Some pools limit their membership to a defined geographic area or commonality of interest. Typical of this type of pool is the Redwood Empire Municipal Insurance Fund (REMIF) and the Municipal Pooling Authority (MPA) of Northern California (formerly, Contra Costa County Municipal Risk Management Insurance Authority). Other pools have a regional bent but may also solicit membership statewide, such as Association of Bay Area Governments, Public Entity Risk Management Authority, and Independent Cities Risk Management Authority. At least one major statewide pool exists, the California Joint Powers Risk Management Authority (CJPRMA), with over 75 members.

© The Regents of the University of California

§7.265 f. Professional Organizations

At least two major professional organizations exist for public sector risk managers and others involved in public liability insurance issues. The Public Risk and Insurance Management Association (PRIMA) is a national organization headquartered in Washington, D.C. It also has a California-affiliated organization. A statewide organization is the Public Agency Risk Managers Association (PARMA) (see www.parma.com).

© The Regents of the University of California

C. Other Insurance Issues

§7.266 1. Practice Resources

Other issues relating to insurance, including the classification of coverage types, how insurance companies are rated for acceptability, and the meaning of insurance "certificates" and "endorsements," are discussed in §§7.266-7.284. Two excellent practice resources that discuss all these issues in more detail are the Procedure Manual for Insurance Requirements in Contracts, published by the Public Risk and Insurance Management Association (available from PRIMA at 1120 "G" Street NW, Suite 400, Washington D.C. 20005), and Insurance and Risk Management for State and Local Governments, by Thomas W. Rynard, published by Matthew Bender. Matthew Bender has also published a more detailed treatment of individual issues called California Insurance Law and Practice.

© The Regents of the University of California

§7.267 2. "Occurrence" Versus "Claims Made" Policies

Third party liability policies are written on an "occurrence" basis or on a "claims made" basis. These two types of policies have subtle but important differences. Policies written to cover professionals, such as architects and engineers, are generally made on a claims made basis. Conversely, most commercial general liability policies are written on an occurrence basis. When the insurance market becomes tight, more policies tend to be written on a claims made basis. At this time, occurrence coverage for professionals is not readily available on the market or its cost may be so high as to be practically unavailable.

© The Regents of the University of California

§7.268 a. "Occurrence" Policies

A policy written on an "occurrence" basis insures incidents that occur during the policy's term, even if the claim is not made until after the policy period. An occurrence policy is generally better for a city, because its window of coverage is longer; the insured is afforded protection against third party claims for a longer period of time, and with fewer limitations on the "trigger of coverage" than would be permitted under a "claims made" policy. An occurrence can take place during multiple policy periods, for example, when slowly progressing property damage is caused by soil subsidence, dry rot, or leaching pollutants over a period of time. *Montrose Chemical Corp. v Admiral Ins. Co.* (1995) 10 C4th 645, 42 CR2d 324. When this occurs, each insurer on the risk during any of the loss is separately obligated to defend and indemnify. *Aerojet-General Corp. v Transport Indem. Co.* (1997) 17 C4th 38, 70 CR2d 118. An insurer cannot avoid its defense and indemnity obligations to its insured based on the fact that a third party claimant did not own the insured property at the time of the event. Coverage under an occurrence based policy includes property damage that occurred during the policy period; coverage is not dependent on whether a third party claimant owned the damaged property during the policy period. To require the injury to have happened to the third party claimant during the policy period would unduly transfer the occurrence based commercial general liability policy to a "claims made" policy. *Century Indemnity Co. v Hearrean* (2002) 98 CA4th 734, 120 CR2d 66. On "claims made" policies, see §§7.267, 7.269.

PRACTICE TIP: Especially in environmental claims against a city involving long-term pollution discharges, it is important not to ignore very old city first party policies going back as far back as the 1950s and 1960s. Under the *Montrose* decision, the carrier may have an obligation to defend and indemnify on a policy many years old. Old insurance policies should never be destroyed; even just having evidence of the old insurance policy may trigger coverage. *Dart Indus., Inc. v Commercial Union Ins. Co.* (2002) 28 C4th 1059, 124 CR2d 142. The other value of old policies is that they do not contain the restrictive pollution exclusions found in modern policies. See, *e.g.*, *State of Cal. v Allstate Ins. Co.* (2009) 45 C4th 1008, 90 CR3d 1. If a claim involves pollution discharge, have the risk manager conduct an extensive search for all insurance policies.

© The Regents of the University of California

§7.269 b. "Claims Made" Policies

A "claims made" policy responds only to third party claims against the insured and reported to the insurer during the policy term, irrespective of when the triggering accident happens. Thus, if the claim is not made during the policy term, that policy will not be available to respond to it. *Abifadel v Cigna Ins. Co.* (1992) 8 CA4th 145, 9 CR2d 910. Obviously, "claims made" coverage should be accepted only when "occurrence" coverage is not available. On "occurrence" policies, see §§7.267-7.268.

© The Regents of the University of California

3. "Comprehensive" Coverage

§7.270 a. In General

In 1973, the Insurance Services Office (ISO) issued a standard form "comprehensive general liability" policy that, with minor variations, most commercial insurance carriers still use. Under the 1973 form, coverage is provided for bodily injury and property damage claims. This form was expanded in 1986 with the issuance of a standard "commercial general liability" policy in two alternative forms: an "occurrence" policy and a "claims made" policy.

© The Regents of the University of California

§7.271 b. Exclusions

Typically excluded is liability arising from the operation of automobiles, aircraft, and watercraft, which are covered separately. See generally 3 California Insurance Law and Practice, chap 49 (2007) (detailed description of policy language and exclusion).

© The Regents of the University of California

§7.272 c. Owner-Controlled Insurance Programs

Local agencies may use owner-controlled or "wrap-up" insurance on construction or renovation programs that exceed $50 million, subject to certain enumerated conditions. Govt C §4420. If a wrap-up insurance policy is used on a public work that is put out to bid after January 1, 2009, certain requirements apply. See CC §2782.96.

© The Regents of the University of California

§7.273 4. Aggregate Limits

Many liability insurance policies impose aggregate limits. An aggregate limit is the total of all claims on all losses paid by the policy for that particular policy year. There are usually three types of aggregate limits: (1) a products and completed operations aggregate; (2) a personal injury and advertising aggregate; and (3) a general aggregate for all other types of losses. Any losses claimed during a policy year will reduce the aggregate limit, thus reducing the coverage available for losses incurred by the city. To protect an entity against this happening, a higher aggregate limit may be required or the policy may be written with a per-location or a per-project aggregate limit. See ISO forms CG 25 04 11 85 (per location) and CG 25 03 11 85 (per project).

© The Regents of the University of California

§7.274 5. "Broad Form" Coverage

The "broad form comprehensive general liability" endorsement includes 12 add-ons that expand the coverage of the "comprehensive general liability" coverage discussed in §§7.270-7.272. The more important of these include personal injury indemnity liability (*e.g.,* slander or wrongful eviction) incurred in the ordinary course of business; advertising injury; contractual liability (incidental promises to indemnify another party); and broad form property damage coverage, which extends coverage for property damage caused by subcontractors of the insured.

© The Regents of the University of California

6. "Commercial General Liability" Coverage

§7.275 a. Scope of Coverage

The "comprehensive" and "broad form" commercial coverages have been superseded by a new form in use since 1986 called the "commercial general liability" policy form. This form incorporates most of the broad form endorsements into the body of the policy and brings the policy up to date in light of intervening case law. However, some insurers still use the older forms discussed above. The commercial general liability form limits all loss payments to two aggregate limits, one for products and completed operations and one for all other loss. This form can be written on a "claims made" or "occurrence" basis.

© The Regents of the University of California

§7.276 b. Amounts

The amount of insurance to require should be based on the loss potential or risks involved in a contract, not the value of the contract. One million dollars of commercial general liability insurance is generally a minimum practical limit to require. Higher limits should be required for any hazardous activity or if an activity has a significant loss potential. The present standard form for commercial general liability coverage is CG 00 01 11 88.

© The Regents of the University of California

7. Rating Insurance Carriers

§7.277 a. Best's Rating

Typically, a contract will require insurance coverage from a carrier "acceptable to the city attorney." How is the practitioner to judge insurance companies? A.M. Best & Company is widely used as a standard for measurement of insurer acceptability. The firm uses a two-part ranking, which is separated by a colon. The first portion is Best's assessment of the quality of the overall management, while the second is expressed as a Roman numeral up to XV, which indicates size by policyholder's surplus. The largest, XV, indicates a surplus of at least $200 million. A common measure of acceptability is a Best's rating of at least A:VII. Copies of the A.M. Best & Company report can often be found in the reference sections of public libraries.

© The Regents of the University of California

§7.278 b. Insurance Company Licensing

The State of California "admits" and "licenses" insurance companies. This issue is particularly important with admitted sureties under public contracts. See CCP §995.311. This process provides a measure of comfort because pooled state funds are available to back losses for admitted insurers that go bankrupt. See Ins C §§1063-1063.17. If an insurance company proposed for providing coverage is unfamiliar, it is prudent to call the State Department of Insurance to check on the status of the company in California. Its consumer hotline number is (800) 927-4357.

© The Regents of the University of California

8. Additional Insured Endorsements

§7.279 a. Insurance Policy as Contract

An insurance policy is the financial guarantee of a risk transfer and financially supports the hold harmless and indemnification clauses of a contract. In order to establish a contractual relationship between the city and the insurance company, the insurance policy must be endorsed to add the city as an "additional insured" party. Standard contract language should require that the city be added to the insurance policy by an endorsement naming the city as an "additional insured" to all liability policies except workers' compensation and professional liability policies.

© The Regents of the University of California

§7.280 b. Reasons for Additional Insured Status

The primary reasons for requiring additional insured status on a liability policy are:

- It reinforces risk transfers otherwise accomplished through hold harmless agreements that could be invalidated by the courts or statute;
- It gives indemnitees (cities) direct rights under the other party's insurance, particularly with respect to defense coverage;
- It may prohibit the indemnitor's insurer from subrogating against the indemnitee when a loss is caused by the indemnitee's acts or omissions; and
- It may provide the indemnitee with personal injury coverage.

PRACTICE TIP: Contracts requiring insurance should state that the city should either be "described as an additional insured" or be placed in the policy proffered as an "additional named insured." Various opinions are voiced when discussing whether to require an agency to be an "additional insured" or "additional named insured" on policies provided by third parties to protect the city. The better practice appears to be to have the city as an additional named insured on the policy, in order to afford the city all of the benefits to which the party with whom it contracts, *i.e.,* the named insured, is entitled under the named insured's coverage. Otherwise, the city's coverage rights may be restricted. Further, the contract and policy should provide notice to the city in the case of default in payment of insurance premiums by the party contracting with the city. Finally, insurers offer different types of additional insured endorsements and typically will try to provide the weakest available to the city. The City Attorney should work with the risk manager in determining which additional insured form to require.

© The Regents of the University of California

§7.281 c. Endorsement Language

The endorsements should include the requirement the other party's insurance is to be primary insurance, *i.e.,* underlying the city's own coverage, which then becomes excess to the coverage of the party with whom the city contracts, provide a 30-day written notice of cancellation, and include a severability of interest clause. An authorized representative of the insurance company must sign these endorsements.

PRACTICE TIP: The provisions of Ins C §11580.04, enacted in 1996, prohibit public agencies from requiring additional insured endorsements in connection with construction contracts that indemnify for active negligence of the agency.

© The Regents of the University of California

§7.282 d. Form Endorsements

The city may develop its own standard endorsement form ensuring that the above requirements are met, or it may accept the Insurance Services Office (ISO)'s endorsement forms. The two most commonly used ISO endorsement forms are the Owners, Lessees or Contractors Form A (CG 20 09) and Form B (CG 20 10). Form B is the endorsement that is intended for use with the 1986 and 1988 commercial general liability policies that include contractual liability insurance. When Form B is used, the coverage provided will more closely correspond to the liabilities transferred in the intermediate and broad form hold harmless clauses.

© The Regents of the University of California

§7.283 e. Further Reference

The Additional Insured Book (International Risk Management Institute, Inc., 5th ed 2004) provides a handy reference for endorsements.

© The Regents of the University of California

§7.284 9. Certificates of Insurance

Most insurance carriers use the Acord form certificate of insurance to standardize the summary of the underlying policy. However, be aware that if the certificate does not accurately reflect the policy, the insurer is not required to conform the policy to the certificate. Ins C §384. Also note the caution expressed in §7.255 (relating to exclusions), pointing out that the certificate is not required to list policy exclusions. The certificate itself does not alter or amend the insurance policy; it is merely a summary of coverage provided and the limits that apply. Because the certificate does not alter, change, or modify the insurance policy, the certificate itself does not add an entity as an additional insured or as an additional named insured.

PRACTICE TIP: Some insurers permit their insureds to add parties with whom they contract as additional insureds merely by the issuance of a certificate. Typically, the right of a named insured to include parties with whom it contracts as additional insureds solely by issuance of a certificate is found in an "Additional Insured" endorsement on the policy itself. However, to ensure the city is covered as an additional insured or additional named insured under the policy, a separate, express "Additional Insured" endorsement on the policy should be obtained.

© The Regents of the University of California

D. Specific Insurance Types

§7.285 1. Automobiles

"Business automobile liability insurance" covers claims arising out of the insured's use of vehicles. The scope of coverage is indicated by a symbol used in the policy. Generally, Code 1 should be required because it covers any automobile, the broadest coverage. Other codes relate to other vehicles that are owned by the insured, specifically described vehicles, hired autos, or non-owned autos. The most common automobile policy form is designated Auto-CA0001 (12 90).

PRACTICE TIP: Automobile coverage should be waived only if the insured's work clearly does not involve the use of automobiles. The auto policy should include contractual liability coverage, which mirrors commercial general liability coverage, but addresses contractual risk transfers arising from auto accidents.

© The Regents of the University of California

§7.286 2. Workers' Compensation

This coverage pertains to injuries or illness sustained by the insured's employees in the course and scope of employment. It also insures against common law claims of injured employees that are made in lieu of or in addition to workers' compensation claims. See discussion in §§4.350-4.399 (relating to workers' compensation).

© The Regents of the University of California

§7.287 3. Bodily Injury

Bodily injury coverage insures against liability for injuries of a physical nature; it includes physical injury, sickness, or disease, including death resulting therefrom. It may also include "emotional distress," provided that the "emotional distress" is manifested as a physical injury.

© The Regents of the University of California

§7.288 4. Personal Injury

Personal injury coverage (which is incorporated into the standard 1986 form) insures against liability for injuries of a non-physical nature, such as false arrest, malicious prosecution, invasion of privacy, defamation, or wrongful eviction.

© The Regents of the University of California

§7.289 5. Products and Completed Operations

Products and completed operations coverage insures against loss resulting from a product that is sold, handled, or distributed by a supplier, or faulty work completed by a contractor. Typically, this coverage is included in comprehensive and commercial general policies.

© The Regents of the University of California

§7.290 6. Property

Property insurance pertains to loss from insured risks (such as fire) and should be required when the city has a financial interest in property leased to others.

© The Regents of the University of California

§7.291 7. Umbrella or Excess Policies

Umbrella or excess liability policies may raise the limits of all primary or underlying insurance policies and provide a way for a contractor to provide sufficient limits to meet the city's requirements. Additional insured endorsements are not typically used because most umbrella policy forms include provisions which automatically include the additional insured on the underlying insurance policy. However, an excess insurer is not obligated to provide a defense when the insured fails to exhaust the self-insured retention on all primary liability policies, even one for a successive coverage year. *Padilla Constr. Co. v Transp. Ins. Co.* (2007) 150 CA4th 984, 58 CR3d 807. In addition, an excess liability insurer is not obligated to indemnify its insured for a settlement amount negotiated within the context of a lawsuit, because the settlement amount, which was not entered as part of a stipulated judgment, was not "damage" triggering coverage under the policy. *Aerojet-General Corp. v Commercial Union Ins. Co.* (2007) 155 CA4th 132, 65 CR3d 803.

PRACTICE TIP: When settling a lawsuit under *Aerojet-General,* consider entering into a stipulated judgment to protect claims against insurers for defense and indemnification obligations.

© The Regents of the University of California

§7.292 8. Professional Liability Insurance

Professional liability insurance protects against losses occurring when a professional fails to practice to the standards customary to that profession. This coverage is often excluded in a general liability policy. Professional liability policies are usually written on a "claims made" basis.

© The Regents of the University of California

§7.293 9. Public Officials Errors and Omissions Coverage

Public officials errors and omissions coverage is a type of liability insurance intended to protect public officials, *e.g.,* city council members, city officers, or city employees, from claims of third parties for ordinary acts of negligence committed by them in the performance of their duties, such as malfeasance, misfeasance, and nonfeasance.

PRACTICE TIP: With leases, the city may want to consider obtaining its own property insurance, rather than relying on a lessee to do so. This has the advantage of ensuring that adequate coverage is obtained and premiums are paid. When the lessee provides coverage, either in the place of or in addition to the agency's insurance, the agency should be named as a loss payee. Generally, insuring the building to at least 90 percent of its replacement cost is good practice.

© The Regents of the University of California

§7.294 E. Submitting and Enforcing Insurance Claims

On the receipt of a third party claim against the city that may arise from work performed by others under a contract, the city should immediately tender the claim to both the contractor and its insurer, demanding a defense and indemnification both as an additional insured and under the indemnification provision of the contract. The public entity must include provisions in its public works contract for timely notification of the contractor of the receipt of any third party claim relating to the contract. Pub Cont C §9201.

It is helpful to recognize that unlike a surety, the insurer under an additional insured endorsement owes a duty of good faith and fair dealing to its additionally insured city and failure to agree to defend and indemnify can subject the carrier to bad faith liability. *Hartford Cas. Ins. Co. v Travelers Indem. Co.* (2003) 110 CA4th 710, 2 CR3d 18; *Acceptance Ins. Co. v Syufy Enters.* (1999) 69 CA4th 321, 81 CR2d 557.

If a carrier continues to refuse to defend, the city's options include filing an action for declaratory relief and bad faith against the insurer. If the contractor also fails to accept the contractual defense and indemnity obligation, declaratory relief is also available.

PRACTICE TIP: Insurance carriers are traditionally reluctant to accept additional insured tenders unless the circumstances are absolutely clear. It often takes time, prodding, and sometimes threats of bad faith for them to finally recognize their obligations. Be persistent. It can save the city a lot of money in defense costs.

© The Regents of the University of California

§7.295 F. Additional Handbook References

For additional material related to insurance in this handbook, see the following:

- California workers' compensation law (see §§4.350-4.399);
- bonds and insurance (see §§7.95-7.105);
- general contract provisions and issues, insurance (see §§7.209-7.216); and
- hazardous material (liability under the Resource Conservation and Recovery Act (RCRA) (42 USC §§6901-6992k) and the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or "Superfund") (42 USC §§9601-9675)) (see §§11.237-11.255).

© The Regents of the University of California

V. INDEMNITY AGREEMENTS AND BONDS

A. Introduction to Indemnification

§7.296 1. Nature of Indemnity

In a hold harmless or indemnity agreement, one party (the indemnitor) assumes the other party's (the indemnitee's) legal liability. This agreement operates independently from the indemnitor's insurance. A public entity enters into a contract with hold harmless or indemnity provisions when the public entity intends to indemnify a party to the contract or the public entity intends to be indemnified. Because most city attorneys find themselves dealing more with the latter, the discussion in §§7.296-7.320 will focus in this area.

© The Regents of the University of California

§7.297 2. Right to Seek Indemnification

As to the right to seek indemnification, the general law indicates that public entities not only possess powers expressly granted but also possess implied powers as are necessary or reasonably appropriate to the accomplishment of their express powers. The demand by the public entity for an indemnity agreement to hold the entity harmless has been held to be within the scope of the public entity's implied power and is not a contract of adhesion. *County of San Joaquin v Stockton Swim Club* (1974) 42 CA3d 968, 117 CR 300. See also 60 Ops Cal Atty Gen 59 (1977). Indemnity can arise either by an express indemnity agreement, by an implied contractual indemnity, or through the doctrine of equitable indemnity. Typically, the public entity will demand an express indemnity agreement as part of a contract.

© The Regents of the University of California

B. Express Indemnity Agreements

§7.298 1. Contract Principles Apply

Because an express indemnity agreement is considered a contractual agreement, contract law prevails in the interpretation of the indemnity agreement. See CC §2778; *Crawford v Weather Shield Mfg., Inc.* (2008) 44 C4th 541, 79 CR3d 721; see also *Hernandez v Badger Constr. Equipment Co.* (1994) 28 CA4th 1791, 1818, 34 CR2d 732. If an injury to the indemnitor's employee is involved, the indemnity agreement must be fully executed before the injury in order to trigger coverage. *Nielsen Constr. Co. v International Iron Products* (1993) 18 CA4th 863, 22 CR2d 497. The question whether an indemnity agreement covers a given case is based on the language and contents of the contract. *Crawford v Weather Shield Mfg., Inc., supra*. As with all contracts, ambiguities are construed against the drafter and, unless appropriate language is used, courts will interpret the language to provide general rather than strict indemnity coverage.

PRACTICE TIP: In thinking through the elements to consider in drafting an indemnity agreement, the city attorney may be assisted by the questions posed in §§7.313-7.320 relative to toxic and hazardous waste indemnity agreements.

© The Regents of the University of California

2. Negligence

§7.299 a. General Principles

The courts have generally allowed the indemnitee to indemnify itself from acts of negligence with several important exceptions. Under a general indemnity provision only passive negligence, not active negligence, will be covered.

© The Regents of the University of California

§7.300 b. Statutory Limitations

Construction contracts with provisions seeking to indemnify for sole negligence, willful misconduct, or the public entity's own active negligence are deemed void. CC §2782(a)-(b). See also Ins C §11580.04 (prohibiting agency from requiring insurance endorsement indemnifying for agency's active negligence relating to construction contract). The provisions of CC §2784.5 also prohibit indemnity for the willful misconduct or sole negligence of another in trucking or cartage contracts, except when the promisor directly supervises or controls the party at fault. For all design professional services contracts and amendments entered into on or after January 1, 2007, a public entity's right to express indemnification by the design professional will be strictly limited to claims that arise out of, pertain to, or relate to the negligence, recklessness, or willful misconduct of the design professional. CC §2782.8. "Public agency" is defined in the statute to specifically exclude the State of California. CC §2782.8. "Design professional" is defined to include licensed architects, landscape architects, professional land surveyors, and registered professional engineers. CC §2782.8.

PRACTICE TIP 1: The exact scope and effect of CC §2782.8 has yet to be tested in court. Areas of concern include whether a finding of negligence, recklessness, or willful misconduct must be made before the duty to indemnify will arise; whether the duty to indemnify includes the duty to defend; and whether the exclusion of the State of California can be seen as an acknowledgement that the statute addresses only local concerns and not matters of statewide concern, thus exempting charter cities from compliance if the statute conflicts with a city charter or municipal enactment.

PRACTICE TIP 2: When drafting design contracts, the city attorney may want to consider including a clause making obligations such as the duty to prepare design documents free from defects a contract requirement. This may help to bridge the gap between the designer's limited obligation to indemnify and claims brought against the owner for breach of contract or breach of the warranty of the correctness of the plans and specifications, when these claims may not rise to the level of professional negligence against the designer.

© The Regents of the University of California

§7.301 c. Passive Negligence

In instances when either a construction contract or a general indemnity clause in a non-construction contract exists, a public entity will only be indemnified for its passive negligence. A determination of the negligence as being active or passive revolves primarily around the facts and circumstances of the particular case. *Rossmoor Sanitation, Inc. v Pylon, Inc.* (1975) 13 C3d 622, 119 CR 449.

The distinction between whether negligence is active or passive is sometimes fine. In one instance, an indemnitee's negligence in its failure to discover the dangerous condition of its premises was determined to be merely nonfeasance of a legal duty and, as such, passive negligence. *Markley v Beagle* (1967) 66 C2d 951, 59 CR 809. However, in somewhat similar circumstances, the fact that an indemnitee had actual knowledge of the dangerous condition was determinative in classifying the indemnitee's negligence as active, thereby creating no right to indemnification under the general indemnity agreement. *Jiminez v Pacific Western Constr. Co.* (1986) 185 CA3d 102, 229 CR 575 (general contractor held to be actively negligent when its workers knew of dangerous condition of trench before the collapse of trench wall injuring and killing workers).

© The Regents of the University of California

§7.302 d. Active Negligence

Although special statutes apply to construction contracts and design professional service contracts, it is still necessary to understand the difference between active and passive negligence. In the non-construction context, the language of a general indemnification agreement excludes indemnification for the public entity's active negligence. Although the character of an indemnitee's negligence is ordinarily a question of fact for the jury, when its conduct has negligently created a condition that proximately causes injury, the question of active versus passive negligence can be decided as a matter of law. *Morgan v Stubblefield* (1972) 6 C3d 606, 100 CR 1. But see *Morton Thiokol, Inc. v Metal Bldg. Alteration Co.* (1987) 193 CA3d 1025, 238 CR 722 (noting that the intent of the parties should control).

PRACTICE TIP: City attorneys may wish to forego completely using a general indemnity provision in favor of a much more explicit clause providing indemnification for all types of negligence and/or strict liability. Case law appears to support the notion of even broader indemnification language to address mixed claims, when both the public entity and the indemnitor are negligent. In other words, it may be possible for the public entity to obtain indemnity for all claims save those arising from the sole negligence of the public entity. See *John E. Branagh & Sons v Witcosky* (1966) 242 CA2d 835, 51 CR 844; *C.I. Eng'rs & Constructors, Inc. v Johnson & Turner Painting Co.* (1983) 140 CA3d 1011, 189 CR 824 (indemnification provided to contractor when claims arising from negligence of both the subcontractor's employee and the contractor).

© The Regents of the University of California

§7.303 (1) General Versus Specific Indemnification Clauses

In non-construction or design services contracts, there are essentially two alternatives: either (1) rely on a general indemnity clause in the contract, or (2) draft an all-inclusive indemnification provision that specifically and unequivocally provides for indemnification for all acts caused by active negligence, passive negligence, and/or acts for which the public entity would be held strictly liable. If a party seeks to be indemnified for its own active negligence, or regardless of the indemnitor's fault, the contractual language must be particularly clear and explicit, and will be construed strictly against the indemnitee. *Prince v Pacific Gas & Elec. Co.* (2009) 45 C4th 1151, 1158, 90 CR3d 732.

© The Regents of the University of California

§7.304 (2) General Indemnification Clauses and Active Negligence

If a general indemnification provision is used, there will be many circumstances under which active negligence may be alleged, resulting in a lack of a duty of indemnification to the indemnitee. Active negligence includes when the indemnitee participates in some manner of conduct or omission that caused the injury, beyond the mere failure to perform a duty imposed by law. See *Morgan v Stubblefield* (1972) 6 C3d 606, 100 CR 1. Active negligence also includes instances when the indemnitee knew or acquiesced in the negligent conduct (see *King v Timber Structures, Inc.* (1966) 240 CA2d 178, 49 CR 414) or failed to perform some duty assumed by contract (see *MacDonald & Kruse, Inc. v San Jose Steel Co.* (1972) 29 C3d 413, 105 CR 725). See generally California Forms of Pleading and Practice, *Indemnity* §300.02[5] (Matthew Bender).

© The Regents of the University of California

§7.305 e. Accrual of Right to Indemnification

The right to indemnity under an express contract that agrees to hold the indemnitee harmless from a liability accrues when the indemnitee incurs such a liability. CC §2778(1). In contract, an agreement to hold the indemnitee harmless from a loss accrues only once the indemnitee pays on that loss. CC §2778(2).

PRACTICE TIP: From a practical standpoint, any indemnification disputes relating to express indemnity provisions should be addressed immediately after they arise in order to avoid a determination the indemnitor was in some way prejudiced by the lack of notice of the claim and/or not given an opportunity to defend the action. See *Eva v Andersen* (1913) 166 C 420, 137 P 16. Failure to give the indemnitor notice of a lawsuit brought against the indemnitee does not go to the indemnitee's right of action against the indemnitor, but it does change the burden of proof and imposes on the indemnitee the necessity of again litigating and establishing all actionable facts. See CC §2778(6). When drafting indemnification provisions, the right to indemnity should be stated so as to be triggered by either the occurrence of the liability, which usually occurs before the actual loss, or the loss.

© The Regents of the University of California

§7.306 f. Right to Defense Costs

Absent explicit language to the contrary, an express indemnification clause implies the right to a defense of the indemnitee, at the cost of the indemnitor. CC §2778(4). Whether the indemnitor is obligated to reimburse the indemnitee for its defense costs depends on the language of the express indemnification clause, supplemented by CC §2778(4), not on principles of insurance law that require the tendering of the indemnitee's defense. Nothing in CC §2778 requires the indemnitee to tender the defense. *City of Watsonville v Corrigan* (2007) 149 CA4th 1542, 58 CR3d 458. The duty to defend arises when there is a potential for indemnity and may exist even when coverage is in doubt and ultimately does not develop, whereas the duty to indemnify arises when an insured's liability is established. *Armstrong World Indus., Inc. v Aetna Cas. & Surety Co.* (1996) 45 CA4th 1, 52 CR2d 690.

Even if there is a dispute as to whether the indemnitee's negligence caused the loss, the actual determination of the defense duty does not wait until the end of the lawsuit because the duty to defend arises immediately when the lawsuit is brought against the indemnitee. *Crawford v Weather Shield Mfg., Inc.* (2008) 44 C4th 541, 79 CR3d 721. *Crawford* emphasizes the need for the defense language to clearly state the indemnitee's desire for an immediate defense although liability is not yet determined. 44 C4th at 557. The public entity may save having to expend funds to pay attorneys fees and costs on the indemnified matter by tendering the defense and indemnification of the claim to the indemnitor as soon as possible. Moreover, fees incurred in pursuing the indemnity claim will not be recoverable unless the contract so provides. *Otis Elevator Co. v Toda Constr. of Cal.* (1994) 27 CA4th 559, 32 CR2d 404. The filing of an original complaint, or a cross complaint in an existing action, against the indemnitor for a declaration of rights and duties, is acceptable. See *Roylance v Doelger* (1962) 57 C2d 255, 19 CR 7.

If the indemnitor refuses to defend and indemnify, the indemnitee may later sue for recovery of defense costs and sums paid in settlement; depending on the language of the agreement, the indemnitee need not prove that the indemnitor's acts were negligent or the predominate predominant cause of the loss. *Continental Heller Corp. v Amtech Mechanical Servs., Inc.* (1997) 53 CA4th 500, 61 CR2d 668.

© The Regents of the University of California

§7.307 g. Statute of Limitations for Enforcing Indemnity Agreement

The statute of limitations for filing an action arising out of a written indemnity agreement is 4 years. CCP §337(1). Also relevant whenever an action relating to a written indemnity agreement arises are the claim presentation requirements discussed in §§13.42-13.85. The claim presentation requirements can significantly affect when action must be taken.

© The Regents of the University of California

3. Intentional Acts

§7.308 a. Availability of Indemnification

The provisions of CC §1668 provide that all contracts that have for their object, directly or indirectly, to exempt anyone from responsibility for his or her own fraud, or willful injury to the person or property of another, or violation of law, whether willful or negligent, are against the policy of the law. The provisions of CC §1668 are not applicable to indemnity agreements. There is a public policy in favor of providing additional assurance through an indemnification agreement that the loss to the victim will be compensated. *State Farm Fire & Cas. Co. v Eddy* (1990) 218 CA3d 958, 267 CR 379 (insurance contract providing indemnity for injury resulting from transmission of venereal disease was enforceable under CC §1668).

© The Regents of the University of California

§7.309 b. Future Versus Past Acts

Indemnity agreements are subject to CC §§2773 and 2774. Those sections make a distinction between unlawful acts already committed and unlawful acts in the future. See *State Farm Fire & Cas. Co. v Eddy* (1990) 218 CA3d 958, 267 CR 379 (concerning the requirement of actual knowledge for CC §2773 to void indemnification for future acts). Indemnity for an act that is not a felony and has already been done is valid, even though the act was known to be wrongful at the time the indemnification provision was entered into. See CC §2774. See also *Lemat Corp. v American Basketball Ass'n* (1975) 51 C3d 267, 124 CR 388 (upholding an agreement by the American Basketball Association to indemnify member team for any liability arising out of team's efforts to sign basketball star Rick Barry from the National Basketball Association).

PRACTICE TIP: From a practical standpoint, it is unlikely that a public entity would be willing to indemnify another or be indemnified for an intentional act already committed. In most situations, an indemnification provision relating to intentional acts would only be useful to the public entity if it afforded broad coverage for the public entity for such acts in the future. Such a provision, however, is void under CC §2773; courts say such indemnification encourages illegal acts. See *Lemat Corp. v American Basketball Ass'n* (1975) 51 C3d 267, 124 CR 388.

© The Regents of the University of California

C. Implied Indemnity

§7.310 1. When Applicable

An implied right of indemnity may arise in a contract situation when it is determined that an express contractual indemnity is by its terms inapplicable to the factual circumstances but other contractual language brings indemnity into play. See *Bay Dev. Ltd. v Superior Court* (1990) 50 C3d 1012, 269 CR 720; *E.L. White, Inc. v City of Huntington Beach* (1978) 21 C3d 497, 146 CR 614.

© The Regents of the University of California

§7.311 2. Source of Obligation

In essence, implied contractual indemnity is a form of equitable indemnity. It rests on the principle that when one party agrees to do work for another, it is implied in the contract between the parties that the performing party has an obligation to do the work properly. See California Forms of Pleading and Practice, *Indemnity* §300.61[5] (Matthew Bender). As such, a good faith settlement by the indemnitor with the plaintiff will defeat the implied contractual indemnity claim just as it would any other equitable indemnity agreement. See *Bay Dev. Ltd. v Superior Court* (1990) 50 C3d 1012, 269 CR 720; see also CCP §877.6 (determination of good faith settlement with one or more joint tortfeasors or co-obligators).

PRACTICE TIP: The holding in *Bay Dev. Ltd. v Superior Court* (1990) 50 C3d 1012, 269 CR 720, suggests that a good faith settlement may also defeat any other claim that seeks the same relief as an implied indemnity claim. It is possible, therefore, that the only claim by a non-settling co-defendant that may survive a good faith settlement is the express indemnity provision. That being the case, any limitations on the types of losses that may be recoverable under a right of express indemnity need to be carefully considered, as those limitations may ultimately prevent recovery by the public agency in the event that it is the sole defendant remaining after a good faith settlement and dismissal by the other co-defendants.

PRACTICE TIP 2: The city attorney should not rely on a determination of implied contractual indemnity if he or she is able to place within the contract express indemnification provisions in favor of the public entity. If, however, such an express recitation of the right to indemnification is not in the contract, the city attorney should tender the defense and indemnification of the claim to the wrongdoer on the basis of implied contractual indemnity, particularly if the claim arises out of the failure of the wrongdoer to perform contracted-for services. The city attorney may want to match the city's documents and facts to the questions posed in the toxics context in §§7.315-7.320.

PRACTICE TIP 3: The city attorney should take care in drafting contracts, particularly those in which the public entity agrees to take responsibility for the maintenance of a certain location or perform a particular service. Parties to the contract may use that same contract to assert implied contractual indemnity against the public entity. *E.L. White, Inc. v City of Huntington Beach* (1978) 21 C3d 497, 146 CR 614.

© The Regents of the University of California

§7.312 D. Equitable Indemnity

The equitable indemnity doctrine as it relates to indemnity agreements is enveloped within the definition of implied contractual indemnity. Therefore, there will be no independent discussion in this regard. See 5 Levy, California Torts, ch 74 (Matthew Bender, 2005); 6 Witkin, Summary of California Law, *Torts* §§1357-1370 (10th ed 2005). See the claims presentation requirements discussed in §§13.42-13.85 relevant to the issue of equitable indemnity.

© The Regents of the University of California

E. Toxic and Hazardous Wastes

§7.313 1. Statutory Authority

The law covering indemnification agreements relating to toxic and hazardous wastes relies primarily on one statute. See CC §2782. This statute states that construction contracts that purport to indemnify public entities from their sole negligence, willful misconduct, or active negligence are void and unenforceable. A special exception exists for contracts with engineers and geologists whose services are in connection with hazardous materials evaluation and remedial actions. CC §2782.6. This exemption does not apply to public entities. CC §2782.6(f). Therefore, in contracting for toxic and hazardous wastes services, public entities will only be able to request indemnification for their own passive negligence. This makes it important to have the entity named in the contractor's insurance policy, if possible. Any contract clause that purports to indemnify public agencies by design professionals is unenforceable, except for claims arising from the design professional's negligence, recklessness, or willful misconduct. CC §2782.8. Cities should pay attention to the potential impact of this new legislation.

© The Regents of the University of California

§7.314 2. Questions to Consider

Regardless of the legal limits on seeking indemnification for toxic and hazardous wastes, the city attorney, when dealing with such concerns, should be particularly careful not to expose the public entity to indemnification for such liability. Claims involving toxic and hazardous wastes usually involve substantial costs. The issues discussed in §§7.315-7.320 should be addressed in indemnity agreements covering toxic and hazardous wastes.

© The Regents of the University of California

§7.315 a. Covered Parties

Which party is providing indemnity? The indemnitor is not automatically obligated to indemnify the public entity or any other third party; the obligation is only to the parties within the indemnification contract.

© The Regents of the University of California

§7.316 b. Identity of Beneficiary

Which party is the beneficiary of the indemnity? The public entity must be certain that, in addition to itself, all employees, officers, and/or directors are covered, as well as all agents, contractors, or subcontractors hired by the indemnitee. All subcontractors hired by the original indemnitor should be asked also to sign the indemnity provision of the contract.

© The Regents of the University of California

§7.317 c. Specific Acts Covered

What specific acts are intended to be covered? When a public entity enters into an indemnity agreement with a third party, such as a hazardous waste cleanup crew, it should ensure that it is only indemnifying for the claims it intended versus such other claims as nonpayment of wages by the indemnitee.

© The Regents of the University of California

§7.318 d. Types of Acts Covered

What types of acts are covered? In a construction contract, indemnity provisions attempting to cover active negligence or intentional acts are void.

© The Regents of the University of California

§7.319 e. Impact of Insurance

Many public entities maintain self-insured coverage only up to a certain point. Consequently, if the indemnitor becomes judgment-proof or insolvent, the public entity should have a backup plan in which its own insurance coverage would be triggered.

© The Regents of the University of California

§7.320 f. Control of Defense and Settlement

Once a public entity tenders defense and indemnification of a claim to the indemnitor, it should continue to actively supervise the claim in order to ensure that the defense is being handled properly; ensure that the attorneys for the indemnitor do not attempt to direct the investigation so as to focus on characterizing the public entity's wrongful acts, if any, as active or intentional and therefore not indemnified; and to prevent the settling of a claim against the public entity when such settlement would have adverse public policy consequences.

I. PROPERTY ACQUISITION

§8.1 A. Legal Authority

Cities are statutorily authorized to acquire property in any one of the following alternative ways: eminent domain, grant, purchase, lease, gift, devise, contract, "or other means." Govt C §§37350, 37350.5; CCP §1240.130. The California State Constitution and several statutes deal directly with the requirements for property acquisitions, including among others Cal Const art I, §19; the Eminent Domain Law (CCP §§1230.010-1273.050); relocation assistance statutes (Govt C §§7260-7277); the California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177); and laws relating to environmental contamination.

For further discussion of topics covered by this chapter, see generally Condemnation Practice in California (3d ed Cal CEB 2005); California Land Use Practice (Cal CEB 2006); California Easements and Boundaries: Law and Litigation (Cal CEB 2008).

© The Regents of the University of California

§8.2 B. Common Prerequisites for Acquisition by Purchase or by Eminent Domain

The two most common means of acquiring real property are by negotiated agreements with owners and by eminent domain, both of which are acquisitions by purchase. Generally, the issues to be considered before acquisition by either of these means are the same. However, the procedures to be followed may be different. This chapter will first discuss the common issues and permissible requirements for negotiated purchases, and then the unique procedures of eminent domain that must be followed if purchase cannot be negotiated.

© The Regents of the University of California

§8.3 1. Compliance With Statutory and Regulatory Guidelines

Whether acquisition is by negotiated purchase agreement or by eminent domain, the city must, to the greatest extent practicable, adhere to the applicable statutory guidelines described in Govt C §§7260-7277. Additional implementing guidelines are described in 25 Cal Code Regs §§6000-6198. Projects receiving federal funds are subject to both federal acquisition and relocation guidelines and the state guidelines. See 42 USC §§4621-4638; *United Auto Workers, Local 887 v Department of Transp.* (1993) 20 CA4th 1462, 25 CR2d 290. The state guidelines constitute an extensive statutory scheme and are treated by the courts as mandatory requirements rather than mere guidelines, even though Govt C §7274 suggests otherwise. See *City of San Jose v Great Oaks Water Co.* (1987) 192 CA3d 1005, 237 CR 845.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/8 Public Property/§8.4 2. Conformity With General Plan

§8.4 2. Conformity With General Plan

If real property is being acquired either by negotiated purchase or by eminent domain for a proposed public improvement, the location, purpose, and extent of the acquisition must have been submitted to and reported on by the city planning agency as to conformity with the adopted general plan. Govt C §65402.

© The Regents of the University of California

§8.5 3. Preliminary Work

Regardless of whether acquisition is by negotiation or eminent domain, preliminary work should be done to ascertain the property interests to be acquired, including their characterization as, *e.g.,* fee, permanent easement, or temporary construction easement, and to provide their legal descriptions. The areas of the property being acquired ("part taken") and of the larger parcel, if any, from which it is being taken ("larger parcel") should be computed, and a suitable plot plan showing both the part taken and the larger parcel should be prepared for use by the appraiser. The plot plan is also needed in the event a complaint is subsequently filed. An integral part of the appraisal map is the location of existing improvements and the relationship of those improvements to the subject acquisition and existing property lines.

© The Regents of the University of California

§8.6 4. Environmental Review Under CEQA

The acquisition of property by a public agency is a project within the meaning of the California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177). The steps required under CEQA must be completed before the decision to acquire. Pub Res C §21065; 14 Cal Code Regs §15004(b)(1); *Burbank-Glendale-Pasadena Airport Auth. v Hensler* (1991) 233 CA3d 577, 284 CR 498. But see *Stand Tall on Principles v Shasta Union High Sch. Dist.* (1991) 235 CA3d 772, 777, 1 CR2d 107 (appellate court upheld school district making offer to purchase property "contingent upon completion of the EIR process and final state approval"). There are also several categorical exemptions under CEQA that apply to certain types of land acquisitions. See 14 Cal Code Regs §§15304-15305, 15313, 15316, 15325-15327.

© The Regents of the University of California

§8.7 5. Title Search

The public entity will need a litigation guarantee or preliminary title report to ascertain the parties to whom an offer must be made and, in the event of a subsequent eminent domain action, the parties to be named. The litigation guarantee or title report should cover both the interests being acquired and the larger parcel, if any, from which these interests are being carved. A litigation guarantee protects the public entity against failure to name, in a subsequent eminent domain action, persons who have interests of record in the subject property other than those identified in the litigation guarantee, up to the face amount of the guarantee. A preliminary title report contains similar information, but provides no guarantee or insurance. A litigation guarantee is therefore a necessary prerequisite to filing an eminent domain action. For a negotiated purchase, a preliminary title report may be used instead of a litigation guarantee because the closing of the purchase will be made contingent on the issuance of a title policy, usually through an escrow.

© The Regents of the University of California

§8.8 6. Appraisal

The state guidelines generally require that real property be appraised before negotiations for purchase begin. Govt C §7267.1(b). Minor exceptions are enumerated and provision is made for waiver of an appraisal of property with low market value. Govt C §§7267, 7267.1(b). An appraisal to be used in eminent domain proceedings must meet the valuation requirements of CCP §§1263.010-1263.770.

Public agencies must offer to pay the reasonable costs, not to exceed $5000, of an independent appraisal for the property owner. CCP §1263.025(a). The offer is to be made at the time of the offer to purchase "under a threat of eminent domain" (CCP §1263.025(a)), which means upon the filing of an eminent domain action, after adoption of a resolution of necessity authorizing condemnation, or following a statement that the public entity might take the property by eminent domain (CCP §1263.025(b)). The appraisal must be performed by a state-licensed appraiser. CCP §1263.025(a).

PRACTICE TIP 1: An appraisal that does not meet Code of Civil Procedure valuation requirements is legally adequate if the property is acquired by a negotiated purchase. A more comprehensive (and more expensive) condemnation appraisal is required if negotiations are unsuccessful and eminent domain proceedings become necessary. The more comprehensive appraisal should be prepared at the outset unless it is reasonably certain that purchase can be negotiated (in which case the main purpose of the appraisal is to provide assurance that the purchase will not result in a gift of public funds). If a less comprehensive appraisal is used in expectation that the purchase will be negotiated and such negotiations fail, it will be necessary to obtain a condemnation appraisal and start the entire process again, complying with all prerequisites for eminent domain.

PRACTICE TIP 2: Appraisers typically require 4 to 12 weeks to complete an appraisal from the time it is ordered. The appraiser selected must be familiar with the rules of valuation applicable in eminent domain cases, if that is the type of appraisal ordered. Cities should choose an appraiser as they would any other expert, taking care to inquire about potential conflicts. The engineering data (legal descriptions, plot plans, and computed areas) must be supplied to the appraiser to enable the appraiser to begin this work. An adequate appraisal map is necessary to begin the appraisal.

PRACTICE TIP 3: Selection of a qualified appraiser is critical to the acquisition process. Early involvement by the city attorney and, if necessary, special counsel, is critical. For a summary of considerations and helpful practice tips, see Rypinski, Eminent Domain: A Step-by-Step Guide to the Acquisition of Real Property at 31-46 (Solano Press Books 2002).

© The Regents of the University of California

§8.9 7. Notice of Intent to Appraise

The California Relocation Assistance and Real Property Acquisition Guidelines (25 Cal Code Regs §§6000-6198) provide that a public entity must give the owner written notice of its decision to appraise real property being considered for acquisition for a public use. See 25 Cal Code Regs §§6184, 6188. Generally, the owner of the property must be given an opportunity to accompany the appraiser during the inspection of the property. See Govt C §§7267-7267.1; 25 Cal Code Regs §6188.

Premature statements by a public agency regarding an intent to acquire private property may result in subsequent claims by property owners for unreasonable precondemnation conduct by the agency. *Klopping v City of Whittier* (1972) 8 C3d 39, 104 CR 1.

PRACTICE TIP: Agencies with the power of condemnation frequently appraise properties for planning and other purposes; the fact that property is being appraised does not necessarily mean the agency involved intends to acquire that property. Accordingly, any statements issued in this regard should be prepared carefully and reviewed. This includes statements made by relocation consultants and other persons who are acting as agents of the public agency and whose statements can be legally attributed to the public agency. The agency should state in the notice of appraisal that the notice is not a notice to vacate the property nor a notice that the property will be acquired. Additionally, this notice does not establish eligibility for relocation payments or other relocation assistance.

© The Regents of the University of California

§8.10 8. Environmental (Contamination) Assessment

Before acquiring property, a public agency must satisfy itself that the property does not contain environmental contamination or, if it does, the agency must determine the nature and extent of such contamination. The assessment should be made before making the offer to purchase, or the offer may be contingent on a satisfactory assessment.

© The Regents of the University of California

§8.11 a. Purpose of Assessment

Federal and state laws relating to contaminated properties impose liability without fault for cleanup costs on the present and former owners of the property. The public agency should perform a preliminary assessment on the real property before making the decision to acquire it. The purpose of such assessment is to uncover indicia that contamination may exist at the site. Contamination may significantly affect appraisal value.

© The Regents of the University of California

§8.12 b. Further Assessment

If the preliminary contamination assessment indicates contamination and the agency still wishes to consider acquiring the property, a further assessment should be performed to determine the nature and extent of the contamination. Property owners normally will allow entry onto their property for this purpose (and other customary preacquisition purposes, such as appraisals) as a matter of courtesy. If the owner is one of the rare owners who does not, CCP §§1245.010-1245.060 provide the procedure for obtaining an order for such entry.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/8 Public Property/§8.13 c. Consequences of Failing to Perform Assessment

§8.13 c. Consequences of Failing to Perform Assessment

Acquiring real property without performing the appropriate investigations beforehand can lead to the agency's incurring liability for cleanup costs in excess of the value of the property. See Clean Water Act of 1977 (33 USC §§1251-1387); Porter-Cologne Water Quality Control Act (Wat C §§13000-13999.19); Health & S C §§25360-25367. The costs saved by not properly investigating the possibility of contamination are usually not worth the risks associated with the subsequent discovery of contamination.

PRACTICE TIP: It is the policy of Caltrans to acquire the property at fair market value, less the cleanup cost.

© The Regents of the University of California

§8.14 9. Relocation Assistance

Relocation obligations for a city arise whenever residents or businesses are displaced as a direct result of eminent domain or certain other public projects or programs. Govt C §§7260-7277. Relocation payments to businesses in lieu of a payment for moving expenses (for which a business must show a loss of patronage) cannot, however, duplicate the payments for loss of goodwill provided for in CCP §1263.510. All public agencies must adopt relocation rules and regulations that conform to relocation regulations adopted by the state and federal government, when applicable. Govt C §7267.8.

Relocation benefits arise under federal and state redevelopment law when displacement occurs as a result of code enforcement that is a part of a city's redevelopment plans and is funded with redevelopment monies. See *Price v City of Stockton* (ED Cal 2005) 394 F Supp 2d 1256, 1264. See Govt C §§7260(c)(1)(A)(ii) and 7262 regarding when a public entity's actions regarding rehabilitation, demolition, or other displacing activities may trigger relocation obligations.

The state law governing relocation is found in Govt C §§7260-7277 and the regulations are found in 25 Cal Code Regs §§6000-6198. The federal law is found at 42 USC §§4601-4638. The federal regulations are found at 49 CFR pt 24; these regulations apply only when federal money is involved.

PRACTICE TIP: If federal monies are used for a project, federal relocation rules must be followed. However, if only state funds are used for the project, only California relocation laws and regulations must be followed. If there is a mixture of both state and federal funds, federal relocation rules must be followed. Govt C §§7267.8(b); 25 Cal Code Regs §§6018; *United Auto Workers, Local 887 v Department of Transp.* (1993) 20 CA4th 1462, 25 CR2d 290.

© The Regents of the University of California

§8.15 a. What Triggers Relocation Obligations?

What constitutes a "program" or "project" triggering relocation obligations is not always clear. A typical change in land use regulation, such as a zone change, would likely not trigger relocation obligations. However, a city that initiates a very aggressive program to achieve zoning compliance in a short period of time may be subject to relocation requirements. Likewise, a city exercising its powers solely for health and safety reasons would likely not trigger relocation obligations. However, if a city carried out code enforcement in a certain area as part of a program to rehabilitate or redevelop an area to bring about rehabilitation or other improvements to the area, the code enforcement actions may be subject to relocation requirements. Compare *Price v City of Stockton* (9th Cir 2004) 390 F3d 1105, 1116, with *Price v City of Stockton* (ED Cal 2005) 394 F Supp 2d 1256, 1264.

If displacement occurs as a result of a redevelopment agency disposition and development agreement (DDA) or owner participation agreement (OPA), relocation obligations would arise. (Although under an OPA a redevelopment agency is not acquiring property, the agency usually enters into an OPA to ensure that the owner proceeds with a project and to assist in the development of the property.) The OPA makes the project possible and causes the displacement of the tenants, if any. Therefore, the redevelopment agency would be responsible for relocation obligations. The payment of these obligations can be part of the terms negotiated with the developer.

PRACTICE TIP: Premature statements by a public agency bearing on the agency's intent to acquire private property may result in subsequent claims by property owners of unreasonable precondemnation conduct by the agency. *Klopping v City of Whittier* (1972) 8 C3d 39, 104 CR 1. Relocation consultants are agents of the public agency. Therefore, keep in mind the fact that a relocation consultant's statements regarding the public agency's intent to acquire private property may end up being attributed to the public agency in a claim for damages arising out of unreasonable precondemnation conduct

© The Regents of the University of California

§8.16 b. Advisory Assistance

A governmental agency must provide assistance to and advise a "displaced person," as defined in Govt C §7260(c), of his or her rights regarding relocation. Typically, this advice is provided through contracts with various relocation experts. Govt C §§7261, 7261.5.

© The Regents of the University of California

§8.17 (1) Role of Relocation Representative

When carrying out the relocation advisory program, the public agency's relocation representative should deliver and explain in person the public agency's relocation program and the written relocation information to persons to be displaced. The 'relocation representative should be prepared to spend as much time as necessary at this first meeting with the displacees, as it will be the foundation of the public agency's and the displacees' relationship throughout the entire relocation process. It is key to a successful relocation program that the persons to be displaced understand and feel that although the public agency's relocation representative is hired by the public agency, he or she has a responsibility to the displacees to ensure they are made aware of and receive all of the benefits and assistance to which they are entitled under the law. By the end of this first meeting, displacees should feel that they know what is going on, when and how they will be affected, and how they will be assisted. Ideally, they will feel comfortable contacting the relocation representative if they have any questions or need assistance.

© The Regents of the University of California

§8.18 (2) Representative's Understanding of Displacee's Needs

In addition, the public agency's representative should have a clear understanding of the type of replacement dwelling that is needed to meet the "comparable replacement housing" test (including size of unit, special needs, and affordability), or the location preferences and special needs of a business. Based on the first interview, the public agency's representative should also be able to estimate the relocation costs to the public agency.

© The Regents of the University of California

§8.19 (3) Representative's Availability

The person carrying out the public agency's relocation program should not only be knowledgeable about the relocation benefits and assistance requirements in the state law and guidelines, but should also be readily available to displacees to respond to their questions and provide assistance in a timely manner. The difference between a displacee finding a replacement dwelling and being able to obtain it sometimes hinges on how quickly he or she can get a deposit to the landlord to hold the unit, which is often contingent on how quickly the public agency can process a displacee's claim and get the money to him or her.

© The Regents of the University of California

§8.20 c. Relocation Plans

A public agency must prepare a detailed and specific "relocation plan" before proceeding with the program or project that will cause displacement, if there is a significant amount of non-residential displacement or more than 15 residential displacements. 25 Cal Code Regs §6038. Also, a redevelopment agency must include a general method or plan for relocation in its "report to city council" during the process to adopt and amend a redevelopment plan. Health & S C §33352(f). See *Gonzales v City of Santa Ana* (1993) 12 CA4th 1335, 16 CR2d 132.

© The Regents of the University of California

§8.21 d. Comparable Replacement/Last Resort Housing

In general, no residential displaced person may be required to move until a comparable replacement dwelling is provided. Govt C §7261(c)(4). "Comparable replacement dwelling" is defined in Govt C §7260(i).

If a program or project cannot be timely implemented because no comparable replacement dwelling is available, the public agency can provide last resort housing by either constructing comparable replacement housing or expending funds for relocation over and above what it otherwise may be authorized to expend for such relocation. Govt C §7264.5.

© The Regents of the University of California

§8.22 e. Relocation Payments

The following is a brief summary of relocation benefits to which an eligible displaced person is entitled. See Govt C §§7262-7265.4; 25 Cal Code Regs §§6080-6114. Relocation benefits are all subject to individual needs determined on a case-by-case basis.

Residential owner/occupants are entitled to the following:

- All moving costs paid (within 50 miles);
- Up to $22,500 in addition to property purchase price, to assist with down payment on replacement unit or other associated costs;
- Storage of personal property for up to 1 year; and
- Utility connection charges paid.

Residential tenants are entitled to the following:

- All moving costs (within 50 miles);
- Up to $5250 for rent differential or down payment;
- Storage of personal property for up to 1 year; and
- Utility connection charges paid.

Business owners/tenants are entitled to all actual moving costs under Govt C §7262(a), including but not limited to:

- Transportation of cartage within 50 miles;
- Stationery replacement costs, *e.g.,* letterhead, business cards, invoices;
- Reconnection of machinery/equipment and cost of licenses/permits for reestablishment;
- Up to $1000 for lodging/transportation costs while searching for replacement site;
- Up to $10,000 to reestablish the business;
- Storage of personal property/equipment for up to 1 year;

In lieu of the above actual moving costs, a payment of not less than $1000 nor more than $20,000 may be made to a business owner or tenant based on average annual net earnings subject to certain specific eligibility criteria. Govt C §7262(c).

© The Regents of the University of California

§8.23 f. Duplication of Payments

Relocation payments should not be made for items that the displacee has or will be compensated for as part of the public agency's acquisition costs. For instance, a public agency may acquire certain fixtures and equipment as part of acquisition of the real property, such as attached bookshelves or a restaurant's built-in kitchen equipment. Usually these items are still in the building when the displacee is obtaining moving bids, and unless there is good coordination between the public agency's acquisition representative and relocation representative, the moving bids will include the disconnection, moving, and reconnection of the shelves or equipment. Many times the public agency cannot sell the fixtures and equipment and, therefore, authorizes the displacee to remove them. However, in this case it does not mean that the public agency should be paying for their removal, as this would be considered a duplication of payments.

Another example is the relocation payment that a business may elect to receive in lieu of being paid for their actual moving costs. To be eligible for this payment, in addition to other requirements, a business must be able to show a "loss of patronage." If the business claims a "loss of goodwill" payment under the eminent domain law, this payment is already compensating the business for "loss of patronage." Therefore, this relocation payment should not be made, or the amount paid for loss of goodwill should be reduced.

© The Regents of the University of California

§8.24 g. Claim Procedure

Before any relocation payment can be made, a claim for such payment must be made. Such claim must be presented to the public agency within 18 months after the date on which the relocatee receives final payment for the real property acquired or the date the property is vacated, whichever is later. 25 Cal Code Regs §6088.

PRACTICE TIP: The public agency should process relocation payments as soon as possible after the necessary claim forms have been filed. The public agency should make sure that its accounting systems for relocation payments are set up to enable the relocation representative to have checks drawn up immediately. Prompt ability to pay can be essential to a displacee's ability to secure a replacement location. Landlords and real estate agents have no obligation to hold a property that is available for rent or sale without the appropriate deposit, and displacees often need their relocation monies for the deposit.

© The Regents of the University of California

§8.25 h. Grievance Procedure

A relocatee disputing a determination regarding eligibility or relocation benefits paid has a right to have such determination reviewed by the public entity. If a redevelopment agency has appointed a relocation appeals board, the city, by ordinance, may designate such board to hear all appeals regarding relocation that occur within the city. Govt C §7266; Health & S C §33417.5.

© The Regents of the University of California

10. Acquisition Offer

§8.26 a. Offer When Eminent Domain Contemplated

When a public agency contemplates the acquisition of real property by eminent domain, the agency must establish an amount that it believes to be just compensation for the property based on the agency-approved appraisal of the fair market value of the property, and it must make an offer to the owner or owners of record to acquire the property for the full amount established as just compensation unless the owner cannot be located. Govt C §7267.2(a).

© The Regents of the University of California

§8.27 (1) Statement of Basis for Offer

In all cases, the property owner is entitled to a written statement and summary of the basis for the amount established as just compensation. The statement and summary must include specific valuation information. Govt C §7267.2(b). In the case of owner-occupied residential property of four dwelling units or less, the property owner must also be provided with an opportunity to review the appraisal on request. The agency may, but is not required to, satisfy the written statement, summary, and review requirements by providing the owner with a copy of the appraisal report. Govt C §7267.2(c).

© The Regents of the University of California

§8.28 (2) Statutory Exceptions

Under the statutory guidelines, the public agency may acquire the property for less than the amount it believes to be just compensation, when all of the following occur (see Govt C §7267.2):

- The owner has directly offered the property to the acquiring agency for a specified price before any negotiations have taken place with the acquiring agency, or when the owner has offered the property to the general public at a specific advertised price which was set no more than 6 months before, and is still available at, the time that the acquiring agency initiates contact with the owner concerning the proposed acquisition;
- The acquiring agency offers the exact amount for which the property is being offered by the owner; and
- No federal funds are involved in the project.

© The Regents of the University of California

§8.29 (3) Lessees

Settlement with the fee owner of the real property does not always cover the compensable interest of lessee(s). Lessees are entitled to receive an offer for the value of trade fixtures and equipment. See CCP §§1263.205, 1263.210.

© The Regents of the University of California

§8.30 b. Offer When Eminent Domain Not Contemplated (Negotiated Purchase)

An offer in the full amount of an appraisal is required only when a public agency would exercise its power of eminent domain if a negotiated purchase cannot be achieved. A negotiated purchase may thus be made at less than the agency's appraised value. Govt C §7267.2; *Melamed v City of Long Beach* (1993) 15 CA4th 70, 18 CR2d 729. But see 25 Cal Code Regs §6182 (interpreting Govt C §§7260-7277 as requiring an appraisal and any offer in the full amount of the agency's determination of just compensation before initiating negotiations).

© The Regents of the University of California

11. Acquisition by Eminent Domain

§8.31 a. Limitations on Use of Eminent Domain Under Homeowners and Private Property Protection Act

Proposition 99, the Homeowners and Private Property Protection Act, approved by the voters on June 3, 2008, amended Cal Const art I, §19 in response to the decision of the United States Supreme Court in *Kelo v City of New London* (2005) 545 US 469, 162 L Ed 2d 439, 125 S Ct 2655.

Under the Homeowners and Private Property Protection Act, a redevelopment agency is prohibited from using eminent domain to acquire a single-family home (including a condominium) for the purpose of transferring the property to another private person or business, unless any of the following conditions apply (Cal Const art I, §19):

- The property owner does not live in the home, or has lived there for less than 1 year;
- The property is being acquired for a public work or improvement; or
- The property is being acquired to:
- Abate a nuisance;
- Protect public health and safety;
- Prevent serious criminal activity;
- Respond to an emergency; or
- Remedy environmental contamination that poses a threat to public health and safety.

On acquisitions by redevelopment agencies, see §§5.301-5.439.

© The Regents of the University of California

§8.32 b. Compliance With CEQA

Compliance with the California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177) is a precondition of the institution of eminent domain proceedings. *City of Stockton v Marina Towers LLC* (2009) 171 CA4th 93, 108, 88 CR3d 909. See also 14 Cal Code Regs §15004(b)(1).

© The Regents of the University of California

§8.33 c. Setting Just Compensation

If acquisition is to be by eminent domain, the setting of just compensation is required. The city council approves the appraisal of the property and sets an amount it believes to be just compensation for the interests to be acquired. Govt C §§7267, 7267.2. Note that as with eminent domain actions generally, the Outdoor Advertising Act (Bus & P C §§5200-5486) provides that fair and just compensation must be paid when removal of on premises advertising displays is required. Bus & P C §5412. For a discussion of the Outdoor Advertising Act, including amortization procedures that may be used in lieu of compensation in certain circumstances, see §§9.137-9.145.

© The Regents of the University of California

§8.34 (1) Disclosure

The authority to negotiate or litigate just compensation is normally granted in closed session. Govt C §54956.8 (real property negotiations), §54956.9 (litigation). The amount set as just compensation need not be disclosed publicly at this stage. The appraisal is exempt from disclosure under the Public Records Act (Govt C §§6250-6276.48). Govt C §6254(h). When the subject property is owner-occupied residential property containing no more than four residential units, the homeowner-occupier is, on request, entitled to review a copy of the appraisal after the written pre-acquisition offer has been made. Govt C §7267.2(c).

© The Regents of the University of California

§8.35 (2) Extent of Compensation

The compensation must cover the real property interests to be acquired (land and improvements), severance damages (if any), and, in the case of business premises, fixtures, equipment, and in certain circumstances, inventory of the business. Hypothetical future property rights however, are not compensable interests. *San Diego Metro. Transit Dev. Board v Handlery Hotel* (1999) 73 CA4th 517, 86 CR2d 473. Tenants also may have compensable interests under their leaseholds and/or ownership of trade fixtures and equipment. See *City of Vista v Fielder* (1996) 13 C4th 612, 54 CR2d 861.

© The Regents of the University of California

§8.36 d. Precondemnation Offer

If acquisition is to be by eminent domain, a written offer to acquire the property that complies with Govt C §7267.2 must be made. Valuation must be in accordance with CCP §§1263.010-1263.770. The offer must comply with requirements of law; the form of the offer should be reviewed by counsel before it is sent. The offer must contain a statement of, and summary of the basis for, the amount established as just compensation. Govt C §7267.2(b). The required contents of the written statement and summary are set forth in Govt C §7267.2(b).

When the property involved is owner-occupied residential property with no more than four residential units, the homeowner, on request, must be allowed to review a copy of the appraisal on which the offer is based. Govt C §7267.2(c). The public entity may satisfy the Govt C §7267.2 written statement, summary, and review requirements by providing the owner a copy of the appraisal. Govt C §7267.2(c).

At the time of making the written offer, the public entity must also provide the property owner with an informational pamphlet outlining the eminent domain process and the property owner's rights under the Eminent Domain Law. Govt C §7267.2(a)(2). See 25 Cal Code Regs §6188 for a list of items to be considered for inclusion in the informational pamphlet.

In addition, at the time of the offer, the public entity must offer to pay the reasonable costs of an independent appraisal ordered by the property owner, not to exceed $5000. CCP §1263.025(a).

© The Regents of the University of California

§8.37 (1) Conditional Offer

The offer may be conditioned on the city council's ratification of the offer, for example by the execution of a contract of acquisition. The Eminent Domain Law (CCP §§1230.010-1273.050) also does not prohibit conditioning the offer on other matters, such as the absence of soil contamination. This procedure, however, does not obviate the requirement that the city council set the just compensation before making the offer. Govt C §§7267, 7267.2.

© The Regents of the University of California

§8.38 (2) Specific Contents of Written Statement Accompanying Offer

Under 25 Cal Code Regs §6182(d), the written statement accompanying the offer must include the following six items:

(1) A general statement of the public use for which the property is to be acquired.

(2) A description of the property to be acquired and of the interest (*e.g.,* fee, permanent easement, temporary construction easement) to be acquired. The preferred procedure is to include the legal description of the interests to be acquired.

(3) An inventory of buildings, structures, fixtures, and other improvements.

(4) A statement that the amount offered:

(a) Is the full amount that the public entity believes to be just compensation for the property taken;

(b) Is not less than the approved appraisal of the fair market value of the property taken;

(c) Does not include any increase and is not reduced by any decrease in the value of the property caused by the public improvement for which the property is being acquired; and

(d) Does not reflect or include any relocation assistance and payments or other benefits that the owner may be entitled to receive.

(5) If the real property is a portion of a larger parcel, an apportionment of the total estimated just compensation for the partial acquisition between the value of the property being taken and the amount of damage, if any, to the remainder of the larger parcel from which such property is taken. This analysis must include a discussion of benefits, if any, relied on by the appraiser to offset severance damages. See Govt C §7267.2(b)(3).

PRACTICE TIP: Consult with your appraiser to verify the appraiser is not relying on the old rule concerning "special" benefits. Some appraisers practicing eminent domain valuation still refer to offsets against severance damages as special benefits. There is no longer a distinction between special and general benefits. *Los Angeles County Metro. Transp. Auth. v Continental Dev. Corp.* (1997) 16 C4th 694, 66 CR2d 630.

(6) If a business is located on the property, the statement must include an "indication" of the amount of compensation for loss of goodwill. 25 Cal Code Regs §6182(d)(6). See also 25 Cal Code Regs §6182(b)(2), (c)(3), and (e). In connection with compensation for loss of goodwill, the offer package should also include a copy of CCP §1263.510. See 25 Cal Code Regs §6182(b)(2), (e). A public agency is obligated to compensate any business located on the property for loss of business goodwill, whether the owner of that business also owns the real estate or merely has a leasehold right. *Chhourr v Community Redev. Agency of Buena Park* (1996) 46 CA4th 273, 53 CR2d 585.

PRACTICE TIP: At the offer stage, loss of goodwill can only be assessed with the business owner's cooperation by providing, *e.g.,* financial statements and tax returns. It is therefore usually impractical to make a specific offer for loss of goodwill at this stage. See Govt C §7267.2; 25 Cal Code Regs §6182.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/8 Public Property/§8.39 e. Relocation Information to Occupants

§8.39 e. Relocation Information to Occupants

The public agency must inform persons eligible for relocation benefits within 60 days following the initiation of negotiations as to the availability of relocation benefits and the procedures for obtaining those benefits. Govt C §7267.8; 25 Cal Code Regs §§6006, 6040. The "initiation of negotiations" has been interpreted to mean the date the offer to acquire is made to the owner. 49 CFR §24.2(15); 25 Cal Code Regs §6008(n). For regulations governing relocation assistance, see §8.14.

PRACTICE TIP: Providing relocation assistance can be a time-consuming task. The relocation assistance process should be started early in the acquisition process.

© The Regents of the University of California

§8.40 f. Precondemnation Negotiations

The offer should give the owner a reasonable time to respond, usually 2 to 4 weeks. If the owner requests it, and if the agency's schedule permits, this time may be extended. To the greatest extent practicable, condemning agencies must make every reasonable effort to acquire real property expeditiously by negotiation. Govt C §§7267-7267.1. No firm rules exist on how long an agency should negotiate or how much it can pay for the property. The purchase price cannot be less than the amount of the approved appraisal once the resolution of necessity has been adopted. *Melamed v City of Long Beach* (1993) 15 CA4th 70, 18 CR2d 729. It cannot be so high as to constitute a gift of public funds. Cal Const art XVI, §6; *People v Giumarra Farms, Inc.* (1971) 22 CA3d 98, 105, 99 CR 272. Reasonableness under all the circumstances is probably the best test.

© The Regents of the University of California

§8.41 g. Notice of Hearing on Proposed Adoption of Resolution of Necessity

If the public entity does not succeed in acquiring the property by negotiation, a notice of hearing on the proposed adoption of a resolution of necessity must be sent to the owners of the property as shown on the last equalized county assessment roll. CCP §1245.235. The notice must state that owners who wish to be heard on the issues identified in CCP §1240.030, including issues of public interest and necessity as described in the notice must file a request to appear and be heard. Such a request must be filed within 15 days after the notice is mailed. CCP §1245.235(b)(3).

The notice of hearing must contain certain information specified by the Eminent Domain Law. In addition, the notice should state that the agency's compliance with the Relocation Assistance Act is an issue at the hearing. See *People ex rel Dep't of Transp. v Cole* (1992) 7 CA4th 1281, 9 CR2d 750. Failure to object to a statement of valuation at hearing waives objection of noncompliance with Govt C §7267.2. Failure to assert objections at the hearing will result in waiver of certain rights. See chap 13 on exhaustion of administrative remedies.

PRACTICE TIP: It is recommended that the notice lay out the issues to be addressed in detail to demonstrate that the owner was put on notice.

© The Regents of the University of California

§8.42 h. Hearing on Proposed Adoption of Resolution of Necessity

A hearing is held on the proposed adoption of a resolution of necessity, authorizing the filing of an action in eminent domain. If any owners have filed a timely request to be heard, they are entitled to be heard on the issues of public use and necessity. The resolution enjoys a conclusive presumption as to the findings made therein. CCP §§1240.030, 1245.235, 1245.250.

PRACTICE TIP: Some agencies have time limits for speakers. Agencies should consider waiving time limits for an owner wishing to speak about the facts related to the acquisition of his or her property. Allowing the aggrieved owner the opportunity to present all facts before a decision is made supports the presumption.

© The Regents of the University of California

§8.43 i. Adoption of the Resolution of Necessity

Unless a greater vote is required by statute, charter, or ordinance, the resolution of necessity requires a two-thirds vote of all members of the city council. CCP §1245.240. The adoption of a resolution of necessity is a legislative act within the discretion of the governing body of the public entity; the public entity is therefore prohibited from contractually committing itself to adopt a resolution of necessity. *Anaheim Redev. Agency v Dusek* (1987) 193 CA3d 249, 239 CR 319; *Redevelopment Agency of the City of Huntington Park v Norm's Slauson* (1985) 173 CA3d 1121, 219 CR 365.

© The Regents of the University of California

§8.44 j. Findings

The resolution must contain certain findings. In addition to the four findings required under CCP §1245.230(c)(1)-(4), the resolution should also find that the agency has complied with CEQA for the project for which the property is being acquired. Additionally, resolutions for redevelopment projects must make blight findings. *Anaheim Redev. Agency v Dusek* (1987) 193 CA3d 249, 239 CR 319. If the property involved is used for religious purposes, there is a concern that the exercise of eminent domain may be deemed a land use regulation that imposes a substantial burden on religious exercise. See Religious Land Use and Institutionalized Persons Act (RLUIPA) (42 USC §§2000cc—2000cc-5); *Cottonwood Christian Ctr. v Cypress Redev. Agency* (CD Cal 2002) 218 F Supp 2d 1203.

© The Regents of the University of California

§8.45 k. Eminent Domain Complaint and Lis Pendens

An eminent domain complaint is filed and a lis pendens notice is recorded. CCP §§1250.010-1250.310. The complaint can be filed shortly following the adoption of the resolution of necessity and must be filed within 6 months after that adoption. CCP §1245.260.

PRACTICE TIP: Before filing an eminent domain action, the condemnor's attorney should obtain an update of the litigation guarantee and of the appraisal. Requirements regarding the date of the appraisal vary from jurisdiction to jurisdiction, so be sure to check with the county's eminent domain judge as to how old an appraisal can be for the judge to accept it as the basis for just compensation.

© The Regents of the University of California

§8.46 I. Deposit of Probable Compensation

The amount of probable compensation is deposited with either the state treasurer or the county treasurer (on court order). CCP §§1255.010, 1255.070.

The written summary of the basis of the appraisal used for the deposit must contain detail sufficient to indicate (CCP §1255.010(b)(A)-(B)):

- the date of valuation;
- the highest and best use and applicable zoning restrictions; and
- the principal transactions, reproduction or replacement cost analysis, or capitalization analysis supporting the appraisal.

If the appraisal includes compensation for injury to the remainder, the summary must separately indicate (CCP §1255.010(b)(C)):

- the compensation for the property and for damages to the remainder; and
- the calculations for making such a determination and a narrative explanation supporting the compensation, including any offsetting benefits.

The statement of valuation also must include information on the loss of goodwill, if any, and the method used to determine the loss and a summary of the supporting data. CCP §1258.260(a)(9).

A motion to increase the deposit must be supported with detail sufficient to indicate clearly the basis for the motion. CCP §1255.030. Such supporting detail must address the same information required for the written summary of the basis of the appraisal to the extent such information is relevant to the motion. CCP §1255.030.

Once the amount of probable compensation has been deposited, the amount on deposit is available for withdrawal by the defendants. The considerations discussed in §§8.47-8.52 relate to the condemnor's decision to deposit the funds and to the defendant's decision to withdraw those funds.

© The Regents of the University of California

§8.47 (1) Deposit Prerequisite to Order for Possession

The deposit of probable compensation is a prerequisite to obtaining an order for possession. CCP §1255.410. The deposit also fixes the date of value to be used by the trier of fact in determining just compensation. The date of value cannot be later than the date of such deposit, but in some circumstances it can be earlier. CCP §§1263.110-1263.150.

© The Regents of the University of California

§8.48 (2) Deposit Available for Withdrawal by Defendants

Once the funds have been deposited, they are available for withdrawal, in whole or in part, by the defendants. CCP §§1255.210-1255.280.

© The Regents of the University of California

§8.49 (3) Notice of Application for Withdrawal

If a defendant applies for withdrawal of any portion of the funds, the condemnor must see to it that all of the other defendants are served with notice of that application, so that those defendants have an opportunity to object to the withdrawal. CCP §1255.230.

© The Regents of the University of California

§8.50 (4) Withdrawal Waives All Defenses Except Additional Compensation

The withdrawal by a defendant of any portion of the funds on deposit constitutes a waiver by operation of law of all defenses in favor of that defendant except a claim for greater compensation than the amount deposited. For example, a defendant waives any challenge to the condemnor's right to take the property if that defendant withdraws any of the funds on deposit. However, withdrawal of the funds on deposit does not preclude that defendant from claiming a larger amount of compensation (CCP §1255.260) and does not waive the defendant's right to have the eminent domain action transferred to a neutral court. *Clayton v Superior Court* (1998) 67 CA4th 28, 78 CR2d 750.

© The Regents of the University of California

§8.51 (5) Interest on Award

The defendant is entitled to recover from the condemnor interest on the compensation awarded to that defendant in the condemnation action. When the condemnor has taken possession of the property, that interest begins running on the date on which the condemnor takes possession or the date on which the condemnor is authorized to take possession of the property, whichever is earlier. CCP §1268.310. The interest on any amount deposited into court as probable compensation ceases to run when that amount is withdrawn by the defendant. CCP §1268.320. The rate at which the condemnor must pay interest is determined for each semester of the calendar year by the State Department of Transportation (CalTrans). CCP §1268.350. Possession by the defendant after interest begins to accrue is an offset against interest accrual. CCP §1268.330(a).

© The Regents of the University of California

§8.52 (6) Interest on Deposit

While funds are on deposit as probable compensation, they are held in the state treasury. CCP §1255.010. If the condemnor prefers, and on court order, the money may be held by the county treasurer. CCP §§1255.070, 1268.150. If funds are on deposit with the state treasury, interest on the deposit is paid to the condemnor every quarter. Govt C §16429. Payment of interest on county deposits may vary depending on the particular county's practice. This payment of interest to the condemnor should not be confused with the payment of interest from the condemnor to the defendant, which is discussed in §8.51.

PRACTICE TIP: Deposits with the State Treasury Condemnation Deposits Fund are usually preferred. Interest earned by the state treasury is usually more than that earned by county treasuries, and the state treasury procedures for payment of interest are standardized.

© The Regents of the University of California

§8.53 m. Service

The complaint, summons, and other related papers, including any motion for order for possession, are served on the record owners and on the occupants of the property. CCP §1255.450. Service of the complaint and summons, or a diligent attempt to serve the same, must take place no later than 6 months after the complaint is filed. CCP §1245.260(a). Service of the complaint, summons, and motion for order for possession typically requires from 2 days to 2 weeks, depending on the accessibility of the persons to be served.

© The Regents of the University of California

§8.54 n. Obtaining Actual Possession

Under specific circumstances, the public entity may obtain possession of the property before the date that final judgment is entered by filing a motion for order of possession of the property. If a public entity files a motion for order of possession, the motion must include specific language informing the record owners and any occupants that they have the right to oppose the motion. CCP §1255.410(a).

If the property is unoccupied, the hearing must be held not less than 60 days after service of the notice of the motion. CCP §1255.410(b). If the property is lawfully occupied, then the public entity must serve notice of the motion at least 90 days before the hearing. CCP §1255.410(b).

If the motion for order of possession is not opposed within 30 days after the notice of motion is served, then the court must grant the order of possession if it can make specific findings. CCP §1255.410(d)(1). If the motion is opposed within 30 days after the notice of motion is served, then the court may grant the order of possession on consideration of the relevant facts and any opposition, if it can make specific findings, including findings that the balance of hardships tips in favor of the public entity. CCP §1255.410(d)(2). If a defendant opposes the motion for possession and asserts a hardship in the written opposition, the opposition must be supported by a declaration signed under penalty of perjury stating facts supporting the hardship. CCP §1255.410(a).

Regardless of whether a public entity becomes entitled to possession of a property by an order of possession or by a final judgment, replacement housing must be made available before occupants of residential property must move. Govt C §7264.5. In difficult cases, such as a business with a great deal of equipment and other personal property to be moved or otherwise disposed of, an owner or occupant who refuses to move can sometimes cause delays.

© The Regents of the University of California

o. Prosecution of Eminent Domain Action

§8.55 (1) Alternative Dispute Resolution

Eminent domain law expressly authorizes alternative dispute resolution. CCP §1250.420. By agreement, the parties may refer the case to mediation, binding arbitration, or non-binding arbitration. CCP §1250.420. A party dissatisfied with the result of non-binding arbitration may request a trial de novo by motion within 30 days. CCP §1250.420. If the moving party does not achieve a more favorable result at trial, the court will order the moving party to pay the other party's litigation costs incurred following the motion for new trial, unless the court finds that the imposition of costs would create such a substantial economic hardship as not to be in the interest of justice. CCP §1250.420. Trial may be postponed if it is demonstrated to the court's satisfaction that the parties are actively engaged in resolving the dispute, the parties appear to be making progress, and the parties agree that additional time for alternative dispute resolution is desirable. CCP §1250.430.

© The Regents of the University of California

§8.56 (2) Preliminary Court Proceedings

Preliminary court proceedings include the first pretrial conference, discovery, and other customary pretrial proceedings. Unless a local rule provides for another method (see CCP §1258.300), no later than 10 days after the trial date is selected, a demand for the exchange of expert witness and valuation data should be made. CCP §1258.210(a). Once a demand for exchange has been filed and served, the parties are required to deposit with the clerk of court a list of expert witnesses and statements of valuation data no later than the date of exchange. Failure to do so will constitute a waiver of a party's right to call unlisted expert witnesses during its case in chief and of the party's right to introduce on direct examination during its case in chief any matter that is required to be, but is not, set forth in the statements of valuation data. CCP §1258.210(b)(2).

© The Regents of the University of California

§8.57 (3) Trial of Legal Issues

When applicable, a trial of legal issues is held. Depending on the county in which the case is pending and on the nature of the legal issues involved, this trial may be a separate trial held a number of weeks or months before the valuation trial, or it may be held immediately before the valuation trial. When the outcome of the legal issue trial affects the appraisal process (*e.g.,* when the issue is the scope of the larger parcel for purposes of assessing severance damages), it is essential that the legal issue trial be held sufficiently in advance of the valuation trial to enable the appraisals to be completed thereafter. In either case, legal issues are tried before a judge, but in the valuation trial the parties are entitled to have a jury decide the amount of compensation.

© The Regents of the University of California

§8.58 (4) Appraisal Exchange

Before trial, counsel may demand an exchange of expert witness lists and appraisals. The contents and timing of this pretrial exchange is governed by CCP §§1258.210-1258.300. The "date of exchange" is the date agreed to for the exchange or, failing agreement, a date 90 days before commencement of trial, and may take place no sooner than 9 months after the complaint is filed. CCP §1258.220. Unless a demand for exchange has been made, the 90-day provision of CCP §1258.220 does not apply.

PRACTICE TIP: Counsel should also carefully review local court rules on exchange requirements as well as other eminent domain matters.

© The Regents of the University of California

§8.59 (5) Final Pretrial Conference

The final pretrial conference is held. In counties which so provide (including Los Angeles County), the exchange of appraisals normally takes place at this time. In counties in which an exchange of the actual appraisals is not provided for, a corresponding "statement of valuation data" is exchanged 90 days before the commencement of trial. CCP §1258.220.

© The Regents of the University of California

§8.60 (6) Mandatory Settlement Conference; Statutory Settlement Offers

The mandatory settlement conference is held. When the parties have so stipulated, the statutory exchange of offer and demand usually takes place at this time. Otherwise, the exchanges must occur at least 20 days before trial. The offer should be carefully considered, since its "reasonableness" may affect the recovery of the defendant's litigation expenses. CCP §1250.410. Also, the final offer must include all required compensation, including goodwill, if any, and must specify whether costs and interest are included. CCP §1250.410.

© The Regents of the University of California

§8.61 (7) Motions Affecting Compensation

If there is a dispute between the parties over evidentiary or other legal issues affecting the determination of compensation, either party may move the court for a ruling on the issue. Such motions must be filed at least 60 days before commencement of the trial on compensation. CCP §1260.040.

© The Regents of the University of California

§8.62 (8) Valuation Trial

The valuation trial usually takes place within 2 years after the filing of the complaint. The issue at the valuation trial, insofar as the condemnor is concerned, is the total amount of compensation that is to be paid by reason of the condemnation of the interests being acquired. Neither party has the burden of proof as to the amount of compensation. CCP §1260.210(b). Any issue concerning the division ("apportionment") of that total compensation among owners, tenants, holders of encumbrances, or any other persons, is made the subject of a separate determination to which the condemnor is not a party. CCP §1260.220. The compensation at the valuation trial includes the following:

- The fair market value of the property taken. CCP §§1263.310, 1263.320.
- When the property acquired is part of a larger parcel, compensation for damage, if any, to the remainder ("severance damages"). Severance damages are defined as damage caused to the remainder by its severance from the part taken, or by the construction and use of the project for which the property is taken in the manner proposed by the plaintiff, whether or not the damage is caused by a portion of the project located on the part taken. CCP §1263.410. Severance damages may also be awarded when the parcel partly taken is proposed for development with separate, contiguous parcels under common ownership. *City of San Diego v Neumann* (1993) 6 C4th 738, 25 CR2d 480. Non-speculative benefits caused by the project may be used to offset the amount of severance damages. *Los Angeles County Metro. Transp. Auth. v Continental Dev. Corp.* (1997) 16 C4th 694, 66 CR2d 630.
- Improvements located on the part taken are included in the compensation. Severance damages include damage, if any, to the improvements located on the remainder. Under certain circumstances, compensation must be paid for machinery and equipment installed on the part taken or on the remainder. For details of those circumstances and of the extent of such compensation, see CCP §§1263.205-1263.270.
- Compensation for loss of business goodwill, provided that: (1) the loss is caused by the taking of the property or the injury to the remainder; (2) the loss cannot reasonably be prevented by relocation or other steps; (3) compensation for the loss will not be included in payments under the relocation laws; and (4) compensation for the loss will not be duplicated in compensation otherwise awarded to the owner. CCP §1263.510. The business owner has the burden of establishing the existence of conditions (1) through (4) above, but neither party has the burden of proof as to the amount of compensation for loss of goodwill. *Redevelopment Agency of the City of Pomona v Thrifty Oil Co.* (1992) 4 CA4th 469, 474, 5 CR2d 687. In addition, to recover compensation under this section, the business owner must show that a positive goodwill value existed before the public taking. *City of San Diego v Sobke* (1998) 65 CA4th 379, 76 CR2d 9. But see *Inglewood Redev. Agency v Aklilu* (2007) 153 CA4th 1095, 64 CR3d 519 (cost to create, rather than excess profits, was permissible valuation of lost goodwill when business was new and had not yet experienced excess profits, but property owner had spent money to place business in good location near newly constructed marketplace).
- Compensation for precondemnation damages, if applicable. *Klopping v City of Whittier* (1972) 8 C3d 39, 104 CR 1; *Barthelemy v Orange County Flood Control Dist.* (1998) 65 CA4th 558, 76 CR2d 575.

© The Regents of the University of California

§8.63 (9) Judgment; Payment of Judgment

Judgment is entered. CCP §1235.130.

The condemnor pays into court any excess of the judgment over the probable compensation deposited earlier; or, the defendants repay any excess of the probable compensation deposited earlier and withdrawn by them over the amount of the judgment. CCP §§1268.010, 1255.280.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/8 Public Property/§8.64 (10) Final Order of Condemnation

§8.64 (10) Final Order of Condemnation

The recordation of the final order of condemnation vests title to the property interests being acquired in the condemnor. CCP §1268.030(c).

PRACTICE TIP: Once recorded in the county where the property is located, the final order is the equivalent of a grant deed.

© The Regents of the University of California

§8.65 12. Acquisition of Real Property by Gift, Bequest, or Offer of Dedication

A city may acquire real property by gift, bequest, or devise. Govt C §37354; Prob C §6102. A city may also accept an irrevocable offer to dedicate real property. Govt C §§7050; CC §1009(c). A city may only dispose of an irrevocable offer of dedication through summary vacation procedures. Govt C §7050. On summary vacation procedures, see §§8.142-8.150.

© The Regents of the University of California

§8.66 a. Terms of Gift, Bequest, or Devise

Cities may hold and dispose of the property and the income and increase from the property for such uses as are prescribed in the terms of the gift, bequest, or devise. Govt C §37354. If the terms of a gift, bequest, or devise do not prescribe or limit the uses to which the property received or the income or increase from it may be put, it may be put to such uses as the legislative body prescribes. Govt C §37355. Use limitations in a gift deed or bequest or devise generally are subject to strict construction. See *Save the Welwood Murray Mem. Library Comm. v City Council* (1989) 215 CA3d 1003, 263 CR 896.

© The Regents of the University of California

§8.67 b. Restrictions

Acceptance of gifts by charter cities can be regulated through their city charters within constitutional limitations. *Egan v San Francisco* (1913) 165 C 576, 133 P 294. Acceptance of conditions violative of charter provisions invalidates the gift. *O'Melveney v Griffith* (1918) 178 C 1, 5, 171 P 934. Similarly, conditions that violate any statutory or constitutional provision would likely be invalidated.

© The Regents of the University of California

§8.68 c. Tax Consequences

Gifts to a city are deductible as a charitable contribution from the donor's income for purposes of income taxes. 26 USC §170.

© The Regents of the University of California

13. Adverse Possession and Easements by Prescription and Implied Dedication

§8.69 a. Adverse Possession

A city can acquire title to property through adverse possession, in the same manner as a private party. *Beckett v City of Petaluma* (1915) 171 C 309, 313, 153 P 20. For a general discussion of the requirements for claiming title through adverse possession, see 12 Witkin, Summary of California Law*, Real Property* §§212-235 (10th ed 2005).

© The Regents of the University of California

§8.70 b. Easements by Prescription

A city can acquire an easement by prescription, granting the city the right to use private lands. *Reinsch v City of Los Angeles* (1966) 243 CA2d 737, 744, 52 CR 613. A prescriptive easement is obtained by showing that the easement was: (1) used continuously for a period of 5 years; (2) under a claim of title or right; (3) possessed in a manner that was open, notorious, and clearly visible to the owner of the burdened land; and (4) hostile and adverse to the owner. CC §1007; CCP §§318-319, 321-322, 325; *Reinsch*, 243 C2d at 745. No use can ever ripen into an easement by prescription, however, if signs are erected under CC §1008.

PRACTICE TIP: In the context of adverse possession and prescription, practitioners are advised to consider the nature of the use to determine if the use created an interest in the public or in the city.

© The Regents of the University of California

§8.71 c. Easements by Implied Dedication

A city can also acquire the right to use private lands by means of implied dedication. *Gion v City of Santa Cruz* (1970) 2 C3d 29, 38, 84 CR 162. To do so, the city must establish that the public used the land "for a period of more than 5 years with full knowledge of the owner, without asking or receiving permission to do so and without objection being made by anyone." 2 C3d at 38. What must be shown is that various groups of persons (as opposed to a limited and definable number) used the property believing the public had a right to such use. 2 C3d at 39. Statutory dedication is governed by provisions of the Subdivision Map Act (Govt C §§66410-66499.37).

© The Regents of the University of California

§8.72 (1) Statutory Constraint

The holding in *Gion v City of Santa Cruz* (1970) 2 C3d 29, 38, 84 CR 162, was severely curtailed by the enactment of CC §1009, which states that an easement by implied dedication can be obtained only through one of two circumstances:

(1) The public entity is using private lands by an expenditure of public funds on visible improvements or maintenance in such a manner that the owner knows or should know that the public is making such use of his land, without the express permission or prohibition of the owner, for a period of 5 years. CC §1009(b), (d).

(2) The private property is certain specified coastal property, and the owner has not posted signs or published notice granting a right to pass, or recorded a notice of consent to use land, or entered into an agreement with a federal, state, or local agency providing for the public use of such land. CC §1009(b), (e)-(f). See also CC §813 (amended in response to *Gion* and permitting the owner to record a notice of permissive public use and preclude a finding of implied dedication).

© The Regents of the University of California

§8.73 (2) When *Gion* Applies

Gion v City of Santa Cruz (1970) 2 C3d 29, 38, 84 CR 162, still applies to situations involving roads, beaches, and shoreline areas when the use occurred for the prescriptive period before the enactment of CC §1009 in 1971. CC §1009(b); *Bess v County of Humboldt* (1992) 3 CA4th 1544, 1550 n3, 5 CR2d 399. See also *Richmond Ramblers Motorcycle Club v Western Title Guar. Co.* (1975) 47 CA3d 747, 758, 121 CR 308 (refusing to apply the holding in *Gion* to property other than roads, beaches, and shoreline areas).

© The Regents of the University of California

§8.74 (3) Implied Dedication With Consent

A city may also acquire an easement by implied dedication when the property has been used for less than 5 years. To do so, the city must prove the actual consent or acquiescence of the owner. *Western Aggregates, Inc. v County of Yuba* (2002) 101 CA4th 278, 130 CR2d 436. However, any such implied dedications after 1971 would also be subject to CC §1009.

PRACTICE TIP: There is a close relationship between acquisition of a prescriptive easement and the creation of an easement in favor of the public by implied dedication. There are very few decisions that have considered the public's acquisition of an easement by prescription because in those cases when there has been continuous use of private property by the public, the issue has been whether such usage was sufficient to accomplish a common law dedication of an easement. 6 Miller and Starr, California Real Estate §15:30 (3d ed 2000). Carefully review the elements of both an easement by prescription and an easement by implied dedication to determine if one or the other fits the facts at hand.

© The Regents of the University of California

§8.75 14. Effect of Debt Limitation on Property Acquisition

Cities may not acquire real property by entering into installment sales contracts or mortgage agreements unless the total amount of the purchase price is appropriated in the year the property is acquired. Cal Const art XVI, §18.

PRACTICE TIP: If property is sought to be acquired by payments over time, consider lease/purchase, lease/lease-back, or similar lease-based financing arrangements.

© The Regents of the University of California

§8.76 15. Acceptance of Interests in Real Property

Deeds conveying an interest in real property cannot be recorded without a certificate of acceptance by the city council. Govt C §27281. The city council may delegate the authority to accept real property. Govt C §27281.

For related material on redevelopment, see §§5.301-5.439; relocation assistance, see §§8.14-8.25; the California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177), see §§11.10-11.79; hazardous materials and obligations of owners of property, see §§11.237-11.255.

© The Regents of the University of California

§8.77 16. Acquisitions of Personal Property

General law cities have the power to purchase, lease, receive, hold, and enjoy personal property (Govt C §37350), both within and without the city. Govt C §37351. Charter cities may exercise similar powers through their municipal charters, and all city charters generally do so. *Law v San Francisco* (1904) 144 C 384, 77 P 1014. General law cities may not use installment sales contracts to acquire property unless all necessary funds are appropriated and reserved during the fiscal year when the city enters into the contract. Cal Const art XVI, §18. For discussion of purchasing goods and services, see chap 7.

The power to purchase, lease, receive, hold, enjoy, and dispose of personal property is an inherent power of a charter city by virtue of its charter and the California Constitution (specifically Cal Const art XI, §5). As a "municipal affair," such matters are not necessarily subject to state statutory control absent a finding of express state preemption (which finding is also not controlling on courts). *Piledrivers' Local Union v City of Santa Monica* (1984) 151 CA3d 509, 511, 198 CR 731.

© The Regents of the University of California

17. Acquisition by Other Means

§8.78 a. Other Common Law Easements

In addition to the easements discussed in §§8.70-8.74, other common law easements also apply to public agencies. Generally, an easement by implication develops when the easement is reasonably necessary for the beneficial use and enjoyment of property conveyed from the same owner. An easement by necessity will be established only when strict necessity exists.

© The Regents of the University of California

§8.79 b. Lost and Unclaimed Property

Various statutes apply to the procedures by which a city can acquire abandoned property.

A city may elect to be governed by CC §§2080-2080.10, with respect to disposition of property which is "found or saved on property subject to its jurisdiction, or in the alternative, may provide by ordinance for the care, restitution, sale or destruction of such property subject to the requirement that the property be held for at least three months and, thereafter, sold at public auction to the highest bidder." CC §2080.4. However, such property need not be sold if retained by the city for a public use. CC §2080.4. The Unclaimed Property Law (CCP §§1500-1582) addresses escheat of property to the state when property is not covered by other statutes. See CCP §1510.

State law also provides a procedure by which a city can obtain ownership of money, excluding restitution to victims, that is not the property of the city, and that remains unclaimed in the city treasury for 3 years. Govt C §§50050-50057.

© The Regents of the University of California

II. PROPERTY DISPOSITION

§8.80 A. Real Property

A city may dispose of real property essentially in any way it chooses, if the disposition is for the common benefit. See Cal Const art XI, §5; Govt C §37350. The planning commission staff must prepare a report that indicates that the disposition of the property conforms with the general plan. Govt C §65402(a). This requirement does not apply to a charter city unless such provisions are adopted by charter or ordinance. Govt C §65700. There is no requirement that the city formally declare the property as surplus. But see Govt C §50569 (regarding annual inventory requirement). Unique real property disposition provisions apply to redevelopment agencies under the Community Redevelopment Law (Health & S C §§33000-33855). Property that is dedicated under the Subdivision Map Act (Govt C §§66410-66499.37) must be reconveyed to the subdivider or successor in interest if not used for the public purpose originally dedicated, except for property used for public utilities. Govt C §66477.5(c).

PRACTICE TIP: A city is generally not legally required to obtain an appraisal before selling real property. However, appraisals will help to ensure that a city is obtaining a reasonable price for the property and can prevent a challenge that the sale constitutes a gift of public funds. See also *Winkelman v City of Tiburon* (1973) 32 CA3d 834, 108 CR 415 (sale of public agency property to nonprofit corporation for less than fair market value is for public purpose and not a gift of public funds).

© The Regents of the University of California

1. Optional Procedure

§8.81 a. Findings

State law provides an optional procedure for cities to use in disposing of real property. See Govt C §§37420-37430. The procedure involves finding that the public interest and convenience require the sale of the public building (or site dedicated to a public use) and adopting a resolution of intent to sell the property. Govt C §37421.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/8 Public Property/§8.82 b. Content of Resolution of Intent

§8.82 b. Content of Resolution of Intent

The resolution of intent must fix a time for public hearing, provide for publication of the notice of the hearing, fix the time that final action will be taken, and contain an accurate description of the property to be sold. Govt C §37422.

© The Regents of the University of California

§8.83 c. Publication

The resolution must be published at least once in a daily newspaper published and circulated in the city or, if there is none, a newspaper within the county, designated by the city, and also posted at least 10 days in three conspicuous places on the property. Govt C §37423.

© The Regents of the University of California

§8.84 d. Overriding Protests

A four-fifths vote of the city council is needed to override any protests to the sale. Govt C §37425.

© The Regents of the University of California

2. Surplus Property

§8.85 a. Inventory

On or before December 31 of each year, a city must prepare an inventory of all property and determine which property "is in excess of its foreseeable needs" and must provide the inventory or description of the property without charge to any person who requests a copy. Govt C §50569.

© The Regents of the University of California

§8.86 b. Offer Required

Before disposing of surplus real property, a city must send a written offer to sell or lease the property to certain entities. Govt C §54222. There are exceptions to this requirement. See, *e.g.,* Govt C §§54222.3, 54226. However, failure to comply does not invalidate a transfer to a purchaser or encumbrancer for value. Govt C §54230.5.

© The Regents of the University of California

§8.87 (1) Housing Providers

Before disposing of surplus real property, the city must send a written offer to sell or lease the surplus property for the purpose of developing low- or moderate-income housing to any local agency as defined in Health & S C §50079. Govt C §54222(a). The offer must also be sent to any "housing sponsor," as defined by Health & S C §50074, who requests it. Govt C §54222(a).

© The Regents of the University of California

§8.88 (2) Sale and Reverter

Notwithstanding the requirements of Govt C §§54222-54223, the city may sell or lease the property to any housing corporation, limited dividend corporation, or nonprofit corporation, as provided by law, for the development of housing available to persons of low- or moderate-income at affordable housing cost, as defined by Health & S C §50052.5. The deed or other instrument of conveyance must include a clause reverting the property to the city if the property is no longer owned by a majority of the nonprofit or limited dividend sponsors. Govt C §50570. A public hearing is required before the transfer. Govt C §50572.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/8 Public Property/§8.89 (3) Park and Recreation; Open Space Property

§8.89 (3) Park and Recreation; Open Space Property

Offers to sell or lease surplus property for park and recreation or open-space purposes must be sent to the park or recreation department of the city and county in which the property is situated, any regional park authority having jurisdiction over the area in which the property is situated, and the California Resources Agency. Govt C §54222(b).

© The Regents of the University of California

§8.90 (4) Enterprise Zone Property

Offers to sell or lease surplus property located in an enterprise zone established under Govt C §7073 must be sent to the nonprofit neighborhood enterprise association corporation in that enterprise zone. Govt C §54222(d).

© The Regents of the University of California

§8.91 (5) School Property

Offers to sell or lease surplus property suitable for school facilities construction purposes must be sent to the public school districts that have jurisdiction over the area where the property is located. Govt C §54222(c).

© The Regents of the University of California

§8.92 (6) Infill Opportunity or Transit Village Property

An offer for the purpose of developing property within an infill opportunity zone designated under Govt C §65088.4 or within an area covered by a transit village plan adopted under Govt C §§65460-65460.11 must be sent to any public agency within whose jurisdiction the surplus property is located.

© The Regents of the University of California

§8.93 c. Notification

Entities desiring to purchase or lease surplus property for low- and moderate-income housing, park and recreation or open space purposes, school purposes, or enterprise zone purposes must notify the city within 60 days after receipt of notice from the city. Govt C §54222(f).

© The Regents of the University of California

§8.94 d. Good Faith Negotiations

On receipt of timely notification from an entity desiring to purchase or lease the surplus property, the city must enter into good faith negotiations with that entity to determine a mutually satisfactory sales price or lease terms. If the parties cannot agree on the price or terms after a negotiation period of not less than 60 days, the city may dispose of the property without regard to the surplus property disposition rules. Govt C §54223.

© The Regents of the University of California

§8.95 B. Parkland

With certain restrictions, a general law city may convert a park to a different municipal purpose. Govt C §§37111-37111.1. State law provides for conversion of land purchased for park purposes or land used for park purposes. Adoption of an ordinance by a four-fifths vote is required, and a public hearing and special findings may be required. Govt C §§37111-37111.1. By contrast, a charter city has the inherent power to control, govern, and supervise its parks subject to any limitations in its charter. *Simons v City of Los Angeles* (1976) 63 CA3d 455, 133 CR 721. "If the charter is silent on the matter of abandonment or change in use of such park, that power nevertheless inheres in such a municipality." 63 CA3d at 468, citing *City of Marysville v Boyd* (1960) 181 CA2d 755, 757, 5 CR 598.

PRACTICE TIP: Several alternative statutes apply to the disposal of property dedicated and/or used for park purposes. Review each statute carefully to determine whether it applies to a particular transaction. Consider whether the city's general plan and zoning ordinance should be amended before offering the property for sale or lease to reflect a new use for the property.

© The Regents of the University of California

1. Dedicated Lands

§8.96 a. Original Dedications

State law provides a procedure for abandoning and selling parkland originally dedicated by a private dedication or an original town site map or plat. See Govt C §§38400-38418. If the original dedicator or a majority of adjoining property owners protest the abandonment, the city must terminate the proceedings for at least 6 months. Govt C §38407. When ordering the park abandoned, the city may have to compensate the abutting landowners. Govt C §§38409, 38414.

© The Regents of the University of California

§8.97 b. Parks Dedicated by City

Procedures also exist for a city to "discontinue and abandon the use as a public park of any land owned in fee by it and dedicated or placed in such use by such city" and then dispose of the property. Govt C §38440. See generally Govt C §§38440-38462. These statutes require the city council to hold a public hearing on the proposed sale. Govt C §38444. If the city council overrules by a two-thirds vote any protests received at the public hearing, the city council may call an election on whether to discontinue and abandon the park. Govt C §38450. No election is required to convey a "minor" portion of a park in exchange for an equal or greater area of value of privately owned contiguous property, but a public hearing and findings are required. Govt C §38441.

© The Regents of the University of California

§8.98 c. Private Dedications

Parkland that was dedicated to a general law or charter city by a third party may be limited by the terms of the private deed. See *Simons v City of Los Angeles* (1976) 63 CA3d 455, 133 CR 721. There is a "well-settled principle of law that land that has been dedicated as a public park must be used in conformity with the terms of the dedication, and it is without the power of a municipality to divert or withdraw the land from use for park purposes." *Slavich v Hamilton* (1927) 201 C 299, 303, 257 P 60. See Govt C §37111.1 (providing that state law permitting conversion of park to different municipal purpose not applicable to land dedicated for park purposes by donor). Examples of uses that have been found consistent with park purposes include parking structures, museums, zoos, botanical gardens, libraries, and even hotels and restaurants. See *Slavich v Hamilton* (1927) 201 C 299, 303, 257 P 60; *Spires v City of Los Angeles* (1906) 150 C 64, 66, 87 P 1026. Construction of a school, however, is not consistent with a dedication for park purposes. *San Vicente Nursery School v Los Angeles County* (1956) 147 CA2d 79, 85, 304 P2d 837; 78 Ops Cal Atty Gen 181 (1995).

© The Regents of the University of California

§8.99 2. Parks Not Used for Park Purposes

The Municipal Park Abandonment Law of 1939 (Govt C §§38501-38510) provides, in certain limited circumstances, a procedure for abandoning and disposing of parks that have not been used for park purposes. An election is required if the park was purchased with proceeds from bonds authorized for the purpose of acquiring the park. Govt C §38502.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/8 Public Property/§8.100 3. Parks Acquired From Counties

§8.100 3. Parks Acquired From Counties

The provisions of Govt C §25550.7 establish limitations on the disposal of park property acquired from a county.

© The Regents of the University of California

§8.101 4. Intergovernmental Transfers

Restrictions exist on transfers of park land from one government agency to another for the purpose of using the park land for nonpark purposes. See Pub Res C §§5400-5409.

© The Regents of the University of California

§8.102 C. Personal Property

A city may dispose of personal property in any way it chooses if the disposition is for the common benefit. Cal Const art XI, §5; Govt C §§37350- 37351. There is no requirement that the city formally declare the property as "surplus."

PRACTICE TIP: To avoid allegations that the sale of personal property constitutes a gift of public funds or involves favoritism, many cities enact procedures providing that surplus personal property will be sold at auction.

© The Regents of the University of California

§8.103 D. Streets and Highways Owned in Fee

If the city owns the underlying fee to property used for a street or highway, the city may sell or exchange the property after determining that it is no longer needed by the public. Str & H C §8355. The purchase price for the property must be paid to the city treasury and credited to any fund available for the same purposes for which the property was used. Str & H C §8357. See also §§8.138-8.141.

© The Regents of the University of California

E. Restrictions Applicable to Disposal of Both Real and Personal Property

§8.104 1. Government Grant Funds

Property purchased with federal or state grant money is subject to conditions of the grant. Examples are discussed in §§8.105-8.106.

© The Regents of the University of California

§8.105 a. Federal Community Development Block Grant (CDBG)

The city may sell, lease, or otherwise dispose of property acquired with federal community development block grant (CDBG) funds, but proceeds are "program income" subject to federal restrictions. 24 CFR §570.201(b). See generally 42 USC §§5301-5320.

© The Regents of the University of California

§8.106 b. California Park and Recreational Facilities Act of 1984

The city must agree to use property acquired or developed with grant funds only for the purpose for which the funds were requested. See generally the California Park and Recreational Facilities Act of 1984 (Pub Res C §§5096.225-5096.267). If the property use is changed or the property is sold, the city must use the funds for an authorized grant purpose or reimburse the state fund. Pub Res C §5096.237.

© The Regents of the University of California

§8.107 2. Redevelopment

A redevelopment agency may sell or dispose of property for purposes of redevelopment. Health & S C §33430. See §§8.108-8.110. On redevelopment, see also §§5.307-5.454.

© The Regents of the University of California

§8.108 a. Hearing

If property is not sold or leased through a public bidding process, an agency may approve the sale or lease only after considering the matter at a noticed public hearing. Health & S C §33431. However, if the property to be sold or leased was acquired in whole or in part with tax increment revenues, the sale or lease must be approved by both the agency and by resolution of the city council after considering the matter at a noticed public hearing or hearings. Health & S C §33433(a)(1).

© The Regents of the University of California

§8.109 b. Report

If property to be sold or leased was acquired with tax increment monies, disclosure of the terms of the lease or the sale is necessary in the form of a report. Health & S C §33433(a)(2). See *Contra Costa Theatre, Inc. v Redevelopment Agency of the City of Concord* (1982) 131 CA3d 860, 865, 184 CR 630.

© The Regents of the University of California

§8.110 c. Required Provisions

Disposition documents must contain nondiscrimination covenants. Health & S C §§33435-33436. The agency must require purchasers or lessees to use the property for the purpose designated in the redevelopment plan, begin redevelopment within a period of time designated by the agency, and comply with other conditions and restrictions deemed necessary by the agency. Health & S C §33437. The redevelopment agency may provide that obligations of the purchaser are covenants running with the land whose breach shall cause the fee to revert to the agency. Health & S C §33438. The agency must retain controls and establish covenants running with the land for such periods of time and under such conditions as are provided in the redevelopment plan. Health & S C §33439.

© The Regents of the University of California

3. Donations

§8.111 a. For Public Purpose

Donations of land by a public entity must be for a public purpose of the donor Cal Const art XVI, §6; *County of Alameda v Janssen* (1940) 16 C2d 276, 106 P2d 11; *Golden Gate Bridge & Highway Dist. v Luehring* (1970) 4 CA3d 204, 84 CR 291. This requirement does not apply to charter cities. *Social Workers Union Local 535 v Los Angeles County* (1969) 270 CA2d 65, 75 CR 566. Courts defer to a legislative determination of "public purpose" as long as the determination has a reasonable basis. See *Board of Supervisors v Dolan* (1975) 45 CA3d 237, 243, 119 CR 347 (expanding definition of "public use").

© The Regents of the University of California

§8.112 b. Other Permissible Donations Under State Law

In addition, state law specifically allows certain kinds of donations by local agencies. See Govt C §§50330-50335 (providing that local agencies may donate land and buildings to public universities, community college districts, agricultural associations, the State of California, the federal government, or to create public or private utilities easements).

© The Regents of the University of California

§8.113 4. Conflicts of Interest

A city may be precluded from acquiring or disposing of property if a city official has a financial interest in the acquisition, sale, or other transfer of the property, and the acquisition, sale, or other transfer is made under a contract approved by the city body or board of which the city official is a member. Govt C §1090. On conflicts of interest and prohibited contracts, see also §§2.151-2.161.

PRACTICE TIP: It is important to ascertain the source of funds used to purchase the property before initiating any action to sell it, as the proceeds from the sale of such property may be restricted depending on the source of the purchase money.

© The Regents of the University of California

§8.114 F. Adverse Possession

The city may not lose title to or any interest in property through adverse possession. CC §1007.

© The Regents of the University of California

III. LEASES OF CITY PROPERTY

§8.115 A. General Leasing Authority

A city may lease property owned, held, or controlled by it for a period not to exceed 55 years. Govt C §37380(a). The term of the lease can be for up to 99 years, if all of the following conditions are met: (1) the lease is subject to periodic review by the city and takes into consideration the then current market conditions; (2) the lease is authorized by an ordinance adopted by the city council; (3) the council holds a noticed public hearing on the lease (notice of the hearing must be published as prescribed in Govt C §6066 and must also be given to all owners of land adjoining the property, to any person requesting special notice, and to any present tenant of the property); and (4) after a notice inviting competitive bids is issued, the lease is awarded to the bidder who offers the greatest economic return to the city. Govt C §37380(b). The requirements outlined in (2), (3), and (4) do not apply to charter cities. Govt C §37380. See also CC §§718-719 (containing similar provisions). An argument can be made that Govt C §37380 does not apply to charter cities. On bidding requirements, see §7.3.

A city may lease property to private individuals or organizations. See Cal Const art XI, §§3, 5; Govt C §§37350, 37380, 37395. A lease of a public building to a private nonprofit religious group in an arm's-length transaction without preference being given to religion per se would not constitute a violation of either the federal or state constitutions. See 81 Ops Cal Atty Gen 189 (1998); 45 Ops Cal Atty Gen 89 (1965); *Corporation of the Presiding Bishop of the Church of Jesus Christ of Latter-Day Saints v Amos* (1987) 483 US 327, 334, 97 L Ed 2d 273, 107 S Ct 2862.

The issuance and approval of a lease by a city is considered a "project" under the California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177). See §§11.19-11.23.

© The Regents of the University of California

§8.116 B. Authority for Specific Kinds of Leases

In addition to the general grant of authority provided by Govt C §37380, the Government Code contains various provisions authorizing the lease of city property for certain purposes, under specified conditions, for terms not to exceed a specified length. See generally Govt C §§37382-37396. These uses include the following:

- agriculture and the production of minerals, oil, and gas (see Govt C §§37382-37383);
- tidelands, and tidelands for waterfront and harbor facility development or for non-industrial uses (see Govt C §§37384-37387);
- nonprofit corporation for housing development (see Govt C §37388);
- airport and related uses (see Govt C §37389);
- sewage, sewage effluent, and sewers and sewage treatment (see Govt C §§37390, 37392.1);
- fair and exposition purposes (see Govt C §37391);
- to the state for housing personnel and equipment or State Adjutant General (see Govt C §37392);
- dams and reservoirs (see Govt C §37392.2);
- off-street parking (see Govt C §37394);
- commercial development (see Govt C §37395); and
- stadium, recreational purposes, or general sports purposes (see Govt C §37396).

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/8 Public Property/§8.117 C. Statement Concerning Taxable Interest

§8.117 C. Statement Concerning Taxable Interest

Any lease that may create a possessory interest subject to property taxation must include a statement that the property interest may be subject to property taxes and that the lessee may be subject to the payment of such property taxes. Rev & T C §107.6. Failure of the city to include such a provision in the lease may result in damages in the amount of the possessory interest taxes. Rev & T C §107.6.

© The Regents of the University of California

§8.118 D. Recordation

A lease of city property must be recorded. Govt C §37393.

© The Regents of the University of California

IV. LIMITATIONS ON USE OF CITY PROPERTY

§8.119 A. Obstructions and Encroachments

Municipalities may prohibit encroachments into and obstructions on public property and may provide for the removal of any prohibited encroachments. Govt C §38775. A right to maintain an obstruction cannot be acquired by prescription as against a city. *Laura Vincent Co. v City of Selma* (1941) 43 CA2d 473, 111 P2d 17. A city may regulate encroachments on public property, including but not limited to, sidewalks, alleys, streets, and other public places by requiring an encroachment permit and permitting the encroachment under specified conditions. However, any such regulatory scheme must have a just relation to the object in view and have a reasonable tendency to preserve or protect the public safety or convenience. 43 CA2d at 476. Municipalities have broad discretion in this regard. Thus, a city council's determination of what constitutes an obstruction or encroachment will not be upset by the courts in the absence of fraud, oppression, or a manifest abuse of discretion. 43 CA2d at 476. See also *Irwin v City of Manhattan Beach* (1966) 65 C2d 13, 51 CR 881.

© The Regents of the University of California

§8.120 B. Removal of Obstructions

General nuisance and trespass law are tools to enforce removal of obstructions or encroachments that unlawfully obstruct the free passage or use of public property, if permit issuance is not desired or granted by the city. See, *e.g.,* CC §3479; Govt C §38771; Pen C §370. In addition, general legal principles that would apply to private property encroachments can also be used to force removal of items such as fences, walls, marquees, and other encroachments. See, *e.g.,* CCP §§731-736.

© The Regents of the University of California

§8.121 C. Deed Restrictions

Property may be donated to the city subject to conditions imposed by the grantor regarding its use. Restrictions or limitations on use may prohibit commercial activities or require use for recreational, or similar, purposes. Reasonable restrictions honoring the intent of the grantor will be upheld. Thus, when land is donated to the city with a restriction on its use, the city usually cannot divert the use of the property to purposes inconsistent with the terms of the grant, including transferring an interest in the donated land to private parties for nonpublic uses. *Big Sur Props. v Mott* (1976) 62 CA3d 99, 132 CR 835.

© The Regents of the University of California

V. STREETS AND EASEMENTS

A. Utility Relocation

§8.122 1. Case Law

In the absence of a statute or an express contractual provision to the contrary, a utility must pay the cost of relocating its equipment or facilities caused by the exercise of a municipality's police power. See, *e.g., Norfolk Redev. & Hous. Auth. v Chesapeake & Potomac Tel. Co. of Virginia* (1983) 464 US 30, 78 L Ed 2d 29, 104 S Ct 304; *Pacific Tel. & Telegraph Co. v Redevelopment Agency of the City of Glendale* (1978) 87 CA3d 296, 151 CR 68 (in absence of provision to contrary, public utility accepts franchise rights in public streets subject to implied obligation to relocate its facilities at its own expense when necessary to make way for proper governmental use of streets). The same rule applies when the utility is publicly owned. *City of Los Angeles v Metropolitan Water Dist.* (1981) 115 CA3d 169, 171 CR 217.

© The Regents of the University of California

§8.123 2. Statutory Obligation

When dealing with gas, electric, and water municipal franchises, the grantee must remove or relocate without expense to the municipality any facilities installed, used, and maintained under the franchise if and when made necessary by any lawful change of grade, alignment, or width of any public street, way, alley, or place, including the construction of any subway or viaduct, by the municipality. Pub Util C §6297. See also *City of Livermore v PG&E* (1997) 51 CA4th 1410, 59 CR2d 852 (funding mechanism chosen by city does not justify exception to rule that franchise utility pay for relocation of its equipment when required due to street widening project); *PG&E v San Jose* (1985) 172 CA3d 598, 601, 218 CR 400 (noting cases interpreting Pub Util C §6297 and the common law indicate almost unanimous refusal to allow utility company franchisees to recover reimbursement for relocation expenses). The Public Utilities Commission has exclusive jurisdiction to decide whether a utility must pay to put its facilities underground in an underground utility district. *City of Anaheim v Pacific Bell Tel. Co.* (2004) 119 CA4th 838, 14 CR3d 725.

© The Regents of the University of California

3. Exceptions

§8.124 a. Statutory

Several California statutory provisions provide varying degrees of relief to a utility that is forced to relocate. See Str & H C §§702 (requiring Department of Transportation to reimburse utilities for cost of having to relocate outside rights-of-way), 27261 (requiring bridge and highway districts to pay certain relocation expenses), 32950.5 (requiring parking authorities to pay certain relocation expenses); Pub Util C §25703 (requiring transit districts to pay cost of removal and relocation of public utility equipment).

© The Regents of the University of California

§8.125 b. Property Rights

A utility may be entitled to reimbursement for relocation expenses if a court finds that the utility's rights stem from an interest other than a franchise. See, *e.g., PG&E v County of San Mateo* (1965) 233 CA2d 268, 271, 43 CR 450 (upholding trial court's award of damages to plaintiff PG&E when county's improvements were an interference with plaintiff's easement, which specifically enjoined construction of "any building or other structure" along right-of-way).

PRACTICE TIP: Review the terms of any applicable franchise when determining the extent of a utility company's obligations to relocate its facilities. The franchise frequently provides greater rights and protection for the city than the easement or the applicable Public Utilities Code provisions.

© The Regents of the University of California

§8.126 B. Streets, Highways, and Other Easement Vacations

Vacation of public streets, highways, and service easements is governed by the Public Streets, Highways, and Service Easements Vacation Law (Str & H C §§8300-8363). The vacation can follow either a nonsummary or a summary procedure.

© The Regents of the University of California

C. Nonsummary Vacation Procedure

1. Prehearing Procedure

§8.127 a. Planning Commission Role

Before vacating a street, the city council must consider the city's general plan and submit the matter of the proposed vacation to the planning commission, according to the procedures established in Govt C §65402; Str & H C §8313. The planning commission must make a report as to the conformity of the proposed street vacation with the city's general plan within 40 days or some other period of time designated by the city council. Govt C §65402. If the planning commission fails to make its report, it will be conclusive evidence that the vacation is in conformity with the city's general plan. Govt C §65402. Vacation of a public service easement may be submitted to the planning commission. Str & H C §8313.

© The Regents of the University of California

§8.128 b. Initiation of Proceedings

The city council may initiate vacation proceedings by setting a hearing on the proposed vacation. Str & H C §8320. On summary vacation procedures, see §§8.142-8.150.

© The Regents of the University of California

§8.129 c. Hearing and Notice

The notice of hearing must set a time and place for a hearing on the proposed vacation. Str & H C §8320. Notice of the hearing must be published (Str & H C §8322) and posted (Str & H C §8323).

© The Regents of the University of California

§8.130 d. Receipt of Evidence

At the hearing, the city council must hear evidence presented by interested persons. Str & H C §8324.

© The Regents of the University of California

2. Posthearing Procedure

§8.131 a. Resolution Vacating Easement

If, at the conclusion of the hearing, the city council finds that the easement proposed to be vacated is unnecessary for present or prospective public use, the city council may adopt a resolution vacating the easement. The California appellate districts are split on whether easement vacation procedures are legislative or quasi-judicial. Compare *City of Rancho Palos Verdes v City Council of the City of Rolling Hills Estates* (1976) 59 CA3d 869, 129 CR 173 (holding procedure to be quasi-judicial), with *Heist v County of Colusa* (1984) 163 CA3d 841, 213 CR 278 (holding procedure to be legislative).

© The Regents of the University of California

§8.132 b. Conditions

The resolution of vacation may provide that the vacation must occur only after conditions imposed by the city council have been satisfied. Str & H C §8324(b).

© The Regents of the University of California

§8.133 c. Recordation

The resolution of vacation must be recorded in the office of the county recorder. From the date of recordation and compliance with conditions, if any, the vacation is complete. Str & H C §8325.

© The Regents of the University of California

3. Reservations

§8.134 a. Future Sewers, Storm Drains, and Other Utilities

In any proceeding to vacate a street, the city council may reserve from the vacation the easement and right at any time, or from time to time, to construct, maintain, operate, replace, remove, and renew sanitary sewers and storm drains and appurtenant structures in, on, over, or across the street to be vacated, and under any existing franchise or renewals thereof, to construct, maintain, operate, replace, remove, renew, and enlarge pipes and other structures, equipment, and fixtures for the operation of gas pipelines, telegraphic and telephone lines, and railroad lines, and for the transportation and distribution of electrical energy, petroleum, ammonia, and water. Str & H C §8340(a).

© The Regents of the University of California

§8.135 b. Future Streets

The city council may reserve and except from the vacation an easement for a future street unless the city council finds that the street is unnecessary for prospective public use. Str & H C §8340(b).

© The Regents of the University of California

§8.136 c. Existing Utilities

If there are public utility facilities in place that are in use, the city council should, unless the city council determines that the public convenience and necessity require otherwise, reserve and except from the vacation any easement and right necessary to maintain, operate, remove, replace, or renew the public utility facilities. Str & H C §8340(c).

When a public street is vacated, a utility using that street may lose its franchise. Pub Util C §6001; *Kachadoorian v Calwa County Water Dist.* (1979) 96 CA3d 741, 158 CR 223 (even though there was an operating water line in place, municipal water district lost its franchise rights under Pub Util C §10101 when public street was abandoned).

The nature of the property right held by the utility, whether the right is a franchise, an easement, or some other property right, will determine if the use right continues after a street is vacated or abandoned in the absence of a specific reservation by the city council. The agreements or easement deeds providing for the utility's use of the street or road should be consulted before presentation of the proposed vacation to the planning commission for a determination of consistency with the general plan.

© The Regents of the University of California

§8.137 d. Trails

The city council may reserve and except from the vacation an easement for future vehicular and nonvehicular trails for use by the public. Str & H C §8340(d).

© The Regents of the University of California

§8.138 4. Effect of Vacation

Unless the city council makes any reservations as described above, the vacation of an easement extinguishes all city-owned easements therein. Str & H C §8350. The effect of the vacation of a street varies depending on whether the city owns an easement or the title to underlying property. See §§8.139-8.140.

© The Regents of the University of California

§8.139 a. City Owns Easement Only

If the city owns only an easement, title to the property previously subject to the easement reverts to the owner of the fee free from the easement. Str & H C §8351. A rebuttable presumption exists that "an owner of land bounded by a road or street" owns to "the center of the way." CC §831. But see CC §1105 ("A fee simple title is presumed to be intended to pass by a grant of real property, unless it appears from the grant that a lesser estate was intended").

© The Regents of the University of California

§8.140 b. City Owns Underlying Property

If the city owns the title, the city council may sell or exchange the property previously subject to the easement if it is no longer needed by the public. Str & H C §8355. The purchase price for any property sold must be paid into the city treasury to the credit of a fund available for the same purposes for which the property was used that the city council designates. Str & H C §8357.

With respect to the presumption of CC §1105, a fee simple title is presumed "to pass by a grant of real property." However, this is a presumption that affects real property in general; it may yield to more specific presumptions dealing with public roads. *City of Los Angeles v Pacific Elec. Ry. Co.* (1959) 168 CA2d 224, 228, 335 P2d 1042.

The primary rule to be applied in California is that the intention of the parties governs as to whether the conveyance is of an easement or fee title. No presumption is to be applied if the words of the deed are clear. It is when the language is ambiguous that a statutory presumption controls. The phrase "right of way," for example, may be construed as referring to the transfer of either an easement or fee title, depending on the circumstances. See *City of Manhattan Beach v Superior Court* (1996) 13 C4th 232, 240 n6, 52 CR2d 82; *Severns v Union Pac. R.R. Co.* (2002) 101 CA4th 1209, 1215, 125 CR2d 100; *Machado v Southern Pac. Transp. Co.* (1991) 233 CA3d 347, 354, 359, 284 CR 560; 6 Miller & Starr, California Real Estate §15:17 (3d ed 2000). Likewise, the phrase "for road purposes" may be construed as referring either to an easement or fee title, again depending on the circumstances. *Machado,* 233 CA3d at 354, 359; *Cooper v Selig* (1920) 48 CA 228, 191 P 983. See 6 Miller & Starr §15.17. In these situations, all the relevant facts must be considered to determine the nature of the interest intended to be conveyed. See the discussion in 88 Ops Cal Atty Gen 136 (2005).

© The Regents of the University of California

§8.141 5. Agreements Not to Vacate

Local agencies may enter into written contracts providing that certain streets or highways cannot be vacated without the consent and agreement of both agencies. Str & H C §8360. Any such agreement, once ratified by resolution by both agencies, limits each agency's power to vacate or close a street except in accordance with the law and the written agreement. Str & H C §8362. The agreement must be recorded in each county in which any property through which the street or highway runs is situated. Str & H C §8363.

© The Regents of the University of California

§8.142 D. Summary Vacation Procedure

Under certain circumstances, a city may use a summary procedure for vacating a portion of a street. See generally Public Streets, Highways, and Service Easements Vacation Law (Str & H C §§8300-8363). Summary vacation procedures are not available if there are in-place public utility facilities that are in use that would be affected by the vacation. Str & H C §8334.5.

© The Regents of the University of California

1. Circumstances in Which Summary Vacation May Occur

§8.143 a. Superseded by Relocation

Summary vacation may occur when the street or highway has been superseded by relocation, unless such vacation would (Str & H C §8330):

- cut off all access to a person's property, which before relocation adjoined the street or highway; or
- terminate a public service easement unless the easement meets the criteria for summary vacation of a public service easement.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/8 Public Property/§8.144 b. Impassability and Nonmaintenance

§8.144 b. Impassability and Nonmaintenance

Summary vacation may occur when the street or highway has been impassable for vehicular travel for 5 years and no public money has been expended for maintenance during that period. Str & H C §8331.

© The Regents of the University of California

§8.145 c. Surplus

Summary vacation may occur when an excess right-of-way of a street or highway is not required for street or highway purposes. Str & H C §8334.

© The Regents of the University of California

§8.146 d. Dead Ends

Summary vacation may occur when a portion of a street or highway lies within property under one ownership and does not continue through such ownership or end touching the property of another. Str & H C §8334.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/8 Public Property/§8.147 e. Offers of Dedication on Subdivision Maps

§8.147 e. Offers of Dedication on Subdivision Maps

Summary vacation may occur when an offer of dedication is provided for on a subdivision map. Govt C §66477.2(c). Under the Subdivision Map Act, offers to dedicate on a final map are irrevocable by the grantor and can be terminated only by a statutory process by the city. See Govt C §§66463, 66475, 66477.2; *Mikels v Rager* (1991) 232 CA3d 334, 284 CR 87.

© The Regents of the University of California

§8.148 f. Public Service Easements

Cities may summarily vacate public service easements in any of the following circumstances (Str & H C §8333):

- The easement has not been used for the purpose for which it was dedicated or acquired for 5 consecutive years immediately preceding the proposed vacation.
- The date of dedication or acquisition is less than 5 years and more than 1 year immediately preceding the proposed vacation and the easement has not been used continuously since that date.
- The easement has been superseded by relocation and there are no other public facilities located within the easement.

© The Regents of the University of California

2. Procedures for Summary Vacation

§8.149 a. Resolution

The city council summarily vacates the street by adopting a resolution of vacation after submission to the planning commission. Govt C §65402. The planning commission need not review summary vacation of public service easements. Govt C §65402.

© The Regents of the University of California

§8.150 b. Recordation

The resolution of vacation must then be recorded in the office of the recorder of the county in which the property is located. From the date of such recording the vacation will be complete and the street will no longer constitute a street. Str & H C §8336(b).

PRACTICE TIP: Real property law establishes certain presumptions regarding title to land encumbered by a street easement. Vacation of a public street easement does not affect private rights in the parcel

© The Regents of the University of California

§8.151 E. Challenges to Vacation

In a decision to vacate, the governing agency must find that the street is unnecessary for present or future public use. Str & H C §8324(b). The decision is subject to judicial review. However, the decision will be overturned only if the agency has acted in an arbitrary or capricious manner. *Citizens for Improved Sorrento Access, Inc. v City of San Diego* (2004) 118 CA4th 808, 814, 13 CR3d 259.

An adjoining landowner may claim that vacation of the public street is a taking resulting in an inverse condemnation claim. *Leonard v People ex rel Dept. of Transp.* (1998) 62 CA4th 1296, 73 CR2d 328 (owners sought compensation when freeway off-ramp was moved; inverse claim was denied). Landowners abutting public roads have a collection of easement rights including the rights of view, access, light, and air. *People ex rel Dept. of Transp. v Wilson* (1994) 25 CA4th 977, 980, 31 CR2d 52.

© The Regents of the University of California

VI. STREETS AND SIDEWALKS

§8.152 A. General Regulatory Requirements

Any local regulation of the use of streets and sidewalks must be reconciled with the fact the state has preempted the field of traffic control (see §8.153). Therefore, there must be express legislative authority for the local regulation. Local regulation of streets and sidewalks cannot be arbitrary, unreasonable, or discriminatory. Govt C §37100. See also *Laura Vincent Co. v City of Selma* (1941) 43 CA2d 473, 111 P2d 17.

© The Regents of the University of California

B. Vehicular Regulations

§8.153 1. Preemption

The state has plenary power and has preempted the entire field of traffic control. See Veh C §21 ("Except as otherwise expressly provided, the provisions of this code are applicable and uniform throughout the State and in all counties and municipalities therein, and no local authority shall enact or enforce any ordinance on the matters covered by this code unless expressly authorized herein"). Unless expressly authorized by the legislature, a city, whether charter or general law, has no police power over vehicular traffic control. *Rumford v City of Berkeley* (1982) 31 C3d 545, 550, 183 CR 73; *County of Los Angeles v City of Alhambra* (1980) 27 C3d 184, 192, 165 CR 440, superseded on other grounds as stated in *County of Alameda v City of Oakland* (1987) 193 CA3d 858, 863, 238 CR 646 (parking meter regulation is a form of traffic control as to which state statutes supersede even ordinances authorized by charter); *City of Lafayette v County of Contra Costa* (1979) 91 CA3d 749, 754, 154 CR 374. But see *Xiloj-Itzep v City of Agoura Hills* (1994) 24 CA4th 620, 29 CR2d 879 (city ordinance to prohibit solicitations of persons traveling in vehicles neither preempted by state law nor facially invalid).

© The Regents of the University of California

§8.154 2. Road Closures

State law allows cities to close streets and highways under certain circumstances. See Veh C §21101. This includes closing streets for driver training (Veh C §21101(d)), for parades and special events (Veh C §21101(e)), and for school safety when the road divides school grounds (see Veh C §21102). Cities may also temporarily close a highway under its jurisdiction to through traffic under certain circumstances as a way of dealing with criminal activity in that area after a public hearing and based on certain findings. See Veh C §21101.4. Certain state approval and public notice requirements may apply to street closures. See Veh C §§21103-21104. Cities may also restrict vehicular or pedestrian traffic through alleys where such restriction is necessary for the protection or preservation of the public peace, safety, health, or welfare subject to certain conditions. See Veh C §21102.1.

© The Regents of the University of California

§8.155 a. To Implement Circulation Element

State law authorizes cities to prohibit entry to, or exit from, or both entry to and exit from, any street by means of islands, curbs, traffic barriers, or other roadway design features to implement the circulation element of the general plan. See Veh C §21101(f). Compare *Uhler v City of Encinitas* (1991) 227 CA3d 795, 278 CR 157 (because city had not adopted rules and regulations required to be adopted under Veh C §21101(f) before approval of traffic barrier with curb, barrier was in violation of Vehicle Code), with *City of Poway v City of San Diego* (1991) 229 CA3d 847, 280 CR 368 (section confers no authority to close portion of regional road) and *Carsten v City of Del Mar* (1992) 8 CA4th 1642, 1650, 11 CR2d 252 (concerning adoption of traffic control plan). Any action to close a street must be consistent with local government's duty to provide for the health and safety of its citizens and nonresident members of the public. *City of Hawaiian Gardens v City of Long Beach* (1998) 61 CA4th 1100, 72 CR2d 134.

© The Regents of the University of California

§8.156 b. Selective Access

Local authorities may not place gates or other selective devices on any street that have the effect of denying or restricting the access of certain members of the public to the street, while permitting others unrestricted access to the street. Veh C §21101.6. See *Citizens Against Gated Enclaves v Whitley Heights Civic Assoc.* (1994) 23 CA4th 812, 28 CR2d 451 (homeowners association precluded from excluding public notwithstanding city's purported withdrawal of streets from public use). See also *Rumford v City of Berkeley* (1982) 31 C3d 545, 550, 183 CR 73; *City of Lafayette v County of Contra Costa* (1979) 91 CA3d 749, 154 CR 374 (striking down ordinance closing road to all but certain "exempt" motorists); 68 Ops Cal Atty Gen 101 (1985). But see Veh C §21107.7 (relating to private roads).

© The Regents of the University of California

3. Parking

§8.157 a. Preemption

The regulation of parking on public streets, as an adjunct to traffic regulation, is preempted by state law. *County of Los Angeles v City of Alhambra* (1980) 27 C3d 184, 192, 165 CR 440, superseded on other grounds as stated in *County of Alameda v City of Oakland* (1987) 193 CA3d 858, 863, 238 CR 646 (parking meter regulation is a form of traffic control as to which state statutes supersede even ordinances authorized by charter).

© The Regents of the University of California

§8.158 b. Broad Delegation to Local Entities

"The initial grant of power in [California Vehicle Code] section 22507 broadly empowered localities to regulate parking within their jurisdictions. The subsequent statutory amendments to section 22507 have expanded rather than restricted the powers accorded local government over parking matters." *Friedman v Beverly Hills* (1996) 47 CA4th 436, 54 CR2d 882.

© The Regents of the University of California

§8.159 c. Local No-Parking Regulations

The parking of any type vehicle on certain streets or highways may be prohibited or restricted, during all or certain hours of a day, where signs or markings giving adequate notice of such regulations have been placed. Veh C §22507. "The language of section 22507, harmonized and read as a whole, shows that the state … decided to turn over regulation of parking minutiae to localities." *Friedman v City of Beverly Hills* (1996) 47 CA4th 436, 443, 54 CR2d 882.

© The Regents of the University of California

d. Permitted Regulations

§8.160 (1) Time Restrictions

Cities may, by ordinance or resolution, prohibit or otherwise restrict the stopping, parking, or standing of vehicles on certain streets or highways, or portions thereof, during all or certain hours of the day. Veh C §22507. Restrictions can be applied to "any type of vehicle." *People v Garth* (1991) 234 CA3d 1797, 1800, 286 CR 451 (involving the parking of a boat trailer). Signs or markings giving adequate notice are required. *Homes on Wheels v City of Santa Barbara* (2004) 119 CA4th 1173, 15 CR3d 132.

Cities may, by ordinance or resolution, prohibit or restrict the parking of vehicles on certain streets or highways or portions thereof, between the hours of 2:00 a.m. and 6:00 a.m. Veh C §22507.5. The local law may provide for a permit system for purposes of exempting certain individuals. Veh C §22507.5.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/8 Public Property/§8.161 (2) Commercial Vehicles on Residential Streets; Two- or Three-Wheeled Motor Vehicles; Vending Vehicles

§8.161 (2) Commercial Vehicles on Residential Streets; Two- or Three-Wheeled Motor Vehicles; Vending Vehicles

Cities may, by ordinance or resolution, prohibit or restrict the parking of vehicles on residential streets or portions thereof, of commercial vehicles having a manufacturer's gross vehicle weight rating of 10,000 pounds or more. Veh C §22507.5.

Cities may establish special parking regulations for two-wheeled or three-wheeled motor vehicles. Veh C §22503.5.

Cities have authority to impose public safety regulations on vehicles vending on city streets, including regulating the type of vending and the time, place, and manner of vending. Veh C §22455; Health & S C §§113709, 114315.

© The Regents of the University of California

§8.162 (3) State Highways; Private Driveways; Off-Street Parking Facilities

Cities may, with approval of the state Department of Transportation, prohibit or restrict parking of vehicles on a state highway within the city. Veh C §22506.

Cities may adopt ordinances authorizing a property owner to park a vehicle in front of the property owner's private driveway on issuance of a permit. Veh C §22507.2.

Cities may adopt ordinances regulating or prohibiting the parking of vehicles in any off-street parking facility that the locality owns or operates. Veh C §22519.

© The Regents of the University of California

§8.163 (4) Street Cleaning; Preferential Parking Regulations

Cities may prohibit or restrict parking on designated streets or highways for the purpose of street cleaning. Veh C §22507.6.

Cities may authorize preferential parking permits for members of organizations, professions, school personnel, or other designated groups to park on specified streets if the city determines that the use of the permits will not adversely affect parking conditions for residents and merchants in the area. Veh C §22507(b).

© The Regents of the University of California

§8.164 (5) Other Regulations

Cities may adopt ordinances:

- establishing parking meter zones and white-lined designated parking spaces within which a vehicle must park (Veh C §22508);
- requiring the blocking of wheels when vehicles are on hills in business or residential districts (Veh C §22509);
- prohibiting parking on streets or highways for the purpose of snow removal (Veh C §22510);
- designating special parking for disabled persons and disabled veterans (Veh C §§22511.7-22511.8);
- reducing the state's 15-foot prohibited distance from a fire hydrant (Veh C §22514); and
- establishing programs and procedures for the abatement and removal, as public nuisances, of abandoned, wrecked, dismantled, or inoperable vehicles from private or public property (Veh C §§22660-22661, 22671).

© The Regents of the University of California

§8.165 4. Trucks

The legislature has made a limited delegation of authority to cities to regulate the height, weight, routes, and parking of vehicles. Local authorities face greater limitations in attempting to regulate the routing of hazardous materials and explosives. See §§8.166-8.170. Any regulation in this area cannot be arbitrary, unreasonable, or confiscatory. See Govt C §37100. See also *Pipoly v Benson* (1942) 20 C2d 366, 125 P2d 482; *People v Tolman* (1980) 110 CA3d Supp 6, 168 CR 328.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/8 Public Property/§8.166 a. Height Restriction for Parking

§8.166 a. Height Restriction for Parking

Local authorities may prohibit or restrict the stopping, parking, or standing of vehicles, including trucks, that are six feet or more in height (including any load thereon) within 100 feet of any intersection. Veh C §22507.

© The Regents of the University of California

b. Routes

§8.167 (1) Highway and Residential Street Restrictions

Local authorities may prohibit the use of particular highways by certain vehicles. Veh C §21101(c). This has been interpreted to prohibit certain classes of vehicles, "such as trucks, or tractors, or oversize or 'excessively noisy' vehicles, or those lacking air-inflated tires," from using particular highways. *City of Lafayette v County of Contra Costa* (1979) 91 CA3d 749, 756 n2, 154 CR 374. See also 73 Ops Cal Atty Gen 13, 20 (1990). However, local restrictions related to price, route, or service of any commercial vehicles must be based on a safety concern or a size or weight restriction; otherwise they will be preempted by federal law. *California Dump Truck Owners Ass'n v Davis* (ED Cal 2002) 302 F Supp 2d 1139, 1144 (citing 49 USC §14501(c)(1)). Cities may prohibit certain commercial vehicles that exceed a maximum gross weight from using residential streets. Veh C §35701.

© The Regents of the University of California

§8.168 (2) Restrictions Based on Cargo

The Attorney General has opined that Veh C §21101(c) grants a city very limited authority to restrict the roadways on which hazardous material is transported within its jurisdiction. 67 Ops Cal Atty Gen 1 (1984). The city may not use this limited authority to circumvent the legislature's statewide program of licensing and inspection by the California Highway Patrol (CHP) of those transporting hazardous material. When the CHP adopts regulations under Veh C §33000 designating, among other things, routes for hazardous wastes, those regulations will prevail over conflicting local ordinances. 67 Ops Cal Atty Gen 1, 5 (1984).

© The Regents of the University of California

§8.169 (3) Local Regulation of Transportation of Explosives

When transporting explosives through or into a city or any other congested area for which a route has not been designated by the CHP, state law requires drivers to follow such routes as may be prescribed or established by local authorities. Veh C §31614(a). See also Veh C §31616 (pertaining to CHP's routing regulations); 67 Ops Cal Atty Gen 1, 6, 7 (1984).

© The Regents of the University of California

§8.170 (4) Standard for Local Height, Weight, and Routing Regulations

Local height, weight, and routing regulations cannot be arbitrary, unreasonable, or confiscatory. *Skyline Materials, Inc. v City of Belmont* (1961) 198 CA2d 449, 454, 18 CR 95. See also *San Leandro Rock Co. v City of San Leandro* (1982) 136 CA3d 25, 185 CR 829.

© The Regents of the University of California

5. Bicycles, Roller Skates, and Skateboards

§8.171 a. Bicycles and Electric Carts on Sidewalks

Local authorities may regulate the "operation of bicycles" and the operation of electric carts by physically disabled persons, or persons over 50 years of age, on the public sidewalks. Veh C §21100(h). See also Veh C §21114.5. Bicycle riders under 18 must wear a helmet. Veh C §21212.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/8 Public Property/§8.172 b. Bicycle Parking; Bicycle Lanes

§8.172 b. Bicycle Parking; Bicycle Lanes

Local authorities may prohibit bicycle parking in designated areas of the public highway. No person may leave a bicycle on its side on a sidewalk. Veh C §21210.

Local authorities may establish bicycle lanes by ordinance or resolution. Veh C §21207.

© The Regents of the University of California

§8.173 c. Roller Skates

A local authority may adopt rules and regulations regulating persons engaged in roller skating on a highway, sidewalk, or roadway. Veh C §21969. Roller skaters under 18 must wear a helmet. Veh C §21212.

© The Regents of the University of California

§8.174 d. Skateboarding and Nonmotorized Scooters

Except as provided in Veh C §21968, a local authority may regulate, prohibit, or restrict persons from riding or propelling skateboards on highways, sidewalks, or roadways. Veh C §21967. Motorized skateboards may not be used on any sidewalk, roadway, highway, bikeway, bicycle path or trail, equestrian trail, or hiking or recreational trail. Veh C §21968. Skateboarders and operators of nonmotorized scooters under 18 must wear a helmet while operating a skateboard or nonmotorized scooter on a public street, bikeway, or other public bike path or trail. Veh C §21212.

Source: General Interest/The California Municipal Law Handbook/8 Public Property/§8.175 e. Motorized Scooters; Segways and Other Mobility Devices

§8.175 e. Motorized Scooters; Segways and Other Mobility Devices

The operation and licensing requirements for motorized scooters is described in Veh C §§21220-21235. Regulations relating to personal assistive mobility devices are found in Veh C §§21280-21282.

© The Regents of the University of California

§8.176 C. Regulation of Activities on Streets and Sidewalks

When the state has relinquished its power to regulate the use of streets in favor of local authorities, the latter may enact regulating ordinances. But the regulations must not conflict with the general law, must be reasonable, and must not abridge constitutional rights. *In re Bodkin* (1948) 86 CA2d 208, 194 P2d 588; *Simpson v Los Angeles* (1935) 4 C2d 60, 47 CR 474; 37 Cal Jur 3d, Highways and Streets §63.

© The Regents of the University of California

§8.177 1. Freedom of Speech and Assembly

A municipal ordinance against crowding of sidewalks by persons congregating so as to obstruct free passage is a valid regulation though it may result in the incidental curtailment of the constitutional right of peaceable assembly and free speech. The same is true of an ordinance prohibiting the holding of meetings in streets or regulating loud speakers on highways. *Roulette v City of Seattle* (9th Cir 1996) 97 F3d 300 (ordinance prohibiting sleeping on sidewalks in commercial areas between certain hours did not violate free speech or substantive due process rights); *Los Angeles Alliance for Survival v City of Los Angeles* (2000) 22 C4th 352, 93 CR2d 1 (only intermediate scrutiny review need be done on ordinances regulating aggressive panhandling); *Chavez v Municipal Court of Visalia Judicial Dist.* (1967) 256 CA2d 149, 64 CR 76; *Haggerty v County of Kings* (1953) 117 CA2d 470, 256 P2d 393; *In re Bodkin* (1948) 86 CA2d 208, 194 P2d 588; *In re Thomas* (1909) 10 CA 375, 102 P 19. But see *American Civil Liberties Union v City of Las Vegas* (9th Cir 2003) 333 F3d 1092, cert denied (2004) 540 US 1110 (applying First Amendment "forum analysis" to conclude that public street cannot be turned into pedestrian mall that is nonpublic forum where leafleting, vending of materials with messages, solicitation, and use of tables can be barred).

For discussion of free speech and the First Amendment, see §§9.118-9.153.

© The Regents of the University of California

§8.178 2. Permitted Regulation

State law authorizes local rules and regulations on several matters other than traffic and parking (Veh C §21100):

- Processions or assemblages on the highways.
- Vehicles for hire and drivers of passenger vehicles for hire. See also Veh C §21112.
- Tow truck service or tow truck drivers. See Veh C §§21100(g), 22650, 22651.1, 22658(k)-(*l*), 22658.1, 22850.5; *City of Columbus v Ours Garage & Wrecker Serv., Inc.* (2002) 536 US 424, 153 L Ed 2d 430, 122 S Ct 2226 (local regulation of prices, routes, or services of tow trucks involved in consensual tows must be genuinely responsive to safety concerns to be exempt from federal preemption; on the other hand, regulation of non-consensual tows are not preempted). See also *People v Servantes* (2001) 86 CA4th 1081, 103 CR2d 870 (city regulation based on safety aspect of towing not preempted; court upholds unlawful business practices judgment in favor of city). But see *CPF Agency Corp. v R & S Towing Serv.* (2005) 132 CA4th 1014, 34 CR3d 106 (criticizing *Servantes* but upholding statute based on nonconsensual towing exception).
- Bicycles and electric carts.
- Crossing guards.
- Methods of deposit of garbage and refuse in streets and highways for collection.
- Cruising.

Cities also have authority to license and regulate the location of stands for taxicabs and other public carriers for hire. Veh C §21112. But see *People v Levering* (1981) 122 CA3d Supp 19, 176 CR 297.

Local authorities may permit limited use of golf carts on highways. Veh C §21115.

© The Regents of the University of California

D. Streets and Sidewalks: Americans with Disabilities Act Requirements

§8.179 1. Existing Facilities

If a public entity has responsibility or authority over streets, roads, or walkways, its transition plan must include a schedule for providing curb ramps or other sloped areas where pedestrians cross curbs, giving priority to walkways serving entities covered by the Americans with Disabilities Act of 1990 (ADA) (42 USC §§12101-12213), including state and local government offices and facilities, transportation, places of public accommodation, and employers, followed by walkways serving other areas. 28 CFR §35.150(d)(2).

© The Regents of the University of California

§8.180 2. New Construction and Alterations

Newly constructed or altered streets, roads, and highways must contain curb ramps or other sloped areas at any intersection having curbs or other barriers to entry from a street level pedestrian walkway. Newly constructed or altered street level pedestrian walkways must contain curb ramps or other sloped areas at intersections to streets, roads, or highways. 28 CFR §35.151(e).

© The Regents of the University of California

§8.181 3. *Barden v City of Sacramento*

In *Barden v City of Sacramento* (9th Cir 2002) 292 F3d 1073, the Ninth Circuit decided that public sidewalks are a service, program, or activity of the city within the meaning of Title II of the Americans with Disabilities Act (ADA) (42 USC §§12131-12165). When the city petitioned the United States Supreme Court for a writ of certiorari, which the Court denied (*City of Sacramento v Barden* (2003) 539 US 958, 156 L Ed 2d 656, 123 S Ct 2639), the Supreme Court asked the Solicitor General to express the views of the United States on the case. See *City of Sacramento v Barden* (2003) 537 US 1231, 155 L Ed 2d 195, 123 S Ct 1383. In its amicus curiae brief, the Solicitor General expressed the following views (Brief for the Solicitor General as Amicus Curiae at 16, *City of Sacramento v Barden,* US. No. 02-815 (May 2003), cert denied (2003) 539 US 958.

(1) With respect to existing sidewalks, the Title II regulations require only that the city's *system* of public sidewalks—when viewed "in its entirety"—be generally accessible to and usable by individuals with disabilities. As a result, petitioners were incorrect in stating that "Sacramento must undertake to make *each* sidewalk accessible, … much less that every sidewalk … [in] the Ninth Circuit arguably must now be made ADA compliant."

(2) With respect to existing sidewalks, the city is not required to take any action that would result in undue financial or administrative burdens. At the same time, it is likely that many basic impediments to sidewalk access could be removed by the city at relatively small burden or expense. For example, common barriers to sidewalk access by those with disabilities include newspaper boxes, benches, and plant growth that likely could be moved to widen sidewalks to allow wheelchair access or eliminate obstacles posing a danger to visually impaired pedestrians without great effort or expense. In addition, in the case of obstacles that are more difficult to remove or structural flaws, a court might conclude that a city's adoption of a plan designed to address such flaws over a reasonable period of time was sufficient to comply with Title II and Section 504. Certainly, the existence of some potentially costly modifications should not provide an excuse for failing to make less costly adjustments, especially in light of the regulatory exception that exists for alterations that would entail *undue* financial burdens.

© The Regents of the University of California

§8.182 4. Requirements and Deadlines

Title II of the Americans with Disabilities Act (ADA) (42 USC §§12131-12165) requires public agencies to perform a self-evaluation. 28 CFR §35.105. This assessment of policies and practices is required to be kept for public inspection for a period of 3 years for those public agencies that employ 50 or more people. 28 CFR §35.105(c). Public agencies are further required to do a transition plan for structural changes to existing facilities and to complete structural modifications as quickly as possible. 28 CFR §35.150(c)-(d). New construction or alterations have to meet either the Uniform Federal Accessibility Standards (UFAS) or the Americans with Disabilities Act Accessibility Guidelines for Buildings and Facilities (ADAAG) standards for new construction. 28 CFR §35.151. Public agencies that employ 50 or more people are required to have a person designated as the ADA coordinator and to have a grievance procedure to resolve complaints. 28 CFR §35.107.

© The Regents of the University of California

§8.183 5. Transition Plans

The minimum requirements for a transition plan are the following (28 CFR §35.150(d)(3)):

- Identify physical obstacles in the public entity's facilities that limit the accessibility of its programs or activities to individuals with disabilities;
- Describe in detail the methods that will be used to make the facilities accessible;
- Specify the schedule for taking the steps necessary to achieve compliance with this section, and, if the time period of the transition plan is longer than 1 year, identify steps that will be taken during each year of the transition period; and
- Indicate the official responsible for implementation of the plan.

© The Regents of the University of California

§8.184 6. Curb Ramps

The technical requirements for curb ramps are found in §4.7 of the Americans with Disabilities Act Accessibility Guidelines for Buildings and Facilities (ADAAG) standards. The truncated dome requirement is at §4.29.2 of the ADAAG standards. 28 CFR pt 36, App A.

§9.1 I. INTRODUCTION

Municipal licensing or permitting is a device commonly used for generation of revenue and enforcement of police power regulations. McQuillin, Municipal Corporations §26.22 (3d rev ed 1988). This chapter discusses municipal licensing of businesses and occupations (see §§9.2-9.60), personal conduct (see §§9.61-9.156), and animals (see §§9.157-9.183).

For further discussion of topics covered by this chapter, see generally California Land Use Practice (Cal CEB 2006); California Landlord-Tenant Practice (2d ed Cal CEB 1997); Financing and Protecting California Businesses, chap 14 (Cal CEB 2006); Professional Licensing: Disciplinary Practice in California (Cal CEB 2008).

© The Regents of the University of California

II. REGULATING BUSINESSES AND OCCUPATIONS

A. Business Licensing and Regulation

§9.2 1. Authority

With certain exceptions, cities may license, for revenue and regulation, every kind of lawful business transacted in the city. Govt C §37101; Bus & P C §16000. The validity of such delegation of the licensing power is well settled. *West Coast Adver. Co. v San Francisco* (1939) 14 C2d 516, 95 P2d 138.

Cities may regulate rates absent legislative enactment conferring jurisdiction elsewhere (see, *e.g.,* Cal Const art XII, §3 (Public Utilities Commission jurisdiction over privately owned utilities' rates)). For example, a city may establish the rate to be charged for taxicab service within its limits. Govt C §53075.5; *In re Martinez* (1943) 22 C2d 259, 138 P2d 10, overruled on other grounds in *People v Western Airlines, Inc.* (1954) 42 C2d 621, 642, 268 P2d 723.

On business license taxes, see §§5.35-5.46.

© The Regents of the University of California

2. Limitations

§9.3 a. Preemption

Although the enabling legislation authorizes licensing for "revenue-raising" as well as "regulatory" purposes, the distinction between the two is important. An attempt to regulate under the guise of revenue-raising in an area in which city regulation is preempted will be found invalid. See, *e.g., City & County of San Francisco v Boss* (1948) 83 CA2d 445, 189 P2d 32 (city ordinance went beyond revenue-raising purpose to regulate field occupied by State Contractors' Law); *Verner, Hilby & Dunn v City of Monte Sereno* (1966) 245 CA2d 29, 53 CR 592 (city's ordinance invalid to extent it regulated provision of civil engineering and surveying services, both fields having been preempted by state law).

© The Regents of the University of California

§9.4 b. Commerce Clause

Only Congress has the power "to regulate commerce with foreign nations, and among the several states, and with the Indian tribes." US Const art I, §8, cl 3. In addition to being an affirmative grant of authority to Congress, the commerce clause also prohibits state and local regulations that unduly interfere with interstate commerce. See *Quill Corp. v North Dakota* (1992) 504 US 298, 119 L Ed 2d 91, 112 S Ct 1904, cited in *Woosley v State* (1992) 3 C4th 758, 13 CR2d 30 (finding state's practice of imposing higher vehicle license fees on vehicles originally purchased outside of California violates dormant commerce clause).

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/9 Regulating Businesses and Personal Conduct/§9.5 c. First Amendment

§9.5 c. First Amendment

Certain businesses have First Amendment protection and thus cannot be singled out for regulation or taxation. See *Minneapolis Star & Tribune Co. v Minnesota Comm'r of Revenue* (1983) 460 US 575, 75 L Ed 2d 295, 103 S Ct 1365, discussed in §5.98.

PRACTICE TIP: When drafting a business license ordinance, be sure to consider the following exemptions:

- Manufacture, sale, purchase, possession, and transportation of alcoholic beverages (see Cal Const art XX, §22);
- Bail bond agents (see *Hughes v Los Angeles* (1914) 168 C 764);
- Banks and financial corporations (see Rev & T C §23182);
- Blind person operating a vending facility (see Welf & I C §19633);
- Café musicians (see Bus & P C §16000.5);
- Minister, rabbi, or priest (see Bus & P C §16000(b) and Rev & T C §7284.1);
- Insurance company that pays an in-lieu tax or premium (see Cal Const art XIII, §28);
- Intercity transportation business (see Pub Util C §5327);
- Laundry equipment (see Bus & P C §16002.2);
- Public utility franchise (see Pub Util C §§1011, 6001);
- Real estate auctioneer (see Bus & P C §16002.1);
- Veterans (see Bus & P C §§16000.7, 16001, 16001.5);
- Wholesaler/commercial traveler (see Bus & P C §16002);
- Residential care facility or residential family day care home of six people or less, or a small family day care home of eight children or less (see Health & S C §§1523.1(1), (3), 1566.2, 1568.05(b), 1569.185(a), 1596.803(a)(3), 1597.45(b));
- Nonprofit organizations (see Cal Const art XIII, §26).

© The Regents of the University of California

B. Specific Types of Regulated Businesses

1. Adult Businesses

§9.6 a. Bans on Public Nudity

The United States Supreme Court has established that nude dancing is on the outer margins of First Amendment protection. Although the United States Supreme Court has approved certain restrictions on full nudity, *e.g.,* pasties and g-string requirements, lower courts have not consistently followed suit.

The analysis for determining whether a nudity restriction is constitutional is as follows (*U.S. v O'Brien* (1968) 391 US 367, 376, 20 L Ed 2d 672, 88 S Ct 1673): [good re-org]

- Is the governmental interest sufficiently justified by being within the constitutional powers of government?
- Does the regulation further an important or substantial governmental interest?
- Is the governmental interest unrelated to the suppression of free expression?
- Is the incidental restriction on alleged First Amendment freedoms not greater than what is essential to the furtherance of that interest?

See *Barnes v Glen Theatre, Inc.* (1991) 501 US 560, 115 L Ed 2d 504, 111 S Ct 2456 (applying four-part test enunciated in *U.S. v O'Brien, supra*). See also *City of Erie v Pap's A.M.* (2000) 529 US 277, 146 L Ed 2d 265, 120 S Ct 1382 (upholding city's ban on public nudity on ground that its substantial interest in combating negative secondary effects resulted in only de minimus intrusion on expressive activity). But see *Triplett Grille, Inc. v City of Akron* (6th Cir 1994) 40 F3d 129.

© The Regents of the University of California

§9.7 b. Location Restrictions

Restrictions on where adult businesses may be located are analyzed as content-neutral, "time, place and manner" restrictions. See *City of Renton v Playtime Theatres, Inc.* (1986) 475 US 41, 89 L Ed 2d 29, 106 S Ct 925 (upholding zoning ordinance that prohibited adult motion picture theaters within 1000 feet of any residential dwelling, church, park, or school). See also *City of Nat'l City v Wiener* (1992) 3 C4th 832, 12 CR2d 701, cert denied (1993) 510 US 824 (upholding ordinance prohibiting adult business from locating within 1500 feet of another adult business, 1500 feet of school or public park, or 1000 feet of any residentially zoned property). The analysis for determining whether a location restriction is constitutional is as follows:

- Is the restriction indeed a content-neutral "time, place and manner" regulation on where such businesses may locate?
- Is the restriction designed to serve a substantial governmental interest?
- Is the restriction narrowly tailored to serve that interest?
- Does the restriction allow for reasonable alternative avenues of communication?

See *City of Renton v Playtime Theatres, Inc.* (1986) 475 US 41, 89 L Ed 2d 29, 106 S Ct 925.

© The Regents of the University of California

§9.8 (1) Content Neutrality

Government regulation of expressive activity is content-neutral if it is justified without reference to the content of the regulated speech. *Clark v Community for Creative Non-Violence* (1984) 468 US 288, 293, 82 L Ed 2d 221, 104 S Ct 3065. The courts will not look behind the city's stated motivation to find some allegedly illicit motivation. *City of Renton v Playtime Theatres, Inc.* (1986) 475 US 41, 48, 89 L Ed 2d 29, 106 S Ct 925 (quoting *U.S. v O'Brien* (1968) 391 US 367, 383, 20 L Ed 2d 672, 88 S Ct 1673).

© The Regents of the University of California

§9.9 (2) Substantial Governmental Interest

A city's interest in attempting to preserve the quality of urban life qualifies as a "substantial governmental interest." See *City of Renton v Playtime Theatres, Inc.* (1986) 475 US 41, 89 L Ed 2d 29, 106 S Ct 925 (quoting *Young v American Mini Theatres, Inc.* (1976) 427 US 50, 49 L Ed 2d 310, 96 S Ct 2440). A city may show this interest by presenting evidence that adult businesses are a source of urban decay and have in fact led to the secondary effects the restriction seeks to curtail. *City of Nat'l City v Wiener* (1992) 3 C4th 832, 12 CR2d 701, cert denied (1993) 510 US 824 (finding that city demonstrated that distance regulations are designed to serve substantial governmental interest in decreasing blight and crime, shifting part of regulatory burden to private sector by placing adult businesses in enclosed shopping malls designed to minimize negative secondary effects, and protecting city's tax base).

© The Regents of the University of California

§9.10 (3) Narrowly Tailored

A restriction is "narrowly tailored" if it promotes a substantial governmental interest that would be achieved less effectively absent the regulation. As long as the means chosen are not substantially broader than necessary to achieve the government's interest, the regulation will not be invalid simply because a court concludes that the government's interest could be adequately served by some less speech-restrictive alternative. *Ward v Rock Against Racism* (1989) 491 US 781, 105 L Ed 2d 661, 109 S Ct 2746.

© The Regents of the University of California

§9.11 (4) Reasonable Alternative Avenues of Communication

The lack of currently available sites for adult businesses, the unwillingness of owners of available sites to rent them for adult uses, and the considerable cost of buying and building one's own site does not establish that an ordinance fails to provide reasonable alternative avenues of communication. *City of Nat'l City v Wiener* (1992) 3 C4th 832, 847, 12 CR2d 701, cert denied (1993) 510 US 824. See also *City of Vallejo v Adult Books* (1985) 167 CA3d 1169, 1180, 213 CR 143, cert denied (1986) 475 US 1064 (evidence of considerable economic difficulty of locating adult uses at legally permissible sites in city falls far short of establishing that owner is foreclosed or unreasonably restricted from effectively operating within city limits).

© The Regents of the University of California

§9.12 c. Permit Requirements and Operating Restrictions

Licensing ordinances must provide objective standards for the exercise of discretion in whether to grant the license; licensing schemes that place "unbridled discretion in the hands of a government official or agency" constitute an impermissible prior restraint on First Amendment rights. *FW/PBS, Inc. v City of Dallas* (1990) 493 US 215, 225, 107 L Ed 2d 603, 110 S Ct 596 (plurality opinion); *Smith v County of Los Angeles* (1989) 211 CA3d 188, 259 CR 231. The ordinance must also place limits on the time within which the decision-maker must issue the license. *Smith v Los Angeles County, supra*. See also *J.L. Thomas, Inc. v County of Los Angeles* (1991) 232 CA3d 916, 283 CR 815; *People v Library One* (1991) 229 CA3d 973, 280 CR 400; *Ebel v City of Garden Grove* (1981) 120 CA3d 399, 176 CR 312.

A licensing scheme involving a prior restraint must provide an avenue for prompt judicial review and decision in the event the license is denied, suspended, or revoked. *City of Littleton v Z. J. Gifts D-4, L.L.C.* (2004) 541 US 774, 159 L Ed 2d 84, 124 S Ct 2219; *Baby Tam & Co. v City of Las Vegas* (9th Cir 2000) 199 F3d 1111; *4805 Convoy, Inc. v City of San Diego* (9th Cir 1999) 183 F3d 1108. An ordinance prohibiting adult cabaret patrons from touching performers and imposing a requirement for a two-foot separation between patrons and dancers has been upheld against a freedom of speech and expression challenge. *Gammoh v City of La Habra* (9th Cir 2005) 395 F3d 1114, amended (9th Cir 2005) 402 F3d 875, cert denied (2005) 546 US 871.

PRACTICE TIP: Although cities cannot control the time within which judicial review is provided, cities should take all steps to ensure prompt administrative decisions. The provisions of CCP §1094.8 now provide for expedited judicial review and procedures for permits involving First Amendment activities.

© The Regents of the University of California

d. Adult Publications

§9.13 (1) Newsrack Restrictions

An ordinance restricting sale of adult newspapers from newsracks is unconstitutional when it is not aimed at preventing the secondary effects of such newsracks on the surrounding neighborhood. *Sebago, Inc. v City of Alameda* (1989) 211 CA3d 1372, 259 CR 918 (finding ordinance was not content-neutral and thus had to be justified by compelling state interest).

The provisions of Pen C §313.1 make it unlawful to sell or display harmful matter, as defined in Pen C §313(c), by means of an unsupervised vending machine located in a public place. The Attorney General has opined that this statute is constitutional, distinguishing *Sebago, Inc. v City of Alameda, supra,* on grounds that the ordinance regulated material that the state had not determined to be harmful to minors. See 77 Ops Cal Atty Gen 235 (1994). On regulation of newsracks, see §9.129.

© The Regents of the University of California

§9.14 (2) Display Restrictions

The California Penal Code prohibits the display of certain kinds of adult publications in areas accessible to minors. Pen C §313.1(d). Such prohibitions have withstood constitutional challenge. See *Crawford v Lungren* (9th Cir 1996) 96 F3d 380, cert denied (1997) 520 US 1117 (upholding constitutionality of ban on sale, display, or offer of "harmful matter" from unsupervised vending machines under Pen C §313.1(c)). A city may adopt an ordinance that restricts the display of adult publications to minors in public places by requiring the use of blinder racks to shield a portion of the involved materials from view. Pen C §313.1(d). See *Berry v City of Santa Barbara* (1995) 40 CA4th 1075, 47 CR2d 661. Attempts to restrict the display of adult publications by other means have met with mixed results. See *American Booksellers Ass'n, Inc. v Superior Court* (1982) 129 CA3d 197, 181 CR 33 (invalidating requirement that adult publications be sealed or stapled because it prevented adults as well as minors from accessing materials); *Gluck v County of Los Angeles* (1979) 93 CA3d 121, 155 CR 435 (upholding ordinance prohibiting display of certain adult materials from public view from highway).

© The Regents of the University of California

§9.15 e. Nuisance

The Red Light Abatement Law defines the following as public nuisances: buildings or places used for illegal gambling, lewdness, assignation, or prostitution, or places used as bathhouses whose activities promote sexually transmitted diseases. The city attorney may maintain an action to abate and enjoin the nuisance. See Pen C §§11225-11235.

© The Regents of the University of California

§9.16 f. Other Resources on Regulating Adult Businesses

For more information on this topic, see *Current Adult Business Issues* (City Attorney's Department Meeting, May 1999); and *Regulation of Adult Businesses —Traps for the Unwary* (City Attorney's Department Meeting, May 2000).

Related material is also discussed in the following sections in this handbook:

- Constitutional limits on municipal authority and First Amendment (see §§1.58-1.64);
- Business license taxes (see §§5.35-5.46);
- Municipal services and utilities, public transportation (see §§6.120-6.138);
- Rent control (see §§9.47-9.60);
- Special zoning issues involving adult entertainment (see §§10.131-10.132);
- Protecting the environment (see chap 11); and
- Code enforcement (see chap 12).

© The Regents of the University of California

§9.17 2. Alcoholic Beverages

The state has the exclusive right and power to license and regulate the sales of alcoholic beverages. Cal Const art XX, §22. Nevertheless, cities retain the right to regulate specific matters related to the sale, possession, and consumption of alcohol.

© The Regents of the University of California

§9.18 a. Nuisance

A city may adopt an ordinance regulating nuisance or criminal activities associated with alcohol sales. *Korean Am. Legal Advocacy Found. v City of Los Angeles* (1994) 23 CA4th 376, 28 CR2d 530. See also *City of Oakland v Superior Court* (1996) 45 CA4th 740, 53 CR2d 120 (municipal ordinance regulating nuisance or criminal activities associated with alcohol sales, and imposing regulatory fee based on costs of administering ordinance, not preempted). However, there may be limited preemption of city regulations for uses that preexisted an ordinance regulating alcohol sales. See Bus & P C §23790; *Boccato v City of Hermosa Beach* (1994) 29 CA4th 1797, 35 CR2d 282.

Cities may also declare a building or place where liquor is unlawfully sold a public nuisance. See Pen C §11200. The city attorney may maintain an action to abate and prevent the nuisance. Pen C §§11200-11201.

© The Regents of the University of California

§9.19 b. Alcohol Consumption

Cities retain authority to regulate the consumption of alcoholic beverages. See *People v Brewer* (1991) 235 CA3d 909, 1 CR2d 146; *People v Butler* (1967) 252 CA2d Supp 1053, 59 CR 924. Regulation of mere possession of alcohol, however, is unconstitutional absent specific legislative authorization. *People v Duran* (1995) 43 CA4th Supp 1, 52 CR2d 79 (ordinance prohibiting possession in public of open container with intent to consume void). See Pen C §647(e) (authorizing city regulation of possession of open container on certain licensed premises); Bus & P C §25620 (authorizing city regulation of open container in city-owned public place).

© The Regents of the University of California

§9.20 c. Combined Alcohol and Gasoline Sales

Cities have limited authority to regulate the concurrent sale of gasoline and beer or wine at a given location as defined by statute. See Bus & P C §23790.5.

© The Regents of the University of California

§9.21 d. Licensing

All businesses wishing to sell alcohol in California must submit an application for and obtain a license from the State Department of Alcoholic Beverage Control (the Department). A city may determine that there is an "undue concentration" of off-sale beer and wine licenses in a given location and that the public convenience and necessity would not be served by approval of the proposed license. See Bus & P C §23958.4. If the city makes that determination, that by itself will preclude the Department from issuing the license. Bus & P C §§23958, 23958.4.

© The Regents of the University of California

§9.22 3. Ambulances

Cities may regulate the operations of ambulances within their jurisdiction. Govt C §§38794, 53313(b). Many cities provide paramedic and/or ambulance services through their fire departments. The provisions of Health & S C §1797.201 allow cities that provided pre-hospital emergency services within their jurisdictions on June 1, 1980, the option to continue to provide such services, or to contract with the county to provide all or a portion of such services. *County of San Bernardino v City of San Bernardino* (1997) 15 C4th 909, 64 CR2d 814. However, the provisions of Health & S C §1797.201 do not allow such cities to expand the pre-hospital emergency services they provide beyond those provided as of June 1, 1980.

© The Regents of the University of California

§9.23 a. Constitutional Authority

The provisions of Cal Const art XI, §9 provide specific constitutional authority for a city to provide public transportation to its citizens. Under Cal Const art XI, §7, a city has the police power to make and enforce ordinances and regulations not in conflict with the general laws. *Carlin v City of Palm Springs* (1971) 14 CA3d 706, 92 CR 535.

© The Regents of the University of California

§9.24 b. Statutory Authority

A city may contract for ambulance service to serve city residents. Govt C §38794. "Municipal services or functions" include ambulance services. Govt C §54980(c).

© The Regents of the University of California

§9.25 c. Pre-Hospital Emergency Medical Services

A city that has been providing pre-hospital emergency medical care services since June 1, 1980, may enter into an agreement with the local emergency medical services agency. Before such an agreement is entered into, however, the city must continue to provide such services at "not less than the existing level" absent a city council determination, after public hearing, that a reduction in the level of services is necessary. Health & S C §1797.201. See *County of San Bernardino v City of San Bernardino* (1997) 15 C4th 909, 64 CR2d 814 (interpreting Health & S C §1797.201).

A county may designate exclusive operating areas for the provision of pre-hospital emergency medical services without competitive bidding if agreements are reached with providers of such services who have been continuously providing service since July 1, 1980, and will continue in the same manner and scope. A city may be the recipient of such an exclusive operating permit. Health & S C §1797.224.

NOTE: The provision of pre-hospital emergency medical services by a city is subject to the medical control and direction of the county emergency medical services agency. Health & S C §§1798-1798.6.

© The Regents of the University of California

§9.26 4. Auctions

The provisions of CC §§1812.600-1812.609 regulate auctioneers, auction companies, and the business of auctioneering. The state requires that auctioneers and auction companies maintain a $20,000 bond with a surety company admitted to do business in the state. See CC §1812.600(a). This bond is payable to "the people of the State of California" for the benefit of any person or person damaged by auctioneers or auction companies doing business in the state. CC §1812.600(b). It is a misdemeanor to violate any provisions in this title. CC §1812.604. There is no authority for the city to regulate auctioneers, auction companies, or the business of auctioneering in this state.

© The Regents of the University of California

§9.27 5. Bingo

Cities may enact ordinances to allow the operation of bingo games, as long as they are conducted only by the following (Pen C §326.5):

- Organizations exempted from the payment of bank and corporation tax by Rev & T C §§23701-23712,
- Mobile home park associations, and
- Senior citizens organizations.

See also Cal Const art IV, §19(c) (authorizing legislature to enact such law).

The receipts of such games may be used only for charitable purposes. In *Arden Carmichael, Inc. v County of Sacramento* (2001) 93 CA4th 507, 113 CR2d 248, a fee imposed under Pen C §326.5 to recover law enforcement and public safety costs from a nonprofit bingo operator based on a percentage of prize payouts was found not to violate Cal Const art XIII, §26(d) (exempting nonprofit organizations from all business license taxes or fees measured by income or gross receipts), notwithstanding that prize payouts could be shown to be a roughly constant percentage of gross receipts. See also Pen C §§11225-11226 (Red Light Abatement Law).

© The Regents of the University of California

§9.28 6. Dance Halls

An ordinance that has a rational basis to exclude certain-aged persons from admission to a dance hall will survive attack based on equal protection principles. *Dallas v Stanglin* (1989) 490 US 19, 25, 104 L Ed 2d 18, 109 S Ct 1591. See *Burnett v San Francisco Police Dept.* (1995) 36 CA4th 1177, 42 CR2d 879 (city ordinance excluding persons under 21 from after-hours clubs was not unconstitutionally vague or overbroad and did not deny such persons equal protection of law).

However, nuisance abatement efforts directed at changing the "clientele" of a nightclub or the "format" of the music played may lead to municipal liability for violations of the Equal Protection Clause (racial discrimination) and First Amendment (proscribing speech or expressive conduct). In *RK Ventures, Inc. v City of Seattle* (9th Cir 2002) 307 F3d 1045, summary judgment for the city was reversed on appeal due to evidence supporting allegations that the city pursued a campaign designed to stop downtown nightclubs from playing rap and hip-hop music because the music attracted African Americans and crime to the area. The nightclub owner provided evidence that the city withdrew an offer to settle an abatement action against the nightclub because it learned that rap music was still being played occasionally and agreed to postpone the abatement hearing only after the owner agreed never to play rap music again. Interestingly, the court stated that a councilmember's notes and the statements of the then-city attorney "constitute direct evidence of discrimination." 307 F3d at 1062. See also Pen C §§11225-11226 (Red Light Abatement Law).

© The Regents of the University of California

7. Gambling Establishments

§9.29 a. Gaming Under California Law

The provisions of Pen C §330 specify the types of games that are illegal in California. They include roulette, twenty-one, slot machines, and any banking or percentage games. A vote of the electorate is necessary before a city may legalize or expand gaming. A moratorium on such elections exists until at least January 1, 2010. See Bus & P C §§19960-19962; Bus & P C §19965 (providing for limited expansion of number of gambling tables without voter approval).

Gaming establishments are regulated by the Gaming Control Act. Bus & P C §§19800-19987.

© The Regents of the University of California

§9.30 b. Indian Gaming

Under the federal Indian Gaming Regulatory Act of 1988 (IGRA) (18 USC §§1166-1168; 25 USC §§2701-2721), the state is authorized to enter into tribal-state gaming compacts for operation of gaming casinos by federally recognized Indian tribes on Indian lands. The California Constitution prohibits "casinos of the type currently operating in Nevada and New Jersey." Cal Const art IV, §19(e). But the constitution nevertheless authorizes the Governor to negotiate and conclude compacts for the operation of slot machines, lottery games, and banking and percentage card games on Indian lands in accordance with federal law. Cal Const art IV, §19(f). These compacts for what are known as "Class III games" define various aspects of the intergovernmental and regulatory relationships between the tribe and state. Such compacts are not effective until ratified by the legislature and approved by the Secretary of the Interior.

The National Indian Gaming Commission (NIGC) has general oversight authority on Indian gaming facilities, and whether they are being operated in compliance with congressionally mandated provisions in tribal gaming ordinances. The provisions of 25 CFR pt 501 establish the regulatory framework governing Indian gaming.

© The Regents of the University of California

§9.31 (1) Tribal-City Compacts

Whether a tribe can locate a casino within or near a city is governed by federal law. The property must be "Indian lands," as defined by the Indian Gaming Regulatory Act of 1988 (IGRA) (18 USC §§1166-1168; 25 USC §§2701-2721). This means it must either be an Indian reservation, or land held in trust by the federal government for the tribe, over which the tribe exercises governmental authority. Generally, no gaming is allowed on such lands unless they are within or contiguous to a reservation existing on October 17, 1988 (25 USC §2719(a)(1)), or (25 USC §2719(b)(1)(A)):

- The Secretary of Interior, after consultation with the tribe, neighboring tribes, and state and local officials, determines that gaming on the subject lands would be in the best interests of the tribe and would not be detrimental to the surrounding community, and
- The Governor concurs.

These "two part determinations" have only rarely been made. If no "two part determination" is made, gaming may still be allowed if the land was taken into trust as part of (25 USC §2719(b)(1)(B)):

- "a settlement of a land claim";
- the initial reservation of a tribe "acknowledged" by the Secretary under the federal acknowledgement process; or
- the restoration of lands for a tribe that is "restored" to federal recognition.

© The Regents of the University of California

§9.32 (2) Indian Gaming Special Distribution Fund

State law provides for a fund called the Indian Gaming Special Distribution Fund for the receipt and deposit of moneys received by the state from Indian tribes under the terms of tribal-state gaming compacts. The funds are available for, among other things, grants for the support of local government agencies impacted by tribal government gaming. Govt C §12012.85. The method for calculating and distributing appropriations from the Fund is provided at Govt C §§12710-12718.

© The Regents of the University of California

§9.33 8. Hot Air Balloons

Persons providing transportation by hot air balloon are no longer subject to regulation by the California Public Utilities Commission. Instead, balloon operators are required to comply with local business license requirements. Operators must obtain and keep in effect levels of insurance specified by statute and provide the city issuing the business license with proof of this insurance. In addition, operators must provide the city issuing the business license a new certificate of insurance on at least an annual basis. Cities must give reasonable notice of these requirements along with any business license renewal notification they provide. Cities may charge a reasonable fee to cover the costs of providing such notice. Pub Util C §5513.

© The Regents of the University of California

§9.34 9. Limousines

The California Public Utilities Commission regulates the operators of charter-party limousines. Charter-party carriers are required by state law to operate on a "prearranged" basis, *i.e.,* the transportation is arranged either by written contract or by telephone. Cities may establish reasonable rules for the inspection of waybills to verify valid prearranged travel. Pub Util C §5371.4(g).

© The Regents of the University of California

§9.35 10. Massage Parlors

Cities may regulate massage businesses. See Govt C §§51030-51034. However, city ordinances requiring local licensing or permitting of massage practitioners and massage therapists are preempted as to those massage practitioners and massage therapists that have been issued certificates by the Massage Therapy Organization. In addition, local regulations, other than business licensing, zoning, and reasonable health and safety regulations, that treat massage businesses differently from similarly situated businesses are also preempted if all personnel administering massage at the business have been issued the Massage Therapy Organization certification. See Bus & P C §§4600-4620.

As to massage businesses using personnel that do not have Massage Therapy Organization certification, an ordinance may condition the issuance of a license on proof that the massage business meets reasonable standards, including the following (Govt C §51031):

- Minimum age of massage personnel;
- Minimum education and experience of massage personnel;
- Passage by massage personnel of a practice examination of competence;
- Sanitary conditions of the massage establishment;
- Hours of operations of the massage establishment; and
- Prohibition of the sale or serving of food or beverage, or the conducting of non-massage business on the premises of the massage business.

See *Owens v City of Signal Hill* (1984) 154 CA3d 123, 201 CR 70 (upholding city's ordinance regulating massage establishments and technicians as constitutional business regulations). See also Pen C §§11225-11226 (Red Light Abatement Law); *Kim v Dolch* (1985) 173 CA3d 736, 219 CR 248 (massage parlor ordinance authorizing warrantless inspections did not violate Fourth Amendment because comprehensive nature of regulation under ordinance gave massage parlor owners notice that they could be subject to periodic inspections, inspections were critical to achievement of city's objectives, and purpose of inspections was limited to determining compliance with ordinance).

Any ordinance must require license denial on a showing of proof that the massage personnel or the owners or operators of a massage business must register as sex offenders. Govt C §51032(b). The ordinance may provide for license denial on a showing of proof that the massage personnel or the owners or operators of a massage business have been convicted of specified criminal offenses. Govt C §51032(a).

© The Regents of the University of California

§9.36 11. Pawnbrokers

Cities may adopt rules and regulations by ordinance or resolution for the purpose of permitting, inspecting, and recordkeeping of pawnbrokers. See *Malish v City of San Diego* (2000) 84 CA4th 725, 101 CR2d 18. See also Bus & P C §21638; Fin C §21300.

© The Regents of the University of California

§9.37 12. Private Patrols

Regulation of private patrols includes "private patrol operators" that furnish watchmen, security guards/officers, street patrol persons, or other persons to protect persons and property or performing such services themselves. It also includes "armored contract carriers" and "armored vehicle guards." See Bus & P C §7582.1.

State law declares that any person who operates private patrols, but is not licensed under the California Business and Professions Code, is guilty of an infraction punishable by a fine of $1000. See Bus & P C §§7582, 7582.05.

© The Regents of the University of California

§9.38 a. Authority to Regulate

Cities or counties may adopt rules and regulations by ordinance that require private patrol operators to register with the city, including registering their names and filing copies of their state identification cards. See Bus & P C §7582.5(a), (c). A city may not, however, require a registration application or charge a fee for registration. Bus & P C §7582.5(c). A city or county may adopt rules and regulations by ordinances that govern private patrol operators' employees who are unable to furnish evidence of current registration. Bus & P C §7582.5(b).

A city or county may impose "reasonable additional requirements to regulate and control protection dogs according to their local needs" that are not inconsistent with the provisions of the Private Security Services Act (Bus & P C §§7582-7582.28). Bus & P C §7582.5.

© The Regents of the University of California

§9.39 b. Licensing

Licensing of private patrol operators and their employees is extensively regulated by state law. See Bus & P C §§7583-7583.46. A city may, however, regulate uniforms and insignias worn by and vehicles used by private patrols to clearly distinguish between private patrols and local regular law enforcement officers. See Bus & P C §7583.38.

© The Regents of the University of California

§9.40 13. Shopping and Laundry Carts

Removal from the owner's premises or possession of a properly marked shopping or laundry cart is a misdemeanor. Cities are authorized to regulate businesses having shopping and laundry carts and to retrieve, impound, and impose fines for carts found off-site. Bus & P C §§22435-22435.13.

© The Regents of the University of California

§9.41 14. Taxicabs

Cities are permitted to adopt rules and regulations on the operation of taxicabs. *People v Galena* (1937) 24 CA2d Supp 770, 70 P2d 724; Veh C §21112.

© The Regents of the University of California

§9.42 a. Consequences of Violations

Violation of local licensing requirements may subject the taxicab business to immediate seizure and removal of vehicles being operated as taxicabs or other passenger vehicles for hire, fines up to $5000, and disconnection of telephone service. Veh C §21100.4; Govt C §§53075.8-53075.9.

© The Regents of the University of California

§9.43 b. Taxicab Drivers' Drug and Alcohol Testing Requirements

All cities, including charter cities, must establish a policy that makes mandatory drug and alcohol testing an absolute condition for issuance and/or renewal of a taxicab driver permit. Govt C §53075.5. The drug and alcohol testing and procedure must comply with 49 CFR part 40.

Drug or alcohol testing consortiums must mail a copy of all positive drug and alcohol test results to the Department of Motor Vehicles within 3 days of the test. Veh C §34520. It is a misdemeanor to willfully violate this requirement under the Vehicle Code.

© The Regents of the University of California

§9.44 15. Tow Trucks

Cities may adopt rules and regulations by ordinance or resolution for licensing and regulating the operation of tow truck service or tow truck drivers whose principal place of business or employment is within the city's jurisdiction. See Veh C §§21100(g), 22671; *People v PKS, Inc.* (1994) 26 CA4th 400, 31 CR2d 543. However, the ability of cities to regulate certain aspects of the routes followed or the service provided by tow truck operators is preempted by federal law. 49 USC §14501(c). See *City of Columbus v Ours Garage & Wrecker Serv., Inc.* (2002) 536 US 424, 153 L Ed 2d 430, 122 S Ct 2226 (regulatory power reserved to states may be delegated to municipalities).

© The Regents of the University of California

§9.45 16. Vendors and Solicitors

A municipality's ability to restrain and regulate huckstering, hocking, peddling, soliciting, and canvassing is an aspect of municipal police power and is justified to the extent it bears a reasonable relationship to public health, safety, morals, welfare and convenience. See *New Orleans v Dukes* (1976) 427 US 297, 49 L Ed 2d 511, 96 S Ct 2513.

The propriety of cities' seeking identification information from those who wish to go door-to-door in their jurisdictions has been recognized for over half a century. See *Martin v City of Struthers* (1943) 319 US 141, 87 L Ed 1313, 63 S Ct 862 (finding complete-ban approach went too far, but noting city had option of using "identification devices" to prevent or dissuade criminals from posing as canvassers). See also *Secretary of State of Maryland v J.H. Munson Co.* (1984) 467 US 947, 967 n16, 81 L Ed 2d 786, 104 S Ct 2839 ("concerns about unscrupulous professional fund-raisers, like concerns about fraudulent charities, can and are accommodated directly, through disclosure and registration requirements and penalties for fraudulent conduct"). But see *Watchtower Bible & Tract Soc'y, Inc. v Village of Stratton* (2002) 536 US 150, 153 L Ed 2d 205, 122 S Ct 2080 (law requiring registration and issuance of ministerial permit as prior condition for all door-to-door canvassing and solicitation found to be overbroad).

PRACTICE TIP: Due to the significant First Amendment implications of regulating door-to-door solicitors, many cities adopt ordinances making illegal the act of vending to property where the owner has posted a "no solicitors" or similar sign.

§9.46 17. Junk Dealers and Recyclers

Junk dealers and recyclers are subject to reporting requirements similar to those required of secondhand dealers and coin dealers. Junk dealers and recyclers are generally prohibited from providing payment for certain material earlier than 3 days after the date of sale, and the dealer or recycler is required to obtain a photograph or video of the seller and certain other identifying information, including the thumbprint of the seller. Cities may enact ordinances affecting these requirements (*i.e.,* override state preemption) only by a two-thirds majority vote of a city's legislative body, supported by clear and convincing evidence that the state laws are ineffective with respect to the individual jurisdiction. Bus & P C §§21606-21609.5.

© The Regents of the University of California

C. Rent Control

§9.47 1. Residential Rent Control Only

Regulation of the rent charged for residential rental units (duplexes, multi-family apartment buildings, and mobile home spaces) is within cities' police power. See Cal Const art XI, §§5 (charter cities), 7 (general law cities). However, with few exceptions, units constructed after February 1, 1995, and units that are separately alienable from the title of any other dwelling (single-family homes and condominiums) are statutorily exempt from rent regulation. See CC §1954.52. Low vacancy rates in rental housing units and monopolies or other market imbalances leading to tenant exploitation and excessive rents have precipitated such regulation. *Pennell v City of San Jose* (1988) 485 US 1, 11, 99 L Ed 2d 1, 108 S Ct 849; *Carson Mobilehome Park Owners' Ass'n v City of Carson* (1983) 35 C3d 184, 187 n1, 197 CR 284; *Birkenfeld v City of Berkeley* (1976) 17 C3d 129, 160, 130 CR 465.

