1949) 91 CA2d 248, 249, 204 P2d 886);
- The person elected allegedly offered or gave bribes or rewards, or committed other offenses against the elective franchise defined in Elec C §§18000-18700 (see *Hale v Farrell* (1981) 115 CA3d 164, 167, 171 CR 228);
- Illegal votes were cast, *i.e.,* votes cast by persons not privileged to vote or not entitled to be counted because not cast in a manner provided by law (see *Stebbins v Gonzales* (1992) 3 CA4th 1138, 1141, 5 CR2d 88);
- Sufficient number of eligible voters who attempted to vote were denied the right to vote (see Elec C §§16402.5, 16204);
- Precinct board made errors sufficient to change the result of the election as to any person declared elected; or
- Errors were made in counting the votes or the summation of the ballot counts and the official declared elected did not receive the highest number of legal votes (see *In re Cryer* (1926) 77 CA 605, 609, 247 P 252).

The city may provide the defense for any person elected to the city council or the office of city clerk or city treasurer if the contest is based on precinct malconduct, illegal votes, or precinct errors. See Govt C §36812.5.

© The Regents of the University of California

3. Statement of Contest

§3.127 a. Form

A contestant of an election must file with the clerk of the superior court a statement setting out prescribed allegations, including the grounds for contest. Elec C §16400. See §3.126. The statement may not be rejected for failing to comply with form requirements, if the grounds of contest are alleged with such certainty as to advise the defendant of the particular proceeding or grounds on which the election is contested. Elec C §16403. However, the contestant must meet prescribed requirements when alleging illegal voting as a cause of contest. Elec C §16402; *Benson v Superior Court* (1963) 214 CA2d 551, 554, 29 CR 760. The statement must be verified and timely filed. Elec C §16401.

© The Regents of the University of California

§3.128 b. Timing

The statement of contest of an election must be filed within the applicable time period, as follows:

- Within 6 months when the contest is brought on the grounds that a bribe or reward was offered or given to any elector or a precinct board member for the purpose of procuring the election, or alleging a violation of Elec C §§18000-18700. Elec C §16401(a).
- Within 20 days when the contest is brought based on a tie vote. Elec C §16401(b).
- Within 30 days in all other cases. Elec C §16401(d). See *Cummings v Stanley* (2009) 177 CA4th 493, 514, 99 CR3d 284.

The time for filing the statement starts to run from the declaration of the election results. Elec C §16401. A statement filed before that point is premature but does not preclude a later filing. *Broadbent v Keith* (1911) 15 CA 382, 384, 114 P 996.

© The Regents of the University of California

§3.129 c. Amendment

It is permissible to amend a statement of contest, even at trial, to make it more specific (*Garrison v Rourke* (1948) 32 C2d 430, 438, 196 P2d 884, overruled on other grounds in *Keane v Smith* (1971) 4 C3d 932, 95 CR 197), but an amendment with new grounds of contest offered after the expiration of the filing period is not allowed. *Freshour v Howard* (1904) 142 C 501, 505, 77 P 1101.

© The Regents of the University of California

§3.130 4. Pretrial Proceedings

After the statement is filed, the clerk of the superior court must notify the superior court of all statements filed, and the presiding judge must designate the time and place of hearing. Both tasks must be done within certain statutory time frames. See Elec C §16500.

The clerk of the superior court must then issue a citation for the defendant to appear at the time and place so specified and have the citation properly served on the defendant. Elec C §16501. However, failure to properly serve does not deprive the court of jurisdiction. *O'Dowd v Superior Court* (1910) 158 C 537, 541, 111 P 751.

© The Regents of the University of California

§3.131 5. Answer

No answer by the defendant is required by statute, but typically a defendant answers. The answer should contain not only denials, but the grounds on which the defendant bases a claim to office. *Bass v Leavitt* (1909) 11 CA 582, 585, 105 P 771. If no answer is filed and the claims in the statement are never disputed, they are deemed admitted. *Canales v City of Alviso* (1970) 3 C3d 118, 126, 89 CR 601.

© The Regents of the University of California

6. Trial

§3.132 a. Court Powers

The trial court hearing an election contest has all powers necessary to its determinations, including the authority to adjourn from day to day or to continue the trial for up to 20 days for good cause at the cost of the party requesting the continuance. Elec C §16600. The court may dismiss the proceedings for insufficient cause or want of prosecution. Elec C §16602. When it appears a recount is necessary, the ballots must be opened and a recount taken in a manner prescribed by law. Elec C §16601.

© The Regents of the University of California

§3.133 b. Evidence

The court is governed by the applicable rules of law and evidence as to questions of law and fact. Elec C §16602. The clerk of the superior court must issue subpoenas for witnesses at the request of any party and the superior court may issue attachments to compel the attendance of subpoenaed witnesses. Elec C §16502.

The contestant carries the burden of proof in proving the grounds alleged for contest by clear and convincing evidence. *Gooch v Hendrix* (1993) 5 C4th 266, 279, 19 CR2d 712; *Bagg v Wickizer* (1935) 9 CA2d 753, 760, 50 P2d 1047.

© The Regents of the University of California

§3.134 c. Determination and Judgment

After hearing the proofs and allegations of the parties to an election contest, the court must pronounce judgment within 10 days, either confirming or annulling and setting aside the election. Elec C §16603. If it appears that a person other than the defendant has the highest number of legal votes, the court must declare that person elected (see Elec C §16703), issue that person a certificate of election (see Elec C §16700), and annul any certificates of election issued earlier to another candidate (see Elec C §16701; *Stebbins v Gonzales* (1992) 3 CA4th 1138, 1144, 5 CR2d 88).

A court may not, however, annul the election of a winning candidate "based on offenses that did not change the result of the election, and then declare another candidate elected by shifting legal votes between the two candidates under the primacy effect theory." *Bradley v Perrodin* (2003) 106 CA4th 1153, 1170, 131 CR2d 402. Further, an election must not be set aside on account of eligible voters being denied the right to vote, unless it appears that the denial would change the result. Elec C §§16204, 16402.5. Similarly, an election must not be set aside on account of illegal votes unless it appears the defendant could not have won the election without them. Elec C §16203; *Gooch v Hendrix* (1993) 5 C4th 266, 282, 19 CR2d 712.

Malconduct by a precinct board or its members will only void an election if such malconduct is held to have changed the result of the election. Elec C §§16201-16202. However, malconduct need not be intentional; erroneous conduct without wrongful intention is sufficient to support an election contest on the grounds of precinct board malconduct. *In re Cryer* (1926) 77 CA 605, 609, 247 P 252.

NOTE: Summary judgment is not available in election contest cases. *Anderson v County of Santa Barbara* (1976) 56 CA3d 780, 787, 128 CR 707.

© The Regents of the University of California

§3.135 d. Costs

Each party to an election contest is generally liable for the costs that he or she creates. Elec C §16802. Thus, if a recount occurs, the contestant will in the first instance be liable to pay the court's expenses on a daily basis. Elec C §16503.

Ultimately, the contestant will assume the costs if the court dismisses the contest for insufficiency or for want of prosecution, or if the court confirms the election. Elec C §16800. Likewise, the defendant will assume the costs if the election is annulled or set aside, unless the election is set aside on the ground of errors of a precinct board in conducting the election or canvassing returns, in which cases the costs are a charge to the city or county where the election was held. Elec C §16800.

NOTE: When two or more contests are joined for the purpose of recounting votes, the costs must be apportioned among the parties in the discretion of the court. Elec C §16801.

© The Regents of the University of California

§3.136 7. Review

Generally, any party aggrieved by the judgment of the court in an election contest may appeal to the court of appeal. Until the appeal is finally determined, the person declared elected by the superior court is entitled to the office as if no appeal had been taken. Elec C §16900.

Whenever an election is annulled or set aside by the judgment of the superior court and no appeal occurs within a specified number of days, the commission, if any has issued, is void and the office vacant. Elec C §16702. On the applicable standard of review, see *Gooch v Hendrix* (1993) 5 C4th 266, 277, 19 CR2d 712.

© The Regents of the University of California

§3.137 8. Contests on Ballot Measures

On occasion, election contests are brought over ballot measures, such as incorporation (see *Singletary v Kelley* (1966) 242 CA2d 611, 613, 51 CR 682); consolidation (see *Canales v City of Alviso* (1970) 3 C3d 118, 129, 89 CR 601); and annexation (see *Enterprise Residents Legal Action Against Annexation Comm. v Brennan* (1978) 22 C3d 767, 151 CR 1). On incorporation, see §§1.135-1.148; on consolidation, see §§1.168-1.173; on annexation, see §§1.149-1.163.

© The Regents of the University of California

B. Contests at Primary Elections

1. General Requirements

§3.138 a. Affidavit

A candidate may contest the results of a primary election by filing an affidavit alleging any of the following grounds (Elec C §16101):

- defendant's ineligibility to office;
- offenses committed by the defendant against the elective franchise defined in Elec C §§18000-18700;
- illegal or otherwise improper votes sufficient to have given defendant more votes than contestant;
- eligible voters attempting to vote in accordance with the law were denied the right to vote in sufficient numbers to give defendant more votes than contestant; or
- miscounting of votes sufficient to change the results of the election.

The affidavit must name the defendant (see Elec C §16420), contain certain information specified by law (see Elec C §16404), and be filed in a designated manner and time frame (see Elec C §16421). For a good discussion regarding the distinction between contests of the results of primary versus general elections, see *Cummings v Stanley* (2009) 177 CA4th 493, 507, 99 CR3d 284.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/3 Elections/§3.139 b. Grounds for Annulment or Set-Aside

§3.139 b. Grounds for Annulment or Set-Aside

Irregularity or improper conduct will only annul or set aside a nomination if it appears that illegal votes caused the defendant to receive more votes than the contestant. *Jacobson v Glidden* (1978) 84 CA3d 748, 751, 148 CR 825; Elec C §16300.

© The Regents of the University of California

§3.140 c. Costs

The cost provisions for general election contests apply to primary election contests as well. Elec C §16803. See §3.135.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/3 Elections/§3.141 2. Contests Involving a Simple Recount

§3.141 2. Contests Involving a Simple Recount

Certain procedural requirements apply only when the election is contested on the ground that due to mistake, error, or misconduct the votes were so incorrectly counted as to change the result. Elec C §§16460-16467.

© The Regents of the University of California

§3.142 a. Procedures

The superior court of the county of the precinct in which the contestant demands a recount has jurisdiction. Elec C §16461. The affidavit must be filed in the office of the clerk of the superior court within 5 days after completion of the official canvass, and must be served on defendant in a manner prescribed by law. Elec C §16462. The defendant may file an affidavit on his or her own behalf and the contestant may file an answer to defendant's affidavit. Elec C §16464. Within statutory time frames, the elections official must present the affidavits to the presiding judge, who will set the time and date of hearing. Elec C §16540.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/3 Elections/§3.143 b. Defendant Appearance

§3.143 b. Defendant Appearance

The defendant must appear at the hearing (see Elec C §16465), and no demurrer or objection may be taken by the parties except by answer within the time frame designated. Elec C §16466. If the defendant does not appear, the court must note his default and determine the contest with all convenient speed. Elec C §16467.

© The Regents of the University of California

§3.144 c. Recounts

The presiding judge may obtain the services of other judges if needed to finish counting the votes in time to print the ballots for the final election. Elec C §§16640-16641. The recount will then occur according to prescribed procedures. Elec C §§16642-16643, 16740.

© The Regents of the University of California

§3.145 d. Judgment

The court's judgment is final and non-appealable. Elec C §16940. But see *Keane v Smith* (1971) 4 C3d 932, 937, 95 CR 197 (finding primary election was "transmuted" into general election for purposes of appeal under former Elec C §20115 (now Elec C §16900)).

Certified copies of the judgment must be served in the prescribed manner. Elec C §§16741-16742.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/3 Elections/§3.146 3. Contests Other Than Those Involving a Simple Recount

§3.146 3. Contests Other Than Those Involving a Simple Recount

Certain procedures apply only to contests on the following grounds (Elec C §16440):

- defendant is ineligible to hold office,
- defendant committed an offense against the elective franchise as defined in Elec C §§18000-18700, or
- illegal or otherwise improper votes were cast sufficient to have given the defendant more votes than the contestant.

© The Regents of the University of California

§3.147 a. Procedures

The contestant's affidavit is filed with the clerk of the superior court and served on the defendant in the designated manner (see Elec C §16442), after which the defendant may file an answer and a cross-contest affidavit within a prescribed number of days (Elec C §16443). No special appearance, demurrer, or objection may be taken other than by the affidavits that must be considered a general appearance in the contest. Elec C §16444. Within specified time frames, the county clerk must present the affidavits to the presiding judge, who must designate the time and place of hearing. Elec C §16520. The parties will be served with a citation containing a copy of the order setting a contest for trial. Elec C §16521.

© The Regents of the University of California

§3.148 b. Hearing and Judgment

The court must meet at the time and place designated in the order and must have all powers necessary to determine the issues. Elec C §16620. After hearing the proofs and allegations of the parties, the court must make its findings and pronounce judgment. Elec C §16720. Either party may appeal in accordance with designated procedures. Elec C §16920.

© The Regents of the University of California

§3.149 VIII. RECALL

Recall is the power of the electors to remove local or state elective officers. Cal Const art II, §13. The legislature must provide for the recall of elected officers of cities. Cal Const art II, §19; Elec C §§11000-11386 (statutory scheme for recall). These rights are comparable to the constitutional right of free speech. *U.C. Nuclear Weapons Labs Conversion Project v Lawrence Livermore Lab.* (1984) 154 CA3d 1157, 1163, 201 CR 837. General law cities must comply with the state statutory scheme. Cal Const art XI, §2(a). Many charter cities have incorporated all or portions of the California Elections Code recall provisions into their charters. See Elec C §11000 (state law does not supersede local recall provisions in charter cities).

PRACTICE TIP: A charter city's charter and municipal code should always be reviewed in addition to the Election Code's procedures to ensure that any unique processes are followed.

© The Regents of the University of California

A. Starting the Process

§3.150 1. Limitations on Recall

Recall proceedings may not be commenced until the officer has held office for more than 90 days and only if the officer has more than 6 months remaining in the term of office. Elec C §11007(a), (c). Recall is not an option if the officer has already defeated a recall in the last 6 months. Elec C §11007(b). These limitations do not apply to an officer appointed in lieu of election or to fill a vacancy. Elec C §11006.

"Commencement" is defined as service, filing, and publication or posting of a notice of intention. Elec C §11006. Proponents must comply with all these requirements within the specified timeframes.

PRACTICE TIP: Compliance with these limitations on recall proceedings is the responsibility of the recall proponents. The proponents should determine the beginning and ending dates of the term of office and the time required to complete the recall proceedings before commencing the recall proceedings. Although the proceedings may be commenced with 6 months and 1 day remaining in the term of office, the entire recall procedure may exceed that period. A recall could hypothetically become moot due to an intervening regular election.

© The Regents of the University of California

§3.151 2. Notice of Intention to Recall

Proponents begin the process of recall by serving, by either personal delivery or certified mail, a copy of the notice of intention on each officer sought to be recalled. Elec C §11021.

© The Regents of the University of California

§3.152 a. Contents of Notice

The notice of intention must contain the following (Elec C §11020):

- The name and title of the officer sought to be recalled;
- A statement not exceeding 200 words of the reasons for the proposed recall;
- The printed name, signature, and residence address of each of the proponents of the recall (if its proponent cannot receive mail at the residence address, he or she must provide an alternative mailing address); and
- The provisions of Elec C §11023.

Elections Code §9 provides rules for counting to determine whether a statement of reasons falls within the 200-word count limit.

The minimum number of proponents' signatures contained in the notice must either be 10, or equal to the number of signatures required to have been filed on the nomination paper of the officer sought to be recalled, whichever is greater. Elec C §11020(c). Any examination by proponents must be commenced no later than 21 days after certification of insufficiency. Govt C §6253.5.

PRACTICE TIP: Exhibit C of the Procedure for Recalling State and Local Officials provided by the Secretary of State's Office (www.sos.ca.gov/elections/recall.pdf) contains a form of notice of intention; the city clerk should also be consulted. Elections Code §11041(a)(2) refers to a statement of "grounds" for recall. This appears synonymous with the statement of "reasons" in Elec C §11020. The statement is intended solely for the information of the voters; no insufficiency in form or substance of the statement affects the validity of the recall proceedings. Elec C §11024.

© The Regents of the University of California

§3.153 b. Filing of Notice

Within 7 days of the service of the notice of intention on the officer, the recall proponent must file the original notice of intention with the city clerk, along with an affidavit of the time and manner of service of the notice on the officer. The filing of the notice of intention must be accompanied by an affidavit of the time and place of service. Elec C §11021.

PRACTICE TIP 1: Although not required by Elec C §11021, the city clerk should acknowledge the filing in writing delivered to the officer, because the date of filing establishes the date of subsequent steps (and the officer would not otherwise have official notice of the date of filing).

PRACTICE TIP 2: The Secretary of State's booklet Procedure for Recalling State and Local Officials (www.sos.ca.gov/elections/recall.pdf) contains two forms: Exhibit A for use as proof of personal service, and Exhibit B for use as proof of service by certified mail. The date that service by certified mail is deemed complete is not stated in Elec C §11021, but the Secretary of State form refers only to the date the certified mail was deposited, indicating that the date of mailing determines the date of service. Confirm this with the city clerk.

© The Regents of the University of California

§3.154 c. Publication of Notice

The proponents must publish, one time only, the notice of intention, in a newspaper of general circulation. Govt C §§6060-6061. The provision in the notice, which was served on the officer and informs the officer that an answer may be filed to the statement of the proponents, is omitted from the published notice. If publication is not possible, the notice must be posted in three public places in the city. Elec C §11022. Proof of publication or affidavit of posting of the notice must be filed with the city clerk. Elec C §11042(b).

PRACTICE TIP: No time limit is specified for the publication, but under 7- and 10-day time limits of subsequent steps of the recall procedure, the proponents must file the proof of publication no later than 17 days from the filing of the notice of intention with the city clerk.

© The Regents of the University of California

§3.155 3. Answer to Recall Statement

Within 7 days after the filing of the notice of intention with the city clerk by the recall proponent, the officer sought to be recalled may file an answer with the city clerk in not more than 200 words to the statement of reasons contained in the notice of intention. Elec C §11023(a). The answer must contain the printed name, signature, and business or residence address of the officer. The officer must also serve a copy of the answer on one of the recall proponents by personal delivery or certified mail. Elec C §11023(b).

NOTE: The answer is intended solely for the information of the voters; no insufficiency in form or substance of the answer affects the validity of the recall proceedings. Elec C §11024.

PRACTICE TIP: There is no requirement that the officer file a proof of service with the city clerk.

© The Regents of the University of California

B. Recall Petition

§3.156 1. Form and Contents

Each page of each section of the recall petition must be in the format provided by the Secretary of State (see Elec C §§11041(a), 11043.5) and the contents must be in no less than eight-point type with uniform spacing, containing the following information (Elec C §11041):

- A request that an election be called to elect a successor to the officer;
- The text of the notice of intention as published; and
- The text of the answer of the officer or a statement no answer was made by the officer.

Each signer must personally affix his or her signature, printed name, residence address, and city of residence; prescribed margins must be provided. Elec C §11043. Each section must have a prescribed form of declaration to be executed by the circulator. Elec C §§104, 11046. Signature requirements must also be satisfied. See Elec C §§100-106. Only persons registered to vote in the jurisdiction at the time the petition is signed may sign the petition. Elec C §11045. Compliance with these requirements is determined under the "substantial compliance" standard. *Ruiz v Sylva* (2002) 102 CA4th 199, 215, 125 CR2d 351. If the proponent seeks to recall multiple officers, a separate petition is required for each officer. Elec C §11044. Recall petitions are not required to be translated into applicable minority languages before circulation. *Padilla v Lever* (9th Cir 2006) 463 F3d 1046.

PRACTICE TIP 1: Although not expressly prescribed, a title should be provided at the top of each section, in capital letters, stating "PETITION FOR RECALL." In addition, a brief introductory address to the city clerk should immediately follow the title.

PRACTICE TIP 2: The space provided for each voter should be consecutively numbered so the second page continues the numbering sequence from the first page.

PRACTICE TIP 3: Only one form of declaration by the circulator must be included on each section; in other words, printed on one side only of the two-page section.

© The Regents of the University of California

2. Filing Proposed Petition

§3.157 a. Proponent Obligations

The recall proponents must file with the city clerk two blank copies of the proposed form of recall petition within 10 days after the officer sought to be recalled files with the city clerk the answer to the statement of reasons by the recall proponents as contained in the notice of intention or, if no answer is filed, then within 10 days of the expiration of the 7-day deadline for filing the answer. The proof of publication (or posting) of the notice of intention must also be filed at this time. Elec C §11042.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/3 Elections/§3.158 b. City Clerk Obligations

§3.158 b. City Clerk Obligations

The city clerk must within 10 days notify the recall proponent whether the form and wording of the proposed form of recall petition meets the requirements of the California Elections Code, and what alterations, if any, must be made. Elec C §11042.

NOTE: The proponent has 10 days after receiving such notification to file, if necessary, a corrected petition with the city clerk; this process continues until the city clerk finds no alterations are needed. Elec C §11042.

© The Regents of the University of California

§3.159 c. Signatures

No signature may be affixed to a recall petition until the city clerk has notified the proponents the form and wording of the proposed petition meet the requirements of the recall statute. Elec C §11042.

PRACTICE TIP 1: The date the city clerk notifies the proponents that the form of recall petition meets the legal requirements is extremely significant because it fixes the deadlines for several important steps in the recall procedure. The date is determined by the date of the city clerk's written notice (which can be delivered personally or by deposit in the mail).

PRACTICE TIP 2: To eliminate or reduce the necessity for alterations after the form of proposed recall petition is filed, the recall proponent should contact the city clerk early in the process to obtain a form of recall petition that the city clerk may have. The proponent also should, after the filing of the blank forms of recall petitions, keep in close personal contact with the city clerk to avoid lost time in receiving mailed notice of the city clerk's finding as to the sufficiency of the of the form of petition (the time starts running from the date of the city clerk's notice).

PRACTICE TIP 3: Although not expressly required, the city clerk may wish to inform the proponents, in the written notice of the sufficiency of the form of petition, of the number of qualified registered voter signatures needed to qualify the recall petition to eliminate any subsequent misunderstanding.

© The Regents of the University of California

C. Collecting Signatures

§3.160 1. Number of Days to Obtain Signatures

Once qualified by the city clerk's written notice of sufficiency, sections of the recall petition may be signed by registered voters and must be submitted to the city clerk within a prescribed time period determined by the number of registered voters in the electoral jurisdiction, as follows:

- 40 days if less than 1000 voters;
- 60 days if less than 5000 voters;
- 90 days if less than 10,000 voters;
- 120 days if less than 50,000 voters; and
- 160 days if 50,000 or more voters.

The number of registered voters is determined from the last report to the state filed by the county clerk before the city clerk's written notice to the proponents of the sufficiency of the form of ballot. Elec C §11220.

PRACTICE TIP: The number of days is calculated from the day after the date of the city clerk's written notice, and thus the day of the written notice should be excluded. The last day of the applicable period is the final date all the sections of the recall petition must be submitted for filing to the city clerk; if the last day is a weekend day or other holiday, the final date is extended to the next regular business day.

© The Regents of the University of California

§3.161 2. Number of Qualified Signatures

The number of qualified, valid signatures of registered voters required is calculated as a percentage of the number of registered voters in the electoral jurisdiction, as follows (Elec C §11221):

- 30 percent if less than 1000 voters;
- 25 percent if less than 10,000 voters;
- 20 percent if less than 50,000 voters;
- 15 percent if less than 100,000 voters;
- 10 percent if 100,000 or more voters.

© The Regents of the University of California

§3.162 3. Withdrawal of Signatures

Any voter who has signed the petition may withdraw his or her signature by filing a written request with the city clerk. A request to withdraw a signature from a recall petition is effective, without regard to whether the voter signs the petition before or after signing the request to have his or her signature withdrawn, as long as the request is filed with the city clerk prior to the day that the petition bearing the voters' signatures is filed. Elec C §§103, 11303; *Carson Citizens for Reform v Kawagoe* (2009) 178 CA4th 357, 367, 100 CR3d 358 (2009). A voter's request to withdraw his or her signature from a recall petition is not a "petition or paper" that requires a circulator's affidavit. Elec C §§103-104, 1130; *Carson*, 178 CA4th at 369.

© The Regents of the University of California

D. Filing and Examination of Petition

§3.163 1. Submission for Filing and Acceptance

All sections of the recall petition are "presented" for filing with the city clerk at the same time. Elec C §11222(a). The city clerk must first make a prima facie examination of all petition sections to determine if the minimum number of required signatures have been submitted. If the number of signatures equals or exceeds the minimum, the clerk must accept the petition for filing. If the number of signatures is insufficient, the petition must not be filed and must be returned to the proponents. Elec C §11222(b).

PRACTICE TIP 1: The prima facie examination is a simple quick count, obtained by multiplying the number of sections that have been completely filled with signatures by the total number of signature spaces on each section and adding the total signatures from sections that are not completely filled; no determination is made as to the validity of the signatures or the declarations of the circulators.

PRACTICE TIP 2: If the petition is insufficient as a result of the prima facie examination, the petition is returned to the proponents; although the statute is silent, there should be no reason why the proponents could not attempt to obtain more signatures, provided the time period has not elapsed (but if the proponents cannot pass the prima facie examination, there also may well be a serious question as to whether a substantial number of the signatures are not qualified registered voters).

PRACTICE TIP 3: Because Elec C §11220 expressly requires the petition be submitted for filing during normal business hours, the date the petition is deemed filed under Elec C §11222 is the same as the date the petition is submitted (or "presented") for filing. For example, if the petition is submitted for filing just before closing hour of the last day of the applicable period and the prima facie examination is completed the next morning, the date of filing is deemed to be the date it was submitted for filing, that is, on the prior day.

© The Regents of the University of California

§3.164 2. Petition Examination

The city clerk has 30 days from the date of filing the petition (excluding Saturdays, Sundays, and holidays) to examine the petition and determine if there are a sufficient number of valid signatures of registered voters. Elec C §11224(a). The city clerk may verify each and every signature, or alternatively, if more than 500 signatures have been obtained, the clerk may use a random sampling method. A random sampling requires examining at least 500 signatures or 5 percent of the petition signatures, whichever is greater. Elec C §11225(a). The random sampling method is very inviting, especially in cities with a large number of registered voters. If the result of the random sampling shows 110 percent or more of the number of signatures required are valid, the petition is sufficient. Elec C §11225(b). If between 90 and 110 percent are valid, the clerk must abandon the random sampling method and verify each signature. If less than 90 percent of the signatures are valid by the random sampling method, the petition is insufficient. Elec C §11225(d). In order for a signature to be counted, the residence address listed for the signer must match the residence address shown on the signer's voter registration affidavit. Elec C §105; *Mapstead v Anchundo* (1998) 63 CA4th 246, 265, 73 CR2d 602.

PRACTICE TIP 1: Under Elec C §11224(b), the city clerk may use the duplicate file of affidavits from the registered voters maintained by the county election official or otherwise to check the petition signatures against facsimile signatures of registered voters in accordance with law.

PRACTICE TIP 2: The city clerk should consider not only the practical realities of whether to conduct a random sampling of signatures, but the inherent controversial nature of recall in making the decision. If the proponents gathered far more than the required number of signatures as a cushion against invalid signatures, the petition may nevertheless be found insufficient because less than 90 percent of the submitted signatures pass the random sampling test—and no provision is made in the statute for the city clerk to then examine 100 percent of the signatures despite the possibility the petition might have been found sufficient from an examination of 100 percent of the signatures. Similarly, it is possible that a random sampling could result in a finding that the number of valid signatures overall is greater than 110 percent of the required number rendering the petition sufficient, although an examination of 100 percent of the signatures might not have resulted in a sufficient petition.

© The Regents of the University of California

§3.165 3. Certification of Examination Results

At the completion of the examination of the petition (not later than on the 30th day from the day of the filing of the petition, excluding Saturdays, Sundays, and holidays), the city clerk must (Elec C §11224)

- Certify the petition as sufficient or insufficient,
- Notify proponents of the sufficiency or insufficiency of the petition, and
- If the petition is sufficient, submit the certificate of sufficiency to the city council at its next regular meeting.

PRACTICE TIP: Under Elec C §11224, the city clerk must certify the results of the petition examination to the city council. If the petition is insufficient, the city council merely receives the certificate. No further action is required by the city council or city clerk. Section 11224 does not state what the notification by the city clerk to the proponents must consist of, but transmitting such certificate would certainly be a simple method for such notice.

The certificate must contain (Elec C §11227)

- the name and title of the officer whose recall is sought,
- the number of signatures required,
- the number of signatures on the petition,
- the number of valid signatures, and
- the number of disqualified signatures.

An insufficient petition remains on file with the city clerk, and is not a public record, though it may be examined by the proponents to determine which signatures were disqualified and the reasons therefor. Elec C §§11226, 11301; Govt C §6253.5. The examination must commence within 21 days of the determination of insufficiency. Govt C §6253.5. The right to examine recall petitions after a certificate of insufficiency issues does not confer on the proponents the right to file amended petitions. *Hartman v Kenyon* (1991) 227 CA3d 413, 277 CR 765.

PRACTICE TIP 1: In addition to the contents of the certificate prescribed by the statute, the certificate must contain a statement by the city clerk as to the sufficiency or insufficiency of the petition.

PRACTICE TIP 2: In the category of disqualified signatures on the certificate, the clerk may wish to identify separately signatures withdrawn as distinguished from signatures disqualified for other reasons.

PRACTICE TIP 3: Although there is no provision for the proponents to overcome a certificate of insufficiency by obtaining more valid signatures, Elec C §11300 clearly authorizes a new petition to be filed against the same officer, without any restraint as to when the new recall effort may commence (which means the day following the certificate of insufficiency a new notice of intention could be served).

© The Regents of the University of California

E. Recall Election

§3.166 1. Timing

Within 14 days after the meeting at which the city council receives the certificate of sufficiency, the city council must issue an order calling a special election to determine whether or not the officer named in the petition will be recalled. Elec C §11240. The election must be held not fewer than 88 days nor more than 125 days after the date of the issuance of the order calling the election; it must be consolidated with any regularly scheduled or other special election being held in such time period. Elec C §11242. If the city council fails to call the election within the 14-day time period, the county clerk must, within 5 days of the expiration of the 14-day period, set and call the election. Elec C §11241.

For related information, see Secretary of State, *Procedure for Recalling State and Local Officials* (Rev 2007) at www.sos.ca.gov/elections/recall.pdf.

PRACTICE TIP 1: The city council has no discretion not to call the election after receiving the certificate of sufficiency. The only discretion it has is to act within 14 days to choose the election date if the date is not already decided for it by a regularly scheduled election within the 88- to 125-day period. The 14-day period permits a limited flexibility to consolidate with a regular or other already scheduled special election by postponing the election call up to 14 days and obtain the cost savings of a consolidated election.

PRACTICE TIP 2: Although the city clerk's certification must be submitted to and received at a regular city council meeting, the statute does not require the city council, within the 14-day period, to call the election at a regular meeting. The city council could adjourn the regular meeting to an adjourned meeting, or call a special meeting.

PRACTICE TIP 3: If the city council meets weekly, the date of the regular meeting at which it receives the city clerk's certification would not be counted in the 14-day period because Elec C §11240 states the council must act within 14 days "after" the meeting it received the certification. The city council thus would be able to act as late as the second regular meeting following the meeting it received the certification.

PRACTICE TIP 4: The city clerk and city attorney will need to prepare the resolution or other form of order to call the election to transmit to the city council for its consideration. This will necessitate contacting the county elections official concerning regular or other special elections during the 88- to 125-day period (plus the additional 14-day period).

PRACTICE TIP 5: If the county elections official were required to set and call the election because of the failure of the city council to act, the 88- to 125-day period would be calculated from the day the county election official acts within the 5-day period the county clerk is required to act. This could produce different options for available election dates (including the ability to call the election to be consolidated with a regular or other special election already scheduled within 5 days of the expiration of the 125th day from the 14th day on which the city could have acted, but did not).

© The Regents of the University of California

§3.167 2. Recall Ballot

The recall ballot has one question that asks the voter to answer "Yes" or "No": "Shall [name of officer sought to be recalled] be recalled (removed) from the office of [title of office]?" See Elec C §11320. The ballot must also contain the names of the candidates nominated to succeed the officer and a blank for the voter to write in a name not printed on the ballot. Elec C §11322.

PRACTICE TIP 1: Before 1995, the law contained separate recall election procedures specifically applicable only to cities. See former Elec C §27310 (repealed). Beginning in 1995, the general recall election procedures for public officers are applicable to city officials. This revision may affect the usefulness of pre-1995 case law.

PRACTICE TIP 2: The statute appears to require the word "(removed)", inside parentheses, to follow the word "recalled" in the ballot question; "removed" is not indicated by brackets ([ ]) to be a synonym interchangeable with "recalled," although the city clerk may wish to check with the county clerk or Secretary of State for the preferred practice on this point.

© The Regents of the University of California

§3.168 3. Sample Ballot and Ballot Information

The city clerk, or other official responsible for preparing the ballot (generally the county registrar of voters), must at least 10 days before the recall election mail a sample ballot to each registered voter of the electoral jurisdiction of the officer against whom recall is sought. Elec C §11324. The sample ballot must contain or be accompanied by the statement of reasons from the notice of intention filed by the proponents, with the answer of each officer sought to be recalled printed on the same or facing page as the statement. Elec C §11325. An officer whose recall is being sought, and each candidate nominated to succeed that officer, may file a statement that must be sent with the sample ballot to each voter. Elec C §§11327, 13307.

© The Regents of the University of California

§3.169 4. Election Procedures

A recall election must be conducted, canvassed, and the results declared in substantially the manner provided by law for general municipal elections. Elec C §11328. See §§3.19-3.28. One election is sufficient for the recall of several city officers. Elec C §11329. The election procedures for city officers and measures are described in division 10 of the California Elections Code (Elec C §§10000-10734), and in particular in Elec C §§10100-10312.

PRACTICE TIP 1: Early in the recall process, preferably no later than soon after the recall petition is accepted for filing and of necessity at the time a recall petition is certified as sufficient, the city clerk should determine (a) the probable or optional dates available for a recall election, and (b) based on customary practices and information available from the county clerk, whether the recall election may be consolidated and whether the services of the county elections official will need to be requested. See Elec C §10002.

PRACTICE TIP 2: A notice of election will need to be published, adapted from the forms provided in Elec C §§12109-12110.

© The Regents of the University of California

§3.170 5. Declaration of Results

If the majority of voters vote "Yes," the officer sought to be recalled is to be removed from office on the qualification of his or her successor. Elec C §11384. The candidate receiving the highest number (not necessarily a majority) of votes for the office must be declared elected for the unexpired term of the recalled officer. Elec C §11385.

© The Regents of the University of California

F. Successor Candidate

§3.171 1. Nominations

Nomination of candidates to succeed the recalled officer must be made in the same manner as nominating a candidate in a regular election, with certain timing exceptions. Elec C §11381. See §§3.15-3.18. No person whose recall is being sought may be a candidate to succeed himself or herself at a recall election nor any other member of the same body whose recall is being sought at the same election. Elec C §11381(c).

PRACTICE TIP: State law does not prohibit the recalled officer from again becoming a candidate at the next regular municipal election for the next term of office, or (and even if highly unlikely) from being appointed to fill a vacancy in another office on the city council that was not subject to recall.

© The Regents of the University of California

§3.172 2. Election

The candidate receiving the highest number of votes for the office must be declared elected for the unexpired term of the recalled officer. Elec C §11385.

© The Regents of the University of California

§3.173 3. Failure to Qualify

If, within 10 days after receiving the certificate of election, the candidate receiving the highest number of votes fails to qualify, the office must be considered vacant and must be filled according to law. Elec C §11386. See §§3.174-3.175.

PRACTICE TIP 1: When the city council receives the certification of the results of the recall election (from the city clerk or county clerk), the city council has only a ministerial duty to declare the results of the recall election and the city council must take action to declare the results of the recall election at the regular meeting in which it receives the certification.

PRACTICE TIP 2: It is unclear from Elec C §11328 whether the city clerk (or county clerk) would certify the election results and the city council would still declare the results of the recall election if a majority of the city council were recalled. The order issued by the city council calling the recall election (which under Elec C §11240 remains within the jurisdiction of the city council even if a majority of its members are sought to be recalled), when there is a possibility of a majority recall, should expressly delegate to the city clerk (or county clerk or board of supervisors) the authority to conduct the canvass, certify, and formally declare the results. If a majority is not recalled, then the city council would retain its normal jurisdiction.

PRACTICE TIP 3: Immediately following the declaration of results confirming the results of the recall election, the successful candidate or candidates immediately assume office on taking the required oath. This entire process to install new council members or other officers is no different (at least for general law cities) than the process used following a regular municipal election.

© The Regents of the University of California

G. Filling Vacancies by Appointment

§3.174 1. Vacancy Before Petition Filing

If the officer sought to be recalled vacates office before the filing of the recall petition with the city clerk, by resignation, death, or otherwise, the city council must fill the vacancy by appointment or special election. Govt C §36512(a)-(b). Up until the day the petition is filed, both the proponents and officer control the recall process in an important respect, in that the officer can resign and terminate the recall proceedings, and the proponents can terminate the recall proceedings by not filing the petition (before the expiration of the petition circulation period); after the petition is filed, the process is exclusively within the jurisdiction of the city clerk and the electorate. Elec C §11102.

PRACTICE TIP: If the officer sought to be recalled resigns (by submitting an unequivocal letter of resignation to the city clerk) and thus terminates the recall proceedings, any recall petition submitted after such a resignation should be rejected by the city clerk because the officer sought to be recalled is no longer in office (but see §3.175).

© The Regents of the University of California

§3.175 2. Vacancy Occurring After Petition Filing

If a vacancy occurs in an office after a recall petition is filed against the vacating officer, the recall election must nevertheless proceed. Such a vacancy must be filled as provided by law, but the person appointed must hold office only until a successor is selected and qualifies for office. Elec C §11302. Elections Code §11302 is not independent authority to make an interim appointment because the authority must be "provided by law." The Government Code provides the method to fill vacancies in local elected offices. For general law cities, an ordinance may be adopted and in place to make an interim or temporary appointment for a vacancy on the city council. Govt C §36512(c)(3).

PRACTICE TIP 1: The date of filing is the same day as the day the petition is submitted for filing under Elec C §11222.

PRACTICE TIP 2: If an officer intends to resign, it would be preferable to do so no later than the day before the petition is submitted for filing. The provisions of Elec C §§11222 and 11302, read together, make it unclear whether a resignation on the actual day the petition is submitted and accepted for filing (which are one and the same) would terminate the recall proceedings. For example, a resignation filed with the city clerk at 4:00 p.m. might not be considered legally timely to permit the city clerk to reject a petition submitted at 4:55 p.m. of the same day, if the proponents insisted on submitting the petition for filing notwithstanding being informed by the city clerk of the resignation. If the vacancy occurs by death or any other reason except by resignation, the same rules apply; the statute does not distinguish among causes of vacancy.

PRACTICE TIP 3: Under Elec C §11302, the vacancy "shall" be filled "as provided by law," but the provisions of law for general law cities are directory and not mandatory for the obvious reason that, if a majority of the city council cannot agree to appoint an individual, it would be impossible to mandate an appointment (the public policy behind "shall," however, does favor appointments to fill temporary vacancies). See Govt C §36512.

IX. CAMPAIGN REGULATIONS

§3.176 A. Contribution Limits—Constitutional Issues

Because contribution limitations necessarily infringe on the contributor's ability to engage in free communication and association, they impinge on First Amendment freedoms. *Buckley v Valeo* (1976) 424 US 1, 19, 46 L Ed 2d 659, 96 S Ct 612; *Citizens United v Federal Election Comm'n* (2010) ___ US ___, 175 L Ed 2d 753, 130 S Ct 876. However, the state's interest in eliminating the appearance of impropriety and actual corruption associated with large contributions justifies the burdens placed on First Amendment rights. *Buckley*, 424 US at 21. Restrictions on contributions, however, still face a "rigorous" standard of review. *Nixon v Shrink Missouri Gov't PAC* (2000) 528 US 377, 378, 145 L Ed 2d 886, 120 S Ct 897; *Buckley v Valeo* (1976) 424 US 1, 29, 46 L Ed 2d 659, 96 S Ct 612. See also *Federal Election Comm'n v National Right to Work Comm.* (1982) 459 US 197, 209, 74 L Ed 2d 364, 103 S Ct 552; *Citizens Against Rent Control v City of Berkeley* (1981) 454 US 290, 297, 70 L Ed 2d 492, 102 S Ct 434; *Brown v Superior Court* (1971) 5 C3d 509, 524, 96 CR 584. Restrictions on contributions may be sustained if the state demonstrates a sufficiently important interest and employs means "closely drawn" to avoid unnecessary abridgement of associational freedoms. *Buckley v Valeo*, *supra*. To date, the courts have recognized only corruption, the appearance of corruption, and circumvention of otherwise valid campaign finance regulations as sufficiently important governmental interests to support a restriction on campaign contributions. *Buckley*, 424 US at 26.

NOTE: The goal of equalizing political opportunities between candidates and parties has been rejected as a sufficiently important governmental interest, and cannot be used as the basis for a limitation on campaign contributions. *Buckley*, 424 US at 48.

© The Regents of the University of California

§3.177 1. Organizational Contribution Limits

The special characteristics of corporate structures justify particularly close regulation of their campaign activities. However, political speech (such as campaign contributions) does not lose First Amendment protection "simply because its source is a corporation." *Citizens United v Federal Election Comm'n* (2010) ___ US ___, 175 L Ed 2d 753, 784, 130 S Ct 876.

© The Regents of the University of California

§3.178 a. Ballot Measure Contribution Bans

A state may not constitutionally bar a corporation or other organization from making contributions to a committee organized solely to assist the passage or defeat of a ballot measure. *First Nat'l Bank of Boston v Bellotti* (1978) 435 US 765, 779, 55 L Ed 2d 707, 98 S Ct 1407; *PG&E v City of Berkeley* (1976) 60 CA3d 123, 127, 131 CR 350. The state's interest in preserving the integrity of government does not justify such limits when the funds are not given to help elect a particular candidate. 60 C3d at 128. In such case, there is little risk the contribution is being given to secure a political favor. *Bellotti,* 435 US at 788; *PG&E,* 60 CA3d at 128.

© The Regents of the University of California

§3.179 b. Corporate Candidate Contribution Bans

The state's interest in preventing corruption becomes stronger when the contribution is given directly to a candidate or controlled committee. *First Nat'l Bank of Boston v Bellotti* (1978) 435 US 765, 788, 55 L Ed 2d 707, 98 S Ct 1407. The U.S. Supreme Court has explicitly recognized the state's interest in preserving the democratic process is a valid concern, and a ban on organization contributions may meet exacting scrutiny when corruption is threatened. See *Bellotti*, 435 US at 789.

© The Regents of the University of California

§3.180 2. Dollar Amount of Contribution Limits

Courts examine the specific dollar amount imposed as a contribution limit to determine whether the limit is "closely drawn," *i.e.,* the means chosen do not "burden substantially more speech than is necessary to further the government's legitimate interests." *Ward v Rock Against Racism* (1989) 491 US 781, 799, 105 L Ed 2d 661, 109 S Ct 2746; *Buckley v Valeo* (1976) 424 US 1, 30, 46 L Ed 2d 659, 96 S Ct 612.

At least one court in California has found that a variable contribution limit system that could apply different dollar limits to candidates for the same office was not "closely drawn." *California Prolife Council PAC v Scully* (ED Cal 1998) 989 F Supp 1282, 1297, aff'd (9th Cir 1999) 164 F3d 1189. The *Scully* court appeared to expand the standard of review for contribution limits somewhat when the court found that the $250 per contributor basic contribution limit imposed in Proposition 208 was too low to permit candidates for state legislative offices the ability to engage in meaningful campaigns. 989 F Supp at 1298. However, the court noted that contribution limits in different jurisdictions would be subject to individual, fact-specific evaluation on a case-by-case basis. 989 F Supp at 1299.

© The Regents of the University of California

§3.181 3. Limits on Contributions to Committees Making Independent Expenditures

Unlike limits on contributions made directly to candidates or their committees, which are viewed under the "less than strict scrutiny" standard (*Nixon v Shrink Missouri Gov't PAC* (2000) 528 US 377, 387, 145 L Ed 2d 886, 120 S Ct 897; *Buckley v Valeo* (1976) 424 US 1, 25, 46 L Ed 2d 659, 96 S Ct 612), restrictions on contributions to committees making independent expenditures in support of or opposition to an candidate may be reviewed under the "strict scrutiny" standard. *Lincoln Club v City of Irvine* (9th Cir 2002) 292 F3d 934. In *Lincoln Club,* which involving an independent expenditure committee that funded its independent expenditures from its annual dues, the court held that a restriction on contributions, which was lower than the committee's annual dues and thereby prevented the committee from making expenditures without first changing its dues structure, substantially burdened protected speech and associational rights, requiring the application of the strict scrutiny test.

In the context of ballot measures, the Supreme Court has invalidated municipal efforts to limit contributions to committees supporting or opposing local initiatives and referenda, finding no sufficiently important governmental interest in regulating such contributions. *Citizens Against Rent Control v City of Berkeley* (1981) 454 US 290, 70 L Ed 2d 492, 102 S Ct 434. See also *Montana Chamber of Commerce v Argenbright* (9th Cir 2000) 226 F3d 1049.

© The Regents of the University of California

§3.182 B. Expenditure Limits—Constitutional Issues

A more stringent test measures the constitutionality of expenditure limits. Expenditure limits must be both "narrowly tailored to the evil that may legitimately be regulated" (*Federal Election Comm'n v National Conservative PAC* (1985) 470 US 480, 496, 84 L Ed 2d 455, 105 S Ct 1459), and necessary to serve a compelling state interest (*Federal Election Comm'n v Massachusetts Citizens for Life, Inc.* (1986) 479 US 238, 251, 93 L Ed 2d 539, 107 S Ct 616). See also *Citizens United v Federal Election Comm'n* (2010) ___ US ___, 175 L Ed 2d 753, 782, 130 S Ct 876. Indeed, because it is unconstitutional to limit a candidate's personal expenditures, spending limitations involving such funds are constitutionally invalid unless conditioned on acceptance of public funds. *Buckley v Valeo* (1976) 424 US 1, 54, 57 n65, 46 L Ed 2d 659, 96 S Ct 612.

NOTE: Expenditure limits require a more compelling justification than restrictions on contributions (see §§3.176-3.181) because they are a much more direct form of restraint on expression and association. *Federal Election Comm'n v Massachusetts Citizens for Life, Inc.* (1986) 479 US 238, 260, 93 L Ed 2d 539, 107 S Ct 616; *Federal Election Comm'n v National Conservative PAC* (1985) 470 US 480, 487, 84 L Ed 2d 455, 105 S Ct 1459; *California Med. Ass'n v Federal Election Comm'n* (1981) 453 US 182, 194, 69 L Ed 2d 567, 101 S Ct 2712. In general, the state's interest in ridding the electoral process of the corruption and appearance of impropriety is insufficient to justify the restrictions on campaign-related expenditures. *Buckley v Valeo* (1976) 424 US 1, 45, 46 L Ed 2d 659, 96 S Ct 612. Moreover, the state has no legitimate ancillary interest in equalizing the amount of funds spent by the candidates and their committees. 424 US at 46.

© The Regents of the University of California

§3.183 1. Independent Expenditure Limits

The state may not restrict independent expenditures made by individuals or committees that are not made at the behest of an affected candidate or committee, unless the restrictions are supported by a meaningful governmental interest. *McConnell v Federal Election Comm'n* (2003) 540 US 93, 217, 157 L Ed 2d 491, 124 S Ct 619, overruled on other grounds by *Citizens United v Federal Election Comm'n* (2010) ___ US ___, 175 L Ed 2d 753, 799, 130 S Ct 876. See also *Citizens United v Federal Election Comm'n* (2010) ___ US ___, 175 L Ed 2d 753, 799, 130 S Ct 876 (concluding that "independent expenditures, including those made by corporations, do not give rise to corruption or the appearance of corruption"). The absence of coordination between the individual or group making the expenditure and the affected candidate minimizes the chance that the payment is being made in exchange for political favors. *Federal Election Comm'n v National Conservative PAC* (1985) 470 US 480, 497, 84 L Ed 2d 455, 105 S Ct 1459; *Buckley v Valeo* (1976) 424 US 1, 47, 46 L Ed 2d 659, 96 S Ct 612. However, Proposition 34 expressly prohibits candidates or their controlled committees from making an independent expenditure or contributing to a committee for the purpose of making an independent expenditure to support or oppose other candidates. Govt C §85501.

© The Regents of the University of California

§3.184 2. Organization Expenditure Limits

A state's desire to eliminate the corrosive effects of concentrated corporate wealth from elections generally does not justify independent expenditure limits (see §3.183) for political committees and corporations. Limiting or eliminating the amount of money a political committee or corporation spends may unduly burden protected First Amendment activities. *Federal Election Comm'n v Massachusetts Citizens for Life, Inc.* (1986) 479 US 238, 263, 93 L Ed 2d 539, 107 S Ct 616; *Federal Election Comm'n v National Conservative PAC* (1985) 470 US 480, 492, 84 L Ed 2d 455, 105 S Ct 1459; *Citizens United v Federal Election Comm'n* (2010) ___ US ___, 175 L Ed 2d 753, 130 S Ct 876.

© The Regents of the University of California

§3.185 3. Candidate's Personal Funds

The problem of avoiding undue influence on candidates is inapplicable when the funds involved come from the candidate or the candidate's family; thus, the state interest in preventing the appearance of impropriety and actual corruption cannot justify the burdens placed on the First Amendment. *Buckley v Valeo* (1976) 424 US 1, 53, 46 L Ed 2d 659, 96 S Ct 612. Further, the state has no legitimate interest in equalizing the financial resources of candidates competing for elective office except when limitations are conditioned on receipt of public funds. *Buckley v Valeo, supra*.

© The Regents of the University of California

§3.186 C. Political Reform Act Campaign Regulations

The Political Reform Act of 1974 (PRA) (Govt C §§81000-91014) campaign regulations are a highly complex and rapidly changing area of the law that is difficult to keep up with on a less than full-time basis. Candidates who make related inquiries can be referred to the Fair Political Practices Commission (FPPC), which provides this advice on either a telephone or more formal (written) basis.

NOTE: Some city attorneys decline to provide advice on campaign regulations to individual candidates on the theory that the city attorney's client is the city as an corporate entity, not individual council members or candidates for council. Moreover, the city attorney's advice on this issue does not confer immunity from FPPC enforcement action if the FPPC disagrees with the city attorney's advice.

For related material, see §2.119-2.161.

© The Regents of the University of California

§3.187 1. Propositions 68, 73, and 208

On June 7, 1988, California voters approved two initiatives both amending and supplementing the Political Reform Act of 1974 (PRA) (Govt C §§81000-91014). See Govt C §83112; 2 Cal Code Regs §§18109-18117. The measures, Propositions 68 and 73, established limits on campaign contributions made by individuals, corporations, political parties, and political committees.

Proposition 68 established a system for publicly-financed elections, and Proposition 73 specifically prohibited candidates from accepting any public financing. Proposition 73 received more votes in the election and, because the measures both regulated the same subject matter, the California Supreme Court determined that only Proposition 73 became operative. *Taxpayers to Limit Campaign Spending v Fair Political Practices Comm'n* (1990) 51 C3d 744, 274 CR 787. In 1992, the Ninth Circuit invalidated Proposition 73's contribution limitations and candidate transfers. *Service Employees Int'l Union v Fair Political Practices Comm'n* (9th Cir 1992) 955 F2d 1312. On November 6, 1996, California voters approved Proposition 208, another initiative statute amending provisions of the PRA pertaining to campaign contributions, campaign spending limitations, and lobbyist activities, which replaced a number of the provisions enacted under Proposition 73.

© The Regents of the University of California

§3.188 2. Proposition 208 Invalidated and Repealed

In 1998, the United States District Court for the Eastern District of California issued a preliminary injunction prohibiting the Fair Political Practices Commission (FPPC) from enforcing any of the provisions of the Political Reform Act of 1974 (PRA) (Govt C §§81000-91014) enacted under Proposition 208. *California Prolife Council PAC v Scully* (ED Cal 1998) 989 F Supp 1282, aff'd (9th Cir 1999) 164 F3d 1189. Specifically, the court concluded that the Proposition's contribution limits, referred to by the court as the "linchpin" of the statute, "must fail because they are set at a level precluding an opportunity to conduct a meaningful campaign," and that there was no rational basis for authorizing higher contribution limits to candidates who voluntarily agreed to campaign spending limits. 989 F Supp at 1296, 1299. The court enjoined enforcement of these provisions pending a determination by the California Supreme Court, to which it referred the matter, as to whether any provisions are severable from the invalid provisions of Proposition 208. 989 F Supp at 1300. The court indicated that once the California Supreme Court made this determination, it would issue its permanent injunction either prohibiting enforcement of Proposition 208 entirely or only its contribution limitation provisions. In dicta, the court indicated that local campaign contribution limit ordinances might pass constitutional muster depending on the limitations imposed in the context of facts pertinent to the particular jurisdiction such as size, available news media coverage, and cost of media, printing and staff support.

© The Regents of the University of California

§3.189 3. Proposition 34

At the statewide election in November 2000 the voters adopted Proposition 34, the State Legislature's proposal for campaign finance regulations. The proponents of Proposition 34 argued that it was intended to impose a reasonable system of campaign finance reform, addressing some of the constitutional problems of Proposition 208. Proposition 34 is largely aimed at elections for state legislative and constitutional offices, and it repealed the majority of Proposition 208. Most significantly, Proposition 34 repealed all of Proposition 208's limits on contributions applicable to local elections, along with the statutory authority to adopt local voluntary expenditure limits. Cities retain the statutory authority to adopt local ordinances regulating campaign finance issues to the extent the local ordinance does not prevent compliance with the Political Reform Act. Govt C §81013; Elec C §10202.

In response to the adoption of Proposition 34, the Fair Political Practices Commission (FPPC) has acted quickly to provide guidance as to which of its provisions are applicable to local jurisdictions. The FPPC adopted 2 Cal Code Regs §18573, a list of the applicable sections of Proposition 34.

PRACTICE TIP: To fully implement Proposition 208, some cities adopted voluntary campaign expenditure limits in amounts up to one dollar per resident of the jurisdiction. Proposition 34 repealed both the statutory authority and the incentive for cities to do so. To avoid confusion in the elections process, city attorneys should determine whether such an ordinance is still in effect and, if so, take the necessary steps to repeal it.

© The Regents of the University of California

§3.190 D. Political Reform Act Disclosure Requirements

A number of situations exist when a candidate is required to reveal the amount of contributions received and expenditures made during the course of a campaign. Govt C §§84100-84511. The disclosure provisions of the Political Reform Act of 1974 (PRA) (Govt C §§81000-91014) serve at least the following purposes:

- Educate voters as to influences likely to be placed on the candidate; and
- Prevent evasion of contribution restrictions imposed by the PRA.

Govt C §81002; *Brown v Superior Court* (1971) 5 C3d 509, 529, 96 CR 584; *Bach v McNelis* (1989) 207 CA3d 852, 863, 255 CR 232; *Thirteen Comm. v Weinreb* (1985) 168 CA3d 528, 532, 214 CR 297.

© The Regents of the University of California

1. Constitutional Issues

§3.191 a. Interests Infringed

Statutes requiring a candidate or committee to reveal the amount of contributions received, the source of the contribution, and campaign-related expenses can seriously infringe on privacy of association and belief guaranteed by the First Amendment. *Buckley v Valeo* (1976) 424 US 1, 14, 64, 46 L Ed 2d 659, 96 S Ct 612. The right to join together for the advancement of beliefs and ideals is diluted if it does not include the right to pool money together through contributions. The freedom of association for the advancement of ideals is an inseparable aspect of liberty ensured by the due process clause, and restrictions on the ability of groups to associate inevitably affect the financial strength of the organization. See *National Ass'n for the Advancement of Colored People v Alabama* (1958) 357 US 449, 460, 2 L Ed 2d 1488, 78 S Ct 1163; *Cantwell v Connecticut* (1940) 310 US 296, 303, 84 L Ed 1213, 60 S Ct 900; *Gitlow v New York* (1925) 268 US 652, 666, 69 L Ed 1138, 45 S Ct 625.

© The Regents of the University of California

§3.192 b. Heightened Scrutiny

Because disclosure laws burden constitutionally protected interests, the state must be able to demonstrate more than a legitimate interest. The increased level of scrutiny ensures laws burdening fundamental rights are drawn with narrow specificity. *Buckley v Valeo* (1976) 424 US 1, 66, 46 L Ed 2d 659, 96 S Ct 612; *National Ass'n for the Advancement of Colored People v Button* (1963) 371 US 415, 433, 9 L Ed 2d 405, 83 S Ct 328; *National Ass'n for the Advancement of Colored People v Alabama* (1958) 357 US 449, 463, 2 L Ed 2d 1488, 78 S Ct 1163.

© The Regents of the University of California

§3.193 c. Governmental Interests

Despite the fact disclosure laws burden constitutional rights, such requirements withstand constitutional scrutiny because they generally educate the voters about interests a candidate is likely to respond to, expose large contributions to the public eye (thus discouraging candidates from accepting them and becoming beholden to special interests), and assist enforcement of contribution limits. *Buckley v Valeo* (1976) 424 US 1, 68, 46 L Ed 2d 659, 96 S Ct 612.

NOTE: These state interests are less compelling when applied to minor parties. Smaller parties have a less stable financial base and are likely to lose contributions because of disclosure laws. If minor party candidates can demonstrate that they or their contributors will be subject to threats, harassment, or reprisal from the government or private parties because of compelled disclosure, the laws cannot be constitutionally enforced against them. The proof of such intimidation consists of past displays of harassment. *Buckley v Valeo* (1976) 424 US 1, 74, 46 L Ed 2d 659, 96 S Ct 612.

© The Regents of the University of California

§3.194 2. When Disclosure Statements Are Required

Candidates for elective state and local office are required by the Political Reform Act of 1974 (PRA) (Govt C §§81000-91014) to file semiannual statements documenting their contributions and expenditures made. The statements must be filed no later than July 31 and January 31. Govt C §84200. However, a candidate who receives less than $1000 and who makes expenditures of less than $1000 may file a short form statement provided by the Fair Political Practices Commission. Govt C §84206. Unless it is clear from the surrounding circumstances that a payment is not being made for political purposes, a payment or promise to make a payment to a candidate or a controlled committee is considered a contribution, and a payment made by a candidate or a controlled committee is considered an expenditure. Govt C §§82015, 82025; 65 Ops Cal Atty Gen 493, 498 (1982).

© The Regents of the University of California

§3.195 a. Reporting Late Contributions

The Political Reform Act of 1974 (PRA) places a continuing obligation on the part of candidates and committees to update their disclosure of contributions received after the last statement filed and before the election. Late contributions totaling $1000 or more must be reported by facsimile, overnight, or personal delivery within 24 hours after they are received or made. Govt C §§82036, 84203.

© The Regents of the University of California

§3.196 b. Reporting Independent Expenditures

An independent expenditure is a payment made in connection with a communication by a person advocating the election or defeat of a clearly identifiable candidate or ballot measure, but not made at the behest of the affected candidate or committee. Govt C §82031. Such expenditures must also be disclosed if the total amount totals $1000 or more in a calendar year. Govt C §84203.5. Independent expenditures totaling $1000 or more in support of or opposition to a candidate or measure, made after the last campaign statement was submitted but before the election, must be reported by facsimile, overnight, or personal delivery within 24 hours. Govt C §84204.

© The Regents of the University of California

§3.197 c. Pre-Election Statements

In addition to filing statements as required by Govt C §84200, all candidates, their controlled committees, and all other committees formed to support or oppose a candidate or ballot measure (including state, county, and city general purpose committees other than political party committees) must file pre-election statements. Govt C §§84200.5, 84200.7-84200.8.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/3 Elections/§3.198 3. Contents of Disclosure Statements

§3.198 3. Contents of Disclosure Statements

Each campaign statement must include (Govt C §84211):

- The total amount of contributions received and expenditures made during the period covered by the campaign statement;
- The cumulative amount of contributions received and expenditures made; and
- Information on certain individual contributors, lenders, and recipients of expenditures.

© The Regents of the University of California

§3.199 a. Identifying Contributors, Lenders, and Recipients

If an individual contributes or loans to a candidate or committee $100 or more, and a contribution or loan has been received by that person during the period covered by the campaign statement, the name, street address, occupation, date of contribution, and cumulative amount received from the contributor must be included in the campaign statement. If an expenditure is made to a person in excess of $100 during the period covered by the campaign statement, the name and street address of the person receiving the contribution, the total amount of the expenditure, and a brief description of the consideration received for the payment must be disclosed. Govt C §§82018, 84211.

© The Regents of the University of California

b. Disclosure of Advertisement Funding Sources

§3.200 (1) Mass Mailing Restrictions

The California Government Code forbids any mailing of 200 or more substantially similar pieces of mail by a candidate or committee unless the name, street address, and city of the candidate or committee are shown. Govt C §§82041.5, 84305; *Griset v Fair Political Practices Comm'n* (1994) 8 C4th 851, 35 CR2d 659, cert denied (1994) 514 US 1083. See also Govt C §84305.5 (identification and disclaimer requirements for slate mailers). For further discussion of mass mailing restrictions, see §2.157.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/3 Elections/§3.201 (2) Ballot Measure Campaign Advertisements

§3.201 (2) Ballot Measure Campaign Advertisements

Government Code §§84503-84511 imposes disclosure requirements on donors of $50,000 or more to ballot measure campaigns. The California Code of Regulations contains further specifics for compliance. See 2 Cal Code Regs §18450.4.

© The Regents of the University of California

§3.202 (3) Paid Spokespeople

Proposition 34 added the requirement that any committee that makes an expenditure of $5000 or more to a spokesperson for an appearance in an advertisement in support of or opposition to the qualification, passage, or defeat of a ballot measure must report the measure, the date of expenditure, the name of the recipient, and the amount expended within 10 days. In addition, the advertisement itself must disclose the fact that the spokesperson is being paid. Govt C §84511.

© The Regents of the University of California

§3.203 E. Political Reform Act Contribution Limits

Government Code §84308 imposes a $250 limit on contributions to commissioners and other appointed officials involved in discretionary proceedings relating to licenses, permits, land use entitlements, and non—publicly bid contracts. Although the statute does not cover council members and other local elected officials when acting as such, it does cover them when they are acting in an appointee capacity (*e.g.,* when serving as the city's appointed member of a joint powers authority, or a regional commission). The statute restricts contributions received by the official for the official's own behalf, or on behalf of another person (*e.g.,* a planning commissioner receiving a contribution for his or her own candidacy or on behalf of an incumbent council member). Officials subject to the provisions of Govt C §84308 must:

- Disclose campaign contributions received by the official before the commencement of specified proceedings involving individuals who have or are affiliated with persons who have given contributions to the official;
- Refuse campaign contributions in excess of $250 from persons supporting or opposing the proposed action during the pendency of the proceeding and for 3 months thereafter; and
- Refrain from participating in specified types of proceedings if the official has received in excess of $250 during the preceding 12 months from any individual involved in the proceeding in support of or opposition to the application.

The Fair Political Practices Commission has promulgated regulations interpreting Government Code §84308 at 2 Cal Code Regs §§18438.1-18438.8.

F. Political Reform Act Enforcement

§3.204 1. Criminal Penalties

Violation of the Political Reform Act of 1974 (PRA) is a misdemeanor. In addition, on conviction, a violation of the PRA is punishable by a fine of three times the amount improperly disclosed, received, or expended or $10,000, whichever is greater. Govt C §91000. Finally, anyone convicted of a misdemeanor under the PRA is disqualified from seeking elective office for 4 years. Govt C §91002; *People v Ballard* (1980) 104 CA3d 757, 762, 164 CR 81.

The Attorney General has the authority to enforce the criminal provisions of the PRA with respect to state agencies, lobbyists, and state elections. Govt C §91001. District attorneys have concurrent powers with the Attorney General, and an elected city attorney in a charter city may also act as the prosecutor with respect to violations occurring within the city limits. Govt C §91001.5. Proposition 34 repealed the Fair Political Practices Commission's authority to prosecute criminal violations of the PRA.

© The Regents of the University of California

§3.205 2. Civil Sanctions

In addition to criminal penalties (see §3.204), any person who intentionally or negligently violates the reporting provisions of the Political Reform Act (PRA) is liable for civil damages in an amount not more than the amount or value not properly reported. Govt C §91004. Anyone violating the limits on cash contributions, anonymous contributions, or prohibited gifts is liable in a civil action up to $1000 or three times the amount of the unlawful contribution or gift, whichever is greater. Govt C §91005(a). Under Proposition 34, any person who violates other provisions of the PRA for which no specific civil penalty is provided is liable in a civil action for damages of up to $5000 per violation. Govt C §91005.5.

For PRA violations involving the state or a state agency, except the Fair Political Practices Commission (FPPC) itself, the civil prosecutor is the FPPC. District attorneys are the civil prosecutors with respect to all other agencies. Govt C §91001(b). An elected city attorney in a charter city may also act as the prosecutor with respect to violations occurring within the city limits. Govt C §§91001.5, 91005.5. However, any resident of a jurisdiction where the violation occurred may bring an action for violations of the reporting requirements or the limits on cash contributions, anonymous contributions, and prohibited gifts, if the civil prosecutor is notified, but declines prosecution. Govt C §§91004, 91005(a), 91007; *Thirteen Comm. v Weinreb* (1985) 168 CA3d 528, 536, 214 CR 297; *Rhodes v Superior Court* (1979) 90 CA3d 484, 486, 153 CR 495.

© The Regents of the University of California

§3.206 3. Administrative Sanctions

When the Fair Political Practices Commission determines there is probable cause to believe a Political Reform Act of 1974 (PRA) violation has been committed, it may conduct an administrative hearing under which, if a violation is established, it may issue a cease and desist order, direct the filing of any reports or information required, and/or impose monetary penalties of up to $5000 per citation. Govt C §83116.

© The Regents of the University of California

§3.207 4. Injunctive Relief

Any person residing in the jurisdiction may sue to enjoin violations or to compel compliance with the Political Reform Act of 1974 (PRA). Govt C §91003(a).

© The Regents of the University of California

§3.208 G. Local Regulations

The campaign disclosure laws of the Political Reform Act of 1974 (PRA) apply not only to all candidates and committees for state elective office but also for local elective office. By its terms, the PRA intended to establish a single body of law pertaining to the financing of elections. Govt C §81001 ("The People find and declare … State and local government should serve the needs and respond to the wishes of all citizens equally, without regard to their wealth").

NOTE: This discussion of local regulations does not attempt to comprehensively outline all local campaign laws; rather, it isolates a few areas in which cities frequently add to the requirements imposed by the PRA. See, *e.g.,* Money and Politics in the Golden State: Report and Recommendations of the California Commission on Campaign Finance 71, 75 (1989).

PRACTICE TIP: For more information on local regulations, see Rasiah, A Primer on Local Campaign Regulations (League of California Cities—City Attorneys' Continuing Education Seminar, February 2008).

© The Regents of the University of California

§3.209 1. Authority for More Stringent Requirements

A city may enact contribution and disclosure laws in addition to those required by the Political Reform Act of 1974 (PRA). See Govt C §81013 ("Nothing in this title prevents the Legislature or any other state or local agency from imposing additional requirements on any person if the requirements do not prevent the person from complying with this title."). Government Code §85703 provides that nothing in Proposition 34 nullifies local contribution limits or prohibitions except that those that conflict with Government Code §85312 on membership communications.

© The Regents of the University of California

§3.210 2. Public Monies for Candidates in Municipal Elections

Proposition 73 expressly prohibited expending or accepting public monies to seek elective office. See Govt C §85300. The California Supreme Court determined such a ban does not apply to charter cities. *Johnson v Bradley* (1992) 4 C4th 389, 14 CR2d 470 (expressly overruling *County of Sacramento v Fair Political Practices Comm'n* (1990) 222 CA3d 687, 689, 271 CR 802). Subsequent Fair Political Practices Commission (FPPC) regulations confirmed the exemption for charter cities and counties. See 2 Cal Code Regs §18530. The term "public monies" has the same meaning as in Pen C §426, *i.e.,* "all bonds and evidence of indebtedness, and all moneys belonging to the state, or any city, county, town, district, or public agency therein, and all moneys, bonds, and evidence of indebtedness received or held by state, county, district, city, town or public agency officers in their official capacity." Govt C §85206.

PRACTICE TIP: Pending the adoption of regulations, the FPPC has construed the prohibition of Govt C §85300 to mean accepting or expending public resources as well as simply "monies."

© The Regents of the University of California

H. City Participation in Ballot Measures

§3.211 1. Prohibited Expenditures to Support or Defeat a Ballot Measure

Absent clear and unambiguous statutory authority, a local government may not spend public funds to assist the passage or defeat of an initiative or other ballot measure. Public monies may not be used to purchase such items as television and radio announcements, printing cards, banners, and other promotional items. The theory is using public funds in this manner would be manifestly unjust to the rights of those voters with opposing views. The selective use of government funds also raises the danger elected officials would use their authority to perpetuate themselves and their allies in office. See *Vargas v City of Salinas* (2009) 46 C4th 1, 92 CR3d 286; *Miller v California Comm'n on the Status of Women* (1984) 151 CA3d 693, 697, 198 CR 877; *Stanson v Mott* (1976) 17 C3d 206, 217, 130 CR 697; Govt C §54964. Such expenditures are reportable to the Fair Political Practices Commission. Govt C §84203.5.

NOTE: Public entities that illegally expend funds on political campaigns likely violate the Political Reform Act of 1974 (PRA) as well if those expenditures are not reported as campaign expenditures. However, the Fair Political Practices Commission (FPPC) has advised that the campaign reporting requirements of the PRA do not apply to expenditures relating to the mailed-ballot and protest procedures required by Proposition 218. In the FPPC's opinion, Proposition 218 ballot and protest procedures are not "elections" or "ballot measures" as defined in the PRA. Ewing Advice Letter, No. A-97-061.

For more on city participation in ballot measures, see League of California Cities, *Legal Issues Associated with City Participation in Ballot Measure Campaigns* (July 1996) (question-and-answer guide with extensive footnotes to authorities).

© The Regents of the University of California

§3.212 a. Statutory Prohibition

Government Code §54964 prohibits a city officer, employee, or consultant from expending or authorizing the expenditure of any city funds to conduct campaign activities such as supporting or opposing the approval or rejection of a ballot measure, or the election or defeat of a candidate, by the voters. "Ballot measure" refers to an initiative, referendum, or recall measure that is certified to appear on the ballot, or a measure submitted to the voters by the city council. Govt C §54964(b)(1). "Expenditure" includes payment of city funds used for communications that "expressly advocate" the approval or rejection of a clearly defined ballot measure, or the election or defeat of a clearly identified candidate. Govt C §54964(b)(3). Section 54964(c) further narrows the term "expenditure" to exclude the use of city funds to inform the public about the possible effects of a ballot measure on the activities, operations, or policies of the city, as long as the informational activities are not otherwise prohibited under California law and the information is an accurate, fair, and impartial presentation of the relevant facts to aid the voters in reaching an informed judgment on the ballot measure.

PRACTICE TIP: The distinctions between unlawful campaign activities and lawful information activities are narrow and nuanced. Local agencies should exercise restraint when communicating to voters about local measures. Additionally, when Govt C §54964 is triggered on the certification of a ballot measure for a specific election, city expenditures are presumptively valid only until a notice of intent is filed to circulate a petition seeking to qualify a measure for the ballot. *League of Women Voters v Countywide Criminal Justice Coordination Comm.* (1988) 203 CA3d 529, 555, 250 CR 161. For these reasons, cities should be cautious in structuring public information and outreach activities that comply only with Govt C §54964, and instead should also consider the court decisions in cases interpreting the statute. See League of California Cities, *Legal Issues Associated with City Participation in Ballot Measure Campaigns* (September 2001).

© The Regents of the University of California

§3.213 b. Equal Protection Issues

Cities should be careful in maintaining impartiality in selecting the ballot position of an initiative or referendum. This is even more important on a measure in which the city has taken a position. Although invalidating a candidate election procedure reserving advantageous ballot positions based on incumbency and alphabetical order, the California Supreme Court in *Gould v Grubb* (1975) 14 C3d 661, 677, 122 CR 377, remarked

> "[a] fundamental goal of a democratic society is to attain the free and pure expression of the voter's choice of candidates. To that end, our state and federal constitutions mandate government must, if possible, avoid any feature that might adulterate or, indeed, frustrate that free and pure choice."

PRACTICE TIP: Although a ballot position in a candidate election (as was the case in *Gould*) is factually distinct from the ballot position of an initiative or referendum, cities should still exercise caution in this area.

© The Regents of the University of California

2. Permissible Public Expenditures

§3.214 a. Informational Expenses

Although a city may not use public funds to assist the passage or defeat of a ballot measure without clear authorization, it may spend public monies to enhance the voters' knowledge about the consequences of a particular initiative. The information disseminated must be objective and impartial. *Stanson v Mott* (1976) 17 C3d 206, 221, 130 CR 697. See also *Vargas v City of Salinas* (2009) 46 C4th 1, 40, 92 CR3d 286 (validating city's communications regarding local initiative when city conveyed past and present facts relating to the initiative, avoided inflammatory rhetoric, did not urge voters to vote in a particular manner, and disseminated information though website and regular circulation of city's official newsletter). A fair presentation of facts relating to a ballot measure is easily distinguished from unauthorized campaign or promotional expenses such as television or radio expenses or posters. *Citizens to Protect Pub. Funds v Board of Educ.* (1953) 13 NJ 172, 98 A2d 673 (cited with approval in *Stanson v Mott* (1976) 17 C3d 206, 220, 130 CR 697).

NOTE: Some expenses closely approach impermissible promotional costs. Publicly financed advertisements may refrain from exhorting a particular position, but still be declared an unauthorized campaign expenditure. The propriety or impropriety of each expenditure depends on such factors as the style, tenor, and timing of an advertisement. 17 C3d at 221. See also *DiQuisto v County of Santa Clara* (2010) 181 CA4th 236, 265, 104 CR3d 93 (county's discussion with labor union regarding proposed ballot initiative as part of collective bargaining process was "framed in the dispassionate language of contract, not in the exhortatory tone of persuasion").

© The Regents of the University of California

§3.215 b. Opinions of Local Legislative Bodies

Local legislative bodies may still go on record at public meetings in favor of or opposed to a particular measure. Moreover, municipal employees are free to join other citizen groups supporting or opposing initiatives. See *League of Women Voters v Countywide Criminal Justice Coordination Comm.* (1988) 203 CA3d 529, 555, 250 CR 161.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/3 Elections/§3.216 c. Voter Registration Expenses

§3.216 c. Voter Registration Expenses

Cities may permissibly expend public funds for voter registration and get-out-the-vote efforts, even in conjunction with elections in which a majority of the city council strongly supports or opposes a measure on the ballot. *Schroeder v City of Irvine* (2002) 97 CA4th 174, 187, 118 CR2d 330.

© The Regents of the University of California

3. Lobbying

§3.217 a. Lobbying Permitted

Lobbying efforts involve the use of public funds to promote causes that some members of the public may not support. However, one of the primary functions of elected and appointed officials is to devise legislative proposals and to implement the current administration's policies. Because the legislative process envisions the participation of interested persons at public hearings, lobbying by public agencies in no way undermines the democratic process and is generally allowed. *Stanson v Mott* (1976) 17 C3d 206, 218, 130 CR 697. See also Govt C §50023 (enabling local legislative bodies to appear before state legislature and Congress to aid passage of favorable legislation and allowing costs and expenses to be paid for with public funds).

On lobbying, see §§2.41, 2.185-2.187.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/3 Elections/§3.218 b. Lobbyist Registration and Reporting Requirements

§3.218 b. Lobbyist Registration and Reporting Requirements

The Political Reform Act of 1974 (PRA) requires that compensated state lobbyists and those who employ state lobbyists register and report their lobbying activities and expenditures. Govt C §§82038.5, 86100-86300.

PRACTICE TIP: Because lobbying registration and reporting requirements are complex and fact specific, local officials should consult with counsel, the Fair Political Practices Commission, and the Secretary of State to determine whether these requirements apply.

© The Regents of the University of California

§3.219 c. Distinguishing Between Lobbying and Campaigning

The audience to whom an appeal is directed, not the substantive issues, determines if the government's actions constitute lobbying or campaigning. Lobbying efforts are aimed at the legislature; campaigning is directed at the voters. *Miller v Miller* (1978) 87 CA3d 762, 768, 151 CR 197, superseded by statute as stated in *Miller v California Comm'n on the Status of Women* (1984) 151 CA3d 693, 696, 198 CR 877. It may be difficult to distinguish between the two. Although a lobbyist's principal appeal may be directed at the legislature, a secondary audience may also be the electorate and the media. 87 C3d at 775 (Reynoso, J., concurring).

© The Regents of the University of California

4. Drafting Ballot Measures

§3.220 a. Municipal Drafting Permitted

A local government may spend public funds to draft and find a sponsor for an initiative. The local legislative body has the authority to spend public funds on a public purpose and its determination a particular expense furthers a public purpose will ordinarily not be disturbed by the courts. If the interests the city seeks to serve are legitimate but the state legislature has proven disinterested, the city has the power to draft a proposed initiative at public expense in the hope a sympathetic sponsor will be found. *League of Women Voters v Countywide Criminal Justice Coordination Comm.* (1988) 203 CA3d 529, 548, 250 CR 161; 73 Ops Cal Atty Gen 255, 266 (1990).

© The Regents of the University of California

§3.221 b. Drafting Does Not Constitute Campaigning

Before and through the drafting stage of an initiative, a city's efforts are not taken to influence voters either to qualify or pass a proposed initiative. The audience is not the electorate per se, but only potentially interested citizens. The act of drafting a measure does not constitute an attempt to influence any particular vote. *League of Women Voters v Countywide Criminal Justice Coordination Comm.* (1988) 203 CA3d 529, 551, 250 CR 161.

© The Regents of the University of California

§3.222 c. Collecting Signatures Likely Impermissible

When a local government provides funds to assist the qualification of a ballot measure, it arguably has crossed the point of neutrality by claiming a proposed initiative should be adopted. Such expenditures would be invalid unless authorized by express statutory authority, and even then they would be susceptible to First Amendment and equal protection claims. See *League of Women Voters v Countywide Criminal Justice Coordination Comm.* (1988) 203 CA3d 529, 554, 250 CR 161; 73 Ops Cal Atty Gen 255, 266 (1990).

© The Regents of the University of California

5. Analyzing City Ballot Measures

§3.223 a. Impartial Analysis by City Attorney

Once a city measure has qualified for a place on the ballot, the governing body of the city may direct the clerk to forward a copy of the measure to the city attorney. The city attorney must prepare an analysis of the measure showing the effect of the measure on existing law and the operation of the measure. The analysis is printed on the ballot preceding the arguments in favor of and against the measure. The purpose of the analysis, like all other ballot arguments, is to ensure a more informed electorate. Elec C §9280; *Horwath v City of East Palo Alto* (1989) 212 CA3d 766, 772, 261 CR 108; *Patterson v Board of Supervisors* (1988) 202 CA3d 22, 29, 248 CR 253.

© The Regents of the University of California

§3.224 b. Remedy for Imperfect Analyses

An omission, inaccuracy, or misleading statement in a city attorney's analysis of a proposed measure may result in the invalidation of a ballot measure passed by the voters. The due process clause requires invalidation when the error prevented voters from making an informed choice. In determining whether the voters were unable to make an informed choice, the court should consider the following (*Horwath v City of East Palo Alto* (1989) 212 CA3d 766, 777, 261 CR 108):

- The availability of the text of the ordinance to the public;
- The extent of other informational activities and the content of these efforts;
- The arguments for or against the measure appearing on the ballot; and
- The materiality of the omission.

In this regard, "[t]he bar is very high indeed for a litigant to successfully mount a post-election challenge to a ballot measure using a due process rationale based on defects in a county counsel's impartial analysis." *People ex rel Kerr v County of Orange* (2003) 106 CA4th 914, 934, 131 CR2d 274. For example, when a proposed ballot measure dealing with rent control was submitted to the voters, the city attorney's failure to mention the existence of a rent rollback provision did not render the initiative invalid because newspaper articles discussed the provision and leaflets explained the measure, ensuring that voters were sufficiently informed. Moreover, the voters were informed by the city they could obtain a copy of the ordinance at no charge. *Horwath v City of East Palo Alto* (1989) 212 CA3d 766, 778, 261 CR 108.

I. INTRODUCTION

§4.1 A. Nature of Public Employment

All appointive officers and employees in a general law city hold their offices at the pleasure of the city council. Govt C §36506. Most municipal officers and employees have no right in their offices or employment except as that right may be conferred by statute or charter. *Butterworth v Boyd* (1938) 12 C2d 140, 82 P2d 434. Not all those in public employment hold a public office. The distinction between an officer and an employee may affect the manner in which a city deals with matters such as appointment and removal.

For further discussion of topics covered by this chapter, see generally Advising California Employers and Employees (Cal CEB 2005); California Workers' Compensation Practice (4th ed Cal CEB 2000); Wrongful Employment Termination Practice (2d ed Cal CEB 1997).

© The Regents of the University of California

§4.2 B. Public Employee Rights

Public employees enjoy the full protection of the First Amendment. *Keyishian v Board of Regents* (1967) 385 US 589, 17 L Ed 2d 629, 87 S Ct 675. See also *Garrity v New Jersey* (1967) 385 US 493, 17 L Ed 2d 562, 87 S Ct 616 ("Policemen, like teachers and lawyers, are not relegated to a watered-down version of constitutional rights"); *Board of County Comm'rs v Umbehr* (1996) 518 US 668, 675, 135 L Ed 2d 843, 852, 116 S Ct 2342 ("First Amendment's guarantee of freedom of speech protects government employees from termination *because* of their speech on matters of public concern"). The interests of the public employee as a citizen commenting on matters of public concern must be balanced against the interests of the government in promoting the efficiency of the public services it performs through its employees. *Connick v Myers* (1983) 461 US 138, 75 L Ed 2d 708, 103 S Ct 1684 (when public employee speaks not as citizen on matters of public concern, but as employee on matters of personal interest, federal court is not appropriate forum to review personnel decision against employee); *Pickering v Board of Educ.* (1968) 391 US 563, 20 L Ed 2d 811, 88 S Ct 1731. See *Garcetti v Ceballos* (2006) 547 US 410, 164 L Ed 2d 689, 126 S Ct 1951 (speech that is part of official duties, *e.g.,* memoranda or reports, is not speech as citizen on matters of public concern, and thus is not constitutionally protected and does not protect employee from discipline); *Chico Police Officers' Ass'n v City of Chico* (1991) 232 CA3d 635, 283 CR 610 (police officer association president's speech critical of department management protected by First Amendment because speech involved matter of public concern (employment relations and safety).

An employer may not deny a volunteer his or her constitutionally protected right to freedom of speech. See *Hyland v Wonder* (9th Cir 1992) 972 F2d 1129, cert denied (1993) 508 US 908.

© The Regents of the University of California

II. RECRUITMENT AND QUALIFICATIONS OF PUBLIC EMPLOYEES

§4.3 A. Hiring

Public agencies establish standards, requirements, and procedures for hiring personnel consistent with the agency's charter or Government Code requirements. Many agencies also have "civil service" systems that include comprehensive procedures for recruitment, hiring, testing, and promotion. See Govt C §§45000-45210.

PRACTICE TIP: For a list of acceptable and unacceptable pre-employment inquiries, see Advising California Employers and Employees §§1.22-1.31 (Cal CEB 2005). The California Department of Fair Employment and Housing also publishes a fact sheet regarding pre-employment inquiries. The publication is DFEH-161: Employment Inquiries: What Can Employers Ask Applicants and Employees? and is available at www.dfeh.ca.gov/DFEH/Publications/ or by contacting the DFEH at 2218 Kausen Drive, Suite 100, Elk Grove, CA 95758.

© The Regents of the University of California

§4.4 1. Non-discrimination Requirement

A nondiscriminatory hiring practice focuses on setting appropriate minimum qualifications for each job. Minimum qualifications are the prerequisites for the position, such as appropriate education, background, employment experience, skills, and licenses. Minimum qualifications must be job-related and consistent with business necessity. 42 USC §12112; Govt C §12940.

© The Regents of the University of California

§4.5 2. Residency Requirement

"A city or county, including any chartered city or chartered county, or public district, may not require that its employees be residents of such city, county or district; except that such employees may be required to reside within a reasonable and specific distance of their place of employment or other designated location." Cal Const art XI, §10(b). See *International Ass'n of Fire Fighters, Local 55, AFL-CIO v City of San Leandro* (1986) 181 CA3d 179, 226 CR 238 (40-mile residency requirement for firefighters without individual assessment of travel time was reasonable); *Cooperrider v Civil Service Comm'n* (1979) 97 CA3d 495, 158 CR 801 (prohibition on residency requirements applies to applicants for employment and current employees); *Graham v Kirkwood Meadows Pub. Utils. Dist.* (1994) 21 CA4th 1631, 26 CR2d 793 (requirement that water/wastewater operator whose duties include emergency repair live within three driving miles of treatment plant was reasonable). See also *Lanam v Civil Service Comm'n* (1978) 80 CA3d 315, 145 CR 590 (hand-drawn, irregularly shaped residency boundaries for firefighter was not reasonable).

PRACTICE TIP: Some city attorneys maintain that the constitutional prohibition does not apply to an officer of the city, such as a city manager, despite being a city employee. This position appears to be in the minority and has not been tested in the courts. As a recruitment tool and means of encouraging certain employees (typically the city manager and public safety personnel) to live within the city limits, some cities have provided housing loans contingent on the property being within the city limits. See 77 Ops Cal Atty Gen 170 (1994).

© The Regents of the University of California

§4.6 B. Affirmative Action

Affirmative action is an employer's commitment to establish objectives and plans to ensure equal employment opportunity and, when appropriate, to achieve full utilization of minorities and women, at all levels and in all areas of the employer's workforce. Affirmative action is premised on the concept that absent discrimination, the employer's work force will generally mirror the availability of persons possessing the applicable skills in the relevant labor market.

NOTE: Affirmative action programs may be viewed as a form of "reverse discrimination," albeit one with positive social consequences, and may be challenged on both Title VII of the Civil Right Act of 1964 (Title VII) (42 USC §§2000e—2000e-17) and equal protection grounds.

On affirmative action in public works projects, see §§7.28-7.34.

© The Regents of the University of California

§4.7 1. Sources of Affirmative Action Obligations

Nothing in Title VII requires the institution of affirmative action. *Johnson v Transportation Agency, Santa Clara County* (1987) 480 US 616, 94 L Ed 2d 615, 107 S Ct 1442; *United Steelworkers of Am. v Weber* (1979) 443 US 193, 61 L Ed 2d 480, 99 S Ct 2721. Affirmative action programs in employment are generally instituted for one of the following three reasons:

(1) Voluntary Commitment. An employer may decide voluntarily to engage in affirmative action in employment to remedy past discrimination, correct an imbalance in the work force, or offset the disparate impact of prior selection practices. The existence of a reasonable basis for undertaking voluntary affirmative action does not constitute an admission of a Title VII violation. *Johnson v Transportation Agency, Santa Clara County, supra*; *United Steelworkers of Am. v Weber, supra*.

NOTE: Consent decrees, approved by the court as part of a settlement, often provide for the adoption of an affirmative action program. Any affirmative remedy contained in it is viewed as voluntary affirmative action rather than court-ordered relief.

(2) Judicial Action. See*, e.g., Firefighters Local Union No. 1784 v Stotts* (1984) 467 US 561, 81 L Ed 2d 483, 104 S Ct 2576 (Supreme Court rejects modification of consent decree to cover issues, such as preventing minorities from being laid off under seniority system, when consent decree only addressed hiring and promotion of minorities).

(3) Contractual or Funding Obligation. When an entity has a contract or subcontract with, or receives funding from, the federal government or the state, as a condition of such contract or funding, the agency may be required to engage in affirmative action in employment. See*, e.g.,* Executive Order 11246, as amended by Executive Orders 11375 and 12086 (contractors and subcontractors and certain other employers with specified levels of contacts with federal government); 29 USC §§701-796*l* (§503 of Rehabilitation Act of 1973, as amended); Govt C §12990 (governing certain contracts with state).

© The Regents of the University of California

2. Legality of Voluntary Affirmative Action

§4.8 a. Proposition 209

Proposition 209 was approved by California voters on November 6, 1996, and added Cal Const art I, §31(a) to prohibit public employers, among others, from "discriminat[ing] against or grant[ing] preferential treatment to, any individual or group on the basis of race, sex, color, ethnicity, or national origin in the operation of public employment, public education or public contracting." Several statutory affirmative action programs have been invalidated under Proposition 209. See *Connerly v State Personnel Bd.* (2001) 92 CA4th 16, 112 CR2d 5 (affirmative action program that established timetables to seek, hire, and promote minorities and women constitutes impermissible racial and gender preference); *Hi-Voltage Wire Works, Inc. v City of San Jose* (2000) 24 C4th 537, 101 CR2d 653 (city's program that required prime contractors to notify, solicit, and negotiate with minority and women business subcontractors as well as justify rejection of their bids was unlawful). However, a public employer may still maintain affirmative action programs for the purpose of establishing or maintaining eligibility for any federal program, when ineligibility would result in a loss of federal funds to the state. Cal Const art I, §31(e). See *C & C Constr., Inc. v Sacramento Mun. Util. Dist.* (2004) 122 CA4th 284, 299, 18 CR3d 715 (federal funds exception does not require federal adjudication that race-based discrimination is necessary to maintain federal funding, but governmental agency must have substantial evidence it will lose federal funding if it does not use race-based measures and must narrowly tailor those measures to minimize race-based discrimination).

PRACTICE TIP: The League of California Cities has published the Proposition 209 Implementation Guide. For copies, contact the League's publication unit at 1400 K Street, Suite 400, Sacramento, CA 95814, telephone (916) 658-8257; fax (916) 658-8220.

© The Regents of the University of California

§4.9 b. City Programs Involving Federal Monies

City programs involving the expenditure of federal monies are still required to meet the following federal requirements for affirmative action:

- The program must address actual discrimination. Under Title VII of the Civil Rights Act of 1964, an affirmative action program addressing past societal discrimination based on a manifest imbalance in traditionally segregated job categories is legally valid. *Johnson v Transportation Agency, Santa Clara County* (1987) 480 US 616, 94 L Ed 2d 615, 107 S Ct 1442. However, remedying societal discrimination is not sufficient to justify a race or gender-conscious affirmative action plan under the Fourteenth Amendment; there must be some showing of actual prior discrimination by the public employer involved for such a plan to be constitutionally valid. *City of Richmond v J.A. Croson Co.* (1989) 488 US 469, 102 L Ed 2d 854, 109 S Ct 706; *Wygant v Jackson Bd. of Educ.* (1986) 476 US 267, 90 L Ed 2d 260, 106 S Ct 1842; *Regents of Univ. of Cal. v Bakke* (1978) 438 US 265, 57 L Ed 2d 750, 98 S Ct 2733.
- The employer's governing body must either find the existence of discriminatory conditions or indicia of possible discrimination. *Johnson v Transportation Agency, Santa Clara County, supra*; *Wygant v Jackson Bd. of Educ., supra*; *United Steelworkers of Am. v Weber* (1979) 443 US 193, 61 L Ed 2d 480, 99 S Ct 2721; *Regents of Univ. of Cal. v Bakke, supra*.
- The program may be used to eliminate racial imbalances in a portion of the employer's workforce relative to the availability of qualified individuals within the relevant labor market. *United Steelworkers of Am. v Weber, supra*; *Johnson v Transportation Agency, Santa Clara County, supra*. Statistical evidence of minority underrepresentation in an employer's work force may support an inference of past discrimination by the employer sufficient to constitute a prima facie case under Title VII of the Civil Rights Act of 1964, and a strong basis in evidence that a voluntary affirmative action plan was required and is consistent with the Fourteenth Amendment. See *Officers for Justice v Civil Service Comm'n of the City of San Francisco* (9th Cir 1992) 979 F2d 721, cert denied (1993) 507 US 1004; *Billish v City of Chicago* (7th Cir 1992) 962 F2d 1269, rev'd on other grounds (7th Cir 1993) 989 F2d 890, cert denied (1993) 510 US 908.
- There must be some relationship between the degree of imbalance in the workforce, the goal of eliminating the imbalance, and the reasonableness of the affirmative action taken. Generally, the goal of seeking a racial proportion in the workforce equivalent to that in the area labor force is reasonable. However, reasonableness will depend on the facts of each case. *Stotts v Memphis Fire Dep't* (6th Cir 1982) 679 F2d 541, rev'd on other grounds (1984) 467 US 561, 81 L Ed 2d 483, 104 S Ct 2576.
- The program must be temporary in the sense it must end when its goals are met. *Johnson v Transportation Agency, Santa Clara County, supra*. See *Grutter v Bollinger* (2003) 539 US 306, 342, 156 L Ed 2d 304, 341, 123 S Ct 2325 (durational limit is considered in determining whether race-conscious program is constitutional).

© The Regents of the University of California

§4.10 3. Third Party Rights

Third parties whose employment is adversely affected by affirmative action can challenge a voluntary plan, and the plan will be found to be unlawful when it unreasonably interferes with their rights. *Wygant v Jackson Bd. of Educ.* (1986) 476 US 267, 90 L Ed 2d 260, 106 S Ct 1842.

NOTE: The Civil Rights Act of 1991 prohibits a person from challenging a litigated or consent judgment involving employment discrimination when that person had actual notice of the adverse impact and an opportunity to object, or the person's interest was adequately represented. 42 USC §2000e-2(n)(1).

© The Regents of the University of California

§4.11 4. EEOC Guidelines

The Equal Employment Opportunity Commission has issued guidelines on affirmative action that clarify the situations in which Title VII of the Civil Rights Act of 1964 voluntary affirmative action programs may be adopted, and address how to develop a permissible voluntary affirmative action program. 29 CFR pt 1608.

© The Regents of the University of California

§4.12 C. Immigration Issues

The Immigration Reform and Control Act of 1986 (IRCA) (8 USC §§1101-1537) prohibits hiring anyone without the legal right to work in the United States. It also prohibits discriminating against applicants and employees based on their citizenship or national origin. 8 USC §§1324a-b.

PRACTICE TIP 1: Covered employees must complete §1 of an I-9 form (U.S. Department of Homeland Security, U.S. Citizenship and Immigration Services, download at http://www.uscis.gov/files/form/i-9.pdf) by the close of business on the first day of employment. They must be able to provide the required documents establishing identity and eligibility to work. The employer must examine the documents presented and determine they appear genuine on their face. The employer must then complete its portion of the I-9 form by the close of business on the employee's third day of employment service.

PRACTICE TIP 2: An employee who has applied for the documents must be able to provide the actual documents within 90 days after hire.

PRACTICE TIP 3: Employees who cannot or do not comply within the required time period must be terminated.

PRACTICE TIP 4: Employers must reverify the employment status of any employee who has a limited duration work authorization (as indicated by a government-issued work authorization with an expiration date, except for a lawful permanent resident or "green card" holder). The employer may have the employee complete a new I-9 form to establish continued eligibility to work before the expiration of the work authorization.

PRACTICE TIP 5: Non-citizens who satisfy the requirements of IRCA must be given the same opportunities as citizens.

PRACTICE TIP 6: The I-9 forms must be kept for all existing employees hired after November 6, 1986. In the case of former employees, employers shall keep the I-9 forms for 3 years after hire or 1 year after termination from employment, whichever is later. The original I-9 should be kept separately from the personnel file.

© The Regents of the University of California

§4.13 D. Testing Issues

Employers' use of tests and other measures or procedures to make hiring, promotion, retention, and similar employment decisions may constitute violations of the various federal and California laws prohibiting discrimination.

© The Regents of the University of California

§4.14 1. Uniform Guidelines on Employee Selection

Title VII expressly recognizes the usefulness of employment testing and approves of testing provided neither the tests themselves nor their administration results in unlawful discrimination. The Equal Employment Opportunity Commission has adopted Uniform Guidelines on Employee Selection Procedures. See 29 CFR §§1607.1-1607.18. The guidelines establish standards with which employers must comply to prove tests and other selection devices are not discriminatory.

© The Regents of the University of California

§4.15 2. Theories of Discrimination

The use of tests in employment decisions may lead to disparate impact or disparate treatment discrimination. The Civil Rights Act of 1991 specifically prohibits an employer from scoring employment-related tests on the basis of race, religion, sex, national origin, or color to ensure a minimum number of minorities are included in the relevant applicant pool. 42 USC §2000e-2(1) (Civil Rights Act of 1991, §106). An employer that disregards employment testing information that might have a disparate *impact* on particular groups, without strong evidence of such impact, may inadvertently create disparate *treatment* liability to other groups. *Ricci v DeStefano* (2009) ___ US ___, 174 L Ed 2d 490, 129 S Ct 2658. Even when the test is administered in a non-discriminatory manner, it may result in discrimination if it has a disproportionate impact that operates to exclude protected categories at a higher rate than other applicants. The employer must be able to demonstrate the test is a valid and reasonable measure of job performance, *i.e.,* it is job-related and justified by business necessity. *Griggs v Duke Power Co.* (1971) 401 US 424, 28 L Ed 2d 158, 91 S Ct 849. However, the employer concerned about disparate impact of a particular test must have a "strong basis in evidence" to believe it would be subject to disparate-impact liability before it may disregard test results in which one racial group outperformed others. *Ricci v DeStefano, supra*.

PRACTICE TIP: The use of non-professionally developed tests is dangerous because of the likelihood a court will find, in the absence of validation, that the test was not sufficiently job-related and it had a disparate impact on applicants in the protected class. Even the use of professionally developed tests should be avoided unless they are validated as required in the Uniform Guidelines on Employee Selection (see §4.14).

© The Regents of the University of California

3. Specific Types of Tests

§4.16 a. Polygraph Tests

The provisions of Lab C §432.2 exempt public employers from the general prohibition against requiring polygraph examinations as a condition of employment or continued employment. However, the California Supreme Court has determined that involuntary polygraphs intruded on the employees' privacy rights. It also stated the legislative classification that protected all private employees, as well as public safety officers under Govt C §3307, from involuntary polygraph testing, denied equal protection to the remaining public employees because the invasion of privacy rights was not sufficiently justified by a compelling state interest. *Long Beach City Employees Ass'n v City of Long Beach* (1986) 41 C3d 937, 227 CR 90.

NOTE: State and local employers are exempt from the Employee Polygraph Protection Act of 1988 (29 USC §2006).

© The Regents of the University of California

§4.17 b. Voice Tests

An employer may not use a test that examines or records voice prints or voice stress to determine the truth or falsity of a person's statements without obtaining that person's written consent in advance of the examination or recordation. Pen C §637.3.

© The Regents of the University of California

§4.18 c. Psychological Tests

Questions on a pre-employment psychological test may violate an applicant's right to privacy under the California Constitution if the questions are not job-related. However, under Govt C §1031, a peace officer's emotional and mental condition is to be evaluated by a licensed physician, surgeon, or licensed psychologist who has the specified levels of training and experience.

© The Regents of the University of California

§4.19 d. Drug Tests

An employer may lawfully refuse to hire an applicant who tests positive for illegal drugs if the employer can demonstrate a specific need to test for the particular position. The California Supreme Court has upheld the drug testing of job applicants for public employment if the program is (*Loder v City of Glendale* (1997) 14 C4th 846, 59 CR2d 696*,* cert denied *(*1997) 522 US 807):

- Administered in a reasonable fashion,
- Part of a lawful pre-employment medical examination, and
- Required of all job applicants.

The Ninth Circuit, however, has held that without a demonstrated "specialized need," applicants for certain non-"safety-sensitive" positions (such as a library page) could not be subjected to a pre-employment drug test without violating the Fourth Amendment to the U.S. Constitution. See *Lanier v City of Woodburn* (9th Cir 2008) 518 F3d 1147. For more on drug testing, see §§4.93-4.121.

© The Regents of the University of California

E. Other Restrictions on Hiring

§4.20 1. Americans with Disabilities Act

The Americans with Disabilities Act of 1990 (referred to hereinafter in this chapter as ADA) (42 USC §§12101-12213) affects the following aspects of the hiring process:

- qualification standards and other selection criteria,
- testing procedures for screening of job applicants, and
- pre-employment inquiries.

Qualification standards and other selection criteria must be job-related and consistent with business necessity. Pre-employment tests must only test skills and abilities necessary for the job and must measure what they purport to measure. The ADA also prohibits requiring medical examinations before an offer of employment; however, an offer of employment may be lawfully conditioned on the results of a medical examination.

© The Regents of the University of California

§4.21 2. California Fair Employment and Housing Act

The California Fair Employment and Housing Act (FEHA) (Govt C §§12900-12996) prohibits any non—job-related inquiry that expresses a limitation specification or discrimination as to physical disability, mental disability, or medical condition. FEHA prohibits an employer from:

- Requiring any medical or psychological examination of an applicant;
- Inquiring if an applicant has a mental or physical disability or a medical condition; or
- Inquiring about the nature and severity of a mental or physical disability or a medical condition of an applicant.

An employer may inquire into the ability of the applicant to perform job-related functions and may respond to an applicant's request for reasonable accommodation. Once an employment offer has been made, but before the start of job duties, an employer may require a medical or psychological examination that is job-related, consistent with business necessity, and administered to all entering employees in that same job classification.

© The Regents of the University of California

§4.22 3. Arrests

An employer is generally prohibited from seeking or using information about an arrest or detention that did not result in conviction. Lab C §432.7. Inquiries about referral to or participation in a pretrial or post trial diversion program are also precluded. However, Lab C §432.7 permits employers to ask an applicant or an employee about an arrest for which the individual is out on bail, or on his or her own recognizance, pending trial because it may bear on his or her availability to work. Further, candidates for peace officer positions are partially exempted. Health care facilities may ask applicants for positions with regular access to patients about arrests for violation of Pen C §290 (sex offenses) and applicants for positions with access to drugs may be asked about arrests for violation of Health & S C §11590 (duty of certain convicted persons to register with police). Cities, counties, and districts may seek criminal history information about a prospective concessionaire. Lab C §432.7.

PRACTICE TIP: Although the Labor Code permits certain questions about arrest information, it prohibits others. Thus, any questions about arrests may, depending on the situation and the response, raise problems. A better practice is to ask more general questions about the person's availability to work, rather than about arrests.

© The Regents of the University of California

§4.23 4. Criminal Record

An employer may not require applicants to provide a copy of their criminal records. Pen C §13326. Violation of §13326 is a misdemeanor. However, an employer may inquire into an applicant's criminal record by other means and use an applicant's criminal conviction as a basis for denying employment, as long as the conviction is related to the job and future job performance. See *Avant v South Central Bell Tel. Co.* (5th Cir 1983) 716 F2d 1083; *Green v Missouri Pac. R.R. Co.* (8th Cir 1975) 523 F2d 1290.

© The Regents of the University of California

§4.24 5. HIV Test Results

An employer may not use the results of a test for HIV in making a hiring decision. Health & S C §120980(f).

© The Regents of the University of California

§4.25 6. Special Rules for Employees Working With Children

A city cannot hire a person or a volunteer to perform services at a park, playground, recreational center, or beach used for recreational purposes, in a position having supervisory or disciplinary authority over any minor, if that person has been convicted of various offenses specified in Pub Res C §5164. A city must require each such prospective employee or volunteer to complete an application that inquires as to whether or not that individual has been convicted of any of these specified offenses. The city must screen, under Pen C §11105.3, any such prospective employee or volunteer for that person's criminal background. Pub Res C §5164.

PRACTICE TIP: Background checks of minors who supervise other minors should be sufficiently thorough to uncover traits or information that cannot be revealed through the criminal screening process.

© The Regents of the University of California

§4.26 7. Department of Motor Vehicles Records

Under Veh C §1808.1, some employers must request a copy of the employee/driver's current public record from the Department of Motor Vehicles (DMV); such employers may not employ as a driver anyone against whom the DMV has taken a disqualifying action. DMV records, including abstracts of accident reports, are maintained in Sacramento and are open for public inspection during the DMV's office hours.

© The Regents of the University of California

F. Compensation and Benefits

1. Compensation Plans

§4.27 a. Establishment

Most cities establish one or more compensation plans, depending on the size of the city and the number of different employee groups. Compensation may be reflected in statutes, charters, ordinances, and resolutions, as well as through negotiated collective bargaining agreements.

In general law cities, the city council prescribes the time and method of payments of salaries and other wages. Govt C §37206. The California Constitution grants plenary authority to charter cities to provide for compensation of officers and employees. Cal Const art XI, §5(b).

© The Regents of the University of California

§4.28 b. Amount

The legislative body may establish the amount of compensation. It cannot fix the amount so low that no one will be willing to take the job. *DeMerritt v Weldon* (1908) 154 C 545, 98 P 671. A court cannot alter the amount, absent fraud or bad faith by the legislative body. *City & County of San Francisco v Boyd* (1943) 22 C2d 685, 140 P2d 666.

NOTE: Many compensation plans are spelled out in collective bargaining agreements, adopted as a result of the Meyers-Milias-Brown Act (Govt C §§3500-3511). See §§4.320-4.349.

© The Regents of the University of California

§4.29 c. Constitutional Prohibition

A city cannot grant extra compensation or extra allowance after service has been rendered. Cal Const art XI, §10(a). This prohibition does not eliminate the possibility of a retroactive pay increase, however. *Gai v City Council* (1976) 63 CA3d 381, 133 CR 753.

© The Regents of the University of California

§4.30 2. Benefit Plans

Benefits, such as paid leave time and insurance, are often linked with compensation. Under the general law, a city may adopt a system of health and welfare benefits. Govt C §§53200-53210. Deferred compensation plans are specifically authorized. Govt C §§53212-53214.5. The Meyers-Milias-Brown Act (Govt C §§3500-3511) requires a public employer to meet and confer over changes in benefits as well as wages. *San Bernardino Pub. Employees Ass'n v City of Fontana* (1998) 67 CA4th 1215, 79 CR2d 634 (annual leave and longevity pay benefits trigger collective bargaining process.)

© The Regents of the University of California

§4.31 3. Employee Recognition Plans

Employee recognition plans have become increasingly popular. There does not appear to be any specific law addressing the legal parameters of such programs. The Attorney General has concluded service awards of emblems based on the logo of the governmental entity are a valid means of longevity recognition. 5 Ops Cal Atty Gen 81 (1945). A pay-for-performance plan designed to recruit and retain the most competent employees is in the agency's self-interest and also is permissible. See *San Joaquin County Employees' Ass'n, Inc. v County of San Joaquin* (1974) 39 CA3d 83, 113 CR 912. Depending on the plan, there may be taxation consequences to the employee.

© The Regents of the University of California

4. Pension and Retirement Systems

§4.32 a. Purpose

Pension programs for public employees serve two objectives: to induce persons to enter and continue in public service and to provide subsistence for disabled or retired employees (or their dependents) who have performed their obligations under the employment contract.

A retirement system provided by a public agency for its employees enables the government to secure better-qualified personnel and encourages the employees to continue in government service. Govt C §20001; *Knight v Board of Admin.* (1948) 32 C2d 400, 196 P2d 547.

© The Regents of the University of California

§4.33 b. Validity

The provisions of Cal Const art XVI, §6 prohibit gifts of public funds, but a pension paid to persons who perform services subsequent to the passage of the law granting the pension is not a gift. When a right to a pension exists, an increase in benefits is not a gift. *Holtzendorff v Housing Auth. of City of Los Angeles* (1967) 250 CA2d 596, 58 CR 886, cert denied (1967) 389 US 1038.

© The Regents of the University of California

§4.34 c. Legislation

California law provides for several retirement systems, including the Public Employees' Retirement System (Govt C §§20000-21703). Legislation authorizing a local agency or subdivision of the state to establish a pension fund may be in the form of an enabling act or it may actually establish a pension system in the local agency. A pension system is a municipal affair within state constitutional home rule provisions. Cal Const art XI, §§3-5. Consequently, when the subject of employee pensions is covered by the provisions of a charter, the rights of a claimant are governed solely by the charter. Absent an applicable charter provision, the general law controls. *Estes v Richmond* (1967) 249 CA2d 538, 57 CR 536.

NOTE: Pension legislation is construed liberally in favor of the employee or applicant to effectuate the beneficial purpose of the law. *Gorman v Cranston* (1966) 64 C2d 441, 50 CR 533.

© The Regents of the University of California

§4.35 d. Employee Rights

Pensions and other retirement benefits for public employees are deferred compensation to which the pensioner becomes entitled on fulfillment of the terms of his or her contract. *Sweesy v Los Angeles County Peace Officers' Retirement Bd.* (1941) 17 C2d 356, 110 P2d 37. Cases finding contractual obligations regarding public pensions base their findings on explicit language in statutes or legislative enactments. *Retired Employees Ass'n v County of Orange* (CD Cal 2009) 632 F Supp 2d 983, 987 (past practices of coverage do not confer contractual right absent explicit language in statutes or legislative enactments). Absent express legislative direction, when a public employee becomes entitled to a pension after serving the aggregate time required by the statute, subsequent removal from employment cannot operate to forfeit the employee's previously earned pension unless the employee specifically renounces the pension right or some other provision necessarily excludes him or her. *Skaggs v Los Angeles* (1954) 43 C2d 497, 275 P2d 9. See also *Smith v City of Napa* (2004) 120 CA4th 194, 14 CR3d 908.

Public employees are frequently given the election of several alternative modes of receiving pension payment. The mode chosen affects such things as the amount or frequency of individual payments. See*, e.g.,* Govt C §§21450-21465.

© The Regents of the University of California

§4.36 e. Amendments

An attempted repeal of all pension provisions by a public body is an impairment of its contractual obligations to its employees who have performed services under the pension law and who have a vested right therein. *Kern v Long Beach* (1947) 29 C2d 848, 179 P2d 799. Because the right to a pension is not rigidly fixed by the specific terms of legislation in effect during any particular period in which an employee serves, certain types of amendments enacted after employees have earned some pension rights, but before retirement, have been upheld by the courts. *Packer v Board of Retirement* (1950) 35 C2d 212, 217 P2d 660.

© The Regents of the University of California

§4.37 f. Persons Entitled to Benefits

Determining the persons entitled to participate in a pension plan depends on the statute or charter granting the pension. The rule that pension laws are liberally construed to carry out their beneficent policy may be applied in construing language that specifies which employees must be included within the pension statutes. *Adams v Modesto* (1960) 53 C2d 833, 3 CR 561.

© The Regents of the University of California

§4.38 (1) On Death

When the power to designate a beneficiary is given in a retirement law, the designated beneficiary is entitled to any death benefit that becomes payable under such law unless otherwise provided by statute (*e.g.,* surviving spouse of deceased employee is entitled to death benefits over designated beneficiary). *Lee v Board of Admin.* (1982) 130 CA3d 122, 129, 181 CR 754.

© The Regents of the University of California

§4.39 (2) On Disability

The right to receive a pension may accrue on disability arising as a result of service or, under some systems, on incapacity resulting from any cause. The right ceases on termination of the disability. *Hermanson v Board of Pension Comm'rs* (1933) 219 C 622, 28 P2d 21. The manner and time within which a member of a retirement system must file for retirement for physical or mental disability is regulated in the various pension laws. Govt C §§21154-21176 (public employees retirement system). Subrogation of the employing body for the amount of payments made to the member of the retirement system is frequently provided for when the injury that results in incapacity or death is due to the act of a third person. Govt C §§20250-20255.

PRACTICE TIP: Pay special attention to disability retirement claims for safety employees (generally police and fire), particularly under the Public Employees' Retirement System (PERS). The determination of eligibility for safety employees has been delegated to the local agency. Govt C §§21156-21158. The local agency must make the required determinations and provide the necessary due process procedures. Appeal hearings must be conducted by an administrative law judge (ALJ) of the Office of Administrative Hearings under Govt C §§11500-11529. *Usher v County of Monterey* (1998) 65 CA4th 210, 76 CR2d 274; Govt C §21156. The ALJ's decision is advisory to the local agency.

The agency should be cognizant of "incapacity" requirements for disability retirement (*Mansperger v Public Employees' Retirement Sys.* (1970) 6 CA3d 873, 86 CR 450) and the ability to utilize "light" duty positions that meet specific criteria in lieu of a PERS disability retirement (*Stuessel v City of Glendale* (1983) 141 CA3d 1047, 190 CR 773). The law encourages employment rather than retirement; thus, light or modified duty positions are favored. See *Stuessel v City of Glendale, supra*; *Winslow v City of Pasadena* (1983) 34 C3d 66, 192 CR 629; *Barber v Retirement Bd. of the City & County of San Francisco* (1971) 18 CA3d 273, 95 CR 657. A city may revoke an employee's disability retirement to place him or her in a newly-created light duty position that meets specified criteria and involves no change in city policy. See *Winslow v City of Pasadena, supra*.

For purposes of an industrial disability retirement, disputes over whether an injury or disability is "industrial" (*i.e.,* job-related) are resolved by the Workers' Compensation Appeals Board. Govt C §21166. However, the workers' compensation decision is not determinative on the issue of whether the employee is "permanently incapacitated" and thus eligible for disability retirement. *Winn v Board of Pension Comm'rs* (1983) 149 CA3d 532, 197 CR 111. Workers' compensation determinations on percentage of permanent disability are not decisive on the issue of incapacity in the retirement proceeding. The former should not be allowed as conclusive evidence with regard to the adjudication of "incapacity" in the retirement proceeding. *Winn v Board of Pension Comm'rs, supra*; *Reynolds v City of San Carlos* (1981) 126 CA3d 208, 178 CR 636; *Summerford v Board of Retirement* (1977) 72 CA3d 128, 139 CR 814.

PRACTICE TIP: Some safety employee retirement applicants argue that the workers' compensation award affects the city's independent adjudication of whether the employee is incapacitated from the performance of his or her duties (including light or modified duty). However, the only retirement issue determined by workers' compensation is whether or not the employee injury is industrial (*i.e.,* job-related).

© The Regents of the University of California

§4.40 g. Beneficiary Remedies

The administration of a retirement system is usually placed in the hands of a retirement board, with power to make necessary rules for the administration of the system. Govt C §§20090-20099 (Board of Administration of Public Employees' Retirement System). The retirement board's holding of hearings is governed by statute; the usual practice is to permit applicants to appear either in person or by counsel to present evidence.

A person with a vested right to a pension if the facts are as he or she claims also has the right to have his or her claim as to the facts judicially determined. *French v Cook* (1916) 173 C 126, 160 P 411. Mandamus is the proper proceeding to compel a public body to pay a pension, or to compel a pension board to act on a pension claim when it fails, neglects, or refuses to do so. If the order or decision substantially affects a fundamental vested right, the trial court must exercise its independent judgment on the evidence and find an abuse of discretion if the findings are not supported by the weight of the evidence. *Strumsky v San Diego County Employees Retirement Ass'n* (1974) 11 C3d 28, 112 CR 805.

© The Regents of the University of California

§4.41 G. Reductions in Force for Financial Reasons (Layoffs)

Employees who become subject to reductions in force (RIF) for financial reasons, commonly referred to as layoffs, may be entitled to certain protections described in state law or contained in an applicable collective bargaining agreement. Traditionally, laid off employees were not entitled to the same notice and due process protections afforded to employees discharged for cause. However, when the layoff affects a single position, the Ninth Circuit has held that at least a pre-termination hearing is required in circumstances in which an employee is "targeted" for layoff. See *Levine v City of Alameda* (9th Cir 2008) 525 F3d 903.

The Meyers-Milias-Brown Act (Govt C §§3500-3511) does not contain any specific reference to the issue of layoffs. However, any city that has adopted an ordinance establishing a personnel system, merit system, or civil service system must do layoffs in a seniority order in the event of a reduction in personnel for economic reasons. Govt C §45100. The Act does not require public employers to meet and confer with employee organizations on the decision to lay off because it is considered a policy matter about levels of service, but the impact of any layoff on the terms and conditions of employment must be negotiated. *Fire Fighters Union v City of Vallejo* (1974) 12 C3d 608, 116 CR 507.

© The Regents of the University of California

§4.42 III. FEDERAL FAIR LABOR STANDARDS ACT (FSLA)

The Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219) is the federal statute that mandates minimum wages, overtime pay, equal pay, recordkeeping, and child labor standards for employees covered by and not exempt from the statute. The FLSA may be enforced by individuals filing a private right of action and by the United States Department of Labor (DOL). The DOL has promulgated regulations addressing various wage and hour issues, beginning at 29 CFR pt 516. The regulations most often referred to by municipal lawyers, managers, and employees are:

- 29 CFR pt 541 (Defining the terms "Executive," "Administrative," "Professional," and "Computer Employees" for purposes of overtime exemptions);
- 29 CFR pt 778 (Interpretive Bulletin on Overtime Compensation);
- 29 CFR pt 785 (Interpretive Bulletin on Hours Worked Under the Fair Labor Standards Act); and
- 29 CFR pt 553 (Application of the Fair Labor Standards Act to Employees of State and Local Governments).

NOTE: The FLSA does not preempt nor "excuse noncompliance" with any California statutes or municipal ordinances that are more protective. 29 USC §218(a). However, unless the California Labor Code's wage and hour provisions are specifically made applicable to public employers, they apply only to employers in the private sector. *Johnson v Arvin-Edison Water Storage Dist.* (2009) 174 CA4th 729, 95 CR3d 53.

For material on the FLSA, see the DOL Opinion Letters and Rulings, Fair Labor Standards Handbook for States, Local Governments and Schools (Thompson Publishing Group, 1725 K Street N.W., Suite 280, Washington D.C., 20086, telephone (800) 424-2959).

© The Regents of the University of California

§4.43 A. Public Entity Coverage Under FLSA

The Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219) defines the term "employer" broadly to include public agencies. 29 USC §203(d). It defines "public agency" to be "the government of a State or political subdivision thereof; any agency of … a State, or a political subdivision of a State." 29 USC §203(x).

NOTE: The Eleventh Amendment doctrine of sovereign immunity bars suit against states and arms of the state by private individuals (but not by the federal government) under the FLSA. *Alden v Maine* (1999) 527 US 706, 754, 144 L Ed 2d 636, 119 S Ct 2240. However, sovereign immunity does not extend to municipalities, which are not arms of the state. 527 US at 756.

To be subject to the FLSA there must be an employment relationship. In the context of public agencies, the FLSA defines "employee" as (29 USC §203(e)(2)(C))

> any individual employed by a State, a political subdivision of a State … , other than [an employee]:
> (i) who is *not* subject to the civil service laws of the State, political subdivision, or agency which employs him; *and*
> (ii) who
> (I) holds a public elective office of that State, political subdivision, or agency;
> (II) is selected by the holder of such an office to be a member of his personal staff;
> (III) is appointed by such an office holder to serve on a policy making level;
> (IV) is an immediate advisor to such an office holder with respect to the constitutional or legal powers of his office; *or*
> (V) is an employee in the legislative branch of that State, political subdivision, or agency and is not employed by the legislative library of such State, political subdivision, or agency." [Emphasis added.]

© The Regents of the University of California

§4.44 B. Exclusions From FLSA Coverage

The following persons are not covered by the Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219):

- Elected officials not subject to civil service laws, *e.g.,* elected mayors, council members, and sheriffs (29 CFR §553.11(c));
- Elected officials' personal staff not subject to civil service laws, generally only including persons who are under the direct supervision of the selecting elected official (29 CFR §553.11(b)-(c));
- Elected officials' immediate advisors not covered by civil service laws, *e.g.,* a city attorney (29 CFR §553.11(d)); and
- Employees not subject to civil service laws working in a legislative branch agency. This exclusion does not apply to employees of state or local legislative libraries, or employees of school boards (meaning that such individuals are covered by the FLSA). 29 CFR §553.12.

NOTE: There are other persons who are covered by the FLSA but exempt from particular provisions of the FLSA. See §§4.48-4.57.

© The Regents of the University of California

§4.45 1. Volunteers

Non-employee volunteers are not covered by the Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219). 29 CFR §§553.101, 553.104(a). A non-employee volunteer is a person not otherwise an employee of the agency who donates hours of service to the agency for civic, charitable or humanitarian reasons, without promise, expectation, or receipt of compensation for services rendered, except for reimbursement for expenses, reasonable benefits, and nominal fees, or a combination thereof. 29 USC §203(e)(4). Common examples are volunteer firefighters, auxiliary police, or youth program counselors.

An individual is not a volunteer if the person is otherwise employed by the same public agency to perform the same type of services as those for which the individual proposes to volunteer. 29 USC §203(e)(4). See 29 CFR §§553.101(d), 553.102(b). For example, the Department of Labor (DOL) has ruled that a jailer cannot volunteer as a reserve deputy sheriff (Department of Labor Wage & Hour Administrative Letter Ruling (February 18, 1992)); a field evidence technician cannot volunteer as a reserve police officer (Department of Labor Wage & Hour Administrative Letter Ruling (September 26, 1991)); and community service officers cannot volunteer as reserve police officers (Department of Labor Wage & Hour Administrative Letter Ruling (April 10, 1990)). The DOL has, however, determined that an agency can employ its volunteer reserve deputies to provide the same type of services for which they volunteer (to work as security guards) on an "occasional and sporadic" basis without loss of the deputies' volunteer status. Department of Labor Opinion Letter, FLSA 2005-32 (September 9, 2005). The hours that public employees volunteer to work will not be considered compensable if the criteria listed in 29 CFR §§553.101-553.104 are satisfied. See also Department of Labor Wage & Hour Opinion Letter (August 12, 1974) (for additional criteria).

NOTE: Employees may receive a nominal stipend for volunteer services without losing their volunteer status. 29 CFR §553.106. See Department of Labor Wage & Hour Administrative Letter Ruling (July 11, 1995). The DOL has concluded that a stipend of no more than 20 percent of what the agency would have paid a full-time employee for the services provided by the volunteer is a permissible "nominal fee." Department of Labor Opinion Letter, FLSA 2005-51 (November 10, 2005). On payment of permissible nominal fees to volunteers, see Department of Labor Wage & Hour Administrative Letter Ruling (August 6, 1999).

© The Regents of the University of California

§4.46 2. Independent Contractors

Independent contractors are not considered "employees" and therefore are not covered by the FLSA. Mere labeling of someone as an independent contractor, however, is not sufficient to exempt them from the FLSA. In determining whether an individual qualifies as an independent contractor or as an employee, the courts apply the IRS twenty-factor test, the economic reality test, or the common law right-to-control test in determining independent contractor status. See*, e.g., Metropolitan Water Dist. v Superior Court* (2004) 32 C4th 491, 9 CR3d 857; *Holmgren v County of Los Angeles* (2008) 159 CA4th 593, 71 CR3d 611. See also *Eastern Inv. Corp. v U.S.* (10th Cir 1995) 49 F3d 651 (applying Rev Rul 87-41); *Doty v Elias dba Eddy's Steakhouse* (10th Cir 1984) 733 F2d 720.

© The Regents of the University of California

§4.47 3. Trainees

It is important to distinguish "trainees" from employees who are receiving training. See 29 CFR §§785.27-785.32; Department of Labor Wage & Hour Opinion Letter (January 6, 1969). The former are excluded from coverage and the latter are covered by the Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219).

To determine whether a trainee should be excluded, the following criteria must be met:

- The training, even though it includes actual operation of the facilities of the employer, is similar to that which would be given in a vocational school;
- The training is for the benefit of the trainees;
- The trainees do not displace regular employees, but work under close observation;
- The employer that provides the training derives no immediate advantage from the activities of the trainees, and on occasion employer operation may be impeded;
- The trainees are not necessarily entitled to a job at the conclusion of the training period; and
- The employer and the trainees understand that the trainees are not entitled to wages for the time spent training.

© The Regents of the University of California

§4.48 C. Exemptions From FLSA Coverage

There are several types of employees who are exempt from the overtime pay and/or minimum wage provisions of the Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219). See §§4.49-4.56.

© The Regents of the University of California

§4.49 1. Exemption for White-Collar Employees

The Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219) provides exemptions for "executive," "administrative," and "professional" employees. To qualify for these exemptions, the employee must satisfy both the "salary basis" and "duties" tests (although some professions, such as teachers and licensed and practicing doctors and attorneys, need not satisfy the salary basis test to qualify for an exemption).

© The Regents of the University of California

§4.50 a. Salary Basis Test

Generally, to satisfy the salary basis test, the employee must receive each pay period (on a weekly or less frequent basis) a predetermined amount constituting all or part of the compensation; the amount received may not be subject to reduction due to the quantity or quality of work performed. 29 CFR §541.602(a). Note, however, that the payment of overtime to exempt employees does not defeat their exempt status. *Boykin v Boeing Co.* (9th Cir 1997) 128 F3d 1279.

NOTE: Under a regulation published by the Department of Labor on September 6, 1991, a public employee subject to deductions from his or her salary and/or leave accounts for absences of less than 1 day may still meet the requirements of the salary test. A regulation specifically applicable to public agencies generally allows partial day deductions from public employees' salaries under specified circumstances, such as when accrued leave has been exhausted. 29 CFR §541.710(a). This regulation was enacted in response to hundreds of lawsuits filed throughout the United States challenging the exempt status of public employees who were subject to such deductions. The regulation was predicated on principles of public accountability. Thus, once an exempt employee has exhausted all accrued leave, public agencies can deduct from salary to account for partial day absences without defeating exempt status. 29 CFR §541.710(a).

© The Regents of the University of California

§4.51 (1) Suspension of Exempt Employees

A public employer may suspend exempt employees without pay on a daily basis if: (1) the discipline is for a violation of a workplace conduct rule; (2) discipline is imposed in good faith; and (3) the disciplinary suspension is imposed under a written policy that is applicable to all employees. 29 CFR §541.602(b)(5).

Employers may not, however, deduct from the salary of exempt employees for performance or attendance issues that do not rise to the level of a suspension. Department of Labor Opinion Letter, FLSA 2006-7 (March 10, 2006).

© The Regents of the University of California

§4.52 (2) Furloughs

Deductions from pay for absences due to a budget-required furlough destroy a public employee's exempt status during the workweek that includes the furlough. 29 CFR §541.710(b).

© The Regents of the University of California

§4.53 (3) Improper Deductions From Exempt Employee's Salary

Under the former regulations, an employer who made improper deductions from an exempt employee's salary lost the ability to classify all employees in that category as "exempt." The current regulations change the effect of making improper deductions. "Improper deductions that are either isolated or inadvertent will not result in loss of the exemption for any employees subject to such improper deductions, if the employer reimburses the employee for such improper deductions." 29 CFR §541.603(c). Consequently, if the employer improperly deducts time from an exempt employee's salary, the employer will not lose the exemption if the reduction was isolated, was not intentional, and is corrected. An employer who has an "actual practice of making improper deductions" will lose the exemption. However, the employer's exempt employees will only be deemed nonexempt for the "time period in which the improper deductions were made." 29 CFR §541.603(b). Moreover, only employees in the same job classification as the employee from whom improper deductions were made and who work for the manager(s) responsible for the improper deductions will lose their exempt status. 29 CFR §541.603(b).

NOTE: If an employer makes an improper deduction from an exempt employee's salary, a "safe harbor" may be invoked to ensure that the exempt status is not lost. Employers who have a "clearly communicated policy" prohibiting improper pay deductions, including a complaint mechanism, a reimbursement provision, and a good faith commitment to comply with the law, will not lose an exemption if erroneous deductions are made but they cease making them on receipt of an employee complaint. 29 CFR §541.603(d).

