Generally speaking, rental activity (i.e., any activity where payments are principally made for the use of tangible property) is considered to be a passive activity.ⁿ¹ Therefore, deductions and credits from rental activities can only offset income from other passive activities, generally. Such deductions and credits *cannot* be deducted from nonpassive income, such as wages, dividends, interest, etc. However, there are two major exceptions to this general rule.

First, beginning in 1994, certain eligible taxpayers who materially participate in rental real estate activities can deduct losses from such activities against nonpassive income. These eligible taxpayers include individuals and closely-held C corporations that meet special eligibility requirements.

An individual taxpayer meets the eligibility requirements if:

- (1) more than half of the personal services the taxpayer performs during the tax year is performed in real property trades or businesses in which the taxpayer materially participates; and
- (2) such taxpayer performs more than 750 hours of service during the tax year in the real property trades or businesses in which the taxpayer materially participates.

A closely-held C corporation meets the eligibility requirements if more than 50 percent of its gross receipts for the tax year are derived from real property trades or businesses in which the corporation materially participates.

"Real property trade or business" means any real property development, redevelopment, construction, reconstruction, acquisition, conversion, rental, operation, management, leasing or brokerage trade or business.

To be a material participant, the taxpayer must be involved in the business on a regular, substantial and continuous basis.

In the case of a joint return, the eligibility requirements are met if either spouse separately satisfies the two requirements. Thus, one of the spouses must satisfy the requirement with respect to half of such spouse's personal services, as well as the requirement with respect to 750 hours of services, without regard to services performed by the other spouse. However, participation of the taxpayer's spouse is taken into account in determining material participation.ⁿ²

The second exception provides that an individual who owns at least a 10-percent interest and who *actively* participates in rental real estate activity is permitted to offset up to \$25,000 of passive activity losses against his nonpassive income.ⁿ³

Except as provided in regulations, no interest as a limited partner in a limited partnership is treated as an interest with respect to which the taxpayer actively participates.ⁿ⁴ Active participation is not required, however, for purposes of the rehabilitation investment credit.ⁿ⁵

The \$25,000 amount is phased out for higher-income taxpayers. For purposes of the limitation on losses, the \$25,000 amount is reduced (but not below zero) by \$1 for each \$2 of adjusted gross income in excess of \$100,000. Thus, it is fully phased out when adjusted gross income exceeds \$150,000.ⁿ⁶

Example 1

: Mr. and Mrs. Green own and manage a rental apartment. In Year 1, they have an \$8,000 loss from their rental activity. Their joint adjusted gross income (computed without regard to the rental loss) is \$58,000. The Greens may deduct the full \$8,000 rental loss from their \$58,000 of adjusted gross income from other sources.

Example 2

: Mrs. Parcel owns and actively manages several rental properties. In Year 1, she has a rental loss of \$30,000 and adjusted gross income from other sources of \$110,000. Since Mrs. Parcel's adjusted gross income from other sources exceeds \$100,000, she must reduce her \$25,000 maximum rental loss deduction by \$5,000, i.e., one-half of other adjusted gross income in excess of \$100,000. Mrs. Parcel, therefore, may deduct \$20,000 of her Year 1 rental loss under the \$25,000 rental loss exception. Of the remaining \$10,000 rental loss, 65 percent is deductible in Year 1 under the loss limitation phase-in rule and 35 percent must be carried forward.

For purpose of the rehabilitation credit limitation, however, the phase out does not begin until adjusted gross income exceeds \$200,000. The credit is fully phased out when adjusted gross income exceeds \$250,000.ⁿ⁷

For purposes of the \$25,000 rental activities exception to the passive activity rules, the active participation test is intended to be less stringent than the material participation test. Thus, a taxpayer who owns an interest in real estate is permitted to satisfy the active participation test by personally operating the rental property, or by hiring a rental agent or real estate management firm to operate it, so long as he participates in making management decisions or arranges for others to provide services (such as repairs). Significant management decisions that satisfy this test include approving new tenants, deciding on rental terms, approving capital expenditures or repairs, and similar types of decisions.ⁿ⁸

Current Legal Forms for Real Estate
Chapter 22 DEVELOPMENT AND SUBDIVISION
Part II. The Practice Background

26-22 Current Legal Forms for Real Estate § 22.26

§ 22.26 Introduction and Scope of Practice Background

This Practice Background will review all aspects of a real estate development project. As used herein, the term "real estate development project" refers to a business enterprise in which a party utilizes one or more parcels of land for the purpose of constructing one or more structures intended either for personal use or for sale or lease to others. Such a project might result in:

- (1) an industrial park;
- (2) a single-family residential housing development;
- (3) an apartment complex;
- (4) an office complex;
- (5) a retail shopping mall;
- (6) a hotel development; or
- (7) an elder or assisted living development.

This Practice Background will examine a real estate development project from the pre-acquisition phase through the sales and marketing stage. It will offer practical advice for handling issues that typically arise during each stage, and it will recommend techniques and strategies for recognizing and solving problems commonly encountered. The Practice Background will also offer guidance on negotiating and drafting legal agreements and other documents pertinent to a real estate development deal.

In addition, the Practice Background will also highlight some areas of potential concern from a tax perspective. Since every real estate development deal is unique, the parties to a transaction must always consult their individual tax advisors for advice as to the tax consequences of the transaction. This Practice Background is not intended to provide

such specialized advice; rather, it merely seeks to identify some major tax issues of which the developer should be aware and explore in depth with his or her own accountant or other tax professional. (The reader is also directed to consult the Tax Background to this chapter for a discussion of the federal income tax issues raised by real estate development and subdivision projects.)

Current Legal Forms for Real Estate
Chapter 22 DEVELOPMENT AND SUBDIVISION
Part II. The Practice Background

26-22 Current Legal Forms for Real Estate § 22.27

§ 22.27 Pre-acquisition Phase

The pre-acquisition phase of a real estate development project commences when a prospective developer first decides to embark upon a construction project and begins searching for a suitable site upon which to give the creation life. Having found one or more possible sites, the developer then begins to work out the general contours of the project. Among many other things, the developer must consider:

- (1) the nature and scope of the project;
- (2) the form of ownership (i.e., the type of business entity that will build and own the development, e.g., a corporation, a partnership, a limited liability company, etc.); and
- (3) whether the project is economically feasible.

In addition, the developer must seek acquisition financing and make arrangements for obtaining the land upon which the developer wishes to build the development. Real estate development projects are often abandoned during this stage as various hurdles arise that prove insurmountable, at least in the short term. These same projects are frequently revived later when a difficult problem is finally solved by a change in circumstances.

[1] Nature and Scope of the Project

The first issue for a developer to consider is the type of project to be undertaken. At this early stage in the process, the type of project may be expressed in very general terms, such as a "residential housing development" or a "commercial office complex." The developer will probably be undecided as to the number of units to be built or the style of construction to be used; however, the developer usually will have some notion as to whether the project will be sold or leased to the ultimate consumers.

In short, the pre-acquisition phase is one dominated by considerable "brainstorming." There will be extensive consideration of a wide variety of ideas as the developer seeks to create a clear picture of the real estate development project to be built. For example, because of our aging population, a developer may decide to develop senior housing.

The three general categories in the area of senior housing are those facilities which are devoted to congregate care and independent living, those facilities which are categorized as assisted living facilities, and those that are considered nursing homes. The first category is for those seniors who are essentially still able to take care of themselves, but desire to live with others of similar circumstances. Assisted living facilities are for elderly persons needing help with some aspects of daily living, and nursing home facilities are for seniors requiring skilled nursing care. Frequently, senior housing developments may consist of a combination of all of the types of senior housing facilities.

In planning senior housing, the developer must take into account the demographics of the area where he is developing his real estate. During the 1990's developers noticed the rising number of senior citizens and the construction of assisted living facilities grew at a rapid rate, to the point where there was an oversupply. However, that situation has now improved considerably, but the developer must still be aware that overbuilding may again occur because most states do not require state issued certificates of need authorizing assisted living facilities to be constructed. This is in contrast to and unlike the requirement to obtain a certificate of need from the appropriate state authority authorizing a nursing home facility to be constructed based on the state authority's determination that there is a need for more nursing beds. Nevertheless, over the long term, the rising number of seniors and their growing awareness of assisted living facilities should result in a continued demand for such facilities.

If the developer decides to develop the land as condominium property or as time share interests, the latter being fractionalized interests in a condominium, the developer needs some familiarity with the state statute governing these forms of ownership because they are both statutorily created and controlled. In addition, local ordinances will need to be reviewed to make sure there are no restrictions against condominiums or time shares. For a thorough discussion of the development of condominiums, see the Practice Background, in Volume 24, Chapter 20, *Real Estate Entities, Section 20.31, supra*. For a thorough discussion of time shares, see the Practice Background, in Volume 24, Chapter 20, *Real Estate Entities, Section 20.32, supra*. In addition, there is a Checklist for development of condominiums in the Drafting Guidelines, in Volume 24, Chapter 20, *Real Estate Entities, Section 20.53*, and a Checklist for the creation of time share interests in *Section 20.54, supra*.

Next, the developer must locate potential sites for the project. The availability of suitable land may have a dramatic effect on the type and ultimate size of the project. For example, a financially-successful residential housing development requires a considerable amount of land. If such a site is not available, the project may have to be redrawn as an apartment complex, which typically will require less land.

Another consideration is the environmental condition of the property. Properties that have environmental problems, and are typically located in heavy industrial areas in cities, or even in inuring suburbs, are known as "Brownfield" properties. There are an estimated 450,000 Brownfields throughout the United States. To encourage their development, state and local programs, to mitigate environmental liabilities, play an important role in encouraging development of these Brownfield properties. Approximately 35 states or more have some form of voluntary clean-up programs, making it easier for property owners to take remedial actions. Many of these states offer grants or loans to help defray the cost of the site analysis and clean-up, as well as tax incentives. The key part of many of these programs is a provision for liability relief for the purchasers undertaking to reclaim these properties, frequently in the form of covenants not to sue.

A purchaser of a Brownfields property can also attempt to rely on the innocent purchaser defense provided by the original Superfund law,ⁿ¹ but the conditions for satisfying that defense are difficult to achieve. In essence, you have to show you took reasonable steps before you purchased the property to check its environmental condition, and then proceeded to purchase the property not knowing there were any problems. In the year 2002, Congress passed the Small Business Liability Relief and Brownfields Revitalization Act ("SBLRA").ⁿ² This law expanded the exemption from Superfund liability to include bona fide prospective purchasers who knowingly bought contaminated property. A bona fide prospective purchaser is a person who acquires certain property but will not be deemed an owner/operator for liability purposes so long as all disposal occurred prior to the purchase. In addition, a bona fide prospective purchaser is a person that (i) made all appropriate inquiry before the purchase; (ii) provided all required notices, exercised due care

with respect to any contamination, and cooperated with authorities; (iii) abided by applicable institutional control; and (iv) is not affiliated with any party responsible for the contamination. Of the several conditions necessary to qualify for the defense of the bona fide prospective purchaser who knowingly bought contaminated property, the most difficult one is the one stating that the purchaser must "exercise appropriate care with respect to hazardous substances found at the facility by taking reasonable steps to: (1) stop any continuing release, (2) prevent any threatened future release, and (3) prevent or limit exposure to any previously released hazardous substance. Unfortunately, the EPA has stated that "the reasonable steps determination will be a site-specific, fact-based inquiry." Because this is an open-ended statement, it may not be sufficient to overcome the reluctance of some developers and lenders to become involved in known contaminated property. The best opportunity to deal with the Brownfields property may still be by use of the applicable state statute relating to the voluntary clean-up of Brownfields properties.

If a Brownfields property is being considered, and remediation efforts are undertaken, it may be possible to earn points towards the eventual certification of the property and the improvements as a "green" building under the rating system referred to as LEED. The term LEED stands for "Leadership in Energy & Environmental Design." The rating system is the one most frequently used for such a certification. In general a "green" building is one that is environmentally and economically sustainable, cost effective and energy efficient. In order to obtain LEED certification, it is necessary to register the project and have the U.S. Green Building Council professionals track the progress of the project as it proceeds to measure its compliance with the standard which must be met.

[2] Feasibility

[a] Location of the Project

Once potential sites have been located, they must be evaluated for feasibility. First, the sites must be reviewed to determine the maximum size real estate development project that could be built there. In a residential subdivision, for instance, an estimate must be made of the total number of lots and homes that could be included on the site. This estimate is based on two factors: (1) the minimum lot size allowed by the municipality; and (2) the type of development the builder wishes to construct. For example, if the developer wishes to construct a very upscale development consisting of single-family homes ranging in price from \$250,000 to \$500,000, then large lots will be needed to accommodate such expensive houses. Simply put, the rule of thumb is this: the higher the anticipated price of a house, the larger the lot size should be.

In a commercial or residential real estate project, the developer must consider minimum lot size and "setback" requirements. (Setback requirements refer to a distance from a curb, property line or structure within which building is prohibited. Setback requirements are normally provided for by local ordinances or building codes.)

In addition, the developer must consider municipal ordinances mandating the number of parking spaces a commercial establishment must make available to customers, clients, staff, etc. In some municipalities, the developer must also consider the amount of "green space" required by the municipality and local rules concerning natural screening. (Green space requirements are typically set forth in municipal ordinances and building codes. They require a real estate development to possess, for esthetic reasons, a certain amount of trees, shrubbery, grass, etc. Similarly, "natural screening" refers to local rules requiring the use of trees, bushes and other natural objects to conceal an esthetically unpleasant site, such as a trash dump.)

Once the developer has determined the maximum size development each site could hold, the developer must evaluate the general locations surrounding the competing sites, taking into consideration such factors as:

- (1) access to public utilities;
- (2) access to major roadways;

- (3) the area's need for the development; and
- (4) the proximity of the site to a major population center.

[i] Access to Utilities

Obviously, the structure or structures to be built will require an ample supply of clean water, natural gas and electricity, as well as telephone, cable and internet access, and sewer services, etc. Thus, for each potential site, the developer must consider these and related issues:

- (1) Does the site have easy access to existing water, gas, electricity, telephone, cable and sewer lines?
- (2) If not, how far away are the nearest accessible lines?
- (3) What will the cost be of accessing the lines?

[ii] Access to Roadways

The developer must also consider each site's access to major roadways that will serve the development. The site chosen should be conveniently located near the roadways in order to attract people and businesses to the development, whether that development is residential (homeowners and tenants), commercial (clients and employees), or retail (customers).

[iii] Need for the Development Project and Proximity to Population Center

The developer must also evaluate the local need for the proposed project, and whether the site is within close proximity of a major population center. For example, if the proposed project is a retail shopping mall, the developer should inquire as to whether the site is sufficiently near a population center that it will be utilized by shoppers. The developer should also inquire whether the local market is in need of a shopping mall, or whether another nearby shopping mall already meets the needs of the community. Finally, assuming another mall already exists nearby, the developer should look into the question of whether that mall has a great number of unsold or unleased units.

[b] Traffic

The developer should take notice of the roadways adjacent to each site and ask if the roadways are of sufficient quantity, width and durability to carry the additional traffic load anticipated. Understandably, the developer may feel uncomfortable making traffic predictions and road evaluations personally and may want to commission a traffic study by a private consulting firm. Indeed, it is very possible that such a study will be required by the municipality as part of the site approval process. Since these studies are quite costly, the developer should narrow the choice of potential sites to a very few--certainly no more than two or three--before commissioning the study.

The traffic study will review current usage of the relevant roadways and estimate future usage once the development is fully built and occupied. It might make recommendations for access points to the development, i.e., entrances and exits. In addition, it might recommend alterations or improvements to the existing roadways in order to accommodate the additional future traffic. These might include:

- (1) left--turn and right--turn lanes;
- (2) widening of the roadways;
- (3) the addition of sidewalks;

(4) the addition of crosswalks; and

(5) installation of traffic control devices, such as traffic lights, "Stop" signs and "Yield" signs.

The developer can be assured that any improvements recommended by the study will have to be made at the developer's expense and that the improvements can turn out to be quite costly.

[c] Taxes

The developer must also consider the future impact of local real property taxes on the development project, its owners and occupants. If the real estate development will be commercial in use and leased to tenants, then the taxes must be considered part of the developer's future cost of operations. In that case, the taxes can be passed along to the tenants through their rental payments. On the other hand, if the development is residential and its units are to be sold to individuals, local real estate tax rates will definitely impact on the marketability of units. Higher taxes will clearly reduce the desirability of buying into the project.

Some municipalities may be authorized to enter into tax abatement agreements with developers in order to encourage commercial real estate development. The abatement programs reduce the real estate taxes in the early years immediately following completion of the project on the theory that the development will bring jobs to the area and increased revenues from sales taxes generated at business establishments serving the development.

If tax abatement programs are not available, the developer should look into the possibility of tax increment financing to help his development. Simply stated, tax increment financing uses the projected tax revenues generated in a development project as a result of public and private investment, to finance the necessary public investment. In other words, the tax increment system is used to finance public improvements such as improvements to the infrastructure required for the project, or parking garages. The annual increment of tax revenues from the project are used to pay for the improvements, or bonds are sold by the governmental entity or agency to pay for the improvements, and the tax revenues are pledged to repay the bonds.

[d] Schools

If the project is a residential development, the developer must also consider the local school system. First, the developer must consider the reputation of the school system. Many residential purchasers--particularly married couples in their 20's and 30's--may make their purchase decisions based, at least in part, on the quality of the local school system. If the school has a poor reputation, the developer may have serious difficulty in marketing residential units.

Second, the developer must also consider the impact of the development on the school system. If the development is expected to draw a large number of school-age children, there may be a need to expand the existing schools or even build additional ones. Developers are often asked to donate land for such purposes. Although the developer cannot be required to make a donation, community opposition to real estate development projects often disappears after a donation is offered.

[3] Acquisition Financing

Once the developer has determined that the chosen site is feasible, the developer must next determine how to finance the acquisition of the property. The possible methods of financing are limited only by the developer's own creativity. The most commonly--used methods are discussed below:

First, the developer may finance the purchase by using his or her own capital. This may involve liquidating savings and

other assets. Not surprisingly, most developers attempt to avoid this method since it places the entire risk of loss on the developer and may significantly reduce personal assets and future borrowing ability.

Second, the developer may borrow capital from another real estate development project that the developer also owns. This may be accomplished by having the other project make a direct loan to the developer, if it has sufficient assets, or the developer may borrow funds from a third party, using the assets of the other project as collateral. (This is frequently referred to as "leveraging.") The technique has the advantage of not committing the developer's personal assets to the new development project, unless, of course, the lender requires the developer's personal guaranty as a condition for making the loan. The technique has the disadvantage of committing the assets of a successful project to an unknown project.

Third, some developers seek acquisition financing from the seller. In other words, the developer makes a down payment, and the seller takes back a purchase money mortgage for the balance of the purchase price, i.e., the seller holds the mortgage. This method has the dual advantages of shielding the developer's own capital from use, while being far less expensive than institutional borrowing. It may also have tax advantages for the seller. The developer may be eligible for installment treatment of the gain realized on the sale of the property.ⁿ¹

If the acquisition financing avenue is pursued, the developer should be extremely cautious in negotiating the terms of the loan. For instance, the developer should request a provision that would allow the purchase money mortgage to be subordinated to future financing agreements for construction of the infrastructure and buildings on the development, since an institutional lender who finances construction would certainly require a subordination. In addition, the developer should request a provision entitling the developer to releases from the seller as lots are sold to purchasers. In other words, with each lot sold, the developer would be partially released from the mortgage. The developer should also insist upon a provision allowing the loan to be assigned at the request of the developer.

Failure to obtain these provisions might require the developer to refinance the acquisition loan at some future time. However, refinancing could result in several serious drawbacks to the developer. Since many states impose a tax on mortgages--which may be as high as 1 percent of the total amount financed--refinancing would subject the developer to paying this onerous tax a second time. In addition, an institutional lender will often require the payment of "points" on a loan refinancing, with each point representing 1 percent of the amount financed. These added costs can easily run into millions of dollars when refinancing a loan for a major real estate development project. Avoiding the need to refinance via proper structuring of the loan agreement can save the developer a considerable amount of money and thereby increase the final profit from the project.

Fourth, acquisition financing can also be obtained by accepting capital contributions from partners or shareholders in the development project. This method has the advantage of spreading the risk of loss over several additional parties. On the other hand, of course, it has the disadvantage of reducing the level of control exercised by the developer over the project.

Fifth, acquisition financing may be obtained from institutional sources, such as financial institutions like banks, savings and loan associations, etc. Generally speaking, institutional lenders will not finance an acquisition of vacant land using only that land as collateral. Instead, they will require additional collateral which has the ability to produce a flow of steady income, such as:

- (1) a certificate of deposit;
- (2) accounts receivable;
- (3) corporate or government bonds; or

(4) rental property.

This last method is quite costly; in addition to interest on the loan, the developer will also have to pay the institution's various loan application fees and the charges related to the variety of lien recordings that may be necessary. Using an institutional lender creates other potential problems as well. Typically, an institutional lender will not be willing to agree to subordination of its acquisition loan to later construction loans, unless the subsequent loans are made by the same lender. In addition, institutional lenders may have pre-established lending limits for particular projects. Accordingly, on the whole, use of an institutional lender is the least attractive way to finance acquisition.

Sixth, use of the traditional sale-leaseback transaction may provide a means of financing for a developer. In the sale-leaseback transaction, the developer can obtain temporary financing to acquire and develop a parcel of land with a rental property, with a commitment from an institutional investor to purchase and then leaseback the improved property to the developer. The developer would agree, as part of the sale, to rent the property on a long-term basis, and as the leasehold owner the property is then subleased to a single user or multiple tenants. In effect, the institutional developer has financed the entire project for the developer. If the developer is able to obtain a commitment from a financially strong growth company to sublease the property, the risk to the developer is minimized. This technique also works for smaller, closely held corporations that may want to move the real estate out of the corporation and into another entity for estate planning or succession reasons.

A variation of the traditional sale-leaseback is what is called a synthetic lease. The synthetic lease was a response to the inability of many public corporations, mostly retailers, to obtain bank financing for real estate after the collapse of real estate values in the 1980's. Lenders did not want to assume the risk that if the borrower defaulted, the value of the real estate would not provide enough security to cover the amount of the unpaid loan. As an alternative, corporate borrowers obtained financing that was secured by the underlying credit of the corporation itself. The corporation, in that case, would then have to show the real estate as an asset and the loan as a liability. A better solution was devised called the synthetic lease. It exploited the different treatment for accounting and tax purposes of an "operating lease" and a "capital lease." In the synthetic lease situation, a special purpose entity is formed to own the land, build the building, and lease it to the corporation. The corporation executes a bondable net lease calling for a rental payment to the special purpose entity sufficient to cover the debt service payments. The security for the loan is the lease and the underlying credit of the corporation. For accounting purposes, the lease is treated as a true operating lease, which permits the corporation to deduct payment to the financial institution as rent and avoid the need to show the financing as debt on its balance sheet. For tax purposes, however, the lease is viewed as a capital lease, permitting the corporation to take interest deductions on the financing and depreciation on the building. Unfortunately, since the collapse of Enron, which used the synthetic lease concept in a fraudulent way with respect to assets other than real estate, its use in the future for real estate may be limited. In addition, on January 17, 2003, a pronouncement by the Financial Accounting Standard Board (FASB), Financial Interpretation No. 46, now requires corporations using or entering into synthetic leases using a single purpose entity, to show the asset on the corporation's balance sheet. Nevertheless, although synthetic leases may not be used as much anymore, the traditional sale-leaseback should remain a viable alternative.

Seventh, land banking is an alternative if the developer can find an investor to pay for a large parcel of land to be developed over a long period of time. Because all the land is not immediately developed, a large amount of equity has to be tied up in purchasing the excess land. The developer contracts for the purchase of the parcel but assigns his rights to purchase it to the investor, who acquires it and leases the land back to the developer. The developer obtains financing for each stage of the development. The investor controls release of the land parcels and receives ground rents from the developer according to a predetermined formula. That formula usually includes fixed rents for the land, plus bonus cash flow participation and project reversion proceeds.

Eighth, the developer should be aware of the availability of what is known as mezzanine financing. A mezzanine loan is a form of subordinate financing whereby the mezzanine financier holds a debt or preferred equity position between the true equity on the one hand, and the first mortgage lender on the other. A primary reason for the rise in mezzanine

financing is the unwillingness of first mortgage lenders to permit a second or subordinate lien on the property that might limit the second lender's rights in the event of a default. A second mortgage can delay a foreclosure by a senior lender and could tie up cash flow by forcing a bankruptcy or other legal action. In lieu of a mortgage lien, a mezzanine lender secures its loan with a pledge of the equity interest (a partnership or membership interest). In most cases, a senior lender will condition its approval of a mezzanine loan upon the execution of an intercreditor agreement between the senior lender and mezzanine lender setting forth their rights and responsibilities.

[4] Option Agreement

Many developers utilize option agreements as part of the acquisition of land suitable for development. An option agreement gives the developer the exclusive right to purchase a particular parcel of land for a stated period of time. The option requires the developer to pay a stated amount of consideration for this right at the time the option agreement is executed.

The purpose of the option is to remove the property from the market for a fixed period of time. The consideration is designed to compensate the seller for possibly losing the opportunity to sell the property to another buyer while the agreement is in effect. During the option period, the developer will perform all of the feasibility studies, discussed above, in order to determine whether the premises are appropriate for his or her needs. The developer will also investigate the availability of various acquisition financing sources.

[a] Environmental Site Assessment

The developer might also have an environmental site assessment performed at this time. A "Phase I" environmental site assessment is a study of the history of the property, performed by a qualified firm that typically specializes in geological studies, engineering or environmental matters. Specifically, the purpose of the Phase I environmental site assessment is to learn whether there is any evidence of an "adverse environmental impact" due to past or current releases of hazardous substances in, on, beneath or near the subject premises. This assessment is performed by reviewing past and present uses of the subject premises and nearby premises.

In performing its research, the consulting firm will typically make use of aerial photographs and maps, atlases and other illustrative materials pertaining to the surrounding area. The firm will also search municipal and county records for written information regarding the identity of, and businesses conducted by, past and present owners of nearby properties, and past owners of the subject property. Such records will include those held in:

- (1) the county clerk's office;
- (2) the local police and fire departments;
- (3) the office of the building inspector;
- (4) the health department; and
- (5) the chamber of commerce, etc.

Finally, the consulting firm will conduct in-person interviews with municipal officials, as well as with owners and occupants of neighboring properties.

If the Phase I site assessment shows no evidence of any adverse environmental impact, no further investigation is generally done. However, if some evidence of a potential adverse impact is discovered, a Phase II environmental site assessment will have to be performed.

In a Phase II assessment, samples of soil, air and water are taken and analyzed in order to determine whether hazardous substances are actually present on the premises. If hazardous substances are found, a Phase III environmental site assessment may be performed to determine the scope and source of contamination. An estimate of the cost of remediation would then be prepared. If the cost is very high, the developer is likely to abandon the site and look elsewhere for land suitable for the project. If the cost is moderate, the developer may ask the owner to either lower the purchase price in an amount equal to the cost of remediation, or to pay the cost of remediation. If the owner agrees to lower the purchase price, the developer will be responsible for the remediation. In determining whether to abandon the site, the developer should bear in mind the effect that any negative publicity about the presence of hazardous substances on the premises may have on the marketability of the project down the road.

In land developments, the developer must also determine whether the land contains any wetlands because if the proposed development might impact the wetlands or a stream, the developer must get a permit from the appropriate governmental agency. A wetlands delineation should be obtained by the developer from a qualified wetlands consultant. If there are wetlands and the wetlands will be impacted by dredged or fill material, a permit is needed from the United States Army Corps of Engineers. In addition, before proceeding under a Corps wetlands permit, the developer most likely will also need a certification from its state environmental agency that the proposed permit will not cause a violation of the state law governing such matters. An experienced consultant or environmental attorney should be consulted to assist the developer throughout the permitting process.

[b] Obtaining Government Approval of the Project

Some developers will use the option period to obtain government approval of the project. Thus, the option agreement should include a provision requiring the seller to fully support the developer's application for government approval of the project.

Where the developer intends to obtain government approval for the project during the option period, the developer should insist on including in the option agreement a provision giving the developer automatic extensions of time if government approval is not obtained by the end of the option period. This provision would grant the developer additional time in which to exercise the option by simply giving notice to the seller of the developer's need for an extension. In order to induce the seller to permit the mandatory extensions, the developer may have to offer to pay some additional consideration, either at the time the option agreement is executed or each time an extension is used.

[c] Consideration for the Option Agreement

In negotiating the terms of the option, consideration will be a major issue. The seller will want enough money to justify the temporary removal of the property from the market. The purchaser, on the other hand, will want to keep the amount as low as possible.

The amount of consideration must be negotiated by the parties. The factors to be considered by the purchaser in preparing for negotiation are:

- (1) the uniqueness of the property;
- (2) the degree of suitability of the property for the project;
- (3) the degree of confidence the developer has in obtaining government approval of the project; and
- (4) whether there are other potential buyers at the moment.

The factors to be considered by the seller in its preparation for negotiations are:

- (1) the length of time the seller is being asked to remove the property from the market and the value of the property that is being taken off the market for that period of time;
- (2) the cost of capital at the time and the carrying charges (for taxes and insurance) that the seller will incur during the option period;
- (3) the degree of confidence that the developer will exercise the option; and
- (4) the existence of other interested buyers.

A further consideration issue is whether the amount paid for the option will be credited toward the purchase price if the developer eventually decides to exercise the option. Clearly, the developer will want the entire option price credited toward the purchase price. However, the seller may demand that little or none of the option price be credited toward the purchase price. (This is especially likely if the option price is equal, or very close, to the cost of the carrying charges on the property during the option period.) Of course, in the final analysis, the seller must simply decide just how urgent it is about selling the property. If the need to sell is not terribly urgent, the seller may be able to hold out for none of the option price being credited toward the purchase price.

Another factor to be considered by the developer in negotiating the option price is whether the amount, if not credited toward the purchase price, can eventually be recovered through an increase in the price of the units charged to future purchasers without jeopardizing their marketability.

[d] Negotiating the Purchase Price of the Land in Case the Option Is Exercised

When negotiating the option agreement, the parties will need to negotiate a purchase price for the property in the event that the option is exercised. This price would be negotiated in the same fashion as any purchase price on any piece of real property. The parties may wish to use appraisals by local real estate brokers or market analyses in order to bolster their respective positions. Of course, the developer must be certain that the price agreed to does not exceed the amount recoverable through sales of units in the development.

[e] Time Limits in Exercising the Option

The option agreement will typically set forth a time period within which the option must be exercised. The developer must be certain that he or she can safely accomplish all of the goals within the allotted time. The seller is under no obligation to extend the period of the option unless the agreement provides for mandatory extensions, as discussed above in subsection [4][b].

[f] Exercising the Option

The option agreement must specify the method by which the purchaser will exercise the option. Generally, exercise is by written notice to the seller, either hand delivered or sent certified mail, return receipt requested, before the expiration of the option period. Often, the notice must be accompanied by further consideration (i.e., a down payment) and a contract of sale signed by the purchaser. The seller is usually obligated to execute and return a copy of the contract of sale within a specified period thereafter. (It should be noted that many option agreements have the contract of sale to be used annexed as an exhibit. This is a recommended procedure, since it prevents misunderstandings or dilatory practices by the parties.)

Some options allow for partial or successive exercises of the option. This is typically seen where the real estate

development project will be built in stages and where the lands covered by the option are quite extensive, perhaps encompassing hundreds or even thousands of acres. The seller should be sure that the residual land remaining after the exercise of successive options is self-sufficient in that it continues to have a means of ingress and egress to it and access to utilities, or if not direct access, has the right to obtain easements over the land sold to obtain such access. Here, the purchaser will exercise the option a number of times, each time purchasing a part of the total property covered by the option agreement. In such cases, the amount of consideration is set forth separately in the agreement for each option period. In addition, option periods may be calculated based upon *the occurrence of events*, rather than upon specified dates. For example, an option to purchase the land necessary for Phase II of a development project may expire six months after the sale or lease of the last unit in Phase I. Under such circumstances, the seller must be sure that it has obtained sufficient consideration for each option period, since it has virtually no control over when such events may occur, or the seller should require some outside date by which the option will expire.

Finally, many options contain a provision requiring the developer to accept the transfer of title within a specified period of time after the exercise of the option. If the option does not so specify, the contract of sale and purchase should.

[g] Assignment of the Option

The option agreement should contain a provision allowing the developer to assign his or her rights under the agreement, and under any other contract executed in furtherance of the option agreement, to any entity in which he or she is a principal. This provision will become vitally important to the developer in the event that the developer decides at a later date to incorporate or to form a partnership, limited liability company, or other entity in order to carry out the development project. This arrangement should not pose a problem for the seller, since the developer will remain actively involved in the project as a principal in the entity.

Some option agreements grant developers the unlimited ability to assign the option agreement and the sale and purchase contract. This arrangement may prove unacceptable to a seller who has agreed to finance the acquisition. Such a seller would be wise to require that its consent, based on its examination of the financial condition of the assignee, be obtained before an assignment to a third party may be made.

[5] Contract of Sale and Purchase

Some developers prefer to enter directly into a contract of sale and purchase with contingencies attached, instead of an option agreement followed by a contract of sale and purchase. The contract of sale and purchase must specify the property to be purchased and may allow for sequential purchases of tracts of land by the developer. These sequential purchases may occur on specified dates, or after the occurrence of certain events, such as subdivision approval or sale or lease of a certain number of units.

The contract must specify the purchase price. This may be expressed as a single figure, or the price may be divided by tracts if sequential sales are contemplated. If the price is tied to the amount of acreage, a survey may be required to verify the amount of acreage in the tract to a specified decimal point to take into account partial acres.

[a] Contingencies

The contract should contain a number of contingencies. The contingencies would include contractual provisions making the sale contingent upon:

- (1) the receipt of satisfactory results of an environmental site assessment, wetland delineation and test borings of the soil if construction is planned;ⁿ¹
- (2) obtaining financing under terms and conditions acceptable to the purchaser;

- (3) obtaining all necessary government approvals for the project; and
- (4) the resolution of any other project-specific concerns unique to the developer.

Each such contingency must specify a date by which the contingency must be resolved. In the event that the developer fails to notify the seller of his or her inability to satisfactorily resolve the contingency by the date specified, the developer thereby waives the protection of the contingency, that is, the developer waives the right to terminate the contract without penalty and walk away from the deal.

The contingency for financing must set forth the total amount of the loan being sought, together with the highest interest rate the developer will be required to accept from a lender. The contingency should also specify the amortization period of the loan, the repayment schedule, and any other loan terms upon which the developer insists. The contingency should also specify the maximum number of points which the developer may be required to pay in order to obtain the loan.

The contingency for government approvals must specify the types of approvals required for the project to go forward. These may include, among others:

- (1) approval of the proposed project by local planning and zoning boards;
- (2) approval by any applicable "historic review commission;"
- (3) approval by any applicable "environmental conservation district;" and
- (4) approval of the installation of any septic, sewage treatment or water systems on the premises.

The contingency should require that applications be submitted to the appropriate authorities by a particular date, and that the developer must use best efforts to obtain the necessary approvals. However, the developer should be cautious in negotiating and drafting this provision. The developer will not want to be in a position where he or she receives government approval of a project that is so markedly different from the original proposal that it may not be financially feasible. Accordingly, the provision should clearly state that if the government approvals would require the developer to substantially alter the plans for the project, then the developer may treat the contingency as having failed and walk away from the deal without penalty. The provision should also require that the governmental approval be final and non-appealable or that all appeals be exhausted.

The contingency should also require the seller to actively support the applications for government approval of the project. To protect the seller, many agreements specifically provide that the seller will not be required to expend any funds as part of its active support.

Other project-specific concerns which may form the bases for other contingencies may include whether the developer will be able to tap into existing water lines or sewage treatment systems, or access electrical transmission lines or natural gas mains, at a particular price. In addition, a developer may insist upon inserting a provision into the agreement which allows the developer to terminate the agreement to purchase if he or she is unable to obtain a specified number of contracts for the purchase or lease of units in the development by a certain date.

The parties should give careful consideration to creating a method for extending the time period of the contingencies. The amount of time required to obtain government approvals may be difficult to predict. Thus, inserting a method for obtaining extensions of time periods will protect the developer from an innocent miscalculation. The parties might also consider requiring some extra financial consideration from the developer in exchange for the extensions. This consideration may appear in the form of an amount of money added to the down payment which the seller will retain

regardless of the resolution of the contingency, and which may or may not be applied against the purchase price. This payment compensates the seller for the additional time which the property is off the market due to the extension of the contingency period.

[b] Assignment of Contract of Sale and Purchase

The contract should also specify whether it is assignable. If the contract calls for owner financing (i.e., the seller holds the mortgage, rather than a financial institution, such as a bank), the seller may wish to limit assignment to a business entity in which the developer is a principal. This will help ensure that the financial responsibility of the developer, upon which the seller relied in making the deal, is still part of the transaction. Alternatively, the seller may allow an assignment to unrelated parties only with the seller's permission and following a thorough financial review of such parties, and only without release of the seller.

[6] Form of Ownership

The last pre-acquisition phase consideration for the developer is the way in which he or she will take title to the land acquired from the seller. The developer may own the property in his or her individual name, through a partnership in which the developer is a partner, through a corporation in which the developer is a shareholder, or through a limited liability company in which the developer is a managing member. The developer should determine the form of ownership before accepting title to the land.

[a] Sole Proprietorship

The sole proprietorship is the least complicated form of ownership. It gives the developer direct and complete control over every aspect of the operation of the development project. Of course, the developer will have to hire employees and independent contractors to perform certain tasks, including some supervisory duties.

The developer, as sole owner, will be personally responsible for the repayment of the entire acquisition debt, unless the developer can obtain non-recourse financing. The developer, if he or she is married and holds assets jointly with his or her spouse, may be required, as a condition for receiving financing, to obtain a written guaranty from the spouse that marital assets will be fully available to satisfy the debt in the event of a default on repayment of the loan.

All profits will be taxed directly to the developer at the personal federal income tax rate. The developer would use a separate Schedule C for the project, which would be attached to the federal income tax return. Where a developer has more than one project in the works and maintains separate accounting books for each project, a separate Schedule C should be prepared for each project and attached to the return.

Finally, it should be noted that the sole proprietorship form of ownership leaves the owner open to liability for any injuries to person or property which arise out of the project.ⁿ¹ The development project, together with all personal assets, would be subject to levy to satisfy any claim not fully covered by insurance.

[b] General Partnership

A general partnership is formed by the agreement of two or more persons to join together to engage in a common business enterprise. Ideally, a general partnership agreement will be executed at the very outset of the real estate development project. Such an agreement sets forth the ownership interests of the parties, which may or may not be equal. The agreement also sets forth the capital contributions expected of the parties. This would include initial start-up capital, as well as any additional funds which may be required later in the project.

The agreement also establishes the responsibilities of the parties for the various aspects of the project. In addition, the agreement should establish a mechanism for making important decisions, and place responsibility for day-to-day

decisions in the hands of a specified partner or partners.

The agreement should also establish a means for termination of the partnership. Typically, the agreement will state that the partnership will terminate upon the:

- (1) retirement;
- (2) death;
- (3) disability; or
- (4) withdrawal of any partner; or upon
- (5) the mutual agreement of all the partners; or
- (6) the bankruptcy or insolvency of the partnership.

Failure to execute a partnership agreement may lead to serious disputes among the partners when difficult situations arise, which require costly and protracted litigation to resolve. Laws governing partnerships are usually codified in each state and found in the state's statutes.ⁿ²

The partnership form of ownership is similar in some respects to the sole proprietorship form. General partners have unlimited liability for injury to persons or property which arises out of the business of the partnership.ⁿ³ General partners are also liable for the debts of the partnership.ⁿ⁴ However, since there is a broader financial base due to the existence of two or more partners, a lender is less likely to request the guaranty of a spouse that marital assets may be used to satisfy the debt in the event of a default on repayment of the loan. It may also be easier to raise capital due to the multiple ownership of the project.

Federal taxes imposed on partnership income are somewhat similar to those imposed on income of the sole proprietor. The partnership must have its own federal tax identification number and file a federal (and, where appropriate, a state) income tax return. The income, gains, losses, deductions and credits shown on the return are divided among the partners in proportion to the partners' respective ownership shares.ⁿ⁵ These tax items are then reflected on "K-1" forms prepared by the partnership and distributed to each of the partners. Each partner's K-1 form becomes a part of the individual income tax return. The partner's share of partnership income is then taxed at the individual rate.

The partnership form of business is different from the sole proprietorship form in the areas of management and control. Control of the real estate development project would be shared among the partners.ⁿ⁶ Thus, the developer would not exercise exclusive control over the project.

At common law, any one partner could bind the partnership for various obligations.ⁿ⁷ Most partnerships today try to avoid this situation by establishing internal operating rules, whereby one partner is empowered to manage certain aspects of the business, but must consult with the remaining partners on particular matters, or where the amount of money involved exceeds a certain specified level. This shared control might make decision-making a bit more cumbersome; however, it does allow for the use of diverse talents. For example, if one partner has construction management experience and another has design experience, those partners may be able to save their partnership a great deal of money by contributing their services to the project, rather than hiring third parties to perform these functions. A sole proprietor, on the other hand, is unlikely to possess talent in many different fields.

[c] Limited Partnership

A limited partnership is very similar to a general partnership. The major differences between the two entities arise in the areas of control and liability.

A limited partnership is formed by a written agreement, which is filed with the Secretary of State of the jurisdiction where the entity is formed.ⁿ⁸ A limited partnership consists of one or more general partners who are charged with the duties of operating the partnership.ⁿ⁹ Only in very rare circumstances must they consult with the limited partners. Except for providing capital, the limited partners have virtually no role in the partnership and are generally prohibited from participation in management.ⁿ¹⁰ In exchange for this limitation, they also receive limited liability. The only assets of a limited partner which may be attached by creditors of the limited partnership are the funds which have been contributed to the partnership by the limited partner.ⁿ¹¹ By contrast, the general partner's personal assets, as well as the partnership's assets, may be subject to levy by creditors of the limited partnership.ⁿ¹²

Like the general partnership, the limited partnership files a federal partnership income tax return, and K-1 forms are delivered to all partners. The partners will show on their own individual income tax returns their respective shares of partnership income, gains, losses, deductions and credits.

[d] Corporate Ownership

A corporation is formed by the filing of a certificate of incorporation with the Secretary of State of the jurisdiction where the corporation is created and by the payment of the requisite fee.ⁿ¹³ After formation, the incorporator sells shares of the corporation to the shareholders at a specified price. Thereafter, the shareholders convene a meeting and elect a board of directors which will set policy and oversee the operation of the corporation. The board of directors, in turn, appoints officers who carry out the directions of the board and oversee the corporation's business on a day-to-day basis.ⁿ¹⁴

The shareholders also adopt by-laws, which govern the daily operations of the corporation, define the roles of the various officers, and set forth procedures for the election of the board of directors and amendment of by-laws.ⁿ¹⁵

It should be noted that the corporation can only act at the direction of the board of directors. The board expresses its directions through resolutions which are proposed, voted on, and approved by the board of directors. The by-laws will normally specify whether a majority of the directors, or more than a majority, is required to approve various types of resolutions.ⁿ¹⁶

In a small corporation, it is highly recommended that the shareholders execute a "buy-sell" agreement. Typically, such an agreement places limitations on the sale of stock. It may require, for example, that stock be offered to the corporation or to other shareholders before it may be sold to strangers. The agreement may also provide for the forced sale of stock upon the death, disability or retirement of a shareholder, cessation of employment with the corporation, or when certain serious disagreements arise among the shareholders.ⁿ¹⁷

Unlike the sole proprietorship or general partnership, the shareholders of a corporation have limited control over the operations of the corporation, and hence over the real estate development project. The sole participation of the shareholders in the operation of the corporation is the election of the board of directors.ⁿ¹⁸ However, in exchange for such lack of control, the personal assets of shareholders are sheltered from the claims of creditors of the corporation. In other words, a shareholder's exposure to liability is limited to his or her financial investment in the corporation.ⁿ¹⁹ Knowing this, lenders will often seek *personal* guarantees from shareholders of corporate debt.

Federal taxation of corporate profits occurs via the corporate income tax return. The corporation pays federal income taxes due on its taxable income.ⁿ²⁰ After-tax profits of the corporation may be distributed to shareholders on a pro-rata basis. These profits, known as dividends, are taxed again as income to the shareholder.ⁿ²¹

To avoid such "double taxation," many shareholders in small corporations are often employees of the corporation and receive salaries and bonuses from the company. These salaries and bonuses are corporate expensesⁿ²² and reduce pre-tax profit, resulting in a lowering of the corporation's income tax. Salaries and bonuses are taxed as income to the shareholder-employees at their individual income tax rates.ⁿ²³

[e] Limited Liability Company

The limited liability company ("LLC"), like corporations and limited partnerships, is a creature of statute. Generally, an LLC is a business entity through which each owner (called a "member") enjoys limited liability for the business's debts and other legal responsibilities just like shareholders in a corporation. However, for federal income tax purposes, it is treated as a partnership unless the members elect to be taxed as a corporation. If treated as a partnership for tax purposes, the income or loss from operations is passed through to its members and reported on their respective tax returns.

Most states also allow single member LLCs. Therefore, even sole proprietors should now consider forming an LLC to own and operate its development to obtain the advantage of limited liability. For tax purposes, the single member LLC is ignored and the tax consequences to the single member are the same as if the developer owned the development as a sole proprietor.

If there are two or more members in the LLC, the LLC should have an operating agreement. The operating agreement is similar to a general or limited partnership agreement. It will cover what contributions are required by the members, the manner of dividing profits and losses, distributions of cash flow, restrictions on the transfer of membership interests, voting rights and requirements, termination rights, procedures for dissolution of the entity, and all other matters usually covered in a partnership agreement. For a more thorough discussion of the use of LLCs, and of their tax treatment, see Volume 22, Chapter 18A, *Limited Liability Companies*, *supra*.

[f] Conclusion

In determining the appropriate form of ownership, all of the foregoing issues of management, control, taxes and potential civil liability must be considered in light of the specific real estate development project. No one form of ownership is best for all projects. Projects with the potential for generating substantial civil liability may call for a corporate form in order to adequately insulate the owners from lawsuits. Projects that may generate large tax losses--to be passed on to the owners--may encourage use of the partnership form. Very small real estate development projects may perhaps be most easily and efficiently accomplished in the sole proprietorship format. Finally, it should also be remembered that the more complicated the form of ownership, the greater the cost will be to establish and maintain that format.

Current Legal Forms for Real Estate
Chapter 22 DEVELOPMENT AND SUBDIVISION
Part II. The Practice Background

26-22 Current Legal Forms for Real Estate § 22.28

§ 22.28 Planning Phase

The planning phase of the real estate development project consists of two major parts. The first is the development of a project team. This team consists of professionals whose skills, knowledge and experience will be needed to plan, construct and operate the project. They include, among others:

- (1) a surveyor;
- (2) an engineer;
- (3) an architect;
- (4) a lawyer; and
- (5) a financial advisor

The second part is the actual designing and planning of the project. This second phase of the project must be formulated and executed carefully. Serious mistakes made at this stage may prove fatal to the project. For example, if the financial advisor greatly underestimates the amount which the developer must charge for each unit in the development in order to recoup the investment and realize a profit, the project (and its developer) might face financial disaster.

[1] Development Team

The selection of the members of the team will, in many respects, depend on the nature and scope of the project. For example, if the developer's role is to create a residential subdivision using lots that are ready to be built upon, the developer may have no need for an architect, but will probably need the services of a marketing firm. On the other hand, if the real estate development project consists of the construction of an office building for a particular client, the developer will need an architect but not marketing assistance.

It is absolutely vital to select the development team with great care. The developer must have individuals who are

experienced, honest, reliable, skillful and (preferably) possess a proven track record. In addition, the developer must make certain that the individuals selected have sufficient time available in their schedules to accommodate the project.

[a] Surveyor

[i] Role

A surveyor will be needed in nearly all real estate development projects. The surveyor's initial duties will be to determine and mark the boundaries of the property, and perhaps compute the amount of acreage in the development to a specified decimal point, especially if the purchase price of the parcel is based on a price per acre of land in the parcel. Also, the purchaser may want to limit the obligation to purchase just to usable land (excluding wetlands, roads or other unbuildable land). The surveyor will also prepare a preliminary map of the property, showing boundaries, easements, already-existing structures, roadways, bodies of water, and other important features of the property, both natural and artificial.

Additional duties of the surveyor will be specific to the particular type of project being built. For example, if the project is a residential subdivision, the surveyor will assist in laying out lots. Such lots must be laid out in accordance with local zoning laws, which will specify, among other things, the maximum and minimum size of the lots, their shape, and setback requirements. If the project under construction consists of a single structure, such as an office building, the surveyor will identify side lines and setbacks in order to assist the architect and engineer in proper placement of the structure. The surveyor will also identify the location of existing water and sewer lines and gas mains and power lines, if any, on the property.

The surveyor will also prepare site plan maps which are required for obtaining various government approvals, as well as survey maps showing the location of easements and other encumbrances identified in a recent title commitment required by the lender to verify that the developer has clear title to the property.