NOTE: The general legal principles applicable to rent control are the same for all types of residential rent control, including control of rents for mobile home spaces. However, mobile home rent control raises additional issues. See §§9.59-9.60.

PRACTICE TIP: Rent control generates a lot of litigation and landlords frequently develop new theories for challenging the validity of rent control or its application. It is helpful to subscribe to publications that target landlords because they often provide the earliest information concerning new strategies by landlords for challenging or evading rent control.

Regulation of the rent charged for commercial uses has been invalidated. See *Ross v City of Berkeley* (ND Cal 1987) 655 F Supp 820. State law also prohibits commercial rent control. CC §§1954.25-1954.31.

© The Regents of the University of California

§9.48 2. Permissible Rent Control Regulation

Rent control must serve a legitimate governmental purpose and permit the landlord to earn a just and reasonable return. See *Santa Monica Beach, Ltd. v Superior Court* (1999) 19 C4th 952, 81 CR2d 93, cert denied (1999) 526 US 1131.

© The Regents of the University of California

§9.49 a. Governmental Purposes

Reported cases have expressly upheld protection of tenants from excessive rents and protection of tenant welfare as a legitimate purpose for rent control. *Pennell v City of San Jose* (1988) 485 US 1, 11, 99 L Ed 2d 1, 108 S Ct 849; *Birkenfeld v City of Berkeley* (1976) 17 C3d 129, 159, 130 CR 465; *Sierra Lake Reserve v City of Rocklin* (9th Cir 1991) 938 F2d 951, 958, vacated (1992) 506 US 802, 121 L Ed 2d 4, 113 S Ct 31, reinstated in part (9th Cir 1993) 987 F2d 662. Moreover, a rent control ordinance's failure to achieve its objectives does not constitute a regulatory taking; a rent control ordinance's effectiveness and the need for a repeal are questions for the legislature, not the courts, as long as the ordinance enables a landlord to earn a fair return. *Santa Monica Beach, Ltd. v Superior Court* (1999) 19 C4th 952, 974, 81 CR2d 93, cert denied (1999) 526 US 1131. See also *Lingle v Chevron U.S.A., Inc.* (2005) 544 US 528, 161 L Ed 2d 876, 125 S Ct 2074 ("substantially advances" test is not valid method for determining whether rent control ordinance causes taking). An ordinance that serves a legitimate purpose is not an unconstitutional impairment of contract even if it interferes with the rental rates in a preexisting contract. *Interstate Marina Dev. Co. v County of Los Angeles* (1984) 155 CA3d 435, 202 CR 377; *Berman v Downing* (1986) 184 CA3d Supp 1, 5, 229 CR 660.

PRACTICE TIP 1: The "constitutional facts," such as a market imbalance and rapidly rising and excessive rents, justifying rent control will be presumed, but can be rebutted. *Birkenfeld v City of Berkeley* (1976) 17 C3d 129, 160, 130 CR 465. Thus, it is useful to develop a record of the facts justifying rent control before adopting an ordinance.

PRACTICE TIP 2: There is no reported case requiring California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177) compliance before adopting or amending a rent control ordinance. However, there have been several challenges to ordinances on this ground and a few trial courts and at least one unpublished appellate opinion set aside an ordinance for failure to comply with CEQA.

PRACTICE TIP 3: Frequently check for changes in the law when concerned with rent control.

© The Regents of the University of California

§9.50 b. Just and Reasonable Return

Various formulas or methods for granting rent increases have been upheld as facially valid because they are reasonably related to providing a "just and reasonable return" and do not preclude a just and reasonable return or necessitate unconstitutional results. See *Kavanau v Santa Monica Rent Control Bd.* (1997) 16 C4th 761, 768, 777, 66 CR2d 672, cert denied (1998) 522 US 1077; *Birkenfeld v City of Berkeley* (1976) 17 C3d 129, 165, 130 CR 465 (non-exclusive list of factors). See also *Fisher v City of Berkeley* (1984) 37 C3d 644, 679, 209 CR 682, aff'd (1986) 475 US 260 (net operating income (NOI) formula); *Carson Mobilehome Park Owners' Ass'n v City of Carson* (1983) 35 C3d 184, 189, 197 CR 284 (list of factors); *West Hollywood Concerned Citizens v City of West Hollywood* (1991) 232 CA3d 486, 283 CR 470 (registration fees not confiscatory); *Palos Verdes Shores Mobile Estates, Ltd. v City of Los Angeles* (1983) 142 CA3d 362, 371, 190 CR 866 (profit maintenance guidelines).

No case has concretely defined the term "just and reasonable return." The supreme court in *Fisher* expressly reserved the issue of how to determine whether the application of a rent control regulation to a particular landlord has denied a just and reasonable return. *Fischer,* C3d 681 at 37 n34. A just and reasonable return has been described as one that is high enough to encourage good management, reward efficiency, and discourage the flight of capital; and is commensurate with returns on comparable investments, but not so high as to defeat the purpose of preventing excessive rents. There is a range of rents that can be characterized as providing a just and reasonable return. See *Kavanau v Santa Monica Rent Control Bd.* (1997) 16 C4th 761, 778, 66 CR2d 672, cert denied (1998) 522 US 1077; *City of Berkeley v City of Berkeley Rent Stabilization Bd.*(1994) 27 CA4th 951, 33 CR2d 317 (rent control board did not abuse its discretion in permitting debt service to be factor in NOI); *Vega v City of W. Hollywood* (1990) 223 CA3d 1342, 273 CR 243; *San Marcos Mobilehome Park Owners' Ass'n v City of San Marcos* (1987) 192 CA3d 1492, 1502, 238 CR 290; *Oceanside Mobilehome Park Owners' Ass'n v City of Oceanside* (1984) 157 CA3d 887, 204 CR 239.

© The Regents of the University of California

§9.51 c. Impermissible Rent Control Regulations

A denial of a just and reasonable return constitutes an unconstitutional taking of property that requires compensation. The denial of a just and reasonable return is not reasonably related to the legitimate governmental purpose of protecting tenants and is thus arbitrary, unconstitutional, and "confiscatory." *Birkenfeld v City of Berkeley* (1976) 17 C3d 129, 160, 164, 169, 173, 130 CR 465. In analyzing the sufficiency of the return permitted, most California cases and earlier federal authorities have focused on whether the return is so low as to be confiscatory. 17 C3d at 169; *Federal Power Comm'n v Hope* (1944) 320 US 591, 88 L Ed 333, 64 S Ct 281; *Federal Power Comm'n v Natural Gas Pipeline Co.* (1942) 315 US 575, 86 L Ed 1037, 62 S Ct 736. But see *Apartment Ass'n of Greater Los Angeles v Santa Monica Rent Control Bd.* (1994) 24 CA4th 1730, 30 CR2d 228 (property owners with base rents substantially below market not constitutionally entitled to increase rents).

For examples of cases involving challenges to the sufficiency of individual rent increase decisions on the ground that a fair return has been denied, see *Galland v City of Clovis* (2001) 24 C4th 1003, 103 CR2d 711; *Kavanau v Santa Monica Rent Control Bd.* (1997) 16 C4th 761, 66 CR2d 672, cert denied (1998) 522 US 1077; *Carson Harbor Village, Ltd. v City of Carson Mobilehome Park Rental Review Bd.* (1999) 70 CA4th 281, 82 CR2d 569; *Yee v Mobilehome Park Rental Review Bd.* (1993) 17 CA4th 1097, 23 CR2d 1; *Palomar Mobilehome Park Ass'n v Mobile Home Rent Review Comm'on* (1993) 16 CA4th 481, 20 CR2d 371; *West Hollywood Concerned Citizens v City of West Hollywood* (1991) 232 CA3d 486, 283 CR 470; *El Dorado Palm Springs Ltd. v Rent Review Comm'n* (1991) 230 CA3d 335, 281 CR 327; *Vega v City of W. Hollywood* (1990) 223 CA3d 1342, 273 CR 243; *Palacio de Anza v Palm Springs Rent Review Comm'n* (1989) 209 CA3d 116, 257 CR 121; *Whispering Pines Mobile Home Park, Ltd. v City of Scotts Valley* (1986) 180 CA3d 152, 225 CR 364. Some federal courts have applied a taking or inverse condemnation analysis to the issue and the terms "confiscation" and "taking" are sometimes used synonymously. *Pennell v City of San Jose* (1988) 485 US 1, 12, 99 L Ed 2d 1, 108 S Ct 849. See also *Kavanau v Santa Monica Rent Control Bd.* (1997) 16 C4th 761, 770, 773, 782, 66 CR2d 672, cert denied (1998) 522 US 1077.

PRACTICE TIP: In the California courts, the remedy for denial of a fair return is remand to the rent review board or commission to grant a rent increase sufficient to compensate for any past confiscation (a *Kavanau* Adjustment; see *Kavanau v Santa Monica Rent Control Bd., supra*). If a legal challenge based on denial of a fair return includes a takings or other constitutional cause of action, including a claim under 42 USC §1983, in addition to a petition for writ of mandate, it is important to have the writ petition tried first. If the writ petition is denied, there will probably be no remaining ground for a constitutional challenge. If the petition is granted, the increase granted at the remand hearing should eliminate any constitutional violation.

© The Regents of the University of California

§9.52 d. Vacancy Decontrol and Exemptions From Rent Control

With certain exceptions, California's Costa-Hawkins Act allows a landlord to increase the rent for an apartment otherwise subject to rent control once it is vacated. CC §§1954.52-1954.53. The Act does not apply to mobile home parks, but residents of such parks are exempted from rent control if they sign long-term leases meeting the requirements of CC §798.17 during the duration of those leases. The rents for spaces constructed and first offered for rental after January 1, 1990, are exempted from rent control. CC §§798.7, 798.45. Under certain circumstances, the rent for a space occupied by a resident whose mobile home is not that resident's primary residence is also exempt from rent control. CC §798.21.

© The Regents of the University of California

§9.53 3. Administration of Rent Control Ordinances

Some cities have created separate boards and staff to administer rent control regulations. Others are under the city council and regular city departments.

© The Regents of the University of California

§9.54 a. Annual Rent Increases

Most rent control ordinances allow an annual increase based on the percentage change in the Consumer Price Index, or a portion thereof, in the preceding twelve months. However, such a provision is not required, as long as a reasonably prompt procedure for reviewing applications by individual landlords for rent increases can be provided. *Carson Mobilehome Park Owners' Ass'n v City of Carson* (1983) 35 C3d 184, 191, 197 CR 284.

NOTE: Even with an annual increase provision, there must be a procedure by which an applicant can seek an additional increase on the ground the annual increase is insufficient to provide a just and reasonable return. On just and reasonable return, see §9.50.

© The Regents of the University of California

§9.55 b. Pass-Throughs and Rent Decreases

Some ordinances provide for, in addition to automatic annual increases, a variety of "pass-through" increases (*e.g.,* based on utilities) that require only minimal staff review. Such provisions tend to decrease administrative costs and provide greater rent increases. However, mobile home park tenants may not be charged "fees" or "pass-throughs" (*e.g.,* for capital improvements) in addition to rent, except for services rendered, unless expressly authorized by statute. CC §§798.31, 798.33-798.37, 798.41-798.44, 798.49; *Karrin v Ocean-Aire Mobile Home Estates* (1991) 1 CA4th 1066, 2 CR2d 581. But "rent increases" based on capital improvements or specified costs may be permissible in mobile home park ordinances. *Robinson v City of Yucaipa* (1994) 28 CA4th 1506, 34 CR 291.

Some ordinances also provide for rent decreases based on reductions in services or amenities and provide standards for maintenance of rental units. All these regulations have been upheld in the context of regulating apartment rents. See *McHugh v Santa Monica Rent Control Bd.* (1989) 49 C3d 348, 261 CR 318; *Berman v City of West Hollywood Rent Stabilization Dept.* (1988) 197 CA3d 837, 243 CR 144; *Sterling v Santa Monica Rent Control Bd.* (1985) 168 CA3d 176, 214 CR 71. These regulations involve greater administrative costs, but also provide for greater "fine tuning" of rent amounts.

© The Regents of the University of California

§9.56 c. Procedural Due Process

Review of individual rent adjustment applications is a quasi-judicial procedure that requires a duly noticed public hearing. Due process entitles the applicant to notice, a meaningful opportunity to be heard, and a fair hearing. CCP §1094.5. A proceeding based primarily on documents or similar evidence (*i.e.,* financial or economic data) does not require providing the right to cross-examine witnesses. However, if administrative decisions turn on the factual testimony of live witnesses, the park owner must have the right to cross-examination. *Manufactured Home Communities, Inc. v County of San Luis Obispo* (2008) 167 CA4th 705, 84 CR3d 367.

© The Regents of the University of California

§9.57 d. Standard of Review

The decision of any hearing officer, rent review commission, or appeal board will be sustained if supported by factual findings and substantial evidence. CCP §1094.5; *Topanga Ass'n for a Scenic Community v County of Los Angeles* (1974) 11 C3d 506, 515, 113 CR 836; *Carson Harbor Village, Ltd. v City of Carson Mobilehome Park Rental Review Bd.* (1999) 70 CA4th 281, 287, 82 CR2d 569; *San Marcos Mobilehome Park Owners' Ass'n v City of San Marcos* (1987) 192 CA3d 1492, 1459-1502, 238 CR 290; *Whispering Pines Mobile Home Park, Ltd. v City of Scotts Valley* (1986) 180 CA3d 152, 156, 225 CR 364. See also *Kirkpatrick v City of Oceanside* (1991) 232 CA3d 267, 283 CR 191; *Cotati Alliance for Better Housing v City of Cotati* (1983) 148 CA3d 280, 195 CR 825.

PRACTICE TIP: When a local agency hires ad hoc hearing officers to adjudicate rent control issues, the agency should take steps to ensure that the hearing officers have no expectation of future employment with the agency. *Haas v County of San Bernardino* (2002) 27 C4th 1017, 119 CR2d 341. If a city ordinance provides for an appeal procedure, the legal advisor to the original decision-maker (*e.g.,* a rent review board or commission or hearing officer) cannot also advise the body (*e.g.,* a city council) or person (*e.g.,* an independent hearing officer) hearing the appeal. *Nightlife Partners, Ltd. v City of Beverly Hills* (2003) 108 CA4th 81, 133 CR2d 234.

© The Regents of the University of California

§9.58 e. Preemption

State law governing landlord/tenant relationships must be considered in drafting and implementing rent control ordinances. State laws regulating eviction procedures and requiring hearings to establish base rents preempt local regulation. *Birkenfeld v City of Berkeley* (1976) 17 C3d 129, 148, 130 CR 465. See, *e.g.,* CC §§827, 1159-1165 (repealed 1984), 1942, 1945, 1947, 1947.7-1947.8, 1950.5 (amended by statute; see Stats 2006, ch 167 (AB 2618)).

The Ellis Act (Govt C §§7060-7060.7), which gives landlords the right to withdraw their property from the rental market, also authorizes cities to require payment of relocation assistance to residents displaced from rent-controlled housing. Govt C §7060.2(b); *Bullock v City & County of San Francisco* (1990) 221 CA3d 1072, 1101, 271 CR 44; *City of Santa Monica v Yarmark* (1988) 203 CA3d 153, 167, 249 CR 732. In addition to preventing wrongful evictions, the Act authorizes actual and exemplary damages if the withdrawn units are re-rented within 2 years of being withdrawn from the market and imposes "vacancy control" rent regulation if the units are re-rented during the 5 years immediately following the withdrawal. Govt C §7060.2(a)-(b). The procedure to be followed is expressly governed by the Act, which does not apply to mobile home parks. On preemption with regard to mobile homes parks, see §9.59.

© The Regents of the University of California

4. Special Considerations for Mobile Home Rent Control

§9.59 a. Preemption

Mobile homes and mobile home parks are extensively regulated by state law. See CC §§798-798.14 (Mobilehome Residency Law); Health & S C §§18000-18700 (Mobilehomes and Manufactured Housing Act of 1980); Govt C §§65863.7-65863.13 (governing park closures and relocation assistance); Govt C §66427.4 (governing park closures and relocation assistance when subdivision map is required). See also Govt C §66427.5 (conversion to resident ownership and exemption from rent control).

The following laws preempt mobile home rent control: CC §§798.7, 798.45 (rent regulation of newly constructed spaces initially held out for rent after January 1, 1990), 798.17 (certain leases exempt from rent control), §798.30 (notices of rent increases), 798.31-798.38, 798.41, 798.44, 798.49 (charges for certain services and fees), 798.39 (security deposits), 798.56 (grounds for eviction). But see *Vance v Villa Park Mobilehome Estates* (1995) 36 CA4th 698, 42 CR2d 723 (discussing limitations on charges for fees); *Robinson v City of Yucaipa* (1994) 28 CA4th 1506, 34 CR 291. These specific laws usually prevail over general California Civil Code provisions governing landlord-tenant relations.

For related material regarding land use and challenges to land use decisions, see §§10.362-10.445; on municipal liability and constitutional claims, see §13.113.

© The Regents of the University of California

§9.60 b. Vacancy Control

The term "vacancy" in the context of a mobile home park has a special meaning. If a homeowner/tenant removed a mobile home from a park there would, of course, be a vacant space. However, that rarely happens because mobile homes are expensive and difficult to move, there is a shortage of rental spaces in most areas, and state law gives homeowners the right to sell a mobile home in-place in a park. See CC §§798.70-798.83. Thus, the term "vacancy" generally means a transfer of ownership to a new homeowner/tenant.

Some cities regulate rent so that the new homeowner/tenant can only be charged the same rent as the selling homeowner/tenant, or the city puts a cap on the amount of the vacancy increase. This is known as "vacancy control." Such "vacancy control" is neither a "physical taking" (see *Yee v City of Escondido* (1992) 503 US 519, 118 L Ed 2d 153, 112 S Ct 1522) nor a "regulatory taking" (see *Lingle v Chevron U.S.A., Inc.* (2005) 544 US 528, 161 L Ed 2d 876, 125 S Ct 2074) of property. *Lingle* overrules the Ninth Circuit's findings in *Richardson v City & County of Honolulu* (9th Cir 1997) 124 F3d 1150 and *Cashman v City of Cotati* (9th Cir 2004) 374 F3d 887, rev'd (9th Cir 2005) 415 F3d 1027 that vacancy control rent regulation of ground or pad leases results in a regulatory taking. California court decisions agree with *Lingle*. See *Sandpiper Mobile Village v City of Carpinteria* (1992) 10 CA4th 542, 12 CR2d 623, cert denied (1992) 507 US 1032; *Casella v City of Morgan Hill* (1991) 230 CA3d 43, 280 CR 876, cert denied (1992) 503 US 983.

© The Regents of the University of California

III. REGULATING PERSONAL CONDUCT

§9.61 A. Camping in Parks

As the homeless situation has become more severe, cities are having to cope with homeless people using public spaces, including parks, as their homes. A city may enact reasonable laws and regulations on the use of a municipality's public facilities to promote park purposes and ensure the public's health, safety, and welfare. See *People v Trantham* (1984) 161 CA3d Supp 1, 208 CR 535 (park regulation is municipal affair); *Simons v City of Los Angeles* (1976) 63 CA3d 455, 133 CR 721. Several "unlawful camping" ordinances have withstood constitutional challenges. See *Tobe v City of Santa Ana* (1995) 9 C4th 1069, 40 CR2d 402; *Joyce v City of San Francisco* (ND Cal 1994) 846 F Supp 843. But see *In re Eichorn* (1998) 69 CA4th 382, 81 CR2d 535 ("necessity" defense recognized for homeless sleeping in parks).

© The Regents of the University of California

§9.62 1. Equal Protection

An anti-camping ordinance should withstand equal protection challenge if it:

- Is neutral on its face;
- Is enforced equally vigorously against all groups; and
- Has as its purpose to protect reasonably full access to a park and the park itself, and not to exclude any discrete group that it may disproportionately affect.

See *Parr v Municipal Court* (1971) 3 C3d 861, 92 CR 153, cert denied sub nom *City of Carmel-By-The-Sea v Parr* (1971) 404 US 869; *People v Scott* (1993) 20 CA4th Supp 5, 26 CR2d 179.

© The Regents of the University of California

§9.63 2. Vagueness

An ordinance that defines "camping" by describing activities which, taken in context, reasonably appear to constitute residing in a park can be constitutionally sufficient without drawing absolute bright lines. See *Clark v Community for Creative Non-Violence* (1984) 468 US 288, 292, 82 L Ed 2d 221, 104 S Ct 3065 (validating United States Park Service's definition of camping in face of vagueness challenge); *U.S. v Musser* (DC Cir 1989) 873 F2d 1513 (same); *U.S. v Thomas* (DC Cir 1988) 864 F2d 188 (same). See also *Tobe v City of Santa Ana* (1995) 9 C4th 1069, 40 CR2d 402 (ordinance prohibiting use of public property for "camping purposes or storage of personal property" held not vague or overbroad).

PRACTICE TIP: Use the United States Park Service's definition of camping as a starting point in drafting anti-camping ordinances because it has withstood three challenges. The more this definition is embellished, the less uncertainty there will be as to whether such a definition will withstand a vagueness challenge.

© The Regents of the University of California

§9.64 B. Curfews

Curfews have been enacted by local agencies to control the presence of individuals in public places at night to diminish the opportunity for nocturnal criminal activity. This protects the general public safety and promotes the good order of the community. Curfew ordinances are authorized provided they do not go too far in infringing on fundamental rights.

© The Regents of the University of California

1. Authority to Impose Curfews

§9.65 a. Police Power Regulation

A city has the authority to impose curfews in an effort to protect the general safety and welfare of the public under its police powers. See Cal Const art XI, §5 (charter cities), art XI, §7 (general law cities). These powers must, however, be balanced against fundamental rights. *Carroll v U.S.* (1925) 267 US 132, 153, 69 L Ed 543, 45 S Ct 280 (right to travel); *Nunez v City of San Diego* (9th Cir 1997) 114 F3d 935 (freedom of expression).

© The Regents of the University of California

§9.66 b. Fundamental Rights

Both the freedom of movement and freedom of expression are fundamental rights whose exercise can be limited only when necessary to further a compelling state interest. *Carroll v U.S.* (1925) 267 US 132, 153, 69 L Ed 543, 45 S Ct 280; *People v Horton* (1971) 14 CA3d 930, 933, 92 CR 666; *Nunez v City of San Diego* (9th Cir 1997) 114 F3d 935. In addition, any local regulations must be narrowly drawn to overcome vagueness and overbreadth challenges. *In re Hoffman* (1967) 67 C2d 845, 852, 64 CR 97.

NOTE: The parent of a juvenile may also have a substantive due process right to control and direct the juvenile. *Nunez v City of San Diego* (9th Cir 1997) 114 F3d 935, 951. See *In re Cynthia D.* (1993) 5 C4th 242, 19 CR2d 698.

© The Regents of the University of California

§9.67 2. Types of Curfew Ordinances

Curfew ordinances typically fall into two categories:

- juvenile curfews (the most common type of curfew), and
- emergency curfews drawn during emergency, riot, or wartime conditions.

© The Regents of the University of California

§9.68 a. Youth or Juvenile Ordinances

Cities may enact youth curfews under the police power in an effort to protect minors' safety and general welfare. Youth curfew ordinances typically prohibit minors under a certain age from "tarrying or remaining" in or on public streets between certain hours. See generally McQuillin, Municipal Corporations §24.111 (3d rev ed 1988).

An ordinance that prohibits school-age children subject to compulsory education from being in public during the hours that school is in session is not preempted by state law. *Harrahill v City of Monrovia* (2002) 104 CA4th 761, 128 CR2d 552.

© The Regents of the University of California

§9.69 (1) Exceptions

To survive constitutional challenges, these ordinances must contain reasonable exceptions, including exceptions for (*In re Nancy C.* (1972) 28 CA3d 747, 105 CR 113):

- minors accompanied by a parent or guardian,
- minors who are performing an errand for a parent, and
- minors who are returning directly home from a meeting, dance, or recreational activity.

An exception should also be added to allow for the exercise of First Amendment rights, such as the free exercise of religion and freedom of speech, and the right of assembly. *Nunez v City of San Diego* (9th Cir 1997) 114 F3d 935. For an extensive discussion of exceptions, see *Schleifer v City of Charlottesville* (4th Cir 1998) 159 F3d 843, cert denied (1999) 526 US 1018.

© The Regents of the University of California

§9.70 (2) Standard of Review

Federal courts of appeals are divided on the standard to be applied in reviewing juvenile curfew ordinances. The Ninth Circuit has applied the strict scrutiny standard of determining whether the ordinance has been narrowly tailored to promote a compelling interest, but has recognized that the government interests in protecting minors is compelling and different from its interests in protecting adults. *Nunez v City of San Diego* (9th Cir 1997) 114 F3d 935, 945. Other Circuits have applied the lesser standard of intermediate scrutiny, *i.e.,* that the ordinance be substantially related to an important government interest. *Ramos v Town of Vernon* (2d Cir 2003) 353 F3d 171 (discussing issue and competing decisions at length).

© The Regents of the University of California

§9.71 b. Emergency Curfews

In addition to the authority contained in Cal Const art XI, §7, Govt C §8634 expressly allows cities and counties to promulgate orders and regulations imposing a curfew to preserve public order and safety during a local emergency. See *Davis v Justice Court* (1970) 10 CA3d 1002, 89 CR 409 (curfew regulations to control rioting in Contra Costa County during state of emergency were not preempted by state disaster statutes, nor did they unduly interfere with right to travel). A county may even be able to impose a curfew within a city's limits under this authority. 62 Ops Cal Atty Gen 701 (1979).

An emergency curfew ordinance, order, or regulation must be definite enough to provide adequate notice of the prohibited activity and cannot be subject to arbitrary and discriminatory enforcement. *In re Juan C.* (1994) 28 CA4th 1093, 33 CR2d 919. Generally, that is accomplished by prohibiting anyone except specially exempted persons, such as emergency personnel, from being present on streets after curfew. *People v Richardson* (1994) 33 CA4th Supp 11, 15, 39 CR2d 17.

© The Regents of the University of California

3. Common Challenges to Curfews

§9.72 a. Overbreadth

A law is overbroad, and thus void, if it does not aim specifically at conduct or matter that is prohibited and instead proscribes other activities that are protected under the law. For example, a Los Angeles curfew ordinance was held constitutional because it was drafted to narrowly apply to minors who remained or loitered on streets or in public places and not to "those minors who are using or are on such street or places while actually in the process of going to or from places of business, amusement or otherwise." *People v Walton* (1945) 70 CA2d Supp 862, 866, 161 P2d 498. See also *Alves v Justice Court* (1957) 148 CA2d 419, 306 P2d 601.

© The Regents of the University of California

§9.73 b. Vagueness

A law that does not fairly inform a person of what is prohibited or permitted is considered vague, and thus unconstitutional. *Kolender v Lawson* (1983) 461 US 352, 75 L Ed 2d 903, 103 S Ct 1855. Usually, ordinances that proscribe "presence" or "being in" certain places at certain times are held unconstitutional, although those proscribing "loitering" are typically upheld. But see *Nunez v City of San Diego* (9th Cir 1997) 114 F3d 935, 943 (phrase "loiter, wander, idle, stroll or play" is unconstitutionally vague).

PRACTICE TIP 1: In the evidentiary record and the ordinance findings, the underlying reasons for adopting the ordinance must be carefully documented. Youth curfew ordinances should be supported by statistics of criminal activity related to juveniles—whether as perpetrators or victims—with particular reference to ages, hours, involvement, and general locations. Although city-specific information is most helpful, information and trends from the local area or region as well as state or national levels may be supportive as well. Review of the federal courts of appeals decisions is helpful to understanding the required documentation.

PRACTICE TIP 2: Particularly with a youth curfew ordinance, exceptions are mandatory to protect basic rights in travel and free speech and validate the ordinance. The federal courts of appeals decisions provide lengthy discussions of the basic exceptions that are expected.

© The Regents of the University of California

§9.74 C. Disorderly Conduct

Disorderly conduct laws replaced the vagrancy statutes and now define crimes by specific acts, rather than mere status. Newer laws make acts such as soliciting to engage in lewd acts, loitering for the purpose of engaging in lewd acts, actually engaging in lewd acts, solicitation for prostitution, and public intoxication misdemeanors.

A statute stating "no person shall conduct himself in a disorderly manner" is unconstitutionally vague. *Baker v Bindner* (WD Ky 1967) 274 F Supp 658.

© The Regents of the University of California

1. Public Lewdness

§9.75 a. Vagueness and Overbreadth

To prove that someone has engaged in or solicited criminal "lewd or dissolute" conduct in public, the city must prove, among other things, that there was actual touching of the genitals, buttocks, or female breasts. *Pryor v Municipal Court* (1979) 25 C3d 238, 244, 158 CR 330. This requirement is to avoid having the phrase "lewd and dissolute" conduct declared unconstitutionally vague.

© The Regents of the University of California

§9.76 b. Freedom of Expression

The First Amendment does not protect obscenity. *Kaplan v California* (1973) 413 US 115, 37 L Ed 2d 492, 93 S Ct 2680. A law prohibiting public nudity regulates conduct "regardless of whether that nudity is accompanied by expressive activity." *City of Erie v Pap's A.M.* (2000) 529 US 277, 290, 146 L Ed 2d 265, 120 S Ct 1382. In addition, the prevention of obscene acts does not hinder the marketplace of ideas or freedom to distribute information and opinion. *People ex rel Hicks v Sarong Gals* (1972) 27 CA3d 46, 51, 103 CR 414. Lastly, courts have held that "a statute which by judicial construction prohibits only the solicitation of criminal acts does not abridge freedom of speech." *Pryor v Municipal Court* (1979) 25 C3d 238, 254, 158 CR 330.

© The Regents of the University of California

§9.77 2. Public Intoxication

Disorderly conduct laws that penalize the specific act of being drunk in public instead of punishing a person for being an alcoholic, have been held constitutional and do not rise to the level of cruel and unusual punishment. *In re Spinks* (1967) 253 CA2d 748, 61 CR 743.

© The Regents of the University of California

D. Drugs, Drug Paraphernalia, and Gangs

§9.78 1. Drugs

An ordinance that proscribes use of narcotics except when administered by or under direction of persons authorized by the state is essentially duplication of California Penal Code sections and is unconstitutional. *People v Villarino* (1955) 134 CA2d Supp 893, 286 P2d 86.

The Drug House Abatement Act (Health & S C §§11570-11587) defines as public nuisances buildings or places used for the manufacture, sale, or use of illegal drugs. The city attorney may maintain an action under the Act to abate a drug nuisance and to enjoin the violator from maintaining it. Health & S C §11571.

© The Regents of the University of California

§9.79 2. Drug Paraphernalia

Since January 1, 1983, the field of drug paraphernalia regulation has been preempted. See Health & S C §§11014.5, 11364.7; *A & B Cattle Co. v City of Escondido* (1987) 192 CA3d 1032, 238 CR 580. See also Bus & P C §24200; *Mehret Ghirmai d/b/a Liquor to Go v Department of Alcoholic Beverage Control,* Appeal No. AB-7579 (Alcoholic Beverage Control Appeals Board, March 31, 2001) at www.abcappealsbd.ca.gov (revocation of convenience store liquor license for violation of California drug paraphernalia laws).

© The Regents of the University of California

§9.80 3. Gangs

Anti-gang violence statutes have recently been enacted to deal with the societal harm caused by the activities of violent groups and individuals. Some potential issues regarding these statutes concern First Amendment rights of freedom of expression and association, due process, and preemption.

Although the case did not involve an anti-gang statute, the California Supreme Court in *People ex rel Gallo v Acuna* (1997) 14 C4th 1090, 60 CR2d 277, found that gang activities in a neighborhood constituted a public nuisance and that an injunction issued against members of the gang did not violate the First Amendment or the Fifth Amendment. The City of Chicago's anti-gang loitering ordinance was found to be unconstitutionally vague by failing to provide notice of impermissible conduct and to establish minimum guidelines for enforcement. *City of Chicago v Morales* (1999) 527 US 41, 144 L Ed 2d 67, 119 S Ct 1849.

The California Street Terrorism Enforcement and Prevention Act (Pen C §§186.20-186.33) does not preempt local governments from adopting and enforcing laws consistent with its provisions on gangs and gang violence. Local laws may duplicate or supplement the state law's provisions; the state provides alternative remedies. See Pen C §§186.22a, 186.25; *People ex rel Gallo v Acuna* (1997) 14 C4th 1090, 1119, 60 CR2d 277.

© The Regents of the University of California

§9.81 E. Constitutional Issues

Both the state and federal constitutions require that no person be deprived of life, liberty, or property without due process of law. See US Const amend XIV; Cal Const art I, §7; *People v Trantham* (1984) 161 CA3d Supp 1, 208 CR 535.

Substantive due process protects individuals' liberty and property interests against unreasonable government action. To determine whether the action taken was reasonable, the statute on which such action is based must be rationally related to and justified by public necessity.

© The Regents of the University of California

1. Due Process

§9.82 a. Notice

Due process of law requires providing sufficient notice about what actions constitute prohibited activity. The "void for vagueness" doctrine requires criminal statutes to define an offense with such specificity that an ordinary person would know precisely what conduct is prohibited. *Connally v General Constr. Co.* (1926) 269 US 385, 391, 70 L Ed 322, 46 S Ct 126 ("a statute which either forbids or requires the doing of an act in terms so vague that [persons] of common intelligence must necessarily guess at its meaning and differ as to its application violates the first essential of due process of law"). See also McQuillin, Municipal Corporations §15.24 (3d rev ed 1988).

© The Regents of the University of California

§9.83 b. Overbreadth

Due process requires that laws not prohibit both protected and unprotected conduct. For example, a Cincinnati ordinance making it a crime for "three or more persons to assemble … on any of the sidewalks … and there conduct themselves in a manner annoying to persons passing by" was held unconstitutional as violating the right to due process of law due to vagueness and overbreadth. *Coates v Cincinnati* (1971) 402 US 611, 29 L Ed 2d 214, 91 S Ct 1686.

© The Regents of the University of California

§9.84 2. Equal Protection

Equal protection requires laws to be enacted and enforced in a non-arbitrary manner against similarly situated people. A law that involves a suspect classification or curtails a fundamental right is subjected to strict scrutiny and will be upheld only if the law furthers a compelling state interest. *Weber v City Council* (1973) 9 C3d 950, 958, 109 CR 553. However, if the law involves a non-suspect classification or does not involve the curtailment of a fundamental interest, it will be upheld if it bears a rational relationship to a legitimate state purpose.

PRACTICE TIP: Even though a defendant may challenge an ordinance on equal protection grounds, allegedly "unequal" treatment from passive enforcement, laxity in enforcement, or the non-arbitrary selective enforcement of a law "has never been considered a denial of equal protection. … The equal protection guarantee simply prohibits prosecuting officials from purposefully and intentionally singling-out individuals for disparate treatment on an individually discriminatory basis." *Murgia v Municipal Court* (1975) 15 C3d 286, 296, 124 CR 204.

© The Regents of the University of California

§9.85 F. Gambling

The provisions of Pen C §330 prohibit specified gambling games by name and description. Those games not specifically prohibited are not illegal under state law.

Control of gambling activities, both private games and those conducted in commercial establishments, is a matter over which local governments have the power to enact and enforce local regulations not in conflict with general laws. See *In re Portnoy* (1942) 21 C2d 237, 131 P2d 1; *Francis v County of Stanislaus* (1967) 249 CA2d 862, 57 CR 881. On regulation of gambling establishments, see §§9.29-9.32.

© The Regents of the University of California

§9.86 G. Graffiti

A city has police power authority to regulate graffiti. See *Sherwin-Williams Co. v City of Los Angeles* (1993) 4 C4th 893, 904, 16 CR2d 215; *Sherwin-Williams Co. v City & County of San Francisco* (ND Cal 1994) 857 F Supp 1355. In addition, state law specifically authorizes cities to use city funds to do the following:

- Remove graffiti or other inscribed material (Govt C §53069.3),
- Provide rewards for information related to property destruction (Govt C §53069.5),
- Abate graffiti as a nuisance (Govt C §38773.5),
- Collect abatement expenses from the responsible person (Govt C §§38772-38773), and
- Adopt administrative fines and penalties (Govt C §53069.4).

However, a charter city ordinance making it a crime to place graffiti on real or personal property located within the city would be void due to its duplication of state criminal statutes, *i.e.,* Pen C §§594.05-640.6. See 78 Ops Cal Atty Gen 143 (1995).

For related material, see the following topics in this handbook:

- redevelopment (see §§5.301-5.439);
- nuisances (§§9.113-9.117);
- zoning and use permits (§§10.99-10.112);
- subdivisions, local ordinances, map approval conditions (§10.156); and
- code enforcement, chap 12.

© The Regents of the University of California

§9.87 1. Definition of Graffiti

"Graffiti" includes any unauthorized inscription, word, figure, mark, or design that is written, marked, etched, scratched, drawn, or painted on any real or personal property. See Govt C §53069.3. See also Pen C §§594(e) (defining graffiti for purpose of crime of vandalism), 640.5 (defining graffiti for purpose of crime of putting graffiti on governmental vehicles or facilities).

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/9 Regulating Businesses and Personal Conduct/ 2. State Law Sanctions for Graffiti/§9.88 a. Graffiti Is Punishable as Vandalism

2. State Law Sanctions for Graffiti

§9.88 a. Graffiti Is Punishable as Vandalism

State law declares graffiti to be a form of vandalism, punishable according to the degree of defacement, damage, or destruction. See Pen C §594. Special penalties apply for graffiti on governmental facilities and vehicles. Pen C §640.5.

© The Regents of the University of California

§9.89 b. Aerosol Paint Containers

State law makes it a misdemeanor for minors (those under the age of 18) to purchase an aerosol container of paint or etching cream capable of defacing property. Pen C §594.1(b), (f). Selling or furnishing aerosol paint cans or etching cream to minors is also a misdemeanor. Pen C §594.1(a), (f).

No one may carry aerosol paint containers or etching cream "in plain view" while in any specified posted facilities. See Pen C §594.1(d). Minors may not possess aerosol paint containers or etching cream for the purpose of defacing property in public places. See Pen C §594.1(e). Violation of these possession restrictions is also a misdemeanor. Pen C §594.1(f).

NOTE: Although state law preempts local agencies from regulating sales and possession of aerosol paints and etching cream (see Stats 1981, ch 1125, §2), local agencies are not preempted from regulating the display of aerosol paints. See *Sherwin-Williams Co. v City of Los Angeles* (1993) 4 C4th 893, 906, 16 CR2d 215 (upholding city ordinance requiring retailers to display aerosol paint and broad-tipped marker pens out of public's reach to prevent shoplifting of such items); *Sherwin-Williams Co. v City & County of San Francisco* (ND Cal 1994) 857 F Supp 1355.

© The Regents of the University of California

§9.90 c. Driver's License Restrictions

For each conviction for graffiti, the state may suspend or delay the issuance of the individual's driver's license. See Veh C §13202.6.

© The Regents of the University of California

3. Graffiti Removal

§9.91 a. Public Funds for Cleanup

Cities may use public funds for graffiti removal from both publicly and privately owned structures if it adopts an ordinance to do so and makes certain findings. See Govt C §53069.3. Graffiti removal requires the consent of the owner of the structure. Govt C §53069.3. Redevelopment agencies may take actions necessary to remove graffiti from public and private property within a project area. Health & S C §33420.2.

PRACTICE TIP: Develop a form for documenting owner consent. This form should also release the city from liability for property damage connected with the abatement effort.

State law authorizes cities to impose, with two-thirds voter approval, a tax on items that may be used for graffiti. See Rev & T C §§7287-7287.10. The tax is collected as a sales tax by the State Board of Equalization for remittance to the taxing agency. See Rev & T C §§7287.2, 7287.6. Proceeds from the tax may only be used for graffiti removal and prevention, including educational programs for at-risk youth. Rev & T C §7287.6.

© The Regents of the University of California

§9.92 b. Cleanup by Vandal

A court must, if appropriate and feasible, order the defendant convicted for acts of graffiti vandalism to clean up or repair the damaged property and to keep the damaged property or other property in the community free of graffiti for up to 1 year. Pen C §594(c). The court may also order the defendant, or his or her parents if a minor, to undergo counseling. Pen C §594(f). A city may also seek restitution for costs resulting from restoring public or private property that has been defaced with graffiti. Pen C §1202.4(a)(1), (k)(5).

© The Regents of the University of California

§9.93 c. Nuisance Abatement Procedures

The city may declare graffiti to be a public and private nuisance either in its general nuisance ordinance or in one specifically relating to graffiti issues. See Govt C §38772 (providing for summary abatement of nuisances at expense of minor or other person "creating, causing, or committing" the act, and making minor's parents/guardians jointly and severally liable). See also Govt C §§38773.1-38773.2, 38773.5 (alternative mechanisms for recouping costs of abatement).

PRACTICE TIP: Consider using the definition of "graffiti" in Govt C §53069.3 in any such abatement effort.

© The Regents of the University of California

§9.94 H. Guns and Weapons

Cities have the power to suppress, prohibit, or regulate all things that are injurious to the public welfare. See Cal Const art XI, §7. Deadly weapons are a proper item for these regulations. Challenges to a city's power to regulate weapons have primarily focused on state preemption.

© The Regents of the University of California

§9.95 1. Second Amendment

The Second Amendment of the United States Constitution provides that "the right of the people to keep and bear arms shall not be infringed." The Second Amendment protects an individual's right to possess and use a firearm for traditionally lawful purposes, such as self-defense within the home. *District of Columbia v Heller* (2008) __ US __, 171 L Ed 2d 637, 128 S Ct 2783 (District of Columbia's ban on handgun possession in home, and prohibition against rendering any lawful firearm in home operable for immediate self-defense, violates Second Amendment). See *U.S. v Miller* (1939) 307 US 174, 83 L Ed 1206, 59 S Ct 816 (Second Amendment protects only those firearms that have "some reasonable relationship to the preservation or efficiency of a well regulated militia"). The Supreme Court's decision in *Heller* did not address whether the Second Amendment is applicable to the states through the Fourteenth Amendment. 128 S Ct at 2813 n23. However, this issue is currently before the Supreme Court in another case. See *National Rifle Ass'n v City of Chicago* (7th Cir 2009) 567 F3d 856, cert granted sub nom *McDonald v City of Chicago* (2009) ___ US ___, 174 L Ed 2d 632, 130 S Ct 48. See also *Nordyke v King* (9th Cir 2009) 563 F3d 439, vacated and rehearing en banc granted July 29, 2009, 575 F3d 890.

© The Regents of the University of California

§9.96 2. Preemption

The California State Legislature has chosen to preempt discrete areas of gun regulation, permitting local governments to tailor firearms legislation in other substantial areas. *Fiscal v City & County of San Francisco* (2008) 158 CA4th 895, 905, 70 CR3d 324. State law expressly preempts the following:

- Regulation of the registration or licensing of firearms (Govt C §53071);
- Manufacture, sale, or possession of imitation firearms (Govt C §53071.5);
- Restrictions on handgun possession in an individual's home, business, or private property (Pen C §12026(b); *Fiscal v City & County of San Francisco* (2008) 158 CA4th 895, 905, 70 CR3d 324); and
- Certain ammunition sales (see, *e.g.,* Pen C §§12020, 12304, 12321; 77 Ops Cal Atty Gen 147 (1994) (state law preempts city in prohibiting sale of handgun ammunition)).

State law does *not* preempt the following:

- Local regulations on the display and discharge of firearms by police officers (*Long Beach Police Officers Ass'n v City of Long Beach* (1976) 61 CA3d 364, 132 CR 348);
- Ordinances restricting gun dealerships to commercial areas and requiring land use and police permits (*Suter v City of Lafayette* (1997) 57 CA4th 1109, 67 CR2d 420); and
- Ordinances banning the wholesale or retail sale of "Saturday Night Specials" (*California Rifle & Pistol Ass'n, Inc. v City of West Hollywood* (1998) 66 CA4th 1302, 78 CR2d 591).

Additionally, state law expressly authorizes counties to "prohibit and prevent the unnecessary firing and discharge of firearms" (see Govt C §25840), and to approve or deny permits to sell guns (see Pen C §12071). State law does not preempt ordinances prohibiting gun or ammunition sales on county property. *Great Western Shows, Inc. v County of Los Angeles* (2002) 27 C4th 853, 118 CR2d 746 (discussing preemption of local firearms regulation in context of counties).

© The Regents of the University of California

3. Weapons Confiscation and Forfeitures

§9.97 a. Weapons Confiscation

A law enforcement agency's officers are required to confiscate firearms or other deadly weapons found to be in the possession or under the control of an individual, when there is probable cause to believe that the individual represents some danger to him or herself and has been taken into custody for examination of his or her mental condition under Welf & I C §5150. See Welf & I C §8102; *Rupf v Yan* (2000) 85 CA4th 411, 102 CR2d 157. A similar requirement is imposed on an officer at the scene of a family violence incident involving a threat to human life or physical assault in which the officer reasonably believes that the return of the firearm or other deadly weapon would be likely to result in endangering the victim or the person reporting the assault or threat. Pen C §12028.5.

© The Regents of the University of California

§9.98 b. Post-Confiscation Hearing

To afford due process to the individual whose property has been confiscated, the confiscating law enforcement agency must initiate a petition in the superior court for a hearing on the issue of the return of the weapon(s) (within 30 days of the date of release from custody under Welf & I C §8102; within 60 days after seizure of weapons under Pen C §12028.5). If the person from whom the weapons were confiscated does not request a hearing within 30 days from receipt of notice of the petition, the agency may request a default order allowing forfeiture and destruction of the weapons or weapon. Welf & I C §8102; Pen C §12028.5.

If a Welf & I C §8102 hearing is set, the court must determine whether the return of the firearms or other deadly weapon would be likely to result in endangering the individual or others. Welf & I C §8102. Under Pen C §12028.5, the owner has an opportunity for a second hearing on the question of the return of the firearm. If the owner pursues the second hearing within 12 months of the first, the law enforcement agency bears the burden of proving by clear and convincing evidence that the firearm should not be returned, and the prevailing party is entitled to its attorney fees.

PRACTICE TIP: Due to a lack of statutory specificity, there is very little consistency from one court to the next with respect to the applicable procedure for a post-confiscation hearing. Check with your local court for filing and hearing requirements.

© The Regents of the University of California

§9.99 c. Procedure for Return of Firearm

Before a city may return a firearm, the individual must present the city with a notification of determination by the Department of Justice certifying that the individual is eligible to possess firearms, and the city must verify that the firearm is not listed as stolen and that the firearm has been recorded in the Automated Firearms System in the name of the individual who seeks its return. Pen C §12021.3(b)(1)-(2).

PRACTICE TIP: It is important to bring this statute to the court's attention if it orders the return of a firearm, so that the court can properly instruct the individual on the procedure for the return of the firearm. Because long guns (*i.e.,* rifles) are rarely registered on the Automated Firearms System, it may be necessary for the individual to affirmatively register a long gun with the Department of Justice so that the city can verify that the individual is the owner.

© The Regents of the University of California

§9.100 I. Loitering

Because loitering itself is generally lawful, any statute regulating loitering must specifically differentiate between loitering for a lawful purpose and loitering for an unlawful purpose. See *City of Chicago v Morales* (1999) 527 US 41, 53, 144 L Ed 2d 67, 119 S Ct 1849. The most common constitutional challenge to loitering laws is that they are void for vagueness. However, loitering laws are also challenged on theories of equal protection, due process, and the First Amendment rights to free assembly and association. They may also be challenged as being preempted by state law.

© The Regents of the University of California

§9.101 1. Equal Protection

Loitering laws that vest a great amount of discretion in police officers violate equal protection if they allow arbitrary and discriminatory enforcement. *People v Superior Court (Caswell)* (1988) 46 C3d 381, 250 CR 515. Many loitering laws improperly make the condition of poverty a crime. This violates the equal protection clause of the Fourteenth Amendment because it seeks to make criminal a status, as opposed to a specific act. *Robinson v California* (1962) 370 US 660, 8 L Ed 2d 758, 82 S Ct 1417 (addiction to narcotics is a status that legislature cannot validly declare a crime; punishing status constitutes cruel and unusual punishment in violation of Eighth Amendment of the United States Constitution).

© The Regents of the University of California

2. Due Process

§9.102 a. Vagueness

A law is not void for vagueness if it is (*U.S. v L. Cohen Grocery Co.* (1921) 255 US 81, 89, 65 L Ed 516, 41 S Ct 298):

- Written so that there is "an ascertainable standard of guilt"; and
- "[A]dequate to inform persons accused of violation … of the nature and cause of the accusation against them."

See *City of Chicago v Morales* (1999) 527 US 41, 144 L Ed 2d 67, 119 S Ct 1849 (criminal street gang loitering ordinance that failed to establish minimal guidelines for law enforcement was found to be unconstitutional).

Some aspects of Pen C §647 have failed this test. For example, Pen C §647(e) requires a person who is loitering or wandering from place to place to provide credible and reliable identification on request of a police officer. The court found this requirement was unconstitutionally vague because it did not specify what constituted "credible and reliable identification." *Kolender v Lawson* (1983) 461 US 352, 75 L Ed 2d 903, 103 S Ct 1855. The provisions of Pen C §647(e) still exist in its unconstitutional form, but are no longer enforced. See *People v Superior Court (Caswell)* (1988) 46 C3d 381, 250 CR 515 (upholding Pen C §647(d)).

© The Regents of the University of California

§9.103 b. Overbreadth

A statute is overbroad if it proscribes expressive conduct protected by the First Amendment. *Roulette v City of Seattle* (9th Cir 1996) 97 F3d 300. To successfully challenge a loitering statute for being overbroad, the challenger must show that the statute punishes the First Amendment activities and does not regulate criminal conduct. However, the Supreme Court has held that it is inappropriate to entertain an overbreadth challenge absent a realistic danger that an ordinance will significantly compromise recognized First Amendment protections of individuals not before the Court. See *City of Los Angeles v Taxpayers for Vincent* (1984) 466 US 789, 801, 80 L Ed 2d 772, 104 S Ct 2118.

© The Regents of the University of California

§9.104 3. Right to Free Assembly and Association

Use of loitering statutes to disperse groups of people perceived as undesirable violates the right to free assembly and association. The First Amendment and Fourteenth Amendment do not permit government to criminalize the exercise of the right of assembly simply because its exercise may annoy some people. *Coates v Cincinnati* (1971) 402 US 611, 29 L Ed 2d 214, 91 S Ct 1686; *Roulette v City of Seattle* (9th Cir 1996) 97 F3d 300 (on facial challenge to ordinance prohibiting sitting or lying on sidewalk, Seattle's ordinance was found not to be directed at homeless persons on public sidewalks and thus did not violate substantive due process of these persons). See also *Amster v City of Tempe* (9th Cir 2001) 248 F3d 1198 (upholding under facial challenge ordinance requiring permit to sit on sidewalk but leaving open question of validity under future as-applied challenge).

© The Regents of the University of California

§9.105 4. Preemption

Local vagrancy and loitering statutes generally are not preempted by state law. See *Yuen v Municipal Court* (1975) 52 CA3d 351, 125 CR 87. However, a local ordinance that criminalizes conduct that is already criminal under state law may encounter preemption problems. For example, at least one court has determined that an ordinance prohibiting loitering for soliciting an act of prostitution was preempted by state law regulating criminal sexual conduct. *Gates v Municipal Court* (1982) 135 CA3d 309, 185 CR 330 (constitutionally of ordinance may be challenged on grounds of vagueness and overbreadth).

© The Regents of the University of California

§9.106 5. Cruel and Unusual Punishment

A city ordinance designed to address sleeping by homeless persons in public places by criminalizing sitting, lying, or sleeping at all times on public streets and sidewalks violated the Eighth Amendment's prohibition against cruel and unusual punishment. See *Jones v City of Los Angeles* (9th Cir 2006) 444 F3d 1118, vacated as moot (9th Cir 2007) 505 F3d 1006.

© The Regents of the University of California

§9.107 J. Noise

Noise is recognized by federal, state, and local governments as jeopardizing the public health and welfare if it is excessive. The federal Environmental Protection Agency administers the federal Noise Control Act of 1972 (42 USC §§4901-4918, and California enacted its own Noise Control Act in 1973. Health & S C §§46010-46080. See also Pen C §415 ("any person who maliciously and willfully disturbs another person by loud and unreasonable noise" is subject to fine and imprisonment).

Local governmental entities may regulate excessive noise within their jurisdictions to protect the general welfare (see Cal Const art XI, §7) as long as these local regulations do not infringe on constitutional or preemptive statutory rights.

© The Regents of the University of California

§9.108 1. Freedom of Speech

Although cities may regulate noise if the ordinance is narrowly drawn to prohibit specific evils, ordinances that "indiscriminately" inhibit communicating messages impermissibly invade the right of free speech. See *Wollam v City of Palm Springs* (1963) 59 C2d 276, 29 CR 1 (court struck restrictions on sound trucks that amounted to blanket prohibition on stationary sound trucks). An ordinance that requires individuals or organizations seeking to amplify sound, either for commercial or non-commercial purposes, to secure a permit is unconstitutional when it gives municipal officials unfettered discretion to grant or deny the permit. *Saia v New York* (1948) 334 US 558, 92 L Ed 1574, 68 S Ct 1148.

© The Regents of the University of California

§9.109 2. Vagueness

Noise ordinances that use standards such as "loud and raucous" noise or other similarly objective terms to describe excessive noise have been upheld. *Kovacs v Cooper* (1949) 336 US 77, 93 L Ed 513, 69 S Ct 448 (finding "loud and raucous" noise had acquired sufficient definite definition through daily use so as to put people on notice of what noise is forbidden). Many noise ordinances seek to prohibit loud or excessive noise based on subjective standards rather than on the basis of decibel level. Under the vagueness doctrine, a law that does not fairly inform a person of what is prohibited or permitted is unconstitutional. However, ordinances that prohibit noise characterized as "loud, unnecessary and unusual" or "which disturbs or tends to disturb the peace or good order" have survived vagueness challenges. *Grayned v City of Rockford* (1972) 408 US 104, 33 L Ed 2d 222, 92 S Ct 2294; *Mann v Mack* (1984) 155 CA3d 666, 202 CR 296.

© The Regents of the University of California

§9.110 3. Overbreadth

A law is overbroad, and thus void, if it "does not aim specifically at evils within the allowable area of [governmental] control, but. … sweeps within its ambit other activities that constitute an exercise" of protected expressive rights. *Thornhill v Alabama* (1940) 310 US 88, 60 S Ct 736, 84 L Ed 1093. Noise ordinances that regulate the volume of sound, rather than the content, typically withstand overbreadth challenges. *Broadrick v Oklahoma* (1973) 413 US 601, 37 L Ed 2d 830, 93 S Ct 2908. But see *U.S. Labor Party v Pomerleau* (4th Cir 1977) 557 F2d 410 (ordinance prohibiting noise in excess of certain volume as measured from "any point on the property line of use" is vague and overbroad and susceptible to arbitrary enforcement).

© The Regents of the University of California

4. Special Issues Relating to Noise Regulations

§9.111 a. Vehicles and Sound Amplification

No driver of a vehicle may operate, or permit the operation of, a sound amplification system that can be heard outside of a vehicle from a distance of 50 feet or more. Veh C §27007.

NOTE: Section 27007 is inapplicable to vehicles used for advertisement or in parades, political, or other events. A city may regulate amplification for these purposes by ordinance. Veh C §27007. See *Wollam v City of Palm Springs* (1963) 59 C2d 276, 29 CR 1.

© The Regents of the University of California

§9.112 b. Airports

Despite the fact that airport noise tends to be intrusive and annoying to nearby residents and would be a likely target of cities' noise ordinances, local regulation of airport noise is frequently preempted. If the city owns the airport, local regulation of airport noise will be upheld as long as it regulates the volume (100 decibels per single event noise exposure) and not the airspace or flight patterning, which is preempted by the Federal Aviation Administration. *Santa Monica Airport Ass'n v City of Santa Monica* (9th Cir 1981) 659 F2d 100. See *City of Burbank v Lockheed Air Terminal, Inc.* (1973) 411 US 624, 36 L Ed 2d 547, 93 S Ct 1854 (city unsuccessfully attempted to prohibit takeoffs between 11:00 p.m. and 7:00 a.m.).

For related material, see §§6.139-6.155 (municipal services and utilities, airports).

© The Regents of the University of California

§9.113 K. Nuisance

A city has police power authority to declare what activities or uses constitute a nuisance and to enact regulations designed to eliminate or reduce the occurrence of a nuisance in an effort to protect the general welfare. Cal Const art XI, §7. City ordinances regulating nuisances are not limited to things that are nuisances under state law. *People v Johnson* (1954) 129 CA2d 1, 277 P2d 45.

© The Regents of the University of California

§9.114 1. State Nuisance Law

State law defines a "nuisance" in part as being "[a]nything which is injurious to health, including, but not limited to the illegal sale of controlled substances, or is indecent, or offensive to the senses, or an obstruction to the free use of property, so as to interfere with the comfortable enjoyment of life or property." CC §3479.

Unlawfully obstructing a navigable lake, river, bay, stream, canal, or basin; or any public park, square, street, or highway also constitutes a nuisance under state law. CC §3479; Pen C §370 (defining such obstruction as "public" nuisance).

© The Regents of the University of California

§9.115 a. Public Nuisance

A public nuisance is an act or omission that interferes with the interests of the community or the comfort or convenience of the general public and interferes with the public's health, comfort, and convenience. *Venuto v Owens Corning Fiberglass Corp.* (1971) 22 CA3d 116, 123, 99 CR 350. A public nuisance affects an entire community or neighborhood, or any considerable number of persons at the same time, although the extent of the annoyance or damage inflicted on individuals may be unequal. CC §3480; Pen C §370. A private person may maintain an action for a public nuisance if it is specially injurious to the person, but not otherwise. CC §3493. A class action for an alleged public nuisance cannot be maintained if establishing class members' right to recover depends on facts peculiar to each member's case because common questions of law or fact will not predominate. *Frieman v San Rafael Rock Quarry, Inc.* (2004) 116 CA4th 29, 10 CR3d 82 (blasting and noise levels varied infinitely for plaintiffs, thus depriving them of requisite commonality).

On remedies available to address public nuisances, see chap 12.

© The Regents of the University of California

§9.116 b. Private Nuisance

Every nuisance that is not included in the definition of public nuisance (see §9.115) is a private nuisance. CC §3481. In other words, a private nuisance is one that is injurious or offensive to an individual as opposed to the community at large. *Venuto v Owens Corning Fiberglass Corp.* (1971) 22 CA3d 116, 123, 99 CR 350. An action for a private nuisance is designed to compensate.

© The Regents of the University of California

§9.117 2. Local Authority to Declare Nuisance

A city legislative body may, by ordinance, declare what constitutes a nuisance. Govt C §38771. See also *City of Costa Mesa v Soffer* (1992) 11 CA4th 378, 13 CR2d 735. Because state law does not shed much light on what is considered to be a nuisance, a city will have an easier time prosecuting a nuisance action if it defines certain conduct or an activity as being a nuisance.

PRACTICE TIP: A city should exercise caution, however, when the invocation of its power to abate a nuisance might be perceived as a pretext for what is substantively a taking. *Hurwitz v City of Orange* (2004) 122 CA4th 835, 19 CR3d 213 (city took plaintiff's property in violation of preliminary injunction, then tried to justify taking by declaring property public nuisance).

These defined activities or conditions are considered to be a nuisance per se and the city has no burden of proof beyond the fact the nuisance actually exists. See *IT Corp. v County of Imperial* (1983) 35 C3d 63, 196 CR 715 (proof of violation of local ordinance declaring nuisance creates rebuttable presumption that potential harm to public outweighs potential harm to defendant). See also *City of Costa Mesa v Soffer* (1992) 11 CA4th 378, 13 CR2d 735. An injunction may issue without proof of irreparable injury. *People ex rel Dep't of Pub. Works v Adco Advertisers* (1973) 35 CA3d 507, 110 CR 849.

NOTE: Cities typically declare certain items, conduct, or activities nuisances per se in zoning, building, environmental protection, grading, noise, fire protection, and other similar ordinances.

© The Regents of the University of California

§9.118 L. Speech

A citizen is entitled to constitutional protections relating to speech when the government acts either as a regulator of citizen conduct or as a property owner (proprietor). Within certain limits, government employees are also entitled to free expression. For example, an employee's speech is protected under the First Amendment if the employee is speaking as a private citizen addressing a matter of public concern. However, if the speech is done under the employee's official duties, the speech is not protected speech. *Garcetti v Ceballos* (2006) 547 US 410, 164 L Ed 2d 689, 126 S Ct 1951 (in First Amendment retaliation case, employee's statements made under his official duties is not protected speech). However, the degree of protection and the standard of review applied to the government's regulations differ according to the government's role.

© The Regents of the University of California

1. Government as Property Owner

§9.119 a. Forum Analysis

"Even protected speech is not equally permissible in all places and at all times." *Clark v Burleigh* (1992) 4 C4th 474, 482, 14 CR2d 455, quoting *Cornelius v NAACP Legal Defense & Educ. Fund* (1985) 473 US 788, 799, 87 L Ed 2d 567, 105 S Ct 3439. The United States Constitution does not require that the government freely grant access to all wishing to exercise their right to free speech on every type of government property without regard to the property's nature or the disruption that might be caused by the speaker's activities. "Recognizing that the Government, no less than a private owner of property, has power to preserve the property under its control for the use to which it is lawfully dedicated," the Supreme Court adopted a forum analysis to determine when its interest in limiting the use of its property to its intended purpose outweighs the interest of those wishing to use the property for other purposes. Thus, "the extent to which the Government can control access depends on the nature of the relevant forum." *Clark v Burleigh, supra*.

© The Regents of the University of California

b. Three Types of Forums

§9.120 (1) Traditional Public Forum

A "traditional public forum" is a place that by long tradition has been used by the public at large for the free exchange of ideas. Laws regulating the content of speech in such forums are subject to strict scrutiny, *i.e.,* speakers can be excluded from a traditional public forum only when the exclusion is necessary to serve a compelling state interest and the exclusion is narrowly drawn to achieve that interest.

Examples of traditional public forums include:

- Public parks (see *Ward v Rock Against Racism* (1989) 491 US 781, 790, 105 L Ed 2d 661, 109 S Ct 2746);
- Public streets (see *Frisby v Schultz* (1988) 487 US 474, 481, 101 L Ed 2d 420, 108 S Ct 2495; *Boos v Barry* (1988) 485 US 312, 318, 99 L Ed 2d 333, 108 S Ct 1157); and
- Publicly owned pedestrian malls (see *American Civil Liberties Union v City of Las Vegas* (9th Cir 2003) 333 F3d 1092, 1094, cert denied (2004) 540 US 1110).

But see *Madsen v Women's Health Ctr.* (1994) 512 US 753, 129 L Ed 2d 593, 114 S Ct 2516 (injunction restricting anti-abortion protestors to 36-foot buffer not subject to heightened scrutiny but rather to test asking whether injunction "burdens no more speech than necessary to serve a significant governmental interest"); *S.O.C., Inc. v County of Clark* (9th Cir 1998) 152 F3d 1136 (anti-leafleting ordinance that was not expressly limited to commercial speech met test for issuance of preliminary injunction). For a contrary opinion on an anti-leafleting ordinance, see *Klein v City of San Clemente* (9th Cir 2009) 584 F3d 1196, cert denied ___ US ___, 176 L Ed 2d 183, ___ S Ct ___ (city failed to show that leafleting of vehicle windshields created more litter than city could clean up). For further discussion of leafleting, see §9.133.

© The Regents of the University of California

§9.121 (2) Designated or Limited Public Forum

A designated or limited public forum is property that the state has opened for expressive activity by part or all of the public. A designated public forum can either be limited or unlimited in character. A designated public forum is not created by inaction or by permitting limited discourse, but only by intentionally opening a nontraditional forum for public discourse.

Examples of designated or limited public forums include:

- City council chambers (see *White v City of Norwalk* (9th Cir 1990) 900 F2d 1421);
- School district's literature distribution program (see *Hills v Scottsdale Unified Sch. Dist. No. 48* (9th Cir 2003) 329 F3d 1044); and
- University's student activity fund (see *Rosenberger v Rector & Visitors of the Univ. of Virginia* (1995) 515 US 819, 132 L Ed 2d 700, 115 S Ct 2510).

A content-based regulation of speech in a designated public forum is subject to strict scrutiny. But see *Hopper v City of Pasco* (9th Cir 2001) 241 F3d 1067, 1075, cert denied (2001) 534 US 951 (Ninth Circuit differentiates between designated and limited public forums and applies lower level "reasonableness test" to latter).

© The Regents of the University of California

§9.122 (3) Nonpublic Forum (All Remaining Public Property)

A nonpublic forum is not dedicated to general debate or the free exchange of ideas. The First Amendment does not forbid a viewpoint-neutral exclusion of speakers who would disrupt a nonpublic forum and hinder its effectiveness for its intended purpose. *International Soc'y for Krishna Consciousness, Inc. v Lee* (1992) 505 US 672, 120 L Ed 2d 541, 112 S Ct 2711 (public airport solicitation of funds is nonpublic forum). See *Children of the Rosary v City of Phoenix* (9th Cir 1998) 154 F3d 972, cert denied (1999) 526 US 1131 (advertising panel on municipal bus is nonpublic forum); *Jacobsen v Bonine* (9th Cir 1997) 123 F3d 1272 (highway rest area is nonpublic forum).

Limitations on expressive activity conducted on nonpublic forums must survive a much more limited review. The challenged regulation need only be reasonable as long as the regulation is not an effort to suppress the speaker's activity due to disagreement with the speaker's view.

Examples of nonpublic forums include:

- Ballot pamphlet (see *Clark v Burleigh* (1992) 4 C4th 474, 14 CR2d 455; *Cogswell v City of Seattle* (9th Cir 2003) 347 F3d 809);
- Political advertising on city-owned buses (see *Lehman v City of Shaker Heights* (1974) 418 US 298, 41 L Ed 2d 770, 94 S Ct 2714);
- Political advertising on utility poles on public sidewalks (see *City of Los Angeles v Taxpayers for Vincent* (1984) 466 US 789, 80 L Ed 2d 772, 104 S Ct 2118);
- Solicitation on walkways leading to post office (see *U.S. v Kokinda* (1990) 497 US 720, 111 L Ed 2d 571, 110 S Ct 3115);
- Teachers' mailboxes (see *Perry Educ. Ass'n v Perry Local Educators' Ass'n* (1983) 460 US 37, 74 L Ed 2d 794, 103 S Ct 948); and
- Leafleting and speechmaking in airport terminals (see *Springfield v San Diego Unified Port Dist.* (SD Cal 1996) 950 F Supp 1482).

© The Regents of the University of California

2. Government as Regulator

§9.123 a. Type of Speech

Commercial speech is not entitled to the same level of protection as non-commercial speech when the regulation (*Central Hudson Gas & Elec. Corp. v Public Serv. Comm'n* (1980) 447 US 557, 65 L Ed 2d 341, 100 S Ct 2343)

- is designed either to prevent false or misleading advertising,
- directly advances a substantial governmental interest, and
- is no more extensive than necessary to further that interest.

See *Gerawan Farming Inc. v Kawamura* (2004) 33 C4th 1, 22, 14 CR3d 14 (adopting United States Supreme Court intermediate scrutiny test for commercial speech).

Messages directed by a commercial speaker to a commercial audience making representations of fact about the speaker's own business operations to promote sales of its products are commercial speech and can be effectively regulated without undue risk of chilling public debate. *Kasky v Nike, Inc.* (2002) 27 C4th 939, 946, 119 CR2d 296; *Nike, Inc. v Kasky* (2003) 539 US 654, 156 L Ed 2d 580, 123 S Ct 2554 (writ of certiorari dismissed). When commercial speech is treated differently from non-commercial speech for reasons wholly unrelated to the particular interest that the city asserts, the regulation fails to meet First Amendment standards. *City of Cincinnati v Discovery Network, Inc.* (1993) 507 US 410, 123 L Ed 2d 99, 113 S Ct 1505 (city regulation banning newsracks containing strictly "commercial publications" violates First Amendment).

© The Regents of the University of California

§9.124 (1) Charitable Fund-Raising

Fund-raising for charities is fully protected speech. *Riley v National Fed'n of the Blind of North Carolina, Inc.* (1988) 487 US 781, 101 L Ed 2d 669, 108 S Ct 2667. See *People v Zimmerman* (1993) 15 CA4th Supp 7, 19 CR2d 486 (upheld constitutionality of Pen C §647(c), which prohibits public begging, finding that charitable solicitations fell outside its scope).

State law regulates solicitation for charitable purposes (see Bus & P C §17510.3), but does not preempt local legislation (see Bus & P C §17510.7).

© The Regents of the University of California

§9.125 (2) "Mixed" Commercial Speech

When a commercial transaction does more than inform private economic decisions and is not primarily concerned with providing information about the cost of goods and services, it is not treated as a variety of purely commercial speech and is thus entitled to more protection than purely commercial speech. *Village of Schaumburg v Citizens for a Better Environment* (1980) 444 US 620, 63 L Ed 2d 73, 100 S Ct 826. See also *Perry v Los Angeles Police Dept.* (9th Cir 1997) 121 F3d 1365, cert denied (1998) 523 US 1047 (content-neutral ban on solicitations was not narrowly tailored when ordinance banned all solicitations except those made by nonprofit organizations); *Gaudiya Vaishnava Soc'y v City & County of San Francisco* (9th Cir 1991) 952 F2d 1059, 1066, cert denied (1992) 504 US 914 (when commercial transaction is "inextricably intertwined" with expressive activity, entire activity enjoys First Amendment protection).

© The Regents of the University of California

§9.126 (3) Political Speech

In a public forum, the regulation of political speech must be subjected to the most exacting scrutiny. *Boos v Barry* (1988) 485 US 312, 321, 99 L Ed 2d 333, 108 S Ct 1157.

© The Regents of the University of California

b. Prior Restraints

§9.127 (1) Injunctions Against Speech

The First Amendment prevents censorship or prohibition of publication by injunction. *Near v State of Minnesota* (1931) 283 US 697, 75 L Ed 1357, 51 S Ct 625.

© The Regents of the University of California

§9.128 (2) Permit Requirements

Ordinary court procedural rules and practices provide the prompt judicial review and prompt judicial determination required for First Amendment challenges. *City of Littleton v Z. J. Gifts D-4, L.L.C.* (2004) 541 US 774, 159 L Ed 2d 84, 124 S Ct 2219 (upheld adult business licensing ordinance). Legislative delegation of permit approval authority must have objective standards. See *Gaudiya Vaishnava Soc'y v City & County of San Francisco* (9th Cir 1991) 952 F2d 1059, cert denied (1992) 504 US 914. Government may not condition permit on organizers' promise not to trespass. *U.S. v Baugh* (9th Cir 1999) 187 F3d 1037. Law requiring registration and issuance of ministerial permit as a prior condition for all door-to-door canvassing and solicitation is overbroad. *Watchtower Bible & Tract Soc'y, Inc. v Village of Stratton* (2002) 536 US 150, 153 L Ed 2d 205, 122 S Ct 2080. An ordinance granting unfettered discretion to city officials to impose conditions when issuing a conditional use permit for cybercafés was unconstitutional, but city-imposed operational regulations including daytime curfew, number of employees, and security guard and video surveillance requirements were upheld as reasonable time, place, or manner restrictions. *Vo v City of Garden Grove* (2004) 115 CA4th 425, 9 CR3d 257. See *White v City of Sparks* (9th Cir 2007) 500 F3d 953 (city's pre-approval policy for free speech exemption from its ordinance restricting display or sale of art in parks and other areas lacked objective criteria and was thus unconstitutional prior restraint on speech).

The provisions of CCP §1094.8 provide for expedited judicial review and procedures for permits involving First Amendment activities.

© The Regents of the University of California

§9.129 (3) Newsracks

Newspaper vending machines on public sidewalks are a means of distributing speech that cannot be wholly prohibited. *City of Cincinnati v Discovery Network, Inc.* (1993) 507 US 410, 123 L Ed 2d 99, 113 S Ct 1505 (city regulation banning newsracks containing strictly "commercial publications" violates First Amendment). However, a ban on the sale, display, or offer of "harmful matter" from unsupervised vending machines under "newsrack" statute (Pen C §§313-313.5) is constitutional. *Crawford v Lungren* (9th Cir 1996) 96 F3d 380, cert denied (1997) 520 US 1117. See §9.13.

Ordinance requiring "blinders" on newsracks selling material deemed harmful to minors is narrowly tailored to serve compelling state interest in protecting minors. *Berry v City of Santa Barbara* (1995) 40 CA4th 1075, 47 CR2d 661. Summary seizure and removal of newsracks without a hearing is unconstitutional prior restraint of speech. *Kash Enters. v City of Los Angeles* (1977) 19 C3d 294, 302, 138 CR 53. Unfettered discretion over which publishers may place newsracks on public property and where the newsracks may be placed is also an unconstitutional prior restraint. See *City of Lakewood v Plain Dealer Publ'g Co.* (1988) 486 US 750, 100 L Ed 2d 771, 108 S Ct 2138. But see *Honolulu Weekly, Inc. v Harris* (9th Cir 2002) 298 F3d 1037 (ordinance requiring use of limited number of government-provided newsracks held constitutional).

Any licensing system must contain these procedural safeguards (see *Freedman v Maryland* (1965) 380 US 51, 13 L Ed 2d 649, 85 S Ct 734):

- Licensor must act on the permit application within specified time limits;
- Either the license must be issued or the licensor must enforce the restraint by court action;
- Mere denial of the license cannot be used to create a prohibition on First Amendment activities; and
- System must provide for prompt and final judicial review of any interim license denial.

Height restrictions have been upheld based on the determination that unregulated height could obstruct the view of a pedestrian, motorist, or bicyclist; and that the aesthetic quality of the environment would be improved by standardizing the size and shape of newsracks. *Duffy v City of Arcadia* (1987) 195 CA3d 308, 243 CR 87.

© The Regents of the University of California

§9.130 (4) Internet

In *Reno v American Civil Liberties Union* (1997) 521 US 844, 138 L Ed 2d 874, 117 S Ct 2329, federal law prohibiting the display of "patently offensive" or "indecent" material over the Internet to persons under 18 was found to be a content-based restriction on speech and unconstitutionally overbroad in its regulation of speech. In response to *Reno*, Congress passed the Child Online Protection Act (COPA) (47 USC §231), but COPA was also determined to be an unconstitutionally overbroad restriction on speech. *Ashcroft v American Civil Liberties Union* (2004) 542 US 656, 159 L Ed 2d 690, 124 S Ct 2783 (preliminary injunction against enforcement of COPA affirmed because government failed to meet its burden of showing that less restrictive means, such as blocking or filtering technology, were insufficient alternatives to meet goal of protecting minors).

Speech that is not obscene is protected by the First Amendment. Moreover, the state's interest in protecting children from harmful material does not justify an overbroad suppression of speech directed at adults and there is no practical way to prevent children from seeing information on the Internet directed at adults.

NOTE: Internet access in public libraries is neither a "traditional" nor a "designated" public forum. *U.S. v American Library Ass'n* (2003) 539 US 194, 156 L Ed 2d 221, 123 S Ct 2297 (library's decision to use Internet filtering software did not violate its patrons' First Amendment rights).

© The Regents of the University of California

§9.131 c. Time, Place, and Manner Restrictions

Time, place, and manner restrictions must be content-neutral; "[r]egulations enacted for the purpose of restraining speech on the basis of its content presumptively violate the First Amendment." *City of Renton v Playtime Theatres, Inc.* (1986) 475 US 41, 46, 89 L Ed 2d 29, 106 S Ct 925. Valid content-neutral time, place, and manner regulations are acceptable as long as they are designed to serve a substantial governmental interest and do not unreasonably limit alternative avenues of communication. *Sebago, Inc. v City of Alameda* (1989) 211 CA3d 1372, 1382, 259 CR 918.

The analysis for determining whether a regulation that restrains speech is valid is as follows:

- Is the regulation content-neutral?
- Is the regulation narrowly tailored to serve a significant governmental interest?
- Does the regulation leave open ample alternative channels of communication?

See *Ward v Rock Against Racism* (1989) 491 US 781, 790, 105 L Ed 2d 661, 109 S Ct 2746. See also, *e.g., Johnson v City of Pleasanton* (9th Cir 1992) 982 F2d 350 (height, screening, and set-back requirements for satellite receive-only antennae are valid content-neutral time, place, and manner regulations as long as they further substantial governmental interest and do not unreasonably limit alternative means of communication).

© The Regents of the University of California

§9.132 (1) Adult Entertainment

A provision of the Telecommunications Act of 1996 requiring cable television operators to either scramble sexually explicit channels in full or limit such programming to certain hours was held unconstitutional as a content-based regulation. *U.S. v Playboy Entertainment Group, Inc.* (2000) 529 US 803, 146 L Ed 2d 865, 120 S Ct 1878. See also *City of Renton v Playtime Theatres, Inc.* (1986) 475 US 41, 89 L Ed 2d 29, 106 S Ct 925; *E.W.A.P., Inc. v City of Los Angeles* (1997) 56 CA4th 310, 65 CR2d 325 (upholding ordinance restricting hours of operation of adult entertainment establishment). On adult business regulations, see §§9.6-9.16.

© The Regents of the University of California

§9.133 (2) Leafleting

City regulation prohibiting door-to-door distribution of advertisements and unauthorized newspapers is impermissibly content-based. *City of Fresno v Press Communications, Inc.* (1994) 31 CA4th 32, 36 CR2d 456. See *Los Angeles Alliance for Survival v City of Los Angeles* (2000) 22 C4th 352, 93 CR2d 1 (aggressive solicitation ordinance prohibiting in-person requests for immediate donation or payment of funds is content-neutral).

© The Regents of the University of California

§9.134 (3) Curfews

A juvenile curfew ordinance is invalid if it restricts access of children to any and all public forums during curfew hours, without sufficiently exempting legitimate First Amendment activities. *Nunez v City of San Diego* (9th Cir 1997) 114 F3d 935 (ordinance infringed on minors' fundamental rights). But see *Schleifer v City of Charlottesville* (4th Cir 1998) 159 F3d 843, cert denied (1999) 526 US 1018 (narrowly tailored ordinance served city's compelling interests).

On curfews, see §§9.64-9.73.

© The Regents of the University of California

§9.135 (4) Free Speech Zones

When restricting demonstrations to designated free speech zones, the regulation should be narrowly tailored to address a significant government interest, such as maintaining public safety by regulating the flow of pedestrian traffic. *Kuba v 1-A Agric. Ass'n* (9th Cir 2004) 387 F3d 850. See also *Berger v City of Seattle* (9th Cir 2009) 569 F3d 1029 (ordinance requiring permit before conducting performance in city's public park violated First Amendment because ordinance was not sufficiently narrow to be valid time, place, and manner regulation).

When the location is an essential part of the message sought to be conveyed, a court must consider the degree to which the message will be distorted as a result of the restriction. *Galvin v Hay* (9th Cir 2004) 374 F3d 739 (relegation of prayer service to "First Amendment area" burdened speech to substantially greater degree than was necessary when visual connection with desired location was partially obstructed, remote, and oblique).

© The Regents of the University of California

§9.136 d. Permissible Content-Based Restrictions

The following speech may be restricted based on content:

- Fighting words, *i.e.,* speech that is of such slight social value as a step to truth that any benefit that may be derived from them is clearly outweighed by the social interest in order and morality;

NOTE: "Fighting words" include conduct that inflicts injury or tends to incite immediate violence. *Chaplinsky v State of New Hampshire* (1942) 315 US 568, 86 L Ed 1031, 62 S Ct 766. But see *R.A.V. v City of St. Paul* (1992) 505 US 377, 120 L Ed 2d 305, 112 S Ct 2538 (striking down anti-"hate crime" law).

- Defamation (see *New York Times Co. v Sullivan* (1964) 376 US 254, 11 L Ed 2d 686, 84 S Ct 710; CC §§44-45);
- Obscenity (see *Miller v State* (1973) 413 US 15, 37 L Ed 2d 419, 93 S Ct 2607); and
- Clear and present danger (see *Schenck v U.S.* (1919) 249 US 47, 63 L Ed 470, 39 S Ct 247).

© The Regents of the University of California

§9.137 e. Sign Regulations

Local regulation of signs must be consistent with the constitutionally protected First Amendment right to free speech. In general, cities have more leeway to regulate commercial speech than non-commercial speech. In addition, the type of public forum affects the degree of regulation. See §§9.119-9.122.

© The Regents of the University of California

§9.138 (1) Content-Based Regulations

Content-based restrictions must be necessary to serve a compelling interest and must be narrowly drawn to achieve that end. See *Desert Outdoor Adver., Inc. v City of Moreno Valley* (9th Cir 1996) 103 F3d 814, 820, cert denied (1997) 522 US 912; *National Adver. Co. v City of Orange* (9th Cir 1988) 861 F2d 246, 248 (traffic safety and aesthetics are substantial government interests, when statement of intent or purpose so declares, but not compelling). But see *Foti v City of Menlo Park* (9th Cir 1998) 146 F3d 629, 637 (cities may have compelling interest in traffic safety).

A sign ordinance that creates exemptions for certain types of non-commercial speech is content based. For example, exemptions for temporary political signs, directional signs, official signs, and notices are invalid because no compelling interests justify the content-based exceptions. *Desert Outdoor Adver., Inc. v City of Moreno Valley, supra*; *National Adver. Co. v City of Orange, supra*. Restrictions on tobacco advertising may be subject to strict scrutiny. *Lorillard Tobacco Co. v Reilly* (2001) 533 US 525, 558, 150 L Ed 2d 532, 121 S Ct 2404 (prohibition on advertisement of smokeless tobacco within 1000 feet of schools invalidated).

© The Regents of the University of California

§9.139 (2) Regulation of Commercial Speech

A regulation of speech that concerns a lawful commercial activity and is not misleading must (*Central Hudson Gas & Elec. Corp. v Public Serv. Comm'n* (1980) 447 US 557, 65 L Ed 2d 341, 100 S Ct 2343):

- Seek to implement a substantial government interest;
- Directly advance that interest; and
- Reach no further than necessary to accomplish its objective.

A sign ordinance must include a statement of purpose to satisfy the first prong of this test. *Desert Outdoor Adver., Inc. v City of Moreno Valley* (9th Cir 1996) 103 F3d 814, 819 n2, cert denied (1997) 522 US 912. As a matter of law, traffic safety and aesthetics are substantial interests that justify regulation of commercial signs. *National Adver. Co. v City of Orange* (9th Cir 1988) 861 F2d 246, 248; *Foti v City of Menlo Park* (9th Cir 1998) 146 F3d 629. But see *Ackerley Communications of the Northwest, Inc. v Krochalis* (9th Cir 1997) 108 F3d 1095, 1097 (proposition that traffic safety and aesthetics may be presumed as a matter of law).

PRACTICE TIP: Sign regulations should be limited to size, height, number, location, and physical attributes and should be content-neutral. Findings explaining non-content concerns, such as traffic and pedestrian safety or community aesthetics, can be included in an ordinance to reinforce its content neutrality. Sign regulations can prohibit the display of trademark signs altogether, but cannot require alteration of a registered trademark. *Blockbuster Videos, Inc. v City of Tempe* (9th Cir 1998) 141 F3d 1295.

© The Regents of the University of California

§9.140 (3) Commercial Versus Non-Commercial Regulations

Commercial speech may not be favored over non-commercial speech. *Metromedia, Inc. v City of San Diego* (1981) 453 US 490, 513, 69 L Ed 2d 800, 101 S Ct 2882. Courts have invalidated ordinances that attempt to limit commercial property signs to onsite "advertising of goods sold, business conducted or services rendered," on the ground that such restrictions favor commercial speech over non-commercial speech (the latter of which is entitled to greater constitutional protection) because they precluded the usage of non-commercial speech. *Desert Outdoor Adver., Inc. v City of Moreno Valley* (9th Cir 1996) 103 F3d 814, 819, cert denied (1997) 522 US 912. Conversely, the Supreme Court invalidated an ordinance banning commercial newsracks but permitting non-commercial newsracks on the ground that the ordinance was content based and bore no relationship to the city's aesthetic goals. *City of Cincinnati v Discovery Network, Inc.* (1993) 507 US 410, 425, 123 L Ed 2d 99, 113 S Ct 1505.

Non-commercial messages should be expressly allowed wherever commercial messages are permitted. Cities may not regulate some non-commercial messages but not others. *Brown v California Dep't. of Transp.* (9th Cir 2003) 321 F3d 1217 (striking down practice of allowing American flags on freeway overpasses after 9/11). But see *Children of the Rosary v City of Phoenix* (9th Cir 1998) 154 F3d 972, cert denied (1999) 526 US 1131 (upholding regulation allowing commercial speech on buses but banning non-commercial advertising, given its nonpublic forum and viewpoint neutrality).

PRACTICE TIP: The Ninth Circuit has approved a "substitution clause" to cure ordinances that appear to limit on-site signs to commercial speech. A substitution clause would provide that "any non-commercial message may be substituted for the copy on any commercial sign allowed by the [ordinance]." See *Outdoor Sys., Inc. v City of Mesa* (9th Cir 1993) 997 F2d 604, 611.

© The Regents of the University of California

§9.141 (4) Billboards

Commercial off-site billboard signs generally advertise a service or product not available or provided on the premises (in contrast to on-site signs that advertise or identify business at its location). Cities may allow on-site commercial signage and prohibit off-site advertising billboards. *Outdoor Sys., Inc. v City of Mesa* (9th Cir 1993) 997 F2d 604, 611; *Metromedia, Inc. v City of San Diego* (1981) 453 US 490, 512, 69 L Ed 2d 800, 101 S Ct 2882.

The Outdoor Advertising Act (Bus & P C §§5200-5486) generally prohibits billboards and off-site advertising displays within 660 feet of highway rights-of-way. Cities may enact more restrictive ordinances and may require permits to erect billboards. Bus & P C §§5230-5231.

© The Regents of the University of California

§9.142 (5) Amortization of Nonconforming Signs

Cities should provide for amortization of nonconforming signs after a certain period of time. Courts will uphold an amortization scheme when the amortization period is "reasonable." *City of Salinas v Ryan Outdoor Adver., Inc.* (1987) 189 CA3d 416, 234 CR 619 (upholding 5-year amortization clause); *United Bus. Comm'n v City of San Diego* (1979) 91 CA3d 156, 179, 154 CR 263 (upholding 7-year amortization period for nonconforming signs); *Art Neon Co. v City & County of Denver* (10th Cir 1973) 488 F2d 118, cert denied (1974) 417 US 932 (upholding 5-year amortization clause). Courts evaluate the reasonableness of an amortization period by considering the cost of the sign, its depreciated value, remaining useful life, remaining length of leases, and harm to the public if nonconforming sign remains.

NOTE: Despite amortization clauses, the Outdoor Advertising Act (Bus & P C §§5200-5486) provides that fair and just compensation must be paid when removal of on-premises advertising displays is required. Bus & P C §§5491-5493. In certain areas, a city may permit amortization in lieu of compensation. Bus & P C §§5412.1-5412.3, 5495-5497.

Any ordinance or regulation governing use of on-premises advertising displays must provide for an inventory of illegal and abandoned signs within the city's jurisdiction. Bus & P C §5491.1. Rotating or flashing on-premises signs may be prohibited without compensation or amortization. Bus & P C §5496. Cities may not prohibit signs based solely on height and size if "special topographic circumstances would result in a material impairment of visibility of the display [or its effectiveness]." Bus & P C §5499; *Denny's Inc. v City of Agoura Hills* (1997) 56 CA4th 1312, 66 CR2d 382.

PRACTICE TIP: Amortization is necessarily a fact-based analysis. Any amortization period should provide an administrative appeal process to avoid an unconstitutional taking in any particular instance.

© The Regents of the University of California

§9.143 (6) Political Signs

Cities may ban the posting of signs on public property, including political signs. *City of Los Angeles v Taxpayers for Vincent* (1984) 466 US 789, 80 L Ed 2d 772, 104 S Ct 2118. Less than a total ban is more legally complicated. Cities may not limit the number of signs erected in support of or opposition to a candidate or issue. *Baldwin v Redwood City* (9th Cir 1976) 540 F2d 1360, 1366, cert denied (1977) 431 US 913. As long as size limits do not infringe on the ability to effectively exercise free speech or unjustifiably treat signs unequally to other non-commercial signage, courts have accepted limits on the size of signs. 540 F2d at 1368 (upholding 16-square-foot size limit on signs); *Candidates' Outdoor Graphic Serv. v City & County of San Francisco* (ND Cal 1983) 574 F Supp 1240 (upholding 11-inch height limit on signs posted on utility poles).

Courts have struck down time limits relating to how far in advance of an election political signs may be posted, when such signage would be effectively banned other times of the year. *City of Antioch v Candidates' Outdoor Graphic Serv.* (ND Cal 1982) 557 F Supp 52 (60-day limit invalidated); *Orazio v Town of North Hempstead* (ED NY 1977) 426 F Supp 1144 (6-week limit invalidated). A requirement that the signs be summarily removed 10 days after the election survived challenge. *Baldwin v Redwood City* (9th Cir 1976) 540 F2d 1360, 1374, cert denied (1977) 431 US 913. Summary pre-election removal of signs is unlawful, absent an immediate public health or safety justification; cities must give notice to the candidate and/or sign owner and provide a reasonable opportunity to respond before agency action. *Verrilli v City of Concord* (9th Cir 1977) 548 F2d 262, 264.

© The Regents of the University of California

§9.144 (7) Severance

If a sign ordinance can function independently of a constitutionally infirm provision, only the unconstitutional portion will be invalidated. See *Tahoe Reg'l Planning Agency v King* (1991) 233 CA3d 1365, 1408, 285 CR 335 (court severed content-based exception for temporary political signs); *National Adver. Co. v City of Orange* (9th Cir 1988) 861 F2d 246, 249 (court severed only noncommercial restrictions). But see *Desert Outdoor Adver., Inc. v City of Moreno Valley* (9th Cir 1996) 103 F3d 814, 821, cert denied (1997) 522 US 912 (court declared entire ordinance invalid because it could not function independently when severed). See also *City of Ladue v Gilleo* (1994) 512 US 43, 129 L Ed 2d 36, 114 S Ct 2038.

© The Regents of the University of California

§9.145 (8) Government Approval

Requiring permits to erect signs on public property may be constitutional, provided the process is governed by clear, content-neutral guidelines. Official discretion will render the scheme unconstitutional. See *Hynes v Borough of Oradell* (1976) 425 US 610, 48 L Ed 2d 243, 96 S Ct 1755; *Gaudiya Vaishnava Soc'y v City & County of San Francisco* (9th Cir 1991) 952 F2d 1059, 1065, cert denied (1992) 504 US 914. A decision to issue or deny a permit must be made within a brief, specified, and reasonably prompt period of time, which time period should be described in the ordinance. *Baby Tam & Co. v City of Las Vegas* (9th Cir 2000) 199 F3d 1111; *North Olmsted Chamber of Commerce v City of North Olmsted* (ND Ohio 2000) 108 F Supp 2d 792.

© The Regents of the University of California

§9.146 f. Parades and Parade Permits

Parades or marches on public streets are constitutionally protected expressions of free speech. *U.S. v Grace* (1983) 461 US 171, 75 L Ed 2d 736, 103 S Ct 1702. Content-neutral time, place, and manner limitations may be applied. *Cox v New Hampshire* (1941) 312 US 569, 85 L Ed 1049, 61 S Ct 762; *Long Beach Lesbian & Gay Pride, Inc. v City of Long Beach* (1993) 14 CA4th 312, 17 CR2d 861. However, due process requires that statutes clearly state what conduct is required or prohibited, and that regulation of protected activity incorporate narrowly drawn, reasonable, and definite standards. *Long Beach Lesbian & Gay Pride, Inc. v City of Long Beach*, *supra*. Enactment of an ordinance that meets all of the constitutional requirements is a prerequisite to being able to require permit for parades. *Niemotko v State of Maryland* (1951) 340 US 268, 95 L Ed 267, 71 S Ct 325.

NOTE: Because courts are reluctant to enjoin a free speech event such as a parade, a city that denies a parade permit may be required to go to court to test the validity of the denial. Such a procedure is not required to be a part of the ordinance. *Freedman v State of Maryland* (1965) 380 US 51, 13 L Ed 2d 649, 85 S Ct 734.

© The Regents of the University of California

§9.147 (1) Processing Time

Although advance notice requirements are content-neutral, they have been found to inhibit and reduce the quantity of speech. When such advance notice requirements are excessively long, they are struck down as not being narrowly tailored to serve a significant governmental interest. *NAACP Western Region v City of Richmond* (9th Cir 1984) 743 F2d 1346.

© The Regents of the University of California

§9.148 (2) Exercise of Discretion

Any discretion exercised by a permitting official must be supported with specific facts and reasons based on objective standards contained within the ordinance delegating the discretion. *Niemotko v State of Maryland* (1951) 340 US 268, 95 L Ed 267, 71 S Ct 325. The ordinance must provide that the permit is either approved, denied, or approved with conditions. Incidental effects on some, but not all, speech are allowed if the reason for the differential effects or treatment is not content-based. *Courtemanche v General Servs. Admin.* (D Mass 2001) 172 F Supp 2d 251. Concerns that have been upheld seem to focus on how well a governmental facility can meet its function without application of the conditions at issue. *Perry v Los Angeles Police Dept.* (9th Cir 1997) 121 F3d 1365, cert denied (1998) 523 US 1047 (ordinance banning sales and solicitations on sidewalk valid to further free flow, protect local merchants from unfair competition).

© The Regents of the University of California

§9.149 (3) Fees

A city may require permittees to prepay fees to defray the municipal expense of ensuring traffic control and related functions occasioned by the parade. Such charges must reflect the actual amounts required to defray specific public costs engendered by the permittee's own activity and cannot be based on the content of the message. *Forsyth County v Nationalist Movement* (1992) 505 US 123, 120 L Ed 2d 101, 112 S Ct 2395.

To ensure content-neutral fees, the content of the message and the listeners' possible hostile reaction to it cannot be taken into account in establishing the fee.

© The Regents of the University of California

§9.150 (4) Indemnity and Insurance

A permittee may be required to defend and indemnify a city and its officers and employees from all claims arising from the permittee's alleged acts or omissions. *Long Beach Lesbian & Gay Pride, Inc. v City of Long Beach* (1993) 14 CA4th 312, 17 CR2d 861.

NOTE: Although the court in *Long Beach* did not rule out the possibility of writing lawful insurance requirements, it cautioned that an insurance requirement is likely to be content-based and thus in violation of the First Amendment. 14 CA4th at 340.

© The Regents of the University of California

§9.151 (5) Police Protection

A city must furnish police protection to a parade with First Amendment protection at no cost to the participants to avoid a chilling effect on the exercise of First Amendment rights. *Forsyth County v Nationalist Movement* (1992) 505 US 123, 120 L Ed 2d 101, 112 S Ct 2395. However, an ordinance may be enacted limiting its police protection to what it can reasonably supply. *Hurwitt v City of Oakland* (ND Cal 1965) 247 F Supp 995. Insufficient police personnel to protect the applicant is a possible basis to deny the permit based on violent reactions to same or similar groups in similar situations in similar communities, as is the likelihood that requested outside federal or state assistance will not be available.

© The Regents of the University of California

§9.152 g. Charitable Street Vending or Solicitations

Efforts to solicit support or promote causes on public property by nonprofit groups have been classified as pure speech, the regulation of which is subject to First Amendment scrutiny. Such regulation may not delegate vague or overly broad licensing discretion; time, place, and manner restrictions must be content-neutral, must be narrowly tailored to serve a significant governmental interest, and must leave open ample alternatives for communication. *Riley v National Fed'n of the Blind of North Carolina, Inc.* (1988) 487 US 781, 101 L Ed 2d 669, 108 S Ct 2667.

A city may regulate charitable street vending, just as it may regulate other forms of pure speech on public property. Such regulations must be content-neutral, must be narrowly tailored to serve a significant government interest, and must retain ample alternative channels of communication. See *Doucette v City of Santa Monica* (CD Cal 1997) 955 F Supp 1192 (ordinance prohibiting abusive solicitation in both public and nonpublic forums is content-neutral and narrowly tailored to protect citizens from harassment). Regulation of non-commercial solicitors can raise First Amendment concerns. *Watchtower Bible & Tract Soc'y, Inc. v Village of Stratton* (2002) 536 US 150, 153 L Ed 2d 205, 122 S Ct 2080.

When informative and persuasive speech seeking support for particular causes (pure speech fully protected under the First Amendment) is "inextricably intertwined" with the sale of merchandise seeking such support, then the sale of the merchandise is fully protected speech. *Gaudiya Vaishnava Soc'y v City & County of San Francisco* (9th Cir 1991) 952 F2d 1059, cert denied (1992) 504 US 914. If the "speech element" is purely commercial and a political or religious message is not intertwined with that commercial message, then this is insufficient to transform the entire activity into protected speech. Nonprofit merchandise sales deemed "protected speech" are still subject to time, place, and manner restrictions. *One World One Family Now v City & County of Honolulu* (9th Cir 1996) 76 F3d 1009, cert denied (1996) 519 US 1009 (upholding ordinance banning sales of goods and services on sidewalks, including message-bearing T-shirts).

© The Regents of the University of California

§9.153 h. Taxation on First Amendment Activity

A tax that singles out the media for special treatment in a way that could have a censoring effect violates the constitutional protection of the First Amendment. *Minneapolis Star & Tribune Co. v Minnesota Comm'r of Revenue* (1983) 460 US 575, 75 L Ed 2d 295, 103 S Ct 1365 (paper and ink tax). Selective taxation of the media violates the First Amendment. *Arkansas Writers' Project, Inc. v Ragland* (1987) 481 US 221, 95 L Ed 2d 209, 107 S Ct 1722.

Taxation of First Amendment activity is valid if tax applies to all similarly situated business. *Leathers v Medlock* (1991) 499 US 439, 113 L Ed 2d 494, 111 S Ct 1438 (sales tax on cable television); *Sacramento Cable Television v City of Sacramento* (1991) 234 CA3d 232, 286 CR 470 (utility users' tax on cable television).

© The Regents of the University of California

§9.154 M. Trespassing

Police officers often cite people for violating Pen C §602(m), which prohibits "[e]ntering and occupying real property or structures of any kind without the consent of the owner, the owner's agent or the person in lawful possession."

© The Regents of the University of California

§9.155 1. Trespass to Real Property

It is not a violation of Pen C §602(m) to enter private property without consent unless such entry is followed by occupation without consent. It also is not a violation to occupy property without consent if the entry was made with consent. *People v Wilkinson* (1967) 248 CA2d Supp 906, 909, 56 CR 261. The legislative intent behind §602(m) was to prevent squatter occupancy and thus does not apply to transient or overnight occupancy. 248 CA2d Supp at 910. To successfully prosecute under §602(m), there must be proof of more than merely sitting or sleeping on someone's property, to meet the requirement of "occupancy" as intended by the legislature.

PRACTICE TIP: Many cities have ordinances that prohibit a person from staying or entering on a business premises when directed not to do so by the proprietor. Such ordinances should have exceptions to prevent them from being applied to protected activity or in a discriminatory manner.

© The Regents of the University of California

§9.156 2. Interference With Lawful Business

The provisions of Pen C §602(k) make it a misdemeanor to enter any land "for the purpose of … interfering with, obstructing, or injuring any lawful business … carried on by the owner of such land."

First Amendment activities on the owner's property may be prohibited if there is intentional interference with, or obstruction of, the owner's lawful business activities. *In re Ball* (1972) 23 CA3d 380, 386, 100 CR 189. Further, statutes forbidding entrance onto one's land with the intent to obstruct business, regulate conduct instead of speech; such laws are thus an appropriate exercise of state control. *People v Poe* (1965) 236 CA2d Supp 928, 47 CR 670, overruled on other grounds in vacated opinion in *In re Hayes* (1968) 69 CR 310, 442 P2d 366. See also *United Food & Commercial Workers Union, Local No. 324, AFL-CIO, CLC v Superior Court* (2000) 83 CA4th 566, 99 CR2d 849 (special provision for injunction against picketing). Nevertheless, California also recognizes that, in certain instances, an owner's right to control his or her property is subordinated to an individual's right of expression. See *Robins v Pruneyard Shopping Ctr.* (1979) 23 C3d 899, 153 CR 854, aff'd (1980) 447 US 74 (large retail shopping center is functional equivalent of public forum). But see *Trader Joe's Co. v Progressive Campaigns, Inc.* (1999) 73 CA4th 425, 86 CR2d 442 (political group had no right to gather petitions in front of stand-alone grocery store that had no areas for patrons to congregate); *Albertson's, Inc. v Young* (2003) 107 CA4th 106, 131 CR2d 721 (shopping center is not functional equivalent of public forum under *Pruneyard* if it lacks features such as plazas or courtyards that invite public to congregate).

© The Regents of the University of California

§9.157 IV. REGULATING ANIMALS

A city's police power allows it to regulate animals in accordance with the health, safety, and welfare of the general public. See Cal Const art XI, §7. This includes maintaining sanitary conditions within the city and collecting fees sufficient to continue providing animal control services.

© The Regents of the University of California

§9.158 A. Domestic Animals

The law treats domestic animals as property. See CC §655; Pen C §§487(d)(1) (various animals), 491 (dogs). Domestic animals are defined as "animals that are tame or domesticated by nature, which no longer possess the disposition to escape." 4 Am Jur 2d, Animals §2 (2d ed 1962). These animals include cattle, horses, sheep, cats, and dogs. See *Butler v City of Palos Verdes Estates* (2005) 135 CA4th 174, 37 CR3d 199 (peafowl considered feral, rather than domesticated).

A city, under its police powers (see §9.157), may provide reasonable regulations of domestic animals as long as arbitrary and unreasonable burdens have not been imposed. The presumption is in favor of reasonableness. *County of Plumas v Wheeler* (1906) 149 C 758, 87 P 909; *In re Miller* (1910) 13 CA 564, 110 P 139.

© The Regents of the University of California

§9.159 1. Zoning Regulations

Many cities use zoning to control the number and type of animals that are allowed in areas of the city. The keeping of animals, including a limit on the number to be kept, is a proper subject for municipal regulation. *In re Jones* (1943) 56 C2d 658, 664, 133 P2d 418. A city may prohibit the keeping of bees within certain designated districts. *Ex Parte Ellis* (1938) 11 C2d 571, 575. Ordinances limiting the number of dogs within residential areas are valid because private property is held subject to the lawful exercise of the police power. *Miller v City of Arcadia* (1932) 121 CA 660, 9 P2d 587.

© The Regents of the University of California

§9.160 2. Nuisances

The possession of dogs or cats is not a nuisance per se. *People v Cooper* (1944) 64 CA2d Supp 946, 149 P2d 86. However, the "barking, howling, yelping, etc.," of dogs in a pet hospital has been held to be a nuisance. *Wilms v Hand* (1951) 101 CA2d 811, 226 P2d 728. Dust, odors, and sound emanating from a feed mill and cattle corrals have been held in some instances to be a nuisance. *Wade v Campbell* (1962) 200 CA2d 54, 19 CR 173; CC §3479.

PRACTICE TIP: A common provision of a municipal code prohibits a dog owner from keeping or maintaining a dog whose barking interrupts the peace and quiet of the neighborhood. Many of these provisions have been the subject of successful challenge on the basis that the ordinance is void for vagueness because it fails to establish just how much barking is necessary to disturb the peace and quiet of the neighborhood. Another approach is to require three or more neighbors to complain about the same barking dog before a violation of the ordinance occurs. See Susan Burns Cochran, ARF: Animal Regulations and Forms (League of California Cities Spring Conference, City Attorney's Department Session, 2000).

© The Regents of the University of California

B. Dog Regulations

§9.161 1. Authority

The board of supervisors of any county or the governing body of any city may enact ordinances concerning the regulation and licensing of dogs. Food & A C §30501. Penalties for violations of regulations relating to dogs are described in Food & A C §§31401-31402. A county may not be required to enforce county ordinances within the territorial limits of any city located with the county. Food & A C §30501(a).

On service dogs, see §9.182.

© The Regents of the University of California

§9.162 2. Licensing Regulations

State law governs the regulation and licensing of dogs (and cats) and mandates certain holding periods and procedural requirements related to stray dogs. Food & A C §§30801-30807 (dogs), 31751-31754 (cats). The term "board of supervisors," "county," "county clerk," or "animal control officer" is deemed to include the city council, a city, the city clerk, or the city animal control officer, respectively. Food & A C §30501(b).

State law allows cities to impose and collect license fees to offset the cost of maintaining services related to dogs (*e.g.,* animal shelters and control programs). Govt C §38792; Food & A C §§30501-30504. A licensing system that requires dogs to wear tags is a reasonable city regulation. *Simpson v City of Los Angeles* (1953) 40 C2d 271, 253 P2d 464. State law provides that cities may authorize veterinarians to issue dog licenses. Food & A C §30801(b).

© The Regents of the University of California

§9.163 3. Impounding of Dogs

Cities must arrange for the impounding of dogs that are running at large in violation of Food & A C §§30501-31683 and for the disposal of impounded dogs. Food & A C §31105(a). This applies even in sparsely populated areas. *Markus v Justice's Court* (1953) 117 CA2d 391, 255 P2d 883. Cities may adopt provisions for impounding dogs if the owner does not comply with licensing ordinances and fees. *In re Ackerman* (1907) 6 CA 5. Cities must fix the fees for impounding dogs. Food & A C §31251. Female dogs may not run at large at any time when they are in heat or breeding condition. Food & A C §30954. The owner of a nonspayed or unneutered dog is subject to fine when such dog is impounded. Food & A C §30804.7.

The destruction and disposition of dogs is a proper subject for police power regulation. *Simpson v City of Los Angeles* (1953) 40 C2d 271, 253 P2d 464; Food & A C §31105(b). Cities may appoint persons to impound and destroy dogs or may enter into a contract with a third party to perform these functions. Food & A C §31106. The third party's fees for taking up, impounding, and keeping the dog is a charge on the city treasury. Food & A C §31252. However, when an owner claims a dog, the owner must pay the fee for impounding and keeping the dog, and no charge will be paid by the city. Food & A C §31253. The owner's refusal to pay the fees is held to be an abandonment of the dog. Food & A C §31254.

A stray dog may not be destroyed or disposed of without notice to its owner, if known. Food & A C §31107. With certain exceptions, stray dogs must be held 6 business days (not including the day of impoundment). The first 3 days is for owner redemption. On request, stray dogs will be released to an animal rescue or adoption organization. Food & A C §31108.

© The Regents of the University of California

§9.164 4. Potentially Dangerous and Vicious Dogs

Under the state law's default provisions, depending on the severity of the attack, dogs that have committed certain unprovoked attacks on humans or more than once on other domestic animals are referred to as "vicious dogs" or "potentially dangerous dogs." Food & A C §§31602-31603.

© The Regents of the University of California

§9.165 a. Destruction of Dog

Although state law provides for the regulation of vicious and potentially dangerous dogs, animal control agencies of a city may impound or destroy a dog that is determined to be vicious or potentially dangerous. Food & A C §§31625, 31645. A city may impose more restrictive programs to control vicious or potentially dangerous dogs, as long as it does not regulate in a manner specific to breed (*e.g.,* pit bulls). Food & A C §31683.

Because animals are considered property, the owner is entitled to notice and a hearing before the animal is destroyed. *Phillips v San Luis Obispo County* (1986) 183 CA3d 372, 228 CR 101. A dog must first be determined to be vicious or potentially dangerous by the court or an administrative agency set up by the city. The owner must be notified of the hearing. Food & A C §31621. The owner also must receive notice before the animal is to be destroyed. Food & A C §31622. If circumstances justify an immediate seizure, a hearing promptly after seizure is required. *Carrera v Bertaini* (1976) 63 CA3d 721, 134 CR 14.

© The Regents of the University of California

§9.166 b. Other Sanctions on Owner of Potentially Dangerous or Vicious Dog

The city may prevent the owner of a vicious dog from owning any dog for 3 years if the hearing officer determines that such ownership or possession would create a significant threat to the public health, safety, and welfare. Food & A C §31646.

If the potentially dangerous or vicious dog is impounded pending a hearing, the owner is liable to the city for the cost of housing the dog if it is found to be vicious or potentially dangerous. Food & A C §31625.

© The Regents of the University of California

§9.167 5. Spay or Neuter Programs and Breeding Requirements

Cities may enact dog breed-specific ordinances pertaining to mandatory spay or neuter programs and breeding requirements. Health & S C §122331(a). However, cities that implement such programs must measure the effect of those programs by compiling statistical information on dog bites and must submit such information to the State Public Health Veterinarian. Health & S C §122331(b).

© The Regents of the University of California

6. Dog Attacks

§9.168 (1) Trained Attack Dogs

A person who possesses a dog that is trained to attack or kill is guilty of a misdemeanor or felony if he or she is aware, or reasonably should have been aware, of the dog's nature and negligently allows it to bite a human being on two occasions or one occasion when the injury is substantial. Pen C §399.5. See also Pen C §399 (dangerous dogs at large); CC §3342.5 (civil action by city attorney for removal or destruction of dangerous dog); *People v Nealis* (1991) 232 CA3d Supp 1, 283 CR 376 (dog determined to be deadly weapon within meaning of Pen C §245).

© The Regents of the University of California

§9.169 (2) Attacks on Livestock/Poultry

With certain exceptions, dogs may not run at large on farms on which livestock or domestic animals are kept without the landowner's consent. Food & A C §30955. Any person may kill a dog that is found on land not owned or possessed by the dog's owner when such dog (Food & A C §31102):

- Is found in the act of killing, wounding, or persistently pursuing or worrying livestock or poultry; or
- There is conclusive proof that the dog recently killed or wounded livestock or poultry on land not owned or possessed by its owner.

An owner or tenant of land where livestock or poultry is confined may seize or kill any dog that enters on such land. Food & A C §31103. The provisions of Food & A C §§31102-31103, however, do not apply within the corporate limits of any city or to a dog that is under the reasonable care of its owner or keeper unless actually caught in the act of worrying, wounding, chasing, or killing livestock or poultry. Food & A C §31104. If the dog is wearing a license at the time, it may be impounded. The person impounding the dog may recover from the owner any fees charged by the local agency for keeping the dog, together with costs. Food & A C §31109. The amount of liquidated damages and the process for assessing civil liability for injury to livestock or poultry are described in Food & A C §§31501-31508.

© The Regents of the University of California

C. Cats and Other Domestic Animal Regulations

§9.170 1. Cats

With certain exceptions, stray cats must be held 6 business days (not including the day of impoundment). The first 3 days will be for owner redemption. On request, the stray cat will be released to an animal rescue or adoption organization. Food & A C §31752. During the holding period, the cat must be scanned for a microchip that identifies the owner of the cat. Reasonable efforts must be made to contact the owner. Feral cats that go unclaimed for 3 days may be euthanized or relinquished to an animal adoption organization that agrees to spay or neuter the cat. Food & A C §31752.5. For the purpose of Food & A C §§31751-31754, each member of a litter of kittens is treated as an individual animal. Food & A C §31751. The owner of an unspayed or unneutered cat is subject to fine when such cat is impounded. Food & A C §31751.7.

NOTE: State law does not prohibit or regulate the practice of animal declawing, known as onychectomy. Absent local legislation, veterinarians are free to declaw cats. At least one city in California has enacted a ban on the practice under its general police powers, on the grounds that it is inhumane, and that less invasive techniques exist to address feline clawing problems.

© The Regents of the University of California

§9.171 2. Other Domestic Animals

Rabbits, guinea pigs, hamsters, potbellied pigs, birds, lizards, snakes, turtles, and tortoises are subject to the same impoundment laws that apply to dogs and cats. Food & A C §31753.

© The Regents of the University of California

§9.172 D. Animal Relinquishment/Redemption by Owner

A person relinquishing a dog or cat to a shelter must present proof of ownership to the shelter. Food & A C §§31108.5, 31752.2. Unless the animal suffers from an untreatable illness or injury, the shelter must hold the animal for a prescribed period of time to allow reclamation by its owner. Food & A C §31752. Relinquished kittens and puppies must be available for immediate adoption. Food & A C §31754. A known vicious or dangerous dog may be immediately euthanized on relinquishment. Food & A C §31108.5(b).

© The Regents of the University of California

§9.173 E. Liability Issues

If a public officer wrongfully kills or injures an animal while carrying out his or her duties, he or she may be liable for tort damages and for a violation of the Fourth Amendment. *Lertora v Riley* (1936) 6 C2d 171, 57 P2d 140; *Fuller v Vines* (9th Cir 1994) 36 F3d 65. In a case involving claims for "wrongful conversion" for destroying a dog, the owner was entitled to the value of the dog, plus interest, from the local agency. *Kane v County of San Diego* (1969) 2 CA3d 550, 83 CR 19.

© The Regents of the University of California

§9.174 F. Animal Control Officers

By ordinance, cities may authorize employees of public pounds and humane societies to provide animal care and issue notices to appear in court for violation of state or local animal control laws. Corp C §14503. See also Corp C §14502 (qualifications for humane officers). Humane officers are empowered to interfere and prevent any act of cruelty on animals. They may also use such force as is necessary to prevent it. Corp C §14502(h)(i)(1)(A). Although animal control officers are not peace officers, they may exercise the powers of arrest of a peace officer as specified in Pen C §836 and the power to serve warrants specified in Pen C §§1523 and 1530 during the course and within the scope of their employment, if they complete a course in the exercise of those powers under Pen C §832. See Corp C §14502(h)(i)(1); Pen C §830.9.

© The Regents of the University of California

G. Animal Shelters

§9.175 1. Information and Records

Animal shelters must provide the owners and finders of lost animals with a method for listing lost animals on a list maintained by the shelter, referrals to animals on that list, contact information on other nearby shelters, advice on disseminating information about lost animals, and contact information on volunteer groups that assist in locating lost animals. Food & A C §32001. Animal shelters also must keep accurate records on each animal taken in. Food & A C §32003.

© The Regents of the University of California

§9.176 2. Spaying/Neutering

Special provisions exist on spaying and neutering of animals depending on the size of the county. See Food & A C §§30503, 31751.3 (cities within counties exceeding 100,000 residents), 30522, 31762 (cities within counties with less than 100,000).

© The Regents of the University of California

§9.177 H. Wild Animals

Cities have authority to enact ordinances concerning wild animals provided that any ordinances related to the care of wild animals are more restrictive than those provided for by the state. Fish & G C §2156.

© The Regents of the University of California

§9.178 1. Definition

"Wild animals" are defined as animals "not normally domesticated in this State." Fish & G C §2116. The distinction between wild and domestic animals is not always clear. An extensive discussion occurs in a 1976 Attorney General opinion analyzing the validity of a Los Angeles ordinance requiring a permit for keeping of any "wild, exotic, dangerous or non-domestic animal or reptile." 59 Ops Cal Atty Gen 557 (1976). See also *Butler v City of Palos Verdes Estates* (2005) 135 CA4th 174, 37 CR3d 199 (peafowl considered feral rather than domesticated).

© The Regents of the University of California

§9.179 2. Ownership

Wild animals belong to the people in their collective sovereignty. *Ex Parte Maier* (1894) 103 C 476. As a general rule, wild animals are not subject to ownership except when (CC §656):

- On the land of the person claiming them;
- Tamed;
- Taken and held in possession; or
- Disabled and immediately pursued.

© The Regents of the University of California

I. Animal Abandonment and Mistreatment

§9.180 1. Willful Abandonment

The willful abandonment of an animal is a misdemeanor. Pen C §597f. A person who fails to give proper care and attention to an animal is guilty of a misdemeanor. Such animals may be impounded until the animal is in suitable condition to be returned to its owner. Pen C §597.1. See also *Broden v Marin Humane Soc'y* (1999) 70 CA4th 1212, 83 CR2d 235. For other crimes against animals, see Pen C §§596-600.5.

© The Regents of the University of California

§9.181 2. Abandoned Pets in Foreclosed-on Homes

Any person or private entity that discovers a live animal abandoned in a foreclosed-on home must immediately notify animal control officials for the purpose of retrieving the animal. CC §§1816, 1981.

© The Regents of the University of California

§9.182 J. Service Animals

Almost any type of animal trained to do work or perform tasks for the benefit of a disabled person is considered a "service animal" under the federal Americans with Disabilities Act of 1990 (ADA) (42 USC §§12101-12213). 28 CFR §36.104. Many forms of disability or medical condition are considered a "disability" under the ADA. Dogs (and other animals) trained to assist the disabled are referred to collectively in the ADA as "service animals." 28 CFR §36.104.

NOTE: Generic use of the term "guide dog" is outmoded, but the term is still defined in California law, along with "signal dog" and "service dog." CC §54.1(b)(6)(C).

Under California law, discrimination based on the use of a service dog is prohibited. CC §§54-54.3; Pen C §365.5. Such sections make any violation of the ADA a violation of CC §§54-54.3, and this may make certain requirements under Title III of the ADA applicable to California public agencies. See ADA Technical Assistance Manual (TAM) §III-4.2300 (any alteration to admittance policies that would work a "fundamental alteration" to nature of facility, or would result in "undue hardship" is not required). The ADA Technical Assistance Manual is available on the ADA website of the Department of Justice at www.ada.gov/.

In California, the owner of a service dog may apply for an assistance dog identification tag. Food & A C §30850. A person wrongfully representing to be an owner or trainer of an assistance dog is guilty of a misdemeanor. Pen C §365.7. Assistance dog identification tags may only be used by a disabled person or the dog's trainer. Food & A C §30852. However, because the ADA does not allow public accommodations to require proof that an animal is a "service animal," such tags only benefit the disabled handler in educating a gatekeeper about the animal. Most service animal handlers who sue for discrimination do not show the identification.

PRACTICE TIP: Be sure to train public facility staff appropriately on the liberal admission policies for service animals required under state and federal law. If a staff person identifies a reason to deny access to a service animal, both the animal's impact on the facility *and* the risk of litigation should be weighed equally. Many service animal handlers are willing to discuss their access rights after they have been admitted the first time, and before they return.

Dogs trained as guide, signal, or service dogs are collectively referred to as "assistance dogs." Discrimination based on the use of an assistance dog is prohibited. See, *e.g.,* CC §54.1(b)(6)(A) (housing); CC §§54.1-54.3, Pen C §365.5 (places and conveyances open to general public). See also 70 Ops Cal Atty Gen 105 (1987); Health & S C §114259.5 (food service areas). Attacks on assistance animals are prohibited. Pen C §§417.27(d) (laser pointer directed at assistance dog), 600.2 (injuries by other dogs), 600.5 (injury or death by person).

© The Regents of the University of California

§9.183 K. Disease

The provisions of Health & S C §§121575-121710 regulate rabies and any other animal disease determined to be dangerous to human beings. The state preliminarily investigates all reported animal disease cases. See Health & S C §121595. If necessary, it declares quarantine and then thoroughly investigates the extent of the disease, the probable number of persons and animals exposed, and the area affected. See Health & S C §§121600, 121605.

In areas where animal diseases constitute a public health hazard, state law requires that the responsible city require by ordinance that all dogs older than 4 months be licensed no less than once every 2 years. See Health & S C §121690(a). A city may, however, regulate by ordinance that a dog 12 months or older, who has had a rabies vaccination, be licensed for a period not to exceed 3 years or beyond current rabies vaccination. See Health & S C §121690(g).

Additionally, state law requires that each city maintain a pound system and an animal disease control program (see Health & S C §121690(e)), as well as dog vaccination clinic services throughout the city (see Health & S C §121690(f)).

A city may enact more stringent regulatory requirements within its jurisdiction. See Health & S C §121695.

§10.1 I. OVERVIEW OF LAND USE REGULATION

In California, the basis for all land use regulations is the police power. See Cal Const art XI, §7. Its use by general law cities (and with respect to certain matters, charter cities) is governed by a complicated statutory scheme that mandates long-range, coherent planning. Despite this complexity, it is the intent of the legislature to impose "only a minimum of limitation in order that counties and cities may exercise the maximum degree of control over local zoning matters." Govt C §65800; *DeVita v County of Napa* (1995) 9 C4th 763, 782, 38 CR2d 699.

For further discussion of topics covered by this chapter, see generally California Land Use Practice (Cal CEB 2006); Practice Under the California Environmental Quality Act (2d ed Cal CEB 2008); California Subdivision Map Act and the Development Process (2d ed Cal CEB 2001); Forming California Common Interest Developments (Cal CEB 2004); California Administrative Mandamus (3d ed Cal CEB 2003).

§10.2 A. Planning and Zoning Law

California's Planning and Zoning Law (Govt C §65000-66499.58) is the framework for local land use regulation. Every city must have a general plan for its physical development. The plan must be comprehensive, long-term, and up-to-date. All local land use decisions must be consistent with the general plan, with a limited exception for charter cities. See Govt C §65803; *Lesher Communications, Inc. v City of Walnut Creek* (1990) 52 C3d 531, 277 CR 1.

© The Regents of the University of California

§10.3 B. Planning Commission

A planning commission is an optional, permanent advisory committee of citizens appointed by the city council or mayor to review matters related to planning and development. The commission holds regularly scheduled public meetings to consider land use matters, such as zone changes, conditional use permits, variances, subdivisions, and general plan amendments. Govt C §§65100-65106. Public hearings apply to certain land use matters.

For further discussion of appointed commissions, see §§1.249-1.254. See also Planning Commissioner's Handbook (League of California Cities, 1400 K Street, Sacramento, California 95814, telephone (916) 658-8200); The Planning Commissioner's Book (May 1998) (State of California, Governor's Office of Planning and Research, 1400 Tenth Street, Sacramento, California 95814).

© The Regents of the University of California

§10.4 C. Planning Agency

Each city has a planning agency with the power to carry out the city's land use responsibilities. That function may be exercised by the city council or delegated to a planning commission, another administrative body, a hearing officer, or any combination of these entities. The city's planning or community development department provides staff support to the commission on land use regulations and other proposals before the city. Govt C §§65100-65106.

© The Regents of the University of California

§10.5 D. Notice and Hearing Requirements for Quasi-Judicial Proceedings

Procedural due process requirements generally apply only to quasi-judicial/ adjudicatory hearings except as otherwise required by state law. *Horn v County of Ventura* (1979) 24 C3d 605, 156 CR 718.

© The Regents of the University of California

§10.6 1. Notice to Affected Property Owners

When notice is required, it must be given to all residents within the chosen or required radius and to all persons whose property interest will be affected. *Scott v City of Indian Wells* (1972) 6 C3d 541, 99 CR 745. In unusual circumstances, using a radius of greater than the 300 feet required by Govt C §65091 may be advisable. *Horn v County of Ventura* (1979) 24 C3d 605, 156 CR 718.

© The Regents of the University of California

§10.7 2. Adequate Notice

A notice must adequately describe the action under consideration to satisfy the right to due process. Govt C §65094; *Drum v Fresno County Dept. of Pub. Works* (1983) 144 CA3d 777, 192 CR 782. Actual notice of the issues to be considered may cure the failure of a notice to disclose the issues to be considered at the hearing. *Benson v California Coastal Comm'n* (2006) 139 CA4th 348, 42 CR3d 580.

© The Regents of the University of California

§10.8 3. Type of Notice

Notice by publication and posting is constitutionally adequate, unless a statute or ordinance requires notice by mail. *Hayssen v Board of Zoning Adjustments* (1985) 171 CA3d 400, 217 CR 464.

© The Regents of the University of California

§10.9 E. Notice and Hearing Requirements for Legislative Acts

Certain legislative acts, such as the adoption of a general or specific plan, require a noticed public hearing. See Govt C §§65350-65362, 65453. The amendment of a zoning ordinance is subject to notice and hearing under Govt C §§65090-65091 if the amendment affects the permitted uses of real property. Govt C §65853.

PRACTICE TIP: The notice for the city council public hearing must be published after the planning commission has made its recommendation, and the notice must include the recommendation of the planning commission. *Environmental Defense Project of Sierra County v County of Sierra* (2008) 158 CA4th 877, 70 CR3d 474.

© The Regents of the University of California

F. Permit Streamlining Act

§10.10 1. Basic Requirement

The Permit Streamlining Act (PSA) (Govt C §§65920-65964) applies to certain land use decisions. *Findleton v Board of Supervisors of El Dorado County* (1993) 12 CA4th 709, 15 CR2d 665 (describing when a project is not subject to the PSA). A city must review and make these decisions on these proposals within stated time limits. Govt C §65950. The city's failure to observe the time limits may result in the project's being automatically "deemed" approved, if all prescribed public notice requirements have been met. Govt C §65956(b). The ordinary public notice provided by cities for project approvals is not sufficient to trigger the PSA. *Mahon v San Mateo County* (2006) 139 CA4th 812, 43 CR3d 235. Note that it is the decision that approves or denies the project that must be made within the PSA's time frames, not any subsequent adoption of a resolution memorializing the decision. *El Dorado Palm Springs, Ltd. v City of Palm Springs* (2002) 96 CA4th 1153, 118 CR2d 15. The applicant and city can agree to extend these time limits for 90 days. Govt C §65957. Individual applicants may not waive the time limits of the PSA. Govt C §65957. Special time limits apply to the approval of tentative subdivision maps. Govt C §§66452.1-66452.4.

© The Regents of the University of California

§10.11 2. Elements of Complete Application

After the city has received an application, it has 30 days to inform the applicant in writing whether the application is complete and accepted for filing. If the application is considered incomplete, the city must point out in detail the application's deficiencies. Govt C §65943. Before a city accepts an application as complete or before it can be deemed complete, the applicant must meet the following requirements:

- The application must include a statement that it is an application for a development project. Govt C §65943(a).
- The applicant must consult the "Cortese lists" relating to hazardous materials and sign a statement. Govt C §65962.5(f) (form of statement).
- For non-residential projects, the applicant must submit information regarding hazardous materials. Govt C §65850.2.

© The Regents of the University of California

§10.12 3. Applies Only to Adjudicatory Acts

The PSA's deadlines apply only to adjudicatory or quasi-judicial decisions. *Landi v County of Monterey* (1983) 139 CA3d 934, 189 CR 55. The PSA will not cause automatic approval of a nonlegislative or adjudicatory project when such permanent application would require legislative changes in applicable general plans, zoning ordinances, or other controlling land use regulations. *Land Waste Mgmt. v Contra Costa County Bd. of Supervisors* (1990) 222 CA3d 950, 271 CR 909.

© The Regents of the University of California

§10.13 4. Directory, Not Mandatory, as to CEQA

There is authority that the PSA's time limits are directory, not mandatory, with respect to the California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177). *Eller Media Co. v City of Los Angeles* (2001) 87 CA4th 1217, 105 CR2d 262; *Riverwatch v San Diego County (Palomar Aggregates)* (1999) 76 CA4th 1428, 91 CR2d 322.

© The Regents of the University of California

§10.14 5. Due Process Required for Automatic Approval

If the applicable time limits are not met, failure to act on the application may result in approval of the project if the public notice requirements regarding the project have been met. The applicant may take steps to satisfy public notice requirements if the public agency has not done so. Govt C §65956; *Horn v County of Ventura* (1979) 24 C3d 605, 156 CR 718.

© The Regents of the University of California

§10.15 6. Appeal

Opponents of a project that is deemed approved under the PSA have the same right of appeal as they would have if the city had affirmatively approved the project. Govt C §65922; *Ciani v San Diego Trust & Sav. Bank* (1991) 233 CA3d 1604, 285 CR 699.

© The Regents of the University of California

II. GENERAL PLAN

§10.16 A. Purpose and Effect

The general plan is a comprehensive, long-term plan for the development of the city, including any land outside its boundaries that the city believes is related to its planning. Govt C §65300. The general plan is the preeminent land use regulation of the local government; zoning and other land use decisions must conform to the general plan. *Lesher Communications, Inc. v City of Walnut Creek* (1990) 52 C3d 531, 541, 277 CR 1, 6 (zoning decisions); *Citizens of Goleta Valley v Board of Supervisors* (1990) 52 C3d 553, 573, 276 CR 410 (EIRs). But see *Garat v City of Riverside* (1991) 2 CA4th 259, 281, 3 CR2d 504, disapproved on other grounds in *Morehart v County of Santa Barbara* (1994) 7 C4th 725, 743 n11, 29 CR2d 804 (noting that charter city's legislative zoning enactments do not necessarily have to be consistent with its general plan). See also Govt C §§65803, 65860(d). Every city and county in California, including charter cities, must have a comprehensive general plan. Govt C §65300; *Endangered Habitats League, Inc. v County of Orange* (2005) 131 CA4th 777, 32 CR3d 177.

For further information on general plans, see Curtin & Talbert, California Land Use and Planning Law (updated annually) (Solano Press, P.O Box 773, Point Arena, California 95468); California General Plan Glossary (2003), Knox & Knox, eds. (California Planning Roundtable, Palo Alto, California), available at www.cproundtable.org/publications/california-general-plan-glossary/; General Plan Guidelines (2003) (State of California, Governor's Office of Planning and Research, 1400 Tenth Street, Sacramento, California 95814); The Planner's Guide to Specific Plans (1998) (State of California, Governor's Office of Planning and Research, 1400 Tenth Street, Sacramento, California 95814); Element Consolidation: Streamlining Local General Plans (1998) (State of California, Governor's Office of Planning and Research, 1400 Tenth Street, Sacramento, California 95814).

© The Regents of the University of California

§10.17 B. Basic Requirements

The general plan consists of seven mandatory elements and any optional elements that the city chooses to adopt. Govt C §§65302-65303. All mandatory elements have equal legal status and no mandatory element may be subordinated to another. The provisions of all of the elements must be internally consistent. *Sierra Club v Board of Supervisors* (1981) 126 CA3d 698, 708, 179 CR 261. See also Govt C §65300.5.

© The Regents of the University of California

§10.18 1. Land Use Element

The land use element of the general plan must designate the proposed general distribution, location, and extent of land uses for housing, industry, business, open space, natural resources, public facilities, waste disposal sites, and other categories of public and private uses. Govt C §65302(a). It must also identify and annually review those areas covered by the general plan that are subject to flooding. Govt C §65302(a). In addition to other criteria, the land use element must meet the standards described in §§10.19-10.24.

© The Regents of the University of California

§10.19 a. Correlation With Rest of Plan

It is the general plan policies that must be internally consistent (see §10.17), not the objectives within the various elements, or the maps, data, or statistics in the general plan. *Cadiz Land Co. v Rail Cycle, L.P.* (2000) 83 CA4th 74, 115, 99 CR2d 378. See also Govt C §65300.5.

© The Regents of the University of California

§10.20 b. Consistency Requirement Applied to Prezoned Territory

The consistency requirement applies to the prezoning of territory outside city limits but within the city's sphere of influence, which may be annexed in the future. *Merritt v City of Pleasanton* (2001) 89 CA4th 1032, 1036, 107 CR2d 675; *City of Irvine v Irvine Citizens Against Overdevelopment* (1994) 25 CA4th 868, 877, 30 CR2d 797.

© The Regents of the University of California

§10.21 c. Population Density and Building Intensity Standards

The land use element must include standards of population density (measured as numbers of people in a given area) and building intensity (using measures such as site coverage, floor-to-area ratio, building type and size, and dwelling units per acre). Govt C §65302; *Twain Harte Homeowners Ass'n v County of Tuolumne* (1982) 138 CA3d 664, 696, 188 CR 233; *Camp v Board of Supervisors* (1981) 123 CA3d 334, 349, 176 CR 620.

© The Regents of the University of California

§10.22 d. Flooding/Timber Production

The land use element must also identify areas subject to flooding and parcels designated for timberland production. Govt C §65302(a)(1). See also Govt C §§65007, 65860.1 (regarding the Sacramento-San Joaquin Valley area).

© The Regents of the University of California

§10.23 e. Military Facilities

In addition, the land use element must consider the impact of new growth on military readiness activities carried out on military bases, installations, and operating and training areas. Govt C §65302(a)(2).

© The Regents of the University of California

§10.24 f. Urban Form and Design

The text and diagrams in the land use element may also express community intentions regarding urban form and design. Govt C §65302.4.

© The Regents of the University of California

§10.25 2. Circulation Element

The circulation element must identify the general location and extent of existing and proposed major thoroughfares, transportation routes, terminals, military airports and ports, and other public utilities and facilities. It serves as an infrastructure plan and must be correlated with the land use element. Govt C §65302(b)(1). See also *Concerned Citizens of Calaveras County v Board of Supervisors* (1985) 166 CA3d 90, 99, 212 CR 273. Starting January 1, 2011, if the circulation element is substantively revised, it must plan for a balanced, multimodal transportation network that meets the needs of all users of streets, roads, and highways for safe and convenient travel in a manner that is suitable to the rural, suburban, or urban context. Govt C §65302(b)(2).

© The Regents of the University of California

§10.26 3. Housing Element

The housing element must identify and analyze existing and projected housing needs and establish goals, policies, quantified objectives, financial resources, and scheduled programs for the preservation, improvement, and development of housing. Govt C §§65583-65583.2; *Black Prop. Owners Ass'n v City of Berkeley* (1994) 22 CA4th 974, 981, 28 CR2d 305.

For further discussion of housing, see §§5.400-5.432, 10.161-10.199, 10.204-10.207.

© The Regents of the University of California

§10.27 a. Mandated Goals

The housing element is a highly detailed element of the general plan and must reflect the city's responsibility in contributing to the attainment of state housing goals. Govt C §65581(a); *Committee for Responsible Planning v City of Indian Wells* (1989) 209 CA3d 1005, 1013, 257 CR 635.

© The Regents of the University of California

§10.28 b. Other Factors

The housing element must consider economic, environmental, and fiscal factors as well as community goals in establishing a housing program. Govt C §65580(e); *Committee for Responsible Planning v City of Indian Wells* (1989) 209 CA3d 1005, 1013, 257 CR 635.

© The Regents of the University of California

§10.29 c. Assessment

The first component of the housing element is an assessment of regional housing needs, the city's fair share thereof, available resources, and potential constraints on the maintenance, improvement, or development of housing for all income levels and persons with disabilities. Govt C §65583(a). See *Hernandez v City of Encinitas* (1994) 28 CA4th 1048, 33 CR2d 875.

© The Regents of the University of California

§10.30 (1) Land Inventory

The housing element must contain an inventory of specific sites suitable for residential development, including vacant sites and sites having potential for redevelopment, and an analysis of the relationship of zoning and public facilities and services to these sites. Govt C §65583(a)(3). If the inventory is insufficient to accommodate the jurisdiction's regional housing needs allocation, the element must designate sites at which high density housing is permitted by right. Govt C §§65583(c)(1), 65583.2(h). See also *Fonseca v City of Gilroy* (2007) 148 CA4th 1174, 56 CR3d 374.

© The Regents of the University of California

§10.31 (2) Examination of Alternative Regulations

Determination of the availability of suitable housing sites must consider the potential for increased residential development under both existing and alternative zoning ordinances and land use restrictions. Govt C §§65583-65584.

© The Regents of the University of California

§10.32 (3) Emergency Shelters

The assessment must identify emergency shelter zones. Govt C §65583(a)(4).

© The Regents of the University of California

§10.33 (4) Special Housing Needs

The assessment must include an analysis of any special housing needs, such as those of the elderly, persons with disabilities, large families, farmworkers, families with female heads of households, and families and persons in need of emergency shelter. Govt C §65583(a)(7).

© The Regents of the University of California

§10.34 (5) Energy Conservation

The element must contain an analysis of opportunities for energy conservation with respect to residential development. Govt C §65583(a)(8).

© The Regents of the University of California

§10.35 (6) Decreases in Low-Income Housing

Cities must address the potential for a decrease in the availability of low-income housing during the next 10 years due to termination of subsidy contracts, mortgage prepayment, or expiration of restrictions on use. Govt C §65583(a)(9).

© The Regents of the University of California

§10.36 d. Objectives

The second component of the housing element is a statement of quantified goals, objectives, and policies for the maintenance, preservation, improvement, and development of the community's housing. Govt C §65583(b). When the total housing needs exceed available resources, quantified objectives "need not be identical to the total housing needs" but should "establish the maximum number of housing units … that can be constructed, rehabilitated, and conserved over a five-year period." Govt C §65583(b).

However, this allowance for reduced quantified objectives is largely illusory. If the city's inventory of sites is insufficient to accommodate the regional housing needs allocation for each income level, the city will have to identify specific sites that can be developed for housing within the planning period and that allow high-density multifamily low-income housing by right (without a conditional use permit). There are detailed requirements related to the procedure for designating such sites. See Govt C §§65583(c)(1)(A), 65583.2(h).

© The Regents of the University of California

§10.37 e. Action Program

The third component of the housing element is a program setting forth a schedule of actions during the planning period, each with a timeline for implementation. See Govt C §65583(c). The requirements of the program are described in §§10.38-10.43.

© The Regents of the University of California

§10.38 (1) Identifying Adequate Sites

The program must identify specific sites for development of housing types for all income levels, including low- and moderate-income households sufficient to meet the city's share of housing needs. If the inventory of available sites does not identify adequate sites to accommodate the need for all income levels, the jurisdiction must determine for each site in the inventory how many additional units could be placed on each site through rezoning, increases in density, placing residential uses on non-residential lots, and redevelopment. There are numerous other detailed requirements associated with this analysis. If the city or county is still unable to reach its designated regional housing needs allocation, it must designate specific sites that will allow for multifamily housing by right at high densities. Govt C §§65583(c)(1), 65583.2.

© The Regents of the University of California

§10.39 (2) Addressing Conservation of Existing Housing

The program must address the conservation and improvement of the condition of existing housing stock, including assisted housing developments at risk for changing from low-income uses. Govt C §65583(c)(4). A housing element is inadequate when it fails to contain a program to conserve the stock of affordable housing. *Buena Vista Gardens Apartments Ass'n v City of San Diego Planning* Dep't (1985) 175 CA3d 289, 303, 220 CR 732.

© The Regents of the University of California

§10.40 (3) Removing Governmental Constraints

The program must address and, when appropriate and legally possible, remove governmental constraints to maintenance, improvement, and development of housing for all income levels, including housing for persons with disabilities. Govt C §65583(c)(3).

© The Regents of the University of California

§10.41 (4) Ensuring Consistency

The program must identify the means to achieve consistency with other general plan elements. Govt C §65583(c)(7).

© The Regents of the University of California

§10.42 (5) Promoting Opportunities Without Discrimination

The program must promote housing opportunities for all persons regardless of race, religion, sex, marital status, ancestry, national origin, color, familial status, or disability. Govt C §65583(c)(5).

© The Regents of the University of California

§10.43 (6) Providing for Numerous Forms of Housing

The program must provide for a variety of housing types, including multifamily rental housing, factory-built housing, mobilehomes, housing for agricultural employees, supportive housing, single-room occupancy units, emergency shelters, and transitional housing. Govt C §65583(c)(1). A court of appeal held that a housing element was inadequate when it failed to identify a sufficient number of sites to accommodate its quantified homeless transitional housing objectives and its other identified programs failed to compensate for a blanket conditional use permit requirement and other zoning restrictions. *Hoffmaster v City of San Diego* (1997) 55 CA4th 1098, 64 CR2d 684.

© The Regents of the University of California

f. Housing Share

§10.44 (1) Regional Housing Needs Determination

At least 2 years before a scheduled housing element update, the Department of Housing and Community Development (HCD) will assign each region of the state that region's share (the regional housing needs allocation, or RHNA), based on consultation with regional councils of governments (COGs). Govt C §§65584(b), 65584.01. The HCD and the COGs must hold meetings to determine the methodology to determine regional housing needs, and the HCD must submit a draft of the regional allocation to the COGs for review. Govt C §§65584.04-65584.05. In the event that a COG disagrees with its allocation, there is a procedure for appealing the allocation, based on improper population projections or improper application of the allocation methodology. Govt C §65584.01. This procedure is not subject to appellate review. *City of Irvine v Southern Cal. Ass'n of Gov'ts* (2009) 175 CA4th 506, 96 CR3d 78.

© The Regents of the University of California

§10.45 (2) Subregional Entities

At least 28 months before a scheduled housing element update, any two or more cities and a county or counties may form a "subregional entity" for the purpose of allocation of the subregion's housing needs allocation. The subregional entity, rather than the regional council of governments (COG), will then determine the ultimate allocation of housing units for its member agencies. Govt C §65584.03. For special provisions applicable to the Southern California Association of Governments, see Govt C §65584.08.

© The Regents of the University of California

§10.46 (3) Local Methodologies

At least 2 years before a scheduled housing element update, each regional council of governments (COG) or subregional entity must develop a methodology for distributing the regional housing need to cities and counties within the region or subregion. Factors that may be included in the methodology include the existing and projected jobs-housing relationship, constraints and opportunities to the development of affordable housing, regional transportation plans, market demand for housing, high housing cost burdens, and numerous other factors. However, a growth control ordinance may not be considered when allocating the housing units. Members of the public must be afforded an opportunity to participate in the development of the methodology. Govt C §65584.04.

© The Regents of the University of California

§10.47 (4) Local Allocations

At least 18 months before a scheduled housing element update, each regional council of governments (COG) or subregional entity must distribute a draft regional housing needs allocation (RHNA) to each local government in the region or subregion and must explain the methodology on which the allocation is based. Within 60 days, a local government may request a reallocation based on specific factors, and the COG/subregional entity must respond to that request within 60 days. If the request for a reallocation is denied, local entities have an appeal process. In the event that a reallocation occurs, the COG/subregional entity may not reduce the total housing allocation for the region or subregion, and it must redistribute the RHNA according to a specific process; affected local governments may also agree to alternate distributions of appealed local housing allocations. Govt C §65584.05. In the event that a jurisdiction is not served by a COG or subregional entity, the Department of Housing and Community Development (HCD) makes the allocation for that jurisdiction, and there are opportunities for such jurisdictions to participate in the drafting process and to appeal the allocation. Govt C §65584.06.

© The Regents of the University of California

§10.48 g. Department of Housing and Community Development Findings

The Department of Housing and Community Development (HCD) may adopt Housing Element Guidelines pursuant to Health & S C §50459. Such guidelines are advisory to local governments in their preparation of the housing element. Govt C §65585(a); *Buena Vista Gardens Apartments Ass'n v City of San Diego Planning Dep't* (1985) 175 CA3d 289, 295, 220 CR 732. The HCD does not currently have any such Guidelines. See 25 Cal Code Regs div 1, chap 1, subchap 5. However, some guidance is provided by the HCD publication, Housing Element Questions and Answers: A Guide to the Preparation of Housing Elements. In addition, the Governor's Office of Planning and Research publishes a document called State of California General Plan Guidelines (2003), which contains a chapter on drafting housing elements. It is available online at www.opr.ca.gov.

© The Regents of the University of California

§10.49 (1) Department of Housing and Community Development Review

Planning agencies must submit drafts of proposed housing elements and amendments to the Department of Housing and Community Development (HCD) for review. The HCD then has 90 days (for adoptions) or 60 days (for amendments) to provide written comments to the city, which the city must consider before final adoption. Govt C §65585. If the HCD finds that a draft housing element does not substantially comply with statutory requirements, the city must either revise the element in accordance with the HCD's recommendations or "self-certify" the element by adopting findings explaining why the city believes there is substantial compliance notwithstanding the HCD's comments. Govt C §65585(f). Once the city adopts the new or amended housing element, the city must again submit the element to the HCD for review. Govt C §65585(h). If the HCD believes that the element is in compliance with state law at that time, the HCD will certify the housing element.

© The Regents of the University of California

§10.50 (2) Rebuttable Presumption of Validity

If the Department of Housing and Community Development (HCD) has found that the housing element substantially complies with the law, there is a rebuttable presumption of the housing element's validity in any court action. Govt C §65589.3. There is no corresponding presumption of "invalidity" if a city has self-certified the element in accordance with Govt C §65585(f), but the presumption of validity will not apply to a self-certified housing element.

© The Regents of the University of California

§10.51 h. Required City Review and Revision

The city must review and revise the housing element "as frequently as appropriate," but not less than every 5 years unless a longer time period is provided by law. Different dates are provided for cities in different areas of the state. Govt C §65588, 65588(e).

© The Regents of the University of California

§10.52 i. Impact of Defective Housing Element

A defective housing element may prevent approval of tentative subdivision maps or other land use approvals because case law has established that a finding of consistency with a general plan is not valid when a general plan is incomplete or inadequate. See, *e.g., Resource Defense Fund v County of Santa Cruz* (1982) 133 CA3d 800, 806, 184 CR 371; *Camp v Board of Supervisors* (1981) 123 CA3d 334, 358, 176 CR 620. Accordingly, a city without a valid housing element would not be able to approve most development projects.

© The Regents of the University of California

§10.53 j. Coastal Provisions

Special provisions apply to housing elements covering the state's coastal zone. See Govt C §§65588(d), 65590-65590.1. For further discussion of land use issues in the coastal zone, see §§10.93, 10.277-10.333.

© The Regents of the University of California

§10.54 4. Conservation Element

The conservation element of the general plan must address the identification, conservation, development, and use of natural resources. "Natural resources" includes water, forests, soils, waterways, wildlife, and mineral deposits. Govt C §65302(d). The next time cities revise housing elements after January 1, 2009, the conservation elements must identify rivers, flood corridors, riparian habitat, and land that can accommodate floodwater. Govt C §65302(d).

© The Regents of the University of California

§10.55 a. Optional Considerations

The element may also consider issues such as flood control, water pollution, erosion, conversion of farmland, and endangered species. Govt C §65302(d).

© The Regents of the University of California

§10.56 b. Water Agency Involvement

The portions of the conservation element addressing water issues must be developed in coordination with all local agencies that deal with water in the community. Govt C §65302(d). Any applicable urban water management plan must be used as a source document. Govt C §65302.2.

© The Regents of the University of California

§10.57 5. Open Space Element

The open space element details comprehensive and long-range plans and measures for preserving open space for natural resources, for managing the production of resources, for outdoor recreation, and for public health and safety. Govt C §§65302(e), 65560-65570.

© The Regents of the University of California

§10.58 a. Mandated Programs

State law requires an ambitious planning effort for open space that must include certain specific programs. Govt C §§65563-65564.

© The Regents of the University of California

§10.59 b. Action Program

The element's action program must include the adoption of an open space zoning ordinance. Its purposes include the designation of exclusive agricultural zones, large lot zones, and special overlay requirements for hazard areas. Govt C §65910; *Gisler v County of Madera* (1974) 38 CA3d 303, 306, 112 CR 919.

© The Regents of the University of California

§10.60 c. Goals and Inventory

The open space element must also include goals and policies for preserving and managing open space and an inventory of all open space property, whether privately or publicly owned. Govt C §§65560, 65563-65564. See also *Save El Toro Ass'n v Days* (1977) 74 CA3d 64, 73, 141 CR 282.

© The Regents of the University of California

§10.61 6. Noise Element

The noise element considers potential noise problems in the community. Current and projected noise levels are calculated and mapped for roadways, railroads, airports, industrial plants, military installations, and other major noise sources. Govt C §65302(f). See also Govt C §65302.3.

For further discussion of regulating noise, see §§9.107-9.112.

© The Regents of the University of California

§10.62 a. Implementation

The noise element must include implementation measures and solutions to noise problems. See *Camp v Board of Supervisors* (1981) 123 CA3d 334, 351, 176 CR 620.

© The Regents of the University of California

§10.63 b. Guidelines

Pursuant to statute, Noise Element Guidelines issued by the State Department of Health Services, Office of Noise Control (ONC), as well as the state noise insulation standards, must be considered and applied during preparation of the noise element. Govt C §65302(f). The ONC issued a set of guidelines in 1976, Guidelines for the Preparation and Content of Noise Elements of the General Plan (1976), but the ONC no longer exists. More recently, the Governor's Office of Planning and Research assumed responsibility for updating these guidelines, and these updated provisions are commonly followed. Governor's Office of Planning and Research, State of California General Plan Guidelines (1998).

© The Regents of the University of California

§10.64 7. Safety Element

The safety element addresses risk associated with seismic, geologic, flood, and wild fire hazards. Known seismic and other geologic hazards must be mapped, and emergency evacuation routes, firefighting water supply, and similar emergency issues must be addressed. Govt C §65302(g). Safety element revisions occurring on or after January 1, 2009, must also identify certain flood hazard information and establish goals, policies, and objectives based on that information to protect applicable communities from unreasonable flooding risks. Govt C §65302(g)(2).

© The Regents of the University of California

§10.65 a. Importance of Element

The safety element should be considered before making land use decisions, as it is the major tool for identifying hazards within the area.

© The Regents of the University of California

§10.66 b. Required Consultation With State Agencies

Before adoption or amendment of the safety element, each city or county must submit a draft to the following state agencies:

- The California Geological Survey, Department of Conservation, at least 45 days before adoption or amendment, for a determination of whether the element incorporates known seismic and other geologic hazard information. If the Division's findings are available within 30 days of receipt of the draft, the city must consider those findings before adopting the element. Govt C §65302.5.
- State Board of Forestry and Fire Protection, and to every local agency providing fire protection to the jurisdiction, at least 90 days before adoption or amendment, for recommendations on policies that will protect life, property, and natural resources from unreasonable fire risks, and methods and strategies for wildfire risk reduction and prevention. If the Board's and/or local agency's findings are available within 60 days of receipt of the draft, the city or county must consider those recommendations, and if the city or county decides not to accept the recommendations, it must communicate its reasons for not doing so to the Board or local agency. (Note that this requirement applies only to cities within very high fire hazard severity zones, and within counties containing state responsibility areas.) Govt C §65302.5.

© The Regents of the University of California

C. Administration

§10.67 1. Annual Report

After the general plan has been adopted, the city planning agency must (Govt C §65400):

- investigate and make recommendations to the city council regarding means for implementing the general plan; and
- provide an annual report, by April 1 of each year, to the legislative body, the Office of Planning and Research (OPR), and the Department of Housing and Community Development (HCD) on the status of the plan and progress in its implementation, including the city's progress in meeting its share of regional housing needs and the progress of local efforts to remove governmental constraints to the maintenance, improvement, and development of housing.

The report should also address the degree to which the general plan complies with OPR Guidelines. The statute also states that the housing portion of the annual report must be prepared through the use of forms and definitions adopted by the HCD. Govt C §65400(a). If a court, on motion, finds that a planning agency did not submit a substantially compliant housing element portion of that report within 60 days of the April 1 deadline, it may compel compliance within 60 days, and retain jurisdiction and issue further orders to ensure that applicable report requirements are met. This authority applies to proceedings initiated after October 1 following the HCD's adoption of forms and definitions per Govt C §65400(a)(2). Govt C §65400(b).

© The Regents of the University of California

§10.68 2. Consistency Requirements for Land Use Decisions

The mere adoption or amendment of a general plan, without any other project approval, does not require findings. As a legislative act, general plans are presumed valid without supporting findings. *Federation of Hillside & Canyon Ass'ns v City of Los Angeles* (2004) 126 CA4th 1180, 24 CR3d 543. But many land use decisions require a finding that the action is consistent with the general plan, such as the following:

- subdivision map approvals (Govt C §§66473.5, 66474);
- specific plan or other development plan and amendments thereto (Govt C §§65359, 65454);
- development agreements (Govt C §65867.5);
- public works projects, acquisition or disposition of public property, and construction of public buildings (Govt C §§65401-65402);
- capital improvement programs by joint powers agencies (Govt C §65403);
- redevelopment projects (Health & S C §§33331, 33367); and
- housing authority projects (Health & S C §34326).

See also *Friends of "B" St. v City of Hayward* (1980) 106 CA3d 988, 998, 165 CR 514 (observing that city must make general plan consistency finding for "approval of a proposed subdivision, construction of public improvements, and private sale of subdivided lots").

A project is consistent with the general plan if, considering all its aspects, it will further the objectives and policies of the general plan and not obstruct their attainment. Perfect conformity is not required, but the project must be compatible with the general plan's objectives and policies. A project is inconsistent if it conflicts with a general plan policy that is fundamental, mandatory, and clear. Although the courts have articulated various standards of review of a local agency's determination that a project is consistent with the general plan, those standards all have in common the affording of great deference to the lead agency's determination. Nevertheless, the lead agency's consistency finding still must be supported by evidence. *Endangered Habitats League, Inc. v County of Orange* (2005) 131 CA4th 777, 32 CR3d 177.

© The Regents of the University of California

§10.69 3. Requirements Imposed on Other Agencies

Special districts, school districts, and joint powers agencies that construct or maintain public facilities must submit any capital improvement programs to the city planning agency for review as to conformity with the general plan. Govt C §65403. The planning agency then has 40 days to submit comments regarding general plan consistency, or the program will be deemed consistent. Govt C §65403.

© The Regents of the University of California

§10.70 D. Adoption Procedures and Hearing Requirements

State law prescribes the procedure by which a city's general plan is adopted. Govt C §§65350-65362. The legislative body of a newly incorporated city must adopt a general plan within 30 months following incorporation. Govt C §65360.

Before the city adopts the general plan, the proposal must be referred to the public agencies specified in Govt C §65352. These include school districts, which have the right to request a meeting with the planning agency within 15 days following notification to discuss plans for new schools. Govt C §65352.2. In addition, cities and counties must consult with certain California Native American Tribes. Govt C §§65352(a)(9), 65352.3. The city must also consult with water supply agencies, which have 45 days to provide comments on a draft general plan to the planning agency, and which must furnish the city with a series of information about the water supply. Govt C §§65352(a)(6), 65352.5. Proposed actions within the Sacramento and San Joaquin Drainage District must be referred to the Central Valley Flood Protection Board. Govt C §65352(a)(10); Wat C §8501.

The requirements of the California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177) must also be addressed before the general plan is adopted. 14 Cal Code Regs §15378(a)(1); *City of Santa Ana v City of Garden Grove* (1979) 100 CA3d 521, 160 CR 907.

© The Regents of the University of California

§10.71 1. Additional Requirements for Certain Changes to Land Use Element

Additional requirements apply to environmental impact reports for the amendment or revision of a land use element for certain specified development projects resulting in an increased water demand. See Wat C §§10910-10915.

© The Regents of the University of California

§10.72 2. Additional Requirements for Housing Element

Additional requirements apply to the adoption or amendment of the general plan's housing element. See Govt C §65585. See also §§10.26-10.53.

© The Regents of the University of California

§10.73 E. Initiative/Referendum

The adoption or amendment of a general plan is a legislative act and subject to referendum (*Yost v Thomas* (1984) 36 C3d 561, 570, 205 CR 801) and initiative (*DeVita v County of Napa* (1995) 9 C4th 763, 38 CR2d 699). A court will overturn the electorate's approval of a referendum only if it finds the voters' decision arbitrary or capricious. *Chandis Sec. Co. v City of Dana Point* (1996) 52 CA4th 475, 482, 60 CR2d 481.

© The Regents of the University of California

§10.74 F. Extensions

Any city may apply to the director of the Office of Planning and Research (OPR) for an extension of time to adopt a new general plan, or to adopt a part of a general plan to replace an element that may have been legally inadequate. Govt C §65361.

© The Regents of the University of California

§10.75 1. Relief From General Plan Requirements

During the extension period, the city is not required to have a complete and adequate general plan or make decisions consistent with the portions of general plan for which an extension is sought. An extension allows a city to approve development projects while inadequacies in the general plan are being corrected, subject to the conditions imposed by the Office of Planning and Research (OPR) and consistent with any element or elements that have been adopted and for which an extension has not been sought. Govt C §65361(e).

© The Regents of the University of California

§10.76 2. Attack Under Previous General Plan

An extension does not retroactively immunize a project from attacks based on the general plan in effect at the time of project approval. See *Resource Defense Fund v County of Santa Cruz* (1982) 133 CA3d 800, 812, 184 CR 371.

© The Regents of the University of California

§10.77 3. Consistency With Housing Element

Projects approved during the extension period must be consistent with the housing element and may be challenged if the housing element is inadequate. Except for new cities, extensions may not be granted for the housing element. Govt C §§65361(b), 65587(a).

© The Regents of the University of California

§10.78 4. Conditions

The extension can prevent a court-ordered city-wide moratorium on project approvals resulting from a legal challenge to some individual approval. However, the state may attach conditions to the extension that might restrict the city's ability to approve development during the extension period. Govt C §65361(d).

© The Regents of the University of California

§10.79 5. Consistency With Draft General Plan

As a condition of the extension, the Office of Planning and Research (OPR) may require that new development applications be evaluated under a draft general plan. *Harroman Co. v Town of Tiburon* (1991) 235 CA3d 388, 396, 1 CR2d 72.

© The Regents of the University of California

§10.80 G. Amendments and Updates

The procedure for amending a general plan is the same as that for its initial adoption. Govt C §65350.

No mandatory element of a general plan may be amended more frequently than four times during any calendar year. Govt C §65358(b). This limit does not apply to charter cities. Govt C §65700(a). This limitation also does not apply to amendments to allow an affordable housing project when at least 25 percent of the project is for low-or moderate-income housing, to comply with a court order, to ensure consistency with airport land use plans, or to assure consistency with local coastal programs. Govt C §65358(c)-(d).

Through its initiative power, the electorate may impose additional limitations on future amendments of a general plan. *DeVita v County of Napa* (1995) 9 C4th 763, 38 CR2d 699 (upholding initiative amendment to county general plan that made redesignation of existing agricultural land or open space essentially conditioned on voter approval for following 30 years). However, a legislative body may not contract away or otherwise divest itself of its authority to amend its general plan. 108 *Holdings, Ltd. v City of Rohnert Park* (2006) 136 CA4th 186, 194, 38 CR3d 589; *Alameda County Land Use Ass'n v City of Hayward* (1995) 38 CA4th 1716, 1724, 45 CR2d 752.

© The Regents of the University of California

§10.81 H. Limitations Period for General Plan Challenges

The adequacy of a provision in a general plan may be challenged only within 90 days of that provision's adoption. Govt C §65009(c). The internal consistency of a general plan may be challenged only if the alleged inconsistency is the result of an amendment or adoption within this 90-day "window of opportunity." *Garat v City of Riverside* (1991) 2 CA4th 259, 287, 3 CR2d 504, disapproved on other grounds in *Morehart v County of Santa Barbara* (1994) 7 C4th 725, 29 CR2d 804.

A plaintiff may not use a challenge to a particular land use permit as a vehicle for making an untimely collateral attack on the adequacy of the general plan itself. *A Local & Reg'l Monitor v City of Los Angeles* (1993) 16 CA4th 630, 648, 20 CR2d 228. But see *Kings County Farm Bureau v City of Hanford* (1990) 221 CA3d 692, 741, 270 CR 650 (reaching contrary holding, but with no supporting analysis).

This limitations period only applies to general plan provisions enacted after the January 1, 1984, effective date of Govt C §65009. Govt C §65009(h). Cases involving challenges to general plan provisions adopted before this effective date generally upheld such challenges at any time. See, *e.g., Neighborhood Action Group v County of Calaveras* (1984) 156 CA3d 1176, 1184, 203 CR 401.

© The Regents of the University of California

§10.82 I. Avoiding a Taking Challenge

Some general plans contain a provision to the effect that the general plan does not apply to the extent that the constitution would be violated. The inclusion of such language may actually help avoid a facial taking challenge. *San Mateo County Coastal Landowners' Ass'n v County of San Mateo* (1995) 38 CA4th 523, 547, 45 CR2d 117. A similar approach is to allow property owners to apply for a "variance" from the general plan. See *Napa Citizens for Honest Gov't v Napa County Bd. of Supervisors* (2001) 91 CA4th 342, 110 CR2d 579. For a more detailed discussion of unconstitutional takings, see §10.210.

© The Regents of the University of California

§10.83 J. Specific Plans

After adopting a general plan, a city may also adopt one or more specific plans for the systematic implementation of the general plan for all or part of the area covered by the general plan. Govt C §65450. A specific plan must contain certain specified detail relating to land uses, major infrastructure, development and conservation standards, and an implementation program. Govt C §65451. A specific plan is prepared, adopted, and amended in the same manner as a general plan. Govt C §65453.

A specific plan must be consistent with the applicable general plan. Govt C §65454. See *Mitchell v County of Orange* (1985) 165 CA3d 1185, 1191, 211 CR 563. To be consistent with the general plan, a specific plan need not comply with all general plan goals and policies, provided that it furthers them and does not obstruct their attainment. *Endangered Habitats League, Inc. v County of Orange* (2005) 131 CA4th 777, 32 CR3d 177. Projects, too, must be consistent with the specific plan. A project is consistent with the specific plan if, in all its aspects, it will further the objectives of the plan and not obstruct its attainment. *Sierra Club v Napa County (Beringer Wine Estates)* (2004) 121 CA4th 1490, 19 CR3d 1.

Special requirements regarding analysis of water supplies apply to specific plans for certain specified development projects. See Wat C §§10910-10915. Challenges to specific plans are subject to a 90-day limitations period. Govt C §65009(c)(1). As with general plans, specific plans are subject to referendum. *Chandis Sec. Co. v City of Dana Point* (1996) 52 CA4th 475, 481, 60 CR2d 481.

© The Regents of the University of California

§10.84 III. ZONING

"Zoning is a separation of the municipality into districts, and the regulation of buildings and structures, according to their construction, and the nature and extent of their use, and the nature and extent of the uses of land." *O'Loane v O'Rourke* (1965) 231 CA2d 774, 780, 42 CR 283. See also *Miller v Board of Pub. Works* (1925) 195 C 477, 234 P 381.

For extensive discussion of zoning, see Longtin's California Land Use (2d ed 1987) (distributed by Local Government Publications, P.O. Box 2596, Walnut Creek, California 94595); 3 Manaster & Selmi, California Environmental Law and Land Use Practice §20 (Matthew Bender, rev ed 1992); Curtin &. Talbert, Curtin's California Land Use and Planning Law (published annually by Solano Press, P.O Box 773, Point Arena, California 95468); California Land Use Practice (Cal CEB 2006).

© The Regents of the University of California

§10.85 A. Authority

Comprehensive zoning regulations lie within the police power of local governments. See *Village of Euclid v Ambler Realty Co.* (1926) 272 US 365, 388, 71 L Ed 303, 47 S Ct 114. Cities do not have the authority to approve projects that are prohibited by their own zoning ordinance. *Ailanto Props., Inc. v City of Half Moon Bay* (2006) 142 CA4th 572, 48 CR3d 340.

© The Regents of the University of California

§10.86 B. Statutory Restrictions

There are certain statutory restrictions against the exercise of local zoning powers in a discriminatory manner. See generally Govt C §65008; *St. Vincent's Sch. for Boys v City of San Rafael* (2008) 161 CA4th 989, 1001, 75 CR3d 213. For further discussion, see §10.443.

© The Regents of the University of California

C. Zoning Ordinances

1. General Plan Consistency

§10.87 a. General Law Cities

The zoning ordinance of a general law city must be consistent with its general plan. Govt C §65860; *Hawkins v County of Marin* (1976) 54 CA3d 586, 593, 126 CR 754. See also Govt C §65860(a) (defining consistency).

© The Regents of the University of California

§10.88 b. Charter Cities With Populations Greater Than Two Million

All ordinances enacted by a charter city having a population of at least two million must be consistent with its general plan. Govt C §65860(d); *City of Los Angeles v State* (1982) 138 CA3d 526, 532, 187 CR 893. See *Garat v City of Riverside* (1991) 2 CA4th 259, 281, 3 CR2d 504, disapproved on other grounds in *Morehart v County of Santa Barbara* (1994) 7 C4th 725, 29 CR2d 804.

© The Regents of the University of California

§10.89 c. Other Charter Cities

However, even in the case of a charter city not subject to the consistency doctrine, a zoning ordinance's inconsistency with the adopted general plan gives rise to a presumption that the zoning ordinance does not reasonably relate to the community's general welfare and therefore constitutes an abuse of the city's police power. *City of Del Mar v City of San Diego* (1982) 133 CA3d 401, 414, 183 CR 898. See also *Mira Dev. Corp. v City of San Diego* (1988) 205 CA3d 1201, 252 CR 825. Further, a city, by its own charter, general plan, ordinances, or other regulations, may require consistency. *City of Irvine v Irvine Citizens Against Overdevelopment* (1994) 25 CA4th 868, 30 CR2d 797.

© The Regents of the University of California

§10.90 d. Judicial Review

A city council finding that a project is consistent with the city's general plan will be reversed by a court only if, based on the evidence in the record before the city council, no reasonable person could have reached the same conclusion. *No Oil, Inc. v City of Los Angeles* (1987) 196 CA3d 223, 242 CR 37; *Save Our Peninsula Comm. v Monterey County Bd. of Supervisors (September Ranch Partners)* (2001) 87 CA4th 99, 104 CR2d 326.

© The Regents of the University of California

2. Procedures for Adoption and Amendment

§10.91 a. Legislative Acts

The adoption and amendment of zoning ordinances are legislative acts, rather than administrative or quasi-judicial acts. *Arnel Dev. Co. v City of Costa Mesa* (1980) 28 C3d 511, 169 CR 904.

© The Regents of the University of California

§10.92 b. Urgency Measures

State law permits a city to adopt an interim ordinance that prohibits otherwise permitted uses when those uses conflict with a land use proposal (*e.g.,* general plan, specific plan, or zoning amendments) that the city is considering, studying, or intending to study within a reasonable time. Govt C §65858. Such a measure

- requires a four-fifths vote of the city council;
- must contain a finding that there is a current and immediate threat to the public health, safety, or welfare; and
- may be adopted without following the notice and adoption procedures required for other ordinances.

The measure has an initial duration of 45 days and may be extended as specified in the statute. The provisions of Govt C §65858 regulate land use and do not allow cities to adopt an interim ordinance that takes the extra step of prohibiting the processing of land use applications. *Building Indus. Legal Defense Found. v Superior Court* (1999) 72 CA4th 1410, 85 CR2d 828.

© The Regents of the University of California

§10.93 c. Urgency Measures in Coastal Zone

An ordinance enacted under the authority of Govt C §65858 that affects property within the coastal zone need not be certified by the Coastal Commission if it does not change the permitted use of the property. *Conway v City of Imperial Beach* (1997) 52 CA4th 78, 60 CR2d 402.

© The Regents of the University of California

§10.94 3. Notice and Hearing Requirements

Generally, the constitutional due process requirements of "notice and hearing" do not apply to legislation. However, state law requires notice and hearing for zoning enactments by counties and general law cities. See Govt C §§65854, 65856. All zoning authorities, including charter cities, are subject to minimum due process standards in conducting zoning hearings. See Govt C §65804.

© The Regents of the University of California

4. Legislative Acts

§10.95 a. Findings Not Generally Required

Findings are not required for legislative acts unless a statute requires them. *Mountain Defense League v Board of Supervisors* (1977) 65 CA3d 723, 135 CR 588. For example, findings are not required on rezoning ordinances because they are legislative in character. *Ensign Bickford Realty Corp. v City Council* (1977) 68 CA3d 467, 137 CR 304. Similarly, findings are not required in connection with the approval or denial of a development agreement, which is considered to be a legislative act. *Santa Margarita Area Residents Together v San Luis Obispo County Bd. of Supervisors (2000) 84 CA4th 221, 100 CR2d 740.*

© *The Regents of the University of California*

§10.96 b. When Findings Required

State law mandates findings for legislative acts under the following circumstances:

- When a general plan limits the number of newly constructed housing units (see Govt C §65302.8);
- When a local ordinance limits the number of newly constructed housing units (see Govt C §65863.6); and
- When a very low, low- and/or moderate-income housing project is disapproved, including through the use of design review standards (see Govt C §65589.5).

© The Regents of the University of California

§10.97 5. Typical Provisions

Zoning ordinances typically do the following:

- Divide a city into various land use designations;
- List permitted uses within those designations;
- Provide for conditional and accessory uses;
- Establish development standards such as building height, setbacks, lot coverage, parking, signage, and landscaping; and
- Provide for administrative procedures for variances, conditional use permits, design review, and zone changes or text amendments.

© The Regents of the University of California

§10.98 6. Limitations of Challenges

The adoption or amendment of a zoning ordinance may only be challenged in court within 90 days of the adoption or amendment. Govt C §65009(c)(1).

© The Regents of the University of California

§10.99 D. Use Permits

Typically, following a list of uses permitted in each zoning district, a local zoning ordinance will provide for other uses that are not permitted as a matter of right, but for which a conditional use permit must be obtained. These permits are a necessary and appropriate zoning flexibility device. *Groch v City of Berkeley* (1981) 118 CA3d 518, 173 CR 534; *Upton v Gray* (1969) 269 CA2d 352, 74 CR 783.

© The Regents of the University of California

1. Procedures for Issuance

§10.100 a. Quasi-Judicial Action

The consideration of a conditional use permit (CUP) is an administrative, quasi-judicial matter, not a legislative matter. *Topanga Ass'n for a Scenic Community v County of Los Angeles* (1974) 11 C3d 506, 517, 113 CR 836. For that reason, the granting or denial of a conditional use permit is not a proper subject for a ballot measure. *Save Our Sunol, Inc. v Mission Valley Rock Co.* (2004) 124 CA4th 276, 21 CR3d 171.

© The Regents of the University of California

§10.101 b. Decision-Maker

Applications for conditional use or other permits are usually heard by either a board of zoning adjustment or zoning administrator. If the city has not established a board of zoning adjustment or office of zoning administrator, the planning commission will exercise all of the duties and functions of such a board or administrator. Govt C §§65900-65902.

© The Regents of the University of California

§10.102 c. Appeals

Cities are also authorized to create and establish a board of appeals to hear and determine appeals from the decisions of the board of zoning adjustment or the zoning administrator. Govt C §§65900, 65903. Typically such appeals are heard by a city's planning commission. Govt C §65904.

© The Regents of the University of California

2. Due Process Requirements

§10.103 a. Notice and Hearing

Due process requires notice and opportunity to be heard for administrative proceedings, including those dealing with conditional use permits (CUPs). Govt C §65905(a). See *Fuchs v County of Los Angeles Civil Serv. Comm'n* (1973) 34 CA3d 709, 110 CR 311.

© The Regents of the University of California

§10.104 b. Findings and Decision

The local administrative agency must issue written findings in support of its decision on the conditional use permit (CUP). These findings must enable the parties to determine whether and on what basis they should seek review of the agency's decision; findings also apprise a reviewing court of the basis for the agency's action. The record must contain substantial evidence to support the findings and the findings must in turn support the decision. *Topanga Ass'n for a Scenic Community v County of Los Angeles* (1974) 11 C3d 506, 514, 113 CR 836. A use permit may be denied, however, if substantial evidence supports any reason to deny the permit. *Saad v City of Berkeley* (1994) 24 CA4th 1206, 30 CR2d 95.

© The Regents of the University of California

3. Standards for Issuance and Denial

§10.105 a. Criteria Required

The zoning ordinance must establish criteria or standards for conditional use permits. Govt C §65901.

© The Regents of the University of California

§10.106 b. General Welfare

The "general welfare" standard for granting or denying a CUP is sufficient. *Hawkins v County of Marin* (1976) 54 CA3d 586, 126 CR 754.

© The Regents of the University of California

§10.107 c. Nuisance Standard

The general welfare standard is sometimes imposed in the negative form, *i.e.,* the permit will not be issued if the proposed use would create noise, dust, odors, or other undesirable characteristics. See *Harris v City of Costa Mesa* (1994) 25 CA4th 963, 31 CR2d 1; *Snow v City of Garden Grove* (1961) 188 CA2d 496, 498, 10 CR 480.

© The Regents of the University of California

§10.108 d. Different Standards for Renewals

Denial of an application to renew an already-issued use permit receives a higher standard of judicial review than a denial of an application for a new use permit. *Goat Hill Tavern v City of Costa Mesa* (1992) 6 CA4th 1519, 8 CR2d 385. Similarly, a higher standard of judicial review applies to an application for a new use permit if the use itself is already in existence, as opposed to a use not yet in existence. *Cadiz Land Co. v Rail Cycle, L.P.* (2000) 83 CA4th 74, 99 CR2d 378.

© The Regents of the University of California

4. Rights Granted

§10.109 a. Nature of Conditions

The conditional use permit is subject to such conditions as are imposed by the city. However, the city may not condition the issuance of the permit on either (Govt C §65909):

- The dedication of land for any purpose not reasonably related to the use of the property for which the use permit is requested; or
- The posting of a bond to guarantee the installation of public improvements not reasonably related to the use of the property for which the use permit is requested.

For further discussion of limitations on requiring dedication of land and monetary exactions, see §§10.217-10.229.

© The Regents of the University of California

§10.110 b. Runs With Land

Use permits run with the land, and the city cannot condition a use permit on its non-transferability. *County of Imperial v McDougal* (1977) 19 C3d 505, 138 CR 472; *Anza Parking Corp. v City of Burlingame* (1987) 195 CA3d 855, 241 CR 175. The conditions, however, need not strictly relate to the use of land. In *Vo v City of Garden Grove* (2004) 115 CA4th 425, 9 CR3d 257, the court upheld use permit conditions that required that a certain number of adult employees and security guards be present on the business premises during certain hours.

© The Regents of the University of California

§10.111 5. Revocations/Terminations

A conditional use permit (CUP) cannot be revoked or terminated without notice and a hearing, notwithstanding a condition that purports to allow automatic termination of the permit. *Community Dev. Comm'n v City of Fort Bragg* (1988) 204 CA3d 1124, 251 CR 709. See also *Goat Hill Tavern v City of Costa Mesa* (1992) 6 CA4th 1519, 8 CR2d 385 (refusal to renew CUP subjected to independent judgment test). Additional or modified conditions may be placed on a CUP if the grounds justifying the new or modified conditions would justify revocation. *Garvatti v Fairfax Planning Comm'n* (1971) 22 CA3d 145, 99 CR 260. The finding that the continued use of an activity under a CUP constitutes a nuisance is required to revoke the permit. See *O'Hagen v Board of Zoning Adjustment* (1971) 19 CA3d 151, 96 CR 484. But see *Board of Police Comm'rs v Superior Court* (1985) 168 CA3d 420, 214 CR 493 (suggesting that revocation of use permit involving First Amendment activity would be subject to strict scrutiny standard). The denial, revocation, or suspension of a permit that involves expressive conduct is subject to an expedited judicial review. CCP §1094.8.

© The Regents of the University of California

§10.112 6. Other Remedies for Noncompliance

Multiple violations of conditional use permit (CUP) conditions may subject the violator to liability for "unfair business practices" under Bus & P C §17200. See *Hewlett v Squaw Valley Ski Corp.* (1997) 54 CA4th 499, 63 CR2d 118. But see *United Farm Workers v Dutra Farms* (2000) 83 CA4th 1146, 100 CR2d 251 (explaining that unfair business practice does not need to encompass more than single act under amended Bus & P C §17200).

© The Regents of the University of California

E. Variances

§10.113 1. Purpose

A variance is issued to allow a property owner to deviate from development standards otherwise applicable to the property. A variance is issued when the owner would otherwise suffer unique hardship under the general zoning regulations because its particular parcel is different from other parcels to which the regulations apply. However, the difference from the parcels need not be a physical difference. *Craik v County of Santa Cruz (Odenweller)* (2000) 81 CA4th 880, 96 CR2d 538. Use variances (variances to permit uses not otherwise permitted in a zone) are prohibited. Govt C §65906.

© The Regents of the University of California

2. Procedures

§10.114 a. Standards

Variances may be granted only when the strict application of the zoning ordinance would deprive a property owner of privileges enjoyed by other property owners in the vicinity under the same zoning classification because of special circumstances applicable to the property including size, shape, topography, location, or surroundings. Govt C §65906.

© The Regents of the University of California

§10.115 b. Local Ordinances

Except for charter cities, the criteria in Govt C §65906 prevail over any inconsistent local provisions. A variance can be sustained only if all applicable requirements are met. *Topanga Ass'n for a Scenic Community v County of Los Angeles* (1974) 11 C3d 506, 113 CR 836.

© The Regents of the University of California

§10.116 c. Parking Variances

Under statutorily prescribed circumstances, the parking requirements of a local zoning ordinance may be relaxed by variance to allow some parking spaces to be located off-site or to allow payment of in lieu fees or facilities. Govt C §65906.5.

© The Regents of the University of California

§10.117 d. Findings

A decision to grant or deny a variance is a quasi-judicial act. Accordingly, such decisions must be accompanied by findings (supported by substantial evidence in the record) that are sufficiently detailed to "bridge the analytical gap" between raw evidence and the ultimate decision. *Topanga Ass'n for a Scenic Community v County of Los Angeles* (1974) 11 C3d 506, 113 CR 836; *Craik v County of Santa Cruz (Odenweller)* (2000) 81 CA4th 880, 96 CR2d 538.

© The Regents of the University of California

§10.118 3. Notice and Hearing Requirements

Generally, a noticed public hearing must be held on any application for a variance from the requirements of a local zoning ordinance. Govt C §65905. State law prescribes the acceptable methods of providing notice for a hearing on a variance application. Govt C §§65091, 65905(b).

© The Regents of the University of California

4. Rights Granted

§10.119 a. Runs With Land

A variance from the zoning ordinance, like a conditional use permit (CUP), runs with the land. *County of Imperial v McDougal* (1977) 19 C3d 505, 138 CR 472.

© The Regents of the University of California

§10.120 b. No Special Privileges

A variance cannot constitute a grant of special privileges inconsistent with the limitations on other properties in the vicinity and zone. Govt C §65906; *Orinda Ass'n v Board of Supervisors* (1986) 182 CA3d 1145, 227 CR 688.

© The Regents of the University of California

§10.121 F. Nonconforming Uses and Structures

Generally, a zoning ordinance may not constitutionally operate to compel immediate discontinuance of an otherwise lawfully established use or business, unless that use or business constitutes a public nuisance. *City of Bakersfield v Miller* (1966) 64 C2d 93, 48 CR 889, cert denied (1966) 384 US 988; *Livingston Rock & Gravel Co. v County of Los Angeles* (1954) 43 C2d 121, 272 P2d 4. A legal nonconforming use is one that was valid when brought into existence, but became nonconforming by subsequent regulation. *City of Los Angeles v Gage* (1954) 127 CA2d 442, 453, 274 P2d 34.

© The Regents of the University of California

§10.122 1. Elimination

A city may provide for a period of time to eliminate nonconforming uses, provided the owner is given a reasonable opportunity to recoup his or her investment. *National Adver. Co. v County of Monterey* (1970) 1 C3d 875, 880, 83 CR 577, cert denied (1970) 398 US 946.

© The Regents of the University of California

§10.123 2. Expansion

The expansion or enlargement of a nonconforming use is generally prohibited. *County of San Diego v McClurken* (1951) 37 C2d 683, 686, 234 P2d 972; *Manhattan Sepulveda, Ltd. v City of Manhattan Beach* (1994) 22 CA4th 865, 27 CR2d 565 (defining "value" for purposes of rebuilding nonconforming building).

© The Regents of the University of California

§10.124 G. Vested Rights

As a general rule, a developer must comply with the law in effect at the time a building permit is issued. *Hazon-Iny Dev., Inc. v City of Santa Monica* (1982) 128 CA3d 1, 179 CR 860. However, under certain circumstances, a property owner can obtain a vested right to use or develop the property in accordance with the regulations applicable at the time the right vests despite subsequent changes in the zoning or other regulations. Nonetheless, even vested rights may be impaired if the new regulations imposed are sufficiently necessary to the public welfare to justify the impairment. *Davidson v County of San Diego* (1996) 49 CA4th 639, 56 CR2d 617.

© The Regents of the University of California

§10.125 1. Common Law

A property owner who has obtained a building permit, completed substantial work, and incurred substantial liabilities in reliance on that permit obtains a vested right to finish the project within the scope of the permit notwithstanding changes in the applicable land use regulations. *Avco Community Developers, Inc. v South Coast Reg'l Comm'n* (1976) 17 C3d 785, 793, 132 CR 386, cert denied (1977) 429 US 1083. Soft costs incurred by a developer do not constitute "detrimental reliance" for purposes of determining whether a right to develop has vested. *Hermosa Beach Stop Oil Coalition v City of Hermosa Beach (Windward Assocs.)* (2001) 86 CA4th 534, 103 CR2d 447.

© The Regents of the University of California

§10.126 2. Vesting Tentative Maps

If the property owner obtains the approval of a vesting tentative map, the owner can proceed with development in substantial compliance with the ordinances, policies, and standards in place at the time the application for the map was complete. Govt C §66498.1(b); *Kaufman & Broad Cent. Valley, Inc. v City of Modesto* (1994) 25 CA4th 1577, 30 CR2d 904.

© The Regents of the University of California

§10.127 3. Development Agreements

The property owner may also enter into a development agreement with the local government, in which the property owner and local government agree to "freeze" applicable rules, regulations, and policies (including zoning) that are in place at the time of the execution of the agreement. Govt C §65866; *Santa Margarita Area Residents Together v San Luis Obispo County Bd. of Supervisors* (2000) 84 CA4th 221, 100 CR2d 740 (upholding development agreement generally as valid exercise of police power). Development agreements cannot be used to establish land uses not authorized by the zoning ordinance applicable to the property. *Neighbors in Support of Appropriate Land Use v County of Tuolumne* (2007) 157 CA4th 997, 68 CR3d 882. The conditions of a vesting tentative map may state that in the event of a conflict, a development agreement will control. *Building Indus. Ass'n of Central Cal. v City of Patterson* (2009) 171 CA4th 886, 90 CR3d 63, cert denied (2009) ___ US ___, 175 L Ed 2d 480, 130 S Ct 660. See *Stephens v City of Vista* (9th Cir 1993) 994 F2d 650 (finding no problem in enforcing settlement agreement in which city agreed to certain land use density). See also *Native Sun/Lyon Communities v City of Escondido* (1993) 15 CA4th 892, 19 CR2d 344 (because development agreement is legislative act, no findings are required to deny).

The adoption or amendment of a development agreement may only be challenged in court within 90 days of the adoption or amendment. Govt C §65009(c)(1)(D). A developer does not acquire a vested right merely by entering into a lease with a city to develop city property. *Hermosa Beach Stop Oil Coalition v City of Hermosa Beach (Windward Assocs.)* (2001) 86 CA4th 534, 103 CR2d 447.

© The Regents of the University of California

§10.128 H. Conditional Zoning

A city or county can condition a zoning action by requiring a landowner to first enter into a contract agreeing to perform conditions not imposed on other landowners. This is sometimes known as "contract zoning." However, the city cannot provide that the land will automatically revert to its former zoning should the landowner fail to perform the condition. A change in zoning can only occur by formal act of the legislative body in accordance with statutory procedures, and may not be triggered by action (or inaction) of a private party. See *Scrutton v County of Sacramento* (1969) 275 CA2d 412, 79 CR 872. Similarly, a settlement agreement may not prohibit a city from amending the zoning ordinance in the future without a public hearing. *Trancas Prop. Owners Ass'n v City of Malibu* (2006) 138 CA4th 172, 41 CR3d 200.

© The Regents of the University of California

I. Special Issues

§10.129 1. Historic Preservation

Cities have the power to protect property of historical and aesthetic interest. *Penn Cent. Transp. Co. v City of New York* (1978) 438 US 104, 57 L Ed 2d 631, 98 S Ct 2646. These regulations may include appropriate and reasonable control of the appearance of neighboring private property within public view. Govt C §§25373, 37361. See also *Bohannan v City of San Diego* (1973) 30 CA3d 416, 106 CR 333.

© The Regents of the University of California

§10.130 2. View Protection

Without an easement, property owners have no inherent right to prevent other property owners from obstructing their view. *Mira Mar Mobile Community v City of Oceanside* (2004) 119 CA4th 477, 14 CR3d 308. View protection ordinances, however, are legitimate exercises of the local government police power. *Guinnane v San Francisco City Planning Comm'n* (1989) 209 CA3d 732, 257 CR 742, cert denied (1989) 493 US 936; *Ross v City of Rolling Hills Estates* (1987) 192 CA3d 370, 238 CR 561. View protection ordinances may accomplish their means by prohibiting residents from maintaining trees above a certain height. *Echevarrieta v City of Rancho Palos Verdes* (2001) 86 CA4th 472, 103 CR2d 165, cert denied (2001) 534 US 950.

© The Regents of the University of California

3. Adult Entertainment

§10.131 a. Method of Regulating

The primary method of zoning control of adult entertainment businesses is by controlling their location, either by spacing regulations or by confining them to a specific limited area. *Young v American Mini Theatres, Inc.* (1976) 427 US 50, 49 L Ed 2d 310, 96 S Ct 2440; *City of Nat'l City v Wiener* (1992) 3 C4th 832, 12 CR2d 701, cert denied (1993) 510 US 824. See also *City of Los Angeles v Alameda Books, Inc.* (2002) 535 US 425, 152 L Ed 2d 670, 122 S Ct 1728 (upholding ordinance prohibiting concentration of more than one adult business in single structure). Although cities may apply more restrictive variance standards to the secondary (such as nuisance) effects of adult businesses than non-adult businesses (*Isbell v City of San Diego* (9th Cir 2001) 258 F3d 1108), any such zoning regulation may not have the effect of totally banning adult-oriented businesses within the jurisdiction (*Topanga Press, Inc. v City of Los Angeles* (9th Cir 1993) 989 F2d 1524, cert denied (1994) 511 US 1030).

For further discussion of regulating adult businesses, see §§9.6-9.16. On First Amendment limitations on municipal authority, see §§1.58-1.64.

© The Regents of the University of California

§10.132 b. Regular and Substantial Course of Conduct

A single showing of an X-rated movie does not justify prosecution under an adult theater zoning ordinance. The zoning authority may limit the location of theaters that show, on a regular basis, films characterized by an emphasis on "specified sexual activities" or "specified anatomical areas." This is known as the "regular and substantial course of conduct" standard. *People v Superior Court (Lucero)* (1989) 49 C3d 14, 259 CR 740.

© The Regents of the University of California

4. Exercise of Religion

§10.133 a. Churches, Temples, and Other Houses of Worship

The First Amendment protects the free exercise of religion. US Const amend I. However, a city may exclude churches from residential districts, particularly when alternative sites are provided. *Minney v City of Azusa* (1958) 164 CA2d 12, 39, 330 P2d 255; *Corporation of the Presiding Bishop of Church of Jesus Christ of Latter-Day Saints v City of Porterville* (1949) 90 CA2d 656, 661, 203 P2d 823. A city may also enforce an ordinance governing historic preservation on churches and other houses of worship. *City of Boerne v Flores* (1997) 521 US 507, 138 L Ed 2d 624, 117 S Ct 2157. But see *East Bay Asian Local Dev. Corp. v State* (2000) 24 C4th 693, 102 CR2d 280, cert denied (2001) 532 US 1008 (religious organizations may exempt themselves from historic landmark preservation laws relating to noncommercial property).

On First Amendment limitations of municipal authority relating to religion, see §§1.60-1.64.

© The Regents of the University of California

§10.134 b. RLUIPA

In response to *City of Boerne v Flores* (1997) 521 US 507, 138 L Ed 2d 624, 117 S Ct 2157, which overturned the Religious Freedom Restoration Act of 1993 (42 USC §2000bb), Congress enacted the Religious Land Use and Institutionalized Persons Act of 2000 (RLUIPA) (42 USC §§2000cc—2000cc-5). RLUIPA prohibits land use regulations that impose a substantial burden on an exercise of religion unless the government shows that it used the least restrictive means of furthering a compelling government interest. A land use regulation imposes a substantial burden if it is burdensome or oppressive to a significantly great extent.