© The Regents of the University of California

§4.54 b. Duties Test

An employee qualifies for exemption under the duties test if his or her job duties meet the criteria for an "executive," "administrative," or "professional" employee. See 29 CFR §§541.2-541.3, 541.100-541.106, 541.200-541.203, 541.300-541.304.

© The Regents of the University of California

§4.55 2. Exemption for Work in a Different Capacity

When a public employee, solely at his or her option, works occasionally or sporadically on a part-time basis for the same public agency in a different capacity from the employee's regular employment, the hours in the different jobs cannot be combined to determine overtime liability. 29 CFR §553.30.

For purposes of this exemption, "occasional or sporadic" means infrequent, irregular, or occurring in scattered instances (see Department of Labor Wage & Hour Administrative Letter Ruling (October 1, 1987)), and "different capacity" means the jobs must not fall within the same general occupational category.

NOTE: Public safety employees taking on any kind of security or safety function within the same local government are never considered to be employed in a "different capacity." 29 CFR §553.30(c)(3).

© The Regents of the University of California

§4.56 3. Other Exemptions

The following are exempt from the overtime provisions of the Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219) (provided they meet certain minimum requirements set out in the applicable regulations):

- Outside salespersons (see 29 CFR §§541.500-541.504).
- Computer system analysts and programmers (see 29 CFR §§541.400-541.402).
- Seasonal recreational employees (see 29 USC §213(a)(3); Department of Labor Wage & Hour Letter Ruling (May 12, 1986); Department of Labor Wage & Hour Opinion Letter WH 388 (August 10, 1976)).
- Highly compensated employees (see 29 CFR §541.601).

NOTE: In 2004, the FLSA was amended to create a new overtime exemption for the "highly compensated" employee. To qualify, the employee must: (1) perform office or non-manual work; (2) be paid a total annual compensation of at least $100,000, of which at least $455 per week must be paid on a salary or fee basis; and (3) customarily and regularly perform any one or more of the exempt duties or responsibilities of an executive, administrative, or professional employee.

© The Regents of the University of California

§4.57 4. Exclusion for "First Responders"

The overtime exemptions do not apply, however, to certain "first responders," such as police officers, detectives, deputy sheriffs, firefighters, and paramedics who perform work like preventing fires, rescuing victims, preventing crimes, apprehending suspects, or preparing investigative reports (29 CFR §541.3(b)(1)).

© The Regents of the University of California

D. FLSA Requirements

§4.58 1. Minimum Wage Requirements

Employers must pay nonexempt employees not less than the statutory minimum wage for all hours worked and overtime for all hours worked in excess of the statutory maximum. California has its own minimum wage that is higher than that established by the Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219). See §4.67.

© The Regents of the University of California

§4.59 a. To Suffer or Permit to Work

It is critical to determine when an employee of the agency is "working" for purposes of the Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219). 29 USC §206(a)(1). The FLSA defines employment as any time that an employee is "suffered or permitted" to work by the employer. 29 USC §203(g). See §§4.60-4.66 for special categories of time worked.

© The Regents of the University of California

§4.60 (1) "On-Call" or "Standby" Time

Whether "on-call" or "standby" time is compensable depends on whether the employee can engage in personal pursuits while on call. Generally, the determination of this issue requires an analysis of several factors relating to the restrictions placed on the employee, the two most predominant factors of which are (*Berry v County of Sonoma* (9th Cir 1994) 30 F3d 1174, cert denied (1995) 513 US 1150):

- The degree to which the employee is free to engage in personal activities; and
- Any agreements between the parties.

If on-call time is compensable, the employee must be paid at least minimum wage for all hours spent on call. Employers can, however, agree to a special rate for on-call time, provided it meets or exceeds minimum wage.

© The Regents of the University of California

§4.61 (2) Rest and Meal Periods

Rest periods of short duration must be compensated and counted toward hours worked. 29 CFR §785.18. Meal periods, in contrast, can generally be excluded from hours worked as long as the employee is completely freed of duty during the meal period. 29 CFR §785.19. See 29 CFR §§785.18-785.19; 29 CFR §553.223 (for law enforcement and fire protection officers).

The Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219) provides the exclusive remedy for meal and rest period violations alleged by local public agency employees. *Curcini v County of Alameda* (2008) 164 CA4th 629, 79 CR3d 383.

© The Regents of the University of California

§4.62 (3) Travel Time

Ordinary home-to-work travel time is not compensable even if the employee reports to work at a location away from the employer's premises. 29 CFR §553.221(e); *Imada v City of Hercules* (9th Cir 1998) 138 F3d 1294. See 29 CFR §§785.33-785.41. Overnight travel on public transportation is not compensable unless the travel time occurs during an employee's normal working hours or during the same hours on non-working days. 138 F3d at 1297. If the employee drives to the location, overnight travel is compensable. 29 CFR §785.39.

© The Regents of the University of California

§4.63 (4) Waiting and Sleeping Time

Whether waiting time is considered time worked under the Fair Labor Standards Act of 1938 (FLSA) is determined on a case-by-case basis. See 29 CFR §§785.14-785.17. See also *Boehm v Kansas City Power & Light Co.* (10th Cir 1989) 868 F2d 1182.

Generally, the compensability of sleep time turns on whether the employee is required to be on duty for 24 hours or more. See 29 CFR §§785.20-785.23; 29 CFR §553.222 (for law enforcement and fire protection employees).

© The Regents of the University of California

§4.64 (5) Employees Residing on Employer's Premises

An employee who resides on his or her employer's premises on a permanent basis or for extended periods of time is not considered to be working all the time he or she is on the premises. 29 CFR §785.23. To determine hours worked in that situation, the employer will need to analyze the type of duties performed and the degree to which the employee is free to engage in personal pursuits. See 29 CFR §785.23.

© The Regents of the University of California

§4.65 (6) Miscellaneous Instances Giving Rise to Compensable Time

Employee time spent on the following must be compensated:

- Adjusting grievances (see 29 CFR §785.42).
- Work performed at home (see 29 CFR §785.12).
- Medical attention (see 29 CFR §785.43).
- Civic and charitable work (see 29 CFR §785.44).
- Attendance at lectures, meetings, and training (see 29 CFR §§785.27-785.32; 29 CFR §553.226 (for law enforcement and fire protection employees) (Department of Labor Wage & Hour Opinion Letter WH 504 (October 23, 1980)).
- Donning and doffing protective equipment (see *IBP, Inc. v Alvarez* (2005) 546 US 21, 163 L Ed 2d 288, 126 S Ct 514 (when donning and doffing start and end the work day, those activities are compensable in some circumstances; however, activities outside time between donning and doffing specialized protective gear, such as the employee's wait to receive the protective gear, are not compensable)).

NOTE: Whether the *IBP* case applies to donning and doffing the types of protective equipment worn by public employees in California (for example, fire and police employees) is currently an open question.

- Mandatory counseling sessions (see *Sehie v City of Aurora* (7th Cir 2005) 432 F3d 749 (employee is entitled to compensation for time spent seeing therapist chosen by employer when counseling sessions are required by employer as condition of continued employment, as well as travel time to and from counseling sessions in certain circumstances)).
- Care, feeding, and grooming for police canines (see *Brock v City of Cincinnati* (6th Cir 2001) 236 F3d 793, 804).

NOTE: Agencies may enter into agreements with canine officers, through their authorized representative, on a reasonable estimate as to the amount of off-duty hours they spend related to the care of their canine. *Leever v City of Carson* (9th Cir 2004) 360 F3d 1014. The agreement may also specify that canine hours are worked at a different rate than the officer's normal hourly rate. Department of Labor Wage & Hour Administrative Letter Ruling (August 11, 1993).

© The Regents of the University of California

§4.66 (7) Miscellaneous Instances Not Giving Rise to Compensable Time

Under the Portal-to-Portal Act, employers are not required to compensate employees for time spent: "(1) walking, riding, or traveling to and from the actual place of performance of the principal activity or activities which such employee is employed to perform, and (2) activities which are preliminary or postliminary to said principal activity or activities." See 29 USC §254(a); 29 CFR §785.9.

Although time spent providing off-duty care, feeding, and grooming for police canines is compensable (see §4.65), the travel time spent transporting dogs is not compensable unless the care for the dogs during the travel is more than de minimis. *Bobo v U.S.* (1998) 136 F3d 1465.

© The Regents of the University of California

§4.67 b. State Minimum Wage Requirements

Most public employers in California are subject to state minimum wage requirements. Lab C §1182.12; 8 Cal Code Regs §11040(1), (4)(A). But see *Dimon v County of Los Angeles* (2008) 166 CA4th 1276, 83 CR3d 576 (wage and hour statutes and Industrial Welfare Commission (IWC) Wage Orders do not abrogate wage-setting authority of charter counties (or, as noted in *dicta,* charter cites)).

The state minimum wage is $8.00 per hour. Lab C §1182.12. Some local jurisdictions have enacted their own minimum wage requirements that may exceed the state minimum. See*, e.g.,* San Francisco Minimum Wage Ordinance (adopting $9.79 minimum wage).

PRACTICE TIP: State and local minimum wage requirements change fairly frequently, so it is wise to check regularly for updates.

© The Regents of the University of California

§4.68 c. Payment of Wages and Deductions for Employee Debts

Even when otherwise authorized by judgment and garnishment or by agreement with affected employees, employers cannot deduct debts owed by employees from their final paychecks if doing so would

- result in the employee receiving less than minimum wage for all hours worked, and
- effectuate an improper set-off.

See *City of Oakland v Hassey* (2008) 163 CA4th 1477, 78 CR3d 621.

© The Regents of the University of California

§4.69 2. Overtime Pay Requirements

The Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219) requires overtime be paid for work over specified maximum hours within a designated work period. As a general rule, the FLSA requires that non-public safety employees be paid overtime for hours worked in excess of 40 in one workweek. The FLSA does not place a limit (other than for children) on the number of hours an employee may work in a day or week, nor, generally, does the FLSA require an employee be paid overtime compensation for hours worked in excess of 8 per day, or for work on Saturdays, Sundays, or holidays. 29 CFR §778.102.

NOTE: Cities are exempt from California's 8-hour workday rule. California Industrial Welfare Commission Wage Orders 1-2002, 2-2001—13-2001, 16-2001, 17-2001.

Whether overtime must be paid depends on the number of hours an employee works within one workweek. The overtime rate is calculated as not less than one and one-half times the employee's "regular rate of pay," which is expressed as an hourly rate. 29 USC §207(a)(1). See §4.71. A partial exemption to the overtime provisions applies to certain public safety employees. 29 USC §207(k). See §§4.72-4.75.

© The Regents of the University of California

§4.70 a. Workweek

For the purposes of calculating overtime pay, a "workweek" is a fixed and regularly recurring period of 168 hours in any seven consecutive 24-hour periods, starting with the same day each week. 29 CFR §778.105. The workweek need not coincide with the calendar week, and it may begin on any day and at any hour of the day. 29 CFR §778.105. Distinct departments in an agency may have different workweeks, and so may individual employees or groups of employees. 29 CFR §778.105.

Once the beginning time of an employee's workweek is established, it remains fixed regardless of the schedule of hours worked by the employee. The beginning of the workweek may be changed if the change is intended to be permanent and is not designed to evade the FLSA's overtime requirement. On the proper method of computing overtime pay in a period in which there is a change in the time of commencement of the workweek, see 29 CFR §§778.301-778.302.

Each workweek stands alone. The FLSA does not permit averaging of hours over two or more workweeks. 29 CFR §§778.103-778.104. Overtime compensation need not be paid weekly. The general rule is that overtime compensation earned in a particular workweek should be paid on the regular payday for the period in which such workweek ends. 29 CFR §778.106. See *Biggs v Wilson* (9th Cir 1993) 1 F3d 1537.

© The Regents of the University of California

§4.71 b. "Regular Rate" of Pay

The regular rate of pay is calculated as an hourly rate of pay. It is generally determined by dividing the employee's total remuneration (except statutory exclusions) in any workweek by the number of hours actually worked in that workweek. 29 CFR §778.109.

Certain compensation paid to nonexempt employees may be excluded from the calculation of regular rate, such as payments for time not worked (*e.g.,* minimum callback time), or payments for daily overtime under a memorandum of understanding. See 29 USC §207(e); 29 CFR §§778.200-778.224.

Compensation includable in the calculation of the regular rate includes, but is not limited to, the following:

- Commissions and non-discretionary bonuses (29 CFR §§778.200(c), 778.208, 778.303);
- On-call pay (29 CFR §778.200(c));
- Shift differentials (29 CFR §778.200(c));
- Retroactive pay increases (29 CFR §778.303); and
- Education and other incentive pay, special assignment pay, bilingual pay, hazard pay, and longevity pay.

For additional regulations on regular rate, see 29 CFR §§548.2-548.3, 553.30, 778.110, 778.113-778.115, 778.402-778.414, 778.419.

© The Regents of the University of California

§4.72 c. Police and Firefighter Partial Exemption

Because of their 24-hours-a-day, 7-days-a-week service to the public, a public agency may select a "work period" that is at least 7 consecutive days and not more than 28 consecutive days, for employees engaged in fire protection or law enforcement activities. 29 USC §207(k). If such a work period is selected, overtime must be paid based on work in excess of the maximum hours provided by the regulations. See 29 CFR §553.230. The public agency must affirmatively state it is subject to the 7(k) (29 USC §207(k)) exemption. Some notation on the payroll record is sufficient. 29 CFR §553.51. Adopting a 7(k) work period is subject to the collective bargaining process if applicable.

© The Regents of the University of California

§4.73 (1) Fire Protection Employees

Fire protection employees, whether they work part-time, full-time, temporary, probationary, trainee, or permanent and regardless of title, are eligible for the 7(k) (29 USC §207(k)) exemption if they fit the criteria described in 29 USC §203(y).

It is unclear whether the regulations (29 CFR §§553.210-553.216) that preceded enactment of 29 USC §203(y) will continue to have validity for fire protection employees after passage of 29 USC §203(y). Under the Fifth Circuit's analysis, firefighters remain subject to the 7(k) exemption even when they spend more than 20 percent of their work time engaged in non-fire protection activities. *McGavock v City of Water Valley* (5th Cir 2006) 452 F3d 423. The Fifth Circuit held that 29 USC §203(y) supersedes 29 CFR §§553.210 and 553.212 so that the 20-percent rule no longer applies to firefighters. The Ninth Circuit has not addressed this issue.

Civilian employees of the fire department who engage in support activities, such as dispatchers, are not included in the exemption. 29 CFR §553.210(g). Dual function paramedics (certified in fire suppression and advanced life support) have been found to not be subject to the 7(k) exemption when paramedic ambulances were rarely dispatched to fire scenes and there was no evidence that dual function paramedics were ever ordered to perform fire suppression activities. They did not come within the definition of an "employer in fire protection activities" because they did not have the responsibility to engage in fire suppression. *Cleveland v City of Los Angeles* (9th Cir 2005) 420 F3d 981, 988-989, cert denied sub nom *City of Los Angeles v Cleveland* (2006) 546 US 1176. However, dual function paramedics are subject to the 7(k) exemption when they have substantial responsibility for fire suppression in addition to their paramedic duties. Department of Labor Opinion Letter FLSA 2006-20 (June 1, 2006).

© The Regents of the University of California

§4.74 (2) Law Enforcement Employees

Law enforcement employees (whether they work part-time, full-time, temporary, probationary, trainee, or permanent, and regardless of title) are eligible for the 7(k) (29 USC §207(k)) exemption if they fit the criteria described in 29 CFR §553.211. In addition, security personnel in correctional institutions are covered. See Department of Labor Wage & Hour Administrative Letter Ruling (February 18, 1992).

Civilian employees of the police department who engage in support activities, such as dispatchers, building inspectors, animal control personnel, and civilian parking checkers, are not eligible for the exemption.

© The Regents of the University of California

§4.75 (3) Overtime Pay for Police and Firefighters

When calculating overtime pay for 7(k) (29 USC §207(k)) employees, the regular rate is determined in the same manner as for other employees, except the term "work period" is substituted for "workweek." 29 CFR §553.233. A public agency that employs fewer than five employees in fire protection or law enforcement activities during the workweek, including security personnel in correctional institutions (see 29 USC §213(b)(20)), is exempt from overtime pay provisions.

The maximum hours that police or firefighters may work without the entity incurring overtime pay liability is based on a ratio. The ratio for employees engaged in fire protection is 212 hours/28 days; the ratio for employees engaged in law enforcement is 171 hours/28 days. The following is a table outlining the maximum hours for each work period.

Maximum Hours Standards		
Work Period (Days)	**Fire Protection**	**Law Enforcement**
28	212	171
27	204	165
26	197	159
25	189	153
24	182	147
23	174	141
22	167	134
21	159	128
20	151	122
19	144	116
18	136	110
17	129	104
16	121	98
15	114	92
14	106	86
13	98	79
12	91	73
11	83	67
10	76	61
9	68	55
8	61	49
7	53	43

§4.76 3. Compensatory Time Off Requirements

Compensatory time (also referred to as compensatory time off (CTO)) is paid time off that is earned and accrued by an employee in lieu of immediate cash payment for overtime. 29 CFR §553.22. The Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219) permits a public agency to provide compensatory time off in lieu of overtime pay at a rate not less than one and one-half hours of compensatory time for each hour of overtime worked if the requirements specified in 29 CFR §§553.20-553.28 are met. See 29 USC §207(o). This type of CTO is also referred to as FLSA compensatory time.

Certain agencies have other forms of compensatory time. For example, agencies often provide overtime pay for all hours worked in excess of 8 per day, for working on a Saturday or Sunday, or for working on a scheduled day off in a non-overtime week. Payment of such overtime is not required by the FLSA. If the agency grants compensatory time off in lieu of overtime pay in such situations, this is non-FLSA compensatory time and is not governed by the FLSA (as long as it is not intended to and does not compensate for hours in excess of 40 in one workweek). 29 CFR §553.28(e).

On payment for accrued compensatory time, see 29 CFR §§553.26-553.27.

© The Regents of the University of California

§4.77 a. Limitations on Accrual

Most employees may accrue not more than 240 hours of Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219) compensatory time. 29 CFR §553.22. This means 160 hours of work at time-and-one-half. Employees engaged in public safety, emergency response, and seasonal activities may accrue not more than 480 hours of FLSA compensatory time. 29 CFR §§553.22, 553.24. This means 320 hours of work at time-and-one-half.

© The Regents of the University of California

§4.78 b. Conditions for Use

Under the Department of Labor (DOL) regulations, any employee who requests use of accrued compensatory time must be permitted to use such time off within a reasonable period after making the request, if such use does not unduly disrupt the agency's operation. 29 CFR §553.25. Having to pay overtime to other employees does not satisfy the "unduly disrupt" standard for an agency to restrict use. However, in *Mortensen v County of Sacramento* (9th Cir 2004) 368 F3d 1082, the Ninth Circuit determined that the Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219) only requires the employer to allow the employee to use compensatory time within a reasonable time after the employee makes the request, even if not on the exact day the employee desires, and that what constitutes a reasonable period depends on the customary practices and the terms of any agreements between the parties. The Ninth Circuit did not defer to the DOL's regulations because the statutory language is clear. Thus, as long as the employee can take time off within a reasonable period after the request, the issue of whether the use of the time on the date specified is unduly disruptive is never reached. *County of Sacramento,* 368 F3d at 1089.

© The Regents of the University of California

§4.79 c. Forced Use

An employer may force its employees to use their compensatory time off (CTO). *Christensen v Harris County* (2000) 529 US 576, 146 L Ed 2d 621, 120 S Ct 1655. Additionally, an employer may require its employees to use CTO before they use other types of accrued leave. *Local 889, A.F.S.C.M.E. v Louisiana* (5th Cir 1998) 145 F3d 280. An employer's policy on forced use of CTO is negotiable under the Meyers-Milias-Brown Act (Govt C §§3500-3511).

© The Regents of the University of California

§4.80 4. Child Labor Prohibition

Unless employed under the Department of Labor regulations, the Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219) prohibits the employment of "oppressive child labor." 29 USC §212(c). Oppressive child labor is defined to include the employment of an individual under age 16 in virtually any occupation. 29 USC §203(l)(1). However, minors 14 to 16 may be employed in certain occupations. 29 CFR §§570.31-570.38. See also 29 CFR §570.35.

The penalties and enforcement of child labor laws are specified in 29 USC §216(e) and 29 CFR §§579.1-579.5. Section 302 of the Genetic Information Non-Discrimination Act, enacted May 21, 2008, increases the penalties for child labor violations under the FLSA. 29 USC §216(e).

© The Regents of the University of California

§4.81 5. Equal Pay Act Prohibition

The Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219) prohibits an employer from discriminating between employees on the basis of sex by paying employees of one sex less than the employees of the opposite sex for work performed under similar working conditions within the same establishment on jobs that require equal skill, effort, and responsibility. See 29 USC §206(d) (Equal Pay Act of 1963); 29 CFR §§1620.1-1620.34. On Equal Pay Act, see §§4.143, 4.250. An employer may justify differences in compensation for such work if the differential is based on:

- A bona fide seniority system;
- A merit system;
- A compensation system that measures earning in terms of quantity or quality; or
- A differential based on any factor other than sex.

© The Regents of the University of California

§4.82 6. Recordkeeping Requirements

Regulations codified at 29 CFR §§516.1-516.34 and 553.50-553.51 list important recordkeeping requirements for nonexempt employees, police and fire 7(k) (29 USC §207(k)) employees, white-collar exempt employees, and employees subject to compensatory time-off agreements.

© The Regents of the University of California

E. Enforcement of Fair Labor Standards Act (FLSA)

§4.83 1. Investigations and Settlements

The Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219) authorizes the Department of Labor to investigate and determine if an employer has violated the FLSA's provisions, and to attempt to resolve such violations.

© The Regents of the University of California

§4.84 2. Judicial Enforcement

The Department of Labor (DOL) may pursue a court action for unpaid minimum wages and overtime pay. 29 USC §216(c). The DOL may also sue an employer for violations of the child labor provisions of the Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219). The DOL may seek injunctive relief to prevent further violations of the FLSA and to enforce the FLSA's recordkeeping requirements. 29 USC §§215, 217.

© The Regents of the University of California

§4.85 3. Criminal Sanctions

The United States Department of Justice is authorized to bring a criminal action against a person who willfully violates the Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219). Such violations subject the person to a fine of up to $10,000 and/or imprisonment for up to 6 months. A person convicted of a willful violation is subject to imprisonment only after a prior conviction under this section. 29 USC §216(a).

© The Regents of the University of California

§4.86 4. Employee Suits

Employees may sue their employers for failure to pay minimum wages and overtime pay required by the Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219). 29 USC §216(b).

NOTE: An employee's right to sue terminates when the Department of Labor institutes an action. 29 USC §216(c). See §4.84.

© The Regents of the University of California

§4.87 a. No Need to Exhaust Administrative Remedies

The employee need not exhaust any available administrative remedies before bringing the lawsuit. See 29 USC §216(b); *Albertson's, Inc. v United Food & Commercial Workers Union* (9th Cir 1998) 157 F3d 758, cert denied (1998) 528 US 809.

© The Regents of the University of California

§4.88 b. No Class Action Under CCP §382

Employees cannot maintain a Fair Labor Standards Act of 1938 (FLSA) action as a class action under CCP §382 (*i.e.,* as an "opt-out class"). The FLSA is a uniquely "opt-in" statutory scheme based on its language. "No employee shall be a party plaintiff to any such action unless he gives his consent in writing to become such a party and such consent is filed in the court in which such action is brought." 29 USC §216(b). See *Haro v City of Rosemead* (2009) 174 CA4th 1067, 94 CR3d 874; *Smith v T-Mobile USA Inc.* (9th Cir 2009) 570 F3d 1119.

© The Regents of the University of California

§4.89 c. No Discrimination Against Employee for Bringing Suit

The Fair Labor Standards Act of 1938 (FLSA) prohibits an employer from discharging or discriminating in any other manner against an employee because the employee has filed any complaint or instituted or caused to be instituted any proceeding under or related to the FLSA, or has testified or is about to testify in any such proceeding. 29 USC §215(a)(3).

© The Regents of the University of California

§4.90 5. Monetary Amounts Recoverable

If found liable, employers are liable for the following:

- Back pay (including unpaid minimum wages and/or overtime pay plus interest) (29 USC §216(b)), and
- Attorney fees and costs (29 USC §216(b)).

NOTE: The Fair Labor Standards Act of 1938 (FLSA) does not entitle a successful defendant to an attorney fee award. See 29 USC §216(b)-(c).

In addition to unpaid wages and overtime pay, the employer may be liable for liquidated damages up to an amount equal to the back pay awarded. 29 USC §216(b).

© The Regents of the University of California

§4.91 6. Statute of Limitations

The time limit for filing suit for a violation under the Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219) varies according to whether the violation is willful. See 29 USC §255(a). For non-willful violations of the FLSA,, the statute of limitations is generally 2 years. In case of a willful violation of the FLSA, however, the statute of limitations is 3 years. A violation is "willful" if the employer either knew its conduct was barred by the FLSA or showed reckless disregard as to whether its conduct was prohibited by the FLSA. *McLaughlin v Richland Shoe Co.* (1988) 486 US 128, 108 S Ct 1677, 100 L Ed 2d 115.

© The Regents of the University of California

§4.92 7. Employer Defenses

An employer that can prove its actions, even if in violation of the Fair Labor Standards Act of 1938 (FLSA) (29 USC §§201-219), were taken in good faith in conformity with and in reliance on any written administrative regulation, order, ruling, or interpretation of the Administrator of the Wage and Hour Division of the Department of Labor, or any administrative or enforcement practice of the agency with respect to the class of employers to which the entity belongs, is entitled to a complete defense. 29 USC §259; 29 CFR §§790.13-790.19.

A partial defense (which, at the court's discretion, may bar or reduce the recovery of liquidated damages) is available if the employer proves it acted in good faith and had reasonable grounds for believing its actions were not in violation of the FLSA. 29 USC §260.

© The Regents of the University of California

§4.93 IV. DRUG TESTING

Public employers can constitutionally require drug testing for new job applicants seeking safety-sensitive positions or positions for which the city demonstrates a specialized need for testing. *Lanier v City of Woodburn* (9th Cir 2008) 518 F3d 1147. See *Loder v City of Glendale* (1997) 14 C4th 846, 880, 59 CR2d 696, cert denied (1997) 522 US 807. Employers may also legitimately require drug testing of current employees under certain circumstances. See §§4.101-4.111.

PRACTICE TIP: The validity of a drug test always depends on federal and state constitutional law. In addition, a federal or state statute may apply to the particular situation and any agency policy, procedures, or negotiated agreements about testing must be followed.

© The Regents of the University of California

A. Constitutional Tests

§4.94 1. Fourth Amendment Test

A blood or urine test for drugs is a search for purposes of the Fourth Amendment to the United States Constitution. The permissibility of any particular test is determined either on individualized suspicion or by balancing the intrusion on the employee's expectation of privacy against the promotion of legitimate governmental interests. *Skinner v Railway Labor Executives' Ass'n* (1989) 489 US 602, 103 L Ed 2d 639, 109 S Ct 1402; *Lanier v City of Woodburn* (9th Cir 2008) 518 F3d 1147; *Bluestein v Skinner* (9th Cir 1990) 908 F2d 451, cert denied (1991) 498 US 1083.

© The Regents of the University of California

§4.95 a. Legitimate Interest

Three governmental interests that might, in appropriate circumstances, justify mandatory testing include (*International Bhd. of Elec. Workers v Skinner* (9th Cir 1990) 913 F2d 1454, 1462):

- safety,
- security, or
- public integrity.

© The Regents of the University of California

§4.96 b. Nexus

Testing is not justified unless the government shows a clear, direct nexus between the individual's job duties and the nature of the feared violation. *National Treasury Employees Union v Von Raab* (1989) 489 US 656, 103 L Ed 2d 685, 109 S Ct 1384; *Bluestein v Skinner* (9th Cir 1990) 908 F2d 451, cert denied (1991) 498 US 1083.

© The Regents of the University of California

§4.97 c. Privacy Expectation

The court will also examine whether the employee had a reduced expectation of privacy. Employment in a position regulated by federal or state law, such as a railroad operator, commercial truck driver, or drug interdiction official, may have a lower privacy expectation. *Skinner v Railway Labor Executives' Ass'n* (1989) 489 US 602, 627, 103 L Ed 2d 639, 109 S Ct 1402.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/4 Personnel/§4.98 d. Other Factors

§4.98 d. Other Factors

Other factors that will be balanced include (*Semore v Pool* (1990) 217 CA3d 1087, 1099, 266 CR 280):

- the nature and reliability of the test;
- the testing equipment used;
- the manner of administration; and
- the degree to which it protects privacy and the confidentiality of the results.

© The Regents of the University of California

§4.99 2. State Privacy Test

The right to privacy under Cal Const art I, §1 may impose a heavier burden on an employer than the federal Fourth Amendment test.

Under current law, an invasion of privacy may be justified if it is outweighed by a "competing" interest, rather than a compelling interest. *Hill v National Collegiate Athletic Ass'n* (1994) 7 C4th 1, 26 CR2d 834. Before *Hill,* a compelling interest, as opposed to a legitimate interest, was required to outweigh an individual's privacy right. *Luck v Southern Pac. Transp. Co.* (1990) 218 CA3d 1, 267 CR 618, cert denied (1990) 498 US 939. However, some decisions apply a "reasonable" test if the right to privacy is not substantially burdened by the test (*i.e.,* for a job applicant as opposed to current employee). *Wilkinson v Times Mirror Corp.* (1989) 215 CA3d 1034, 264 CR 194.

© The Regents of the University of California

B. Constitutionality of Particular Types of Drug Testing

§4.100 1. Pre-employment Testing

In most cases, courts have upheld pre-employment drug testing, in part because they consider applicants to have reduced privacy rights. *National Treasury Employees Union v Von Raab* (1989) 489 US 656, 103 L Ed 2d 685, 109 S Ct 1384; *International Bhd. of Teamsters v Department of Transp.* (9th Cir 1991) 932 F2d 1292; *Willner v Thornburgh* (DC Cir 1991) 928 F2d 1185, cert denied (1991) 502 US 1020; *Wilkinson v Times Mirror Corp.* (1989) 215 CA3d 1034, 264 CR 194. However, the Ninth Circuit has held that without a demonstrated "specialized need," applicants for certain non-"sensitive" positions could not be subjected to a pre-employment drug test without violating the Fourth Amendment to the U.S. Constitution. *Lanier v City of Woodburn* (9th Cir 2008) 518 F3d 1147 (library page cannot be subjected to pre-employment drug test). In *Hill v National Collegiate Athletic Ass'n* (1994) 7 C4th 1, 26 CR2d 834, the California Supreme Court held that an athlete does not have a right to participate in NCAA competition and that advance notice of the drug testing program diminished the expectation of privacy. See *Loder v City of Glendale* (1997) 14 C4th 846, 59 CR2d 696, cert denied (1997) 522 US 807.

© The Regents of the University of California

§4.101 2. Routine Physical Examinations

Routine physical examination that includes drug testing has received mixed acceptance in the courts. See, *e.g., International Bhd. of Teamsters v Department of Transp.* (9th Cir 1991) 932 F2d 1292 (upholding testing at periodic medical exams for commercial truck drivers); *Doe v City & County of Honolulu* (1991) 8 Haw App 571, 6 IER Cases 1406 (holding drug testing as part of firefighter's annual physical exam did not violate Fourth Amendment); *Beattie v City of Saint Petersburg Beach* (MD Fla 1990) 733 F Supp 1455 (test for firefighters is unconstitutional even though it was done as part of routine annual fitness for duty physical).

© The Regents of the University of California

§4.102 3. Testing Following Leave of Absence

Drug testing following a leave of absence has received mixed support from the courts. See, *e.g., Wrightsell v City of Chicago* (ND Ill 1988) 678 F Supp 727 (upholding test for police officers returning to duty from extended leave, after noting officers had minimal privacy interest in urine sample provided during employment-related medical examinations); *Transport Workers' Union v Southeastern Pennsylvania Transp. Auth.* (3d Cir 1988) 884 F2d 709 (return to work testing following absence of over 30 days for any reason other than vacation, even for safety sensitive positions, not permissible).

© The Regents of the University of California

§4.103 4. Testing for Cause

Testing for cause has been upheld when sufficient evidence justifies a reasonable suspicion that the employee is impaired by or using drugs. For example, in *Bangert v Hodel* (D DC 1989) 705 F Supp 643, the court upheld such testing because it was based on observable factors (*e.g.,* direct observation of drug use or possession and/or physical symptoms of being under the influence of drugs; a pattern of abnormal conduct or erratic behavior; an arrest for or conviction of a drug-related offense; identification of employee as focus of criminal investigation into illegal drug possession, use, or trafficking; information provided either by reliable and credible source or independently corroborated; or newly discovered evidence the employee tampered with a previous drug test), and the employer's program conformed to safeguards necessary for protection of employee's rights.

© The Regents of the University of California

§4.104 5. Testing as Part of Rehabilitation Program

Testing as part of a rehabilitation program is usually not challenged; thus, there are few cases discussing it. See Lab C §432.7 (restrictions on use of data concerning drug diversion programs).

© The Regents of the University of California

§4.105 6. Testing as Part of Promotion Procedure

Whether testing as part of a promotion procedure is permissible usually depends on the type of job into which the applicant might be promoted. For example, in *National Treasury Employees Union v Von Raab* (1989) 489 US 656, 103 L Ed 2d 685, 109 S Ct 1384, the Court upheld regulations that required drug testing of all customs agents who applied to be hired, transferred, or promoted into positions that had direct involvement with drug interdiction or enforcement of related laws; required an agent to carry a firearm; or permitted an agent access to "classified information." Such positions included accounting technicians, accountants, animal caretakers, and messengers. See *Loder v City of Glendale* (1997) 14 C4th 846, 59 CR2d 696, cert denied (1997) 522 US 807.

© The Regents of the University of California

§4.106 7. Random Testing

Random testing is the most controversial type of testing program and is the most difficult to defend. The deciding factor is generally the type of position held by the employee and the nexus of the position to the safety of the general public.

© The Regents of the University of California

§4.107 a. When Random Testing Upheld

Examples of jobs for which random testing has been upheld are:

- Commercial truck drivers (*International Bhd. of Teamsters v Department of Transp.* (9th Cir 1991) 932 F2d 1292);
- Pipeline workers (*International Bhd. of Elec. Workers v Skinner* (9th Cir 1990) 913 F2d 1454);
- Airline flight safety personnel (*Bluestein v Skinner* (9th Cir 1990) 908 F2d 451, cert denied (1991) 498 US 1083);
- Police officers who carry firearms and participate in drug interdiction (*Guiney v Roache* (1st Cir 1989) 873 F2d 1557, cert denied (1989) 493 US 963); and
- Motor vehicle operators (*National Treasury Employees Union v Yeutter* (DC Cir 1990) 918 F2d 968; *Transport Workers' Union v Southeastern Pennsylvania Transp. Auth.* (3d Cir 1988) 884 F2d 709).

© The Regents of the University of California

§4.108 b. When Random Testing Not Upheld

Examples of jobs for which random testing was not upheld or serious questions were raised about its lawfulness include: *Luck v Southern Pac. Transp. Co.* (1990) 218 CA3d 1, 267 CR 618, cert denied (1990) 498 US 939 (transportation company violated state constitution when it discharged computer programmer for refusing to take random drug test, when employee did not consent to it when she was hired and was not in safety-sensitive position); *Semore v Pool* (1990) 217 CA3d 1087, 266 CR 280 (employee in unspecified job could state cause of action for violation of right to privacy when he was discharged for refusing to take eye reaction drug test); *American Fed'n of Gov't Employees v Derwinski* (ND Cal 1991) 777 F Supp 1493 (random testing violated Fourth Amendment as to safety engineers, boiler plant operators, utility system operators, electricians, and other "non-safety" positions).

© The Regents of the University of California

§4.109 8. Testing Following Accident

Testing following an accident has received mixed support from the courts. Such testing will generally be upheld if there is sufficient justification for it.

© The Regents of the University of California

§4.110 a. When Testing Following Accident Upheld

One of the most important examples of the cases in which testing following an accident was upheld is *Skinner v Railway Labor Executives' Ass'n* (1989) 489 US 602, 103 L Ed 2d 639, 109 S Ct 1402, in which the employer required testing of blood and urine of train crew members following a "major train accident" or "impact accident," as defined in regulations. The Court also upheld permissive testing of breath or urine when a supervisor has a reasonable suspicion an employee's acts or omission contributed to an accident or incident; there is a certain, specific rule violation; or when a supervisor has a reasonable suspicion an employee is under the influence of alcohol based on specific, personal observations. The Ninth Circuit has applied *Skinner* to allow testing commercial truck drivers after certain accidents. *International Bhd. of Teamsters v Department of Transp.* (9th Cir 1991) 932 F2d 1292.

© The Regents of the University of California

§4.111 b. When Testing Following Accident Not Upheld

Insufficient justification for testing following an accident was found in *Connelly v Newman* (ND Cal 1990) 753 F Supp 293 (court struck down post-accident drug testing for on-the-job accidents that result in injury requiring hospitalization or damage over $1000; court found less compelling interest and lower damage threshold than in *Skinner*); *American Fed'n of Gov't Employees v Thornburgh* (ND Cal 1989) 713 F Supp 359 (court struck down Immigration and Naturalization Service drug testing when no particularized suspicion of drug use, no evidence to establish illegal drug use is current or potential problem, or drug testing interferes with government objectives; accidents, incidents, or rule violations by themselves do not create reasonable grounds for suspecting tests will demonstrate alcohol or drug impairment).

© The Regents of the University of California

§4.112 C. Drug Testing Procedures

When an employer tests for drugs, certain procedures must be followed to protect the employee's privacy rights. In broad terms, they are (see, *e.g., Wilkinson v Times Mirror Corp.* (1989) 215 CA3d 1034, 1049, 264 CR 194):

- Collection procedures that ensure privacy and accuracy;
- Chain of custody procedures that ensures accuracy;
- Testing procedures that result in accurate results;
- Procedures to ensure confidentiality of test results; and
- Opportunity for the individual to explain or rebut a positive test result.

© The Regents of the University of California

§4.113 1. Meet and Confer Requirements

Drug testing of current employees is a condition of employment and thus subject to meet and confer requirements under the Meyers-Milias-Brown Act (Govt C §§3500-3511). *Holliday v City of Modesto* (1991) 229 CA3d 528, 280 CR 206. However, drug testing of applicants may not be subject to any meet and confer requirement. *Star Tribune Division,* 295 NLRB 543, 131 LRRM 1404 (1989).

© The Regents of the University of California

§4.114 2. Confidentiality of Medical Information

A health care provider may not release confidential medical information without authorization. CC §56.10. The statute prohibits discrimination against an employee based on a refusal to sign an authorization. CC §56.20. But see *Loder v City of Glendale* (1997) 14 C4th 846, 859, 59 CR2d 696, cert denied (1997) 522 US 807 (as long as employer-mandated medical examination or drug testing program is otherwise lawful, CC §56.20 does not prohibit employer from disqualifying applicant or employee who refuses to authorize disclosure of test results to employer).

A health care provider can give an employer information describing "functional limitations … that … may limit the patient's fitness to perform his or her present employment," provided that no statement of medical cause is included in the information disclosed. CC §56.10(c)(8)(B). Additionally an employer's use of such confidential information to support a decision to terminate the employee violates CC §56.20 and the employee's right to privacy. *Pettus v Cole* (1996) 49 CA4th 402, 57 CR2d 46.

© The Regents of the University of California

D. Other Federal Laws on Drug Testing

§4.115 1. Drug Free Workplace Act of 1988

The Drug Free Workplace Act of 1988 (41 USC §§701-707) covers federal contractors for goods or services with a value of $100,000 or more and recipients of federal grants irrespective of value. 41 USC §§701(a), 702(a). It applies only to employees directly engaged in the performance of work under the provisions of the grant or contract (41 USC §706); thus, it does not apply to subcontractors.

Although the Act does not require drug testing, it does require that the contractor or grantee (41 USC §§701(a), 702(a)):

- Notify employees on the employer's prohibitions on workplace drug use;
- Establish a "drug free awareness program";
- Notify the federal contracting or granting agency of employees convicted of a criminal drug statute; and
- Make a good faith effort to maintain a drug free workplace, as described in the Act.

Contractors who fail to carry out the Act's requirements are subject to having the payments suspended and/or the contract or grant terminated, or being suspended or debarred from future government contracts for up to 5 years. 41 USC §§701(b), 702(b).

© The Regents of the University of California

§4.116 2. Omnibus Transportation Employee Testing Act of 1991

The Omnibus Transportation Employee Testing Act of 1991 covers employers of individuals involved in operation of aircraft, trains, trucks, and buses, including holders of commercial driver licenses who operate commercial motor vehicles exceeding 26,001 pounds, vehicles transporting hazardous materials, and vehicles designed to transport 16 or more passengers. 49 USC §§5331, 20140, 31306, 45102; 14 CFR pt 121 apps I, J; 49 CFR §§219.1-219.905; 49 CFR §§382.101-382.605. Also included are employers of operators and maintenance workers on pipelines used to transport natural gas or hazardous liquids. 49 CFR §§199.1-199.245.

NOTE: State law reinforces these requirements and prohibits allowing certain new hires to start driving before a negative test result is reported and until any required investigation of employment and driver history is complete. Veh C §34520.

© The Regents of the University of California

§4.117 3. Rehabilitation Act of 1973

The Rehabilitation Act of 1973 (29 USC §§701-796*l*) applies to all federal contractors and subcontractors with contracts exceeding $10,000. 29 USC §793(a). Although primarily a disability discrimination law, it has been used to challenge drug testing programs. A 1978 amendment provides that the definition of "disability" does not include any individual who is an alcoholic or drug abuser whose current use of alcohol or drugs prevents such individual from performing the duties of the job in question or whose employment, by reason of such current alcohol or drug abuse, would constitute a direct threat to property or the safety of others. 29 USC §705(20)(C)(ii)(I)-(II); *Robertson v Amtrak/Nat'l R.R. Passenger Corp.* (SD NY 2005) 400 F Supp 2d 612, 622. See *Copeland v Philadelphia Police Dep't* (3d Cir 1988) 840 F2d 1139, cert denied (1989) 490 US 1004 (act does not require retention of drug-using police officer). Rehabilitated alcoholics are disabled within the meaning of the Rehabilitation Act (29 USC §705(20)(C)(v)); *Golson-El v Runyon* (ED Pa 1993) 812 F Supp 558, 560.

If the individual is found to be a qualified disabled person, the Rehabilitation Act requires that the employer provide reasonable accommodation. In the case of alcohol use, this accommodation need not be extensive. *Southeastern Community College v Davis* (1979) 442 US 397, 99 S Ct 2361, 60 L. Ed 2d 980.

© The Regents of the University of California

§4.118 4. Americans with Disabilities Act

The Americans with Disabilities Act of 1990 (ADA) (42 USC §§12101-12213) excludes current illegal drug use from the definition of disability. 42 USC §12210. However, alcoholics are subject to the protection of the statute if the employee can perform the essential functions of the job. 42 USC §12114(c)(4); *Brown v Lucky Stores, Inc.* (9th Cir 2001) 246 F3d 1182, 1187. A test to determine the illegal use of drugs is not considered a medical examination under the ADA. 42 USC §12114(d); *Loder v City of Glendale* (1997) 14 C4th 846, 864, 59 CR2d 696, cert denied (1997) 522 US 807.

© The Regents of the University of California

E. Other State Laws on Drug Testing

§4.119 1. State Drug Free Workplace Act of 1990

The State Drug Free Workplace Act of 1990 (Govt C §§8350-8357) covers every person or organization awarded a contract or a grant for the procurement of any property or services from any state agency. Govt C §8355. It does not require any contractor or grantee to ensure that other businesses with which it subcontracts also provide drug free workplaces. Govt C §8357.

Although the Act does not require drug testing, it does require each person or organization to (Govt C §8355):

- notify employees of the employer's prohibitions on workplace drug use;
- establish a "drug free awareness program"; and
- make it a condition of employment on the contract or grant that the employee abide by drug free workplace rules.

Penalties for violation of the Act can include suspension of payments under the contract or grant, termination of the contract or grant, or both, and debarment. Govt C §8356.

© The Regents of the University of California

§4.120 2. Alcohol and Drug Rehabilitation Act

Under the Alcohol and Drug Rehabilitation Act (Lab C §§1025-1028), employers of 25 or more employees must

- Reasonably accommodate the participation in alcohol or drug rehabilitation by an employee who voluntarily seeks help; and
- Make reasonable efforts to safeguard the confidentiality of the employee's decision to enter program, as long as the accommodation does not impose an undue hardship on the employer.

These provisions do not appear to apply to public entities, although there are no published opinions providing this interpretation. However, it is likely that reasonable accommodation may be required under the Americans with Disabilities Act (see §4.118) or the Fair Employment and Housing Act (see §4.121). 42 USC §12111(8)-(9); Govt C §12940(m).

© The Regents of the University of California

§4.121 3. Fair Employment and Housing Act

The Fair Employment and Housing Act (FEHA) (Govt C §§12900-12996) bars discrimination on the basis of physical and mental disability. Govt C §12940. Physical and mental disabilities do not include psychoactive substance disorders resulting from current unlawful use of controlled substances or other drugs. Govt C §12926(i), (k).

The Department of Fair Employment and Housing (DFEH) regulations require an applicant, if subject to disqualification based on a pre-employment physical, be permitted to provide an independent medical opinion. 2 Cal Code Regs §7294(d). The DFEH also requires confidentiality of physical results and uniform application of pre-employment inquiries. 2 Cal Code Regs §7294(d). The examinations and inquiries must be job-related and consistent with business necessity. Govt C §12940(e).

© The Regents of the University of California

V. PRIVACY RIGHTS AND PERSONNEL RECORDS

§4.122 A. Maintenance of Personnel Records

The employment relationship by its nature demands records be kept by an employer pertaining to employees. Such records include, *e.g.,* the employment application, resumes, testing materials, insurance records, and performance evaluations.

© The Regents of the University of California

§4.123 1. State Law

Every employer in the state must keep a record of the names and addresses of all its employees. Lab C §1174(c); *Craib v Bulmash* (1989) 49 C3d 475, 483, 261 CR 686. Employers and labor organizations must maintain and preserve all applications, personnel, membership, or employment referral records and files for at least 2 years after the files are created or after the employment action on applicants and terminated employees. Govt C §12946.

A police officer or firefighter has the right to read any adverse comment before it is placed in his or her personnel file (Govt C §§3255, 3305) and file a written response to any adverse comments (Govt C §§3256, 3306). See also *Sacramento Police Officers Ass'n v Venegas* (2002) 101 CA4th 916, 925, 124 CR2d 666.

© The Regents of the University of California

§4.124 2. Federal Law

The ADA requires that medical information received as the result of a medical examination "shall be collected and maintained on separate forms and in separate medical files and be treated as a confidential medical record." 42 USC §12112(d)(3)(B). There are exceptions for use of the information as follows (42 USC §12112(d)(3)(B)(i)-(iii)):

- Supervisors and managers may be informed about necessary restrictions on work;
- First aid and safety personnel may be informed if emergency treatment might be required; and
- Government officials investigating ADA compliance must be informed.

© The Regents of the University of California

B. Access to Personnel Records

§4.125 1. Employee's Right to Access Own Records

Many agencies have personnel rules or negotiated procedures that allow the inspection of personnel files. Further, an applicant or employee may obtain copies of every document the employee signed relative to his or her employment. Lab C §432. Finally, every employee has the right to inspect the personnel records that the employer maintains relating to the employee's performance or any grievance concerning the employee. Lab C §1198.5.

© The Regents of the University of California

§4.126 2. Third Party's Right to Access Records

The rights of a third party to access personnel records of an employee depends on who the third party is, the reasons for the request, and under what authority the records are sought.

© The Regents of the University of California

§4.127 a. Public Records Act

The California Public Records Act (Public Records Act) (Govt C §§6250-6268) grants persons the right to inspect and copy certain public records. Govt C §§6250-6252. However, the PRA also provides that personnel records may not be disclosed when it would constitute an unwarranted invasion of privacy. Govt C §6254(c). See*, e.g., Braun v City of Taft* (1984) 154 CA3d 332, 201 CR 654 (council member was allowed access to records pertaining to appointment of transit administrator; irrelevant personal items could be taken out before being made public). On the other hand, employment contracts between a state or local agency or a public official or public employee are public records. Govt C §6254.8. But see *Versaci v Superior Court* (2005) 127 CA4th 805, 817, 26 CR3d 92 (community college district superintendent's personal performance goals were not part of her employment contract, within meaning of PRA).

The names and salaries of public employees, including peace officers, who earn $100,000 or more per year are subject to public disclosure under the PRA. *International Fed'n of Prof. & Tech. Eng'rs v Superior Court* (2007) 42 C4th 319, 327, 64 CR3d 693. Public officials have a significantly reduced expectation of privacy in matters related to their public employment than other public employees. *BRV, Inc. v Superior Court* (2006) 143 CA4th 742, 758, 49 CR3d 519 (investigation report on school superintendent's alleged misconduct is subject to disclosure under PRA). Further, the Peace Officers Standards and Training records of officers' names, employing agencies, and dates of employment are subject to disclosure under the PRA and are not confidential under Pen C §832.7. *Commission on Peace Officer Standards & Training v Superior Court* (2007) 42 C4th 278, 64 CR3d 661.

© The Regents of the University of California

§4.128 b. Federal Civil Rights Law

In actions under Title VII of the Civil Rights Act of 1964 (42 USC §§2000e—2000e-17), federal common law privilege controls and personnel files are discoverable. See *Garrett v City & County of San Francisco* (9th Cir 1987) 818 F2d 1515, 1519 n6.

© The Regents of the University of California

§4.129 c. Meyers-Milias-Brown Act

A union may have the right to access records under certain circumstances. Under the Meyers-Milias-Brown Act (Govt C §§3500-3511), a public agency may adopt rules and regulations on "furnishing nonconfidential information pertaining to employment relations to employee organizations." Govt C §3507(a)(8). See, *e.g., Stockton Unified Sch. Dist.* (1980) 4 PERC 11189 (representative entitled to all information necessary and relevant to discharging duty to represent employees). On the Public Employee Reporter for California (PERC) and other sources for decisions of the Public Employment Relations Board, see Advising California Employers and Employees §21.8 (Cal CEB 2005).

© The Regents of the University of California

§4.130 d. Subpoenas

Persons who subpoena personnel records in the course of litigation must comply with CCP §§1985, 1985.3-1985.4, and 1985.6. Employers have a duty to protect the privacy rights of employees in their personnel records. *Valley Bank of Nevada v Superior Court of San Joaquin County* (1975) 15 C3d 652, 125 CR 553.

© The Regents of the University of California

§4.131 e. Records of Police Officers

The personnel records of a police officer are protected from unwarranted disclosure. Pen C §832.7.

© The Regents of the University of California

§4.132 f. HIV Tests

Except when necessary for public health purposes, state law imposes liability on those who improperly disclose to third parties the results of an HIV test absent written consent. Health & S C §120980.

© The Regents of the University of California

§4.133 VI. EMPLOYEE RIGHTS AGAINST ADVERSE EMPLOYMENT ACTIONS

Employers are generally prohibited from using most legal, off-duty activities as a basis for adverse employment actions. Lab C §98.6. However, in the wrongful termination context, this protection is limited to employees' conduct asserting a recognized constitutional right or conduct protected by the Labor Code. *Grinzi v San Diego Hospice Corp.* (2004) 120 CA4th 72, 84, 14 CR3d 893.

© The Regents of the University of California

§4.134 A. Whistle-blowers

Employers may not retaliate against an employee for disclosing violations of state or federal statutes to a government or law enforcement agency. Lab C §1102.5. However, not every report or corrective action constitutes "whistleblowing." See *Patten v Grant Joint Union High Sch. Dist.* (2005) 134 CA4th 1378, 1384, 37 CR3d 113 (school principal's disclosures to school officials concerning needing more staff for safety purposes did not amount to "whistle-blowing"; disclosures were made in exclusively internal administrative context and did not show any belief on principal's part that she was disclosing violation of state or federal law in any sort of whistle-blowing context). See also *Mueller v County of Los Angeles* (2009) 176 CA4th 809, 822, 98 CR3d 281 (matters such as transferring employees, writing up employees, and counseling employees are personnel matters and "[t]o exalt these exclusively internal personnel disclosures with whistleblower status would create all sorts of mischief [and] would thrust the judiciary into micromanaging employment practices and create a legion of undeserving protected 'whistleblowers' arising from the routine workings and communications of the job site").

© The Regents of the University of California

§4.135 B. First Amendment Rights

Public employees are granted some, but not absolute, constitutional protections when speaking out on matters of public concern. *Rankin v McPherson* (1987) 483 US 378, 97 L Ed 2d 315, 107 S Ct 2891 (government bears burden of justifying discharge on legitimate grounds); *Connick v Myers* (1983) 461 US 138, 75 L Ed 2d 708, 103 S Ct 1684 (whether employee's speech addresses matter of public concern must be determined by content, form, and context of given statement); *Pickering v Board of Educ.* (1968) 391 US 563, 20 L Ed 2d 811, 88 S Ct 1731 (in determining public employee's rights of free speech, task of Supreme Court is to arrive at balance between interests of employee, as citizen, in commenting on matters of public concern and interest of state, as employer, in promoting efficiency of public services it performs through its employees); *Chico Police Officers' Ass'n v City of Chico* (1991) 232 CA3d 635, 283 CR 610. The protections apply to both applicants and employees. *Gay Law Students Ass'n v Pacific Tel. & Tel. Co.* (1979) 24 C3d 458, 156 CR 14 (superseded by statute on other grounds). The protections apply to independent government contractors as well. *Navab-Safavi v Broadcasting Bd. of Governors* (D DC 2009) 650 F Supp 2d 40. They may also apply to some kinds of volunteers. See *Hyland v Wonder* (9th Cir 1992) 972 F2d 1129, cert denied (1993) 508 US 908.

The public entity may curtail even protected speech if necessary to prevent workplace disruption. See *City of San Diego v Roe* (2004) 543 US 77, 160 L Ed 2d 410, 125 S Ct 521 (police officer's speech—selling sexual videos of himself off-duty, in unidentified uniform—was not matter of public concern when police department demonstrated legitimate and substantial interests that were compromised by police officer's speech). Further, when public employees make statements under their official duties, they are not speaking as citizens for First Amendment purposes, and the Constitution does not insulate their communications from employer discipline. *Garcetti v Ceballos* (2006) 547 US 410, 164 L Ed 2d 689, 126 S Ct 1951.

© The Regents of the University of California

§4.136 C. Political Activity

Employers may not make, adopt, or enforce any policy that tends to control or direct the political activities or affiliations of employees, nor may they coerce, influence, or attempt to coerce or influence employees' political activities by threatening a loss of employment. Lab C §§1101-1102. The provisions of Govt C §§3201-3209 limit a public agency's authority to prescribe employee political activity. See also *Rutan v Republican Party of Illinois* (1990) 497 US 62, 111 L Ed 2d 52, 110 S Ct 2729; *Branti v Finkel* (1980) 445 US 507, 63 L Ed 2d 574, 100 S Ct 1287; *Elrod v Burns* (1976) 427 US 347, 49 L Ed 2d 547, 96 S Ct 2673. But see *Nichols v Dancer* (2009) 567 F3d 423 (patronage dismissal doctrine does not extend to adverse employment actions motivated by employee's personal, rather than political, loyalties).

© The Regents of the University of California

VII. WORKPLACE SAFETY

§4.137 A. Injury and Illness Prevention Plan

State law requires city employers to furnish a safe workplace (Lab C §§6400-6413.5), and to adopt and implement an illness and injury prevention plan (Lab C §6401.7; 8 Cal Code Regs §3203).

© The Regents of the University of California

§4.138 B. Other Safety Plans and Programs

Title 8 of the California Code of Regulations imposes numerous other safety regulations on employers, including other mandated plans and programs for certain workplaces. See, *e.g.,* 8 Cal Code Regs §§1509 (code of safe practices), 1512, 3220, 3400 (emergency action and medical services plan), 3221, 6151 (fire prevention plan), 5097 (hearing conservation program), 5157 (confined spaces, *e.g.,* manholes, program), 5194(e) (hazard communication program).

Cities are also subject to workplace safety regulation enforcement by the California Division of Occupational Safety and Health, including civil and administrative penalties. Lab C §§6308-6327.5, 6423-6436.

© The Regents of the University of California

VIII. ANTIDISCRIMINATION LAWS

A. Federal Laws

§4.139 1. Title VII of the Civil Rights Act of 1964

Title VII of the Civil Rights Act of 1964 (42 USC §§2000e—2000e-17) prohibits discrimination on the basis of race, color, religion, national origin, sex, or participation in certain protected activities. 42 USC §§2000e—2000e-3. It also prohibits retaliation for engaging in certain protected activities. 42 USC §2000e-3(a).

Title VII applies to private employers with more than 15 employees and to all public entities regardless of size. 42 USC §2000e(a)-(b). Title VII applies to both applicants and employees. 42 USC §2000e-2(a).

© The Regents of the University of California

§4.140 a. Exclusions From Coverage Under Title VII

Title VII of the Civil Rights Act of 1964 does not apply to individuals (42 USC §2000e(f))

- Elected to public office in a state or political subdivision of a state by the qualified voters,
- Selected by an elected official to serve on the official's personal staff,
- Appointed by an elected official on the policy making level, or
- Those who are immediate advisors of elected officials with respect to the exercise of the constitutional or legal powers of their offices.

This exemption does not include state employees subject to the civil service laws of the state government or its agencies or subdivisions. 42 USC §2000e(f).

© The Regents of the University of California

§4.141 b. Sexual Harassment Is Prohibited by Title VII

Under guidelines issued by the Equal Employment Opportunity Commission, sexual harassment is a form of sex discrimination and is a violation of Title VII of the Civil Rights Act of 1964 (42 USC §§2000e—2000e-17). 29 CFR §1604.11.

© The Regents of the University of California

§4.142 c. Discrimination Based on Pregnancy Is Prohibited by Title VII

The Pregnancy Discrimination Act of 1978 (42 USC §2000e(k)) is incorporated into Title VII of the Civil Rights Act of 1964. It applies to local government and prohibits discrimination on the basis of pregnancy, childbirth, and related medical conditions. The law basically requires that women disabled by pregnancy, childbirth, or related medical conditions be treated the same as other similarly disabled applicants and employees, including the terms of employment, ability to transfer, and the availability of leaves. 42 USC §2000e(k).

© The Regents of the University of California

§4.143 2. Federal Equal Pay Act of 1963

The federal Equal Pay Act of 1963 (29 USC §206(d)) requires equal pay without regard to sex for equal work performed under similar working conditions on jobs requiring equal skill, effort, or responsibility. Exceptions can be made for differentials based on a seniority or merit system, a system that measures earnings by quantity or quality, or any other factors not based on sex. 29 USC §206(d)(1); *Stanley v University of S. Cal.* (9th Cir 1999) 178 F3d 1069.

© The Regents of the University of California

§4.144 3. Age Discrimination in Employment Act of 1967

The Age Discrimination in Employment Act of 1967 (ADEA) (29 USC §§621-663), which applies to local governments regardless of size, prohibits discrimination on the basis of age for persons age 40 and over. The ADEA applies to both applicants and employees. 29 USC §623(d).

Employee plaintiffs can allege either a disparate treatment or disparate impact theory of discrimination under the ADEA. If an employee alleges that a particular practice has a disparate impact on older workers, the employer has the burden of proving that the challenged practice is based on "reasonable factors other than age." *Meacham v Knolls Atomic Power Lab.* (2008) __ US __, 171 L Ed 2d 283, 128 S Ct 2395.

© The Regents of the University of California

§4.145 a. Exclusions From Coverage Under the ADEA

The Age Discrimination in Employment Act of 1967 (ADEA) does not apply to individuals (29 USC §630(f))

- Elected to public office in a state or political subdivision of a state,
- Selected by an elected official to serve on the official's personal staff,
- Appointed by an elected official on the policy making level, or
- Those who are immediate advisors of elected officials with respect to the exercise of the constitutional or legal powers of their offices.

This exemption does not include state employees subject to the civil service laws of the state government or its agencies or subdivisions. 29 USC §630(f).

© The Regents of the University of California

§4.146 b. Restriction on Waiver of ADEA Rights

Rights under the Age Discrimination in Employment Act of 1967 (ADEA) may not be waived unless knowing and voluntary, and there are special criteria that must be satisfied to constitute a knowing and voluntary waiver. 29 USC §626(f); *Oubre v Entergy Operations, Inc.* (1998) 522 US 422, 139 L Ed 2d 849, 118 S Ct 838 (release is unenforceable if it fails to comply with specific federal statutory requirements for release of claims under ADEA, even though employee retained severance pay monies).

PRACTICE TIP: In any employment-related settlement and release agreement involving an employee over 40, the city should incorporate special waiver language under 29 USC §626(f). There are additional requirements that apply if severance benefits are offered and claims are released in connection with a reduction in force. 29 CFR §1625.22.

© The Regents of the University of California

§4.147 4. Age Discrimination Act of 1975

Under the Age Discrimination Act of 1975 (42 USC §§6101-6107), employers who receive federal financial assistance are prohibited from discriminating on the basis of age. The ban against discrimination is not confined to a specified age range.

© The Regents of the University of California

§4.148 5. Rehabilitation Act of 1973

The Rehabilitation Act of 1973 (29 USC §§701-796*l*) applies to local government employers who receive certain kinds of federal financial assistance and prohibits discrimination against the disabled in programs or activities receiving federal financial assistance. 29 USC §794. Although §794 parallels the ADA in most respects, the exclusion of alcoholics provided in the ADA (42 USC §12114(c)(4)) does not apply to §791 (federal agencies) of the Rehabilitation Act, even though it does apply to §§793 (federal contracts) and 794 (federal grants and programs). See, *e.g.,* 29 USC §705(20)(C)(v); *Fuller v Frank* (9th Cir 1990) 916 F2d 558.

© The Regents of the University of California

§4.149 6. Immigration Reform and Control Act of 1986

The Immigration Reform and Control Act of 1986 (8 USC §§1101-1537) prohibits discrimination based on national origin and citizenship by all employers with more than three employees. 8 USC §1324b.

© The Regents of the University of California

§4.150 7. Civil Rights Act of 1991: §1981

The Civil Rights Act of 1991 (42 USC §1981) provides additional protection against discrimination on the basis of race by ensuring that all persons have the same right to make and enforce contracts, enjoy all benefits of the contractual relationship, and have the full and equal benefit of all laws and proceedings for the security of persons and property as is enjoyed by white citizens.

NOTE: Section 1981 does not provide a remedy for discrimination based on sex, religion, or national origin. *Runyon v McCrary* (1976) 427 US 160, 49 L Ed 2d 415, 96 S Ct 2586; *Woods v New York* (SD NY 1979) 469 F Supp 1127, aff'd (2d Cir 1979) 614 F2d 1293.

© The Regents of the University of California

§4.151 a. Who Can Sue

Any individual who claims discrimination on the basis of "race" can state a claim under the Civil Rights Act of 1991 (42 USC §1981). Caucasians claiming race discrimination can sue under this statute. *McDonald v Santa Fe Trail Transp. Co.* (1976) 427 US 273, 49 L Ed 2d 493, 96 S Ct 2574. Hispanics have generally been allowed to sue under this statute as well. See, *e.g., Manzanares v Safeway Stores, Inc.* (10th Cir 1979) 593 F2d 968. But see *Vera v Bethlehem Steel Corp.* (MD Pa 1978) 448 F Supp 610.

© The Regents of the University of California

§4.152 b. Coverage

Before the Civil Rights Act of 1991, 42 USC §1981 only applied to the formation of employment contracts and not to conduct by an employer after the formation of a contract. See *Patterson v McLean Credit Union* (1989) 491 US 164, 105 L Ed 2d 132, 109 S Ct 2363. The Civil Rights Act of 1991 reversed the *Patterson* decision and §1981 now prohibits all forms of racial discrimination in employment. Employees can also sue for "retaliation" under §1981. *CBOCS W., Inc. v Humphries* (2008) 553 US 442, 170 L Ed 2d 864, 128 S Ct 1951.

© The Regents of the University of California

§4.153 c. Immunities

The principles of absolute and qualified immunities developed under 42 USC §1983 have been applied to suits brought under 42 USC §1981 against local government officials. See, *e.g., Lombard v U.S.* (DC Cir 1982) 690 F2d 215, cert denied (1983) 462 US 1118. Although municipalities are not immune from suit, a municipality will be liable only for acts of local government officials under a government policy or custom. See, *e.g., Des Vergnes v Seekonk Water Dist.* (1st Cir 1979) 601 F2d 9, vacated on other grounds (1981) 454 US 807, 70 L Ed 2d 76, 102 S Ct 81.

© The Regents of the University of California

§4.154 d. Procedural Differences From Title VII

Although there are similarities between the Civil Rights Act of 1991 (42 USC §1981) and Title VII of the Civil Rights Act of 1964 (42 USC §§2000e—2000e-17), there are four significant differences, particularly in procedure:

(1) The Civil Rights Act of 1991 now authorizes recovery of compensatory and punitive damages within set limits. *Williams v Owens-Illinois, Inc.* (9th Cir 1982) 665 F2d 918, cert denied (1982) 459 US 971.

(2) Actions are governed by the state statute of limitations for personal injury actions. *McDougal v County of Imperial* (9th Cir 1991) 942 F2d 668 (2-year statute of limitations applies under CCP §335.1).

(3) It is unnecessary to exhaust any Title VII administrative remedies before bringing suit. *Torre v Barry* (DC Cir 1981) 661 F2d 1371.

(4) There is no minimum number of employees required as a condition for coverage of employment.

© The Regents of the University of California

§4.155 e. Remedies

A successful plaintiff in an action brought under the Civil Rights Act of 1991 (42 USC §1981) may recover both equitable and legal relief, including compensatory and punitive damages, although punitive damages are not recoverable against the municipality. *Johnson v Railway Express* (1975) 421 US 454, 44 L Ed 2d 295, 95 S Ct 1716. Expert witness and attorney fees are also available to the prevailing party. 42 USC §2000e-5(k) (§113(b)). Prevailing defendants, however, are awarded fees only when the plaintiff's action was "frivolous, unreasonable, or without foundation, even though not brought in subjective bad faith." *Christiansburg Garment Co. v EEOC* (1978) 434 US 412, 421, 54 L Ed 2d 648, 98 S Ct 694.

© The Regents of the University of California

§4.156 8. Civil Rights Act of 1871: §1983

Section 1983 prohibits the deprivation of any right, privilege, or immunity secured by the United States Constitution and federal laws. 42 USC §1983. This statute has often been used as the basis of employment discrimination lawsuits.

NOTE: Violations of Title II of the ADA (42 USC §§12101-12213) or §504 of the Rehabilitation Act of 1973 (29 USC §§701-796*l*) are not actionable under 42 USC §1983. *Vinson v Thomas* (9th Cir 2002) 288 F3d 1145.

© The Regents of the University of California

§4.157 a. Who Can Sue

Because 42 USC §1983 protects citizens and persons within the jurisdiction of the United States, even noncitizens can sue under the statute. *Graham v Richardson* (1971) 403 US 365, 29 L Ed 2d 534, 91 S Ct 1848. Labor unions have also been found to be persons under this law. *Allee v Medrano* (1974) 416 US 802, 40 L Ed 2d 566, 94 S Ct 2191.

© The Regents of the University of California

§4.158 b. Immunities

Municipalities cannot be found liable on a respondeat superior theory, but can be found liable under 42 USC §1983 for actions taken under official policy, practice, or custom. *Monell v Department of Soc. Servs.* (1978) 436 US 658, 56 L Ed 2d 611, 98 S Ct 2018. Single acts can be sufficient to constitute an official policy or custom under appropriate circumstances. *Pembaur v City of Cincinnati* (1986) 475 US 469, 89 L Ed 2d 452, 106 S Ct 1292; *Owen v City of Independence* (1980) 445 US 622, 63 L Ed 2d 673, 100 S Ct 1398. Public officials may be able to claim qualified immunity. *Harlow v Fitzgerald* (1982) 457 US 800, 73 L Ed 2d 396, 102 S Ct 2727; *Wood v Strickland* (1975) 420 US 308, 43 L Ed 2d 214, 95 S Ct 992, overruled in part on other grounds, *Harlow v Fitzgerald, supra*.

© The Regents of the University of California

§4.159 c. Procedure

State personal injury statutes of limitations apply to actions brought under 42 USC §1983. *Wilson v Garcia* (1985) 471 US 261, 85 L Ed 2d 254, 105 S Ct 1938. A plaintiff need not pursue state administrative remedies, and generally need not exhaust state judicial remedies, before filing suit in federal court. *Patsy v Board of Regents* (1982) 457 US 496, 73 L Ed 2d 172, 102 S Ct 2557. When a plaintiff does seek administrative relief and does not exhaust administrative remedies before filing in federal court, his or her claim may be barred by res judicata or collateral estoppel. *Miller v County of Santa Cruz* (ND Cal 1992) 796 F Supp 1316.

© The Regents of the University of California

§4.160 d. Remedies

A successful plaintiff under 42 USC §1983 may obtain equitable relief, as well as compensatory and punitive damages. *Smith v Wade* (1983) 461 US 30, 75 L Ed 2d 632, 103 S Ct 1625; *Carey v Piphus* (1978) 435 US 247, 55 L Ed 2d 252, 98 S Ct 1042; *Harris v Harvey* (7th Cir 1979) 605 F2d 330, cert denied (1980) 445 US 938; *Martinez v Procunier* (ND Cal 1973) 354 F Supp 1092, aff'd (1974) 416 US 396, 40 L Ed 2d 224, 94 S Ct 1800. However, punitive damages cannot be awarded against a municipality. *City of Newport v Fact Concerts, Inc.* (1981) 453 US 247, 69 L Ed 2d 616, 101 S Ct 2748. Attorney fees are also available. 42 USC §1988.

© The Regents of the University of California

§4.161 9. Civil Rights Act of 1871: §1985(3)

Section 1985(3) of the Civil Rights Act of 1871 protects persons from conspiracies for the purpose of depriving a person of equal protection of the laws or equal privileges and immunities under the laws. 42 USC §1985(3). *Great Am. Fed. Sav. & Loan Ass'n v Novotny* (1979) 442 US 366, 376, 60 L Ed 2d 957, 99 S Ct 2345.

NOTE: The courts have not provided a definitive answer on whether this law was intended to reach any class-based animus other than race. *United Bhd. of Carpenters & Joiners v Scott* (1983) 463 US 825, 77 L Ed 2d 1049, 103 S Ct 3352. Violations of Title VII of the Civil Rights Act of 1964 (42 USC §§2000e—2000e-17) are not actionable under §1985. *Great Am. Fed. Sav. & Loan Ass'n, supra*. Thus, the use of §1985(3) in employment-related cases has been limited.

© The Regents of the University of California

§4.162 10. Family and Medical Leave Act of 1993

Under the Family and Medical Leave Act of 1993 (FMLA) (29 USC §§2601-2654), covered employers must grant eligible employees up to 12 workweeks of unpaid leave (and up to 26 weeks for certain military-caregiver leave) during a 12-month period (see 29 USC §§2601-2654; 29 CFR Part 825)

- for the birth or placement for adoption or foster care of a child,
- to care for a spouse, child, or parent with a serious health condition, or
- because the employee is unable to work because of his or her serious health condition.

Such leave may be taken on an intermittent or reduced schedule basis. 29 CFR §825.202. All public agencies, regardless of size, are "covered employers" under FMLA (29 CFR §825.104(a)), but may not have "eligible employees" (29 CFR §825.110) depending on the size of their workforces. In general, "eligible employees" are those who have been employed by the employer for at least 12 months, have worked at least 1250 hours in the 12 months immediately preceding the beginning of the leave, and are employed at a worksite where 50 or more employees are employed by the employer within 75 miles of that worksite. 29 CFR §825.110(a). Posting notices are available from the Department of Labor.

NOTE: Special rules apply when there is an existing labor agreement. FMLA also does not supersede state and local laws providing greater employee leave rights. See Govt C §12945.2 (California Family Rights Act (CFRA)), discussed in §4.172.

© The Regents of the University of California

§4.163 11. Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA)

The Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA) (38 USC §§4301-4335) provides for military leave and applies to all employers regardless of size. 38 USC §4303(4); 20 CFR §1002.34. It also applies to virtually all employees, regardless of their length of service or status (*e.g.,* temporary versus permanent). 38 USC §4303(3); 20 CFR §1002.41. Typically, the leave is unpaid, although California public agency employers are required to compensate the first 30 days of some military leaves. See Mil & V C §395.01.

© The Regents of the University of California

B. State Laws

§4.164 1. State Constitution

The provisions of Cal Const art I, §8 prohibit an employer from disqualifying any person from entering or pursuing a business, profession, vocation, or employment because of sex, race, creed, color, national origin, or ethnic origin.

The provisions of Cal Const art I, §31 (Proposition 209) prohibit public entities from discriminating against, or granting preferential treatment to, any individual or group on the basis of race, sex, color, ethnicity, or national origin in the operation of public employment, public education, or public contracting.

© The Regents of the University of California

§4.165 2. Fair Employment and Housing Act

The Fair Employment and Housing Act (FEHA) (Govt C §§12900-12996) prohibits discrimination on the basis of any of the following: race, color, national origin, ancestry, sex, pregnancy, childbirth, or related medical condition, marital status, religious creed, physical, or mental disability, medical condition (cancer related or genetic characteristics), age 40 and over, and sexual orientation. On discrimination based on pregnancy, childbirth, or related medical conditions, see Govt C §12945; *California Fed. Sav. & Loan Ass'n v Guerra* (1987) 479 US 272, 93 L Ed 2d 613, 107 S Ct 683. Unlawful discrimination also includes the perception that an individual has any of these characteristics or that an individual is associated with a person who has, or is perceived to have, any of these characteristics. Govt C §§12920-12927, 12940-12948.

The FEHA is applicable to public employers regardless of size under Govt C §12926(d). Implementing regulations have been adopted by the Fair Employment and Housing Commission. See 2 Cal Code Regs §§7286.0-7297.11.

© The Regents of the University of California

§4.166 3. Tort Actions for Violation of Public Policy

The Fair Employment and Housing Act (FEHA) (Govt C §§12900-12996) embodies a fundamental public policy, because it inures to the benefit of the public at large. Thus, a discrimination claim under the FEHA may also be the basis of a tortious violation of public policy. *Gantt v Sentry Ins.* (1992) 1 C4th 1083, 4 CR2d 874.

© The Regents of the University of California

§4.167 4. California Equal Pay Law

California's Equal Pay Law (Lab C §1197.5) requires employers to pay equal pay without regard to an individual's sex for equal work performed under similar working conditions on jobs requiring equal skill, effort, and responsibility. As with its federal counterpart (see §4.143), exceptions are made for differentials based on a seniority or merit system, a system that is based on quantity or quality of work, or a bona fide factor other than sex.

© The Regents of the University of California

§4.168 5. Unruh and Ralph Civil Rights Acts

The Unruh Civil Rights Act (CC §51) and the Ralph Civil Rights Act (CC §51.7) protect against unlawful discrimination and harassment by business establishments on the basis of sex, race, color, religion, ancestry, national origin, or disability. They also guarantee the right to be free from violence and intimidation by threat of violence on the basis of race, color, religion, ancestry, national origin, political affiliation, sex, sexual orientation, age, disability, or position in a labor dispute. See also CC §52.

NOTE: The Unruh Civil Rights Act does not appear to apply to the employment relationship, only to business establishments in the supplying of services or facilities to clients, patrons, or customers. See *Gauvin v Trombatore* (ND Cal 1988) 682 F Supp 1067. See also *Rojo v Kliger* (1990) 52 C3d 65, 276 CR 130.

© The Regents of the University of California

§4.169 6. California Government Code §11135

Employers who are funded by or receive any financial assistance from the State of California are prohibited from discriminating on the basis of race, national origin, ethnic group identification, religion, age, sex, sexual orientation, color, or disability. Govt C §11135. Discrimination based on the perception that a person has any of these characteristics is also unlawful, as is discrimination against a person because he or she associates with a person who has, or is perceived to have, any of these characteristics.

© The Regents of the University of California

§4.170 7. State Personnel Laws

The state personnel laws apply to the State Personnel Board and state employees, and prohibit discrimination on the basis of age, blindness, color vision problems, sex, race, religious creed, color, national origin, ancestry, marital status, physical or mental disability, and political and religious affiliations or opinions. Govt C §§19700-19706, 19230-19237.

© The Regents of the University of California

§4.171 8. HIV Testing

The provisions of Health & S C §120980 prohibit the use of HIV test results for employment purposes.

© The Regents of the University of California

9. California Family Rights Act and Similar Leaves

§4.172 a. Leave Under California Family Rights Act

Under the Moore-Brown-Roberti Family Rights Act (Govt C §§12945.2, 19702.3) (hereinafter referred to as the California Family Rights Act (CFRA); see 2 Cal Code Regs §7297.0(b)), all public employers (and private employers employing 50 or more employees) must grant to eligible employees up to 12 work weeks of unpaid leave for

- a serious health condition rendering the employee unable to perform the job,
- the birth or illness of a child, or
- to care for an ill parent or spouse.

"Eligible employees" are those who have been employed by the employer for at least 12 months, have worked at least 1250 hours in the 12 months immediately preceding the beginning of the leave, and are employed at a worksite within 75 miles of which 50 or more employees are employed by the employer. Govt C §12945.2.

State law has been amended to generally conform with the federal Family and Medical Leave Act of 1993 (FMLA) (29 USC §§2601-2654); however, significant differences remain. State law provides disability compensation for any individual who is unable to work due to the employee's own sickness or injury, the sickness or injury of a family member, or the birth, adoption, or foster care placement of a new child. Un Ins C §§3300-3306.

PRACTICE TIP: The 2009 amendments to the FMLA provided some additional FMLA leave benefits (*e.g.,* military exigency leave) that would not qualify for leave under the CFRA. Thus, an eligible employee could exhaust his or her FMLA leave via one of the federally-mandated qualifying events, but still not have tapped into the leave available under state law.

© The Regents of the University of California

§4.173 b. "Kin Care" Use of Sick Leave

If a city provides sick leave to its employees, then it must permit the employee to use up to one-half of the employee's annual accrued sick leave to attend to an illness of a child, parent, spouse, or domestic partner. Lab C §233.

© The Regents of the University of California

§4.174 c. Pregnancy Disability Leave

California carves out a separate unpaid leave benefit of up to 4 months for eligible pregnant employees. See Govt C §12945(a); 2 Cal Code Regs §7291.7. This leave does not run concurrently with leave taken under the California Family Rights Act (CFRA). 2 Cal Code Regs §7297.6(a). Unlike FMLA or the CFRA, this statute does not require any minimum length of service before the employee is eligible. 2 Cal Code Regs §7291.7(c).

© The Regents of the University of California

§4.175 d. Additional Leave Requirements

California law mandates several other forms of protected leave, including but not limited to time off for the following:

- Military service (Mil & V C §§394-395.10);
- Observance of religious holidays (Govt C §12940(a), (*l*); 2 Cal Code Regs §7293.3);
- Jury or witness duty (Lab C §230(a)-(b));
- Voting (Elec C §14000);
- Emergency service as a volunteer firefighter, reserve peace officer, or emergency rescue person (Lab C §230.3);
- Obtaining relief or safety assistance for a domestic violence victim and his or her child (Lab C §230(c)-(d)); and
- Participation in the employee's child's school activities (Lab C §230.8).

PRACTICE TIP: The leaves discussed in §§4.172-4.175 are not an exhaustive list of potential leaves, and the particular leave benefit and eligibility requirements vary from one leave to the next. Employers are cautioned to consult knowledgeable counsel or human resource professionals for specific information.

© The Regents of the University of California

§4.176 10. Workplace Appearance and Gender Identity

The definition of "sex" includes a person's gender, as defined in Pen C §422.56 to mean the employee's actual sex, or the employer's perception of the employee's sex, and includes the employer's perception of the employee's identity, appearance, or behavior, whether or not that identity, appearance, or behavior is different from that traditionally associated with the employee's sex at birth. Govt C §12926.

An employer can require employees to comply with workplace appearance, grooming, or dress standards consistent with state and federal law, provided that the employer allow the employee to dress in a manner consistent with the employee's gender identity. Govt C §12949.

© The Regents of the University of California

§4.177 C. Theories of Discrimination

There are three theories under which discrimination may be established: disparate treatment, disparate impact, and retaliation.

© The Regents of the University of California

§4.178 1. Disparate Treatment

Under the disparate treatment theory, an individual can establish discrimination if the individual shows the employer intentionally discriminated against the individual on the basis of a protected characteristic. A prima facie case generally consists of evidence that (*McDonnell Douglas Corp. v Green* (1973) 411 US 792, 36 L Ed 2d 668, 93 S Ct 1817):

- the individual is a member of a protected category,
- an adverse employment action was taken with respect to that individual, and
- the same adverse action was not taken with respect to other similarly situated individuals.

In the case of a hiring decision, an individual can establish a prima facie case of discrimination by showing the individual is a member of a protected class, the individual was qualified and applied for a position for which the employer was seeking applicants, the individual was rejected, and the position remained open and the employer continued to seek similarly qualified applicants. *McDonnell Douglas Corp. v Green, supra.*

© The Regents of the University of California

§4.179 2. Disparate Impact

Under the disparate impact theory, an individual can establish a prima facie case of discrimination if the individual shows that an employment-related practice, although neutral on its face and applied in a nondiscriminatory manner, nevertheless has an adverse impact on individuals sharing a common, protected characteristic. No intent need be shown. See, *e.g., Griggs v Duke Power Co.* (1971) 401 US 424, 28 L Ed 2d 158, 91 S Ct 849.

PRACTICE TIP: Employers that use "objective" promotional exams for their employees must be careful when considering disregarding examination results due to possible disparate impact. The Supreme Court held that in order to defend against disparate treatment claims by the employees who did well on the exam, the employer must show it had a "strong basis of evidence" that it would have been liable under disparate impact theory had it not disregarded the exam results. The employer cannot rely on purely statistical evidence, but must show that the tests were not job-related or that there existed an equally valid, less discriminatory alternative. *Ricci v DeStefano* (2009) ___ US ___, 174 L Ed 2d 490, 129 S Ct 2658.

© The Regents of the University of California

§4.180 3. Retaliation

It is unlawful under federal law (Title VII of the Civil Rights Act of 1964 (42 USC §§2000e—2000e-17)) and California law (Fair Employment and Housing Act (FEHA) (Govt C §§12900-12996)) to retaliate against an employee because he or she has made a charge, testified, assisted, or participated in any manner in an investigation, proceeding, hearing, or litigation under Title VII or the FEHA. Both statutes also prohibit retaliation for opposing discriminatory practices (not only for filing a charge). See 42 USC §2000e-3; Govt C §12940(f); *Fisher v San Pedro Peninsula Hosp.* (1989) 214 CA3d 590, 262 CR 842; *EEOC v Hacienda Hotel* (9th Cir 1989) 881 F2d 1504 (federal law). It is unlawful to retaliate against employees or applicants because they have made charges of discrimination under the Age Discrimination in Employment Act of 1967 (29 USC §§621-663) or 42 USC §1981, either for themselves or on behalf of another. *Gomez-Perez v Potter* (2008) __ US __, 170 L Ed 2d 887, 128 S Ct 1931. It is also unlawful under California law to discriminate against employees and applicants who exercise certain rights afforded by the Labor Code. Lab C §98.6. Former employees may sue under Title VII for retaliatory post-employment actions. See *Robinson v Shell Oil Co.* (1997) 519 US 337, 136 L Ed 2d 808, 117 S Ct 843.

Employer action constitutes actionable retaliation only if it has a substantial and material adverse effect on the terms and conditions of the plaintiff's employment. *Yanowitz v L'Oreal U.S.A., Inc.* (2005) 36 C4th 1028, 32 CR3d 436; *Akers v County of San Diego* (2002) 95 CA4th 1441, 116 CR2d 602.

One California court recognized a claim for "preemptive retaliation" when the plaintiff-employee had not yet engaged in any protected activity, but the allegedly retaliating managers knew she had grounds for a complaint and knew she was likely to be a witness in another employee's complaint proceedings. *Steele v Youthful Offender Parole Board* (2008) 162 CA4th 1241, 76 CR3d 632.

© The Regents of the University of California

D. Affirmative Defenses to Discrimination Allegations

§4.181 1. Bona Fide Occupational Qualification

Under the bona fide occupational qualification (BFOQ) affirmative defense, the employer must be able to prove a discriminatory practice based on sex, religion, or national origin is justified because all or substantially all of the individuals adversely affected by the practice are unable to safely and efficiently perform the job in question and because the essence of the business operation would otherwise be undermined. *International Union, Auto., Aerospace & Agric. Implement Workers v Johnson Controls, Inc.* (1991) 499 US 187, 113 L Ed 2d 158, 111 S Ct 1196; 42 USC §2000e-2(e)(1); Govt C §12940; 2 Cal Code Regs §7286.7(a).

© The Regents of the University of California

§4.182 2. Business Necessity

In a disparate impact case, under the business necessity affirmative defense, the employer must be able to prove there exists an overriding legitimate business purpose such that the discriminatory practice is necessary to the safe and efficient operation of the business and the challenged practice effectively fulfills the business purpose it is supposed to serve. The practice may still be unlawful, however, if the plaintiff can show there exists an alternative practice that would accomplish the business purpose equally well with a lesser discriminatory impact. See 42 USC §2000e-2(e), (k); *Griggs v Duke Power Co.* (1971) 401 US 424, 28 L Ed 2d 158, 91 S Ct 849. See also 2 Cal Code Regs §7286.7(b).

© The Regents of the University of California

§4.183 3. Job-Relatedness

When the employee has been able to show adverse impact, the employer must be able to show the practice is sufficiently related to an essential function of the job in question to warrant its use. See 42 USC §2000e-2(k)(1)(A)(i); *Albemarle Paper Co. v Moody* (1975) 422 US 405, 45 L Ed 2d 280, 95 S Ct 2362; *Griggs v Duke Power Co.* (1971) 401 US 424, 28 L Ed 2d 158, 91 S Ct 849; 2 Cal Code Regs §7287.4(e).

© The Regents of the University of California

§4.184 4. Conformity With Security Regulations

Discriminatory practices that conform to applicable security regulations established by the United States or the State of California are lawful. See, *e.g.,* 2 Cal Code Regs §7286.7(d).

© The Regents of the University of California

§4.185 5. Non-discrimination Plan or Affirmative Action Plan

Under federal law, discriminatory practice is lawful if it conforms to a bona fide voluntary affirmative action plan, a non-discrimination plan, an order of a state or federal court or administrative agency of proper jurisdiction, or is otherwise required by law. See, *e.g.,* 42 USC §2000e-2(h), (j). But see Cal Const art I, §31(a) (prohibiting discrimination and preferential treatment based on race, sex, color, or national origin). Under California law, state laws requiring "participation goals" or "hiring goals" are unconstitutional under Cal Const art I, §31(a). *Connerly v State Personnel Bd.* (2001) 92 CA4th 16, 112 CR2d 5.

© The Regents of the University of California

§4.186 E. Sexual Harassment

Sexual harassment is a form of discrimination based on sex prohibited by federal and California law. The federal statute generally invoked is Title VII of the Civil Rights Act of 1964. 42 USC §2000e-2(a)(1). See also 29 CFR §1604.11 (federal regulations on sexual harassment). The California statutory prohibition is the Fair Employment and Housing Act (FEHA). Govt C §12940(j). See also 2 Cal Code Regs §§7286.5(f), 7287.6(b), 7291.1(f)(1) (California regulations on sexual harassment).

© The Regents of the University of California

§4.187 1. Definition of Sexual Harassment

Sexual harassment involves:

- Unwelcome sexual advances;
- Requests for sexual favors; or
- Other verbal or physical conduct of a sexual nature.

When:

- Submission to sexual advances or behavior is made either explicitly or implicitly a term or condition of an individual's employment;
- Submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual; or
- Such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile, or offensive working environment.

See 29 CFR §1604.11(a); *Meritor Sav. Bank v Vinson* (1986) 477 US 57, 91 L Ed 2d 49, 106 S Ct 2399. See also *Harris v Forklift Sys., Inc.* (1993) 510 US 17, 126 L Ed 2d 295, 114 S Ct 367; *Ellison v Brady* (9th Cir 1991) 924 F2d 872.

NOTE: Same-sex harassment is actionable under Title VII, which generally prohibits discrimination because of sex that is so objectively offensive as to alter the conditions of the victim's employment. See *Oncale v Sundowner Offshore Servs., Inc.* (1998) 523 US 75, 140 L Ed 2d 201, 118 S Ct 998; *Rene v MGM Grand Hotel, Inc.* (9th Cir 2001) 243 F3d 1206.

California law uses the same basic definition of harassment as federal law. *Fisher v San Pedro Peninsula Hosp.* (1989) 214 CA3d 590, 262 CR 842; *Department of Fair Employment & Hous. v Madera County* (1990) (FEHC Decision No. FEP 84-85; C2-0217se; N-26041; 90-03) 1990 CAFEHC Lexis 11; *Department of Fair Employment & Hous. v Bee Hive Answering Serv.* (1984) (FEHC Decision No. FEP 80-81; A7-1047s; N-18839; 84-16) 1984 CAFEHC Lexis 1 and cases cited therein; 2 Cal Code Regs §§7286.5(f), 7287.6(b), 7291.1(f)(1).

© The Regents of the University of California

§4.188 a. Conduct of a Sexual Nature

The offensive conduct must be directed at the employee because of the employee's gender. Thus, the offensive conduct may be of a nonsexual nature. See*, e.g., Hicks v Gates Rubber Co.* (10th Cir 1987) 833 F2d 1406 (evidence of threats of physical violence and incidents of verbal abuse considered actionable); *Hall v Gus Constr. Co.* (8th Cir 1988) 842 F2d 1010 (co-workers subjected women to epithets and derogatory comments, did things of sexual nature to embarrass women, and showed women pornographic pictures).

© The Regents of the University of California

§4.189 b. Unwelcome Conduct

Conduct is "unwelcome" if the employee did not solicit or invite it, and the employee regarded the conduct as undesirable or offensive. *Moylan v Maries County* (8th Cir 1986) 792 F2d 746. The fact that sex-related conduct is "voluntary," in the sense that the complainant was not forced to participate against his or her will, is not a defense. *Meritor Sav. Bank v Vinson* (1986) 477 US 57, 91 L Ed 2d 49, 106 S Ct 2399. It is not essential that the complainant prove that he or she resisted the advances. *Bundy v Jackson* (DC Cir 1981) 641 F2d 934. A claimant could maintain a sexual harassment claim even if she had frequent sexual relations with her supervisor. *Meritor Sav. Bank v Vinson* (1986) 477 US 57, 91 L Ed 2d 49, 106 S Ct 2399.

© The Regents of the University of California

2. Quid Pro Quo Harassment

§4.190 a. Prima Facie Case

Elements of a prima facie case of quid pro quo harassment are:

- Person was subjected to unwelcome sexual advances;
- Harassment was sexually motivated;
- Person's reaction to supervisor's advances affected tangible aspect of employment; and
- Basis to impose liability on employer exists.

See *Burlington Indus., Inc. v Ellerth* (1998) 524 US 742, 141 L Ed 2d 633, 118 S Ct 2257; *Heyne v Caruso* (9th Cir 1995) 69 F3d 1475; *Henson v City of Dundee* (11th Cir 1982) 682 F2d 897; *Bundy v Jackson* (DC Cir 1981) 641 F2d 934. See also *Mogilefsky v Superior Court* (1993) 20 CA4th 1409, 26 CR2d 116 (claim of same-sex harassment is viable).

NOTE: Under federal law, denial of some tangible employment benefit is an essential element of a quid pro quo case. See, *e.g., Trautvetter v Quick* (7th Cir 1990) 916 F2d 1140. State law claims under the Fair Employment and Housing Act need not show loss of tangible employment benefits. Govt C §12940(h).

© The Regents of the University of California

§4.191 b. Preferential Treatment or Reverse Quid Pro Quo Harassment

When employment opportunities or benefits are granted because an individual submits to the employer's sexual advances or requests for sexual favors, the employer may be liable to other persons who were qualified but denied that employment opportunity or benefit. 29 CFR §1604.11(g); *Miller v Department of Corrections* (2005) 36 C4th 446, 30 CR3d 797. Employment-related favoritism based on coerced sexual conduct may constitute illegal harassment. See, *e.g., Priest v Rotary* (ND Cal 1986) 634 F Supp 571 (finding liability). But see *DeCintio v Westchester County Med. Ctr.* (2d Cir 1986) 807 F2d 304, cert denied (1987) 484 US 825 (no liability).

© The Regents of the University of California

§4.192 c. Equal Employment Opportunity Commission's Position

The Equal Employment Opportunity Commission's position is that not all types of sexual favoritism violate Title VII of the Civil Rights Act of 1964 (42 USC §§2000e—2000e-17). Isolated instances of favoritism toward a paramour, spouse, or friend may be unfair but do not discriminate against men or women in violation of Title VII, because both are disadvantaged for reasons other than their genders. Equal Employment Opportunity Commission, Policy Guide on Employer Liability for Sexual Favoritism Under Title VII, 8 FEP Manual 405:6817 (January 1990); Equal Employment Opportunity Commission, Compliance Manual, p N5051 (Bureau of National Affairs (BNA).

© The Regents of the University of California

3. Hostile Environment Sexual Harassment

§4.193 a. Federal Law

The unwelcome sexual conduct must have the purpose or effect of unreasonably interfering with the individual's work performance or creating an intimidating, hostile, or offensive working environment. 29 CFR §1604.11(a)(3). Plaintiff need not show economic injury or loss of tangible job benefit (*Meritor Sav. Bank v Vinson* (1986) 477 US 57, 91 L Ed 2d 49, 106 S Ct 2399), or the harassment seriously affected the psychological well-being of the plaintiff (*Harris v Forklift Sys., Inc.* (1993) 510 US 17, 126 L Ed 2d 295, 114 S Ct 367). A single, isolated comment typically does not create a hostile work environment. *Clark County Sch. Dist. v Breeden* (2001) 532 US 268, 149 L Ed 2d 509, 121 S Ct 1508.

© The Regents of the University of California

§4.194 b. California Law

One of the employment benefits protected by the Fair Employment and Housing Act (FEHA) is "a workplace free of harassment." 2 Cal Code Regs §§7286.5(f), 7287.6(b). Hostile or unwelcome sex-linked conduct that deprives its victims of a workplace free of such harassment is a violation of the FEHA whether or not the harassment results in the loss of some more tangible employment benefit. *Fisher v San Pedro Peninsula Hosp.* (1989) 214 CA3d 590, 262 CR 842; *Department of Fair Employment & Hous. v Madera County* (1990) (FEHC Decision No. FEP 84-85; C2-0217se; N-26041; 90-03) 1990 CAFEHC Lexis 11; *Department of Fair Employment & Hous. v Bee Hive Answering Serv.* (1984) (FEHC Decision No. FEP 80-81; A7-1047s; N-18839; 84-16) 1984 CAFEHC Lexis 1 and cases cited therein.

© The Regents of the University of California

§4.195 c. Elements of Hostile Environment Claim

The victim must show:

- He or she was subjected to sexual advances, to requests for sexual favors, or to other verbal or physical conduct of a sexual nature;
- The conduct was unwelcome; and
- The conduct was sufficiently severe or pervasive to alter conditions of employment and to create an abusive working environment.

Ellison v Brady (9th Cir 1991) 924 F2d 872; *EEOC v Hacienda Hotel* (9th Cir 1989) 881 F2d 1504; *Henson v City of Dundee* (11th Cir 1982) 682 F2d 897.

Whether an environment is "hostile" or "abusive" is determined by looking at all of the circumstances surrounding the discriminatory conduct, including *(Harris v Forklift Sys., Inc.* (1993) 510 US 17, 126 L Ed 2d 295, 114 S Ct 367):

- its frequency,
- its severity,
- whether it is physically threatening or humiliating, or a mere offensive utterance, and
- whether it unreasonably interferes with an employee's work performance.

© The Regents of the University of California

d. Standard Applicable to Hostile Environment Claim

§4.196 (1) Reasonable Person Standard

The Supreme Court has held a "reasonable person" standard applies, *i.e.,* that unlawful harassment creates a work environment that a reasonable person would find "hostile or abusive." *Harris v Forklift Sys., Inc.* (1993) 510 US 17, 126 L Ed 2d 295, 114 S Ct 367.

© The Regents of the University of California

§4.197 (2) Reasonable Woman Standard

The Ninth Circuit continues to hold that the "reasonable woman" standard applies, *i.e.,* that in determining whether harassment creates a work environment that a female employee would find hostile, the court must consider what is offensive and hostile to a "reasonable woman." *Steiner v Showboat Operating Co.* (9th Cir 1994) 25 F3d 1459 (citing *Harris v Forklift Sys., Inc.* (1993) 510 US 17, 126 L Ed 2d 295, 114 S Ct 367); *Ellison v Brady* (9th Cir 1991) 924 F2d 872.

© The Regents of the University of California

4. Employer Liability for Sexual Harassment

a. Quid Pro Quo Harassment

§4.198 (1) Federal Law

In quid pro quo cases of supervisor harassment of subordinate employees, the employer is vicariously liable for harassment by its supervisors. *Burlington Indus., Inc. v Ellerth* (1998) 524 US 742, 141 L Ed 2d 633, 118 S Ct 2257. If no tangible adverse employment action is taken, the employer may raise an affirmative defense to liability by proving (*Burlington Indus., Inc. v Ellerth*, *supra*):

- The employer exercised reasonable care to prevent and promptly correct any sexually harassing behavior; and
- The employee unreasonably failed to take advantage of any preventive or corrective opportunities provided by the employer to avoid harm otherwise.

© The Regents of the University of California

§4.199 (2) California Law

California employers are strictly liable under the Fair Employment and Housing Act (FEHA) for sexual harassment by a supervisor. *Department of Health Servs. v Superior Court of Sacramento County (McGinnis)* (2003) 31 C4th 1026, 6 CR3d 441.

PRACTICE TIP: The doctrine of "avoidable consequences" applies to actions under FEHA, meaning that damages can be reduced if the harassed employee has not taken reasonable steps to stop the harassment, but, unlike under federal law (see *Faragher v City of Boca Raton* (1998) 524 US 775, 141 L Ed 2d 662, 118 S Ct 2275, and *Burlington Indus., Inc. v Ellerth* (1998) 524 US 742, 141 L Ed 2d 633, 118 S Ct 2257), the doctrine does not provide a complete defense. *Department of Health Servs. v Superior Court of Sacramento County, supra*. Further, a public employee need not exhaust internal administrative remedies before filing a complaint with the Department of Fair Employment and Housing. *Schifando v City of Los Angeles* (2003) 31 C4th 1074, 6 CR3d 457.

© The Regents of the University of California

b. Hostile Environment Harassment

§4.200 (1) Federal Law

Employer liability for hostile environment harassment committed by a supervisor most often arises when the agency knew or should have known about the harassment and failed to take prompt, remedial action. When an employee is subjected to sexual harassment in which no tangible adverse employment action is taken, the employer may raise an affirmative defense by proving that:

- The employer exercised reasonable care to prevent and promptly correct any sexually harassing behavior; and
- The employee unreasonably failed to take advantage of any preventive or corrective opportunities provided by the employer or to avoid harm otherwise.

See *Faragher v City of Boca Raton* (1998) 524 US 775, 141 L Ed 2d 662, 118 S Ct 2275; *Burlington Indus., Inc. v Ellerth* (1998) 524 US 742, 141 L Ed 2d 633, 118 S Ct 2257.

© The Regents of the University of California

§4.201 (2) California Law

An employer is strictly liable for sexual harassment under the Fair Employment and Housing Act if the harasser is an agent or supervisor. An employer is only liable for harassment of an employee by anyone other than an agent or supervisor if the employer knew or should have known about the conduct and failed to take immediate and appropriate corrective action. Govt C §12940(j)(1); *Kelly-Zurian v Wohl Shoe Co.* (1994) 22 CA4th 397, 27 CR2d 457.

© The Regents of the University of California

§4.202 c. Co-employee Conduct

An employer is liable for harassment by co-employees when the employer (or its agents or supervisors) knows or should have known of this conduct and fails to take immediate and appropriate corrective action. Govt C §12940(j)(1). Both federal and California law apply the same standard for employer's liability for co-employee harassment. See Govt C §12940(j)(i); 2 Cal Code Regs §7287.6(b)(3); *Department of Fair Employment & Hous. v Madera County* (1990) (FEHC Decision No. FEP 84-85; C2-0217se; N-26041; 90-03) 1990 CAFEHC Lexis 11; 29 CFR §1604.11(d); *Hall v Gus Constr. Co.* (8th Cir 1988) 842 F2d 1010 (employer liable for co-worker harassment when employer knew of such harassment but did little to stop it); *Barrett v Omaha Nat'l Bank* (8th Cir 1984) 726 F2d 424 (finding harassment by co-worker took place but employer took prompt remedial steps resulting in no liability).

© The Regents of the University of California

§4.203 d. Non-employee Conduct

An employer is liable for harassment by non-employees (including independent contractors) when the employer (or its agents or supervisors) knows or should have known of harassment and fails to take immediate and appropriate corrective action. Govt C §12940(j); 29 CFR §1604.11(e); *Folkerson v Circus Circus Enters., Inc.* (9th Cir 1997) 107 F3d 754; Equal Employment Opportunity Commission, Decision No. 84-3, 34 FEP 1887 (February 16, 1984) (employer liable when waitress subjected to sexual harassment by male customers and failed to take corrective action); *People v Hamilton* (Sup Ct 1986) 511 NYS2d 190 (during pre-employment polygraph administered by independent contractor, examiner fondled female applicants and asked them non—job-related questions about their sexual experiences). See *Bradley v Department of Corrections & Rehabilitation* (2008) 158 CA4th 1612, 71 CR3d 222.

© The Regents of the University of California

5. Individual Liability for Sexual Harassment

§4.204 a. Federal Law

Individual supervisors are not liable for monetary damages under Title VII of the Civil Rights Act of 1964 (42 USC §§2000e—2000e-17) or the Age Discrimination in Employment Act (ADEA) (29 USC §§621-663). *Miller v Maxwell's Int'l, Inc.* (9th Cir 1993) 991 F2d 583; *Sattar v Unocal Corp.* (ND Cal 1993) 829 F Supp 331. However, individual supervisors may be subject to injunctive orders under Title VII. *Sattar v Unocal Corp., supra*.

© The Regents of the University of California

§4.205 b. California Law

All employees are personally liable for engaging in unlawful harassment, but not for discrimination that does not involve harassment. Govt C §12940(j)(3); *Reno v Baird* (1998) 18 C4th 640, 76 CR2d 499; *Janken v GM Hughes Electronics* (1996) 46 CA4th 55, 53 CR2d 741. A non-harassing second tier supervisor who fails to act on an employee's sexual harassment complaint cannot be held personally liable as an aider and abettor for failing to prevent the harassment. *Fiol v Doellstedt* (1996) 50 CA4th 1318, 58 CR2d 308. Further, although the employer is liable for retaliation, individual employees are not. *Jones v The Lodge at Torrey Pines Partnership* (2008) 42 C4th 1158, 72 CR3d 624.

© The Regents of the University of California

6. Sexual Harassment Prevention and Policies

§4.206 a. Preventing Sexual Harassment

An employer should take all steps necessary to prevent sexual harassment from occurring, including, but not limited to:

- Affirmatively raising the subject;
- Expressing strong disapproval;
- Ensuring that all supervisory employees receive mandatory training on harassment and discrimination, in accordance with Govt C §12950.1;
- Establishing, disseminating, and implementing an effective anti-harassment policy;
- Informing all employees of policy and procedure for bringing their complaints of alleged harassment;
- Developing methods to sensitize all concerned, including training of employees;
- Fairly, thoroughly, and promptly investigating complaints;
- Taking prompt action reasonably calculated to end harassment and prevent it from recurring; and
- Developing appropriate sanctions.

See *Ellison v Brady* (9th Cir 1991) 924 F2d 872; 29 CFR §1604.11(f). On investigating and responding to sexual harassment, see §4.208.

© The Regents of the University of California

§4.207 b. Creating Effective Sexual Harassment Policy

An employer should do the following to create an effective sexual harassment policy:

- Put the policy in writing.
- Have the policy state that
- Sexual harassment in any form will not be tolerated;
- The employer will investigate alleged violations; and
- The employer will take prompt appropriate action as a result of such investigation and offenders will be subject to discipline up to and including discharge.
- Define sexual harassment and include clear examples.
- Require employees and supervisors to report incidents they experience or witness without fear of reprisal.
- Include effective complaint and investigation procedures, including procedures that allow employees to bypass supervisors who they believe may be a perpetrator and allow complaints to be filed with an individual outside the chain of command.
- Refer to the complaint processes of the Department of Fair Employment and Housing and the Equal Employment Opportunity Commission and provide information about how to contact the local offices of these agencies.
- Distribute the policy to all employees at the commencement of employment relationship, and retain evidence that the policy has been distributed (redistribute policy with paychecks at least twice each year thereafter).

See Govt C §§12940(j), 12950; 29 CFR §1604.11(f); *Ellison v Brady* (9th Cir 1991) 924 F2d 872.

© The Regents of the University of California

§4.208 7. Investigating and Responding to Sexual Harassment

The employer must conduct a prompt, objective, and thorough investigation. See *Swenson v Potter* (9th Cir 2001) 271 F3d 1184. When an employee makes an allegation or complaint of harassment, the employer should remind all employees of the anti-harassment policy and the seriousness of sexual harassment. The employer must require supervisory employees to attend periodic mandatory sexual harassment training. See Govt C §12950.1; 2 Cal Code Regs §7288.0.

PRACTICE TIP: In conducting an investigation, consider the following steps and factors:

(1) Choose an appropriate investigating team. To ensure neutrality, consider including an outside trained investigator. Remember that even if an attorney investigator is used, the attorney-client privilege and work product doctrine might not apply if the sufficiency of the investigation is challenged or if the employer relies on the investigation as a defense. See *Kaiser Found. Hosps. v Superior Court* (1998) 66 CA4th 1217, 78 CR2d 543.

(2) Review all relevant documents.

(3) Interview the alleged victim, alleged harasser, co-workers, supervisors, and others identified by both the alleged victim and alleged harasser as likely to have relevant information.

(4) If applicable, protect the attorney-client and work product privileges.

(5) Bear in mind that the employer has a duty to investigate allegations of harassment even if the harassment has stopped. *Fuller v City of Oakland* (9th Cir 1995) 47 F3d 1522.

If, after the investigation, the employer determines that harassment has occurred, it should sanction the harasser with some form of disciplinary action, in accordance with the disciplinary guidelines, and advise the complainant that it has taken appropriate action. The action taken must be reasonably calculated to end the harassment. *Intlekofer v Turnage* (9th Cir 1992) 973 F2d 773; *Ellison v Brady* (9th Cir 1991) 924 F2d 872. The effectiveness of the employer's action is measured by the "twin purposes of ending the current harassment and deterring future harassment by the same offender or others." *Fuller v City of Oakland* (9th Cir 1995) 47 F3d 1522 (citing *Ellison v Brady, supra*). See also *Cotran v Rollins Hudig Hall Int'l, Inc.* (1998) 17 C4th 93, 69 CR2d 900 (employer sued for alleged wrongful discharge of employee charged with sexual harassment does not need to prove misconduct actually occurred, but only that it acted in good faith after appropriate investigation and there were reasonable grounds for action).

If the investigation is inconclusive, the employer should so advise the parties and reaffirm the employer's anti-harassment policy by posting the policy, redistributing an updated policy, issuing a generalized warning/reminder for all employees to refrain from engaging in any retaliatory action against the complaining employee, and providing additional training on sexual harassment.

© The Regents of the University of California

§4.209 8. Defamation Claim by Alleged Harasser

The investigation and related discipline of an alleged harasser may raise defamation issues; a false complaint of sexual harassment could lead to a defamation suit. See *EEOC v Levi Strauss & Co.* (ND Ill 1981) 515 F Supp 640. However, there is a qualified privilege for:

- Statements made during investigations by investigators and witnesses who make defamatory statements in good faith and for a proper purpose to one who has a legitimate interest to receive the information. CC §47(4)(c); *DiSilva v Polaroid Corp.* (D Mass 1985) 45 FEP Cases 639.
- Employers for publicizing the fact that it has enforced its policy against sexual harassment, without disclosing specific charges against an employee. *Garziano v E.I. du Pont de Nemours & Co.* (5th Cir 1987) 818 F2d 380.

A qualified privilege may be lost by statements beyond the scope of the investigation, or to persons who have no need to know about the sexual harassment claim. *Stockley v AT&T Info. Sys., Inc.* (ED NY 1988) 687 F Supp 764.

© The Regents of the University of California

§4.210 9. Other Theories of Liability Arising Out of Sexual Harassment

The following are other theories of liability arising out of sexual harassment:

- Breach of public policy (*Rojo v Kliger* (1990) 52 C3d 65, 276 CR 130);
- Assault and battery;
- Infliction of emotional distress;
- Invasion of privacy;
- Defamation (see §4.209);
- False imprisonment;
- Constitutional violations giving rise to actions under 42 USC §1983 (*Bohen v City of E. Chicago* (7th Cir 1986) 799 F2d 1180); and

NOTE: Employee has the right to be free from sexual harassment under the equal protection clause of the Fourteenth Amendment to the United States Constitution. Sexual harassment constitutes sexual discrimination for equal protection purposes and is a violation of §1983. But see *Woodward v City of Worland* (10th Cir 1992) 977 F2d 1392 (employer only liable for violation of equal protection clause if supervisors acted "under color of state law").

- Liability under federal Title IX of the Education Amendments of 1972 (20 USC §§1681-1688) for recipients of Title IX funding (*e.g.,* school boards) for student-on-student sexual harassment if the funding recipient acted with deliberate indifference to known acts of harassment, the harasser was under the school's disciplinary authority, and the harassment was sufficiently severe and pervasive to interfere with educational opportunities (*Davis v Monroe County Bd. of Educ.* (1999) 526 US 629, 143 L Ed 2d 839, 119 S Ct 1661).

© The Regents of the University of California

§4.211 10. Posting and Pamphlet Requirement

State law requires employers to post a poster developed by the Department of Fair Employment and Housing and distribute specified kinds of information to each employee about sexual harassment. See Govt C §12950.

© The Regents of the University of California

§4.212 11. Mandatory Training

All California employers with 50 or more employees or contractors must provide at least 2 hours of sexual harassment training to all supervisory employees who have not received such training every 2 years. All newly hired supervisors (including persons newly promoted to supervisor) are required to attend 2 hours of sexual harassment training within 6 months of their hiring or promotion. Govt C §12950.1.

© The Regents of the University of California

§4.213 F. Selection and Hiring Practices

The non-discrimination laws affect the criteria that employers may use to recruit and select individuals for employment, training, promotion, and other employment opportunities. See 2 Cal Code Regs §§7287.1-7287.6; 29 CFR pt 1607.

© The Regents of the University of California

§4.214 1. Testing

The Equal Employment Opportunity Commission (EEOC) has adopted uniform guidelines on employee selection procedures, published at 29 CFR pt 1607. These deal in great detail with testing of applicants and employees.

PRACTICE TIP: In general, it is dangerous for employers to use tests that are not developed by a professional and have not been validated under one or more of the criteria established in the EEOC guidelines.

© The Regents of the University of California

§4.215 2. Performance Standards

The Equal Employment Opportunity Commission (EEOC) has also published guidance on enforcing performance standards under the ADA (42 USC §§12101-12213): EEOC, The Americans with Disabilities Act: Applying Performance and Conduct Standards to Employees with Disabilities (2008).

The EEOC has also updated the section in its compliance manual on religious discrimination: EEOC, Compliance Manual, §12 (Religious Discrimination).

Both of these publications are available on the EEOC's website at www.eeoc.gov.

© The Regents of the University of California

§4.216 3. Pre-employment Inquiries

Both the Equal Employment Opportunity Commission and the Department of Fair Employment and Housing have ruled certain inquiries are unlawful because they can directly or indirectly identify an individual's protected status.

An employer may make a medical or psychological inquiry of a job applicant only if (Govt C §12940(e)):

- a conditional job offer has been made, and
- the inquiry is consistent with business necessity and is job-related.

See, *e.g.,* 29 CFR §1630.13 (questions regarding disabilities); 2 Cal Code Regs §7287.3(b). But see 29 CFR §§1604.7 (permitting good faith inquiry into gender and marital status), 1605.3 (permitting questions about religion if no exclusionary effect, or if supported by business necessity), 1625.5 (questions about age permissible but closely scrutinized for discriminatory intent).

Federal and state fair credit and reporting act requirements must be adhered to when an employer obtains background information regarding a job applicant or an employee in the form of a "consumer report" or "investigative consumer report" from a third party "consumer reporting agency." 15 USC §§1681-1681x; CC §§1785.1-1785.22.

© The Regents of the University of California

§4.217 4. Job Requirements

Job requirements may not be used as a subterfuge for discrimination. Thus, they must be (*Roth v Rhodes* (1994) 25 CA4th 530, 538, 30 CR2d 706)

- uniformly applied for all similarly situated individuals, and
- defensible as sufficiently job-related to an essential function of the job.

See also *Davis v Indiana State Police* (7th Cir 2008) 541 F3d 760, 761.

© The Regents of the University of California

§4.218 5. Loyalty Oaths

The loyalty oath found in the California Constitution cannot be required of applicants for public agency jobs if swearing allegiance would violate the applicants' religious beliefs. *Bessard v California Community Colleges* (ED Cal 1994) 867 F Supp 1454.

© The Regents of the University of California

G. Constructive Discharge

§4.219 1. Federal Law

Under federal law, an employee is constructively discharged when, looking at the totality of circumstances, a reasonable person in the employee's position would have felt he or she was forced to quit because of intolerable and discriminatory working conditions. See *Steele v Offshore Shipbuilding, Inc.* (11th Cir 1989) 867 F2d 1311; *Watson v Nationwide Ins. Co.* (9th Cir 1987) 823 F2d 360.

© The Regents of the University of California

§4.220 2. California Law

Under California law on constructive discharge, an employee must show that the employer had either intentionally created or knowingly permitted working conditions that were so intolerable or aggravated at the time of the employee's resignation that a reasonable employer would realize that a reasonable person in the employee's position would be compelled to resign. *Turner v Anheuser-Busch, Inc.* (1994) 7 C4th 1238, 32 CR2d 223; *Gibson v Aro Corp.* (1995) 32 CA4th 1628, 38 CR2d 882.

© The Regents of the University of California

§4.221 H. Discrimination Based on Disability

Laws prohibiting discrimination based on disability include the ADA (42 USC §§12101-12213), the Rehabilitation Act of 1973 (29 USC §§701-796*l*), and California's Fair Employment and Housing Act (FEHA) (Govt C §§12926(i)(1), (k)(1), 12926.1(a) (applying to California employers with five or more employees and prohibiting discrimination in employment to broader extent than ADA).

Title I of the ADA generally provides that no covered entity may discriminate against a qualified individual with a disability because of such disability in regard to job application procedures, the hiring, advancement, or discharge of employees, employee compensation, job training, and other terms, conditions, and privileges of employment. 42 USC §12112. The effective date for Title I of the ADA was July 26, 1992, and it does not apply retroactively. *Chiari v City of League City* (5th Cir 1991) 920 F2d 311; *Barraclough v ADP Automotive Claims Servs., Inc.* (ND Cal 1993) 818 F Supp 1310. Local government agencies are covered by the ADA's employment provisions.

Title II of the ADA prohibits local governmental agencies from excluding qualified individuals from participating in or receiving the benefits of the entity's services, programs, or activities on the basis of a disability. 42 USC §12132. The regulations prohibit discrimination on the basis of disability in employment under any service, program, or activity conducted by a public entity. 28 CFR §35.140 (arguably protecting disabled individuals applying for or participating in volunteer activities with cities, such as volunteer fire and police programs).

NOTE: The ADA supplements, but does not supersede, the Rehabilitation Act.

© The Regents of the University of California

§4.222 1. Qualified Individual With a Disability

A qualified individual with a disability means an individual with a disability who (42 USC §12111; 29 CFR §1630.2(m)):

- Satisfies the requisite skill, experience, education, and other job-related requirements of the position, and
- With or without reasonable accommodation, can perform the essential functions of the employment position that such individual holds or desires.

© The Regents of the University of California

§4.223 a. Definition of Disability

The term "disability," with respect to an individual, means (42 USC §12102; 29 CFR §1630.2(h), (k)):

- A physical or mental impairment that substantially limits one or more of the major life activities;
- A record of such impairment; or
- Being regarded as having such impairment.

The determination of whether an impairment substantially limits a major life activity must be made without regard to ameliorative effects of mitigating measures such as medication, prosthetics, hearing aids and cochlear implants, mobility devices, oxygen therapy, assistive technology, reasonable accommodations or auxiliary aids or services, or learned behavioral or adaptive neurological modifications. 42 USC §12102.

NOTE: The definition of "disability" under California's Fair Employment and Housing Act (FEHA) differs from the ADA definition in that under FEHA, a disability need only "limit" a major life activity by making the achievement of that major life activity more difficult. Govt C §§12926(i)(1)(A)-(B), 12926(k)(1)(B)(i), 12926.1(c); *Colmenares v Braemar Country Club, Inc.* (2003) 29 C4th 1019, 130 CR2d 662 (FEHA provides broader coverage than federal law by defining disability as one that "limits" rather than "substantially limits" one or more major life activities).

© The Regents of the University of California

§4.224 b. Individuals Who Are Not Disabled

Exceptions to the definitions of "disability" and "individuals with a disability" are as follows (42 USC §§12114(a), 12210(a), 12211; 29 CFR §1630.3(a), (d)):

- Persons currently engaged in the illegal use of drugs, except persons who (42 USC §§12114(b), 12210(b); 29 CFR §1630.3(b)):
- are currently enrolled in a drug rehabilitation program and no longer engaged in such use;
- have successfully completed a drug rehabilitation program and are no longer engaging in the use of illegal drugs;
- have otherwise been rehabilitated; or
- are erroneously regarded as engaging in such use.

NOTE: In California, there is no duty to reasonably accommodate the use of medical marijuana for the treatment of a disability. *Ross v RagingWire Telecommunications, Inc.* (2008) 42 C4th 920, 70 CR3d 382.

- Transvestism, transsexualism, pedophilia, exhibitionism, voyeurism, gender identity disorders not resulting from physical impairments, or other sexual behavior disorders.
- Compulsive gambling, kleptomania, or pyromania.
- Psychoactive substance use disorders resulting from the current illegal use of drugs.
- Homosexuality and bisexuality.

NOTE: California's FEHA and the ADA both require that an individual be assessed for a disability without regard to corrective measures. Govt C §12926(i)(A), (k)(B)(i); 42 USC §12102. The ADA provides an exception for ordinary eyeglasses or contact lenses. 42 USC §12102.

© The Regents of the University of California

§4.225 c. Essential Functions

The essential functions are the fundamental job duties of the position applied for or currently held, but not the marginal functions of that position. 29 CFR §1630.2(n)(1). A function may be essential because (29 CFR §1630.2(n)(1)-(2)):

- The reason the position exists is to perform that function;
- A limited number of employees are available to whom the function can be distributed; and/or
- The function is highly specialized or unique.

© The Regents of the University of California

§4.226 d. Obesity Is Not Disability Per Se

Under the ADA (42 USC §§12101-12213), Rehabilitation Act of 1973 (29 USC §§701-796*l*), and California Fair Employment and Housing Act (FEHA) (Govt C §§12900-12996), being overweight is not a disability per se. An overweight condition qualifies as a disability if it results from a physiological disorder affecting the body's systems. See, *e.g., Cassista v Community Foods, Inc.* (1993) 5 C4th 1050, 22 CR2d 287 (FEHA); *Tudyman v United Airlines* (CD Cal 1984) 608 F Supp 739 (weight due to voluntary bodybuilding not disability under Rehabilitation Act). See also 29 CFR pt 1630, App §1630.2(h) (weight that is not result of physiological disorder is not disability under ADA); Govt C §12926.1(d).

© The Regents of the University of California

§4.227 2. Types of Discrimination Prohibited

Qualified employees with a disability must be treated the same as qualified non-disabled employees in all terms, conditions, and privileges of employment, including (29 CFR §1630.4):

- Recruiting, advertising, and job application procedures;
- Hiring, upgrading, promotion, award of tenure, demotion, transfer, layoff, termination, right of return from layoff, and rehiring;
- Rates of pay or any other form of compensation and changes in compensation;
- Job assignments, job classifications, organizational structures, position descriptions, lines of progression, and seniority lists;
- Leaves of absence, sick leave, or any other leave;
- Fringe benefits available by virtue of employment, whether or not administered by the covered entity, including insurance;
- Selection and financial support for training;
- Activities sponsored by the covered entity, including social and recreational programs; and
- Any other term, condition, or privilege of employment.

Employers are also prohibited from engaging in the following (29 CFR §§1630.4-1630.12):

- Participating in any contractual or other relationship with an employment or referral agency, labor union, organization providing fringe benefits, training or apprenticeship programs, that subject qualified employees or applicants to discrimination based on disability;
- Devising standards, criteria, or other methods of administration that have the effect of discrimination based on disability;
- Excluding or otherwise denying equal jobs or benefits to a qualified individual because of the known disability of an individual with whom the qualified individual is known to have a relationship or association;
- Not making reasonable accommodations to the known physical or mental limitations of any otherwise qualified individual with a disability who is an applicant or employee unless the employer can demonstrate undue hardship for such accommodations;
- Denying employment opportunities to a job applicant or employee who is an otherwise qualified individual with a disability, if such denial is based on the need to make reasonable accommodations to the employee/applicant;
- Using qualification standards, employment tests, or other selection criteria that screen out or tend to screen out an individual with a disability or class of individuals with a disability unless the standard, test, or other selection criteria is job-related and consistent with business necessity; and
- Retaliating against, coercing, interfering with, or intimidating an individual for opposing any act or practice made unlawful by the ADA.

© The Regents of the University of California

§4.228 3. Reasonable Accommodation

The ADA requires an employer to make reasonable accommodations to a qualified individual with a disability.

NOTE: An employer is required to provide reasonable accommodation only to the "physical or mental limitations" from disability that are *known* to the employer. 42 USC §12112(b)(5)(A).

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/4 Personnel/§4.229 a. Definition of 'Reasonable Accommodation'

§4.229 a. Definition of "Reasonable Accommodation"

The EEOC regulations broadly define "reasonable accommodation" as follows (29 CFR §1630.2(o)(1)):

- Modifications or adjustments to a job application process that enable a qualified applicant with a disability to be considered for the position;
- Modifications or adjustments to the work environment, or to the manner or circumstances under which the position held or desired is customarily performed, that enable the qualified individual with a disability to perform the essential functions; or
- Modifications or adjustments that enable a disabled employee to enjoy equal benefits and privileges of employment.

© The Regents of the University of California

§4.230 b. Best Available Accommodation Not Required

When more than one accommodation will provide the disabled individual with an equal employment opportunity, the employer may choose between these reasonable accommodations. The employer may make this decision based on which accommodation is less expensive or more readily available.

The disabled individual may elect to provide his or her own accommodation. This does not relieve the employer of its duty to accommodate, should the individual later be unable or unwilling to continue providing the accommodation. 29 CFR §1630, App.

© The Regents of the University of California

§4.231 c. Examples of Reasonable Accommodations

Examples of reasonable accommodations include (29 CFR §1630.2(o)(2)):

- Making existing facilities used by employees readily accessible to and usable by individuals with disabilities; and
- Job restructuring;
- Part-time or modified work schedules;
- Leaves of absence (*Hansen v Lucky Stores, Inc.* (1999) 74 CA4th 215, 226, 87 CR3d 487);
- Reassignment to a vacant position;
- Acquisition or modifications of equipment or devices;
- Appropriate adjustment or modifications of examinations, training materials, or policies;
- The provision of qualified readers or interpreters; and
- Other similar accommodations for individuals with disabilities.

NOTE: The Fair Employment and Housing Act (Govt C §§12900-12996) also requires that the employer make known to the employee other suitable job opportunities to determine whether the employee is interested in or qualified for those positions. *Prilliman v United Air Lines, Inc.* (1997) 53 CA4th 935, 62 CR2d 142.

© The Regents of the University of California

§4.232 4. Interactive Process

The ADA requires the employer to engage in an interactive process with qualified individuals with a disability to assess reasonable accommodations. 42 USC §12112(b)(5)(A); 29 CFR §1630.2(o)(3). The FEHA also requires employers to engage in a timely, good faith, interactive process to determine effective reasonable accommodations. Govt C §12940(n).

© The Regents of the University of California

§4.233 5. Employer Defenses to Disability Discrimination Claims

Defenses against charges of discrimination may include the following:

- **Legitimate, nondiscriminatory reason** justifies challenged action (29 CFR §1630.15(a));
- **Job-related and consistent with business necessity** criteria screened out a person with a disability, and performance cannot be accomplished with reasonable accommodation (29 CFR §1630.15(b)-(e)).
- **Direct threat**, *i.e.,* a significant risk of substantial harm to the health and safety of others is posed by disabled individual and cannot be eliminated or reduced by a reasonable accommodation (42 USC §12111(3); 29 CFR §1630.2(r); *Chevron U.S.A. Inc. v Echazabal* (2002) 536 US 73, 153 L Ed 2d 82, 122 S Ct 2045).

NOTE: The FEHA differs from the ADA in that the FEHA allows the employer to refuse to hire or to discharge an individual who cannot perform essential duties in a manner that would not endanger the health or safety of the individual or of others. Govt C §12940(a)(1).

- **Undue hardship** on the covered entity would be posed by the reasonable accommodation (42 USC §12112(b)(5)(A); 29 CFR §1630.15(d)).

PRACTICE TIP: "Undue hardship" means an accommodation would be unduly costly, expensive, substantial, or disruptive; or it would fundamentally alter the nature or operation of the business. 29 CFR §1630.2(p). In determining whether an accommodation would impose an "undue hardship" consider (42 USC §12111(10)(B); 29 CFR §1630.2(p)(2))

(1) the nature and net cost of the accommodation;

(2) the overall financial resources of the facility(ies) involved in providing the accommodation, the number of employees at such facility, and the effect on expenses and resources;

(3) the overall financial resources of the covered entity, the overall size of the business of the covered entity with respect to the number of its employees, and the number, type, and location of its facilities;

(4) the type of operation(s) of the covered entity, including the composition, structure, and functions of its workforce, and the geographic separateness and administrative or fiscal relationship of the facility(ies) in question to the covered entity; and

(5) the impact of the accommodation on the operation of the facility, including on the ability of other employees to perform their duties and the facility's ability to conduct business.

- **Other federal law or regulation** requires, necessitates, or prohibits an action that would otherwise be required by the ADA. 29 CFR §1630.15(e). See 29 CFR §1630.15.

© The Regents of the University of California

6. Pre- and Post-employment Inquiries and Medical Examinations

§4.234 a. Pre-offer Medical Examination and Inquiry

A covered entity cannot conduct a pre-offer medical examination, or make pre-job offer inquiries of a job applicant as to whether such applicant is an individual with a disability or as to the nature or severity of such disability. 42 USC §12112(d)(2)(A); 29 CFR §1630.13.

However, an employer may make pre-employment offer inquiries into the ability of an applicant to perform job-related functions or whether the applicant will require any reasonable accommodation to take the test for the position. 42 USC §12112(d)(2)(B); 29 CFR §1630.14(a).