In a residential subdivision, the surveyor will prepare the final subdivision map, which typically must be filed with the county clerk. This map will become the basis for the legal description of each lot as it is sold to a purchaser in the future. As homes are built, the surveyor will prepare a survey map for each home. Such maps are required by residential lenders to verify that the home was indeed built on the correct lot and within the appropriate lot lines and setback lines.

[ii] Qualifications

The developer should carefully inquire as to the surveyor's qualifications. The surveyor should be a licensed land surveyor. In most states, this involves obtaining licensing from the appropriate state government department or agency. Licensing can usually be verified quickly and easily by telephone or fax machine.

The surveyor should possess ample experience in the particular type of work expected to be performed. The surveyor should also have a staff sufficiently large to accommodate the developer's needs. Stated differently, the developer must receive assurances that the surveyor will be able to meet all deadlines imposed by the developer. For example, if the project is a residential subdivision, the surveyor must be prepared to timely meet the needs of home buyers who will require individual survey maps for their purchases.

[iii] Compensation

When enlisting the services of a surveyor, the rate of compensation should be fully discussed and agreed upon. Many surveyors charge by the hour. This hourly rate may be for a "crew hour"--that is, for both a surveyor and the helpers--or the developer may be billed, at an hourly rate, for each crew member, draftsman, etc. The developer will need an estimate of the total cost of the surveyor's services project in order to prepare the budget for the entire project.

The developer should also be aware that special situations sometimes arise in real estate development projects which may increase the cost of the surveyor's services. These situations should be identified, if possible, and a fee covering them should be agreed upon in advance. These items may be added to the budget as "contingent" items if the project is being constructed for a known party. If the project is being constructed for still-unknown purchasers, the accounting and marketing staffs should be made aware of these potential expenses before preparing the project budget and pricing the units. Such special situations may include:

- (1) lot modifications required for final municipal approval of the project;
- (2) changes in the design of infrastructure or buildings required as a result of unexpected soil or water conditions;
- (3) green space requirements; or
- (4) unforeseeable changes in the law.

Each of these situations may require changes in the survey maps, as well as additional field work by the surveyor and its staff.

The surveyor may be willing to negotiate a fee which is somewhat lower than the usual hourly rate. For example, where the project is a residential development and the surveyor is likely to be hired to create most of the individual home survey maps, the surveyor may be willing to reduce the hourly fee, knowing that he or she will recoup all or most of it in preparing the individual survey maps. (It should be noted that the individual survey maps will require considerably less work than the principal survey for the entire development. In preparing the individual survey, only the placement of the new structure will actually require additional work.)

In real estate development projects where such additional work does not exist, the surveyor may not be willing to negotiate a lower hourly fee. Indeed, recent lending industry changes that now permit a title insurance company to provide insurance coverage to lenders for any loss occasioned by an inaccurate survey have affected surveyors adversely. This change has significantly reduced the number of surveys ordered for sales of residential properties. As a result, income for many surveyors has dropped significantly in recent years. Consequently, some surveyors may now be unwilling to negotiate prices on a large job.

[b] Engineer

[i] Role

The role of the engineer and his or her firm in a real estate development project is substantial. Some engineering firms may be able and willing to undertake both the surveying and engineering work. If the firm is sufficiently large, it may also be able and willing to perform the traffic study, environmental site assessment and wetlands delineation, if such studies are necessary.

However, the primary role of the engineering firm is site planning. Site planning consists of the laying out of the entire real estate development project. With a residential subdivision or a commercial park, site planning includes designing lots, laying out roads, and allocating areas to meet green space requirements. Site planning also includes the placement of sewers, water mains, storm drains, and utilities such as telephone and electrical lines, natural gas mains and cable television lines. Finally, site planning also entails providing for solid waste removal, parking, street lighting, sidewalks, traffic control devices and appropriate entrance and exit sites on the development.

The engineer must be sure that the plans meet municipal requirements for lot size, "density" of units, etc. The engineer

must also identify municipal requirements that cannot be met and develop a strategy for obtaining a variance. In general, to obtain a variance, it must be shown:

- (1) why the developer cannot meet the requirements of the law;
- (2) that such failure is not the fault of the developer; and
- (3) that the land is so situated that the developer cannot obtain a reasonable return on the investment without a variance.

One strategy frequently employed is to demonstrate that the *spirit* of the law will be met if the government is willing to make a small concession and grant the variance. For example, a town ordinance may set forth housing "density" requirements, providing that only a particular number of residences may be constructed on each five-acre parcel of land. The land chosen for the development may be unsuitable for building in one large area due to its topography and geology. However, that area might make an excellent spot for a recreational facility, such as a park or ball field. Accordingly, the site plan might propose an increase in the number (i.e., density) of residences on each five-acre parcel, and a single large green space, rather than a small green space on each five-acre parcel. The one large green space might well meet or exceed the combined size of the small green spaces that would otherwise be scattered throughout the development. Moreover, the large green space might be more useful and attractive to residents than the small areas would have been.

Similarly, in a commercial park, the zoning ordinances may require a particular number of parking spaces near each building. But it may be less costly to cluster the parking in a central location, such as a tiered garage, than to have several open lots scattered throughout the commercial park. In addition, sufficient space for such open lots may not be available. A tiered garage in a central location would thus meet the spirit, if not the letter, of the law.

Finally, the engineer for a real estate development project often prepares diagrams, charts and reports showing how the proposed plan will benefit the municipality. The engineer can also be expected to supervise the construction of the infrastructure to make certain that it is being built according to the plans. In addition, the engineer may be expected to certify the level of completion of the project to the developer's lender so that the lender can make progress payments under the development's financing documents.

[ii] Qualifications

The developer must carefully inquire into the qualifications of the engineer and his or her firm. The developer should likewise look into the firm's level of experience with similar projects. The engineer or the firm should have a portfolio on hand for the developer's review, illustrating work on earlier, similar projects.

The developer should also inquire about the engineer's or the firm's experience in dealing with the particular municipality involved. The developer should make certain that there is no potential conflict of interest between the engineer and the municipality. For example, municipalities often hire engineering firms to consult on particular government projects. The developer should not use a firm which regularly consults for the municipality where the development will be built. Instead, the developer should utilize an engineer who is an independent team member, not someone who is and will remain beholden to the municipality for work. Conversely, the developer also should make certain that the engineer does not have a poor rapport with the municipality. If a variance is necessary, a poor rapport between the engineer and the municipality may sound the death knell for the variance application.

The developer should also ascertain the variety of services which are available through the engineering firm. It is always more convenient to have all of the necessary services provided and coordinated by one engineering firm.

[iii] Compensation

The developer should fully discuss and reach agreement with the firm on the cost of its services. The engineering firm will probably offer to work on an hourly basis, or for a percentage of the total cost of the development. On an hourly basis, the engineers would bill the developer at one rate, draftsmen at another rate, and so forth. The firm should be able to provide an approximate total cost of its services, or at least a range within which the total cost will fall, based on its prior experience with similar development projects. Where the fee is based on a percentage of the total development cost, any unexpected increases in the development budget will naturally increase the engineering fee, unless the contract with the firm provides otherwise.

The developer should insist on a written agreement which clearly specifies the nature and scope of the firm's services in great detail. The method of compensation should be included as well, specifying hourly rates where appropriate. The agreement should also specify whether, and under what conditions, the hourly rates are subject to change during the course of the rendering of services.

If any of the services--such as traffic studies, environmental site assessments, or surveying--will be subcontracted, the agreement should specify these services, the identity of the subcontractors, and the method of compensation. The most important issue here is whether these costs will be passed along to the developer separately and in addition to the engineering firm's fee, or whether these costs will be incorporated into the firm's fee.

The agreement should also contain a provision for its termination if the developer becomes dissatisfied with the firm's services. Where compensation is on a percentage basis, a method for determining the amount due to the firm should be included in this provision. It is not recommended that a straight hourly rate be used to determine the amount due. The whole reason for termination of the agreement may be slowness and lack of progress on the firm's part. Thus, an hourly rate may be far too generous. A more equitable approach is to include a provision in the contract which sets forth the percentage of the engineer's total fee which is earned upon completion of each stage of the engineer's duties. (The total fee, of course, would be equal to that percentage of the cost of the project that the engineer would have received had the contract not been terminated.)

The agreement should also contain a dispute resolution mechanism. The method chosen should result in a rapid resolution of any disagreement that may arise between the engineer and the developer. The developer cannot afford to have the progress of the development slowed by a dispute. After all, the developer will be paying interest on the land acquisition loan during the delay, which will add to the overall cost of the project and reduce the profit.

[c] Architect

An architect is a professional individual whose training is in the design of structures. An architect will typically be needed where the developer intends to construct buildings as part of the real estate development project.

[i] Role

The role of the architect is to design the structure(s) consistent with state and local building codes and ordinances. In addition, the architect can be expected to supervise the construction of the structure(s) to make certain that it conforms to the plans and specifications previously drafted. The architect is also responsible for certifying the progress of the construction. This certification enables the developer to obtain progress payments under the construction loan, and allows the general contractor to receive progress payments under the construction contract.

In some areas of the country it is common for the architect to prepare the site plans required for planning and zoning board approval for a small real estate development project. Such a project might include a small strip mall or a single office building.

In the case of a residential subdivision, an architect might be hired to prepare a variety of designs from which purchasers can choose. In other developments, where a particular style of home is to be offered to all purchasers, the developer may hire the architect to work with purchasers to "customize" the standard home or even design custom-made homes. The architect can also be expected to prepare the "bid" documents for the construction of the project if the construction contract will be offered for bidding by contractors.

[ii] Qualifications

An architect must be licensed by the state in order to sign construction drawings. Licensing can usually be confirmed by telephone, or by a fax transmission sent to the appropriate state licensing agency.

The developer should inquire as to the level of experience of the architect with similar real estate development projects. Architects, like engineers, generally maintain a portfolio of designs which the developer can and should review. The developer should focus on projects which are similar in nature and scope to the proposed project. If the developer finds that he or she does not like the style of buildings suggested by the architect, the developer may wish to consider another architect. The developer cannot afford to waste time struggling with the architect over designs, since the developer will be paying interest on acquisition and construction loans while haggling with the architect. Thus, any delay will inevitably eat into the developer's profit margin.

If it is the intention of the developer to obtain a "green" building certification, the architect should be familiar with green building methods and the manner in which to obtain certification of the building as a "green" building. The rating system most used is the one used by the U.S. Green Building Council referred to as the LEED method. The term LEED stands for "Leadership in Energy & Environmental Design."

[iii] Compensation

Architects are generally compensated:

- (1) on an hourly basis;
- (2) by a flat fee; or
- (3) on a percentage-of-construction-price basis.

Regardless of the method of compensation used, the contract should carefully specify the nature and scope of the work to be performed. The agreement may also provide for certain additional services to be made available by the architect for the developer from time to time. The agreement should specify whether the architect is obligated to perform such services and the method for determining compensation. Such services might include:

- (1) helping to resolve a dispute between the developer and a purchaser of a unit;
- (2) attending planning or zoning board meetings;
- (3) serving as an expert witness at a trial arising from an action brought against the developer; or
- (4) preparing necessary modifications and additions to the original designs.

The contract should allow for termination by either party. The contract should also provide for a means of determining the fee earned by the architect as of the date of termination. Since the reason for termination is often the failure of the

developer and the architect to agree upon a design, use of an hourly fee may be overly generous and inappropriate. Thus, the contract should set forth the percentage of the architect's total fee which is earned at each stage of the design process. That percentage would then be applied against the total fee.

Most architects prefer to use the American Institute of Architects' (AIA) standard form of contract. As a rule, they are generally quite knowledgeable about the contract and their responsibilities under it. The developer should have his or her attorney carefully review and amend the contract to meet the developer's needs, especially because the AIA contract is designed to protect architects, not real estate developers. If it is used, it is known as AIA Document B141--Standard Form of Agreement Between Owner and Architect. This form and the other AIA forms are copyrighted, but they can be purchased from the American Institute of Architects for a nominal fee. (A listing of the various AIA forms of contract can be found on its website at www.AIA.org.) Of particular concern to the owner in using the AIA form is to add provisions to the standard form to deal with insurance issues. The owner, through consultation with its insurance advisor, should establish the minimum requirements for insurance to be carried by the architect. These requirements should include customary workers compensation, general liability and automobile liability coverages. More importantly, the owner should require the architect to maintain professional liability insurance to cover the architect's errors and omissions. The coverage should be required to be kept in effect for a period of time after completion of the services to cover claims made after the work is completed.

[d] Lawyer

[i] Role

The developer's lawyer is another crucial member of the development team. The role of the lawyer is to assist the developer in negotiating and preparing the contracts for purchase of the land, and the employment agreements between the developer and the various other members of the development team. In addition, the lawyer can prepare the contract between the general contractor and the developer.

The lawyer's services may also be required in connection with the presentations that must be made to the local zoning and planning boards. While the engineer or architect typically prepares the schematic drawings that will be presented to the boards, the lawyer should always review, if not draft, the arguments to be made to the boards in support of granting the necessary approvals. The lawyer should make certain that the presentations include evidence supporting each of the points which the developer is required to prove.

The lawyer's assistance will also be necessary if an appeal of the decision of the zoning or planning board is filed by a citizens' group. The lawyer will be required to prepare the various briefs, answers, affidavits, memoranda of law, etc., and appear in court to argue the case. If the decision of the zoning or planning board is not favorable, the developer may wish to commence an appeal through the courts, utilizing the attorney's services.

The lawyer may also be called upon to draw up restrictions and covenants for the development. These would include restrictions on certain uses of the property and types of construction, in order to maintain the quality and character of the development. Such restrictions and covenants are filed with the county clerk or county recorder, and are recorded so that their effect is to run with the land. They are also inserted into deeds given to purchasers of units within the development.

[ii] Qualifications

Most developers have their own attorneys. However, if a developer does not have an attorney or wishes to choose another one, there are several qualifications the developer should seek. A lawyer is, of course, required to be admitted to the bar of the state in which the lawyer practices. Typically, the state supreme court maintains records of all lawyers in good standing who are admitted to practice within that jurisdiction.

The lawyer should have extensive experience in real property law in order to be able to effectively handle the various purchases, sales and financing transactions involved in a real estate development project. The lawyer should also have considerable experience in land use planning and zoning law. The attorney should appear regularly before planning and zoning boards and be familiar with local ordinances and the peculiarities of the particular municipality involved.

The lawyer should also have broad knowledge of business law. In that regard, the attorney should be prepared to advise the developer concerning the best form of ownership of the real estate development, partnership agreements, "buy-sell" agreements, operating agreements for limited liability companies, as well as all other legal aspects of the real estate development business.

Obviously, lawyers do not have portfolios to show prospective clients. However, they usually can offer names of existing clients who are willing to serve as references, assuming such clients have previously provided the attorney with permission to use their names. When consulting a reference, the developer should inquire about the type of work performed by the attorney for the reference and the degree of the reference's satisfaction with the work.

[iii] Compensation

Lawyers are generally compensated by the hour, or by a flat fee for certain types of work, or by a combination of these two methods. For example, the lawyer may receive an hourly fee for providing advice concerning business affairs and contracts, but the lawyer may be paid a flat fee for handling each of the sales in a housing development or preparing the leases for tenants in a rental property.

It is fairly uncommon for a lawyer and client to have a formal contract. Instead, a letter or memorandum of understanding generally sets forth the fee schedule. The developer should try to obtain a provision which restricts fee increases during the construction of the development. If the development is to be constructed in phases over a number of years, it may be more appropriate to have an annual adjustment of the fee, or an adjustment upon the completion of each phase of the development.

[e] Financial Advisor

[i] Role

The financial advisor often is a member of the developer's full-time staff. The financial advisor's role is to assist the developer in creating a budget for the overall real estate development project. In addition, the financial advisor must keep track of expenses at all phases of the project and notify the developer of any potential financial problems which could place the development in danger.

The developer may also have his or her financial advisor negotiate loans with the various lending institutions. The financial advisor should be intimately familiar with projections of costs and revenues generated by the project. The advisor will thereby be in the best position to negotiate the terms of loan documents, particularly provisions relating to repayment of the loans. He or she will also know what the project can bear economically at various stages and help structure the loans accordingly.

The financial advisor will also be responsible for revising cost and revenue projections as conditions change. For example, if units are suddenly in greater demand than originally expected, the advisor may suggest an increase in price at an earlier time than projections initially indicated. Similarly, if there are cost overruns, the advisor will be responsible for recalculating the price of units in order to cover these overruns.

[ii] Qualifications

The qualifications for the financial advisor cannot be stated with as much specificity as the qualifications for other team members. Some developers may choose to use a certified public accountant who is either on staff or an outside consultant. Others may use an experienced bookkeeper who is already on staff, understands the business thoroughly, and is familiar with the procedures and formulas for setting prices for purchasers and tenants of units.

It should be noted that, where the financial advisor is on staff, he or she may already have many additional duties, such as handling payroll, accounts payable and accounts receivable. Depending on the size of the real estate development company, these extra duties may be helpful since they will provide the advisor with greater knowledge of the business, or they may prove overwhelming when added to his or her responsibilities as financial advisor to a particular development project. The developer should be aware of this and assign clerks to assist the financial advisor when needed.

[iii] Compensation

The compensation of the financial advisor will depend on whether the advisor is already on the developer's staff, and the role which the developer assigns to him or her *vis a vis* the particular real estate project. If the financial advisor is on staff, salary will be negotiated with the developer at the outset of the employment relationship. If the advisor is an outside consultant, such as a certified public accountant, the fee will probably be hourly.

It is relatively unusual for a developer to have a written contract with a financial advisor. If the advisor is a regular staff employee, he or she will usually be an "at-will" employee, which allows the advisor or the developer to terminate the relationship at any time. Where the advisor is a certified public accountant who is working as an independent contractor for the developer, there may be a letter agreement simply specifying the hourly rate for any services performed at the request of the developer.

Occasionally, a financial advisor who negotiates a loan will be paid a "point" or a half "point" for negotiating and securing the loan. A "point" is equal to 1 percent of the face amount of the loan. If the financial advisor is to be paid a point or other commission for negotiating and securing a loan, there should be a written memorandum specifying:

- (1) the fee to be paid to the financial advisor;
- (2) the loan terms that would be acceptable to the developer; and
- (3) whether the developer is legally obligated to accept a loan meeting these terms.

These loan terms should include, at a minimum:

- (1) the amount of the loan;
- (2) the interest rate;
- (3) an indication of whether the rate is to be fixed or variable;
- (4) if the rate is to be variable, the frequency with which the rate can be adjusted;
- (5) if the rate is to be variable, the maximum rate that can be charged;
- (6) repayment terms;
- (7) the term of the loan and its amortization period;

(8) any periods in which the developer would be entitled to pay interest only; and

(9) any other loan terms required by the developer.

If a written agreement is used, it should always reserve to the developer the right to terminate services at the developer's discretion. Where services are paid on an hourly basis, no problem should arise in determining the final payment following termination.

[f] Other Advisors

There may be a number of other advisors whose services are useful or necessary for specific types of development projects. The other advisors may include geologists where there is a question of soil suitability or water availability. In addition, a developer may wish to consult a marketing expert at the beginning of the real estate project in order to determine whether the proposed pricing of rental or sales units will be feasible in light of projected market conditions.

As with all members of the development team, the qualifications and past experience of these persons should be verified. Portfolios of prior work should be carefully reviewed or references verified, as the case may be.

The method of compensation should also be determined, and an estimate should be prepared by the advisor of the expected total cost of the services to the developer. If a written agreement is prepared, it should contain termination provisions protecting both the developer and the advisor. The agreement should be drawn up or reviewed by the developer's lawyer in order to be certain the developer will be receiving valuable services in exchange for the agreed-upon compensation.

[2] Development Plan

The development plan is prepared by the development team assembled by the developer. It is the task of the team to convert the general concept of the project, conceived by the developer in the pre-acquisition phase, into a detailed, workable plan that can be presented to the appropriate governmental authorities for their approval, and then constructed and finally leased or sold to the public. In order to complete the performance of this task, the development team must create a design which is economically feasible. The team must also identify potential problems and formulate practical and cost-effective solutions to have on hand in the event such problems appear.

[a] Design

In creating the design, the team must mold and shape the general concept of the project to the land which is available, in view of municipal zoning laws and state and local building codes.

[i] Infrastructure

The team must first identify:

- (1) what infrastructure, if any, already exists;
- (2) what infrastructure is nearby and can be used; and
- (3) what infrastructure must be constructed from scratch.

The term "infrastructure" is generally understood by developers to mean:

- (1) roads;
- (2) sewer lines;
- (3) water lines;
- (4) storm drains and sewers;
- (5) telephone lines;
- (6) natural gas mains;
- (7) electrical lines;
- (8) cable television lines; and
- (9) antennas, satellite dishes and cell towers.

In some areas, infrastructure may also include street lights and sidewalks.

The infrastructure must be in place before lots can be sold or buildings constructed. In some municipalities, performance bonds and/or letters of credit are routinely required from developers to insure completion of the infrastructure.

The installation of the infrastructure is a major expense which must be incurred in full before any return of investment is realized through the sale or rental of units. To the extent existing lines or mains can be tapped into, or extended and linked up with the development, great savings can be realized. Thus, careful investigation of the surrounding area is necessary. For example, there may be an opportunity to purchase water from a neighboring developer who owns a private water system (i.e., a well and pump) with extra capacity. It may also be possible to join with neighboring land owners to share the cost of sewage treatment if they will agree to allow the new development to link up to the existing sewer lines and sewage treatment facilities. In addition, it may be possible to persuade utility companies to share in the cost of extending lines to the development since these same companies will be benefitting from the many new and paying customers in the development project. If a utility company will not share the cost, it may be willing to finance the cost of extending the lines until enough lots are sold to generate sufficient cash to repay the loan.

The local government may have ordinances which restrict the height of cell towers, antennas, and satellite dishes, and the developer should ascertain what those restrictions state. However, as directed by Congress in the Telecommunications Act of 1996, the Federal Communications Commission (FCC) has adopted rules limiting restrictions on viewers' ability to receive video programming signals from direct broadcast satellites, wireless cable providers, and television broadcast stations.¹ The FCC adopted a rule that it is intended to eliminate unnecessary restrictions on antenna placement and use while minimizing any interference caused to local governments and associations.

In general, the rule prohibits most restrictions that (i) unreasonably delay or prevent installation, maintenance or use, (ii) unreasonably increase the cost of installation, maintenance or use, or (iii) preclude reception of an acceptable quality signal. The rule applies to individual homeowners and to rental property where the renter has an exclusive use area, such as a balcony or patio. In other words, it applies to viewers who place antennas that meet certain size limitations on property that they own or rent and that is within their exclusive use or control, including condominium owners and cooperative owners, and tenants who have an area where they have exclusive use, such as a balcony or patio, in which to install the antenna. The rule applies to townhomes and manufactured homes, as well as to single-family homes.

However, the rule does allow local governments, community associations and landlords to enforce restrictions that do not impair the installation, maintenance or use of the types of antennas described above, as well as restrictions needed for safety or historic preservation. In addition, under some circumstances, the availability of a central or common antenna can be used by a community association or landlord to restrict the installation of individual antennas. The rule does not apply to common areas that are owned by a landlord, community association, or jointly by condominium or cooperative owners. Such common areas may include the roof or exterior wall of a multiple-dwelling unit. Therefore, restrictions imposed by associations or landlords on antennas installed in or on such common areas are enforceable.

[ii] Unit Density and Green Space

The design must clearly indicate the total number of units that will be included in the project and how the units will be spaced. In a housing development, the number and spacing of units is based on lot size and construction type. For example, some areas of the development may consist of single-family homes on lots measuring one-third acre each. Other areas may consist of three or four townhomes connected by party walls on the same one-third acre lot.

In addition, the design must show the required amount of green space. Many municipalities mandate a fixed amount of green space per building or paved area. Some municipalities even specify that trees of a particular size and type must be included in the green space areas.

Some municipalities also require the creation of recreational facilities, such as parks and playgrounds, for a particular number of residential units. Often, a small park or picnic area will be sufficient. This requirement may apply to commercial, as well as residential, real estate developments.

[iii] Solid Waste Disposal

Many municipalities, particularly small ones and those in rural and even some suburban locales, have no trash collection service whatsoever. Other municipalities collect trash for residential buildings, but not for commercial structures. Accordingly, most municipalities around the country will require a real estate developer to indicate, as part of the plan for the development project, the expected method of solid waste removal.

The developer may intend to make use of municipal trash collection services, if available. If so, the developer may be required to estimate the anticipated tonnage of solid waste that will require disposal in a typical year. The municipality will use this figure to determine whether additional equipment and personnel will be required, and the likely effect on the municipal landfill, if any, from the increased dumping.

If private haulers are to be used, the municipality may require some assurance of their availability and willingness to provide services to the developer. The municipality may require a "contingent" contract as proof that such services will be available. (The contract would be made contingent upon the municipality's approval of the development project, and its construction and habitation.) Without such proof, as a practical matter, the burden of solid waste removal might fall on the municipality by default: the municipality would be besieged by complaints from neighbors if a private hauler failed to materialize and trash began to pile up. The municipality, having concern for the health and welfare of its citizens, would have to make some arrangements for the removal of the trash.

[iv] Waste Water and Sewage

The municipality will also require plans for the removal of waste water and sewage. In a housing development of a very small size, individual, "per unit" septic systems should be adequate. Such systems must be designed to accommodate the soil type, lot size and terrain of the property. The necessary capacity of such systems is generally based on the number of bedrooms contained in the building to be served by the system. Each system must be inspected and approved by the local health department before it is put into use.

Most residential developers find that they must build a large development in order to spread out the cost of expensive infrastructure over a sufficient number of lots to realize a reasonable profit. This fact requires most developers to use sewer systems, rather than individual septic systems for each house.

Many areas of the country have municipal sewer systems which can be easily accessed by the residential developer. If no such public system exists, the developer can build a sewer system to serve the development. The developer should plan to build a much larger system than is actually needed for the development. In that way, the developer will be prepared to service future residential real estate developments that may be built nearby. This can prove to be a very profitable venture for the developer. Of course, permits and various governmental approvals from state and local authorities are necessary before construction can begin.

Commercial and industrial developers are faced with similar choices. They can either:

- (1) install a large septic system, subject to local health department approval;
- (2) utilize an existing municipal sewer system, if one exists and is available to the developer; or
- (3) build their own sewer system.

To some extent, the decision will be guided by:

- (1) the geology of the area;
- (2) the volume of anticipated daily discharge; and
- (3) the availability of an existing municipal sewer system.

However, the decision may also be influenced by the *types* of substances which will be included in the discharge. For example, most municipalities will have no objection to human wastes, but they may prohibit discharge of industrial wastes containing certain substances, such as hazardous materials. In addition, where the volume of discharge will likely exceed certain limits, a discharge permit may be required, with the municipality restricting the time of release to low system-usage hours, such as midnight to 6:00 a.m. Finally, the developer may find that the cost of discharge into an existing municipal sewer system, which is usually based on volume, is prohibitively expensive. Accordingly, the developer may prefer to build his or her own sewage treatment facility and offer services to other commercial users in order to defray costs. Once again, permits and approvals will be required from state and local authorities before the building of such a system may begin.

[v] Recreational Facilities

Many developers of both commercial and residential real estate projects include recreational facilities as part of the development. These facilities may be as simple as walking trails and picnic grounds, or as costly as health clubs with pools and tennis courts. Although municipalities cannot require the inclusion of recreational facilities in a project, such inclusion might make the project more palatable to the municipality whose approval for the project is necessary. Thus, the facilities will be both a valuable selling point in winning the approval of the municipality for the project, and, of course, an added attraction for prospective purchasers, tenants and businesses.

Construction and maintenance of walking trails and picnic facilities is relatively inexpensive, and they are generally made open to the public without charge in an effort to improve community relations. More sophisticated facilities, like a health club or club house, may require an annual membership fee to be paid by nonresidents of the development in

order to cover operating expenses and insure recovery of construction costs.

[b] Financial Considerations

The next stage of the planning process is to project the expected costs of the real estate development and the expected income from sale or rental of units, and compare the two to ascertain whether the project is worth undertaking.

The developer is faced with a wide array of costs. These are often categorized as "soft" costs and "hard" costs. Soft costs are generally those expenses which are necessary for the completion of the project, but which do not produce anything tangible. Hard costs are the expenses which actually result in a structure, roadway, etc.

The soft costs include, among others, professional fees for design of the project and legal representation of the developer during the governmental approval process. Also included among soft costs are filing fees. Many municipalities charge fees for filing an application for subdivision approval, for site plan approval, and for zoning board approval. In addition, the county clerk or county recorder will typically charge a fee for accepting the subdivision maps for filing. There are also fees to obtain building permits.

In addition, there are soft costs involved in acquisition of the land, such as professional fees for surveying the property. There are also fees for title insurance, mortgage tax, and recording documents with the county clerk or county recorder. In addition, there may be "points" to be paid to lenders when loans are granted, lenders' legal fees and application fees for obtaining an acquisition or construction loan.

The municipality and utility companies may require the developer to post performance bonds or letters of credit to insure completion of the infrastructure in the development. And, of course, the developer will also have real property taxes to pay.

These costs can be predicted and set forth in a budget with a fair degree of certainty. Those items which are not fixed in price can be lumped together, and an estimate can be prepared to cover all of them.

The one item that cannot be easily fixed, however, is interest on the acquisition and construction loans. Generally, with a commercial project, the interest rate will be a variable rate, tied to the prime rate. The interest rate may fluctuate on a monthly, quarterly or annual basis. Neither the developer nor the lender has any control over the economic factors which cause the interest rate to vary. However, it should be noted that the same economic factors which cause the interest rate to vary may affect the price of the units being built and the sales of those units. For example, a high prime lending rate generally means higher mortgage rates for home buyers, which, in turn, may depress sales. Thus, it may be necessary for the developer to lower the sales price in order to entice otherwise interested prospective buyers to consider making a purchase. And, of course, these economic factors may also affect the length of time required to sell or rent units in the developer's project.

The amount of interest paid by the developer may also be increased by community opposition to the project. The time needed to satisfy the concerns of opponents, or to litigate legal disputes that arise, may cost the developer dearly in interest payments. This problem may be further exacerbated in northern climates where the construction season is frequently short. There, protracted opposition may push the developer's project into the following construction season.

Thus, dramatic interest rate fluctuations, or extended periods of interest payments when no building is actually going on, may ultimately doom the project. The developer must be prepared for both situations in making the financial projections.

The hard costs are generally the purchase price of the land and the cost of constructing and marketing the project. These expenses should be fairly predictable.

Having calculated the expenses for the project, the developer must next examine the market to determine the appropriate sales price or rental price for each unit. Advice received from the marketing expert will be vitally important at this stage of the project. Pricing of similar units in the area can be obtained through multiple listing services. In addition, the pace of sales can also be ascertained by examining records maintained by the recorder of deeds. Using this data, the developer, the financial advisor and the marketing advisor can together determine a price range for the units that will be both attractive to potential purchasers or tenants and profitable for the developer.

Finally, it should be noted that all of these financial projections will also be used in the process of obtaining financing for the project. While the project is being built, the lender(s) may ask for periodic updates on the status of the project. The developer should be monitoring the costs regularly during the course of the project in order to be certain that the project is not exceeding the projected costs.

[c] Identifying Potential Problems

The development team must identify and plan for potential problems in the earliest stages of the real estate development project. Such problems may include:

- (1) environmental problems;
- (2) municipal problems; or
- (3) neighborhood concerns about the project.

All of these problems, if not identified early and resolved, may stop the project dead in its tracks. A sudden halting of the project can prove very costly in light of the continued interest payments on land acquisition loans that the developer will be making while the problems are being handled. In addition, if litigation becomes necessary, the costs can be excessive. All of these problems may become so significant that they render the project financially unfeasible.

Of course, there may be some problems that simply cannot be overcome, or that can be overcome only at an exorbitant price. Under such circumstances, it is best to identify the problem early in the project so that there will not be an excessive waste of time and money.

[i] Environmental Problems

As noted earlier in § 22.27[4][a], prior to acquisition of the land, an environmental site assessment should be performed to determine whether there is any evidence of an adverse environmental condition due to prior releases of hazardous substances on or near the property. However, if the property was acquired before the mid 1980s, it is unlikely that such an assessment was ever performed. Such assessments became commonplace only after the passage of the *Comprehensive Environmental Response, Compensation and Liability Act* (CERCLA),ⁿ² and the first court judgments ordering clean up of contaminated real property pursuant to that federal statute.ⁿ³

If an environmental site assessment was not performed prior to acquisition, it will surely need to be performed prior to obtaining financing. If any adverse conditions are discovered, then before proceeding with the project, a determination will need to be made of the cost of remediation and the affect such cost will have on the project's economic feasibility.

In addition to concern about the presence of hazardous substances, many other environmental concerns may arise. These concerns typically appear when the real estate development project is located in or near an area considered to be environmentally or historically sensitive. Examples include:

- (1) seashore areas with large sand dunes;
- (2) pine barrens;ⁿ⁴
- (3) land that includes an aquifer providing water to a community;
- (4) areas that contain an historic site, like a Civil War battlefield;ⁿ⁵ or
- (5) areas that constitute a habitat for an endangered species, such as the snail darter or Karner blue butterfly.

Opposition to construction on such sites may have a statutory basis rooted in state or federal environmental laws. Such opposition may be extremely difficult or impossible to overcome, regardless of how much money is spent in taking protective measures or engaging in litigation.

[ii] Municipal Problems

Potential municipal problems may be more difficult to predict and prevent. Some municipalities have a silent, unwritten bias against certain types of land uses.

It may be very difficult and costly to prove that such a silent bias exists. Where a developer suspects that such a bias exists, he or she should review the minutes of planning and zoning board meetings for the past few years to see what type of reception similar projects received. If all such proposed projects required numerous revisions or were simply rejected, the developer must consider whether it is worth the time and money to present the project to local authorities and to engage in litigation necessary to obtain approval for the project. Some areas of the country have builders' associations which may be willing to join in the suit as *amicus curiae*, or may be willing to contribute towards the cost of legal fees.

Other municipal problems may include a moratorium on any new construction, or laws severely limiting new construction. A case decided in 1991 well illustrates the impact such actions may have on a developer.ⁿ⁶ A town law was enacted which limited, for five years, the number of building permits which could be issued in any approved subdivision in any year to 20 percent of the total units approved for the project. The purpose of the law was to alleviate traffic congestion until an additional highway exit could be constructed. The law was found to be a reasonable exercise of the municipal government's powers.

The effect of this type of law on a developer may be severe. It may significantly increase the projected costs by requiring the developer to build the project over a much longer period of time. Instead of paying interest on the building loan for one or two years, the developer will have to pay interest over five or more years. During these years, construction costs may significantly increase as well. In New York State, where the court decision was handed down, this blow came to many developers after they had already received subdivision approval and had begun the expensive process of constructing the infrastructure for their developments.

[iii] Neighborhood Problems

Residents already living in an area where a real estate development project is to be constructed often raise opposition to the project. The root of their objections is typically a dislike of change. However, the objections are frequently voiced as fears that increased traffic will be both noisy and dangerous. In addition, there are often claims that the development will further burden already-strained municipal services, such as police and fire protection, sewage treatment, etc. There may also be claims that additional schools will be necessary, and fears that property values will decrease due to the

increase in density of population. There may also be concerns that vandalism and other property damage may occur as new people are drawn to the neighborhood.

The developer must attempt to learn what fears are being entertained in the minds of community members. The developer may do this by meeting individually with neighbors or by holding a "town" meeting. The neighbors could be invited to a presentation where the developer would explain and show drawings of the proposed project, while giving the neighbors an opportunity to express their concerns and ask questions. The developer can then plan steps to alleviate their concerns. Such plans might include proposals to alter traffic patterns. For example, if the project is to be constructed near quiet streets which might become heavily-traveled thoroughfares, those streets could be made one-way or dead-end streets. This would keep traffic to a minimum, while not inconveniencing homeowners tremendously.

The developer might also offer to screen off the properties of existing homeowners, with a combination of wood fencing and trees, in order to safeguard the privacy they currently enjoy. This might also reduce their fears of vandalism by restricting access to their property. Such a step should also help to preserve their property values.

The developer would be well-advised to spend the money necessary to accomplish these measures. If they save the developer the time and expense of a prolonged battle in the courts for approval of the project, it will be well worth the effort. The developer may even find that he or she has won some new supporters of the project from among the neighbors. Such support is generally helpful when attempting to obtain approval from local zoning and planning boards.

[3] Types of Ownership

The developer must also decide on the type of ownership for the subdivision. For multi-residential developments, the choice may be the condominium or cooperative form of ownership, or the fee simple ownership forms. Examples of fee simple forms are the standard form of platted lots in a subdivision under which the owner owns his lot and the dwelling located on it, and cluster homes under which housing may be concentrated on portions of a parcel of land in order to gain open space on other portions of the parcel so long as the overall density does not exceed the density permitted by the local zoning code. The open space is usually owned by an association whose members are the individual lot owners. The condominium and the cooperative forms are creatures of statute. The developer must, therefore, be familiar with the state statutory requirements. Under the condominium form of ownership, which would include time share ownership interests, the owner usually owns a cube of space together with an undivided percentage interest in the common areas. In a cooperative, a corporation owns the building and the individual owners, through proprietary leases with the corporation, own a long-term leasehold interest in the spaces they occupy. In contrast, in the fee simple form of ownership, the owner will directly own a platted lot and dwelling situated on it. If there are common areas in the subdivision, they will be owned by an association set up to maintain the common areas.

In view of these differences, usually in a condominium or cooperative, neither the filing of the document to creating the condominium or cooperative, nor conveyance of the condominium or cooperative, will constitute a subdivision under state and local law. In contrast, in the fee simple form of development, separate lots are created that will be subject to governmental subdivision ordinances which will vary from community to community. The developer will have to weigh the advantages and disadvantages of each form of ownership before deciding which one is best and least onerous in trying to accomplish the type of development proposed to be done.

[4] Covenants, Restrictions and Easements

Many developers of residential and commercial property file, with the clerk or recorder of the county in which the project is located, a declaration of covenants and restrictions limiting the future use of the property. The purpose of the covenants and restrictions is to insure that property values will be protected by limiting the uses to which purchasers and tenants may put the property. And, of course, the declaration is intended to put all such prospective purchasers and tenants on notice regarding these limitations.

In residential subdivisions, the declarations cover a wide range of restrictions. Developers who wish to retain a natural, wooded setting may restrict the cutting or removal of trees, the color of structures, and the use of fences. Developers who wish to create an upscale, affluent ambiance might prohibit the use of clothes lines, ban the ownership of certain types of animals, and restrict storage of boats, campers and vehicles on the premises. Some developers may wish to retain a certain "look" or architectural style for the development. For example, they may require that all houses be constructed using a certain style, such as ranch, colonial or Spanish. Other common restrictions found in residential housing developments include:

- (1) prohibitions on the operation of businesses from the home;
- (2) minimum lot sizes;
- (3) minimum house sizes; and
- (4) minimum construction costs.

These declarations of restrictions normally contain a provision stating that they "run with the land" and are valid for a particular number of years. In many cases, they automatically renew themselves for successive periods thereafter. The declaration is enforceable by anyone who owns property subject to the declaration.

Declarations of covenants and restrictions affecting the use of commercial property are also filed with the appropriate county clerk. In addition, they may be placed in tenants' leases. The purpose is similar to the purpose of covenants and restrictions on the use of property in a residential development, namely, to maintain the value and desirability of a location by assuring control over the uses of the property by all purchasers and/or tenants. Commercial restrictions often prohibit uses of the property which produce hazardous substances or noxious odors.

Commercial and residential properties are often subject to a number of easements. Some easements are necessary so that utility lines and drainage sewers may be laid down, while other easements allow access to the developer or others to lands that have become "cut off" because of the sale of lots. Such easements run with the land and may be enforced by the party to whom the benefit inures.

[5] Property Management

Many residential developers include in the declaration of covenants and restrictions provisions regarding homeowners' associations. The purposes of such associations vary widely. Some are little more than social groups, while others undertake the very important responsibility of maintaining the grounds and other common areas of the development, including lawns, parking areas, recreational facilities, and other similar buildings and areas. The declaration typically provides for the appointment or election of a board of managers of the association. Depending on the extent of the association's duties, there may be a mandatory capital contribution imposed upon purchasers of units in the development, as well as regular monthly, quarterly or annual fees. The fees usually may be adjusted by a vote of the board of managers following receipt of notice from the homeowners. The homeowners' association usually has the right to place a lien against the individual homes if their owners fail to pay assessments of fees.

Commercial properties may have similar organizations with mandatory memberships. These organizations are generally characterized as "merchants' associations." If the commercial development is a shopping mall, for example, these associations encourage shopping at the mall through advertising and sales promotions. They are governed by a board of directors or managers who may be elected by the tenants, appointed by the developer, or selected through a combination of both methods. The association will usually impose mandatory dues that must be paid periodically. Failure to pay the dues is considered a default under the terms of the lease.

Current Legal Forms for Real Estate
Chapter 22 DEVELOPMENT AND SUBDIVISION
Part II. The Practice Background

26-22 Current Legal Forms for Real Estate § 22.29

§ 22.29 Subdivision Regulation

[1] Purposes of Subdivision Controls

The primary purpose of subdivision regulation is the integration of a new development into the existing community.ⁿ¹ Subdivision controls regulate such matters as:

- (1) street layout;
- (2) the provision of water, sewage and other utilities;
- (3) assurance of adequate drainage;
- (4) lot frontage;
- (5) lot size; and
- (6) the requirement of such amenities as sidewalks and street lights.

Modern subdivision regulations often require the dedication of land for public facilities, such as schools, parks and playgrounds or fees paid in lieu of such dedication.

Subdivision regulation is important for a variety of reasons. First, it enables the community to ensure, insofar as it is possible, that:

- (1) the new development will "fit in" with the existing community character;
- (2) the existing community will be able to provide needed services to the new development, both at the present time and in the future; and

(3) the new development will be a safe and healthy place for its citizens to live.ⁿ²

Second, subdivision controls give local governments the opportunity to encourage the success of the new development. This is important in several respects. Such regulations can protect tax revenue and prevent undue disbursements of public funds by limiting the formation of blighted areas. A financially successful development protects the lot purchaser and the mortgage lender by preserving resale value. It also helps to protect the reputation of the subdivision developer.

Finally, subdivision exactions and fees can aid a municipality in the provision of services to a new development by charging the developer for some or all of the cost of certain amenities required for the new development, such as parks, schools or libraries.

Subdivision regulation is closely related to the zoning and planning functions of local government.ⁿ³ Zoning law is one of the primary forms of land use regulation in the United States today. Zoning is based on specific ordinances which regulate the actual uses of real property. The ordinances are usually enacted by a local governing agency, a city council or county board, but may be supervised or implemented by other government bodies, such as a Board of Adjustment or Zoning Appeals Board.ⁿ⁴ Planning, on the other hand, has traditionally been more a matter of policy, of planning for the future needs and desires of the community. Although a comprehensive plan may be adopted by a local municipal governing body, it is usually designed by planners, and is not binding on the community.ⁿ⁵

Subdivision controls tend to be policy-oriented, since the predominate concern is the future development of the community.ⁿ⁶ On the other hand, subdivision requirements may be specifically enacted into law and, therefore, binding on both the developer and the decision makers.

New subdivisions, like all development, usually must comply with the existing zoning ordinances, but at least one jurisdiction has held that mere compliance with the zoning laws is not enough--a proposed plat may be denied approval where it fails to comply with the master plan.ⁿ⁷

[2] Sources and Scope of Authority

In its broadest sense, subdivision regulation is merely a form of zoning and planning, a function of the police power--the power to regulate for the health, safety and welfare of the citizens of the state.ⁿ¹ More specifically, the power to enact subdivision controls is linked to the zoning and planning powers of local government.

In their enabling legislation, most states either give the power to regulate subdivisions of land directly to the local planning boardⁿ² or authorize the local governing body to delegate that responsibility to the board.ⁿ³ Other states may direct that the planning board serve in an advisory capacity to the local legislative body. In such capacity, the board could make recommendations concerning what controls or regulations should be enacted and also provide input regarding the administration of the subdivision regulations in specific situations.ⁿ⁴ Still another method is to provide that the legislative board adopt the regulations, but the planning board administer the regulations.ⁿ⁵

[3] What Is a Subdivision?

An important preliminary issue is that of defining the term "subdivision." One author would define it as the "division of raw land into building lots."ⁿ¹ Another authority notes that some define it as a division of a lot for the purpose of sale or building development or as a division of land into a minimum number of lots.ⁿ² Yet another states that it is the division of a parcel of land into more than one parcel, for purposes of sale, lease or building.ⁿ³

States usually define a subdivision in terms of the division of one tract of land into two or more lots, tracts or parcels, for purposes of sale or development. The exact number of lots required in order to make the subdivision control laws applicable varies from state to state--from as few as two to as many as five.ⁿ⁴

[4] Procedures for Subdivision Approval

[a] In General

The power to approve subdivision plans is usually vested in the local planning body.ⁿ¹ Subdivision approval is normally a three-step process:

- (1) the preapplication conference;
- (2) the preliminary plat approval; and
- (3) the final plat approval.ⁿ²

[b] Preapplication Conference

Although most states do not require it, a developer will normally meet with local planning officials for a preapplication conference. This may even occur before the developer buys the land for the proposed subdivision. At the conference, the local officials will discuss the local subdivision control laws with the developer. The developer will also usually bring a sketch plan or sketch plat, a rough design layout of the proposed development. It would include streets, lands dedicated for public use, open space, number and position of lots, location of utilities, etc. The developer can then get some feedback from planning officials, other governmental bodies and possibly community groups before actually having detailed drawings prepared and incurring large expenses. The dedication of land for public use requires the developer to follow a statutory procedure usually spelled out by state and local statutes, under which the developer signs an agreement to convey the land to the public entity for a specified purpose, and joins in the execution of a dedication plat which is recorded in the plat records of the county to properly describe the dedicated land. The governmental authority will also sign the plat to evidence its acceptance of the land and obligation to maintain it as public property.

[c] Preliminary Plat

The next step in the process is the submission of a preliminary plat which is a detailed drawing of the subdivision plan. This is the first formal step in the approval process. Many states require a public hearing at this stage of the application process,ⁿ³ while others provide for an optional hearing.ⁿ⁴ Normally, the planning board is the initial reviewing body and it conducts the hearings. Some states may permit or require several other local governing boards or local officials to review proposed subdivisions and to make recommendations concerning them.ⁿ⁵ Several states provide simplified or streamlined review for certain types of subdivisions, usually those with a small number of lots.ⁿ⁶

At a public hearing before the planning board, the developer will make an oral presentation, describing the site plan and the nature and scope of the development project. Typically, the developer will also use visual aids. These will usually consist of the site plan map, photographs, sketches, slides, charts, etc. Where the development project will consist of a small number of buildings, an artist's sketch of the buildings and their layout--including parking areas, lighting and sidewalks--will suffice. If the proposed project will be much larger and consist ultimately of many structures, then the architect will often supply a scale model of the development for the board's inspection.

At the conclusion of the presentation, the members of the board are given an opportunity to ask questions and raise issues and concerns. The developer and its representatives are permitted to respond to these questions. In the event that a question cannot be answered readily, the developer may request, or the board may direct, that the application be tabled and a further hearing scheduled to give the developer time to collect necessary information and data.

Where the board is assisted by a professional planning staff, a report is typically generated by the staff before the hearing. A copy is then given to the developer prior to the hearing. The report may set forth issues which the staff feels

have not been adequately addressed in the developer's application for approval. These issues may focus on small items omitted from the application or site plan which can be addressed quickly and easily during the oral presentation.

On the other hand, the issues requiring further exploration may be very significant ones, such as traffic control, expected increased burdens on municipal services, or concerns about whether the project is appropriate for the location. These larger issues may require the direct testimony of the developer's experts during the presentation. For example, the developer's engineering consultant should be prepared to testify regarding potential traffic problems and the proposed solutions for such problems. The engineer should also be prepared to discuss the issue of increased burdens on municipal services and the methods proposed to reduce or eliminate such burdens. If further data is needed by either the developer or the board which cannot be provided at the hearing, the application will likely be tabled. Accordingly, the developer's team must try to anticipate issues that will arise at the hearing and be prepared for them, so that tabling will not be necessary. In many communities, the planning board meets only once each month; thus, tabling of an application can unduly delay the progress of the project. This delay, in turn, can prove quite costly, especially if the developer is paying interest during the interim on land acquisition loans.

At the conclusion of the developer's response to questions by the board and its professional planning staff, the hearing will be opened up for comments and questions from the public. If the developer has previously met with members of the community to allay their fears, if any, about the proposed project, the opposition may be minimal. If the developer has not, there may be a great deal of opposition. Some boards will permit the developer to respond to each speaker. However, most boards prefer to have the developer respond at the end of the question-and-answer session. If members of the public have raised serious issues which cannot be responded to immediately, the developer should request that the application be tabled. During the period between hearings, the developer may consider meeting with those community members who raised the issues in order to discuss potential solutions for their concerns. The developer will be in a much stronger position going into the next board meeting if he or she has already reached agreement with a former opponent.