Under RLUIPA, government agencies may not impose a land use regulation in a manner that imposes a significant restriction or burden on any exercise of religion unless the government can demonstrate that the burden is (*San Jose Christian College v Morgan Hill* (9th Cir 2004) 360 F3d 1024)

- in furtherance of a compelling government interest, and
- the least restrictive means of furthering that compelling government interest.

In *Guru Nanak Sikh Soc'y v Sutter County* (9th Cir 2006) 456 F3d 978, the Ninth Circuit held that a county violated RLUIPA because it denied two successive applications for a conditional use permit (CUP) for a temple, when:

- The county's broad reasons for its two denials (noise and traffic) could easily apply to all future applications by the temple; and
- The temple agreed to the mitigation measures imposed by the county's planning department, but the county found this insufficient without explanation.

© The Regents of the University of California

§10.135 5. Hazardous Materials and Waste Management

Although toxic waste disposal and treatment are governed to a certain extent by state law, local regulation is not preempted as long as it does not altogether prohibit or unreasonably regulate toxic waste facilities. *Casmalia Resources, Ltd. v County of Santa Barbara* (1987) 195 CA3d 827, 240 CR 903.

For further discussion of hazardous waste, see §§11.237-11.255.

© The Regents of the University of California

§10.136 6. Schools and Community Colleges

California community colleges must comply with all applicable city and county zoning, building, and health regulations. Ed C §81951. School districts may exempt themselves from city or county zoning ordinances provided that certain criteria are met. See Govt C §53094; *City of Santa Cruz v Santa Cruz City Sch. Bd. of Educ.*(1989) 210 CA3d 1, 258 CR 101.

© The Regents of the University of California

§10.137 7. Flood Plains

As a proper exercise of their police power, cities may protect people and property from flooding by flood plain zoning restrictions. *Helix Land Co. v City of San Diego* (1978) 82 CA3d 932, 945, 147 CR 683; *Zisk v City of Roseville* (1976) 56 CA3d 41, 49, 127 CR 896; *Turner v County of Del Norte* (1972) 24 CA3d 311, 315, 101 CR 93.

The establishment of flood plain regulations within floodways is governed by the Cobey-Alquist Flood Plain Management Act (Wat C §§8400-8415).

© The Regents of the University of California

§10.138 8. Alcohol Sales

The Department of Alcoholic Beverage Control may not issue an alcoholic beverage retail license for any business located in a zone where the exercise of the rights conferred by that license would be contrary to a valid local zoning ordinance. Bus & P C §23790; *City of Oakland v Superior Court* (1996) 45 CA4th 740, 53 CR2d 120. A business predating the enactment of a zoning ordinance may continue in operation provided that certain conditions are met. *Boccato v City of Hermosa Beach* (1994) 29 CA4th 1797, 35 CR2d 282.

A city is not preempted from adopting an ordinance directed at the abatement of potential nuisance activity around businesses that sell alcoholic beverages, even though such regulations may prohibit the sale of alcohol at particular locations. *Korean Am. Legal Advocacy Found. v City of Los Angeles* (1994) 23 CA4th 376, 28 CR2d 530. The right to control and abate nuisance and criminal activities by ordinance applies to all alcoholic beverage establishments, including those in operation before an ordinance's effective date. *City of Oakland v Superior Court, supra*.

© The Regents of the University of California

§10.139 9. Telecommunications Act of 1996

The Telecommunications Act of 1996 (47 USC §§151-615b) changes the delivery of telecommunication services by allowing for competition among once exclusive providers of telephone, cable, broadcast, and print services. Providers now have a statutory duty to develop competition within their markets by installing network facilities for interconnection among other providers. 47 USC §§251, 259. The Act also includes provisions concerning cable programming service reforms, and regulations concerning direct satellite services. 47 USC §§303(y), 543.

Cities are preempted from enacting barriers to the development of interstate and intrastate telecommunications services. 47 USC §§253(a), 257. A provider must show "actual or effective prohibition, rather than the mere possibility of prohibition" to prevail on a claim under 47 USC §253(a). See *Sprint Telephony PCS, L.P. v County of San Diego* (9th Cir 2008) 543 F3d 571, 577, cert denied (2009) ___ US ___, 174 L Ed 2d 576, 129 S Ct 2860.

Despite this limitation, cities and local agencies retain control over right-of-way management. 47 USC §253(c). "Right-of-way management" is narrowly construed, and means control over the right-of-way itself, not control over companies with facilities in the right-of-way. *City of Auburn v Qwest Corp.* (9th Cir 2001) 260 F3d 1160, cert denied (2002) 534 US 1079, overruled on other grounds in *Sprint Telephony PCS, L.P. v County of San Diego* (9th Cir 2008) 543 F3d 571. In addition, cities and local agencies retain authority to regulate the placement, construction, and modification of wireless telecommunications facilities, subject to specified limitations. 47 USC §332(c)(7). In *Sprint PCS Assets, L.L.C. v City of Palos Verdes Estates* (9th Cir 2009) 583 F3d 716, the court held that a city can deny a cell tower permit for "adverse aesthetic impacts" under the Telecommunications Act as long as the city (1) makes this finding on the basis of "substantial evidence" in the administrative record, and (2) establishes that the denial will not constitute a prohibition on the provision of wireless services.

PRACTICE TIP: On November 18, 2009, the Federal Communications Commission (FCC) issued its decision entitled "In the Matter of Petition for Declaratory Ruling to Clarify Provisions of Section 332(c)(7)(B) to Ensure Timely Siting Review and to Preempt Under Section 253 State and Local Ordinances that Classify All Wireless Siting Proposals as Requiring a Variance" (FCC 09-99, WT Docket No. 08-165) 24 FCC Rcd 13994, 2009 FCC Lexis 5977. The FCC held that a "reasonable period of time" for a state or local government to act on a personal wireless service facility siting application is presumptively 90 days for collocation applications and presumptively 150 days for siting applications other than collocations, and that the lack of a decision within these timeframes constitutes a "failure to act" based on which a service provider may commence an action in court under 47 USC §332(c)(7)(B)(v). The FCC also found that when a state or local government denies a personal wireless service facility siting application solely because that service is available from another provider, such a denial violates §332(c)(7)(B)(i)(II).

However, on January 14, 2010, a Petition for Review was filed on behalf of the City of Arlington, Texas, delaying the implementation of this declaratory ruling. See FCC order denying stay request (Release-Number: DA 10-212, 2010 FCC Lexis 619).

Although no court has determined whether the relevant provisions in 47 USC §253 or 47 USC §332 are ambiguous, the FCC generally has rulemaking authority to interpret ambiguous provisions of the Telecommunications Act. 47 USC §201(b); *Alliance for Community Media v FCC* (6th Cir 2008) 529 F3d 763, cert denied (2009) ___ US ___, 174 L Ed 2d 290, 129 S Ct 2821 (approving of FCC interpretation of ambiguous cable franchising provisions in Telecommunications Act).

For further discussion of telecommunications, see §§6.89-6.91.

© The Regents of the University of California

10. Agricultural Preservation (Williamson Act)

§10.140 a. Agricultural Preserves

Under the Williamson Act (Govt C §§51200-51297.4), any city or county may by resolution establish one or more agricultural preserves. Agricultural preserves must be at least 100 acres in area unless the city or county finds that smaller preserves are necessary due to unique characteristics of agricultural enterprises within the jurisdiction. Govt C §51230; *Kelsey v Cowell* (1973) 30 CA3d 590, 106 CR 420.

Agricultural preserves continue in effect after annexation, detachment, incorporation, or disincorporation. Govt C §51235.

The city or county must establish rules governing the administration of agricultural preserves, and may enumerate those land uses that are compatible and permitted on contracted lands and those that are compatible and permitted on noncontracted lands. Govt C §51231.

PRACTICE TIP: Williamson Act subvention payments to local governments were suspended for fiscal year 2009-2010 due to the ongoing state budget crisis. This means that counties administering Williamson Act contracts are no longer receiving money from the state to make up for the loss in revenue caused by land being subjected to Williamson Act contracts. Although subvention payments have been customary for many years, they have never been guaranteed. The Williamson Act contracts between landowners and local governments remain in force, however, regardless of the availability of subvention payments. See www.conservation.ca.gov/dlrp/lca/Pages/Index.aspx.

© The Regents of the University of California

§10.141 b. Contracts

Cities and counties may by contract limit the use of agricultural lands within agricultural preserves (in exchange for a reduction in property tax assessments) to those uses enumerated under the rules adopted pursuant to Govt C §51231. Govt C §§51240, 51242.

Williamson Act contracts are binding on all successors in interest including annexing jurisdictions. However, for land that was within one mile of a city boundary at the time of a contract's execution before January 1, 1991, the local agency formation commission (LAFCO) determines whether the city may exercise its option to not succeed to the rights, duties, and powers of the county under the contract. Govt C §51243.5.

Contracts must have an initial term of 10 years and be renewed automatically for an additional year on each annual anniversary date of the contract, unless notice of nonrenewal is given. Govt C §51244.

© The Regents of the University of California

§10.142 c. Nonrenewal

Either the landowner or the city or county may serve a written notice of nonrenewal of the contract on the other party. Such notice must be served by the landowner at least 90 days before the anniversary date of the contract and by the city or county at least 60 days before the anniversary date of the contract. Govt C §51245. On a notice of nonrenewal, the contract remains in effect for the remainder of its term. Govt C §51246.

© The Regents of the University of California

§10.143 d. Cancellation

A landowner may request cancellation of a Williamson Act contract. Govt C §51281. A city or county may grant cancellation if it makes a number of findings specified in the Williamson Act. See Govt C §51282. However, it is not necessary to make the findings that (*Friends of E. Willits Valley v County of Mendocino* (2002) 101 CA4th 191, 123 CR2d 708):

- An emergency existed;
- The property was contiguous to existing development;
- The property would not result in the removal of adjacent properties from agricultural use; or
- The cancellation is consistent with the general plan.

Cancellation findings must be based on substantial evidence within the whole record. Cancellation based on the "public interest" finding must demonstrate that the open space objectives protected by the act are substantially outweighed by other public concerns. *Sierra Club v City of Hayward* (1981) 28 C3d 840, 857, 171 CR 619.

The city or county assesses a fee for the cancellation (unless the council or board determines that it is in the public interest to defer or waive all or part of the fee) equal to 12.5 percent of the cancellation value of the land. Govt C §51283.

Cancellations must be made pursuant to public notice and hearing. Govt C §51284.

© The Regents of the University of California

§10.144 e. Public Improvements

Public improvements other than those listed in Govt C §51293 may not be located within an agricultural preserve unless the following findings are made (Govt C §§51292-51293):

- The location of the improvement is not based primarily on a consideration of the lower cost of acquiring land within an agricultural preserve; and
- If the land is subject to a Williamson Act contract, there is no other land within or outside the preserve on which it is feasible to locate the public improvement.

© The Regents of the University of California

§10.145 11. Signs

Local sign regulations must be consistent with the constitutionally protected First Amendment right to free speech. Although cities have more leeway to regulate commercial speech than noncommercial speech, commercial speech may not be favored over noncommercial speech. *Desert Outdoor Adver., Inc. v City of Moreno Valley* (9th Cir 1996) 103 F3d 814, cert denied (1997) 522 US 912. Consideration must also be given to the type of public forum at issue when analyzing sign regulations.

For further discussion of First Amendment limitations on municipal authority, see §§1.58-1.64.

© The Regents of the University of California

§10.146 12. "Big Box" Stores

Regulation of economic competition is not an improper limitation on competition even when the regulation can reasonably be viewed as a direct and intended effect of zoning ordinance or action, as long as (*Hernandez v City of Hanford* (2007) 41 C4th 279, 296, 59 CR3d 442):

- The primary purpose of the ordinance or action is not an impermissible private anticompetitive goal of protecting or disadvantaging a particular favored or disfavored business or individual; and
- The regulation is an advancement of a legitimate public purpose, reasonably relates to the general welfare of the municipality, and constitutes a legitimate exercise of the municipality's police power.

Hernandez disapproves *Wal-Mart Stores, Inc. v City of Turlock* (2006) 138 CA4th 273, 41 CR3d 420, which upheld a "big box" ordinance, to the extent that any language in *Wal-Mart* may be interpreted as inconsistent with *Hernandez*. *Hernandez,* 41 C4th at 297.

© The Regents of the University of California

§10.147 J. Site/Design Review

A city may impose a review process to determine whether the site and/or design plan is consistent with applicable general and specific plans. See *Selby Realty Co. v City of San Buenaventura* (1973) 10 C3d 110, 109 CR 799; *Novi v City of Pacifica* (1985) 169 CA3d 678, 215 CR 439; *Wesley Inv. Co. v County of Alameda* (1984) 151 CA3d 672, 198 CR 872. Depending on the language of the design review ordinance, cities might not have the authority to approve leases to particular retail tenants under the guise of design review, nor does the act of a property owner of entering into a lease trigger CEQA review under a design review ordinance. *Friends of Davis v City of Davis* (2000) 83 CA4th 1004, 100 CR2d 413.

© The Regents of the University of California

IV. SUBDIVISIONS

A. Basic Requirements

§10.148 1. Map Approval

A subdivision is any division of land for the purpose of sale, lease, or financing. Subdivisions are governed by the Subdivision Map Act (Govt C §§66410-66499.37). Generally, a subdivision requires a tentative map approved by the city and a final map (based on the qualified survey of the land) filed with the county recorder. The city regulates and controls the design and improvement of the subdivision. Govt C §66411.

On the Subdivision Map Act, see Longtin's California Land Use (2d ed 1987) (distributed by Local Government Publications, P.O. Box 2596, Walnut Creek, California 94595); Curtin, Subdivision Map Act Manual (published annually by Solano Press, P.O Box 773, Point Arena, California 95468); California Subdivision Map Act and the Development Process (2d ed Cal CEB 2001).

© The Regents of the University of California

§10.149 2. Tentative, Final, and Parcel Maps

The Subdivision Map Act distinguishes between a subdivision consisting of five or more parcels, which requires a tentative and final map, and a subdivision consisting of only four or fewer parcels, which merely requires a parcel map. See Govt C §66426.

© The Regents of the University of California

§10.150 3. Vesting Tentative Maps

The tentative map may be a vesting tentative map, which if granted will confer a vested right to proceed with the development in accordance with the ordinances, policies, and standards in effect at the time the application for approval of the vesting tentative map is complete. Govt C §66498.1. See *Kaufman & Broad Cent. Valley, Inc. v City of Modesto* (1994) 25 CA4th 1577, 30 CR2d 904. But see *Building Indus. Ass'n of Central Cal. v City of Patterson* (2009) 171 CA4th 886, 90 CR3d 63, cert denied (2009) ___ US ___, 175 L Ed 2d 480, 130 S Ct 660 (conditions of vesting tentative map may state that in event of conflict between vesting tentative map and development agreement, development agreement will control); *Charles A. Pratt Constr. Co. v California Coastal Comm'n* (2008) 162 CA4th 1068, 1072, 76 CR3d 466, cert denied (2009) ___ US ___, 173 L Ed 2d 585, 129 S Ct 1317 (when Commission applies state law and policies to determine permit compliance with local coastal plan (LCP), vesting provisions of Govt C §66498.1 do not apply).

© The Regents of the University of California

§10.151 4. Lot Line Adjustments

The Subdivision Map Act requirements do not apply to lot line adjustments. A lot line adjustment is the adjustment of a lot line between four or fewer adjoining parcels and approval of a lot line adjustment is contingent on conformity with the local general plan, any applicable coastal plan, and building and zoning ordinances. Govt C §66412(d). The local agency must approve or disapprove a lot line adjustment under the Permit Streamlining Act (PSA) (Govt C §§65920-65964). Govt C §66412(d). In addition to the owners, all persons with interests in the parcels subject to the lot line adjustments must be notified of the proceedings. *Horn v County of Ventura* (1979) 24 C3d 605, 156 CR 718.

© The Regents of the University of California

B. Local Ordinances

§10.152 1. Local Flexibility

The Subdivision Map Act (Govt C §§66410-66499.37) allows a city flexibility in enacting local subdivision ordinances. But see *Morehart v County of Santa Barbara* (1994) 7 C4th 725, 29 CR2d 804 (merger provisions of local zoning ordinance impliedly preempted by Subdivision Map Act).

© The Regents of the University of California

§10.153 2. Map Approval

Subdivision maps may be approved by a planning commission, departmental officer, committee of city officials, or the city council. The city determines who will be the advisory agency for purposes of the Subdivision Map Act. Govt C §66415.

© The Regents of the University of California

§10.154 3. Findings for Map Denial

Inasmuch as cities are required to ministerially approve a final map that is in substantial compliance with the tentative map, once a tentative map is approved, no further findings are required at the final map approval phase. *Anthony v Snyder (Barratt Am.)* (2004) 116 CA4th 643, 10 CR3d 505. But the disapproval of a final map must be accompanied by a specific finding. Govt C §66473; *Hill v City of Clovis* (2000) 80 CA4th 438, 94 CR2d 901. An advisory body must deny tentative map approval if it makes any of the following findings:

- The map is not consistent with applicable general and specific plans as specified in Govt C §65451 (Govt C §66474(a));
- The design or improvement of the proposed subdivision is not consistent with applicable general and specific plans (Govt C §66474(b));
- The site is not physically suitable for the proposed type of development (Govt C §66474(c));
- The site is not physically suitable for the proposed density of development (Govt C §66474(d));
- The design of the subdivision or the proposed improvements are likely to cause substantial environmental damage or substantially and avoidably injure fish or wildlife or their habitat (Govt C §66474(e));
- The design of the subdivision or type of improvement is likely to cause serious public health problems (Govt C §66474(f));
- The design of the subdivision or the type of improvements will conflict with easements, acquired by the public at large, for access through or use of property within the proposed subdivision (Govt C §66474(g));
- The design of the subdivision does not provide for, to the extent feasible, future passive or natural heating and cooling opportunities (Govt C §66473.1); or
- The subdivision is within the Sacramento-San Joaquin Valley and is located within a flood hazard zone, under specified circumstances (Govt C §66474.5).

© The Regents of the University of California

§10.155 4. Automatic Approval

In instances in which the city fails to take action on a tentative map within the time limits specified in the Subdivision Map Act, the map is deemed to be approved, insofar as it complies with other Subdivision Map Act requirements and local ordinance. Govt C §66452.4. The Permit Streamlining Act (PSA) (Govt C §§65920-65964) has a similar "automatic approval" provision. Govt C §65956. See §§10.10-10.15. However, there can be no automatic approval of a map under the Subdivision Map Act until the city has noticed and conducted a public hearing. *Horn v County of Ventura* (1979) 24 C3d 605, 156 CR 718; Govt C §65956. If the notice is not timely given, the applicant may seek a writ to compel the notice or give the notice himself or herself. Govt C §65956.

© The Regents of the University of California

§10.156 5. Map Approval Conditions

The police power of a city permits the imposition of reasonable conditions on map approval. These proposed conditions must reflect the burden imposed by the proposed development. See Cal Const art XI, §7; *California Bldg. Indus. Ass'n v Governing Bd.* (1988) 206 CA3d 212, 253 CR 497. In addition, for proposed residential subdivisions of more than 500 units, a city must impose a condition requiring that a sufficient water supply be available to serve the proposed subdivision. Govt C §66473.7.

A city generally loses the authority to impose conditions on a subdivision after the tentative map is approved. Govt C §§66473, 66474.2; *Anthony v Snyder (Barratt Am.)* (2004) 116 CA4th 643, 10 CR3d 505; *Van't Rood v Santa Clara County* (2003) 113 CA4th 549, 6 CR3d 746.

© The Regents of the University of California

§10.157 6. Imposition of Fees and Dedications

Certain requirements may be imposed on subdivisions by local ordinance, such as:

- Parkland dedication or fees (Govt C §66477);
- School fees and dedications (Govt C §§66478, 53080, 65995);
- Reservations for public purposes (Govt C §§66479-66482); and
- Street dedications (Govt C §66475).

Further, a local ordinance may require fees and/or dedications for a wide variety of other conditions including, for example, bicycle paths, bridges, and groundwater recharge. See generally Govt C §§66475-66489. If a tentative map condition requires a developer to build off-site improvements, the developer's obligation to build the improvements is waived if the city refused to approve the developer's final map for the reason that the developer was unable to complete the improvements due to the city's failure to timely acquire the off-site property. Govt C §66462.5; *Hill v City of Clovis* (2000) 80 CA4th 438, 94 CR2d 901.

For related discussion, see §§10.211-10.230.

© The Regents of the University of California

§10.158 7. Limit on Conditions to Map Approval

A developer may not be required to fulfill more stringent standards and criteria for public improvement pursuant to the Subdivision Map Act than those standards and criteria being applied by the city at that time to its publicly financed improvements located in similarly zoned districts. Govt C §65913.2. Approval of a final map is a ministerial action. *Youngblood v Board of Supervisors* (1978) 22 C3d 644, 150 CR 242.

© The Regents of the University of California

§10.159 8. Time Extensions for Tentative Maps

Generally, a tentative map approval expires after 24 months or after any additional time as prescribed by ordinance (not to exceed an additional 12 months). Govt C §66452.6(a). However, other time periods may apply if the city requires certain improvements. See Govt C §66452.6(a). The period of time may be tolled under certain circumstances. Govt C §66452.6(b)-(c). The developer may apply for an extension of up to 6 years. Govt C §66463.5(c). The 6-year maximum life of a tentative map does not include the period during which a moratorium is in existence. This rule limits only the duration of the tolling period, not the moratorium itself. *Ailanto Props., Inc. v City of Half Moon Bay* (2006) 142 CA4th 572, 48 CR3d 340.

Other sections of the Government Code provide for additional extensions of time. See, *e.g.,* Govt C §66452.22 (if a map has not expired as of July 15, 2009, but will expire before January 1, 2012, the law extends the life of the map by 24 months, in addition to extensions authorized by Govt C §§66452.11, 66452.13, 66452.21, and 66463.5). See also *McPherson v City of Manhattan Beach* (2000) 78 CA4th 1252, 93 CR2d 725 (time for filing final map may be extended based on delay or inaction of local agency).

PRACTICE TIP: The legislature has frequently provided for tentative map extensions, so care should be taken to review pending and recently enacted legislation concerning map extensions.

PRACTICE TIP: When taken together, the tolling and extension provisions can substantially increase the life of a tentative map beyond the initial expiration period. See *California Country Club Homes Ass'n v City of Los Angeles* (1993) 18 CA4th 1425, 22 CR2d 917 (at time of the decision, the Subdivision Map Act authorized a maximum of 13 years based on mandatory extensions for phased final maps and up to 3 years of discretionary extensions). Note that development agreements may authorize additional extensions of time. Govt C §66452.6(a).

© The Regents of the University of California

§10.160 9. Antiquated Subdivisions

A few "grandfather" clauses create exceptions to the Subdivision Map Act for parcels that predate the Act. See Govt C §§66412.6-66412.7, 66451.10, 66499.30(d); CC §1093. Some property owners have asserted that legal parcels were created under these grandfather exceptions. See *Gardner v County of Sonoma* (2003) 29 C4th 990, 129 CR2d 869 (approving county's refusal to extend Govt C §66499.30(d) to cover subdivision map recorded in 1865); *Witt Home Ranch, Inc. v County of Sonoma* (2008) 165 CA4th 543, 81 CR3d 123 (holding that Subdivision Map Act's grandfather provisions do not validate subdivision maps approved under statute in effect through 1915).

© The Regents of the University of California

V. HOUSING

§10.161 A. Non-Discrimination

A city may not prohibit or discriminate against a residential development or emergency shelter for any of the following reasons (Govt C §65008):

- Because of the development's proposed method of financing; or
- Because of the race, sex, color, religion, national origin, ancestry, lawful occupation, marital status, sexual orientation, familial status, disability, source of income, or age of the intended occupants; or
- Because the intended occupants are low-, moderate- or middle-income.

See also *Gibson by Gibson v County of Riverside* (9th Cir 1997) 132 F3d 1311, 1313; 42 USC §§3601-3631.

In addition, if a proposed multifamily residential housing development is consistent with the zoning ordinance and general plan on the date the application is deemed complete, the city may not deny the application based on the fact that the project is a multifamily housing development. Govt C §65008(b)(1)(D). However, an application for senior citizen housing may be approved. Govt C §65008(a)(1)(B). Cities may also give preferential treatment to emergency shelters, publicly assisted housing, farmworker housing, and housing intended for low-, moderate-, and middle-income households. Govt C §65008(e)(2).

On housing, see also §§10.26-10.53, 10.204-10.207.

© The Regents of the University of California

§10.162 B. Affordable Housing

State law mandates provision of housing affordable to all economic segments, particularly households of low- and moderate-income. See Stats 1979, ch 1207, §§1-6; Govt C §§65008, 65580, 65913, 65915. See also *Committee for Responsible Planning v City of Indian Wells* (1989) 209 CA3d 1005, 1013, 257 CR 635. In addition, the California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177) provides a statutory exemption for affordable housing projects. See Pub Res C §§21159.22-21159.24 and CEQA Guidelines at 14 Cal Code Regs §§15191-15196.

© The Regents of the University of California

§10.163 1. Findings Required to Reject Projects

A city has limited discretion to reject affordable housing projects, including emergency shelters, transitional and supportive housing, and mixed-use developments consisting of both residential and neighborhood commercial uses. Before rejecting an affordable housing development application, or imposing conditions that render a development infeasible, the city must make one or more of the following specific findings in writing based on substantial evidence (Govt C §65589.5):

- The city has adopted a housing element in substantial compliance with state law and the proposed project is not needed to meet the city's share of the regional housing need for very low, low-, or moderate-income housing, or for emergency shelters.
- The proposed project would have a specific, adverse impact on the public health or safety and there is no feasible method to satisfactorily mitigate or avoid the adverse impact without rendering the project unaffordable to low-and moderate-income households.
- The denial of the proposed project or the imposition of conditions is required to comply with specific state or federal law and there is no feasible method to comply without rendering the development unaffordable to low- and moderate-income households.
- The project is being proposed on land zoned for agriculture or resource preservation that is surrounded on at least two sides by land being used for agricultural or resource preservation purposes, or the proposed site does not have adequate water or wastewater facilities to service the project.
- The project is inconsistent with both the zoning ordinance and general plan land use designation as of the date the application was deemed complete, and the jurisdiction has adopted a housing element in substantial compliance with state law that contains adequate sites for lower income housing and emergency shelters. If, however, the proposed development is to be located on a site designated for low- or moderate-income housing in the housing element, and is consistent with the density in the housing element, then the city cannot rely on the project's inconsistency with the zoning ordinance or general plan as grounds for denial of the project. See Health & S C §§50079.5 (definition of "lower income" household), 50093 (definition of "moderate income" household); Govt C §65582 (definitions of emergency shelter, supportive housing, transitional housing).

© The Regents of the University of California

§10.164 2. Election Required for Certain Housing

Certain low-income housing projects require voter approval. See Cal Const art XXXIV. This article has been implemented by statute. See Health & S C §§37000-37002; *California Hous. Fin. Agency v Patitucci* (1978) 22 C3d 171, 148 CR 875. The statute includes certain exemptions to the voter-approval requirement. See Health & S C §§37001, 37001.5. The voter approval required by Cal Const art XXXIV may be general in nature and need not identify a specific housing project or locale. *Davis v City of Berkeley* (1990) 51 C3d 227, 272 CR 139.

© The Regents of the University of California

§10.165 3. Restrictions on "Downzoning" of Residential Property

A city may not reduce the allowable general plan or zoning density of any residentially designated parcel or approve a project with a density below the density that was utilized by the Department of Housing and Community Development (HCD) when determining whether the city's housing element complied with state law unless the city makes both of the following findings, supported by substantial evidence (Govt C §65863(b)):

- The proposed reduction in density is consistent with the general plan, including the housing element; and
- The remaining sites identified in the housing element are adequate to accommodate the jurisdiction's share of the regional housing need.

It is immaterial under the statute whether the reduction is initiated by the city or by a project applicant. Govt C §65863(b). However, if the remaining sites are inadequate, the city may identify other sites with equal or greater density so that there is no net loss in capacity. Govt C §65863(c). The city is solely responsible for identifying alternative sites unless the applicant proposes a density that results in the remaining sites not being adequate, in which case the city may require the applicant to comply. Govt C §65863(f).

© The Regents of the University of California

§10.166 4. Second Units

Cities must approve applications for second dwelling units ministerially, without discretionary review or a public hearing, if they meet certain minimum standards, notwithstanding any provisions in local ordinances to the contrary. Govt C §65852.2.

© The Regents of the University of California

§10.167 a. Remaining Discretion

Cities may still enact ordinances that (Govt C §65852.2(a)(1)):

- Designate areas within the jurisdiction where second units may be permitted, based on criteria including, but not limited to, the adequacy of water and sewer services and the impact of second units on traffic flow;
- Impose standards on second units that include, but are not limited to, parking, height, setback, lot coverage, architectural review, maximum size of a unit, and standards that prevent adverse impacts on any real property that is listed in the California Register of Historic Places; and
- Provide that second units do not exceed the allowable density for the lot on which the second unit is located, and that second units are a residential use that is consistent with the existing general plan and zoning designation for the lot.

Cities may also totally preclude second units from residentially zoned areas by making certain findings. Govt C §65852.2(c).

© The Regents of the University of California

§10.168 b. Unit Size Standards

A city may establish minimum and maximum unit size requirements for both attached and detached second units, but must permit at least an efficiency unit of 150 square feet in size to be constructed. Govt C §65852.2(d).

© The Regents of the University of California

§10.169 c. Parking Requirements

Parking requirements for second units must not exceed one parking space per unit or per bedroom, unless the city makes a finding that the additional parking requirements are directly related to the use of the second unit and are consistent with existing neighborhood standards applicable to existing dwellings. In addition, off-street parking must be permitted in setback areas in locations determined by the local agency or through tandem parking, unless specific findings are made that parking in setback areas or tandem parking is not feasible based on specific site or regional topographical or fire and life safety conditions, or that it is not permitted anywhere else in the city. Govt C §65852.2(e).

© The Regents of the University of California

§10.170 d. Less Restrictive Requirements Allowed

Cities are authorized to adopt less restrictive requirements for the creation of second units. Govt C §65852.2(g).

© The Regents of the University of California

§10.171 e. No Local Ordinance

If the city does not adopt an ordinance, second units must be approved ministerially if they conform with standards contained in state law. Govt C §65852.2(b).

© The Regents of the University of California

§10.172 5. Density Bonuses

The state density bonus statutes require a city to grant a density bonus and incentives or concessions to a developer who requests a density bonus and agrees to construct or donate land for affordable or senior housing. Govt C §65915. A city must adopt an ordinance that specifies the method of providing such developer incentives. Govt C §65915(a). See also *Building Indus. Ass'n v City of Oceanside* (1994) 27 CA4th 744, 769, 33 CR2d 137. The city must adopt a local ordinance to grant a density bonus above the state law requirement. Govt C §65915(n).

© The Regents of the University of California

§10.173 a. When Applicable

A city must grant a requested density bonus in any of the circumstances described in §§10.174-10.177. See Govt C §65915.

© The Regents of the University of California

§10.174 (1) Percentage of Units Reserved for Low-Income Housing

A city must provide a density bonus when a housing developer agrees to construct (Govt C §65915(b)):

- At least 10 percent of the total units for occupancy by "lower income" households (as defined by Health & S C §50079.5); or
- At least 5 percent of the total units for occupancy by "very low income" households (as defined by Health & S C §50105); or
- At least 10 percent of the total units in a common interest development (as defined by CC §1351) for occupancy by "moderate income" households (as defined by Health & S C §50093), provided that all of the units in the development are offered to the public for purchase.

© The Regents of the University of California

§10.175 (2) Land Donated for Low-Income Housing

A city must provide a density bonus when a housing developer agrees to donate land of at least one acre in size or sufficient to develop at least 40 dwelling units if (Govt C §65915(g)):

- The affordable units will constitute at least 10 percent of the number of units in the proposed development;
- The land is subject to a deed restriction guaranteeing continued affordability; and
- The land is within the boundary of the proposed development (or within one- quarter mile, if the city agrees).

The land donated must also meet certain minimum infrastructure and zoning requirements. Govt C §65915(g).

© The Regents of the University of California

§10.176 (3) Senior Housing

A city must provide a density bonus when a developer proposes a senior citizen housing development (as defined in CC §§51.3 and 51.12). Govt C §65915(b).

© The Regents of the University of California

§10.177 (4) Child Care Facility Included in Development Proposal

When an applicant proposes to construct a housing development that includes a child care facility that will be located on the project site or adjacent to it, and the percentage of attending children from lower income households will at least equal the percentage of lower income households in the development, a city must provide a density bonus that is an amount of square feet equal to or greater than the space in the child care facility, or an additional concession or incentive that significantly contributes to the feasibility of the construction of the child care facility. Govt C §65915(h).

© The Regents of the University of California

§10.178 b. Percentage Increase

The city must grant an increase over the maximum allowable residential density on the site. Govt C §§65915(f), (o)(2). The size of the density bonus that the city must grant is as described in §§10.179-10.181.

© The Regents of the University of California

§10.179 (1) Basic Density Bonus

The percentage bonus depends on the type of development (Govt C §65915(f)- (g)):

- A housing development containing senior citizen housing, or a housing development with the requisite percentage of units affordable to very-low and lower-income households, is entitled to a density increase of at least 20 percent over the maximum allowable density under the applicable zoning ordinance.
- A common interest development that offers all units for sale to the public and that reserves at least 10 percent of the total units for persons of moderate income is entitled to a density increase of at least 5 percent over the maximum allowable density.
- A housing development that includes a donation of land for low-income housing of the requisite size is entitled to a density increase of at least 15 percent over the maximum allowable density.

© The Regents of the University of California

§10.180 (2) Incremental Increases

A housing development that reserves a percentage of units in excess of the percentages described in §10.179 is entitled to a larger density bonus, as follows (Govt C §65915(f)-(g)):

- For each 1-percent increase above 10 percent in the percentage of units affordable to lower-income households, the density bonus must be increased by 1.5 percent, up to a maximum of 35 percent.
- For each 1-percent increase above 5 percent in the percentage of units affordable to very-low-income households, the density bonus must be increased by 2.5 percent, up to a maximum of 35 percent.
- For each 1-percent increase above 10 percent in the percentage of units in a common interest development affordable to moderate-income households, the density bonus must be increased by 1 percent, up to a maximum of 35 percent.
- For each 1-percent increase above 10 percent in the percentage of affordable dwelling units sited on donated land, the density bonus must be increased by 1 percent, up to a maximum of 35 percent.

© The Regents of the University of California

§10.181 (3) Additional Local Density Bonus

Cities may grant a density bonus in excess of that required if they have adopted a local density bonus ordinance. Govt C §65915(n).

© The Regents of the University of California

§10.182 c. Types of Incentives and Concessions

An applicant for a density bonus may also request the following development concessions or incentives (Govt C §65915(k)):

- A reduction in site development standards or a modification of zoning code requirements (including a reduction in setbacks, square footage requirements, required parking, or architectural design requirements) that results in identifiable, financially sufficient, and actual cost reductions;
- Approval of mixed-use zoning in conjunction with the housing project if the inclusion of commercial, office, or industrial uses will reduce the cost of the housing project and such non-residential uses are compatible with the housing project and existing and planned development in the area;
- Other regulatory incentives or concessions proposed by the local agency or the developer that result in identifiable, financially sufficient, and actual cost reductions.

© The Regents of the University of California

§10.183 d. Number of Incentives

An applicant for a density bonus is entitled to (Govt C §65915(d)(2)):

- One incentive or concession for senior citizen housing developments, and for projects that include at least 10 percent of the total units for lower-income households, at least 5 percent for very-low-income households, or at least 10 percent for persons and families of moderate income in a condominium or planned development.
- Two incentives or concessions for projects that include at least 20 percent of the total units for lower-income households, at least 10 percent for very-low-income households, or at least 20 percent for persons and families of moderate income in a condominium or planned development.
- Three incentives or concessions for projects that include at least 30 percent of the total units for lower-income households, at least 15 percent for very-low-income households, or at least 30 percent for persons and families of moderate income in a condominium or planned development.

© The Regents of the University of California

§10.184 e. Grounds for Denial of Incentives or Concessions

Cities may deny requests for incentives or concessions only by making one of the following written findings supported by substantial evidence (Govt C §65915(d)(1)):

- The concession or incentive is not required to provide for affordable housing costs, as defined in Health & S C §50052.5; or
- The concession or incentive would have a specific adverse impact, as defined in Govt C §65589.5, on public health or safety or the physical environment or on any property listed in the California Register of Historical Resources, and there is no feasible method to satisfactorily mitigate or avoid the impact without rendering the development unaffordable to low- and moderate-income households.

© The Regents of the University of California

§10.185 f. Waiver of Development Standards

Under the density bonus statute, the city is also required to waive or modify development and zoning standards that would physically preclude the utilization of the density bonus, incentives, and concessions on a particular site. Govt C §65915(e). This requirement is separate and apart from the density bonus and development concession/incentive discussed in §§10.183-10.184. A waiver or modification may be denied if it would have a specific adverse impact on public health or safety or the physical environment, and there is no feasible method to satisfactorily mitigate or avoid the impact; or if it would have an adverse impact on property listed in the California Register of Historical Resources. Govt C §65915(e).

© The Regents of the University of California

§10.186 g. Limitation on Required Parking

A city may not require more than a set number of parking spaces per unit for housing developments providing the requisite percentage of affordable or senior units. Govt C §65915(p).

© The Regents of the University of California

§10.187 h. Conformance With General Plan and Zoning Ordinance

The granting of a density bonus, concession, or incentive does not, in and of itself, require a general plan amendment, local coastal plan amendment, zoning change, or other discretionary approval. Govt C §65915(f)(5), (j).

© The Regents of the University of California

i. Durational Requirements

§10.188 (1) Continued Affordability of Very-Low and Lower-Income Units

A developer who receives a density bonus and/or other concessions or incentives must agree to the continued affordability of the low- or very-low-income units for at least 30 years, or longer if required by other public funds. Govt C §65915(c)(1).

© The Regents of the University of California

§10.189 (2) Moderate-Income For-Sale Units

The city must ensure that the initial occupants of the moderate-income units in a common interest development are persons of moderate income. On resale, the seller of the unit retains the value of any improvements, the down payment, and the seller's proportionate share of appreciation. The city captures its proportionate share of appreciation, which is the percentage of the resale price by which the initial sale price was less than fair market value. The city must use the recaptured funds within 3 years to promote home ownership, pursuant to Health & S C §33334.2(e). The city may also adopt a local ordinance requiring a longer term of affordability, or a longer term of affordability may be required by another funding source. Govt C §65915(c)(2).

© The Regents of the University of California

§10.190 (3) Operation of Child Care Facility

A developer who receives a density bonus or other incentive for including a child care facility in a housing project must agree to keep the facility in operation for at least as long as the period of time that the density bonus units are required to remain affordable. Govt C §65915(i).

© The Regents of the University of California

§10.191 6. Limitation on Authority to Require Conditional Use Permits

State law establishes affordable multifamily residential housing as a permitted use in multifamily housing zones, without a conditional use permit (CUP) ("use by right"), in certain circumstances. This obligation applies whenever any one of three specific exemptions to the California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177) applies to a proposed development, or when the development meets a number of affordability requirements. See §§10.192-10.197.

© The Regents of the University of California

§10.192 a. Attached Housing Developments

A public entity may not require a use permit for an attached housing development proposal consisting of not more than 100 dwelling units with an affordable component, if the local law does not require a use permit or the project (Govt C §65589.4(a)(2))

- has a minimum density of 12 dwelling units per acre;
- is consistent with the zoning ordinance when the application is completed;
- has had a negative declaration or mitigated negative declaration approved for it; and
- is located in an area addressed by a general plan, specific plan, or other community plan that has been amended in the last 5 years.

"Attached housing development" means a newly constructed or substantially rehabilitated structure containing two or more dwelling units and consisting only of residential units, but which does not include a second unit as defined by Govt C §65852.2(h)(4), or the conversion of an existing structure to condominiums. Govt C §65589.4(h). However, there are numerous conditions that must be met before a housing development will be subject to this law. See §§10.193-10.196.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/10 Land Use/§10.193 (1) 'Affordable'

§10.193 (1) "Affordable"

First, Govt C §65589.4(a) applies only to affordable housing developments. "Affordable" in this context means that the developer will guarantee continued availability of affordable units for at least 30 years in any of the following proportions (Govt C §65589.4(b)):

- At least 10 percent of the units for very low-income households;
- At least 20 percent of the units for low-income households; or
- At least 50 percent of the units for moderate-income households.

© The Regents of the University of California

§10.194 (2) "Infill"

Next, Govt C §65589.4(a)(2) applies only to attached housing developments on infill sites. An "infill" site is defined as a site in an urbanized area that (Govt C §65589.4(a)(2)(F); Pub Res C §21061.3; 14 Cal Code Regs §15191(e)):

- Has been previously developed for qualified urban uses;
- Has not been previously developed for qualified urban uses but (1) all immediately adjacent parcels are developed with existing qualified urban uses, and (2) no parcel within the site has been created within the past 10 years (unless the parcel was created as a result of the plan of a redevelopment agency); or
- Has not been previously developed for qualified urban uses but (1) is surrounded by at least 75 percent qualified urban uses (provided that the remaining 25 percent of the surrounding area has been previously developed for qualified urban uses), and (2) no parcel within the site has been created within the past 10 years (unless the parcel was created as a result of the plan of a redevelopment agency).

A qualified urban use, in turn, is any residential, commercial, public institutional, transit or transportation passenger facility, or retail use, or any combination of those uses. Pub Res C §21072.

© The Regents of the University of California

§10.195 (3) Population Requirements: Developments of Maximum 100 Units

Finally, Govt C §65589.4(a)(2) does not apply to smaller cities. Attached housing developments of no more than 100 units must be permitted by right if any of the following are true (Govt C §65589.4(a)(2)(E); Pub Res C §21071; 14 Cal Code Regs §15191(m)):

- The project is located in a city of at least 100,000 persons;
- The project is located in a city that, when combined with two cities that are contiguous with the city, has at least 100,000 persons;
- The project is located in an unincorporated area completely surrounded by incorporated cities, the sum of the populations is at least 100,000 persons, and the population density of the unincorporated area is no less than the density of the surrounding cities;
- The project is located within an "urban growth boundary," which is an area designated in a general plan for which urban uses are allowed on one side and not on the other, and the area has at least 5000 persons per square mile; or
- The project is located within a census-defined place with a population density of at least 5000 persons per square mile.

© The Regents of the University of California

§10.196 (4) Population Requirements: Attached Housing Developments of Maximum 50 Units

For smaller projects, Govt C §65589.4(a) applies to cities with fewer people. Developments of 50 or fewer units must be permitted by right if both of the following are true (Govt C §65589.4(a)(2)(E)):

- The project is located in a city of at least 25,000 persons; and
- The population density of the city is at least 2500 persons per square mile.

© The Regents of the University of California

§10.197 b. Attached Housing Developments Permitted When Certain CEQA Exemptions Apply

An attached housing development is permitted by right when any of three statutory California Environmental Quality Act (CEQA) exemptions apply, provided that a proposed attached housing development site is zoned for multifamily housing and the attached housing development will satisfy the affordability requirements described above for 30 years. Govt C §65589.4(a)(1), (b). The three CEQA exemptions are:

(1) Urbanized infill projects on five acres or less (Pub Res C §21159.23);

(2) High density infill projects of four acres or less (Pub Res C §21159.24); and

(3) Housing for agricultural employees (Pub Res C §21159.22).

The proposed development must also be consistent with any applicable general plan, specific plan, and local coastal program. Govt C §§65589.4(a)(2)(B), (c), (e). In addition, "community level environmental review" must have been conducted, which is defined as a certified environmental impact report or negative declaration for a general plan or an applicable specific or community plan. Pub Res C §§21159.20(b), 21159.21(a)-(b).

© The Regents of the University of California

§10.198 7. Special Requirements for Coastal Communities

State law imposes special affordable housing requirements on coastal communities and the California Coastal Commission. The Coastal Commission must satisfy the broad mandate of "encourag[ing] housing opportunities for persons of low and moderate income" in the coastal zone. More specifically, neither coastal cities nor the Commission may require that a developer of low- and moderate-income housing comply with a density that is below the permitted density established by local zoning, plus any applicable density bonus. Pub Res C §30604(f).

The only exception the statute provides is that the public entity or commission may require a lower density if it can make a finding, based on substantial evidence, that the density sought by the applicant cannot feasibly be accommodated on the site in a manner that is in conformity with the objectives of the local coastal program or the California Coastal Act of 1976 (Pub Res C §§30000-30900), specifically Pub Res C §§30200-30265.5. Those objectives include public access to the coast, recreational use of the coast, and preservation and restoration of the marine environment. Pub Res C §30604(f).

In addition, no conversion or demolition of existing residences occupied by low- or moderate-income households may be authorized unless provisions are made for replacement affordable housing. Govt C §65590(b). New housing developments within the coastal zone must include low- or moderate-income housing to the extent possible. Govt C §65590(c).

© The Regents of the University of California

§10.199 C. Privacy

The right to privacy guaranteed by Cal Const art I, §1 prohibits the city from adopting zoning ordinances favoring familial groups over unrelated "families." *City of Santa Barbara v Adamson* (1980) 27 C3d 123, 131, 164 CR 539; *City of Chula Vista v Pagard* (1981) 115 CA3d 785, 796, 171 CR 738. Cities also may not control the characteristics of residents, such as by limiting occupants of second units to the property owner, dependents, and caregivers. *Coalition Advocating Legal Hous. Options v City of Santa Monica* (2001) 88 CA4th 451, 458, 105 CR2d 802.

© The Regents of the University of California

§10.200 VI. GROWTH MANAGEMENT

Growth control measures may be adopted to address lack of adequate infrastructure or for other social reasons, such as a desire to protect a particular "quality of life," preserve agricultural land or open space, or protect property values.

For related discussion, see §§10.26-10.53, 10.161-10.199; Durkee, Jacobson, Wood & Zischke, Land Use Initiatives and Referenda in California (Solano Press, P.O. Box 773, Point Arena, California 95468).

© The Regents of the University of California

§10.201 A. Public Facilities Planning

Some cities have developed policies to ensure that public facilities keep pace with growth. This approach has been upheld both in California and elsewhere. See, *e.g., Associated Home Builders, Inc. v City of Livermore* (1976) 18 C3d 582, 607, 135 CR 41; *Golden v Planning Bd. of Town of Ramapo* (1972) 30 NY2d 359, 385, 285 NE2d 291.

© The Regents of the University of California

§10.202 1. Limiting Expansion

Regulations limiting the expansion of public facilities have also been used to control urban sprawl. See *Dateline Builders, Inc. v City of Santa Rosa* (1983) 146 CA3d 520, 194 CR 258; *Hollister Park Inv. Co. v Goleta County Water Dist.* (1978) 82 CA3d 290, 294, 147 CR 91; *Swanson v Marin Mun. Water Dist.* (1976) 56 CA3d 512, 128 CR 485.

© The Regents of the University of California

§10.203 2. Other Controls

Another technique for control is based on the number, location, and mix of new residential units. See *Construction Indus. Ass'n v City of Petaluma* (9th Cir 1975) 522 F2d 897, cert denied (1976) 424 US 934 (city plan that fixed housing development growth rate at 500 dwelling units per year and directed that building permits be divided evenly between west and east sections of city and between single-family dwellings and multiple residential units was reasonable exercise by city of its police power and did not violate due process clause).

© The Regents of the University of California

§10.204 B. Housing Obligation Conflicts

A city must provide its fair share of its region's housing needs. Govt C §65584. A court may subject a general plan provision or zoning ordinance to a rigorous evidentiary review to ensure that it does not operate to violate a general plan's housing element or California statutes that require cities to provide a fair share of regional housing needs and that prohibit discrimination against low-income housing. See *Building Indus. Ass'n of San Diego v City of Oceanside* (1994) 27 CA4th 744, 33 CR2d 137 (invalidating growth control initiative amendment to general plan based on evidence it operated to limit housing below city's "fair share" and to discriminate against low-income housing, even though initiative specifically exempted units dedicated for low-income persons). See also *Hoffmaster v City of San Diego* (1997) 55 CA4th 1098, 64 CR2d 684 (provisions regarding transitional housing in city's housing element in conflict with city's conditional use permit (CUP) requirements and geographic limitations for residential care facilities).

© The Regents of the University of California

1. Findings Required for Housing Limits

§10.205 a. General Requirement

Any general plan provision or zoning ordinance that limits the number of housing units that may be constructed on an annual basis must contain findings as to the public health, safety, and welfare of the city to be promoted by the adoption of the ordinance that justify reducing the housing opportunities of the region. Govt C §§65302.8 (general plan), 65863.6 (zoning ordinance).

© The Regents of the University of California

§10.206 b. No Findings for Initiatives

The findings requirement does not apply to growth control zoning ordinances that impose numerical restrictions by initiative. *Building Indus. Ass'n v City of Camarillo* (1986) 41 C3d 810, 226 CR 81.

© The Regents of the University of California

§10.207 2. Burden of Proof

When such a housing limitation is imposed, the city has the burden of proof of showing that the ordinance or regulation is reasonably related to the protection of public health, safety, and welfare of the affected population. Evid C §669.5(b); *Building Indus. Ass'n of San Diego v Superior Court (City of Oceanside)* (1989) 211 CA3d 277, 259 CR 325; *Lee v City of Monterey Park* (1985) 173 CA3d 798, 219 CR 309. But see *Hernandez v City of Encinitas* (1994) 28 CA4th 1048, 33 CR2d 875. This burden of proof applies even in the case of limitations imposed by initiative (*Building Indus. Ass'n v City of Camarillo* (1986) 41 C3d 810, 226 CR 81) and even if the limitation was enacted before the date Evid C §669.5 was enacted (*Murphy v City of Alameda* (1992) 11 CA4th 906, 14 CR2d 329).

© The Regents of the University of California

VII. MORATORIA

A. Authority

§10.208 1. Police Power

Moratoria that impose more stringent temporary land use controls and other growth measures based on documented health, safety, and general welfare concerns are enactments made pursuant to the police power. However, there are constitutional challenges that can be made to such enactments. See *First English Evangelical Lutheran Church v County of Los Angeles* (1989) 210 CA3d 1353, 258 CR 893, cert denied (1990) 493 US 1056. See also *Lockary v Kayfetz* (9th Cir 1990) 908 F2d 543, amended (9th Cir 1990) 917 F2d 1150 (triable issues of fact exist as to whether moratorium on new water hook-ups constituted taking, denial of equal protection, and denial of substantive due process).

For related discussion, see §§10.362-10.445 (challenges to land use decisions), 13.114-13.152 (municipal liability for civil rights/42 USC §1983 claims).

© The Regents of the University of California

§10.209 2. Statutory Provisions

The provisions of Govt C §65858 provide statutory authority and time limits for interim ordinances prohibiting any uses that may be in conflict with a contemplated general plan, specific plan, or zoning proposal that the city plans to study within a reasonable time. Certain time limits apply. See *Martin v Superior Court (Sierra Madre)* (1991) 234 CA3d 1765, 286 CR 513 (city could not circumvent 2-year moratorium limitation in Govt C §65858 merely by rezoning or awaiting expiration of earlier ordinance).

© The Regents of the University of California

§10.210 B. Takings

The Supreme Court recognizes temporary development moratoria as a legitimate planning tool. A temporary moratorium on development does not effect a categorical taking; consequently, the question of whether a temporary moratorium effects a taking in a particular case requires a careful factual inquiry into the factors articulated in *Penn Cent. Transp. Co. v City of New York* (1978) 438 US 104, 57 L Ed 2d 631, 98 S Ct 2646. *Tahoe-Sierra Preservation Council, Inc. v Tahoe Reg'l Planning Agency* (2002) 535 US 302, 152 L Ed 2d 517, 122 S Ct 1465. These factors include the plaintiff's investment-backed expectations, the impact of the regulation, the public interest served by the regulation, and the reasons for imposing the moratorium.

A temporary moratorium of more than 1 year may be viewed by the courts with a more jaundiced eye, but is by no means necessarily unconstitutional if it can be justified under the *Penn Central* test. *Tahoe-Sierra Sierra Preservation Council, Inc. v Tahoe Reg'l Planning Agency, supra*. Normal delays in the land use permitting process are not a taking. *Lucas v South Carolina Coastal Council* (1992) 505 US 1003, 120 L Ed 2d 798, 112 S Ct 2886; *First English Evangelical Lutheran Church v County of Los Angeles* (1987) 482 US 304, 96 L Ed 2d 250, 107 S Ct 2378. But see *Lockary v Kayfetz* (9th Cir 1990) 908 F2d 543, amended (9th Cir 1990) 917 F2d 1150.

© The Regents of the University of California

VIII. EXACTIONS: FEES AND DEDICATIONS

A. Definitions

§10.211 1. Fee

A "fee" is a charge for services rendered or to alleviate impacts that will result from a development. *Mills v County of Trinity* (1980) 108 CA3d 656, 166 CR 674. The term is defined to include exactions both "established for a broad class of projects by legislation of general applicability" and "imposed on a specific project on an ad hoc basis." Govt C §66000(b).

On development fees, see §5.163. On imposition of fees and dedications with respect to subdivisions, see §10.157. On challenges to land use decisions, see §§10.362-10.445. On 42 USC §1983, see §§13.114-13.152.

© The Regents of the University of California

§10.212 2. Dedication

A "dedication" is a requirement imposed in connection with the development of real property whereby a developer must transfer to a city ownership (either in fee, as an easement, or otherwise) of an interest in real property. A dedication is a condition that constitutes a physical invasion of real property. *Lucas v South Carolina Coastal Council* (1992) 505 US 1003, 120 L Ed 2d 798, 112 S Ct 2886.

© The Regents of the University of California

B. Authority

§10.213 1. Police Power

The basic authority for cities to exact fees and dedications for voluntary development flows from the police power. Cal Const art XI, §7; *Trent Meredith, Inc. v City of Oxnard* (1981) 114 CA3d 317, 170 CR 685. As long as the local enactments are not in conflict with general laws, the power to impose valid regulatory fees is not dependent on any legislatively authorized taxing power, but exists pursuant to the direct grant of police power. *California Bldg. Indus. Ass'n v Governing Bd.* (1988) 206 CA3d 212, 234, 253 CR 497.

© The Regents of the University of California

§10.214 2. Public Works Power

This constitutional grant of authority allows a city to establish, purchase, and operate public works to furnish its citizens with light, water, power, heat, transportation, or means of communication. Cal Const art XI, §9.

© The Regents of the University of California

§10.215 3. Statutory Provisions

A number of state statutes provide authority for local agencies to make exactions. See, *e.g.,* Govt C §37112 (all acts permitted that are necessary or proper to carry out governmental duties); Govt C §65104 (fees to support work of planning agency); Govt C §65456 (fees to administer specific plans); Govt C §66483 (fees for drainage and sewerage facilities). See also 66 Ops Cal Atty Gen 120 (1983) (this is not sole method to impose such fees); Govt C §66484 (fees for waterways, bridges, railways, freeways, and major thoroughfares; imposed through assessment district procedure); Govt C §§65970-65981, 65995 (school fees both for interim and permanent facilities).

© The Regents of the University of California

§10.216 4. Case Law

A number of cases also recognize local agencies' authority to impose exactions. See, *e.g., Candid Enters., Inc. v Grossmont Union High Sch. Dist.* (1985) 39 C3d 878, 218 CR 303; *Associated Homebuilders of the Greater East Bay, Inc. v City of Livermore* (1961) 56 C2d 847, 17 CR 5; *County of Plumas v Wheeler* (1906) 149 C 758, 87 P 909; *Trent Meredith, Inc. v City of Oxnard* (1981) 114 CA3d 317, 170 CR 685; *Mills v County of Trinity* (1980) 108 CA3d 656, 166 CR 674. Courts originally suggested that cities may go beyond the authority granted by school impact fee statutes when making legislative decisions. *Murrieta Valley Unified Sch. Dist. v County of Riverside* (1991) 228 CA3d 1212, 279 CR 421; *William S. Hart Union High Sch. Dist. v Regional Planning Comm'n* (1991) 226 CA3d 1612, 277 CR 645; *Mira Dev. Corp. v City of San Diego* (1988) 205 CA3d 1201, 252 CR 825. But see Govt C §§65995-65996 (amended by the voters in 1998 to apply to both legislative and adjudicatory actions, thereby implicitly overturning *Mira, Hart,* and *Murrietta*); *Grupe Dev. Co. v Superior Court (Chino Unified Sch. Dist.)* (1993) 4 C4th 911, 16 CR2d 226 (special tax falls within preemption of Govt C §65995).

© The Regents of the University of California

C. Limitations

§10.217 1. Constitutional

Both fees and dedications must not be so restrictive as to cause a "taking" of the property without just compensation. *Nollan v California Coastal Comm'n* (1987) 483 US 825, 97 L Ed 2d 677, 107 S Ct 3141 (dedication of easement); *Commercial Builders of N. Cal. v City of Sacramento* (9th Cir 1991) 941 F2d 872, cert denied (1992) 504 US 931. In addition, a dedication must be "roughly proportional" to the impacts of the development for which the dedication is required. *Dolan v City of Tigard* (1994) 512 US 374, 129 L Ed 2d 304, 114 S Ct 2309. No taking occurs if the exaction is the result of an agreement that includes adequate consideration. *Leroy Land Dev. v Tahoe Reg'l Planning Agency* (1991) 939 F2d 696. A reasonable delay in processing a permit is not a taking. *Loewenstein v City of Lafayette* (2002) 103 CA4th 718, 127 CR2d 79.

© The Regents of the University of California

a. Standards Applied to Takings Issue

§10.218 (1) General Rule

As a general rule, the courts will uniformly uphold the constitutionality of a city's ordinances, regulations, or imposition of conditions requiring dedication or payment of a fee as a condition of land use approval when the following conditions are met (*Agins v City of Tiburon* (1980) 447 US 255, 65 L Ed 2d 106, 100 S Ct 2138; *Nollan v California Coastal Comm'n* (1987) 483 US 825, 97 L Ed 2d 677, 107 S Ct 3141):

- The city is acting within a police power;
- The condition substantially furthers a legitimate governmental interest; and
- The owner is not denied economically viable use of its land.

For discussion of the partial overruling of *Agins* by *Lingle v Chevron U.S.A., Inc.* (2005) 544 US 528, 161 L Ed 2d 876, 125 S Ct 2074, see §10.388.

In federal court, a plaintiff bringing a suit under 42 USC §1983 making an "as-applied" challenge to an exaction as a taking may be entitled to a jury trial on liability under the Seventh Amendment to the United States Constitution. See *City of Monterey v Del Monte Dunes at Monterey, Ltd.* (1999) 526 US 687, 720, 143 L Ed 2d 882, 912, 119 S Ct 1624. A fee need not apply to every parcel in a city to be considered a generally applicable, legislatively imposed fee that is not subject to *Nollan*/*Dolan* scrutiny. *San Remo Hotel v City & County of San Francisco* (2002) 27 C4th 643, 117 CR2d 269.

© The Regents of the University of California

§10.219 (2) Dedications

For a dedication to pass constitutional muster, the requirement must be "directly responsible" for or have an "essential nexus" to the problem being corrected. *Nollan v California Coastal Comm'n* (1987) 483 US 825, 97 L Ed 2d 677, 107 S Ct 3141. A specific study showing a "solid connection" is required. *Surfside Colony Ltd. v California Coastal Comm'n* (1991) 226 CA3d 1260, 277 CR 371; *Rohn v City of Visalia* (1989) 214 CA3d 1463, 263 CR 319. Once the essential nexus is found to exist, there must also be a reasonable relationship ("rough proportionality") between the degree of the exaction and the impact caused by the project. At least in the adjudicatory area, a city is required to make some sort of individualized determination that the required dedication is related in nature and extent to the impact of the development. *Dolan v City of Tigard* (1994) 512 US 374, 129 L Ed 2d 304, 114 S Ct 2309.

© The Regents of the University of California

§10.220 (3) Fees

The constitutional standards of legislatively enacted development fees of general applicability are less stringent than are the standards for fees imposed on specific developments on an individual and discretionary basis. *Ehrlich v City of Culver City* (1996) 12 C4th 854, 50 CR2d 242. When a development fee is imposed generally on a broad class of property owners, it need only bear a reasonable relationship to the impacts of the development project. 12 C4th at 875. In adopting the fee, the city must make the "nexus" findings in Govt C §66001. However, discretionary, site-specific fees imposed on individual developers are subject to the stricter "essential nexus" and "rough proportionality" requirements of *Nollan* and *Dolan*. *City of Monterey v Del Monte Dunes at Monterey, Ltd.* (1999) 526 US 687, 143 L Ed 2d 882, 119 S Ct 1624; *Ehrlich v City of Culver City* (1996) 12 C4th 854, 876, 50 CR2d 242.

© The Regents of the University of California

§10.221 b. Special Tax

If a fee exceeds the cost of the service and does not relate sufficiently to the impact of the development, the fee may be a tax. If the fee is a tax and is to be used for a specific purpose it will be considered a special tax subject to two-thirds voter approval. Cal Const art XIIIA; Govt C §§50076, 53720-53730; *Bixel Associates v City of Los Angeles* (1989) 216 CA3d 1208, 265 CR 347 (fee charged to pay for existing inadequate facilities); *Russ Bldg. Partnership v City & County of San Francisco* (1987) 199 CA3d 1496, 246 CR 21. However, the voter-approval requirements and other limitations that Cal Const arts XIIIC-XIIID (Proposition 218) impose on fees and assessments do not, by their terms, affect existing laws relating to "the imposition of fees or charges as a condition of property development." Cal Const art XIIID, §1(b).

© The Regents of the University of California

§10.222 2. Statutory Procedure

Substantive and procedural due process as well as state constitutional requirements have been codified in the developer fees statutes. These statutes apply when a fee is established, increased, or imposed as a condition of approval for a development project. See Govt C §§66000-66008.

© The Regents of the University of California

§10.223 a. Nexus

The purpose of the fee and the use to which it will be put must be identified. The city must make a determination as to how there is a reasonable relationship between the fee and the development on which it is imposed and between the need for the public facility and the type of development project against which the fee is imposed. Govt C §66001.

© The Regents of the University of California

§10.224 b. Findings

Findings are required for any fees that are not expended within 5 or more years after deposit and must be made every 5 years thereafter. Govt C §66001(d). Refunds may be required. Govt C §66001(e)-(f). Capacity charges and connection fees are not subject to the refund remedy in Govt C §66001. *Capistrano Beach Water Dist. v Taj Dev. Corp.* (1999) 72 CA4th 524, 85 CR2d 382 (sewer connection fee paid by developer to connect its hotel to sanitation district's sewer system was not development fee subject to refund within meaning of the Mitigation Fee Act).

© The Regents of the University of California

§10.225 c. Relationship to Cost

Fees must not exceed the estimated reasonable cost of providing the service for which the fees were collected. Govt C §66005(a); *Collier v City & County of San Francisco* (2007) 151 CA4th 1326, 60 CR3d 698 (city may spend regulatory fee revenues for purpose of legitimate regulation as long as revenues do not exceed reasonably necessary expense of regulatory effort); *County of Orange v Barratt Am., Inc.* (2007) 150 CA4th 420, 58 CR3d 542 (citing Govt C §66016(a) and holding that if service fees or charges exceed cost of providing service, local agency is required to reduce fee or service charge creating surplus).

© The Regents of the University of California

§10.226 d. Notice and Hearing

Specific notice, public hearing, and protest procedures apply. Govt C §§66016-66018.5, 66020-66024. At the time of approving the project or of the imposition of the exaction, the local agency must give the project applicant a written notice of the amount of the fees or a description of the dedications, reservations, or other exactions, and notification that the 90-day period in which the applicant may protest has begun. Govt C §66020(d)(1).

© The Regents of the University of California

§10.227 e. Waiting Period

Unless certain urgency findings are made, a 60-day waiting period applies before a new or increased fee can go into effect. Govt C §66017.

© The Regents of the University of California

§10.228 f. Exclusions

The developer fees statutes do not apply to development agreements or redevelopment agency redevelopment agreements. Govt C §66000(b). See *Building Indus. Ass'n of Central Cal. v City of Patterson* (2009) 171 CA4th 886, 90 CR3d 63, cert denied (2009) ___ US ___, 175 L Ed 2d 480, 130 S Ct 660 (interpreting validity of affordable housing fee established in development agreement).

© The Regents of the University of California

§10.229 g. Statute of Limitations

The project applicant has 180 days from the day the public agency delivers notice of the exactions to the applicant to file an action challenging the exaction. Govt C §66020(d)(2). Lawsuits challenging a local agency's legislative decision to promulgate or change a water or sewer capacity charge are subject to Govt C §66022 and a 120-day statute of limitations, but lawsuits challenging a local agency's adjudicatory decision imposing such a charge on a specific development are subject to the 180-day statute of limitations in Govt C §66020. *N.T. Hill, Inc. v City of Fresno* (1999) 72 CA4th 977, 85 CR2d 562. The calculation of the commencement of the cause of action and the conduct of the parties regarding waiver of the right to challenge are critical in determining if actions are time-barred. *Serra Canyon Co. v California Coastal Comm'n* (2004) 120 CA4th 663, 16 CR3d 110; *Travis v County of Santa Cruz* (2004) 33 C4th 757, 16 CR3d 404. Reenactment of a previous fee, even when there is no increase or decrease in the fee, starts the running of a new statute of limitations to challenge the fee. *Barratt Am., Inc. v City of Rancho Cucamonga* (2005) 37 C4th 685, 37 CR3d 149.

© The Regents of the University of California

§10.230 3. Fees and Dedications: Practice Tips

PRACTICE TIP 1: The administrative record must affirmatively support, with substantial evidence, imposition of the fee or dedication. In the case of a development impact fee of general applicability, the record should be made as part of the "AB 1600 Report" pursuant to Govt C §66001 (AB 1600 (1987)) when the fee is adopted or revised. In most cases, additional analysis should not be necessary for each development on which the fee is imposed. See *Commercial Builders of N. Cal. v City of Sacramento* (9th Cir 1991) 941 F2d 872, cert denied (1992) 504 US 931. In the case of dedications or project-specific fees, a record should be prepared at the time the exaction is imposed demonstrating the "essential nexus" and "rough proportionality" between the exaction and the project's impacts. See *Ehrlich v City of Culver City* (1996) 12 C4th 854, 876, 50 CR2d 242. Consider making this record in the California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177) documentation, where the fee or dedication might be characterized as a mitigation measure. An AB 1600 report will also be required for project-specific fees at the time they are imposed.

PRACTICE TIP 2: Provide for an administrative appeal process in the city's fee ordinance and the ability of the city council to waive the exaction on a showing of a lack of nexus.

PRACTICE TIP 3: Tailor the fees to solve part of the problem. Do not try to solve the entire problem with one fee.

PRACTICE TIP 4: Involve the fee-paying stakeholders in the process that establishes the fee.

PRACTICE TIP 5: Establish community standards for services and facilities in the city's general plan.

PRACTICE TIP 6: Ask the following questions:

(1) What is the problem?

(2) Who or what created the problem?

(3) What is the solution to the problem?

(4) Is there a different way to solve the problem?

(5) Is it a fee or is it a non-monetary exaction?

(6) Is the solution fair?

PRACTICE TIP 7: When a project is approved, it is extremely important that the city serve formal notice of the imposition of the fee or dedication and a notice of protest rights on the project applicant pursuant to Govt C §66020(d)(1), because such service triggers the limitations period for challenging the fee.

© The Regents of the University of California

§10.231 IX. BUILDING PERMITS

A building permit may be a discretionary or a ministerial act. At one time, the issuance of a building permit was viewed as a ministerial act as long as the applicant had complied with the building codes and zoning regulations. However, in recent years, courts have upheld local regulations that treat the issuance of building permits as discretionary and place requirements, in the nature of exactions, on their issuance. See *Friends of Westwood, Inc. v City of Los Angeles* (1987) 191 CA3d 259, 235 CR 788 (building permit for major construction project could be discretionary permit subject to CEQA (California Environmental Quality Act (Pub Res C §§21000-21177))).

© The Regents of the University of California

A. Building, Grading, and Other Regulations

§10.232 1. Authority

Cities have the constitutional power to make and enforce all local, police, sanitary, and other ordinances and regulations not in conflict with general laws. This power extends to regulation of the construction and occupancy of buildings. Cal Const art XI, §7; *Candid Enters., Inc. v Grossmont Union High Sch. Dist.* (1985) 39 C3d 878, 218 CR 303; *Matter of Stoltenberg* (1913) 165 C 789, 791, 134 P 971.

© The Regents of the University of California

§10.233 2. Reasonable Relationship

To pass constitutional muster, the expenses necessarily incurred in complying with the city's construction regulations must be reasonable in relation to the public health or safety interests being protected. *City of Bakersfield v Miller* (1966) 64 C2d 93, 102, 48 CR 889, cert denied (1966) 384 US 988.

© The Regents of the University of California

§10.234 B. Basic Requirements

Typically, an application for a building permit must be accompanied by building plans conforming to applicable building and fire regulations, lawful setback requirements, and similar regulations. Issuance of a building permit may be conditioned on the performance of certain other related acts.

© The Regents of the University of California

§10.235 1. Application

The application for a building permit must include the project's identification, licensed contractor's declaration, owner/builder declaration, workers' compensation exemption or declaration, and construction lending agency information. Health & S C §§19825-19826. See Lab C §3800; *Morris v County of Marin* (1977) 18 C3d 901, 136 CR 251 (failure to comply with Lab C §3800 mandatory duty made county liable for worker's injuries).

© The Regents of the University of California

§10.236 2. Dedication of Land, Construction of Improvements, and Payment of Fees

A building permit may be conditioned on dedication of land or the installation of improvements when such dedication or installation is reasonably related to the proposed use of the property. Govt C §65909. See also *Russ Bldg. Partnership v City & County of San Francisco* (1987) 199 CA3d 1496, 246 CR 21; *Southern Pac. Co. v City of Los Angeles* (1966) 242 CA2d 38, 51 CR 197. But see Govt C §65961. For certain housing projects, no new conditions may be imposed on the issuance of a building permit for 5 years after the approval of a final map, if such conditions could have been imposed at the time the tentative or parcel map was approved. Govt C §65961. However, for purposes of a tentative subdivision map or parcel map that is extended under Govt C §66452.22, the 5-year period must be only 3 years. Govt C 65961(e).

© The Regents of the University of California

C. Uniform Codes

§10.237 1. State Standards

The state Department of Housing and Community Development (HCD) must adopt and enforce rules and regulations for the protection of the public governing the construction, alteration, demolition, occupancy, or other use of buildings used for human habitation. Health & S C §17921. The HCD's regulations are substantially the same as those contained in the most recent editions of the Uniform Building Code, Uniform Housing Code, Uniform Plumbing Code, Uniform Mechanical Code, and National Electric Code, and are distinguished by being referenced as the California version of the respective code. Health & S C §17922.

For the rules relating to adopting a code by reference, see §1.240.

© The Regents of the University of California

§10.238 2. Modifications

Cities must choose between adopting ordinances and regulations imposing the uniform code requirements, or submitting to the regulations adopted by the state Department of Housing and Community Development (HCD). Health & S C §17958; *Briseno v City of Santa Ana* (1992) 6 CA4th 1378, 8 CR2d 486. A city may modify the uniform code requirements if it makes an express finding that such modification is reasonably necessary because of local climatic, geological, or topographical conditions. Health & S C §17958.7; *Building Indus. Ass'n. v City of Livermore* (1996) 45 CA4th 719, 52 CR2d 902 (modification requiring fire sprinkler systems in residential housing); *ABS Institute v City of Lancaster* (1994) 24 CA4th 285, 29 CR2d 224. No modification becomes effective or operative until both the modification and the necessary findings have been filed with the California Building Standards Commission. Health & S C §17958.7.

© The Regents of the University of California

D. Effect of Permit Issuance

§10.239 1. Vested Rights

After a property owner has obtained all permits necessary for the proposed structure and performed substantial work and incurred substantial liabilities in good faith reliance on those approvals, the property owner acquires a vested right to complete construction in accordance with the terms of the permit. *Avco Community Developers, Inc. v South Coast Reg'l Comm'n* (1976) 17 C3d 785, 791, 132 CR 386, cert denied (1977) 429 US 1083; *Consaul v City of San Diego* (1992) 6 CA4th 1781, 8 CR2d 762; *Billings v California Coastal Comm'n* (1980) 103 CA3d 729, 735, 163 CR 288. But see *City of West Hollywood v Beverly Towers, Inc.* (1991) 52 C3d 1184, 278 CR 375 (although no vested rights were held by developer, city was not allowed to impose new restrictions after all discretionary approvals for condominium conversion had been granted).

© The Regents of the University of California

§10.240 2. No Vested Right for Invalid Permit

A permittee does not acquire a vested right under an invalid building permit, even if substantial expenditures have been made in good faith. *Pettitt v City of Fresno* (1973) 34 CA3d 813, 820, 110 CR 262. In a federal court action, however, a contrary holding resulted. *Congregation Etz Chaim v City of Los Angeles* (2004) 371 F3d 1122.

© The Regents of the University of California

§10.241 3. Limit on Vested Right

The rights that vest through reliance on the building or other permit cannot be greater than those specifically granted by the permit itself. *Russ Bldg. Partnership v City & County of San Francisco* (1988) 44 C3d 839, 846, 853, 244 CR 682; *Avco Community Developers, Inc. v South Coast Reg'l Comm'n* (1976) 17 C3d 785, 791, 132 CR 386, cert denied (1977) 429 US 1083. For example, perfection of a vested right for one phase of a multi-phase project does not create a vested right to build subsequent phases.

© The Regents of the University of California

E. Building Permit Duration/Revocation

§10.242 1. Time Frames to Begin and Complete Work

There are no statutory or case-law-based time frames in which building projects must be completed. A building permit becomes "null and void" if the building or work is not commenced within 180 days from the issuance date of the permit or if the building or work authorized by the permit is suspended or abandoned for a period of 180 days. 24 Cal Code Regs §106.4.4. Alternate time frames may apply to newly annexed territory. Health & S C §19829.

© The Regents of the University of California

§10.243 2. Extension

The holder of an unexpired permit who has not begun work may apply for a discretionary extension. The request must be based on "good and satisfactory reasons" that show "that circumstances beyond the control of the permittee have prevented action from being taken." The building official may extend the permit one time only, for a period not to exceed 180 days. Although the code is silent as to extending work that has begun but was suspended or abandoned, it is common practice to allow such extension on the same terms as for a project not yet started. 24 Cal Code Regs §106.4.4. Alternate time frames may apply to newly annexed territory. Health & S C §19829.

© The Regents of the University of California

§10.244 3. Suspension

The building official may, in writing, suspend a permit issued in error, issued on the basis of incorrect information, or issued in violation of any ordinance, regulation, or code. 24 Cal Code Regs §106.4.5. The jurisdiction board of appeals empowered to hear and decide permittees' appeals of building officials' orders, decisions, or determinations regarding the application and interpretation of the building code does not include decisions regarding the administrative provisions of the code. 24 Cal Code Regs §105.2.

© The Regents of the University of California

§10.245 4. Revocation

The building official may, in writing, revoke a permit issued in error, issued on the basis of incorrect information, or issued in violation of any ordinance, regulation, or code. 24 Cal Code Regs §106.4.5. The jurisdiction of the board of appeals empowered to hear and decide permittees' appeals of building officials' orders, decisions, or determinations regarding the application and interpretation of the building code does not include decisions regarding the administrative provisions of the code. 24 Cal Code Regs §105.2. A city may not impose the revocation of a building permit by a refusal to issue a ministerial certificate of occupancy. See *Thompson v City of Lake Elsinore* (1993) 18 CA4th 49, 22 CR2d 344. The doctrine of equitable estoppel may, in a federal court action, prevent the revocation of an improperly issued permit. *Congregation Etz Chaim v City of Los Angeles* (2004) 371 F3d 1122.

© The Regents of the University of California

5. Incomplete Work

§10.246 a. Civil Nuisance Action

An incomplete construction project can be abated by a police power-based civil nuisance action. For discussion of nuisance actions, see §§9.113-9.117.

© The Regents of the University of California

§10.247 b. Criminal Prosecution

The circumstances must be carefully reviewed to determine if criminal enforcement is an available remedy.

© The Regents of the University of California

§10.248 c. Contract Remedies

If a city has provided funds pursuant to a housing program, then the city may utilize the specific remedies in the program's documentation, as well as all generally applicable contract remedies.

© The Regents of the University of California

§10.249 d. State Housing Law Remedies

On the failure of the owner to act, a receiver may be appointed by the court to carry out the abatement remedies necessary to bring the property into compliance with the applicable construction and land use codes. The public agency can obtain a lien for the costs of abatement and thereafter bring an action to recover its enforcement expense. Health & S C §§17980-17992.

© The Regents of the University of California

X. REGIONAL PLANNING ISSUES

§10.250 A. Office of Planning and Research

The state Office of Planning and Research (OPR) is the principal coordinator of state, regional, and local planning. The OPR is supposed to develop long-range planning policies and otherwise assist state and local public agencies in their planning efforts. See Govt C §§65040-65040.6.

© The Regents of the University of California

B. Transportation Planning

§10.251 1. Transportation Planning Agency

Regional transportation planning agencies must prepare a proposed regional transportation plan. The transportation planning agency must consider the transportation plans of cities, counties, districts, private organizations, and state and federal agencies. Govt C §65080(a).

© The Regents of the University of California

§10.252 2. Preparation of Regional Transportation Plan

For provisions relative to the preparation and content of regional transportation plans, see Govt C §§65080-65086.5.

© The Regents of the University of California

§10.253 3. Congestion Management Program

The congestion management agency is required to prepare a congestion management program (CMP) that requires cities and counties to maintain specified levels of service on identified roadways of regional significance. Govt C §§65088-65089.10. If a local government fails to comply with the CMP, the State Controller is obligated to withhold that jurisdiction's apportionment of the increased gas tax revenues generated by Proposition 111 (Cal Const art XIIIB). Govt C §65089.5. A CMP must be developed, adopted, and biennially updated for every county that includes an urbanized area and must include every city in the county. Govt C §65089.

© The Regents of the University of California

C. Airport Planning

§10.254 1. Airport Land Use Plan (ALUP)

Each county that has an airport must establish an airport land use commission (ALUC) charged with planning for the orderly growth of public airports. The ALUC must adopt an airport land use compatibility plan (ALUCP) for the airport and the surrounding area within the ALUC's jurisdiction. Pub Util C §§21670-21679.5. See also *City of Coachella v Riverside County Airport Land Use Comm'n* (1989) 210 CA3d 1277, 258 CR 795. Note, however, that under specific circumstances, in which a county and affected cities themselves adopt certain processes for the preparation, adoption, and amendment of a ALUCP, the formation of an ALUC is no longer required. Pub Util C §21670.1.

For further discussion of airports, see §§6.139-6.155.

© The Regents of the University of California

§10.255 2. Before ALUCP Approval

Until the airport land use compatibility plan (ALUCP) is adopted, the city must submit all regulations and permits within the vicinity of the airport to the airport land use commission (ALUC) for review and approval. See Pub Util C §21675.1.

© The Regents of the University of California

3. After ALUCP Approval

§10.256 a. Airport Land Use Commission (ALUC) Approval

Before the city's amendment of a general plan or a specific plan, or the adoption or approval of a zoning ordinance or building regulation within the area covered by the airport land use compatibility plan (ALUCP), the city must submit the proposed land use action to the airport land use commission (ALUC). See Pub Util C §21676. The Attorney General has opined that an ALUC may not exempt specific plans from compliance with the ALUCP. 87 Ops Cal Atty Gen 102 (2004).

© The Regents of the University of California

§10.257 b. Resubmission of Plan

If the airport land use commission (ALUC) determines that an action, regulation, or permit is inconsistent with the airport land use compatibility plan (ALUCP), the city must reconsider its ALUCP. See Pub Util C §21676.5.

© The Regents of the University of California

§10.258 c. Mandamus

If the airport land use commission (ALUC) fails to act to approve or disapprove any action, regulation, or permit submitted to an ALUC by the city before the ALUC approval of an airport land use compatibility plan (ALUCP), an applicant may use administrative mandamus to compel action. See Pub Util C §§21675.2, 21679.5. If the ALUC fails to adopt an ALUCP, any interested party may initiate judicial proceedings to enjoin the effective date of a zoning change, a zoning variance, the issuance of a permit, or the adoption of a regulation near the airport until the ALUC adopts an ALUCP. Pub Util C §21679. See 71 Ops Cal Atty Gen 213 (1988). See §§13.2-13.27.

© The Regents of the University of California

§10.259 4. City Override

A two-thirds vote of the city council is necessary to override an adverse determination of an airport land use commission (ALUC) concerning the city's proposed amendment of its general plan or specific plan, or the city's proposed adoption or approval of a zoning ordinance or building regulation within the area covered by the airport land use compatibility plan (ALUCP). Pub Util C §21676; 75 Ops Cal Atty Gen 47 (1992). When a city overrides such determination, the operators of the airport are not liable for damages that result from the city's action to override. Pub Util C §21678. To override an ALUC determination regarding consistency of a proposed action with an ALUCP, the local agency must make specific findings that the proposed action is consistent with the purposes of the ALUC. Pub Util C §21676; *California Aviation Council v City of Ceres* (1992) 9 CA4th 1384, 12 CR2d 163.

© The Regents of the University of California

§10.260 5. Local Regulation

Local governments may regulate uses and heights of structures and trees adjacent to an airport. See Govt C §§50485-50485.14.

© The Regents of the University of California

§10.261 D. Waste Management

Under the California Integrated Waste Management Act of 1989 (IWMA) (Pub Res C §§40000-49620), each county and city must prepare and submit to the Integrated Waste Management Board a county-wide integrated waste management plan (IWMP). Pub Res C §41750.

For discussion of municipal solid waste and recycling, see §§6.103-6.119. For discussion of hazardous waste, see §§11.237-11.255.

© The Regents of the University of California

1. Elements of Integrated Waste Management Plan (IWMP)

§10.262 a. Source Reduction and Recycling

The first component of the integrated waste management plan (IWMP) is the source reduction and recycling element from each city. Pub Res C §41750. Each source reduction element must include a program for the management of solid waste generated within the city. Pub Res C §41001. Each source reduction element must evaluate all feasible programs for recycling, composting, and reducing solid waste, as well as the necessary landfill capacity. Pub Res C §§41002-41003.

© The Regents of the University of California

§10.263 b. Household Hazardous Waste

The second component of the integrated waste management plan (IWMP) is the household hazardous waste element. Pub Res C §41750(c). The element must contain a program for the safe collection, recycling, treatment, and disposal of household hazardous wastes that should be separated from the solid waste stream. Pub Res C §§41500, 41510.

© The Regents of the University of California

§10.264 c. Siting

The third component of the integrated waste management plan (IWMP) is a county-wide siting element. Pub Res C §41750(e).

© The Regents of the University of California

§10.265 (1) Consistency With General Plans

All facilities identified must be consistent with the applicable city general plan. Pub Res C §41702.

© The Regents of the University of California

§10.266 (2) Reserved Sites

The county may tentatively reserve a site for new or expanded facilities even though it is inconsistent with the applicable general plan; the site will remain a tentative site until consistency is achieved. Pub Res C §41710.

© The Regents of the University of California

§10.267 (3) Revision

If consistency is not attained, the site must be deleted when the siting element is next revised. Pub Res C §41711.

© The Regents of the University of California

§10.268 2. Waste Management Problems

Each integrated waste management plan (IWMP) must include a summary of significant waste management problems facing the county or city and an overview of the steps that will be taken by local agencies to achieve the purposes of the IWMA. Pub Res C §41751.

© The Regents of the University of California

3. Approval of IWMP

§10.269 a. Submittal

The complete plan is submitted to the state board after approval by the county and by a majority of the cities within the county that contain a majority of the incorporated population. Pub Res C §§41760, 41790.

© The Regents of the University of California

§10.270 b. Public Hearing

Each city or county must hold at least one hearing before approving the plan. Pub Res C §41793.

© The Regents of the University of California

§10.271 c. Failure to Act

If a city fails to act within 90 days of receipt, the plan is deemed approved as submitted. Pub Res C §41760.

© The Regents of the University of California

4. Periodic Review of Integrated Waste Management Plan (IWMP)

§10.272 a. Every 5 Years

The plan must be reviewed, revised if necessary, and submitted to the state board every 5 years. Pub Res C §41770.

© The Regents of the University of California

§10.273 b. Progress Reports

The city, county, and regional agency must submit a report to the state board each year after the board's approval of the plan, summarizing the agency's progress. Pub Res C §41821.

© The Regents of the University of California

§10.274 c. Penalties

If the board finds the plan deficient, it may impose administrative civil penalties. Pub Res C §41813.

© The Regents of the University of California

§10.275 E. Housing Obligations

Local governments are responsible for balancing regional housing needs with economic, environmental, and fiscal factors and community goals established in the general plan. Govt C §65580(d)-(e); Pub Res C §§21000(g), 21001(d).

For further discussion of housing, see §§10.26-10.53, 10.161-10.199.

© The Regents of the University of California

§10.276 F. Joint Powers Authorities

The governance structure of a joint powers authority can result in that entity exercising powers adverse to the interests or desires of a member or nonmember municipality. *Zack v Marin Emergency Radio Auth.* (2004) 118 CA4th 617, 13 CR3d 323.

© The Regents of the University of California

XI. CALIFORNIA COASTAL ACT

A. Basic Regulatory Scheme

§10.277 1. Purpose of Act

The California Coastal Act of 1976 (Coastal Act) (Pub Res C §§30000-30900) was enacted by the legislature as a comprehensive scheme to govern land use planning in the coastal zone. Under the Coastal Act, development of the state's coastal resources is controlled through:

- A permit requirement;
- Local coastal programs that implement the policies of the Coastal Act at the local level; and
- Various enforcement provisions.

Although the Coastal Act generally does not apply to cities outside the coastal zone, the Coastal Act requires that all public entities carrying out or supporting activities that could directly impact coastal resources consider the effect of such activities on these resources. See Pub Res C §30200(a).

On the California Coastal Commission, see §§1.101, 10.278-10.279. On tidelands, beaches, and streams, see §§10.334-10.361.

© The Regents of the University of California

2. California Coastal Commission

§10.278 a. Membership

The Coastal Act establishes the California Coastal Commission, which has the primary responsibility for the implementation of the Coastal Act. Pub Res C §30330. The Coastal Commission consists of 15 members, not all of whom are voting members. Pub Res C §§30301, 30301.5. See also Pub Res C §30304 (alternate members).

© The Regents of the University of California

§10.279 b. Action

With limited exception, any action by the Coastal Commission requires a majority vote of the members present at a meeting. Pub Res C §30315.

© The Regents of the University of California

§10.280 3. Geographic Extent of Coastal Zone

The coastal zone generally extends seaward to the state's outer limit of jurisdiction and inland 1000 yards from the mean high tide line of the sea. However, in significant coastal estuarine habitat and recreation areas, it extends to the lesser of either the first major ridgeline paralleling the sea or five miles from the mean high tide line. The coastal zone is specifically defined by the maps identified and included in the bill enacting the Coastal Act. Pub Res C §30103(a). In determining a coastal zone boundary jurisdiction issue, specific maps prevail over text of the statute. *Rossco Holdings Inc. v State* (1989) 212 CA3d 642, 652, 260 CR 736, cert denied (1990) 494 US 1080.

The Coastal Act contains numerous statutory revisions to the general coastal zone boundary and notably does not include the area of jurisdiction of the San Francisco Bay Conservation and Development Commission. Pub Res C §§30103(a), 30150-30174.

© The Regents of the University of California

§10.281 4. Coastal Policies

The adequacy of local coastal programs and permissibility of development are evaluated against the Coastal Act's coastal resource planning and management policies. See Pub Res C §§30200-30265.5. These include specific policies on the following:

- Public access to the sea and shoreline (Pub Res C §§30210-30214);
- Recreational use (Pub Res C §§30220-30224);
- Protection of the marine environment (Pub Res C §§30230-30237);
- Protection of land resources:
- Environmentally sensitive habitats (Pub Res C §30240);
- Agricultural land (Pub Res C §§30241-30242);
- Timberlands (Pub Res C §30243);
- Archeological resources (Pub Res C §30244);
- Development (Pub Res C §§30250-30255); and
- Industrial development (Pub Res C §§30260-30265.5).

The Coastal Act recognizes that conflicts may occur between these policies, but declares that they must be resolved in a manner that on balance is most "protective" of significant coastal resources. Pub Res C §30007.5.

© The Regents of the University of California

§10.282 5. Interpretive Guidelines

The interpretative guidelines of the Coastal Commission are exempt from the regulation promulgation requirements of the Administrative Procedure Act (Govt C §§11340-11529). See *California Coastal Comm'n v Office of Admin. Law* (1989) 210 CA3d 758, 258 CR 560.

© The Regents of the University of California

§10.283 B. Local Coastal Programs

The Coastal Act requires each local government lying in whole or in part within the coastal zone to prepare and submit to the Coastal Commission a local coastal program (LCP). Pub Res C §30500(a). The LCP consists of a local government's (Pub Res C §30108.6)

- land use plans,
- zoning ordinances,
- zoning district maps, and
- within sensitive coastal resources areas, other implementing actions.

The precise content of each LCP is determined by the local government in full consultation with the Coastal Commission and with full public participation. Pub Res C §§30500(c), 30501. The LCP must meet the requirements of, and implement the provisions and policies of, the Coastal Act at the local level. Pub Res C §30108.6.

© The Regents of the University of California

1. Local Discretion

§10.284 a. Content

The Coastal Act establishes general policies governing coastal development, leaving to the city, in full consultation with the Coastal Commission, the precise content of the local coastal program (LCP). Pub Res C §30500(c).

© The Regents of the University of California

§10.285 b. Local General Plans and Zoning Ordinances

Changes to a city's general plan, zoning ordinance, or other legislative determinations in conformance with a certified local coastal program (LCP) are subject to referendum or initiative. *Yost v Thomas* (1984) 36 C3d 561, 205 CR 801.

© The Regents of the University of California

§10.286 c. Submittal for Coastal Commission Review

The local coastal program (LCP) may be submitted to the Coastal Commission all at once or in two phases: (1) a land use plan (LUP), and (2) zoning ordinances, zoning district maps, and, if required, other implementing actions. Pub Res C §30511. In addition, a local government may submit an LCP for separate geographic units consisting of less than its entire coastal jurisdiction if the Coastal Commission finds that the areas proposed for separate review can be analyzed for potential cumulative impacts on coastal resources and public access independently of the remainder of the affected jurisdiction. Pub Res C §30511(c).

© The Regents of the University of California

§10.287 d. Delay in Submittal

In September, 2000, at the Coastal Commission's urging, the legislature amended the Coastal Act to add §30166.5 to the Public Resources Code, which directed the Coastal Commission to prepare a local coastal program (LCP) for the City of Malibu. This special legislation was the result of Malibu's inability to obtain an approved LCP for over 9 years after its incorporation. The resulting LCP withstood legal challenge by the city, and was held to have been withdrawn by the legislature from the initiative or referendum power. *City of Malibu v California Coastal Comm'n* (2004) 121 CA4th 989, 18 CR3d 40.

© The Regents of the University of California

§10.288 e. Limited Application of CEQA

The California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177) does not apply to activities and approvals under the Coastal Act by (Pub Res C §21080.9; 14 Cal Code Regs §§15251(f), 15265; *Strother v California Coastal Comm'n* (2009) 173 CA4th 873, 92 CR3d 831):

- Any local government (as defined in Pub Res C §30109) necessary for the preparation and adoption of a local coastal program (LCP); or
- Any state university or college (as defined in Pub Res C §30119) as necessary for the preparation of and adoption of a long-range land use development plan.

However, CEQA applies to the certification of an LCP or a long-range land use development plan by the Coastal Commission as such actions constitute a plan for use in the Coastal Commission's regulatory program. Pub Res C §21080.9; 14 Cal Code Regs §§15251(f), 15265(b); *Strother v California Coastal Comm'n, supra*.

© The Regents of the University of California

2. Land Use Plan (LUP) Certification

§10.289 a. Standard

The Coastal Commission may require conformance with the policies and requirements of the Coastal Act only to the extent necessary to achieve the basic goals of the Coastal Act. Pub Res C §§30001.5, 30512.2.

© The Regents of the University of California

§10.290 b. Commission Hearing

No later than 60 days after a land use plan (LUP) or portion of an LUP is submitted, the Coastal Commission must conduct a public hearing and determine, by a majority vote of its members present, whether the submittal raises "no substantial issue" as to its conformity with the policies of the Coastal Act. If the Coastal Commission determines that no substantial issue is raised, the LUP or portion thereof is deemed certified as submitted. Pub Res C §30512(a)(1).

© The Regents of the University of California

§10.291 c. Public Hearing

If the Coastal Commission finds that a substantial issue is raised, it must conduct a public hearing no later than 90 days after submission of the land use plan (LUP) or portion thereof and determine, by a majority vote of its appointed membership, whether to certify the plan in whole or in part based on whether the plan meets the policies contained in chapter 3 of the Coastal Act. Pub Res C §30512(a)(3), (c). If the Coastal Commission fails to act within that time period, the LUP or portion thereof is deemed certified. Pub Res C §30512(a)(2).

© The Regents of the University of California

3. Effect of Local Coastal Program (LCP) Certification

§10.292 a. Full Certification

Cities with a certified local coastal program (LCP) are given authority to issue most coastal development permits. Pub Res C §30519.

© The Regents of the University of California

§10.293 b. Partial Certification

On certification of the land use portion of the local coastal program (LCP), a city may issue certain coastal development permits. Pub Res C §30600.5. See also *Maya Del Mar v California Coastal Comm'n* (1984) 152 CA3d 49, 199 CR 225. Before certification of an LCP, the Coastal Commission must approve the following (Pub Res C §30601):

- Projects proposed between the sea and the nearest public road or 300 feet inland of a beach or the line of mean high tide;
- All development on submerged or tidal or public trust lands and near wetlands and coastal bluffs; and
- All major public works or energy facilities.

© The Regents of the University of California

4. Denial of Certification

§10.294 a. Findings

If the Coastal Commission determines not to certify a land use plan (LUP), in whole or in part, it must provide written findings. It may suggest modifications that, if adopted by the local government, would cause the LUP to be deemed certified on confirmation by the Coastal Commission's executive director. Pub Res C §30512(b). A certification with suggested modifications expires 6 months after action by the Coastal Commission. 14 Cal Code Regs §13537(b).

© The Regents of the University of California

§10.295 b. Modifications

The local government may request that the Coastal Commission not recommend or suggest modifications. In such case, the Commission must refuse certification with the required written findings. The local government may also elect to meet the Coastal Commission's decision to refuse certification in a manner other than by the modifications suggested by the Coastal Commission and may then submit a revised land use plan (LUP) to the Coastal Commission. Pub Res C §30512(b).

© The Regents of the University of California

5. Approval of Zoning and Other Implementing Actions

§10.296 a. Standard

The Coastal Commission may reject zoning ordinances and other implementing actions submitted to it only on the grounds they do not conform with, or are inadequate to carry out, the provisions of the certified land use plan (LUP). Pub Res C §30513. If the Coastal Commission has not rejected the zoning ordinances, zoning district maps, and other implementing actions within 60 days, and after a public hearing, these actions are deemed approved. Pub Res C §30513.

© The Regents of the University of California

§10.297 b. Commission Actions

Like the action required on an land use plan (LUP), a decision on the zoning ordinances and other implementing actions requires a majority vote of the commissioners present. 14 Cal Code Regs §13542(b). If the Commission rejects the zoning ordinances and other implementing actions, it may suggest modifications, which, if adopted by the local government, will be deemed approved on confirmation by the executive director. Pub Res C §30513. A certification with suggested modification expires 6 months after action by the Coastal Commission. 14 Cal Code Regs §13542(b).

© The Regents of the University of California

§10.298 c. Modifications

The local government may request that the Coastal Commission not recommend or suggest modifications. In such case, the Commission must refuse certification with the required written findings. The local government may also elect to meet the Coastal Commission's decision to refuse certification in a manner other than by the modifications suggested by the Commission, and may then submit revised zoning ordinances, zoning district maps, and other implementing actions. Pub Res C §30513.

© The Regents of the University of California

§10.299 6. Amendments to Certified Local Coastal Program

A certified local coastal program (LCP) and all local implementing ordinances may be amended by a local government, but any such amendment takes effect only on certification by the Coastal Commission. Pub Res C §30514(a). For purposes of the Coastal Act, an "amendment of a certified local coastal program" includes, but is not limited to, any action by the local government that authorizes a use of a parcel of land other than that designated in the LCP as a permitted use. Pub Res C §30514(e). This includes an amendment of the LCP by initiative or referendum. *Yost v Thomas* (1984) 36 C3d 561, 205 CR 801; 70 Ops Cal Atty Gen 220 (1987).

Amendments are submitted to and processed by the Coastal Commission in the same manner as LCPs, except that the Coastal Commission makes no determination as to whether a proposed amendment raises a substantial issue as to conformity with the policies of chapter 3 of the Coastal Act. Pub Res C §30514(b). Only three submittals of proposed amendments are permitted in any calendar year, but there are no limitations on the number of amendments included in each submittal. Pub Res C §30514(b). The Coastal Commission has established separate procedures for review of minor and de minimis amendments. Pub Res C §30514(c)-(d).

© The Regents of the University of California

§10.300 7. Periodic Review of Local Coastal Programs

The Coastal Commission must review each certified local coastal program (LCP) at least once every 5 years to evaluate its effectiveness in implementing Coastal Act policies. If the Commission finds that a certified LCP is not being carried out in conformity with the Coastal Act, it must recommend corrective actions to the local government, which may include recommended amendments to the certified LCP. Pub Res C §30519.5; *Security Nat'l Guar., Inc. v California Coastal Comm'n* (2008) 159 CA4th 402, 421, 71 CR3d 522. However, the Commission has no power either to make the amendments itself or to compel the local government to make them. 159 CA4th at 421.

© The Regents of the University of California

C. Coastal Development Permits

§10.301 1. Basic Requirement

Any person desiring to perform or undertake any development in the coastal zone must first obtain a coastal development permit, in addition to obtaining any other permit required by other state or local agencies. Pub Res C §30600(a). See *Healing v California Coastal Comm'n* (1994) 22 CA4th 1158, 27 CR2d 758. The term "person" includes the state, any local government or special district, and, to the extent permitted by federal law, the federal government. Pub Res C §§21066, 30600(a).

An exception to this permit requirement is provided for the following emergency work (Pub Res C §30600(e)):

- Emergency work necessary to protect life or property;
- Emergency work necessary to repair public service facilities damaged as a result of a disaster when a state emergency has been declared by the governor; and
- Emergency projects to maintain, repair, or restore a highway damaged as a result of fire, flood, storm, or earthquake.

In such instances, the Coastal Commission must be notified within 14 days from the date of commencement of the project. Pub Res C §30600(e).

© The Regents of the University of California

2. Issuing Agency

§10.302 a. Pre-LCP Certification

Before local coastal program (LCP) certification, the Coastal Commission has authority for issuing all coastal development permits.

© The Regents of the University of California

§10.303 b. Post-LCP Certification

After local coastal program (LCP) certification, coastal permit authority is delegated to local government. The Coastal Commission's role in the permit process is then limited essentially to (Pub Res C §§30519(b), 30603, 30625):

- Retained permit jurisdiction over state tidelands, submerged lands, public trust lands and uncertified geographic areas (areas of deferred certification); and
- Hearing appeals from local actions on appealable developments.

After certification of a city's LCP, a county or the state must obtain a coastal development permit from the city to develop public property within the city's coastal zone jurisdiction. 65 Ops Cal Atty Gen 88 (1982). A city taking an action on a coastal development permit must send notification of its final action to the commission by certified mail within 7 calendar days from the date of taking the action. Pub Res C §30603(d).

© The Regents of the University of California

3. Development

§10.304 a. Statutory Standard

Development subject to the permit requirement is broadly defined and includes, among other things, the following (Pub Res C §30106):

- Placement or erection of any solid material or structure;
- Discharge or disposal of any dredged materials or of any gaseous, liquid, solid, or thermal waste;
- Grading, removing, dredging, mining, or extraction of any material;
- Change of the density or intensity of use of land, including subdivision under the Subdivision Map Act (Govt C §§66410-66499.37) (and any other division of land, including lot splits);
- Change in the intensity of use of water or of access thereto;
- Construction, reconstruction, or alteration of the size of any structure; and
- Removal or harvesting of major vegetation other than for agricultural purposes.

© The Regents of the University of California

§10.305 b. Interpretations

Development includes, among other things, lot line adjustments (see *La Fe, Inc. v Los Angeles County* (1999) 73 CA4th 231, 86 CR2d 217), the conversion of apartment to a stock cooperative (see *California Coastal Comm'n v Quanta Inv. Corp.* (1980) 113 CA3d 579, 609, 170 CR 263), and the conversion of storage area to a restaurant use (see *Stanson v San Diego Coast Reg'l Comm'n* (1980) 101 CA3d 38, 47, 161 CR 392). A permit is required for the development of public land by local governments and state agencies. Pub Res C §§30111, 30519; 65 Ops Cal Atty Gen 88 (1982). A coastal development permit can be required for projects on federal land within the coastal zone. Pub Res C §§30111, 30519. See *California Coastal Comm'n v Granite Rock Co.* (1987) 480 US 572, 94 L Ed 2d 577, 107 S Ct 1419.

© The Regents of the University of California

4. Standards

§10.306 a. Wetlands

Wetlands are "lands within the coastal zone which may be covered periodically or permanently with shallow water and include saltwater marshes, freshwater marshes, open or closed brackish water marshes, swamps, mudflats, and fens." Pub Res C §30121. Although the Commission relies on the cited definition to identify "wetlands," it has expanded the definition, "given the highly variable environmental conditions along the California coast rendering some wetlands not readily identifiable by simple means." See *Kirkorowicz v California Coastal Comm'n* (2000) 83 CA4th 980, 987, 100 CR2d 124. In addition to obtaining other wetlands approvals, a permit applicant must demonstrate that the development minimizes the adverse impacts to wetlands. Pub Res C §30233(a). See *Bolsa Chica Land Trust v Superior Court of San Diego County* (1999) 71 CA4th 493, 83 CR2d 850. See also *Solid Waste Agency v United States Army Corps of Eng'rs* (2001) 531 US 159, 148 L Ed 2d 576, 121 S Ct 675. Residential development is not allowed in wetlands, even if the development is used to finance the restoration of other degraded wetlands. Pub Res C §30233(a); *Bolsa Chica Land Trust v Superior Court of San Diego County* (1999) 71 CA4th 493, 83 CR2d 850. Wetlands of any quality are entitled to protection. *Dunn v Santa Barbara County* (2006) 135 CA4th 1281, 38 CR3d 316. For other wetlands considerations, see §§10.334-10.361.

© The Regents of the University of California

§10.307 b. Public Access

Permits for new development as defined in Pub Res C §30106 must provide for public access to the shoreline and along the coast. Pub Res C §§30210-30212. Public access exactions must consider factors including the following (Pub Res C §30214):

- The topography and character of the site;
- The impact of public access on the other users of the land; and
- The owners of adjacent land.

The public access requirement constitutes a valid exercise of a regulatory power, and, as such, is not an unconstitutional taking as long as the project contributes, albeit indirectly, to the need for public access. *Grupe v California Coastal Comm'n* (1985) 166 CA3d 148, 212 CR 578. But see *Nollan v California Coastal Comm'n* (1987) 483 US 825, 97 L Ed 2d 677, 107 S Ct 3141 (permit condition requiring dedication of easement invalid when condition does not further purpose advanced for imposition of the condition (protection of views)).

© The Regents of the University of California

§10.308 c. Housing

Cities must maintain a feasible level of affordable housing within the coastal zone. Pub Res C §30607.2; Govt C §65590. Before the certification of a local coastal program, single-family residences may be built on certain lots without a coastal development permit. Pub Res C §§30610.1-30610.2.

© The Regents of the University of California

§10.309 5. Statutory Exemptions

The Coastal Act expressly exempts from the coastal development permit requirement certain types of developments and areas. See Pub Res C §30610; 14 Cal Code Regs §§13250-13253. It also exempts, before local coastal program (LCP) certification, construction of a single-family residence on certain vacant lots located in a specified area designated by the Coastal Commission, provided that these lots meet certain criteria. Pub Res C §30610.1(c); Pub Res C §§30610.1-30610.2. The Coastal Act does not limit the power of a local government to declare, prohibit, or abate nuisances. Pub Res C §30005(b).

© The Regents of the University of California

§10.310 6. Coastal Commission Permit Procedures

The Coastal Commission's rules for processing permit applications are found in 14 Cal Code Regs §§13052-15170. The Coastal Commission's executive director may waive the permit requirement for de minimis projects. 14 Cal Code Regs §§13238-13238.2. The executive director may also, administratively, issue permits for emergency projects and certain small developments. Pub Res C §30624; 14 Cal Code Regs §§13136-13153. All other permits are processed as regular permits, except that the Commission may take up as a single matter on the consent calendar certain matters considered as de minimis with respect to Coastal Act purposes and objectives. 14 Cal Code Regs §§13100-13103.

© The Regents of the University of California

§10.311 a. Other Agency Permits

The Coastal Commission will not accept an application for a permit unless all other state or local governmental agencies have granted at a minimum preliminary approval for the development proposed. Required preliminary approvals include (14 Cal Code Regs §13052):

- Tentative map approval;
- Conditional use, variance, or zone change approval;
- A final environmental impact report (EIR) or negative declaration; and
- An approval in concept (*i.e.,* approval of general uses and intensity of use proposed as permitted by the applicable local general plan, zoning requirement, height, setback, or other land use ordinances).

Local agencies may require applicants to agree to defend, indemnify, and hold harmless the agency with respect to litigation challenging the coastal permit. 85 Ops Cal Atty Gen 21 (2002). In certain instances, preliminary approvals may be waived. 14 Cal Code Regs §13053.

© The Regents of the University of California

§10.312 b. Hearings

The Coastal Commission must set a de novo hearing on an application for coastal development permits and any appeals no later than 49 days after the date on which the application is filed with the Commission. Pub Res C §30621. After an application is filed, the Coastal Commission receives written comments from the public and affected public agencies and a written report and recommendation from its staff. 14 Cal Code Regs §§13057-13061, 13073-13087. A public hearing is conducted at the conclusion of which the Coastal Commission may vote to approve, deny, or conditionally approve the application. Pub Res C §30607; 14 Cal Code Regs §§13062-13072, 13090-13095.

© The Regents of the University of California

§10.313 c. Pre-LCP Permits

If the matter is heard before local coastal program (LCP) certification, the Coastal Commission may approve the application if it finds that the proposed development conforms with the policies contained in chapter 3 of the Coastal Act and will not prejudice the local government's ability to prepare an LCP meeting those policies. Pub Res C §30604(a). Written findings that address the requirements of both the Coastal Act and the California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177) are required. Pub Res C §§21002, 30604; 14 Cal Code Regs §13096. Because its regulatory program has been certified by the Secretary of Resources, the Coastal Commission is exempt from the requirement of preparing an environmental impact report for projects it approves. Pub Res C §21080.5; 14 Cal Code Regs §15251.

© The Regents of the University of California

§10.314 d. Revocation

The Coastal Commission's regulations provide for revocation of permits previously issued, reapplication following the denial of a permit, and reconsideration of the terms and conditions of a permit granted or of a permit denial. Pub Res C §30627; 14 Cal Code Regs §§13104-13109.

© The Regents of the University of California

§10.315 7. Post-Certification Local Government Permit

A local government that has a fully certified local coastal program (LCP) may adopt its own coastal development permit system or it may incorporate coastal development permits into its existing land use permit procedures. 14 Cal Code Regs §§13302-13303.

© The Regents of the University of California

D. Post-Certification Appeals From Local Government Permit Decisions

1. Appeal Jurisdiction

§10.316 a. Beachfront Development

In the case of a certified local coastal program (LCP), the Coastal Commission has appeal jurisdiction over developments approved by the local government between the sea and the first public road paralleling the sea or within 300 feet of the inland extent of any beach or the mean high tide line where there is no beach, whichever is the greater distance. Pub Res C §30603(a)(1).

© The Regents of the University of California

§10.317 b. Other Appellate Jurisdiction

The Coastal Commission also has appeal jurisdiction over developments approved by the local government located ((Pub Res C §30603(a)(2)):

- On tidelands, submerged lands, public trust lands;
- Within 300 feet of the top of the seaward face of any coastal bluff; or
- Within 100 feet of certain wetlands, estuaries, or streams.

Specific types of development are also appealable to the commission without regard to geographic location within the coastal zone. An example is the approval of a development that is not designated as the "principal permitted use" under the approved zoning ordinance or zoning district map. Pub Res C §30603(a)(4).

© The Regents of the University of California

§10.318 2. Grounds for Appeal and Scope of Review

For appealable developments, the grounds for appeal are limited to an allegation that the development does not conform to the certified local coastal program (LCP) or the public access policies. Pub Res C §30603(b). Thus, the Coastal Commission may not consider whether a proposed development impacts views of the coast from offshore vantage points, when neither the Coastal Act nor the local agency's certified LCP refers to the protection of offshore views. See *Schneider v California Coastal Comm'n* (2006) 140 CA4th 1339, 44 CR3d 867. Likewise, the Commission has no jurisdiction, during an appeal of a coastal development permit, to designate a new environmentally sensitive habitat area (ESHA) that contradicts the terms of a certified LCP. *Security Nat'l Guar., Inc. v California Coastal Comm'n* (2008) 159 CA4th 402, 71 CR3d 522. On the other hand, the Coastal Commission may not approve a coastal development permit for a residential project in an ESHA, when the certified LCP limits development in such areas to resource dependent uses, unless the Commission makes detailed findings, with supporting evidence, that to so limit development would deprive the property owner of substantially all economically viable uses of his or her property, and thus constitute a taking. *McAllister v California Coastal Comm'n* (2008) 169 CA4th 912, 87 CR3d 365.

© The Regents of the University of California

§10.319 3. Who May Appeal

Only the applicant, an aggrieved person, or any two members of the Coastal Commission are eligible to appeal an action on a coastal development permit or claim of any exemption for any development by the local government. Pub Res C §30625. An aggrieved person is one who expresses concerns about an application or local action, by either appearing at the local public hearing or otherwise communicating his or her concerns to the local government, or one who for good cause could do neither. Pub Res C §30801.

© The Regents of the University of California

§10.320 4. Timing of Appeal

With limited exceptions, the Coastal Commission's regulations require the exhaustion of local appeals. 14 Cal Code Regs §13573(a)-(b). An action by local government on an appealable development becomes final at the close of business on the 10th working day, unless an appeal to the Coastal Commission is filed with the Commission. Pub Res C §30603.

© The Regents of the University of California

§10.321 5. Commission Appeal Procedures

Coastal Commission review of an appeal is a three-step process:

(1) An appeal of a local government's action requires the executive director of the Coastal Commission to determine, within 5 days, whether the appeal is patently frivolous. An appeal determined to be patently frivolous must be accompanied by a $300 filing fee. Pub Res C §30620.

(2) The Coastal Commission determines whether the local action raises a substantial issue with respect only to the specific grounds permitted on which the appeal is filed. Pub Res C §30625(b)(2).

(3) If it finds that no substantial issue is raised, the appeal is dismissed and the local government decision stands. Pub Res C §30625(a). If the Coastal Commission does find a substantial issue, it then acts on the appeal through a de novo review following its regular permit procedures; the commission's action supersedes the local government's final action. Pub Res C §30625(c).

Both the substantial issue and action steps may occur after the same or separate public hearings. The Coastal Commission, as a party to the writ proceedings, does not have appellate jurisdiction to modify a coastal development permit when such permit was issued by the city pursuant to an order of the trial court. As a party to the writ proceedings, the commission was bound by this ruling, whether or not it was "final." See *City of Half Moon Bay v Superior Court* (2003) 106 CA4th 795, 131 CR2d 213.

© The Regents of the University of California

E. Judicial Review

§10.322 1. Mandate

Any aggrieved person may seek judicial review of a decision or action of the Coastal Commission by filing a petition for writ of mandate under CCP §1094.5 within 60 days after such decision or action has become final. Pub Res C §30801. A decision or action of local government which is not appealable to the Coastal Commission may also be reviewed under CCP §1094.5 if filed within 60 days after such decision or action has become final. Pub Res C §30802. On mandate actions, see §§13.2-13.27.

© The Regents of the University of California

§10.323 2. Bonds

No litigation bond is required for actions against any government or agency to restrain violations of the Coastal Act or to enforce affirmative duties. Pub Res C §§30803-30804; *Venice Canals Resident Homeowners Ass'n v Superior Court* (1977) 72 CA3d 675, 140 CR 361.

© The Regents of the University of California

§10.324 3. Collateral Attack

If no action is filed within the 60-day period, the decision becomes immune from collateral attack. *California Coastal Comm'n v Superior Court* (1989) 210 CA3d 1488, 1493, 258 CR 567; *Walter H. Leimert Co. v California Coastal Comm'n* (1983) 149 CA3d 222, 232, 196 CR 739.

© The Regents of the University of California

§10.325 4. Ripeness

A challenge to a local coastal plan (LCP) (or amendment thereto) is not ripe until the Coastal Commission has approved or denied it. *Santa Barbara County Flower & Nursery Growers Ass'n, Inc. v Santa Barbara County* (2004) 121 CA4th 864, 17 CR3d 489.

© The Regents of the University of California

F. Enforcement

§10.326 1. Basic Provisions

Any person is entitled to maintain an action for declaratory and equitable relief and for the recovery of civil penalties to enforce the provisions of the Coastal Act or a local coastal program (LCP). Pub Res C §§30803, 30805. The Coastal Act provides that if a prima facie showing of a violation is made, preliminary equitable relief must issue to restrain any further violation of the Coastal Act. Pub Res C §30803; *California Coastal Comm'n v Quanta Inv. Corp.* (1980) 113 CA3d 579, 611, 170 CR 263.

© The Regents of the University of California

2. Cease and Desist Authority

§10.327 a. Permit Violations

The executive director of the Coastal Commission may issue cease and desist orders when a person or governmental agency has undertaken or threatens to undertake any activity that (1) requires a permit for which no permit has been obtained, or (2) may be inconsistent with a previously issued permit. Pub Res C §30809(a).

© The Regents of the University of California

§10.328 b. Certified LCPs and Port Master Plans

Such cease and desist orders may also be issued to enforce certified local coastal program (LCPs) or port master plans when (Pub Res C §30809(a)):

- The local government or a port governing body requests the Coastal Commission to act;
- The local government or a port governing body is a party to the violation; or
- The Coastal Commission requests and the local government or a port governing body declines to act, or does not take action in a timely manner, regarding an alleged violation that could cause significant damage to coastal resources.

© The Regents of the University of California

§10.329 c. Terms and Conditions

Cease and desist orders issued by the executive director may be subject to terms and conditions and are null and void after 90 days. Pub Res C §30809(e). The executive director may issue such cease and desist orders only after giving notice to the landowner or person performing the activity that requires a permit or is inconsistent with an issued permit. The Coastal Commission, on its own or at the request of local government, may itself issue cease and desist orders after conducting a public hearing. Pub Res C §30810(a). All affected persons and agencies must be given notice of the public hearing on a proposed cease and desist order. Pub Res C §30810(c). An order so issued may be subject to terms and conditions, including a requirement of immediate removal of development or a schedule that includes steps to be taken to obtain a permit. Pub Res C §30810(b).

© The Regents of the University of California

§10.330 d. Penalties

A civil penalty not to exceed $6000 for each day in which the violation persists may be imposed for negligent or intentional violation of a cease and desist order by any person or governmental agency. Pub Res C §30821.6.

© The Regents of the University of California

3. Civil Penalties

§10.331 a. Amounts

Any person who violates any provision of the Coastal Act is subject to a civil fine not to exceed $30,000. Pub Res C §30820. If the violation is intentional and knowing, an additional civil fine of between $1000 and $15,000 dollars may be imposed for each day in which such violation occurs. Pub Res C §30820. In the case of intentional and knowing violations, the Coastal Commission may also seek exemplary damages in an amount left to the discretion of the court. Pub Res C §30822.

© The Regents of the University of California

§10.332 b. Use of Funds

Monetary penalties assessed under the Coastal Act must be remitted to the Violation Remediation Account of the state Coastal Conservancy Fund to be used for carrying out the provisions of the Coastal Act, when appropriated by the legislature. Pub Res C §30823.

© The Regents of the University of California

§10.333 4. Restoration

The Coastal Commission, a local government implementing a certified local coastal program (LCP), or a port governing body implementing a certified port master plan may, after a public hearing, order restoration of a site if it finds that development has occurred without a coastal development permit and the development is causing continuing coastal resource damage inconsistent with the Coastal Act. Pub Res C §30811.

© The Regents of the University of California

XII. TIDELANDS, BEACHES, AND STREAMS

§10.334 A. Public Trust Doctrine

The public trust doctrine developed in the common law to protect the public's right to use navigable waters and the lands underlying them for the purposes of navigation, commerce, and fisheries. See Cal Const art X, §§3-4. There can be no vested right to interfere with the public uses protected by the public trust. See generally Longtin's California Land Use §5.62 (2d ed 1987). The California Supreme Court has interpreted the protections of the public trust doctrine broadly.

On harbors, see §§6.156-6.179. On water quality, see §§11.111-11.183. On the California Coastal Act, see §§10.277-10.333.

See also Federal Interagency Committee for Wetland Delineation, Federal Manual for Identifying and Delineating Jurisdictional Waters (USFWS, Soil Conservation Service, Environmental Protection Agency, and Army Corps of Engineers); Tiner, Wetlands of the United States: Current Status and Recent Trends; and Littleworth & Garner, California Water (1995) (published by Solano Press Books, P.O. Box 773, Point Arena, California 95468).

© The Regents of the University of California

§10.335 1. Protection of Traditional Uses

Traditional uses protected at common law included navigation, commerce, and fisheries. These uses have been interpreted to include fishing, hunting, bathing, swimming, boating, anchoring, and general recreational uses. *Bohn v Albertson* (1951) 107 CA2d 738, 238 P2d 128.

© The Regents of the University of California

§10.336 2. Flexibility

The public trust doctrine is flexible to meet changing public needs. *Marks v Whitney* (1971) 6 C3d 251, 259, 98 CR 790.

© The Regents of the University of California

§10.337 3. Effect on Water Rights

Water rights are limited by the public trust doctrine. *National Audubon Soc'y v Superior Court* (1983) 33 C3d 419, 189 CR 346, cert denied (1983) 464 US 977 (no vested right to divert water in a manner harmful to the public trust). The doctrine also requires the state to exercise continuing supervision and control over navigable waters while considering its duty under the public trust. *National Audubon Soc'y v Superior Court, supra*.

© The Regents of the University of California

§10.338 4. Enforcement

Any member of the public has standing to raise a claim of harm to the public trust. However, the proper means of enforcement is by way of a petition for writ of mandate against the appropriate state or local agency charged with protecting the affected trust resources. See generally *Center for Biological Diversity, Inc. v FPL Group, Inc.* (2008) 166 CA4th 1349, 83 CR3d 588.

© The Regents of the University of California

B. Areas Protected

§10.339 1. Navigable Waters, Tidelands, and Submerged Lands

The public trust doctrine protects navigable waters, navigable tidelands, and submerged lands. See *Marks v Whitney* (1971) 6 C3d 251, 257, 98 CR 790; *City of Los Angeles v Duncan* (1933) 130 CA 11, 19 P2d 289. Further, the public trust doctrine continues to apply to tidelands even if the lands are no longer submerged due to the placement of fill. *Zack's, Inc. v City of Sausalito* (2008) 165 CA4th 1163, 1177, 81 CR3d 797.

© The Regents of the University of California

§10.340 2. Nontidal Lakes and Streams

The public trust doctrine applies to nontidal lakes and streams. See *State v Superior Court (Lyon)* (1981) 29 C3d 210, 172 CR 696; *State v Superior Court (Fogerty)* (1981) 29 C3d 240, 172 CR 713, cert denied (1981) 454 US 865. It does not extend to non-navigable waterways in the absence of some impact on navigable waters, nor to artificial reservoirs created to utilize appropriative water rights. *Golden Feather Community Ass'n v Thermalito Irrig. Dist.* (1989) 209 CA3d 1276, 1284, 257 CR 836.

© The Regents of the University of California

§10.341 3. Access to and Use of Waterways

The California Constitution requires owners of frontage or tidal lands to allow access to navigable waters. Cal Const art X, §4. See also Longtin's California Land Use §5.64 (2d ed 1987). The legislature has enacted a number of statutes implementing this constitutional mandate. See §§10.342-10.346.

© The Regents of the University of California

§10.342 a. Subdivisions

New subdivisions must allow public access to an adjacent public waterway, river, stream, fully or partially publicly owned lake or reservoir, bay, shoreline, or ocean coastline. Govt C §§66478.1-66478.13.

© The Regents of the University of California

§10.343 b. Coastal Development Projects

Public access to the coastline must be provided in new development projects along the coastline. Pub Res C §§30210-30212. See also *Grupe v California Coastal Comm'n* (1985) 166 CA3d 148, 212 CR 578.

© The Regents of the University of California

§10.344 c. Public Streets and Highways

Public access to navigable waters must be maintained from public streets and highways within a city. Govt C §39933. See also *Lane v City of Redondo Beach* (1975) 49 CA3d 251, 122 CR 189.

© The Regents of the University of California

§10.345 d. Access in Sale of Public Lands

A public right of access for fishing must be reserved in all lands sold by the state. Cal Const art I, §25. The state must reserve convenient access to navigable waters in the sale of shoreline property. Pub Res C §6210.4.

© The Regents of the University of California

§10.346 e. Reservoirs

Access must be provided to publicly owned water supply reservoirs. Health & S C §§115825-115830. Access must be allowed to waters impounded by a dam on a stream naturally frequented by fish, although exceptions may be granted to waters located wholly on privately owned agricultural or residential property where the free passage of fish is not impeded. Fish & G C §5943.

© The Regents of the University of California

C. Regulatory Authority

§10.347 1. California Coastal Commission

For discussion of the California Coastal Commission, see §§10.278-10.333. See also §1.101.

© The Regents of the University of California

§10.348 2. State Department of Fish and Game

The Fish and Game Commission (FGC) is the state agency charged with the responsibility of regulating the taking of fish and game. Fish & G C §200. In this capacity, the FGC reviews and comments on California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177) documentation to determine if a project will impact birds, mammals, fish, reptiles, and amphibia. Fish & G C §711.4; 14 Cal Code Regs §778.

© The Regents of the University of California

§10.349 a. Fees

The Department of Fish and Game (DFG) collects fees for the review of environmental impact statements (EIRs) ($2,500), negative declarations ($1,800), and projects subject to a certified regulatory program ($850). Fish & G C §711.4; Pub Res C §21089.

© The Regents of the University of California

§10.350 b. Streambed Alteration Permit

The Department of Fish and Game (DFG) must be notified of and must approve any work that substantially diverts, alters, or obstructs the natural flow or substantially changes the bed, channel, or banks of any river, stream, or lake. Fish & G C §1603. See Fish & G C §§1601 and 1603(f) for exceptions related to emergency situations.

© The Regents of the University of California

§10.351 c. Navigation Dredging Permit

A permit is required before using a vacuum or suction dredge in any river, stream, or lake of the state. Fish & G C §5653.

© The Regents of the University of California

§10.352 3. Army Corps of Engineers

The United States Army Corps of Engineers (Corps) is the lead federal agency responsible for regulating wetlands.

© The Regents of the University of California

§10.353 a. Statutory Authority

Several federal statutes grant the United States Army Corps of Engineers (Corps) authority to regulate activities in waters of the United States. Two are of primary importance: §404 of the Clean Water Act (CWA) (33 USC §§1251-1387) (see §10.354) and the Rivers and Harbors Act of 1899 (see §10.355).

© The Regents of the University of California

§10.354 (1) Section 404 of Clean Water Act (33 USC §1344)

Section 404 of the Clean Water Act (CWA) (33 USC §§1251-1387), 33 USC §1344, gives the United States Army Corps of Engineers (Corps) authority over the discharge of dredged or fill material into wetlands and other waters of the United States. 33 CFR §329.1. The objective of the CWA is to "restore and maintain the chemical, physical, and biological integrity of the Nation's waters." 33 USC §1251(a). To meet this goal, §301 of the CWA prohibits the discharge of any pollutant without a permit. 33 USC §1311. Fill material is considered a pollutant. 33 USC §1362(6). Section 404 of the CWA permits the Corps to issue permits for the discharge of dredged or fill materials into waters of the United States. 33 USC §1344.

© The Regents of the University of California

§10.355 (2) Rivers and Harbors Act of 1899

The Rivers and Harbors Act of 1899 (RHA) (33 USC §§401-467n) gives the United States Army Corps of Engineers (Corps) authority to regulate activities in navigable waters of the United States. 33 USC §§401-403. Section 10 of the RHA prohibits the unauthorized obstruction or alteration of any "navigable waters" of the United States. 33 USC §403. Section 9 of the RHA also prohibits the unauthorized construction of any structure over or in navigable waters, excavating from or deposition of material in such waters, or the accomplishment of any other work affecting the course, location, condition, or capacity of such waters. 33 USC §401. Under the RHA, the Corps may issue permits for such activities in navigable waters. See 33 CFR §§330.1-330.6.

© The Regents of the University of California

§10.356 b. Corps' Definition of Wetlands

The United States Army Corps of Engineers (Corps) defines wetlands as "those areas that are inundated or saturated by surface ground water at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions. Wetlands generally include swamps, marshes, bogs, and similar areas." 33 CFR §328.3(b). See also *Solid Waste Agency v United States Army Corps of Eng'rs* (2001) 531 US 159, 148 L Ed 2d 576, 121 S Ct 675. See §10.306 to compare wetlands definition applicable to project subject to Coastal Commission's jurisdiction.

© The Regents of the University of California

§10.357 c. Waters of the United States

Wetlands are only one type of waters of the United States. The term "waters" includes, *e.g.,* territorial seas, prairie potholes, mudflats, all waters used in interstate and foreign commerce, and natural ponds. See 33 CFR §328.3(a).

© The Regents of the University of California

§10.358 d. Nationwide Permits

Nationwide permits are intended to allow dredging or filling to occur with little, if any, delay or paperwork. 33 CFR §330.1. This type of permit has been issued for 26 different activities involving discharges. 33 CFR §330.5; 33 CFR part 330, App A (Nationwide Permits and Conditions). All activities under nationwide permits must comply with a series of special conditions and management practices. 33 CFR §§330.5-330.6.

© The Regents of the University of California

§10.359 e. Individual Permits

Individual permits are for specific activities following review of an individual application. See 33 CFR §§325.1-325.2.

© The Regents of the University of California

§10.360 4. State Lands Commission

The State Lands Commission is the state agency empowered to classify and regulate the use of state-owned lands, including ungranted tidelands and submerged lands. Pub Res C §§6101-6111. The Commission also establishes boundaries among and between publicly and privately owned lands. Pub Res C §6204. The Commission regulates, through leaseholds and other mechanisms, the use of state-owned tidelands. Pub Res C §§6216, 6301.

© The Regents of the University of California

§10.361 5. Department of Boating and Waterways

The Department of Boating and Waterways is the state agency charged with regulating small craft harbors, boating facilities, and beach erosion control. Harb & N C §§50-77.1. The department also regulates all aspects of watercraft and vessels and their use on waterways. Harb & N C §§650-774.4.

© The Regents of the University of California

§10.362 XIII. CHALLENGES TO LAND USE DECISIONS

Damages to property as a result of a land use action can give rise to a variety of constitutional issues including the following:

- A taking under the Fifth Amendment to the United States Constitution or Cal Const art I, §19;
- A violation of civil rights; or
- A denial of due process and equal protection under the Fourteenth Amendment to the United States Constitution or Cal Const art I, §7.

CEQA (California Environmental Quality Act)-based challenges are also quite common in the land use approval process. See §§11.59-11.76.

For complete discussion of environmental regulations, including CEQA, see chap 11. On mandate/judicial review, see §§13.2-13.27. On challenges to land use regulations, see also *Current Issues in Housing and Land Use* (League of California Cities, City Attorneys Continuing Education Seminar, February 2005); Institute for Local Government, An Ounce of Prevention: Best Practices for Making Informed Land Use Decisions (2006) (www.ca-ilg.org/ounce).

© The Regents of the University of California

A. Regulatory and Physical Takings

1. Overview

§10.363 a. Source of Law

The "takings" clause of the Fifth Amendment to the United States Constitution, made applicable to the states through the Fourteenth Amendment, and comparable provisions of Cal Const art I, §19 require payment of just compensation when a governmental entity inversely condemns and therefore "takes" private property for a public use, whether the taking be regulatory or physical (possessory). *First English Evangelical Lutheran Church v County of Los Angeles* (1987) 482 US 304, 314, 96 L Ed 2d 250, 107 S Ct 2378 (regulatory); *Nollan v California Coastal Comm'n* (1987) 483 US 825, 831, 97 L Ed 2d 677, 107 S Ct 3141 (regulatory). See *Locklin v City of Lafayette* (1994) 7 C4th 327, 362, 27 CR2d 613 (physical taking—public entity's alteration of upstream property may render entity liable in inverse condemnation for damage to downstream property).

© The Regents of the University of California

§10.364 b. What Constitutes "Property"

"Property" has been characterized as a "bundle of rights," including but not limited to the right to exclude others. *Loretto v Teleprompter Manhattan CATV Corp.* (1982) 458 US 419, 433, 73 L Ed 2d 868, 102 S Ct 3164 (quoting *Kaiser Aetna v U.S.* (1979) 444 US 164, 176, 62 L Ed 2d 332, 100 S Ct 383).

© The Regents of the University of California

§10.365 c. "Regulatory Taking" Versus "Physical Taking"

Courts distinguish between "physical taking" and "regulatory taking" of property. See *Brown v Legal Found. of Washington* (2003) 538 US 216, 233, 155 L Ed 2d 376, 123 S Ct 1406; *Tahoe-Sierra Preservation Council, Inc. v Tahoe Reg'l Planning Agency* (2002) 535 US 302, 321, 152 L Ed 2d 517, 122 S Ct 1465. When the government physically occupies, takes possession of, or destroys property, a physical taking has taken place. See *U.S. v Pewee Coal Co.* (1951) 341 US 114, 115, 95 L Ed 809, 71 S Ct 670 (executive order directing Secretary of the Interior to take possession of coal mines constituted physical taking). See also *Casitas Mun. Water Dist. v U.S.* (Fed Cir 2008) 543 F3d 1276, 1296 (holding that flow obligations imposed on water project under Endangered Species Act are a physical taking).

A regulatory taking is an uncompensated taking of private property that occurs through governmental regulation. Takings cases often include claims based on both theories. As discussed in §§10.385 and 10.403, temporary physical takings are generally analyzed as regulatory takings. See generally *Loretto v Teleprompter Manhattan CATV Corp.* (1982) 458 US 419, 73 L Ed 2d 868, 102 S Ct 3164.

© The Regents of the University of California

§10.366 d. Availability of Damages

Damages for a taking caused by governmental regulation were formerly unavailable in California. *Agins v City of Tiburon* (1979) 24 C3d 266, 157 CR 372, aff'd (1980) 447 US 255. In 1987, the United States Supreme Court issued decisions indicating inter alia that compensation must be made available if the court determines that governmental regulation amounts to a taking. See *First English Evangelical Lutheran Church v County of Los Angeles* (1987) 482 US 304, 318, 96 L Ed 2d 250, 107 S Ct 2378; *Nollan v California Coastal Comm'n* (1987) 483 US 825, 841, 97 L Ed 2d 677, 107 S Ct 3141. See also *Keystone Bituminous Coal Ass'n v DeBenedictis* (1987) 480 US 470, 473, 94 L Ed 2d 472, 107 S Ct 1232. Thus, pre-1987 California takings cases have been overruled to the extent that they hold that the only remedy for a regulatory taking is mandamus or declaratory relief. *First English Evangelical Lutheran Church v County of Los Angeles* (1987) 482 US 304, 320, 96 L Ed 2d 250, 107 S Ct 2378.

© The Regents of the University of California

§10.367 e. Caveat

The law of regulatory taking is complex and evolving. Analysis of any taking issue will always require thorough and careful legal research.

© The Regents of the University of California

2. Initial Characterization Essential to Analysis

§10.368 a. Suggested Approach

A regulatory taking case requires two levels of analysis (*Penn Cent. Transp. Co. v City of New York* (1978) 438 US 104, 124, 57 L Ed 2d 631, 98 S Ct 2646d):

(1) Is the case ripe for adjudication?

(2) If the case is ripe, liability is analyzed based on the character of the government action, the economic impact of the regulatory action, and the extent to which the action interferes with the owner's reasonable investment-backed expectations.

© The Regents of the University of California

§10.369 b. Is the Case Ripe?

There are two ripeness standards. One standard applies if the owner makes a facial attack on a land use regulation. The other applies if the owner attacks the regulation as it applies to the owner's property. See *First English Evangelical Lutheran Church v County of Los Angeles* (1987) 482 US 304, 312 n6, 96 L Ed 2d 250, 107 S Ct 2378; *Williamson County Reg'l Planning Comm'n v Hamilton Bank* (1985) 473 US 172, 192, 87 L Ed 2d 126, 105 S Ct 3108.

© The Regents of the University of California

§10.370 c. Physical Taking or Regulatory Taking?

If the case is ripe for adjudication, whether the case is a physical taking or a regulatory taking determines the appropriate legal standard. A temporary physical taking should be analyzed as a regulatory taking. See generally *Loretto v Teleprompter Manhattan CATV Corp.* (1982) 458 US 419, 73 L Ed 2d 868, 102 S Ct 3164; *Contra Blue Jeans Equities West v City & County of San Francisco* (1992) 3 CA4th 164, 168, 4 CR2d 114 (challenge to an office building impact fee).

© The Regents of the University of California

3. Ripeness Requirements and Other Limitations on Challenges

§10.371 a. Ripeness Is Jurisdictional

A court has no jurisdiction over a premature claim. *Hensler v City of Glendale* (1994) 8 C4th 1, 10, 32 CR2d 244, cert denied (1995) 513 US 1184; *Long Beach Equities, Inc. v County of Ventura* (1991) 231 CA3d 1016, 1032, 282 CR 877, cert denied (1992) 505 US 1219. A number of decisions dismissing cases on ripeness grounds in the Ninth Circuit are cited in *Kaiser Dev. Co. v City & County of Honolulu* (9th Cir 1990) 898 F2d 112, 113.

© The Regents of the University of California

§10.372 b. Facial Attacks

A facial taking claim alleges that the enactment of the regulation results in a taking; this type of taking claim is thus ripe when the regulation is adopted. Examples of facial taking cases are the *First English* cases. See *First English Evangelical Lutheran Church v County of Los Angeles* (1987) 482 US 304, 96 L Ed 2d 250, 107 S Ct 2378; *First English Evangelical Lutheran Church v County of Los Angeles* (1989) 210 CA3d 1353, 258 CR 893, cert denied (1990) 493 US 1056 (after remand from United States Supreme Court, Los Angeles County ordinance prohibiting construction on interim basis in area prone to flooding was held not a taking because it did not leave owner without any valuable use and substantially advanced safety interest in preventing injury and death due to flooding). See also *Tahoe-Sierra Preservation Council, Inc. v Tahoe Reg'l Planning Agency* (2002) 535 US 302, 337, 152 L Ed 2d 517, 122 S Ct 1465; *Keystone Bituminous Coal Ass'n v DeBenedictis* (1987) 480 US 470, 495, 94 L Ed 2d 472, 107 S Ct 1232; *Hodel v Virginia Surface Mining & Reclamation Ass'n, Inc.* (1981) 452 US 264, 295, 69 L Ed 2d 1, 101 S Ct 2352; *Sinclair Oil Corp. v County of Santa Barbara* (9th Cir 1996) 96 F3d 401, 405 (federal court abstention under *Pullman* doctrine appropriate in case in which facial claim ripe but as-applied claim not ripe); *Lake Nacimiento Ranch Co. v San Luis Obispo County* (9th Cir 1987) 841 F2d 872, 877.

© The Regents of the University of California

§10.373 c. As-Applied Claims

Ripeness requirements for an as-applied taking claim are more stringent. Such claims challenge the application of a land use regulation to a specific property, *e.g.,* denial of a development permit or imposition of a fee or other condition on development. Compare *Terminals Equip. Co. v City & County of San Francisco* (1990) 221 CA3d 234, 243, 270 CR 329 (denial of permit to demolish existing structure not a taking because owner could continue use of existing building), with *Nollan v California Coastal Comm'n* (1987) 483 US 825, 839, 97 L Ed 2d 677, 107 S Ct 3141 (imposition of public beach access easement as condition of development).

© The Regents of the University of California

§10.374 (1) "Final Determination" Requirement

This requires a property owner to have obtained "a final, definitive position regarding how [the city] will apply the regulations at issue to the particular land in question." *Williamson County Reg'l Planning Comm'n v Hamilton Bank* (1985) 473 US 172, 191, 87 L Ed 2d 126, 105 S Ct 3108. The lead cases are *Williamson County Reg'l Planning Comm'n v Hamilton Bank, supra*, *MacDonald, Sommer & Frates v Yolo County* (1986) 477 US 340, 348, 91 L Ed 2d 285, 106 S Ct 2561, and *Palazzolo v Rhode Island* (2001) 533 US 606, 620, 150 L Ed 2d 592, 121 S Ct 2448. *Long Beach Equities, Inc. v County of Ventura* (1991) 231 CA3d 1016, 1032, 282 CR 877, cert denied (1992) 505 US 1219 (applicant must submit at least one "meaningful application" for a development project that has been "thoroughly rejected"). Compare *Guinnane v City & County of San Francisco* (1987) 197 CA3d 862, 868, 241 CR 787, cert denied (1988) 488 US 823 (case unripe because no final action had been taken on building permit application), with *Guinnane v San Francisco City Planning Comm'n* (1989) 209 CA3d 732, 257 CR 742, cert denied (1989) 493 US 936 (denial of building permit did not violate equal protection or substantive due process clauses).

The "final determination" requirement is met when the agency has no further discretionary authority over the use of a property owner's land, or the permissible uses of the property are known to a reasonable degree of certainty. *Williamson County Reg'l Planning Comm'n v Hamilton Bank* (1985) 473 US 172, 191, 87 L Ed 2d 126, 105 S Ct 3108; *Palazzolo v Rhode Island* (2001) 533 US 606, 620, 150 L Ed 2d 592, 121 S Ct 2448; *Suitum v Tahoe Reg'l Planning Agency* (1997) 520 US 725, 738, 137 L Ed 2d 980, 117 S Ct 1659 (*Williamson County*'s final decision requirement "responds to the high degree of discretion characteristically possessed by land use boards in softening the strictures of the general regulations they administer").

© The Regents of the University of California

§10.375 (2) Multiple Applications

Denial of one or more further applications may be necessary if an initial development application is overly ambitious, because rejection of a grandiose plan does not mean that a more modest proposal would also be rejected. *Palazzolo v Rhode Island* (2001) 533 US 606, 620, 150 L Ed 2d 592, 121 S Ct 2448; *MacDonald, Sommer & Frates v Yolo County* (1986) 477 US 340, 348, 91 L Ed 2d 285, 106 S Ct 2561. See also *Kaiser Dev. Co. v City & County of Honolulu* (D Ha 1986) 649 F Supp 926, 942, aff'd (9th Cir 1990) 898 F2d 112 (finding case unripe because developer made no attempt to submit revised proposal after rejection of beach-front hotel complex concept); *Milagra Ridge Partners, Ltd. v City of Pacifica* (1998) 62 CA4th 108, 72 CR2d 394 (taking claim fails under ripeness doctrine when one project rejected, second reversed by referendum, but no third application was filed to enable city to determine what development could be approved under revised zoning designations); *Calprop Corp. v City of San Diego* (2000) 77 CA4th 582, 592, 91 CR2d 792 (city's rejection of plaintiff's landfill use proposal did not create ripe takings claim due to intense and unique proposed use). But see *City of Monterey v Del Monte Dunes at Monterey, Ltd.* (1999) 526 US 687, 143 L Ed 2d 882, 119 S Ct 1624 (lawsuit filed after serial denial of five development applications); *Hoehne v County of San Benito* (9th Cir 1989) 870 F2d 529, 532 (owner not required to apply for variance, rezoning, conditional use permit when not available or futile).

© The Regents of the University of California

§10.376 (3) Repeal or Waiver

The property owner must also request a repeal or waiver of any allegedly onerous regulation. *Williamson County Reg'l Planning Comm'n v Hamilton Bank* (1985) 473 US 172, 187, 87 L Ed 2d 126, 105 S Ct 3108.

© The Regents of the University of California

§10.377 (4) Exhaustion of Administrative and Judicial Remedies

A closely related concept sometimes treated as part of the "final determination" requirement is the California law requiring a property owner to exhaust all available administrative remedies (*e.g.,* administrative appeals, variance request) before bringing suit. See *Metcalf v County of Los Angeles* (1944) 24 C2d 267, 269, 148 P2d 645; *Igna v City of Baldwin Park* (1970) 9 CA3d 909, 914, 88 CR 581. Exhaustion of administrative remedies is also jurisdictional. *Anthony v Snyder (Barratt Am.)* (2004) 116 CA4th 643, 10 CR3d 505. Judicial remedies must also be exhausted by writ of administrative mandamus or (for facial challenge) declaratory relief. *Hensler v City of Glendale* (1994) 8 C4th 1, 13, 32 CR2d 244, cert denied (1995) 513 US 1184. Issues that are addressed in state administrative and judicial proceedings preclude relief in a parallel federal takings claim. *Dodd v Hood River County* (9th Cir 1998) 136 F3d 1219, 1225, cert denied (1998) 525 US 923. For the doctrine to apply, exhaustion of administrative remedies must be required by statute. *Campbell v Regents of Univ. of Cal.* (2005) 35 C4th 311, 25 CR3d 320.

© The Regents of the University of California

§10.378 (5) Futility

The "final determination" requirement is not applicable if the owner can demonstrate futility. The futility exception is narrowly construed. See, *e.g., Hacienda Valley Mobile Estates v City of Morgan Hill* (9th Cir 2003) 353 F3d 651, 661; *American Savings & Loan Ass'n v County of Marin* (9th Cir 1981) 653 F2d 364, 371. See also *Kinzli v City of Santa Cruz* (9th Cir 1987) 818 F2d 1449, 1454, modified (9th Cir 1987) 830 F2d 968, cert denied (1988) 484 US 1043 (denial of at least one meaningful application may be necessary before futility can be asserted). The mere fact that state procedures are untested or uncertain is insufficient to establish futility. *Carson Harbor Village, Ltd. v City of Carson* (9th Cir 2004) 353 F3d 824, 830.

© The Regents of the University of California

§10.379 (6) State Remedies

A property owner must also "seek compensation through the procedures the state has provided" before a federal taking claim is ripe. *Williamson County Reg'l Planning Comm'n v Hamilton Bank* (1985) 473 US 172, 194, 87 L Ed 2d 126, 105 S Ct 3108. Reserving the federal takings claim in state court suffices to preserve the claim in federal court. *San Remo Hotel, L.P. v City & County of San Francisco* (9th Cir 2004) 364 F3d 1088, 1094. However, when the takings issue is litigated and decided in state court, issue preclusion may apply. 364 F3d at 1096. In *San Remo Hotel, L.P. v City & County of San Francisco* (2005) 545 US 323, 337, 162 L Ed 2d 315, 125 S Ct 2491, the U.S. Supreme Court held that the Full Faith and Credit statute precluded federal courts from reconsidering takings claims already heard by a state court. A property owner may file first in federal court only if there was no adequate state remedy available at the time of the alleged taking. See, *e.g., City of Monterey v Del Monte Dunes at Monterey, Ltd.* (1999) 526 US 687, 721, 143 L Ed 2d 882, 119 S Ct 1624; *Carson Harbor Village, Ltd. v City of Carson* (9th Cir 2004) 353 F3d 824, 830 (holding that California's legal scheme for redressing excess rent control is at least facially adequate); *LeVald, Inc. v City of Palm Desert* (9th Cir 1993) 998 F2d 680, 686; *Sinaloa Lake Owners Ass'n v City of Simi Valley* (9th Cir 1989) 882 F2d 1398, 1402, cert denied (1990) 494 US 1016, overruled on other grounds in *Armendariz v Penman* (9th Cir 1996) 75 F3d 1311. A plaintiff may not circumvent ripeness requirements by alleging that it does not seek just compensation, but only an adjudication of the constitutionality of the regulation. *Ventura Mobilehome Communities Owners Ass'n v City of San Buenaventura* (9th Cir 2004) 371 F3d 1046, 1052.

© The Regents of the University of California

§10.380 (7) Limitations on Actions

Takings claims against local legislative and administrative acts are subject to the state statutes of limitations applicable to such acts. For example, a challenge to the facial validity of a zoning ordinance is subject to the 90-day period of limitations under Govt C §65009, but an inverse condemnation claim for damages for the application of a subdivision ordinance to a particular parcel of property is subject to the 90-day limitations period under Govt C §66499.37 for challenging acts pursuant to the Subdivision Map Act (Govt C §§66410-66499.37). *Travis v County of Santa Cruz* (2004) 33 C4th 757, 775, 16 CR3d 404; *Hensler v City of Glendale* (1994) 8 C4th 1, 22, 32 CR2d 244, cert denied (1995) 513 US 1184. See also *Freeman v City of Beverly Hills* (1994) 27 CA4th 892, 896, 32 CR2d 731.

The 5-year limitations period of CCP §319 does not apply to regulatory takings. *Travis v County of Santa Cruz* (2004) 33 C4th 757, 775 n11, 16 CR3d 404. For statute of limitations purposes, a claim that a government action requiring offers of dedication of a beach access easement arises, and the limitation period begins to run, when the offers are made, not when the offers are accepted. *Daniel v County of Santa Barbara* (9th Cir 2002) 288 F3d 375, 383, cert denied (2002) 537 US 973.

© The Regents of the University of California

§10.381 d. "Public Use" Limitation

At issue in *Kelo v City of New London* (2005) 545 US 469, 162 L Ed 2d 439, 125 S Ct 2655, was the Fifth Amendment's prohibition on "taking" private property "for public use, without just compensation." In *Kelo,* the city used condemnation to acquire private property to be resold to a developer who planned to build a business park. 545 US at 472. The Court upheld the city's actions, equating "public use" with "public purpose" and leaving it to the legislative determinations of the state and local governments authorizing and carrying out the eminent domain purpose to determine public purpose. 545 US at 484.

© The Regents of the University of California

§10.382 4. Facial Regulatory Takings Disfavored

Facial challenges to regulations based on a takings claim are generally disfavored and liability is difficult to establish. See *Pennell v City of San Jose* (1988) 485 US 1, 9, 99 L Ed 2d 1, 108 S Ct 849 (rent control ordinance allowing hearing officer to consider tenant's financial difficulties did not constitute facial taking); *Long Beach Equities, Inc. v County of Ventura* (1991) 231 CA3d 1016, 1029, 282 CR 877, cert denied (1992) 505 US 1219 (growth control ordinance limiting number of building permits that may be annually issued did not constitute facial taking). The claimant must show that the regulation will always result in a taking for properties subject to it. Such inquiries are evaluated under the ad hoc factual analysis that the courts have traditionally employed. See *Cwynar v City & County of San Francisco* (2001) 90 CA4th 637, 651, 109 CR2d 233.

© The Regents of the University of California

5. Regulatory Taking Liability Analysis

§10.383 a. Same Analysis for Permanent and Temporary Takings

The standard for determining whether the government must provide just compensation for a regulatory taking is the same for temporary and permanent taking claims. However, the length of time of the taking is a relevant factor. *Tahoe-Sierra Preservation Council, Inc. v Tahoe Reg'l Planning Agency* (2002) 535 US 302, 152 L Ed 2d 517, 122 S Ct 1465 (temporary moratoria on development); *First English Evangelical Lutheran Church v County of Los Angeles* (1987) 482 US 304, 96 L Ed 2d 250, 107 S Ct 2378 (interim ordinance prohibiting construction).

© The Regents of the University of California

§10.384 b. Extraordinary Delay

An extraordinary delay in acting on a development permit application may give rise to a temporary taking claim. However, normal or reasonable delays in processing of development applications or zone change requests do not constitute a taking. *Tahoe-Sierra Preservation Council, Inc. v Tahoe Reg'l Planning Agency* (2002) 535 US 302, 332, 152 L Ed 2d 517, 122 S Ct 1465; *First English Evangelical Lutheran Church v County of Los Angeles* (1987) 482 US 304, 321, 96 L Ed 2d 250, 107 S Ct 2378. A delay resulting from an agency's mistaken assertion of jurisdiction is not a temporary taking requiring compensation. *Landgate, Inc. v California Coastal Comm'n* (1998) 17 C4th 1006, 1018, 73 CR2d 841, cert denied (1998) 525 US 876. But see *Chandis Sec. Co. v City of Dana Point* (1996) 52 CA4th 475, 484, 60 CR2d 481 (stating in dicta that at some point prolonged and unnecessary delays will amount to a taking). To constitute a taking, the delay must be so unreasonable that the court can only conclude that the delay was intended to thwart the owner's use of the land. *Loewenstein v City of Lafayette* (2002) 103 CA4th 718, 127 CR2d 79; *Ali v City of Los Angeles* (1999) 77 CA4th 246, 253, 91 CR2d 458.

© The Regents of the University of California

§10.385 c. Temporary Physical Taking

A regulation that results in a temporary physical taking claim is often analyzed as a regulatory taking. *Loretto v Teleprompter Manhattan CATV Corp.* (1982) 458 US 419, 432 n9, 73 L Ed 2d 868, 102 S Ct 3164. But when the government physically occupies property or acquires a cognizable property interest such as an easement, however temporarily, just compensation must be paid. *Tahoe-Sierra Preservation Council, Inc. v Tahoe Reg'l Planning Agency* (2002) 535 US 302, 322, 152 L Ed 2d 517, 122 S Ct 1465 (citing *U.S. v General Motors Corp.* (1945) 323 US 373, 89 L Ed 311, 65 S Ct 357).

© The Regents of the University of California

§10.386 d. *Penn Central* Ad Hoc Test

In *Penn Cent. Transp. Co. v City of New York* (1978) 438 US 104, 57 L Ed 2d 631, 98 S Ct 2646, the Supreme Court prescribed an ad hoc, case-by-case approach to determining whether there is a taking. The relevant factors include the economic impact of the regulation on the claimant (particularly the extent to which the regulation interfered with distinct investment-backed expectations) and the character of the governmental action. Further, a taking may more readily be found if the interference with property can be characterized as a physical invasion by government, than when interference arises from some public program adjusting the benefits and burdens of economic life to promote the common good. According to *Palazzolo v Rhode Island* (2001) 533 US 606, 150 L Ed 2d 592, 121 S Ct 2448, and *Tahoe-Sierra Preservation Council, Inc. v Tahoe Reg'l Planning Agency* (2002) 535 US 302, 152 L Ed 2d 517, 122 S Ct 1465, *Penn Central* provides the leading test for determining whether there is a taking. See *McClung v City of Sumner* (9th Cir 2008) 548 F3d 1219 (holding that legislative, generally applicable development conditions that do not require an owner to relinquish rights to real property should be analyzed under *Penn Central*).

© The Regents of the University of California

§10.387 e. Two-Prong *Agins* Standard

In *Agins v City of Tiburon* (1980) 447 US 255, 65 L Ed 2d 106, 100 S Ct 2138*,* the United States Supreme Court held that the application of a land use regulation to a specific property is a taking if it "does not substantially advance legitimate state interests or denies an owner economically viable use of his land." 447 US at 260 (citations omitted). Later, in *Lucas v South Carolina Coastal Council* (1992) 505 US 1003, 120 L Ed 2d 798, 112 S Ct 2886*,* the Court clarified that, under this standard, the regulation must deny an owner *all* economically viable use of his or her property. *Lucas v South Carolina Coastal Council, supra*. See also *Palazzolo v Rhode Island* (2001) 533 US 606, 617, 150 L Ed 2d 592, 121 S Ct 2448; *NJD, Ltd. v City of San Dimas* (2003) 110 CA4th 1428, 1437, 2 CR3d 818.

The tests under *Agins* and *Penn Cent. Transp. Co. v City of New York* (1978) 438 US 104, 57 L Ed 2d 631, 98 S Ct 2646, are similar: both may be applied to a single takings claim, although the more nuanced *Penn Central* test appears to be gaining favor in the courts. *Tahoe-Sierra Preservation Council, Inc. v Tahoe Reg'l Planning Agency* (2002) 535 US 302, 152 L Ed 2d 517, 122 S Ct 1465. It appears as if the trend of the law is that if a regulation does not result in a physical invasion or deprive property of all economic use, *Agins* ceases to apply and the *Penn Central* test governs. See *Allegretti & Co. v County of Imperial* (2006) 138 CA4th 1261, 42 CR3d 122.

© The Regents of the University of California

§10.388 (1) *Agins* Partly Overturned

In the most significant takings decision in decades, the Supreme Court in *Lingle v Chevron U.S.A., Inc.* (2005) 544 US 528, 161 L Ed 2d 876, 125 S Ct 2074, partly overturned *Agins* by holding that a regulation may not be challenged as a taking on the grounds that the regulation fails to substantially advance a legitimate state interest. A trial court's application of the "substantially advances a legitimate state interest" prong of the *Agins* test is reversible error. *Los Altos El Granada Investors v City of Capitola* (2006) 139 CA4th 629, 43 CR3d 434. A regulation or condition requiring an exaction of property, however, may still be challenged on the grounds that there is no nexus because the regulation fails to substantially advance a legitimate state interest.

© The Regents of the University of California

§10.389 (2) Categorical Taking/Deprivation of All Economic Use

In *Lucas v South Carolina Coastal Council* (1992) 505 US 1003, 120 L Ed 2d 798, 112 S Ct 2886, the Supreme Court reaffirmed the proposition that a regulation that denies all economically beneficial or productive use of land is a taking per se. However, even if no use is allowed, there is no taking if the government can show that its regulation is necessary to prevent or eliminate a nuisance or "noxious use." *Lucas v South Carolina Coastal Council* (1992) 505 US 1003, 1020, 120 L Ed 2d 798, 112 S Ct 2886. Stated differently, a regulation that deprives land of all economically beneficial use does not effect a compensable taking if "the proscribed use interests were not part of [the property owner's] title to begin with." 505 US at 1027. In *Palazzolo v Rhode Island* (2001) 533 US 606, 629, 150 L Ed 2d 592, 121 S Ct 2448, the Supreme Court ruled that when the claimant acquired land after the enactment of the regulation, the three-prong analysis described in *Penn Central* was the appropriate standard. The *Palazzolo* court also said that when the law allows at least one single-family dwelling there is not a total taking.

© The Regents of the University of California

§10.390 (3) Some Economic Use Remains

A court will not find a categorical taking if a regulation deprives a property of something less than 100-percent economic viability. *Lucas v South Carolina Coastal Council* (1992) 505 US 1003, 1015, 120 L Ed 2d 798, 112 S Ct 2886. Supreme Court Justice Antonin Scalia's *Lucas* opinion also indicates that deprivation of all economic use rule is imprecise because it does not make clear the "property interest" against which the loss of use is to be analyzed. Justice Scalia also states, for example, that it is not clear whether a regulation requiring a developer to leave 90 percent of a rural tract in its natural state should be analyzed as a deprivation of all economically beneficial use or a mere diminution in value of the tract as the whole. 505 US at 1017, 1019. See also *Kavanau v Santa Monica Rent Control Bd.* (1997) 16 C4th 761, 774, 66 CR2d 672, cert denied (1998) 522 US 1077.

© The Regents of the University of California

§10.391 f. Exactions: *Nollan*/*Dolan* "Nexus" Test

The *Nollan*/*Dolan* nexus test is used to determine whether an exaction or condition on property constitutes a taking. Such an exaction is a taking unless the government can demonstrate a direct nexus and rough proportionality between the exaction and the burden placed by the property on public resources. *Nollan v California Coastal Comm'n* (1987) 483 US 825, 97 L Ed 2d 677, 107 S Ct 3141; *Dolan v City of Tigard* (1994) 512 US 374, 129 L Ed 2d 304, 114 S Ct 2309. This analysis requires balancing of interests. See §§10.392-10.397.

For further discussion of the constitutional limits that specifically apply to fees and dedication requirements on development projects, see §§5.163, 5.185.

© The Regents of the University of California

§10.392 (1) Direct Nexus

In the exactions context, *Nollan* amplifies the "substantially advance a legitimate state interest" aspect of the *Agins* standard by requiring a direct and substantial nexus between the burdens created by the proposed property development and the governmental interest addressed by a challenged development exaction. *Nollan v California Coastal Comm'n* (1987) 483 US 825, 834, 97 L Ed 2d 677, 107 S Ct 3141. The property development need not be the sole cause of the impact that an exaction addresses. Rather, the development need only exacerbate a preexisting need (*e.g.,* commercial development's impact on housing). *Dolan v City of Tigard* (1994) 512 US 374, 129 L Ed 2d 304, 114 S Ct 2309. Thus, it is clear that as a result of the *Nollan* nexus test, something more than the deferential rational-basis test is required.

© The Regents of the University of California

§10.393 (2) Rough Proportionality

Once a "direct" or "essential nexus" (*Nollan v California Coastal Comm'n* (1987) 483 US 825, 834, 97 L Ed 2d 677, 107 S Ct 3141) is found between a legitimate state interest and an exaction imposed as a condition of a discretionary permit, a court must decide whether the extent of the exaction bears the required relationship to the project impact. When the exaction involves the dedication of land or an ad hoc fee, the public agency has the burden of showing that there is a "rough proportionality" between the exaction and the impact. Conditions that require the actual dedication of property, rather than merely limiting the landowner's use of the property, are subject to this stricter scrutiny. *Dolan v City of Tigard* (1994) 512 US 374, 391, 129 L Ed 2d 304, 114 S Ct 2309. See also *Keystone Bituminous Coal Ass'n v DeBenedictis* (1987) 480 US 470, 492, 94 L Ed 2d 472, 107 S Ct 1232 (court will balance police power interests served by regulation and property uses permitted by regulatory action against burdens created by regulation to determine whether a taking has occurred).

California law requires local governments to make specific findings and observe a number of procedural requirements before adopting development fees. See generally Govt C §§66000-66008.

© The Regents of the University of California

§10.394 (3) Fees for Public Improvements

Fees used to fund public improvements, imposed as conditions of discretionary permits, are also subject to the "direct nexus" and "rough proportionality" standards. However, fees of general applicability are subject to a more lenient standard of review and will be upheld as long as they are reasonable. *Ehrlich v City of Culver City* (1996) 12 C4th 854, 866, 50 CR2d 242.

© The Regents of the University of California

§10.395 (4) Fees to Mitigate Loss of Housing Units

A fee to mitigate the loss of rental housing units caused by, for example, conversion of rental units to hotel use, will not be subject to *Nollan*/*Dolan* heightened scrutiny if this requirement is based on a legislatively approved formula, and if the government has no discretion as to the amount of the fee. The fee need not be applicable to all property in the city if it is applicable to all similarly situated properties. *San Remo Hotel L.P. v City & County of San Francisco* (2002) 27 C4th 643, 672, 117 CR2d 269.

© The Regents of the University of California

§10.396 (5) Development Denials

The courts have not extended *Nollan*/*Dolan* beyond exactions in the land use context. Development denials are not subject to the rough proportionality test. *City of Monterey v Del Monte Dunes at Monterey, Ltd.* (1999) 526 US 687, 702, 143 L Ed 2d 882, 119 S Ct 1624. See also *Landgate, Inc. v California Coastal Comm'n* (1998) 17 C4th 1006, 1023, 73 CR2d 841, cert denied (1998) 525 US 876.

© The Regents of the University of California

§10.397 (6) Ad Hoc Factual Inquiry

There is no "set formula" for analyzing whether the *Nollan*/*Dolan* nexus requirements have been met. The court conducts an ad hoc factual inquiry into the nexus between the subject property interests served by the exaction and the extent to which the amount of the exaction is proportional to the burden imposed by the proposed use. *Lucas v South Carolina Coastal Council* (1992) 505 US 1003, 1015, 120 L Ed 2d 798, 112 S Ct 2886. See *Penn Cent. Transp. Co. v City of New York* (1978) 438 US 104, 124, 57 L Ed 2d 631, 98 S Ct 2646.

As a rule, the greater the burdens created or exacerbated by the property, the more likely that an exaction's validity will be sustained as long as the exaction ameliorates the burdens. At the other end of the spectrum, the nexus test is not met if a development condition bears no relationship to the benefit conferred on the applicant or burden imposed by the property. See *Kavanau v Santa Monica Rent Control Bd.* (1997) 16 C4th 761, 775, 66 CR2d 672, cert denied (1998) 522 US 1077 (listing 13 factors that may be considered when making such a factual inquiry).

A jury trial may be appropriate to determine disputed factual issues in a regulatory taking challenge filed in a federal court. *City of Monterey v Del Monte Dunes at Monterey, Ltd.* (1999) 526 US 687, 143 L Ed 2d 882, 119 S Ct 1624.

© The Regents of the University of California

§10.398 g. Diminution of Value Cases

In the exaction and dedication context, the *Nollan* (*Nollan v California Coastal Comm'n* (1987) 483 US 825, 834, 97 L Ed 2d 677, 107 S Ct 3141) nexus test must be applied to a regulatory taking claim when a property retains some economically beneficial use. *Lucas v South Carolina Coastal Council* (1992) 505 US 1003, 1015, 120 L Ed 2d 798, 112 S Ct 2886. Thus, for instance, even a landowner who suffers a 90-percent loss in property value may not be entitled to any damages if a *Nollan* nexus is found. See *Lucas,* 505 US at 1017.

© The Regents of the University of California

§10.399 h. Exceptions: When *Nollan/Dolan* Nexus Test Inapplicable

The *Nollan/Dolan* nexus test is not applicable outside of the context of exactions. However, the *Penn Central* and *Agins* tests apply to all regulatory takings claims, regardless of whether there was an exaction. When there was a physical taking or a regulation with a completely confiscatory economic impact on property uses or value (*i.e.,* denial of all economic use), a court may find that there was a categorical taking that mandates the payment of just compensation. *Lucas v South Carolina Coastal Council* (1992) 505 US 1003, 1015, 120 L Ed 2d 798, 112 S Ct 2886.

© The Regents of the University of California

6. Regulations Authorizing Physical Occupation

§10.400 a. Analysis

The analysis of a "physical" regulatory taking claim is limited to determining whether the government has required a property owner to submit to the physical occupation of some or all of the owner's property. *Brown v Legal Found. of Washington* (2003) 538 US 216, 233, 155 L Ed 2d 376, 123 S Ct 1406; *Loretto v Teleprompter Manhattan CATV Corp.* (1982) 458 US 419, 435, 73 L Ed 2d 868, 102 S Ct 3164 (statute requiring property owner to allow installation of cable television lines was a physical taking); *U.S. v Pewee Coal Co.* (1951) 341 US 114, 115, 95 L Ed 809, 71 S Ct 670. But see *Yee v City of Escondido* (1992) 503 US 519, 526, 527, 118 L Ed 2d 153, 112 S Ct 1522 (rejecting a physical taking challenge to mobile home rent control ordinance).

© The Regents of the University of California

§10.401 b. Permanent Physical Occupation

A permanent physical occupation of property compelled by governmental action is a taking *per se*. Physical takings usually involve a possessory property interest, such as fee ownership or an easement. *Brown v Legal Found. of Washington* (2003) 538 US 216, 233, 155 L Ed 2d 376, 123 S Ct 1406; *Lucas v South Carolina Coastal Council* (1992) 505 US 1003, 120 L Ed 2d 798, 112 S Ct 2886; *U.S. v Pewee Coal Co.* (1951) 341 US 114, 115, 95 L Ed 809, 71 S Ct 670. See also *Loretto v Teleprompter Manhattan CATV Corp.* (1982) 458 US 419, 427, 73 L Ed 2d 868, 102 S Ct 3164.

© The Regents of the University of California

§10.402 c. *Penn Central-Agins-Nollan* Nexus Standard Inapplicable to Permanent Physical Taking

If the court agrees with the characterization of a governmental action as resulting in a physical occupation, liability may be more likely to be found, because the analysis of a physical taking does not involve the balancing of interests approach used in regulatory taking cases. *Loretto v Teleprompter Manhattan CATV Corp.* (1982) 458 US 419, 432, 73 L Ed 2d 868, 102 S Ct 3164. But see *Blue Jeans Equities W. v City & County of San Francisco* (1992) 3 CA4th 164, 166, 4 CR2d 114. For this reason, a property owner may attempt to characterize the nature of governmental action as a physical taking rather than a regulatory action. However, physical taking challenges are generally disfavored and therefore difficult to establish. See generally *Keystone Bituminous Coal Ass'n v DeBenedictis* (1987) 480 US 470, 495, 94 L Ed 2d 472, 107 S Ct 1232.

© The Regents of the University of California

§10.403 d. Temporary Physical Occupation

A physical taking may be based on a claim that property has been temporarily taken. However, when the government has not physically occupied the property or acquired a property interest, a temporary physical taking claim should be analyzed as a regulatory taking, applying the *Penn Central-Agins* tests. *Palazzolo v Rhode Island* (2001) 533 US 606, 629, 150 L Ed 2d 592, 121 S Ct 2448; *Loretto v Teleprompter Manhattan CATV Corp.* (1982) 458 US 419, 432 n9, 73 L Ed 2d 868, 102 S Ct 3164.

© The Regents of the University of California

7. Remedy

§10.404 a. Invalidation

A property owner who seeks damages for an alleged regulatory taking must file an action in state court to invalidate the allegedly onerous regulation, *e.g.,* a permanent injunction, or, in the case of a permit denial or development condition imposed after a city's quasi-adjudicatory hearing, seek mandamus relief. These actions must be filed before or concurrently with the taking claim. *Williamson County Reg'l Planning Comm'n v Hamilton Bank* (1985) 473 US 172, 194, 87 L Ed 2d 126, 105 S Ct 3108; *Agins v City of Tiburon* (1979) 24 C3d 266, 273, 157 CR 372, aff'd (1980) 447 US 255; *Patrick Media Group, Inc. v California Coastal Comm'n* (1992) 9 CA4th 592, 607, 11 CR2d 824. See also *Hensler v City of Glendale* (1994) 8 C4th 1, 32 CR2d 244, cert denied (1995) 513 US 1184; *California Coastal Comm'n v Superior Court* (1989) 210 CA3d 1488, 1496, 258 CR 567, cited with approval in *Rossco Holdings Inc. v State* (1989) 212 CA3d 642, 657, 260 CR 736, cert denied (1990) 494 US 1080 (administrative mandamus must be pursued to invalidate allegedly improper development conditions). However, when the agency completely lacked jurisdiction, a writ of mandamus action is not required. *Buckley v California Coastal Comm'n* (1998) 68 CA4th 178, 190, 80 CR2d 562.

© The Regents of the University of California

§10.405 b. Accrual of Damages

Successful takings claimants may be awarded damages. *First English Evangelical Lutheran Church v County of Los Angeles* (1987) 482 US 304, 311, 96 L Ed 2d 250, 107 S Ct 2378. Damages begin to accrue on the date the challenged regulation is imposed rather than the date on which the city refuses to pay. 482 US at 320. Damages are measured by "the property owner's loss, rather than the government's gain." *Brown v Legal Found. of Washington* (2003) 538 US 216, 235, 155 L Ed 2d 376, 123 S Ct 1406. However, damages may not be awarded until the challenged regulation is determined to be a taking. *Agins v City of Tiburon* (1979) 24 C3d 266, 157 CR 372, aff'd (1980) 447 US 255. See *Freeman v City of Beverly Hills* (1994) 27 CA4th 892, 32 CR2d 731 (barring money damages claim when action not filed within statute of limitations in Govt C §65009(c)(2)).

© The Regents of the University of California

§10.406 c. Damages Not Necessarily Required

In regulatory takings jurisprudence, compensation is required only if the regulation denies all economically beneficial or productive use of land. Supreme Court Justice Antonin Scalia indicates in *Lucas v South Carolina Coastal Council* (1992) 505 US 1003, 1019 n8, 120 L Ed 2d 798, 112 S Ct 2886, that

> [i]t is true that in at least some cases the landowner with 95% loss will get nothing, while the landowner with total loss will recover in full. But that occasional result is no more strange than the gross disparity between the landowner whose premises are taken for a highway (who recovers in full) and the landowner whose property is reduced to 5% of its former value by the highway (who recovers nothing). Takings law is full of these 'all-or-nothing' situations.

Payment is not required even if a regulation deprives land of all economically beneficial use "if the logically antecedent inquiry into the nature of the owner's estate shows that the proscribed use interests were not part of (the owner's) title to begin with." *Lucas,* 505 US at 1027.

No payment is required if the city proves that the property is a noxious use or nuisance. *Lucas,* 505 US at 1020.

© The Regents of the University of California

B. Procedural Due Process

§10.407 1. Constitutional Provisions

A city must afford procedural due process before depriving a person of a significant property or liberty interest. US Const amends V, XIV; Cal Const art I, §7. Procedural due process generally means notice and opportunity to be heard. See, *e.g., Dusenbery v U.S.* (2002) 534 US 161, 170, 151 L Ed 2d 597, 122 S Ct 694; *Harris v County of Riverside* (9th Cir 1990) 904 F2d 497, 502 (property owner is entitled to notice of legislative proposal to change allowable property uses); *Horn v County of Ventura* (1979) 24 C3d 605, 612, 156 CR 718 (adjacent property owners had constitutional right to notice and hearing on subdivision proposal even though Subdivision Map Act [Govt C §§66410-66499.37] did not then require such notice). However, see *Clark v City of Hermosa Beach* (1996) 48 CA4th 1152, 1179, 56 CR2d 223, cert denied (1997) 520 US 1167, holding that an applicant for a conditional use permit and subdivision had no legitimate expectation or claim of entitlement to permits and therefore no property interest, even though members of the city council discussed issues outside the public hearing and were determined to be biased against the applicant. Thus, someone is entitled to damages for a denial of procedural due process only if the person is deprived of a cognizable "property right" or "liberty interest." See also *BreakZone Billiards v City of Torrance* (2000) 81 CA4th 1205, 1224, 97 CR2d 467 (reiterating that applicants do not have a constitutionally recognized "property right" in a conditional use permit).

See California Land Use Practice, chap 19 (Cal CEB 2006).

© The Regents of the University of California

§10.408 2. Statutory Requirements

Specific notice and hearing requirements are imposed by a number of statutes. These requirements include those discussed in §§10.409-10.413.

© The Regents of the University of California

§10.409 a. Ralph M. Brown Act

The Ralph M. Brown Act (Govt C §§54950-54963) imposes notice, open meeting, and related requirements before a "legislative body" of a local agency may take action. The district attorney or any interested person may file suit to prevent or stop violations. Govt C §§54960-54960.1. The court may award court costs and attorney fees to the prevailing party. Govt C §54960.5.

© The Regents of the University of California

§10.410 b. Planning and Zoning Law

The Planning and Zoning Law contains a number of procedural requirements, as follows:

- **Zoning hearings.** Cities must develop and implement minimum procedural rules for zoning hearings; these must include provisions for notice to interested parties and opportunity to be heard. See Govt C §65804.
- **Notice requirements.** State law imposes notice requirements for any public hearing required by the Planning and Zoning Law. See Govt C §§65090-65096. A person's failure to receive notice required by the law does not constitute grounds for invalidation if the notice was actually given. Govt C §65093.
- **Adoption and amendment of general plan and specific plans.** See Govt C §§65350-65358, 65453.
- **Curative statute.** An error or omission with respect to notice or other procedures will not invalidate any proceeding subject to the Planning and Zoning Law unless a court finds that the error was prejudicial, that it substantial injury to the complaining party, and that a different result would have been probable if the error had not occurred. Govt C §65010. There is "no presumption that error is prejudicial or that injury was done if the error is shown." Govt C §65010.

© The Regents of the University of California

§10.411 c. Subdivision Map Act

The Subdivision Map Act (Govt C §§66410-66499.37) requires local agencies to provide notice and a hearing before making most decisions affecting the subdivision of property. See generally Govt C §§66451-66472.1.

© The Regents of the University of California

§10.412 d. California Environmental Quality Act (CEQA)

The California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177) also imposes public notice and review requirements. See, *e.g.,* Pub Res C §§21092-21092.6 (negative declarations and environmental impact reports). Failure to comply with a CEQA requirement that "precludes relevant information from being presented to the public agency … may constitute a prejudicial abuse of discretion." Pub Res C §§21005, 21168, 21168.5. Several cases indicate that the "harmless error" standard does not apply when an agency has not proceeded in accordance with CEQA requirements. See *Friends of the Eel River v Sonoma County Water Agency* (2003) 108 CA4th 859, 882, 134 CR2d 322; *Resource Defense Fund v Local Agency Formation Comm'n* (1987) 191 CA3d 886, 897, 236 CR 794; *Rural Landowners Ass'n v City Council* (1983) 143 CA3d 1013, 1022, 192 CR 325.

© The Regents of the University of California

§10.413 e. Judicial Review

If there is no explicit standard for judicial review, the effect of failure to comply with any statutory due process requirement will generally be determined by whether the legislature intended to impose a mandatory or directory duty. See, *e.g., Downtown Palo Alto Comm. for Fair Assessment v City Council* (1986) 180 CA3d 384, 394, 225 CR 559. When the statute is mandatory, failure to comply with the requirement invalidates the procedure altogether. When the statute is directory, the court will uphold the procedure if the government body "substantially complied" with the statute. 180 CA3d at 394. Statutory requirements for the purpose of informing or educating the public are mandatory and strict compliance is required. *Smith v Board of Supervisors of City & County of San Francisco* (1989) 216 CA3d 862, 875, 265 CR 466; *Ibarra v City of Carson* (1989) 214 CA3d 90, 99, 262 CR 485.

© The Regents of the University of California

3. Fair Hearing Requirements

§10.414 a. Ex Parte Contacts

In legislative actions, procedural due process does not prohibit city council members or planning commission members from making ex parte contacts on such matters pending before them. *City of Fairfield v Superior Court* (1975) 14 C3d 768, 780, 122 CR 543. In quasi-judicial actions, city council members and planning commissioners who have ex parte contacts on matters pending before them are required to disclose all such contacts and the information received at the public hearing so as to allow the applicant and the public to respond or comment on such information. *Clark v City of Hermosa Beach* (1996) 48 CA4th 1152, 56 CR2d 223, cert denied (1997) 520 US 1167 (evidence of council members' analysis of facts not disclosed at public hearing sufficient to reverse council decision). A majority of the members of the city council or planning commission must not hear, discuss, deliberate, or take action on a matter among themselves except at a meeting that meets the requirements of the Ralph M. Brown Act (Govt C §§54950-54963), whether the members meet together or in seriatim meetings. Govt C §54952.2.

© The Regents of the University of California

§10.415 b. Evidence

Evidence on which a decision-maker intends to rely should be made a part of the quasi-adjudicatory hearing record, although strict adherence to the hearsay rule is not required. *Desert Turf Club v Board of Supervisors* (1956) 141 CA2d 446, 455, 296 P2d 882.

© The Regents of the University of California

c. Bias

§10.416 (1) Campaign Contributions

A city council member who receives a campaign contribution from a developer is not automatically barred from acting on the developer's land use permit application. *Woodland Hills Residents Ass'n v City Council* (1980) 26 C3d 938, 945, 164 CR 255. But see Govt C §84308 and 2 Cal Code Regs §§18438-18438.8 (defining who is disqualified from acting on land use entitlement application after receipt of campaign contribution).

© The Regents of the University of California

§10.417 (2) Actual Bias or Appearance of Bias

In cases involving a direct, personal, or pecuniary interest, the constitutional test is an objective appearance of bias. *Haas v County of San Bernardino* (2002) 27 C4th 1017, 1034, 119 CR2d 341; *BreakZone Billiards v City of Torrance* (2000) 81 CA4th 1205, 97 CR2d 467 (no bias when council members received campaign contributions from donor who might benefit from decision or when council member appealed decision of planning commission); *Clark v City of Hermosa Beach* (1996) 48 CA4th 1152, 56 CR2d 223, cert denied (1997) 520 US 1167 (evidence of council member's personal animosity towards applicants sufficient to reverse council decision). But see *Cohan v City of Thousand Oaks* (1994) 30 CA4th 547, 558, 35 CR2d 782 (when local ordinance called for "person" appealing planning commission decision to city council to show cause why commission's action should be overturned, city council's decision to appeal action to itself was an appearance of conflict of interest and was part of overall violation of developer's substantive and procedural due process rights). See also *Haas v County of San Bernardino* (2002) 27 C4th 1017, 1029, 119 CR2d 341 (standard for bias arising from a hearing officer's personal or political, as opposed to financial, views is the same—the court looks at whether there is an actual appearance of bias); *Andrews v Agricultural Labor Relations Bd.* (1981) 28 C3d 781, 791, 171 CR 590; *Linney v Turpen* (1996) 42 CA4th 763, 770, 49 CR2d 813.

© The Regents of the University of California

§10.418 (3) Advance Knowledge of Facts

Members of an adjudicatory body are not biased merely because they have advance knowledge of the adjudicative facts in dispute. *State Water Resources Control Bd. Cases* (2006) 136 CA4th 674, 39 CR3d 189.

© The Regents of the University of California

C. Substantive Due Process and Equal Protection

§10.419 1. Constitutional Provision

The rights to substantive due process and equal protection are protected by the United States and California constitutions. US Const amend XIV; Cal Const art I, §7. They are complementary limitations on the police power.

© The Regents of the University of California

2. Substantive Due Process

§10.420 a. Overview

The substantive due process doctrine applies to the substance of governmental action, rather than the procedures leading to such action. The doctrine prohibits governmental action that arbitrarily or unreasonably deprives a person of life, liberty, or property. See *Kawaoka v City of Arroyo Grande* (9th Cir 1994) 17 F3d 1227, 1234, cert denied (1994) 513 US 870; *Terminal Plaza Corp. v City & County of San Francisco* (1986) 177 CA3d 892, 908, 223 CR 379. See also 7 Witkin, Summary of California Law, *Constitutional Law* §615- (10th ed 2005).

© The Regents of the University of California

§10.421 b. Deferential Judicial Review

Due process review of land use regulation is highly deferential; a land use regulation is a valid exercise of the police power if it is fairly debatable that it bears a reasonable relation to the general welfare. *Christensen v Yolo County Bd. of Supervisors* (9th Cir 1993) 995 F2d 161; *County Sanitation Dist. No. 2 v County of Kern* (2005) 127 CA4th 1544, 27 CR3d 28. Courts do "not require that the government's action actually advance its stated purposes, but merely look to see whether the government could have had a legitimate reason for acting as it did." *Gerling Global Reinsurance Corp. v Low* (9th Cir 2002) 296 F3d 832, 844, quoting *Wedges/Ledges of Cal., Inc v City of Phoenix* (9th Cir 1994) 24 F3d 56, 66. See also *Carson Harbor Village Ltd. v City of Carson* (9th Cir 1994) 37 F3d 468, 472, overruled on other grounds by *WMX Technols., Inc. v Miller* (1997) 104 F3d 1133, 1136 ("This deferential inquiry does not focus on the ultimate effectiveness of the law, but on whether the enacting body could have rationally believed at the time of the enactment that the law would promote the objective"). The landowner has a heavy burden to show that a land use regulation violates substantive due process. *Herrington v County of Sonoma* (9th Cir 1987) 834 F2d 1488, 1498 n7. In California, ordinary disputes between agencies and developers "simply do not qualify as deprivations of substantive due process." *Stubblefield Constr. Co. v City of San Bernardino* (1995) 32 CA4th 687, 712, 38 CR2d 413, cert denied (1995) 516 US 913.

© The Regents of the University of California

§10.422 c. Companion Claims

As a matter of practice, substantive due process claims are often raised as companion claims to taking and civil rights claims. *Southern Pac. Transp. Co. v City of Los Angeles* (9th Cir 1990) 922 F2d 498, 501, cert denied (1990) 502 US 943. See Larson, The New Substantive Due Process (League of California Cities Continuing Education Seminar, February 1991). However, the courts have held that a substantive due process claim is inappropriate in contexts already addressed by other explicit provisions of the constitution, including the takings clause. *Graham v Connor* (1989) 490 US 386, 395, 104 L Ed 2d 443, 109 S Ct 1865; *Armendariz v Penman* (9th Cir 1996) 75 F3d 1311, 1318. See also *Patel v Penman* (9th Cir 1996) 103 F3d 868, 875. Given that, in general, a regulation may no longer be challenged as a taking on the grounds that the regulation fails to substantially advance a legitimate state interest (*Lingle v Chevron U.S.A., Inc.* (2005) 544 US 528, 161 L Ed 2d 876, 125 S Ct 2074), it remains to be seen whether takings plaintiffs will continue to be barred from asserting a substantive due process claim in connection with a takings claim.

© The Regents of the University of California

§10.423 d. Ripeness

Facial validity challenges are ripe when the regulation is adopted. *Pennell v City of San Jose* (1988) 485 US 1, 11, 99 L Ed 2d 1, 108 S Ct 849.

As-applied challenges are subject to the "final determination" ripeness requirement developed for taking cases by *Williamson County Reg'l Planning Comm'n v Hamilton Bank* (1985) 473 US 172, 186, 87 L Ed 2d 126, 105 S Ct 3108. See *Southern Pac. Transp. Co. v City of Los Angeles* (9th Cir 1990) 922 F2d 498, 507, cert denied (1990) 502 US 943; *Sinaloa Lake Owners Ass'n v City of Simi Valley* (9th Cir 1989) 882 F2d 1398, 1407, cert denied (1990) 494 US 1016, overruled on other grounds in *Armendariz v Penman* (9th Cir 1996) 75 F3d 1311.

© The Regents of the University of California

§10.424 e. Rational-Basis Test

The rational-basis test requires a court to uphold local laws that have a conceivable rational basis. The rational-basis test is sometimes alternatively described as proscribing regulations that are "arbitrary, discriminatory, or demonstrably irrelevant" to a legitimate governmental interest. *Pennell v City of San Jose* (1988) 485 US 1, 11, 99 L Ed 2d 1, 108 S Ct 849 (citing *Nebbia v New York* (1934) 291 US 502, 539, 78 L Ed 940, 54 S Ct 505).

© The Regents of the University of California

§10.425 f. Comparison to Rational-Relationship Test

The rational-basis test for analyzing a substantive due process claim is comparable to the rational-relationship test applied in most equal protection challenges. See Longtin, Longtin's California Land Use §1.30 (2d ed 1987). Compare *Village of Euclid v Ambler Realty Co.* (1926) 272 US 365, 71 L Ed 303, 47 S Ct 114, with *Associated Home Builders, Inc. v City of Livermore* (1976) 18 C3d 582, 135 CR 41. See also *Birkenfeld v City of Berkeley* (1976) 17 C3d 129, 159, 130 CR 465. For discussion of cases, see Longtin, Longtin's California Land Use §§1.30-1.35 (2d ed 1987).

© The Regents of the University of California

§10.426 g. Vested Rights

The substantive due process doctrine provides that a vested right may not be eliminated or significantly impaired, as a general rule, by subsequent changes in legislation. See 7 Witkin, Summary of California Law, *Constitutional Law* §§623-626 (10th ed 2005).

© The Regents of the University of California

§10.427 (1) No Right to Develop

Property owners have no inherent vested or constitutional right to develop their property free from governmental regulation. *Penn Cent. Transp. Co. v City of New York* (1978) 438 US 104, 57 L Ed 2d 631, 98 S Ct 2646; *HFH, Ltd. v Superior Court* (1975) 15 C3d 508, 516, 125 CR 365. See generally 7 Witkin, Summary of California Law, *Constitutional Law* §626 (10th ed 2005). A property owner has no vested right in the zoning in existence at the time of submission of the application. *Stubblefield Constr. Co. v City of San Bernardino* (1995) 32 CA4th 687, 708, 38 CR2d 413, cert denied (1995) 516 US 913.

© The Regents of the University of California

§10.428 (2) Common Law Vested Rights

The right to develop property ordinarily does not vest until the last permit necessary for construction of a project (usually a building permit) has been issued and substantial expenditures have been incurred in reliance on the permit. *Avco Community Developers, Inc. v South Coast Reg'l Comm'n* (1976) 17 C3d 785, 791, 132 CR 386, cert denied (1977) 429 US 1083. Until that point in time, a proposed development project is vulnerable to a change in the general plan, zoning, or other land regulations, as long as such regulations are not discriminatory. *Consaul v City of San Diego* (1992) 6 CA4th 1781, 1794, 8 CR2d 762 (dwelling unit allocation under growth control ordinance did not confer vested right to develop residential project). But see *Bateson v Geisse* (9th Cir 1988) 857 F2d 1300, 1303 (substantive due process claim exists when city council denied building permit despite property owner's fulfillment of all requirements necessary for issuance of non-discretionary building permit). To acquire a vested right, reliance on a permit must be in good faith. *Stokes v Board of Permit Appeals* (1997) 52 CA4th 1348, 1357, 61 CR2d 181 (no vested right when developer misrepresented facts on permit application).

© The Regents of the University of California

§10.429 (3) Mines, Quarries, Timber, and Other Extractive Industries

In the special cases of mines, quarries, timber, and other extractive industries in which the originally permitted use becomes legally nonconforming, discontinuation of the use on one portion of the property does not constitute an abandonment of vested rights to continue the historically permitted use when the owner has continuously used some portion of the property for its original purpose. *Hansen Bros. Enters., Inc. v Board of Supervisors* (1992) 12 C4th 533, 565, 48 CR2d 778 (applying "diminishing asset" rule to find mining company had vested right to continue mining without obtaining new permit). But see *Hermosa Beach Stop Oil Coalition v City of Hermosa Beach (Windward Assocs.)* (2001) 86 CA4th 534, 552, 103 CR2d 447 (even though defendant had contract with city to drill for oil, defendant had not acquired necessary permits or begun construction, so it had no vested right to do so when initiative prohibiting oil drilling was passed).

© The Regents of the University of California

§10.430 (4) Statutes Affecting Vested Rights Doctrine

The legislature has altered the common law vested rights doctrine in certain instances. The scope of rights vested is determined by the terms of the statute.

With respect to subdivisions, a city must apply the ordinances, policies, and standards in effect at the time a tentative map application is deemed complete. Govt C §66474.2. Rights to proceed with a subdivision vest for certain purposes when a vesting tentative map is approved. See Govt C §§66498.1-66498.9; *Kaufman & Broad Cent. Valley, Inc. v City of Modesto* (1994) 25 CA4th 1577, 1585, 30 CR2d 904.