© The Regents of the University of California

§4.235 b. Post-offer Examination and Inquiry

An employer may require a post-offer medical examination of the applicant only

- after an offer of employment is made, and
- if the same examination is required of all persons considered for the position.

The offer of employment can be contingent on the successful completion of the medical examination. 42 USC §12112(d)(3); 29 CFR §1630.14(c).

The FEHA differs from the ADA in that the FEHA allows a post-offer examination to be given only if the examination is (Govt C §12940(e)(3)):

- job-related,
- consistent with business necessity, and
- given to all entering employees in the same job classification.

© The Regents of the University of California

§4.236 c. Post-employment Exam and Inquiries

An employer cannot require a medical examination or make inquiries of an employee regarding disabilities unless the examination or inquiry is job-related and consistent with business necessity. 42 USC §12112(d)(4)(A); 29 CFR §1630.14(c). See also *Yin v State* (9th Cir 1996) 95 F3d 864 (health problems must have had "substantial and injurious impact on an employee's job performance" before employer can require examination). The FEHA is consistent with the ADA in this regard. Govt C §12940(f)(2).

© The Regents of the University of California

§4.237 7. Restrictions on Drug and Alcohol Use

The ADA generally permits employers to (42 USC §12114(c)):

- Prohibit the illegal use of drugs and the use of alcohol at the workplace by all employees;
- Prohibit employees from possessing alcohol or illegal drugs in the workplace;
- Require employees to conform to the Drug Free Workplace Act of 1988 (41 USC §§701-707); and
- Hold an employee who is an alcoholic or an individual currently engaging in the illegal use of drugs to the same qualification standards as other employees, even if the employee's unsatisfactory behavior or performance is related to the employee's drug use or alcoholism.

© The Regents of the University of California

§4.238 8. Drug Testing

The ADA does not preclude drug testing for employees. The ADA neither encourages, authorizes, nor prohibits drug tests, and the results of drug tests may be used for disciplinary action. 29 CFR §1630.16(c). However, federal and California constitutions may restrict drug testing of employees and applicants. See §4.19.

© The Regents of the University of California

§4.239 9. Effect of Other Disability Laws

In addition to the ADA, most public employers are subject to other "disability" discrimination laws at the federal, state, and local level. In California, for example, employers must comply with the FEHA, which prohibits discrimination on the basis of physical or mental disability, medical condition, and genetic testing. Govt C §12940.

NOTE: The ADA does not supersede state, county, or local laws, regulations, or ordinances that provide greater or equal protection for the rights of individuals with disabilities. However, if the state or local law is inconsistent with ADA obligations, the employer cannot rely on that law or regulation to defend its actions. 42 USC §12201(b); 29 CFR §1630.15(e).

PRACTICE TIP: A possible defense to a charge of discrimination under the ADA is a challenged action is required or necessitated by another federal law or regulation or another federal law or regulation prohibits an action that would be required by the ADA. 29 CFR §1630.15(e). See §4.233.

© The Regents of the University of California

§4.240 10. Exhaustion of Administrative Remedies

In its committee report, Congress expressed its intent the ADA not require exhaustion of administrative remedies before a civil action may be brought. See, *e.g., J.L. v Social Security Admin.* (9th Cir 1992) 971 F2d 260 (federal law).

Similarly, a public employee need not exhaust internal administrative remedies before filing a complaint for disability discrimination under FEHA. *Schifando v City of Los Angeles* (2003) 31 C4th 1074, 6 CR3d 457.

© The Regents of the University of California

§4.241 11. Effect of ADA on Equal Protection Analysis

The ADA states that disabled individuals "are a discreet and insular minority," historically faced with restrictions, limitations, and political powerlessness. 42 USC §12101(a)(7). This suggests, for equal protection purposes, disabled individuals are members of a protected class. However, the only court that has thus far addressed the question stated in dicta that the ADA does "not purport to alter the standard for equal protection claims." *More v Farrier* (8th Cir 1993) 984 F2d 269. The Supreme Court declined to address the question in *Heller v Doe* (1993) 509 US 312, 125 L Ed 2d 257, 113 S Ct 2637.

© The Regents of the University of California

I. Procedures for Enforcing Discrimination Laws

§4.242 1. Title VII and Title I of the ADA

The Equal Employment Opportunity Commission (EEOC) is the major federal agency that enforces the federal nondiscrimination laws. Enforcement procedures begin with the filing of a charge with the EEOC.

© The Regents of the University of California

§4.243 a. The Charge

A charge may be filed with the Equal Employment Opportunity Commission (EEOC) by any of the following:

- The EEOC itself,
- Any person claiming to be aggrieved, or
- Any person on behalf of an aggrieved person.

The charge must be in writing and under oath or affirmation. Once the EEOC receives a charge, notice is to be served on the employer within 10 days. 42 USC §§2000e-5—2000e-6; 29 CFR §1601.7. However, the EEOC's failure to serve the employer with notice may not be fatal to the employee's claim. *Federal Express Corp. v Holowecki* (2008) 552 US 389, 170 L Ed 2d 10, 128 S Ct 1147.

© The Regents of the University of California

§4.244 b. Timeliness

In general, employee claims accrue on awareness of the actual injury. *Lukovsky v City & County of San Francisco* (9th Cir 2008) 535 F3d 1044, cert denied sub nom *Zolotarev v City & County of San Francisco* (2009) ___US ___, 173 L Ed 2d 1086, 129 S Ct 1997. A charge alleging a violation of Title VII of the Civil Rights Act of 1964 (42 USC §§2000e—2000e-17) must be filed with the EEOC within 180 days after the occurrence in question. This time limit is extended in a "deferral agency" state, such as California. In California, the charge must first be filed with the Department of Fair Employment and Housing. The charge may thereafter be filed with the EEOC within 300 days of the occurrence of the incident, or within 30 days of receiving notice the deferral agency has terminated proceedings, whichever is earlier. However, the filing period may be "tolled" or suspended for reasons of fairness. See, *e.g., McDonald v. Antelope Valley Community College Dist.* (2008) 45 C4th 88, 84 CR3d 734. In addition, a seemingly untimely charge may be allowed to proceed if the employer has committed "continuing violations" of Title VII. 42 USC §2000e-5; 29 CFR §1601.13. For example, the 180-day statute of limitations for filing an equal-pay-based discrimination lawsuit resets with each new discriminatory paycheck. See, *e.g.,* 42 USC §2000e-5 and §2000e-16 (Lilly Ledbetter Fair Pay Act of 2009 (Pub L 111-2, 123 Stat 5)).

© The Regents of the University of California

§4.245 c. Investigation of Charge

The Equal Employment Opportunity Commission (EEOC) has very broad powers to investigate charges of discrimination. The investigation must be completed, as far as practicable, within 120 days from the time the charge is filed.

The EEOC will notify the employer a charge has been filed and will usually request a written response and pertinent information. It may issue subpoenas, conduct fact-finding conferences, and interview the parties and witnesses. During its investigation, the EEOC will typically explore settlement possibilities. 42 USC §§2000e-5, 2000e-9; 29 CFR §§1601.15-1601.16.

© The Regents of the University of California

d. EEOC Determination

§4.246 (1) Right to Sue Notice

The Equal Employment Opportunity Commission (EEOC) will issue a right to sue notice at the request of the charging party after the expiration of 180 days from the filing of the charge or before expiration of the 180 days if the agency determines it cannot process the charge within that period. It will also issue such a right to sue notice when (29 CFR §1601.28(b)):

- It has determined there is no reasonable cause to believe unlawful discrimination has occurred;
- It has found reasonable cause but has decided not to pursue a civil action itself; or
- There is a conciliation agreement, if the charging party is not a party to that agreement.

This notice states that the EEOC has terminated its process and decided not to bring suit on the plaintiff's behalf, but allows the charging parties to pursue a civil lawsuit on their own.

© The Regents of the University of California

§4.247 (2) Reasonable Cause

If the Equal Employment Opportunity Commission (EEOC) determines, based on its investigation, that there is no reasonable cause to believe that unlawful discrimination has occurred, it will make a "no cause" determination and dismiss the charge. 42 USC §2000e-5(a). This finding does not preclude the charging party from pursuing a civil action on its own, nor is it binding in a civil action, although the court in its discretion may allow evidence of the EEOC's determination to be admitted into evidence. 29 CFR §§1601.19, 1601.21; *Grimm v Westinghouse Elec. Corp.* (ND Cal 1969) 300 F Supp 984.

If the EEOC finds reasonable cause, it will try to conciliate the parties and reach an agreement to end the discriminatory practice and provide a remedy. Once an agreement is reached, the case will be closed and neither party may file suit based on the same facts. 29 CFR §1601.24.

© The Regents of the University of California

§4.248 e. Civil Lawsuit

State and federal courts share jurisdiction over Title VII of the Civil Rights Act of 1964 (42 USC §§2000e—2000e-17) lawsuits. *Yellow Freight Sys., Inc. v Donnelly* (1990) 494 US 820, 108 L Ed 2d 834, 110 S Ct 1566. They also share jurisdiction over Age Discrimination in Employment Act of 1967 (ADEA) (29 USC §§621-634) lawsuits. See §4.249; *Chapman v Detroit* (6th Cir 1986) 808 F2d 459.

Once an aggrieved private party receives a "right to sue" notice from the EEOC (see §4.246), the party has 90 days to bring a private civil lawsuit against the defendant named in the charge. 42 USC §2000e-5(f); 29 CFR §1601.28. The time limit is longer (1 year) in California for claims based on FEHA. Govt C §12965(b).

© The Regents of the University of California

§4.249 2. Age Discrimination in Employment Act

The Equal Employment Opportunity Commission (EEOC) also enforces the Age Discrimination in Employment Act of 1967 (ADEA) (29 USC §§621-634), and the procedures under the ADEA are similar to those under Title VII of the Civil Rights Act of 1964 (42 USC §§2000e—2000e-17) after the amendments made by the 1991 Civil Rights Act. See §§4.242-4.248. There are, however, these differences:

- The ADEA does not require the aggrieved individual to obtain a right to sue notice before initiating litigation. An individual filing an ADEA charge may file suit within 60 days after filing an EEOC charge regardless of whether he or she has received a right to sue notice. 29 CFR §1626.18; *Bak v Postal Serv.* (9th Cir 1995) 52 F3d 241.
- As with Title VII and the ADA, an aggrieved employee must first file a charge with the EEOC within 180 days of the discriminatory act, or within 300 days if there is a deferral state statute. After the charge is filed, EEOC must be given 60 days in which to investigate before bringing a court action. ADEA complainants then have 90 days in which to file suit after receipt of the EEOC right to sue notice. 29 USC §626(d)-(e).
- Settlement of ADEA claims must comply with the special requirements of the Older Workers Benefit Protection Act (29 USC §626(f)). See *Oubre v Entergy Operations, Inc.* (1998) 522 US 422, 139 L Ed 2d 849, 118 S Ct 838.

© The Regents of the University of California

§4.250 3. Equal Pay Act

Generally the same provisions applicable to Title VII of the Civil Rights Act of 1964 (42 USC §§2000e—2000e-17) apply to the Equal Pay Act of 1963 (29 USC §206(d)); however, individuals with Equal Pay Act claims may file suit directly in court without first filing a charge with EEOC. 29 USC §216(b). Consequently, the time limit to file a civil lawsuit is different. Suits must be commenced within 2 years after the cause of action accrued for non-willful violations and within 3 years after the cause of action accrued for willful violations. These provisions are contained in the Portal-to-Portal Act, a provision of the Fair Labor Standards Act of which the Equal Pay Act is a part. 29 USC §255(a).

© The Regents of the University of California

4. State Procedures in California

§4.251 a. Administrative Agency

The Department of Fair Employment and Housing (DFEH) is responsible for all of the following:

- Receiving, investigating, and conciliating complaints alleging discrimination under state discrimination law;
- Issuing and revising regulations that interpret and implement state discrimination laws; and
- Conducting hearings and resolving issues raised by accusations issued by the DFEH.

Enforcement procedures begin with the filing of a complaint with the DFEH. Govt C §§12960-12976; 2 Cal Code Regs §§7400-7467.

© The Regents of the University of California

§4.252 b. Complaint

A verified complaint may be filed with the Department of Fair Employment and Housing (DFEH) by the following (Govt C §12960):

- The DFEH itself,
- Any person claiming to be aggrieved, or
- Any person on behalf of an aggrieved person.

© The Regents of the University of California

§4.253 c. Timeliness

A complaint generally must be filed with the Department of Fair Employment and Housing within 1 year from the date of the occurrence in question. This time limit may be extended for an additional 90 days if the person alleging to have been harmed first obtains knowledge of the facts after the expiration of the initial 1-year period. Govt C §12960; *Snipes v City of Bakersfield* (1983) 145 CA3d 861, 193 CR 760. See *Lukovsky v City & County of San Francisco* (9th Cir 2008) 535 F3d 1044, cert denied sub nom *Zolotarev v City & County of San Francisco* (2009) ___US ___, 173 L Ed 2d 1086, 129 S Ct 1997 (claims accrue on awareness of actual injury (*e.g.* adverse action of not being hired) and not necessarily with knowledge that some actionable discrimination had occurred).

© The Regents of the University of California

§4.254 d. Investigation of Complaint

The Department of Fair Employment and Housing (DFEH) has very broad powers to investigate complaints of discrimination. It will notify the employer a complaint has been filed and will usually request a written response and pertinent information. It may issue subpoenas, interview the parties and witnesses under oath, and require the production of documents and records. Govt C §§12930(g), 12963-12963.5. During its investigation, the DFEH will typically explore settlement possibilities. Govt C §§12963.7, 12964.

© The Regents of the University of California

§4.255 e. Accusation

The Department of Fair Employment and Housing (DFEH) may issue a written accusation against an employer if it is unable to eliminate an unlawful practice through its investigation and conciliation efforts.

Generally, the accusation must be issued within 1 year from the date the complaint is filed, unless the complaint alleges or is treated as a group complaint. Govt C §12965(a).

If an accusation is issued, the Fair Employment and Housing Commission (FEHC) must conduct a public hearing of a civil nature within 90 days of the date of issuance. If an accusation issues, the parties have the right of appeal to court. Govt C §§12967-12970.

© The Regents of the University of California

§4.256 f. Right to Sue Notice

The Department of Fair Employment and Housing (DFEH) will issue a right to sue notice if an accusation is not issued within 150 days from the filing of the charge or if it earlier determines no accusation will issue. It will also issue such a notice when it has found cause but has decided not to pursue a civil action itself. This notice allows the charging party to pursue a civil lawsuit. Govt C §12965(b). The DFEH will also issue an immediate right to sue notice if requested by the charging party. Govt C §12965(b).

© The Regents of the University of California

§4.257 g. Civil Lawsuit

Once an aggrieved private party receives a right to sue notice from the Department of Fair Employment and Housing (DFEH) stating it has terminated its process and decided not to bring suit on the plaintiff's behalf, the party has 1 year to bring a private civil lawsuit against the defendant named in the charge. Govt C §12965(b).

The time to commence suit for concurrent claims filed with the DFEH and the federal Equal Employment Opportunity Commission (EEOC), when investigation is deferred to the EEOC, expires when the federal right to sue period to commence a civil action expires, or 1 year from the date of the right to sue notice by the DFEH, whichever is later. Govt C §12965(d)(2), (e)(2).

© The Regents of the University of California

§4.258 h. Exhaustion of Administrative Remedies

Public employees claiming employment-related discrimination are not required to exhaust internal administrative remedies before filing a FEHA claim. *Schifando v City of Los Angeles* (2003) 31 C4th 1074, 6 CR3d 457.

© The Regents of the University of California

J. Remedies for Violation of Anti-discrimination Laws

1. Federal Remedies

a. Monetary Relief

§4.259 (1) Back Pay

Back pay, including fringe benefits, is available for violations of some anti-discrimination laws. 42 USC §2000e-5(g) (Title VII of the Civil Rights Act of 1964 (42 USC §§2000e—2000e-17)); *Brunnemann v Terra Int'l, Inc.* (5th Cir 1992) 975 F2d 175. But see *Air Line Pilots Ass'n, Int'l v Trans World Airlines, Inc.* (2d Cir 1983) 713 F2d 940, aff'd in part and rev'd in part on other grounds (1985) 469 US 111, 83 L Ed 2d 523, 105 S Ct 613 (Age Discrimination in Employment Act of 1967) (ADEA) (29 USC §§621-663)). See also 29 USC §§206, 216(b) (Equal Pay Act of 1963); 29 USC §626 (ADEA); 29 USC §794a (Rehabilitation Act of 1973 (29 USC §§701-796*l*)); 42 USC §12117 (ADA).

Mitigating circumstances, including interim earnings, may be considered as possible deductions to back pay. The employer has the burden of proof of showing that the employee failed to mitigate damages. See *Cline v Roadway Express, Inc.* (4th Cir 1982) 689 F2d 481.

NOTE: Courts differ as to whether unemployment insurance benefits, Social Security, or other "collateral sources" may be deducted from a back pay award. Compare *EEOC v Enterprise Ass'n Steamfitters Local 638* (2d Cir 1976) 542 F2d 579, with *Brown v A.J. Gerrard Mfg. Co.* (11th Cir 1983) 715 F2d 1549. See also *Maxfield v Sinclair Int'l* (3d Cir 1985) 766 F2d 788.

Although discretionary with the court, both pre-judgment and post-judgment interest are available.

© The Regents of the University of California

§4.260 (2) Front Pay

"Front pay" is an award of future lost earnings. It is designed to compensate the plaintiff for economic losses that may occur as the plaintiff seeks comparable employment or is otherwise made whole. Front pay is most commonly awarded when reinstatement is inappropriate due to disharmony or antagonism between the parties. *Cassino v Reichhold Chems., Inc.* (9th Cir 1987) 817 F2d 1338, cert denied (1988) 484 US 1047; *Cancellier v Federated Dep't Stores* (9th Cir 1982) 672 F2d 1312, cert denied (1982) 459 US 859 (ADEA).

NOTE: Statutory caps on the Title VII of the Civil Rights Act of 1964 (42 USC §§2000e—2000e-17) damages do not apply to front pay awards. *Gotthardt v National R.R. Passenger Corp.* (9th Cir 1999) 191 F3d 1148.

Front pay may be subject to various limitations and affirmative defenses, such as the "after-acquired evidence" defense. See, *e.g., McKennon v Nashville Banner Publ'g Co.* (1995) 513 US 352, 130 L Ed 2d 852, 115 S Ct 879 (discussing situation in which employer learns, post-termination, about employee wrongdoing that would have led to his or her termination in any event).

© The Regents of the University of California

§4.261 (3) Compensatory and Punitive Damages

Compensatory damages are available for such items as future pecuniary losses, emotional pain, suffering, inconvenience, mental anguish, loss of enjoyment of life, and other nonpecuniary losses in cases of intentional discrimination. 42 USC §1981a(b)(2) (Civil Rights Act of 1991 §1777(A)).

NOTE: Section 1981a does not apply to disparate impact cases, or cases in which recovery is available under §1981. 42 USC §1981a(a). Further, no damages are available for failure to provide reasonable accommodation when the employer demonstrated good faith efforts, in consultation with the employee, to provide such accommodations. 42 USC §1981a(a)(3).

Punitive damages are available in Title VII of the Civil Rights Act of 1964 cases but cannot be awarded against a public agency. 42 USC §1981a(b)(1) (§1977(A)(b)(1) of the Civil Rights Act of 1991. Punitive damages are available against individuals. See *White v Washington Pub. Power Supply Sys.* (9th Cir 1982) 692 F2d 1286.

Limits to the amount of compensatory and punitive damages awardable are described in the Civil Rights Act of 1991 (42 USC §1981a(b)(3)).

© The Regents of the University of California

§4.262 (4) Liquidated Damages

Statutory liquidated damages are available under the Age Discrimination in Employment Act of 1967 (ADEA) and the Equal Pay Act of 1963 for a willful violation. 29 USC §§206, 216(b), 626.

© The Regents of the University of California

§4.263 (5) Attorney Fees

Reasonable attorney fees are available to the prevailing party. 42 USC §2000e-5(k); *Hensley v Eckerhart* (1983) 461 US 424, 76 L Ed 2d 40, 103 S Ct 1933. Attorney fees are also available in cases of action under 42 USC §§1981, 1981a, 1982-1983, 1985-1986, Title VI of the Civil Rights Act of 1964, and portions of Title IX of the Education Amendments of 1972 (20 USC §§1681-1688). 42 USC §1988. Attorney fees and costs are also available to respondents charged with violating 42 USC §2000e-2(m) who demonstrate they would have taken the same action in the absence of the impermissible motivating factor. 42 USC §2000e-5(g)(2)(B)(i).

NOTE: There are different standards applied to prevailing plaintiffs and defendants. Although prevailing plaintiffs are generally presumed to be entitled to attorney fees, prevailing defendants are awarded fees only when the plaintiff's action was "frivolous, unreasonable, or without foundation, even though not brought in subjective bad faith." *Christiansburg Garment Co. v EEOC* (1978) 434 US 412, 421, 54 L Ed 2d 648, 98 S Ct 694.

© The Regents of the University of California

§4.264 b. Equitable Relief

Injunctive relief is available to prevent future violations. 42 USC §2000e-5(g) (Title VII of the Civil Rights Act of 1964); 29 USC §626(b) (Age Discrimination in Employment Act of 1967 (ADEA)); 29 USC §216(b) (Equal Pay Act of 1963).

Reinstatement, a form of equitable relief, is available in certain cases. See 42 USC §2000e-5(g)(1); *Blim v Western Elec. Co.* (10th Cir 1984) 731 F2d 1473.

© The Regents of the University of California

§4.265 c. Affirmative Relief

Courts are authorized to order preferential affirmative relief such as numerical goals for employment actions. *Local 28 of Sheet Metal Workers' Int'l Ass'n v Equal Employment Opportunity Comm'n* (1986) 478 US 421, 92 L Ed 2d 344, 106 S Ct 3019.

© The Regents of the University of California

2. State Remedies

§4.266 a. Administrative Remedies

The Fair Employment and Housing Commission may administratively award damages that make the aggrieved party whole. This may include such elements as (Govt C §12970):

- Back pay and fringe benefits;
- Front pay and reinstatement;
- Necessary injunctive relief; and
- Administrative fine up to $50,000.

Punitive damages may not be awarded against municipalities. Govt C §818.

© The Regents of the University of California

§4.267 b. Judicial Remedies

All relief generally available in non-contractual actions, including punitive damages, may be awarded by a court. *Monge v Superior Court* (1986) 176 CA3d 503, 222 CR 64; *Commodore Home Sys., Inc. v Superior Court* (1982) 32 C3d 211, 185 CR 270. Punitive damages are not awardable against municipalities. Govt C §818. The court may also award reasonable attorney fees. Govt C §12965(b).

© The Regents of the University of California

§4.268 K. Mandatory Employer Posters

The California Chamber of Commerce has a checklist of mandatory workplace posters. The ordering information is available by telephone at (800) 331-8877 or by fax at (916) 443-4730. Mailing address is California Chamber of Commerce, 3255 Ramos Circle, Sacramento, California 95827. Posters and publications can also be obtained through the Equal Employment Opportunity Commission (EEOC) at www.eeoc.gov and the Department of Fair Employment and Housing (DFEH) at www.dfeh.ca.gov.

© The Regents of the University of California

IX. EVALUATING AND DISCIPLINING EMPLOYEES

§4.269 A. Performance Standards

Performance standards provide a yardstick for the supervisor and employee to evaluate his or her performance and identify areas in which improvement or further development is desirable.

A job performance standard is defined as whatever is expected of a trained and experienced employee in fulfilling the duties of the position. Problems arise when levels of performance vary throughout a department so that a uniform standard on which to base an action, whether laudatory or disciplinary, does not exist.

© The Regents of the University of California

§4.270 B. Performance Evaluations

The primary purpose of an evaluation program is to motivate employees to work at their highest capacity by better delineating work responsibilities, establishing job standards and objectives, reviewing progress, planning future development, and providing a basis for acknowledgment and reward. Performance evaluations are also related to discipline. Viewed positively, performance evaluation aids in correcting marginal or unsatisfactory performance before it becomes necessary to take more severe disciplinary action. Performance evaluations play a pivotal role in any dispute over the nature of a disciplinary action.

An effective performance evaluation program does the following:

- Ensures employees are performing as effectively as possible;
- Enables supervisors and managers to pinpoint weak spots;
- Helps identify employees with supervisory and leadership potential;
- Identifies employees' training needs;
- Monitors morale;
- Serves as a basis of constructive discussion with employees;
- Helps head off disciplinary problems;
- Considers each employee as an individual;
- Encourages good communication; and
- Provides documentation for future employee actions.

Unless the evaluation system is formalized, an evaluation may tend to rely on haphazard observation and unreliable recollection. A planned system is intended to make the evaluation process more accurate, objective, and reliable for both management and employees. A planned system is more easily defended if an employee grieves or appeals a performance evaluation or if the evaluation becomes an issue in a subsequent disciplinary action.

Complete, accurate, and timely records are important in dealing with employee matters. Employees have a right to review their personnel files. Lab C §1198.5. If an employer fails to keep adequate and accurate records of an individual's employment, the burden of proof on the employee may be reduced. *Hernandez v Mendoza* (1988) 199 CA3d 721, 245 CR 36.

© The Regents of the University of California

C. Employee Discipline

§4.271 1. Just Cause

"Just cause" is a standard for determining the propriety of discipline. Other terms identifying the same standard include "good cause," "just and sufficient cause," or simply "cause." To help define the elements of "just cause," one commonly used approach lists seven factors that an employer should consider before disciplining an employee. A "no" answer to one or more of the following factors means just cause is not present or some arbitrary, capricious, or discriminatory element may have been present. See Koven & Smith, Just Cause: The Seven Tests (Cloverdale Publications, Inc., BNA 2d ed 1992).

- Was the employer's rule or order reasonably related to the orderly, efficient, and safe operation of the employer's business, and the performance that the employer might properly expect of the employee?
- Did the employer give to the employee forewarning or foreknowledge of the possible or probable consequences of the employee's disciplined conduct? (See §§4.272-4.273 on how progressive discipline fulfills the notice requirement.)
- Did the employer, before administering the discipline to an employee, make an effort to discover whether the employee did in fact violate or disobey a rule or order of management?
- Was the employer's investigation conducted fairly and objectively?

PRACTICE TIP 1: A special 1-year statute of limitations applies to investigation of civilian police employee misconduct. Govt C §3508.1.

PRACTICE TIP 2: Employees may be compelled to respond to questions during the investigation, and may be disciplined for failure to answer, as long as they are informed and assured that their responses will be used only in administrative, rather than criminal, proceedings. *Spielbauer v County of Santa Clara* (2009) 45 C4th 704, 88 CR3d 590.

- At the investigation, did the investigator obtain substantial evidence or proof that the employee was guilty as charged?
- Has the employer applied its rules, orders, and penalties even-handedly and without discrimination to all employees?
- Was the degree of discipline administered by the employer in a particular case reasonably related to the seriousness of the employee's proven offense and the record of the employee in his or her service with the employer? (See §4.273 on the appropriate level of penalty.)

© The Regents of the University of California

2. Progressive Discipline

§4.272 a. Definition

Progressive discipline refers to an increasing level of discipline an employer may impose. By imposing increasingly more severe levels of discipline, an employer provides an employee effective notice that his or her work performance is unacceptable or conduct is inappropriate.

Particularly unacceptable work performance or egregious conduct may not require progressive discipline and the extent of the progressive discipline may vary with the seriousness of the situation. An employer's adherence to the concept of progressive discipline ensures the penalty is commensurate with both the seriousness of the conduct and the employee's prior disciplinary record.

© The Regents of the University of California

b. Stages of Progressive Discipline

§4.273 (1) Warnings

The first stage of progressive discipline is the warning stage. It progresses as follows:

- Counseling;
- Oral warning;
- Written warning that specifies:
- what occurred;
- the date and time of the event(s);
- what rule, policy, standard, or agreement provision the employee violated; and
- what the employee must do to improve.

© The Regents of the University of California

§4.274 (2) Suspension

Typically, the penalty of suspension involves temporary removal from work without pay. Employers imposing short suspensions (5 days or less) may provide the pre-disciplinary due process requirements either during the suspension, or a reasonable time thereafter. *Civil Serv. Ass'n v City & County of San Francisco* (1978) 22 C3d 552, 150 CR 129. On due process requirements, see §§4.278-4.288.

© The Regents of the University of California

§4.275 (3) Demotion

When utilized as a form of discipline, demotion is frequently imposed when an employee has performed well in a prior position, even though he or she is not performing well in the present position. (Demotion may also occur for non-disciplinary reasons such as a result of an economic layoff or other reduction in force.)

© The Regents of the University of California

§4.276 (4) Discharge

Discharge, the ultimate disciplinary penalty, is usually appropriate only after lower levels of discipline fail to improve performance or behavior. Discharge may be appropriate in the first instance, however, if the employee's behavior is particularly serious. *Cranston v City of Richmond* (1985) 40 C3d 755, 770 n13, 221 CR 779; *Kazensky v City of Merced* (1998) 65 CA4th 44, 76 CR2d 356.

© The Regents of the University of California

§4.277 c. Courts Give City Deference in Selection of Penalty or Discipline

In general, the court grants considerable deference to the city in its selection of an appropriate penalty or discipline. *Cranston v City of Richmond* (1985) 40 C3d 755, 221 CR 779. A disciplinary penalty, however, may be successfully challenged if the city:

- Relied on poorly documented prior instances of misconduct or instances that are too remote in time;
- Did not permit the employee sufficient time to improve before imposing the next level of discipline;
- Provided insufficient notice that failed to inform the employee of the seriousness of the problem;
- Did not document problems on performance evaluations and/or provided unmerited commendations or salary increases that are inconsistent with earlier discipline or performance; or
- Did not provide reasonable counseling and training to improve the employee's performance.

© The Regents of the University of California

§4.278 3. Due Process

The California and United States constitutions provide public employees procedural due process rights that protect against arbitrary employer deprivations of two types of interests:

- Property interest in continued employment (see *Skelly v State Personnel Bd.* (1975) 15 C3d 194, 207, 124 CR 14); and
- Liberty interest in pursuing an occupation of his or her choice (*Board of Regents of State Colleges v Roth* (1972) 408 US 564, 576, 33 L Ed 2d 548, 92 S Ct 2701; *Lubey v City & County of San Francisco* (1979) 98 CA3d 340, 159 CR 440).

In addition to pre-disciplinary procedures, constitutional due process also imposes post-disciplinary procedures. See §4.288.

© The Regents of the University of California

§4.279 a. Protection of Property Interest: *Skelly* Rights

A public employee is entitled to procedural due process before the city imposes discipline if the particular circumstances of his or her employment indicate the employee has a property interest in continued employment.

Property interests are not created by the United States Constitution or California Constitution; instead, they are created and their dimensions are defined by existing rules and understandings that stem from an independent source such as state law, local rules, handbooks, policies, or understandings that secure certain benefits and that support claims of entitlement to those benefits. To have a property interest in a benefit, a person must demonstrate that he or she has a legitimate claim of entitlement to it, not merely a unilateral expectation. *Board of Regents of State Colleges v Roth* (1972) 408 US 564, 579, 33 L Ed 2d 548, 92 S Ct 2701.

Whether an employee should be accorded procedural due process is determined on a case-by-case basis. This inquiry involves an examination of the city's ordinances, personnel rules, employee handbooks, policies, practices, procedures, and memorandum of understanding. Generally, if this analysis shows an employee has a legitimate expectation of continued employment, then that employee must be accorded procedural due process. *Williams v County of Los Angeles* (1978) 22 C3d 731, 736, 150 CR 475. But see *Seidler v Municipal Court* (1993) 12 CA4th 1229, 16 CR2d 90 (terms and conditions of court commissioner's employment were changed from permanent to at-will by statute amendment occurring after date of hire).

Employees who truly serve at the pleasure of the appointing authority (for example, probationary or at-will employees) have no legitimate expectation of continued employment and are generally not entitled to due process. *Hinchliffe v City of San Diego* (1985) 165 CA3d 722, 725, 211 CR 560; *Kestler v City of Los Angeles* (1978) 81 CA3d 62, 64, 146 CR 61; *Bogacki v Board of Supervisors* (1971) 5 C3d 771, 783, 97 CR 657. But see *Zeron v City of Los Angeles* (1998) 67 CA4th 639, 79 CR2d 130 (probationary police officer reinstated as tenured employee for procedural deficiencies during termination).

© The Regents of the University of California

§4.280 (1) Pre-disciplinary *Skelly* Rights

When the employee has a property interest in continuing employment, the city must provide the employee with procedural due process. At a minimum, pre-disciplinary safeguards must include (*Skelly v State Personnel Bd.* (1975) 15 C3d 194, 215, 124 CR 14):

- Written "notice of the proposed action";
- "Reasons" for such proposed action;
- A copy of the charges and the material on which the action is based; and
- "The right to respond, either orally or in writing to the authority initially imposing the discipline."

Employers must give each *Skelly* safeguard at a meaningful time and in a meaningful manner. For example, the employee must have adequate time to review the charges and prepare a defense. The employer's representative must be willing to discuss the charges and to listen to the employee's response. *Kempland v Regents of Univ. of Cal.* (1984) 155 CA3d 644, 649, 202 CR 275.

PRACTICE TIP: Generally, the city should allow at least 5 days after receipt of the charges for the employee to respond, and even longer if the matter is complicated. If an employee's filing of a response to or an appeal of a disciplinary action is late, the city may have to accept it if the time period is short and caused by inadvertence, and there is no prejudice to the city. *Civil Serv. Comm'n v Velez* (1993) 14 CA4th 115, 17 CR2d 490.

© The Regents of the University of California

§4.281 (2) Type of Proceeding Required: *Skelly* Conference

Because the purpose of a pre-disciplinary proceeding is to provide an initial check against mistaken decisions, a formal evidentiary hearing is not required. *Cleveland Bd. of Educ. v Loudermill* (1985) 470 US 532, 84 L Ed 2d 494, 105 S Ct 1487. A meeting with the appointing authority or a designee is sufficient, provided the employee has received adequate notice and an adequate time to prepare an opposition to the proposed discipline. *Coleman v Regents of Univ. of Cal.* (1979) 93 CA3d 521, 525, 155 CR 589; *Coburn v State Personnel Bd.* (1978) 83 CA3d 801, 805, 148 CR 134.

For minor disciplinary actions, such as a short suspension, the employer may provide procedural due process safeguards within a reasonable time after the discipline occurs. *Civil Serv. Ass'n v City & County of San Francisco* (1978) 22 C3d 552, 564, 150 CR 129. But see statutory exceptions, such as Govt C §§19574 and 19590, regarding state employees.

The *Skelly* decision states that the employee must be permitted to respond to "the authority initially imposing the discipline." *Skelly v State Personnel Bd.* (1975) 15 C3d 194, 215, 124 CR 14. However, due process does not require the employee to meet with the person at the top of the chain of command who ultimately authorizes the disciplinary action. *Los Angeles Police Protective League v Gates* (9th Cir 1990) 907 F2d 879, 891; *Titus v Los Angeles County Civil Serv. Comm'n* (1982) 130 CA3d 357, 363, 181 CR 699. Although the person selected to conduct the proceeding should be knowledgeable about the circumstances of the proposed discipline, that person should not be "demonstrably biased" or have a "personal or financial interest that strongly suggest[s] a lack of impartiality." *Burrell v City of Los Angeles* (1989) 209 CA3d 568, 582, 257 CR 427. The person conducting the hearing must be a "[r]easonably impartial and noninvolved reviewer who possesses the authority to recommend a final disposition of the matter." *Bollinger v San Diego Civil Serv. Comm'n* (1999) 71 CA4th 568, 576, 84 CR2d 27.

PRACTICE TIP 1: The city should limit the number of persons attending the *Skelly* conference to maintain its informality and to avoid "trying the case" at this stage of the disciplinary proceeding.

PRACTICE TIP 2: At the *Skelly* conference, the city representative should have another representative present as a witness to the proceedings.

PRACTICE TIP 3: If the employee requests to be represented at the *Skelly* conference by an attorney or another employee, the city should grant such request. The city does not have to inform the employee of his or her right to representation.

PRACTICE TIP 4: If the employee has an attorney representative present at the *Skelly* conference, the city should also have an attorney present.

PRACTICE TIP 5: The city should not agree to the tape recording of a *Skelly* conference.

PRACTICE TIP 6: The *Skelly* conference should be used by the city to hear and evaluate the employee's response to the proposed discipline and not to engage in cross examination of witnesses, accusations, or personal attacks. The city representative should listen rather than talk at the *Skelly* conference.

PRACTICE TIP 7: A *Skelly* conference may and should be continued if the employee reasonably requests it, the employee's response requires review and evaluation by the city, or the conduct of the participants interferes with successful completion of the conference.

© The Regents of the University of California

§4.282 (3) Types of Discipline That Trigger Procedural Due Process

Generally, an employer must provide due process whenever a disciplinary action will result in a significant deprivation of an employee's property interest, including:

- Termination (*Skelly v State Personnel Bd.* (1975) 15 C3d 194, 207, 124 CR 14); *Chang v City of Palos Verdes Estates* (1979) 98 CA3d 557, 565, 159 CR 630.
- Abandonment of position (*Coleman v Department of Personnel Admin.* (1991) 52 C3d 1102, 1118, 278 CR 346; *International Bhd. of Elec. Workers v City of Gridley* (1983) 34 C3d 191, 207, 193 CR 518);
- Removal of merit pay (*Sanchez v City of Santa Ana* (9th Cir 1990) 915 F2d 424, 428);
- Demotion (*Ng v State Personnel Bd.* (1977) 68 CA3d 600, 606, 137 CR 387);
- Transfer with loss of pay (*McManigal v City of Seal Beach* (1985) 166 CA3d 975, 979, 212 CR 733); and
- Suspension without pay (*Civil Serv. Ass'n v City & County of San Francisco* (1978) 22 C3d 552, 564, 150 CR 129).

© The Regents of the University of California

§4.283 (4) Types of Discipline That Do Not Trigger Procedural Due Process

Procedural due process safeguards are not generally required for disciplinary procedures that do not result in a loss of the employee's pay or benefits, including:

- Written reprimands (*Stanton v City of W. Sacramento* (1991) 226 CA3d 1438, 1441, 277 CR 478);
- Reclassification (*Schultz v Regents of Univ. of Cal.* (1984) 160 CA3d 768, 777, 206 CR 910);
- Transfer without loss of pay (*Orange County Employees Ass'n v County of Orange* (1988) 205 CA3d 1289, 253 CR 584);
- Negative performance evaluation (*Turturici v City of Redwood City* (1987) 190 CA3d 1447, 1451, 236 CR 53); and
- Economic layoff (*AFSCME v County of Los Angeles* (1983) 146 CA3d 879, 888, 194 CR 540).

© The Regents of the University of California

§4.284 (5) Remedies for *Skelly* Violations

The remedy for *Skelly* violations is normally limited to an award of back pay for the period during which the discipline was improperly imposed. The period begins on the date the discipline was imposed and ends when the discipline is validated through a post-disciplinary hearing. Employees are not entitled to reinstatement for *Skelly* violations. *Barber v State Personnel Bd.* (1976) 18 C3d 395, 402, 134 CR 206; *Williams v City of Los Angeles* (1990) 220 CA3d 1212, 1217, 269 CR 869; *Parker v City of Fountain Valley* (1981) 127 CA3d 99, 116, 179 CR 351; *Kirkpatrick v Civil Service Comm'n* (1978) 77 CA3d 940, 945, 144 CR 51.

© The Regents of the University of California

§4.285 b. Protection of Liberty Interest: *Lubey* Rights

Even public employees who do not possess property interests in continued employment, such as at-will or probationary employees, possess liberty interests in pursuing the employment of their choice. Discipline deprives an employee of a liberty interest if it impugns the employee's reputation or imposes a stigma on him or her that would foreclose his or her freedom to take advantage of other employment opportunities. *Board of Regents of State Colleges v Roth* (1972) 408 US 564, 33 L Ed 2d 548, 92 S Ct 2701; *Cox v County of San Diego* (1991) 233 CA3d 300, 311, 284 CR 266; *Lubey v City & County of San Francisco* (1979) 98 CA3d 340, 159 CR 440.

© The Regents of the University of California

§4.286 (1) When Liberty Interest Arises

Denial of due process based on deprivation of a liberty interest exists if:

- The discipline or discharge occurred in conjunction with a charge that impairs the employee's reputation for honesty or morality, or his or her standing and associations in the community;
- The employee denies the charge, or, at least, contests its accuracy;
- There is public disclosure of the charge by the governmental entity; and
- The charge is made in connection with the termination of employment or the alteration of some right or status recognized by state law.

Bishop v Wood (1976) 426 US 341, 48 L Ed 2d 684, 96 S Ct 2074; *Board of Regents of State Colleges v Roth* (1972) 408 US 564, 33 L Ed 2d 548, 92 S Ct 2701; *Hyland v Wonder* (9th Cir 1992) 972 F2d 1129, cert denied (1993) 508 US 908; *Erickson v Pierce County* (9th Cir 1992) 960 F2d 801; *Vanelli v Reynolds Sch. Dist. No. 7* (9th Cir 1982) 667 F2d 773; *Lubey v City & County of San Francisco* (1979) 98 CA3d 340, 159 CR 440; *Kestler v City of Los Angeles* (1978) 81 CA3d 62, 146 CR 61.

© The Regents of the University of California

§4.287 (2) Name Clearing Hearing

If the proposed discipline meets the criteria discussed in §4.286, the employer must provide the employee an opportunity to clear his or her name before the imposition of the discipline. Back pay is not generally required to remedy a deprivation of a liberty interest because the "sole purpose" of a liberty hearing is "to clear one's name." *Board of Regents of State Colleges v Roth* (1972) 408 US 564, 33 L Ed 2d 548, 92 S Ct 2701; *Phillips v Civil Service Comm'n* (1987) 192 CA3d 996, 237 CR 751. But see *Lubey v City & County of San Francisco* (1979) 98 CA3d 340, 159 CR 440 (court ordered reinstatement of employees who were deprived of liberty interest hearing before termination).

© The Regents of the University of California

§4.288 c. Post-disciplinary Proceedings

In addition to pre-removal safeguards, constitutional due process generally requires that eligible public employees receive a post-disciplinary evidentiary hearing. *Cleveland Bd. of Educ. v Loudermill* (1985) 470 US 532, 545, 84 L Ed 2d 494, 105 S Ct 1487. Public agencies have discretion to develop a particular hearing procedure, after meeting collective bargaining duties, if any. The procedure should meet the following requirements:

- **Timing.** Due process requires the post-disciplinary hearing be granted at a "meaningful time." *Armstrong v Manzo* (1965) 380 US 545, 14 L Ed 2d 62, 85 S Ct 1187. The hearing should be held promptly after the discipline is imposed, but on notice sufficient to permit the employee to prepare a response to the charges. *Burrell v City of Los Angeles* (1989) 209 CA3d 568, 577, 257 CR 427; *Kempland v Regents of Univ. of Cal.* (1984) 155 CA3d 644, 649, 202 CR 275.
- **Impartiality.** The person or group that reviews the propriety of the discipline must be impartial. Although the decision-maker need not be a disinterested third party, he or she must not be "demonstrably biased," or have a "personal or financial interest" that strongly suggests a lack of impartiality. *Haas v County of San Bernardino* (2002) 27 C4th 1017, 119 CR2d 341; *Burrell v City of Los Angeles* (1989) 209 CA3d 568, 582, 257 CR 427; *Stanton v City of W. Sacramento* (1991) 226 CA3d 1438, 1443, 277 CR 478; *Parker v City of Fountain Valley* (1981) 127 CA3d 99, 116, 179 CR 351. Bias may also result if the legal counsel for the decision-maker and the employer are both employed by the same entity. *Howitt v Superior Court* (1992) 3 CA4th 1575, 5 CR2d 196; *Walker v City of Berkeley* (9th Cir 1991) 951 F2d 182.
- **Ex Parte Communications.** To preserve impartiality, the decision-maker may not communicate on the merits of a contested matter without notice and opportunity for all parties to participate. See Govt C §11430.10. A decision-maker who receives an ex parte communication should put it on the record and allow any person to rebut it. See Govt C §11430.50.
- **Presenting Evidence and Cross-examining Witnesses.** The employee must be permitted to appear before the hearing officer, present evidence in his or her behalf, and confront and cross-examine adverse witnesses. Both the employee and employer have the right to be represented by counsel. *Goldberg v Kelly* (1970) 397 US 254, 25 L Ed 2d 287, 90 S Ct 1011. The employee also has the right to receive all evidence forming the basis of the disciplinary decision to develop a rebuttal and make an effective cross-examination. *Vollstedt v City of Stockton* (1990) 220 CA3d 265, 275, 269 CR 404.
- **Record of Hearing.** A "record" of the hearing should be preserved by stenographic transcript or tape recording in case of subsequent judicial review. *Goldberg v Kelly* (1970) 397 US 254, 25 L Ed 2d 287, 90 S Ct 1011.
- **Burden of Proof.** The employer, as the party making the disciplinary charges, has the burden of proof by a preponderance of the evidence. *Parker v City of Fountain Valley* (1981) 127 CA3d 99, 113, 179 CR 351; *Pipkin v Board of Supervisors* (1978) 82 CA3d 652, 658, 147 CR 502.
- **No Increase in Penalty.** Depending on the language in a city's ordinance, rules, or regulations on the post-disciplinary reviewing authority's power to modify a previously imposed penalty, such reviewing authority may not increase the penalty from suspension to termination. *Paoli v Civil Service Comm'n* (1993) 12 CA4th 1073, 15 CR2d 874.
- **Findings.** A decision-maker's findings of fact must "bridge the analytic gap between the raw evidence and ultimate decision" to expose the decision-maker's analysis and provide the basis for judicial review of the disciplinary decision. *Topanga Ass'n for a Scenic Community v County of Los Angeles* (1974) 11 C3d 506, 515, 113 CR 836.

© The Regents of the University of California

§4.289 X. EMPLOYEE SEPARATION AND TERMINATION

When an employee is terminated or otherwise separated from employment, certain requirements and limitations may apply, including:

- Procedures and limitations under applicable labor memoranda of understanding and due process and Public Safety Officers Procedural Bill of Rights Act.
- Federal and California COBRA and related notifications. 42 USC §§300bb-1—300bb-8; Health & S C §§1366.20-1366.28; Lab C §2808.
- California Health Insurance Premium Program notification. Lab C §2807.
- Notification of change in employment status and unemployment insurance benefit rights. 22 Cal Code Regs §1089-1(d).
- Severance pay up to 18 months of salary is permissible if provided by an employment agreement or a policy in effect before services were performed and not as a retroactive gift or bonus. Govt C §§53260-53264; *Miller v City of Sacramento* (1977) 66 CA3d 863, 871, 136 CR 315.

© The Regents of the University of California

A. Grievances

§4.290 1. Types of Grievances

There are two general types of grievances:

- Disciplinary grievances by which employees receive the pre- and post-deprivation appeal rights; and
- Contract/rule grievances by which an employee alleges a violation of a departmental rule, personnel rule, or a provision in a memorandum of understanding.

PRACTICE TIP 1: In developing a grievance procedure, employers should narrowly define "grievance" to exclude appeals of non-punitive actions, *e.g.,* layoff, denial of merit increase, or failure to receive promotion. Non-disciplinary grievances should also be limited to preclude appeals into areas of management discretion, such as policy decisions.

PRACTICE TIP 2: The city should not even consider the disciplinary process as subject to the grievance procedure. The grievance procedure should be reserved for contract/rule grievances only. The disciplinary action process should be segregated from the grievance process and considered separately.

© The Regents of the University of California

§4.291 2. Investigating a Grievance

The city should investigate a grievance as follows:

- Impartially collect all of the facts.
- Determine if the matter is grievable under the definition of a grievance.
- Review the memorandum of understanding, personnel rules, policy manuals, and/or resolution to determine the procedures required and/or any duties owed to the employee.
- Check for procedural violations, *e.g.,* whether the grievance is timely.
- Consider the impact of the grievance on other employees.
- Interview all persons who can shed light on the case, including the grievant's witnesses.

PRACTICE TIP: During witness interviews, listen carefully; do not respond defensively; understand the issues and the grievant's theory of the grievance; ask what the grievant proposes as a remedy and probe alternative remedies; and find out all information and evidence the grievant has in support of his or her contention. Maintain notes of all interviews. Consult with other managers, the personnel officer, and legal counsel.

- Examine and organize all records and documents.
- Inspect the physical premises.
- Determine if there is a past practice to support the city's position.
- Prepare a chronological outline of the facts to assist in assessing the merits of the grievance.
- Prepare the response at the initial level with the basic strategy for appeal/arbitration in mind. (This forces one to view the grievance as objectively as possible.)

© The Regents of the University of California

§4.292 3. Grievance Case File

The grievance case file should include all information or materials needed for determining the result of the grievance investigation.

Divide the file into the following categories:

- Facts leading up to the dispute;
- Verbatim copy of the grievance at issue and all answers given in the course of the grievance procedure;
- Documents, minutes, and reports (identified as to source and date);
- Grounds to contest grievability or statement that no such grounds exist; and
- Overall evaluation of the merits of the employee's case.

NOTE: Depending on who prepares the grievance file—an attorney or personnel staff—the case file may be discoverable in subsequent administrative proceedings or litigation.

© The Regents of the University of California

§4.293 4. Answering a Grievance

The city should provide a written response to the grievance that contains all the basic arguments that management would use in an arbitration or appeal. Separate the response into procedural and substantive sections. The response should include references to basic rules of contract construction, if appropriate.

If the grievance has merit, resolve it. Consider alternative remedies and/or settlement options.

If the grievance is denied, explain the grievant's/employee's appeal rights.

© The Regents of the University of California

§4.294 B. Public Safety Officers Procedural Bill of Rights Act

The Public Safety Officers Procedural Bill of Rights Act (POBR) (Govt C §§3300-3313), also referred to as the Police Officers Bill of Rights, provides covered employees with interrogation and administrative appeal rights whenever the employer contemplates "punitive action." Covered employees also have the sometimes overlapping *Skelly* and *Lubey* rights (see §§4.279-4.287).

PRACTICE TIP: For further information on the POBR, see Pocket Guide to the Public Safety Officers Procedural Bill of Rights Act (13th ed 2009), published by the California Public Employee Relations Institute of Industrial Relations, University of California at Berkeley.

© The Regents of the University of California

§4.295 1. Covered Employees

"Public safety officers" are all peace officers specified in Pen C §§830.1-830.5, 830.31-830.33 (except subdivision (e)), 830.34-830.35 (except subdivision (c)), 830.36-830.38; Govt C §3301. Probationary police officers, police chiefs, and firefighters whose primary duty is enforcing fire laws are covered by the Police Officers Bill of Rights. *Gray v City of Gustine* (1990) 224 CA3d 621, 273 CR 730 (at-will police chief); *Doyle v City of Chino* (1981) 117 CA3d 673, 172 CR 844 (police chief); *Barnes v Personnel Dep't of the City of El Cajon* (1978) 87 CA3d 502, 151 CR 94 (probationary employee); *Gauthier v City of Red Bluff* (1995) 34 CA4th 1441, 41 CR2d 35. Temporary employees not regularly employed and police academy recruits are excluded from coverage. *Burden v Snowden* (1992) 2 C4th 556, 7 CR2d 531 (police academy recruits); *Bell v Duffy* (1980) 111 CA3d 643, 168 CR 753 (temporary employees).

© The Regents of the University of California

2. Punitive Action

§4.296 a. Broadly Defined

The Public Safety Officers Procedural Bill of Rights Act (POBR) provides covered employees with interrogation and administrative appeal rights whenever the employer contemplates "punitive action." "Punitive action" is broadly defined in the act as "any action which may lead to dismissal, demotion, suspension, reduction in salary, written reprimand, or transfer for purposes of punishment." Govt C §3303. Case law defines "punitive action" as:

- Any reduction in salary, even when occasioned by a transfer or reassignment that is not for purposes of punishment, including the loss of skill or hazard pay (*White v County of Sacramento* (1982) 31 C3d 676, 681, 183 CR 520; *Otto v Los Angeles Unified Sch. Dist.* (2001) 89 CA4th 985, 107 CR2d 664; *McManigal v City of Seal Beach* (1985) 166 CA3d 975, 979, 212 CR 733);
- Rejection from promotional probation that results in a return to the previously held position (*Henneberque v City of Culver City* (1983) 147 CA3d 250, 194 CR 869); and
- Removal of a previously granted merit increase (*Sanchez v City of Santa Ana* (9th Cir 1990) 915 F2d 424).

© The Regents of the University of California

§4.297 b. Exclusions

Case law has excluded the following from the definition of "punitive action":

- Routine performance evaluations stating the need to improve performance (*Turturici v City of Redwood City* (1987) 190 CA3d 1447, 236 CR 53);
- Reassignment with no accompanying loss of pay (*Tielsch v City of Anaheim* (1984) 160 CA3d 570, 206 CR 738);
- Transfer to compensate for performance deficiencies (*Orange County Employees Ass'n v County of Orange* (1988) 205 CA3d 1289, 253 CR 584);
- Transfer to a position at the same rank and pay, without a finding of wrongdoing (*Benach v County of Los Angeles* (2007) 149 CA4th 836, 57 CR3d 363); and
- Denial of a merit step increase (*Howitt v County of Imperial* (1989) 210 CA3d 312, 258 CR 384).

A summary of conference memorandum may or may not constitute a punitive action depending entirely on its content. *Otto v Los Angeles Unified Sch. Dist.* (2001) 89 CA4th 985, 107 CR2d 664.

© The Regents of the University of California

§4.298 3. Adverse Comments in Personnel File

No comment adverse to the interest of a public safety officer may be placed in his or her personnel file, or any other file used for personnel purposes, without the officer having first read the document containing the adverse comment and then signing it. The term "adverse comment" includes a citizen complaint, as well as any document that may serve as a basis for affecting the status of a peace officer's existing employment, regardless of whether it is kept separate from the officer's general personnel file, such as a background investigation during probation or internal affairs index card. Govt C §3305; *County of Riverside v Superior Court (Madrigal)* (2002) 27 C4th 793, 118 CR2d 167; *Sacramento Police Officers Ass'n v Venegas* (2002) 101 CA4th 916, 124 CR2d 666.

If the officer refuses to sign, the document may still be filed in the personnel file if the employer makes a notation on the document acknowledging the officer's refusal to sign. Govt C §3305. An officer has 30 days to file a written response to any adverse comment and the response must be attached to the adverse comment. Govt C §3306.

© The Regents of the University of California

§4.299 4. Inspection of Personnel File

Public safety officers have the right to inspect the personnel files that are "used or have been used to determine that officer's qualifications for employment, promotion, additional compensation, or termination or other disciplinary action" during usual business hours, without any loss of compensation. Govt C §3306.5. An officer is not entitled to review underlying internal affairs investigative materials related to citizen complaints, which are kept separately from personnel files and not used for employment purposes, that are deemed to be without merit. *McMahon v City of Los Angeles* (2009) 172 CA4th 1324, 92 CR3d 68. If the public safety officer believes there is material in the personnel file that is mistaken or unlawful, the officer may submit a request to correct or delete the disputed material. The agency then has 30 days to respond to the request. Govt C §3306.5(c)-(d).

PRACTICE TIP: A good general rule is to maintain internal investigation files separately from personnel files and to refrain from using them in personnel decisions unless the investigation's charges are sustained.

© The Regents of the University of California

5. Procedures for Interrogations of Peace Officers

§4.300 a. Pre-interrogation Requirements

If an investigatory interrogation "could lead to punitive action," an employer must provide the following procedural safeguards:

- The interrogation is to take place "preferably at a time when the public safety officer is on duty." If the interrogation occurs during off-duty time, the officer must be compensated in accordance with regular department procedures. Govt C §3303(a).
- The officer must be informed before the interrogation of the nature of the investigation, the rank, name, and command of the person in charge of the interrogation, and persons to be present at the interrogation. Govt C §3303(b)-(c). The interrogation may last only for a reasonable time and the officer may be questioned by only two officers. Govt C §3303(b), (d).
- The officer may be represented at investigations and interrogations on the filing of a formal written statement of charges or whenever an interrogation focuses on matters likely to result in punitive action. Govt C §3303(i). See *Upland Police Officers Ass'n v City of Upland* (2003) 111 CA4th 1294, 4 CR3d 629 (statute providing for representation of officer's choosing is limited by requirement of reasonableness and does not require rescheduling of hearings whenever chosen representative is unavailable).
- The officer being interrogated has the right to bring his or her own recording device to record any and all aspects of the interrogation. Govt C §3303(g).

© The Regents of the University of California

§4.301 b. Additional Requirement for Potentially Criminal Conduct: *Lybarger* Warning

A "*Lybarger* warning" must precede any questioning when (Govt C §3303(e), (g); *Lybarger v City of Los Angeles* (1985) 40 C3d 822, 221 CR 529):

- The employer initiates interrogation of a peace officer; and
- The officer may be charged with a criminal offense as a result of his or her misconduct; or
- The officer refuses to answer questions on the grounds the answers may be self-incriminating.

The "*Lybarger* warning" tells the officer that he or she has the right to remain silent and not incriminate himself or herself, his or her silence could be deemed insubordination and could lead to administrative discipline, and any statement the officer makes under the threat of such discipline could not be used against him or her in a subsequent criminal investigation. *Lybarger v City of Los Angeles* (1985) 40 C3d 822, 221 CR 529. See *Spielbauer v County of Santa Clara* (2009) 45 C4th 704, 88 CR3d 590 (formal grant of immunity not required when employee is notified that compelled responses will be used only in administrative, not criminal, proceedings; employee's subsequent refusal to answer questions is punishable as insubordination). But see *Gwillim v City of San Jose* (9th Cir 1991) 929 F2d 465 (response by police officer given during investigation may be made available to district attorney under certain circumstances without violating officer's right against self-incrimination).

© The Regents of the University of California

§4.302 c. Post-interrogation Requirements

After an interrogation, the officer is entitled to (Govt C §3303(g)):

- Transcribed copy of any notes made by a stenographer;
- Non-confidential reports, complaints, or statements made by investigators or other persons; and
- Recording of the interrogation, if further proceedings are contemplated or before any further interrogation.

There is no requirement to provide witness statements to an officer being investigated before his or her interrogation. *Pasadena Police Officers Ass'n v City of Pasadena* (1990) 51 C3d 564, 273 CR 584.

© The Regents of the University of California

§4.303 d. Imposition of Discipline

An employer must complete its disciplinary investigation and notify the officer of any proposed discipline within 1 year of the employer's discovery of alleged misconduct, subject to certain exceptions. Govt C §3304(d). The discipline itself need not be imposed within that year. Govt C §3304(d)(1). Typically, the discipline should be imposed within 30 days of the employer's final notice of discipline (*i.e.,* the notice that follows any predisciplinary procedure applied). Govt C §3304(f).

© The Regents of the University of California

§4.304 6. Right to Privacy

The Public Safety Officers Procedural Bill of Rights Act (POBR) provides officers several privacy rights. See §§4.305-4.308.

© The Regents of the University of California

§4.305 a. Polygraph Examinations

An officer may refuse to submit to a polygraph examination and his or her refusal may not be referred to during any subsequent proceeding. Govt C §3307; *Estes v City of Grover City* (1978) 82 CA3d 509, 147 CR 131. See also *Long Beach City Employees Ass'n v City of Long Beach* (1986) 41 C3d 937, 227 CR 90 (allowing certain constitutional protections against polygraph examination). But see *Los Angeles Police Protective League v City of Los Angeles* (1995) 35 CA4th 1535, 42 CR2d 23 (can require polygraph to screen applicants voluntarily seeking transfer to sensitive assignment within police department).

© The Regents of the University of California

§4.306 b. Financial Records

In most circumstances, officers may not be required to disclose information on property, income, assets, source of income, debts, or personal or domestic expenditures. Govt C §3308.

© The Regents of the University of California

§4.307 c. Media Attention

Employers may not cause the officer under interrogation to be subjected to visits by the press or news media without the officer's express consent, nor may the officer's home address or photograph be given to the press or news media without the officer's express consent. Govt C §3303(e).

© The Regents of the University of California

§4.308 d. Searches

Employers may not search an officer's locker or other assigned space except in the officer's presence, or with the officer's consent, or on a valid search warrant, or when the officer has been notified a search will be conducted. Govt C §3309; *Jackson v Gates* (9th Cir 1992) 975 F2d 648; *Los Angeles Police Protective League v Gates* (9th Cir 1990) 907 F2d 879. But see *Zazueta v County of San Benito* (1995) 38 CA4th 106, 44 CR2d 678 (officer suffered no prejudice when illegal search conducted if evidence obtained from sources independent of any illegal search constituted just cause for termination).

© The Regents of the University of California

§4.309 7. Appeals of Disciplinary Actions

The officer has a right to an "opportunity for administrative appeal" whenever punitive action is taken. On punitive action, see §§4.296-4.297. The employer need not provide the opportunity to appeal before imposing the punitive action. *Doyle v City of Chino* (1981) 117 CA3d 673, 172 CR 844; *Butler v County of Los Angeles* (1981) 116 CA3d 633, 172 CR 244.

Probationary employees are not generally entitled to an appeal if the termination was based on performance reasons and not on misconduct. *Browning v Block* (1985) 175 CA3d 423, 220 CR 763; *Swift v County of Placer* (1984) 153 CA3d 209, 200 CR 181. Conversely, if the discharge is based on misconduct, the officer is entitled to a hearing to establish the reasons for the discharge and to make a formal record for judicial review, even though he or she may be terminated without "cause." *Barnes v Personnel Dep't of the City of El Cajon* (1978) 87 CA3d 502, 151 CR 94 (probationary officer); *Gray v City of Gustine* (1990) 224 CA3d 621, 273 CR 730 (police chief).

The nature of the administrative appeal is not specified in the Police Officers Bill of Rights. A full evidentiary appeal hearing may not be required to satisfy the requirements of Govt C §3304(b), but such a hearing clearly would satisfy those requirements. See also *Binkley v City of Long Beach* (1993) 16 CA4th 1795, 20 CR2d 903. On due process requirements, see *Stanton v City of W. Sacramento* (1991) 226 CA3d 1438, 277 CR 478; *Holcomb v City of Los Angeles* (1989) 210 CA3d 1560, 259 CR 1.

NOTE: An employer need not actually provide the administrative appeal before instituting discipline. *Doyle v City of Chino* (1981) 117 CA3d 673, 172 CR 844; *Butler v County of Los Angeles* (1981) 116 CA3d 633, 172 CR 244.

© The Regents of the University of California

§4.310 8. Remedies for Noncompliance

Public safety officers may sue their employers in superior court for alleged violations of the Police Officers Bill of Rights. Govt C §3309.5. Remedies for noncompliance include:

- Exclusion of documents during the administrative appeal, if the city fails to comply with the interrogation procedural safeguards or requirements on access to documents. *Hanna v City of Los Angeles* (1989) 212 CA3d 363, 260 CR 782; *Williams v City of Los Angeles* (1988) 47 C3d 195, 252 CR 817.
- Back pay between the time of the punitive action and the time the administrative appeal is provided or the disciplinary decision is otherwise validated, if the officer is improperly denied an administrative appeal. *Barber v State Personnel Bd.* (1976) 18 C3d 395, 134 CR 206; *Williams v City of Los Angeles* (1990) 220 CA3d 1212, 269 CR 869; *Browning v Block* (1985) 175 CA3d 423, 220 CR 763; *Henneberque v City of Culver City* (1985) 172 CA3d 837, 218 CR 704.
- Injunction or other extraordinary relief, including a temporary restraining order, preliminary, or permanent injunction prohibiting the city from taking any punitive action against the officer. Govt C §3309.5.
- Payment of civil penalties and attorney fees. Govt C §3309.5.

© The Regents of the University of California

§4.311 C. Firefighters Procedural Bill of Rights Act

The Firefighters Procedural Bill of Rights Act (FBOR) (Govt C §§3250-3262) gives firefighters many of the same rights as peace officers. The FBOR is modeled in large part on the Public Safety Officers Procedural Bill of Rights Act (POBR) (see §§4.294-4.310), enacted over 30 years earlier, and case law interpreting the POBR is likely to be applied in interpreting the FBOR. *Holmes v McColgan* (1941) 17 C2d 426, 430, 110 P2d 428. For example, the FBOR generally contains the same provisions as the POBR with respect to firefighter political activity. The explicit protections for seeking elective office, however, are greater under the FBOR. Govt C §§3302, 3252. The subtle and not so subtle differences between the two laws will require courts to address issues of first impression.

PRACTICE TIP: For further information on the FBOR, see Pocket Guide to the Firefighters Procedural Bill of Rights Act (1st ed 2008), published by the California Public Employee Relations Institute of Industrial Relations, University of California at Berkeley.

© The Regents of the University of California

§4.312 1. Covered Employees

The Firefighters Procedural Bill of Rights Act (FBOR) (Govt C §§3250-3262) generally applies to any firefighter employed by a public agency, including any firefighter who is a paramedic or emergency medical technician. Govt C §3251(a). The FBOR does not apply to inmate firefighters, or individuals who are already protected by the POBR, such as arson investigators. Govt C §3251(a). Moreover, unlike the Public Safety Officers Procedural Bill of Rights Act (POBR), which protects probationary peace officers (Govt C §3301), the FBOR does not protect firefighters who have not yet passed probation. Govt C §3251(a). Interestingly, the FBOR states that "the rights and protections described in this chapter shall only apply to a firefighter during events and circumstances involving the performance of his or her official duties." Govt C §3262.

© The Regents of the University of California

§4.313 2. Adverse Comments in Personnel Files

With respect to personnel files, the Firefighters Procedural Bill of Rights Act (FBOR) (Govt C §§3250-3262) generally provides the same rights as the Public Safety Officers Procedural Bill of Rights Act (POBR). Specifically, no adverse comment may be entered into a firefighter's personnel file, or any other file used for any personnel purposes, without the firefighter having first read and signed the instrument. A firefighter then has 30 days to prepare a written response to any adverse comment entered in his or her personnel file. Govt C §§3255-3256. In addition, firefighters have the right to inspect their personnel files during usual business hours when the firefighter is on paid status. If the firefighter believes there is material in the personnel file that is mistaken or unlawful, the firefighter may submit a request to correct or delete the disputed material. The agency then has 30 days to respond to the request. Govt C §3256.5.

© The Regents of the University of California

§4.314 3. Procedures for Interrogation of Peace Officers

Similar to the Public Safety Officers Procedural Bill of Rights Act (POBR), the Firefighters Procedural Bill of Rights Act (FBOR) (Govt C §§3250-3262) establishes procedural safeguards that apply in the context of disciplinary investigations. In many respects, the FBOR's procedural protections mirror the protections afforded peace officers under the POBR (see §4.304), although there are some critical differences.

© The Regents of the University of California

§4.315 a. Pre-interrogation Requirements

If an investigatory interrogation "could lead to punitive action," an employer must provide the following procedural safeguards:

- The interrogation must take place "at a time when the firefighter is on duty, unless an imminent threat to the safety of the public requires otherwise." If the interrogation occurs during off-duty time, the officer must be compensated in accordance with regular department procedures. Govt C §3253(a).
- The firefighter must be informed before the interrogation of the nature of the investigation, the rank, name, and command of the person in charge of the interrogation and persons to be present at the interrogation. Govt C §3253(b)-(c). The interrogation may last only for a reasonable time and the firefighter may be questioned by only two interrogators. Govt C §3253(b), (d).
- Firefighters may be represented at investigations and interrogations on the filing of a formal written statement of charges or whenever an interrogation focuses on matters that are likely to result in punitive action. Govt C §3253(i).
- The firefighter being interrogated has the right to bring his or her own recording device to record any and all aspects of the interrogation. Govt C §3253(g).

© The Regents of the University of California

§4.316 b. Additional Requirement for Potentially Criminal Conduct

The employer must provide to, and obtain from, an employee a formal grant of immunity from criminal prosecution, in writing, before the employee may be compelled to respond to incriminating questions in an interrogation. Subject to that grant of immunity, a firefighter refusing to respond to questions or to submit to interrogations must be informed that the failure to answer questions directly related to the investigation or interrogation may result in punitive action. Govt C §3253(e)(1).

© The Regents of the University of California

§4.317 4. Imposition of Discipline

The protections on the imposition of discipline provided by the Firefighters Procedural Bill of Rights Act (FBOR) (Govt C §§3250-3262) closely parallel the provisions of the Public Safety Officers Procedural Bill of Rights Act (POBR) (see §4.304), but with some notable differences. Like the POBR, the FBOR provides that an employer must complete its disciplinary investigation and notify a firefighter of any proposed discipline within 1 year of the employer's discovery of alleged misconduct. Govt C §3254(d). The FBOR provides that the limitations period begins to run when the "employing fire department or licensing or certifying agency" discovers the allegation of misconduct.

© The Regents of the University of California

§4.318 5. Administrative Appeals

The Firefighters Procedural Bill of Rights Act (FBOR) (Govt C §§3250-3262), like the Public Safety Officers Procedural Bill of Rights Act (POBR), provides that an employee who has completed probation and is subjected to punitive action or denied promotion on grounds other than merit must be afforded administrative appeal. Govt C §§3254(b), 3254.5. Similarly, before removing a fire chief, the agency must provide a chief with written notice, the reason(s) for removal, and an opportunity for administrative appeal. Govt C §3254(c).

Unlike the POBR, the FBOR requires any administrative appeal be conducted in conformance with the rules and procedures adopted by the employer that are in "accordance with" the requirements of the Administrative Procedure Act (Govt C §§11500-11529).

© The Regents of the University of California

§4.319 6. Remedies for Noncompliance

The Firefighters Procedural Bill of Rights Act (FBOR) (Govt C §§3250-3262) generally provides the same remedies as the Public Safety Officers Procedural Bill of Rights Act (POBR). See §4.310. Superior courts have initial jurisdiction over alleged FBOR violations. Firefighters can seek injunctive relief, penalties (up to $25,000 for each malicious violation), and actual damages, if any. In turn, a firefighter who initiates an action in bad faith or that is frivolous may be sanctioned and required to pay the agency's attorney fees. Govt C §3260.

© The Regents of the University of California

§4.320 XI. LABOR NEGOTIATIONS AND THE MEYERS-MILIAS-BROWN ACT (MMBA)

The purpose of the Meyers-Milias-Brown Act (MMBA) (Govt C §§3500-3511) is to promote full communication and improve relations between public employers and their employees by providing a reasonable method of resolving disputes on wages, hours, and other terms and conditions of employment. The MMBA provides a uniform basis for recognizing the rights of public employees to join labor organizations and be represented by such organizations in their employment relationships with public agencies. Govt C §3500.

The MMBA covers employees of all municipalities and many types of other governmental agencies. Some exceptions include public school districts, community colleges, and superior courts. Govt C §§3501(c)-(d), 3501.5.

PRACTICE TIP: For related material, see Zerger, Janiak, Johnson & Kay, California Public Sector Labor Relations (1997), available from LexisNexis Matthew Bender, telephone (800) 223-1940.

© The Regents of the University of California

A. Summary of MMBA

§4.321 1. MMBA Provides Rules for Administration of Employer-Employee Relations

The Meyers-Milias-Brown Act (MMBA) permits public employers to adopt rules and regulations for the administration of employer-employee relations such as the verification and formal recognition of employee representatives, subject to the duty to meet and confer. Govt C §3507. These rules, generally referred to as the Employer-Employee Relations Resolution (EER Resolution), are subject to a reasonableness standard and must conform with the overall purpose and principles described in the MMBA. See *International Bhd. of Elec. Workers v City of Gridley* (1983) 34 C3d 191, 193 CR 518.

PRACTICE TIP: Rules governing employer-employee relations are essential to the relationship between a city and its employees and should be carefully drafted to confirm the employee relations philosophy of the city.

© The Regents of the University of California

§4.322 2. MMBA Guarantees Certain Employee Rights

The Meyers-Milias-Brown Act (MMBA) guarantees covered employees certain rights on joining, participating in, and being represented by employee organizations. These rights and duties create a mandatory collective bargaining system for California local government. Govt C §§3502-3503, 3505.

© The Regents of the University of California

3. Dispute Resolution for MMBA Violations

§4.323 a. Public Employment Relations Board Jurisdiction

The California Public Employment Relations Board (PERB) has authority to hear and determine any complaints alleging violations of the Meyers-Milias-Brown Act (MMBA) or any rules and regulations concerning employee relations adopted by a public agency (except for the City of Los Angeles and the County of Los Angeles) as an unfair labor practice. Govt C §3509. See Govt C §§3541-3541.5 and 8 Cal Code Regs §§31001-32997 for PERB's general authority and procedural regulations.

NOTE: The PERB's authority with respect to the MMBA does not apply to peace officers as defined in Pen C §830.1. Govt C §3511.

There is a split of authority among the courts of appeal as to the exclusivity of PERB's jurisdiction over public employee strikes and whether an employer must first exhaust its administrative remedies with PERB before seeking relief in court. The issue is pending before the California Supreme Court. See *City of San Jose v Operating Engineers Local Union No. 3* (review granted June 18, 2008, S162647; superseded opinion at 160 CA4th 951, 73 CR3d 159).

PRACTICE TIP: PERB has been exercising similar authority over school district labor relations since its establishment in 1976. The PERB website (www.perb.ca.gov) contains PERB regulations concerning the MMBA, general information about PERB, procedures and forms used by PERB, and some PERB decisions.

The statute of limitations for MMBA unfair labor practices filed with PERB is 6 months. *Coachella Valley Mosquito & Vector Control Dist. v California Pub. Employment Relations Bd.* (2005) 35 C4th 1072, 29 CR3d 234.

© The Regents of the University of California

§4.324 b. No Binding Arbitration for Law Enforcement Officers and Firefighter Employee Organizations

The California Supreme Court held that binding interest arbitration under SB 402, passed in 2000, was an unconstitutional delegation of local government control to private parties. *County of Riverside v Superior Court (Riverside Sheriff's Ass'n)* (2003) 30 C4th 278, 132 CR2d 713. The provisions of SB 440 (2003), amending CCP §§1299.7 and 1299.9, were enacted in response to the decision in *County of Riverside v Superior Court, supra,* and provide that an arbitrator's decision is binding unless overturned by a unanimous vote of the governing board.

The First District Court of Appeal recently held that SB 440 was also unconstitutional. *County of Sonoma v Superior Court* (2009) 173 CA4th 322, 93 CR3d 39.

© The Regents of the University of California

§4.325 B. Harmonizing Meyers-Milias-Brown Act With National Labor Relations Act

Federal cases interpreting the National Labor Relations Act (NLRA) (29 USC §§151-169) are viewed as authority in analyzing the Meyers-Milias-Brown Act (MMBA) (Govt C §§3500-3511). The MMBA parallels the NLRA, and California courts may look to federal case law in interpreting the act. *Holliday v City of Modesto* (1991) 229 CA3d 528, 535, 280 CR 206; *Public Employees Ass'n v Board of Supervisors of Tulare County* (1985) 167 CA3d 797, 806, 213 CR 491.

© The Regents of the University of California

C. Provisions Under Meyers-Milias-Brown Act

§4.326 1. Discrimination

Public agencies and employee organizations are prohibited from interfering with, restraining, or discriminating against an employee who chooses to exercise his or her rights under the Meyers-Milias-Brown Act (MMBA) (Govt C §§3500-3511). Govt C §3506; *Campbell Municipal Employees Ass'n v City of Campbell* (1982) 131 CA3d 416, 182 CR 461; *San Leandro Police Officers Ass'n v City of San Leandro* (1976) 55 CA3d 553, 127 CR 856.

A public employer may not unilaterally implement agreed-on benefits only for those unions that have reached agreement on all other bargaining issues, while denying those agreed-on benefits to unions that have not come to an agreement on remaining bargaining issues. Such a practice is discriminatory and violates the purpose and intent of the MMBA. *Los Angeles County Employees Ass'n, Local 660 v County of Los Angeles* (1985) 168 CA3d 683, 214 CR 350.

© The Regents of the University of California

§4.327 2. Right to Organize

Public employees have the right to form, join, and participate in the activities of an employee organization of their own choosing for the purpose of representation on employer-employee relations matters. The procedure for gaining recognition as a valid employee group is developed by the municipality subject to the duty to meet and confer. See Govt C §§3507-3507.1; §4.335.

Employees also have the right to refuse to join employee associations, and the right to represent themselves as individuals in employee relations matters with the city, subject to agency shop requirements. Govt C §§3502, 3202.5. See §4.331.

© The Regents of the University of California

§4.328 a. Law Enforcement Employees and Firefighters

Law enforcement employees have the right to join or participate in employee organizations composed solely of peace officers. Govt C §3508.

In addition to the rights guaranteed under MMBA, firefighters are expressly guaranteed the right to unionize. Lab C §§1960-1964. The superior courts, not PERB, have exclusive jurisdiction over actions involving interest arbitration when the action involves an employee organization that represents firefighters. Govt C §3509(e).

© The Regents of the University of California

§4.329 b. Management and Confidential Employees

The public employer may adopt reasonable rules and regulations that provide for the designation of confidential and management employees, and may restrict such employees from representing other employees of the employer. Govt C §3507.5. See also *Public Employees of Riverside County, Inc. v County of Riverside* (1977) 75 CA3d 882, 142 CR 521; *Organization of Deputy Sheriffs v County of San Mateo* (1975) 48 CA3d 331, 338, 122 CR 210.

© The Regents of the University of California

§4.330 c. Professional Employees

Professional employees have the right to be represented separately from nonprofessional employees by an employee organization. "Professional employees" refers to employees engaged in work requiring specialized knowledge and skills attained through completion of a recognized course of instruction, *e.g.,* attorneys, physicians, and registered nurses. Govt C §3507.3. See also *International Fed'n of Prof. & Tech. Eng'rs v City & County of San Francisco* (2000) 79 CA4th 1300, 94 CR2d 790 (construing scope of Govt C §3507.3).

© The Regents of the University of California

§4.331 d. Unrepresented Employees

The Meyers-Milias-Brown Act (MMBA) specifically states individual employees have the right to "represent themselves individually." Govt C §3502. However, once an employer has recognized an employee organization as an exclusive representative, the individual employee is limited to providing input to the employer on matters within the scope of representation. The statutory right to represent oneself does not equate to a right to bargain and "is at best the right to a non-enforceable grievance procedure." *Relyea v Ventura County Fire Protection Dist.* (1992) 2 CA4th 875, 3 CR2d 614.

© The Regents of the University of California

§4.332 3. Agency Shop Agreements

An "agency shop" agreement may be negotiated between a recognized employee association and the city. It is an agreement that requires the employees in the bargaining unit to either join the association or pay the organization a service fee for representation services. Govt C §3502.5(a).

An agency shop arrangement must be placed in effect, without a negotiated agreement, on:

- A signed petition of 30 percent of the employees in the applicable bargaining unit requesting an agency shop agreement and an election to implement an agency fee arrangement; and
- The approval by a majority of employees who cast ballots and vote in a secret ballot election in favor of the agency shop arrangement.

The petition can be filed only after the recognized employee organization has requested the public agency to negotiate on an agency shop arrangement and, beginning seven working days after the public agency received the request, the two parties have had 30 calendar days to attempt good faith negotiations in an effort to reach agreement. Govt C §3502.5. An election may not be held more frequently than once a year. Govt C §3502(b). Similar provisions govern the rescinding of an agency shop agreement. Govt C §3502(d).

Employees who refuse to pay fees to an association based on bona fide religious objections must pay an equivalent amount to a nonreligious and non-labor charitable fund. Govt C §3502.5(c).

NOTE: An agency shop arrangement does not apply to management employees. Govt C §3502.5(e). See §4.329.

© The Regents of the University of California

§4.333 4. Bargaining Unit Issues

The public agency employer has the exclusive right to determine appropriate bargaining units. *Covina-Azusa Fire Fighters Union, Local 2415 v City of Azusa* (1978) 81 CA3d 48, 59, 146 CR 155. In adopting an employer-employee relations resolution, the employer may include procedures for establishing bargaining units and resolving bargaining unit disputes. Such procedures are subject to the duty to meet and confer. Govt C §3507. See §4.335.

A public agency must grant exclusive or majority recognition to an employee organization after review and verification, by a neutral third party agreed to by the employee organization and the public agency, of a signed petition, authorization cards, or union membership cards, showing that a majority of the employees in an appropriate bargaining unit recognized as exclusive or majority representative of all or part of the same unit. If the public agency and the employee organization cannot agree on a neutral third party, the Division of Conciliation of the Department of Industrial Relations must be the neutral third party. Govt C §3507.1.

© The Regents of the University of California

§4.334 5. Required Notice

The Meyers-Milias-Brown Act (MMBA) generally requires the governing body to give reasonable notice of any proposed ordinance, rule, resolution, or regulation directly relating to matters within the scope of representation. The notice must be given to each recognized employee organization that would be affected by the proposed action. The governing body must give that organization the opportunity to meet and confer with the proposing agency. See §4.335. The notice must be in writing and must be given to an official of the organization. Govt C §3504.5; *Vernon Fire Fighters v City of Vernon* (1980) 107 CA3d 802, 812, 165 CR 908.

NOTE: When a governing body decides an ordinance, rule, resolution, or regulation must be adopted immediately without prior notice or meeting with a recognized employee organization, the governing body must provide notice and opportunity to meet at the earliest practicable time following the adoption of such ordinance, rule, resolution, or regulation. Govt C §3504.5. Such an emergency may be evidenced by an imminent and substantial threat to public safety. *Sonoma County Org. of Pub./Private Employees v County of Sonoma* (1991) 1 CA4th 267, 1 CR2d 850.

© The Regents of the University of California

§4.335 6. Meet and Confer Obligation

On the request of either party, the public employer and the employee association have a mutual obligation to promptly bargain in good faith to reach agreement on matters within the scope of representation. Govt C §3505; *Claremont Police Officers Ass'n v City of Claremont* (2006) 39 C4th 623, 630, 47 CR3d 69. The employer must also meet and confer on all decisions outside the scope of bargaining insofar as they affect matters relating to wages, hours, and terms and conditions of employment. 39 C4th at 633. On scope of representation, see §4.336.

NOTE: A public entity must allow a reasonable number of employee representatives a reasonable amount of time off without loss of pay or benefits to formally meet and confer on matters within the scope of representation. Govt C §3505.3.

© The Regents of the University of California

§4.336 a. Matters Within Scope of Representation

All matters relating to employment conditions and employer employee relations, including, but not limited to, wages, hours, and other terms and conditions of employment, are included within the scope of representation. Expressly excluded from the scope of representation are the merits, necessity, or organization of any service or activity provided by law or executive order. Govt C §3504. See *Berkeley Police Ass'n v City of Berkeley* (1977) 76 CA3d 931, 937, 143 CR 255.

© The Regents of the University of California

§4.337 (1) No Definitive Test

There is no definitive test for determining whether a matter is within the scope of representation. *Fire Fighters Union v City of Vallejo* (1974) 12 C3d 608, 620, 116 CR 507; *Solano County Employees' Ass'n v County of Solano* (1982) 136 CA3d 256, 261, 186 CR 147. See also *San Jose Peace Officer's Ass'n v City of San Jose* (1978) 78 CA3d 935, 945, 144 CR 638.

PRACTICE TIP: Courts do look to analogous provisions in the National Labor Relations Act (29 USC §§151-169) when interpreting the Meyers-Milias-Brown Act (MMBA). *Fire Fighters Union v City of Vallejo, supra*.

© The Regents of the University of California

§4.338 (2) Liberal Construction

The courts have liberally construed the scope of the terms and conditions of employment that are subject to meet and confer. See, *e.g., Los Angeles Police Protective League v City of Los Angeles* (1985) 166 CA3d 55, 60, 212 CR 251, overruled on unrelated grounds in *Laurel Heights Improvement Ass'n v Regents of Univ. of Cal.* (1988) 47 C3d 376, 253 CR 426 (parking fees); *Solano County Employees' Ass'n v County of Solano* (1982) 136 CA3d 256, 186 CR 147 (policy on use of motorcycles); *Dublin Prof. Fire Fighters, Local 1885 v Valley Community Servs. Dist.* (1975) 45 CA3d 116, 119, 119 CR 182 (assignment of overtime); *Los Angeles County Employees Ass'n, Local 660 v County of Los Angeles* (1973) 33 CA3d 1, 5, 108 CR 625 (work load).

© The Regents of the University of California

§4.339 b. Good Faith Requirement

The requirement that parties meet and confer in good faith has been interpreted by the courts to mean that the good faith necessary to be shown is a subjective attitude that requires a genuine desire to reach agreement. *Placentia Fire Fighters v City of Placentia* (1976) 57 CA3d 9, 25, 129 CR 126. Indicia of bad faith have been developed in litigation arising under the MMBA. See, *e.g., Stationary Eng'rs v San Juan Suburban Water Dist.* (1979) 90 CA3d 796, 803, 153 CR 666, disapproved on other grounds in *County Sanitation Dist. No. 2 v Los Angeles County Employees' Ass'n* (1985) 38 C3d 564, 570 n9, 214 CR 424 (dilatory tactics).

© The Regents of the University of California

§4.340 7. Management Rights and Restrictions

Certain rights, often termed "management rights," are not within the scope of bargaining because they are intrinsic to the right to manage. Management may not be required to bargain over actions taken under such rights unless they have a significant impact on wages, hours, or other terms and conditions of employment and the employer's need for unencumbered decision-making in managing its operations is outweighed by the benefit to employer-employee relations of bargaining over the intended action. Management rights clauses are typically contained in a city's employer-employee relations resolution, the personnel rules, or the municipal code. *Claremont Police Officers Ass'n v City of Claremont* (2006) 39 C4th 623, 636, 47 CR3d 69; *Building Material & Constr. Teamsters' Union v Farrell* (1986) 41 C3d 651, 663, 224 CR 688; *San Jose Peace Officer's Ass'n v City of San Jose* (1978) 78 CA3d 935, 945, 144 CR 638; *Berkeley Police Ass'n v City of Berkeley* (1977) 76 CA3d 931, 937, 143 CR 255.

The supreme court in *Claremont Police Officers Ass'n v City of Claremont, supra*, provides the following three-part test for whether an action is within "management rights":

- Does the decision have a significant and adverse effect on wages, hours, or working conditions of bargaining unit members? If no, there is no duty to negotiate. If yes, then ask:
- Does the significant and adverse effect arise from the implementation of a fundamental managerial or policy decision? If no, meet and confer applies. If yes, apply the following balancing test:
- Is the employer need for unencumbered decision making in managing its operations outweighed by the benefit to employer-employee relations of bargaining over the issue in question? In making this analysis, the court may consider whether the transactional cost of the bargaining process outweighs its value.

PRACTICE TIP: A city's employer-employee relations ordinance or resolution or any memorandum of understanding should contain a broad management rights provision to affirm the city's right to manage the merits, necessity, or organization of its services or activities.

© The Regents of the University of California

§4.341 8. Impasse

If the good faith meeting and conferring leads only to an impasse, a public agency not subject to interest arbitration may implement its last best final offer, but may not implement a memorandum of understanding. Govt C §3505.4. Impasse resolution procedures adopted by the public agency must be exhausted before implementation.

NOTE: "Impasse" is not defined in the MMBA, but is an important concept. "Impasse" is, however, defined in the statute governing employer-employee relations for school districts and establishing the Public Employment Relations Board. As used in this statute, " 'Impasse' means that the parties to a dispute over matters within the scope of representation have reached a point in meeting and negotiating at which their differences in position are so substantial or prolonged that future meetings would be futile." Govt C §3540.1(f).

PRACTICE TIP 1: If the city council anticipates an impasse, it should instruct its negotiating team to make its last best and final offer one that the city council would implement after an impasse hearing.

PRACTICE TIP 2: A city's employer-employee relations ordinance or resolution should establish a dispute resolution or impasse procedure that authorizes the city council to ultimately resolve disputes or impasses between employee organizations and the city.

© The Regents of the University of California

§4.342 a. No Binding Arbitration for Law Enforcement Officers and Firefighters

Following impasse, binding arbitration of economic issues affecting employee organizations representing law enforcement officers and firefighters is not required. Although the California Supreme Court held that the previous binding arbitration legislation was an unconstitutional delegation of local government control to private parties (*County of Riverside v Superior Court (Riverside Sheriff's Ass'n)* (2003) 30 C4th 278, 132 CR2d 713), subsequent legislation (SB 440 (2003)) attempted to restore binding arbitration by providing that an arbitrator's decision is binding unless overturned by a unanimous vote of the governing board. See CCP §§1299.7, 1299.9. The First District Court of Appeal recently held, however, that SB 440 was also unconstitutional. *County of Sonoma v Superior Court* (2009) 173 CA4th 322, 93 CR3d 39.

© The Regents of the University of California

§4.343 b. Other Employees

The Meyers-Milias-Brown Act (MMBA) does not specify any particular impasse procedure except the parties may agree to appoint a mediator to help them reach agreement. Govt C §3505.2. Procedures for the resolution of disputes may be adopted as part of the city's employer-employee relations rules and regulations. Govt C §3507.

© The Regents of the University of California

§4.344 9. Unilateral Changes

A unilateral change in violation of the Meyers-Milias-Brown Act (MMBA) occurs when an employer takes any action to change the status quo on a matter within the scope of bargaining without having given proper notice and an opportunity to bargain. Such action by an employer is a *per se* violation of the duty to meet and confer. *Vernon Fire Fighters v City of Vernon* (1980) 107 CA3d 802, 823, 165 CR 908. On the meet and confer requirement, see §§4.335-4.339. However, once an employer offers reasonable written notice and an opportunity to bargain, if the employee organization does not respond, the employer may unilaterally adopt a rule or regulation. *Stationary Eng'rs v San Juan Suburban Water Dist.* (1979) 90 CA3d 796, 802, 153 CR 666, disapproved on other grounds in *County Sanitation Dist. No. 2 v Los Angeles County Employees' Ass'n* (1985) 38 C3d 564, 570 n9, 214 CR 424. See also Zerger, California Public Sector Labor Relations §10.06[1] (1989).

NOTE: Adjustments made to employee benefits due to changes in employer obligations as mandated by current law do not require that an entire Memorandum of Understanding (MOU) be renegotiated. *Mendocino County Employees Ass'n v County of Mendocino* (1992) 3 CA4th 1472, 5 CR2d 353. On MOUs, see §4.346.

© The Regents of the University of California

§4.345 10. Unilateral Implementation Following Meet and Confer

A public employer who is unsuccessful in reaching a negotiated agreement after a good faith effort may unilaterally impose its last offer. Such imposition may not occur until negotiations and the impasse procedures have been exhausted. The unilateral imposition must reflect the city's last offer and that offer must be consistent with the history of negotiations. See Zerger, California Public Sector Labor Relations §10.07[4] (1989).

© The Regents of the University of California

§4.346 11. Memorandum of Understanding

The written negotiated agreement or contract between the employer and recognized representative of employees in a bargaining unit that sets out the terms and conditions of employment, *e.g.,* wages, hours, or fringe benefits, for a stated period of time is often called a "memorandum of understanding" or "MOU." The written agreement must be ratified by the governing body to be binding on the parties. Govt C §3505.1; *Glendale City Employees' Ass'n v City of Glendale* (1975) 15 C3d 328, 124 CR 513.

© The Regents of the University of California

§4.347 12. Unfair Labor Practices

Unfair labor practices include any action by an employer or an employee organization that violates any right protected by the Meyers-Milias-Brown Act (MMBA). Specific unfair practices are not listed in the MMBA, except the duty to bargain in good faith, which renders bad faith bargaining, *i.e.,* failure to timely meet and confer, an unfair labor practice. *Dublin Prof. Fire Fighters, Local 1885 v Valley Community Servs. Dist.* (1975) 45 CA3d 116, 118, 119 CR 182. The MMBA clearly prohibits interference with an employee's right to participate or not to participate in an organization. Govt C §3506.

© The Regents of the University of California

§4.348 13. Strikes

The Meyers-Milias-Brown Act (MMBA) has been interpreted as allowing public employees a limited right to strike. *County Sanitation Dist. No. 2 v Los Angeles County Employees' Ass'n* (1985) 38 C3d 564, 585, 214 CR 424. However, strikes that impact the delivery of essential services and create a substantial likelihood that serious harm will be experienced unless immediate action is taken create an emergency situation in which employers may unilaterally adopt a rule or regulation affecting the strike. See *Sonoma County Org. of Pub./Private Employees v County of Sonoma* (1991) 1 CA4th 267, 1 CR2d 850. See §4.323 (Public Employment Relations Board (PERB) jurisdiction over public employee strikes).

NOTE: Strikes by firefighters are specifically prohibited (Lab C §1962) and strikes by police officers have been determined to be illegal per se (see *City of Santa Ana v Santa Ana Police Benevolent Ass'n* (1989) 207 CA3d 1568, 255 CR 688). But see CCP §1299.4(d) (law enforcement officers and firefighters cannot be permitted to engage in strikes that endanger public safety).

© The Regents of the University of California

§4.349 14. Mediation

The Meyers-Milias-Brown Act (MMBA) (Govt C §§3500-3511) provides for, but does not require, the submission of matters on which agreement cannot be reached to a mediator, mutually selected by the parties. The cost for mediation is to be shared equally between the parties. Govt C §3505.2. The California State Mediation and Conciliation Service normally provides mediators to public agencies at no charge.

PRACTICE TIP: A city should consider including in the employer-employee relations ordinance or resolution a procedure for mediation or fact finding to resolve disputes or impasses occurring during labor negotiations.

© The Regents of the University of California

XII. CALIFORNIA WORKERS' COMPENSATION LAW

§4.350 A. Workers' Compensation Law Generally

California workers' compensation law is a comprehensive system of benefits for employees who have sustained work-related injuries or illnesses. It is a "no fault" system that provides benefits without regard to the fault of the employee or the employer.

The system is designed to provide an injured worker with treatment and benefits automatically and promptly as soon as the employer learns about the injury. The law establishes expedited dispute resolution procedures in contested cases. The law is described in state statutes, administrative regulations, and case law. See, *e.g.,* Lab C §§3200-3604.

PRACTICE TIP: For a more detailed analysis of workers' compensation principles, see California Workers' Compensation Practice (4th ed Cal CEB 2000); Hanna, California Law of Employee Injuries and Workers' Compensation (Matthew Bender); Herlick, California Workers' Compensation Law (Butterworth Legal Publishers, 5th ed 1994); Larson, Larson's Workers' Compensation Law (Matthew Bender, 1952); St. Clair, California Workers' Compensation Law and Practice (California Compensation Seminars, 5th ed 1996).

© The Regents of the University of California

§4.351 1. Workers' Compensation Law Is Specialized Area

Workers' compensation law is a special area of practice unfamiliar to most municipal attorneys and administrators. In most cities, the administration of workers' compensation claims is handled by a third party administrator (TPA) and outside workers' compensation counsel. Nevertheless, important roles remain for the "generalist" attorney or staff member. TPAs and outside counsel may lack the in-house knowledge necessary to thoroughly investigate claims and defenses (*e.g.,* the availability of light duty), and to coordinate workers' compensation cases with other legal matters (disability retirement, labor and employment matters, civil actions, discrimination claims) that may evolve from the same set of facts.

© The Regents of the University of California

§4.352 2. Workers' Compensation as Sole and Exclusive Remedy

The right to receive workers' compensation benefits is the sole and exclusive remedy available to an employee against the employer for a work-related injury. Lab C §3602(a). There are statutory and judicially recognized exceptions to this rule. See Lab C §3602(b); *Gantt v Sentry Ins.* (1992) 1 C4th 1083, 4 CR2d 874. For example, a claim of employment discrimination based on disability due to a work-related injury can be pursued under the Fair Employment and Housing Act. *City of Moorpark v Superior Court* (1998) 18 C4th 1143, 77 CR2d 445. The workers' compensation law is the sole remedy, however, for alleged emotional distress resulting from torts (such as intentional infliction of emotional distress) that occur in the workplace. *Miklosy v Regents of Univ. of Cal.* (2008) 44 C4th 876, 80 CR3d 690.

© The Regents of the University of California

§4.353 3. Interactive Process Under Discrimination Laws Imposes Separate Obligation

The obligation to engage in the interactive process with an employee about claimed disabilities and workplace needs is an independent requirement that stems from the federal ADA (42 USC §§12101-12213) and the California Fair Employment and Housing Act (FEHA) (Govt C §§12900-12996). The analysis of whether "modified duty" is available under workers' compensation rules does not satisfy this independent, statutory obligation. In other words, even if a public agency employer is not obligated to provide modified duty under workers' compensation rules, the employer may nonetheless have an obligation to provide a reasonable accommodation. Govt C §12940(n); *Claudio v Regents of Univ. of Cal.* (2005) 134 CA4th 224, 35 CR3d 837.

© The Regents of the University of California

B. Work-Related Injury: Prerequisite for Recovering Workers' Compensation Benefits

§4.354 1. Injury Required

To qualify for workers' compensation benefits, an employee must have an injury that "arises out of employment" or that occurs during the "course of employment." Lab C §3600. The test is whether the work caused the employee's injury or illness. A pre-existing condition that was not caused by the employee's work but was aggravated by work, is also considered a work-related injury. *Argonaut Ins. Exch. v Industrial Acc. Comm'n (Bellinger)* (1958) 49 C2d 706, 321 P2d 460. See *Granado v WCAB* (1968) 69 C2d 399, 71 CR 678. An injury may be physical or psychiatric. See Lab C §§3208, 3208.3.

The injury may be due to a specific incident or exposure, or to the cumulative effect of activities over time, or a combination of the two. Lab C §§3208.1-3208.2.

© The Regents of the University of California

§4.355 a. Burden of Proof

The burden of proving that an injury is work-related is on the employee. Lab C §5705.

PRACTICE TIP: The employee's burden is lightened—some would say lightened considerably—by the principles that workers' compensation law must be liberally construed for the purpose of protecting injured workers, and that reasonable doubts will be resolved in favor of the employee. Lab C §3202.

© The Regents of the University of California

§4.356 b. Presumptions

Some injuries are presumed work-related. Heart trouble, hernia, pneumonia, and cancer are presumed to be work-related for certain safety personnel. Other presumptions applicable to some employees include tuberculosis, blood-borne infectious diseases, meningitis, and back injuries. See Lab C §§3212-3213.2.

PRACTICE TIP: These presumptions are rebuttable in theory, but difficult to rebut in practice. See *Geoghegan v Retirement Bd.* (1990) 222 CA3d 1525, 272 CR 419.

© The Regents of the University of California

§4.357 c. Special Proof Problems

Special problems of proof apply to psychiatric injuries. Generally, the employee must show that the psychiatric injury is due to actual events of employment or as a compensable consequence of a physical injury. See Lab C §3208.3. Defenses include good faith personnel action and a requirement of 6 months of employment.

© The Regents of the University of California

§4.358 2. Only Employees Entitled to Benefits

Only "employees" are entitled to workers' compensation benefits. Detailed rules guide the analysis of who is or is not an employee. Lab C §3351. Elected and appointed paid officials are generally included in the definition of employee. Lab C §3351. Volunteers are generally not employees unless the legislative body or case law has declared that they are. Lab C §3363.5. Disputed cases depend heavily on the facts.

© The Regents of the University of California

§4.359 3. Affirmative Defenses

The legislature has established certain specific, affirmative defenses to a claimed industrial injury. Lab C §3600. These defenses include:

- intoxication;
- self-inflicted injury;
- voluntary suicide;
- injury caused by altercation in which injured employee was initial physical aggressor;
- injury caused by felonious act that results in conviction;
- injury caused by voluntary off-duty recreational injury.

All of these defenses are heavily dependent on the facts. For example, suicide caused by a work-related psychiatric condition may be compensable, and injury incurred in an off-duty softball game may be compensable if the employer required or encouraged the employee to participate.

© The Regents of the University of California

§4.360 C. Workers' Compensation Benefits

Workers' compensation benefits are supposed to be paid automatically, without the necessity of litigation, and most claims are not litigated. On litigated claims, see §§4.382-4.399. The employer is required to provide benefits without delay unless it has a good faith argument that no benefits are payable.

PRACTICE TIP: An employer should not refuse to pay benefits on an asserted claim unless it believes, in good faith, that there is sufficient evidence to withstand a penalty petition (see §§4.374-4.378).

© The Regents of the University of California

§4.361 1. Employer-Paid Medical Treatment

The employer must pay all medical expenses "reasonably required to cure or relieve the effects of the injury." Lab C §4600. This includes "medical, surgical, chiropractic, and hospital treatment, including nursing, medicines, medical and surgical supplies, crutches and apparatus, including artificial members." Lab C §4600. Medical treatment has also been found to include physical therapy, gym membership, home nursing, and housekeeping, and a specially equipped van for a paraplegic.

Treatment modalities must be in accordance with the American College of Occupational and Environmental Medicine guidelines. Lab C §4616(e). These guidelines are presumed to be correct with regard to the nature, extent, and scope of medical treatment. Lab C §4600.

NOTE: California law prohibits a limit on chiropractic, occupational therapy, or physical therapy visits for post-surgical physical, medical, and rehabilitative services. Lab C §4604.5.

Within one working day after an employee files a claim form, the employer must authorize all medical treatment consistent with American College of Occupational Environmental Medicine Guidelines for an alleged industrial injury and continue until the claim is accepted or rejected. Liability for treatment while a claim is under investigation is limited to $10,000. Lab C §5402(c).

© The Regents of the University of California

2. Treatment Provider

§4.362 a. Pre-designated Physician

An employee may pre-designate his or her personal physician for treatment of industrial injuries if

- the employee has notified his or her employer in writing, before the injury, that the physician has been selected,
- the physician agrees in writing to be the primary treating physician for work- related injuries, and
- the physician agrees to accept the workers' compensation fee schedule for compensation for physician services.

The pre-designated physician must have provided prior treatment and maintain records of treatment before the industrial injury. Pre-designation of a physician is only available to employees whose employer provides non-occupational group health coverage or a group health plan or policy. Lab C §4600.

© The Regents of the University of California

§4.363 b. Employer Physician

If the employee does not pre-designate a physician, the employer may exercise initial control of treatment for 30 days but the employee may request to change physicians after that time. Lab C §§4600-4601. An employer may maintain control of treatment by contracting with a certified health care organization under conditions described in the law. Lab C §4600.3. An employer may also maintain ongoing control of treatment by establishing a medical provider network for the treatment of injured employees. Lab C §4616.

© The Regents of the University of California

§4.364 3. Employee May Not Refuse Treatment

An employee may not unreasonably refuse medical treatment. Lab C §4056.

© The Regents of the University of California

D. Disability Benefits

§4.365 1. Temporary Disability Benefits

Temporary disability benefits compensate the employee for wage loss during the period after an injury when the employee is recovering from the injury and unable to work. Lab C §§4650-4664.

An employee is temporarily totally disabled if he or she cannot work at all. An employee is temporarily partially disabled if he or she can perform some type of modified work.

PRACTICE TIP: One of the most important tools available to an employer who wishes to limit its workers' compensation liability is to provide light duty to partially disabled employees. Providing light duty, consistent with the employee's medical restrictions, may allow the employer to terminate temporary disability benefits. *Meyers v Industrial Acc. Comm'n (Titsworth)* (1940) 39 CA2d 665, 103 P2d 1025. Providing light duty is also a defense to a disability retirement application and, in addition, may provide a defense against ADA claims. *O'Toole v Retirement Bd.* (1983) 139 CA3d 600, 188 CR 853. An employer's obligation to engage in the interactive process and provide reasonable accommodations in the workplace is an independent obligation under the ADA and the California Fair Employment and Housing Act. Govt C §12940(n).

© The Regents of the University of California

§4.366 a. When Temporary Disability Benefits Cease

Temporary disability benefits are payable until:

- The employee has been released to return to work; or
- The employee's medical condition has become "permanent and stationary" or reached the "maximum medical improvement."

NOTE: The employee becomes permanent and stationary when he or she has reached maximal expected improvement. Lab C §4652.

The total temporary disability payments for a single injury cannot extend more than 104 weeks within any period of 2 years from the first payment, except for certain injuries. Lab C §4656.

© The Regents of the University of California

§4.367 b. Amount of Temporary Disability Benefits

Temporary disability benefits are two-thirds of the employee's "average weekly earnings," with a maximum and minimum limit. For injuries occurring on or after January 1, 2006, for maximum wage earners (most public employees), the rate is $840 per week. Lab C §4653. For injuries occurring on or after January 1, 2005, commencing January 1, 2007, the limits are increased annually by the percentage increase of the State Average Weekly Wage. Lab C §4453(a)(10).

Local safety officers, juvenile probation officers/counselors, and district attorney investigators who are members of the Public Employees' Retirement System (PERS) are entitled to full salary for up to 1 year in lieu of temporary disability benefits. See Lab C §4850. Many local safety employees who are not members of PERS are granted similar benefits under city charters or local labor agreements.

© The Regents of the University of California

§4.368 2. Permanent Disability Benefits

Permanent disability refers to an employee's residual disability once the healing period is over and the employee's condition is permanent and stationary, or the employee has reached the maximum medical improvement.

An employer is only liable for the permanent disability that it caused. Lab C §§4663-4664. For example, an employee injures his back while working for employer 1, and then injures it again working for employer 2. Employer 2 is only liable for the increase in permanent disability that it caused. In this way, permanent disability is "apportioned" between employers.

© The Regents of the University of California

§4.369 a. Permanent Disability Rating

The extent of permanent disability is expressed as a percentage from 0 to 100, referred to as a permanent disability "rating." One hundred percent permanent disability represents permanent, total disability; anything less than 100 represents permanent partial disability. The percentage assigned to a particular employee depends on the nature of the injury, the occupation at the time of the injury, and the employee's age at the time of injury, with consideration given to an employee's diminished future earning capacity. Lab C §4660(a).

The employee's ultimate rating depends heavily on the description of the employee's impairment based on the American Medical Association's guides to the evaluation of permanent impairment. Lab C §4660. In most cases, the descriptions of the employee's disability in the medical reports are translated into a "standard" disability rating, which is then adjusted upward or downward based on the employee's age and occupation. Lab C §4660.

PRACTICE TIP: The issue of an employee's permanent disability rating is not the same as the issue of whether the employee is disabled for the performance of his or her usual duties in the disability retirement setting. An employee may have a substantial permanent disability rating and still be capable of performing his or her usual duties. *Winn v Board of Pension Comm'rs* (1983) 149 CA3d 532, 197 CR 111; *Hosford v Board of Admin.* (1978) 77 CA3d 854, 143 CR 760; *Harmon v Board of Retirement* (1976) 62 CA3d 689, 133 CR 154.

© The Regents of the University of California

§4.370 b. Permanent Partial Disability

An employee with a permanent partial disability is entitled to a certain number of weeks of indemnity payments, depending on the percentage of disability and whether the employee returns to work at modified, alternative, or similar job duties. Lab C §§4658, 4659(c).

An employer has an independent obligation under the ADA and the California Fair Employment and Housing Act (FEHA) to engage in the interactive process and identify possible reasonable accommodations in the workplace. Govt C §12940(n).

© The Regents of the University of California

§4.371 c. Individual Jurisdiction Pension Plan Limits

In some jurisdictions with their own pension plans, the pension plan provides that an employee is not entitled to permanent disability and industrial disability retirement benefits for the same condition. In those jurisdictions, the employee's industrial disability retirement allowance may be reduced by the amount of any permanent disability benefits paid for the same condition. *City & County of San Francisco v Workers' Compensation Appeals Bd. (Engler)* (1968) 267 CA2d 771, 73 CR 429.

© The Regents of the University of California

§4.372 d. Supplemental Job Displacement Benefits

An employee who cannot return to his or her usual duties because of a work-related injury that causes permanent partial disability is entitled to benefits to assist him or her in returning to gainful employment in the form of vocational rehabilitation for injuries before 2004 (Lab C §139.5) and supplemental job displacement benefits for injuries on or after January 1, 2004. Lab C §4658.5.

The supplemental job displacement benefit is a non-transferable voucher for education related to retraining or skill enhancement or both at state-approved or state-accredited schools.

The amount of supplemental job displacement benefits is limited by the percentage of the permanent partial disability award. Lab C §4658.5.

© The Regents of the University of California

§4.373 E. Death Benefits

Death benefits are payable to the dependents of an employee who dies from a work-elated injury or illness. Lab C §§4700-4709. Heirs are not, however, constitutionally entitled to receive workers' compensation benefits. *Six Flags, Inc. v WCAB* (2006) 145 CA4th 91, 93, 51 CR3d 377.

The amount of the death benefits varies based on the date of injury, the extent of dependency (total versus partial), and the number of dependents. Lab C §4702.

© The Regents of the University of California

F. Penalties for Violations of Workers' Compensation Laws

§4.374 1. Labor Code Governs

The Labor Code imposes an increase in the amount of the benefit under the workers' compensation laws if payment has been unreasonably delayed or refused. Lab C §5814. This penalty applies to the entire class of benefits that was not timely paid. However, the penalty amount must be 10-25 percent of the benefit unreasonably withheld up to a limit of $10,000. Lab C §5814.

PRACTICE TIP: To rebut a penalty petition, the employer must be prepared to show that it refused to pay benefits because of a "genuine doubt from a medical or legal standpoint as to liability for benefits." *Kerley v Workers' Compensation Appeals Bd.* (1971) 4 C3d 223, 93 CR 192.

© The Regents of the University of California

§4.375 2. Multiple Penalties

Multiple penalties may be imposed when an employer unreasonably delays payment of several types of benefits, or when there are separate and distinct acts of unreasonable delay in payment of a class of benefits. *Gallamore v Workers' Compensation Appeals Bd.* (1979) 23 C3d 815, 153 CR 590.

© The Regents of the University of California

§4.376 3. Late Payments

An automatic 10-percent increase may be imposed on late indemnity payments. Lab C §4650(d).

© The Regents of the University of California

§4.377 4. Serious and Willful Misconduct of Employer

If the employee's injury is a result of the employer's serious and willful misconduct, compensation is increased 50 percent. Lab C §4553. Insurance does not cover this penalty.

© The Regents of the University of California

§4.378 5. Serious and Willful Misconduct of Employee

The compensation recoverable by an employee will be reduced by 50 percent if the injury was due to the employee's serious and willful misconduct. Lab C §4551.

PRACTICE TIP: This claim is often asserted as a defense but is rarely successful.

© The Regents of the University of California

§4.379 G. Penalties for Discrimination Against Injured Employee

Any employer who discharges, or threatens to discharge, or in any manner discriminates against any employee because he or she has filed a claim for compensation is guilty of a misdemeanor and the employee's compensation will be increased by one-half, but in no event more than $10,000. Lab C §132a.

In addition, the employee can be restored to employment with retroactive pay and benefits. Insurance cannot cover liability for a Lab C §132a violation.

NOTE: The provisions of Lab C §132a have been construed broadly to cover any discrimination based on a work-related injury. See *Judson Steel v Workers' Compensation Appeals Bd. (Maese)* (1978) 22 C3d 658, 150 CR 250.

© The Regents of the University of California

§4.380 1. Fair Employment and Housing Act Claim

In addition to claiming benefits under Lab C §132a before the Workers' Compensation Appeals Board, an employee may pursue a disability discrimination claim and/or a failure to accommodate claim under the Fair Employment and Housing Act (FEHA) (Govt C §§12900-12996). *City of Moorpark v Superior Court* (1998) 18 C4th 1143, 77 CR2d 445. Alternatively, the employee can allege a violation of public policy based on FEHA. 18 C4th at 1157.

© The Regents of the University of California

§4.381 2. Defenses

An employer can defend a discrimination claim by showing that the action it took was based on "reasonable business necessity." *Warnock v WCAB* (1997) 62 CCC 406; *Bloom v WCAB* (1997) 62 CCC 680.

© The Regents of the University of California

§4.382 H. Litigation

Workers' compensation benefits are supposed to be paid automatically, without the necessity of litigation, and most claims are not litigated. When they are litigated, the Workers' Compensation Appeals Board has exclusive jurisdiction over "the recovery of compensation, or concerning any right or liability arising out of or incidental thereto." Lab C §5300.

© The Regents of the University of California

§4.383 1. Typical Issues

Typical contested issues are industrial causation, permanent disability and extent of partial permanent disability, entitlement to temporary disability, entitlement to future medical care, and apportionment.

© The Regents of the University of California

§4.384 2. Expert Medical Opinion

Resolution of the issues depends critically on expert medical opinion. Medical-legal reports are generally submitted by one or more of the following:

- The employee's treating doctor(s),
- Qualified medical examiners (QMEs) selected by the employee and/or the employer from a panel of QMEs provided by the Industrial Medical Council, or
- An agreed medical examiner selected by the parties jointly.

Detailed rules govern the process of obtaining medical-legal reports. Two features of the system, however, must be emphasized:

- The opinions of the employee's treating physicians are given great weight by the Workers' Compensation Appeals Board. However, the treating physician's presumption of correctness has been repealed and no longer applies to any workers' compensation proceeding. See former Lab C §4062.9.
- The employer is generally liable for all medical/legal costs "reasonably, actually and necessarily incurred" to prove or disprove a contested claim. Lab C §§4620-4621. These costs are the employer's responsibility whether or not the employee's claim is successful. *Turudich v Industrial Accident Comm'n* (1965) 237 CA2d 455, 47 CR 21.

PRACTICE TIP: Medical reports are entitled to confidentiality protection. Lab C §3762(c). Employers are limited to medical information consisting of diagnosis, medical treatment, and work restrictions necessary to modify the employee's job.

© The Regents of the University of California

§4.385 3. Claim Presentation Requirement

The Labor Code imposes detailed requirements on the presentation of a claim by an employee, and the employer's required response. Lab C §§5400-5401.

PRACTICE TIP: Typically, the employee serves a claim on the employer, which triggers the employer's obligations. But employer knowledge of the injury from any source may also trigger the employer's obligations, without service of a claim. Lab C §5402(a). The employer's prompt investigation and response is critical. See §4.386.

© The Regents of the University of California

§4.386 4. Investigation and Response

The employer has 90 days to reject liability. The 90-day period begins to run on the date a claim is filed or on the first day that the employer has notice of the injury from any source. If the employer does not reject liability within 90 days after a claim is filed, the law imposes a presumption that the claim has been accepted. Lab C §5402(b). This presumption can only be rebutted by evidence that could not have been obtained by exercising reasonable diligence during the first 90 days.

© The Regents of the University of California

§4.387 5. Discovery

Discovery commences as soon as the employer has notice of the injury. The employer has a continuing obligation to serve on the employee all medical records in its possession. 8 Cal Code Regs §§10608, 10622, 10979. The employer must advise its insurance company of any additional information affecting the claim. Lab C §3761(b).

© The Regents of the University of California

6. Methods of Resolution

§4.388 a. Compromise and Release

The parties may settle any asserted liability under the workers' compensation law by compromise and release. Lab C §§5000-5006.

NOTE: For injuries before January 1, 2003, settlement of vocational rehabilitation (supplemental job displacement) benefits is prohibited without a finding that a good faith dispute exists that could deprive the employee of any workers' compensation benefits. Former Lab C §§4646, 5100.6; *Thomas v Sports Chalet, Inc.* (1977) 42 CCC 625. For injuries after January 1, 2003, parties may settle vocational rehabilitation benefits in an amount not to exceed $10,000.

The desired effect of a compromise and release is usually a full release of all workers' compensation claims arising out of a given injury, including future medical care and vocational rehabilitation (supplemental job displacement benefits), in exchange for a lump sum paid to the employee. Under a compromise and release, the employer does not admit liability.

PRACTICE TIP: Compromise and releases are generally used only when the employee is separating from service. An employer is reluctant to pay a premium to buyout these issues if there is a possibility that the employee will return to work and aggravate his or her condition, leading to further liability.

© The Regents of the University of California

§4.389 b. Stipulations With Request for Award

The parties may stipulate to any disputed issues. When the stipulations resolve all of the issues necessary for the issuance of an award by the Workers' Compensation Appeals Board (WCAB), the parties enter into "Stipulations with Request for Award." When the stipulations are approved by the WCAB, they become a binding contract on both parties. *Huston v WCAB* (1979) 95 CA3d 856, 157 CR 355.

An employee who intends to continue working, and/or anticipates the need for significant medical treatment, will probably want an award that protects his or her right for future medical treatment instead of giving up that right for a lump sum. A stipulation is also desirable for a dependent in a death case who wants the protection of an award by a court.

A stipulation is desirable for the employer when the employee will return to work, because it protects the employer's right to credit for prior permanent disability in the event of a future claim. It also allows the employer to spread its payment over time, rather than paying a lump sum.

© The Regents of the University of California

§4.390 c. Judicial Decision

If the parties cannot settle, the issues are framed and the matter is set for trial. After all evidence has been presented, a workers' compensation judge issues a findings and award and/or order resolving the disputed issues.

© The Regents of the University of California

§4.391 7. Resolution of Penalties

On approval of a Compromise and Release or a Stipulations with Request for Award and after the issuance of a Finding and Award, it is conclusively presumed that any accrued claims for penalties have been resolved whether the settlement documents specifically so state or whether a penalty issue was raised before trial. Lab C §5814(c).

© The Regents of the University of California

§4.392 8. Statutes of Limitations; Tolling

The workers' compensation law provides several different statutes of limitations for the presentation of different types of claims (*e.g.,* injury claims, supplemental job displacement claims, death benefits). See Lab C §§5400-5413.

Generally, an employee has 1 year from the date of injury to file a claim if no benefits (*e.g.,* medical treatment, temporary disability) have been provided by the employer.

PRACTICE TIP: The strength of the employer defense that the employee did not timely file a claim is diminished by the fact that the statute of limitations must be liberally construed in favor of the employee, and that the employee may not know his or her condition is work-related for some time after the injury, perhaps not until a medical expert finds that it is work-related.

© The Regents of the University of California

§4.393 I. Related Litigation

The same set of facts that give rise to a workers' compensation claim may—and often are—the basis of other types of litigation against the city.

© The Regents of the University of California

§4.394 1. Disability Retirement

Most, if not all, public pension plans offer disability retirement benefits to employees who are "incapacitated for performance of duty." Some plans offer enhanced pension benefits if the disabling condition is work-related. The interplay of workers' compensation and disability retirement cases presents problems of collateral estoppel and offsets that differ from city to city.

© The Regents of the University of California

§4.395 a. Determine Effect of Workers' Compensation Board Decision

It is necessary to first determine whether the decision of the Workers' Compensation Appeals Board (WCAB) on industrial causation is binding in the retirement proceeding. Compare *French v Rishell* (1953) 40 C2d 477, 254 P2d 26, with *Geoghegan v Retirement Bd.* (1990) 222 CA3d 1525, 272 CR 419.

In determining whether a psychiatric injury is industrially caused for the purposes of determining the entitlement to a disability retirement, the WCAB must use the Government Code substantial cause standard rather than the Labor Code predominant cause standard. *Pearl v Workers' Compensation Appeals Bd.* (2001) 26 C4th 189, 109 CR2d 308. The WCAB may, however, use Labor Code procedural standards.

For local safety officers who are contract members of the Public Employees' Retirement System, see Govt C §21166.

© The Regents of the University of California

§4.396 b. Consider Possibility of Offset

Determine whether your jurisdiction can offset industrial disability retirement benefits against workers' compensation benefits. If so,

- determine whether the conditions at issue in the two proceedings match up;
- consider whether a global resolution of all claims is appropriate, and
- consider whether providing light duty is appropriate and possible as a defense to the retirement proceeding, temporary disability benefits or Lab C §4850 pay, and vocational rehabilitation benefits.

© The Regents of the University of California

§4.397 2. Subrogation

If the employee's work-related injury was caused by a third party, the employer can sue the third party, or intervene in the employee's lawsuit against the third party, to recover its workers' compensation expenses. Lab C §3850.

PRACTICE TIP: Look for subrogation potential in motor vehicle accidents, injuries due to "slip and falls," injuries due to products, and injuries due to medical malpractice. However, a public safety officer generally cannot sue a third party for injuries caused when confronting a hazard that the public safety officer was hired to confront. *Lipson v Superior Court* (1982) 31 C3d 362, 182 CR 629. But see CC §1714.9 (exceptions when injuries are caused by willful acts of third party).

© The Regents of the University of California

§4.398 3. Federal Causes of Action

Federal causes of action may be available under the Equal Employment Opportunity Act of 1972 (42 USC 2000e) and the ADA (42 USC §§12101-12213). An employee may have related discrimination or accommodation claims. The city's response to requests for accommodations under the ADA and to discrimination claims may be closely related to the employee's workers' compensation and disability retirement claims.

PRACTICE TIP: Counsel handling the various claims should coordinate on the defense of the claims, on opportunities for a global settlement, and on a comprehensive release if settlement is achieved.

© The Regents of the University of California

§4.399 4. State Causes of Action

State causes of action may be available, including those under the California Fair Employment and Housing Act (FEHA) (Govt C §§12900-12996). The considerations here are essentially the same as for federal claims (see §4.398), but the definition of "disability" is broader in that it need only "limit" a major life activity rather than constitute a "substantial limitation" as required under the ADA (42 USC §§12101-12213).

§5.1 I. INTRODUCTION

This chapter deals generally with municipal revenues and financing, state cost reimbursements, expenditures, and municipal bankruptcy. In particular:

- Part II (§§5.2-5.263) covers revenues, including: Constitutional authority over fiscal affairs (§§5.2-5.14); taxes (§§5.15-5.93); limitations on the exercise of taxing authority and procedural issues (§§5.94-5.120); benefit assessments and assessment districts (§§5.121-5.157); fees, charges, and rates (§§5.158-5.186); franchise fees (§§5.187-5.195); fines and forfeitures (§§5.196-5.213); state subventions (§§5.214-5.216); grants (§5.217); gifts (§5.218); debt financing (§§5.219-5.245); state-mandated cost reimbursements (§§5.246-5.262); and rental of property (§5.263).
- Part III (§§5.264-5.296) covers expenditures, including budgets (§5.264); investments (§§5.265-5.273); appropriations, warrants, and payments (§§5.274-5.276); and limitations on expenditures (§§5.277-5.296).
- Part IV (§§5.297-5.300) covers economic development.
- Part V (§§5.301-5.439) covers redevelopment, including its purposes (§§5.301-5.304); the agencies involved (§§5.305-5.315); plan adoption procedures (§§5.316-5.341); plan amendments (§§5.342-5.345); plan implementation (§§5.346-5.373); project area committees (PACs) (§§5.374-5.391); financing (§§5.392-5.399); housing requirements (§§5.400-5.432); special issues (§§5.433-5.437); and, references (§§5.438-5.439).
- Part VI (§§5.440-5.456) covers municipal bankruptcy.

For further discussion of topics covered in this chapter, including Proposition 218; bonds; the Mello-Roos Community Facilities Act of 1982; redevelopment agencies; eminent domain; blight; and the California Environmental Quality Act, see Advising California Nonprofit Corporations (3d ed Cal CEB 2009); California Land Use Practice (Cal CEB 2006); California Subdivision Map Act and the Development Process (2d ed Cal CEB 2001); Condemnation Practice in California (3d ed Cal CEB 2005); Practice Under the California Environmental Quality Act (2d ed Cal CEB 2008).

II. REVENUES

§5.2 A. Constitutional Authority Over Fiscal Affairs

The California Constitution is the principal source of revenue and expenditure authority and constraint. A general law city has only those powers expressly conferred by the legislature, together with powers that are necessary and indispensable. *Irwin v City of Manhattan Beach* (1966) 65 C2d 13, 20, 51 CR 881. See generally *Myers v City of Pismo Beach* (1966) 241 CA2d 237, 240, 50 CR 402 (no inherent power of municipal taxation); *City of Grass Valley v Walkinshaw* (1949) 34 C2d 595, 600, 212 P2d 894 (power to tax may be implied from authority to incur bonded indebtedness); *Law v City & County of San Francisco* (1904) 144 C 384, 77 P 1014 (charter provisions for bonded indebtedness prevail over general laws); *Ex Parte Braun* (1903) 141 C 204, 74 P 780 (power to tax is derived from the Constitution, general laws, or the charter); *Willmon v Powell* (1928) 91 CA 1, 11, 266 P 1029 (absent constitutional restriction, a city charter may expressly authorize issuance of bonds for municipal purposes); *City of Inglewood v Kew* (1913) 21 CA 611, 617, 132 P 780 (compliance with statutory provisions to issue bonds is mandatory). For general overview of pertinent constitutional provisions applicable to all revenue and expenditure matters discussed in this chapter, see §§5.3-5.14.

© The Regents of the University of California

§5.3 1. Police Power

Article XI, §7, of the California Constitution grants cities authority to make and enforce all local, police, sanitary, and other ordinances and regulations not in conflict with general laws. The police power is the constitutional authority to impose regulatory fees. *Sinclair Paint Co. v State Bd. of Equalization* (1997) 15 C4th 866, 64 CR2d 447; *County of Plumas v Wheeler* (1906) 149 C 758, 87 P 909.

© The Regents of the University of California

§5.4 2. Public Works Power

Article XI, §9, of the California Constitution authorizes cities to establish, purchase, and operate public works to furnish inhabitants with light, water, power, heat, transportation, or means of communication. The "public works power" includes the constitutional authority to impose rates and charges to finance these municipal services.

© The Regents of the University of California

§5.5 3. Municipal Affairs Doctrine

Matters relating to municipal finance have been historically identified as "municipal affairs" subject to charter city enactments under Cal Const art XI, §5, although certain state interests are sufficiently compelling to justify incursions into local authority over municipal finance. See generally *California Fed. Sav. & Loan Ass'n v City of Los Angeles* (1991) 54 C3d 1, 283 CR 569 (need for level playing field for state and federally chartered savings and loans justified preemption of Los Angeles' business license tax on state-chartered thrifts).

© The Regents of the University of California

§5.6 4. Local Taxation Authority

Except as provided in the municipal affairs doctrine, there is no constitutional grant of authority to tax. Rather, Cal Const art XIII, §24 provides that the legislature "may not impose taxes for local purposes but may authorize local governments to impose them." Statutory authority regulating local government revenue and fiscal affairs is extensive, far too extensive to cover in a short introduction. The characterization of revenue matters as a municipal affair has been significantly changed by *California Fed. Sav. & Loan Ass'n v City of Los Angeles* (1991) 54 C3d 1, 283 CR 569. In that case, the court shifted the analysis from the nature of the municipality's action (imposing a business license tax) to the impact of this action (whether the increased tax burden on financial corporations was of "sufficient extramural dimension" to warrant preemption by state law). Because the power to tax is not provided as a direct grant of authority from the Constitution, specific authorization must be found before proceeding. There are many examples of specific authority, including the transient occupancy tax, documentary transfer tax, and Bradley-Burns Uniform Local Sales and Use Tax Law (Rev & T C §§7200-7226). In addition, Govt C §37100.5 broadly authorizes general law cities to impose any tax that a charter city might impose, *i.e.,* any tax that is neither preempted by state or federal law nor in contravention of a constitutional requirement.

© The Regents of the University of California

§5.7 5. Vehicle License Fees

The vehicle license fee (an excise tax on the use of roadways collected as a percentage of the value of registered motor vehicles) is a constitutionally protected source of revenue to cities and counties. All revenue from taxes imposed under the Vehicle License Fee Law (Rev & T C 10701-11006) must be distributed to cities and counties. The legislature has the authority to determine the method of distribution and to establish the rate of the tax. Cal Const art XI, §15. See also Rev & T C §§10701-11006. In 2004, California voters approved Proposition 1A (now codified at Cal Const arts XI, §15 and XIII, §25.5), which prohibits the state from reducing the Vehicle License Fee below the then-current rate of.65 percent of the market value of the vehicle unless it allocates to cities and counties an amount equal to the decrease in the Vehicle License Fee. Cal Const art XI, §15(a).