At the conclusion of the developer's rebuttal, the board members engage in a discussion of the merits of the application. Additional questions may be asked of the developer at this time. Next, a member of the board will make a motion to either approve or reject the application. (The motion to approve may be conditioned upon the developer agreeing to make certain modifications to his plan.) The members of the board will then vote on the motion, and the secretary will record the motion and the vote thereon in the minutes of the board.

If the developer's application has been accepted, then the development can proceed and later, final plat approval will be sought. If the developer's application has been denied, the developer may request that the application be reconsidered at a future meeting. In the meantime, the developer should consider possible revisions to the project which may induce the board to approve his application at its next hearing.

These revisions should be submitted to the board in the form of an amended application. The procedure at the second hearing would be identical to the procedure at the first: an oral presentation, followed by questions from the board and its professional staff, questions and comments from community members, rebuttal by the developer, and another vote by the board.

This revision process may be repeated a number of times until either the project is approved, the developer withdraws the application, or the application is again disapproved.

[d] Appeals Process

Some states provide for an appeal process for either a disappointed developer whose proposal is rejected or an aggrieved landowner who objects to the plan.ⁿ⁷ Otherwise, the parties might challenge the rejection or approval via a lawsuit in the state courts. The grounds typically raised during the appeal process or in a lawsuit include:

1. *The planning board exceeded its jurisdiction in making its determination.* This would require an unusual set of facts and circumstances, such as where the planning board was seeking to interfere in some area of law that has been preempted by the state or federal government. For example, if the board required the draining of a wetland as a condition for receiving plan approval, the developer could not legally perform such draining without prior approval of the U.S. Army Corps of Engineers, an arm of the federal government.ⁿ⁸ Thus, such a condition would be beyond the scope of jurisdiction of the planning board.

2. *The determination of the planning board was made in violation of lawful procedure.* This ground envisions a situation where the board failed to follow its own procedures in making a ruling on the application. For example, perhaps the board refused to allow the developer to make a presentation, or refused to allow persons in favor of the proposal to speak at the public hearing.

3. *The determination of the planning board was arbitrary and capricious, or an abuse of discretion.* This is one of the most common grounds raised on appeal. It would be used in a situation where all the information submitted to the planning board would clearly indicate that the project should be approved, but the board rejects the project nonetheless.

4. *The decision of the planning board was not supported by substantial evidence.* This ground is frequently used and somewhat similar to the ground discussed above in Paragraph 3, above. This ground would be properly raised in a case where all of the evidence at the public hearing showed that the project would be a great benefit to the community and pose very few disadvantages, but the board rejected the application on the basis that the project would constitute a detriment to the community.

Typically, the reviewing court has the right to affirm, reverse or modify the determination of the planning board. In addition, the court may direct the board to take certain action, such as holding a new hearing or making further findings of fact. The appeals process may take a lengthy period of time and can be quite costly in terms of both legal fees and time lost. As the appeal slowly makes its way through the courts, the developer may lose out on one or more construction seasons for the project. The interest paid on any acquisition loans during that time can jeopardize the financial success of the project.

Current Legal Forms for Real Estate
Chapter 22 DEVELOPMENT AND SUBDIVISION
Part II. The Practice Background

26-22 Current Legal Forms for Real Estate § 22.30

§ 22.30 Financing

The financing of a real estate development project is often done in several phases. Generally, financing is required for:

- (1) acquisition of the land;
- (2) construction of the infrastructure; and
- (3) construction of the project's buildings and other features (e.g., swimming pool, tennis courts, etc.).

In addition, permanent financing will be necessary where the developer will own the completed project. Each phase of the financing has its own unique problems and considerations.

[1] Acquisition Financing

Acquisition financing involves raising sufficient funds to acquire fee title to the land on which the project will be located. This may be done by seeking investors who will contribute certain sums of money for an ownership interest in the project. Alternatively, loans for acquisition may be sought from financial institutions.

Institutional lenders generally will not finance the acquisition of vacant land using the land as security for the loan. However, an institutional lender may loan money toward the cost of acquisition if the developer has other collateral which can be offered as security. This may include:

- (1) equity in another real estate development project;
- (2) the developer's home;
- (3) equipment;
- (4) stocks and bonds;

- (5) certificates of deposit;
- (6) works of art; or
- (7) a combination of the above.

Of course, the developer may be understandably reluctant to tie up personal assets for the acquisition of a piece of vacant land which may not produce a return on the investment for a number of years. Moreover, commitment of collateral to this particular acquisition may reduce the ability to obtain short-term financing for improvements to other development projects.

Frequently, developers will seek acquisition financing from the seller of the land via a purchase money mortgage. That is, the seller would hold the mortgage to the property himself, rather than a financial institution such as a bank or savings and loan.

[2] Construction Financing

In many real estate development projects, the construction actually occurs in two phases. The first involves the installation of the infrastructure. The second involves the construction of the buildings. The infrastructure includes the roads, sidewalks, water mains, sewer lines, storm sewers and other utilities which will be used in common by the future owners or tenants of the development. Installation of the infrastructure is quite costly and frequently involves serious disruption throughout the entire parcel of land.

Institutional lenders are much more enthusiastic about construction financing than they are about acquisition financing. Construction financing, like the construction itself, is usually done in phases through the use of a building loan agreement, coupled with a bond, or a note and mortgage.

The building loan agreement describes how the funds will be advanced to the developer. Typically, the lender and developer will negotiate a schedule of cash advances which are tied to the progress of the development project. The schedule will provide that a particular percentage of the total loan amount, or a specified sum of money, will be released to the developer upon completion of each stage of construction. The lender will usually inspect the development periodically to determine whether that stage has, in fact, been completed. Alternatively, the lender may request certification from the developer's design professional when each stage has been finished.

Most building loan agreements provide that the lender is not obligated to release any additional funds if there has been a default under the terms of the loan documents, or if any liens have been filed against the project. Accordingly, most lenders will request that the title company providing title insurance for the project recertify title before each advance is made. If a lien is found, the developer will need to obtain a release from the lienor before receiving the next advance from the lender. This may often be accomplished by making part of the advance payable to the lienor.

Typically, the interest rate on a construction loan is variable and tied to the prime rate or a similar index. The frequency of adjustments and the maximum rate of interest that may be charged are matters for negotiation between the parties.

Usually, the collateral for a construction loan will be the land and the improvements made thereon, together with the plans, specifications, maps, drawings and other items prepared for use in the project. Most agreements between design professionals and developers provide that the design professional retains ownership of the plans, drawings, etc. Accordingly, the lender will need to have the design professional join in the security agreement so that, in the event of a default by the developer on the loan, the lender will have the right to make use of the plans and drawings.

If the lender and developer agree to any material change in the terms of the building loan agreement, a written amendment should be executed by the parties and filed with the county clerk. For example, any change in the amount or frequency of loan repayments should be considered material.

Frequently, construction loan documents for subdivided properties will contain provisions allowing for "releases" of lots or sections of the property upon payment to the lender of a specified sum per lot or section, together with an amount necessary to cover the lender's cost of preparing and recording a release of part of the mortgaged premises. The purpose of such a provision is to allow sales of individual houses or buildings before the entire development project is complete. This allows the developer to reduce the interest costs by paying off principal, lot by lot. In calculating the amount for each lot, the lender generally takes the total amount of the loan and multiplies that amount by a fraction whose numerator is the number of lots to be released and whose denominator is the total number of lots in the development. Some lenders will require the use of a smaller number as the numerator, such as 90 percent of the number of lots to be released.

Lenders generally will not release lots if the developer is in default. If the developer is in default, there may be an accumulation of expenses incurred by the lender--such as legal fees, court fees and related foreclosure costs--which are secured by the lien of the mortgage. Without a provision in the loan documents barring releases if a default occurs, the developer could theoretically obtain releases of all lots while still owing the lender a significant sum of money. The lender would then have no security for such costs.

Where it is the intention of the developer to retain ownership of the development at the completion of the project, such release provisions are, of course, unnecessary. Instead, many developers request provisions whereby the construction financing will be automatically rolled into permanent financing.

[3] Permanent Financing

The term "permanent financing" generally refers to financing provided at the completion of a real estate development project, where the developer intends to retain ownership. (The classic example is a development to be leased to tenants--whether residential or commercial--by the developer.) Institutional lenders tend to be even more enthusiastic about this type of financing than they are about construction financing. The risk for them is less than it is with construction financing because there are no fears about whether the project will ever be completed, and it is relatively easy to ascertain the value of the completed project. (Value is traditionally determined by examining the sales price of comparable properties in the surrounding area in the recent past.)

Most lenders will offer only adjustable interest rates on commercial loans, with the rates tied to the prime rate or a similar index. The developer may be able to negotiate with the lender about the frequency of interest rate adjustments. The current trend among lenders is to adjust the interest rate immediately upon a change in the prime rate or other index. However, where the developer will be dependent on rents as the source of loan repayments, the developer should insist upon an annual or semi-annual interest rate adjustment to correspond with periodic increases in the rental revenues. (The disadvantage to this method, however, is that, if interest rates suddenly drop, the developer may have to wait as much as a year before the interest rate is adjusted downward.)

The collateral for permanent financing will generally be the land and structures, together with an assignment of leases and rents. In addition, the lender may take a security interest in fixtures and any equipment which is necessary or useful for the operation of the project. The assignment of leases and rents will provide that, in the event of a default, the lender may give notice of the default to the tenants and begin collecting rents directly from them. Such rents would be used first to eliminate the loan repayment amounts in arrears and then to cover regular future loan repayments. Where the developer's own business occupies the project, the lender could collect a reasonable rental fee from the developer.

The term of the loan and the amortization period are subject to negotiation between the lender and the developer. The

lender is under no obligation to extend the term of the loan. However, if the lender agrees to extend the term, it may condition the extension upon the payment of "points," an adjustment in the interest rate, or other similar arrangement.

If the lender does not agree to extend the loan, the developer must be prepared to pay off the loan at the end of the loan term. Typically, this would be accomplished by borrowing funds from another lender and paying these funds to the original lender. Again, the developer may be required to pay points, closing costs and other fees in this situation to the new lender.

Current Legal Forms for Real Estate
Chapter 22 DEVELOPMENT AND SUBDIVISION
Part II. The Practice Background

26-22 Current Legal Forms for Real Estate § 22.31

§ 22.31 Construction Phase

Once all governmental approvals have been obtained and financing has been arranged, the developer is ready to begin construction of the real estate development project. Many very large real estate developers have their own in-house construction crews. Smaller developers must either hire a general contractor, or act as their own general contractors and hire subcontractors.

[1] General Contractor

[a] Selection

Where the developer must hire either a general contractor or subcontractors, the design professional generally will prepare bid specifications for use by the developer. A notice soliciting bids may then be placed in local newspapers and may be sent to general contractors. The notice typically indicates:

- (1) the general nature and scope of the project;
- (2) where a copy of the bid specifications may be obtained;
- (3) the date on which the bids are due; and
- (4) the time and place at which the bids will be opened.

Because the bid specifications are lengthy and costly to reproduce, often bidders will be required to place a refundable deposit to guarantee the return of the bid specifications to the developer. The specifications consist of construction-related documents, including the site plan, specifications regarding the types of materials to be used and detailed instructions to bidders about how the construction work must be performed. The instructions include such information as:

- (1) whether performance bonds will be required;

- (2) estimated dates for completion of the project;
- (3) schedules of payments to be made to the contractors; and
- (4) warranties required of the bidders.

The bids are opened at the time and place advertised in the notices. The developer generally will award the bid to the lowest bidder who satisfies all the bid requirements. Most developers reserve the right to reject all bids if they are unacceptably high, or if the bidders lack the proper qualifications or experience to handle the project. In such case, the project will then be "rebid."

Of course, the developer is not required to use a bidding process at all. Instead, the developer may simply select a contractor with whom the developer is comfortable and negotiate a price. However, the bidding process is more popular in this country because there is a widespread perception that it results in the lowest possible price for a given development project.

[b] Contract

Once the developer has selected a general contractor, a contract is negotiated between the two parties and executed. The bid documents form an integral part of the contract. Where the design professional is closely involved in the construction process, the American Institute of Architects' (AIA) standard form contract is frequently used. The AIA is a private, non-profit organization which undertakes to draft in market form contracts commonly used in the construction industry. The forms are copyrighted and therefore need to be purchased if used. The sale of the form documents generates substantial revenue for the organization. The use of AIA forms is advantageous to the extent that the basic terms of the commonly used documents are familiar to the participants in the construction process, and utilization of the terms saves time and expense in document preparation. Also, because the forms have been in use for more than 100 years, many of the clauses have been judicially reviewed and interpreted. Because the AIA documents are drafted with an eye toward protecting architects, the developer would be well-advised to have his or her attorney carefully review the contract before the developer signs it. If the AIA contract does not seem adequate, the developer's attorney should draft an agreement from scratch.

The form contracts are rarely used without significant modification, at least on complex commercial construction projects. A listing of the various AIA forms of contract can be found on its website at www.AIA.org.

[c] Insurance

A developer faces significant risk exposure each time construction is undertaken on the developer's behalf. The law is full of instances where someone suffers an injury on the job and sues the property owner-developer under various liability theories, such as the failure of the property owner to maintain safe premises. In addition, damage to the work-in-progress can cause delays in the construction project if those issues are not addressed by a comprehensive and integrated insurance program. At a minimum, the contract should require that the general contractor carry general liability insurance coverage against bodily injury, property damage to third-party property (not the property of the insured), personal injury, medical payments, defense costs and certain liabilities assumed by the contractor. Each project must be looked at individually with the developer's insurance agent, but generally the minimum limits for commercial general liability should be \$1 million per occurrence, with an annual aggregate of \$2 million.

Evidence of adequate worker's compensation and employer's liability insurance is also necessary so that injuries that occur to the contractor's employees while performing work are covered by that type of insurance. The developer should require that the contractor's insurance be endorsed to be primary to any comprehensive general liability insurance carried by the developer. The developer will want to assure that it is named as an additional insured to the contractor's

general liability policy. This can only be done by endorsement to that policy. The designation of the developer as an additional insured on a certificate of insurance does not make the owner an additional insured on the policy. The developer should not rely on the certificate, but should require a copy of the endorsement to the policy. In addition, the developer will want to assure that it is given prior written notice of cancellation or non-renewal of the insurance policy.

The other major type of insurance required to be covered in the contract of the general contractor is the builder's risk property insurance which covers the structure as it is being constructed during the progress of construction. The builder's risk coverage is separate from the permanent property insurance obtained once the project is completed. The forms of covered perils are the same as those that are covered under the permanent property insurance. For example, the "special form" type of builder's risk insurance covers risks of direct physical loss unless excluded, formerly known as "all-risk" protection. The developer will typically want to maintain the builder's risk insurance but there are occasions where savings can be obtained by having the general contractor obtain this insurance. In either event, the parties will want to be sure that materials and equipment that are designated for the project stored off-site or in transit are covered under the builder's risk policy. Generally, this insurance is issued on a replacement cost basis as opposed to actual cash value. Regardless of which party carries the builder's risk insurance, the policy should cover the property interests of the owner, contractor and subcontractors, as their interests may appear. This assures that all materials and equipment will be covered regardless of whether title is technically passed to the developer or general contractor, as the case may be.

[d] Bonds

The developer may require that the general contractor obtain bonds as a guarantee that the work will be completed. If so, this requirement should be included in the bid specifications, since the cost of obtaining bonds may add considerably to the amount of the contractor's bid. Two types of bonds are commonly required: (1) material and labor bonds; and (2) performance or completion bonds. The first guarantees that all costs for materials used in the development project and for all labor expended on the project will be paid in the event that the general contractor either refuses or fails to do so. The second guarantees that the project will be completed. In other words, if the contractor fails to complete the project, the insurance company will pay the sums necessary to complete the job in accordance with the plans and specifications.

The bonds will provide a great measure of comfort to the developer. They assure that the project will be completed regardless of the general contractor's future acts or omissions. However, bonds are quite costly and cannot be obtained by all general contractors. Thus, the developer may not want to exclude from the bidding process those general contractors who are unable to acquire bonds. In addition, the bonds, by their terms, may prevent changes from being made to the construction plans during the course of construction. If the developer wishes to make any changes, the approval of the bonding company may be required, which is a potentially time-consuming process. Also, the bonding company may charge an additional premium if the change increases the total cost of the project. In short, the bonds may prove to be an unnecessary and costly complication for the developer.

[2] Subcontractors

[a] Selection

Where the developer employs a general contractor, the developer will not be greatly involved in the process of selecting subcontractors. However, where the developer acts as general contractor, he or she will be very actively involved with subcontractors.

The process of obtaining subcontractors is very similar to the process of obtaining a general contractor. The developer may resort to the bidding process, or may simply select subcontractors with whom the developer is comfortable and negotiate agreements with them.

[b] Contracts

The contract between a developer and a subcontractor will specify the subcontractor's price and a schedule of payments to be made to the subcontractor by the developer. It should also contain those portions of the bid documents pertaining to the part of the project to be completed by the subcontractor. Such documents should include:

- (1) a detailed description of the subcontractor's duties;
- (2) specifications regarding the materials that must be used;
- (3) an estimated date of completion of the work;
- (4) any warranties required of the subcontractor by the developer; and
- (5) the insurance required to be carried by the subcontractor, including the amount of commercial general liability insurance required to be carried and the named insured parties, and the requirement to carry adequate worker's compensation insurance so that injuries to the subcontractor's employees while performing work are covered by such worker's compensation insurance.

Current Legal Forms for Real Estate
Chapter 22 DEVELOPMENT AND SUBDIVISION
Part II. The Practice Background

26-22 Current Legal Forms for Real Estate § 22.32

§ 22.32 Marketing Phase

The marketing phase will often begin before or during the construction phase. To illustrate, in the case of a residential subdivision, the construction of individual houses usually does not occur until the infrastructure is complete and the lots have been chosen by particular purchasers, who then select the desired model home to be constructed. In the case of a shopping mall, the construction plans often are not finalized until "anchor tenants" are located and sign leases. ("Anchor tenants" are those tenants who are most likely to attract large numbers of consumers to the mall, such as Macy's, Sears, etc.) Where the commercial development is an office park or industrial park, buildings are often constructed to suit the needs of particular tenants. Additional tenants are later located to fill up empty, additional space.

[1] Marketing Agent

Some developers use their own in-house marketing staff, while others hire licensed real estate brokers to act as marketing agents. The marketing agent establishes the developer's first contact with a potential purchaser or tenant. Accordingly, the selection of an appropriate agent is extremely important.

The developer should seek someone with vast experience in marketing the particular type of product which the developer is planning to offer to the general public. A person with many years' experience in the residential real estate market may not be helpful in marketing office space.

In selecting a real estate agent, the developer should be certain that the agent possesses the required state license to act as a real estate agent. The developer should also ask for references. He or she should then contact the references to discuss the qualifications and ability of the real estate agent, and the developer should also inquire about any problems encountered, how they were solved, and the degree of satisfaction received by the reference from the agent's efforts. The developer should also be certain that the agent has sufficient staff to cover for the agent when he or she is ill or on vacation.

The role of the agent is to locate prospective purchasers or tenants for the developer's project. This is frequently done through advertising on radio and television, and in local newspapers and magazines. In addition, brochures are often mailed to targeted groups of people and businesses. Open houses may be held to showcase models that have already

been constructed. The agent may also rent tables at trade shows or conferences to further advertise the development.

Frequently, the real estate agent will negotiate, on behalf of the developer, the terms of the lease or sales contract with the prospective tenant or purchaser. The agent may also be called upon to help locate financing for a prospective purchaser.

The professional services contract between the developer and the real estate agent should clearly delineate all of the responsibilities of the agent and the developer. Typically, costs for advertising the development are allocated between the parties, and these costs and allocation are set forth in the agreement. The agreement should also specify whether the development will be included in multiple listing services. If so, the agreement should specify which services will be used, the cost, and the party or parties responsible for this expense.

Many real estate brokers' associations have their own standardized professional services agreements. These contracts typically protect the broker's interests far more than the developer's. Accordingly, the developer should consider having his or her attorney draw up an agreement tailored to the particular project.

The agreement between the developer and the real estate agent must also contain compensation provisions. Real estate agents are typically paid on a commission basis; they may be paid a percentage of the purchase price of a house or unit in the development, or a percentage of the gross rents to be paid by a tenant in the future. Alternatively, they may be paid a flat fee per house or unit sold, or per square foot rented.

Developers tend to make significant profits on the many "extras" which a homeowner or tenant sometimes requests to have added to the standard unit purchased or leased. Frequently, real estate agents are given a commission fixed at a different rate for these items, as an added incentive to the agents to "push" them. "Extras" may include upgrades in the carpeting and appliances offered, special lighting or fixtures, and other items.

[2] Revision of Marketing Strategy

There may come a time in the history of a real estate development project where sales and/or rentals are simply not living up to expectations. This situation, in turn, may place a severe financial strain on the developer. In such a case, the developer must assess the nature of the problem. The problem may include one of the following:

- (1) a general weakness in the local or regional real estate market;
- (2) the cost of units far exceeds the price most prospective purchasers or tenants are able to pay; or
- (3) there may be an over-abundance of comparable units available in the surrounding area.

Accordingly, the developer may need to revise the marketing strategy before he or she becomes unable to meet future financial obligations.

In a sales situation, the developer may consider personally offering low-interest financing to new purchasers for a short period of time, such as three to five years. At the end of the period, the purchaser could then refinance. Presumably, at that point in time, the purchaser will have more savings and a greater income, thus enabling him or her to qualify for a mortgage loan through a bank. The developer might also offer tenants a "rent-to-own" program, whereby part of the rent paid in the past is applied against the purchase price when the tenant is ready to buy at a future date.

The developer might also offer a "stripped-down" model home for less affluent purchasers. In such case, the purchasers, rather than the developer, would do their own painting, landscaping, etc., in order to save money on the purchase price.

In a commercial lease situation, the developer may offer incentives to attract tenants. The developer may offer an increased "fit up" allowance to cover a large portion of the tenant's cost of adapting the rental area for its specific use. Alternatively, the developer might offer free rent for a month or two, or the developer might offer a year's use of the premises at a reduced rent. The developer might also consider offering to restructure the rental payments in order to permit lower rents in the early years when the business is starting up, and higher rents later, resulting in the same *total* rent over the life of the lease.

Current Legal Forms for Real Estate
Chapter 22 DEVELOPMENT AND SUBDIVISION
Part III. Drafting Guidelines

26-22 Current Legal Forms for Real Estate § 22.43

§ 22.43 Overview of Drafting Guidelines

From the developer's prospective, much of the work will be completed before the attorney gets involved. That is, by the time that the attorney gets a call from his client, the developer will already have expended a significant amount of time and effort in reaching a preliminary conclusion that the project is viable. As a practical matter, a developer will review and investigate many potential projects before he selects a project to pursue. Even after the developer decides to pursue a project, there is still a high probability that the project still can't be completed economically. Given all of this initial time and effort that will be invested by the developer, it is easy to understand why clients are anxious to get the ball rolling. In any event, unless the lawyer is also a trusted business advisor, the experienced developer will usually call his attorney when he is ready to get serious about pursuing the project, and committing significant financial resources.

Generally, the first task of the attorney will be to draft a letter of intent or a purchase agreement. (See Chapter 21 Sales and Exchanges in Volume 25 of Current Legal Forms with Tax Analysis). The first document set forth in these Drafting Guidelines is a purchase agreement. The purchase agreement is a key step in the development of a parcel of real estate. A purchase agreement for property to be developed will probably contain a large number of pre-closing conditions. These conditions will require the developer to fully and completely investigate the property to confirm that the property can be developed in the manner desired by the developer. A developer must be concerned about wetlands, environmental contamination, zoning, ability to get permits, financing, signing leases, obtaining construction bids, obtaining subdivision approvals, etc. If the developer purchases the property prior to the complete and final resolution of all outstanding issues, he is taking a large risk. Additionally, in connection with the purchase and development of the property, the attorney must advise the developer as to whether an entity should be used to complete the purchase, construct the improvements and own the project. (See, Chapter 1 Partnerships in Volume 1, Chapter 2 Joint Ventures in Volume 2, Chapter 17 Corporate Organization in Volume 22, Chapter 18A Limited Liability Companies in Volume 22, and Chapter 20 Real Estate Entities in Volume 24 in Current Legal Forms with Tax Analysis).

The second document addressed in these Drafting Guidelines is the construction contract. Obviously, the developer has decided to pursue the project because he believes that he can make money. However, if the projected costs exceed the developer's budget, the project may fail, or the developer will not make as much money. Also, if the improvements are not properly constructed, or if they are not timely completed, the developer will face numerous problems such as, the loss of tenants, failure to obtain permanent financing, inability to obtain an occupancy permit, etc. For additional

construction contracts see Part IV, Forms, Section C, *infra*.

If the developer desires to have the building certified as a "green" building, there should be a provision in the documents requiring the building to be built so that it achieves a certain level under the rating system used for such certifications. That system is often the certification system put together by the U.S. Green Building Council known as the LEED system. The term "LEED" stands for "Leadership in Energy & Environmental Design." LEED is one of several voluntary, third party verification systems designed to quantify the application of green building concepts in several categories, including sustainable sites, water efficiency, energy efficiency and atmosphere, building materials and resources, and indoor air quality.

The third document addressed is an easement and restriction agreement. In large and sophisticated development transactions there will probably be many different parties which will be involved in one or more aspects of the project. A municipality or an adjacent property owner might approve a site plan or a change in use or zoning provided the developer agrees to certain conditions. These conditions are set forth in a restriction agreement which must be recorded. Purchasers of outlots might be concerned about parking, access or sight lines. Prospective tenants might be concerned about restricting the types of activities that can be undertaken at the development. A homeowner's association might want access through a property for purposes of installing utilities or accessing green space or common area. Owners of adjacent property may want to use common facilities, such as a retention pond. Further, they may want to make sure that each owner maintains their property, since a drop in value of one property would likely affect the other. The more parties that are involved and the more issues that are addressed, the more difficult it will be to finalize the agreement. As a practical matter, a complicated easement and restriction agreement involving several parties might be the most difficult document in the development process to finalize. The document addressed in these Drafting Guidelines is a very complex agreement involving only two parties. For additional restriction and easement agreements see Part IV, Forms, Sections D and E.

As with any legal document, the practitioner must review and become familiar with the applicable laws and practices in the state where the project is located. This is especially true in a real estate project where local recording laws, case law and customs vary widely from state to state. In fact, it is not uncommon to find that local customs and practices differ significantly among counties within a state.

Current Legal Forms for Real Estate
Chapter 22 DEVELOPMENT AND SUBDIVISION
Part III. Drafting Guidelines

26-22 Current Legal Forms for Real Estate § 22.44

§ 22.44 Purchase Agreement for Property with Purchase Price to be Determined by Survey with a Temporary Lease Provision

.....

CONTRACT

PURCHASE AGREEMENT

THIS PURCHASE AGREEMENT is made at _____ [city], _____ [state], this _____ [day] day of _____ [month], _____ [year], by and between _____ [name], a(n) _____ [state] _____ [entity] (hereinafter referred to as "Seller"), and _____ [name], a(n) _____ [state] _____ [entity] (hereinafter referred to as "Buyer").

WHEREAS, Seller owns the Property (as hereinafter defined) and Seller desires to sell the Property to Buyer; and

WHEREAS, Buyer desires to purchase the Property and redevelop it as an automotive dealership;

NOW, THEREFORE, in consideration of the promises and covenants hereinafter set forth, the parties agree as follows:

1. Purchase and Sale. Seller agrees to sell and convey to Buyer, and Buyer agrees to purchase and pay for, the premises outlined on Exhibit A, consisting of approximately ____ (____) acres of vacant land (the "Property"). Upon completion of the survey referred to in subparagraph 2.C., the parties agree to prepare an accurate legal description to the Property. The Property shall include the land and any and all rights, privileges, and easements appertaining thereto.
(n1)COMMENT

2. Purchase Price. Subject to the provisions of subparagraph 2.C., below, the total purchase price for the Property is

_____ Dollars (\$ _____) per acre, which price shall be payable by Buyer as follows: (n2)COMMENT

A. Earnest Money. Upon execution hereof, Buyer will deposit the sum of _____ Dollars (\$ _____) into escrow with the escrow agent (the amount will be referred to as the "Deposit"). The Deposit shall be non-refundable, unless Seller shall breach this Agreement or be unable to perform hereunder, or one of the conditions described in Paragraph 4 hereunder shall not be satisfied, in which case, the Deposit shall be returned to Buyer in its entirety, with interest, if any. The Deposit will be credited against the purchase price. (n3)COMMENT

B. Balance of Purchase Price. The balance of the purchase price shall be deposited into escrow on or before the Closing Date of this transaction.

C. Calculation of Purchase Price. The purchase price will be based upon the aggregate amount of acreage being purchased by Buyer. For purposes of this Agreement, acreage will be the amount of acreage of the Property determined by a survey. Upon execution hereof, Buyer shall commission a licensed engineer or surveyor to prepare a survey of the Property in accordance with the Minimum Standard Detail Requirements of ALTA/ASCM, showing all easements, restrictions, reservations, conditions, encroachment and appurtenances affecting the Property, which shall be sufficient in all respects to have the standard general exceptions removed from the Owner's Policy of Title Insurance. In addition, the surveyor or engineer shall be instructed to calculate the acreage upon which the purchase price will be calculated. Notwithstanding the foregoing to the contrary, the purchase price will not exceed the sum of _____ Dollars (\$ _____). (n4)COMMENT

3. Closing Date. The closing date of this transaction shall be fifteen (15) days after the conditions set forth in Paragraph 4 have been satisfied (the "Closing Date"). The Closing Date may be accelerated by agreement of the parties. (n5)COMMENT

4. Conditions. This Agreement, and Buyer's obligation to purchase the Property hereunder, is subject to the following:

A. Due Diligence Investigation. Buyer satisfactorily completing a diligent inspection of the Property, and satisfying itself as to the feasibility of the Property for use as a car dealership. Buyer's inspection may include, without limitation, tests of the subsurface soil conditions of the Property, boundary surveys, engineering reports, feasibility studies, and environmental inspections. Buyer and Buyer's agents shall have access to the Property for such inspections. Buyer hereby agrees to defend, indemnify and hold Seller harmless from the acts of Buyer or Buyer's agents resulting from access to the Property during the Due Diligence Period. (n6)COMMENT

B. Zoning and Permits. Buyer obtaining all final, irrevocable, uncontestable and unappealable permits and approvals as may be required to be issued by any governmental body having jurisdiction over the Property, including, without limitation, use permits, curb cut approval, building permits, zoning changes and approvals, permits and approvals for the construction and installation of sanitary storm sewers and other appurtenant systems to serve the Property (all of the foregoing being hereinafter called the "Permits"), as may be required by Buyer to permit the lawful construction, installation, maintenance and operation on the Property as a car dealership as Buyer contemplates. Seller agrees to reasonably cooperate with Buyer to obtain such Permits, including, without limitation, execution of an application to change the zoning of the Property to a classification which allows car dealerships. (n7)COMMENT

C. Approval of American Motors. Buyer obtaining the consent of American Motors (and any other required third parties) for the operation of a an American Motors car dealership on the Property. (n8)COMMENT

If for any reason any of the conditions set forth above are not satisfied by _____ [month]
_____ [day], _____ [year] (the "Due Diligence Period"), then this Agreement shall be null and void. In the event that Buyer shall notify Seller in writing that it is unable to satisfy any of the conditions set forth above prior to such date, then Buyer may extend the Due Diligence Period until _____ [month]

_____ [day], _____ [year]. Notwithstanding the foregoing to the contrary, Buyer may notify Seller in writing at any time that it is unable to satisfy the conditions set forth above, in which case this Agreement will be immediately null and void. (n9)COMMENT

5. Warranties.

A. Seller hereby warrants, which warranties shall be effective as of the Closing Date and shall survive the transfer of title to Buyer, or Buyer's nominee, as follows:

(i) that, to the best of Seller's knowledge, all improvements made by the local governmental authority that now benefit the Property have been assessed against the Property as of the execution date of this Agreement, and there are no pending or proposed assessments against the Property;

(ii) that, to the best of Seller's knowledge, there are no unrecorded easements, leases or other rights affecting the Property;

(iii) that there are no pending or, to the best of Seller's knowledge, threatened actions, suits or proceedings against Seller with respect to the Property, including, without limitation, condemnation proceedings or environmental proceedings;

(iv) that there are no outstanding notices or orders from any governmental authority with respect to the condition of the Property, or with respect to any claim of violation of any laws, ordinances, zoning codes, including, without limitation, all environmental laws, rules and regulations;

(v) that, to the best of Seller's knowledge, the Property is not in violation of any environmental laws, rules or regulations, whether federal, state or local, and that, to the best of Seller's knowledge, the Property is free from any form of contamination in or on the Property, including, without limitation, petroleum, crude oil, toxic or radioactive materials and that the Property does not contain any condition that is a public or private nuisance;

(vi) that, to the best of Seller's knowledge, there are no encroachments from adjoining properties affecting all or any part of the Property;

(vii) that, to the best of Seller's knowledge, there are no underground storage tanks, oil and gas wells, or other underground facilities affecting the Property;

(viii) that Seller has delivered originals and/or accurate copies of all documents, summaries, reports and tests which Seller has in his possession with respect to the Property, including, without limitation, environmental surveys, soil reports, boundary surveys and engineering reports; and

(ix) that Seller owns, and will own on the Closing Date, the fee simple ownership interest in the Property.
(n10)COMMENT

B. Buyer hereby warrants, which warranties shall be effective as of the closing date and shall survive the transfer of title to Buyer, or Buyer's nominee, as follows:

(i) This Agreement has been duly executed and delivered by Buyer and constitutes the legal, valid and binding obligation of Buyer, enforceable in accordance with its terms except to the extent that the enforcement of this Agreement may be limited by bankruptcy, insolvency, reorganization, moratorium or other similar laws affecting the enforcement of creditors' rights generally. The performance of this Agreement, and the consummation of the transactions contemplated by this Agreement, will not result in a breach or violation by Buyer of any of the terms or provisions of, or constitute a default by Buyer under any other agreement or instrument to which Buyer is a party or by

which Buyer is bound. Buyer is not a party to, or subject to or bound by, any judgment, injunction, order decree of any court or governmental authority, or any arbitration award, which may materially restrict or interfere with the performance of Buyer of this Agreement or such other documents or instruments which may be executed or delivered by Buyer in connection with this Agreement.

(ii) There is no action, suit, proceeding or investigation pending (or, to the Buyer's knowledge, threatened) against or related to Buyer which might adversely affect or restrict Buyer's ability to consummate the transactions contemplated by this Agreement. (n11)COMMENT

6. Title Provisions.

A. Title. Seller shall convey marketable title to the Property to Buyer, or Buyer's nominee, by good and sufficient general warranty deed, with the general warranty covenants, warranting title to be free and clear of all liens, charges and encumbrances, clouds and defects whatsoever, except such restrictions, reservations, limitations, easements and conditions of record, if any, which are approved by Buyer as hereinafter provided, zoning ordinances, and taxes and assessments, both general and special, which are a lien but not yet due and payable. Said deed shall be deposited into escrow on or before the Closing Date. Prior to the deposit of said deed into escrow, a copy of said deed shall be submitted to Buyer's counsel for approval. (n12)COMMENT

B. Title Insurance. Seller shall accompany Seller's deed with an ALTA Owner's Policy of Title Insurance in the amount of the purchase price issued by Stewart Title Agency of Ohio, Inc. (hereinafter called "title company"), in its customary form, with the "so-called" standard exceptions deleted, insuring marketable title to the Property to be good in Buyer, subject only to the exceptions to be contained in the deed.

C. Title Report. A preliminary title report, with a special tax search included, in the form of a commitment to issue the required title policy requested by Buyer ("title report") shall be ordered from the title company by Buyer immediately upon the execution of this Agreement, a copy of which shall be delivered to Seller. Within ten (10) working days from the receipt of the survey and the title report by Buyer, Buyer shall notify Seller and the title company of any restrictions, reservations, limitations, easements and conditions of record (together herein called "title defects") disclosed in said title report which are objectionable to Buyer. In the event Buyer so notifies Seller of any such title defects, Seller shall have until the Closing Date to cure or remove said title defects. Seller shall be obligated to remove all such title defects objected to by Buyer that may be removed by the payment of money, and Seller shall take whatever reasonable steps may be necessary to remove any other title defects. If Seller is unable to satisfy Buyer with respect to non-monetary items which Buyer has objected to, then this Agreement will be null and void, and the Deposit shall be immediately returned to Buyer. (n13)COMMENT

7. Condition of Property. Subject to the satisfactory completion of the Due Diligence inspection herein-above described and the representations and disclosures herein, Buyer agrees that it is purchasing the Property in "As Is" condition. Buyer further stipulates that other than herein specified there have been no express or implied representations, warranties, or statements concerning the condition of the Property, the value of same, the improvements thereon, the use that can be made of the Property, or anything concerning same including any environmental hazard or condition other than what is included in this written Purchase Agreement, upon which Buyer has relied. (n14)COMMENT

8. Possession. Subject to Paragraph 15, Seller shall deliver possession of the Property as of the Closing Date, in the condition as warranted by Seller.

9. Proration. All real estate taxes shall be prorated by the escrow agent as of the date the deed is filed for record, using for such purpose the rate and valuation shown on the latest available tax duplicate. If the aforesaid proration shall not fully reimburse Buyer for all real estate taxes accrued and unpaid with respect to the Property as of the record date of transfer of title, Seller shall promptly reimburse Buyer that amount accrued in excess of the proration credit upon the

official certification of the real estate tax duplicate for the year in which transfer of title occurs. All assessments, both general and special, shall be prorated as of the date of the filing of the Deed for record. (n15)COMMENT

10. Broker. Seller and Buyer represent, which representation shall survive the transfer of title, that no real estate broker was involved in this transaction and that no brokerage fees or other compensation is due any real estate broker or any other person because of this transaction.

11. Escrow Agent. This transaction shall be placed in escrow with the title company ("escrow agent"). An executed counterpart of this Agreement shall be deposited with the escrow agent by Buyer, and this Agreement shall serve as the escrow instructions. The escrow agent may attach its standard conditions of acceptance thereto; provided, however, that in the event said standard conditions are inconsistent or in conflict with the terms of this Agreement, then this Agreement shall control.

12. Closing. On the Closing Date, the escrow agent shall file for record the deed, and any other instruments required to be recorded and shall thereupon deliver to each of the parties the funds and documents to which they shall be respectively entitled, together with its escrow statement, provided that the escrow agent shall then have on hand all funds and documents necessary to complete the within transaction and provided the title company has stated that it shall be in a position to, and will issue and deliver upon the filing of the deed for record, the title insurance required hereunder.

In closing this transaction, the escrow agent shall charge Seller with the following:

- (a) the amount of real estate taxes prorated up to and including the date of transfer of title and the full amount of any assessments;
- (b) the cost of any transfer tax;
- (c) the cost of a title report, title search, and one-half (1/2) of the title insurance in the amount of the purchase price;
- (d) the cost of paying off and satisfying any mortgage indebtedness for which Seller is liable, together with the cost of any mortgage cancellation, recording fee or other costs incident to the satisfaction of any such indebtedness;
- (e) one-half (1/2) of the escrow fee; and
- (f) all other charges properly borne by Seller consistent with the terms of this Agreement;

and immediately thereafter shall deliver to Seller the balance of the funds in escrow due under the terms hereof, including any prorations due Seller, and any documents due Seller.

On closing, the escrow agent shall charge Buyer with the following:

- (a) the cost of filing the deed for record;
- (b) one-half (1/2) of the escrow fees, and one-half (1/2) of the cost of the title insurance;
- (c) the cost of any inspections completed during the Due Diligence Period, including, without limitation, the survey referred to in subparagraph 2.C., above; and
- (d) all other charges properly borne by Buyer consistent with the terms of this Agreement;

and immediately thereafter, the escrow agent shall deliver to Buyer any prorations to which Buyer is entitled and any other funds or documents due Buyer and, as soon as available, the recorded deed and the title insurance.

(n16)COMMENT

13. Notice. Any notice which may be or is required to be given pursuant to the provisions of this Agreement shall be deemed to be sufficiently given if personally delivered, or sent by a nationally recognized overnight courier, or sent by certified or registered mail, postage prepaid, return receipt requested, and addressed as follows:

If to Seller, to:

With a copy to:

If to Buyer, to:

With a copy to:

14. Binding Effect. This Agreement shall be binding upon and inure to the benefit of Seller and Buyer and their respective legal representatives, successors and assigns.

15. Sale Lease Back. At the closing, Seller and Buyer will enter into a triple net lease for the Property. The lease will be prepared by Buyer's counsel after the execution hereof, and will include the following terms and conditions:

A. Term. Not less than _____ (____) months or to exceed _____ (____) months. Lease may be terminated by Buyer in months _____ (____) through _____ (____) upon _____ (____) days written notice to Seller.

B. Rent. _____ Dollars (\$ _____) per month. Rent will be prorated on a daily basis for partial months.

C. Net/Net/Net. Taxes, maintenance and insurance and any other costs or expenses associated with the Property will be paid by Seller during the term of the lease. (n17)COMMENT

16. Demolition. Prior to the expiration of the lease set forth in Paragraph 15, above, Seller will demolish the improvements located on the Property. The improvements will be demolished and all debris will be removed in accordance with all applicable laws, rules, ordinances, and/or regulations. The condition of the Property after the

demolition will be such that Buyer will be able to complete the construction of its anticipated improvements without having to resort to extraordinary construction measures which are caused by the demolition, or demolition debris not being properly removed from the Property. At closing, the escrow agent will holdback the sum of _____ Dollars (\$ _____) pending compliance with the provisions of this Paragraph 16.

(n18)COMMENT

17. 1031 Exchange. The parties agree that Seller may assign its interest in the Agreement to a qualified intermediary for purposes of undertaking a like-kind exchange. All costs associated therewith will be Sellers' responsibility.

(n19)COMMENT

IN WITNESS WHEREOF, the parties hereto execute this Purchase Agreement the day and year first above written.

FOOTNOTES:

(n1)COMMENT(n1) This provision sets forth the agreement of the parties to obtain an accurate legal description for the property upon completion of a survey. An accurate legal description will be required to transfer the property.

(n2)COMMENT(n2) This provision sets forth an anticipated purchase price per acre.

(n3)COMMENT(n3) This provision provides for an earnest money deposit. The buyer will receive a credit for the deposit at closing. The deposit is returned to buyer only upon the breach by seller of a condition of closing not satisfied.

(n4)COMMENT(n4) This provision sets forth the calculations as to how the final purchase price will be

determined. It also sets a maximum limit on the purchase price. Most developers allocate a portion of the project costs to land acquisition, and if the land cost exceeds a certain amount, the developer knows that the project will fail.

(n5)COMMENT(n5) This provision sets forth the buyer's condition of closing.

(n6)COMMENT(n6) The buyer cannot purchase the property if there is a condition on or about the property which will prevent the property from being developed in accordance with buyer's expectations or will significantly increase the cost of construction of the development over buyer's budgeted or anticipated cost.

(n7)COMMENT(n7) This provision allows buyer to obtain all governmental permits and approvals before buyer is required to purchase the property. Obviously, this mitigates any risks that the buyer will purchase the property only to find out that there is a problem completing the project.

(n8)COMMENT(n8) Since the location and use of the property is subject to approval of a third party, the agreement is conditioned upon such third party's approval.

(n9)COMMENT(n9) This provision allows the buyer to back out if a condition is not satisfied. It also allows buyer to obtain an extension if it takes longer than expected to satisfy all conditions at closing.

(n10)COMMENT(n10) This provision is designed to obtain the agreement from seller that the property can be used for buyer's intended purpose. In this agreement, most of the representations are subject to seller's knowledge. The representations are designed to discover everything that the seller knows regarding the property or any existing circumstances which would adversely affect buyer's development of the property. As a result, buyer should become aware of most conditions regarding the property before buyer spends significant money conducting its due diligence or obtaining financing commitments.

(n11)COMMENT(n11) The buyer's warranties are relatively modest and the seller's primary concern is about any circumstance that would prevent buyer from purchasing the property.

(n12)COMMENT(n12) This provision sets forth the type of deed to be delivered, which restrictions and conditions will remain in place after closing. It should specifically require that buyer will receive title insurance at closing.

(n13)COMMENT(n13) This provision requires a post signing title report be given to buyer. This report, typically referred to as a title commitment, can also be done in advance of signing.

(n14)COMMENT(n14) Seller desires to limit its liability to buyer for any post closing problems with the property. Therefore, the seller is requiring the use of an "AS IS" clause. The use of this clause is somewhat misleading given the extensive representations that seller is giving buyer.

(n15)COMMENT(n15) It will be difficult to match up the payment of the real estate taxes with the closing date. Therefore, in most cases the real estate taxes have to be prorated at closing so that one party does not pay more than their fair share.

(n16)COMMENT(n16) These provisions direct the escrow agent as how to close the transaction, including the payment of the closing costs.

(n17)COMMENT(n17) This property involves a property which contains an existing structure. The seller cannot relocate to a new location until it has the proceeds from this sale. Therefore, seller will lease back the property for a period of time until the seller finds a new location.

(n18)COMMENT(n18) This buyer is not interested in the improvements. Further, the buyer may not want to get involved with the demolition (i.e., there might be asbestos or some other condition for which the buyer does not want the liability). The seller may want to salvage a portion of the property for incorporation into its new facility or for the

salvage value. Lastly, in order assure that the salvage will be completed, the buyer is requiring that the anticipated cost of salvage be escrowed.

(n19)COMMENT(n19) Because the seller is moving to a new facility, the seller may want to reinvest the sales proceeds into the new property. If seller complies with the requirements of a like-kind exchange, seller can defer the amount of taxes payable upon the sale of the subject property until the sale of the replacement property.

Current Legal Forms for Real Estate
Chapter 22 DEVELOPMENT AND SUBDIVISION
Part III. Drafting Guidelines

26-22 Current Legal Forms for Real Estate § 22.45

§ 22.45 Analysis of Construction Contract for a Building

.....

CONTRACT

THIS CONTRACT is made this ____ day of _____ [date], by and between MAGNA, LLC, an Ohio limited liability company, hereinafter called OWNER, and ROUDABUSH ASSOCIATES, INC., a Wisconsin corporation duly licensed to do business in the State of Ohio, hereinafter called BUILDER. The situs of the Contract and performance of the Contract is in the State of Ohio. (n1)COMMENT

WHEREIN IT IS MUTUALLY AGREED, AS FOLLOWS:

1. Scope of Work. The Owner herewith employs the Builder to construct and complete on a turn key basis, completely ready for Owner's use and occupancy, a medical office building in accordance with plans and specifications prepared by Builder and approved by Owner which are attached hereto and which are specifically made a part of this Contract by incorporation herein. The Builder accepts such employment and agrees to furnish all necessary labor and materials and to construct said building in a good and workmanlike manner.

The Builder acknowledges that the building has been designed to be eligible for certification through the U.S. Green Building Council's Leadership in Energy & Environmental Design ("LEED") program. The level to be achieved is that which is called "LEED Certified." Builder acknowledges that it is familiar with such rating system, and shall complete the construction so as to meet such certification. (n2)COMMENT

2. Completion. Prior to commencement of the construction work to be performed hereunder, the Owner agrees to furnish Builder with evidence that Owner has fee simple title to the premises on which the medical office building, as presented in this Contract, is to be constructed. Owner further agrees to furnish Builder with evidence that Owner has a firm financing commitment to provide the necessary funds for construction of the medical office building. In the absence of circumstances beyond its direct control, such as strikes, inability to obtain materials, Acts of God and similar

causes, the Builder agrees to complete the construction to be performed hereunder on or before the 31st day of May, _____[date], providing that the Owner supplies the foregoing title evidence and financing commitment forthwith. (n3)COMMENT

3. Building Site. The medical office building, as presented in this Contract, shall be constructed upon the Owner's premises located on the south side of Sidley Road, East of Baintree Boulevard, in the City of Cincinnati, Hamilton County, Ohio, and more particularly described on Exhibit A attached hereto and made a part hereof.

4. Contract Price and Terms of Payment. The Owner shall pay to the Builder for the Builder's performance of this Contract a total contract price of Nine Hundred Sixty-two Thousand Dollars (\$962,000.00). The contract price shall be paid in the following manner: (n4)COMMENT

A. Three percent (3%) of the total contract price, being: Twenty-eight Thousand Eight Hundred Sixty Dollars (\$28,860.00), shall be paid upon the signing of this Contract. Two percent (2%) of the total contract being: Nineteen Thousand Two Hundred Forty Dollars (\$19,240.00), shall be paid upon completion of the working drawings by the Builder. (n5)COMMENT

B. Before a statement is presented requesting any further payment of the contract price as hereinafter set forth, Builder shall submit to Owner a schedule of values of various portions of the work aggregating the total remainder of the contract price, divided so as to facilitate progress payments. The foregoing schedule of values shall be in a form acceptable to Owner, and each item therein shall include a proper share of overhead and profit and be supported by such data to substantiate its correctness as the Owner may require. Such schedule of values, when approved by the Owner, shall be used as the basis for Builder's request for payment. On or about the 10th day each month, the Builder shall prepare a statement showing the value of all labor and materials incorporated in the work to the first day of that month, and the sum of all prior payments. The Owner, within 10 days after presentation of such statement, shall pay the Builder 90 percent of the amount indicated as owing by such statement until 50 percent of the remainder of the contract price has been paid. Thereafter, 100 percent of the amount indicated as owing by such statement shall be paid to the Builder by the Owner. Builder will not include in any request for payment the value of materials delivered to and stored at the site, but not incorporated into the building.