The term of a development agreement may also protect a project against changes in zoning or the general plan. See generally Govt C §§65864-65869.5; *Santa Margarita Area Residents Together v San Luis Obispo County Bd. of Supervisors* (2000) 84 CA4th 221, 100 CR2d 740 (upholding development agreement generally as valid exercise of police power). Development agreements cannot be used to establish land uses not authorized by the zoning ordinance applicable to the property. *Neighbors in Support of Appropriate Land Use v County of Tuolumne* (2007) 157 CA4th 997, 68 CR3d 882. The conditions of a vesting tentative map may state that in the event of a conflict between the vesting tentative map and a development agreement, the development agreement will control. *Building Indus. Ass'n of Central Cal. v City of Patterson* (2009) 171 CA4th 886, 90 CR3d 63, cert denied (2009) ___ US ___, 175 L Ed 2d 480, 130 S Ct 660. A city may amend or suspend a development agreement only for health and safety reasons. Govt C §65865.3. When a development agreement establishes the scope of the project and precise parameters for future construction as well as a procedure to process project approvals, a city is bound by its commitments under the agreement even when further agreement and discretionary approvals are necessary for the project. *Santa Margarita Area Residents Together v San Luis Obispo County Bd. of Supervisors* (2000) 84 CA4th 221, 229, 100 CR2d 740.

© The Regents of the University of California

3. Equal Protection

§10.431 a. Overview

A city may not deprive a person of equal protection of the laws. US Const amend XIV; Cal Const art I, §7.

The equal protection doctrine requires a city to treat similarly situated persons in a like manner. However, absolute equality is not required. The equal protection doctrine is particularly significant in reviewing the fairness of regulatory classifications. A classification must be non-arbitrary and based on some difference that has a reasonable relation to a legitimate governmental interest. See 8 Witkin, Summary of California Law, *Constitutional Law* §701 (10th ed 2005).

© The Regents of the University of California

§10.432 b. Application to Land Use Regulations

Cities historically have a wide police power latitude to enact land use classifications that treat classes of properties differently. *Village of Euclid v Ambler Realty Co.* (1926) 272 US 365, 388, 71 L Ed 303, 47 S Ct 114 (upholding general validity of zoning ordinances). See also *Miller v Board of Pub. Works* (1925) 195 C 477, 486, 234 P 381. Equal protection challenges will be reviewed under either the rational-relationship test or the strict-scrutiny test. See 8 Witkin, Summary of California Law, *Constitutional Law* §704 (10th ed 2005).

© The Regents of the University of California

§10.433 c. Rational-Relationship Test

Most equal protection challenges are subject to the rational-relationship test, which is similar to the rational-basis test applied to substantive due process and police power challenges. See *Griffin Dev. Co. v City of Oxnard* (1985) 39 C3d 256, 263, 217 CR 1.

© The Regents of the University of California

§10.434 (1) Nature of Test

The rational-relationship test requires a court to uphold a classification which has some rational relationship to a conceivable legitimate state purpose. See *Weber v City Council* (1973) 9 C3d 950, 958, 109 CR 553; *Candid Enters., Inc. v Grossmont Union High Sch. Dist.* (1985) 39 C3d 878, 890, 218 CR 303. Thus, the classification must be upheld unless it is arbitrary or capricious. Even when property is treated differently from similarly situated properties, if there is any rational basis for differential treatment, it does not violate equal protection. *Stubblefield Constr. Co. v City of San Bernardino* (1995) 32 CA4th 687, 714, 38 CR2d 413, cert denied (1995) 516 US 913.

© The Regents of the University of California

§10.435 (2) When Not Applied

The only classifications not subject to the rational-relationship test are those abridging a fundamental right or applying only to a suspect class.

© The Regents of the University of California

§10.436 (3) Development

"[D]evelopers do not constitute a 'suspect class,' and development is not a 'fundamental interest.' " *Candid Enters., Inc. v Grossmont Union High Sch. Dist.* (1985) 39 C3d 878, 890, 218 CR 303. A citizen challenging a governmental classification bears the burden of showing invalidity. 39 C3d at 890.

© The Regents of the University of California

§10.437 (4) Class of One Property Owner

The Supreme Court has held that one landowner may maintain an equal protection claim if intentionally treated differently from other similarly situated owners without any rational basis. *Village of Willowbrook v Olech* (2000) 528 US 562, 564, 145 L Ed 2d 1060, 120 S Ct 1073. See also *Village of Willowbrook*, 528 US at 566 (Breyer, J., concurring) (single property owner may state equal protection claim only if different treatment motivated by ill will). Although the scope of the "class of one" doctrine remains unclear, circuit courts have begun applying the theory. *Bell v Duperrault* (7th Cir 2004) 367 F3d 703, 707; *Cobb v Pozzi* (2d Cir 2004) 363 F3d 89, 110; *DeMuria v Hawkes* (2nd Cir 2003) 328 F3d 704, 706.

© The Regents of the University of California

§10.438 d. Strict Scrutiny or Compelling State Interest Test

In the rare case when a fundamental right (*e.g.,* freedom of speech, the right to vote, or the right of family members to dwell together) is significantly abridged by a classification or a classification applies only to a suspect class, the strict scrutiny test will apply. See *Moore v City of E. Cleveland* (1977) 431 US 494, 500, 52 L Ed 2d 531, 97 S Ct 1932 (applying strict scrutiny to a regulation that prevented a grandmother from living with her grandson).

© The Regents of the University of California

§10.439 (1) Fundamental Right

A right protected by the United States or California constitutions is a fundamental right. Fundamental rights include freedom of speech and the press and the right to vote, as well as "personal decisions relating to marriage, procreation, contraception, family relationships, child rearing, and education," and an individual's bodily integrity. *Planned Parenthood v Casey* (1992) 505 US 833, 851, 120 L Ed 2d 674, 112 S Ct 2791.

© The Regents of the University of California

§10.440 (2) Suspect Classifications

Suspect classes triggering strict scrutiny include race, national origin, ethnicity, and gender.

© The Regents of the University of California

§10.441 (3) Nature of Test

If the classification affects a fundamental right or suspect class, the court will conduct an independent review of the classification to determine whether the regulatory classification is necessary to further a compelling state interest. Because land use regulation is usually found to further a "substantial" rather than "compelling" government interest, a land use regulation that discriminates against a suspect class or infringes on a fundamental right is likely unconstitutional. 8 Witkin, Summary of California Law, *Constitutional Law* §704 (10th ed 2005).

© The Regents of the University of California

§10.442 (4) When Not Applied

Not every limitation on a fundamental right is subject to the strict scrutiny standard. Regulations that have only an incidental effect on the exercise of a fundamental right are not subject to strict scrutiny. *Young v American Mini Theatres, Inc.* (1976) 427 US 50, 61, 49 L Ed 2d 310, 96 S Ct 2440 (applying rational-relationship test to adult zoning regulations when freedom of speech was not found to be implicated). But see *Doe v City of Butler* (3d Cir 1989) 892 F2d 315, 319 (facially neutral zoning regulation limiting transitional dwellings to six persons had only incidental impact on constitutional right to associate); *Board of Supervisors v Local Agency Formation Comm'n* (1992) 3 C4th 903, 913, 13 CR2d 245, cert denied (1993) 507 US 988 (applying rational-relationship test to requirement that voters in municipal incorporation reside in area to be incorporated because regulation did not abridge fundamental right to vote); *Elysium Institute, Inc. v County of Los Angeles* (1991) 232 CA3d 408, 427, 283 CR 688, cert denied (1992) 502 US 1098 (operation of nudist camp did not involve fundamental right and zoning ordinance's impact on such uses had only an incidental effect on the right to privacy).

© The Regents of the University of California

§10.443 e. Statutory Provisions

Various state and federal statutes prohibit discriminatory land use actions. See, *e.g.,* Govt C §65008 (declaring "null and void" any local land use action that discriminates based on race, sex, color, religion, ethnicity, national origin, ancestry, familial status, disability, lawful occupation, age, method of financing, or intended occupancy by persons of low to middle income); *City of Edmonds v Oxford House, Inc.* (1995) 514 US 725, 729, 131 L Ed 2d 801, 115 S Ct 1776 (federal law prohibits "single-family" residential restrictions that do not reasonably accommodate persons with disabilities); *Bay Area Addiction Research & Treatment, Inc. v City of Antioch* (9th Cir 1999) 179 F3d 725, 730 (Americans with Disabilities Act applies to local zoning ordinances and prohibits discrimination on the basis of disability); *Broadmoor San Clemente Homeowners Ass'n v Nelson* (1994) 25 CA4th 1, 5, 30 CR2d 316 (private CC&Rs (covenants, conditions, and restrictions) invalid to extent they discriminate against disabled persons).

Courts often do not even look to whether land use actions were taken with a discriminatory intent, and may sometimes find a violation of an anti-discrimination statute based solely on its perceived discriminatory impact. See *Keith v Volpe* (9th Cir 1988) 858 F2d 467, 485, cert denied sub nom *City of Hawthorne v Wright* (1989) 493 US 813 (approval of freeway project without construction of replacement housing found to have discriminatory impact based on race and income); *Building Indus. Ass'n of San Diego v City of Oceanside* (1994) 27 CA4th 744, 770, 33 CR2d 137 (growth control initiative found to have discriminatory impact on low-income housing, even though it specifically exempted units dedicated for low-income persons).

© The Regents of the University of California

§10.444 D. Civil Rights

Federal law provides a possible remedy whenever anyone, acting under color of state law (including the adoptions of land use regulations), deprives a person of federal rights, privileges, or immunities. 42 USC §1983.

For related discussion regarding municipal liability and federal statutory provisions, see §§13.114-13.152.

© The Regents of the University of California

§10.445 E. CEQA Challenges

In most legal challenges to land use decisions, the petitioners will also challenge the city's determination under the California Environmental Quality Act (CEQA) (Pub Res C §§21000-21777). For discussion of legal challenges to actions under CEQA, see §§11.59-11.76. On CEQA generally, see §§11.10-11.79. For a detailed discussion of CEQA, see Practice Under the California Environmental Quality Act (2d ed Cal CEB 2008).

I. OVERVIEW OF ENVIRONMENTAL PROTECTIONS

§11.1 A. The Challenge

Environmental law is a fast-growing area of legal concern for the public sector, particularly municipalities. Public agencies must address the practical problems and competing interests involved in preserving the environment. Not only are local entities becoming increasingly responsible for enforcing a plethora of environmental rules and regulations; they also often find themselves subject to regulations, some of which carry hefty penalties for a failure to comply.

For further discussion of topics covered by this chapter, see generally Practice Under the California Environmental Quality Act (2d ed Cal CEB 2008); California Land Use Practice (Cal CEB 2006); California Subdivision Map Act and the Development Process (2d ed Cal CEB 2001).

© The Regents of the University of California

§11.2 B. Sources of Law

Federal and state statutory schemes control nearly every aspect of our environment and the hazards to our environment. Many of the federal and state statutes overlap, although the requirements under state laws most often are as stringent or more stringent than requirements under federal law. Despite the presence of countless federal and state environmental rules and regulations, cities may continue to exercise authority over certain aspects of the environment as long as the authority they exercise falls within their traditional police powers.

© The Regents of the University of California

§11.3 C. Preserving the Public's Interest in Sensitive Lands

There are several different mechanisms available for the conservation of sensitive lands including:

- The public trust doctrine;
- Special state legislation;
- Agreements between public agencies and creation of joint powers agencies; and
- Agreements between public agencies and private parties.

© The Regents of the University of California

1. Public Trust Doctrine

§11.4 a. Interests Protected

The state owns all of its navigable waterways and the land beneath them as trustees of a public trust for the benefit of the people. *National Audubon Soc'y v Superior Court* (1983) 33 C3d 419, 434, 189 CR 346, cert denied (1983) 464 US 977. The public trust doctrine traditionally has been regarded as a way to protect the waterways for navigation, commerce, and fishing. However, the doctrine is increasingly viewed as a mechanism by which to preserve the lands in their natural state, so they may serve as ecological units for scientific study, open space, and environments that provide food and habitat for birds and marine life, and that favorably affect the scenery and climate of the area. 33 C3d at 434.

For discussion of tidelands, beaches, and streams, see §§10.334-10.361. For discussion of harbors, see §§6.156-6.179.

© The Regents of the University of California

§11.5 b. State and Local Responsibilities

Under the public trust doctrine, the state is the administrator of a public trust and has the power and the duty to exercise continued supervision over the trust. This duty is administered by the California State Water Resources Control Board (State Board). In considering the public trust, courts have concurrent jurisdiction with the State Board in water rights controversies to reconsider water allocations. *National Audubon Soc'y v Superior Court* (1983) 33 C3d 419, 426, 189 CR 346, cert denied (1983) 464 US 977.

Public trust uses do not have a priority over other water uses and all competing interests must be balanced. 33 C3d at 445. The State Board has the duty to adopt objectives to protect fish and wildlife uses and to implement a program for achieving those objectives. In doing so, the State Board also has a duty to consider and protect all of the other beneficial uses of water, including municipal, industrial, and agricultural uses. It is up to the State Board to balance all of these competing interests in adopting water quality objectives and formulating a program to achieve those objectives. *State Water Resources Control Bd. Cases* (2006) 136 CA4th 674, 777, 39 CR3d 189.

Parties acquiring rights in trust property (including cities holding such properties as the result of state grants) generally hold those properties subject to the trust and can assert no vested rights to use those properties in a manner harmful to the trust. *National Audubon Soc'y,* 33 C3d at 434.

© The Regents of the University of California

§11.6 c. Future of Public Trust Doctrine

Although the public trust doctrine has been expanded far beyond the traditional trust uses of navigation, commerce, and fishing to include recreational uses and preservation, it is unclear how far the doctrine will reach. There have been multiple cases and commentary that suggest that the public trust doctrine will continue to expand to include government's holding of sensitive lands in trust. *Marks v Whitney* (1971) 6 C3d 251, 259, 98 CR 790. Conversely, courts have chosen not to extend the public trust doctrine to non-navigable waterways or artificial bodies of water. See *Golden Feather Community Ass'n v Thermalito Irrig. Dist.* (1989) 209 CA3d 1276, 257 CR 836.

© The Regents of the University of California

§11.7 2. Conservancies

The California State Legislature has been willing on some occasions to set up a trust or conservancy for the protection of sensitive lands. For example, the legislature set up the Santa Monica Mountains Conservancy to protect the Santa Monica Mountains Zone in 1979. See Pub Res C §§33000-33215. The Coachella Valley Mountains Conservancy performs a similar function in that area of the state. The Coachella conservancy was created in 1990 to hold, in perpetual open space, mountainous lands surrounding the Coachella Valley. Pub Res C §§33500-33806.

© The Regents of the University of California

3. Local Efforts at Conservation

§11.8 a. Joint Powers Agreements

Cities and other local entities may also establish such conservancies, or their functional equivalent, either through private contracts or by creation of a specialized government agency through joint powers agreements. Two or more public agencies by agreement may jointly exercise any power common to the contracting parties. The procedures and powers of such joint powers agencies are described in Govt C §§6500-6536. Such joint powers agencies can perform other environmental functions, as well. For example, two or more public agencies that have the authority to identify, plan for, monitor, control, regulate, dispose of, or abate liquid, toxic, or hazardous wastes or hazardous materials may, by agreement, jointly exercise any of these common powers. See Govt C §6502.7.

On intergovernmental relations, see §§1.85-1.106. On the authority for intergovernmental agreements, see §§7.179-7.189.

© The Regents of the University of California

§11.9 b. Williamson Act

The California Land Conservation Act of 1965 (Williamson Act) (Govt C §§51200-51297.4) generally provides a vehicle for cities and other local agencies to preserve agricultural lands. See §§10.140-10.144. However, land devoted to recreational use, land within a scenic highway corridor, a wildlife habitat area, a salt pond, a managed wetland area, or a submerged area may also be protected under the Williamson Act. Govt C §51205.

© The Regents of the University of California

II. CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA)

§11.10 A. Overview

Sections 11.11-11.78 provide a brief summary of key principles of the California Environmental Quality Act (referred to hereinafter as CEQA (Pub Res C §§21000-21177). For a more comprehensive treatment of this complex subject, see the references listed in §11.79.

© The Regents of the University of California

§11.11 1. Purpose

The provisions of Pub Res C §§21000-21001 contain broad statements of legislative intent regarding the environmental protection goals of CEQA. See also 14 Cal Code Regs §15003. However, the legislature has cautioned the courts not to interpret CEQA to impose procedural or substantive requirements beyond those explicitly stated in CEQA or the state CEQA Guidelines (14 Cal Code Regs §§15000-15387). Pub Res C §21083.1.

© The Regents of the University of California

§11.12 2. CEQA Guidelines

The Secretary of the California Resources Agency has adopted comprehensive regulations governing the requirements of CEQA (referred to as the CEQA Guidelines) (14 Cal Code Regs §§15000-15387). When interpreting CEQA, courts must accord "great weight" to the state CEQA Guidelines unless clearly unauthorized or erroneous. *Laurel Heights Improvement Ass'n v Regents of Univ. of Cal.* (1988) 47 C3d 376, 391 n2, 253 CR 426. See *Communities for a Better Env't v California Resources Agency* (2002) 103 CA4th 98, 126 CR2d 441 (CEQA Guidelines are subject to invalidation if inconsistent with the existing CEQA statute).

PRACTICE TIP: The state CEQA Guidelines are updated infrequently and may be inconsistent with new statutory provisions or recent case law. The CEQA statute and related case law should be cross-referenced to ensure that the CEQA Guidelines reflect current legal requirements. The latest version of the CEQA statute and Guidelines can be found at http://ceres.ca.gov/ceqa.

© The Regents of the University of California

§11.13 3. Local Guidelines

Every local public agency, including each city and redevelopment agency, must adopt local procedures that will be used to evaluate proposed projects and administer the city's responsibilities under CEQA. 14 Cal Code Regs §15022. These are commonly referred to as "local guidelines." The local guidelines must be consistent with CEQA and the state CEQA Guidelines. See Pub Res C §21082; 14 Cal Code Regs §15022. If the state CEQA Guidelines are amended, a city's local guidelines should be amended within 120 days. 14 Cal Code Regs §15022(c).

PRACTICE TIP: To avoid the need for frequent revisions to local guidelines, some cities simply incorporate the state CEQA Guidelines by reference and use their local guidelines to address issues of particularly local concern, such as identifying the appropriate city decision-making body for particular types of projects, describing local procedures for public hearings and administrative appeals, describing which projects are regarded as involving ministerial or discretionary approvals, establishing thresholds of significance for particular environmental impacts, and establishing detailed requirements for mitigation monitoring programs.

© The Regents of the University of California

4. Lead Agencies, Responsible Agencies, and Trustee Agencies

§11.14 a. Definitions

"Lead agency" means the public agency that has the principal responsibility for carrying out or approving a proposed project. Pub Res C §21067; 14 Cal Code Regs §15367. "Responsible agency" means an agency that has discretionary approval authority over a project, but does not have principal responsibility for carrying out or approving the project. Pub Res C §21069; 14 Cal Code Regs §15381. "Trustee agency" means a state agency with "jurisdiction by law" over natural resources affected by a project that are "held in trust for the people of the State of California," though the agency need not have any approval authority over the project. Examples of trustee agencies include the California Department of Fish and Game and the State Lands Commission. 14 Cal Code Regs §15386.

© The Regents of the University of California

§11.15 b. Identifying Lead Agency

Although in some instances two or more agencies will act to implement and/or approve a project, normally only one agency can function as the lead agency. 14 Cal Code Regs §15050(a). The state CEQA Guidelines establish criteria for determining which agency will be the lead agency. 14 Cal Code Regs §15051. A city normally serves as the lead agency for private development projects within its boundaries and for pre-zoning land to be annexed into the city. 14 Cal Code Regs §15051(b). School districts, however, are lead agencies for their own projects, even when these are located within city boundaries. When two or more agencies cannot agree as to which will act as lead agency, any of the agencies or a private project applicant may request the State Office of Planning and Research (OPR) to resolve the dispute. 14 Cal Code Regs §15053.

© The Regents of the University of California

§11.16 c. Roles of Lead, Responsible, and Trustee Agencies

A lead agency is responsible for preparing the environmental documents for a project, including any negative declaration or environmental impact report (referred to hereinafter as EIR). See, *e.g.,* 14 Cal Code Regs §§15081.5, 15082. A responsible agency does not prepare an EIR or negative declaration; the environmental documentation is prepared by the lead agency. 14 Cal Code Regs §15367. A lead agency must consult with responsible agencies as part of the lead agency's efforts to prepare the environmental document. 14 Cal Code Regs §§15072(a), (e), 15086(a). A responsible agency must respond to requests for consultation issued by the lead agency regarding the EIR or negative declaration, and must consider that document before approving the project. 14 Cal Code Regs §15096(b). A responsible agency is bound by the lead agency's determination regarding the adequacy of an EIR or negative declaration, unless the responsible agency (14 Cal Code Regs §§15050(c), 15052, 15096(e)):

- Files a timely legal challenge;
- Determines that a subsequent EIR or negative declaration is needed; or
- Meets certain criteria for assuming the role of lead agency.

In addition to consulting with responsible agencies, lead agencies must also solicit consultation and comments from trustee agencies. See, *e.g.,* 14 Cal Code Regs §15063(g).

© The Regents of the University of California

§11.17 5. Timing for CEQA Compliance

Choosing the precise time for CEQA compliance involves balancing a number of factors. Environmental review must be undertaken as early as reasonably possible in the planning process to allow for environmental considerations to influence the design of a project, yet late enough that meaningful information is available for environmental assessment. 14 Cal Code Regs §15004(b). Environmental review would be premature if completed too early in the planning process to allow for meaningful analysis of potential environmental impacts. *Save Tara v City of West Hollywood* (2008) 45 C4th 116, 139, 84 CR3d 614; *Friends of the Sierra R.R. v Tuolumne Park & Recreation Dist.* (2007) 147 CA4th 643, 54 CR3d 500; *Concerned McCloud Citizens v McCloud Community Servs. Dist.* (2007) 147 CA4th 181, 54 CR3d 1. However, if environmental review is performed too late in the process, it leaves the agency open to the charge that the environmental analysis is merely a post-hoc rationalization of a decision that the agency has already made. *Save Tara*, 45 C4th at 140 (city's actions committed agency to definite course of action concerning proposed housing development, such that city should have completed CEQA process before taking those actions); *Friends of Mammoth v Board of Supervisors* (1972) 8 C3d 247, 104 CR 761 (county planning board improperly issued building permit and conditional use permit for specific project before performing CEQA review).

© The Regents of the University of California

§11.18 6. Project Approval

CEQA review must be completed before a project is approved. 14 Cal Code Regs §15352(a). Any decision by a public agency that "commits the agency to a definite course of action in regard to a project" entails approval, including the execution of a contract, the provision of financial assistance, or the issuance of a permit or license. 14 Cal Code Regs §15352(b).

Although execution of a discretionary contract will generally be equivalent to project approval under this definition, if the agreement is conditional, confers no vested rights, does not restrict the agency from considering alternatives or mitigation measures, and does not legally commit the agency to a definite course of action, it may not constitute an "approval" under CEQA. *Concerned McCloud Citizens v McCloud Community Servs. Dist.* (2007) 147 CA4th 181, 54 CR3d 1. But see *Citizens for Responsible Gov't v City of Albany* (1997) 56 CA4th 1199, 66 CR2d 102 (city's execution of development agreement for horse racing track before completing CEQA review constituted project approval even though agreement was contingent on electorate vote because agreement "committed [the city] to a definite course of action that was contingent only on the outcome of the election").

Before completing CEQA review, an agency "must not take any action that significantly furthers a project in a manner that forecloses alternatives or mitigation measures that would ordinarily be part of the CEQA review of that public project." *Save Tara v City of West Hollywood* (2008) 45 C4th 116, 138, 84 CR3d 614. This issue presents a question of law for the courts. The court will look to the specific terms of the agency's action and the surrounding circumstances to determine "whether, as a practical matter, the agency has committed itself to the project as a whole or to any particular features, so as to effectively preclude any alternatives or mitigation measures that CEQA would otherwise require to be considered," including the alternative of disapproving the proposal. 45 C4th at 139.

PRACTICE TIP: As recognized in *Sava Tara*, cities and other lead agencies often engage in preliminary activities designed to facilitate or otherwise encourage a project but that, in the agency's view, stop short of a binding commitment or "approval." 45 C4th at 136. *Sava Tara* does not disallow such activities before completion of the CEQA process. At the same time, the court held that this issue presents a purely legal question, to be determined based on the facts and circumstances of the challenged action; the court expressly declined to adopt a "bright-line" test. 45 C4th at 138. The decision presents a challenge because it may be difficult to determine whether specific agency action constitutes "approval" for CEQA purposes. To address the Court's concern, a city engaging in preliminary activities that stop short of "approval" should make clear that, in taking such preliminary action, the city has not foreclosed any mitigation measures or alternatives, including the alternative of ultimately disapproving the proposal.

B. Scope

§11.19 1. Definition of "Project"

"Project" means any activity that has the potential to cause a direct or reasonably foreseeable indirect physical change in the environment, and that (Pub Res C §21065; 14 Cal Code Regs §15378(a)):

- Is directly undertaken by a public agency;
- Receives financial assistance from a public agency; or
- Involves the issuance of a lease, permit, license, or other entitlement for use by a public agency.

The term "project" encompasses regulatory approvals such as general plan amendments, zone changes, and annexations that may ultimately lead to physical environmental changes. 14 Cal Code Regs §15378(a)(1); *Bozung v Local Agency Formation Comm'n* (1975) 13 C3d 263, 277 n16, 118 CR 249. "Project" includes a legislative body's submitting an initiative measure to the voters that may lead to voter approval of the project. However, a citizen-sponsored initiative, or a city-sponsored initiative that will not lead to voter approval, is not a "project." 14 Cal Code Regs §15378(b)(3); *Friends of Sierra Madre v City of Sierra Madre* (2001) 25 C4th 165, 105 CR2d 214. See also *San Bernardino Assoc. Gov'ts v Superior Court* (2006) 135 CA4th 1106, 38 CR3d 293 (when one agency directed another to perform ministerial duty of placing item on ballot for vote, that action was not CEQA "project"). Further, a "project" does not include the creation of a government funding mechanism for unspecified or uncertain future projects. *Kaufman & Broad-South Bay, Inc. v Morgan Hill Unified Sch. Dist.* (1992) 9 CA4th 464, 11 CR2d 792.

© The Regents of the University of California

§11.20 2. Discretionary Projects

Unless exempted, all "discretionary projects" proposed to be carried out or approved by a city must receive environmental review pursuant to CEQA. Pub Res C §21080(a). Discretionary projects are those that require the exercise of judgment or deliberation, as opposed to merely determining whether there has been compliance with applicable laws and regulations. 14 Cal Code Regs §15357. See also 14 Cal Code Regs §15369 (defining "ministerial projects"). "Ministerial projects" involve a governmental decision requiring little or no personal judgment by the public official and are exempt from CEQA. Pub Res C §21080(b)(1); 14 Cal Code Regs §15369; *Health First v March Joint Powers Auth.* (2009) 174 CA4th 1135, 1143, 96 CR3d 290; *Madrigal v City of Huntington Beach* (2007) 147 CA4th 1375, 55 CR3d 209. Even approvals that ordinarily are ministerial, such as building permits, can become subject to CEQA if the city in effect exercises discretionary control over the project. *Friends of Westwood, Inc. v City of Los Angeles* (1987) 191 CA3d 259, 235 CR 788.

© The Regents of the University of California

3. Exemptions

§11.21 a. Statutory Exemptions

The legislature has exempted certain types of projects from CEQA. Some statutory exemptions offer complete exemptions from CEQA, regardless of whether the project will involve significant environmental impacts; *e.g.,* Pub Res C §21080.13 ("[t]his division shall not apply to any railroad grade separation project which eliminates an existing grade crossing or which reconstructs an existing grade separation"). Other statutory exemptions provide that the project is exempt from only some of CEQA's requirements, or encompass only projects meeting a variety of criteria, including whether the project will have significant environmental impacts. See, *e.g.,* Pub Res C §21083.3 (limiting CEQA requirements for projects consistent with general plan and zoning) and §21159.21 (statutory exemption for certain housing projects). These statutory exemptions generally are found in Pub Res C §§21080(b), 21080.01-21080.33, and 21159.21-21159.23, which provide exemptions for certain housing projects, including low-income and agricultural worker housing. Other exemptions, however, are scattered throughout the California codes.

Many of the statutory exemptions are further described in 14 Cal Code Regs §§15260-15285. See also Govt C §12012.45(b)(1)(C) (exempting execution of intergovernmental agreement between tribe and county or city negotiated pursuant to tribal-state gaming compact). Of particular significance is the exemption for projects that are disapproved. Pub Res C §21080(b)(5); 14 Cal Code Regs §15270. See also *Main San Gabriel Basin Watermaster v State Water Resources Control Bd.* (1993) 12 CA4th 1371, 16 CR2d 288. This exemption allows a city to disapprove a project on the merits without regard to the initiation or completion of CEQA procedures. 14 Cal Code Regs §15270(b).

© The Regents of the University of California

§11.22 b. Categorical Exemptions

The California Secretary of the Resources Agency has authority to adopt by regulation a list of classes of projects that under normal circumstances will have no significant effect on the environment and would thus be exempt from CEQA. Pub Res C §21084. These categorical exemptions are listed in 14 Cal Code Regs §§15300-15333.

Some exemptions are relied on more often than others. The more commonly used categorical exemptions include Class 1 (Existing Facilities), Class 2 (Replacement or Reconstruction), Class 3 (New Construction or Conversion of Small Structures), Class 4 (Minor Alterations to Land), Class 5 (Minor Alterations in Land Use Limitations), and Class 32 (Infill Development Projects). 14 Cal Code Regs §§15301-15305, 15332.

The provisions of 14 Cal Code Regs §15300.2 contain certain exceptions that preclude application of the categorical exemptions. The categorical exemptions do not apply to the following:

- Projects located in a sensitive environment;
- Projects involving significant cumulative impacts;
- Projects that may have a significant environmental impact due to unusual circumstances;
- Projects that adversely affect scenic highways;
- Projects that cause substantial adverse changes to designated historical resources; and
- Projects that are located on properties included on the State Secretary for Environmental Protection's list of hazardous waste sites.

See also Pub Res C §§21084(b)-(c), (e), 21084.1; *Salmon Protection & Watershed Network v County of Marin* (2004) 125 CA4th 1098, 23 CR3d 321.

© The Regents of the University of California

§11.23 c. Common Sense Exemption

In addition to the listed statutory and categorical exemptions, CEQA does not apply to projects when the lead agency determines "with certainty that there is no possibility that the activity in question may have a significant effect on the environment." 14 Cal Code Regs §15061(b)(3). See *Muzzy Ranch Co. v Solano County Airport Land Use Comm'n* (2007) 41 C4th 372, 386, 60 CR3d 247 (explaining application of exemption); *Martin v City & County of San Francisco* (2005) 135 CA4th 392, 403, 37 CR3d 470 (citing this "common sense" exemption in support of conclusion that alterations to interior of private residence, which have no significant effect on the public environment, are not subject to CEQA).

© The Regents of the University of California

§11.24 d. Procedures

If an agency concludes that a project falls within a statutory or categorical exemption, then the agency generally does not need to follow any particular procedures to provide notice or memorialize that conclusion. 14 Cal Code Regs §§15060-15061. See also *CalBeach Advocates v City of Solana Beach* (2002) 103 CA4th 529, 538, 127 CR2d 1 (city did not have to adopt findings concerning applicability of statutory exemption). But see *Great Oaks Water Co. v Santa Clara Valley Water Dist.* (2009) 170 CA4th 956, 968, 88 CR3d 506 (statutory exemption for certain rate-setting activities required lead agency to adopt specific findings in order to rely on exemption). If the conclusion is reached by a non-elected official or body, then the conclusion may be appealed to the agency's elected decision-making body. 14 Cal Code Regs §15061(e). After approving a project that has been determined to be exempt, the agency may prepare and file a "notice of exemption." 14 Cal Code Regs §§15061(d), 15062. Filing such a notice has the effect of shortening the statute of limitations for challenging the agency's decision from 180 days from the date of the decision to 35 days from the date the notice is posted. Pub Res C §21167(d).

PRACTICE TIP 1: Although CEQA generally does not require a lead agency to follow particular procedures in order to rely on a statutory or categorical exemption, if a lead agency decides that an exemption applies and chooses to forgo a negative declaration, the lead agency should include specific documentation in the record (*e.g.,* a staff report) supporting the decision to apply the exemption. Such documentation will facilitate the court's review of the agency's decision, and may provide the court with a basis for deferring to the city's factual determinations regarding the applicability of the exemption.

PRACTICE TIP 2: If using an exemption, the lead agency should be sure to file a notice of exemption after approval of the project to trigger the applicable 35-day statute of limitations. See §§11.59, 11.61; 14 Cal Code Regs §15062; *San Lorenzo Valley Community Advocates for Responsible Educ. v San Lorenzo Valley Unified Sch. Dist.* (2006) 139 CA4th 1356, 1385, 44 CR3d 128.

PRACTICE TIP 3: If a lead agency chooses, it may complete a negative declaration for a project even if a CEQA exemption applies. If that is done, the lead agency should still make findings supporting the exemption as an alternative ground for approving the project.

© The Regents of the University of California

C. Initial Study

§11.25 1. Purpose and Contents

If a proposed activity is a project and is not exempt from CEQA, then the city ordinarily must prepare an "initial study" to determine whether the project will have a significant effect on the environment. See 14 Cal Code Regs §15063; *Leonoff v Monterey County Bd. of Supervisors* (1990) 222 CA3d 1337, 272 CR 372. If an EIR clearly is required, the city may skip the initial study and proceed directly to EIR preparation. 14 Cal Code Regs §§15060(d), 15063(a). An initial study serves several important purposes, including providing information on whether an EIR is needed and focusing the EIR on the project's significant environmental impacts. 14 Cal Code Regs §15063(c). The initial study may also reveal ways for the project applicant or lead agency to modify the project to mitigate adverse environmental impacts before an EIR is prepared, which in turn may enable the project to qualify for a negative declaration rather than an EIR. 14 Cal Code Regs §15063(c)(2).

© The Regents of the University of California

§11.26 2. Environmental Checklist Form

Appendixes G and H to the state CEQA Guidelines contain an "Environmental Checklist Form" which meets the requirements for an initial study. 14 Cal Code Regs §15063(f). In addition to completing the checklist, the initial study preparer must provide a narrative explanation or data to support the conclusions contained in the initial study. 14 Cal Code Regs §15063(d); *Sundstrom v County of Mendocino* (1988) 202 CA3d 296, 248 CR 352; *Citizens Ass'n for Sensible Dev. v County of Inyo* (1985) 172 CA3d 151, 171, 217 CR 893. But see *Silveira v Las Gallinas Valley Sanitary Dist.* (1997) 54 CA4th 980, 989, 63 CR2d 244 (purchase of property that will result in no changes or alteration to property does not require explanation or data for each conclusion contained in initial study).

© The Regents of the University of California

§11.27 3. Significance Determinations

An agency cannot limit its inquiry to subjects listed on the CEQA Guidelines Appendix G checklist if the public has raised a fair argument supported by substantial evidence that the project may result in other significant environmental impacts. *Protect the Historic Amador Waterways v Amador Water Agency* (2004) 116 CA4th 1099, 1109, 11 CR3d 104 ("in preparing an EIR, the agency must consider and resolve every fair argument that can be made about the possible significant environmental effects of a project, irrespective of whether an established threshold of significance has been met with respect to any given effect"). For example, an agency must analyze urban decay impacts when evidence in the record indicates that a project may have economic impacts, which in turn could indirectly result in such effects. *Bakersfield Citizens for Local Control v City of Bakersfield* (2004) 124 CA4th 1184, 22 CR3d 203.

© The Regents of the University of California

§11.28 4. Timing

The initial study must be completed within 30 days after an application is accepted as complete, unless this deadline is extended for up to 15 days with the applicant and lead agency's consent. 14 Cal Code Regs §15102.

© The Regents of the University of California

§11.29 5. Determining Whether Project May Have Significant Environmental Effect

This critical inquiry focuses on the potential that a project may create a significant effect on the environment. 14 Cal Code Regs §15064. The determination of whether a project may create a significant effect on the environment will affect the type of environmental document that must be prepared. This standard is commonly called the "fair argument" test, which requires the lead agency to prepare an EIR if there is substantial evidence in the record supporting a fair argument that the project may result in a significant environmental effect. *Moss v County of Humboldt* (2008) 162 CA4th 1041, 1049, 76 CR3d 428; *Friends of "B" St. v City of Hayward* (1980) 106 CA3d 988, 1002, 165 CR 514. "Significant effect on the environment" means a substantial or potentially substantial adverse change in the physical conditions within the area affected by a project. 14 Cal Code Regs §15382. For certain types of impacts, a mandatory finding of significance is required. 14 Cal Code Regs §§15064.5, 15065. More commonly, the determination of whether a particular impact is significant requires the exercise of judgment based on substantial evidence in the record. 14 Cal Code Regs §15064(b), (f).

PRACTICE TIP 1: Local planning documents such as general plans, specific plans, and traffic studies, can provide thresholds for significance of particular impacts. Local CEQA guidelines also can create thresholds for significance, providing an objective standard to be applied when conducting initial studies. Such thresholds of significance are "encouraged" by the state CEQA Guidelines, must be developed through a public review process, and must be supported by substantial evidence. 14 Cal Code Regs §15064.7.

PRACTICE TIP 2: The lead agency has some discretion to reject evidence of environmental impacts as not being credible if there are "legitimate, disputed issues of credibility," so long as the agency makes express findings supporting its credibility determinations. *County Sanitation Dist. No. 2 v County of Kern* (2005) 127 CA4th 1544, 1597, 27 CR3d 28. See also *Citizens' Comm. to Save Our Village v City of Clarement* (1995) 37 CA4th 1157, 1168, 44 CR2d 288. Some courts, however, have expressed skepticism regarding the extent of an agency's discretion to reject the substantiality of evidence on the ground that it is not credible. *Pocket Protectors v City of Sacramento* (2004) 124 CA4th 903, 934, 21 CR3d 791.

PRACTICE TIP 3: The "fair argument" standard of review represents a low threshold. The nature of the "fair argument" standard is such that, up until the moment the city approves the project, evidence may be submitted indicating that the proposed project may have a significant impact on the environment. This evidence may be submitted by a commenter, or the evidence may come from the agency's own files. See, *e.g., Citizens for Responsible & Open Gov't v City of Grand Terrace* (2008) 160 CA4th 1323, 73 CR3d 202; *Mejia v City of Los Angeles* (2005) 130 CA4th 322, 29 CR3d 788; *Ocean View Estates Homeowners Ass'n v Montecito Water Dist.* (2004) 116 CA4th 396, 10 CR3d 451. If a project is being considered based on a negative declaration, counsel must remain watchful for the submittal of evidence that may constitute a "fair argument." If a "fair argument" has been made, then the city should not proceed with a negative declaration, but should prepare an EIR instead.

© The Regents of the University of California

D. Negative Declaration

§11.30 1. When Prepared

A "negative declaration" is appropriate in two situations:

(1) A negative declaration is prepared if no substantial evidence before the city shows that the project may have a significant impact on the environment. Pub Res C §21080(c)(1); 14 Cal Code Regs §15070(a).

(2) A negative declaration is prepared if an initial study identifies potentially significant impacts, but revisions made to the project before public review of the negative declaration clearly reduce impacts to a level of insignificance. There must be no substantial evidence in the record that the project, as revised, would have a significant effect on the environment. Pub Res C §21080(c)(2); 14 Cal Code Regs §15070(b).

The latter type of negative declaration is known as a "mitigated negative declaration." See Pub Res C §§21064.5, 21080(c)(2), 21081.6; 14 Cal Code Regs §15070(b). Before project approval, if the lead agency concludes that any of the mitigation measures are infeasible, the city may, after holding a public hearing, substitute equivalent or more effective mitigation measures without recirculating the mitigated negative declaration, provided that the substitute mitigation measures do not in themselves create potentially significant impacts. Pub Res C §21080(f); 14 Cal Code Regs §15074.1.

PRACTICE TIP: If changes are made to a project or conditions imposed by the lead agency to avoid a significant effect on the environment, thus resulting in a mitigated negative declaration, be sure to document that the applicant has agreed to the changes and conditions before the mitigated negative declaration is released for public review. 14 Cal Code Regs §15070(b)(1).

© The Regents of the University of California

§11.31 2. Duty to Investigate Impacts

A city has a duty to investigate the potential environmental impacts of a project. A court may consider an agency's failure to gather relevant data in determining whether there is a "fair argument" that a project's environmental impacts may be significant. See generally *Sundstrom v County of Mendocino* (1988) 202 CA3d 296, 311, 248 CR 352 (holding that absence of evidence in record can itself support "fair argument" of significant impacts). But see *Gentry v City of Murrieta* (1995) 36 CA4th 1359, 1380, 43 CR2d 170 (absence of evidence in support of "fair argument" may itself be evidence that significant impacts will not occur).

© The Regents of the University of California

§11.32 3. Contents

A negative declaration must contain the following (14 Cal Code Regs §15071):

- A description of the project;
- The location of the project;
- A proposed finding that the project will not have a significant environmental impact;
- A copy of the initial study documenting reasons to support the finding; and
- Mitigation measures, if any, incorporated into the project.

© The Regents of the University of California

§11.33 4. Public Review

The CEQA Guidelines provide detailed notice requirements. See Pub Res C §§21091-21092.5; 14 Cal Code Regs §§15072-15073, 15105. A proposed negative declaration must be circulated for public review not less than 20 days before its adoption (or 30 days, if the negative declaration is subject to State Clearinghouse review). Pub Res C §21091(b); 14 Cal Code Regs §15073(a). In some instances, the State Clearinghouse may authorize shorter review periods pursuant to Pub Res C §21091(e); 14 Cal Code Regs §15105(d). For a description of projects subject to State Clearinghouse review, see 14 Cal Code Regs §15205(b). A proposed negative declaration must be recirculated if the document is substantially revised after it has been circulated, but before adoption. See 14 Cal Code Regs §15073.5 (for discussion of whether revision is sufficiently substantial to require recirculation). On the State Clearinghouse, see §1.101.

PRACTICE TIP 1: Notice to state trustee agencies (the state agency with jurisdiction over natural resources affected by a project, *e.g.,* the Department of Fish and Game) is required in many cases. Pub Res C §21080.3. The failure to notify a trustee agency constitutes a per se CEQA violation that may require a court to void project approval, and it also may void any failure to exhaust administrative remedies defense. *Fall River Wild Trout Found. v County of Shasta* (1999) 70 CA4th 482, 82 CR2d 705; *Gentry v City of Murrieta* (1995) 36 CA4th 1359, 43 CR2d 170. Cities therefore should err on the side of providing notice to the Department of Fish and Game and any other potential responsible or trustee agencies.

PRACTICE TIP 2: During the public review period for a negative declaration, the city may receive comment letters from interested public agencies, organizations, and individuals. CEQA does not require that the city respond to comments received on a negative declaration. Should litigation result, however, the city may want information in the record showing that it reviewed and attempted to address the concerns of the public. In particular, the city may want to include in the record information explaining why such comments do not constitute a "fair argument" that the project may have significant impacts. For example, the city may want to include an explanation why the evidence offered in support of a "fair argument" is not credible. Thus, although not strictly required, responding to comments received on a negative declaration is an option that the city should consider as part of its CEQA process.

© The Regents of the University of California

§11.34 5. Adoption

Before making a recommendation on a project, any advisory body to a city decision-making body must consider the proposed negative declaration or mitigated negative declaration. 14 Cal Code Regs §15074(a). The decision-making body must consider the proposed document together with any comments received during the public review process. Adoption must be supported by findings that (14 Cal Code Regs §15074(b)):

- Based on the record as a whole, there is no substantial evidence that the project will have a significant effect on the environment; and
- The document reflects the lead agency's independent judgment and analysis.

If the lead agency concludes that a mitigation measure in a mitigated negative declaration is infeasible or otherwise undesirable, it may adopt a substitute measure of equal or greater efficacy without recirculating the document if the substitution is considered at a public hearing and the agency makes a written finding that the measure is of equal or greater efficacy and will not itself cause any potentially significant effect on the environment. Pub Res C §31090(f); 14 Cal Code Regs §15074.1.

If the decision-making body is not elected (*e.g.,* the planning commission), the adoption of the negative declaration may be appealed to the elected decision-making body *e.g.,* the city council). Pub Res C §21151(c).

© The Regents of the University of California

E. Environmental Impact Report (EIR)

§11.35 1. When Required

An EIR must be prepared if a project is not exempt from CEQA and does not qualify for a negative declaration. As a general rule, an EIR is required whenever it can be fairly argued on the basis of substantial evidence in light of the whole record before the city that the project may have a significant impact on the environment. *No Oil, Inc. v City of Los Angeles* (1974) 13 C3d 68, 75, 118 CR 34; *Friends of "B" St. v City of Hayward* (1980) 106 CA3d 988, 1001, 165 CR 514. See generally Pub Res C §§21080(d), 21082.2(d); 14 Cal Code Regs §15064(f). Substantial evidence of impacts requiring an EIR must consist of factual information or expert opinion rather than speculation, unsubstantiated opinion, or clearly inaccurate information. Pub Res C §§21080(e), 21082.2(c); 14 Cal Code Regs §15064(f)(5).

© The Regents of the University of California

§11.36 2. Notice of Preparation

The lead agency must solicit the views of responsible agencies and certain other public agencies regarding the scope and content of the EIR via a notice of preparation of the EIR. Pub Res C §21080.4; 14 Cal Code Regs §§15082-15083.5. A copy of the notice of preparation also must be mailed to the State Office of Planning and Research and posted in the office of the county clerk in each county in which the project will be located. Pub Res C §§21080.4, 21092.3.

© The Regents of the University of California

§11.37 3. Baseline

An EIR must contain a description of the physical environmental conditions at the project site and in the project vicinity as they exist at the time the notice of preparation is published. If no notice of preparation is published, then the setting should be described as it exists at the time the environmental analysis is commenced. This setting description must include both a local and a regional perspective. This environmental setting will normally constitute the "baseline" physical condition by which the lead agency determines whether an impact is significant. 14 Cal Code Regs §15125(a); *Communities for a Better Env't v South Coast Air Quality Mgmt. Dist.* (2010) 48 C4th 310, __ CR3d __; *Fairview Neighbors v County of Ventura* (1999) 70 CA4th 238, 82 CR2d 436; *Temecula Band of Luiseno Mission Indians v Rancho Cal. Water Dist.* (1996) 43 CA4th 425, 50 CR2d 769. Future buildout of a specific plan or general plan is not the baseline for measuring the impacts of a project that is consistent with that buildout; instead, the baseline generally consists of physical conditions as they exist, rather than hypothetical future conditions under a "build-out" scenario. See *Communities for a Better Env't v South Coast Air Quality Mgmt. Dist., supra*; *Environmental Planning & Info. Council v County of El Dorado* (1982) 131 CA3d 350, 357, 182 CR 317. See also *Woodward Park Homeowners Ass'n, Inc. v City of Fresno* (2007) 150 CA4th 683, 706, 58 CR3d 102.

© The Regents of the University of California

§11.38 4. Contents

CEQA and the state CEQA Guidelines describe in detail the required contents of an EIR. See Pub Res C §21100; 14 Cal Code Regs §§15120-15132. Generally, an EIR must:

- Accurately describe the proposed project;
- Identify and analyze each significant environmental impact expected to result from the proposed project;
- Identify mitigation measures to reduce those impacts to the extent feasible;
- Evaluate a range of reasonable alternatives to the proposed project; and
- Include a statement briefly indicating the reasons for determining that any effects on the environment are not significant and, thus, have not been discussed in detail.

Additionally, an EIR must describe in a separate section any significant effects on the environment that cannot be avoided if the project were implemented and any significant effects on the environment that would be irreversible if the project were implemented. See Pub Res C §21100(b)(2). See also Pub Res C §21100; 14 Cal Code Regs §§15126, 15126.2, 15130. See also §11.32.

PRACTICE TIP 1: CEQA includes a number of rules governing how the analysis should be performed for a particular environmental resource. See, *e.g.,* 14 Cal Code Regs §15064.5 (historical and unique archaeological resources). In other instances, agencies have adopted policies, regulations, or guidance addressing how the agency is to perform an analysis. A city's CEQA analysis should be performed so that it is consistent with such policy, regulations or guidance. See, *e.g., Ebbetts Pass Forest Watch v California Dep't of Forestry & Fire Protection* (2008) 43 C4th 936, 949, 77 CR3d 239 (agency had duty to comply with its own guidance regarding how to determine geographic scope of biological analysis); *Endangered Habitats League, Inc. v County of Orange* (2005) 131 CA4th 777, 32 CR3d 177 (when specific plan contained policy requiring agency to use particular model to analyze traffic impacts, agency erred by using a different model in its EIR). The city has discretion to not comply with policies or guidance adopted by another agency, so long as substantial evidence supports the agency's chosen approach. *California Native Plant Soc'y v City of Rancho Cordova* (2009) 172 CA4th 603, 625, 91 CR3d 571 (upholding mitigation measures adopted by city despite objections by other agencies with jurisdiction over affected resources); *Association of Irritated Residents v County of Madera* (2003) 107 CA4th 1383, 1396, 133 CR2d 718 (agency had substantial evidence to support conclusions regarding biological impacts of proposed projects even though surveys were not performed in accordance with protocols adopted by federal wildlife agency).

PRACTICE TIP 2: AB 32 (2006) contains a policy statement that global warming poses "a serious threat" to the economic and environmental well-being of the state. See Health & S C §§38500-38599 (codification of AB 32). Based on this policy statement, similar policy statements in gubernatorial executive orders, and federal decisions requiring climate change impact analyses under the National Environmental Policy Act of 1969 (NEPA) (42 USC §§4321-4370h), the Attorney General and various citizen groups have filed actions challenging environmental studies that do not analyze climate change impacts. At the time of this writing, no published appellate decisions on the subject are yet available.

Under SB 97 (2007), the Governor's Office of Planning and Research has provided the California Resources Agency with CEQA guidelines addressing global warming in CEQA documents. As required by Pub Res C §21083.05 (codifying SB 97), the Resources Agency has adopted final guidelines, which are available at http://ceres.ca.gov/ceqa/guidelines/. The Office of Planning and Research has issued a Technical Advisory, entitled CEQA and Climate Change: Addressing Climate Change Through California Environmental Quality Act (CEQA) Review, that provides some direction on how CEQA documents may address climate change.

Many air districts and other agencies are developing, or have adopted, guidance on how to address climate change and greenhouse gas emissions in CEQA documents. Many cities and other public agencies are also developing "climate action plans" to address these issues; if approved, such plans have the potential to streamline

the CEQA process. For examples, see the Berkeley plan at www.berkeleyclimateaction.org/ and the San Francisco plan at www.sfenvironment.org/downloads/library/climateactionplan.pdf.

Although there is ongoing debate on how to address climate change, most lead agencies are now addressing the issue in their environmental documents. This issue is evolving rapidly. Given widespread attention and interest from environmental advocates and other stakeholders, developments should be monitored carefully.

§11.39 5. Adequacy

An EIR must be prepared with a sufficient degree of analysis to allow decision makers to make an informed decision that takes into account the environmental consequences of a project. Courts should look not for perfection, but for adequacy, completeness, and a good faith effort at full disclosure. 14 Cal Code Regs §§15003(i), 15151. See generally *Laurel Heights Improvement Ass'n v Regents of Univ. of Cal.* (1988) 47 C3d 376, 390, 253 CR 426 (for a concise summary of CEQA principles applicable to an EIR). Although this standard is often repeated by courts, the judicial inquiry into a particular EIR's determination of adequacy can be exacting. See, *e.g., Kings County Farm Bureau v City of Hanford* (1990) 221 CA3d 692, 270 CR 650. Among other holdings, the *Laurel Heights* decision emphasized that an EIR that draws conclusions without supporting evidence will not be considered adequate. In addition, an agency may not rely solely on compliance with another agency's certified regulatory scheme as a substitute for conducting an independent evaluation of the potential specific impacts of a project for which it has discretionary approval authority. See *Californians for Alternatives to Toxics v Department of Food & Agric.* (2005) 136 CA4th 1, 15, 38 CR3d 638.

© The Regents of the University of California

§11.40 6. Public Review of Draft EIR

An EIR is prepared in two basic steps: (1) a draft EIR is prepared and circulated to the public and affected public agencies for review and comments; and (2) a final EIR, including the comments submitted and responses to those comments, is prepared and then certified by the lead agency as to completeness and adequacy. CEQA requires that the review period for a draft EIR be at least 30 days. This minimum review period is increased to 45 days if the document requires review by the State Clearinghouse. Pub Res C §21091(a); 14 Cal Code Regs §15105. On the State Clearinghouse, see §1.101. For a description of projects requiring State Clearinghouse review, see 14 Cal Code Regs §15205(b).

© The Regents of the University of California

§11.41 7. Response to Comments

Unlike the process for negative declarations, written comments received during the public review period for a draft EIR must be responded to in writing. Pub Res C §21091(d); 14 Cal Code Regs §15088. The response to comments must provide reasoned, good faith analysis regarding all significant environmental issues raised in the EIR comments. *Cleary v County of Stanislaus* (1981) 118 CA3d 348, 358, 173 CR 390; Pub Res C §21091(d)(2)(B); 14 Cal Code Regs §15088. Responses to comments submitted by another public agency must be provided to the commenting agency at least 10 days before EIR certification. Pub Res C §21092.5(a). When such comments from a sister agency disclose new or conflicting data or opinions that raise concern that the agency may not have fully evaluated the project and its alternatives, the lead agency must pay particular care to respond with good faith, reasoned analysis. *Berkeley Keep Jets Over the Bay Comm. v Board of Port Comm'rs* (2001) 91 CA4th 1344, 1367, 111 CR2d 598; *Cleary v County of Stanislaus* (1981) 118 CA3d 348, 357, 173 CR 390. Although an agency must respond to comments received during the public comment period, it may also respond to late comments. 14 Cal Code Regs §15088(a); *Gray v County of Madera* (2008) 167 CA4th 1099, 1111, 85 CR3d 50 (lead agency may but is not required to respond to late comments).

PRACTICE TIP: Agencies should note, however, that potential challengers may exhaust their administrative remedies by providing comments to the agency at any time before the close of the public hearing. *Galante Vineyards v Monterey Peninsula Water Mgmt. Dist.* (1997) 60 CA4th 1109, 1121, 71 CR2d 1. Thus, as a matter of practice, agencies should consider responding to all comments, including those submitted after the close of the public review period. The response to a late comment does not need to be included in the final EIR, but the response should be included in the record (*e.g.,* in a staff report) so that the court has the benefit of the agency's analysis in the event a lawsuit is filed.

© The Regents of the University of California

§11.42 8. Recirculation of Draft EIR

When "significant new information" is added to an EIR after the expiration of the public comment period but before certification, the agency must recirculate the EIR for additional public comment. Pub Res C §21092.1; 14 Cal Code Regs §15088.5. Recirculation is required only when the information added to the EIR changes the EIR in a way that deprives the public of a meaningful opportunity to comment on either a substantial adverse environmental impact of the project or a feasible project alternative or mitigation measure that would clearly reduce the impact and that is not going to be implemented. A decision not to recirculate will be upheld if it is supported by substantial evidence in the administrative record. See 14 Cal Code Regs §15088.5; *Laurel Heights Improvement Ass'n v Regents of Univ. of Cal.* (1993) 6 C4th 1112, 26 CR2d 231.

© The Regents of the University of California

§11.43 9. Certification of Final EIR

The final EIR consists of the draft EIR with any revisions made following its circulation for public review, the comments received on the draft EIR, a list of persons and entities commenting on the draft EIR, the lead agency's responses to comments, and any other information added by the lead agency. 14 Cal Code Regs §15132. The lead agency must certify that the final EIR was completed in compliance with CEQA and was reviewed and considered by the decision-making body (*e.g.,* the city council) before project approval. 14 Cal Code Regs §15090. The lead agency must also find that the final EIR reflects the independent judgment of the lead agency. Pub Res C §21082.1(c)(3); 14 Cal Code Regs §15090(a)(3). If the decision-making body is not elected (*e.g.,* the planning commission), the certification of the EIR may be appealed to the elected decision-making body (*e.g.,* the city council). Pub Res C §21151(c); 14 Cal Code Regs §15090(b). An appeal from the certification of an EIR by an unelected planning commission must be decided by the majority vote of the elected governing board. On appeal, the elected governing board itself must consider and approve the EIR and make findings; a tie vote by the governing board does not certify the EIR. Pub Res C §21151(c).

PRACTICE TIP: The distinction between EIR certification and project approval is important. Certification of an EIR constitutes a determination that, in the lead agency's opinion, the EIR meets legal requirements. EIR certification does not trigger the running of the statute of limitations to challenge project approval. Instead, the statute of limitations begins to run at the time of project approval. Pub Res C §21167(a). Additional statute of limitations periods may apply. See Pub Res C §21167. An agency may move immediately from the decision to certify the EIR to the decision whether to approve the project. Practice varies widely. Some agencies consider taking both steps at the same hearing; other agencies hold separate hearings on whether to certify the EIR and to approve the project, with the hearings separated by weeks or months. Either approach is permissible. Cities should be aware, however. that a lengthy delay between certification of the EIR and approval of the project may raise questions regarding the need to perform supplemental review. Pub Res C §21166.

© The Regents of the University of California

F. Additional Types of EIRs and Negative Declarations

§11.44 1. Master EIRs, Program EIRs, and Tiering

CEQA and the CEQA Guidelines include a number of provisions intended to streamline environmental review. These include tiering, program EIRs, master EIRs, and EIRs prepared for community plans, general plans, or zoning. Pub Res C §§21083.3, 21090, 21093-21094, 21156-21159.4; 14 Cal Code Regs §§15152, 15165-15179.5, 15183. Generally, all of these provisions are designed to allow cities and other agencies to consider planning-level environmental concerns in a program or master EIR that may be adopted for a general plan or other planning or policy action. Follow-up EIRs or negative declarations on specific projects should focus more on project-specific impacts.

A local agency's determination that a project is within the scope of a prior master or program EIR will be upheld if it is based on substantial evidence. *Citizens for Responsible Equitable Envt'l Dev. v City of San Diego Redev. Agency* (2005) 134 CA4th 598, 610, 36 CR3d 249. But see *Wal-Mart Stores, Inc. v City of Turlock* (2006) 138 CA4th 273, 287, 41 CR3d 420 (assuming, without deciding, that "fair argument" standard applied to city's determination that ordinance was within scope of general plan EIR and thus additional CEQA review was unnecessary under 14 Cal Code Regs §15183). Note, however, that when an EIR is tiered from a prior EIR that has subsequently been decertified, the newer, tiered EIR that is written as a project EIR must also be decertified. *Friends of the Santa Clara River v Castaic Lake Water Agency* (2002) 95 CA4th 1373, 116 CR2d 54.

A redevelopment plan EIR must analyze the impacts of component projects and may not defer such analysis to subsequent review, to the extent information is known or reasonably could have been known at the time of plan approval. *Friends of Mammoth v Town of Mammoth Lakes Redev. Agency* (2000) 82 CA4th 511, 536, 98 CR2d 334. CEQA also allows redevelopment plan EIRs to be written as program or master EIRs; however, such EIRs must comply with rules applicable to programmatic environmental review. See *Citizens for Responsible Equitable Envt'l Dev. v City of San Diego Redev. Agency* (2005) 134 CA4th 598, 607, 36 CR3d 249.

PRACTICE TIP: The various EIRs available to streamline the environmental review process may be quite useful. At the same time, the rules concerning tiering, program EIRs, and particularly master EIRs are complicated. When considering what type of EIR to prepare for a planning or policy action (such as a general plan update or amendment), cities should carefully evaluate whether a program EIR, master EIR, or project-specific EIR will be preferable.

© The Regents of the University of California

§11.45 2. Subsequent EIRs and Negative Declarations

After certification of an EIR or adoption of a negative declaration, no subsequent environmental document will be required unless one or more of the following three criteria are met (Pub Res C §21166; 14 Cal Code Regs §15162):

(1) Substantial changes are proposed in the project that will require major revisions to the environmental document due to new significant environmental effects or a substantial increase in the severity of previously identified effects;

(2) Substantial changes occur in the circumstances under which the project is to be undertaken that will require major revisions to the environmental document due to new significant environmental effects or a substantial increase in the severity of previously identified effects; or

(3) Specified new information of substantial importance to the project becomes available.

However, the availability of the new information does not necessarily require the reopening and recirculation of a previously approved environmental document. See *Snarled Traffic Obstructs Progress v City & County of San Francisco* (1999) 74 CA4th 793, 88 CR2d 455; *Chaparral Greens v City of Chula Vista* (1996) 50 CA4th 1134, 1150, 58 CR2d 152.

The subsequent EIR or negative declaration must be circulated for public review. Subsequent or supplemental environmental review generally may be triggered only if the public agency is considering a subsequent discretionary approval or other action. See *Cucamongans United for Reasonable Expansion v City of Rancho Cucamonga* (2000) 82 CA4th 473, 479, 98 CR2d 202. Although the deferential standard of review in Pub Res C §21166 applies to changes in projects, it does not apply to entirely new projects. *Save Our Neighborhood v Lishman* (2006) 140 CA4th 1288, 1297, 45 CR3d 306. But see *Mani Bros. Real Estate Group v City of Los Angeles* (2007) 153 CA4th 1385, 1399, 64 CR3d 79 (criticizing *Lishman*).

© The Regents of the University of California

§11.46 3. Addendum to EIR or Negative Declaration

An addendum may be used if a subsequent EIR or negative declaration is not required, or only minor technical changes or additions are necessary. An addendum need not be circulated for public review but must be considered by the decision-making body along with the original negative declaration or EIR before approving the project. 14 Cal Code Regs §15164. The addendum or the project approval findings should include a brief statement explaining the reasons for not preparing a subsequent EIR or negative declaration. 14 Cal Code Regs §15164. Cities should consider whether the addendum procedure is being applied to the original project or a component of the original project and also whether the environmental impacts of the revised project are greater than those previously analyzed. See *Mani Bros. Real Estate Group v City of Los Angeles* (2007) 153 CA4th 1385, 64 CR3d 79. *American Canyon Community United for Responsible Growth v City of American Canyon* (2006) 145 CA4th 1062, 52 CR3d 312.

© The Regents of the University of California

G. Project Approval

§11.47 1. Required Findings

Before approving any project for which an EIR has been certified or a negative declaration adopted, a city must make certain findings (Pub Res C §21081.6(a)(2); 14 Cal Code Regs §§15074(c), 15091(e)):

- The decision-making body must make findings regarding the project's environmental impacts; the nature of these findings will vary based on the type of environmental review; and
- When approving a project for which an EIR has been certified or when adopting a negative declaration, the decision-making body must also specify the location and custodian of the documents constituting the administrative record. See also Pub Res C §21167.6(e) (contents of administrative record).

© The Regents of the University of California

§11.48 a. If Negative Declaration Has Been Adopted

Before approving a project for which a negative declaration has been prepared, the agency must find, on the basis of the initial study, any comments received, and any mitigation measures, that there is no substantial evidence that the project may have a significant effect on the environment. 14 Cal Code Regs §15074(b).

© The Regents of the University of California

§11.49 b. If Environmental Impact Report Has Been Certified

Before approving a project for which an EIR has been certified, the agency must make findings concerning each significant impact identified in the EIR and concerning the impact of the project as a whole.

© The Regents of the University of California

§11.50 (1) Individual Impact Findings

For each significant environmental impact identified in the EIR, the city must make one of three findings (Pub Res C §21081; 14 Cal Code Regs §15091; *City of Marina v Board of Trustees of Cal. State Univ.* (2006) 39 C4th 341, 366, 46 CR3d 355):

- The impact has been mitigated to a level of insignificance;
- Mitigation measures are the exclusive responsibility of another public agency that has adopted or will adopt them; or
- Specific economic, social, or other considerations make infeasible the mitigation measures or project alternatives identified in the final EIR.

PRACTICE TIP 1: Under CEQA's "substantive mandate," an agency may not approve a proposed project if feasible alternatives exist that would substantially lessen its significant environmental effects. Pub Res C §21081. The agency's CEQA findings are the means by which the agency demonstrates that it has complied with this substantive mandate. An agency may reject mitigation measures or alternatives if economic, legal, social, technological, or other considerations make the mitigation measures or alternatives infeasible. Pub Res C §21081(a)(3). In recent years, a number of published decisions have focused on the adequacy of the evidence relied on by an agency in rejecting such mitigation measures or alternatives. The cases turn in part on the nature of the agency's finding rejecting a mitigation measure or alternative:

- If the agency rejects a mitigation measure or alternative as legally infeasible, then the adequacy of the agency's finding presents a question of law, and the court reviews the agency's decision de novo, without deferring to the agency's own explanation of legal infeasibility. *City of Marina v Board of Trustees of the Cal. State Univ.* (2006) 39 C4th 341, 355, 46 CR3d 355.
- If the agency rejects a mitigation measure or alternative as economically infeasible, then the court applies the "substantial evidence" test based on all the evidence in the record (not merely the information in the EIR). *Sierra Club v County of Napa* (2004) 121 CA4th 1490, 19 CR3d 1; *Association of Irritated Residents v County of Madera* (2003) 107 CA4th 1383, 133 CR2d 718; *San Franciscans Upholding the Downtown Plan v City & County of San Francisco* (2002) 102 CA4th 656, 125 CR2d 745. Judicial skepticism exists, however, when the agency's finding is based largely on statements or information provided by the applicant regarding the economic infeasibility of an environmentally superior alternative. *Uphold Our Heritage v Town of Woodside* (2007) 147 CA4th 587, 598, 54 CR3d 366; *Save Round Valley Alliance v County of Inyo* (2007) 157 CA4th 1437, 1461, 70 CR3d 59; *Preservation Action Council v City of San Jose*, (2006) 141 CA4th 1336, 1356, 46 CR3d 902. These cases discuss the utility of the agency's independent investigation of the economic infeasibility of an alternative.
- If the agency rejects a mitigation measure or alternative on legitimate policy grounds, then the court applies the "substantial evidence" test and defers to the agency's judgment regarding how to balance competing concerns. *California Native Plant Soc'y v City of Santa Cruz* (2009) 177 CA4th 957, 99 CR3d 572; *Defend the Bay v City of Irvine* (2004) 119 CA4th 1261, 1269, 15 CR3d 176.

PRACTICE TIP 2: These cases suggest that, if a city wishes to reject a mitigation measure or alternative despite its environmental advantages, the city should cite competing policy concerns in support of that decision. If the city wishes to cite economic reasons in support of its finding, the record should reflect that the city has independently investigated the economic feasibility of the environmentally superior alternative. If the city wishes to cite legal reasons in support of its finding, the city should be confident that its legal analysis is correct. Whenever possible and appropriate, the city should cite multiple independent bases for rejecting the mitigation measure or alternative.

© The Regents of the University of California

§11.51 (2) Findings Concerning Project as a Whole

Before approving the project, the decision-making body must find, based on substantial evidence, that: (1) the project will not have a significant effect on the environment; or (2) the significant effects of the project have been eliminated or substantially lessened when feasible and the remaining significant environmental effects are acceptable because the benefits of the project outweigh its unavoidable adverse environmental impacts. This second finding is commonly known as a "statement of overriding considerations." Pub Res C §21081; 14 Cal Code Regs §15093. This finding is necessary when a project will create adverse environmental impacts that cannot be mitigated to a level of insignificance.

PRACTICE TIP: If a city has decided not to adopt an environmentally superior alternative or any individual mitigation measures identified in the EIR, the CEQA findings must reject each alternative or mitigation measure on the ground that it is either less environmentally sensitive or infeasible based on specific economic, legal, social, technological, or other grounds. Pub Res C §21081(a)(3).

© The Regents of the University of California

§11.52 (3) Evidentiary Support

An agency's CEQA findings, including any statement of overriding considerations, must be supported by substantial evidence in the record of administrative proceedings leading to project approval. Pub Res C §21081.5; 14 Cal Code Regs §§15091(b), 15093(b); *Uphold Our Heritage v Town of Woodside* (2007) 147 CA4th 587, 54 CR3d 366; *Village Laguna of Laguna Beach, Inc. v Board of Supervisors* (1982) 134 CA3d 1022, 1034, 185 CR 41.

PRACTICE TIP: CEQA findings must bridge the analytical gap between the evidence in the EIR and the agency's ultimate conclusions regarding the project. When preparing CEQA findings, make sure that the conclusions stated in the findings are consistent with the text and summary section of the EIR. A clear and complete summary section can greatly assist the process of preparing legally adequate findings. It is a good practice to provide citations to supporting evidence found in the EIR or elsewhere in the administrative record. Because an EIR may, but is not required to, contain information on a project's social and economic benefits, the applicant should be requested to provide documentation of a project's benefits and the lead agency should prepare a staff report discussing the social and economic considerations related to a statement of overriding considerations. The findings may cite information in the EIR, or elsewhere in the record. *Citizens of Goleta Valley v Board of Supervisors* (1990) 52 C3d 553, 568, 276 CR 410; *Sierra Club v County of Napa* (2004) 121 CA4th 1490, 1497, 19 CR3d 1.

© The Regents of the University of California

§11.53 2. Mitigation Monitoring Program

If mitigation measures are required or incorporated into a project as part of the CEQA process, whether through an EIR or a mitigated negative declaration, the lead agency must adopt a reporting or monitoring program to ensure compliance with those mitigation measures. The mitigation measures must be enforceable through permit conditions, agreements, or other mechanisms. For public projects, mitigation measures should be incorporated into the plan, policy, regulation, or project that is being approved. The program must be adopted at the time of project approval. Pub Res C §21081.6; 14 Cal Code Regs §15097. The monitoring program does not have to be included in the EIR. *Christward Ministry v County of San Diego* (1993) 13 CA4th 31, 48, 16 CR2d 435.

PRACTICE TIP: Because state law provides little specific guidance on the contents of a mitigation monitoring program, this subject should be addressed in a city's local guidelines or by ordinance. For private development projects, a city should consider requiring the applicant to enter into a mitigation monitoring agreement, which can provide a range of contract remedies to ensure enforcement. Because mitigation measures must be incorporated into a project's approval, cities may use code and permit enforcement procedures to ensure implementation of mitigation measures. See 14 Cal Code Regs §15126.4.

© The Regents of the University of California

§11.54 3. Notice of Determination

After deciding to approve or carry out a project for which a negative declaration or mitigated negative declaration has been approved, the lead agency must file a notice of determination. 14 Cal Code Regs §15075. If an EIR has been certified for a project, the lead agency must file the notice of determination within 5 working days after approval of the project. 14 Cal Code Regs §15094. If the lead agency is a state agency, the notice of determination must be filed with the Office of Planning and Research. 14 Cal Code Regs §15094(c). If the lead agency is a local agency, the notice of determination must be filed with the county clerk of the county or counties in which the project will be located. 14 Cal Code Regs §§15075(d), 15094(d). If a project requires discretionary approval from a state agency, the notice of determination must be filed with both the county clerk and the Governor's Office of Planning and Research. 14 Cal Code Regs §15094(d). A copy of the notice of determination must also be mailed to any persons requesting the notice within 5 days of the agency's action. Pub Res C §21167(f).

PRACTICE TIP: Any fees owing to the State Department of Fish and Game must be paid. Typically, these fees are paid to the county clerk at the time that the notice of determination is filed. Certain findings and project approvals are not valid or final until these filing fees are paid. Pub Res C §21089(b); Fish & G C §711.4.

© The Regents of the University of California

H. Deadlines for Taking Action to Approve or Disapprove Environmental Documents and Projects

1. CEQA

§11.55 a. Initial Study

The initial study must be completed within 30 days after the city accepts an application as complete, unless this deadline is extended for up to 15 days with the applicant's consent. 14 Cal Code Regs §15102.

© The Regents of the University of California

§11.56 b. Negative Declaration

Each city must also adopt an ordinance or resolution establishing time limits for action on negative declarations and EIRs prepared for private projects. This time limit may not exceed 180 days for completion and adoption of a negative declaration, calculated from the date the city accepts an application as complete. Pub Res C §21151.5(a).

© The Regents of the University of California

§11.57 c. Environmental Impact Report (EIR)

Each city must also adopt an ordinance or resolution establishing time limits for action on EIRs prepared for private projects. This time limit must not exceed 1 year for completion and certification of an EIR, calculated from the date the city accepts an application as complete. Pub Res C §21151.5(a). A city's CEQA ordinance or resolution may also provide for a reasonable extension of the applicable time limit based on compelling circumstances and mutual consent of the project applicant and the city. Pub Res C §21151.5(a)(4). If an EIR is to be prepared for a private project by an outside consultant, the contract with the consultant must be executed within 45 days after the lead agency sends a notice of preparation, unless the project applicant and the local agency mutually agree to an extension of such deadline. Pub Res C §21151.5(b).

PRACTICE TIP 1: To avoid problems with meeting the deadline for entering into a contract with an environmental consultant, some cities prefer to establish a standing list of qualified consultants. Staff can be authorized to select a consultant without the need for city council action, if deemed appropriate in a particular city.

PRACTICE TIP 2: Although an EIR will not be deemed certified if a city fails to meet the 1-year deadline for completing and certifying an EIR (*Land Waste Mgmt. v Contra Costa County Bd. of Supervisors* (1990) 222 CA3d 950, 271 CR 909), failure to meet the deadline can expose the city to a claim for money damages under the theory that failure to prepare and certify an adequate EIR is a violation of the federal constitutional right to due process (*Sunset Drive Corp. v City of Redlands* (1999) 73 CA4th 215, 86 CR2d 209).

© The Regents of the University of California

§11.58 2. Permit Streamlining Act

Under the Permit Streamlining Act (PSA) (Govt C §§65920-65964), a city that is acting as a lead agency for a development project must approve or disapprove a project within 180 days after certifying an EIR, except for certain affordable housing projects, which must be approved or disapproved within 90 days after certifying an EIR. See Govt C §65950(a)(1)-(2). A city that is acting as a lead agency must approve or disapprove a project within 60 days after adopting a negative declaration or determining that a project is exempt from CEQA. Govt C §65950(a)(3)-(4). The PSA applies only to development projects that require quasi-judicial approvals such as use permits and tentative subdivision maps, as opposed to legislative actions such as general plan amendments and rezonings. *Landi v County of Monterey* (1983) 139 CA3d 934, 189 CR 55. If an extension of time for the completion and certification of an EIR has been granted under an ordinance or resolution adopted under Pub Res C §21151.5(b), then action must be taken on the project within 90 days after certification of the EIR. Govt C §65950.1.

These time limits can be extended once for a period not to exceed 90 days on consent of the city and the applicant. Govt C §65957. Failure to meet these deadlines does not result in deemed approval of the environmental document. *Land Waste Mgmt. v Contra Costa County Bd. of Supervisors* (1990) 222 CA3d 950, 961, 271 CR 909. There is also authority that the PSA's time limits are directory, not mandatory, with respect to CEQA. *Eller Media Co. v City of Los Angeles* (2001) 87 CA4th 1217, 105 CR2d 262; *Riverwatch v County of San Diego* (1999) 76 CA4th 1428, 91 CR2d 322. For general discussion of the PSA, see §§10.10-10.15.

PRACTICE TIP: To avoid any ambiguity as to the date when an application is accepted as complete, city staff should document acceptance in a letter to the applicant. This action must occur within 30 days after the application was submitted. Govt C §65943. Documenting any staff-level determination that a project is exempt from CEQA is also important. For projects that are likely to be controversial, some cities request that the applicant agree in advance to defend any CEQA litigation that may result from project approval. See 85 Ops Cal Atty Gen 21 (2002). But see Pub Res C §21089(a).

© The Regents of the University of California

I. Legal Challenges

§11.59 1. Statute of Limitations

CEQA provides unusually short limitations periods. For agency actions, when a notice of determination or notice of exemption is filed, legal challenges must be filed within 30 or 35 days, respectively, of posting of the notice. See Pub Res C §21167(b), (d); 14 Cal Code Regs §15112. If a city proceeds with no CEQA compliance or does not file a notice of determination or notice of exemption, the statute of limitations is 180 days. This period runs from the city's formal project approval or, if there was no formal approval, from the date of commencement of the project. Pub Res C §21167(a), (d); 14 Cal Code Regs §15112(c)(5).

If a project as constructed is substantially different from the approved project, the commencement of the statute of limitations may be tolled until the challenger knew or reasonably should have known of the revisions to the project. *Concerned Citizens of Costa Mesa v Thirty-second Dist. Agric. Ass'n* (1986) 42 C3d 929, 231 CR 748. See also *Cumming v City of San Bernardino Redev. Agency* (2002) 101 CA4th 1229, 125 CR2d 42.

PRACTICE TIP: Before relying on the expiration of a statute of limitations, make sure that the required notice of determination or notice of exemption has been filed, posted, and mailed to any parties who have submitted a written request for a copy of the notice. See Pub Res C §§21152, 21167(f); 14 Cal Code Regs §15094; *Lewis v Seventeenth Dist. Agric. Ass'n* (1985) 165 CA3d 823, 834, 211 CR 884. In addition, ensure that fees owed to the State Department of Fish and Game have been paid (Pub Res C §21089(b); Fish & G C §711.4(c)). Because the statute of limitations runs from the posting of notice, and not from the time when the notice is filed with the county, or the state Office of Planning and Research if required, consider instructing city staff to witness that the notice is posted by the county clerk, and to obtain a copy of the notice showing the date of posting.

© The Regents of the University of California

§11.60 a. Challenges to Adequacy of Negative Declaration or EIR

If a plaintiff alleges that the city improperly prepared a negative declaration instead of an EIR or that the city prepared an inadequate EIR, then the statute of limitations expires 30 days after the posting of a notice of determination under Pub Res C §21152. Pub Res C §21167(b)-(c).

© The Regents of the University of California

§11.61 b. Challenges to Exemption Determinations

If the plaintiff alleges the city improperly determined the project was exempt from CEQA, then the statute of limitations is 35 days after the posting of a notice of exemption under Pub Res C §21167(d).

PRACTICE TIP: It is advisable to file a notice of exemption if there is any significant risk of a legal challenge. This provides a record of the city's determination that a project is exempt and invokes the benefit of the 35-day statute of limitations.

© The Regents of the University of California

§11.62 2. Exhaustion of Administrative Remedies

A prerequisite to bringing a legal challenge under CEQA is the requirement to present, either orally or in writing, specific objections to the agency decisions in question, either during the public comment period or before the close of the public hearing on the project. Pub Res C §21177; *California Native Plant Soc'y v City of Rancho Cordova* (2009) 172 CA4th 603, 615, 91 CR3d 571; *Sierra Club v City of Orange* (2008) 163 CA4th 523, 535, 78 CR 3d 1. *Coalition for Student Action v City of Fullerton* (1984) 153 CA3d 1194, 1197, 200 CR 855. Project opponents also must raise written or oral objections to an administrative appeal body with final decision-making authority, if applicable. *Tahoe Vista Concerned Citizens v County of Placer* (2000) 81 CA4th 577, 594, 96 CR2d 880. However, the presentation of specific objections may not be required as part of the administrative review to a project deemed by the agency to be exempt from CEQA. *Banker's Hill, Hillcrest Park, West Comm. Preservation Group v City of San Diego* (2006) 139 CA4th 249, 282, 42 CR3d 537 (exhaustion required for exemption determination and single unelaborated comment did not constitute exhaustion); *Azusa Land Reclamation Co. v Main San Gabriel Basin Watermaster* (1997) 52 CA4th 1165, 1210, 61 CR2d 447 (exhaustion requirement only applies if there is opportunity to present environmental concerns either during official public comment period or during public hearing).

© The Regents of the University of California

§11.63 3. Standing

To maintain an action under CEQA, a person must have objected to the city's approval of the project or the draft environmental document orally or in writing before the close of either the public comment period or the city's hearing on the project, whichever is later. Pub Res C §21177(b). A CEQA challenge is ordinarily brought as a petition for writ of mandate when the general rules of standing for mandate actions apply. *Santiago County Water Dist. v County of Orange* (1981) 118 CA3d 818, 832, 173 CR 602.

© The Regents of the University of California

§11.64 a. Beneficial Interest

The provisions of CCP §1086 require a showing of beneficial interest in that the petitioner will obtain some benefit from issuance of the writ or suffer some detriment from its denial, beyond the interest held in common by the public at large. See *Murrieta Valley Unified Sch. Dist. v County of Riverside* (1991) 228 CA3d 1212, 1224, 279 CR 421; *Braude v City of Los Angeles* (1990) 226 CA3d 83, 87, 276 CR 256; *Citizens Ass'n for Sensible Dev. v County of Inyo* (1985) 172 CA3d 151, 158, 217 CR 893.

© The Regents of the University of California

§11.65 b. Zone of Interest

The petitioner also must show that its interests are within the zone of interests to be protected or regulated by the legal duty asserted. *Waste Mgmt. of Alameda County v County of Alameda* (2000) 79 CA4th 1223, 1233, 94 CR2d 740. An economic or competitive interest alone does not provide standing under CEQA. 79 CA4th at 1235; *Regency Outdoor Adver., Inc. v. City of West Hollywood* (2007) 153 CA4th 825, 829, 63 CR3d 287. But see *Burrtec Waste Indus., Inc. v City of Colton (Taormina Indus.)* (2002) 97 CA4th 1133, 1137, 119 CR2d 410 (commercial competitor had standing to bring CEQA lawsuit challenging adequacy of public notice when challenge was not based solely on commercial interests of petitioner, but rather upheld public's right to notice).

© The Regents of the University of California

§11.66 4. Procedural Requirements

A party challenging a decision under CEQA must meet several procedural requirements. Many of these requirements are designed to ensure that CEQA litigation is resolved promptly.

© The Regents of the University of California

§11.67 a. Service of Mandate Petition

A proof of service by mail, demonstrating that the public agency carrying out or approving the project has received written notice of the commencement of the proceeding, must be filed concurrently with the initial pleading. Pub Res C §21167.5. The petitioner must also serve the Attorney General within 10 days of any initial filing and may not obtain any relief until this has been done. Pub Res C §21167.7. See also *Schwartz v City of Rosemead* (1984) 155 CA3d 547, 202 CR 400 (petitioner cannot collect attorney fees absent appropriate notification to Attorney General). The party must name as a real party in interest any recipient of an approval that is the subject of the action and serve the petition on that real party in interest. Pub Res C §21167.6.5.

Within 10 business days following service of the petition on the public agency, the public agency must provide the petitioner with a list of responsible agencies and any public agency having jurisdiction over a natural resource affected by the project. Pub Res C §21167.6.5(b). The petitioner is then required to notify these agencies of the pending action within 15 days. Pub Res C §21167.6.5(c).

© The Regents of the University of California

b. Administrative Record

§11.68 (1) Procedure

When filing a mandate petition, the petitioner must also file a request that the public agency prepare the administrative record. This request must be served on the agency within 10 business days from the date that the action or proceeding was filed. Pub Res C §21167.6(a). Absent a stipulation or court order granting additional time, the city must complete preparation of the administrative record within 60 days after service of the request. Pub Res C §21167.6(b), (c). Alternatively, the petitioner may elect to prepare the administrative record. Pub Res C §21167.6(b)(2). The petitioner generally bears the cost of preparing the administrative record and must take all necessary steps to obtain the record or have it prepared. *Black Historical Soc'y v City of San Diego* (2005) 134 CA4th 670, 677, 36 CR3d 378.

PRACTICE TIP 1: Proceed cautiously when preparing the record. See *Protect Our Water v County of Merced* (2003) 110 CA4th 362, 365, 1 CR3d 726 (county's failure to provide adequate, organized, and complete administrative record for appellate review required reversal of project approval, even though petitioner exercised its right to prepare record and did sloppy job). Also note that, absent a stipulation from petitioner, the respondent may not delegate the preparation of the administrative record to real parties in interest. *Hayward Area Planning Ass'n v City of Hayward* (2005) 128 CA4th 176, 184, 26 CR3d 783.

PRACTICE TIP 2: An agency's failure to timely prepare and certify the record may subject it to sanctions. Pub Res C §21167.6(d). The required contents of the record are specified in statute. See Pub Res C §21167.6(e).

© The Regents of the University of California

§11.69 (2) Contents

The required contents of the administrative record are specified in statute. Pub Res C §21167.6(e). The contents must include, without limitation, the following (Pub Res C §21167.6(e)):

- All project application materials;
- All staff reports and related documents prepared by the respondent public agency with respect to compliance with CEQA and the action on the project;
- All staff reports and related documents prepared by the respondent public agency and written testimony or documents submitted by any person relevant to any findings or statement of overriding considerations;
- Any transcript or minutes of the proceedings involving testimony on or consideration of the project or any environmental document on the project;
- All notices issued by the respondent agency;
- All written comments received;
- All written evidence or correspondence submitted to or transferred from the respondent public agency;
- Any proposed decisions or findings submitted to the decision-making body or the respondent public agency by its staff, or the project proponent, project opponents, or other persons;
- The documentation of the final public agency decision;
- Any other written materials relevant to the respondent public agency's compliance with CEQA or to its decision on the merits of the project; and
- The full written record before any inferior administrative decision-making body whose decision was appealed to the superior administrative decision-making body before the filing of litigation.

The record should include materials for any prior versions of the project previously considered by the agency. *Meija v City of Los Angeles* (2005) 130 CA4th 322, 335, 29 CR3d 788; *County of Orange v Superior Court* (2003) 113 CA4th 1, 8, 6 CR3d 286 ("[Pub Res C §21167.6(e)] contemplates that the administrative record will include pretty much everything that ever came near a proposed development *or* to the agency's compliance with CEQA in responding to that development").

The record of proceedings should be managed and compiled in a way that is thorough and well organized; otherwise a court may reverse the agency's approval of the project. The Fifth District Court of Appeal reversed an approval of a use permit for a gravel mine, based solely on the fact that the lead agency's record of proceedings "read … as if its preparers randomly pulled out documents and threw them into binders, failing to organize them either chronologically or by subject matter." *Protect Our Water v County of Merced* (2003) 110 CA4th 362, 365, 1 CR3d 726.

NOTE: A city's failure to timely prepare and certify the record may subject it to sanctions. Pub Res C §21167.6(d).

Documents that are privileged should not be included in the record of proceedings. The attorney-client and joint-defense privileges may apply even when documents are exchanged with counsel for a private applicant. *California Oak Found. v County of Tehama* (2009) 174 CA4th 1217, 94 CR 3d 902.

PRACTICE TIP 1: Check local court rules for additional requirements pertaining to the format and organization of the administrative record for CEQA litigation matters.

PRACTICE TIP 2: Costs related to record preparation, including out-of-pocket costs and staff time, are generally recoverable by the prevailing party. That includes costs incurred by the city even when the petitioner has elected to prepare the record, if the petitioner's actions impose costs on the agency. *St. Vincent's Sch. for Boys v City of San Rafael* (2008) 161 CA4th 989, 75 CR3d 213. City staff should keep a record of the time devoted to the record preparation effort. Such documentation will facilitate the preparation of a memorandum of costs if the court denies the petition.

© The Regents of the University of California

§11.70 (3) Statement of Issues

Within 30 days after notice of certification of the administrative record, the petitioner must file and serve a statement of the issues that it intends to raise at trial. The respondent and real party in interest then have 10 days to file and serve their own statement of issues. Pub Res C §21167.8(f). A party's failure to identify an issue in its statement of issues may be deemed a waiver of its ability to argue that issue later on. *El Morro Community Ass'n v California Dep't of Parks & Recreation* (2004) 122 CA4th 1341, 1351, 19 CR3d 445.

© The Regents of the University of California

§11.71 c. Settlement Negotiations

CEQA requires the parties to follow certain procedural steps early in the proceeding in an effort to determine whether a settlement can be reached. Pub Res C §21167.8(a)-(c). Failure of any party to participate in the litigation settlement process without good cause may result in the imposition of sanctions by the court. Pub Res C §21167.8(e).

© The Regents of the University of California

§11.72 d. Briefing and Hearing

Within 90 days after filing the mandate petition, the petitioner must serve and file a request to schedule a hearing. On application by any party, the court must set a briefing schedule and hearing date. Unless good cause is shown, briefing must be completed within 90 days after the filing of the request for hearing and the hearing must be held within 30 days, if feasible. Pub Res C §21167.4. If there is failure to file a timely request for hearing, absent relief from default for excusable neglect under CCP §473, dismissal of the CEQA challenge is mandatory. *Nacimiento Reg. Water Mgmt. Advisory Comm. v Monterey County Water Resources Agency* (2004) 122 CA4th 961, 18 CR3d 921.

PRACTICE TIP: Check local court rules for additional requirements pertaining to the briefing and hearing requirements for CEQA litigation matters.

© The Regents of the University of California

§11.73 5. Standard of Review

Two provisions of CEQA govern the "standard of review" applied by the courts in CEQA actions depending on whether the challenge is brought as a traditional mandate case or an administrative mandate case. See Pub Res C §§21168, 21168.5. In CEQA actions, the reviewing court essentially determines: (1) whether the city followed the procedural requirements of CEQA; and (2) whether the city's factual conclusions are supported by substantial evidence. See 14 Cal Code Regs §15384(a).

© The Regents of the University of California

§11.74 a. Deference to Substantive Judgments

Reviewing courts generally will defer to a city's substantive determinations while requiring strict compliance with CEQA procedures. In other words, courts do not pass on the correctness of environmental conclusions, but only on the sufficiency of the EIR or negative declaration as an informative document. See, *e.g., Citizens of Goleta Valley v Board of Supervisors* (1990) 52 C3d 553, 564, 276 CR 410.

PRACTICE TIP: Parties often dispute whether the city's alleged error is procedural or pertains to a factual judgment. These disputes arise because the standard of review, and the corresponding level of judicial deference, turns on how the alleged CEQA violation is characterized. In *Vineyard Area Citizens for Responsible Growth, Inc. v City of Rancho Cordova* (2007) 40 C4th 412, 53 CR3d 821, the supreme court concluded that "a reviewing court must adjust its scrutiny to the nature of the alleged defect, depending on whether the claim is predominantly one of improper procedure or a dispute over the facts." 40 C4th at 435. An agency's failure to follow required procedures is reviewed without deference, and prejudice is presumed. By contrast, a factual dispute is reviewed under the deferential "substantial evidence" standard. Be mindful of whether the record reflects disputed issues as factual in nature, thereby increasing the chance that a reviewing court will employ a standard of review that is deferential to the city's decision.

© The Regents of the University of California

§11.75 b. Mandamus Proceedings

A legal challenge to an environmental determination made under Pub Res C §21168 is reviewed by administrative mandamus as provided in CCP §1094.5; a determination made under Pub Res C §21168.5 is reviewed by traditional mandamus as provided in CCP §1085. *Friends of the Old Trees v Department of Forestry & Fire Protection* (1997) 52 CA4th 1383, 61 CR2d 297. In either case, evidence will generally be limited to the administrative record. *Western States Petroleum Ass'n v Superior Court* (1995) 9 C4th 559, 38 CR2d 139.

© The Regents of the University of California

§11.76 6. Remedies

If a trial court finds that a city has violated CEQA, the court must issue a peremptory writ of mandate requiring one or more of the following (Pub Res C §21168.9(a); *Laurel Heights Improvement Ass'n v Regents of Univ. of Cal.* (1988) 47 C3d 376, 422, 253 CR 426):

- That the city's action be voided in whole or in part;
- If the court finds that project activity will prejudice the consideration or implementation of particular mitigation measures or project alternatives, that the city and project proponent suspend all activity under the action that could change or alter the environment until the city has complied with CEQA; or
- That the city take specific actions to comply with CEQA.

If a court finds that an agency has taken an action without complying with CEQA, the court must specifically address each of the alleged grounds for noncompliance. Pub Res C §21005(c). If a court finds the CEQA review inadequate as to only a portion of the project and finds that portion to be "severable" from the remainder of the project, the court may allow the remainder of the project to proceed. Pub Res C §21168.9(b); *Anderson First Coalition v City of Anderson* (2005) 130 CA4th 1173, 1178, 30 CR3d 738. The court must retain jurisdiction over the city's CEQA proceedings until compliance is achieved. Pub Res C §21168.9(b). A CEQA challenge is not moot because the project has been constructed and is operating. An appellate court's decision to affirm the trial court's order requiring an EIR could result in modification of the project to mitigate adverse impacts or require that the project be torn down to restore the property to its original condition. *Woodward Park Homeowners Ass'n, Inc. v Garreks, Inc.* (2000) 77 CA4th 880, 92 CR2d 268.

© The Regents of the University of California

J. National Environmental Policy Act (NEPA)

§11.77 1. Persuasive Authority

CEQA was modeled on the National Environmental Policy Act of 1969 (NEPA) (42 USC §§4321-4370h). California courts view judicial and administrative interpretations of NEPA as persuasive authority for interpreting CEQA. See, *e.g., Citizens of Goleta Valley v Board of Supervisors* (1990) 52 C3d 553, 565 n4, 276 CR 410.

© The Regents of the University of California

§11.78 2. Joint Documents

CEQA requires coordination with the federal government whenever a project requires preparation of environmental documentation under both CEQA and the National Environmental Policy Act of 1969 (NEPA) (42 USC §§4321-4370h). See Pub Res C §§21083.5, 21083.7. The state CEQA Guidelines contain procedures for the coordination of federal and state environmental review. 14 Cal Code Regs §§15220-15229. NEPA uses different terminology to refer to environmental documents. An environmental impact statement (EIS) prepared under NEPA is comparable to an EIR prepared under CEQA. A finding of no significant impact (FONSI) prepared under NEPA is comparable to a negative declaration prepared under CEQA.

PRACTICE TIP: When processing a project that is subject to both CEQA and NEPA, it is important to be aware of certain procedural and substantive differences between these two acts. For example, NEPA requires a greater level of detail in the analysis of alternatives within an EIS than would be required for an EIR's alternatives analysis. 40 CFR §1502.14(b). Joint environmental documents must comply with the requirements of both CEQA and NEPA. 14 Cal Code Regs §15170.

III. WATER SUPPLIES AND SUPPLY PLANNING

§11.80 A. Overview of Water Management

Cities have the obligation to determine, in the context of land use decisions, whether there will be sufficient water to meet demands for new housing, industry, commerce, and other development, as well as for other water-dependent uses, including agriculture, recreation, and environmental uses. Management of California's water supply is largely the responsibility of an array of different federal, state, local, and private entities, including cities. Water suppliers other than cities must base their water supply and facilities planning on the land use decisions of cities. Likewise, cities and counties must base their land use planning decisions on the information provided by water suppliers.

© The Regents of the University of California

B. Role of State

1. Department of Water Resources (DWR)

§11.81 a. California Water Plan

The Department of Water Resources (DWR) published the first California Water Plan as its Bulletin No. 3 in 1957. The DWR is responsible for updating the Plan, now known as Bulletin No. 160, every 5 years to reflect changes in resources and urban, agricultural, and environmental water demands. See Wat C §10004. The plan suggests ways of managing demand and augmenting supply to balance water supply with demand on a statewide basis. See Wat C §§10004.5-10005. The plan was most recently updated in 2005. For information on the California Water Plan, including the most recent version of the Plan, go to www.waterplan.water.ca.gov/index.cfm.

© The Regents of the University of California

§11.82 b. State Water Project

The Department of Water Resources (DWR) operates the State Water Project (SWP), which diverts water from the Feather River in northern California and delivers it to 29 urban and agricultural contractors statewide. As part of its operations, the DWR prepares an assessment of the water supply reliability of the SWP. See California Department of Water Resources, State Water Project Delivery Reliability Report (2007) (available online at http://baydeltaoffice.water.ca.gov/swpreliability/). This assessment must be considered in CEQA documents for projects that rely on SWP water as part of their supplies. See *Santa Clarita Org. for Planning the Env't v County of Los Angeles ("SCOPE II")* (2007) 157 CA4th 149, 68 CR3d 449; *Santa Clarita Org. for Planning the Env't v County of Los Angeles ("SCOPE I")* (2003) 106 CA4th 715, 131 CR2d 186. The report should also be considered in any water supply assessment relying on SWP water, because a water supply assessment is a part of the CEQA document. See discussion of water supply assessments in §§11.99-11.104.

© The Regents of the University of California

§11.83 c. Water Resource Investigations

The Department of Water Resources (DWR) is responsible for surveying and investigating water resource issues throughout the state. See Wat C §§225-238. It has published numerous technical studies related to local water resources as well as statewide inventories of water supplies. See, *e.g.,* California Department of Water Resources, California's Groundwater, Bulletin No. 118-03 (2003) (available online at www.water.ca.gov/groundwater/bulletin118/bulletin118update2003.cfm); California Department of Water Resources, Mathematical Simulation of Salinity in the Sacramento River System, Bulletin No. 156 (1971). For a complete list of DWR publications, see California Department of Water Resources, Publications 1995-1999, Bulletin No. 170-99 (2000) (available online in the Publications and Video Repository at www.water.ca.gov/pubs/planning/department_of_water_resources_publications_1995-99__bulletin_160-99_/b17099.pdf).

© The Regents of the University of California

§11.84 d. Depository for Urban Water Management Plans

The Water Code requires all urban water suppliers within the state to prepare urban water management plans every 5 years. See Wat C §§10610-10656. The plans must be submitted to Department of Water Resources (DWR), to the State Library, and to any city or county in which the system provides water within 30 days of adoption. See Wat C §10644. The DWR must submit to the legislature a report summarizing the status of the plans, including their sufficiency. Wat C §10644. For discussion of the requirements for urban water management plans, see §§11.93-11.95.

© The Regents of the University of California

§11.85 e. Watermasters

The Department of Water Resources (DWR) may establish watermaster service areas for management of groundwater or surface water resources. See Wat C §§4000-4407.

© The Regents of the University of California

§11.86 f. Additional Mandates

The Governor has authority to issue Executive Orders and take other actions related to water and other issues. For example, in 2008, the Governor proclaimed a statewide drought and ordered the Department of Water Resources (DWR) to take actions to facilitate and improve coordination between local water districts and agencies and state and federal agencies and departments to respond to water shortages, identify risks to water supply, improve water conservation efforts, and help farmers suffering losses. See, *e.g.,* Office of the Governor, Executive Order S-06-08 (June 4, 2008) (available online at http://gov.ca.gov/executive-order/9797/).

© The Regents of the University of California

§11.87 2. State Water Resources Control Board (SWRCB)

Related to water supplies, the State Water Resources Control Board (SWRCB) is primarily responsible for the following:

- Administering the appropriative water rights permitting system (see Wat C §§174, 1200-1851);
- Acting as a referee in water rights determinations on reference by a court (see Wat C §§2000-2900);
- Collecting certain statements that must be filed by water users (see Wat C §§1005.1-1005.4, 1010-1011.5, 4999-5108); and
- Acting to prevent the waste or unreasonable use, unreasonable method of use, or unreasonable method of diversion of water within California (see Wat C §§100-101, 275). See also Cal Const art X, §2; *Imperial Irrig. Dist. v State Water Resources Control Bd.* (1990) 225 CA3d 548, 275 CR 250; *U.S. v State Water Resources Control Bd.* (1986) 182 CA3d 82, 227 CR 161.

In April 2006, the SWRCB delegated authority to the Chief of the Division of Water Rights to designate local agencies for the administration of the groundwater recordation program. See Wat C §§4999-5009. A groundwater extractor subject to the program and located within the jurisdictional boundaries of a designated local agency must send the annual Notice of Extraction and Diversion of Water and any applicable fees to the designated local agency rather than to the SWRCB. Wat C §5009.

As part of its regulatory jurisdiction over appropriative water rights, the SWRCB has authority to consider and approve temporary and long-term water transfers (Wat C §§1725-1745.11), and temporary urgency changes in point of diversion, place of use, or purpose of use from those specified in a water rights permit or license (Wat C §§1435-1442).

The SWRCB is also responsible for various duties related to protecting water quality. See §§11.111-11.183.

The traditional separation between water rights and water quality functions was in part countermanded in *State Water Resources Control Bd. Cases* (2006) 136 CA4th 674, 39 CR3d 189. Among other things, the court held that in some circumstances the SWRCB is required to achieve water quality objectives at least in part by allocating responsibility to do so amongst the water right holders.

© The Regents of the University of California

§11.88 C. Role of Special Districts

Although cities may provide water service, they are not obliged to do so. See §§6.2-6.10. In many instances, water service within a city is provided by one or more special districts. There are a great number of types of special districts distributing water on wholesale and retail bases within California. These include, but are not limited to, the following:

- Irrigation districts (see Wat C §§20500-29978);
- County water districts (see Wat C §§30000-33901);
- California water districts (see Wat C §§34000-38501);
- Municipal water districts (see Wat C §§71000-73001); and
- Public utility districts (see Pub Util C §§15501-18055).

In addition, there are numerous special districts that are not primarily responsible for the distribution of water but participate in some aspect of water resource management. These may be organized according to general statutes, such as water replenishment districts (see Wat C §§60000-60622), or they may be creatures of special legislation, such as the Orange County Water District (see Wat C App, ch 40). For information on the characteristics of 157 different types of public water agencies, see California Department of Water Resources, General Comparison of Water District Acts, Bulletin No. 155 (1994).

© The Regents of the University of California

§11.89 1. Watermasters

In addition to the special districts, a number of groundwater basins and stream systems in California are managed by a court-appointed watermaster as the result of adjudication of water rights in those sources. For a list of adjudicated basins under the jurisdiction of a watermaster, see California Department of Water Resources, California's Groundwater, Bulletin No. 118 at 42-43 (2003). In addition, watermaster service areas may be organized by the Department of Water Resources (DWR) for management of groundwater or surface water resources. See Wat C §§4000-4407. See also §11.85.

© The Regents of the University of California

§11.90 2. Planning Duties of Special Districts

The role of each type of special district listed above is somewhat unique. There are, however, several main water supply planning duties that a special water district might possess:

- Balancing of regional water supplies and demand;
- Importation of water to augment natural supplies;
- Groundwater management;
- Groundwater replenishment; or
- Underground water storage.

© The Regents of the University of California

§11.91 3. Private Water Companies

In addition to public agencies with water-related responsibilities, private water companies, including those regulated by the California Public Utilities Commission and mutual water companies, also have limited water supply planning roles. For example, private water companies may be included within the definition of "urban water suppliers" under the Urban Water Management Planning Act (Wat C §§10610-10656) or "public water systems" under SB 610 (2001). See Wat C §§10617, 10912(c). For further discussion of those acts, see §§11.93-11.95.

© The Regents of the University of California

D. Role of Cities

§11.92 1. General Plans

A city's general plan must address water supply as part of the conservation and safety elements. See Govt C §65302. The discussion of water supply must be consistent with the land use and other mandatory elements. See *Garat v City of Riverside* (1991) 2 CA4th 259, 285, 3 CR2d 504, disapproved on other grounds in *Morehart v County of Santa Barbara* (1994) 7 C4th 725, 743, n 11, 29 CR2d 804.

That portion of the conservation element related to water supplies must be developed in coordination with any countywide water agency and with all district and city agencies that have developed, served, controlled, or conserved water for any purpose within the county or city for which the plan is prepared. See Govt C §65302. Coordination includes the discussion and evaluation of any water supply and demand information described in Govt C §65352.5, if that information has been submitted by the water agency to the city or county. See Govt C §65302(d).

The safety element of general plans is required to address peakload water supply requirements as they related to identified fire and geologic hazards. See Govt C §65302(g).

Because general plans contain the most basic policy decisions regarding development issues and integrate multiple issues such as water, subsequent water-related projects must analyze environmental impacts based on adopted general plans. See *County of Amador v El Dorado County Water Agency* (1999) 76 CA4th 931, 91 CR2d 66. Environmental review of future water supply projects that fit within and implement an existing general plan may incorporate the growth-inducing impacts discussion of the general plan EIR. *Sierra Club v West Side Irrig. Dist.* (2005) 128 CA4th 690, 27 CR3d 223.

© The Regents of the University of California

§11.93 2. Urban Water Management Plans

All urban water suppliers, including qualifying cities, must prepare urban water management plans (UWMPs). See Wat C §10620. "Urban water suppliers" are public or private water suppliers directly or indirectly providing water for municipal purposes to more than 3000 customers or supplying more than 3000 acre-feet of water per year. See Wat C §10617. UWMPs must be updated once every 5 years, in years that end in 5 or 0. See Wat C §10621. UWMPs must be adopted pursuant to a process that includes a public hearing. See Wat C §10642. The preparation and adoption of a UWMP is statutorily exempt from the California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177), but the exemption does not extend to implementation of projects contemplated by the plan, other than certain listed projects. See Wat C §§10632, 10652.

Adopted plans, as well as any changes or amendments thereto, must be submitted to the Department of Water Resources (DWR), the State Library, and any city or county within which the supplier provides water supplies, no later than 30 days after adoption. Wat C §10644. Failure to submit an adopted UWMP to the DWR affects a supplier's eligibility to obtain funding under the Safe, Clean, Reliable Water Supply Act (Wat C §§78500-78702) or the Costa-Machado Water Act of 2000 (Wat C §§79000-79221), or to receive drought assistance from the state. See Wat C §10656. The DWR must consider whether the supplier is implementing, or has scheduled for implementation, the demand management measures contained in a UWMP in evaluating applications for urban water conservation program grants and loans made available under Wat C §79163. See Wat C §10631.5.

PRACTICE TIP: Water suppliers should be aware that updated urban water management plan (UWMPs) will be due before the end of 2010.

© The Regents of the University of California

§11.94 a. Requirements

Generally, an urban water management plan (UWMP) "shall describe and evaluate sources of supply, reasonable and practical efficient uses, reclamation and demand management activities. The components of the plan may vary according to an individual community or area's characteristics and its capabilities to efficiently use and conserve water. The plan must address measures for residential, commercial, governmental, and industrial water demand management." Wat C §10615. Specific requirements for UWMPs are listed in:

- Wat C §10631 (general content requirements, including information regarding groundwater and desalination);
- Wat C §10631.1 (water use projections for lower income residences);
- Wat C §10632 (water shortage contingency analysis);
- Wat C §10633 (recycled water and wastewater analysis);
- Wat C §10634 (water quality and effects of water quality on management strategies and supply reliability); and
- Wat C §10635 (water service reliability for normal, single dry, and multiple dry water years).

Plans must consider population and water uses over a 20-year horizon. See Wat C §§10631(a), 10635(a). An urban water supplier that relies on a wholesale agency for a source of water may rely on water supply information provided by the wholesaler to fulfill plan informational requirements under Wat C §10631(b)-(c). See Wat C §10631(k).

© The Regents of the University of California

§11.95 b. Alternative Water Sources or Water Demand Management Measures

If any water source may not be available at a consistent level due to legal, water quality, environmental, or climatic factors, the urban water management plan (UWMP) must, to the extent possible, describe plans to supplement or replace the water source with alternative sources or water demand management measures. Wat C §10631(c). Failure to adequately address the reliability of a contaminated groundwater supply, including timing issues relating to treatment of contaminated water, may render the UWMP invalid. *Friends of the Santa Clara River v Castaic Lake Water Agency* (2004) 123 CA4th 1, 19 CR3d 625.

© The Regents of the University of California

§11.96 3. Groundwater Regulation

Cities and counties may also regulate groundwater within their jurisdictional territory under the police power. See, *e.g., Allegretti & Co. v County of Imperial* (2006) 138 CA4th 1261, 42 CR3d 122; *Baldwin v County of Tehama* (1994) 31 CA4th 166, 36 CR2d 886. This has been done on a regular basis by counties; currently, at least 27 have enacted some kind of groundwater ordinance. See California Department of Water Resources, California's Groundwater, Bulletin No. 118 at 39 (2003). These ordinances vary in substance, from regulating only certain areas of concern, to establishing groundwater objectives and monitoring requirements, to limiting exports of groundwater outside the county. See California's Groundwater at 39.

© The Regents of the University of California

§11.97 4. Groundwater Management Plans

Special districts that provide water service, as well as cities and counties, may by ordinance or resolution adopt groundwater management plans related to the groundwater basins that underlie their respective service areas. See Wat C §10753. These plans, sometimes called "AB 3030 plans" following the original 1992 authorizing act, may include components related to (see Wat C §§10753.7-10753.8):

- Control of saline water intrusion;
- Wellhead protection areas;
- Regulation of the migration of contaminated groundwater;
- Mitigation of overdraft;
- Monitoring of groundwater levels and storage;
- Replenishment of groundwater; or
- Other listed components.

A local agency may not manage groundwater within the service area of another local agency without that agency's consent, nor may it manage groundwater within the service area of a water corporation regulated by the Public Utilities Commission or a mutual water company without that entity's consent unless the groundwater basin is "critically overdrafted." See Wat C §§10750.7-10750.8. A groundwater management plan may not be adopted for any portion of a basin that is subject to groundwater management by a local agency or a watermaster under other provisions of law or a court order, judgment, or decree, unless the local agency or watermaster agrees (see Wat C §§10750.2(b), 10750.6), but a managed basin may be subsequently adjudicated. Although adoption of AB 3030 (1992) plans by a local agency is voluntary (see Wat C §10750.4), an agency that seeks funds from the DWR under any program for the construction of groundwater supply or quality projects (except under the Local Groundwater Management Assistance Act of 2000 (Wat C §§10795-10795.20)) must prepare and implement an AB 3030 plan that meets the requirements of Wat C §10753.7(a). See Wat C §§10753.7(a), 10795-10795.20.

© The Regents of the University of California

5. Evaluation of Water Supply for Development Projects

§11.98 a. EIR Requirement

An environmental impact report (EIR) for a development project must contain a thorough analysis that reasonably informs the reader of the amount of water available to serve the development. *Vineyard Area Citizens for Responsible Growth, Inc. v City of Rancho Cordova* (2007) 40 C4th 412, 53 CR3d 821; *Santa Clarita Org. for Planning the Env't v County of Los Angeles ("SCOPE II")* (2007) 157 CA4th 149, 68 CR3d 449; *California Oak Found. v City of Santa Clarita* (2005) 133 CA4th 1219, 35 CR3d 434; *Santa Clarita Org. for Planning the Env't v County of Los Angeles ("SCOPE I")* (2003) 106 CA4th 715, 131 CR2d 186. See also *Planning & Conserv. League v Department of Water Resources* (2000) 83 CA4th 892, 100 CR2d 173.

An EIR does not need to identify a guaranteed source of water and need not demonstrate with certainty that future water supplies will be sufficient to meet total demand. However, it must identify an existing, available, and sufficient source of water for the project. *Western Placer Citizens for an Agric. & Rural Env't v County of Placer* (2006) 144 CA4th 890, 50 CR3d 799. Moreover, an EIR must (*Vineyard Area Citizens for Responsible Growth, Inc. v City of Rancho Cordova* (2007) 40 C4th 412, 53 CR3d 821)

- evaluate the likelihood of future water supplies proving available for the project over the short and long term;
- identify alternative water supplies should some uncertainty exist regarding the availability of anticipated supplies;
- analyze the reasonably foreseeable environmental impacts of utilizing such supplies; and
- describe mitigation measures available to minimize adverse impacts.

© The Regents of the University of California

b. Water Supply Assessments (WSA)

§11.99 (1) When Required

Larger development projects, including those that have water use demands equivalent to a 500-dwelling unit project or would increase the number of service connections by 10 percent or more for a water supplier with fewer than 5000 service connections, are subject to a statutory requirement for preparation of a water supply assessment (WSA) as part of CEQA review for any covered project, even when only a negative declaration is required. Pub Res C §21151.9; Wat C §§10910(b), 10912. For any development project subject to CEQA, the city should identify the public water system that will serve the project, and the number of service connections it has, to determine whether the size of the project meets the threshold for requiring a WSA. Although generally a city or county will be able to identify the proper water system and request a WSA from that party, if no public water system can be identified, the city or county must prepare a WSA itself. See Wat C §10910(b).

© The Regents of the University of California

§11.100 (2) Contents

If the water demand for a proposed project is accounted for in the most recently adopted urban water management plan, as described in §§11.93-11.95, the public water system may incorporate information from that plan into the water supply assessment (WSA). See Wat C §10910(c)(2). In general, a WSA must include a discussion of whether the total projected water supplies and demands during normal, single dry, and multiple dry years during a 20-year projection will meet the proposed project's water demand in addition to the public water system's existing and planned future uses. Wat C §10910(c)(3). For groundwater supplies, the WSA must include additional information, including whether the relevant groundwater basins have been adjudicated. If the relevant groundwater basins have not been adjudicated, the WSA must reference the overdraft status of the basins as stated in California Department of Water Resources, California's Groundwater, Bulletin No. 118 (2003). See Wat C §10910(f)(2).

Demonstrating reliable water supplies has become increasingly difficult due to factors such as environmental constraints, drought conditions, and increasing water demands, thus requiring water purveyors and land use agencies to be particularly thorough when preparing water supply analyses. See, *e.g., Vineyard Area Citizens for Responsible Growth, Inc. v City of Rancho Cordova* (2007) 40 C4th 412, 53 CR3d 821; *Friends of the Santa Clara River v Castaic Lake Water Agency* (2004) 123 CA4th 1, 19 CR3d 625; *Santa Clarita Org. for Planning the Env't v County of Los Angeles ("SCOPE I")* (2003) 106 CA4th 715, 131 CR2d 186; *Planning & Conserv. League v Department of Water Resources* (2000) 83 CA4th 892, 100 CR2d 173.

© The Regents of the University of California

§11.101 (3) Insufficient Water Supply

If the public water supplier determines in the water supply assessment (WSA) that there are insufficient supplies available to serve the proposed project, the water supplier must describe plans to acquire or develop additional supplies, including information regarding funding, permit requirements, and timing. See Wat C §10911(a). The local land use planning agency must then determine, based on the entire record including the WSA, whether the projected water supplies will be sufficient to satisfy project demands, in addition to existing and planned future uses. If the agency determines that the supplies will not be sufficient, that determination must be included in the findings related to the project. See Wat C §10911(c).

© The Regents of the University of California

§11.102 (4) Justiciability

One court has held that for a water supply assessment (WSA) challenge to be justiciable, the challenger must participate in and bring such suit as part of the CEQA process. See *California Water Impact Network v Newhall County Water Dist.* (2008) 161 CA4th 1464, 75 CR3d 393.

© The Regents of the University of California

§11.103 (5) Water Suppliers' "Substantial Discretion"

Water suppliers have "substantial discretion" in determining how to measure groundwater sufficiency in preparing and adopting a water supply assessment (WSA). See *O.W.L. Found. et al v City of Rohnert Park* (2008) 168 CA4th 568, 86 CR3d 1 (city did not abuse discretion when it (1) decided not to analyze groundwater pumping by all parties in the entire basin, and (2) focused the WSA analysis around its own groundwater production activities).

PRACTICE TIP: A city or county that receives a water supply assessment (WSA) must independently assess the information and analysis contained in the WSA to ensure its adequacy. When a city has its own water department or utility that will serve the proposed project, city staff should recognize that the water department's role in preparing and approving the WSA is separate and apart from the final decision-making roles carried out by the planning commission and city council. In particular, the water department's preparation and adoption of a WSA is neither equivalent to nor binding on the CEQA determination on water supply issues and does not constitute a land use approval for the project. Instead, the city council, as the lead agency and land use authority, must determine whether the projected water supplies are sufficient to satisfy the demands of the project and existing and future uses, and whether to approve the project. See Wat C §10911(c).

© The Regents of the University of California

§11.104 (6) Information Resources

The Department of Water Resources (DWR) has prepared the Guidebook for Implementation of Senate Bill 610 and Senate Bill 221 of 2001 (2003) (available online at www.water.ca.gov/pubs/use/sb_610_sb_221_guidebook/guidebook.pdf). In addition, the Association of California Water Agencies has published a user's guide entitled Water Supply and Development (2003). For additional resources, see Garcia, P., Evolving Issues for Water Supply Assessment in a Water Scarce California (League of California Cities Annual Conference, 2008).

© The Regents of the University of California

§11.105 c. Written Verification of Water Supplies for Residential Subdivisions

Every tentative map for residential subdivisions of more than 500 dwelling units (or 10 percent or more of the public water system's current connections if the system has less than 5000 connections) must contain as a condition of approval a requirement that a sufficient water supply will be available. Govt C §66473.7. A development agreement that includes such a residential subdivision must contain a requirement that any tentative map prepared for the subdivision will comply with Govt C §66473.7. Govt C §65867.5(c).

Evidence of the availability of a sufficient water supply is based on a written verification from the public water system that will supply the subdivision, prepared at the request of the applicant or the city or county. Govt C §66473.7(b)(1). The written verification is due within 90 days of the request. An approved written verification is filed with the Department of Real Estate under the Subdivided Lands Act (Bus & P C §§11000-11200). See Bus & P C §11010(b)(6). The requirement for a written verification does not apply to subdivisions within an urbanized area on land that has been previously developed for urban uses or that is surrounded by land that is or has been developed for urban uses, or to housing projects that are exclusively for very-low and low-income households. Govt C §66473.7(i).

© The Regents of the University of California

§11.106 (1) Definition of "Sufficient Water Supply"

The definition of a "sufficient water supply" is consistent with the statutory provisions governing preparation of urban water management plan (UWMPs). See Govt C §66473.7(a)(2); Wat C §§10620-10645. A finding of sufficiency must be based on substantial evidence. Substantial evidence relied on in a written verification may include the water system's most recently adopted UWMP, a water supply assessment (WSA), or other analytical information substantially similar to that in a water service reliability assessment for an UWMP. See Govt C §66473.7(c). If groundwater will be a source of supply for the project, the water system must evaluate, based on substantial evidence, the extent to which the water system or the landowner has the right to extract the additional groundwater needed to supply the proposed subdivision. See Govt C §66473.7(h).

© The Regents of the University of California

§11.107 (2) Reliance on Supplies Not Currently Available

If a written verification relies on water supplies that are not currently available to the public water system to provide a sufficient water supply to the subdivision, it must be based on the following, to the extent that each is applicable (see Govt C §66473.7(d)(1)- (4)):

- Written contracts or other proof of valid rights to the identified water supply;
- Adopted capital outlay programs to finance delivery of a sufficient water supply;
- Securing of applicable federal, state, and local permits for construction of any necessary infrastructure; and
- Any necessary regulatory approvals required to convey a sufficient water supply to the proposed project.

If the public water system verifies that it is unable to provide a sufficient water supply to meet the projected demand of the proposed subdivision, the city or county may nevertheless find that water supplies will be sufficient as a result of additional water supplies not accounted for by the public water system that are or will be available before completion of the subdivision. See Govt C §66473.7(b)(3).

© The Regents of the University of California

§11.108 (3) Compelling Compliance

The local agency or any other interested party can seek a writ of mandamus to compel a water purveyor to comply with Govt C §66473.7. See Govt C §66473.7(b)(2). But see §11.102.

© The Regents of the University of California

§11.109 d. Agreements With Developers

Various public agencies, including water districts (see, *e.g.,* Wat C §§34000-38501), may enter into an agreement with a land developer for the construction of oversized water facilities to support anticipated growth in the area. Such agencies may also enter into agreements with subsequent developers to reimburse the first developer for the construction costs of the oversized facilities. See 88 Ops Cal Atty Gen 172 (2005) (addressing California water districts).

© The Regents of the University of California

§11.110 6. Integrated Regional Water Management Planning Act

Under the Integrated Regional Water Management Planning Act (Wat C §§10530-10550), three or more local agencies, including cities, counties, special districts, corporations, and mutual water companies, may form a regional water management group to prepare and adopt regional plans for the implementation or operation of qualified water projects or programs, or for the preparation of reports or studies relating to regional water quality, water supply planning, flood protection, or environmental mitigation, restoration, or enhancement. See Wat C §§10533-10537, 10540.

At least two members of a group must have statutory authority over water supply. See Wat C §10537. The group may be established by a joint powers agreement, memorandum of understanding, or other written agreement approved by the governing bodies of the participating agencies. Wat C §10537. The plan may address qualified programs, projects, reports, or studies that any participating local public agency has the authority to undertake. See Wat C §10540(b). This includes groundwater management planning, urban water management planning, agricultural water management planning, and the preparation of water supply assessments. Wat C §10540(b), (c). For additional resources, see Hentschke, Show Me the Water (League of California Cities—City Attorney Department Spring Conference, 2003). The Integrated Regional Water Management Planning Act (IRWMPA) (Wat C §§10530-10550) was enacted effective March 1, 2009. The IRWMPA provides a general definition of an IRWM plan (Wat C §10534) as well as guidance to Department of Water Resources regarding content of IRWM Program Guidelines. Under Wat C §10541(f), the guidelines must include standards for identifying a region for the purposes of developing or modifying an IRWM plan. The Region Acceptance Process (RAP) for IRWM Program Guidelines will be used to evaluate and accept an IRWM region into the IRWM grant program. Wat C §10541(f).

© The Regents of the University of California

IV. WATER QUALITY

A. Overview of Regulation

§11.111 1. Porter-Cologne Act

The Porter-Cologne Water Quality Control Act (Porter-Cologne Act) (Wat C §§13000-14958) governs water quality in California. It is a comprehensive regulatory framework governing waste discharges to both surface and groundwater.

© The Regents of the University of California

§11.112 2. Regulatory Agencies

The Porter-Cologne Act is implemented by the State Water Resources Control Board (SWRCB) and nine regional water quality control boards (RWQCBs). The SWRCB and the regional boards adopt policies and plans relating to water quality control in the state that together comprise the uniform water quality guidelines for California. These boards also implement portions of the Federal Water Pollution Control Act, as amended (the Clean Water Act (33 USC §§1251-1387)). See Wat C §§13370-13389. The boards also administer the National Pollutant Discharge Elimination System (NPDES) permit program. See, *e.g.,* Wat C §13370; 33 USC §§1288, 1313 (planning), 1342 (permits).

© The Regents of the University of California

§11.113 3. Other Statutes Relating to Water Quality

In addition to the Porter-Cologne Act and the federal Clean Water Act (see §§11.111-11.112), there are several state statutes that govern hazardous waste and certain site-specific discharges. See Health & S C §§25100-25257.1 (hazardous waste control), 25300-25395.45 (state superfund law), 25280-25299.8 (underground storage of hazardous substances), 25159.10-25159.25 (toxic injection wells), 25208-25208.17 (toxic pits). See also Health & S C §§25189.5, 25192, 25249.5-25249.13 (the Safe Drinking Water and Toxic Enforcement Act of 1986, commonly called Proposition 65). For discussion of these issues and statutes, see §§11.248-11.249.

In addition, it is unlawful to deposit in, or cause to be deposited in, California waters any substance or material deleterious to fish, plants, mammals, or birds, unless the discharge is expressly authorized under a waste discharge requirement or waiver issued by the state or regional boards after a public hearing or a federal permit for which the state or a regional board has, after a public hearing, issued a water quality certificate. Fish & G C §5650.

© The Regents of the University of California

B. Water Quality and Cities

§11.114 1. Cities' Two Roles

Cities are affected by the state and federal regulation of water quality in two regards: (1) when they engage in activities that are regulated by this statutory scheme; and (2) when they are acting in their role as regulators.

© The Regents of the University of California

2. City as Regulated Entity

§11.115 a. General Requirement

The Porter-Cologne Act requires anyone discharging or proposing to discharge waste that could affect the quality of the state's waters (or when there is a material change in such discharge) to file a report of waste discharge (ROWD). Wat C §13260. The State Water Resources Control Board (SWRCB) or a regional board can then prescribe requirements establishing conditions for the discharge, commonly referred to as "waste discharge requirements" (WDRs). Wat C §§13263, 13374. Contaminants and pollutants are defined broadly. See *Lake Madrone Water Dist. v State Water Resources Control Bd.* (1989) 209 CA3d 163, 168, 256 CR 894. WDRs can be state-only permits or jointly issued as a WDR/National Pollutant Discharge Elimination System (NPDES) permit. Wat C §§13263, 13377.

© The Regents of the University of California

§11.116 b. Cities as Dischargers

Cities operating sewage treatment plants must comply with state and federal laws in the operation of the plants and the discharge of the waste into surface waters. On requirements related to sewage disposal, see §§11.162-11.168.

© The Regents of the University of California

3. City as Regulator

§11.117 a. Authority to Impose More Restrictive Controls

Cities are not preempted from imposing more restrictive water quality controls. The Porter-Cologne Act does not preclude a city from adopting and enforcing additional and more restrictive regulations with respect to protecting water quality or from abating nuisances. Wat C §13002; *People ex rel Deukmejian v County of Mendocino* (1984) 36 C3d 476, 204 CR 897; *People v New Penn Mines, Inc.* (1963) 212 CA2d 667, 674, 28 CR 337. See *People v City of Los Angeles* (1958) 160 CA2d 494, 325 P2d 639 (city may prohibit another city from depositing sewage resulting in contamination of land within prohibiting city's boundaries). Although a city may prohibit discharge of waste effluent at a certain site, an ordinance prohibiting all discharges of waste originating outside the city is probably invalid. See 47 Ops Cal Atty Gen 40 (1966). See generally *Oregon Waste Sys., Inc. v Department of Envt'l Quality* (1994) 511 US 93, 128 L Ed 2d 13, 114 S Ct 1345 (invalidating surcharge on disposal of solid waste from other states). For further discussion of local regulation of water service, see chap 6.

© The Regents of the University of California

§11.118 b. Nuisance Abatement

Cities can declare and abate nuisances. The Porter-Cologne Act does not prohibit a city from declaring or abating nuisances. See Wat C §13002(b). On general principles of nuisance law, see §§9.113-9.117.

© The Regents of the University of California

§11.119 c. EPA Enforcement

Local regulations are sometimes enforceable by the federal Environmental Protection Agency (EPA). When a city enacts an ordinance establishing the limitations on the type and quantity of pollutants that can be discharged into a municipal sewer system, the federal EPA construes those standards as the standards required for compliance with the Clean Water Act (33 USC §§1251-1387) (and they are, therefore, enforceable by the EPA). See 40 CFR §403.5(d).

© The Regents of the University of California

d. Local Regulation of Groundwater Quality

§11.120 (1) Wells

All cities, counties, and water agencies must have an ordinance relating to water well, cathodic protection well, and monitoring well drilling, maintenance, and abandonment that contains standards that meet or exceed state minimums or the state's model standards must be enforced by the city or county. Wat C §§13800-13801, 13803, 13805. If a water agency has an acceptable ordinance and has permit authority over well drilling within a city's jurisdiction, the city does not have to adopt such an ordinance. Wat C §13801(c).

© The Regents of the University of California

§11.121 (2) State-Recommended Standards

In addition, if a regional board finds that additional standards for water wells, cathodic protection wells, and monitoring wells are needed in an area to protect water quality, the board must make a report with recommended standards and notify the affected cities and counties within the area. See Wat C §13802. On receipt of the report, the affected city or county has 120 days to consult with all interested parties and to adopt an ordinance establishing standards. Wat C §13803. The standards adopted by ordinance are effective 60 days after their adoption. Wat C §13804. If a city or county fails to adopt standards, the regional board may impose standards. See Wat C §13805.

© The Regents of the University of California

§11.122 (3) Groundwater Management Plans

Local agencies may adopt groundwater management plans that address groundwater issues. Wat C §§10750-10755.4. Local ordinances may regulate pumping practices and use of groundwater. *Baldwin v County of Tehama* (1994) 31 CA4th 166, 36 CR2d 886 (upholding constitutional right of cities and counties to regulate groundwater). Cities and other public entities within the same groundwater basin that have adopted groundwater management plans under Wat C §10755.3 must meet at least annually to coordinate those programs. Wat C §10755.3.

© The Regents of the University of California

§11.123 (4) Subdivision Map Act

The Subdivision Map Act (Govt C §§66410-66499.37) provides authority for cities to fund facilities to preserve and protect groundwater. Under the Subdivision Map Act, a city can adopt groundwater recharge facility plans, construct recharge facilities, and charge a fee for construction of the facilities as a condition of approval of subdivision maps or building permits. Govt C §66484.5.

© The Regents of the University of California

C. Basic Regulatory Scheme

1. State Water Resources Control Board Plans and Policies

§11.124 a. Development

The policies and plan developed under the Porter-Cologne Act became part of the California Water Plan. Wat C §§10004, 13141. The State Water Resources Control Board (SWRCB) is charged with formulating and adopting policy for water quality control. Wat C §13140. In so doing, the SWRCB must consult with and carefully evaluate the recommendations of concerned federal, state, and local agencies (Wat C §13144) and hold a noticed public hearing before adoption of a new policy (Wat C §13147). At least 60 days before the hearing, the SWRCB must notify any affected regional boards, unless notice is waived. Wat C §13147. The SWRCB also adopts policies relating to water quality of the coastal marine environment, such as the California Ocean Plan. Wat C §13142.5.

© The Regents of the University of California

§11.125 b. Applicability

Any policy or plan adopted or approved by the State Water Resources Control Board (SWRCB) is binding on other state agencies unless specifically exempted by statute. Wat C §13146. The Porter-Cologne Act expressly requires that the SWRCB's policies and plans be consistent with the state's housing and sustainable living environment goals. Wat C §13142.

© The Regents of the University of California

§11.126 c. Maintaining High Quality of State Waters Policy

One important policy adopted by the State Water Resources Control Board (SWRCB) is the "anti-degradation" policy. This policy, adopted via SWRCB Resolution No. 68-16, requires water quality control regulations that achieve or maintain "the highest water quality consistent with maximum benefit to the people." (This resolution is available online at www.swrcb.ca.gov/board_decisions/adopted_orders/resolutions/1968/rs68_016.pdf). Notwithstanding the broad language of this policy, the SWRCB has held that limited degradation of water quality may be acceptable when the level established: (1) is consistent with the level designated in cleanup orders; (2) is consistent with the public benefit; and (3) does not unreasonably affect beneficial uses. See Monahan et al, California Environmental Law Handbook 79 (9th ed 1995) (citing *In re County of Santa Cruz,* SWRCB Order No. 86-8).

© The Regents of the University of California

§11.127 d. Nonpoint Source Management Plan

Point sources such as municipal wastewater discharges were the primary focus of water quality control in the 1970s and 1980s. Nonpoint sources are now receiving a larger portion of planning and regulatory attention. In many areas, nonpoint sources, such as urban nuisance flows, sediment runoff, and agricultural runoff, are the principal sources of contaminants entering surface and groundwater. Section 319 of the 1987 Amendments to the Clean Water Act (33 USC §1329) requires each state to prepare a nonpoint source management plan and to conduct an assessment of the impact nonpoint sources have on the state's waters. In SWRCB Resolution No. 99-114, the State Water Resources Control Board (SWRCB) adopted a nonpoint source pollution control program and authorized its submittal to the EPA. (The resolution is available online at www.swrcb.ca.gov/board_decisions/adopted_orders/resolutions/1999/rs99-114.shtml and the SWRCB's program plan is available online at www.waterboards.ca.gov/water_issues/programs/nps/protecting.html). See also SWRCB Resolution No. 88-123 (establishing nonpoint management framework), available at www.swrcb.ca.gov/board_decisions/adopted_orders/resolutions/1988/rs1988_0123.pdf.

© The Regents of the University of California

2. Water Quality Plans

§11.128 a. Regional Boards

The regional boards, in consultation with affected cities, counties, and other local agencies, formulate and adopt water quality control plans for each area within their respective regions. Wat C §13240. The water quality control plans (commonly known as "basin plans") are similar to a city's general plan, providing the blueprint for water quality control policy for each region. Plans must be adopted in accordance with the Administrative Procedure Act (Govt C §§11340-11529). Govt C §11353; *State Water Resources Control Bd. v Office of Admin. Law* (1993) 12 CA4th 697, 703, 16 CR2d 25. Each of the nine regional boards' basin plan is available online at www.waterboards.ca.gov/plans_policies/.

© The Regents of the University of California

§11.129 b. Requirements for Basin Plans

The basin plans are developed to ensure the reasonable protection of beneficial uses and prevention of nuisance. Wat C §§13000, 13241.

The basin plans establish water quality objectives to protect beneficial uses. Waste discharge requirements (WDRs) are then based on the applicable water quality objectives. Wat C §§13241, 13263(a). Regional boards are to consider the following factors in developing water quality objectives, in issuing state-only WDRs, and in issuing requirements in National Pollutant Discharge Elimination System (NPDES) permits more stringent than required by federal law (Wat C §§13241, 13263(a); *City of Burbank v State Water Resources Control Bd.* (2005) 35 C4th 613, 26 CR3d 304):

- All past, present, or potential beneficial uses of water;
- A determination regarding the environmental characteristics of the area and its water quality;
- An assessment of the water quality conditions that reasonably could be achieved through coordinated control of all factors that affect water quality in the area;
- An analysis of relevant economic considerations;
- The need for developing housing within the region; and
- The need to develop and use recycled water.

In addition to state water quality objectives, the EPA has adopted federal water quality criteria for certain priority pollutants in its California Toxics Rule. 65 Fed Reg 31681 (May 18, 2000). These federal criteria are implemented through the state's Policy for the Implementation of Toxic Standards for Inland Surface Waters and Enclosed Bays and Estuaries (referred to as the State Implementation Plan, or SIP), available at www.epa.gov/waterscience/standards/wqslibrary/ca/.

A basin plan or an amendment to a basin plan adopted by a regional board is not effective until approved by the State Water Resources Control Board (SWRCB). Wat C §13245. However, when a basin plan amendment involves a water quality standard adopted by states and authorized tribes on or after May 30, 2000, such standards must be approved by the EPA before they are the basis for actions under the Clean Water Act (*e.g.,* establishment of water quality-based effluent limits under Clean Water Act §301(b)(1)(C) or development of total maximum daily loads (TMDLs)). See 40 CFR §131.21(c)(2).

PRACTICE TIP: Cities should carefully monitor the adoption of basin plans or other generally applicable water quality control plans by the regional boards. It is at this stage that cities may argue that policies proposed by the Regional Water Quality Control Board (RWQCB) will have adverse economic consequences that are not warranted by the environmental benefits to be gained. Later applications for WDRs must be determined to be consistent with the plans, and objections based on the impact to the city may be too late.

© The Regents of the University of California

§11.130 3. Implementation

The regional boards implement both state and federal laws regulating discharges of waste into state waters. The state program is implemented through issuance of waste discharge requirements (WDRs) and the federal program is implemented, subject to federal EPA review and veto, through issuance of National Pollutant Discharge Elimination System (NPDES) permits. Wat C §§13370-13389. The critical elements of the permits are the prohibitions and effluent limitations, which set the acceptable pollutant levels of the permit holder's discharge/wastewater.

© The Regents of the University of California

a. State Waste Discharge Requirements

§11.131 (1) When Required

Unless affirmatively waived by the state or regional boards (see Wat C §13269), all discharges of waste that could impact water quality or beneficial use require waste discharge requirements (WDRs) even if a National Pollutant Discharge Elimination System (NPDES) permit is not required. See, *e.g., Lake Madrone Water Dist. v State Water Resources Control Bd.* (1989) 209 CA3d 163, 168, 256 CR 894.

PRACTICE TIP: The definition of "waste" has become a key issue in this regulatory arena as the regional boards have proposed WDRs for the discharge or beneficial reuse of recycled water and even imported water. See §§11.180-11.183. If the discharge is not a "waste," then no WDRs are required. Wat C §13050(d) (defining "waste").

© The Regents of the University of California

§11.132 (2) Report of Waste Discharge Is Permit Application

The Porter-Cologne Act requires anyone discharging or proposing to discharge waste that could affect the quality of the state's water (or when there is a material change in such discharge) to prepare and file a "Report of Waste Discharge" (ROWD) with the regional board. Wat C §13260.

© The Regents of the University of California

§11.133 (3) Waste Discharge Requirement Is Permit

Waste discharge requirements (WDRs) specify what the applicant can and cannot discharge into state waters. Wat C §13263. A waste discharge requirement can be waived by a regional board, but recent legislative changes to the waiver requirements have made this process much more onerous. Wat C §13269.

© The Regents of the University of California

§11.134 (4) Permit Issuance Is Quasi-Judicial Act

Adoption of the waste discharge requirements (WDRs) is an administrative or "quasi-judicial" act and follows similar procedural patterns for adoption and appeal of such actions. See Wat C §13330(d); CCP §1094.5. Complete applications for WDRs are reviewed by regional board staff, who prepare a draft permit that is sent to the applicant and any interested parties. The matter is placed on a regional board agenda for consideration. The regional board may adopt, modify, or reject the draft permit. See Wat C §13263.

© The Regents of the University of California

§11.135 (5) Standard for Issuance

Waste discharge requirements (WDRs) must implement the water quality control plans and protect beneficial uses of the receiving waters. Wat C §13263(a). The effluent limits imposed need not mirror the water quality objectives being implemented and may take into account available dilution, mixing, and ambient water quality. See *In the Matter of the Petition for Review of the City of Manteca,* SWRCB Order No. WQ 2005-05 at 12-13.

© The Regents of the University of California

§11.136 (6) Periodic Review

Discharge of waste is a privilege, not a vested right. The ability to continue discharging is reviewed periodically by the regional board (frequently every 5 years) and may be discontinued. See Wat C §13263(g).

© The Regents of the University of California

b. Federal National Pollutant Discharge Elimination System (NPDES) Permits

§11.137 (1) When Required

Under the federal Clean Water Act (33 USC §§1251-1387), a National Pollutant Discharge Elimination System (NPDES) permit is required for all point source discharges of pollutants to navigable waters of the United States. 33 USC §§1311(a), 1342. See generally 40 CFR pts 122-125. A "point source" is a discrete conveyance such as a pipe or channel. 33 USC §1362(14).

© The Regents of the University of California

§11.138 (2) Issuance by State

Federal law also provides that states with sufficient statutory authority may implement the permit requirements on delegation of the National Pollutant Discharge Elimination System (NPDES) program by the federal EPA. 33 USC §1342(b). The Porter-Cologne Act gives California adequate authority; thus, NPDES permits are issued by the State Water Resources Control Board (SWRCB) and regional boards. Wat C §§13370-13389. The SWRCB and regional boards have adopted general permits in a number of areas for similar types of discharges. See, *e.g.,* SWRCB Order No. 99-08-DWQ (general permit for construction-related storm water discharges).

© The Regents of the University of California

§11.139 (3) State Permit Application Is Also Federal Permit Application

Under California law, a Report of Waste Discharges is treated as an National Pollutant Discharge Elimination System (NPDES) permit application as long as the federal application (Form 200) is included. 23 Cal Code Regs §2235.1.

© The Regents of the University of California

§11.140 (4) Storm Water Permits

Storm water runoff poses specific water quality problems and as such was initially addressed by the National Pollutant Discharge Elimination System (NPDES) permit program. Because municipal and industrial storm water is generally channeled into surface waters, storm water is a point source subject to an NPDES permit. *Natural Resources Defense Council v Costle* (DC Cir 1977) 568 F2d 1369, 1372, 1377 n5. Storm water regulations also make permit requirements applicable to many sources, although general permits may be issued for some point sources of storm water runoff. See 40 CFR §122.26; §§6.13-6.16. See also the EPA website at http://cfpub.epa.gov/npdes/. To secure coverage under a general permit, municipalities, construction sites, and industrial facilities must submit a NPDES permit application (commonly known as a Notice of Intent, or NOI). At a minimum, an NOI requires the completion of a standard form and payment of a fee, but also may require submission of a site map and other related documents.

© The Regents of the University of California

§11.141 (a) Municipal Program

Since the 1987 amendments to the Clean Water Act, federal law expressly requires an NPDES permit for municipal separate storm sewer systems (MS4s) serving a population of 100,000 or more. See 33 USC §1342(p). An MS4 is a conveyance or system of conveyances (including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, man-made channels, or storm drains) owned or operated by a state. See 40 CFR 122.26(b)(8). The MS4 permits require the discharger to develop and implement a Storm Water Management Plan/Program with the goal of reducing the discharge of pollutants to the maximum extent practicable (MEP). 33 USC §1342(p)(3). MEP is the performance standard developed for storm water. The management programs specify what best management practices (BMPs) will be used to address certain program areas. A menu of BMPs and guidance on selecting BMPs can be found in the BMP databases at: www.swrcb.ca.gov/water_issues/programs/stormwater/bmp_database.shtml.

© The Regents of the University of California

§11.142 (b) Construction Storm Water Program

Dischargers whose projects disturb one or more acres of soil, or whose projects disturb less than one acre but are part of a larger common plan of development that in total disturbs one or more acres, are required to obtain coverage under the General Permit for Discharges of Storm Water Associated with Construction Activity (Construction General Permit Order No. 99-08-DWQ available on the Internet at www.waterboards.ca.gov/water_issues/programs/stormwater/gen_const.shtml#const_permit). See 40 CFR §122.26(b)(15)(i). Effective July 1, 2010, **all** dischargers are required to obtain coverage under the Construction General Permit Order 2009-0009-DWQ (available on the internet at www.waterboards.ca.gov/water_issues/programs/stormwater/constpermits.shtml). Construction activity subject to this permit includes clearing, grading, and disturbances to the ground, such as stockpiling or excavation, but does not include regular maintenance activities performed to restore the original line, grade, or capacity of the facility. 40 CFR §122.26(b)(15)(i). The Construction General Permit requires the development and implementation of a Storm Water Pollution Prevention Plan (SWPPP), details about which are available at: www.waterboards.ca.gov/water_issues/programs/stormwater/construction.shtml.

© The Regents of the University of California

§11.143 (c) Industrial Storm Water Program

Dischargers of storm water associated with industrial activity are required to apply for an individual permit or to seek coverage under a promulgated storm water general permit. See 40 CFR §122.26(c). The Industrial Storm Water General Permit Order 97-03-DWQ (General Industrial Permit, available on the Internet at www.waterboards.ca.gov/water_issues/programs/stormwater/gen_indus.shtml#indus) is an NPDES permit that regulates discharges associated with ten broad categories of industrial activities. The General Industrial Permit requires the implementation of management measures that will achieve the performance standard of best available technology economically achievable (BAT) and best conventional pollutant control technology (BCT). The General Industrial Permit also requires the development of a Storm Water Pollution Prevention Plan (SWPPP) and a monitoring plan. Through the SWPPP, sources of pollutants are to be identified and the means to manage the sources to reduce storm water pollution are described.

© The Regents of the University of California

§11.144 (5) Total Maximum Daily Loads

Section 303(d) of the Clean Water Act (33 USC §1313(d)) requires states to identify and list lakes, rivers, and streams for which technology-based effluent limitations are not sufficient to achieve water quality standards. For each of these water quality-limited water bodies, states must set total maximum daily loads (TMDLs), which is the total amount of a pollutant a water body can tolerate, plus a margin of safety, and still meet water quality standards and support uses designated in the applicable basin plan, such as recreation and aquatic life ("fishable/swimmable") uses. 33 USC §1313(d)(1)(c).

Once TMDLs are set, the state must allocate the TMDL among all the sources contributing that pollutant to the watershed, including municipal wastewater dischargers, storm water discharges, industrial sources, and nonpoint sources such as agricultural runoff. More stringent effluent limitations can be set for point sources to meet TMDL wasteload allocations.

© The Regents of the University of California

§11.145 (a) Overview of TMDLs in California

Under the Porter-Cologne Water Quality Control Act (Porter-Cologne Act) (Wat C §§13000-14958), the State Water Resources Control Board (SWRCB) controls the total maximum daily load (TMDL)) development process and maintains California's Clean Water Act §303(d) list. Wat C §13160. The SWRCB has delegated the primary responsibility of certifications to the Regional Water Boards, but has retained ultimate discretion over the §303(d) listing process. See 23 Cal Code Regs §§3830-3869. California state water quality standards are reviewed every 3 years. Clean Water Act §303(c)(1); 33 USC §1313(c)(1).

© The Regents of the University of California

§11.146 (b) TMDL Adoption

The Regional Board may adopt a total maximum daily load (TMDL) by amending the basin plan to incorporate the new TMDL. The Clean Water Act, CEQA, and the Bagley-Keene Open Meeting Act (Govt C §§11120-11132) each has its own requirements that affect the timeline for adoption. Each TMDL requires its own notice and comment period and written response to significant public comments, which is made available to the public before adopting the TMDL. See *Friends of the Old Trees v Department of Forestry & Fire Protection* (1997) 52 CA4th 1383, 1403, 61 CR2d 297; 23 Cal Code Regs §3779. TMDLs need not include an implementation plan under federal law, although California law requires the Regional Board to adopt an implementation plan for the TMDL before the TMDL may become effective. See Govt C §§11349.1, 11353(b)(4). The State Water Resources Control Board (SWRCB) has adopted and the EPA has approved, with amendments, a list of impaired California water bodies, available at www.waterboards.ca.gov/water_issues/programs/tmdl/.

© The Regents of the University of California

§11.147 (c) EPA Approval of TMDLs

The Clean Water Act §303(d) list and total maximum daily loads (TMDLs) must be reviewed and approved by the EPA, as well as evaluated by the state and EPA once every 2 years. See Clean Water Act §303(d)(2); 33 USC §1313(d)(2); 40 CFR §130.7(d) (regarding the 2-year requirement). If the EPA disapproves a state list or TMDL, the EPA must issue a replacement TMDL. 33 USC §1313(d)(2). After the EPA approves its own TMDLs for a body of water, if the state later develops its own TMDLs for the body of water, the state's TMDLs may supersede the EPA's TMDLs after gaining EPA approval. *City of Arcadia v EPA* (9th Cir 2005) 411 F3d 1103.

© The Regents of the University of California

§11.148 (d) Overview of TMDL Enforcement

Even after the passage of the Clean Water Act (33 USC §§1251-1387), the EPA did not enforce total maximum daily loads (TMDLs) for many years. TMDLs are most frequently enforced through citizen suits against the government, usually for failure to enforce TMDLs. See §11.149. TMDLs are not directly enforceable against dischargers of pollutants. 33 USC §1365(f).

© The Regents of the University of California

§11.149 (e) Citizen Suits Against the Government

Citizens may bring suit under §505 of the Clean Water Act (33 USC §1365) to enforce the Act. 40 CFR §135.1; *Alaska Ctr. for Env't v Browner* (9th Cir 1994) 20 F3d 981. Generally, courts require evidence of a state's clear refusal to submit its total maximum daily loads (TMDLs) before a citizen's lawsuit against the state may prevail. See, *e.g., San Francisco Baykeeper v Whitman* (9th Cir 2002) 297 F3d 877 (constructive submission doctrine did not apply when state had submitted some TMDLs and had dedicated "substantial" resources to the program).

© The Regents of the University of California

§11.150 (f) Conflicts With Development

When a project constitutes a new source or a new discharge that leads to increased pollutants in impaired water bodies, no National Pollutant Discharge Elimination System permit may be issued until (1) all existing discharges from point sources in the watershed are identified and made subject to compliance schedules, and (2) the compliance schedules can demonstrate future attainment of all pertinent water quality standards. See *Friends of Pinto Creek v U.S. EPA* (9th Cir 2007) 504 F3d 1007, 1011, cert denied sub nom *Carlota Copper Co. v Friends of Pinto Creek* (2009) ___ US ___, 173 L Ed 2d 106, 129 S Ct 896 (construing 40 CFR §122.4(i)). An exception, however, allows for a new discharge when load allocations are available, provided there is a compliance schedule in place for existing point source discharges in the impaired water quality segment, and the compliance schedule projects attainment of applicable water quality standards over time. 504 F3d at 1012.

© The Regents of the University of California

§11.151 (g) Removing an Impaired Water Body from the §303(d) List

The EPA must approve a state's decision to de-list various bodies of water. See *Sierra Club, Inc. v Leavitt* (ND Fla 2005) 393 F Supp 2d 1263, aff'd in part and rev'd in part on other grounds (11th Cir 2007) 488 F3d 904. When the body of water exceeds water quality standards only a few times or exceeds water quality standards due to natural causes, the EPA has approved a state's decision to remove particular water bodies from its Clean Water Act §303(d) list. 393 F Supp 2d at 1274.

© The Regents of the University of California

c. Review of State or Regional Board Action

§11.152 (1) Administrative Review

Certain regional board actions or failures to act are subject to review by the State Water Resources Control Board (SWRCB). The SWRCB may review decisions of the regional boards on its own motion or on a petition by an aggrieved person. Wat C §13320.

Review must be sought within 30 days of the regional board's decision to act or not to act. When the regional board fails to act, the 30-day period commences on the board's refusal to act or 60 days from when the regional board was requested to act. Wat C §13320(a). An aggrieved person may obtain a stay of the regional board's decision pending the State Water Resources Control Board (SWRCB) appeal. Wat C §13321.

SWRCB review is based on the record before the regional board plus any evidence relevant to implement the policies of the Porter-Cologne Act. See Wat C §13320(b).

© The Regents of the University of California

§11.153 (2) Judicial Review

State Water Resources Control Board (SWRCB) decisions on regional board actions or failures to act are subject to judicial review. After an aggrieved person has exhausted administrative remedies, judicial review of SWRCB decisions is available. *Azusa Land Reclamation Co. v Main San Gabriel Basin Watermaster* (1997) 52 CA4th 1165, 1211, 61 CR2d 447.

Decisions made under Wat C §13320 (review of regional board decisions) are subject to review by writ of mandate under CCP §1094.5 (see §§13.2-13.27). Wat C §13330(d). The petition must be filed not later than 30 days from the date of service of the SWRCB's decision or order, or from the date on which the SWRCB denies review. Wat C §13330(a)-(b). The court uses independent judgment to review these decisions. Wat C §13330(d). The evidence before the reviewing court is generally limited to the administrative record of the proceedings. Wat C §13330(b).

Judicial review of SWRCB decisions other than those made under Wat C §13320 regarding water quality are reviewed by ordinary mandamus under CCP §1085. *Marina County Water Dist. v State Water Resources Control Bd.* (1984) 163 CA3d 132, 137, 209 CR 212. But see Wat C §§1126, 13330(e), 13550-13557 (SWRCB actions relating to water reuse subjected to review by writ of mandate).

© The Regents of the University of California

§11.154 4. Enforcement

The California Water Code establishes the applicable statute of limitations and other relevant procedural matters. The regional boards may enforce waste discharge requirements (WDRs) and National Pollutant Discharge Elimination System (NPDES) permits administratively or through the courts. See, *e.g.,* Wat C §§13300, 13308, 13323-13328, 13331, 13340, 13350, 13385. The federal EPA retains concurrent enforcement authority with regard to NPDES permits. See 33 USC §1342(i).

© The Regents of the University of California

§11.155 a. Civil Prosecution

State law enables the board to refer the matter to the state attorney general. The attorney general generally seeks injunctive relief and monetary remedies. Wat C §§13331, 13350, 13385.

© The Regents of the University of California

§11.156 b. Administrative Fines and Civil Liability Orders

The regional boards may issue an administrative complaint alleging a violation of law and set a proposed penalty amount, which is subject to a hearing at the defendant's election. See Wat C §13323. The water boards are empowered to impose civil fines. Wat C §§13261(b), (d), 13265(b)(1), (d)(1), 13268(b)(1), (d)(1), 13323-13327, 13350(d)(1), (e)(1), (f)(1), 13385(c), (e). The amount of liability is established by the board based on consideration of the factors provided in Wat C §13327 or Wat C §13385(d). There is a 30-day statute of limitations on appeals to the State Water Resources Control Board (SWRCB) for review of administrative civil liability orders and for filing of a superior court action after the SWRCB's decision. Wat C §§13320, 13323(d), 13330. Such fines compensate the state for "unquantifiable damages" and act as a deterrent for illegal discharges. *People ex rel Younger v Superior Court* (1976) 16 C3d 30, 37, 127 CR 122.

© The Regents of the University of California

§11.157 c. Cease and Desist Orders

After notice and a hearing, the water boards may issue cease and desist orders for any actual or threatened violation of a waste discharge requirement, an NPDES permit, or a water quality control plan. See Wat C §§13301-13303. A water board can also seek an injunction from a court to enforce its cease and desist orders. Wat C §13331(a).

© The Regents of the University of California

§11.158 d. Cleanup and Abatement Orders

Cleanup and abatement orders are issued ex parte without any notice or hearing. The orders seek to compel a discharger to take certain remedial action to correct or prevent a violation of a permit or plan. Wat C §13304(a). In some circumstances and after notice, including posting a notice at the subject site, the regional board may abate the problem at the owner's expense. Wat C §13305. A hearing must be held not less than 10 days from the posting of the notice.

© The Regents of the University of California

§11.159 e. Injunctive Relief or Criminal Penalties

The water boards may also seek injunctive relief or criminal penalties for violations of a permit or plan for using recycled water improperly, or for illegal discharge of pollutants. Wat C §§13261(c), 13265(a), 13268(a), 13271(c), 13272(c), 13387, 13522.6, 13525.5, 13526, 13754, 13396.5(e).

© The Regents of the University of California

§11.160 f. Technical Reports

The water boards may also order a suspected discharger to submit technical and monitoring reports. Wat C §§13225, 13267. Failure to submit these reports is subject to imposition of penalties. Wat C §13268.

© The Regents of the University of California

§11.161 g. Citizen Suits

A citizen's suit may be filed against National Pollutant Discharge Elimination System (NPDES) permit holders for violations when the state or EPA has failed to take appropriate enforcement action. 33 USC §1365. A 60-day notice of intent to sue letter is a procedural prerequisite to a citizen enforcement action. See 33 USC §1365(b).

© The Regents of the University of California

D. Sewage Disposal Regulations

§11.162 1. Authority to Own and Operate Sewer System

Cities, counties, and special districts may own and operate sewer systems and treatment plants. A city owning and/or operating a sewage collection or treatment facility is governed by the Porter-Cologne Act (Wat C §§13000-14958) and the Clean Water Act (33 USC §§1251-1387) and is also empowered to exercise its own governmental authority to protect water quality. State law specifically authorizes several types of local agencies to own and operate sewer systems. See the following:

- Cities (see Govt C §§38900-38901);
- County sanitation districts (see Health & S C §§4700-4858);
- Sanitary districts (see Health & S C §§6400-6982);
- County water districts (see Wat C §§30000-33249);
- Sewer maintenance districts (see Health & S C §§4860-4927);
- Municipal utility districts (see Pub Util C §§11501-14403.5);
- Special districts (see Pub Util C §§13451-13691); and
- Improvement districts (see Health & S C §§4600-4650).

Cities expressly authorized to operate collection systems and wastewater sewer treatment plants may require pretreatment of industrial waste and limit the introduction of pollutants into the system. See Govt C §§54725-54740.6. State law also provides express authority to prescribe fees and charges for sewer services. See Health & S C §§5470-5474.10.

© The Regents of the University of California

2. Pretreatment Program and Sewage Disposal

§11.163 a. Standards

Cities may apply pretreatment standards promulgated by the federal EPA to industrial users of publicly owned treatment works (POTW). Wat C §§13370-13389. The standards limit what industrial users can discharge into a municipal sewer system. The state can enforce pretreatment standards directly against the industrial user or through the permit issued to the POTW itself. See 33 USC §1317(b)(1); *County Sanitation Dist. v Inland Container Corp.* (9th Cir 1986) 803 F2d 1074 (limiting federal permit authority to sewer district actually owning sewer into which pollutant is discharged).

© The Regents of the University of California

§11.164 b. Purpose of Pretreatment Program

The purpose of limitations on industrial discharges into municipal sewer systems and pretreatment programs is to protect the integrity of the publicly owned treatment works (POTW), to ensure that sewage sludge is disposable by regulating its toxicity, and to ensure that waste discharge requirements governing discharges to the land (water reclamation) and National Pollutant Discharge Elimination System (NPDES) permit conditions governing direct discharges into surface waters are not subverted by "indirect discharges" through POTWs. See 40 CFR §403.1. In addition to pretreatment programs, many cities also have extensive public education programs, source control, and "Fats, Oils, and Grease" (FOG) programs to control discharges from residential and commercial users.

© The Regents of the University of California

§11.165 c. Local Limits on Pollutants

In addition to state and federal general prohibitions and categorical limits on certain pollutants that may pass through a publicly owned treatment works (POTW) untreated, local limits may be developed by individual POTWs. See, *e.g.,* 33 USC §1317(b)(4). Indeed, it may be necessary to set such local limits, by industry or by pollutant, when pretreatment program approval is required. See 40 CFR §403.5 (EPA's requirements for POTWs to avoid pass-through or interference with disposal).

A city may set local limits by ordinance or conditions of approval. Local limits for a specific POTW may be set by municipal ordinance or as part of a municipal permit or contract. See, *e.g.,* 40 CFR §403.8(f).

Local limits become federally enforceable standards. When local standards are set, they become pretreatment standards for purposes of compliance with the Clean Water Act. See 40 CFR §403.5(d).

© The Regents of the University of California

§11.166 3. Use and Disposal of Sewage Sludge

The Clean Water Act requires a permit be obtained to dispose of sewage sludge or "biosolids" from a publicly owned treatment works (POTW) that would result in any pollutant entering navigable waters. 33 USC §1345(a). The Clean Water Act requires the EPA to develop regulations for the use and disposal of sewage. See 33 USC §1345(d); 40 CFR part 503.

© The Regents of the University of California

§11.167 4. On-Site Sewage Treatment Systems

City and county health departments usually regulate private on-site treatment systems such as septic systems under local ordinances. The State Water Resources Control Board (SWRCB) was required to adopt regulations concerning such treatment systems by 2004. Wat C §§13290-13291.7.

© The Regents of the University of California

§11.168 5. Collection System Regulation

In May of 2006, the State Water Resources Control Board (SWRCB) adopted a new general permit to regulate all sanitary sewer collection systems owned by public entities that are greater than one mile in length. See SWRCB Order No. 2006-0003-DWQ. If not covered expressly by a National Pollutant Discharge Elimination System (NPDES) for the publicly owned treatment works (POTW), cities should have submitted an application or Notice of Intent (NOI) for coverage under the permit to the State Water Board by November 2, 2006.

© The Regents of the University of California

E. Groundwater Regulation

1. State Law

§11.169 a. Discharges to Groundwater

Although the federal Clean Water Act (33 USC §§1251-1387) primarily regulates discharges from point sources into navigable, surface waters of the United States, the state Porter-Cologne Act (Wat C §§13000-14958) also regulates discharges to groundwater from nonpoint sources (for example, agricultural operations, leach fields, septic tank and urban runoff, and sewage sludge deposits). See *Lake Madrone Water Dist. v State Water Resources Control Bd.* (1989) 209 CA3d 163, 168, 256 CR 894. State policies and plans are expressly intended to manage groundwater. Wat C §13142. Thus, for the purposes of the Porter-Cologne Act, "discharge of waste" includes contamination into or through groundwater. See Wat C §§13050(e), 13373.

© The Regents of the University of California

§11.170 b. Regional Board Responsibility

Regional boards have primary responsibility for regulating groundwater quality, although cities also may exercise police power to protect groundwater (see §11.96). The most common situation in which cities and regional boards share jurisdiction involves the cleanup of underground storage tanks (UST). Cities and counties, through the health official or the fire department, have the power to regulate UST cleanups. See Health & S C §§25297.1-25299.81. However, when a UST may have caused groundwater contamination, the regional board generally will supervise the groundwater cleanup. Since 1994, local agency jurisdiction is subject to designation as a Certified Unified Program Agency (CUPA); the State Secretary for Environmental Protection certifies a local agency as a CUPA, which is responsible for implementation of the requirements of Health & S C §25404(c). See Health & S C §§25187, 25404-25404.9; 27 Cal Code Regs §§15100-16150.

© The Regents of the University of California

§11.171 2. Discharges to Groundwater Subject to State Waste Discharge Requirements

All dischargers of waste into or affecting groundwater must apply for and receive waste discharge requirements. See Wat C §§13050(e), 13260, 13263 (discussed in §§11.131-11.136).

© The Regents of the University of California

§11.172 3. Injection Wells

Injection wells may affect the quality of surrounding groundwater. Both state and federal law regulate use of wells into which waste is injected. See, *e.g.,* Wat C §13382.

© The Regents of the University of California

§11.173 a. Federal Law

The federal Safe Drinking Water Act (42 USC §§300f-300j-26) prohibits underground injection of waste liquids that may affect sources of drinking water, unless specifically authorized. 42 USC §300h(b). In addition, federal law requires California to develop and implement an underground injection control program. 42 USC §300h-1. However, because California has not yet developed such a program, except for class II wells, the federal EPA administers the federal underground injection control program and standards for class I, III, IV, and V wells and all wells on Native American lands. See 40 CFR §§147.250-147.251.

© The Regents of the University of California

§11.174 b. State Law

Specific provisions of the Porter-Cologne Act (Wat C §§13000-14958) deal with the construction and abandonment of certain types of wells and these requirements are in addition to waste discharge requirements. Wat C §§13700-13806. Oil and gas wells, and wells for waste water disposal are regulated separately but also must be constructed and abandoned in a manner that does not pollute groundwater. See Pub Res C §§3220, 3228-3229, 3740.

© The Regents of the University of California

F. Wetlands

§11.175 1. Definition of Wetland

A wetland is an area "inundated or saturated by surface or groundwater at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions." 40 CFR §232.2. While common examples of wetlands include swamps, marshes, and bogs, wetlands may not be easily recognizable in arid regions.

© The Regents of the University of California

§11.176 2. Dual Jurisdiction

Wetlands are regulated under both federal and state law, and present complex groundwater and surface water quality control issues. Waste discharge requirements are triggered when discharges to groundwater recharge areas would ultimately affect groundwater quality; wetlands can be groundwater recharge areas. Wetlands are waters of the state for purposes of the state Porter-Cologne Act (Wat C §13050(e)) and may be waters of the United States for purposes of the federal Clean Water Act (33 USC §§1342, 1344, 1362(7)). See *Solid Waste Agency v United States Army Corps of Eng'rs* (2001) 531 US 159, 167, 148 L Ed 2d 576, 121 S Ct 675; *U.S. v Riverside Bayview Homes* (1985) 474 US 121, 129, 88 L Ed 2d 419, 106 S Ct 455.

The federal Clean Water Act requires states to adopt water quality standards for "navigable waters," which includes "waters of the United States." See 33 USC §1362(7). Because some wetlands are considered "waters of the United States" and are thus "navigable waters," states must regulate those wetlands. The judiciary's interpretation of what constitutes a federally regulable water body has evolved considerably in recent years. For example, in 2006, the United States Supreme Court issued a plurality opinion with no clear direction for future wetlands determinations. See *Rapanos v U.S.* (2006) 547 US 715, 165 L Ed 2d 159, 126 S Ct 2208. Although the decision did not provide clear direction on wetlands determinations, the United States Army Corps of Engineers and the EPA have interpreted Justice Kennedy's concurring decision as controlling. The agencies jointly issued a guidance document to ensure that future agency actions would be consistent with the *Rapanos* decision. The guidance states that the EPA and the Corps will assert Clean Water Act jurisdiction over:

- Traditional navigable waters and wetlands adjacent thereto;
- Non-navigable tributaries that are relatively permanent waters and wetlands with a continuance surface connection with such tributaries; and
- Other non-navigable tributaries and other wetlands adjacent to non-navigable tributaries based on a fact-specific analysis to determine whether they have a significant nexus with traditional navigable waters.

A copy of the guidance can be found at www.epa.gov/owow/wetlands/pdf/RapanosGuidance6507.pdf.

In 2007, the Ninth Circuit held that a wetland adjacent to a non-navigable tributary was not under the jurisdiction of the Clean Water Act because the wetland was an isolated, non-navigable, intrastate pond and there was no significant nexus between the wetland at issue and the nearest navigable waterway. See *San Francisco Baykeeper v Cargill Salt Div.* (9th Cir 2007) 481 F3d 700.

© The Regents of the University of California

§11.177 a. Waste Discharges

State and federal permits may be required to develop and use wetlands. Discharges to wetlands may be subject to waste discharge requirements. Discharges to wetlands primarily for the purpose of waste disposal may also be subject to a National Pollutant Discharge Elimination System (NPDES) permit requirement (issued by the state). See *Northern Cal. River Watch v City of Healdsburg* (9th Cir 2007) 496 F3d 993, cert denied (2008) 552 US 1180.

© The Regents of the University of California

§11.178 b. Fill

Discharges to wetlands of dredged or fill material are subject to a separate Clean Water Act §404 permit program administered by the Army Corps of Engineers. 33 USC §1344; 33 CFR §323.4(c). The scope of the federal Clean Water Act is limited to "navigable waters." 33 USC §1344(a). The United States Supreme Court has held that this includes wetlands that abut a navigable waterway (*U.S. v Riverside Bayview Homes* (1985) 474 US 121, 133, 88 L Ed 2d 419, 106 S Ct 455) but not a non-navigable, isolated, intrastate pond (*Solid Waste Agency v United States Army Corps of Eng'rs* (2001) 531 US 159, 148 L Ed 2d 576, 121 S Ct 675). In 2006, a plurality of the Court held that the Corps may assert jurisdiction over a wetland with a continuous surface connection to a permanent, standing, or flowing body of water, although a concurring justice concluded that jurisdiction depends on whether the wetland has a "significant nexus" to more traditional navigable waters. *Rapanos v U.S.* (2006) 547 US 715, 165 L Ed 2d 159, 126 S Ct 2208.

The Corps has adopted a program of nationwide permits that addresses many forms of such discharges. See, *e.g.,* 65 Fed Reg 12818 (March 9, 2000). When the filling of wetlands would interfere with groundwater recharge, groundwater quality may be protected through the waste discharge requirements or the Army Corps of Engineers permit. See Sawyer, *State Regulation of Groundwater Pollution Caused by Changes in Groundwater Quantity or Flow,* 19 Pac L J 1267, 1278-81 (1988).

PRACTICE TIP: As reflected in the Guidance Letter issued in response to *Rapanos v U.S.* (2006) 547 US 715, 165 L Ed 2d 159, 126 S Ct 2208, and other developments, it appears that the Army Corps may have narrowed its jurisdiction over waters in some respects (*e.g.,* swales and ditches are generally no longer jurisdictional). However, case-by-case application of Clean Water Act jurisdiction will likely continue in many instances and only time will tell how Corps offices in California apply the new guidance.

© The Regents of the University of California

§11.179 3. Jurisdictional Determinations

For a court to hear a challenge to a wetlands determination by the United States Army Corps of Engineers, the jurisdictional determination at issue must be a final delineation from which legal consequences will flow, rather than a mere preliminary delineation. See *Fairbanks N. Star Borough v U.S. Army Corps of Eng'rs* (9th Cir 2008) 543 F3d 586, cert denied (2009) ___ US ___, 174 L Ed 2d 552, 129 S Ct 2825.

© The Regents of the University of California

G. Recycled Water Regulation

1. Definition of "Recycled Water"

§11.180 a. Not "Waste"

Reclamation activities performed by cities arguably do not constitute disposal or the discharge of "waste" that would require waste discharge requirements (WDRs). "Waste" is defined as "sewage and any and all other waste substances, liquid, solid, gaseous, or radioactive associated with human habitation, or of human or animal origin, or from any producing, manufacturing, or processing operation, including waste placed within containers of whatever nature prior to, and for purposes of, disposal." Wat C §13050(d).

© The Regents of the University of California

§11.181 b. "Recycled Water"

"Recycled water" is "water, which as a result of treatment of waste, is suitable for a direct beneficial use or a controlled use that would not otherwise occur and is therefore considered a valuable resource." See Wat C §§13050(n), 13575(a)(3). In this case, disinfected highly treated water is the *result* of the treatment of "waste," and this water is suitable for a direct beneficial use or a controlled use that would not otherwise occur. See 22 Cal Code Regs §§60301.220, 60301.225, 60304-60307. Thus, "recycled water" should not be considered a "waste" under the Water Code, and should not be regulated as such by the regional board under waste discharge requirements (WDRs).

The legislature has expressly recognized the safety and benefit of "recycled water" and that such water is not to be considered "waste." See Wat C §§13510- 13512, 13529(f), 13550-13551.

© The Regents of the University of California

2. Recycled Water Permitting Options

§11.182 a. Water Reclamation Requirements

One permitting option is the issuance of water reclamation requirements (WRRs) under Wat C §13523 for purposes of operating reclamation and recycling activities. Standard enforcement requirements in Wat C §13350 do not apply to WRRs, and instead are controlled by the requirements of division 7, chapter 7 of the Water Code (Wat C §§13500-13557).

© The Regents of the University of California

§11.183 b. Master Reclamation Permits

With consent of the permit holder, the regional board may also combine waste discharge requirements (WDRs) and water recycling requirements (WRRs), but arguably only under a master reclamation permit under the authority of Wat C §§13523.1 and 13263(h). Because recycled water is not a waste, only Wat C §13263(h) could be used by the water boards to justify regulating recycled water under WDRs because no other subsection references "recycled water." Including WDRs in regulation of recycled water subjects cities to additional enforcement and liability under Wat C §13350, which should be weighed before agreement is given to a master reclamation permit.

© The Regents of the University of California

V. AIR QUALITY

A. Basic Regulatory Scheme

1. Overview

§11.184 a. Federal Law

Air quality regulation is accomplished through a complex federal/state/regional/local governmental planning and regulatory process. The federal Clean Air Act (42 USC §§7401-7671q) sets minimum standards called National Ambient Air Quality Standards (NAAQS) that California air quality regulatory programs must meet. The NAAQS specify the maximum permissible concentrations of six "criteria" air pollutants, including ozone, particulate matter, carbon monoxide, nitrogen dioxide, sulfur dioxide, and lead. 40 CFR Part 50. States that fail to adopt and implement acceptable programs are subject to federal "sanctions," including denial of federal highway improvement projects, withholding of federal highway construction funds, and requiring new sources to meet more stringent emission offset requirements. On offsets, see §11.227.

The federal EPA is authorized to, and may be mandated to, promulgate and enforce regulations in lieu of the deficient state regulations. *Coalition for Clean Air v Southern Cal. Edison Co.* (9th Cir 1992) 971 F2d 219, cert denied sub nom *EPA v Coalition for Clean Air* (1993) 507 US 950.

The Clean Air Act directs the EPA to base standards on air quality criteria that accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare. 42 USC §7408(a)(2). Under the Administrative Procedure Act, the EPA's actions and decisions will be upheld unless they are "arbitrary, capricious, an abuse of discretion, or otherwise not in accordance with law." 5 USC §706(2)(A).

© The Regents of the University of California

b. State Law

§11.185 (1) Air Resources Board and Local Air Pollution Control Agencies

In California, responsibility for regulating air pollution is divided between a state agency, the California Air Resources Board (ARB), and local and regional air pollution control districts (APCDs) and air quality management districts (AQMDs). The laws establishing California's air quality regulatory program are set forth in division 26 of the California Health and Safety Code. See Health & S C §§39000-44474.

© The Regents of the University of California

§11.186 (2) Responsibilities

The California Air Resources Board (ARB) is responsible for setting emission standards for "vehicular" sources (such as cars, trucks, motorcycles, and buses). Health & S C §§39660, 39667, 43013. The ARB also has overarching responsibility to adopt state air quality standards known as the "California Ambient Air Quality Standards" (CAAQS) (Health & S C §§39003, 39606) and to determine whether air basins have attained those standards (Health & S C §39608). In addition, the ARB is charged with adopting standards for motor vehicle fuel specifications (Health & S C §43013) and emission standards for toxic emissions from non-vehicular sources (Health & S C §39660). The ARB also has limited jurisdiction over certain non-vehicular sources of air pollution with widespread air quality impacts. For example, the ARB regulates non-vehicular portable equipment, including construction and farm equipment, and consumer products containing reactive organic compounds. Health & S C §§41712, 43013. Air pollution control districts (APCDs) and air quality management districts (AQMDs) are responsible for regulating emissions from "non-vehicular" sources (all sources other than vehicular sources). Health & S C §§39002, 40000.

© The Regents of the University of California

2. Regional Air Quality Management

§11.187 a. Regional Basins

The ARB has divided California into 15 geographical air basins. Those air basins generally include more than one county. 17 Cal Code Regs §§60100-60114. Every county in California is included within the jurisdiction of an air pollution control district (APCD) or air quality management district (AQMD). Health & S C §40002. Many California counties have their own APCD.

APCDs and AQMDs are governed by a "governing board." In most counties the APCD jurisdiction is limited to one county, with at least one county board of supervisor and one city council member serving on the governing board. See Health & S C §40100.5. When an APCD or AQMD exercises jurisdiction in more than one county, the governing board consists of county supervisors, city council members, and possibly others appointed as provided in the legislation establishing the particular APCD or AQMD.

© The Regents of the University of California

§11.188 b. Duties of APCDs and AQMDs

The air quality regulatory activities of air pollution control districts (APCDs) and air quality management districts (AQMDs) include the following:

- Air quality planning (see Health & S C §§40910-40930);
- Adoption of rules and regulations establishing emissions limitations and permitting requirements (see Health & S C §§40001, 40702);
- Issuance of permits to non-vehicular sources of emissions (see Health & S C §§42300-42316); and
- Enforcement of air quality rules and regulations (see Health & S C §§40752, 42400-42410).

© The Regents of the University of California

§11.189 c. Air Quality Attainment Plans

Under the California Clean Air Act (Stats 1988, ch 1568), each APCD or AQMD that has non-attainment for any of the CAAQS must prepare a plan for attaining and maintaining compliance with the CAAQS. Health & S C §§40910-40930. Each district plan must set forth general control measures by which the region will attain compliance with the CAAQS. The plans are blueprints for how clean, healthful air as defined by the CAAQS will be attained within each region. The district attainment plans are variously referred to as "air quality management plans" or "air quality maintenance plans" (AQMPs), "attainment plans," or "non-attainment plans." The plans must be reviewed at least once every 3 years to correct deficiencies and incorporate new data or projections. Each triennial plan revision must be submitted to the California Air Resources Board (ARB) after adoption at a public hearing. Health & S C §40925. Within each air basin, the same planning document might serve as the district attainment plan under state law and the federal state implementation plan (SIP) under federal law. See, *e.g.,* Health & S C §40460(d) (the AQMP of the South Coast Air Quality Management District shall also serve as the region's SIP under the Clean Air Act).

© The Regents of the University of California

§11.190 (1) Five-Percent Annual Reduction in Pollutants

Each attainment plan must demonstrate at least a 5-percent annual reduction in pollutants, averaged over a 3-year period. Health & S C §40914. The California Air Resources Board (ARB) may approve an attainment plan that does not meet the 5-percent reduction goal in two situations: (1) the alternate emission reduction strategy is equal to or more effective than district-wide emission reductions in improving air quality; or (2) despite inclusion of every feasible measure, a 5-percent reduction cannot be achieved. Health & S C §§40914(b), 41503.1.

© The Regents of the University of California

§11.191 (2) Implementation

Each air pollution control district (APCD) and air quality management districts (AQMD) is authorized to adopt locally effective regulations to implement its attainment plan. The plan must include certain types of regulations depending on whether the air pollution problem in the area is characterized as moderate, serious, severe, or extreme (Health & S C §§40001, 40918-40920, 40920.5):

- **Indirect Source Regulation.** Attainment plans for areas designated as moderate, serious, severe, or extreme non-attainment areas must make provisions for the regulation of emissions from "indirect sources." Health & S C §§40716(a), 40918-40920.5. The state law does not define what an indirect source is, but the federal law defines it as any facility, building, structure, installation, real property, road, or highway that attracts or may attract mobile sources of pollution. 42 USC §7410(a)(5)(c). The California Air Resources Board (ARB) uses a similar definition.
- **Mobile Source Regulation.** Attainment plans for areas designated as moderate, serious, severe, or extreme non-attainment areas must also provide for the implementation of transportation control measures (TCM) (Health & S C §40717(g)) to reduce the number of vehicle trips taken in the regions and the miles traveled by motor vehicles. As with indirect source regulations, the attainment plan may provide that transportation control measures will be regulated by the APCD or AQMD directly, or by cities and counties through ordinances. Health & S C §40717; 87 Ops Cal Atty Gen 96 (2004). If specified conditions are met, APCDs and AQMDs may by resolution raise the vehicle registration fees within their area for purposes of reducing vehicular pollution. Health & S C §§44223, 44225 (sunsetting January 1, 2015). These funds are available to districts for this purpose. Health & S C §44229 (sunsetting January 1, 2015). The districts may in turn, allocate the funds to cities for specific purposes. See, *e.g.,* Health & S C §§44236 (Congestion Management Program), 44237 (transportation control measures). Moderate, serious, severe, and extreme non-attainment areas must implement "reasonably available" transportation control measures. Health & S C §§40918(a)(3), 40919(a)(1), 40920(a), 40920.5(a).
- **ISTEA and Congestion Management Conformity.** The Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA) (23 USC §§134-135) and the California congestion management statute (Govt C §§65088-65089.10) both include requirements that transportation planning "conform" to the State Implementation Plan (SIP), as required by the federal Clean Air Act. See 42 USC §7506(c).

© The Regents of the University of California

d. Limit on APCD and AQMD Powers

§11.192 (1) Preservation of Local Land Use Authority

There is one significant limit on the otherwise broad authority granted to air pollution control districts (APCDs) and air quality management districts (AQMD) to regulate sources of air pollution. No power granted to APCDs or AQMDs constitutes an infringement on the existing authority of cities and counties to plan and control land use. Health & S C §§40716(b), 41015. Although these sections have not been interpreted by the courts, attorneys for APCDs and AQMDs generally interpret these provisions as prohibiting a district from overriding or dictating land use decisions made by cities and counties, such as general plan amendments, zoning ordinances, and siting of industrial, commercial, and residential development.

© The Regents of the University of California

§11.193 (2) Permitting Requirements

Air pollution control districts (APCDs) and air quality management districts (AQMDs) sometimes interpret Health & S C §§40716(b) and 41015 as not prohibiting a parallel permitting system for indirect sources such as now exists for industrial air pollution sources. Although Health & S C §42300 authorizes the establishment of a permit system for equipment that causes air pollution, there is not a similar specific grant of authority for a permit system covering other types of development projects. The attorney general has opined that the authority of an APCD or AQMD does not extend to requiring permits for indirect sources. 76 Ops Cal Atty Gen 11 (1993).

© The Regents of the University of California

§11.194 (3) Limit on Trip Reduction Programs

Air pollution control districts (APCDs), air quality management districts (AQMDs), cities, and all other public entities are prohibited from requiring "an employer to implement an employee trip reduction program unless the program is expressly required by federal law and the elimination of the program will result in the imposition of federal sanctions, including, but not limited to, the loss of federal funds for transportation purposes." Health & S C §40717.9(a). Similarly, APCDs, AQMDs, and regional and local public entities are generally prohibited from requiring private parties to impose parking charges, restrict parking, or impose measures to reduce retail shopping trips. Health & S C §40717.6.

© The Regents of the University of California

§11.195 (4) Limit on New Control Measures

Air pollution control districts (APCDs) and air quality management districts (AQMDs) are prohibited from adopting new or more stringent control measures with respect to pollutants for which standards have not been violated unless the APCD or AQMD prepares an analysis of the costs and benefits of achieving attainment. Health & S C §40930.

© The Regents of the University of California

§11.196 (5) Preemption

The federal Clean Air Act preempts air quality management districts (AQMDs) and air pollution control districts (APCDs) from adopting or enforcing any state or local standard relating to control of emissions from new motor vehicles or motor vehicle engines. 42 USC §7543(a); *Engine Mfrs. Ass'n v South Coast Air Quality Mgmt. Dist.* (2004) 541 US 246, 158 L Ed 2d 529, 124 S Ct 1756. Thus, an AQMD or APCD may not adopt or enforce a regulation requiring fleet operators to purchase or lease only those vehicles that meet state motor vehicle pollutant standards. *Engine Mfrs. Ass'n v South Coast Air Quality Mgmt. Dist., supra.*

© The Regents of the University of California

§11.197 e. Procedural Requirements for Plan Adoption

The development and adoption of air quality attainment plans is governed by provisions of state and federal law. The air pollution control district (APCD) or air quality management district (AQMD) must consult with affected general purpose local governments and designated organizations of elected officials (*e.g.,* councils of governments and metropolitan planning organizations) before the plan is adopted. 42 USC §§7410(a)(2)(M), 7421, 7504. Additionally, evidence of public involvement and participation in the plan adoption process must be presented. Information regarding attainment plan provisions for any area in California may be obtained from the APCD or AQMD exercising jurisdiction over that area, or the California Air Resources Board (ARB).

© The Regents of the University of California

f. Procedural Requirements for Rule Adoption

§11.198 (1) Authority

Air pollution control districts (APCDs) and air quality management districts (AQMDs) are authorized to adopt rules to implement their attainment plans and to carry out other powers and duties imposed by the California Health and Safety Code. Such rulemaking is governed by Health & S C §§40725-40730.

© The Regents of the University of California

§11.199 (2) Notice and Hearing

Generally, no rule may be adopted, amended, or repealed unless the district governing board holds a public hearing on such action. A public hearing may not be held unless the air pollution control districts (APCD) or air quality management district (AQMD) has given at least 30 days' notice of the time and place of the public hearing. Such notice must be given to the California Air Resources Board (ARB) and by publication within the district. A copy of the rule or regulation proposed to be adopted, amended, or repealed and a summary of the proposed action must be given to the ARB at the time notice is given. The published notice must invite public comment, give the name, address, and telephone number of the person to whom comments should be directed, and the date by which comments must be received. Health & S C §40725(c).

© The Regents of the University of California

§11.200 (3) Changes to Proposed Rules

At the public hearing, the governing board must consider the oral and written testimony presented before taking action to adopt, amend, or repeal a rule or regulation. It may continue or postpone a hearing on a rule or regulation. If, after considering the matters presented, the governing board wishes to make changes in the text originally made available that significantly change the meaning of the proposed rule or regulation, it may not do so at that time, but must continue the matter to its next regular meeting and allow additional arguments and statements concerning the proposed changes. Health & S C §40726.

© The Regents of the University of California

§11.201 (4) Findings and Rulemaking Record

Before adopting, amending, or repealing a rule or regulation, the governing board must make findings regarding "necessity, authority, clarity, consistency, non-duplication and reference" (Health & S C §40727(a)) and prepare an assessment of social and economic impacts if such action will significantly affect air quality or emissions limitations for air pollution control districts (APCDs) or air quality management districts (AQMDs) with populations of 500,000 or more (Health & S C §40728.5). Before the board can make the required findings, the district must prepare a written analysis that identifies all existing federal air pollution control requirements and district regulations that apply to the same equipment or source type that is the subject of the proposed rule. Notice of the public hearing must indicate the analysis is available. Health & S C §40727.2. The APCD or AQMD must also maintain a rulemaking file on each regulation, which is deemed the administrative record for that proceeding. Health & S C §40728.

© The Regents of the University of California

§11.202 3. City Authority

Air pollution control districts (APCDs) and air quality management districts (AQMDs) share air pollution control authority over many sources with local governments. See Health & S C §§39002, 41508. Cities and counties have authority, under the police power, to adopt ordinances to limit emissions of air contaminants. Because of the technical nature of emission controls, most cities and counties have elected not to exercise that concurrent authority, and have left air pollution control to APCDs and AQMDs.

© The Regents of the University of California

§11.203 a. Local Government Implementation Measures

However, the district attainment plans adopted by air pollution control districts (APCDs) and air quality management districts (AQMDs) usually contain measures that can be implemented by local governments. If an attainment plan provides for local government implementation of one of its measures, failure of a city or county to implement a "local government implementation measure" may result in the APCD or AQMD implementing that measure through its rulemaking authority. See Health & S C §39002.

© The Regents of the University of California

§11.204 b. Permit Checks

Cities must require applicants for a development project or building permit to indicate whether a permit is required from the air pollution control district (APCD) or air quality management district (AQMD) for the activities to be conducted at the facility for which the permit is sought. Govt C §65850.2(a)(1). No city may approve an occupancy certificate unless there is verification that conditions of any APCD permit are being met. Govt C §65850.2(c).

© The Regents of the University of California

§11.205 c. Proximity of Certain Facilities to Schools

Cities are prohibited from allowing any facility that must have a risk management and prevention plan (RMPP) or that may emit air contaminants from being constructed within 1000 feet of the outer boundary of a school unless and until an approved RMPP has been submitted and the air pollution control district (APCD) or air quality management district (AQMD) with jurisdiction has met the requirements of Health & S C §42301.6, requiring, among other things, public notice.

© The Regents of the University of California

4. State Authority

§11.206 a. State Air Standards

The California Air Resources Board (ARB) has the authority to establish state ambient air quality standards (Health & S C §39606(a)(2)), which can be stricter than the National Ambient Air Quality Standards (NAAQS) (42 USC §7416). For a discussion of the NAAQS, see §11.184. The ARB has exercised this authority by adopting the California Ambient Air Quality Standards (CAAQS). Like the National Ambient Air Quality Standards (NAAQS), the CAAQS specify maximum permissible concentrations of criteria pollutants in the ambient air. 17 Cal Code Regs §70200. Some of the CAAQS, such as those for particulate matter and ozone, are more protective of public health than their NAAQS counterparts. In addition, the ARB has established CAAQS for some pollutants that do not have a NAAQS counterpart, such as "visibility reducing particles" and sulfates. The California Clean Air Act (Stats 1988, ch 1568) requires the ARB to designate each air basin as attainment or nonattainment with respect to each CAAQS. Health & S C §39608. Authority for setting emission standards for new motor vehicles also rests with the ARB. Health & S C §§43000-44299.91.

© The Regents of the University of California

§11.207 b. State Regulatory Programs

The California Air Resources Board (ARB) is responsible for listing and developing model regulations to control the emissions of toxic air contaminants (see Health & S C §§39650-39675), reviewing air pollution control districts (APCD) and air quality management district (AQMD) air quality plans (see Health & S C §40923), and administering the Air Toxics "Hot Spots" Information and Assessment Act of 1987 (see Health & S C §§44300-44394). This latter program is a statewide effort to inventory and categorize the risk associated with emissions of toxic air contaminants from non-vehicular sources. The California Bureau of Automotive Repair is also responsible for overseeing the motor vehicle inspection and maintenance program (the "Smog Check" program). Health & S C §§44000-44126.

© The Regents of the University of California

§11.208 c. Composition of ARB

The California Air Resources Board (ARB) consists of 11 members appointed by the governor with the consent of the state senate. Health & S C §39510(a)-(b). Five of the members must be air pollution control district (APCD) or air quality management district (AQMD) governing board members (Health & S C §39510(c)):

- one from the Bay Area AQMD,
- one from the South Coast AQMD,
- one from the San Joaquin Valley Unified APCD,
- one from the San Diego APCD, and
- one from one of the other districts.

The ARB is a department of the California Environmental Protection Agency (Cal/EPA). Health & S C §39510.

© The Regents of the University of California

5. Federal Laws

§11.209 a. Environmental Protection Agency (EPA)

Federal air pollution laws and regulations are administered by the federal EPA. The federal EPA is headed by an administrator. The federal EPA administrator is empowered to promulgate regulations under the federal Clean Air Act (42 USC §§7401-7671q).

© The Regents of the University of California

§11.210 b. EPA Regions

The United States and its territories are divided into ten regions for purposes of administering federal environmental programs. California is in Region IX. EPA Region IX is headquartered in San Francisco and is administered by a regional administrator. See 40 CFR §§1.5, 1.7.

© The Regents of the University of California

§11.211 c. National Standards

The federal Clean Air Act establishes the national framework for air pollution regulation. It is fundamentally a "bottom-up" approach to the problem of achieving clean air. The federal EPA sets standards for acceptable levels of air quality ("National Ambient Air Quality Standards," or NAAQS). These standards must accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare. 42 USC §7408(a)(2). The NAAQS specify the maximum permissible concentrations of six "criteria" air pollutants in the atmosphere, including ozone, particulate matter, carbon monoxide, nitrogen dioxide, sulfur dioxide, and lead. 40 CFR Part 50. Under the Clean Air Act, EPA has divided each state into separate "air quality control regions" for planning purposes. 42 USC §7407. EPA designates each region as "attainment" or "nonattainment" for each criteria pollutant based on whether the region meets the NAAQS for that pollutant. 42 USC §7407.