© The Regents of the University of California

§5.8 6. Proposition 13

Proposition 13 (Cal Const art XIIIA) limits cities' ability to tax in two ways: (1) Article XIIIA, §4, of the California Constitution prevents cities from levying special taxes without two-thirds voter approval; and (2) Article XIIIA, §1, of the California Constitution prevents cities from levying an ad valorem tax on real and personal property, with the exceptions for bonded debt stated in §1(b). Rather, this section provides for a countywide property tax of 1 percent of assessed value apportioned to taxing jurisdictions in the county by the legislature.

NOTE: An ad valorem tax is one based on the value of something, such as a tax on the assessed value of real property.

© The Regents of the University of California

§5.9 7. Proposition 62

Government Code §§53720-53730 were adopted as a statutory initiative in 1986 (Proposition 62) to require voter approval of general and special taxes. Although the majority of these provisions have since been duplicated by the constitutional provisions of Proposition 218, a few provisions on the manner in which taxes are proposed are distinct and enforceable against general law cities, counties, and special districts, but not charter cities. See §§5.105-5.109.

On Proposition 218, see §5.10.

© The Regents of the University of California

§5.10 8. Proposition 218

Proposition 218 (Cal Const arts XIIIC-XIIID) includes detailed procedures for the imposition of all local government taxes (both general and special), benefit assessments on real property, and property-related fees and charges. Proposition 218 does not affect laws relating to the imposition of fees or charges as a condition of property development, assessments not based on property ownership, or a broad range of fees and charges that fall outside the class of "property-related fees and charges" defined by the measure. See §§5.110-5.120.

© The Regents of the University of California

§5.11 9. Appropriations Limit

A city's ability to appropriate (*i.e.,* authorize the expenditure of) money it collects from the proceeds of taxes is subject to a constitutionally defined limit, commonly known as the Gann Limit. Cal Const art XIIIB, §1. Revenues from regulatory licenses and user charges or fees in excess of the reasonable costs of providing the regulation, product or service are included in the proceeds of taxes and interest earned on tax proceeds. Cal Const art XIIIB, §8(c). See §§5.281-5.288.

© The Regents of the University of California

§5.12 10. Debt Limit

With many exceptions for such things as lease financings and leases with non-appropriation clauses, the constitutional debt limit prohibits a city from incurring indebtedness beyond the city's ability to pay the debt back from revenues received in the same fiscal year in which the debt is incurred. Cal Const art XVI, §18. See §§5.289-5.296.

© The Regents of the University of California

§5.13 11. Prohibited Gift of Public Funds

The California Constitution prohibits the legislature from making or authorizing gifts of public funds. Cal Const art XVI, §6. Because charter cities do not obtain their authority from the legislature, this rule applies to charter cities only if their charters contain a similar restriction, as many do. *Sturgeon v County of Los Angeles* (2008) 167 CA4th 630, 637, 84 CR3d 242. An example of a prohibited gift of public funds is an appropriation to pay a street contractor that rests on moral, but not legal, grounds. *Conlin v Board of Supervisors of the City & County of San Francisco* (1893) 99 C 17, 33 P 753, aff'd (1896) 114 C 404, 46 P 279. However, the prohibition does not preclude expenditures and disbursements for public purposes even if a private person incidentally benefits. *Redevelopment Agency v Shepard* (1977) 75 CA3d 453, 457, 142 CR 212. The Attorney General has opined that public funds of a general law city may not be expended to reimburse city council members for their expenses in purchasing meals for third parties at meetings held to discuss legislation or other matters of benefit to the city. If the charter so authorizes, public funds of a charter city may be expended for such purposes. 85 Ops Cal Atty Gen 210 (2002). See §§5.277-5.280.

© The Regents of the University of California

§5.14 12. Legislature May Not Delegate Taxing Power

The legislature may not delegate to any private party or body the power to make, control, appropriate, supervise, or interfere with a city's improvements, money, property, to levy taxes or assessments, or to perform municipal functions. Cal Const art XI, §11(a); *Howard Jarvis Taxpayers' Ass'n v Fresno Metro. Projects Auth.* (1995) 40 CA4th 1359, 48 CR2d 269 (disallowing delegation of taxing power to non-government body); *County of Riverside v Superior Court (Riverside Sheriff's Ass'n)* (2003) 30 C4th 278, 132 CR2d 713 (striking down statute requiring binding arbitration of labor disputes with local peace officers).

© The Regents of the University of California

§5.15 B. Taxes

It has long been recognized that a municipality must be able to raise money in order to be more than "a body without life, incapable of acting, and serving no useful purpose." McQuillin, Municipal Corporations §39.01 (3d rev ed 1988).

© The Regents of the University of California

§5.16 1. Power of Taxation

All cities, whether charter or general law, have the power to tax. Cal Const art XI, §5 (charter cities); Govt C §37100.5 (general law cities). Special districts may or may not have the power to tax depending on their authorizing statutes. Cal Const art XIII, §24 (local agency's power to tax established by statute). Issues most likely to arise in this area are constitutional limitations on taxation, such as Proposition 13 (Cal Const art XIIIA) and Proposition 218 (Cal Const arts XIIIC-XIIID), and preemption (as in the Bradley-Burns Uniform Local Sales and Use Tax Law; see §5.26).

A "general tax" is a tax the proceeds of which are available for any and all governmental purposes in the discretion of the city council. Cal Const art XIIIC, §1(a). Placement of the tax in the general fund is an indicator that it is a general tax. The imposition of general taxes is also subject to the provisions of Proposition 62 (Govt C §§53720-53730) and Proposition 218 that require, among other things, a two-thirds vote of the legislative body (except as to charter cities; see Note below), a majority vote of the voters voting in an election on the tax, and the consolidation of such an election with a regularly scheduled general election for members of the city council (unless the council unanimously declares emergency justifying placing the tax before the voters at a special election). Govt C §53724; Cal Const art XIIIC, §2(b). See §§5.105-5.120.

NOTE: The requirement of a two-thirds vote by the legislative body for general taxes under Govt C §53724 does not apply to charter cities if their charter or municipal code provides a lesser requirement. *Traders Sports, Inc. v City of San Leandro* (2001) 93 CA4th 37, 112 CR2d 677.

The supermajority vote requirement for a "special tax" is not imposed on a tax measure simply because it appears on the same ballot with a separate advisory measure for voters' preference on how to spend the new tax revenues. *Coleman v County of Santa Clara* (1998) 64 CA4th 662, 75 CR2d 516. On taxation limitations, see §§5.94-5.120.

PRACTICE TIP: *Coleman* was decided before the adoption of Proposition 218, which attempted to strengthen the definition of "special tax" by stating that a tax is a "special" tax if it is earmarked for a specific purpose even if the proceeds of the tax are placed in the general fund. However, while taxpayer advocates have frequently objected to this "Measure A, Measure B" strategy, to date they have not litigated it, and many public lawyers believe that Proposition 218 does not undermine the logic of the *Coleman* decision.

© The Regents of the University of California

§5.17 2. Distinguishing Police Power; Revenue-Raising Activity

Distinguished from the tax power is the police power. The most common example of a financial expression of the police power is a regulatory fee—a fee imposed to fund a regulatory program such as a building permit fee; however, cities also have the ability to prohibit conduct entirely and to prescribe penalties or fines as a means of enforcing their laws. Perhaps one of the primary issues arising in this category of municipal authority is the calculation of a regulatory fee. If a fee exceeds the estimated cost of the service or regulatory program, it may be declared a tax and subjected to voter-approval requirements. *Sinclair Paint Co. v State Bd. of Equalization* (1997) 15 C4th 866, 64 CR2d 447. See §§5.160-5.162. Courts have sustained revenue-raising activities under the police power. *Trent Meredith, Inc. v City of Oxnard* (1981) 114 CA3d 317, 327, 170 CR 685.

© The Regents of the University of California

3. Property Tax

§5.18 a. Property Tax Before 1978

Under the California Constitution and the California Revenue and Taxation Code, all property in California not otherwise free from tax under federal law or California law is subject to taxation "in proportion to its full value." Cal Const art XIII, §1; Rev & T C §201. This constitutional provision has been interpreted to mean that a non-ad valorem property tax was unconstitutional. *Thomas v City of East Palo Alto* (1997) 53 CA4th 1084, 62 CR2d 185. But see *Neecke v City of Mill Valley* (1995) 39 CA4th 946, 46 CR2d 266 (upholding non-apportioned parcel tax as excise tax on privilege of consuming municipal services).

© The Regents of the University of California

§5.19 b. Property Tax After 1978 Passage of Proposition 13

The passage of Proposition 13 (Cal Const art XIIIA) dramatically changed property taxation in California. It limited ad valorem property taxes to 1 percent of the full cash value of the property. The 1-percent tax is collected by the counties and is apportioned to the taxing agencies in the counties, including cities. Cal Const art XIIIA, §1(a); Rev & T C §§95-100.95. Assessed valuation is based on 1976 values and, thereafter, on the appraised value of property when purchased, newly constructed, or a change in ownership occurs. Cal Const art XIIIA, §2. In the absence of a purchase, new construction, or change in ownership, the assessed value increases in an amount equal to the lesser of the increase in the consumer price index or 2 percent. Cal Const art XIIIA, §2. As a result, newcomers to a neighborhood often pay taxes on assessed valuations that are much greater than those on similar properties that have not resold in recent years.

Proposition 13's methods for assessing property taxes (often referred to by commentators as the "welcome, stranger" reassessment rule) have been upheld against claims that it violated the right to travel and equal protection. See *Nordlinger v Hahn* (1992) 505 US 1, 120 L Ed 2d 1, 112 S Ct 2326; *Amador Valley Joint Union High Sch. Dist. v State Bd. of Equalization* (1978) 22 C3d 208, 149 CR 239.

© The Regents of the University of California

§5.20 c. Exceptions to Proposition 13's General 1-Percent Tax Limitation

The 1-percent limit does not apply to ad valorem property taxes or special assessments to pay interest on three kinds of indebtedness (Cal Const art XIIIA, §1(b)):

(1) Indebtedness approved by the voters before July 1, 1978;

(2) Indebtedness for the acquisition or improvement of real property approved by the voters after July 1, 1978, by a two-thirds vote; and

(3) Certain bonded debt of school districts for new schools.

© The Regents of the University of California

§5.21 d. Characteristics of a Property Tax

The characteristics of a property tax are:

- It taxes ownership in all its incidents; the tax is levied without regard to the use of the property. *Douglas Aircraft Co. v Johnson* (1939) 13 C2d 545, 550, 90 P2d 572.
- It recurs annually on a fixed date. *City of Huntington Beach v Superior Court* (1978) 78 CA3d 333, 340, 144 CR 236.
- Generally, it triggers no personal liability, but is secured by a lien on the property taxed. *City of Huntington Beach v Superior Court, supra*.
- It is a tax on ownership per se without conditions. In contrast, an excise tax is a tax on the privilege of exercising one or more incidents of ownership. *City of Huntington Beach v Superior Court, supra* (upholding charter city's documentary transfer tax). Before the passage of Proposition 218, a parcel tax (designed to raise revenue for the support of general municipal services and imposed without regard to use of the property or municipal services) was held to be a non-ad valorem property tax prohibited by Cal Const art XIII, §1, which requires property be taxed on the basis of value. *Thomas v City of East Palo Alto* (1997) 53 CA4th 1084, 62 CR2d 185. Proposition 218 now allows a parcel tax to be imposed as a special tax with two-thirds vote. Cal Const art XIIID, §3. See also *Neecke v City of Mill Valley* (1995) 39 CA4th 946, 46 CR2d 266 (upholding non-ad valorem parcel tax as excise tax on use of municipal services).

© The Regents of the University of California

§5.22 e. Property Exempted From Taxation

Some kinds of property are exempt from taxation. These include:

- Property owned by the state (see Cal Const art XIII, §3(a));
- Most property owned by local government (see Cal Const art XIII, §§3(b), 11);
- Libraries and museums (see Cal Const art XIII, §3(d));
- Property used for certain kinds of schools (see Cal Const art XIII, §3(d)-(e)); and
- Churches (see Cal Const art XIII, §3(f)).

NOTE: An excise tax imposed on taxpayers who are exempt from the payment of a property tax may be seen as an unconstitutional tax on a tax-exempt entity. *Sacramento Mun. Util. Dist. v County of Solano* (1997) 54 CA4th 1163, 63 CR2d 286 (striking down business license tax on electricity produced by public agency).

© The Regents of the University of California

§5.23 f. Possessory Interest Tax Authorized

State law authorizes counties to tax, on an ad valorem basis, private possessory interests in real property owned by governmental entities. See Rev & T C §107. The purpose of such taxation is to protect the public domain from private profit without tax liability. *United Air Lines v County of San Diego* (1991) 1 CA4th 418, 427, 2 CR2d 212. See also *U.S. v County of San Diego* (9th Cir 1992) 965 F2d 691.

PRACTICE TIP: Public agencies should include a clause in any lease, concession, or other contract regarding the use of public property that may create a taxable possessory interest notifying the private party that it may be subject to a possessory interest tax under Rev & T C §107.6.

© The Regents of the University of California

§5.24 g. Taxation of City Property

A city must pay property tax on property that it owns outside its boundaries. Cal Const art XIII, §11. The amount of such tax is, however, subject to the limits of Proposition 13. *City & County of San Francisco v County of San Mateo* (1995) 10 C4th 554, 565, 41 CR2d 888.

© The Regents of the University of California

§5.25 h. Legislative Apportionment of Taxes

Article XIIIA of the California Constitution authorizes the legislature to apportion the property tax between taxing jurisdictions in the county (cities, special districts, school districts, community college districts, and the county). See generally Rev & T C §§95-100.95. A court has upheld the legislature's authority to direct the county auditor to transfer property tax previously allocated to cities and counties to other local taxing entities. *County of Los Angeles v Sasaki* (1994) 23 CA4th 1442, 29 CR2d 103.

© The Regents of the University of California

4. Sales and Use Tax

§5.26 a. State Preemption of Sales and Use Taxes

The legislature has preempted the field of sales and use taxation in the name of statewide uniformity. See generally Rev & T C §§7200-7226 (Bradley-Burns Uniform Local Sales and Use Tax Law); Rev & T C §7203.5 (authorizing "other substantially different" taxes); *Rivera v City of Fresno* (1971) 6 C3d 132, 139, 98 CR 281, overruled on other grounds in *Yamaha Corp. v State Bd. of Equalization* (1998) 19 C4th 1, 15, 78 CR2d 1 (utility tax on purchase of gas not preempted by Bradley-Burns). Cities must impose sales taxes in accordance with state law. See Rev & T C §7202(c). Furthermore, cities may only impose a sales and use tax if the county in which they are located imposes a sales and use tax. Rev & T C §§7202(h); 53 Ops Cal Atty Gen 292 (1970). In 2004, California voters approved Proposition 1A, which limits the legislature's authority to prevent cities and counties from imposing sales and use taxes or from changing the method of distributing revenue from such taxes. See Cal Const art XIII, §25.5.

© The Regents of the University of California

§5.27 b. Definitions: Sales Tax and Use Tax

The following are significant property tax definitions:

- A sales tax is a tax imposed for the privilege of selling tangible personal property at retail. Rev & T C §7202(h)(1).
- A use tax is a tax imposed on the storage, use, or other consumption in the city of tangible personal property purchased from a retailer without being subject to sales tax. Rev & T C §7202(h)(1).

© The Regents of the University of California

§5.28 c. Maximum Tax Rate

A city's sales and use tax rate adopted under the Bradley-Burns Uniform Local Sales and Use Tax Law (Rev & T C §§7200-7226) cannot exceed 1 percent. Rev & T C §7202(h)(1). However, a city may adopt local sales and use taxes under special statutory authorizations that may result in a total sales and use tax rate greater than 1 percent. See, *e.g.,* Govt C §§26290-26293.4 (San Joaquin County Regional Justice Facility Financing Act); Rev & T C §7285 (county authority to adopt transactions and use tax for "general purposes" at rate of.25 percent or multiple thereof); §7261 (county-wide transportation taxes); §7288.1 (public education, drug abuse and crime prevention, and health care). An uncodified section of Stats 1987, ch 1257 limits the combined rate of special statutory authorizations to 2.25 percent.

© The Regents of the University of California

§5.29 d. Proceeds From Sales and Use Tax

Except for the special sales and use taxes authorized by specific statutes, all money received from city-imposed sales and use taxes must be paid to the general fund, or, if imposed under statutory authority to repay bonds (*e.g.,* Govt C §§50665.1-50670.4), into a special fund or funds for such purpose or purposes as established by ordinance. Govt C §43401. Revenues from that portion of the sales tax imposed by state law for the Local Public Safety Fund (Cal Const art XIII, §35) may be spent only on public safety services (Govt C §30052) and may be forfeited if the city decreases funding for such services below that amount funded in fiscal year 1992-1993. Govt C §§30052, 30056.

© The Regents of the University of California

§5.30 e. Sales Tax Sharing Among Governmental Entities

Agreements to share sales and use tax proceeds among cities and counties may be accomplished by voter approval or a two-thirds vote of the legislative body of each participating jurisdiction. Cal Const art XIII, §29. See also Govt C §§55700-55707.

© The Regents of the University of California

§5.31 f. Transactions and Use Taxes Combined With Authorization to Increase Sales Tax for Transit and Other Specified Purposes

The Transactions and Use Tax Law provides authorization for cities and certain special districts to levy transactions and use taxes, subject to approval by the local legislative body and the electorate. See Rev & T C §§7251-7279.6. In the event that the authorized transactions and use tax is levied by a special district or by a city for specific purposes, it will be considered a "special tax" that must be approved by two-thirds of the voters voting on the issue. See *Rider v County of San Diego* (1991) 1 C4th 1, 2 CR2d 490.

PRACTICE TIP: Transactions and use taxes are, in common parlance, "sales taxes" but are technically distinct from sales tax under the Bradley-Burns Uniform Local Sales and Use Tax Law (Bradley-Burns) (Rev & T C §§7200-7226) because they have a slightly different tax base. Sales of motor vehicles, for example, are taxable if they are to be registered in the city that imposes the transactions and use tax regardless of the point of sale. See Rev & T C §7261(f). By contrast, the Bradley-Burns sales tax is imposed based on the location (or situs) of the sale.

© The Regents of the University of California

§5.32 g. Transactions and Use Tax for General Purposes

A city may levy, increase, or extend a transactions and use tax "for general purposes at a rate of 0.25 percent or a multiple thereof, if the ordinance proposing that tax is approved by a two-thirds vote of all members of that governing body and the tax is approved by a majority vote of the qualified voters of the city." Rev & T C §7285.9. The authority of a city to impose transactions and use taxes under any provision of law is subject to the rate limitation specified in Rev & T C §7251.1 (currently 2 percent). Rev & T C §7285.92.

© The Regents of the University of California

§5.33 h. Transactions and Use Tax for Specific Purposes

A city may also levy, increase, or extend a transactions and use tax for specific purposes. The tax may be levied, increased, or extended at a rate of 0.25 percent or a multiple thereof if:

- The ordinance proposing that tax is approved by a two-thirds vote of all members of the governing body and is subsequently approved by a two-thirds vote of the qualified voters of the city voting in an election on the issue;
- The transactions and use tax conforms to the Transactions and Use Tax Law, Part 1.6 (Rev & T C §§7251-7279.6); and
- The ordinance includes an expenditure plan describing the specific projects for which the revenues from the tax may be expended. Rev & T C §7285.91.

The authority of a city to impose transactions and use taxes under any provision of law is subject to the rate limitation specified in Rev & T C §7251.1 (currently 2 percent). Rev & T C §7285.92.

© The Regents of the University of California

§5.34 5. Payroll Tax

Although cities may not levy an income tax, that does not "prohibit the levy or collection of any otherwise authorized license tax upon a business measured by or according to gross receipts." Rev & T C §17041.5. Thus, cities may levy an employee license tax based on gross earnings in the jurisdiction. Cities may not tax earnings in a way that discriminates against non-residents. Govt C §50026. See also *County of Alameda v City & County of San Francisco* (1971) 19 CA3d 750, 97 CR 175.

Under their home rule powers, charter cities may impose a license tax on employees based on their gross earnings in the jurisdiction but it must be meaningfully different than an income tax. For example, a tax that is not graduated and authorizes none of the deductions typical of an income tax was upheld. *Weekes v City of Oakland* (1978) 21 C3d 386, 146 CR 558.

General law cities may levy any tax that may be levied by a charter city. See Govt C §37100.5; *Fenton v City of Delano* (1984) 162 CA3d 400, 208 CR 486 (upholding utility users tax).

NOTE: Cities may not impose a tax on the sale or consumption of alcoholic beverages. Rev & T C §32010. However, a payroll expense tax (excise tax) that is applicable to all businesses having payrolls within a city and that is neither specifically imposed on the sale of alcoholic beverages nor measured by the gross receipts from such sale is not an illegal tax when assessed against alcoholic beverage sellers, notwithstanding the prohibition on local taxes on alcohol established by Cal Const art XX, §22. *A.B.C. Distrib. Co. v City & County of San Francisco* (1975) 15 C3d 566, 125 CR 46. Further, a payroll expense tax is not a tax on income if "the tax is imposed … by reason of [the] employment of labor within the city …, measured by the expense incurred by [a business] in conducting this aspect of their business. The fact that the tax is measured by wages paid to the employees would not convert the tax to an income tax." 15 C3d at 576.

© The Regents of the University of California

§5.35 6. Business License Fees and Taxes

Subject to applicable constitutional requirements for voter approval, a general law city may levy business license taxes for revenue purposes and business license fees for regulatory purposes. Govt C §37101; Bus & P C §§16000-16004. Charter cities may impose business license taxes subject to the restrictions of the state and federal constitutions and their own charters. See Cal Const art XI, §5.

© The Regents of the University of California

§5.36 a. State Preemption Might Be Possible

The levy and collection of taxes is a "municipal affair." *Fox Bakersfield Theatre Corp. v City of Bakersfield* (1950) 36 C2d 136, 222 P2d 879. However, aspects of local taxation may under some circumstances acquire a "super-municipal" dimension, transforming an otherwise municipal concern into a statewide concern. *California Fed. Sav. & Loan Ass'n v City of Los Angeles* (1991) 54 C3d 1, 283 CR 569 (state interest in level playing field for state and federally chartered savings and loan institutions justified state preemption of charter city tax on state-chartered thrifts).

© The Regents of the University of California

§5.37 b. Revenue-Raising Versus Regulation

A city may enforce a business licensing ordinance on those doing business in the city when such ordinance was enacted solely to raise money for municipal purposes; such taxation is not excluded merely because the state has occupied the field of regulation of the business involved. Moreover, a city business tax ordinance may provide for criminal penalties in the form of fines, forfeitures, and penalties. *Arnke v City of Berkeley* (1960) 185 CA2d 842, 8 CR 645.

PRACTICE TIP: Regulatory fees are limited by the cost of administering the regulatory program; to avoid this limitation, the language of an ordinance should state that the ordinance "is not intended for the purpose of regulation" or, if the ordinance is both a regulatory and a revenue measure, that the ordinance is intended primarily for the purpose of regulation but also as a revenue measure.

© The Regents of the University of California

§5.38 c. Required Apportionment Between Intra-City and Out-of-City Business Activity

A city may tax a business that is partially located outside the city's jurisdictional boundaries only if the business license tax fairly reflects that proportion of activity carried on in the city. Bus & P C §16000. Apportionment is required by the California Constitution's provisions forbidding extraterritorial application of laws and guaranteeing equal protection and by comparable provisions of the federal Constitution. *City of Los Angeles v Shell Oil Co.* (1971) 4 C3d 108, 93 CR 1, cert denied (1971) 404 US 831.

© The Regents of the University of California

§5.39 (1) Apportionment Methodology

The apportionment must be based on a measure that "fairly reflects that proportion of the taxed activity that is actually carried on within the taxing jurisdiction." *City of Los Angeles v Shell Oil Co.* (1971) 4 C3d 108, 124, 93 CR 1, cert denied (1971) 404 US 831. The measure of the license fee must be based on events occurring wholly in the city (*e.g.,* gross receipts from intra-city sales or storage) or the ratio of in-city to out-of-city business activities. *General Motors Corp. v City of Los Angeles* (1971) 5 C3d 229, 242, 95 CR 635. See also *City of San Jose v Ruthroff & Englekirk Eng'rs, Inc.* (1982) 131 CA3d 462, 183 CR 391.

© The Regents of the University of California

§5.40 (2) Burden of Proof on Taxpayer Who Challenges Disproportionate Tax

A taxpayer who contends that a city's business license tax improperly taxes significant extraterritorial values bears the burden of proof. *Volkswagen Pac., Inc. v City of Los Angeles* (1972) 7 C3d 48, 58, 101 CR 869. The taxpayer must show by "clear and cogent evidence" that such fee does not fairly reflect the intra-city proportion of the relevant taxed activity. *City of Los Angeles v Moore Bus. Forms, Inc.* (1966) 247 CA2d 353, 362, 55 CR 820. See also *Park 'N Fly of San Francisco, Inc. v City of South San Francisco* (1987) 188 CA3d 1201, 234 CR 23.

© The Regents of the University of California

§5.41 d. Must Be Reasonable Connection With Taxing Jurisdiction

There must be a reasonable connection between the tax and the taxing jurisdiction. The measure of taxation must not be "capricious, arbitrary or discriminatory." See *Security Truck Line v City of Monterey* (1953) 117 CA2d 441, 256 P2d 366, in which the court invalidated a tax on each vehicle of firm, finding that a better measure would have been number of deliveries or the tonnage carried by trucks. A business tax may be based on the preceding year's calendar gross receipts. *Web Serv. Co. v Spencer* (1967) 252 CA2d 827, 61 CR 493.

© The Regents of the University of California

§5.42 e. Amount of Tax

There is no requirement that an excise tax levied for revenue by a municipality be reasonable in amount. The only restrictions on the exercise of a power to impose a tax are the constitution, the charter for charter cities, and the statutes for general law cities. *Fox Bakersfield Theatre Corp. v City of Bakersfield* (1950) 36 C2d 136, 222 P2d 879. There is, of course, the overriding limitation of federal due process and takings jurisprudence that a tax may not be confiscatory. *City of Berkeley v Oakland Raiders* (1983) 143 CA3d 636, 192 CR 66.

© The Regents of the University of California

§5.43 f. Discrimination Against Inter-State or Inter-City Commerce

The Dormant Commerce Clause doctrine of the United States Constitution and related principles of the California Constitution require that local taxes not discriminate for or against economic activity that crosses jurisdictional lines. See *American Trucking Ass'ns, Inc. v Smith* (1990) 496 US 167, 110 L Ed 2d 148, 110 S Ct 2323 (discussion of Dormant Commerce Clause); *General Motors Corp. v City & County of San Francisco* (1999) 69 CA4th 448, 453, 81 CR2d 544; *General Motors Corp. v City of Los Angeles* (1995) 35 CA4th 1736, 42 CR2d 430. The United States Supreme Court has used an "internal consistency" test that assumes a challenged tax is applied by every other locality or state and then examines the treatment of intra-city and extra-city or intra-state and extra-state economic activity to see if there is any theoretical advantage or disadvantage for inter-state or inter-city commerce. 35 CA4th at 1739.

PRACTICE TIP: Any tax that includes more than one measure of tax or that provides a credit for payment of another local tax should be carefully reviewed for compliance with the "internal consistency" test. Some dual-measure taxes can be defended based on clarifying regulations or rulings that eliminate any risk of benefit or detriment to inter-city activity.

© The Regents of the University of California

§5.44 g. Minimum or Flat Taxes Unapportioned to Activity Within City

Minimum or flat taxes unapportioned to activity within the city are prohibited. See *City of San Jose v Ruthroff & Englekirk Eng'rs, Inc.* (1982) 131 CA3d 462, 183 CR 391 (invalidating minimum tax on engineering firm with office outside city whose employees spent total of 12 hours in city during taxable year, even though firm had contract to perform services for project in city).

© The Regents of the University of California

§5.45 h. Required Nexus or Minimum Contacts

In order for a municipality to properly tax an entity, the latter must have a substantial presence within the city's jurisdictional borders. See *Mobil Oil Corp. v Comm'r of Taxes* (1980) 445 US 425, 437, 100 S Ct 1223, 63 L Ed 2d 510. See also *Moorman Mfg. Co. v Bair* (1978) 437 US 267, 272, 57 L Ed 2d 197, 98 S Ct 2340, in which the court required a "minimal connection" between the interstate activities and the taxing state, and a rational relationship between the income attributed to the state and the intrastate values of the enterprise.

© The Regents of the University of California

§5.46 i. No Discrimination in Class

No constitutional rights are violated if the burden of a license tax falls equally on all members of a class, though other classes have lighter burdens or are wholly exempt. The classification must be reasonable, must be based on substantial differences between the pursuits separately grouped, and must not be arbitrary. See US Const amend XIV (equal protection clause); *Fox Bakersfield Theatre Corp. v City of Bakersfield* (1950) 36 C2d 136, 222 P2d 879. See also *Jensen v Franchise Tax Board* (2009) 178 CA4th 426, 100 CR3d 408 (rejecting equal protection challenge to Proposition 63 arising from income tax increase on "millionaires" to fund mental health services).

For discussion of First Amendment issues arising from taxation of expressive activity, see §5.97.

© The Regents of the University of California

§5.47 7. Utility Users' Tax

Subject to constitutional requirements for voters' approval, cities may tax use of utilities such as gas, electricity, telephone, water, and cable television. Charter cities may impose a utility users' tax under their home rule authority. See Cal Const art XI, §5. General law cities may levy any tax that may be levied by a charter city. Govt C §37100.5; *Fenton v City of Delano* (1984) 162 CA3d 400, 208 CR 486 (upholding general law city utility users tax).

© The Regents of the University of California

§5.48 a. Collection of Utility Users' Tax

Charter cities' constitutional power to tax carries with it the corollary power to use reasonable means to effect collection, including compelling public and private utility providers to collect the tax. See *City of Modesto v Modesto Irrig. Dist.* (1973) 34 CA3d 504, 110 CR 111. See also Pen C §424 (felony to refuse to pay public money received when one bears a duty to pay it). A city requiring another public entity to collect its utility users' tax must compensate that public entity for the cost of doing so. See *Edgemont Community Servs. Dist. v City of Moreno Valley* (1995) 36 CA4th 1157, 42 CR2d 823. There is no corollary duty to pay private utility providers their costs, although it is common to exempt those utilities from tax in exchange for their collection services. The relationship between local governments and private utilities with respect to such taxes is governed by Pub Util C §799.

© The Regents of the University of California

§5.49 b. Utility Users' Tax Litigation

Utility users' taxes on telephony have been the subject of numerous challenges in California. For examples of such litigation, see §§5.50-5.51.

© The Regents of the University of California

§5.50 (1) Federal Excise Tax Challenges to Utility Users' Taxes on Telephony

Some utility users' taxes in California reference the Federal Excise Tax (FET) (26 USC §§4251-4254), limiting the application of the local utility users' taxes to telephone charges that are "subject to" the FET. The IRS has stated that the FET does not apply to most common billing plans currently in use, such as "one-rate" plans (which provide a mix of local and long-distance calling for a flat rate or fixed fee for unlimited dialing), but that its conclusion does not prohibit states or local governments from imposing or collecting telecommunication taxes. See Notice 2006-50, 2006-1 Cum Bull 1141.

PRACTICE TIP: Many cities have since submitted revised utility user tax ordinances for voter approval under Proposition 218 to de-link them from the FET provisions. Local governments imposing taxes that reference the FET should clarify the legislative intent of those ordinances, perhaps with voter approval, to make clear that the local tax base is not as narrow as the base of the FET as narrowed by Notice 2006-50, 2006-1 Cum Bull 1141.

© The Regents of the University of California

§5.51 (2) Mobile Telecommunications Sourcing Act Challenges to Utility Users' Taxes on Telephony

The Mobile Telecommunications Sourcing Act (MTSA) (4 USC §§116-126), enacted in 2000, gave state and local governments authority to impose a tax on all cellular telephone airtime, regardless of whether calls originate or terminate in the city, provided that the account to which those calls are billed has a billing address in the city or is otherwise primarily used there. See *AB Cellular LA, LLC v City of Los Angeles* (2007) 150 CA4th 747, 753, 59 CR3d 295. However, many cities in California may not implement the MTSA nexus rules without voter approval because of Proposition 218 (Cal Const arts XIIIC-XIIID), which requires voter approval of tax increases. Government Code §53750(h) defines "increase" to include a change of administrative methodology which has the effect of increasing any taxpayer's tax liability. See *AB Cellular LA,* 150 CA4th at 753. See also §§5.110-5.114 on Proposition 218 limitations on utility users' taxes.

PRACTICE TIP: In light of these and other issues (including rapid and ongoing change in telecommunications technology), taxing agencies that rely on dated utility users' taxes on telephony may want to seek voter approval of an updated ordinance that does not rely on the FET provisions. The ordinance should also include updated broad, generic definitions of communication modes.

© The Regents of the University of California

§5.52 8. Transient Occupancy Tax

Cities and counties may tax persons staying 30 days or less in hotels, motels, and similar lodgings, including mobile homes. See Rev & T C §§7280-7283.51. Some taxes are expressed as a flat rate per night, but most are expressed as a percentage of room rents. Redevelopment agencies may impose a transient occupancy tax under Rev & T C §7280.5. Imposing or increasing a transient occupancy tax is subject to constitutional voter approval requirements. The tax is imposed on the hotel guest; the hotel has a duty to collect and transmit the funds to the taxing agency because the tax is on "the privilege of occupying a … lodging" (Rev & T C §7280), not on the business of renting that lodging.

PRACTICE TIP 1: Take care in drafting transient occupancy tax ordinances. See *Britt v City of Pomona* (1990) 223 CA3d 265, 272 CR 724 (finding that the distinction between taxed transients and untaxed apartment dwellers was unconstitutionally vague). But see *Patel v City of Gilroy* (2002) 97 CA4th 483, 118 CR2d 354 (upholding ordinance because it gave fair notice of its collection and reporting requirements and provided reasonably adequate standards to guide enforcement). See also *City of San Diego v De Leeuw* (1993) 12 CA4th 10, 15 CR2d 98 (interpreting duty of hotel purchaser to remit taxes collected by predecessor). A transient occupancy tax ordinance that includes criminal penalties for violations will be subject to greater scrutiny for unconstitutional vagueness and restrictions on the freedom of expression or freedom of movement. See *Patel v City of Gilroy, supra*.

PRACTICE TIP 2: If the ordinance specifies that the tax is imposed on the actual occupant, a business may not rent a room in its name for more than 30 days to avoid the tax. See *Gowens v City of Bakersfield* (1961) 193 CA2d 79, 13 CR 820.

PRACTICE TIP 3: There are areas of dispute related to room costs, meals, and the costs that may be included in a room rate. For example, the California Board of Equalization may tax the imputed value of breakfasts included in a room rate.

PRACTICE TIP 4: The ordinance imposing a transient occupancy tax should provide that if a remittance is not paid when due (typically monthly), the schedule for making future remittances is automatically shortened to a weekly or even daily schedule to prevent the hotelier from using tax proceeds to operate the business. Frequent audits, tough penalty enforcement, and prompt collections are important.

PRACTICE TIP 5: The ordinance imposing a transient occupancy tax should provide that the operator hold such tax proceeds in trust for the city.

© The Regents of the University of California

§5.53 a. Exemptions Under Transient Occupancy Tax

Special requirements apply to time-shares (see Rev & T C §7280(b)) and campgrounds (see Rev & T C §7280(b)-(c)). The tax applies to state employees traveling on business even if their room charges are paid directly by their governmental employer. See 75 Ops Cal Atty Gen 86 (1992); 46 Ops Cal Atty Gen 16 (1965). However, the transient occupancy tax does not apply to federal employees and employees of any instrumentality of the federal government. See *U.S. v New Mexico* (1982) 455 US 720, 735, 71 L Ed 2d 580, 102 S Ct 1373 (finding federal government immunity from state or local taxation is only appropriate "when the levy falls on the United States itself, or an agency or instrumentality so closely connected to the Government that the two cannot realistically be viewed as separate entities, at least insofar as the activity being taxed is concerned"); *California Credit Union League v City of Anaheim* (9th Cir 1996) 95 F3d 30, vacated and remanded (1997) 520 US 1261, 138 L Ed 2d 191, 117 S Ct 2429 (federal credit union employees traveling on business are "constituent parts" of their credit union and thus immune from transient occupancy tax); *U.S. v City of Spokane* (9th Cir 1990) 918 F2d 84, 87-88 (finding Red Cross to be an instrumentality of the United States). If the city elects to exempt employees and officers of state, federal, or foreign governments, it must create a standard form to claim the exemption. Rev & T C §7280(e).

© The Regents of the University of California

§5.54 b. Tax Clearance Certificate May Be Requested

A purchaser of property, the owner of which is required to collect the transient occupancy tax, may request the city to issue a tax clearance certificate that will detail the amount of the tax due and owing. Rev & T C §7283.5. The tax clearance certificate represents conclusive evidence of the tax liability associated with the property as of the date specified on the certificate, and failure to provide a certificate on request relieves the purchaser of any liability for tax obligations incurred before the purchase. Rev & T C §7283.5(c), (d)(3).

© The Regents of the University of California

§5.55 c. Collection of Transient Occupancy Tax

Charter cities' constitutional power to tax carries with it the corollary power to use reasonable means to effect collection, including having others collect the tax and remit it to city. See *City of Modesto v Modesto Irrig. Dist.* (1973) 34 CA3d 504, 110 CR 111. Cities may allow the operator to keep a portion of the tax as a collection fee. See 48 Ops Cal Atty Gen 109 (1966). When an operator has a duty to collect and remit the tax, it is a felony to refuse to pay it over. Pen C §424.

A 4-year statute of limitations applies to the collection of transient occupancy taxes. Rev & T C §7283.51. This statute of limitations does not apply to a charter city unless the city's charter references state transient occupancy tax law. Stats 2004, ch 936, §4.

© The Regents of the University of California

§5.56 d. Online Travel Company Litigation

In recent years there have been a number of lawsuits throughout California and the nation relating to the collection of transient occupancy taxes by online travel companies (OTCs). The primary issue involves OTCs paying tax based on the discounted room price instead of on the higher retail room price that the tenant actually pays.

Because many California cities have similar transient occupancy tax laws, most of the California lawsuits have been held in abeyance pending the outcome of the writs appealing the administrative hearing in the lead case, *Priceline.com Inc. v City of Anaheim* (LA Super Ct, 2010, JCCP 4472). That litigation is now winding its way through the trial and appellate courts relative to the issues of "liability," the "amount owed," use of "contingency fee counsel," and the "pay first, litigate later" requirement for tax refunds.

As to the "liability" and "amount owed" issues, the superior court held that, because OTCs do not constitute hotel "operators," hotel "proprietors" or "managing agents" of a hotel, as each term is defined by its usual and ordinary meaning, OTCs are not liable for the collection of transient occupancy taxes or payment thereof under the Anaheim ordinance imposing the tax. See *Priceline.com Inc. v City of Anaheim* (LA Super Ct, Feb. 1, 2010, JCCP 4472) Opinion and Order on the Online Travel Companies' Motion for Judgment Granting Writ of Mandate and the City of Anaheim's Motion to Deny Online Travel Companies' Writs of Administrative Mandamus.

> The result of the statutory interpretation … is consistent with the purpose and structure of the transient occupancy tax as a privilege tax based on commercial activity taking place in the [City]. The hotel transaction is taxed by the [City] because the hotel's physical location is in the City. The revenue gained by the entity that provides the physical location (hotel) for occupancy within the [City] is the amount paid to the hotel. It is not unreasonable to base a local tax on the revenue of the commercial business that provides the local amenity. Based on the language of the City's ordinance, Anaheim has done just that..

Priceline.com Inc. Feb. 1, 2010 Opinion and Order at 24.

A local entity could, as a matter of policy and drafting, construct a different scheme for taxation of transient occupancy. If a city decides to base a transient occupancy tax on the total amount paid by the transient for the hotel room, there seems to be no reason why such a tax scheme could not be drafted and considered. *Priceline.com Inc.* Feb. 1, 2010 Opinion and Order at 25.

As to the "contingency fee counsel" issue, the Fourth District Court of Appeal held that government lawyers may receive assistance from contingency fee lawyers as co-counsel in ordinary civil actions, including actions involving transient occupancy tax disputes. *Priceline.com Inc. v City of Anaheim* (2010) 180 CA4th 1130, 103 CR3d 521.

As to the "pay first, litigate later" issue, the Second District Court of Appeal held that, under the "pay first" rule of Cal Const art XIII, §32, OTCs are not required to pay transient occupancy taxes levied by a city before litigating the taxes validity because §32 applies to actions against the state or an officer of the state. *City of Anaheim v Superior Court* (2009) 179 CA4th 825, 830, 102 CR3d 171. Although a local government is not precluded from inserting a "pay first" requirement in a taxing statute as long as the statute comports with due process, Anaheim had not done so. 179 CA4th at 831. The city could not rely on a public policy argument to impose a "pay first" requirement because the taxes the city sought to collect from the OTC did not represent a "predictable income stream" on which the city had come to rely. 179 CA4th at 832.

§5.57 9. Other Excise Taxes

Excise taxes include the sales and use tax, business license tax, utility user tax, transient occupancy tax, real property transfer tax, admissions tax, and development (or bedroom) tax. The phrase "excise tax" is most commonly used in reference to a type of parcel tax. Excise taxes are sometimes referred to as license or privilege taxes. A definition of excise tax is provided at 71 Am Jur 2d, State and Local Taxation §28.

> In its modern sense an excise tax is any tax which does not fall within the classification of a poll tax or a property tax, and which embraces every form of burden not laid directly upon person or property. The obligation to pay an excise tax is based upon the voluntary action of the person taxed in performing the act, enjoying the privilege, or engaging in the occupation which is the subject of the excise, and the element of absolute and unavoidable demand is lacking.

See also *Pesola v City of Los Angeles* (1975) 54 CA3d 479, 126 CR 580.

© The Regents of the University of California

§5.58 a. Authority for Excise Taxes

The source of excise taxing authority for a charter city is the city's general home rule powers and the city's charter. Cal Const art XI, §5. The general authority for a general law city to levy an excise tax is Govt C §37100.5 (general law city may impose any tax a charter city may impose) and §50075 (authority to impose special taxes with voter approval). For specific statutory authority for some taxes, see, *e.g.,* §§5.60-5.61. The excise taxes are subject to constitutional requirements for voter approval. Excise taxes are subject to limitations on the taxing power generally as discussed in §§5.94-5.120.

© The Regents of the University of California

§5.59 b. Property Taxes Distinguished From Excise Taxes

It is often crucial to distinguish an excise tax from a property tax. If a tax is categorized by a court as a property tax, it may be struck down as a violation of Cal Const art XIIIA, §1, limiting property taxes to 1 percent of full cash value. See *Flynn v San Francisco* (1941) 18 C2d 210, 115 P2d 3; *City of Oakland v Digre* (1988) 205 CA3d 99, 252 CR 99. These issues arise most frequently in relation to parcel taxes.

A property tax is a tax on property ownership per se. A tax on the exercise of an incident of ownership, such as the power to sell property, is an excise tax. *Brunton v Superior Court* (1942) 20 C2d 202, 124 P2d 831 (tax on privilege of drilling for oil); *Flynn v San Francisco* (1941) 18 C2d 210, 115 P2d 3 (excise tax on ownership of trucks used in business in city); *Douglas Aircraft Co. v Johnson* (1939) 13 C2d 545, 90 P2d 572 (state use tax); *City of Oakland v Digre* (1988) 205 CA3d 99, 252 CR 99 (invalidating parcel tax which was not sufficiently tied to use of municipal services); *City of Huntington Beach v Superior Court* (1978) 78 CA3d 333, 144 CR 236 (upholding charter city documentary transfer tax).

Courts have looked at the following factors to determine whether a tax is an excise rather than a property tax (see generally *Flynn v San Francisco, supra*; *City of Oakland v Digre, supra*; *City of Huntington Beach v Superior Court, supra*):

- Name given to tax on enactment (instructive, but not controlling);
- Property tax is collected regularly; excise tax is collected on exercise of an incident of ownership (*e.g.,* transfer or use);
- Property tax generally is imposed on owner; excise tax may be imposed on occupant or other person exercising an incident of ownership;
- If the tax is imposed on the use of services, an excise tax is imposed in proportion to the extent of the use of those services (but see discussion in §§5.64-5.66 as to parcel taxes); and
- A property tax is secured by a lien on property rather than a personal debt and is collected with other property taxes; an excise tax is a personal debt.

© The Regents of the University of California

§5.60 c. Development Tax

A development or bedroom tax is an excise tax on the privilege or activity of development and/or on the availability or use of municipal services. The tax is generally imposed only on new construction and collected with building permit fees. The tax rate is generally based on number of units, number of bedrooms, or square footage.

The source of authority to levy a development tax for a charter city is the city's general home rule powers and the city's charter. Cal Const art XI, §5. The general authority for a general law city to levy such a tax is Govt C §37100.5 (general law city may impose any tax a charter city may) and §50075 (power to impose special taxes with two-thirds voter approval). The constitutional voter approval requirement of Cal Const art XIIIA must be satisfied to adopt a development tax. See §§5.94-5.120.

Several cases have upheld the validity of excise taxes on development. See *The Pines v City of Santa Monica* (1981) 29 C3d 656, 175 CR 336; *Westfield-Palos Verdes Co. v City of Rancho Palos Verdes* (1977) 73 CA3d 486, 141 CR 36; *Assoiated Home Builders of the Greater East Bay, Inc. v City of Newark* (1971) 18 CA3d 107, 95 CR 648. Such taxes are not a development fee and therefore not subject to or prohibited by Govt C §§66000-66008, also referred to as AB 1600. *Centex Real Estate Corp. v City of Vallejo* (1993) 19 CA4th 1358, 24 CR2d 48.

Development impact fees differ from development taxes. Development fees must be adopted under Govt C §§66000-66008 and are intended to mitigate the impacts of development. Development fees must not exceed the cost of providing the services or facilities necessitated by the development; proceeds from development fees must be spent on such services or facilities. See §§5.163-5.167. In contrast, development taxes are imposed for revenue-raising purposes.

PRACTICE TIP: A development tax ordinance should expressly state that it is adopted for general fund revenue-raising purposes and it is not a fee intended to mitigate the impacts of development. See *California Bldg. Indus. Ass'n v Governing Bd.* (1988) 206 CA3d 212, 253 CR 497 (school district development "tax" was actually development impact fee because district lacked statutory power to tax and tax was not "on a district" within meaning of Proposition 13).

© The Regents of the University of California

§5.61 d. Admissions Tax

An admissions tax is imposed on a consumer for the privilege of attending a show, performance, display, or exhibition. The tax rate is generally based on either one or more flat rates per ticket or on a percentage of the admission price. The tax is included in the price of the ticket, collected by the ticket seller, and remitted by the seller to the city.

Subject to constitutional voter approval requirement, the source of authority to levy an admissions tax for a charter city is the city's general home rule powers and the city's charter. Cal Const art XI, §5. The general authority for a general law city to levy such a tax is Govt C §37100.5 (general law city may impose any tax a charter city may impose) and §50075 (authorizing special taxes with two-thirds voter approval).

In *Fox Bakersfield Theatre Corp. v City of Bakersfield* (1950) 36 C2d 136, 222 P2d 879, the court upheld an admissions tax imposed on businesses. However, more recent cases have struck down admissions taxes that are borne solely or primarily by activities protected by the First Amendment on an "as applied" basis. See *United Artists Communications, Inc. v City of Montclair* (1989) 209 CA3d 245, 257 CR 124, cert denied (1989) 493 US 918; *Festival Enters., Inc. v City of Pleasant Hill* (1986) 182 CA3d 960, 227 CR 601. These cases suggest that a city must have substantial businesses or events that do not involve First Amendment rights that would bear a significant portion of the tax burden to enact an admissions tax, or demonstrate a compelling interest, other than the mere need to raise revenue, if a tax targets First Amendment businesses. *Sacramento Cable Television v City of Sacramento* (1991) 234 CA3d 232, 286 CR 470.

© The Regents of the University of California

§5.62 10. Parcel Tax

A parcel tax is an excise tax on the privilege of consuming municipal services and is generally an annual tax that is based on either a flat rate per non-vacant parcel or a rate that varies depending on use, and size or number of units, or both, on each parcel. Proposition 218 requires that a parcel tax be adopted as a special tax unless the tax can be shown to be something other than a tax on a parcel or on a person as an incident of property ownership. See Cal Const art XIIID, §3.

Subject to constitutional requirements for voter approval, the source of authority to levy a parcel tax for a charter city is the city's general home rule powers and the city's charter. Cal Const art XI, §5. The general authority for a general law city to levy such a tax is Govt C §37100.5 (general law city may impose any tax charter city may impose) and §50075 (authorizing special taxes with two-thirds voter approval).

© The Regents of the University of California

§5.63 a. Parcel Tax Distinguished From Property Tax

An ad valorem parcel tax violates the 1-percent limit on ad valorem property taxes of Proposition 13. Cal Const art XIIIA, §1. See §§5.8, 5.19. A non-ad valorem property tax may be approved by the voters as a special tax under Cal Const art XIIIA, §4 and Cal Const art XIIID, §3(a)(2). See *Heckendorn v City of San Marino* (1986) 42 C3d 481, 229 CR 324 (parcel tax rate based on parcel's zoning was not ad valorem).

© The Regents of the University of California

§5.64 b. Parcel Tax as Excise Tax

Parcel taxes are generally adopted as excise taxes. For a discussion of excise taxes generally, see §§5.57-5.61.

© The Regents of the University of California

§5.65 (1) Basis of Parcel Tax

Ordinances adopting parcel taxes commonly provide they are an excise tax based on the availability or use of municipal services or facilities, or both. The justification for the tax may rely on a variety of existing facilities and services (see, *e.g., City of Oakland v Digre* (1988) 205 CA3d 99, 252 CR 99 (invalidating parcel tax as insufficiently tied to use of services)) or new facilities that are being financed through the imposition of a special parcel tax (*e.g.,* as part of a Mello Roos community facilities district under Govt C §§53311-53368.3, discussed in §§5.76-5.87). The taxpayer need not actually use the services, but can be required to pay the tax based on the mere availability of the services. *City of Glendale v Trondsen* (1957) 48 C2d 93, 308 P2d 1. But see discussion concerning proportionality in §5.66. An excise tax generally is levied against an activity that can be foregone without loss of ownership; most parcel taxes imposed as excise taxes do not bear this characteristic. *City of Oakland v Digre, supra*.

© The Regents of the University of California

§5.66 (2) Proportionality Requirement

A tax is generally imposed for revenue rather than regulatory purposes and need not bear any relation to the benefit conferred on the taxpayer or the burden placed on the public by the taxpayer. See*, e.g., Trent Meredith, Inc. v City of Oxnard* (1981) 114 CA3d 317, 327, 170 CR 685. The requirement that a parcel tax be "proportional" to the use of city services was raised in *City of Oakland v Digre* (1988) 205 CA3d 99, 252 CR 99, to distinguish excise taxes on certain uses of property from taxes on property ownership alone. Some municipal parcel taxes have a broad scope that does not necessarily provide a direct link between the taxpayer and the use of city services. Such a parcel tax is distinguishable from other types of excise taxes that are imposed at the time of use for the privilege of using a specific service. See*, e.g., City of Glendale v Trondsen* (1957) 48 C2d 93, 308 P2d 1 (excise tax for availability of trash collection services); *Douglas Aircraft Co. v Johnson* (1939) 13 C2d 545, 90 P2d 572 (state use tax); *Ingels v Riley* (1936) 5 C2d 154, 53 P2d 939 (motor vehicle license fee for use of state roadways).

Because *City of Oakland v Digre* (1988) 205 CA3d 99, 252 CR 99, invalidated the Oakland parcel tax at issue in the case, it is important for drafters and defenders of parcel taxes to distinguish the case. Possible bases for distinguishing *Digre* from other cases are:

- *Digre* held that proportionality is one of several factors to be reviewed (see discussion of excise taxes in §5.59), but did not hold that proportionality alone is determinative;
- Oakland stated that its tax was based on *use* of municipal services rather than *availability*, so *Glendale* may be distinguishable; and
- Oakland taxed vacant parcels, suggesting its tax was not an excise tax on the use of city services but a disguised tax on property ownership per se "regardless of whether the property is used as a residence." 205 CA3d at 106. See *Neecke v City of Mill Valley* (1995) 39 CA4th 946, 46 CR2d 266 (rejecting special tax challenge to parcel tax, but not squarely addressing property tax / excise tax distinction).

PRACTICE TIPS: The following strategies may help a city characterize a parcel tax as an excise tax rather than a property tax. The law does not require that all or any of these strategies be used.

PRACTICE TIP 1: State explicitly in the ordinance that the tax is an excise tax for revenue-raising purposes, specify what activity or privilege the tax is imposed on, and ensure that the structure of the tax bears a meaningful relation to that basis (*e.g.,* if the tax is imposed on the basis of the consumption of municipal services, consider exempting vacant property or reducing the tax on such property to a fair measure of the services provided to it).

PRACTICE TIP 2: Articulate that the tax is on use rather than ownership of the property.

PRACTICE TIP 3: Specify that the tax is a personal debt—not a lien on the property; do not have the tax collected as an item on the property tax bill. Consider collecting the tax as an item on water, sewer, or garbage bills for ease of collection.

PRACTICE TIP 4: Impose the tax on the occupant of property rather than the owner.

PRACTICE TIP 5: Consider exempting or discounting the tax on vacant parcels.

PRACTICE TIP 6: If the tax is based on the use of municipal services or facilities, adopt a rate schedule that makes the tax roughly proportional to the probable use of such services or facilities by each class of property (*e.g.,* vary the tax based on the number of dwelling units on a residential property or on the square footage of improvements of non-residential property).

PRACTICE TIP 7: If possible, collect the tax whenever the privilege being taxed is exercised rather than at regular time periods.

© The Regents of the University of California

11. Transfer Taxes

§5.67 a. Documentary Transfer Taxes

A documentary transfer tax is an excise tax imposed on the deed, instrument, or writing by which interests in real property are transferred. The tax is in proportion to the consideration or value of the property or interest conveyed (exclusive of liens and encumbrances) and applies if such consideration exceeds $100. Rev & T C §11911(a).

The Documentary Transfer Tax Act (Rev & T C §11911-11935) authorizes a city in a county that has imposed a tax under the provisions of the act to impose by ordinance a documentary transfer tax at half the county rate. See Rev & T C §11911(b). Failure to do so cedes the entire tax to the county but does not reduce taxes paid by those involved in real estate transactions. Rev & T C §11911(c).

A city is allowed to impose a tax of one-half of the county tax rate of 55 cents for each $500 or fraction of the consideration or value. Rev & T C §11911(b).

The amount of tax paid under a city documentary transfer tax ordinance is a credit against the county tax due, but only if the city tax is in conformity with state law. Rev & T C §§11911(c), 11931.

The Documentary Transfer Tax Act exempts from tax any instruments by which an exempt governmental agency has acquired title. There are a number of other statutory exemptions dealing with reorganizations, partnerships, orders of the Securities and Exchange Commission, transfers between spouses, and debt instruments. Rev & T C §§11921-11930.

© The Regents of the University of California

§5.68 b. Real Property Transfer Taxes

Some charter cities have enacted a real property transfer tax that imposes a tax on the conveyance of real property based on the value of the property in addition to the amount authorized by Rev & T C §§11911. Courts have determined that such charter city taxes do not violate either Proposition 13 (Cal Const art XIIIA) (*Cohn v City of Oakland* (1990) 223 CA3d 261, 272 CR 714) or Proposition 62 (Govt C §53725), which prohibits a transaction tax on the sale of real property (*Fielder v City of Los Angeles* (1993) 14 CA4th 137, 17 CR2d 630). Although Govt C §37100.5 gives a general law city the authority to impose the same type of taxes that a charter city imposes, a general law city is subject to the restrictions of Proposition 62 (Govt C §53725), which specifically prohibit a transaction tax on the sale of real property. Accordingly, while charter cities may consider additional real property transfer taxes beyond the Rev & T C §11911 rate, general law cities may not. All cities should adopt the tax authorized by the Revenue and Taxation Code unless they wish to transfer their share of that tax to the county.

© The Regents of the University of California

§5.69 12. Special Taxes

Cities "by a two-thirds vote of the qualified electors … may impose special taxes." Cal Const art XIIIA, §4; Cal Const art XIIIC, §2(d). This provision has been construed not as a grant of authority to impose special taxes but as a restriction on the power to do so. *City & County of San Francisco v Farrell* (1982) 32 C3d 47, 53, 184 CR 713. The provisions of Govt C §50075, however, give cities the power to impose special taxes, subject to the constitution's two-thirds vote requirement. The restriction on local taxes in Cal Const art XIIIA, §4 was considered necessary to ensure effective property tax relief. *Amador Valley Joint Union High Sch. Dist. v State Bd. of Equalization* (1978) 22 C3d 208, 231, 149 CR 239. The imposition of special taxes is also subject to the requirements of Proposition 62 (Govt C §§53720-53730) and Proposition 218 (Cal Const arts XIIIC-XIIID). See §§5.105-5.120.

© The Regents of the University of California

a. Special Taxes Defined

§5.70 (1) Label Not Dispositive

The label given to a charge is not dispositive; rather, in case of a dispute, a court will look to the charge's purpose and effect. *City of Oakland v Digre* (1988) 205 CA3d 99, 105, 252 CR 99; *Mills v County of Trinity* (1980) 108 CA3d 656, 661, 166 CR 674. Nonetheless, labels are given some consideration and should therefore be chosen with care. Labeling something an "excise" tax will bolster defense of a claim that that tax is something else, such as an illegal ad valorem property tax. See, *e.g., Ingels v Riley* (1936) 5 C2d 154, 160, 53 P2d 939.

© The Regents of the University of California

§5.71 (2) Special Purpose May Not Be Necessary

Proposition 218 defines a "special tax" as "any tax imposed for specific purposes, including a tax imposed for specific purposes, which is placed into a general fund." Cal Const art XIIIC, §1(d).

By comparison, a "general tax" is any tax imposed for general government purposes. Cal Const art XIIIC, §1(a). The courts have determined that a tax is general only when its revenues are available for expenditure for any and all governmental purposes. *Howard Jarvis Taxpayers Ass'n v City of Roseville* (2003) 106 CA4th 1178, 132 CR2d 1. However, the mere reference to one possible use of general tax proceeds for a specific municipal purpose (police and fire) does not necessarily transform a general tax into a special tax. *Fenton v City of Delano* (1984) 162 CA3d 400, 208 CR 486.

In *Coleman v County of Santa Clara* (1998) 64 CA4th 662, 75 CR2d 516, the 6th District Court of Appeal applied a two-part test for identification of a "special tax":

(1) Is the entity that imposes the tax a general-purpose entity (like a city) or a special-purpose entity that can impose only special taxes by its very nature?

(2) If the tax is imposed by a general-purpose entity, are the proceeds "legally obligated" for a "special purpose"?

Coleman upheld a so-called "Measure A / Measure B" proposal that combined a general tax (Measure B) with an advisory question (Measure A) advising the county board of supervisors to spend the proceeds of the tax on a specified list of transportation improvements. Because the tax was not legally restricted to the uses specified in the companion advisory measure, the court found it to be a general tax.

© The Regents of the University of California

§5.72 (3) Tax Versus Other City Charges: Fees Distinguished

Special taxes require two-thirds voter approval. See §5.69. Any charge imposed by a city, however labeled, could be characterized as a "tax" for some purposes, but for the purpose of determining whether a two-thirds vote of the electorate is required for its adoption, the term "tax" does not include a charge that "does not exceed the reasonable cost of providing the service or regulatory activity for which the fee is charged and which is not levied for general revenue purposes." See Govt C §50076. The term "special taxes" does not include "regulatory fees" that are "reasonably commensurate with the cost of regulatory activity from those at whose instance the activity is conducted." *Mills v County of Trinity* (1980) 108 CA3d 656, 663, 166 CR 674. It does not matter if a fee does not benefit those charged as long as the fee is commensurate with the burden imposed by the activity of those charged. *Sinclair Paint Co. v State Bd. of Equalization* (1997) 15 C4th 866, 64 CR2d 447 (approving fees assessed on persons contributing to environmental lead contamination to administer the Childhood Lead Poisoning Prevention Act); *Pennell v City of San Jose* (1986) 42 C3d 365, 375, 228 CR 726 (approving a charge imposed on landlords to administer a city's rent control ordinance); *Collier v City & County of San Francisco* (2007) 151 CA4th 1326, 1349, 60 CR3d 698 ("California courts have not required governments to prove a link between their expenditure of fee revenues and their receipt of those revenues from particular fee payers"). A fee to fund the cost to implement a tax is itself a tax. *Weisblat v City of San Diego* (2009) 176 CA4th 1022, 98 CR3d 366.

PRACTICE TIP: The imposition of every charge or fee should be supported by evidence (perhaps in a staff report) showing that the revenues raised will not exceed the cost of providing the service or regulation unless it is absolutely clear that the fee in question may be set at any rate the market will bear (like fees for proprietary activities, such as renting out meeting halls). Follow statutory authority for levy of a particular fee or charge.

© The Regents of the University of California

§5.73 (4) Tax Versus Other City Charges: Assessments Distinguished

A special tax, which requires a two-thirds voter approval, does not include a special assessment. Cal Const art XIIIC, §1(d) (defining "special tax"), Cal Const art XIIID, §2(b) (defining "assessment"), §3(a) (listing special taxes and assessments separately among authorized impositions on property ownership); *Knox v City of Orland* (1992) 4 C4th 132, 14 CR2d 159. On special assessments, see §§5.121-5.157.

© The Regents of the University of California

§5.74 (5) Tax Versus Other City Charges: Record Necessary to Overcome Challenge on Lack of Voter Approval

In case of a challenge to a charge imposed by a city without two-thirds voter approval, the burden will be on the city to demonstrate that the charge is either a fee or a general tax. Cal Const art XIIID, §§4(f), 6(b)(5). Thus, before imposing a charge that is not going to be submitted to a vote, "the government should prove (1) the estimated costs of the service or regulatory activity, and (2) the basis for determining the manner in which the costs are apportioned, so that charges allocated to a payor bear a fair or reasonable relationship to the payors' burdens on or benefits from the regulatory activity." *Collier v City & County of San Francisco* (2007) 151 CA4th 1326, 1346, 60 CR3d 698; *San Diego Gas & Elec. Co. v San Diego County Air Pollution Control Dist.* (1988) 203 CA3d 1132, 1146, 250 CR 420.

PRACTICE TIP: The two-thirds voter approval requirement for a special tax will not necessarily be avoided simply by placing revenue from a tax in a city's general fund. Courts will look to the purpose of the charge. If the intention of a charge, as opposed to a tax, is to fund a "specific project or program," the record should show that the charge is "reasonably commensurate" with the cost of a regulatory activity or services being provided. Such a record may establish that a charge is a fee rather than a tax.

© The Regents of the University of California

§5.75 b. Mandatory Accountability Measures Necessary for Special Tax Measures

The legislature has imposed mandatory accountability provisions that must be reflected in local special tax measures submitted to the voters. Govt C §§50075.1-50075.5. Each such measure must state the "specific purposes" of the tax, include a requirement that the proceeds of the measure be devoted only to those purposes, provide for "the creation of an account into which the proceeds shall be deposited," and require annual reporting of amounts collected and expended and of "the status of any project required or authorized to be funded" by the measure. Although the measure purports to apply to charter cities, an argument can be made that these issues are municipal affairs as to which the local charter is controlling. See generally *Harman v City & County of San Francisco* (1972) 7 C3d 150, 101 CR 880.

PRACTICE TIP: Compliance with this procedure is recommended to make clear that the revenue measure is, in fact, a special tax, and to clarify for voters what the proceeds of the tax will be used for.

© The Regents of the University of California

§5.76 c. Mello-Roos Community Facilities Act of 1982

The Mello-Roos Community Facilities Act of 1982 (Mello-Roos) (Govt C §§53311-53368.3) provides a method of financing public facilities, infrastructure, and services in connection with new development. Mello-Roos authorizes certain local agencies (including cities) to form community facilities districts (also referred to as Mello-Roos districts) to finance a wide range of public facilities and services through imposition of special taxes approved by a two-thirds vote of the qualified electorate of the district.

© The Regents of the University of California

§5.77 (1) Voting Mechanics

The vote is either by registered voters or by landowners, depending on whether there are 12 or more registered voters in the proposed district before formation. Govt C §53326(b). Mail ballots are authorized. Govt C §53326(d). Once established, a community facilities district is a legally constituted governmental entity distinct from the local agency that created it even if the members of the local agency and the district are the same. Govt C §53317(b).

PRACTICE TIP: Because of the difficulty of obtaining two-thirds voter approval of special taxes, Mello Roos taxes are commonly imposed in the development context, with the vote of property owners, and before the resulting developments are inhabited.

© The Regents of the University of California

§5.78 (2) Authorized Facilities

A community facilities district may be used to finance the purchase, construction, improvement, expansion, or rehabilitation of any real or tangible property with an estimated useful life of 5 or more years. Govt C §53313.5. Authorized facilities include (Govt C §53313.5):

- park, recreation, and open space facilities;
- school sites and buildings;
- libraries;
- child care facilities;
- water transmission and distribution facilities;
- natural gas pipeline facilities;
- telephone, electrical, and cable television facilities;
- flood and storm protection services; and
- any other governmental facilities that the legislative body creating the district is authorized to contribute revenue to, construct, own, or operate.

In addition, a community facilities district may pay for work necessary to bring buildings (including privately owned buildings) into compliance with seismic safety standards or regulations. Govt C §53313.5.

© The Regents of the University of California

§5.79 (3) Authorized Services

Subject to certain restrictions, a community facilities district may also finance a limited number of services, including (Govt C §53313):

- police protection services, including the provision of services for jail or other detention facilities;
- fire protection and suppression services;
- ambulance and paramedic services;
- the operation and maintenance of flood and storm protection services;
- cleanup of hazardous substances;
- recreation services, library services, and the operation and maintenance of museums and cultural facilities;
- maintenance and lighting of parks, parkways, streets, roads, and open spaces; and
- maintenance of elementary and secondary school sites and structures.

A community facilities district tax approved by a landowner vote may only finance new services or an increase in the level of services that existed at the time the district was formed. Govt C §53313.

© The Regents of the University of California

§5.80 (4) Joint Community Facilities Agreements

A community facilities district may be formed by an entity other than a city, *e.g.,* a school district or special district, to finance facilities to be owned by a city if the entity and the city enter into a joint community facilities agreement or a joint exercise of powers agreement before formation of the community facilities district. Govt C §53316.2.

PRACTICE TIP: In reviewing a proposed joint community facilities district with another entity forming a community facilities district, ensure that the terms of the agreement clarify that the city is not responsible for the formation of the community facilities district, the levy and collection of the special taxes, or the issuance of bonds secured by such special taxes. The entity forming the district should agree to indemnify the city for any of the following:

- claims arising from the formation of the district;
- the authorization of the levy of special taxes and the issuance of bonds;
- the administration of the district and any bonds;
- the levy of special taxes and the issuance of bonds; and
- initial and continuing disclosure related to any bonds.
- The city should also review the goals and policies regarding the use of community facilities districts of the entity proposing to form the community facilities district to determine if its goals and policies are consistent with the city's goals and policies. The city may be wary of entering into a joint community facilities agreement with an entity that would permit the levy of special taxes at rates that would result in the aggregate taxes and assessments levied on properties in the proposed district to exceed 2 percent of the projected sales prices of the homes in the district.

© The Regents of the University of California

§5.81 (5) Formation of a Community Facilities District

The statute specifies a number of procedural steps to form a community facilities district. After formation of the district, the special tax is voted on by the qualified electors of the district. The qualified electors are either landowners or registered voters if there are more than 12 registered voters in the district. Govt C §§53313-53365.7. Within 15 days after approval of the special tax by the qualified electors, the district must record a notice of special tax lien against the land within the district. Govt C §53328.3. From the date of recordation, all persons are considered to have notice of the tax lien. Govt C §53328.3.

PRACTICE TIP: Financing under the Mello-Roos Community Facilities Act of 1982 (Mello-Roos) (Govt C §§53311-53368.3) allows for flexibility in both the facilities that may be financed and how the burden or costs are to be spread. It also requires the cooperation of both landowners and a city in proceedings to form a district to finance facilities or services for newly developing areas. If, for example, the city council does not approve the proposed community facilities district, the city will not conduct the proceedings. At the same time, if the landowners do not agree to the proposed community facilities district, they will not vote for it. Consequently, before proceedings take place, negotiations typically take place between city staff and property owners to establish agreements regarding the boundaries of the proposed district, the facilities or services, or both, to be financed, the amount of the bond authorization, and the rate and method of apportioning the special taxes. Because of the two-thirds vote requirement, Mello-Roos financing is generally available to large undeveloped parcels with fewer than 12 registered voters. Community facilities districts do have the potential for creating issues following formation as one group of citizens pays more taxes compared to landowners outside the district. In addition, if the real estate economy changes significantly after the formation of the district, the real property that secures the special tax may not be of sufficient value to cover delinquencies because the sales value of the real property has declined. Most agencies retain consultants specializing in the design of the rate and method of apportionment of a Mello-Roos special tax because of the importance and complexity of the task.

On Mello-Roos financing, see §5.76.

© The Regents of the University of California

§5.82 (6) Levying the Mello-Roos Special Tax

The special tax is levied by ordinance once and can be adjusted annually by resolution. There is some flexibility in designing the special tax formula. The tax must be apportioned in a fair and reasonable manner, but it cannot be an ad valorem tax (*i.e.,* based on the assessed value of land). Unlike a special assessment, a special tax under the Mello-Roos Community Facilities Act of 1982 (Mello-Roos) (Govt C §§53311-53368.3) need not be, but may be apportioned on the basis of any benefit to property. On approval of a Mello-Roos special tax by the voters, the legislative body may levy the tax in any amount up to the rate authorized in the resolution of formation. Govt C §53340. On Mello-Roos financing, see §5.76.

© The Regents of the University of California

§5.83 (7) Collection of the Mello-Roos Special Tax

Once levied, the special tax under the Mello-Roos Community Facilities Act of 1982 (Mello-Roos) (Govt C §§53311-53368.3) is collected twice a year along with the property tax. The special tax is subject to the same penalties, foreclosure procedures, and sale and lien priorities in the event of delinquency as those for ad valorem property taxes. Govt C §53340. Alternatively, the special tax may be collected separately from the property tax bill, such as by direct billing of the property owners (and this may be required in the initial tax year if the tax is imposed after the deadline for placing it on the county tax roll). In the event of delinquency, special taxes levied to pay debt service on bonds secured by such special taxes may be collected by judicial foreclosure proceedings. Govt C §§53356.1-53356.6. On Mello-Roos financing, see §5.76.

PRACTICE TIP: Bond covenants typically obligate the taxing entity to pursue judicial foreclosure when delinquencies reach a stated level.

© The Regents of the University of California

§5.84 (8) Exemptions to the Mello-Roos Special Tax

Properties or entities of the state, federal, or other local governments are exempt from the special tax unless such entity acquires a property after the tax has lawfully been imposed on it. Govt C §§53317.3, 53340(c). On financing under the Mello-Roos Community Facilities Act of 1982 (Mello-Roos) (Govt C §§53311-53368.3), see §5.76.

© The Regents of the University of California

§5.85 (9) Changes to Community Facilities District

After establishment of a community facilities district and approval of a special tax, new facilities or services may be added, or the maximum special tax increased or decreased. Any such changes require procedures similar to formation, including adoption of an initial resolution, notice to landowners or residents, a public hearing, a vote by the legislative body to put the issue on the ballot, and an election requiring a minimum of two-thirds voter approval. Govt C §§53330-53338.5.

© The Regents of the University of California

§5.86 (10) Bonds: Issuance and Limitations

A community facilities district may issue bonds secured by the levy of special taxes to finance authorized facilities (including facilities to be used to provide services), but bonds may not be issued to fund authorized services. Govt C §§53313, 53345-53365.7. Proceedings to authorize such bonds are typically undertaken simultaneously with formation of a community facilities district. An authorization to issue bonds must be approved by two-thirds of the qualified electors. Govt C §§53345-53365.7. Bonds secured by community facilities district special taxes are of the same force, value, and use as bonds issued by any municipality and interest on such bonds is exempt from state tax. Generally, such bonds would also be exempt from federal tax.

© The Regents of the University of California

§5.87 (11) Challenges to the Validity of Special Tax Levy or Bond Issuance

Any action challenging special taxes or bonds under the Mello-Roos Community Facilities Act of 1982 (Mello-Roos) (Govt C §§53311-53368.3) must be commenced within 30 days after voter approval of the levy of the special tax or bond issuance. Govt C §§53341, 53359. On Mello-Roos financing, see §5.76.

© The Regents of the University of California

§5.88 d. Police and Fire Protection

Any local agency that provides fire or police services can propose by ordinance the levy of a special tax other than an ad valorem property tax for approval by two-thirds of the voters. Cal Const art XIIIC, §2(d); Govt C §§53970, 53978.

© The Regents of the University of California

§5.89 (1) Implementing Ordinance—Mandatory Provisions

The special tax must be levied on "a parcel, class of improvement to property, or use of property basis, or a combination thereof" to which specific fire protection or prevention services or police protection services are made available. Govt C §53978(b). The ordinance submitted for voter approval must specify the amount of each such special tax or the maximum amount that can be annually levied. Govt C §53978(b).

© The Regents of the University of California

§5.90 (2) Implementing Ordinance—Optional Provisions

The amount of each special tax may vary among parcels, improvements, or uses based on the availability of police and fire services. Govt C §53978(c). Any such distinctions must have a rational basis and must not discriminate against any protected minority group. See US Const amend XIV (equal protection clause); Cal Const art I, §7; *City of San Jose v Donohue* (1975) 51 CA3d 40, 123 CR 804. The legislative body can provide that a special tax must be collected in the same manner and subject to the same penalties as taxes collected by or on behalf of the agency. If the county collects the tax, it may deduct its reasonable costs to do so. Govt C §53978(d).

© The Regents of the University of California

§5.91 (3) Impact on Other Methods of Funding Police and Fire Services

A general tax does not become a special tax under Govt C §53978 merely because some of its proceeds will be used for police and fire services. *Fenton v City of Delano* (1984) 162 CA3d 400, 208 CR 486. But see Cal Const art XIIIC, §1(d) (defining "special tax" for purposes of Proposition 218).

© The Regents of the University of California

§5.92 e. Funding for Libraries

Subject to voter approval, a city, county, city and county, or library district may impose a special tax for the purpose of providing library facilities and services described in Ed C §§18010-18032. Govt C §53717. Because this is a special tax and not a special assessment, there is no requirement that the tax be apportioned on the basis of benefit to any property. If a library tax is based on benefit received by parcels of real property, the special tax will not be construed to be a property tax. Govt C §53717.2.

© The Regents of the University of California

§5.93 13. Tax Refunds; Class Actions for Refunds

Tax refunds are subject to the claim procedures of the Government Claims Act (Govt C §910) unless the Revenue and Tax Code or other statute prescribes more specific procedures. Govt C §905.

Whether a claims ordinance can prohibit class action lawsuits with respect to tax refunds is currently being decided by the courts. Under Govt C §910, class action lawsuits are permitted. *City of San Jose v Superior Court* (1974) 12 C3d 447, 457, 115 CR 797. In *Batt v City & County of San Francisco* (2007) 155 CA4th 65, 65 CR3d 716, the First Appellate District upheld San Francisco's ordinance prohibiting class action lawsuits for tax refunds. But in *County of Los Angeles v Superior Court (Oronoz)* (2008) 159 CA4th 353, 71 CR3d 485, the Second Appellate District disagreed, and held that Los Angeles' claims ordinance prohibiting class action lawsuits for tax refunds was ineffective because only the Government Claims Act applies to tax claims, and class claims are permissible under that statute. However, in *Ardon v City of Los Angeles* (review granted Sept. 9, 2009, S174507; superseded opinion at 174 CA4th 369, 94 CR3d 245), the Second Appellate District reversed itself, overruling *Oronoz*, and held that class action lawsuits are not permissible in tax refund cases under the Government Claims Act. California Supreme Court review of *Ardon* is pending.

© The Regents of the University of California

C. Limitations on Exercise of Taxing Authority; Procedural Issues

§5.94 1. Equal Protection and Due Process Requirements

The courts have established principles for review of tax statutes and ordinances when the constitutional challenge is based on the equal protection clause or the due process clause, or both. *City of San Jose v Donohue* (1975) 51 CA3d 40, 123 CR 804. "It may be stated as a general rule that the due process clause of the federal constitution, Amend[ment] 14, is satisfied in matters of taxation if, at some stage before a tax becomes irrevocably fixed the taxpayer is given the right, of which he shall have notice, to contest the validity or amount of the tax before a board or tribunal provided for that purpose." *People v Sonleitner* (1960) 185 CA2d 350, 356, 8 CR 528.

© The Regents of the University of California

§5.95 a. Uniformity

Absolute uniformity or equality in the application of tax measures can never be obtained. *Willingham Bus Lines, Inc. v Municipal Court for the San Diego Judicial Dist. of San Diego County* (1967) 66 C2d 893, 59 CR 618.

© The Regents of the University of California

§5.96 b. Rational Basis

A tax statute or ordinance that distinguishes between parties does not violate the equal protection or due process clause if the distinction rests on a rational basis. *Jensen v Franchise Tax Board* (2009) 178 CA4th 426, 100 CR3d 408 (rejecting equal protection challenge to Proposition 63 income tax increase on "millionaires" to fund mental health services). It must be presumed to rest on that basis if there is any conceivable state of facts that would support it. *Ladd v State Bd. of Equalization* (1973) 31 CA3d 35, 106 CR 885. Administrative convenience and expense in the collection or measurement of a tax are alone sufficient justification for treating some taxpayers differently from others. *Carmichael v Southern Coal & Coke Co.* (1937) 301 US 495, 81 L Ed 1245, 57 S Ct 868.

© The Regents of the University of California

§5.97 2. First Amendment; No Discrimination on Protected Speech

Cities have the power to license for the purpose of generating revenue. This includes the taxation of First Amendment activities. However, those engaged in protected speech may not be singled out for discriminatory treatment in the absence of governmental interests of compelling importance that cannot be achieved without differential taxation. *Minneapolis Star & Tribune Co. v Minnesota Comm'r of Revenue* (1983) 460 US 575, 75 L Ed 2d 295, 103 S Ct 1365; *Times Mirror Co. v City of Los Angeles* (1987) 192 CA3d 170, 237 CR 346.

The entertainment industry may be properly subdivided and separately classified if the classification is founded on natural, intrinsic, or fundamental distinctions that are reasonably related to the object of the legislation. *Times Mirror Co. v City of Los Angeles* (1987) 192 CA3d 170, 237 CR 346.

On regulating speech (and related First Amendment issues), see §§9.118-9.153; on validity of admissions taxes, see §5.61.

© The Regents of the University of California

§5.98 3. Proposition 13 Limitations

Proposition 13 (Cal Const art XIIIA) limits cities' ability to tax in two ways: (1) Article XIIIA, §4, of the California Constitution requires two-thirds voter approval for special taxes; and (2) Article XIIIA, §§1-4, of the California Constitution prevent cities from levying certain taxes on real property even with two-thirds voter approval. Article XIIIA, §1 limits any ad valorem tax on real property to 1 percent of assessed valuation and provides that only counties may levy this property tax (although cities and special districts share in the proceeds). Article XIIIA, §4 provides that cities may impose special taxes, with the exception of ad valorem taxes on real property or transaction or sales taxes on the sale of real property, with two-thirds voter approval. A documentary transfer tax is not a "transaction or sales tax" prohibited by this provision. *Cohn v City of Oakland* (1990) 223 CA3d 261, 263, 272 CR 714. On documentary transfer taxes, see §5.67.

On making a record to establish that a charge is not a special tax, see §5.74. On making a record to establish that a tax is a parcel tax and not an invalid ad valorem property tax, see §5.21. For Proposition 218's prohibition of general parcel taxes, see §5.113.

© The Regents of the University of California

§5.99 a. Constitutionality of Proposition 13

Proposition 13's methods for assessing property taxes have been upheld against constitutional attacks. See *Nordlinger v Hahn* (1992) 505 US 1, 120 L Ed 2d 1, 112 S Ct 2326 (rejecting an equal protection challenge); *Amador Valley Joint Union High Sch. Dist. v State Bd. of Equalization* (1978) 22 C3d 208, 149 CR 239.

© The Regents of the University of California

§5.100 b. Special Taxes Limitations

Article XIIIA, §4, of the California Constitution applies only to special taxes. See *City & County of San Francisco v Farrell* (1982) 32 C3d 47, 184 CR 713; *Coleman v County of Santa Clara* (1998) 64 CA4th 662, 75 CR2d 516 (upholding a sales tax increase for general government purposes on the same ballot as an advisory measure stating the voters' preference for use of the sales tax increase); *Cohn v City of Oakland* (1990) 223 CA3d 261, 263, 272 CR 714 (upholding Oakland's general real property transfer tax).

© The Regents of the University of California

4. Tax Exemptions

§5.101 a. Exemptions on Property

Some property is exempt from tax. This includes:

- Property owned by the state (Cal Const art XIII, §3(a));
- Most property owned by local government (Cal Const art XIII, §§3(b), 11);
- Libraries and museums (Cal Const art XIII, §3(d));
- Property used for certain kinds of schools (Cal Const art XIII, §3(d)-(e));
- Churches (Cal Const art XIII, §3(f)); and
- Certain federal instrumentalities (see, *e.g.,* 12 USC §§531 (Federal Reserve Bank), 1768 (federal credit unions), 1825 (Federal Deposit Insurance Corporation).

An excise tax imposed on an entity that is exempt from property taxes may be unconstitutional. *Sacramento Mun. Util. Dist. v County of Solano* (1997) 54 CA4th 1163, 63 CR2d 286.

© The Regents of the University of California

§5.102 b. Exemptions on Insurance Companies

Insurance companies are subject to a tax provided by the California Constitution that is in lieu of all other taxes, even those that are not on insurance premiums. Cal Const art XIII, §28; *Mutual Life Ins. Co. of New York v City of Los Angeles* (1990) 50 C3d 402, 267 CR 589 (insurance companies have broad exemption from state and local taxes, except for property taxes and motor vehicle taxes and fees).

PRACTICE TIP: While a title insurance company's insurance business may be exempt, when acting as an escrow company, escrow services are not exempt.

© The Regents of the University of California

§5.103 c. Exemptions on Banks

Banks are subject to a tax by the state that is in lieu of all other taxes. See Cal Const art XIII, §27; Rev & T C §§23181-23182.

© The Regents of the University of California

§5.104 d. Exemptions on Financial Corporations (Savings and Loans)

Certain other financial institutions are also subject to a state tax that is in lieu of all other taxes, even charter city taxes. Rev & T C §23182; *California Fed. Sav. & Loan Ass'n v City of Los Angeles* (1991) 54 C3d 1, 283 CR 569.

© The Regents of the University of California

§5.105 5. Proposition 62 Limitations

Proposition 62 is a statute adopted by initiative imposing a voter approval requirement on general and special taxes. See Govt C §§53720-53730. See also *Santa Clara County Local Transp. Auth. v Guardino* (1995) 11 C4th 220, 45 CR2d 207 (finding Proposition 62's voter-approval requirement for general and special taxes constitutional and disapproving earlier court of appeal decisions to the contrary). Proposition 62 applies to counties, cities, cities and counties, any public or municipal corporation, and special districts. Govt C §53720. Proposition 62 does not apply to charter cities. See *Traders Sports, Inc. v City of San Leandro* (2001) 93 CA4th 37, 112 CR2d 677; *Fielder v City of Los Angeles* (1993) 14 CA4th 137, 17 CR2d 630; *Fisher v County of Alameda* (1993) 20 CA4th 120, 24 CR2d 384. Much of Proposition 62 is now redundant after the adoption of Proposition 218 (Cal Const arts XIIIC-XIIID), and only a few provisions are of independent significance, and only as related to general law cities, counties, and special districts. Only those aspects of Proposition 62 not duplicated by Proposition 218 are discussed in §§5.106-5.109. On Proposition 218, see §§5.110-5.120.

© The Regents of the University of California

§5.106 a. Proposition 62 Procedures for Enacting Taxes

Proposition 62 requires taxes to be proposed by ordinance or resolution. The ordinance or resolution must include the type of tax, the rate of tax, and the method of collection and, if a special tax, the purpose for which its imposition is sought. Govt C §53724(a).

© The Regents of the University of California

§5.107 b. Proposition 62 "Window Period" Taxes

Proposition 62 required a vote on taxes enacted between August 1, 1985, and November 4, 1986 (the so called "window period" before Proposition 62 was enacted). See Govt C §53727(b). The "window period" voter-approval requirement has been held unconstitutional. *City of Westminster v County of Orange* (1988) 204 CA3d 623, 251 CR 511. The California Supreme Court distinguished *Westminster* in finding that the voter-approval requirements of Proposition 62 are valid. But see *Santa Clara County Local Transp. Auth. v Guardino* (1995) 11 C4th 220, 45 CR2d 207. See §§5.110-5.120 on Proposition 218.

© The Regents of the University of California

§5.108 c. Restriction on Real Property Transaction Sales Taxes

Proposition 62 prohibits local governments other than charter cities from imposing local transaction taxes or sales taxes on the sale of real property. Govt C §53725; *Traders Sports, Inc. v City of San Leandro* (2001) 93 CA4th 37, 112 CR2d 677 (Proposition 62 inapplicable to charter cities). A variation on this restriction is also contained in Proposition 13 (see Cal Const art XIIIA, §4); however, that section applies only to special taxes. See *City & County of San Francisco v Farrell* (1982) 32 C3d 47, 184 CR 713. See §§5.110-5.120 on Proposition 218 specifically applying certain voting requirements to the adoption of general taxes by charter cities.

© The Regents of the University of California

§5.109 d. Reduction in Property Tax Allocations for Failure to Comply With Proposition 62

Government Code §53728 states that if any local government or district imposes any tax without complying with Proposition 62, its property tax revenue allocation must be reduced one dollar for each dollar attributable to such tax. The provision does not say how the lost tax dollars are allocated, presumably to all other beneficiaries of the property tax proportionately. Although this penalty has frequently been litigated, the penalty has never been upheld in a published appellate decision. See *Barratt Am., Inc. v City of Rancho Cucamonga* (2005) 37 C4th 685, 37 CR3d 149 (excessive building permit fees based on UBC valuation table were illegal but did not trigger Proposition 62 property-tax-forfeiture remedy).

© The Regents of the University of California

§5.110 6. Proposition 218

Proposition 218 added Cal Const arts XIIIC and XIIID and makes numerous changes to local government finance law, particularly in the areas of taxes, and adds a newly defined class of "property-related fees" and assessments. See §§5.144-5.157, 5.174-5.186 on the effect of Proposition 218 on property-related fees and assessments. Proposition 218 applies to counties, cities, cities and counties (including charter cities), any public or municipal corporation, and special districts. The Proposition 218 Omnibus Implementation Act (Stats 1997, ch 38) offers clarifications of the provisions of Proposition 218. This act amends Elec C §4000, Govt C §54954.6, and Str & H C §9525, and adds Govt C §§53739, 53750, 53753, and 53753.5.

PRACTICE TIP: The League of California Cities has published the Proposition 218 Implementation Guide (2007), which provides extensive commentary on the measure and case law, interpreting it through 2007. Copies of the guide are available through the League's publication unit at 1400 K Street, 4th Floor, Sacramento, CA 95814, telephone (916) 658-8257, fax (916) 658-8220, or on its website at www.cacities.org.

© The Regents of the University of California

§5.111 a. New Definitions of "General" and "Special" Taxes Under Proposition 218

Proposition 218 defines a "general tax" as any tax imposed for general governmental purposes. See Cal Const art XIIIC, §1(a). Proposition 218 defines "special tax" as any tax imposed for specific purposes including taxes imposed for specific purposes and placed into a general fund. See Cal Const art XIIIC, §1(d). The primary consequence of this change in the definition of "special tax" is to embody in the California State Constitution the prohibition of *Rider v County of San Diego* (1991) 1 C4th 1, 2 CR2d 490, on general taxes imposed by single-purpose public agencies.

PRACTICE TIP: Even though Proposition 218 defines the terms "assessments" and "fees and charges," it does not define the word "tax." Thus, look to previously existing law on distinctions among taxes, fees, and assessments.

© The Regents of the University of California

§5.112 b. Taxes Enacted Before Passage of Proposition 218

Proposition 218 requires any general tax imposed, extended or increased between January 1, 1995, and November 6, 1996, without voter approval to be submitted to the voters within 2 years. Cal Const art XIIIC, §2(c). The election for these "window period" taxes is subject to all the restrictions described below relating to general taxes. Cal Const art XIIIC, §2(c). Unlike the similar window period provisions of Proposition 62, Proposition 218 is applicable to charter cities. This provision has not, to the knowledge of the League of California Cities, been litigated.

PRACTICE TIP: As a practical matter, the election for the window period taxes must have occurred by the November 3, 1998, general election. See Elec C §324(a)(1). However, given the rule of *Howard Jarvis Taxpayers Ass'n v City of La Habra* (2001) 25 C4th 809, 107 CR2d 369, that a new cause of action to challenge a tax arises each time it is collected, this issue is of continuing concern for any local government that has not obtained voter approval of a tax adopted or increased during the Proposition 218 window period.

© The Regents of the University of California

§5.113 c. Limitation on Taxes on Property

Article XIIID, §3, of the California Constitution creates a closed list of permissible taxes "upon any parcel of property or upon any person as an incident of property ownership." Only the property tax provided for under Proposition 13 and special taxes approved by two-thirds of voters are authorized. Thus, general parcel taxes approved by a majority vote are no longer authorized.

© The Regents of the University of California

§5.114 d. Tax Increases Requiring Voter Approval

Although Proposition 218 (Cal Const arts XIIIC-XIIID) does not define the term "increase" for purpose of defining the changes in taxes, assessments, fees, and charges that require voter approval or property-owner approval, the Proposition 218 Omnibus Implementation Act does define that term. In general, a change that creates a new taxpayer liability or an increased tax liability is a tax "increase" for which voter approval is required, unless the change results from non-government conduct such as a change in the use of land. Implementation of a pre-Proposition 218 or voter-approved inflation protection device is not a tax "increase" that requires voter approval. Govt C §§53739, 53750(h)(2)(A). The first case to discuss Govt C §53750(h)'s definition of tax "increase" is *AB Cellular LA, LLC v City of Los Angeles* (2007) 150 CA4th 747, 59 CR3d 295 (considering whether tax administrator's directives that phone carriers impose utility user tax consistently with the Mobile Telecommunications Act of 2000 constitute tax "increase" under Govt C §53750(h)).

e. Procedure for Adopting General Taxes

§5.115 (1) Action by Legislative Body Required

Proposition 62 requires general taxes to be proposed by ordinance or resolution. Govt C §53724(a). The ordinance or resolution must include the type of tax, the rate of tax, and the method of collection. Govt C §53724(a). A proposed tax may state "a range of rates or amounts." If a range of rates is approved, the governing body may impose up to the maximum amount approved without additional voter approval. Govt C §53739. A proposed tax may also provide for inflationary adjustments to the rate or amount, unless the tax is to be determined by using a percentage calculation. Govt C §53739. Proposition 62 also states that enactment of general taxes requires a two-thirds vote of the legislative body. See Govt C §53724(b).

Given the extent to which Proposition 218 has reiterated Proposition 62's rules, the primary remaining effect of Proposition 62 with respect to the procedure by which taxes are adopted is the requirement that two-thirds of the legislative body of a general law city, county, or special district propose a general tax increase to the electorate. This requirement is not applicable to charter cities. *Traders Sports, Inc. v City of San Leandro* (2001) 93 CA4th 37, 112 CR2d 677. See §5.105.

© The Regents of the University of California

§5.116 (2) Voter Approval Required

Both Proposition 218 and Proposition 62 require that general taxes be approved by a majority of voters. See Cal Const art XIIIC, §2(b); Govt C §53723; *Santa Clara County Local Transp. Auth. v Guardino* (1995) 11 C4th 220, 45 CR2d 207 (upholding voter-approval provisions of Proposition 62).

The election to approve a general tax must be consolidated with a regularly scheduled general election for members of the governing body of the local government, except in cases of emergency declared by unanimous vote of the members of the governing body present when the vote is taken. Cal Const art XIIIC, §2(b); 75 Ops Cal Atty Gen 47 (1992), citing *Tidewater Southern Ry., Co. v Jordan* (1912) 163 C 105, 124 P 716 (unanimous vote of the governing body means such a vote of those present). No such restriction is placed on special taxes and these may be approved at any election.

PRACTICE TIP 1: Proposition 218 provides no definition of the term "emergency" that justifies calling a special election on a general tax, but a plausible argument may be made that this term ought to be interpreted similarly to the scope of a city's power to act by urgency ordinance under Govt C §36937. See *Crown Motors v City of Redding* (1991) 232 CA3d 173, 179, 283 CR 356 (courts normally will not investigate the truth of facts declared by a city council). See also *National Indep. Bus. Alliance v City of Beverly Hills* (1982) 128 CA3d 13, 180 CR 59 (urgency business license tax ordinance adopted immediately before effective date of Proposition 13).

PRACTICE TIP 2: Although the Elections Code authorizes a mail ballot for a general or special tax, an election to elect the legislative body may not be conducted wholly by mail in cities with more than 1000 registered voters. Elec C §4000.

A city charter provision that would require a super majority vote to authorize the levy of a general tax or the increase in an existing general tax is preempted by Cal Const art XIIIC, §2(b). *Howard Jarvis Taxpayers Ass'n v City of San Diego* (2004) 120 CA4th 374, 15 CR3d 457.

© The Regents of the University of California

§5.117 (3) Other Statutory Requirements Might Be Applicable

Note that Proposition 218 does not rescind specific statutory requirements for special tax elections, for example, provisions for elections in community facilities (Mello-Roos Community Facilities Act of 1982 (Mello-Roos) districts. See generally Govt C §§53311-53368.3. Thus, compliance with statutory requirements is necessary, as well.

© The Regents of the University of California

f. Procedure for Adopting Special Taxes

§5.118 (1) Action by Legislative Body Required

Under Govt C §50077, a city may place a special tax on the ballot by ordinance or resolution, adopted after notice and a public hearing. Proposition 62 requires that the ordinance or resolution proposing the tax include the type of tax, its rate, the method of collection, the date on which the election on the tax will be held, and the purpose for which the special tax will be used. Govt C §53724(a). A proposed tax may state "a range of rates or amounts." If a range of rates is approved, the governing body may impose up to the maximum amount approved without additional voter approval. Govt C §53739. A proposed tax may also provide for inflationary adjustments to the rate or amount, unless the tax is to be determined by using a percentage calculation. Govt C §53739.

© The Regents of the University of California

§5.119 (2) Voter Approval Required

Special taxes are adopted on approval of two-thirds of the voters. Cal Const art XIIIA, §4; Cal Const art XIIIC, §2(d). See also Govt C §53722; *Santa Clara County Local Transp. Auth. v Guardino* (1995) 11 C4th 220, 45 CR2d 207 (finding the voter-approval provisions of Proposition 62 to be valid as applied to the county). Proposition 218 does not restrict when an election may be called on a special tax, as it does for general taxes. An election may be conducted wholly by mail if it does not fall on the date of a statewide election and it is authorized by the governing body of the local agency. Elec C §4000.

© The Regents of the University of California

§5.120 (3) Initiative Adoption and Repeal of Taxes

Before the adoption of Proposition 218 in 1996, the provisions of Cal Const art II, §§8-9 prevented the use of an initiative or referendum to repeal a tax. Article XIIIC, §3, of the California Constitution now provides that "[t]he power of initiative to affect local, taxes, assessments, fees and charges shall be applicable to all local governments." The measure also establishes a very low signature requirement for fiscal initiatives to propose or repeal fiscal legislation such as taxes or fee—5 percent of the number of voters of the jurisdiction who cast votes in the most recent gubernatorial election. Cal Const art II, §8(b); Cal Const art XIIIC, §3. Although this small number of signatures is sufficient to place a fiscal initiative on the ballot, it is not sufficient to authorize a special election that, for a general law city, is authorized by Elec C §9214 only if 15 percent of all registered voters of the jurisdiction petition for such an election. See 85 Ops Cal Atty Gen 151 (2002).

In *Bighorn-Desert View Water Agency v Verjil* (2006) 39 C4th 205, 46 CR3d 73, the California Supreme Court resolved some of the questions raised by Cal Const art XIIIC, §3, but left others to be decided by future cases. For example, the court made clear that all property-related fees—including water, sewer, and government trash service charges—may be reduced or repealed by initiative. 39 C4th at 216. On the other hand, the court reserved for another day whether the fees and charges that are subject to initiative repeal or reduction by Cal Const art XIIIC, §3 are limited to property-related fees governed by Cal Const art XIIID or whether other fees can be reduced by voters, as well. Similarly, the court stated that it was not deciding whether voters acting by initiative must comply with statutes requiring rate-setting bodies to set water rates high enough to cover the cost to provide an adequate and safe water supply. 39 C4th at 221. Nor does the *Bighorn-Desert View Water Agency* decision address rate covenants in revenue bonds. These promises are binding contracts protected by the impairment of contracts clause of the federal Constitution and a rate-reduction initiative that violated such a covenant would likely be invalid. Such covenants typically obligate utilities to set rates at levels sufficient to pay interest and principal on the bonds and to maintain (but not operate) the utility infrastructure that is part of the security for the bond. Finally, although the court ruled that an initiative under Proposition 218 cannot make new rules for the adoption of revenue measures and therefore invalidated a provision that required two-thirds voter-approval for future rate increases, the court also noted that a rate reduction initiative, once adopted by voters, can be amended by the local agency's legislative body only to the extent the initiative measure expressly allows it to do so. 39 C4th at 220. Thus, a rate-reduction initiative will often become a rate cap as well.

© The Regents of the University of California

D. Benefit Assessments and Assessment Districts

§5.121 1. Nature and Purpose of a Benefit Assessment

Benefit assessments (also called "special assessments") are levied to pay for identified public improvements or services that specially benefit the properties or businesses subject to the assessment. Fees and taxes may be used to finance the same things as may be financed by benefit assessments. The key distinctions among these several types of financial measures are how they must be justified legally, the process by which they are approved, and who pays for them. Districts are discussed in §§5.131-5.136 and §§5.144-5.157.

Dozens of statutes authorize assessments for various purposes. The most commonly used of these laws are described in §§5.126-5.136. When a general law city levies an assessment, it typically selects an assessment law under which it will proceed, and it then follows the procedures and limitations set by that law. Charter cities may follow this same route, but they often enact local ordinances and proceed under the local ordinance rather than a generally available assessment law. Local assessment laws are typically drafted to incorporate one or more of the statewide laws, but may include revisions to the incorporated law either streamlining procedures or permitting the financing of improvements or services not authorized under the state law. See *J.W. Jones Co. v City of San Diego* (1984) 157 CA3d 745, 203 CR 580. Generally, such charter city assessment ordinances must comply with Cal Const art XVI, §19.

© The Regents of the University of California

§5.122 2. Annual Versus Installment (Bonded) Assessments

Some assessment laws, particularly laws designed to fund services, authorize annual assessments. A city typically must levy such assessments each year, conducting new proceedings for each year in which the assessment is imposed. Typically, the procedures for levying an assessment after the first year are less extensive than in the initial year. Other assessment laws, particularly those that finance construction of infrastructure, are designed so that the entire cost of the project is assessed in a single year. Although technically, the entire amount of such assessments is levied in the first year (and becomes a lien against property in the first year), the assessment laws typically permit such assessments to be collected in annual installments over time. These installments are sometimes collected by a jurisdiction over several years until the funds needed for a project are in hand, but more typically the installments represent interest and principal payments due on bonds issued to finance the assessment. The ability to bond an assessment is one of the main advantages of assessment financing, because it permits property owners to obtain a needed public facility, but to pay for that facility over time while accruing interest only at the relatively low rate applicable to government-debt.

© The Regents of the University of California

§5.123 3. Assessment's Geographic Scope

A jurisdiction typically levies an assessment in a defined area known as an "assessment district." An assessment district can include only a small portion of the levying jurisdiction, but its boundaries may also be city-wide. The assessment laws generally require that each assessment district include all properties (or businesses) that will benefit from the improvements or services to be funded by the assessment. Although assessment districts are called "districts," they are not legal entities with an existence separate from the entity that creates them. Accordingly, creation of an assessment district is not subject to the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (Cortese-Knox-Hertzberg Act) (Govt C §§56000-57550), although creation of a county service area, a similar funding device, is subject to the Cortese-Knox-Hertzberg Act. See, *e.g.,* Govt C §56663. For most bonded assessments and some annual assessments, boundaries of the assessment district are recorded on a boundary map under Str & H C §§3110-3117.5. Boundaries of other districts are shown on maps filed in the office of the city clerk.

© The Regents of the University of California

§5.124 4. Property-Based Versus Business-Based Assessments

Virtually all assessments are levied against real property. Such assessments are generally collected on the property tax roll, secured by a lien against the assessed property, and subject to the requirements of Cal Const art XIIID (Proposition 218). Assessments levied in connection with some business improvement districts, however, are levied on businesses, not real property. Such business-based assessments are usually collected along with business license taxes and are not secured by a lien against real property. *Evans v City of San Jose* (1992) 3 CA4th 728, 4 CR2d 601. Assessments against businesses without respect to property ownership are not subject to the requirements of Proposition 218. *Howard Jarvis Taxpayers Ass'n v City of San Diego* (1999) 72 CA4th 230, 84 CR2d 804.

© The Regents of the University of California

§5.125 5. Assessments: Distinction From Fees and Taxes

The key distinction between an assessment and other revenue measures, such as fees and taxes, is that an assessment is levied as a charge for the *special benefit* that a property (or business) will derive from the improvement or service provided by the assessment. The classification of a charge as an assessment, rather than a tax or a fee, is important because Propositions 13 and 218 provide for drastically different substantive procedural and voter-approval requirements for assessments than for taxes and fees. The legal distinctions between assessments, taxes, and fees are discussed in §§5.144-5.157, 5.174-5.186 (discussing Proposition 218).

© The Regents of the University of California

§5.126 6. Assessment Laws

When a jurisdiction levies an assessment, it chooses the assessment statute (or charter city ordinance) to apply. See §5.121. These assessment laws govern the procedures for establishing each kind of assessment and govern how assessment proceeds may be spent. In addition to the chosen assessment law, certain state laws and constitutional provisions apply to assessments generally. There are literally dozens of assessment statutes authorizing particular agencies to impose assessments for particular purposes. Only statutes of wide application by cities are discussed in §§5.127-5.136.

© The Regents of the University of California

§5.127 a. Application of Str & H C §§3110-3117.5

Streets and Highways Code §§3110-3117.5 provide technical requirements for boundary maps and recorded assessment notices. Although applicable by its own terms to all assessments, most assessment laws authorizing annual assessments (as opposed to installment or bonded assessments) provide that the provisions of Str & H C §§3110-3117.5 do not apply to assessments imposed under those statutes. See*, e.g.,* Str & H C §22507. On installment and bonded assessments generally, see §§5.122, 5.140-5.142.

© The Regents of the University of California

§5.128 b. Application of Proposition 218

Article XIIID of the California Constitution includes substantive and procedural requirements for all assessments on real property. These requirements are interpreted by the Proposition 218 Omnibus Implementation Act (Govt C §§53750-53756). When Proposition 218 applies, its notice, protest, and hearing provisions supersede any statutory notice, protest, and hearing provisions for new and increased assessments, other than Str & H C §§3110-3117.5. Govt C §53753(a). The legislature has repealed most pre-Proposition 218 notice, protest, and hearing provisions, so this point is increasingly of historical interest only.

© The Regents of the University of California

§5.129 c. Special Assessment Investigation, Limitation and Majority Protest Act of 1931 (1931 Act)

Streets and Highways Code §§2800-3012 (Special Assessment Investigation, Limitation and Majority Protest Act of 1931) (1931 Act) include a number of provisions nominally applicable to all assessments. Many assessment laws, including all of the common annual assessment laws, include exemptions from these requirements, however.

© The Regents of the University of California

§5.130 d. Ralph M. Brown Act

Government Code §54954.6, a portion of the Ralph M. Brown Act, includes procedures for the adoption of assessments. However, under Govt C §54954.6(h), these requirements do not apply if the requirements of Proposition 218 apply. As Proposition 218 applies to all assessments on real property, the Brown Act provision has practical consequence only for assessments that are not on real property, such as certain business improvement district assessments.

© The Regents of the University of California

e. Specific Assessment Laws

§5.131 (1) Improvement Act of 1911 (1911 Act)

The Improvement Act of 1911 (1911 Act) (Str & H C §§5000-6794) provides for the construction of certain public improvements together with limited acquisition of necessary property, the levy of assessments and the issuance of bonds. The 1911 Act as a procedure act has fallen into disuse because the bonds for refinancing the cost of improvements are issued only after completion of the project, thereby requiring the contractor to finance the work. Bonds authorized by the 1911 Act, however, are sometimes issued under the procedures of the Municipal Improvement Act of 1913 (1913 Act) (Str & H C §§10000-10706). See §5.132.

© The Regents of the University of California

§5.132 (2) Municipal Improvement Act of 1913 (1913 Act)

The Municipal Improvement Act of 1913 (1913 Act) (Str & H C §§10000-10706) provides for the acquisition or construction of certain public improvements, the acquisition of necessary property for the improvements, and the levy of assessments for the costs. It is the primary "procedural" assessment act used today. It has no bond procedures and bonds must be issued under either the Improvement Act of 1911 (1911 Act) (Str & H C §§5000-6794) or the Improvement Bond Act of 1915 (1915 Act) (Str & H C §§8500-8887). See Str & H C §§10600-10706. On the 1911 Act, see §5.131; on the 1915 Act, see §5.133.

© The Regents of the University of California

§5.133 (3) Improvement Bond Act of 1915 (1915 Act)

The Improvement Bond Act of 1915 (1915 Act) (Str & H C §§8500-8887) authorizes the issuance of assessment bonds, but does not authorize the imposition of assessments themselves. Bonds may be issued under the 1915 Act secured by assessments levied under certain procedural acts such as the Municipal Improvement Act of 1913 (1913 Act) (Str & H C §§10000-10706) and the Landscaping and Lighting Act of 1972 (1972 Act) (Str & H C §§22500-22679). Bonds issued under the 1915 Act are the most commonly issued assessment bonds. See Str & H C §§8500-8887. On the 1913 Act, see §5.132; on the 1972 Act, see §5.134.

© The Regents of the University of California

§5.134 (4) Landscaping and Lighting Act of 1972 (1972 Act)

The Landscaping and Lighting Act of 1972 (1972 Act) (Str & H C §§22500-22679) authorizes assessments to install, construct, and maintain landscaping, lighting, and park and recreational facilities, including graffiti removal. It has no bond procedures, although bonds may be issued under the Improvement Bond Act of 1915 (1915 Act) (Str & H C §§8500-8887). See Str & H C §§22500-22679. On the 1915 Act, see §5.133.

© The Regents of the University of California

§5.135 (5) Benefit Assessment Act of 1982 (1982 Act)

The Benefit Assessment Act of 1982 (1982 Act) (Govt C §§54703-54720) authorizes assessments to operate and maintain drainage, flood control, street lighting and street maintenance services and to install and improve drainage and flood control facilities. It has no bond procedures.

© The Regents of the University of California

§5.136 (6) Business Improvement Districts

The Parking and Business Improvement Area Law of 1989 (1989 Law or Business-Based BID Law) (Str & H C §§36500-36551) authorizes assessments against businesses (often collected with business license taxes) to finance improvements and activities to improve specific business areas and to promote tourism in those areas. Similar improvements and activities may be financed through assessments against real property and businesses, or both, under the Property and Business Improvement District Law of 1994 (1994 Law or PBID Law). Str & H C §§36600-36671. Because 1989 Law assessments are not on real property, they are not subject to Proposition 218. *Evans v City of San Jose* (1992) 3 CA4th 728, 4 CR2d 601; *Howard Jarvis Taxpayers Ass'n v City of San Diego* (1999) 72 CA4th 230, 84 CR2d 804.

© The Regents of the University of California

§5.137 7. Formation of Assessment Districts

The procedure for establishing an assessment district is governed by the assessment statute or ordinance under which the district is formed, and under other generally applicable law, including Proposition 218 (Cal Const art XIIIC and art XIIID). However, the process typically involves the steps discussed in §§5.138-5.143. Proceedings may be initiated by petition signed by the persons proposed to be assessed or by resolution of the legislative body.

© The Regents of the University of California

§5.138 a. Preparation of Engineer's Report

An assessment engineer must prepare a report for presentation to the legislative body containing the information required by the applicable assessment law, usually:

- A description of the improvements or services to be financed;
- An estimate of the cost of the improvements or services (and incidental expenses such as costs for financing, assessment engineering, collection, and notice and protest requirements);
- An assessment diagram depicting the boundaries of the assessment district and the parcels in it;
- A description of the method of apportioning the assessments against properties in the assessment district; and
- An assessment roll listing the parcels to be assessed and the proposed assessment against each.

The engineer's report must also include information required by Proposition 218 (Cal Const arts XIIIC-XIIID). Under Proposition 218, all assessments must be supported by a "detailed engineer's report" prepared by a registered professional engineer. Cal Const art XIIID, §4(b). No court case has defined what "detailed" means; however, such reports typically include information explaining how each requirement of Proposition 218 has been satisfied by the proposed assessment.

© The Regents of the University of California

§5.139 b. Resolution of Intention and Recordation of Boundary Maps

Before sending notice of a proposed assessment and conducting a public hearing on the assessment, the legislative body approves one or more required resolutions that declare it's intention to levy the assessment, order the preparation of an engineer's report, preliminarily approve an engineer's report, schedule a public hearing, and take other actions required by the applicable assessment statute or charter city ordinance.

When required (usually for installment and bonded assessments), the jurisdiction records the boundary map of the proposed district.

© The Regents of the University of California

§5.140 c. Notice, Protest, and Hearing; Levy of Assessment

Notice, protest, and hearing requirements for new, extended, or increased assessments are governed by Proposition 218 (Cal Const art XIIIC-XIIID) (other than assessments not on real property, which are exempt from Proposition 218 and therefore governed by Govt C §54954.6). See §5.10. These involve mailed protest ballots to all assessed property owners, a 45-day protest period, and a public hearing at which protests are counted and the presence or absence of a majority protest is determined. Cal Const art XIIID, §4(c)-(e); Govt C §53753.

After complying with the notice, protest, and hearing requirements, and if a majority protest is not received from the property owners, the legislative body may adopt a resolution to establish the assessment district and levy the assessment.

© The Regents of the University of California

§5.141 d. Recordation and Cash Collection

When applicable (usually for bonded assessments), the jurisdiction records the assessment roll with the county recorder. Upon recordation, the assessment becomes a lien against the assessed properties.

For bonded assessments, notice is given to the property owners that they have 30 days to pay their assessments in cash if they choose. If the assessments are not paid within this time, the city may issue bonds secured by all assessments that remain unpaid and the assessment will be collected over time via the property tax roll.

© The Regents of the University of California

§5.142 e. Issuance of Improvement Bonds and Data Transmittal

For bonded assessments, the city issues bonds secured by the unpaid assessments. Annual assessment installments are collected on the property tax roll and used to pay debt service on the bonds.

If an assessment (or assessment installment) is to be collected on the tax roll for a year, the jurisdiction must transmit the amount of charge on the tax roll to the County Assessor by a fixed date in August (generally August 10 but the date varies from county to county, so it is important to check for local deadlines).

© The Regents of the University of California

§5.143 f. Subsequent Proceedings

For an annual assessment, proceedings must be held by the legislative body each year. Such proceedings generally require the adoption of intention resolutions, the preparation of an engineer's report, the holding of a noticed public hearing, and the adoption of a resolution levying the assessment. However, unless the assessment will be increased from a prior year or extended beyond a sunset date, the procedures of Proposition 218 (Cal Const arts XIIIC-XIIID) (including the mailed protest ballot) are not required. Furthermore, most of the assessment laws provide for somewhat abbreviated proceedings after the first year. For an installment or bonded assessment, detailed proceedings are not required after the first year. This is because the installments are not technically new assessments against the property, but installments against a one-time assessment that has already been levied.

On one-time, installment, or bonded assessments, see generally §§5.122, 5.140-5.142.

© The Regents of the University of California

§5.144 8. Proposition 218

Proposition 218 (Cal Const arts XIIIC-XIIID) affects most special assessments in five primary ways:

(1) It subjects assessments to repeal or reduction by initiative unless they have been bonded, triggering the protection against impairment of contracts in the federal constitution (see Govt C §5854);

(2) It establishes procedural requirements for the levy of assessments, including the requirement for majority property owner approval by mail ballot;

(3) It requires a local agency to separate the general benefits from the special benefits conferred on a parcel, and to only assess for the special benefit under a narrowed definition of "special benefit";

(4) It forbids the use of assessments on private property to fund the portion of the special benefit of a project or program that accrues to public property and can be argued to limit the general rule of intergovernmental tax immunity to allow assessment of government property; and

(5) It shifts the burden of proof to the government agency in legal actions to contest the validity of an assessment.

© The Regents of the University of California

§5.145 a. Special Benefit

Proposition 218 provides that only "special benefits" are assessable. Under prior law, only properties receiving special benefit were assessable, but the fact that some incidental general benefit also resulted from a capital improvement or maintenance did not invalidate an assessment apportioning some or all of the general benefit to specially benefited properties in the assessment district. Under Proposition 218, the costs associated with general benefit must be paid from other resources of the local agency. See Cal Const art XIIID, §4(a). Proposition 218 also shifts the burden of proof to the local government to show that assessments are justified by special benefit and imposed proportionately to that special benefit. Cal Const art XIIID, §4(f). Proposition 218 made several changes to the definition of "special benefit." Taking this change into account, pre-Proposition 218 authorities regarding special benefits may not be helpful in determining the presence or absence of special benefit. *Silicon Valley Taxpayers' Ass'n, Inc. v Santa Clara County Open Space Auth.* (2008) 44 C4th 431, 451, 79 CR3d 312. A notable and unusual case finding that a road improvement had no general benefit is *City of Saratoga v Hinz* (2004) 115 CA4th 1202, 9 CR3d 791 (eminent domain case involving a taking funded by assessment to facilitate making a previously private street part of public street system). For a post-*Silicon Valley* treatment of the special benefit requirement, see *Dahms v Downtown Pomona Prop. & Bus. Improvement Dist.* (2009) 174 CA4th 708, 96 CR3d 10.

PRACTICE TIP: The League of California Cities has published the Proposition 218 Implementation Guide (2007), which provides extensive commentary on the measure and case law interpreting it through 2007. Copies of the guide are available through the League's publication unit at 1400 K Street, 4th Floor, Sacramento, CA 95814, telephone (916) 658-8257, fax (916) 658-8220, or on its website at www.cacities.org.

© The Regents of the University of California

§5.146 b. Procedural Requirements

Proposition 218 establishes detailed requirements for the imposition by a local agency of a "new or increased" special assessment. See Cal Const art XIIID, §4(c)-(e); Govt C §53753. Government Code §53750(h) defines those changes in an assessment that do (and do not) constitute an "increase" sufficient to trigger a new majority protest proceeding under Proposition 218. Important exemptions from these requirements for certain pre-1997 assessments are granted by Cal Const art XIIID, §5, discussed further in §§5.153-5.156.

PRACTICE TIP: Any new or increased assessment that is subject to the notice and hearing provisions of Cal Const art XIIIC or XIIID is exempt from the notice and hearing requirements of the Ralph M. Brown Act, Govt C §54954.6. Govt C §54954.6(h).

© The Regents of the University of California

§5.147 (1) Public Hearing and Notice Requirements

Proposition 218 requires the following for the imposition of a new or increased assessment:

- **Forty-five days' mailed notice to the record owner of each parcel.** This requirement is set forth in detail in Govt C §53753.
- **Compliance with notice, protests, and hearing requirements.** The notice, protest, and hearing requirements of Govt C §53753 supersede any statutory provisions affecting new or increased assessments that were in existence on July 1, 1997. Thus, an agency need only comply with these requirements and not those contained in the specific statutory provisions under which an agency is levying the assessment. Most of the more commonly used assessment statutes have been amended to be consistent with Proposition 218, but to the extent inconsistencies remain, Proposition 218 (Cal Const arts XIIIC-XIIID) and its implementing legislation control. Notwithstanding Govt C §53753, however, an agency must still comply with Str & H C §§3100-3124 when appropriate. Govt C §§53753, 54954.6(h).
- **Detailed notice.** The notice must cover (Govt C §53753(b)):
- Total assessment for the entire assessment district,
- Assessment amount on each owner's parcels,
- Duration of proposed assessment,
- Reason for assessment,
- Basis on which amount of proposed assessment was calculated,
- Date, time, and place of public hearing,
- Summary of voting procedures, and
- Effect of a majority protest.
- **Notice of assessment amount.** A proposed assessment may state "a range of rates or amounts." If a range of rates is approved, the governing body may impose up to the maximum amount approved without a new majority protest proceeding. Govt C §53739. A proposed assessment may also provide for inflationary adjustments to the rate or amount, unless the assessment is itself determined by using a percentage calculation. Govt C §53739.
- **Conduct of public hearing.** The agency must conduct a public hearing to consider all objections or protests to the proposed assessment. At the public hearing, any person shall be permitted to present written or oral testimony. Govt C §53753(d).

© The Regents of the University of California

§5.148 (2) Protest by Ballot Allowed

A majority protest "ballot" must accompany the mailed notice of hearing. Sealed ballots must be returned before conclusion of the public hearing and tabulated after the conclusion of the public hearing. See Govt C §53753(e) (requiring ballots to remain secret until the close of public hearing and to be made public after they are tallied).

No assessment may be imposed if a "majority protest" exists. The legislative body may no longer override a majority protest as some assessment statutes had previously permitted. A majority protest exists for purposes of Proposition 218 if ballots submitted in opposition exceed ballots submitted in favor of assessment. The protest is weighted according to proportional financial obligations of the affected property (*i.e.,* the amount of the assessment). See Cal Const art XIIID; Govt C §53753(c), (e).

These procedures have been upheld against a constitutional challenge alleging that they violate due process and equal protection by conferring greater voting power on property owners who are to pay larger assessments. *Not About Water Comm. v Solano County* (2002) 95 CA4th 982, 116 CR2d 526, disapproved on other grounds in *Silicon Valley Taxpayers' Ass'n, Inc. v Santa Clara County Open Space Auth.* (2008) 44 C4th 431, 450 n6, 79 CR3d 312.

© The Regents of the University of California

§5.149 (3) Assessment Ballot Proceedings May Be Conducted by Mail

Assessment ballot proceedings may be conducted wholly by mail when authorized by the governing body of the local agency, and when the election is held on an established mailed-ballot election date. Elec C §4000. In such case, the proceeding must be denominated an "Assessment Ballot Proceeding" rather than an election, and the ballots denominated "Assessment Ballots." Elec C §4000. The assessment ballot procedures do not constitute elections for purposes of the Elections Code. Govt C §53753(e)(4).

PRACTICE TIP: Because the procedures for handling assessment protest ballots are not stated by Proposition 218 or its implementing legislation (Cal Const arts XIIIC-XIIID) in great detail, it is highly advisable to adopt a resolution, sometimes referred to as a "rules of the road" resolution. This resolution should explain how the agency will handle: ballots cast other than on the official ballots mailed to property owners; lost, spoiled, or duplicate ballots; persons who wish to divide their ballots among multiple owners of a property; treatment of tenants who are obligated by leases to pay the assessment; and other procedural matters of note. Circulate this resolution with ballots. A well-drawn resolution can prevent litigation on these peripheral procedural issues.

© The Regents of the University of California

§5.150 c. Assessment of Public Property

Proposition 218 states that public property "shall not be exempt from assessment unless the [levying] agency can demonstrate by clear and convincing evidence that those publicly owned parcels in fact received no special benefit." See Cal Const art XIIID, §4(a). Notwithstanding this stricture, property of the federal government is immune from assessment under the United States Constitution's Supremacy Clause. See *Novato Fire Protection Dist. v U.S.* (9th Cir 1999) 181 F3d 1135. Section 1310.5 of the State Administrative Manual (available online at http://sam.dgs.ca.gov/default.htm) informs state agencies of their obligations for assessments imposed on state property under Proposition 218. There are two competing interpretations of art XIII D, §4(a)'s requirement that public property be assessed:

(1) One interpretation is that it is an exception to the usual rule of inter-governmental tax immunity; and

(2) The other interpretation suggests that it merely prohibits an assessing agency from requiring private property owners to fund the portion of the cost of a program or project that specially benefits public property and requires the assessing agency to use other revenues for that purpose.

This issue has yet to be determined by a published appellate decision.

© The Regents of the University of California

§5.151 d. Burden of Proof on Local Agency

Proposition 218 eliminates the presumption in favor of the local agency's determinations. *Dawson v Town of Los Altos Hills* (1976) 16 C3d 676, 129 CR 97. Based on the record created before the legislative body, local agencies now will be required to show that (see Cal Const art XIIID, §4(f)):

- A valid method was used to identify the special benefit to be received from an improvement;
- All parcels that received a special benefit had been identified and included in the district;
- The cost of the improvement has been reasonably apportioned among the benefited parcels according to special benefits; and
- The costs attributable to general benefits to the public at large are not paid from special assessments.

These determinations are subject to the independent judgment standard of judicial review. *Silicon Valley Taxpayers' Ass'n, Inc. v Santa Clara County Open Space Auth.* (2008) 44 C4th 431, 79 CR3d 312.

© The Regents of the University of California

§5.152 e. Statute of Limitations

Any action challenging the validity of an assessment against real property for public improvements, the proceedings for which are prescribed by the legislative body of a charter city, must be filed within 30 days of the initial levying of the assessment. CCP §329.5. See *Barratt Am., Inc. v City of San Diego* (2004) 117 CA4th 809, 12 CR3d 132 (holding that Proposition 218 did not repeal CCP §329.5). When bonds have issued, the statute of limitations is commonly the 60 days specified in the validation statutes. CCP §860. But see *Bonander v Town of Tiburon* (2009) 46 C4th 646, 94 CR3d 403 (30-day rule applies to 1913 Act assessments).

© The Regents of the University of California

f. Exemptions From Procedural Requirement for Assessments

§5.153 (1) Assessments Existing on November 6, 1996

Assessments "existing" on November 6, 1996, the effective date of Proposition 218, that fall within one of the following four exceptions identified in Cal Const art XIIID, §5 are exempt from the procedures and approval processes in Cal Const art XIIID, §4:

(1) Any assessment imposed exclusively to finance the capital cost or maintenance and operation expenses for sidewalks, streets, sewers, water, flood control, drainage systems, or vector control. Cal Const art XIIID, §5(a). This exemption includes assessments for street lights under the Landscaping and Lighting Act of 1972 (Str & H C §§22500-22679). *Howard Jarvis Taxpayers Ass'n v City of Riverside* (1999) 73 CA4th 679, 86 CR2d 592.

(2) Any assessment imposed under a petition signed by the persons owning all of the parcels subject to the assessment at the time the assessment is initially imposed. Cal Const art XIIID, §5(b).

(3) Any assessment the proceeds of which are exclusively used to pay bonded indebtedness of which the failure to pay would violate the contract impairment clause of the United States Constitution. Cal Const art XIIID, §5(c).

(4) Any assessment that previously received a majority vote approval from the voters voting in an election on the issue of the assessment. Cal Const art XIIID, §5(d).

© The Regents of the University of California

§5.154 (2) Reassessment Under Streets and Highways Code

Any reassessment that is approved and confirmed under Str & H C §9525 (regarding refunding assessment bonds) is not an assessment within the meaning of Cal Const art XIIID. Str & H C §9525.

© The Regents of the University of California

§5.155 (3) Non-Property-Based Assessments

The provisions of Proposition 218 do not apply to assessments that are imposed on businesses rather than parcels of property (*e.g.,* assessments levied under the Parking and Business Improvement Area Law of 1989 (1989 Law) or a similar charter city ordinance). *Howard Jarvis Taxpayers Ass'n v City of San Diego* (1999) 72 CA4th 230, 84 CR2d 804. On the 1989 Law, see §5.136.

© The Regents of the University of California

§5.156 (4) All Other Assessments Not Exempted

All other existing, new, or increased assessments must comply with the provisions of Proposition 218 as of July 1, 1997. See Cal Const art XIIID, §5.

PRACTICE TIP: If an agency has once complied with the notice, protest, and hearing requirements of Govt C §53753, or the assessment was exempt from such requirements, there is no need to comply with those requirements in subsequent fiscal years unless the assessment methodology is changed, or the amount of the proposed assessment exceeds the assessment formula range stated when the assessment was approved by property owners in a Proposition 218 majority protest proceeding or as it existed in November 1996 when Proposition 218 was adopted. Govt C §53753.5. Notwithstanding this rule, assessments exempt from Proposition 218's approval procedures under Govt C §53753.5(b)(1), (b)(2), or (b)(4) are subject to the procedures and approval process provided in Cal Const art XIIID, §4 if and when they are increased. Govt C §53753.5. Agencies should leave a "grandfathered" assessment in place and propose a new assessment in addition to that pre-existing assessment when an increase is required in order to make clear that rejection of the increase does not endanger the existing assessment. Alternatively, this same result can be accomplished by careful wording of the assessment increase proposal.

© The Regents of the University of California

§5.157 g. Use of Initiatives to Reduce or Repeal Assessments

Proposition 218 provides that the initiative power may be used to reduce or repeal any local tax, assessment, fee, or charge. See Cal Const art XIIIC, §3. For discussion of open issues involving Proposition 218 initiatives, see §5.120.

© The Regents of the University of California

§5.158 E. Charges, Rates, and Fees

Charges, rates, and fees may be imposed by agencies. These terms are defined in a number of ways under California statutory provisions. Often the terms are synonymous. See*, e.g.,* Govt C §54314 (Revenue Bond Law of 1941), §66000(b) (AB 1600); Pub Util C §210; Wat C §§20541, 34034; Pub Res C §13015; Health & S C §4955.

© The Regents of the University of California

§5.159 1. Authority to Impose Fees, Charges, and Rates

A city has the authority to impose fees, charges, and rates under its police power. As long as the local enactments are not in conflict with general laws, the power to impose valid regulatory fees is not dependent on any legislatively authorized taxing power, but exists under the direct grant of police power under Cal Const art XI, §7. *County of Plumas v Wheeler* (1906) 149 C 758, 87 P 909. It is this grant of authority that allows cities to impose regulatory fees. See also *Associated Home Builders of the Greater East Bay, Inc. v City of Walnut Creek* (1971) 4 C3d 633, 94 CR 630.

Authority to impose fees, charges, and rates also is given by statute. "In addition to other powers, a legislative body may perform all acts necessary or proper to carry out the provisions of this title." Govt C §37112 (Title 4 of Government Code, specifying general powers of general law cities).

© The Regents of the University of California

2. Amount of Fee

§5.160 a. Must Bear Relationship to Costs

A fee may not exceed the estimated reasonable cost of providing the service or facility for which the fee is charged. A fee that does exceed such cost may be considered a special tax. *City of Dublin v County of Alameda* (1993) 14 CA4th 264, 281, 17 CR2d 845; *Carlsbad Mun. Water Dist. v QLC Corp.* (1992) 2 CA4th 479, 485, 3 CR2d 318. See Govt C §50076 (excluding cost-justified fees from definition of "special tax"). In addition, fees, charges, and rates must be reasonable, fair, and equitable in nature and proportionately representative of the costs incurred by the regulatory agency. *Associated Homebuilders of the Greater East Bay, Inc. v City of Livermore* (1961) 56 C2d 847, 17 CR 5; *United Bus. Comm'n v City of San Diego* (1979) 91 CA3d 156, 165, 154 CR 263.