C. The entire remaining balance of the total contract price shall be paid after substantial completion and final inspection and acceptance of the work by Owner. Final payment shall also be conditioned upon certification of the building as "LEED Certified." In the event there is any dispute between Owner and Builder as to whether the work has been substantially completed, the issuance of a certificate of occupancy by the City of Cincinnati shall be deemed to be conclusive evidence that the work has been substantially completed. Prior to final payment, Builder agrees to submit evidence satisfactory to Owner that all payrolls, material bills and other indebtedness connected with the work have been paid, and to submit, on behalf of itself or any subcontractors or materialmen, affidavits, certificates, sworn statements, or any other documentation as shall be required by the Ohio Mechanic's Lien Act. Final payment shall include all amounts and holdbacks set forth above, save and except for any punchlist items then remaining to be completed. If any such punchlist items exist, Builder shall submit to Owner an estimate of the cost to complete such items, which estimate must be reasonably satisfactory to Owner. Owner shall be permitted to hold from the final payment a sum equal to said costs until such items are completed. Builder agrees to complete the same as soon as reasonably possible. (n6)COMMENT

5. Performance Bond. If the Owner should request that the Builder furnish a performance and payment bond, the Owner agrees to pay the premium therefor. This bond shall be supplied by the Builder through its agent and the American Employers' Insurance Company of Boston, Massachusetts, or Employers Insurance Company of Wausau, Wisconsin. (n7)COMMENT

6. Survey, Zoning, and Permits. It is understood that the Owner has provided, at Owner's expense, a current

topographical survey prepared by a registered surveyor. The Owner represents that such survey shows all existing restrictions and easements of record, and other pertinent data regarding utilities and existing structures. It is understood that the Builder has prepared the building plans relying upon the accuracy of the survey. The Owner shall be responsible for and provide for the accurate placement and staking of all property corner posts and property lines of the premises on which the medical office building is to be constructed. The Owner represents that the premises are zoned for medical office building use. It is the responsibility of the Builder to conform to all state and local codes, including zoning and fire codes, in effect at the date of this Contract. The Builder, at Builder's expense, shall provide the building permit required for the performance of this Contract, and shall also make all local utility and service connections at Builder's expense. The Builder shall prepare all necessary documents and make application for the building permit at Builder's expense. (n8)COMMENT

7. Insurance. Throughout the term of this Contract, the Builder shall maintain workmen's compensation insurance which is in compliance with the laws of the state in which this Contract is being performed. Public liability insurance coverage will be maintained in the face amount of two hundred fifty thousand dollars per person, five hundred thousand dollars per accident, and two hundred fifty thousand dollars property damage, and Builder shall furnish evidence of this insurance. In addition, blanket umbrella coverage in the amount of five million dollars shall be provided for over and above the insurance herein specified. Throughout the term of this Contract, the Builder shall provide and pay for a Builders Risk policy in the full amount of the contract price issued in the name of both the Owner and the Builder. This policy shall be written on what is commonly called an "All Risk" basis and shall cover, but not necessarily be limited to, the hazards of fire, extended coverage, vandalism and malicious mischief, collapse, water damage, earth movement, boiler explosion, theft, and glass damage. (n9)COMMENT

8. Arbitration. In the event that any dispute shall arise between the parties in connection with the quality of either workmanship or materials furnished by the Builder, such dispute shall, upon the written demand of either party, be referred for arbitration to the American Arbitration Association to be arbitrated in accordance with the rules of said association. It is understood that any such arbitration will be conducted within the geographical limits of the county in which the building is to be constructed. (n10)COMMENT

9. Guaranty. The Builder warrants to the Owner that all materials and equipment incorporated in the project will be new and that all work will be of good quality and in conformance with the contract documents. All work not so conforming to these standards may be considered defective. The foregoing warranty shall be in addition to and not in limitation of any other warranty or remedy required by law or by the Contract. Without in any way limiting the warranties imposed by law, the Builder agrees to repair or replace at its own expense any articles, materials, or equipment furnished hereunder, or any parts thereof, found to be defective in engineering design, workmanship, or material, or found not to perform in accordance with the requirements of the attached specifications for a period of one (1) year after the date of final completion and acceptance by Owner of the work.

Standard manufacturers' service contracts and guarantees, if any, that apply to any appliances furnished by the Builder and all warranties and guarantees on the roof and heating and cooling systems, and all other warranties and guarantees shall be assigned by the Builder to the Owner. (n11)COMMENT

10. Amendments. This Contract, together with the attached plans and specifications, represents the entire agreement between the parties and all previous agreements of every kind and nature between the parties are merged herein. No amendment to this Contract, or the attached plans and specifications, shall be valid unless the same is reduced to writing over the signatures of the respective parties. This Contract contains all the terms and conditions agreed on by the parties hereto, and no other agreements, oral or otherwise, regarding the subject matter of this Contract, shall be determined to exist or to bind any of the parties hereto. (n12)COMMENT

11. Taxes. It is understood that a sales tax or use tax, or other similar tax, may arise under state, county, or local laws. These taxes are to be paid by the Builder and are included in the contract price as specified in Section 4 hereof. The

amount as estimated in the contract price shall be deemed as full payment by the Owner to the Builder for any and all sales or use taxes which may be due and payable on completion by the Builder and/or any of its subcontractors or suppliers. If requested by the Owner, information regarding the amount of taxes actually paid by the Builder will be available after completion of the building. (n13)COMMENT

12. Other Provisions:

A. This Contract has been prepared based on a topographical survey prepared by Johnson Associates, Registered Surveyor #5514 and dated _____ [date]. The price of this Contract is based upon the accuracy of this information. Additional cost, if any, due to error or omissions in this information will be the responsibility of the Owner. (n14)COMMENT

B. This Contract has been prepared without a written soil boring report which is to be obtained by Builder at Builder's expense. Footings for the building in this Contract are designed for a minimum soil bearing capacity of 3,000 pounds per square foot. If additional cost is incurred due to rock, ground water, or inadequate soil bearing capacity, such cost shall be paid by the Owner.

C. Cost of MRI equipment purchase, shipping, and installation are not included in this Contract. Contract does include all necessary plumbing and electrical final connections per standard Siemens drawings on file with Builder.

D. Schedule: In order to maintain the project schedule, and completion date for the building, Builder assumes that Owner will see that:

(1) the RF shielding manufacturer's shop drawings shall be approved within 14 days after their submission to the Owner.

(2) the MR equipment manufacturer shall deliver the MR system (except magnet) no later than March 1, _____ [year], if requested by Builder.

(3) the power conditioner shall be delivered to the job site no later than February 1, _____ [year], if requested by Builder. (n15)COMMENT

E. With respect to and supplementing Section 1 of this Contract, entitled Scope of Work, Builder acknowledges that it has the knowledge and expertise to construct the special purpose medical office building described in the plans and specifications attached hereto, and Builder warrants that the design and engineering of the building will be performed by it free from faults and defects and in accordance with sound professional standards utilizing the services of competent design professionals, to assure that the building as designed will meet all applicable laws, ordinances and codes, that the structure and foundation will be adequate to meet the floor loads, particularly for the magnet to be installed, and the usual design wind loads, roof loads, and other criteria utilized in the locale of the building, that the electrical and mechanical systems and lead and RF shielding systems will be adequate to meet the design criteria established by the manufacturer of the magnet and other medical diagnostic equipment to be installed in the medical office building, that the Halon fire suppression system in the computer and equipment rooms shall be adequate for such purpose, and that the building shall be constructed so as to be suitable for the purposes for which it is intended.

Builder agrees that included in the scope of the work shall be all architectural, engineering and construction supervision fees, the preparation of schematic and preliminary design documents, preparation of all drawings and specifications setting forth the requirements for construction of the work in detail sufficient to enable workmen of ordinary skill to construct the building, the documentation of changes in the plans and specifications, if any, during the course of construction of the building, and provision of a complete set of as-built drawings at the conclusion of the building construction. (n16)COMMENT

F. With respect to and supplementing Section 3 of this Contract, entitled Building Site, Builder acknowledges that it is familiar with the site and all site conditions as referred to in the Site Development Contract being signed between the parties hereto of even date herewith, save and except for the subsurface conditions to be determined by soil boring tests to be obtained by Builder at Builder's expense. (n17)COMMENT

G. With respect to and supplementing Section 4 of this Contract, entitled Contract Price and Terms of Payment, subparagraph (b) thereof, it is understood that Builder shall furnish with each request for payment, waivers of lien or affidavits for itself and any of its subcontractors and suppliers for whom payment is being requested, and such other documents as are required under the Ohio Mechanics Lien Act to insure that the premises remain lien-free at all times. Owner shall not be obligated to make any payment to Builder hereunder if any one or more of the following conditions exist:

(1) Builder is in default of any of its obligations hereunder or otherwise is in default under any of the Contract documents;

(2) any part of such payment is attributable to work which is defective or not performed in accordance with the plans and specifications; provided, however, such payment shall be made as to the part thereof attributable to work which is performed in accordance with the plans and specifications and is not defective;

(3) Builder has failed to make payments promptly to Builder's subcontractors or suppliers for labor or material used in the work for which Owner has made payment to Builder, unless a good-faith dispute shall exist between Builder and a subcontractor, in which event Builder shall have a reasonable amount of time in which to settle such dispute before Owner may invoke this provision; (n18)COMMENT

(4) If Owner, in its good-faith judgment, determines that the portion of the contract price then remaining unpaid will not be sufficient to complete the work in accordance with the plans and specifications, whereupon no additional payment will be due Builder hereunder unless and until Builder, at its sole cost, performs a sufficient portion of the work so that such portion of the contract price then remaining unpaid is determined by Owner to be sufficient to so complete the work. Builder shall promptly pay all bills for labor and material performed and furnished by others in connection with the construction, furnishing and equipment of the work and the performance of the work, provided, however, that no provision hereof shall be construed to require Owner to see to the proper disposition or application of the money so paid to Builder. Payments made under Section 4, subparagraph (B) shall not be construed as final acceptance or approval of that part of the work to which such partial payment relates or relieve Builder of any of its obligations hereunder with respect to such work. Any payment not made when due for reasons other than due to a default by Builder is subject to a late payment charge of 8 percent per annum.

Owner shall have the right to designate an agent to represent Owner in connection with the performance of any or all of the duties of Owner hereunder. If such agent is used, Owner shall notify Builder in writing of the name of such agent. (n19)COMMENT

H. With respect to and supplementing Section 7 of this Contract, entitled Insurance, the following paragraph is added at the end of Section 7, to wit:

To the fullest extent permitted by law, Builder shall indemnify, defend and hold harmless Owner and Owner's agents and employees from and against all claims, damages, losses and expenses, including but not limited to attorney's fees arising out of or resulting from the performance of the work, provided any such claim, damage, loss or expense (i) is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property (other than the work itself), including the loss of use resulting therefrom, and (ii) is caused in whole or in part by any act or omission, negligent or otherwise, of Builder, any subcontractor, anyone directly or indirectly employed by any of them, or anyone

for whose acts any of them may be liable. In addition, Builder agrees that as part of the comprehensive public liability insurance coverage required hereunder, that Builder shall cause each subcontractor and supplier employed by it to carry liability insurance similar to that which Builder is required to carry hereunder, and to furnish Owner with copies of the certificates of insurance obtained by Builder to evidence that such subcontractors and suppliers have such coverage. The Builder's insurance required hereunder shall also include contractual liability insurance applicable to the Builder's obligations hereunder. A certificate evidencing all insurance required hereunder shall be filed with the Owner prior to the commencement of any work. The certificates shall contain a provision that the coverage under the insurance shall not be cancelled until at least 10 days prior written notice has been given to Owner. In the event Builder fails to carry any insurance required hereunder, Owner shall have the right to obtain such insurance at Builder's cost and expense.

(n20)COMMENT

I. From time to time, Owner may authorize changes in the work, issue additional instructions, require additional work, or direct the omission of work previously ordered; provided, however, that Builder shall not proceed with any change involving an increase or decrease in cost without prior written authorization from Owner in accordance with the following procedures. Owner shall order changes in the work by giving Builder a written change order request ("Change Order Request"), setting forth in detail the nature of the requested change. Upon receipt of the Change Order Request, Builder shall forthwith furnish to Owner a statement setting forth in detail, with a simple breakdown by trades and work classifications, Builder's estimate of the changes in the contract price, and the proposed adjustment to the scheduled completion date, if any, resulting from such Change Order Request. If Owner or Builder approve in writing such estimate by the Builder, such Change Order Request and such estimate shall constitute a Change Order, and the contract price and scheduled completion date shall be adjusted as set forth in such estimate. Agreement on any Change Order shall constitute a final settlement on all items covered therein, subject to performance thereof, and payment therefor, pursuant to the Contract. It is understood and agreed that refinement and detailing will be accomplished from time to time with respect to the plans and specifications. No adjustment in the contract price or the scheduled completion date shall be made unless such refinement or detailing results in changes in the scope, quality, function or intent of the plans and specifications not capable of being reasonably inferred or anticipated by a reasonably prudent contractor of experience and expertise comparable to that of Builder. (n21)COMMENT

J. In the event of any dispute, claim or controversy between Owner and Builder relating to the work, Builder covenants and agrees to continue construction without delay and in accordance with any progress schedule provided Owner; said dispute, claim or controversy shall be resolved without prejudice to the completion of the work in a timely manner.

(n22)COMMENT

K. If laws, ordinances, rules, regulations or orders of any public authority having jurisdiction over the work require any portion of the work to be inspected, tested or approved, Builder shall give Owner timely notice of Builder's readiness to do so and Owner shall have the right to observe such inspection, testing or approval. Builder shall bear all costs of such inspections, tests or approvals. If the Owner determines that any work requires special inspection, testing or approval, other than that described in the two immediately preceding sentences, the Owner will instruct the Builder to order such special inspection, testing or approval, or Owner may undertake to cause such inspection, testing or approval. If such special inspection or testing reveals a failure of the work to comply with the requirements of the contract documents or with the laws, ordinances, regulations or orders of any public authority having jurisdiction over the work, the Builder shall bear all costs thereof, including compensation for any additional services made necessary by such failure; otherwise Owner shall bear all such costs, and Owner shall pay such costs directly or an appropriate Change Order shall be issued. (n23)COMMENT

L. If Builder is adjudged bankrupt, applies for reorganization under the Bankruptcy Laws of the United States, makes a general assignment for the benefit of creditors, if a receiver is appointed on account of Builder's insolvency, if Builder persistently or repeatedly fails except in cases where extension of time is provided to supply enough properly skilled workmen or to obtain proper supplies (other than lack of workmen or materials not available due to circumstances beyond the Builder's control), if Builder fails to make prompt payment to subcontractors or to suppliers, Builder fails to

remedy any work found to be defective, disregards laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise breaches this Contract, Owner may, after 14 days written notice to Builder, terminate the employment of Builder and take possession of the site and all materials, equipment, tools, construction equipment and machinery thereon owned by Builder and thereafter may finish the work by whatever method Owner may deem expedient. If the cost of finishing the work, as described in this paragraph, including compensation for additional services made necessary thereby, exceed the unpaid balance of the contract price, Builder shall pay the difference to Owner. This obligation for payment shall survive the termination of the Contract. Any dispute arising between Owner and Builder regarding Owner's right to terminate Builder's employment shall be subject to the arbitration provisions set forth in Section 8 of this Contract. (n24)COMMENT

M. Builder agrees that the work shall be completed lien free. Builder shall not suffer or permit any mechanics or other liens to be filed or exist against the site by reason of work, labor, services or materials supplied or claimed to have been supplied to, for or in connection with the work. If any such liens shall at any time be filed, Builder shall, within 30 days after notice of the filing thereof, cause the same to be discharged of record by payment of a deposit, bond, order of a court of competent jurisdiction or otherwise. If Builder shall fail to cause such lien to be discharged as aforesaid, then in addition to any other right or remedy of Owner, Owner may, but shall not be obligated to, discharge the same either by paying the amount claimed to be due or by procuring the discharge of such lien by deposit or by bonding. Any amount paid by Owner shall forthwith be reimbursed by Builder to Owner on demand, and if not so reimbursed on demand, may be deducted from any amount remaining outstanding on the contract price. Such amount so paid by Owner shall bear interest at the rate of 8 percent per annum until reimbursed to Owner or until it can be deducted from the balance, if any, remaining on the contract price. (n25)COMMENT

N. Builder is signing with Owner of even date herewith a Site Development Contract (the "Site Development Contract"). Completion of the work provided for in the Site Development Contract in accordance with its terms and conditions is necessary to provide Owner with a turn key project, and accordingly, it is agreed between Owner and Builder, that any default by Builder hereunder shall constitute a default under the terms and conditions of the Site Development Contract, and any default by Builder under the terms and conditions of the Site Development Contract shall constitute a default hereunder. This Contract shall be binding upon the parties hereto, their successors and assigns, provided however, that this Contract shall not be assignable except to the extent that the Builder may let subcontracts within the scope hereof. In the event of any conflict between the terms of this Contract and the matters attached hereto and made a part hereof, the terms of this Contract shall be controlling. (n26)COMMENT

MAGNA, LLC, has caused these presents to be signed by it at Cincinnati, Ohio the day and year first above written, and ROUDABUSH ASSOCIATES, INC. has caused these presents to be signed at Madison, Wisconsin this ____ day of _____, _____ [date].

FOOTNOTES:

(n1)COMMENT(n1) This is a contract for the construction of a specifically designed medical building intended to hold a piece of equipment known as a magnetic resonance imaging ("MRI") machine.

(n2)COMMENT(n2) This Section 1 should set out as clearly and definitively as possible the scope of the work to be performed by the Builder. If space is not adequate enough to describe the work, an addendum should be attached, or in this case, the actual plans and specifications are attached.

(n3)COMMENT(n3) The time for completion should be clearly spelled out in this section so that the Owner can hold the Builder to a certain time commitment. Although in this section there is no financial penalty imposed on the Builder for nonexcusable delays, the Owner should consider one. This is called a liquidated damage clause. In turn, if the Owner asks for one, the Builder should ask for a financial bonus if the Builder completes the project prior to the contractual completion date. In all cases, the Builder needs to be sure that there is no penalty for delays beyond the Builder's control, such as due to bad weather, or due to changes in the work requested by Owner.

(n4)COMMENT(n4) This Contract is an example of a fixed price contract in contrast to the cost plus type of contract in which the Contractor is paid for the Contractor's costs of labor and materials, plus a percentage for profit and overhead.

(n5)COMMENT(n5) After the initial payments referred to in Section 4.A. are made, the balance of the payments are made in monthly installments as the work progresses, based on a schedule of values which breaks down various portions of the work. The Owner will almost always require a retainage of a portion of amounts payable to the Builder. A retainage is important to protect the Owner in case of a default by the Contractor in completing the structure, and to provide an incentive to the Builder to complete as soon as possible in order to obtain a release of the amounts retained. In this contract, the retainage is ten percent of the amount owed until fifty percent of the balance of the contract sum has been paid, after which 100% of a draw request is paid for the remaining work.

(n6)COMMENT(n6) The retainage is paid upon substantial completion and final inspection and acceptance by the Owner of the work. Because such a standard is open to disputes, it is a good practice to have an independent third person verify completion. In this Section 4.C., that is done by the City, which must inspect and be satisfied that the completion is sufficient enough to issue a certificate of occupancy.

Even if there is substantial completion, there will be minor items to complete referred to as punchlist items. Those are not paid for until those items are completed by the Builder so that there is an incentive for the Builder to complete those items.

(n7)COMMENT(n7) The Owner may require the Builder to furnish a payment bond to minimize financial loss to the Owner in the event the Builder fails to perform its contract. In certain public projects, the state statutes may require bonds to be obtained by the contractors. Bonds are usually written in the full amount of the contract price. The penal limit of the bond should be increased to reflect increases in the contract price pursuant to change orders. The Owner may insist that the bond also covers the warranty obligations of the Builder that extend beyond completion of the contract.

(n8)COMMENT(n8) Section 6 spells out that the Owner is responsible for obtaining a topographical survey, and for locating the boundaries of the property and all restrictions and easements affecting the property so that the Builder can prepare the Builder's plans in reliance thereon. The Builder is allocated the responsibility for obtaining and paying for the building permit. That cost will be included in the contract price.

(n9)COMMENT(n9) The Owner should require the Builder to carry workmen's compensation insurance to make sure the Builder's employees cannot make claims against the Owner. General liability coverage should be adequate to cover claims from third parties against the Builder and Owner due to the acts or omissions of the Builder and its agents and employees. The Builders Risk policy is to cover damages to the building while being constructed due to perils ordinarily insured under an All Risk casualty policy.

(n10)COMMENT(n10) Many construction contracts, including the AIA forms, promote the use of arbitration for the resolution of disputes that arise during the course of construction. Whether to follow the arbitration approach as in this Section 8, to pursue litigation, or to use one of many recent innovations in alternative dispute resolution (such as mediation or mini-trials) is typically a matter of philosophical preferences to the parties and their counsel.

(n11)COMMENT(n11) The warranty of the Builder for new construction usually is for at least a one year period from the date of substantial completion and acceptance by the Owner. Separate parts of the building and equipment will usually have a longer warranty which should be assigned to the Owner. In this contract, because the Builder has held itself out as having the expertise to build this type of medical facility, the warranty includes a warranty against defects in design engineering.

(n12)COMMENT(n12) This Section 10 requires all amendments to be in writing and signed by both parties, in order for it to be binding.

(n13)COMMENT(n13) Taxes such as sales and use taxes are usually paid by the Builder but are a part of the Builder's costs recouped through payment of the contract price.

(n14)COMMENT(n14) A major risk in construction is the danger of encountering unknown surface conditions or other concealed conditions. Sections 12.A. and 12.B. are intended to allocate this risk in an equitable manner. Section 12.A. protects the Builder if there were errors made in the topographical survey. Section 12.B. protects the Builder if unknown subsurface soil conditions are found.

(n15)COMMENT(n15) Section 12.D. is included to make clear that the Contractor can only complete its work on time if other drawings and pieces of equipment incorporated in the building are timely received.

(n16)COMMENT(n16) The Builder has held itself out as having the expertise to build this type of specialized medical facility. Therefore, if there is a design flaw, it will be the Builder's responsibility to correct such flaw, all at the Builder's expense.

(n17)COMMENT(n17) This paragraph makes clear that the architectural services required for this project are part of the service included in the contract price. The Builder in this case has in-house architects and engineers who specialize in designing medical office buildings.

(n18)COMMENT(n18) To protect the project from mechanics' liens, the Owner should require lien waivers with each application for payment, not just for final payment. The Builder will want to be sure that the waiver only applies to work performed by the Builder and subcontractors to the date of the waiver.

This section also protects the Owner from having to make payments if the Builder is in default or otherwise has done things which might jeopardize the project.

(n19)COMMENT(n19) The Owner may be required to have a representative of its lender inspect the project and approve the work done prior to disbursements being made to the Owner for payments to the Builder. This paragraph will allow that to be done.

(n20)COMMENT(n20) This clause calls for a broad indemnity clause from Builder for the protection of Owner, and it covers matters not necessarily covered by the general liability insurance policy. This contractual indemnity

provision can also be backed by insurance in the form of contractual liability insurance referred to in this Section H. Proof of such insurance and any other insurance required to be carried by the Builder should be provided to the Owner prior to the start of any work.

(n21)COMMENT(n21) This Section 12.I. requires all changes to be agreed to in writing and signed by both parties in the form of written Change Orders.

(n22)COMMENT(n22) This Section 12.J. makes clear that work continues while disputes or claims are being resolved so that additional costs due to delays can be minimized.

(n23)COMMENT(n23) This Section 12.K. places the burden of failure of the work to comply with all laws and ordinances on the Builder. If tests disclose such noncompliance, the Builder at its expense, must correct the failure of the work to comply.

(n24)COMMENT(n24) Section 12.L. allows the Owner to terminate the Contract if certain major events occur to the Builder, or in the event of certain major defaults, upon fourteen (14) days' notice. If terminated, this Section 12.L. allows Owner to invoke certain self-help remedies to finish the project itself.

(n25)COMMENT(n25) This Section 12.M. requires Builder to remove any mechanic's liens filed against the site because of the work being done under the Contract. This requirement is usually also a requirement of the loan documents signed by the Owner to pay for the cost of the project. If the lien is not removed within thirty days of its filing, Owner may invoke self-help measures to remove it.

(n26)COMMENT(n26) Section 12.N. is to acknowledge that this Contract is tied to another contract for the site development work. Because they are related and the Builder in both is the same entity, there are cross-default clauses in both which causes a default in one to be a default on the other.

Chapter 22 DEVELOPMENT AND SUBDIVISION
Part III. Drafting Guidelines

26-22 Current Legal Forms for Real Estate § 22.46

§ 22.46 Easement, Restriction and Operating Agreement between Developer and Big Box Retailer

Easement, Restriction and Operating Agreement between Developer and Big Box Retailer

CONTRACT

EASEMENT, RESTRICTION AND OPERATION AGREEMENT

THIS AGREEMENT made as of the _____[day] day of _____[month],
_____[year], by and between DEVELOPER LIMITED PARTNERSHIP, a(n)
_____[state] _____[entity] ("Developer"), have its principal offices at
_____[address], and BIG BOX RETAILER, INC., a(n) _____[state]
_____[entity] ("Big Box"), having its principal offices at _____[address].
(n1)COMMENT

WITNESSETH:

WHEREAS, Big Box is the owner of the real property in _____[city], _____[state],
described in Exhibit A-I attached hereto and made a part hereof (said real property being hereafter referred to as the
"Big Box Property"); and

WHEREAS, Developer is the owner of the real property in _____[city],
_____[state], described in Exhibit A-2 attached hereto and made a part hereof (said real property being
hereinafter referred to as the "Developer Property"); and

WHEREAS, Developer and Big Box intend to develop the Developer Property and the Big Box Property as an
integrated retail shopping center in accordance with the Site Plan attached hereto and made a part hereof as Exhibit B;
and

WHEREAS, Developer and Big Box desire hereby to fix and establish certain easements, restrictions and operating
agreements regarding the Developer Property and the Big Box Property and the improvements to be constructed

thereon.

NOW, THEREFORE, Developer and Big Box, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, do hereby declare and establish the following easements, restrictions and operating agreements regarding the Developer Property and the Big Box Property and the improvements to be constructed thereon:

1. Definitions. (a) "Building Areas" shall mean that portion of the Property developed or to be developed for retail store space as depicted on Exhibit B attached hereto. (n2)COMMENT

(b) "Common Areas" shall mean all public and common facilities erected on the Property exclusive of the Building Areas including but not limited to, all entrances, exits, driveways, parking areas, walks, service drives, utilities, storm water drainage and retention or detention pond facilities, shopping center identification and directional signs and lighting facilities, exclusive of any improvements constructed on any Building Areas.

(c) "Outlots" shall mean that portion of the Property (as defined below) designated on Exhibit B as "Outlot A", "Outlot B", and "Outlot C". (n3)COMMENT

(d) "Property" shall mean the Big Box Property and the Developer Property.

(e) "Property Owner" shall mean any person or entity owning all or a portion of the Property.

(f) "Shopping Center" shall mean the Property, Common Areas, and Building Areas, together with the improvements erected thereon.

(g) "Street Access Extension" shall mean that portion of the Big Box Property extending south from Vine Street, 50 feet wide and 564.44 feet deep, as shown by cross-hatch on Exhibit B.

(h) "Tract" shall mean that portion of the Property owned by a Property Owner.

2. (a) The Property shall be developed in the manner depicted on Exhibit B hereto. The location and configuration of the parking lot and drives (including parking lot striping) shall not be changed or modified without the consent of Developer and Big Box. Except as otherwise provided herein, no structures, buildings, fences or barriers shall be erected (whether permanent or temporary in nature) on any portion of the Common Areas except (i) parking lot paving, landscaping and lighting facilities, (ii) such directional traffic signs as are required to facilitate the orderly and free flow of pedestrian and vehicular traffic, and (iii) the pylon sign in the location indicated on Exhibit B. (n4)COMMENT

(b) There is hereby granted in favor of all Property Owners, their respective successors, assigns, mortgagees, lessees, sub-lessees, employees, agents, customers, licensees and invitees, a permanent, non-exclusive easement and right to use the Common Areas for the purposes for which they are provided, including, but not limited to, ingress, egress, access, parking, utilities, storm water drainage and retention or detention; provided, however, the use of the Common Areas for ingress, egress, access and parking shall not cause the obstruction nor the impediment of vehicular or pedestrian traffic, upon or across the parking areas, entrances, exits, driveways, walks or service drives located within the Common Areas. (n5)COMMENT

(c) There is hereby specifically granted to all Property Owners, their respective successors, assigns, mortgagees, lessees, sub-lessees, employees, agents, customers, licensees and invitees, a permanent non-exclusive easement for a service drive of not less than thirty-five (35) feet in width along the back of all buildings erected or to be erected on the Property (except buildings erected on the Outlots), in the location shown on Exhibit B, so as to at all times provide for truck and other vehicle traffic behind such buildings.

(d) There is hereby granted in favor of all Property Owners, their respective successors, assigns, mortgagees, lessees, sub-lessees, employees, agents, customers, licensees and invitees, a perpetual non-exclusive easement and right to use the Common Areas for utilities, which shall to the extent possible be located underground; provided, however, such utilities shall not be located in any of the Building Areas, nor shall any utility lines be constructed in any manner as to impede or restrict vehicular or pedestrian traffic upon and across the parking areas, entrances, exits, driveways, walks or other drives located within the Common Areas. No utility lines shall be installed without the prior approval of the owners of the property affected thereby, which approval shall not be unreasonably withheld or delayed, and the party installing the line shall complete installation as soon as possible following the commencement of installation and restore any property affected thereby to as good (or better) condition as existed prior to installation. Any installation shall be performed in a manner so as not to unreasonably interfere with the operation of the Shopping Center.

(n6)COMMENT

(e) In order to accommodate any footings, foundations, columns or walls which are or may be constructed or reconstructed near or immediately adjacent to a common boundary line, Developer and Big Box each grants to the other a non-exclusive easement in, to, over, under, and across that portion of its Tract adjacent to such common boundary line in space not occupied by any then existing structure for the construction, maintenance and replacement of such footings, foundations, columns, or walls. This grant of easement shall include the reasonable right of access necessary to exercise and enjoy such grant. Prior to utilizing the easement right set forth above, the grantee shall notify the grantor of its intention to use the same. (n7)COMMENT

3. Each Property Owner shall cause the Common Areas located on its Tract to be continually repaired and maintained in a safe, sightly and serviceable condition which repair and maintenance shall include but not be limited to cleaning, painting, striping, landscaping, removing garbage and trash from the Common Areas; removing obstructions, snow (which shall be piled away from the retail areas of the Property to the extent possible), water and ice; repairing, repaving and servicing the parking areas, curbs, walks, driveways, utilities, retention pond and drainage facilities, shopping center identification and directional signs and lighting facilities as necessary from time to time. Each Property Owner shall cause the Common Areas located on its Tract to be adequately lighted during normal business hours which for purposes of this paragraph shall mean the hours during which a majority of the retail space in the Shopping Center (expressed in square feet of total ground floor area) shall be open to the public for business and for one-half hour thereafter. Notwithstanding the foregoing, the owner of the Developer Property (or the owner of more of the Developer Property than any other Property Owner) shall cause the Common Areas located on the Street Access Extension to be repaired, maintained, and lighted, in accordance with the foregoing. (n8)COMMENT

4. (a) If any Property Owner shall fail to perform its obligations under this Agreement, any other Property Owner may send a notice to the non-performing party setting forth the obligations that the non-performing party has failed to perform. If such obligations are not performed within thirty (30) days after receipt of such notice (unless the non-performing party shall have commenced to perform the same within such period and shall be diligently proceeding to perform the same), then the party (or parties) giving notice may perform the same. A Property Owner shall not be deemed to have failed to perform its obligations hereunder for so long as such performance is prevented due to strikes, lockouts, inability to procure materials, power failure, Acts of God, governmental restrictions, enemy action, civil commotion, fire, unavoidable casualty, inclement or extraordinary weather conditions or other causes beyond the control of the non-performing party, provided that lack of funds shall not be deemed a cause beyond the control of the non-performing party.

(b) If a failure by any Property Owner to perform any of its obligations under this Agreement causes an emergency or if performance of such obligation is necessary to prevent or relieve an emergency, then the notice required to be given hereunder need only be such reasonable notice, if any, as is warranted by the nature of the specific condition involved. If appropriate action is not timely taken by the non-performing party, any other Property Owner shall be entitled to immediately perform such obligations.

(c) If any Property Owner performs any of the obligations of the non-performing party as aforesaid, and the cost of such performance is not paid by the non-performing party within thirty (30) days of receipt of a written statement therefor, interest shall accrue on the unpaid amount from the time it was expended to the time of payment by the non-performing party at the rate of _____ percent (_____) per annum or the highest rate permitted by law, whichever is lower. (n9)COMMENT

5. Except as provided in Paragraph 2(a) hereof, no free-standing signs may be erected or placed on the Property except as have been approved by Developer and Big Box, which approval shall not be unreasonably withheld or delayed. No building erected on the Property shall exceed one story (excluding mezzanines) or eighteen (18) feet in height, except for (a) the building to be erected by Big Box on the Big Box Property in the location shown on Exhibit B, which shall not exceed twenty-three (23) feet in height and (b) buildings erected on the Outlots, which shall not exceed twenty (20) feet in height. No construction activity on the Property shall materially interfere with the operation and use of the Shopping Center. (n10)COMMENT

6. The Property Owners shall establish and maintain the maximum number of parking spaces on the Common Areas as reasonably possible, giving due regard to the need for an orderly and efficient traffic flow on the Common Areas, employee parking and loading and unloading of merchandise. In no event shall there be less than five (5) parking spaces for each 1,000 square feet of leasable floor area contained in the buildings of the Shopping Center. The employees of the businesses operated on the Property shall park only in the areas designated on Exhibit B hereto, if any, or such other areas as the Property Owners may collectively designate. Each Property Owner shall take such action as may be necessary and appropriate to enforce this parking restriction. (n11)COMMENT

7. There are hereby declared and established the following restrictions and operating standards regarding the Shopping Center:

(a) The Shopping Center may be used for any lawful commercial retail purpose; provided, however, that no portion thereof shall be occupied or used, directly or indirectly, for a car wash, bowling alley, arcade, game room, billiard room, massage parlor, adult book store, or other dealer in pornographic materials, a so-called "head shop," firearms shooting range, funeral parlor, flea market, discotheque, movie or other theater, offices or warehouses (except where incidental to a permitted use), or civic center.

(b) The Shopping Center shall be subject to the following use restrictions: (n12)COMMENT

(i) So long as the lease between Developer and Food Stop Supermarkets, Inc., dated _____ [month] _____ [day], _____ [year], is in effect, as it may be amended or extended from time to time, no part of the Big Box Property may be leased or used as a retail food store (including but not limited to a bakery), or for the sale for off-premises consumption of food and/or food products, except for carry-out restaurants.

(ii) So long as the lease between Developer and The Wholesale Store Company dated _____ [month] _____ [day], _____ [year], is in effect, as it may be amended or extended from time to time (the "Wholesale Store Lease"), no part of the Big Box Property may be leased or used as a supermarket or health or exercise club without the prior written consent of Developer and the tenant under the Wholesale Store Lease.

(iii) So long as the lease between Developer and Video Entertainment Corp. dated _____ [month] _____ [day], _____ [year], is in effect, as it may be amended or extended from time to time, no more than 500 square feet of retail area within the Big Box Property shall be used for the sale, rental and/or distribution of prerecorded video tapes.

(iv) So long as the lease between Developer and Photo Corporation dated _____ [month] _____ [day], _____ [year], is in effect, as it may be amended or extended from

time to time, no part of the Big Box Property may be used to sell or provide one-hour mini lab photo film processing.

(v) The uses of the Big Box Property shall not violate any exclusive use restriction hereafter granted by Developer, or its successors or assigns, to a tenant or occupant of 15,000 square feet or more of gross loadable space in the Shopping Center, provided Big Box, or its successors or assigns, is given notice of such exclusive use prior to commencement of such use on the Big Box Property and provided such exclusive use restriction shall not directly conflict with Big Box's uses described in Paragraph 7(b)(vi), below. Developer may modify this Agreement by unilaterally recording an instrument giving notice of any exclusive use restriction granted under this provision. Big Box will, if required for recording purposes, execute an appropriate instrument provided by Developer in order to so modify this Agreement.

(vi) Developer shall not sell or lease any portion of the Developer Property to firms directly competing with existing major sales departments of Big Box's two existing _____ [city] stores as they are on the date of this Agreement operated by Big Box (i.e., [insert use restrictions]); provided, the foregoing restriction shall not apply if, at the time such use is commenced, the Big Box Property is not being used for such purpose.

(c) No building, structure or business shall be constructed or operated in the Shopping Center which shall be inconsistent with the operation of a family-type retail shopping center and any building, structure or business shall be attractive, both in its physical characteristics and in appeal, to customers and retail trade.

(d) No use of the Shopping Center shall interfere with the use of the Common Areas or impede the free flow of pedestrian or vehicular traffic thereon.

(e) No use of the Shopping Center shall increase the fire hazard or fire insurance rating for the Shopping Center or in any way present a danger or hazard to the employees and customers of the Shopping Center. All buildings constructed in the Shopping Center shall either be equipped with such automatic sprinkler systems as meet all of the standards of the Fire Insurance Rating Authority (or other similar organization having jurisdiction) or shall be constructed in such a manner that the building may be fire rated as a separate and distinct unit from any other building built in the Shopping Center.

(f) Each Property Owner shall keep, or cause to be kept, all buildings and other improvements on its Tract (including the improvements constructed on the Common Areas), insured, at its expense, against loss or damage by fire, windstorm, hail, explosion, damage from aircraft, vehicles, smoke damage and such other risks which are from time to time included in the "Extended Coverage" endorsements in _____ [name of county] County, _____ [state], and in an amount not less than one hundred percent (100%) of the actual replacement cost of the respective buildings and improvements (excluding foundation and excavation costs of underground flues, pipes and drains) which amount shall be sufficient to restore the same to, or replace with buildings and improvements of, at least the size as existed before and to as good of condition as such were immediately preceding such destruction.

(g) Each Property Owner shall, at its expense, maintain, or cause to be maintained, comprehensive general liability insurance against claims for personal injury or death and property damage occasioned by accident occurring on its respective Tract, such insurance in each case to afford protection to the limit of not less than \$3,000,000 in respect of the injury or death to any number of persons arising out of anyone accident, such insurance against property damage to afford protection to the limit of not less than \$500,000 in respect to any instances of property damage. In addition to the foregoing, said policy or policies shall include the other Property Owners as named or additional insureds and shall recognize and insure the liability arising out of the indemnity hereinafter set forth. (n13)COMMENT

(h) Each Property Owner and lessee of any of portion of the Shopping Center shall indemnify, defend and hold harmless the other Property Owners and lessees of any' portion of the Shopping Center, their respective agents, servants, employees, officers and directors, from and against any and all claims, actions, damages, liability and expenses (including reasonable investigative and discovery costs, court costs, attorney fees and other sums which they may

become obligated to pay) incurred in connection with loss of life, personal injury or damage to property or any of them occasioned wholly by any act or omission of such Property Owner or lessee, its agents, servants, contractors or employees.

(i) All such insurance provided for in Paragraphs 7(f) and 7(g) hereof shall be effected under valid and enforceable policies issued by insurers of recognized responsibility. Any insurance required to be maintained by any Property Owner may be taken up under a blanket insurance policy or policies covering other premises, properties or insureds. Certificates of such insurance shall be delivered to any other Property Owner upon request. Any policy required under Paragraphs 7(f) and 7(g) hereof shall provide that such policy shall not be cancelled or materially amended without at least thirty (30) days prior written notice to any other Property Owner and such other parties as may be reasonably designated by such other Property Owner.

(j) In the event of destruction or damage from fire or any other casualty to any buildings or improvements erected on the Property, the Property Owner having its buildings or improvements destroyed or damaged, at its sole cost and expense, shall within six (6) months of the date of such fire or casualty have (i) started to rebuild or repair the same to at least substantially the same size and as good of a condition as such was in immediately preceding such fire or casualty and, within one (1) year of the date of such fire or casualty, have rebuilt or repaired the same to at least substantially the same size and as good of a condition as such was in immediately preceding such fire or casualty, or (ii) leveled and paved the buildings or improvements destroyed or damaged so that the affected area conforms substantially to the Common Areas surrounding it.

(k) If more than twenty percent (20%) of the parking spaces on the Property are condemned or taken by any right of eminent domain, or the points of ingress and egress to the public roadways as depicted on Exhibit B hereto shall be materially impaired by public or quasi-public authority (herein referred to as "condemnation") so as to affect the reasonable use and operation thereof, and Property Owner of a Tract affected thereby shall have the right to withdraw from the obligations set forth in Paragraphs 7(f) and 7(g) hereof upon serving written notice to the other Property Owners, as of the date of taking such property by the condemning authorities. If any condemnation results in taking of less than twenty percent (20%) of the parking spaces on the Property or if such condemnation does not affect the reasonable use and operation of the buildings affected thereby, then all provisions of the Declaration shall continue in full force and effect, except that the proceeds of any award received by any Property Owner shall be applied toward the immediate (i) repair and reconstruction of any building or other improvement affected thereby and (ii) repair and reconstruction of the parking area so as to maximize the number of parking spaces. Any condemnation award shall belong solely to the Property Owner whose property is affected by such condemnation.

8. Each Property Owner shall pay, before any fine, penalty, interest or cost may be added for non-payment, all taxes and assessments on its Tract. If any such owner shall fail to so pay such taxes and assessments, any other Property Owner, or the tenant of the Property Owner, may pay the taxes and assessments and the paying Property Owner or tenant may then bill the defaulting Property Owner for the expense incurred, and the defaulting Property Owner shall pay said bill within fifteen (15) days of receipt thereof. Notwithstanding the foregoing, a Property Owner shall not be required to pay, discharge or remove any tax or assessment on its property so long as it shall contest at its own expense the existence, amount or validity thereof by appropriate proceedings which shall prevent the collection of or other realization upon the tax or assessment so contested, and the sale, forfeiture or loss of the property subject to the tax or assessment to satisfy the same.

9. Each Property Owner shall, from time to time, upon ten (10) days prior written request by any other Property Owner, cause to be executed, acknowledged and delivered a certificate stating that this Agreement is unmodified and in full effect (or, if there have been modifications, that this Agreement is in full effect as modified, and setting forth such modifications) and either stating that to the knowledge of the signer of such certificate no default exists hereunder or specifying each such default of which the signer has knowledge. (n14)COMMENT

10. Each easement, restriction, covenant and operating standard contained herein shall be appurtenant to and for the benefit of all portions of the Shopping Center and shall be a burden thereon for the benefit of all portions of the Shopping Center, and shall run with the land.

11. This Agreement and the restrictions, easements, covenants, benefits and obligations created hereby shall inure to the benefit of and be binding upon the parties hereto and their respective successors, transferees; lessees and assigns; provided, however, that if any Property Owner transfers or sells any portion or all of its interest in the Shopping Center and obtains from the purchaser thereof an agreement by which the purchaser assumes and agrees to be bound by this Agreement, the vendor shall thereupon be released and discharged from any and all further obligations hereunder as such Property Owner in connection with the property sold by it. (n15)COMMENT

12. Except for the modification referred to in Paragraph 7(b)(v), this Agreement may not be modified in any respect whatsoever, or rescinded, in whole or in part, except with the consent of one hundred percent (100%) of the Property Owners (excluding Property Owners having only an ownership interest in one or more of the Outlots) at the time of such modification or rescission, and then only by a written instrument duly executed and acknowledged by the required parties, duly recorded in the Office of the Recorder of _____[name of county] County, _____[state].

13. All notices, requests, waivers and other communications required or permitted under this Agreement shall be in writing and shall be deemed properly served upon delivery by hand or upon receipt if sent, postage prepaid by United States registered or certified mail, return receipt requested, or by overnight express mail courier, addressed to the last known address of the intended recipient.

14. Nothing herein contained shall be deemed to be a gift or dedication of any portion of the Shopping Center to the general public or for the general public or for any public purposes whatsoever, it being the intention of the parties that this Declaration shall be strictly limited to and for the purposes herein expressed.

15. In the event of any violation or threatened violation by any Property Owner, or lessee or occupant of any portion of the Shopping Center, of any of the terms, covenants, restrictions and conditions contained herein, in addition to the other remedies herein provided, any or all of the Property Owners, lessees and occupants of the Shopping Center shall have the right to enjoin such violation in a court of competent jurisdiction.

16. No violation of the provisions of this Agreement shall entitle any Property Owner to cancel, rescind or otherwise terminate this Agreement, but such limitation shall not affect in any manner any other rights or remedies which such Property Owner, or any lessee or occupant, may have hereunder by reason of any violation of this Agreement. Any violation of any such provision, however, shall not defeat or render invalid the lien of any mortgage or deed of trust made in good faith for value, but such provisions shall be binding upon and effective against any Property Owner whose interest in the Property is acquired by foreclosure, trustee sale or otherwise. (n16)COMMENT

17. If any clause, sentence or other portion of this Agreement shall become illegal, null or void for any reason, or shall be held by any court of competent jurisdiction to be so, the remaining portions thereof shall remain in full force and effect.

18. The ownership of the entire Shopping Center at any time by the same party shall not effect the termination of this Agreement. (n17)COMMENT

19. No provision of this Agreement shall be deemed or construed to require the continuous use for any purpose of the Shopping Center or the continuous occupation by any occupant of any portion of the Shopping Center.

20. This Agreement shall be governed by and construed in accordance with the laws of the State of Ohio.

21. This Agreement may be executed in any number of counterparts, each of which shall be deemed an original and

all of which together shall be deemed to constitute one and the same instrument, and shall be effective upon execution of any one (1) or more of such counterparts by each of the parties hereto and delivery of one (1) or more of such counterparts (or a telecopy thereof) to the other party. (n18)COMMENT

IN WITNESS WHEREOF, the parties have fully executed this Agreement as of the day of the year first hereinabove set forth.

FOOTNOTES:

(n1)COMMENT(n1) This Agreement is between a developer and a national retailer. In order to attract the retailer to its center, the developer was required to sell a portion of the center to the retailer. The retailer intends to construct its store at the site. In order for the developer to protect the integrity of the balance of the center, it is requiring the retailer to comply with various agreements and restrictions. The retailer has the same concerns as the developer. It will also require the developer to comply with certain agreements and restrictions. Additionally, the retailer will want to maintain a competitive advantage in the center by restricting the developer's right to place certain types of tenants at the center.

(n2)COMMENT(n2) The definition of Building Areas is important because it limits where the parties can locate improvements. As a result, site lines, cross access, parking, etc. will be protected.

(n3)COMMENT(n3) The designation of outlots restricts the developer's ability in the future to parcel off the center. It specifically designates those areas where the developer can place single use facilities.

(n4)COMMENT(n4) This provision designates an approved site plan. The site plan designates the common area including parking and driveways, the outlots, building areas, location of pylon or monument signs, access roads, loading areas, retention ponds, light poles, etc.

(n5)COMMENT(n5) This provision grants non-exclusive use to use the common areas located on each property.

(n6)COMMENT(n6) This provision grants each property owner utility access through each other's property.

(n7)COMMENT(n7) Because the center is to be constructed with the look of a contiguous strip center, it will be necessary to have common footers and other aspects of the buildings which encroach on the other property. It also gives the right to each party to maintain and repair such improvements.

(n8)COMMENT(n8) This provision requires each property owner to keep their property in good condition and repair. This is critical because if one of the properties is not sufficiently maintained it will adversely affect the value and viability of the adjacent property and the success of the center as a whole.

(n9)COMMENT(n9) This provision gives each owner the right to use self-help if the other owner does not fulfill its obligations under the agreement. It provides for interest on any expenses made by one party which should have been incurred by the other.

(n10)COMMENT(n10) This limits the right of the property owners to erect signs. It also places requirements on the

signs which will be utilized by the parties.

(n11)COMMENT(n11) This provision restricts parking density, traffic flow, employee parking and loading of merchandise.

(n12)COMMENT(n12) This provision restricts the types of uses which each party (or its tenants) may undertake at the center. Paragraph 7(a) sets forth a list of unsavory uses or uses which may disrupt the center for one reason or another, such as tenants with high parking requirements. Paragraph 7(b) sets forth the exclusive uses which protect the tenants which have signed leases to occupy the center.

(n13)COMMENT(n13) This provision requires each owner to carry insurance. This provision is intended to avoid the circumstance where the center is destroyed by a casualty and one of the owners does not have sufficient capital to rebuild its portion. It also requires each owner to replace the existing improvements in such event.