© The Regents of the University of California

§11.212 d. State Implementation Plans

The federal Clean Air Act requires each state to prepare a state implementation plan (SIP) and to submit the SIP to EPA for approval. 42 USC §7410. Each SIP must set forth control measures that will attain, maintain, and enforce the National Ambient Air Quality Standards (NAAQS) within the state. The Act sets forth a number of general requirements for the content of SIPs. 42 USC §7410(a)(2). Within these general parameters, however, states have substantial discretion to determine the specific air pollution control strategies set forth in their SIPs. Each state is free to determine the particular "mix of emissions limitations" set forth in a SIP, as long as the SIP will achieve and maintain compliance with the NAAQS. *Train v Natural Resources Defense Council* (1975) 421 US 60, 79, 43 L Ed 2d 731, 95 S Ct 1470; see also *National Steel Corp. v Gorsuch* (6th Cir 1983) 700 F2d 314, 322 (Clean Air Act gives states "wide discretion" in drafting and revising SIPs).

In areas that have not yet attained the NAAQS for specified pollutants, there are additional requirements and additional time is provided. 42 USC §§7511-7514(a). If a state fails to adopt an adequate SIP, the EPA must adopt and implement a federal implementation plan (FIP) to accomplish the goals of the federal Clean Air Act. *Coalition for Clean Air v Southern Cal. Edison Co.* (9th Cir 1992) 971 F2d 219, cert denied sub nom *EPA v Coalition for Clean Air* (1993) 507 US 950.

© The Regents of the University of California

§11.213 e. Emission Standards

Federal regulations establish minimum requirements for certain new, large, industrial sources (new source performance standards, or NSPS). 42 USC §7411. The Clean Air Act also requires the EPA to establish emission standards for "hazardous air pollutants" (HAP) under a program known as "national emission standards for hazardous air pollutants" (NESHAP). 42 USC §7412.

© The Regents of the University of California

§11.214 f. Minimum Standards for State Permit Programs

The Clean Air Act Amendments of 1990 require the EPA to establish, for the first time, minimum standards for state permit programs. 42 USC §§7661-7661f. The amendments also establish a stratospheric ozone protection program (42 USC §§7671-7671q) and a demonstration program for "clean fuel vehicles" that is consistent with the California Air Resources Board (ARB) program to encourage the production and sale of clean fuel vehicles and "low-emitting vehicles" (42 USC §§7581-7590).

© The Regents of the University of California

B. Enforcement

1. State Enforcement

§11.215 a. Civil Penalties

Rules and regulations adopted by air pollution control districts (APCDs) and air quality management districts (AQMDs) have the force and effect of law and may be enforced against "persons" through the imposition of criminal or civil penalties, injunctive relief, or administrative abatement orders. Health & S C §§41513, 42400-42410, 42450-42454. Civil penalties can be as high as $75,000 per day for each day a violation occurs or continues. Health & S C §42402.3(a). The provisions of Health & S C §39047 define the term "person" to include state and local government entities and their officers and employees, except for the imposition of criminal sanctions.

© The Regents of the University of California

b. Variances

§11.216 (1) Hearing Boards

Within each air pollution control district (APCD) and air quality management district (AQMD) is constituted a hearing board. Health & S C §40800. Any person who is or will be in violation of Health & S C §41701 or any APCD or AQMD rule or regulation may apply to the hearing board for a variance. Health & S C §§42350, 42352. The granting of a variance will insulate the person from enforcement action for violations of the rule(s) from which the variance is granted. Except in the case of an emergency, before granting a variance the hearing board must hold a public hearing. Health & S C §42359. The type of notice required varies depending on the type of proceeding and length of variance sought. See Health & S C §§40823-40826.

© The Regents of the University of California

§11.217 (2) Hearing Procedures

Variance hearings are quasi-judicial and evidence is taken under oath. Health & S C §§40807, 40828-40829. Members of the public must be given an opportunity to testify. Health & S C §40828(a). To grant a variance, a majority of the hearing board must make the findings required by Health & S C §42352:

(1) Petitioner is or will be in violation of Health & S C §41701 or of any rule, regulation, or order of the district;

(2) Due to conditions beyond the reasonable control of petitioner, requiring compliance would result in either an arbitrary or unreasonable taking of property, or the practical closing and elimination of a lawful business;

(3) The closing or taking would be without a corresponding benefit in reducing air contaminants;

(4) Petitioner has given consideration to curtailing operations of the pollution source in lieu of obtaining a variance;

(5) During the period the variance is in effect, petitioner will reduce excess emissions to the maximum extent feasible;

(6) During the period the variance is in effect, petitioner will monitor or otherwise quantify emission levels from the source, if requested to do so by the district and report those emission levels to the district pursuant to a schedule established by the district.

© The Regents of the University of California

§11.218 (3) Hearing Board Decisions

A hearing board may impose conditions on the granting of a variance and is authorized to exercise wide discretion in weighing the equities involved and the advantages to the petitioner and the affected public that might accrue from a grant or denial of a variance. Health & S C §§42353-42354.

© The Regents of the University of California

§11.219 (4) Judicial Review

Judicial review of hearing board decisions, including decisions on variance petitions, may be had by writ of administrative mandate as governed by CCP §1094.5. Health & S C §40864(a). An administrative mandate action must be filed within 30 days after the date the hearing board decision was mailed. Health & S C §40864.

© The Regents of the University of California

c. Orders for Abatement

§11.220 (1) Issuance

The governing board of an air pollution control district (APCD) or air quality management district (AQMD), or a hearing board, may, after notice and a hearing, issue an order for abatement whenever it finds that any person is constructing or operating any equipment that may cause the issuance of air contaminants without a required permit or in violation of Health & S C §41700-41701 or any order, rule, or regulation prohibiting or limiting the discharge of air contaminants into the air. Health & S C §42450.

© The Regents of the University of California

§11.221 (2) Effect

An order for abatement is an administrative order in the nature of an injunction requiring the respondent to refrain from a particular act. It may be conditional. An order for abatement does not have the effect of a variance, however, unless all of the conditions for a variance have been met. Health & S C §42452.

© The Regents of the University of California

§11.222 (3) Violations

Violation of an order for abatement may be punished by the imposition of civil penalties of up to $25,000 per day for each day of violation. Health & S C §42401. Once an order for abatement has been obtained, injunctive relief to prevent continued violation of the order for abatement may be obtained without the need to show lack of an adequate remedy at law or irreparable damage or loss. Health & S C §42454.

© The Regents of the University of California

§11.223 2. Federal Enforcement

The EPA is authorized to bring enforcement action against persons who violate any provision of a state implementation plan. Enforcement may be sought by way of civil or criminal penalties and/or injunctive relief. See 42 USC §7413. Civil penalties may be assessed by the EPA Administrator in amounts up to $25,000 per day of violation. 42 USC §7413. Cities and counties have no immunity from federal enforcement actions. See 42 USC §7413(c)(6) (referring to 42 USC §7602(a), defining "person" to include municipalities). The Eleventh Circuit has held that the administrative compliance provisions of the federal Clean Air Act (42 USC §7413) are unconstitutional to the extent that they allow the EPA to impose civil and criminal penalties for noncompliance with an order without an opportunity for meaningful adjudication or judicial review. *Tennessee Valley Auth. v Whitman* (11th Cir 2003) 336 F3d 1236, cert denied sub nom *Leavitt v Tennessee Valley Auth.* (2004) 541 US 1030. The Ninth Circuit has yet to decide this issue.

© The Regents of the University of California

§11.224 3. Citizen Enforcement

Private parties may judicially enforce specific provisions set forth in a state implementation plan (SIP) if the EPA fails to do so. 42 USC §7604; *Bayview Hunters Point Community Advocates v Metropolitan Transp. Comm'n* (9th Cir 2004) 366 F3d 692, 695.

© The Regents of the University of California

C. Permits

1. District Action on Emissions Permits

a. Non-Vehicular Sources

§11.225 (1) Permit Requirement

Air pollution control districts (APCDs) and air quality management districts (AQMDs) have implemented permit programs to regulate the quantity and type of emissions from non-vehicular sources, as permitted by Health & S C §§42300-42316. Any person seeking to construct or operate equipment that may cause the issuance of air contaminants must obtain a permit. See Health & S C §42301.

© The Regents of the University of California

§11.226 (2) "Air Contaminants"

The term "air contaminants" is broadly defined to include virtually any material, chemical, gas, particle, or odorous material emitted into the atmosphere. It is not limited to those materials for which ambient air quality standards have been established. Health & S C §39013. Air pollution control districts (APCDs) and air quality management districts (AQMDs) must adopt regulations establishing standards for permits (see §11.225). Health & S C §42301. Typical equipment for which a permit is required includes electrical generators, paint spray booths, asphalt batch plants, gasoline storage and dispensing equipment, boilers, and stationary internal combustion engines.

© The Regents of the University of California

§11.227 b. NSR Programs; Offsets

Under the federal Clean Air Act, each SIP prepared for a nonattainment area must contain a permitting program governing the construction and operation of "new and modified major stationary sources." 42 USC §7502(c)(5). Such permitting programs are often referred to as "new source review" (NSR) programs. Each new source review program must set forth "preconstruction review" requirements that applicants must meet before the permitting agencies may issue permits to construct or operate any equipment that will increase nonattainment emissions. 40 CFR §51.165(a)(2).

Air pollution control districts (APCDs) and air quality management districts (AQMDs) have complied with the Clean Air Act's requirements by adopting regulations establishing NSR programs. NSR programs generally require new or modified non-vehicular sources of air pollution to use "best available control technology" (BACT) and to reduce air pollution from other sources within the area where the new source will be located to "offset" the emission increases from the new or modified source. Health & S C §40709.6. An "offset" is a reduction of nonattainment pollutant emissions in an amount somewhat greater than the emissions increase of the same pollutant from the proposed new or modified equipment. 42 USC §7503(c). A company might be allowed to create offsets, for example, by permanently shutting down a permitted piece of equipment, or curtailing production or operating hours. 40 CFR §51.165. Once created, companies may also be able to "bank" offsets, use them at a later time, or sell them to other companies. To obtain a permit to construct, the "offset" ratio must be greater than 1 to 1, with a ratio of 1.2:1 being common. The amount of the offset required depends on the location of the offsetting source. Typically, as the distance from the offsetting source to the new proposed source increases, so does the quantity of offset required. Most APCD and AQMD NSR regulations contain exemptions from offset requirements for "essential public services," but the types of projects that qualify as essential public services may differ among APCDs and AQMDs.

© The Regents of the University of California

§11.228 c. Duration of Permits

Permits may be made valid only for a specified period, subject to being automatically renewed on payment of a "renewal" fee. Health & S C §42300(b). On renewal, permit conditions must be reviewed to ensure they are adequate to ensure compliance with all rules applicable to the permitted equipment. Health & S C §42301(e).

© The Regents of the University of California

§11.229 d. Market-Based Incentives

In addition to traditional "command and control" regulations, the California Air Resources Board (ARB) and EPA both encourage air pollution control districts (APCDs) and air quality management districts (AQMDs) to utilize market-based incentives in their permit programs. These allow the sale, purchase, trade, or substitution of emission reduction credits among various sources of air pollution emissions. Health & S C §§39053.6, 39616, 40500.5, 40714.5.

© The Regents of the University of California

§11.230 e. Applicability of Other Laws

The California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177) and the Permit Streamlining Act (PSA) (Govt C §§65920-65964) can apply to air pollution control district (APCD) and air quality management district (AQMD) permitting activities (non-ministerial permits). See Govt C §65934. However, the inclusion of an air district's amended rule into a state implementation plan by the California Air Resources Board (ARB) is not a "project" subject to CEQA. *Sherwin-Williams Co. v South Coast Air Quality Mgmt. Dist.* (2001) 86 CA4th 1258, 104 CR2d 288.

© The Regents of the University of California

§11.231 f. Fees

Air pollution control districts (APCDs) and air quality management districts (AQMDs) are authorized to charge fees to applicants for and holders of permits. Health & S C §42311. Local, state, and federal government agencies must pay permit fees to the same extent as private entities. Those fees generally take the form of permit application fees, permit evaluation fees, permit renewal fees, and emissions fees (the specific terminology varies and some APCDs and AQMDs combine these fees or do not charge some fees). The fee rates are set by the APCD or AQMD governing board.

© The Regents of the University of California

2. Permit Appeals

§11.232 a. Permit Denials

In the event that an air pollution control districts (APCD) or air quality management district (AQMD) denies an application for a permit to construct or operate equipment for which a permit is required, the applicant may, within 30 days, request the hearing board to hold a hearing on whether the permit was properly denied. Health & S C §42302. After such a hearing, the hearing board may grant a permit that was denied. Health & S C §42309(a).

© The Regents of the University of California

§11.233 b. Permit Issuances

Many air pollution control districts (APCDs) and air quality management districts (AQMDs) also allow appeals from the granting of a permit if conditions in the permit are unacceptable to the applicant.

© The Regents of the University of California

§11.234 c. Exhaustion Requirement

Within 30 days of any decision or action pertaining to the issuance of a permit by an air pollution control district (APCD) or air quality management district (AQMD), any aggrieved person may appeal the issuance of a permit, provided that the aggrieved person "appeared, submitted written testimony, or otherwise participated in the [permitting] action" Health & S C §42302.1.

© The Regents of the University of California

§11.235 D. Global Warming

The California Global Warming Solutions Act of 2006 (commonly known as AB 32 (2006)) is the first statewide comprehensive program to reduce greenhouse gases (GHG). See Health & S C §§38500-38599. Under AB 32 (2006) the Air Resources Board (ARB) is responsible for monitoring and reducing GHG emissions, establishing a statewide GHG emissions cap, and undertaking a variety of other steps related to reducing global warming. See Practice Tip in §11.38.

In 2008, SB 375 was signed into law and is the first law in the nation to control GHG emissions by curbing urban sprawl. SB 375 requires the ARB to develop regional GHG emission reduction targets by September 30, 2010, to be achieved by the automobile and light truck sector by 2020 and 2035. The ARB also must work with California's 18 metropolitan planning organizations to prepare "sustainable communities strategies" to reduce the number of vehicle miles traveled in their respective regions and to demonstrate each region's ability to meet the GHG emission reduction targets. Govt C §65080.

§11.236 E. References

On transportation planning, see §§10.251-10.253. For further discussion of air quality regulation, see Longtin, Longtin's California Land Use (2d ed 1987) (Local Government Publications, P.O. Box 2596, Walnut Creek, California 94595) and Manaster & Selmi, California Environmental Law and Land Use Practice, div V, chap 40. (Matthew Bender, rev ed 1997) (updated annually). For detailed discussion of SB 375 and climate change regulation in California, see Practice Under the California Environmental Quality Act, chap 20 (2d ed Cal CEB 2008).

© The Regents of the University of California

VI. HAZARDOUS WASTE

A. Basic Regulatory Scheme

§11.237 1. Federal Law

The two principal federal laws governing hazardous waste are the Resource Conservation and Recovery Act (RCRA) (42 USC §§6901-6992k) and the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or "Superfund") (42 USC §§9601-9675).

© The Regents of the University of California

§11.238 a. RCRA

The Resource Conservation and Recovery Act (RCRA) regulates the generation, handling, and disposal of hazardous wastes and solid wastes. Hazardous waste is defined as including any waste on an EPA list and can include all solid waste if it contains elements or materials on the EPA list. 40 CFR §§261.1-261.2. Solid waste is defined as including any garbage, refuse, sludge, or any other waste material resulting from industrial, commercial, mining, or agricultural operations or from community activities, that is being discarded or accumulated, stored, or treated before being discarded. 40 CFR §261.2.

© The Regents of the University of California

§11.239 b. CERCLA

The Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) provides the primary federal legal structure for the cleanup and remediation of contaminated sites. Under CERCLA, the EPA has the power to clean up hazardous substance releases, to recover the costs of such cleanup from the responsible parties, and to order abatement actions in the event of an imminent and substantial endangerment to the public health or welfare or the environment caused by the release of hazardous substances. 42 USC §§9604, 9606-9607.

© The Regents of the University of California

§11.240 2. State Law: Hazardous Waste Control Act

The principal California law governing hazardous wastes is the Hazardous Waste Control Act of 1973 (HWCA) (Health & S C §§25100-25257.1). The HWCA imposes requirements on the disposal, treatment, and storage of hazardous material.

The HWCA parallels the federal Resource Conservation and Recovery Act (RCRA) (42 USC §§6901-6992k). The Department of Toxic Substances Control, a division of the California Environmental Protection Agency, administers the HWCA. The division has adopted implementing regulations. See 22 Cal Code Regs §§66260.1-69214. The state's hazardous waste program was approved by the federal EPA. A number of solid wastes that are not considered hazardous by RCRA standards are classified hazardous under the more stringent California regulations. These are known as "non-RCRA" hazardous wastes.

© The Regents of the University of California

B. Household Hazardous Waste Planning Requirements

§11.241 1. City Household Hazardous Waste Plans

Each city must prepare and adopt a household hazardous waste element (HHWE). Once approved by the California Integrated Waste Management Board, the HHWE becomes an element of the county-wide waste management plan. Pub Res C §§41500, 41750.

Hazardous waste is defined as a waste that may cause or contribute to mortality or serious illness or pose a substantial hazard to human health, is a state-listed hazardous waste (see 22 Cal Code Regs §§66261.1-66261.126), or is a federally listed hazardous waste (40 CFR §§261.1-261.151). See Pub Res C §41500; Health & S C §§25117, 25141.

The HHWE must identify a program for the safe collection, recycling, treatment, and disposal of hazardous wastes that are generated by households in a city. Pub Res C §41500.

PRACTICE TIP 1: Permits are required to hold household hazardous waste events, have city-sponsored programs, or set up permanent drop-off sites. Cities should contact their local Certified Unified Program Agency (CUPA) for permits. Permits are issued through a "Permit By Rule" (PBR) process.

PRACTICE TIP 2: Although the state considers waste oil filters hazardous, the law exempts curbside collection programs from the hazardous waste control laws, CHP inspections, and manifest requirements. Non-discretionary oil grant funds (payout based on population) are available from the California Integrated Waste Management Board.

PRACTICE TIP 3: Variances are no longer needed for household hazardous waste programs.

PRACTICE TIP 4: Household hazardous waste programs can also accept waste from small businesses. Health & S C §25218.3 ("conditionally exempt small quantity generators").

© The Regents of the University of California

§11.242 2. Regional Hazardous Waste Plans

Each county must have a county hazardous waste management plan that identifies the hazardous waste stream generated in that county, the existing facilities to treat, recycle, and dispose of hazardous waste, the potential for recycling, management of small volumes generated by businesses and households, identification of new sites for hazardous waste facilities, and an implementation schedule for the plan. Health & S C §25135.1(d).

The county plan, after being reviewed by the state, must be approved by each city within the county and thereafter by the state. Health & S C §§25135.6-25135.7.

Regional associations of governments, such as the Association of Bay Area Governments or the Southern California Association of Governments, or specified regional joint power authorities, may at their discretion prepare regional hazardous waste management plans. Health & S C §25135.3.

© The Regents of the University of California

§11.243 C. Hazardous Waste Facilities Planning and Approval Requirements

The state has established the Unified Hazardous Waste and Hazardous Materials Management Regulatory Program (Health & S C §§25404-25404.9) to consolidate the administration of a variety of local requirements and ensure the coordination and consistency of any regulations adopted pursuant to those requirements. This is known as the "unified program." The programs covered by the unified program include those facilities covered by certain hazardous waste permit requirements, spill prevention, control and counter-measure plans for above ground tanks and underground storage tanks, hazardous materials release response plans, hazardous materials inventories, requirements related to acutely hazardous materials, and those requirements of the Uniform Fire Code concerning hazardous materials management plans. Counties were required to apply to become a certified unified program agency (CUPA) to implement the program and cities have the option of applying to be designated a CUPA or participating agency.

© The Regents of the University of California

§11.244 1. City Planning Requirement

State law does not preempt city authority to regulate hazardous waste disposal and treatment, as long as a city's regulation does not completely prohibit or unreasonably regulate hazardous waste facilities. Health & S C §25149. See *IT Corp. v Solano Bd. of Supervisors* (1991) 1 C4th 81, 2 CR2d 513; *Casmalia Resources, Ltd. v County of Santa Barbara* (1987) 195 CA3d 827, 833, 240 CR 903. Each city must implement the contents of the county hazardous waste management plan by adopting a city hazardous waste management plan that is consistent with the county plan, by incorporating the county plan into the city's general plan, or by enacting an ordinance that requires that all applicable zoning, subdivision, conditional use permit, and variance decisions must be consistent with the county plan's siting criteria. Health & S C §25135.7(c).

© The Regents of the University of California

2. Application to Build Hazardous Waste Facility

§11.245 a. Notice of Intent; City Advisory Committee

At least 90 days before an applicant for a hazardous waste facility may submit an application for city land use approval, it must file a notice of intent to make an application with the Office of Planning and Research and with local agencies. Health & S C §25199.7. The city must then appoint a seven-member local assessment committee comprised of three community representatives, two representatives of environmental interest groups, and two representatives of affected business and industry. Health & S C §25199.7(d). This committee advises the city council. Health & S C §25199.7(d).

© The Regents of the University of California

§11.246 b. Time Limits for Processing Applications

On receipt of an application for the siting of a hazardous waste facility project, a city must first issue a written determination within 60 days of the application being complete, stating whether the proposed facility is consistent with the city's general plan and zoning ordinance and the county's hazardous waste management plan. Health & S C §25199.5. The city has 1 year to approve or disapprove a hazardous waste disposal facility and 180 days to approve or disapprove other types of hazardous waste facilities. Health & S C §25199.6.

© The Regents of the University of California

§11.247 c. Appeals

Decisions to disapprove may be appealed to the governor, who must convene a seven member state appeal board. Health & S C §25199.10. The appeal board may reverse the city's disapproval if the appeal board makes certain statutory findings. See Health & S C §25199.11.

© The Regents of the University of California

D. Relationship to Water and Air Quality Issues

§11.248 1. Compliance With Water Quality Requirements

The state may issue a permit for a hazardous waste facility only if the project is consistent with all applicable regulations of the State Water Resources Control Board, all applicable plans adopted under Wat C §§13170 and 13240-13247, and all applicable state policies for water quality control adopted under Wat C §§13140-13147. See Health & S C §25204.5.

© The Regents of the University of California

§11.249 2. Compliance With Air Quality Requirements

Each hazardous waste facility must prepare a plan to monitor air emissions from the facility and implement a corrective action plan if the ambient air emissions pose a threat to the public health. Health & S C §25155.10. See also 42 USC §6924(n) (requirement to get air quality permit before construction).

© The Regents of the University of California

E. Obligations of Property Owners

§11.250 1. CERCLA Liability

Under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or "Superfund") (42 USC §§9601-9675), the EPA may order the present property owner to clean up the property or the EPA may undertake the cleanup using Superfund monies with recoupment of expenses coming through cost recovery actions brought against responsible parties. 42 USC §9607(a)(4)(A). See *Carson Harbor Village, Ltd. v Unocal Corp.* (9th Cir 2001) 270 F3d 863 (migration of contamination does not constitute "disposal" for purpose of liability).

Property owners may also bring actions for contribution to recover a portion of their cleanup expenses against other responsible parties. 42 USC §9613(f). In some cases innocent landowners who did not cause or contribute to the contamination may alternatively seek to recover all of their "response costs" from the responsible parties through a direct action under 42 USC §9607(a) for joint and several liability. 42 USC §9607(a)(4)(B). Responsible parties include present property owners and operators of the facility, owners and operators of the facility at the time of disposal of hazardous wastes, persons (including cities) who arranged for the disposal or treatment of hazardous wastes or municipal solid waste, and certain hazardous waste transporters. 42 USC §9607(a).

© The Regents of the University of California

§11.251 2. RCRA Liability

Under the Resource Conservation and Recovery Act (RCRA) (42 USC §§6901-6992k), the EPA is authorized to bring suit against any person, including any past or present generator, transporter, or owner or operator of a treatment, storage, or disposal facility, who has contributed or is contributing to such handling, storage, treatment, transportation, or disposal, to restrain that activity, or to order that person to take any other action as may be necessary, or both. Although the EPA concerns itself primarily with the operator, a disposal facility owner may be fined for regulatory non-compliance. 42 USC §§6903, 6973. Private citizens may bring suit for similar violations. 42 USC §6972.

© The Regents of the University of California

§11.252 3. Notice to Buyers

Under state law, any owner of nonresidential real property who knows, or has reasonable cause to believe, that any release of hazardous substance has come to be located on or beneath that real property must, before the sale, lease, or rental of the real property by that owner, give written notice of that condition to the buyer, lessee, or renter of the real property. Health & S C §25359.7. Failure to provide notice can subject the owner to actual damages, other remedies provided at law, and civil penalties not to exceed $5,000 for each violation. Health & S C §25359.7.

© The Regents of the University of California

§11.253 4. Developer Obligations

Every applicant for a development project must, before the lead agency accepts the application as complete, determine whether the project site or any alternatives is on a list of hazardous waste sites. Govt C §65962.5. The applicant must submit a signed statement that the applicant has consulted the lists sent to the city by the Department of Toxic Substances Control and indicating whether or not the project site is on the list. Govt C §65962.5(f).

© The Regents of the University of California

§11.254 F. Brownfields Cleanup

The Polanco Redevelopment Act (Health & S C §§33459-33459.8) and the California Land Environmental Restoration and Reuse Act (Health & S C §§25401-25402.3 and 57008-57010) give redevelopment agencies, cities, and counties the authority to either order or directly undertake the cleanup of abandoned and underutilized parcels of contaminated property (commonly known as "brownfields"). These Acts also provide immunity from liability for redevelopment agencies, cities, counties, and subsequent property purchasers, for sites cleaned up under a cleanup plan approved by the State Department of Toxic Substances Control (DTSC) or a Regional Water Quality Control Board.

© The Regents of the University of California

§11.255 G. References

For discussion of franchises, refuse collection, and recycling, see §§6.92-6.105. On municipal services and utilities, see chap 6. On land use, see chap 10. For further discussion of hazardous waste, see Longtin, Longtin's California Land Use (2d ed 1987), and Manaster and Selmi, California Environmental Law and Land Use Practice chap 20 (Matthew Bender, rev ed 1997) (updated annually).

© The Regents of the University of California

VII. ENDANGERED SPECIES

A. Overview of Endangered Species Protection

§11.256 1. Importance

The federal Endangered Species Act (ESA) (16 USC §§1531-1544) and its California counterpart, the California Endangered Species Act (CESA) (Fish & G C §§2050-2115.5), have emerged as statutes of significant importance for city attorneys, city planners, private developers, and opponents of public and private development projects. This has not always been the case. In the 1970s, for example, the ESA was of interest primarily to wildlife biologists, federal regulators, alligator shoe manufacturers, and the Tennessee Valley Authority, which was forced to halt ongoing construction of the $150 million Tellico Dam project because of the presence of an endangered fish, the snail darter. Later conflicts between development interests and the California gnatcatcher (southern California), the tiger salamander and red-legged frog (central and northern California), and the northern spotted owl (Pacific northwest) substantially increased the level of private and public interest awareness on the west coast of the importance of concepts such as habitat protection and biodiversity. Conflicts have arisen between water for endangered fish and water for struggling farmers. Throughout California, endangered species issues are often the most challenging and contentious aspects of land development and resource use projects.

© The Regents of the University of California

§11.257 2. Scope of Discussion

The Endangered Species Act (ESA) (16 USC §§1531-1544) provides the legal means for the conservation and protection of threatened or endangered species of fish, wildlife, and plants. The California Endangered Species Act (CESA) (Fish & G C §§2050-2115.5) is generally similar to the ESA, but with some important differences. This chapter discusses the major features of the ESA and how their application by public agencies and private litigants can delay or halt public and private development projects. The chapter also outlines the CESA and compares it to the ESA.

© The Regents of the University of California

B. Federal Endangered Species Act of 1973

§11.258 1. Purpose of ESA

The purpose of the Endangered Species Act (ESA) (16 USC §§1531-1544) is "to provide for conservation, protection and propagation of endangered species … by Federal action and by encouraging the establishment of State endangered species conservation programs." S Rep No. 307, 93rd Cong, 1st Sess (1973) 1, reprinted in 1973 US Code Cong & Ad News 2989. The United States Supreme Court has stated that the ESA represents "the most comprehensive legislation for the preservation of endangered species ever enacted by any nation." *Tennessee Valley Auth. v Hill* (1978) 437 US 153, 180, 57 L Ed 2d 117, 98 S Ct 2279 (completion of multimillion-dollar dam enjoined to protect snail darter).

© The Regents of the University of California

§11.259 2. Implementation

For most plant and wildlife species, the Endangered Species Act (ESA) (16 USC §§1531-1544) is implemented by the Secretary of the Interior, acting through the United States Fish and Wildlife Service (FWS). For marine species, including anadromous fish, the ESA is implemented by the Secretary of Commerce, acting through the National Oceanic and Atmospheric Administration's National Marine Fisheries Service (NMFS).

© The Regents of the University of California

3. Species Protected Under ESA

§11.260 a. Threatened and Endangered Species

An "endangered species" is any species "in danger of extinction throughout all or a significant portion of its range," while a "threatened species" is "any species which is likely to become an endangered species within the foreseeable future throughout all or a significant portion of its range." 16 USC §1532(6), (20). Species that are "listed" as threatened or endangered under the Endangered Species Act (ESA) (16 USC §§1531-1544) are protected by law. See 16 USC §§1533, 1538. For example, the "take" of listed species is prohibited unless specifically authorized by a permit. See, e.g., 16 USC §1538(a)(1).

The Secretary of the Interior (and in some cases the Secretary of Commerce) maintains lists of "threatened" and "endangered" species. 16 USC §1533. The Secretary lists species through traditional notice and comment rulemaking, by publishing a proposed rule in the Federal Register, providing an opportunity to comment, and having the Secretary issue a final rule. The list of threatened and endangered species of wildlife is found in 50 CFR §17.12. Threatened and endangered plants are listed at 50 CFR §17.12.

The California list of endangered, rare, or threatened plants can be found in 14 Cal Code Regs §670.2. The California list of endangered or threatened animals is found in 14 Cal Code Regs §670.5.

© The Regents of the University of California

§11.261 b. Candidate Species

"Candidate species" are those that are apparently suitable for listing but have not been formally proposed. 50 CFR §424.02(b). See *City of Las Vegas v Lujan* (DC Cir 1989) 891 F2d 927 (construction in southern Nevada and emergency listing of desert tortoise). The Secretary of the Interior maintains an official list of "candidate" species, and must make prompt use of the authority under the Endangered Species Act (ESA) §4(b)(7) (16 USC §1533(b)(7)) to prevent significant risk to the well-being of "candidate species." See ESA §4(b)(3)(C)(iii) (16 USC §1533(b)(3)(C)(iii). Candidate species do not receive any legal protection unless and until they are subsequently listed as either threatened or endangered.

© The Regents of the University of California

§11.262 c. Modifications to Lists

Any interested person may petition to add or remove any species. Persons requesting review must provide substantial evidence that the review is justified. Endangered Species Act (ESA) §4(b)(3) (16 USC §1533(b)(3)). The U. S. Fish and Wildlife Service (FWS) must make a determination whether species warrant listing or not within 12 months of receiving the petition. ESA §4(b)(3)(B) (16 USC §1533(b)(3)(B)). See *Biodiversity Legal Found. v Badgley* (9th Cir 2002) 309 F3d 1166, 1171.

© The Regents of the University of California

§11.263 d. Critical Habitat

In addition to protecting listed species directly, the Endangered Species Act (ESA) protects the "critical habitat" of these species from destruction or adverse modification, once that habitat is formally designated. 16 USC §1536(a)(2). A specie's critical habitat may include the geographical area occupied by the species at the time it is listed, as well as areas outside this range that are "essential for the conservation of the species." 16 USC §1532(5)(A). Designations of critical habitat, like species listing decisions, are accomplished through notice and comment rulemaking.

© The Regents of the University of California

4. Take Prohibition Under ESA

§11.264 a. Prohibition Against "Takings"

Section 9 of the Endangered Species Act (ESA) (16 USC §§1531-1544) prohibits the "taking" of any threatened or endangered species of fish or wildlife. ESA §9(a)(1)(B)-(C) (16 USC §1538(a)(1)(B)-(C)); 16 USC §1533(d); *Palila v Hawaii Dep't of Land & Natural Resources* (D Ha 1979) 471 F Supp 985, aff'd (9th Cir 1981) 639 F2d 495. A "take" is defined broadly to mean "harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct." ESA §3(19) (16 USC §1532(19)).

NOTE: Listed plants do not benefit from this same protection. For example, it is legal to destroy listed plant species on private property. See 16 USC §§1533(d), 1538(a)(2).

© The Regents of the University of California

§11.265 b. "Harm"

With respect to land use decisions, the most pertinent aspect of the "take" definition is the inclusion of the term "harm." "Harm" is defined by regulation as an act that actually kills or injures wildlife. It may include significant habitat modification or degradation when it actually kills or injures wildlife by significantly impairing essential behavioral patterns, including breeding, feeding, or sheltering. 50 CFR §17.3.

In several cases, federal courts have deferred to the regulatory definition and ruled that certain types of habitat modification constitute a "take." See *National Wildlife Fed. v Burlington N. R.R., Inc.* (9th Cir 1994) 23 F3d 1508; *Sierra Club v Yeutter* (5th Cir 1991) 926 F2d 429; *Palila v Hawaii Dep't of Land & Natural Resources* (9th Cir 1988) 852 F2d 1106; *Palila v Hawaii Dep't of Land & Natural Resources* (9th Cir 1981) 639 F2d 495. The United States Supreme Court has interpreted this regulation as prohibiting habitat modification that will actually kill or injure a particular member of an endangered species when such harm is proximate and foreseeable. *Babbitt v Sweet Home Chapter* (1995) 515 US 687, 132 L Ed 2d 597, 115 S Ct 2407.

© The Regents of the University of California

§11.266 c. Examples of Projects Affected

Examples of development projects affected by the Endangered Species Act (ESA) (16 USC §§1531-1544) include the following:

- *Sierra Club v Marsh* (9th Cir 1987) 816 F2d 1376 (440-room hotel and convention center, high-rise residential buildings on San Diego Bay; highway and flood control project; California least tern and light-footed clapper rail);
- *Friends of Endangered Species, Inc. v Jantzen* (9th Cir 1985) 760 F2d 976 (development of 2235 residential units on San Bruno Mountain; Mission Blue Butterfly); and
- *Maine Audubon Soc'y v Purslow* (D Me 1987) 672 F Supp 528 (17-lot residential subdivision; bald eagle).

© The Regents of the University of California

5. Consultation for Federal and "Federal-Nexus" Projects

§11.267 a. Requirement

All federal agencies must ensure that the actions they fund, authorize (such as through the issuance of a permit), or carry out are not likely to jeopardize the continued existence of listed species, or result in the destruction or adverse modification of designated critical habitat. Endangered Species Act (ESA) §7(a)(2) (16 USC §1536(a)(2). To implement and comply with this obligation, federal agencies are required to consult with the United States Fish and Wildlife Service (FWS) or the National Oceanic and Atmospheric Administration's National Marine Fisheries Service (NMFS) when their actions may affect listed species or designated critical habitat. Endangered Species Act (ESA) §7(c)(1) (16 USC §1536(c)(1)); 50 CFR §402.01(b) (delegating authority to administer the ESA to FWS or NMFS); *Turtle Island Restoration Network v National Marine Fisheries Serv.* (9th Cir 2003) 340 F3d 969 (NMFS fishing permits to longline fishing vessels were "agency action" that trigger ESA §7 consultation). Private projects that require a federal permit or approval (such as a Clean Water Act wetland fill permit issued by the Army Corps of Engineers) trigger the ESA §7 consultation requirement when the project may affect listed species or designated critical habitat.

© The Regents of the University of California

§11.268 b. Biological Assessment and Incidental Take Authorization

The consulting federal "action agency" must prepare a "biological assessment" analyzing the effects of its proposed action on the listed species or designated critical habitat. Endangered Species Act (ESA) §7(c)(1) (16 USC §1536(c)(1)). If the assessment concludes that a listed species or its critical habitat is likely to be affected, the agency must formally "consult" with the United States Fish and Wildlife Service (FWS). ESA §7(a)(2) (16 USC §1536(a)(2)); 50 CFR §§402.13-402.14. Formal consultation ordinarily results in the issuance of a "biological opinion" by the FWS or the National Marine Fisheries Service (NMFS) that determines whether or not the proposed action will jeopardize the continued existence of the species. See ESA §7(b) (16 USC §1536(b)); *Thomas v Peterson* (9th Cir 1985) 753 F2d 754, 763 (proposed timber road in a "recovery corridor;" Rocky Mountain Gray Wolf).

The FWS is required by its own regulations to conclude formal consultation within 90 days, and to produce a biological opinion within an additional 45 days. 16 USC §1536(a)(2); 50 CFR §402.14(e). Most consultations result in a so-called "no jeopardy" opinion, in which case the proposed action may be completed subject to the terms and conditions of the opinion. If the action will result in take of listed species incidental to otherwise lawful activity, the FWS must include an "incidental take statement" in the biological opinion document, which authorizes the described incidental take. 16 USC §1536(b)(3)(A); 50 CFR §402.14(i)(1). In contrast, if the biological opinion indicates that the proposed action is likely to jeopardize the continued existence of a listed species, then the biological opinion must suggest reasonable and prudent alternatives to the proposed action that would avoid such jeopardy. 16 USC §1536(b)(4); 50 CFR §402.14(g)(5). See also U.S. Fish & Wildlife Service and National Marine Fisheries Service, Endangered Species Consultation Handbook at 4-43 (1998) (http://www.fws.gov/endangered/esa-library/#consultations); *Center for Biological Diversity v U.S. Fish & Wildlife Serv.* (ND Cal 2009) 623 F Supp 2d 1044, 1048. As long as reasonable and prudent alternatives exist, taking of listed species in accordance with the incidental take statement is not a prohibited taking, as long as the project complies with such alternatives. 16 USC §1536(o).

© The Regents of the University of California

§11.269 c. Examples of ESA §7 Consultations

The United States Fish and Wildlife Service and the National Marine Fisheries Service engage in thousands of federal Endangered Species Act (ESA) §7 consultations each year. Examples of ESA §7 consultations on notable federal projects include the following: *Tennessee Valley Auth. v Hill* (1978) 437 US 153, 57 L Ed 2d 117, 98 S Ct 2279 (dam completion enjoined; snail darter); *Conner v Burford* (9th Cir 1988) 848 F2d 1441, cert denied sub nom *Sun Exploration & Prod. Co. v Lujan* (1989) 489 US 1012 (oil and gas leases; bald eagle, peregrine falcon, gray wolf, and grizzly bear); and *Roosevelt Campobello Int'l Park Comm'n v EPA* (1st Cir 1982) 684 F2d 1041 (National Pollutant Discharge Elimination System (NPDES) permit for private sector refinery development; bald eagles and the right and humpback whales).

© The Regents of the University of California

6. Habitat Conservation Plans and §10(a) "Incidental Take" Permits

§11.270 a. ESA §10(a)

As noted in §§11.267-11.268, federal projects, and non-federal projects that involve federal funding or approval (a so-called "federal nexus"), can obtain authorization to take listed wildlife species incidental to otherwise lawful activities through the Endangered Species Act (ESA) §7 consultation process. Under federal ESA §10(a) (16 USC §1539(a)), non-federal projects that lack a federal nexus can obtain incidental take authorization by submitting a Habitat Conservation Plan (HCP) and obtaining an Incidental Take Permit from the Fish and Wildlife Service or the National Marine Fisheries Service. Such HCPs and permits are often valid for long periods of time, such as 30 to 50 years, or even more. The ESA §10 implementing regulations are codified at 50 CFR §17.22.

© The Regents of the University of California

§11.271 b. Habitat Conservation Plan

A habitat conservation plan (HCP) must specify, among other things, the steps the applicant will take to minimize and mitigate the impacts of the proposed take to the maximum extent practicable. 16 USC §1539(a)(2)(B)(ii). The HCP must also assure that the applicant will have funding available to implement the promised mitigation and monitoring obligations. 16 USC §1539(a)(2)(B)(iii). See *Friends of Endangered Species, Inc. v Jantzen* (9th Cir 1985) 760 F2d 976 (proposed development of 2235 residential units; Mission Blue Butterfly). See also Ruhl, *Regional Habitat Conservation Planning Under the Endangered Species Act: Pushing the Legal and Practical Limits of Species Protection*, 44 SWLJ 1393 (1991); Hoffman, *The Federal Endangered Species Act as a Restraint on Private Land Development*, 6 Cal Real Prop J 43 (Fall 1988); Comment, *Habitat Conservation Plans Under the Endangered Species Act*, 24 San Diego L Rev 243 (1987).

© The Regents of the University of California

§11.272 (1) Project-Specific vs. Regional HCPs

The Endangered Species Act (ESA) §10(a) habitat conservation plan (HCP) process has proven to be extremely flexible. At one end of the spectrum, it can accommodate very small, individual projects; at the other end, "regional" HCPs, which are usually developed by one or more cities or counties, can cover extremely large geographic areas.

© The Regents of the University of California

§11.273 (2) Multi-Species §10(a) Permits

It is possible to obtain Endangered Species Act (ESA) §10(a) permits covering the "taking" of more than one species, including species that are not yet listed. For species that are not yet listed as threatened or endangered, if they are treated in the habitat conservation plan (HCP) as if they were so listed (which means that impacts to such species must be minimized and mitigated to the maximum extent practicable), then if they become listed during the life of the HCP and associated Incidental Take Permit, incidental take of such species is automatically authorized. Handbook for Habitat Conservation Planning and Incidental Take Permitting Process (U.S. Fish and Wildlife Service and National Marine Fisheries Service, Nov. 1996) at 4-3. See 61 Fed Reg 63854 (December 2, 1996).

© The Regents of the University of California

§11.274 (3) "No Surprises" and the Permit Revocation Rule

One significant benefit of the Endangered Species Act (ESA) §10(a) habitat conservation plan (HCP) process is that the ESA §10 regulations contain so-called "no surprises" assurances, meaning that as long as the applicant properly implements an approved HCP, then during the term of the HCP the Fish and Wildlife Service (FWS) cannot require further mitigation for species impacts even if the overall condition of the species declines. The only exception to this is the permit revocation rule, under which HCP permits may be revoked as a last resort in the narrow and unlikely situation in which an unforeseen circumstance results in likely jeopardy to a species covered by the permit and the FWS has not been successful in remedying the situation through other means. 50 CFR §§17.22(b)(8), 17.32 (b)(8); 65 Fed Reg 6918. But see *Environmental Protection Info. Ctr. v California Dep't of Forestry & Fire Protection* (2008) 44 C4th 459, 506, 80 CR3d 28 (California ESA does not authorize broad "no surprises" assurances).

© The Regents of the University of California

§11.275 (4) Transferability of Permits

Generally, an incidental take permit is not transferable or assignable; only the person named in the permit and those persons under the permittee's "direct control" may engage in the activities covered by the permit. The idea of "direct control" has been expanded to local government entities thereby extending their own take authority to certain persons. See 50 CFR §13.25(d)-(e). Thus, multiple species permits have been approved that allow cities to issue Endangered Species Act (ESA) and California Endangered Species Act (CESA) "take" authority to developers. See, *e.g.,* Western Riverside County Multiple Species Habit Conservation Plan (MSHCP), discussed at www.rcip.org/conservation.htm.

PRACTICE TIP: In the 1990s, the United States Fish and Wildlife Service (FWS) and the National Oceanic and Atmospheric Administration's National Marine Fisheries Service (NMFS) published the Habitat Conservation Planning Handbook (http://www.fws.gov/endangered/esa-library/index.html#hcp), which provides extensive information about the habitat conservation plan (HCP) process. In 2000, the agencies published an addendum to the Handbook (http://www.fws.gov/endangered/esa-library/index.html#hcp), which addresses the following five policies (65 Fed Reg 35242 (2000)): (1) biological goals and objectives; (2) adaptive management; (3) monitoring; (4) permit duration; and (5) public participation. The purpose of the addendum is "to provide clarifying guidance" to incidental take permit applicants, and to "promote efficiency and nationwide consistency" among the services within the habitat conservation plan (HCP) program.

© The Regents of the University of California

7. Enforcement

§11.276 a. Federal Enforcement

Violations of the Endangered Species Act (ESA) are subject to enforcement by the federal government through administrative, civil, and criminal enforcement actions. ESA §11 (16 USC §1540). Like many federal environmental statutes, the ESA also contains a citizen suit provision, which authorizes any person or organization to sue any entity that is violating the ESA. 16 USC §1540(g). Recent cases suggest a trend toward ESA challenges based on procedural grounds. In *National Ass'n of Home Builders v Norton* (9th Cir 2003) 340 F3d 835, a cursory Fish and Wildlife Service (FWS) 12-month determination on how it would proceed with a critical habitat determination satisfied the ESA; however, the court ordered the FWS to declare a date when it would begin the revision and to provide an estimate of how long it would take. In *Biodiversity Legal Found. v Badgley* (9th Cir 2002) 309 F3d 1166, the court upheld an environmental and citizen group challenge that FWS had exceeded the statutory requirement to determine whether listing a species was warranted within 12 months of the petition.

© The Regents of the University of California

§11.277 (1) Jurisdiction and Venue

United States district courts have jurisdiction over civil actions brought under the citizen suit provisions of the Endangered Species Act (ESA) without regard to diversity of citizenship; there is no jurisdictional amount required. Venue lies in the judicial district in which the ESA violation is alleged to have occurred. ESA §11(c), (g)(3)(A) (16 USC §1540(c), (g)(3)(A)); *Center for Biological Diversity v U.S. Bureau of Land Mgmt.* (ND Cal, April 14, 2009, No. 08-05646) 2009 US Dist. Lexis 34249.

© The Regents of the University of California

§11.278 (2) Limits on Federal Power

Limits on federal legislative power exist. In *Solid Waste Agency v United States Army Corps of Eng'rs* (2001) 531 US 159, 148 L Ed 2d 576, 121 S Ct 675, the Court held the Corps's "Migratory Bird Rule" impermissibly extended the scope of the Clean Water Act (33 USC §§1251-1387) term "navigable waters" to isolated waters. Even if the statutory language were not clear, the Corps's contrary construction would not be entitled to administrative deference under *Chevron U.S.A. Inc. v Natural Resources Defense Council, Inc.* (1984) 467 US 837, 81 L Ed 2d 694, 104 S Ct 2778 because of the "serious constitutional problems" that such construction would raise. The Court determined that the Corps's assertion of jurisdiction could impinge on states' traditional power to regulate land and water use, and could not be justified under the Commerce Clause. See also *Rapanos v U.S.* (2006) 547 US 715, 165 L Ed 2d 159, 126 S Ct 2208 (plurality opinion rejecting Corps's expansive interpretation of Clean Water Act with respect to federal jurisdiction over wetlands).

Although related to the Clean Water Act, these rulings may affect other statutes, such as the Endangered Species Act (ESA) (16 USC §§1531-1544), which target species and geographical places rather than commercial activities. But see *Gibbs v Babbitt* (4th Cir 2000) 214 F3d 483 (finding that a regulation limiting the taking of red wolves on private property was valid under the Commerce Clause of the United States Constitution as involving regulable economic and commercial activity, as the taking implicates economic activities in the areas of tourism, scientific research, and possible future commercial trade in pelts).

© The Regents of the University of California

§11.279 (3) Standing

Standing under the Endangered Species Act (ESA) is afforded to "any person," subject to the US Const art III "cases and controversies" limitation on federal court jurisdiction. ESA §11(g)(1) (16 USC §1540(g)(1)); *Allied-Signal, Inc. v Lujan* (ND Cal 1990) 736 F Supp 1558 (hazardous waste cleanup, salt-marsh harvest mouse). ESA's citizen-suit provisions are liberally construed and expand the zone-of-interest test for standing in ESA cases. *Bennett v Spear* (1997) 520 US 154, 137 L Ed 2d 281, 117 S Ct 1154 (irrigation districts and ranchers whose economic interests were detrimentally affected had standing to file suit challenging issuance of a biological opinion as a de facto "critical habitat" determination issued in violation of ESA requirements that economic impacts be considered before such determination). In *Lujan v Defenders of Wildlife* (1992) 504 US 555, 119 L Ed 2d 351, 112 S Ct 2130, the United States Supreme Court held that plaintiffs had no standing to challenge a regulation promulgated under the ESA when the plaintiffs had failed to show they would be "directly affected" by the regulation or the alleged injury was redressable. An animal is not a "person" authorized to sue under the ESA. See *Cetacean Community v Bush* (9th Cir 2004) 386 F3d 1169 ("Animals are not authorized to sue in their own names to protect themselves").

Similarly, any person has standing to seek an injunction to compel the Secretary of the Interior to take action to prevent the taking of any resident endangered or threatened species. ESA §11(g)(1)(B) (16 USC §1540(g)(1)(B)). Any person may commence suit in a United States district court to enjoin any person, including any government agency, alleged to be in violation of the ESA. ESA §11(c), (g)(1)(A) (16 USC §1540(c), (g)(1)(A)). See *Bennett v Spear* (1997) 520 US 154, 137 L Ed 2d 281, 117 S Ct 1154. See also *Biodiversity Legal Found. v Badgley* (9th Cir 2002) 309 F3d 1166 (injunction required based on Congressional intent that continued existence of endangered species threatens incalculable harm regardless of the equities involved).

© The Regents of the University of California

(4) Burden of Proof

§11.280 (a) Review of Agency Actions

In *Thomas v Peterson* (9th Cir 1985) 753 F2d 754, the plaintiffs alleged that the United States Forest Service had failed to follow the three-step consultation procedure prescribed in the Endangered Species Act (ESA) §7 (16 USC §1536) for a gray wolf. The *Thomas* court stated that the plaintiff's burden in establishing a procedural violation in an ESA procedural case "is to show that the circumstances triggering the procedural requirement exist, and the required procedures have not been followed." 753 F2d at 765.

© The Regents of the University of California

§11.281 (b) Civil "Takings" Cases

In a civil action brought to establish a violation of the "taking" provision, the plaintiff must show that the "taking" has occurred. *Palila v Hawaii Dep't of Land & Natural Resources* (9th Cir 1981) 639 F2d 495, 497 (sheep destroying habitat). If a violation of Endangered Species Act (ESA) substantive provisions has occurred or will occur, the court must enforce the ESA. *Tennessee Valley Auth. v Hill* (1978) 437 US 153, 173, 57 L Ed 2d 117, 98 S Ct 2279 (dam; fish).

© The Regents of the University of California

§11.282 (c) Criminal Cases

In a criminal prosecution for illegal "taking," the government is not required to prove that the defendant had the specific intent to take an endangered species. *U.S. v McKittrick* (9th Cir 1998) 142 F3d 1170 (violations of Endangered Species Act (ESA) (16 USC §§1531-1544) are crimes of general intent). In a prosecution of a hunter for shooting a grizzly bear, the government's burden was to prove: (1) the defendant knowingly took the animal within the United States; (2) the animal was a grizzly bear; and (3) the defendant did not have permission to "take" the bear. The government was not required to prove that the defendant knew he was shooting a grizzly bear. *U.S. v St. Onge* (D. Mont. 1988) 676 F Supp 1044, 1045 (reserving ruling on government's motion in limine as to defendant's belief he was shooting an elk). See also *U.S. v Ivey* (5th Cir 1991) 949 F2d 759 (holding 16 USC §1538(c) does not require specific intent); *U.S. v Nguyen* (5th Cir 1990) 916 F2d 1016 (government was not required to prove that defendant knew loggerhead sea turtle was threatened species); *U.S. v Billie* (SD Fla 1987) 667 F Supp 1485, 1492-1493 (government need only establish that defendant acted with general intent to establish violation under 16 USC §1540(b)(1)).

© The Regents of the University of California

§11.283 (d) Injunctive Relief

Traditional preliminary injunction analysis does not apply to injunctions issued under the ESA. *National Wildlife Fed. v Burlington N. R.R., Inc.* (9th Cir 1994) 23 F3d 1508, 1510. "Congress has determined that under the ESA [Endangered Species Act (16 USC §§1531-1544)] the balance of hardships always tips sharply in favor of endangered or threatened species." *Marbled Murrelet v Babbitt* (9th Cir 1996) 83 F3d 1068, 1073. Thus, preliminary injunctive relief may properly be granted without weighing of the likely economic harm to the public, though physical impacts may still be considered. *National Wildlife Fed. v National Marine Fisheries Serv.* (9th Cir 2005) 422 F3d 782. But see *Winter v Natural Resources Defense Council, Inc.* (2008) ___ US ___, 172 L Ed 2d 249, 129 S Ct 365; *Earth Island Inst. v Carlton* (ED Cal, Aug. 20, 2009, No. 09-2020) 2009 US Dist Lexis 74066.

© The Regents of the University of California

§11.284 (5) Standard of Review of Agency Actions

In reviewing federal agency actions under the Endangered Species Act (ESA), the courts apply the "arbitrary or capricious" standard of the judicial review provisions of the federal Administrative Procedure Act. 5 USC §706(2)(A); *National Ass'n of Home Builders v Norton* (9th Cir 2003) 340 F3d 835 (pygmy-owls); *Tribal Village of Akutan v Hodel* (9th Cir 1988) 869 F2d 1185, cert denied (1989) 493 US 873 (oil lease sale; Pacific gray whale); *Cabinet Mountains Wilderness/Scotchman's Peak Grizzly Bears v Peterson* (DC Cir 1982) 685 F2d 678, 685-686 (mineral drilling).

© The Regents of the University of California

§11.285 (6) Notice Requirements

The Endangered Species Act's (ESA) broad citizen suit standing provision is narrowed by the requirement that 60 days' written notice be given to the Secretary of the Interior and any alleged violator before suit may be filed under certain provisions of the ESA. ESA §11(g)(2)(A)(i) (16 USC §1540(g)(2)(A)(i)). See also *Save the Yaak Comm. v Block* (9th Cir 1988) 840 F2d 714 (dismissing ESA portion of complaint to enjoin road construction and timber sales for failure to comply with 60-day notice); *Maine Audubon Soc'y v Purslow* (D Me 1987) 672 F Supp 528 (dismissing complaint for failure to comply with 60-day notice requirement); *Sierra Club v Block* (D DC 1985) 614 F Supp 488 (court had jurisdiction despite failure to provide 60-day notice when agency not prejudiced).

© The Regents of the University of California

§11.286 (7) Related Litigation

The planning, data-gathering, and data-analysis obligations imposed on federal agencies by the Endangered Species Act (ESA) §7 (16 USC §1536) in many respects parallel requirements imposed by the National Environmental Policy Act of 1969 (NEPA) (42 USC §§4321-4370h). For that reason, it has become routine to find ESA counts joined with counts alleging that a federal agency has failed to follow the environmental impact analysis obligations imposed by NEPA. See, *e.g., Region 8 Forest Serv. Timber Purchasers Council v Alcock* (ND Ga 1990) 736 F Supp 267, aff'd in part and vacated in part (11th Cir 1993) 993 F2d 800 (challenging forest service regulations under ESA, NEPA, and the National Forest Management Act (16 USC §§1600-1614)).

© The Regents of the University of California

§11.287 b. State Court Litigation

Under the Endangered Species Act (ESA) §6 (16 USC §1535), the Secretary of the Interior is authorized to enter into cooperative management agreements with states that have acceptable conservation programs. Such an agreement makes the state eligible for federal funding. It is not surprising to find that here, as with other programs in environmental law, the states' programs fit the federal template. As a consequence, there has been very little endangered species litigation in the state courts. Among the rare examples are *Department of Fish & Game v Anderson-Cottonwood Irrig. Dist.* (1992) 8 CA4th 1554, 11 CR2d 222 (state statute's "take" provision applies to lawful operation of pump diversion; Chinook salmon); *People v K. Sakai Co.* (1976) 56 CA3d 531, 128 CR 536 (state statute not preempted by ESA, argument that endangered species statutes constituted a "taking" rejected as without merit; seizure of whale meat from grocery), and *State v Billie,* 497 So 2d 889 (Fla Dist Ct App 1986) (ESA does not preempt right of states to enact consistent legislation concerning endangered species conservation; Florida panther). See also *Palladio, Inc. v Diamond* (SD NY 1970) 321 F Supp 630, aff'd per curiam (2d Cir 1971) 440 F2d 1319, cert denied (1971) 404 US 983 (predecessor statute; prohibition by state of sale of alligator shoes not preempted by federal law).

© The Regents of the University of California

C. California Endangered Species Act (CESA)

§11.288 1. Overview

The California Endangered Species Act (CESA) (Fish & G C §§2050-2115.5) generally parallels the main provisions of the federal ESA, but there has been much less judicial interpretation of the CESA. At present, there are only a few published decisions interpreting the CESA's provisions. See *Environmental Protection Info. Ctr. v California Dep't of Forestry & Fire Protection* (2008) 44 C4th 459, 80 CR3d 28; *Mountain Lion Found. v Fish & Game Comm'n* (1997) 16 C4th 105, 65 CR2d 580; *Center for Biological Diversity v Fish & Game Comm'n* (2008) 166 CA4th 597, 82 CR3d 855; *National Parks & Conserv. Ass'n v County of Riverside* (1999) 71 CA4th 1341, 84 CR2d 563; *San Bernardino Valley Audubon Soc'y v City of Moreno Valley* (1996) 44 CA4th 593, 51 CR2d 897; *Natural Resources Defense Council v Fish & Game Comm'n* (1994) 28 CA4th 1104, 33 CR2d 904; *Department of Fish & Game v Anderson-Cottonwood Irrig. Dist.* (1992) 8 CA4th 1554, 11 CR2d 222.

© The Regents of the University of California

2. Species Protected Under the CESA

§11.289 a. Threatened and Endangered Species

The definitions of threatened and endangered species under the California Endangered Species Act (CESA) (Fish & G C §§2050-2115.5) are generally similar to those under the federal Endangered Species Act (ESA) (16 USC §§1531-1544). CESA defines "endangered species" as a species that is "in serious danger of becoming extinct throughout all, or a significant portion, of its range." Fish & G C §2062. A species is considered "threatened" if it is not presently threatened with extinction, but is likely to become endangered in the foreseeable future in the absence of CESA's special protections. Fish & G C §2067. In addition, any animal determined by the Fish and Game Commission to be "rare" on or before January 1, 1985, is also a "threatened species" for CESA purposes. Fish & G C §2067. Further, unlike the ESA, CESA does not provide protection for insects.

© The Regents of the University of California

§11.290 b. Candidate Species

A species is a "candidate" for listing as threatened or endangered if the Fish and Game Commission (the entity that makes CESA listing determinations) issues a formal notice indicating that the Department of Fish and Game (DFG) is reviewing the species for possible listing, or for which the Commission has published a notice of proposed rulemaking to list the species. Fish & G C §2068. In contrast to the federal ESA, under CESA "candidate" species receive all of the same protections as do listed species. Fish & G C §2085.

© The Regents of the University of California

§11.291 c. Listing

The procedure for listing a species as threatened or endangered under the California Endangered Species Act (CESA) (Fish & G C §§2050-2115.5) generally parallels that under the Endangered Species Act (ESA) (16 USC §§1531-1544). Fish & G C §§2070-2079. Any person may petition the Commission to list a species as threatened or endangered. Fish & G C §2071. The Commission in turn refers the petition to the Department of Fish and Game (DFG), which conducts a 90-day review of the petition and other available information, and returns a recommendation to the Commission. Fish & G C §2073.5. Following a public hearing, the Commission determines whether the petitioned action "may be warranted." Fish & G C §2074.2. If so, the species is designated as a "candidate" species, and DFG then conducts an in-depth 12-month status review of the species, at which point DFG makes another recommendation to the Commission and the Commission in turn makes a final decision whether to list the species as threatened or endangered. Fish & G C §§2074.6, 2075.5.

Like the ESA, the CESA also provides for immediate, emergency listing of species if the Fish and Game Commission finds that "there is any emergency posing a significant threat to the continued existence of the species." Fish & G C §2076.5. Unlike the ESA, however, the CESA does not specify a time limit for an emergency listing.

© The Regents of the University of California

§11.292 (1) Listed Plants

The California list of endangered, rare, or threatened plants can be found at 14 Cal Code Regs §670.2; see also www.dfg.ca.gov/biogeodata/cnddb/pdfs/TEPlants.pdf (CDFG, July 2009).

© The Regents of the University of California

§11.293 (2) Listed Animals

The California list of endangered or threatened animals is at 14 Cal Code Regs §670.5; see also www.dfg.ca.gov/biogeodata/cnddb/pdfs/TEAnimals.pdf.

© The Regents of the University of California

d. "Take" Prohibition Under CESA

§11.294 (1) Definition of "Take"

The California Endangered Species Act (CESA) (Fish & G C §§2050-2115.5) "take" prohibition differs from the federal ESA take prohibition in several important respects. Unlike the federal ESA, under which listed plants receive little protection, the CESA take prohibition fully applies to CESA-listed plants. On the other hand, the definition of "take" under CESA is narrower than the definition of take under the ESA. Fish & G C §§2080-2085. CESA prohibits the take of all threatened, endangered, and candidate species unless authorized by the Department of Fish and Game (DFG) or by the statute itself. Fish & G C §2080. "Take" is defined as "hunt, pursue, catch, capture, or kill, or attempt to hunt, pursue, catch, capture or kill." Fish & G C §86. No courts have interpreted the CESA's taking provisions to include harm to habitat, as federal courts have done under the ESA. See 78 Ops Cal Atty Gen 137 (1995) ("state law does not prohibit indirect harm to state-listed endangered or threatened species by way of habitat modification"); see also *Environmental Protection Info. Ctr. v California Dep't of Forestry & Fire Protection* (2008) 44 C4th 459, 507, 80 CR3d 28 (in context of incidental take permit under section 2081(b), "take" means to catch, capture or kill); *Environmental Council of Sacramento v City of Sacramento* (2006) 142 CA4th 1018, 1040, 48 CR3d 544 ("impacts of taking" does not mean taking of habitat alone). In contrast to the federal ESA, in which "harm" and "harassment" constitute a "take," CESA requires mortality for a "take." See §11.264 for federal ESA definition of "take."

© The Regents of the University of California

§11.295 (2) Incidental Take Permit

An "incidental take" permit may be issued by the California Department of Fish and Game (DFG) under Fish & G C §2081(b) if the impacts of the take are minimized and fully mitigated. In addition, individuals who have received an "incidental take" permit from the federal government do not need to obtain a separate CESA permit as long as DFG finds the federal approval to be consistent with CESA (a so-called "consistency determination"). Fish & G C §2080.1(c).

© The Regents of the University of California

§11.296 (3) Enforcement

A violation of the California Endangered Species Act (CESA) take prohibition is a criminal misdemeanor. Fish & G C §12000.

PRACTICE TIP 1: The Natural Community Conservation Planning Act (Fish & G C §§2800-2835) was enacted in 1991 and significantly amended in 2002. These provisions provide for voluntary cooperation among the Department of Fish and Game, landowners, and other interested parties to develop natural community conservation "plans" (NCCPs) that provide for early coordination of efforts to protect listed species or species that are not yet listed. These plans are intended to involve affected landowners early in the process, provide greater certainty to landowners and other parties about the limits that may be imposed on them, and provide a method for addressing the needs of many species at one time rather than one species at a time. Fish & G C §2801. Having a plan in place may also allow earlier "take" of the species than other provisions of the CESA. Fish & G C §2835. NCCPs may also be prepared in conjunction with habitat conservation plans (HCPs) under the federal Endangered Species Act (ESA) (16 USC §§1531-1544). See §§11.270-11.275. Cities and counties have also pushed forward with more joint, large scale NCCPs and multiple species habitat conservation plans (HCPs).

PRACTICE TIP 2: In 1993, the California legislature enacted the Habitat Maintenance Funding Act (Fish & G C §§2900-2901). The Act authorizes cities and counties to form habitat maintenance assessment districts to finance the long-term maintenance or improvement of natural habitat under a specified plan approved by the owner of the land to be improved and the Department of Fish and Game. This may be a useful tool to consider for the preservation of habitat.

PRACTICE TIP 3: Note that even if a species is not listed as threatened or endangered under CESA, it may still be considered sensitive under the California Environmental Quality Act (Pub Res C §§21000-21177), and thus may be subject to CEQA-based mitigation, even if no CESA obligations are triggered. A project that would substantially affect a threatened, rare, or endangered species or its habitat is normally considered to have a significant effect on the environment. See CEQA Guidelines, Appendix G, checklist item IV. If a project would substantially reduce the number or restrict the range of such species, the CEQA Guidelines mandate a finding of significance. 14 Cal Code Regs §§15065(a), 15380. A project that would substantially affect sensitive wildlife habitat, including habitat for threatened, endangered, and rare species, is deemed a project of statewide, regional, or area-wide significance; on such a project, a local lead agency must prepare a draft EIR and submit it to the State Clearinghouse (see §1.101) for review by state agencies. 14 Cal Code Regs §§15206, 15380. However, CEQA "neither requires a lead agency to reach a legal conclusion regarding 'take' of an endangered species nor compels an agency to demand an applicant to obtain an incidental take permit from another agency." *Association of Irritated Residents v County of Madera* (2003) 107 CA4th 1383, 1397, 133 CR2d 718.

§12.1 I. CODE ENFORCEMENT AUTHORITY

This chapter deals generally with the enforcement of ordinances and code over property and its conditions. The police power is the legal basis for the enactment and enforcement of municipal ordinances that regulate conditions that may become a nuisance or health hazard or that promote social, economic, or aesthetic considerations. See Cal Const art XI, §7; *Schroeder v Municipal Court* (1977) 73 CA3d 841, 848, 141 CR 85 (zoning regulations); *Sullivan v City of Los Angeles* (1953) 116 CA2d 807, 810, 254 P2d 590 (building regulations).

On topics covered by this chapter, including code enforcement generally; administrative hearings and process; real property nuisance law; abatement actions, liens, fines, penalties, and damages; landlord liability; injunctive relief; and State Housing Law (Health & S C §§17910-17998.3), see California Administrative Hearing Practice (2d ed Cal CEB 1997); California Land Use Practice (Cal CEB 2006); California Landlord-Tenant Practice (2d ed Cal CEB 1997); California Real Property Remedies and Damages (2d ed Cal CEB 2002).

© The Regents of the University of California

II. CIVIL ENFORCEMENT

§12.2 A. Local Ordinances: Injunctive Relief and Burden of Proof

A violation of a valid building or other local ordinance may be abated by an injunction. *City & County of San Francisco v City Inv. Corp.* (1971) 15 CA3d 1031, 1041, 93 CR 690 (fire); *City of San Mateo v Hardy* (1944) 64 CA2d 794, 796, 149 P2d 307 (zoning and building); *City of Stockton v Frisbie & Latta* (1928) 93 CA 277, 289, 270 P 270 (zoning). When a city seeks to enforce a valid zoning, building, or fire ordinance by injunction, the court's inquiry is limited to whether a violation exists; no proof of a public nuisance is necessary. *City & County of San Francisco v Burton* (1962) 201 CA2d 749, 756, 20 CR 378. For a preliminary injunction, the public entity must show a reasonable probability that it will prevail on the merits; such a showing gives rise to a rebuttable presumption that the potential harm to the public of not granting the injunction outweighs the harm to the defendants of granting it. *IT Corp. v County of Imperial* (1983) 35 C3d 63, 72, 196 CR 715.

© The Regents of the University of California

1. General Public Nuisance

§12.3 a. Standard

A condition may be considered a public nuisance if it meets the common law or general statutory definition, or if that condition is specifically defined by state or local law as a public nuisance. See CC §§3479-3480. Substandard buildings and housing code violations constitute a public nuisance. *City of Bakersfield v Miller* (1966) 64 C2d 93, 99, 48 CR 889, cert denied (1966) 384 US 988. Conditions on property amounting to a fire hazard have also been recognized as a public nuisance. *Vedder v County of Imperial* (1974) 36 CA3d 654, 661, 111 CR 728; *San Diego County v Carlstrom* (1961) 196 CA2d 485, 16 CR 667; *People v Oliver* (1948) 86 CA2d 885, 889, 195 P2d 926. In some circumstances, a city may abate a public nuisance despite grandfather rights. *City of Oakland v Superior Court* (1996) 45 CA4th 740, 756, 53 CR2d 120; *Suzuki v City of Los Angeles* (1996) 44 CA4th 263, 277, 51 CR2d 880 (lawful non-conforming use still subject to nuisance abatement). The appropriate focus is whether an entire neighborhood or community, or at least a considerable number of persons, are affected in the manner and by the factors that make the condition a public nuisance. *Beck Dev. Co. v Southern Pac. Transp. Co.* (1996) 44 CA4th 1160, 1209, 52 CR2d 518. Whether a nuisance will be continuing or permanent depends not on the offending party's interest in continuing the nuisance, but on the type of harm suffered. *Bartleson v U.S.* (9th Cir 1996) 96 F3d 1270, 1275.

© The Regents of the University of California

§12.4 b. Injunctive Relief and Doctrine of Public Nuisance Per Se

Any public nuisance may be enjoined. Any city attorney in any town or city in which a nuisance exists or any district attorney may bring a civil action in the name of the People of the State of California to abate a public nuisance. CCP §731.

When a public nuisance has been statutorily defined, it is considered a "nuisance per se" and the function of the court is to determine whether such a statutory violation in fact exists, without any independent assessment of the danger caused by the violation. *City of Costa Mesa v Soffer* (1992) 11 CA4th 378, 385, 13 CR2d 735 (vehicle abatement); *McClatchy v Laguna Lands, Ltd.* (1917) 32 CA 718, 725, 164 P 41. Cities may declare by ordinance what constitutes a public nuisance. Govt C §38771. Many municipalities have enacted ordinances that define violations of building, housing, and related codes or improper property maintenance resulting in substandard conditions as a public nuisance. In addition, all municipalities adopt by reference the California Building Standards Code as issued by the California Building Standards Commission (CBSC) and the International Conference of Building Officials (ICBO), along with any local amendments. These codes also specify certain violations that constitute a public nuisance.

© The Regents of the University of California

§12.5 c. Judicial Abatement of Public Nuisances

Cities may adopt an ordinance that authorizes a court to order the owner of property or any person or minor guilty of vandalism or graffiti to pay treble the costs of abatement on the entry of a second or subsequent judgment in a 2-year period for conditions that were abated as a nuisance. Govt C §§38772, 38773.7. This treble damage provision expressly excludes substandard conditions abated under the State Housing Law (Health & S C §§17910-17998.3). On the State Housing Law, see §§12.6-12.9.

© The Regents of the University of California

§12.6 2. State Housing Law: Notice and Remedies

Under the State Housing Law (Health & S C §§17910-17998.3), after the enforcement agency (see Health & S C §§17960-17967) declares a building to be "substandard" (see Health & S C §17920.3), and if there is no correction within 30 days (or shorter period if necessary to remedy an immediate threat to the health and safety of the public or occupants), the enforcement agency may file a civil action against the owner or other responsible party. Health & S C §§17980-17982. In these actions, the municipality may ask the court to enjoin the violation, to grant a preliminary injunction, and to issue an order permitting the locality to abate any public nuisance, including appointment of a receiver. Health & S C §§17980-17982. Additional remedies are allowed if the building's violations are so extensive and of such a nature that the health and safety of the residents or the public is "substantially endangered." Health & S C §§17980.6-17980.7.

PRACTICE TIP: The enforcement agency may want to consider establishing written policies for its inspectors in determining when a building is "substandard" and "substantially substandard."

© The Regents of the University of California

§12.7 a. State Housing Law: Civil Penalties and Franchise Tax Board Deductions

If the substandard building is in such a state of disrepair that the health and safety of the residents or the public is "substantially" endangered, the court may order the violator to pay penalties in the event of repeat violations and may order the violator to not claim any deduction on state taxes for interest, taxes, expenses, depreciation, or amortization on the property for a period of up to 2 years. Health & S C §§17980.6-17980.7(b). See also Rev & T C §§17274, 24436.5 (administrative process for local agencies to prevent owners from claiming state tax deductions for "substandard housing").

© The Regents of the University of California

§12.8 b. State Housing Law: Relocation Assistance May Be Required

In the event that repairs are undertaken by an owner as a result of a court order and the conditions of the premises or the rehabilitation "significantly affect the safe and sanitary use of the premises by any lawful tenant," the court must order the owner to pay to the tenant specified moving and storage costs and relocation compensation, as well as to offer the tenant the first right to reoccupy the premises after repairs are complete. Health & S C §17980.7(d)(3), (d)(5). Tenants who are displaced or subject to displacement by local enforcement activities as a result of a violation so extensive and of such a nature that the immediate health and safety of the residents are endangered are entitled to relocation benefits from the owner. The local enforcement agency determines tenant eligibility for relocation benefits. Health & S C §§17975-17975.10.

© The Regents of the University of California

§12.9 c. State Housing Law: Receiver May Be Appointed

If the owner does not correct the condition that caused the violation, a court may order the appointment of a receiver on application of the municipality. The receiver then assumes responsibility for making the repairs and relocating tenants if necessary. Health & S C §17980.7(c). The court has wide discretion in approving the receiver's proposed actions, including demolition of the property. *City of Santa Monica v Gonzalez* (2008) 43 C4th 905, 931, 76 CR3d 483.

© The Regents of the University of California

B. Specialized Civil Abatement Actions

1. Unfair Competition Act

§12.10 a. Code Violations as Unfair Competition

Under the Unfair Competition Act (Bus & P C §§17200-17210), unfair competition is broadly defined to encompass "anything that can properly be called a business practice and that at the same time is forbidden by the law." *Barquis v Merchants Collection Ass'n of Oakland, Inc.* (1972) 7 C3d 94, 112, 101 CR 745 (interpreting predecessor CC §3369). Unfair competition encompasses repeated violations of state and local regulations, so long as they are a part of a "business practice." See *People v McKale* (1979) 25 C3d 626, 632, 159 CR 811 (violation of title 25 of the California Code of Regulations; violation of the Mobilehome Parks Act (Health & S C §§18200-18700)). In the context of the business of renting substandard rental residential property, an owner's long-term and ongoing pattern of failure and refusal to comply with the building and housing laws on several or more properties could constitute an unlawful business practice. See *Stoiber v Honeychuck* (1980) 101 CA3d 903, 928, 162 CR 194 (if properly pled, action under the Unfair Competition Act might be appropriate to enjoin a landlord's maintenance of substandard, uninhabitable rental properties).

© The Regents of the University of California

§12.11 b. Procedural Requirements Under Unfair Competition Act

An action under the Unfair Competition Act (Bus & P C §§17200-17210) may be brought by the Attorney General, the city attorney of any city with a population of greater than 750,000, or, with the consent of the district attorney, by a city prosecutor or city attorney in any city, or city and county, having a full-time prosecutor or, with the consent of the district attorney, by any city attorney in the name of the people of the state, on their own complaint, or by the district attorney. Bus & P C §17204. Any action to enforce any cause of action under the Unfair Competition Act must be commenced within 4 years after the cause of action accrued. Bus & P C §17208.

© The Regents of the University of California

§12.12 c. Remedies Under Unfair Competition Act

Injunctive relief may also be available under the Unfair Competition Act (Bus & P C §§17200-17210). Under this Act, an action for injunction and for civil penalties of up to $2500 for each violation may be brought against any individual or entity that engages in "unfair competition." Bus & P C §§17203, 17206. Any person who intentionally violates an injunction will be liable for a civil penalty not to exceed $6000 for each day of each violation. Bus & P C §17207. Prevailing plaintiffs under the Unfair Competition Act are generally limited to injunctive relief and restitution, and may not receive damages, much less treble damages or attorney fees. *Cel-Tech Communications, Inc. v Los Angeles Cellular Tel. Co.* (1999) 20 C4th 163, 179, 83 CR2d 548. Copies of briefs filed under this Act must be served on the Attorney General within 3 days of filing. The same is true if an action involving the application of this Act is the subject of any appeal at the superior, appellate, or state supreme court. Bus & P C §17209.

PRACTICE TIP: The city attorney in a city that does not have a population in excess of 750,000 may want to consider referral to the district attorney. An agreement may be crafted to give a part of any civil penalties recovered to the city to offset the cost of developing the case. Alternatively, it may be possible for a city attorney in a jurisdiction of insufficient population to enter into an agreement with the local district attorney to be "cross-deputized" as a district attorney for a particular case. This has been done in other contexts and has usually been accomplished simply by the exchange of letters.

© The Regents of the University of California

§12.13 2. Red Light Abatement Act: Enforcement and Remedies

Another code enforcement tool is the Red Light Abatement Law (Pen C §§11225-11235). The Act covers buildings or places used for the purpose of illegal gambling, lewdness, assignation, or prostitution, and buildings or places used as bathhouses that encourage or permit conduct that could lead to the transmission of AIDS. Pen C §11225 (declaring such establishments nuisances that must be enjoined and abated).

A city attorney or district attorney may maintain an action in equity to abate and enjoin the nuisance. Pen C §11226.

Damages may be recovered whether the nuisance is public or private. Pen C §11225. The Act provides for punishment for contempt for violation or disobedience of an injunction (Pen C §11229), the fines for which become an enforceable lien against the property in violation (see Pen C §11233). If the existence of a nuisance is established, the court may order the removal and sale of all items used in maintaining the nuisance and the eventual closure of the building. In lieu of closure, the court may order the person who is responsible for the nuisance to pay damages in an amount not to exceed the fair market rental value of the building for 1 year. Pen C §11230. Attorney fees may be awarded under CC §3496.

© The Regents of the University of California

§12.14 3. Drug House Abatement Act: Enforcement and Remedies

The Drug House Abatement Act (Health & S C §§11570-11587) applies to buildings or places used for the purpose of unlawfully selling, serving, storing, keeping, manufacturing, or giving away any controlled substance, and buildings or places in which those acts take place. Health & S C §11570 (declaring such places nuisances that must be enjoined and abated). A city attorney or district attorney may maintain an action in equity to abate and enjoin the nuisance. Health & S C §11571.

A temporary injunction is obtainable. Health & S C §11573. The condition may be enjoined, abated, and prevented, and damages may be recovered, whether the nuisance is public or private. Health & S C §§11571, 11581. Violation of an injunction or abatement order is punishable as contempt of court, by a fine between $500 and $10,000, imprisonment for 1-6 months, or both. Health & S C §11580. Contempt fines are enforceable as a lien against the property. Health & S C §11587. The Act also provides for closure of the premises for up to 1 year during both the preliminary and permanent injunction phases (preliminary, Health & S C §11573.5(b); permanent, Health & S C §11581(b)). If a nuisance is established in the action, an order for closure, in most instances, and removal of fixtures will be entered as part of judgment. Health & S C §11581. Plaintiff's costs are an enforceable lien against the property in violation. Health & S C §11579. Attorney fees and investigation costs may be awarded in these actions. CC §3496; *City of Oakland v McCullough* (1996) 46 CA4th 1, 5, 53 CR2d 531.

PRACTICE TIP: Many of the provisions in the Drug House Abatement Act were borrowed from the Red Light Abatement Law (Pen C §§11225-11235) (see §12.13). Given the similar provisions found in the Red Light Abatement Act, one could cite reported decisions interpreting the Red Light Abatement Act powers for the Drug House Abatement Act. Carefully documenting a continuous or escalating pattern of drug activity is helpful in securing an injunction. Generally, the court will want to see that the enforcement agency has undertaken a methodical approach to abate the drug nuisance, such as sending notification letters, holding meetings, and having discussions with the property owner or business owner, all to no avail. Declarations from neighboring businesses or residents on the negative effects of activities are particularly valuable.

© The Regents of the University of California

§12.15 4. Abatement of Buildings Used for Counterfeiting Activities

Under Bus & P C §17800, when a person is convicted of violating Pen C §350(a)(2) or §653w, a nonresidential building or place used by that person for the purpose of willfully manufacturing, intentionally selling, or knowingly possessing for sale any counterfeit goods is deemed a nuisance which may be enjoined, abated, and prevented, and for which damages may be recovered.

Like actions brought under the Red Light Abatement Law (Pen C §§11225-11235), a city attorney or district attorney may maintain an action in equity to abate and enjoin the nuisance. Pen C §11226. However, unlike actions under the Red Light Abatement Act, a property owner must be provided with 30 days' notice before the filing of an action to abate the nuisance. Bus & P C §17800(b).

The court may apply the remedies and procedures provided by the Red Light Abatement Act for purposes of abating a building used for counterfeiting activities. Bus & P C §17800(a). However, an abatement of a building used for counterfeiting activities brought under Pen C §11230 is discretionary rather than mandatory, and may be for a period of up to 1 year. Bus & P C §17800(a).

C. Civil Remedies

§12.16 1. Injunctive Relief

Injunctive relief may take the form of a court order prohibiting the maintenance of code violations (prohibitory injunction) or requiring the defendant or violator to remedy those conditions (mandatory injunction). Because courts are often reluctant to issue a mandatory preliminary injunction, the order should be phrased in such a way that it "prohibits" the defendant's maintenance of property in a condition that is in violation of state local law or that constitutes a public nuisance. Appeals taken to mandatory injunctions stay enforcement of the judgment. Appeals of prohibitory injunctions do not. *City of Pasadena v City of Alhambr*a (1946) 75 CA2d 91, 95, 170 P2d 499.

PRACTICE TIP: When a governmental entity seeks to enjoin violations of a statute or ordinance that expressly provides for injunctive relief, the traditional two-prong test for preliminary injunctions does not apply. *IT Corp. v County of Imperial* (1983) 35 C3d 63, 196 CR 715. Instead, the governmental entity need only prove that it is "reasonably probable" that it will prevail on the merits, which gives rise to the rebuttable presumption that the potential harm to the public outweighs the potential harm to the defendant. 35 C3d at 72. Once the rebuttable presumption arises, to avoid issuance of the preliminary injunction, the defendant must prove that the injunction will inflict grave and irreparable harm. If grave and irreparable harm is shown, only then does the court balance the two factors that traditionally are applied to the issuance of preliminary injunctive relief. Injunctions granted under the Red Light Abatement Law (Pen C §§11225-11235) or the Drug House Abatement Act (Health & S C §§11570-11587) statutes remain in place pending any appeal. CCP §917.8(d). On the Red Light Abatement Act, see §12.13; on the Drug House Abatement Act, see §12.14.

© The Regents of the University of California

§12.17 2. Civil Contempt

After the court has ordered corrections of the conditions, either through a preliminary injunction or a permanent injunction, the defendant may still fail to comply. Contempt proceedings are the usual legal process by which a defendant is compelled to comply with a court order or is punished for his or her failure to comply. The punishment of civil contempt may be a fine not exceeding $1000 or imprisonment not exceeding 5 days, or both, for each contemptuous act. CCP §1218. In addition, the party adjudged guilty may be ordered to pay reasonable attorney fees and costs to the party initiating the contempt proceeding. A jury trial is discretionary in a civil contempt proceeding. *Mitchell v Superior Court* (1989) 49 C3d 1230, 1249, 265 CR 144. A violation or disobedience of the injunction or abatement order issued under the Drug House Abatement Act may be punished by a fine of not less than $500 nor more than $10,000, or by imprisonment in the county jail for not less than 1 month nor more than 6 months, or both. Health & S C §11580. On the Red Light Abatement Law, see §12.13; on the Drug House Abatement Act, see §12.14.

© The Regents of the University of California

§12.18 3. Criminal Contempt

If the defendant fails to comply with the requirements enumerated in a preliminary or permanent injunction, a criminal contempt action may be brought against the defendant as punishment for his or her failure to comply. A person who willfully disobeys any process or order lawfully issued by any court is guilty of a misdemeanor. Pen C §166(a)(4). A misdemeanor is punishable by imprisonment in the county jail not exceeding 6 months or by fine not exceeding $1000, or by both. Pen C §19. A jury trial is mandatory when demanded in a criminal contempt proceeding if the punishment is substantial. *Bloom v Illinois* (1968) 391 US 194, 198, 20 L Ed 2d 522, 88 S Ct 1477.

© The Regents of the University of California

§12.19 4. Civil Penalties and Cost Recovery Generally

The general rule is that a municipality cannot recover its litigation and related enforcement costs. However, as discussed in §§12.20-12.25, there are a number of statutes that expressly provide for cost recovery, attorney fees, or civil penalties in connection with code enforcement proceedings.

© The Regents of the University of California

§12.20 a. Civil Penalties and Cost Recovery Under State Housing Law

The State Housing Law (Health & S C §§17910-17998.3) contains a "one-way" fee provision allowing recovery of all reasonable and actual costs of enforcement, including inspection, investigation, attorney fees, and costs of prosecution when a building is "substantially" substandard and the owner fails to comply within a reasonable time with the terms of an order or notice to repair or abate. Health & S C §17980.7(d)(1); *City & County of San Francisco v Ballard* (2006) 136 CA4th 381, 400, 39 CR3d 1. But see Health & S C §17980.7(c)(11) (two-way fee provision authorizing award of attorney fees to "prevailing party" when city seeks appointment of receiver). In addition, the court may order the violator to pay penalties in the event of repeat violations and may order the violator not to claim any deduction with respect to state taxes for interest, taxes, depreciation, or amortization related to the subject property for a period of up to 2 years. Health & S C §§17980.7(b), 17995-17995.5 (criminal penalties); Rev & Tax C §§17274, 24436.5. The usual rule that a prevailing party may recover its costs does not apply when a city is unsuccessful in proving the existence of the substandard conditions. Health & S C §17984.

© The Regents of the University of California

§12.21 b. Civil Penalties and Cost Recovery Under Unfair Competition Act

The Unfair Competition Act (see §§12.10-12.12) allows for the recovery of civil penalties of up to $2500 for each violation, in addition to injunctive relief. Bus & P C §17206. If the action is brought by a district attorney, the money recovered is paid to the county treasurer. If the action is brought by a city attorney, one-half of the recovery is paid to the county treasurer and one-half is paid to the city treasurer. Bus & P C §17206(c).

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/12 Code Enforcement/§12.22 c. Cost Recovery in Specified Civil Nuisance Abatement Actions

§12.22 c. Cost Recovery in Specified Civil Nuisance Abatement Actions

Municipalities can recover the cost of investigation and attorney fees in abatement involving obscene matter, gambling, prostitution, drugs, and the sale of liquor. CC §3496. Other statutes that provide authority for cost recovery include: Bus & P C §5499.9 (illegal on-premises signs), Govt C §§39560-39588 (weed abatement program), and Govt C §38773.6 (graffiti abatement).

© The Regents of the University of California

§12.23 d. Local Ordinances Permitting Cost Recovery in Nuisance Abatements

A local legislative body may provide by ordinance for the abatement of any nuisance at the expense of the persons maintaining it. Govt C §§38773-38773.5. The local legislative body may establish an ordinance for the recovery of abatement and related administrative costs by a nuisance abatement lien (Govt C §38773.1) or by special assessment (Govt C §38773.5). If, however, the property is transferred to a bona fide purchaser for value before the first tax installment is delinquent, the costs are transferred to the unsecured roll. Govt C §38773.5(c). Unlike the nuisance abatement lien, the special assessment has the tax lien priority. Govt C §53935. For recovery of attorney fees, the ordinance must specify that the prevailing party is entitled to such recovery and the city must elect at the initiation of the nuisance abatement proceedings to seek recovery of its attorney fees if it is considered the prevailing party. Govt C §38773.5; *City of Monte Sereno v Padgett* (2007) 149 CA4th 1530, 1537, 58 CR3d 218 (judgment awarding attorney fees to city reversed when ordinance provided for recovery of fees solely by city and not "prevailing party").

PRACTICE TIP: The express text of Govt C §38773.5(b) permits a city to adopt an ordinance allowing for recovery of attorney fees in any action, administrative proceeding, or special proceeding to abate a nuisance, subject to the procedural requirements of that statute. Many agencies construe the attorney fees language of this code to allow for recovery of attorney fees in any nuisance abatement proceeding, including the lien procedure described in Govt C §38773.1. However, a few agencies believe that the recovery of attorney fees authorized under this provision is limited to those actions when the agency seeks to recover costs through the special assessment procedure, based on the text of Govt C §38773.5(a). The confusion is due, in part, to the silence in the lien procedure statute on the issue of attorney fees. See Govt C §38773.1. Until there is a judicial determination of the permissible scope of Govt C §38773.5(b) on the recovery of attorney fees, it is at least arguable that the statute is not limited to special assessment cases, but can be used to claim attorney fees "in any action, administrative proceeding, or special proceeding to abate a nuisance," regardless of which method of cost recovery (lien or special assessment) is used. In addition, following the decision in *City of Monte Sereno v Padgett* (2007) 149 CA4th 1530, 58 CR3d 218, cities should review their existing ordinances to ensure that the ordinance provides for recovery of attorney fees by the prevailing party, instead of solely by the city.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/12 Code Enforcement/§12.24 e. Local Ordinances Permitting Cost Recovery in Public Nuisance Abatements and Code Enforcement

§12.24 e. Local Ordinances Permitting Cost Recovery in Public Nuisance Abatements and Code Enforcement

In addition to the authority for nuisance abatement (see §§12.3-12.5) and cost recovery by cities under local ordinances described in §12.23, there is separate authority for cities to adopt local ordinances to recover costs in the abatement of public nuisances and in the enforcement of specified health and safety laws, including housing, fire safety, building, and zoning laws and other specified local ordinances, through imposition of a lien. Govt C §54988. Note that this section of the code expressly provides that it is not applicable against owner-occupied residences.

© The Regents of the University of California

§12.25 f. Local Civil Penalties Ordinances

A city legislative body may "impose fines, penalties and forfeitures," with a penalty in the form of a fine not exceeding one thousand dollars ($1000). Govt C §36901. See also Pen C §594.5 (aerosol container laws). A city may by ordinance make any violation of any of its ordinances subject to an administrative fine or penalty. Govt C §53069.4. Certain prerequisites apply, such as the establishment of administrative procedures by the city to govern the imposition, enforcement, collection, and administrative review of the administrative fines or penalties. (On due process requirements for administrative hearings, see §§12.77-12.80.) Note the following requirements regarding local civil penalties ordinances:

- **Charter city limitations.** A charter city could enact an ordinance that provides for different penalties as long as such penalties do not exceed any maximum limits set by its charter. *County of Los Angeles v City of Los Angeles* (1963) 219 CA2d 838, 844, 33 CR 503.
- **Excessive fines limited.** The fine imposed by statute or ordinance must not be "excessive," as determined on a case-by-case basis. Cal Const art I, §17; *Hale v Morgan* (1978) 22 C3d 388, 404, 149 CR 375. A penalty mandatory in amount and potentially unlimited in duration may be held unconstitutional. *City & County of San Francisco v Sainez* (2000) 77 CA4th 1302, 1310, 92 CR2d 418.
- **Ordinance requirements.** Before a municipality may impose administrative fines or civil penalties, an enabling ordinance must establish that any person in violation of the municipal code will be liable for the administrative fine or civil penalty and that the municipality is authorized to recover the fine or penalty by a civil lawsuit. See Govt C §§36901, 53069.4.
- **Notice and hearing requirements.** When a municipality has discretion to impose fines or penalties, it must give notice to the violating party before imposing the penalty, and give the party an opportunity to be heard and present any facts or arguments on which the exercise of the discretion may be predicated. *Merco Constr. Eng'rs, Inc. v Los Angeles Unified Sch. Dist.* (1969) 274 CA2d 154, 166, 79 CR 23.

© The Regents of the University of California

§12.26 5. Treble Damages for Repeat Violations and Punitive Damages Possible

A local legislative body may, by ordinance, provide that on entry of a second or subsequent civil or criminal judgment within a 2-year period for abatement of a public nuisance, the court may order the owner to pay treble the costs of abatement, except in cases under Health & S C §17980. See Govt C §38773.7. Furthermore, cities may recover punitive damages in the same manner as private parties. *City of Sanger v Superior Court* (1992) 8 CA4th 444, 449, 10 CR2d 436.

© The Regents of the University of California

§12.27 6. Receivership May Be Ordered

A city may seek a court order to abate and obtain a receiver for a substandard building if the owner does not correct the violation within a reasonable time. See Health & S C §§17980.6-17980.7 (defining powers and duties of the receiver and providing for receiver's fees).

PRACTICE TIP: In seeking the appointment of a receiver, a locality should be aware of other practical limitations. These include the need to locate an individual willing to take on the role of a receiver and the extent to which the rents cover the expenses of repair as well as the day-to-day operating expenses.

© The Regents of the University of California

III. CRIMINAL ENFORCEMENT

§12.28 A. Misdemeanors Versus Infractions

Violation of a city ordinance is a misdemeanor unless by ordinance it is made an infraction. The city attorney may prosecute these violations in the name of the people of the State of California. Govt C §36900(a).

PRACTICE TIP 1: The prosecutor cannot be hired on a contingent-fee basis. See *People ex rel Clancy v Superior Court* (1985) 39 C3d 740, 218 CR 24.

PRACTICE TIP 2: Individuals who repeatedly thwart the city's code enforcement compliance efforts can sometimes be brought into compliance quickly, after a misdemeanor citation is issued or a misdemeanor complaint is filed. If the city attorney has the authority to reduce misdemeanors to infractions, then the city attorney can offer to reduce the misdemeanor to an infraction, provided that the defendant brings the condition into compliance with city codes within a designated time period. Reducing a misdemeanor to an infraction should be accomplished on the court's record and put into a written plea agreement whenever possible, setting the terms of such reduction, in addition to any timelines for remedying the violation. Provision should also be made for the consequences of defendant's failure to remedy the condition within the designated time period. Such a procedure often obtains compliance without the necessity of a trial. However, if the defendant refuses to agree to such a conditional reduction, then set it up so that the case will proceed to trial.

© The Regents of the University of California

§12.29 1. Penalty Provision

The penalty need not be defined in the terms of each ordinance to establish a crime. The penalty provision can be placed elsewhere in a municipal code or charter. *Richter v Lightston* (1911) 161 C 260, 264, 118 P 790. See also *Benane v International Harvester Co.* (1956) 142 CA2d Supp 874, 880, 299 P2d 750; *Alechoff v Los Angeles Gas & Elec. Corp.* (1927) 84 CA 33, 39, 257 P 569.

© The Regents of the University of California

§12.30 2. Ongoing Violations

A crime can be charged for each day a violation continues, following service of a notice of the violation. Pen C §373a. Such provision does not violate the double jeopardy clause. *Dapper v Municipal Court* (1969) 276 CA2d 816, 818, 81 CR 340.

PRACTICE TIP: The language of the municipal code should also reflect the continuous nature of the offense by including a prohibition against maintaining a property or a building that was built in violation of the municipal code. For example, a municipality may discover an illegal dwelling unit or garage conversion several years after the owner actually built the structure without proper permits. The operative term is "maintain." The owner is guilty of maintaining an illegal dwelling unit. Therefore, the owner could be prosecuted years after the actual conversion.

© The Regents of the University of California

B. Prosecutorial Penalty Options

§12.31 1. Infractions and Misdemeanors Punishable by Penal Code

An infraction is not punishable by imprisonment. A person charged with an infraction is not entitled to a jury trial and is not entitled to be represented by a public defender unless in custody. Pen C §19.6. The powers of peace officers, court jurisdiction, periods for commencing action, and burden of proof are the same for misdemeanors and infractions. Pen C §19.7.

Actions brought as misdemeanors are punishable by 6 months in jail, a $1000 fine, or both, unless otherwise provided in an ordinance. Pen C §19.

© The Regents of the University of California

2. Hybrid Systems

§12.32 a. Sliding Scale System

Some municipalities have developed a hybrid system. Some impose penalties on a sliding scale. Under this system, violations are initially treated as infractions with an increase in the fine charged for each subsequent violation. The violator may be charged with a misdemeanor after three convictions as infractions. See also Govt C §36900 (providing for escalation of fines for subsequent violations).

© The Regents of the University of California

§12.33 b. Shortcomings of a Sliding Scale System

The inspector must investigate and prepare reports for each case until the magic number of infractions transforms the offense to a misdemeanor. This may also cause several more trips to the courthouse for the municipal attorney. Consequently, enforcement personnel must keep accurate records about the number of prior convictions. The problem with this system is it fails to penalize and deter the serious first-time violator; it also requires detailed recordkeeping.

© The Regents of the University of California

§12.34 c. Discretionary Penalty Provisions

In response to the shortcomings of the sliding-scale penalty provision, a city may wish to enact a discretionary penalty provision, or wobbler. Under this approach, all violations are designated misdemeanors, yet the municipal attorney may charge and prosecute any violation as an infraction. The serious first-time offender is confronted with the full deterrent impact of the misdemeanor. When mitigating circumstances are present, the prosecutor can make a motion in arraignment court to reduce the charge to an infraction. See also Pen C §17(d) (relating to defendant's and court's option to change offense from infraction to misdemeanor, and vice versa). The defendant may, however, elect to have the case proceed as a misdemeanor, thereby giving the defendant the right to an attorney and a jury trial. Pen C §17(d)(1). The hybrid ordinance is a formal procedural mechanism to exercise the prosecutor's inherent negotiation authority. Similar discretion is found in the Penal Code relating to violations of state law. Pen C §17(d).

© The Regents of the University of California

§12.35 d. Bail Forfeiture and Referrals

Instead of or in addition to the imposition of a penalty or fine, jail time, or court-ordered probation, prosecuting attorneys should become familiar with other disposition options available in their county, such as bail forfeiture and referrals.

For bail forfeiture, the provisions of Pen C §1269b(c) require judges in each county to adopt a county-wide bail schedule for all misdemeanors and infractions. Some counties require each municipality to prepare and adopt, subject to court approval, a bail schedule for municipal code violations. If such a schedule is adopted and a defendant is charged with an infraction, in some cases the defendant may pay and forfeit the bail amount before the arraignment date in lieu of further proceedings. Pen C §853.6(e)(3). Generally speaking, bail forfeitures are not the equivalent of convictions. *Wyatt v Municipal Court* (1966) 242 CA2d 845, 849, 51 CR 862. See 7 Ops Cal Atty Gen 143, 144 (1946).

Referrals include diversion, community service programs, alcohol awareness, and other such alternative sentencing options.

© The Regents of the University of California

§12.36 e. Pleas in Abeyance

As part of a plea agreement, the violator can enter a guilty or no contest plea, and agree to have the case continued for a period of 6 months. During that time, if the violator corrects all the violations and complies with the enforcement agency's request, the prosecutor could make a motion to dismiss the action in its entirety.

PRACTICE TIP: A municipality must weigh the deterrent impact of misdemeanor prosecutions versus the procedural burdens. A defendant has no constitutional right to a jury trial or court-appointed counsel for infractions. The municipality must decide whether it has the adequate staff necessary to conduct misdemeanor prosecutions; however, the amount of time spent selecting a jury may be worth the effort because it will establish misdemeanor probationary terms to prevent future code violations. Formal probation is generally not available for infractions, although informal or unsupervised probation may be available.

© The Regents of the University of California

C. State Criminal Statutes

§12.37 1. State Housing Law Violations

Anyone who violates the provisions of the State Housing Law (Health & S C §§17910-17998.3) or violates any state building standards, including the California Building Standards Code or any rule or regulation promulgated under the State Housing Law, is guilty of a misdemeanor and may be punished by a fine of up to $1000, imprisonment for up to 6 months, or both. Health & S C §17995.

The penalty for a person who is convicted for a second or subsequent time in 5 years is increased to a maximum fine of $5000 or imprisonment up to 6 months, or both. Health & S C §17995.1. The penalty for a flagrant repeat offender increases to include the penalty of imprisonment from 6 months to 1 year. Health & S C §17995.3. However, this section has several prerequisites. In summary, the violations must be extensive and endanger the health and safety of residents or public. They must also be due to the defendant's habitual neglect of customary maintenance and disregard for residents. Finally, they must involve at least four serious violations of a specified nature. See Health & S C §17995.3(a)-(g).

© The Regents of the University of California

§12.38 2. Criminal Nuisance; Limitation

Any person who maintains or willfully omits to perform any legal duty to remove any public nuisance is guilty of a misdemeanor. Pen C §372. One possible limitation to prosecuting an individual under the general provisions of Pen C §372 is that it applies to any person maintaining a public nuisance "the punishment for which is not otherwise prescribed." Pen C §372. See also *People v Cooper* (1944) 64 CA2d Supp 946, 948, 149 P2d 86. Thus, it could be argued that violations of local ordinances are already prescribed by the municipal code. This same limitation probably does not apply to prosecution under the more specific provisions of Pen C §373a. The provisions of Pen C §373a make it a misdemeanor to maintain a public nuisance after notice to abate from a health officer, district attorney, city attorney, or prosecutor. The provisions of Pen C §373a also make the continued existence of a public nuisance a separate misdemeanor for each day after such notice is given.

© The Regents of the University of California

D. Criminal Procedure

1. Overview of Criminal Justice Process

§12.39 a. Complaint

The criminal justice system starts with an investigation, the submission of the investigation to a prosecutor for review, and, if appropriate, the filing of a complaint. This complaint can take the form of a field citation issued by enforcement officials or a complaint written and filed by the municipal attorney. See Pen C §853.6. All such complaints must comply with the fundamental requirements of due process. Pen C §950.

PRACTICE TIP: It is useful to advise code enforcement personnel issuing criminal citations to assign a specific court date to the defendant at the time of issuance of the citation. That way, if the defendant fails to appear on the date promised, the court has the authority to issue a bench warrant. Pen C §978.5(4). Otherwise, some courts require the citing officer to complete a declaration before a warrant will be issued.

© The Regents of the University of California

§12.40 b. Arraignment and Plea

Once a complaint is filed, the defendant's first appearance is at arraignment. Here, the defendant can plead guilty, not guilty, or no contest. Pen C §988. Depending on the defendant's decision and the circumstances of the case, a trial date may be set by the arraignment court. Some jurisdictions impose an intermediate hearing in the trial setting department for settlement negotiations if defendant is represented by counsel. This may be termed a pretrial conference, readiness hearing, trial setting conference, or some other designation. The city attorney should be prepared to provide discovery to the defendant or his or her counsel. Reports prepared by code enforcement officers and any physical evidence to be used at trial must be provided to the defendant 30 days before trial. Pen C §§1054-1054.10.

PRACTICE TIP: Enforcement personnel should be adequately trained on report writing requirements. Whenever possible, each inspection should be written as a thorough, separate report to facilitate the criminal discovery process.

© The Regents of the University of California

§12.41 c. Trial

If the case does not settle at pretrial, or if the defendant has no counsel, a trial date is set. See Pen C §1382(a)(3) (timing requirements). At trial, the defendant may request or waive his or her constitutional right to a jury trial only if the complaint charged the violations as misdemeanors. Otherwise, a judge will hear the evidence to determine the defendant's guilt or innocence. On misdemeanors and infractions, see §§12.28, 12.31.

© The Regents of the University of California

2. Due Process Analysis of Complaint

§12.42 a. Notice of Crime

Whether an ordinance provides for a misdemeanor or an infraction, the ordinance must satisfy the threshold standards of the due process clause. Statutes that either forbid or require the doing of an act must not be drafted in terms so vague that "persons of common intelligence must necessarily guess at its meaning and differ as to its application." *People v McCaughan* (1957) 49 C2d 409, 414, 317 P2d 974 (quoting *Connally v General Constr. Co.* (1926) 269 US 385, 391, 70 L Ed 322, 46 S Ct 126). See also *Sechrist v Municipal Court* (1976) 64 CA3d 737, 134 CR 733 (upholding language of zoning ordinance in criminal prosecution against due process attack).

© The Regents of the University of California

§12.43 b. Notice of Charges

Due process requires that a person accused of committing a crime be reasonably advised of the charges against him or her so that the person has an opportunity to prepare and present his or her defense and to avoid surprises at trial. *People v Thomas* (1987) 43 C3d 818, 823, 239 CR 307. See also *Sechrist v Municipal Court* (1976) 64 CA3d 737, 134 CR 733 (finding criminal complaint against zoning violations gave accused adequate notice of charged offense).

© The Regents of the University of California

§12.44 3. Identification of Proper Defendants

In most code enforcement cases, the prosecuting attorney can usually charge the tenant, occupant, property owner, or all three. This decision will sometimes be determined by the nature of the charges. For instance, a building code violation is likely to be the responsibility of the property owner, whereas an inoperative vehicle is likely to be the responsibility of the tenant or occupant. When the owner resides at the property, the choice is simple. For absentee owners, the general rule is that when the owners have been placed on notice of the violation, they may be compelled to make their property safe, regardless of who caused the condition. *People v Greene* (1968) 264 CA2d 774, 778, 70 CR 818.

© The Regents of the University of California

§12.45 4. Strict Criminal Liability Possible

Landowner liability may be subject to strict liability principles. "[W]hether the context be civil or criminal, liability and the duty to take affirmative action flow not from the landowner's active responsibility for a condition of his land that causes such harm but rather, and quite simply, from his very possession and control of the land in question." *Leslie Salt Co. v San Francisco Bay Conservation Comm'n* (1984) 153 CA3d 605, 622, 200 CR 575.

Intent may be irrelevant. The general rule in California requires that every crime or public offense must have the joint operation of act and criminal intent. Pen C §20. An exception to this rule is the doctrine of criminal liability without fault, which has been applied to statutes enacted for the benefit of public morals, health, peace, and safety. *People v Travers* (1975) 52 CA3d 111, 114, 124 CR 728. In general, such statutes involve offenses of a regulatory nature. *People v Travers, supra*. The court applied the doctrine of strict liability to a conviction involving violations of various provisions of the Uniform Building and Fire Codes adopted by the Los Angeles Municipal Code in *People v Bachrach* (1980) 114 CA3d Supp 8, 12, 170 CR 773. Notice to the owner was not necessary. 114 CA3d Supp 8, 13. See also *Delfino v Sloan* (1993) 20 CA4th 1429, 25 CR2d 265 (dog at large); *People v Balmer* (1961) 196 CA2d Supp 874, 17 CR 612 (strict liability for unsanitary conditions in nursing home).

© The Regents of the University of California

§12.46 5. Field Citation Versus Arrest Warrant

A criminal action can be initiated by a field citation or by filing a complaint and issuing an arraignment letter or notify warrant, or by executing an arrest warrant. The following sections (§§12.47-12.51) detail the options available for bringing an individual suspected of a code enforcement violation to court.

© The Regents of the University of California

§12.47 a. Field Citations; Alternative to Arrest

When authorized by ordinance, code enforcement and other enforcement personnel have authority to issue a criminal citation. See Pen C §836.5. This citation authority would apply regardless of whether the offense is a misdemeanor or infraction. See Pen C §§853.5 (infractions), §853.6 (misdemeanors). On misdemeanors and infractions, see §§12.28, 12.31.

In most situations, the zoning or building inspector issues field citations as a substitute for a physical arrest. Unless the defendant demands to be taken before a magistrate, a field citation may be issued to the violator based on his or her written promise to appear. Pen C §§836.5(c), 853.5 (infractions), §853.6 (misdemeanors). A copy of this citation may become the criminal complaint. Pen C §§836.5-853.6.

© The Regents of the University of California

§12.48 b. Consequences of Failure to Appear

A defendant who fails to appear for his or her scheduled arraignment date after being issued and signing a misdemeanor field citation, is subject to arrest. The court will automatically issue and deliver a warrant for the defendant's arrest within 20 days after the failure to appear. Pen C §853.8. This can also be charged as a new and separate misdemeanor offense. Pen C §853.7. If no citation was issued, and thus defendant did not sign a written promise to appear, the municipal attorney would need to obtain an arrest warrant. Pen C §1427.

PRACTICE TIP: The effectiveness of any citation program depends on the training and skill of the individual inspectors. Although public officers and employees are not subject to the mandatory Peace Officer Standards and Training (POST) requirements, it is a prudent policy to enroll city inspectors in a powers-of-arrest course. See Pen C §§832, 836.5. Most cities require completion of such courses as a requirement to issue field citations. Failure to follow the arrest and citation procedures or inability to write adequate case reports can result in dismissal of the charge. Additionally, it is sometimes advisable for code enforcement officers to request the assistance of a peace officer rather than handle volatile situations on their own.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/12 Code Enforcement/§12.49 c. Criminal Complaint Option

§12.49 c. Criminal Complaint Option

Instead of issuing a misdemeanor field citation, the prosecuting attorney can file a criminal complaint. This method of initiating a criminal case may be employed when the property owner or tenant cannot be located to sign a field citation. See Pen C §§948-949 (authority to file complaints in superior court), 950 (form of complaint).

© The Regents of the University of California

§12.50 d. Arrest Warrant and Its Execution

Once the complaint is filed, the prosecuting attorney may immediately file a declaration in support of an arrest warrant. This declaration sets the factual basis surrounding the violation and issuance of the complaint. See Pen C §1427.

A peace officer, or any public officer or employee authorized to serve process, has authority to execute an arrest warrant for a violation of a statute or ordinance that such person has the duty to enforce. Pen C §816. The form of the warrant is provided by Pen C §814. The defendant must be taken before a magistrate without unnecessary delay and, in any event, within 48 hours after the arrest, excluding Sundays and holidays. Pen C §825.

© The Regents of the University of California

§12.51 e. Notify Warrant Option

Instead of immediately applying to the court for arrest warrants, some municipalities send defendants official courtesy notices called arraignment letters or notify warrants listing the municipal code violations and establishing appearance dates in municipal arraignment court. In such cases, a complaint has already been filed and signed by the prosecutor. Because most of the zoning and building code violators are not typical criminals, this notice is generally successful in securing their appearance.

PRACTICE TIP: The issuance of a warrant does not guarantee that police officers, sheriffs, or marshals will physically arrest the defendant. Given the backlog of many metropolitan correctional facilities, some law enforcement agencies execute arrest warrants by giving priority to felons and serious misdemeanants before zoning and building code violators. Therefore, a meeting with the local law enforcement officials responsible for the execution of arrest warrants is advisable to express the municipality's concerns about arresting serious code violators.

© The Regents of the University of California

6. Corporate Defendants

§12.52 a. Piercing the Corporate Veil

The doctrine of "piercing the corporate veil" allows a court to disregard the corporate entity and hold the individuals of the controlling corporation responsible when the corporation is being used by the individuals or another corporation to commit fraud, circumvent statutes, or perpetrate other wrongful inequitable acts. The city must show that (*Minifie v Rowley* (1921) 187 C 481, 487, 202 P 673; *Kohn v Kohn* (1950) 95 CA2d 708, 718, 214 P2d 71):

- The individual or another corporation dominates or controls the corporation; and
- In the particular case, justice and equity may best be achieved by disregarding the corporate entity.

See also *People v Conway* (1974) 42 CA3d 875, 888, 117 CR 251.

© The Regents of the University of California

§12.53 b. Filing Criminal Complaint Against Corporation

When the defendant is a corporation, state law establishes the procedures for filing a criminal complaint. See Pen C §§1390-1397. The attorney schedules a date for arraignment by presenting a summons for the judge's signature. The summons must be served on the designated agent or corporate officers at least 5 days before the scheduled appearance in arraignment court. If the corporation fails to appear after the summons has been served, "a plea of not guilty shall be entered, and the same proceedings had therein as in other cases." Pen C §1427.

© The Regents of the University of California

7. Sentencing and Terms of Probation

§12.54 a. Scope of Probation

The primary advantage of a misdemeanor prosecution is placing the defendant on 1, 2, or 3 years of informal probation (also known as summary probation) subject to specific terms and conditions related to the violation(s) committed. Pen C §§1203(a), 1203a. The California Penal Code is silent as to the maximum period of probation for infractions. The provisions of Pen C §1203(a) allow the judge to place the defendant on either formal probation or a conditional sentence (also known as informal probation) for the violation of a misdemeanor or an infraction. Formal probation suspends the imposition or execution of a sentence under the close supervision of a probation officer.

PRACTICE TIP: It is rare that a court will grant formal probation in a misdemeanor or infraction action. However, the court may be inclined to do so particularly in a misdemeanor action on a showing by the municipal attorney that the defendant has previously had his or her probation revoked and reinstated on numerous occasions or has committed the particular violation(s) several times before and, thus, the case requires the assistance of a probation officer to oversee defendant's compliance with the terms and conditions of probation.

© The Regents of the University of California

§12.55 b. Conditional Sentence—Informal Probation

A conditional sentence, or informal probation, suspends the imposition or execution of a sentence and orders the revocable release of the defendant without the supervision of a probation officer, subject to terms and conditions established by the court. Pen C §1203(a). A judge has authority to summarily pronounce informal misdemeanor probation. Pen C §1203(d). In the vast majority of misdemeanor prosecutions, superior court judges and commissioners summarily grant informal probation to defendants, releasing them to the community on the defendant's agreement to comply with specified conditions or terms of probation or the payment of a fine, or both.

© The Regents of the University of California

§12.56 c. Probation Terms

The terms of informal probation, or a conditional sentence, are contractual in nature. *In re Application of D.O. Young* (1932) 121 CA 711, 714, 10 P2d 154. The courts have broad authority to draft the terms of probation to fit the case. Probation conditions must reasonably relate to either (*People v Lent* (1975) 15 C3d 481, 486, 124 CR 905):

- The crime for which the defendant was convicted; or
- Some type of future criminality.

In sentencing the person, the court may consider any information about the defendant that could have been included in a probation report. Pen C §1203(d).

© The Regents of the University of California

§12.57 d. Infractions and Probation

Some judges refuse to impose probationary conditions that apply to future criminal conduct when the violation is an infraction. Although the law expressly empowers the court in infraction cases to grant a conditional sentence, it fails to establish any time period for future enforcement of the conditions. See Pen C §1203(a)-(b). Therefore, a conditional sentence for an infraction must necessarily relate only to the criminal acts charged in the complaint; the municipality may not be able to obtain protection against future violations.

PRACTICE TIP: The granting of probation is one of the biggest advantages to enforcing a municipal violation through criminal prosecution. In most municipal cases, when informal probation is granted by the court, the defendant has agreed to submit to informal probation subject to specific terms and conditions under a written plea bargain arrangement with the municipal attorney in which the defendant pleads guilty or no contest to one or more counts or charges, and the municipal attorney dismisses any remaining counts or charges. In the alternative, the court may grant probation (or a conditional sentence) to a defendant after a defendant has been convicted by a jury or found guilty by a court. Probation conditions may require the defendant to take remedial action, to stop doing an act, or to stay away from a certain location. The court may also require the defendant to pay all outstanding enforcement fines.

© The Regents of the University of California

8. Probation Revocation

§12.58 a. Grounds for Revocation

Probation may be revoked by the court on the grounds provided in Pen C §1203.2(a) and the case law interpreting it. In some circumstances, probation can even be revoked although the accused has not violated the specific probationary terms or conditions. *Miller v Oberhauser* (9th Cir 1961) 293 F2d 29, 32. If general conduct indicates that the probationer is unfit to be at large, or if the probationer fails to reestablish himself or herself as a worthy citizen, is incapable of leading a law-abiding life, or is not safe to remain in society, probation can be revoked without specific violations of the probationary conditions. *People v Delles* (1968) 69 C2d 906, 911, 73 CR 389; *People v Monette* (1994) 25 CA4th 1572, 1575, 31 CR2d 203; *People v Hunter* (1940) 42 CA2d 87, 91, 108 P2d 472; *In re Application of D.O. Young* (1932) 121 CA 711, 714, 10 P2d 154.

© The Regents of the University of California

§12.59 b. Probation Revocation Procedure

The municipal attorney's first step in the probation revocation procedure is to have the zoning and building inspectors or code compliance (or enforcement) officers prepare a declaration supporting revocation of probation. This declaration must describe the current violations committed by the defendant or the defendant's failure to comply with the probationary conditions, or both. After obtaining a hearing date, the attorney serves the defendant with an order to show cause why probation should not be revoked.

© The Regents of the University of California

§12.60 (1) Show Cause Hearing

At the order to show cause hearing, the defendant may either admit the violation or request an evidentiary hearing. When the defendant admits the violation, the judge may summarily revoke the probation and either send the defendant to jail or impose a fine, or both. The judge may also revoke and reinstate probation on the same terms and conditions as before, or modify the terms and conditions of probation, requiring the defendant to accept stricter probationary terms. See Pen C §1203a.

© The Regents of the University of California

§12.61 (2) Due Process Must Be Observed

Due process requires, among other things, notice of the grounds for probation revocation and the opportunity to be heard by a neutral fact finder. See *People v Vickers* (1972) 8 C3d 451, 456, 105 CR 305.

© The Regents of the University of California

§12.62 (3) Admissible Evidence

Hearsay evidence is generally not admissible at a probation revocation hearing unless the declarant's unavailability is demonstrated or some other good cause is shown for the admission of hearsay evidence. *People v Arreola* (1994) 7 C4th 1144, 1148, 1159, 31 CR2d 631. However, hearsay evidence has been admissible under other circumstances when the testimony bears a substantial degree of trustworthiness and there are sufficient indicia of reliability, or when good cause exists. *People v Brown* (1989) 215 CA3d 452, 454, 263 CR 391; *People v Burden* (1980) 105 CA3d 917, 921, 166 CR 542, cert denied (1980) 449 US 975. No violation of the Fifth Amendment occurs if the defendant testifies at a revocation hearing before trial on new charges. *People v Jasper* (1983) 33 C3d 931, 934, 191 CR 648; *People v Carter* (1975) 48 CA3d 369, 121 CR 677.

© The Regents of the University of California

§12.63 (4) Defendant Has Right to Confront Witnesses; Applicable Standard of Proof

The defendant is entitled to the identity of an informant as a material witness in a probation revocation hearing. *Goodlow v Superior Court* (1980) 101 CA3d 969, 972, 162 CR 121. The probationer is entitled to exercise the right to confront witnesses unless good cause exists for not allowing confrontation. *People v Winson* (1981) 29 C3d 711, 175 CR 621, cert denied (1981) 455 US 975.

Proof of a violation of the terms and conditions of probation may be made by a preponderance of the evidence (formerly, the standard was clear and convincing evidence). See *People v Rodriguez* (1990) 51 C3d 437, 272 CR 613.

© The Regents of the University of California

§12.64 9. Extension of Probation

The court may extend the probationary period at any time before it expires. *People v Williams* (1944) 24 C2d 848, 850, 151 P2d 244. See Pen C §1203.2.

PRACTICE TIP: Modification of probation should take less than 20 days depending on the superior court's calendar. Therefore, probation revocation of a misdemeanor code violation provides a municipality with adequate protection against future violations within the applicable statutory time period.

© The Regents of the University of California

§12.65 10. Cost Recovery in Criminal Code Enforcement

One court has commented (in dicta) that cities may have the power to recover costs of criminal code enforcement under Govt C §36901, but held that there is no state law authority for counties to recover such costs. *People v Minor* (2002) 96 CA4th 29, 37, 116 CR2d 591. However, the court cast some doubt on its own comment by noting parenthetically that it "is by no means obvious" that cities have such authority under the statute. 96 CA4th at 41.

© The Regents of the University of California

IV. ADMINISTRATIVE ENFORCEMENT

§12.66 A. Administrative and Summary Abatement

Instead of pursuing criminal prosecution or a civil injunction, the city may determine that administrative or summary abatement is the more appropriate remedy.

NOTE: For purposes of this part, the term abatement will be limited to the process of administrative or summary abatement instead of its generic use to rid or remove code violations or public nuisances.

Cities are authorized to enact ordinances declaring (see Govt C §§36901, 38771, 38773.5(a)):

- What constitutes a nuisance;
- The procedures for abating nuisance conditions;
- The recovery of costs to abate the nuisance; and
- The collection of civil penalties.

Both general law and charter cities may enact ordinances declaring what constitutes a nuisance and procedures for abatement and recovery of costs under their police powers under Cal Const art XI, §7. See *City of Los Angeles v Shpegel-Dimsey, Inc.* (1988) 198 CA3d 1009, 1017-1018, 244 CR 507; *Thain v City of Palo Alto* (1962) 207 CA2d 173, 179, 24 CR 515. In addition, charter cities have additional authority under the home rule doctrine to make and enforce nuisance abatement ordinances on subjects that are considered municipal affairs. See *Sherwin-Williams Co. v City of Los Angeles* (1993) 4 C4th 893, 897 n1, 16 CR2d 215. However, for drug-related forfeitures, the state's Uniform Controlled Substances Act (Health & S C §§11000-1651) occupies the field of penalizing crimes involving controlled substances, even if declared local nuisances. See *O'Connell v City of Stockton* (2007) 41 C4th 1061, 63 CR3d 67. The same is true as to prostitution-related forfeitures. *O'Connell v City of Stockton, supra.*

© The Regents of the University of California

§12.67 1. Evidence Gathering and Inspection Warrants Under Administrative Abatement

The most crucial aspect of an administrative abatement is the collection of evidence supporting the abatement. Documenting code violations is not always possible without entry onto the property and into areas where there is a reasonable expectation of privacy, and it may be necessary to obtain either written consent to enter from the property owner (or the tenant, if applicable) or to apply to the court for an inspection warrant (based on the declaration of the code enforcement officer) authorizing entry onto the property by the code enforcement personnel. Although not peace officers, enforcement inspectors must adhere to the Fourth Amendment when they inspect private property.

PRACTICE TIP: The statutory procedure for obtaining and executing an inspection warrant is described in CCP §§1822.50-1822.57. Care should be taken to include in the inspection warrant papers the exact areas to be inspected, the personnel to take part in the inspection (including police officers for safety), and any equipment to be used in the inspection, such as cameras, video equipment, or testing devices.

© The Regents of the University of California

§12.68 2. Summary (Emergency) Abatement May Be Necessary

The choice between pursuing administrative or summary abatement lies with the seriousness of the violation(s) and the imminent risk of harm. In most code enforcement cases, the department is well advised to use either a judicial or administrative hearing process to obtain an order that justifies its actions. Yet summary abatement may have to be used in rare emergency cases. *Thain v City of Palo Alto* (1962) 207 CA2d 173, 24 CR 515. A summary abatement situation exists when conditions are so severe that immediate action is required without time to seek a court or administrative order. Such a scenario could occur with a sewage leak, structural damage caused by a fire, an earthquake, or other natural disaster, but it could also occur when conditions exist that pose a high risk of harm to persons, including curious children (*e.g.,* a vehicle up on blocks accessible from a public street, or an open and accessible vacant building near a school). Whenever a city exercises its summary abatement powers, it must provide the party responsible for the nuisance with a post-abatement hearing to contest the validity of the summary abatement. Consequently, the city must collect all evidence necessary to prove its case in an administrative hearing before summarily abating a nuisance. Additionally, code enforcement staff should limit summary abatement to alleviating only the immediate dangerous conditions. Once these conditions are neutralized, staff may proceed with any remaining violations through formal administrative or judicial abatement proceedings.

PRACTICE TIP: Administrative and summary abatement frequently result in the local enforcement agency performing the corrective action. Instead of seeking a court order that compels the property owner or building manager to comply with the state or local regulations, abatement orders authorize municipal work crews or private contractors to enter the premise and perform the work themselves. Such orders may best be reserved for those situations when the property owner or other responsible party cannot be located or when the owner lacks the financial or physical ability to correct the violations. All attempts to contact the property owner before proceeding with summary abatement should be well documented.

© The Regents of the University of California

§12.69 3. Consent or Court Order for Abatement Work

Except in emergency situations justifying summary abatement, it is prudent practice either to (1) obtain written consent to enter and abate from the property owner(s) and any tenants, or (2) apply to the court for an inspection warrant authorizing entry onto the property to effectuate the necessary abatement work, especially if the abatement encompasses areas where the property owner or tenant has a reasonable expectation of privacy. See *Conner v City of Santa Ana* (9th Cir 1990) 897 F2d 1487. One state appellate court, quoting the California Supreme Court, also held that "in the absence of consent or exigent circumstances, government officials engaged in the abatement of a public nuisance must have a warrant to enter any private property where such entry would invade a constitutionally protected privacy interest." *Flahive v City of Dana Point* (1999) 72 CA4th 241, 246, 85 CR2d 51. The court stated that although there is no statutory procedure for obtaining a warrant to abate a nuisance, a procedure that mirrors statutory requirements for other types of warrants is sufficient. This procedure should include (72 CA4th at 246 n8):

- A warrant issued on reasonable cause to believe grounds for the abatement existed;
- An affidavit that particularly describes the place to be inspected and designates the purpose for the intrusion and the limitations on it;
- A warrant valid for a reasonable time and limited to the hours during which it could be executed;
- Requiring the city to post notice on the property at least 24 hours before the abatement;
- Requiring that consent to enter the property was sought and denied, or providing the reasons why consent was not sought;
- Only reasonable force used to execute the warrant; and
- After the abatement is complete, the city files a sworn return stating with particularity what actions were taken to abate the nuisance and the results.

A valid abatement warrant may also protect a city and its code enforcement officers from liability. *Ogborn v City of Lancaster* (2002) 101 CA4th 448, 558, 124 CR2d 238 (denying due process claim because court found code officers reasonably relied on the inspection and abatement warrant).

© The Regents of the University of California

§12.70 4. State Housing Law: Demolition or Repair

Administrative abatement proceedings against a substandard structure may result in repair or demolition by the locality if the owner fails to correct the code violations or demolish the substandard building, or selects an option that cannot be completed within a reasonable time. Health & S C §17980(b). Although demolition is authorized, it is the remedy of last resort, and only if certain conditions exist. Repair is preferred when it is economically feasible, unless the owner says otherwise. See Health & S C §17980.

© The Regents of the University of California

§12.71 5. Administrative Abatement Procedures for Substandard Residential Buildings

The procedures for abating substandard conditions in residential buildings are outlined in 25 Cal Code Regs §§50-70. However, municipalities may enact their own substantive and procedural regulations imposing the same requirements as the statewide standards and may make certain amendments subject to express findings. See Health & S C §17958. See also Govt C §§38771-38775; 55 Ops Cal Atty Gen 157 (1972). For residential rental property, notice of abatement proceedings must be provided to tenants by posting notice in a conspicuous place on the property and by either first-class mail to, or posting notice in a prominent place on, each affected residential unit. Health & S C §§17980, 17980.6.

© The Regents of the University of California

§12.72 6. Vehicle Abatement Laws

A city may adopt an ordinance establishing procedures for abatement and removal, as a public nuisance, of abandoned, wrecked, dismantled, or inoperative vehicles from private or public property and for recovery of administrative and removal costs. Veh C §22660. The ordinance must contain certain provisions, including notice to Department of Motor Vehicles within 5 days of removal and an exemption for lawfully stored vehicles, among others. Veh C §22661.

Under Veh C §22659.5, cities may also adopt an ordinance declaring a motor vehicle to be a public nuisance subject to seizure and an impoundment for up to 30 days when the motor vehicle is used in, and the driver arrested for, the commission, or attempted commission, of various prostitution-related offenses (Pen C §§266h-266i, and 647(b)), or illegal dumping of waste matter on public or private roads or property in violation of Pen C §374.3(h), when the owner or operator of the vehicle has been convicted of the same offense within 3 years.

© The Regents of the University of California

§12.73 7. Sign Enforcement Restrictions

Code enforcement officers seeking to enforce local sign ordinances should be aware of the On-Premises Advertising Act (Bus & P C §§5490-5499) and the Outdoor Advertising Act (Bus & P C §§5200-5486). Both acts place heavy restrictions on abatement of non-conforming signs without compensating the sign owner.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/12 Code Enforcement/§12.74 8. Vacant Residential Property Acquired Through Foreclosure

§12.74 8. Vacant Residential Property Acquired Through Foreclosure

Fines of up to $1000 per day may be imposed against an owner, including a bank or lending institution, that fails to maintain vacant residential property that was purchased at a foreclosure sale or acquired through foreclosure or a deed of trust. See CC §2929.3(a). "Failure to maintain" means failure to care for the exterior of a property, including (CC §2929.3(b)):

- Excessive foliage growth;
- Failure to prevent trespassers or squatters from remaining on the property;
- Failure to prevent mosquito larvae; or
- The existence of other conditions that create a public nuisance.

NOTE: The provisions of CC §2929.3 will remain in effect until January 1, 2013, unless otherwise extended or repealed.

© The Regents of the University of California

§12.75 a. Procedure for Enforcement Under CC §2929.3

The governmental entity must provide a minimum of 30 days' written notice to the legal owner of the property to remedy the violation, and provide for a hearing and an opportunity to contest the violation before the imposition of a fine. CC §2929.3(a)(2). Notice of less than 30 days may be provided when the entity determines that a condition threatens public health or safety, provided that notice of that determination and time for compliance is given. CC §2929.3(c). In either case, on the day following the expiration of the period to remedy the violation, a fine of up to $1000 per day may be imposed until the violation is corrected. See CC §2929.3(a)(2). Fines and penalties collected under this section must be "directed to" local nuisance abatement programs. CC §2929.3(d).

© The Regents of the University of California

§12.76 b. Local Ordinances Are Not Preempted

The provisions of CC §2929.3 do not preempt local ordinances directed at vacant properties. CC §2929.3(f). However, a governmental entity may not impose fines under both CC §2929.3 and a local ordinance. CC §2929.3(e).

© The Regents of the University of California

§12.77 B. Administrative Hearings and Due Process

Courts have established the minimum due process safeguards for administrative hearings to include:

- Adequate notice to the proper parties;
- A reasonable opportunity to be heard; and
- A chance to controvert the evidence.

Public nuisance ordinances should provide notice and hearing provisions, but absent express language, requirement for notice and hearing may be implied. *Bess v Park* (1956) 144 CA2d 798, 802, 301 P2d 978. In administrative abatement hearings, the municipality has the burden to prove by a preponderance of the evidence that the alleged violations or conditions are a public nuisance that requires abatement by either repair, removal, or demolition. *Leppo v City of Petaluma* (1971) 20 C3d 711, 718, 97 CR 840. A proceeding before an administrative officer or board is adequate if the basic requirements of notice and opportunity for hearing are met. *Blinder, Robinson & Co. v Tom* (1986) 181 CA3d 283, 226 CR 339. A full judicial-type hearing is not required. *Mohilef v Janovici* (1996) 51 CA4th 267, 58 CR2d 721.

© The Regents of the University of California

§12.78 1. Notice

Notice is essential to allow the citizen a chance to defend charges (*People v Swink* (1984) 150 CA3d 1076, 1079, 198 CR 290, superseded by statute on other grounds as stated in *People v American Bankers Ins. Co.* (1991) 227 CA3d 1289, 278 CR 314):

- Before property interests are disturbed;
- Before assessments or penalties are imposed; and
- When a penalty or forfeiture might be suffered for the mere failure to act.

The right to a hearing that provides the person in violation the opportunity to present arguments in response to the penalty, fine, or disturbing of a property right is also a minimal requirement of the Fourteenth Amendment. *Ohio Bell Tel. Co. v Pub. Util. Comm'n* (1937) 301 US 292, 305, 81 L Ed 1093, 57 S Ct 724.

© The Regents of the University of California

§12.79 2. Impartial Hearing Body or Officer Required

When due process requires a hearing, the hearing body or officer must be impartial. *Haas v County of San Bernardino* (2002) 27 C4th 1017, 1025, 119 CR2d 341. Administrative hearing bodies or officers must be appointed in a way that does not create the risk that decisions that favor the public agency will be rewarded with future remunerative work. 27 C4th at 1024. A hearing officer must be disqualified from the proceeding when the public agency unilaterally selects and pays the officer on an ad hoc basis and the officer's income from future adjudicative work depends entirely on the government's good will. 27 C4th at 1026.

PRACTICE TIP 1: When conducting an administrative hearing, consider having an independent attorney sit as counsel for the administrative body. When the attorney who prosecutes an administrative action or assists staff with prosecution of the administrative action also serves as the advisor to the administrative tribunal, there is a possibility of bias and a potential due process violation. *Nightlife Partners, Ltd. v City of Beverly Hills* (2003) 108 CA4th 81, 133 CR2d 234; *Howitt v Superior Court* (1992) 3 CA4th 1575, 5 CR2d 196. However, in large city attorney offices, different attorneys from the same office may represent the board and may act as prosecutor provided certain criteria are met. *Nightlife Partners, Ltd. v City of Beverly Hills, supra.*

PRACTICE TIP 2: Once an administrative body renders its decision, the decision should be served personally or by certified mail, return receipt requested, on the defendant in the administrative action. The administrative body's decision should include notice of the number of days that the defendant has to appeal the decision, and with whom the appeal must be filed if there is an administrative appeal right. If the administrative body's decision is final, the decision should specify the right of judicial review.

© The Regents of the University of California

§12.80 3. Conduct of the Hearing

In administrative abatement hearings, the municipality has the burden to prove by a preponderance of evidence the alleged code violations or public nuisance. See *Leppo v City of Petaluma* (1971) 20 C3d 711, 718, 97 CR 840. Due process under the federal and state constitutions does not entitle the party who is the subject of the administrative abatement proceeding to have a full judicial-type hearing; it is sufficient that the party receives adequate notice of the nature of the alleged violations or nuisance and a meaningful opportunity to respond to the charges. *Mohilef v Janovici* (1996) 51 CA4th 267, 276, 58 CR2d 721 (no right to sworn testimony, cross-examination of witnesses, discovery, or subpoenas in nuisance abatement hearing).

© The Regents of the University of California

C. Other Available Administrative Processes

§12.81 1. Mediation and Office Hearings

Department inspectors, often with the city attorney, employ various dispute resolution methods to negotiate an agreement with the owner to comply with the law before initiating any judicial or administrative abatement proceedings. Any such negotiated agreement should be reduced to writing as a Compliance Agreement or Settlement Agreement, specifying the completion dates for corrective action as well as the consequences for failure to comply.

© The Regents of the University of California

§12.82 2. Recordation of Violation Notices

Notices or instruments relating to the abatement proceeding may be recorded. See Govt C §38773.5(e). The notice should provide sufficient information to identify the code violations or the nuisance conditions. Some municipalities impose a process in which they record the notice of violation against the property but permit the owner to appeal their decision. Such notices put prospective buyers of the property on notice of the pending code violations or nuisance conditions, and provide an incentive for correction of the conditions when the owner desires to sell the property.

© The Regents of the University of California

§12.83 3. Notice of Pending Action

Similar to a lis pendens in civil actions, a notice of pending action can be recorded on the property providing information that there is a pending action involving the property, including contact information, without specifying that any violations are present. This recorded notice provides notice to subsequent purchasers, without necessitating reinitiation of the ongoing enforcement action were a property to change hands.

§13.1 I. INTRODUCTION

This chapter presents an overview of the many issues concerning municipal claims, liability, and litigation. Topics include petitions for writ of mandate, governmental claim filing procedures, municipal liability, indemnification of public employees, immunities, constitutional liability claims, and elements of damages and attorney fees. This chapter also briefly discusses actions brought by a municipality.

On topics covered by this chapter, see generally California Administrative Hearing Practice (2d ed Cal CEB 1997); California Administrative Mandamus (3d ed Cal CEB 2003); California Civil Writ Practice (4th ed Cal CEB 2008); California Attorney Fee Awards, chap 3 (3d ed Cal CEB 2010); California Government Tort Liability Practice (4th ed Cal CEB 1999); California Tort Guide, chap 8 (4th ed Cal CEB 2009).

© The Regents of the University of California

§13.2 II. MANDATE/JUDICIAL REVIEW OF MUNICIPAL DECISIONS

A petition for writ of mandate may be available to challenge a city's legislative, ministerial, or adjudicatory actions. Generally, "a legislative action is the formulation of a rule to be applied to all future cases, while an adjudicatory act involves the actual application of such a rule to a specified set of existing facts." *Strumsky v San Diego County Employees Retirement Ass'n* (1974) 11 C3d 28, 34 n2, 112 CR 805. A ministerial act is an act specifically required by law, involving little or no discretion by the public agency, when the agency has a clear and present duty to act. *City of Dinuba v County of Tulare* (2007) 41 C4th 859, 868, 62 CR3d 614.

The appropriate form of mandate is determined by the nature of the action under review. *California Water Impact Network v Newhall County Water Dist.* (2008) 161 CA4th 1464, 1482, 75 CR3d 393. Generally, administrative mandamus is the proper form of mandate to challenge adjudicatory actions of a local agency, while traditional (or ordinary) mandamus is the proper form of action to review ministerial and legislative or "quasi-legislative" actions of a local agency. *California Water Impact Network v Newhall County Water Dist., supra*; *Friends of the Old Trees v Department of Forestry & Fire Protection* (1997) 52 CA4th 1383, 1389, 61 CR2d 297.

© The Regents of the University of California

§13.3 A. Traditional Mandamus

Traditional (or ordinary) mandamus is the proper form of action to challenge reviewable ministerial or quasi-legislative acts of a city. *California Water Impact Network v Newhall County Water Dist.* (2008) 161 CA4th 1464, 1483, 75 CR3d 393. The statutory authority for traditional mandamus actions is CCP §1085. See *Western States Petroleum Ass'n v Superior Court* (1995) 9 C4th 559, 566, 38 CR2d 139; *Hutchinson v City of Sacramento* (1993) 17 CA4th 791, 21 CR2d 779.

On traditional mandamus, see California Civil Writ Practice, chap 2 (4th ed Cal CEB 2008).

© The Regents of the University of California

1. When Traditional Mandamus Is Proper Method of Review

§13.4 a. Ministerial Versus Discretionary Acts

A ministerial act is one that a public officer or entity is required to perform in a prescribed manner in obedience to the mandate of legal authority and without regard to his or her own judgment or opinion concerning the act's propriety or impropriety, when a given state of facts exists. *Rodriguez v Solis* (1991) 1 CA4th 495, 501, 2 CR2d 50 (denial of permit applications for freestanding advertising signs). The petitioner bears the burden of proof. *Branciforte Heights, LLC v City of Santa Cruz* (2006) 138 CA4th 914, 934, 42 CR3d 96.

The difference between ministerial and discretionary actions can involve difficult and subtle distinctions. See *Hutchinson v City of Sacramento* (1993) 17 CA4th 791, 796, 21 CR2d 779 (speed limit ordinance is legislative, not ministerial). Court decisions on building permits vary. See *Friends of Westwood, Inc. v City of Los Angeles* (1987) 191 CA3d 259, 281, 235 CR 788 (city's approval process for issuance of building permit for large office building was discretionary); *Slagle Constr. Co. v County of Contra Costa* (1977) 67 CA3d 559, 563, 136 CR 748 (issuance of building permit may involve some discretion); *Ellis v City Council of the City of Burlingame* (1963) 222 CA2d 490, 497, 35 CR 317 (issuance of building permit is ministerial act).

© The Regents of the University of California

§13.5 b. Legislative Versus Adjudicatory Acts

Quasi-legislative acts are also reviewable by traditional mandamus. See *Western States Petroleum Ass'n v Superior Court* (1995) 9 C4th 559, 567, 38 CR2d 139; *State v Superior Court (Veta)* (1974) 12 C3d 237, 247, 115 CR 497.

Whether an act is legislative or adjudicatory is not always clear. See, *e.g., Southwest Diversified, Inc. v City of Brisbane* (1991) 229 CA3d 1548, 1557, 280 CR 869 (discussing legislative versus adjudicatory acts in land use context). Generally, a legislative act is the formulation of a rule to be applied in all future cases, and an adjudicatory act is the application of legislative rules to a specific set of existing facts. *Strumsky v San Diego County Employees Retirement Ass'n* (1974) 11 C3d 28, 34 n2, 112 CR 805; *California Aviation Council v City of Ceres* (1992) 9 CA4th 1384, 1390, 12 CR2d 163. An award of a public contract, and all of the acts leading up to the award, have been found to be legislative in character. *Mike Moore's 24-Hour Towing v City of San Diego* (1996) 45 CA4th 1294, 1303, 53 CR2d 355. Actions or decisions for which the agency was not required to hold an evidentiary hearing may also be reviewable under traditional mandate. *McGill v Regents of Univ. of Cal.* (1996) 44 CA4th 1776, 1785, 52 CR2d 466 (denial of tenure). Rezoning of property is generally a quasi-legislative act. *City of Carmel-By-The-Sea v Board of Supervisors* (1986) 183 CA3d 229, 238, 227 CR 899. However, matters that would usually appear to be quasi-legislative have been found to be adjudicatory. See *Consaul v City of San Diego* (1992) 6 CA4th 1781, 1792, 8 CR2d 762 ("peculiar nature" of rezoning decision, seeming to declare specific rights in particular factual situation, sounded both legislative and adjudicatory); *Mountain Defense League v Board of Supervisors* (1977) 65 CA3d 723, 729, 135 CR 588 (general plan amendment with simultaneous approval of private development plan was quasi-judicial act subject to the substantial evidence test).

© The Regents of the University of California

§13.6 2. Scope of Review in Traditional Mandamus Action

The two basic requirements of a traditional mandamus action that seeks to compel a ministerial act are (*City of Dinuba v County of Tulare* (2007) 41 C4th 859, 868, 62 CR3d 614):

(1) a clear, present duty on the part of respondent, and

(2) a clear, present, and beneficial right in petitioner to performance of that duty.

Judicial review of quasi-legislative acts is usually limited to a determination of whether:

- The act was arbitrary or capricious;
- The act was entirely lacking in evidentiary support; or
- The city failed to follow the procedures required by law.

Strumsky v San Diego County Employees Retirement Ass'n (1974) 11 C3d 28, 34 n2, 112 CR 805. But see *Silicon Valley Taxpayers' Ass'n, Inc. v Santa Clara County Open Space Auth.* (2008) 44 C4th 431, 449, 79 CR3d 312 (judicial review of compliance with Proposition 218 assessments is governed by independent review/de novo standard in light of constitutional nature and language adopted by proposition).

The scope of judicial review may be affected by specific statutes or constitutional provisions. See, *e.g.,* Cal Const art XIIID, §§4(f), 6(b)(5) (burden is on agency to demonstrate compliance with Proposition 218); Govt C §56107 (challenge to Local Agency Formation Commissions (LAFCO) determinations), §65009 (challenge to local zoning and planning decisions), §§65750-65763 (challenge to adequacy of general plan); Pub Res C §21168.5 (California Environmental Quality Act challenge in all cases other than those in which hearing is required by law).

Traditional mandamus does not lie to control discretion that is lawfully entrusted to an administrative body except to compel the exercise of discretion. *Common Cause v Board of Supervisors* (1989) 49 C3d 432, 442, 261 CR 574; *Saathoff v City of San Diego* (1995) 35 CA4th 697, 702, 41 CR2d 352 (award of contract). In determining if mandate will lie for abuse of discretion, the agency's action will be upheld if reasonable minds may disagree as to the wisdom of the action. *Helena F. v West Contra Costa Unified Sch. Dist.* (1996) 49 CA4th 1793, 1799, 57 CR2d 605 (school district assignment of displaced students).

© The Regents of the University of California

§13.7 a. No Inquiry Into Legislators' Motives

The decision of the legislative body is evaluated on its face, without inquiry into the underlying motive or thought processes of legislators. *City of Fairfield v Superior Court* (1975) 14 C3d 768, 777, 122 CR 543; *San Joaquin County Local Agency Formation Comm'n v Superior Court* (2008) 162 CA4th 159, 170, 76 CR3d 93; *Oxnard Harbor Dist. v Local Agency Formation Comm'n* (1993) 16 CA4th 259, 271, 19 CR2d 819. For this reason, discovery of such legislative thought processes is prohibited. *Oxnard Harbor Dist. v Local Agency Formation Comm'n, supra*.

© The Regents of the University of California

§13.8 b. Impact on Scope of Review in Land Use Cases

Cities have broad land use authority within which they may frame local land use regulations. *Federation of Hillside & Canyon Ass'ns v City of Los Angeles* (2004) 126 CA4th 1180, 1195, 24 CR3d 543 (adoption or amendment of general plan is legislative act, which is presumed valid, and court cannot inquire into wisdom of legislative act or review merits of local government's policy decisions). In the light of this expansive police power, judicial review of legislative land use decisions, such as enactment of zoning ordinances and adoption or amendment of general plans, is generally limited to determining whether the agency's action was arbitrary, capricious, or entirely lacking in evidentiary support. *Federation of Hillside & Canyon Ass'ns v City of Los Angeles, supra*; *Las Virgenes Homeowners Fed'n v County of Los Angeles* (1986) 177 CA3d 300, 305, 223 CR 18. However, there is ample flexibility in the scope of judicial review to accommodate stricter attitudes toward reasonableness if a court believes that a regulation is enacted in bad faith, as in the case of a hasty change by the city that is focused on the individual property in question. See, *e.g*., *Kieffer v Spencer* (1984) 153 CA3d 954, 961, 200 CR 755 (interim ordinance invalid when city made affirmative representations and then adopted urgency ordinance mandating denial of permit); *Arnel Dev. Co. v City of Costa Mesa* (1981) 126 CA3d 330, 336, 178 CR 723 (initiative measure aimed at defeating specific project); *Ogo Assocs. v City of Torrance* (1974) 37 CA3d 830, 834, 112 CR 761 (evidence that moratorium enacted to block project).

© The Regents of the University of California

§13.9 3. Admissible Evidence in Traditional Mandamus Action

In a traditional mandamus action challenging a quasi-legislative act, the evidence is generally confined to the material before the agency at the time it made its decision, as well as matters subject to judicial notice. *San Joaquin County Local Agency Formation Comm'n v Superior Court* (2008) 162 CA4th 159, 167, 76 CR3d 93; *Carrancho v California Air Resources Bd.* (2003) 111 CA4th 1255, 1269, 4 CR3d 536; *Western States Petroleum Ass'n v Superior Court* (1995) 9 C4th 559, 578, 38 CR2d 139. See Evid C §§450-460 (judicial notice). Extrinsic evidence is admissible only in those rare instances in which (*Western States Petroleum Ass'n, supra*):

- the evidence existed before the decision was made; and
- it was not possible in the exercise of due diligence to present the evidence to the agency before the decision was made.

Extrinsic evidence may, however, be admissible in traditional mandamus cases if the challenged action is a ministerial or an informal administrative action, and the facts are in dispute. *Western States Petroleum Ass'n v Superior Court, supra*.

Because of the rule that evidence in a traditional mandamus proceeding is limited to material before the agency at the time of the action, discovery is generally impermissible in such actions. See *Carrancho v California Air Resources Bd., supra*.

PRACTICE TIP: In dicta, *Western States Petroleum Ass'n* and some court of appeal decisions raised the issue of whether extra-record evidence may be admissible for other purposes, such as to demonstrate agency misconduct. See *Western States Petroleum Ass'n,* 9 C4th at 575 n5; *San Joaquin County Local Agency Formation Comm'n*, 162 CA4th at 169; *Santa Teresa Citizen Action Group v City of San Jose* (2003) 114 CA4th 689, 706, 7 CR3d 868 (observing that in "some cases the extra-record evidence might be admissible to prove that the agency did not proceed as required by law, as when petitioners raise issues such as 'standing …, the accuracy of the administrative record, … procedural unfairness, and … agency misconduct,' " but declining to admit extra-record evidence). However, no published appellate case has yet held that such evidence is admissible.

© The Regents of the University of California

§13.10 4. Burden of Proof in Traditional Mandamus Action

The petitioner contesting the agency's decision generally has the burden of demonstrating the invalidity of the decision by showing that the action was arbitrary, capricious, entirely lacking in evidentiary support, or invalid as a matter of law. *City of Arcadia v State Water Resources Control Board* (2006) 135 CA4th 1392, 1409, 38 CR3d 373; *Citizens for Improved Sorrento Access, Inc. v City of San Diego* (2004) 118 CA4th 808, 814, 13 CR3d 259. But see *Silicon Valley Taxpayers' Ass'n, Inc. v Santa Clara County Open Space Auth.* (2008) 44 C4th 431, 448, 79 CR3d 312 (based on language of constitutional provisions, public agency must demonstrate that it complied with applicable procedural and substantive provisions of Proposition 218). For example, a person attacking the application of a zoning ordinance to particular property must produce sufficient evidence from which the court can make findings that will justify it in concluding that the regulation is unreasonable and invalid as a matter of law. *Wilkins v City of San Bernardino* (1946) 29 C2d 332, 338, 175 P2d 542.

PRACTICE TIP: If the action in mandamus presents no triable issue of fact or is based solely on the administrative record, consider filing a motion for judgment on the writ petition under CCP §1094.

© The Regents of the University of California

§13.11 a. Reasonable Relation Test

Generally, if the underlying act involves the exercise of discretionary legislative power, courts will interfere by mandamus only if the action taken is so palpably unreasonable and arbitrary as to indicate an abuse of discretion as a matter of law. See *Carrancho v California Air Resources Bd.* (2003) 111 CA4th 1255, 1265, 4 CR3d 536. This is a highly deferential standard. *Carrancho v California Air Resources Bd., supra*. For example, the court will not set aside or disregard the decision of the city council as to matters of opinion and policy unless (*Lockard v City of Los Angeles* (1949) 33 C2d 453, 202 P2d 38):

- The regulation has no reasonable relation to the public welfare, or
- The objective facts show that there has been an oppressive or unwarranted interference with property rights in the exercise of the police power.

© The Regents of the University of California

§13.12 b. Presumption of Validity

The trial court must presume that the decisions of the agency or public official are correct. *California Teachers Ass'n v Ingwerson* (1996) 46 CA4th 860, 865, 53 CR2d 917. Every intendment is indulged in favor of the validity of the regulation. *Town of Los Altos Hills v Adobe Creek Props., Inc.* (1973) 32 CA3d 488, 508, 108 CR 271. In addition, the trial court must presume that an official duty has been regularly performed. Evid C §664.

PRACTICE TIP: Although Evid C §664 and case law presume that actions taken by the agency were properly performed, it is good practice to ensure that the agency has documentary support for all of its actions that can be included as part of any court proceedings.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/13 Liability and Litigation/§13.13 c. Exhaustion of Administrative Remedies

§13.13 c. Exhaustion of Administrative Remedies

Available administrative remedies must be exhausted before filing a mandamus action. *Metcalf v County of Los Angeles* (1944) 24 C2d 267, 269, 148 P2d 645.

NOTE: This rule does not apply when an administrative remedy is unavailable or inadequate. *Tiernan v Trustees of Cal. State Univ. & Colleges* (1982) 33 C3d 211, 217, 188 CR 115.

To exhaust administrative remedies, a petitioner must (*Campbell v Regents of Univ. of Cal.* (2005) 35 C4th 311, 321, 25 CR3d 320; *Park Area Neighbors v Town of Fairfax* (1994) 29 CA4th 1442, 1447, 35 CR2d 334):

- Pursue any available administrative remedy or procedure offered by the public agency's ordinances, rules, or procedures, including any administrative appeals; and
- Present all legal and factual issues supporting the petitioner's position to the public agency before filing suit.

Generally, a plaintiff must plead facts demonstrating exhaustion of administrative remedies; the failure to do so is a jurisdictional defect. *Pan Pac. Props., Inc. v County of Santa Cruz* (1978) 81 CA3d 244, 251, 146 CR 428 (conclusory allegation in complaint that plaintiffs "have exhausted their administrative remedies" is insufficient). See *State v Superior Court (Bodde)* (2004) 32 C4th 1234, 1239, 13 CR3d 534 (failure to plead exhaustion in government claims context is properly raised by demurrer).

Failure to exhaust administrative remedies may be raised as an affirmative defense. *San Franciscans Upholding the Downtown Plan v City & County of San Francisco* (2002) 102 CA4th 656, 686, 125 CR2d 745.

PRACTICE TIP: Affirmative defenses may be found to have been waived unless raised in the answer or other responsive pleading. See, *e.g., Minton v Cavaney* (1961) 56 C2d 576, 581, 15 CR 641 (statute of limitations); *Epperson v Rosemond* (1950) 100 CA2d 344, 345, 223 P2d 655 (estoppel). Because failure to exhaust administrative remedies is generally considered to be a jurisdictional requirement that must be properly pleaded by the plaintiff (see *Tahoe Vista Concerned Citizens v County of Placer* (2000) 81 CA4th 577, 589, 96 CR2d 880), a city could reasonably take the position that failure to raise the defense in a responsive pleading is not a waiver. See *People v Coit Ranch, Inc.* (1962) 204 CA2d 52, 57, 21 CR 875 (failure to exhaust administrative remedies defense not subject to waiver and may be raised at any point in proceedings). But see *Mission Hous. Dev. Co. v City & County of San Francisco* (1997) 59 CA4th 55, 67, 69 CR2d 185 (failure to exhaust administrative remedies defense may be waived if not raised). However, to avoid a claim of waiver, the better practice is to include the failure to exhaust administrative remedies defense in the answer or other responsive pleading.

© The Regents of the University of California

§13.14 5. Statute of Limitations Applicable to Traditional Mandamus Actions

Code of Civil Procedure §1085 contains no statute of limitations. The applicable statute of limitations will be provided by other statutes. See, *e.g.,* CCP §§338(a) (3-year statute of limitations for liability created by statute); Govt C §65009(c)(1) (90-day statute of limitations for land use matters); Pub Res C §21167 (30- to 180-day statute of limitations under CEQA). The substance of the claim, rather than the form of the action or relief sought, determines the applicable statute of limitations. See *Hensler v City of Glendale* (1994) 8 C4th 1, 22, 32 CR2d 244, cert denied (1995) 513 US 1184. A specific statute of limitations will control over a general provision. See *Howard Jarvis Taxpayers Ass'n v City of Los Angeles* (2000) 79 CA4th 242, 93 CR2d 742.

© The Regents of the University of California

§13.15 6. Appeal of Orders in Traditional Mandamus Actions

An order or ruling on a petition for writ of mandate that contemplates no further action and disposes of all of the issues between the parties may be an appealable order, triggering the time period for a party to file a notice of appeal. *Laraway v Pasadena Unified Sch. Dist.* (2002) 98 CA4th 579, 583, 120 CR2d 213. Courts have treated orders denying petitions as final judgments for appellate purposes. See, *e.g*., *Townsel v San Diego Metro. Transit Board* (1998) 65 CA4th 940, 944 n1, 77 CR2d 231. However, if other causes of action remain pending between the parties after the denial of a petition for a writ of mandate, the denial is not appealable. *Griset v Fair Political Practices Comm'n* (2001) 25 C4th 688, 697, 107 CR2d 149.

© The Regents of the University of California

§13.16 B. Administrative Mandamus

Administrative mandamus is used to review "quasi-judicial" or "adjudicatory" decisions that involve application of a rule or set of rules to a specific project or a set of existing facts or circumstances. *California Water Impact Network v Newhall County Water Dist.* (2008) 161 CA4th 1464, 1482, 75 CR3d 393. Administrative mandamus is appropriate to review a public agency's determination, finding, or decision, made as a result of a proceeding in which by law a hearing is required, evidence is required to be taken, and discretion in the determination of facts is vested in a public agency. *California Water Impact Network v Newhall County Water Dist., supra*. The statutory authority for administrative mandamus actions is CCP §1094.5.

Administrative mandamus extends to final administrative decisions made as a result of proceedings in which the law requires a hearing to be given and evidence to be taken, and when the local agency decision-maker is vested with discretion in the determination of facts. CCP §1094.5(a). When acting in an adjudicatory capacity, a city must support its determination by written findings. See *Topanga Ass'n for a Scenic Community v County of Los Angeles* (1974) 11 C3d 506, 515, 113 CR 836; *Bam, Inc. v Board of Police Comm'rs* (1992) 7 CA4th 1343, 1346, 9 CR2d 738 (findings are not to be after-the-fact ad hoc rationalization for decision already made).

PRACTICE TIP: For a discussion and examples of findings, see Bridging the Gap: Using Findings in Local Land Use Decisions (2d ed 1989), published by the Governor's Office of Planning and Research, Legislative Unit, 1400 Tenth St., Room 250, Sacramento, CA 95814, (telephone (916) 445-4831) and available on the Internet at http://ceres.ca.gov/planning/ (click on "Reports and Publications").

On administrative mandamus, see California Civil Writ Practice, chap 3 (4th ed Cal CEB 2008).

© The Regents of the University of California

§13.17 1. Scope of Review in Administrative Mandamus Actions

Judicial inquiry in an administrative mandamus action is limited to (CCP §1094.5(b)):

- whether the agency has proceeded without, or in excess of, jurisdiction;
- whether there was a fair hearing; and
- whether there was any prejudicial abuse of discretion.

See *Pomona College v Superior Court* (1996) 45 CA4th 1716, 1729, 53 CR2d 662 (discussing "fair trial" inquiry); *Larson v State Personnel Bd.* (1994) 28 CA4th 265, 273, 33 CR2d 412 (analyzing whether agency acted in excess of its jurisdiction).

Abuse of discretion is established when (CCP §1094.5(b)):

- the agency has not proceeded in the manner required by law;
- the order or decision is not supported by the findings; or
- the findings are not supported by the evidence.

See *Topanga Ass'n for a Scenic Community v County of Los Angeles* (1974) 11 C3d 506, 514, 113 CR 836 (discussing abuse of discretion standard); *Evans v DMV* (1994) 21 CA4th 958, 967 n1, 26 CR2d 460, cert denied (1994) 513 US 825 (quoting CCP §1094.5(b)).

© The Regents of the University of California

§13.18 a. Standard of Review in Administrative Mandamus Actions

When an adjudicatory decision is challenged on the basis that the decision- making body has abused its discretion in that the findings are not supported by the evidence, the standard of review is normally the substantial evidence test; however, the independent judgment test applies when the decision substantially affects a fundamental vested right. CCP §1094.5(b)-(c); *Strumsky v San Diego County Employees Retirement Ass'n* (1974) 11 C3d 28, 44, 112 CR 805; *Goat Hill Tavern v City of Costa Mesa* (1992) 6 CA4th 1519, 1525, 8 CR2d 385.

© The Regents of the University of California

§13.19 (1) Substantial Evidence Test

Under the substantial evidence test, the court must determine whether

- substantial evidence supports the administrative findings, and
- the findings support the decision.

These determinations are made in light of the whole administrative record, including evidence that detracts from the decision. Thus, the court engages in a "limited" weighing process, reversing the administrative decision only if a reasonable person could not have reached the agency's conclusion. CCP §1094.5; *Topanga Ass'n for a Scenic Community v County of Los Angeles* (1974) 11 C3d 506, 515, 113 CR 836; *Dunn v County of Santa Barbara* (2006) 135 CA4th 1281, 1289, 38 CR3d 316; *Kirkorowicz v California Coastal Comm'n* (2000) 83 CA4th 980, 986, 100 CR2d 124.

© The Regents of the University of California

§13.20 (2) Independent Judgment Test

Under the independent judgment test, abuse of discretion is established if the court determines that the findings are not supported by the weight of the evidence. CCP §1094.5(c); *Strumsky v San Diego County Employees Retirement Ass'n* (1974) 11 C3d 28, 31, 112 CR 805; *San Benito Foods v Veneman* (1996) 50 CA4th 1889, 1895, 58 CR2d 571. See also *Paoli v California Coastal Comm'n* (1986) 178 CA3d 544, 550, 223 CR 792.

© The Regents of the University of California

§13.21 b. Admissible Evidence in Administrative Mandamus Actions

Generally, the court is limited to a review of the administrative record before the city at the time of the decision. *Cadiz Land Co. v Rail Cycle, L.P.* (2000) 83 CA4th 74, 117, 99 CR2d 378. A court may consider relevant extra-record evidence that existed at the time of the decision if (1) the evidence could not have been produced at the administrative hearing in the exercise of reasonable diligence; and (2) the evidence was improperly excluded by the city. CCP §1094.5(e); *Cadiz Land Co. v Rail Cycle, L.P., supra* (citing *Western States Petroleum Ass'n v Superior Court* (1995) 9 C4th 559, 38 CR2d 139); *Evans v DMV* (1994) 21 CA4th 958, 977, 26 CR2d 460, cert denied (1994) 513 US 825. See *Carrancho v California Air Resources Bd.* (2003) 111 CA4th 1255, 1270, 4 CR3d 536 (noting that contrary rule would improperly encourage interested parties to withhold important evidence at administrative level to use it more effectively to undermine agency's action in court).

© The Regents of the University of California

§13.22 c. Burden of Proof in Administrative Mandamus Actions

The party challenging the city's decision or findings has the burden of proving that the administrative decision is unsupported by the evidence. *International Bhd. of Elec. Workers, Local 889 v Aubry* (1996) 42 CA4th 861, 870, 50 CR2d 1; *Pescosolido v Smith* (1983) 142 CA3d 964, 970, 191 CR 415.

© The Regents of the University of California

§13.23 2. Statute of Limitations Applicable to Administrative Mandamus Actions

Code of Civil Procedure §1094.6(b) imposes a 90-day statute of limitations on specified actions brought under CCP §1094.5. See CCP §1094.6(e) (specifying types of actions subject to CCP §1094.6). However, in order for the 90-day statute of limitations to apply, the local agency must notify the aggrieved party at the time the decision is final that the time during which judicial review may be sought is governed by CCP §1094.6. CCP §1094.6(f). If there is a provision for a written decision or findings, the decision is considered final, and the 90-day statute of limitations commences, on the date the written decision is mailed to the aggrieved party with a copy of the affidavit or certificate of mailing. CCP §1094.6(b). The certificate of mailing must be prepared at the time of mailing; an after-the-fact declaration of mailing is insufficient to demonstrate that the decision was properly mailed. See *Donnellan v City of Novato* (2001) 86 CA4th 1097, 1107, 103 CR2d 882. If any shorter statute of limitations applies (see, *e.g.,* Govt C §65009; Pub Res C §21167), the shorter limitations period controls. CCP §1094.6(g).

PRACTICE TIP: Because the 90-day statute of limitations begins to run on the date a written decision is mailed to the aggrieved party, be sure to keep copies of the proof of mailing on file with the city. This will provide documentary evidence of the commencement of the statute of limitations if the action is filed after the expiration of the limitations period.

NOTE: Code of Civil Procedure §1094.8 provides for an expedited review of challenges to a denial or revocation of a permit to engage in expressive activity.

© The Regents of the University of California

§13.24 C. Constitutional Limitations on Mandate/Judicial Review of Legislation

Constitutional provisions limit the scope of legislation. See, *e.g.,* US Const amend XIV; Cal Const art I, §7. The level of judicial scrutiny applied to the legislation depends on the classification or interest impacted.

PRACTICE TIP: For related material regarding rules of procedure and decorum, procedures that regulate public speech, see §§2.16-2.25; on voters and the Voting Rights Acts, see §§3.62-3.79; campaign regulations, see §§3.176-3.224; on recruitment and qualifications, affirmative action, see §§4.6-4.11; on antidiscrimination laws, see §§4.139-4.268; on public works contracts, affirmative action, see 7.28-7.34; on regulation of adult businesses, see §§9.6-9.16; on rent control, see §§9.47-9.60; on regulating personal conduct, due process, see §§9.82-9.83, 9.102-9.103; on freedom of speech and the First Amendment, see §§9.76, 9.108, 9.118-9.153; and on land use challenges, see 10.362-10.445.

© The Regents of the University of California

§13.25 1. Equal Protection (Discriminatory Classification)

Social and economic legislation is presumed to be constitutional, and a finding of invalidity requires a showing that the legislation fails to bear any rational relationship to a conceivable legitimate purpose. *Associated Home Builders, Inc. v City of Livermore* (1976) 18 C3d 582, 604, 135 CR 41 (when it is "fairly debatable" that local legislative act bears reasonable relation to general welfare, legislative act will be upheld). See US Const amend XIV; Cal Const art I, §7.

The rational relationship test is usually applied to zoning regulations because, as a rule, zoning ordinances are not drafted in a way that obviously entails a suspect classification or touches a fundamental interest. In only a few instances have zoning regulations been reviewed under the strict scrutiny test. See *Hernandez v City of Hanford* (2007) 41 C4th 279, 299, 59 CR3d 442. Spot zoning is said to exist when a small parcel is restricted and given fewer rights than the current surrounding property. This classification is often said to subject an "island" of property to greater restrictions than the "sea" of property around it. Courts have varied on determining the validity of such regulations. See *Wilkins v City of San Bernardino* (1946) 29 C2d 332, 340, 175 P2d 542; *Ross v City of Yorba Linda* (1991) 1 CA4th 954, 2 CR2d 638 (invalid); *City of Orange v Valenti* (1974) 37 CA3d 240, 112 CR 379 (invalid); *People ex rel Dep't of Pub. Works v Southern Pac. Transp. Co.* (1973) 33 CA3d 960, 109 CR 525 (invalid); *Scrutton v County of Sacramento* (1969) 275 CA2d 412, 79 CR 872 (valid).

Legislation drawing classifications based on gender are analyzed under a heightened level of scrutiny and must be substantially related to an important government interest. *Mississippi Univ. for Women v Hogan* (1982) 458 US 718, 723, 73 L Ed 2d 1090, 102 S Ct 3331. See *City of Cleburne v Cleburne Living Ctr.* (1985) 473 US 432, 441, 87 L Ed 2d 313, 105 S Ct 3249 (noting standard of review for gender cases).

Legislation drawing classifications based on race or national origin (suspect classifications) are analyzed under the "strict scrutiny" standard and will be upheld only if the classification is narrowly drawn to serve a compelling governmental interest. *Grutter v Bollinger* (2003) 539 US 306, 326, 156 L Ed 2d 304, 123 S Ct 2325.

© The Regents of the University of California

§13.26 2. Substantive Due Process (Arbitrary or Unreasonable Regulation)

Courts generally will uphold local ordinances or regulations if they reasonably relate to public welfare or a legitimate government interest. *Village of Euclid v Ambler Realty Co.* (1926) 272 US 365, 387, 71 L Ed 303, 47 S Ct 114; *Griffin Dev. Co. v City of Oxnard* (1985) 39 C3d 256, 263, 217 CR 1 (standard of review of economic regulations); *Associated Home Builders, Inc. v City of Livermore* (1976) 18 C3d 582, 601, 135 CR 41 (regional welfare must be considered if regulation has significant effect beyond agency's boundaries).

On procedural rules used to support the validity of regulation, see §§13.10-13.13.

© The Regents of the University of California

§13.27 3. Ripeness

An agency action is not reviewable by the courts until it is final and thus "ripe" for adjudication. *Santa Teresa Citizen Action Group v City of San Jose* (2003) 114 CA4th 689, 708, 7 CR3d 868; *Board of Med. Quality Assur. v Superior Court* (1977) 73 CA3d 860, 862, 141 CR 83. Constitutional claims based on a taking of property are not "ripe" until the agency has made a final decision on how the plaintiff could develop the property, including a meaningful development application and a variance application. *Herrington v County of Sonoma* (9th Cir 1987) 834 F2d 1488, 1494.

© The Regents of the University of California

III. GOVERNMENT CLAIMS ACT

§13.28 A. Claims Requirement

Under the Government Claims Act (formerly known as the Tort Claims Act) (Govt C §§810-998.3), most actions seeking money or damages against a public entity or public employee acting within the scope of his or her employment in California must be preceded by a proper administrative claim. Govt C §905.

Failure to present a timely claim and allege facts demonstrating or excusing compliance with the claim presentation requirement (see §13.49) subjects a complaint to a general demurrer. *State v Superior Court (Bodde)* (2004) 32 C4th 1234, 1239, 13 CR3d 534. Cities may also impose their own local claims requirements in cases in which the claims statutes would not otherwise require a claim. See Govt C §935. On claim presentation procedures under the Government Claims Act, see §§13.42-13.61.

For an overview of the Government Claims Act, see California Government Tort Liability Practice, chap 1 (4th ed Cal CEB 1999).

© The Regents of the University of California

§13.29 B. Actions for Which Claims Are Required

Rather than specifying that a claim is required in a particular case, the Government Claims Act (Govt C §§810-998.3) takes an exclusionary approach with respect to actions against public entities and public employees, and provides that a claim is required unless the action is excepted. See Govt C §905. See California Government Tort Liability Practice §§5.20-5.35 (4th ed Cal CEB 1999).

The claims requirement applies to:

- **Personal injury actions**. See *Loehr v Ventura County Community College Dist.* (1983) 147 CA3d 1071, 1081, 195 CR 576 (humiliation and damage to reputation); *Shelton v Superior Court* (1976) 56 CA3d 66, 82, 128 CR 454 (loss of consortium); *Miller v Hoagland* (1966) 247 CA2d 57, 60, 55 CR 311 (slander). The claims requirement applies to intentional torts as to both persons and property. *Toscano v County of Los Angeles* (1979) 92 CA3d 775, 782, 155 CR 146 (false arrest); *Cooper v Jevne* (1976) 56 CA3d 860, 871, 128 CR 724 (fraud); *Collins v County of Los Angeles* (1966) 241 CA2d 451, 454, 50 CR 586 (false arrest and imprisonment); *Tietz v Los Angeles Unified Sch. Dist.* (1965) 238 CA2d 905, 911, 48 CR 245 (intentional infliction of emotional distress).
- **Contract actions**. See *City of Stockton v Superior Court* (2007) 42 C4th 730, 737, 68 CR3d 295 (development agreement); *Schaefer Dixon Assocs. v Santa Ana Watershed Project Auth.* (1996) 48 CA4th 524, 532, 55 CR2d 698 (public works project); *Loehr v Ventura County Community College Dist.* (1983) 147 CA3d 1071, 1077, 195 CR 576 (implied covenant of good faith and fair dealing and employment); *Baillargeon v Department of Water & Power* (1977) 69 CA3d 670, 682, 138 CR 338 (promissory estoppel); *Voth v Wasco Pub. Util. Dist.* (1976) 56 CA3d 353, 355, 128 CR 608 (irrigation contract); *Magnus v Jackson* (1973) 31 CA3d 399, 107 CR 287 (appointed criminal defense counsel's claim for fees); *Myers v County of Orange* (1970) 6 CA3d 626, 636, 86 CR 198 (employment contract).
- **Real and personal property damage actions**. *Mehl v People ex rel Dep't of Pub. Works* (1975) 13 C3d 710, 716, 119 CR 625; *Amador Valley Investors v City of Livermore* (1974) 43 C3d 483, 491, 117 CR 749; *State ex rel Dep't of Transp. v Superior Court* (1984) 159 CA3d 331, 334, 205 CR 518; *Wheeler v County of San Bernardino* (1978) 76 CA3d 841, 846, 143 CR 295.
- **Statutory actions**. *Pacific Tel. & Telegraph Co. v County of Riverside* (1980) 106 CA3d 183, 193, 165 CR 29.
- **Class actions**. *Dhuyvetter v City of Fresno* (1980) 110 CA3d 659, 664, 168 CR 61.
- **Subrogation actions**. *Commercial Union Assurance Co. v City of San Jose* (1982) 127 CA3d 730, 733, 179 CR 814.
- **Indemnification actions**. Govt C §901; *Gehman v Superior Court* (1979) 96 CA3d 257, 158 CR 62, overruled on other grounds in *People ex rel Dep't of Transp. v Superior Court* (1980) 26 C3d 744, 750, 163 CR 585.
- **Actions against public employees**. Govt C §950.2 (suit against public employee acting in scope of his or her employment is barred if plaintiff has not complied with claim filing requirements applicable to employee's employer).

NOTE: The only exception to the requirement that a claim must be filed in an action against a public employee acting in the scope of his or her employment is if the plaintiff pleads and proves that he or she neither knew nor should have known either that: (1) the injury was caused by the public entity; or (2) the injury was caused by an employee of the public entity in the scope of his or her employment as a public employee. Govt C §950.4.

- **Actions brought by minors or incompetents**. But see Govt C §946.6(c)(2) (minors and incompetents may be able to obtain late claim relief). See also *Hernandez v County of Los Angeles* (1986) 42 C3d 1020, 1027, 232 CR 519; *Nguyen v Los Angeles County Harbor/UCLA Med. Ctr.* (1992) 8 CA4th 729, 733, 10 CR2d 709 (parents' cause of action not same as minors'). See also §13.51.

Source: General Interest/The California Municipal Law Handbook/13 Liability and Litigation/§13.30 C. Actions for Which Claims Are Not Required

§13.30 C. Actions for Which Claims Are Not Required

The legislature has exempted certain types of actions from the claim requirement, sometimes when there is a similar procedure that meets the same purpose. Other actions are exempted on constitutional grounds or are simply not within the statute. See California Government Tort Liability Practice §§5.36-5.56 (4th ed Cal CEB 1999).

© The Regents of the University of California

§13.31 a. Statutory Exceptions

Certain exceptions to the claim requirement are found in Govt C §905 and include:

- Claims related to tax matters and assessments. Govt C §§905(a), (h). On procedures for claims for refund of taxes claimed to be erroneously or illegally determined or collected, see §5.93.
- Mechanics and other construction liens. Govt C §905(b).
- Claims for salary, expenses, pension benefits, workers' compensation, and unemployment compensation. See Govt C §905(c)-(d), (f), (j). But see *Dalton v East Bay Mun. Util. Dist.* (1993) 18 CA4th 1566, 1573, 23 CR2d 230 (class action to recover money and benefits under pension system required compliance when tortious wrongdoing alleged).
- Welfare claims. See Govt C §905(e).
- Claims on bonds, notes, or other evidence of indebtedness and other public-financing matters. See Govt C §905(g).
- Claims by public entities. See Govt C §905(i). But see *City of Ontario v Superior Court* (1993) 12 CA4th 894, 898, 16 CR2d 32 (state required to comply with claim requirement when city exercises authority under Govt C §935 and mandates compliance with Government Claims Act (Govt C §§810-998.3)).
- Claims to penalties withheld on public works projects. See Govt C §905(k).
- Claims concerning the creation of pedestrian malls. See Govt C §905(l).

© The Regents of the University of California

§13.32 b. Actions for Relief Other Than Money or Damages

Because the Government Claims Act (Govt C §§810-998.3) limits the claim requirement to actions for "money or damages," actions for other relief do not require a claim. See Govt C §905. This is not strictly an exception to the general rule, but rather outside its scope. The term "money or damages" includes both actions for tort and actions for breach of contract. *Baines Pickwick Ltd. v Los Angeles* (1999) 72 CA4th 298, 304, 85 CR2d 74. However, the claims statutes apply to any "injury," and injury is construed broadly to include "death, injury to a person, damage to or loss of property, or any other injury that a person may suffer to his person, reputation, character, feelings or estate, of such nature that it would be actionable if inflicted by a private person." Govt C §810.8.

Such actions for other relief include:

- **Declaratory relief actions**. *Minsky v Los Angeles* (1974) 11 C3d 113, 121, 113 CR 102; *Otis v City of Los Angeles* (1942) 52 C2d 605, 611, 126 P2d 954. See CCP §1060.
- **Actions for recovery of seized property or damages in lieu thereof**. *Holt v Kelly* (1978) 20 C3d 560, 565 n5, 143 CR 625; *Long v City of Los Angeles* (1998) 68 CA4th 782, 787, 80 CR2d 583; *Hibbard v City of Anaheim* (1984) 162 CA3d 270, 277, 208 CR 733.
- **Mandamus actions for the release of funds** (*County of Sacramento v Lackner* (1979) 97 CA3d 576, 588, 159 CR 1) **or return of property** (*Minsky v City of Los Angeles* (1974) 11 C3d 113, 123, 113 CR 102). See also *Eureka Teacher's Ass'n v Board of Educ.* (1988) 202 CA3d 469, 475, 247 CR 790 (mandamus action for reinstatement and back pay).
- **Injunction to abate nuisance**. *Los Angeles Brick & Clay Prods. Co. v City of Los Angeles* (1943) 60 C2d 478, 486, 141 P2d 46. But see *City of San Jose v Superior Court* (1974) 12 C3d 447, 454, 115 CR 797 (action for monetary relief on nuisance theory).
- **Action on a judgment.** *Barkley v City of Blue Lake* (1996) 47 CA4th 309, 316, 54 CR2d 679.
- **Action for employment discrimination brought under Fair Employment and Housing Act (FEHA) (Govt C §§12900-12996)**. *Garcia v Los Angeles Unified Sch. Dist.* (1985) 173 CA3d 701, 710, 219 CR 544.
- **Inverse condemnation actions.** Govt C §905.1. See also CCP §1245.060 (action for damages resulting from pre-condemnation studies and tests is exempt from claims requirement).
- **Federal civil rights actions.** *Williams v Horvath* (1976) 16 C3d 834, 842, 129 CR 453 (claims under 42 USC §1983); *Sethy v Alameda County Water Dist.* (9th Cir 1976) 545 F2d 1157, 1161 (claims under 42 USC §1981); *Adler v Los Angeles Unified Sch. Dist.* (1979) 98 CA3d 280, 288, 159 CR 528.

PRACTICE TIP: Because many types of claims against public entities could be alleged as violations of federal civil rights laws, the lack of a claim requirement in federal civil rights actions constitutes a major exception to the claims requirement. However, when actions in federal or state courts contain both federal causes of action and state tort (or other state law) causes of action, those state law causes of action may be dismissed if the claim procedures have not been followed. *Ellis v City of San Diego* (9th Cir 1999) 176 F3d 1183, 1189; *Karim-Panahi v Los Angeles Police Dep't* (9th Cir 1988) 839 F2d 621, 627.

- **Actions seeking multiple kinds of relief.** A complaint seeking both non-monetary and monetary relief presents difficult questions, and the cases are in conflict. The general test is whether the monetary relief sought is "incidental" or "ancillary" to the non-monetary relief, or vice-versa. See *Loehr v Ventura County Community College Dist.* (1983) 147 CA3d 1071, 1081, 195 CR 576 (claim required for petition for mandamus to reinstate employee that was held "incidental" to complaint for money based on breach of contract). See also *Eureka Teacher's Ass'n v Board of Educ.* (1988) 202 CA3d 469, 475, 247 CR 790.

© The Regents of the University of California

§13.33 c. Public Entity's Defenses

When a public entity brings an action, no claim is required to assert affirmative defenses or defensive cross-complaints. *Krainock v Superior Court* (1990) 216 CA3d 1473, 1478, 265 CR 715.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/13 Liability and Litigation/§13.34 d. Actions Based on Roster of Public Agencies

§13.34 d. Actions Based on Roster of Public Agencies

If a public agency is required to maintain information concerning itself in the Roster of Public Agencies and does not do so, then no claim is required. Govt C §946.4(a)(1).

© The Regents of the University of California

§13.35 (1) Which Agencies Must File Information

The public agencies required to file information include all political subdivisions, districts, authorities, and public corporations, except cities and counties. Govt C §§53050, 53051. Operating units of municipalities are not required to file (see *Hovd v Hayward Unified Sch. Dist.* (1977) 74 CA3d 470, 472, 141 CR 527); however, independent local entities, frequently created as financing mechanisms, must keep current information on file.

PRACTICE TIP: The information filing requirements and the consequences of failure to comply are sometimes overlooked. It is crucial that the rosters for joint powers authorities, redevelopment agencies, other financing authorities, and all other subdivisions, districts, authorities, and public corporations, except cities and counties, be filed and kept up-to-date.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/13 Liability and Litigation/§13.36 (2) Information Required

§13.36 (2) Information Required

The information required in the Roster of Public Agencies includes the name and address of the agency and the names and addresses of its governing board and officers; it must be updated to reflect changes. Govt C §§946.4(a), 53051. The information must be filed with the Secretary of State and the county clerk in each county in which the entity maintains an office. There is no requirement of a showing of actual deception or confusion on the part of the claimant when an agency has failed to comply with roster information. *Wilson v San Francisco Redev. Agency* (1977) 19 C3d 555, 562, 138 CR 720.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/13 Liability and Litigation/§13.37 (3) When Information Must Be Filed

§13.37 (3) When Information Must Be Filed

The information must be on file within 70 days after accrual of the claimant's cause of action. Govt C §946.4(a).

© The Regents of the University of California

§13.38 e. Cross-Complaints in Actions Commenced by Entity

When an entity brings an action against a party, a cross-complaint arising out of the same transaction can generally be filed without filing a claim, as long as the cross-complaint does not inject new matter into the action. *Krainock v Superior Court* (1990) 216 CA3d 1473, 1478, 265 CR 715.

© The Regents of the University of California

§13.39 f. Local Claim Requirements

By its own action, a local public entity may impose a claim requirement in cases in which the government claims statutes would not require a claim. See Govt C §935. See also *City of Ontario v Superior Court* (1993) 12 CA4th 894, 903,16 CR2d 32 (state's failure to comply with local claims requirement barred indemnity claim). A local public entity may establish its own claim requirement for claims relating to local taxes. *Pasadena Hotel Dev. Venture v City of Pasadena* (1981) 119 CA3d 412, 414, 174 CR 52. On procedures for claims for refund of taxes claimed to be erroneously or illegally determined or collected, see §5.93. Claims for back wages may be precluded by failure to comply with a local ordinance adopted under Govt C §935. *California Sch. Employees Ass'n v Azusa Unified Sch. Dist.* (1984) 152 CA3d 580, 586, 199 CR 635. This option is not available, however, with respect to inverse condemnation actions and federal civil rights actions. See Govt C §901; *Sethy v Alameda County Water Dist.* (9th Cir 1976) 545 F2d 1157, 1161 (involving claims under 42 USC §1981); *Williams v Horvath* (1976) 16 C3d 834, 842, 129 CR 453 (involving claims under 42 USC §1983).

NOTE: In the absence of explicit language to the contrary, a locally adopted claims procedure will not be applied retroactively to previous accrued claims. *Adler v Los Angeles Unified Sch. Dist.* (1979) 98 CA3d 280, 287, 159 CR 528.

© The Regents of the University of California

§13.40 (1) By Ordinance

A local public entity may impose a claims requirement by charter provision or ordinance as to those matters listed in Govt C §905, unless the action is governed by some other statute or regulation "expressly relating thereto." Govt C §935.

PRACTICE TIP: Government Code §935 specifically empowers local public entities to establish their own policies and procedures for the presentation of those claims excepted by Govt C §905, provided that the local claims requirements are similar to, and no more restrictive than, those established by the Government Claims Act. Local public entities should establish procedures by ordinance for those claims that are otherwise exempted by Govt C §905. See *City of Ontario v Superior Court* (1993) 12 CA4th 894, 898, 16 CR2d 32. On claims for refund of taxes alleged to be improperly collected, see §5.93.

© The Regents of the University of California

§13.41 (2) By Contract

A public entity may include in its written contracts a specified procedure for claims, either explicitly or by incorporating a specified ordinance or resolution. Govt C §930.2. See *Arntz Builders v City of Berkeley* (2008) 166 CA4th 276, 279, 82 CR3d 605 (claim procedure in contract). But see Pub Cont C §§20104-20104.6 (specifying certain procedures for public works claims). The contractual procedure may specify a shorter time to present a claim than would otherwise be required and may include a requirement that a claim be presented and acted on before bringing suit. Govt C §§930.4, 930.6.

If a contractual claim procedure is established, it governs to the exclusion of the statutory provisions unless the claim period specified is less than 1 year, in which case the late claim procedures set out in the Government Claims Act apply. Govt C §930.4.

PRACTICE TIP: This is another easy way to protect public entities. All contracts should incorporate a resolution or ordinance essentially duplicating the statutory claim procedure for claims.

© The Regents of the University of California

D. Claim Presentation Procedures

§13.42 1. What Constitutes a Sufficient Claim

A claim need not be perfect, or even close to meeting all of the requirements. Any document received by a public entity indicating that monetary damages are sought and that litigation may ensue should be treated as a claim. A claim that does not include the information necessary for investigation and consideration is insufficient. The entity can seek further information by sending a notice of insufficiency within 20 days after the claim presentation. Govt C §910.8. A failure to treat the document as a claim may result in a loss of claim defenses. See Govt C §§910.8, 911.

Government Code §915 requires a claim to be delivered or mailed to the clerk, secretary, auditor, or governing body of the local public entity.

On the contents and form of a claim, see California Government Tort Liability Practice §§6.1-6.10 (4th ed Cal CEB 1999).

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/13 Liability and Litigation/§13.43 a. Required Contents

§13.43 a. Required Contents

Claims must contain all of the following (Govt C §910):

- Name and mailing address of the claimant;
- Mailing address to which notices should be sent;
- Date, place, and circumstances giving rise to the claim;
- General description of the injury, damage, or loss for which the claimant seeks payment;
- Name of any public employee causing the loss, if known; and
- Amount claimed and basis of computation if the claim is under $10,000 (if the amount is over $10,000, no amount is to be included, but the claim must indicate whether the claim would be a limited civil case, *i.e.,* $25,000 or less).

The claim must also be signed, either by the claimant or some person on the claimant's behalf, unless the claim is by a vendor, in which case it can be presented on the vendor's bill or invoice. Govt C §910.2.

© The Regents of the University of California

§13.44 b. Use of Local Forms

A local public entity may provide its own claim form that may require additional content, as long as it meets the requisites of Govt C §§910 and 910.2. The person presenting a claim should use the entity's form for his or her claim to be deemed in conformity with Govt C §§910 and 910.2. Govt C §910.4. The entity's form could provide for the inclusion of more information than required by the Government Code, as such information that may materially assist the entity in investigating and evaluating the merits of the claim.

PRACTICE TIP: Do not rely too heavily on the use of locally adopted forms. As indicated in §13.46, courts have been willing to treat unconventional submittals as claims for purposes of the claims statutes.

© The Regents of the University of California

§13.45 c. Substantial Compliance With Claim Presentation Requirements

Claims may be rather general and vague. Substantial compliance with the claims requirement is all that is required. *Wheeler v County of San Bernardino* (1978) 76 CA3d 841, 847, 143 CR 295. To substantially comply with the claims requirement, a claimant must make an effort to supply each of the essential elements of a claim. *Loehr v Ventura County Community College Dist.* (1983) 147 CA3d 1071, 1083, 195 CR 576. However, a material defect or omission in a claim precludes a finding of substantial compliance. *Hall v City of Los Angeles* (1941) 19 C2d 198, 202, 120 P2d 13 (failure to designate location of accident was not substantial compliance); *Del Real v City of Riverside* (2002) 95 CA4th 761, 769, 115 CR2d 705 (letter from potential claimant's attorney to city employee alleged to have caused car accident indicating that attorney was investigating and seeking information about accident and insurance coverage was not claim); *Dilts v Cantua Elementary Sch. Dist.* (1987) 189 CA3d 27, 36, 234 CR 612 (letters between attorneys do not equal claim). But see *Johnson v City of Oakland* (1961) 188 CA2d 181, 184, 10 CR 409 (claim that gave correct address number, but incorrect street, was substantial compliance, but city was entitled to contest whether incorrect address was given in bad faith with intent to mislead).

There are two components of the test for substantial compliance (*City of San Jose v Superior Court* (1974) 12 C3d 447, 456, 115 CR 797):

- Is there some compliance with all of the statutory requirements, and, if so,
- Is this compliance sufficient to constitute substantial compliance?

Substantial compliance is met when the claim contains sufficient information to reasonably enable the public entity to make an adequate investigation of the merits of the claim. *Loehr v Ventura County Community College Dist.* (1983) 147 CA3d 1071, 1083, 195 CR 576. However, the claimant will not be permitted to proceed on a theory of liability in the lawsuit that is not fairly reflected in the claim. *Watson v State* (1993) 21 CA4th 836, 844, 26 CR2d 262 (claim insufficient); *Turner v State* (1991) 232 CA3d 883, 888, 284 CR 349 (claim insufficient); *White v Superior Court* (1990) 225 CA3d 1505, 1511, 275 CR 706 (claim that varied from complaint found sufficient because claim and complaint identified same party as principal actor in case); *Blair v Superior Court* (1990) 218 CA3d 221, 227, 267 CR 13 (claims sufficient when mere elaborations of theory of liability were not substantially different from facts in claim).