© The Regents of the University of California

§5.161 b. Indirect Costs May Be Included

In fixing a fee, it is proper and reasonable to take into account not only the expense of direct regulation, but also all the incidental consequences that may be likely to subject the public to cost. *United Bus. Comm'n v City of San Diego* (1979) 91 CA3d 156, 165, 154 CR 263, quoting *County of Plumas v Wheeler* (1906) 149 C 758, 87 P 909.

© The Regents of the University of California

§5.162 c. General Fund Transfers

Calculations supporting any transfers to the general fund from a utility fund subject to Proposition 218 (such as fees for water, sewer, and government-provided trash services) must demonstrate the utility fees or charges do not exceed the reasonable costs of providing that service, and describe the extent of any benefit the utility enterprise is receiving from general fund operations or assets. Govt C §50076. See also *Howard Jarvis Taxpayers Ass'n v City of Roseville* (2002) 97 CA4th 637, 119 CR2d 91 (concluding that property-related in-lieu fees are subject to Proposition 218); League of California Cities, Proposition 218 Implementation Guide (2007), available on the League's website at www.cacities.org. For non-Proposition 218 fees, this showing is not required. *Hansen v City of San Buenaventura* (1986) 42 C3d 1172, 233 CR 22 (city entitled to rate of return on water services to non-city residents). See also *Howard Jarvis Taxpayers Ass'n v City of Roseville* (2002) 97 CA4th 637, 649, 119 CR2d 91 ("*Hansen*'s observations, however, were made 10 years before Proposition 218 added article XIII D to the state Constitution").

© The Regents of the University of California

§5.163 3. Development Fee Requirements

"Development fees" are defined by Govt C §66010 (a provision of the Mitigation Fee Act, commonly referred to as "AB 1600") to include fees imposed in connection with approval of a development project for the purpose of defraying all or a portion of the cost of public facilities related to the development project. Development fees do not include fees for processing applications for governmental regulatory actions or approvals. If the agency imposing the fee does not "approve" the project subject to the fee, or if the fee is not imposed in connection with the "approval" of a project, the fee is not a development fee as defined in Govt C §66010. *Capistrano Beach Water Dist. v Taj Dev. Corp.* (1999) 72 CA4th 524, 85 CR2d 382 (water capacity and connection fees). Development impact fees are exempt from Proposition 218, as are connection fees. Cal Const art XIIID, §1(b); *Richmond v Shasta Community Servs. Dist.* (2004) 32 C4th 409, 9 CR3d 121.

© The Regents of the University of California

4. Development Processing Fees, Recovery of Costs of Providing Public Services, and User Fees

a. Development Processing Fees

§5.164 (1) Development Processing Fees Must Bear Relationship to Cost

Fees for building and use permits, zoning variances and changes, building inspections, map applications and planning services, and water or sewer connections may not exceed the reasonable cost of providing the service, unless the fee in excess of that amount is approved by two-thirds of voters. Govt C §§66013-66014.

© The Regents of the University of California

§5.165 (2) Procedural Requirements and Effective Dates

Before approving certain new or increased fees, a city must (Govt C §66016):

- Hold at least one public hearing;
- Publish notice of the hearing twice at least 10 days before the hearing;
- Send notice of the meeting at least 14 days in advance to any interested person who has filed a written request; and
- Make available to the public at least 10 days before the meeting data indicating the amount of estimated cost required to provide the service for which the fee or charge is levied and the revenue sources anticipated to provide the service, including general fund revenues.

See also Govt C §66018 (public hearing requirements applicable to adoption or increase of fees for which no specific statutory notice requirement applies).

Any action adopting or increasing a fee or charge for development projects may not take effect for at least 60 days unless adopted as an urgency measure by four-fifths vote. Govt C §66017.

© The Regents of the University of California

§5.166 b. Water, Sanitation, Solid Waste, and Sewer Fees and Rates

Water, sanitation, and sewer fees under Health & S C §§5470-5474.10 must be established by ordinance and adopted by a two-thirds vote, and may not be established by resolution unless acting under the Revenue Bond Law of 1941 or other authority. Govt C §54344 (Revenue Bond Law of 1941); Health & S C §5471; *Pinewood Investors v City of Oxnard* (1982) 133 CA3d 1030, 184 CR 417; *Kennedy v City of Ukiah* (1977) 69 CA3d 545, 138 CR 207. Setting of charges for solid waste handling services is a local concern. Pub Res C §40059.

PRACTICE TIP: Public entities must comply with Proposition 218's notice and majority protest requirements for charges related to water, sewer, and government-provided trash service. *Bighorn-Desert View Water Agency v Verjil* (2006) 39 C4th 205, 46 CR3d 73. On those requirements, see §§5.146-5.149.

© The Regents of the University of California

§5.167 c. Recovery of Costs of Providing Public Services

Generally, a general law city may not recover in a tort action costs for providing public services and exercising the police power absent authorizing legislation, although such legislation might be a local ordinance. *County of San Luis Obispo v Abalone Alliance* (1986) 178 CA3d 848, 223 CR 846; *City of Flagstaff v Atchinson, Topeka & Santa Fe* (9th Cir 1983) 719 F2d 322, 323. For an example of state authorizing legislation that authorizes a city to collect reasonable costs incurred in responding to an emergency caused by a person who is under the influence of drugs or alcohol, see Govt C §§53150-53159.

© The Regents of the University of California

5. Rates

§5.168 a. Authority

A local agency may operate, maintain, repair, or manage all or any part of a revenue-producing enterprise. It may prescribe, revise, and collect charges for the services, facilities, or water furnished by the enterprise. Govt C §§54342, 54344 (Revenue Bond Law of 1941). Specific kinds of enterprises and activities may be governed by specific statutes. See*, e.g.,* Govt C §§54984-54984.9 (Uniform Standby Charge Procedures Act), which provides procedures for the levy and collection of water and sewer availability charges.

© The Regents of the University of California

§5.169 b. Rate-Setting Procedures

A resolution or ordinance setting or revising rates authorized by the Revenue Bond Law of 1941 (Govt C §§54300-54700), a statute commonly relied on for water and sewer rates, must be adopted in accordance with the procedures of that statute, which requires (Govt C §54354.5):

- Notice of hearing to be given by the city clerk, containing a copy of the proposed resolution or ordinance; and
- Publishing of the notice at least once each week for 2 weeks before a hearing in a newspaper published in the local agency (the first publication must be 15 days before the date of the hearing).

Cities may also rely on their authority under the state constitution to establish rates for the services they provide. Cal Const art XI, §9. See §§6.3-6.4 (water rates) and §6.12 (sewer rates). Thus, the 1941 Act is mandatory only if the rates imposed are used to service debt issued under the 1941 Act; those procedures provide a useful "safe harbor" in other circumstances, as a court may be more reluctant to invalidate procedures long established by the legislature and on which millions of dollars of bonds have been issued than a more recent ordinance.

© The Regents of the University of California

§5.170 c. Preferential Rates for City Residents Allowed

The rates charged to residents may be lower than the rates charged to non-residents if the lower rates reflect support provided to the utility by residents from other sources such as property taxes. *Hansen v City of San Buenaventura* (1986) 42 C3d 1172, 233 CR 22. But see *Howard Jarvis Taxpayers Ass'n v City of Roseville* (2002) 97 CA4th 637, 119 CR2d 91 (*Hansen* is not applicable to property-related fees subject to Proposition 218).

© The Regents of the University of California

§5.171 d. Collection and Nonpayment

In providing for the collection of rates, a city may grant discounts for prompt payment, require deposits or the prepayment of charges, or require guarantees by the owner of the property. Govt C §54347. Cities may provide for penalties for nonpayment or may discontinue any or all service for which the bill is rendered. Govt C §§54346, 54348.

Cities may require charges for sewer services be collected and billed with charges for other utility services; they may also contract with a privately owned public utility for collection of the rates. Govt C §§54345, 54346.1 (Revenue Bond Law of 1941).

© The Regents of the University of California

§5.172 6. Charges

A city may impose a charge for the purpose of raising revenue for access to its personal property, such as its community services recreation guide or city-wide newsletter. Standards for the use of such property should be developed and approved by city council resolution. The standards should be reviewed for First Amendment implications. On the First Amendment, see §§9.118-9.153. Because the city's role in making such services available is not an exercise of its police power or its power as a government per se, but as a market participant engaged in what were historically called "proprietary activities," no legal limits apply to these charges. A city may charge whatever the market will bear. *City of Oakland v Burns* (1956) 46 C2d 401, 407, 296 P2d 333 ("When a governmental entity is authorized to exercise a power purely proprietary, the law leans to the theory that it has full power to perform it in the same efficient manner as a private person would").

© The Regents of the University of California

§5.173 7. Effect of Bankruptcy Automatic Stay on Collection

The filing of a bankruptcy petition by a debtor to the city may inhibit the city's ability to recover costs or other revenues. The filing of a bankruptcy petition operates as an automatic stay of any effort to collect debts before commencement of the bankruptcy action (see 11 USC §362) including in certain circumstances the filing of a notice of tax lien. *Pinkstaff v U.S.* (9th Cir 1992) 974 F2d 113. In some circumstances, debts incurred after the bankruptcy petition is filed (such as utility service fees) may be collected as administrative expenses of the bankruptcy estate. 11 USC §§503, 507. The automatic stay generally does not prohibit a city from commencing or continuing an action or proceeding to enforce the city's police or regulatory power. 11 USC §362(b)(4). But see *Island Club Marina Ltd. v Lee County* (Bankr ND Ill 1984) 38 BR 847 (building permit is asset of debtor and cannot be revoked while debtor is in bankruptcy). Although a city may enforce its police or regulatory powers, it may not be able to recover the costs incurred in an action to do so in light of the automatic stay provisions. 11 USC §362(b)(5). Bankruptcy does not discharge or stay criminal restitution debts owed to cities or affect criminal actions. *Kelly v Robinson* (1986) 479 US 36, 93 L Ed 2d 216, 107 S Ct 353; *People v Goebel* (1987) 195 CA3d 418, 238 CR 242.

© The Regents of the University of California

§5.174 8. New Fees and Charges Under Proposition 218

Proposition 218 creates a new subset of fees and charges known as "property-related fees." A fee or charge subject to Proposition 218 is a "levy other than an ad valorem tax, a special tax, or an assessment, imposed by an agency upon a parcel or upon a person as an incident of property ownership, including a user fee or charge for a property related service." See Cal Const art XIIID, §2(e).

The California Supreme Court initially construed this term narrowly to include only fees that cannot be avoided other than by selling property. In *Apartment Ass'n of Los Angeles County, Inc. v City of Los Angeles* (2001) 24 C4th 830, 102 CR2d 719, the court found a fee on residential landlords to fund Housing Code enforcement not to be property-related because it was imposed on the voluntary act of engaging in the residential rental market and not on property ownership alone. In *Richmond v Shasta Community Servs. Dist.* (2004) 32 C4th 409, 9 CR3d 121, the court found that a water connection fee charged to new development was not a "property-related fee" subject to Proposition 218 because it was triggered by voluntary decisions to develop property. Dicta in that case suggested that ordinary water and sewer service charges do constitute property-related fees. *Richmond,* 32 C4th at 426. In *Bighorn-Desert View Water Agency v Verjil* (2006) 39 C4th 205, 46 CR3d 73, the court elevated the dicta in *Richmond* to a holding and concluded that "a public water agency's charges for ongoing water delivery … are fees and charges within the meaning of [Cal Const] article XIII D." *Bighorn-Desert,* 39 C4th at 216. The court's rationale also suggests that charges for sewer and refuse collection service provided by a local agency may be "property-related fees." Further, in *Pajaro Valley Water Mgmt. Agency v Amrhein* (2007) 150 CA4th 1364, 59 CR3d 484, the court held a groundwater extraction charge used for programs to replenish the groundwater basin was a property-related fee subject to Proposition 218 at least in part because such a charge for water delivered to rural households for domestic use was not meaningfully different, in the court's view, than metered fees to urban domestic water users. A groundwater recharge fee only on non-domestic uses of water might well have passed muster as a regulatory fee not subject to Proposition 218 under the *Apartment Association* holding.

PRACTICE TIP: The League of California Cities has published the Proposition 218 Implementation Guide (2007), which provides extensive commentary on the measure and case law interpreting it through 2007. Copies of the guide are available through the League's publication unit at 1400 K Street, 4th Floor, Sacramento, CA 95814, telephone (916) 658-8257, fax (916) 658-8220, or on its website at www.cacities.org.

© The Regents of the University of California

§5.175 a. Fees and Charges Imposed as an Incident of Property Ownership

The phrase "property related fees and charges" appears in the title of Cal Const art XIIID, §6 and in Cal Const art XIID, §6(c) (relating to voter approval). However, the phrase is not defined anywhere in Proposition 218. Proposition 218 does, however, define the following:

- "Fee" or "charge" means any levy other than an ad valorem tax, a special tax, or an assessment imposed by an agency on a parcel or on a person as an incident of property ownership, including user fees or charges for property-related services. See Cal Const art XIIID, §2(e).
- "Property ownership" includes tenancies of real property when tenants are directly liable to pay the assessment, fee, or charge in question. See Cal Const art XIIID, §2(g).
- "Property-related service" means a public service having a direct relationship to property ownership. See Cal Const art XIIID, §2(h); *Bighorn-Desert View Water Agency v Verjil* (2006) 39 C4th 205, 46 CR3d 73 (sewer and water are property-related services).

Proposition 218 provides the following: "Reliance by an agency on any parcel map, including but not limited to assessor's parcel map may be considered a significant factor in determining whether a fee or charge is imposed as an incident of property ownership for purposes of [Cal Const art XIIID]." Cal Const art XIIID, §6(b)(5). See *Apartment Ass'n of Los Angeles County, Inc. v City of Los Angeles* (2001) 24 C4th 830, 102 CR2d 719 (concluding that city ordinance imposing inspection fee on apartment owners is not subject to Cal Const art XIIID). See also *Howard Jarvis Taxpayers Ass'n v City of Fresno* (2005) 127 CA4th 914, 26 CR3d 153 (charter-authorized general fund transfer from water and sewer funds was prohibited by Proposition 218 and not justified as voter-approved tax); *Howard Jarvis Taxpayers Ass'n v City of Salinas* (2002) 98 CA4th 1351, 121 CR2d 228 (property-tax-roll fee based on amount of impervious coverage on each parcel in the city to fund storm water programs was subject to Proposition 218); *Howard Jarvis Taxpayers Ass'n v City of Roseville* (2002) 97 CA4th 637, 119 CR2d 91 (in-lieu franchise fee imposed on city-operated utilities for the benefit of general fund violated Proposition 218).

PRACTICE TIPS: The following guidelines may be helpful in determining whether a fee or charge is subject to the provisions of Proposition 218.

PRACTICE TIP 1: A fee or charge is subject to Proposition 218 if it must be paid by a person simply as a result of property ownership and for no other reason (for example, requesting service other than water, sewer, or refuse collection services from a public agency may trigger a fee without making that fee property-related).

PRACTICE TIP 2: If a property owner cannot avoid payment of the fee or charge by declining the service for which a fee or charge is paid, but must sell the property to avoid the fee or charge, it is likely subject to Proposition 218.

PRACTICE TIP 3: The fact that a fee or charge is enforced via a lien or charge on the parcel, as distinguished from being a lien on the parcel only in the event of a default in payment, supports an argument that the fee is subject to Proposition 218, but this factor is not dispositive as the supreme court rejected this claim in *Apartment Ass'n of Los Angeles County, Inc. v City of Los Angeles* (2001) 24 C4th 830, 844, 102 CR2d 719.

PRACTICE TIP 4: Water and sewer service charges for ongoing water service via an existing connection, as distinguished from connection and other charges triggered by voluntary development and other decisions of property owners, are property-related fees under *Bighorn-Desert View Water Agency v Verjil* (2006) 39 C4th 205, 46 CR3d 73. See also *Pajaro Valley Water Mgmt. Agency v Amrhein* (2007) 150 CA4th 1364, 59 CR3d 484.

PRACTICE TIP 5: Charges for trash service provided by government agencies (as opposed to such services provided by a franchised private hauler) are likely to be subject to Proposition 218 under the logic of *Bighorn*. If an agency wishes to characterize its trash rates as non-government rates imposed by a franchised hauler and therefore exempt from Proposition 218, it should not set those rates (but may regulate them to prevent the franchisee from exploiting its monopoly status).

§5.176 b. Substantive Restriction on Property-Related Fees and Charges

Article XIIID, §6(b), of the California Constitution provides that a property-related fee may not be "extended, imposed or increased by any agency unless it meets all of the following requirements":

- Revenue derived from the fee or charge must not exceed the funds required to provide the property-related service.
- Revenue from the fee or charge must not be used for any purpose other than that for which the fee or charge was imposed.
- The amount of the fee or charge imposed on any parcel or person as an incident of property ownership must not exceed the proportional cost of the service attributable to the parcel.
- The fee or charge may not be imposed for service unless the service is actually used by or immediately available to the owner of the property in question. Fees or charges based on potential or future use of a service are not permitted. Stand-by charges must be classified as assessments and must not be imposed without compliance with the proportionality requirements and property-owner mailed ballot protest proceedings for assessments.
- No fee or charge may be imposed for general governmental service, such as police, fire, ambulance, or libraries where the service is available to the public in substantially the same manner as to property owners.

The first two requirements, that fees must not exceed the cost of service and that proceeds must be used to provide the service, are discussed in *Howard Jarvis Taxpayers Ass'n v City of Fresno* (2005) 127 CA4th 914, 26 CR3d 153 and *Howard Jarvis Taxpayers Ass'n v City of Roseville* (2002) 97 CA4th 637, 119 CR2d 91. However, very little guidance is available as to the meaning of the "proportional cost" requirement of Cal Const art XIIID, §6(b)(3), although *Silicon Valley Taxpayers' Ass'n, Inc. v Santa Clara County Open Space Auth.* (2008) 44 C4th 431, 79 CR3d 312 discusses the proportionality requirement of art XIIID, §4(a) for assessments. One court interpreted the requirement of art XIIID, §6(b)(4) that a service be "immediately available" to a property owner. A fee for that service was proper and did not need to be approved as an assessment if the means to initiate service was entirely in the property owner's control—in that case, the property owner needed only to pay a delinquent bill to have the provider unlock his meter. *Paland v Brooktrails Township Community Servs. Dist.* (2009) 179 CA4th 1358, 102 CR3d 270. There is no citable authority regarding the scope of art XIIID, §6(b)(5)'s prohibition on the use of property related fees to fund general government services.

Given the language of Cal Const art XIIID, §6(b), it was argued that these provisions do not apply to a pre-Proposition 218 property-related fee until such time as that fee is "extended, imposed, or increased." This construction, however, was rejected by the Court of Appeal in *Howard Jarvis Taxpayers Ass'n v City of Fresno* (2005) 127 CA4th 914, 26 CR3d 153, which relies on Cal Const art XIIID, §6(d)'s provision that "[b]eginning July 1, 1997, all fees or charges shall comply with this section."

© The Regents of the University of California

§5.177 c. Burden of Proof

In any legal action protesting the validity of a fee or charge, the burden is on the agency to demonstrate compliance with Proposition 218. See Cal Const art XIIID, §6(b)(5).

© The Regents of the University of California

d. Procedural Requirements

§5.178 (1) Notice Requirements

A local agency must take the following steps to impose a property-related fee or charge:

- The agency must identify the parcels on which a fee or charge is proposed for imposition. Cal Const art XIIID, §6(a)(1).
- The amount of the fee or charge proposed to be imposed on each parcel must be calculated by the agency in light of cost-justification requirements of Cal Const art XIIID, §6(b). Cal Const art XIIID, §6(a)(1).
- The agency must provide written notice by mail of the proposed fee or charge to the record owner of each identified parcel on which the fee or charge is proposed for imposition. Cal Const art XIIID, §6(a)(1). This notice can be included in another mailing, such as a monthly utility bill. Govt C §§53750(i)-(j), 53755(a).

The notice to record owners of property must contain (Cal Const art XIIID, §6(a)(1)):

- The amount of the proposed fee or charge;
- The basis on which the proposed fee or charge was calculated;
- The reason for the fee or charge; and
- The date, time, and location of a public hearing on the proposed fee or charge.

© The Regents of the University of California

§5.179 (2) Hearing Requirements

The local agency must conduct a public hearing on the proposed fee or charge at least 45 days after mailing the notice described in §5.178. The hearing must be conducted as follows (Const art XIIID, §6(a)(2)):

- At the public hearing, the agency must consider all written protests against the fee or charge; and
- If a written protest against a proposed fee or charge is presented by a majority of owners of the identified parcels, the agency may not impose the fee or charge.

A written protest requires a majority of all affected property owners to protest the fee under the traditional "silence equals consent rule" and such a majority protest is therefore rare. Cal Const art XIIID, §6(a)(2). Only one protest per parcel may be counted in determining whether a majority protest exists. Govt C §53755(b).

PRACTICE TIP: Because the procedures for counting protests are not stated in Proposition 218 or its implementing legislation (see Govt C §§53755-53756) in great detail, it is highly advisable to adopt a resolution, sometimes referred to as a "rules of the road" resolution, setting forth, *e.g.,* how the agency will count protests, how it will treat those cast by other than property owners listed on the assessor's roll, and whether multiple owners and tenants must divide their protests (or whether one protest counts for all tenants and owners). A well-drawn resolution can prevent litigation on these peripheral procedural issues.

© The Regents of the University of California

e. Voter Approval Requirements

§5.180 (1) New or Increased Fees and Charges

New or increased fees and charges subject to Proposition 218, except for sewer, water, and refuse collection services, must also be approved by a majority of property owners or two-thirds of registered voters. See Cal Const art XIIID, §6(c). Government Code §53750(h) establishes when an existing fee is deemed an "increase" for purposes of Cal Const art XIIID, §6(c). Significant exceptions to the definition of "increase" appear in Govt C §53750(h)(2).

© The Regents of the University of California

§5.181 (2) Procedural Requirements

An election to approve new fees and charges must be conducted not less than 45 days after the public hearing required by Cal Const art XIII D, §6(a). Cal Const art XIIID, §6(c). Proposition 218 does not specify procedures for the conduct of the property-related fees and charges election. However, the agency may adopt procedures that are similar to those Proposition 218 requires for assessments. See Cal Const art XIIID, §§4, 6(c); Elec C §4000(c)(9) (allowing election to be conducted by mail).

© The Regents of the University of California

§5.182 (3) Voting Requirements

The agency has two options on who may vote on a property-related fee or charge (Cal Const art XIIID, §6(c)):

(1) A property owner vote that requires a "majority vote of the property owners of the property subject to the fee or charge," but it would appear that a majority is to be calculated on the basis of one vote per legal parcel; or

(2) A two-thirds vote of the electorate residing in the affected area.

Proposition 218 does not define the phrase "majority … of the property owners of the property subject to the fee or charge." It would appear that a "majority" is to be calculated on the basis of one vote per legal parcel. See Govt C §53755(b). An agency may adopt rules similar to those for mailed-ballot assessment protest proceedings to govern such elections. See Cal Const art XIIID, §6(c). The California Supreme Court is considering whether property owner elections under Cal Const art XIIID, §6(c) are subject to the voting secrecy requirement of Cal Const art II, §7. The decision in the case, *Greene v Marin County Flood Control & Water Conserv. Dist.* (review granted June 24, 2009, S172199; superseded opinion at 171 CA4th 1458, 91 CR3d 27), is expected in 2010.

© The Regents of the University of California

§5.183 f. Proposition 218 Effective Date

Proposition 218 provides that "[b]eginning July 1, 1997, *all* fees and charges shall comply with this section." (Emphasis added.) Cal Const art XIIID, §6(d). Although it had been argued previously that the language of Cal Const art XIIID, §6(a) and (c) limited the actual force of the measure to fees that are adopted, imposed, or increased after July 1, 1997, the Court of Appeal has concluded otherwise. *Howard Jarvis Taxpayers Ass'n v City of Fresno* (2005) 127 CA4th 914, 26 CR3d 153. Thus, all fees, whether adopted before or after the 1997 compliance date of Proposition 218 (see Cal Const art XIIID, §6(d), are subject to the substantive rules of Cal Const art XIIID, §6(b). However, a pre-Proposition 218 fee that meets those substantive requirements need not be subjected to the adoption procedures specified by art XIIID, section 6(a) and (c) unless and until it is increased or extended by the repeal of a sunset. See Govt C §53750 (defining "extended" and "increased") and *McBrearty v City of Brawley* (1997) 59 CA4th 1441, 1449, 69 CR2d 862, disapproved on other grounds in *Howard Jarvis Taxpayers Ass'n v City of La Habra* (2001) 25 C4th 809, 107 CR2d 369 (mere continued collection of existing tax is not "imposition, extension or increase" sufficient to trigger election requirement of Proposition 62 because to rule otherwise would make for perpetual election season).

© The Regents of the University of California

§5.184 g. Exemptions to Proposition 218 Requirements

In addition to the important exceptions created by the narrow definition of the class of property-related fees subject to Proposition 218 in the first instance (as discussed in §5.175), the measure specifically exempts two kinds of fees, discussed in §§5.185-5.186, from its requirements.

© The Regents of the University of California

§5.185 (1) Development Fees Exempted

Proposition 218 does not "[a]ffect existing laws relating to the imposition of fees or charges as a condition of property development." Cal Const art XIIID, §1(b). Because this exception refers to "existing laws" and not to "existing fees," it seems clear that development fees imposed subsequent to the 1996 adoption of Proposition 218 are nonetheless exempt from its provisions provided that the statutory or charter authority for those fees predated Proposition 218. Although the lower court in *Richmond v Shasta Community Servs. Dist.* (2004) 32 C4th 409, 9 CR3d 121, had decided on this ground, the California Supreme Court did not, so no appellate authority is available on the scope of the term "development fees." In the absence of a definition of this term in Proposition 218's text, the general legal definition is likely to control. See, *e.g.,* Govt C §66000 (Fee Mitigation Act) (Govt C §66000-66008) or Stats 1987, ch 927).

© The Regents of the University of California

§5.186 (2) Electrical and Gas Services Exempted

Proposition 218 provides that "fees for the provision of electrical or gas service shall not be deemed charges or fees imposed as an incident of property ownership." Cal Const art XIIID, §3(b).

© The Regents of the University of California

§5.187 F. Franchise Fees

The revenue paid to a municipality from a franchisee is in effect "rental" or "tolls" for the use of its streets. *San Francisco Oakland Terminal Rys. v Alameda County* (1924) 66 CA 77, 82, 225 P 304. This section addresses franchise fees as a revenue source. For material relating to cities' powers and procedures to enact franchises, see §§6.49-6.105.

© The Regents of the University of California

1. Electric and Telephone Poles and Wires and Gas and Oil Pipelines

§5.188 a. Application of Broughton Act

The Broughton Act (Pub Util C §§6001-6092) allows franchise payments of 2 percent of the franchise's gross annual receipts arising from the use, operation, or possession of a franchise. Pub Util C §6006. This section applies to intrastate utilities (electric and telephone poles and wires, as well as gas pipes) but does not apply to cable television systems. See Pub Util C §6001.

The California Supreme Court has upheld the statute and established a methodology for allocating franchise payments. See *Tulare County v City of Dinuba* (1922) 188 C 664, 680, 206 P 983 (holding that the percentage is calculated on miles of distribution system in franchised area). The court of appeal rejected a county's efforts to recalculate the 2 percent in *County of Sacramento v PG&E* (1987) 193 CA3d 300, 238 CR 305.

© The Regents of the University of California

§5.189 b. Alternative Procedure Under Franchise Act of 1937

The Franchise Act of 1937 (Pub Util C §§6201-6302) creates an alternative procedure to grant electrical, oil, gas, and water franchises. Pub Util C 6204. Like the Broughton Act (Pub Util C §§6001-6092), the Franchise Act of 1937 provides for a franchise fee of 2 percent of a franchisee's gross annual receipts arising from the use, operation, or possession of the franchise but no less than 1/2 percent of gross annual receipts derived from the sale of electricity or 1 percent of gross annual receipts derived from the sale of gas or water, as the case may be, within city limits. Pub Util C §6231.

© The Regents of the University of California

§5.190 c. No Application to Charter Cities

With the exception of oil pipeline fees (see §5.192), the Broughton Act (Pub Util C §§6001-6092) and the Franchise Act of 1937 franchise fee restrictions do not apply to charter cities. See §§5.188-5.189. Thus, charter cities may set fees in excess of the 2-percent limit. Pub Util C §6205.

© The Regents of the University of California

§5.191 d. Surcharge in Lieu of Franchise Fees

A transportation customer (*i.e.,* a person purchasing gas or electricity from a third person, but receiving transportation service from a franchised utility or non-utility natural gas or electricity energy transporter) is required to pay a municipal surcharge for the use of public lands. The surcharge replaces, but does not increase, franchise fees and thus transfers the burden to pay from the franchisee to those to whom it provides transportation services. Pub Util C §§6350-6354.1.

© The Regents of the University of California

§5.192 e. Oil Pipeline Franchise Fees

On and after January 1, 1990, the fees imposed on a pipeline system that is a common carrier and transmits oil or oil products are limited to the formula in Pub Util C §6231.5, which establishes a rate per lineal foot based on diameter of the pipeline. This formula applies to charter cities as well as general law cities. Pub Util C §§6001.5, 6205.1. The statutory formula does not apply to non-public utility pipelines for industrial gas or oil.

© The Regents of the University of California

§5.193 2. State Video Franchise Fees

The maximum cable community franchise television franchise fee is 5 percent of gross receipts from the grantee's operations in the city. Govt C §53066(c). This restriction applies to charter and general law cities. *Cox Cable San Diego, Inc. v City of San Diego* (1987) 188 CA3d 952, 233 CR 735. See also 47 USC §542(b); *Group W Cable, Inc. v City of Santa Cruz* (ND Cal 1988) 679 F Supp 977.

Unless there is no local franchisee or the city opts to require a lesser amount, a state video franchisee must pay 5 percent of gross revenues to the city, or the percentage paid by local cable franchises, whichever is less. Pub Util C §5840(q)(1). Cities may also, by ordinance, impose an additional fee up to the maximum statutorily permitted percentage rate for public, educational, and government ("PEG") channel facilities. Pub Util C §5870(n). See also Paul Valle-Riestra, Telecommunications: The Governmental Role in Managing the Connected Community (Solano Press Books, 2002). For further discussion of state video franchises, see §§6.65-6.68.

© The Regents of the University of California

§5.194 3. Refuse Collection Franchise Fees

A city may contract for the collection or disposal of solid waste under terms and conditions prescribed by its legislative body. Pub Res C §49300. The city council has discretion to determine whether solid waste handling services are provided under a wholly exclusive, partially exclusive, or nonexclusive franchise. Pub Res C §40059. There do not appear to be any statutory restrictions on the amount a city can charge the franchisee as a franchise or collection fee, and thus such fees are subject to negotiation between cities and franchisees and, presumably, passed on to customers. But see Pub Res C §49031 (procedures to adopt refuse fees charged to consumers to fund compliance with state recycling mandates ("AB 939 fees")).

© The Regents of the University of California

§5.195 4. Recycling, Household Hazardous Waste, and Other Waste Management Activities

Statutory law does not explicitly authorize franchises for recycling, household hazardous waste, and other waste management activities, but an implicit acknowledgment of the power to do so is found in Pub Res C §47109.

© The Regents of the University of California

§5.196 G. Fines and Forfeitures

The distribution of court fines and bail forfeitures is determined by state law. See Pen C §§1463, 1463.001-1463.002. Since July 1, 1998, the distribution of base fines for arrests in a city is as follows: the county receives the amount specified in Pen C §1463.002, with the remainder going to the city. See Pen C §1463.001(b)(3).

© The Regents of the University of California

1. Fines "Available for Distribution"

§5.197 a. Amounts Paid

The amount paid by a defendant includes the fine (see, *e.g.,* Veh C §23536 (driving under the influence)) and various penalties and assessments (see, *e.g.,* Pen C §1464; Govt C §76000; Veh C §§23645, 42006), and may include restitution (see Pen C §1202.4). These "add-ons" are changed by the legislature frequently and may exceed the amount of the fine. Unless modified by a judge, often under a plea agreement, the base fine is derived from the Uniform Bail and Penalty Schedule as adopted by the Judicial Council (infractions) (Veh C §40310, Cal Rules of Ct 4.102) or county judges (misdemeanors and felonies) (Pen C §1269b(b)). Judicial Council Bail and Penalty Schedules are available online at www.courtinfo.ca.gov/reference/4_13crim.htm.

© The Regents of the University of California

§5.198 b. Amount Available for Distribution

The amount available for distribution to the city and the county under Pen C §§1463.001-1463.002 is the amount of the fine less $20 to the state Restitution Fund for victims (if the fine relates to driving under the influence) (see Pen C §1463.18); and less those penalties and assessments and amounts payable to county alcohol programs (see Pen C §§1463.16, 1463.25). On blood, breath, and urine analysis, see Pen C §1463.14.

© The Regents of the University of California

§5.199 c. Installment Payments

The total fines and assessments may be paid in installments. Pen C §1205(d). Each installment payment is prorated among the state, county, and city. See Pen C §1462.5; Govt C §71380. See also State Controller's Manual of Accounting and Audit Guidelines for Trial Courts (2009), available at www.controller.ca.gov/Files-ARD-Local/LocRep/Appendix_C_v21.pdf.

© The Regents of the University of California

§5.200 2. Exception to General Distribution Statute

A different distribution occurs when (see Pen C §1203.1(k); *Los Angeles County v Emme* (1940) 42 CA2d 239, 108 P2d 695):

- The fine is collected by a probation officer; and
- The fine is paid as a condition of probation. When this occurs, all fines collected are deposited in the county's general fund. Pen C §1203.1(k).

The provisions of Pen C §1203.1 apply when the defendant is on probation (as defined in Pen C §1203(a)), but not when the defendant is on "conditional sentence" (formerly referred to as "summary" or "court" probation). *City of Victorville v County of San Bernardino* (1991) 233 CA3d 1312, 285 CR 206.

© The Regents of the University of California

§5.201 3. Forfeitures of Bail

If the defendant fails to appear, cash bail is distributed under Pen C §1463.009.

If a bond is posted in lieu of cash bail, on the defendant's failure to appear and the surety's failure to make good on the bond, summary judgment automatically is entered against the surety. Pen C §1306. The amount collected by the county under the summary judgment is distributed under Pen C §1463.001. *City of Los Angeles v County of Los Angeles* (1989) 216 CA3d 916, 265 CR 461.

© The Regents of the University of California

§5.202 4. Parking Fines and Forfeitures

Violations of local, state, and federal regulations that are not misdemeanors about the standing or parking of vehicles are subject to only civil penalties and are governed by the civil administrative process in Veh C §§40200-40230. As civil matters, there is no right to confront adverse witnesses. The notice of parking violation, or a copy of it, is considered a record kept in the ordinary course of business of the issuing agency and the processing agency and is prima facie evidence of the facts contained in it. Veh C §40202. If the parking violation is contested, the ticketing agency bears the burden to prove the violation by a preponderance of the evidence.

Agencies issuing parking tickets may elect to contract for the processing of parking tickets with other governmental issuing agencies in that county (other than the California Highway Patrol, the California State Police, or other state law enforcement agency), or with private vendors.

© The Regents of the University of California

§5.203 a. Liability for Penalties and Amounts

With certain exceptions, the vehicle's registered owner and driver, renter, or lessee are jointly liable for parking penalties. Veh C §§40200 (liability), 40209 (exceptions). An owner who pays any parking penalty may seek recovery from the driver, renter, or lessee. The amounts of penalties, administrative fees, and other related charges for parking violations are generally to be established by the governing body of the issuing agency, although several exceptions exist. See*, e.g.,* Veh C §§42001.5 (minimum fine for parking in a bus loading zone); 42001.13 (minimum fine for parking in spaces designated for disabled person). But, to the extent possible, issuing agencies in a county must standardize penalties. See Veh C §40203.5.

© The Regents of the University of California

§5.204 b. Apportionment Among Agencies

State law apportions revenues for parking violations and surcharges between issuing agencies and the counties. See Veh C §40200.3.

© The Regents of the University of California

5. Administrative Process for Fines and Forfeitures

§5.205 a. Administrative Investigation and Review Process

Within 21 days from the issuance of a parking citation, or 14 days from the mailing of a notice of a delinquent parking violation, a person by written request, telephone, or in person may request review by the processing agency. Veh C §40215. The processing agency has the discretion to refer that review to the issuing agency. The results of the investigation must be mailed to the person seeking review.

© The Regents of the University of California

§5.206 b. Administrative Hearing

Anyone dissatisfied with the results of the investigation may request a hearing by depositing the full amount of the parking penalty with the processing agency and providing a written explanation to the agency as to why the parking violation is being contested. The investigation and administrative review procedures are detailed in Veh C §40215.

The processing agencies must also adopt and provide a procedure to relieve the indigent from the deposit requirement. See Veh C §40215(b).

© The Regents of the University of California

§5.207 c. Administrative Review

The person contesting the ticket has the right to elect a review by mail or personal conference. Minors have the same appearance rights and tickets issued to minors may be processed as tickets issued to adults. An examiner who conducts a review must be designated by the issuing agency's governing body or chief executive officer. The examiner must be independent from the enforcement agency and the citation collection process. An examiner's employment, performance evaluation, or compensation cannot be linked to the fines he or she collects. Examiners must have a minimum of 20 hours of training. The review is to be conducted in accordance with written procedures established by the imposing or processing agency and must ensure a fair and impartial review. An agency's final decision may be given by the examiner directly to the person contesting the ticket or by first-class mail. See Veh C §40215.

© The Regents of the University of California

§5.208 d. Trial De Novo by Court

Within 30 days following the mailing of the agency's examiner's decision, a parking ticket contestant may appeal to the superior court. Although the hearing is de novo, the processing agency's file in the case must be received into evidence and a copy of the notice of parking violation is considered prima facie evidence of the facts provided. The appeal requires a $25 filing fee, which, if the contestant is successful, must be refunded by the processing agency along with any parking penalty deposited with the agency by the contestant. If the court rules in favor of the agency and the contestant has not previously deposited the penalty, the agency may begin collection efforts. See Veh C §40230.

© The Regents of the University of California

§5.209 e. Collection of Unpaid Parking Penalties

Once the contestant has allowed an administrative or court decision to become final by failing to timely exhaust appeals, the processing agency may pursue one or more of the collection procedures discussed in §§5.210-5.211. Generally, only one of these collection options may be pursued at any given time.

© The Regents of the University of California

§5.210 (1) Collection with Vehicle Registration

The processing agency may file an itemization of unpaid parking penalties and service fees with the Department of Motor Vehicles (DMV) for collection on re-registration of the vehicle. See Veh C §40220(a).

© The Regents of the University of California

§5.211 (2) As Judgment for Civil Debt

When unpaid penalties and fees against any person or owner exceed $400, proof of that civil debt may be filed with the court with the same effect as a civil judgment. This option requires 21 days' mailed notice explaining that a judgment will be entered and, after the 21 days, will have the same effect as an entry of judgment against a judgment debtor. The notice must also advise the debtor that execution may be levied and other steps may be taken to satisfy the judgment. A first paper filing fee is required of the agency at the time entry of civil judgment is requested. See Veh C §40220(b). This option is also available if the vehicle's registration has not been renewed more than 60 days after its renewal date and the citation has not been collected by the DMV. See Veh C §40220(c).

© The Regents of the University of California

§5.212 f. Equipment and Registration Tab Violations

Equipment and registration tab violations added to the parking citation must be handled as parking violations except the penalties are specified by the Uniform Bail and Penalty Schedule. See Veh C §40225. See §5.197.

© The Regents of the University of California

§5.213 6. Criminal Justice Penalties

A penalty of $2.50 must be imposed by resolution on each parking citation for both a county criminal justice facilities construction fund and a courthouse construction fund unless the city wants to fund those penalties from its share of ticket proceeds. Govt C §76000. The bail schedule is to be increased by these penalties. Govt C §76000(b). A city that processes its own parking fines by contract is to pay these penalties to the county treasurer. Govt C §76000(b).

© The Regents of the University of California

H. State Subventions

§5.214 1. Shared Revenue

Various taxes and fees are levied by the state and county governments and are subvened to the cities. These subventions are authorized by the state Constitution. These include:

- Cigarette and tobacco products tax (see Rev & T C §§30001-30482);
- Motor vehicle license fees (see Rev & T C §§10701-11006);
- Liquor license fees (see Bus & P C §§23300-25762); and
- Motor vehicle fuel tax (see Rev & T C §§7301-8526).

© The Regents of the University of California

§5.215 2. Tax Reimbursements

Local entities are reimbursed for revenue lost as a result of various tax exemptions and reductions, such as the homeowners' property tax exemption (see Cal Const art XIII, §25) and the reduction of property tax on certain open space lands (see Govt C §§16140-16154).

© The Regents of the University of California

§5.216 3. Tax Collection Services

Several taxes are collected by the state and counties on behalf of cities and transferred to the cities. These include:

- Local share of real property taxes (see Rev & T C §§95-100.95); and
- Sales tax revenues (see Rev & T C §7200).

The fact that another agency collects a tax on behalf of a city does not give that agency the right to withhold the collected taxes, or require an appropriation in order for that agency to remit the monies to the city. However, subject to certain procedural requirements and resolution of pertinent disputes, an agency can offset against the amount of taxes it has collected for a city the amount owed to the agency for services it has rendered. See*, e.g.,* Govt C §907.

© The Regents of the University of California

§5.217 I. Grants

Cities often receive funds from various state and federal grants. Ordinarily, these funds must be used only for the purpose of carrying out the specific state or federal program. For example, federal Community Development Block Grants (CDBG) (see 24 CFR §§570.1-570.913) provide for the development of viable urban communities, decent housing, suitable living environments, and the expansion of economic development opportunities.

For related material, see the following:

- Intergovernmental Relations, Federal and State Grants (§§1.95-1.96);
- Drug Testing, Drug-Free Workplace (§§4.109, 4.115);
- Federal Discrimination Laws, Rehabilitation Act of 1973 (§4.117);
- State Discrimination Laws, Govt C §11135 (§4.165); and
- Contracts, Federally-Funded Projects (§§7.129-7.169, 7.190).

© The Regents of the University of California

§5.218 J. Gifts

A city may accept or reject any gift, bequest, or devise made to or for the city, or to or for any of its officers in their official capacities or in trust for any public purpose. Govt C §37354. If such a gift, bequest, or devise does not limit the uses to which the property received or the income or increase from it may be put, it may be put to any uses the city desires. Govt C §37355. There are Political Reform Act consequences that flow from the decision as to whether the gift is to the city or to an official. See 2 Cal Code Regs §§18944-18944.2. Gifts to a city are considered charitable contributions and are tax deductible, so long as the gift is for entirely public purposes. 26 USC §170(c)(1).

Acceptance of gifts may be regulated and limited by charter provisions. See*, e.g., Egan v City & County of San Francisco* (1913) 165 C 576, 585, 133 P 294. A gift is void if the conditions attached to it violate a charter provision. *O'Melveney v Griffith* (1918) 178 C 1, 171 P 934.

On acquisition of public property by gift, see §§8.65-8.68.

© The Regents of the University of California

§5.219 K. Debt Financing

Cities may finance capital projects, including the acquisition or construction of various facilities, through the issuance and sale of municipal securities. Securities are sold and the proceeds are used for the cost of such acquisition or construction. The California Debt Issuance Primer published in March 2006 by the California Debt and Investment Advisory Commission provides an excellent introduction to debt financing for cities in California. The Primer is available online at www.treasurer.ca.gov/Cdiac/debtpubs/primer.pdf.

© The Regents of the University of California

1. Bonds

§5.220 a. Types of Bonds

Municipal bonds are typically categorized according to the source of the funds for repayment and generally fall into one of two categories:

(1) general obligation bonds, and

(2) limited obligation bonds.

© The Regents of the University of California

§5.221 b. General Obligation Bonds

General obligation bonds pledge a city's general funds and "full faith and credit" (*i.e.,* the property taxing power) as security for payment of principal and interest to bond holders. The general framework for issuing such bonds is the Municipal Improvement Bond Act of 1901 (Govt C §§43600-43638). Two-thirds voter approval is necessary for the issuance of general obligation bonds and they may only be used to fund the acquisition or improvement of real property. Cal Const art XIIIA, §1(b); Cal Const art XVI, §18; Govt C §43614. General obligation bonds are payable from additional ad valorem property taxes levied specifically for debt service and from the city's general fund. Cal Const art XIIIA, §1(b).

© The Regents of the University of California

§5.222 c. Limited Obligation Bonds

Limited obligation bonds pledge a specified dollar amount from a specified source or combination of sources of revenue as security for payment of principal and interest to bond holders. See generally Govt C §§50665.1-50670.4. A city may also restrict the pledge to revenues received by the city from a specified geographical area in the city. Govt C §50655.5(f)(2). Generally, there are four types of limited obligation bonds:

(1) Revenue bonds;

(2) Assessment bonds;

(3) Tax increment bonds; and

(4) Special tax bonds.

© The Regents of the University of California

§5.223 (1) Revenue Bonds Generally

Revenue bonds pledge a specific source of revenue (*e.g.,* water or sewer user charges) that is related to the facilities to be financed. This revenue is pledged as security for the bonds and the bonds are payable only from the pledged source of revenue. A city does not obligate other funds or revenues for the payment of the bonds. However, the city may elect to make payments from other sources.

© The Regents of the University of California

§5.224 (2) Revenue Bonds: Relationship to Debt Limit

Typically revenue bond financing is not classified as debt for purposes of the California Constitution because a specific stream of revenues is being pledged and it falls within the "Special Fund" exception to the constitutional debt limit (Cal Const art XVI, §18). On the constitutional debt limit, see §§5.12, 5.289-5.296. Therefore, voter approval is not required. *City of Santa Clara v Von Raesfeld* (1970) 3 C3d 239, 90 CR 8. See also *Rider v City of San Diego* (1998) 18 C4th 1035, 77 CR2d 189; *City of Oxnard v Dale* (1955) 45 C2d 729, 290 P2d 859; *Garrett v Swanton* (1932) 216 C 220, 13 P2d 725, overruled on other grounds by *City of Oxnard v Dale* (1955) 45 C2d 729, 290 P2d 859; *Board of Supervisors v Dolan* (1975) 45 CA3d 237, 119 CR 347. On the special fund doctrine, see §5.292.

© The Regents of the University of California

§5.225 (3) Revenue Bonds: Need for Voter Approval

Voter approval is not constitutionally required for revenue bonds. A number of statutes authorize the issuance of revenue bonds backed by various revenue streams. Some require voter approval of the debt. The Revenue Bond Law of 1941 is commonly used and requires majority voter approval of debt. See §5.226.

© The Regents of the University of California

§5.226 (4) Revenue Bonds: Revenue Bond Law of 1941

Under the Revenue Bond Law of 1941 (Govt C §§54300-54700), a city may issue bonds for the acquisition or construction of an enterprise. An enterprise may include (see Govt C §54309):

- revenue-producing facilities and systems to provide garbage collection service;
- sewer or water service, sanitary and storm drainage sewers;
- parking facilities;
- ferry service;
- public hospitals;
- airports;
- harbors;
- golf courses; or
- generation, production, or transmission of electric energy but not distribution of electricity.

See also Govt C §§54309.1 and 54310.

After establishing an enterprise, a city typically creates an enterprise fund in which to deposit enterprise revenues. See Govt C §54519. The fund secures payment of interest and principal of the bonds. Govt C §54420. A city may also use this fund to pay maintenance and operation costs of the enterprise. See Govt C §§54425-54426. A city may use any surplus funds from this account, including interest, for any other lawful purpose. Govt C §54425. But see §§5.174-5.186 (discussing Proposition 218 restriction on the use of proceeds of property-related fees such as fees for water, sewer, and government-provided trash service).

© The Regents of the University of California

§5.227 (5) Assessment Bonds

Assessment bonds are issued to finance acquisition or construction of various improvements. These bonds are more fully discussed in §§5.121-5.157 about special benefit assessments and districts.

© The Regents of the University of California

§5.228 (6) Tax Increment Bonds

Tax increment bonds are issued by redevelopment agencies for redevelopment purposes. For a discussion of redevelopment and tax increment financing, see §§5.392-5.394.

© The Regents of the University of California

§5.229 (7) Special Tax Bonds

Under the Mello-Roos Community Facilities Act of 1982 (Govt C §§53311-53368.3), cities may form community facilities districts to fund public improvements and facilities. Community facilities districts may issue bonds secured by special taxes levied on property in the district. See Govt C §§53311-53317.5. On Mello-Roos financing, see §§5.76-5.87.

© The Regents of the University of California

§5.230 2. Certificates of Participation (COPs)

Certificates of participation (COPs) are securities that represent fractional interests in payments to be made by a city to a second party (usually a joint powers agency or a special purpose nonprofit corporation) under a lease or installment sale. COPs use a lease or an installment sale transaction to finance the construction of public facilities or improvements. A lease transaction is used if repayment of the COPs is to be secured by a pledge of any legally available funds of the city, *i.e.,* its general fund. If structured properly, COPs do not constitute "debt" for purposes of the state constitution. See*, e.g., Dean v Kuchel* (1950) 35 C2d 444, 218 P2d 521; *City of Los Angeles v Offner* (1942) 19 C2d 483, 122 P2d 14. Because COPs using a lease transaction often rely on an annual appropriation from the city's general fund, the interest rate and the cost of financing often depend on whether the improvements to be financed and the property that is the basis for the underlying lease are essential to the functioning of the city. An installment sale transaction is frequently used if repayment of the COPs is to be secured solely from enterprise revenues. COPs using either a lease or an installment sale transaction do not require an election.

© The Regents of the University of California

a. Certificates of Participation (COPs) Form

§5.231 (1) Lease Transaction

A certificates of participation (COPs) financing secured by a pledge of any legally available funds of the city typically takes the form of a lease transaction. In such a case, a city enters into a lease with a nonprofit public benefit corporation, a public financing authority formed by the city, or similar entity. The lessor corporation or authority acquires the site and, with the assistance of the city, constructs a project on the site. The lessor then leases the improvements to the city. To avoid debt limitation issues, the obligation to make lease payments must be abated during any time that the city does not have substantial use and enjoyment of the leasehold estate. See §5.235 for a list of the requirements applicable to such lease transactions.

The lessor's rights to receive payments under the lease are then assigned to a trustee by a trust agreement. The trustee executes and delivers COPs, which evidence rights to participate in those lease payments. The COPs are securities essentially similar to bonds and the lease payments are the security that is pledged for payment of the debt. However, unlike a bond, the COPs are not themselves promissory debt instruments. Instead, they evidence an undivided proportional right of the owner to receive a share of the lease payments (comprised of principal and interest) made under the lease.

© The Regents of the University of California

§5.232 (2) Installment Sale Transaction

A certificates of participation (COPs) financing secured by a pledge of enterprise revenues or another special fund other than the general fund may be structured as an installment sale. In this case, the city enters into an installment sale or purchase agreement with a nonprofit public benefit corporation or public financing authority to acquire the facilities to be financed. The installment payments are the security that is pledged for the payment of the COPs. Unlike a lease structure, however, the requirement for the city to make installment payments is not abated during any period that the city may not have use or enjoyment of the facilities being financed. If the installment sale is not a contingent obligation—and most are not—it must be paid solely from a special fund to avoid characterization as a debt. See §5.231 for discussion of a lease transaction.

§5.233 b. Certificates of Participation (COPs) References

- Mouton, *Certificates of Participation,* 1 Land Use Forum 185 (Spring 1992); and
- Public Securities Association, A Guide to Certificates of Participation (1991).

© The Regents of the University of California

§5.234 3. Sale Lease-Back or Lease-Back Agreements

Cities may enter into sale lease-back or lease lease-back agreements either as part of a certificates of participation (COPs) issue (see §§5.230-5.232) or as a installment lease obligating a city to make annual payments from its general fund. Bonds issued by a city's public financing authority or a "captive" nonprofit corporation may also be repaid from the stream of payments made under the lease agreements.

© The Regents of the University of California

§5.235 a. Sale Lease-Back or Lease-Back Requirements

The important points in any long-term lease-back transaction are the following (see *Rider v City of San Diego* (1998) 18 C4th 1035, 77 CR2d 189; *Dean v Kuchel* (1950) 35 C2d 444, 218 P2d 521; *City of Los Angeles v Offner* (1942) 19 C2d 483, 122 P2d 14; *Krenwinkle v Los Angeles* (1935) 4 C2d 611, 51 P2d 1098); *Ruane v City of San Diego* (1968) 267 CA2d 548, 73 CR 316):

(1) Rent must be abated when a city does not occupy or have beneficial use of the property.

(2) The obligation of a city to make payments must be on an annual basis and subject to appropriation (*i.e.,* if the city council does not budget the funds for payment, payment is not due). Acceleration of rental payments in the event of non-appropriation or in the event of default is not permitted because to do otherwise would violate the constitutional debt limitation. A covenant to annually appropriate is common. Further, acceleration of payments in the event of default is not a valid provision of a financing lease.

(3) Fair market rent should be paid for the property, taking into consideration the nature and use of the property and any option to purchase.

© The Regents of the University of California

§5.236 b. Equipment Leases

Equipment leases with a term beyond one fiscal year are subject to the same debt limit considerations as long-term leases of real property. Such leases are also subject to abatement during interruptions in the use of the equipment caused by damage or destruction. An alternative approach is to reserve the unrestricted right to terminate the lease at or before the end of each fiscal year. The effect of reserving this right (sometimes referred to as "a non-appropriation right") is to restrict the lease to a 1-year obligation, which is also not subject to the constitutional debt limit. See §§5.12, 5.289-5.296.

© The Regents of the University of California

§5.237 4. Marks-Roos Public Financing Authority Bonds

The Marks-Roos Local Bond Pooling Act of 1985 (Govt C §§6584-6599.3) provides a city and its related entities several mechanisms to finance and refinance public capital improvements. Implementation of these mechanisms requires the formation of a public financing authority under a joint powers agreement, often between a city and its redevelopment agency. The joint powers agreement may authorize the issuance of bonds for projects outside of the jurisdiction of the participating agencies only in limited circumstances. Govt C §6586.5(b). See 83 Ops Cal Atty Gen 82 (2000). A joint powers agency is usually not an entity subject to the constitutional debt limit and its bonds do not require voter approval. See *Rider v City of San Diego* (1998) 18 C4th 1035, 77 CR2d 189.

© The Regents of the University of California

§5.238 a. Financing Mechanism: Bond Pooling

Bond pooling involves the sale of public financing authority bonds and the use of the proceeds to purchase city or redevelopment agency bonds. Repayments of the city or redevelopment agency bonds are used to repay the public financing authority bonds. A common form of bond pooling involves the purchase by the public financing authority of several of a city's special assessment bonds or special tax bonds in order to implement a consistent development program or to accomplish a refinancing of outstanding city bonds.

© The Regents of the University of California

§5.239 b. Financing Mechanism: Lease and Installment Sale Financing

A public financing authority is authorized to issue its bonds to finance or refinance a public capital improvement for lease or installment sale to a city. This is an alternative method of accomplishing the financing described under Certificates of Participation (see §§5.230-5.232) and Sale Lease-Back or Lease-Back Agreements (see §§5.234-5.236).

© The Regents of the University of California

§5.240 c. Financing Mechanism: Loans

A public financing authority is authorized to issue bonds to provide loans to a redevelopment agency to finance redevelopment activities. This mechanism permits the combining of loans to several redevelopment project areas in one bond issue.

© The Regents of the University of California

§5.241 5. Tax-Exempt or Taxable Debt Financing

Whether the debt of a city may be issued on a taxable or tax-exempt basis (*i.e.,* whether interest paid on the bonds, certificates of participation (COPs), or lease is excluded from income for federal or California income tax purposes) depends on the use of the proceeds and the security for repayment. Bond counsel or tax counsel will assist the city in making this determination.

© The Regents of the University of California

§5.242 6. Disclosure Obligations of the City

Although municipal securities issued by cities are exempt from the registration requirements of the Securities Act of 1933 (15 USC §§77a-77aa), SEC Rule 15c2-12 (17 CFR §240.15c2-12) (the Rule) under the Securities Exchange Act of 1934 (15 USC §§78a-78oo) indirectly regulates disclosure practices for municipal securities. Sale of municipal securities is also subject to the anti-fraud rules of §10(b) of the Securities Exchange Act of 1934 (15 USC §78j(b)).

© The Regents of the University of California

§5.243 a. Original Disclosure

Information about a municipal securities offering is generally distributed to prospective purchasers of such securities and the municipal market place by a preliminary official statement (POS), which is prepared before the sale of the securities to the underwriter, and a final official statement (FOS), which is dated as of the date of the sale. SEC Rule 15c2-12 (17 CFR §240.15c2-12) (the Rule) defines an FOS as a document or set of documents prepared by an issuer of municipal securities or its representatives that is complete as of the date delivered to a participating underwriter and that gives information on the terms of the proposed issue material to evaluation of the offering. The Rule makes it unlawful for any participating underwriter (*i.e.,* a broker, dealer, or municipal securities dealer) to purchase municipal securities from an issuer with an aggregate principal amount of $1 million dollars or more, unless the participating underwriter complies with the following requirements:

- Before bidding for, purchasing, offering, or selling municipal securities, a participating underwriter must obtain and review an official statement that the issuer considers final as of its date (with the exception of certain specified information, such as interest rates, that are determined at the time of sale).
- The participating underwriter must contract with the issuer to receive the required number of copies of the FOS from the issuer within 7 business days after any final agreement to purchase the municipal securities.
- The participating underwriter must reasonably determine that the issuer, in a written undertaking for the benefit of the holders of the securities (commonly referred to as a continuing disclosure agreement), has agreed to file through the Electronic Municipal Market Access (EMMA) website maintained by the Municipal Securities Rulemaking Board (MSRB):
- Annual financial information or operating data of the kind included in the official statement and as specified in the continuing disclosure agreement;
- The audited financial statement for the issuer; and
- Notice of the occurrence of certain reportable events specified in the Rule.

© The Regents of the University of California

§5.244 b. Continuing Disclosure

A city that enters into a continuing disclosure agreement as described in §5.243 is required to comply with annual and event disclosure requirements contained in the agreement. The city is also required to provide notice of its failure to provide required annual or event disclosure. A city must disclose in the official statement for its securities any instances within the past 5 years in which the city failed to comply, in all material respects, with the disclosure requirements of any previous continuing disclosure agreement. The failure of a city to comply, in all material respects, with such disclosure requirements may adversely affect the value and marketability of the city's securities. The Securities and Exchange Commission (SEC) has stated that the failure of an issuer of municipal securities to comply with its continuing disclosure obligations should be a significant factor when a dealer formulates a recommendation regarding such securities.

PRACTICE TIP: Whatever method of financing is sought, it is important to obtain expert advice. A city typically wants to issue its debt on a tax-exempt basis (to obtain a lower interest rate). Therefore, bond counsel should be retained early in the process to assist the city in preparing the necessary documents and undertaking the necessary proceedings to issue tax-exempt securities. Additionally, with the advent of the disclosure requirements under SEC Rule 15c2-12 (17 CFR §240.15c2-12), a city should retain disclosure counsel to prepare the official statement and continuing disclosure agreement on behalf of the city. Traditionally, the official statement has been prepared by underwriter's counsel who is not in privity of contract with the city. Disclosure counsel, on the other hand, is retained by the city and is contractually responsible to the city for the preparation of the official statement. Given the heightened regulation of disclosure and the very severe consequences (including potential criminal and personal liabilities) for failure in disclosure obligations, it is prudent for the city to retain expert legal counsel to advise the city regarding its disclosure obligations both when the debt is issued and during the payment period on that debt.

© The Regents of the University of California

§5.245 c. Actions Relating to Borrowing $100,000 or More

All city council actions relating to borrowing when the amount is $100,000 or more must be discussed, considered, and deliberated as a "separate item of business on the agenda." Govt C §53635.7. In effect, this means that approvals relating to bond issues in excess of $100,000 cannot be on the consent calendar.

© The Regents of the University of California

L. State-Mandated Cost Reimbursement

1. Basic Obligation

§5.246 a. Constitutional Expression

Whenever the legislature, governor, or any state agency mandates a new program or higher level of service on any local government, the state must provide a subvention of funds to reimburse local government for the costs of such program or increased level of service. See Cal Const art XIIIB, §6. See also *Los Angeles Unified Sch. Dist. v State* (1991) 229 CA3d 552, 280 CR 237 (regarding reimbursability of California OSHA regulations). Article XIIIB, §6, of the California Constitution provides that, for a mandate in which the costs of a city, county, or special district claim previously have been determined to be payable by the state under law, each fiscal year the legislature *must* either appropriate in the annual Budget Act the full payable amount that has not been previously paid, or suspend the operation of the mandate in the current fiscal year (*i.e.,* exonerate local government from implementing the mandate in that fiscal year). Payable claims for costs incurred in prior fiscal years that have not been paid may be paid over a term of years, as allowed by law. See Cal Const art XIIIB, §6(b). See also §5.255 regarding funded and unfunded mandates.

© The Regents of the University of California

§5.247 b. Statutory Expression

The provisions of Govt C §§17500-17630 implement Cal Const art XIIIB, §6. These provisions set out intent (Govt C §17500), adopt definitions (Govt C §§17510-17524), establish and empower the Commission on State Mandates (Commission) (Govt C §§17525-17533), establish Commission procedures for handling claims (Govt C §§17550-17571), establish a procedure for legislative determinations (Govt C §§17575-17581), provide method for payment of claims (Govt C §§17600-17617), and establish an apportionment system (Govt C §§17615-17617). The Revenue and Taxation Code previously contained all of these relevant provisions (sometimes called SB 90 for the 1972 legislation that first enacted these procedures). 1986 California Statutes, chapter ch 879 transferred almost all of the operative provisions to the Government Code, but some remain in the Revenue and Taxation Code. See Rev & T C §§2201-2246.2.

The state must reimburse each local agency and school district for all "costs mandated by the state." Govt C §17561(a). The phrase "costs mandated by the state" means any increased costs that a local agency or school district is required to incur after July 1, 1980, as a result of any statute enacted on or after January 1, 1975, that mandates a new program or higher level of service of an existing program within the meaning of Cal Const art XIIIB. Govt C §17514. See *Department of Fin. v Commission on State Mandates* (2009) 170 CA4th 1355, 89 CR3d 93 (concerning school and special districts' hiring of police officers and incurring of costs of complying with Public Safety Officers Procedural Bill of Rights Act (POBR) (Govt C §§3300-3313), requirements of PSOBRA did not constitute costs mandated by state for local governments that voluntarily and without legal compulsion participated in program requiring increased costs). On the Commission on State Mandates, see §5.256.

© The Regents of the University of California

2. Intent and Scope

§5.248 a. Protect Taxpayers and Prevent Shifting of Financial Responsibility

In enacting the reimbursement requirement of Cal Const art XIIIB, §6, the voters intended to provide permanent protection for taxpayers from excessive taxation. *County of Fresno v State* (1991) 53 C3d 482, 486, 280 CR 92.

The voters intended to preclude the state from shifting financial responsibility for carrying out governmental functions to local entities ill-equipped to handle the task. *County of Fresno v State* (1991) 53 C3d 482, 487, 280 CR 92. But see *County of Sonoma v Commission on State Mandates* (2000) 84 CA4th 1264, 101 CR2d 784 (county sought reimbursement of property tax revenues that were shifted away from local governments and placed into Educational Revenue Augmentation Funds (ERAFs) for distribution to school districts). The court in *County of Sonoma* found that local agencies were not entitled to reimbursement for the following reasons:

- The decrease in revenue suffered by local agencies was not a reimbursable "cost" because revenues were reallocated, rather then actually expended by the local agency; and
- The state did not impose a "new program or higher level of service" because at the time the obligation became effective, the local agencies jointly funded schools with the state.

© The Regents of the University of California

§5.249 b. Reimbursement for Unique Requirements Placed on Local Government

The state must reimburse local government only for mandated programs that provide services to the public or that impose unique requirements on local governments. There need be no reimbursement for laws that apply generally to all state residents or entities. *County of Los Angeles v State* (1987) 43 C3d 46, 233 CR 38 (workers' compensation is not reimbursable mandate).

© The Regents of the University of California

3. Exceptions to Reimbursement

§5.250 a. Constitutional

The legislature may, but need not, reimburse local governments for the following mandates (see Cal Const art XIIIB, §6):

- Legislative mandates requested by the local agency affected;
- Legislation defining a new crime or changing an existing definition of crime; or
- Legislative mandates enacted before January 1, 1975, or executive orders or regulations initially implementing legislation enacted before January 1, 1975.

© The Regents of the University of California

§5.251 b. Statutory

The legislature has also directed the Commission on State Mandates to find no mandate under the following circumstances (Govt C §17556):

- The claim is submitted by a local agency or school district that requested the authority to implement the program specified in the statute;
- The executive order or statute "affirmed for the state that which had been declared existing law or regulation by action of the courts";
- The statute or executive order implements federal law, unless the statute or order mandates costs that exceed the federal mandate;
- The local agency or school district has authority to levy service charges, fees, or assessments sufficient to pay for the mandated program or increased level of service;
- The statute or executive order provides for offsetting savings to local agencies or school districts that result in no net costs or includes additional revenue specifically intended to fund the mandate;
- The statute or executive order imposes duties that were expressly included in a ballot measure approved by the voters in a statewide election; or
- The statute created a new crime or infraction, eliminated a crime or infraction, or changed the penalty for a crime or infraction.

The exception for federal programs applies not only to direct federal mandates but also to federal programs that are technically voluntary but coercive in nature, that the state passes on to local governments. See *City of Sacramento v State* (1990) 50 C3d 51, 266 CR 139 (unemployment insurance). The fee "exception" has been upheld on the theory "that a local agency may not be reimbursed for costs" that are recoverable from sources other than taxes. *County of Fresno v State* (1991) 53 C3d 482, 280 CR 92. See *Department of Fin. v Commission on State Mandates* (2009) 170 CA4th 1355, 89 CR3d 93 for discussion of local agencies that voluntarily and without legal compulsion participate in a statutory program involving increased costs on the local agency. The exception for voter-approved mandates turns on the language of Cal Const art XIIIB, §6(a) ("Whenever the Legislature or any state agency mandates a new program or higher level of service on any local government"). On the Commission on State Mandates, see §5.256.

© The Regents of the University of California

4. The Legislative Process and Mandates

§5.252 a. Legislative Counsel

In drafting a bill, Legislative Counsel determines whether the bill contains a mandate; if so, this must be stated in the Legislative Counsel digest of the bill. Govt C §17575. However, the Legislative Counsel's determination is not binding on the Commission on State Mandates in its determination on a claim. Govt C §17575; *City of San Jose v State* (1996) 45 CA4th 1802, 1817, 53 CR2d 521. On the Commission on State Mandates, see §5.256.

© The Regents of the University of California

§5.253 b. Fiscal Committees

If a bill contains a mandate, it must be referred to fiscal committees, where the committee staff, the Department of Finance, and the Legislative Analyst determine the bill's effect on local governments. See Govt C §§17576-17577.

© The Regents of the University of California

§5.254 c. Reimbursement Provisions

If a bill contains a mandate, it must contain reimbursement provisions; the bill can also state that there is no mandate or that the mandate is being disclaimed and why. Govt C §17579. If the bill states that there is no mandate, an agency seeking reimbursement must file a test claim with the Commission on State Mandates to challenge such determination. See §§5.256-5.257.

© The Regents of the University of California

§5.255 d. Funded Versus Unfunded Mandates

An "unfunded mandate" is a mandate for which the legislature has not made an appropriation. See Govt C §§17579 and 17581. When the legislature has appropriate funding for a mandate, local agencies seeking reimbursement must file a "reimbursement claim" with the Controller. See Govt C §§17551, 17560. See also Govt C §17579.

The legislature may suspend mandates in the state budget. See Govt C §17581. A local agency is not required to implement any statute or executive order (or portion thereof) identified in the state's budget act as one for which reimbursement is not being provided for that fiscal year. Govt C §17581. The mandates suspended vary from year to year. See also *Carmel Valley Fire Protection Dist. v State* (2001) 25 C4th 287, 105 CR2d 636 (Govt C §17581 and certain budget measures suspending the operation of administrative regulations did not violate the separation of powers clause of the California Constitution by encroaching on the power of the executive branch of government).

© The Regents of the University of California

5. Administrative Procedures

§5.256 a. Commission on State Mandates

The Commission on State Mandates (Commission) is a quasi-judicial body established by the state legislature to carry out a comprehensive procedure for resolving claims for reimbursement of state-mandated local costs under Cal Const art XIIIB, §6. Govt C §§17500, 17527, 17550. See *California Sch. Bds. Ass'n v State* (2009) 171 CA4th 1183, 1199, 90 CR3d 501. The Commission has the sole and exclusive authority to adjudicate test claims and its decisions are final subject only to timely judicial review. 171 CA4th at 1199. There is an alternative procedure for the legislature to determine mandates (see Govt C §§17572-17574.5), but legislative determinations under this procedure are not binding on the Commission. Govt C §17574.5.

The Commission is comprised of the following state officials: Director of Finance, Treasurer, Controller, and Director of the Governor's Office of Planning and Research. In addition, the Commission has a public member appointed by the governor, and two other members appointed by the governor from among three categories: a city council member; a county supervisor; or a school board member, but no more than one member can come from any single category. Govt C §17525.

© The Regents of the University of California

§5.257 b. Test Claim Process

A "test claim" is defined as the first claim filed with the Commission on State Mandates (Commission) alleging that a particular statute or executive order imposes costs mandated by the state. Govt C §17521. Test claims must contain the required contents and must be filed in the proper form within 12 months following the later of the effective date of a statute or executive order or an agency's incurring increased costs as a result of a statute or executive order. Govt C §§17551, 17553. Claims are called "test" claims because the first claim on a given issue is used to decide whether that statute or executive order is or is not a reimbursable mandate. Other claims on that issue are held in abeyance pending decision of the test claim. The Commission seeks state agency input and the claimant is given the right to rebut. The Commission holds a hearing, makes findings, and issues a decision. See 2 Cal Code Regs §§1181-1189.61, implementing statutory test claim requirements and establishing detailed hearing procedures.

If a mandate is found, the Commission then establishes parameters and guidelines for seeking reimbursement. The Commission makes a statewide cost estimate; it then prepares and submits a claim bill to the legislature for appropriation. Govt C §§17553-17571. Simply because the Commission determines that cost to be a mandate, does not mean the legislature will appropriate money to make reimbursement. In such circumstances, the claimant may seek a court order enjoining enforcement of the mandate and a declaration that it no longer has to obey the mandate. *Grossmont Union High Sch. Dist. v State Dep't of Educ.* (2008) 169 CA4th 869, 877, 86 CR3d 890. See also Govt C §17581.

© The Regents of the University of California

§5.258 c. Controller's Claiming Instructions

The Commission on State Mandates (Commission) submits the adopted parameters and guidelines to the Controller. Within 60 days, the Controller issues claiming instructions for each reimbursable mandate to assist local agencies and school districts in claiming costs to be reimbursed. See Govt C §17558. See also Govt C §§17615-17617 (apportionment system); state controller's website at www.sco.ca.gov/ard_mancost.html.

© The Regents of the University of California

§5.259 d. Exclusive Remedy

The procedures in Govt C §§17550-17617 are the exclusive procedure by which a local agency may claim reimbursement for state-mandated costs. Govt C §17552; *Central Delta Water Agency v State Water Resources Control Bd.* (1993) 17 CA4th 621, 641, 21 CR2d 453. However, see the alternative procedure for legislatively determined mandates in Govt C §§17572-17574.5 that is not binding on the Commission on State Mandates (Commission).

PRACTICE TIPS: If a city decides to seek reimbursement, follow the following tips:

PRACTICE TIP 1: Carefully examine all of the legislative history of a bill, including all committee reports, for indications of the existence of a mandate. Also try to determine whether Legislative Counsel issued any opinion to a legislator or other person on the bill (other than the Legislative Counsel Digest in the bill itself).

PRACTICE TIP 2: Seek advice from the Commission on State Mandates' staff on procedures, regulations, and claim history.

PRACTICE TIP 3: Exhaust all available administrative remedies, not just the Commission on State Mandates remedy. For example, if there is a tax refund procedure available, use it.

PRACTICE TIP 4: Pay close attention to the administrative and judicial filing deadlines.

PRACTICE TIP 5: Consider engaging a consultant with expertise regarding mandate reimbursements. For smaller agencies, and when the amount in issue is not large, it will frequently be more efficient to contract with such a consultant than to pursue a claim individually. The League of Cities is actively involved in the mandates process and it is useful to inform the League if your city intends to pursue a test claim.

© The Regents of the University of California

6. Judicial Review

§5.260 a. Judicial Review of Commission on State Mandates Actions

The Commission on State Mandates (Commission) may order reconsideration on petition by either party within 30 days after delivery or mailing of the Commission's statement of decision. It is not clear whether filing of a petition for reconsideration is an administrative remedy that must be exhausted before filing suit. A claimant or the state may seek a writ of mandate to set aside a decision of the Commission on the ground that the decision is not supported by substantial evidence. Govt C §17559.

© The Regents of the University of California

§5.261 b. Judicial Review of Legislative Refusal to Fund Mandate

If the legislature deletes funding for an established mandate from a local government claims bill (see Govt C §17612), a local agency or school district may file in superior court for declaratory relief that the mandate is unenforceable and for an injunction against its enforcement. Govt C §17612. See also *Carmel Valley Fire Protection Dist. v State* (1987) 190 CA3d 521, 234 CR 795 (remedies for local agencies prevailing on these cases include declaration of unconstitutionality, interest, and reimbursement from funds already appropriated by legislature for another purpose). But see *Carmel Valley Fire Protection Dist. v State* (2001) 25 C4th 287, 300, 105 CR2d 636 (neither executive agency nor court has power to require legislature to appropriate money). The courts have no authority to judicially compel the legislature to appropriate sufficient funds to satisfy reimbursement of a state mandate. *County of San Diego v State* (2008) 164 CA4th 580, 79 CR3d 489.

© The Regents of the University of California

§5.262 7. References on State-Mandated Cost Reimbursements

- See §1.97 on state mandates.
- Commission on State Mandates, Guide to the State Mandate Process (2003), available at www.csm.ca.gov/docs/Guidebook.pdf.

© The Regents of the University of California

§5.263 M. Rental of Property

A city may lease its real and personal property, such as by allowing advertisements in employee newsletters or on sides of city-owned buses. In deciding whether to raise funds through the latter, attention should be paid to whether the city is creating a new public forum. On public forums, see §§9.118-9.153 (relating to the First Amendment). As to real property, state law establishes the maximum terms for many types of leases. See Govt C §§37380-37396.

© The Regents of the University of California

III. EXPENDITURES

§5.264 A. Budgets

There is no statutory requirement that cities adopt budgets. However, cities generally may not incur debt or liability that exceeds in any year the income and revenue anticipated for that year without two-thirds voter approval. See Cal Const art XVI, §18. Adopting a budget enables cities to plan expenditures to match anticipated revenues. When required by ordinance or charter, a city must adopt a budget before the beginning of every fiscal year, estimating the city's future expenditures and revenues. Govt C §§53734, 53901.

PRACTICE TIP: When it is not possible to adopt a budget as required by ordinance or charter (for example, when a delayed state budget creates too much uncertainty to allow meaningful local budgeting), a "continuing resolution" authorizing continued expenditures under the prior year's budget or some other appropriation may be necessary to authorize city staff to expend city funds.

A budget appropriates all monies of the city into various funds for expenditure. The city may establish funds for any purpose, as long as it does not do so contrary to statute or charter.

PRACTICE TIP: It is generally advisable to maintain fund accounting consistently with generally accepted accounting principles (GAAP) and generally accepted audit standards. Advice regarding these requirements is usually available from a city's outside auditor or its internal finance staff.

An appropriation is an authorization to expend funds. An expenditure is the actual payment of the funds. If an expenditure is required that differs from the budget, a further appropriation is required either as a budget amendment or as a separate appropriation.

The general fund of a government agency may be expended for any lawful purpose of that agency. *Emery v San Francisco Gas Co.* (1865) 28 C 345, 370. When a city establishes a special fund for the payment of a particular class of claims, or for a particular class of expenditures or for a particular purpose, use of those funds for another purpose requires a legal conclusion that the establishment of the special fund was not legally required. *City of Long Beach v Morse* (1947) 31 C2d 254, 188 P2d 17 (tideland revenues may not be appropriated to non-tidelands uses).

Unless exempted by the county auditor, a city must file a copy of its budget with the auditor within 60 days after the beginning of its fiscal year. Govt C §§53734, 53901; *Newton v Brodie* (1930) 107 CA 512, 290 P 1058. Most local governments use a July 1 to June 30 fiscal year. For them, this filing is due by August 30th.

Because the adoption of a budget is a legislative function, a court is generally without power to interfere in the budgetary process. *Scott v San Bernardino* (1996) 44 CA4th 684, 698, 52 CR2d 161 (writ issued to compel funding of positions in city attorney's office because functions were mandated by charter).

© The Regents of the University of California

B. Investments

§5.265 1. Permitted Investments

State law permits a city having money in its treasury not required for its immediate needs to make the following investments (see Govt C §53601):

(a) The city's own bonds;

(b) United States Treasury bills, notes, and bonds;

(c) Registered state warrants;

(d) Registered treasury notes or bonds of any state;

(e) Other California local agency bonds;

(f) Bank issues based on federal obligations;

(g) Commercial bank time drafts (bankers' acceptances);

(h) Prime quality (highest letter and numerical rating by a nationally recognized statistical rating organization (NSRO));

(i) Negotiable certificates of deposits (CDs);

(j) Repurchase or reverse repurchase agreements for authorized investments (reverse repurchase agreements made after December 31, 1994, are subject to substantial restrictions and require prior approval of the city council);

(k) "A" rated medium-term corporate notes;

(l) Shares of beneficial interest issued by diversified management companies investing in previously authorized investments;

(m) Investments in accordance with the statutory provisions on issuance of bonds if monies are held by a trustee or a fiscal agent (this is an allowable investment for the city treasurer notwithstanding the provisions of Govt C §53635);

(n) Notes or bonds secured by first priority security interest (eligible securities) of the type listed in Govt C §53651;

(o) Any mortgage pass-through security, collateralized mortgage obligation, mortgage-backed or other pay-through bond, equipment lease-backed certificate, consumer receivable pass-through certificate, or consumer receivable backed bond of a maximum 5-year maturity, from "A"-rated issuers; and

(p) Shares of a beneficial interest issued by a joint powers authority that invests in the securities and obligations authorized in (a) through (n).

Purchased securities must be physically delivered to the purchasing city or to a bank trust department. See Govt C §53601.

© The Regents of the University of California

§5.266 a. Charter Cities

Charter cities have plenary authority over "municipal affairs." See Cal Const art XI, §5. Traditionally, since charter city financing has been a matter of local concern, charter cities have been able to set up their own investment policies and programs independent from the state. A charter city would only be constrained by basic constitutional limitations. However, in the rare instance when a city charter might omit any mention of specific investing or financing procedures, it appears that the general laws would govern such procedures. *McLeod v Board of Pension Comm'rs* (1970) 14 CA3d 23, 94 CR 58.

© The Regents of the University of California

§5.267 b. Local Agency Investment Fund

The Local Agency Investment Fund (LAIF) is a special fund in the state treasury created by state law. See Govt C §§16429.1-16429.4. This law permits a local government official, with the consent of the governing body of that agency, to remit money in its treasury not required for immediate needs to the state treasurer for deposit in this fund for investment purposes. Investment in the LAIF allows a city to choose the length of time its money will remain in the fund. Interest on the deposit is paid at the end of each quarter and the fees charged by the LAIF are limited to one-half of 1 percent of the earnings of the fund. To obtain further information, contact the Investment Division of the State Treasurer's office ((916) 653-3001).

© The Regents of the University of California

§5.268 2. Investment Policy

A city is not required to authorize the full range of investments allowed by state law. See Govt C §53601. A city council should work with the city treasurer or other official in determining what range of investments the policy should allow. For example, small cities may find it appropriate to limit city investments to the Local Agency Investment Fund (LAIF) (see Govt C §§16429.1-16429.4), passbook savings accounts, negotiable certificates of deposits (CDs), United States Treasury bills, notes, and bonds, or others. See permitted investments in §5.265. The investment policy will vary depending on the budget size, investment sophistication, and other characteristics of each city. The city should also evaluate the LAIF. See §5.267. The city may also specify the percentage of funds that may be invested in securities of various maturities. The California Municipal Treasurers Association has drafted a form investment policy that may assist a city in adopting its own policy. Many cities make their investment policies available online.

CAUTION: A city must invest its funds as a trustee acting in accordance with the prudent investor standard. See Govt C §53600.3.

© The Regents of the University of California

3. Investment Authority

§5.269 a. City Council

A city council may invest city funds not required for its immediate needs. See Govt C §53601 (listing permissible investments). See also §5.265. A city council may annually delegate this investment authority to its appointed or elected city treasurer by ordinance or resolution. If a city delegates investment authority to the city treasurer, the treasurer must make a monthly report of any investment transactions to the city council. See Govt C §53607. Once delegated, the governing body may not set conditions on contracts for investment management services executed by the treasurer. See 88 Ops Cal Atty Gen 62 (2005) (construing authority of county board of supervisors under statute analogous to Govt C §53607).

© The Regents of the University of California

§5.270 b. City Treasurer

The city treasurer is responsible for the safe deposit of all monies in the custody of the city. See Govt C §53635. In addition, the city treasurer may annually render to the city council (or any investment committee created by the city council) a statement of investment policy to be considered by the city council at a public meeting. See Govt C §53646(a)(2). The legislature recently eliminated this investment policy statement as a mandate, with encouragement to cities to continue although reimbursements may not be coming. See Govt C §53646(g).

PRACTICE TIP 1: Experts disagree about whether investment authority can be delegated to an official other than the treasurer, even though the delegee may be the treasurer's supervisor.

PRACTICE TIP 2: If such delegation is necessary or desirable in a specific case, the city council should specify explicitly that the city manager has the duty and authority to invest city funds. A city manager may have investment authority under Govt C §53635 if he or she is authorized by the city to receive payment of any monies. However, such a delegation would be subject to the restrictions on incompatible offices and holding dual offices. See *People ex rel Chapman v Rapsey* (1940) 16 C2d 636, 107 P2d 388; 22 Ops Cal Atty Gen 83 (1953).

For reporting requirements, see §5.272.

© The Regents of the University of California

§5.271 c. City Manager

A city's code usually lists the duties of the city manager. These duties normally require the city manager to supervise and administer all departments and personnel in the city and thus may create some responsibility with respect to the management of city investments. For discussion of delegation of duties of the city treasurer to the city manager, see §5.270.

© The Regents of the University of California

§5.272 4. Reporting Requirements

The city treasurer is encouraged to give certain reports on investments to the legislative body, and under certain circumstances to the California Debt and Investment Advisory Commission. Govt C §53646.

© The Regents of the University of California

§5.273 5. Deposits

Cities may make three types of deposits (Govt C §53632):

- inactive;
- active; and
- interest-bearing active.

Active deposits are deposits that are payable on demand; other deposits are "inactive deposits." Any deposits made by a city treasurer are subject to state law restrictions administered and enforced by the Local Agency Deposit Security Administration. See Govt C §§53630-53692; 2 Cal Code Regs §§16001.1.1-16010.1.3. In general, these require institutions accepting local deposits to provide greater security for those deposits than is required for ordinary bank deposits.

© The Regents of the University of California

C. Appropriations, Warrants, and Payments

§5.274 1. Appropriations

A specific appropriation is an act by which a named sum of money is set apart in the treasury and made available for the payment of particular claims or demands. The city may accomplish this by adopting a budget or passing an appropriations ordinance or resolution. If a proposed appropriation exceeds the amount estimated in the budget for such an expenditure, the city council should amend the budget to allow for such an appropriation. An appropriation may not be expended for anything other than a lawful public purpose of the city. Appropriations for a particular purpose cannot be used for a different purpose. *Rancho Santa Anita, Inc. v Arcadia* (1942) 20 C2d 319, 125 P2d 475.

For a discussion about city budgets, see §5.264.

© The Regents of the University of California

2. Warrants and Payments

§5.275 a. The Warrant Process

California cities are authorized to pay funds through the warrant process. A warrant is an order by which the drawer, usually the city council or city treasurer, authorizes the bank or other depository of city funds to pay a particular sum of money. A city may use facsimile signatures for any instrument of payment after filing a certification under Govt C §5501. If funds are available for the payment of an approved claim, the warrant becomes a check directing the bank or depository of city funds to pay the funds to the payee. When funds are unavailable, the warrant becomes an interest-bearing municipal obligation. Govt C §53911. See Govt C §§53910-53914.

© The Regents of the University of California

§5.276 b. Local Practices

A city may adopt such further practices for payment of warrants as it considers convenient, efficient, and in the public interest. Govt C §53910. To avoid city council approval of every minor equipment purchase or service payment, a city council often will delegate payment authority to certain city personnel, allowing them to authorize payment of a claim from a particular budget account. So long as the budget provides for such a payment, the city employee may authorize payment without city council approval. Usually, the city council will retain authority to approve payments exceeding a certain amount.

© The Regents of the University of California

D. Limitations on Expenditures

§5.277 1. Municipal Purpose Doctrine—Gifts of Public Funds Prohibited

The legislature has no power to authorize a city to make "any gift … of any public money or thing of value to any individual, municipal or other corporation whatever." Cal Const art XVI, §6. Because a charter city derives its powers from a charter under the constitution, rather than the legislature, this section does not apply to charter cities. *Los Angeles Gas & Elec. Corp. v City of Los Angeles* (1922) 188 C 307, 205 P 125. Gift prohibitions may, however, be included in a city's charter.

For related material, see §1.32.

© The Regents of the University of California

§5.278 a. Gift Versus Public Purpose

In determining whether an expenditure of public funds is a gift, the two primary questions to be considered are:

- whether the funds are to be used for a "public" or a "private" purpose, and
- whether the funds are to be used for a public purpose of the agency making the expenditure.

If they are for a "public" purpose of the city making the expenditure, they are not a gift within the meaning of Cal Const art XVI, §6. *County of Alameda v Janssen* (1940) 16 C2d 276, 106 P2d 11. A mere incidental benefit to an individual does not make a "public" purpose a "private" purpose. *American Co. v City of Lakeport* (1934) 220 C 548, 32 P2d 622. Thus, social welfare expenditures of counties are not illegal gifts. See, *e.g., City & County of San Francisco v Collins* (1932) 216 C 187, 13 P2d 912.

The determination of what constitutes a "public" purpose is primarily a matter for the legislature, and its discretion will not be disturbed by the courts so long as the determination has a reasonable basis. *Board of Supervisors v Dolan* (1975) 45 CA3d 237, 119 CR 347.

PRACTICE TIP: An excellent vehicle for articulating the public purpose of a city expenditure is a contract with the recipient of the funds that identifies the public purpose prompting the expenditure as the consideration for making it.

© The Regents of the University of California

§5.279 b. Specific Examples Regarding Prohibited Gifts

These are examples of court interpretations about alleged gifts of public funds:

- **No gift regarding retirement allowances.** The "gift-of-public-funds" prohibition does not prohibit the payment of pensions, even when granted retroactively. See *City of Downey v Board of Admin.* (1975) 47 CA3d 621, 121 CR 295. But see Cal Const art XI, §10(a) (prohibiting retroactive compensation), discussed in §4.29, and Cal Const art IV, §17 (also prohibiting retroactive compensation), discussed in §5.280.
- **No gift regarding housing.** Transfer of land from a housing authority to a private corporation for construction of a low- and moderate-income housing project is not a gift of public funds. *Winkelman v City of Tiburon* (1973) 32 CA3d 834, 108 CR 415.
- **No gift regarding public assistance.** Proposed bond issue for the relief of indigent sick and poor is not a gift of public funds. *City & County of San Francisco v Collins* (1932) 216 C 187, 13 P2d 912.
- **Gift found regarding settlement agreements.** When funds are expended under a settlement agreement in exchange for relinquishment of a wholly invalid claim, no "public" purpose is achieved. *Orange County Found. v Irvine Co.* (1983) 139 CA3d 195, 188 CR 552.
- **Gift found regarding payments to other agencies.** Payments of city funds to other public agencies for their purposes (with no benefit flowing back to the city and its citizens) are not valid expenses and are gifts of public funds. See *Santa Barbara County Water Agency v All Persons & Parties* (1957) 47 C2d 699, 306 P2d 875, overuled on other grounds by *Ivanhoe Irrig. Dist. v McCracken* (1958) 357 US 275, 2 L Ed 2d 1313, 78 S Ct 1174; *City of Oakland v Garrison* (1924) 194 C 298, 228 P 433; *Golden Gate Bridge & Highway Dist. v Luehring* (1970) 4 CA3d 204, 84 CR 291; *Ojai v Chaffee* (1943) 60 CA2d 54, 140 P2d 116. But see *White v State* (2001) 88 CA4th 298, 105 CR2d 714 (statutes enacted to assist Orange County in recovering from bankruptcy by reallocating sales and property taxes from Orange County local agencies to the County's general fund were not gifts of public funds; the same general group of taxpayers who paid these taxes will benefit from the transfer).

© The Regents of the University of California

§5.280 2. Retroactive Compensation; Unauthorized Agreements

The legislature has no power to authorize a city to grant extra compensation to any public officer, public employee, or contractor after service has been rendered or to authorize payment of a claim under an agreement made without authority of law. Cal Const art IV, §17. Because charter cities derive their powers from a charter under the constitution, rather than from the legislature, this section does not apply to charter cities. Cal Const art XI, §10(a) (also prohibiting retroactive compensation) (see §4.29). Similar prohibitions may, however, be included in a city's charter.

© The Regents of the University of California

§5.281 3. Gann Limit

Proposition 4, known as the Gann Limit, was approved by the voters in 1979. Proposition 4 added article XIIIB to the California Constitution. The goal of Proposition 4 was to limit the growth in appropriations of both state and local government to changes in the cost of living and population in order to control spending levels. See Cal Const art XIIIB. Proposition 4 also attempted to clarify the fiscal roles played by the various branches and levels of government and to ensure prompt return to the people of any surplus funds.

© The Regents of the University of California

§5.282 a. Formula to Limit Appropriations

Proposition 4 imposes appropriations limits to complement taxing limits imposed by Proposition 13. On Proposition 13, see §5.8. Proposition 4 restricts annual appropriations from the "proceeds of taxes" (a defined term; see Cal Const art XIIIB, §8(c)) to an amount set by a formula involving a base year with allowable adjustments (increases) based on increases in population and inflation. The formula is relatively easy to follow, but anomalies can result primarily from exemptions such as state mandates, debt service or indebtedness, treatment of special districts, and treatment of certain income as proceeds of taxes.

© The Regents of the University of California

§5.283 b. Statutory Provisions

These are the California statutes regarding the Gann Limit:

- **Statutory scheme:** The provisions of Cal Const art XIIIB are implemented by Govt C §§7900-7914.
- **Adoption of annual appropriations limit:** Each local agency is required to adopt an annual appropriations limit by resolution. Govt C §7910.
- **Determination of appropriations limit:** The appropriations limit is determined by a mathematical calculation that multiplies the base year limit by certain enumerated factors. Govt C §7902.
- **Distinguishing proceeds of taxes:** Because only proceeds of taxes are subject to the appropriations limit, attention must be given to what these proceeds of taxes include. See Govt C §7901(i).
- **Transfer of services:** An adjustment in each agency's appropriations limit is required when the financial responsibility for providing such services is transferred from one entity to another. Cal Const art XIIIB, §3(b).
- **Voter approval of Gann Limit Override:** The voters may approve an increase in an agency's appropriations (or Gann) limit by majority vote, but this approval must be renewed every 4 years. Cal Const art XIIIB, §4.

PRACTICE TIP: If a tax measure is placed before the voters that might cause the city to exceed its appropriations limit, the city may include a Gann Limit override in the tax ordinance. In future years, the override can be renewed by a stand-alone measure or, if the tax has a sunset date, may be combined with an extension of that date.

c. Case Law Interpretations

§5.284 (1) State and Federal Mandates

City of Sacramento v State (1990) 50 C3d 51, 266 CR 139 holds that local costs of providing unemployment insurance coverage are not subject to mandates subject to subvention under Proposition 4 (see Cal Const art XIIIB, §6, discussed in §§5.246-5.262) but the "mandate" to bear these costs was a constitutional grant to tax and spend as necessary to pay for the insurance coverage notwithstanding the appropriations limit.

© The Regents of the University of California

§5.285 (2) Redevelopment

Huntington Park Redev. Agency v Martin (1985) 38 C3d 100, 211 CR 133, and *Bell Community Redev. Agency v Woosley* (1985) 169 CA3d 24, 214 CR 788, address the relationship between a city and its redevelopment agency as it relates to an allowable adjustment of appropriations limits and the transfer of financial responsibility for a particular program. *Bell* also spells out some of the nuances in the "bonded indebtedness" exception.

© The Regents of the University of California

§5.286 (3) Assessment Districts

County of Placer v Corin (1980) 113 CA3d 443, 170 CR 232, clarifies that special assessments are not "proceeds of taxes." For further discussion of assessments, see §§5.121-5.157.

© The Regents of the University of California

§5.287 (4) Pension Contributions

San Francisco Taxpayers Ass'n v Board of Supervisors (1992) 2 C4th 571, 7 CR2d 245, holds that contributions to employee pension funds are "appropriations subject to limitation" within the meaning of Cal Const art XIIIB. But see *Carman v Alvord* (1982) 31 C3d 318, 182 CR 506 (holding that under certain conditions a public entity's contribution to a pension fund was an "indebtedness" exempt from the taxing limits of art XIIIA (Proposition 13)).

© The Regents of the University of California

§5.288 d. References on Appropriations Limit

For related material, see §1.53, as well as the following references:

- Assembly Revenue and Taxation Committee, *Government Appropriations Limit: Article XIIIB of the Constitution,* chap 5 of Revenue and Taxation Reference Book 2008 (March 2009);
- League of California Cities, Uniform Guidelines for the Implementation of Article XIIIB of The California Constitution (1991); and
- Office of the Legislative Analyst, An Analysis of Proposition 4, the Gann "Spirit of 13" Initiative (Report 79-20, December 1979).

© The Regents of the University of California

§5.289 4. Debt Limitation

No city may incur any indebtedness exceeding in any year the income and revenues provided for such year without the consent of two-thirds of the voters. Cal Const art XVI, §18. But see Cal Const art XIIIA, §1 (discussed in §§5.8, 5.19-5.21), which limits the use of the taxing power to secure debt. On the debt limitation, see §§1.46-1.50.

© The Regents of the University of California

§5.290 a. Purposes of Debt Limitation

The three purposes of the constitutional debt limitation are::

- To avoid a situation in which the holders of an issue of bonds might compel an increase in taxes or foreclose on a city's assets (*City of Redondo Beach v Taxpayers, Property Owners, Citizens & Electors* (1960) 54 C2d 126, 5 CR 10; *County of Shasta v County of Trinity* (1980) 106 CA3d 30, 165 CR 18);
- To afford the taxpayers an opportunity to approve or disapprove long-term debt (*Palm Springs v Ringwald* (1959) 52 C2d 620, 342 P2d 898); and
- To end extravagant expenditures on public improvements (*Long Beach v Lisenby* (1919) 180 C 52, 179 P 198).

© The Regents of the University of California

b. Exceptions to the Debt Limitation

§5.291 (1) Obligations Imposed by Law

The debt limitation applies only to debts the city has voluntarily incurred, not to those imposed by law. Examples of obligations imposed by law include:

- Obligation of city to transfer money into a bond redemption fund under Improvement Bond Act of 1915 (*American Can v City of Lakeport* (1934) 220 C 548, 32 P2d 622).
- Obligation of counties to provide adequate facilities for courts (*County of Los Angeles v H. L. Byram* (1951) 36 C2d 694, 227 P2d 4).
- Obligation of city to provide police and fire protection (*City of La Habra v Pellerin* (1963) 216 CA2d 99, 30 CR 752. But see *City of Saratoga v Huff* (1972) 24 CA3d 978, 101 CR 32).
- Obligation of city to defend claims against public employees acting within the scope of employment. Govt C §§995 and 996; *Wright v Compton Unified Sch. Dist.* (1975) 46 CA3d 177, 120 CR 115.

© The Regents of the University of California

§5.292 (2) Special Fund Doctrine

The special fund doctrine is a judicially created exception to the debt limitation for obligations paid only from a special fund and for which the general fund or general tax levies are not liable. *City of Redondo Beach v Taxpayers, Property Owners, Citizens & Electors* (1960) 54 C2d 126, 5 CR 10. The special fund doctrine may not apply if there is a direct or indirect obligation of, or other loss to, the general fund should the special fund prove insufficient to pay the debt. *Garrett v Swanton* (1932) 216 C 220, 13 P2d 725, overruled on other grounds by *City of Oxnard v Dale* (1955) 45 C2d 729, 290 P2d 859. However, if a debt falls within the scope of the special fund doctrine, discretionary payments from the general fund do not preclude application of the doctrine. *Board of Supervisors v Dolan* (1975) 45 CA3d 237, 119 CR 347. Examples of the special fund doctrine include:

- Revenue bonds to construct sewer improvements (*City of Oxnard v Dale* (1955) 45 C2d 729, 290 P2d 859); and
- Bonds issued under the Marks-Foran Residential Rehabilitation Act of 1973 (Health & S C §§37910-37964), which by their terms do not obligate the general fund or require taxes.

© The Regents of the University of California

§5.293 (3) Service Contracts and Leases

The debt limit does not apply to obligations that provide for payments at different times as long as the annual payments do not exceed yearly income and the obligation only arises from year to year in separate amounts as the property or services are furnished (such as a lease with a clause allowing the city to terminate occupancy if the city council does not appropriate funding for rent in the annual budget). The debt limit does apply, however, to conditional sales contracts. *McFayden v Town of Calistoga* (1925) 74 CA 378, 240 P 523. See also *County of Sacramento v Assessment Appeals Bd.* (1973) 32 CA3d 654, 108 CR 434. Examples of long-term obligations that are not subject to the debt limit are:

- Lease with an option to buy, when title vests at end of lease term and that creates no immediate indebtedness for aggregate amount of rent (*Lagiss v County of Contra Costa* (1963) 223 CA2d 77, 35 CR 450);
- Ground lease of county property with a lease back to the county after construction of public facilities (*County of Los Angeles v Nesvig* (1965) 231 CA2d 603, 41 CR 918); and
- Contract for work done in the future to be paid in installments if the installments payable during the future year do not exceed that year's revenue (*Smilie v Fresno County* (1896) 112 C 311, 44 P 556).

For reconfirmation of prior case law, see *Rider v City of San Diego* (1998) 18 C4th 1035, 77 CR2d 189.

© The Regents of the University of California

§5.294 (4) Excluded Obligators

The debt limitation of Cal Const art XVI, §18 only applies to the entities named in §18, such as cities. It does not apply to a city's redevelopment agency, parking authority, or housing authority.

© The Regents of the University of California

§5.295 c. Statutory Provisions

In addition to the constitutional debt limitation, the Municipal Improvement Bond Act of 1901 limits the total indebtedness secured by general obligations of the city to a certain percentage of all real and personal property of the city. See Govt C §§43600-43638. See also §5.221.

© The Regents of the University of California

§5.296 d. Miscellaneous Election Issues

The requirement of two-thirds voter approval means two-thirds of those voting, not two-thirds of all qualified electors. *San Joaquin Light & Power Corp. v Madera* (1917) 175 C 229, 165 P 701.

Although the election must be a special election—one held for the purpose of voting on the indebtedness—it may be consolidated with a general election. *Howland v Board of Supervisors* (1895) 109 C 152, 41 P 864.

© The Regents of the University of California

§5.297 IV. ECONOMIC DEVELOPMENT

Although the basis of a city's authority to provide financial or other forms of assistance for purposes of economic development is not always clear, cities increasingly provide such assistance, usually citing the general police power authority conferred by Cal Const art XI, §7. Before agreeing to provide such assistance, however, a city should carefully consider whether the assistance contemplated would violate the prohibition against making a gift of public funds, or any specific statutory prohibitions, or trigger the requirement that prevailing wages be paid on the private development. See §5.298. In addition, a city should make appropriate findings based on evidence in the record, on the public purpose being furthered by the provision of the specific assistance, and that the amount of private benefit does not outweigh the public benefit. *Albright v City of South San Francisco* (1975) 44 CA3d 866, 118 CR 901.

© The Regents of the University of California

§5.298 A. Types of Economic Development Assistance

The following are types of assistance a city may render:

- **Subsidy or reduction of fees.** A city may agree to subsidize or reduce city fees that would otherwise be paid to the city. However, any subsidy or reduction that is more than a de minimis amount may trigger a requirement that prevailing wages be paid on the development, as described in §5.300. Moreover, depending on the nature of the fee, the city may need to fund the fee waiver from non-fee revenues to avoid an improper cross-subsidy of some fee-payers by others. See §§5.158-5.186.
- **Construction of off-site public improvements.** A city has the general authority to determine to construct or pay for off-site public improvements, even if they benefit a private development. Govt C §40401.

PRACTICE TIP: A city may agree to rebate or pay to a business all or a portion of the sales tax or transient occupancy tax generated by that business as an incentive for a business to operate or expand its operations in a city, subject to certain limitations described in §§5.299-5.300. See Govt C §53084.5.

- **Sale or lease of property.** A city may sell or lease its property subject to the requirements discussed in chap 8. However, if the property is leased or sold at below fair market rates, it may trigger a requirement that the private entity pay prevailing wages on the development, as described in §7.83.
- **Creation of financing authority.** A city may use its authority to participate in the formation of a financing authority to issue bonds, the proceeds of which can be used to construct facilities, such as hotels, that can be managed and operated by private entities. These arrangements are often quite complex and involve multiple layers of legal relationships; they are further discussed in §§5.219-5.245.

© The Regents of the University of California

B. Constraints on Economic Development

§5.299 1. Statutory Prohibitions

Local agencies (including chartered and general law cities and counties) and redevelopment agencies are prohibited from providing any form of financial assistance to a vehicle dealer or big box retailer, or a business entity that sells or leases land to a vehicle dealer or big box retailer, that is relocating from the jurisdiction of one local agency to another in the same market area. Govt C §53084; Health & S C §33426.7. Financial assistance includes, but is not limited to:

- use of public funds to pay for parking improvements;
- any tax incentive;
- sale or lease at less than fair market value or payment for; or
- forgiveness or reduction of fees.

A vehicle dealer is a retailer who is also a dealer as defined in Veh C §285. A big box retailer is one that generates sales tax and operates a store that exceeds 75,000 square feet of gross buildable area, notwithstanding the absence of a large parking area, prominent signage, or cash register sales (as opposed to telephone or catalog sales, as generated by a warehousing or distribution facility). Govt C §53084(b)(1); Health & S C §33426.7(b)(1). Se also *City of Carson v City of La Mirada* (2004) 125 CA4th 532, 541, 22 CR3d 815.

Additionally, local agencies are prohibited from entering into any form of agreement to pay or rebate sales tax revenue when (Govt C §53084.5.)

- The agreement results in a reduction in sales tax received by another local agency from a retailer within that agency's territorial jurisdiction; and
- The retailer maintains a physical presence within the territorial jurisdiction of that other agency.

This restriction does not apply if the retailer expands its operations so that it is conducting a comparable operation within both jurisdictions. Govt C §53084.5(a)(2).

© The Regents of the University of California

§5.300 2. Prevailing Wages

Providing public financial assistance to otherwise private projects triggers a requirement that prevailing wages be paid for any construction-related work on such projects. The California prevailing wage laws are set forth in Lab C §§1720-1815. The definition of work that is "paid for in whole or in part out of public funds" includes fees, costs, rents, insurance, or bond premiums, loans, interest rates, or other obligations that would normally be required in the execution of a contract that are paid, reduced, or charged at less than fair market value, waived, or forgiven by the public agency. Lab C §1720.

Labor Code §1720 provides several exceptions to the prevailing wage requirement. If a city agrees to pay for off-site public improvements in connection with a private project and the city contributes no more money, or other equivalent, to the project, then only the public improvement work is subject to prevailing wages. Lab C §1720(c)(2). If a city reimburses a developer or business for costs that would normally be borne by the public, or directly or indirectly subsidizes a private development that is de minimis in the context of the project, the private development is not subject to the prevailing wage requirement. However, Lab C §1720 does not define "de minimis." Under certain specified conditions, certain types of residential projects are exempt from the payment of prevailing wages. Lab C §1720(c)(4)-(c)(6), (d).

PRACTICE TIP: Subjecting a private project to a requirement to pay prevailing wage rates for all construction-related work may have significant detrimental financial impact on the project; it can easily outweigh the value of the subsidy. A requirement to pay prevailing wage rates may increase a project's construction cost between 10 percent and 40 percent, depending on the region and type of construction. Thus, local agencies should weigh the benefit of providing public assistance to a project against an increase in project costs if prevailing wages are triggered. To the extent possible, local agencies may wish to consider providing assistance within the confines of certain statutory exceptions, or safe harbors, set forth in Lab C §1720 to minimize or eliminate this problem.

If a project is determined to trigger prevailing wages after the fact, the local government can be liable for the unpaid wages and penalties. Lab C §1726. See *Landeros v Department of Corrections* (2002) 99 CA4th 271, 120 CR2d 867. Accordingly, the local government should consider requiring the private developer with whom it contracts to provide a project subsidy to indemnify the city for any such liabilities which may accrue.

© The Regents of the University of California

V. REDEVELOPMENT

A. Purpose of Redevelopment Law

§5.301 1. Redevelopment Defined

"Redevelopment" is defined in the Community Redevelopment Law (CRL) as the planning, development, replanning, redesign, clearance, reconstruction, rehabilitation, alteration, provision of open space, or any such combination. Health & S C §§33010, 33020-33021. Redevelopment under the CRL is to be undertaken in accordance with the authority and powers enumerated or implied under the CRL, and it may therefore be distinguished from the broader concept of "redevelopment" in the land use context.

© The Regents of the University of California

§5.302 2. Authority

Authority for community redevelopment in California is found in both the California Constitution and statutes. See Cal Const art XVI, §16; Health & S C §§33000-33855. The basic objective of the law and the fundamental purpose of redevelopment agencies are to eliminate "blight" in a redevelopment project area under a redevelopment plan. Blight is defined by statute. See Health & S C §§33030-33031. Natural disasters may also serve as a basis for creating a redevelopment area. Health & S C §34000. Special criteria may define blight on closed military bases. Health & S C §33492.10.

© The Regents of the University of California

§5.303 3. History

The Community Redevelopment Law (CRL) (Health & S C §§33000-33855) was enacted in 1945, although the present redevelopment structure was created in 1951 and 1952 when the California Constitution and the pertinent statutes were amended to provide for a tax increment allocation system. The concept of "tax increment" is discussed in §§5.316-5.341. The CRL does not contemplate wholesale condemnation and clearance, as older urban renewal programs did. Instead the CRL contemplates the use of redevelopment powers to assist the private sector to redevelop blighted areas by a combination of demolition and new construction, site assembly, owner participation, and rehabilitation.

© The Regents of the University of California

§5.304 4. Agency Powers and Authority

To eliminate blight, a redevelopment agency is given a broad array of powers, including an extraordinary use of the power of eminent domain. The redevelopment of blighted areas is a public use and purpose for which private property may be acquired. Health & S C §§33037, 33391. See also *Kelo v City of New London* (2005) 545 US 469, 489 n23, 162 L Ed 2d 439, 125 S Ct 2655; *In re Redevelopment Plan for Bunker Hill Urban Renewal Project 1B of Community Redev. Agency* (1964) 61 C2d 21, 66, 37 CR 74, cert denied sub nom *Babcock v Community Redev. Agency* (1964) 379 US 899, cert denied sub nom *Trautwein v Community Redev. Agency* (1964) 379 US 28; *Anaheim Redev. Agency v Dusek* (1987) 193 CA3d 249, 263, 239 CR 319. The extraordinary aspect of this authority of redevelopment agencies is the ability to take private property from one private owner for redevelopment by another private party rather than for a public use by a government agency. As such, redevelopment can be extraordinarily controversial.

© The Regents of the University of California

B. Redevelopment Agencies

§5.305 1. Agencies of the State

Redevelopment agencies are creatures of statute, which exist in every community in the state but are not operative until activated by ordinance. This ordinance is subject to referendum. Health & S C §§33100-33105. Redevelopment agencies carry out state policy and do not function as local entities. In effect, they are state agencies for local purposes. See *Andrews v City of San Bernardino* (1959) 175 CA2d 459, 346 P2d 457; *Walker v Salinas* (1976) 56 CA3d 711, 128 CR 832; *Kehoe v City of Berkeley* (1977) 67 CA3d 666, 673, 135 CR 700.

© The Regents of the University of California

§5.306 2. Legal Status

Redevelopment agencies are public bodies, corporate and political, in each community. Health & S C §33100. A "community" includes cities, counties, cities and counties, Indian tribes, and bands or groups that are incorporated or that otherwise exercise some local governmental powers. Health & S C §33002.

© The Regents of the University of California

3. Types of Redevelopment Governing Boards

§5.307 a. Separate Agency

On adoption of an ordinance declaring the need for the redevelopment agency to function, the mayor, with the approval of the legislative body, appoints as members of the redevelopment agency five resident electors. The legislative body may, by ordinance, increase the number of members appointed to the redevelopment agency to seven. Health & S C §33110.

© The Regents of the University of California

§5.308 b. Legislative Body as the Agency

Alternatively, the legislative body may declare itself to be the redevelopment agency by ordinance. Health & S C §33200. In such case, the community's legislative body is vested with all the rights, powers, duties, privileges, and immunities vested by the Community Redevelopment Law (CRL) in the redevelopment agency. A member of the legislative body may refuse to serve on the redevelopment agency board. If this occurs, the legislative body must appoint an elector of the community to serve the term of the replaced member. Health & S C §33200.

© The Regents of the University of California

§5.309 c. Changing From Separate Agency to Combined Agency

Under certain circumstances, a legislative body desiring to declare itself to be the redevelopment agency must hold a public hearing on a proposed ordinance declaring itself to be the redevelopment agency. This requirement applies when a separate appointive redevelopment agency has been in existence for at least 3 years. Health & S C §33200. The legislative body must also prepare a report to substantiate and explain the determination that it will declare itself to be the redevelopment agency. The ordinance must make findings that such action will serve the public interest and promote the public safety and welfare in a more effective manner and that there has been a full public disclosure of all reports and proposals relating to its intent to declare itself the redevelopment agency. Health & S C §33200.

© The Regents of the University of California

§5.310 d. Separate Community Development Commission

The legislative body may create a public body, corporate and political, known as the "community development commission." Health & S C §34110. The commission is created to give a community the option of operating its redevelopment agency and housing authority under a single operating entity. This enables the entity to exercise such powers relating to community development as may be delegated to it by the legislative body. Health & S C §34112. The legislative body must declare by ordinance the need for the commission to function (Health & S C §34115), and it may, at its option, declare a need for the commission to function only with respect to a redevelopment agency. This ordinance is subject to referendum. Health & S C §34115.5.

The mayor (or chairperson of the board of supervisors), with the approval of the legislative body, appoints the number of resident electors of the community as commissioners as the legislative body prescribes by ordinance. Health & S C §34130. Alternatively, the legislative body may, by ordinance, declare itself to be the commission. Health & S C §34120.

If the legislative body declares itself to be the redevelopment commission combined with the housing authority, it must appoint two tenants of the housing authority (if the authority has any tenants) as additional commissioners. Health & S C §34120(b).

© The Regents of the University of California

4. Advisory Bodies

§5.311 a. Legislative Body With Commission

If a legislative body has declared itself to be the redevelopment agency, it may create a "community redevelopment commission" by ordinance. Health & S C §33201. Such a commission must have at least seven members. Health & S C §33201. The function of the commission is to prepare a redevelopment plan for each redevelopment project area, hold and conduct hearings, adopt and submit the plan to the legislative body together with required reports, and perform such other advisory functions as may be delegated to it by the legislative body. Health & S C §33202.

© The Regents of the University of California

§5.312 b. Community Development Committee

If a legislative body has declared itself to be the community development commission, it may by ordinance create, as an advisory body to the commission, a "community development committee" of not more than seven members (or not more than nine members if housing authority members are appointed as an alternative to the appointment of tenants of the housing authority as commissioners). Health & S C §34120.5.

© The Regents of the University of California

§5.313 5. Staffing

A redevelopment agency may select, appoint, and employ such permanent and temporary officers, agents, counsel, and employees as it requires and may contract with the Department of Housing and Community Development or any other agency for necessary staff services. Health & S C §33126.

© The Regents of the University of California

§5.314 6. Powers

As a general matter, a redevelopment agency's powers may be exercised only within adopted project areas. However, a redevelopment agency can expend monies outside of a project area for low- and moderate-income housing or publicly owned facilities if certain findings are made. Health & S C §§33334.2(g), 33445, 33445.1. A redevelopment agency has broad authority to take a variety of actions, including but not limited to:

- Acquire real and personal property by negotiation or donation; or real property by eminent domain (Health & S C §33391);
- Sell or lease property to private parties for fair market value or for a discount based on the uses permitted by the redevelopment plan (*i.e.,* the "reuse value") (Health & S C §§33430-33433);
- Contract for public works in redevelopment project areas (Health & S C §§33440, 33445) and pay prevailing wages for projects exceeding $5000 (Pub Cont C §20688.2);
- Provide for site preparation work (demolition, hazardous substance remediation, clearance, and other work) for private developments (Health & S C §§33440, 33459) (Polanco Redevelopment Act);
- Insure, rent, manage, operate, repair, and clear property owned by the redevelopment agency, rehabilitate property in anticipation of resale, and hold property for a reasonable time pending disposition of property (Health & S C §§33400, 33402);
- Establish design controls to implement redevelopment plans and review demolition and building permits for conformity with a redevelopment plan and designs for development (Health & S C §§33020-33021, 33128);
- Increase, improve, and preserve the community's supply of low- and moderate-income housing (Health & S C §33334.2);
- Acquire, demolish, repair, and replace buildings, low and moderate housing, or other improvements damaged or destroyed due to a state or nationally declared emergency (Health & S C §§34000-34008); and
- Borrow, invest, and loan funds (Health & S C §§33601, 33603, 33740, 33750, 33760, 33777.5).

© The Regents of the University of California

§5.315 7. Meetings

Redevelopment agencies are local agencies for purposes of the Ralph M. Brown Act (Brown Act) (Govt C §§54950-54963) and its open-meeting requirements therefore apply. See §§2.5, 2.36-2.118 regarding the Brown Act and open meeting requirements.

© The Regents of the University of California

§5.316 C. Plan Adoption Procedures

The Community Redevelopment Law (CRL) creates a statutory process for adopting redevelopment plans. The adoption of a redevelopment plan is a discretionary act subject to the California Environmental Quality Act (Pub Res C §§21000-21177). See *Dusek v Redevelopment Agency of the City of Anaheim* (1985) 173 CA3d 1029, 1036, 219 CR 346. The procedures require opportunity for citizens to provide input. Cities and counties may undertake joint redevelopment activity for project areas consisting of incorporated and unincorporated areas.

© The Regents of the University of California

§5.317 1. Survey Area

Designation of a survey area (a geographic area in which redevelopment is proposed) is the first step to determine whether a redevelopment project is feasible. Health & S C §§33310-33312. Designation of the survey area is significant because the final project area for the redevelopment plan must be within the designated boundaries of the survey area; territory cannot be added later without restarting the process.

In addition, any person, group, association, or corporation may request in writing that the legislative body designate a survey area or areas for study and may submit plans for the proposed redevelopment of those areas. Health & S C §33311.

Survey areas may be designated by resolution of the legislative body or, if authorized by the legislative body, by resolution of the planning commission or redevelopment agency board. Health & S C §33310. The resolution designating such area or areas must contain specified findings. Health & S C §33312.

© The Regents of the University of California

2. Project Area Selection and Preliminary Plans

§5.318 a. Initial Feasibility Study

An initial feasibility study is ordinarily conducted by independent consultants before any serious commitment is made to proceed with adoption of a redevelopment plan. This study is ordinarily used to help select the boundaries of the project area, focusing on the existence of blighting conditions in the area, the potential land uses and market demand for such uses, and financial feasibility. The elimination of "blighted" areas is the public purpose that courts have established as the justification for allowing a redevelopment agency to impose design controls and use restrictions, use its power of eminent domain, and expend public funds. *Redevelopment Agency v Hayes* (1954) 122 CA2d 777, 797, 266 P2d 105, cert denied (1954) 348 US 897.

© The Regents of the University of California

§5.319 b. Blight Defined

The existence of blight (see Health & S C §§33030-33039 (defining blight)) is the "sine qua non" of the process to adopt a redevelopment plan. Blight, which applies to the area as a whole and not necessarily to any particular property, exists in a predominantly urbanized (as set forth in Health & S C §33320.1) area that is characterized by one or more of the conditions listed in Health & S C §33031(a) and one or more of the conditions listed in Health & S C §33031(b). The conditions must be so prevalent and substantial, and described with "specific, quantifiable evidence," as to cause a reduction of (or lack of) proper use of the area to such an extent it constitutes a serious physical or economic burden on the community that cannot reasonably be expected to be reversed or alleviated by private enterprise or governmental action, or both, without redevelopment. Health & S C §§33030, 33352. See *Friends of Mammoth v Town of Mammoth Lakes Redev. Agency* (2000) 82 CA4th 511, 98 CR2d 334; *Beach-Courchesne v City of Diamond Bar* (2000) 80 CA4th 388, 95 CR2d 265. The inclusion of non-blighted properties in a project area is restricted. Health & S C §33320.1(a)(2). The predominantly urbanized requirement does not apply to an area characterized by the existence of antiquated subdivisions or to property within or near a closed military base. Health & S C §§33031(a), 33492.3, 33492.40.

© The Regents of the University of California

§5.320 c. Inclusion of Non-Blighted Property

Non-blighted properties may be included in a redevelopment project area only if necessary for the effective redevelopment of the project area. Health & S C §33321. Non-blighted parcels may not be included in a project area for the purpose of obtaining tax increments unless there is other substantial justification for their inclusion. Health & S C §33320.1(a)(2). If a project area contains non-contiguous sub-areas, each sub-area must either be blighted or necessary for effective redevelopment of the project area. See *Graber v City of Upland* (2002) 99 CA4th 424, 121 CR2d 649. Non-blighted, non-contiguous areas may be included in a project area if used predominantly for (Health & S C §33320.2):

- The relocation of owners or tenants from other non-contiguous areas in the same or other project areas; or
- The construction or rehabilitation of low- or moderate-income housing.

A project area also may not include agricultural land and open-space land that is enforceably restricted. See Health & S C §33321.5.

© The Regents of the University of California

§5.321 d. Initial Designation of Project Area and Preliminary Plan

The planning commission must make the initial designation of the project area boundaries, either on its own motion or at the request of the redevelopment agency. The planning commission must select a project area if:

- It is directed to do so by the legislative body; or
- A petition of a majority of private property owners in the area is submitted.

The planning commission must formulate a preliminary plan for the redevelopment of each selected project area. Health & S C §33322. A preliminary plan generally outlines the basic concept for redevelopment of the selected project area and is sufficient as a matter of law if it includes those matters described in Health & S C §33324. The planning commission must submit the preliminary plan to the redevelopment agency. Health & S C §33325.

© The Regents of the University of California

3. Relations With Affected Taxing Entities

§5.322 a. Statement of Preparation

After the preliminary plan has been received and accepted, the redevelopment agency must notify all taxing agencies in the proposed project area, the State Board of Equalization, and the State Department of Finance of its intent to adopt a redevelopment plan and identify the last equalized assessment roll it proposes to use for purposes of allocation of tax increment revenues ("the statement of preparation"). Health & S C §§33327-33328.1. On receipt of that information, the county fiscal officer and the State Board of Equalization must prepare and transmit to the redevelopment agency a report identifying six items required by Health & S C §33328.

© The Regents of the University of California

§5.323 b. Property Tax Assessed Value

Most importantly, the report contains the total amount of assessed value in the project area, the so-called "base year" tax roll. If the report is not received within the required time limits, the redevelopment agency may proceed with the adoption of the redevelopment plan. Health & S C §33328.

© The Regents of the University of California

§5.324 c. Preliminary Report

On receipt of the report of the county's fiscal officer (or after the time for preparation of that report has run) the redevelopment agency must prepare a preliminary report for each taxing agency that receives property tax revenues from the project area (the "affected taxing agencies"). The preliminary report must contain specified information and be transmitted to the affected taxing agencies within specified times. Health & S C §§33344.5-33344.6. Stats 2004, ch 158, §3 provided up to $1 million statewide to reimburse redevelopment agencies from the State Mandates Claims Fund for costs to comply with this statute.

© The Regents of the University of California

d. Apportionment of Taxes Among Affected Taxing Entities

§5.325 (1) Consultation and Exclusivity of Payments

After delivery of the preliminary report and environmental documents to the affected taxing entities, the redevelopment agency must consult with those "with respect to the plan and allocation of taxes" and provide a summary of these consultations in a "report to legislative body." Health & S C §33352.

The apportioned payments made as outlined under §§5.326-5.327 are the exclusive payments a redevelopment agency must make to the affected taxing entities during the life of the plan. Health & S C §33607.5(f)(1)(B).

© The Regents of the University of California

§5.326 (2) Apportionment of Taxes

Health and Safety Code §33607.5 creates a tax-increment sharing formula for all redevelopment project areas established on or after January 1, 1994, by establishing three overlapping tiers of payments to affected taxing entities:

(1) During each year the redevelopment agency receives the tax increment, it is required to pay the affected taxing entities 25 percent of the agency's net tax increment (*i.e.,* net after deduction of the 20 percent set aside for low- and moderate-income housing). Health & S C §33607.5(b).

(2) In addition, beginning in the eleventh fiscal year the redevelopment agency receives tax increment until the redevelopment agency ceases to receive tax increment, the redevelopment agency is required to pay the affected taxing entities, other than the community that adopted the redevelopment plan, 21 percent of its net tax increment generated by increases in the project areas' assessed value occurring after the tenth fiscal year in which the redevelopment agency receives tax increment. Health & S C §33607.5(c).

(3) In addition, beginning the 31st fiscal year the redevelopment agency receives tax increment and continuing so long as the redevelopment agency receives tax increment, the redevelopment agency is required to pay the affected taxing entities, other than the community that adopted the redevelopment plan, 14 percent of the net tax increment generated by increases in project areas, assessed valuation occurring after the 30th fiscal year in which the redevelopment agency receives tax increment. Health & S C §33607.5(d).

A portion of the payments to education entities will reduce state subventions to those entities, and the balance will be used for capital facilities. Health & S C §33607.5(a). The payments are subordinate to debt only if the redevelopment agency requests and the request is not disapproved by the affected taxing entity within 45 days. Health & S C §33607.5(e). In addition, the payments to an affected taxing entity are reduced by any amounts the redevelopment agency has paid for any public facility owned or leased by that affected taxing entity. Health & S C §33607.5(a)(2).

© The Regents of the University of California

§5.327 (3) Special Apportionment to "Basic Aid School Districts"

"Basic aid school districts" (*i.e.,* school or community college districts that do not receive state subventions because they have sufficient property tax revenue) receive payments equal to their share of the tax increment that would be generated by increasing the base year value by a percent equal to the lesser of (Health & S C §33676(b)(1)(A)-(B)):

- Eighty percent of the percentage growth in assessed value in the portion of the project area included in the district's jurisdiction; or
- The percentage growth in assessed value in the district's jurisdiction excluding the project area.

Payments made under Health & S C §33676(b) offset the portion of the payment to be made to the district under Health & S C §33607.5 (the automatic pass-through section) and Health & S C §33607.7 that reduces state subventions. Health & S C §33676(b)(4).

© The Regents of the University of California

§5.328 (4) Allocation to School Districts

Before 1984, Health & S C §33676 provided that, before the adoption by the legislative body of a redevelopment plan, any affected taxing agency may elect to be allocated all or any portion of the tax increment allocated to the agency attributable to increases in the assessed value of the taxable property in the redevelopment project area calculated annually under Rev & T C §110.1 (the annual 2-percent inflationary increase). In 1984, this section was amended to provide that before the adoption of a redevelopment plan, any affected taxing agency may elect and "every school and community college district shall elect" to be allocated the tax increment attributable to the annual 2- percent increase on the base year assessed value. In 1993, the section was further amended to simply require the tax increment attributable to the 2 percent growth in the base year assessed value to be allocated to the school and community college districts. Health & S C §33676(c).

Redevelopment agencies had taken the position that for redevelopment plans adopted between January 1, 1985, and December 31, 1993, school or community college districts that failed to affirmatively make the 2-percent election before the adoption of the redevelopment plan forfeited the right to that tax increment. This position was rejected by the Court of Appeal in *Santa Ana Unified Sch. Dist. v Orange County Dev. Agency* (2001) 90 CA4th 404, 409, 108 CR2d 770. The court held that absent an allocation agreement, the school district or community college district is entitled to make its 2-percent election even after the adoption of the redevelopment plan. This does not mean that the 2-percent election may be applied retroactively, *i.e.,* before the date of election.

© The Regents of the University of California

§5.329 4. Report to Council

The report to council is submitted to the legislative body with the redevelopment plan and contains 13 specified analyses of the project, including the basis for, scope of, and fiscal, environmental, and neighborhood impacts of, the redevelopment plan. The report contains information the legislative body considers in determining whether or not to adopt the redevelopment plan. The required contents of the report to council are listed in Health & S C §33352. See *Friends of Mammoth v Town of Mammoth Lakes Redev. Agency* (2000) 82 CA4th 511, 523, 98 CR2d 334 (discussing required contents of report and environmental impact report for proposed redevelopment plan).

© The Regents of the University of California

5. Hearings and Meetings

§5.330 a. Other Entity Review and Report

Before its submission to the legislative body, a redevelopment plan must be considered by the project area committee (PAC), if there is one (Health & S C §33347.5), and the planning commission (Health & S C §33346).

The planning commission must submit a report and recommendation about the redevelopment plan and determine whether the plan is consistent with the general plan. Health & S C §33346. The planning commission's failure to timely submit such a report constitutes a waiver and the legislative body may thereafter approve the plan. Health & S C §33347.

© The Regents of the University of California

b. Hearings on Approval of Plan

§5.331 (1) Hearing Requirement

Both the redevelopment agency (Health & S C §33348) and the legislative body (Health & S C §33360) must conduct noticed public hearings to approve the redevelopment plan. The legislative body and redevelopment agency (see §5.308) can hold a joint public hearing rather than two separate hearings. Health & S C §33355. The redevelopment agency must send a copy of the proposed plan to the State Department of Housing and Community Development and the State Department of Finance 45 days before the hearing. Health & S C §33360.5.

© The Regents of the University of California

§5.332 (2) Notice Timing and Contents

Notice of the hearing concerning a redevelopment plan must be published at least once a week for 4 consecutive weeks (28 days must elapse from the date of the first publication of the notice to the date of the hearing, not including the hearing date) in a newspaper of general circulation. Health & S C §33349(a).