(n14)COMMENT(n14) This provision requires the owners to deliver estoppel certificates setting forth any known defaults. This provision is helpful in the event that an owner desires to refinance its parcel or to sell its parcel.

(n15)COMMENT(n15) Provisions 10 and 11 make the Agreement binding upon each party's successor. This insures that this agreement will run with the land, and that it will not be voided by a sale. In most states, this agreement will have to be recorded in the public records to give the world constructive notice of its contents and affect on the land.

(n16)COMMENT(n16) This provision prevents a breach of the agreement by one party from negating the entire agreement. For example, if the retailer fails to adequately light its parking lot, the developer will not have the right to cancel the agreement.

(n17)COMMENT(n17) This is an anti-merger clause. In most jurisdictions the joint ownership of two parcels has the effect of canceling any agreement which applies to both parcels. This provision is extremely important because the tenants may be relying upon this agreement when they agree to lease a suite at the center.

(n18)COMMENT(n18) Because this agreement should be recorded, the agreement must be executed and delivered in compliance with applicable conveyance and recording requirements.

(n19)COMMENT(n19)

Chapter 22 DEVELOPMENT AND SUBDIVISION
Part III. Drafting Guidelines

26-22 Current Legal Forms for Real Estate § 22.56

§ 22.56 Checklist for Sale/Purchase of Real Estate

A. Information about seller..... ☐

1. Name of seller..... ☐

2. If seller is an individual, name of seller's spouse (if any)..... ☐

3. If Seller is not an individual, what type of entity is seller
(corporation, partnership, trust)..... ☐

4. Mailing address and phone number of seller (in the case
of an entity, the contact person and the relationship to
entity)..... ☐

5. Reason seller desires to sell subject property..... ☐

B. Information about buyer..... ☐

1. Name of buyer..... ☐

2. If buyer is an individual, name of buyer's spouse (if any)..... ☐

3. If Buyer is not an individual, what type of entity is buyer (corporation, partnership, trust)?..... ☐

4. Mailing address and phone number of buyer (in the case of an entity, the contact person and the relationship to entity)..... ☐

5. A new owner of property can be held financially responsible for the cleanup of a prior owner's environmental contamination. Accordingly, the following steps are essential conditions to the acceptance of any property..... ☐

6. Seller's use of property (vacant, residential, farm, business)..... ☐

C. Information about property..... ☐

1. Mailing address of property..... ☐

2. Number of acres..... ☐

3. Lot or plat number..... ☐

4. Notable conditions or defects of property pursuant to preliminary walk through of property (i.e., oil/gas wells, wetlands, gas tanks, encroachments, etc.)..... ☐

5. Title search..... ☐

6. Is a formal inspection, appraisal and/or survey required or appropriate? If not, why?..... ☐

a. water potability test, if water is supplied by well..... ☐

b. soil test..... ☐

c. core tests..... ☐

d. termite and other pest inspections..... ☐

e. condition of building systems, structural integrity of building if they are to remain (i.e., roof, walls,

parking lots, etc.), including without limitation,
electrical wiring, plumbing, heating, air conditioning,
elevators and septic systems..... ☐

f. environmental concerns..... ☐

i. Phase I..... ☐

ii. Phase II..... ☐

iii. Wetlands..... ☐

7. Nature of improvements, if any, on property (i.e., house, store, shopping center, warehouse, factory, etc.) Do the improvements located on the property or to be located on the property meet green building standards sufficient to be certified as a green building under any of the voluntary rating systems?..... ☐

8. Is property occupied?..... ☐

9. Proposed use of property..... ☐

10. Is construction of building or additions anticipated?..... ☐

11. Current zoning classification of property..... ☐

12. Rezoning or issuance of permits required for proposed use?
If so, length of time normally required to process applications..... ☐

13. Any liens on property (mortgage lien, tax lien, judgment lien, attachment lien, execution lien, mechanics' lien)?..... ☐

14. Any litigation affecting or involving the property (such as bankruptcy, divorce or probate proceedings)?..... ☐

15. Property subject to any leases, easements, rights of way?..... ☐

16. Does the subject property have access to required utilities?..... ☐

- a. Sewer (if no, will septic be a problem?)..... ☐
- b. Water (if no, will well water be a problem?)..... ☐
- c. Gas..... ☐
- d. Electric..... ☐
- e. Cable..... ☐
- f. DSL..... ☐

17. Will any personal property be part of the sale (appliances, furniture, cranes, etc.)? If yes, provide list and describe condition..... ☐

18. Obtain copies of the following documents..... ☐

- a. Seller's occupancy and inspection certificates from municipal and state governmental authorities..... ☐
- b. Recent utility bills..... ☐
- c. Most recent tax bill (look for amount of taxes, special assessments and tax value)..... ☐
- d. Copy of seller's deed by which seller acquired property..... ☐
- e. Copy of seller's title guarantee or title insurance policy..... ☐
- f. Leases or other contracts concerning the subject property (i.e., service contracts, warranties, etc.)..... ☐
- g. Survey of property and plat showing location of all improvements, highways, roads, railroads, rivers, creeks or other water courses, fences, easements or rights of way on or adjacent to the property..... ☐

☐

1. Agreed purchase price..... ☐
2. Amount of earnest money (deposit) requested by seller..... ☐
3. Earnest money refundable if sale not consummated..... ☐
4. Cash at closing..... ☐
5. Anticipated closing date..... ☐
6. Is purchase to be financed? If so, how much, by whom
and what terms?..... ☐
7. Any special timing concerns with respect to closing
date (i.e., date when remodelling or construction must be
completed or date when occupancy must be
obtained)..... ☐
8. Are any brokers involved? If so, give name(s) and
address(es)..... ☐
9. Is other party represented by an attorney?..... ☐
10. Is there a preference for a particular title company or
escrow agent?..... ☐
11. Are there any contingencies?..... ☐
 - a. Financing..... ☐
 - b. Environmental..... ☐
 - c. Zoning changes..... ☐
 - d. Approval of subdivision of consolidation..... ☐
 - e. Wetlands..... ☐

f. Soil conditions..... ☐

g. Issuance of building permit..... ☐

h. Engineer report..... ☐

i. Survey..... ☐

j. Buyer's ability to purchase other property..... ☐

k. Third party approvals..... ☐

12. Who will pay for the following?..... ☐

	Seller	Buyer	Split Equally	
a. Title search	_____	_____	_____	...
	_____	_____	☐	
b. Title insurance	_____	_____	_____	...
	_____	_____	☐	
c. Escrow fee	_____	_____	_____	...
	_____	_____	☐	
d. Inspec- tion(s)	_____	_____	_____	...
	_____	_____	☐	
e. Environmental audit	_____	_____	_____	...
	_____	_____	☐	
f. Survey	_____	_____	_____	...
	_____	_____	☐	
g. Transfer taxes	_____	_____	_____	...
	_____	_____	☐	
h. Recording fees	_____	_____	_____	...
	_____	_____	☐	
i. Accrued prop- erty taxes	_____	_____	_____	...
	_____	_____	☐	
j. Special assess- ments and li- ens	_____	_____	_____	...
	_____	_____	☐	

k.	Preparation of warranty deed	_____	_____	_____	...
		_____	_____	☐	
l.	Survey	_____	_____	_____	...
		_____	_____	☐	
m.	Real Estate Commission	_____	_____	_____	...
		_____	_____	☐	

E. Environmental concerns..... ☐

1. Interview Seller as to the property's history, including prior owners and uses. Information should be gathered as to:..... ☐

a. Air emissions..... ☐

b. Wastewater discharges..... ☐

c. Tanks used for the storage of hazardous substances or petroleum..... ☐

d. Barrels, containers, or other receptacles containing any hazardous substances, pollutant, contaminant, pest control chemicals, chemical substances or mixtures..... ☐

e. Hazardous wastes (ignitable, corrosive, reactive or toxic)..... ☐

f. Buried waste..... ☐

g. Chemical storage shed..... ☐

h. Underground storage tanks..... ☐

i. Polychlorinated biphenyl (PCB) equipment..... ☐

j. Asbestos in buildings..... ☐

k. Radon..... ☐

l. Stained soil..... ☐

m. Areas of stressed vegetation..... ☐

n. Odors..... ☐

o. Any spilling, leaking, pumping, pouring, emitting, emptying, discharging, bleaching, dumping or other disposing into the environment..... ☐

2. Visit the property and search for indications of any of the above-listed contamination..... ☐

3. Where warning signs of possible environmental problems have been uncovered through this initial review, and property is placed in a moderate risk category, then some or all of the following steps should also be taken..... ☐

a. Neighbors and prior owners should be interviewed..... ☐

b. Chain of title search..... ☐

c. EPA and other government records should be reviewed to determine whether the property has been subject to any permitting or enforcement procedures..... ☐

d. An outside specialist in environmental risk assessment should visit the property and conduct a thorough physical inspection of the property, which may include testing of soil and water (a Phase I environmental audit)..... ☐

e. In the case of business property, all employees familiar with operations conducted on the property should be interviewed, and all company records relating to the treatment, storage or disposal of potentially hazardous material should be examined..... ☐

4. If a potential for contamination is identified, but the cost of undertaking a more extensive environmental evaluation is not economical, then the property cannot be accepted..... ☐

5. Where contamination is confirmed or property is placed in a high risk category for other reasons, the property cannot be

accepted..... ☐

F. Miscellaneous contractual provisions..... ☐

1. Representations of seller..... ☐

a. Pending assessment..... ☐

b. Unrecording instruments affecting title..... ☐

c. Pending or threatened actions or orders..... ☐

d. Existing conditions (i.e., environmental wetlands,
encroachments, gas tanks, etc.)..... ☐

e. Seller has disclosed all material matters affecting
property..... ☐

f. Duly authorized..... ☐

2. Representations of buyer..... ☐

a. Duly authorized..... ☐

3. Selection of title company..... ☐

4. Type of title insurance..... ☐

5. Type of deed..... ☐

G. Miscellaneous..... ☐

1. Any other special or extenuating circumstances not noted..... ☐

Current Legal Forms for Real Estate
Chapter 22 DEVELOPMENT AND SUBDIVISION
Part III. Drafting Guidelines

26-22 Current Legal Forms for Real Estate § 22.57

§ 22.57 Checklist for Real Estate Development

- A. Planning phase..... ☐
 - 1. Define nature and scope of project..... ☐
 - a. Residential housing development..... ☐
 - (1) Single-family/owner-occupied..... ☐ - (2) Multi-unit/developer-owned..... ☐
 - b. Commercial development..... ☐
 - (1) Retail..... ☐ - (2) Office..... ☐ - (3) Mixed use..... ☐
 - c. Industrial..... ☐
 - (1) Light industry..... ☐

(2) Heavy industry..... ☐

2. Select site..... ☐

a. Determine feasibility of each possible site ☐

(1) Determine availability of utilities and cost of
installation or hook-up..... ☐

(a) Natural gas..... ☐

(b) Electricity..... ☐

(c) Potable water..... ☐

(d) Sewer system..... ☐

(e) Cable television..... ☐

(f) Telephone..... ☐

(g) DSL..... ☐

(h) Satellite tower and/or dish..... ☐

(2) Assess access of site to public roadways ☐

(3) Assess property tax rates..... ☐

(4) Determine availability of quality public
schools ☐

(5) Estimate number of units/lots that can be placed on
parcel ☐

b. Review environmental aspects of each site ☐

(1) Determine present and past uses..... ☐

(2) Perform Phase I environmental site assessment if
such assessment has not been done in recent

years..... ☐

(3) Perform Phase II environmental site assessment if
Phase I reveals evidence of adverse environmental
impact on property ☐

(4) Bodies of water on or near site?..... ☐

(a) Rivers..... ☐

(b) Lakes..... ☐

(c) Streams..... ☐

(d) Springs..... ☐

(e) Ponds..... ☐

(f) Wells..... ☐

(g) Aquifers..... ☐

(h) Other..... ☐

(5) Wetlands on or near site?..... ☐

(6) Other significant environmental features of the
site ☐

(a) Pine barrens..... ☐

(b) Seashore..... ☐

(c) Other..... ☐

(7) Protected wildlife in the area?..... ☐

c. Is site located within or near a special district? ☐

(1) Historic preservation district..... ☐

(2) Environmental conservation district..... ☐

(3) Federal or state park..... ☐

(4) Other..... ☐

3. Assembly of real estate development team ☐

a. Contractor or project manager..... ☐

(1) Determine scope of duties..... ☐

(2) Review qualifications..... ☐

(3) Investigate references..... ☐

(4) Review other projects completed by contract..... ☐

(5) Reach agreement on compensation..... ☐

(6) Prepare construction contract..... ☐

(a) Turnkey or determine exclusions..... ☐

(b) Timeline/deadlines..... ☐

(i) Interim and final deadline..... ☐

(ii) Determine penalty for failure or bonus for
early completion..... ☐

(c) Compensation..... ☐

(i) Fixed price..... ☐

(ii) Time and materials..... ☐

(iii) Other method..... ☐

(d) Risk of loss and insurance..... ☐

(e) Performance bonds..... ☐

(f) Interim payments..... ☐

(g) Risk of unknown conditions..... ☐

(h) Dispute resolution..... ☐

(i) Architect..... ☐

(ii) Mediation..... ☐

(iii) Arbitration..... ☐

(iv) Selection of jurisdiction of court..... ☐

(v) Other..... ☐

(i) Warranty..... ☐

b. Engineer..... ☐

(1) Determine scope of duties..... ☐

(2) Review qualifications..... ☐

(3) Investigate references..... ☐

(4) Reach agreement on compensation..... ☐

(5) Prepare contract for services..... ☐

(a) Specify in detail services to be rendered,
e.g., ... ☐

(i) Preparation of site plan, drawings, etc. ☐

(ii) Appear at all governmental hearings for
project approval ☐

(iii) Supervise building of infrastructure ☐

(iv) Other duties..... ☐

(b) Deadlines..... ☐

(c) Developer reserves right to terminate
contract ☐

(d) Developer reserves right to make use of
engineer's work product even if contract is
terminated..... ☐

(e) Compensation..... ☐

(i) Hourly rate?..... ☐

(ii) Percentage of total cost of construction? ☐

(iii) Other method?..... ☐

(f) Does engineer carry sufficient malpractice
insurance? ☐

(g) Other contract provisions..... ☐

c. Surveyor..... ☐

(1) Determine scope of duties..... ☐

(2) Review qualifications..... ☐

(3) Investigate references..... ☐

(4) Reach agreement on compensation..... ☐

☐

(a) Specify in detail services to be rendered ☐

(b) Deadlines..... ☐

(c) Developer reserves right to terminate contract ☐

(d) Developer reserves right to make use of surveyor's work product even if contract is terminated..... ☐

(e) Compensation..... ☐

(i) Hourly rate?..... ☐

(ii) Flat fee?..... ☐

(iii) Other method?..... ☐

(f) Other contract provisions..... ☐

d. Architect, if needed..... ☐

(1) Determine scope of duties, including whether the architect will ensure that the construction is done in accordance with certain defined "green building" standards as specified in the plans..... ☐

(2) Review qualifications..... ☐

(3) Investigate references..... ☐

(4) Review other project designed by architect..... ☐

(5) Reach agreement on compensation..... ☐

(6) Prepare contract for services..... ☐

(a) Specify in detail services to be rendered ☐

(b) Deadlines..... ☐

(c) Developer reserves right to terminate contract ☐

(d) Developer reserves right to make use of architect's work product even if contract is terminated..... ☐

(e) Compensation..... ☐

(i) Hourly rate?..... ☐

(ii) Percentage of total cost of construction? ☐

(iii) Flat fee?..... ☐

(iv) Other method?..... ☐

(f) Does architect carry sufficient malpractice insurance? ☐

(g) Other contract provisions..... ☐

e. Financial advisor (independent contractor) ☐

(1) Determine scope of duties..... ☐

(2) Review qualifications..... ☐

(3) Investigate references..... ☐

(4) Reach agreement on compensation..... ☐

(5) Prepare contract for services..... ☐

(a) Specify in detail services to be rendered ☐

(i) Accounting services..... ☐

(ii) Bookkeeping services..... ☐

(iii) Tax advice..... ☐

(iv) Make projections regarding project costs &
revenue..... ☐

(v) Other..... ☐

(b) Deadlines..... ☐

(c) Developer reserves right to terminate
contract..... ☐

(d) Developer reserves right to make use of advisor's
work product even if contract is terminated..... ☐

(e) Compensation..... ☐

(i) Hourly rate?..... ☐

(ii) Flat fee?..... ☐

(iii) Other method?..... ☐

(f) Non-competition clause..... ☐

(g) Confidentiality clause..... ☐

(h) Other contract provisions..... ☐

f. Other consultants, e.g., marketing advisor/real estate
broker. ☐

(1) Determine scope of duties..... ☐

(2) Review qualifications..... ☐

(3) Investigate references..... ☐

(4) Reach agreement on compensation..... ☐

(5) Prepare contract for services..... ☐

(a) Specify in detail services to be rendered ☐

(b) Deadlines..... ☐

(c) Developer reserves right to terminate
contract ☐

(d) Developer reserves right to make use of
consultant's work product even if contract is
terminated..... ☐

(e) Compensation..... ☐

(i) Hourly rate?..... ☐

(ii) Flat fee?..... ☐

(iii) Commission..... ☐

(iv) Other method?..... ☐

(f) Other contract provisions..... ☐

B. Form of ownership of real estate development project ☐

1. Limited partnership..... ☐

a. Identify partners..... ☐

(1) One or more general partners with unlimited
liability ☐

(2) One or more limited partners with limited
liability ☐

b. Identify partner(s) responsible for management and control of project..... ☐

c. Specify the powers and responsibilities of the managing partner(s) ☐

d. Capital contributions of partners..... ☐

(1) Amount of cash to be provided by each partner ☐

(2) Non-cash contributions..... ☐

(a) Land..... ☐

(b) Services..... ☐

(c) Personal Property..... ☐

(d) Other..... ☐

(3) Specify ownership interest of each partner ☐

e. Tax considerations, e.g., appointment of tax matters partner ☐

f. Buy-out considerations, e.g., whether partnership or partners shall be required to buy, or have option to buy, the partnership interest of a partner in the event of his..... ☐

(1) Death..... ☐

(2) Physical or mental disability..... ☐

(3) Retirement..... ☐

(4) Desire to withdraw from firm..... ☐

(5) Dispute..... ☐

- (6) Other reasons..... ☐
- g. Causes of partnership termination..... ☐
- h. Draft partnership agreement..... ☐
2. Corporation..... ☐
- a. Identify shareholder(s)..... ☐
- b. File articles of incorporation..... ☐
- c. Determine purchase price for stock..... ☐
- (i) Cash price..... ☐
- (ii) Non-cash contributions..... ☐
- (a) Land..... ☐
- (b) Services..... ☐
- (c) Personal property..... ☐
- (d) Other..... ☐
- d. Issue shares to shareholders..... ☐
- e. Restrictions on transfer of shares?..... ☐
- f. Meeting of shareholders..... ☐
- g. Control and operation of corporation..... ☐
- (1) Election of board of directors..... ☐
- (2) Adoption of corporate by-laws..... ☐
- (3) Appointment of officers..... ☐

(4) Specification of powers of board..... ☐

(5) Specification of powers of officers..... ☐

h. Tax considerations..... ☐

(1) Tax on corporate income..... ☐

(2) Tax on corporate dividends..... ☐

(3) S corporation election?..... ☐

(4) Other..... ☐

i. Buy-out considerations, e.g., whether corporation or shareholders shall be required to buy, or shall have option to buy, the stock of a shareholder in the event of his..... ☐

(1) Death..... ☐

(2) Physical or mental disability..... ☐

(3) Retirement..... ☐

(4) Desire to withdraw from firm..... ☐

(5) Dispute..... ☐

(6) Other reasons..... ☐

j. Causes of corporate dissolution..... ☐

k. Draft appropriate shareholder agreements ☐

(1) Redemption agreement..... ☐

(2) Cross-purchase agreement..... ☐

(3) Corporate control/close corporation agreement..... ☐

(4) Voting trust agreement..... ☐

(5) Other..... ☐

3. General partnership..... ☐

a. Identify partners..... ☐

(1) General partners..... ☐

b. Identify partner(s) responsible for management and control of project..... ☐

c. Specify the powers and responsibilities of the managing partner(s) ☐

d. Are there any limitations on the actions of any partners? ☐

e. Capital contributions of partners..... ☐

(1) Amount of cash to be provided by each partner ☐

(2) Non-cash contributions..... ☐

(a) Land..... ☐

(b) Services..... ☐

(c) Personal property..... ☐

(d) Other..... ☐

(3) Specify ownership interest of each partner ☐

f. Tax considerations, e.g., appointment of tax matters partner ☐

g. Buy-out considerations, e.g., whether partnership or partners shall be required to buy, or shall have option to buy, the partnership interest of a partner in the event of his..... ☐

(1) Death..... ☐

(2) Physical or mental disability..... ☐

(3) Retirement..... ☐

(4) Desire to withdraw from firm..... ☐

(5) Dispute..... ☐

(6) Other reasons..... ☐

h. Causes of partnership termination..... ☐

i. Draft and file partnership agreement..... ☐

4. Limited liability company..... ☐

a. Identify members..... ☐

b. File articles of organization..... ☐

c. Identify management, roles of members, if not equal..... ☐

d. Capital contributions..... ☐

(1) Amount of cash to be provided by each members..... ☐

(2) Non-cash contributions..... ☐

(a) Land..... ☐

(b) Services..... ☐

(c) Personal property..... ☐

(d) Other..... ☐

(3) Specify ownership..... ☐

e. Tax considerations, e.g., appointment of tax
matter member..... ☐

f. Buy-out considerations, e.g., whether members or
company will be required to buy, or have an option
to buy the interest of a member..... ☐

(1) Death..... ☐

(2) Physical or mental disability..... ☐

(3) Retirement..... ☐

(4) Desire to withdraw from company..... ☐

(5) Dispute..... ☐

(6) Other reasons..... ☐

g. Reason for dissolving company..... ☐

h. Draft operating agreement..... ☐

5. Sole proprietorship considerations..... ☐

a. Personal liability for all debts arising from project ☐

b. Personal liability for all tort claims for injury to person
or property arising from project..... ☐

c. Income, deductions, gains, losses, etc., to be reported on
sole proprietor's individual tax return..... ☐

d. Continuity of project if sole proprietor dies or becomes

ill ☐

e. Difficulty in raising investment capital ☐

C. Land acquisition phase..... ☐

1. Draft option agreement giving developer option to purchase land ☐

a. Time period of option..... ☐

b. Extensions of option period..... ☐

(1) Automatic upon request of developer..... ☐

(2) Automatic upon payment of extra consideration by developer ☐

c. Consideration for option..... ☐

(1) To be applied to purchase price..... ☐

(2) To be applied to purchase price if sale is closed by specified date..... ☐

(3) Not to be applied to purchase price..... ☐

d. Events triggering exercise of option..... ☐

(1) Passage of fixed amount of time..... ☐

(2) Developer obtains governmental approval of project ☐

(3) Completion of survey..... ☐

(4) Satisfactory results of environmental site assessment ☐

(5) Developer obtains acceptable financing for

☐

(6) Other..... ☐

e. Purchase price of land..... ☐

(1) Set forth in option..... ☐

(2) Set per acre..... ☐

(3) Based on appraisal at closing of sale ☐

2. Purchase agreement..... ☐

a. Contingencies..... ☐

(1) Purchase contingent upon developer obtaining
governmental approvals..... ☐

(a) Planning board..... ☐

(b) Zoning board..... ☐

(c) Subdivision approval..... ☐

(d) Environmental impact study..... ☐

(e) Other..... ☐

(2) Purchase contingent upon locating adequate source
of potable water..... ☐

(a) Well water..... ☐

(b) Water company..... ☐

(3) Purchase contingent upon devising means of
disposing of sewage ☐

(a) Individual septic system for each house in
residential development..... ☐

(b) Use municipal sewer system..... ☐

(c) Build private sewage treatment facility for use by development. ☐

(d) Obtain all necessary governmental approvals for whatever method chosen..... ☐

(e) Conduct geological and other studies to determine feasibility of method chosen..... ☐

(4) Purchase contingent upon acquiring basic utilities for development..... ☐

(a) Natural gas..... ☐

(b) Electricity..... ☐

(c) Telephone..... ☐

(d) Cable television..... ☐

(e) DSL..... ☐

(5) Purchase contingent upon acquiring land acquisition financing ☐

(a) Seller to provide financing..... ☐

(b) Investors to provide financing..... ☐

(c) Commercial lender to provide financing ☐

(i) List loan terms and conditions acceptable to developer, e.g., interest rate, repayment period, collateral, etc. ☐

(6) Purchase contingent upon results of environmental site assessment ☐

(7) In the case of a rehabilitation project, purchase is

contingent upon the following..... ☐

(a) Structural inspection..... ☐

(b) Pest inspection..... ☐

(c) Insect inspection (e.g., termites, carpenter ants,
etc.). ☐

(d) Radon gas inspection..... ☐

(e) Lead-based paint inspection..... ☐

(f) Urea formaldehyde insulation inspection ☐

(g) Other..... ☐

b. Title insurance must be obtained..... ☐

c. Time of sale..... ☐

d. Place of sale..... ☐

e. Warranties granted to developer..... ☐

f. Detailed description of property being conveyed ☐

g. Purchase price..... ☐

(1) Fixed amount..... ☐

(2) Price per acre based on survey..... ☐

h. Other provisions..... ☐

3. Financing..... ☐

a. Owner-financed sale..... ☐

(1) Down payment..... ☐

(2) Purchase money mortgage for balance..... ☐

(3) Mortgage subordination clause so developer
can more easily obtain financing for
infrastructure..... ☐

(4) Provision allowing for partial release of mortgage
as units in development are built and sold..... ☐

(a) Per lot..... ☐

(b) Per acre..... ☐

(c) Per section..... ☐

(d) Release for infrastructure..... ☐

(i) Roads..... ☐

(ii) Sidewalks..... ☐

(iii) Water System..... ☐

(iv) Other..... ☐

(5) Payment provisions..... ☐

(a) Amortization period and loan term are the
same ☐

(b) Long amortization period, shorter loan term with
balloon payment ☐

(c) Interest payments only, followed by balloon
payment ☐

(d) Payment of portion of principal upon release of
each lot ☐

(e) How often are payments to be made to seller? ☐

(f) Amount of each payment..... ☐

(g) Portion of each payment to be applied to principal and portion to be applied to interest..... ☐

(h) Personal guaranty..... ☐

(i) Other provisions..... ☐

(6) Interest on mortgage..... ☐

(a) Fixed rate..... ☐

(b) Variable rate..... ☐

(i) If variable rate, is it tied to the prime rate or some other index?..... ☐

(ii) How frequently may rate be adjusted? ☐

(iii) What is maximum rate?..... ☐

(7) Seller's remedies upon default..... ☐

(a) Reclaim full title to property..... ☐

(b) All foreclosure costs, including attorney's fees, to be paid by developer..... ☐

b. Institutional financing (usually not available for vacant land) ☐

(1) Developer must satisfy conditions to receive loan commitment letter..... ☐

(a) Obtain title insurance..... ☐

(b) Obtain survey..... ☐

(c) Other..... ☐

(2) Loan amount..... ☐

(3) How and when loan funds will be disbursed ☐

(4) Recourse or nonrecourse loan?..... ☐

(5) Collateral..... ☐

(6) Loan guarantees..... ☐

(7) Provision allowing for partial release of mortgage as
units in development are built and sold..... ☐

(a) Per lot..... ☐

(b) Per acre..... ☐

(c) Per section..... ☐

(d) Release for infrastructure..... ☐

(i) Roads..... ☐

(ii) Sidewalks..... ☐

(iii) Water system..... ☐

(iv) Other..... ☐

(8) Repayment provisions..... ☐

(a) Amortization period and loan term are the
same ☐

(b) Long amortization period, shorter loan term with
balloon payment ☐

(c) Interest payments only, followed by balloon payment ☐

(d) Payment of portion of principal upon release of each lot ☐

(e) How often are payments to be made to lender? ☐

(f) Amount of each payment..... ☐

(g) Portion of each payment to be applied to principal and portion to be applied to interest..... ☐

(h) Escrow account for real property and school taxes ☐

(i) Other provisions..... ☐

(9) Interest on mortgage loan..... ☐

(a) Fixed rate..... ☐

(b) Variable rate..... ☐

(i) If variable rate, is it tied to the prime rate or some other index?..... ☐

(ii) How frequently may rate be adjusted? ☐

(iii) What is maximum rate?..... ☐

(10) Lender's remedies upon default..... ☐

(a) Claim full title to property..... ☐

(b) Claim full title to collateral..... ☐

(c) All foreclosure costs, including attorneys' fees, to

be paid by developer..... ☐

4. Closing..... ☐

a. Deed..... ☐

b. Note..... ☐

c. Mortgage..... ☐

d. Title insurance..... ☐

e. Title affidavits..... ☐

f. Escrow letters of instruction, if needed ☐

g. Survey..... ☐

D. Construction phase..... ☐

1. Agreement with general contractor..... ☐

a. If government funds are used..... ☐

(1) Provision requiring use of some minority
subcontractors ☐

(2) Provision requiring use of some female
subcontractors ☐

(3) Provisions requiring payment of prevailing
wages ☐

b. Define scope of general contractor's services, including whether
the contractor will be required to use "green building" methods
and comply with standards necessary to obtain a green building
certification..... ☐

c. Provisions pertaining to selection of subcontractors by
general contractor..... ☐

d. Amount of compensation..... ☐

e. Method of compensation..... ☐

(1) Schedule of "progress" payments..... ☐

(2) Lump sum payment upon completion of work ☐

f. Penalties for missed deadlines..... ☐

g. Provision allowing developer to make changes in site
plan and in contractor's responsibilities after construction
has begun ☐

h. Will general contractor be required to produce
bonds? ☐

(1) Performance bond..... ☐

(2) Material and labor bond..... ☐

i. Warranties made by general contractor to developer ☐

j. Risk of loss to be assumed by general contractor in the
event of a strike by construction workers..... ☐

k. Insurance to be obtained by contractor ☐

(1) Workers' compensation..... ☐

(2) Liability..... ☐

(3) Builders' all risk coverage..... ☐

(4) Hold harmless provision protecting developer ☐

l. Completion date..... ☐

m. Other provisions..... ☐

2. Construction financing..... ☐

a. Developer must satisfy conditions to receive loan
commitment letter..... ☐

(1) Obtain title insurance..... ☐

(2) Obtain survey..... ☐

(3) Other..... ☐

b. Land acquisition loan must be paid off or subordinated
to construction loan..... ☐

c. Loan amount..... ☐

d. How and when loan funds will be disbursed ☐

(1) Advances must correspond with builder's
contract ☐

e. Recourse or nonrecourse loan?..... ☐

f. Collateral..... ☐

g. Loan guarantees..... ☐

h. Provision allowing for partial release of mortgage as
units in development are built and sold..... ☐

(1) Per lot..... ☐

(2) Per acre..... ☐

(3) Per section..... ☐

(4) Release for infrastructure..... ☐

(a) Roads..... ☐

(b) Sidewalks..... ☐

(c) Water system..... ☐

(d) Other..... ☐

i. Repayment provisions..... ☐

(1) Amortization period and loan term are the same ☐

(2) Long amortization period, shorter loan term with balloon payment ☐

(3) Interest payments only, followed by balloon payment ☐

(4) Payment of portion of principal upon release of each lot ☐

(5) How often are payments to be made to lender? ☐

(6) Amount of each payment..... ☐

(7) Portion of each payment to be applied to principal and portion to be applied to interest..... ☐

j. Interest on mortgage loan..... ☐

(1) Fixed rate..... ☐

(2) Variable rate..... ☐

(a) If variable rate, is it tied to the prime rate or some other index?..... ☐

(b) How frequently may rate be adjusted?..... ☐

(c) What is maximum rate?..... ☐

k. Lender's remedies upon default..... ☐

(1) Claim full title to property..... ☐

(2) Claim full title to collateral..... ☐

(3) All foreclosure costs, including attorneys' fees, to
be paid by developer..... ☐

3. Approval of municipal building inspector ☐

a. Building permit..... ☐

b. Certificate of occupancy..... ☐

E. Marketing phase..... ☐

1. Select marketing staff..... ☐

a. In-house (employees)..... ☐

(1) Commission..... ☐

(2) Salaried..... ☐

(3) Other method of compensation..... ☐

b. Independent contractor..... ☐

(1) Flat fee..... ☐

(2) Commission..... ☐

(3) Other method of compensation..... ☐

2. Prepare marketing agreement..... ☐

a. Advertising..... ☐

(1) Frequency..... ☐

(2) Medium..... ☐

(a) Television..... ☐

(b) Radio..... ☐

(c) Newspapers..... ☐

(d) Magazines..... ☐

(e) Billboards..... ☐

(f) Telemarketing..... ☐

(g) Mass mailing..... ☐

(h) Other methods..... ☐

(3) Who will prepare advertisements?..... ☐

(4) Of what size or length shall they be? ☐

(5) Who is responsible for expense?..... ☐

(6) Who is responsible for content of
advertisements? ☐

b. Termination provision..... ☐

(1) For cause..... ☐

(2) Without cause..... ☐

(3) Specify notice required..... ☐

(4) Specify consideration due to marketing advisor(s)
on termination ☐

c. Specify whether following will be made available to marketing staff..... ☐

(1) Office space..... ☐

(2) Equipment..... ☐

(3) Supplies..... ☐

(4) Other..... ☐

d. Specify scope of representations marketing staff may make on behalf of developer..... ☐

e. Specify any obligation to supply information to buyers prior to executing purchase contracts..... ☐

f. Specify other duties of marketing staff ☐

3. Develop standard sales contract..... ☐

a. Description of unit to be purchased..... ☐

b. Location in development..... ☐

c. Price..... ☐

d. Down payment..... ☐

e. Standard features of unit..... ☐

f. Optional features of unit..... ☐

g. Set forth construction period..... ☐

h. State whether purchaser has right to inspect during construction period..... ☐

i. Form of title purchaser will be receiving, e.g., fee

simple absolute, etc..... ☐

j. Any restrictions or easements to use of property ☐

k. Requirement that transfer of title occur immediately
after issuance of certificate of occupancy..... ☐

l. Other provisions..... ☐

4. Transfer of title..... ☐

a. Prepare deed..... ☐

b. Obtain mortgage releases for acquisition and
construction loans ☐

c. Attend closing, deliver deed and receive certified
funds ☐

5. For property to be leased, rather than sold ☐

a. Establish rental amount..... ☐

b. Establish term of lease..... ☐

c. Establish frequency of payments..... ☐

(1) Monthly..... ☐

(2) Quarterly..... ☐

(3) Semi-annually..... ☐

(4) Annually..... ☐

(5) Other..... ☐

d. Specify leased area..... ☐

(1) Unit number..... ☐

(2) Diagram..... ☐

(3) Other description..... ☐

e. Set forth repair and maintenance obligations of
landlord ☐

(1) Structural and heating, ventilation, air
conditioning ☐

(2) Non-structural..... ☐

f. Set forth repair and maintenance obligations of
tenant ☐

g. Security deposit..... ☐

(1) Amount..... ☐

(2) Bank where it will be held..... ☐

(3) Interest-bearing account?..... ☐

h. Termination provision..... ☐

(1) Upon failure to make rental payment..... ☐

(2) Fire or other casualty..... ☐

(3) Other reasons..... ☐

i. Lease renewal provision..... ☐

Current Legal Forms for Real Estate
Chapter 22 DEVELOPMENT AND SUBDIVISION
Part III. Drafting Guidelines

26-22 Current Legal Forms for Real Estate § 22.58

§ 22.58 Checklist for Purchaser of Development

Part 1: Pre-Contract Stage

A. Determine status of governmental approvals..... ☐

1. Determine which approvals were necessary for development
to be built..... ☐

a. Zoning board..... ☐

b. Planning board..... ☐

c. Environmental impact study..... ☐

d. Approval of site plan and subdivision..... ☐

e. Historic review commission..... ☐

f. Conservation district..... ☐

g. Other..... ☐

h. Have "green building" standards required by local
ordinances been met and approved?

2. Determine status of approval process..... ☐

a. Has it been completed?..... ☐

b. What conditions were imposed by the governmental authority? ☐

(1) Have these conditions been met?..... ☐

(2) What time limits were imposed on the developer for compliance? ☐

(3) Has there been any notice of violation sent to the developer? ☐

(a) Currently?..... ☐

(b) Previously?..... ☐

(4) Are there any violations that have gone unnoticed by the governmental authority?..... ☐

(5) What conditions, if any, remain to be met? ☐

(a) Too costly to comply?..... ☐

(b) Too difficult to comply?..... ☐

c. Completion bonds and letters of credit ☐

(1) Required by governmental authority?..... ☐

(2) Are they currently in full force and effect? ☐

(3) Are they transferable?..... ☐

(4) What would be the cost to replace or renew them? ☐

d. If roadways have been constructed, do they meet municipal standards so as to be eligible for dedication to the municipality as public roads?..... ☐

B. Environmental issues..... ☐

1. Has a Phase I environmental site assessment been completed? ☐

a. Are complete written results of the assessment available? ☐

b. What is the reputation of the company that performed or will be performing the assessment?..... ☐

(1) Licensed and in good standing?..... ☐

(2) How much experience does it have in performing assessments? ☐

c. Was any testing performed?..... ☐

(1) Air..... ☐

(2) Surface water..... ☐

(3) Groundwater..... ☐

(4) Soil..... ☐

(5) Other..... ☐

(6) Is data available for review?..... ☐

(7) What was the scope and nature of the testing? ☐

(8) What was the reason for performing the testing? ☐

(9) Were satisfactory results achieved?..... ☐

(10) Were any limitations placed on the testing or on the resulting report?..... ☐

(11) Is further testing needed?..... ☐

2. Wetlands..... ☐

a. Has a wetlands study been performed?..... ☐

b. What is the reputation of the company that performed
or will be performing the study?..... ☐

(1) Licensed and in good standing?..... ☐

(2) How much experience does it have in performing
such studies? ☐

c. Were any wetlands found?..... ☐

d. How much land is affected?..... ☐

e. What restrictions on use affect the wetlands area? ☐

f. Has the municipality considered and approved the site
plan and the wetlands designation?..... ☐

3. Does real estate development project include the rehabilitation
of existing structure(s)?..... ☐

a. Determine whether asbestos exists..... ☐

(1) Has licensed asbestos handler been found? ☐

(2) Cost of asbestos removal project..... ☐

(3) Location and amount of asbestos to be
removed ☐

(4) Will asbestos be removed or encapsulated? ☐

b. Determine whether urea formaldehyde insulation
exists ☐

(1) Has company been found to remove insulation? ☐

(2) Cost of removal project..... ☐

(3) Location and amount of insulation to be removed ☐

(4) Will removal be too difficult to perform? ☐

c. Determine whether wood-boring organisms exist ☐

(1) Has licensed exterminator been found? ☐

(2) Nature of infestation..... ☐

(a) Termites..... ☐

(b) Carpenter ants..... ☐

(c) Other..... ☐

(3) Extent of infestation..... ☐

(4) Location of infestation..... ☐

(5) Nature of damage..... ☐

(6) Extent of damage..... ☐

(7) Location of damage..... ☐

(8) Cost to repair..... ☐

(9) Difficulty of repair..... ☐

d. Other site-specific concerns..... ☐

e. Will the site and improvements to be constructed comply with "green building" standards?

C. Title issues..... ☐

1. Survey..... ☐

a. Was it certified by a licensed land surveyor? ☐

b. Was it performed recently?..... ☐

c. Does it show all improvements made to date? ☐

d. Does it show all major natural features of the
land? ☐

(1) Bodies of water..... ☐

(2) Wooded areas..... ☐

(3) Other..... ☐

e. Determine whether any encroachments exist. ☐

f. Determine whether any easements and other restrictions
are included..... ☐

g. Does it include the location of wetlands found on the
property? ☐

h. Are individual lot lines shown?..... ☐

(1) Is number of lots consistent with the government
approvals already granted?..... ☐

(2) Is size of lots consistent with the government
approvals already granted?..... ☐

(3) Are any lots unusable?..... ☐

i. Have setback requirements been met?..... ☐

j. Have green space requirements been met? ☐

2. Covenants and restrictions..... ☐a. Determine whether covenants and restrictions exist on the use or transfer of the property..... ☐(1) Determine whether they are filed with county clerk or other appropriate governmental authority..... ☐(2) Determine whether they are violative of law ☐(a) Discriminatory?..... ☐(b) Unreasonably restrictive?..... ☐(c) Other basis..... ☐(3) Determine whether any violations of the covenants or restrictions have already occurred..... ☐b. Determine whether additional covenants and restrictions are needed ☐(1) Regarding use of land?..... ☐(2) Regarding type of construction permitted in the development? ☐(3) Regarding quality of construction required in the development? ☐(4) Regarding transfer of property?..... ☐(5) Regarding rental of property?..... ☐(6) Regarding membership in homeowners' association? ☐(7) Regarding membership in merchants' association? ☐

(8) Other types of covenants and restrictions

necessary? ☐

(9) Determine method of amending these covenants
and restrictions ☐

(a) Permission of developer required?..... ☐

(b) Permission of any existing owners
required? ☐

D. Municipal services..... ☐

1. Determine whether municipal water and sewer services are
available for the site..... ☐

a. Determine cost to hook up the site..... ☐

b. Determine need for, and cost of, any development-
wide equipment prior to installation..... ☐

c. Determine cost of receiving services..... ☐

2. Determine whether private water and sewer services are
available for the site..... ☐

a. Determine who provides the services..... ☐

b. Determine whether provider has all necessary licenses
and governmental approvals necessary to
provide services ☐

c. Determine cost to hook up the site..... ☐

d. Determine need for, and cost of, any development-
wide equipment prior to installation..... ☐

e. Determine the fees to be charged for these services ☐

f. Determine whether there are limits on fees for these
services ☐

g. Determine whether provider is obligated to provide services to site..... ☐

(1) Is this obligation mandated by operation of state law? ☐

(2) Is the obligation contractual?..... ☐

(a) Determine whether contract is assignable to purchaser of development..... ☐

(b) Determine terms and conditions of assignment ☐

3. Determine whether other municipal services are available ☐

a. Trash removal..... ☐

b. Police protection..... ☐

c. Fire protection..... ☐

d. Primary and secondary schools..... ☐

e. Emergency medical services..... ☐

f. Other services..... ☐

E. Marketing considerations..... ☐

1. Location of the development..... ☐

a. Easy access to roadways?..... ☐

b. Is there a need in the surrounding area for a development of this type?..... ☐

c. Does a similar development already exist in the area, and, if so, does it meet the community's needs?..... ☐

d. Is the development in close proximity to a major population center?..... ☐

2. What is the general character of area surrounding the development? ☐

a. Residential/affluent..... ☐

b. Residential/middle class..... ☐

c. Residential/blue collar workers..... ☐

d. Residential/low income..... ☐

e. Heavy industrial..... ☐

f. Light industrial..... ☐

g. Retail..... ☐

h. Offices..... ☐

i. Mixture of the above..... ☐

j. Rural..... ☐

3. What is the reputation of the local schools? ☐

4. Are local property taxes high?..... ☐

5. Are there recreational facilities near the development? ☐

6. Will recreational facilities be made a part of the development? ☐

7. Are there shopping areas near the development?. ☐

F. Other considerations..... ☐

1. Determine whether any lots in the development have been sold already..... ☐

a. Are the structures already built, if any, fully compatible with their intended use?..... ☐

b. Will use of such lots be sufficiently restricted to protect value, style and use of lots under consideration?..... ☐

Part 2: Contract Stage

G. Contract of sale and purchase..... ☐

1. Identify seller(s)..... ☐

a. Name..... ☐

b. Address..... ☐

2. Capacity of seller..... ☐

a. Individual..... ☐

(1) Meets age of majority..... ☐

(2) Is competent..... ☐

b. Corporation..... ☐

(1) Obtain proof from representative of corporation that he has authority to act on behalf of corporation (e.g., letter from president) ☐

(2) Obtain copy of board of directors' resolution authorizing sale ☐

(3) Is approval of court (e.g., bankruptcy court) required? ☐

(4) Is approval of any state or local government agency required? ☐

c. Partnership..... ☐

(1) Obtain proof from representative of partnership that
he has authority to act on behalf of partnership..... ☐

(2) Obtain copy of partners' decision authorizing
sale ☐

(3) Is approval of court (e.g., bankruptcy court)
required? ☐

(4) Is approval of any state or local government agency required? ☐

d. Fiduciary..... ☐

(1) Obtain proof of appointment..... ☐

(2) Determine source of appointment..... ☐

(a) By law..... ☐

(b) By court order..... ☐

(c) By document (e.g., will or trust agreement) ☐

(3) Determine whether court order is required for
sale ☐

e. Attorney-in-Fact or Agent..... ☐

(1) Obtain proof of appointment..... ☐

(2) Obtain proof that appointment has not been
revoked ☐

(3) Is principal alive?..... ☐

(4) Is principal competent?..... ☐

(5) Does grant of authority include sale of real
property? ☐

3. Identify purchaser(s)..... ☐

a. Name..... ☐

b. Address..... ☐

4. Capacity of Purchaser..... ☐

a. Individual..... ☐

(1) Meets age of majority..... ☐

(2) Is competent..... ☐

b. Corporation..... ☐

(1) Obtain proof from representative of corporation that he has authority to act on behalf of corporation (e.g., letter from president) ☐

(2) Obtain copy of board of directors' resolution authorizing purchase..... ☐

(3) Is approval of court (e.g., bankruptcy court) required? ☐

(4) Is approval of any state or local government agency required? ☐

c. Partnership..... ☐

(1) Obtain proof from representative of partnership that he has authority to act on behalf of partnership..... ☐

(2) Obtain copy of partners' decision authorizing purchase ☐

(3) Is approval of court (e.g., bankruptcy court) required? ☐

(4) Is approval of any state or local government agency required? ☐

d. Fiduciary..... ☐

(1) Obtain proof of appointment..... ☐

(2) Determine source of appointment..... ☐

(a) By law..... ☐

(b) By court order..... ☐

(c) By document (e.g., will or trust agreement) ☐

(3) Determine whether court order is required for purchase ☐

e. Attorney-in-Fact or Agent..... ☐

(1) Obtain proof of appointment..... ☐

(2) Obtain proof that appointment has not been revoked ☐

(3) Is principal alive?..... ☐

(4) Is principal competent?..... ☐

(5) Does grant of authority include purchase of real property? ☐

5. Identify the subject premises..... ☐

a. Describe location by county and by municipality ☐

b. Describe location by street address..... ☐

c. Describe location by reference to filed map(s) of subdivision ☐

d. Describe location by real estate tax map number ☐

e. Describe location by prior recorded deed(s) ☐

f. Describe location by metes and bounds..... ☐

6. Identify all structures which are located on premises, e.g., ... ☐

a. Office building(s)..... ☐

b. House(s)..... ☐

c. Garage(s)..... ☐

d. Storage shed(s)..... ☐

e. Barn(s)..... ☐

f. Other..... ☐

7. Identify fixtures which are included in sale price ☐

8. Identify personal property included in sales price, e.g., ... ☐

a. Appliances..... ☐

b. Furniture..... ☐

c. Swimming pool..... ☐

d. Window shades/blinds..... ☐

e. Other..... ☐

f. Which items will be transferred in "as is" condition? ☐

g. Which items will be transferred in good working

order? ☐

h. Who will bear risk of loss between contract date and transfer of title?..... ☐

9. Identify fixtures which are excluded from sale price ☐

10. Identify personal property excluded from sale price ☐

11. Identify fixtures to be transferred at additional cost to purchaser..... ☐

a. Which will be transferred in "as is" condition? ☐

b. Which will be transferred in good working order? ☐

c. Who will bear risk of loss between contract date and transfer of title?..... ☐

12. Identify personal property to be transferred at additional cost to purchaser..... ☐

a. Which will be transferred in "as is" condition? ☐

b. Which will be transferred in good working order? ☐

c. Who will bear risk of loss between contract date and transfer of title?..... ☐

13. Purchase price..... ☐

a. Total amount..... ☐

b. Additional cost to purchaser for fixtures listed above ☐

c. Additional cost to purchaser for personal property listed above ☐

d. Will purchaser assume existing mortgage(s)? ☐

e. Deposit..... ☐

(1) Amount..... ☐

(2) When due..... ☐

(3) Form of payment (e.g., cashier's check) ☐

(4) Where funds are held..... ☐

f. Adjustments to purchase price..... ☐

(1) Property taxes..... ☐

(2) Fuel oil..... ☐

(3) Prepaid services (e.e., trash collection) ☐

(4) Water and sewer levies..... ☐

(5) Special assessments..... ☐

(6) Other..... ☐

14. Contingencies: specify date by which each contingency must be resolved and standard to be used in determining whether contingency is satisfied..... ☐

a. Inspection for wood-boring insects..... ☐

b. Structural inspection..... ☐

c. Test for radon gas..... ☐

d. Inspection for asbestos insulation..... ☐

e. Inspection for urea formaldehyde insulation ☐

f. Attorney's approval of sale-purchase..... ☐

- g. Environmental site assessment..... ☐
- h. Locating source of potable water..... ☐
- i. Locating sewage treatment service..... ☐
- j. Has the structure been certified as a "green" building under the applicable rating system.