© The Regents of the University of California

§13.46 d. Examples of Unconventional Claims

The following were treated as claims, despite their unconventional nature:

- A letter sent to a hospital, which indicated that the writer intended to bring a lawsuit for medical malpractice, even though the writer did not know the hospital was operated by a public entity or intend the letter as a tort claim. *Phillips v Desert Hosp. Dist.* (1989) 49 C3d 699, 709, 263 CR 119 (overruling *Lutz v Tri-City Hosp.* (1986) 179 CA3d 807, 224 CR 787).
- A letter from an attorney stating that he had been retained to represent a client with respect to an accident and asking that the letter be forwarded to any insurance carrier to avoid "formal proceedings." *Foster v McFadden* (1973) 30 CA3d 943, 947, 106 CR 685.
- A letter demanding reinstatement of and reciting loss to ex-employee. *Myers v County of Orange* (1970) 6 CA3d 626, 637, 86 CR 198.
- Correspondence from a claimant's attorney to the entity's outside attorney, making reference to a demand for money. *Wilson v Tri-City Hosp. Dist.* (1990) 221 CA3d 441, 449, 270 CR 436.

PRACTICE TIP: Government Code §915 requires that a claim be delivered or mailed to the clerk, secretary, auditor, or governing body of a local public entity. However, a person who has a complaint with a public entity may correspond directly with the particular department or office of the entity that is believed to have caused or created the problem that brought about the complaint. In light of the fact that a letter sent to a city department could be construed by a court to be a claim for money or damages, employees responsible for handling incoming correspondence should be trained to recognize possible claims and to forward such correspondence to the appropriate department (*e.g.,* risk management department) that handles claims for the public entity, so that a decision can be made on appropriate handling of the claim. City staff should also be trained to forward such correspondence to the city attorney for further direction before forwarding it to the city clerk, secretary, auditor, or governing body.

© The Regents of the University of California

§13.47 e. Non-Claims

A letter of complaint or a letter stating the identity of an injured person's attorney that makes no reference to a claim for monetary damages need not be treated as a claim. *Green v State Ctr. Community College Dist.* (1995) 34 CA4th 1348, 1359, 41 CR2d 140. See *Del Real v City of Riverside* (2002) 95 CA4th 761, 769, 115 CR2d 705 (sustaining summary judgment when claim failed to describe nature of accident, public employee involved, or injury or loss allegedly suffered). However, a test claim served on a department of the entity or even a sufficiently related, but legally separate, entity may amount to substantial compliance with the statute. *Elias v San Bernardino County Flood Control Dist.* (1977) 68 CA3d 70, 74, 135 CR 621. In addition, a packet of material sent to the county engineer (as opposed to the county clerk, secretary, auditor, or governing board) seeking additional payment did not constitute a claim against the county. *Westcon Constr. Corp. v County of Sacramento* (2007) 152 CA4th 183, 200, 61 CR3d 89.

© The Regents of the University of California

§13.48 f. Complaints

A lawsuit served on a public entity within the claim period does not constitute a claim. *Stromberg, Inc. v Los Angeles County Flood Control Dist.* (1969) 270 CA2d 759, 766, 76 CR 183.

© The Regents of the University of California

§13.49 2. Who Must Present a Claim and to Whom

The government claims statutes require "presentation" of a claim, which should not be confused with "filing." A claim is presented when the claim is personally delivered or deposited in the United States mail. Govt C §915.2; *Call v Los Angeles County Gen. Hosp.* (1978) 77 CA3d 911, 916, 143 CR 845.

Each claimant must comply with the claims presentation requirements. Even if some other person has presented a claim that fully discloses the facts and theory of liability applicable to the claimant, failure to present a claim on a claimant's own behalf may bar an action. Hence, a claim filed by the employer of a decedent is insufficient to allow the decedent's widow to proceed with a lawsuit. *Pacific Tel. & Telegraph Co. v County of Riverside* (1980) 106 CA3d 183, 190, 165 CR 29; *Roberts v State* (1974) 39 CA3d 844, 848, 114 CR 518.

On claim presentation, see California Government Tort Liability Practice §§6.11-6.31 (4th ed Cal CEB 1999).

© The Regents of the University of California

§13.50 a. Heirs

A personal injury claim presented by the victim is not sufficient to allow his or her heirs to proceed with a wrongful death suit when he or she subsequently dies. *Lewis v City & County of San Francisco* (1971) 21 CA3d 339, 341, 98 CR 407; *Petersen v City of Vallejo* (1968) 259 CA2d 757, 765, 66 CR 776.

© The Regents of the University of California

§13.51 b. Children's Claims

A claim filed by a minor for his or her own injuries may not be relied on by the minor's parents in a suit to recover for their own injuries. The parents' injuries are separate and distinct and thus they must file their own independent claims. *Nguyen v Los Angeles County Harbor/UCLA Med. Ctr.* (1992) 8 CA4th 729, 734,10 CR2d 709.

© The Regents of the University of California

§13.52 c. Spouses' Claims

A claim that clearly discloses the injury to the claimant and another will be adequate for both, as when a husband submits a claim reciting his wife's injuries as well. *Lacy v City of Monrovia* (1974) 44 CA3d 152, 155, 118 CR 277.

© The Regents of the University of California

§13.53 d. Workers' Compensation Carrier

A workers' compensation carrier may be entitled to intervene in a worker's personal injury action without filing a claim, because all of its damages are encompassed within the worker's claim. *San Diego Unified Port Dist. v Superior Court* (1988) 197 CA3d 843, 852, 243 CR 163.

© The Regents of the University of California

§13.54 e. Class Actions

A claim must be filed before any class action may be filed. *City of San Jose v Superior Court* (1974) 12 C3d 447, 454, 115 CR 797.

© The Regents of the University of California

3. When to Present a Claim

§13.55 a. Time for Presentation

The time for presentation of a claim depends on the type of cause of action involved:

- **Six months.** A claim for wrongful death, personal injury, or damage to personal property or growing crops must be presented on or before 6 months after the cause of action accrues. Govt C §911.2(a). The 6-month period governs not merely physical injury, but damage to "reputation, character, feelings or estate." *Toscano v County of Los Angeles* (1979) 92 CA3d 775, 782, 155 CR 146 (false arrest and imprisonment); *Cooper v Jevne* (1976) 56 CA3d 860, 871, 128 CR 724 (fraud); *Shelton v Superior Court* (1976) 56 CA3d 66, 82, 128 CR 454 (loss of consortium).
- **One Year.** A claim for any other cause of action may be presented as late as 1 year after the cause of action accrues. Govt C §911.2(a). Claims subject to the 1-year period are those based on contract or damage to real property. *Mehl v People ex rel Dep't of Pub. Works* (1975) 13 C3d 710, 716, 119 CR 625 (flooding); *Amador Valley Investors v City of Livermore* (1974) 43 C3d 483, 489, 117 CR 749 (pollution); *Magnus v Jackson* (1973) 31 CA3d 399, 107 CR 287 (implied contract); *Voth v Wasco Pub. Util. Dist.* (1976) 56 CA3d 353, 359, 128 CR 608 (contract).
- **Combined or mixed claims.** In certain cases, the claimant may have the option of proceeding either on a tort or contract remedy, in which case the claim period will depend on the theory adopted by the claimant. *Lawrence Berkeley Labs, Inc. v Mitchell* (1952) 39 C2d 56, 62, 244 P2d 385. When a claim asserts related theories within both the 6-month and 1-year claim periods, it is unclear whether the longer period applies or the periods should be counted separately. *Smith v County of Los Angeles* (1989) 214 CA3d 266, 262 CR 754 (longer period); *Baillargeon v Department of Water & Power* (1977) 69 CA3d 670, 682, 138 CR 338 (separate periods).

On time limits for presentation, see California Government Tort Liability Practice §§6.11-6.31 (4th ed Cal CEB 1999).

© The Regents of the University of California

§13.56 b. Calculation of the Presentation Period

Despite the language of Govt C §§911.2 and 6804, "six months" means the longer of 6 calendar months or 182 days. *Marchuk v Ralphs Grocery Co.* (1990) 226 CA3d 1273, 1275 n2, 276 CR 627; *Gonzales v County of Los Angeles* (1988) 199 CA3d 601, 602, 245 CR 112. In a distinction that will matter only in a leap year, "one year" means 365 days. Govt C §6803.

The claim period begins when the cause of action accrues. Govt C §911.2. A cause of action against a public entity accrues on the same date the action would accrue against a private party. Govt C §901. This imports a variety of notions from the Code of Civil Procedure concerning accrual of a cause of action, summarized in §§13.57-13.58.

© The Regents of the University of California

§13.57 (1) General Rule on Cause of Action Accrual

A cause of action generally accrues when the wrongful act is done and the obligation or liability arises, whether or not the injured party has notice of his or her action. In the usual case, this is a simple matter of when the accident happened. *Loehr v Ventura County Community College Dist.* (1983) 147 CA3d 1071, 1078, 195 CR 576.

© The Regents of the University of California

§13.58 (2) When Accrual Is Delayed

A cause of action for wrongful death accrues when a person dies. Thus, for example, when a person is injured in an accident and dies sometime later, the claim period for wrongful death begins when the person dies, not on the date of the accident. *Larcher v Wanless* (1976) 18 C3d 646, 657, 135 CR 75.

Generally, indemnity causes of action (*i.e.,* express contractual indemnity) accrue when a settlement is paid or a final judgment is rendered. However, in the special case of claims for equitable indemnity or partial equitable indemnity (*American Motorcycle Ass'n v Superior Court* (1978) 20 C3d 578, 146 CR 182 cross-complaints), the claim accrues when the underlying complaint giving rise to such a claim is served. Govt C §901. Thus, Govt C §901 effectively requires that equitable indemnity claims and cross-complaints be prosecuted at least in tandem with the underlying action. See Govt C §911.2.

A cause of action for medical malpractice accrues when the claimant knows or should know of the malpractice. *Martinez v County of Los Angeles* (1978) 78 CA3d 242, 245, 144 CR 123; *Dujardin v Ventura County Gen. Hosp.* (1977) 69 CA3d 350, 355, 138 CR 20. Similarly, an action for fraud or mistake does not accrue until the victim has discovered the facts constituting the fraud or mistake. CCP §338(d).

In some cases, the courts will use a doctrine of belated discovery to delay accrual until the claimant reasonably should have become aware of his or her claim. *Bastian v San Luis Obispo County* (1988) 199 CA3d 520, 527, 245 CR 78. See *Shirk v Vista Unified Sch. Dist.* (2007) 42 C4th 201, 207, 64 CR3d 210.

© The Regents of the University of California

§13.59 c. Tolling of the Presentation Period

The usual tolling rules, based on minority, insanity, or imprisonment, do not apply to delay the running of the claim period. CCP §§352(b), 352.1(b). However, the statute of limitations for federal civil rights claims is tolled by the plaintiff's minority, even if the time for state tort claims is not tolled. *City of Huntington Park v Superior Court* (1995) 34 CA4th 1293, 1296, 41 CR2d 68. However, courts have devised a doctrine of equitable tolling, which is applied when "an injured person has several legal remedies and, reasonably and in good faith, pursue[s] one designed to lessen the extent of the injury or damages." *Myers v County of Orange* (1970) 6 CA3d 626, 634, 86 CR 198. See *Elkins v Derby* (1974) 12 C3d 410, 414, 115 CR 641. Equitable tolling will be employed when pursuit of the first remedy gives the entity notice, the facts are so similar that the entity's investigation of the first allows it to defend the second, and the claimant acts reasonably. *McDonald v Antelope Valley Community College Dist.* (2008) 45 C4th 88, 99, 84 CR3d 734; *Addison v State* (1978) 21 C3d 313, 319, 146 CR 224; *Collier v City of Pasadena* (1983) 142 CA3d 917, 924, 191 CR 681; *Loehr v Ventura County Community College Dist.* (1983) 147 CA3d 1071, 1085, 195 CR 576. On equitable tolling, including a discussion of the Soldiers and Sailors Relief Act of 1970 (50 USC App §525), and the effect of an administrative remedy, see California Government Tort Liability Practice §§6.25-6.28 (4th ed Cal CEB 1999).

When exhaustion of an administrative remedy is required before a court action may be initiated, the time consumed by the administrative proceeding is excluded from the computation of the claim presentation period. *Baillargeon v Department of Water & Power* (1977) 69 CA3d 670, 683, 138 CR 338 (claim for supplemental disability benefits designated to augment workers' compensation).

© The Regents of the University of California

§13.60 d. Notice of Untimely Claim

If a claim is not presented within the time allowed, the entity may return the claim without any further action, giving notice in the specified form. Govt C §911.3(a). Although permissive in language, the statute provides that failure to follow this procedure will result in waiver of any defense of untimeliness unless the claimant fails to provide an address to give notices. Govt C §911.3(b).

PRACTICE TIP: As a general rule, ignore delayed accrual and the mailbox rule for purposes of calculating whether a claim is untimely. Accepting a claim as timely is a final step in the process, which will remove an issue from any subsequent litigation. When delayed accrual is an issue, the facts are almost impossible to investigate. The mailbox rule adds uncertainty as to when a claim was presented. This issue is too important to simply trust the claimant's representations. A claim should be treated as untimely whenever the actual date of injury and the date that a claim is postmarked are further apart than the applicable claim period, because a denial of the claim on the merits will estop the entity from later claiming that the claim was untimely. See Govt C §911.3(b); *Dujardin v Ventura County Gen. Hosp.* (1977) 69 CA3d 350, 360, 138 CR 20. This rule does not apply when the claim is presented after the 1-year late claim period. *Dixon v City of Turlock* (1990) 219 CA3d 907, 912, 268 CR 510. Public entities should generally treat a claim as being untimely if it is presented on a date beyond the applicable 6-month or 1-year time period. If the claimant's stated reason for the untimely presentation is belated discovery or equitable tolling, the entity should carefully examine the circumstances before any decision is made to accept the late claim. Often, without formal discovery, it is not possible to make a determination as to whether a sufficient legal reason exists to excuse the untimely presentation. Accordingly, such claims should be returned for being untimely.

Notice of untimeliness must be given within 45 days after the claim is presented. Govt C §911.3(a). Even if notice of insufficiency has been given, notice of untimeliness must also be given. *Phillips v Desert Hosp. Dist.* (1989) 49 C3d 699, 705, 263 CR 119.

PRACTICE TIP: Sometimes a plaintiff will file a single claim based on different actions on different days, some of which are within the claim filing period and some of which are not. The government claim statutes do not address this issue. Consider sending a specially prepared notice returning the claim as untimely as to the portions that are outside the claim filing period and denying or allowing the claim as to the timely portions.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/13 Liability and Litigation/§13.61 e. Amendments to Claims

§13.61 e. Amendments to Claims

A claim may be amended at any time before the claim period expires or the entity takes final action on the claim, whichever is later, as long as the amended claim relates to the same transaction or occurrence that gave rise to the original claim. Govt C §910.6(a). When a claim is amended, the time for taking action on the claim is extended to 45 days after presentation of the amended claim. Govt C §912.4(a).

© The Regents of the University of California

E. Consideration of Claim

§13.62 1. Notice of Insufficiency

If the claim does not provide the required information (see §13.43), the entity may give notice of the insufficiency, stating the defects with particularity. Govt C §910.8. Although Govt C §910.8's terms sound permissive, they are mandatory in effect. If a public entity fails to give written notice of the defect or omission within 20 days after the claim is presented, it waives any defense it may have, even if a claim does not contain the required information. The only exception to the waiver is when no address is provided to which notice can be sent. Govt C §911; *Phillips v Desert Hosp. Dist.* (1989) 49 C3d 699, 705, 263 CR 119; *Watts v Valley Med. Ctr.* (1992) 8 CA4th 1050, 1055, 10 CR2d 794.

PRACTICE TIP: The word "presentation" is a technical term, meaning the date the claim was deposited in the mail. Thus, waiting until 20 days after the claim is received will be fatal, unless the claim was personally delivered. Cities should calendar the mailing of notices of insufficiency for a time that will take account of the uncertainty as to when a claim was "presented."

The entity may not take action on a claim for 15 days after sending a notice of insufficiency. Govt C §910.8.

NOTE: The effect of a notice of insufficiency on the determination of whether a claim is in substantial compliance (see §13.45) is uncertain. Logically, if a claim substantially complies with the requirements, it is sufficient to support a lawsuit whether or not a notice of insufficiency was sent. On the other hand, a notice of insufficiency constitutes an invitation to amend the claim and failure to do so should require a closer examination of the claim. The substantial compliance doctrine has resulted in vague and unspecific claims, which make the entity's task of investigating the claim more difficult.

On notice of insufficiency, see California Government Tort Liability Practice §§6.32-6.34 (4th ed Cal CEB 1999).

© The Regents of the University of California

2. Time to Act on Claim

§13.63 a. Entity Has 45 Days to Act on Claim

The Government Claims Act (Govt C §§810-998.3) provides that a public entity is allowed 45 days after the claim is presented in which to take action on it. If the claim has been amended, the time is extended until 45 days after the amended claim is presented. Govt C §912.4(a). See California Government Tort Liability Practice §§6.35-6.36 (4th ed Cal CEB 1999).

If a claim is mailed to the public agency, any period of notice and duty to respond is extended: 5 days if the place of address is in California, 10 days if it is within the United States, and 20 days if it is outside the United States. Govt C §915.2. The claimant and the entity may also extend the period by written agreement before a lawsuit has been filed or is barred. Govt C §912.4(b).

NOTE: The time for taking action is not jurisdictional, and the entity may take action after the time has expired. Govt C §913.2; *Kane v County of San Diego* (1969) 2 CA3d 550, 554, 83 CR 19.

PRACTICE TIP: Unless a proof of service affidavit is attached, the dates before which an entity must take action should be calculated from the date of the claim. The theory is that the claim could not have been mailed before that date. Staff should be instructed to save the envelope in which a claim is received. Although mail may sit for days in a mailbox, a postmark is some indication of when it was mailed and the date on which the claim has been presented.

© The Regents of the University of California

§13.64 b. Failure to Timely Act Is Rejection by Operation of Law

If the entity fails to take action on a claim within the period allowed by statute or as extended by agreement, the claim is deemed rejected on the last day of the period. Govt C §912.4(b)-(c). Once the claim is deemed rejected, the claimant may file suit. If written notice is not given that the claim was rejected or deemed rejected, a 2-year statute of limitations applies to the claim, running from the accrual of the cause of action. See Govt C §945.6(a)(2). However, an entity is permitted to take action on a claim after the expiration of the time to act, and the entity may still send a notice of rejection to trigger a shorter 6-month limitations period. Govt C §945.6(a)(1); *Glorietta Foods, Inc. v City of San Jose* (1983) 147 CA3d 835, 838, 195 CR 355.

PRACTICE TIP: Public entities should promptly investigate and evaluate all timely claims. A decision should normally be made within the 45-day statutory time period to either settle or reject the claim. If it decides to reject the claim, it should send a timely written rejection notice to the claimant. As an option, however, if the claim is timely filed, the entity may consider taking no action so that the longer period in which claimant can file a lawsuit is available. This may minimize litigation costs and may allow a claimant's medical condition to stabilize, if applicable, and the parties to engage in settlement discussions. If this strategy is not successful, a notice of rejection can then be sent to trigger the 6-month statutory limitations period in which the claimant must bring a lawsuit and thereby move the claim forward.

© The Regents of the University of California

§13.65 3. Types of Entity Action on Claim

An entity can either reject or allow a claim. Govt C §912.6(a)(1)-(2). Rejection of a claim is not subject to review by mandate. *Teresi v State* (1986) 180 CA3d 239, 245, 225 CR 517.

If the entity determines that the claim is a proper one, but in an excessive amount, it can either reject the claim in total or allow it in part and reject it as to the balance. If there is a dispute over liability or the amount of the claim, the entity can compromise it. Govt C §912.6(a)(4). If the claim is allowed in whole or in part, or if the entity offers to compromise the claim and the compromise is accepted, a local public entity may require the claimant to accept the amount in full settlement of the claim. Govt C §912.6(b). If the claimant accepts the amount, the claimant cannot then bring suit on the claim. Govt C §946(c).

PRACTICE TIP 1: Allowance of a claim is a frequently overlooked option. Occasionally a claim will be presented, usually by an unrepresented claimant, seeking only repayment of medical bills or property repair. If investigation indicates a reasonable basis for doing so, the claim should be allowed. Reflexive rejection of a claim in such circumstances may drive a claimant to an attorney, leading to greater expense.

PRACTICE TIP 2: In the notice rejecting a claim in whole or in part, the city might consider including an advisement stating, under CCP §§128.7 and 1038, that the city reserves the right to seek recovery of all costs of defense, including attorney fees, if an action is filed and it is determined that the action was not brought in good faith or with reasonable cause. This may cause a claimant to think twice before filing a frivolous lawsuit.

© The Regents of the University of California

§13.66 4. Notice of Entity Action on Claim

If the city decides to provide written notice of rejection of the claim, the content of the notice is specified by the Government Claims Act. Govt C §913(a). If the claim is rejected in whole or in part, the notice must warn the claimant of the 6-month statute of limitations in which to bring a lawsuit. Govt C §913(b). The entity must use the specified language, or its substantial equivalent, and a defective notice will be treated as no notice at all. *Scott v Los Angeles* (1977) 73 CA3d 476, 482, 140 CR 785.

PRACTICE TIP: The rejection notice should include more than just the precise language set out in the statute. The warning should indicate that it applies only to state actions. Moreover, unless expressly stated otherwise in the notice of rejection, a plaintiff's compliance with filing the action within 6 months from the date the claim is rejected will exempt the plaintiff from the applicable statute of limitations in the Code of Civil Procedure. *Schmidt v Southern Cal. Rapid Transit Dist.* (1993) 14 CA4th 23, 30, 17 CR2d 340.

On notice of action, including a sample form, see California Government Tort Liability Practice §§6.39-6.41 (4th ed Cal CEB 1999).

© The Regents of the University of California

F. Statute of Limitations for Filing Action on Claims

§13.67 1. Actions in Which Claim Is Required

Unless expressly stated to the contrary, the statute of limitations in actions for which a claim is required is governed entirely by the Government Claims Act (Govt C §§810-998.3), *i.e.,* the provisions of the Code of Civil Procedure do not apply. *Massa v Southern Cal. Rapid Transit Dist.* (1996) 43 CA4th 1217, 1221, 51 CR2d 164; *Schmidt v Southern Cal. Rapid Transit Dist.* (1993) 14 CA4th 23, 30, 17 CR2d 340.

The statute of limitations for actions in which a timely claim was presented is dependent on whether notice of rejection is given. If notice of rejection on the claim is given, the claimant has 6 months from the date the notice is personally delivered to the claimant or deposited in the mail to file suit. An entity can start the 6-month statute of limitations at any time by giving notice that the claim has been rejected. The statute of limitations is not extended for 5 days when notice is mailed, but runs from the date of deposit in the mail. *Cole v Los Angeles Unified Sch. Dist.* (1986) 177 CA3d 1, 4, 222 CR 426; *Smith v City and Count of San Francisco* (1977) 68 CA3d 227, 231, 137 CR 146. If no notice of denial is given, the claimant has 2 years from the date the cause of action accrues in which to bring an action. Govt C §945.6(a); *Glorietta Foods, Inc. v City of San Jose* (1983) 147 CA3d 835, 836, 195 CR 355.

In the special case of police officer conduct, the statute of limitations to bring an action in superior court is tolled while criminal charges are pending against a claimant. *Damjanovic v Ambrose* (1992) 3 CA4th 503, 509, 4 CR2d 560. However, this tolling does not relieve the criminal defendant from the obligation to file a claim, nor does it extend the 6-month claim period. Govt C §945.3. See *McMartin v County of Los Angeles* (1988) 202 CA3d 848, 855, 249 CR 53; *Mohlmann v City of Burbank* (1986) 179 CA3d 1037, 1043, 225 CR 109.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/13 Liability and Litigation/§13.68 2. Actions in Which No Claim Is Required

§13.68 2. Actions in Which No Claim Is Required

When no claim is required, either by the Government Claims Act, local ordinance, or contract, the statute of limitations is what would be applicable to an action against a private party. Govt C §945.8.

PRACTICE TIP: The running of the statute of limitations is governed by the mailbox rule, and hence the date of mailing is crucial. Standard practice when sending such notices is to prepare a proof of service by mail form. *Dowell v County of Contra Costa* (1985) 173 CA3d 896, 898, 219 CR 341.

© The Regents of the University of California

§13.69 3. Avoiding Waiver of Statute of Limitations

In a personal injury action not involving the negligence of a health care provider, compliance with the Government Claims Act (*i.e.,* filing a lawsuit within 6 months of the claim's rejection) will exempt the claimant from CCP §340, unless the claimant is expressly informed otherwise. *Massa v Southern Cal. Rapid Transit Dist.* (1996) 43 CA4th 1217, 1221, 51 CR2d 164; *Schmidt v Southern Cal. Rapid Transit Dist.* (1993) 14 CA4th 23, 30, 17 CR2d 340. A federal district court held that a public entity waived the statute of limitations for a federal civil rights claim by using the state statutory language and advising plaintiff that she had 6 months to file suit, even though the limitations period for her federal civil rights action otherwise expired sooner than 6 months from the notice. *Halus v San Diego County Assessment Appeals Bd.* (SD Cal 1992) 789 F Supp 327, 329. The notice of time to file suit should indicate that the limits described for bringing suit apply only to state actions. But see *Javor v Taggart* (2002) 98 CA4th 795, 806, 120 CR2d 174 (finding *Halus* implicitly overruled by *Silva v Crain* (9th Cir 1999) 169 F3d 608 and finding no waiver of statute of limitations for federal civil rights suit).

Public agencies must differentiate between claims and applications. To ensure that the 6-month statute of limitations for bringing suit applies, a public entity must give notice that the claim is rejected, not merely that the application for leave to present a late claim is denied. *Jenkins v County of Contra Costa* (1985) 167 CA3d 152, 156, 213 CR 126. Acts that imply that an application has been granted will prevent a public entity from contending that the application was denied. For example, when an application for leave to present a late claim is presented and a public entity only gives notice that the claim was denied, the entity will be estopped from contending that the application was denied for the purpose of requiring the claimant to petition the court to be relieved from the claim presentation requirements before bringing suit. *Dujardin v Ventura County Gen. Hosp.* (1977) 69 CA3d 350, 360, 138 CR 20; *McLaughlin v Superior Court* (1972) 29 CA3d 35, 38, 105 CR 384.

On the other hand, only giving notice that the application was denied estops an entity from contending that written notice of rejection of the claim was given. *Jenkins v County of Contra Costa, supra; Wheeler v County of San Bernardino* (1978) 76 CA3d 841, 848, 143 CR 295. Denying both the application and the claim will not lead to estoppel. *El Dorado Irrig. Dist. v Superior Court* (1979) 98 CA3d 57, 60, 159 CR 267.

© The Regents of the University of California

§13.70 G. Late Claim Procedures

If the claim is not presented in a timely manner, the claimant must present an application for leave to present a late claim before commencing a lawsuit. Govt C §§945.4, 946.6. Presentation of such an application does not estop a claimant from contending that the claim was timely. *Jenkins v County of Contra Costa* (1985) 167 CA3d 152, 156, 213 CR 126.

NOTE: The late claim procedure applies only to claims that are subject to the 6-month presentation requirement. It cannot be invoked for claims that are made under the 1-year rule. *Wheeler v County of San Bernardino* (1978) 76 CA3d 841, 845, 143 CR 295. See §13.55.

On late claims, see California Government Tort Liability Practice, chap 7 (4th ed Cal CEB 1999).

© The Regents of the University of California

§13.71 1. Time Limit

An application for leave to present a late claim must be presented within a reasonable period not to exceed 1 year. In calculating the 1-year period, time during which the claimant is a minor is counted, but time during which the claimant is mentally incapacitated and does not have a guardian or conservator is not. The tolling applies even if a mentally incapacitated claimant has a conservator when the conservator does not know and could not have known of the claim. *Favorite v County of Los Angeles* (1998) 68 CA4th 835, 837, 80 CR2d 656.

NOTE: The tolling provision applies only to mentally incapacitated *adults* without a guardian or conservator. As a result, an application by a mentally incapacitated *minor* presented after the 1-year period is too late. *Hernandez v County of Los Angeles* (1986) 42 C3d 1020, 1025, 232 CR 519; *Reyes v County of Los Angeles* (1988) 197 CA3d 584, 592, 243 CR 35.

© The Regents of the University of California

§13.72 2. Grounds for Relief

An application for leave to present a late claim must state the reason for the delay in presenting the claim and attach the proposed claim. Govt C §911.4(b). The public entity *must* grant the application when one or more of the following is applicable (Govt C §§911.6(b), 946.6):

- Claim was not presented in a timely fashion because of mistake, inadvertence, surprise, or excusable neglect, but only if the public entity would not be prejudiced in its defense by the failure to have presented a timely claim;
- Claimant was a minor throughout the claim period;
- Claimant was physically or mentally incapacitated throughout the claim period and failed to present a claim because of that disability;
- Claimant died before the expiration of the claims period.

NOTE: These are the same grounds on which a petition to be relieved from the claims requirement can be granted. Govt C §§911.6, 946.6(c).

The burden is on the claimant to establish the grounds for relief by a preponderance of the evidence. *El Dorado Irrig. Dist. v Superior Court* (1979) 98 CA3d 57, 62, 159 CR 267; *Toscano v County of Los Angeles* (1979) 92 CA3d 775, 784, 155 CR 146. Even if a claimant shows sufficient excuse, the claimant must also show reasonable diligence in proceeding with the late claim application. *Greene v State* (1990) 222 CA3d 117, 121, 272 CR 52; *Dunston v State* (1984) 161 CA3d 79, 84, 207 CR 196; *DeYoung v Del Mar Thoroughbred Club* (1984) 159 CA3d 858, 864, 206 CR 28.

© The Regents of the University of California

§13.73 a. Standard for Excusable Neglect

A late claim is excused when the delay was due to "mistake, inadvertence, surprise or excusable neglect" and the public entity will not be prejudiced in its defense of the claim by this delay. Govt C §911.6(b)(1).

NOTE: Prejudice to the public entity is not an issue unless the claimant establishes excusable neglect. In other words, prejudice is an additional reason to deny an application, but lack of prejudice is not a reason to grant a petition. *Rojes v Riverside Gen. Hosp.* (1988) 203 CA3d 1151, 1163, 250 CR 435, overruled on other grounds in *Passavanti v Williams* (1990) 225 CA3d 1602, 275 CR 887; *Shank v County of Los Angeles* (1983) 139 CA3d 152, 158, 188 CR 644; *Hasty v County of Los Angeles* (1976) 61 CA3d 623, 627, 131 CR 347.

The standard for showing mistake, inadvertence, surprise, or excusable neglect is the same standard as under CCP §473. *City of Fresno v Superior Court* (1980) 104 CA3d 25, 32, 163 CR 807. A mistake must be reasonable to justify delay. The California Supreme Court has defined "excusable neglect" as "neglect that might have been the act or omission of a reasonably prudent person under the same or similar circumstances." *Ebersol v Cowan* (1983) 35 C3d 427, 435, 197 CR 601. Thus, when an attorney had a police report clearly identifying a roadway as a state highway, a mistaken belief that it was a city street was not reasonable. *Greene v State* (1990) 222 CA3d 117, 120, 272 CR 52. See also *Department of Water & Power v Superior Court* (2000) 82 CA4th 1288, 1296, 99 CR2d 173; *Spencer v Merced County Office of Educ.* (1997) 59 CA4th 1429, 1438, 69 CR2d 750. On the other hand, a calendaring error by a legal secretary is "excusable neglect" that will support leave to file a late claim unless the public entity can demonstrate prejudice. *Renteria v Juvenile Justice, Dep't of Corrections & Rehabilitation* (2006) 135 CA4th 903, 911, 37 CR3d 777.

The claimant's ignorance of the claims filing requirement, standing alone, does not constitute excusable neglect. *El Dorado Irrig. Dist. v Superior Court* (1979) 98 CA3d 57, 62, 159 CR 267. In addition, the failure of a claimant or claimant's attorney to identify the owner of a government facility is not excusable neglect. See *Lutz v Tri-City Hosp.* (1986) 179 CA3d 807, 810, 224 CR 787 (failure to identify owner of hospital as County of San Diego). The trauma of a loved one's death is also usually insufficient to show excusable neglect in failing to file a timely claim. See *People ex rel Dep't of Transp. v Superior Court (Isenhower)* (2003) 105 CA4th 39, 46, 129 CR2d 60.

Making a claim against the wrong public entity is generally not found to constitute excusable neglect (see, *e.g., Shank v County of Los Angeles* (1983) 139 CA3d 152, 158, 188 CR 644), but relief has been granted when the claimant exercised reasonable diligence to determine the correct entity. *Lawrence v State* (1985) 171 CA3d 242, 245, 217 CR 200.

© The Regents of the University of California

§13.74 b. Minors

Minors must present an application for leave to present a late claim within 1 year, provided that they were minors during the entire 6-month period. *Hernandez v County of Los Angeles* (1986) 42 C3d 1020, 1027, 232 CR 519. The minority of a claimant constitutes a separate and distinct ground for relief from late claims. Thus, prejudice to a public entity has been held irrelevant as to this specific basis of relief. *Wozniak v Peninsula Hosp.* (1969) 1 CA3d 716, 723, 82 CR 84. Delay by the minor's parents or attorney is not attributable to the minor. The only question is whether the minor acted diligently in presenting the application. *Tammen v County of San Diego* (1967) 66 C2d 468, 480, 58 CR 249. Minors must show that any delay in presenting the application was clearly not attributable to themselves. *McMartin v County of Los Angeles* (1988) 202 CA3d 848, 861, 249 CR 53.

PRACTICE TIP: Minority can be a complex issue and care should be taken in analyzing a minor's late claim. See *Rousseau v City of San Carlos* (1987) 192 CA3d 498, 501, 236 CR 373.

If certain conditions are met, the 1-year period is tolled during the period when the claimant is detained or adjudged to be a dependent child of the juvenile court. Govt C §911.4(c)(2)-(3).

© The Regents of the University of California

§13.75 c. Incapacitated Adults

The claimant must show that the physical or mental incapacity existed during the entire claim period that caused the delay. An excuse based on mental or physical incapacity during the claim period must show sufficient incapacity during the entire period and generally will not apply when the claimant is well enough to contact a lawyer and delegate prosecution of the claim. *Harrison v County of Del Norte* (1985) 168 CA3d 1, 8, 213 CR 658; *Martin v City of Madera* (1968) 265 CA2d 76, 80, 70 CR 908. But see *Draper v City of Los Angeles* (1990) 52 C3d 502, 508, 276 CR 864 (incapacity shown as cause of delay).

The trauma of a loved one's death is usually insufficient to show incapacity. See *People ex rel Dep't of Transp. v Superior Court (Isenhower)* (2003) 105 CA4th 39, 46, 129 CR2d 60.

© The Regents of the University of California

§13.76 d. Equitable Estoppel

Equitable estoppel is an excuse from timely compliance with the claims requirements. *John R. v Oakland Unified Sch. Dist.* (1989) 48 C3d 438, 444, 256 CR 766. It will be applied when agents or employees of the entity have prevented or deterred the filing of a timely claim by some affirmative act. *Ovando v City of Los Angeles* (CD Cal 2000) 92 F Supp 2d 1011, 1024; *Christopher P. v Mojave Unified Sch. Dist.* (1993) 19 CA4th 165, 170, 23 CR2d 353.

© The Regents of the University of California

§13.77 3. Evaluation of Late Claim Applications

In evaluating late claim applications, the presumption should be that the application will be denied. Granting an application is a final step, amounting to a waiver of any defense that the claim was untimely.

The time for action on an application allows for only a limited investigation. Most of the facts relevant to the application are under the control of the claimant. Discovery at the application stage is restricted by the fact that no action is pending; although if the application is denied and the claimant files a petition, all the usual mechanisms for discovery are available. See CCP §2019.010.

A counter-consideration is the expense of denying a claim. As a general rule, the chances of success with respect to a minor claimant generally do not justify the expense. The same point is probably true when the claimant died during the claims period. When the claimant claims excusable neglect or mental or physical incapacity, however, the expense is frequently justified by the prospect of totally disposing of the action.

© The Regents of the University of California

§13.78 4. Action on Late Claim Applications

The entity has 45 days after presentation of an application to file a late claim to grant or deny the application. Govt C §911.6(a). This period may be extended by written agreement made before the period expires. Govt C §911.6(a). If the application is granted, the claim is deemed to be presented on the date the application is granted. Govt C §912.2. At this point, the claim is handled just as if a timely claim were presented.

PRACTICE TIP: Although Govt C §911.6 provides that an entity "shall" grant the application if grounds for relief exist, some reasonably argue it is directory only. There are no reported cases in which a writ of mandate was granted to compel an entity to grant an application. See *Royal Convalescent Hosp. v State Bd. of Control* (1979) 99 CA3d 788, 794, 160 CR 458. However, a petition for mandate is an alternate remedy to a tort action under Govt C §815.6 relative to the failure to discharge a mandatory duty. The more conservative practice is to read "shall" in Govt C §911.6 as mandatory if the agency determines that the statutory grounds for relief are met. Moreover, Govt C §946.6 also provides that a court "shall" grant a petition under the same grounds.

The entity must give written notice of its action on the application. If the application is denied, the claimant must be warned of the necessity to petition the court for relief within 6 months. Govt C §911.8.

© The Regents of the University of California

§13.79 H. Petition to Be Relieved From Claims Requirement

If the application to file a late claim is denied, the claimant may file a petition to be relieved from the claims requirement. Govt C §946.6(a). The petition procedure is not a review of the entity's action on the application, but a de novo proceeding. Govt C §946.6(e). See California Government Tort Liability Practice §7.40 (4th ed Cal CEB 1999).

© The Regents of the University of California

§13.80 1. Time Limit

A petition to be relieved from the claims requirement must be filed within 6 months after the time an application is denied or deemed denied. Govt C §946.6(b). The Government Claims Act (Govt C §§810-998.3) has no provision for extending the time in which to file a petition if no notice of action on the application is given, in contrast to the claims procedure. The reference to "deemed denied" in Govt C §946.6(b) and the absence of a notice concerning "deemed denial" in Govt C §911.8 suggests that a petition may be time-barred even if the claimant receives no notice.

PRACTICE TIP: The notice of action on an application to file a late claim should include the date the application was granted or denied.

© The Regents of the University of California

§13.81 2. Grounds for Relief

The grounds for relief are the same on a petition to be relieved from the claims requirement as on an application to file a late claim (see §§13.72-13.76), but it appears that the claimant may present entirely different grounds in the petition, although such grounds might be subject to a defense of waiver. The petitioner bears the burden of proof. *Santee v Santa Clara County Office of Educ.* (1990) 220 CA3d 702, 717, 269 CR 605.

PRACTICE TIP: If the key evidence is not available without additional time, ask the court for a continuance. Some courts may order the claimant's deposition to explore issues relevant to the petition.

© The Regents of the University of California

§13.82 3. Statute of Limitations If Petition Granted

If the petition is granted, the claimant must commence an action within 30 days. Govt C §946.6(f). This deadline is a statute of limitations. *Mandjik v Eden Township Hosp. Dist.* (1992) 4 CA4th 1488, 1498, 6 CR2d 582. However, it is sufficient if the plaintiff files a complaint before the petition is granted. *Black v Los Angeles County* (1976) 55 CA3d 920, 930, 127 CR 916.

© The Regents of the University of California

§13.83 4. Review of Determination

Review of an order on a petition is for abuse of discretion. *Harrison v County of Del Norte* (1985) 168 CA3d 1, 6, 213 CR 658; *Tsingaris v State* (1979) 91 CA3d 312, 314, 154 CR 135.

© The Regents of the University of California

§13.84 a. If Petition Is Granted

An order granting a petition is interlocutory and thus not appealable. *Church v County of Humboldt* (1967) 248 CA2d 855, 857, 57 CR 79. An order granting a petition can be reviewed by a petition for writ of mandate. See *State v Superior Court of Sacramento County* (1978) 86 CA3d 475, 150 CR 308, overruled on other grounds in *Hernandez v County of Los Angeles* (1986) 42 C3d 1020, 232 CR 519.

© The Regents of the University of California

§13.85 b. If Petition Is Denied

An order denying a petition is an appealable order. *Moore v Morhar* (1977) 65 CA3d 896, 903 n8, 135 CR 626. Appellate courts will more closely scrutinize denial of a petition than its granting. *Toscano v County of Los Angeles* (1979) 92 CA3d 775, 782, 155 CR 146; *Williams v Mariposa Unified Sch. Dist.* (1978) 82 CA3d 843, 848, 147 CR 452.

© The Regents of the University of California

IV. INDEMNIFICATION OF PUBLIC EMPLOYEES AND OFFICERS

A. General Obligations

§13.86 1. Duty to Defend

Public entities must provide for the defense of civil actions brought against an employee or former employee if (Govt C §§995, 995.2):

- Employee's act or omission was within the scope of his or her employment;
- Employee did not act with actual fraud, corruption, or actual malice; and
- Defense of the action would not create a specific conflict of interest between the entity and the employee.

See *Stewart v City of Pismo Beach* (1995) 35 CA4th 1600, 1605, 42 CR2d 382. The public entity is required to inform the employee within 20 days whether it will or will not provide a defense, and the reason for a refusal to provide a defense. Govt C §995.2(b).

Public entities are not required to provide a separate defense when a potential conflict of interest exists. *City of Huntington Beach v Petersen Law Firm* (2002) 95 CA4th 562, 567, 115 CR2d 568.

On the duty to defend, see California Government Tort Liability Practice §§4.1-4.13 (4th ed Cal CEB 1999).

© The Regents of the University of California

§13.87 2. Duty to Indemnify

Public entities must indemnify an employee or former employee for a judgment of compensatory damages when (Govt C §825(a)):

- Employee or former employee requests in writing, not less than 10 days before the day of trial, that the public entity defend him or her;
- Employee acted within the scope of his or her employment;
- Entity conducted the employee's defense; and
- Employee cooperated in good faith in the defense of the action.

See *Rivas v City of Kerman* (1992) 10 CA4th 1110, 1116, 13 CR2d 147. The primary purpose of the indemnification statute is to avoid "dampen[ing] the ardor" of employees who might otherwise be inhibited by the possibility of having to personally finance and pay large judgments in tort suits arising from the performance of their duties. *Johnson v State* (1968) 69 C2d 782, 790, 73 CR 240. The duty to indemnify public employees also applies to civil rights claims arising under the federal Civil Rights Act (42 USC §1983). *Williams v Horvath* (1976) 16 C3d 834, 848, 129 CR 453.

NOTE: One notable exception to the indemnification obligation involves automobile accidents occurring when a public employee, in the scope of employment, is operating his or her own vehicle. In this instance, the employee's automobile policy fulfills the public entity's duty to indemnify. *Younker v County of San Diego* (1991) 233 CA3d 1324, 1330, 285 CR 319; *Government Employees Ins. Co. v Gibraltar Cas. Co.* (1986) 184 CA3d 163, 229 CR 57. If the employee is uninsured, however, the city will not be able to rely on the employee's insurance, and the city will have primary responsibility to respond.

PRACTICE TIP: The requirements for employee insurance coverage should be addressed in the agency's personnel rules.

Special rules on indemnification of elected officials who tortiously interfere in a judicial proceeding, commit an intentional tort not directly related to the official's performance of official duties, or violate specified Government Code and Penal Code sections relating to official misconduct are found in Govt C §§815.3, 825(f), and 825.6.

On indemnification of public employees and officers, see §§13.86-13.89. On the duty to indemnify, see California Government Tort Liability Practice §§4.14-4.21 (4th ed Cal CEB 1999).

© The Regents of the University of California

§13.88 B. Scope of Employment

Courts have given a broad application to the term "scope of employment." For example, the California Supreme Court found that a police officer, in uniform and in a police vehicle, was acting in the scope of his employment when he raped a detainee; the court decided on public policy grounds that the victim should be compensated. *Mary M. v City of Los Angeles* (1991) 54 C3d 202, 221, 285 CR 99. However, if the wrongful conduct did not arise out of or was not engendered by the employment, the actions are not within scope of employment. *Farmers Ins. Group v County of Santa Clara* (1995) 11 C4th 992, 1019, 47 CR2d 478 (acts of sexual harassment by deputy sheriff outside scope of employment). See also *John R. v Oakland Unified Sch. Dist.* (1989) 48 C3d 438, 447, 256 CR 766 (sexual assault by teacher held outside scope of employment as matter of law); *Hoblitzell v City of Ione* (2003) 110 CA4th 675, 683, 2 CR3d 8 (building inspector acting outside of official duties and outside of public entity's jurisdiction not acting within scope of employment); *K.G. v County of Riverside* (2003) 106 CA4th 1374, 1382, 131 CR2d 762 (sexual assault by police officer against stepdaughter outside scope of employment); *Zamudio v State* (1998) 62 CA4th 673, 73 CR2d 79 (alleged sex discrimination in contract between union and state outside scope of employment of state correctional officer who also served as union representative); *Thorn v City of Glendale* (1994) 28 CA4th 1379, 35 CR2d 1 (fire marshal's burning of building held outside scope of employment).

PRACTICE TIP: An employee sometimes requests that a public entity provide a defense when the question of scope of employment is a close one. This is especially true in cases involving actions taken by "off-duty" police officers. The factual circumstances should be carefully reviewed to determine whether the employee acted within the scope of his/her employment. Additional factors to consider in deciding whether to provide a defense for the employee are: (1) the impact on employee morale if a decision is made to decline representation; and (2) the fact that if the entity declines representation, it would be obligated to indemnify the employee for all of his/her costs (including attorney fees) and the amount of any judgment or settlement if it is later determined by the court or a jury that the employee did indeed act within the scope of his or her employment and that he or she did not act with actual fraud, corruption, or actual malice. Govt C §§825.2, 996.4.

If there is an issue as to whether an employee was acting outside the scope of employment, the public entity must still provide for the defense of the employee, but it may do so under a reservation of rights. If there is no reservation, the public entity generally forfeits any right to recover from the employee money paid by the public entity in defense or settlement of the claim. Govt C §825.6(a).

The public entity may deny a defense based on lack of scope of employment and/or a conflict of interest between the entity and the employee, but the public entity will then be liable for the employee's defense costs and the amount of any judgment if it is later determined that the employee was acting within the scope of his or her employment. The employee also may petition for a writ of mandate or seek declaratory relief in an attempt to show scope of employment. See Govt C §996.4. For a comprehensive discussion of reservation of rights and the indemnification statutes, see California Government Tort Liability Practice, chap 4 (4th ed Cal CEB 1999). See also *Rivas v City of Kerman* (1992) 10 CA4th 1110, 1116, 13 CR2d 147.

PRACTICE TIP: If there is any question as to scope of employment, the public entity should consider providing representation under a reservation of rights rather than face the prospect of having to pay a judgment after having no say in the litigation. The reservation of rights should be in writing, and a receipt signed by the employee should be kept in the public agency's files. In cases of joint representation of the employee and the entity by entity counsel, consideration must also be given to Cal Rules Prof Cond 3-600 and 3-310. Although these rules allow dual representation of the employee and the entity, the employee should be informed in writing of the entity's counsel's primary client and both the impact and use of confidential information. Consider obtaining a written waiver from the employee.

© The Regents of the University of California

§13.89 C. Punitive Damages

A public entity is authorized, but not required, to pay punitive damages on behalf of an employee. See Govt C §825. Government Code §825(b)(3) provides that a city is authorized to pay a "claim or judgment" for punitive damages if it determines, in its sole discretion, that such payment is in its "best interests." This determination should be made on a case-by-case basis and is most commonly made after trial and a resulting award of punitive damages. See *Trevino v Gates* (9th Cir 1994) 23 F3d 1480, 1481, cert denied (1994) 513 US 932 ("blanket" policy of paying punitive damages may result in loss of absolute legislative immunity in excessive force cases). But see *Trevino v Gates* (9th Cir 1996) 99 F3d 911, 918 (qualified immunity applies to decisions by council members to pay punitive damages, provided that decision is discretionary, made on case-by-case basis, and complies in good faith with requirements of Govt C §825(b)). See also *Cornwell v City of Riverside* (9th Cir 1990) 896 F2d 398, 399 (federal law does not prohibit indemnification for punitive damages). An allegation and prayer for punitive damages does not necessarily create a conflict of interest requiring the public entity to provide independent counsel for the employee. *Laws v County of San Diego* (1990) 219 CA3d 189, 199, 267 CR 921. On the duty of an entity to provide independent counsel in conflict situations, see California Government Tort Liability Practice §2.47 (4th ed Cal CEB 1999).

© The Regents of the University of California

§13.90 V. MUNICIPAL LIABILITY

Municipal liability is principally based in torts, constitutional and statutory (state and federal) violations, and breach of contract. Sections 13.91-13.172 discuss the activities for which municipalities and their employees have immunity and for which municipalities and their employees may be found liable under California and federal law. See California Government Tort Liability Practice, chaps 10-11 (4th ed Cal CEB 1999); California Tort Guide, chap 8 (4th ed Cal CEB 2009); 5 Levy, California Torts, chaps 60-61; 5 Witkin, Summary of California Law, *Torts* §§203-380 (10th ed 2005).

© The Regents of the University of California

§13.91 A. Principles of Immunity

A municipality has certain immunities and defenses that would be available if it were a private person, such as comparative negligence or assumption of risk. 5 Witkin, Summary of California Law, *Torts* §227 (10th ed 2005).

The doctrine of governmental immunity applies primarily to torts. The doctrine does not apply to public contracts and will not protect a municipality from liability arising out of a contract. Municipalities are liable for breach of contract to the same extent as private citizens. The doctrine does not apply to equitable remedies such as injunctions, writs of mandate, and declaratory relief. For example, an individual may obtain an injunction against a municipality to prevent the construction of a project that could violate the individual's rights. Govt C §814 (permitting forms of relief besides money or damages against public employer or public entity).

PRACTICE TIP: When presented with potential tort liability, a city attorney should review all immunities (see §§13.92-13.93), research how immunity has been applied to determine whether it is applicable in a particular case, and recognize immunity rules, *e.g.,* if there is no statute imposing liability, an entity is not liable (Govt C §815(a)). A specific immunity will ordinarily prevail over statutory liabilities (Govt C §§815(b), 815.2(b)); for exceptions to this rule, see California Government Tort Liability Practice §§1.18-1.19 (4th ed Cal CEB 1999). When the entity is immune, but the employee is not, the entity usually has the authority, and may have a duty to indemnify the employee (see Govt C §854.8(d); California Government Tort Liability Practice §4.14 (4th ed Cal CEB 1999).

See California Government Tort Liability Practice, chaps 1, 10-11 (4th ed Cal CEB 1999) for a more complete listing of immunities and a more detailed discussion of the specific statutory and common law immunities.

© The Regents of the University of California

§13.92 1. Tort Immunities Generally

The Government Claims Act (formerly known as the Tort Claims Act) (Govt C §§810-998.3) limits municipal liability by providing that liability is subject to any public entity immunities provided by statute. Govt C §815(b). These include statutory immunities existing either within or outside of the Government Claims Act. See, *e.g.,* Veh C §17004. Similarly, liabilities created by statutes outside the Government Claims Act are subject to Government Claims Act immunities. See 5 Witkin, Summary of California Law, *Torts* §§222-236, 272-285 (10th ed 2005).

One primary defense to tort claims is that the acts complained of were the result of the exercise of discretion by the employee. Govt C §§815.6, 820.2. In addition, except as otherwise provided by statute, a public entity is not liable for an injury resulting from an act or omission of an employee of the public entity when the employee is immune from liability. Govt C §815.2(b). Liability is limited further by Govt C §818, which provides that municipalities are not liable for punitive damages. On public entities' authority to pay punitive damages, see §13.89.

On immunities, see California Government Tort Liability Practice, chap 11 (4th ed Cal CEB 1999).

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/13 Liability and Litigation/§13.93 2. Specific Immunities Under Government Claims Act

§13.93 2. Specific Immunities Under Government Claims Act

Public entity immunities specified in the Government Claims Act include:

- Adoption/failure to adopt or enactment/failure to enact a law. Govt C §818.2.
- Issuance, denial, suspension, revocation, or denial of a permit or license. Govt C §818.4; *Cancun Homeowners Ass'n v City of San Juan Capistrano* (1989) 215 CA3d 1352, 1357, 264 CR 288.
- Failure to inspect non-municipal property for health and safety violations. Govt C §818.6; *Stevenson v San Francisco Hous. Auth.* (1994) 24 CA4th 269, 29 CR2d 398.
- Publication for educational use of records on persons convicted of controlled substance violations. Govt C §818.7.
- Employee's misrepresentation. Govt C §818.8.
- Advice to small claims litigants. Govt C §818.9.
- Public improvement design or plans. Govt C §830.6. See *Compton v City of Santee* (1993) 12 CA4th 591, 15 CR2d 660.
- Failure to provide traffic devices. Govt C §§830.4, 830.8. See *Weinstein v Department of Transp.* (2006) 139 CA4th 52, 61, 42 CR3d 417.
- Traffic signals controlled by emergency vehicles. Govt C §830.9.
- Weather conditions on streets and highways. Govt C §831.
- Failure to restrict use of fuel tank vehicles. Govt C §821.5.
- Injuries arising out of hazardous recreational activities. Govt C §831.7. See *Perry v East Bay Reg. Park Dist.* (2006) 141 CA4th 1, 11, 45 CR3d 477 (park district immune for death of teenager swimming in lake without lifeguards); *Yarber v Oakland Unified Sch. Dist.* (1992) 4 CA4th 1516, 6 CR2d 437 (school district immune for injuries sustained in adult basketball game); *Berry v State* (1992) 2 CA4th 688, 691, 3 CR2d 382 (state immune for injuries suffered when claimant dove from tree stump). See also Health & S C §115800 (skateboarding as hazardous recreational activity). But see *Avila v Citrus Community College Dist.* (2006) 38 C4th 148, 160, 41 CR3d 299 (immunity does not apply to school sports activities).
- Natural condition of unimproved public property. Govt C §§831.2, 831.25; *Knight v City of Capitola* (1992) 4 CA4th 918, 927, 6 CR2d 874 (city immune for injuries sustained by bodysurfer on city beach).
- Roadway repairs. Govt C §831.3.
- Condition or use of trails and unpaved roads. Govt C §831.4(a)-(b); *Astenius v State* (2005) 126 CA4th 472, 23 CR3d 877; *Giannuzzi v State* (1993) 17 CA4th 462, 21 CR2d 335. See *Carroll v County of Los Angeles* (1997) 60 CA4th 606, 609, 70 CR2d 504 (bike paths, whether paved or not, are "trails" and fall under this immunity).
- Condition of paved walkways. Govt C §831.4(c); *Giannuzzi v State, supra*.
- Condition of reservoirs. Govt C §831.8.
- Dangerous condition of public property. Govt C §835.4; *Kuhns v State* (1992) 8 CA4th 982, 990, 10 CR2d 773.
- Injuries by or to prisoners. Govt C §844.6.
- Failure to provide police protection. Govt C §845; *Davidson v City of Westminster* (1982) 32 C3d 197, 185 CR 252 (finding no "special relationship" between officers and victim and thus not reaching issue of statutory immunity). But see *Carpenter v City of Los Angeles* (1991) 230 CA3d 923, 934, 281 CR 500 (finding "special relationship" and thus duty to warn witness of threat to his life).
- Failure to provide prisons or prison equipment. Govt C §845.2.
- Interference with prisoner's rights and failure to provide prisoner medical care. Govt C §§845.4, 845.6.
- Prisoner parole decisions (Govt C §845.8(a); *Perez-Torres v State* (2007) 42 C4th 136, 64 CR3d 155) and injuries caused by escaped prisoners/arrestees. Govt C §845.8(b).
- Failure to make arrest. Govt C §846.
- Failure to provide fire protection (Govt C §§850, 850.2), injuries caused in fighting fires (Govt C §850.4), and acts of mutual aid firefighting services (Govt C §850.6).

- Transportation of injured persons. Govt C §850.8.
- Tax collection. Govt C §860.2.
- Acts taken to stop gradual earth movement. Govt C §866. See also Govt C §831.2.
- National Guard activities. Govt C §816.
- Public medical facilities and institutions. Govt C §§854-856.6; *Brookhouser v State* (1992) 10 CA4th 1665, 13 CR2d 658.

For a thorough discussion of immunities in specific functional areas, see California Government Tort Liability Practice, chap 11, §§12.66-12.101 (4th ed Cal CEB 1999).

§13.94 B. Municipal Tort Liability Generally

Before adoption of legislation in 1893, California public entities were immune from tort liability under the doctrine of sovereign immunity. Today, cities and other public entities are subject to liability based on the California Government Claims Act (formerly known as the Tort Claims Act) (Govt C §§810-998.3).

The Government Claims Act provides that a public entity is not liable for an injury arising out of an act or omission of the public entity or public employee or any other person except as otherwise provided by statute (*i.e.,* a California statute or the federal or state constitution). Govt C §815. See *Eastburn v Regional Fire Protection Auth.* (2003) 31 C4th 1175, 1179, 7 CR3d 552; *Zelig v County of Los Angeles* (2002) 27 C4th 1112, 1127, 119 CR2d 709.

NOTE: "Public entity" is defined to include officers and employees of the public entity, whether or not compensated; "employee" does not include independent contractors. Govt C §810.2. See Govt C §815.4 (imposing liability on public entities for tortious acts or omissions of independent contractors).

By requiring liability to be based on statute, the Government Claims Act abolished all common law or judicially declared liabilities. 5 Witkin, Summary of California Law*, Torts* §§222-224 (10th ed 2005).

NOTE: There continues to be debate as to whether in governmental tort cases the rule is liability and the exception is immunity, or whether the Government Claims Act was intended to make immunity the rule and liability only if provided by statute. See *Thompson v City of Lake Elsinore* (1993) 18 CA4th 49, 63, 22 CR2d 344.

© The Regents of the University of California

§13.95 1. Discretionary Acts

Except as otherwise provided by statute, a public employee is not liable for an injury resulting from an act or omission that was the result of the exercise of the discretion vested in the employee, whether or not such discretion was abused by the employee. Govt C §820.2. A public entity is not liable for an employee's torts when the employee is immune from liability. Govt C §815.2(b).

On discretionary acts and omissions, see California Government Tort Liability Practice §§10.6-10.32 (4th ed Cal CEB 1999).

© The Regents of the University of California

§13.96 a. Discretionary Versus Ministerial Acts

Early cases failed to establish a clear method or test for determining whether an act is discretionary or ministerial. In *Johnson v State* (1968) 69 C2d 782, 73 CR 240, many believe the supreme court created a test based on the separation of basic policy decisions (*i.e.,* discretionary) and implementation of the decisions (*i.e.,* ministerial). See, *e.g., Connelly v State* (1970) 3 CA3d 744, 751, 84 CR 257, ("the determination to issue flood forecasts is a policy-making function, a discretionary activity within the scope of governmental immunity, while gathering, evaluating and disseminating flood forecast information are administrative or ministerial activities outside the scope of governmental immunity"). See also California Government Tort Liability Practice §§10.21-10.29 (4th ed Cal CEB 1999) (examples of acts or omissions deemed to be discretionary or ministerial).

© The Regents of the University of California

§13.97 b. Employee Immunity

The discretionary immunity established by Govt C §820.2 extends to any public employee who, in the course of performing official duties, exercises discretionary authority. Discretionary immunity is not directly related to an employee's position or title. However, courts have generally denied immunity to public employees who make determinations "at the lowest ministerial rung of official action." *Johnson v State* (1968) 69 C2d 782, 795, 73 CR 240. The immunity has generally been granted to employees in high-ranking positions who are more likely to make decisions that require a judgment based on an analysis of the competing risks and advantages. *Johnson v State, supra*. But see *Customer Co. v City of Sacramento* (1995) 10 C4th 368, 41 CR2d 658 (means to carry out arrest vested police officer with immunity). Such officials can include city council members, city attorneys, city managers, and police chiefs. See *Caldwell v Montoya* (1995) 10 C4th 972, 42 CR2d 842 (members of school board immune from liability for decision not to renew school superintendent's contract). Public employees who have been denied the immunity include building inspectors, police officers, jailers, and county clerks. California Government Tort Liability Practice §10.22 (4th ed Cal CEB 1999).

© The Regents of the University of California

§13.98 c. Mandatory Duties

A public entity is liable for its failure to discharge a mandatory duty imposed by an enactment that is designed to protect against the risk of a particular kind of injury, unless the entity can show it exercised reasonable diligence to discharge the duty. Govt C §815.6; *Johnson v Mead* (1987) 191 CA3d 156, 158, 236 CR 277; *Young v City of Inglewood* (1979) 92 CA3d 437, 439, 154 CR 724. An enactment is a constitutional provision, statute, charter provision, ordinance, or authorized rule or regulation having the force of law. Govt C §§810.6, 811.6.

PRACTICE TIP: To protect a city from liability for failure to carry out self-imposed mandatory duties, the city should adopt an ordinance that clearly states that by the use of such words as "shall" and "must" in any ordinance, resolution, code, regulation, motion, or policy, the city council does not impose a mandatory duty.

On mandatory duty liability, see California Government Tort Liability Practice §§9.25-9.47 (4th ed Cal CEB 1999)

© The Regents of the University of California

§13.99 2. Dangerous Condition of Public Property

Government Code §§830-840.6 are the sole authority under which an individual may sue a public entity for injuries resulting from a "dangerous condition" of public property. "Negligence" of an employee of the public entity is not enough to impose liability. *Peterson v San Francisco Community College Dist.* (1984) 36 C3d 799, 809, 205 CR 842.

A plaintiff must prove each of the following to establish dangerous condition liability (Govt C §835):

- Public entity owned or controlled the property at the time of the incident;
- Property was in a dangerous condition at the time of the incident;
- Plaintiff's injuries were proximately caused by the dangerous condition;
- Accident was a reasonably foreseeable consequence of the condition; and
- Public entity negligently created the condition or had actual or constructive notice of it before the incident.

Brown v Poway Unified Sch. Dist. (1993) 4 C4th 820, 838, 15 CR2d 679 (res ipsa loquitur presumption does not satisfy requirements for holding public entity liable under Govt C §835(a)); *Mathews v City of Cerritos* (1992) 2 CA4th 1380, 1384, 4 CR2d 16.

For further discussion of public entity liability for dangerous condition of public property, see California Government Tort Liability Practice, chap 12 (4th ed Cal CEB 1999).

© The Regents of the University of California

§13.100 a. What Constitutes "Owned or Controlled" Property

For liability to be imposed, the public entity must be in a position to protect against or warn of the hazard, whether or not it owns the property. The critical inquiry is whether the public entity had the power to prevent, remedy, or guard against a dangerous condition. *Tolan v State ex rel Dep't of Transp.* (1979) 100 CA3d 980, 984, 161 CR 307; *Low v City of Sacramento* (1970) 7 CA3d 826, 833, 87 CR 173. Streets are not public property until "accepted" by the entity into its street system. See Str & HC §§1801, 1806; *Copeland v City of Oakland* (1993) 19 CA4th 717, 23 CR2d 719. However, an entity may be liable for streets if a plaintiff can show that the entity "controlled" the property in question. See Govt C §830(c). "Public property" does not include "easements, encroachments and other property that are located on the property of the public entity but are not owned or controlled by the public entity." Govt C §830(c).

On owned or controlled property, see California Government Tort Liability Practice §§12.9-12.12 (4th ed Cal CEB 1999).

© The Regents of the University of California

§13.101 b. What Constitutes a "Dangerous Condition"

A dangerous condition is "a condition of property that creates a substantial (as distinguished from a minor, trivial, or insignificant) risk of injury when such property or adjacent property is used with due care in a manner in which it is reasonably foreseeable that it will be used." Govt C §830(a); CACI 1102; *Callahan v City & County of San Francisco* (1967) 249 CA2d 696, 703, 57 CR 639 (must examine risk of injury to members of general public who are using property). A plaintiff is only required to establish that "the ..., condition creates a substantial risk of harm when used with due care by the public generally, as distinguished from the particular person charged as concurrent tortfeasor." *Mathews v State ex rel Dep't of Transp.* (1978) 82 CA3d 116, 121, 145 CR 443 (lack of due care by plaintiff at time of accident is not issue, but rather careful use in abstract). When the danger is only to careless users, no dangerous condition exists. See *Mathews v City of Cerritos* (1992) 2 CA4th 1380, 1384, 4 CR2d 16; *Dominguez v Solano Irrig. Dist.* (1991) 228 CA3d 1098, 1105, 279 CR 470.

Any defect must be substantial. Possible risks are not sufficient to impose liability. *Alexander v State ex rel Dep't of Transp.* (1984) 159 CA3d 890, 897, 205 CR 758. The defect must also present a substantial risk of injury to the general public when used with due care in a foreseeable manner. *Mathews v State ex rel Dep't of Transp.* (1978) 82 CA3d 116, 121, 145 CR 443. Liability may be imposed only when there is a substantial danger that is not apparent to those using the property in a reasonably foreseeable manner with due care. *Fredette v City of Long Beach* (1986) 187 CA3d 122, 131, 231 CR 598 (danger of diving obvious, warning unnecessary).

NOTE: The absence of prior accidents is admissible to prove that the site is not dangerous, but it "is not proof per se that no dangerous condition existed." *Beauchamp v Los Gatos Golf Course* (1969) 273 CA2d 20, 38, 77 CR 914. See also *Antenor v City of Los Angeles* (1985) 174 CA3d 477, 483, 220 CR 181; *McKray v State* (1977) 74 CA3d 59, 62, 141 CR 280;.

On what constitutes a dangerous condition, see California Government Tort Liability Practice §§12.15-12.35 (4th ed Cal CEB 1999).

© The Regents of the University of California

§13.102 (1) Dangerous Condition on Adjacent Property

The dangerous condition can be created by adjacent property, *e.g.,* when an adjacent landowner's sign obstructs the view down a city street. *Carson v Facilities Dev. Co.* (1984) 36 C3d 830, 841, 206 CR 136. A condition on city property may also make adjacent property dangerous. See *Milligan v City of Laguna Beach* (1983) 34 C3d 829, 834, 196 CR 38. A dangerous condition can be created by a combination of foreseeable third party conduct and a condition of property. *Peterson v San Francisco Community College Dist.* (1984) 36 C3d 799, 812, 205 CR 842.

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/13 Liability and Litigation/§13.103 (2) Trivial Defect on Property

§13.103 (2) Trivial Defect on Property

When determining whether a defect on the surfaces of streets or sidewalks is trivial, courts have rejected a rigid application of a "tape measure" test and will examine whether there existed aggravating factors such as lighting, debris, or a history of similar accidents. *Fielder v City of Glendale* (1977) 71 CA3d 719, 729, 139 CR 876 (¾-inch sidewalk depression, absent aggravating factors, was trivial as matter of law). Government Code §830.2 suggests that a court should look carefully to see whether a risk is trivial before submitting a question to the jury. The issue of whether a defect is trivial under Govt C §830.2 may be decided by the court as a matter of law. *Sambrano v City of San Diego* (2001) 94 CA4th 225, 233, 114 CR2d 151.

NOTE: A city can require adjacent property owners to repair sidewalks. Str & H C §5610. By ordinance, a city may also shift liability to adjacent landowners for injuries to pedestrians resulting from a dangerous condition on public sidewalks. *Gonzales v City of San Jose* (2004) 125 CA4th 1127, 23 CR3d 178. See *Alpert v Villa Ramano Homeowners' Ass'n* (2000) 81 CA4th 1320, 96 CR2d 364 (condominium homeowners' association (HOA) potentially liable for slip-and-fall on sidewalk buckled by HOA-maintained trees). But see *Williams v Foster* (1989) 216 CA3d 510, 521, 265 CR 15 (finding city's ordinance did not specifically shift liability to adjacent property owners). See generally *Jones v Deeter* (1984) 152 CA3d 798, 805, 199 CR 825 (discussing bases of liability against municipality and abutting property owners in absence of liability-shifting ordinance).

PRACTICE TIP: Sidewalk displacement cases pose particularly difficulty issues for cities. To the extent possible, there may be a benefit to having a court, rather than a jury, decide issues of potential liability.

© The Regents of the University of California

§13.104 c. What Constitutes "Legal Cause" of Injury

"Legal cause" means a substantial factor in bringing about an injury. *Whiteley v Philip Morris, Inc.* (2004) 117 CA4th 635, 11 CR3d 807. Although Govt C §835 still uses the phrase "proximate cause," its use in negligence actions has been criticized. See *Mitchell v Gonzales* (1991) 54 C3d 1041, 1049, 1 CR2d 913. See also CACI 400 (jury instruction providing that the causation element for negligence is whether the defendant was a "substantial factor in causing" plaintiff's harm, rather than using proximate cause terminology). However, courts often refer to "proximate or legal cause." See, *e.g., Ladd v County of San Mateo* (1996) 12 C4th 913, 917, 50 CR2d 309; CACI 400, Sources and Authority (continuing to cite to cases using proximate cause terminology).

It is error for a court to give the "proximate cause" instruction when several concurring causes of an injury exist. *Mitchell v Gonzales, supra*.

When injury could be prevented by a physical device (*e.g.,* lock, fence), the failure to provide such a device can be a legal cause even if the injury was inflicted by a third party's negligence or criminal act. *Nola M. v University of S. Cal.* (1993) 16 CA4th 421, 436, 20 CR2d 97.

On causation, see California Government Tort Liability Practice §§12.36-12.40 (4th ed Cal CEB 1999).

© The Regents of the University of California

§13.105 d. What Constitutes Notice of Dangerous Condition

A required element of proving a dangerous condition is that the public entity either negligently created the dangerous condition or had "actual" or "constructive" notice of the dangerous condition. See *Brown v Poway Unified Sch. Dist.* (1993) 4 C4th 820, 836, 15 CR2d 679. "Actual notice" means that the public entity actually knew of the condition and knew or should have known of its dangerous character. Govt C §835.2(a). "Constructive notice" means that "the condition had existed for such a period of time and was of such an obvious nature that the public entity, in the exercise of due care, should have discovered the condition and its dangerous character." Govt C §835.2(b).

On notice, see California Government Tort Liability Practice §§12.46-12.51 (4th ed Cal CEB 1999).

© The Regents of the University of California

§13.106 e. Affirmative Defenses to Action for Dangerous Condition of Property

When faced with an action based on the dangerous condition of public property, a public entity may raise one or more of the following affirmative defenses (some of which are immunities discussed §13.93):

- **Comparative negligence.** If the defect was open and obvious, principles of comparative negligence may apply given the plaintiff's failure to observe and avoid it. Comparative negligence of others will also reduce liability for damages under Proposition 51. See CC §§1431-1432.
- **No time to take protective measures.** If it did not create the condition, the public entity is not liable if it did not have sufficient time to protect the public from the danger. Govt C §835(b); CACI 1103 (jury may consider whether "the condition had existed for enough time before the incident and was so obvious that the defendant reasonably should have discovered the condition and known that it was dangerous").
- **Dangerous condition created by reasonable act.** The public entity is not liable if the act or omission of its employee creating the condition was reasonable. See Govt C §835.4(a); CACI 1111 (jury may weigh foreseeability of injury against practicability and cost of alternative actions).
- **Reasonable action to protect against dangerous condition.** The public entity is not liable if its failure to remedy the condition was reasonable. See Govt C §835.4(b); CACI 1112 (jury may weigh time and opportunity available to entity to have alleviated condition, and cost of doing so, against foreseeability of injury).
- **Design immunity.** The public entity is not liable for injuries caused by a dangerous condition of its property when the plan or design creating that condition was reasonably approved before construction. Govt C §830.6. See *Cornette v Department of Transp.* (2001) 26 C4th 63, 69, 109 CR2d 1 (when triable issues of material fact are presented, plaintiff has right to jury trial as to issues involved in loss of design immunity). Design immunity does not apply to a failure to warn claim when a warning is necessary for a design condition not reasonably apparent to a careful user. *Anderson v City of Thousand Oaks* (1976) 65 CA3d 82, 93, 135 CR 127. To establish design immunity, the entity must establish each of the following elements: (1) a causal relationship between the plan and the accident; (2) discretionary approval of the plan before construction; and (3) substantial evidence supporting the reasonableness of the design. *Ramirez v City of Redondo Beach* (1987) 192 CA3d 515, 525, 237 CR 505 (immunity applies even if reasonable minds differ concerning whether design should have been approved). See Govt C §830.6. Design immunity does not apply to a condition that is not part of the design as approved. *Cameron v State* (1972) 7 C3d 318, 326, 102 CR 305. But see *Ramirez v City of Redondo Beach, supra* (placement of stop limit line found to be covered by design immunity, when placement was made according to verbal instructions of employee with discretionary authority). Design immunity may be lost if the design has become dangerous because of a change in physical conditions. See Govt C §830.6; *Cornette v Department of Transp.* (2001) 26 C4th 63, 72, 109 CR2d 1. However, design immunity will not be lost as a result of changed conditions that were contemplated when the original design was approved. See *Alvis v County of Ventura* (2009) 178 CA4th 536, 554, 100 CR3d 494.

PRACTICE TIP: For projects not requiring city council approval, vest authority in the city manager or public works director to approve designs. The imposition of certification requirements on plaintiff's counsel in certain actions may make it desirable to have designs approved by a professional engineer. See CCP §411.35.

NOTE: Under CCP §411.35, in every action arising out of the alleged professional negligence of a person holding a valid architect, professional engineer, or surveyor's license or certificate, the plaintiff's attorney must file a certificate of review and consultation before the complaint is served. The certificate must contain a declaration that the attorney has (1) reviewed the facts of the case; (2) consulted with and received an opinion from at least one qualified architect, professional engineer, or land surveyor; and (3) concluded on the basis of the review and consultation that the action is meritorious. See CCP §411.35(b).

- **No liability for failure to provide regulatory traffic signs and signals.** A condition is not dangerous merely

because of the failure to provide regulatory traffic control signals or signs or roadway markings. Govt C §830.4; *Frazier v County of Sonoma* (1990) 218 CA3d 454, 458, 267 CR 39. When the dangerous condition exists for reasons other than, or in addition to, the mere failure to provide such controls, this immunity does not apply. See Govt C §830.4; *Washington v City & County of San Francisco* (1990) 219 CA3d 1531, 1534, 269 CR 58.

PRACTICE TIP: If the public entity installs signs, signals, or roadway markings, it must maintain them. Section 830.4 does not preclude liability based on failure to maintain such regulatory devices. Thus, when a public entity exercises its discretion to install traffic signs or regulatory signals, and thereby invites the public reliance on them, the public entity may become liable for creating a dangerous condition if the signs or signals fail to function as intended. *Teall v City of Cudahy* (1963) 60 C2d 431, 434, 34 CR 869. But see *City of South Lake Tahoe v Superior Court* (1998) 62 CA4th 971, 978, 73 CR2d 146 (failure to replace stop sign did not give rise to dangerous condition).

- **No liability for failure to provide traffic warning signs or signals.** A public entity is not liable for any injury caused by the failure to provide traffic or warning signals or signs. Govt C §830.8. This immunity applies to detour signs, pedestrian-crossing prohibition signs, railroad warning signs, road work warning signs, and school crossing signs. It applies unless such signs were necessary to warn of a dangerous condition that endangered the safe movement of traffic and would not be reasonably apparent to a person exercising due care. Govt C §830.8; *Foremost Dairies, Inc. v State* (1986) 190 CA3d 361, 367, 232 CR 70 (city not liable for injuries caused by dangerous condition if it provides "adequate warning" or if it fails to warn of condition of which plaintiff is fully aware).

PRACTICE TIP: Complaints for failure to provide a warning sign must be carefully analyzed because the plaintiff must affirmatively claim that any warning signs were inadequate. *Hefner v County of Sacramento* (1988) 197 CA3d 1007, 1018, 243 CR 291, abrogated on other grounds by *Cornette v Department of Transp.* (2001) 26 C4th 63, 109 CR2d 1.

- **No liability for effects of weather conditions on streets and highways.** A public entity is not liable for injuries caused by the effects on streets and highways of weather conditions such as fog, wind, rain, and ice, which are reasonably apparent to persons using due care. See Govt C §831. But see *Erfurt v State* (1983) 141 CA3d 837, 846, 190 CR 569 (no weather immunity for state when motorist struck guardrail after being blinded by sun as she reached crest of hill).
- **No liability for natural conditions of unimproved public property.** See Govt C §831.2. See *Tessier v City of Newport Beach* (1990) 219 CA3d 310, 314, 268 CR 233 (natural conditions may include some human alterations that "merely duplicate models common in nature"). Public beaches are considered natural, despite the provision of services. See Govt C §831.21. Certain recreational access roads and trails are also covered by an immunity. See Govt C §831.4.

NOTE: The immunity provided by Govt C §831.2 is inapplicable to actions against public entities for injuries to people on adjacent property if the injuries were caused by natural conditions on the unimproved public property. *Milligan v City of Laguna Beach* (1983) 34 C3d 829, 835, 196 CR 38. However, Govt C §831.25 provides immunity for damage to adjacent property caused by landslides and other earth movements caused by the natural condition of unimproved public property.

- **No liability for hazardous recreational activities on public property.** See Govt C §831.7; *Yarber v Oakland Unified Sch. Dist.* (1992) 4 CA4th 1516, 1519, 6 CR2d 437 (basketball). See Govt C §831.7 for many exceptions to this rule.

On statutory defenses and immunities, see §§13.91-13.93; California Government Tort Liability Practice §§12.56-12.101 (4th ed Cal CEB 1999).

© The Regents of the University of California

3. Checklist for Approaching Tort Liability

§13.107 a. Before Lawsuit Is Filed

- **Consider enacting an ordinance to impose liability for injuries to passersby on adjacent property owners who fix sidewalks.** See Str & H C §5610; *Gonzales v City of San Jose* (2004) 125 CA4th 1127, 23 CR3d 178. See also §13.103. Consider the policy and political implications of enacting such an ordinance.
- **Be aware of which procedure manuals, guidelines, or policies are "mandatory," as opposed to "advisory" in nature.** When deviations from guidelines are necessary, city employees should clearly document the reasons for taking such actions.
- **Inspection manuals used by the city should explain that significant discretion is vested in the inspector.** Any manual or guidebook created by the city for the use of its employees should have a disclaimer at the beginning stating that such guidelines or "goals" are not intended to be a legal standard, but are merely intended to serve as a reference source for the employees.
- **Establish design immunity** (see §13.106) **when undertaking improvements and modifications.** When a public improvement is constructed or modified, ensure that each document is created and maintained by the city employees to help establish the "design immunity." Any deviation from the plans made at the construction site or elsewhere should be documented and approved in writing before construction.
- **Create and maintain an adequate recordkeeping system.** Store records in a manner that ensures easy and reliable access.
- **Obtain defense, indemnity, and hold-harmless agreements and insurance.** Hold-harmless agreements should be obtained from each and every possible source for any work or project the city undertakes and should contain an obligation to defend the city.
- **Follow-up on notices to repair.** If an adjacent property owner is given a notice to repair the owner's sidewalk, the city should follow up the notice in a timely manner to make certain that the repairs are made. If an adjacent property owner fails to make timely repairs, the city should perform the work and place a lien on the property for the cost of repairs. The city does not escape liability simply by issuing a notice to repair. The city normally remains ultimately liable for the condition of its sidewalks.
- **Monitor problem areas.** Inspect areas that have been brought to the attention of the city as "trouble spots" on a timely basis and document each inspection. It is difficult to defend the city when an injury occurs in an area that has been brought to the city's attention. If a condition is repaired, it should be checked at a later date to make sure it has not deteriorated. For example, if it is known that street lights are vandalized at a particular location, the city must be able to document that it has taken reasonable actions to ensure that the lights remain functioning.
- **Inspect for proper visibility of signs and warnings.** Visibility problems are a source of alleged liability. Red zones for parked cars and notices to property owners to eliminate obstructions such as overgrown shrubbery are ways to promote visibility.
- **Inspect crosswalks and signal devices located near schools.** Children being struck by vehicles near schools are a source of claims and litigation.
- **Immediately investigate and film all serious and fatal accident scenes.** Preserve any and all evidence that could be used in the city's defense. Photograph all relevant approaches to the accident scene from sufficient distance to address visibility and related considerations. Critical evidence may be lost as a result of photographs limited to the accident scene itself.
- **Retain investigative photographs, including digital data or negatives.** These should be held until the statute of limitations has run in all cases with potential exposure to the city. Important details lost in poor copies of photographs may jeopardize the ability to perform "photogrametry" or various other accident reconstruction techniques.
- **Maintain accident history request forms.** These forms should be printed and used so that the city and its defense counsel know who requested what information and when, and especially what information and documents were given out in response to the request. Placement of the form in the appropriate file facilitates

this purpose.

§13.108 b. After Lawsuit Is Filed

- **Require the plaintiff to state fully at the outset of the lawsuit every aspect of the property that was allegedly in a dangerous condition.** If the complaint contains vague or conclusory allegations, consider filing a demurrer. This will help prevent the plaintiff from "fishing" during discovery for defects that were never considered at the time of the incident. The plaintiff must state facts in the complaint sufficiently detailed and specific to support an inference that each of the statutory elements is satisfied. *People ex rel Dep't of Transp. v Superior Court* (1992) (Verdeja) 5 CA4th 1480, 1486, 7 CR2d 498; *Mittenhuber v City of Redondo Beach* (1983) 142 CA3d 1, 5, 190 CR 694. Consider propounding discovery requests to pin down the plaintiff early in the litigation. Forcing specific allegations will also set up a potential summary judgment motion.
- **Compare the allegations of the complaint to the claim.** If the plaintiff seeks to introduce allegations concerning the dangerous nature of the property beyond the scope of the claim, consider filing a demurrer. *Turner v State* (1991) 232 CA3d 883, 888, 284 CR 349; *Nelson v State* (1982) 139 CA3d 72, 79, 188 CR 479.
- **Do not allow documents that are the subject of litigation to be released without the city attorney's knowledge.** These documents may be sought either through a Public Records Act (Govt C §§6250-6276.48) request or discovery procedures in the litigation. Plaintiff attorneys and their investigators frequently contact city employees directly and request information that is the subject of a lawsuit. Instruct city employees to obtain any investigator's name, business card, and the name of the case under investigation. Implement a reliable procedure to notify the city attorney of document requests. Discovery rules, evidentiary privileges, and exceptions to the Public Records Act may or may not limit documents subject to disclosure. For example, the Public Records Act pending litigation exemption applies only to documents prepared for use in litigation. See *Fairley v Superior Court* (1998) 66 CA4th 1414, 1420, 78 CR2d 648. Consequently, it is crucial that the city attorney determine which documents are subject to disclosure and be aware of all documents that are released to a plaintiff. See also §§2.218-2.269 (on Public Records Act).
- **If any possibility of insurance coverage exists, immediately tender defense to the carrier.** Review all possible policies to determine extent of coverage and insurer obligations and procedures.

§13.109 C. Municipal Liability for Intentional Torts

Government Code §820 codifies the common law rule that public employees, and thus public entities, are liable for intentional or negligent wrongs. Section 820 imposes liability on public employees to the same extent as a private person. However, any such liability of the public entity or public employee is subject to specified defenses and immunities. California Government Tort Liability Practice §§9.3-9.4 (4th ed Cal CEB 1999); 5 Witkin, Summary of California Law, *Torts* §346 (10th ed 2005).

Public entities sometimes attempt to avoid liability on the grounds that an employee acted outside the scope of employment when he or she intentionally injured the plaintiff. However, the mere fact a public employee intentionally committed a tort does not establish that the act was committed outside the scope of employment. See *Mary M. v City of Los Angeles* (1991) 54 C3d 202, 221, 285 CR 99 (woman raped by on-duty police sergeant can recover from municipality). See also *Ruppe v City of Los Angeles* (1921) 186 C 400, 401, 199 P 496 (meter reader's assault on householder within scope of employment). But see *Duffy v City of Oceanside* (1986) 179 CA3d 666, 224 CR 879 (city not liable under respondeat superior for murder of city employee); *Alma W. v Oakland Unified Sch. Dist.* (1981) 123 CA3d 133, 176 CR 287 (as matter of law, school janitor was not acting within scope of employment when he sexually assaulted student on school premises).

Whether an intentional tort occurred within the scope of employment will ordinarily be a question of fact. *Mary M.,* 54 C3d at 213. However, acts or omissions constituting sexual harassment cannot be deemed to be within the scope of employment of an elected official. Govt C §815.3(b). When an elected official is convicted of certain felonies, the official forfeits any rights to defense or indemnification under Govt C §825 for damages arising from the felony act or omission. See Govt C §825.6(b).

PRACTICE TIP: There may be times when the entity may want to provide an employee with the defense costs for criminal charges. See Govt C §995.8 (authorizing, but not requiring, defense). See also California Government Tort Liability Practice §4.12 (4th ed Cal CEB 1999). On employee defense and indemnification, see §§13.86-13.89.

D. Municipal Liability for Libel and Slander

§13.110 1. Legislative or Other Official Proceeding

To promote the utmost freedom of communication on subjects of public interest, public entities are absolutely immune from liability with respect to all "publications" made in the course of a legislative, quasi-legislative, or administrative board proceeding. CC §47(b); *Susan A. v County of Sonoma* (1991) 2 CA4th 88, 93, 3 CR2d 27. There is also immunity under Govt C §821.6 for statements made in the course of prosecuting a crime or initiating an administrative proceeding. Government entities also have immunity under the anti-SLAPP suit statute. CCP §425.16; *Bradbury v Superior Court* (1996) 49 CA4th 1108, 1111, 57 CR2d 207.

NOTE: "Publications" in this context includes both verbal and written statements publicly presented during a legislative hearing or meeting. *Silberg v Anderson* (1990) 50 C3d 205, 212, 266 CR 638. In some contexts, the immunity may apply to statements made outside a public meeting, but within a "political/legislative" process. *Cayley v Nunn* (1987) 190 CA3d 300, 235 CR 385 (gathering signatures for petition to city council). See 5 Witkin, Summary of California Law, *Torts* §§564-583 (10th ed 2005).

For a publication to be absolutely immune, the statement must "have some connection or logical relation to [an official] proceeding." *Royer v Steinberg* (1979) 90 CA3d 490, 503, 153 CR 499 (test easily met when publications made at board of education meeting held to respond to school superintendent's allegation that board could not prove charges of misconduct). See *Frisk v Merrihew* (1974) 42 CA3d 319, 325, 116 CR 781 (reversing directed verdict for defendant when school superintendent accused speaker at school board budget hearing of being incompetent lawyer and teacher). The immunity applies to statements made while circulating a petition to be presented at the hearing. *Cayley v Nunn* (1987) 190 CA3d 300, 303, 235 CR 385. Doubts as to whether a statement bears a logical relation to an official proceeding are resolved in favor of a finding of privilege. *Twyford v Twyford* (1976) 63 CA3d 916, 926, 134 CR 145.

The immunity is unaffected by the existence of malice in the communicator's mind. *Royer,* 90 CA3d at 500. See also *Scott v McDonnell Douglas Corp.* (1974) 37 CA3d 277, 285, 112 CR 609 (letters read at public council session by council members strongly criticizing city manager); *Harnish v Smith* (1956) 138 CA2d 307, 308, 291 P2d 532 (council member accused local newspaperman at regular council session of following Communist Party line).

© The Regents of the University of California

§13.111 2. Discharge of Official Duty

Public officials are absolutely immune for statements made in carrying out their official duties. CC §47(a). The purpose of this immunity is to "'insure efficiency in government by encouraging policy-making officials to exercise their best judgment in the performance of their duties free from fear of general tort liability.'" *Royer v Steinberg* (1979) 90 CA3d 490, 500, 153 CR 499 (quoting *Sanborn v Chronicle Publ'g Co.* (1976) 18 C3d 406, 413, 134 CR 402). The immunity extends to local officials engaged in the policy-making process. *Royer*, 90 CA3d at 501 (court dismissed suit alleging school board members defamed school superintendent by adopting motion at public hearing critical of superintendent). See *McQuirk v Donnelley* (9th Cir 1999) 189 F3d 793, 800 (defamatory statements made by sheriff when providing reference for former employee to another law enforcement agency not policy-making and thus not privileged). Courts also have granted members of the public absolute immunity against defamation for statements made in an open meeting that were critical of public employees. See *Baca v Moreno Valley Unified Sch. Dist.* (CD Cal 1996) 936 F Supp 719, 731.

© The Regents of the University of California

§13.112 3. Civil Rights Liability for Defamation

Injury to reputation alone is not actionable under federal civil rights laws. *Paul v Davis* (1976) 424 US 693, 701, 47 L Ed 2d 405, 96 S Ct 1155 (police officers did not violate plaintiff's civil rights by distributing flyer to merchants that included plaintiff's photograph and identified him as shoplifter). To state a claim for defamation under 42 USC §1983, a plaintiff must allege damage to reputation plus denial of a right expressly protected by the constitution or the denial of a recognizable property or liberty interest. *Cooper v Dupnik* (9th Cir 1991) 924 F2d 1520, 1532 (denying qualified immunity when alleged defamation occurred in connection with unconstitutional arrest). On causes of action under 42 USC §1983, see §§13.115-13.122.

© The Regents of the University of California

§13.113 E. Municipal Liability for Constitutional Claims

Both the United States and California constitutions provide bases for potential municipal liability. Virtually every provision in the Bill of Rights has been used as the basis for municipal liability. Although the most common mechanism for bringing constitutional claims against municipalities is through 42 USC §1983 (see §§13.114-13.139), §1983 is not the only mechanism. For example, the United States Constitution may provide a basis for a direct claim, at least against federal agents when no statute specifically creates a remedy. *Bivens v Six Unknown Named Agents of Fed. Bureau of Narcotics* (1971) 403 US 388, 395, 29 L Ed 2d 619, 91 S Ct 1999. However, using *Bivens* as a basis for municipal liability is questionable because the United States Supreme Court has declined to create a *Bivens* remedy when Congress has provided what it considers adequate remedial mechanisms for constitutional violations, such as 42 USC §1983. See *Martinez v City of Los Angeles* (9th Cir 1998) 141 F3d 1373, 1382; *Ward v Caulk* (9th Cir 1981) 650 F2d 1144, 1148 (Fourteenth Amendment *Bivens*-type actions for damages against county defendants precluded by availability of §1983 action). Similarly, a *Bivens* remedy does not exist if the public entity would not be liable under a 42 USC §1983 action. See *Molina v Richardson* (9th Cir 1978) 578 F2d 846, 847 (no city liability directly under Fourteenth Amendment and thus no *Bivens* action when city could not be liable under §1983 based on respondeat superior).

© The Regents of the University of California

§13.114 F. Municipal Liability for Civil Rights/42 USC §1983 Claims

United States Code title 42, §1983 was adopted by Congress on April 20, 1871. It provides that:

> Every person who, under color of any statute, ordinance, regulation, custom, or usage, of any State or Territory or the District of Columbia, subjects, or causes to be subjected, any citizen of the United States or other person within the jurisdiction thereof to the deprivation of any rights, privileges, or immunities secured by the Constitution and laws, shall be liable to the party injured in an action at law, suit in equity, or other proper proceeding for redress, except that in any action brought against a judicial officer for an act or omission taken in such officer's judicial capacity, injunctive relief shall not be granted unless a declaratory decree was violated or declaratory relief was unavailable.

Section 1983 was known as the Ku Klux Klan Act and was enacted in the wake of the Civil War to allow for the redress of constitutional violations either performed by or with the acquiescence of state and local governments. However, the statute was rarely used until the latter part of the 20th century.

In 1961, the United States Supreme Court held that: (1) every violation of the Fourteenth Amendment by state and local government employees, and officials could serve as the basis for a damage suit under §1983; (2) §1983 liability would be similar to tort liability; (3) a §1983 action for federal violations would exist even if an alternative state law violation could be asserted instead; and (4) local government units were not "persons" and thus not subject to suit. *Monroe v Pape* (1961) 365 US 167, 5 L Ed 2d 492, 81 S Ct 473.

In 1976, Congress passed the Civil Rights Attorney's Fees Awards Act, which provides for the award of attorney fees to the prevailing party in §1983 suits. Under this statute, attorney fees could be awarded outside of and in addition to other damages. See 42 USC §1988. See §13.149.

In 1978, the United States Supreme Court overruled *Monroe* on the question of whether local governments were persons and ruled that local governments are "persons" and are subject to suit under §1983. The Court held that: (1) a local government is a "person" under §1983 and thus may be sued for either legal or equitable relief under that statute; (2) a local government may be held liable under §1983 only for unconstitutional actions that implement or execute its official policies as reflected in an ordinance, regulation, decision, policy statement, custom, or usage; (3) no liability may be imposed directly on a local government under §1983 on the theory of respondeat superior solely because an officer or employee has committed a tort in the course of employment; and (4) government immunities created or recognized by state law cannot override liabilities created by §1983. *Monell v Department of Soc. Servs.* (1978) 436 US 658, 56 L Ed 2d 611, 98 S Ct 2018.

PRACTICE TIP: For more information on §1983 claims, see Weinstein, The Basic Framework of Section 1983 Law (League of California Cities City Attorneys Continuing Education Seminar, *Emerging Trends in 1983 Liability,* 1990) (much of the discussion on §1983 in this section comes from this excellent paper); California Government Tort Liability Practice, chap 13 (4th ed Cal CEB 1999); 8 Witkin, Summary of California Law, *Constitutional Law* §§814-845 (10th ed 2005); Nahmod, Civil Rights and Civil Liberties Litigation (West, 4th ed 1997); Schwartz, Kirklin & Pratt, Section 1983 Litigation (Aspen Publishers, 2d-4th ed); Smolla, Federal Civil Rights Acts (West, 3d ed); Sobieski & Cook, Civil Rights Actions (Matthew Bender); Avery, Blum & Rudovsky, Police Misconduct Law and Litigation (West, 3d ed); Law Enforcement Liability Reporter (monthly newsletter published by Americans for Effective Law Enforcement, a defense-oriented group in Chicago, available at www.aele.org/law).

© The Regents of the University of California

§13.115 1. Scope of §1983

United States Code title 42, §1983 is a remedial statute. It creates an action for damages and injunctive relief against an individual or local government, or both, who deprive a plaintiff of rights, privileges, and immunities secured by the United States Constitution or federal law. See *Smith v Wade* (1983) 461 US 30, 56, 75 L Ed 2d 632, 103 S Ct 1625.

The concept of what constitutes a "federal right" for purposes of stating a §1983 claim is constantly evolving. However, the constitutional or statutory claim underlying a §1983 action must create a private right of action or corresponding remedy. See, *e.g., Cornejo v County of San Diego* (9th Cir 2007) 504 F3d 853, 860 (plaintiffs cannot bring §1983 claims based on Article 36 of the Vienna Convention on Consular Relations because Article 36 creates no private rights of action or corresponding remedies).

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/13 Liability and Litigation/§13.116 a. Constitutional Rights

§13.116 a. Constitutional Rights

The most straightforward federal rights are those secured by the United States Constitution. The Fourteenth Amendment due process clause subjects local public entities to most constitutional provisions and constitutes the major constitutional foundation for §1983 claims. Cases have arisen under virtually all of the provisions of the Bill of Rights:

- **First Amendment establishment, free exercise, and free speech clauses**. *Inouye v Kemna* (9th Cir 2007) 504 F3d 705, 712 (parole officer liable under §1983 because requirement that parolees attend faith-based treatment program violated establishment clause); *Lambert v Richard* (9th Cir 1995) 59 F3d 134, 136, cert denied (1995) 516 US 1028 (library employee's critical remarks about her boss held subject to First Amendment protection); *Sloman v Tadlock* (9th Cir 1994) 21 F3d 1462, 1469 (police officer liable for violating First Amendment rights of supporter of ballot measure). See also *McCreary County v American Civil Liberties Union* (2005) 545 US 844, 162 L Ed 2d 729, 125 S Ct 2722 (discussion of establishment clause in context of Ten Commandments displays); *Van Orden v Perry* (2005) 545 US 677, 162 L Ed 2d 607, 125 S Ct 2854. But see *Garcetti v Ceballos* (2006) 547 US 410, 164 L Ed 2d 689, 126 S Ct 1951 (First Amendment does not protect government employees when they are speaking under their official duties); *Menotti v City of Seattle* (9th Cir 2005) 409 F3d 1113, 1142 (emergency order prohibiting access to portions of city during 1999 WTO Conference was constitutional); *Nelson v Pima Community College* (9th Cir 1996) 83 F3d 1075, 1080 (government can curtail speech of public employees that is disruptive to efficiency of public services it performs, subject to state whistleblower statutes). The First Amendment rights of a public employee depend on whether the expression deals with a "matter of public concern," *i.e.,* it must encompass an issue of "political, social, or other concern to the community." *Brewster v Lynwood Unified Sch. Dist.* (9th Cir 1998) 149 F3d 971, 978, cert denied (1999) 526 US 1018. Nevertheless, the public entity may curtail protected speech if necessary to prevent workplace disruption. *Brewster v Lynwood Unified Sch. Dist., supra*. See *City of San Diego v Roe* (2004) 543 US 77, 84, 160 L Ed 2d 410, 125 S Ct 521 (police officer's speech—selling sexual videos of himself off-duty in unidentified uniform—was not matter of public concern, but police department demonstrated legitimate and substantial interests that were compromised by police officer's speech). A teacher's free speech rights may be limited by the establishment clause. *Peloza v Capistrano Unified Sch. Dist.* (9th Cir 1994) 37 F3d 517, 522 (district's interest in avoiding establishment clause violation justifies curtailing teacher's discussion of religion with students). It is not a civil rights violation to fire a policy-maker for political reasons. *Branti v Finkel* (1980) 445 US 507, 517, 63 L Ed 2d 574, 100 S Ct 1287; *Elrod v Burns* (1976) 427 US 347, 367, 49 L Ed 2d 547, 96 S Ct 2673. See also *Biggs v Best, Best & Krieger* (9th Cir 1999) 189 F3d 989, 995 (city attorneys are "policymaking officials" under *Elrod/Branti* rule); *Fazio v City & County of San Francisco* (9th Cir 1997) 125 F3d 1328, 1334 (assistant district attorney is "policymaking" position falling under *Elrod/Branti* rule). It is not a violation of the First Amendment to remove persons from city council meetings for disruptive conduct. See Pen C §403 (willful disturbance of public meeting is misdemeanor); Govt C §36813 (authorizing city council to establish rules for conduct of meetings); *Kindt v Santa Monica Rent Control Bd.* (9th Cir 1995) 67 F3d 266, 269 (presiding officers at meeting may enforce reasonable rules for orderly conduct); *White v City of Norwalk* (9th Cir 1990) 900 F2d 1421 (city may establish rules of decorum at council meetings to preclude disruptive conduct); *McMahon v Albany Unified Sch. Dist.* (2002) 104 CA4th 1275, 1285, 129 CR2d 184, cert denied (2003) 540 US 824 (individual who dumped substantial amount of trash in school board's meeting room during meeting was lawfully arrested).

NOTE: If a person's exercise of First Amendment rights is a "substantial factor" in a public entity's action against that person (*e.g.,* termination of employment), there may be liability for a First Amendment violation. 5 USC §1221; See *Mt. Healthy Sch. Dist. Bd. of Educ. v Doyle* (1977) 429 US 274, 286, 50 L Ed 2d 471, 97 S Ct 568. However, the public entity may escape liability if it shows it would have taken the same action even absent the protected activity. *Mt. Healthy Sch. Dist. Bd. of Educ. v Doyle, supra*.

PRACTICE TIP: If a public entity takes action against a person that could implicate his or her First Amendment rights,

the public entity should document the reasons for its actions.

- **Fourth Amendment prohibition against unreasonable search or seizure**. The Fourth Amendment does not prohibit all searches and seizures, only those that are unreasonable. *Brigham City v Stuart* (2006) 547 US 398, 403, 164 L Ed 2d 650, 126 S Ct 1943 (application of Emergency Doctrine to allow warrantless search of residence); *U.S. v Brooks* (9th Cir 2004) 367 F3d 1128, 1135 (warrantless search of residence requires both probable cause and exigent circumstances). But see *Georgia v Randolph* (2006) 547 US 103, 106, 164 L Ed 2d 208, 126 S Ct 1515 (if both occupants of residence are present, there is no valid consent to enter without warrant if one occupant objects to search); *Wilson v Layne* (1999) 526 US 603, 614, 143 L Ed 2d 818, 119 S Ct 1692 (third parties accompanying federal and county officers during attempt to execute arrest warrant in home violates Fourth Amendment when presence of third parties in home is not in aid of execution of warrant); *Graham v Connor* (1989) 490 US 386, 388, 104 L Ed 2d 443, 109 S Ct 1865 (claims of police misconduct/excessive force are analyzed under Fourteenth Amendment); *Terry v Ohio* (1968) 392 US 1, 27, 20 L Ed 2d 889, 88 S Ct 1868 (police may stop person for investigatory purposes when police have only reasonable suspicion that individual may be involved in criminal activity); *Smith v City of Hemet* (9th Cir 2005) 394 F3d 689, 706 (new definition of what constitutes "deadly force"); *People v Thompson* (2006) 38 C4th 811, 825, 43 CR3d 750 (California Supreme Court distinguished prior United States Supreme Court ruling and held that, under circumstances at issue, officers could enter residence to arrest DUI suspect without warrant to prevent imminent destruction of evidence though body's ability to metabolize alcohol). See also *Albright v Oliver* (1994) 510 US 266, 270, 127 L Ed 2d 114, 114 S Ct 807 (malicious prosecution claim analyzed solely under Fourth Amendment).
- **Fifth Amendment right to remain silent**. *Chavez v Martinez* (2003) 538 US 760, 766, 155 L Ed 2d 984, 123 S Ct 1994 (no Fifth Amendment violation for self-incriminating statements compelled by police interrogation until statements are used in criminal case).
- **Sixth Amendment right to counsel.** *Cinelli v City of Revere* (1st Cir 1987) 820 F2d 474, 476 (interference in criminal suspect's right to counsel).
- **Eighth Amendment prohibition against cruel and unusual punishment.** *Estelle v Gamble* (1976) 429 US 97, 103, 50 L Ed 2d 251, 97 S Ct 285 (deliberate indifference to medical needs of prisoners).
- **Fourteenth Amendment due process clause.** *Town of Castle Rock v Gonzales* (2005) 545 US 748, 766, 162 L Ed 2d 658, 125 S Ct 2796 (private citizen lacks judicially cognizable property interest in police enforcement of restraining order); *City of W. Covina v Perkins* (1999) 525 US 234, 142 L Ed 2d 636, 119 S Ct 678 (due process required officers to give individualized notice that they had taken property but not of available state law remedies found in public sources, including statutes and case law); *Kennedy v City of Ridgefield* (9th Cir 2006) 439 F3d 1055, 1067 (no qualified immunity when police officer's actions affirmatively placed plaintiff in danger); *Redman v County of San Diego* (9th Cir 1991) 942 F2d 1435, 1449, cert denied (1992) 502 US 1074 (pretrial detainee has right to personal security under due process clause); *Schneider v County of San Diego* (9th Cir 1994) 28 F3d 89, 92, cert denied (1995) 513 US 1155 (violation of due process when public entity only gave notice of intention to remove property but instead destroyed property).
- **Fourteenth Amendment equal protection clause.** *Squaw Valley Dev. Co. v Goldberg* (9th Cir 2004) 375 F3d 936, overruled in part on other grounds in *Action Apartment Ass'n v Santa Monica Rent Control Opinion Bd.* (9th Cir 2007) 509 F3d 1020 (equal protection clause protects not only groups, but individuals who constitute "class of one," and when claim is based on selective enforcement of valid laws, rational basis for selectively enforcing law may not be pretext for impermissible motive, *e.g.,* state action that is malicious, irrational, or plainly arbitrary); *Balistreri v Pacifica Police Dep't* (9th Cir 1990) 901 F2d 696, 699 (alleged discriminatory police protection practices against female domestic abuse victims); *Church of Scientology v Commissioner of Internal Revenuer* (9th Cir 1987) 823 F.2d 1310, 1320 (to prevail on claim of violation of equal protection for selective or discriminatory enforcement or prosecution, plaintiff must prove that (1) others generally are not prosecuted for same conduct; and (2) decision to prosecute was based on impermissible grounds such as race, religion, or exercise of constitutional rights).
- **Commerce clause.** *Dennis v Higgins* (1991) 498 US 439, 440, 112 L Ed 2d 969, 111 S Ct 865 (state tax on instate motor vehicles registered out of state).

© The Regents of the University of California

§13.117 b. Other Rights/Interests

A particular interest or "right" may or may not rise to the level of a constitutional violation for purposes of 42 USC §1983. Following are examples of cases in which the right or interest was not found to rise to the level of a constitutional violation. See, *e.g., DeShaney v Winnebago County Dep't of Soc. Servs.* (1989) 489 US 189, 201, 103 L Ed 2d 249, 109 S Ct 998 (claimed special relationship creating "duty to protect" did not rise to level of potential §1983 violation); *Daniels v Williams* (1986) 474 US 327, 330, 88 L Ed 2d 662, 106 S Ct 662 (no §1983 claim arises from negligent act of official causing unintended loss or injury; mere lack of due care does not deprive one of life, liberty, or property); *Baker v McCollan* (1979) 443 US 137, 145, 61 L Ed 2d 433, 99 S Ct 2689 (arrest of wrong man due to mistaken identity did not state claim under §1983); *Paul v Davis* (1976) 424 US 693, 711, 47 L Ed 2d 405, 96 S Ct 1155 (reputational interests akin to tort of defamation are not sufficient basis for §1983 claim).

© The Regents of the University of California

§13.118 c. Property Interests

A "property" interest may deserve protection under 42 USC §1983, but only if there is a reasonable claim of entitlement. *Board of Regents of State Colleges v Roth* (1972) 408 US 564, 577, 33 L Ed 2d 548, 92 S Ct 2701. See, *e.g., Yee v City of Escondido* (1992) 503 US 519, 530, 118 L Ed 2d 153, 112 S Ct 1522 (mobile home rent control ordinance did not amount to physical taking); *First English Evangelical Lutheran Church v County of Los Angeles* (1987) 482 US 304, 322, 96 L Ed 2d 250, 107 S Ct 2378 (temporary taking of right to use property); *Loretto v Teleprompter Manhattan CATV Corp.* (1982) 458 US 419, 426, 73 L Ed 2d 868, 102 S Ct 3164 (permanent physical occupation taking); *Perry v Sindermann* (1972) 408 US 593, 602, 33 L Ed 2d 570, 92 S Ct 2694 (college professor with claim to tenure protected by due process clause). But see *Bishop v Wood* (1976) 426 US 341, 344, 48 L Ed 2d 684, 96 S Ct 2074 (state-created "right" subject to change or discretion, for example at-will employment, is not protectable interest); *Nunez v City of Los Angeles* (9th Cir 1998) 147 F3d 867, 871 (no property interest in promotion to lieutenant); *Duke v Langdon* (9th Cir 1983) 701 F2d 768, 769 (probationary employee has no entitlement to continued employment and thus no property interest).

NOTE: If a property right exists, the state cannot take that right away without providing adequate due process. Whether the government has provided adequate due process is basically a question of fairness to be decided on a case-by-case basis. *Mathews v Eldridge* (1976) 424 US 319, 343, 47 L Ed 2d 18, 96 S Ct 893.

© The Regents of the University of California

§13.119 d. Liberty Interests

Liberty interests may be subject to constitutional protection. *Board of Pardons v Allen* (1987) 482 US 369, 377, 96 L Ed 2d 303, 107 S Ct 2415 (state statute providing for conditional parole creates protectable liberty interest); *Rosenstein v City of Dallas* (5th Cir 1989) 876 F2d 392, 395 (denial of name-clearing hearing deprives discharged officer of protected liberty interest).

© The Regents of the University of California

§13.120 e. Violation of Federal Laws

A violation of a federal statute may provide a basis for suit under 42 USC §1983. *Maine v Thiboutot* (1980) 448 US 1, 4, 65 L Ed 2d 555, 100 S Ct 2502. If a plaintiff has a right protected by federal law and Congress did not foreclose the remedy of a §1983 enforcement action, then a suit under §1983 may proceed. *Franklin v Gwinnette County Public Sch.* (1992) 503 US 60, 65, 117 L Ed 2d 208, 112 S Ct 1028 (Title IX of the Civil Rights Act of 1964 provides private right of action); *Golden State Transit Corp. v City of Los Angeles* (1989) 493 US 103, 108, 107 L Ed 2d 420, 110 S Ct 444 (suit by plaintiff against city for violation of National Labor Relations Act). However, if the federal statute itself includes a remedial scheme sufficiently comprehensive to demonstrate that Congress did not intend for enforcement under §1983, then a civil rights action may not proceed. *Middlesex County Sewerage Auth. v National Sea Clammers Ass'n* (1981) 453 US 1, 20, 69 L Ed 2d 435, 101 S Ct 2615 (no private cause of action under §1983 for violation of federal water pollution laws).

© The Regents of the University of California

§13.121 f. Wrongful Death

Civil rights cases asserting wrongful death typically arise from actions of law enforcement officers. Surviving parents, spouse, and children may assert a 42 USC §1983 claim based on violation of their due process rights to society and companionship by the actions causing the death. *Smith v City of Fontana* (9th Cir 1987) 818 F2d 1411, cert denied (1987) 484 US 935, overruled in part on other grounds in *Hodgers-Durgin v De La Vina* (9th Cir 1999) 199 F3d 1037, 1041 n1; *Irwin v City of Hemet* (1994) 22 CA4th 507, 517, 27 CR2d 433. Survivors might not be able to raise constitutional claims for rights personal to the decedent (*e.g.,* Fourth Amendment rights). See *Robertson v Hecksel* (11th Cir 2005) 420 F3d 1254, 1261; *Crumpton v Gates* (9th Cir 1991) 947 F2d 1418, 1420; *Jaco v Bloechle* (6th Cir 1984) 739 F2d 239, 242.

© The Regents of the University of California

§13.122 g. Section 1983 Actions in State Court

State courts have concurrent jurisdiction over 42 USC §1983 actions. *Williams v Horvath* (1976) 16 C3d 834, 129 CR 453. See California Government Tort Liability Practice §13.8 (4th ed Cal CEB 1999).

© The Regents of the University of California

2. Immunities Under §1983

§13.123 a. No Immunity Under §1983 for Local Governments

A local government is liable under 42 USC §1983 for violations caused by an official policy or custom even when the governmental official responsible for that policy or custom is immune. *Owen v City of Independence* (1980) 445 US 622, 639, 63 L Ed 2d 673, 100 S Ct 1398. State law immunities do not apply to §1983 actions. *Howlett v Rose* (1990) 496 US 356, 375, 110 L Ed 2d 332, 110 S Ct 2430. However, a local government is absolutely immune from punitive damages (*Cook County v U.S.* (2003) 538 US 119, 129, 155 L Ed 2d 247, 123 S Ct 1239; *City of Newport v Fact Concerts, Inc.* (1981) 453 US 247, 271, 69 L Ed 2d 616, 101 S Ct 2748) even though public employees are not. *Smith v Wade* (1983) 461 US 30, 35, 75 L Ed 2d 632, 103 S Ct 1625. On punitive damages, see §13.147.

An agency may be shielded from §1983 liability if other statutory grounds immunize the entity for the underlying cause of action. *Amberger-Warren v City of Piedmont* (2006) 143 CA4th 1074, 1078, 49 CR3d 631 (city immune from liability based on personal injuries to plaintiff on trail because Govt C §831.4(a) precludes liability arising from use of recreational trails). Under certain circumstances, a public agency may also be protected from §1983 liability under a contractual waiver of such liability by the plaintiff. *Nilsson v City of Mesa* (9th Cir 2007) 503 F3d 947, 952.

© The Regents of the University of California

§13.124 b. Individual Immunities

Immunity for individuals exists in the form of either absolute immunity or qualified immunity. *Harlow v Fitzgerald* (1982) 457 US 800, 807, 73 L Ed 2d 396, 102 S Ct 2727; *Supreme Court of Virginia v Consumers Union* (1980) 446 US 719, 64 L Ed 2d 641, 100 S Ct 1967.

The following six factors, among others, are characteristic of the judicial process and are to be considered in determining whether absolute, as opposed to qualified, immunity applies (*Cleavinger v Saxner* (1985) 474 US 193, 202, 88 L Ed 2d 507, 106 S Ct 496):

(1) The need to ensure that the individual can perform his or her functions without harassment or intimidation;

(2) The presence of safeguards that reduce the need for private damages actions as a means of controlling unconstitutional conduct;

(3) The insulation from political influence;

(4) The importance of precedent;

(5) The adversarial nature of the process; and

(6) The correctability of error on appeal.

© The Regents of the University of California

§13.125 (1) Absolute Immunity

Legislators acting within the traditional legislative capacity, judges acting judicially within or in excess of jurisdiction but not in clear absence of all jurisdiction, and prosecutors acting as advocates in the criminal process are *absolutely* immune from liability for damages under 42 USC §1983. See *Briscoe v LaHue* (1983) 460 US 325, 334, 75 L Ed 2d 96, 103 S Ct 1108 (police officer as trial witness); *Lake Country Estates, Inc. v Tahoe Reg'l Planning Agency* (1979) 440 US 391, 403, 59 L Ed 2d 401, 99 S Ct 1171 (regional planning agency members); *Stump v Sparkman* (1978) 435 US 349, 359, 55 L Ed 2d 331, 98 S Ct 1099 (state court judge); *Imbler v Pachtman* (1976) 424 US 409, 427, 47 L Ed 2d 128, 96 S Ct 984 (public prosecutor); *Tenney v Brandhove* (1951) 341 US 367, 95 L Ed 1019, 71 S Ct 783 (state legislators). Municipal legislators are also entitled to absolute immunity when acting within traditional legislative capacity. Several circuits have conferred absolute immunity for local legislative acts and also on city executives when acting in a legislative capacity:

- Local zoning commissions (*Bass v Attardi* (3d Cir 1989) 868 F2d 45, 50; *Kuzinich v County of Santa Clara* (9th Cir 1982) 689 F2d 1345, 1349);
- City councils (See Govt C §§818.2, 820.2, 821, 821.2; *Aitchison v Raffiani* (3d Cir 1983) 708 F2d 96, 99. See also *Trevino v Gates* (9th Cir 1994) 23 F3d 1480, 1482, cert denied (1994) 513 US 932 (city council members not entitled to absolute immunity from suit based on their decision to indemnify police officers who violated rights of citizens); and
- Local legislators (*Bogan v Scott-Harris* (1998) 523 US 44, 49, 140 L Ed 2d 79, 118 S Ct 966 (local legislators entitled to absolute immunity from §1983 actions for their legislative activities)).

Officials performing prosecutorial functions are entitled to absolute immunity from damages liability because their function is integral to the judicial process. *Imbler v Pachtman* (1976) 424 US 409, 430, 47 L Ed 2d 128, 96 S Ct 984. The immunity does not extend, however, to suits for injunctive or declaratory relief. *Supreme Court of Virginia v Consumers Union* (1980) 446 US 719, 736, 64 L Ed 2d 641, 100 S Ct 1967. Prosecutorial immunity does not apply to nonprosecutorial functions such as police or investigative work. *Buckley v Fitzsimmons* (1993) 509 US 259, 275, 125 L Ed 2d 209, 113 S Ct 2606 (inapplicable to alleged fabrication of evidence and making false statements at press conference); *Burns v Reed* (1991) 500 US 478, 492, 114 L Ed 2d 547, 111 S Ct 1934 (inapplicable to legal advice given to police); *Mitchell v Forsyth* (1985) 472 US 511, 520, 86 L Ed 2d 411, 105 S Ct 2806 (issuing wiretap); *Ogborn v City of Lancaster* (2002) 101 CA4th 448, 459, 124 CR2d 238 (court reached distinct result on city's, director's, and code enforcement officers' role in abatement). The prosecutorial function must closely parallel the judicial process for the immunity to apply.

© The Regents of the University of California

§13.126 (2) Qualified Immunity

Government officials "performing discretionary functions generally are shielded from liability for civil damages insofar as their conduct does not violate clearly established statutory or constitutional rights of which a reasonable person would have known." *Harlow v Fitzgerald* (1982) 457 US 800, 818, 73 L Ed 2d 396, 102 S Ct 2727. Qualified immunity shields officials "from civil damages liability as long as their actions could reasonably have been thought consistent with the rights they are alleged to have violated." *Anderson v Creighton* (1987) 483 US 635, 638, 97 L Ed 2d 523, 107 S Ct 3034. An official can reasonably act unreasonably. See *Saucier v Katz* (2001) 533 US 194, 208, 150 L Ed 2d 272, 121 S Ct 2151, overruled on other grounds in *Pearson v Callahan* (2009) ___ US ___, 172 L Ed 2d 565, 129 S Ct 808 (qualified immunity is available in excessive force cases when it would not be clear to reasonable officer that actions were unlawful in situation confronted by officer); *Graham v Connor* (1989) 490 US 386, 399 n12, 104 L Ed 2d 443, 109 S Ct 1865 (in excessive force claim, court recognized that qualified immunity could still apply to excessive force claims arising under this standard); *Anderson v Creighton*, 483 US at 641 (rejecting argument that official cannot reasonably act and finding that qualified immunity applied to officials alleged to have violated Fourth Amendment); *Brewster v Lynwood Unified Sch. Dist.* (9th Cir 1998) 149 F3d 971, 983, cert denied (1999) 526 US 1018 (qualified immunity will generally apply to any right that is subject to balancing test; something subject to balancing test will rarely be "clearly established"); *Lowe v Aldridge* (11th Cir 1992) 958 F2d 1565, 1570 (qualified immunity applies to false arrest when official had reasonable but mistaken belief that probable cause existed; question is whether officer had "arguable probable cause"); *Fuller v M.G. Jewelry* (9th Cir 1991) 950 F2d 1437, 1451 (qualified immunity applies to mistaken but reasonable belief that body cavity search could be based only on reasonable suspicion). See also *Stevens v Corbell* (5th Cir 1987) 832 F2d 884, 890, cert denied (1988) 486 US 1033 (court appeared to disallow qualified immunity defense when elements of underlying offense (intentional discrimination) vitiated defense).

Qualified immunity is available to individual officials, but not to the city. *Brandon v Holt* (1985) 469 US 464, 83 L Ed 2d 878, 105 S Ct 873; *Owen v City of Independence* (1980) 445 US 622, 638, 63 L Ed 2d 673, 100 S Ct 1398; *Ogborn v City of Lancaster* (2002) 101 CA4th 448, 463, 124 CR2d 238. However, plaintiff must show custom or policy for the act to be attributed to the city. *Monell v Department of Soc. Servs.* (1978) 436 US 658, 690, 56 L Ed 2d 611, 98 S Ct 2018.

Qualified immunity applies when (see *Anderson v Creighton,* 483 US at 638):

- The law was not clearly established at the time of the alleged wrongful conduct; or
- If the law was clearly established, a reasonable official could have believed the conduct was lawful.

The standard is objective. *Brosseau v Haugen* (2004) 543 US 194, 197, 160 L Ed 2d 583, 125 S Ct 596 (qualified immunity inquiry must be undertaken in light of the specific facts of each case); *Harlow v Fitzgerald, supra*. Evidence of an official's subjective intent is irrelevant to the determination of whether qualified immunity attaches. *Crawford-El v Britton* (1998) 523 US 574, 588, 140 L Ed 2d 759, 118 S Ct 1584.

Whether the law was "clearly established" is determined by the law in effect at the time of the alleged offense. See *Ward v San Diego* (9th Cir 1986) 791 F2d 1329, 1332, cert denied (1987) 483 US 1020. "Clearly established" means that a reasonable official would understand that his actions are violating a person's constitutional rights. *Brewster*, 149 F3d at 977. See *Elliot-Park v Manglona* (9th Cir 2010) 592 F3d 1003 (police officers not entitled to qualified immunity for alleged failure to investigate drunk driving automobile accident based on victim's race). An official cannot be expected to anticipate changes in the law. *Harlow v Fitzgerald, supra*.

PRACTICE TIP: To determine whether the law was "clearly established," begin with United States Supreme Court decisions and decisions of the circuit in which the case is pending. If no precedent is found, decisions from other courts may be used. *Kirkpatrick v City of Los Angeles* (9th Cir 1986) 803 F2d 485, 490. See *Siegert v Gilley* (1991) 500 US 226, 231, 114 L Ed 2d 277, 111 S Ct 1789 (defamatory letter violated no clearly established federal right). The application of a given constitutional guarantee to a particular context must be "clearly established" before an official is precluded from invoking qualified immunity. See *Brewster v Lynwood Unified*

School Dist., supra. Although it will often be appropriate to conduct the qualified immunity analysis by first determining whether a constitutional violation occurred and then determining whether the constitutional right was clearly established, that ordering of analytical steps is not mandatory. *Pearson v Callahan* (2009) ___ US ___, 172 L Ed 2d 565, 129 S Ct 808.

The qualified immunity defense applies to claims for damages; it does not apply, however, to claims for injunctive or declaratory relief. See *Wood v Strickland* (1975) 420 US 308, 321, 43 L Ed 2d 214, 95 S Ct 992, overruled in part on other grounds in *Harlow v Fitzgerald, supra*.

Because qualified immunity provides "immunity from suit rather than a mere defense to liability," a trial court's denial of qualified immunity is immediately appealable. *Mitchell v Forsyth* (1985) 472 US 511, 526, 86 L Ed 2d 411, 105 S Ct 2806. But see *Johnson v Jones* (1995) 515 US 304, 313, 132 L Ed 2d 238, 115 S Ct 2151 (no interlocutory appeal regarding factual issues). See also *Trevino v Gates* (9th Cir 1996) 99 F3d 911, 917 (qualified immunity found on grounds that law is not clearly established that policy of indemnifying punitive damage awards violates constitutional rights).

PRACTICE TIP: The application of qualified immunity should be determined if possible before discovery commences. It is proper to determine its applicability on the pleadings or on motion for summary judgment. *Harlow v Fitzgerald* (1982) 457 US 800, 818, 73 L Ed 2d 396, 102 S Ct 2727. The reasonableness of an official's belief is a question of law that ordinarily should be determined long before trial. *Hunter v Bryant* (1991) 502 US 224, 228, 116 L Ed 2d 589, 112 S Ct 534. In light of the Supreme Court ruling in *Hunter,* a motion for summary judgment should be considered standard procedure for adjudicating the issue of qualified immunity. See also *Act Up!/Portland v Bagley* (9th Cir 1993) 988 F2d 868, 873. The court may determine the existence of qualified immunity as a matter of law, at least in cases in which there is no genuine issue of disputed material facts. *Washington v Lambert* (9th Cir 1996) 98 F3d 1181, 1192. If immunity exists, it is typically advantageous to obtain a ruling on this issue and terminate litigation as early as possible.

© The Regents of the University of California

§13.127 c. Immunity for States

States and their agencies may not be sued for damages or for declaratory or injunctive relief by virtue of the Eleventh Amendment. *Pennhurst State Sch. & Hosp. v Halderman* (1984) 465 US 89, 100, 79 L Ed 2d 67, 104 S Ct 900; *Quern v Jordan* (1979) 440 US 332, 338, 59 L Ed 2d 358, 99 S Ct 1139. See California Government Tort Liability Practice §13.19 (4th ed Cal CEB 1999). However, the rule may be the exception. See *Ex Parte Young* (1908) 209 US 123, 150, 52 L Ed 714, 28 S Ct 441 (Eleventh Amendment will not be applied in way that defeats federal courts' authority to enforce 42 USC §1983 action). See also *Hafer v Melo* (1991) 502 US 21, 25, 116 L Ed 2d 301, 112 S Ct 358 (government official in role of personal capacity defendant is "person" subject to §1983 for actions taken in official capacity); *Gen-Probe, Inc. v Amoco Corp.* (SD Cal 1996) 926 F Supp 948, 953 (Eleventh Amendment immunity may not apply when another entity must pay judgment on claim because of indemnification agreement).

© The Regents of the University of California

§13.128 d. Collateral Estoppel

Prior criminal or administrative proceedings can provide a collateral estoppel against litigating issues in a 42 USC §1983 action. *Allen v McCurry* (1980) 449 US 90, 103, 66 L Ed 2d 308, 101 S Ct 411 (denial of suppression motion binding in subsequent §1983 action); *Ayers v City of Richmond* (9th Cir 1990) 895 F2d 1267, 1272 (not applicable to excessive force claim not litigated in suppression motion); *Heath v Cast* (9th Cir 1987) 813 F2d 254, 258 (superior court's order granting motion to suppress evidence in criminal matter is not considered final judgment on merits for purposes of collateral estoppel). See *Heck v Humphrey* (1994) 512 US 477, 486, 129 L Ed 2d 383, 114 S Ct 2364 (§1983 claim relating to allegedly unconstitutional conviction is not cognizable until plaintiff proves that conviction was previously invalidated); *Nuno v County of San Bernardino* (CD Cal 1999) 58 F Supp 2d 1127, 1135 (nolo plea in prior criminal proceeding can provide collateral estoppel against litigating probable cause in §1983 action). But see *Venegas v County of Los Angeles* (2007) 153 CA4th 1230, 1243, 63 CR3d 741 (qualified immunity under §1983 as established in prior case did not establish qualified immunity in subsequent action under CC §52.1).

© The Regents of the University of California

§13.129 3. Prima Facie Case for §1983 Claim

To state a 42 USC §1983 claim against a city, the plaintiff must establish that (*Monell v Department of Soc. Servs.* (1978) 436 US 658, 56 L Ed 2d 611, 98 S Ct 2018):

- There was an underlying violation of a federally protected right; and
- The right was violated as a result of a policy or custom adopted or ratified by a municipal policy-maker.

NOTE: If the city prevails on the issue of the lack of existence of an unlawful municipal custom or policy under *Monell*, it has succeeded in showing lack of causation. See *City of Los Angeles v Heller* (1986) 475 US 796, 799, 89 L Ed 2d 806, 106 S Ct 1571. If there is no unlawful municipal policy, then the municipality did not cause the event about which the plaintiff is complaining. *McDade v West* (9th Cir 2000) 223 F3d 1135, 1141 (plaintiff cannot demonstrate existence of municipal policy or custom based solely on single occurrence of unconstitutional action by non-policy-making employee). On causation, see §13.133. Similarly, if the employee did not violate the plaintiff's rights, the issue of custom or policy becomes moot. See *City of Los Angeles v Heller, supra* (holding policy officer did not violate plaintiff's constitutional rights and thus avoiding issue of custom or policy).

Exhaustion of administrative remedies is not a condition precedent to filing a §1983 action. *Patsy v Florida Bd. of Regents* (1982) 457 US 496, 516, 73 L Ed 2d 172, 102 S Ct 2557. However, when a plaintiff seeks primarily money damages under state law and includes a §1983 claim, the plaintiff may be required to comply with California's government claims requirements for the state claim. *Lozada v City & County of San Francisco* (2006) 145 CA4th 1139, 1159, 52 CR3d 209 (government claim required as prerequisite to employee complaint for violation of Public Safety Officers Procedural Bill of Rights Act (Govt C §§3300-3313) and under §1983).

© The Regents of the University of California

§13.130 a. Required Allegations

Two fundamental allegations are required to state a 42 USC §1983 claim for relief (*Gomez v Toledo* (1980) 446 US 635, 640, 64 L Ed 2d 572, 100 S Ct 1920):

- Plaintiff was deprived of a right protected under the United States Constitution or federal law; and
- Deprivation of that right was caused by a "person" acting under color of state law.

See also, *Monell v Department of Soc. Servs.* (1978) 436 US 658, 694, 56 L Ed 2d 611, 98 S Ct 2018 (to state §1983 claim against city, plaintiff must establish (1) underlying violation of federally protected right; (2) right was violated as result of policy of custom adopted or ratified by municipal policymaker).

© The Regents of the University of California

§13.131 (1) Deprivation of Federally Protected Right

A federally protected right must have been violated. *Monell v Department of Soc. Servs.* (1978) 436 US 658, 56 L Ed 2d 611, 98 S Ct 2018. For example, the fact that a departmental regulation might have authorized the use of constitutionally excessive force is beside the point if a person did not suffer an injury in violation of federal law at the hands of an individual police officer. *City of Los Angeles v Heller* (1986) 475 US 796, 799, 89 L Ed 2d 806, 106 S Ct 1571. But see *Chew v Gates* (9th Cir 1994) 27 F3d 1432, 1438, cert denied (1994) 513 US 1148 (supervisorial liability may be imposed under 42 USC §1983 notwithstanding exoneration of police officer whose actions are immediate or precipitating cause of constitutional injury).

© The Regents of the University of California

§13.132 (2) Action Under Color of State Law

The challenged conduct must be by a state or local government actor as distinguished from purely private conduct. Stating a general "color of law" rule is difficult. "State action" and "color of law" may be generally viewed as interchangeable, but not always. *Lugar v Edmondson Oil Co.* (1982) 457 US 922, 929, 73 L Ed 2d 482, 102 S Ct 2744 (private party invoking state prejudgment attachment procedures acts under color of law, but when he abuses or misuses them, he does not). A person acts under color of law while acting in an official capacity or while exercising responsibilities under state law. The person must be exercising authority "possessed by virtue of state law and made possible only because the wrongdoer is clothed with the authority of state law." *West v Atkins* (1988) 487 US 42, 49, 101 L Ed 2d 40, 108 S Ct 2250, quoting *U.S. v Classic* (1941) 313 US 299, 326, 85 L Ed 1368, 61 S Ct 1031. Compare *Stengel v Belcher* (6th Cir 1975) 522 F2d 438, 440, cert granted (1975) 425 US 910, cert dismissed (1975) 429 US 118 (off-duty police officer who intervened in café fight, who would have been subject to discipline had he not intervened and who was paid workers' compensation benefits for his own injuries, acted under color of law), with *Bonsignore v City of New York* (2d Cir 1982) 683 F2d 635, 638 (off-duty officer who shot his wife as result of "personal matters" was not acting under color of law). See also *Delcambre v Delcambre* (5th Cir 1981) 635 F2d 407, 408 (family dispute involving police chief not acting under color of law); *Traver v Meshriy* (9th Cir 1980) 627 F2d 934, 938 (off-duty officer acting as bank teller who makes arrest was acting under color of law).

NOTE: "Color of law" and "scope of employment" are not necessarily synonymous. See *Dang Vang v Toyed* (9th Cir 1991) 944 F2d 476, 480 (rape by public employee of person with whom employee came into contact amounted to abuse of authority under color of law). A public employee arguably could act under color of law for purposes of 42 USC §1983, but outside of the employee's scope of employment for purposes of municipal liability. See, *e.g., Farmers Ins. Group v County of Santa Clara* (1995) 11 C4th 992, 1019, 47 CR2d 478 (sexual harassment by deputy sheriff); *Mary M. v City of Los Angeles* (1991) 54 C3d 202, 285 CR 99 (rape by police officer); *K.G. v County of Riverside* (2003) 106 CA4th 1374, 1382, 131 CR2d 762 (sexual assault by police officer); *Thorn v City of Glendale* (1994) 28 CA4th 1379, 1383, 35 CR2d 1 (burning of building by fire marshal); *White v County of Orange* (1985) 166 CA3d 566, 212 CR 493 (false imprisonment and assault by police officer); *Alma W. v Oakland Unified Sch. Dist.* (1981) 123 CA3d 133, 176 CR 287 (rape by school custodian).

© The Regents of the University of California

§13.133 b. Required Causation

Conduct by the actor under color of law must cause the deprivation of a federal right. In some cases, the conduct by the government actor is considered too remote from the alleged result to have caused it. See, *e.g., Martinez v California* (1980) 444 US 277, 285, 62 L Ed 2d 481, 100 S Ct 553 (action of parole board in releasing inmate not cause of later crime and resulting injury); *Johnson v City of Seattle* (9th Cir 2007) 474 F3d 634, 639 (city's failure to prevent violence during celebration did not cause injuries by third party malfeasants). An intervening act may "cut off" potential liability. See, *e.g., Smiddy v Varney* (9th Cir 1986) 803 F2d 1469, 1473 (decision by prosecutor to file criminal charges may cut off liability of officers for false arrest). But see *White v Frank* (2d Cir 1988) 855 F2d 956, 961 (grand jury indictment may be prima facie evidence of probable cause to defeat subsequent action for malicious prosecution, but is not controlling).

Because there is no respondeat superior liability under 42 USC §1983 (*i.e.,* a city is not liable simply because an official commits a tort in the course of employment), a city is liable only if it "causes" the violation of plaintiff's rights. A city is not liable simply because it employs a tortfeasor. *Monell v Department of Soc. Servs.* (1978) 436 US 658, 691, 56 L Ed 2d 611, 98 S Ct 2018. See *City of Canton v Harris* (1989) 489 US 378, 385, 103 L Ed 2d 412, 109 S Ct 1197. Similarly, a public official is not liable for action taken by a city unless that public official caused the city to take the action that allegedly caused the plaintiff's constitutional injury. *Arnold v IBM* (9th Cir 1981) 637 F2d 1350; *Johnson v Duffy* (9th Cir 1978) 588 F2d 740, 743. The mere "failure to act" by a city may not support a §1983 claim, particularly when claimed injuries are caused by third party conduct. *Johnson v City of Seattle* (9th Cir 2007) 474 F3d 634, 639 (city's failure to provide extra police protection and protect citizens from third party harm during city-wide celebration did not violate due process clause).

© The Regents of the University of California

§13.134 c. Municipal Policy or Custom

The violation must have been caused by a municipal policy or custom. This may be an official policy (see *Monell v Department of Soc. Servs.* (1978) 436 US 658, 690, 56 L Ed 2d 611, 98 S Ct 2018 (referring to "policy statement, ordinance, regulation, or decision officially adopted and promulgated by that body's officers")), or a policy of inaction (see *Oviatt By & Through Waugh v Pearce* (9th Cir 1992) 954 F2d 1470, 1474 (inaction must amount to failure to protect constitutional right)). Because a single decision of an employee usually will not create liability, municipalities generally will not be liable for failing to have adopted a policy on a particular topic. *Davis v City of Ellensburg* (9th Cir 1989) 869 F2d 1230, 1233 (city not liable for failure to have written policy on use of force in making misdemeanor arrests). However, an adequate policy adopted by the city may shield it from liability. *Alcala v City of Corcoran* (2007) 147 CA4th 666, 678, 53 CR3d 908 (police vehicular pursuit policy shielded city from 42 USC §1983 liability when it complied with Veh C §17004.7 and was properly adopted by city). But see *Berman v City of Daly City* (1993) 21 CA4th 276, 285, 26 CR2d 493 (city's vehicular pursuit policy did not provide minimum guidelines statutorily required to qualify for immunity).

PRACTICE TIP: Vehicle Code §17004.7 only immunizes a city from liability for incidences arising out of vehicle pursuits if the adopted policy conforms with all the minimum standards set out in that section. Cities should review and update, as necessary, their pursuit policies for conformance with this statute.

Action and practices of city officials, even if not taken under an official written law or policy, could still be so permanent and well settled as to constitute a "custom or usage" to establish municipal liability. *Monell,* 436 US at 691.

© The Regents of the University of California

§13.135 (1) Liability May Arise From Acts of Lower-Level Employees

City liability may arise from acts of lower-level employees who lack final policy-making authority, when those acts establish a municipal "custom or policy" or a failure to train or supervise. A series of acts or omissions by a lower-level employee may constitute an official "custom or usage" when the acts or omissions are persistent and widespread, and the policy-maker fails to take corrective action. *City of St. Louis v Praprotnik* (1988) 485 US 112, 127, 99 L Ed 2d 107, 108 S Ct 915; *City of Oklahoma City v Tuttle* (1985) 471 US 808, 85 L Ed 2d 791, 105 S Ct 2427; *Monell v Department of Soc. Servs.* (1978) 436 US 658, 691, 56 L Ed 2d 611, 98 S Ct 2018; *Adickes v S.H. Kress & Co.* (1970) 398 US 144, 167, 26 L Ed 2d 142, 90 S Ct 1598. A single act or omission by a lower-level employee generally is not enough to establish a custom or policy. See *City of Oklahoma City v Tuttle* (1985) 471 US 808, 823, 85 L Ed 2d 791, 105 S Ct 2427. But see *Pembaur v City of Cincinnati* (1986) 475 US 469, 480, 89 L Ed 2d 452, 106 S Ct 1292 (single act or decision by policy-makers may be sufficient to establish liability).

© The Regents of the University of California

§13.136 (2) Liability May Arise From a Pattern of Inadequate Training

A pattern of inadequate training may give rise to liability when the failure to train amounts to deliberate indifference to the rights of persons with whom the inadequately trained employee comes into contact. *City of Canton v Harris* (1989) 489 US 378, 388, 103 L Ed 2d 412, 109 S Ct 1197. The same standard applies to liability arising from a pattern of inadequate supervision. *Davis v City of Ellensburg* (9th Cir 1989) 869 F2d 1230, 1235. But see *Collins v City of Harker Heights* (1992) 503 US 115, 126, 117 L Ed 2d 261, 112 S Ct 1061 (due process clause imposes no substantive duty to train employees to particular level). To be classified as a "pattern" of inadequate training, the deficient training must be program-wide (and not only with respect to a single officer/employee) (*Alexander v City & County of San Francisco* (9th Cir 1994) 29 F3d 1355, 1367), or a single incident under rare circumstances. *Merritt v County of Los Angeles* (9th Cir 1989) 875 F2d 765, 771.

© The Regents of the University of California

§13.137 (3) Policy of Custom Must Be Attributable to a Policy-Maker

To establish liability, the policy or custom must be attributable to a municipal policy-maker. A policy-maker has final, non-appealable authority to establish municipal policy. *City of St. Louis v Praprotnik* (1988) 485 US 112, 123, 99 L Ed 2d 107, 108 S Ct 915; *Pembaur v City of Cincinnati* (1986) 475 US 469, 482, 89 L Ed 2d 452, 106 S Ct 1292. See *Bach v County of Butte* (1983) 147 CA3d 554, 569, 195 CR 268 (act of deputy prosecutor not considered to be that of final policy-making official sufficient to hold city liable under 42 USC §1983). Whether an official has final policy-making authority is a question of state and local law. *Jett v Dallas Indep. Sch. Dist.* (1989) 491 US 701, 105 L Ed 2d 598, 109 S Ct 2702; *City of St. Louis v Praprotnik* (1988) 485 US 112, 124, 99 L Ed 2d 107, 108 S Ct 915; *Pembaur*, 475 US at 483.

NOTE: The fact that a public employee may have final decision-making authority is not sufficient to find the custom or policy element of city liability if that employee is not establishing municipal policy or custom. See *Auriemma v Rice* (7th Cir 1992) 957 F2d 397, 399 (discussing distinction between establishing and implementing municipal policy).

The mere fact that a policy-maker defers to the discretionary decision of a subordinate does not turn the discretionary decision into official policy. *City of St. Louis*, 485 US at 130. However, a series of discretionary decisions by lower level employees may manifest a "custom or usage" giving rise to municipal liability. 485 US at 130. If a lower-level employee's decision actually is ratified by a policy-maker, the decision may be attributable to the city, thereby creating city liability. "[W]hen a subordinate's decision is subject to review by the municipality's authorized policymakers, they have retained the authority to measure the official's conduct for conformance with their policies. If the authorized policymakers approve a subordinate's decision and the basis for it, their ratification would be chargeable to the municipality because their decision is final." 485 US at 127.

© The Regents of the University of California

§13.138 (4) Violation Must Be Caused by Policy or Custom

The municipal policy or custom must have caused, or have been the "moving force behind," the constitutional violation. *Polk County v Dodson* (1981) 454 US 312, 326, 70 L Ed 2d 509, 102 S Ct 445. There must be an "affirmative link" between the policy and the particular constitutional violation alleged. *City of Oklahoma City v Tuttle* (1985) 471 US 808, 809, 85 L Ed 2d 791, 105 S Ct 2427. "Thus, our first inquiry in any case alleging municipal liability under section 1983 is the question of whether there is a direct causal link between a municipal policy or custom, and the alleged constitutional deprivation." *City of Canton v Harris* (1989) 489 US 378, 385, 103 L Ed 2d 412, 109 S Ct 1197. A plaintiff has a particularly heavy burden of establishing causation in *Monell* cases (see *Monell v Department of Soc. Servs.* (1978) 436 US 658, 56 L Ed 2d 611, 98 S Ct 2018). See *City of Canton v Harris, supra*.

NOTE: Liability requires an action taken under the wrongful policy. "When an official's discretionary decisions are constrained by policies not of that official's making, those policies, rather than the subordinate's departures from them, are the act of the municipality." *City of St. Louis v Praprotnik* (1988) 485 US 112, 127, 99 L Ed 2d 107, 108 S Ct 915. Thus, an employee who has the discretion to act under an otherwise valid policy and who exercises that discretion in an unconstitutional manner, will not create *Monell* liability because the exercise of discretion, not the municipal policy, caused the constitutional violation. *Pembaur v City of Cincinnati* (1986) 475 US 469, 481, 89 L Ed 2d 452, 106 S Ct 1292.

© The Regents of the University of California

§13.139 d. Defendant's State of Mind: Specific Intent Is Not Required

Under 42 USC §1983, there is "no state of mind requirement independent of that necessary to state a violation of [an] underlying constitutional right." *Daniels v Williams* (1986) 474 US 327, 330, 88 L Ed 2d 662, 106 S Ct 662; *Caballero v City of Concord* (9th Cir 1992) 956 F2d 204, 206 (error to instruct that officer must have intent to violate rights in false arrest claim). A defendant's state of mind may be relevant to the underlying constitutional or statutory violation. For example, a claim of violation of the equal protection clause involves willful discrimination. *Village of Willowbrook v Olech* (2000) 528 US 562, 564, 145 L Ed 2d 1060, 120 S Ct 1073 (Fourteenth Amendment violation requires intentional and arbitrary discrimination); *Squaw Valley Dev. Co. v Goldberg* (9th Cir 2004) 375 F3d 936, overruled in part on other grounds in *Action Apartment Ass'n v Santa Monica Rent Control Opinion Bd.* (9th Cir 2007) 509 F3d 1020, 1025). A violation of the Eighth Amendment requires deliberate indifference. *Wilson v Seiter* (1991) 501 US 294, 302, 115 L Ed 2d 271, 111 S Ct 2321 (intent requirement in conditions of confinement suit); *Redman v County of San Diego* (9th Cir 1991) 942 F2d 1435, 1443, cert denied (1992) 502 US 1074 (heightened pleading requirement of deliberate indifference for claim that jail officials did not respond to assault on prisoner). But see *Leatherman v Tarrant County Narcotics Intelligence & Coordination Unit* (1993) 507 US 163, 167, 122 L Ed 2d 517, 113 S Ct 1160 (no heightened pleading standard in cases alleging municipal liability).

Liability is not imposed for negligent breach of a duty of care arising under general tort law, but for denying claimant of rights secured by the constitution or other federal laws. *Daniels v Williams* (1986) 474 US 327, 330, 88 L Ed 2d 662, 106 S Ct 662 (negligence is not actionable under due process clause; overruling *Parratt v Taylor* (1981) 451 US 527, 68 L Ed 2d 420, 101 S Ct 1908, to extent it stated mere negligence could constitute deprivation under Fourteenth Amendment); *Davidson v Cannon* (1986) 474 US 344, 347, 88 L Ed 2d 677, 106 S Ct 668 (simple lack of due care does not approach sort of abusive government conduct due process clause was designed to protect). See California Government Tort Liability Practice §13.38 (4th ed Cal CEB 1999) (on effect of gross negligence or recklessness).

Summary judgment is appropriate when the plaintiff offers no direct or circumstantial evidence of the relevant state of mind. *Lindsey v Shalmy* (9th Cir 1994) 29 F3d 1382, 1385 (conclusory allegations of discriminatory animus is not enough to avoid summary judgment). State of mind is not relevant to the determination of whether qualified immunity applies. *Crawford-El v Britton* (1998) 523 US 574, 588, 140 L Ed 2d 759, 118 S Ct 1584. See *Jones & Matson v Hall* (2007) 155 CA4th 1596, 1605, 66 CR3d 872 (plaintiffs could not establish claim for retaliation for their protected speech when there was no evidence that defendant agency had knowledge of plaintiffs' speech activities).

© The Regents of the University of California

§13.140 4. Availability of Remedies Under State Law

If, under state law, an adequate pre- or post-deprivation remedy exists, this "available" procedural due process may defeat or mitigate a 42 USC §1983 claim brought on the basis of a procedural due process violation. *Zinermon v Burch* (1990) 494 US 113, 129, 108 L Ed 2d 100, 110 S Ct 975; *Parratt v Taylor* (1981) 451 US 527, 68 L Ed 2d 420, 101 S Ct 1908, overruled in part on other grounds in *Daniels v Williams* (1986) 474 US 327. Post-deprivation procedures may provide adequate due process for "random and unauthorized acts" of public employees that effect a deprivation of liberty or property. *Parratt,* 451 US at 541. This principle applies even if the deprivation was intentional. *Hudson v Palmer* (1984) 468 US 517, 533, 82 L Ed 2d 393, 104 S Ct 3194. Adequate post-deprivation remedies will not defeat a substantive due process claim, however. *Smith v City of Fontana* (9th Cir 1987) 818 F2d 1411, cert denied (1987) 484 US 935, overruled in part on other grounds in *Hodgers-Durgin v De La Vina* (9th Cir 1999) 199 F3d 1037. Adequate post-deprivation remedies also will not defeat a procedural due process claim that challenges the state procedure itself as inadequate. *Logan v Zimmerman Brush Co.* (1982) 455 US 422, 436, 71 L Ed 2d 265, 102 S Ct 1148; *Turpen v City of Corvallis* (9th Cir 1994) 26 F3d 978, 979, cert denied (1994) 513 US 963.

© The Regents of the University of California

§13.141 5. Naming Defendants Under §1983

For 42 USC §1983 damages actions against city officials, there is an important distinction between an action against a city official in his or her *official* capacity (which is an action against the city itself, to which qualified immunity is inapplicable) and a §1983 damages action against that official in his or her *individual* capacity (which is an action against the official personally, to which qualified immunity is applicable). To avoid unnecessary litigation revolving around this issue, the relevant individuals and/or the city should be sued explicitly. If the lawyer desires to sue defendants in their individual or personal capacities for damages, then the complaint should say so. When that is done, for example, then the possible applicability of qualified immunity and liability for punitive damages arises. Conversely, if the lawyer wants to sue a city, then the complaint should identify the city as a party defendant and properly allege an actionable official policy or custom. When that is done, then qualified immunity and liability for punitive damages are inapplicable. *Romano v Bible* (9th Cir 1999) 169 F3d 1182, 1186, cert denied (1999) 528 US 816 (officials are presumed to be sued in their personal capacities, even if complaint does not explicitly mention capacity in which they are sued); *Miller v Smith* (7th Cir 2000) 220 F3d 491, 494 ("Where the plaintiff seeks injunctive relief from official policies or customs, the defendant has been sued in her official capacity; where the plaintiff alleges tortious conduct of an individual acting under color of state law, the defendant has been sued in her individual capacity."). A city is a "person" for purposes of §1983 liability. *Monell v Department of Soc. Servs.* (1978) 436 US 658, 56 L Ed 2d 611, 98 S Ct 2018.

NOTE: Naming a city official in his or her official capacity does not avoid the official policy or custom requirement of *Monell*. See *Brandon v Holt* (1985) 469 US 464, 83 L Ed 2d 878, 105 S Ct 873.

© The Regents of the University of California

§13.142 6. Liability for Causing the Acts of Others

A supervisor or other person who indirectly causes a deprivation of plaintiff's rights may be liable under 42 USC §1983. A supervisor may be liable for the act of a subordinate if there is a sufficient causal connection between the supervisor's own wrongful conduct and the act causing the violation. This causal link may occur in several ways, including:

- **Participation.** The supervisor may be liable for directly participating in the activity that inflicts the constitutional injury or setting into motion a series of acts by others that the supervisor knows or reasonably should know would cause others to inflict the constitutional injury. *Johnson v Duffy* (9th Cir 1978) 588 F2d 740, 743. See also *Larez v City of Los Angeles* (9th Cir 1991) 946 F2d 630, 645 (on proof of causation); *Fundiller v City of Cooper City* (11th Cir 1985) 777 F2d 1436, 1443 (causal link may be established "when a history of widespread abuse puts the responsible supervisor on notice of the need for improved training or supervision and the official fails to take corrective action").
- **Failure to prevent.** A supervisor may be liable if the supervisor knew of the wrongful act and failed to prevent it. *Taylor v List* (9th Cir 1989) 880 F2d 1040, 1045.
- **Implementation of deficient policy.** A supervisor may be liable, without personal participation in the offensive act, if he or she "implement[s] a policy so deficient that the policy itself is a repudiation of constitutional rights and is the moving force of the constitutional violation." *Hansen v Black* (9th Cir 1989) 885 F2d 642, 646.
- **Failure to train.** A supervisor may be liable for failing to train or supervise a subordinate properly. *Ybarra v Reno Thunderbird Mobile Home Village* (9th Cir 1984) 723 F2d 675, 680; *McClelland v Facteau* (10th Cir 1979) 610 F2d 693, 696. However, inadequate screening of applicants will impose liability only if the public entity's hiring decision is causally linked to the particular injury alleged. *Board of County Comm'rs v Brown* (1997) 520 US 397, 403, 137 L Ed 2d 626, 117 S Ct 1382.
- **Deliberate indifference.** A supervisor probably may be held liable for a subordinate's act if plaintiff can prove that the supervisor was deliberately indifferent to the subordinate's conduct. See *City of Canton v Harris* (1989) 489 US 378, 388, 103 L Ed 2d 412, 109 S Ct 1197.
- **Failure to intervene.** A supervisor (or any individual) may be liable if he or she knows of another's wrongful conduct, has an opportunity to intervene to stop the conduct, fails to so intervene, and as a proximate result causes the §1983 violation. *Byrd v Brishke* (7th Cir 1972) 466 F2d 6, 11. But see *Meehan v County of Los Angeles* (9th Cir 1988) 856 F2d 102, 106 (alleged police beatings liability requires evidence beyond mere presence at scene).

Individual supervisory liability for deficient policies, training, and supervision closely parallels municipal liability under *Monell v Department of Soc. Servs.* (1978) 436 US 658, 56 L Ed 2d 611, 98 S Ct 2018. Accordingly, supervisory liability cases should be subjected to a *Monell* analysis.

PRACTICE TIP 1: The inclusion of a *Monell* claim in a case that also involves causes of action other than §1983 claims can hurt the defense at trial. A municipal policy or custom can be proved by evidence of widespread wrongful conduct by city employees. This evidence would generally be inadmissible to prove that an individual defendant violated plaintiff's rights. See Evid C §1101; Fed R Evid 404. Accordingly, counsel generally should attempt to dismiss *Monell* claims before trial when possible. Consider moving to bifurcate the issues to try "custom or policy" separately.

PRACTICE TIP 2: Causation is an especially important defense for a public employee or official involved in the processing of an application for a permit or other entitlement that was ultimately denied by the city council. Typically, an aggrieved party will name everyone involved in the process as a defendant. Defense counsel should attempt to have the action dismissed as to those defendants who processed the application before trial by way of motion for summary judgment or motion in limine on the ground that they did not cause the city council to

exercise its discretion in a particular matter. A similar argument may be made when individual council members are named. Because the city can only act through a majority of its council, one could contend that individual council members who voted against the action taken could not have caused the injury. Govt C §54952.6 ("action" of city council requires collective decision made by majority of city council). Likewise, in circumstances in which the city has been dismissed as a defendant, those council members who voted in favor of the action could not have caused the injury because their vote alone is insufficient to authorize the action that allegedly caused the injury. Govt C §54952.6. Dismissal of individual defendants eliminates the city's exposure for punitive damages. Govt C §818 (public entity is not liable for punitive damages).

© The Regents of the University of California

§13.143 7. Duty to Provide Defense in §1983 Suits

On the request of an employee, a public entity must provide a defense in a civil action brought against that employee, whether in his official or individual capacity, on account of an act or omission in the scope of employment as an employee of that public entity. Govt C §§825, 995-996.6; *DeGrassi v City of Glendora* (9th Cir 2000) 207 F3d 636, 641 (city satisfied its obligation under Government Claims Act (Govt C §§810-998.3) when it offered to provide defense subject to reservation of rights and under condition that it control litigation and any settlement thereof).

The public entity may refuse to defend an employee if it determines that any of the following exist (Govt C §995.2(a)):

- The act or omission was outside the scope of employment;
- The employee acted because of actual fraud, corruption, or actual malice; or
- The defense by the public entity would create a "specific conflict of interest" between the public entity and the employee.

If the entity refuses to defend, the employee is entitled to be reimbursed for the reasonable cost of his or her defense if the conditions in Govt C §996.4 are met.

Public entities may, but are not required to, provide for defense under other code sections. See Govt C §§825.6(b) ("employee" is elected official or former elected official convicted of certain felonies), 995.4 (on disciplinary proceedings), 995.6 (on administrative proceedings), 995.8 (defense in criminal proceedings). See also California Government Tort Liability Practice §§4.8-4.12 (4th ed Cal CEB 1999) (exceptions to public entity's duty to defend).

If an "actual and specific conflict of interest" becomes apparent after the entity undertakes the defense, the entity may (subject to ethical rules) withdraw from the defense and must inform the employee of the reason for withdrawing. Govt C §995.2(c). The conflict issue may arise in the context of a punitive damages claim against the employee, which the entity is not required to pay. See Govt C §825. The question arises whether joint representation of the entity and employee creates a conflict of interest requiring the entity to pay for independent counsel to represent the employee. In *Laws v County of San Diego* (1990) 219 CA3d 189, 199, 267 CR 921, San Diego County was not required to provide separate counsel to police officers sued for punitive damages in a 42 USC §1983 action. The court rejected the officers' argument that the county was required to provide *Cumis* counsel (*San Diego Navy Fed. Credit Union v Cumis Ins. Soc'y* (1984) 162 CA3d 358, 208 CR 494) in accordance with the rules governing the duty to defend arising out of liability insurance policies.

PRACTICE TIP: Attorneys representing public entities and employees in suits seeking punitive damages should always disclose in writing that the employee may be exposed to punitive damages. The disclosure should indicate that such damages will not be paid by the entity. Attorneys should then obtain that employee's written consent to joint representation. In addition, attorneys should review the provisions of Govt C §825(b). See California Government Tort Liability Practice §§4.14-4.21 (4th ed Cal CEB 1999) (on indemnification of employee by public entity).

On indemnification of public employees, see §§13.86-13.89.

© The Regents of the University of California

8. Remedies Under §1983

§13.144 a. Damages

Damages can be nominal, compensatory, or punitive. As a rule, general principles of damages apply to 42 USC §1983 claims. *Zarcone v Perry* (2d Cir 1978) 572 F2d 52, 55.

© The Regents of the University of California

§13.145 (1) Nominal Damages

If the deprivation of a federal right is not proven to have damaged the plaintiff, only nominal damages may be awarded. Such damages, for example, may be only $1. *Carey v Piphus* (1978) 435 US 247, 266, 55 L Ed 2d 252, 98 S Ct 1042 (no showing suspension caused by lack of due process). However, an award of only nominal damages may not be sufficient to support an award of attorney fees. *Farrar v Hobby* (1992) 506 US 103, 115, 121 L Ed 2d 494, 113 S Ct 566 (although plaintiff recovering nominal damages may be "prevailing party," reasonable attorney fee is usually no attorney fee); *Benton v Oregon Student Assistance Comm'n* (9th Cir 2005) 421 F3d 901, 904 (award of nominal damages by itself is not enough to justify award of attorney fees under 42 USC §1988). See also *Tutor-Saliba Corp. v City of Hailey* (9th Cir 2006) 452 F3d 1055, 1064 (42 USC §1983 defendants entitled to attorney fees when action was presented for both frivolous and non-frivolous claims, and such claims were distinct from one another

© The Regents of the University of California

§13.146 (2) Compensatory Damages/

Compensatory damages ordinarily include both "special" (out-of-pocket) damages and "general" (pain and suffering, emotional distress) damages calculated in the same manner as in any tort suit. *Memphis Community Sch. Dist. v Stachura* (1986) 477 US 299, 307, 91 L Ed 2d 249, 106 S Ct 2537. See, *e.g., Walters v City of Atlanta* (11th Cir 1986) 803 F2d 1135, 1146 ($150,000 for mental distress caused by racial discrimination). But see *Carlsbad Aquafarm, Inc. v Department of Health Servs.* (2000) 83 CA4th 809, 817, 100 CR2d 87 (no claim for damages recognized for violation of state constitution's due process clause); *Gates v Superior Court* (1995) 32 CA4th 481, 519, 38 CR2d 489 (no claim for damages recognized for violation of state constitution's equal protection clause.). State law provides the guide to what damages are recoverable, so long as it is not inconsistent with the Constitution or federal law. *Robertson v Wegmann* (1978) 436 US 584, 590, 56 L Ed 2d 554, 98 S Ct 1991.

Federal and state courts in California have split on what damages are recoverable in a 42 USC §1983 survival action. Two district courts have ruled that California's survivorship law, which allows punitive damages but excludes damages for the decedent's pain and suffering, is inconsistent with §1983's remedial purpose and have allowed recovery for pain and suffering. *Garcia v Whitehead* (CD Cal 1997) 961 F Supp 230, 233; *Williams v City of Oakland* (ND Cal 1996) 915 F Supp 1074, 1076. See also CCP §377.34. However, some courts have disagreed, finding that the availability of wrongful death actions and of punitive damages in survival actions rendered California law consistent with §1983 policy. *County of Los Angeles v Superior Court* (1999) 21 C4th 292, 308, 87 CR2d 441; *Garcia v Superior Court* (1996) 42 CA4th 177, 49 CR2d 580; *Venerable v City of Sacramento* (ED Cal 2002) 185 F Supp 2d 1128, 1133.

Presumed damages are inappropriate in procedural due process claims and in substantive due process claims when general and special damages are capable of proof. *Memphis Community Sch. Dist.,* 477 US at 310 (jury cannot award damages based on its evaluation of "value" of constitutional right).

© The Regents of the University of California

§13.147 (3) Punitive Damages

Punitive damages may be awarded under 42 USC §1983 against individual defendants, but may not be awarded against a city. Govt C §818 (municipalities not liable for punitive damages); *City of Newport v Fact Concerts, Inc.* (1981) 453 US 247, 271, 69 L Ed 2d 616, 101 S Ct 2748. Punitive damages serve the same purposes and are calculated in the same manner as under state law. *Smith v Wade* (1983) 461 US 30, 34, 75 L Ed 2d 632, 103 S Ct 1625 (deliberate indifference/failure to protect juvenile jail detainee).

The standard for a punitive damages award is (*Smith v Wade* (1983) 461 US 30, 50, 75 L Ed 2d 632, 103 S Ct 1625):

- willful or malicious conduct,
- intentional act in gross disregard for a person's federal rights, or
- conduct evidencing a reckless disregard for a person's rights.

A public entity may choose to indemnify an employee against whom an award of punitive damages is made. Govt C §825(b). One relevant question is when the governing body should consider such indemnification. The wealth of an individual defendant is admissible as to the appropriate amount of punitive damages, and plaintiffs will claim that the wealth of the party actually paying any punitive award is relevant. See*, e.g., Perrin v Anderson* (10th Cir 1986) 784 F2d 1040, 1047 (source of payment of punitive damages admissible); *City of Greenville v W.R. Grace & Co.* (D SC 1986) 640 F Supp 559, 571. If the city has made an indemnification decision before trial, it might try to rely on the non-admissibility provisions of Govt C §825(b)(3) to keep the city's assets and financial condition out of evidence. However, it is not clear that a federal court would be bound by the restrictions of Govt C §825(b)(3). But see *Larez v Holcomb* (9th Cir 1994) 16 F3d 1513, 1521 (informing jury of indemnification would provide windfall to plaintiffs at taxpayers' expense, with little appreciable increase in deterrence of wrongful behavior). See also CC §3295 (on bifurcation on defendant's request to keep information regarding wealth out until jury decides punitive damages should be awarded).

PRACTICE TIP: From the public entity's point of view, it may be more prudent to defer indemnification decisions until after an award of punitive damages is made. This will undoubtedly affect the level of tension felt by the public employee during the course of the litigation. However, it may be necessary to wait until after trial for the city to determine whether the facts justify such payment.

© The Regents of the University of California

§13.148 b. Injunctions

Injunctive relief is ordinarily available under 42 USC §1983 whenever the usual prerequisites for equitable relief can be satisfied. See, *e.g., Los Angeles Mem. Coliseum Comm. v National Football League* (9th Cir 1980) 634 F2d 1197, 1200; *William Inglis & Sons Baking Co. v ITT Continental Baking Co.* (9th Cir 1975) 526 F2d 86, 87 (in determining whether to grant injunctive relief, court must examine whether plaintiff will suffer irreparable injury, likelihood of success on merits, balance of hardships, and public interest).

Whether a court will enjoin a city will often turn on whether the conduct complained of proceeds from a municipal custom or policy under *Monell v Department of Soc. Servs.* (1978) 436 US 658, 56 L Ed 2d 611, 98 S Ct 2018. If a policy is established, then an injunction may be appropriate. If the conduct was a random or unauthorized event, presumably no injunctive relief would be necessary. Compare *Williams v Alioto* (9th Cir 1977) 549 F2d 136, 143 (when police department expressly authorized wide-ranging program that resulted in hundreds of black males being stopped and frisked, initial injunctive relief was warranted), with *Rizzo v Goode* (1976) 423 US 362, 375, 46 L Ed 2d 561, 96 S Ct 598 (when "pattern and practice" is not sufficiently established nor conduct complained of affirmatively linked to municipal policy makers, then injunctive relief will not be available). See also *Lewis v Hyland* (3d Cir 1977) 554 F2d 93, 104, cert denied (1977) 434 US 931 (no pattern or practice of state police harassing "hippies" established, thus no injunctive relief warranted). Also, standing requirements under federal law require the plaintiff to show that he or she is sufficiently likely to be subjected to deprivation in the future so that a real controversy exists. *City of Los Angeles v Lyons* (1983) 461 US 95, 111, 75 L Ed 2d 675, 103 S Ct 1660. However, even if the plaintiff lacks standing in federal court, the plaintiff may have standing under more lenient state court rules. *City of Los Angeles v Lyons, supra* (plaintiff seeking injunctive relief).

As the conduct giving rise to the §1983 claim moves away from "authorized" towards "unauthorized" behavior, issuance of an injunction becomes less likely. When the conduct is determined to have proceeded from municipal inaction (*i.e.,* total failure to train or inadequate policy), then an injunction is more likely to issue to compel the government entity to remedy the situation before it recurs. See *City of Canton v Harris* (1989) 489 US 378, 388, 103 L Ed 2d 412, 109 S Ct 1197.

© The Regents of the University of California

§13.149 c. Attorney Fees and Costs

Attorney fees may be available to a successful 42 USC §1983 plaintiff under 42 USC §1988. The court may, in its discretion, include expert fees as part of any attorney fees award. 42 USC §1988(c). On municipal liability for attorney fees generally, see §§13.157-13.165. Costs of suit are recoverable by a successful §1983 plaintiff. 42 USC §1988.

© The Regents of the University of California

§13.150 d. Civil Penalties

Up to $25,000 in civil penalties may be obtained for civil rights violations in actions brought on behalf of an aggrieved individual by the Attorney General, district attorney, or city attorney. See CC §§52(b)(2), 52.1(a).

© The Regents of the University of California

§13.151 9. Forum Considerations: State Versus Federal Court

State and federal courts have concurrent jurisdiction over 42 USC §1983 suits. See *Williams v Horvath* (1976) 16 C3d 834, 837, 129 CR 453. A §1983 suit filed in state court may be removed to federal court by the defendant. See 28 USC §1446(b) (suit must be removed "within thirty days after the receipt by the defendant, through service or otherwise, of a copy of the initial pleading setting forth the claim for relief upon which the suit is based"). A case may not be removed unless all defendants agree to the removal. *Hewitt v City of Stanton* (9th Cir 1986) 798 F2d 1230, 1232.

PRACTICE TIP: It is easy to miss the 30-day deadline for removal in 28 USC §1446(b). The 30 days runs from receipt of the initial pleading (usually the complaint), not from actual service of process. Thus, if plaintiff sends a "courtesy copy" of the complaint, the 30 days begins to run. Moreover, when several defendants are named in the suit, the 30 days begins to run as to all of the defendants from the time the first defendant receives the complaint. *Transport Indem. Co. v Financial Trust Co.* (CD Cal 1972) 339 F Supp 405, 409. If a plaintiff sends a "courtesy copy" of the complaint to the home of a defendant employee who ignores it, the time to remove could expire as to all of the defendants.

In choosing between state and federal court, counsel should consider the following:

- **Federal judges are generally more familiar with 42 USC §1983 law.** This familiarity can be helpful to a defendant in disposing of part or all of the case on a motion to dismiss or for summary judgment. Although suits against public entities often include "mixed" federal and state causes of action, federal courts frequently dismiss specious state claims.
- **Federal courts usually assign one judge to case**. It may be helpful to have a single judge familiar with the case (or harmful, if the case is assigned to the "wrong" judge). In state court, the trial judge may not be known until the time of trial, and a different judge may decide pretrial motions.
- **Time to trial is traditionally shorter in federal court**. However, this can vary depending on the court, so it is important to research potential venues and judges. The state's "fast track" system means pretrial paperwork and "surprise prevention" may be about the same in both systems.
- **Plaintiff may be entitled to more expansive discovery in federal court.** This discovery advantage is because federal courts are not required to apply state privileges (*e.g.,* the privilege against disclosure of police personnel files). If damaging documents exist that would not be discoverable in state court, defense counsel may not wish to remove. See *Kelly v City of San Jose* (ND Cal 1987) 114 FRD 653, 655. Federal discovery rules generally require that discovery occur earlier in the litigation process, and mandatory disclosure requirements will govern the action. See Fed R Civ P 26.
- **Federal court jury pool may be more favorable than a state court pool, or vice versa.** A federal court is likely to draw from a geographically broader jury pool. A federal court requires a unanimous vote of six jurors, rather than the state's nine out of twelve.
- **Summary judgment motions may be granted more often in federal court.** Also, under the federal single assignment system, the judge hearing the motion will also be the trial judge. This may lead to a more aggressive disposition of unmeritorious claims in federal court.

© The Regents of the University of California

§13.152 10. Statute of Limitations for §1983 Claims

The statutes governing the filing of actions against public entities (see Govt C §§945-945.6) do not apply to 42 USC §1983 actions. *Williams v Horvath* (1976) 16 C3d 834, 838, 129 CR 453. However, they do apply to pendent state claims joined with a §1983 action. *Karim-Panahi v Los Angeles Police Dep't* (9th Cir 1988) 839 F2d 621, 627. Claim filing requirements apply to both tort and breach of contract actions. See *Baines Pickwick Ltd. v City of Los Angeles* (1999) 72 CA4th 298, 303, 85 CR2d 74; *Alliance Fin. v City & County of San Francisco* (1998) 64 CA4th 635, 641, 75 CR2d 341.

In a §1983 action, the statute of limitations applicable to personal injury actions in the state where the action arose applies. *Wilson v Garcia* (1985) 471 US 261, 268, 85 L Ed 2d 254, 268, 105 S Ct 1938; *Canatella v Van De Kamp* (9th Cir 2007) 486 F3d 1128, 1132. State tolling statutes and equitable tolling may also apply, unless they defeat the goals of the federal statute at issue. *Hardin v Straub* (1989) 490 US 536, 538, 104 L Ed 2d 582, 109 S Ct 1998. A 2-year statute of limitations for personal injury applies to §1983 claims in California. See CCP §335.1. Federal law applies to determine when the statute of limitations starts to run. *Wallace v Kato* (2007) 549 US 384, 388, 166 L Ed 2d 973, 127 S Ct 1091; *Felder v Casey* (1988) 487 US 131, 101 L Ed 2d 123, 108 S Ct 2302. Generally, it starts to run when the plaintiff is aware of his or her constitutional injury. *Chardon v Fernandez* (1981) 454 US 6, 70 L Ed 2d 6, 102 S Ct 28. But see *Wallace v Kato* (2007) 549 US 384, 397, 166 L Ed 2d 973, 127 S Ct 1091 (cause of action for false arrest under §1983 accrues after confinement without legal process has ended). When a city ordinance is challenged, the statute begins to run from passage of the ordinance. *De Anza Properties X, Ltd. v County of Santa Cruz* (9th Cir 1991) 936 F2d 1084, 1086. The 2-year limitations period applies to federal inverse condemnation and takings actions brought under §1983 in California. *Hacienda Valley Mobile Estates v City of Morgan Hill* (9th Cir 2003) 353 F3d 651, 655 (federal takings claims must be brought under §1983 and are subject of California's statute of limitations).

NOTE: In certain instances, a city can exercise its police power to adopt local statutes of limitations for claims of money damages that are excepted by the Government Claims Act and that are not governed by any other statute or regulation. See *Pasadena Hotel Dev. Venture v City of Pasadena* (1981) 119 CA3d 412, 415, 174 CR 52 (holding that city's 1-year statute of limitations for taxpayer's claim for refund was valid requirement authorized by Govt C §935).

PRACTICE TIP: If a local public entity adopts rules and regulations governing claims, it should consider including limitations periods in the enactment to the extent such limitations are not governed or preempted by state or federal law.

© The Regents of the University of California

§13.153 G. Municipal Antitrust Liability

Cities (and counties) are entitled to broad immunity from the antitrust laws. *Town of Hallie v City of Eau Claire* (1985) 471 US 34, 38, 85 L Ed 2d 24, 105 S Ct 1713; *Golden State Transit Corp. v City of Los Angeles* (9th Cir 1984) 726 F2d 1430, 1434, rev'd on other grounds (1986) 475 US 608, 89 L Ed 2d 616, 106 S Ct 1395. This immunity is commonly referred to as "state action immunity." See *Traweek v City & County of San Francisco* (9th Cir 1990) 920 F2d 589, 591 (state action immunity protects city with respect to antitrust challenge to condominium conversion ordinance). If the activities of a public agency are generally authorized by state statute, public agencies may engage in activities that would otherwise be deemed anticompetitive. *City of Lafayette v Louisiana Power & Light Co.* (1978) 435 US 389, 413, 55 L Ed 2d 364, 98 S Ct 1123; *Parker v Brown* (1943) 317 US 341, 87 L Ed 315, 63 S Ct 307; *Springs Ambulance Serv. v City of Rancho Mirage* (9th Cir 1984) 745 F2d 1270, 1272 (relying on Govt C §38794 to provide city with state action immunity in its ambulance services). This is commonly referred to as the "*Parker* exemption." State action immunity may be invoked when the action is taken "pursuant to state policy to displace competition with regulation or monopoly public service." *City of Lafayette v Louisiana Power & Light Co., supra*. See also *Community Communications Co. v City of Boulder* (1982) 455 US 40, 70 L Ed 2d 810, 102 S Ct 835 (ordinance prohibiting cable TV operator's business expansion not exempt).

The Local Government Antitrust Act of 1984 (15 USC §§34-36) addresses local antitrust liability. In *Opdyke Inv. Co. v City of Detroit* (6th Cir 1989) 883 F2d 1265, 1266, the court ruled that Congress intended to establish the "general rule that antitrust damages are not recoverable from local government." Injunctive relief is still available, however, which means that antitrust issues still arise from time to time. See *Associated Builders & Contractors, Inc. v City of Seward* (9th Cir 1992) 966 F2d 492 ("work preservation clause" requiring city contractors to have collective bargaining agreements did not offend antitrust laws); *Traweek v City & County of San Francisco, supra*.

For related material on California Public Utilities Commission jurisdiction and extraterritorial retail service, see §6.39.

© The Regents of the University of California

§13.154 H. Municipal Contract Liability

Beginning in 1894, California has noted the distinction between contract and tort government liability. See *Chapman v State* (1894) 104 C 690, 693, 38 P 457 (in absence of legislation, no tort action could be brought against state, but same was not true in contract). Government Code §814 continues the policy that traditional governmental immunity does not preclude enforcement of a city's contractual obligations. It provides: "Nothing in this part affects liability based on contract or the right to obtain relief other than money or damages against a public entity or public employee." *Souza & McCue Constr. Co. v Superior Court* (1962) 57 C2d 508, 510, 20 CR 634; California Government Tort Liability Practice §§1.12, 5.9, 9.82-9.84 (4th ed Cal CEB 1999). However, the claim presentation requirements of the Government Claims Act (Govt C §§810-998.3) apply to contract causes of action unless an exception applies. *City of Stockton v Superior Court* (2007) 42 C4th 730, 738, 68 CR3d 295. See *Arntz Builders v City of Berkeley* (2008) 166 CA4th 276, 279, 82 CR3d 605 (if claim is governed by claims procedure prescribed by contract, additional claim under Government Claims Act is not required unless expressly mandated by contract).

A city may alter liability by entering an indemnity or hold harmless agreement. *County of San Joaquin v Stockton Swim Club* (1974) 42 CA3d 968, 972, 117 CR 300 (hold harmless agreement between public entity and private swim club valid and enforceable). See also *Societa per Azioni de Navigazione Italia v City of Los Angeles* (1982) 31 C3d 446, 465, 183 CR 51, cert denied (1982) 459 US 990 (no indemnity because no proof in contract of indemnity agreement). Express indemnity is a complex area discussed more fully in §§7.298-7.309.

© The Regents of the University of California

§13.155 I. Personal Liability of Officers and Employees

Public employees can be personally liable for punitive damages. Govt C §825. An employee may be personally liable for compensatory damages when:

- The employee's act or omission occurred outside the scope of employment (Govt C §825; *Farmers Ins. Group v County of Santa Clara* (1995) 11 C4th 992, 1003, 47 CR2d 478). As used in Government Claims Act, "the phrase 'scope of his employment' is intended to make applicable the general principles that the California courts use to determine whether the particular kind of conduct is to be considered within the scope of employment in cases involving actions by third persons against the employer for torts of his employee."
- The employee's actual fraud, corruption, or actual malice caused the plaintiff's injuries (Govt C §825.6(a)).
- The employee willfully failed or refused to reasonably cooperate in the defense of the claim or action in good faith (Govt C §825.6(a)).

The Government Code does not define the terms "actual fraud," "corruption," or "actual malice." See Govt C §§815.3, 825(f), 825.6(b) (expanding liability of elected officials for their intentional torts and defining duty of public entity to provide defense and pay any judgment); *Los Angeles Police Protective League v City of Los Angeles* (1994) 27 CA4th 168, 32 CR2d 574; California Government Tort Liability Practice §§1.29-1.34, 4.40-4.48, 9.3-9.16 (4th ed Cal CEB 1999).

© The Regents of the University of California

§13.156 J. No Municipal Liability for Punitive Damages

A public entity cannot be held liable for punitive damages. Govt C §818; *City of Newport v Fact Concerts, Inc.* (1981) 453 US 247, 271, 69 L Ed 2d 616, 101 S Ct 2748 (punitive damages in 42 USC §1983 suit not recoverable against municipality). But see *Los Angeles County Metro. Transp. Auth. v Superior Court* (2004) 123 CA4th 261, 271, 20 CR3d 92 (statutory civil penalty of $25,000 against public entity for violating Unruh Act (CC §§51-51.13) is permissible and is not barred by Govt C §818).

However, a public entity, other than the state, is authorized to pay that part of a judgment against a public employee that is for punitive damages if the governing body of the public entity finds, in its sole discretion, each of the following (Govt C §825):

- The judgment is based on an act or omission of an employee or former employee acting within the course and scope of employment;
- At the time of the act giving rise to liability, the employee or former employee acted, or failed to act, in good faith, without actual malice, and in the apparent best interests of the public entity; and
- Payment of the claim or judgment would be in the best interests of the public entity.

But see *Trevino v Gates* (9th Cir 1996) 99 F3d 911, 918 (qualified immunity applies to decision by council member to pay punitive damages provided that decision is discretionary, made on case-by-case basis, and complies in good faith with requirements of Govt C §825(b)); *Trevino v Gates* (9th Cir 1994) 23 F3d 1480, 1481, cert denied (1994) 513 US 932 (in §1983 action, court denied absolute immunity to city council that approved payment of punitive damages assessed against city police officers). Public entities are not barred from pursuing claims for punitive damages. CC §3294; *City of Glendale v Superior Court* (2002) 95 CA4th 1266, 1270, 116 CR2d 16.

PRACTICE TIP: In defending suits seeking punitive damages, counsel should always disclose in writing that the employee may be personally liable for punitive damages. The agency may also consider obtaining the employee's written consent to joint representation when punitive damages are claimed. There is a heightened possibility of conflict in the defense of elected officials. Govt C §§815.3, 825(f), 825.6(b).

K. Municipal Liability for Attorney Fees

§13.157 1. Arbitrary or Capricious Administrative Actions

A public agency may be required to pay a successful plaintiff's attorney fees up to the amount of $7500 computed at $100 per hour when the administrative action of the agency carried out under the Government Code or other provision of state law was the result of arbitrary or capricious action or conduct. Govt C §800(a). This statute is ancillary only and does not create a new cause of action.

Whether action is arbitrary and capricious is a fact to be determined by the trial court. *Kreutzer v County of San Diego* (1984) 153 CA3d 62, 78, 200 CR 322. Arbitrary and capricious action is conduct not supported by a fair or substantial reason. *Madonna v County of San Luis Obispo* (1974) 39 CA3d 57, 62, 113 CR 916. Two examples of arbitrary and capricious conduct are a stubborn insistence on following an unauthorized course of action (*Midstate Theaters, Inc. v Board of Supervisors of Stanislaus County* (1975) 46 CA3d 204, 211, 119 CR 894), and bad faith exhibited by officials in a legal dispute (*Von Durjais v Board of Trustees* (1978) 83 CA3d 681, 688, 148 CR 192; *Healdsburg Police Officers Ass'n v City of Healdsburg* (1976) 57 CA3d 444, 129 CR 216, overruled on other grounds in *Palma v U.S. Indus. Fasteners* (1984) 36 C3d 171, 203 CR 626). See generally *Campbell v Residential Rent Stabilization & Arbitration Bd.* (1983) 142 CA3d 123, 190 CR 829 (general analysis of term "arbitrary and capricious"). An error by an official, even if clearly erroneous, does not rise to the level of arbitrary and capricious conduct. *American President Lines, Ltd. v Zolin* (1995) 38 CA4th 910, 934, 45 CR2d 370.

The issue of arbitrary action must be brought before the trial court during trial. *Plumbing, Heating & Piping Employers Council v Quillin* (1976) 64 CA3d 215, 220, 134 CR 332. It should be argued that Govt C §800 requires affirmative evidence produced specifically on the issue. When only issues of law have been determined at trial, the factual finding required by §800 has not been made regardless of the allegations of the complaint.

PRACTICE TIP 1: Analyze the type of action at issue in the complaint.. Although it can be argued that everything done by a public agency is by definition "administrative," a good argument can be made that the term "administrative" in Govt C §800 refers to quasi-judicial actions. The language of the statute refers to "award, finding or other determination of any administrative proceeding," which sounds quasi-judicial rather than legislative. For example, the court in *Traverso v People ex rel Dep't of Transp.* (1996) 46 CA4th 1197, 1211, 54 CR2d 434, held that the denial of a permit was not administrative within the meaning of Govt C §800 because there was no hearing involved. The court in *Gustafson v Zolin* (1997) 57 CA4th 1361, 1363, 67 CR2d 645, held that a letter from a Department of Motor Vehicle's safety officer did not constitute an administrative proceeding.

PRACTICE TIP 2: Analyze whether or not the proceeding is brought under the Government Code or other provision of state law. In *Olson v Hickman* (1972) 25 CA3d 920, 923, 102 CR 248, the court found that a proceeding under a provision of the charter of Sacramento County was "under state law" for the purposes of Govt C §800. Although the court cited several authorities for this proposition, it may have stretched the intent of the language; thus, despite *Hickman*, counsel may want to argue the "state law" requirement, particularly when the case arises from proceedings under a charter or internal personnel rule in a general law city.

© The Regents of the University of California

§13.158 2. Attorney Fees in Civil Rights Actions

A successful party to a 42 USC §1983 claim is ordinarily entitled to recover reasonable attorney fees. 42 USC §1988. See §13.149. California statutes also provide for reasonable attorney fees incurred in vindicating civil rights protected under federal or state law. CC §52.1(h). See also CCP §1021.5 (authorizing fees under private attorney general doctrine).

NOTE: Although §1988 speaks in terms of the "prevailing party," a prevailing defendant can secure an award of its fees only if the plaintiff's action was frivolous, unreasonable, or without foundation. See, *e.g., Hughes v Rowe* (1980) 449 US 5, 14, 66 L Ed 2d 163, 101 S Ct 173 (applying same standard under §1988); *Christiansburg Garment Co. v EEOC* (1978) 434 US 412, 421, 54 L Ed 2d 648, 98 S Ct 694 (Title VII). Bad faith on the part of the plaintiff is not a prerequisite to award of attorney fees in favor of the prevailing defendant. *Puglisi v Underhill Park Taxpayer Ass'n* (SDNY 1997) 964 F Supp 811, 815. However, CCP §1021.7 permits an award of reasonable attorney fees to a defendant peace officer for an action not filed or maintained in good faith.

© The Regents of the University of California

§13.159 a. What Constitutes Successful Party

To be entitled to fees, the "success" need not be complete; a "partial" victory is enough to trigger a fee award. See, *e.g., Hensley v Eckerhart* (1983) 461 US 424, 436, 76 L Ed 2d 40, 103 S Ct 1933. The California rule may be broader than the federal rule. See *Harbor v Deukmejian* (1987) 43 C3d 1078, 1103, 240 CR 569. However, "nominal" success ($1) may be insufficient to warrant an award under 42 USC §1988. *Farrar v Hobby* (1992) 506 US 103, 114, 121 L Ed 2d 494, 113 S Ct 566 (when plaintiff recovers only nominal damages, reasonable attorney fee is usually no attorney fee); *Romberg v Nichols* (9th Cir 1995) 48 F3d 453, 455, cert denied (1995) 516 US 943.

Under the doctrine of supplemental jurisdiction, a federal court with jurisdiction over a federal claim may exercise jurisdiction over a related state law claim. *United Mine Workers v Gibbs* (1966) 383 US 715, 725, 16 L Ed 2d 218, 86 S Ct 1130, superseded by statute as stated in *Grube v Miller* (ED Mich 2009) 2009 US Dist Lexis 117907. If the plaintiff prevails on a supplemental state claim that shares a nucleus of operative facts with a §1983 claim, an award of attorney fees under §1988 may be appropriate. Compare *Carreras v City of Anaheim* (9th Cir 1985) 768 F2d 1039 (fees awarded), with *Rinker v County of Napa* (9th Cir 1987) 831 F2d 829 (fees denied).

An unadjudicated fee-supporting claim supports an award for attorney fees under §1983 if: (1) the fee-supporting claim is not "wholly insubstantial"; and (2) the fee-supporting claim arises from a common nucleus of facts as a successful adjudicated claim. *Gerling Global Reinsurance Corp. v Garamendi* (2005) 400 F3d 803, 808.

PRACTICE TIP 1: A plaintiff who loses on all federal claims is not eligible for an attorney fee award. See *Bogan v Sandoval County Planning & Zoning Comm'n* (1994) 119 NM 334, 335, 890 P2d 395.

PRACTICE TIP 2: In defending a federal claim, particularly a First Amendment challenge to an ordinance, or challenges to an ordinance under federal law, if you believe the plaintiff's claims have merit, consider amending the ordinance early on in the litigation to "fix" the invalidity, thereby making the matter moot, obtaining a dismissal of the action, and cutting off, or even eliminating, attorney fees that might otherwise be awarded. See *Buckhannon Bd. & Care Home, Inc. v West Virginia Dep't of Health & Human Servs.* (2001) 532 US 598, 603, 149 L Ed 2d 855, 121 S Ct 1835 ("prevailing party" is one who has been awarded some relief by court; defendant's voluntary change in conduct, although perhaps accomplishing what plaintiff sought to achieve by suit, lacks necessary judicial imprimatur on change to make petitioner "prevailing party," and thus entitled to award of attorney fees).

© The Regents of the University of California

Source: General Interest/The California Municipal Law Handbook/13 Liability and Litigation/§13.160 b. Calculating Attorney Fees Awards

§13.160 b. Calculating Attorney Fees Awards

The attorney fees are typically based on the reasonable number of hours spent multiplied by the reasonable hourly rate. *Pennsylvania v Delaware Valley Citizens' Council for Clean Air* (1986) 478 US 546, 565, 92 L Ed 2d 439, 106 S Ct 3088. This calculation is commonly known as the "lodestar" figure.

Courts also consider the reasonableness of the award. Relevant factors include (*Blanchard v Bergeron* (1989) 489 US 87, 92 n5, 103 L Ed 2d 67, 109 S Ct 939):

- Time and labor required,
- Novelty and difficulty of the questions,
- Skill requisite to perform the legal service properly,
- Preclusion of other employment by the attorney due to accepting the case,
- Customary fee,
- Whether the fee is fixed or contingent,
- Time limitations imposed by the client or other circumstances,
- Amount involved and the results obtained,
- Experience, reputation, and ability of the attorneys,
- "Undesirability" of the case,
- Nature and length of the professional relationship with the client, and
- Awards in similar cases.

In an appropriate case, a lodestar fee can be adjusted upward by a multiplier or fee enhancement. However, such an adjustment is unusual and should not be granted easily. See *Delaware Valley Citizens' Council for Clean Air,* 478 US at 565 (strong presumption against lodestar enhancement); *Hensley v Eckerhart* (1983) 461 US 424, 434, 76 L Ed 2d 40, 103 S Ct 1933 (lodestar ordinarily suffices). Fee enhancements are available only in "rare" cases based on "unusual" success. See *Blum v Stenson* (1984) 465 US 886, 899, 79 L Ed 2d 891, 104 S Ct 1541. Multipliers are generally not available simply to offset the contingent risk of losing. *City of Burlington v Dague* (1992) 505 US 557, 566, 120 L Ed 2d 449, 112 S Ct 2638. But see *Guam Soc'y of Obstetricians & Gynecologists v Ada* (9th Cir 1996) 100 F3d 691, 697, cert denied (1996) 522 US 949 (successful constitutional challenge to Guam's antiabortion statute; multiplier of 2.0 upheld given extreme undesirability of case, likelihood that no other attorney in jurisdiction would have accepted it, and its rare and exceptional nature).

In making a fee award, courts may consider proportionality, *i.e.,* whether the fees awarded bear some relationship to the monetary relief obtained. *Farrar v Hobby* (1992) 506 US 103, 121 L Ed 2d 494, 113 S Ct 566 (one dollar nominal damages awarded did not support attorney fee award). However, there is no per se rule. See *City of Riverside v Rivera* (1986) 477 US 561, 574, 91 L Ed 2d 466, 106 S Ct 2686 (damages of $33,000 do not limit fee award in excess of $245,000).

NOTE: Section 1988 (42 USC §1988) does not invalidate contingent-fee contracts that require a prevailing plaintiff to pay his or her attorney more than the statutory award. *Venegas v Mitchell* (1990) 495 US 82, 90, 109 L Ed 2d 74, 110 S Ct 1679.