The notice must include a legal description of the project and a statement of the goals and objectives of the redevelopment plan "in nontechnical language … using words with common and everyday meaning." Copies of the notice must be mailed by first-class mail to the residents and businesses in the project area at least 30 days before the hearing and to the last known assessee of each parcel of land in the project area. Health & S C §33349. Copies of the notice must be mailed to the affected taxing agencies by certified mail, return receipt requested. The notice must include a statement (or a listing or map of all affected properties) to the effect that property in the project area is to be subject to acquisition by purchase or condemnation, if applicable. Health & S C §33350.

© The Regents of the University of California

§5.333 c. Modification of Plan Possible

Once the redevelopment plan has been submitted to the legislative body, the legislative body may modify the plan or exclude property from the project area on the recommendation of the redevelopment agency (without additional public hearing). Health & S C §33363.5.

The planning commission, however, must first consider the change, render a report, and issue a recommendation on the change within 30 days. If the planning commission fails to file a report within that time frame, the legislative body may act on the plan without the report and recommendation. Health & S C §33363.5.

Any proposed changes must be considered by the legislative body at a public hearing reopened for that limited purpose. Health & S C §33363.5.

© The Regents of the University of California

6. Adoption of Plan

§5.334 a. Legislative Body Must Consider and Respond to Objections

The legislative body must consider written objections from property owners or affected taxing entities. The objections must be delivered to the clerk of the legislative body before or at the hearing. Health & S C §§33362-33363. The legislative body must address the written objections in detail and give reasons for not accepting specified objections and suggestions using good faith reasoned analyses in its response supported by facts. Health & S C §33363. The response must be adopted at least 1 week after commencement of the public hearing. Health & S C §33364.

© The Regents of the University of California

§5.335 b. Adoption Procedures

Following the redevelopment agency's public hearing or the joint public hearing of the agency and the legislative body, the redevelopment agency must approve the redevelopment plan and submit it to the legislative body. Health & S C §§33351, 33357. On a separate redevelopment agency, see §5.307.

The legislative body must adopt the redevelopment plan by ordinance, making explicit findings. The ordinance is subject to referendum. Health & S C §§33365, 33367.

© The Regents of the University of California

§5.336 (1) Eminent Domain Program

Redevelopment plans adopted after January 1, 2007, must describe the agency's program to acquire property by eminent domain. Health & S C §33342.5(a). Agencies may adopt the broadest condemnation powers authorized by law or may elect to limit condemnation authority. Health & S C §33342.5(b). For redevelopment plans adopted before January 1, 2007, see Health & S C §33342.7.

PRACTICE TIP: The provisions of Health & S C §§33334.5(a) and 33342.7 may be read to require an agency to adopt a "program" on acquisition of property by eminent domain even if the redevelopment plan does not contain this power or it has expired. Many jurisdictions have adopted programs stating that the redevelopment plan does not currently provide for the exercise of the power of eminent domain, and that if in the future such a power is added to the plan, then the program will also be amended to specify procedures the agency will follow.

© The Regents of the University of California

§5.337 (2) Necessary Vote to Approve

The redevelopment plan must be adopted by a majority vote of the legislative body unless either the planning commission or project area committee has recommended against approval. If either has recommended against adoption, approval must be by a two-thirds vote of the entire legislative body. Health & S C §33366.

© The Regents of the University of California

§5.338 7. Post-Adoption Notification

A copy of the ordinance adopting the redevelopment plan must be sent to the agency, and the agency is vested with responsibility for implementing the plan. Health & S C §33372.

Within 60 days after the adoption of the plan, the agency must record with the county recorder a legal description of the land within the project area, along with a statement that proceedings for the redevelopment of the project area have been instituted, and a description of the eminent domain program. Health & S C §33373. Notices must also be sent to various other entities. Health & S C §33375.

In addition, notices of determination under the California Environmental Quality Act (Pub Res C §§21000-21177) should be filed by the agency and legislative body.

© The Regents of the University of California

8. Interagency Cooperation

§5.339 a. Joint Projects

Two or more redevelopment agencies in different communities may jointly conduct redevelopment activities under the Community Redevelopment Law (CRL). The redevelopment agencies, planning commissions, and legislative bodies may hold either joint meetings and hearings or separately may designate the agency of one of the communities to act as the redevelopment agency for all the interested communities. Health & S C §33210.

If one agency is designated, it must obtain the report and recommendation of the planning commission of each community on the redevelopment plan and the finding of conformity to the general plan of each community before presenting the redevelopment plan to the respective legislative bodies for adoption. Health & S C §33211.

© The Regents of the University of California

§5.340 b. Delegation Possible

The legislative body of one community may delegate the redevelopment of an area in its jurisdiction to another community. The areas must be adjacent. Delegation becomes effective by the adoption of an ordinance by the authorizing legislative body. The community delegated the authority for redevelopment may proceed as though the area were in its own territorial jurisdiction. Health & S C §33213. Any redevelopment plan for that area must be approved by an ordinance enacted by the legislative bodies of both the authorizing community and the community to which the redevelopment authority was delegated. Health & S C §33213.

© The Regents of the University of California

§5.341 9. Plan Challenges: Pre-Adoption, Post-Adoption, and Failure to Challenge

An action attacking either the validity of a redevelopment plan or amendment to a redevelopment plan, or any finding or determination of the redevelopment agency or legislative body in connection with the adoption or amendment of a redevelopment plan, may not be brought before the adoption of a redevelopment plan or amendment. Health & S C §33500.

Once adopted, the plan or amendment must be challenged within 90 days after the date of adoption of the ordinance adopting or amending the plan. Health & S C §33500. The date of adoption is the date of its second reading. If an action is brought within the 90-day period, its process is governed by CCP §§860-870 (Validation Act). Health & S C §33501.

If no action is brought within this period, the redevelopment plan or amendment is conclusively presumed to be valid. CCP §869.

© The Regents of the University of California

D. Plan Amendment

§5.342 1. Purpose and Timing for Plan Amendment

An amendment or modification to a redevelopment plan can accomplish one or a multitude of goals. It may serve to add land, exclude land, change land uses, extend plan effective dates or the time in which eminent domain can be used, increase or decrease the total amount of indebtedness that can be incurred or tax increment that can be received, or complete a merger of project areas (see §5.436). Such amendments can take place any time after adoption of the plan, if it becomes necessary or desirable. Health & S C §33450.

© The Regents of the University of California

§5.343 2. Procedure for Plan Amendment

The procedure for amending a redevelopment plan for any purposes described in Health & S C §33354.6 is generally the same as the procedure for adopting a plan. Health & S C §33354.6 (see §§5.316-5.341). Plan amendments for purposes other than those just noted in §5.342 are governed by Health & S C §§33450-33458. For all amendments, the requirements of Health & S C §33367 (findings in the ordinance adopting the amendment) and Health & S C §33352 (reports and information that must be available) must only be met "to the extent warranted by the proposed amendment." Health & S C §33457.1. On mergers of redevelopment plans, see §5.436.

© The Regents of the University of California

§5.344 3. Extension of Time Limits

Redevelopment agencies are authorized to amend redevelopment plans whose time limits would otherwise be expiring to extend for a period of up to 10 years the time limits on the effectiveness of the redevelopment plan, the repayment of indebtedness, and the receipt of tax increment. Special findings and procedures apply to such amendments. Health & S C §33333.10.

PRACTICE TIP: Because of the lack of absolutely explicit requirements, whenever an ambiguity occurs, it would be wise to always opt for providing more public notice and more opportunity for public and taxing entity input and participation than a strict reading may otherwise require.

© The Regents of the University of California

§5.345 4. Statement of Land in Area

Within 60 days of any action amending a redevelopment plan, the redevelopment agency must record with the county recorder a statement that the redevelopment plan has been amended, along with a legal description of any territory added to the redevelopment project area. Health & S C §33456.

© The Regents of the University of California

E. Plan Implementation

§5.346 1. Owner and Tenant Participation

Each redevelopment plan must provide for the participation of owners in the redevelopment of the property if the owners agree to participate in accordance with the terms of the plan. Health & S C §33339. In addition, a redevelopment agency must extend reasonable preferences to displaced businesses to reenter the project area if the businesses otherwise meet the requirements of the redevelopment plan. Health & S C §33339.5.

© The Regents of the University of California

§5.347 a. Good Faith and Reasonableness Required

Although the Community Redevelopment Law (CRL) (Health & S C §§33000-33855) requires that property owners and business operators be given opportunities to participate in the redevelopment of a project area, neither the CRL nor case law defines the precise parameters of this requirement. The courts have determined that the duty of "good faith and reasonableness" is imposed on a redevelopment agency in implementing these provisions. See *Fellom v Redevelopment Agency of the City & County of San Francisco* (1958) 157 CA2d 243, 320 P2d 884.

The failure to exercise this duty of good faith and reasonableness can destroy the agency's ability to exercise the power of eminent domain against an aggrieved owner's property. See *Redevelopment Agency of the City of Huntington Park v Norm's Slauson* (1985) 173 CA3d 1121, 219 CR 365.

© The Regents of the University of California

b. Participation and Preference Rights

§5.348 (1) Not Property-Specific

The right to participation and preferences by property owners and business operators is not property-specific. See *In re Redevelopment Plan for Bunker Hill Urban Renewal Project 1B of Community Redev. Agency* (1964) 61 C2d 21, 66, 37 CR 74, cert denied sub nom *Babcock v Community Redev. Agency* (1964) 379 US 899, cert denied sub nom *Trautwein v Community Redev. Agency* (1964) 379 US 28. The agency can satisfy its obligations of participation and preference rights if it offers a property owner or business operator the right to participate in the redevelopment of any property in the project area. The agency is not required to offer the owner or business operator participation or preference rights for the property on which the owner or business operator is currently situated.

© The Regents of the University of California

§5.349 (2) Subject to Reasonable Conditions

In addition, the agency can impose reasonable terms and conditions on the right to participate. *In re Redevelopment Plan for Bunker Hill Urban Renewal Project 1B of Community Redev. Agency* (1964) 61 C2d 21, 59, 37 CR 74, cert denied sub nom *Babcock v Community Redev. Agency* (1964) 379 US 899, cert denied sub nom *Trautwein v Community Redev. Agency* (1964) 379 US 28. The broad outlines of these terms and conditions should be incorporated into the participation and preference rules adopted by the agency, discussed in §5.351. These terms and conditions can include the financial ability of the owner or operator (see *In re Redevelopment Plan for the Bunker Hill Urban Renewal Project 1B of the Community Redev. Agency , supra*), the land use proposed (see *In re Redevelopment Plan for the Bunker Hill Urban Renewal Project 1B of the Community Redev. Agency , supra*), an agreement by the owner or operator to begin and complete redevelopment within a reasonable time (*Huntington Park Redev. Agency v Duncan* (1983) 142 CA3d 17, 25, 190 CR 744), and such other conditions the agency may impose consistent with its duty of good faith and reasonableness.

© The Regents of the University of California

§5.350 (3) Form of Participation

"Participation" can take many forms. For example, participation can include a property owner becoming a tenant in another portion of the project area or the business operator can participate in a joint venture with a property owner or outside developer. The redevelopment agency should be open to creative means of permitting the widest possible participation. However, participation opportunities are not accorded as a matter of right. The ultimate selection of a developer rests with the agency based on the agency's development objectives and the qualifications of a particular developer.

© The Regents of the University of California

§5.351 c. Participation and Preference Rules

Within a reasonable period of time before the agency approves a redevelopment plan, the agency must adopt and make available for public inspection rules on participation and preferences in the redevelopment of the project area. Health & S C §33339.5. The Community Redevelopment Law (CRL) (Health & S C §§33000-33855) does not specify the content of the rules; typically however these rules contain the following:

- The definition of "participants" to be granted participation and preference rights. Participants are often defined as "persons or entities holding interests in property within the project area";
- Types of participation available (*e.g.,* retaining and redeveloping or rehabilitating property already owned, preferences in the acquisition of other property in the project area, an owner becoming a tenant and vice versa);
- Factors limiting participation opportunities (*e.g.,* the financial ability of the participants, the need to eliminate or modify a land use, the need to relocate utilities or realign streets);
- Priority factors to be considered if more than one participant wishes to participate on a particular site (*e.g.,* length of time in project area, type of interest owned, financial ability to perform); and
- The procedure for submitting proposals for participation and the requirement to enter into an owner participation agreement ensuring the proper redevelopment of the property.

PRACTICE TIP 1: In addition to complying with the generalized good faith and reasonableness standard in according participation and preference rights (see §§5.348-5.350), the agency must follow the specific requirements of the redevelopment plan and the participation and preference rules.

PRACTICE TIP 2: Regardless of whether required by the plan or the rules, the agency should send all requests for proposals (RFP) and requests for qualifications (RFQ) (see disposition and participation agreements in §§5.358-5.366) to owners and business operators who have expressed an interest in the redevelopment of the project area. In addition, the agency should consider every proposal made by a property owner or business operator, whether the proposal is solicited or not. If the agency chooses not to accept the proposal, it should give its reasons in writing to the owner or operator on the basis of objective, identifiable facts. This is especially true if the agency selects an alternative proposal that will require the acquisition of property from the owner or operator. In these situations, the agency should work with any owner or operator expressing an interest in participation, attempting to devise a method of participation that meets with the agency's goals and is within the capability of the owner or operator.

© The Regents of the University of California

§5.352 2. Property Acquisition and Timing of Acquisition

A redevelopment agency is authorized to acquire property by any voluntary means (*i.e.* purchase, gift, bequest) or by eminent domain. Health & S C §33391.

With the approval of the legislative body (usually the city), the agency may acquire by voluntary means property in the project area after the planning commission has formulated the preliminary plan but before the adoption of the redevelopment plan. Health & S C §33392. The agency may not, however, exercise the power of eminent domain before the adoption of the redevelopment plan. Legislative body approval is not required for agency acquisition after a plan is adopted. *Long Beach Community Redeployment Agency v Morgan* (1993) 14 CA4th 1047, 18 CR2d 100.

© The Regents of the University of California

§5.353 a. Restrictions on Voluntary Acquisitions

The agency may not acquire property from any of its members or officers except through eminent domain proceedings. Health & S C §33393. The agency may not offer to purchase property for less than its fair market value, unless the property owner offers it for sale at a specified price less than the fair market value and the agency offers to purchase it for that specified price, and no federal funds are involved in the transaction. Govt C §7267.2(d). The requirement that the agency offer an amount no less than the approved appraisal value is limited to acquisitions of property that require a resolution of necessity. *Melamed v City of Long Beach* (1993) 15 CA4th 70, 18 CR2d 729.

© The Regents of the University of California

§5.354 b. Requirements for and Restrictions on the Use of Eminent Domain

The following requirements and restrictions apply to the use of eminent domain:

- An agency may not acquire property from a public entity through eminent domain without the consent of the entity. Health & S C §33395.
- Without the consent of the owner, the agency may not acquire property on which an existing building will be maintained in its present form (*i.e.,* without rehabilitation) unless it is necessary to impose standards, restrictions, and controls on the property and the owner refuses or fails to consent to such standards. Health & S C §33394.
- The agency must commence eminent domain proceedings within the time limit established in the redevelopment plan. The time limit may not exceed 12 years, but the plan may be amended to extend the time limit. Health & S C §33333.2(a)(3)-(a)(4), (g)(2). However, the total number of years available for an agency to use the power of eminent domain cannot exceed the time limit on the effectiveness of a redevelopment plan. Health & S C §§33333.2(a)(2), 33333.6(b).
- The agency must comply with any other restrictions on the use of eminent domain established in the redevelopment plan. For example, the agency's program to acquire real property interests by eminent domain may exempt certain areas or types of property from condemnation. Health & S C §33342.5.
- The agency must comply with the owner participation and preference rights imposed by statute and by rules adopted by the agency, discussed in §§5.346-5.351. In *Redevelopment Agency of the City of Huntington Park v Norm's Slauson* (1985) 173 CA3d 1121, 219 CR 365, the agency was barred from condemning property due, in large part, to its complete failure to comply with owner participation requirements.
- The agency must comply with all the requirements of the Eminent Domain Law (CCP §§1230.010-1273.050).
- For redevelopment plans adopted before January 1, 2007, the legislative body must adopt an ordinance on or before July 1, 2007 that contains a description of the agency's program to acquire real property by eminent domain. Health & S C §33342.7. Redevelopment plans adopted on or after January 1, 2007, must describe the agency's program to acquire real property by eminent domain. Health & S C §33342.5.
- An agency may use eminent domain only to acquire real property interests. Contractual rights are not included within the grant of authority contained in Health & S C §33391. See *San Jose Parking, Inc. v Superior Court* (2003) 110 CA4th 1321, 2 CR3d 505.
- The Homeowners and Private Property Protection Act (Proposition 99, passed in 2008) prohibits agencies from taking by eminent domain any owner-occupied residence for the purpose of conveying it to a private person. Residences, even owner-occupied ones, may still be taken for the purpose of constructing public works of improvement or to protect the public health and safety, prevent repeated criminal activity, or remedy environmental contamination. See Cal Const art I, §19.

© The Regents of the University of California

§5.355 c. Forced Sale or Exemption From Eminent Domain

After 3 years have elapsed from the date of adoption of a redevelopment plan, an owner of property subject to condemnation may offer to sell his or her property to the agency for its fair market value. The agency then has 18 months to acquire the property or institute an eminent domain action. Health & S C §33399(a). If the agency fails to do so, the owner may institute an action for damages against the agency in inverse condemnation or obtain a writ of mandate to compel the agency, within such time as the court considers appropriate, to declare the property acquisition exempt, or to commence an eminent domain proceeding to acquire the property. Health & S C §33399.

PRACTICE TIP: Due to the short period of time in which the agency has to decide whether to acquire the property (18 months from receipt of letter plus the time provided by the court in the writ), it is imperative that an agency give immediate attention to any §33399 letters that it receives.

© The Regents of the University of California

§5.356 d. Relocation Assistance Required

A redevelopment agency must provide relocation assistance and make relocation payments in accordance with Govt C §§7260-7277. See Health & S C §33415. The definition of "displaced person" includes "persons displaced as a result of an owner participation agreement or an acquisition carried out by a private person for or in connection with a public use when the public entity is otherwise empowered to acquire the property to carry out the public use." Govt C §7260(c)(2). On relocation requirements, see §§8.14-8.25.

© The Regents of the University of California

§5.357 e. Possibility of Developer Reimbursement of Relocation Payments

If the agency has entered into an agreement with an owner-participant (or developer) and under that agreement the owner-participant or developer acquires property for redevelopment, the agency will be required to provide relocation benefits. In such cases, it is advisable for the agency to require the owner-participant or developer to reimburse the agency for the relocation payments.

PRACTICE TIP: It is common for an agency to acquire property using the developer's money. Typically, the developer posts a letter of credit with the agency on which the agency may draw as needed. The agreement providing for the posting of the letter of credit should also govern the disposition and development of the site (either an owner participation agreement or a disposition and development agreement. See §§5.358-5.366. In this way, the agency does not acquire property before it has a developer ready to redevelop it. In order to avoid successful challenges to the agency's right to take in any eminent domain proceedings, the agency must clearly retain its discretion on the adoption of resolutions of necessity or should adopt the requisite resolutions of necessity concurrently with the approval of the development agreement. *Redevelopment Agency of the City of Huntington Park v Norm's Slauson* (1985) 173 CA3d 1121, 219 CR 365.

© The Regents of the University of California

3. Disposition and Participation Agreements

§5.358 a. Distinction Between Disposition and Development Agreements (DDA) and Owner Participation Agreements (OPA)

Disposition and development agreements and owner participation agreements govern the terms and conditions of the redevelopment of a specific site in a redevelopment project area. The term disposition and development agreement (DDA) is used when the agreement is between the agency and an outside developer, *i.e.,* not an owner-participant. If the agreement is between the agency and an owner-participant, the agreement is called an owner participation agreement (OPA). The agreement is an OPA even if the agreement covers property other than or in addition to property currently owned by the owner-participant. The agency should be careful to comply with all requirements for the disposition of property even when approving an OPA if the OPA provides for the agency to convey property.

© The Regents of the University of California

§5.359 b. Disposition and Development Agreements (DDA)

Although the Community Redevelopment Law (CRL) (Health & S C §§33000-33855) does not require a bidding or other competitive process, developers are usually chosen through a request for proposals (RFP) or request for qualifications (RFQ) process. The agency may tailor this process to its particular needs as there are no "rules" (other than compliance with the owner participation and preference requirements) by which the agency must abide.

The RFP or RFQ should include, at a minimum, the scope of acceptable development on the site (*e.g.,* the agency is seeking proposals for a hotel or a mixed-use development with some affordable housing), the parameters of acceptable business terms (*e.g.,* the developer must be willing to advance the acquisition costs or accept a ground lease of the site), and a requirement that the developer submit evidence of its financial ability and development qualifications. If desired, the RFP or RFQ may attach the form of the "exclusive negotiation agreement" that the developers must execute and return to the agency together with an appropriate good faith deposit.

The RFP or RFQ should be distributed broadly and special care should be taken to distribute it to owner-participants and others who have expressed an interest in participating in the redevelopment of the project area.

The agency has broad discretion in selecting a developer, but that discretion should be exercised in the context of the RFP or RFQ. For example, if the responses are due by a certain date, the agency should not extend that date for one developer unless it extends the date for all developers.

© The Regents of the University of California

§5.360 (1) Exclusive Negotiation Agreement With Selected Developer

After selecting a developer, the agency and the developer usually enter into an exclusive negotiation agreement (ENA). The ENA usually sets a definite period of time in which the agency agrees to negotiate exclusively and in good faith with the developer on the disposition and development of the site.

The ENA also typically requires the deposit of an appropriate "good faith deposit" from the developer to secure the developer's obligation to negotiate in good faith with the agency. This good faith deposit is returned to the developer on the execution of a disposition and development agreement (DDA) or an owner participation agreement (OPA) (see §5.358) (or transformed into the good faith deposit under the DDA or OPA) or on the conclusion of unsuccessful, but good faith negotiations. If the good faith deposit is to be retained by the agency, it will be the agency's burden of proof to show the developer failed to negotiate in good faith.

PRACTICE TIP: Prudence dictates that the good faith deposit language should be drawn as a liquidated damages clause and not as a penalty.

Although the ENA should be formally approved by the agency, no public hearing is required.

© The Regents of the University of California

§5.361 (2) Scope of Development Defined Under Exclusive Negotiation Agreement (ENA)

The exclusive negotiation agreement (ENA) should also contain the proposed scope of the development and the parameters of the business terms of the transaction as derived from the request for proposals (RFP) or request for qualifications (RFQ) and the developer's response. The agency must reserve its discretion under the California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177) to approve the final scope of the project and it must also reserve its discretion to approve the sale after the required public hearings (Health & S C §§33431, 33433), and to approve any resolutions of necessity that may be required. So long as the agency so reserves its discretion in the ENA, the ENA will not itself be considered a project under CEQA and so approval of the ENA will not require CEQA compliance. 14 Cal Code Regs §15378(b)(4)-(5).

© The Regents of the University of California

§5.362 (3) Content of Disposition and Development Agreement (DDA)

The disposition and development agreement (DDA) should cover all aspects of the agency's disposition of the property, including the sales price, the method and timing of the conveyance, and the requirements regarding the redevelopment of the property. The following factors should be included:

- The sale price should be determined based on the reuse value of the property, *i.e.,* a value determined taking into account the development and use restrictions imposed on the property by the agency. This "reuse" value may often be less than the fair market value of the property. The agency is permitted to sell property for this "reuse" value under certain conditions. Health & S C §33433.
- The DDA must contain sufficient safeguards to ensure that the property conveyed to the developer will actually be redeveloped in the manner contemplated by the DDA. Although the precise nature of the safeguards varies from project to project, some mechanisms are commonly employed, as follows:
- The DDA should include a scope of development that sets in detail the nature of the improvements to be developed on the property.
- The DDA should include a schedule of performance that sets times of performance for every milestone obligation in the agreement.
- The DDA should set as a prerequisite to conveyance a requirement that the developer demonstrate to the agency that it is prepared on conveyance to begin construction of the improvements and capable of completing the construction within the agreed-on time. In order to satisfy this requirement, the developer should be required to submit evidence of a binding loan commitment together with a construction budget and information on the availability of equity to cover any gap between the construction budget and the available financing.
- In addition, the DDA should contain a right of reverter that provides that the fee interest reverts to the agency if the developer fails to complete the improvements described in the scope of development in a timely manner. See Health & S C §33438.

PRACTICE TIP: The right of reverter, together with all significant obligations of the developer, should be included in the grant deed or ground lease conveying the property to the developer. See Health & S C §§33437, 33439.

- The DDA should contain use covenants that ensure consistency with the redevelopment plan.
- The DDA must contain specified anti-discrimination provisions that should be covenants running with the land. Health & S C §§33435-33436. These provisions forbid the developer, its successors, and assigns from discriminating in the rental, sale, lease, use, enjoyment, or tenure of the property against persons on the basis of race, color, religion, sex, marital status, ancestry, or national origin.
- The DDA must state that prevailing wages will be paid to the workers on the private construction project. On the prevailing wage requirement, see §5.363.

PRACTICE TIP: To avoid later disputes, the form of grant deed the agency intends to use should be attached to the DDA. Redevelopment agencies and developers should be aware that the use of techniques historically used by development agencies to assist development projects, such as land write-downs, provision of public improvements, loans, and grants may trigger the requirement to pay prevailing wages on the private construction project which is being assisted.

© The Regents of the University of California

§5.363 (4) Requirement to Pay Prevailing Wages

In the past, assistance to a development project provided by a redevelopment agency did not trigger the requirement that workers on the private construction project be paid prevailing wages. SB 975 (2001) (Stats 2001, ch 938) has changed this. The legislation amends the definition of the terms "public works" and "paid for in whole or in part out of public funds" in Lab C §1720 to include, in addition to traditional public works contracts, projects when a city or development agency provides virtually any form of assistance, including the transfer of an asset of value for less than fair market price and the payment of fees, costs, rents, insurance, bond premiums, loans, interest rates, or other obligations that would normally be required in the execution of the contract that are paid, reduced, charged at less than fair market value, waived, or forgiven. SB 975 also added to Lab C §1720 certain exemptions related to:

- Private residential projects;
- Public improvement work that is required as a condition of regulatory approval;
- Affordable housing; and
- Tax credits for certain industrial property.

SB 972 (2002) (Stats 2002, ch 10.48) added provisions to Lab C §1720 that exempt from prevailing wage requirements certain private residential construction or rehabilitation projects. Private residential projects are exempt from prevailing wage requirements if they meet one or more of the following conditions, unless otherwise required by a public funding program:

- Self-help housing projects requiring at least 500 hours of homeowner construction work;
- Rehabilitation or expansion of temporary or transitional housing for homeless persons operated on a not-for-profit basis when total project costs do not exceed $25,000;
- Household mortgage or down payment assistance for single-family home rehabilitation assistance;
- New construction, expansion, or rehabilitation of facilities operated by nonprofit organizations on a not-for-profit basis to provide emergency or transitional shelter and ancillary assistance to homeless adults and children when the nonprofit organization provides, at no profit, at least 50 percent of the total project costs from non-public sources; or
- Public participation in the form of below-market-rate loans for projects restricting occupancy of at least 40 percent of the units by deed or agreement for at least 20 years to individuals or families earning no more than 80 percent of the area medium income.

For additional discussion on prevailing wages, see §§7.50-7.57, 7.82-7.94.

© The Regents of the University of California

§5.364 (5) California Environmental Quality Act (CEQA) Compliance Necessary

Environmental review should be conducted before approval of the disposition and development agreement (DDA), either a negative declaration or final environmental impact report (EIR), unless a statutory or categorical exemption applies. Keep in mind that the EIR prepared at the time the redevelopment plan was adopted is a program EIR. This allows it to be used for subsequent actions implementing the redevelopment plan so long as the EIR adequately analyzed the development of the property that is the subject of the DDA. 14 Cal Code Regs §15180; *Friends of Mammoth v Town of Mammoth Lakes Redev. Agency* (2000) 82 CA4th 511, 98 CR2d 334. See also California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177).

© The Regents of the University of California

§5.365 (6) Approval of Disposition and Development Agreement (DDA)

The agency may sell or lease property without public bidding provided the agency holds a public hearing on the disposition and development agreement (DDA), notice of which is published once a week for 2 weeks in a newspaper of general circulation in the county. Health & S C §33431.

If the property to be conveyed was acquired, in whole or in part, directly or indirectly, from tax increment, then the DDA must be approved by the "legislative body" (usually the city) by resolution after a public hearing. Health & S C §33433. Before this public hearing, the agency must make available for inspection the DDA and a report consisting of a summary of the DDA that sets the cost to the agency of the DDA, the estimated value of the property (at the highest and best use), and the purchase price or the present value of the lease payments to be paid by the developer. If the agency proposes to sell or lease the property for less than its value, then this summary report must contain an explanation of the reasons for the difference. In addition, the report must contain an explanation of how the sale or lease of the property will assist in the elimination of blight. An alternative process is available for "small housing projects." Health & S C §33433. On blight, see §5.319.

© The Regents of the University of California

§5.366 c. Owner Participation Agreements (OPAs)—Contents and Requirements

Owner participation agreements (OPAs) should clearly state that the agency, by entering into the agreement with the owner-participant, has satisfied its obligations to that owner regarding owner participation rights and preferences. OPAs that provide for the agency to convey property to the owner-participant should contain the same provisions as disposition and development agreements (DDAs) and are subject to the same approval process, including environmental review. See §§5.358-5.365.

Even OPAs that do not provide for the conveyance of property to the owner-participant should contain a scope of development, a schedule of performance, and the specified use covenant and anti-discrimination requirements. See §5.362.

In lieu of the right of reverter contained in DDAs, the agency should include in OPAs the agency's right (but not obligation) to purchase the property from the owner if the owner fails to develop the property in accordance with the terms of the OPA. On right of reverter, see §5.362.

All obligations of the owner-participant for the redevelopment of the property should be described in an agreement containing covenants recorded against the property covered by the OPA. Health & S C §§33437, 33439.

© The Regents of the University of California

§5.367 4. Cooperation Agreements and Their Contents

Cooperation agreements are agreements between a redevelopment agency and another public entity. Public entities are permitted to aid redevelopment by (Health & S C §33220):

- Conveying property (with or without consideration);
- Furnishing public facilities (*e.g.,* parks, playgrounds, sewer facilities) adjacent to or in project areas;
- Dedicating, replanning, or vacating streets; and
- Various other means.

In addition, the agency may accept financial assistance from public entities. Health & S C §33132. On the other hand, the agency may under certain circumstances finance the construction of public facilities. Health & S C §§33445, 33445.1. However, an agency is precluded, except under limited circumstances, from paying, directly or indirectly, with tax increment revenues for the construction or rehabilitation of a city hall or county administrative building. Health & S C §33445(g).

In accepting aid or financial assistance from other public entities, the redevelopment agency enters into a cooperation agreement with the public entity setting the terms and conditions of the assistance. Cooperation agreements can cover such diverse, cooperative projects as the rehabilitation of a library or the construction of a convention center or park. The aid given an agency need not be financial. For example, the agency may request the city to confirm in a cooperation agreement certain property in the project area is entitled to specified development rights.

PRACTICE TIP: If a public entity wishes to provide financial aid to an agency for which it wishes to be reimbursed, the aid should always be in the form of a loan. The provisions of Health & S C §33670 permit the agency to receive tax increment only to the extent it has debt. Accordingly, an outright gift of money would not be considered an agency debt for which the agency can receive tax increment.

© The Regents of the University of California

5. Required Miscellaneous Provisions

§5.368 a. Five-Year Implementation Plans Required

A redevelopment agency must adopt an implementation plan for all redevelopment plans every 5 years. For redevelopment plans adopted before January 1, 1994, the first implementation plan must have been adopted by December 31, 1994. However, the elements of the implementation plan that deal with Health & S C §§33334.2, 33334.4, 33334.6, and 33413 (low- and moderate-income housing) may be adopted every 5 years either in conjunction with the jurisdiction's housing element cycle or the implementation plan cycle. Health & S C §33490(a). For redevelopment plans adopted on or after January 1, 1994, the implementation plan adopted under Health & S C §33352(c) constitutes the initial implementation plan. The agency must adopt an implementation plan every 5 years commencing with the fifth year after the plan was adopted. Health & S C §33490(b).

© The Regents of the University of California

§5.369 b. Infrastructure Improvements Findings Necessary

Before approving the payment of agency funds for the installation of a public improvement or public facility, a redevelopment agency must make findings that the public improvements are of benefit to the project area by helping to eliminate blight within the project area or by providing low or moderate income housing, that no other reasonable means of financing the public improvements are available to the community, and that the payment is consistent with the implementation plan. Health & S C §33445. The redevelopment agency may also pay for public improvements outside the project area, under much more limited circumstances. Health & S C §33445.1. On blight, see §5.319.

© The Regents of the University of California

§5.370 c. Sales Tax and Redevelopment Limitation

A redevelopment agency may not provide any form of direct assistance to certain projects that generate sales or use taxes or when the development would be used for gambling or gaming of any kind, including bingo. Health & S C §33426.5. One court has held that a municipal services agreement between a redevelopment agency and an Indian tribe to provide municipal services to a gaming facility that the tribe planned to build in the redevelopment area did not violate this section. *Hesperia Citizens for Responsible Dev. v City of Hesperia* (2007) 151 CA4th 653, 60 CR3d 124. These prohibited projects include automobile dealerships that would be located on land not previously developed for urban uses and other developments that would generate sales or use taxes and be located on five or more acres not previously developed for urban use. However, redevelopment agency assistance for office, hotel, manufacturing, and industrial uses continues to be permitted. Health & S C §33426.5(b)(1).

© The Regents of the University of California

§5.371 d. Prohibition on Relocating Vehicle Dealerships and Big Box Retailers

In addition, a redevelopment agency may not provide any form of financial assistance to a vehicle dealership or big box retailer that is relocating from one community to another in the same market area. A vehicle dealer is a retailer who is also a dealer within the meaning of Veh C §285. A big box retailer includes any retailer whose physical space exceeds the statutory minimum physical size of 75,000 square feet of gross buildable area and generated sales tax, notwithstanding the absence of a large parking area, prominent signage, and cash register sales (as opposed to telephone or catalog sales, similar to a warehousing or distribution facility). *City of Carson v City of La Mirada* (2004) 125 CA4th 532, 541, 22 CR3d 815. See also Govt C §53084 (imposing parallel requirements on cities).

© The Regents of the University of California

§5.372 6. Commercial Rehabilitation Loans

A redevelopment agency has express authority to establish a program for the lending of funds to owners and tenants of commercial buildings for the rehabilitation of such buildings or structures. Health & S C §33444.5. A redevelopment agency may assist with the financing of facilities or capital equipment, including but not limited to pollution control devices, provided that such assistance is part of an agreement providing for the development or rehabilitation of property used for industrial or manufacturing purposes. Health & S C §33444.6(a). To provide such assistance, the agency must find, after a public hearing, such assistance is necessary for the economic feasibility of the development and that such assistance cannot be obtained on economically beneficial terms in the private market. Health & S C §33444.6(b).

© The Regents of the University of California

§5.373 7. Other Handbook References on Implementation of Plan

- On property acquisition, see §§8.1-8.79.
- On relocation assistance, see §§8.14-8.25.
- On obligation of owners of property for hazardous material, see §§11.236-11.239.

© The Regents of the University of California

§5.374 F. Project Area Committees (PACs)

A project area committee (PAC) must be formed early in the redevelopment process if a "substantial" number of low- and moderate-income persons reside in the project area and the redevelopment plan provides the agency authority to acquire any residential property through the use of eminent domain, or if the plan contemplates one or more public projects that will displace a substantial number of low- or moderate-income persons. Health & S C §33385. See also *Blue v City of Los Angeles* (2006) 137 CA4th 1131, 1145, 41 CR3d 10 (holding that the requirements of Health & S C §33385 only apply to property on which persons lawfully reside, and that a PAC is not required to be formed by a city amending its redevelopment plan when the amendment authorized acquisition of non-residential land on which persons may be trespassing or squatting).

The statute does not define the term "substantial number." Similarly, there is no case law that addresses this issue. Accordingly, determination of whether or not a PAC will be required in a given circumstance must be the result of common sense and prudence. Because the primary purpose of a PAC is to provide community input, especially in the areas of displacement and relocation assistance (see §§8.14-8.25), it is likely that courts will construe the triggering requirement liberally, finding a need for a PAC if it is possible that more than a few persons will likely be displaced as a result of the redevelopment plan's powers or program.

A PAC must be formed and approved by the legislative body as representative within 100 days after the selection of the project area boundaries. Health & S C §33385(d).

The boundaries of the project area are selected as part of the adoption of the preliminary plan (see Health & S C §33322), which is one of the first steps after designation of a survey area.

© The Regents of the University of California

1. Project Area Committee (PAC) Formation Procedures

§5.375 a. Content and Notice

The legislative body must adopt procedures that will govern the formation of a project area committee (PAC). These procedures must be adopted by resolution. Health & S C §33385(b).

The procedures adopted by the legislative body should, in addition to the notice provisions outlined below, specify the number of PAC members, the categories to be filled, and the method for selecting PAC members. The procedures must also provide that any challenge to an election or an electoral process must be filed before the legislative body within 15 days after the election. The challenge must be resolved by the legislative body within 30 days after the election. Health & S C §33385(d)(2).

The procedures to be adopted by the legislative body can require additional steps to be taken in the formation or selection of the PAC. This can include such items as providing flyer distribution, press releases, or other actions. Because the notice provisions refer to "all meetings, hearings, or plebiscites" conducted by the agency "or legislative body" "relative to the formation" and selection of the PAC, it is possible to argue that the notice provisions that must be included in the procedures to be adopted should be applied to the adoption of the procedures themselves.

PRACTICE TIP: It is prudent to include the meeting at which these procedures are to be adopted in the notice to be published and mailed. See Health & S C §33385(b)(4)(A).

© The Regents of the University of California

b. Project Area Committee (PAC) Required Notice and Hearings

§5.376 (1) Required Meetings and Hearings

The redevelopment agency must conduct at least one public meeting to explain the establishment of, functions of, and opportunity to serve on a project area committee (PAC). Copies of the adopted PAC formation procedures, the preliminary plan, or the redevelopment plan or part of it, and any other materials determined useful by the agency must be distributed at the meeting(s). Health & S C §33385(b)(2). Although the statute refers to distribution of "the redevelopment plan" at this meeting, if a new plan (as opposed to an amendment) is being considered, there will not be a pre-existing plan. The preliminary plan adopted by the planning commission under Health & S C §33322 or a clearly marked sample from some other appropriate redevelopment plan may be substituted.

© The Regents of the University of California

§5.377 (2) Timing of Meetings and Hearings

Notice of all "meetings, hearings, or plebiscites" conducted by the agency or legislative body "relative to the formation and selection" of the project area committee (PAC) must be provided in the same manner as specified in Govt C §65090(a). Health & S C §33385(b)(3). The notice must provide at least 10 days' prior notice. If there will be more than one meeting (for example, a meeting to explain the PAC and another meeting to select the PAC), a single publication of all meetings will comply (so long as publication is at least 10 days in advance of the first meeting). This notice requirement applies to "all" meetings and hearings, so plan carefully to avoid extra publication expenses and time constraints for "extra" or supplemental meetings.

© The Regents of the University of California

§5.378 (3) Who Must Be Notified of Meetings and Hearings

The same type of notice (of all meetings, hearings, or plebiscites relative to the formation and selection of a project area committee (PAC)) must also be mailed to all residents, community organizations, and businesses in the project area. Health & S C §33385(b)(4). This notice must be provided by first-class mail, but it may be addressed to "Occupant." This requirement "only applies" when the mailing addresses to individuals and business are obtainable at a "reasonable cost." "Reasonable cost" is not defined, but it will likely be considered within the context of the size of the project area, the estimated population, and the amount of the tax increment estimated to be generated. The agency may charge a fee to purchasers and lessees (as well as owner-participants) to recoup costs generated by this section. Health & S C §33385(i).

© The Regents of the University of California

§5.379 (4) Failure to Comply With Required Procedure

If the redevelopment agency has acted in good faith to comply with the written notice requirements, the failure to reach every resident or business does not "in and of itself" invalidate the project area committee (PAC) formation or any actions of the PAC.

© The Regents of the University of California

§5.380 c. Membership of Project Area Committees (PACs)

When applicable, a project area committee (PAC) must include:

- Residential owner-occupants;
- Residential tenants;
- Business owners; and
- Representatives of existing organizations in the project area.

No member of the PAC may be appointed by the legislative body or agency (nor any member thereof). Thus, apparently all PAC members must be elected. Health & S C §33385(c)-(d).

© The Regents of the University of California

§5.381 d. Method for Selecting Project Area Committee (PAC) Members

Project area committee (PAC) members must be "elected" under procedures established by the legislative body. Further limits on the discretion of the legislative body in this area are established concerning, for example, "crossover voting" when one category (*e.g.,* a business owner) is prohibited from voting in another category (*e.g.,* residential tenant). The legislative body may authorize crossover voting for community organizations, however. Health & S C §33385(d).

PRACTICE TIP: Because this is potentially an area ripe for challenge, a good record should be created that clearly demonstrates that reasonable discretion was used in the PAC selection process.

© The Regents of the University of California

§5.382 e. Operating Without a Project Area Committee (PAC)

If a project area committee (PAC) is not required, Health & S C §33385 still directs the agency to consult with and obtain the advice of residents and community organizations in an informal manner. Health & S C §33385(f). Further, the formation of a PAC does not preclude the formation of any other committee for a project area. Health & S C §33385(g). Accordingly, if an agency does not need to re-create a lapsed PAC for purposes of a plan amendment, the agency should nevertheless establish a complete record of consultation with the community in alternative ways, either by the creation of a committee that is not a PAC or by a series of well noticed public meetings and hearings, or both.

PRACTICE TIP: The legislative body should adopt a finding with supporting evidence that formation of a PAC is not required because the situations described in Health & S C §33385 are not met.

© The Regents of the University of California

2. Project Area Committee (PAC) Duration

§5.383 a. Consultation for 3 Years

A project area committee (PAC) is to provide consultation and advice to an agency "throughout the period of preparation of the redevelopment plan" and for 3 years after adoption of the plan. After that time, continuation of a PAC is subject to discretionary extensions by the legislative body on a yearly basis. Health & S C §33386.

© The Regents of the University of California

§5.384 b. When a Plan Is Amended

If the proposed amendment will enlarge the project area in which a substantial number of low- and moderate-income persons reside and will grant authority to the agency to exercise eminent domain on residential property in the added area, a project area committee (PAC) must be formed or expanded in compliance with Health & S C §33385. Health & S C §§33385.3(a)(2), 33385.5.

If a redevelopment plan is proposed to be amended to grant authority to use eminent domain over property on which persons reside, a PAC must be created, if one does not already exist. Health & S C §33385.3(a)(1).

PRACTICE TIP: With all amendments, the most prudent and safest approach to avoid litigation would be to re-form the PAC. However, other factors, such as cost and time, may militate against such re-formation for all amendments.

© The Regents of the University of California

3. Project Area Committee (PAC) Responsibilities

§5.385 a. Residential Housing and Other Matters Affecting Project Area Residents

On the direction and approval of the legislative body, the agency is to consult with the project area committee (PAC) and obtain the PAC's advice on "those policy matters that deal with the planning and provision of residential facilities or replacement housing for those to be displaced by project activities." The PAC also consults with the agency on "other policy matters which affect the residents of the project area." Health & S C §33386. Thus, although the PAC provides advice to the agency concerning housing matters, the topics on which the redevelopment agency and the PAC are to consult can extend broadly beyond that to other matters affecting residents.

© The Regents of the University of California

§5.386 b. Advice, Consultation, Report, and Recommendation

The law is clear that a project area committee (PAC) provides "advice" and "consultation" to the agency on "policy matters" dealing with the preparation of a redevelopment plan. The law also permits (but does not require) the PAC to provide a report and recommendation to the legislative body on the adoption or amendment of a redevelopment plan. Health & S C §§33347.5 (adoption), 33385.5 (amendment).

© The Regents of the University of California

§5.387 c. Conflict of Interest Laws Apply

Notwithstanding this clearly advisory intent and focusing on a provision requiring a super-majority requirement for adopting a redevelopment plan amendment over the objections of a project area committee (PAC), the Fair Political Practices Commission (FPPC) has determined that a PAC is a body with "decision-making authority" for purposes of the disclosure requirements and conflict of interest provisions under the Political Reform Act of 1974 (Govt C §§81000-91014). See *In re Rotman,* 10 FPPC Ops 1 (1987).

© The Regents of the University of California

§5.388 d. Open Meeting Law Compliance Required

The project area committee (PAC) must comply with the Ralph M. Brown Act (Brown Act) (Govt C §§54950-54963). Health & S C §33385(h). On the Brown Act and open meeting laws, see §§2.5, 2.35-2.118.

© The Regents of the University of California

§5.389 e. Staff Assistance

Services to assist the project area committee (PAC) in its consultation may be provided either by funds or "equivalent resources." Health & S C §33388. Most legislative bodies provide these services through "equivalent resources," meaning the use of agency office space, equipment, supplies, and staffing for PAC-related functions.

The level and form of services is left to the reasonable discretion of the legislative body. Contemplated services include:

- Resources for office space;
- Equipment and supplies; and
- Adequate staffing for consultative purposes.

Funds and services may also be allocated for legal counsel; however, no funds may be allocated for litigation, except to enforce or defend the rights of the PAC. Health & S C §33388.

PRACTICE TIP: The legislative body should consider carefully whether to provide the PAC with legal counsel. In *North Hollywood Project Area Comm. v City of Los Angeles* (1998) 61 CA4th 719, 724, 71 CR2d 675, the court held that there was no inherent conflict of interest when a city council selects an attorney from the city attorney's office to provide legal services to the PAC.

PAC members cannot receive compensation for their activities. Health & S C §33385(c).

© The Regents of the University of California

§5.390 f. Project Area Committee (PAC) Reports

A project area committee (PAC) may, but is not required to, prepare a report and recommendation to the legislative body on the adoption of a redevelopment plan. Health & S C §33347.5. If the PAC makes a recommendation to oppose the adoption of the plan, the legislative body must adopt the plan by a two-thirds majority of the entire membership eligible to vote. Health & S C §33366.

© The Regents of the University of California

§5.391 g. Amendments

If a project area committee (PAC) exists at the time of an amendment to a redevelopment plan, the redevelopment agency must forward a copy of the proposed amendment to the PAC at least 30 days before the public hearing of the legislative body. Again, the PAC may, but is not required to, prepare a report and recommendation to the legislative body. However, if a PAC recommends against the adoption of the proposed amendment, the legislative body must adopt the amendment by a two-thirds majority of the entire membership eligible to vote on the amendment. Health & S C §33385.5.

© The Regents of the University of California

G. Financing Redevelopment Activities

1. Tax increment Financing

§5.392 a. Nature of Tax Increment Revenues

The major source of funding for redevelopment agencies comes from their right to receive the portion of property tax revenues collected in a redevelopment project area resulting from the increases in the assessed values of property occurring after the adoption of the redevelopment plan. Health & S C §33670. These funds are referred to as "tax increments."

© The Regents of the University of California

§5.393 b. Theory of Tax increment Financing

The theory of tax increment financing is that the increases in assessed values and thus the increase in property tax revenues, after a redevelopment plan is adopted, is largely attributable to the effects of redevelopment in eliminating blight and stimulating private reinvestment in the area. The tax increment revenues are therefore allocated to the redevelopment agency to pay for the redevelopment activities that generated the increase in assessed value. On blight, see §5.319.

© The Regents of the University of California

§5.394 c. Use of Tax Increment Funds

An agency may either use tax increment funds directly as they are collected, or an agency may leverage these monies by issuing tax allocation bonds (bonds backed by a pledge of future tax increment). Cal Const art XVI, §16; Health & S C §§33600-33689. Tax increments are allocated and paid to a redevelopment agency only to pay the "indebtedness" of the agency. The California Supreme Court has broadly defined the term "indebtedness." *Marek v Napa Community Redev. Agency* (1988) 46 C3d 1070, 251 CR 778. A "statement of indebtedness and a reconciliation statement" must be submitted to the county auditor as a prerequisite to the agency's receipt of such increment. Health & S C §33675.

© The Regents of the University of California

§5.395 2. Financing Under Mello-Roos Community Facilities Act of 1982

An agency may also provide funding for public improvements through Mello-Roos Community Facilities Act of 1982 financing. Govt C §§53311-53368.3. On Mello-Roos financing, see §§5.76-5.87.

© The Regents of the University of California

§5.396 3. Other Potential Financing Sources

Redevelopment agencies may also accept financial or other assistance from any public or private source. They may borrow or accept financial assistance from the state, the federal government, or any other public agency (including the city in which it exists) for a redevelopment project or borrow money from any private lending institution. Health & S C §§33600-33601. If an agency borrows from the city in which it exists, a cooperation agreement should be executed to ensure the agency's legal authority to repay such loan. On cooperation agreements, see §5.367. Any bonds issued by an agency for its corporate purposes must be approved by the legislative body. Health & S C §33640.

© The Regents of the University of California

§5.397 4. Appropriations May Provide Financing

The legislative body may appropriate to a redevelopment agency amounts necessary for the agency's administrative and overhead expenses (Health & S C §§33610-33615), and may establish a redevelopment revolving fund to be kept in its treasury. The money in that fund may be paid to the agency and expended by it for property acquisition and the clearance, relocation of occupants, and preparation of a project area for redevelopment. Health & S C §§33620-33626. The legislative body may provide conditions and restrictions on the agency in connection with the use of funds appropriated to the agency for administrative expenses. Health & S C §33612.

© The Regents of the University of California

§5.398 5. Taxing Authority May Provide Financing

Agencies are authorized to impose transient occupancy taxes if the city grants a credit for similar taxes it imposes. Rev & T C §7280.5. An agency can pledge such taxes to secure bonded indebtedness. Health & S C §33641(d). An agency may only impose, extend, or increase a tax in compliance with the provisions of Cal Const arts XIIIC-XIIID.

© The Regents of the University of California

§5.399 6. Financial Reports Required

Every redevelopment agency must prepare and present a report to its legislative body within 6 months after the end of the agency's fiscal year. The report must contain (Health & S C §§33080, 33080.1, 33080.5)

- an individual financial audit report for the previous fiscal year;
- the amount of tax increment spent on behalf of certain taxing entities, including an itemization of expenditures per capital improvement; and
- an opinion of the agency's compliance with laws, regulations, and administrative requirements governing activities of the agency.

© The Regents of the University of California

H. Housing Requirements

1. Replacement Housing

§5.400 a. Applicability

The replacement housing provisions discussed in §§5.401-5.403 apply only to redevelopment projects with respect to dwelling units destroyed or removed from the low-income and moderate-income housing market on or after January 1, 1996. Health & S C §33413(d)(1).

© The Regents of the University of California

§5.401 (1) Replacement Housing

An agency must rehabilitate, develop, construct, or cause to be rehabilitated, developed, or constructed, certain kinds of housing. The agency's obligation arises whenever dwelling units housing persons and families of low- or moderate-income are destroyed or removed from the low- and moderate-income housing market as part of a redevelopment project. The project must be subject to a written agreement with the agency or financial assistance must have been provided by the agency. Health & S C §33413(a). On income and affordable housing cost definitions, see §5.404.

© The Regents of the University of California

§5.402 (2) Type, Timing, and Amount of Replacement Housing

The agency must provide an equal number of replacement dwelling units to those destroyed or removed. The replacement must occur within 4 years of the destruction or removal. The units must be made available for rental or sale to persons and families of low or moderate income. The replacement units must have an equal or greater number of bedrooms as those destroyed or removed units and must be at affordable housing costs in the territorial jurisdiction of the agency. Health & S C §33413(a). On income and affordable housing cost definitions, see §5.404.

© The Regents of the University of California

§5.403 (3) Post-1989 and Post-2002 Housing Requirements

When dwelling units are destroyed or removed after September 1, 1989, 75 percent of the replacement dwelling units must replace dwelling units available at affordable housing cost in the same or lower income level of very-low-income households, lower-income households, and persons and families of low and moderate income, as the persons displaced from those destroyed or removed units. When dwelling units are destroyed or removed on or after January 1, 2002, 100 percent of the replacement dwelling units must be available at affordable housing cost to persons in the same or a lower income category (very low, low, or moderate) as the persons displaced from those destroyed or removed units. Health & S C §33413(a). On income and affordable housing cost definitions, see §5.404.

© The Regents of the University of California

§5.404 (4) Income and Affordable Housing Cost Definitions

The following are income and affordable housing cost definitions that will aid in interpretation of replacement requirements for redevelopment agencies:

- "Moderate-income households" means persons and families who are not "lower-income households" and whose gross incomes do not exceed 120 percent of the area median income adjusted for family size in accordance with adjustment factors adopted by the United States Department of Housing and Urban Development in establishing income limits for lower income families. 25 Cal Code Regs §6930; Health & S C §§33411.2(b), 50093.
- "Lower-income households" means persons and families whose gross incomes do not exceed the qualifying limits for lower income families as established and amended from time to time under Section 8 of the United States Housing Act of 1937 (42 USC §§1437-1437bbb-9). 25 Cal Code Regs §6928.
- "Very-low-income households" means persons and families whose gross incomes do not exceed the qualifying limits for very low income families established and amended from time to time under Section 8 of the United States Housing Act of 1937. The qualifying limits are set in 25 Cal Code Regs §6932. These limits are equivalent to 50 percent of the area median income, adjusted for family size by the United States Department of Housing and Urban Development. 25 Cal Code Regs §6926; Health & S C §§33411.2(d), 50105.
- "Extremely low income households" means persons and families whose incomes do not exceed the qualifying limits for extremely-low-income families as established and amended from time to time by the Secretary of Housing and Urban Development and defined in 24 CFR §5.603(b).
- For definition of "affordable housing costs," review Health & S C §§33411.2(a) and 50052.5(b) as well as 25 Cal Code Regs §6924, which state that "affordable housing costs" must vary in accordance with the income level of the household.

© The Regents of the University of California

§5.405 (5) Priority to Displaced Persons and Families of Low and Moderate Income

Whenever all or any portion of a redevelopment project is developed with low- or moderate-income housing units, the agency must require by contract or other appropriate means such housing to be made available for rent or purchase to the persons and families of low or moderate income displaced by the redevelopment project. Such persons and families must be given priority in renting or buying such housing. Health & S C §33411.3. On income and affordable housing cost definitions, see §5.404.

© The Regents of the University of California

§5.406 (6) Insufficient Suitable Housing

If insufficient suitable housing units are available in the community for low- and moderate-income persons and families to be displaced from a redevelopment project area, the legislative body must ensure that sufficient land is made available for suitable housing for rental or purchase by low- and moderate-income persons and families and the agency may, to the extent of that deficiency, direct or cause the development, rehabilitation, or construction of housing units in the community, both inside and outside of redevelopment project areas. Health & S C §33411.4. On income and affordable housing cost definitions, see §5.404.

© The Regents of the University of California

§5.407 (7) Time Limit for Making Permanent Housing Available

Permanent housing facilities must be made available within 3 years from the time occupants are displaced. Pending the development of such facilities, there must be available to such displaced occupants adequate temporary housing facilities at rents comparable to those in the community at the time of their displacement. Health & S C §33412. On income and affordable housing cost definitions, see §5.404.

© The Regents of the University of California

§5.408 b. All Plans and Amendments

A replacement housing plan must be prepared not less than 30 days before the execution of an agreement to acquire real property or of an owner participation agreement (OPA) or disposition and development agreement (DDA), if such agreement will lead to the destruction or removal of low- or moderate-income housing units. This plan must be made available to the project area committee, other public agencies and the general public for review and comment for a reasonable time before adoption of the plan. Health & S C §33413.5. At least one court has enforced this statute by granting an injunction to former tenants of low-income hotels against a redevelopment agency that failed to prepare the plan within the required time period. *Price v City of Stockton* (ED Cal 2005) 394 F Supp 2d 1256. On OPAs and DDAs, see §§5.358-5.371; on affordable housing cost definition and income definitions, see §5.404.

© The Regents of the University of California

2. New and Rehabilitated Housing

§5.409 a. Applicability

The provisions discussed in §§5.410-5.415 apply only to redevelopment projects for which a final redevelopment plan was adopted on or after January 1, 1976, and to areas that are added to a project area by amendment to a final redevelopment plan adopted on or after January 1, 1976. In addition, they apply to any redevelopment project adopted before January 1, 1976 that is amended under Health & S C §33333.10, and agencies may elect, by resolution, to make all or part of the following requirements applicable to a plan adopted before January 1, 1976. Health & S C §33413(d)(1). On affordable housing cost definition and income definitions, see §5.404.

© The Regents of the University of California

§5.410 b. Housing Developed by an Agency

At least 30 percent of all new or substantially rehabilitated dwelling units developed by an agency in a project area must be available at affordable housing cost to persons and families of low or moderate income. Not less than 50 percent of these dwelling units must be available at affordable housing cost to and occupied by very-low-income households. Health & S C §33413(b)(1). On affordable housing cost definition and income definitions, see §5.404.

© The Regents of the University of California

§5.411 c. Housing Developed by Entity or Person Other Than the Agency

At least 15 percent of all new or substantially rehabilitated dwelling units developed in the project area by public or private entities or persons other than the agency must be available at affordable housing cost to persons and families of low- or moderate-income. Not less than 40 percent of these dwelling units must be available at affordable housing cost to very-low-income households. This requirement may be satisfied by the provision of affordable units outside the redevelopment area on the basis of two affordable units outside the project area for each unit required to be affordable inside the project area. Health & S C §33413(b)(2). On affordable housing cost definition and income definitions, see §5.404.

© The Regents of the University of California

§5.412 d. Definition of "Substantial Rehabilitation"

Although the term "developed" is not defined in Health & S C §33413(b)(1)- (2), the term "substantial rehabilitation" is defined as rehabilitation, the value of which is 25 percent of the after-rehabilitation value of the dwelling unit, including land value. Health & S C §33413(b)(2)(A)(iv). But the requirements, described in §§5.410-5.411, do not apply if the rehabilitation is undertaken without agency assistance. Health & S C §33412(b)(2)(A)(iii).

PRACTICE TIP: "Developed" seems to mean something other than merely "constructed" because the terms are used in the disjunctive in the surrounding sections. Some city attorneys have suggested that "developed" is used in the land use sense to mean constructed under a discretionary approval. See Govt C §§65589.5, 65927-65928, 65931.

© The Regents of the University of California

§5.413 e. Purchase of Affordability Covenants

A redevelopment agency may meet the requirements described in §§5.410-5.411 by acquiring long-term affordability covenants on certain multi-family housing units, by purchase or other acquisition, or by regulation. Health & S C §33413(b)(2)(B). The covenants must be maintained for not less than 55 years for rental units and 45 years for owner-occupied units. Health & S C §33413(b)(2)(C). However, not more than 50 percent of the units made available to meet the requirements described in §§5.410-5.411 may be assisted through the purchase or acquisition of affordability covenants, and not less than 50 percent of the units made available through the purchase or acquisition of covenants must be available to very-low-income households. Health & S C §33413(b)(2)(C).

© The Regents of the University of California

§5.414 f. Relationship to Replacement Requirements

The new and rehabilitated housing requirements described in §§5.409-5.410 apply independently of the replacement housing requirements, described in §5.400, and in the aggregate to housing made available as described in §§5.409-5.410, respectively, and not to each individual case of rehabilitation, development, or construction of dwelling units. A redevelopment agency may aggregate all new or substantially rehabilitated dwelling units in one or more redevelopment project areas if the agency finds, based on substantial evidence in the record, after a public hearing, that this will not cause or exacerbate racial, ethnic, or economic segregation. Health & S C §33413(b)(2)(A)(v).

© The Regents of the University of California

§5.415 g. Affordable Housing Plan

An agency must adopt a plan showing how the requirements described in §§5.409-5.410 will be met every 10 years. The compliance plan must be submitted as part of an overall implementation plan required by Health & S C §33490. Health & S C §33413(b)(4). The compliance plan must be consistent with, and may be included in, the community's housing element. The plan must be reviewed and, if necessary, amended at least every 5 years in conjunction with either the housing element cycle or the plan implementation cycle. If the requirements of Health & S C §33413 are not met by the end of each 10-year period, the agency must meet these goals on an annual basis until the requirements for the 10-year period are met. If the agency has exceeded the requirements within the 10-year period, the agency may count the units that exceed the requirement in order to meet the requirements during the next 10-year period. The plan must contain the contents required by Health & S C §33490(a)(2)-(4). Health & S C §33413(b)(4).

© The Regents of the University of California

§5.416 h. Applicability to Owner-Occupied Housing

A redevelopment agency may permit a market-price sale of an affordable owner-occupied dwelling unit that was counted as an affordable dwelling unit in satisfaction of the requirements, described in §§5.410-5.411, under an adopted program that protects the agency's investment of moneys from the low- and moderate-income housing fund, including, but not limited to, an equity sharing program by which the redevelopment agency will receive some portion of the resale price in excess of the affordable housing price. In that event, the agency must use its share of the excess proceeds to assist an equal number of units at the same income level as the units sold. Health & S C §33413(c)(2). On income and affordable housing cost definitions, see §5.404.

© The Regents of the University of California

§5.417 3. Required Set-Aside of Funds for Housing

Since fiscal year 1985-1986, the provisions described in §§5.418-5.427 have applied to all redevelopment project areas and portions of project areas. Health & S C §§33334.2(a), (i), 33334.6(b). Except as otherwise permitted as described in §§5.423-5.424, not less than 20 percent of the tax increment allocated to the agency must be deposited into the low- and moderate-income housing fund and used for low- and moderate-income housing. Nevertheless, the 20-percent-or-more set-aside may be avoided if by resolution the agency makes one of the three findings described in §§5.418-5.420. Health & S C §33334.6(c). Findings described in §§5.418-5.420 must be consistent with the annual planning commission report to the city council under Govt C §65400 (status on meeting regional needs), and the housing element must support these findings. Health & S C §33334.2(a)(1)-(2).

On income and affordable housing cost definitions, see §5.404.

© The Regents of the University of California

a. Findings That Avoid Set-Aside Requirement

§5.418 (1) Necessary Finding: No Need

One of the findings to avoid the set-aside of funds described in §5.417 is that of no housing need. This finding is that no need exists in the community to improve, increase, or preserve the supply of low- and moderate-income housing in a manner that would benefit the project area and this finding is consistent with the housing element of the community's general plan. Health & S C §§33334.2(a)(1)(A), 33334.6(c).

On income and affordable housing cost definitions, see §5.404.

© The Regents of the University of California

§5.419 (2) Necessary Finding: Less Than 20-Percent Need

One of the findings to avoid the set-aside of funds described in §5.417 is that there is less than a 20-percent need. The finding is that some stated percentage less than 20 percent of the tax increment that is allocated to the agency is sufficient to meet the housing needs of the community and this finding is consistent with the housing element of the community's general plan. Health & S C §§33334.6(c), 33334.2(a)(1)(B).

© The Regents of the University of California

§5.420 (3) Necessary Finding: Substantial Progress

One of the findings to avoid the set-aside of funds described in §5.417 is that of substantial progress. The finding is that the community is making a substantial effort to meet its existing and projected housing needs, including its share of the regional housing needs, for persons and families of low- and moderate-income, particularly very-low-income households, as identified in the housing element of the community's general plan. The agency must find that this effort, consisting of direct financial contributions of local funds used to increase and improve the supply of housing affordable to persons and families of low- or moderate-income and very-low-income households, is equivalent in impact to the funds otherwise required to be set aside as described in §5.417. The legislative body must consider the need that can be reasonably foreseen because of displacement of persons and families of low- or moderate-income or very-low-income households from in, or adjacent to, the project area, because of increased employment opportunities or because of any other direct or indirect result of implementation of the redevelopment plan. This finding may not be made until the community has provided or ensured the availability of replacement dwelling units and until it has complied with Health & S C §§33410-33418. This finding can only be made until June 30, 1993, unless such expiration impairs contractual obligations to bondholders or private entities, incurred before May 1, 1991. Health & S C §§33334.2(a)(1)(C), 33334.6(c).

© The Regents of the University of California

§5.421 b. After Finding: Transfer of 20-Percent Set-Aside Obligation Possible

If the agency makes any of the findings described in §§5.418-5.420, and the agency has more than one project area, it may allocate less than 20 percent to the housing set-aside in one area if the difference is allocated in another area or areas. Health & S C §§33334.3(i), 33334.6(c).

© The Regents of the University of California

§5.422 c. Written Findings Necessary

Within 10 days after making the findings described in §§5.418-5.420, the agency must send the Department of Housing and Community Development a copy of these findings, including the factual information supporting the findings. Health & S C §§33334.2(b), 33334.6(c).

© The Regents of the University of California

§5.423 d. After Finding: Exception for Existing Obligations

If the agency makes any of the above findings as described in §§5.418-5.420 (see Health & S C §33334.6(c)) and subject to the requirements described in §5.424, the agency has another option. The agency may deposit less than 20 percent of its tax increments into the low- and moderate-income housing fund if it finds the difference between the amount deposited and 20 percent of the tax increment allocated to the agency is necessary to make payments under "existing obligations" of amounts due or required to be committed, set aside, or reserved by the agency during that fiscal year and that are used by the agency for that purpose. Health & S C §33334.6(d).

On income and affordable housing cost definitions, see §5.409; on existing obligations definition, see §5.425.

© The Regents of the University of California

§5.424 e. Required Statement of Existing Obligations or Programs

Any agency that deposits less than 20 percent of tax increment into the low- and moderate-income housing fund under the allowable transfer described in §5.421 or under the existing obligation exception described in §5.423, must have adopted before September 1, 1986, by resolution, after a noticed public hearing, a statement of existing obligations, or a statement of existing programs, or both. Health & S C §33334.6(f).

On income and affordable housing cost definitions, see §5.409; on existing obligations definition, see §5.425.

© The Regents of the University of California

§5.425 f. Existing Obligations Defined

Existing obligations means the principal of and interest on loans, monies advanced to, or indebtedness (whether funded, refunded, assumed, or otherwise) incurred by the agency to finance or refinance, in whole or in part, any redevelopment project existing on, and created before January 1, 1986, and contained on the statement of existing obligations adopted as described under §5.424. Obligations incurred on or after January 1, 1986, are considered existing obligations for purposes of this section if the net proceeds are used to refinance existing obligations contained on the statement. Health & S C §33334.6(d).

© The Regents of the University of California

§5.426 g. Must Plan to Eliminate Deficit Under Existing Obligations Exception

If, under the existing obligations exception as described in §5.423, the agency deposits less than 20 percent of the tax increment allocated to the agency in the low- and moderate-income housing fund, the amount equal to the difference between 20 percent of the tax increment allocated to the agency for each affected project and the amount deposited that year constitutes a deficit of the project. The agency must adopt a plan to eliminate the deficit in subsequent years. Health & S C §33334.6(g).

On income and affordable housing cost definitions, see §5.404.

© The Regents of the University of California

§5.427 h. Amendment of Ordinance to Comply With Set-Aside Requirements

If the limitation on the number of tax increment dollars that may be allocated to the agency or the time limit on the establishing of loans, advances, and indebtedness to finance a redevelopment project, established under Health & S C §33333.4(a), conflicts with the set-aside requirements of Health & S C §33334.6 (described in §5.417), the legislative body must amend the ordinance adopted under Health & S C §33333.4(a) so as to enable the agency to eliminate the deficit and, thereby, permit compliance with the set-aside required by Health & S C §33334.6(g) (as described in §5.426) and to allow full expenditure of monies in the agency's low- and moderate-income housing fund. Health & S C §33333.4(c).

© The Regents of the University of California

4. Use of Low- and Moderate-Income Housing Fund Monies

§5.428 a. Permitted Uses

The monies set aside for affordable housing can be used in myriad ways. Health & S C §§33334.2-33334.3.

© The Regents of the University of California

§5.429 b. Planning and Administrative Expenses

The planning and general administrative costs paid with these monies are those costs incurred by the agency that are directly related to activities associated with the development, improvement, and preservation of housing and are limited to costs of salaries, wages, and related costs of the agency's staff or costs actually incurred for services provided through interagency agreements and agreements with contractors. Legal, architectural, and engineering costs are considered project costs and not administrative costs for expenditure purposes. Health & S C §33334.3(e).

© The Regents of the University of California

§5.430 c. Location Where Funds Used

These funds may be used inside or outside a project area, but in the community. However, if used outside a project area, the agency and legislative body (city council) must find that such use is of benefit to the project area. Replacement housing, under Health & S C §33413, is legislatively declared always to be of benefit. Health & S C §33334.2(g).

On replacement housing, see §§5.400-5.408.

© The Regents of the University of California

§5.431 d. Restrictions and Covenants on Use of Land

All new or substantially rehabilitated housing units developed or otherwise assisted with monies from the low- and moderate-housing fund must remain affordable to persons and families of low- and moderate-income for the longest feasible time, but at least 55 years for rental units, at least 45 years for owner-occupied units, and at least 15 years for mutual self-help housing units that are occupied by and affordable to low-income or very-low-income households. These time restrictions may be modified under certain conditions. Health & S C §33334.3(f)(1). All the above restrictions must be duly recorded covenants and restrictions running with the land. However, such restrictions may be subordinated for certain financing if specific findings are made. Health & S C §33334.14.

PRACTICE TIP: The duration-of-use restrictions seem to apply only if housing monies are used for substantial rehabilitation or new construction. There does not seem to be any statutory limit for affordability if housing set-aside monies are used, for example, for subsidies for less than substantial rehabilitation. Extensive use of this window would, however, likely result in the legislature closing it completely. Also, it is doubtful that a court would find that the intent of the legislature to create low- and moderate-income housing is being met by an agency with a program that only offers rehabilitation dollars for minor work in order to avoid the time requirements for use restrictions.

On income and affordable housing cost definitions, see §5.404.

© The Regents of the University of California

§5.432 e. Excess Surplus Requirement

On a failure of a redevelopment agency to expend or encumber any excess surplus of housing money within 1 year from the time it becomes excess surplus, the redevelopment agency must either voluntarily disburse the funds to its county housing authority or another public agency exercising housing development powers, or expend or encumber the funds within another 2 years (*i.e.,* 3 years from the date the funds became excess surplus).

NOTE: Excess surplus means any unexpended or unencumbered funds in an agency's low- and moderate-income housing fund that exceeds the greater of $1 million or the aggregate amount deposited in the fund in the previous 4 fiscal years (beginning with 1989-1990).

Failure to expend or encumber these funds within the allotted time will subject the agency to sanctions until the agency has expended or encumbered for eligible affordable housing purposes its excess surplus plus an additional amount of non-housing funds equal to 50 percent of the excess surplus. Until an agency expends or encumbers the excess surplus (plus the penalty amount), it will be prohibited from spending or encumbering any of its funds, except for enumerated purposes. Health & S C §33334.12.

PRACTICE TIP: In light of the serious consequences of failing to expend or encumber "excess surplus" housing funds within the given time period, redevelopment agencies should determine whether it is likely that any excess surplus will occur and take appropriate action to avoid the consequences. Health & S C §33334.12.

© The Regents of the University of California

I. Special Issues

1. Conflicts of Interest and Disclosure of Economic Interests

§5.433 a. Political Reform Act of 1974 (PRA) Applies

The members, officers, employees, and consultants of a redevelopment agency are governed by the Political Reform Act of 1974 (PRA) (Govt C §§81000-91014)—the same conflict of interest and disclosure laws that apply to other public entities. See §§2.119-2.217. In addition, a member of an agency who owns real property in or near an existing or proposed redevelopment project area is disqualified from participating in certain decisions. 2 Cal Code Regs §§18702.1, 18702.3, 18704.2, 18705.2. The agency must make full public disclosure about why members were actually or potentially conflicted out of participating in the decision. *Kunec v Brea Redev. Agency* (1997) 55 CA4th 511, 64 CR2d 143. Project area committee members are also governed by the PRA, under a Fair Political Practices Commission ruling. See *In re Rotman,* 10 FPPC Ops 1 (1987).

© The Regents of the University of California

§5.434 b. Prohibition Against Acquiring Land in Project Area

In addition to the obligations arising under the Political Reform Act of 1974 (PRA) (described in §5.433), agency and community officers or employees (which could include planning commissioners) are prohibited from acquiring any interest in any property in any project area, if that officer or employee must participate in the formulation of or approve the plans or policies for the redevelopment of the project area. This prohibition may not apply to certain owner participation activities, business leases, and personal residences. Health & S C §§33130, 33130.5.

© The Regents of the University of California

§5.435 c. Prohibition Against Incompatible Offices

When the council has declared itself to be the agency, a member of the agency may not be an elective officer or an employee of the city—except for council members—but may be a member, commissioner, or employee of any other agency or authority of, or created for, the city. Health & S C §33111.

© The Regents of the University of California

§5.436 2. Merger of Project Areas Possible

Mergers are a special form of project area amendment. Any agency may merge two or more project areas regardless of the contiguity of the areas. Such mergers allow the expenditure of monies received for one project area to be spent in the other merged areas. The merger is accomplished through plan amendments to the merging project areas. Certain of the low- and moderate-income housing requirements that may not apply to the separate project areas, because of when such project areas were adopted or last amended, would be applicable to the merged project areas. Notice of the proposed merger must be sent to the Department of Housing and Community Development at least 30 days before the merger. Health & S C §§33485-33489. See also Health & S C §33333.6 (time limits application to merged plans).

On housing requirements, see §§5.400-5.432; on income and affordable housing cost definitions specifically, see §5.404.

© The Regents of the University of California

§5.437 3. Transfer of Powers Possible by Court Order

A county may transfer to a city redevelopment agency jurisdiction over all or a part of a county project area when that city includes all or such part of the project area in an incorporated or annexed area. The procedure for this transfer differs depending on whether all or a part of the county project area is transferred. Health & S C §§33214-33216.

VI. MUNICIPAL BANKRUPTCY

A. Statutory Authority

§5.440 1. Historical Background

Before the enactment of the Bankruptcy Act of 1934, there was no statutory authority for the filing of a bankruptcy case by a municipality. Before that time, it was believed that the constitutions of the United States and the individual states prohibited the enactment of legislation permitting municipal bankruptcies. In the case of the federal government such legislation would violate state sovereignty. *Ashton v Cameron County Water Improvement Dist.* (1936) 298 US 513, 531, 80 L Ed 1309, 56 S Ct 892. In the case of an individual state, such legislation would violate the restriction that states may not impair contractual obligations. *Hanover Nat'l Bank v Moyses* (1902) 186 US 181, 188, 46 L Ed 1113, 22 S Ct 857. Congress' first attempt at crafting a municipal bankruptcy statute in response to the Great Depression was struck down by the court. *Hanover Nat'l Bank v Moyses, supra*. Amendments to the statute made in 1937 were upheld as constitutional by the United States Supreme Court in *U.S. v Bekins* (1938) 304 US 27, 82 L Ed 1137, 58 S Ct 811. In 1942, the Supreme Court also validated the state's right to compel creditors to accept a plan adjusting municipal debts even though such adjustment might be construed by objecting creditors as an impairment of their contractual rights. *Faitoute Iron & Steel Co. v Asbury Park* (1942) 316 US 502, 86 L Ed 1629, 62 S Ct 1129.

The Bankruptcy Code is found at Title 11 of the United States Code (referred to from here on in this chapter as Title 11). It is divided into chapters. Chapter 9 is the chapter devoted to the adjustment of debts of a municipality. Chapter 7 governs liquidations for individuals and corporations. Chapter 11 provides for business restructuring. Chapter 13 is a repayment plan for individual wage earners and Chapter 12 is for family farmers. (These chapters of the Bankruptcy Code will be referred to from here on in this chapter simply by their number, e.g., Chapter 7.) The remaining chapters deal with case administration; some of the provisions in those remaining chapters apply to municipalities, although others do not.

© The Regents of the University of California

2. Eligibility for Filing

§5.441 a. Bankruptcy Code §109(c)

Bankruptcy Code §109(c) (11 USC §109(c)) contains the eligibility requirements for filing a bankruptcy case under Chapter 9. In summary these requirements are:

- The entity must be a municipality;
- State law must authorize the filing of a bankruptcy case;
- The entity must be insolvent;
- The entity desires to effect a plan to adjust its debts; and
- The entity has
- Obtained agreement to its adjustment plan from creditors;
- Negotiated in good faith negotiations with creditors without success;
- Been unable to negotiate with creditors because such negotiations are impractical; or
- A reasonable belief that a creditor may attempt to obtain a preferential transfer.

© The Regents of the University of California

§5.442 b. Definition of Municipality

A "municipality" is defined under §101(40) of the Bankruptcy Code (11 USC §101(40)) as a political subdivision or public agency or instrumentality of a state. The key issue in determining whether an entity will be classified as a municipality is whether there is direct state or municipal control over the entity. See *In re Ellicott School Bldg. Auth.* (Bankr D Colo 1992) 150 BR 261 (nonprofit corporation created to build a school and lease it to a school district held not to be a municipality); *In re Greene County Hosp.* (Bankr SD Miss 1986) 59 BR 388 (hospital under the control of the county board of supervisors qualified as a municipality).

© The Regents of the University of California

§5.443 c. State Authorization

Bankruptcy Code §903 (11 USC §903) reserves to each state the power to determine the extent to which a municipality may avail itself of the protections of the Bankruptcy Code. In California, the enabling authority for filing is contained in Govt C §§53760, 59125.

© The Regents of the University of California

§5.444 d. Municipal Insolvency Evaluation

In cases involving entities other than municipalities, insolvency is evaluated primarily on a balance sheet test measuring the value of assets against liabilities. 11 USC §101(32)(A)-(B). In municipal bankruptcy cases, the evaluation is based on an analysis of existing and projected cash flow. 11 USC §101(32)(C) (municipality is insolvent if it is generally not paying its debts as they become due or is unable to pay its debts as they become due); *In re County of Orange* (Bankr CD Cal 1995) 183 BR 594, 606. The city of Vallejo, California, filed bankruptcy in 2008 to deal with burdensome labor agreements. The bankruptcy court found, and the bankruptcy appellate panel affirmed, the city's insolvency under 11 USC §101(32)(C)(ii) when it had insufficient unrestricted funds, determined on a cash flow basis, to pay its debts due within the next year and denied the unions' motions to dismiss the petition. *International Ass'n of Firefighters, Local 1186 v City of Vallejo (In re City of Vallejo)* (BAP 9th Cir 2009) 408 BR 280. In contrast, the city of Bridgeport, Connecticut, filed bankruptcy in 1991 as part of a strategy to reject certain burdensome labor agreements. At that time, the city projected a budget deficit of $16 million. The bankruptcy court, however, dismissed the petition, finding that the city's existing cash position and forecasted revenues from pre-existing taxes failed to support the city's contention that it would be unable to pay its debts as they became due. *In re City of Bridgeport* (Bankr D Conn 1991) 132 BR 85.

© The Regents of the University of California

B. Case Administrators

1. Commencement of the Case

§5.445 a. Filing Procedures and Publication

A Chapter 9 case is commenced by the filing of a form bankruptcy petition in the United States Bankruptcy Court for the district where the county in which the municipality is located. 11 USC §§301, 901(a). A filing fee of $1000 must be paid at the time of filing. See 28 USC §1930. Along with the petition, the municipality must file a list containing the name, address, and claim of the creditors that hold the 20 largest unsecured claims. Fed R Bankr P 1007(d). A list containing the names and addresses of all the municipality's creditors also needs to be filed within the time ordered by the court. 11 USC §924; Fed R Bankr P 1007(a)(1), (e). Schedules of assets and liability, current income and expenditures, and a statement of financial affairs and other documents required in other cases are not required in a Chapter 9 case. Fed R Bankr P 1007(b)(1).

A Notice of Commencement of a Chapter 9 case must be published in a newspaper of general circulation in the district where the case is filed, and in a newspaper of general circulation among bond dealers and bondholders as the court designates, once a week for 3 successive weeks. See 11 USC §923.

© The Regents of the University of California

§5.446 b. Municipal Bankruptcy Court Jurisdiction

The bankruptcy court has jurisdiction over bankruptcy cases under 28 USC §1334(a) (the district courts have original and exclusive jurisdiction of all cases under Title 11) and 28 USC §157(a) (authorizing the district courts to refer all Title 11 cases and proceedings to the bankruptcy judges for the district). District courts have routinely adopted general orders referring bankruptcy matters to bankruptcy judges. See, *e.g.,* General Order No. 266, dated October 9, 1984 (referring all Title 11 cases and proceedings to the bankruptcy judges for the Central District of California). Non-municipal cases are randomly assigned on a rotating basis to judges sitting in the division where the case is filed. In municipal cases, however, the Chief Judge of the Court of Appeals for the Circuit designates the judge to whom a Chapter 9 case will be assigned. 11 USC §921(b).

PRACTICE TIP: Although there is a form and order for designation of a bankruptcy judge, it is generally good practice to alert the Clerk of the Court and the Chief Judge of the Court of Appeals before actually filing the case so that the designation can be handled informally and without delay.

© The Regents of the University of California

§5.447 c. Order for Relief Not Automatic

The filing of the bankruptcy petition itself is not an automatic adjudication of the eligibility of the municipality for bankruptcy relief. Under 11 USC §921(c), creditors may object or move to dismiss the petition on the grounds that the municipality is not insolvent or that the petition was not filed in good faith. If the petition is not dismissed under 11 USC §921(c), the court will order relief under Chapter 9. See 11 USC §921(d).

© The Regents of the University of California

§5.448 d. Retention of State Control Over Municipality

The filing of a Chapter 9 petition does not abrogate the power of a state to exercise control over a municipality through exercise of its political or governmental powers, including expenditure of revenues incidental to exercise of those powers. 11 USC §903. In addition, 11 USC §904 specifically prohibits the Bankruptcy Court from issuing any order that would interfere with the exercise of the municipality's governmental powers or disposition of its revenues. In the Chapter 9 filed by the County of Orange, for example, the Bankruptcy Court declined to order the county to pay counsel hired by various subcommittees representing special interest groups on the grounds that to do so would be an interference with the county's authority to control its expenditure of revenue. See *Alliance Capital Management L.P. v County of Orange (In re County of Orange)* (Bankr CD Cal 1995) 179 BR 185, 195, rev'd on other grounds (CD Cal 1995) 189 BR 499.

© The Regents of the University of California

2. Automatic Stay Applies

§5.449 a. Statutory Authority

One of the main benefits for the debtor in filing a bankruptcy case is the automatic stay provided under 11 USC §362. The stay acts as an injunction of any action against a debtor to collect pre-existing debts or to obtain property of the debtor to satisfy such debts. The provisions of 11 USC §362 apply to municipality filings under Chapter 9. In addition, 11 USC §922(a) enlarges the scope of the automatic stay in municipal cases to cover an action by a creditor against an officer or inhabitant of the municipality seeking to collect a claim against the municipality or to enforce a lien on or arising out of taxes due to the municipality. See *Mission Indep. Sch. Dist. v Texas* (5th Cir 1940) 116 F2d 175; *Touchton v City of Fort Pierce* (5th Cir 1940) 109 F2d 370.

© The Regents of the University of California

§5.450 b. Exclusion for Pledged Special Revenues

Special revenues are defined under Bankruptcy Code §902(2) (11 USC §902(2)) and include receipts from transportation or utility services, special excise taxes, incremental receipts from tax benefit districts, and project financing taxes. Bankruptcy Code §922(d) (11 USC §922(d)) provides that the automatic stay does not extend to the application of pledged special revenues to payment of indebtedness secured by those revenues. As a corollary, Bankruptcy Code §928 (11 USC §928) extends any pre-petition consensual lien against special revenues to funds received post-petition and precludes diversion of such funds for general municipal purposes. This is in contrast to the general rule under Bankruptcy Code §552(a) (11 USC §552(a)) that a pre-petition security interest does not extend to property acquired post-petition. See *Alliance Capital Management L.P. v County of Orange (In re County of Orange)* (Bankr CD Cal 1995) 179 BR 185, 194, rev'd on other grounds (CD Cal 1995) 189 BR 499.

© The Regents of the University of California

§5.451 3. Plan Confirmation

The primary purpose of the chapters in the Bankruptcy Code governing reorganization is to provide a debtor with a respite from creditor pressure in order to allow the filing and confirmation of a repayment plan. In the context of a Chapter 9 case, whether a plan gets confirmed generally hinges on the extent to which the municipality will be required to exercise its taxing authority to generate a repayment that will be fair and equitable to creditors. See, *e.g., Fano v Newport Heights Irrig. Dist.* (9th Cir 1940) 114 F2d 563.

© The Regents of the University of California

§5.452 a. Who May File a Plan

In Chapter 9, unlike in Chapter 11, only the debtor municipality has the right to propose a plan. 11 USC §941. This rule is necessary to preserve the municipality's duty to retain control over its political affairs as required by the Tenth Amendment to the United States Constitution and as codified in Bankruptcy Code §§903-904 (11 USC §§903-904). Although a creditor may not propose any reorganization plan, it may petition the court to set a deadline for the municipality to file a plan after which time the case would be dismissed if no plan had been filed.

© The Regents of the University of California

§5.453 b. Contents of Plan

Chapter 9 selectively incorporates many of the provisions contained in the Chapter 11 business reorganization section, including most of the provisions set forth in Bankruptcy Code §1123 (11 USC §1123) governing the contents of a reorganization plan. It is mandatory that the plan:

- Designate classes of creditors (11 USC §1123(a)(1));
- Specify what classes of creditors are unimpaired by the plan (11 USC §1123(a)(2));
- Specify the treatment of each class of impaired creditors (11 USC §1123(a)(3));
- Provide for uniform treatment of creditors in each class (11 USC §1123(a)(4)); and
- Set a means for implementation of the plan provisions (11 USC §1123(a)(5)).

NOTE: A claim is considered "impaired" when the legal, equitable, or contractual rights of a claimant have been altered in any fashion either through diminution or enhancement. 11 USC §1124; *L & J Anaheim Assocs. v Kawasaki Leasing Int'l, Inc. (In re L & J Anaheim Assocs.)* (9th Cir 1993) 995 F2d 940.

Bankruptcy Code §1123(b) (11 USC §1123(b)), which sets the permissive contents of a plan, is also incorporated into Chapter 9.

© The Regents of the University of California

§5.454 c. Confirmation Requirements

Bankruptcy Code §901 (11 USC §901) selectively incorporates some of the provisions of Bankruptcy Code §1129 (11 USC §1129), which govern the requirements for confirmation in the context of a business reorganization. Bankruptcy Code §943 (11 USC §943) contains additional confirmation requirements applicable only to municipalities. Among the most important plan confirmation requirements are feasibility (11 USC §943(7); *In re City of Colorado Springs Spring Creek Gen. Improvement Dist.* (Bankr D Colo 1995) 177 BR 684) and that the debtor is not prohibited by law from taking any action necessary to carry out the plan (11 USC §943(4); *Sanitary and Improvement Dist. 65 v First Nat'l Bank* (D Neb 1987) 79 BR 877, aff'd per curiam (8th Cir 1989) 873 F2d 209.

© The Regents of the University of California

C. Special Issues—Labor Contracts

§5.455 1. Background

Bankruptcy Code §365 (11 USC §365) permits debtors to reject executory contracts based on a business judgment analysis. In the seminal case of *National Labor Relations Bd. v Bildisco & Bildisco* (1984) 465 US 513, 79 L Ed 2d 482, 104 S Ct 1188, the Supreme Court held that Bankruptcy Code §365 was applicable to collective bargaining agreements and that a debtor did not have to comply with the contract terms or federal labor laws before rejecting the contract. In 1984, Bankruptcy Code §1113 (11 USC §1113) was enacted, which requires corporate debtors to enter into good faith negotiations with the union before rejection of any labor agreement.

© The Regents of the University of California

§5.456 2. Labor Contracts in Chapter 9

Significantly, 11 USC §1113 was not incorporated into Chapter 9. During the *Orange County Employees Ass'n v County of Orange (In re County of Orange)* (Bankr CD Cal 1995) 179 BR 177 bankruptcy case, the county attempted to abrogate its Memorandums of Understanding with various county employee collective bargaining units by terminating personnel based on necessity without regard to seniority. Relying on the case of *Sonoma County Org. of Pub. Employees v County of Sonoma* ("*Sonoma I*") (1979) 23 C3d 296, 152 CR 903, the Bankruptcy Court ruled in *Orange County Employees Ass'n v County of Orange, supra*, that although the requirements of 11 USC §1113 did not apply to Chapter 9, the county was required to negotiate with its employee collective bargaining units before modifying its labor agreements. The county's ability to modify the agreements was restricted to those emergency circumstances described in *Sonoma I,* that (*Sonoma I, supra*):

- A declared emergency must be based on an adequate factual foundation;
- The agency's action must be designed to protect a basic social interest and not benefit a particular individual;
- The law must be appropriate for the emergency and obligation; and
- The agency decision must be temporary, limited to the immediate exigency that caused the action.

§6.1 I. INTRODUCTION

This chapter deals generally with local obligations, duties, requirements, and restrictions related to municipal services and utilities, particularly: water, sewer, and storm drains (see §§6.2-6.16); retail electric utilities, including Federal Energy Commission (FERC) jurisdiction (§§6.17-6.48); franchises over gas, electric, water, cable television, video systems, telecommunication systems, solid waste, and recycling (see §§6.49-6.105); municipal solid waste and recycling facilities and obligations and requirements related to them (see §§6.106-6.119); public transportation, including discussions about common carrier duties, Americans with Disabilities Act (ADA) (42 USC §§2101-12213), and Federal Transit Act (49 USC §§5301-5340) requirements, and laws related to drug and alcohol testing of transit employees (see §§6.120-6.138); airports and harbors (see §§6.139-6.179); and finally disaster preparedness and response, including the California Emergency Services Act (Govt C §§8550-8668) (see §§6.180-6.199).

On topics covered by this chapter, including discussions on the regulation of ports and harbors; airport noise and zoning; easements and franchises; regulation of solid waste, including the Integrated Waste Management Act of 1989 (Pub Res C §§40000-49620); drug and alcohol testing of public employees; and the duties and liabilities of common carriers, see: Advising California Employers and Employees (Cal CEB 2005); California Easements and Boundaries: Law and Litigation (Cal CEB 2008); California Government Tort Liability Practice (4th ed Cal CEB 1999); California Land Use Practice (Cal CEB 2006); and Practice Under the California Environmental Quality Act (2d ed Cal CEB 2008).

© The Regents of the University of California

II. WATER, SEWER, AND STORM DRAINS

§6.2 A. Water Service

Cities, counties, special districts, and municipally owned utilities may provide water service. State law specifically authorizes several types of local agencies to own and operate water service systems:

- Cities, see Cal Const art XI, §9; Govt C §§38730-38745;
- Counties, see Govt C §§25690-25699; and
- Special districts and municipal utilities, see Pub Util C §§10001-10002.

© The Regents of the University of California

1. Rates and Charges

§6.3 a. Setting of Water Rates

Water rates are set by the governing body of the relevant agency. Under state law, cities may fix water rates. See *Durant v City of Beverly Hills* (1940) 39 CA2d 133, 102 P2d 759. The county board of supervisors has the responsibility for establishing a county's water rates. See Govt C §25696. Cities, counties, and municipal utilities are not subject to outside review of their rates by the California Public Utilities Commission (CPUC) because municipal corporations are outside its jurisdiction. See *County of Inyo v PUC* (1980) 26 C3d 154, 161 CR 172. Special districts are also municipal corporations and are not subject to CPUC regulation. See *People ex rel Pub. Utils. Comm'n v City of Fresno* (1967) 254 CA2d 76, 62 CR 79.

© The Regents of the University of California

§6.4 b. Basis of Water Rates: Flat or Metered Rates

Water rates may be based on either a set fee by type of user (flat rate) or the quantity of water used (metered rate). Metered rates often include some fixed component. There has been an increasing trend toward the installation of meters on all customer connections, as reflected in the Water Measurement Law. See Wat C §§500-530. Urban water suppliers that receive water from the federal Central Valley Project (CVP) after 2003 are required to install meters on all service connections to residential and nonagricultural commercial buildings by January 1, 2013, and to charge customers beginning March 1, 2013, based on volume of water delivered, as measured by a meter. Wat C §526. All other urban water suppliers are required to install meters on all service connections by January 1, 2025, and to charge metered customers based on volume delivered, as measured by the meter, by January 1, 2010. Wat C §527. Any water purveyor who becomes an urban supplier after 2004 is required to install meters on all municipal and industrial service connections within 10 years of qualifying as an urban water supplier and to charge metered customers based on volume delivered, as measured by the meter, within 5 years of qualifying. Wat C §528. The legislature has declared the subject to be a matter of statewide concern and that local agency enactments are preempted by this scheme, except to the extent that local regulations impose additional or more stringent requirements. Wat C §529.

© The Regents of the University of California

§6.5 2. Duties to Customers

A city is under no duty to become a water purveyor. See *Glenbrook Dev. Co. v City of Brea* (1967) 253 CA2d 267, 61 CR 189. However, once a city chooses to act as a water purveyor, it assumes a duty to do so without discrimination to all its inhabitants who apply for water, under reasonable rules and regulations. See *Nourse v City of Los Angeles* (1914) 25 CA 384, 143 P 801. A county is also under no duty to become a water purveyor. See Govt C §25690. Water districts and other special districts created for the purpose of water provision, however, do have a duty to carry out their trust obligation to the public. See *Glenbrook Dev. Co. v City of Brea* (1967) 253 CA2d 267, 61 CR 189. A special district, like a city or county, must provide water under reasonable terms and conditions. See *Brydon v East Bay Mun. Util. Dist.* (1994) 24 CA4th 178, 29 CR2d 128.

© The Regents of the University of California

§6.6 3. Water Conservation

Water suppliers, including public entities, are authorized by statute to adopt and enforce water conservation programs. See Wat C §§375-378, 1009. The program may require installation of water-saving devices and encourage conservation through the rate structure design. See Wat C §375(b). Rate structures of this type usually charge higher marginal rates for water as usage increases. For a discussion of future water conservation opportunities, see Gleick, Waste Not, Want Not: The Potential for Urban Water Conservation in California (Pacific Institute, 2003).

A water user that does conserve water will be protected from any loss of water rights based on reduced diversions or extractions, if the user makes proper filings with the State Water Resources Control Board (SWRCB). See Wat C §§1005.1-1005.2, 1005.4, 1011-1012. A water rights holder may also transfer water rights based on conservation efforts that result in decreased consumptive use. See Wat C §§1735-1736. See also *In the Matter of Licenses 1050, Natomas Cent. Mut. Water Co.*, SWRCB Order WR 99-012 (1999), modified in part, Order WR 2000-01 (2000). A water supplier may enter into contracts with its customers to make water available for transfer through conservation. See Wat C §§1745.02, 1745.04, 1745.05(a)(1).

© The Regents of the University of California

4. Reclaimed Water

§6.7 a. Augmentation of Municipal Water Supplies

Water reclamation can be an efficient means to augment municipal water supplies. Potable water may be conserved by using reclaimed water instead of potable water for non-potable water uses. A water user may maintain its water rights despite the reduction or cessation of use due to substitution of reclaimed water, if it makes proper filings with the State Water Resources Control Board (SWRCB). See Wat C §1010. The SWRCB, through the Office of Water Recycling, also provides financial assistance for water reclamation projects, in the form of low-interest loans for project construction and grants for project planning.

© The Regents of the University of California

§6.8 b. Regulatory Jurisdiction Over Reclaimed Water

Several agencies possess regulatory jurisdiction over reclaimed water projects, including the local Regional Water Quality Control Boards (RWQCB) and Department of Health Services (DHS). The primary statutory principles for reclaimed water are found in the Water Recycling Law and Water Recycling Act of 1991. See Wat C §§13500-13556 and §§13575-13583, respectively. The provisions of Wat C §13521 require DHS to promulgate administrative regulations for the safe use of reclaimed water. See 22 Cal Code Regs §§60301-60357.

© The Regents of the University of California

§6.9 c. Permits Required for Operation of Reclaimed Water Project

A permit is required to operate a reclaimed water project. To commence the permitting process, the municipality must submit a report to the appropriate Regional Water Quality Control Boards (RWQCB). See Wat C §13522.5. The RWQCB may issue waste discharge requirements or, for projects when the municipality will distribute the reclaimed water to others for use, a master reclamation permit. See Wat C §13523.1. Among other things, a master reclamation permit must incorporate the water recycling criteria found in Title 22 of the California Code of Regulations. See 22 Cal Code Regs §§60301-60357. Additionally, the permit must require the permitee to (see Wat C §13523.1(b)(3)-(5)):

- Establish and enforce rules on the development of reclaimed water use facilities and the use of reclaimed water;
- Submit quarterly reports to the RWQCB on the reclaimed water project; and
- Undertake periodic inspections of the facilities of the reclaimed water users.

The RWQCB may also include other provisions in the master reclamation permit to protect the environment, prevent nuisance, and monitor the project and compliance. The Title 22 requirements will be prepared by the Department of Health Services and the applicable County Health Services entity.

© The Regents of the University of California

§6.10 5. Water Fluoridation

Fluoridation of the water supply can present a controversial issue for many public agencies. However, courts throughout the United States have uniformly held that fluoridation of water is a reasonable and proper exercise of the police power in the interest of public health. *Beck v City Council of Beverly Hills* (1973) 30 CA3d 112, 115, 106 CR 163; *DeAryan v Butler* (1953) 119 CA2d 674, 682, 260 P2d 98 (addition of fluoride to water supply, as directed by resolution of city council, was valid exercise of police power of city of San Diego). Despite the long-standing authority upholding fluoridation of water, opponents of fluoridation have also challenged the manner of fluoridation by alleging that the chemical chosen by the public agency to fluoridate its water supply contains contaminants that are harmful to the public. In *Coshow v City of Escondido* (2005) 132 CA4th 687, 34 CR3d 19, plaintiffs alleged that the city of Escondido's use of hydrofluorosilicic acid (HFSA) to fluoridate its water supply contained dangerous levels of lead and arsenic in violation of plaintiffs' fundamental rights under the state and federal constitutions. The court sided with the public agency on the basis that the California Safe Drinking Water Act, namely Health & S C §116410, specifically authorized fluoridation of public water supplies; the added chemicals were approved by the Department of Health Services in accordance with Health & S C §116550(a); and fluoridation was a reasonable and proper exercise of the police power. The court also held that there was no fundamental right to fluoride-free water, the use of fluoride was not mass medication because the residents were not forced to drink the water, and the rational basis test was met.

© The Regents of the University of California

B. Sewage Disposal

§6.11 1. Authority to Own and Operate Sewer System

Cities, counties, and special districts may own and operate sewer systems. When a city owns and operates such a facility, it is governed by the Porter Cologne Act (Wat C §§13000-14958) and the Clean Water Act (33 USC §§1251-1387), and it is empowered to exercise its own governmental authority to protect water quality. State law specifically authorizes several types of local agencies to own and operate sewer systems:

- Cities, see Govt C §§38900-38901;
- County sanitation districts, see Health & S C §§4700-4858;
- Sanitary districts, see Health & S C §§6400-6982;
- County water districts, see Wat C §§30000-33249;
- Sewer maintenance districts, see Health & S C §§4860-4927;
- Municipal utility districts, see Pub Util C §§11501-14403.5;
- Special districts, see Pub Util C §§13451-13691; and
- Improvement districts, see Health & S C §§4600-4650.

© The Regents of the University of California

§6.12 2. Sewer Treatment Plants and Pretreatment; Fees and Charges

Cities are expressly authorized to operate a sewer treatment plant, to require pretreatment of industrial waste, and to limit the introduction of pollutants into the system. See Govt C §§54725-54739.

State law also provides express authority to prescribe fees and charges for sewer services. See Health & S C §§5470-5474.10.

© The Regents of the University of California

C. Storm Drains

§6.13 1. Requirements for National Pollutant Discharge Elimination System Permits

Section 402(p) of the Clean Water Act requires the Environmental Protection Agency (EPA) to establish National Pollutant Discharge Elimination System (NPDES) requirements for storm water discharges. See 33 USC §1342(p). Under the Clean Water Act, the EPA has delegated its storm water permitting authority to the State of California. See 33 USC §1342(b); Wat C §13370. Cities and counties in California are thus regulated through Municipal Separate Storm Sewer System (MS4) permits issued by the State Water Resources Control Board and the regional water quality control boards. These storm water permits require dischargers to develop and implement a storm water management program with the goal of reducing the discharge of pollutants to the maximum extent practicable (MEP). See 40 CFR §122.26(d)(2)(iv). See also 33 USC §1342(p).

© The Regents of the University of California

§6.14 2. Types of Permits

The regional water quality control boards issue storm water permits for medium municipalities (serving between 100,000 and 250,000 people) and large municipalities (serving more than 250,000 people) in their jurisdictions. See 40 CFR §122.26(a)(1), (b)(4), (b)(7). The State Water Resources Control Board (SWRCB) is responsible for issuing a general storm water permit for a small Municipal Separate Storm Sewer System (MS4). See SWRCB Order No. 2003-0005-DWQ. See also 40 CFR §122.26(a)(9). Small MS4s are those municipal storm water systems operated by small municipalities and certain entities such as military bases, public campuses, state prisons, and hospital complexes. 40 CFR §122.26(b)(16)-(17). Small MS4s must file with the State Water Resources Control Board (SWRCB) a Notice of Intent (NOI) to comply with the terms of the general permit; otherwise, in appropriate circumstances, small MS4s may be regulated by an individual permit, a region-specific general permit, or by inclusion in an existing permit issued to a medium or large municipality. SWRCB Order No. 2003-0005-DWQ.

© The Regents of the University of California

§6.15 3. Contents of Permits

The regional board permits and the State Water Resources Control Board (SWRCB) general permit require permittees to develop proposed management programs specifying best management practices, control techniques, and system design and engineering methods that will be used to address certain program areas. See 40 CFR §122.26(d)(2)(iv). The program areas include construction and post-construction land use activities, public education and outreach, illicit discharge detection and elimination, and monitoring of discharges from hazardous waste facilities. 40 CFR §122.26(d)(2)(iv). The regional board permits are tailored to the particular circumstances found in the region in which they are issued, although the SWRCB general permit is of statewide applicability.

© The Regents of the University of California

§6.16 4. Financing Management Programs

Many municipalities have established or are considering the establishment of storm water management utilities and imposing service or other fees to finance the various management programs required by the Clean Water Act. Typically these fees are imposed on every developed parcel in the municipality, but are graduated according to a measurement of the impervious area on each parcel. In California, storm water utility fees may be considered property-related fees rather than user fees related to sewer and water services, and thus require voter approval under Cal Const art XIIID, §6(c). See *Howard Jarvis Taxpayers Ass'n v City of Salinas* (2002) 98 CA4th 1351, 121 CR2d 228. Thus, fees imposed on every developed parcel in the municipality and graduated according to a measurement of the impervious area on each parcel have been found to be property-related under Cal Const art XIIID. *Howard Jarvis Taxpayers Ass'n v City of Salinas* (2002) 98 CA4th 1351, 121 CR2d 228.

© The Regents of the University of California

III. MUNICIPAL RETAIL ELECTRIC UTILITIES

§6.17 A. Constitutional Authority

The California Constitution empowers municipalities to establish, purchase, and operate public works to furnish their inhabitants with electrical power. Cal Const art XI, §9(a). See also Govt C §39732; Pub Util C §10002. Twenty-six California municipalities operate electrical utilities for the benefit of retail customers, including the nation's largest municipal electric utility, the Los Angeles Department of Water and Power.

© The Regents of the University of California

§6.18 B. Electrical Services Industry Restructuring

In the late 1990s legislation was adopted that amended various sections of the civil, commercial, public utilities, and government codes, resulting in a restructuring of the electrical services industry. The legislation applied primarily to the generation component of the existing distribution, transmission, and generation of electricity. It provided the process for the transition to a competitive electricity services industry by 2002. Under this restructuring, all energy users, including local governments, are authorized to serve as aggregators for their electrical loads and to purchase electricity either from a power pool or directly from energy suppliers (known as "direct access"). Aggregators must follow established consumer protection standards. Participation in an aggregated pool is voluntary and the default provider in an aggregated pool is the existing investor-owned utility. See, *e.g.*, Pub Util C §§330-399.20. The history and legacy of deregulation and restructuring of electricity markets in the mid-1990's and the energy crisis of 2000-2001 is covered in the Ninth Circuit's opinion in *Bonneville Power Admin. v Federal Energy Regulatory Comm'n* (9th Cir 2005) 422 F3d 908, 911-914.

© The Regents of the University of California

§6.19 1. Provision of Electrical Service Under Restructuring

The legislation of the late 1990s (see §6.18) established a process by which municipal utilities that provide electricity services may participate in a restructured industry and by which governing boards of municipal utilities decide whether and under what circumstances to provide electricity service outside their boundaries. It established a process for accelerated equitable non-bypassable recovery of transition costs associated with the stranded investments of investor-owned and municipal utilities. It also established a firewall that protects residential and small business consumers from paying for statewide transition costs and the potential increase in electricity costs resulting from payment of the transition costs. In addition, it required rate reductions for residential and small commercial customers. See Pub Util C §§330-399.20, 9600-9620.

The legislation also provided for the establishment of an independent system operator (ISO) with centralized control of the transmission systems of the investor-owned utilities. The ISO is charged with providing fair and nondiscriminatory access to the transmission system it operates. See Pub Util C §§330-352.7.

© The Regents of the University of California

§6.20 2. Changes to Restructuring Program After 2000

Since late 2000, in response to unexpectedly high wholesale electricity prices and weakening utility finances, the legislature has made significant changes to the restructuring program, many of which have been or are to be implemented by the California Public Utilities Commission (CPUC). On February 1, 2001, the legislature authorized the California Department of Water Resources (CDWR) to purchase electric power on behalf of the customers of the investor-owned utilities through December 31, 2002, and suspended direct access. See Wat C §§80000-80270. On September 20, 2001, the CPUC suspended direct access, including the addition of customers to community aggregation programs after September 20, 2001. See CPUC Decision 01-09-060, as modified by CPUC Decision 01-10-036; CPUC Decision 02-03-055. With the authority of the California Department of Water Resources (CDWR) to purchase power on behalf of investor-owned utilities scheduled to expire on December 31, 2002, new legislation was enacted requiring the investor-owned utilities to file procurement plans with the CPUC detailing their activities to obtain sufficient supply to meet the needs of their customers. See Pub Util C §454.5; CPUC Docket No. R.01-10-024.

In 2002, additional legislation was adopted permitting cities and counties to purchase and sell electricity on behalf of utility customers in their jurisdictions after they have registered with the CPUC as Community Choice Aggregators (CCAs). See Pub Util C §§218.3, 331.1, 366.2, 381.1, and 394.25. The legislation allows local governments to elect "to combine the loads of its residents, businesses, and municipal facilities in a communitywide electricity buyers' program." Pub Util C §331.1(a).

PRACTICE TIP: The CPUC opened Docket No. R.03-10-003 in October 2003 to propose rules addressing the responsibilities of the electric utilities, the cost recovery mechanism and re-entry fees, notification requirements, transaction costs, and the process CCAs would use to register with the CPUC. Although CCA rules are not yet established, the CPUC proposes to adapt many of the existing procedures applicable to electric service providers and direct access customers for use by CCAs wherever possible to facilitate the start of the program and implement the statute. Although the CPUC's proceedings are not yet complete, it has issued decisions establishing rules for CCAs. See CPUC Decision 05-12-041; CPUC Decision 06-02-006; CPUC Decision 07-01-025.

© The Regents of the University of California

§6.21 3. Recovery of California Department of Water Resources Costs

The legislature has directed that the costs of the power purchased by California Department of Water Resources (CDWR) should be recovered from investor-owned utility retail customers and has stressed its intent to prevent any shifting of recoverable costs between customers. See Pub Util C §366.2(d). The California Public Utilities Commission (CPUC) issued a series of decisions relating to the recovery of the costs of power purchased by CDWR including decisions that address the recovery of such costs from electricity customers that are seeking either:

- To self-generate (see CPUC Decision 02-11-002 and CPUC Decision 03-04-030); or
- To become customers of a municipal utility (see, *e.g.*, CPUC Decision 03-07-028, CPUC Decision 03-08-076, and CPUC Decision 03-09-052).

For municipal utility customers, the CPUC held that customers who took bundled service from an investor-owned utility on or after February 1, 2001, and have since switched to service by a municipal utility must pay many of the costs of the CDWR purchases. Customers of a municipal utility that are located in the service area of an investor-owned utility may in addition be subject to payment of utility uneconomic costs. See CPUC Decision 03-07-028.

In addition, the CPUC determined that certain new municipal customers (*i.e.*, new business parks that were not in existence on February 1, 2001) located in the service area of an investor-owned utility would be required to pay many of the costs of the CDWR purchases even if they were never an investor-owned utility retail customer. In particular, new customers of a municipal utility that did not exist on February 1, 2001, may be required to make such payments. See CPUC Decision 03-07-028.

© The Regents of the University of California

§6.22 C. Significant Legislation Since Energy Crisis of 2000-2001

In the California energy crisis of 2000 and 2001, retail electricity prices in California reached all-time highs and generation capacity shortages forced temporary power outages in California. In response to the energy crisis, the legislature enacted a number of provisions to facilitate the siting of new generation and to promote and fund energy conservation, the development of clean distributed generation, and renewable resources.

The 2002 legislation established the California Renewables Portfolio Standard Program (see Pub Util C §§399-399.20), imposing a requirement on investor-owned utilities to increase their procurement of renewable resources by an additional 1 percent per year so that by the end of 2010, 20 percent of their retail sales are supplied by eligible renewable resources. See Pub Util C §§399.14-399.15. The governing boards of municipal utilities are responsible for implementing and enforcing a renewables portfolio standard and municipal utilities are required to report to their customers on an annual basis on expenditures for renewable energy development and the resource mix used to supply its customers. See Pub Util C §387. The California Public Utilities Commission (CPUC) is charged with instituting a rulemaking to determine the manner in which community aggregators and energy service providers are to participate in the Renewable Portfolio Standard Program. Pub Util C §399.12(g)(2)-(3). See CPUC Docket No. R.01-10-024; CPUC Docket No. R.04-04-026; CPUC Docket No. R.06-05-027; CPUC Docket No. R.06-02-012; CPUC Docket No. R.08-08-009. The CPUC and the California Energy Commission jointly implement the California Renewables Portfolio Standard Program. Additional information regarding the program can be found at www.cpuc.ca.gov/PUC/energy/Renewables.

Entities, including cities and counties, that serve the customers of electric utilities can also apply for demand side program funds under the following:

- The electric public goods charge (PGC), as authorized by Pub Util C §§381 and 399.
- The gas PGC, as authorized by Pub Util C §§890-900.
- Self-generation and demand-responsiveness programs developed as authorized by Pub Util C §379.5(b).

The California Global Warming Solutions Act of 2006 (Health & S C §§38500-38599) requires the California Air Resources Board (CARB) to develop regulations and market mechanisms to reduce California's greenhouse gas emissions to the 1990 level by 2020. Health & S C §§38550. The reduction measures to meet the 2020 target are to be adopted by January 1, 2011 and are to become operative January 1, 2012. Health & S C §§38562. Additional information regarding implementation of the California Global Warming Solutions Act of 2006 by CARB can be found at www.arb.ca.gov/cc/cc.htm. See also §11.235.

All electric utilities are prohibited from entering into any power generation commitments of 5 years or more, when such projects are not at least as clean as a combined-cycle gas turbine project. See Pub Util C §§8340-8341. The CPUC (for all electric utilities, including municipal electric utilities) and the California Energy Commission (CEC) (for municipal electric utilities only) are required to set specific greenhouse gas limits to implement this requirement. See Pub Util C §8341; CPUC Docket No. R.06-04-009; CEC Docket No. 06-OIR-1.

© The Regents of the University of California

§6.23 D. Utility Industry

Five distinct ownership segments exist in the United States electrical industry:

(1) Investor-owned utilities;

(2) State or municipal agencies;

(3) Cooperatively owned systems;

(4) Federal agencies; and

(5) Non-utility producers of electric power.

In addition, with the introduction of competition in various regions of the country, a series of new players have entered the electricity market, including brokers, energy service providers, and even private transmission owners. Investor-owned utilities own approximately 75 percent of generating capacity in the United States and serve about the same percentage of total retail customers. 51 Public Power 75-77 (No. 1, Jan.-Feb. 1993) (the official publication of the American Public Power Association). Investor-owned utilities also own and operate the majority of the high voltage transmission systems that supply wholesale power and/or transmit power from power generation sources to most, if not all, California municipal utilities.

© The Regents of the University of California

§6.24 E. California Municipal Electric Utilities

Some California municipal electric utilities that serve retail customers own no generating capacity and purchase the power they supply at wholesale rates via high voltage transmission lines. Other retail municipal utilities own generating facilities, individually or jointly with other utilities. All retail municipal electric utilities own, operate, and maintain distribution facilities, which consist of transformers and switching gear necessary to reduce transmission voltages to distribution voltage at which power is delivered to the customer.

© The Regents of the University of California

F. Federal Energy Regulatory Commission (FERC) Jurisdiction

1. Wholesale Electric Rate Regulation

§6.25 a. Interstate Transmission and Sales

The Federal Power Act (16 USC §§791a-828c) authorizes the Federal Energy Regulatory Commission (FERC) to regulate the rates of interstate transmission and interstate wholesale sales of electricity by investor-owned utilities. 16 USC §§824d-824e. FERC's jurisdiction under the Federal Power Act (16 USC §§791a-828c) is exclusive and preempts the California Public Utilities Commission (CPUC) from regulating interstate transmission or sales. *Mississippi Power & Light Co. v Mississippi (Ex rel Moore)* (1988) 487 US 354, 101 L Ed 2d 322, 108 S Ct 2428; *Federal Power Comm'n v Southern Cal. Edison Co.* (1964) 376 US 205, 216, 11 L Ed 2d 638, 84 S Ct 644.

© The Regents of the University of California

§6.26 b. Just and Reasonable Rates

All rates and charges made by a public utility subject to the Federal Energy Regulatory Commission's (FERC) jurisdiction must be "just and reasonable." 16 USC §824d. The terms "just and reasonable" are ordinarily interpreted as meaning cost-based; however, FERC has approved rates that are based on factors other than costs, under the label of opportunity or market based pricing.

© The Regents of the University of California

§6.27 c. Rate-Setting

All rates and charges for transmission or sales subject to the Federal Energy Regulatory Commission's (FERC) jurisdiction must be filed with FERC, which may reject an initial rate filing or a rate change filing not in accordance with FERC regulations. If, after a hearing, FERC determines a rate is unjust, unreasonable, unduly discriminatory, or preferential, FERC may set a just and reasonable rate. 16 USC §824d.

© The Regents of the University of California

2. Transmission Service

§6.28 a. Transmission Rates

Investor-owned utilities largely own and therefore dominate the California transmission services market. The denial by investor-owned utilities of transmission service or the extraction of monopoly rents from transmission-dependent municipal electric utilities is a major issue. The issue appears in various contexts, including:

- Transmission service rate negotiations;
- Federal Energy Regulatory Commission (FERC) transmission rate cases;
- Applications of investor-owned utilities for regulatory approval or mergers (see, *e.g., In re merger of San Diego Gas & Elec. Co. and Southern Cal. Edison Co.,* FERC Docket No. EC 89-5-000; CPUC Application No. 88-12-035);
- Federal antitrust litigation. *City of Vernon v Southern Cal. Edison Co.* (9th Cir 1992) 955 F2d 1361; *City of Anaheim v Southern Cal. Edison Co.* (9th Cir 1992) 955 F2d 1373.

© The Regents of the University of California

§6.29 b. Expanded Federal Energy Regulatory Commission Authority

The Energy Policy Act of 1992 gave the Federal Energy Regulatory Commission (FERC) substantially enhanced authority to make orders on transmission service. 16 USC §824j. Under this legislation, any electric utility, any federal power marketing agency, or any other person generating power for wholesale may apply to FERC for an order requiring a transmitting utility (including municipally owned electric utilities) to provide transmission services. 16 USC §824j.

In issuing such transmission service orders, FERC may set transmission service rates that reflect "an appropriate share, if any, of legitimate, verifiable economic costs, including taking into account any benefit to the transmission system of providing transmission service and the costs of any enlargement of transmission facilities." 16 USC §824k.

© The Regents of the University of California

§6.30 c. Limitations on Federal Energy Regulatory Commission Authority Over Municipal Electric Utilities

The Federal Energy Regulatory Commission (FERC) does not have refund authority over wholesale electricity sales by governmental entities and non-public utilities. See 16 USC §§824(b)(1), 824(d), 824e; *Bonneville Power Admin. v Federal Energy Regulatory Comm'n* (9th Cir 2005) 422 F3d 908.

© The Regents of the University of California

§6.31 d. Open Access and the Creation of Independent System Operators and Regional Transmission Organizations

Order 888 issued by the Federal Energy Regulatory Commission (FERC), also known as the Final Open Access Rule, directs utilities subject to its jurisdiction to file open access nondiscriminatory transmission tariffs containing minimum terms and conditions of nondiscriminatory transmission service and to take transmission service for their own new wholesale sales and purchases under those tariffs. 75 FERC 61,080 (1996). In Order 888, FERC encouraged the formation of independent system operators and provided eleven principles to guide such formation. Order 889 issued by FERC describes the requirements for utilities owning transmission capacity to provide customers with information on transmission capacity, prices, and other information that would enable them to obtain open access nondiscriminatory transmission service. 75 FERC 61,078 (1996).

Since issuing Order 888, FERC has accepted open access tariffs from a variety of public utilities and independent system operators, including the California independent system operator (ISO). In addition, FERC's objectives and requirements for the operation of wholesale electricity markets and the transmission system have evolved. For example, FERC issued Order 2000, encouraging the formation of Regional Transmission Organizations that would consolidate the operation of wholesale competitive electricity markets and the transmission system into large regional organizations. 89 FERC 61,285 (1999). FERC also issued a Notice of Proposed Rulemaking proposing a standard design for wholesale competitive electricity markets in Docket No. RM01-12-000, and an order imposing market behavior rules on competitive suppliers of electricity and creating penalties for market manipulation (see 105 FERC 61,218 (2003)). These rules apply to all entities supplying electricity under a grant of market-based rate authority from FERC.

© The Regents of the University of California

§6.32 e. Federal Energy Regulatory Commission Jurisdiction Over California Independent System Operator (ISO)

Before the creation of the California independent system operator (ISO), many municipal utilities had interconnection agreements with neighboring utilities that addressed the provision of transmission service and system operations. With the creation of the California ISO, entities seeking transmission service over the facilities of the investor-owned utilities and other entities that have joined the California ISO must obtain transmission service under the California ISO tariff. Such entities must schedule their transactions with the California ISO and pay for transmission, ancillary services, and California ISO administrative charges under the California ISO tariff.

The California ISO tariff grandfathers contracts for transmission that were in effect before the California ISO commenced operations. There are proceedings underway to substantially restructure the California ISO's operations, including its congestion pricing mechanisms and scheduling and other requirements. These proceedings may result in changes to the manner in which the California ISO honors existing contracts, and will probably create a day-ahead energy market operated by the California ISO.

Municipal utilities can join the California ISO by turning over their transmission resources (including transmission facilities or rights, or both) to operation by the California ISO. Municipal utilities that join the California ISO must become signatories to the Transmission Control Agreement between the California ISO and its members, and must obtain transmission service over their facilities in accordance with the California ISO tariff.

Municipal utilities that formally join the California ISO may recover the revenue requirement for their facilities through the California ISO tariff from users of the California ISO system. Rather than joining the California ISO, municipal utilities can purchase transmission or may participate in California ISO Ancillary Services and Real-Time Energy markets like other market participants.

In an effort to improve the attractiveness of participation in the California ISO by municipal utilities, the California ISO has created a Metered Subsystem Agreement (MSS) that is available to municipal utilities whether or not they become formal California ISO members. The MSS program affords municipal utilities that sign a Metered Subsystem Agreement a degree of flexibility to follow their own load, exemptions from certain charges, and a degree of protection from load shedding that is due to supply deficiencies caused by entities other than the municipal utility.

Whether or not they join the California ISO or become a Metered Subsystem, municipal utilities that sell into California ISO markets or make sales using the California ISO transmission system are subject to the California ISO tariff requirements and Federal Energy Regulatory Commission (FERC) orders on the California ISO for such transactions. For example, such municipal utilities have been subject to various market mitigation measures created by FERC in an attempt to address the electricity crisis, including requirements to offer unused generating capacity to the California ISO at capped prices. See, *e.g.,* 95 FERC 61,418 (2001).

In addition, municipal utilities may be required to seek interconnection to the transmission system from the California ISO for new generating units, enter into participating generator agreements with the California ISO, schedule outages of their generating facilities with the California ISO, and comply with California ISO directives during emergency conditions. Some requirements can be avoided for generating units connected in a municipal utility's distribution system if such units will not be used to serve load outside of the distribution system or to participate in California ISO markets. See, *e.g.,* 100 FERC 61,055 (2002); 101 FERC 61,277 (2002).

Municipal utilities that require distribution service from an electric utility must take such service under the FERC-approved wholesale distribution tariffs.

Additional information regarding the California ISO can be found at www.caiso.com.

© The Regents of the University of California

3. Other Federal Energy Regulatory Commission (FERC) Regulatory Powers

§6.33 a. Cogeneration and Small Power Producers

The Federal Energy Regulatory Commission (FERC) has regulatory powers in other areas that can have important economic impacts on municipal generating facilities. Municipalities are subject to FERC's rules implementing the Public Utilities Regulatory Policy Act of 1979 (PURPA), under which electric utilities must purchase power generated by cogeneration and small power producers at rates based on the fuel and capital costs the utility can avoid by virtue of obtaining power in this manner. 16 USC §§2601-2645.

© The Regents of the University of California

§6.34 b. Natural Gas

Under the Natural Gas Act, the Federal Energy Regulatory Commission (FERC) regulates interstate wholesale sales and transmission of natural gas by privately owned pipelines. Natural gas prices significantly impact municipal electric utilities with generating facilities because federal and state air quality regulations virtually mandate power plants sited in non-attainment areas to burn natural gas to produce electricity. FERC's wholesale rates directly determine the natural gas prices of the interstate pipelines from which California municipal utilities directly or indirectly import natural gas from the major production areas in Canada, Wyoming, and Texas. 15 USC §§717-717z.

© The Regents of the University of California

G. California Public Utilities Commission (CPUC) Jurisdiction

§6.35 1. Rates

The California Supreme Court has determined that there is no constitutional impediment preventing the California Public Utilities Commission (CPUC) from regulating municipal utility rates; however, the legislature has not exercised its authority under Cal Const art XII to confer such jurisdiction on the CPUC. *County of Inyo v PUC* (1980) 26 C3d 154, 161 CR 172.

© The Regents of the University of California

2. Safety and Construction Standards

§6.36 a. Uniform System

The legislature has granted the California Public Utilities Commission (CPUC) authority to develop a uniform system of safety regulation over certain facilities. Pub Util C §§701, 761-900, 8037. CPUC safety rules on maintenance of electric power lines apply to municipal utilities. *Polk v Los Angeles* (1945) 26 C2d 519, 159 P2d 931. Violation of these rules constitutes negligence per se. *Langazo v San Joaquin Light & Power Corp.* (1939) 32 CA2d 678, 90 P2d 825. In any conflict between a municipal action and lawful order of the CPUC, the latter prevails. *Harbor Carriers, Inc. v Sausalito* (1975) 46 CA3d 773, 121 CR 577.

© The Regents of the University of California

§6.37 b. Transmission Siting

Although the Federal Energy Regulatory Commission (FERC) has jurisdiction over transmission rates, states retain jurisdiction over transmission siting. Electric corporations seeking to construct transmission facilities in California must obtain a certificate of public convenience and necessity (CPCN) from the California Public Utilities Commission (CPUC). Pub Util C §1001. The CPUC has no jurisdiction to require a municipal utility to obtain a CPCN for the construction of facilities. See *Los Angeles Gas & Elec. Corp. v Department of Pub. Serv. of the City of Los Angeles* (1921) 52 CA 27, 197 P 962.

© The Regents of the University of California

§6.38 3. California Energy Commission (CEC) Jurisdiction

Any electric utility seeking to construct thermal generating plants of 50 megawatts or more must first obtain certification of the site and related facilities from the California Energy Commission (CEC). See Pub Res C §§25500-25543. An electric utility is "any person engaged in, or authorized to engage in, generating, transmitting, or distributing electric power by any facilities, including but not limited to, any such person who is subject to the regulation of the Public Utilities Commission," including a city. Pub Res C §§25108, 25116.

© The Regents of the University of California

§6.39 4. Extraterritorial Retail Service and Potential Challenges

As a general principle, a municipal electric utility may furnish service outside its boundaries, except in another city that furnishes the same service and does not consent. Cal Const art XI, §9(a); Pub Util C §10005.

Special issues arise when a municipal electric utility attempts to extend service to customers in the existing service territory of an investor-owned utility. The following are legal challenges an investor-owned utility might assert.

- **Existing franchise challenge:** The investor-owned utility will most likely be providing service in the neighboring city under an exclusive franchise issued under the Broughton Act (Pub Util C §§6001-6092) or the Franchise Act of 1937 (Pub Util C §§6201-6302). These statutes might prevent any supplier other than the franchisee from providing service in the area covered by the franchise. For a general discussion of these statutes, see §§6.49-6.57.

- **Inverse condemnation challenge:** See *Hladek v City of Merced* (1977) 69 CA3d 585, 138 CR 194 (no taking occurs when municipal dial-a-ride forces plaintiff taxi company out of business).

- **Federal antitrust challenge:** Although federal antitrust laws apply to municipalities (*City of Lafayette v Louisiana Power & Light Co.* (1978) 435 US 389, 55 L Ed 2d 364, 98 S Ct 1123), municipalities are generally immune from antitrust liability, including costs and attorney fees. 15 USC §§34-36. Municipalities remain subject to injunctive relief under the antitrust laws. *R. Ernest Cohn, D.C., D.A.B.C.O. v Bond* (4th Cir 1991) 953 F2d 154.

- **State antitrust challenge:** California's antitrust statute, Bus & P C §§16700-17365, generally referred to as the Cartwright Act, contains no express municipal antitrust immunity, but has been judicially interpreted to exclude cities. *Penn v City of San Diego* (1987) 188 CA3d 636, 233 CR 514.

- **Inter-utility contracts challenge:** A municipal electrical utility may have contracts with adjoining investor-owned utilities on service territory duties with respect to each other. These contracts may be informal letter agreements allowing the investor-owned utility to service specific fringe customers more economically served by the municipal utility's distribution system or they may be formal agreements delineating service territory boundaries. The analysis of the restrictions such contracts might impose on extraterritorial service must include the extent to which they constitute unenforceable covenants not to compete or unlawful restraints on trade or business. See Bus & P C §16600.

- **Challenge alleging tortious interference with prospective business advantage or contractual relations.** An investor-owned utility challenging the authority of a municipal utility to provide service outside its corporate limits might plead tortious interference with prospective business advantage or contractual relations. The Restatement (Second) of Torts, §766B (1979) describes intentional interference with a prospective contractual relation as follows:

One who intentionally and improperly interferes with another's prospective contractual relation … is subject to liability to the other for the pecuniary harm resulting from loss of the benefits of the relation, whether the interference consists of (a) inducing or otherwise causing a third person not to enter into or continue the prospective relation or (b) preventing the other from acquiring or continuing the prospective relation.

Although the privilege of competition may be a defense, this privilege normally must be determined by the trier of fact, not on demurrer. See *Lowell v Mother's Cake & Cookie Co.* (1978) 79 CA3d 13, 20, 144 CR 664; Restatement §768.

- **Unfair competition challenge:** The Unfair Trade Practices Act, Bus & P C §§17000-17101, makes it unlawful to sell a product below cost for the purpose of injuring competitors. Bus & P C §17043. This statute might apply to a municipal utility attempting to offer service outside the city limits.