15. Type of mortgage..... ☐

- a. Will seller provide financing?..... ☐
- b. Will institutional lender provide financing? ☐
- c. Will some combination of the foregoing methods of financing be used?..... ☐
- d. Determine whether mortgage will be recourse or nonrecourse ☐
- e. Determine security for debt..... ☐
- f. Fixed rate?..... ☐
- g. Adjustable rate?..... ☐
- h. Balloon?..... ☐
- i. Convertible?..... ☐
- j. Term of mortgage..... ☐
- k. Maximum interest rate..... ☐
- l. Maximum points purchaser will pay..... ☐

16. Existing mortgages to be assumed..... ☐

a. Review all loan documents..... ☐

(1) Determine whether loan is assumable..... ☐

(2) Determine whether approval of assumption is
required ☐

(3) Determine conditions for assumption..... ☐

b. Obtain certifications from lender regarding ☐

(1) Amount still due..... ☐

(2) Existing defaults, if any..... ☐

c. Determine whether original mortgagor will remain liable
for debt ☐

d. Determine whether mortgage provides for releases upon
sale of individual lots..... ☐

17. Existing mortgages to be paid from proceeds of sale and
purchase? ☐

a. Determine whether sufficient proceeds will exist to
satisfy mortgages..... ☐

18. Environmental considerations..... ☐

a. Site conditions..... ☐

(1) Warranty by seller that site does not contain
adverse environmental condition..... ☐

(2) Disclaimer by seller regarding whether site
contains adverse environmental condition..... ☐

(3) Representations by seller..... ☐

(a) Present condition of site..... ☐

(b) Past use of site..... ☐

(c) Present use of site..... ☐

(d) Property is in compliance with all environmental
laws and regulations (federal, state and
local)..... ☐

(4) Hold harmless clause..... ☐

(5) Indemnification clause..... ☐

b. Special governmental approvals from agencies, districts
or boards ☐

(1) Conservation district..... ☐

(2) Historic district..... ☐

(3) Zoning board..... ☐

(4) Wetlands protection..... ☐

c. Environmental site assessment..... ☐

19. Type of deed to be given..... ☐

a. Warranty..... ☐

b. Bargain and sale..... ☐

c. Executor's..... ☐

d. Administrator's..... ☐

e. Trustee's..... ☐

f. Referee's..... ☐

g. Quitclaim..... ☐

20. Purchaser will take property subject to following conditions ☐

a. Zoning laws..... ☐

b. Environmental laws..... ☐

(1) Federal..... ☐

(2) State..... ☐

(3) Local..... ☐

c. Covenants in the deed..... ☐

d. Any restrictions..... ☐

e. Easements..... ☐

f. Tenancies..... ☐

g. Licenses..... ☐

21. Warranties and representations by seller ☐

a. Title is free and clear..... ☐

b. All governmental approvals obtained..... ☐

c. No violations of governmental approvals ☐

d. Covenants and restrictions are valid and enforceable ☐

e. No existing violations of covenants and restrictions ☐

f. No restrictions exist on seller's ability to transfer title ☐

22. Title..... ☐

a. Easements..... ☐

(1) Determine what easements exist and affect the property to be conveyed..... ☐

(a) Ingress and egress..... ☐

(b) Utility easements..... ☐

(c) Gas and mineral rights..... ☐

(d) Other..... ☐

(2) Determine what easements may be needed ☐

(a) Natural gas lines..... ☐

(b) Electrical transmission lines..... ☐

(c) Telephone cables..... ☐

(d) Cable television..... ☐

(e) Access to public roadways..... ☐

(f) Access to public water and sewer lines ☐

(g) Other..... ☐

23. Title review (abstract or insurance)..... ☐

a. Specify who prepares abstract update..... ☐

b. Specify who provides title insurance..... ☐

c. Specify party responsible for payment..... ☐

24. Specify date of transfer of title..... ☐

a. Whether date is approximate..... ☐

b. Time is of the essence..... ☐

c. Where transfer will occur..... ☐

25. Specify when possession will be granted to purchaser ☐

a. Prior to transfer of title..... ☐

(1) Insurance considerations..... ☐

(2) Allocation of risk of loss..... ☐

(3) Rent owed by purchaser to seller..... ☐

b. At transfer of title..... ☐

c. After transfer of title..... ☐

(1) Insurance considerations..... ☐

(2) Allocation of risk of loss..... ☐

(3) Time of inspection..... ☐

(4) Amount of purchase price held back to cover any
damages ☐

(5) Rent owed by seller to purchaser..... ☐

26. Miscellaneous clauses..... ☐

a. Waiver provision (e.g., "the waiver of any provision of
this agreement shall not be valid unless it is in writing
and signed by the party granting the waiver")..... ☐

b. This agreement represents entire agreement of the

parties ☐

c. Any modifications of agreement must be in written form
and signed by both parties..... ☐

d. Agreement is to be construed in accordance with the laws
of the State of ☐

e. Agreement is binding on both parties and their successors
and assigns..... ☐

f. Determine that all documents have been properly
executed, acknowledged, delivered and recorded..... ☐

g. Notice requirements (including whether facsimile
transmission is acceptable)..... ☐

h. All provisions in agreement should be gender
neutral ☐

i. Include provision for compensation of broker, if
any ☐

j. Specify which terms and representations survive the
closing ☐

k. Other..... ☐

27. Execution..... ☐

a. Signed by parties or their representatives ☐

b. Dated..... ☐

c. Witnesses..... ☐

d. Acknowledged..... ☐

Current Legal Forms for Real Estate
Chapter 22 DEVELOPMENT AND SUBDIVISION
Part III. Drafting Guidelines

26-22 Current Legal Forms for Real Estate § 22.59

§ 22.59 Checklist for Construction Loan

A. Documents to be prepared by lender/lender's counsel..... ☐

1. Loan application..... ☐

2. Construction loan and security agreement..... ☐

3. Mortgage note for construction loan..... ☐

4. Open-end mortgage, assignment of rents and leases and
security agreements..... ☐

5. Environmental representations, release, hold harmless and
indemnity agreement..... ☐

6. Collateral assignment of construction contract(s)..... ☐

7. Transaction guaranty..... ☐

8. Certificate of borrower..... ☐

9. Financing statement [UCC-1] for _____ secretary

of state..... ☐

10. Financing Statement [UCC-1] for _____ county recorder..... ☐

11. Escrow instruction letter..... ☐

12. FEMA flood zone certification..... ☐

13. Borrower's counsel legal opinion..... ☐

14. Notice of commencement..... ☐

15. Lender's internal documents..... ☐

(a) Loan application..... ☐

(b) IRS Form W-9 with borrower's TIN..... ☐

(c) Credit approvals for loan amount..... ☐

(d) Signature cards..... ☐

(e) Company authorization..... ☐

B. Documents to be prepared/provided by borrower's counsel..... ☐

1. Plans and specifications for the subdivision construction [as approved by County Auditor and City]..... ☐

(a) Plat approval..... ☐

(b) Subdivision approval..... ☐

(c) Evidence of dedicated roadway bond..... ☐

(d) Lot split approval..... ☐

2. Construction contract for new home construction..... ☐

3. Current property location survey(s); site plans;
Surveyor's certifications..... ☐
4. Lot-based maps..... ☐
5. Phase I environmental site assessment..... ☐
- (a) Wetland delineation study..... ☐
- (b) Reliance letter..... ☐
6. Current project appraisal..... ☐
7. Evidence of proper zoning for the Project..... ☐
8. Evidence of public utilities availability (electric, gas, water,
sewer) for the Project..... ☐
9. Borrower's organizational documents..... ☐
- (a) Articles of Organization..... ☐
- (b) Operating Agreement..... ☐
- (c) Certificate of full force and effect for borrower..... ☐
- (d) Company resolution authorizing borrowing..... ☐
10. ALTA mortgagee title insurance policy with standard
exceptions deleted equal to full principal amount of loan(s)
including the following endorsements..... ☐
- (a) Comprehensive endorsement (affirmative access
insurance)..... ☐
- (b) Zoning endorsement..... ☐
- (c) Pending disbursements provision..... ☐
- (d) Variable rate endorsement..... ☐

(e) Contiguity endorsement..... ☐

(f) Subdivision endorsement..... ☐

(g) Insured closing letter..... ☐

11. Insurance policies and certificates of insurance..... ☐

(a) Builder's risk..... ☐

(b) Property..... ☐

(c) Liability..... ☐

12. Evidence of compliance with US Army Corps of Engineers
permit directive..... ☐

Chapter 22 DEVELOPMENT AND SUBDIVISION

Part IV. FORMS

A. ACQUISITIONS FOR DEVELOPMENT AND SUBDIVISION

26-22 Current Legal Forms for Real Estate FORM 22.01

FORM 22.01 Option to purchase land for development--provision for partial releases from purchase money mortgage

COMMENT

This chapter illustrates various types of contracts in transactions for the acquisition of real estate where the buyer's principal objective is the improvement of the property. As in all matters relating to real estate, the law applicable to transfers varies considerably from state to state, so that no single set of forms can possibly meet the requirements of the real property and contract law of every state. Each agreement must be tested against the law of the appropriate jurisdiction.

Limit on financial involvement.

Even if substantial improvements are contemplated by the buyer, the transaction may take the form of a simple transfer of unimproved land. But in most large scale projects, the buyer is anxious to put a limit on his financial involvement, with the result that the seller must often retain a stake in the enterprise. This stake may be in the form of a purchase money mortgage with provisions for the release of specific parcels as improvements on these parcels are completed by the buyer.

The seller's interest in the type of improvements and in the time for their completion may come not only from a desire to protect his purchase money mortgage but from his concern over the effect the improvements may have on other land held by the seller. In many cases, the first step in the transaction is merely an option to the buyer, giving him a chance to investigate the potentialities of the property. In some cases, a sale may be made of one parcel with the understanding that additional parcels are to be made available to the purchaser when prior commitments with respect to other parcels are fulfilled. Frequently, the seller may want to retain temporary control over the property, or he may want to preserve a permanent interest by way of

an easement or other encumbrance. On the other hand, the seller may undertake to make certain basic improvements in the land, such as streets, sewers, water mains, etc., before the buyer is required to take title. These and other contractual variations are illustrated by the forms in this group.

Partial release from mortgage.

This form is an option to acquire land, but with no special undertakings or limitations. However, it does illustrate the usual technique employed in the sale of acreage for development and subdivision. The important provision is the one that permits partial releases from the purchase money mortgage (see Paragraph 7(c)). With such a provision, the developer can sell unencumbered segments of the property as improvements on these segments are completed. Without such freedom, the developer's selling program would be inhibited since he could not convey clear title to any part of the property without satisfying the lien on all the acreage created by the purchase money mortgage.

Under this form, the developer, at the closing, is to be given a release of specific acreage in consideration for the down payment. Thereafter, the developer may obtain releases upon the payment of a specified amount for each acre, with the payments applied against the mortgage debt. Releases are to be granted only for acreage contiguous to previously release acreage. As a corollary to the release provision, the agreement provides for the prepayment of the mortgage debt without penalty.

Recording of plats.

Under the provisions of this form, the seller agrees to join in any plats that the purchaser may wish to record under local law. The agreement states that any such collaboration by the seller is only for the purpose of registering its consent to the subdivision, and is not to be construed as subdivision activity by the seller which might cause it to be classified as a "dealer" in real estate.

FORM

OPTION AGREEMENT made December 10, ____[year], between Hames Realty, Inc., a Florida corporation (the "Seller"), and James Baron, of St. Petersburg (the "Purchaser").

In consideration of the covenants hereinafter contained, and of other good and valuable consideration, it is agreed as follows:

1. *Grant of option.* The Seller grants to the Purchaser the exclusive option to purchase, upon the terms and conditions set forth below, the property situated in Sarasota County, Florida, particularly described as follows:

[Insert description]

2. *Exercise of option.* The Purchaser shall exercise this option within 90 days from the date of this agreement, by notice in writing to the Seller addressed in care of Harris & Harris, Esqs., 100 Professional Building, Sarasota, Florida. Said notice shall be either hand delivered or sent certified mail, return receipt requested. Notice shall be deemed given when received. Notice may not be given by facsimile transmission. Any attempt to give notice by facsimile transmission shall be void and of no effect.

3. *Default by purchaser.* If the Purchaser fails to exercise this option, or makes any default after he exercises it, the Seller shall retain all money paid to it by the Purchaser upon the execution of this agreement as consideration for the grant of the option to the Purchaser, and all rights of the Purchaser under this agreement shall terminate.

4. *Title Commitment.* Within 30 days after the Purchaser exercises this option as provided, the Seller, at its own expense, shall cause to be delivered to the Purchaser, or to the Purchaser's attorney, a Title Commitment for an Owner's Fee Policy of Title Insurance ("Title Commitment") from a reputable title company covering the property described in Paragraph 1 continued down to date showing the Seller's title to be good and marketable or insurable. The Purchaser shall then have 30 days in which to review the Title Commitment and to accept it if the title is good and marketable or insurable. If the Title Commitment fails to disclose the Seller's title to be good and marketable or insurable, the Purchaser shall notify the Seller in writing of any defects within the 30-day period, and the Seller shall have a reasonable time (but not more than 25 days) in which to make the title good and marketable or insurable, and shall use due diligence in an effort to do so. If, after using due diligence, the Seller is unable to make the title good and marketable or insurable within such reasonable time, the Purchaser may either accept the title in its existing condition with no further obligation by the Seller to correct any defect, or cancel this agreement. If this agreement is cancelled, all money paid by the Purchaser to the Seller upon the execution of this agreement shall be returned to the Purchaser, and this agreement shall terminate without further obligation between the parties.

5. *Environmental site assessment.* Within thirty (30) days after the Purchaser exercises this option, as herein provided, the Purchaser shall obtain an environmental site assessment at his own expense, and a wetlands delineation showing the existence of any wetlands. The environmental site assessment and wetlands delineation shall be performed by Cosmic Geo-Science, Inc., or by such other qualified environmental consulting company acceptable to both parties, in the event that Cosmic is not available. A copy of the environmental site assessment and wetlands delineation shall be provided to both Purchaser and Seller. In the event that the assessment report finds a need for testing of soil, water and/or air, or that there is an indication of a potential adverse environmental condition existing on the premises, or the existence of wetlands areas, Purchaser shall have the right to terminate this option agreement by giving written notice to Seller, as set forth in Paragraph 2 above, within ten (10) days after receipt of the assessment report from Cosmic.

In the event that Purchaser decides to terminate the agreement based on the assessment report, all funds on deposit, including the deposit of \$2,000 paid upon the execution of this agreement, shall be refunded to Purchaser immediately. The parties shall also exchange mutual releases.

In the event that Purchaser elects to terminate the agreement, Purchaser agrees not to disclose the contents of the assessment report to anyone. Purchaser acknowledges that breach of this covenant may subject him to damages for any loss suffered by Seller as a result of such disclosure.

Notwithstanding the foregoing, Seller may delay the effective date of the termination of the agreement for sixty (60) days by giving written notice to Purchaser, as set forth in Paragraph 2, and by arranging for any additional testing and/or remediation suggested in the assessment report during the said sixty (60) day period, at Seller's expense. Seller shall be required to obtain from Cosmic written evidence that the testing showed no evidence of unsatisfactory environmental conditions and/or that all remediation has been completed in compliance with all federal, state and local laws and regulations. In the event that Seller complies with the provisions of this Paragraph, Purchaser shall remain obligated to complete the purchase of said property under the terms of this agreement.

6. *Purchase price.* The purchase price for the property described in Paragraph 1 is \$165,000, to be paid by the Purchaser to the Seller as follows:

(a) \$2,000 upon the execution of this agreement, which is the consideration for the granting of this option to the Purchaser, but which shall be applied against the purchase price if this transaction closes in accordance with the terms of this agreement.

(b) \$46,000 in cash upon the closing.

(c) \$117,000 by a purchase money note and first mortgage to be executed by the Purchaser and delivered to the Seller at the closing. The note and mortgage shall contain the provisions enumerated in paragraph 7, and all other consistent provisions reasonably required for the mortgagee's protection.

7. Purchase money note and mortgage. The purchase money note and mortgage referred to in paragraph 6(c) shall contain the following provisions:

(a) The amount of the purchase money note and mortgage shall be \$117,000, which shall be payable in five installments: the first installment of \$25,000 one year from the date of closing, and the remaining four installments of \$23,000 each successively two, three, four, and five years from the date of closing. Interest at 15 percent per annum on unpaid balances shall be payable semiannually.

(b) The purchase money note and mortgage shall provide for the standard 30-day default clause, and for prepayment, in whole or in part, at any time without penalty, after January 1, ____[year].

(c) The purchase money mortgage shall provide that land subject to the lien of the mortgage may be released, in portions, under the following conditions:

(1) The Purchaser must be current on all required payments of principal and interest.

(2) Purchaser must not be in default on any of the terms and conditions of this contract, the note or the mortgage.

(3) Purchaser must tender the sum of \$1,500 per acre.

(4) The land sought to be released must be contiguous to a previously released parcel. For the first release only, the land must be adjacent to a public roadway. All acreage for release purposes shall include land used for parks, waterways and easements.

(5) The Purchaser must tender a proposed release for review and approval by Seller's attorney, together with the sum of \$150 as legal fees for said review.

Purchaser shall have the obligation to record all releases at Purchaser's sole expense.

Streets, as shown on the subdivision map, when completed and ready for dedication to the municipality, shall be released without the payment of any release fee.

(d) The purchase money mortgage shall provide that the Seller will join in any plat or plats which the Purchaser may place on record, so long as the same meets with the approval of proper governmental agencies having jurisdiction over such plats, for the purposes of evidencing the Seller's consent to such platting and of dedicating the streets, waterways, and easements as shown on such plat or plats. This provision is made at the Purchaser's request and it is not the Seller's intention to engage in or have any part in the subdividing or platting of the property as a dealer in real estate or otherwise.

(e) The purchase money mortgage shall provide that the digging of canals or lakes and the use of fill excavated on the property shall not constitute waste.

(f) Upon complete payment of the purchase money note and mortgage, the Seller shall execute and deliver to the

Purchaser a satisfaction in recordable form.

8. *Closing.* The closing under this agreement shall take place at 10 a.m. in the office of the Seller's attorneys, Harris & Harris, Esqs., 100 Professional Building, Sarasota, Florida on the fifth day after the Purchaser's acceptance of the title (or on the fifth day after the Seller has made the title good and marketable or insurable, as provided above). If the fifth day falls on a Saturday or Sunday, the closing shall take place on the following Monday.

9. *Deed.* At the closing, the Seller shall convey the property described in Paragraph 1 to the Purchaser by good and sufficient warranty deed, subject only to the lien of the purchase money mortgage executed by the Purchaser and delivered to the Seller.

10. *Release at closing.* At the closing, after the payment of \$46,000 in cash to the Seller as required by Paragraph 6(b), the Seller shall release from the purchase money mortgage a parcel of land in the northern end of the property described in Paragraph 1 consisting of a strip across the north side of the SE 1/4 of Section 28, Township 40 South, Range 19 East, 330 feet wide, containing 20 acres.

11. *Expenses.* The Seller shall pay for the documentary stamps on the warranty deed, the intangible tax on the purchase money mortgage, and the fees for recording the purchase money mortgage, and for the cost of the title insurance policy to be issued to Purchaser upon closing. The Purchaser shall pay for state stamps on the promissory note delivered to the Seller at the closing, and for the cost of recording any partial releases from the lien of the purchase money mortgage.

12. *Entire agreement.* This agreement supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

13. *Notices.* All notices or other documents under this agreement shall be in writing and delivered personally or mailed by certified mail, postage prepaid, addressed to the parties at their last known addresses.

14. *Non-waiver.* No delay or failure by either party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

15. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

16. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of Florida.

17. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

18. *Binding effect.* This agreement shall be binding upon and inure to the benefit of the parties, and their respective heirs, representatives, successors, and assigns.

The parties have executed this agreement the day and year first above written.

Current Legal Forms for Real Estate

Chapter 22 DEVELOPMENT AND SUBDIVISION

Part IV. FORMS

A. ACQUISITIONS FOR DEVELOPMENT AND SUBDIVISION

26-22 Current Legal Forms for Real Estate FORM 22.02

FORM 22.02 Option to purchase land for subdivision development--partial releases by acre or by homesite

COMMENT

Under this agreement, the purchaser may obtain partial releases from the purchase money second mortgage on either a per acre or a homesite basis. Since the property is being acquired subject to an existing first mortgage, partial releases are probably also obtainable under that mortgage. Otherwise, the purchaser could not proceed with a piecemeal development of the land without first refinancing the existing first mortgage to provide for partial releases.

It should be noted that the seller, as the second mortgagee, agrees to join in the subdivision platting so that the lien of his mortgage becomes subordinate to any necessary dedications of streets, easements, and canals. The same subordination provision should also be contained in the existing first mortgage.

FORM

OPTION AGREEMENT made September 29, ____[year], by and between John S. Jacobs ("the Optionor"), and Central Land Company, a Florida corporation (the "Optionee").

Recitals

The Optionor has entered into a contract of sale to purchase a tract of land consisting of approximately 295 acres, more or less, in Lee County, State of Florida, and is preparing to purchase the tract under the contract of sale.

The Optionee desires to obtain an option to purchase the tract of land in order to determine to its satisfaction certain

features of usability for its intended purposes.

Now, therefore, for good and valuable considerations, the parties agree as follows:

1. *Grant of option.* The Optionor grants to the Optionee the right to purchase under the terms and conditions hereinafter set forth, a tract of land consisting of approximately 295 acres, more or less, as described in a contract of sale dated September 29, ____[year], between Jones Holding Company, as seller, and John S. Jacobs, as purchaser. The contract of sale is attached to and made part of this agreement as if incorporated herein. The parties acknowledge that, in the event the Optionor is unable to complete the purchase of the subject land from the current owner by January 31, ____[year], this option shall become null and void, and the deposit of \$1,000 shall be returned to Optionee.

2. *Consideration for option.* The Optionee has paid to the Optionor at the time of the execution and delivery of this agreement, the sum of \$1,000, receipt of which the Optionor acknowledges. If the Optionee does not exercise the option herein granted, the Optionor may retain the \$1,000 as liquidated damages, and this agreement shall then be null and void.

3. *Term and exercise of option.* This option shall continue from the date this agreement is executed to and including January 31, ____[year], and shall be exercisable only by the delivery, on or before its expiration, of written notice to the Optionor at 200 South Street, Palm Beach, Florida. Closing of the purchase transaction under this agreement shall take place at the office of William Borden, Esq., 100 Beach Drive, Palm Beach, Florida, at 10 a.m. on the tenth day (or on the next business day if the tenth day is a Sunday or legal holiday) after written notice of exercise is delivered to the Optionor.

4. *Purchase price.* If the Optionee exercises this option, it shall pay to the Optionor, against delivery of the deed as provided below, the sum of \$190,000 as follows:

(a) \$1,000 by the application of the consideration paid by the Optionee for the grant of this option.

(b) \$114,000 by taking title subject to a first mortgage in that amount, which is recorded in the Public Records of Lee County, Florida, in Mortgage Book 20 at page 150.

(c) \$75,000 by executing and delivering to the Optionor a purchase money note and second mortgage in that amount, payable in installments as follows: \$25,000 on August 28, ____[year], and \$12,500 each on February 28, ____[year], August 28, ____[year], February 28, ____[year], and August 28, ____[year]. The purchase money note and mortgage shall bear interest at 15 percent per year, payable with each installment of principal. The Optionee shall pay all required federal and state documentary stamps on the purchase money note, as well as the intangible tax on the purchase money mortgage.

5. *Additional terms of purchase money note and mortgage.* In addition to the terms set forth in Paragraph 4, the purchase money note and second mortgage shall be in form acceptable to the Optionor and shall contain the other customary and usual covenants contained in second purchase money mortgages on real estate in the State of Florida. The purchase money note and second mortgage shall also contain the following provisions:

(a) If the Optionee defaults in any payment or action required under the first mortgage referred to in Paragraph 4(b), the entire unpaid principal and interest on the purchase money note and second mortgage shall immediately become due and payable. Alternatively, the Optionor, at his option, may cure the default on the first mortgage by paying whatever sums may be necessary to cure such default and by adding such sums to the second mortgage. Said sums, together with any legal fees incurred in connection therewith, shall be deemed secured by the lien of the second mortgage.

(b) If the Optionee defaults under the purchase money note or second mortgage, the entire unpaid principal and interest

thereon shall become due and payable after a 30-day grace period.

(c) The Optionee shall be entitled to releases from the lien of the second mortgage by paying \$250 for each acre so released. The Optionee shall not be required to request releases of contiguous acres of land, but shall be entitled to releases of any tract it selects.

(d) If any part of the property is platted into lots of less than one acre, the Optionee shall be entitled to releases from the lien of the second mortgage by paying \$100 for each homesite so released. For this purpose, one homesite shall be deemed to consist of two lots, together measuring 40 feet by 125 feet.

(e) All payments made on account of releases shall be applied to the next installment of principal due under the purchase money note and second mortgage. Upon the payment of each installment of principal under the purchase money note and second mortgage, the Optionee shall be entitled to releases in accordance with the foregoing terms, to the extent not previously granted to the owner.

(f) All the preceding release provisions shall be subject to the rules and regulations for subdivisions issued by the Florida Real Estate Commission.

(g) The Optionor will, from time to time, join in a plat or plats of unreleased portions of the property encumbered by the second purchase money mortgage. The joinder by the Optionor will acknowledge, in effect, that the lien of the second purchase money mortgage, as to dedicated portions, is subordinate and subject in all respects to the plat or plats and to any dedications expressed therein. The joinder by the Optionor shall not be deemed or construed to render him liable for the paving of any streets shown on the plat or plats, or for any other obligations assumed by the owner in connection with the plat or plats, and all streets, easements, and canals shall be released without cost or charge to the owner.

(h) The Optionee may, at any time and without penalty, prepay in whole or in part the purchase money note and second mortgage, but no partial prepayment shall be made during the calendar year ____[year].

(i) The Optionee shall pay the Optionor's attorneys' fees for the preparation of partial releases, at the rate of \$25 for each acre of homesite released. Upon satisfaction of the entire purchase money note and second mortgage, the Optionee shall pay the Optionor's attorney a fee of \$100 for the preparation of a satisfaction in recordable form.

(j) The Optionee shall not assume any personal liability on the purchase money note and second mortgage, and in the event of any default thereunder no deficiency judgment will be taken against it.

6. *Deed.* At the closing, upon the payment of the purchase price by the Optionee, the Optionor shall execute and deliver to the Optionee a deed to the tract of land referred to in Paragraph 1. The deed shall convey good and merchantable title to the Optionee, its successors and assigns, free and clear of all liens and encumbrances, but subject to the first and second mortgages referred to in Paragraphs 4(a) and 4(b) and to the covenants and restrictions contained in the contract of sale referred to in Paragraph 1. Except as herein otherwise provided, the usual practices in connection with sales of real estate in the State of Florida shall govern as to adjustments, prorations, documentary stamps, recording fees, and similar items.

7. *Brokerage.* Each party represents to the other that no broker is entitled to commissions by reason of this transaction.

8. *Entire agreement.* This agreement supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

9. *Notices.* All notices or other documents under this agreement shall be in writing and delivered personally or mailed by certified mail, postage prepaid, addressed to the parties at their last known addresses, return receipt requested. Notice

shall be deemed given when received, as evidenced by the United States Postal Service return receipt. Notice given by any other method, including, but not limited to, facsimile transmission, shall not be deemed effective.

10. *Non-waiver.* No delay or failure by either party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

11. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

12. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of Florida.

13. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

14. *Binding effect.* This agreement shall be binding upon and inure to the benefit of the parties, and their respective heirs, representatives, successors, and assigns.

Witness the hands and seals of the respective parties the day and year first above written.

Current Legal Forms for Real Estate

Chapter 22 DEVELOPMENT AND SUBDIVISION

Part IV. FORMS

A. ACQUISITIONS FOR DEVELOPMENT AND SUBDIVISION

26-22 Current Legal Forms for Real Estate FORM 22.03

FORM 22.03 Option with purchase agreement attached--provision for releases from purchase money mortgage and prior mortgage

COMMENT

If a purchaser assumes or takes property subject to a prior mortgage, the seller's agreement to deliver partial releases from a subordinate purchase money mortgage will not in itself enable the purchaser freely to sell unencumbered parcels as development progresses. As long as the prior mortgage is outstanding, the consent of that mortgagee will have to be obtained for the sale of any portion of the property. This would generally be an impossible limitation on a program for the gradual development of a large tract.

Release from all mortgages.

A feature of this agreement is an arrangement by which the purchaser's periodic payments to the seller will result in releases from the prior mortgage as well as from the subordinate purchase money mortgage given as part of the consideration in this transaction. The seller is required to apply payments received on the subordinate purchase money mortgage to reduce the prior mortgage, and to cause parcels of land released from the purchase money mortgage to be released simultaneously from the prior mortgage. Thus, while the tract of land remains subject to the lien of the prior mortgage, payments made by the purchaser to the seller will in effect reduce both mortgages. It is a condition of the transaction that the seller will deliver to the purchaser, at the closing, an agreement from the first mortgagee, in recordable form, which will provide for the necessary releases and which will protect the purchaser from any foreclosure of the first mortgage so long as the subordinate mortgage is not in default.

The option agreement in this form is followed by a purchase agreement that is to be used if the parties decide to proceed with the sale. The release from the two mortgages is provided in

Paragraphs 3 and 5 of the purchase agreement.**FORM**

OPTION AGREEMENT made November 30, ____[year], between James Kane and Mary Kane, his wife (the "Sellers"), and Southern Realty Corporation, a New York corporation, authorized to do business in the State of Florida (the "Buyer").

Whereas the Sellers are the owners of the fee simple title in and to 7,000 acres of land, more or less, in Brevard County, Florida, and more particularly described in an agreement attached as Exhibit A to this Option Agreement and made a part of it; and

Whereas the Buyer wishes to obtain an option to purchase such property, pursuant to terms and conditions set forth;

Now, therefore, for and in consideration of the sum of \$10,000 in cash paid by the Buyer to the Sellers, receipt of which is acknowledged, the Sellers give and grant to the Buyer the right to purchase the property described in the attached Exhibit A pursuant to the following terms and conditions:

1. *Term of option.* This option expires on the 2nd day of June, ____[year].
2. *Exercise.* Buyer may exercise this option by dating and executing an original and three copies of the attached Exhibit A and forwarding the same, no later than the 2nd day of June, ____[year], by Registered or Certified Mail, or delivery by hand, to the Sellers, in care of the office of Bernard Sims, Attorney, 1000 Hollywood Boulevard, Hollywood, Florida, together with a check in an amount equal to the down payment required by the attached Exhibit A, which shall constitute the down payment provided for in that Exhibit. The option shall be deemed exercised when the executed original and three copies of Exhibit A are received (if hand delivery is used), or, if mail delivery is used, when they are mailed, as evidenced by the United States Postal Service's certified receipt. Delivery by facsimile transmission or by private delivery service shall not be deemed a substitute for mail delivery.
3. *Expiration.* This option shall expire and be null and void after the 2nd day of June, ____[year], if the attached Exhibit A has not been executed and delivered and the down payment made as set forth in the preceding paragraph. In such event, the \$10,000 herewith paid shall remain the Sellers' property.

The Sellers have set their hands and seals, and the Buyer has caused this agreement to be executed by its duly authorized President, attested by its Secretary and its official seal affixed hereto, as of the day and year first above written.

BUYER:

Southern Realty Corporation

By: _____

President

[Acknowledgments]

Exhibit A

AGREEMENT made this day of _____[date], by and between James Kane and Mary Kane, his wife (the "Sellers"), and Southern Realty Corporation, a New York corporation authorized to do business in the State of Florida (the "Buyer").

In consideration of the mutual covenants and undertakings hereinafter set forth, the parties hereto agree as follows:

1. *Sale.* The Sellers agree to sell and the Buyer agrees to buy, on the terms and conditions hereinafter set forth, the real property located in Brevard County, Florida, consisting of 7,000 acres of land, more or less, more particularly described as follows:

(Insert description)

The above description shall be modified subsequently to conform to the survey to be performed under the terms of Paragraph 9, below.

2. *Purchase price.* The purchase price for the above-described 7,000 acres of land, more or less, is \$555,000, which shall be paid by the Buyer in the following manner:

(a) \$105,000 in cash simultaneously with the execution of this agreement, the receipt of which the Sellers shall acknowledge.

(b) The balance of the purchase price, the sum of \$450,000, shall be evidenced by a promissory note duly executed by the Buyer to the order of the Sellers, dated as of the date of this agreement, providing for six equal installment payments of principal, each in the amount of \$75,000. These installment payments of principal shall be due each November 30 for the years ____[year], ____[year], respectively. The note shall bear interest at 15 percent per year, payable on November 30, ____[year], and semiannually thereafter, computed on the unpaid principal balance. The note shall contain a prepayment privilege, in part or in full and at any time, without premium or penalty. It shall also contain a provision for acceleration in the event of default in the payment of any installment of principal or interest. The note shall be secured by a purchase money mortgage on all of the property sold hereby.

3. *Release terms in purchase money mortgage.* The purchase money mortgage referred to in Paragraph 2(b) shall contain a provision for partial releases to be executed by the Mortgagee (Sellers) upon request and payment by the Mortgagor (Buyer) in accordance with the release schedule attached hereto and made a part hereof, marked Release Schedule, as follows:

(a) The Mortgagee shall release from the lien of the purchase money mortgage parcels of land in accordance with the Release Schedule attached hereto, and simultaneously shall cause the release from the lien of the Harris Mortgage, more

fully described below, of the same parcels of land being released from the purchase money mortgage, upon payment by the Mortgagor to the Mortgagee of \$90 per acre.

(b) All principal payments made by the Mortgagor to the Mortgagee, whether made on or before the due date or during the grace period, shall entitle the Mortgagor to partial releases at the above described release price of \$90 per acre in accordance with the Release Schedule attached hereto. All principal payments made by the Mortgagor prior to the due date thereof shall be credited by the Mortgagee on the next due installment payment of principal on the note secured by the purchase money mortgage.

4. *Additional terms of purchase money mortgage.* The purchase money note and mortgage shall provide that the liability of the maker is limited to the land secured by the purchase money mortgage, and that the holder of the purchase money note and mortgage shall not be entitled to seek or obtain a judgment against the maker, but shall only be entitled to foreclose against the lands covered by the purchase money mortgage. The purchase money mortgage shall also provide that the Mortgagee (Sellers) will join with the Mortgagor (Buyer) for the purpose of causing plats to be recorded, and that the Mortgagee will join in the dedication for canals, streets, rights-of-way, and utility easements to the extent reasonably necessary to properly subdivide an area and obtain admission to record of the proposed plat.

5. *Reduction of first mortgage.* The Sellers shall apply 90 percent of the cash paid this day by the Buyer and all principal payments on the purchase money mortgage made by the Buyer to the Sellers to the Harris Mortgage until all of the land involved in this transaction has been released from the Harris Mortgage. For all such payments made by the Sellers to the holders of the Harris Mortgage the Sellers shall obtain releases from the lien of the Harris Mortgage. All such releases will be recorded and obtained in the same order as the Sellers have hereunder agreed to release land from the lien of the purchase money mortgage being given by the Buyer to them, all as set forth in the Release Schedule attached hereto. In the event that Sellers fail to apply payments to the Harris Mortgage as described above, Buyer shall have the right to make payments directly to the holders of the Harris Mortgage.

6. *Expenses relating to purchase money mortgage.* The Sellers shall pay the recording fee of the purchase money mortgage executed by the Buyer. The Sellers and the Buyer shall divide equally the tax on the purchase money mortgage and the documentary stamps on the note secured by the mortgage. Buyer shall pay all fees in connection with any releases granted pursuant to the Harris Mortgage or the purchase money mortgage herein.

7. *Abstract of title.* On or before April 1, ____[year], the Sellers shall deliver to the Buyer one abstract of title on the property involved in this transaction. This abstract of title shall show a good, marketable, and insurable title vested in the Sellers subject only to the following exceptions:

(a) ____[year] real property taxes.

(b) The lien of that certain mortgage hereinabove referred to as the Harris Mortgage, dated May 25, ____[year], recorded in Mortgage Book 190, Page 200, of the Public Records of Brevard County, Florida.

(c) Easements of record held by The Florida Power & Light Company and road rights-of-way.

Within 30 days after receipt of the abstract of title, the Buyer shall notify the Sellers in writing of any alleged defect or cloud, other than those set forth above, and the Sellers shall have a reasonable time thereafter within which to cure the alleged defect or cloud. If the Sellers fail to cure the defect or cloud within a reasonable time after such notice, the Buyer may either take title as is and close the transaction, or terminate and cancel this agreement. If the Buyer chooses to terminate and cancel, the Sellers shall immediately return to the Buyer all of its payments made hereunder to Sellers, and the parties shall be released and relieved of all further obligations hereunder. Notwithstanding the above, if the Seller's title to less than 100 acres of land proves to be unmarketable or uninsurable, the purchase price set forth in this agreement shall be reduced by \$81 for each such acre, the amount of the purchase money note and mortgage shall be

reduced accordingly, and this transaction shall be closed in accordance with all the other terms of this agreement. Notwithstanding the foregoing, if Buyer, in its sole discretion, deems any of the less than 100 acres of land to be critical to its effective use of the remaining acreage, then Buyer may terminate and cancel this agreement as described above.

8. *Closing.* This transaction shall be closed, subject to all of the provisions hereof, at the office of Bernard Sims, Attorney, 1000 Hollywood Boulevard, Hollywood, Florida, on July 1, ____[year]. At the closing, ____[date], real property taxes shall be prorated to the date of closing. At the closing, the Sellers shall execute a general warranty deed, with documentary stamps affixed, conveying the property described in Paragraph 1 to the Buyer, subject only to the exceptions herein set forth. The Sellers shall also deliver to the Buyer an instrument in recordable form duly executed by the holders of the Harris Mortgage which will provide in substance as follows: (a) so long as the Buyer makes all required payments of principal and interest on the purchase money mortgage given by it to the Sellers, then in the event of foreclosure of the Harris Mortgage, the land involved in this transaction will not be included in such foreclosure; and (b) releases of land from the lien of the Harris Mortgage will be furnished by the holders of that mortgage on the basis of one acre for each \$75 of principal received by them; and (c) Sellers certify that there are no defaults under the terms of the Harris Mortgage, and Sellers agree to provide prompt notice to Buyer in the event Sellers fail to fulfill the terms of the said Harris Mortgage.

9. *Survey of land.* The Buyer may employ Jones & Gordon, Surveyors, or any other registered surveyor mutually agreed upon by the parties, at the Buyer's expense, to make a survey of the property involved in this transaction. The parties agree to be bound by the results of such survey as to the determination of the number of acres in each section of land involved in this transaction. If, as a result of the survey, the number of acres in the aggregate differs from the number of acres set up in Paragraph 1, the purchase price will be increased or decreased accordingly, at the rate of \$81 per acre. A certified copy of the survey shall be delivered to the Sellers' attorney at least ten days before the scheduled closing date of this transaction. If the survey is not so delivered to the Sellers' attorney, this transaction shall be closed on the scheduled closing date, and the number of acres provided for in Paragraph 1 shall be used as the basis for the closing. Notwithstanding the foregoing, in the event that the delay in providing the survey is due to the surveyor not having completed the survey, the closing shall be postponed to a date agreeable to both parties which is at least ten (10), but not more than twenty (20), days after completion of the survey.

10. *Brokerage.* The parties agree that Darwin Realty Company of Melbourne, Florida, is the real estate broker who negotiated this agreement. The Buyer agrees to pay the broker the real estate broker's commission in accordance with a separate agreement made this day between the Buyer and the broker. The Buyer shall hold and save harmless the Sellers from any and all claims, demands, or obligations to the broker arising out of this transaction.

11. *Environmental site assessment.* Sellers agree to provide Buyer with an environmental site assessment report at least ten (10) days prior to the scheduled date of the closing. The assessment must be performed by one of the companies listed below and contain a provision stating that there is no evidence of the existence of any adverse environmental condition due to the release of any substance listed as hazardous in the Resource Conservation Recovery Act (RCRA), the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), or the Toxic Substances Transportation Act, or any other environmental condition that would cause the land to be in violation of any federal, state or local environmental laws.

The assessment shall also include a wetlands delineation evidencing that there are no wetlands located within the land.

The companies include:

(a) Accu-Environmental Services, Inc.

(b) Tenzer Labs, Inc.

(c) Mercury Geo-Science, Inc.

12. *Assignment.* The Buyer may assign this agreement to any person, firm, or corporation, prior to the closing date. The Buyer shall deliver to the Sellers an executed copy of any such assignment, in which event the Sellers shall close the transaction with the Buyer's assignee.

13. *Entire agreement.* This agreement supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

14. *Notices.* All notices or other documents under this agreement shall be in writing and delivered personally or mailed by certified mail, postage prepaid, addressed to the parties at their last known addresses.

15. *Non-waiver.* No delay or failure by either party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

16. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

17. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of Florida.

18. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument. At the trial of any matter relating to this instrument, only one counterpart need be produced. There shall be no presumption that the inability or failure to produce all alleged counterparts indicates a revocation or nullification of this agreement.

19. *Binding effect.* This agreement shall be binding upon and inure to the benefit of the parties, and their respective heirs, representatives, successors, and assigns.

The Sellers have set their respective hands and seals and the Buyer has caused this agreement to be executed by its duly authorized officers and has affixed its corporate seal, the day and year first above written.

Part IV. FORMS

A. ACQUISITIONS FOR DEVELOPMENT AND SUBDIVISION

26-22 Current Legal Forms for Real Estate FORM 22.04

FORM 22.04 Options to purchase land for development--separate options exercisable progressively

COMMENT

A program of land development may require the owner of the land to retain at least a temporary stake in the enterprise. Frequently, this stake is represented by a purchase money mortgage from which the developer may periodically obtain partial releases. In contrast, the owner's stake under this agreement is represented by long-term options to which he has subjected his property. The developer is never obligated to purchase the entire tract of land from the owner, although he has an option to do so. In addition to the option to purchase the entire tract, the developer has a series of separate options to purchase the various parcels which make up the entire tract. At each stage in the program, the developer can preserve his option over the balance of the entire tract only by purchasing one parcel and by paying an additional consideration for an extension of the option period.

Purchase of separate parcels of land.

Upon each purchase of a parcel, the developer must pay in cash the full price for that parcel. Thus, as with the purchase of an entire tract with the right in the purchaser to obtain partial releases, this arrangement provides for the gradual acquisition of unencumbered land. In either case, the purchaser may subdivide, develop, and rent or sell according to a plan of gradual free and clear acquisition of property. However, in contrast with the purchase of an entire tract, this arrangement permits the purchaser to judge his future needs for additional land as his development progresses, without committing himself in advance to purchase the entire tract.

Many development programs start with an option in favor of the developer in order to give him time within which to check out the soundness and feasibility of the venture. Under this agreement, three preliminary requirements are introduced by the developer (see Paragraph 5). No obligation

of any kind is to be incurred by him unless before a fixed date prescribed conditions are fulfilled with respect to mortgage loans, zoning restrictions, and water and sewer services.

FORM

OPTION AGREEMENT made November 25, ____[year], between Smith Realty Corporation, a Colorado corporation (the "Seller"), and William M. Adkins, of Denver, Colorado (the "Purchaser").

1. *Grant of option.* In consideration of the sum of \$25,000 paid by the Purchaser to the Seller, the receipt of which the Seller acknowledges, the Seller grants to the Purchaser the rights and option, upon the terms and conditions set forth below, to purchase a tract of 640 acres of real property in the County of Arapahoe, State of Colorado, described as follows:

(Insert description)

The consideration of \$25,000 is solely for the grant of this option. It shall not be applied against any purchase price that the Purchaser is required to pay under this agreement, and it shall not be repaid to the Purchaser except as specifically provided below.

2. *Option price for single purchase.* If the Purchaser exercises the option to purchase the entire tract of 640 acres on or before April 15, ____[year], the purchase price shall be the sum of \$1,000,000.

3. *Option and option prices for progressive purchases.* If the Purchaser does not elect to purchase the entire tract of 640 acres as provided in Paragraph 2, he may elect to purchase a minimum of 40 acres, to be designated by him, upon the payment of \$68,000 on or before April 15, ____[year]. Thereafter, the Purchaser shall have the following options to purchase a part or all of the balance of the tract, to be designated by him, upon the payment of the following amounts on or before the following dates, and such options shall continue as specified herein:

Date	Payment	Pays for
April 15, [year]		\$ 26,250 Option on 600 acres to October 15, [year]
October 15, [year]		68,000 40 acres land purchase
October 15, [year]		42,000 Option on 560 acres to October 15, [year]
October 15, [year]		136,000 80 acres land purchase
October 15, [year]		36,000 Option on 480 acres to October 15, [year]
October 15, [year]		36,000 Option on 480 acres to October 15, [year]
October 15, [year]		136,000 80 acres land purchase
October 15, [year]		30,000 Option on 400 acres to October 15, [year]
October 15, [year]		136,000 80 acres land purchase
October 15, [year]		24,000 Option on 320 acres to October 15, [year]
October 15, [year]		136,000 80 acres land purchase
October 15, [year]		18,000 Option on 240 acres to October 15, [year]
October 15, [year]		381,000 240 acres land purchase

4. *Condition of title.* Title to all property shall be conveyed by good and sufficient warranty deed, free and clear of all liens and encumbrances, except the current year's general taxes which shall be prorated to the date of the delivery of the deed, and except any and all special taxes levied or assessed for special improvements on such property after the date hereof. The Seller shall make a satisfactory settlement with the tenant farmer presently on the property, release the Purchaser from any obligation to such tenant farmer, and deliver possession upon closing.

5. *Conditions attached to option.* The consideration paid by the Purchaser for the options granted under this agreement is subject to the following conditions:

(a) The Seller shall cooperate with the Purchaser in his negotiations with the Arapahoe County Bank, so as to obtain loan approval on or before April 15, ____[year].

(b) The Seller shall cooperate with the Purchaser in his efforts to obtain zoning, including approval for 9,000 square foot lots for approximately 25 percent of the area of Section 30, Township 6 South, Range 68 West of the 6th P.M.; and zoning approval for 13,500 square foot lots for approximately 50 percent of the area of such Section 30; and zoning approval for one-half acre lots for approximately 25 percent of the area of such Section 30.

(c) Water and sewer service shall be available to such Section 30, Township 6 South, Range 68 West of the 6th P.M. at the present tap charge of \$250 for sewer taps and \$200 for water taps for each residential lot, plus any connection fees, inspection fees, or tap fees made by the water district or sanitation district of the City of Englewood. However, the Purchaser shall at his own expense run the water and sewer lines from the present facilities to the property purchased or to be purchased by him under this agreement.

In the event that water service is not available as described above, Purchaser, at his own expense, may drill wells and install storage tanks, pumping stations and such other facilities as are needed to supply water to the land. In such case, Seller shall extend the time in which to exercise each option described above in Paragraph 3 by one (1) year.

In the event that, after installation of a water system, Purchaser does not exercise some or all of the options described above in Paragraph 3, then Seller shall require all future purchasers of the land that was not purchased by the Purchaser to obtain water services from Purchaser.

If the Purchaser cannot meet or does not waive the above conditions regarding loan approval, zoning, and water and sewer service before April 15, ____[year], the \$25,000 paid for the option shall be immediately returned to the Purchaser and both parties shall be completely released from this agreement.

6. *Wetlands.* Seller shall provide Purchaser with proof that no wetlands--as defined by federal or state laws or regulations--exist within the optioned areas. In the event that wetlands do exist, the purchase price shall be reduced by \$1,000 for each acre, or part thereof, containing such wetlands. In the event that 5 percent or more of any optioned section, as set forth in Paragraph 3, is designated as wetlands, Purchaser shall not be obligated to purchase that section, but may purchase other sections instead.

7. *Environmental audit*

(a) Purchaser shall be entitled to obtain, at his own expense, a Phase I environmental site assessment. The assessment shall be completed on or before April 15, ____[year]. In the event that the Phase I assessment indicates that there is evidence of an adverse environmental condition, Purchaser shall be relieved of his obligation to purchase, the \$25,000 shall be returned to him, and both parties shall be released from this agreement.

(b) In the event that the Phase I assessment indicates that further testing is needed, Purchaser may either terminate this agreement and obtain a refund of the \$25,000 or have additional testing performed. Seller shall pay for half of the cost

of such additional testing. If the testing reveals no adverse environmental condition, Purchaser shall remain obligated under the terms of this agreement. If the testing reveals an adverse environmental condition, then Purchaser may terminate the agreement and the \$25,000 paid for the option shall be returned to him.

(c) Unless presented with a valid subpoena or court order, each party shall not reveal the outcome of the Phase I environmental site assessment, or the outcome of any additional testing, to any third person without the prior written permission of the other party. Notwithstanding the foregoing, Purchaser may reveal the results once he is the owner of the optioned parcels. Seller may reveal the results in the event Purchaser terminates the agreement and receives a refund of the \$25,000 payment.