On challenging the amount claimed, see *Hensley v Eckerhart* (1983) 461 US 424, 76 L Ed 2d 40, 103 S Ct 1933; *Harman v City & County of San Francisco* (2006) 136 CA4th 1279, 1313, 39 CR3d 589 (fees should be adjusted to reflect plaintiff's limited success in litigation); *Harris v McCarthy* (9th Cir 1986) 790 F2d 753 (hourly rate); *Calhoun v Acme Cleveland Corp.* (1st Cir 1986) 801 F2d 558 (billing records); *Copeland v Marshall* (Copeland III) (DC Cir 1980) 641 F2d 880.

PRACTICE TIP 1: When faced with an attorney fee claim, it is important to review all billing records and statements to make sure such fees and costs are properly recoverable, were properly billed in the pending action, and were reasonable in amount. It may be necessary to conduct additional discovery as to the amount billed and the

reasonableness of any billing. It may also be necessary to retain an outside expert or consultant regarding reasonableness, standard practices, and standard rates within the jurisdiction. This expert or consultant can submit a declaration to the court in support of any challenge to the fees or costs. Additionally, if fees or costs are challenged, it is important that any objections be as specific as possible.

PRACTICE TIP 2: There is no prohibition against negotiating both the merits and attorney fees at the same time, and a party may condition one on the other, or interrelate them. *Evans v Jeff D.* (1986) 475 US 717, 89 L Ed 2d 747, 106 S Ct 1531.

PRACTICE TIP 3: Be sure to settle the merits and the fees. Do not let one dangle behind. See *Willard v City of Los Angeles* (9th Cir 1986) 803 F2d 526, 527 (settlement of both damages and fees is binding). It is important to avoid the possibility of settling the merits only to face a large fee claim.

PRACTICE TIP 4: Consider an offer of judgment under Fed R Civ P 68 (federal court) or CCP §998 (state court). An offer of judgment that includes attorney fees and costs may limit or cut off entitlement to attorney fees incurred after the date of the offer if the eventual recovery is less than the offer. *Marek v Chesny* (1985) 473 US 1, 11, 87 L Ed 2d 1, 105 S Ct 3012; *Erdman v Cochise County* (9th Cir 1991) 926 F2d 877, 879 (defendant unsuccessfully argued that Rule 68 offer of $7500 "with costs now accrued" did not include attorney fees). Further, a prevailing civil rights plaintiff must pay the opponent's costs and attorney fees after refusing to accept a pretrial offer of judgment that exceeds the amount ultimately recovered at trial. *O'Brien v City of Greers Ferry* (9th Cir 1989) 873 F2d 1115, 1118; *Crossman v Marcoccio* (1st Cir 1986) 806 F2d 329, 333.

© The Regents of the University of California

§13.161 3. Attorney Fees in Eminent Domain, Inverse Condemnation, and Mandamus Actions

Code of Civil Procedure §1250.410 permits a property owner to seek recovery of litigation expenses, including costs, attorney fees, and expert witness fees, following the entry of judgment in an eminent domain action. The court may award reasonable litigation expenses if it finds that the settlement offer of the public entity "was unreasonable and that the demand of the defendant was reasonable viewed in the light of the evidence admitted and the compensation awarded in the proceeding." CCP §1250.410(b). The court's analysis is based on the final offer and final demand that the parties must file at least 20 days prior to trial on issues relating to compensation. CCP §1250.410(a), (d). Owners cannot recover litigation expenses if they fail to file a timely final demand. Section 1250.410 does not allow the public entity to recover any of its litigation expenses. *Redevelopment Agency v Salvation Army* (2002) 103 CA4th 755, 773, 127 CR2d 30.

Under the provisions of CCP §1036 on inverse condemnation proceedings,

> the court rendering judgment for the plaintiff by awarding compensation, or the attorney representing the public entity who effects a settlement of the proceeding, shall determine and award or allow to the plaintiff, as a part of that judgment or settlement, a sum that will, in the opinion of the court, reimburse the plaintiff's reasonable costs, disbursements, and expenses, including reasonable attorney, appraisal, and engineering fees, actually incurred because of that proceeding in the trial court or in any appellate proceeding in which the plaintiff prevails on any issue in that proceeding.

On attorney fees in mandamus actions, see generally Govt C §800; *Ellerbroek v Saddleback Valley Unified Sch. Dist.* (1981) 125 CA3d 348, 358, 177 CR 910. Attorney fees may be awardable in some mandamus actions under the private attorney general doctrine and CCP §1021.5. See §§13.163-13.165.

© The Regents of the University of California

§13.162 4. Attorney Fees in Other Actions

Attorney fees are also provided for in certain other actions, including:

- **Low- and moderate-income housing.** Action undertaken against a public entity for the primary purpose of delaying a low- or moderate-income housing project may subject a non-prevailing plaintiff to a claim for attorney fees. Govt C §65914.
- **Frivolous appeals.** Taking an appeal when a reasonable attorney would agree that the appeal is totally and completely without merit may create a claim for attorney fees by the opposing party. See *Maple Props. v Harris* (1984) 158 CA3d 997, 1008, 205 CR 532, cert denied (1985) 470 US 1054.
- **Political Reform Act.** On recovering costs of litigation to compel compliance with the Political Reform Act (Govt C §91003), see *Downey Cares v Downey Community Dev. Comm'n* (1987) 196 CA3d 983, 993, 242 CR 272; chap 2.
- **The Ralph M. Brown Act and California Public Records Act.** Attorney fees may also be awarded in cases alleging violations of the Ralph M. Brown Act (Govt C §54960.5) and/or the California Public Records Act (Govt C §6259(d)). See also *Galbiso v Orosi Pub. Util. Dist.* (2008) 167 CA4th 1063, 1084, 84 CR3d 788; chap 2.
- **Contract claims.** A prevailing party may recover attorney fees for actions on a contract, if the contract provides for recovery of fees. CC §1717.

PRACTICE TIP: California is one of the most liberal states in enacting statutes authorizing attorney fees awards. On California fee-shifting statutes, see California Attorney Fee Awards, chap 3 (3d ed Cal CEB 2010). In addition, most federal civil rights acts now contain attorney fees provisions.

© The Regents of the University of California

§13.163 5. Private Attorney General Doctrine/CCP §1021.5

On a motion, a court may award attorney fees to a successful party in any action that has resulted in the enforcement of an important right affecting the public interest if:

- A significant benefit, whether pecuniary or nonpecuniary, has been conferred on the general public or a large class of persons,
- The necessity and financial burden of private enforcement, or of enforcement by one public entity against another public entity, make the award appropriate, and
- Such fees should not, in the interest of justice, be paid out of any recovery.

CCP §1021.5. See *Woodland Hills Residents Ass'n. v City Council* (1979) 23 C3d 917, 935, 154 CR 503; *Beach Colony II Ltd. v California Coastal Comm'n* (1985) 166 CA3d 106, 110, 212 CR 485. See also *Grimsley v Board of Supervisors of San Benito* (1985) 169 CA3d 960, 966, 213 CR 108 (suggesting that to be entitled to attorney fee award under §1021.5, plaintiff must first have asked public entity to take appropriate action before filing action).

With respect to public agencies, CCP §1021.5 applies "to allowances against, but not in favor of, public entities," and generally no claim may be required to be filed for such fees. However, §1021.5 may allow a public entity to recover attorney fees in an action against another public entity, including a successful action under the California Environmental Quality Act (CEQA) (Pub Res C §§21000-21177), if §1021.5's conditions are satisfied. See, *e.g., County of Colusa v California Wildlife Conserv. Bd.* (2006) 145 CA4th 637, 647, 52 CR3d 1.

A party seeking fees under §1021.5 must file a motion in compliance with the timing requirements of Cal Rules of Ct 3.1702.

NOTE: Attorney fees also may be available under the common fund and substantial benefit rules, which are nonstatutory equitable bases for an award of attorney fees. *Friends of "B" St. v City of Hayward* (1980) 106 CA3d 988, 994, 165 CR 514. For a thorough description of both theories, see *Abouab v City & County of San Francisco* (2006) 141 CA4th 643, 46 CR3d 206.

For discussion of the private attorney general statute, see California Attorney Fee Awards, chap 3 (3d ed Cal CEB 2010).

© The Regents of the University of California

§13.164 a. What Constitutes Prevailing or Successful Party

To claim fees under the private attorney general statute (CCP §1021.5), one must be a successful or prevailing party. *Bowman v City of Petaluma* (1986) 185 CA3d 1065, 1085, 230 CR 413. The focus is on the impact of the action in achieving the desired result, not on the manner of its resolution. See *Sagaser v McCarthy* (1986) 176 CA3d 288, 315, 221 CR 746 (attorney fees awarded even though case dismissed as moot, when desired result of litigation achieved by other means, *e.g.,* legislative change); *Coalition for Economic Survival v Deukmejian* (1985) 171 CA3d 954, 961, 217 CR 621. See also *Graham v DaimlerChrysler Corp.* (2004) 34 C4th 553, 560, 21 CR3d 331 (plaintiff may be awarded attorney fees when case dismissed as moot if defendant substantially changed its behavior because of, and in manner sought by, litigation, as long as lawsuit had some merit and plaintiff engaged in reasonable attempt to settle before litigation).

NOTE: Defendant may be awarded fees under CCP §1021.5 if the fees meet the requirements of the private attorney general statute. See, *e.g., County of San Luis Obispo v Abalone Alliance* (1986) 178 CA3d 848, 866 n11, 223 CR 846.

© The Regents of the University of California

§13.165 b. How to Calculate Amount of Award

Computation of the amount of the award under CCP §1021.5 is within the sound discretion of the trial court and will not be disturbed on appeal unless there is an abuse of discretion; the award must be clearly wrong because the experienced trial judge can best determine the value of the professional services provided in that judge's court. *Downey Cares v Downey Community Dev. Comm'n* (1987) 196 CA3d 983, 993, 242 CR 272.

In determining a fee award under CCP §1021.5, the trial court must first determine a touchstone or lodestar amount based on the time spent and the reasonable hourly compensation for each attorney. *Californians for Responsible Toxics Mgmt. v Kizer* (1989) 211 CA3d 961, 970, 259 CR 599. Next, the trial court has discretion to increase or reduce the lodestar by applying a positive or negative multiplier based on numerous factors or circumstances. These include (*Lucchesi v City of San Jose* (1980) 104 CA3d 323, 336, 163 CR 700):

(1) the novelty and difficulty of the questions involved and the skill displayed in presenting them;

(2) the extent to which the nature of the litigation precluded other employment by the attorneys;

(3) the contingent nature of fee awards;

(4) the fact that the award against a city could ultimately fall on taxpayers;

(5) the fact that the attorneys did not receive public or charitable funding for the purpose of bringing the action; and

(6) the fact that the award would inure to the benefit of the attorneys involved.

Attorney fees awarded to a public entity under CCP §1021.5 cannot be increased or decreased by a multiplier based on extrinsic circumstances. See CCP §1021.5, second paragraph (citing *Serrano v Priest (Serrano III)* (1977) 20 C3d 25, 141 CR 315, which discussed history of traditional bases for fee-shifting—common fund, substantial benefit, and private attorney general—that ultimately resulted in adoption of CCP §1021.5).

NOTE: California follows an independent state rule with respect to the award of attorney fees. Federal cases are referred to for "analogous precedential value." *Serrano v Unruh* (1982) 32 C3d 621, 639 n29, 186 CR 754. California law with respect to the award of attorney fees under CCP §1021.5 is based on pre-*Alyeska* federal case law (referring to *Alyeska Pipeline Serv. Co. v Wilderness Soc'y* (1975) 421 US 240, 44 L Ed 2d 141, 95 S Ct 1612). *Woodland Hills Residents Ass'n v City Council* (1979) 23 C3d 917, 934, 154 CR 503; *Beasley v Wells Fargo Bank* (1991) 235 CA3d 1407, 1420, 1 CR2d 459, overruled on other grounds in *Olsen v Auto. Club of S. Cal.* (2008) 42 C4th 1142, 74 CR3d 81. Many of the principles involved in the entitlement to attorney fees under CCP §1021.5 and 42 USC §1988 are interchangeable, and one should be familiar with the principles under both theories. *Folsom v Butte County Ass'n of Governments* (1982) 32 C3d 668, 679, 186 CR 589. On fees awarded under §1988, see §§13.158-13.160.

© The Regents of the University of California

L. Right of Municipality to Recover Attorney Fees

§13.166 1. Motion for Costs and Attorney Fees Under CCP §1038

A city may recover its costs and attorney fees against a plaintiff who has brought an action in bad faith or maintained a frivolous action. CCP §1038; *Kobzoff v Los Angeles County Harbor/UCLA Med. Ctr.* (1998) 19 C4th 851, 856, 80 CR2d 803; *Knight v City of Capitola* (1992) 4 CA4th 918, 931, 6 CR2d 874. To be entitled to relief under CCP §1038, the city must have made and been granted a motion for summary judgment, judgment under CCP §631.8, or directed verdict or non-suit. CCP §1038(a).

PRACTICE TIP: The city might consider routinely seeking CCP §1038 attorney fees and costs whenever possible. The possibility that the city may seek such recovery should be noted on the city's claims rejection notices.

© The Regents of the University of California

§13.167 a. Criteria for Granting Motion

In deciding a motion for costs and attorney fees under CCP §1038, the court must determine whether the action was brought or maintained with "reasonable cause and in the good faith belief that there was a justifiable controversy under the facts and law which warranted the filing of the complaint." If the court determines that the action was brought in bad faith, the city may recover "reasonable attorneys' fees, expert witness fees, the expense of services of experts, advisers and consultants in defense of the proceeding, and where reasonably and necessarily incurred in defending the proceeding." CCP §1038(a)-(b); *Ramsey v City of Lake Elsinore* (1990) 220 CA3d 1530, 1540, 270 CR 198 (failure to dismiss after evidence showed that city did not own intersection).

© The Regents of the University of California

§13.168 b. Timing of Motion

A motion for costs and attorney fees under CCP §1038 must be made before discharge of the jury or entry of judgment. CCP §1038(c).

PRACTICE TIP: By making a motion under this section, the city waives any rights to seek damages for malicious prosecution. CCP §1038(c). This could potentially lead to a conflict in the representation of both the city and a public employee should the employee desire to pursue a malicious prosecution action and the city desire to recover its costs of defense. Presumably, however, a separate motion for costs could be made on behalf of the city, leaving the employee's right to a malicious prosecution action intact.

© The Regents of the University of California

§13.169 2. Motion for Sanctions Under CCP §128.5

A city may avail itself of CCP §128.7 and seek to recover sanctions, including attorney fees and other expenses, if an action or motion is brought for an improper purpose, is frivolous, or lacks evidentiary support. CCP §128.7. For federal actions, Fed R Civ P 11 contains similar sanction provisions.

PRACTICE TIP: Both CCP §128.7 and Fed R Civ P 11 contain special notice and filing requirements that must be consulted and strictly observed. These include providing the offending party with notice and an opportunity to correct any defect. See CCP §128.7 (c), Fed R Civ P 11(c).

© The Regents of the University of California

§13.170 3. Discovery Costs

Under the Civil Discovery Act (CCP §§2016.010-2036.050), the court must impose sanctions against the losing party to a discovery motion unless the losing party can show that it acted with substantial justification or that the circumstances make the imposition of sanctions unjust. See, *e.g.,* CCP §2031.310(h). The sanctions may equal the attorney fees spent in successfully bringing or opposing the discovery motion.

PRACTICE TIP: Most discovery provisions require parties to meet and confer prior to bringing a motion to compel; failure to do so may result in sanctions. CCP §2023.020. Although the meet and confer requirement may not apply if a party fails to provide any response or objection to a discovery request (see, *e.g.,* CCP §2031.300(b)), a letter or telephone call is often advisable to avoid having to make an unnecessary motion.

© The Regents of the University of California

§13.171 4. Implied Indemnity

A city that prevails on a claim for implied indemnity may, under specific conditions, be entitled to an award of attorney fees. CCP §1021.6. On implied indemnity, see §§7.310-7.311.

© The Regents of the University of California

§13.172 5. Contract Claims

A prevailing city may recover attorney fees for actions on a contract if the contract provides for recovery of fees. CC §1717. See, *e.g.*, *Carr Bus. Enters. Inc. v City of Chowchilla* (2008) 166 CA4th 14, 82 CR3d 128.

© The Regents of the University of California

VI. ACTIONS BROUGHT BY MUNICIPALITY

§13.173 A. Municipality As Plaintiff

Cities "may sue and be sued." Govt C §34501. "Plaintiff" is defined as "a person who files a complaint or cross-complaint." CCP §481.180. "A person" includes a public entity. CCP §481.170. See *City of Sanger v Superior Court* (1992) 8 CA4th 444, 448, 10 CR2d 436 (holding that city is "a person" who can sue for punitive damages). But compare *City of Los Angeles v Shpegel-Dimsey, Inc.* (1988) 198 CA3d 1009, 1025, 244 CR 507 (holding to contrary), with *City of Glendale v Superior Court* (2002) 95 CA4th 1266, 1270, 116 CR2d 16 (same appellate district expressing disagreement with and limiting *City of Los Angeles* bar against punitive damages to facts in which city could have imposed criminal sanctions for same behavior).

© The Regents of the University of California

§13.174 B. Equitable Estoppel Defense as Applied to Municipalities

The equitable defense of estoppel is sometimes asserted by a defendant against a city plaintiff when the defendant claims detrimental reliance on actions or representations by the city. Estoppel may be "invoked against a government entity in 'exceptional cases' when 'justice and right require it.' " *Goodwill Indus. v County of Los Angeles* (1953) 117 CA2d 19, 26, 254 P2d 877. See *City of Long Beach v Mansell* (1970) 3 C3d 462, 501, 91 CR 23. In the land use context, in the absence of exceptional circumstances, estoppel will not apply to circumvent land use restrictions even when the landowner relies on the public agency's express representation that the landowner's plans comply with the agency's requirements or when the agency simply fails to take early action to warn the landowner that the plans violate land use requirements. *Golden Gate Water Ski Club v County of Contra Costa* (2008) 165 CA4th 249, 262, 80 CR3d 876.

Actions taken by a public agency or officer without authority are invalid and cannot be the subject of ratification or estoppel. *City of Pasadena v Estrin* (1931) 212 C 231, 236, 298 P 14; *Foxen v City of Santa Barbara* (1913) 166 C 77, 82, 134 P 1142. See *South Bay Senior Hous. Corp. v City of Hawthorne* (1997) 56 CA4th 1231, 1235, 66 CR2d 99 (contract void when city lacked authority to enter into it; city can have no liability on void contract). See also *Landberg v Landberg* (1972) 24 CA3d 742, 758, 101 CR 335 (estoppel "is not favored by the courts, and it is incumbent upon one who advances it to prove its dominant essentials, leaving nothing to surmise or questionable inference").

© The Regents of the University of California

§13.175 1. General Elements of Estoppel

The general elements of estoppel are as follows (*City of Long Beach v Mansell* (1970) 3 C3d 462, 489, 91 CR 23):

- The party to be estopped must be apprised of the facts;
- The party to be estopped must intend that its conduct will be acted on or must act so that the party asserting estoppel had a right to believe it was so intended;
- The party asserting estoppel must be ignorant of the true state of facts; and
- The party asserting estoppel must rely on the conduct to its injury.

PRACTICE TIP: Applicable elements of estoppel should be analyzed on a case-by-case basis. For example, in *Mansell* it was noted that an estoppel with respect to the title of property requires that the party pressing the estoppel was not only destitute of all knowledge of the true state of the title, but also of the means of acquiring such knowledge. 3 C3d at 490.

© The Regents of the University of California

§13.176 2. Application of Estoppel Defense Against Cities Depends on Two Additional Factors

In addition to the four traditional elements of estoppel (see §13.175), courts are to consider two policy factors in determining whether to apply estoppel against a public entity (*City of Long Beach v Mansell* (1970) 3 C3d 462, 493, 91 CR 23):

(1) Whether "justice and right" compel the application of estoppel; and

(2) Whether the application of estoppel would nullify a strong rule of policy adopted for the public benefit.

See *City of South San Francisco v Cypress Lawn Cemetery Ass'n* (1992) 11 CA4th 916, 923, 14 CR2d 323; *Penn-Co v Board of Supervisors* (1984) 158 CA3d 1072, 1080, 205 CR 298.

© The Regents of the University of California

§13.177 3. Cases Considering Application of Estoppel Defense to Municipalities

Cases in which courts have found that equitable estoppel does not apply to a municipality include:

- *Golden Gate Water Ski Club v County of Contra Costa* (2008) 165 CA4th 249, 262, 80 CR3d 876 (estoppel did not bar county from compelling property owner to remove structures constructed without permit).
- *Poway Royal Mobilehome Owners Ass'n v City of Poway* (2007) 149 CA4th 1460, 1471, 58 CR3d 153 (promissory estoppel unavailable to compel sale of mobile home park to owners' association and tenants based on alleged promise to sell).
- *Smith v County of Santa Barbara* (1992) 7 CA4th 770, 774, 9 CR2d 120 (county not estopped from revoking erroneously issued permit for construction of telephone microwave station).
- *Chaplis v County of Monterey* (1979) 97 CA3d 249, 260, 158 CR 395 (estoppel did not operate to allow developer to proceed on invalid and erroneously issued septic permit).
- *Pettitt v City of Fresno* (1973) 34 CA3d 813, 819, 110 CR 262 (city not estopped to deny validity of building permit that violated zoning code, even though applicant spent considerable funds in reliance on erroneously issued building permit).

Cases in which courts have applied equitable estoppel to a municipality include:

- *Ocean Servs. Corp. v Ventura Port Dist.* (1993) 15 CA4th 1762, 1776, 19 CR2d 750 (correspondence and verbal assurances estopped entity from raising defense of untimeliness of government claim).
- *Wilson v City of Laguna Beach* (1992) 6 CA4th 543, 558, 7 CR2d 848 (when state and local policy pronouncements concerning second units conflicted, court looked to state law policy of encouraging such residential units, despite city's contrary policy pronouncements).
- *Anderson v City of La Mesa* (1981) 118 CA3d 657, 660, 173 CR 572 (house built in good faith reliance on building permit, but having 2½-foot encroachment into setback justified estoppel against city from denying zoning variance).

For a compilation of cases applying the estoppel doctrine to government in various factual situations, see Jenkins & Wiener, A Compilation of Recent Cases Applying the Estoppel Doctrine to Government (presented at City Attorney's Department, League of California Cities, Fall Annual Conference, 1988).

© The Regents of the University of California

§13.178 C. Application of Claims Statute to Suit by One City Against Another Public Entity

Generally, a city is exempt from the claims-filing requirement for suits against another local public entity. Govt C §905(i). However, there is no express exemption for city claims against the State of California, and the safer and more conservative practice is to submit a claim. Compare Govt Code §905(i) ("Claims *by* the state or by a state department or *by* another local public entity" and "*against* local public entities" (emphasis added) are exempt from the claims statute) with Govt Code §905.2 (claim against state must be filed for claim for "money or damages on express contract, or for an injury for which the state is liable" and containing no express exemption for claims by public agencies). Additionally, Govt C §935 authorizes the adoption of local claim procedures. Thus, it is risky for a city to simply assume that it need not comply with any claim requirement when suing another public entity. The charters, ordinances, and administrative regulations of the other agency must be reviewed. See *City of Ontario v Superior Court* (1993) 12 CA4th 894, 898, 16 CR2d 32. On local claims requirements, see §§13.39-13.41.

© The Regents of the University of California

§13.179 D. Indemnity Actions by Municipalities

For a discussion of the relationship between the right to indemnity under an agreement and indemnity under the doctrine of equitable indemnification, see *County of Riverside v Loma Linda Univ.* (1981) 118 CA3d 300, 314, 173 CR 371.

© The Regents of the University of California

§13.180 1. Express (Contractual) Indemnification

The rules and limitations governing express indemnity are contractual. The parties have freedom to establish the indemnity arrangement, but the contractual language is subject to established rules of construction. See, *e.g., E.L. White, Inc. v City of Huntington Beach* (1978) 21 C3d 497, 507, 146 CR 614. For a case of particular interest to cities involving a contractual indemnity provision, see *City of Los Angeles v Japan Air Lines Co.* (1974) 41 CA3d 416, 116 CR 69 (discussion of scope of contractual indemnity clauses in government contracts). On the factors affecting the interaction between an express indemnity granted by a city and the constitutional debt limitation provisions of Cal Const art XVI, §18, see 19 Ops Cal Atty Gen 21 (1950). See also *Doland v Clark* (1904) 143 C 176, 76 P 958 (discussion of debt limitation and contingent future liability). On the duty to indemnify, see §13.87.

Contractual indemnity for design professionals, however, is limited by statute. Civil Code §2782.8 provides that, for any contract entered into on or after January 1, 2007, with a public agency for design professional services, provisions for indemnity and defense are "unenforceable, except for claims that arise out of, pertain to, or relate to the negligence, recklessness, or willful misconduct of the design professional."

© The Regents of the University of California

§13.181 2. Joint Powers Agreements

For specific provisions dealing with tort liability between public agencies when they have entered into a joint powers agreement, see Govt C §§895-895.8. See also California Government Tort Liability Practice §4.56 (4th ed Cal CEB 1999).

The general rule is that members of a joint powers authority are jointly and severally liable for injuries arising out of the authority's activities. Govt C §895.2. See also Govt C §6508.1 (allowing agreement creating authority to specify whether agency's debts, liabilities, and obligations will be debts, liabilities, and obligations of members of agreement).

© The Regents of the University of California

§13.182 3. Equitable Indemnity

"An obligation imposed upon several persons, or a right created in favor of several persons, is presumed to be joint, and not several." CC §1431. However, "[i]n any action for personal injury, property damage, or wrongful death, based upon principles of comparative fault, the liability of each defendant for non-economic damages shall be several only and shall not be joint." CC §1431.2(a).

Pre-Proposition 51 (CC §1431.2) principles continue to apply to the apportionment of economic damages. See *American Motorcycle Ass'n v Superior Court* (1978) 20 C3d 578, 586, 146 CR 182. Liability may be apportioned between a strictly liable defendant and a negligent defendant as well as between multiple negligent defendants. *Safeway Stores, Inc. v Nest-Kart* (1978) 21 C3d 322, 327, 146 CR 550. Liability may be apportioned between negligent and intentional tortfeasors. *Weidenfeller v Star & Garter* (1991) 1 CA4th 1, 6, 2 CR2d 14. A post-judgment claim for contribution is unaffected by an unsuccessful attempt to establish a right to comparative or equitable indemnification. *Coca-Cola Bottling Co. v Lucky Stores, Inc.* (1992) 11 CA4th 1372, 1379, 14 CR2d 673.

A municipality's indemnification rights are also subject to CCP §877, which provides that a good faith settlement exonerates the settling defendant from any liability to indemnify non-settling parties. *City of Sacramento v Gemsch Inv. Co.* (1981) 115 CA3d 869, 873, 171 CR 764. But see *Kantor v Housing Auth. of Fresno County* (1992) 8 CA4th 424, 429, 10 CR2d 695 (good faith settlement of personal injury action did not resolve indemnity claim on contract or statute). See also *Espinoza v Machonga* (1992) 9 CA4th 268, 276, 11 CR2d 498 (after Proposition 51 (CC §1431.2), portion of settlement attributable to non-economic damages is not subject to set-off against non-economic damages attributable to non-settling defendant).

A city that has been sued for inverse condemnation may cross-complain against a third party (including a public agency) for equitable indemnity. *County of San Mateo v Berney* (1988) 199 CA3d 1489, 1494, 245 CR 738.

© The Regents of the University of California

§13.183 E. Subrogation Actions by Municipalities

The principles applicable to subrogation actions are generally the same for indemnity actions (see §§13.179-13.182). In most instances, a city held liable for an employee's tort is precluded by statute to seek indemnification from the culpable employee or the employee's insurer. Govt C §825.4; *Pacific Indem. Co. v American Mut. Ins. Co.* (1972) 28 C3d 983, 990, 105 CR 295. Exceptions exist when (Govt C §825.6):

- Insurance policies held by an employer and employee both provide for contribution; or
- Employee's tort was caused by fraud, corruption or malice, willful failure to cooperate in the defense of the claim, or an act outside the scope of his or her employment.

See also Govt C §§815.3 (on intentional torts of elected officials), 825, 825.6 (on recovery from elected officials); *Henriksen v City of Rialto* (1993) 20 CA4th 1612, 1632 n6, 25 CR2d 308 (Timlin, J., dissenting).

© The Regents of the University of California

F. Validation Actions Brought by Municipalities

§13.184 1. When Validation Action Is Used

Cities may bring actions to determine the validity of certain matters, including contracts, agreements, warrants, evidence of debt, and other obligations. See CCP §§860-870.5. Specific situations in which a validation action may be brought include:

- Mello-Roos Act bond issuance (see Govt C §53312.5);
- Validity of annexations (see *Hills for Everyone v Local Agency Formation Comm'n* (1980) 105 CA3d 461, 466, 164 CR 420);
- Redevelopment agency agreements (see *Graydon v Pasadena Redev. Agency* (1980) 104 CA3d 631, 645, 164 CR 56, cert denied (1980) 449 US 983; *Regus v City of Baldwin Park* (1977) 70 CA3d 968, 972, 139 CR 196. But see *Fontana Redev. Agency v Torres* (2007) 153 CA4th 902, 911, 62 CR3d 875 (holding settlement agreement that required agency to contribute redevelopment revenue to affordable housing fund was not subject to validation action);
- Community facilities bonds (see Health & S C §4624);
- Redevelopment bonds (see Health & S C §33501);
- Special district reorganizations (see Govt C §§56103, 58200);
- Municipal improvements (see Str & H C §10601); and
- Certain types of fees, capacity charges, or service charges (see Govt C §66022).

A validation action may be brought by a public agency as well as against a public agency (to challenge a governmental action). CCP §863.

NOTE: A validation action is an in rem proceeding; a judgment, if no appeal is taken or if an appeal is taken and the judgment is affirmed, is conclusive and binding against all persons. See CCP §§860, 870.

© The Regents of the University of California

§13.185 2. Validation Procedures

Validation procedures must be carefully adhered to, especially those dealing with jurisdiction, service, and publication of summons. CCP §§861-861.1, 862. See also *Environmental Coalition of Orange County v Local Agency Formation Comm'n* (1980) 110 CA3d 164, 172, 167 CR 735.

© The Regents of the University of California

§13.186 3. Legislative Validation Actions

Validating acts are adopted by the state legislature each year. See, *e.g.,* Stats 2009, ch 2 (SB 101); Stats 2009, ch 163 (SB 102); Stats 2009, ch 164 (SB 103) (First, Second, and Third Validating Acts of 2009). These acts are uncodified, two of which are typically urgency measures that validate the organization, boundaries, acts, proceedings, and bonds of the state and counties, cities, and specified districts, agencies and entities. These measures may be used to cut off challenges to local legislative acts and to establish a presumption of validity. See *Miller v McKenna* (1944) 23 C2d 774, 781, 147 P2d 531 (validity of tax proceedings; effective date of validating act); *People ex rel Amestoy Estate Co. v Van Nuys Lighting Dist.* (1916) 173 C 792, 797, 162 P 97.

© The Regents of the University of California

§13.187 4. Available Remedies

The following are remedies available in connection with the enforcement of ordinances:

- Criminal prosecutions (see §12.28-12.65);
- Misdemeanors and infractions (see §§12.28, 12.31);
- Civil injunctions (see §12.16; *IT Corp. v County of Imperial* (1983) 35 C3d 63, 196 CR 715);
- Administrative abatement proceedings (see §§12.66-12.83); and
- Civil penalties (see §§12.19-12.25).

On intergovernmental immunity (see §§1.102-1.105).

Preemption of local laws, 9.89

Affidavits and Declarations
Code enforcement, declaration in support of arrest warrant for violation of statute or ordinance, 12.50
Initiative and referenda petitions. See **Initiatives and Referenda**
Primary election, affidavit alleging grounds for contesting. See **Election Contests**
Public works contracts, non-collusion affidavit signed by bidder for, 7.44

Affirmative Action in Hiring Public Employees
Generally, 4.6
Affirmative defense, discriminatory practice resulting from affirmative action plan as, 4.185
Contractors and subcontractors
Equal Protection considerations and federally funded programs (see Equal Protection consideration and federally funded programs, below)
Locally- and state-funded programs (see Locally- and state-funded programs, below)
EEOC guidelines on adoption of permissible voluntary affirmative action programs, 4.11
Equal Protection considerations and federally funded programs
Federal challenges to state and local affirmative action programs, 7.34
Proposition 209 prohibitions, limitations on, 7.32
Supreme Court review of affirmative action programs, 7.33
Federally funded programs (see Equal Protection considerations and federally funded programs, above)
Legality of voluntary affirmative action
Federal monies, city programs involving, 4.9
Proposition 209, effect on statutory affirmative action programs, 4.8, 7.29, 7.32
Locally- and state-funded programs
Generally, 7.28
Data collection, 7.30
Federal challenges to state and local affirmative action programs, 7.34
Hi-Voltage Wire Works, Inc v City of San Jose, effect of, 7.29
Permissible preferences, 7.31
Reverse discrimination, affirmative action as, 4.6
Sources of affirmative action obligations, 4.7
State-funded programs (see Locally- and state-funded programs, above)
Subcontractors (see Contractors and subcontractors, above)
Supreme Court review of affirmative action programs, 7.33
Third parties' standing to challenge voluntary affirmative action plan, 4.10

Affirmative Defenses. See **Defenses**

Affordable Housing
See also **Housing Element of General Plans**
Generally, 10.162
Attached housing developments
Generally, 10.192
Affordable development requirement, 10.193
California Environmental Quality Act (CEQA) exemptions for, 10.197
Infill requirement, 10.194
Population requirements, 10.195-10.196
Attorney fees, non-prevailing party in project delay case subject to, 13.162
Coastal communities, special requirements for, 10.198, 10.308
Concessions (see Incentives and concessions with density bonuses, below)
Conditional use permits, limitations on authority to require for

Generally, 10.191
Attached housing developments (see Attached housing developments, above)
Definitions
Affordable (housing development), 10.193
Attached housing development, 10.192
Infill, 10.194
Urban growth boundary, 10.195
Density bonuses
Generally, 10.172
Applicability of (see Density bonuses, applicability of, below)
Durational requirements for grant of, 10.188-10.190
General plans and zoning, consistency with, 10.187
Incentives and concessions (see Incentives and concessions with density bonuses, below)
Parking requirements, limitations on, 10.186
Percentage increase (see Percentage increase of density bonuses, below)
Waiver or modification of development standards, 10.185
Density bonuses, applicability of
Generally, 10.173
Child care facilities included in proposal, 10.177
Land donated for low-income housing, 10.175
Percentage of units reserved for low-income housing, 10.174
Senior housing, 10.176
Elections required for certain low-income housing projects, 10.164
General plans for land use, consideration of, 10.35, 10.39, 10.80
Gift of public funds prohibition not applicable to construction of low or moderate income housing, 5.279
Incentives and concessions with density bonuses
Denial of, grounds for, 10.184
Number allowed, 10.183
Types allowed, 10.182
Parking. See **Parking**
Percentage increase of density bonuses
Generally, 10.178
Additional density bonus by local ordinance, 10.181
Basic density bonus, amount, 10.179
Incremental increases to basic density bonus, 10.180
Redevelopment issues. See **Redevelopment Housing Requirements**
Rejection of projects, findings required, 10.163
Rent control. See **Rent Control**
Requirement to provide, 10.162
Second units
Generally, 10.166
Approval ministerial if no local ordinance, 10.166, 10.171
Discretion in local ordinances allowed, 10.167
Less restrictive requirements allowed, 10.170
Parking requirements, 10.169
Unit size standards, 10.168
Surplus real property sold or leased for development of low- or moderate-income housing, 8.87-8.88
Zoning
Density bonuses, consistency with zoning, 10.187
Density reductions, requirement of findings based on substantial evidence, 10.165

Age Discrimination
Age Discrimination Act of 1975, scope of, 4.147
Govt C §11135, discrimination prohibited under, 4.169
State personnel laws prohibiting age discrimination, 4.170

Age Discrimination in Employment Act (ADEA)
Generally, 4.144
Back pay, recovery of, 4.259
Enforcement of
EEOC's enforcement of, 4.249
Jurisdiction over ADEA lawsuits, state and federal courts sharing, 4.248
Time limit for filing lawsuit after filing EEOC charge, 4.249
Exclusion from coverage under ADEA, 4.145
Injunctive relief for violation of, 4.264

Liquidated damages, recovery of, 4.262
Retaliation against employee for filing discrimination charges under ADEA, 4.180
Settlement of claims, compliance with special requirements of Older Workers Benefit Protection Act, 4.249
Waiver of ADEA rights, restriction on, 4.146

Agencies
CEQA. See **California Environmental Quality Act (CEQA)**
Joint powers agencies. See **Joint Powers Agencies**
Land use responsibilities, agencies to carry out, 10.4
Public agency defined, 4.43, 7.300
State agency defined, 2.223

Agendas for Meetings
Advisory or standing committee's meeting, effect of posting agenda 72 hours in advance of, 2.47
Closed sessions. See **Closed Session Meetings**
Emergency meetings
Closed sessions, 2.69
Exception to agenda posting requirement, legislative body voting to discuss and take action on emergency situation, 2.61
Media's request for notice of special meeting, effect of, 2.68
Written notice or posting of emergency meeting, no requirement of, 2.68
Exceptions to agenda posting requirement for regular meetings
Brief or limited communications on matters not appearing on posted agenda, Brown Act allowing, 2.60
Emergency situation, legislative body voting to discuss and take action on, 2.61
Immediate action, necessity of, 2.62
Prior meetings, items on agendas for, 2.63
Prior meetings
Additional public comment for items continued from prior meeting, no requirement of, 2.64
Exception to posting requirement for agenda items from prior meeting, 2.63
Public record, agenda as, 2.76
Regular meetings
ADA requirements for agendas and agenda packets, 2.58
Contents of agenda, 2.56
Exceptions to agenda posting requirement (see Exceptions to agenda posting requirement for regular meetings, above)
Item not appearing on agenda, prohibition against discussion of, 2.59
Mailing of agendas, 2.57
Public comment or testimony, agenda providing for, 2.64
72 hour posting requirement for agenda, 2.55
Special meetings
Closed session, special meeting agenda describing matters for discussion in, 2.83
Discussion or action on matters not covered by special meeting notice prohibited, 2.66
Licensee's personal financial date, 2.248
Media's request for notice of special meeting, effect of, 2.68
Public comment or testimony, opportunity for, 2.67
24 hour posting and personal notice requirements, 2.65
Teleconferenced meetings, requirement for agenda, 2.72

Agreements
See also **Contracts**
Closed session meetings, approval of agreements at. See **Closed Session Meetings**
Collective bargaining agreements. See **Collective Bargaining Agreements**
Joint powers agreement. See **Joint Powers Agencies**
Metered Subsystem Agreement (MSS Agreement) available to municipal utilities, 6.32
Negotiated purchase agreement. See **Negotiated Purchase Agreement**
Streets, highways, and service easements, agreement not to vacate, 8.141
Waiver of landowner's protest rights, effect of annexation agreement requiring, 1.153

Agricultural Lands
LAFCO approval of proposals resulting in farmland security zone annexation, limits on, 1.115
Land preservation. See **Williamson Act (Agricultural Preserves)**
Lease of city property for agricultural purposes, 8.116

AIDS and HIV
Employer prohibited from making hiring decision based on HIV test results, 4.24, 4.171
Liability for improper disclosure of HIV tests to third parties, 4.132

Airports
Closing airports, 6.153
Constitutional law. See **Constitutional Law**
Federal preemption over airports
Generally, 6.140
Noise regulation, 9.112
Prohibited revenue diversion, 6.142
Rates and charges, 6.141
Fees, 6.151
Free speech regulations in airports, 6.154
Funding requirements, 6.151
Heliports, 6.152
Land use regulations (see Zoning and land use regulations, below)
Lease of city property to airport, 8.116
Noise and access regulation
City as airport proprietor, 6.143-6.144
Commerce Clause, noise restrictions limited by, 6.145
Federal Aviation Administration (FAA) restrictions, 6.146
Federal preemption of noise regulation, 9.112
Operation and regulation of airports
Generally, 6.139
Federal preemption over airports (see Federal preemption over airports, above)
Noise and access regulation (see Noise and access regulation, above)
Permissible areas of local control, 6.143
Zoning and land use regulations relating to airports (see Zoning and land use regulations, below)
Regional planning issues
After airport land use compatibility plan (ALUCP) creation, 10.256-10.258
Airport land use compatibility plans (ALUCP), creation of, 10.254
Before airport land use compatibility plan (ALUCP) creation, 10.255
City override of adverse determination by airport land use commission (ALUC), 10.259
Local regulations, 10.260
Regulation of (see Operation and regulation of airports, above)
Rents, 6.151
Security in airports, 6.155
Tenant requirements, 6.151
Zoning and land use regulations
Airport land use commissions (ALUC), 6.149
Expansions, 6.150
Power to zone over airports, 6.147
Regional planning issues (see Regional planning issues, above)
Takings issues on flight height restrictions, 6.148

Air Quality
Abatement orders
Effect of orders, 11.221
Issuance, notice and hearing required, 11.220
Violations of orders, penalties and injunctions, 11.222-11.223
Air pollution control districts (APCD) or air quality management districts (AQMD)
Attainment plans (see Air quality attainment plans, below)
Definition of person for air pollution control districts, 11.215
Duties of, 11.188
Governing boards for, 11.187
Limits on powers of (see Limits on powers of APCDs and AQMDs, below)
Permits issued by (see Permits, below)
Rule adoption by (see Rule adoption by APCDs and AQMDs, below)
Air quality attainment plans
Federal state implementation plans, 11.189, 11.191, 11.212
Five-percent annual reduction goal for, 11.190
Implementation of plan, adoption of locally effective regulations, 11.191
Indirect source regulation, 11.191
Procedural requirements for adoption, 11.197
Transportation control measures, 11.191
When required, 11.189
Appeals (see Permit appeals, below)
California Air Resources Board

Air quality attainment plans, submission to Board, 11.189
California Ambient Air Quality Standards, adoption of, 11.186, 11.206
Composition of, 11.208
Emission standards for new motor vehicles, set by, 11.206, 11.214
Programs carried out by, 11.207
Responsibilities of, 11.186
California Ambient Air Quality Standards, adoption of, 11.186, 11.206
City authority
Generally, 11.202
Implementation of air quality attainment plan measures by, 11.203
Permit checks required by cities, 11.204
Schools, facilities with risk management and prevention plans cannot locate near, 11.205
Clean Air Act (see Federal law, below)
Definitions
Air contaminant, 11.226
Indirect source, 11.191
Offset, 11.227
Person, 11.215
Enforcement
Abatement orders (see Abatement orders, above)
Citizen suits, 11.224
Civil penalties from state allowed, 11.215
Federal enforcement actions, 11.223
Variances (see Variances, below)
Environmental Protection Agency (see Federal law, below)
Federal law
Generally, 11.184, 11.209-11.210
Emission standards for new sources and hazardous pollutants, 11.213
Enforcement, 11.223
Federal implementation plans, 11.184, 11.212
National Ambient Air Quality Standards (NAAQS) set under, 11.211
State implementation plans, requirement for, 11.189, 11.191, 11.212
State permit programs, setting minimum standards for, 11.214
Global warming considerations, 11.235
Hazardous waste facilities, compliance with air quality regulations required, 11.249
Hearing (see Notice and hearing, below)
Judicial review of decisions by hearing boards, 11.219
Limits on powers of APCDs and AQMDs
Federal preemption of motor vehicle emissions, 11.196
Land use, lack of authority over, 11.192
New control measures, costs and benefits analysis required to implement, 11.195
Parking regulations, 11.194
Permitting requirements (see Permits, below)
Trip reduction program implementation, limits on, 11.194
Notice and hearing
Abatement orders, issuance of, 11.220
Rule adoption by APCDs and AQMDs, 11.199
Penalties
Abatement orders, violation of, 11.22-11.223
Regulation enforcement, penalties for, 11.215
Permit appeals
Denial of issuance, 11.232
Exhaustion of remedies requirement, 11.234
Issuance, appeal of conditions on permit, 11.233
Permits
Generally, 11.193
Appeals (see Permit appeals, above)
Cities requiring permit for development or building, 11.204
District action on permits, non-vehicular sources, 11.225-11.226
Duration of permits, 11.228
Federal minimum standards for state permit programs, 11.214
Fees for, 11.228, 11.231
Market-based incentives for permits encouraged, 11.229
New source review programs, 11.227
Offsets, 11.227

Other laws, effect on, 11.230
References for additional information about, 11.236
Regional air quality management
Districts for (see Air pollution control districts (APCD) or air quality management districts (AQMD), above)
Geographical basins for, 11.187
Rule adoption by APCDs and AQMDs
Authority for, 11.198
Changes to proposed rules, 11.200
Findings and record requirements, 11.201
Notice and hearing requirements, 11.199
State role in
Agencies involved in, 11.185-11.186
California Air Resources Board (see California Air Resources Board, above)
Enforcement (see Enforcement, above)
Programs carried out by, 11.207
Timing considerations
Air quality attainment plans, review of, 11.189
Air quality districts, notice of hearing, 11.199
Judicial review of board decisions, time to file for, 11.219
Permit denials or conditions, appeal of, 11.232, 11.234
Variances
Decisions of board, discretion of, 11.218
Hearing boards for granting, 11.216
Judicial review of decisions on, 11.219
Procedures and findings for granting, 11.217

Alcohol and Drugs
See also **Drug Testing**
ADA excluding illegal drug use from definition of disability, 4.118
Business regulation
Generally, 9.17
Consumption versus possession, 9.19
Gasoline sales with beer or wine, 9.20
Licensing for sale of alcohol, 9.21
Nuisance associated with, 9.18
Cost recovery for responding to emergency caused by person under influence of drugs and alcohol, 5.167
Disabled persons. See **Disabled Persons**
Drug Free Workplace Act of 1988
Generally, 4.115
ADA requiring employers to conform to, 4.237
Drug House Abatement Act. See **Drug House Abatement Act**
Drugs and drug paraphernalia, personal conduct regulation, 9.78-9.79
Medical marijuana, no duty to reasonably accommodate use of, 4.224
Payroll taxes allowed on alcoholic beverage sellers, 5.34
Public intoxication, 9.77
Valid overlapping state and local regulation, drug laws as example of, 1.41
Zoning issues for alcohol sales, 10.138

Alternative Dispute Resolution (ADR)
See also **Arbitration; Mediation**
Eminent domain law authorizing alternative dispute resolution, 8.55
Public works contracts, ADR in. See **Public Works Contracts**

Ambulances
Generally, 9.22
Authority for, 9.23-9.24
Pre-hospital emergency medical services, 9.25

Amendments and Modifications
Ballot title or summary, writ of mandate seeking amendment to correct false or misleading information in, 3.83
Charter, amendment of, 1.13
Density bonuses for affordable housing, modification of development standards, 10.185
General plan, amendment of, 10.80
Initiative adopted by city council or voters, amendment of, 3.92
Initiatives. See **Initiatives and Referenda**

LAFCO, sphere of influence amended by, 1.120
Ordinance, amendment or repeal of, 1.242
Pension plan, restrictions on amendment of, 4.36
Public works contracts, amendment or modification of, 7.62
Statement of contest, amendment of, 3.129
Uniform codes applying to building permits, modifications of, 10.238
Voting Rights Act, amendments to. See **Voting Rights Act (Federal)**

Americans with Disabilities Act (ADA)
See also **Disabled Persons**
Agendas for regular meetings, ADA requirements for, 2.58
Alcohol and drug use, permissibility of employer's restrictions about, 4.237
Confidentiality of medical information under, 4.124
Defenses to discrimination charge under, 4.239
Definition of disability under ADA, 4.223
Drug testing. See **Drug Testing**
EEOC guidelines on enforcing performance standards under ADA, 4.215
Enforcement of ADA. See **Discrimination Laws, Enforcement of**
Equal protection analysis, effect of ADA on, 4.241
Exhaustion of administrative remedies, no requirement before filing action under ADA, 4.240
Federal preemption of other disability discrimination laws by, 4.239
Hiring restrictions under, 4.20, 4.221
Illegal drug use, ADA excluding from definition of disability, 4.118
Injured employee's cause of action under, 4.398
Legislative body distributing documents in alternative format in compliance with ADA, 2.77
Obesity not disability per se, 4.226
Reasonable accommodation under ADA. See **Reasonable Accommodation for Disabled Persons**
Streets, roads, or walkways
Barden v City of Sacramento, effect of, 8.181
Curb ramps, 8.179-8.180, 8.184
Existing facilities, 8.179
New construction and alterations, 8.180
Requirements and deadlines, 8.182
Transition plans, 8.179, 8.183

Animals
Abandonment and mistreatment
Foreclosed-on homes, pets abandoned in, 9.181
Willful abandonment of animals, 9.180
Animal control officers, authority of, 9.174
Definitions
Domestic animal, 9.158
Wild animal, 9.178
Diseases dangerous to humans, 9.183
Dogs
Assistance dogs, use as, 9.182
Attacks by dogs on people or livestock, 9.168-9.169
Authority for, 9.161
Impounding or destruction of dogs, 9.163, 9.165
Licensing requirements for, 9.162
Nuisance, barking as, 9.160
Spay, neuter, or breeding requirements for certain breeds, 9.167
Vicious or potentially dangerous dogs, 9.164-9.166
Domestic animals
Generally, 9.158
Cats, 9.170
Definition of domestic animal, 9.158
Dogs (see Dogs, above)
Nuisances caused by, 9.160
Species other than dogs and cats, 9.171
Zoning regulation for control of, 9.159
Endangered species. See **California Endangered Species Act (CESA); Endangered Species Act (ESA)**
Liability issues of public officers for death or injuries to animals, 9.173
Mistreatment (see Abandonment and mistreatment, above)
Police power authority for, 9.157-9.158, 9.163

Relinquishment and redemption of animals, 9.172
Service animals, 9.182
Shelters for animals, 9.175-9.176
Wild animals
Generally, 9.177
Definition of wild animal, 9.178
Ownership issues, 9.179

Annexation
Generally, 1.149-1.150
Application by resolution for annexation, LAFCO approval mandatory for, 1.125
Appropriateness of annexation, determining, 1.151
Approval or disapproval by LAFCO
With notice and hearing, 1.156
Without notice or hearing, 1.155
Creation of islands, 1.124
Effect of annexation
Acceptance of county roads and highways, 1.162
Charges for property use, 1.160
Jurisdiction, 1.158
Previously authorized taxes, assessments, fees, or charges, 1.163
Responsibility for bonds, 1.161
Service provision, 1.159
Elections on annexation, 1.157
Farmland security zone annexation, limits on LAFCO approval of proposals resulting in, 1.115
Hearing (see Approval or disapproval by LAFCO, above)
Non-contiguous territory, 1.124
Notice (see Approval or disapproval by LAFCO, above)
Prezoning land for annexation, 1.123
Property tax negotiations, 1.152-1.153
State tidelands and submerged lands, 1.124
Waiver of landowner's protest rights, effect of annexation agreement requiring, 1.153

Anti-Kickback Act. See **Copeland Anti-Kickback Act**

Antitrust
Electric utility, effect of federal or state antitrust challenge, 6.39
Immunity of local government from, 13.153

Appeals
See also **Judicial Review**
Air quality permits. See **Air Quality**
California Coastal Act. See **California Coastal Act**
California Environmental Quality Act (CEQA), appeal of final environmental impact reports, 11.43
Closed session disclosure report on appellate review, 2.103
Conditional use permits, 10.102
Disability retirement claims, appeal hearings for, 4.39
Election contest, appealing trial court's decision in, 3.136
Election recount, nonappealability of court's judgment, 3.145
Firefighters Procedural Bill of Rights Act, administrative appeals under, 4.318
Frivolous appeals
Attorney fees for, 13.162
California Coastal Commission, time for determining if appeal frivolous, 10.321
Government Claims Act, appealability of relief from requirements determination, 13.84-13.85
Hazardous waste facilities, appeal of decision on application to build, 11.247
Mandamus, appeal of orders from, 13.15
Parking fines and forfeitures, trial de novo, 5.208
Permit Streamlining Act (PSA), land use project approvals, 10.15
Police officer's right to appeal punitive action, 4.309
Public Records Act, appealing order under. See **Public Records Act (California)**
Water quality, appeal of state or regional board decisions, 11.152-11.153

Appraisals
See also **Valuation**
Eminent domain actions. See **Eminent Domain**

Negotiated purchase agreement, use of appraisals in, 8.8-8.9, 8.30

Arbitration
See also **Alternative Dispute Resolution (ADR); Mediation**
Binding arbitration. See **Meyers-Milias-Brown Act**
Contractual provision, 7.231
Public works contracts. See **Public Works Contracts**

Architects and Engineers
Preparation of engineer's report, 5.138
Public Records Act, exemption from disclosure of architectural and engineering plans, 2.256

Army Corps of Engineers
Generally, 10.352
Definitions
Waters, 10.357
Wetlands, 10.356, 11.175
Permits
Individual permits for specific activities, 10.359
Nationwide permits for dredging or filling, 10.358
Statutory authority to regulate activities in waters
Generally, 10.353
Clean Water Act, 10.354
Rivers and Harbors Act of 1899, 10.355

Arrests and Criminal Records
Restrictions on employers asking potential employees about, 4.22-4.23
Warrant for arrest. See **Criminal Enforcement**

Assessments
Benefit assessments and assessment districts. See **Benefit Assessments and Assessment Districts**
Special taxes compared, 5.73
Stand-by charges, 5.176

Assignments, Contractual Provision for
Generally, 7.230
Public works contracts, provisions for assignment of unfair business practice claims in, 7.42

At-Large Elections. See **Elections**

Attached Housing Developments. See **Affordable Housing**

Attendance at Meetings. See **Open Meeting Laws**

Attorney-Client Privilege
Government lawyers, applicability of privilege to, 2.203
Public meeting document, exception for attorney-client privileged written communication, 2.79
Waiver of privilege by majority of legislative body, 2.109

Attorneys
City attorney. See **City Attorney**
Fees. See **Attorneys' Fees**
Government lawyers. See **Government Lawyers, Ethical Obligations for**
Post-disciplinary evidentiary hearing, right to representation at, 4.288
Workers' compensation law as specialized area of practice, 4.351

Attorneys' Fees
Affordable housing delays, non-prevailing plaintiff subject to claim for fees, 13.162
Arbitrary or capricious administrative actions, liability of municipality for attorney fees, 13.157
Bad faith or frivolous actions, 13.162, 13.166, 13.169
Cable operators, recovery of attorney fees by, 6.85
California Voting Rights Act, recovery of fees under, 3.77
Civil rights actions
Generally, 13.158
Calculation of fee award amount, 13.160

Contingent-fee contracts not invalidated by award amount, 13.160
Section 1983 actions (see Section 1983 actions, below)
Successful party, 13.159
Civil Rights Act of 1991, recovery of fees under, 4.155
Closed session in violation of Brown Act, award of fees in action over, 2.116
Contracts, prevailing party may recover attorney fees if provided in contract, 7.242, 13.162, 13.172
Definitions
Lodestar figure, 13.159
Prevailing party, 13.159
Discrimination action, prevailing party's recovery of fees in, 4.263
Eminent domain, municipal liability for attorney fees, 13.161
Fair Labor Standards Act (FLSA), recovery of fees under, 4.90
Frivolous appeals, fee award for, 13.162
Implied indemnity, attorneys' fees for prevailing on claim for, 13.171
Inverse condemnation, municipal liability for attorney fees, 13.161
Mandamus actions, municipal liability for attorney fees, 13.161
Open meetings, attorney fees for cases alleging violations of Ralph M. Brown Act, 13.162
Political Reform Act compliance, attorney fee awards for, 13.162
Private attorney general doctrine. See **Private Attorney General Doctrine**
Public Records Act, recovery of fees under, 2.263, 13.162
Public Safety Officers Procedural Bill of Rights Act, recovery of fees under, 4.310
Recovery of fees by municipality
Generally, 13.166
Contract claims, prevailing party recovering fees on, 13.172
Criteria for granting motion for fees, 13.167
Discovery costs, award against losing party in discovery motions, 13.170
Implied indemnity claims, fee award for prevailing entity, 13.171
Sanctions for frivolous or improper action, 13.169
Timing of motion for fees, 13.168
Section 1983 actions
Authority for attorney fee awards, 13.114, 13.145, 13.149
Supplemental jurisdiction of federal court over related state claim, 13.159

Auctions
State preemption of regulation of auctions, 9.26

Audiorecording. See **Video- and Audiorecording**

Audits
Contractual provision requiring audit, 7.238
Goods and services, contracting for. See **Goods and Services, Contracting for**

Automatic Stay. See **Bankruptcy and Insolvency**

Back Pay
Discrimination action, recovery of back pay in, 4.259
Public Safety Officers Procedural Bill of Rights Act, recovery of back pay as remedy for violation of, 4.310
Skelly violations, award of back pay for, 4.284
Workers' compensation, retroactive pay and benefits for worker discharged in retaliation for filing, 4.379

Bad Faith
Attorney fee award for, 13.162, 13.166, 13.169

Bail Forfeiture, 5.196, 5.201

Ballot Measures
See also **Initiatives and Referenda**
City's participation in ballot measures. See **Ballot Measures, City's Participation in**
Corporation or other organizations making contributions to help pass or defeat ballot measure, 3.178
Defined, 3.212
Disclosures
Campaign advertisements, disclosure of funding sources, 3.201
Donors of more than $50,000 to ballot measure campaigns, disclosure requirements for, 3.201
Election contest over ballot measures, 3.137

Length of ballot measure, 3.50

Ballot Measures, City's Participation in
Analysis of city ballot measures by city attorney
Impartial analysis by city attorney, 3.223
Remedies for imperfect analysis by city attorney, 3.224
City attorney (see Analysis of city ballot measures by city attorney, above)
Constitutional issues (see Prohibited expenditures to support or defeat ballot measure, below)
Drafting ballot measures
Campaigning, drafting ballot measure not constituting, 3.221
Local government spending public funds to draft and find sponsor for initiative, 3.220
Qualification of ballot measure, local government prohibited from spending public funds for, 3.222
Expenditures
Definition of expenditure, 3.212
Permissible public expenditures (see Permissible public expenditures, below)
Prohibited expenditures (see Prohibited expenditures to support or defeat ballot measure, below)
Permissible public expenditures
Drafting ballot measures (see Drafting ballot measures, above)
Informational expenses, 3.214
Local legislative bodies going on record at public meetings in favor or opposed to particular measure, 3.215
Voter registration expenses, 3.216
Prohibited expenditures to support or defeat ballot measure
Generally, 3.211
Equal protection clause, government expenditures to support ballot measure as violation of, 3.213
Qualification of ballot measure, local government prohibited from spending public funds for, 3.222
Statutory prohibition against city officer, employee, or consultant from spending city funds to support or oppose ballot measure, 3.212
Proposition 218 ballot and protest procedures not constituting ballot measure, 3.211

Ballots
See also **Elections**
Benefit assessments and assessment districts ballots, 5.148-5.149
Blank space on ballot, 3.47
Contents of ballots
Generally, 3.37
Headings, 3.38
Names of candidates (see Names of candidates, below)
Order of offices and initiatives appearing on ballot, 3.44
Status or principal profession of candidate, ballot listing, 3.42
Voter instructions, 3.43
Counting ballots. See **Elections**
Initiatives and referenda. See **Initiatives and Referenda**
Mailed ballot elections
Conduct of municipal mailed ballot election, 3.59
Dates for, 3.61
Small city mailed ballot election, statute authorizing, 3.60
Names of candidates on ballot
Generally, 3.39
Change in candidate's name within 1 year of election, effect on listing name on ballot, 3.40
Order of names on ballot, 3.44
Similar names, candidates with, 3.41
Political affiliation or party of candidate, listing on ballot, 3.46
Provisional ballots, use and verification of, 3.25
Recall election, ballot for. See **Recall**
Sample ballots, time limit for mailing, 3.58
Stubs and numbering of ballots, 3.48
Terms of office, ballot specifying, 3.49
Translation of ballot into foreign language, requirements under federal Voting Rights Act, 3.45, 3.67
Voters' pamphlets. See **Voters' Pamphlets**

Bankruptcy and Insolvency
Authority for (see Statutory authority for municipal bankruptcy, below)
Automatic stay
Application for, 5.449-5.450
Fees, effect of automatic stay on collection from debtor by city, 5.173

Commencement of case
Designation of judge, 5.446
Dismissal, creditors seeking, 5.447
Filing procedures and publication requirements, 5.445
Jurisdiction of bankruptcy court over municipal bankruptcy, 5.446
Retention of state or municipal control, 5.448
Definitions
Impaired claim, 5.453
Municipality, 5.442
Labor contracts, special issues involving, 5.455-5.456
Plan confirmation
Generally, 5.451
Contents of plan, 5.453
Persons eligible to file plan, 5.452
Requirements for confirmation, 5.454
Pledged special revenues, exclusion of, 5.450
Statutory authority for municipal bankruptcy
Cash flow, insolvency evaluation based on, 5.444
Definition of municipality, 5.442
Eligibility requirements for filing, 5.441
Historical background, 5.440
State authorization of municipal bankruptcy, 5.443

Banks and Financial Corporations
Tax exemptions for, 5.103-5.104

Beaches. See **Coastal Areas; Tidelands, Beaches, and Streams**

Benefit Assessments and Assessment Districts
Generally, 5.121
Annual assessments compared with installment assessments, 5.122
Bonds for
Generally, 5.227
Installment assessments, generally, 5.122
Issuance of, 5.141-5.142
Laws authorizing bonds, 5.131, 5.133
Refund of assessment bonds exempt from Proposition 218 requirements, 5.154
Definition of assessment district, 5.123
Federal government property, immune of, 5.150
Fees compared, 5.125
Formation procedure for assessment districts
Generally, 5.137
Assessment roll recordation, 5.141
Bonds, issuance of, 5.141-5.142
Boundary map recordation, 5.139
Engineer's report, preparation of, 5.138
Geographic scope of assessment, 5.123
Notice, protest, and hearing requirements, 5.140
Proposition 218 issues. See **Proposition 218**
Resolution of intention, 5.139
Subsequent proceedings, 5.143
Gann Limit, 5.286
Geographic scope of assessment, 5.123
Laws for assessments
Generally, 5.121, 5.126
Benefits Assessment Act of 1982, 5.135
Improvement Act of 1911, 5.131
Improvement Bond Act of 1915, 5.133
Landscaping and Lighting Act of 1972, 5.134
Municipal Improvement Act of 1913, 5.132
Parking and Business Improvement Area Law of 1989, 5.136
Property and Business Improvement District Law of 1994, 5.136
Proposition 218. See **Proposition 218**
Ralph M. Brown Act, 5.130
Special Assessment Investigation, Limitation and Majority Protest Act of 1931, 5.129

Str & H C §§3310-3117.5, 5.127
Property-based compared with business-based assessments, 5.124
Proposition 218. See **Proposition 218**
Statute of limitations, actions challenging validity of assessment, 5.152
Taxes compared, 5.125

Benefit Plans
See also **Compensation Plans**
Generally, 4.30
City council providing health benefits for members, 1.219
Retirement benefits. See **Retirement and Pension Plans**

Benefits Assessment Act of 1982, 5.135

Bequest, Acquisition of Real Property by. See **Acquisition of Property**

Bias and Prejudice
Code enforcement proceedings, impartial administrative hearing body or officer required for, 12.79
Due process requiring fair and impartial participation in quasi-judicial proceedings by decision-maker, 2.180
LAFCO determinations and decisions, judicial inquiry limited to question of prejudicial abuse of discretion in, 1.129

Bicycles, Roller Skates, and Skateboards
Bicycle lanes, 8.172
Bicycle parking, 8.172
Motorized scooters, 8.175
Nonmotorized scooters, 8.174
Operation of bicycles and electric carts on sidewalks, 8.171
Roller skates, 8.173
Segways and other mobility devices, 8.175
Skateboarding, 8.174

Bidding for Public Works Contracts
Generally, 7.3
Additive and deductive bids, 7.17
Awarding contracts
Bid protests, 7.20
Lowest responsible bidder (see Lowest responsible bidder, below)
Charter cities, 7.171-7.172
Competitive bidding requirement, exceptions to
Generally, 7.5
Design-build, 7.9
Emergency, 7.6
Professional services contracts, 7.7
Special services, 7.8
Consent to withdrawal of bid, 7.23
Federally funded projects, competitive sealed bids for. See **Federally Funded Projects**
Internet submissions, 7.14
Invitation to bid, 7.36
Lowest monetary bidder, 7.16
Lowest responsible bidder
Generally, 7.15
Additive and deductive bids, 7.17
Lowest monetary bidder, 7.16
Responsible bidder, 7.19
Responsive bid, 7.18
Mistakes
Changing bid, 7.22
Clerical errors, 7.79
Consent to withdrawal, 7.23
Legal action for relief, 7.24
Prohibition to further bidding, 7.25
Non-collusion affidavit signed by bidder, 7.44
Notice
Nonresponsive bidder, notice to, 7.20
Notice inviting bids (see Notice inviting bids, below)

Notice inviting bids
Bid addenda, 7.11
Contents of notice, 7.10
Mandatory pre-bid conference or job walk, 7.12
Presentation of bid and security, 7.13, 7.49
Public project defined, 7.4
Rejection of bids, 7.20-7.21, 7.37
Responsible bidder, 7.19
Responsive bid, 7.18
Specific bidding and contract provisions, 7.35
Subletting and Subcontracting Fair Practices Act, effect of. See **Subletting and Subcontracting Fair Practices Act**
Waiver of competitive bidding requirement (see Competitive bidding requirement, exceptions to, above)

Billboards. See **Signs and Billboards**

Bingo Games
Business and occupational regulation of, 9.27
Redevelopment assistance prohibited for projects involving bingo, 5.370

Boards. See **Commissions and Boards**

Boating and Waterways, Department of
Authority of, 10.361
Governing law, 6.157

Bonds
Annexation, responsibility for bonds after, 1.161
Bankruptcy publication requirements, 5.445
Benefit assessments and assessment districts. See **Benefit Assessments and Assessment Districts**
Consent calendar, inapplicability to bond issues over $100,000, 5.245
Debt limit issues, 5.224, 5.292, 5.295
Disclosure obligations of cities. See **Debt Financing**
General obligation bonds, 5.220-5.221
Limited obligation bonds
Generally, 5.222
Assessment bonds. See **Benefit Assessments and Assessment Districts**
Mello-Roos Community Facilities Act of 1982. See **Mello-Roos Community Facilities Act of 1982**
Revenue bonds. See **Revenue Bonds**
Tax increment bonds, 5.228, 5.394
Mark-Roos public financing authority bonds. See **Marks-Roos Local Bond Pooling Act of 1985**
Municipal Improvement Bond Act of 1901, 5.295
Revenue bonds. See **Revenue Bonds**
Surety bonds. See **Surety Bonds**
Taxable status of debt financing, 5.241
Transient occupancy taxes, use to secure redevelopment financing, 5.398

Borrowing. See **Loans**

Bradley-Burns Uniform Local Sales and Use Tax Law. See **Taxes**

Broughton Act, 5.188, 5.190

Brown Act. See **Open Meeting Laws**

Budgets, 5.264

Building Codes, Enforcement of. See **Code Enforcement**

Building Permits
Generally, 10.231
Air quality issues, 11.204
Applications for permits, 10.234-10.235
Authority for, 10.232
Due process claim if nondiscretionary permit denied after owner's compliance with requirements, 10.428
Duration and revocation of

Beginning and completing work, time frames for, 10.242
Extensions of time for, 10.243
Revocation of permit, 10.245
Suspension of permit, 10.244
Excise tax for, 5.60
Hazardous waste site, determination required before development, 11.253
Incomplete work, remedies for, 10.246-10.249
Issuance, effect of
Conditions imposed on issuance, 10.234, 10.236
Invalid permits, no vested rights from, 10.240
Limits on vested rights, 10.241
Taking, delay in or denial of issuance as, 10.384, 10.396
Vested rights, creation of, 10.239
Mandamus, application of writ to building permit decisions, 13.4
Reasonable relationship between expenses and public interests required, 10.233
Uniform codes applying to
Modifications to uniform codes, 10.238
State standards from Housing and Community Development (HCD), 10.237

Burden of Proof
See also **Proof**
Age discrimination action, burden of proof in, 4.144
California Voting Rights Act, burden of proof in action for violations of, 3.76
Election contest, burden of proof on contestant at trial, 3.133
Endangered Species Act. See **Endangered Species Act (ESA)**
Government Claims Act. See **Government Claims Act**
Housing obligations for regional needs, 10.207
Lab C §2810 violation, rebuttable presumption affecting burden of proof regarding, 7.58
Mandamus. See **Mandamus, Writ of**
Mitigation of damages in discrimination action, employer's burden of proof in showing employee's failure regarding, 4.259
Post-disciplinary evidentiary hearing, employer's burden of proof at, 4.288
Public nuisance, burden of proof requirements, 12.2
Public Records Act, agency's burden of proof in withholding record requested under, 2.240, 2.250
Workers' compensation, employee's burden of proving injury work-related, 4.355

Business and Occupational Regulation
Generally, 9.1
Alcoholic beverages. See **Alcohol and Drugs**
Ambulances. See **Ambulances**
Auctions, state preemption of, 9.26
Authority for, 9.2
Bingo, 9.27
Constitutional limitations (see Limitations on, below)
Dance halls, 9.28
Gambling establishments, regulation of. See **Gambling**
Hot air balloons, 9.33
Junk dealers and recyclers, 9.46
Limitations on
Commerce Clause prohibiting regulations that interfere with interstate commerce, 9.4
First Amendment, 9.5
Preemption of local laws, 9.3
Limousines, 9.34
Massage parlors, 9.35
Pawnbrokers, 9.36
Rent control. See **Rent Control**
Security patrols and security guards. See **Security Patrols and Security Guards**
Shopping and laundry carts, 9.40
Taxicabs. See **Taxicabs**
Tow trucks, 9.44
Vendors and solicitors, 9.45

Business Entities. See **Political Reform Act of 1974**

Cable Television and Video Systems Franchises

Abandonment of franchise, 6.62
Constitutional challenges to regulation, 6.87
Definition of video service, 6.59
Equipment, regulation of, 6.63, 6.83
Federal cable television law
Generally, 6.69
Definitional scheme, 6.70
Delegation of regulation of activities to city (see Federal delegation of regulation of activities to city, below)
Internet access provided over cable systems, effect of, 6.73
Limitations imposed by, 6.58
Miscellaneous telecommunications services, cable operators providing, 6.73
Nonexclusivity of franchises, 6.71
Telephone companies providing video programming, 6.74
Termination of franchise, 6.72
Federal delegation of regulation of activities to city
Attorney fees, 6.85
Channel capacity requirements, 6.80
Customer service regulation, 6.84
Facility and equipment regulation, 6.83
Immunity of city from damages, 6.85
Program notice requirements, 6.82
Program restrictions, permissibility of, 6.81
Rates: billing and rate uniformity, 6.79
Rates: controlled by federal standards, 6.77
Rates: rate regulation and effective competition, 6.76
Rates: revocation of certification and non-certification, 6.78
Rates: use of rights-of-way, 6.75
Remedies, 6.85
Sale, transfer, or change of control, 6.86
Fees
Attorney fees, 6.85
Delinquency fees, 6.64
Maximum fees, 6.61, 6.67
Open video system provided, fees imposed on, 6.74
Video franchises, 5.193
Local cable television franchises
Generally, 6.60
Delinquency fees, availability of, 6.64
Equal access to cable services required, 6.62
Jurisdiction of CPUC, 6.63
Maximum fees, 6.61
Multiple franchises, 6.63
Potential franchise rights to be granted, 6.61
Rates (see Federal delegation of regulation of activities to city, above)
References, 6.88
State law
Limitations imposed by, 6.59
Local cable television franchises (see Local cable television franchises, above)
Statewide video franchises (see Statewide video franchises, below)
Statewide video franchises
Generally, 6.65
Anti-discrimination and build-out requirements, 6.68
Digital Infrastructure and Video Competition Act of 2006 providing streamlined process for granting statewide video franchises, 6.65
Existing cable franchisees, effect of new statewide franchise on, 6.66
Maximum franchise fee, 6.67
Public, educational, and governmental channels, required support for, 6.67
Telephone rate limitations, 6.68

California Air Resources Board. See **Air Quality**

California Coastal Act
Appeals from post-certification local government permit decisions
Grounds for appeal, 10.318
Judicial review of (see Judicial review of California Coastal Commission actions, below)

Jurisdictional issues, 10.316-10.317
Persons eligible to file appeal, 10.319
Procedures for appeal, 10.321
Scope of review, 10.318
Timing of appeal, 10.320, 10.322
Cease and desist authority of California Coastal Commission
Certified local coastal plans and port master plans, applicability of cease and desist orders, 10.328
Penalties for violations of, 10.330
Permit violations, 10.327
Terms and conditions of, 10.329
Coastal Commission permit procedures
Generally, 10.310
De minimis and emergency exceptions to, 10.310
Hearing requirements, 10.312
Preliminary approval from other agencies required for permit application, 10.311
Pre-local coastal program certification, 10.313
Revocation, reapplication, or reconsideration of permits, 10.314
Coastal policies to protect resources, 10.281
Coastal zone, areas constituting, 10.280
Definitions
Aggrieved person, 10.319
Amendment of certified local coastal program, 10.299
Coastal zone, 10.280
Development (California Coastal Act), 10.304-10.305
Person (for coastal development permits), 10.301
Wetlands, 10.306
Discretion (see Local discretion for local coastal programs, below)
Enforcement of Act
Generally, 10.326
Cease and desist authority (see Cease and desist authority of California Coastal Commission, above)
Penalties for violations of, 10.330-10.332
Restoration ordered, 10.333
Establishment of California Coastal Commission, 10.278-10.279
Harbors, applicability to, 6.176
Hearings
Coastal Commission permit procedures, hearing requirements for, 10.312
Land use plan certification (see Land use plan certification, below)
Land use plan submittal to Coastal Commission, time for hearing, 10.290-10.291
Interpretive guidelines, APA exemption for, 10.282
Judicial review of California Coastal Commission actions
Bonds not required, 10.323
Collateral attack immunity if no judicial review sought, 10.324
Mandate for, 10.322
Ripeness requirement, 10.325
Land use plan certification
Commission hearing procedure, 10.290
Denial of, 10.294-10.295
Effect of, 10.293
Public hearing required if substantial issues raised, 10.291
Standard for, 10.289
Local coastal programs
Generally, 10.283
Adequacy of program, evaluated against coastal policies, 10.281
Amendment of, 10.299
Certification of local coastal programs, effect of, 10.292-10.293, 10.303, 10.308-10.309
Denial of certification of land use plan, findings and modifications, 10.294-10.295
Land use plan certification (see Land use plan certification, above)
Local discretion in (see Local discretion for local coastal programs, below)
Periodic review required, 10.300
Zoning and other implementing actions (see Zoning and other implementing actions for land use plans, below)
Local discretion for local coastal programs
Generally, 10.284
California Environmental Quality Act (CEQA), limited application of, 10.288
Delay in submittal, consequences of, 10.287
General plans and zoning ordinances, changes to conform with local coastal programs, subject to referendum or initiative,

10.285
Permit authority delegated to local governments after local coastal program certification, 10.303
Submittal for Coastal Commission review, 10.286
Permits for coastal development
Generally, 10.301
Appeals (see Appeals from post-certification local government permit decisions, above)
Cease and desist order if permit not obtained, 10.327
Coastal Commission procedures for (see Coastal Commission permit procedures, above)
Development subject to permit requirement, 10.304-10.305
Enforcement of (see Enforcement of Act, above)
Housing issues with permits, 10.308
Issuance, agency for, 10.302-10.303
Post-certification of local coastal programs, 10.315
Pre-certification of local coastal programs (see Coastal Commission permit procedures, above)
Public access issues with permits, 10.307
Statutory exemptions from permits, 10.309
Wetlands issues with permits, 10.306
Purpose of Act, 10.277
Timing considerations
Appeal to California Coastal Commission, time to determine if frivolous, 10.321
Cease and desist orders, duration, 10.329
Certification of land use plan with modifications, expiration of, 10.294
Land use plan submittal to Coastal Commission, time for hearing, 10.290-10.291
Local coastal programs, time for periodic review, 10.300
Permits for coastal development, 10.312
Zoning and other implementing actions for land use plans, time for Coastal Commission rejection, 10.296-10.297
Zoning and other implementing actions for land use plans
Commission decisions, 10.297
Modifications, refusal of by local governments, 10.298
Standard for, 10.296

California Coastal Commission. See **California Coastal Act**

California Emergency Services Act
Generally, 6.183
Disaster liability immunity under Act
Generally, 6.191
Disaster malpractice, 6.194
Extraterritorial immunity, 6.192
Inmates endangered by disaster, 6.193
Volunteers and conscripted emergency workers, 6.192
Duties (see Powers and duties under Act, below)
Powers and duties under Act
Declarations of emergency, 6.184
Emergency government after disaster, 6.187
Emergency powers, 6.186
Extraterritorial service after disaster, 6.190
Local disaster councils, establishment of, 6.185
Meeting procedures after disaster, 6.188
Mutual aid regions, establishment of, 6.189
Press access in emergency, 6.186
State aid, providing, 6.185
Temporary housing, procurement of, 6.189
Test exercises conducted by cities, 6.189

California Endangered Species Act (CESA)
See also **Endangered Species Act (ESA)**
Generally, 11.257, 11.288
Definitions
Candidate species, 11.290
Endangered species, 11.289
Take, 11.294
Threatened species, 11.289
Listing under Act
Animals, species included, 11.293

Natural community conservation plans prior to listing, 11.296
Plants, species included, 11.292
Procedure for, 11.291
Time for review of petition for listing, 11.291
References for additional information about, 11.297
Species protected under
Candidate species, 11.290
Listing (see Listing under Act, above)
Sensitive, species considered as, 11.296
Threatened and endangered, 11.289
Take prohibition
Definition of take, 11.294
Enforcement of, 11.296
Incidental take permits, issuance of, 11.295

California Environmental Quality Act (CEQA)
Acquisition of property by public agency, compliance with CEQA as precondition, 8.6, 8.32
Administrative records
Contents required, 11.69
Procedure for preparation of, 11.68
Statement of issues required, 11.70
Agencies
Lead agency, identification of, 11.15
Roles of each type of agency, 11.16
Timing issues for compliance by, 11.17
Types of agencies involved, 11.14
Airports, review of regulatory actions involving, 6.155
Air quality permits, issues with, 11.230
Approval of project (see Project approval, below)
California Coastal Act, limited application to, 10.288
Certification of environmental impact reports
Evidentiary support for project approval findings, 11.52
Findings required for project approval, 11.49-11.51
Process for, 11.43
Challenges to CEQA
Exhaustion of administrative remedies required, 11.41, 11.62
Mandamus proceedings, types of, 11.73, 11.75
Procedural requirements (see Procedural requirements for challenging CEQA decision, below)
Remedies, 11.76
Standard of review for, 11.73-11.75
Standing requirement (see Standing to challenge CEQA, below)
Statutes of limitations (see Statutes of limitations, below)
Definitions
Approval of project, 11.18
Discretionary projects, 11.20
Lead agency, 11.14
Ministerial projects, 11.20
Mitigated negative declaration, 11.30
Project, 11.19
Responsible agency, 11.14
Significant effect on environment, 11.29
Trustee agency, 11.14
Environmental impact reports (EIRs)
Generally, 11.35
Addenda to EIR, 11.46
Adequacy of analysis and evidence in, 11.39
Appeal of final reports, 11.43
Baseline conditions required in report, 11.37
Certification of report (see Certification of environmental impact reports, above)
Climate change considerations, inclusion in, 11.38
Contents of and analysis in, 11.38, 11.82
Drafting motion for protective order, 11.41
Draft report, public review of, 11.40, 11.42
Final report, certification of, 11.43
Lead agency responsible for, 11.16

Master EIRs, 11.44
Notice of preparation, 11.36
Program environmental impact reports, 11.44
Response to comments, writing required, 11.41
Statute of limitations for challenging project approval, EIR certification not triggering, 11.43, 11.60
Subsequent EIRs, 11.45
Tiering, 11.44
Time limits for, 11.57
Water supplies, consideration of. See **Water Supplies**
Exemptions from Act
Affordable housing exemption under, 10.162
Attached housing developments, exemptions for, 10.197
Categorical exemptions, application of, 11.22
Common sense exemptions, 11.23
Procedures for exemptions, 11.24
Statute of limitations for challenges, 11.61
Statutory exemptions, 11.21, 11.93
Findings required for project approval
Generally, 11.47
Certification of environmental impact reports, findings and evidentiary support required after, 11.49-11.52
Negative declarations adoption, required findings after (see Negative declarations, below)
Guidelines for CEQA
Importance of, 11.12
Local guidelines, adoption required, 11.13
Initial studies
Environmental checklist forms for, 11.26-11.27
Fair argument standard of review, 11.29
Purpose and contents of, 11.25
Significance determinations of issues raised by public, 11.27
Significant environmental effects of project, determination of, 11.29
Time for completion of, 11.28, 11.55
Initiatives, applicability of CEQA to, 3.121
Issuance and approval of lease by city as project under CEQA, 8.115
LAFCO determinations deemed projects within meaning of CEQA, 1.122
Land use decisions
Challenges to land use decision, CEQA as basis for, 10.445
Due process requirements for land use decisions, 10.412
Procedural due process for land use decisions. See **Due Process**
Legislative intent of Act, 11.11
National Environmental Policy Act (NEPA)
Coordination with federal government if NEPA applies, 11.78
Persuasive authority for CEQA proceedings, 11.77
Negative declarations
Addenda to negative declarations, 11.46
Adoption, findings required for, 11.34
Challenges to negative declaration, statute of limitations for, 11.60
Completion and adoption, time limits for, 11.56
Contents required, 11.32
Duty to investigate potential impacts, 11.31
Mitigated negative declarations, 11.30
Notices of determination required after project approval with negative declaration, 11.54
Preparation of, 11.30
Project approval, findings required after adoption of negative declaration, 11.48
Public review, notice requirements, 11.33
Subsequent negative declarations, 11.45
Notice
Environmental impact reports, notice of preparation, 11.36
Negative declarations (see Negative declarations, above)
Procedural requirements for challenging CEQA decision
Generally, 11.66
Administrative record requirements (see Administrative records, above)
Briefing and hearing on issues, 11.72
Service of petition, requirements, 11.67
Settlement negotiation participation, 11.71
Project approval

Generally, 11.18
Certification of environmental impact reports distinguished, 11.43
Feasible alternatives substantially lessoning environmental effects, effect of, 11.50
Findings required (see Findings required for project approval, above)
Mitigation measures, 11.50-11.51
Mitigation monitoring programs, 11.53
Notices of determination required after negative declaration, 11.54
Standard of review for, 11.50-11.51
Records (see Administrative records, above)
Redevelopment plans
Adoption subject to Act, 5.316, 5.338
Compliance with Act, requirement of, 5.364
Exclusive negotiation agreement terms and CEQA compliance, 5.361
References for additional information about, 11.79
Remedies for violations of, 11.76
Rent control regulations, compliance with, 9.49
Scope of Act
Discretionary projects, application of act, 11.20
Exemptions (see Exemptions from Act, above)
Ministerial projects, application of Act, 11.20
Project, definition of, 11.19
Standing to bring action under
Generally, 11.63
Beneficial interest showing requirements, 11.64
Zone of interest requirement, 11.65
Statutes of limitations
Generally, 11.59
Challenging agency decision, 11.24, 11.43, 11.60-11.61
Environmental impact reports issues, 11.43, 11.60
Exemption determination challenges, 11.61
Timing considerations
Administrative records, time for preparation, 11.68
Briefing and hearing request on challenges, 11.72
Completion of process, 11.17
Draft environmental impact reports, public review period for, 11.40
Environmental impact reports for private projects, time limits for, 11.57
Initial studies, completion of, 11.28, 11.55
Negative declarations (see Negative declarations, above)
Permit Streamlining Act (PSA) time limits, CEQA's interaction with, 10.13, 11.58
Response to comments, writing required, 11.41
Service of mandate petition, 11.67
Statement of issues, time for filing, 11.70

California Integrated Waste Management Act of 1989. See **Solid Waste and Recycling**

California Public Records Act. See **Public Records Act (California)**

California Public Utilities Commission (CPUC)
Generally, 1.98
Cable television equipment, CPUC's authority to regulate, 6.63
Cellular siting, authority over, 1.100
Electric utilities, jurisdiction over
California Energy Commission (CEC) jurisdiction, 6.38
EMF. See **Electromagnetic Fields (EMF)**
Extraterritorial retail service and potential challenges, 6.39
FERC's jurisdiction under Federal Power Act preempting CPUC from regulating interstate transmission or sales, 6.25
Investor-owned facilities, acquisition of, 6.40-6.41
Rates, 6.35
Rate-setting, 6.42-6.43
Siting of transmission facilities, 6.37
Uniform system of safety regulation, 6.36
Overriding authority, 1.99
Video service providers, CPUC as franchising authority. See **Cable Television and Video Systems Franchises**

Campaign Regulations

Constitutional issues involving contribution limits
Generally, 3.176
Committees making independent expenditures, limits on contributions to, 3.181
Distinction between expenditure limits and restrictions on contributions, 3.182
Dollar amount of contribution limits, 3.180
Organizational contribution limits (see Organizational contribution limits, below)
Constitutional issues involving expenditure limits
Generally, 3.182
Distinction between expenditure limits and restrictions on contributions, 3.182
First Amendment issues (see Constitutional issues involving contribution limits, above)
Independent expenditure limits, meaningful government interest required for, 3.183
Organization expenditure limits, 3.184
Personal funds of candidate, expenditure limits conditioned on acceptance of public funds, 3.182, 3.185
Contributions
City council member receiving campaign contributions from applicant seeking quasi-judicial land use decision, no automatic disqualification on grounds of bias, 2.180
Limits on contributions (see Limits on contributions, below)
Organizational contribution limits (see Organizational contribution limits, below)
Political Reform Act. See **Political Reform Act of 1974**
Corporations (see Organizational contribution limits, below)
Distinguishing between lobbying and campaigning, 3.219
Expenditure limits (see Constitutional issues involving expenditure limits, above)
Land use permit application, effect of city council member receiving campaign contribution from developer, 10.416
Limits on campaign contributions
Commissioners and other appointed officials involved in discretionary proceeds, limits on contributions to, 3.203
Constitutional issues (see Constitutional issues involving contribution limits, above)
Local regulations
Generally, 3.208
Authority of city to enact contribution and disclosure laws, 3.209
Public funds for candidates in municipal elections, 3.210
Organizational contribution limits
Generally, 3.177
Ballot measure contribution bans, 3.178
Candidates, ban on corporate contributions to, 3.179
Organization expenditure limits, 3.184
Political Reform Act. See **Political Reform Act of 1974**
Public funds
Candidates in municipal elections, public funds for, 3.210
Personal funds of candidate, expenditure limits conditioned on acceptance of public funds, 3.182, 3.185
Unions (see Organizational contribution limits, above)

Camping
Parks, camping in
Generally, 9.61
Equal protection, 9.62
Vagueness in definition of camping, 9.63
Transient occupancy taxes and campgrounds, 5.53

Candidates. See **Elections**

Casinos. See **Gambling; Indian Casinos**

Cease and Desist Orders
California Coastal Act, cease and desist orders under. See **California Coastal Act**
Water quality, cease and desist orders and injunctions to enforce, 11.157, 11.159

Cellular Facilities
California Public Utilities Commission (CPUC) authority over cellular siting, 1.100

CEQA. See **California Environmental Quality Act (CEQA)**

CERCLA. See **Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERLA)**

Ceremonial Meetings
Open meeting laws, exception for ceremonial meetings, 2.45

Certificates and Certification
Bus drivers, certification of, 6.128
California Coastal Act. See **California Coastal Act**
Certificates of participation. See **Debt Financing**
Dangerous condition of public property, requirement of certificate of review before filing action, 13.106
Deeds conveying interest in real property, certificate of acceptance by city council required before recording, 8.76
Election, certification of, 3.26
Environmental impact report, certification of. See **California Environmental Quality Act (CEQA)**
General plans, review and certification of, 10.49
Insurance, certificates of, 7.284
Prevailing wage law, contractor or subcontractor certifying accuracy of payroll records under, 7.54, 7.93
Public convenience and necessity, certificate of (CPCN), 6.37

CESA. See **California Endangered Species Act (CESA)**

Charges
See also **Fees**; **Rates**
Generally, 5.158
Amount of charge, 5.172
Authority for, 5.159, 5.172
Property-related fees and charges. See **Proposition 218**

Charitable Contributions
Gifts to city, charitable deduction for, 8.68
Political Reform Act of 1974, disclosure requirements affecting charitable fund raising, 2.159

Charter Cities
See also **General Law Cities**
Generally, 1.11, 1.13
Amendment of charter, 1.13
Corporate power
Generally, 1.28
Constitutional basis of municipal affairs doctrine, 1.29
Definition of municipal affairs, 1.30
Preemption, relationship to, 1.31
Counties
Distinguishing charter counties and charter cities, 1.7
Tax assessment and equalization functions, charter cities contracting with county for, 7.181
Elections, charter cities establishing own rules for, 3.1
Finances of. See **Finances**
Franchise fees not affected by statutory restrictions, 5.190
Goods and services, contracting for. See **Goods and Services, Contracting for**
Home rule provision, applicability of, 1.13
Investments permitted by charter cities, 5.266
Parklands, control of, 8.95
Prevailing wage law, applicability of, 7.84, 7.173
Proposition 62, inapplicability to charter cities, 5.105
Proposition 73's prohibition on expending or accepting public monies to seek elective office, inapplicability to charter cities, 3.210
Public funds, charter city exception to prohibition against gifts of, 1.44, 5.13
Public works
Bidding, 7.171-7.172
Charter provisions, 7.172
Prevailing wages, payment of, 7.84, 7.173
Public Contract Code, effect of, 7.170
Qualifications of city council members, 1.185
Retroactive compensation limitation application to charter cities, 5.280
Statutory schemes for initiatives and referenda, inapplicability to charter cities, 3.102
Taxation
Authority of charter city for, 5.6
Contracting with county for tax assessment and equalization functions, 7.181
Term limit measures in, 3.36
Zoning ordinances and consistency with general plan, 10.88-10.89

Charts, Checklists, Questionnaires, and Tables
Calculation of overtime pay for police and firefighters, table showing maximum hours standards, 4.75

Environmental checklist forms for initial studies, 11.26-11.27
Tort liability. See **Liability**

Childbirth. See **Pregnancy and Childbirth**

Child Care Facilities
Affordable housing, child care facilities in, 10.177

Children
See also **Minors; Parent and Child**
Affordable housing, child care facilities in, 10.177
Fair Labor Standards Act (FLSA), child labor provisions of. See **Fair Labor Standards Act (FLSA)**
Screening job applicants seeking position working with children, 4.25

Choice of Law
Contractual provision governing choice of law, 7.239

City Attorney
Ballot measures, city attorney providing impartial analysis of. See **Ballot Measures, City's Participation in**
City council meetings. See **City Council Meetings**
Conflict of interest disclosure statements. See **Political Reform Act of 1974**
Destruction of records, city attorney approving, 2.268
E-mail, city attorney drafting policy governing use of, 2.229
Ethical obligations. See **Government Lawyers, Ethical Obligations for**
Hazardous materials, city attorney's analysis of indemnification agreement, 7.314
Indemnification, city attorney's right to, 2.210
Initiatives. See **Initiatives and Referenda**
Pending litigation closed session, city attorney writing memorandum justifying, 2.92
Powers and duties, 1.256

City Clerk
Election official, city clerk as, 3.2
Notice of intent to recall, filing with city clerk, 3.153
Petition protesting adoption of ordinance, time limit for submitting after adopted referendum attested by city clerk, 3.97
Powers and duties, 1.257
Publication of ordinance, 1.239
Recall petition. See **Recall**
Referendum, filing petition with city clerk, 3.97
Speaker's card for city council meeting, submitting to city clerk, 2.18

City Council
At-large or district elections, 1.186
Benefits, 1.219
Campaign contributions received from applicant seeking quasi-judicial land use decision, no automatic disqualification on grounds of bias, 2.180
City manager form of government. See **City Manager**
City treasurer, appointment of. See **City Treasurer**
Commissions and boards appointed by city council. See **Commissions and Boards**
Compensation
Generally, 1.211
Attendance beyond certain meetings, compensation for, 1.214
Ethics training, 1.210
Gifts of public funds, 1.209
Other commissions, committees, boards, or authorities, compensation for service on, 1.213
Salary adjustments, 1.212
Strict construction of rules governing, 1.208-1.210
Conduct of council members
Censure, 1.226
Enforcement of decorum, 1.225
Public decorum, 1.224
Rights and roles of council members, 1.223
Council/administrator form of government, 1.181
Criminal conviction, effect of, 1.196
De facto officers, 1.201
Ethics training, 1.210

Expenses
Generally, 1.215
Flat expense allowances, permissibility of, 1.218
Meals for third parties, no reimbursement for, 1.216
Spouses of council members, no reimbursement of expenses of, 1.217
Filling vacancies
Generally, 1.197
Limits on appointment power, 1.198
Result of appointment, 1.199
Fire chief, appointment of, 1.260
Free transportation, acceptance of, 1.194
Gifts of public funds, 1.209
Immunity from Section 1983 actions, 13.125
Incompatible offices, effect of common law doctrine of, 1.193
Investment authority of council, 5.269
Legislative authority, exercise of
Generally, 1.227
Minute order or motion, 1.248
Ordinances. See **Initiatives and Referenda**
Resolutions (see Resolutions, below)
Mayor, selection of. See **Mayors**
Meetings. See **City Council Meetings**
Non-residence of city council member, effect of, 1.191
Oath of office, 1.187
Qualification of members
Generally, 1.183
Charter cities, 1.185
General law cities, 1.184
Recall. See **Recall**
Reimbursement of expenses (see Expenses, above)
Resolutions
Adopting resolutions, procedure for, 1.246
Effective date, 1.247
Necessity, resolution of. See **Eminent Domain**
Ordinances distinguished, 1.228, 1.243
Ordinances, resolutions as, 1.244
Permissible subjects, 1.245
Vacation of easement, 8.131, 8.149
Right to hold office, challenges to, 1.200
Right to hold office, limitations on
Generally, 1.220
Analyzing limitations, 1.221
Term limitations, 1.222
Section 1983 actions, causation as defense for employee involved in permit application denied by city council, 13.142
Spouses
Effect of spouse serving on city council and appointed commission, 2.179
Reimbursement of spouse's expenses prohibited, 1.217
Subsidiary districts. See **Subsidiary Districts**
Termination of office (see Vacancies and termination of office, below)
Terms of office, 1.146
Vacancies and termination of office
Generally, 1.188
Abandonment, 1.192
Accepting free transportation, 1.194
Criminal conviction, 1.196
Definition of vacancy, 1.189
Filling vacancies (see Filling vacancies, above)
Incompatible offices and activities, 1.193
Non-residence, 1.191
Recall. See **Recall**
Resignation, 1.190

City Council Meetings
City attorney
Balancing council's right to keep order and individuals' rights to petition government, city attorney advising council on, 2.15

Parliamentarian for city council, city attorney acting as, 2.14
Role of, 2.3
Constitutional considerations
Due process (see Due process requirements, below)
Regulating public speech (see Regulating public speech, procedures for, below)
Decorum (see Procedure and decorum, rules of, below)
Due process requirements
Generally, 2.31
Legislative actions, presumption affecting validity of, 2.32
Public hearings, requirement of, 2.34
Quasi-judicial actions, 2.33
Mayor as presiding officer
Generally, 2.7
Duties of presiding officer, 2.9
Powers of presiding officer, 2.8
Special meeting, mayor's authority to call, 2.48
Time limit for speakers, mayor's enforcement of, 2.19
Minutes of, 2.6
Parliamentary rules of procedure
Failure to follow rules, effect of, 2.13
Judicial review of parliamentary procedures, 2.14
Object of rules, 2.12
Presiding officer referring to, 2.8
Purpose and function of, 2.10
Source of rules, 2.11
Place of meeting, Brown Act requiring legislative body provide, 2.35
Presiding officer (see Mayor as presiding officer, above)
Procedure and decorum, rules of
Authority of city council to promulgate rules of procedure and decorum, 2.4
City attorney, role of, 2.3
Enforcement of rules of decorum, 2.15
Regulating public speech (see Regulating public speech, procedures for, below)
Sergeant at arms, city council's designation of, 2.15
Public conduct, rules regulating
Generally, 2.26
Disorderly conduct, exclusion or expulsion of persons from meeting for, 2.27
Journalists, rules affecting, 2.28
Punishment for disorderly behavior, 2.30
Readmission of individuals, city council establishing procedure for, 2.29
Public hearings. See **Hearings**
Quorum and voting requirements, 2.2
Regular meetings, procedures for
Brown Act, minimum procedural requirements under, 2.5
Order of business, 2.6
Regulating public speech, procedures for
Content-oriented regulations, 2.23-2.25
Criticism of policies, procedures, programs, or services of agency, no limitations on, 2.23
Disruptive speech, limits on, 2.24
Intra-council speech, no limits on, 2.25
Out of order, city council declaring speaker as, 2.22
Permissible forms of regulation, 2.17-2.22
Public's right to address city council, 2.16
Reasonable time, place, and manner regulations, 2.17
Repetitious or irrelevant comments, limits on, 2.20
Speaker's card, submitting to city clerk, 2.18
Spokesperson for group, city council requesting selection of, 2.21
Total amount of time on particular issue, city council regulating, 2.19
Time
Brown Act requiring legislative body provide time and place of regular meeting, 2.35
Mayor's enforcement of time limits for speakers, 2.19
Restrictions on time (see Regulating public speech, procedures for, above)

City Manager
Generally, 1.180
Investment authority of manager, 5.270-5.271

Powers and duties, 1.255

City Treasurer
Investment authority of treasurer, 5.270
Powers and duties, 1.258
Reporting on investments to legislative body, 5.272

Civil Enforcement
See also **Administrative Enforcement; Criminal Enforcement**
Civil penalties and cost recovery
Generally, 12.19
Local civil penalties ordinances, 12.25
Nuisance abatement actions, cost recovery in, 12.22-12.24
State Housing Law, 12.7, 12.20
Unfair Competition Act, 12.12, 12.21
Contempt (see Remedies, below)
Drug House Abatement Act. See **Drug House Abatement Act**
Nuisance, abatement of. See **Nuisance, Abatement of**
Penalties (see Civil penalties and cost recovery, above)
Remedies
Civil contempt, 12.17
Civil penalties and cost recovery (see Civil penalties and cost recovery, above)
Criminal contempt, 12.18
Injunctive relief, 12.2, 12.4, 12.16
Punitive damages, 12.26
Receiver, appointment of, 1.29, 12.27
Red Light Abatement Act, enforcement and remedies, 9.15, 12.13-12.16
Treble damages for repeat violations, 12.26
Unfair Competition Act, remedies under, 12.12
State Housing Law. See **State Housing Law**
Unfair Competition Act
Civil penalties and cost recovery under, 12.12, 12.21
Code violations as unfair competition, 12.10
Procedural requirements under Act, 12.11
Remedies under Act, 12.12, 12.21

Civil Rights (Generally)
Attorney fees. See **Attorneys' Fees**
Defamation action, requirement that claim include denial of right expressly protected in constitution, 13.112
Immunity
Civil Rights Act of 1871, municipalities' lack of immunity for actions taken under official policy, practice, or custom, 4.158
Civil Rights Act of 1991, applicability of absolute and qualified immunity to actions brought under, 4.153
Section 1983 actions. See **Section 1983 Actions**
Land use decisions, challenges based on, 10.444
Statutes of limitations
Civil Rights Act of 1871, statute of limitations for bringing action under, 4.159
Civil Rights Act of 1991, statute of limitations for bringing action under, 4.154
Section 1983 actions, 13.152

Civil Rights Act of 1871
Section 1983
Generally, 4.156
Official policy, practice, or custom, municipalities' lack of immunity for actions taken under, 4.158
Persons eligible to sue under, 4.157
Qualified immunity of public officials, 4.158
Remedies, 4.160
Statute of limitations for bringing action under, 4.159
Section 1983. See **Section 1983 Actions**
Section 1985, protections under, 4.161
Section 1988 for civil rights actions. See **Attorneys' Fees**
State remedies, no requirement of pursuing before filing action under Civil Rights Act of 1871, 4.159

Civil Rights Act of 1964. See **Title VII of Civil Rights Act of 1964**

Civil Rights Act of 1991

Generally, 4.150
Absolute and qualified immunities, applicability to actions brought under Act, 4.153
Compensatory and punitive damages, limits on recovery of, 4.154-4.155, 4.261
Distinctions between Civil Rights Act of 1991 and Title VII of Civil Rights Act of 1964, 4.154
Persons eligible to file discrimination claim under, 4.151
Remedies under, 4.154-4.155
Scope of Act, 4.152
Statute of limitations for action under, 4.154

Class Actions
Fair Labor Standards Act (FLSA), no class action under CCP §382 for violation of, 4.88
Government Claims Act, claims subject to, 13.29, 13.54
Tax refunds, issue unresolved, 5.93

Clean Air Act. See **Air Quality**

Clean Water Act
Army Corps of Engineers, authority under, 10.354
Water quality issues. See **Water Quality**

Clerk. See **City Clerk**

Closed Session Meetings
See also **Open Meeting Laws**
Generally, 2.82
Action and vote disclosure in open session after closed session
Contents of closed-session disclosure report (see Contents of closed-session disclosure report, below)
Governing statutes, 2.100
Public employees, disclosure report on actions affecting employment status of, 2.107
Agenda
Public's right to comment on closed session agenda before legislative body goes into closed session, 2.80
Regular meetings, appearance of closed sessions on agenda for, 2.73, 2.83
Appointment, employment, performance evaluation, discipline, or dismissal of public employee, closed session to consider
Generally, 2.95
Covered employees, 2.96
Public hearing of charges, notifying employee of right to, 2.98
Specific complaints or charges against employee, notifying employee before closed session of, 2.88
Specific individuals, requirement that closed session discuss, 2.97
Attendance at closed session, limits on, 2.84
Attorney-client communications, disclosure of, 2.109
Civil action for Brown Act violations
Generally, 2.113
Costs and attorney fees, award of, 2.116
Injunctions (see Injunctions, below)
Judicial determination that action taken in closed session null and void, 2.114
Remedies available, 2.113
Written demand that legislative body cure violation, 2.115
Confidentiality
Injunction against disclosure of confidential information acquired at closed session, 2.117
Minute book confidentiality, 2.110
Contents of closed-session disclosure report
Generally, 2.101
Initiation of or intervention in litigation, approval of, 2.104
Joint powers agency claims, disclosure report on disposition of, 2.106
Labor negotiations, disclosure report on approval of agreements concluding, 2.108
Litigation defense, appellate review, or amicus curia participation, disclosure report on approval of, 2.103
Real estate negotiations, disclosure report on approval of agreements concluding, 2.102
Settlement of pending litigation, disclosure report on approval of, 2.105
Criminal law. See **Criminal Law**
Defined, 2.82
Disciplinary actions (see Appointment, employment, performance evaluation, discipline, or dismissal of public employee, closed session to consider, above)
Dismissal of employee (see Appointment, employment, performance evaluation, discipline, or dismissal of public employee, closed session to consider, above)
Disqualified public official's required absence from closed session, 2.141

Emergency situation, legislative body meeting in closed session regarding, 2.69
Evaluation of employee (see Appointment, employment, performance evaluation, discipline, or dismissal of public employee, closed session to consider, above)
Injunctions
Confidential information acquired at closed session, injunction against disclosure of, 2.117
Future violations of Brown Act, injunction to prevent, 2.113
Judicial determination that action taken in violation of Brown Act null and void, 2.114
Labor negotiations
Announcement in open session of, 2.89
Disclosure report on approval of agreements concluding, 2.108
Litigation (see Pending litigation, below)
Negotiations
Instructing negotiators (see Reasons for permissible closed sessions, below)
Labor negotiations (see Labor negotiations, above)
Subject matter of closed session (see Subject matter of closed session, announcement in open session of, below)
Notice (see Appointment, employment, performance evaluation, discipline, or dismissal of public employee, closed session to consider, above)
Pending litigation
Actions and proceedings constituting, 2.93
Agency's attorney, closed session for purposes of discussing pending litigation with, 2.92
Announcement in open session of, 2.87
Disclosure report (see Contents of closed-session disclosure report, above)
Facts and circumstances justifying significant exposure to litigation, 2.94
Performance of employee (see Appointment, employment, performance evaluation, discipline, or dismissal of public employee, closed session to consider, above)
Public employees
Disclosure report on action affecting employment status of, 2.107
Reasons for closed sessions (see Reasons for permissible closed sessions, below)
Real property
Announcement of real estate negotiations before conducting closed session, 2.86
Disclosure report on approval of agreements concluding real estate negotiations, 2.102
Instructing negotiators of real property transactions as permissible reason for closed session, 2.90
Reasons for permissible closed sessions
Appointment or employment of public employee (see Appointment, employment, performance evaluation, discipline, or dismissal of public employee, closed session to consider, above)
License applications and public security topics, 2.99
Pending litigation (see Pending litigation, above)
Real property transactions, instructing negotiators of, 2.90
Represented and unrepresented employees, instructing negotiators meeting with, 2.91
Reports (see Contents of closed-session disclosure report, above)
Subject matter of closed session, announcement in open session of
Generally, 2.85
Labor negotiations, announcement of, 2.89
Pending litigation, announcement of, 2.87
Real estate negotiations, announcement of, 2.86
Specific complaints or charges against employee, notice to employee before closed session on, 2.88
Violations of Brown Act in closed sessions
Generally, 2.111
Civil action for Brown Act violation (see Civil action for Brown Act violations, above)
Confidential information acquired at closed session, prohibition on disclosure of, 2.117
Misdemeanor, member's attendance at legislative body meeting with intent to deprive public of information constituting, 2.112
Remedies for violation, 2.113
Vote disclosure (see Action and vote disclosure in open session after closed session, above)

Coastal Areas
See also **Tidelands, Beaches, and Streams**
Affordable housing, special requirements for, 10.198, 10.308
California Coastal Act. See **California Coastal Act**
Development projects, public access to coastline in, 10.343
Land use general plans, consideration in, 10.53
Public access to coast, exactions for, 10.307
Tidelands, beaches, and streams. See **Tidelands, Beaches, and Streams**
Urgency zoning ordinances in coastal zones, 10.93

Coastal Commission (California)

Generally, 1.101
LAFCO conditionally approving change of organization or reorganization subject to certification by California Coastal Commission, 1.116

Code Enforcement
Generally, 12.1
Administrative enforcement. See **Administrative Enforcement**
Civil enforcement. See **Civil Enforcement**
Criminal enforcement. See **Criminal Enforcement**

COG. See **Council of Governments (COG)**

Collateral Estoppel
Section 1983 actions, collateral estoppel issues in, 13.128

Dance Halls

Business and occupational regulation of, 9.28

Dangerous Condition of Public Property. See **Liability**

Davis-Bacon Act
Federally funded projects
Contract provisions requiring compliance with Act, 7.157
Definitions used in Act, 7.165
Prevailing wages, payment of, 7.166

Death Benefits
Dependents of employee dead from work-related injury or illness, entitlement to receive death benefits, 4.373

Debt Financing
Generally, 5.219
Bonds (see Disclosure obligations of cities, below)
Certificates of participation
Generally, 5.230
Installment sales transactions, 5.232
Lease-back agreements as part of (see Lease-back agreements, below)
Lease transactions, 5.231
Mark-Roos Public Financing Authority Bonds. See **Bonds**
References for additional information about, 5.233
Disclosure obligations of cities
Generally, 5.242
Consent calendar, inapplicability to bond issues over $100,000, 5.245
Continuing disclosure, 5.244
Counsel, retaining to meet obligations, 5.244
Original disclosure, 5.243
Economic development, using debt financing for, 5.298
Lease-back agreements
Generally, 5.234
Debt limit issues, 5.235-5.236
Equipment leases, 5.236
Mark-Roos Public Financing Authority Bonds. See **Marks-Roos Local Bond Pooling Act of 1985**
Requirements for transactions, 5.235
Taxable status of debt financing, 5.241

Debt Limit
Generally, 1.46, 5.12, 5.289
Acquisition of property, effect of debt limitation on, 8.75
Bonds, debt limit issues with, 5.224, 5.292, 5.295
Budgets as useful to plan expenditures, 5.264
Election issues for voting on indebtedness, 5.296
Exceptions to debt limit
Appropriation, 1.50
Contingencies, 1.49
Excluded entities, 5.294
Leases, 5.293
Obligations imposed by law, 5.291
Service contracts, 5.293
Special fund doctrine, 1.47, 5.292
Lease-back agreements, structuring to avoid debt limit issues, 5.235-5.236
No pledge of revenue beyond 1 year, 1.48
Purpose of, 5.290
Revenue bonds, exception to debt limit, 5.224
Statutory provisions for general obligations, 5.295

Declarations. See **Affidavits and Declarations**

Declaratory Relief
Government Claims Act, actions not subject to, 13.32
Initiative petition, city council filing declaratory relief action to remove from ballot, 3.86
Public Records Act, declaratory relief for improper withholding of records under, 2.258
Scope of employment, declaratory relief for employer funded defense, 13.88

Dedication
Acquisition of real property by offer of dedication
Generally, 8.65
Restrictions, 8.67
Tax consequences, 8.68
Terms, 8.66
Constitutional requirements, 10.219
Easements by implied dedication
Generally, 8.71
Consent, implied dedication with, 8.74
Gion, applicability of, 8.73
Statutory constraint, 8.72
Exactions. See **Exactions**
Parkland. See **Parkland**
Subdivision maps. See **Subdivisions and Subdivision Map Act**

Deeds
Certificate of acceptance by city council required before recording deeds conveying interest in real property, 8.76

Defamation
Definition of publication, 13.110
Liability for
Civil rights actions, claim including denial of right expressly protected in constitution, 13.112
Discharge of official duty, immunity for statements made during, 13.111
Legislative or other official proceedings, 13.110
Sexual harassment, false claim resulting in defamation action, 4.209

Defenses
Affirmative defenses
Dangerous condition of public property, affirmative defenses to action for, 13.106
Discrimination allegations, affirmative defenses to. See **Discrimination**
Mandamus, waiver issues with, 13.13
Sexual harassment by supervisor, employer's affirmative defenses against vicarious liability for, 4.198
Disability discrimination claims. See **Disabled Persons**
Electromagnetic fields, defenses to claims based on, 6.47
Fair Labor Standards Act (FLSA), employer's defenses under, 4.92
Immunity. See **Immunity**
Prohibited contracts under Govt C §1090, reliance on legal advice from city attorney as inadequate defense, 2.171
Section 1983 actions. See **Section 1983 Actions**
Sexual harassment. See **Sexual Harassment**
Work-related injuries, defenses to. See **Workers' Compensation**

State procedures for enforcing discrimination laws
Civil lawsuit, time limit for filing, 4.257
Department of Fair Employment and Housing. See **Fair Employment and Housing, Department of (DFEH)**
Exhaustion of administrative remedies not prerequisite to filing FEHA claim, 4.258
Title VII and ADA
Civil lawsuit to enforce discrimination laws, 4.248
Determination by EEOC (see Determination by EEOC, above)
Filing charge with EEOC (see Filing charge with EEOC, above)
Investigation of charge, 4.245
Notice (see Notice, above)

Disincorporation. See **Dissolution and Disincorporation**

Dismissal of Actions
Bankruptcy case, creditors seeking dismissal of, 5.447
EEOC's no cause determination, dismissal of charge after, 4.247

Dismissal of Employee. See **Termination of Employment**

Disorderly conduct
Generally, 9.74
Definition of lewd or dissolute conduct, 9.75
Public intoxication, 9.77
Public lewdness, 9.75-9.76

Disparate Impact or Disparate Treatment Discrimination
Generally, 4.177-4.179
Age Discrimination in Employment Act (ADEA), plaintiff alleging either disparate treatment or disparate impact under, 4.144
Business necessity affirmative defense in disparate impact case, 4.182
Employment tests resulting in, 4.15

Disposition of Property
Government grant funds, property purchased with
Generally, 8.104
California Park and Recreational Facilities Act of 1984, effect of, 8.106
Federal community development block grant (CDBG) funds, 8.105

Optional procedure for disposition of real property
Findings that public interests and convenience require sale, 8.81
Protests to sale, overriding, 8.84
Publication of resolution, 8.83
Resolution of intent to dispose of property, content of, 8.82
Parkland. See **Parkland**
Personal property
Generally, 8.102
Restrictions applicable to disposal of (see Restrictions applicable to disposal of real and personal property, below)
Real property
Generally, 8.80
Optional procedure (see Optional procedure for disposition of real property, above)
Parkland. See **Parkland**
Restrictions applicable to disposal of (see Restrictions applicable to disposal of real and personal property, below)
Surplus property. See **Surplus Property**
Redevelopment. See **Redevelopment**
Restrictions applicable to disposal of real and personal property
Adverse possession, 8.69, 8.114
Conflicts of interest, 8.113
Donations of land. See **Donations of Land**
Government grant funds (see Government grant funds, property purchased with, above)
Redevelopment. See **Redevelopment**
Streets and highways owned in fee, 8.103
Surplus property. See **Surplus Property**

Disqualification of Attorney
Public lawyer with multiple clients having adverse interests, disqualification of, 2.192

Disqualification of Public Officials
City council member receiving campaign contributions from applicant seeking quasi-judicial land use decision, no automatic disqualification on grounds of bias, 2.180
Political Reform Act. See **Political Reform Act of 1974**

Dissolution and Disincorporation
See also **Incorporation**
Defined, 1.168
Effects of dissolution and disincorporation
Generally, 1.178
Payment of debts, 1.175
Powers cease, 1.174
Return of public property, 1.177
Revenues to successor, 1.176

District Elections. See **Elections**

Documentary Transfer Taxes, 5.67, 5.98

Dogs and Domestic Animals. See **Animals**

Domicile. See **Residence and Domicile**

Donations of Land
Discriminatory deed restrictions, invalidity of, 8.121
Permissible donations under state law, 8.112
Public purpose, donations for, 8.111

Drug House Abatement Act
Generally, 9.78
Injunctive relief under, 12.13-12.17

Drug Testing
See also **Alcohol and Drugs**
Generally, 4.93
Accident, testing following
Generally, 4.109

Examples of cases not upholding testing after accident, 4.111
Examples of cases upholding testing after accident, 4.110
Americans with Disabilities Act (ADA)
Exclusion of drug use from ADA's definition of disability, 4.118
Permissibility of drug testing under, 4.238
Constitutional issues
California Constitution, effect of right to privacy under, 4.99
Government interests justifying mandatory testing, 4.95
Miscellaneous balancing factors, 4.98
New job applicants, constitutionality of drug tests for, 4.19, 4.93
Nexus between individual's job duties and nature of feared violation, requirement of, 4.96
Particular types of drug testing (see Particular types of drug testing, constitutionality of, below)
Reduced expectation of privacy on part of employee, effect of, 4.97, 4.100
Routine physical examination including drug test, constitutionality of, 4.102
Current employees, drug testing of, 4.93, 4.112
Federal laws on drug testing
Americans with Disabilities Act (ADA), exclusion of drug use from definition of disability, 4.118
Drug Free Workplace Act of 1988, scope of, 4.115
Omnibus Transportation Employee Testing Act of 1991, scope of, 4.116
Rehabilitation Act of 1973, challenging drug testing programs under, 4.117
Medical examination
Americans with Disabilities Act (ADA), test for illegal drug use not constituting medical examination under, 4.118
Constitutionality of routine physical examination including drug test, 4.102
New job applicants for public employment, requirements for drug testing of, 4.19, 4.93, 4.100, 4.113
Particular types of drug testing, constitutionality of
Accident (see Accident, testing following, above)
Cause, testing for, 4.103
Pre-employment testing, 4.19, 4.93, 4.100
Promotion procedure, testing as part of, 4.105
Random testing (see Random drug testing, constitutionality of, below)
Rehabilitation program, testing as part of, 4.104
Routine physical examination including drug test, 4.101
Penalties for violation of state and federal law
Drug Free Workplace Act of 1988, penalties for contractor's violation of, 4.115
State Drug Free Workplace Act of 1990, penalties for violation of, 4.119
Procedures for drug testing
Generally, 4.112
Confidentiality of medical information, 4.114
Meet and confer requirements for drug testing of current employees, 4.113
Public transit employees, drug and alcohol testing of. See **Public Transportation**
Random drug testing, constitutionality of
Generally, 4.106
Examples of jobs for which random drug testing not upheld, 4.108
Examples of jobs for which random drug testing upheld, 4.107
State laws on drug testing
Alcohol and Drug Rehabilitation Act, reasonable accommodation requirements under, 4.120
Department of Fair Employment and Housing regulations allowing job applicant right to provide independent medical opinion, 4.121
State Drug Free Workplace Act of 1990, scope of, 4.119
Taxicab drivers, 9.43

Due Process
Administrative enforcement. See **Administrative Enforcement**
Building permits, due process claim if nondiscretionary permit denied after owner's compliance with requirements, 10.428
California Environmental Quality Act (CEQA), timely preparation of environmental impact report, 11.57
City council meetings, due process requirements for. See **City Council Meetings**
Code enforcement, due process requirements for. See **Administrative Enforcement; Criminal Enforcement**
Conditional use permits. See **Conditional Use Permits**
Disability retirement claims, local agency providing necessary due process procedures, 4.39
Disaster situations, due process in, 6.181
Disciplinary actions, employee's due process rights. See **Disciplinary Actions Against Employee**
Fair and impartial participation in quasi-judicial proceedings by decision-maker, due process requiring, 2.180
Judicial review
Deferential judicial standard of review of land use regulations, 10.421
Standard of judicial review in absence of statutory standard, 10.413

Just compensation for owner of private property taken by government, due process requiring, 1.66
Land use decisions
Generally, 10.407, 10.419
Fair hearing requirements. See **Fair Hearing**
Procedural due process (see Procedural due process for land use decisions, below)
Substantive due process (see Substantive due process for land use decisions, below)
Loitering regulation, issues with, 9.102-9.103
Mandamus proceedings, substantive due process, 13.26
Personal conduct regulations, 9.81-9.83
Procedural due process for land use decisions
Generally, 10.407
Notice and hearing requirements, 10.5-10.9
Standard of judicial review in absence of statutory standard, 10.413
Statutory requirements (see Statutory due process requirements for land use decisions, below)
Quasi-judicial administrative procedure, two or more lawyers required to protect due process right of individual subject to, 2.208
Rent adjustment applications, due process for, 9.56
Section 1983 actions
Fourteenth Amendment as basis of, 13.116
State law remedies, interaction with Section 1983 claims, 13.140
Statutory due process requirements for land use decisions
Generally, 10.408
California Environmental Quality Act (CEQA) requirements, 10.412
Planning and Zoning Law requirements, 10.410
Ralph M. Brown Act requirements, 10.409
Standard of judicial review in absence of statutory standard, 10.413
Subdivision Map Act requirements, 10.411
Substantive due process for land use decisions
Generally, 1.69, 10.419-10.420
Companion claims, taking and civil rights common, 10.422
Deferential judicial standard of review of land use regulations, 10.421
Rational-basis test, 10.424-10.425
Rational-relationship test in equal protection cases, rational-basis as comparable, 10.425
Ripeness requirement. See **Taking**
Vested rights (see Vested rights issues, below)
Taxes. See **Taxes**
Vested rights issues
Generally, 10.426
Common law vested rights, 10.428
Extractive industries, special issues with, 10.429
No right to develop property or maintain zoning in place, 10.427
Statutes affecting vested rights doctrine, 10.430
Weapons and firearms confiscation procedures, 9.98
Zoning (see Vested rights issues, above)
Zoning issues involving
Conditional use permits, 10.103-10.104
Variances from zoning, 10.118

Easements
Common law and statutory easements, 8.78
Harbor-related easements, permissibility of, 6.168
Implied dedication, easements by. See **Dedication**
Prescription, easements by, 8.70
Vacation of service easements
Generally, 8.126
Nonsummary vacation procedure. See **Nonsummary Vacation of Streets, Highways, and Service Easements**
Summary vacation procedure. See **Summary Vacation of Streets, Highways, and Service Easements**

Economic Development
See also **Redevelopment**
Generally, 5.297
Definitions
Big box retailer, 5.299
Vehicle dealer, 5.299
Findings that should be made, 5.297

Prevailing wage law issues, 5.300
Statutory prohibitions against, 5.299
Types of assistance, 5.298

Education. See **Universities and Colleges**

EEOC. See **Equal Employment Opportunity Commission (EEOC)**

Eighth Amendment. See **Constitutional Law**

Election Contests
Generally, 3.124
Affidavits (see Primary elections, below)
Costs
General election contest, liability for costs of trial over, 3.135
Primary election, liability for costs of contesting, 3.140
General election, contests at
Answer, defendant filing, 3.131
Appealing trial court's decision, 3.136
Ballot measures, contests on, 3.137
Grounds for contest, 3.126
Persons eligible to contest local election, 3.125
Pretrial proceedings, 3.130
Statement of contest (see Statement of contest for general election, below)
Trial (see Trial of general election contest, below)
Judgment
Determination and judgment, 3.134
Hearing and judgment on primary election contest, 3.148
Service of judgment in recount of primary election, 3.145
Summary judgment, unavailability of, 3.134
Time limit for court to issue judgment after trial, 3.134
Primary elections
Costs, responsibility for, 3.140
Grounds for annulment or set-aside of primary election, 3.139
Grounds for contest, candidate contesting primary election by filing affidavit alleging, 3.138
Hearing and judgment on contest, 3.148
Miscellaneous grounds for contesting primary election, 3.146
Service of affidavit on defendant, 3.142, 3.147
Simple recount (see Simple recount, primary election contests involving, below)
Recount (see Simple recount, primary election contests involving, below)
Service of papers
Affidavit contesting primary election, service on defendant, 3.142, 3.147
Judgment in recount of primary election, service of, 3.145
Simple recount, primary election contests involving
Generally, 3.141
Appearance by defendant, 3.143
Judges, recount handled by, 3.144
Nonappealability of court's judgment, 3.145
Procedures for recount, 3.142
Statement of contest for general election
Amendment of, 3.129
Form requirements for statement, 3.127
Time limit for filing statement, 3.128
Time
Judgment, time limit for court to issue after trial, 3.134
Statement of contest, time limit for filing, 3.128
Trial of general election contest
Costs of trial, 3.135
Evidence and burden of proof, 3.133
Judgment (see Judgment, above)
Powers of trial court, 3.132

Elections
See also **Ballots; Voters**
Generally, 3.1

Affordable housing, elections required for certain low-income projects, 10.164
Annexation of territory, elections on, 1.157
At-large elections
Generally, 1.186, 3.29
Federal Voting Rights Act, challenges to at-large elections under, 3.68
Ballot measures. See **Ballot Measures**
Benefit assessments and assessment district ballots not constituting election, 5.149
Campaign contributions. See **Political Reform Act of 1974**
Campaign regulations. See **Campaign Regulations**
Candidates
Names of candidates on ballots. See **Ballots**
Nomination of (see Nomination of candidates, below)
Qualifications of (see Qualifications of candidates, below)
Voters' pamphlets, candidates' statements in, 3.52
Canvass of vote and declaration of results
Basic procedures on canvassing vote and declaring results, 3.21
Certification of results, 3.26
Mail, counting votes cast by, 3.23
Names written on ballot, counting of, 3.24
Oath of office, administration to elected officials, 1.187, 3.27
Precinct, counting votes at, 3.22
Provisional ballots, use and verification of, 3.25
Recordation of vote results, 3.27
Recount of votes, 3.28
Challenging elections
California Voting Rights Act. See **Voting Rights Act (California)**
Contests. See **Election Contests**
Federal Voting Rights Act. See **Voting Rights Act (Federal)**
Time limit for challenging election materials, 3.57
City clerk as election official, 3.2
Conduct of elections
Election day procedures at polling place, 3.20
Pre-election day procedures, 3.19
Contests. See **Election Contests**
Counting votes (see Canvass of vote and declaration of results, above)
County clerk, election services rendered to city by, 3.23, 3.166
Dates for elections
Municipal elections, 3.7
Regular elections, 3.4
Debt limit issues, 5.296
Declaration of results (see Canvass of vote and declaration of results, above)
Definitions
Elector, 3.34
Regular election, 3.3
Detachment of territory, elections on, 1.157
Distinction between election contest and quo warranto, 3.124
District elections
Generally, 1.186, 3.30
By district, holding election, 1.186, 3.31
Federal Voting Rights Act, challenges to district elections under. See **Voting Rights Act (Federal)**
From districts, holding election, 1.186, 3.32
Fees and charges, time for election, 5.181
Incorporation, elections to confirm, 1.143
Initiatives. See **Initiatives and Referenda**
Local Agency Formation Commission (LAFCO) initiating change of organization, confirmation election required if, 1.114
Mayor, direct election of, 1.202
Methods of election
At-large elections (see At-large elections, above)
District elections (see District elections, above)
Municipal elections
Advisory measures, city council submitting to electorate, 3.14
Consolidation of municipal elections with another governmental entity's elections, 3.8
Dates for municipal elections, 3.7
Notice of election (see Notice of municipal election, below)
Party affiliation in local government elections prohibited, 3.46

Publishing information about (see Publishing information about municipal elections, below)
Statutes governing, 3.6
Newspapers (see Publishing information about municipal elections, below)
Nomination of candidates
Circulators of nomination paper, requirements for, 3.18
Filing fees for nomination of candidate, 3.17
Nomination papers, voters signing, 3.15
Signatures needed for nomination of candidate, required number of, 3.16
Notice of municipal election
Contents of notice, 3.10
Posting notice of election in absence of newspaper of general circulation, 3.11
Publishing notice in newspaper of general circulation, 3.9
Voters' pamphlets, mailing with notice of election, 3.52
Public Records Act (California)
Exemption for election documents, 2.243
Initiative, referendum, and recall petitions, restrictions on inspection of, 2.227, 2.243
Publishing information about municipal elections
List of nominees, publication of, 3.12
List of polling places and precinct board members, publication of, 3.13
Notice of municipal election (see Notice of municipal election, above)
Synopsis of measures, publication of, 3.14
Qualifications of candidates
City council member, clerk, or treasurer, qualifications for, 3.35
Mayor, qualifications for elected, 3.34
Residency requirement, 3.33
Recall elections. See **Recall**
Recount of votes
Generally, 3.28
Election contests. See **Election Contests**
Regular elections
Dates for regular elections, 3.4
Defined, 3.3
Initiative, city council placing on ballot for next regular election, 3.91
Special elections
Generally, 3.5
Initiative, special election for, 3.90
Recall election. See **Recall**
Term limits, 1.222, 3.36
Time
Certification of results, time limit for, 3.26
Challenging election materials, time limit for, 3.57
Dates for elections (see Dates for elections, above)
Election contests. See **Election Contests**
Fees and charge, time for holding election to approve, 5.181
Initiative, timing of election for. See **Initiatives and Referenda**
Nomination papers, time limit for filing before election, 3.15
Recall elections. See **Recall**
Sample ballots, time limit for mailing, 3.58
Types of elections
Municipal elections (see Municipal elections, above)
Regular elections (see Regular elections, above)
Special elections (see Special elections, above)
Voters' pamphlets. See **Voter's Pamphlets**

Electric Utilities
See also **Utilities**
Generally, 6.24
Antitrust action by federal or state government, effect of, 6.39
Constitutional authority over electrical power, 6.17
Defined, 6.38
EMF. See **Electromagnetic Fields (EMF)**
Fees for electric service exempt from Proposition 218, 5.186
Franchises. See **Franchises**
Industry restructuring
Changes to restructuring program after 2000, 6.20

Energy crisis legislation, 6.22
Historical background, 6.18
Investor-owned utilities legislation, 6.22
Provision of electrical service under restructuring, 6.19
Recovery of California Department of Water Resources (CDWR) costs, 6.21
Intergovernmental agreements to construct and maintain electrical poles, 7.186
Investor-owned utilities
Acquisition of, 6.40-6.41
Legislation regarding, 6.22
Transmission services, ownership of, 6.23, 6.28
Jurisdiction
California Energy Commission (CEC) jurisdiction, 6.38
CPUC. See **California Public Utilities Commission (CPUC)**
FERC. See **Federal Energy Regulatory Commission (FERC)**
Rate-setting, 6.42-6.43
References on municipal retail electric utilities, 6.48
Types of ownership, 6.23

Electromagnetic Fields (EMF)
Generally, 6.44
Litigation
Generally, 6.45
Defenses to EMF claims, 6.47
Examples of personal injury litigation related to EMF, 6.46

Ellis Act, 9.58

E-Mail
Public records, e-mail as, 2.229

Emergencies
Ambulances, pre-hospital emergency medical services, 9.25
California Coastal Act, emergency exceptions to permit procedures, 10.310
California Emergency Services Act. See **California Emergency Services Act**
Competitive bidding requirement for public works contracts, emergency exception to, 7.6
Curfews for public safety during, 9.71
Disaster preparedness. See **Disaster Preparedness and Response**
Drugs and alcohol, cost recovery for responding to emergency caused by person under influence of, 5.167
Emergency shelters, 10.32, 10.161
Expenditure of funds in, 6.199
Harbors. See **Harbors**
Intergovernmental agreements for emergency assistance, 7.188
Meeting called to deal with emergency situation. See **Open Meeting Laws**
Meyers-Milias-Brown Act, emergency requiring decision on ordinance, rule, resolution, or regulation without giving prior notice, 4.334
Posted agenda, legislative body discussing and voting to take action on emergency situation not appearing on, 2.61
Shelter zone identification in general plans, 10.32
Sheriff's emergency powers, 6.199
Subletting and Subcontracting Fair Practices Act, emergency/necessity exception under, 7.80
Summary (emergency) abatement, determining necessity for, 12.68

EMF. See **Electromagnetic Fields (EMF)**

Eminent Domain
See also **Condemnation**
Acquisition offer
Generally, 8.26
Lessees, 8.29
Statement of basis for offer, 8.27
Statutory exceptions, 8.28
Acquisition of property by eminent domain, common prerequisites for
Generally, 8.2
CEQA, environmental review under, 8.6
Compliance with statutory and regulatory guidelines, 8.3
Environmental (contamination) assessment (see Environmental (contamination) assessment, below)

General plan, conformity with, 8.4
Notice of intent to appraise, 8.9
Offer (see Acquisition offer, above)
Preliminary work to ascertain property interests, 8.5
Relocation assistance. See **Relocation Assistance**
Title search, 8.7
Agency acquiring property from members or officers through eminent domain proceedings, 2.183
Alternative dispute resolution, 8.55
Appraisals
Deposit of probable compensation, written summary of basis of appraisal used for, 8.46
Exchange of appraisals before trial, 8.58-8.59
Litigation guarantee and appraisal, update of, 8.45
Notice of intent to appraise, 8.9
Attorney fees, municipal liability for, 13.161
Basis of eminent domain power, 1.22
CEQA, compliance with, 8.6, 8.32
Complaint, filing of, 8.45
Contamination (see Environmental (contamination) assessment, below)
Deposit of probable compensation
Generally, 8.46
Appraisal used for deposit, written summary of, 8.46
Interest on compensation awarded, 8.51
Interest on deposit, 8.52
Notice of application for withdrawal, 8.49
Order for possession, deposit prerequisite to, 8.46-8.47
Withdrawal by defendants, deposit available for, 8.46, 8.48
Withdrawal waiving all defenses except additional compensation, 8.50
Eminent Domain Law, effect of, 8.37, 8.41
Environmental (contamination) assessment
Generally, 8.10
Failure to perform assessment, consequences of, 8.13
Further assessment, 8.12
Purpose of assessment, 8.11
Goodwill, effect of loss of, 8.38, 8.46
Hearing (see Resolution of necessity, below)
Homeowners and Private Property Protection Act, effect of, 5.354, 8.31
Interest on probable compensation (see Deposit of probable compensation, above)
Joint powers agreement, eminent domain as delegated power under, 1.77
Judgment and payment of judgment, 8.63
Just compensation, setting of
Generally, 8.33
Disclosure, 8.34
Extent of compensation, 8.35
Goodwill, effect of loss of, 8.38
Limits on powers of public entity to condemn another public entity's property, 1.106
Lis pendens notice, recording of, 8.45
Necessity (see Resolution of necessity, below)
Notice
Appraise, notice of intent to, 8.9
Deposit of probable compensation, notice of application for withdrawal, 8.49
Lis pendens notice, recording, 8.45
Proposed adoption of resolution of necessity, notice of hearing on, 8.41
Orders
Condemnation, final order of, 8.64
Possession (see Possession, order for, below)
Possession, order for
Deposit of probable compensation as prerequisite, 8.46-8.47
Motion for order of possession, filing of, 8.54
Precondemnation negotiations, 8.40
Precondemnation offer
Generally, 8.36
Conditional offer, 8.37
Eminent Domain Law, effect of, 8.37
Required contents of offer, 8.38
Probable compensation, deposit of (see Deposit of probable compensation, above)

Proposition 99 limits on, 5.354, 8.31
Prosecution of eminent domain action

Environmental Protection Agency (EPA)
Air quality issues. See **Air Quality**
Hazardous materials and toxic waste. See **Hazardous Materials and Toxic Waste**
Water quality issues. See **Water Quality**

EPA. See **Environmental Protection Agency (EPA)**

Equal Employment Opportunity Commission (EEOC)
Affirmative action, EEOC guidelines on adoption of voluntary, 4.11
Americans with Disabilities Act (ADA), EEOC guidelines on enforcing performance standards under, 4.215
Enforcement of discrimination laws by EEOC. See **Discrimination Laws, Enforcement of**
Hiring of employees, effect of EEOC's nondiscriminatory guidelines on. See **Recruitment and Qualifications of Public Employees**
Reasonable accommodations, EEOC regulations defining, 4.229
Religious discrimination, EEOC compliance manual on, 4.215
Sexual favoritism in workplace, EEOC's position on, 4.192

Equal Pay Act (Federal)
Back pay, recovery of, 4.259
Enforcement of, 4.250
Liquidated damages, recovery of, 4.262
Scope of, 4.143
Statute of limitations for filing action under, 4.250

Equal Pay Act (State)
Scope of, 4.167

Equal Protection
Generally, 1.68
Affirmative action programs. See **Affirmative Action in Hiring Public Employees**
Americans with Disabilities Act (ADA), effect on equal protection analysis, 4.241
Camping in parks, ordinances against, 9.62
Dance halls, nuisance abatement issues with, 9.28
Definitions
Fundamental right, 10.439
Suspect classification, 10.440
District elections, challenge based on denial of equal protection under 14th Amendment, 3.70
Land use decisions
Generally, 10.419, 10.431
Application of equal protection principals in land use context, 10.432
Rational-relationship test (see Rational-relationship test in land use decisions, below)
Standard of review for challenges under, 10.432
Statutory provisions prohibiting discriminatory land use actions, 10.443
Strict scrutiny or compelling state interest test (see Strict scrutiny or compelling state interest test for land use decisions, below)
License tax, classifications for, 5.46
Loitering regulation, issues with, 9.101
Mandamus proceedings, equal protection issues with, 13.25
Personal conduct regulations, 9.84
Rational-relationship test in land use decisions
Generally, 10.433-10.434
"Class of one" cases, 10.437
Development and developers included subject to test, 10.436
Fundamental rights or suspect class, test not applicable, 10.435
Section 1983 actions, Fourteenth Amendment as basis of, 13.114, 13.116
Sexual harassment, equal protection clause guaranteeing employee's right to freedom from, 4.210
Statute permitting government expenditure to support ballot measure as violation of, 3.213
Strict scrutiny or compelling state interest test for land use decisions
Generally, 10.435, 10.438
Fundamental rights, 10.439
Incidental effect on fundamental right, 10.442
Independent review of classification by court, 10.441
Suspect classification, 10.440
Taxes, procedural requirements. See **Taxes**

Equipment
Cable equipment, regulation of, 6.63, 6.83
Contracting for, 7.195
Gas, electric, and water franchises, relocating equipment or facilities, 8.123
Leases, 5.236

Parking citations, equipment and registration tab violations added to, 5.212
Utilities relocating equipment. See **Utilities**

ESA. See **Endangered Species Act (ESA)**

Estoppel
Collateral estoppel, Section 1983 actions, 13.128
Equitable estoppel
Government Claims Act, equitable estoppel as ground for relief in late claims, 13.76
Land use, exceptional circumstances required, 13.175
Municipal plaintiffs. See **Municipal Plaintiffs**

Ethical Considerations
See also **Political Reform Act of, 1974**
Agency acquiring property from members or officers, restrictions on, 2.183
Bias, prohibition against participation by decision-maker with, 2.180
City council members, ethics training as prerequisite to receiving compensation, 1.210
Common law rule on holding multiple public offices (see Incompatibility of holding multiple public offices, below)
Conflicts of interest. See **Conflicts of Interest**
Contracts (see Prohibited contracts under Govt C §1090, below)
Disclosures. See **Disclosures**
Exceptions to prohibited contracts under Govt C §1090
Existing contracts, 2.170
Remote interests and noninterests in contract, conflict of interest not created by, 2.167
Rule of necessity, 2.168
Salary, per diem, or reimbursement for expenses from government entity as non-interest, 2.169
Government lawyers. See **Government Lawyers, Ethical Obligations for**
Incompatibility of holding multiple public offices
Generally, 2.176
Applicability of common law rule to offices, 2.176-2.177
Common law doctrine of, 1.193
Examples of incompatible offices, 2.179
Potential for conflict between offices, effect of, 2.178
Incompatible activities
Adoption by local agency of rules on, 2.175
Notice of prohibited activity, disciplinary action for engaging in prohibited activity, and procedure for appealing determination of violation, requirement of local rules containing, 2.184
Lobbying. See **Lobbying**
Multiple public offices (see Incompatibility of holding multiple public offices, above)
Prohibited contracts under Govt C §1090
Generally, 2.162
Exceptions (see Exceptions to prohibited contracts under Govt C §1090, above)
Financial interest of public official under Govt C §1090, 2.166
Making of contract broadly defined, 2.165
Penalties for willful violation of Govt C §1090, 2.172
Persons subject to Govt C §1090, 2.164
Reliance on legal advice from city attorney as inadequate defense, 2.171
Situations in which Govt C §1090 applies, 2.163
Statute of limitations under Govt C §1090, 2.173
Self-dealing (see Prohibited contracts under Govt C §1090, above)

Ethical Walls. See **Government Lawyers, Ethical Obligations for**

Evaluation of Employees
Closed session meeting to consider. See **Closed Session Meetings**
Performance evaluations, 4.270
Performance standards, 4.269

Eviction
Valid overlapping state and local regulation, eviction regulations as example of, 1.41

Evidence
Code enforcement
Administrative enforcement, evidence gathering for, 12.67
Criminal enforcement, admissible evidence at probation revocation hearing relating to, 12.62

Dangerous condition of public property, absence of prior accidents admissible to show site not dangerous, 13.101
Election contest, evidence at trial, 3.133
Environmental impact reports, adequacy of evidence in, 11.39
Fair hearing requirements for, 10.415
LAFO proceedings, evidence gathering for, 1.127
Mandamus, evidence admissible in writ of. See **Mandamus, Writ of**
Public Records Act, admissibility of document obtained under, 2.230
Water supplies, reliance on supplies not currently available, evidence, 11.107

Exactions
Authority for
Common law, 10.216
Police power, 10.213
Public works power, 10.214
Statutory provisions governing, 10.215
Building permits, exactions required for, 10.234, 10.236
Definitions
Dedication, 10.212
Fee, 10.211
Fees, statutory procedure for imposition of
Generally, 10.222
Exclusions for development agreements, 10.228
Findings required, 10.224
Nexus required, 10.223
Notice and hearing, 10.226
Relationship between fees and costs, 10.225
Statute of limitations for challenges to fees, 10.229-10.230
Taking limitations (see Taking limitations on, below)
Waiting period for fees, 10.227
Practice tips for implementation of, 10.230
Public access to coast, 10.307
Subdivisions, fees and dedications, imposition on, 10.157
Taking limitations on
Generally, 10.217, 10.391
Ad hoc factual inquiry conducted, 10.397
Dedications, 10.219
Diminution of value cases, 10.398
Fees, generally, 10.220
General rule for exaction constitutionality, 10.218
Housing units, fees to mitigate loss of, 10.395
Nexus test, 10.392, 10.399
Public improvements, fees for, 10.394
Rough proportionality of exaction to impact of development, 10.393
Tax issues, 10.221

Excise Taxes. See **Taxes**

Execution of Contracts. See **Contracts**

Exhaustion of Administrative Remedies
Air quality permit appeals, exhaustion of remedies required, 11.234
Americans with Disabilities Act (ADA), no requirement of exhausting administrative remedies before filing action under, 4.240
California Environmental Quality Act (CEQA), 11.41, 11.62
Civil Rights Act of 1871, no requirement of pursuing state administrative remedies before filing action under, 4.159
Cost reimbursement procedures, exhausting all remedies recommended, 5.259-5.260
Fair Labor Standards Act (FLSA), no requirement of exhausting administrative remedies before bringing action for violation of, 4.87
FEHA claims, exhaustion of administrative remedies not prerequisite to filing, 4.240, 4.258
Government Claims Act, time for exhaustion of remedies tolls presentation period, 13.59
Mandamus, exhaustion of remedies as jurisdictional requirement, 13.13
Section 1983 actions, exhaustion not usually required, 13.129
Sexual harassment, no requirement of exhausting administrative remedies before filing complaint with Department of Fair Employment and Housing, 4.199
Strikes, requirement that employer exhaust administrative remedies with California Public Employment Relations Board before seeking relief in court, 4.323

Taking, exhaustion of remedies requirement for ripeness test, 10.377
Title VII, no requirement of exhausting administrative remedies before filing action under, 4.154

Expenses and Expenditures
See also **Costs; Fees**
Appropriations, 5.264, 5.274
Ballot measures, city's expenditures on. See **Ballot Measures, City's Participation in**
Budgets as useful to plan expenditures, 5.264

City council expenses. See **City Council**
Debt financing. See **Debt Financing**
Debt limit issues. See **Debt Limit**
Definitions
Appropriation, 5.264, 5.274
Expenditure, 5.264
Warrant, 5.275
Emergency, expenditure of funds in, 6.199
Gann Limit. See **Gann Limit**
Generally accepted accounting practices, use of, 5.264
Gifts. See **Public Funds**
Investments. See **Investments**
Lobbying expenditures. See **Lobbying**
Municipal purposes doctrine. See **Public Funds**
Redevelopment activities, funding may be used for, 5.397
Reimbursement. See **Reimbursement**
Retroactive compensation not authorized, 5.280
Warrants and payments, 5.275-5.276

Experts and Expert Witnesses
Civil Rights Act of 1991, recovery of expert witness fees under, 4.155
Workers' compensation case, effect of expert medical opinion, 4.384

Express Indemnity Agreements. See **Indemnification**

Extension of Time
Building permit, extension of time for duration or revocation of, 10.243
Department of Fair Employment and Housing, extension of time for filing complaint with, 4.253
General plan, extension of time to adopt. See **General Plans**
Public Records Act, extension of time for providing copy of record after receiving request under, 2.235

Fair Employment and Housing Act (FEHA)
See also **Fair Employment and Housing, Department of (DFEH)**
Generally, 4.165
Definition of disability under FEHA, 4.223
Exhaustion of administrative remedies not prerequisite to filing FEHA claim, 4.240, 4.258
Government Claims Act, employment discrimination cases not subject to act, 13.32
Hiring restrictions under, 4.21
Injured employee's cause of action under, 4.399
Obesity not disability per se, 4.226
Psychoactive substance disorders, inapplicability of FEHA to, 4.121
Public policy, discrimination claim under FEHA as basis for tortious violation of, 4.166
Reasonable accommodation. See **Reasonable Accommodation for Disabled Persons**
Retaliation against employee for filing or participating in FEHA action, 4.180
Right to sue notice, time limit for bringing private civil lawsuit against defendant after issuance of, 4.248
Sexual harassment, FEHA prohibiting, 4.186, 4.194, 4.199, 4.201
Sexual orientation, FEHA prohibiting discrimination based on, 4.165
Workers' compensation benefits, injured worker filing FEHA disability discrimination claim in addition to seeking, 4.380

Fair Employment and Housing Commission
Administrative award of damages by, 4.266

Fair Employment and Housing, Department of (DFEH)
See also **Fair Employment and Housing Act (FEHA)**
Drug test, DFEH's regulations allowing job applicant right to provide independent medical opinion, 4.121

Enforcement of state discrimination laws by
Generally, 4.251
Accusation against employer, DFEH issuing written, 4.255
Complaint, filing with DFEH, 4.252
Hearing on accusation, time limit for holding, 4.255
Investigation of complaint by DFEH, 4.254
Right to sue notice, DFEH issuing, 4.256
Statute of limitations for filing complaint with DFEH, 4.253
Sexual harassment, no requirement of exhausting administrative remedies before filing complaint with Department of Fair Employment and Housing, 4.199

Fair Hearing
Bias
Actual bias or the appearance of bias, 10.417
Advance knowledge of facts, 10.418
Campaign contributions, effect of, 10.416
Evidence relied by decision-maker, 10.415
Ex parte contacts, procedural due process issues, 10.414

Fair Labor Standards Act (FLSA)
Generally, 4.42
Child labor, FLSA prohibiting
Generally, 4.80
Department of Labor suing employer for violations of child labor provisions of FLSA, 4.83
Compensatory time off requirements
Generally, 4.76
Conditions for use, 4.78
Forcing employees to use compensatory time, 4.79
Limitations on accrual of, 4.77
Recordkeeping requirements (see Recordkeeping requirements, below)
Damages (see Liquidated damages, employer's liability for, below)
Definitions
Employee, 4.43
Employer, 4.43
Employment, 4.59
First responders, 4.57
Occasional or sporadic work, 4.55
Oppressive child labor, 4.80
Public agency, 4.43
Workweek, 4.70
Discrimination
Sex discrimination prohibited under FLSA, 4.81
Violation of Act, discrimination against employee for bringing suit prohibited, 4.89
Employee's action against employer for violation of Act
Generally, 4.86
Class action under CCP §382 prohibited, 4.88
Discrimination against employee for bringing suit prohibited, 4.89
Exhaustion of administrative remedies, no requirement of, 4.87
Enforcement of Act
Criminal sanctions for violation of Act, 4.85
Defenses available to employer, 4.92
Employee's action against employer (see Employee's action against employer for violation of Act, above)
Injunctive relief for violations of Act, 4.84
Investigations of FLSA violations by Department of Labor, 4.83
Judicial enforcement of Act, 4.84
Liquidated damages (see Liquidated damages, employer's liability for, below)
Monetary liability of employer for violating Act, 4.90
Statute of limitations for bringing action to enforce Act, 4.91
Equal Pay Act. See **Equal Pay Act (Federal)**
Exclusions from FLSA coverage
Generally, 4.44
First responders, inapplicability of overtime exemptions to, 4.57
Highly compensated employee, exemption for, 4.56
Independent contractors status, tests for determining, 4.46
Miscellaneous exemptions from FLSA overtime provisions, 4.56

Trainees and employees receiving training, distinction between, 4.47
Volunteers, 4.45
Exemptions from FLSA overtime pay and minimum wage provisions
Generally, 4.48
Occasional or sporadic work on part-time basis for same public agency, effect of employee performing, 4.55
Police and firefighters, partial exemption for (see Police and firefighters, partial overtime exemption for, below)
White-collar employees (see White-collar employees, exemption for, below)
Firefighters (see Police and firefighters, partial overtime exemption for, below)
Liquidated damages, employer's liability for
Generally, 4.90
Partial defense barring or reducing recovery of liquidated damages, 4.92
Minimum wage requirements
Generally, 4.58
Definition of employment under FLSA, 4.59
Employees residing on employer's premises, 4.64
Enforcement of (see Enforcement of Act, above)
Examples of miscellaneous compensable time, 4.65
Examples of noncompensable activities, 4.66
Exemptions (see Exemptions from FLSA overtime pay and minimum wage provisions, above)
Garnishment of wages, restrictions on, 4.68
"On-call" or "standby" time, compensation for, 4.60
Rest and meal periods, 4.61
Travel time, limits on compensability of, 4.62
Waiting and sleeping time, compensation for, 4.63
Minors (see Child labor, FLSA prohibiting, above)
Overtime pay requirements
Generally, 4.69
Averaging of hours over two or more workweeks prohibited, 4.70
Compensatory time off in lieu of overtime (see Compensatory time off requirements, above)
Enforcement of (see Enforcement of Act, above)
Exclusions (see Exclusions from FLSA coverage, above)
Exemptions (see Exemptions from FLSA overtime pay and minimum wage provisions, above)
Police and firefighters, partial exemption for (see Police and firefighters, partial overtime exemption for, below)
Regular rate of pay, calculation of, 4.71
Workweek for calculating overtime pay, definition of, 4.70
Police and firefighters, partial overtime exemption for
Generally, 4.72
Calculation of overtime pay for police and firefighters, 4.75
Firefighters' eligibility for exemption, 4.73
Law enforcement employees, exemption for, 4.74
Recordkeeping requirements (see Recordkeeping requirements, below)
Private right of action under, 4.42
Public entity coverage under, 4.43
Recordkeeping requirements
Generally, 4.82
Injunctive relief to enforce FLSA recordkeeping requirements, 4.84
Violations of Act (see Enforcement of Act, above)
White-collar employees, exemption for
Generally, 4.49
Duties test, effect of employee meeting criteria for "executive", "administrative" or "professional" employee, 4.54
Furloughs, 4.52
Improper deductions from exempt employee's salary, 4.53
Recordkeeping requirements (see Recordkeeping requirements, above)
Salary basis test, exemption based on, 4.50
Suspension of exempt employees, 4.51

Fair Political Practices Commission
Criminal violations of Political Reform Act, repeal of Commission's authority to prosecute, 3.204
Immunity reliance on written opinions of, 2.119, 2.160

Family and Medical Leave Act of 1993
Right of employees to take unpaid leave under, 4.162

Family Members. See **Children; Spouses**

Family Rights Act (California)
Scope of, 4.172

Farms and Ranches. See **Agricultural Lands**

Faxes
Public records, faxes as, 2.229

Federal Energy Regulatory Commission (FERC)
Electric utilities, jurisdiction over
Cogeneration and small power producers, regulation of, 6.33
Preemption of CPUC, 6.25
Transmission service (see Transmission service, below)
Wholesale electric rate regulation (see Wholesale electric rate regulation, below)
Natural gas, regulation of wholesale sales and transmission of, 6.34
Transmission service
California independent system operator (ISO), FERC jurisdiction over, 6.32
Expanded FERC authority, 6.29
Independent system operators, formation of, 6.31
Investor-owned utilities, 6.28
Limitations on FERC authority over municipal electric utilities, 6.30
Metered Subsystem Agreement (MSS Agreement) availability to municipal utilities, 6.32
Order 888 (Final Open Access Rule), effect of, 6.31
Rates, 6.28
Regional Transmission Organizations, formation of, 6.31
Wholesale electric rate regulation
Interstate transmission and sales, 6.25
Just and reasonable rates, 6.26
Setting rates, 6.27

Federally Funded Projects
Advertising (see Competitive sealed bids (formal advertising), below)
Affirmative action. See **Affirmative Action in Hiring Public Employees**
Authority to comply with federal requirements, 7.129
Bids (see Competitive sealed bids (formal advertising), below)
Competitive negotiation
Generally, 7.144
Award, 7.148
Contents of request for proposal, 7.146
Evaluation of proposals received, 7.147
Solicitation of responses, 7.145
Competitive sealed bids (formal advertising)
Generally, 7.138
Award, 7.142
Bid opening, 7.141
Information provided, 7.140
Rejection of bid, 7.143
Solicitation of responses, 7.139
Contract provisions
Generally, 7.151
Access to records, 7.160
Building requirements, 7.154
Copeland Anti-Kickback Act, compliance with, 7.156, 7.167
Davis-Bacon Act, compliance with, 7.157
Energy efficiency, 7.162
Environmental law compliance, 7.161
Executive order compliance, 7.155
Hours and safety standards, 7.158
Maintenance of contract administration system, 7.163
New inventions and materials, 7.159
Remedies, 7.152
Termination by grantee, 7.153
Davis-Bacon Act, compliance with. See **Davis-Bacon Act**

Formal advertising (see Competitive sealed bids (formal advertising), above)
Goods and services, authority to contract for, 7.190
Prevailing wages, payment of. See **Prevailing Wage Law**
Procurement method
Generally, 7.136
Competitive sealed bids (formal advertising) (see Competitive sealed bids (formal advertising), above)
Small purchase procedures, 7.137
Records
Contract provision governing access to records, 7.160
Payroll records, maintenance of, 7.168
Supplies, purchase of (see Use of federal grant funds to purchase supplies and services, below)
Use of federal grant funds to purchase supplies and services
Code of conduct for grantees, 7.133
Competitive negotiation (see Competitive negotiation, above)
Contracting with small and minority firms, women's business enterprise (WBE), and labor surplus area firms, 7.134
Contract pricing, 7.150
Contract provisions (see Contract provisions, above)
Grantee/grantor responsibility, 7.131
Grantor review of proposed contracts, 7.132
Method of procurement (see Procurement method, above)
Noncompetitive negotiation, 7.149
Selection procedures, 7.135
Uniform administrative regulations, standards and guidelines established by, 7.130

Federal Preemption
See also **Preemption of Local Laws**
Generally, 1.33
Airports, federal preemption over. See **Airports**
Americans with Disabilities Act (ADA), preemption of inconsistent state or local laws by, 4.239
Conflict with federal law, preemption due to, 1.35
Congressional intent, ascertaining for purposes of federal preemption analysis, 1.33-1.35
Defining preempted field, 1.40
Examples of valid overlapping state and local regulation, 1.41
Federal Power Act, FERC's jurisdiction preempting CPUC from regulating interstate transmission or sales under, 6.25
Motor vehicle emissions, air quality districts preempted from regulating, 11.196
Occupation of field, preemption due to, 1.34
Telecommunications. See **Telecommunications**

Federal Voting Rights Act. See **Voting Rights Act (Federal)**

Fees
See also **Charges**; **Costs; Expenses and Expenditures**; **Rates**
Generally, 5.158
Agency shop agreements, employees paying organization service fee for representation services under, 4.332
Airport fees, 6.151
Air quality permits, 11.228, 11.231
Amount of fee
Appropriations limit on, 5.11
General funds transfers of utility fees, 5.162
Indirect costs includable, 5.161
Relationship to costs required, 5.160
Assessments compared, 5.125
Attorney fees. See **Attorneys' Fees**
Authority for, 5.159
Bankruptcy, effect of automatic stay on collection of fees, 5.173
Business license fees and taxes. See **Taxes**
Cable television and video system franchises. See **Cable Television and Video Systems Franchises**
Challenges to lack of voter approval for charge imposed by city, city's burden of showing charge actually fee or general tax, 5.74
Civil Rights Act of 1991, recovery of expert witness fees under, 4.155
Definition of development fee, 5.163
Development fee requirements, 5.163
Development impact fees, development taxes compared, 5.60
Development processing fees, 5.164-5.165
Economic development, subsidy or reduction of fees as, 5.298
Electric service, exemption of fees from Proposition 218, 5.186

Enterprise districts, fees charged by, 1.75
Exactions. See **Exactions**
Fish and Game, Department of, 10.349
Franchise fees. See **Franchises**
Habitat maintenance, funding for, 11.296
Incident of property ownership, limit on amount of fee or charge imposed on parcel or person as, 5.176
Initiatives affecting property-related fees and charges, 5.120
Intergovernmental agreements for county to provide services, fees associated with, 7.189
New fees. See **Proposition 218**
Nomination of candidate, filing fee for, 3.17
Parade permits, 9.149
Police power authority for, 5.3
Property-related fees and charges. See **Proposition 218**
Public Records Act, fee for copying records requested under, 2.234
Public services, recovery of costs for providing, 5.167
Reimbursements of state mandates if fees charged, 5.251
Relationship to costs required, 5.160
Sewage disposal, fees and charges for, 6.12
Solid waste and recycling. See **Solid Waste and Recycling**
Special tax compared, 5.72, 5.160
State subventions. See **Revenues**
Storm water management fees, 6.16
Subdivisions, imposing on, 10.157
Taxes. See **Taxes**
Time. See **Time**
Vehicle registration, raising for air quality purposes, 11.191
Water, sanitation, and sewer fees, 5.166, 5.175, 5.180

FEHA. See **Fair Employment and Housing Act (FEHA)**

FERC. See **Federal Energy Regulatory Commission (FERC)**

Fiduciary Duties
Elected officials, fiduciary duty of, 2.174

Fifth Amendment. See **Constitutional Law**

Finances
Generally, 5.1
Authority for
Generally, 5.2
Appropriations limit, 5.11
Debt limit prohibition, 5.12
Delegation of taxing power not allowed, 5.14
Local taxation authority, 5.6
Police power, 5.3
Private possessory interest in government property tax authorized, 5.23
Proposition 13 limits on taxes, 5.8
Proposition 62, voter approval required for taxes, 5.9
Proposition, 218, 5.10

Redevelopment activities, 5.302
Revenues. See **Revenues**

Financial Interest, Conflict of Interest Involving. See **Political Reform Act of 1974**

Findings
Administrative mandamus, findings required for, 13.16

Affordable housing. See **Affordable Housing**
Air quality. See **Air Quality**
CEQA. See **California Environmental Quality Act (CEQA)**
Conditional use permits, findings and decisions, 10.104
Denial of certification of land use plan, findings and modifications, 10.294-10.295
Economic development, 5.297
Eminent domain, 8.44
Housing element of general plans, rebuttable presumption of validity after compliance finding, 10.50
Housing, findings required for limits on, 10.205-10.206
Infrastructure improvements, finding required for, 5.369
Optional procedure for disposition of real property, findings that public interests and convenience require sale, 8.81
Redevelopment agencies, finding required for changing from separate to legislative body agency, 5.309
Set-aside of funds for housing requirement, findings avoiding need for, 5.418-5.420, 5.422
Statutory procedure for imposition fee, findings required for, 10.224
Subdivision map, findings for denial of, 10.154
Variance, findings required for issuance of, 10.117
Workers' compensation judge issuing findings and award, 4.390
Zoning ordinances, 10.95-10.96

Fines. See **Penalties**

Firearms. See **Weapons and Firearms**

Fire Chief
Powers and duties, 1.260

Firefighters
Counties, contracting for fire protection services from, 7.184
Meyers-Milias-Brown Act. See **Meyers-Milias-Brown Act**
Overtime pay requirements, partial exemption for firefighters. See **Fair Labor Standards Act (FLSA)**
Public Safety Officers Procedural Bill of Rights Act, applicability to firefighters enforcing fire laws. See **Public Safety Officers Procedural Bill of Rights Act**
Special taxes for support of, 5.88-5.91
Strikes by firefighters, statutory prohibition against, 4.348

Firefighters Procedural Bill of Rights Act
Generally, 4.311
Administrative appeals, 4.318
Adverse comments in personnel file, time limit for firefighter to respond to, 4.313
Covered employees, 4.312
Excluded employees, 4.312
Imposition of discipline, 4.317
Interrogation of firefighters
Potentially criminal conduct, additional requirements for interrogating firefighter about, 4.316
Pre-interrogation requirements, 4.315
Procedures for, 4.314
Notifying firefighter of proposed disciplinary action, 4.317
Remedies for noncompliance, 4.319

First Amendment. See **Constitutional Law**

Fish and Game, Department of
Generally, 10.348
Fees collected by, 10.349
Navigation dredging permits, 10.351
Streambed alteration permits, 10.350

Flood Plains
Zoning for protection of property in, 10.137

Foreclosure
Pets abandoned in foreclosed-on homes, 9.181
Vacant residential property acquired through. See **Administrative Enforcement**

Foreign Languages. See **Translations**

Forfeitures. See **Penalties**

Formation of Municipal Corporations
See also **Organization and Reorganization of Municipalities**
Generally, 1.1, 1.3
Classes of cities
Generally, 1.11
Charter cities. See **Charter Cities**
General law cities. See **General Law Cities**
Definition of municipal corporation, 1.1
Legal foundation of cities
Classes of cities (see Classes of cities, above)
Constitutional foundation, 1.9
Governing laws, 1.10
Limitations on legislature's power over cities
Generally, 1.4
Delegation by legislature of municipal authority to private person or body prohibited, 1.6
Local or special legislation, prohibition against legislature enacting, 1.5

Forms of Government. See **Internal Organization of Cities**

Fourteenth Amendment. See **Constitutional Law**

Fourth Amendment. See **Constitutional Law**

Franchise Act of 1937, 5.189-5.190, 6.39, 6.49, 6.51

Franchises
Cable television and video systems franchises. See **Cable Television and Video Systems Franchises**
Electric franchises (see Gas, electric, and water franchises, below)
Fees from
Generally, 5.187
Broughton Act application for electric and telephone poles and wires, and gas and oil pipelines, 5.188
Charter cities not facing fee restrictions, 5.190
Franchise Act of 1937 for electrical, oil, gas, and water franchises, 5.189
Hazardous materials and toxic waste, 5.195
Oil pipelines, 5.192
Solid waste and recycling, 5.194-5.195
Surcharge in lieu of fees possible, 5.191
Utility franchise, public lands use surcharge for, 6.56
Video franchise fees. See **Cable Television and Video Systems Franchises**
Gas, electric, and water franchises
Broughton Act procedures, 6.39, 6.49-6.50
Franchise Act of 1937 procedures, 5.189-5.190, 6.39, 6.49, 6.51
Industrial gas or oil, oil pipelines and utility franchises for, 6.57
Ordinance granting franchise, provisions of (see Ordinance granting franchise, provisions of, below)
Public lands use surcharge, 6.56
Relocating equipment or facilities, 8.123
Ordinance granting franchise, provisions of
Generally, 6.52
Excavation procedures, compliance with, 6.55
Indemnification clause requirement, 6.55
Relocation requirement, 6.54
Term of franchise, 6.53
Solid waste and recycling. See **Solid Waste and Recycling Franchises**
Telecommunication franchises. See **Telecommunications**
Water franchises (see Gas, electric, and water franchises, above)

Fraud and Misrepresentation
LAFCO determinations and decisions, judicial inquiry limited to question of fraud in, 1.129

Freedom of Information Act (FOIA)
California Public Records Act compared, 2.220
Deliberative process privilege, 2.241

Frivolous Actions
Appeals. See **Appeals**
Attorney fees for, 13.162, 13.166, 13.169

Gambling
Establishments, regulation of
Generally, 9.29
Indian casinos. See **Indian Casinos**
Personal conduct regulation, 9.85
Redevelopment assistance prohibited for projects involving gambling, 5.370

Gangs
Personal conduct regulation, 9.80

Gann Limit
Generally, 1.53, 5.281
Formula to limit appropriations, 5.282
Pension contributions, 5.287
Redevelopment, 5.285
References for additional information about, 5.288
Special assessments, 5.286
Statutory provisions regarding limit, 5.283
Unemployment insurance coverage not subject to mandate, 5.284

Garbage Service. See **Solid Waste and Recycling**

Garnishment of Wages
Minimum wage, prohibition against garnishment of wages resulting in employee receiving less than, 4.68

Gas Service
See also **Oil and Gas**
Franchises. See **Franchises**
Proposition 218, fees for gas service exempt from, 5.186

Gender Discrimination. See **Sex Discrimination**

General Law Cities
See also **Charter Cities**
Generally, 1.11-1.12
Corporate power, 1.27
Finances of. See **Finances**
Goods and services, contracting for. See **Goods and Services, Contracting for**
Prevailing wage law, applicability of, 7.83
Public services, recovery of costs for providing, 5.167
Qualification of city council members, 1.184
Taxation by city, authority for, 5.6
Zoning ordinances and consistency with general plan, 10.87

General Plans
Generally, 10.16
Acquisition of real property by negotiated purchase or eminent domain, conformity with general plan required for, 8.4
Administration issues
Annual reports, 10.67
Capital improvement programs by other agencies, 10.69
Consistency of land use decisions with general plan requirement, 10.68
Adoption procedures and requirements for plan, 10.70-10.72
Affordable housing, 10.35, 10.39, 10.80
Amendments and updates to plan, 10.80
Conservation element
Generally, 10.54
Definition of natural resource, 10.54
Issues for consideration, 10.55
Water agency involvement for water issues, 10.56, 11.92
Definition of natural resource, 10.54

Density bonuses for affordable housing, consistency with, 10.187
Elements of plans
Generally, 10.17
Circulation element, 10.25
Conservation element (see Conservation element, above)
Consistency requirements, 10.19-10.20
Housing element. See **Housing Element of General Plans**
Land use element (see Land use element, below)
Noise element (see Noise element, below)
Open space element (see Open space element, below)
Safety element (see Safety element, below)
Extensions of time to adopt plan
Generally, 10.74
Challenges under previous general plan, 10.76
Conditions imposed, 10.78-10.79
Consistency with housing element required for projects approved during extensions, 10.77
Relief from plan requirements during extension, 10.75
Growth management, interaction with. See **Growth Management**
Initiative and referendum, plans subject to
Generally, 10.73
Local coastal programs, changes to comply with not subject to initiative or referendum, 10.285
Specific plans to implement general plans subject to referendum, 10.83
Initiatives and referenda's consistency with city's general plan, 3.114
Land use element
Generally, 10.18
Flooding and timber production, identification of, 10.22
Military facilities, impact on, 10.23
Population density and building intensity standards, inclusion of, 10.21
Urban form and design considerations, 10.24
Water demand, additional requirements for increases to, 10.71
Noise element
Generally, 10.61
Guidelines, consideration of, 10.63
Implementation and solutions requirement, 10.62
Open space element
Generally, 10.57
Action program for zoning, 10.59
Goals for and inventory of, 10.60
Mandating of open space element by state law, 10.58
Safety element
Generally, 10.64
Consultation with state agencies requirement, 10.66
Importance of, 10.65
Water supplies, consideration of, 11.92
Shelter zone identification in general plans, 10.32
Specific plans, adoption of, 10.83
Statute of limitations for challenges to, 10.81
Taking challenges, avoidance, 10.82
Zoning
Open space element, action program for zoning, 10.59
Planning and Zoning Law as basis for, 10.2
Zoning ordinances. See **Zoning Ordinances**

Gifts
Generally, 5.218
Charitable deduction of gifts to city, 8.68
Definition of gift, 2.155
Disqualification of public official based on interest in gift source, 2.125
Elected officeholder or employee of local agency, restrictions on acceptance of gifts by, 2.155
Pension plan not constituting gift, 4.33
Public funds, prohibition against gifts of. See **Public Funds**
Real property acquisition by gift. See **Acquisition of Property**

Good Faith
Fair Labor Standards Act (FLSA), effect of employer's good faith actions in suit for violation of, 4.92

Meyers-Milias-Brown Act, good faith requirement parties meet and confer, 4.339
Surplus property, good faith negotiations to purchase or lease, 8.94

Goods and Services, Contracting for
Audits
Local audit requirements, 7.248
State audit requirements, 7.249
Authority to contract
Generally, 7.174
Delegation of authority (see Delegation of authority, below)
Express grant of authority to enter into contracts, 7.178
Intergovernmental agreements, authority for (see Intergovernmental agreements, authority for, below)
Prohibited contracts (see Prohibited contracts, below)
Specific statutory authority to contract for special services, 7.175
Competitive bidding requirements
Generally, 7.193
Piggy-back purchasing, 7.196
Professional services, rule for certain kinds of, 7.7, 7.194
Supplies and equipment, contracting for, 7.195
Counties (see Intergovernmental agreements, authority for, below)
Delegation of authority
Caveat emptor, 7.177
Unlawful delegations of government functions, 7.176
Federally funded projects, rules governing, 7.190
Intergovernmental agreements, authority for
Assessment and equalization functions, alternative procedures for charter cities, 7.182
Cement facilities, 7.187
Charter city contracting authority, 7.181
Construction and maintenance of sewers and electrical poles, 7.186
County performance of general city functions, 7.180
Emergency assistance, mutual aid agreements to render, 7.188
Fees charged by county, 7.189
Fire protection services from counties, 7.184
Municipal services, contracts for, 7.183
Source of authority, 7.179
Water mains and sewers, 7.185
Local preferences
California Buy America Act, invalidity of, 7.199
California Preference Law, invalidity of, 7.199
Validity of, 7.198
Payment procedures
Audits (see Audits, above)
Charter cities, 7.247
Extra compensation for services already rendered, 7.250
General law cities, 7.246
Prohibited contracts
Job order contracts, 7.192
Police officers as security guards, 7.191
Purchase ordinance and regulation, 7.197

Goodwill, Loss of
Eminent domain action, effect of loss of goodwill, 8.38, 8.46

Government Claims Act
Generally, 13.28
Burden of proof
Late claim, grounds for relief from, 13.72
Petitions for relief from claims requirement, 13.81
Calculation of presentation period
Generally, 13.56
Accrual, general rule on, 13.56-13.57
Delay in accrual, 13.58
Common law liability abolished by, 13.94
Consideration of claim by public entity
Denial of claim versus rejection of claim, 13.67, 13.69

Insufficiency, notice of, 13.62
Notice of entity action on claim, 13.66
Rejection of claim, failure to timely act on claim as, 13.64
Time to act on claim, 13.63-13.64
Types of entity action on claim, 13.65, 13.68
Contracts, application of claims presentation requirements, 13.29, 13.154
Definitions
Excusable neglect, 13.73
Injury, 13.32
One year, 13.56
Presentation of claim, 13.49, 13.62
Six months, 13.56
Exemptions, actions for which claims not required
Generally, 13.30
Cross-complaints in actions filed by public entities, 13.38
Local claim requirements (see Local claim requirements, below)
Public entity action, no claim required for defenses to, 13.33
Relief other than money or damages, actions for, 13.32
Roster of Public Agencies (see Roster of Public Agencies, actions based on, below)
Statutory exemptions, 13.31
Grounds for relief in late claims
Generally, 13.72
Burden of proof, 13.72
Equitable estoppel, 13.76
Excusable neglect, 13.73
Incapacitated adults, 13.75
Minors, time limits and tolling, 13.59, 13.74
Immunity principles. See **Liability**
Incompetent persons. See **Incompetent Persons**
Insufficiency of claim (see Time, generally, below)
Late claims
Generally, 13.70
Action on applications for, 13.78
Evaluation of applications for, 13.77
Grounds for relief (see Grounds for relief in late claims, above)
Minors, late claims by, 13.71
Presentation deemed day application granted, 13.78
Time limitations for filing, generally, 13.71
Liability of municipality. See **Liability**
Local claim requirements
Generally, 13.39
Contracts, requiring claim procedures in, 13.41
Municipal plaintiffs, application to, 13.178
Ordinance or charter provision to impose, 13.40
Mandamus, writs for. See **Mandamus, Writ of**
Minors. See **Minors**
Municipal plaintiffs, application to, 13.178
Persons eligible to present claims
Generally, 13.49
Children's claims, 13.51
Class actions, 13.29, 13.54
Heirs, 13.50
Spouses, 13.52
Workers' compensation carrier, intervention in personal injury action, 13.53
Presentation procedures for claims
Contracts, application of claims presentation requirements, 13.154
Late claims (see Late claims, above)
Persons eligible to present claims (see Persons eligible to present claims, below)
Sufficiency of claims (see Sufficient claims, below)
Time for presentation of claims (see Time for presentation of claims, below)
Relief from claims requirement, petitions for
Generally, 13.79
Appealability of determination, 13.84-13.85
Burden of proof, 13.81
Grounds for, 13.81

Judicial review of determination on petition for relief, 13.83-13.85
Statute of limitations if petition granted, 13.82
Timing considerations, 13.80
Roster of Public Agencies, actions based on
Generally, 13.34
Agencies required to file information in roster, 13.35
Information required in filing, 13.36
Time for filing, 13.37
Statutes of limitations
Filing suit after claim, 13.64, 13.66, 13.67
For claims (see Time for presentation of claims, below)
Late claims (see Late claims, above)
No claim required, 13.68
Rejection versus denial of claims, 13.67, 13.69
Relief from claim, time to file suit if petition granted, 13.82
Tolling of statute (see Tolling of statute of limitations, below)
Waiver, avoiding, 13.62, 13.69
Sufficient claims
Generally, 13.42
Complaint not claims, 13.48
Contents required, 13.43
Local forms, requirements for use of, 13.44
Non-claims, examples, 13.47
Substantial compliance doctrine, 13.45, 13.62
Unconventional claims, examples held sufficient, 13.46
Untimely claims, notice of, 13.60
Tax refunds subject to Act unless other statute provides procedure, 5.93
Time for presentation of claims
Amendments to claims, timing of, 13.61
Calculation of presentation period (see Calculation of presentation period, above)
Exhaustion of administrative remedies as tolling presentation period, 13.59
Statute of limitations for claims presentation period, 13.55
Tolling of presentation period, 13.59
Untimely claims, notice of, 13.60
Time, generally
Insufficiency of claim, time for notice of, 13.42
Insufficient claims, time deadlines for notice and action on claim, 13.62
Late claims (see Late claims, above)
Presentation of claims (see Time for presentation of claims, above)
Public entity, time to act on claim, 13.63-13.64
Relief from claims requirement, petitions for, 13.80
Roster of Public Agencies, filing required within 70 days of accrual of cause of action, 13.37
Untimeliness of claim, notice of, 13.60
Tolling of statute of limitations
Police officers, tolling of statute while criminal charges pending against claimant, 13.67
Presentation period, tolling of, 13.59
Types of cases subject to act, 13.29

Government Lawyers, Ethical Obligations for
Generally, 2.188
Advisory body, evaluating conflicts of interests in representation of, 2.199
Attorney General prohibited from suing department after previously advising department, 2.201
Civil Service Commission versus advisory body, distinction in representation of, 2.200
Sheriff as separate client from county, 2.201
Applicability of California Rules of Professional Conduct to public lawyers, 2.191
Cal Rules of Prof Cond 3-310 governing conflicts of interest
Generally, 2.196
Advisory body (see Advisory body, evaluating conflicts of interests in representation of, above)
Ethical walls to avoid conflict in representation of lawyers in separate branches of publicly funded law offices, 2.202
References covering ethical considerations and conflict of interest issues, 2.217
Simultaneous representation of adverse interests, 2.197
Successive representation of client with interest adverse to former client, 2.198
Whistle-blowing statute permitting attorney to disclose confidential information, 2.203
Confidences of clients, attorney's duty to maintain, 2.203
Consent

Adverse interests, public lawyer requiring informed written consent for representation of multiple clients with, 2.192
Joint representation of entity and official or employee, written consent required for, 2.195
Option for avoiding conflict in representation of lawyers in separate branches of publicly funded law offices, informed written consent as, 2.202
Criminal law (see Prosecutors, special duties for, below)
Distinction between categorical ethics and professional and situational ethics, 2.189
Enhanced ethical duties for public attorneys
Furtherance of justice, 2.215
Statutes imposing duty on city attorneys to public, 2.216
Ethical walls
Lawyers in separate branches of publicly funded law offices, ethical walls to avoid conflict in representation of, 2.202
Newly-hired city attorney's representation of adverse party in litigation against city, ethical wall to allow city attorney to continue representing city, 2.205
Joint representation of employees and entity, conflict of interest in
Duty to defend, 2.206
Punitive damages, no conflict of result of plaintiff seeking, 2.207
Written consent required for joint representation of entity and official or employee, 2.195
Prohibited contracts under Govt C §1090, reliance on legal advice from city attorney as inadequate defense, 2.171
Prosecutors, special duties for
City attorneys as prosecutors, 2.211
Civil dispute, city attorney prohibited from threatening criminal charges to obtain advantage in, 2.213
Limitations on criminal defense practice by city attorney, 2.214
Objectivity, prosecutors maintaining, 2.212
Recusal, situations requiring, 2.212
Regulation of California attorneys, 2.190
Representation of government entities
Cal Rules of Prof Conduct 3-600(A) governing representation of entity as client, 2.192
Consent to representation of multiple clients (see Consent, above)
Explaining to government official attorney's duty to client entity, 2.194
Illegal activities, attorney's duty to report, 2.193
Section 1983 actions. See **Section 1983 Actions**
Special considerations for public sector
Defense and indemnification, city attorney's right to, 2.210
Due process right of individual subject to quasi-judicial administrative procedure, two or more lawyers required to protect, 2.208
Joint representation of employees and entity (see Joint representation of employees and entity, conflict of interest in, above)
Political Reform Act of 1974, city attorney's fee splitting arrangement with bond counsel for joint powers agency as violation of, 2.209
Simultaneous representation of adverse interests by public attorney, 2.204
Successive representation of adverse interests by public attorney, 2.205

Graffiti. See **Vandalism or Graffiti**

Grants (Federal and State)
Acceptance of grants, 1.95
Compliance with grants, 1.96, 5.217
Public works, federal grants for. See **Federally Funded Projects**

Greenhouse Gas Emissions
Mandatory greenhouse gas emission limits
Effective date of limits and emission reduction measures, 6.22
Urban sprawl, effect of reducing, 11.235

Grievances, Employee Filing
Case file, contents of, 4.292
Investigation of, 4.291
Types of grievances, 4.290
Written response to grievance, city filing, 4.293

Groundwater
Generally, 11.96-11.97, 11.106
Water quality. See **Water Quality**

Growth Management
Generally, 10.200

Housing obligations for regional needs
Generally, 10.204
Burden of proof, 10.207
Limits on housing, findings required for, 10.205-10.206
Public facilities planning
Generally, 10.201
Controls based on number, location, or mix of housing, 10.203
Expansion, limitations on, 10.202

Guidelines for CEQA. See **California Environmental Quality Act (CEQA)**

Guns. See **Weapons and Firearms**

Habitat Conservation Plans. See **Endangered Species Act (ESA)**

Habitat Maintenance Funding Act, 11.296

Harassment. See **Sexual Harassment**

Harbors
Generally, 6.156
Access restrictions (see Use and access restrictions, below)
Acquisition of harbor property, 6.162
California Coastal Act, applicability of, 6.176
Constitutional restrictions on conveyance and use of tide and submerged lands, 6.163
Defined, 6.156
Department of Boating and Waterways, 6.157
Disposition of harbor property, 6.163
Easements, permissibility of, 6.168
Emergency rules and regulations
Permissibility of emergency rules and regulations, 6.171
Small craft vessels and harbors, adoption of emergency rules and regulations governing, 6.199
Establishment and improvement of harbors, 6.158
Federal government, conveyance of tide or submerged lands to, 6.163
Financing of harbor activities, 6.161
Governance over harbors
Statutes authorizing harbor districts, 6.160
Structure of governance, 6.159
Leasing
Generally, 6.164
Proper harbor related lease purposes, 6.167
Terms of lease, 6.165
Tidelands and tidelands for waterfront and harbor facility development, leasing city property for, 8.116
Wharves and other structures, exception for leases of, 6.166
Local regulations and obligations
Establishment of harbor lines, 6.175
Rates, fees, and charges, permitted provision of, 6.175
Use and access restrictions (see Use and access restrictions, below)
McAteer-Petris Act, effect of, 6.179
Oil spill response and contingency planning, 6.177
Port and terminal protection and development corporations, 6.178
Public trust doctrine
Leasing, effect of (see Leasing, above)
Restrictions imposed on conveyance and use of tide and submerged lands by, 6.163
Use and access restrictions, public trust implications of, 6.169
Rivers and Harbors Act of 1899, Army Corps of Engineers' authority under, 10.355
Use and access restrictions
Emergency rules and regulations, permissibility of, 6.171
Floating homes, 6.173
Insurance requirements, 6.173
Jet skis, prohibition against, 6.174
Limits of public access to waterfront, 6.170
Marine sanitation issues, 6.172
Proper time-of-day restrictions, speed zones, and special use areas, 6.171

Public trust implications, 6.169
Recycling facilities required by state law, 6.174
Streets and highways, required access from, 6.169

Hazardous Materials and Toxic Waste
Acquisition of property, environmental (contamination) assessment before
Eminent domain, acquisition by. See **Eminent Domain**
Negotiated purchase agreement, acquisition by. See **Negotiated Purchase Agreement**
Applications to build hazardous waste facilities
Air quality regulations, compliance required, 11.249
Appeals of decisions on applications, 11.247
Notice of intent required, 11.245
Processing of applications, time limits, 11.246
Water quality regulations, compliance required, 11.248
Brownfields cleanup authorized, 11.254
Definitions
Hazardous waste (RCRA), 11.238
Hazardous waste (state), 11.241
Solid waste, 11.238
Emergency response to spills and releases, 6.199
Facilities planning and approval
Generally, 11.243
Applications to build facilities (see Applications to build hazardous waste facilities, above)
City implementation of county plan required, 11.244
Federal law
Generally, 11.237
Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), 6.100, 11.239, 11.250
Resource Conservation and Recovery Act (RCRA), 11.238, 11.251
Franchise fees, 5.195
Household hazardous waste planning requirements
Oil filters exemption, 11.241
Permits required for drop-off events and sites, 11.241
Regional plans for, 11.242
Waste management plans, household hazardous waste as element of, 10.263, 11.241
Indemnification agreements
Analysis by city attorney, 7.314
Beneficiary, determining identity of, 7.316
Control of defense and settlement, 7.320
Covered parties, 7.315
Impact of insurance, 7.319
Specific acts covered, 7.317
Statutory authority, 7.313
Types of acts covered, 7.318
Liability (see Obligations of property owners, below)
Notice
Applications to build hazardous waste facilities, requirement of notice of intent, 11.245
Release of hazardous substance, notice to buyers or renters of, 11.252
Obligations of property owners
Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) liability, 11.250
Development, determination if site constitutes hazardous waste site, 11.253
Notice to buyers or renters of hazardous substance release required, 11.252
Resource Conservation and Recovery Act (RCRA) liability, 11.251

Taking issues with fees for the loss of housing units, 10.395

Housing and Community Development (HCD)
Generally, 1.101
Housing element of general plans
Guidance for element, 10.48
Rebuttable presumption of validity after compliance finding, 10.50
Review and certification of plans, 10.49
Uniform building codes, state standards for, 10.237

Housing Authorities
Power of, 1.70
Purpose of, 1.70
Surplus real property, offer to sell or lease to housing providers, 8.87

Housing Element of General Plans
See also **Affordable Housing**
Generally, 10.26
Action program with implementation timeline
Generally, 10.37
Conservation of existing housing, 10.39
Consistency with other plan elements, 10.41
Discrimination considerations, 10.42
Forms of housing, provision of variety, 10.43
Governmental constraints, consideration of removal, 10.40
Identification of adequate sites, 10.38
Adoption procedures and requirements for plan, 10.72
Assessments of housing needs
Generally, 10.29
Affordable housing, consideration of decrease in, 10.35
Alternative regulations to increase housing availability, 10.31
Emergency shelter identification, 10.32
Energy conservation analysis, 10.34
Land inventory for, 10.30
Special housing needs, consideration of, 10.33
City review and revision of housing element of general plans, 10.51
Coastal provisions, 10.53
Community housing statements, objectives for, 10.36
Defective housing element, impact of, 10.52
Extensions of time to adopt plan, consistency required for projects adopted during extension, 10.77
Factors for consideration, 10.28
Housing and Community Development Department. See **Housing and Community Development (HCD)**
Housing share
Local allocation and distribution, 10.47
Local distribution of housing need, methodologies, 10.46
Regional housing needs determination and allocation, 10.44
Subregional entities, formation of, 10.45
Implementation timelines (see Action program with implementation timeline, above)
Mandated goals for, 10.27
Redevelopment plans
Affordable housing plan, adoption may be included in housing element, 5.415
Implementation plan, adoption every five years can correspond with housing element cycle, 5.368
Regional planning issues, 10.275
Timing considerations
Annual reports, timeline for, 10.67
Housing and Community Development (HCD) review, time for, 10.49
Local allocation and distribution, time before housing element update, 10.47
Methodologies for distributing regional housing need to cities, development of, 10.46

Regional housing needs determination and allocation, time for, 10.44
Review of housing element, time for, 10.51
Subregional entities, formation of, time before housing element update, 10.45

IGRA. See **Indian Gaming Regulatory Act (IGRA)**

Immigration
Drug testing by Immigration and Naturalization Service prohibited, 4.111
Immigration Reform and Control Act of 1986
Discrimination based on national original and citizenship, prohibition against, 4.12, 4.149
Persons without legal right to work in U.S., Act prohibiting hiring of, 4.12

Immunity
Generally, 13.91
Absolute immunity, 13.124-13.125
Benefit assessments, immunity of federal government property from, 5.150
Cable television and video system franchises, city's immunity from damages, 6.85
Civil rights. See **Civil Rights**
Design immunity, 13.106-13.107
Discharge of official duty, immunity for statements made during
Discretionary acts, employee immunity for, 13.97
Eleventh Amendment, immunity under. See **Intergovernmental Relations (Federal)**
Fair Political Practices Commission, immunity reliance on written opinions of, 2.119, 2.160
Government Claims Act, specific immunities in, 13.93
Indemnification of non-immune public employee by immune public entity, 13.91
Injunctions, inapplicability of immunity doctrine to, 13.91
Intergovernmental relations. See **Intergovernmental Relations (Federal); Intergovernmental Relations (State)**
Liability. See **Liability**
Mandamus proceedings, immunity doctrine does not apply, 13.91
Punitive damages, entity immunity from, 13.155
Qualified immunity, 13.124, 13.126
Sovereign immunity. See **Sovereign Immunity**
Tort immunities, 13.92
Transient occupancy taxes, federal employees immune from, 5.53

Impasse in Bargaining See **Meyers-Milias-Brown Act**

Implied Indemnity. See **Indemnification**

Improvement Act of 1911, 5.131

Improvement Bond Act of 1915, 5.133

Improvements
Agricultural preserves, public improvements on land subject to contract, 10.144
Capital improvement programs by other agencies, 10.69
Fees for public improvements, 10.394
Harbors, improvement of, 6.158
Infrastructure improvements, finding required for, 5.369

In Camera Review
Public Records Act, in camera review of records requested under, 2.261

Incentives for Affordable Housing. See **Affordable Housing**

Income
See also **Revenues**
Campaign contributions not constituting, 2.151

Income Tax, Federal
Employee recognition plans, tax consequences of, 4.31
Gifts to city deductible as charitable contribution, 8.68

Incompetent Persons

See also **Disabled Persons**
Government Claims Act
Claims subject to act, 13.29
Late claims, tolling period, 13.71

Incorporation
See also **Dissolution and Disincorporation**
Generally, 1.135
Conducting incorporation proceedings, 1.137
Deciding on incorporation
Generally, 1.138
Appropriations limits, 1.139
Approval or disapproval of proposal, 1.140
Elections to confirm incorporation, 1.143
Fiscal effect of incorporation, tax sharing to mitigate, 1.138
Proposal, decision on, 1.142
Reconsideration of decision on proposal, 1.141
Effect of incorporation
City council terms of office, 1.146
City jurisdiction, 1.144
County ordinances, effect of, 1.145
Property held in trust for city, effect on, 1.147
Services in first full fiscal year, 1.148
Initiating incorporation proceedings by petition, 1.136
Time
Approval or disapproval of proposal, time limits for, 1.140
Conducting proceedings, time considerations, 1.137
County ordinances, duration of effect of, 1.145
Initiating incorporation, 1.136
Proposal for incorporation, time for decision on, 1.142