© The Regents of the University of California

5. Acquisition of Investor-Owned Facilities

§6.40 a. Advantages of Takeovers

Municipalities are generally able to provide electrical service to their residents at significantly lower rates than those offered by investor-owned utilities. Additional advantages of establishing a municipal electric utility can include local control, tax-exempt financing, federal and state tax exemptions, absence of state and federal regulation, preferences over investor-owned utilities to inexpensive hydroelectric power from the six federal agencies that market power generated by federal hydroelectric facilities, and preference in the issuance of Federal Energy Regulatory Commission (FERC) licenses for hydroelectric projects.

© The Regents of the University of California

§6.41 b. Establishing a Municipal Utility

Establishment of a municipal electric utility will usually involve acquisition of an existing investor-owned distribution system, rather than construction of a new system. The existing utility franchise agreement may be a constraint in establishing a municipal utility. *Otter Tail Power Co. v U.S.* (1973) 410 US 366, 35 L Ed 2d 359, 93 S Ct 1022, illustrates methods one investor-owned utility used to retain its franchise and frustrate local efforts, including denial of wholesale power sales and transmission service.

In California, a municipality may petition the California Public Utilities Commission (CPUC) to acquire investor-owned utility facilities under Pub Util C §1403 or it can use the general eminent domain procedure under CCP §§1230.010-1273.050. See *City of North Sacramento v Citizens Utils. Co. of Cal.* (1963) 218 CA2d 178, 32 CR 308. If the CPUC alternative is used, the CPUC establishes the price the city must pay to acquire the system. Pub Util C §1411. If eminent domain is used, conclusive presumptions that usually apply in such a proceeding are declared by statute to be rebuttable presumptions on the property of an electric, gas, or water public utility. CCP §§1240.650, 1245.250.

© The Regents of the University of California

6. Municipal Rate-Setting

§6.42 a. Reasonableness Test

Municipal rates are judicially reviewable for a determination of reasonableness. In the absence of evidence to the contrary, municipal electric utility rates are presumed valid. *Durant v City of Beverly Hills* (1940) 39 CA2d 133, 102 P2d 759. The tests of reasonableness are whether a reasonable basis exists for charging different rates and whether the rates themselves are reasonable. See *Hansen v City of San Buenaventura* (1986) 42 C3d 1172, 1188, 233 CR 22. See also *American Microsystems, Inc. v City of Santa Clara* (1982) 137 CA3d 1037, 187 CR 550.

Proposition 218, which added Cal Const arts XIIIC and XIIID, made numerous changes to local government finance law, particularly in the areas of taxes, fees, and assessments. Proposition 218 also created certain procedural requirements for both fees and charges. See Cal Const art XIIID, §6. The initiative prohibits local agencies from using fees imposed as an incident of property ownership to fund general governmental services, including, but not limited to, fees for police, fire, ambulance, or library services, which are available to the public at large in substantially the same manner as they are to property owners.

PRACTICE TIP: The League of California Cities has published the Proposition 218 Implementation Guide (2007). Copies of the guide are available through the League's publication unit at 1400 K Street, 4th Floor, Sacramento, CA 95814; telephone (916) 658-8257; fax (916) 658-8220, or online at www.cacities.org.

On Proposition 218, see §§5.110-5.120.

© The Regents of the University of California

§6.43 b. Special Tax Problems and Other Constraints on Rate-Setting

The imposition of development fees for utility services that exceed the reasonable cost of providing the service for which the fee is charged may be successfully voided as special taxes that a municipality may impose only on approval of two-thirds vote of the qualified electorate. Cal Const art XIIIA, §4; Govt C §66013. See also *Carlsbad Mun. Water Dist. v QLC Corp.* (1992) 2 CA4th 479, 485, 3 CR2d 318.

A city's rate-setting powers may be subject to charter or municipal code restrictions or to bond covenants that require careful analysis before implementing a rate change.

© The Regents of the University of California

H. Electromagnetic Fields (EMF)

§6.44 1. Electromagnetic Fields Exposure Issues

Scientific opinion varies widely about whether exposure to electromagnetic fields (EMF) can cause cancer and other adverse health effects; nonetheless, the perception that it might be harmful has created potentially enormous economic impacts on municipal electric utilities. Several national and international panels have conducted reviews of data from multiple studies and state that there is not sufficient evidence to conclude that EMF causes cancer. The International Agency for Research on Cancer (IARC) and the California Department of Health Services (DHS) both classified EMF as a possible carcinogen. See World Health Organization Fact Sheet No. 263, *Electromagnetic fields and Public Health* (October 2001); California Department of Health Services, *An Evaluation of the Possible Risks From Electric and Magnetic Fields From Power Lines, Internal Wirings, Electrical Occupations, and Appliances* (June 2002). Many utilities are now implementing EMF mitigation measures to reduce fields from new transmission and distribution facilities to minimize siting controversies and delay. The California Public Utilities Commission (CPUC) has implemented a decision requiring electric utilities to incorporate low-cost or no-cost measures for managing EMF from power lines. CPUC Decision 93-11-013 requires that utilities spend up to 4 percent of the cost of the project on low-cost methods to reduce EMF exposure. See CPUC General Order No. 131-D.

© The Regents of the University of California

§6.45 2. Electromagnetic Fields Litigation Limited

The provisions of Pub Util C §1759 limit the ability of persons to sue for damages due to high levels of electric and magnetic fields arising from power lines of regulated utilities. *San Diego Gas & Elec. Co. v Superior Court* (1996) 13 C4th 893, 55 CR2d 724. The California Public Utilities Commission (CPUC) has authority to adopt policy on whether electric and magnetic fields (EMF) arising from power lines of regulated utilities are a public health risk and what action, if any, utilities should take to minimize such risk. A private action for damages against a public utility under the Public Utilities Act provision governing such actions is barred by Pub Util C §1759, a provision governing jurisdiction to review CPUC decisions. *San Diego Gas & Elec. Co. v Superior Court, supra.* The court found that to allow such a private action would have the effect of undermining the general supervisory or regulatory policy of the CPUC.

§6.46 a. Examples of Personal Injury Litigation Related to Electromagnetic Fields

Electromagnetic fields (EMF) personal injury litigation in California has yet to produce a trial court judgment. Pending trial cases raise such issues such as:

- A utility's alleged failure to disclose information about EMF before selling property to a developer;
- Wrongful death from leukemia allegedly caused by EMF exposure while employed as a utility maintenance worker;
- Allegations that electric lines near school caused cancer in students; and
- Claims that electric lines near a residence caused kidney tumor.

Typical causes of action have included:

- Strict liability;
- Negligence;
- Battery;
- Diminution in property value;
- Trespass; and
- Negligent infliction of emotional distress.

© The Regents of the University of California

§6.47 b. Defenses to Electromagnetic Fields Claims

One defense to electromagnetic fields (EMF) lawsuits is predicated on the utility's duty to use reasonable care in the transmission and distribution of electricity. This duty is commensurate with the level of the danger. A utility cannot and need not take precautions against unknown risks. See *Anderson v Owens Corning* (1991) 53 C3d 987, 281 CR 528 (no duty to warn about risks associated with asbestos). California courts have thus far declined to apply strict product liability to the transmission and distribution of electricity (see *Stein v Southern Cal. Edison Co.* (1992) 7 CA4th 565, 8 CR2d 907), or strict liability based on ultra hazardous activity for such transmitting electricity (see *Pierce v PG&E* (1985) 166 CA3d 68, 85, 212 CR 283).

IV. FRANCHISES

§6.49 A. Gas, Electric, and Water Franchises

Cities allow public utilities engaged in the distribution and sale of gas, electricity, or water to lay and maintain pipes, wires, and appurtenances under, along, or across a city's streets and public places by the grant of a franchise, usually in the form of an uncodified ordinance. General law cities may grant franchises for this purpose either through a bidding process provided for in the Broughton Act (Pub Util C §§6001-6092), or without a bidding process under the Franchise Act of 1937 (Pub Util C §§6201-6302). A charter city may use either statutory scheme not in conflict with its charter. Pub Util C §§6001, 6205.

© The Regents of the University of California

§6.50 1. Broughton Act Procedures

If the city chooses to use the Broughton Act (Pub Util C §§6001-6092) procedure, then on submission of an application for a franchise, the city must publish an advertisement that bids for the described franchise, stating that the franchise will be awarded to the highest bidder, and that the successful bidder will pay the city 2 percent of the gross annual receipts arising from the use, operation, or possession of the franchise. The bid must be accompanied by a deposit of 10 percent of the bid and, if the bidder is successful, the remaining 90 percent must be deposited with the city within 24 hours of the award of the bid. A bond may also be required to be posted by the successful bidder. See generally Pub Util C §§6001-6092.

© The Regents of the University of California

§6.51 2. Franchise Act of 1937 Procedures

If a city chooses to use the Franchise Act of 1937 (Pub Util C §§6201-6302) procedure, the applicant must file an application stating that during the life of the franchise it will pay to the city 2 percent of the gross annual receipts of the applicant arising from the use, operation, or possession of the franchise, provided such amount is not less than 1 percent of the gross annual receipts of the applicant derived from the sale of the utility service in the city. The city must publish a resolution of intention to grant the franchise and then hold a public hearing before adopting the franchise ordinance. See Pub Util C §§6201-6302.

© The Regents of the University of California

§6.52 3. Provisions of Franchise Ordinances

A city is not required to have an enabling ordinance to grant a franchise, but may adopt such an ordinance to establish additional procedures and requirements not in conflict with the applicable statutory scheme. Pub Util C §§6002, 6203. However, a city may not regulate the rates or internal operations of the utility by the grant of the franchise or through an enabling ordinance because such authority is vested with the California Public Utilities Commission (CPUC). See Cal Const art XII, §8; Pub Util C §701. The provisions of a franchise ordinance, discussed in §§6.53-6.55, are usually subject to negotiation between the city and the applicant.

© The Regents of the University of California

§6.53 a. Term of Franchise Usually Stated

Cities may grant franchises for as short or long as may be negotiated. Pub Util C §6264. Many franchises are granted with an indeterminate term, some with 25-year terms, and a few with short 1-5 year terms, depending on the result of negotiations with the applicant.

© The Regents of the University of California

§6.54 b. Relocation Requirement Usually Stated

A franchise typically includes a requirement that the franchisee bear the cost of relocating or removing its facilities that will be affected by the city's public works projects on the property subject to the franchise. See Pub Util C §6297. However, if the relocation is required by a private entity or another utility constructed later in time, the franchise language will often require the other entity or utility to pay the cost of relocating the franchisee's facilities. *PG&E v Dame Constr. Co.* (1987) 191 CA3d 233, 236 CR 351; *City of Anaheim v Metropolitan Water Dist.* (1978) 82 CA3d 763, 147 CR 336. Assessment district funding does not defeat the obligation of a utility to pay the costs of relocating poles and infrastructure. *City of Livermore v PG&E* (1997) 51 CA4th 1410, 59 CR2d 852.

© The Regents of the University of California

§6.55 c. Compliance With Excavation Procedures, Indemnification, and Other Provisions Usually Stated

Franchises include express provisions requiring the franchisee to obtain an excavation or highway permit before laying or replacing pipes and wires in the public right-of-way and to file maps with the city showing the location of all such facilities in the city. See Pub Util C §§6001.5, 6002-6203, 6265. An indemnification clause is required and a bond may be required by a city. Pub Util C §§6296, 6301.

© The Regents of the University of California

§6.56 4. Municipal Public Lands Use Surcharge

A city may place a land use surcharge on natural gas and electricity utilities, similar to a franchise fee on private gas and electric utilities using public rights-of-way, to replace franchise fees otherwise lost in deregulation of the gas industry. See Pub Util C §§6350-6354.1.

© The Regents of the University of California

§6.57 5. Oil Pipelines and Utility Franchises for Industrial Gas or Oil (or Products of Gas and Oil)

Both charter and general law cities may grant oil pipeline franchises under the Franchise Act of 1937. Pub Util C §§6201-6302. Charter cities may also grant oil pipeline franchises under the Broughton Act. Pub Util C §§6001.5, 6205.1. See the procedures and issues discussed in §§6.50-6.51.

A franchise granted for a pipeline that has been determined by the California Public Utilities Commission (CPUC) to be a public utility and that would carry industrial gas or oil or products may only be charged an annual fee based on the internal diameter of the pipeline in amounts set by Pub Util C §6231.5.

Cities may charge a nonpublic utility oil pipeline annual fees based on (see Pub Util C §6231.5(e)-(f)):

- A negotiated percentage of gross annual receipts arising from the use, operation, or possession of the franchise;
- An agreed-on internal diameter pipeline rate schedule; or
- Any other amount on which the parties agree.

© The Regents of the University of California

B. Cable Television and Video Systems Franchises

1. Local Franchise Authority

§6.58 a. Federal Law Limitations

Federal law governs interstate cable communication systems and thus governs cable television systems, because they are considered as being engaged in interstate communications regardless of the size of the system. *U.S. v Southwestern Cable Co.* (1968) 392 US 157, 20 L Ed 2d 1001, 88 S Ct 1994. Federal law, however, permits cities to franchise such systems if otherwise consistent with state and local law. 47 USC §541. Furthermore, federal law does not prevent a state from exercising jurisdiction on cable services consistent with federal law. 47 USC §556(b). Because the federal law establishes different rules depending on the nature of the video service provider (*e.g.*, open video system operator or cable operator), the extent of a city's authority to regulate or franchise particular system providers will vary, even though the providers may appear on the surface to be performing the same activities. The Cable Communications Policy Act of 1984 (Cable Act) (47 USC §§521-573) does not preclude local regulation of non-cable video programming. See *Pacific Bell Tel. Co. v City of Walnut Creek* (ND Cal 2006) 428 F Supp 2d 1037, 1045. Finally, because cable television communication is protected speech under the First Amendment of the United States Constitution, governmental regulation at any level may need to meet the standards discussed in §§8.118-8.153.

© The Regents of the University of California

§6.59 b. State Law Limitations

The enactment of California's Digital Infrastructure and Video Competition Act of 2006 (Pub Util C §§5800-5970), discussed in §§6.65-6.68, has substantially limited the authority with which cities may regulate video service providers. The law defines video service to include video programming services, cable services, and open video system services. Pub Util C §5830(s). The law identifies the California Public Utilities Commission (CPUC) as the sole franchising authority to issue state franchises to video service providers. Pub Util C §5840(a). The law also preempts most local regulation of video service providers that have received a state franchise to provide such services. See §6.65.

PRACTICE TIP: A video service provider that seeks to provide video services in California must obtain a state franchise from the CPUC. Although video service providers may continue to provide video services under a franchise received from a city before January 1, 2008, as of that date, cities are not authorized to issue new franchises or renew existing franchises for video services. See Pub Util C §5840(c). See also CPUC Decision 07-03-014.

© The Regents of the University of California

2. State Law on Cable Television and Video System Franchises

§6.60 a. Local Cable Television Franchises

Except as exempted by federal law, no person may construct a cable television system without a franchise or license from the jurisdiction in which it operates or a statewide video service franchise from the California Public Utilities Commission (CPUC). Govt C §53066(e); Pub Util C §5840; *FCC v Beach Communications* (1993) 508 US 307, 124 L Ed 2d 211, 113 S Ct 2096 (federal exemption of satellite master antenna television operators for buildings in common ownership only upheld). California state law now requires that a cable provider obtain a state franchise in lieu of a new local franchise or renewal of an existing local franchise. See discussion in §§6.65-6.68. Cable providers may continue to provide services under a franchise issued by a city until expiration or termination of the local franchise. See Pub Util C §5840(o). See also §6.66.

© The Regents of the University of California

§6.61 (1) Potential Franchise Rights to Be Granted and Maximum Fee Possible

The franchise or license may authorize the grantee to place wires, conduits, and appurtenances along or across public streets, highways, alleys, public properties, or public easements of the granting agency. Govt C §53066(d). But see §§6.69-6.86.

State law caps the franchise fee at 5 percent of gross receipts from operations in the city and governs advance franchise fee payments. Govt C §§53066(c), 53066.01. Federal law caps franchise fees at 5 percent of the cable operator's gross revenues derived from the cable system to provide cable services, and permits franchise fees to be prepaid or deferred as long as they do not exceed the cap that may be paid in a 1-year period. 47 USC §542(b). To be constitutional, the franchise fee may not exceed that charged to other users of public right-of-way. *Century Fed., Inc. v City of Palo Alto* (ND Cal 1988) 710 F Supp 1559; *Group W Cable, Inc. v City of Santa Cruz* (ND Cal 1988) 679 F Supp 977 (fee no greater than 5 percent valid if content neutral and nondiscriminatory). For the purpose of calculating franchise fees, "gross receipts" include the amounts listed as "franchise fees" on subscriber bills. *City of Dallas v FCC* (5th Cir 1997) 118 F3d 393.

© The Regents of the University of California

§6.62 (2) Equal Access to Cable Services Required

Cable services must not be denied to any group of potential residential cable subscribers because of the income of the residents in the area. Govt C §53066.2. If the franchisee denies equal access to service, the city may consider the franchise to have been abandoned and may take appropriate action, including revocation of the franchise agreement (after notice and opportunity for hearing have been given to the franchisee). Govt C §53066.2(c).

© The Regents of the University of California

§6.63 (3) Multiple Franchises Possible and California Public Utilities Commission Jurisdiction

Although federal law prohibits exclusive franchises (47 USC §541(a)), state law permits the operation of multiple cable service providers under local franchises. Govt C §53066.3. All cable operators must serve the same geographic area and satisfy the same public, educational, and governmental access requirements. Govt C §53066.3(d). See also §§6.69-6.86.

The CPUC has authority to regulate certain aspects of cable television equipment. 47 USC §556(a); Pub Util C §768.5.

© The Regents of the University of California

§6.64 (4) Delinquency Fees Available

State law allows delinquency fees imposed by a cable operator on a consumer for making a late payment. Cities are preempted from regulating delinquency fees that fall within this statute. Govt C §53088.7. See *Manibog v MediaOne of Los Angeles, Inc.* (2000) 81 CA4th 1366, 98 CR2d 297 (discussing the definition of "delinquency fee").

© The Regents of the University of California

§6.65 b. Statewide Video Franchises

The Digital Infrastructure and Video Competition Act of 2006 (Pub Util C §§5800-5970) provides a streamlined process for granting statewide franchises to video service providers. It allows telephone companies to compete with cable television providers in providing video service. See CPUC Docket No. 06-10-005. The California Public Utilities Commission (CPUC) is the sole authority for granting new 10-year video franchises. Pub Util C §§5840(a), 5850.

A video franchisee can unilaterally terminate their video franchise at any time by providing 90 days' notice to (Pub Util C §5840(j)):

- Customers;
- Local entities; and
- The CPUC.

Before offering video service in a city, a video franchisee must provide each city with at least 10 but no more than 60 days' notice that it will provide video service in that city's jurisdiction. Pub Util C §5840(n).

© The Regents of the University of California

§6.66 (1) Effect of New Statewide Franchise on Existing Cable Franchisees

Existing cable franchisees may opt out of their local franchise on the occurrence of any of the three following events (Pub Util C §5840(o)):

- The expiration of the cable franchise agreement;
- A mutually agreed-on date set between the city and the franchisee; or
- When notification is received by a city from a state video franchise holder that it intends to provide service in the city (see §6.65).

Cities will generally receive the benefit of public, education, and government (PEG) and institutional networks required by cable franchises existing on December 31, 2006, until the latest of the following three dates (Pub Util C §5870(k)):

- The expiration of the cable franchise;
- The termination date of the cable franchise, assuming the cable franchisee had not opted out of its local cable franchise to seek a statewide video franchise; or
- January 1, 2009.

© The Regents of the University of California

§6.67 (2) Maximum Franchise Fee and Required Support for Public, Educational, and Governmental Channels

Unless there is no local franchisee and the city opts to require a lesser amount, a video franchisee must pay 5 percent of gross revenues to the city, or the percentage paid by local cable franchisees, whichever is less. Pub Util C §5840(q)(1).

Video franchisees must provide a number of public, educational, and government (PEG) channels equal to the greatest number of PEG channels that provide at least 8 hours of programming per day by an incumbent cable franchisee as of January 1, 2007. Pub Util C §5870(a). Cities may also, by ordinance, impose an additional fee up to a maximum of 3 percent for support of PEG channel facilities. Pub Util C §5870(n). However, unless a city was imposing a fee for support of PEG channel facilities of more than 1 percent as of December 31, 2006, no more than a 1-percent fee may be imposed.

© The Regents of the University of California

§6.68 (3) Anti-Discrimination and Build-Out Requirements and Telephone Rate Limitations

Video franchisees may not discriminate or deny access to potential residential subscribers based on their income. In addition, the Digital Infrastructure and Video Competition Act of 2006 (Pub Util C §§5800-5970) places additional build-out requirements on video franchisees that are telephone corporations serving more than 1 million customers. Cities may bring discrimination and build-out complaints to the California Public Utilities Commission (CPUC), or the CPUC may open an investigation on its own motion. Pub Util C §5890.

Video franchisees that also provide stand-alone local telephone services are prohibited from increasing their telephone rates to finance the costs of their video service network deployment. Pub Util C §5940.

© The Regents of the University of California

§6.69 3. Federal Cable Television Law

Interstate communications through the physical medium of cable on wire are regulated by the Cable Communications Policy Act of 1984 (Cable Act) (47 USC §§521-573), as amended by the Cable Television Consumer Protection and Competition Act of 1992 (CTCPCA) and by the Telecommunications Act of 1996. The Cable Act mandates the Federal Communications Commission (referred to throughout this chapter as FCC) to develop guidelines for its implementation. These are generally located in 47 CFR part 76. These statutes and guidelines regulate the relationships between the various parties concerned with the provision of cable television services, including equipment manufacturers, program providers, cable television system owners and operators, and franchising authorities, such as cities.

PRACTICE TIP: If the city owns or operates a cable communications system, additional rules and regulations not discussed here will apply.

© The Regents of the University of California

§6.70 a. Definitional Scheme

The Cable Communications Policy Act of 1984 (Cable Act) (47 USC §§521-573), as amended by the Cable Television Consumer Protection and Competition Act of 1992 (CTCPCA) and by the Telecommunications Act of 1996 (see 47 USC §§521-573), contains a series of definitions that are carefully considered by the courts and the FCC in determining which regulations apply to which types of services. 47 USC §522. For example, the facilities of common carriers, such as telephone companies, are by definition not cable systems, except to the extent that they are used to transmit video programming (*i.e.*, programming provided by, or generally considered comparable to programming provided by, a television broadcast station) directly to subscribers. Therefore, common carriers are exempt from the local franchise requirements applicable to cable television systems unless they provide such video programming.

© The Regents of the University of California

§6.71 b. Franchises for Cable Television

Federal law permits cities to franchise cable television systems if otherwise consistent with state and local law. 47 USC §541. Franchises may not be exclusive. 47 USC §541(a). See also §§6.63, 6.87.

© The Regents of the University of California

§6.72 (1) Termination of Franchise

A franchising authority may revoke a cable operator's franchise for cause. 47 USC §546(i). Such termination may lead to a transfer of ownership of the system at "an equitable price." 47 USC §547(b). If a franchise renewal is denied and the franchising authority acquires the cable system, such acquisition must be at "fair market value." 47 USC §547(a). In either case, if the franchise existed before October 30, 1984, acquisition may occur as determined by the franchise agreement.

© The Regents of the University of California

§6.73 (2) Cable Operators Providing Other Telecommunications Services

A city may not limit the cable operator's ability to provide telecommunications services and may not require the operator to obtain a franchise before providing such other telecommunications services. 47 USC §541(b). Moreover, state law prohibits cities from requiring an operator to obtain a franchise as a condition of providing telecommunications service. Pub Util C §7901; *Qwest Communications v City of Berkeley* (ND Cal 2001) 146 F Supp 2d 1081. In any event, a city may require a cable operator to pay a nondiscriminatory fee for use of public property in providing such other telecommunications services. 47 USC §253(c).

Many cable operators offer Internet access over their cable systems. The FCC ruled in 2002 that the provision of Internet access by cable companies (also called cable modem service) is an "interstate information service" that does not include a separate "telecommunications service" subject to mandatory common carrier regulation under Title II of the Communications Act of 1934 (47 USC §§201-231). See Declaratory Ruling and Notice of Proposed Rule Making, *In re Inquiry Concerning High-Speed Access to the Internet Over Cable and Other Facilities*, 17 FCCR 4798, 4802 (2002). See also *National Cable & Telecommunications Ass'n v Brand X Internet Servs.* (2005) 545 US 967, 162 L Ed 2d 820, 125 S Ct 2688. However, cable modem service is subject to FCC regulation under its ancillary jurisdiction through Title I of the Cable Act to regulate interstate and foreign communications. See 47 USC §§151-161; *National Cable*, 545 U.S. at 976. The Cable Act is the Cable Communications Policy Act of 1984, as amended by the Cable Television Consumer Protection and Competition Act of 1992 (CTCPCA) and by the Telecommunications Act of 1996. See 47 USC §§521-573. Although no rulemaking has been adopted in several open proceedings that may affect regulations over broadband access, it appears that any regulation by local government must not interfere with competition among cable modem service providers. FCC CC Docket Nos. 95-20, 98-10, 01-337, 02-33; FCC GN Docket No. 00-185; FCC CS Docket No. 02-52.

© The Regents of the University of California

§6.74 (3) Telephone Companies Providing Video Programming

A telephone company that provides video programming is required to obtain a state franchise from the California Public Utilities Commission (CPUC), if not already providing video programming under a local franchise, unless the video programming is provided (47 USC §571):

- Using radio communication;
- On a common carrier basis; or
- By means of an open video system.

An open video system is essentially a system over which the telephone company controls the video programming on no more than one-third of the activated channel capacity of the system. 47 USC §573; 47 CFR §§76.1500-76.1514. A city may impose a fee on an open video system provider that does not exceed the rate at which franchise fees are imposed on the local cable operator. 47 USC §573(c)(2)(B). A city may also impose public, educational, and governmental access requirements on an open video system provider. 47 CFR §76.1505. Under the Cable Communications Policy Act of 1984 (Cable Act) (47 USC §§521-573), as amended by the Cable Television Consumer Protection and Competition Act of 1992 (CTCPCA) and by the Telecommunications Act of 1996, telephone companies and any other entity authorized by FCC rules may provide video service through an open video system. FCC regulations permit essentially anyone to become an open video system provider, except incumbent cable operators that do not face effective competition in their service areas. 47 CFR §76.1501.

© The Regents of the University of California

c. Federal Delegation of Regulation of Activities to City

§6.75 (1) Rates: Use of Rights-of-Way

Any franchise issued under the Cable Communications Policy Act of 1984 (Cable Act) (47 USC §§521-573), as amended by the Cable Television Consumer Protection and Competition Act of 1992 (CTCPCA) and by the Telecommunications Act of 1996, is construed to authorize the construction of a cable system over public rights-of-way and through easements in the area to be served by the cable system and which have been dedicated for compatible uses. In using such easements the cable operator must ensure that (47 USC §541(a)):

- The safety, functioning, and appearance of the property and the convenience and safety of other persons will not be adversely affected by the installation or construction of facilities necessary for a cable system;
- The costs of the installation, construction, operation, or removal of such facilities will be borne by the cable operator or subscriber, or a combination of both; and
- The owner of the property will be justly compensated by the cable operator for any damages caused by such activities by the cable operator.

© The Regents of the University of California

§6.76 (2) Rates: Rate Regulation and Effective Competition

A franchising authority may regulate the rates for the provision of communication services over a cable system to cable subscribers only to the extent permitted by 47 USC §543. Rate regulation is not permitted if the cable system is subject to "effective competition," as defined by the Cable Communications Policy Act of 1984 (Cable Act) (47 USC §§521-573) (*i.e.,* the cable system serves fewer than 30 percent of the households in the franchise area or two unaffiliated video providers offer comparable programming to at least 50 percent of households in the franchise area; see 47 USC §543(*l*)).

If a cable system is not subject to effective competition, the franchising authority may exercise regulatory jurisdiction over basic cable service rates by filing with the FCC a written certification to the effect that (47 USC §543(a)(3)):

- It will adopt and administer rate regulations consistent with the FCC's regulations;
- It has legal authority to adopt, and personnel to administer, such regulations; and
- Applicable procedural laws and regulations provide a reasonable opportunity for consideration of the views of interested persons.

The certification is effective 30 days after it is filed unless the FCC, after notice and an opportunity to comment, determines that the criteria are not met. 47 USC §543(a). The FCC's regulations with which the city's regulations must be consistent are found in 47 CFR §§76.901-76.990.

© The Regents of the University of California

§6.77 (3) Rates: Controlled by Federal Standards

The city's authority is limited to ensuring that the rate for basic cable service complies with federal standards. 47 USC §543(a). The basic tier consists generally of local commercial broadcasters, and public, educational, and governmental access stations. 47 USC §543(b). The FCC regulated rates for other tiers of cable service until March 31, 1999, when FCC authority over those rates ended. 47 USC §543(c)(4). Federal law directly controls other aspects that arise from the tier concept of cable service (*e.g.*, cable operator cannot require subscriber to purchase any tier of service other than the basic tier as a condition of receiving any premium or pay-per-view channel). 47 USC §543(b)(8). Basic cable service means any tier that includes the retransmission of local television broadcast signals. 47 USC §522(3).

© The Regents of the University of California

§6.78 (4) Rates: Revocation of Certification and Non-Certification

The FCC is empowered to revoke a franchising authority's rate regulation jurisdiction if it finds, on the filing of a petition by an affected party (which includes the cable operator), that the franchising authority has acted or is acting inconsistently with federal requirements (after the expiration of a reasonable cure period). 47 USC §543(a)(5).

A failure or refusal of the FCC to certify a franchising authority's rate regulation certification results in the basic service tier being regulated at the FCC level until such certification is granted. The FCC must act on a recertification request within 90 days after submission. 47 USC §543(a)(6).

© The Regents of the University of California

§6.79 (5) Rates: Billing and Rate Uniformity

The cable operator may identify as a line item on bills to subscribers the amount of the franchise fee and other taxes or assessments and the amount of the bill assessed to satisfy franchise agreement obligations to support public, educational, or governmental channels. *47* USC §542(c). Cable operators must have a uniform cable service rate structure throughout the cable system's geographic area. *47* USC §543(d). It is not clear, however, whether the definition of "geographic area" (which physically may cross city boundaries) necessarily coincides with the franchise area (which by definition lies in one political entity).

© The Regents of the University of California

§6.80 (6) Channel Capacity Requirements

A franchising authority may require that channel capacity be designated for public, educational, or governmental use, and channel capacity on institutional networks be designated for educational or governmental use, provided that if it does so, it must prescribe rules and regulations that permit the cable operator to use such channel capacity if it is not otherwise being used. 47 USC §§531, 544(b). A franchising authority may not establish requirements for video programming or other information services. 47 USC §544(b).

© The Regents of the University of California

§6.81 (7) Program Restrictions Allowed

Cable television service that in the judgment of the franchising authority or the cable operator is obscene or is in conflict with community standards in that it is lewd, lascivious, filthy, or indecent, or is otherwise unprotected by the Constitution of the United States may be prohibited. 47 USC §§532(h), 544(d). If the franchising authority holds any ownership interest in the cable system (other than programming on any channel designated for educational or governmental use), however, it may not exercise any editorial control regarding the content of the cable service on that system unless such control is exercised through an entity separate from the franchising authority. 47 USC §533(e).

© The Regents of the University of California

§6.82 (8) Program Notice May Be Required

A franchising authority may require a cable operator to (47 USC §544(h)):

- Provide 30 days' advance written notice of any change in channel assignments or in the video programming service over any channel; and
- Inform subscribers, via written notice, that comments on programming and channel position changes are being recorded by a designated office of the franchising authority.

© The Regents of the University of California

§6.83 (9) Permitted Facility and Equipment Regulation

The FCC has established minimum technical standards. 47 CFR §76.605. A franchising authority may enforce the FCC technical standards, but cannot impose different technical standards. FCC Report and Order, *In the matter of Implementation of Cable Act Reform Provisions of the Telecom Act of 1996,* 14 FCCR 5296 (1999). Presumably, a franchising authority could negotiate with the cable operator for different requirements. A franchising authority may establish requirements for other facilities and equipment. 47 USC §544(b). However, it cannot restrict a cable system's use of any type of subscriber equipment or any transmission technology. 47 USC §544(e). The scope and possible conflict between these two provisions is unclear.

© The Regents of the University of California

§6.84 (10) Customer Service Regulation

A franchising authority may establish and enforce customer service requirements of the cable operator as well as construction schedules and other construction-related requirements of the cable operator, even if they exceed the federal customer service standards. 47 USC §552. The federal standards govern (47 CFR §76.309):

- Cable system office hours and telephone availability;
- Installation, outages, and service calls; and
- Communications between the cable operator and the subscriber, including standards governing bills and refunds.

However, customer service standards and requirements established by cities are preempted for holders of a state franchise for video services issued by the California Public Utilities Commission (CPUC), and cities can enforce only specific limited customer service standards. See Pub Util C §5900.

© The Regents of the University of California

§6.85 (11) City Immunity From Damages; Remedies; Attorney Fees

For all actions pending on or initiated after October 5, 1992, cities have complete statutory immunity from damages for acts relating to the regulation of cable television. 47 USC §555a; *Jones Intercable of San Diego, Inc. v City of Chula Vista* (9th Cir 1996) 80 F3d 320. Remedies for violations are limited to injunctive relief and declaratory relief.

An exception to the damage immunity appears to be for claims involving discrimination on the basis of race, color, sex, age, religion, national origin, or handicap.

It is unclear whether the damages immunity would prevent a cable operator from recovering attorney fees under an action for injunctive or declaratory relief.

© The Regents of the University of California

§6.86 (12) Systems Sales and Transfers

If the franchise requires franchising authority approval of the sale, transfer, or change of control of the franchisee, the franchising authority has 120 days to act on any request for approval of such sale or transfer that contains or is accompanied by such information as required by the Federal Communications Commission's (FCC) regulations and by the franchising authority. The 120-day period does not begin to run until the franchising authority has received all required information. If the franchising authority fails to render a final decision within 120 days, absent a mutually agreed extension, such request must be considered granted. 47 USC §537.

Franchise agreements typically prohibit the franchising authority from unreasonably denying a requested sale, transfer, or change of control. Because the franchising authority's decision is legislative and, therefore, discretionary, the decision "should be upheld as long as there is substantial evidence for any one sufficient reason" for the decision. *Charter Communications, Inc. v County of Santa Cruz* (9th Cir 2002) 304 F3d 927, cert denied (2004) 540 US 1140. If the local franchising authority could be considered to have reasonably denied the request, a court should defer to that decision. *Charter Communications, Inc. v County of Santa Cruz, supra.*

© The Regents of the University of California

§6.87 4. Constitutional Concerns

The First Amendment to the United States Constitution is frequently used in challenges to governmental regulation of cable television at all levels. See, *e.g.*, *Turner Broadcasting System, Inc. v FCC* (1994) 512 US 622, 129 L Ed 2d 497, 114 S Ct 2445 (challenging requirement for cable system to carry certain signals); *City of Los Angeles v Preferred Communications, Inc.* (1986) 476 US 488, 90 L Ed 2d 480, 106 S Ct 2034 (challenging exclusive franchise); *GTE Cal., Inc. v FCC* (9th Cir 1994) 39 F3d 940 (challenging statute prohibiting telephone companies from providing video programming on their own systems); *Century Fed., Inc. v City of Palo Alto* (ND Cal 1987) 710 F Supp 1552 (challenging the requirement for access channels).

© The Regents of the University of California

C. Telecommunication Franchises

§6.89 1. Federal Law Applies

Federal law preempts local regulation of telecommunications services within the public rights-of-way: "No State or local statute or regulation … may prohibit or have the effect of prohibiting the ability of any entity to provide any interstate or intrastate telecommunications services." 47 USC §253(a). The FCC has outlined some of the types of local regulations it believes are within local authority to regulate use of the public right-of-way. FCC Memorandum Opinion and Order, *In the Matter of TCI Cablevision of Oakland County, Inc.* (1997) 12 FCCR 21396, 103. Furthermore, the Ninth Circuit has held that "a plaintiff suing a municipality under section 253(a) must show actual or effective prohibition, rather than the mere possibility of prohibition." *Sprint Telephony PCS, L.P. v County of San Diego* (9th Cir 2008) 543 F3d 571, 578, cert denied (2009) ___ US ___, 174 L Ed 2d 576, 129 S Ct 2860 (quoting *Level 3 Communications, L.L.C. v City of St. Louis* (8th Cir 2007) 477 F3d 528, 532).

© The Regents of the University of California

§6.90 2. State Preemption

Notwithstanding language to the contrary in the Broughton Act (Pub Util C §§6001-6092), telephone companies may construct and maintain telephone lines in public streets and highways without a franchise granted by a city. See Pub Util C §7901; *Pacific Tel. & Telegraph Co. v City & County of San Francisco* (1959) 51 C2d 766, 336 P2d 514. The definition of "telephone line" in Pub Util C §7901 includes wireless facilities. *GTE Mobilnet of Cal. Ltd. Partnership v City & County of San Francisco* (ND Cal 2006) 440 F Supp 2d 1097, 1103. The provision of non-telephone services over a company's telephone lines does not deprive a telephone company of the protection afforded by Pub Util C §7901. *Williams Communications, LLC v City of Riverside* (2003) 114 CA4th 642, 8 CR3d 96. The state has determined that the right to construct and maintain telephone lines is a matter of statewide concern and both general law and charter cities are preempted from requiring telephone companies to obtain a franchise or pay a franchise fee for operation in their borders. This right is limited however, to lands held for public road, highway, or waterway purposes; it does not authorize use of other publicly owned property. 28 Ops Cal Atty Gen 215 (1956).

© The Regents of the University of California

§6.91 3. Permissible Requirements

Cities have the authority to regulate telephone lines within public streets and highways based on aesthetic concerns. Cal Pub Util C §7901.1; *Sprint PCS Assets, L.L.C. v. City of Palos Verdes Estates* (9th Cir 2009) 583 F3d 716, 723. Consistent with Pub Util C §7901, cities have the right to exercise reasonable control over the time, place, and manner in which roads may be used to protect the function and safety of the road. Pub Util C §§2902, 5885(a), 7901.1 (making §7901.1 applicable to video franchisees); Cal Const art XI, §9(b). Telephone companies can be required to obtain an excavation or highway permit before laying telephone lines in the public-right-of-way. See Pub Util C §2902; *Pacific Tel. & Telegraph Co. v City & County of San Francisco* (1959) 51 C2d 766, 336 P2d 514. Consideration needs to be given to compliance with the California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177) as well. Permit fees imposed on telephone companies may not exceed the reasonable cost of providing the service and must not be levied for general revenue purposes. Govt C §50030. Also, telephone companies can be required to relocate their facilities and bear those expenses when necessary to make way for a governmental use of a street. *Pacific Tel. & Telegraph Co. v Redevelopment Agency of City of Redlands* (1977) 75 CA3d 957, 142 CR 584.

The California Public Utilities Commission (CPUC) will rule on applications from telephone companies that challenge the terms and conditions cities impose on access to the public right-of-way, but acknowledges that it lacks jurisdiction to order a city to grant access. CPUC Decision 98-10-058, *Order Instituting Rulemaking on the Commission's Own Motion Into Competition for Local Exchange Service,* p 28 (Oct. 22, 1998); CPUC General Order 159A.

For telephone company provision of video programming, see §§6.65-6.68.

© The Regents of the University of California

D. Solid Waste

1. Franchising Authority

§6.92 a. Police Power Authority Over Solid Waste

A city has the right under its police power to handle solid waste collection itself or to contract for its collection by one or more private parties. See *Matula v Superior Court* (1956) 146 CA2d 93, 99, 303 P2d 871 (cities under their police power could choose to regulate activities of private garbage and rubbish collectors rather than engage in such activities themselves or grant exclusive contracts to do so); *Davis v City of Santa Ana* (1952) 108 CA2d 669, 676, 239 P2d 656 (collection and disposal of garbage by city constitutes valid exercise of police power; city may elect to collect garbage itself or may grant exclusive collection privileges to one or more persons); *Glass v Fresno* (1936) 17 CA2d 555, 558, 62 P2d 765. The franchise may be exclusive or non-exclusive. *Gardner v Michigan* (1905) 199 US 325, 50 L Ed 212, 26 S Ct 106 (exclusive contract); *California Reduction Co. v Sanitary Reduction Works* (1905) 199 US 306, 50 L Ed 204, 26 S Ct 100 (exclusive disposal arrangements); *Ponti v Burastero* (1952) 112 CA2d 846, 853, 247 P2d 597 (exclusive contract for removal of garbage constitutes proper exercise of police power); *In re Zhizhuzza* (1905) 147 C 328, 81 P 955 (upholding authority to enter into an exclusive franchise in face of would-be collector's challenge).

© The Regents of the University of California

§6.93 b. Statutory Authority Over Solid Waste

The California Integrated Waste Management Act of 1989 (Pub Res C §§40000-49620) gives cities broad authority over solid waste matters, including (Pub Res C §40059):

- Aspects of solid waste handling that are of local concern, including, but not limited to, frequency of collection, means of collection and transportation, level of services, charges and fees, and nature, location, and extent of providing solid waste handling services; and
- Whether the services are to be provided by means of nonexclusive franchise, contract, license, permit, or otherwise; whether with or without competitive bidding; or if in the opinion of its governing body, the public health, safety, and well-being so require, by partially exclusive or wholly exclusive franchise, contract, license, permit, or otherwise, either with or without competitive bidding.

However, the term "solid waste" under the Act has been construed to exclude non-discarded recyclable material. See §§6.103-6.105.

© The Regents of the University of California

2. Solid Waste Franchises

§6.94 a. Generally No Local Preemption

The California Integrated Waste Management Act of 1989 (Pub Res C §§40000-49620) does not preempt local governmental agency determination of most aspects of garbage collection. Pub Res C §49300. Local governmental agency determinations continue to govern not only the means of collection but also the amount of fees and charges for the service. Pub Res C §40059(a)(1). Except for obligations created before 1998, a local agency is preempted from imposing indemnity obligations on a solid waste enterprise for penalties arising from the failure to meet the Act's diversion requirements (see §§6.109-6.119) in a manner that is not proportionate to its degree of fault for the penalty being imposed. Pub Res C §40059.1. Although cities may grant exclusive franchises for refuse collection, state agencies are immune from such regulation. *Laidlaw Waste Sys., Inc. v Bay Cities Servs., Inc.* (1996) 43 CA4th 630, 50 CR2d 824.

© The Regents of the University of California

§6.95 b. Effect on Existing Franchises

The California Integrated Waste Management Act of 1989 (Pub Res C §§40000-49620) also does not abrogate existing franchises or existing franchises that are extended (Pub Res C §40059(b)), or preempt local determination of whether garbage collection is to be provided by exclusive or nonexclusive franchises or by competitive bidding or not. Pub Res C §40059(a)(2). But see *Waste Mgmt. of the Desert, Inc. v Palm Springs Recycling Ctr., Inc.* (1994) 7 C4th 478, 28 CR2d 461 (holding that California Integrated Waste Management Act of 1989 does not authorize the granting of an exclusive franchise for collection of recyclable materials that the owner wishes to sell or donate). Cities may contract for the collection or disposal, or both, of garbage or other refuse matter under terms and conditions prescribed by each city's own ordinance or resolution. Pub Res C §49300.

© The Regents of the University of California

§6.96 c. Discontinuation of Non-Exclusive Franchises

If a city intends to enter into an exclusive franchise for the handling of solid waste but has historically allowed nonexclusive solid waste handling franchises or contracts, the city must provide mailed notice 5 years in advance to the company or companies currently providing the nonexclusive service, stating that the city intends to grant an exclusive franchise after the 5-year notice period has elapsed. Pub Res C §§49520-49521; *City of Alhambra v P.J.B. Disposal Co.* (1998) 61 CA4th 136, 71 CR2d 364. Cities may by ordinance, however, restrict such companies from soliciting new customers during the 5-year notice period. *Valley Vista Servs., Inc. v City of Monterey Park* (2004) 118 CA4th 881, 13 CR3d 433.

PRACTICE TIP: Although case law has not addressed whether the requirements of Proposition 218 (Cal Const art XIIID) apply to solid waste franchise fees, franchise agreements typically include provisions clarifying that franchise fees are imposed on haulers' gross receipts as consideration for franchise rights granted to them and not on property owners as a component of their trash bill. Common solid waste franchise agreement provisions include:

- Requiring haulers to collect customer payments instead of collecting them on property tax bills;
- Only setting maximum rates and allowing haulers to set actual rates for service;
- Eliminating annual discretionary rate increases and, instead, automatically adjusting maximum rates based on annual consumer price index (CPI) or producer price index (PPI) changes;
- Prohibiting the imposition of charges on vacant properties; and
- Allowing self-hauling (under highly regulated conditions).

For more information, see the League of California Cities, Proposition 218 Implementation Guide (2007). See also §§5.110-5.120.

© The Regents of the University of California

§6.97 d. Franchise Procedures

The procedures a city uses to negotiate with a private party to collect and dispose of garbage, waste, refuse, rubbish, offal, trimmings, or other refuse matter are left within the discretion of each city and may be prescribed by resolution or ordinance. Pub Res C §49300. See also Pub Res C §§49520-49523 (relating to continuation of services); Pub Res C §40059 (local government's authority over solid waste matters). In response to *City of Alhambra v P.J.B. Disposal Co.* (1998) 61 CA4th 136, 71 CR2d 364, an urgency measure was enacted to amend Pub Res C §§49520-49521 and to add Pub Res C §§49501.3, 49501.5, and 49524. Under these statutes, cities proposing exclusive franchises or contracts for solid waste services must mail a 5-year cancellation notice to all non-exclusive waste handlers who have operated lawfully in the jurisdiction with a city business or solid waste license, franchise, permit, or contract for more than 3 years prior. Those holding exclusive franchises or contracts may continue to provide services for the term of the unexpired contract or 5 years, whichever is less. Pub Res C §49520. Finally, it is illegal for waste handling companies to voluntarily waive their right to use the 5-year window. Pub Res C §49524.

© The Regents of the University of California

3. Jurisdiction Over Other Governmental Agencies

§6.98 a. Federal Jurisdiction Over Solid Waste

Federal government facilities must use a city's franchisee for solid waste services. See *Parola v Weinberger* (9th Cir 1988) 848 F2d 956 (Resource Conservation and Recovery Act (RCRA) (42 USC §§6901-6992k), as amended, requires federal facilities to comply with local exclusive waste collection and disposal franchise). See also *Solano Garbage Co. v Cheney* (ED Cal 1991) 779 F Supp 477 (Travis Air Force Base must use city's solid waste franchisee for waste collection services.) However, should the federal government improperly put a waste contract out for bid, a city's exclusive franchisee must participate in the bidding process and will have standing in federal court only by invoking the citizen suit provision of RCRA, not that of the Administrative Procedure Act (5 USC §§701-706). See *Brem-Air Disposal v Cohen* (9th Cir 1998) 156 F3d 1002.

© The Regents of the University of California

§6.99 b. State Jurisdiction Over Solid Waste

In contrast, cities and local government agencies may not compel state agencies to use the city's or local agency's franchisee. See *City of Santa Ana v Board of Educ.* (1967) 255 CA2d 178, 62 CR 863 (city did not have authority to force local school district to use city's waste collection services); *Laidlaw Waste Sys., Inc. v Bay Cities Servs., Inc.* (1996) 43 CA4th 630, 50 CR2d 824 (state agencies such as school districts are not bound by city's exclusive franchisee); *Del Norte Disposal Inc. v Department of Corrections* (1994) 26 CA4th 1009, 31 CR2d 746 (local agency may not compel state agency to use local agency's exclusive franchisee).

© The Regents of the University of California

§6.100 4. Landfill Regulatory Authority

Under the California Integrated Waste Management Act of 1989 (Pub Res C §§40000-49620), a city may choose to pursue either an administrative or judicial remedy to enforce its own land use restrictions contained in a solid waste landfill conditional use permit. See *San Elijo Ranch v County of San Diego* (1998) 65 CA4th 608, 76 CR2d 601.

The Resource Conservation and Recovery Act of 1976 (RCRA), as amended (42 USC §§6901-6992k), does not authorize citizen suits in federal court to enforce state landfill regulations that are more stringent than federal standards. See *Ashoff v City of Ukiah* (9th Cir 1997) 130 F3d 409.

The siting, design, and construction of municipal solid waste landfills on wetlands sites are regulated by the Environmental Protection Agency (EPA) or states with EPA-approved programs, such as California, not by the United States Army Corps of Engineers. See *Resource Invs. Inc. v United States Army Corps of Eng'rs* (9th Cir 1998) 151 F3d 1162.

PRACTICE TIP: When structuring municipal solid waste license, permit, or franchising systems, carefully consider the implications of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA) (42 USC §§9601-9675) and the possibility of including a clause in the franchise agreement indemnifying the city against CERCLA liability. Cities have been sued as arrangers under CERCLA when solid waste collected in city limits has been disposed of in landfills that are causing environmental problems. See *B.F. Goodrich Co. v Murtha* (2d Cir 1992) 958 F2d 1192; *Transportation Leasing Co. v State* (CD Cal 1993) 861 F Supp 931. On CERCLA, see §§11.237, 11.239, 11.250.

© The Regents of the University of California

§6.101 5. Municipal Waste Flow Control Ordinances

Municipal ordinances that require waste handlers to deliver solid waste to a particular private facility violate the United States Constitution's Commerce Clause. See *C & A Carbone, Inc. v Town of Clarkstown* (1994) 511 US 383, 128 L Ed 2d 399, 114 S Ct 1677. However, flow control ordinances that require solid waste to be delivered to a particular public facility do not discriminate against interstate commerce for purposes of the Commerce Clause. See *United Haulers Ass'n, Inc. v Oneida-Herkimer Solid Waste Mgmt. Auth.* (2007) 550 US 330, 167 L Ed 2d 655, 127 S Ct 1786. Additionally, some courts have recognized distinctions between waste destined for in-state as opposed to out-of-state disposal. See *IESI AR Corp. v Northwest Arkansas Reg'l Solid Waste Mgmt. Dist.* (8th Cir 2006) 433 F3d 600; *Ben Oehrleins & Sons & Daughter, Inc. v Hennepin County* (8th Cir 1997) 115 F3d 1372, cert denied (1997) 522 US 1036. However, contract provisions between municipalities and other parties that require waste handlers to deliver waste to a particular facility may be valid. See *SSC Corp. v Town of Smithtown* (2d Cir 1995) 66 F3d 502, cert denied (1996) 516 US 1112, reh'g denied, 517 US 1150. This is true if the contract has been competitively procured. See *Harvey & Harvey, Inc. v County of Chester* (3d Cir 1995) 68 F3d 788. Solid waste fees collected from generators or users, rather than through tipping fees payable at solid waste management facilities (a form of economic rather than regulatory or contractual flow control), also may be valid. See *U.S.A. Recycling, Inc. v Town of Babylon* (2d Cir 1995) 66 F3d 1272, cert denied (1996) 517 US 1135.

In contrast, a municipal ordinance that creates an exclusive waste franchise is valid and is not an impermissible flow control ordinance. In *Waste Mgmt. of Alameda County, Inc. v Biagini Waste Reduction Sys., Inc.* (1998) 63 CA4th 1488, 74 CR2d 676, the court found an exclusive waste franchise ordinance valid, particularly when it regulates solid waste processed entirely in a city, does not prevent waste disposal at a facility of the resident's choice, and does not force waste handlers to purchase waste processing services from the local exclusive franchisee.

E. Recycling

§6.103 1. Franchising Authority Over Recyclables

The California Integrated Waste Management Act of 1989 (Pub Res C §§40000-49620) authorizes cities to grant exclusive franchises for solid waste handling services. See Pub Res C §40059(a)(2). However, an owner of undiscarded recyclables is not required to transfer them to a holder of an exclusive franchise. See *Waste Mgmt. of the Desert, Inc. v Palm Springs Recycling Ctr., Inc.* (1994) 7 C4th 478, 28 CR2d 461. Recyclable materials have economic value and do not constitute waste under the Act until discarded by the owner. Recyclable materials are not discarded if the owner chooses to sell the materials for compensation, or donate them without payment to the donee. If, however, the owner of recyclable material discards them, they then become waste. Once the recyclables become discarded waste (and assuming the franchise agreement so provides), an exclusive franchisee then has the right to collect the materials and sell or otherwise dispose of them. See also *City of San Marcos v Coast Waste Mgmt., Inc.* (1996) 47 CA4th 320, 54 CR2d 588 (if an owner of recyclables pays a collector to remove them, the materials are actually solid waste; but when an owner sells materials to a collector they are recyclables).

© The Regents of the University of California

§6.104 2. Regulatory Authority Over Recyclables

The California Integrated Waste Management Act of 1989 finds a crisis in dwindling landfill space and requires local governments to embark on an extensive planning process designed to achieve dramatic reductions in the amounts of solid waste sent to local landfills. See Pub Res C §§40002 (declaring the local mandates to be essential part of state strategy), 40900-41851 (local planning requirements), 41780 (diversion requirements of 25 percent by 1995 and 50 percent by 2000). Failure to achieve these percentage reductions may subject a local agency to stiff monetary penalties of $10,000 per day. See Pub Res C §41850. Cities and counties can form regional agencies to collectively meet diversion mandates. Pub Res C §40970. Cities (not regional agencies) are also allowed to request time extensions in meeting the 50-percent requirement alternative diversion requirement. Pub Res C §§41785, 41820.

© The Regents of the University of California

§6.105 3. Other Handbook References on Recyclables

For related material, see the following sections in this handbook:

- Recycling and waste diversion requirements, see §§6.109-6.119;
- Regional planning issues, waste management, see §§10.261-10.274; and
- Hazardous waste, see §11.237-11.255.

V. MUNICIPAL SOLID WASTE AND RECYCLING

§6.106 A. Facilities Authorized

Cities are authorized by several statutes to purchase, construct, and maintain solid waste disposal facilities. See Govt C §6547 (joint power authorities for construction of solid waste disposal, treatment, and conversion facilities funded by revenue bonds); Govt C §§54300-54700 (Revenue Bond Law of 1941) (construction of solid waste collection, treatment, and disposal facilities); Govt C §§91500-91574 (California Industrial Development Financing Act) (establishment of industrial development authorities to issue revenue bonds to construct certain limited types of solid waste and energy conversion facilities). See also Pub Util C §§11501-14403.5 (Municipal Utility District Act) (two or more cities may establish municipal utility districts to acquire, construct, and operate solid waste resource recovery enterprises).

© The Regents of the University of California

B. Relationship to Water and Air Quality Issues

§6.107 1. Water Quality Testing; Regional Board Regulation; Local Pretreatment Requirements

Each solid waste disposal site operator must regularly prepare and submit solid waste water quality assessment tests to the regional water quality control board. Wat C §§13260-13274. The regional water quality control board also can regulate the disposal of pollutants and solid waste into navigable waters of the United States as required by the federal Water Pollution Prevention and Control Act (33 USC §§1251-1387). 40 CFR §§403.1-403.20; Wat C §§13370-13389.

A city is authorized to require local industry to pretreat its waste if the city determines it necessary to meet state or federal environmental laws or to protect its treatment plant. Govt C §54739.

© The Regents of the University of California

§6.108 2. Air Quality

Regional air quality districts are authorized to require each disposal site in their jurisdiction to prepare solid waste air quality assessment test reports. Health & S C §41805.5.

© The Regents of the University of California

C. Recycling and Waste Diversion Requirements

1. City Solid Waste Planning

§6.109 a. Source Reduction and Recycling Elements

Each city must adopt a Source Reduction and Recycling Element (SRRE) for purposes of achieving a reduction in the amount of solid wastes generated in the city and disposed of in landfills. Pub Res C §§41000-41260. The SRRE must have the following components (Pub Res C §41003):

- Waste characterization;
- Source reduction;
- Recycling;
- Composting;
- Solid waste facility capacity;
- Education and public information;
- Funding; and
- Special waste.

A principal aspect of the SRRE is compliance with statutory goals for reduction in the volume of solid waste generated in the city. At least once every 5 years, each city is required to review and correct any deficiencies in its SRRE to comply with the source reduction and recycling requirements of Pub Res C §41822. All revisions to the SRRE, however, are subject to the approval of the California Department of Resources Recycling and Recovery (CDRRR). Pub Res C §§40110, 41822. A city's SRRE is not subject to county approval. Pub Res C §41760.

PRACTICE TIP: Before January 1, 2010, the duties and responsibilities of the CDRRR were held by the California Integrated Waste Management Board. Pub Res C §40400.

© The Regents of the University of California

§6.110 b. Household Hazardous Waste Elements

Each city must adopt a Household Hazardous Waste Element (HHWE) for the safe collection, recycling, and disposal of household hazardous wastes, which should be separated from the solid waste stream. Pub Res C §41500. A city's HHWE is not subject to county approval. Pub Res C §41760.

© The Regents of the University of California

§6.111 c. Nondisposal Facility Elements

Each city must adopt a Nondisposal Facility Element (NDFE) that may be appended to the city's Source Reduction and Recycling Element (SRRE) and that must indicate the city's use of current and potential nondisposal facilities. Pub Res C §§40151, 41730, 44001. The NDFE must describe new solid waste facilities and the expansion of existing solid waste facilities necessary to meet the city's source reduction and recycling obligations. Pub Res C §41732.

NOTE: A nondisposal facility is any solid waste facility for which a permit must be obtained except a disposal facility (*e.g.*, a landfill) or a transformation facility (*e.g.*, a waste-to-energy plant). Pub Res C §40151.

The NDFE is not subject to county approval. Pub Res C §§41730, 41760, 41800; 14 Cal Code Regs §§18760-18775.4, 18769.

© The Regents of the University of California

§6.112 d. Relationship to County Plan; Annual Reports; Penalties

A city must submit its Source Reduction and Recycling Element (SRRE), Household Hazardous Waste Element (HHWE), and Nondisposal Facility Element (NDFE) to the county. 14 Cal Code Regs §18767. These become part of the county's integrated waste management plan, which takes effect on approval by the California Department of Resources Recycling and Recovery (CDRRR) under Pub Res C §§40110, 41800. See Pub Res C §§41730, 41750, 41800. See also §§6.109-6.111, 6.113-6.117.

Each city, county, and regional agency must submit an annual report to the CDRRR that describes the progress achieved in implementing the SRRE, HHWE, and NDFE. Pub Res C §41821; 14 Cal Code Regs §§18794.4-18794.6. After notice and hearing, the CDRRR is authorized to impose civil penalties of up to $10,000 per day on any city or county, or on any city or county as a member of a regional agency, that fails to timely implement an element of SRRE, HHWE, or NDFE. Pub Res C §§41813, 41850.

© The Regents of the University of California

2. California Integrated Waste Management Act of 1989 Requirements

§6.113 a. Impact on Source Reduction and Recycling Element

A principal purpose of a city's Source Reduction and Recycling Element (SRRE) is compliance with statutory goals for reduction of the volume of solid waste generated in the city. See Pub Res C §§41002, 41780. See §6.109.

© The Regents of the University of California

§6.114 b. Diversion Requirements

Each city must reduce or divert the following amounts of solid waste through its implementation of source reduction, recycling, and composting programs and activities (Pub Res C §§41780, 41780.2, 41781):

- Twenty-five percent reduction or diversion of the rate of waste generated on January 1, 1990, by January 1, 1995; and
- Fifty-percent reduction or diversion of the rate of waste generated on January 1, 1990, by and after January 1, 2000.

The California Department of Resources Recycling and Recovery (CDRRR) must determine each city's compliance with the diversion requirements for the years beginning with January 1, 2007, by comparing each city's change in its per capita disposal rate in subsequent years with the equivalent per capita disposal rate that would have been necessary for the city to meet the diversion requirements on January 1, 2007. Pub Res C §§40110, 41780.05, 41825. Per capita disposal or per capita disposal rate may be calculated according to population of the city, industry employment, or other method as determined by the CDRRR under Pub Res C §41780.05.

© The Regents of the University of California

§6.115 c. Exemption and Time Extension for Diversion Requirements

The California Department of Resources Recycling and Recovery (CDRRR) may reduce diversion requirements for a regional agency if all member jurisdictions are rural cities, rural counties, or cities located in a rural area and rural county if certain conditions are met (*e.g.*, small quantity of waste generation). Pub Res C §§40110, 40973(c), 41782.

The CDRRR may grant a time extension for compliance with diversion requirements under certain specified conditions (*e.g.*, cities incorporated under specific conditions, a city demonstrates that it is achieving the maximum feasible amount of source reduction, recycling, and composting). Pub Res C §41820.5(a).

© The Regents of the University of California

§6.116 d. Diversion Rate Calculation

Before use of the per capita disposal rate measurement system described in §6.114, the diversion rate was calculated from the base rate for solid waste disposal, calculated under Pub Res C §41781. With the use of the per capita disposal rate measurement system beginning in 2007, the base rate calculation is no longer used. See www.calrecycle.ca.gov/lgcentral/DivMeasure/How2MSys.htm.

© The Regents of the University of California

§6.117 e. Penalties for Noncompliance

If a city fails to timely submit an adequate Source Reduction and Recycling Element (SRRE) or Household Hazardous Waste Element (HHWE), the California Department of Resources Recycling and Recovery (CDRRR) may impose an administrative penalty of up to $10,000 per day to gain compliance. Pub Res C §§40110, 41813. Before issuing any penalty, the CDRRR must consider various factors, including a city's good faith efforts to comply and the degree of compliance. Pub Res C §41850. The CDRRR also may issue compliance orders with a schedule for achieving compliance. Pub Res C §41825.

© The Regents of the University of California

§6.118 3. Bottle Bill

The California Beverage Container Recycling and Litter Reduction Act (Pub Res C §§14500-14599) is a comprehensive program to generate large scale redemption and recycling of beverage containers. The Act does not preempt local zoning regulation of the siting of multi-material recycling centers, reverse vending machines, or mobile recycling units, as those terms are defined in the Act, but does contain language urging cities to act favorably on the siting of such recycling centers. Pub Res C §14501(e).

PRACTICE TIP: City-operated curbside collection programs and drop-off recycling facilities may collect redemption values for beverage containers and may be eligible for other related payments from the California Department of Conservation Division of Recycling. Pub Res C §14549.6.

© The Regents of the University of California

§6.119 4. Recyclable Design Requirements

State law requires local agencies to adopt ordinances on adequate areas for collecting and loading recyclable materials for private and public development projects. See Pub Res C §§42900-42911 (California Solid Waste Reuse and Recycling Access Act of 1991). Cities were required to adopt this ordinance by September 1, 1994; if they did not, the state's model ordinance on this issue took effect in the city. Pub Res C §42911. The California Department of Resources Recycling and Recovery (CDRRR) has also developed a model construction and demolition (C&D) diversion ordinance, which is intended to assist jurisdictions with diverting their C&D waste material and does not automatically take effect in a city that has not adopted its own. Pub Res C §42912.Copies of the state's model ordinance are available from the California Department of Resources Recycling and Recovery, 801 K Street, Sacramento, CA 95814, (916) 322-4027, or online at www.calrecycle.ca.gov/LGCentral/Library/CandDModel/About.htm.

© The Regents of the University of California

§6.120 VI. PUBLIC TRANSPORTATION

The authority of California cities to provide public transportation derives from Cal Const art XI, §9. That section allows each municipal corporation to furnish certain utility services, including transportation, inside as well as outside its boundaries, except in another municipal corporation that furnishes the same service and does not consent. Increasingly, regional transportation agencies coordinate and control many aspects of public transportation. This control is frequently exercised by imposing conditions on cities in order to receive grants to provide public transportation services.

For related material on public transportation, see the following sections:

- Fees, charges, and rates, see §§5.158-5.186; and
- Air quality, see §§11.184-11.236.

© The Regents of the University of California

A. Duties of Public Carriers

§6.121 1. Common Carrier Law

Anyone who offers to the public to carry persons, property, or messages is a common carrier. CC §2168. This definition covers all forms of public transportation, including rail, bus, boat, and plane; it also includes passenger elevators and escalators.

Paid carriers owe their passengers an especially high duty of care. Rather than mere reasonable care, such carriers must use the utmost care and diligence for their passengers' safe carriage. They must provide everything necessary for that purpose, and must exercise to that end a reasonable degree of skill. CC §2100. This duty extends to all passengers, including those in the process of boarding and alighting from vehicles. See 6 Witkin, Summary of California Law, *Torts* §927 (10th ed 2005).

© The Regents of the University of California

§6.122 a. Protection of Passengers

The common carrier has a duty to take all reasonable steps to protect its passengers from harm. This includes the situation in which two passengers are fighting and a third is injured. See *Lopez v Southern Cal. Rapid Transit Dist.* (1985) 40 C3d 780, 791, 221 CR 840 (common carrier is responsible when it has or should have knowledge from which it may reasonably be apprehended that an assault on a passenger may occur, and has the ability to prevent the injury).

© The Regents of the University of California

§6.123 b. Duty to Collect Evidence

A common carrier has no statutory duty to collect evidence following an accident between its vehicle and another. However, at least one appellate court decision has held the public entity liable for failing to preserve information about the other vehicle and its driver in a lawsuit by an injured passenger. See *De Vera v Long Beach Pub. Transp. Co.* (1986) 180 CA3d 782, 795, 225 CR 789. As a practical matter, it is advisable to preserve evidence and witnesses from the accident scene; see Practice Tip in §6.138.

© The Regents of the University of California

2. Special Duties to the Disabled

§6.124 a. Americans with Disabilities Act of 1990 and Federal Transit Act

Under Title II of the Americans with Disabilities Act of 1990 (42 USC §§12101-12213), public entities may not discriminate against or deny access or services to any qualified individual with a disability when providing services, including public transportation. 42 USC §§12131-12165. Title II of the ADA establishes detailed requirements for accessibility and usability of public transportation vehicles, trains, or commuter rail cars and for transportation facilities or stations. 42 USC §§12131-12165. See also 28 CFR §§35.101-35.190.

Under the Federal Transit Act (formally Urban Mass Transportation Act of 1964), federal funding may be obtained for the planning and design of mass transportation facilities to meet the special needs of the elderly or disabled. 49 USC §5310.

© The Regents of the University of California

§6.125 b. State Accessibility Requirements

Both general law and charter cities are prohibited from purchasing rapid transit equipment that is not accessible to individuals with disabilities. Govt C §4500(a). If state law prescribes higher accessibility standards than federal law, state legislation has expressly provided that state law requirements must be followed. Govt C §4500(b). For a discussion of special fares for the disabled, see §6.129.

PRACTICE TIP: Although a public transit operator may be complying with the requirements of the Americans with Disabilities Act, operators should be aware that state accessibility requirements under Govt C §4500 may dictate more stringent standards.

© The Regents of the University of California

3. Miscellaneous Issues

§6.126 a. Advertising on Vehicles

Purely commercial speech is not protected under the First Amendment and thus may be regulated. Nevertheless, policies regulating access to advertising space must not be arbitrary, capricious, or invidious. *Lehman v City of Shaker Heights* (1974) 418 US 298, 303, 41 L Ed 2d 770, 94 S Ct 2714. Although political speech is protected under the First Amendment, *Lehman* held that a city transit system's policy against accepting any political or public issue advertising was constitutionally permissible. In *Children of the Rosary v City of Phoenix* (9th Cir 1998) 154 F3d 972, cert denied (1999) 526 US 1131, the court held that advertising panels on public buses were a nonpublic forum and a city's requirement that advertisements convey a commercial message was a reasonable regulation of speech.

© The Regents of the University of California

§6.127 b. Route Scheduling

There is no authority holding public entities liable when a particular route is canceled without notice or is ahead of or behind schedule.

PRACTICE TIP: It is a good practice, however, to indicate on each printed schedule that the schedule is subject to change without notice.

© The Regents of the University of California

§6.128 c. Certification of Bus Drivers

Public bus drivers must have a certificate from the Department of Motor Vehicles. Veh C §12804.6. For activities involving school buses or school pupil activity buses, a more specialized certification is required. See Veh C §12517.

© The Regents of the University of California

§6.129 d. Setting of Transit Fares

Local public transportation fares generally are set by ordinance. There is no state or federal law requiring particular rates. However, federal law does require large urban transit systems receiving federal assistance to offer half-price fares for senior citizens and persons with disabilities during non-peak hours. 49 USC §5307(d)(1)(D). There is no comparable requirement for children's discounts, though they are common. Special rates may be set for the disabled, blind, or hearing-impaired. Pub Util C §§525, 529. State law specifies the types of identification that operators must accept as proof of senior citizen, handicapped, disabled, or disabled veteran status for purposes of determining passengers' eligibility for reduced fares. Pub Util C §99155.

© The Regents of the University of California

e. Drug and Alcohol Testing of Transit Employees

§6.130 (1) Constitutional Constraints

All common forms of drug and alcohol testing (breathalyzer, urinalysis, blood, and saliva) are considered searches under the Fourth Amendment. Thus, any employee substance-testing program must be reasonable. This means, among other things, only employees in safety-sensitive positions (such as drivers or mechanics) may be tested and only in relation to performance of safety-related duties. A number of decisions set the framework in this area. See *National Treasury Employees Union v Von Raab* (1989) 489 US 656, 103 L Ed 2d 685, 109 S Ct 1384 (upholding urinalysis of customs employees up for promotion to drug-sensitive positions); *Skinner v Railway Labor Executives' Ass'n* (1989) 489 US 602, 103 L Ed 2d 639, 109 S Ct 1402 (upholding post-accident blood-testing and reasonable-cause breath-testing of certain rail employees); *Lanier v City of Woodburn* (9th Cir 2008) 518 F3d 1147 (city's policy of requiring all candidates chosen for employment to pass a pre-employment drug and alcohol test was unconstitutional as applied to applicant for position of page at city's library, but would be constitutional if public agency could demonstrate "special need" to screen a prospective applicant for drugs and alcohol). See also *Loder v City of Glendale* (1997) 14 C4th 846, 59 CR2d 696, cert denied (1997) 522 US 807 (public employers may constitutionally require drug testing for job applicants—regardless of position sought—but not for promotions).

For related material on drug testing, see §§4.93-4.121.

© The Regents of the University of California

§6.131 (2) Drug and Alcohol Testing of City Employees, Applicants, and Trainees Driving Commercial Vehicles

Cities are required to establish a mandatory drug and alcohol testing program for city employees, applicants, and trainees with commercial driver's licenses who operate certain commercial vehicles (depending on size and use). See Department of Transportation (DOT) and Federal Highways Administration (FHWA) regulations at 49 CFR pts 382, 391-392, 395 and 49 CFR pt 40. California also mandates drug and alcohol testing requirements for drivers operating certain types of commercial vehicles described in Veh C §34500. See Veh C §§34520-34520.5 (mirroring the requirements of 49 CFR pt 40). Each individual's record of testing and results is confidential (49 CFR pts 40, 382) and must not be released without express written authorization of the individual tested except as permitted by 49 CFR §382.405.

PRACTICE TIP 1: Enforcement of DOT drug testing regulations does not appear to conflict with *Loder v City of Glendale* (1997) 14 C4th 846, 59 CR2d 696, cert denied (1997) 522 US 807. Following federal precedent, the *Loder* court abandoned the compelling state interest test for determining Fourth Amendment or state constitutional privacy violations and substituted a balancing test. The DOT has already determined that the positions to which its regulations apply are safety sensitive. Cities should use reasonable testing procedures, accompanied by careful implementation of DOT's education, information, and remedial components.

PRACTICE TIP 2: In *United Pub. Employees Local 790 v City & County of San Francisco* (1997) 53 CA4th 1021, 62 CR2d 440, the court ruled that federal authority indicates that the possibility that the employee might be called on to perform a safety-sensitive function is enough to satisfy the regulatory definition of safety-sensitive position and thus subject the employee to random testing.

PRACTICE TIP 3: Review the impact of *Lanier v City of Woodburn* (9th Cir 2008) 518 F3d 1147 on the line of decisions culminating in *Loder v City of Glendale* (1997) 14 C4th 846, 59 CR2d 696, cert denied (1997) 522 US 807, as discussed at §§4.19, 4.93-4.94, 4.100.

© The Regents of the University of California

§6.132 (3) Drug and Alcohol Testing of Pre-Employment Applicants to Accommodate Individuals With Disabilities

The Department of Transportation (DOT) has attempted to provide reasonable accommodation of individuals with certain permanent or long-term medical conditions in situations when an individual is unable to provide the necessary amount of urine for pre-employment drug testing. 49 CFR §40.195. This change in the rules applies only to pre-employment drug testing.

© The Regents of the University of California

§6.133 (4) Drug and Alcohol Testing Requires Face-to-Face Evaluation for Return to Work

Federal law requires a face-to-face meeting with the substance abuse professional evaluating an employee for returning to duty after testing positive for drugs or alcohol, and requires at least six tests in the first 12 months following the covered employee's return to duty. See 49 CFR §40.301; 49 CFR pt 40.

© The Regents of the University of California

§6.134 (5) Drug and Alcohol Testing of Off-Duty Employees and Chain of Custody of Urine Samples

In *Edgerton v State Personnel Bd.* (2000) 83 CA4th 1350, 100 CR2d 491, the court granted a permanent injunction prohibiting a state employer from conducting off-duty drug testing of its employees as an unjustified intrusion of personal privacy in violation of the state constitution. The court also found that the violation of federal regulations related to the chain of custody in the storage and handling of the employee's urine samples meant the state could not sustain its burden of proving the tests were positive.

© The Regents of the University of California

§6.135 f. Specified Rate of Return May Be Required

Public operators may be required to maintain a specified rate of return for their services. Pub Util C §§99260-99273. Certain types of rural route and new services may be exempt from the requirements. Further, expenditures made to comply with the Americans with Disabilities Act may be excluded from this calculation. Pub Util C §99268.17.

© The Regents of the University of California

§6.136 g. Prohibition on Charter Service

A transportation entity receiving Federal Transit Act funds is generally prohibited from providing a charter service. A charter service is a transportation service provided under a single contract to a defined group of users along a user-controlled route. 49 CFR §§604-604.4.

© The Regents of the University of California

§6.137 h. Drug and Alcohol Testing for Taxicab Operators in the City

The provisions of Govt C §53075.5 require drug and alcohol testing for taxicab drivers operating in a city, including charter cities. It requires cities to establish a policy that makes mandatory drug and alcohol testing an absolute condition for issuance or renewal of a taxicab driver permit by a city. The drug and alcohol testing and procedures must be in compliance with 49 CFR pt 40. It is the city's responsibility to ensure that each company or independent taxi driver is in compliance with standards and procedures for drug and alcohol testing consistent with federal regulations. The provisions of Veh C §34520 require drug or alcohol testing consortiums to mail a copy of all positive drug and alcohol test results to the Department of Motor Vehicles within 3 days of testing. It is a misdemeanor to willfully violate this requirement under the Vehicle Code.

© The Regents of the University of California

§6.138 B. Claims and Actions Against Public Carriers

Providers of public transportation are most commonly sued as a result of accidents involving public vehicles. All such lawsuits must be preceded by a proper, timely claim under the California Government Claims Act (Govt C §§810-998.3). For information on the Government Claims Act, see §§13.28-13.85.

PRACTICE TIP: It is advisable to institute a policy under which operators of mass transit vehicles collect witness cards from all passengers and bystanders following accidents. The information then can be used to aid investigation and refresh witnesses if there is litigation, and may be protected from pretrial discovery. See *Greyhound Corp. v Superior Court* (1961) 56 C2d 355, 15 CR 90 (although not considered attorney work product, witness statements are protected to the extent that the opposing party must show good cause to compel production).

© The Regents of the University of California

VII. AIRPORTS AND HARBORS

A. Airports

§6.139 1. Basic Operation and Regulation of Airports

The operation of a public airport requires compliance with federal, state, and local regulations. A city's ability to regulate local airport operations is significantly limited by federal law. However, a city as an airport proprietor has somewhat more control over airport operations. 49 USC §§40101-46507; Pub Util C §§21601-21690.29; Govt C §§50470-50478.

For related material on airport regulation, see the following sections:

- Fees, charges, and rates, see §§5.158-5.186;
- Freedom of speech, see §§9.118-9.153;
- Regional planning issues, airport planning, see §§10.254-10.260; and
- Hazardous materials, obligations of owners of property, see §§11.250-11.253.

© The Regents of the University of California

§6.140 a. Federal Preemption Over Airports

Federal preemption precludes state or municipal action that attempts to regulate the use of navigable airspace, aircraft traffic, or flight safety. See, *e.g.*, *San Diego Unified Port Dist. v Superior Court* (1977) 67 CA3d 361, 376, 136 CR 557; *U.S. v City of New Haven* (2d Cir 1974) 496 F2d 452, 454. Federal preemption also extends to on-ground activities and preempts portions of the state airport regulatory system. *Federal Express Corp. v California Pub. Utils. Comm'n* (9th Cir 1991) 936 F2d 1075 (preemption areas include rates, discounts and promotional pricing, claims, overcharges, bills of lading and freight bills, and the imposition of fees). However, there is case authority for the proposition that there is no federal preemption of local zoning regulations that restrict the size, scope, and manner of operations at a private, non-public-use airport, for example by limitations on the number of based aircraft, restrictions on aircraft types, and prohibitions on flight training and instruction. See *Faux-Burhans v County Comm'rs of Frederick County* (D Md 1987) 674 F Supp 1172, aff'd (4th Cir 1988) 859 F2d 149, cert denied (1989) 488 US 1042.

© The Regents of the University of California

§6.141 (1) Federal Regulation of Airport Rates and Charges

Airport rates and charges by airport sponsors are regulated and governed by federal laws, regulations, and policies. 49 USC §40116 (Anti-Head Tax Act); 49 USC §47129 (Federal Aviation Administration Authorization Act of 1994); 49 USC §47107(a) (federal grant assurances require nondiscriminatory and reasonable charges); 61 Fed Reg 31994-32023 (1996) ("Policy Regarding Airport Rates and Charges," portions vacated in *Air Transport Ass'n of Am. v United States Dept. of Transp.* (DC Cir 1997) 119 F3d 38, amended (DC Cir 1997) 129 F3d 625). See *Northwest Airlines v County of Kent* (1994) 510 US 355, 127 L Ed 2d 183, 114 S Ct 855; *City of Los Angeles v United States Dep't of Transp.* (DC Cir 1999) 165 F3d 972; *Air Canada v United States Dep't of Transp.* (DC Cir 1998) 148 F3d 1142.

© The Regents of the University of California

§6.142 (2) Prohibited Revenue Diversion

Airports that have received federal grants are prohibited from diverting airport revenues to their parent airport-sponsoring governments by making payments or transfers for which no equivalent value in return is received. Termed revenue diversion or the revenue use requirement, airports are required (49 USC §§47107, 47133; 64 Fed Reg 7696 (1999); FAA Order 5100.38A):

- When leasing property, to charge at least fair market value; and
- When expending airport revenue, to ensure that it directly benefits the airport.

© The Regents of the University of California

§6.143 b. Permissible Areas of Local Control

Although federal preemption broadly restricts local control of air operations and many ground operations, it does not prohibit all common law remedies for airport noise and pollution. *Bieneman v City of Chicago* (7th Cir 1988) 864 F2d 463, 470.

In addition, state tort law remedies and inverse condemnation may be sought against an airport sponsor as long as the action does not frustrate the purposes of the Federal Aviation Act of 1958 (49 USC §§40101-46507) and no immunity is provided by statute. *Greater Westchester Homeowners Ass'n v City of Los Angeles* (1979) 26 C3d 86, 160 CR 733; *Bethman v City of Ukiah* (1989) 216 CA3d 1395, 265 CR 539. Such claims can be barred by the statute of limitations or a prescriptive navigation easement. *Institoris v City of Los Angeles* (1989) 210 CA3d 10, 258 CR 418.

Furthermore, a city in its role as airport proprietor may impose some regulations, *e.g.*, about noise and flight operations, when it cannot so regulate under its police power. See *National Aviation v City of Hayward* (ND Cal 1976) 418 F Supp 417.

© The Regents of the University of California

2. Noise and Access Regulation

§6.144 a. City as Airport Proprietor

Although the federal statutory scheme preempts regulation of aircraft noise by state or local governments, municipalities acting in their capacity as airport proprietors may impose noise control regulations as long as the regulations are reasonable and not unjustly discriminatory. 49 USC §41713; *City of Burbank v Lockheed Air Terminal, Inc.* (1973) 411 US 624, 635, 36 L Ed 2d 547, 93 S Ct 1854; *City & County of San Francisco v Federal Aviation Admin.* (9th Cir 1991) 942 F2d 1391. Airport noise restrictions will not be upheld if they are discriminatory or if they have the effect of excluding an entire class of aircraft, such as jets. *Santa Monica Airport Ass'n v City of Santa Monica* (CD Cal 1979) 481 F Supp 927.

© The Regents of the University of California

§6.145 b. Noise Restrictions May Be Limited by Commerce Clause

Noise restrictions must be carefully tailored to avoid creating an impermissible burden on interstate commerce. A permissible noise restriction is one that is not illusory and does not favor in-state industry over out-of-state industry. *Alaska Airlines, Inc. v City of Long Beach* (9th Cir 1992) 951 F2d 977, 984. *Alaska Airlines* held that an ordinance imposing noise limits on individual aircraft did not violate the United States Constitution Commerce Clause because "[t]he goal of reducing airport noise to control liability and improve the aesthetics of the environment is a legitimate and permissible one." 951 F2d at 984.

© The Regents of the University of California

§6.146 c. Federal Aviation Administration (FAA) Restrictions

Any noise restriction must comply with Notice and Approval of Airport Noise and Access Restrictions (14 CFR pt 161), which were promulgated by the Federal Aviation Administration (FAA) to implement the National Aviation Noise Policy (49 USC §§47521-47533). These rules provide that noise or access restrictions on stage 2 aircraft may not be adopted unless the airport operator conducts an in-depth analysis of the costs and benefits of the restriction and considers alternatives to the proposed restriction. 14 CFR §§161.201-161.213. Proposed noise or access restrictions on stage 3 aircraft must be submitted to the FAA for review and approval. 14 CFR §§161.301-161.325. See 14 CFR §§161.7, 161.101-161.505 (for exceptions). See also Airport Noise and Capacity Act of 1990 (49 USC §§47521-47533), and implementing regulations in 14 CFR §161.

© The Regents of the University of California

3. Zoning and Land Use Regulations Related to Airports

§6.147 a. Power to Zone Over Airports

The power to zone for airports is within the general power to zone. Cal Const art XI, §7. City zoning actions, however, may be preempted by federal law if they are inconsistent with federal regulations on air transportation. *U.S. v City of Berkeley* (ED Mo 1990) 735 F Supp 937. Specifically, a local government may not exercise its zoning control over portions of an airport directly involved in flight operations. *Burbank-Glendale-Pasadena Airport Auth. v City of Los Angeles* (9th Cir 1992) 979 F2d 1338.

© The Regents of the University of California

§6.148 b. Takings Issues on Flight Height Restrictions

Zoning that restricts development in flight approaches may constitute an unconstitutional taking of property. *Peacock v County of Sacramento* (1969) 271 CA2d 845, 77 CR 391. Height restrictions in the vicinity of an airport are particularly problematic. Unlike commonly accepted zoning height restrictions, height restrictions designed to protect airport flight approaches contemplate the use of the airspace and are in effect a taking of property for the purpose of creating an easement in the airspace. *Sneed v County of Riverside* (1963) 218 CA2d 205, 32 CR 318.

© The Regents of the University of California

§6.149 c. Airport Land Use Commissions

California has established airport land use commissions (ALUCs) in each county to regulate land use around airports. Pub Util C §§21670-21679.5. The role of an ALUC is to formulate a comprehensive airport land use plan (ALUP) that will provide for the orderly growth of and around each public airport. Pub Util C §21675. The ALUC approves ALUPs and reviews local governments' implementing land use decisions for conformity.

The type of local decisions in an area covered by a land use plan and reviewable by the ALUC are broader than simple zoning. Their authority includes review of "actions, regulations or permits." Pub Util C §21675.2.

Although the local government can override the ALUC's decision, an override requires a two-thirds vote of the local legislative body and the adoption of specific findings. Pub Util C §21676. See also 75 Ops Cal Atty Gen 47 (1992) (two-thirds of a quorum of the legislative body is sufficient). The finding overriding the ALUC must be supported by substantial evidence and must comply with the standards found in *Topanga Ass'n for a Scenic Community v County of Los Angeles* (1974) 11 C3d 506, 113 CR 836 and *California Aviation Council v City of Ceres* (1992) 9 CA4th 1384, 12 CR2d 163.

© The Regents of the University of California

§6.150 d. Airport Expansions

State law mandates that before acquiring land for a new airport or to expand or enlarge an existing airport, approval must be obtained from the state and from the local government in which the land is located. Pub Util C §§21661.5-21666. See *City of Burbank v Burbank-Glendale-Pasadena Airport Auth.* (1999) 72 CA4th 366, 85 CR2d 28.

© The Regents of the University of California

§6.151 4. Airport Rents, Fees, and Tenant Requirements; Funding Requirements

Ground leases to fixed-base operators (FBO) and other flight-related operators must be awarded on a nondiscriminatory basis. In addition, an airport proprietor may not grant an exclusive right to operate to any individual providing aeronautical services. FAA Advisory Circular 150/5190-5. A city may, however, allow only one FBO to provide services at an airport when to allow more would be unreasonably costly, burdensome, or impractical and would require a reduction in leased area under agreements with existing FBO. 49 USC §47107(a)(4); 49 USC §40103(e). The goal of the Federal Aviation Administration (FAA) is to ensure maximum competition in the provision of services to the flying public. FAA Order 5190.6A.

Any municipal airport proprietor receiving federal funds must make all airport facilities and services available on fair and reasonable terms without unjust discrimination. 49 USC §47107(a). The Airport Compliance Requirements identified as FAA Order 5190.6A should be consulted in attempting to comply with this requirement.

© The Regents of the University of California

§6.152 5. Heliports

Heliports are state-regulated. The standards for permitting heliports vary with frequency of use. Heliport regulations are by their nature more flexible, but there are some statutory restrictions for any permanent heliport. Pub Util C §21662.5. Cities may adopt ordinances and regulations for the siting of heliports that are more restrictive than provided for by statute. Pub Util C §21662.5. In this area, the federal role is primarily advisory.

© The Regents of the University of California

§6.153 6. Closing Airports

A city can close its airport and go out of the airport business. *Seltenreich v Town of Fairbanks* (9th Cir 1954) 211 F2d 83. However, closure may breach conditions of federal grant funds or grant deed provisions and may cause federal reversionary interests to cloud the city's title.

© The Regents of the University of California

§6.154 7. Free Speech Regulations in Airports

The United States Supreme Court has held that airports are non-public forums under the First Amendment to the United States Constitution and, therefore, any restriction on speech protected under the First Amendment must only satisfy a requirement of reasonableness. See *International Soc'y for Krishna Consciousness, Inc. v Lee* (1992) 505 US 672, 120 L Ed 2d 541, 112 S Ct 2711 (upholding New York's ban on repetitive solicitation of money on airport property because airport terminal was considered non-public forum and ban was reasonable given nature of solicitation and interest that travelers are not subject to undue interference).

The California Supreme Court, however, has not determined whether airports are public forums under the California Constitution. In 2008, the Ninth Circuit requested that the California Supreme Court decide this question in *International Soc'y for Krishna Consciousness v City of Los Angeles* (9th Cir 2008) 530 F3d 768. In its 2010 decision, the California Supreme Court did not determine whether an airport is a public forum because the resolution of that question could not determine the outcome of the case. *International Soc'y for Krishna Consciousness v City of Los Angeles* (2010) 48 C4th 446, ___ CR3d ___. The court determined, however, that regardless of whether an airport is a public forum, the ban on the solicitation of the immediate receipt of funds was a content-neutral time, place, and manner regulation and, consistent with *Los Angeles Alliance for Survival v City of Los Angeles* (2000) 22 C4th 352, 93 CR2d 1, was valid under the California Constitution because it survived intermediate scrutiny.

© The Regents of the University of California

§6.155 8. Security in Airports

Following the terrorist attacks of September 11, 2001, Congress enacted new legislation establishing the Transportation Security Administration (TSA) to oversee all aspects of civil aviation security. 49 USC §§44901-44945. The TSA is under the control of the Under Secretary of Transportation for Security. 49 USC §114. New federal regulations cover airport and air carrier security programs and procedures, passenger and baggage screening, explosive detection systems, federal air marshals, airport contingency plans, and standards for law enforcement and screening personnel. 49 CFR pt 1500. TSA has broad inspection powers. 49 CFR §1550.3.

PRACTICE TIP 1: Always check the terms of any grants that the city may have received from the FAA or the state for airport improvements. Grants often require the airport operator to continue certain airport operations long after the work is done. Each grant condition may vary. See Airport Compliance Requirements (FAA Order 5190.6A).

PRACTICE TIP 2: Many municipal airports are converted military airfields. Most of the title documents contain reversionary clauses that cause title to return to the federal government if the property is not used for airport purposes.

PRACTICE TIP 3: Regulatory actions involving airports may be discretionary projects requiring California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177) review. If the action includes federal funding, National Environmental Policy Act (NEPA) (42 USC §§4321-4370f) review may also be required.

PRACTICE TIP 4: Even if the city knows that its small municipal airport cannot support two fixed base operators (FBOs), the city's regulations must allow access to the competing FBO.

© The Regents of the University of California

§6.156 B. Harbors

A harbor is generically defined as "a portion of the ocean or inland waters within the jurisdiction of this state either naturally or artificially protected so as to be a place of safety for vessels, including the artificially protective works, the public lands ashore and the structures and facilities provided within the enclosed body of water and shore for the mooring and servicing of vessels and the servicing of their crews and passengers." Harb & N C §34. Various acts that deal with specific kinds of harbors contain other definitions of the term harbor. See §§6.160 below for listing of authorizing statutes.

For related material on harbors, see the following sections:

- California Coastal Commission, see §1.101;
- Fees, charges, and rates, see §§5.158-5.186;
- California Coastal Act (Pub Res C §§30000-30900), see §§10.277-10.333;
- Tidelands, beaches, and streams, see §§10.334-10.361;
- Water quality, see §§11.111-11.183; and
- Hazardous materials, obligations of owners of property, see §§11.237-11.240.

© The Regents of the University of California

§6.157 1. Department of Boating and Waterways

Harbors and waterways are extensively regulated by state law through the California Harbors and Navigation Code. The California Harbors and Navigation Code establishes a Department of Boating and Waterways, a Boating and Waterways Commission, and the position of Director of Boating and Waterways. Harb & N C §§30-40.

© The Regents of the University of California

§6.158 2. Establishment and Improvement of Harbors

A city whose limits include or bound on a harbor, bay, estuary, or other navigable body of water, subject to certain limitations, may (Govt C §39901):

- Establish, acquire, construct, improve, and maintain piers, docks, wharves, and other necessary works;
- Construct, improve, dredge, deepen, or straighten channels, basins, canals, slips, and other waterways; and
- Do anything necessary or convenient to the establishment, improvement, conduct, and maintenance of a harbor, and in furtherance of commerce and navigation.

Major commercial port areas also derive their legislative authority to regulate their harbors from legislative grants of tidelands and from their respective city charters.

© The Regents of the University of California

3. Harbor Governance

§6.159 a. Structure of Governance Over Harbors

Harbors may be governed as a city department. See Govt C §§39900-39965. Alternatively, harbors maybe governed through one of many special harbor districts authorized by the Harbors and Navigation Code. The various special harbor districts authorized by the California Harbors and Navigation Code have different structures, powers, and territorial limits. Some districts are created by special legislation. See §6.160 for a discussion of various authorizing statutes.

© The Regents of the University of California

§6.160 b. Harbor Authorizing Statutes

The following is a listing of the various types of special harbor districts authorized by the California Harbors and Navigation Code with a citation to the principal act for the district and the applicable California Public Contract Code provisions.

- County Harbor Commissions. See Harb & N C §§4000-4017. See also Pub Cont C §§20690-20696.
- Harbor Improvement Districts. See Harb & N C §§5800-5956. See also Pub Cont C §20710.
- Harbor Districts. See Harb & N C §§6000-6110. See also Pub Cont C §§20720-20724.
- Port Districts. See Harb & N C §§6200-6372. See also Pub Cont C §§20750-20753.
- River Port Districts. See Harb & N C §§6800-6963. See also Pub Cont C §§20760-20764.
- Small Craft Harbor Districts. See Harb & N C §7000-7340. See also Pub Cont C §§20730-20737.
- San Diego Unified Port District Act. See Harb & N C App I, §§1-88 (Stats 1962, 1st Ex Sess, ch 67 (amended Stats 1996, chaps 399, 480)).
- Humboldt Bay Harbor, Recreation, and Conservation District Act. See Harb & N C App II, §§1-84 (Stats 1970, ch 1283).

PRACTICE TIP: The California Public Contract Code provisions on the various types of harbor districts may provide powers beyond those usually considered to be contractual in nature. To determine if a particular district has authority on a matter, review both the principal act or statutes and the Public Contract Code provisions.

© The Regents of the University of California

§6.161 4. Financing of Harbor Activities

In addition to expenditures from general revenues, cities may finance harbor activities from:

- An indebtedness funded by a harbor improvement fund (see Govt C §§43450-43455);
- Revenue bond financing for acquisition, construction, maintenance, operation, improvement, and development of marinas and small craft harbors (see Govt C §§50701-50798.4);

NOTE: Govt C §50701 appears to limit the use of revenue bonds for condemnation and Govt C §50798.4 appears to require an election authorizing revenue bond financing.

- Assessments, reassessments, special taxes, and bonds for certain purposes (see Harb & N C §§5904 (harbor improvement districts), 6094 (harbor districts), 6365 (port districts), 6944 (river port districts), and 7266 (small craft harbor districts)). See also Harb & N C §§6092.5, 6364 (giving harbor districts and port districts authority to levy special taxes in accordance with Govt C §§50075-5077.5).

© The Regents of the University of California

5. Acquisition and Disposition of Harbor Property

§6.162 a. Acquisition of Harbor Property

Most public harbors have been developed as a result of grants in trust of tidelands and submerged lands from the State of California. See *City of Berkeley v Superior Court* (1980) 26 C3d 515, 162 CR 327, cert denied sub nom by *Santa Fe Land Improvement Co. v City of Berkeley* (1980) 449 US 840; *City of Long Beach v Vickers* (1961) 55 C2d 153, 10 CR 359; *County of Orange v Heim* (1973) 30 CA3d 694, 106 CR 825; *City of Coronado v San Diego Unified Port Dist.* (1964) 227 CA2d 455, 38 CR 834. A small craft harbor is within the scope of a state tidelands grant for the creation of a harbor. *City of Redondo Beach v Taxpayers, Property Owners, Citizens & Electors* (1960) 54 C2d 126, 138, 5 CR 10.

PRACTICE TIP: Keep a file of the authorizing legislation, grant deeds, and other documents conveying tidelands and submerged lands to the city. The city's ability to use and transfer interests in the tidelands and submerged lands is often limited by the terms of these documents.

A city may acquire private property by condemnation for the improvement of waterfronts and the acquisition or maintenance of public harbors. Govt C §40404. Property located at former military installations can be assigned at no cost for development or operation of a port facility. 40 USC §554.

© The Regents of the University of California

§6.163 b. Disposition of Harbor Property: Public Trust Doctrine and Conveyance to Federal Government

The California Constitution and common law public trust doctrine impose certain restrictions on the conveyance and use of tide and submerged lands. See Cal Const art X, §§3-4 (formerly Cal Const art XV, §§2-3); *City of Long Beach v Mansell* (1970) 3 C3d 462, 478, 91 CR 23. The constitution prohibits the sale to private persons of tidelands within two miles of an incorporated city and says no individual may obstruct the free navigation of tidelands on navigable waters or the right-of-way to such waters, when required for a public purpose. *City of Berkeley v Superior Court* (1980) 26 C3d 515, 523, 162 CR 327, cert denied sub nom by *Santa Fe Land Improvement Co. v City of Berkeley* (1980) 449 US 840. Generally, a city may not alienate tidelands granted to it by the state without special authority to do so. *City of Oakland v Oakland Water-Front Co.* (1897) 118 C 160, 50 P 277. The grant is also subject to revocation and alteration by the state. See *City of Coronado v San Diego Unified Port Dist.* (1964) 227 CA2d 455, 38 CR 834.

A city may convey tide or submerged lands to the United States for public or governmental use, if the lands were granted to them by the state, and on approval by a majority of the electors. Govt C §37358.

© The Regents of the University of California

§6.164 c. Harbor Leasing: No Violation of Public Trust Doctrine

Leases are not conveyances for the purpose of the constitutional restriction on alienation of trust lands. *City of Long Beach v Vickers* (1961) 55 C2d 153, 161, 10 CR 359.

© The Regents of the University of California

§6.165 (1) Harbor-Related Lease Terms

"Any tidelands or submerged lands, granted to any city by the State of California, may be leased for a period not to exceed 66 years unless the grant from the state of the use thereof provides specifically the term for which said lands may be leased." CC §718. See also Govt C §37385. The provisions of Govt C §37384 limit the terms of leases of city-owned tide or submerged land to 50 years, except when the state grant specifically provides otherwise. The provisions of CC §718 also limit the purposes for which such lands may be leased, which limits are reflected in Govt C §§37385-37387. See §§6.166-6.167.

© The Regents of the University of California

§6.166 (2) Exception for Leases of Wharves and Other Structures

A city may lease, for up to 66 years, tide and submerged lands, the wharves, docks, piers, and other structures or improvements on these lands, and abutting uplands, as considered necessary by the legislative body for the proper development and use of its waterfront and harbor facilities. Govt C §37385.

© The Regents of the University of California

§6.167 (3) Proper Harbor-Related Lease Purposes

A city may lease such tide and submerged lands and uplands for industrial uses, improvement, and development of city harbors, construction of wharves, and similar waterfront structures, and other public uses consistent with the requirement of commerce or navigation. Govt C §37386. If industrial use of tidelands or uplands is inimical to the best interest of the city, it may lease them for park, recreational, residential. or educational purposes under conditions not inconsistent with the public trust. Govt C §37387.

© The Regents of the University of California

§6.168 d. Some Harbor-Related Easements Permitted

A grant of an easement is not covered by the constitutional restriction on alienation. 30 Ops Cal Atty Gen 212, 221 (1957). However, vacation of streets, in furtherance of a redevelopment plan, in a manner that would deny access to the ocean is invalid because it violates the constitutional right of the public to access to navigable waters. *Lane v City of Redondo Beach* (1975) 49 CA3d 251, 122 CR 189.

© The Regents of the University of California

§6.178 c. Port and Terminal Protection and Development Corporations

Public agencies may associate with other public agencies, private corporations, or individuals in the formation of a nonprofit mutual benefit corporation for a variety of nonregulatory activities, including lobbying, marketing, and other activities in the common interests of its members. Corp C §§10700-10703.

© The Regents of the University of California

§6.180 VIII. DISASTER PREPAREDNESS AND RESPONSE

When a disaster occurs, many of the normal rules of governmental powers are temporarily laid aside and getting the job done assumes paramount importance. From hazardous chemical spills to floods and earthquakes, city government is normally the first level of government to respond and the first to be affected by the changes in the normal rules and procedures of government.

NOTE: The city attorney plays a role in preparation for such emergency situations, in advising on emergency powers and procedures during disaster response, and in properly documenting governmental actions after the emergency is over. The city attorney must understand not only the constitutional limits of emergency powers, but also the federal and

documenting governmental actions after the emergency is over. The city attorney must understand not only the constitutional limits of emergency powers, but also the federal and state legislative enactments governing such powers.

PRACTICE TIP: When an emergency occurs, the city attorney should make certain the city manager or city council (at an emergency meeting under Govt C §54956.5) promptly declares an emergency. Many of the powers and immunities that apply in an emergency are dependent on such a declaration.

For additional information on disaster preparedness and response, see the following:

- Lowell, *Emergency Preparedness*, League of California Cities (City Attorneys Continuing Education Seminar, September 2004);
- Williams, *The Oakland Firestorm: A Personal and Professional Perspective,* 16 Pub LJ (No 2, 1992);
- *Federal Emergency Management Agency, Comprehensive Preparedness Guide 101: A Guide for All-Hazard Emergency Operations Planning*, (March 2009). This downloadable document provides general guidelines on developing Emergency Operations Plans. See the Federal Emergency Management Agency website at www.fema.gov.

© The Regents of the University of California

§6.181 A. Due Process in Disaster Situations

Earthquakes and other disasters can leave private property damaged and dangerous. City officials must make difficult decisions quickly, such as when buildings must be razed immediately to protect public health and safety. In the past, cities could rely on the rule that government may damage private property without compensating the owner as long as the damage is inflicted to prevent impending danger to public health or safety. See, *e.g., Holtz v Superior Court* (1970) 3 C3d 296, 305, 90 CR 345. However, the scope of this protection for city police power has been brought into question by case law arising out of earthquake damage. See *Rose v City of Coalinga* (1987) 190 CA3d 1627, 236 CR 124 (when there is triable issue of fact as to whether emergency existed, whether demolition was essential to safeguard public, and whether due process was provided, owners may state claim for inverse condemnation against city when city demolished building).

condemnation against city when city demolished building).

PRACTICE TIP: Provision for such emergency hearings should be written into the local emergency plan and local ordinances. Use of the immediate vacation order available under the Uniform Code for the Abatement of Dangerous Buildings may be considered as an alternative to immediate demolition when appropriate. Hearing procedures are provided in the Uniform Code for the Abatement of Dangerous Buildings.

© The Regents of the University of California

B. Statutory Powers in Disaster Situations

§6.182 1. State Constitutional Disaster Authorizations

Cities are authorized to provide aid or assistance to private parties for clearing debris, wreckage, or natural materials on private property as a result of a disaster or emergency if (Cal Const art XVI, §6):

- The city council finds it to be in the public interest;
- A major disaster or emergency has been declared by the president of the United States;
- The city is indemnified by the recipient of the aid for any claims arising out of rendering the aid; and
- The cost of the aid or assistance is eligible for federal reimbursement.

© The Regents of the University of California

Govt C §8568. It contains specific provisions dealing with oil spills, highway toxic disasters, floods (including dam breaks), and nuclear power plant emergencies.

© The Regents of the University of California

Only the local agency's governing body or an official designated by ordinance of the governing body whose actions must be ratified within 7 days may declare local emergencies. Govt C §8630. The governing body must review the need for continuing the emergency declaration at its regularly scheduled meetings until the local emergency is terminated. In no event may a review take place more than 21 days after the previous review, or if the body meets weekly, it must review the need for continuing the local emergency at least every 14 days until the emergency is terminated. The governing body must terminate the emergency at the earliest possible day that the conditions warrant. Govt C §8630. For additional information, see California Emergency Management Agency (Cal EMA), *Local Government Guide for Emergency Proclamations*, available at www.oes.ca.gov.

© The Regents of the University of California

§6.185 (2) State Aid May Be Provided; Local Disaster Councils

The costs of extraordinary services to carry out mutual aid agreements constitute a charge against the state, when approved by the governor. Govt C §8633. Local agencies may request the assistance of the Highway Patrol and other state law enforcement agencies to deal with local emergencies. Govt C §8598.

Cities may establish local disaster councils by ordinance. Govt C §8610.

© The Regents of the University of California

§6.186 (3) Emergency Powers and Press Access in an Emergency

The governing body (or any official designated by the governing body) has authority to issue and enforce orders and regulations necessary for the protection of life and property during the local emergency, including curfew zones to preserve public order and safety. Govt C §8634; *In re Juan C.* (1994) 28 CA4th 1093, 33 CR2d 919. Such orders and regulations must be in writing and must be given widespread publicity and notice. Govt C §8634.

The police may close areas to the public whenever a menace to the public health or safety is created by a calamity or disaster. The emergency command post may also be closed to public access. Pen C §409.5. However, these closure provisions do not apply to duly authorized representatives of any news service, newspaper, radio, or television station or network.

Pen C §409.5(d). Press representatives must be given unrestricted access to disaster sites unless police personnel at the scene reasonably determine that unrestricted access will interfere with emergency operations. The restrictions on media access may be imposed only for so long, and only to such extent, as is necessary to prevent actual interference. *Leiserson v City of San Diego* (1986) 184 CA3d 41, 51, 229 CR 22. Nothing in Pen C §409.5 gives reporters permission to trespass onto private property, and law enforcement officials have no authority to grant such permission. See *Hanlon v Berger* (1999) 526 US 808, 143 L Ed 2d 978, 119 S Ct 1706 (Fourth Amendment violated when officers permit media to accompany them during execution of search warrant).

© The Regents of the University of California

§6.188 (5) Meeting Procedures After a Disaster

Special rules govern the duties and procedures of the governing body in holding meetings during the emergency. See Govt C §§8642-8643. The governing body must meet as soon as possible after the declaration of emergency. Subpoena powers are granted to compel the attendance of witnesses for damage assessment purposes.

© The Regents of the University of California

disaster response. Govt C §§8615-8619.

Local agencies have authority to purchase, lease, or otherwise procure both sites and materials for temporary housing. Govt C §8654. The governor may assist local agencies in this procurement.

Cities may conduct test exercises and joint test exercises, but without extraordinary powers over local citizens. Govt C §8611.

© The Regents of the University of California

§6.191 b. Disaster Liability Immunity

State and local agencies have immunity against claims for the performance or failure to perform any discretionary function or duty by any agency, officer, or employee in carrying out duties under the California Emergency Services Act. Govt C §8655. See also *Adkins v State* (1996) 50 CA4th 1802, 1816, 59 CR2d 59, overruled on other grounds by *City of Moorpark v Superior Court* (1998) 18 C4th 1143, 1148, 77 CR2d 445 (*Adkins* holding that immunity for discretionary acts does not apply to intentional misrepresentations).

© The Regents of the University of California

§6.192 (1) Extraterritorial Immunity; Volunteers and Conscripts

The same privileges and immunities apply when a local agency performs emergency functions outside its territorial limits as would apply if the functions were performed inside its territorial limits. Govt C §8656. See §6.191.

Volunteers and conscripted emergency workers have the same legal immunities as officers and employees of the local agency. Govt C §8657. The agency with immunity also is immune for injuries to such emergency workers.

© The Regents of the University of California

© The Regents of the University of California

© The Regents of the University of California

§6.196 4. Ralph M. Brown Act Emergency Provisions

The Ralph M. Brown Act (Brown Act) (Govt C §§54950-54963) contains special provisions for city councils to meet to deal with "emergency situations involving matters on which prompt action is necessary due to the disruption or threatened disruption of public facilities." See Govt C §54956.5. A legislative body may meet in closed session in an emergency session if agreed to by a two-thirds vote of the members of the legislative body present, or if less than two-thirds of the members are present, by a unanimous vote of the members present. Govt C §54956.5. A document that assesses an agency's vulnerability to terrorist attack, prepared for consideration or distribution in closed session, is exempt from disclosure under the California Public Records Act. Govt C §6254(aa).

NOTE: An "emergency situation" means a work stoppage, crippling disaster, or other activity that severely impairs public health or safety. Govt C §54956.5.

© The Regents of the University of California

if the telephone system is not functional, the pre-meeting notice requirement is waived and notice of the meeting, its purpose, and any action taken is to be given to the media as soon as possible after the meeting. Govt C §54956.5(b)(2). In the case of a crippling disaster, mass destruction, terrorist act, or threatened terrorist activity that poses peril so immediate and significant that requiring a 1-hour notice before the emergency meeting may endanger public health, safety, or both, a majority of the legislative body may declare a dire emergency and meet immediately. Govt C §54956.5.

© The Regents of the University of California

public place as soon after the meeting as possible. Govt C §54956.5.

© The Regents of the University of California

- **Disaster service workers:** In an emergency, all public employees are disaster service workers "subject to such disaster service activities as may be assigned to them by their superiors or by law." See Govt C §§3100-3109.
- **Workers' compensation:** Special rules on workers' compensation apply to disaster service workers. See Lab C §§3211.92-3219, 3352.94, 4351-4355.
- **Chief executive powers:** A city may provide by ordinance for a chief executive to exercise "complete authority" and "all police power vested in the city by the Constitution and general laws" during periods of "great public calamity, such as extraordinary fire, flood, storm, epidemic, earthquake, sabotage or enemy attack." Govt C §38791.
- **Police chief powers:** A police chief has all powers and protections of sheriffs for suppression of riots, public tumult, disturbance of the peace, or resistance against the laws or public authorities, and for the execution of the local health officer's orders related to the prevention of contagious, infectious, or communicable diseases. Govt C §41601.
- **Sheriff powers:** The sheriff has special powers in his or her capacity as "ex officio director of emergency services" in an emergency. See Govt C §§26620-26624.
- **Expenditure of funds:** Special rules apply for the expenditure of funds and the provision of extraterritorial services in the event of emergency. See Govt C §§53019-53023.

- **Contracting authority:** In case of emergency, the city council may adopt a resolution by a four-fifths vote authorizing the immediate expenditure of public money "to safeguard life, health or property." Pub Cont C §20168. Competitive bidding and other requirements of the Local Agency Public Construction Act (Pub Cont C §§20100-20929) are suspended. However, a city must comply with the specific emergency contracting procedures. See Pub Cont C §§22050.
- **Municipal utilities:** Municipal utility districts may adopt a resolution to suspend notice and bid requirements for emergency work. Pub Util C §12753.
- **California Disaster Assistance Act:** The California Disaster Assistance Act (see Govt C §§8680-8692) provides for state assistance in repair, restoration, or replacement of public works of local agencies in an amount up to 75 percent of the costs not covered by federal assistance. "Terrorism" and "epidemic" are included in the definition of "disaster."
- **Shelter:** A city council may declare a shelter crisis on a finding that a significant number of persons are without the ability to obtain shelter, resulting in a threat to the health and safety of those persons, and may then use public parks, buildings, and other facilities for emergency shelter purposes. Govt C §§8698-8698.2. City liability for conditions, acts, or omissions directly related to the provision of emergency housing is limited to "grossly negligent, reckless, or intentional conduct" for any injuries. Most housing, safety, and health standards for the use of the facilities are suspended during the emergency. Govt C §8698.1.
- **Hazardous substance spills:** Special rules apply to declarations of local emergencies by the local health officer due to release or spill of hazardous substances. Health & S C

§§101075-101095.

- **Hazardous material transportation and handling:** The hazardous materials law authorizes counties certified by the Secretary for Environmental Protection as a Certified Unified Program Agency (CUPA) to regulate the handling, transportation, storage, or other activities related to hazardous materials and substances. See Health & S C §§25404-25404.9. Cities may apply for CUPA certification. The hazardous materials law requires business plans for emergency response to spills and releases, reporting requirements for incidents, and powers of inspection.
- **Small craft vessels and harbors:** Cities, port authorities, and similar agencies may adopt emergency rules and regulations to govern small craft vessels and harbors in emergency situations for a period of up to 60 days, unless authorized for extension by the state Department of Harbors. Harb & N C §660.
- **Joint powers agreements:** Joint powers agreements may be used to establish disaster preparation and response agencies with adjoining agencies. See Govt C §§6500-6536.

§7.7 b. Professional Services

Contracts for professional services such as private architectural, landscape architectural, engineering, environmental, land surveying, or construction management firms need not be competitively bid, but contracts must be awarded on the basis of demonstrated competence and on the professional qualifications necessary for the satisfactory performance of the services required at a fair and reasonable price to the public agency. Govt C §4526. Price can be considered and fee information solicited, but may not be the sole determining factor. Gov't C §4526. However, if the professional services are too closely akin to the work typically performed by public works construction contractors (for example, some services performed by construction managers), then competitive bidding may be required. *Inglewood-Los Angeles County Civic Ctr. Auth. v Superior Court* (1972) 7 C3d 861, 103 CR 689.

© The Regents of the University of California

§7.8 c. Special Services

The legislative body of any public or municipal corporation may contract with and employ any persons for the furnishing to the corporation special services and advice in financial, economic, accounting, engineering, legal, or administrative matters if such persons are specially trained and experienced and competent to perform the special services required. Govt C §53060. The test as to whether services are special services depends on the nature of the services, the necessary qualifications required of a person furnishing the services, and the availability of the service from public sources. *California Sch. Employees Ass'n v Sunnyvale Elementary Sch. Dist.* (1973) 36 CA3d 46, 60, 111 CR 433.

© The Regents of the University of California

§7.9 d. Design-Build

Design-build is a method of project delivery in which the design and construction functions are contracted from a single entity, called the "design-build entity." See Pub Cont C §20175.2. The design-build method stands in contrast to the traditional design-bid-build method, whereby design, procurement, and construction of the project proceed sequentially, with award of the construction contract delivered to the lowest responsible bidder based on completed plans and specifications, and the designer being retained by use of a separate contract. On responsible bidders, see §7.19. The awarding of a design-build contract may be made in accordance with the statutory procedure which results in the issuance of a design-build request for proposal. See Pub Cont C §20175.2(d). The design-build contract may be awarded to the lowest responsible bidder, or the city may award the contract based on a "best value" determination described in the code. Pub Cont C §20175.2(a)(2). The "best value" competition provides an alternative to competitive bidding and award to the lowest bidder. See Pub Cont C §20175.2(c)(1).

Charter cities may use design-build if there is a specific city charter provision or ordinance that authorizes the design-build project delivery method. Pub Cont C §1100.7. Cities may enter into design-build contracts for a qualifying building construction project in excess of $1 million with approval of the city council. Eligible construction projects include the construction of a building and related improvements, but not streets, highways, public rail transit, or water resource facilities and infrastructure. Pub Cont C §20175.2(c). In addition, cities, counties, and special districts may utilize design-build contracts for certain water or water treatment facilities. Pub Cont C §§20193-20195.

PRACTICE TIP: Construction project management services under Govt C §4526 are not subject to the design-build project requirements under Pub Cont C §20175.2. Construction project management services are solicited under Govt C §4526 and therefore are not generally subject to competitive bidding and other public works contracting requirements. See §7.7.

3. Notice Inviting Bids

§7.10 a. Contents of the Notice

The notice inviting bids must set a date for opening of bids. The timing, content, and method of publishing the notice are described in Pub Cont C §§4104.5 and 20164 and Govt C §53068. Additional information that must be included in the notice inviting bids is described in §§7.11-7.12.

© The Regents of the University of California

§7.11 b. Bid Addenda

If the city issues a bid addendum that results in a material change to the invitation, the date and time for submitting bids must be extended by no less than 72 hours. Pub Cont C §4104.5.

PRACTICE TIP: Many cities set forth specific requirements for submission of requests for additional information in the bid documents, including that such requests be in writing, and received with enough time for the city to properly issue an addendum if necessary.

© The Regents of the University of California

§7.12 c. Mandatory Pre-Bid Conference or Job Walk

If required, a mandatory pre-bid site visit, conference, meeting, or job walk must not occur within a minimum of 5 days from the initial publication of the notice calling for bids. The notice calling for bids must clearly indicate the time, date, and location of the mandatory conference or job walk. Pub Cont C §6610.

© The Regents of the University of California

§7.13 4. Presentation of Bid and Security

All bids must be sealed and accompanied by security of at least 10 percent of the bid amount to guarantee the bid. The city cannot consider a bid from a bidder who fails to provide the required security. Pub Cont C §§20170-20171. Rules governing forfeiture of bid security are contained in Pub Cont C §§20172-20174 and limit the amount of forfeiture to the difference between the low bid and the second low bid.

© The Regents of the University of California

§7.14 5. Internet Submissions

Public entities may adopt methods and procedures to receive bids and/or supporting materials online. Public entities are required to provide contractors an electronic receipt showing the date and time the submission was received. Pub Cont C §1601.

© The Regents of the University of California

6. Award

§7.15 a. Lowest Responsible Bidder

The contracts for competitively bid public projects must be awarded to the lowest responsible bidder. Pub Cont C §20162. The process for selecting the lowest responsible bidder includes a determination of: (1) which bidder is the lowest monetary bidder; (2) whether or not the lowest monetary bidder submitted a responsive bid; and (3) whether or not the lowest monetary bidder is responsible. *Inglewood-Los Angeles County Civic Ctr. Auth. v Superior Court* (1972) 7 C3d 861, 103 CR 689; *Taylor Bus Serv., Inc. v San Diego Bd. of Educ.* (1987) 195 CA3d 1331, 241 CR 379. If the lowest monetary bidder is responsible and submits a responsive bid, the contract must be awarded to the lowest monetary bidder even if another bidder is more responsible. *Inglewood-Los Angeles County Civic Ctr. Auth. v Superior Court, supra*. A city that improperly awards a bid to any bidder other than the lowest responsible bidder may be liable for reimbursing the low bidder's actual cost in submitting the bid, but will not be liable for the low bidder's lost profits. *Kajima/Ray Wilson v Los Angeles County Metro. Transp. Auth.* (2000) 23 C4th 305, 315, 96 CR2d 747.

© The Regents of the University of California

§7.16 (1) Lowest Monetary Bidder

The invitation for bids must be written so that there is a clear method to compare bids and determine which bid is the lowest monetary bid. *Konica Business Machs. U.S.A., Inc. v Regents of Univ. of Cal.* (1988) 206 CA3d 449, 253 CR 591. When bidders are required to include calculations on the bid form, a clause in the invitation for bids will be enforced if it clearly indicates that the unit price amounts will take precedence over the calculated line item amounts. *Pozar v Department of Transp.* (1983) 145 CA3d 269, 193 CR 202. If two or more bids are the same and the lowest, the city may accept the one it chooses as the lowest monetary bidder. Pub Cont C §20166.

© The Regents of the University of California

§7.17 (2) Additive and Deductive Bids

A local agency may include items of work in the bidding documents to be bid in the alternative, as additions to or deductions from its base bid price. Pub Cont C §20103.8. However, the procedure for selection of alternates must be such as will not create an opportunity for favoritism. The method used to select the accepted alternates must be from among those methods described in the statute and must be declared in advance in the bid solicitation. If the public agency does not specify a method, the lowest bid will be the lowest bid prices on the base contract without consideration of prices on the additive or deductive items. Pub Cont C §20103.8(a).

© The Regents of the University of California

§7.18 (3) Responsive Bid

A bid must conform to the material terms of the bid package. *Menefee v County of Fresno* (1985) 163 CA3d 1175, 210 CR 99. A bid is responsive if it promises to do what the bidding instructions demand. *Valley Crest Landscape Inc. v City Council* (1996) 41 CA4th 1432, 1438, 49 CR2d 184. Responsiveness should be determined from the face of the bid. *Taylor Bus Serv., Inc. v San Diego Bd. of Educ.* (1987) 195 CA3d 1331, 241 CR 379. A bid may be responsive even if there is a discrepancy in the bid, as long as the discrepancy is inconsequential, that is, the discrepancy must not: (1) affect the amount of the bid; (2) give a bidder an advantage over others (*e.g.,* give a bidder an opportunity to avoid its obligation to perform by withdrawing its bid); (3) be a potential vehicle for favoritism; (4) influence potential bidders to refrain from bidding; or (5) affect the ability to make bid comparisons. *Ghilotti Constr. Co. v City of Richmond* (1996) 45 CA4th 897, 53 CR2d 389.

© The Regents of the University of California

§7.19 (4) Responsible Bidder

A responsible bidder is one who is able to perform the contract if awarded. To be considered responsible, the bidder must demonstrate the attributes of trustworthiness, quality, fitness, capacity, and experience to satisfactorily perform the public works contract. Pub Cont C §1103. A range of factors may be used to determine bidder responsibility, including performance history, reliable financial information, bonding and insurance capacity, public works experience, personnel, litigation history, and others.

© The Regents of the University of California

§7.20 b. Bid Protests

Bid protests generally arise out of and relate to the responsiveness or responsibility determination. See §7.19. If a city intends to reject a bid based on non-responsibility, before the award of the contract, the city must give notice to the bidder of any evidence reflecting on bidder's responsibility, afford bidder an opportunity to rebut such adverse evidence, and permit bidder to present evidence that he or she is qualified to perform the contract. However, due process does not compel a quasi-judicial proceeding before rejection of the bid. *Inglewood-Los Angeles County Civic Ctr. Auth. v Superior Court* (1972) 7 C3d 861, 871, 103 CR 689. A finding of non-responsibility must be supported by substantial evidence. *Boydston v Napa Sanitation Dist.* (1990) 222 CA3d 1362, 1369, 272 CR 458.

PRACTICE TIP: Generally, a finding of non-responsibility is considered at a public hearing, and a record is created to provide the substantial evidence necessary to support the final decision.

A bidder determined to be nonresponsive is entitled to notice of that fact and is entitled to submit materials, in a manner defined by the city, concerning the issue of responsiveness. The city is not required to conduct a hearing, however, and need not produce findings. A city generally has the discretion to determine responsiveness and may demand strict compliance with the bid specifications. *Taylor Bus Serv., Inc. v San Diego Bd. of Educ.* (1987) 195 CA3d 1331, 1343, 241 CR 379. Although a hearing is not required, it is advisable. The basis for the finding of non-responsiveness should be memorialized as part of the award of contract and in a written notice to the bidder. See *D.H. Williams Constr., Inc. v Clovis Unified Sch. Dist.* (2007) 146 CA4th 757, 53 CR3d 345.

PRACTICE TIP: Many public entities include specific administrative procedures for handling bid protests in the bid documents. Such procedures typically establish a date by which protests must be received, require a detailed explanation of the grounds for the protest, and allow other bidders the opportunity to respond to the protest.

© The Regents of the University of California

§7.21 7. Bid Rejection

The legislative body may, in its discretion, reject all bids without having to give a reason. Pub Cont C §20166. If no bids are received, the legislative body may then dispense with competitive bidding. Pub Cont C §20166. If all bids are rejected and the legislative body resolves by a four-fifths vote that the project can be performed more economically by day labor or through open market purchases of materials and supplies, it may dispense with further public bidding. Pub Cont C §20167. See also Pub Cont C §20102 (if the public agency determines to proceed by day labor, the work will be performed in accordance with the same plans and specifications).

© The Regents of the University of California

8. Mistakes

§7.22 a. Changing the Bid

Once a bid is opened, the bidder may not thereafter change the bid. Pub Cont C §5101. Clerical errors in listing subcontractors may be corrected if the proper procedure is followed. Pub Cont C §4107.5.

© The Regents of the University of California

§7.23 b. Consent to Withdrawal

In the case of bid mistakes, the awarding authority may consent to a withdrawal of the bid if the bidder establishes that the requirements of Pub Cont C §5103 have been satisfied, and the public entity documents the facts in support of relief. Pub Cont C §5101(a).

© The Regents of the University of California

§7.24 c. Legal Action for Relief

When the public entity refuses to relieve the bidder of its bid, the contractor may, within 90 days, file an action to seek relief. Pub Cont C §§5101(a), 5102.

© The Regents of the University of California

§7.25 d. Prohibition from Further Bidding

A bidder who claims mistake or forfeits its bid security cannot participate in further bidding on the same project. Pub Cont C §5105.

© The Regents of the University of California

§7.26 9. Other Reference

On bid errors and irregularities, see Brown, California Public Works Projects: Managing Contracts and Resolving Disputes (1999).

© The Regents of the University of California

§7.27 C. Prequalification of Contractors

State agencies are authorized to prequalify bidders for construction projects. Pub Cont C §10163. Cities may also prequalify prospective bidders. Pub Cont C §20101. It appears from the language of the statute and the content of the model guidelines developed by the California Department of Industrial Relations (DIR) that the standards for prequalification are not necessarily the same as the legal standard for "non-responsibility" that applies to lowest responsible bidder selection without prequalification. Thus, it is possible that the kind of "relative superiority" evaluation and selection that is prohibited by case law in lowest responsible bidder procurement conducted without prequalification (*City of Inglewood-Los Angeles County Civic Ctr. v Superior Court* (1972) 7 C3d 861, 103 CR 689) may be permissible to a limited extent in the context of local agencies using statutory prequalification.

PRACTICE TIP: Under Pub Cont C §20101(a), the Department of Industrial Relations (DIR) has developed guidelines, including Model Forms, which may be used in the prequalification process. This information is published on the DIR website at www.dir.ca.gov/prequal.htm.

© The Regents of the University of California

D. Affirmative Action

§7.28 1. Locally and State-Funded Programs

Proposition 209, adopted by initiative on November 6, 1996, amended the California Constitution by adding Cal Const art I, §31(a): "The state shall not discriminate against, or grant preferential treatment to, any individual or group on the basis of race, sex, color, ethnicity, or national origin in the operation of public employment, public education, or public contracting."

© The Regents of the University of California

§7.29 a. *Hi-Voltage Wire Works, Inc. v City of San Jose*

In *Hi-Voltage Wire Works, Inc. v City of San Jose* (2000) 24 C4th 537, 101 CR2d 653, the California Supreme Court held that Proposition 209 (Cal Const art I, §31) prohibits any kind of preferential treatment based on race, sex, or other prohibited characteristics by the state and its political subdivisions. Thus, the court held that a program that required contractors bidding on city projects either to utilize a specified percentage of minority and female subcontractors or to document efforts to include minority and female subcontractors in their bids violated Proposition 209.

It is clear from the *Hi-Voltage* decision that the court has broadly interpreted Proposition 209 to prohibit any form of race or sex-based preferences imposed by public agencies on contractors or subcontractors, including some forms of outreach requirements. Thus, the continued viability of local MBE (minority-owned business enterprises) and WBE (women-owned business enterprises) requirements under Pub Cont C §2000 is substantially in doubt. The broad reach of the decision is indicated by the court's holding that the outreach portion of the San Jose plan also violated Proposition 209. Outreach programs cannot be exclusively applied to or conditioned on race, sex, or some other prohibited characteristic. For example, if there were meetings to encourage bids, such meetings could not be held exclusively with MBE and WBE organizations. The court acknowledged, however, that not all forms of outreach programs would be considered unlawful. At the very minimum, the *Hi-Voltage* decision must be carefully examined by counsel with respect to any existing or contemplated state or local affirmative action plan.

PRACTICE TIP: The United States Court of Appeals for the Ninth Circuit has held that the state ethnic and gender set-aside statutes (Pub Cont C §§10115-10115.15) violate the Equal Protection Clause (US Const amend XIV, §1). See *Monterey Mechanical v Wilson* (9th Cir 1997) 125 F3d 702. Similar arguments may be applied to local MBE (minority-owned business enterprises) and WBE (women-owned business enterprises) requirements under Pub Cont C §2000. See *Domar Elec., Inc. v City of Los Angeles* (1995) 41 CA4th 810, 48 CR2d 822.

© The Regents of the University of California

§7.30 b. Data Collection

In *Connerly v State Personnel Bd.* (2001) 92 CA4th 16, 112 CR2d 5, the court upheld the data collection and reporting requirements in laws as long as the statutory provisions that require data to be collected and reported are not intended as some sort of supervisorial device necessarily intertwined with a "discriminatory program." Data collection can serve a legitimate interest; in this case, as the basis for future legislative consideration with respect to the need for future legislative action. Although *Connerly* involves only the California State Legislature's use of data collection for legislative purposes, it appears as though data collection and reporting requirements by other public entities for purposes other than affirmative action would be acceptable.