8. *Right of entry.* The Seller grants to the Purchaser the right to enter upon the tract at any time prior to the closing for the purpose of making surveys, engineering studies, soil tests, and other tests or studies which the Purchaser may deem necessary in connection with the development of the property, but such work shall not interfere with the tenant farmer's farming activities.

9. *Title report.* The Seller shall furnish a preliminary title commitment satisfactory to the Purchaser for the entire tract on or before 20 days from the date hereof, and also an owner's title policy for each parcel of land purchased under this agreement.

10. *Exercise of option and closing.* The Purchaser shall notify the Seller if he desires to exercise any option granted herein and shall designate in the notice the acreage to be conveyed to him. The Purchaser shall furnish a copy of the notice to Mountain Title Company, Denver, Colorado, accompanied by his check in an amount equal to the purchase price of the designated parcel. Within ten days after receipt of the notice, the Seller shall deliver to the title company a good and sufficient warranty deed conveying the designated parcel to the Purchaser. The deed shall be free and clear of all liens and encumbrances, except the current year's general taxes which shall be prorated, and special improvement taxes as of the date of closing the escrow, plus any special taxes paid by the Seller after the date of this agreement. The closing shall take place upon the receipt by the title company of the Purchaser's check in the amount of the purchase price and of the Seller's warranty deed. Simultaneously therewith, the title company shall issue its policy of title insurance covering the designated parcel and shall record the warranty deed and disburse the net proceeds from the sale to the Seller.

11. *Time of the essence.* Time is expressly declared to be of the essence of this agreement. If the Purchaser does not make, tender, or perform any payment or other condition as provided herein, this agreement shall be void and of no effect. In that event, both parties shall be released from all obligations hereunder, the Seller shall retain any and all payments made to it by the Purchaser, and the Purchaser shall retain all property paid for in full.

12. *Assignment.* The Purchaser may assign this agreement in whole or in part by giving written notice to the Seller. The Purchaser and his assigns, by the execution of this agreement, shall incur no personal liability.

13. *Notices.* Any notice required under the terms of this agreement shall be deemed to have been given within 48 hours after the notice has been deposited in the United States mails, postage prepaid, addressed to the Seller at 100 Main Street, Denver, Colorado, and to the Purchaser at 200 South Street, Denver, Colorado, until the parties shall designate any other address. Notice sent by facsimile transmission shall not be deemed effective. Notices sent by private delivery service or by overnight courier shall be deemed effective if a receipt of delivery is obtained.

14. *Commissions.* The Seller shall pay the commissions, as and when parcels are purchased and paid for by the Purchaser under this agreement, in accordance with the separate letter agreement made with Hayes Realty Company of Denver, Colorado. Seller shall hold Purchaser harmless against claims for commissions due.

15. *Entire agreement.* This agreement supersedes all agreements previously made between the parties relating to its

subject matter. There are no other understandings or agreements between them.

16. *Non-waiver.* No delay or failure by either party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein. A valid waiver by either party shall not be deemed to extend the amount of time available to perform any other act required hereunder.

17. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

18. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of Colorado.

19. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument. At the trial of any matter relating to this instrument, only one counterpart need be produced.

20. *Binding effect.* This agreement shall be binding upon and inure to the benefit of the parties, and their respective heirs, representatives, successors, and assigns.

In witness whereof the Seller has caused its corporate officers to execute this option, and the Purchaser has set his hand and seal at Denver, Colorado, this 25th day of November, ____[year].

Chapter 22 DEVELOPMENT AND SUBDIVISION

Part IV. FORMS

A. ACQUISITIONS FOR DEVELOPMENT AND SUBDIVISION

26-22 Current Legal Forms for Real Estate FORM 22.05

FORM 22.05 Option to purchase land for long-term development program--basic option and successive suboptions--temporary rights in land reserved by seller

COMMENT

This agreement involves a large tract of land which is to become the subject of a long-range development program. The technique used to provide the developer with a continuing interest in the entire tract involves a basic option together with a series of suboptions. Under the basic option, the developer is required to make a down payment and monthly payments over a seven-year period. While these payments may be applied in a prescribed manner toward the ultimate purchase price, their basic function is to keep alive the option on the entire tract during the extensive development period.

The function of the eight suboptions is to permit the developer to spread his purchases over an eight-year period. Each suboption covers a separate parcel in the tract and each provides a specific purchase price and method of payment for that particular parcel. Because of the length of this program, the agreement encompasses the obligations of the parties with respect to such matters as special assessments, damages to the property, and condemnation.

Exercise of suboptions.

The suboptions are exercisable in a prescribed order, with final exercise dates spaced from one to eight years. If the developer fails to exercise any suboption, the suboptions as to all remaining parcels are cancelled. Moreover, any default in the notes and mortgages given by the developer on property previously purchased likewise results in a termination of all unexercised suboptions. On any exercise of a suboption, the developer is required to make a prescribed down payment and to execute a note and purchase money mortgage for the balance.

Periodic release from lien.

As in the case of many subdivision development ventures, this agreement provides for the periodic release of property from the lien of the purchase money mortgage upon the payment of prescribed amounts. Such releases may be obtained either on an acreage basis or on a platted subdivision basis. In each case there are conditions attached to the granting of releases. On a subdivision basis, these conditions include a platting that measures up to a specific standard, the furnishing of a bond for the construction of streets and other facilities, and the satisfaction of a minimum scale of progress in the development program.

Easements and other restrictions.

Particularly in large long-range programs, the seller of undeveloped acreage may want to use the property temporarily for himself, or may choose to impose permanent restrictions on its use by the purchaser. The motivation may be the seller's ownership of adjacent land; his desire to continue farming, forestry, or some other business on the land; or his intention to exploit valuable interests in the property. Conditions or limitations that survive the passage of title to property may be imposed by covenants restricting the buyer's use; by easements permitting use of the land by the seller; by reservations of mineral, timber, or other specific rights; or by contractual provisions obligating the purchaser to fulfill a prescribed development program with respect to the property.

This agreement illustrates provisions for easements to be reserved in deeds, which will allow the seller extensive use of the property and will cause minimum interference with the purchaser. The seller has retained the right to the exclusive use of the property for an initial three-year period. During this time the purchaser may engage in the necessary preliminaries to construction: surveying, mapping, engineering, and taking soundings on the land. Following this initial period, the seller's right continues for two more years, but only with respect to land not physically under development.

Partial releases of some of the property from the lien of any purchase money mortgage will not affect the seller's right to his exclusive use. For the benefit of those parcels that are only under option, the seller has retained various easements and rights-of-way over those parcels which do in time become the property of the purchaser. The purpose here is to preserve access to and utility privileges for those parcels that are in fact never sold to the purchaser because the project ultimately is not completed as planned. In addition, the seller has reserved limited timber rights.

FORM

OPTION AGREEMENT executed as of September 28, ____[year], between Charles Franklin (the "Seller"), residing at 100 Fifth Avenue, New York, New York, and Seaside Realty Company, a Florida corporation, having its principal office at 100 Northeast 2nd Street, Miami, Florida (the "Purchaser").

The Seller grants to the Purchaser, for the period or periods herein provided, the exclusive right and option to purchase the land described in Schedule A hereto attached, under the following conditions:

1. *Form of deed and reservations by seller.* The seller shall make all conveyances of land by fee simple deeds subject to the exceptions and reservations set forth in Schedule B hereto attached that apply to the particular land then being conveyed; together with any exceptions that may hereafter occur not as a result of acts or volition of the Seller, provided that he will reduce the sale price, as hereinafter set forth, of the particular parcel or parcels containing the land affected

by any such future exception to the extent of the net amount of money that he may have received on account thereof prior to conveying the land to the Purchaser. Such reduction shall be applied in the manner set forth in Paragraph 7, below, but no return of, or credit for, any option money, or other money, received by the Seller from the Purchaser under this Option shall be required. Notwithstanding the above, at the time of conveyance hereunder the Seller shall reserve the following reservations, which shall be expressed in the deeds:

(a) Ingress and egress easements for highway and travel purposes and for installation and maintenance of water, power, telephone, and other utilities over, along, and across all now existing and future roads and waterways on or through the land, public or private, for the benefit of the Seller's land not theretofore conveyed to the Purchaser. However, the Purchaser may relocate any such easement if the relocation meets the following conditions: it provides for substantially similar access; the relocation, including that of the utilities, is at the Purchaser's sole expense; and it occurs with the Seller's written consent, which he shall not unreasonably withhold.

(b) Such reasonable right-of-way reservations or provisions for the benefit of the Seller's land not previously conveyed to the Purchaser as may assure to the land public road access to Bayview Road.

(c) For a period of three years after the date of this agreement and free of rent or charge, the exclusive possession for use, as the land subject hereto is presently being used, of all of the land described in Schedule A even if some, or all, of it shall have been released or discharged from the lien of the mortgage or mortgages hereinafter mentioned, including possession of and title to crops in the ground. This reservation shall continue in like manner for the fourth and fifth years after the date hereof but only as to land not then physically under development by the Purchaser.

(d) All stumps and dead and down timber on all of the land described in Schedule A, free of charge, for a period of three years after the date of this agreement; provided that if the same is not removed from the land within the three years, this reservation shall cease; and provided further that the Seller shall not cut any growing timber after the date hereof.

The Purchaser may at any time hereafter survey, map, engineer, make and take soundings on any land subject to this Option, even during the period the Seller has exclusive possession as set forth above, provided such acts do not unreasonably interfere with such exclusive possession and use, and provided further that the Purchaser shall indemnify and hold the Seller harmless from any and all damage and liability occasioned thereby. The form of fee simple deed to be used by the Seller is attached as Exhibit 1 and the appropriate date, land description, and exceptions and reservations shall be inserted into each deed.

2. *Title objections.* If title to the premises shall be unmarketable by reason of any material objections other than those to which title is to be taken, the Seller shall pay to the Purchaser the amount actually expended by it in removing such objections, provided, however, that the Seller's total obligation pursuant hereto shall not exceed \$5,000. In the event that the removal of such objections to title can reasonably be expected to exceed \$5,000, Purchaser may, in its sole discretion, terminate this agreement, and receive a refund of any option funds paid or, alternatively, Purchaser may complete the removal of said objections, paying all expenses beyond \$5,000. This shall be the Purchaser's only remedy for any material objection, and this Option shall remain in full force and effect, unless so terminated.

3. *Exclusion of personal property.* No sale of any personal property now or hereafter located on the land described herein is included in this Option or is to be included in any deeds given to the Purchaser pursuant hereto, including, but not limited to, harvested crops. All buildings (and improvements thereto), barns, and fences shall be considered real estate and included in this Option. However, any removal thereof other than as set forth in Paragraph 6, shall not be or constitute a breach of this Option or default thereunder by the Seller, but shall only reduce the option sales price of that parcel from which the real estate was so removed by the appraised value of that property so removed, the reduction to be applied in the manner set forth in Paragraph 7. No return of, or credit for, any option money, or other money, received by the Seller from the Purchaser under this Option shall be required.

4. *Use of land prior to conveyance.* The Seller makes no representations or warranties whatsoever as to his continued use or maintenance of the land described herein prior to delivery of deeds hereunder. It is expressly understood that prior to the delivery of a deed to land, the Seller may use and maintain the land as set forth in Paragraph 1, above.

5. *Special assessments on land prior to conveyance.* If any land not yet conveyed to the Purchaser is affected by any special assessment or assessments caused by and attributable to improvements made by it or others to or on the land theretofore conveyed by the Seller, the Purchaser shall reimburse the Seller for the amount of the special assessment or assessments paid by him at the time of conveyance. A special assessment shall not be deemed to be any ad valorem tax levied on the land or any increase therein.

6. *Damage to property.* From and after the date hereof, the Seller shall not be liable for any damage to the real estate, including, but not limited to the buildings, improvements, barns, fences, and timber thereon, by fire, the elements, or any other cause, however occasioned, including damage by fire or otherwise occasioned by the use of the premises by the Seller, his employees, agents, servants, guests, invitees, and family, whether occurring prior to conveyance hereunder or during the period of his reservation of exclusive use and possession, as hereinbefore set forth. On account of any such damage, there shall be no reduction in or return of sale price, nor return of, or credit for, any option money, or other money, received by the Seller from the Purchaser. In addition, all payments for such losses made under policies of insurance owned by the Seller shall belong to him.

7. *Condemnation.* If any land subject to this Option is condemned or taken by eminent domain before it is conveyed by the Seller and while the Option is in full force and effect, the Purchaser shall be made a party to the proceedings. If the parties cannot agree as to the award to be accepted, the amount shall be determined by trial in any court of competent jurisdiction. Any award shall be paid to the Seller, but the net amount received after payment of all expenses and fees which he incurs shall reduce the sale price, as set forth below, of the parcel or parcels that would have contained the land so condemned or taken by eminent domain. The reduction shall first be applied to the principal balance of the mortgage on the parcel in inverse chronological order of the installment payments thereof. In no event shall there be any return of, or credit for, any option money payments, or other money, theretofore received or thereafter to be received by the Seller under this Option.

8. *Environmental assessment.* Purchaser may obtain an environmental site assessment at any time before the exercise of the first suboption hereunder. In the event the assessment shows that a need exists for testing of soil, water and/or air, or that there is an indication of a potential adverse environmental condition existing on the premises, Purchaser may terminate this agreement and shall be entitled to a full refund of any funds already paid to Seller to date. Seller shall have no obligation to correct or remediate any adverse environmental condition. An adverse environmental condition shall be deemed to exist if any of the following exist on or below the optioned parcels:

(a) underground storage tanks;

(b) hazardous substances, as defined in the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), the Resource Conservation Recovery Act (RCRA), and/or the regulations promulgated pursuant thereto; or

(c) buried refuse.

9. *Definitions.* For the purposes of this agreement: "Option" is defined to mean this entire agreement; "suboption" is defined to mean the right to purchase one parcel pursuant to the terms hereof; and "fiscal option year" is defined to mean a year beginning with the date hereof or any subsequent annual anniversary date hereof, and ending one year thereafter; i.e., if the date hereof is September 28, ____[year], the first fiscal option year shall be September 28, ____[year], to and including September 27, ____[year] and "annual anniversary date" is defined to mean a date occurring one year after the date hereof; i.e., if the date hereof is September 28, ____[year], the first annual anniversary date hereof shall be September 28, ____[year], the second September 28, ____[year], etc.

10. *Option periods and prices.* For the purpose of exercising suboptions hereunder, the land is divided into eight Parcels as particularly described in Schedule C hereto attached, which also sets forth the agreed number of acres of land in each Parcel. The sale price of each Parcel and the date by which the suboption for its purchase must be exercised are as follows:

Parcel Number	Sale Price	Exercise Date
1	\$ 573,000	First annual anniversary date hereof
2	950,000	Second annual anniversary date hereof
3	965,000	Third annual anniversary date hereof
4	1,204,000	Fourth annual anniversary date hereof
5	1,210,000	Fifth annual anniversary date hereof
6	1,203,000	Sixth annual anniversary date hereof
7	1,360,000	Seventh annual anniversary date hereof
8	935,000	Eighth annual anniversary date hereof
Total Sale Price of All Parcels		\$8,400,000

11. *Exercise of options and terms of payment.* The Purchaser may exercise its suboption to purchase any Parcel on or before the annual anniversary date hereof by which it must be exercised as set forth above. Suboptions may be exercised only in the order of the numerical descriptions of the Parcels, i.e., the suboption for the purchase of Parcel 1 must be exercised prior to the exercise of the suboption for the purchase of Parcel 2, the suboption for the purchase of Parcel 2 must be exercised prior to the exercise of the suboption for Parcel 3, etc. If the last day for the exercise of any suboption is a Saturday, Sunday, or legal holiday, it may be exercised on the next full business day. The exercise of any suboption shall be by written notice thereof delivered or mailed by registered mail to the Seller by the Purchaser. The notice shall state a date and time not less than 15 days nor more than 30 days thereafter (other than a Saturday, Sunday, or legal holiday) for the exchange of the deed, mortgage, and note necessitated by such exercise. If the Purchaser fails to exercise its suboption to purchase any Parcel of land, this option shall immediately cease as to that Parcel and all remaining parcels. Except as otherwise hereinafter provided, the terms of payment for the land upon the exercise of each suboption shall be as follows:

Parcel Number	Required Cash Payment at Time of Exercise of Subscription	Amount of Deferred Balance Required to be Evidenced by Note and Secured by Mortgage	Maturity Date of Deferred Balances
1	\$ 40,000	\$ 533,000	\$40,000 payable on or before the second annual anniversary date hereof; \$120,000 payable on or before the third annual anniversary date hereof; \$240,000 payable on or before the fourth annual

			anniversary date hereof; and the remaining principal balance of \$133,000 payable on or before the fifth annual anniversary date hereof.
2	80,000	870,000	\$264,000 payable on or before the fifth annual anniversary date hereof; \$560,000 payable on or before the sixth annual anniversary date hereof; and the remaining principal balance of \$46,000 payable on or before the seventh annual anniversary date hereof.
3	120,000	845,000	\$650,000 payable on or before the seventh annual anniversary date hereof; and the remaining principal balance of \$195,000 payable on or before the eighth annual anniversary date hereof.
4	160,000	1,044,000	\$625,000 payable on or before the eighth annual anniversary date hereof; and the remaining principal balance of \$419,000 payable on or before the ninth annual anniversary date hereof.
5	160,000	1,050,000	\$525,000 payable on or before the ninth annual anniversary date hereof; and the remaining principal balance of \$525,000 payable on or before the tenth annual anniversary date hereof.
6	160,000	1,043,000	\$280,000 payable on or before the tenth annual anniversary date hereof; and the remaining principal balance of \$763,000 payable on or before the 11th annual anniversary

			date hereof.
7	160,000	1,200,000	\$60,000 payable on or before the 11th annual anniversary date hereof; \$850,000 payable on or before the 12th annual anniversary date hereof; and the remaining principal balance of \$290,000 payable on or before the 13th annual anniversary date hereof.
8	160,000	775,000	\$400,000 payable on or before the 13th annual anniversary date hereof; and the remaining principal balance of \$375,000 payable on or before the 14th annual anniversary date hereof.
Totals	\$1,040,000	\$7,360,000	

The notes and mortgages provided for above, shall bear interest at the rate of 8 percent per year on their unpaid principal balance, payable one year after the date thereof and annually thereafter. Anything in this Option to the contrary notwithstanding, if the Purchaser exercises a suboption to purchase any Parcel of land prior to the annual anniversary date, for exercising such suboption, the Purchaser shall first pay to the Seller all principal installment payments, together with interest thereon to the date of such payment, on notes and mortgages securing same given as part of the sales price of land with respect to which suboptions have been theretofore exercised as would be due and payable had the purchaser awaited the exercise of the suboption until such annual anniversary date by which it must be exercised.

The deferred balance owing on the exercise of the suboption for the purchase of each Parcel shall be evidenced by an installment promissory note in the form of Exhibit 2, attached hereto. The note shall be dated as of the date on which the suboption is exercised or is delivered, whichever is the earlier, with appropriate principal payments and dates to be inserted therein. The note shall be secured by a first purchase money mortgage on the Parcel, the purchase of which occasioned the note, and both the purchase money mortgage and the deed for such Parcel shall be dated the date of the note. The form of the first purchase money mortgage shall substantially conform to Exhibit 3 hereto attached and the appropriate date, land description, description of the indebtedness secured thereby, and provisions for partial releases as hereinafter set forth shall be inserted in each such mortgage.

If at any time there is a default in any term, covenant, or condition of a note or mortgage, no remaining suboption may be exercised until the default is cured. If there is any such default for a period of 30 days after the Seller gives written notice thereof to the Purchaser: (a) this Option shall immediately cease and terminate as to all Parcels for which the Purchaser has not exercised its suboption to purchase at the time of the default, and the Seller shall retain all option money then in his hands; and (b) anything in a note or mortgage to the contrary notwithstanding, the mortgagee of any

mortgage may declare all sums of money, including accrued interest, remaining unpaid on the mortgage and the note to be immediately due and payable.

12. *Limitation on prepayments.* The Purchaser may not, without the Seller's consent, make any additional cash payments on the exercise of a suboption, prepayments of mortgage, or release payments, or exercise any suboption prior to the date by which it must be exercised if the additional payment or exercise will cause the Seller to receive more than 30 percent of the selling price of any parcel in the Seller's then tax year. The Purchaser may prepay any note and mortgage, without penalty, except as provided herein, provided that interest accrued to date of such prepayment is also paid. The notes and mortgages shall contain appropriate provisions to give effect to this paragraph. In addition, each note and mortgage shall contain an appropriate provision to the effect that no deficiency judgment may be taken against its maker in any suit to foreclose the mortgage, and that any judgment on the note resulting from an action brought thereon shall provide that the same shall not be a lien or charge against any property of the maker other than the premises mortgaged to secure the payment thereof.

13. *Consideration for basic option and method of application.* The Purchaser herewith pays to the Seller \$50,000 in partial consideration of the granting of this Option, and the Seller acknowledges receipt thereof. In further consideration of the Seller keeping this Option in full force and effect, the Purchaser must each month hereafter make further payments ("Option Money") to the Seller as follows:

(a)	During the first fiscal option year after date hereof \$10,000 per month, being a total of	\$120,000
(b)	During the second, third, fourth, and fifth 720,000 fiscal option years after date hereof \$15,000 per month, amounting to \$180,000 per year and being a total of	720,000
(c)	During the sixth fiscal option year after date hereof \$10,000 per month, being a total of	120,000 and
(d)	During the seventh fiscal option year after date hereof \$2,500 per month, being a total of	30,000

\$990,000

The first monthly option money payment shall be made one month after the date hereof, and all subsequent payments shall be made on the same day of each month thereafter until all required monthly option money payments have been made. Anything in this Option to the contrary notwithstanding, if the Purchaser exercises a suboption to purchase any Parcel of land prior to the annual anniversary date by which it must be exercised, as a prerequisite and condition to exercise, the Purchaser shall first pay to the Seller all option money that would have been required to be paid had the Purchaser awaited the exercise of the suboption until the annual anniversary date by which it had to be exercised. If the Purchaser is not in default under any term, covenant, or condition of this Option, as and when the suboptions are exercised, it may apply out of the option money already paid amounts sufficient to make the "Required Cash Payment at Time of Exercise of Suboption" as set forth in Paragraph 11; that is, \$40,000 to make the required cash payment as to Parcel 1, \$80,000 as to Parcel 2, \$120,000 as to Parcel 3, and \$160,000 as to each of Parcels 4, 5, 6, 7, and 8. However, the Purchaser may not apply the option money toward or as all of any other payments required hereunder, including, but not limited to, additional cash payments on the exercise of a suboption, or payments required by notes and mortgages given pursuant hereto. The Seller is not obligated to keep the option money segregated, to hold it as a trust fund for the performance of this agreement, or to pay any interest on it.

14. *Acts of default by purchaser.* Each of the following shall be deemed a default by the Purchaser and a breach of this

Option:

- (a) The filing of a petition by or against the Purchaser under Chapters 7, 11 or 13 of the United States Bankruptcy Code, as it now exists or as it is hereafter amended.
- (b) The dissolution or commencement of any action or proceeding for the dissolution or liquidation of the Purchaser whether instituted by or against it or for the appointment of a receiver or trustee of its property.
- (c) The taking possession of the Purchaser's property by any governmental officer or agency under statutory authority for the Purchaser's dissolution, rehabilitation, reorganization, or liquidation.
- (d) The making by the Purchaser of any assignment for the benefit of creditors.
- (e) A default by the Purchaser in making any monthly option money payments required hereunder as and when they become due.
- (f) Default by the Purchaser under any other term, covenant, or conditions of this Option.

The Purchaser may not exercise this Option or any suboption hereunder to purchase any property while any default exists hereunder. If there is any default under (a), (b), (c), or (d) above, or any default under (e) above for a period of ten days, or of any default under (f) above for a period of 30 days after notice, this Option shall terminate and all option money then in the hands of the Seller shall be retained by him as option money for the value of this Option and in consideration of the granting hereof.

15. *Release provisions in purchase money mortgages on acreage basis.* Each mortgage given by the Purchaser to the Seller shall contain provisions for the release of parts of the encumbered land on an acreage basis upon the following conditions:

- (a) No release of property, from under a particular mortgage, will be granted while there is a default in any of its terms, covenants, and conditions or those of any other mortgage given pursuant hereto. The release amounts to be paid by the Purchaser to the Seller per acre of land released for each Parcel are as follows:

Parcel Number	Land Description	Release Amount Per Acre
1	All land in the Parcel	\$1,100
2	The Sections 1 and 11 land	950
	All remaining land in the Parcel	800
3	The Section 35 land	730
	All remaining land in the Parcel	625
4	All land in the Parcel	625
5	All land in the Parcel	625
6	All land in the Parcel	625
7	All land in the Parcel	730
8	All land in the Parcel	730

In addition, accrued interest on release amounts must be paid to date of payment.

(b) As nearly as may be, the land will be released only in 40-acre square blocks described according to United States Government Survey.

(c) The Seller shall subordinate the mortgage held by him to a dedication of streets built by the Purchaser in Parcels 1, 2, or 3 between land owned by the Purchaser at the date hereof adjoining Parcels 1, 2, or 3 on the east and any 40-acre blocks released under this Paragraph 15 in Parcel 1, that part of Sections 1 and 11, Township 50 South of Range 32 East in Parcel 2 and that part of Section 14, Township 50 South of Range 32 East in Parcel 3, and to a dedication of streets built by the Purchaser in any other Parcel between 40-acre blocks released under this Paragraph 15 in that particular Parcel upon the Purchaser causing a plat or plats to be lawfully recorded among the Public Records of Lee County, Florida, and complying with the requirements of Paragraph 16(c) hereof.

(d) For the purpose of granting releases from any one particular mortgage, the following moneys, when paid, shall be considered as having been paid for releases from that mortgage: (1) except in the case of mortgages on Parcels 1 and 2 and the "Required Cash Payment at Time of Exercise of Suboption" made on the purchase of such Parcels 1 and 2, the amount of the "Required Cash Payment at Time of Exercise of Suboption" made on the purchase of the parcel for which the particular mortgage is security as set forth in Paragraph 11 hereof, that is, \$120,000 as to Parcel 3 and \$160,000 as to each of the Parcels 4, 5, 6, 7, and 8 (but such payment shall not reduce the unpaid principal balance of that mortgage or the note for which it is security); and (2) all principal installment payments made on that particular mortgage and the note for which it is security.

(e) All moneys paid for releases from a mortgage, other than as set forth under subparagraph (d) of this Paragraph 15, shall be credited on the next principal installment payment due on the mortgage and the note for which it is security.

16. *Release provision in purchase money mortgages on subdivision basis.* Each mortgage given by the Purchaser to the Seller shall also contain provisions for the release of parts of the encumbered land on a platted subdivision basis upon the following conditions:

(a) No such release of property will be granted from under a particular mortgage while there is a default in any of its terms, covenants, and conditions or those of any other mortgage given pursuant hereto.

(b) No such release will be granted until the land which is to be so released has been platted which, as nearly as may be, shall be in 40-acre square blocks described according to United States Government Survey. The plat for each block of land so platted must show a subdivision of land and roads generally like the plats recorded at the date hereof for the development known as Point Star, Lee County, Florida. In addition, the Purchaser shall have caused such plat or plats to be lawfully recorded among the Public Records of Lee County, Florida.

(c) Prior to the recording of such plat or plats, the Purchaser shall have furnished to the Seller a bond in a penal sum of not less than 125 percent of the estimated cost of the construction of all streets and the construction and installation of other facilities shown on the plat (or plats), or required to be constructed by Lee County, Florida, the construction and installation to be at least according to a standard equivalent to the present specifications of Lee County, Florida. The bond shall be conditioned for the faithful construction by the Purchaser of such streets and construction and installation of all such other facilities within two years after the acceptance of such plat or plats by the County Commissioners of Lee County, Florida, (the "County Commissioners"), and for the prompt payment by the Purchaser of the cost of all labor, services, and materials furnished therefor, and for the discharge of all liens arising therefrom. However, the term of such bond may be extended for a period of one year if there is then no default in any term, covenant, or condition of the mortgage covering the land, the platting of which necessitated such bond, or of any other mortgage given pursuant hereto, and further, if the County Commissioners so extend for a like period any and all bonds furnished to Lee County covering the same platted land. If the County Commissioners shall require such a bond identical to that required herein

for all or any part of the penal sum required by the Seller prior to the recording of such plat or plats, and, if in the opinion of the Seller's counsel, it can be so arranged without prejudice to the Seller's rights and remedies, and the County Commissioners consent thereto, the Seller may be made a joint obligee of the bond instead of having it furnished directly to him, but only to the extent of the penal sum of the bond. The Purchaser shall furnish an additional bond to the Seller for any difference between the penal sum of the bond furnished to Lee County and that required hereunder. The surety on any such bond or bonds furnished directly to the Seller or on which he is joint obligee with Lee County shall be a company with at least an "A" Policyholder's Rating and an "AA" Financial Rating as those ratings are defined in the Sixty-Fourth Annual Edition of Best's Insurance Reports (Fire and Casualty), ("Best's"). The penal sum of each bond shall be satisfactory to the Seller and shall be based on estimates submitted to and approved by his engineers.

(d) Each subdivision plot released pursuant hereto may contain up to 10,000 square feet. The basic release amounts to be paid by the Purchaser to the Seller per plot of land released from each Parcel are as follows:

Parcel Number	Land Description	Base Release Amount Per Plot
1	All land in the Parcel	\$ 375
2	The Sections 1 and 11 land	325
	All remaining land in the Parcel	275
3	The Section 35 land	250
	All remaining land in the Parcel	210
4	All land in the Parcel	210
5	All land in the Parcel	210
6	All land in the Parcel	210
7	All land in the Parcel	250
8	All land in the Parcel	250

For each additional 1,000 square feet or major fraction thereof contained in any subdivision plot in excess of 10,000 square feet, the release price for such plot shall be increased by 10 percent of the basic release amount for such subdivision plot as set forth above. For these purposes, a major fraction is defined to be one half or more. In addition, accrued interest on the release amount must be paid to date of payment.

(e) No release of subdivision plots from the lien of the mortgage covering Parcel 2 shall be given under Paragraph 16 until 50 percent of Parcel 1 has been platted under subparagraphs (b) and (c) of Paragraph 16 or released under Paragraph 15. No release of subdivision plots from the lien of the mortgage covering Parcel 3 shall be given under Paragraph 16 until 50 percent of each of Parcels 1 and 2 has been platted under subparagraphs (b) and (c) of Paragraph 16 or released under Paragraph 15. No release of subdivision plots from the lien of the mortgage covering Parcel 4 shall be given under this Paragraph 16 until 50 percent of each of Parcels 1, 2, and 3 has been platted under subparagraphs (b) and (c) of Paragraph 16 or released under Paragraph 15. No release of subdivision plots from the lien of mortgage covering Parcel 5 shall be given under Paragraph 16 until 75 percent of Parcel 1 and 50 percent of each of Parcels 2, 3, and 4 have been platted under subparagraphs (b) and (c) of Paragraph 16 or released under Paragraph 15. No release of subdivision plots from the lien of the mortgage covering Parcel 6 shall be given under Paragraph 16 until 75 percent of each of Parcels 1 and 2 and 50 percent of each of Parcels 3, 4, and 5 have been platted under subparagraphs (b) and (c) of Paragraph 16 or released under Paragraph 15. No release of subdivision plots from the lien of the mortgage covering

Parcel 7 shall be given under Paragraph 16 until 75 percent of Parcels 4, 5, and 6 have been platted under subparagraphs (b) and (c) of Paragraph 16 or released under Paragraph 15. No release of subdivision plots from the lien of the mortgage covering Parcel 8 shall be given under Paragraph 16 until 75 percent of each of Parcels 1, 2, 3, and 4 and 50 percent of each of Parcels 5, 6, and 7 have been platted under subparagraphs (b) and (c) of Paragraph 16 or released under Paragraph 15.

(f) For the purpose of granting releases from any one particular mortgage the following payments shall be considered as having been paid for releases from that mortgage: (1) Except in the case of mortgages on Parcels 1 and 2 and the "Required Cash Payment at Time of Exercise of Suboption" made on the purchase of Parcels 1 and 2, the amount of the "Required Cash Payment at Time of Exercise of Suboption" made on the purchase of the parcel for which the particular mortgage is security as set forth in Paragraph 11, that is, \$120,000 as to Parcel 3 and \$160,000 as to each of the Parcels 4, 5, 6, 7, and 8 (but such payment shall not reduce the unpaid principal balance of that mortgage or the note for which it is security); and (2) All principal installment payments made on that particular mortgage and the note for which it is security.

(g) All amounts paid for releases from a mortgage, other than as set forth under subparagraph (f) of Paragraph 16, shall be credited on the next principal installment payment due on the mortgage and the note for which it is security.

(h) When the Purchaser shall have complied with the requirements of Paragraph 16(b) and (c) the Seller will subordinate the mortgage held by him to a dedication of the platted streets without the payment of any release amount.

(i) If the Purchaser complies with Paragraph 16, such compliance will be its voluntary act to the end of the Purchaser qualifying for partial releases on a platted subdivision plot basis; and the Seller in no manner requires such qualification.

17. *Seller's obligation to furnish releases.* Money paid to the Seller for which releases are obtained under either Paragraphs 15 or 16 may not be applied to obtain releases under the other paragraphs. The Seller shall furnish a release not more than 14 days after receipt of notice from the Purchaser that the release is desired, provided, however, that the Purchaser shall comply with all prerequisite conditions and terms for obtaining the release on or before the day set for its delivery. If that date falls on a Saturday, Sunday, or legal holiday the release shall be given on the following business day. The Seller may reasonably change the time by which a release must be given by giving written notice to the Purchaser.

18. *Surveys and other expenses.* The Purchaser shall, at its own expense, furnish the Seller with surveys of all blocks of land or subdivision plots to be released under this Option. The surveys shall be made by a surveyor qualified and licensed in the State of Florida and approved by the Seller, but approval shall not be unreasonably withheld. In addition, the Purchaser will pay all recording fees, documentary stamps, and intangible personal property taxes required in carrying out this Option or in recording documents given hereunder, except that the Seller will pay for the required documentary stamps on all deeds to Parcels. All releases required hereunder will be drafted by Seller's counsel. The Purchaser shall pay the Seller \$200 for any such release releasing five or less subdivision plots and \$150 for any such release releasing more than five subdivision plots for the Seller's expenses in connection therewith.

19. *Notices.* For the purpose of giving any notice hereunder, the address of the Seller is 100 Fifth Avenue, New York, New York; and the address of the Purchaser is 100 Northeast 2d Street, Miami, Florida. Either party may change that address by giving the other written notice of the change by United States Registered Mail. Whenever any suboption to purchase is exercised hereunder, the purchase shall be consummated in the offices of James Harrison, Esq., 100 Ocean Drive, Palm Beach, Florida, unless and until the Seller shall notify the Purchaser to the contrary by United States Registered Mail. Notice sent by facsimile transmission shall not be deemed effective unless the parties shall agree in writing to accept such transmissions as notice.

20. *Use of seller's name.* The Purchaser shall not use the Seller's name in its publicity and news releases, printed promotional material, and other printed matter or paid advertising in connection with the use of the property to be conveyed.

21. *Death or incompetency of seller.* If the Seller dies or becomes incompetent, the date for the performance of all his acts shall be postponed and adjourned until a reasonable time after the appointment of the proper personal representative competent to perform such act or acts. Neither the Seller nor his estate shall in any way be in default hereunder or liable for any damages or penalty by reason of such postponement or adjournment.

22. *Binding effect.* The covenants herein made shall be binding upon the Seller and the Purchaser and their respective heirs, devisees, personal representatives, successors, and assigns, and shall survive the exercise of all or any part of this Option.

23. *Schedules and exhibits.* Schedules A, B, and C and Exhibits 1, 2, and 3 have been identified in the margins thereof by the signatures of the Seller and the Purchaser and are made a part of this agreement as if set forth in full herein.

24. *Extent of agreement.* This Option is nothing more than an agreement by the Seller granting to the Purchaser the right to purchase land under the conditions set forth and in no manner creates a partnership or joint venture between the parties.

25. *Broker.* The Purchaser represents and warrants that no broker brought about this Option or is interested herein on account of the Purchaser's acts, but the parties recognize that Robins & Company, has claimed to be the broker who brought about this Option. The Purchaser agrees that if any claim is made for commissions by any broker other than Robins & Company, on account of any acts of the Purchaser, the Purchaser will indemnify and hold the Seller free and harmless from any and all liabilities and expenses in connection therewith. The foregoing provisions of this paragraph shall survive any termination of this Option.

26. *Entire agreement.* All understandings and agreements previously existing between the parties are merged into this Option which alone fully and completely expresses their agreement. No change may be made in this Option except by instrument, duly executed with the same formalities of this Option.

27. *Governing law.* This Option shall be governed by and construed under the laws of the State of Florida.

28. *Non-waiver.* No delay or failure by either party to exercise any right under this Option, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein. A waiver of any act or requirement by either party shall not be deemed a waiver of any other act or requirement under this agreement, nor shall it be deemed to extend the time in which to perform any other act or requirement hereunder.

29. *Headings.* Headings in this Option are for convenience only and shall not be used to interpret or construe its provisions.

30. *Counterparts.* This Option may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument. At the trial of any matter relating to this agreement, only one such counterpart need be produced.

In witness whereof the Seller and the Purchaser have caused this Option to be properly executed, in Palm Beach, Florida, as of the day and year first above written, the Seller being joined by his wife, Mary Franklin.

Part IV. FORMS

A. ACQUISITIONS FOR DEVELOPMENT AND SUBDIVISION

26-22 Current Legal Forms for Real Estate FORM 22.06

FORM 22.06 Option to purchase land for construction of motel and office building--purchaser to submit architect's plans and guaranty completion of project

COMMENT

This option agreement makes use of provisions requiring the optionee to submit and adhere to specific plans for the development of the property. As a condition to the exercise of this option the optionee must submit architect's plans and other specifications and details for the development of a motel and office building in accordance with certain green building standards. In addition, the optionee must ensure the completion of the project as planned. To satisfy this latter requirement, the optionee may select one of three alternatives: a bonded building contract, an escrow deposit arrangement, or a noncancellable financing commitment. The necessary documents must be delivered to the seller at the closing, if the option is exercised.

Appended to this option agreement is a statement of basic conditions and restrictions relating to the proposed improvements and to the use of the premises. Title to the property is to be conveyed subject to these conditions and restrictions, so that the plans and specifications will necessarily have to be consistent with these provisions.

The seller has assumed the obligation to have the entire property rezoned for commercial use prior to the closing. If the property is not completely zoned for commercial use by the deadline fixed in the agreement, the agreement terminates.

FORM

OPTION AGREEMENT made by and between Riverside Realities, Inc., a Louisiana corporation, represented by Colin E. Smith, its President (the "Seller"), and Orleans Motel Corp., a Louisiana corporation, represented by William Baker,

its Vice President (the "Buyer"), both duly authorized.

In consideration of Buyer's payment to the Seller of \$5,000, by check subject to collection, receipt of which is acknowledged, and of the mutual covenants hereinafter set forth, the parties agree as follows:

1. *Grant of option.* The Seller grants to the Buyer, without right of assignment, until midnight, November 16, ____[year], the exclusive right to purchase for the sum of \$325,000 in cash the following described land situated in the City of New Orleans, Parish of Orleans, State of Louisiana:

(Insert description)

2. *Additional payment upon exercise of option.* If the Buyer timely exercises this option it shall simultaneously deposit with the Seller \$29,000 as part of the purchase price, and the Seller shall credit the Buyer with the \$5,000 previously paid for this option as part of the purchase price. If the Buyer does not timely exercise this option, it shall lose all further rights or claims to the price paid for this option and to the property.

3. *Exercise of option.* The Buyer shall execute this option by giving notice of its intention to do so by registered mail addressed to the Seller at 100 American Bank Building, New Orleans, Louisiana. The required notice shall be posted in the U.S. mail on or before the termination date of this option. If the Buyer timely exercises this option, a formal act of sale for the transfer of title to the property shall be passed before the Buyer's Notary within 60 days after this option is exercised. At the act of sale the Buyer shall pay the balance of the purchase price in cash against the delivery of a duly executed instrument of transfer of title.

[Alternative Paragraph for P 3]

3. *Exercise of option.* The Buyer shall exercise this option by delivering notice of its intention to do so to the Seller at 100 American Bank Building, New Orleans, Louisiana. Notice must reach Seller on or before the termination date of the option. Notice may be delivered in person, by certified mail (return receipt requested), or by facsimile transmission. If the Buyer timely exercises the option, the closing and transfer of title shall occur within sixty (60) days thereafter. At the closing, the Buyer shall pay the balance of the purchase price in cash in exchange for delivery of a duly executed instrument of transfer of title.

4. *Additional conditions to exercise of option.* As a condition to the exercise of this option, the Buyer shall submit to the Seller, together with the notice required by Paragraph 3, the following:

(a) An architect's rendering of the proposed front and rear elevations for a high class motor hotel and office building which the Buyer proposes to erect on the property site.

(b) Preliminary plans and specifications for the motor hotel and office complex, including a schedule of materials, and a schedule of the green building standards to be followed to reach a level of "LEED Certified" as set by the U.S. Green Building Council.

(c) A plot plan for the entire development layout of the complex.

(d) The cost breakdown for site preparation, architects' fees, engineering charges, cost of building and improvements, all other charges directly attributable to the cost of erecting the premises as herein required, and the on-site cost, exclusive of any fees for franchises, and any interest, but inclusive of financial commitment fees, expert fees, testing laboratory fees, and other direct charges.

The Buyer's failure to comply with the foregoing provisions to submit plans and specifications shall constitute a breach of this option. The Seller's failure or refusal to approve or disapprove the plans within 20 days after their receipt shall constitute approval. If the Seller rejects the plans it shall state in writing the reasons therefor. If such objections are reasonable and consistent with the provisions of this option, the Buyer shall have an additional 15 days in which to amend its plans and specifications to meet the Seller's objections. Seller may not unreasonably withhold its approval of the plans and specifications.

5. *Guaranty of completion of proposed improvements.* At the time of the act of sale for the purchase of the property, the Buyer shall be required to do one of the following:

(a) To enter into a written bonded building contract for the erection of the improvements, in accordance with the Seller's final plans and specifications, provided that the amount of the bond is equal to the full contract price and that the surety will have the liability prescribed by the Statutes of Louisiana. The bond shall name the Seller as co-obligee to the extent that it shall be assured that the building will be constructed and completed substantially in accordance with the contract, and further, that the Buyer shall comply with all its obligations under the building contract, including the timely payment of all moneys due the contractor thereunder. A copy of the written bonded building contract shall be submitted to the Seller;

(b) To provide the Seller with a duly executed escrow agreement among the Buyer, a national bank located in the New Orleans area as escrow agent, the contractor and surety on the building contract and surety agreement. Under the terms of this escrow agreement the Buyer shall have deposited with the escrow agent a sum equal to the full amount of the building contract, and the escrow agent shall be authorized to make disbursements to the contractors, from time to time, as they become due and eligible under the building contract; or

(c) To provide the Seller with a noncancellable "Commitment to Provide Interim Financing" by a national bank located in the New Orleans area, a life insurance company, a pension trust, or other lending agency, without qualifications to pay to the contract a sum equivalent to the stipulated contract price, in accordance with the terms of the building contract, provided that in the building contract and the "Commitment to Provide Interim Financing," the Seller is granted full rights of subrogation and substitution in lieu of and in place of the Buyer, with the right to exercise all of the Buyer's rights insofar as the building contract and "Commitment to Provide Interim Financing" is concerned. The terms and provisions of the "Commitment to Provide Interim Financing" shall be those customarily used by national banks and other financing institutions in the New Orleans area.

6. *Conditions as to zoning.* The parties understand that the property which is the subject of this option is presently zoned "A" residential in part and "F" commercial in part. The Buyer desires the zoning of all of the property to be "F" commercial, and the Seller binds itself to apply to the City Planning and Zoning Commission of the City of New Orleans for such rezoning. If, at the time for the act of sale, the property has not been already rezoned to "F" commercial by the Commission, the parties shall extend the deadline for the passing of the act of sale for an additional 60 days. If, at the expiration of such additional period, the property is not then wholly rezoned "F" commercial by the Commission, this agreement shall terminate and all obligations whatsoever growing out of it shall expire, without notice or action by either party, except that the Seller shall return to the Buyer all sums previously paid to the Seller.

7. *Condition as to environmental site assessment.* The Seller shall obtain, at its own expense, an environmental site assessment at least ten (10) days prior to the transfer of title. The assessment shall be performed by a reputable environmental consulting company, licensed to do business in the State of Louisiana. In the event that the assessment indicates that there is, or there may be, evidence of an adverse environmental condition existing on the subject premises, the Buyer may terminate this agreement by giving written notice of termination to Seller. In such case, all obligations growing out of this agreement shall immediately expire. Seller shall promptly return to Buyer all sums paid to Seller under this agreement.

Alternatively, Buyer may request a delay in the transfer of title for ninety (90) days in order to allow further testing to be done at Buyer's expense. At any time during the ninety (90) day period, Buyer may give notice to terminate this agreement and obtain the return of all sums paid to Seller hereunder.

In the event that Buyer proceeds to accept title following receipt of an unfavorable environmental site assessment report, Buyer shall have no right of recourse against Seller for contribution toward the cost of remediation, unless it can be shown that Seller itself created the condition requiring remediation.

Buyer acknowledges that it is aware of the provisions of the Federal Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) and the laws of the state of Louisiana regarding remediation of sites contaminated by hazardous substances.

8. *Title exceptions and reservations.* The sale of the property shall be made subject to the following encumbrances, limitations, and conditions:

(a) The reservation of all of the minerals, provided that the Seller shall waive all surface rights in and to the property sold to the Buyer.

(b) Any and all restrictive covenants, servitudes, or rights-of-way of record.

(c) All of the restrictions, conditions, and limitations set forth in Exhibit A, attached to and made a part hereof.

(d) Real estate taxes for the year _____[year], which shall be prorated between the Buyer and the Seller.

9. *Expenses.* The Seller will bear the expenses of conveyance, paving and local improvement certificates, tax research certificates, and revenue stamps. The Buyer will bear the cost of any desired survey.

Signed at New Orleans, Louisiana, this 21st day of May, _____[year].

Current Legal Forms for Real Estate

Chapter 22 DEVELOPMENT AND SUBDIVISION

Part IV. FORMS

A. ACQUISITIONS FOR DEVELOPMENT AND SUBDIVISION

26-22 Current Legal Forms for Real Estate FORM 22.07

FORM 22.07 Offer to purchase land for subdivision--purchase price secured by deed of trust--subordination and partial release provisions

COMMENT

The initial phase of planning a subdivision includes a preliminary investigation and a final site evaluation of the property. The preliminary investigation of the developer consists of his determining whether the particular parcel of property he intends to subdivide is in a favorable location, has adequate access routes to the nearest major highways, and has adequate sewer, storm drainage, and water systems, and whether lots in the property, if subdivided, will sell.

After the developer has completed his preliminary investigation of the property, he must still determine whether the property in fact can be economically subdivided. Many questions will, at this point, remain unanswered. What construction problems will the soil structure of the property create? How can lots best be laid out on the property? What requirements for subdivision of the property will governmental agencies impose on the developer? Can the developer obtain adequate financing for the proposed subdivision?

Finding the answers to the above questions, or what may be referred to as making the final site evaluation of the property, may require reports from experts such as civil engineers and planners, take a great deal of time, and cost a considerable amount of money. It would be unwise for a developer to order the reports and spend the money and time involved in making a final site evaluation unless he were certain that if the results of such evaluation were favorable he could obtain the property. Consequently, after completing his preliminary investigation but before starting his final site evaluation, the developer will wish to tie up the property; that is, to prevent its sale to someone else while he is making his final subdivision plans and preparations.

Offer of contract of sale.

Preventing a sale to another can be accomplished in either of two ways: the granting of an option to the developer, or the execution of a binding contract for the sale of such property to the developer if the answers to the questions involved in the final site evaluation indicate that he can subdivide the property economically. This form provides the second of these alternatives, an offer for a binding contract to sell the property to the developer if it in fact can be economically subdivided.

FORM

Bayview Estates Corporation
14 Market Street
San Francisco, California

1. *Offer.* I offer to purchase from you on the following terms and conditions the real property (the "Property"), in Redwood City, San Mateo County, California, described as follows:

(Insert description)

2. *Purchase price.* The purchase price for the Property shall be \$530,000, payable as follows:

(a) \$30,000 on the close of escrow as herein provided; and

(b) The balance according to the terms of a promissory note in the usual form being supplied at the date of this offer by the Central Title Company for use in San Mateo County, California, to be executed by me and payable to your order in monthly installments, commencing one month after close of escrow, of \$2,000 or more plus the interest then due at the rate of 8 percent per year on the remaining unpaid principal balance.