Indemnification
Accrual of cause of action, 13.58
Attorney fees for prevailing on claim for implied indemnity, 13.171
City attorney's right to indemnification, 2.210
City liability for contractor acts
Generally, 7.218
Non-delegable duty, 7.219
Peculiar risk doctrine, effect of, 7.220
Contractual indemnity, entity entering into agreement for, 13.154, 13.180
Costs of litigation, effect of state agency's indemnification for, 1.93
Design professionals, contractual indemnity limited, 13.180
Equitable indemnity, 7.312
Establishment of indemnification, 7.217
Express indemnity agreements
Contract principles, applicability of, 7.298
Intentional acts (see Intentional acts, below)
Negligence. See **Negligence**
Government Claims Act, claims subject to, 13.29
Hazardous materials and toxic waste, indemnification agreements relating to. See **Hazardous Materials and Toxic Waste**
Immunity of entity but not employee, indemnity obligation, 13.91
Implied indemnity
Applicability of, 7.310
Attorney fees awarded to prevailing party on claim for, 13.171
Source of obligation, 7.311
Insurance
Automobile accident, indemnification not required if employee operating own insured vehicle, 13.87
Distinguishing insurance from indemnification, 7.104
Duty of insurer to indemnify, 7.257
Intentional acts
Availability of indemnification, 7.308
Future versus past acts, 7.309
Joint community facilities agreements, indemnification of city in contract, 5.80
Joint powers agreements, indemnity issues in, 13.181
Municipal plaintiffs, indemnity actions by. See **Municipal Plaintiffs**

Nature of indemnity, 7.296
Parade permits, indemnity requirements for, 9.150
Prevailing wages, indemnification of city required if subsidy triggers, 5.300
Public employees and officer
Defense of civil actions brought against employees and former employees, 13.86, 13.88
Duty to indemnify employees or former employees, 13.87
Public works contracts, limits on indemnification agreements in, 7.69
Punitive damages
Paying on behalf of employees, 13.87, 13.89, 13.147, 13.156
Timing considerations, 13.147
Reservation of rights, 13.88
Right to seek indemnification, 7.297
Scope of employment, interpretation of, 13.88
Scope of indemnification (see Type and scope of indemnification, below)
Section 1983 actions, application of duty to indemnify to, 13.87, 13.89, 13.147
Subrogation issues for municipality if found liable for employee's tort, 13.183
Time. See **Time**
Tortious acts by elected officials, special rules on, 13.87
Type and scope of indemnification
Generally, 7.221
Construction contracts, 7.223
Essential public service, indemnity as condition for rendering, 7.222
Trucking contracts, 7.224
Utility franchise ordinance, indemnification clause requirement, 6.55

Independent Contractors
Fair Labor Standards Act (FLSA), exclusion of independent contractors from coverage under, 4.46

Indian Casinos
Gambling establishments, regulation of, 9.30-9.32
Redevelopment assistance for projects that involve gambling, 5.370

Indian Gaming Regulatory Act (IGRA), 9.30-9.32

Industrial Development Authorities
Powers of, 1.70

Inferences. See **Presumptions and Inferences**

Infill Opportunity Zone
Surplus property, offer to sell or lease for purpose of developing property within infill opportunity zone, 8.92

Infractions. See **Criminal Enforcement**

Initial studies. See **California Environmental Quality Act (CEQA)**

Initiatives and Referenda
See also **Ballot Measures**
Amendments
Ordinance, amendment or repeal of, 1.242
Writ of mandate seeking amendment of ballot title or summary to correct false or misleading information, 3.83
Ballots
Form of ballot used for initiatives and referendum measures, 3.50
Order of initiatives appearing on ballot, 3.44
Polling stations, 3.51
Unlawful measure (Unlawful initiative or referendum, city's options about, below)
Writ of mandate (see Mandate, writ of, below)
Benefits assessments, initiatives to reduce or appeal, 5.157
California Constitution, provisions for powers of initiative and referenda in, 3.80
City attorney
Constitutionality of proposed initiative, city attorney seeking declaration on, 3.117
Impartial analysis of initiative, city council requesting city attorney prepare, 3.87
City council's action on initiative petition
Adoption of petition without change or submission of proposal to voters, 3.86
Declaratory relief action for writ of mandate to remove initiative from ballot, city council seeking, 3.86

Impartial analysis, city council's request for, 3.87
Report on fiscal impact, general and specific plan consistency, and other matters, city council referring petition to city agencies for, 3.88
Unlawful initiative (see Unlawful initiative or referendum, city's options about, below)
City council's action on referendum petition
Generally, 3.98
Election on ordinance, 3.100
Repeal of ordinance by city council, effect of, 3.99
Unlawful referendum (see Unlawful initiative or referendum, city's options about, below)
Constitutional law, generally
California constitutional provisions providing for initiatives and referendum, 3.80
City attorney seeking declaration that proposed initiative unconstitutional, 3.117
Consistency of initiatives and referenda with state and federal constitutional requirements, 3.115
Constitutional limitations on initiative
Naming individual to hold office or naming private corporation to perform function, prohibition against submitting measure to board, 3.104
Single-subject rule, effect on initiative measures, 3.103
Constitutional limitations on referenda, 3.105
Declarations
Initiative petition, declaration of person soliciting signatures for, 3.84
Referendum petition, attachment of circulator's declaration to, 3.95
Definitions, 3.80
Exemptions (see Procedural exemptions, below)
Gann Initiative. See **Gann Limit**
General plans. See **General Plans**
Judicial limitations on initiatives and referenda
Adjudicatory acts, examples of, 3.108
Arbitrary and discriminatory regulation, effect of initiative constituting, 3.113
Directing city council to perform legislative act prohibited, 3.109
Discretion of city council, electorate prohibited from exercising power of initiative or referendum on matters assigned by legislature to, 3.110
Essential government functions, power of initiative and referendum not extending to, 3.111
General plan, consistency of initiatives and referenda with, 3.114
Legislative acts, initiatives and referenda limited to, 3.106-3.107
Regulation of matters preempted by state prohibited, 3.112
State and federal constitutional requirements, consistency of initiative or referendum with, 3.115
Judicial review of, 3.123
Limitations on use of initiative and referendum
Constitutional limitations (see Constitutional limitations on initiative, above)
Constitutional limitations on referenda, 3.105
Judicial limitations (see Judicial limitations on initiatives and referenda, above)
Mandate, writ of
Amendment of ballot title or summary to correct false or misleading information, writ of mandate seeking, 3.83
Refusal of city to place measure on ballot, mandamus action to overturn, 3.118
Removal of initiative from ballot, city filing writ of mandate for, 3.86
Notice
Circulate initiative petition, notice of intent to, 3.83
Enactment of initiative, inapplicability of notice requirements to, 3.120
Ordinances (see Statutory procedures for city referenda (ordinances), below)
Petition for proposed initiative
Generally, 3.82
Circulation of petition, 3.84
City council's action (see City council's action on initiative petition, above)
Filing petition, time limit for, 3.85
Inspection of petition for initiative, restrictions on, 2.227, 2.243
Notice of intent to circulate petition, 3.83
Signatures (see Signatures, below)
Petition for proposed referenda
Generally, 3.95
Circulation of petition, 3.96
City council's action on petition (see City council's action on referendum petition, above)
Contents of petition, 3.95
Effective date of ordinances, 3.101
Filing of petition, 3.97
Inspection of petition for referenda, restrictions on, 2.227, 2.243

Procedural exemptions
California Environmental Quality Act (CEQA), applicability to initiatives, 3.121
Housing growth control ordinances, applicability to initiatives, 3.122
Notice and hearing requirements, inapplicability to enactment of initiatives, 3.120
Redevelopment agencies, ordinance creating subject to referendum, 5.305, 5.310
Redevelopment plans, ordinance adopting plan subject to referendum, 5.335
Signatures
Declaration of person soliciting signatures for petition, 3.84
Number of signatures required for referendum petition, 3.97
Tax, signature requirements for measure repealing or reducing, 3.91
Timing of election, number of signatures on petition determining, 3.89
Special taxes
Adoption or repeal of, 5.120
Two-thirds vote required for passing, 3.92
Statutory procedures for city initiatives
Generally, 3.81
Adoption of initiative, majority vote required for, 3.92
Charter cities, inapplicability of statutory schemes for initiatives to, 3.102
Conflicting initiatives, effect of, 3.93
Effective date, 1.237-1.238
Legislative acts, initiative powers limited to, 3.81
Petitions (see Petition for proposed initiative, above)
Repeal of initiative adopted by city council or voters, 3.92
Timing of election (see Timing of election for initiative, below)
Statutory procedures for city referenda (ordinances)
Generally, 1.229, 3.94
Adopting ordinances, generally, 1.236
Adoption by reference, 1.240
Amendment or repeal of ordinance, 1.242
Authority of city council to make and enforce ordinances, 1.230
Charter cities, inapplicability of statutory schemes for referenda to, 3.102
Drafting ordinances, 1.235
Effect of ordinances, 1.231
Penalty for violation of ordinance, 1.241
Permissible subjects, 1.233
Petition for proposed reference (see Petition for proposed referenda, above)
Publication of ordinance, 1.239
Resolutions as ordinances, 1.244
Resolutions distinguished, 1.228, 1.243
Severability clauses, effect of, 1.234
Validity of ordinances, 1.232
Zoning ordinances. See **Zoning Ordinances**
Tax measure
Signature requirements for measure repealing or reducing tax, 3.91
Special taxes (see Special taxes, above)
Time, generally
Effective date of ordinances, 3.101
Petition protesting adoption of ordinance, time limit for submitting after adopted referendum attested by city clerk, 3.97
Petition, time limit for filing, 3.85
Report on impact of initiative, time limit for presenting, 3.88
Submitting ordinance to voters, time limit for, 3.100
Timing of election for initiative
Number of signatures on petition determining, 3.89
Regular election, city council placing initiative on ballot for next, 3.91
Special election, 3.90
Unlawful initiative or referendum, city's options about
Generally, 3.116
Ballot, city's options after placing measure on, 3.119
Ballot, refusal to place measure on, 3.118
Title and summary, city's refusal to prepare, 3.117
Writ of mandate (see Mandate, writ of, above)

Injunctions
Air quality abatement order violations, 11.222-11.223
Antitrust actions, injunctions available in, 13.153

Closed sessions. See **Closed Session Meetings**
Code enforcement, injunctive relief as remedy, 12.2, 12.4, 12.16
Drug House Abatement Act, injunctive relief under, 12.13-12.17
Election materials, injunction seeking amendment or deletion of, 3.57
Endangered Species Act (ESA) enforcement, 11.279, 11.283
Fair Labor Standards Act (FLSA), injunctive relief to prevent violations of, 4.84
Firefighters Procedural Bill of Rights Act, injunctive relief under, 4.319
Immunity doctrine, inapplicability to injunctions, 13.91
Nuisance abatement, claims not subject to Government Claims Act, 13.32
Political Reform Act of 1974, standing to sue to enjoin violations or to compel compliance with, 3.207
Public Records Act, injunctive relief for improper withholding of records under, 2.258
Public Safety Officers Procedural Bill of Rights Act, injunctive relief under, 4.310
Redevelopment plans, injunction issuing for failure to timely prepare replacement housing plan, 5.408
Section 1983 actions. See **Section 1983 Actions**
Speech, prior restraint not allowed by First Amendment, 9.127
State mandates, injunctions against enforcement if unfunded, 5.261
Taking, injunction against regulation resulting in, 10.404
Title VII and Age Discrimination in Employment Act, injunctive relief in action for violations of, 4.264
Unfair Competition Act, injunctive relief under, 12.12, 12.21
Water quality, violation of waste discharge requirement permit, 11.157, 11.159

Insolvency. See **Bankruptcy and Insolvency**

Inspection
Administrative abatement, evidence gathering and inspection warrants under, 12.67
Initiative, referendum, and recall petitions, restrictions on inspection of, 2.227, 2.243
Personnel records. See **Personnel Records**
Prevailing wage law, contractor or subcontractor making payroll records available for inspection under, 7.54, 7.93
Public Records Act. See **Public Records Act (California)**
Warrants for, 12.67

Insurance
Additional insured endorsements
Certificates of insurance, effect of, 7.284
Contract, insurance policy as, 7.279
Endorsement language, 7.281
Form endorsements, 7.282
Reasons for additional insured status, 7.280
Aggregate limits, 7.273
Automobile coverage, 7.213, 7.285, 13.87
Boat launching facility on private property, 6.173
Bodily injury coverage, 7.287
Broad form coverage, 7.274
Certificates of insurance, 7.284
Claims made policies (see Occurrence versus claims made policies, below)
Commercial general liability coverage
Generally, 7.212
Amounts, 7.276
Scope of coverage, 7.275
Common contractual provisions, 7.216
Comprehensive coverage
Generally, 7.270
Exclusions, 7.271
Owner-controlled insurance programs, 7.272
Duty to defend, 7.256
Employer's liability, 7.215
Errors and omissions coverage for public officials, 7.293
Exclusions
Generally, 7.255
Comprehensive coverage, 7.271
Indemnification. See **Indemnification**
Interpretation of insurance policies, 7.254-7.255
Licensing insurance companies, 7.278
Mandatory versus optional coverage, 7.253
Occurrence versus claims made policies

Generally, 7.267
Claims made policies, 7.269
Occurrence policies, 7.268
Parade permits, insurance as requirement of, 9.150
Personal injury coverage, 7.288
Products and completed operations coverage, 7.289
Professional liability insurance, 7.214, 7.292
Property insurance, 7.290
Rating insurance carriers
Best's rating, 7.277
Licensing insurance companies, 7.278
Resources for practitioners, 7.266
Right to require insurance, 7.209-7.210
Self-insurance
Generally, 7.258
Pools (see Self-insurance pools, below)
Retentions and reserves, 7.259
Self-insurance pools
Examples of pool types, 7.264
Governing law, 7.262
Other insurance, pools not considered, 7.263
Professional organizations, 7.265
Purpose and scope, 7.260
Services provided, 7.261
Submitting and enforcing insurance claims, 7.294
Surety bonds distinguished, 7.95
Tax exemptions for insurance companies, 5.102
Third party liability policies (see Occurrence versus claims made policies, above)
Types of insurance, generally, 7.211
Umbrella or excess liability policies, 7.291
Workers' compensation. See **Workers' Compensation**

Intent
Federal preemption analysis, ascertaining congressional intent for purposes of, 1.33-1.35

Interest on Money
Back pay in discrimination action, recovery of pre-judgment and post-judgment interest, 4.259
Eminent domain proceedings. See **Eminent Domain**
Public works contracts, provision for interest on progress payment requests, 7.72

Intergovernmental Agreements, Authority for. See **Goods and Services, Contracting for**

Intergovernmental Relations (Federal)
Eleventh Amendment, immunity under
Generally, 1.92
Municipality immunity, 1.94
State immunity, 1.92-1.93, 13.127
Eminent domain, 1.106
Grants. See **Grants (Federal and State)**
Regulation of federal lands
Implied immunity, 1.87
Intergovernmental Cooperation Act, 1.88
Property clause, 1.86
Supremacy clause, 1.85

Equitable indemnity, municipality cross-complaining against third party, 13.182
Government Claims Act, actions not subject to, 13.32
Redevelopment, action for damages for failure of agency to timely condemn, 5.355

Investigations
Background checks of minors seeking position supervising other children, 4.25
Discrimination complaint, investigation of. See **Discrimination Laws, Enforcement of**
Fair Labor Standards Act (FLSA) violations, Department of Labor investigating, 4.83
Grievance filed by employee, city's investigation of, 4.291
Law enforcement agencies' investigative records, exemption from disclosure, 2.251
Police misconduct, statute of limitations for investigating, 4.271
Sexual harassment claim, employer's investigation of. See **Sexual Harassment**

Investments
Authority to invest
City council, 5.269
City manager, 5.270-5.271
City treasurer, 5.270
Definitions
Active deposit, 5.273
Inactive deposit, 5.273
Deposits, 5.273
Disqualification of public official for direct or indirect investment in business entity, 2.121
Permitted investments
Generally, 5.265
Charter cities permitted investments, 5.266
Local Agency Investment Fund, 5.267
Policy for investments, 5.268
Reporting requirements, 5.272

Investor-Owned Utilities. See **Electric Utilities**

Jails. See **Correctional Facilities**

Joint Powers Agencies

Generally, 1.76
Closed session disclosure report on disposition of claims, 2.106
Council of governments created by joint powers agreement. See **Council of Governments (COG)**
Delegated powers under joint powers agreements, 1.77
Disaster preparation and response agencies, joint powers agreements establishing, 6.199
Financing, use of joint powers agencies in, 1.78
Indemnity issues in joint powers agreements, 13.181
Land use, regional planning issues and joint powers authorities, 10.276
Political Reform Act of 1974, city attorney's fee splitting arrangement with bond counsel for joint powers agency as violation of, 2.209
Preservation of public interest in sensitive lands, joint powers agreements, 11.8

Journalists. See **Newspapers and News Media**

Judgments
Election contests. See **Election Contests**
Eminent domain action, judgment and payment of judgment in, 8.63
Parking fines and forfeitures, obtaining and enforcement, 5.211

Judicial Review
See also **Appeals**
Due process. See **Due Process**
Government Claims Act, judicial review of determination on petition for relief under, 13.83-13.85
Initiatives, judicial review of, 3.123
LAFCO decisions, judicial review of, 1.129
Parliamentary procedures, judicial review of, 2.14

Junk Dealers
Business and occupational regulation of, 9.46

Jurisdiction
Annexation of territory, effect of, 1.158
Bankruptcy court's jurisdiction over municipal bankruptcy, 5.446
Cable service providers, CPUC jurisdiction over, 6.63
California Coastal Commission, jurisdiction over post-certification appeals from local government permit decisions, 10.316-10.317
Detachment of territory, effect of, 1.164
Dissolution and disincorporation, effect of, 1.174
Electric utilities, jurisdiction over. See **Electric Utilities**
Endangered Species Act (ESA), 11.277
Incorporation, city jurisdiction after, 1.144
LAFCOs, jurisdictional overlaps for, 1.130
Mandamus, exhaustion of remedies as jurisdictional requirement, 13.13
Meyers-Milias-Brown Act, jurisdiction of California Public Employment Relations Board to hear complaints alleging violation of, 4.323
Reclaimed water projects, regulatory jurisdiction over, 6.8
Section 1983 actions, states having concurrent jurisdiction over, 13.122, 13.151
Solid waste and recycling services, jurisdiction over. See **Solid Waste and Recycling Franchises**
Supplemental jurisdiction of federal court over related state claim, 13.159
Taking, ripeness as jurisdictional requirement, 10.371, 13.27
Title VII and Age Discrimination in Employment Act lawsuits, state and federal courts sharing jurisdiction over, 4.248
Water quality for wetlands. See **Water Quality**
Workers' Compensation Appeals Board, jurisdiction of, 4.382

Labor Negotiations. See **Closed Session Meetings**

Labor Unions
Campaign regulations. See **Campaign Regulations**
Civil Rights Act of 1871, union's standing to sue under, 4.157
Collective bargaining agreements. See **Collective Bargaining Agreements**
Meyers-Milias-Brown Act. See **Meyers-Milias-Brown Act**
Strikes. See **Strikes**

LAFCOs. See **Local Agency Formation Commissions (LAFCOs)**

Landfills
California Integrated Waste Management Act of 1989, effect of, 6.100
Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERLA), litigation under, 6.100
Environmental Protection Agency (EPA) regulating siting, design, and construction of landfills on wetlands sites, 6.100
Resource Conservation and Recovery Act of 1976 (RCRA), effect of, 6.100

Landscaping and Lighting Act of 1972, 5.134

Land Use
Generally, 10.1
Affordable housing. See **Affordable Housing**
Agencies to carry out land use responsibilities, 10.4
Air quality attainment plans lack power to impact land use regulations, 11.192
Beaches, tidelands, and streams. See **Tidelands, Beaches, and Streams**
Building permits. See **Building Permits**
California Coastal Act. See **California Coastal Act**
Challenges to land use decisions
Generally, 10.362
CEQA. See **California Environmental Quality Act (CEQA)**
Civil rights claims, 10.444
Due process issues. See **Due Process**
Equal protection. See **Equal Protection**
Taking. See **Taking**
Discrimination. See **Discrimination**
Equitable estoppel defense against entity, exceptional circumstances required for, 13.175
Exactions. See **Exactions**
General plans. See **General Plans**
Growth management. See **Growth Management**
Hearings
Procedural due process requiring, 10.5-10.9
Record of hearing, request for, 2.78
Housing. See **Housing**
Mandamus, scope of review in land use decisions, 13.8
Moratoria
Authority for, 10.208-10.209
Takings issues. See **Taking**
Notice
Legislative acts, notice and hearing requirements, 10.9
Quasi-judicial proceedings (see Quasi-judicial proceedings, notice requirements for hearings, below)
Permit Streamlining Act. See **Permit Streamlining Act (PSA)**
Planning and Zoning Law as basis for, 10.2
Planning commissions as optional advisory group, 10.3
Quasi-judicial proceedings, notice requirements for hearings
Generally, 10.5
Adequacy of notice, 10.7
Affected property owners, notice to, 10.6
Type of notice, 10.8
Regional planning issues
Airport planning. See **Airports**
Housing obligations for regional needs, 10.275
Joint powers authorities, 10.276
Office of Planning and Research for, 10.250
Transportation planning. See **Transportation Planning**
Waste management. See **Waste Management Planning**
Streams, tidelands, and beaches. See **Tidelands, Beaches, and Streams**
Subdivisions. See **Subdivisions**
Tidelands, beaches, and streams. See **Tidelands, Beaches, and Streams**
Water considerations in. See **Water Supplies**

Law Enforcement Personnel
See also **Criminal Law**
Arrest record or participation in diversion program, permissibility of asking candidates for peace officer position about, 4.22
Closed session of legislative body to meet with law enforcement about public security, 2.99
Meyers-Milias-Brown Act. See **Meyers-Milias-Brown Act**

Misconduct
Public Safety Officers Procedural Bill of Rights Act, time limit for imposing discipline after discovery of alleged misconduct, 4.303
Statute of limitations for investigating civilian police employee misconduct, 4.271
Overtime pay requirements, partial exemption for law enforcement personnel. See **Fair Labor Standards Act (FLSA)**
Personnel records. See **Personnel Records**
Public Records Act
Exemption from disclosure for peace officer personnel records and records of citizen complaints, 2.247
Investigation records of law enforcement agencies, exemption from disclosure, 2.251
Names and salaries of peace officers, disclosure of, 2.246
Punitive action against police officer. See **Public Safety Officers Procedural Bill of Rights Act**
Scope of employment, interpretation of for indemnification issues, 13.88
Security guards, police officers as, 7.191
Sheriff
Emergency powers of sheriff, 6.199
Separate client from county, sheriff as, 2.201
Special taxes for support of, 5.88-5.91
Statute of limitations tolled while criminal charges pending against claimant, 13.67
Strikes by police officers, illegality of, 4.348

Layoffs
Distinction between layoffs and discharging employees for cause, 4.41

Leases
Acquisition offer to lessees when eminent domain contemplated, 8.29
Certificates of participation. See **Debt Financing**
Debt limit, as exception to, 5.293
Economic development as means of reducing lease amount, 5.298
Eviction regulations as example of valid overlapping state and local regulation, 1.41
General leasing authority, 8.115
Harbor leasing. See **Harbors**
Lease-back agreements. See **Debt Financing**
Prevailing wage law, applicability to work performed on leased facilities, 7.88
Recordation of lease, 8.118
Revenue from leases of real and personal property, 2.263
Specific kinds of leases, authority for, 8.116
Statement concerning taxable interest, 8.117
Surplus real property, offer to sell or lease. See **Surplus Property**

Legal Malpractice
Reliance on legal advice from government attorney, prohibition against legal malpractice action based on, 2.171

Lewd or Dissolute Conduct
Personal conduct regulation of, 9.75-9.76

Liability
Generally, 13.90
Affirmative defenses. See **Defenses**
Animals, liability issues of public officers for death or injuries to, 9.173
Antitrust laws, application to municipalities, 13.153
Apportionment of liability for economic damages, 13.182
Attorney fees, municipal liability for. See **Attorneys' Fees**
Checklists (see Torts, generally, below)
Common law liability, abolishment of, 13.94
Constitutional claims as basis for liability claims
Generally, 13.113
Section 1983 actions, 13.114, 13.116
Contractual liability
Generally, 13.154
Limitation of liability clauses, 7.226
Public entity liability, contractual provision for, 7.209, 7.218
Damages. See **Damages**
Dangerous condition of public property
Generally, 13.99
Absence of prior accidents, admissibility to show site not dangerous, 13.101

Adjacent property, dangerous condition on, 13.102
Affirmative defenses, 13.106
Certificate of review required before filing action, 13.106
Definition of dangerous condition, 13.101
Elements of proof, 13.99
Legal cause of injury, dangerous condition as, 13.104
Notice of, 13.105
"Owned or controlled" property, 13.100
Trivial defects, insufficiency to create dangerous condition, 13.103
Definitions
Actual notice, 13.105
Constructive notice, 13.105
Dangerous condition, 13.101
Employee, 13.94
Enactment, 13.98
Legal cause, 13.104
Public entity, 13.94
Discretionary acts
Generally, 13.95
Discretionary versus ministerial acts, test for, 13.96
Employee immunity for discretionary acts, application of, 13.97
Mandatory duties, liability for failure to discharge, 13.98
Hazardous materials. See **Hazardous Materials and Toxic Waste**
Immunity principles
Generally, 13.91
Antitrust, immunity of municipality from liability for, 13.153
Design immunity, 13.106-13.107
Disaster liability immunity under California Emergency Services Act. See **California Emergency Services Act**
Discretionary acts, employee immunity for, 13.97
Government Claims Act, specific immunities in, 13.93
Section 1983 actions. See **Section 1983 Actions**
Tort immunities, 13.92
Vehicle pursuits by public safety personnel, immunity for liability from, 13.134
Indemnification issues. See **Indemnification**
Mandatory duties, liability for failure to discharge, 13.98
Notice
Actual notice defined, 13.105
Constructive notice defined, 13.105
Dangerous condition of public property, notice of, 13.105
Personal liability of officers and employees, 13.155
Scope of employment
Color of law compared, 13.132
Determination of, 13.109
Section 1983 actions. See **Section 1983 Actions**
Torts, generally
Generally, 13.94
Checklist after lawsuit filed, 13.108
Checklist before lawsuit filed, 13.107
Dangerous condition of public property (see Dangerous condition of public property, above)
Defamation. See **Defamation**
Discretionary acts (see Discretionary acts, above)
Immunities for (see Immunity principles, above)
Intentional torts by employees, liability of entity for, 13.109
Scope of employment, determining, 13.109
Traffic signs and signals, providing versus maintaining, 13.106
Wrongful death liability, 13.121

Libel. See **Defamation**

Liberty Interests in Pursuing Employment. See **Disciplinary Actions Against Employee**

Libraries
Exemptions from property tax by, 5.22, 5.101
Special taxes for support of, 5.92

Licenses and Permits
Adult businesses, permit requirements and operating restrictions, 9.12
Air quality. See **Air Quality**
Alcohol sales, licensing for, 9.21
Appropriations limit on, 5.11
Army Corps of Engineers. See **Army Corps of Engineers**
Building permits. See **Building Permits**
Business license fees and taxes. See **Taxes**
California Coastal Act. See **California Coastal Act**
Closed session of legislative body to consider license application by person with criminal record, 2.99
Conditional use permits. See **Conditional Use Permits**
Contractual provision warranting contractor properly licensed, 7.229
Dogs and cats, licensing regulation of, 9.162
Endangered Species Act (ESA) permits. See **Endangered Species Act (ESA)**
Expressive activity permits, expedited mandamus review for, 13.23
Fish and Game Department. See **Fish and Game, Department of**
Household hazardous waste drop-off events and sites, permit required for, 11.241
Insurance company licensing, 7.278
Motor vehicle license fees, authority for, 5.7
National Pollutant Discharge Elimination System (NPDES) permits. See **Water Quality**
Parades and parade permits. See **Parades and Parade Permits**
Permit Streamlining Act. See **Permit Streamlining Act (PSA)**
Prior restraints against speech and permit requirements, 9.128
Public Records Act, exemption from disclosure of licensee's personal financial data, 2.248
Public works contracts, contractor's license issues for. See **Contractors and Subcontractors for Public Works Contracts**
Reclaimed water project, permits required for operation of, 6.9
Section 1983 actions, causation as defense for employee involved in permit application denied by city council, 13.142
State subventions. See **Revenues**
Storm water permits. See **Storm Drains**
Taxes. See **Taxes**
Taxicab licensing violations, consequences of, 9.42
Water quality and discharge. See **Water Quality**

Lie Detector Tests. See **Polygraph Tests**

Liens and Encumbrances
Benefit assessments and assessment districts, recording assessment roll as placing lien, 5.141
Community facilities district, filing of notice of special tax lien after formation of district, 5.81
Drug House Abatement Act, liens against property under, 12.14
Fees and charges, lien on parcel compared with lien only if default, 5.176
Nuisance abatement lien, 12.13-12.14, 12.23
Red Light Abatement Act, liens against property under, 12.13

Limitation of Actions See **Statutes of Limitations**

Limousine Rentals
Business and occupational regulation of, 9.34

Liquidated Damages. See **Damages**

Lis Pendens
Eminent domain proceedings, recording lis pendens notice for, 8.45

Loans
Public official's acceptance of personal loans prohibited, 2.156
Redevelopment
Commercial rehabilitation loans possible, 5.372
Mark-Roos public financing authority bonds, 5.240
Water Resources Department, evaluation of applications for loans and grants by, 11.93

Lobbying
Public funds, permissibility of lobbying efforts involving use of
Generally, 3.217
Distinguishing between lobbying and campaigning, 3.219
Political Reform Act of 1974, registration and reporting requirements for state lobbyists under, 3.218

Regulation of lobbyists appearing before city boards or agencies, 2.187
Reporting requirements for lobbying by state and local agencies
Generally, 2.186
Political Reform Act of 1974, registration and reporting requirements for state lobbyists under, 3.218
Statutory authority permitting cities to engage in lobbying, 2.185

Local Agency Formation Commissions (LAFCOs)
Generally, 1.107
Annexation. See **Annexation**
CEQA, LAFCO as project for purposes of, 1.122
Changes of organization
Generally, 1.114
Annexation. See **Annexation**
Conditions on changes, 1.116
Confirmation election required if LAFCO initiates change of organization, 1.114
Consolidation of districts, 1.170
Detachment. See **Detachment**
Farmland security zones, changes relating to, 1.115
Limitations on approving or disapproving changes, 1.124
Quo warranto action, challenging completed change of organization or reorganization by, 1.129
Validation action, challenging completed change of organization or reorganization by, 1.129
Composition of LAFCOs, 1.110
Funding, 1.111
Historical background, 1.108
Incorporation proceedings. See **Incorporation**
Independent judgment exercised by LAFCO members, 1.110
Limitations on LAFCO power
Approving or disapproving changes of organization, limitations on, 1.124
Imposing conditions, limitations on, 1.123
Mandatory LAFCO approval, 1.125
Powers of LAFCOs
Generally, 1.112
Changes of organization (see Changes of organization, above)
Limitations on (see Limitations on LAFCO power, above)
New or extended services outside boundaries, provision of, 1.121
Particular powers, 1.113
Spheres of influence (see Spheres of influence, below)
Procedures applicable to LAFCO proceedings
Generally, 1.126
Evidence gathering, 1.127
Incorporation proceedings. See **Incorporation**
Judicial review, 1.129
Jurisdictional overlaps, 1.130
Subsidiary districts, establishing. See **Subsidiary Districts**
Time limits, 1.128
Purpose of LAFCOs, 1.108
Role of LAFCOs, generally, 1.109
Spheres of influence
Generally, 1.117
Determining sphere of influence, 1.118
Mandatory service reviews, 1.119
Updates and amendments to sphere of influence, 1.120
Validation action, challenging sphere of influence determination by, 1.129
Subsidiary districts. See **Subsidiary Districts**
Writings
Policies and procedures required to be adopted by LAFCOs, 1.109
Sphere of influence determinations, 1.118

Local Agency Investment Fund
Investment vehicle for local governments, 5.267

Local Ordinances. See **Ordinances**

Local Preferences. See **Goods and Services, Contracting for**

Loitering
Generally, 9.100
Due process issues with regulation of, 9.102-9.103
Equal protection issues with regulation of, 9.101
Free assembly and association issues with regulation of, 9.104
Homeless persons, ordinances as cruel and unusual punishment, 9.106
Liability issues, 13.121
Preemption of criminalized conduct, 9.105

Low-Income Housing. See **Affordable Housing**

Loyalty Oaths
Religious beliefs of applicant, effect on requirement of taking loyalty oath, 4.218

Mail
Agenda for meeting, mailing of, 2.57
Ballots, mailing of. See **Ballots**
Counting votes cast by, 3.23
Mass mailing restrictions for public officials, 2.157

Malpractice
Medical. See **Medical Malpractice**
Reliance on legal advice from government attorney, prohibition against legal malpractice action based on, 2.171

Management Employees. See **Meyers-Milias-Brown Act**

Manager. See **City Manager**

Mandamus, Writ of
Generally, 13.2-13.3
Administrative mandamus
Generally, 13.16
Burden of proof, 13.22
Evidence admissible in actions for, 13.21
Expressive activity permits, expedited review for, 13.23
Findings required, 13.16
Scope of review, 13.17
Standard of review (see Standard of review for administrative mandamus, below)
Statute of limitations applicable to, 13.23
Airport land use compatibility plans (ALUCP), failure of commission to act on, 10.258
Appeal of order from, 13.15
Attorney fees, municipal liability for, 13.161
Building permit decisions, application of writ to, 13.4
Burden of proof
Generally, 13.10
Administrative mandamus, 13.22
Exhaustion of administrative remedies required, 13.13
Presumption of validity required, 13.12
Reasonable relation test as deferential standard, 13.11
California Coastal Commission actions, mandate for review of, 10.322
California Environmental Quality Act (CEQA), challenges to, 11.73, 11.75
Constitutional limits on review
Generally, 13.24
Equal protection issues when discriminatory classification involved, 13.25
Ripeness requirement, 13.27
Substantive due process issues and, 13.26
Cost reimbursements, mandamus to set aside decision of Commission on State Mandates, 5.260
Definitions
Adjudicatory act, 13.2, 13.5
Legislative act, 13.2, 13.5
Ministerial act, 13.2, 13.4
Election materials, writ of mandate seeking amendment or deletion of, 3.57
Evidence
Admissibility of evidence in actions for mandamus, 13.9, 13.21

Standard of review for administrative mandamus, substantial evidence test as, 13.19
Government Claims Act
Claims for release of funds or return of property not subject to, 13.32
Rejection of claim not subject to mandamus, 13.65
Relief from claims requirement, granting petition for subject to mandamus, 13.84
Immunity doctrine, inapplicability to mandamus, 13.91
Initiatives. See **Initiatives and Referenda**
Pension plan, mandamus proceeding to compel public body to pay, 4.40
Proper method of review, traditional mandamus as
Ministerial acts lacking discretion, 13.4
Quasi-legislative acts but not adjudicatory acts, 13.5
Quasi-judicial proceedings (see Administrative mandamus, above)
Redevelopment, action to force eminent domain proceedings or declare exemption, 5.355
Rent control, timing of mandamus and Section 1983 actions involving denial of fair return, 9.51
Scope of employment, declaratory relief for employer funded defense, 13.88
Scope of review
Generally, 13.6
Abuse of discretion, application to mandamus, 13.6
Land use decisions, special considerations in, 13.8
Motives of legislators not subject to inquiry, 13.7
Standard of review for administrative mandamus
Generally, 13.18
Independent judgment test for fundamental vested rights, 13.20
Substantial evidence test, 13.19
Statute of limitations, 13.14, 13.23
Taking, mandamus seeking invalidation of regulation causing, 10.404
Water supplier, compelling compliance of, 11.108

Mandates
Cost reimbursement by state for mandates. See **Cost Reimbursements From State**
State mandates, 1.97
Suspended or repealed mandates, review of state budget bills for, 1.97

Marijuana
Medical marijuana, no duty to reasonably accommodate use of, 4.224

Marks-Roos Local Bond Pooling Act of 1985
Generally, 5.237
Joint powers agency authorized to pool capital needs of agencies under, 1.78, 5.237
Public financing authority bonds
Generally, 5.237
Lease and installment sale financing, 2.239
Loans for redevelopment activities, 5.240
Pooling of bonds, 2.238

Massage Parlors
Business and occupational regulation of, 9.35

Mass Transit. See **Public Transportation**

Mayors
Generally, 1.202
Appointment power, 1.206
Authority, 1.204
Conflict of interest disclosure statements. See **Political Reform Act of 1974**
Establishing or eliminating office of elected mayor, 1.203
Mayor pro tempore, selection of, 1.207
Presiding officer at city council meetings, mayor as. See **City Council Meetings**
Qualifications for elected mayor, 3.34
Salary, 1.205, 1.211
Strong mayor form of government, 1.182
Vacancy in office, filling, 1.203

McAteer-Petris Act, 6.179

Meal Periods. See **Rest and Meal Periods**

Media. See **Newspapers and News Media**

Mediation
See also **Alternative Dispute Resolution (ADR); Arbitration**
Code enforcement proceedings, use of mediation in, 12.81
Meyers-Milias-Brown Act providing for, 4.349
Public works contracts, mediation provisions in, 7.47, 7.112

Medical Examination
Disabled job applicant, employer requiring medical examination of. See **Disabled Persons**
Drug testing. See **Drug Testing**
Fair Employment and Housing Act (FEHA) allowing employment offer conditioned on results of medical examination, 4.21

Medical Malpractice
Accrual of cause of action for claims presentation, 13.58
California Emergency Services Act, immunity from disaster malpractice under, 6.194

Medical Reports
Confidentiality of
Generally, 4.384
Discrimination based on employee's refusal to sign authorization for release of confidential medical information prohibited, 4.114
Drug testing, confidentiality of medical information obtained from, 4.114
Workers' compensation litigation, medical reports in. See **Workers' Compensation**

Meet and Confer Obligation. See **Meyers-Milias-Brown Act**

Meetings
Generally, 2.1
Agendas. See **Agendas for Meetings**
California Emergency Services Act governing meeting procedures after disaster, 6.188
City council meetings. See **City Council Meetings**
Closed session meetings. See **Closed Session Meetings**
Constitutionality of prayer or silent meditation at beginning of meetings, 2.6
Minutes of meeting
City council meeting, 2.6
Land use hearing, request for record of, 2.78
Open meeting laws. See **Open Meeting Laws**
Quorum requirements. See **Quorum**
Voting during meetings
City council meetings, requirement of majority or super-majority vote for, 2.2
Closed session, disclosure of vote in. See **Closed Session Meetings**
Teleconferenced meetings, voting by roll call during, 2.72

Mello-Roos Community Facilities Act of 1982
Generally, 5.76
Amount of tax, 5.82
Bonds
Challenges to validity of tax or bond issuance, 5.87
Issuance and limitations on, 5.86-5.87, 5.229
Changes to district after approval, 5.85
Collection of tax, 5.83
Exemptions to tax, 5.84
Facilities, types authorized, 5.78
Formation of district, procedural steps, 5.81, 5.85
Joint community facilities agreements, 5.80
Levying of tax, 5.82
Proposition 218 s not rescinding election provisions under Act, 5.117
Redevelopment plan financing using, 5.395
Services, types authorized, 5.79
Voting mechanics to create district, 5.77

Meyers-Milias-Brown Act

Generally, 4.320
Agency shop agreements, employees paying organization service fee for representation services under, 4.332
Arbitration (see Binding arbitration for law enforcement officers and firefighters, below)
Bargaining units, public agency employer's exclusive right to determine appropriate, 4.333
Binding arbitration for law enforcement officers and firefighters
Generally, 4.342
Constitutionality of binding arbitration, 4.324, 4.342
Construction and interpretation of Act
Cases interpreting National Labor Relations Act (NLRA), effect on interpretation of Meyers-Milias-Brown Act, 4.325
Liberal construction of terms and conditions of employment subject to meet and confer obligations, 4.338
Covered employees, 4.320
Discrimination against employee exercising rights under Act prohibited, 4.326
Dispute resolution for violations of Act
Binding arbitration (see Binding arbitration for law enforcement officers and firefighters, above)
Jurisdiction of California Public Employment Relations Board to hear complaints alleging violation of Act, 4.323
Excluded employees, 4.320
Exclusive representative, effect of employer recognizing employee organization as, 4.331
Firefighters
Binding arbitration (see Binding arbitration for law enforcement officers and firefighters, above)
Right of firefighters to organize union, 4.328
Guaranty of employees' union right under, 4.322
Impasse in bargaining
Generally, 4.341
Binding arbitration (see Binding arbitration for law enforcement officers and firefighters, above)
Other employees, impasse procedures for, 4.343
Individual's right to represent self, 4.331
Interpretation of Act (see Construction and interpretation of Act, above)
Law enforcement personnel
Binding arbitration (see Binding arbitration for law enforcement officers and firefighters, above)
Right of law enforcement employees to join or participate in employee organizations, 4.328
Management employees
Employer's restriction on management employees representing other employees, 4.329
Shop agency agreement, inapplicability to management employees, 4.332
Management rights, test for determining if action falls within, 4.340
Mandatory collective bargaining system for California local government, Act creating, 4.322
Mediation, 4.349
Meet and confer obligation
Generally, 4.335
Attorney fees, award against losing party of discovery motion, 13.170
Good faith requirement of parties to meet and confer, 4.339
Impasse (see Impasse in bargaining, above)
Liberal construction of terms and conditions of employment subject to meet and confer obligations, 4.338
Scope of representation (see Scope of representation, matters within, below)
Unilateral changes in violation of Act as per se violation of duty to meet and confer, 4.344
Unilateral implementation following meet and confer, 4.345
Memorandum of understanding, contents of, 4.346
Notice of proposed ordinance, rule, resolution, or regulation relating to matters within scope of representation, requirement governing body give, 4.334
Organizing union, employees' rights concerning
Generally, 4.327
Firefighters' right to unionize, 4.328
Law enforcement employees' right to join or participate in employee organizations, 4.328
Management and confidential employees' representation of other employees, employer's restriction on, 4.329
Professional employees' right to be represented separately from nonprofessional employees, 4.330
Personnel records, union's access to, 4.129
Refusal to join employee organization, employees' rights concerning, 4.327
Rules for administration of employer-employee relations, Act providing, 4.321
Scope of representation, matters within
Generally, 4.336
Definitive test for determining if matter within scope of representation, lack of, 4.337
Strike, public employees' limited right to, 4.348
Unfair labor practices
Actions constituting, 4.347
Statute of limitations for unfair labor practices filed with California Public Employment Relations Board, 4.323
Unilateral changes

Generally, 4.344
Meet and confer, unilateral implementation following, 4.345

Military
General plan, impact on military facilities, 10.23
Protected leave for military service, 4.163, 4.175
Uniformed Services Employment and Reemployment Rights Act of 1994, employee's right to take leave under, 4.163

Mines and Mining
Lease of city property for production of minerals, 8.116
Office of Mine Reclamation (OMR), 1.101

Minimum Wage. See **Overtime and Minimum Wage**

Minors
See also **Children**
Background checks of minors seeking position supervising other children, 4.25
Curfews as personal conduct regulation of, 9.67-9.70
Fair Labor Standards Act (FLSA), child labor provisions of. See **Fair Labor Standards Act (FLSA)**
Government Claims Act
Claims by minors subject to act, 13.29
Late claims by minors, 13.59, 13.71
Parents and minors, claims are separate under Act, 13.51
Tolling of presentation period, 13.59, 13.74

Minutes of Meetings. See **Meetings**

Misconduct
Police misconduct. See **Law Enforcement Personnel**
Workers' compensation benefits, penalty if injury caused by employer's serious and willful misconduct, 4.377

Misdemeanors. See **Criminal Enforcement**

Misrepresentation. See **Fraud and Misrepresentation**

Immigration Reform and Control Act of 1986 prohibiting discrimination against applicants and employees based on citizenship or national origin, 4.12, 4.149
State personnel laws prohibiting, 4.170
Unruh Civil Rights Act and Ralph Civil Rights Act, scope of, 4.168

National Pollutant Discharge Elimination System (NPDES). See **Water Quality**

Natural Community Conservation Planning Act, 11.296

Natural Resource Agencies. See **Environmental and Natural Resources Agencies**

Negative Declarations. See **California Environmental Quality Act (CEQA)**

Negligence
Active negligence
Generally, 7.302
General indemnification clauses and active negligence, 7.304
General versus specific indemnification clauses, 7.303
Passive negligence distinguished, 7.301
Indemnification
Accrual of right to indemnification, 7.305

Active negligence (see Active negligence, above)
Defense costs, right to, 7.306
General principles, 7.299
Passive negligence, 7.301
Statute of limitations for enforcing indemnity agreement, 7.307
Statutory limitations, 7.300
Section 1983 actions, negligence not sufficient, 13.139

Negotiated Purchase Agreement
Acquisition of property by negotiated purchase agreement, common prerequisites for
Generally, 8.2
Appraisal, 8.8-8.9
CEQA, environmental review under, 8.6
Compliance with statutory and regulatory guidelines, 8.3
Environmental (contamination) assessment (see Environmental (contamination) assessment, below)
General plan, conformity with, 8.4
Notice of intent to appraise, 8.9
Offer in full amount of appraisal, rules governing, 8.30
Preliminary work to ascertain property interests, 8.5
Title search, 8.7
Appraisals, use of, 8.8-8.9, 8.30
Environmental (contamination) assessment
Generally, 8.10
Failure to perform assessment, consequences of, 8.13
Further assessment, 8.12
Purpose of assessment, 8.11

Negotiations
Closed session. See **Closed Session Meetings**
Eminent domain proceedings, precondemnation negotiations, 8.40
Federally funded projects. See **Federally Funded Projects**
Surplus property, good faith negotiations to purchase or lease, 8.94

NEPA. See **National Environmental Policy Act (NEPA)**

Newspapers and News Media
Adult publications. See **Adult Businesses**
City council meetings, rules affecting journalists' attendance at, 2.28
Election, publishing notice of. See **Elections**
Newsrack restrictions, 9.129
Notice of special meetings, media requesting, 2.68
Ordinance, publication of, 1.239
Police officer, employer prohibited from subjecting to visits by news media, 4.307
Recall, publishing notice of, 3.154
Removal of news media for participation in disruption of meeting, 2.81
Resolution of intent to dispose of real property, publication of, 8.83
Standing of news media to seek government records, 2.230
Taxation of First Amendment activity, 9.153

Noise
Generally, 9.107
Airports. See **Airports**
Air quality. See **Air Quality**
Freedom of speech issues with, 9.108
General plans for land use. See **General Plans**
Overbreadth challenges to regulation, 9.110
Vagueness challenges to regulation, 9.109
Vehicles and sound amplification systems, 9.111

Nomination of Candidates. See **Elections**

Nonconforming Uses and Structures. See **Zoning**

Nonprofit Corporations
Lease of city property to nonprofit corporation for housing development, 8.116

Services provided by, 1.84

Nonsummary Vacation of Streets, Highways, and Service Easements
See also **Summary Vacation of Streets, Highways, and Service Easements**
Agreements not to vacate, 8.141
Effect of vacation
Generally, 8.138
City owns easement only, 8.139
City owns underlying property, 8.140
Posthearing procedure
Conditions imposed by city council, 8.132
Recordation of vacation, 8.133
Resolution vacating easement, 8.131
Prehearing procedure
Hearing and notice, 8.129
Initiation of proceedings, 8.128
Planning commission role, 8.127
Receipt of evidence, 8.130
Reservations
Existing utilities, 8.136
Future sewers, storm drains, and other utilities, 8.134
Future streets, 8.135
Trails, 8.137

Notice and Notification
Adjournment of meeting, notice of, 2.70
Annexation. See **Annexation**
Cable television and video system franchises, program notice requirements, 6.82
CEQA. See **California Environmental Quality Act (CEQA)**
Closed sessions. See **Closed Session Meetings**
Code enforcement, notice requirements for
Administrative enforcement. See **Administrative Enforcement**
Criminal enforcement. See **Criminal Enforcement**
Conditional use permit, notice of, 10.103
Continuance of hearing, notice of, 2.71
Contractual provision specifying written notice, 7.227
Detachment. See **Detachment**
Election, notice of. See **Elections**
Emergency notice requirements under Ralph M. Brown Act (Brown Act), 6.197
Eminent domain proceedings. See **Eminent Domain**

Initiatives. See **Initiatives and Referenda**
Land use decisions, notice of. See **Land Use**
Liability. See **Liability**
Meyers-Milias-Brown Act requiring governing body give notice of proposed ordinance, rule, resolution, or regulation relating to matters within scope of representation, 4.334
Motor Voter Act requiring notification to all applicants about acceptance of registration applications, 3.72
Negotiated purchase agreement, notice of intent to appraise for, 8.9
Nonsummary vacation of streets, highways, and service easements, notice requirements, 8.129
Police officer, notifying of proposed discipline, 4.303
Prevailing wage law, notices concerning rates under, 7.51
Proposition 218, notice and hearing requirements, 5.140, 5.147, 5.179
Public Records Act, notification of denial of request for record, 2.236
Public works contract. See **Public Works Contract**
Recall, notice of intention to. See **Recall**
Right to sue notice. See **Discrimination Laws, Enforcement of**
Special meeting, notice requirements for, 2.65
State Housing Law, notice requirements for enforcement agency under, 12.6
Stop notices. See **Stop Notices**

Surplus property, notice requirements for purchase or lease of, 8.93

Nuisance, Abatement of
Alcoholic beverages, sale of, 9.18
Burden of proof requirements, 12.2
Conditional use permits
Denial of issuance, 10.107
Revocation or termination, 10.111
Construction projects, incompletion as subject to nuisance action, 10.246
Cost recovery in nuisance abatement actions, 12.22-12.24
Counterfeiting activities, abatement of building used for, 12.15
Criminal nuisance, 12.38
Dance halls, limitations on, 9.28
Domestic animals, nuisances caused by, 9.160
Drug House Abatement Act. See **Drug House Abatement Act**
Drug manufacturing, sale, or use, buildings used for, 9.78
General public nuisance
Generally, 12.3
Doctrine of public nuisance per se, 12.4
Injunctive relief, 12.4
Judicial abatement, 12.5
Government Claims Act, injunctions to abate nuisance not subject to, 13.32
Graffiti, declaring as nuisance, 9.93
Lien, enforceability of fines as, 12.13-12.14, 12.23
Personal conduct regulation
Generally, 9.113
Definition of nuisance and public nuisance, 9.114-9.115
Local authority to declare nuisance, 9.117
State law on nuisance, 9.114-9.116
Red Light Abatement Act, enforcement and remedies under, 9.15, 12.13-12.16
Taking, regulation to prevent or eliminate nuisance not a taking, 10.389
Water quality issues, city authority to abate, 11.118

Oaths
Elected officials, administering oath of office to, 1.187, 3.27
Loyalty oath in California Constitution, effect of applicant's religious beliefs on requirement of taking, 4.218

Obesity
Disability per se, obesity not characterized as, 4.226

Occupational Regulation. See **Business and Occupational Regulation**

Office of Mine Reclamation (OMR), 1.101

Office of Planning and Research (OPR), 1.101, 1.120

Offsets. See **Setoffs**

Oil and Gas
See also **Gas Service**
Federal Energy Regulatory Commissions' regulation of wholesale sale and transmission of natural gas, 6.34
Fees for oil pipelines, 5.192
Franchise for oil pipeline, 6.57
Harbors, oil spill response and contingency planning for, 6.177
Lease of city property for production of oil and gas, 8.116
State Lands Commission's responsibility for oil and gas drilling production and operations, 1.101

OMR. See **Office of Mine Reclamation (OMR)**

Open Meeting Laws
See also **Closed Session Meetings**
Generally, 2.36
Adjourned meetings
Notice of adjournment, posting of, 2.70

Order of adjournment, adjournment of meeting to time and place specified in, 2.50
Advisory committees
Posting agenda 72 hours in advance of advisory committee's meeting, effect of, 2.47
Statutory less-than-a-quorum exception for, 2.38
Attendance at open meetings, rights of public
Anonymity, right of, 2.74
Audio, video, and photographic recording rights, 2.75
Closed sessions, limits on attendance at, 2.84
Distinction between attending and participating in meeting, 2.74
Documents (see Documents, public's right to access, below)
Opportunity to address legislative body, 2.80
Reasonable time restrictions and other regulations, 2.80
Removal of persons for disruption of meeting, 2.81
Signing register or giving names prohibited, 2.74
Attorney fees for cases alleging violations of Ralph M. Brown Act, 13.162
Benefit assessments and assessment districts, application of Ralph M. Brown Act to, 5.130, 5.146
City attorney recommending city council members reading Brown Act, 2.3
Civil action for Brown Act violations. See **Closed Session Meetings**
Closed sessions. See **Closed Session Meetings**
Committees
Advisory committees (see Advisory committees, above)
Standing committees (see Standing committees, below)
Continued hearings
Generally, 2.51
Announcement of time and place for resumption of continued hearing, 2.71
Criminal prosecution of officials-elect for violations of Brown Act, 2.39
Definitions
Legislative bodies, 2.37
Meeting, 2.40
Documents, public's right to access
Generally, 2.76
Americans with Disabilities Act (ADA), availability of documents in alternative format in compliance with, 2.77
Attorney-client privileged written communications, exception for, 2.79
Tape or film record or meeting, availability to public for 30 days, 2.78
Emergency meetings
Generally, 2.49, 6.196
Agenda for. See **Agendas for Meetings**
Legislative body meeting in closed session regarding emergency situation, 2.69
Notice requirements, 6.197
Posting of minutes required, 6.198
Entities and persons covered by
Elected officials not yet assuming office, applicability of Brown Act to, 2.39
Legislative bodies, 2.37
Statutory less-than-a-quorum exception for advisory committees, 2.38
Entities covered by Brown Act, 2.5
Exemptions (see Statutory exemptions from open meeting requirements, below)
Lawful meetings (see Types of lawful meetings, below)
Legislative body of local agency, requirements before taking action, 10.409
Minimum procedural requirements for conducting meetings, Brown Act establishing, 2.5
Notice of emergency meetings, 6.197
Prohibited meetings, 2.54
Project area committees, application to, 5.388
Redevelopment agencies, open meetings laws apply, 5.315
Regular meetings
Generally, 2.47
Agenda for regular meeting. See **Agendas for Meetings**
Time and place of regular meeting, Brown Act requiring legislative body provide, 2.35
Special meetings
Generally, 2.48
Agenda for special meeting. See **Agendas for Meetings**
Staff briefings, effect of Brown Act on, 2.54
Standing committees
Posting agenda 72 hours in advance of standing committee's meeting, effect of, 2.47
Statutory exemptions from open meeting requirements for, 2.46
Statutes relevant to meeting requirements for legislative bodies, 2.118

Statutory exemptions from open meeting requirements
Conferences and seminars, members of legislative body attending, 2.42
Individual contacts between member of legislative body and other persons, permissibility of, 2.41
Open community meetings to address local concerns, 2.43
Other local agencies, attendance at meetings of, 2.44
Social and ceremonial gatherings, 2.45
Standing committees, meetings of, 2.46
Teleconferenced meetings
Generally, 2.52
Agenda requirements for, 2.72
Quorum requirements, 2.52, 2.72
Types of lawful meetings
Adjourned meetings (see Adjourned meetings, above)
Continued hearings (see Continued hearings, above)
Emergency meetings (see Emergency meetings, above)
Extraterritorial meetings, 2.53
Regular meetings (see Regular meetings, above)
Special meetings (see Special meetings, above)
Teleconferenced meetings (see Teleconferenced meetings, above)

Open Space
Conservancies for the preservation of, 11.7
General plans for land use. See **General Plans**
Redevelopment area may not include restricted open spaces, 5.320
Surplus property, offer to sell or lease for open space purposes, 8.89
Tax reimbursements for property tax reductions, 5.215

OPR. See **Office of Planning and Research (OPR)**

Orders
Eminent domain proceedings, orders in. See **Eminent Domain**
Public Records Act, order for disclosure of records under. See **Public Records Act (California)**

Ordinances
Affordable housing. See **Affordable Housing**
Amendment or repeal of, 1.242
Camping in parks, equal protection issues in ordinances against, 9.62
County ordinances, 1.145
Enforcement of ordinances, remedies available, 13.187
Franchise ordinances for utilities. See **Franchises**
Government Claims Act, local claim requirements in addition to, 13.39
Parcel taxes, drafting tips for, 5.66
Public transportation fares set by ordinance, 6.129
Recyclable materials, ordinances on areas for collecting and loading, 6.119
Redevelopment agencies, changing from separate to legislative body agency, findings required, 5.309
Set-aside of funds for redevelopment plan housing requirement, ordinance amendment to comply, 5.427
Solid waste flow control ordinances, 6.101
Statutory procedures for city referenda. See **Initiatives and Referenda**
Subdivisions. See **Subdivisions and Subdivision Map Act**
Transient occupancy taxes, drafting tips for, 5.52
Vacant residential property acquired through foreclosure, applicability of local ordinances to, 12.76
Wells, local ordinances affecting, 11.120
Zoning ordinances. See **Zoning Ordinances**

Organization and Reorganization of Municipalities
See also **Formation of Municipal Corporations**
Annexation. See **Annexation**
Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000, effect of, 1.10

Personnel Records
Access to records
Employee's right to access own records, 4.125, 4.299
Third party (see Third party's right to access records, below)
Firefighter responding to adverse comments in personnel file, time limit for, 4.313
Inspection of records (see Access to records, above)
Law enforcement records (see Police officers' records, below)
Maintenance of records
Generally, 4.122
Americans with Disabilities Act (ADA), confidentiality of medical information under, 4.124
State law, requirements under, 4.123
Police officers' records
Adverse comments, police officer's right to read and file written response, 4.123, 4.298
Inspection of personnel file, 4.299
Unwarranted disclosure, protection of police officer's personnel records from, 4.131
Third party's right to access records
Generally, 4.126

HIV tests, liability for improper disclosure of, 4.132
Meyers-Milias-Brown Act, union's access to records under, 4.129
Police officer's records (see Police officers' records, above)
Public Records Act, right to inspect and copy records under, 4.127
Subpoena of personnel records, requirements for, 4.130
Title VII of Civil Rights Act, discoverability of personnel files under, 4.128

Petitions
Liability for defamation during petition signature gathering, 13.110

Pets. See **Animals**

Photographs
Public records, photographs as, 2.229

Physicians
Workers' compensation treatment, employee's pre-designation of physician for purposes of, 4.362

Planning and Zoning Law. See **Zoning**

Plants. See **California Endangered Species Act (CESA); Endangered Species Act (ESA)**

Pleadings. See **Complaints**

Police Chief
Emergency powers, 6.199
Powers and duties, 1.259

Police Officers
Generally. See **Law Enforcement Personnel**
Bill of rights. See **Public Safety Officers Procedural Bill of Rights Act**

Police Power
Animals, authority for regulation of, 9.157-9.158, 9.163
Code enforcement. See **Code Enforcement**
Criminal or civil penalties imposed by city, permissibility of, 1.18
Curfews, 9.65
Defined, 1.15
Economic development, as authority for, 5.297
Environmental law, limits of statutes on, 11.2
Exactions, authority for, 10.213
Fees, charges and rates, authority to impose, 5.159
Fluoridation of water supply as exercise of police power, 6.10
Graffiti, regulation of, 9.86
Moratoria on land use, 10.208
Public purpose, police power required to be reasonably related to, 1.32
Revenues, authority for raising, 5.3
Scope of police power, 1.16
Solid waste collection, police power authority over, 6.92
State preemption of local laws, 1.17
Taxing power compared, 1.21, 5.17
Zoning, 10.85
Zoning ordinances as example of valid overlapping state and local regulation, 1.41

Political Activities
Policies attempting to influence or control political activities or affiliations of employees, prohibition against, 4.136

Political Reform Act of 1974
See also **Ethical Considerations**
Generally, 2.119
Advertisement funding sources, disclosure of
Ballot measure campaign advertisements, 3.201
Mass mailing restrictions, 3.200
Spokesperson, reporting payments made to, 3.202
Amendment of Act

Proposition 208 (see Proposition 208, amendment of Political Reform Act of 1974, below)
Propositions 68 and 73, amendment of Political Reform Act by, 3.187
Applicability of Act to local elective office, 3.208
Attorney fees for compelling compliance with Act, 13.162
Business entities (see Disqualification of public officials in event of conflict of interest, below)
Campaign regulations
Generally, 2.151, 3.186
Amendment of Act (see Amendment of Act, above)
Covered officers disqualified from participating in proceeding after receiving $250 during previous 12 months from financially-interested participant, 2.153
Disclosure requirements and disqualifications, campaign contributions greater than $250 triggering, 2.152-2.153
Proposition 34, effect of, 3.189, 3.202
City attorney's fee splitting arrangement with bond counsel for joint powers agency as violation of Act, 2.209
Common law doctrine against conflicts of interest, effect of Act on, 2.174
Conflict of interest disclosure statements
Contents of statement, 2.144
Leaving office statements, 2.148-2.150
Persons required to file, 2.143
Project area committees, application to, 5.387, 5.433
Redevelopment agencies, application to, 5.433
Timing of disclosure statements, 2.145-2.147
Conflict of interest, disqualification of public officials in event of (see Disqualification of public officials in event of conflict of interest, below)
Constitutional rights, disclosure requirements affecting
Heightened scrutiny standard for disclosure laws affecting constitutionally protected interests, 3.192
Privacy of association and religious beliefs, disclosure of contribution amounts, sources of contributions, campaign related expenses as infringement on, 3.191
State interests in disclosure laws, balancing constitutional rights against, 3.193
Contents of disclosure statements
Generally, 3.198
Advertisement funding sources (see Advertisement funding sources, disclosure of, above)
Identification of contributors, lenders, and recipients, 3.199
Disclosure requirements under
Generally, 3.190
Campaign contributions greater than $250 triggering disclosure requirements and disqualifications, 2.152-2.153
Charitable fund raising, disclosure requirements affecting, 2.159
Conflict of interest disclosure statements (see Conflict of interest disclosure statements, above)
Constitutional issues (see Constitutional rights, disclosure requirements affecting, above)
Pre-election statements, requirement of filing, 3.197
Semiannual disclosure statements (see Semiannual disclosure statements documenting contributions and expenditures, below)
Disqualification of public officials in event of conflict of interest
Generally, 2.120
Business entity, direct or indirect investment in, 2.121
Gift source, interest in, 2.125
Income source, interest in, 2.123
Management position held in business entity, 2.124
Real property, direct or indirect interest in, 2.122
Duties of public official after determination of disqualification, 2.141
Eight-part test for analyzing disqualifying conflict of interest under
Generally, 2.126
Exception if governmental decision affects public official's economic interests in manner indistinguishable from effect on public, 2.139
Exception involving legally required participation, 2.140
Foreseeability of effect on public official's economic interest, 2.138
Identifiable economic interests, determining if public official has (see Identifiable economic interests, determining if public official has, below)
Identifiable economic interests, determining involvement in governmental decision, 2.136
Making, participating in, or influencing governmental decision, determining if public official involved in, 2.128
Materiality of economic interest necessity, 2.137
Public official, determining if individual qualifies as, 2.127
Enforcement of Act
Generally, 2.160
Administrative sanctions, 3.206
Civil sanctions for violation of, 3.205

Criminal penalties for violation of Act, 2.160, 3.204
Hearing to determine violation of Act, 3.206
Injunction to enjoin violations or to compel compliance with Act, 3.207
Gifts in excess of $420, prohibition against acceptance of, 2.155
Honorarium, prohibition against acceptance of, 2.154
Identifiable economic interests, determining if public official has
Generally, 2.129
Business entities, 2.130, 2.133
Business position, 2.133
Gifts, source of, 2.134
Income, source of, 2.132
Personal finances, 2.135
Real property, 2.131
Lobbying activities and expenses, registration and reporting requirements for state lobbyists, 3.218
Local conflict of interest code, 2.142
Mandatory ethics training for all local elected officials, 2.161
Mass mailing restrictions, 2.157
Personal loans, prohibition against acceptance of, 2.156
Proposition 34. See **Proposition 34**
Proposition 208, amendment of Political Reform Act of 1974 by
Generally, 3.187
Invalidation and repeal of Proposition 208, 3.188
Repeal of, 3.188-3.189
Quorum, city council member with financial conflict of interest not counted towards, 2.2
Regulations implementing, 2.119
Reports (see Semiannual disclosure statements documenting contributions and expenditures, below)
Revolving door prohibitions, duration of, 2.158
Sanctions (see Enforcement of Act, above)
Semiannual disclosure statements documenting contributions and expenditures
Generally, 3.194
Contents of disclosure statements (see Contents of disclosure statements, above)
Independent expenditures, reporting of, 3.196
Late contributions, reporting of, 3.195
Time
Disclosure statements, timing of, 2.145-2.147
Revolving door prohibition, duration of, 2.158

Pollution
Air pollution control districts (APCD) or air quality management districts (AQMD). See **Air Quality**
Public records, air pollution data as, 2.225
Toxic waste. See **Hazardous Materials and Toxic Waste**

Polygraph Tests
Employment, polygraph tests as condition of, 4.16
Police officer's right to refuses to submit to, 4.305

Porter-Cologne Water Quality Act. See **Water Quality**

Possession. See **Ownership and Possession**

Posters in Workplace
Mandatory workplace posters, 4.268
Sexual harassment, employer's duty to post poster about, 4.211

Prayer
Constitutionality of non-denominational prayer or silent meditation at beginning of meetings, 2.6

Preemption of Local Laws
See also **Federal Preemption**
Generally, 1.36
Aerosol paint containers, 9.89
Alcoholic beverages, sale of, 9.17-9.18
Auctions, 9.26
Business regulation under guise of revenue raising, 9.3
Contradiction of state law, 1.38

Drug paraphernalia, 9.79
Duplication of state law, 1.37
Foreclosure, CC §2929.3 not preempting local ordinances directed at vacant residential property acquired through, 12.76
General taxes, charter provision requiring super majority to levy preempted by California Constitution, 5.116
Initiative regulating matters preempted by state, prohibition against, 3.112
License fees and taxes for businesses, preemption of, 5.36
Loitering, preemption of conduct criminalized by state, 9.105
Massage practitioners, certificated, 9.35
Municipal affair determination, use in preemption analysis for charter cities, 1.31
Occupation of field by state law, expressly or by implication, 1.39
Parking on public streets, state law preempting local regulation of, 8.157
Police power of city, state's preemption of, 1.17
Rent control regulation
  Landlord/tenant state laws, preemption by, 9.58
  Mobile home parks, preemption by state law, 9.59
Sales and use taxation preempted by state, 5.26
Streets and sidewalks, effect of state's preemption of traffic control on local regulation of use of, 8.152-8.153
Telecommunications franchises, 6.90
Video service providers, state law preempting local regulation of, 6.59
Weapons and firearms regulation, preemption by state, 9.96

Preferential Treatment
Public employment or public contracting, preferential treatment prohibited in, 1.57

Pregnancy and Childbirth
FEHA. See **Fair Employment and Housing Act (FEHA)**
Pregnancy disability leave, 4.174
Title VII of Civil Rights Act of 1964, pregnancy discrimination prohibited under, 4.142

Prejudice. See **Bias and Prejudice**

Presumptions and Inferences
City council's legislative actions, presumption affecting validity of, 2.32
Congressional intent to preempt state legislation, no presumption of, 1.33
General plans for land use, rebuttable presumption of validity after compliance finding, 10.50
Lab C §2810 violation, rebuttable presumption affecting burden of proof regarding, 7.58
Mandamus action, presumption affecting validity of decisions of agency or public office, 13.12
Work-related injuries, presumptions affecting. See **Workers' Compensation**

Pretrial Conference
Eminent domain action, final pretrial conference in, 8.59

Prevailing Wage Law
Generally, 7.50
Apprentices, 7.55
Charter cities, applicability to, 7.84, 7.173
Day's work, 7.56
Economic development, application of prevailing wage law, 5.300
Exemptions
  Private residential projects, 7.87
  Volunteers, 7.94
Federally funded projects
  Generally, 7.164
  Contract provisions, 7.167
  Davis-Bacon Act, requirements under, 7.166
  Penalties for failure to comply with prevailing wage statutes, 7.169
General law cities, applicability to, 7.83
Indemnification of city required if subsidy triggers prevailing wages, 5.300
Labor Compliance Program, effect of, 7.52
Leased facilities, applicability to work performed on, 7.88
Miscellaneous public agencies, applicability to, 7.83
Notices concerning rates, 7.51
Partly or wholly private projects, applicability to, 7.83
Payroll records
  Certifying accuracy of, 7.54, 7.93

Inspection, availability of records for, 7.54, 7.93
Maintenance of, 7.54, 7.82, 7.92
Penalties
Failure to pay prevailing wages, 7.53, 7.90
Failure to require payment of prevailing wages, 7.91
Private residential projects exempt under certain conditions, 5.363
Private residential projects, inapplicability to, 7.87
Redevelopment agencies, applicability to, 7.83
Redevelopment plans, prevailing wage issues, 5.362-5.363
Requirement to pay prevailing wages, 7.89
Scope of public works
Exemptions, 7.87
Leased facilities, 7.88
Paid for in whole or part out of public funds, 7.86
Public works defined, 7.85
Statutory authority, generally, 7.82
Volunteer work, inapplicability to, 7.94
Workers' compensation, 7.57

Primary Elections, Contest Over. See **Election Contests**

Prior Meetings. See **Agendas for Meetings**

Prisons. See **Correctional Facilities**

Privacy
Employment tests as invasion of. See **Testing for Hiring, Promotion, or Retention of Employees**
Housing, rights to privacy, 10.199
Invasion of privacy, competing governmental interests justifying, 4.99
Personnel records. See **Personnel Records**
Public Records Act. See **Public Records Act (California)**
Public Safety Officers Procedural Bill of Rights Act, privacy rights under. See **Public Safety Officers Procedural Bill of Rights Act**

Private Attorney General Doctrine
Generally, 13.163
Calculation of amount of fee award, 13.165
Prevailing or successful party, 13.164

Privilege
Attorney-client privilege. See **Attorney-Client Privilege**
Deliberative process privilege, effect on request for information under Freedom of Information Act (FOIA) or California Public Records Act, 2.241
Public Records Act, effect of privilege on request for information under. See **Public Records Act (California)**
Sexual harassment claim, qualified privilege for statements made during investigation of, 4.209

Probationary Police Officers. See **Public Safety Officers Procedural Bill of Rights Act**

Probation. See **Criminal Enforcement**

Project Area Committees (PAC)
Generally, 5.330
Amendments to plans, PAC involvement in, 5.391
Consulting with community without PAC, 5.382
Duration of committee, 5.383-5.384
Formation of PAC
Contents and notice of procedures for process, 5.375
Timing considerations, 5.374
Members of, who included, 5.380
Notice and hearing
Failure to comply with procedures, 5.379
Procedures adopted by legislative body about forming PAC, contents and notice of, 5.375
Required meetings and hearings, 5.376
Timing of meetings and hearings, 5.377
Who must be notified, 5.378

Reports and recommendations from PAC to legislative body, 5.390-5.391
Responsibilities of PAC
Advice and consultation to agency, 5.386
Conflict of interest laws apply, 5.387
Open meetings laws apply, 5.388
Residential housing issues, 5.385
Selection of members, method for, 5.381
Services provided to PAC, 5.389
Timing considerations
Amendments to redevelopment plans, notice to PAC, 5.391
Challenges to procedures for formation, time for, 5.375
Duration of consultation with committee, 5.383
Formation of PAC, time for, 5.374
Meetings and hearings, timing of, 5.377
When required, 5.374, 5.384

Promotion. See **Testing for Hiring, Promotion, or Retention of Employees**

Proof
See also **Burden of Proof**
Dangerous condition of public property, elements of proof, 13.99
Work-related injury, proof of. See **Workers' Compensation**

Property and Business Improvement District Law of 1994, 5.136

Property Taxes
Annexation, negotiating exchange of property tax revenues after, 1.152-1.153
Apportionment of taxes, 5.25
Before, 1978, 5.18
Benefit assessments, collection with property taxes, 5.124
Characteristics of, 5.21
City-owned property outside its boundaries subject to tax, 5.24
Excise taxes, 5.59, 5.68
Exemptions from, types of property, 5.22, 5.101
Mello-Roos special tax, collection with property taxes of, 5.83
Parcel taxes compared, 5.63
Penalty of property tax forfeiture for failure to comply with Proposition 62, 5.109
Private possessory interest in government property tax authorized, 5.23

Proposition 1A
Sales and use taxes, effect on, 5.26
Vehicle license fees, amount of, 5.7

Proposition 4. See **Gann Limit**

Proposition 13
Generally, 1.52
Constitutionality of, 1.52, 5.99
Limits on taxing authority by
Generally, 5.98
Special taxes, limitations on, 5.100
Property taxes, effect on, 5.19-5.20, 5.24
Real property transfer taxes under, 5.68
Tax, limiting city ability to, 5.8

Proposition 34
Campaign finance regulations, effect of Proposition 34 on, 3.189, 3.202
Fair Political Practices Commission's authority to prosecute criminal violations of Political Reform Act, repeal of, 3.204
Violations of Political Reform Act of 1974, penalties for, 3.205

Proposition 62
Generally, 5.105
Charter cities, inapplicability to, 5.105
General taxes, imposition subject to Proposition, 5.16
Local real property transaction sales taxes under, 5.108

Penalty for failure to comply with Proposition 62, 5.109
Procedures for enacting taxes under, 5.106
Real property transfer taxes under, 5.68
Voter approval requirement for taxes under, 5.9
"Window period" taxes, 5.107

Proposition 68
Political Reform Act of 1974, amendment of, 3.187

Proposition 73
Elective office, Proposition 73 prohibiting expending or accepting public monies to seek, 3.210
Political Reform Act of 1974, amendment of, 3.187

Proposition 99, 5.354, 8.31

Proposition 208. See **Political Reform Act of 1974**

Proposition 209
Statutory affirmative action programs, effect of Proposition 209 on, 4.8, 7.29, 7.32

Proposition 218
Generally, 5.110
Benefit assessments and assessment districts
Generally, 5.144
Burden of proof in challenges to assessment, 5.151
Business-based assessments not subject to Proposition, 218, 5.124
Engineer's report, requirement for, 5.138
Exemptions from procedural requirements (see Exemptions from procedural requirements for assessments, below)
Initiatives to reduce or appeal, 5.157
Majority protests, 5.148
Notice, protest, and hearing requirements, 5.140
Procedural requirements (see Procedural requirements for assessments, below)
Public property assessments, 5.150
Ralph M. Brown Act application, 5.130
Special benefits only are assessable, 5.145
Statute of limitations for challenges to assessment, 5.152
Superseding of other provisions for notice, protest, and hearing, 5.128
Commentary for interpretation of, 5.110
Definitions
Charge, 5.175
Fee, 5.175
General tax, 5.111
Increase (taxes), 5.51, 5.114
Property ownership, 5.175
Property-related service, 5.175
Special tax, 5.16, 5.71, 5.111
Development fees exempt, 5.163, 5.185
Elections or ballot measures, Proposition 218 ballot and protest procedures not constituting, 3.211
Exemptions from procedural requirements for assessments
Business-based assessments, 5.155
No other exemptions, 5.156
November 6, 1996, assessments in existence on, 5.153
Refund of assessment bonds, 5.154
Exemptions from property-related fees and charges, 5.163, 5.184-5.186
Fees and charges (see Property-related fees and charges, below)
General taxes, imposition subject to Proposition, 5.16
Increases that require voter approval, 5.114
Parcel tax treatment by, 5.21, 5.62, 5.113
Procedural requirements for assessments
Generally, 5.146
Exemptions from (see Exemptions from procedural requirements for assessments, above)
Mail ballots allowed, 5.149
Protest by ballots, 5.148
Public hearing and notice requirements, 5.147
Procedure for adopting general taxes

Legislative body action required, 5.115
Special tax elections not rescinded by Proposition, 218, 5.117
Timing of election, 5.116
Voter approval requirement, 5.116
Procedure for adopting special taxes
Contents of ordinance or resolutions for, 5.118
Initiatives to changes special taxes, 5.120
Legislative body action required, 5.118
Timing of election, 5.119
Voter approval requirement, 5.119
Procedure for imposing fees or charges
Generally, 5.10, 6.42
Hearing requirements, 5.179
Notice requirements, 5.178
Property-related fees and charges
Generally, 5.174
Burden of proof in challenges to validity of fee or charge, 5.177
Definition of phrase, 5.175
Effective date of Proposition, 218, 5.183
Exemptions, 5.163, 5.184-5.186
Limited to listed items, 5.113
Procedural requirements for fees and charges (see Procedure for imposing fees or charges, above)
Restrictions on imposition of fees and charges, 5.176
Stand-by charges classified as assessments, not fees, 5.176
Voter approval requirements (see Voter approval requirements for fees and charges, below)
Timing considerations
Fees and charges, hearing requirements, 5.179
Notice, protest, and hearing requirements, 5.140, 5.147
Utility users tax, telecommunications issues with, 5.50-5.51
Voter approval requirements for fees and charges
Fees subject to approval, 5.180
Procedural requirements, 5.181
Time for election, 5.181
Who may vote, 5.182
Water, sewer, and garbage service fees must comply, 5.166
"Window period" taxes, 5.112

Prosecutors. See **Government Lawyers, Ethical Obligations for**

Names. See **Names**
Nondisclosure (see Exemptions in Act, above)
Order for disclosure
Generally, 2.260-2.261
Extraordinary writ, review of disclosure order by, 2.262
Pending litigation
Adjudication or settlement, exemption from disclosure of records pertaining to pending litigation until after, 2.245
Determining if records privileged in pending litigation, exemptions in Act not, 2.230
Privileges
Deliberative process privilege under Act, 2.241
Miscellaneous statutory privileges, 2.254
Pending litigation, exemptions in Act not determining if records privileged in, 2.230
Trade secrets as privileged information, 2.255
Records subject to inspection under Act
Generally, 2.222, 2.224
Air pollution data as public records, 2.225
E-mail, photographs, photocopies, and faxes as public records, 2.229
Housing and building code violations as public records, 2.226
Initiative, referendum, and recall petitions, restrictions on inspection of, 2.227, 2.243
Public meetings, recordings of, 2.228
Remedies for improper withholding of records
Generally, 2.258
Attorney fees and costs, recovery of, 2.263
In camera review of records in chambers, 2.261
Order (see Order for disclosure, above)
Sanctions, 2.262
Timing for pleadings, 2.259
Requests for copies or data under Act
Assistance from agency, public's right to, 2.232
Exact copy of identifiable record, right to, 2.231
Fees covering direct cost of duplication, 2.234
Focused and specific request, requirement of, 2.233
Notification of denial of request, 2.236
Time limit for providing copy of record after receiving request, 2.235
Retention of public records
Generally, 2.264
Alternative media, preservation in, 2.269
Definition of record, 2.265
Destruction of records (see Destruction of records, above)
Federal law requirements on record retention, 2.267
State law requirements on record retention, 2.266
Right of public to inspect public records, 2.230
Specific record exemptions

Generally, 2.242
Architectural and engineering plans, 2.256
Arrest records, 2.249
Concealed weapons permits, partial exemption applicable to, 2.253
Criminal investigation records, 2.251
Election documents, 2.243
Law enforcement personnel. See **Law Enforcement Personnel**
Litigation records, 2.245
Miscellaneous statutory exemptions and privileges, 2.254
Names, addresses, and phone numbers of citizens, 2.257
Peace officer personnel and citizen complaints, 2.247
Personal information obtained from citizens in course of regulatory activities, public agency's burden of proving release of information constitutes invasion of privacy, 2.250
Personnel, medical, or similar records, exemption based on invasion of privacy, 2.246
Preliminary drafts, notes, and inter-agency or intra-agency memoranda, exemption for, 2.244
Trade secrets, 2.255
Utility customer records, 2.252
Time. See **Time**
Withholding of records (see Remedies for improper withholding of records, above)

Public Safety Employees and Personnel
Firefighters. See **Firefighters**
Law enforcement personnel. See **Law Enforcement Personnel**
Section 1983 Actions against. See **Section 1983 Actions**
Vehicle pursuits, immunity for liability from, 13.134

Public Safety Officers Procedural Bill of Rights Act
Generally, 4.294
Appeal of disciplinary action, 4.309
Covered employees, 4.295
Excluded employees, 4.295
Inspection of personnel file, 4.299
Interrogation of peace officers, procedures for
Lybarger warning preceding questioning about potentially criminal conduct, 4.301
Post-interrogation requirements, 4.302
Pre-interrogation procedural safeguards, 4.300
Notice of proposed discipline, 4.303
Privacy rights under
Generally, 4.304
Financial records, officer not required to disclose, 4.306
News media, employer prohibited from subjecting officer to visits by, 4.307
Polygraph examination, police officer's right to refuse to submit to, 4.305
Searches by employer, restrictions on, 4.308
Probationary police officers
Appeal of disciplinary action by, 4.309
Applicability of Act to, 4.295
Punitive action
Adverse comments in personnel file, 4.298
Defined, 4.296-4.297
Reimbursements of state mandates under Act, 5.247
Remedies for violation of, 4.310
Time limit for imposing discipline after discovery of alleged misconduct, 4.303

Public Transportation
Generally, 6.120
Advertising on vehicles, 6.126
Certification of bus drivers, 6.128
Charter service, prohibition on, 6.136
City council members' acceptance of free transportation, 1.194
Claims and actions against public carriers, 6.138
Common carrier law
Generally, 6.121
Collection of evidence following accident, duty regarding, 6.123
Protection of passengers, 6.122
Constitutional issues

Advertising on vehicles, constitutional issues involving, 6.126
Transit employees, constitutional constraints on drug and alcohol testing of, 6.130
Disabled persons
Americans with Disabilities Act (ADA), effect of, 6.124
Drug and alcohol testing of pre-employment applicants to accommodate individuals with disabilities, 6.132
Federal Transit Act, effect of, 6.124
Reduced fares for, 6.129
State accessibility requirements, 6.125
Drug and alcohol testing of transit employees
Chain of custody of urine samples, 6.134
City employees, applicants, and trainees driving commercial vehicles, 6.131
Constitutional constraints, 6.130
Face to face evaluation for return to work, 6.133
Off-duty employees, 6.134
Pre-employment testing of applicants to accommodate individuals with disabilities, 6.132
Taxicab drivers, 6.137
Duties of public carriers
Common carrier law (see Common carrier law, above)
Disabled persons, duties to (see Disabled persons, above)
Fares, setting of, 6.129
Route scheduling, 6.127
Specified rate of return for services, requirements for, 6.135
Surplus property, offer to sell or lease for purpose of developing property within area covered by transit village plan, 8.92
Taxicab operators, 6.137

Public Trust Doctrine
Generally, 10.334
Areas protected by, 10.339-10.340, 11.4
California State Water Resources Control Board as administrator, 11.5
Enforcement, standing for and means of, 10.338
Flexibility of public trust doctrine, 10.336
Future of doctrine, court interpretation of, 11.6
Harbors. See **Harbors**
State and local responsibilities under the doctrine, 11.5
Traditional uses, protection of, 10.335
Water rights, effect of public trust doctrine on, 10.337

Public Utilities. See **Utilities**

Public Works Contracts
Abandonment claims, effect on public works contracts, 7.116
Affirmative action. See **Affirmative Action in Hiring Public Employees**
Alternative dispute resolution
Arbitration (see Arbitration, below)
Mediation, 7.47, 7.112
Stipulation to have dispute settled by temporary judge or referee, 7.113
Amendment or modification of contract, 7.62
Arbitration of disputes involving
Contractual provisions, 7.47, 7.68, 7.112
Statutory requirement, 7.111
Bidding. See **Bidding for Public Works Contracts**
Bonding and insurance companies, specifying, 7.70
Brand or trade names, specifications by, 7.63
Charter cities. See **Charter Cities**
Contractors. See **Contractors and Subcontractors for Public Works Contracts**
Cost records, 7.73
Damages. See **Damages**
Definition of public works, 7.85
Differing site conditions, effect of construction problems arising from, 7.108
Disclaimers, effect of, 7.107-7.108
Engineering specifications and costs
Generally, 7.61
Finality of engineer's decision (see Finality of engineer's decision, below)
Federally funded projects. See **Federally Funded Projects**
Finality of engineer's decision

Historical rule, 7.109
Statutory rule, 7.110
Governing law, 7.2
Government Code claims presentation requirements, 7.48
Implied warranty of correctness, 7.106
Indemnification, limits on, 7.69
Interest on progress payment requests, 7.72
Lab C §2810 liability, 7.58
Non-collusion affidavit, 7.44
Notice
Bidding on public works contracts, notice requirements for. See **Bidding for Public Works Contracts**
Third party claims, provision for timely notification of, 7.65
Plans and specifications, assumption of responsibility for, 7.71
Prevailing wage law, effect of. See **Prevailing Wage Law**
Release of claims, 7.64
Resolution of contract disputes, 7.68
Retention of funds by public entity
Generally, 7.45
Securities in lieu of retention, 7.46
Subcontractors. See **Contractors and Subcontractors for Public Works Contracts**
Surety bonds. See **Surety Bonds**
Termination of contract, 7.62
Time considerations. See **Time**
Trenching requirements, 7.43
Unfair business practice claims, 7.42
Utilities relocation, 7.60
Venue provision, 7.74

Public Works Power
Generally, 1.23, 10.214
Authority for, 5.4
Proprietary activity, publicly owned municipal utilities as, 1.25
Scope of public works power, 1.24

PUC. See **California Public Utilities Commission (CPUC)**

Punitive Damages
Civil Rights Act of 1991, recovery of punitive damages under, 4.154-4.155, 4.261
Code violations, punitive damages for, 12.26
Conflict of interest in joint representation of public employee and entity, effect of punitive damages sought against employee, 2.207
Immunity of entity for punitive damages, 13.155
Indemnification. See **Indemnification**
Municipalities, no award of punitive damages against, 4.267
Personal liability of officers and employees for, 13.155
Public agency, no award of punitive damages against, 4.261
Section 1983 actions. See **Section 1983 Actions**
Title VII action, restrictions in awarding punitive damages in, 4.261

Quid Pro Quo Sexual Harassment. See **Sexual Harassment**

Quorum
City council meetings, quorum requirement for, 2.2
Disqualified public official not counted towards achieving quorum, 2.141
"Legally required participation", quorum for, 2.140
Statutory less-than-a-quorum exception for advisory committees, 2.38
Teleconferenced meetings, quorum of members of legislative body participating from locations within local agency's jurisdictional boundaries, 2.52, 2.72

Quo Warranto
Distinction between election contest and quo warranto, 3.124
Local Agency Formation Commission (LAFCO) change or organization or reorganization, quo warranto for challenging, 1.129

Racial Discrimination
California Constitution provisions prohibiting racial discrimination, 4.164
Civil Rights Act of 1991. See **Civil Rights Act of 1991**
FEHA. See **Fair Employment and Housing Act (FEHA)**
Govt C §11135, discrimination prohibited under, 4.169
State personnel laws prohibiting, 4.170
Unruh Civil Rights Act and Ralph Civil Rights Act, scope of, 4.168

Ralph Civil Rights Act
Scope of, 4.168

Ralph M. Brown Act. See **Open Meeting Laws**

Random Drug Testing. See **Drug Testing**

Rates
See also **Charges**; **Fees**
Generally, 5.158
Authority for, 5.159, 5.168
Collection issues, 5.171
Preferential treatment for city residents allowed, 5.170
Procedures for setting rates, 5.169
Timing issues for notice and hearing, 5.169

Rates for Cable Television. See **Cable Television and Video Systems Franchises**

RCRA. See **Resource Conservation and Recovery Act of 1976 (RCRA)**

Real Property
Acquisition of real property. See **Acquisition of Property**
Adverse possession, 8.69, 8.114
Closed sessions. See **Closed Session Meetings**
Code enforcement. See **Code Enforcement**
Dangerous condition of public property. See **Liability**
Disposition of real property. See **Disposition of Property**
Disqualification of public official for direct or indirect interest in real property, 2.122
Economic development can mean a reduction of property price, 5.298
Foreclosure. See **Administrative Enforcement**
Limits on use of city property
Deed restrictions, 8.121
Obstructions and encroachments, 8.119
Removal of obstructions, 8.120
Open space. See **Open Space**
Parkland. See **Parkland**
Redevelopment Agency's officers and employees, requirement of disclosing property owned and direct or indirect financial interests in property within redevelopment project area, 2.181
Title to real property, retention of records affecting, 2.264
Trespassing. See **Trespass**

Reasonable Accommodation for Disabled Persons
ADA, reasonable accommodation under
Generally, 4.228
Interactive process with qualified individuals with disability to asses reasonable accommodation, requirement employer engage in, 4.232, 4.353
Alcohol and drug rehabilitation, employer reasonably accommodating employee's participation in, 4.120
Best available accommodation, no requirement employer provide, 4.230
Defense to disability discrimination claims against employer, undue hardship posed by reasonable accommodation as, 4.233
EEOC regulations defining, 4.229
Examples of, 4.231
FEHA
Interactive process to determine effective reasonable accommodation, requirement employer engage in, 4.232, 4.353
Suitable job opportunities, requirement employer offer to disabled person, 4.231
Medical marijuana, no duty to reasonably accommodate, 4.224
Rehabilitation Act of 1973, reasonable accommodation requirements under, 4.117
Undue hardship, effect of, 4.233

Recall
Generally, 3.149
Answering recall statement, 3.155
Ballot for recall election
Generally, 3.167
Sample ballot and ballot information, city clerk mailing to registered voters, 3.168
City clerk
Examination of petition (see Examination of petition by city clerk, below)
Filing petition (see Filing petition, below)
Notifying recall proponent if proposed petition meets requirements of California Election Code, 3.158
Sample ballot and ballot information, city clerk mailing to registered voters, 3.168
Withdrawal of signature, voter filing written request with city clerk for, 3.162
City's participation in recall measure. See **Ballot Measures, City's Participation in**
Collection of signatures for recall petition
Number of qualified signatures required, 3.161
Time limit to obtain signatures, 3.160
Election
Ballot (see Ballot for recall election, above)
Declaration of results, 3.170
Notice of election, 3.169
Order setting time for special election, 3.166
Procedures for election, 3.169
Examination of petition by city clerk
Generally, 3.164
Certification of examination results, 3.165
Filing petition
Examination of petition sections by city clerk, 3.164
Obligations of city clerk, 3.158
Obligations of proponent, 3.157
Submission of petition for filing and acceptance, 1.195, 3.163
Limitations on recall of elected official, 3.150
Notice of intention to recall
Generally, 3.151
Contents of notice, 3.152
Filing of notice, 3.153
Publication of notice in newspaper of general circulation, 3.154
Notifying recall opponent if proposed recall petition meets requirements of California Election Code, 3.158
Petition for recall
Collection of signatures (see Collection of signatures for recall petition, above)
Filing petition (see Filing petition, above)
Form and contents of, 3.156
Resignation of officer to be recalled resulting in termination of recall proceedings, 3.174
Signatures (see Signatures, below)
Signatures
Generally, 3.159
Collection of signatures (see Collection of signatures for recall petition, above)
Examination of petition (see Examination of petition by city clerk, above)
Returning petition to proponent if number of signatures insufficient, 3.163
Withdrawal of signature, voter filing written request with city clerk for, 3.162
Successor candidate
Election of successor to unexpired term or recalled officer, 3.172
Failure of candidate receiving highest number of votes to qualify for office, consequences of, 3.173
Nominations for, 3.171
Time
Answer to recall statement, time limit for filing, 3.155
Corrected petition, time limit for filing, 3.158
Filing notice of recall, time limit for, 3.153
Insufficient petition, time limit for proponents to examine, 3.165
Order setting time for special election, 3.166
Sample ballot and ballot information, time limit for city clerk to mail to registered voters, 3.168
Signatures for recall petition, number of days to obtain, 3.160
Vacancies, filling by appointment
After petition filed, vacancy occurring, 3.175
Before recall petition filed, filling vacancy, 3.174

Receivership
Code violations, appointment of receiver as remedy for, 12.9, 12.27

Reclaimed Water. See **Water Service**

Recordation of Documents
Boundary map, 5.139
Code violation notices, recordation of, 12.82
Deeds conveying interest in real property, certificate of acceptance by city council required before recording, 8.76
Eminent domain proceedings, recording lis pendens notice for, 8.45
Lease of city property, recordation of, 8.118
Public works project, recording notice of completion for, 7.123
Resolution vacating easement, recordation of, 8.133, 8.149

Records and Reports
Agenda as public record, 2.76
Audiorecording of interrogation. See **Video- and Audiorecording**
CEQA, administrative records under. See **California Environmental Quality Act (CEQA)**
City treasurer reporting on investments to legislative body, 5.272
Closed session reports. See **Closed Session Meetings**
Consumer report about job applicant, requirements for employer seeking, 4.216
Contractual provision requiring maintenance of records, 7.237
Disclosure statements documenting contributions and expenditures. See **Political Reform Act of 1974**
Engineer's report, preparation of, 5.138
Environmental impact reports (EIRs). See **California Environmental Quality Act (CEQA)**
Environmental impact reports. See **California Environmental Quality Act (CEQA)**
Fair Labor Standards Act (FLSA), recordkeeping requirements under. See **Fair Labor Standards Act (FLSA)**
Federally funded projects, records for. See **Federally Funded Projects**
General plan, annual report on implementation of, 10.67
Government attorney's duty to report illegal activities, 2.193
Initiative petition, city council referring to city agencies for report on fiscal impact, general and specific plan consistency, and other matters, 3.88
Lobbying by state and local agencies, reporting requirement for. See **Lobbying**
Medical reports. See **Medical Reports**
Personnel records. See **Personnel Records**
Police officer not required to disclose financial records, 4.306
Prevailing wage law, requirements for payroll records under. See **Prevailing Wage Law**
Public Records Act. See **Public Records Act (California)**
Public works contracts, cost records kept by public entity's engineer, 7.73
Redevelopment, disclosure of terms of lease or sale of property in form of report for purposes of, 8.109

Recount. See **Elections**

Recruitment and Qualifications of Public Employees
Affirmative action. See **Affirmative Action in Hiring Public Employees**
Benefit plans. See **Benefit Plans**
Compensation plans. See **Compensation Plans**
Discrimination (see Nondiscrimination laws, below)
EEOC (see Nondiscrimination laws, below)
Hiring
Generally, 4.3
Nondiscrimination laws (see Nondiscrimination laws, below)
Residency requirements for public employees, restrictions for, 4.5
Restrictions on hiring (see Restrictions on hiring, below)
Testing. See **Testing for Hiring, Promotion, or Retention of Employees**
Immigration Reform and Control Act prohibiting hiring of persons without legal right to work in U.S., 4.12
Nondiscrimination laws
Generally, 4.213
Disabled persons. See **Disabled Persons**
HIV test results, prohibition against employer making hiring decision based on, 4.24, 4.171
Job requirements as subterfuge for discrimination prohibited, 4.217
Loyalty oath, effect of applicant's religious beliefs on requirement of taking, 4.218
Performance standards, EEOC guidelines for enforcing, 4.215
Pre-employment inquiries, restrictions on, 4.216
Public employees, nondiscrimination requirements in hiring of, 4.4

Testing, EEOC's uniform guidelines on, 4.14, 4.214
Pension plans. See **Retirement and Pension Plans**
Reductions in force for financial reasons (layoffs), 4.41
Restrictions on hiring
Americans with Disabilities Act (ADA), prohibited hiring practices under, 4.20, 4.221
Arrests and criminal records, limitations on employers asking potential employee about, 4.22
Children, special rules for employees working with, 4.25
Criminal record of applicant, inquiries about, 4.22-4.23
Department of Motor Vehicle records, employer requesting copy of, 4.26
Discrimination laws. See **Discrimination**
Fair Employment and Housing Act (FEHA), hiring restrictions under, 4.21
HIV test results, prohibition against employer making hiring decision based on, 4.24, 4.171
Testing. See **Testing for Hiring, Promotion, or Retention of Employees**

Recycling. See **Solid Waste and Recycling**

Redevelopment
See also **Economic Development**
Generally, 1.43
Adoption of plans. See **Redevelopment Plan Adoption**
Agencies
Advisory bodies for, 5.311-5.312
Changing from separate agency to legislative body, 5.309
Community development commission creation, 5.310
Conflicts of interest (see Conflicts of interest, below)
Cooperation between agencies to create plan, 5.339-5.340
Implementation of plans by. See **Redevelopment Plan Implementation**
Legal status of agencies, 5.306
Legislative body as agency, 5.308
Open meetings laws requirements apply, 5.315
Powers and authority of agencies, 5.304, 5.314
Referendum, ordinance creating redevelopment agencies subject to, 5.305, 5.310
Reports required, 5.399
Separate agencies, activating by ordinance, 5.307
Staffing authority, 5.313
State agencies for local purposes, 5.305
Amendments to plans
Mergers of project areas, 5.436
Modifications before adoption, 5.333
Procedure for amendment same as for adoption, 5.343
Project area committees for. See **Project Area Committees (PAC)**
Purpose of, 5.342
Statement of amendment land area recording, 5.345
Time limit extensions, amendments for, 5.344
Timing of, 5.342
Authority for, 5.302
Bond issuance to provide loans for redevelopment, 5.240
CEQA. See **California Environmental Quality Act (CEQA)**
Community development commission creation, 5.310
Community development committee to advise commission, 5.312
Community redevelopment commission
Advising agency, 5.311
Member's disclosure of financial interest in property within project area of community redevelopment commission, 2.182
Community Redevelopment Law, disposition provision applicable to redevelopment agencies under, 8.80
Conflicts of interest
Acquiring land in project area, prohibition against agency, 5.434
Disclosure obligations of agencies, consultants, and project area committee members, 5.433
Incompatible offices, prohibition when city council has declared itself the redevelopment agency, 5.435
Debt limit, redevelopment agencies excluded from, 5.294
Definitions
Community, 5.306
Redevelopment, 5.301
Tax increment, 5.392
Disposition of property for purposes of
Generally, 8.107

Public hearing requirement, 8.108
Report, disclosure of terms of lease or sale in form of, 8.109
Required provisions in disposition documents, 8.110
Financing of activities
Appropriations from legislative body, 5.397
Mello-Roos Community Facilities Act funding, 5.395
Other sources, 5.396
Reports required, 5.399
Tax increment financing (see Tax increment financing, below)
Transient occupancy taxes can be used to secure bonds, 5.398
Gann Limit, 5.285
History of redevelopment law, 5.303
Homeowners and Private Property Protection Act, limits on redevelopment agencies imposed by, 8.31
Housing requirements. See **Redevelopment Housing Requirements**
Implementation of plans. See **Redevelopment Plan Implementation**
Loans. See **Loans**
Mergers of project areas, 5.436
Modifications to plans (see Amendments to plans, above)
Open meetings laws requirements apply to agencies, 5.315
Plan adoption. See **Redevelopment Plan Adoption**
Prevailing wage law, applicability to redevelopment agencies, 7.83
References for additional information about, 5.438-5.439
Tax increment financing
Bonds issued based on, 5.228, 5.394
Nature of tax increment revenues, 5.392
Set-aside of funds for housing requirement. See **Redevelopment Housing Requirements**
Theory of tax increment revenues, 5.393
Use of tax increment funds, 5.394
Timing considerations
Extensions of time limits by amendment, 5.344
Mergers of project areas, notice, 5.436
Statement of amendment land area recording, 5.345
Transfer of powers over county project area to city by court order, 5.437

Redevelopment Housing Requirements
Affordability covenants, 5.413, 5.431
Definitions
Affordable housing cost, 5.404
Developed, 5.412
Excess surplus, 5.432
Existing obligation, 5.425
Extremely low income household, 5.404
Lower-income household, 5.404
Moderate-income household, 5.404
Substantial rehabilitation, 5.412
Very-low-income household, 5.404
Housing element of general plans. See **Housing Element of General Plans**
New and rehabilitated housing
Affordability covenants, 5.413
Affordable housing plan requirements, 5.415
Agency-developed housing, 5.410
Applicability of requirement, 5.409
Definition of developed, 5.412
Definition of substantial rehabilitation, 5.412
Non-agency-developed housing, 5.411
Owner-occupied housing, market-price sales, 5.416
Replacement housing, relationship to, 5.414
Replacement housing
Applicability of requirement, 5.400
Benefit to project legislatively declared for purpose of spending set-aside funds, 5.430
Definition of terms (see Definitions, above)
Insufficient suitable housing, land must be made available, 5.406
New and rehabilitated housing, relationship to, 5.414
Permanent housing availability, time limit for, 5.407
Plan for replacement housing, requirement for, 5.408

Priority of displaced low or moderate income families, 5.405
Type, timing, and amount of housing required, 5.402-5.403
When required, 5.401
Set-aside of funds for housing requirement
Generally, 5.417
Deficit elimination plan if using existing obligation exception, 5.426
Definition of existing obligation, 5.425
Exception for existing obligations, 5.423-5.426
Findings that avoid need for set-aside, 5.418-5.420, 5.422
Ordinance amendment to comply with set-aside requirements, 5.427
Statement of existing obligations or programs required, 5.424
Transfer of set-aside obligation to another project area possible, 5.421, 5.424
Timing considerations
Affordability covenants, duration of, 5.413, 5.431
Affordable housing plan requirements, 5.415
Excess surplus requirement, 5.432
Findings that avoid need for set-aside, 5.422
Permanent housing availability, time limit for, 5.407
Plan for replacement housing, requirement for, 5.408
Replacement housing, when required, 5.402
Use of low-income and moderate-income housing fund monies
Generally, 5.428
Definition of excess surplus, 5.432
Excess surplus requirement, 5.432
Location where funds used, 5.430
Planning and administrative expenses, 5.429
Restrictions and covenants for affordability, 5.413, 5.431

Redevelopment Plan Adoption
Generally, 5.316
Amendments to plans. See **Redevelopment**
Apportionment of taxes
Basic aid school districts, special apportionment for, 5.327
Consultation about tax allocation, 5.325
Exclusivity of apportioned payments, 5.325
Formula for tax-increment sharing, 5.326
Payments to schools subordinate to debt if request timely made, 5.326
School districts, allocation for, 5.327-5.328
Challenges to plans, 5.341
Consideration by other entities, 5.330
Definitions
Basic aid school districts, 5.327
Blight, 5.319
Eminent domain program, 5.336
Hearings and meetings required
Planning commission review and report, 5.330
Procedure and timing for, 5.332-5.333
Project area committee consideration of plan. See **Project Area Committees (PAC)**
Housing requirements. See **Redevelopment Housing Requirements**
Interagency cooperation for plans, 5.339-5.340
Joint projects and delegation, 5.339-5.340
Modifications of plan possible after submission to legislative body, 5.333
Objections to plan, legislative body must consider and respond, 5.334
Post-adoption notifications, 5.338
Preliminary plan formulation, 5.321
Procedures for adoption, 5.335-5.337
Project area committees. See **Project Area Committees (PAC)**
Project area selection
Definition of blight, 5.319
Initial designation of project area, 5.321
Initial feasibility study, 5.318
Non-blighted property, inclusion limited, 5.320
Report to council, contents of, 5.329
Statute of limitations for challenges to plans, 5.341
Survey area designation, 5.317

Taxing entities, relations with
Apportionment of taxes (see Apportionment of taxes, above)
Preliminary report submitted to taxing entities, 5.324
Property tax assessed value information, 5.323
Report back to redevelopment agency, 5.322-5.323
Statement of preparation must be submitted, 5.322
Timing considerations
Hearing notice time requirements, 5.331-5.332
Modifications to plan, commission to issue recommendation, 5.333
Objections to plan, time for response, 5.334
Payments to schools subordinate to debt if request timely made, 5.326
Post-adoption notifications, 5.338
Vote to approve plan, 5.337

Redevelopment Plan Implementation
Amendments to plans. See **Redevelopment**
Big box retailer, prohibition on redevelopment agency assistance with, 5.371
California Environmental Quality Act (CEQA) compliance, 5.361, 5.364
Commercial rehabilitation loans possible, 5.372
Cooperation agreements between public entities, 5.367, 5.396
Definitions
Big box retailer, 5.371
Displaced person, 5.356
Participant, 5.351
Public works, 5.363
Reuse value, 5.362
Vehicle dealer, 5.371
Developer selection (see Disposition and development agreements, below)
Disposition and development agreements
Generally, 5.359
Approval of the agreements, 5.365
CEQA compliance issues, 5.361, 5.364
Contents of agreements, 5.362
Exclusive negotiation agreement with selected developer, 5.360
Owner participation agreements compared, 5.358
Prevailing wages issues, 5.362-5.363
Replacement housing plan required before execution of agreement, 5.408
Scope of development, 5.361
Five-year implementation plans required, 5.368
Gaming or gambling, prohibition on redevelopment assistance with development involving, 5.370
Housing requirements. See **Redevelopment Housing Requirements**
Infrastructure improvements, finding required for, 5.369
Loans for commercial rehabilitation, 5.372
Owner participation agreements
Contents and requirements for, 5.366
Disposition and development agreements compared, 5.358
Replacement housing plan required before execution of agreement, 5.408
Participation of owners and tenants
Generally, 5.346
Forms of participation, 5.350
Good faith and reasonableness requirement, 5.347
Owner participation agreements (see Owner participation agreements, above)
Property-specific participation not required, 5.348
Reasonable conditions can be imposed by agency, 5.349
Rules on participation and preferences, 5.351
Prevailing wages issues, 5.362-5.363
Property acquisition
Generally, 5.352
Developer reimbursement of relocation payments, 5.357
Eminent domain, requirements for and restrictions of, 5.354-5.355
Forced sales, 5.355
Relocation assistance required, 5.356-5.357
Voluntary means for acquisition, 5.352-5.353
References for additional information about, 5.373
Relocation assistance required, 5.356-5.357

Sales or use tax, prohibition on redevelopment assistance with projects that generate, 5.370
Timing considerations
Approval of disposition and development agreements, notice of, 5.365
Five-year implementation plans required, 5.368
Forced sales, timeline to acquire property, 5.355
Vehicle dealerships, prohibition on redevelopment agency assistance with, 5.371

Redevelopment Project Area
Disclosure by redevelopment agency's officers and employees of property owned and direct or indirect financial interests in property within redevelopment project area, 2.181
Powers of redevelopment agencies, 1.70

Red Light Districts
Red Light Abatement Act, enforcement and remedies under, 9.15, 12.13-12.16

Reductions in Force. See **Layoffs**

Referenda. See **Initiatives and Referenda**

Regional Air Quality Management. See **Air Quality**

Regional Governments
Proposals for, 1.79

Regional Planning. See **Land Use**

Rehabilitation Act of 1973
Alcoholics, applicability of Act's provisions to, 4.117, 4.148
Back pay, recovery of, 4.259
Obesity not disability per se, 4.226

Reimbursement
City council expenses. See **City Council**
Cost reimbursement from state. See **Cost Reimbursements From State**
Developer reimbursement of relocation payments, 5.357
Fees charged, reimbursements of state mandates if, 5.251
Public Safety Officers Procedural Bill of Rights Act, reimbursements of state mandates under, 5.247
Salary, per diem, or reimbursement for expenses from government entity as non-interest, 2.169
Tax reimbursements for property tax reductions, 5.215
Utilities relocating equipment or facilities, reimbursement for relocation expenses, 8.125

Reinstatement of Employee
Disciplinary action against employee, reinstatement of employee deprived of liberty interest hearing before termination, 4.287
Discrimination action, reinstatement as form of equitable relief, 4.264
Skelly violations, no entitlement to reinstatement for, 4.284

Relatives. See **Children; Spouses**

Religious Discrimination
Civil Rights Act of 1991, no remedy for religious discrimination under, 4.150
Constitutional limits on municipal authority. See **Constitutional Limits on Municipal Authority**
EEOC compliance manual on, 4.215
FEHA. See **Fair Employment and Housing Act (FEHA)**
Govt C §11135, discrimination prohibited under, 4.169
Loyalty oath, effect of applicant's religious beliefs on requirement of taking, 4.218
Pre-employment inquiries about religion, 4.216
State personnel laws prohibiting, 4.170

Religious Land Use and Institutionalized Persons Act (RLUIPA), 10.134

Religious Organizations
Lease of public building to religious group, constitutionality of, 8.115
Zoning issues involving, 10.133-10.134

Religious Practices

Constitutionality of non-denominational prayer or silent meditation at beginning of meetings, 2.6
Constitutional limits on municipal authority. See **Constitutional Limits on Municipal Authority**

Relocation Assistance
Generally, 8.14
Advisory assistance to displaced persons
Generally, 8.16
Availability of representative, 8.19
Displacee's needs, representative's understanding of, 8.18
Role of relocation representative, 8.17
Claim procedure, 8.24
Comparable replacement, 8.21
Duplication of payments, 8.23
Grievance procedure, 8.25
Last resort housing, 8.21
Plan for relocation, 8.20
State Housing Law, relocation assistance required under, 12.8
Summary of relocation benefits, 8.22
Time considerations for public agency providing relocation assistance, 8.39
Triggers for relocation obligations, 8.15

Rent
See also **Rent Control**
Airport rents, 6.151
Relocation assistance, 8.24
Revenues from rental of property, 5.293
Transient occupancy taxes. See **Taxes**

Rent Control
Administration of ordinances
Generally, 9.53
Annual rent increases, 9.54
Decreases in rent, 9.55
Due process for rent adjustment applications, 9.56
Pass-through increases in rent, 9.55
Preemption by state laws, 9.58-9.59
Standard of review, substantial evidence as, 9.57
Application of to residential units, 9.47
Exemptions from rent control, 9.52
Mobile homes and mobile home parks
Preemption of local laws, 9.59
Vacancy control regulations, 9.60
Permissible regulation
Generally, 9.48
Just and reasonable return for landlords, 9.50-9.51
Legitimate governmental purpose, 9.49
Taking, impermissible regulation as, 9.51
Vacancy decontrol and exemptions from rent control, 9.52

Reports. See **Records and Reports**

Reservations. See **Nonsummary Vacation of Streets, Highways, and Service Easements**

Residence and Domicile
Candidate for election, residency requirements, 3.33
City council member moving residence outside city or district, effect of, 1.191
Public employees, residency requirements for, 4.5
Voting, residence for purpose of, 3.63

Resolution of Necessity. See **Eminent Domain**

Resolutions. See **City Council**

Resource Conservation and Recovery Act (RCRA), 6.100, 11.238, 11.251

Respondeat Superior
Immunity of municipality from liability under theory of, 4.158

Rest and Meal Periods
Fair Labor Standards Act (FLSA), compensation for rest and meal periods under, 4.61

Retaliation Against Employees
See also **Adverse Employment Actions**
Generally, 4.180
Sexual harassment charge, retaliation against employee for filing, 4.205
Title VII of Civil Rights Act of 1964, retaliation for engaging in protected activities prohibited under, 4.139
Whistleblower disclosing violations of state or federal statutes, prohibition against retaliation against, 4.134

Retirement and Pension Plans
Generally, 4.32
Amendment of pension plan, restrictions on, 4.36
Beneficiary remedies, 4.40
Constitutional validity of pension plans, 4.33
Disability retirement benefits. See **Workers' Compensation**
Election of alternative methods of receiving pension payments, 4.35
Forfeiture of previously earned pension prohibited, 4.35
Gann Limit, 5.287
Gift of public funds prohibition does not apply to pensions, 5.279
Hearings
Disability retirement claims, appeal hearings for, 4.39
Retirement board's holding of hearings, statutes governing, 4.40
Legislation authorizing retirement systems, 4.34
Liberal construction in favor of employee pension plans, 4.34
Mandamus proceeding to compel public body to pay pension, 4.40
Persons entitled to benefits
Generally, 4.37
Death benefit, designated beneficiary's entitlement to, 4.38
Disability, accrual of pension on, 4.39
Purpose of, 4.32
Rights of employees, 4.35

Revenue Bond Law of 1941, 5.225-5.226

Revenue Bonds
Generally, 5.223
Debt limit issues, 5.224
Harbor activities, financing of, 6.161
Joint powers agencies' power to issue revenue bonds, 1.78
Marks-Roos Local Bond Pooling Act of 1985, effect of, 1.78
Revenue Bond Law of 1941, 5.225-5.226
Voter approval, when needed, 5.225

Revenues
See also **Income**
Benefit assessments and assessment districts. See **Benefit Assessments and Assessment Districts**
Charges. See **Charges**
Debt financing. See **Debt Financing**
Fees. See **Fees**
Fines and forfeitures. See **Penalties**
Franchise fees. See **Franchises**
Gifts. See **Gifts**
Grants, 5.217
Pledged special revenues, exclusion of from bankruptcy automatic stay, 5.450
Rates. See **Rates**
Reimbursements of state mandates. See **Cost Reimbursements From State**
Rental of property, 5.293
State subventions
Collection services on behalf of cities, 5.216
Shared revenues, 5.214
Tax reimbursements, 5.215

Taxes. See **Taxes**

Right to Sue Notice. See **Discrimination Laws, Enforcement of**

Rivers and Harbors Act of 1899
Army Corps of Engineers, authority under, 10.355

RLUIPA (Religious Land Use and Institutionalized Persons Act), 10.134

Road Closures
Generally, 8.154
Circulation element, implementation of, 8.155
Selective access, 8.156

Roads (Generally). See **Sidewalks, Streets, Roads, and Highways**

Roller Skates. See **Bicycles, Roller Skates, and Skateboards**

Roster of Public Agencies. See **Government Claims Act**

Rules of Professional Conduct. See **Government Lawyers, Ethical Obligations for**

Safe Drinking Water Act. See **Water Quality**

Safe Harbor
Agenda for regular meeting listing closed session, safe harbor created by, 2.73, 2.83

Safety in Workplace
Federally funded projects, compliance with Contract Work Hours and Safety Standards Act, 7.158
Injury and illness protection plan, state law requiring employers' adoption of, 4.137
Miscellaneous safety regulations for employers, 4.138

Safety Regulations. See **Health and Safety Regulations**

Salaries and Compensation
See also **Compensation Plans**
Additional compensation granted after contract performed or services rendered, prohibition against, 1.45
Appointive officers and employees, compensation of, 1.253
Back pay, recovery of. See **Back Pay**
City council members, compensation of. See **City Council**
Contract provision stating basis for contractor's compensation, 7.207
Disputes over wages, resolution of. See **Meyers-Milias-Brown Act**
Eminent domain, setting just compensation for acquisition of property through. See **Eminent Domain**
Fair Labor Standards Act, compensatory time off requirements under. See **Fair Labor Standards Act (FLSA)**
Mayor's salary, 1.205, 1.211
Meet and confer obligation about wages. See **Meyers-Milias-Brown Act**
Overtime pay. See **Overtime and Minimum Wage**
Prevailing wage law. See **Prevailing Wage Law**
Prohibited contracts under Govt C §1090, exception for salaries, 2.169
Public disclosure of public employees' salaries over $100,000 per year, 4.127
Public Records Act, disclosure of public employees' salaries under, 2.246
Reduction in salary as punitive action, 4.296
Retroactive compensation limitation, 5.280

Sales and Use Taxes. See **Taxes**

Sanctions. See **Penalties**

Sanitation Service. See **Solid Waste and Recycling**

Schools
See also **Universities and Colleges**
Air quality, facilities with risk management and prevention plans cannot locate near schools, 11.205
Exemptions from property tax for schools, 5.22, 5.101

Proposition 13, exception for bonds for new schools, 5.20
Redevelopment plans, tax-increment apportionment for schools, 5.327
Surplus property, offer to sell or lease property suitable for school facilities construction purposes, 8.91

Scope of Representation. See **Meyers-Milias-Brown Act**

Searches
Fourth Amendment issues with. See **Constitutional Law**
Police officer, restrictions on employer's searches of, 4.308

Second Units. See **Affordable Housing**

Secretary of State
Charters effective when filed with Secretary of State, 1.13
Nonprofit corporations established and recognized by, 1.84

Section 1983 Actions
Generally, 13.114
Acts of others, liability for causing, 13.142
Attorney fees awards for. See **Attorneys' Fees**
Causation
Acts of others, liability for causing, 13.142
Defense for employee involved in permit application denied by city council, 13.142
Municipal policy or custom requirement, 13.138
Prima facie case, establishing, 13.133, 13.138
Collateral estoppel issues, 13.128
Conflict of interest for government lawyers, 13.143
Constitutional basis for, 13.114, 13.116
Damages
Generally, 13.144
Attorney fees and damages, 13.145
Compensatory damages, 13.146
Nominal damages, 13.145
Punitive damages (see Punitive damages, below)
Defamation claim including denial of right expressly protected in constitution, 13.112
Defenses
Absolute immunity, 13.124-13.125
Collateral estoppel issues in Section 1983 actions, 13.128
Duty of entity to provide, 13.143
Immunities (see Immunities under, below)
Permit applications denied by city council, causation defense for employee, 13.142
Qualified immunity, 13.124, 13.126
Definitions
Clearly established, 13.126
Color of law, 13.132
Policy-maker, 13.137
Discovery considerations for removal to federal court, 13.151
Due process. See **Due Process**
Ethical obligations for government lawyers
Conflict of interest in Section 1983 actions, 13.143
Immunity in Section 1983 actions for prosecutorial functions, 13.125
Exhaustion of administrative remedies not usually required, 13.129
Forum considerations, state or federal court, 13.151
Government lawyers (see Ethical obligations for government lawyers, above)
Immunities under
Collateral estoppel issues, 13.128
Individual (see Individual immunities under, below)
Local governments, no immunity for, 13.123
Naming of defendants, individual or official capacities, issues with, 13.141
States, Eleventh Amendment immunity for, 13.127
Zoning commissions immunity from Section 1983 action, 13.125
Indemnification, application of duty to indemnify to claims under, 13.87, 13.89, 13.147
Individual immunities under
Generally, 13.124
Absolute immunity, 13.124-13.125

Qualified immunity, 13.124, 13.126
Injunctions
Generally, 13.115, 13.148
Defendant sued in official capacity if injunction sought, 13.141
Jurisdiction, concurrent state and federal, 13.122, 13.151
Municipal policy or custom requirement
Generally, 13.134
Causation of constitutional violation from policy or custom, 13.138
Discretionary acts versus policy, 13.138
Inadequate training or supervision, liability from pattern of, 13.136
Injunctions authorized for cases involving, 13.115, 13.148
Lower-level employees, liability for persistent acts or omissions of, 13.135
Policy-maker, policy or custom must be attributable to, 13.137
Naming of defendants, individual or official capacities, 13.141
Negligence not sufficient, 13.139
Prima facie case, establishing
Generally, 13.129-13.130
Causation requirement, 13.133, 13.138
Federally protected right, deprivation of, 13.131
Municipal policy or custom (see Municipal policy or custom requirement, above)
Specific intent not required, 13.139
State action under color of state law, 13.132
State of mind relevant only to underlying violation, 13.139
Punitive damages
Disclosure to employees of exposure to, 13.143, 13.156
Immunity of local government from, 13.123
Indemnification of employee by entity of, 13.87, 13.89, 13.147, 13.156
Standard for award of, 13.147
Remedies
Attorney fees and costs, 13.149
Civil penalties allowed, 13.150
Damages (see Damages, above)
Injunctions, when available, 13.148
Rent control, timing of mandamus and Section 1983 actions involving denial of fair return, 9.51
Scope of law
Generally, 13.115
Constitutional rights as federal rights within scope, 13.116
Federal laws, private right of action for violation of, 13.120
Liberty interests may be subject to constitutional protections, 13.119
Property interests with reasonable claim of entitlement, 13.118
Rights and interests that do not constitute constitutional violation, 13.117
State court actions, concurrent jurisdiction of claims, 13.122
Wrongful death liability, 13.121
State law remedies, interaction with Section 1983 claims, 13.140
Statute of limitations, 13.152
Supervisor liability for acts of subordinates, 13.142
Text of section, 13.114
Timing considerations, deadline for removal to federal court, 13.151

Securities
Debt financing. See **Debt Financing**
Public works contracts, contractor substituting securities in lieu of funds retained by public entity, 7.46

Security Patrols and Security Guards
Generally, 9.37
Airports, security in, 6.155
Authority for regulation of, 9.38
Licensing of, 9.39
Police officers as security guards, 7.191

Self-Dealing. See **Ethical Considerations**

Self-Insurance. See **Insurance**

Seminars. See **Conferences and Seminars**

Seniors
Affordable housing, 10.177

Sentencing. See **Criminal Enforcement**

Separation From Employment. See **Termination of Employment**

Service Easements. See **Easements**

Service of Process and Papers
CEQA decision, requirements for serving petition challenging, 11.67
Election contests. See **Election Contests**
Eminent domain action, service of papers on record owners and occupants of property, 8.53
Recall, serving notice of intent to, 3.151

Services and Goods, Contracting for. See **Goods and Services, Contracting for**

Setoffs
Air quality permits, 11.227
Industrial retirement benefits, offset against workers' compensation benefits, 4.396

Settlement and Compromise
CEQA decision, settlement negotiations if challenging, 11.71
Closed session disclosure report on approval of pending litigation settlement, 2.105
Eminent domain proceedings, 8.60
Indemnification of claim, effect on settlement proceedings, 7.320
Older Workers Benefit Protection Act, compliance with special requirements of, 4.249

Sewage Disposal
Authority to own and operate sewer system, 6.11, 11.162
Fees and charges, 6.12
Treatment plants and pretreatment, 6.12
Collection system regulation by Water Resources Control Board, 11.168
Fees for service, effect of Proposition 218 on, 5.166, 5.180
Intergovernmental agreements to construct and maintain sewers, 7.185-7.186
Lease of city property for sewers and sewage treatment, 8.116
On-site sewage treatment systems, 11.167
Pretreatment programs for industrial users
Local limits on pollutants allowed, 11.165
Purpose of, 11.164
Standards from EPA for, 11.163
Rate-setting procedures, 5.169
Service charge may be billed with other utilities, 5.171
Sludge, use and disposal of, permit required for, 11.166

Sex Discrimination
California Constitution provision prohibiting sex discrimination, 4.164
Civil Rights Act of 1991, no remedy for sex discrimination under, 4.150
Dressing in manner consistent with gender identity, employee's rights regarding, 4.176
Equal Pay Act (California), protections under, 4.167
Equal Pay Act of 1963, sex discrimination in pay prohibited under, 4.143
Fair Labor Standards Act (FLSA), prohibition against sex discrimination in employment under, 4.81
FEHA. See **Fair Employment and Housing Act (FEHA)**
Sexual harassment as sexual discrimination for purposes of equal protection, 4.210
State personnel laws prohibiting, 4.170
Unruh Civil Rights Act and Ralph Civil Rights Act, scope of, 4.168

Sexual Harassment
Generally, 4.186
Defamation claim, false claim of sexual harassment resulting in, 4.209
Defenses
Affirmative defenses by employer to vicarious liability for supervisor's actions, 4.198
Avoidable consequences, effect of employee's failure to take reasonable steps to stop harassment, 4.199
Defined, 4.187
Elected officials, acts constituting sexual harassment not within scope of employment, 13.109

Employer's liability for sexual harassment
Co-employee's conduct, employer's liability for, 4.202
Hostile environment hazard, 4.200-4.201
Non-employee conduct, employer's liability for failure to prevent harassment by, 4.203
Quid pro quo harassment, 4.198-4.199
Retaliation, employer's liability for, 4.205
Fair Employment and Housing Act prohibiting, 4.186, 4.194, 4.199, 4.201
Hostile environment
Elements of hostile environment claim, 4.195
Fair Employment and Housing Act protecting employees from hostile or sex-linked conduct, 4.186, 4.194
Federal law, 4.193
Liability of employer for, 4.200-4.201
Reasonable person standard in determining if actions constitute hostile or abusive work environment, 4.196
Reasonable woman standard in determining if harassment creates hostile work environment, 4.197
Individual's liability for sexual harassment
California law, 4.205
Federal law, 4.204
Investigation of sexual harassment claim
Duty of employer to investigate sexual harassment claims, 4.208
Qualified privilege for statements made during, 4.209
Liability
Employer's liability (see Employer's liability for sexual harassment, above)
Individual's liability (see Individual's liability for sexual harassment, above)
Theories of liability arising out of sexual harassment, 4.210
Offensive conduct, 4.188
Pamphlet about sexual harassment, employer's duty to distribute, 4.211
Policy against sexual harassment, creation of, 4.207
Poster about sexual harassment, employer's duty to post, 4.211
Prevention of, 4.206
Quid pro quo harassment
EEOC's position on sexual favoritism, 4.192
Elements of prima facie case of, 4.190
Liability of employer for, 4.198-4.199
Preferential treatment based on coerced sexual conduct, effect of qualified third parties denied employment opportunities or benefits, 4.191
Retaliation, 4.205
Same-sex sexual harassment actionable under Title VII, 4.187
Supervisors
Affirmative defenses by employer to vicarious liability for supervisor's actions, 4.198
Injunctive orders, individual supervisors subject to, 4.204
Mandatory sexual harassment training for, 4.212
Title VII prohibiting, 4.141, 4.186-4.187, 4.204
Unwelcome conduct, 4.189

Sexual Orientation
Definition of disability, homosexuality and bisexuality outside of, 4.224
Fair Employment and Housing Act (FEHA) prohibiting discrimination based on, 4.165
Govt C §11135, discrimination prohibited under, 4.169
Same-sex sexual harassment actionable under Title VII, 4.187

Sheriff. See **Law Enforcement Personnel**

Sick Leave
"Kin care" use of sick leave, 4.173

Sidewalks, Streets, Roads, and Highways
ADA requirements. See **Americans with Disabilities Act (ADA)**
Annexation, acceptance of county roads and highways, 1.162
Dangerous condition
Streets are not public property until accepted by entity, 13.100
Trivial defects not enough to create dangerous condition, 13.103
Disposition of streets and highways owned in fee, 8.103
Encroachments (see Obstructions and encroachments, below)
General regulatory requirements, 8.152
Harbor access from streets and highways, requirements for, 6.169

Navigable waters, maintenance of public access from streets and highways, 10.344
Obstructions and encroachments
Generally, 8.119
Removal of, 8.120
Regulation of activities on streets and sidewalks
Generally, 8.176
Freedom of speech and assembly, 8.177
Permitted regulation, 8.178
Repair sidewalks, ordinance requiring adjacent property owners, 13.103
Road closures. See **Road Closures**
Traffic signs and signals, liability for providing versus maintaining, 13.106
Vacation of public streets and highways
Generally, 8.126
Nonsummary vacation procedure. See **Nonsummary Vacation of Streets, Highways, and Service Easements**
Summary vacation procedure. See **Summary Vacation of Streets, Highways, and Service Easements**
Vehicular regulations. See **Vehicular Regulations**

Signatures
Contracts, execution of. See **Contracts**
Initiatives. See **Initiatives and Referenda**
Nomination of candidate, required number of signatures needed for, 3.16
Recall petition. See **Recall**

Signs and Billboards
Dangerous condition of public property caused by sign on adjacent property, 13.102
Restrictions on sign enforcement, 12.73
Speech regulation
Generally, 9.137
Amortization of nonconforming signs, 9.142
Billboard restrictions, 9.141
Commercial speech restrictions, 9.139-9.140
Content-based restrictions, 9.138
Non-commercial speech restrictions, 9.140
Permits requirements to erect signs, 9.145
Political sign restrictions, 9.143
Severance of unconstitutional portions of sign ordinances, 9.144
Zoning issues involving, 10.145
Zoning issues involving, 10.145

Skateboards. See **Bicycles, Roller Skates, and Skateboards**

***Skelly* Rights.** See **Disciplinary Actions Against Employee**

Slander. See **Defamation**

Solid Waste and Recycling
Air quality issues, 6.108
Bottle bill (California Beverage Container Recycling and Litter Reduction Act), 6.118
California Integrated Waste Management Act of 1989 requirements
Calculation of diversion rate, 6.116
Diversion requirements, 6.114
Exemption and time extension for diversion requirements, 6.115
Penalties for noncompliance, 6.117
Source Reduction and Recycling Element (SRRE), impact on, 6.113
City solid waste planning
Annual reports, 6.112
County plan, relationship to, 6.112
Household Hazardous Waste Element (HHWE), 6.110, 6.112
Nondisposal Facility Element (NDFE), 6.111-6.112
Penalties, 6.112
Source Reduction and Recycling Element (SRRE), 6.109, 6.111-6.112
Facilities authorized, 6.106
Fees
Franchise fees, 5.194-5.195
Sanitation services, fees for provision of, 5.166, 5.180

Franchises. See **Solid Waste and Recycling Franchises**
Hazardous materials and toxic waste. See **Hazardous Materials and Toxic Waste**
Household Hazardous Waste Element (HHWE), 6.110, 6.112
Landfills. See **Landfills**
Marinas, collection facilities for recyclables required for, 6.174
Nondisposal Facility Element (NDFE), 6.111-6.112
Recyclable design requirements, 6.119
Recyclers, business regulation of, 9.46
Sewage disposal. See **Sewage Disposal**
Source Reduction and Recycling Element (SRRE), 6.109, 6.111-6.113
Waste management planning. See **Waste Management Planning**
Water quality issues
Local pretreatment requirements, 6.107
Regional board regulation, 6.107
Water quality testing, 6.107

Solid Waste and Recycling Franchises
Franchising authority over recyclables, 6.103
Franchising authority over solid waste
Police power authority, 6.92
Statutory authority, 6.93
Jurisdiction
Federal jurisdiction over solid waste, 6.98
State jurisdiction over solid waste, 6.99
Landfill regulatory authority, 6.100
References, 6.102, 6.105
Regulatory authority over recyclables, 6.104
Solid waste franchises
Discontinuation of non-exclusive franchises, 6.96
Existing franchises, effect on, 6.95
No local preemption, 6.94
Procedures used to negotiate services, 6.97
Waste flow control ordinances, effect of, 6.101

Sovereign Immunity
Government Claims Act, impact on doctrine, 13.94
Municipalities, inapplicability of sovereign immunity to, 4.43

Special Assessment Investigation, Limitation and Majority Protest Act of 1931, 5.129

Special Districts
Generally, 1.72
Changes in organization, 1.74
Characteristics of, 1.75
Dependent districts, 1.75
Enterprise districts, 1.75
Formation of, 1.8, 1.72
Independent districts, 1.75
Landowner-voter districts, 1.75
Multifunction districts, 1.75
Non-enterprise districts, 1.75
Power of, 1.73
Registered-voter districts, 1.75
Single function districts, 1.75
Statutory authority, 1.73
Water supplies, role in. See **Water Supplies**
Wright Act of 1887, effect of, 1.8

Special Elections. See **Elections**

Special Fund Doctrine, 5.292

Special Meetings. See **Open Meeting Laws**

Special Taxes

Generally, 5.69
Accountability measures mandated, 5.75
Challenges to lack of voter approval for charge imposed by city, city's burden of showing charge not special tax, 5.74
Community facilities districts. See **Mello-Roos Community Facilities Act of 1982**
Definition of special taxes
Assessment compared, 5.73
Fees compared, 5.72, 5.160
General tax compared, 5.71
Label of special tax not dispositive, 5.70
Proposition 218, definition under, 5.16, 5.71
Two-part test for identification of special tax, 5.71
Initiative for adoption of. See **Initiatives and Referenda**
Libraries, funding for, 5.92
Police and fire protection tax, 5.88-5.91
Procedure to adopt. See **Proposition 218**
Proposition 13. See **Proposition 13**

Speech Regulation (Government as Property Owner)
Generally, 9.118
Forum analysis
Generally, 9.119
Designated or limited public forum, 9.121
Nonpublic forum, 9.122
Traditional public forum, 9.120
Leases of property, public forum considerations, 2.263

Speech Regulation (Government as Regulator)
Generally, 9.123
Charitable street vending or solicitations, 9.152
Content-based restrictions that are permissible, 9.136
Definition of fighting words, 9.136
Mandamus for expressive activity permits, expedited review, 13.23
Parades and parade permits. See **Parades and Parade Permits**
Prior restraints against speech
Injunctions not allowed by First Amendment, 9.127
Internet access or restrictions, 9.130
Newsrack restrictions, 9.129
Permit requirements, 9.128
Sign regulation. See **Signs and Billboards**
Taxation of First Amendment activity, 5.97, 9.153
Time, place, and manner restrictions
Generally, 9.131
Adult entertainment, 9.132
Curfews and public forum access, 9.134
Leafleting, 9.133
Zones for free speech, 9.135
Types of speech
Charitable fund-raising, 9.124
Commercial speech, 9.123
Mixed commercial speech, 9.125
Political speech, 9.126

Speech. See **Constitutional Law**

Spheres of Influence. See **Local Agency Formation Commissions (LAFCOs)**

Spouses
City council. See **City Council**
Defined, 2.135
Government Claims Act, spouse presenting claim under, 13.52

Staff Briefings
Collective concurrence about legislative body, staff prohibited from attempting to develop, 2.54

Standing

Affirmative action programs, third parties' standing to challenge voluntary, 4.10
California Voting Rights Act, standing to file action for violation of, 3.77
CEQA. See **California Environmental Quality Act (CEQA)**
Civil Rights Act of 1871, standing to sue under, 4.157
Closed session, standing to bring action for violation of Brown Act, 2.113
Discrimination claim, standing to file charge with EEOC, 4.243
Election contest, standing to file, 3.125
Endangered Species Act (ESA) enforcement, 11.279
News media's standing to seek government records, 2.230
Political Reform Act of 1974, standing to sue to enjoin violations or to compel compliance with, 3.207
Public trust doctrine, standing to raise claim under, 10.338

Standing Committees. See **Open Meeting Laws**

State Housing Law
Civil penalties and cost recovery under, 12.7, 12.20
Demolition or repair by locality, administrative abatement proceedings resulting in, 12.70
Franchise Tax Board deductions, 12.7
Misdemeanor, State Housing Law violation as, 12.37
Notice requirements, 12.6
Receiver, appointment of, 12.9
Relocation assistance requirement, 12.8
Remedies, 12.6
Timely correction of violations under, 12.6

State Lands Commission, 1.101
Authority, what is included in, 10.360

Statement of Contest for General Election. See **Election Contests**

State Water Resources Control Board. See **Water Quality; Water Supplies**

Statutes of Limitations
See also **Time**
Age Discrimination in Employment Act, time limit for filing lawsuit after filing EEOC charge, 4.249
Benefit assessments, actions challenging validity of assessment, 5.152
California Coastal Act, appeal of local coastal plan decisions, 10.320, 10.322
CEQA. See **California Environmental Quality Act (CEQA)**
Civil lawsuit to enforce discrimination laws, time limit for filing, 4.257
Civil rights actions. See **Civil Rights**
Cost reimbursement test claims filing deadline, 5.257
Department of Fair Employment and Housing (DFEH), statute of limitations for filing complaint with, 4.253
Development agreements, adoption or amendment of, 10.127
Equal Pay Act (Federal), statute of limitations for bringing action under, 4.250
Exactions, period to challenge implementation after notice, 10.229-10.230
Fair Labor Standards Act (FLSA), statute of limitations for bringing action to enforce, 4.91
General plans for land use, challenges to, 10.81
Government Claims Act. See **Government Claims Act**
Indemnity agreement, statute of limitations for enforcing, 7.307
Mandamus, writ of, 13.14, 13.23
Mello-Roos special tax or bonds under, challenges to, 5.87
Meyers-Milias-Brown Act's statute of limitations for unfair labor practices filed with California Public Employment Relations Board, 4.323
Police misconduct, statute of limitations for investigating, 4.271
Prohibited contract under Govt C §1090, statute of limitations for, 2.173
Redevelopment plans
Challenges to, 5.341
PAC formation, challenges to, 5.375
Taking claims, 10.380
Tolling of statute. See **Government Claims Act**
Transient occupancy taxes collection, 5.55
Unfair Competition Act, statute of limitations for actions under, 12.11
Water quality, review of regional board actions, 11.152-11.153, 11.156
Workers' compensation claims, different statutes of limitations for presentation of different types of, 4.392
Zoning ordinances, 10.98

Stay of Proceedings
Automatic stay in bankruptcy, application for, 5.449-5.450

Stop Notices
Payment disputes, 7.120
Preliminary 20-day notice, 7.118
Purpose of, 7.117
Resolution
Contractor bond, 7.124
Duty to withhold amount equal to stop notice, 7.121
Funds subject to withholding, 7.122
Notice to claimant, 7.123
Prompt payment, 7.125
Suit by contractor, 7.126
Suit by stop-notice claimant, 7.127
Timing of, 7.119

Storm Drains
Contents of permits, 6.15
Financing management programs, 6.16
National Pollutant Discharge Elimination System (NPDES) permits, requirements for, 6.13
Types of permits, 6.14

Storm Water. See **Water Quality**

Streams. See **Tidelands, Beaches, and Streams**

Streets. See **Sidewalks, Streets, Roads, and Highways**

Strict Liability
Code violations, strict criminal liability for, 12.45
Sexual harassment, strict liability of employer under FEHA, 4.199, 4.201

Strikes
Exhaustion of administrative remedies with California Public Employment Relations Board by employer before seeking relief in court from strike, 4.323
Meyers-Milias-Brown Act allowing public employees limited right to strike, 4.348

Subcontractors for Public Works Contracts. See **Contractors and Subcontractors for Public Works Contracts**

Subdivisions and Subdivision Map Act
Dedication
Reconveyance of property dedicated under Subdivision Map Act, 8.80
Summary vacation occurring when offer of dedication covered by subdivision map, 8.147
Definition of subdivision, 10.148
Due process for land use decisions, 10.411
Groundwater, authority to preserve and protect under Subdivision Map Act, 11.123
Local ordinances
Antiquated subdivisions, 10.160
Automatic approval procedures, 10.155
Conditions for map approval, 10.156, 10.158
Denial of map, findings for, 10.154
Fees and dedications, imposition on subdivision, 10.157
Flexibility allowed, 10.152
Map approval, by whom, 10.153
Time extensions for tentative maps, 10.159
Procedural due process for land use decisions. See **Due Process**
Requirements to create
Lot line adjustments, application of requirements to, 10.151
Map approval required, 10.148
Parcels, number of and map types, 10.149
Vesting tentative maps, 10.150
Time extensions for tentative maps, 10.159
Water supplies for. See **Water Supplies**
Waterways, public access to, 10.342

Subletting and Subcontracting Fair Practices Act
Generally, 7.75
Clerical errors, relief for, 7.79
Criteria for substitution of subcontractors, 7.77
Emergency/necessity exception, 7.80
Penalties for failure to comply with Act, 7.81
Public policy behind Act, 7.76
Substitution hearing, 7.78

Subpoena and Subpoena Duces Tecum
Department of Fair Employment and Housing's authority to issue subpoenas, 4.254
EEOC's power to issue subpoena during investigation of discrimination complaint, 4.245
Election contest, court clerk issuing subpoenas for witnesses to attend, 3.133
Personnel records, subpoena for, 4.130

Subrogation
Government Claims Act, claims subject to, 13.29
Municipal plaintiffs, application to, 13.183
Work-related injury, employer filing action against third party responsible for, 4.397

Subsidiary Districts
Generally, 1.131
Conducting proceedings to establish subsidiary district, 1.133
Initiating proceedings to establish subsidiary district, 1.132
Powers of, 1.70, 1.131
Revenue consequences of subsidiary district merger into city, 1.134

Subventions. See **Revenues**

Successor Candidate. See **Recall**

Summary Judgment
Election contest, unavailability of summary judgment in, 3.134

Summary Vacation of Streets, Highways, and Service Easements
See also **Nonsummary Vacation of Streets, Highways, and Service Easements**
Generally, 8.142
Challenges to vacation, 8.151
Dead ends, 8.146
Excess right-of-way not required for street or highway purposes, 8.145
Impassability and nonmaintenance, 8.144
Offers of dedication on subdivision maps, 8.147
Public service easements, 8.148
Recordation, 8.150
Relocation, street or highway superseded by, 8.143
Resolution, 8.131, 8.149

Supervisors. See **Sexual Harassment**

Surety Bonds
Bid bonds versus payment bonds, 7.103
Changes to scope of work, effect of, 7.98
Default of principal, effect of, 7.96
Insurance distinguished, 7.95
Invitation for bids requiring submission of labor and materials bond (payment bond), 7.59
Purpose of bond, 7.97
Qualifications of surety
Generally, 7.99
Admitted surety insurer, 7.99-7.100
City liability, 7.101
Scope of surety's liability, 7.97
Sufficiency of sureties, procedures for determining, 7.102
Types of, 7.95

Surplus Property
Good faith negotiations, 8.94
Inventory of property, 8.85
Notice requirements for purchase or lease of, 8.93
Offer to sell or lease surplus property
Generally, 8.86
Enterprise zone property, 8.90
Housing providers, 8.87
Infill opportunity or transit village property, 8.92
Park and recreation or open space property, 8.89
Sale and reverter, 8.88
School property, 8.91

Tables. See **Charts, Checklists, Questionnaires, and Tables**

Taking
See also **Inverse Condemnation**
Airport zoning, taking issues relating to, 6.148
Analysis process
Generally, 10.367-10.368
Ripeness requirement (see Ripeness requirement, below)
As-applied ripeness issues
Generally, 10.373
Exhaustion of remedies requirement, 10.377
Final determination requirement, when met, 10.374, 10.378
Futility exception, 10.378
Multiple applications as possible requirement, 10.375
Repeal or waiver of regulation request requirement, 10.376
State remedies, requirement to meet procedures for, 10.379
Statute of limitations, 10.380
Building permits, extraordinary delays in or denial of application, 10.384, 10.396
Damages
Accrual and measure of damages, 10.405-10.406
Availability of damages, 10.366
Definitions
Facial taking claim, 10.372
Physical taking, 10.365
Regulatory taking, 10.365
Due process requiring just compensation for owner of private property taken by government, 1.66
Endangered species. See **California Endangered Species Act (CESA); Endangered Species Act (ESA)**
Exactions, limits on. See **Exactions**
Facial regulatory taking claims
Difficult to establish and disfavored, 10.382
Ripeness requirement met by, 10.372
Land use
General plans, avoiding issues with, 10.82
Moratoria, issues with, 10.210
Physical occupation, regulations authorizing
Generally, 10.400
Permanent physical occupation, 10.401-10.402
Physical versus regulatory taking, 10.365
Temporary physical occupation, 10.403
Physical versus regulatory taking, 10.365
Property subject to, what constitutes, 10.364
Public access to coast, 10.307
Public use limitation on taking, 10.381
Regulatory taking liability analysis
Generally, 10.383
Development permits, extraordinary delays in or denial of applications, 10.384, 10.396
Diminution of value cases, 10.398
Nexus test, when required, 10.392, 10.399
Nuisance, issues with abatement of, 10.389
Penn Central ad hoc test for taking, 10.386
Physical occupation, regulations authorizing (see Physical occupation, regulations authorizing, above)

Remedies for (see Remedies, below)
Temporary physical taking as result of regulation, 10.385
Two-prong *Agins* standard (see Two-prong *Agins* standard for taking analysis, below)
Remedies
Damages (see Damages, above)
Invalidation of regulations, 10.404
Rent control, impermissible regulation as, 9.51
Ripeness requirement
As-applied claims (see As-applied ripeness issues, above)
Facial attacks as ripe, 10.372
Jurisdictional requirement, ripeness as, 10.371, 13.27
Standards to apply, 10.369-10.370
Substantive due process issues and, 10.423
Section 1983 claims for, 13.118
Source of law for, 10.363
Statute of limitations, 10.380
Substantive due process issues with, 10.422
Two-prong *Agins* standard for taking analysis
Generally, 10.387
Deprivation of all economic use, categorical taking as, 10.389
Some economic use remaining, 10.390
Substantial advancement of legitimate state interest, application, 10.388

Taxes
Generally, 5.15
Apportionment requirements
Business license fees and taxes, 5.38-5.40, 5.44
Property taxes, 5.25
Assessments compared, 5.125
Benefit assessments and assessment districts. See **Benefit Assessments and Assessment Districts**
Business license fees and taxes
Generally, 5.35
Amount of tax, 5.42
Apportionment required between in-city and out-of-city activity, 5.38-5.40, 5.44
Benefit assessments, collection with property taxes, 5.124
Classification and equal protection issues, 5.46
Internal consistency test for Commerce Clause issues, 5.43
Nexus requirement, 5.45
Preemption of local laws by state possible, 5.36
Reasonable connection between tax and taxing jurisdiction required, 5.41
Revenue-raising compared to regulation, 5.37
Charter cities. See **Charter Cities**
Collection services on behalf of cities, 5.216
Comparison of fees and taxes, 5.17, 5.74
Consolidation, effect of, 1.173
Constitutional authority for. See **Finances**
Definitions
Excise tax, 5.57
General tax, 5.16, 5.71
Increase, 5.51
Sales tax, 5.27
Special tax, 5.16
Use tax, 5.27
Due process and equal protection issues
Generally, 5.94
Confiscatory amount, due process prohibitions against, 5.42
Rational basis for distinctions, 5.96
Uniformity in application not required, 5.95
Equal protection issues (see Due process and equal protection issues, above)
Exactions, fees compared with taxes, 10.221
Excise taxes
Admissions taxes, 5.61
Authority for, 5.58
Business license fees and taxes (see Business license fees and taxes, above)
Definition, 5.57

Development taxes, 5.60
Documentary transfer tax, 5.67, 5.98
Parcel taxes (see Parcel taxes, below)
Property taxes, 5.59, 5.68
Sales and use taxes (see Sales and use taxes, below)
Transfer taxes, 5.67-5.68
Transient occupancy taxes (see Transient occupancy taxes, below)
Utility users tax (see Utility users tax, below)
Vehicle license fees, 5.7
Exemptions
Banks, 5.103
Insurance companies, 5.102
Property exempted from tax, 5.22, 5.101
First Amendment issues with, 5.97, 9.153
Gas tax revenues, withholding for failure to comply with congestion management program, 10.253
Harbor activities, financing of, 6.161
Income tax. See **Income Tax, Federal**
Incorporation, tax effects of, 1.138
Initiative for adoption of tax. See **Initiatives and Referenda**
Lease of city property, statement concerning taxable interest included in, 8.117
License fees (see Business license fees and taxes, above)
Local taxation, authority for, 5.6
Mello-Roos Community Facilities Act of 1982. See **Mello-Roos Community Facilities Act of 1982**
Parcel taxes
Generally, 5.62
Basis of tax as use of municipal services and facilities, 5.65
Property taxes compared, 5.63
Proportionality requirement for, 5.66
Proposition 218 effect on, 5.21, 5.62, 5.113
Payroll taxes, 5.34
Proposition 1A. See **Proposition 1A**
Proposition 13. See **Proposition 13**
Proposition 62. See **Proposition 62**
Proposition 218. See **Proposition 218**
Redevelopment plans, effect on. See **Redevelopment**; **Redevelopment Plan Adoption**
Refunds, 5.93
Reimbursements to local entities, 5.215
Sales and use taxes
Definitions, 5.27
Local real property transaction sales taxes, 5.108
Maximum tax rate for, 5.28
Preemption by state, 5.26
Proceeds from, use of, 5.29-5.30
Rebates, when prohibited, 5.299
Redevelopment assistance prohibited for projects that generate sales or use taxes, 5.370
Sharing of proceeds among entities, 5.30
Transactions and Use Tax Law (see Transactions and Use Tax Law, below)
Special assessments. See **Benefit Assessments and Assessment Districts**
Special taxes. See **Special Taxes**
State Housing Law, Franchise Tax Board deductions under, 12.7
Taking issues with exactions, 10.221
Taxing power of municipal corporations. See **Taxing Power**
Transactions and Use Tax Law
Generally, 5.31
General purposes, taxes for, 5.32
Sales tax distinguished, 5.31
Specific purposes, taxes for, 5.33
Transient occupancy taxes
Generally, 5.52
Certificate of tax clearance requests, 5.54
Collection of tax, 5.55
Exemptions under, 5.53
Online travel company litigation issues, 5.56
Redevelopment projects, use for bonds for, 5.398
Statutes of limitations for collection of, 5.55

Utility users tax
Generally, 5.47
Collection of tax, 5.48
Federal excise tax challenges to tax, 5.50
Mobile Telecommunications Sourcing Act challenges to tax, 5.51
Valid overlapping state and local regulation, license taxes as example of, 1.41

Taxicabs
Generally, 9.41
Drug and alcohol testing requirements, 9.43
Licensing requirements, consequences of violating, 9.42

Taxing Power
Generally, 1.19, 5.16
Delegation of taxing power not allowed, 5.14
Limits on taxation and appropriation power of local government
Generally, 1.51
Appropriation limit, 1.53
General property tax limit, 1.52
Miscellaneous tax limitations, 1.56
Police power compared, 5.17
Special assessments and property-related fees and charges, 1.55
Voter requirement for imposition of taxes, 1.54
Police power compared, 1.21
Scope of taxing power, 1.20

Telecommunications
Cable operators providing miscellaneous telecommunications services, 6.73
Federal preemption
Barriers to development of telecommunications services, preemption of, 10.139
Franchises, 6.89
Franchises
Federal law, applicability of, 6.89
Permissible requirements by city, 6.91
State preemption, 6.90
Right-of-way management, 10.139
Telecommunications Act of 1996, 10.139
Utility users tax, telecommunications issues with, 5.50-5.51
Zoning restrictions, 10.139

Teleconferenced Meetings. See **Open Meeting Laws**

Television. See **Cable Television and Video Systems Franchises**

Temporary Disability Benefits. See **Workers' Compensation**

Termination of Employment
Generally, 4.289
Closed session meeting to consider. See **Closed Session Meetings**
Confidential medical information obtained from drug test, effect of employer terminating employee based on, 4.114
Constructive discharge
California law, constructive discharge under, 4.220
Federal law, constructive discharge under, 4.219
Disciplinary penalty, discharge of employee as, 4.276
Distinction between layoffs and discharging employees for cause, 4.41
First Amendment issues with, 13.116
Grievances. See **Grievances, Employee Filing**
Reinstatement. See **Reinstatement of Employee**

Testing for Hiring, Promotion, or Retention of Employees
Generally, 4.13
Americans with Disabilities Act (ADA), restrictions on pre-employment tests under, 4.20
Disparate impact or disparate treatment discrimination, use of employment tests leading to, 4.15
EEOC's adoption of uniform guidelines on employee selection procedures, 4.14, 4.214
Medical examination. See **Medical Examination**

Types of tests
Drug testing. See **Drug Testing**
Medical examination. See **Medical Examination**
Polygraph tests as intrusion on employees' privacy rights, 4.16
Psychological tests, privacy concerns over use of, 4.18
Voice tests, written consent required for using, 4.17

Third Parties
Equitable indemnity, municipality cross-complaining against third party, 13.182
Insurance liability policies. See **Insurance**
Personnel records, third party's right to access. See **Personnel Records**
Public works contract provision for timely notification of third party claims, 7.65
Voluntary affirmative action plan, third parties' standing to challenge, 4.10

Tidelands, Beaches, and Streams
See also **Coastal Areas**
Annexation of tidelands and submerged lands, restrictions on, 1.124
Areas protected
Navigable waters, tidelands, and submerged lands, 10.339
Nontidal lakes and streams, 10.340
Waterways, access to and use of, 10.341-10.346
Liability, no liability for public beaches as natural condition, 13.106
Public access to coast, exactions for, 10.307
Public trust doctrine. See **Public Trust Doctrine**
Regulatory authority
Army Corps of Engineers. See **Army Corps of Engineers**
Boating and Waterways, Department of, 10.361
California Coastal Commission. See **California Coastal Act**
Fish and Game. See **Fish and Game, Department of**
State Lands Commission, 10.360

Time
See also **Statutes of Limitations**
Abandonment of office by city council member, time considerations, 1.192
Adult businesses, licensing timelines, 9.12
Agricultural preserves under Williamson Act, notice of nonrenewal, 10.142
Air quality. See **Air Quality**
Animals, licensing period for, 9.183
Annexation, timely exchange of property tax revenues after, 1.152
Appreciation of affordable housing, 3 year time limit to use for home ownership programs, 10.189
Attorney fee motions by municipality, timing of, 13.168
Budget, filing with auditor, 5.264
Building permits, time to begin and complete work, 10.242-10.243
California Coastal Act. See **California Coastal Act**
CC §2929.3, timely notice to property owner under, 12.75
CEQA. See **California Environmental Quality Act (CEQA)**
City council meetings, time restrictions at. See **City Council Meetings**
Community facilities districts, time to record notice of lien after election for formation of district, 5.81
Constitutional debt limitation, no pledge of revenue beyond 1 year, 1.48
Contracts
Duration of, 7.202
Time of the essence statement, 7.204
Cost reimbursements, order on reconsideration petition, 5.260
Council of government's timely determination of regional housing needs, 1.82
Density bonuses, durational requirements of, 10.188
Department of Fair Employment and Housing holding public hearing on accusation of discrimination, time limit for, 4.255
Detachment, timelines applicable to petitions for, 1.136
Development processing fees, timing of notice and hearing, 5.165
Disclosure statements documenting contributions and expenditures, time for filing, 3.194
Discrimination complaint under Title VII, timeliness of filing charge with EEOC, 4.244
Duration of consultation with PAC, 5.383
Elections
Generally. See **Elections**
Contests. See **Election Contests**
Recall election. See **Recall**

Eminent domain proceedings
Complaint, timely filing of, 8.45
Exchange of appraisals, 8.58-8.59
Final offer and demand, filing at least 20 days before trial, 13.161
Motions affecting compensation, time for, 8.61
Order for possession, timely filing of motion for, 8.54
Precondemnation negotiations, time considerations for, 8.40
Relocation information to occupants timely provided by public agency, 8.39
Service of papers, time for, 8.53
Settlement offers, time for, 8.60
Valuation trial, time for, 8.62
Endangered Species Act (ESA)
Consultations for federal and federal-nexus projects, 11.268
Notice before filing suit to enforce, 11.285
Exactions, waiting period before new fee can go into effect, 10.227
Extension of time. See **Extension of Time**
Fees
Development processing fees, timing of notice and hearing, 5.165
Exactions, waiting period before new fee can go into effect, 10.227
Hearing requirements, 5.179
Firefighters Procedural Bill of Rights Act, time limit for firefighter to respond to adverse comments in personnel file, 4.313
General plans for land use
Adoption of plans, 10.70
Extensions of time to adopt. See **General Plans**
Housing element of general plans. See **Housing Element of General Plans**
Government Claims Act. See **Government Claims Act**
Groundwater regulation, time after regional boards recommend additional standards, 11.121
Harbor related lease, duration of, 6.165
Hazardous materials and toxic waste
Application to build facility, time for notice of intent, 11.245
Processing of applications, time limits, 11.246
Housing element of general plans. See **Housing Element of General Plans**
Incorporation proceedings, time considerations for. See **Incorporation**
Indemnification of public employees and officers
Providing defense, time to notify employee of decision about, 13.86
Punitive damages issues, 13.147
Requests for indemnification, time before trial, 13.87
Initiatives. See **Initiatives and Referenda**
LAFCO proceedings, time limits for, 1.128
Leases, duration of, 8.115
Mandatory greenhouse gas emission limits and emission reduction measures, effective date of, 6.22
Open meeting laws, reasonable time restrictions on speakers under, 2.80
Ordinances, effective date of, 1.237-1.238
Parades and parade permits, processing time for, 9.147
Parking fines and forfeitures
Investigation and review process, 5.205
Judgments, time to mail notice of, 5.211
Trial de novo appeal, 5.208
Permit Streamlining Act (PSA), time limits not mandatory with respect to California Environmental Quality Act (CEQA), 10.13, 11.58
Police officer filing response to adverse comment in personnel file, time limit for, 4.298
Political Reform Act. See **Political Reform Act of 1974**
Post-disciplinary evidentiary hearing, timing of, 4.288
Preliminary 20-day notice, 7.118
Proposition 218 notice and hearing requirements, 5.140, 5.147, 5.179
Public Records Act
Pleading for improper withholding of records, timing of, 2.259
Request for records under Act, time limit for providing copy of records, 2.235
Public works contracts
Bidder, timely legal action by, 7.24
Cost records, timely filing of, 7.73
Notice of completion, time considerations for, 7.125
Provision for timely payment of interest by public entity, 7.72
Rates, timing for notice and hearing, 5.169
Redevelopment plans

Affordability covenants, duration of, 5.413, 5.431
Affordable housing plan requirements, 5.415
Amendments to redevelopment plans, notice to PAC, 5.391
Approval of disposition and development agreements, notice of, 5.365
Challenges to PAC, resolution of, 5.375
Excess surplus requirement, 5.432
Extensions of time limits by amendment, 5.344
Findings that avoid need for set-aside, 5.422
Five-year implementation plans required, 5.368
Forced sales, timeline to acquire property, 5.355
Formation of PAC, time for, 5.374, 5.377
Mergers of project areas, notice, 5.436
Modifications to plan, commission to issue recommendation, 5.333
Notice and hearing requirements, 5.331-5.332
Objections to plan, time for response, 5.334
Permanent housing availability, time limit for, 5.407
Post-adoption notifications, 5.338
Replacement housing, when required, 5.402, 5.408
Statement of amendment land area recording, 5.345
Tax-increment apportionment for schools subordinate to debt if request timely made, 5.326
Resolutions, effective date of, 1.247
Right to sue notice, time limit for bringing private civil lawsuit against defendant after issuance of, 4.248
Safety element of general plans, time for consultation with other agencies, 10.66
Section 1983 actions, deadline for removal to federal court, 13.151
Solid waste diversion requirements, time extension for, 6.115
State Housing Law, timely correction of violations under, 12.6
Statute of limitations. See **Statutes of Limitations**
Stop notices, timing of, 7.119
Stray animals, holding periods for, 9.163, 9.170-9.171
Subdivisions, time extensions for tentative maps, 10.159
Taxicab drivers' drug and alcohol testing, time to mail positive results to DMV, 9.43
Urban water management plans, time for filing after adoption, 11.93
Utility franchise, duration of, 6.53
Water quality issues
Citizen suits for enforcement, time for notice of intent to sue, 11.161
Cleanup and abatement orders, hearing, 11.158
Groundwater regulation, time after regional boards recommend additional standards, 11.121
Hearing notice time for Water Resources Control Board, 11.124
Total maximum daily loads (TMDL), review of, 11.147
Water supplies, time for verification of sufficient water supply for subdivision, 11.105
Workers' compensation liability, time limit for employer to reject, 4.386

Title to Property
Acquisition of property by public agency, title search required before, 8.7
Adverse possession, acquiring or losing title to property through, 8.69, 8.114
Retention of records affecting title to real property, 2.264

Title VII of Civil Rights Act of 1964
Generally, 4.139
Affirmative action programs. See **Affirmative Action in Hiring Public Employees**
Back pay, recovery of, 4.259
Discoverability of personnel files under, 4.128
Distinctions between Title VII of Civil Rights Act of 1964 and Civil Rights Act of 1991, 4.154
Enforcement of Title VII. See **Discrimination Laws, Enforcement of**
Exclusions from coverage under Title VII, 4.140
Front pay, inapplicability of statutory caps on damages to award of, 4.260
Injunctive relief for violation of, 4.264
Jurisdiction of state and federal courts over Title VII lawsuits, 4.248
Pregnancy discrimination prohibited under, 4.142
Retaliation against employee for filing or participating in Title VII action, 4.180
Sexual harassment, prohibition against, 4.141, 4.186-4.187, 4.204
Timeliness of filing discrimination complaint with EEOC, 4.244

Tolling of Statute of Limitations. See **Government Claims Act**

Tort Claims Act. See **Government Claims Act**

Torts. See **Liability**

Toxic Waste. See **Hazardous Materials and Toxic Waste**

Trademarks and Trade Names
Public works contracts, specifications by brand or trade names in, 7.63

Trade Secrets
Public Records Act, exemption from disclosure of trade secrets, 2.255

Traffic Signs. See **Sidewalks, Streets, Roads, and Highways**

Trainees
Fair Labor Standards Act (FLSA), exclusion of trainees from coverage under, 4.47

Transactions and Use Tax Law. See **Taxes**

Transient Occupancy Taxes. See **Taxes**

Transit Village Property
Surplus property, offer to sell or lease for purpose of developing property within area covered by transit village plan, 8.92

Translations
Federal Voting Rights Act requiring translation of ballot into foreign languages, 3.45, 3.67
Recall petition, no requirement of translating into foreign languages, 3.156

Transportation
General plans, consideration of needs for in, 10.25
Hazardous materials, 6.199, 8.168-8.169
Public officials' acceptance of free transportation, restrictions on, 1.194

Transportation Planning
Agency for planning, duties of, 10.251
Air quality issues. See **Air Quality**
Congestion management program, 10.253
Regional plan for, preparation of, 10.252

Trash Service. See **Solid Waste and Recycling**

Travel
Compensability for travel time, limits on, 4.62

Treasurer. See **City Treasurer**

Trespass
Generally, 9.154
Interference with lawful business, 9.156
Real property, trespass to, 9.155
Valid overlapping state and local regulation, trespass laws as example of, 1.41

Trial
Appeals. See **Appeals**
Criminal trial, 12.41
Election contests. See **Election Contests**
Eminent domain action. See **Eminent Domain**
Jury trial, taking by exactions, 10.218

Trucks, Regulation of
Generally, 8.165
Height restriction for parking, 8.166
Indemnification provision in trucking contract, restrictions on, 7.224
Routes
Cargo, restrictions based on, 8.168

Explosives, local regulation of transportation of, 8.169
Highway and residential street restrictions, 8.167
Local height, weight, and routing regulations, standard for, 8.170
Tow trucks, 9.44

Unemployment Insurance
Gann Limit and costs not covered by mandate, 5.284

Unfair Business Practices
Public works contracts, provisions for assignment of unfair business practice claims in, 7.42

Unfair Competition
Civil abatement actions. See **Civil Enforcement**
Defined, 12.10
Electric utility, effect of unfair competition challenge, 6.39

Unfair Labor Practices. See **Meyers-Milias-Brown Act**

Unfunded Mandates. See **Cost Reimbursements From State**

Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA)
Rights of employees to take leave under, 4.163

Unions. See **Labor Unions**

Universities and Colleges
See also **Schools**
Redevelopment plans, tax-increment apportionment for community colleges, 5.327
Student athletes, drug testing of, 4.100
Zoning issues involving community colleges, 10.136

Unruh Civil Rights Act
Business establishments, applicability of Act to, 4.168

Use Permits. See **Conditional Use Permits**

USERRA. See **Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA)**

Utilities
See also **Electric Utilities**
Generally, 6.1
CPUC. See **California Public Utilities Commission (CPUC)**
Electric utilities. See **Electric Utilities**
Emergency work, utilities suspending notice and bid requirements for, 6.199
Equipment (see Relocating equipment or facilities, below)
Franchises. See **Franchises**
Fund transfers from utility fund to general fund, 5.162
Public Records Act, exemption from disclosure for utility records, 2.252
Public works power. See **Public Works Power**
Relocating equipment or facilities
Case law, 8.122
Exceptions, 8.124-8.125
Public works contract compensating contractor for utilities relocation work, 7.60
Reimbursement for relocation expenses, 8.125
Statutory obligation, 8.123
Sewage disposal. See **Sewage Disposal**
Sewer services may be billed with other utilities, 5.171
Storm drains. See **Storm Drains**
Taxes on users of. See **Taxes**
Vacation of easements, reservations from, 8.134, 8.136
Water service. See **Water Service**

Vacancies on City Council. See **City Council**

Vacant Residential Property. See **Administrative Enforcement**

Vacation of Public Streets and Highways. See **Sidewalks, Streets, Roads, and Highways**

Validation Actions
Legislative actions, 13.186
Procedures for action, 13.185
Remedies available for enforcement of ordinances, 13.187
When used, 13.184

Valuation
See also **Appraisals**
Eminent domain proceedings. See **Eminent Domain**

Vandalism or Graffiti
Personal Conduct Regulation
Generally, 9.86
Definition, 9.87
Removal of graffiti, 9.91-9.93
State law sanctions for, 9.88-9.90
Preemption of local law affecting aerosol paint cans, 9.89
Treble costs of abatement paid by owner or person or minor guilty of vandalism or graffiti, 12.5

Variances
Generally, 10.113
Air quality. See **Air Quality**
Definition of variance, 10.113
Notice and hearing, 10.118
Procedures for issuance
Findings requirement, 10.117
Local ordinances, conflicts with, 10.115
Parking requirements, 10.116
Standards for issuance, 10.114
Rights granted
Running with the land by variances, 10.119
Special privileges not allowed, 10.120

Vehicular Regulations
See also **Motor Vehicles**
Ambulances. See **Ambulances**
Bicycles, roller skates, and skateboards. See **Bicycles, Roller Skates, and Skateboards**
Parking. See **Parking**
Preemption, 8.152-8.153
Road closures. See **Road Closures**
Taxicabs. See **Taxicabs**
Tow trucks, 9.44
Trucks. See **Trucks, Regulation of**

Venue
Endangered Species Act, enforcement of, 11.277
Public works contract venue provision, 7.74

Vested Rights. See **Due Process**

Vicarious Liability
Sexual harassment, employer's vicarious liability for supervisor's actions, 4.198

Video- and Audiorecording
Firefighter's right to record interrogation, 4.315
Police officer's right to record interrogation, 4.300

Video Systems Franchises. See **Cable Television and Video Systems Franchises**

Volunteers

Fair Labor Standards Act (FLSA), exclusion of volunteers from coverage under, 4.45
Prevailing wage law, volunteer work exemption under, 7.94

Voters and Voting Rights
See also **Elections**
California Voting Rights Act. See **Voting Rights Act (California)**
Expenditure of city funds for voter registration and get-out-the-vote efforts, permissibility of, 3.216
Federal Voting Rights Act. See **Voting Rights Act (Federal)**
Help American Vote Act, purpose of, 3.73
Mello-Roos Community Facilities Act, voting mechanics of, 5.77
National Voter Registration Act (Motor Voter Act), enactment of, 3.72
Project area committee members, voting process, 5.381
Qualifications of
California Constitution, qualifications under, 3.62
Ex-felons' right to vote, 3.64
Residence for purpose of voting, 3.63
Restrictions on right to vote
Rational basis test, voting restrictions subject to, 3.79
Strict scrutiny, voting restrictions subject to, 3.78
Translations. See **Translations**

Voters' Pamphlets
Arguments on city measures
City attorney's impartial analysis, 3.53
Multiple arguments, effect of submission of, 3.55
Persons eligible to file written arguments for or against city measure, 3.54
Public examination and challenge to submitted election materials, 3.57
Rebuttal arguments, 3.56
Candidate's statements, 3.52

Voting During Meetings. See **Meetings**

Voting Rights Act (California)
Generally, 3.74
Attorney fees and costs, recovery of, 3.77
Challenging elections under
Burden of proof in action for violations of Act, 3.76
Standing to file action for violation of Act, 3.77
Violation of Act, racially polarized voting as, 3.75
Comparison to Federal Voting Rights Act, 3.74
Remedies for violation of Act, 3.77

Voting Rights Act (Federal)
Amendments to Act
Language minority requirements, amendment adding, 3.67
1982 amendments to Act, effect of, 3.66
Challenges to elections under Act
At-large elections, challenges to, 3.68
District elections (see District elections, challenges to, below)
Comparison to California Voting Rights Act, 3.74
District elections, challenges to
Generally, 3.69
Dilution of minority vote, challenge to district elections based on, 3.71
Equal protection under 14th Amendment, challenge based on denial of, 3.70
Original requirements of, 3.65
Translation of ballot into foreign language, requirements under Act, 3.45, 3.67

Wages. See **Salaries and Compensation**

Waiver
Age Discrimination in Employment Act (ADEA), restriction on waiver of rights under, 4.146
Annexation agreement requiring waiver of landowner's protest rights, effect of, 1.153
Attorney-client privilege, waiver by majority of legislative body, 2.109
Contractual provision governing waiver, 7.241

Density bonuses for affordable housing, waiver of development standards, 10.185
Eminent domain proceedings, withdrawal of deposit of probable compensation waiving all defenses except additional compensation, 8.50
Government Claims Act, avoiding waiver of statute of limitations, 13.62, 13.69
Public works contracts, waiver of competitive bidding requirement for. See **Bidding for Public Works Contracts**

Waste Management
California Integrated Waste Management Act of 1989, effect of, 6.100
Hazardous materials and toxic waste. See **Hazardous Materials and Toxic Waste**

Waste Management Planning
Elements of integrated waste management plans
Household hazardous waste, 10.263, 11.241
Problems facing local governments, 10.268
Siting issues, 10.264-10.267
Source reduction and recycling, 10.262
Integrated waste management plans
Approval of plans, 10.269-10.271
Creation required, 10.261
Elements of plans (see Elements of integrated waste management plans, above)
Periodic review of plans, 10.272-10.274

Water
Army Corps of Engineers' authority to regulate activities in waters. See **Army Corps of Engineers**
Coastal areas. See **Coastal Areas**
Groundwater extraction, annual notices for, 11.87
Harbors. See **Harbors**
Land use general plans, consideration in, 10.56
Public trust doctrine. See **Public Trust Doctrine**
Quality issues. See **Water Quality**
Reservoirs, access to required, 10.346
Supply issues. See **Water Supplies**

Waterfront. See **Harbors**

Water Quality
Agencies to implement regulations, 11.112
Appeals of state or regional board decisions, 11.152-11.153
Basin plans (see Water quality plans, below)
Cities as regulators
Authority to impose more restrictive controls not preempted, 11.117
EPA enforcement of local regulations possible, 11.119, 11.129
Groundwater quality, local regulation of (see Groundwater quality regulation, below)
Nuisance abatement allowed, 11.118
Cities' role in
Generally, 11.114
Regulated discharger, cities as, 11.115-11.116
Regulator, cities as (see Cities as regulators, above)
Citizen suits, 11.149, 11.161
Definitions
Municipal separate storm sewer systems (MS4), 11.141
Point source, 11.137
Recycled water, 11.181
Waste, 11.180
Waste discharge requirement, 11.115
Wetland, 11.175
Enforcement
Generally, 11.154
Cease and desist orders and injunctions, 11.157, 11.159
Citizen suits, 11.161
Civil prosecution by attorney general, 11.155
Cleanup and abatement orders, 11.158
Criminal penalties, 11.159
EPA, concurrent authority of, 11.154
Regional board authority, 11.154, 11.156

Technical and monitoring reports can be required, 11.160
EPA involvement
Enforcement, concurrent authority of EPA, 11.154
Local regulations, enforcement by EPA possible, 11.119, 11.129
Total maximum daily loads (TMDL), EPA review and approval of, 11.147
Groundwater quality regulation
Injection wells, 11.172-11.174
Management plans, local agencies may adopt, 11.122
Regional water boards can recommend additional standards, 11.121
State law on, 11.169-11.170
Subdivision Map Act, authority to fund efforts to preserve and protect groundwater under, 11.123
Underground storage tanks and, 11.170
Waste discharge requirement permits required, 11.171
Wells, local ordinances required, 11.120
Hazardous waste facilities, compliance with regulations required, 11.248
Implementation by regional boards
Generally, 11.130
National Pollutant Discharge Elimination System permits (see National Pollutant Discharge Elimination System (NPDES) permits, below)
Review by Water Resources Control Board or court, 11.152-11.153
Waste discharge requirements (see Waste discharge requirement permits, below)
Jurisdictional issues with wetlands
Generally, 11.176
Determination must be final for court to hear challenges, 11.179
Fill or dredged materials, discharges to subject to permits, 11.178
Waste discharges, permit requirements, 11.177
National Pollutant Discharge Elimination System (NPDES) permits
Generally, 6.13
Definition of point source, 11.137
Report of waste discharge, as application for federal permit, 11.139
State, issuance by allowed, 11.138
Storm water permits (see Storm water permits, below)
When required, 11.137
Permits for discharge (see Implementation by regional boards, above)
Porter-Cologne Water Quality Act as governing, 11.111
Priority pollutants, 11.129
Recycled water regulation
Definition of recycled water, 11.181
Definition of waste, 11.180
Permit options, 11.182-11.183
Waste discharge requirement permits, combining water recycling requirement with, 11.183
Regional boards
Groundwater quality regulation by (see Groundwater quality regulation, above)
Implementation of regulations by (see Implementation by regional boards, above)
Water quality plans, formulation and adoption by, 11.128
Sewage disposal regulations. See **Sewage Disposal**
Statute of limitations, review of regional board actions, 11.152-11.153, 11.156
Statutes relating to water quality, 11.113
Storm water permits
Generally, 11.140
Construction activity, permit requirements, 11.142
EPA delegating storm water permitting authority to State of California, 6.13
Industrial activity, permit requirements, 11.143
Municipal separate storm sewer systems (MS4), permit required for, 11.141
Total maximum daily loads (see Total maximum daily loads (TMDL), below)
§303(d), Clean Water Act lists (see Total maximum daily loads (TMDL), below)
Timing considerations
Citizen suits for enforcement, time for notice of intent to sue, 11.161
Cleanup and abatement orders, hearing, 11.158
Groundwater regulation, time after regional boards recommend additional standards, 11.121
Hearing notice for Water Resources Control Board, 11.124
Total maximum daily loads (TMDL), review of, 11.147
Total maximum daily loads (TMDL)
Generally, 11.144
Adoption, procedure for, 11.146

Agency responsible for, 11.145
Allocation among sources, 11.144
Citizen suits, 11.149
Development, conflicts with, 11.150
Enforcement of, 11.148-11.149
EPA review and approval of, 11.147
Removal of impaired water body from list for TMDL, 11.151
Underground storage tanks, groundwater regulation and, 11.170
Waste discharge requirement permits
Discharges allowed by, specifications for, 11.133
Periodic review required, 11.136
Quasi-judicial act, permit issuance as, 11.134
Report of waste discharge, as application for permit, 11.132
Standards for issuance, 11.135
Water recycling requirement, combining with, 11.183
When required, 11.131
Water quality plans, 11.128-11.129
Water Resources Control Board, role of
Generally, 11.87, 11.112
Anti-degradation policy of, 11.126
Appeal of decision from, 11.153
Applicability of plan to other agencies, 11.125
Approval of regional water quality plans, 11.129
Hearing notice for Water Resources Control Board, 11.124
Nonpoint source management plan adopted by, 11.127
Total maximum daily loads (see Total maximum daily loads (TMDL), above)
Wetlands
Definition of wetland, 10.306, 10.356, 11.175
Environmental Protection Agency (EPA) regulating siting, design, and construction of landfills on wetlands sites, 6.100
Jurisdictional issues (see Jurisdictional issues with wetlands, above)

Water Resources Control Board. See **Water Quality**

Water Resources, Department of. See **Water Supplies**

Water Service
Generally, 6.2
Conservation of water
Generally, 6.6
Reclaimed water (see Reclaimed water, below)
Duties to customers, 6.5
Fees (see Rates and charges, below)
Fluoridation of water supply, 6.10
Franchises. See **Franchises**
Intergovernmental agreements to construct and maintain water mains, 7.185
Rates and charges
Basis of water rates, 6.4
Conservation, rate structure design encouraging, 6.6
Flat or metered rates, 6.4
Proposition 218, effect on fees for service, 5.166, 5.175, 5.180
Setting water rates, 6.3
Rate-setting procedures, 5.169
Reclaimed water
Augmentation of municipal water supplies, 6.7
Permits required for operation of reclaimed water project, 6.9
Regulatory jurisdiction over reclaimed water, 6.8
Sewage disposal. See **Sewage Disposal**
Storm drains. See **Storm Drains**

Water Supplies
Generally, 11.80
Cities' role in
Evaluation of water supply for development projects (see Evaluation of water supply for development projects, below)
General plans, water supply issues included in, 10.56, 11.92
Groundwater management plans, 11.97

Groundwater regulation, 11.96
Regional water management groups, participation in, 11.110
Urban water management plans (see Urban water management plans, below)
Definitions
Sufficient water supply, 11.106
Urban water suppliers, 11.93
Evaluation of water supply for development projects
Agreements with developers, 11.109
Environmental impact reports requirement, 11.98
Subdivisions, written verification for (see Subdivisions, written verification of water supplies for, below)
Water supply assessments (see Water supply assessments, below)
Groundwater, 11.96-11.97, 11.106
Land use, additional requirements for increases to water demand, 10.71, 11.92
Mandamus to compel compliance of water supplier, 11.108
Regional water management groups, participation in, 11.110
Special districts' role in
Generally, 11.88
Planning duties, 11.90
Private water companies, role of, 11.91
Watermasters, management by, 11.89
State role in
Water Resources Control Board responsibilities, 11.87
Water Resources Department (see Water Resources Department, role of, below)
Subdivisions, written verification of water supplies for
Generally, 11.105
Compelling compliance by water purveyors, 11.109
Definition of sufficient water supply, 11.106
Reliance on supplies not currently available, evidence of, 11.107
Urban water management plans
Generally, 11.93
Alternative sources or demand management measures required, 11.95
Requirements of, 11.94
Water Resources Department, as depository for plans, 11.84
Water supply assessments, incorporation of plans in, 11.100
Watermasters, management by, 11.85, 11.89
Water Resources Department, role of
Applications for loans and grants, evaluation of, 11.93
California Water Plan, updating of, 11.81
Depository for urban water management plans, 11.84
Investigation and survey of water resource issues, 11.83
Mandates from governor, acting on, 11.86
State Water Project, operation of, 11.82
Watermasters, establishment of, 11.85
Water supply assessments (WSA)
Generally, 11.99
Contents of, 11.100
Guides for assessments, 11.104
Insufficient water supplies, requirements, 11.101
Justiciability of assessments, 11.102
Substantial discretion of water suppliers, 11.103

Weapons and Firearms
Confiscation and forfeitures, 9.97-9.99
Personal conduct regulation
Generally, 9.94
Second Amendment issues with, 9.95
Preemption of local laws, 9.96
Public Records Act, partial exemption from disclosure for concealed weapons permits, 2.253
Valid overlapping state and local regulation, gun laws as example of, 1.41

Wetlands
Definition of wetland, 10.306, 10.356, 11.175
Water quality issues. See **Water Quality**

Whistleblowers

Confidential information, whistle-blowing statute permitting attorney to disclose, 2.203
Retaliation against whistleblowers prohibited, 4.134

White-Collar Employees. See **Fair Labor Standards Act (FLSA)**

Williamson Act (Agricultural Preserves)
Generally, 10.140
Cancellation of contracts limiting use in, 10.143
Contracts limiting use in, 10.141-10.143
Nonrenewal of contracts limiting use in, 10.142
Public improvements on land subject to contract, 10.144
Redevelopment area may not include restricted open spaces, 5.320
Subvention payments to local governments under Act, 1.115
Types of land that may be qualified for protection under, 11.9

Witnesses
Closed session, appearance of witness at, 2.84
Election contest, court clerk issuing subpoenas for witnesses to attend, 3.133
Experts. See **Experts and Expert Witnesses**
Police officer, no requirement of providing witness statements before interrogation of, 4.302
Probation revocation hearing, right to confront witnesses at, 12.63

Words and Phrases. See **Construction and Interpretation; Definitions**

Workers' Compensation
Generally, 4.350, 7.215, 7.286
Amount of benefits
Generally, 4.367
Increase in amount of benefits if payment delayed for refused, 4.374
Benefits
Generally, 4.360
Amount of benefits (see Amount of benefits, above)
Death benefits, 4.373
Disability benefits (see Disability benefits, below)
Medical treatment (see Medical treatment, below)
Permanent disability benefits (see Permanent disability benefits, below)
Prerequisites for recovering benefits (see Prerequisites for recovering benefits, below)
Sole and exclusive remedy for work-related injury, workers' compensation benefits as, 4.352
Construction and interpretation
Liberal construction of statute of limitations, 4.392
Liberal construction of workers' compensation law, 4.355
Defenses
Affirmative defenses to claimed industrial injury, 4.359
Discrimination claim, defenses to, 4.381
Psychiatric injuries, defenses to, 4.357
Statute of limitations, 4.392
Disability benefits
Light duty, effect of employer providing employee with, 4.365
Permanent disability benefits (see Permanent disability benefits, below)
Retirement benefits (see Disability retirement benefits, below)
Temporary disability benefits (see Temporary disability benefits, below)
Disability retirement benefits
Generally, 4.394
Offset of industrial retirement benefits against workers' compensation benefits, 4.396
Workers' Compensation Appeals Board decision, determining binding effect on retirement proceeding, 4.395
Disaster service workers, 6.199
Discrimination against injured worker, penalties for
Generally, 4.379
Defenses to discrimination claim, 4.381
Fair Employment and Housing Act, employee's disability discrimination claim under, 4.380
Government Claims Act, carrier entitled to intervene in personal injury case without presentation of claim, 13.53
Incapacity for retirement purposes, workers' compensation proceedings not conclusive evidence for adjudication of, 4.39
Injury arising out of employment, requirement of

Generally, 4.354
Burden on employee to prove injury work-related, 4.355
Presumptions affecting work-related injuries, 4.356
Special problems of proof applicable to psychiatric injuries, 4.357
Interactive process with employee about claimed disabilities and workplace needs, ADA and FEHA requiring, 4.353
Liberal construction of workers' compensation law, 4.355
Litigation
Generally, 4.382
Compromise and release, settlement by, 4.388
Costs, employer's liability of, 4.384
Discovery, 4.387
Examples of contested issues, 4.383
Expert medical opinion, 4.384
Findings and award, workers' compensation judge issuing, 4.390
Jurisdiction of Workers' Compensation Appeals Board, 4.382
Medical records (see Medical records, below)
Penalties, resolution of, 4.391
Presentation of claim requirements and employer's required response, 4.385
Rejection of liability by employer, time limit for, 4.386
Related litigation (see Related litigation, below)
Stipulations with request for award, 4.389
Medical records
Confidentiality protection for, 4.384
Continuing obligation on employer to serve employee with all medical records, 4.387
Medical treatment
Employer-paid medical treatment, 4.361
Future medical treatment, stipulations with request for award protecting right to, 4.389
Refusal of medical treatment by employee prohibited, 4.364
Treatment provider (see Treatment provider, below)
Penalties
Discrimination against injured worker (see Discrimination against injured worker, penalties for, above)
Resolution of, 4.391
Violation of workers' compensation laws (see Violation of workers' compensation laws, penalties for, below)
Permanent disability benefits
Generally, 4.368
Apportionment of permanent disability between employers, 4.368
Individual jurisdiction's pension plans, employee's industrial disability retirement allowance reduced by amount of permanent disability benefits paid for same condition, 4.371
Permanent partial disability, 4.370
Rating of, 4.369
Supplemental job displacement benefits, 4.372
Prerequisites for recovering benefits
Employees, benefits limited to, 4.358
Injury (see Injury arising out of employment, requirement of, above)
Presumptions
Acceptance of claim by employer, presumption of, 4.386
Treating physician's presumption of correctness, repeal of, 4.384
Work-related injuries, presumptions affecting, 4.356
Prevailing wage law, workers' compensation provision under, 7.57
Proof (see Injury arising out of employment, requirement of, above)
Psychiatric injuries
Disability retirement benefits for, 4.395
Special problems of proof applicable to psychiatric injuries, 4.357
Related litigation
Generally, 4.393
Disability retirement benefits (see Disability retirement benefits, above)
Federal causes of action, 4.398
State causes of action, 4.399
Subrogation action against third party, employer filing, 4.397
Serious and willful misconduct (see Violation of workers' compensation laws, penalties for, below)
Specialized area of practice, workers' compensation law as, 4.351
Statutes of limitations for different types of claims, 4.392
Temporary disability benefits
Generally, 4.365
Amount of, 4.367

Cessation of temporary disability benefits, 4.366
Treatment provider
Employer's choice of physician for 30 days, 4.363
Pre-designation of physician by employee, 4.362
Violation of workers' compensation laws, penalties for
Increase in amount of benefits if payment delayed for refused, 4.374
Late payments, penalty for, 4.376
Multiple penalties, 4.375
Serious and willful misconduct of employee, reduction of recoverable compensation for, 4.378
Serious and willful misconduct of employer, penalty if injury caused by, 4.377

Workplace Safety. See **Safety in Workplace**

Writings
Environmental impact reports (EIRs), writing required for response to comments, 11.41
LAFCO. See **Local Agency Formation Commissions (LAFCOs)**
Pending litigation closed session, city attorney writing memorandum justifying, 2.92

Writs. See **Mandamus, Writ of**

Wrongful Death
Section 1983 actions, scope of wrongful death liability, 13.121

Zoning
Adult entertainment, 10.131-10.132
Affordable housing. See **Affordable Housing**
Agricultural preservation. See **Williamson Act (Agricultural Preserves)**
Airports. See **Airports**
Alcoholic beverages, sale of, 10.138
Annexation, prezoning land for, 1.123
"Big Box" stores, 10.146
California Coastal Act. See **California Coastal Act**
Conditional use permits. See **Conditional Use Permits**
Conditional zoning, 10.128
Definitions
Legal nonconforming use, 10.121
Zoning, 10.84
Density bonuses for affordable housing, consistency with, 10.187
Due process. See **Due Process**
Flood plains, 10.137
General plans. See **General Plans**
Hazardous materials and toxic waste, 10.135
Historical preservation, 10.129
Immunity of zoning commissions from Section 1983 action, 13.125
Land use, Planning and Zoning Law as basis for, 10.2
Local coastal programs, changes to comply with not subject to initiative or referendum, 10.285
Nonconforming uses and structures
Generally, 10.121
Definition of legal nonconforming use, 10.121
Elimination period for nonconforming use, 10.122
Expansion of nonconforming use, 10.123
Open space, action program for, 10.59
Ordinances. See **Zoning Ordinances**
Police power authority for, 10.85
Procedural due process for land use decisions. See **Due Process**
Religion, exercise of
Churches, temples, and houses of worship, 10.133
Religious Land Use and Institutionalized Persons Act (RLUIPA), 10.134
Schools and community colleges, 10.136
Signs, 10.145
Site or design review process, 10.147
Statutory restrictions on, 10.86
Telecommunications services, right-of-way management, 10.139
Variances. See **Variances**

Vested rights
Generally, 10.124
Common law on vested rights, 10.125
Development agreements, 10.127, 10.228, 10.430
Due process issues and. See **Due Process**
Vesting tentative maps, 10.126, 10.430
View protection, 10.130

Zoning Ordinances
Adoption and amendment procedures
Legislative acts, adoptions and amendment as, 10.91
Urgency measures, 10.92-10.93
Airports, zoning and land use regulations relating to. See **Airports**
Domestic animals, use of ordinances to regulate, 9.159
General plan consistency
Charter cities and consistency with general plan, 10.88-10.89
General law cities and consistency with general plan, 10.87
Judicial review, standard for, 10.90
Legislative acts
Findings, when required, 10.95-10.96
Provisions typical of zoning ordinances, 10.97
Notice and hearing requirements, 10.94
Specific purposes. See **Zoning**
State immunity from local zoning and building code regulations, 1.105
Statute of limitations, 10.98
Subdivisions. See **Subdivisions**
Valid overlapping state and local regulation, zoning ordinances as example of, 1.41