© The Regents of the University of California

§7.31 c. Permissible Preferences

Proposition 209 does not address preferences unrelated to race or sex, such as disability or veteran status. Targeted outreach based on such criteria may still be permissible. Some outreach programs that may not be foreclosed by Proposition 209 and *Hi-Voltage Wire Works, Inc. v City of San Jose* (2000) 24 C4th 537, 101 CR2d 653, include requiring contractors to (*Hi-Voltage Wire Works, Inc. v City of San Jose, supra; Domar Elec., Inc. v City of Los Angeles* (1994) 9 C4th 161, 36 CR2d 521):

- warrant in writing that they have not discriminated against or given preference to any subcontractor based on race, gender, color, ethnicity, national origin, sexual orientation, disability, age, veteran status, or religion;
- advertise subcontract bid solicitations, including beyond traditional trade journals;
- follow up on subcontract bid solicitations directly with subcontractors expressing interest;
- negotiate in good faith with, and not unjustifiably reject, subcontractors identified through the outreach effort that express interest; and
- provide written documentation of their outreach efforts, including information why each subcontract bid was accepted or rejected.

© The Regents of the University of California

2. Equal Protection Considerations and Federally Funded Programs

§7.32 a. Limitation on Proposition 209 Prohibitions

An important but very narrow limitation to the broad prohibitions Proposition 209 added to the California Constitution in Cal Const art I, §31(a) can be found in Cal Const art I, §31(e): "Nothing in this section shall be interpreted as prohibiting action which must be taken to establish or maintain eligibility for any federal program, where ineligibility would result in a loss of federal funds to the state." The state is defined in Cal Const art I, §31(f) to include the state itself, any city, county, city and county, public university system, including the University of California, community college district, school district, special district, or any other political subdivision or governmental instrumentality of or within the state. Courts have interpreted this subsection very narrowly, focusing on the word, "must." The fact that race-based measures may be permitted under the federal funding scheme is not enough. *C & C Constr., Inc. v Sacramento Mun. Util. Dist.* (2004) 122 CA4th 284, 18 CR3d 715.

© The Regents of the University of California

§7.33 b. Supreme Court Review of Affirmative Action Programs

The leading United States Supreme Court cases as to the United States Constitutional viability of affirmative action programs are *Adarand Constructors, Inc. v Pena* (1995) 515 US 200, 132 L Ed 2d 158, 115 S Ct 2097, and *City of Richmond v J.A. Croson Co.* (1989) 488 US 469, 102 L Ed 2d 854, 109 S Ct 706. In *Croson,* the court held that state and local affirmative action programs that utilized racial classifications were subject to strict scrutiny under the equal protection clause of the Fourteenth Amendment to the United States Constitution. In *Adarand,* a subcontractor not awarded a portion of a federal highway contract challenged financial incentives the federal government provided to contractors to hire minority subcontractors, arguing that the practice violated the equal protection guarantee of the Fifth Amendment to the United States Constitution. In overruling *Metro Broadcasting, Inc. v FCC* (1990) 497 US 547, 111 L Ed 2d 445, 110 S Ct 2997, the *Adarand* court held that all racial classifications, imposed by whatever federal, state, or local government actor, must be analyzed by a reviewing court under strict scrutiny. In other words, such classifications are constitutional only if they are narrowly tailored measures that further compelling governmental interests.

© The Regents of the University of California

§7.34 c. Federal Challenges to State and Local Affirmative Action Programs

Even in the absence of Proposition 209 and the California Supreme Court's decision in *Hi-Voltage Wire Works, Inc. v City of San Jose* (2000) 24 C4th 537, 101 CR2d 653, state and local affirmative action programs have been successfully attacked under the United States Constitution. See, *e.g.*, *Dallas Fire Fighters Ass'n v City of Dallas* (5th Cir 1998) 150 F3d 438 (rank promotions based on affirmative action plan violated equal protection clause); *Engineering Contractors Ass'n v Metro Dade County* (11th Cir 1997) 122 F3d 895 (affirmative action programs that required racial and sexual preferences in construction contract awards and state contractor personnel employment violated equal protection clause); *Alexander v Estepp* (4th Cir 1996) 95 F3d 312 (affirmative action goals that were met by racial preferences violated equal protection clause). But see *Hayden v County of Nassau* (2d Cir 1999) 180 F3d 42 (no violations of equal protection clause to design test to diminish adverse effects on minority applicants when test administered and scored in an identical manner for all applicants).

© The Regents of the University of California

§7.35 E. Specific Bidding and Contract Provisions

Generally, each contract for a public project or public work must contain certain statutorily prescribed provisions unless the particular statute does not apply to the specific type of project or work being undertaken. The required contract provisions are summarized together in §§7.36-7.74 for ease of reference. Certain of these provisions are discussed at greater length later in the chapter. See, *e.g.,* §§7.95-7.105 (bonds and insurance), 7.109-7.113 (resolving disputes).

© The Regents of the University of California

1. Contractor's License Issues

§7.36 a. Invitation to Bid

The public entity must specify the classification of contractor's license required in both the plans and the invitation for bids. Pub Cont C §3300. The contractor must include its license number in the construction contract, subcontracts, calls for bids to subcontracting, and bid advertisements. Bus & P C §7030.5. For contracts involving federal funds, the contractor's licensing requirements must be included in the standard form of prequalification questionnaire and financial statement. Pub Cont C §20103.5. The public entity may exercise its judgment or discretion in determining which license class is permitted for a particular project. *M&B Constr. v Yuba County Water Agency* (1999) 68 CA4th 1353, 1359, 81 CR2d 231. The Contractors State License Board (CSLB), however, retains jurisdiction regarding the validity of the license.

The CSLB will issue a determination on what license category is required for a particular project; however, the CSLB determination cannot prevail if erroneous or unauthorized by the applicable laws. *Ron Yates Constr. Co. v Superior Court* (1986) 186 CA3d 337, 344, 230 CR 629. The CSLB website is www.cslb.ca.gov. Moreover, when a specialty contractor is authorized to bid a project, all work to be performed outside the bidder's license classification (other than incidental or supplemental work) must be performed by licensed subcontractors. Bus & P C §7059(b).

© The Regents of the University of California

§7.37 b. Effect of Failure to Have Proper License

A bid by a contractor who is not properly licensed must be considered nonresponsive and be rejected by the public entity. The unlicensed contractor is also subject to discipline by the state. Bus & P C §7028.15(a). For contracts involving federal funds, however, a failure to be licensed at the time of bid does not invalidate the bid, but the contractor must be properly licensed at the time the contract is awarded. Pub Cont C §20103.5. Moreover, before obtaining a joint venture license, licensed contractors may jointly bid a public works project; however, to be awarded the contract, the joint venture must hold the license. Bus & P C §§7028.15(c), 7029.1. No payment for work or material may be made until the Registrar of Contractors verifies the contractor was properly licensed at the time the bid was awarded. Pub Cont C §20103.5; *Construction Fin. v Perlite Plastering Co.* (1997) 53 CA4th 170, 61 CR2d 574.

© The Regents of the University of California

§7.38 c. Verification

Except for federally funded contracts under Pub Cont C §20103.5, the public entity must verify that the contractor was properly licensed at the time it submitted its bid, before awarding a contract or before issuing a purchase order; failure to do so subjects the public entity's officers and employees to citation and civil penalties. Bus & P C §7028.15(e). The verification may be made by telephone from the Contractors State License Board (CSLB). Bus & P C §7028.15(g).

© The Regents of the University of California

2. Major Subcontractors

§7.39 a. General Requirements

The bid specifications or general conditions must require the bidder to list in its bid all its subcontractors who will perform work in excess of ½ percent of the total bid or, in the case of streets or highways, ½ percent or $10,000, whichever is greater. Pub Cont C §4104.

© The Regents of the University of California

§7.40 b. Requests for Additional Information

In addition to the name and business location of each subcontractor, a city may request additional information to be submitted by the prime contractor up to 24 hours after the bid deadline. Pub Cont C §4104.

© The Regents of the University of California

§7.41 c. Contractors and Subcontractors Debarred by the State

The contract documents must contain a provision prohibiting work by contractors or subcontractors who are ineligible under Lab C §§1777.1 and 1777.7. Pub Cont C §6109. The California Department of Industrial Relations publishes a list of debarred contractors online at www.dir.ca.gov/dlse/debar.html.

© The Regents of the University of California

§7.42 3. Unfair Business Practice Claims

The contract specifications or general conditions must provide for the assignment of unfair business practices claims (Clayton Act (15 USC §§12-27) and Cartwright Act (Bus & P C §§16720-16770)) from the contractor to the public entity. Pub Cont C §7103.5.

© The Regents of the University of California

§7.43 4. Trenching Requirements

Jobs involving trenching more than four feet deep must contain a contract provision that (Pub Cont C §7104):

- requires the contractor to notify the public entity of hazardous materials, subsurface or latent physical site conditions different from those indicated in information about the site made available to bidders before the bid deadline, and unusual site conditions;
- describes the duties of the public entity as to investigation thereof; and
- specifies how disputes must be addressed.

Contract disclaimers that attempt to relieve the pubic entity from responsibility for subsurface conditions that differ from those indicated by information about the site made available to bidders before the bid deadlines are generally unenforceable. *Condon-Johnson & Assoc., Inc. v Sacramento Mun. Util. Dist.* (2007) 149 CA4th 1384, 57 CR3d 849.

In contracts exceeding $25,000, detailed plans are also required for trenches or excavations of five feet or more in depth. Lab C §6705.

© The Regents of the University of California

§7.44 5. Non-Collusion Affidavit

A public works contract must contain a non-collusion affidavit signed by the bidder in the statutory form. Pub Cont C §7106.

© The Regents of the University of California

§7.45 6. Retention

The public entity must retain at least 5 percent of the contract price on any public works contract exceeding $5000. Pub Cont C §9203. After one-half of the work is completed and the public entity determines that satisfactory progress is being made to complete the job, the public entity may make the remaining payments in full. Pub Cont C §9203. The retention must be released (with the exception of 150 percent of any disputed amount) within 60 days after the date of completion of the work; noncompliance may subject the public entity to payment of interest at the rate of 2 percent per month. Pub Cont C §7107.

PRACTICE TIP: The most common practice is to require a 10-percent retention through the completion of the contract.

© The Regents of the University of California

§7.46 7. Securities in Lieu of Retention

The invitation for bids and the contract documents must contain a statement that the contractor may substitute securities in place of retained funds withheld by the city. Pub Cont C §22300. Alternatively, an escrow agreement, in the form prescribed by the Code, may be used by the contractor. Pub Cont C §22300.

© The Regents of the University of California

§7.47 8. Resolution of Claims

The plans or specifications must contain certain mediation and arbitration provisions. Pub Cont C §§20104, 20104.2, 20104.4. These provisions apply to claims of $375,000 or less. Pub Cont C §20104(a)(1).

© The Regents of the University of California

§7.48 9. Government Code Claims

When a local entity provides for a claims procedure in a contract, that procedure governs exclusively, unless the agreement expressly requires presentation of a statutory Government Code claim as well. *Arntz Builders v City of Berkeley* (2008) 166 CA4th 276, 82 CR3d 605; Govt C §§905, 910, 930-935.8.

PRACTICE TIP: A public entity must expressly state in the agreement that a contractor must follow contractual claims procedures and Government Code claims presentation requirements if the public entity does not want the procedures provided in the contract to be the sole method of dispute resolution. Many public works contracts have specific notice and claim procedures governing disputes that arise during the course of the project and require that a Government Code claim be presented on completion of the project for any dispute that remains unresolved.

© The Regents of the University of California

§7.49 10. Bidder's Security

All bids must include bidder's security in an amount of at least 10 percent of the amount bid, and in a form specified by the Code. Pub Cont C §§20170- 20171. Equivalent provisions are applicable to redevelopment agencies. Pub Cont C §20685.5.

© The Regents of the University of California

§7.50 11. Prevailing Wage Law

The provisions of the prevailing wage law discussed in §§7.51-7.57 are discussed in greater detail in §§7.82-7.94

© The Regents of the University of California

§7.51 a. Notices Concerning Rates

The invitation for bids, bid specifications, and contract documents must specify the general rate of per diem wages (prevailing wage) for each craft, classification, or type of worker needed to execute the contract or contain a statement that copies of the prevailing rate of per diem wages are on file at the public entity's principal office. Lab C §1773.2. The public entity must also cause a copy of the wage rates to be posted at each job site. Lab C §1773.2. Prevailing wages must be paid on all contracted public works projects over $1000 within the meaning of Lab C §§1720-1743. Lab C §1771.

© The Regents of the University of California

§7.52 b. Labor Compliance Programs

For cities with a Labor Compliance Program on all of their public works projects, construction projects of $25,000 or less and maintenance projects of $15,000 or less are exempt from prevailing wage requirements. Lab C §1771.5.

NOTE: In 2009, additional contract language requirements were added to 8 Cal Code Regs §§16421-16439. The Department of Industrial Relations is in the process of amending these regulations further. These regulations provide guidance regarding the obligations and responsibilities of public entities with respect to prevailing wage law.

© The Regents of the University of California

§7.53 c. Penalties

The contract must state that the statutory provisions for penalties for failure to pay prevailing wages will be enforced (Lab C §1775) and that the statutory provisions for penalties for failure to comply with state's wage and hour laws will be enforced (Lab C §1813). The awarding body may be liable for increased costs when the project or a portion thereof was not identified as a public work, but was subsequently so classified by the body itself, the Department of Industrial Relations, or the court. Lab C §1781.

© The Regents of the University of California

§7.54 d. Payroll Records

The contract must require compliance with the statutory requirements relating to certified copies of payroll records, including the maintenance of the records, their certification, and their availability for inspection. Lab C §1776.

© The Regents of the University of California

§7.55 e. Apprentices

The contract must require compliance with the statutory requirements relating to the employment of apprentices. Lab C §1777.5.

© The Regents of the University of California

§7.56 f. Day's Work

The contract must have a provision stating that 8 hours' labor constitutes a legal day's work. Lab C §1810.

© The Regents of the University of California

§7.57 g. Workers' Compensation

The contract must state the contractor must secure the payment of workers' compensation to its employees as provided in Lab C §§1860 and 3700. A second low bidder has a right of action for damages against a low bidder who violates the workers' compensation laws or the Unemployment Insurance Code and thereby damages the second low bidder. Lab C §1750. The contractor must sign and file a statutorily prescribed statement acknowledging its obligation to secure the payment of workers' compensation to its employees before beginning work. Lab C §1861.

© The Regents of the University of California

§7.58 12. Labor Code §2810 Liability

Labor Code §2810 prohibits a person or an entity from entering into a contract for construction, farm labor, garment, security guard, or janitorial services when the person knows, or should know, that the contract does not have sufficient funds to allow the contractor to comply with applicable laws and regulations. There is a rebuttable presumption affecting the burden of proof that there has been no violation when the contract meets all of the requirements in Lab C §2810(b).

© The Regents of the University of California

§7.59 13. Labor and Materials Bond

The invitation for bids must require the submission of a labor and materials bond (payment bond) on projects in excess of $25,000. CC §3247. The minimum amount and conditions of the bond are specified by state law. CC §3248.

© The Regents of the University of California

§7.60 14. Utilities Relocation

Contracts must compensate a contractor for utilities relocation work not shown on the public entity's plans and waive liquidated damages for delay caused by the public entity's or a public utility's failure to provide for removal or relocation of utility facilities. Govt C §4215. However, the public entity may seek appropriate remedies against the utility for delays that are the responsibility of the utility. The public entity must assume the responsibility for the timely removal, relocation, or protection of utility facilities not shown on the plans and specifications that are part of the invitation for bids. Govt C §4215. See also Govt C §§4216-4216.9 (establishing regional notification system to protect public utilities from damage during excavation and requiring contractors to notify utilities and obtain an identification number before excavation or be subject to liability for damages to subsurface installations).

© The Regents of the University of California

§7.61 15. Engineering Specifications and Costs

The public entity's engineer must prepare and file either complete and accurate plans and specifications or a work authorization describing the work to be performed, together with an estimate of the cost thereof, before beginning work. Govt C §4004. Failure to do so is a misdemeanor. Govt C §4007. See §7.73 (relating to cost records) for additional requirements subject to this penalty.

© The Regents of the University of California

§7.62 16. Termination, Amendment, or Modification

A local agency may terminate, amend, or modify the contract only if the ability to do so is provided for in the contract. Pub Cont C §7105(d)(2).

© The Regents of the University of California

§7.63 17. Brand or Trade Names

Specifications by brand or trade name are prohibited except (Pub Cont C §3400):

- when followed by the words "or equal"; or
- when the public agency or its designee makes a finding that is described in the invitation for bids that the specific brand is:
- designated for a field test or experiment on a particular item;
- in order to match other products in use;
- in order to obtain a necessary item that is only available from one source;
- in order to respond to an emergency declared by a local agency, but only if the declaration is approved by a four-fifths vote of the governing board of the local agency issuing the invitation for bids or request for proposals; or
- in order to respond to an emergency declared by the state, a state agency, or a political subdivision of the state, but only if the facts setting forth the reasons for the finding of the emergency are contained in the public records of the authority issuing the invitation for bids or request for proposals.

The specifications must provide a period of time before or after, or before and after the award of the contract for submission of data substantiating a contractor's request for substitution of an equal item. Pub Cont C §3400. If no time period is specified, contractors have 35 days after award to submit the data. The intent of §3400 is to "encourage contractors and manufacturers to develop and implement new and ingenious materials, products, and services, as specified, at a lower cost to taxpayers." Pub Cont C §3400(a).

© The Regents of the University of California

§7.64 18. Release of Claims

Contract provisions that provide that acceptance of a payment is a waiver of all claims, or that require submission of a release of all claims as a precondition to payment, are not permitted. Pub Cont C §7100. However, a public entity may require a release of claims for undisputed payments. CC §3262.

© The Regents of the University of California

§7.65 19. Notice of Third Party Claims

Public entities are required to include provisions in public works contracts for timely notification to the contractor of the receipt of any third party claim related to the contract. Pub Cont C §9201(b).

© The Regents of the University of California

§7.66 20. Liquidated Damages

Contracts may not limit a contractor's damages for delays caused by the agency to a time extension only. Pub Cont C §7102. In public project contracts, liquidated damages that are not manifestly unreasonable under the circumstances existing at the time the contract was made are permitted, but the specifications must clearly describe the liquidated damages provisions. Govt C §53069.85. This section also permits contract provisions granting a bonus to the contractor for early completion of the project.

© The Regents of the University of California

§7.67 21. Limit on Force Majeure Damages

Contracts may not require a contractor to assume responsibility for repairing or restoring damages caused by an act of God in excess of 5 percent of the contract amount. Pub Cont C §7105. Acts of God are defined as earthquakes in excess of magnitude 3.5 on the Richter Scale and tidal waves. This section is not mandatory as to construction contracts financed by revenue bonds. The public entity may require the contractor to purchase insurance to cover such losses if the insurance premium is a separate bid item and the requirement is set forth in the invitation for bids. Pub Cont C §7105. The contract may contain a provision for termination in the event of such damages. Pub Cont C §7105.

© The Regents of the University of California

§7.68 22. Resolution of Contract Disputes

A public entity cannot require construction contract disputes to be decided by its agent or employee; if the contract contains such a provision, the dispute must be resolved instead by arbitration or litigation. CC §1670.

© The Regents of the University of California

§7.69 23. Limits on Indemnification

Indemnification agreements in construction contracts that indemnify the promisee against the promisee's sole negligence or willful misconduct are generally void. CC §2782(a). Agreements that purport to impose on the contractor or relieve the public agency from liability for the active negligence of the public agency are also void. CC §2782(b).

© The Regents of the University of California

§7.70 24. Specific Bonding and Insurance Companies

Generally, a bidder may not be required to apply to, furnish information to, or obtain a bond or insurance policy from a specific company, agent, or broker. Govt C §4420.

© The Regents of the University of California

§7.71 25. Assumption of Responsibility for Plans and Specifications

A public entity cannot require a bidder to assume responsibility for the completeness and accuracy of architectural or engineering plans and specifications on public works projects, except on clearly designated design-build projects. However, the public entity can require a bidder to review the plans and specifications and report any errors or omissions. Pub Cont C §1104.

© The Regents of the University of California

§7.72 26. Interest on Progress Payment Requests

A public entity must pay interest at the legal rate on any contractor's progress payment request not paid within 30 days of its submission when the validity of the request is not disputed and the request has been properly submitted. Pub Cont C §20104.50. Local agency contracts must include the text or a summary of §20104.50. Pub Cont C §20104.50(f).

© The Regents of the University of California

§7.73 27. Cost Records

A public entity's engineer must keep an accurate account of the cost of each public work. Govt C §4004. Detailed information concerning the project, including the total cost of the work broken into its component parts, must be filed within 60 days of the completion of the project. Govt C §4005. Failure to do so is a misdemeanor. Govt C §4007. See §7.61 (relating to engineering specifications and costs) for additional requirements subject to this penalty.

PRACTICE TIP: Although there are few statutes expressly governing contract administration, cost containment and a successful project rely heavily on continuous project oversight by the public entity. When possible, a single employee should be given day-to-day oversight responsibility for the project. Problems and potential claims should be recognized and resolved at the earliest possible opportunity. Good project records, including photographs or videotapes made during construction, are key to resisting major claims presented at the conclusion of the project. When a project site has an unusual configuration or when adjacent properties may be adversely affected by vibration, photographs or videotapes showing conditions before construction may be valuable in resisting a contractor's changed conditions claim or third party property damage claims. Minutes of all meetings held between the public entity's staff and contractor's personnel are also useful in avoiding or limiting claims for extra work, delay, or inefficiency.

© The Regents of the University of California

§7.74 28. Venue

A contractor or other defendant sued by a local government agency in the county where that agency is located may transfer the matter to another county. CCP §394(a). Contract provisions that require contractors to waive this transfer right are invalid. *Arntz Builders v Superior Court* (2004) 122 CA4th 1195, 19 CR3d 346.

© The Regents of the University of California

F. Subletting and Subcontracting Fair Practices Act

§7.75 1. Definition

The Subletting and Subcontracting Fair Practices Act (Pub Cont C §§4100-4114) generally requires a bidder to list in its bid all subcontractors performing work in excess of one-half of 1 percent of the prime contractor's total bid price or, in the case of streets and highway work, the greater of one-half of 1 percent of the prime contractor's total bid price, or $10,000. Pub Cont C §§4104(a). A bidder may only list one subcontractor for each portion of work defined in the prime contractor's bid. Pub Cont C §4104(b). Following the bid closing date, the bidder may substitute a subcontractor for a listed subcontractor only in those instances authorized by law and approved by the public entity. Pub Cont C §4107(a). A subcontractor does not have a right to protection under the Act unless the subcontractor is listed. *E.F. Brady Co. v M.H. Golden Co.* (1997) 58 CA4th 182, 67 CR2d 886.

© The Regents of the University of California

§7.76 2. Public Policy

The public policy behind the Subletting and Subcontracting Fair Practices Act is to prevent bid shopping and bid peddling, and to give the public entity the opportunity to investigate and approve proposed replacement subcontractors. Pub Cont C §4101; *E.F. Brady Co. v M.H. Golden Co.* (1997) 58 CA4th 182, 189, 67 CR2d 886. "Bid shopping is the use of the low bid already received by the general contractor to pressure other subcontractors into submitting even lower bids. Bid peddling … is an attempt by a subcontractor to undercut known bids already submitted to the general contractor in order to procure the job." *Southern Cal. Acoustics Co. v C. V. Holder, Inc.* (1969) 71 C2d 719, 726, n7, 79 CR 319, 456.

© The Regents of the University of California

§7.77 3. Criteria for Substitution

After the bid closing date, the prime contractor must first request and obtain the consent of the public entity before substituting a subcontractor for a listed subcontractor. Pub Cont C §4107(a). A public entity may approve the prime contractor's request to substitute a listed subcontractor only if the prime contractor demonstrates that one of the following nine criteria is met (Pub Cont C §4107):

(1) the subcontractor fails or refuses to execute a contract for the scope of work and price specified in the subcontractor's bid;

(2) the subcontractor becomes insolvent;

(3) the subcontractor fails or refuses to perform its subcontract;

(4) the subcontractor fails to meet bonding requirements;

(5) the subcontractor was listed through inadvertent clerical error;

(6) the subcontractor is not properly licensed;

(7) the subcontractor performs unsatisfactorily or is substantially delaying or disrupting progress of the work;

(8) the subcontractor is ineligible to work on a public works project under Lab C §1777.1 or §1777.7; or

(9) the subcontractor is not a responsible contractor.

© The Regents of the University of California

§7.78 4. Procedure

Following the receipt of a prime contractor's request to substitute a listed subcontractor, a public entity must notify the listed subcontractor of the prime contractor's substitution request and the basis for the request. Pub Cont C §4107(a). Such notice from the public entity to the listed subcontractor must be in writing and must be served by certified or registered mail to the last known address of the listed subcontractor. If the listed subcontractor does not object to the proposed substitution within 5 working days of its receipt of the substitution notice from the public entity, the listed subcontractor is presumed to consent to the substitution and the public entity may authorize the substitution. Pub Cont C §4107(a).

If the listed subcontractor objects within 5 working days of receiving notice of the proposed substitution, the public entity must hold a substitution hearing to consider the prime contractor's substitution request. The public entity must notify the listed subcontractor of the substitution hearing at least 5 working days before the substitution hearing. Pub Cont C §4107(a).

Although the Act sets forth processes for a proposed substitution, failure to strictly comply with the procedure for replacing a subcontractor on a public contract does not invalidate the substitution as long as a public entity complies in substance with the objectives of the Act. *Titan Elec. Corp. v Los Angeles Unified Sch. Dist.* (2008) 160 CA4th 188, 205, 72 CR3d 570 (substantial compliance with Act's objectives found when public entity consented to substitution of listed subcontractor after work had been performed).

PRACTICE TIP: Establish a hearing process, including a hearing panel, in which a subcontractor may protest substitution.

© The Regents of the University of California

§7.79 5. Mistakes—Clerical Errors

Bidders may substitute a listed subcontractor if there was an inadvertent clerical error in the bid. Pub Cont C §4107.5. To substitute a listed subcontractor due to inadvertent clerical error, the bidder must give notice of the error to the public entity and the listed subcontractor within 2 working days after the bid opening date. The listed subcontractor then has 6 working days from the bid opening date to submit written objections to the public entity and to the bidder. If the listed subcontractor does not object within 6 working days, it is presumed that an inadvertent clerical error was made. If the listed subcontractor files a timely objection, the agency shall investigate the claims before proceeding with a public hearing. Pub Cont C §4107.5.

© The Regents of the University of California

§7.80 6. Emergency/Necessity Exception

A public entity may also authorize a prime contractor to subcontract work in excess of one-half of 1 percent of the original total bid price in the event of an emergency or out of public necessity on the making of written findings delineating the facts constituting the emergency or necessity. Pub Cont C §4109.

© The Regents of the University of California

§7.81 7. Penalties

Failure to comply with the Subletting and Subcontracting Fair Practices Act (Pub Cont C §§4100-4114) could subject the prime contractor to cancellation of the contract by the public entity, monetary sanctions, and penalties, as well as disciplinary action by the Contractors State License Board. Pub Cont C §§4110, 4111.

© The Regents of the University of California

G. Prevailing Wages

§7.82 1. Statutory Authority

State labor law requires payment of prevailing wages on "public works" projects over $1000. Lab C §1771. Higher thresholds may apply ($15,000 or $25,000) if the public entity has adopted a special labor compliance program. Lab C §1771.5. Additionally, the Labor Code defines public works differently than the Public Contract Code, and there may be instances in which public bidding is not required but payment of prevailing wages is required. Compare Lab C §§1720-1720.3 with Pub Cont C §§1101, 20161. The obligation of a contractor to pay prevailing wages and to maintain certified payroll records evidencing such payment of prevailing wages must be set forth in a public entity's contract documents, regardless of whether such contract is bid. Lab C §§1773.2, 1776.

© The Regents of the University of California

§7.83 a. Applicability to General Law Cities, Redevelopment Agencies, Other Public Agencies, and Some Partly or Wholly Private Projects

Public and private projects that are paid for in whole or in part out of public funds are subject to prevailing wage laws. Lab C §§1720(b), 1771. Prevailing wage laws do not apply to work performed by a public entity with its own forces. Lab C §1771.

© The Regents of the University of California

§7.84 b. Applicability to Charter Cities

The law with respect to the applicability of prevailing wage laws to charter cities is in a state of flux at this time. The provisions of the prevailing wage law, Lab C §§1770-1781, may be inapplicable to the public works projects of a charter city as long as the projects in question are within the realm of municipal affairs and not projects of state concern or funded by state or federal grants. *Vial v City of San Diego* (1981) 122 CA3d 346, 348, 175 CR 647. But see *Division of Labor Standards Enforcement v Erisson Info. Sys.* (1990) 221 CA3d 114, 123, 270 CR 75. In *City of Long Beach v Department of Indus. Relations* (2004) 34 C4th 942, 947, 22 CR3d 518, the California Supreme Court declined the opportunity to resolve whether prevailing wage laws are a matter of statewide concern and thus applicable to charter cities. However, in 2009 the California Supreme Court granted review of a case in which the court of appeal held that a charter city was not required to comply with the prevailing wage laws with respect to public works contracts that were financed solely from city revenues. See *State Bldg. & Constr. Trades Council of Cal., AFL-CIO v City of Vista* (review granted Aug. 19, 2009, S173586; superseded opinion at 173 CA4th 567, 93 CR3d 95) (concluding that charter cities could determine whether their charter city contracts were subject to prevailing wages because city contracts are municipal affairs over which city has paramount power under Cal Const art XI, §5).

© The Regents of the University of California

2. Scope of "Public Works"

§7.85 a. "Public Works"

Public works generally include (Lab C §§1720, 1720.3):

- construction, alteration, demolition, installation, or repair work done under contract and paid for in whole or in part out of public funds (construction includes work performed during the design and preconstruction phases of construction, including but not limited to inspection and land surveyors' work);
- work done for certain special districts;
- street, sewer, or other improvement work done under the direction and supervision or by the authority of any charter or general law city;
- the laying of carpet paid for out of public funds; and
- hauling refuse from a public works site to an outside disposal location.

For cases holding that the prevailing wage statute is inapplicable to charter city projects, see §7.84.

The definition of public works under Lab C §1720 is broader than the definitions that affect public bidding. See Pub Cont C §§1101, 20161. Prevailing wages may apply to projects done under contract, even otherwise private projects, when a public agency pays money or its equivalent, performs construction work, transfers assets for less than their market price, pays project costs (such as bond costs), makes credits, reduces or waives fees, or permits repayment on a contingent basis. Lab C §1720(b).

Because the definition of a "public works" project subject to the prevailing wage law is broad, transactions commonly used by redevelopment agencies and certain partly or wholly private projects may be subject to the payment of prevailing wages. See §5.363. For instance, a fire station and a library constructed by a private developer at its sole expense and then transferred to the county as part of an agreement, with the county to obtain necessary general plan amendment and subdivision map approvals, are public works under Lab C §1720, even though no public funds were to be expended in their construction. 69 Ops Cal Atty Gen 300 (1986). On the other hand, a contract between two private parties for construction of a residential care facility on land leased from a public agency was not a contract for public work, even though the public agency deferred all rent for 20 years, waived inspection fees, loaned the developer money to purchase payment and performance bonds, and agreed to place disturbed and abused minors in the facility. *McIntosh v Aubry* (1993) 14 CA4th 1576, 18 CR2d 680. Because of the fact-specific analysis necessary to determine whether prevailing wages apply to a public or private project, the California Department of Industrial Relations (DIR) will issue, on request, a legal opinion determining the applicability of prevailing wages from the Division of Labor Standards Enforcement of the DIR. 8 Cal Code Regs §16001(a). Opinions are maintained by the DIR at www.dir.ca.gov/dlse/DLSE_OpinionLetters.htm.

PRACTICE TIP: In 2007, the DIR decided that it will no longer designate its public works coverage determination letters as "precedential." Additionally, *State Bldg. & Constr. Trades Council of Cal. v Duncan* (2008) 162 CA4th 289, 304, 76 CR3d 507, suggests that courts do not give deference to DIR coverage determinations. The DIR's determinations may be viewed as advisory only and will not be deemed to bind the DIR in its future decisions. Governmental agencies and contractors should consider the DIR's determinations as advice letters directed to specific individuals or entities about whether a specific project or type of work is a public work and subject to prevailing wage requirements. See *Corrales v Bradstreet* (2007) 153 CA4th 33, 62 CR3d 440 (DIR could not prove that it had formally adopted Administrative Procedure Act (Govt C §§11340-11359) and therefore DIR's "precedential decisions" issued under Govt C §11425.60 cannot be relied on as binding on agency in future adjudications). See also Notice To Awarding Bodies And Interested Parties Regarding The Department's Decision To Discontinue The Use Of Precedent Determinations, available online at www.dir.ca.gov/dlsr/2007-2/Notices/09-06-2007(pwcd).pdf.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/7 Public Contracting/§7.86 b. 'Paid for in Whole or in Part Out of Public Funds'

§7.86 b. "Paid for in Whole or in Part Out of Public Funds"

"Paid for in whole or in part out of public funds" includes (Lab C §1720(b)):

- when a public agency pays money or the equivalent to or on behalf of the public works contractor, subcontractor, or developer;
- performs construction work in execution of the project;
- transfers an asset of value for less than the fair market price;
- pays, reduces, or charges at less than fair market value;
- waives or forgives fees, costs, rents, insurance or bond premiums, loans, interest rates, or other obligations normally required in the execution of the contract;
- makes available money to be repaid on a contingent basis; or
- grants credits applied against repayment obligations.

However, the definition of paid for in whole or in part out of public funds excludes certain construction or rehabilitation of affordable housing units for low- or moderate-income persons and certain tax credits. Lab C §1720(c)(4)-(5).

© The Regents of the University of California

§7.87 c. Exemptions

An exemption from prevailing wage requirements applies to private residential projects on private property that are not built according to an agreement with a state agency, redevelopment agency, or local public housing authority. Lab C §1720(c)(1). When a public agency requires a private developer to perform construction, alteration, demolition, installation, or repair work on a public work of improvement as a condition of regulatory approval of an otherwise private project, and the public agency contributes no more money or its equivalent than required to perform the public improvement work, and the public agency maintains no proprietary interest in the overall project, prevailing wage requirements apply only to the public improvement work. Lab C §1720(c)(2). Public agency reimbursements to a private developer for costs normally borne by the public, or direct or indirect public subsidies to a private development project that are de minimis in the context of the project, do not in themselves make an otherwise private development project subject to prevailing wage requirements. Lab C §1720(c)(3).

Construction or rehabilitation of privately owned residential projects that meet certain specified conditions also are exempt from prevailing wage requirements. Lab C §1720(c)(6). See also §§5.363.

© The Regents of the University of California

§7.88 d. Leased Facilities

Certain work performed under private contract qualifies as public works when more than 50 percent of the assignable square feet of the work is leased to a public entity for its use and the lease was executed before construction or the public entity furnished the plans, specifications, or criteria for the work. Lab C §1720.2.

© The Regents of the University of California

§7.89 3. Requirement to Pay Prevailing Wages

All workers on public works projects over $1000 must receive not less than the general prevailing rate of per diem wages (commonly referred to as prevailing wages) for work of a similar character in the locality in which the public work is performed. Lab C §1771. Higher thresholds apply ($15,000 or $25,000) if the public entity has adopted a special labor compliance program. See Lab C §1771.5(b).

PRACTICE TIP: If the city is contributing a portion of the construction cost, prevailing wages are generally required under the expanded definition of public works contained in Lab C §1720. However, see *State Bldg. & Constr. Trades Council of Cal. v Duncan* (2008) 162 CA4th 289, 76 CR3d 507, when a rehabilitation project funded in part by state low income housing tax credits (LIHTC) was not required to comply with the prevailing wage law.

© The Regents of the University of California

4. Penalties

§7.90 a. Failure to Pay Prevailing Wages

Contractors and subcontractors are subject to a penalty of not more than $50 per day for each worker paid less than the prevailing wage rate. The amount of the penalty is determined by the State Labor Commissioner. Lab C §1775.

© The Regents of the University of California

§7.91 b. Failure to Require Payment of Prevailing Wages

An awarding body is not liable to the State Labor Commissioner for damages or penalties for its failure to discharge its duties in connection with the prevailing wage laws. *Aubry v Tri-City Hosp. Dist.* (1992) 2 C4th 962, 9 CR2d 92. A contractor who has been misled by representations of an awarding body to the effect that the contract in question is not subject to the prevailing wage laws may, however, have an action against the awarding body for indemnification and any consequential damages it incurs as a result of its good faith reliance on such representations. *Lusardi Constr. Co. v Aubry* (1992) 1 C4th 976, 4 CR2d 837.

An awarding body or body otherwise undertaking a project classified as a "public work" may be subject to an action for recovery of "increased costs," including increased labor costs, penalties, attorney fees, and costs. Lab C §§1726, 1781. This liability may extend to a contractor with which it did not contract. Lab C §1781.

© The Regents of the University of California

5. Payroll Records

§7.92 a. Duty to Maintain

The contractor must maintain certified payroll records that show the name, address, Social Security number, work classification, straight time and overtime hours worked each day and week, and the actual per diem wages paid to each worker. Lab C §1776(a).

© The Regents of the University of California

§7.93 b. Accuracy and Inspection

The contractor must certify the accuracy of the records and they must be available for inspection at all reasonable hours. The records may be inspected by the employee, the state, and the public entity. Lab C §1776(b). The public may inspect the records only after the worker's name, address, and Social Security number are removed. Lab C §1776(e).

PRACTICE TIP: The public agency may consider including in private contracts (*e.g.,* disposition and development agreements) defense and indemnity clauses that require the developer or other contracting entity to defend and indemnify the public agency for any penalty or damages resulting from a later determination that the project is classified as a public work (subject to prevailing wages), absent a prior Department of Industrial Relations determination that the project is not a public work.

© The Regents of the University of California

§7.94 6. Volunteer Work Exemption

Qualifying volunteer work is not subject to prevailing wage requirements. Lab C §1720.4. This prevailing wage exemption for volunteers and Conservation Corps members extends until January 1, 2012.

© The Regents of the University of California

H. Bonds and Insurance

§7.95 1. Surety Bonds Distinguished From Insurance

In the context of public contracts, surety bonds serve the purpose of guaranteeing the contractor's performance of public works contracts. They typically take the form of bid bonds, which guarantee that the contractor bidding on the job will enter into the contract at the price quoted; performance bonds, which protect the agency from financial loss if the contractor fails to construct the project in compliance with the contract terms; and payment bonds, which guarantee that the contractor will pay for all materials and labor and complete the project free of liens. See generally CC §§3247-3252.

It is very important to understand the distinction between surety bonds and insurance. A surety contract creates a tripartite relationship between the principal (contractor) whose performance is guaranteed by the bond; the obligee (city), the party that receives the guarantee of someone else's performance; and the surety, the corporation or person who has pledged assets to guarantee the obligation of another. See *Cates Constr., Inc. v Talbot Partners* (1999) 21 C4th 28, 86 CR2d 855; *Arntz Contracting Co. v St. Paul Fire & Marine Ins. Co.* (1996) 47 CA4th 464, 54 CR2d 888. In *Cates Constr., Inc.*, the California Supreme Court held that the obligee may not maintain a bad faith action against a surety because a surety bond is not insurance. *Cates Constr., Inc.*, 21 C4th at 58. Thus, when dealing with a seemingly recalcitrant surety, threats of "bad faith" will have little impact.

PRACTICE TIP: There are several reasons why a surety may not respond promptly to a city claim. In disputed cases when the contractor contends that the construction problems or delays are not its fault, the surety will not automatically step in because it is entitled to assert as defenses to a bond all defenses available to the principal contractor. *Cates Constr., Inc.,* 21 C4th at 48. The surety also must be careful that it is not found to have "volunteered" payments that it may not be able to ultimately recover from the contractor under their indemnification agreement. See *Arntz Contracting Co.,* 47 CA4th at 483. The fastest way to get the surety on board is to quickly prepare and present a strong case in favor of the city and convince the surety that its failure to take over the job will only make things worse. It is also very important to understand that a claim against a contractor's bond can have serious repercussions. Bonding capacity is the "life blood" of a public works contractor. Without bonds, a public contractor cannot bid. Thus, an ill-advised call on a contractor's surety bond that impairs its bonding capacity and can result in a claim against the city. *Lewis Jorge Constr. Mgmt., Inc. v Pomona Unified Sch. Dist.* (2004) 34 C4th 960, 22 CR3d 340.

© The Regents of the University of California

2. Key Features of Surety Bonds

§7.96 a. When Liability Arises

In suretyship, the risk of loss remains with the principal contractor, while the surety merely lends its credit so as to guarantee payment or performance in the event that the principal defaults. Thus, the liability of the surety does not arise until the principal defaults. CC §2807; *Cates Constr., Inc. v Talbot Partners* (1999) 21 C4th 28, 38, 86 CR2d 855.

© The Regents of the University of California

§7.97 b. Scope of Liability

When one assumes liability as a surety on a conditional obligation, the surety's liability is commensurate with that of the principal. CC §2808. The purpose of the bond is to provide security for the covenants of the underlying contract. *National Tech. Sys. v Superior Court* (2002) 97 CA4th 415, 424, 118 CR2d 465. However, total recovery generally remains limited to the penal amount of the bond. When, as in most surety bonds, the bond incorporates the public works contract by an express reference, the bond and contract should be read together and construed fairly and reasonably as a whole according to the intentions of the parties. *Cates Constr., Inc. v Talbot Partners* (1999) 21 C4th 28, 39, 86 CR2d 855. Based on the language of the particular bond and public works contract, the scope of a surety's obligation has been held to include:

- "delay damages" under a performance bond (*Cates Constr., Inc.,* 21 C4th at 39);
- requiring a surety on a public works payment bond to pay an interest penalty based on the contractor's conduct (*Washington Int'l Ins. Co. v Superior Court* (1998) 62 CA4th 981, 988, 73 CR2d 282);
- attorney fees under an attorney fees clause in the underlying contract (*T & R Painting Constr., Inc. v St. Paul Fire & Marine Ins. Co.* (1994) 23 CA4th 738, 29 CR2d 199); and
- collecting unpaid prevailing wages (*Department of Indus. Relations v Fidelity Roof Co.* (1997) 60 CA4th 411, 70 CR2d 465).

PRACTICE TIP: When litigating a case involving a surety, it is important to name the surety as a defendant in the lawsuit. Due to the distinctions between surety bonds and insurance, a surety is generally not bound to a judgment or default against the principal in an action in which it did not have the opportunity to participate. *National Tech. Sys. v Superior Court* (2002) 97 CA4th 415, 421, 118 CR2d 465. Suit against the surety must be commenced before the expiration of the 6-month period in which stop notices may be filed. CC §3249.

© The Regents of the University of California

§7.98 c. Changes to Scope of Work

A surety is exonerated if the obligee, without the consent of the surety, makes a material alteration to the contract (CC §2819), except as otherwise provided in CC §3225. The surety may consent in advance to changes in the nature and scope of work if the bond so provides. *City of Sacramento v Trans Pac. Indus. Acc., Inc.* (1979) 98 CA3d 389, 159 CR 514; *Simpson v Bergmann* (1932) 125 CA 1, 13 P2d 531.

© The Regents of the University of California

§7.99 d. Surety Qualifications

Although personal sureties are allowed in other contexts, any bond required on a public works contract, as defined in Pub Cont C §1101, must be executed by an admitted surety insurer. CCP §995.311.

© The Regents of the University of California

§7.100 (1) Admitted Surety

An admitted surety insurer is a corporate insurer or a reciprocal or inter-insurance exchange to which the Insurance Commissioner has issued a certificate of authority to transact surety insurance in this state. CCP §995.120(a). Admitted surety insurer, bonding company, and corporate surety are construed to mean admitted surety insurer. CCP §995.120(b). A public agency approving the bond on a public works contract has a duty to verify that the bond is being executed by an admitted surety insurer. CCP §995.311. The city can fulfill this obligation by printing out verification from the website of the California Department of Insurance confirming that the surety is an admitted surety insurer and attaching it to the bond or obtaining a certificate from the county clerk that confirms that the surety is an admitted insurer and attaching it to the bond. The California Department of Insurance website address is www.insurance.ca.gov/. The Department's website address to obtain a company profile is http://interactive.web.insurance.ca.gov/webuser/idb_co_list$.startup.

© The Regents of the University of California

§7.101 (2) City Liability

Public agencies have a mandatory duty to ensure that payment bond sureties are sufficient, admitted surety insurers. *Walt Rankin & Assocs., Inc. v City of Murrieta* (2000) 84 CA4th 605, 101 CR2d 48 (because city failed to comply with its mandatory duty, city compelled to pay subcontractors and material suppliers directly, because nonadmitted surety was unable to meet obligation). The holding in *Rankin* was codified and expanded. CCP §995.311; *N. V. Heathorn v County of San Mateo* (2005) 126 CA4th 1526, 25 CR3d 400. See also Govt C §815.6.

© The Regents of the University of California

§7.102 e. Sufficiency of Sureties

State law establishes the procedures for determining the sufficiency of a bond issued by personal sureties (see CCP §§995.510-995.520), as well as the sufficiency of a bond issued by an admitted surety insurer (CCP §§995.610-995.670). It appears that a city may not require a duly admitted surety insurer to meet additional minimum underwriting standards for surety bonds if it otherwise complies with state law requirements. See CCP §§995.660, 995.670. See also 74 Ops Cal Atty Gen 89, 96 (1991). Deposits in lieu of bonds are also permitted under CCP §995.710 except when the statute providing for the bond precludes such deposits.

© The Regents of the University of California

§7.103 f. Bid Bonds Versus Payment Bonds

Bids may be secured by deposits in lieu of a bond. Pub Cont C §20170. If a bidder chooses to supply a bid bond instead of one of the other types of permitted bid security, an admitted surety insurer must execute the bond. Pub Cont C §20170; CCP §995.120. By contrast, a public works payment bond must be in the form of a bond and not a deposit (cash) in lieu of a bond. CC §3248(d).

PRACTICE TIP: Performance bonds are not required by state statute, but are required by virtually all public agencies. When a city requires a performance bond by ordinance or resolution, it may wish to require that such bond be issued by an admitted surety insurer and in the form of a bond, not a deposit in lieu of a bond. Because performance and payment bonds are customarily issued by the same company for a single premium, such a local requirement might avoid the presentation of unwanted personal surety bonds or deposits in lieu of a bond.

© The Regents of the University of California

§7.104 g. Insurance Distinguished From Indemnification

It is important to distinguish insurance requirements from the separate contractual obligation of the contractor to defend and indemnify the city from claims. In the event of a claim, both obligations should be pursued.

© The Regents of the University of California

§7.105 h. Other Handbook References

For related material regarding insurance, see §§7.252-7.295. For further discussion of indemnity agreements and bonds, see §§7.296-7.321.

© The Regents of the University of California

I. Interpreting the Contract and Resolving Disputes

§7.106 1. Implied Warranty of Correctness

Public works contracts include an implied warranty of correctness. *Howard Contracting, Inc. v G.A. MacDonald Constr. Co.* (1998) 71 CA4th 38, 83 CR2d 590. If a contract includes a material misrepresentation (or a public entity withholds relevant information) of a condition known to the public entity, and the contractor reasonably relies on the misrepresentation, the public entity may be liable for any damages the contractor sustains arising from the misrepresentation. *Wunderlich v State Dep't of Pub. Works* (1967) 65 C2d 777, 56 CR 473; *Salinas v Souza & McCue Constr. Co.* (1967) 66 C2d 217, 57 CR 337, overruled in part on other grounds in *Helfend v Southern Cal. Rapid Transit Dist.* (1970) 2 C3d 1, 84 CR 173.

© The Regents of the University of California

§7.107 2. Effect of Disclaimers

General disclaimer clauses that attempt to shift all liability to the contractor have been routinely disregarded. See *Gogo v Los Angeles County Flood Control Dist.* (1941) 45 CA2d 334, 114 P2d 65; *Foster Constr. C.A. & Williams Bros.Co. v U.S.* (Ct Cl 1970) 435 F2d 873. However, very specific disclaimer provisions that fairly warn of a particular risk have been held enforceable. *Umpqua River & Nav. Co. v Crescent City Harbor Dist.* (9th Cir 1980) 618 F2d 588; *Wunderlich v State Dep't of Pub. Works* (1967) 65 C2d 777, 56 CR 473.

© The Regents of the University of California

§7.108 3. Differing Site Conditions

Construction problems arising from differing site conditions are commonly faced by the public entity. The specificity of contract provisions as to those site conditions, coupled with the specificity of the contract disclaimer language, is crucial in determining allocation of fault between the parties. Any public contract with excavations deeper than four feet must contain a clause allowing the filing of a change order (and hence compensation) for subsurface or latent physical conditions differing from those indicated in the specifications. Pub Cont C §7104. See *Condon-Johnson & Assocs., Inc. v Sacramento Mun. Util. Dist.* (2007) 149 CA4th 1384, 57 CR3d 849.

PRACTICE TIP: In order to be valid, an exculpatory clause must clearly disclaim any representation made in the contract. *Wunderlich v State Dep't of Pub. Works* (1967) 65 C2d 777, 56 CR 473.

© The Regents of the University of California

4. Finality of the Engineer's Decision

§7.109 a. Historical Rule

Contracts frequently provide that the city's architect or engineer will resolve disputes between the city and the contractor, especially disputes involving the intent of the drawings and specifications. For the better part of a century, the decision of the engineer or architect was given great deference in the courts. The engineer's decision would not be rejected if supported by substantial evidence. *Clack v State* (1969) 275 CA2d 743, 80 CR 274. However, grossly erroneous or bad faith decisions were subject to challenge based on the imputed requirement of implied fair dealing. *Department of Pub. Works v MacNamara Corp.* (1972) 28 CA3d 641, 104 CR 822. The court's limited role in reviewing the engineer's or architect's decision was reaffirmed in *Zurn Eng'rs v State* (1977) 69 CA3d 798, 138 CR 478.

© The Regents of the University of California

§7.110 b. Statutory Rule

The provisions of CC §1670 were enacted in reaction to the decision in *Zurn Eng'rs v State* (1977) 69 CA3d 798, 138 CR 478. Disputes must be resolved by submitting the dispute to independent arbitration (if mutually agreeable) or by litigation, even if the contract authorizes the engineer or architect to make the final decision. CC §1670.

© The Regents of the University of California

5. Mediation and Arbitration of Construction Claims

§7.111 a. Arbitration Required by Statute

Claims of $375,000 or less must be arbitrated, provided the contract was entered into on or after January 1, 1991, and the public agency has not elected to resolve disputes under Pub Cont C §§10240-10240.13. See Pub Cont C §§20104-20104.6.

© The Regents of the University of California

§7.112 b. Contract Provisions

Provisions for mediation or arbitration may be included by the drafters in any public works contract. The provisions of Pub Cont C §22201 authorize any public works contract to include a provision requiring claims to be resolved by arbitration under Pub Cont C §§10240-10240.13. Alternatively, the parties to a dispute may agree to alternative dispute resolution after the dispute arises.

© The Regents of the University of California

§7.113 c. Other Alternative Dispute Resolution Methods

Parties to a dispute may stipulate to have the dispute, or specific issues, tried by a temporary judge, or a referee. Cal Const art VI, §21; CCP §§638-645.2.

PRACTICE TIP: The benefits of alternative dispute resolution are:

- Assuming the opposing party is cooperative, the parties can fashion their own rules (*e.g.,* briefing, scope of discovery, depositions) for resolution;
- The process may be quicker;
- Fewer attorney fees may be spent on the discovery process; and
- The parties may obtain a seasoned judge in the field of construction disputes.

However, when deciding whether or not to stipulate to alternative dispute resolution, consider:

- It may be more difficult to compel discovery from uncooperative parties;
- The rules of evidence may be less formal during hearings; and
- An adverse ruling may not be appealable.

Corporations and large entities are now more frequently including mandatory arbitration provisions for all disputes in their contracts.

© The Regents of the University of California

6. Limitations on Contractor Claims

§7.114 a. False Claims

A contractor who knowingly presents a false claim to a public entity is subject to civil penalties. In addition, the public entity may recover three times the amount of damages sustained because of the false claim. Govt C §§12651-12656. A city can, by ordinance, bar a contractor from bidding on its public works projects for a set period for knowingly filing a false claim. *Stacey & Witbeck, Inc. v City & County of San Francisco* (1995) 36 CA4th 1074, 44 CR2d 472.

© The Regents of the University of California

§7.115 b. Total Cost Claims

Total cost claims by contractors against a public entity are generally disfavored and available only on showing: the impracticality of proving actual losses directly; that the contractor's bid was reasonable; that its actual costs were reasonable; and that it was not responsible for the added costs. *Amelco Elec. v City of Thousand Oaks* (2002) 27 C4th 228, 115 CR2d 900.

© The Regents of the University of California

§7.116 c. Abandonment

As a matter of law and public policy, the abandonment theory of liability does not apply against a public entity. *Amelco Elec. v City of Thousand Oaks* (2002) 27 C4th 228, 115 CR2d 900. Therefore, contractors are precluded from asserting claims that a public entity abandoned a project. However, public entities may still employ abandonment against a contractor if the facts so warrant.

© The Regents of the University of California

J. Stop-Notices

§7.117 1. Purpose of Stop-Notice

Material suppliers, subcontractors, and others furnishing provisions, services, or supplies may serve a stop-notice on the city for nonpayment of their services and materials. See *Contractors Labor Pool, Inc. v Westway Contractors, Inc.* (1997) 53 CA4th 152, 61 CR2d 715. The procedure for serving and enforcing stop-notices is described in CC §§3179-3214.

© The Regents of the University of California

§7.118 2. Preliminary 20-Day Notice

To file a stop-notice, a claimant who does not have a direct contractual relationship with the prime contractor must provide the city with a notice within 20 days of first furnishing labor, service, equipment, or materials to the jobsite. CC §§3098, 3183. A claimant who fails to file the preliminary 20-day notice within the first 20 days may file a late preliminary 20-day notice; however, the claimant waives the right to file a stop-notice for payment of any labor, service, equipment, or material furnished more than 20 days before filing the late preliminary 20-day notice. CC §3098.

© The Regents of the University of California

§7.119 3. Timing

Stop-notices must be filed with the city within 30 days after the city records a timely notice of completion (sometimes called notice of acceptance) or notice of cessation. CC §3184(a). If no such notices are recorded by the public entity, the stop-notice must be filed within 90 days after completion or cessation of the project. CC §3184(b). Cessation is deemed to exist on public projects when all work has stopped for a continuous period of at least 30 days. CC §3086. See *W.F. Hayward v Transamerica Ins. Co.* (1993) 16 CA4th 1101, 20 CR2d 468. The notice of cessation will be effective only if there has been a continuous cessation of labor for at least 30 days before recording of notice in the county recorder's office. CC §3092. To be valid, the notice of completion must be recorded by the city within 10 days after acceptance of the project. CC §3093. See *Department of Indus. Relations v Fidelity Roof Co.* (1997) 60 CA4th 411, 70 CR2d 465. If the work is subject to acceptance by the city, the work will be considered completed on the date of acceptance. CC §3086.

PRACTICE TIP: A city is not required to file a notice of completion when work is completed. However, filing a notice of completion protects a city by shortening the time period in which stop-notices may be filed.

© The Regents of the University of California

§7.120 4. Payment Disputes

Payment disputes and stop-notices involving subcontractors and materials suppliers may be reduced, or released in their entirety. Although a claimant may use the forms included in CC §3263, there is no requirement that those forms be used. The release or reduction must, however, be in writing. Releasing a stop-notice claim will not preclude a claimant from filing a subsequent timely stop-notice. CC §3263(b). Pay-if-paid clauses in subcontracts are not a valid waiver of the subcontractor's stop-notice rights. See *William R. Clarke Corp. v Safeco Ins. Co.* (1997) 15 C4th 882, 64 CR2d 578; *Capitol Steel Fabricators v Mega Constr. Co.* (1997) 58 CA4th 1049, 68 CR2d 672.

© The Regents of the University of California

5. Resolution

§7.121 a. Duty to Withhold

Following receipt of a valid stop-notice, the city has a duty to withhold an amount equal to the stop-notice, plus an amount to cover reasonable costs of litigation. CC §3186. The generally accepted practice is to withhold a total of 125 percent of the face amount of the stop-notice. See CC §3196. The city should keep interest earned on funds withheld under a stop-notice because the city is obligated to pay interest to the contractor if the contractor establishes entitlement to the withheld funds. *Breda Costruzioni Ferroviarie v Los Angeles Metro. Transp. Auth.* (1997) 56 CA4th 1433, 66 CR2d 416. If, after properly withholding all sums available for withholding, the city has insufficient funds to pay all stop-notices received, the city is not liable to the subcontractors for any amounts in excess of the funds being withheld. In such an event, each subcontractor with valid stop-notices pending will be entitled only to a prorated share of the withheld funds, without regard to the order in which the stop-notices were served. CC §§3187, 3190.

© The Regents of the University of California

§7.122 b. Funds Subject to Withholding

The only funds subject to a stop-notice lien are those due or to become due to the contractor. CC §§3186-3187. Funds withheld under a valid liquidated damage clause are not considered to be due or become due to the contractor, and thus are not subject to stop-notice liens. *Westinghouse Elec. Corp. v County of Los Angeles* (1982) 129 CA3d 771, 181 CR 332. The duty to withhold is not affected by an assignment or garnishment, even if the assignment or garnishment takes place before service of the stop-notice. CC §3193.

PRACTICE TIP 1: The stop-notice amount must be withheld from the next progress payment. Some cities apply the stop-notice amount to the accumulated retention, only withholding from a progress payment if the total stop-notices exceed the accumulated retention. This is not acceptable. Although contract terms may vary, typically the retention is designed, in part, to cover liquidated damages and other claims the city may have against the contractor, as well as to provide a fund for stop-notices received after completion or cessation. If the city fails to withhold funds under a stop-notice from the next progress payment, the retention may not be adequate to cover the city's claims and later-filed stop-notices. If this happens, the city may have waived its rights against the bonding company for the funds it did not withhold from progress payments and may be forced to use its own funds to pay such stop-notices to the extent that they represent valid claims against the prime contractor.

PRACTICE TIP 2: Cities must pay the contractor any contract amounts due in excess of the total of all stop-notices, plus reasonable amounts withheld under CC §3186, as the contract amounts become due under the contract and prompt payment statutes. Withholding too much money is a common mistake and subjects the city to liability for interest and penalties under Pub Cont C §7107. Before withholding funds due to a stop-notice, the city should provide written notification to the contractor. Although the contractor generally receives a copy of the stop-notice from the subcontractor, there should be clear communication from the city of the amounts to be withheld.

© The Regents of the University of California

§7.123 c. Notice to Claimant

If the claimant pays the city $2.00 with its stop-notice, the city is required to notify the claimant when the notice of completion is recorded or a cessation of labor on the project has occurred. CC §3185. Failure to provide the notice will constitute a waiver of the applicable statute of limitations, if the claimant proves the elements of estoppel. *J.H. Thompson Corp. v DC Contractors* (1992) 4 CA4th 1355, 7 CR2d 604.

© The Regents of the University of California

§7.124 d. Contractor Bond

In the case of a disputed stop-notice, the contractor may file a stop-notice release bond with the public entity in an amount equal to 125 percent of the claim stated to provide protection to the stop-notice claimant. On the filing of the bond, the public entity may, in its discretion, then release the withheld amount to the contractor. CC §3196. The surety for any stop notice release bond is jointly and severally liable to the stop notice claimant with the surety on the payment bond. CC §3196.

PRACTICE TIP: It is imperative that the city insist on a different surety for the stop-notice release bond than the surety who issued the payment bond. See *Azusa Western, Inc. v City of West Covina* (1975) 45 CA3d 259, 119 CR 434. But see *Cal-Pacific Materials Co. v Redondo Beach City Sch. Dist.* (1979) 94 CA3d 652, 156 CR 590. When there are multiple stop-notices on a project, a bond to release one may still not allow the contractor to receive any of the "released" funds. No funds will flow to the contractor until all the valid stop-notices have been fully covered.

© The Regents of the University of California

§7.125 e. Prompt Payment

A city must release undisputed retained funds within 60 days following the completion of work. Pub Cont C §7107. "Completion" for purposes of prompt payment requirements is defined in Pub Cont C §7107(c).

If a dispute exists between a city and the contractor, the city may withhold 150 percent of the disputed amount. Cities that fail to comply with Pub Cont C §7107 are subject to penalties of 2 percent per month as well as attorney fees and costs. If stop-notices remain at the end of the 60-day window, the city must continue to hold sufficient funds.

PRACTICE TIP: If a notice of completion is properly filed within 10 days of the completion of the project, the stop-notice period of 30 days will have expired and the city should be aware of all valid claims at the time it releases retained funds. However, if a city fails to file a notice of completion, the valid stop-notice period of 90 days could continue after the 60 days the city has to properly release all contract funds. In this case, the city would be protected from subcontractor's claims by the stop-notice statutes that limit claims against the city to the amount withheld at the time the stop-notice was filed. Cities can avoid this by filing a notice of completion within 10 days of completion.

© The Regents of the University of California

§7.126 f. Suit by Contractor

As an alternative to posting a release bond, the contractor may file an action to contest the validity of the stop-notice under summary proceedings as identified in CC §§3198-3205. See CC §3197.

© The Regents of the University of California

§7.127 g. Suit by Stop-Notice Claimant

A stop-notice claimant may file an action against the original contractor and the city to enforce payment of a claim. CC §3210. In such situations, the city takes on the role of a stakeholder in the litigation, unless the city is claiming entitlement to liquidated damages. The issue of entitlement to liquidated damages can then be litigated in the stop-notice action. If the city has accepted a stop-notice release bond and released all funds held under the stop-notice at issue, the city is no longer a proper party to the suit. The city must be dismissed and the stop-notice release bond surety company will be brought into the suit.

© The Regents of the University of California

§7.128 6. Other Reference Materials

For a guide to stop-notice procedures, see California Mechanics' Liens and Related Construction Remedies, chaps 4, 9 (3d ed Cal CEB 1998).

© The Regents of the University of California

K. Federally Funded Projects

§7.129 1. Authority to Comply With Federal Requirements

Cities are authorized to accept federal grants for public works and to comply with all requirements of such grants. Govt C §§53701-53702. In most cases, the federal or state agency administering the federal funds will provide the local public entity with complete information concerning federal labor law requirements applicable to a particular funded project. Accordingly, the discussion in §§7.130-7.169 is only an abbreviated outline of current federal requirements.

© The Regents of the University of California

2. Use of Federal Grant Funds to Purchase Supplies and Services

§7.130 a. Uniform Administrative Regulations

The Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments establish the standards and guidelines to be used in procuring supplies, equipment, construction, and services with federal grant funds. See 49 CFR Part 18 (superseding standards set out in Attachment 0 of OMB (Office of Management and Budget) Circular No. A-102). The rules for each federal agency's grant programs are contained in the Code of Federal Regulations. The citation to each agency's rules can be found at 53 Fed Reg 8034. The Department of Transportation has adopted other procurement regulations. See editorial note to 49 CFR §18.36.

© The Regents of the University of California

§7.131 b. Grantee/Grantor Responsibility

The standards established by the uniform administrative regulations do not relieve the recipient of the grant ("grantee") of any contractual obligations under its contracts. Grantees must use their own procurement procedures under applicable state and local laws and regulations provided that procurements conform to the federal standards.

© The Regents of the University of California

§7.132 c. Grantor Review of Proposed Contracts

Pre-award review and approval of grantee's proposed contracts and procurement documents, such as requests for proposals and invitations for bids, is only permitted if (See, *e.g.*, 49 CFR §18.36(g)):

- the procurement is expected to exceed $100,000 and is to be awarded without competition or only one bid or offer is received in response to solicitation; or
- the procurement expected to exceed $100,000 specifies a brand name product; or
- the grantee's procurement procedures or operations fails to comply with federal procurement standards; or
- the proposed award over $100,000 is to be awarded to other than the apparent low bidder; or
- a proposed contract modification changes the scope, or increases the price, of the contract by more than $100,000.

© The Regents of the University of California

§7.133 d. Code of Conduct

Grantees must maintain a written code or standards of conduct, including provisions for penalties or sanctions that must govern the performance of their officers, employees, or agents engaged in the award and administration of contracts supported by federal funds. 49 CFR §18.36(b)(3). No employee, officer, or agent of the grantee may participate in the award or administration of a contract supported by federal funds if a conflict of interest, real or apparent, is involved. The circular defines what constitutes a conflict of interest.

© The Regents of the University of California

§7.134 e. Contracting With Small and Minority Firms, Women's Business Enterprise (WBE), and Labor Surplus Area Firms

Affirmative steps must be taken to ensure that small and minority businesses are used when possible as sources of supplies, equipment, construction, and services. 49 CFR §18.36(e). But see §7.29 regarding preferences.

© The Regents of the University of California

§7.135 f. Selection Procedures

All procurement transactions, regardless of whether by sealed bids or by negotiation and without regard to dollar value, must be conducted in a manner that provides maximum open and free competition consistent with the applicable federal procurement rules. 49 CFR §18.36(c). The grantee must have written selection procedures that provide for certain procedural requirements outlined in the procurement rules. 49 CFR §18.36(c)(3).

© The Regents of the University of California

§7.136 g. Method of Procurement

Procurement under federal grants must be made by one of the methods described in §§7.137-7.143.

© The Regents of the University of California

§7.137 (1) Small Purchase Procedures

Simple and informal procurement methods that are sound and appropriate for a procurement of services, supplies, or other property, costing in the aggregate not more than $100,000. Grantees must comply with state or local small purchase dollar limits under $100,000. If this procedure is used, price or rate quotations must be obtained from an adequate number of qualified sources. See, *e.g.,* 49 CFR §18.36(d)(l).

© The Regents of the University of California

§7.138 (2) Competitive Sealed Bids (Formal Advertising)

Sealed bids are publicly solicited and a firm fixed-price contract (lump sum or contract price) is awarded to the responsible bidder whose bid, conforming with all material terms and conditions of the invitation for bids, is lowest in price. 49 CFR §18.36(d)(2). The minimum conditions for formal advertising are provided for in the procurement rules.

If formal advertising is used for a procurement, the requirements outlined in §§7.139-7.143 apply.

© The Regents of the University of California

§7.139 (a) Solicitation of Responses

A sufficient time before the date set for opening of bids, bids must be solicited from an adequate number of known suppliers. In addition, the invitation must be publicly advertised.

© The Regents of the University of California

§7.140 (b) Information Provided

The invitation for bids, including specifications and pertinent attachments, must clearly define the items or services needed in order for the bidders to properly respond to the invitation.

© The Regents of the University of California

§7.141 (c) Bid Opening

All bids must be opened publicly at the time and place stated in the invitation for bids.

© The Regents of the University of California

§7.142 (d) Award

A firm fixed-price contract award must be made by written notice to that responsible bidder whose bid, conforming to the invitation, is lowest.

© The Regents of the University of California

§7.143 (e) Bid Rejection

Any or all bids may be rejected when there are sound documented business reasons in the best interest of the program.

© The Regents of the University of California

§7.144 h. Competitive Negotiation

Proposals are requested from a number of sources and the request for proposal is publicized. 49 CFR §18.36(d)(3). Negotiations are normally conducted with more than one of the sources submitting offers and a fixed price or cost reimbursement contract is awarded, as appropriate. The requirements discussed in §§7.145-7.148 apply.

© The Regents of the University of California

§7.145 (1) Solicitation of Responses

Proposals are solicited from an adequate number of qualified sources to permit reasonable competition consistent with the nature and requirements of the procurement. The request for proposals must be publicized and reasonable requests by other sources to compete must be honored to the maximum extent practicable.

© The Regents of the University of California

§7.146 (2) Contents

The request for proposal must identify all significant evaluation factors, including price or cost when required and their relative importance.

© The Regents of the University of California

§7.147 (3) Evaluation

The grantee must provide mechanisms for technical evaluation of the proposals received, determinations of responsible offerors for the purpose of written or oral discussions, and selection for contract award.

© The Regents of the University of California

§7.148 (4) Award

Award may be made to the responsible offeror whose proposal will be most advantageous to the procuring party, considering price and other factors. Unsuccessful offerors should be notified promptly.

© The Regents of the University of California

§7.149 i. Noncompetitive Negotiation

This approach involves procurement through solicitation of a proposal from only one source or from a number of sources. 49 CFR §18.36(d)(4). Such negotiation may be used when the award of a contract is infeasible under the other methods. Circumstances under which a contract may be awarded by noncompetitive negotiation are limited to the following:

- The item is available only from a single source;
- Public exigency or emergency will not permit a delay incident to competitive solicitation;
- The federal grantor authorized noncompetitive negotiation; or
- After solicitation of a number of sources, competition is determined inadequate.

© The Regents of the University of California

§7.150 j. Contract Pricing

The cost plus a percentage of cost and percentage of construction cost method of contracting must not be used. 49 CFR §18.36(f)(4). Grantees must perform some form of cost or price analysis in connection with every procurement action including contract modifications. 49 CFR §18.36(f)(1). Costs or prices based on estimated costs are allowed only to the extent costs incurred or cost estimates included in negotiated prices are consistent with federal cost principles. 49 CFR §18.36(f)(3).

© The Regents of the University of California

§7.151 k. Contract Provisions

Any recipient of federal grant funds must include in all procurement contracts and subcontracts the contract provisions or conditions discussed in §§7.152-7.163.

© The Regents of the University of California

§7.152 (1) Remedies

Contracts in excess of $25,000 must contain provisions or conditions that will allow for administrative, contractual, or legal remedies in instances in which contractors violate or breach contract terms and provide for such sanctions and penalties as may be appropriate.

© The Regents of the University of California

§7.153 (2) Termination

All contracts in excess of $10,000 must contain suitable provisions for termination by the grantee, including the manner by which it will be effected and the basis for settlement. It must also describe conditions under which the contract may be terminated for default as well as conditions when the contract may be terminated because of circumstances beyond the control of the contractor.

© The Regents of the University of California

§7.154 (3) Building Requirements

In all contracts for construction or facility improvements awarded for more than $100,000, recipients must observe the building requirements contained in Attachment B of OMB (Office of Management and Budget) Circular A-110 (see 2 CFR pt 215).

© The Regents of the University of California

§7.155 (4) Executive Order Compliance

All contracts awarded in excess of $10,000 by grantees and their contractors or sub-grantees must contain a provision requiring compliance with Executive Order No. 11246 (Sept. 24, 1965) (1965 WL 7913) as amended by Executive Order No. 11375 (Oct. 13, 1967) (1967 WL 7772) and as supplemented in Department of Labor regulations. See 41 CFR chap 60.

© The Regents of the University of California

§7.156 (5) "Anti-Kickback" Act

All contracts and sub-grants in excess of $2000 for construction or repair awarded by recipients and sub-recipients must include a provision for compliance with the Copeland Anti-Kickback Act (18 USC §874), as supplemented in Department of Labor regulations. See 29 CFR pt 3.

© The Regents of the University of California

§7.157 (6) Davis-Bacon Act

When required by the federal program legislation, all construction contracts awarded by the recipients and sub-recipients of more than $2000 must include a provision for compliance with the Davis-Bacon Act (40 USC §§3141-3148), and as supplemented by Department of Labor regulations. See 29 CFR part 5.

PRACTICE TIP: There is no authority excusing a city from complying with existing state public works requirements when expending federal funds. Therefore, unless a federal requirement conflicts with a state requirement, the city will be required to comply with both requirements. For example, sometimes both the Davis-Bacon Act and the state prevailing wage statutes apply to a particular contract. In such cases, the contractor will likely be required to pay the higher of the two wages. See 8 Cal Code Regs §16001(b). On the other hand, the Davis-Bacon Act might not apply to a particular federally funded contract, but the city might still be required to adhere to the state prevailing wage statutes.

© The Regents of the University of California

§7.158 (7) Hours and Safety Standards

When applicable, all contracts awarded by recipients in excess of $2000 for construction contracts and in excess of $2500 for other contracts that involve the employment of mechanics or laborers, must include a provision for compliance with §§103 and 107 of the Contract Work Hours and Safety Standards Act (40 USC §§3700-3708), as supplemented by Department of Labor regulations. See 29 CFR pt 5.

© The Regents of the University of California

§7.159 (8) New Inventions and Materials

Contracts or agreements must contain a notice that matters regarding rights to inventions and materials generated under the contract or agreement are subject to the regulations issued by the federal sponsoring agency and the recipient. The contractor must be advised as to the source of additional information regarding these matters. See, *e.g.,* 49 CFR §18.36(i)(8)

© The Regents of the University of California

§7.160 (9) Access to Records

All contracts awarded by grantees must include a provision that the grantee, the federal grantor agency, the Comptroller General of the United States, or any of their duly authorized representatives, must have access to any books, documents, papers, and records of the contractor that are directly pertinent to that specific contract, for the purpose of making audit, examination, excerpts, and transcriptions. Grantees must require contractors to maintain all required records for 3 years after grantees make final payments and all other pending matters are closed.

© The Regents of the University of California

§7.161 (10) Environmental Law Compliance

Contracts, subcontracts, and sub-grants of amounts in excess of $100,000 must contain a provision that requires compliance with all applicable standards, orders, or requirements issued under §306 of the Clean Air Act (42 USC §§7606), §508 of the Clean Water Act (33 USC §1368), Executive Order No. 11738 (Sept. 10, 1973), and Environmental Protection Agency (EPA) regulations (40 CFR pt 35, subpt E, Appendix C-2), which prohibit the use under non-exempt federal contracts, grants, or loans of facilities included on the EPA List of Violating Facilities. See, *e.g.,* 49 CFR §18.36(i)(12).

© The Regents of the University of California

§7.162 (11) Energy Efficiency

Contracts must recognize mandatory standards and policies relating to energy efficiency that are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (Pub L 94-163, 89 Stat 965).

© The Regents of the University of California

§7.163 (12) Contract Administration

Grantees must maintain a contract administration system ensuring that the contractor perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders.

© The Regents of the University of California

§7.164 3. Prevailing Wages

The Davis-Bacon Act requires the payment of prevailing wages on federally funded projects exceeding $2000 for the construction, alteration, or repair, including painting and decorating, of public buildings or public works. 40 USC §§3141-3148. In addition, there are also federal laws that mandate payment of prevailing wages in supply contracts exceeding $10,000 (41 USC §§35-45) (Walsh-Healy Act), and in services contracts exceeding $2500 (41 USC §§351-358) (Services Contract Act). These latter two acts have no counterparts in California law.

© The Regents of the University of California

§7.165 4. Definitions

The terms used in the Davis-Bacon Act are defined in 29 CFR §5.2. Projects that constitute public works for the purposes of the Davis-Bacon Act are defined in detail in 29 CFR §5.2. These definitions are not necessarily congruent with the various California definitions of public works and public projects.

© The Regents of the University of California

5. Contract Documents

§7.166 a. Specifications

The Davis-Bacon Act requires that the advertised specifications for the public works contract and the contract itself provide for the payment of prevailing wages. 40 USC §3142.

© The Regents of the University of California

§7.167 b. Contracts

The public entity must include ten specified prevailing wage contract clauses in its contract. 29 CFR §5.5(a). These clauses deal with minimum wages, withholding, payrolls and basic records, apprentices and trainees, compliance with the Copeland Act (40 USC §3145), by incorporating the provisions of 29 CFR §§3.1-3.11 into the contract, subcontracts, contract termination, compliance with the Davis-Bacon Act, disputes, and certification of eligibility.

Four additional clauses required by the Contract Work Hours and Safety Standards Act (40 USC §§3701-3708) must also be included in the contract. 29 CFR §5.5(b). These clauses deal with overtime requirements, violations and liquidated damages, withholding, and subcontracts. 40 USC §3702. Failure to include these clauses bars the federal agency from making any payments of federal funds on the contract. 29 CFR §5.6(a)(1).

© The Regents of the University of California

§7.168 6. Payroll Records

The contractor must maintain certified payroll records in the form and manner prescribed in 29 CFR §5.5(a)(3) and the public entity must include the text of those regulations in its contract. 29 CFR §5.5(a).

© The Regents of the University of California

§7.169 7. Penalties

Failure to comply with the prevailing wage statutes may result in penalties ranging from criminal prosecution (29 CFR §5.5(a)(3)(ii)(D)) to liquidated damages (29 CFR §5.8) to debarment. 29 CFR §5.12. The sections of the Code of Federal Regulations that the public entity must reference in its contract include references to these various penalties. The amounts of the various penalties are determined by the Secretary of Labor as described in the sections cited.

PRACTICE TIP: Always obtain the current federal forms from the appropriate overseeing agency before preparing the city's bid package. A written ruling may be obtained from the Administrator, Wage and Hour Division, Employment Standards Administration, United States Department of Labor as to the prevailing wages issues in a given federally funded contract. See 29 CFR §5.13.

© The Regents of the University of California

L. Charter Cities

§7.170 1. Charter Cities and the Public Contract Code

Charter cities derive their authority directly from Cal Const art XI; this grants charter cities supreme authority in the area of municipal affairs. *Bishop v City of San Jose* (1969) 1 C3d 56, 61, 81 CR 465. The administration of public works and procurement are municipal affairs. This includes the mode for municipal contracting (see *Loop Lumber Co. v Van Loben Sels* (1916) 173 C 228, 159 P 600), the improvement of municipal streets (see *City of San Jose v Lynch* (1935) 4 C2d 760, 52 P2d 919), and the establishment and maintenance of sewers and drains (see *Cramer v San Diego* (1958) 164 CA2d 168, 330 P2d 235). However, Pub Cont C §1100.7 provides that the Public Contract Code applies to charter cities in the absence of an express exemption or conflicting charter provision or ordinance. Stats 2001, ch 832, §1 (SB 974). The legislature's declared intent is that Pub Cont C §1100.7 as adopted is declaratory of existing law as described in *Howard Contracting, Inc. v G.A. MacDonald Constr. Co.* (1998) 71 CA4th 38, 83 CR2d 590. *Howard Contracting* held that although charter cities enjoy the exclusive power to legislate municipal matters under Cal Const art XI, §5, the home rule doctrine applies only when a subject matter conflict exists between a charter or other municipal enactment and a state statute. *Howard Contracting, Inc.,* 71 CA4th at 51. Accordingly, the court ruled that a no damage for delay clause in a city contract failed to establish the required conflict between a charter or other municipal enactment and state law, and that the Public Contract Code prohibition against such provisions applied. *Howard Contracting, Inc.,* 71 CA4th at 51.

© The Regents of the University of California

§7.171 2. Bidding

General law provisions requiring cities to solicit public, competitive bids for public projects do not apply to charter cities. See *R & A Vending Servs., Inc. v City of Los Angeles* (1985) 172 CA3d 1188, 218 CR 667 (disappointed bidder for Griffith Park concession); *Piledrivers' Local Union v City of Santa Monica* (1984) 151 CA3d 509, 198 CR 731 (rebuilding of Santa Monica Pier); *Smith v City of Riverside* (1973) 34 CA3d 529, 110 CR 67 (alleged violation of Govt C §§37901-37935, now Pub Cont C §§20161-20175.2).

© The Regents of the University of California

§7.172 3. Charter Provisions

The charter city is, of course, bound by the limitations of its own charter and it is bound by state laws in matters of statewide concern. Thus, a city must follow a charter provision requiring that bids be awarded to the lowest responsible bidder. *Los Angeles Dredging Co. v City of Long Beach* (1930) 210 C 348, 291 P 839.

© The Regents of the University of California

§7.173 4. Prevailing Wages

Historically, it has been the general view that charter cities are not bound by state law prevailing wages requirements. See Lab C §1771 when exclusively municipal projects are undertaken and state and federal funds are not involved. *Vial v City of San Diego* (1981) 122 CA3d 346, 175 CR 647. However, the applicability of prevailing wage requirements to charter cities, under an analysis that argues that payment of prevailing wages is a matter of statewide concern, may soon be decided. The California Supreme Court granted review of a split appellate decision holding that a charter city was not required to comply with the prevailing wage requirements. See *State Bldg. & Constr. Trades Council of Cal., AFL-CIO v City of Vista* (review granted Aug. 19, 2009, S173586; superseded opinion at 173 CA4th 567, 93 CR3d 95). On applicability of prevailing wage requirement, see §§7.83-7.84.

© The Regents of the University of California

II. CONTRACTING FOR SERVICES AND GOODS

A. Authority to Contract

§7.174 1. In General

General law cities have authority to enter into contracts to carry out necessary functions, including those expressly granted and those implied by necessity. *Carruth v City of Madera* (1965) 233 CA2d 688, 43 CR 855. Charter cities may exercise authority conferred on them by general law, provided that it is not inconsistent with the charter. *Hubbard v City of San Diego* (1976) 55 CA3d 380, 127 CR 587.

© The Regents of the University of California

§7.175 2. Specifically

Cities have specific statutory authority to contract for special services for financial, economic, accounting, engineering, legal, or administrative matters. Govt C §§37103, 53060. Special services are those that are unusual and unavailable within the agency. *Hubbard v City of San Diego* (1976) 55 CA3d 380, 127 CR 587 (city council could contract ad hoc for services for legislative analysts, but ordinance establishing permanent position was void because of conflict with city manager's duties specified in charter); *Jaynes v Stockton* (1961) 193 CA2d 47, 14 CR 49; *Rafael v Boyle* (1916) 31 CA 623, 161 P 126 (charter precluded city council from employing an attorney to perform special services at city's expense, when city attorney is ready and willing to do so).

PRACTICE TIP: Personal service contracts should include a finding that the city does not have the personnel able to perform the contracted services.

© The Regents of the University of California

3. Delegation of Authority

§7.176 a. Unlawful Delegations of Government Functions

In contracting for services, a city may not contract away its legislative and governmental functions. *McNeil v City of South Pasadena* (1913) 166 C 153, 135 P 32. The effect of this rule is to void any contract that amounts to a surrender or abnegation of its control of its proper municipal functions. *Morrison Homes Corp. v City of Pleasanton* (1976) 58 CA3d 724, 130 CR 196 (citing *McNeil* & *Wills v City of Los Angeles* (1930) 209 C 448, 287 P 962). But see *Department of Transp. v Chavez* (1992) 7 CA4th 407, 9 CR2d 176 (state functions may be contracted to private sector if there is legislative authorization and work involves new state function).

© The Regents of the University of California

§7.177 b. Caveat Emptor

Persons dealing with a municipal corporation are charged with knowledge of the limitation of authority of its officers and agents; contracts made without authority are invalid and cannot be the subject of ratification or estoppel. *City of Pasadena v Estrin* (1931) 212 C 231, 298 P 14; *Foxen v City of Santa Barbara* (1913) 166 C 77, 134 P 1142 ("all persons contracting with a municipal corporation must at their peril inquire into the power of the corporation or of its officer to make the contract").

© The Regents of the University of California

§7.178 4. Express Grant of Authority to Enter Into Contracts

The following list illustrates instances in which cities have been given specific grants of authority to enter into contracts. The list is not exhaustive.

- Energy service contracts. See Govt C §§4217.12, 4217.15.
- Ambulance services. See Govt C §38794; Health & S C §1797.201; *County of San Bernardino v City of San Bernardino* (1997) 15 C4th 909, 64 CR2d 814 (Health & S C §1797.201 allows cities that provided pre-hospital emergency services within jurisdictions on June 1, 1980, option to continue to provide such services, but not to expand such services, or to contract with county to provide all or a portion of such services). See also §§9.22-9.25.
- Ferry system. See Govt C §39731.1.
- Conduct competitive examinations for civil service. See Govt C §45008.
- Employ aircraft pilot. See Govt C §50474.
- Contract with operator to provide public transportation. See Pub Util C §99288.
- Collection and/or disposal of solid waste. See Pub Res C §49300.
- Contracts for financial services with respect to the financial affairs of the city. See Govt C §53997.

© The Regents of the University of California

5. Authority for Intergovernmental Agreements

§7.179 a. Source of Authority

In order for a city to lawfully contract with a county for the performance of its functions, either the legislature must have made statutory provision or the county charter must provide that the county may assume and discharge municipal functions of the municipality if requested. Cal Const art XI, §8. Examples of specific legislative authority to contract with counties implementing Cal Const art XI, §8 (including other municipalities) are described in Govt C §§51300-51308 and are listed in §7.180.

© The Regents of the University of California

§7.180 b. County Performance of General City Functions

A county may contract with a general law or charter city to have county employees perform city functions. See Govt C §51301. This authority does not extend to cities over 1.9 million according to the 1950 census or cities that are both cities and counties. Govt C §51300. The original term of the contract may not exceed 5 years. The term renews for 5-year periods unless either legislative body gives a 1-year notice to terminate. Govt C §51302. See also Govt C §§51305-51308 (personnel reduction caused by department unification). The county employees have the same power and duties as city employees named in the contract. Govt C §51303.

© The Regents of the University of California

§7.181 c. Charter City Contracting Authority

A charter city may, if authorized in its charter, transfer any of its functions to the county. Govt C §51330. The transfer must be approved by the county by resolution containing certain recitals. Govt C §§51330-51331. The functions that may be transferred include tax collection, assessment collection, and sale of property for non-payment of taxes and assessments. See Govt C §51334. If authorized by charter, other functions may be transferred as well. See Govt C §51335.

© The Regents of the University of California

§7.182 d. Assessment and Equalization Functions—Alternative Procedures for Charter Cities

The Government Code also provides an alternative method for charter cities to contract with the county for tax assessment and equalization functions. Govt C §§51540, 51562.

© The Regents of the University of California

§7.183 e. Contracts for Municipal Services

Cities may contract with counties, districts, or other cities for municipal services. See Govt C §§54980-54983. Municipal services includes fire, police, ambulance, and utilities, as well as street repair and operation. Govt C §54980(c). See also Govt C §§55631-55634 (city authority to contract for police and fire protection).

© The Regents of the University of California

§7.184 f. Fire Protection Services From Counties

In counties in which a fire warden has been appointed, cities may contract with the county fire warden for fire protection services. Govt C §55603. Such contracts must be a minimum of 1 year and can only be rescinded by the voters of either the county or the city. Govt C §55603.5.

© The Regents of the University of California

§7.185 g. Water Mains and Sewers

Cities may enter into agreements with other municipalities or sanitary districts for the construction and maintenance of conduits, sewers, and water mains. Govt C §55002.

© The Regents of the University of California

§7.186 h. Construction and Maintenance of Sewers and Electrical Poles

Cities may enter into contracts with other cities, counties, or sanitary districts for the construction and maintenance of sewers and electrical poles. Govt C §§55300-55310. This authority is an alternative and not a repeal of the authority to enter into contracts for water mains and sewers elsewhere in the Government Code. Govt C §55304.

© The Regents of the University of California

§7.187 i. Cement Facilities

Cities may jointly lease, purchase, and operate rock quarries, cement plants, and similar facilities with other cities, counties, and irrigation districts. Govt C §55500.

© The Regents of the University of California

§7.188 j. Emergency Assistance

Cities may enter into mutual aid agreements to render aid in emergencies. See Govt C §8631. This section is applicable to charter cities so long as the charter contains no specific prohibition. See 32 Ops Cal Atty Gen 223 (1958).

© The Regents of the University of California

§7.189 k. County Charges

In providing contract services, the county may only charge to the city additional fees for providing the service, but is expressly prohibited from charging direct or indirect overhead costs of services made available elsewhere in the county or for general county overhead. Govt C §51350.

© The Regents of the University of California

§7.190 6. Federally Funded Projects

Title VII of the Civil Rights Act of 1964 prohibits discrimination under any program or activity receiving federal financial assistance. 42 USC §2000d. See generally 64 Am Jur 2d §91 (discussion of conditions applicable to federal grants); Libonati & Sands, Local Government Law §7.14 (enforcement of conditions for federal grants) and §7.15 (rights of local governments under federal grant programs).

For additional related material in this handbook, see §§4.139-4.268 (discrimination laws); §§7.32-7.34 and §§7.129-7.169 (federally funded programs); and §§13.114-13.152 (municipal liability, federal statutory provisions).

© The Regents of the University of California

7. Prohibited Contracts

§7.191 a. Police Officers as Security Guards

A city may not contract with a private party to provide on- or off-duty police officers for regular private security services for agreed compensation, nor may the chief of police informally act as an arranger of such services. 68 Ops Cal Atty Gen 175 (1985). But see Pen C §70(d) (authorizing police officers, under certain conditions, to serve as private security guards).

© The Regents of the University of California

§7.192 b. Job Order Contracts

A general law city may not enter a job order contract exceeding $50,000. A job order contract is a competitively bid agreement for minor construction, repair, and remodeling of city buildings for a base year and multiple option years. Such contracts are prohibited because the subject matter is essentially unspecified by the time of bidding. 76 Ops Cal Atty Gen 126 (1993).

© The Regents of the University of California

B. Competitive Bidding Requirements

§7.193 1. General Rule

In the absence of a requirement by ordinance, statute, or constitution, a public entity is not bound to engage in competitive bidding. *San Diego Serv. Auth. for Freeway Emergencies v Superior Court* (1988) 198 CA3d 1466, 244 CR 440; *Davis v City of Santa Ana* (1952) 108 CA2d 669, 239 P2d 656. Under Pub Cont C §20162, when the expenditures required for a public project exceed $5000, the project must be contracted for and let to the lowest responsive bidder after notice. However, competitive bidding under the Public Contract Code is not required for personal service contracts that depend on the skill or ability of the entity performing the services. *City & County of San Francisco v Boyd* (1941) 17 C2d 606, 620, 110 P2d 1036; *Adams v Ziegler* (1937) 22 CA2d 135, 138, 70 P2d 537. Because the mode and method of contracting for services or public works is a municipal affair, a charter city may designate the mode and method in its charter or by an ordinance. *Smith v City of Riverside* (1973) 34 CA3d 529, 110 CR 67.

© The Regents of the University of California

§7.194 2. Rule for Certain Kinds of Professional Services

The selection of architectural, landscape architectural, engineering, environmental, land surveying, or construction project management contractors must be on the basis of demonstrated competence and on the professional qualifications necessary for the satisfactory performance of the services required. Govt C §4526. Historically, this requirement has not applied to cities. See 62 Ops Cal Atty Gen 332 (1979). However, the statute has been amended to include local agencies, including charter and general law cities. See Govt C §§4525(c) (defining local agency head), 4526 (imposing requirement on local agency heads). Although this section would seem to prohibit selection of such contractors based on price alone, it does not specifically preclude a city from considering price once the city has satisfied itself that the would-be contractors have demonstrated the competence and professional qualifications necessary for the satisfactory performance of the services required. See also Bus & P C §5616 (prescribing minimum requirements of contracts with certified landscape architects).

© The Regents of the University of California

§7.195 3. Contracting for Supplies and Equipment

The provisions of Govt C §§54201-54205 require cities to adopt procedures for acquisition of supplies and equipment. Most of these purchasing ordinances require competitive bids for contracts in excess of designated dollar amounts.

© The Regents of the University of California

§7.196 4. "Piggyback" Purchasing

State and local agencies may, without prior competitive bidding, contract with suppliers who have been awarded contracts by the state for the purchase of goods, information technology, and services under the competitive processes in Pub Cont C §§12100-12113. Such state contracts typically take the form of master agreements, price schedules, or multiple award schedules that allow the state to take advantage of leveraged pricing that can be obtained through the state's buying power. The local agency may make these purchases directly from the vendors or the state may provide assistance to local agencies in making these acquisitions. See Pub Cont C §10299.

© The Regents of the University of California

§7.197 C. Purchase Ordinance and Regulation

Cities must, by ordinance, adopt policies and procedures, including bidding regulations, governing purchases of supplies and equipment by the city. Govt C §§54202-54203. Such purchases must be in accordance with such adopted policies and in accordance with all relevant provisions of law. Govt C §54202. No policy, procedure, or regulation may be adopted that is inconsistent or in conflict with statute. Govt C §54202. Cities have considerable freedom to tailor purchasing ordinances or regulations to meet local needs. See *Davis v City of Santa Ana* (1952) 108 CA2d 669, 239 P2d 656.

© The Regents of the University of California

D. Local Preferences

§7.198 1. Validity

Preferences for firms based in the city are only permitted if the city council can legitimately find that local firms are disadvantaged because doing business within the city limits is more expensive than doing business outside the city. *Associated Gen. Contractors of Cal., Inc. v City & County of San Francisco* (9th Cir 1987) 813 F2d 922. But see *United Bldg. & Constr. Trades Council of Camden County & Vicinity v City of Camden* (1984) 465 US 208, 79 L Ed 2d 249, 104 S Ct 1020, in which an ordinance requiring preference for hiring local residents on public works contracts was held to violate the privileges and immunities clause of the United States Constitution. The Attorney General has opined that local preference ordinances do not conflict with state public bidding statutes. 72 Ops Cal Atty Gen 86 (1989). The opinion does not discuss *Associated Gen. Contractors of Cal., Inc. v City & County of San Francisco, supra*, and its validity is open to question.

© The Regents of the University of California

§7.199 2. "Buy America Act"

The "California Buy America Act" (Govt C §§4300-4305) and the "California Preference Law" (Govt C §§4330-4334) have been declared invalid as an interference with the federal government's power over foreign affairs. *Bethlehem Steel Corp. v Board of Comm'rs of the Dep't of Water & Power of the City of Los Angeles* (1969) 276 CA2d 221, 80 CR 800; 53 Ops Cal Atty Gen 72 (1970).

© The Regents of the University of California

III. GENERAL CONTRACT PROVISIONS AND ISSUES

§7.200 A. General Rule of Interpretation

Except as otherwise specified in the Civil Code, all contracts, whether public or private, are interpreted by the same rules. CC §1635 (same rule for public and private contracts). See also CC §§1636-1663 (general rules of contract interpretation). A public agency construction contract generally is separated into General Provisions and Special Provisions. The General Provisions contain the legal contract provisions. See §§7.35-7.74. The Special Provisions contain the more technical construction provisions, usually drafted by the design engineers and architects. However, it is important for legal counsel to review all revisions for consistency as it is not unusual for drafters of the Specific Provisions to insert legal provisions or other language inconsistent with the General Provisions, leading to contract ambiguity.

© The Regents of the University of California

B. Contract Provisions and Issues

§7.201 1. Parties

A clear statement should be made of party identification, by name and legal status, *i.e.,* an individual operating under a fictitious name; a partnership; a joint venture; or a corporation or some other business entity.

© The Regents of the University of California

§7.202 2. Duration

The term or life of the agreement should be set. This includes, if necessary, dates for required performance in phases, with drop-dead dates for each phase, as well as for overall project completion. This can be done on an attachment to the contract entitled schedule of performance, which is sometimes combined with a scope of services attachment.

© The Regents of the University of California

§7.203 3. Duties

A precise description of the duties is especially important because this description will define and limit the obligation of the contractor. The preferred practice is to define the duties in the agreement based on the request for proposals sent out by the city and the proposal submitted by the successful responder. The description may be included within the body of the contract or by attaching a scope of services to the contract and incorporating the attachment by reference. If the city merely attaches a copy of the proposal submitted by the contractor as the scope of services, the agency should carefully review that proposal to ensure that it clearly defines, in terms appropriate to contractual obligations, the nature of the duties to be performed.

© The Regents of the University of California

§7.204 4. Time

If time is of the essence to the performance of the contractor's duties, that fact should be clearly stated in the agreement. Further, if time is truly an important factor, consider the inclusion of a liquidated damages clause in the agreement. A liquidated damages clause makes the parties to the contract agree to the amount of damages in the event one party breaches the contract. When a contract includes a liquidated damages provision, the liquidated damages provision is the measure of damages for the damages that are covered by the liquided damages clause; the city is not entitled to actual damages no matter what their nature. The preferred practice is that when such a liquidated damages clause is included in any kind of an agreement, the agreement should also contain a recital of all of the supporting facts demonstrating the need for the liquidated damages provision. Govt C §53069.85.

© The Regents of the University of California

§7.205 5. Responsible Contract Administrators

Each agreement should identify the individuals, by office or title, who represent each party to the agreement and are responsible for the administration of the agreement. Usually the contractor will have a principal who is designated as the managing employee or partner in charge. Usually the city will use either the city manager or the city manager's designee as the contract administrator.

© The Regents of the University of California

§7.206 6. Dispute Clause

A desirable clause in an agreement is a dispute provision. This provision says that a delegated person is empowered to issue orders and instructions to the contractor to effectuate the performance of the contractor's work and to ensure that the work complies with the agreement. The provision should include a statement that if the contractor receives a written direction or order from the delegated person that the contractor believes is inappropriate or not within the scope of the work under the agreement, the contractor has the right to appeal to the city council or other designated forum. A performance after dispute clause requiring the contractor to continue performing the agreement pending resolution of the dispute should also be included.

© The Regents of the University of California

§7.207 7. Compensation

A compensation provision that states the basis for the contractor's compensation is essential. Compensation may be calculated on an hourly basis, a fixed, not to exceed fee, some combination of those two, or some other clearly stated basis (for example, percentage or per parcel). Some contracts, usually in areas such as design engineering, provide for additional compensation by way of an incentive or bonus amount, conditioned on the contractor performing earlier than required under the agreement.

© The Regents of the University of California

§7.208 8. Reimbursement of Expenses

The agreement should clearly specify whether there is any right to reimbursement for expenses and, if so, the nature and extent of that reimbursement. Potential kinds of reimbursable expenses include local telephone calls, long distance telephone calls, fax service, photocopying, word processing costs, and travel allowances. Whether a contractor is given the right to obtain reimbursement is a policy decision. The point is the contract should not be silent on this issue. The contract should either say there is no right to expense reimbursement, or, if reimbursement is allowed, what kinds of expenses are reimbursable. To control costs, the expense reimbursement provisions can include standards and maximum amounts. The contract should also specify who in the city has the right to review such requests and determine whether the reimbursement requested is consistent with the agreement.

© The Regents of the University of California

§7.209 9. Public Entity Liability and Insurance

A public entity is liable for injury proximately caused by the tortious act or omission of an independent contractor of the public entity to the same extent that the public entity would be subject to such liability if it were a private person. Govt C §815.4. *McCarty v Department of Transp.* (2008) 164 CA4th 955, 79 CR3d 777. However, the public entity is not liable for acts or omissions of an independent contractor for which, if committed by the public entity's employee, the public entity would not be liable. Govt C §815.4.

PRACTICE TIP: The public entity should require the independent contractor to obtain insurance providing for defense and indemnity of the public entity protecting against such liability.

© The Regents of the University of California

§7.210 a. Right to Require Insurance

Cities may require those with whom they contract to obtain insurance naming the city as an additional insured. See *No Oil, Inc. v City of Los Angeles* (1987) 196 CA3d 223, 242 CR 37. See also Govt C §§989-991.2 (authority of cities to insure). Public entities may contract for insurance that calls for payment of punitive damages, and may contract for the defense of the claim. Govt C §990(c).

© The Regents of the University of California

§7.211 b. Common Types of Insurance

Cities customarily require contractors to supply various types of insurance. The nature and amount are usually determined in collaboration with each city's risk manager and are dependent on an assessment of the risks involved in performing the contract. Some of the types of insurance generally required are discussed in §§7.212-7.215.

© The Regents of the University of California

§7.212 (1) Commercial General Liability

This typically covers bodily injury and property damage arising from the insured's premises and operations. The policy usually includes contractual liability. Comprehensive general liability is an older form of coverage, usually with slightly narrower protections.

© The Regents of the University of California

§7.213 (2) Automobile Liability

This covers injury to persons or property arising out of ownership, maintenance, or use of an automobile.

© The Regents of the University of California

§7.214 (3) Professional Liability

This covers injury to persons or property resulting from negligent delivery of professional services.

© The Regents of the University of California

§7.215 (4) Workers' Compensation and Employer Liability

Workers' compensation insurance covers injuries to the insured's employees injured while acting in the scope of employment. Employer's liability insurance covers common law claims by the employee against the employer. Under-reporting of payroll to avoid paying workers' compensation insurance premiums automatically results in the suspension of a contractor's license and prevents the contractor from suing for money owed the contractor on work that required a contractor's license. *Wright v Issak* (2007) 149 CA4th 1116, 58 CR3d 1.

© The Regents of the University of California

§7.216 c. Common Contractual Provisions

A contract should provide, whenever possible

- that the contractor's insurance is primary to that of any insurance carried by the city;
- that the city and its officers, employees, and volunteers are named as additional insureds in the contractor's insurance policies;
- that the city will receive at least 30 days advance notice of any cancellation, material reduction, or termination of insurance;
- a waiver of subrogation;
- the right to disclosure and approval of deductibles and to verification of coverage; and
- that the city's failure to comply with reporting requirements should not affect coverage.

The contract may establish the size of the insurer by the use of an insurance rating service, such as Bests or some other known insurance evaluating company. With respect to performance bonds, they must comply with the requirements of CCP §995.660, including that they be from a California admitted surety. CCP §995.670.

PRACTICE TIP 1: Liability limits and allowable contractor deductibles and exclusions on contracts should be reviewed with the risk manager. The city should determine early on whether the contractor's policy is a claims made policy or an occurrence policy. If the policy is a claims made policy, the city should negotiate and draft appropriate provisions to protect the city for the period between the termination of the contract and the statutes of limitations.

PRACTICE TIP 2: It is occasionally difficult or very expensive for some professionals to obtain professional liability or errors and omissions insurance. One alternative is to include a peer review process in the contract, in which the consultant's work is reviewed by a second, equally well qualified professional. This approach offers some assurance of quality control and could be less costly than insurance.

PRACTICE TIP 3: If the contractor's policy has a substantial deductible or self-insured retention, the city would be required to pay it if the contractor is financially unable to pay, or if the indemnity clause should be set aside by a court. As protection, the city should require the contractor to reduce or eliminate the deductible as to the city or obtain a surety bond guaranteeing its payment plus any related losses, claims, and investigation and defense costs.

© The Regents of the University of California

10. Indemnification

§7.217 a. Establishment of Indemnification

The right to indemnification is established by contract. The extent of the duty to indemnify is determined from the terms of the contract and not from the independent doctrine of equitable indemnity. *City of Los Angeles v Japan Air Lines Co.* (1974) 41 CA3d 416, 116 CR 69. But see *E.L. White, Inc. v City of Huntington Beach* (1978) 21 C3d 497, 146 CR 614 (contractual indemnity agreement failed to protect city against claim of implied indemnity when city was actively negligent and agreement did not address this issue). Cities may require those with whom they contract to indemnify the city. See *No Oil, Inc. v City of Los Angeles* (1987) 196 CA3d 223, 242 CR 37.

PRACTICE TIP: The right to obtain a contractual defense from the contractor is an obligation separate from the duty to indemnify. The contractual obligation to defend must be included in the contract language along with the duty to indemnify. How that language is crafted can have a significant impact on when the defense obligation triggers. See *Crawford v Weather Shield Mfg., Inc.* (2008) 44 C4th 541, 79 CR3d 721.

© The Regents of the University of California

§7.218 b. City Liability for Contractor Acts

A public entity is liable for injury proximately caused by the tortious act or omission of an independent contractor of the public entity to the same extent that the public entity would be subject to such liability if it were a private person. Govt C §815.4; *McCarty v Department of Transp.* (2008) 164 CA4th 955, 79 CR3d 777. However, the public entity is not liable for acts or omissions of an independent contractor for which, if committed by the public entity's employee, the public entity would not be liable. Govt C §815.4.

© The Regents of the University of California

§7.219 (1) Non-Delegable Duty

When there is a duty to do certain work carefully, or to maintain property in a safe condition, this duty cannot be avoided by delegating the work to an independent contractor. *Delgado v W.C. Garcia & Assocs.* (1963) 212 CA2d 5, 27 CR 613 (city compliance with state safety requirement cannot be delegated); California Government Tort Liability Practice §9.22 (4th ed Cal CEB 1999).

© The Regents of the University of California

§7.220 (2) Peculiar Risk Doctrine

Under the peculiar risk doctrine, a city is liable for injuries resulting from the negligent performance of a contract involving special risks, peculiar to the work to be done, and arising out of its character, or out of the place where it is done, against which a reasonable person would recognize the necessity of taking special precautions. It is sufficient that it is a risk that the employer should recognize as likely to arise in the course of the ordinary and usual method of doing the work, or the particular method of doing the work, or the particular method that the employer knows that the contractor will adopt. *Caudel v East Bay Mun. Util. Dist.* (1985) 165 CA3d 1, 211 CR 222. But see *Johnson v Tosco Corp.* (1991) 1 CA4th 123, 1 CR2d 747 (independent contractors' use of defective equipment, which employer had no part in selecting, does not bring conduct within peculiar risk doctrine). See also California Government Tort Liability Practice §9.23 (4th ed Cal CEB 1999).

© The Regents of the University of California

§7.221 c. Type and Scope of Indemnification

The provisions of CC §2778 establish the rules for interpreting indemnity agreements. Indemnity provisions must be carefully drafted. Indemnification agreements may apply not only to the acts of the indemnitor, but also to those of his or her agents. CC §2775; *Crawford v Weather Shield Mfg., Inc.* (2008) 44 C4th 541, 79 CR3d 721.

PRACTICE TIP 1: Indemnity agreements should be carefully crafted to include:

- the entities and persons who will be the indemnifying parties and the indemnified parties;
- the nature of those activities to which the indemnification will apply, *i.e.* active or passive negligence or willful misconduct;
- whether the indemnified party will be indemnified against its negligence; and
- the defense obligation and when it will trigger.

PRACTICE TIP 2: Each contract should be evaluated to determine whether or not there is a peculiar risk or non-delegable duty. If these exist, the contract should have provisions specifically designed to accommodate these issues. (The agency may find it more cost-effective to separately contract for the remediation of known or reasonably foreseeable risks, and exclude those risks from the scope of the indemnification.)

© The Regents of the University of California

§7.222 (1) Indemnity as a Condition for Rendering Essential Public Service

Generally, a city may not obtain indemnification against its own negligence if it impairs a public interest. *Tunkl v Regents of Univ. of Cal.* (1963) 60 C2d 92, 32 CR 33. When no essential public interest is involved, or there is no statutory prohibition, the city may require such indemnification against ordinary negligence. *City of Santa Barbara v Superior Court (Janeway)* (2007) 41 C4th 747, 62 CR3d 527. A public entity may not require indemnification for its own gross negligence. 41 C4th at 776.

© The Regents of the University of California

§7.223 (2) Construction Contracts

Construction contracts, as defined in CC §2783, that indemnify the promisee for damages arising from the sole negligence or willful misconduct of the promisee, its employees, subcontractors, or independent contractors directly responsible to the promisee are void and unenforceable. CC §2782(a). A public agency may not obtain indemnification for its own active negligence. CC §2782(b). Certain exceptions apply. See CC §§2782(a)-(b), 2782.1 (permitting the city to be indemnified by a contractor under a construction contract (which includes design under §2783) when the contractor enters into an agreement with the city to enter onto city or adjacent property to perform a contract for others), §2782.2 (permitting, under certain circumstances, agreements to indemnify engineers providing inspection services), §2782.5 (permitting agreements to allocate, release, liquidate, exclude, or limit liability for design defects or other matters), §2782.6 (permitting indemnity agreements with engineers or geologists providing hazardous materials identification, evaluation, preliminary assessment, and design and remediation services, if certain requirements are met, but specifically excluding contracts with public entities (CC §2782.6(f)).

© The Regents of the University of California

§7.224 (3) Trucking Contracts

State law prohibits indemnity agreements in any hauling or trucking contracts relieving the trucker or hauler, or any person directly responsible to the trucker or hauler, of the trucker's or hauler's sole negligence or willful misconduct resulting in bodily injury, death, property damage, or expenses arising therefrom, except when under the control of the indemnitee. CC §2784.5.

© The Regents of the University of California

§7.225 d. Further Reference

On indemnity agreements and bonds, see §§7.296-7.309; on toxic and hazardous wastes, see §§7.313-7.320.

© The Regents of the University of California

§7.226 11. Limitation of Liability Clauses

State law permits parties to negotiate and expressly agree with respect to the allocation, release, exclusion, or limitation of liability for design defects or of the promisee to the promisor arising from the construction contract. CC §2782.5. See *Markborough Cal., Inc. v Superior Court (J. Harlan Glenn & Assocs.)* (1991) 227 CA3d 705, 277 CR 919 (limiting damages for contractor's negligence permitted when there was opportunity to negotiate and expressly agree). If, at the time of entering into the obligation, there is a limitation on the extent to which a municipality may enter into such obligation, or on the extent of taxation for the payment of its liability, or on the mode in which such payment is to be made, there is no violation of any provisions of the constitution, or of any obligation of the municipality, in insisting that the person dealing with it be bound by the terms of the law as they existed when he or she entered into his or her dealings with the municipality. *Bilardi Constr., Inc. v Spencer* (1970) 6 CA3d 771, 86 CR 406. See also 1 Witkin, Summary of California Law, *Contracts* §999 (10th ed 2005).

PRACTICE TIP: It is common to find limitation of liability provisions in the standard language of design professional (engineer, architect) agreements. For risk management purposes, it is important to remove those provisions from the contract or modify them to provide an acceptable risk limitation. It is best for a public agency to develop its own professional services agreement and insist that contractors use that agreement.

© The Regents of the University of California

§7.227 12. Notices

City contracts should include a clearly written notice clause. All notices should be required to be in writing and given either by personal service or delivery by the United States Postal Service, postage prepaid to specifically named persons or the holders of designated positions. There should be a provision indicating when those notices become effective insofar as service is concerned, for example, on the date of personal service, 5 days following deposit in a United States mailbox, or date of postmark. Email should not be used due to issues concerning confirmation of receipt.

© The Regents of the University of California

§7.228 13. Status of Contractor

The contract should specify whether the contractor is an employee or an independent contractor. In most cases, the contract will indicate that the contractor is, in fact, an independent contractor and not an employee or agent of the city. In the latter case, the city has no direct obligation to any of the officers, agents, employees, or subcontractors of the contractor; such individuals will not be entitled to claim direct payment of salaries and will not be able to seek any city employment benefits.

© The Regents of the University of California

§7.229 14. License Requirement

The contract should include a provision warranting that the contractor and all subcontractors are properly licensed. See *D.H. Williams Constr., Inc. v Clovis Unified Sch. Dist.* (2007) 146 CA4th 757, 53 CR3d 345. This warranty should include possessing a local business license, and requiring all subcontractors and suppliers to be similarly licensed. A contractor with a suspended contractor's license cannot sue for money owed the contractor on work that required a contractor's license. *Wright v Issak* (2007) 149 CA4th 1116, 58 CR3d 1. An unlicensed corporate contractor may not enforce the contract on the basis that one of the contractor's employees is a licensed contractor, even if the employee is the president of the corporate contractor. *Opp v St. Paul Fire & Marine Ins. Co.* (2007) 154 CA4th 71, 64 CR3d 260.

© The Regents of the University of California

§7.230 15. Assignment

The contract should prohibit the use of subcontractors or any other type of assignment without the prior consent of the city. Such a provision usually prohibits the unreasonable withholding of such consent.

© The Regents of the University of California

§7.231 16. Arbitration

It may be worthwhile to consider the inclusion of a provision providing for binding arbitration to enforce provisions of the contract. See *Moncharsh v Heily & Blase* (1992) 3 C4th 1, 10 CR2d 183 (scope of arbitration is determined by contract). However, there are risks, including loss of the right of appeal in most cases. In recent years, the costs of arbitration have increased as has the time for resolution in an arbitration setting.

© The Regents of the University of California

§7.232 17. Conflict of Interest

The contract should include a provision requiring the contractor to avoid conflicts of interest. The contractor also should be specifically required to comply with any applicable local conflict of interest code. Alternatively, the contract should recite that the contractor does not fall within the local code or the Political Reform Act and explain why conflict of interest constraints do not apply to the contractor. The provision may also address the furnishing of products or services in which the contractor has a separately defined financial interest. However, persons not contracting with a city cannot be held liable for conspiracy to violate Govt C §1090. *Klistoff v Superior Court* (2007) 157 CA4th 469, 68 CR3d 704. A city's official, who has no personal financial interest in the contact at issue, cannot violate Govt C §1090 for performing legislative acts that aid in another public official's alleged violation of Govt C §1090. *D'Amato v Superior Court* (2008) 167 CA4th 861, 84 CR3d 497. The provisions of Govt C §1090 are discussed in greater detail in §§2.162-2.173.

© The Regents of the University of California

§7.233 18. Ownership of Materials and Documents

A provision sometimes is necessary authorizing the city to use media prepared by the contractor, *e.g.,* documents, CAD files, reports, electronic data, maps, and photographs. This authorization should apply whether or not the contractor's portion of the project proceeds to completion. The contract should provide that all such material is the property of the city once delivered to the city or at such time as the agreement is terminated. The agreement should specify that the work under the contract is considered work made for hire. See *Community for Creative Non-Violence v Reid* (1989) 490 US 730, 104 L Ed 2d 811, 109 S Ct 2166. If the work is public art or artistic in nature, the agency should consider obtaining a waiver of the artist's rights under CC §987 regarding removal or modification of the work.

© The Regents of the University of California

§7.234 19. Termination

There should be a provision permitting termination, without cause, on the giving of a brief period of notice, *e.g.,* 48 hours or 5 days, with provision for equitable adjustment for services performed or materials furnished. For-cause termination clauses are, generally, simply an invitation to litigate.

© The Regents of the University of California

§7.235 20. Discrimination

There should be a provision included that prohibits any type of discrimination by the contractor in the conduct of the work.

© The Regents of the University of California

§7.236 21. Ownership Interest

A provision prohibiting the holding of any interest in the contract by any elected official, officer, or employee of the city is appropriate. See Govt C §1090.

© The Regents of the University of California

§7.237 22. Records

The contractor should be required to maintain records relating to its performance of the contract and to make those records available for audit and/or inspection for 4 years after the contractor completes performance of the contract or the contract is otherwise terminated.

© The Regents of the University of California

§7.238 23. Audit

If compensation is based on a method of payment other than a flat fee, the contract should contain a clause permitting the city to examine books and records, and perform an audit to determine the appropriate amount of compensation to be paid. In addition, this right of audit should be phrased so that if there is a substantial billing deviation adverse to the city (for example, an overcharge of 5 percent or more), then the cost of the audit is borne by the contractor. Otherwise, the cost of the audit is borne by the city.

© The Regents of the University of California

§7.239 24. Choice of Law

A provision that California law governs the interpretation and enforcement of the contract should be included.

© The Regents of the University of California

§7.240 25. Entire Agreement

A catchall provision should be included, reciting that:

- the agreement embodies the entire agreement of the parties;
- there are no oral agreements;
- no amendment will be valid unless in writing, executed by both parties; and
- the language of the agreement governs as against any conflicting language or terms contained in any attachment, exhibit, or scope of work.

© The Regents of the University of California

§7.241 26. Waiver

The contract should include a provision reciting that neither acceptance of work nor payment for that work constitutes a waiver of any provisions of the agreement. The contract should also say that waiver of any breach does not constitute waiver of any other provision or subsequent breach.

© The Regents of the University of California

§7.242 27. Attorney Fees Provision

As a general rule, except as provided by statute, attorney fees are not recoverable in a contract action absent the inclusion of an express provision. CCP §1021.

PRACTICE TIP: The inclusion of a fees provision should be carefully considered. Many public agencies purposely exclude attorney fees provision in a public works contract because, especially in a dispute with a contractor involving multiple claims, there is a risk that if the contractor prevails on even a small portion of the claim, substantial fees could be awarded. There is also the risk that the contractor's effort to win attorney fees can at times drive the litigation more than the claim itself.

© The Regents of the University of California

C. Execution of Contracts

§7.243 1. Effect on Enforceability

A contract executed in a manner not authorized by statute or charter is not enforceable against the city. *Reams v Cooley* (1915) 171 C 150, 152 P 293. Statutes or charters authorize a city to contract; they therefore provide the measure of that power. *Dynamic Indus. Co. v City of Long Beach* (1958) 159 CA2d 294, 323 P2d 768. When the charter's provisions for contracting have not been complied with, the city cannot be held liable in quasi-contract and the city will not be estopped from denying the validity of the contract. *Lemoge Elec. Co. v San Mateo County* (1956) 46 C2d 659, 257 P2d 638; *City of Oakland v Burns* (1956) 46 C2d 401, 296 P2d 333; *San Francisco Int'l Yachting Group v City & County of San Francisco* (1992) 9 CA4th 672, 12 CR2d 25.

© The Regents of the University of California

§7.244 2. Signature and Other Requirements

In general law cities, the mayor must sign all contracts and conveyances, unless another officer is authorized to do so by ordinance. Govt C §40602. Cities may prescribe the method for entering into contracts by ordinance.

© The Regents of the University of California

§7.245 3. Consequence of Defective Bidding Process

A city may be required to pay reasonable costs, excluding profit, for labor, equipment, materials, and services furnished by a contractor when a contract is declared invalid due to a defect or defects in the competitive bidding process caused solely by the city. Pub Cont C §5110. To be entitled to such a payment, the contractor must meet specific criteria in the statute.

© The Regents of the University of California

D. Payment Procedures

§7.246 1. General Law Cities

A general law city may pay for contract services after such demands are audited in the manner prescribed by ordinance or resolution. Govt C §37202. Such payments must be approved by the city council (see Govt C §37202), and warrants or checks drawn in payment of demands must be certified or approved by the city clerk (or director of finance if the city has one) (see Govt C §37209) because warrants or checks conforming to a budget approved by ordinance or resolution of the legislative body need not be audited by the legislative body before payment. Govt C §37208(b). After allowing a demand or approving a register of audited demands, the mayor draws a warrant in compliance with either the Government Code or an alternate method of drawing warrants and checks prescribed by ordinance or resolution. See Govt C §37203. The city treasurer is authorized to pay out money only on warrants signed by the legally designated person. Govt C §41003.

© The Regents of the University of California

§7.247 2. Charter Cities

Payment of money for services rendered has historically been a municipal affair and charter cities may adopt their own payment procedures. See *City of Pasadena v Charleville* (1932) 215 C 384, 385, 10 P2d 745, overruled on other grounds in *Purdy & Fitzpatrick v State* (1969) 71 C2d 566, 585, 79 CR 77.

© The Regents of the University of California

3. Audits

§7.248 a. Local Audit Requirements

A city's legislative body is authorized to pay demands for money that have been audited in the manner prescribed by ordinance or resolution. See Govt C §37202. A city's charter or ordinances may provide for receipt of goods or services before payment of demands.

© The Regents of the University of California

§7.249 b. State Audit Requirements

State law also permits the establishment of auditing procedures in connection with direct service contracts with nonprofit corporations. Govt C §53078. See also Health & S C §§38040-38041. Federal block grant expenditures are subject to audit. See Govt C §§53130-53138.

© The Regents of the University of California

§7.250 4. Extra Compensation for Services Already Rendered

A city may not pay a contractor extra compensation after services are rendered or the contract performed. Cal Const art XI, §10(a) ("local government body may not grant extra compensation or extra allowance … after service has been rendered or a contract has been entered into and performed in whole or in part"). A contractor is not entitled to payment for extra work outside of the scope of the contract with the city, even though the work was authorized by a city employee and an agent of the city. The contractor must comply with contractual change order provisions. *Katsura v City of Buenaventura* (2007) 155 CA4th 104, 65 CR3d 762. However, in some circumstances, a contract may adopt prior acts or fix a retroactive date of execution. See *Baker v City of Palo Alto* (1961) 190 CA2d 744, 12 CR 425.

PRACTICE TIP: If a city's charter or ordinance requires delivery of goods or services before payment, the city's contracts should avoid provisions for either down payments or payments in advance of delivery.

§7.251 E. Other Handbook References

For related material regarding specific contract provisions, see §7.35.

© The Regents of the University of California

§7.252 IV. INSURANCE

Part IV of this chapter (§§7.252-7.295) addresses insurance coverage and exclusions, self-insurance pools and types of insurance and certificates.

© The Regents of the University of California

A. Coverage and Exclusions

§7.253 1. Mandatory Versus Optional Coverage

Insurers are often required by state law or regulation to provide certain insurance coverage when issuing policies. For example, automobile liability insurers are required to provide uninsured motorist coverage. Ins C §11580.2. However, absent such regulation, an insurer is at liberty to select the character of the risk it will assume. *Fullerton v Houston Fire & Cas. Ins. Co.* (1965) 234 CA2d 743, 750, 44 CR 711.

§7.254 2. Interpretation of Insurance Policies

Courts have developed rules as to how insurance contracts are to be interpreted. See *Bank of the West v Superior Court* (1992) 2 C4th 1254, 1264, 10 CR2d 538 (summarizing these rules) and *AIU Ins. Co. v Superior Court* (1990) 51 C3d 807, 821, 274 CR 820. For a comprehensive discussion of insurance contracts, coverage, and exclusions, see *Shell Oil Co. v Winterthur Swiss Ins. Co.* (1993) 12 CA4th 715, 737, 15 CR2d 815.

© The Regents of the University of California

§7.255 3. Exclusions

Because insurance policy language is usually drafted by insurers, with no meaningful opportunity for insureds to bargain for modifications, courts generally interpret the policy's coverage clauses broadly, and interpret the policy's exclusions narrowly to protect the insured's objectively reasonable expectations. *Shell Oil Co. v Winterthur Swiss Ins. Co.* (1993) 12 CA4th 715, 15 CR2d 815. The burden of proof that coverage paragraphs apply is on the insured, while the burden of proof that exclusions apply is on the insurer. *Aydin Corp. v First State Ins. Co.* (1998) 18 C4th 1183, 77 CR2d 537.

§7.256 4. Duty to Defend

A liability insurer owes a broad duty to defend its insured against claims that create a potential for indemnity. Once a duty of defense is triggered, the insurer must defend the entire action, subject to a right of reimbursement of defense costs the insurer can show are allocable only to claims that are not even potentially covered. *Buss v Superior Court* (1997) 16 C4th 35, 65 CR2d 366. Site investigation costs can qualify as defense costs that the insurer must incur in fulfilling its duty to defend. *Aerojet-General Corp. v Transport Indem. Co.* (1997) 17 C4th 38, 70 CR2d 118. The duty to defend arises once a tender has been made and suit has been filed. *Foster-Gardner, Inc. v National Union Fire Ins. Co.* (1998) 18 C4th 857, 77 CR2d 107; *Buss v Superior Court* (1997) 16 C4th 35, 65 CR2d 366. The duty to defend exists during the entire action even when only one of several causes of action is potentially covered. A public entity has no duty to share defense costs on a "continuous loss" claim with an insurer simply because it was self-insured during some of the loss period. *State v Pacific Indem. Co.* (1998) 63 CA4th 1535, 75 CR2d 69; *County of San Bernardino v Pacific Indem. Co.* (1997) 56 CA4th 666, 65 CR2d 657. The duty to investigate the insurability of an insured is a non-delegable duty. *Fireman's Fund Ins. Co. v Escobedo* (1978) 80 CA3d 610, 145 CR 785. See also DiMugno & Glad, California Insurance Law Handbook p 516 (West Group, 2009).

PRACTICE TIP: A certificate of insurance form is not sufficient evidence of insurance. Such certificates on their face may not indicate exclusions. They also contain a standard disclaimer that the policy, not the certificate, controls coverage. Unless otherwise stated on the certificate, it is intended merely to constitute notice to a third party of the types and amounts of coverages held by the named insured. For example, a certificate of insurance for aquatic diving may not indicate that trampoline activities are excluded by the policy, even though trampolines are commonly used for aquatics diving practice. Therefore, evidence of insurance should be established by receipt of the insurance declarations page or the policy itself, including additional insured endorsements.

§7.257 5. Duty to Indemnify

The insurer's duty to defend and duty to indemnify differ in their substance: whereas the duty to defend entails the rendering of a service, *i.e.,* the mounting and funding of a defense, the duty to indemnify entails the payment of money. In general, the duty to indemnify is not broad enough to extend beyond "damages," *i.e.,* money ordered by a court. *Certain Underwriters at Lloyd's of London v Superior Court* (2001) 24 C4th 945, 103 CR2d 672. For example, expenses incurred by an agency requiring it to remediate environmental contamination may not be "damages" and thus not covered by the policy. See *County of San Diego v Ace Prop. & Cas. Ins. Co.* (2005) 37 C4th 406, 33 CR 3d 583.

§7.258 B. Self-Insurance and Insurance Pools

With the high cost and general unavailability of liability insurance, many cities are self-insuring some, if not all, of their risk. Self-insurance pools are also becoming more popular as an alternative to commercial insurance or total self-insurance.

© The Regents of the University of California

§7.259 1. Self-Insured Retentions/Reserves

Cities have often accepted a minimum level of liability self-insurance through deductible amounts (Self-Insured Retention (SIR)) in the policies issued by private company insurers. However, as liability exposure risks have increased and insurance premiums have skyrocketed, most cities have been forced to accept higher levels of self-insurance. Some cities have found it more practical to self- insure their entire liability exposure. With self-insurance, sufficient reserves must be set aside to pay liability claims, settlements, or judgments. Note that new accounting rules effective for accounting years beginning in 1995 require reserves to be actually funded. See Government Accounting Standards Board, *Governmental Accounting Standards Bulletin No. 10* (P.O. Box 30784, Hartford, CT 06150, telephone (203) 847-0700).

PRACTICE TIP: Although the Vehicle Code exempts public agencies from proving financial responsibility for publicly owned vehicles (see Veh C §§16051-16056), self-insured cities should prepare certificates of self-insurance to carry in city-owned vehicles in order to comply with the proof of insurance requirements. Such a document provides information to the employee, citizen, and police officer when an accident occurs. An accident procedures packet should also be placed in each agency vehicle to guide employees in the case of an accident.

2. Self-Insurance Pools

§7.260 a. Purpose and Scope

Self-insurance pools have evolved in California over the last two decades to provide a variety of services. The early pools were created when private liability insurance was generally obtainable. Their purpose was to combine the purchasing power of several cities or agencies to reduce the overall cost of acquiring private liability insurance. In the mid-1980s, when private insurance became virtually unobtainable, pools began to offer full self-insurance to their members. Recently, as the insurance market has become softer, some pools are again acquiring excess layers of private insurance coverage for their members, in combination with pooled layers.

© The Regents of the University of California

§7.261 b. Services Provided

Pools often exist for the single purpose of providing liability coverage. Alternatively, they may provide a full range of services for their members, including: investigation and adjusting of claims; providing health and workers' compensation coverage; long-term disability insurance; dental insurance; property fire and risk insurance; risk management and safety services; and even employee "wellness" programs.

§7.262 c. Legal Underpinning for Pools

The provisions of Govt C §§990-990.8 authorize a local public entity to procure insurance or to self-insure and to pool self-insurance with other local public entities through the Joint Exercise of Powers Act. See Govt C §§6500-6536. The Act essentially permits cities to enter into a joint powers agreement to establish a separate governmental entity for a specific purpose. There is also permissive authority, see Govt C §§6599.01-6599.10, establishing the framework for a statewide pool. Under Govt C §990.8(c), local public entity self-insurance pools are exempt from regulation under the California Insurance Code. Proposals to regulate pools, however, surface from time to time in the state legislature or through the office of the Insurance Commissioner. Because the members of a joint powers authority draft coverage agreements, courts will not rely on insurance case law, but will instead look for the intent of the parties in resolving coverage disputes. Questions of coverage are governed by rules of contract law that emphasize the intent of the parties. *City of South El Monte v Southern Cal. Joint Powers Ins. Auth.* (1995) 38 CA4th 1629, 45 CR2d 729 (discussing history and application of Govt C §990.8).

© The Regents of the University of California

§7.263 d. Pools Are Not "Other Insurance"

Because pool members share self-insured risks, pools are not considered "other insurance" required to share defense or indemnity obligations with insurers. An insurer may not require a city first to exhaust all coverage from any Joint Powers Authority as a condition for the insurer to assume any defense or indemnity obligations of its own. *Orange County Water Dist. v Association of Cal. Water Auth.* (1997) 54 CA4th 772, 63 CR2d 182.

PRACTICE TIP: Some additional insured endorsements make themselves secondary or "excess" to any other primary insurance held by the holder of the additional insured certificate. Because pooled coverage is not insurance, the carrier should be obligated to immediately pick up the tender because no primary "insurance" exists.