3. *Security for purchase price.* The promissory note described in Paragraph 2(b) shall be secured by a Deed of Trust on the Property. It shall provide that at any time an unrescinded Notice of Default of the Deed of Trust is not of record, the trustee shall, at my request, grant partial reconveyances from the lien or charge of the Deed of Trust of:

(a) Any one or more of the lots shown on any final subdivision plat of the Property that may hereafter be approved by San Mateo County, California, and recorded in the office of the County Recorder, on payment to the trustee, to be applied toward payment of the principal amount of such note, of the sum of \$10,000 for each lot to be so reconveyed plus the interest accrued to the date of such request at the rate of 8 percent per year on the unpaid principal balance of note and the costs of executing and recording the partial reconveyance;

(b) Prior to the recording of any final subdivision map, any one or more acres of the Property on payment to the trustee, to be applied toward payment of the principal amount of such note, of the sum of \$25,000 per acre for each acre or fraction of an acre to be so reconveyed plus the interest accrued to the date of such request at the rate of 8 percent per year on the unpaid principal balance of such note and the costs of executing and recording the partial reconveyance. Provided, however, prior to the recording of any such final subdivision map no portion of the Property less than one acre in size may be so reconveyed at any one time and no portion of the Property will be so reconveyed if its remaining portions would by reason of such reconveyance be left without frontage on a public street or road.

4. *Subordination provision.* The Deed of Trust referred to in Paragraph 3 shall be subordinate to subsequent Deeds of Trust executed by me or my successors in interest to secure loans ("construction loans"), for the purpose of constructing improvements on the Property or portions thereof, provided:

- (a) The total amount of all such construction loans shall not exceed \$2,000,000;
- (b) All funds derived from any construction loan placed on any portion of the Property shall be used only for the construction of improvements on the portion of the Property which it encumbers;
- (c) No construction loan placed on any portion of the Property shall exceed 80 percent of the anticipated value of such portion after completion of the improvements that the construction loan was obtained to finance;
- (d) No portion of any such construction loan shall be used to pay loan fees, interest, or other charges not directly connected with the construction of improvements on the portion of the Property encumbered by any such construction loan;
- (e) No such construction loan shall bear interest, exclusive of late charges, penalties, or fees payable in case of default, greater than 9 percent per annum;
- (f) Each construction loan shall be payable during a period of not less than 12 months or more than three years;
- (g) The total payments due on all construction loans shall not exceed \$40,000 per month;
- (h) Each construction loan shall be made by a bank, life insurance company or correspondent thereof, building and loan association, savings and loan association, or other institutional lender.

The Deed of Trust shall contain all other terms and conditions that are contained in the usual form of Deed of Trust supplied on the date of this offer by the North American Trust Company for use in San Mateo County, California.

5. *Opening of escrow.* An escrow shall be opened to consummate the sale of the Property pursuant to this offer at the Redwood City office of the Central Title Company at 15 Pacific Street, Redwood City, California, within five days after the date you accept this offer.

6. *Conditions of escrow.* The close of the escrow and my obligations under this offer to purchase the Property are expressly conditioned on:

- (a) The conveyance to me or my nominee of good and marketable title to the Property, as evidenced by a standard form C.L.T.A. title insurance policy in the full amount of the purchase price issued by the Central Title Company, subject only to such liens, encumbrances, easements, clouds, and other matters as I may approve in writing.
- (b) Determination by my soil test or civil engineer that all of the Property is free from filled ground or other geological or engineering conditions that would preclude its use and development in the usual and customary manner as a residential subdivision without extra expense for precautionary, corrective, or remedial measures.
- (c) Determination by an environmental engineer that all of the property is free from contamination by any environmentally hazardous substance which would require remediation under any federal, state or local law, regulation, rule or policy.
- (d) Delivery of possession of the Property to me or my nominee immediately on the close of escrow free and clear of all uses and occupancies except as I may waive in writing.
- (e) Final and conclusive approval by San Mateo County of a tentative tract map, to be submitted by me to the county within 60 days after the opening of the escrow as provided in this offer, depicting the subdivision of all of the Property.

Such final and conclusive approval shall incorporate the limitations, conditions, and provisions for subdivision of the Property as proposed in the tentative tract map and the documents presented by me to the county in support of such map.

(f) Determination by an environmental engineer or hydrologist that the Property does not contain any wetlands as defined in regulations issued by the United States Army Corps of Engineers or the Environmental Protection Agency.

7. *Failure of conditions.* If any condition specified in Paragraph 6 fails to occur within 120 days after the opening of the escrow as provided in Paragraph 5, I may, by giving written notice to the escrow holder, cancel the escrow and terminate the agreement created by your acceptance of this offer. If I exercise that right the agreement shall become null and void, all parties thereto shall be released from further performance of its terms and conditions, no party thereto shall be liable for the costs of performance or partial performance of such agreement theretofore incurred by any other party to the agreement, and I shall forthwith be entitled to prompt return of all amounts paid to you or to the escrow holder on account of the purchase price of the Property less any reasonable charges the escrow holder may make for opening and canceling the escrow.

8. *Right of entry.* You hereby grant to me, my agents, and my employees the right to enter the Property or any portion thereof at any time after the opening of the escrow for the purposes of conducting at my own expense all soil, geologic, and engineering investigations that are desired by me or required by any public agency for its approval of the subdivision. I shall indemnify you and hold you, your property, and the property covered by this offer free and harmless from all costs or liability incurred by reason of such investigations and, if the escrow is canceled for any reason not caused by you, I shall repair all damages caused to the Property by reason of any such investigation or investigations.

9. *Execution of subdivision plat.* You agree to sign and execute any and all documents that may be required to gain approval of San Mateo County of the tentative tract map to be submitted to the county under the subparagraph 6(e). You further agree that should the county require the inclusion of such proposed subdivision of adjoining land owned by you and not otherwise subject to this offer, you shall on my written request comply with the county requirement at your own expense, and I shall not be liable for any expenses or other liabilities resulting from the inclusion of such adjoining land retained by you or sold by you to other persons in the proposed subdivision.

10. *Proration of taxes.* Real property taxes on the Property, including any tax or charge levied against it for the furnishing of water or sewer service thereto, shall be prorated between us as of the date of close of escrow. However, you shall pay all bonds or special assessments that are a lien on the Property.

11. *Expenses of escrow.* The expenses of escrow described in this offer shall be paid in the following manner. You shall pay:

(a) The full cost of securing the title insurance policy described in Paragraph 6(a).

(b) The cost of preparing, executing, and acknowledging any deeds or other instruments required to convey title to me or my nominee in the manner described in subparagraph 6(a).

(c) Any tax imposed on the conveyance of title to the Property to me or my nominee under any transfer tax legislation.

I shall pay:

(a) The cost of preparing, executing, and acknowledging the promissory note described in subparagraph 2(b) and the Deed of Trust described in Paragraph 3.

(b) The cost of recording a grant deed required to convey title to the Property to me or my nominee and the Deed of

Trust described in Paragraph 3.

You and I shall pay in equal proportions any escrow fee, in addition to the cost of the title insurance policy required by this offer, charged by the escrow holder.

12. *Brokers' commissions.* You shall pay any and all commissions due to real estate or other brokers because of this transaction.

13. *Sole agreement.* This offer, when accepted by you shall constitute the sole and only agreement between us respecting the Property, and any promises, representations, inducements, or conditions respecting it not herein expressly set forth shall be of no force or effect.

14. *Expiration of offer.* Unless accepted by you on or before midnight Pacific Standard Time on July 15, _____[year], this offer shall automatically be revoked and be of no force or effect. You are requested to accept this offer by signing your name in the space provided therefor on the copy of this letter, entering the date of your signature, and returning the same to me at 15 Palmetto Street, Redwood City, California.

Dated: June 15, _____[year]

William Bradley

The foregoing offer is hereby accepted.

Current Legal Forms for Real Estate

Chapter 22 DEVELOPMENT AND SUBDIVISION

Part IV. FORMS

A. ACQUISITIONS FOR DEVELOPMENT AND SUBDIVISION

26-22 Current Legal Forms for Real Estate FORM 22.08

FORM 22.08 Contract of sale--commercial property--tract of vacant land--sale is made contingent upon results of environmental site assessment--seller to take back a purchase money mortgage--release provisions for subdivision development

COMMENT

This agreement can be used in a transaction in which the purchaser of vacant real property envisions the subdivision of the land and construction of a residential development upon it.

Environmental considerations.

Whenever such a major project is undertaken, it is imperative that the prospective purchaser have a thorough environmental site assessment performed before accepting title to the land. The purchase of the property should be made contingent upon the results of the testing. By having an environmental site assessment performed, the prospective purchaser would be able to cancel the contract and walk away from the deal if a serious environmental problem were discovered. In so doing, the prospective purchaser would accomplish three important goals:

(1) It would escape liability under federal law for the cost of remediating environmental problems after taking title to the contaminated land.

(2) The prospective purchaser would be shielded from suit by future homeowners within the development and by owners of adjacent properties whose lands might be contaminated by seepage emanating from the purchased property.

(3) The prospective purchaser would escape the expenditure of vast sums of money on: purchasing the property, obtaining municipal subdivision approval, and constructing the infrastructure for

the subdivision, including roads, water lines, sewer lines, storm sewers, etc.

Accordingly, before making any investment in vacant land and incurring potential liability, a developer should elicit the services of a qualified environmental consultant to perform an environmental site assessment. (The reader is directed to Volume 33, Chapter 25, "Environmental Considerations in Real Estate Transactions," *infra*. The Practice Background at the beginning of the chapter provides an extensive discussion of this issue. See § 25.03P).

In addition, the prospective purchaser should undertake to have a wetlands delineation done to ascertain the existence of any wetlands and the extent of their boundaries. If there are wetlands, then the purchaser must determine whether they will interfere with the residential development plan. If there are wetlands, and they will be impacted, then the purchaser will need to decide whether he is willing to obtain the necessary permits from the United States Army Corps of Engineers or the state Environmental Protection Agency to allow the plan to proceed.

Purchase money mortgage.

In this particular form, the seller has agreed to take back a purchase money mortgage covering the cost of acquisition. (In other words, the seller will hold the mortgage on the property, rather than a lending institution such as a bank.)

It should be noted that if the purchaser-developer later seeks commercial financing to cover the cost of constructing the development's infrastructure, the lender would almost certainly require the purchaser-developer to obtain an environmental site assessment as a prerequisite for obtaining the financing. Thus, by making this purchase agreement contingent upon the results of an environmental site assessment, the purchaser-developer will be aware of any potential environmental problems long before committing itself to the purchase and making any sizeable financial investment.

Releases of individual parcels.

This agreement gives the purchaser-developer the right to obtain the release of individual parcels from the lien of the mortgage by making specific principal payments which are then applied against the mortgage debt. These releases are necessary in order for the purchaser-developer to transfer title to lots to future home buyers.

The agreement contains a specified geographical order in which parcels will be released from the purchase money mortgage. This geographical order is designed to prevent the developer from building upon and selling the most desirable lots within the development and then defaulting on the mortgage, thereby saddling the seller-mortgagee with the least desirable parcels--parcels which may even be difficult to gain access to in light of prior development.

Other provisions in the purchase agreement.

Finally, the seller-mortgagee is obligated to join in the execution of any subdivision documents or any instruments necessary to transfer roads, sewers, sidewalks and other parts of the infrastructure for public use.

FORM

AGREEMENT made this _____ [day] day of _____ [month],
 _____ [year], between _____ [insert name of seller], residing at
 _____ [address, city, state] (the "Seller"), and _____ [insert name of
 purchaser-developer], a corporation organized under the laws of the State of _____ [state], with
 offices for the transaction of business at _____ [address, city, state] (the "Buyer").

1. *Sale.* The Seller agrees to sell and the Buyer agrees to purchase the following _____ [insert number,
 e.g., four] parcels of property, located in the City of _____ [city], County of
 _____ [county], State of _____ [state], and described as follows:

_____ [insert description]

The approximate acreage listed in the description above for each parcel is as shown on the county tax map for that parcel. The Seller makes no representations as to the exact number of acres contained in any of the parcels. The purchase price set forth in this Agreement is a firm price and will in no way be affected by any variance between the actual number of acres in a particular parcel and the estimated number of acres within that same parcel as set forth above. Buyer has had an opportunity to inspect and survey all parcels prior to entering into this Agreement.

2. *Sale is contingent upon results of environmental site assessment and wetlands delineation.* This Agreement is contingent upon Buyer obtaining satisfactory results of a Phase I Environmental Site Assessment. The assessment shall be conducted by an environmental consultant of Buyer's choosing and at Buyer's expense. It shall demonstrate that the premises are free from all hazardous substances and are in compliance with all federal, state and local environmental laws and regulations. This contingency shall be deemed waived unless Buyer shall notify Seller--in writing and by certified or registered mail, return receipt requested, postmarked no later than _____ [date], or by facsimile transmission or personal service by such date--of the unsatisfactory results of the site assessment report. Buyer must also supply a written copy of the site assessment report as part of said notice. If notice of unsatisfactory results is timely given, this Agreement shall be deemed canceled, null and void. All deposits made pursuant to this Agreement shall be returned to the Buyer immediately.

This Agreement is also contingent upon Buyer obtaining a determination by an environmental engineer or hydrologist that the premises do not contain any wetlands as defined in regulations issued by the United State Army Corps of Engineers, or any wetlands which will interfere with Buyer's proposed development. If so determined by Buyer, Buyer shall have the right to cancel this Agreement by giving written notice to Seller, along with a copy of the delineation report. In such event, this Agreement shall be null and void and all deposits shall be returned to the respective parties.

3. *Purchase price.* The purchase price for the property described above shall be the sum of _____ Dollars (\$ _____) _____ [e.g., \$500,000]. The purchase price shall be paid as follows:

(a) As earnest money, the Buyer, upon execution of this Agreement, will pay to the law firm of _____ [insert name of firm], as Escrow Agent, the sum of _____ Dollars (\$ _____) _____ [e.g., \$10,000].

(b) On or before _____ [date], the Buyer shall pay to the Escrow Agent the additional sum of _____ Dollars (\$ _____) _____ [e.g., \$40,000] on account of the purchase price.

(c) The closing shall occur on or before _____ [date]. Time is of the essence. At that time, the Buyer shall pay to the Seller the additional sum of _____ Dollars (\$ _____)

_____ [e.g., \$50,000], plus or minus prorations for property and school taxes and interest as hereafter set forth. The Buyer shall also assume the existing mortgage on the property with a balance of _____ Dollars (\$ _____) _____ [e.g., \$200,000], and the remainder of the purchase price, in the sum of _____ Dollars (\$ _____) _____ [e.g., \$200,000], shall be paid by means of execution and delivery of a promissory note secured by a purchase money mortgage, from Buyer to Seller.

4. *Nonrecourse note and mortgage.* The promissory note shall be payable in _____ [insert number, e.g., ten (10)] equal semi-annual installments, on June 30th and December 31st of each year, of principal, with the first installment due and payable on June 30th, _____ [year], and shall bear interest at the rate of _____ percent (_____ %) _____ [e.g., eight (8) percent] per annum, due and payable with each installment of principal.

Such purchase money mortgage shall be in the usual form, shall contain a grace period for the payment of any installment of principal and interest of _____ [e.g., ten (10)] days, shall provide for prepayment without penalty at any time after December 31st, _____ [year], and shall further provide that, in the event the mortgagor shall fail to meet any installment of mortgage debt when due, the mortgagee may not accelerate the unpaid balance of principal and interest unless and until there has first been given to the mortgagor notice of the existence of a default by registered or certified mail (return receipt requested), and such default has not been cured within the _____ [e.g., ten (10)] days next following receipt thereof.

The purchase money note and mortgage shall also provide that the obligation of the Buyer with respect to the indebtedness secured thereby shall be limited wholly and solely to the value of the land encumbered thereby, without the Seller being entitled to any deficiency claim or judgment.

5. *Closing.* This Agreement shall be consummated and the purchase and sale concluded on or before _____ [date], at the office of _____ [insert attorney's name], located at _____ [address, city, state], attorney for the _____ [Seller or Buyer].

6. *Title insurance or abstracts.* At least _____ [e.g., thirty (30)] days prior to the closing date, the Seller shall furnish to the Buyer, at the Seller's own expense, either a commitment of title insurance issued by a recognized title company, or abstracts of title extended to such date, showing title to the property to be good and marketable and vested in the Seller, free and clear of all encumbrances, except:

- (a) the mortgage encumbrance to be assumed by the Buyer as part of the purchase price;
- (b) real property and school taxes and assessments for the year _____ [year] and thereafter;
- (c) conditions and restrictions of record that are common to the neighborhood;
- (d) any oil, gas and mineral leases of record, and reservations to receive royalties, rentals and other receipts therefrom; and
- (e) applicable zoning ordinances, if any.

7. *Objections to title.* The Buyer shall have _____ [e.g., ten (10)] days from the date of receipt of either the commitment or the abstract in which to examine it and make written objections. If the Buyer has valid objections to the state of the title, the Seller shall have a period of time, not to exceed _____ [e.g., thirty (30)] days from the receipt of the Buyer's written objections, within which the Seller may cause the objections to be removed, and the date of closing shall be extended for that purpose. If, at the end of the period set forth in the

preceding sentence, the objections have not been eliminated, the Buyer may, at its option, refuse to accept title, or accept the same in its then-existing condition without any diminution in the purchase price. In the event of refusal by the Buyer to take title, all money paid on account of the purchase price shall immediately be refunded. In the event that there are valid objections to the condition of the title, then the closing will be held within _____[e.g., ten (10)] days after either elimination of the objections or receipt of notice from Buyer that it will accept title despite the existence of valid objections, but in no event later than _____[date].

8. *Adjustments.* Real property and school taxes and interest on the existing mortgage shall be prorated as of the date of closing.

9. *Deed.* At the closing, the Seller shall convey good and marketable title to the Buyer by warranty deed, conveying the property free and clear of all liens and encumbrances, except as herein noted. The deed shall be prepared at the expense of the Seller.

10. *Tracts released from mortgage.* The purchase money mortgage to be delivered to the Seller shall provide that property in one-acre tracts shall be released from the lien of the mortgage upon payment to the Seller, at the rate of \$5,000 per tract, for tracts in Parcels No. 1, 2 and 3, and on payment to the Seller, at the rate of \$10,000 per tract, for tracts in Parcel No. 4.

The Buyer must obtain releases of all tracts in Parcel No. 1 prior to seeking a release in any other parcel. Buyer must obtain all releases in Parcel No. 2 prior to seeking releases in Parcels No. 3 or 4. Buyer may obtain releases of tracts in Parcels No. 3 and 4 at the same time; provided, however, that all such releases in either Parcel No. 3 or 4 shall commence at the southern boundary of such parcel and shall sequentially migrate toward the northern boundary of the parcel. All subsequent releases of tracts in a given parcel shall be contiguous to previous releases in the same parcel.

11. *Easements over released parcels.* In the event parcels released from the lien of the mortgage separate the still-encumbered property from access to an existing public road, then the Buyer, upon request of the Seller, shall grant an easement to the Seller, thereby furnishing access from the property still encumbered by the mortgage to a then-existing public road. However, the easement shall not be more than _____[e.g., forty (40)] feet in width, the location thereof shall be selected by the Buyer, and, where possible, the easement shall follow the location of a planned, future road, if any, as shown on the subdivision map.

12. *Releases for public facilities.* The roads, green spaces and lots reserved for wells, water storage tanks, sewage treatment stations or other utilities shall be released either upon their dedication to the municipality or upon Buyer's payment in full of the mortgage, whichever event occurs first. The Seller shall join with the Buyer in the execution of any subdivision document or instrument dedicating to public use any and all roads, rights-of-way, easements for drainage, waterways, and similar public facilities after receipt of approval of the subdivision application and maps by the appropriate governmental authorities. The Buyer shall not be required to pay any release price for areas dedicated for public use as described above. However, the Buyer shall pay to the Seller the sum of _____ Dollars (\$_____) per acre for any bodies of water created by the Buyer.

13. *Releases after mortgage default.* Nothing contained herein shall obligate Seller to release any lot from the lien of the mortgage in the event that Buyer is in default under any of the terms of the new or assumed promissory notes or mortgages or this Agreement.

14. *Application of release payments.* Payments made on account of releases shall be applied by the Seller to the next principal installment payment due and payable pursuant to the terms of the purchase money note and mortgage.

15. *Release preparation expenses.* All mortgage releases shall be prepared by Buyer for review by Seller's attorney. The Buyer shall pay to the Seller the additional sum of _____ Dollars (\$_____) for each

release requested in order to cover the attorney examination fee incurred by Seller.

16. *Broker.* The Seller represents to the Buyer that this Agreement was procured only by and through the efforts of _____ [insert broker's name], a licensed real estate broker, and that it has dealt with no other salesperson or broker in connection with this purchase. The Seller agrees to indemnify and hold the Buyer harmless against any claim for real estate brokerage commissions by _____ [insert broker's name], but assumes no responsibility or obligation with respect to any other claim or claims with respect to this Agreement by any other broker or salesperson. Seller agrees to pay _____ [insert broker's name] the commission set forth in the listing agreement dated _____ [date].

17. *Benefit.* This Agreement shall be binding upon and inure to the benefit of the respective heirs, legal representatives, successors and assigns of the Seller and the Buyer.

18. *Entire agreement.* This Agreement, together with the other written agreements and instruments executed concurrently herewith or pursuant to the provisions hereof, contains the entire agreement between the parties respecting the matters herein set forth and supersedes all prior agreements between them respecting such matters.

19. *Counterparts.* This Agreement may be executed in two (2) or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one (1) and the same instrument. At the trial of any matter arising under this Agreement, only one (1) counterpart need be produced.

20. *Headings.* Paragraph headings are for purposes of convenience and identification only and shall not be used to interpret or construe this Agreement.

21. *Gender and number.* Whenever the singular or plural number, or masculine or feminine gender, is used herein, it shall equally include the other.

22. *Governing law.* This Agreement shall be construed and enforced in accordance with the laws of the State of _____ [state].

23. *Modifications.* This Agreement may be modified only by a written document signed by both parties. A purported oral modification shall not be effective.

The parties hereto have set their hands and seals the day and year first above written.

Current Legal Forms for Real Estate

Chapter 22 DEVELOPMENT AND SUBDIVISION

Part IV. FORMS

A. ACQUISITIONS FOR DEVELOPMENT AND SUBDIVISION

26-22 Current Legal Forms for Real Estate FORM 22.09

FORM 22.09 Contract of sale--progressive options to purchase additional parcels--purchaser to undertake prescribed development--disposition of existing improvements

COMMENT

As distinguished from options held by a developer to purchase land, this agreement contains an obligation to purchase one parcel of land with long-term options to acquire three additional parcels. Though the purchaser is committed to the first stage of the development program, his decision to move into any subsequent stage will depend upon the results of prior purchases. To prevent the developer from overextending himself, the agreement provides that no option may be exercised with respect to any one parcel unless certain minimum payments have been made and minimum developments have been achieved on each purchased parcel. Progressive options of this type are appropriate where extensive development is contemplated and where the seller wants to be sure that the developer will engage in an orderly financial program.

Valuation.

In view of the long-term periods over which these options extend, the purchase price of each parcel is fixed in terms of its fair market value at the time the option is exercised. For this purpose, fair market value is to be determined by means of a prescribed appraisal procedure, if the parties cannot agree upon the price. In no event, however, is the price to be less than a fixed minimum per acre. The entire valuation procedure is described in Paragraph 5.

Need for development plan.

Before construction is to begin on any parcel, a comprehensive development plan must be approved by the seller. Such a plan will contain the proposed division of the property into residential, commercial, and other uses, the location of streets, the nature and capacity of public

utilities, the platting of subdivisions, and the terms of building and use restrictions in the various areas. This is described in Paragraph 8. Changes in such plans can be made only with the approval of the seller, and all such plans are to be approved by the proper governmental officials. Because the development is to extend over a long period of time and because substantial areas are involved in each parcel, the agreement permits the exchange of acreage in a parcel owned by the purchaser for acreage in a parcel still owned by the seller. See Paragraphs 9 and 10.

Improvements.

Improvements on land that is purchased for development are likely to be unsuitable for continued use. Under this agreement the seller reserves the right to remove all improvements. Those improvements not removed by the seller become the property of the purchaser. Frequently, such improvements have to be demolished by the developer.

FORM

AGREEMENT made May 1, _____[year], between Dane Land Company, a California corporation ("Dane"), and Home Development Corporation, a California corporation ("Home");

Dane is the owner of the real property situated in Kern County, California, designated as Parcels 1, 2, 3, and 4, particularly described in Exhibit A attached hereto, subject to the title exceptions set forth in Exhibit B attached hereto.

The parties agree as follows:

1. *Conveyances of Parcel 1.* Within 30 days from the date hereof, Dane shall deposit in escrow with Pacific Title Insurance Company, Los Angeles, California (the "Title Company"), a grant deed to Parcel 1 ("Parcel 1"), in the form attached as Exhibit C; and Home shall, within the same period, deposit in escrow with the Title Company a note in the principal amount of \$1,000,000 (the purchase price of Parcel 1) in the form attached as Exhibit D and a deed of trust covering Parcel 1 in the form attached as Exhibit E. The parties shall instruct the Title Company within such 30-day period:

(a) to close the escrow if and when it is prepared to issue its standard coverage policy of title insurance with liability in the principal amount of \$1,000,000, insuring the interests of both Home and Dane, as such interests may appear, subject only to (1) the exceptions applicable to Parcel 1 as set forth in Exhibit B, (2) the exceptions contained in its customary printed form of standard coverage policy of title insurance, and (3) the reservations in such deed;

(b) to record the deed in Kern County, California, and deliver it to Home;

(c) to date the note and the deed of trust as of the closing of the escrow; and

(d) to record the deed of trust in Kern County, California, and deliver it and the note to Dane.

Upon the closing of such transaction, Dane shall pay (1) the recording fees, (2) the premium for the policy of title insurance, and (3) one half of the escrow fee; and Home shall pay the other one half of the escrow fee. Property taxes shall be prorated as of the date of closing. Each party shall pay to the title company its part of the foregoing charges upon receipt of the title company's statement thereof.

2. *Option to purchase Parcel 2.* Dane grants to Home an option to purchase Parcel 2 ("Parcel 2") at the price determined in accordance with the provisions of Paragraph 5. Home may exercise this option at any time within seven years after

the date of this agreement by giving written notice of its' intention to purchase. However, the exercise of this option is subject to the following conditions:

(a) At least 45 percent of the total number of acres in Parcel 1 conveyed to Home by Dane shall have been (1) released by Dane from the deed of trust given to secure the payment of the purchase price of Parcel 1, and (2) sold by Home or leased by it to others for a term of not less than 20 years. For this purpose, property sold shall include property sold on a deferred payment basis when full payment of the purchase price has not been made.

(b) Home shall have paid to Dane at least 60 percent of the purchase price for Parcel 1 in accordance with the provisions of the note given in connection with the purchase of Parcel 1.

3. *Option to purchase Parcel 3.* Dane hereby grants to Home an option to purchase Parcel 3 ("Parcel 3"), at a purchase price determined in accordance with the provisions of Paragraph 5. Home may exercise this option at any time within ten years after the date of this agreement by giving written notice of its intention to purchase. However, exercise of this option is subject to the following conditions:

(a) The option granted in Paragraph 2 shall have been validly exercised;

(b) At least 45 percent of the total number of acres in Parcel 2 conveyed to Home by Dane shall have been (1) released by Dane from the deed of trust given to secure the payment of the purchase price for Parcel 2, and (2) sold by Home or leased by it to others for a term of not less than 20 years. For this purpose, property sold shall include property sold on a deferred payment basis when full payment of the purchase price has not been made.

(c) Home shall have paid to Dane at least 60 percent of the purchase price for Parcel 2 in accordance with the provisions of the note given in connection with the purchase of Parcel 2.

4. *Option to purchase Parcel 4.* Dane hereby grants to Home an option to purchase Parcel 4 ("Parcel 4"), at the price determined in accordance with the provisions of Paragraph 5. Home may exercise this option at any time within 13 years of the date of this agreement by giving written notice of its intention to purchase. However, the exercise of the option granted in this paragraph is subject to the following conditions:

(a) The option granted in Paragraph 3 shall have been validly exercised;

(b) At least 45 percent of the total number of acres in Parcel 3 conveyed to Home by Dane shall have been (1) released by Dane from the deed of trust given to secure the payment of the purchase price for Parcel 3, and (2) sold by Home or leased by it to others for a term not less than 20 years. For this purpose, property sold shall include property sold on a deferred payment basis, when full payment of the purchase price has not been made.

(c) Home shall have paid to Dane at least 60 percent of the purchase price for Parcel 3 in accordance with the provisions of the note given in connection with the purchase of Parcel 3.

5. *Purchase price for optioned parcels.* The purchase price for each of Parcels 2, 3, and 4 shall be the fair market value of the land included in the parcel as to which the option is exercised, determined as of the date on which the option is exercised but in no event to be less than \$3,500 per acre. If the parties are unable to agree in writing on the fair market value within 30 days of the exercise of each option, the fair market value shall be determined by a board of three appraisers as follows:

(a) Within 40 days of the exercise of each such option each party shall notify the other in writing of the name and address of an appraiser selected by it. If either party fails to notify the other within the time provided, the appraiser already selected shall select a second appraiser. The two appraisers shall select a third appraiser, and if the two

appraisers fail, within ten days after their selection, to agree upon the third, the Presiding Judge of the Superior Court of the County of Kern shall, upon the request of either party, appoint a third appraiser within ten days after such request.

(b) The appraisers so selected or appointed shall promptly proceed to determine the fair market value of the land included in the parcel. However, in no event shall such fair market value be determined to be less than \$3,500 per acre. Any valuation agreed upon by a majority of the appraisers (not less than \$3,500 per acre) shall be accepted as final and conclusive between the parties hereto and shall be the purchase price for such parcel.

(c) The appraisers shall make their report in writing, which any two of them shall sign in duplicate. A copy shall be delivered to each party and to the title company within 15 days of the selection of the third appraiser. The parties shall divide equally the expenses of the appraisal.

6. *Closing title to optioned parcels.* Within 30 days of the determination of the purchase price of any of Parcels, 2, 3, or 4 by agreement of appraisal under Paragraph 5, Dane shall deposit in escrow with the Title Company a grant deed to the parcel as to which an option has been exercised, in the form attached as Exhibit C. Home shall, within the same period, deposit in escrow with the Title Company (1) a note which, if the option granted in Paragraph 2 is exercised, shall be in the form attached as Exhibit F, and which, if the option granted in Paragraphs 3 or 4 is exercised, shall be in the form attached as Exhibit G (it being understood that at the time of its execution all blank spaces shall be appropriately completed, including, without limitation, the principal amount of the purchase price for the particular parcel determined in accordance with the provisions of Paragraph 5), and (2) a deed of trust covering the parcel in the form of Exhibit E. The parties shall instruct the Title Company within the period above specified in this paragraph:

(a) to close each such escrow if and when it is prepared to issue its standard coverage policy of title insurance with liability in the principal amount of the purchase price for the particular parcel, insuring the interests of both Home and Dane, as such interests may appear, subject only to (1) the exceptions applicable to the particular parcel as set forth in Exhibit B, (2) the exceptions contained in its customary printed form of standard coverage policy of title insurance, (3) the reservations in the deed, and (4) the rights of any subsequent lessee or licensee of Dane to the extent provided in Paragraph 7;

(b) to record the deed in Kern County, California, and deliver it to Home;

(c) to date the note and deed of trust as of the closing of the escrow;

(d) to record the deed of trust in Kern County, California, and deliver it and the note to Dane.

Upon the closing of each escrow, Dane shall pay (1) the recording fees, (2) the premium for the policy of title insurance, and (3) one half of the escrow fee; and Home shall pay the other one half of the escrow fee. Property taxes shall be prorated as of the date of closing. Each party shall pay to the Title Company its part of the foregoing charges upon receipt of the Title Company's statement of them.

7. *Temporary leasing of optioned parcels.* Dane may from time to time lease or grant licenses to use portions of Parcels 2, 3, and 4 not then conveyed to Home. Each lease or license shall contain a specific provision which acknowledges the rights of Home under this agreement. Each lease or license shall provide that it may be terminated by Home after the lands affected by the lease or license are conveyed to Home, upon the giving of thirty (30) days' written notice to the lessee or licensee by Home. Home shall not be obligated to pay any fee or penalty to the lessee or licensee for such early termination.

8. *Development plans.* Home shall develop and subdivide each of Parcels 1, 2, 3, and 4 which it may acquire from Dane substantially as provided in the land use plan attached hereto marked Exhibit H and in development plans approved in writing by both parties. Home may from time to time submit to Dane for approval, which shall not be unreasonably

withheld, amendments to the land use plan.

Within 90 days after the recordation of a deed from Dane to Home for each of Parcels 1, 2, 3, and 4, Home shall prepare and submit to Dane a development plan for the parcel described in the deed. The plan shall be subject to written approval by Dane, which shall not be unreasonably withheld. At any time prior to the full development and subdivision of any of Parcels 1, 2, 3, or 4, Home may submit to Dane for approval, which shall not be unreasonably withheld, an amendment to any development plan then in effect. The initial development plan for each parcel may be in narrative form, general in nature, and may be approved by Dane subject to supplemental material being submitted and approved at a later date. Before construction begins, a development plan for the area must have been submitted and approved which sets forth among other things the following:

- (a) Division of the property into areas for single family residences, multifamily residences, professional, administrative, commercial, and industrial uses, and also areas for schools, parks, golf courses, playgrounds, and other community purposes.
- (b) The location of rights of way for all streets and highways, including both width of right-of-way and width of paved surface from curb to curb, paving and sidewalk plans.
- (c) The nature and capacity of sewage disposal, storm drainage, water, gas, electric, telephone, and street lighting facilities.
- (d) The lots into which the property is to be divided for subdivision purposes.
- (e) The terms of building and use restrictions to be imposed in the various areas.

Home shall present the development plan for each parcel for approval by the County Planning Commission or any other state, city, or county governmental authority required by law for subdivision and development of the parcel in accordance with the development plan. The term "development plan" with respect to any parcel shall mean the development plan for the parcel as the plan may originally have been approved by Dane as provided herein or may subsequently have been amended by any amendments approved by Dane as provided herein.

9. *Exchange of land proposed by seller.* If at any time Dane deems it advisable (a) to revise or amend the description of any portion of Parcels 2, 3, or 4 not yet acquired by Home under this agreement, or (b) to exchange land owned by Dane for land acquired by Home under this agreement, Dane may, from time to time submit to Home a written request that the revision or exchange take place. If Home consents to the requested revision, which it shall not unreasonably withhold, the revision shall be deemed to have been made forthwith; and if Home consents to the requested exchange, which it shall not unreasonably withhold, the exchange shall be made as provided in Paragraph 11. Notwithstanding the above, Home need not consider any such requested revision or exchange unless it is on an acre for acre basis. It shall not be deemed unreasonable for Home to withhold consent if the land which is to be exchanged cannot be reasonably used by Home for a specific purpose which is necessary to the development plan.

10. *Exchange of land proposed by purchaser.* If at any time after Home has acquired one or more of Parcels 1, 2, or 3, Home deems it advisable to exchange acreage in a parcel so acquired for acreage included in any portion of Parcels 2, 3, or 4 not yet acquired by it under this agreement, Home may submit to Dane a written request that the exchange take place. If Dane consents to the requested exchange, which it shall not unreasonably withhold, the exchange shall be made as provided in Paragraph 11. Notwithstanding the above, Dane need not consider a requested exchange unless (a) it is on an acre for acre basis, (b) it is for property of a like character (i.e., residential for residential and commercial for commercial as designated on the land use plan attached hereto marked Exhibit H), and (c) after the exchange, the parcels as reconstituted would each be a contiguous unit.

11. *Closing title to exchanged property.* If either party consents to a requested exchange under Paragraph 9 or 10, it shall so notify the other party in writing. Within 30 days thereafter, Dane shall deposit in escrow with the Title Company a grant deed to the acreage to be exchanged by it, in the form attached as Exhibit C. Home shall, within the same period, deposit in escrow with the Title Company a grant deed to the acreage to be exchanged by it, in the form attached as Exhibit K. The parties shall each execute and deposit in escrow with the Title Company within such 30-day period all documents and instruments that may be necessary (1) to release the acreage to be exchanged and conveyed by Home from any and all deeds of trust given under this agreement to secure the payment of a purchase money note, and (2) to include the acreage to be exchanged and conveyed by Dane among the acreage subject to any and all such deeds of trust. The parties shall instruct the Title Company within such 30-day period:

(a) to close each escrow if and when it is prepared to issue its standard coverage policies of title insurance with respect to the acreage exchanged by each party with liability equal in amount to its fair market value as agreed to by the parties insuring the interests of both Home and Dane as their interests may appear, subject only to (1) the exceptions applicable to such acreage as set forth in Exhibit B, (2) the exceptions contained in its customary printed form of standard coverage policy of title insurance, (3) the reservations in any deed from Dane, and (4) the right of any subsequent lessee or licensee of Dane to the extent provided in Paragraph 7.

(b) to record the deeds in Kern County, California, and deliver them to the respective grantees.

Upon the closing of any escrow provided for in this paragraph the party requesting the exchange shall pay to the Title Company, upon receipt of its statement, (a) the recording fees, (b) the premiums for the policies of title insurance, and (c) the escrow fee.

12. *Amendment of descriptions.* Upon the recordation of the deeds referred to in Paragraph 11, or Home's consent to a revision of the description of Parcels 2, 3, or 4 as provided in Paragraph 9, the descriptions set forth in Exhibit A attached hereto and the description of Parcels 2, 3, and 4 as the description may be fixed pursuant to this agreement shall be deemed to be revised and amended to the extent necessary to reflect the changes made in the parcels as a result of the revision or exchange. All references herein to Parcels 1, 2, 3, or 4 shall be deemed to refer to the parcels as they may be reconstituted from time to time under this agreement.

13. *Condemnation.* If any part of Parcels 2, 3, or 4 is condemned or taken for a public or quasi-public use prior to its acquisition by Home, the proceeds of any award or compensation arising from the condemnation shall belong to and be the property of Dane, and the description of such Parcels as set forth in Exhibit A attached hereto shall be deemed to be revised to exclude the portion so condemned or taken. If any action is filed in a court of competent jurisdiction for the condemnation or taking for a public or quasi-public use of any portion of Parcels, 2, 3, or 4 prior to its acquisition by Home, Dane may settle the action on any terms it deems reasonable, and may convey to the plaintiff in such action the property free and clear of any rights of Home. In that event, all the proceeds of the conveyance shall belong to and be the property of Dane and the description of such Parcels as set forth in Exhibit A attached hereto shall be deemed to be revised to exclude the portion so conveyed.

14. *Removal of improvements and personal property.* Dane reserves the right to remove from the lands any buildings, fences, cattle watering facilities, pole lines, pipelines, tanks, pumps, irrigation facilities, and other improvements, whether similar or dissimilar to the foregoing, and any personal property belonging to it. Dane may exercise this right at any time either before or after the lands are conveyed to Home. However, any improvements or personal property remaining upon lands conveyed to Home more than 60 days after it gives notice to Dane requesting their removal shall be deemed abandoned and shall become Home's property. Dane shall not be required to remove all or any part of the improvements or personal property, or to restore the surface of any lands from which it removes improvements or personal property. Dane shall fill in any holes or trenches dug in the course of such removal and, in the case of water wells from which equipment is removed, the well shall be properly capped and the casing left intact.

15. *Canals.* Lands included in Parcels 1, 2, 3, and 4 are bounded or crossed by lands occupied by various canals owned by canal companies (the "Canal Companies"). If as a result of, or in aid of, development of lands in such Parcels it shall become necessary to fence off all or any part of the canals or to construct or install any road, bridge, pipeline, conduit, or other improvement across or along any of the canals, the fencing or other improvement shall be constructed without cost to Dane or any of the Canal Companies, and Home shall hold Dane and the Canal Companies free and harmless of such costs regardless of who constructs or installs the fencing or other improvement. Home shall not be required to reimburse Dane or any of the Canal Companies for the cost of any fencing done or improvements made by them unless the work has been ordered or required by governmental authority, Home has consented to the work, or the work has been agreed to by arbitration. If the parties disagree that the work is necessary, either party may initiate arbitration by giving written notice to the other party naming one arbitrator, and the other party shall have ten days after receipt of such notice to give notice to the first party naming its arbitrator. If the other party fails to give such notice within such period the first arbitrator shall select a second arbitrator. The two arbitrators shall select a third arbitrator, and if they shall fail, within ten days after their selection, to agree upon a third, the Presiding Judge of the Superior Court of the County of Kern shall, upon the request of either party, appoint, within ten days after such request, a third arbitrator. The three arbitrators so selected or appointed shall promptly proceed to determine whether or not the work is necessary and report their findings to the parties. All findings agreed upon by a majority of the arbitrators shall be final and conclusive between the parties.

16. *Assignment.* No assignment of this agreement or of any right accruing hereunder shall be made, in whole or in part, by either party without the other party's prior written consent. Nothing in this section shall impair Home's right to convey lands acquired from Dane which have been released from all existing deeds of trust given under this agreement.

17. *Default and termination.* Each of the following shall constitute an event of default hereunder:

- (a) If Home fails or omits to make, on or before the date on which it is due, any payment to be made to Dane of principal or interest pursuant to the provisions of any note given pursuant to this agreement;
- (b) If Home fails to perform or observe any covenant or agreement of any deed of trust given pursuant to this agreement;
- (c) If Home develops or subdivides such Parcels, or any portion thereof, in a manner not in substantial accordance with a development plan previously approved in writing by Dane;
- (d) If Home fails to perform any other acts to be performed by it pursuant to the provisions of this agreement;
- (e) If any petition is filed against Home in any court, whether or not pursuant to any statute of the United States or of any state, in any bankruptcy, reorganization, composition, extension, arrangement, or insolvency proceedings, and Home is thereafter adjudicated bankrupt, or such petition is approved by the court, or the court assumes jurisdiction of the subject matter, or such proceedings are not dismissed within 90 days after the institution of the same; or any such petition is so filed by Home;
- (f) If any proceeding, a receiver or trustee shall be appointed for all or any portion of Home's property, and such receivership or trusteeship shall not be vacated within 90 days after the appointment;
- (g) Home shall make an assignment for the benefit of its creditors;
- (h) Home shall be dissolved in accordance with the provisions of the Corporations Code of the State of California.

If an event of default shall occur, Dane may elect, then or at any time thereafter while the default continues, to give Home notice that on the date specified in the notice, which shall not be less than ten days after the notice is given, all of

Home's rights under Paragraphs 2, 3, 4, 5, 6, 9, 10, 11, and 12 shall terminate. On the date specified in the notice, all of Home's rights under such paragraphs shall terminate and come to an end unless the default is cured within the period specified in the notice, or unless the default (other than the failure to pay money or the failure to submit to Dane any development plan within the 90-day period provided in Paragraph 8) is curable but cannot reasonably be cured within ten days after the giving of the notice and Home commences within the ten-day period to cure such default and prosecutes the same to conclusion with reasonable diligence.

18. *Notices.* All notices required or permitted to be given or delivered hereunder shall be in writing and sent by certified first-class mail, postage prepaid, addressed to the party intended at its address set forth below or any other address it may designate by notice given to the other party in the manner aforesaid.

To Dane: Dane Land Company
 100 West 6th Street
 Los Angeles, California

To Home: Home Development Corporation
 200 Bayview Street
 San Francisco, California

All such notices shall be deemed to have been given and delivered 72 hours after deposit in the United States mail in the manner provided.

19. *Costs and expenses of litigation.* If either party shall institute legal proceedings against the other based upon a cause of action arising out of this agreement, the prevailing party shall recover from the other party all costs and expenses incurred by it in such proceedings, including reasonable attorneys' fees to be fixed by the court.

20. *Entire agreement.* This agreement supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

21. *Non-waiver.* No delay or failure by either party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

22. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

23. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of California.

24. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

25. *Binding effect.* This agreement shall be binding upon and inure to the benefit of the parties, and their respective successors and assigns.

26. *Recording memorandum.* A memorandum of this agreement in the form of Exhibit L attached hereto shall be executed and acknowledged by the parties for the purpose of recording. If Home fails to exercise any of the options granted in Paragraphs 2, 3, or 4 within the time provided in such paragraphs, or if Home's rights under such paragraphs are terminated as provided in Paragraph 17, Home shall promptly execute and deliver to Dane a document relinquishing to Dane Home's rights to acquire the portion of Parcels 2, 3, and 4 not yet acquired by Home. Such document shall be in the form that Dane requires.

In witness whereof this instrument has been executed by the parties hereto as of the date first hereinabove written.

Part IV. FORMS

A. ACQUISITIONS FOR DEVELOPMENT AND SUBDIVISION

26-22 Current Legal Forms for Real Estate FORM 22.10

FORM 22.10 Contract of sale--progressive options to purchase additional parcels--another form

COMMENT

This form provides the purchaser of land with the right to exercise options to purchase two additional portions of land in the future that are contiguous to the parcel currently being purchased through this agreement.

Under the terms of the agreement, the seller will hold the mortgage to the parcel now being purchased. The seller is not required to finance the purchase of parcels two and three; however, if the seller is willing to finance the purchase of those parcels, the maximum mortgage amount for each parcel is already set forth in the agreement. (Such a provision eliminates a great deal of future negotiating between the parties.)

The purchase price for parcels two and three is also set forth. The price is stated as a flat fee, plus an extra amount designed to compensate the seller for the effects of inflation. The extra amount begins to accrue on the date of execution of this agreement. The amount does not function as a penalty, but simply safeguards the seller's land values.

FORM

AGREEMENT made this _____[day] day of _____[month],
 _____[year], between _____[name of entity] CORPORATION, a(n)
 _____[state] corporation, with offices for the transaction of business at _____[address,
 city, state] (hereafter referred to as "Seller"), and _____[name of entity] DEVELOPERS, INC., a(n)
 _____[state] corporation, with offices for the transaction of business at _____[address,
 city, state] (hereafter referred to as "Purchaser").

W I T N E S S E T H:

WHEREAS, Seller is the owner of three (3) parcels of land located in the Town of _____ [town], County of _____ [county], State of _____ [state]; and

WHEREAS, Seller desires to sell and Purchaser desires to purchase the premises,

NOW, in consideration of the mutual promises contained herein, it is agreed as follows:

1. Purchase and sale of first parcel

(a) Purchaser agrees to purchase and Seller agrees to sell Parcel Number One (1), as described in Exhibit A, which is annexed hereto and made a part hereof, for the sum of _____ Dollars (\$ _____) [e.g., \$400,000]. The purchase price shall be paid as follows:

(1) a _____ Dollars (\$ _____) [e.g., \$10,000] deposit paid by certified check upon execution of this Agreement;

(2) _____ Dollars (\$ _____) [e.g., \$40,000] paid by certified check at the closing;

(3) _____ Dollars (\$ _____) [e.g., \$350,000] paid via a purchase money mortgage and note to be held by the Seller for a maximum of _____ (_____) [e.g., five (5)] years, at a floating rate of interest which shall be _____ [e.g., two (2)] percent more than the prime lending rate announced by _____ [name of bank] from time to time. The interest rate shall be adjusted monthly on the first day of each month. The borrowed sum shall be repaid in monthly installments of principal and interest amortized over a period of _____ [years] years.

(b) Purchaser may prepay principal at any time. Upon a prepayment of principal, the remaining payments shall be recalculated in order to amortize the remaining balance over the remaining amortization period.

(c) Purchaser shall pay a late fee of _____ [e.g., six (6)] percent for any payment not made within _____ [e.g., ten (10)] days of its due date.

(d) If any payment is not made within _____ [e.g., thirty (30)] days of its due date, Seller may elect to declare the entire remaining principal balance and accrued interest, if any, immediately due and payable.

(e) Purchaser shall be entitled to a release of the lien of the mortgage upon the payment of _____ Dollars (\$ _____) per lot to be released. Purchaser may obtain such a release only if it is not in default under the terms of this Agreement, the note and the mortgage as of the time the release is sought. Any amount paid for a release shall be in addition to the regular periodic payments required of Purchaser.

(f) Purchaser shall provide the proposed release document and payment to Seller. Seller shall then execute and deliver the release document to Purchaser. Purchaser shall thereafter record the release at its sole expense.

(g) The areas reserved for streets and utilities shall be released by Seller for dedication to the municipality upon request by Purchaser.

(h) Seller may include other standard or commonly accepted provisions in the mortgage and note.

2. *Seller's conveyance of title to first parcel.* Seller shall convey title free and clear of all liens and encumbrances, except restrictions and easements of record, provided that such restrictions and easements do not render the title unmarketable or unusable by Purchaser. Purchaser shall obtain an abstract of title or title insurance policy at its own expense. Seller shall cooperate by providing copies of any existing title and survey information. In the event that Seller is unable to deliver clear title, Purchaser's sole remedy is to terminate this Agreement and obtain a refund of its deposit.

3. *Option granted to purchaser to buy second parcel*

(a) Seller hereby grants to Purchaser the option to purchase Parcel Number Two (2), as described in Exhibit B, which is annexed hereto and made a part hereof. The purchase price shall be the sum of _____ Dollars (\$ _____) _____ [e.g., \$200,000], plus interest at the rate of _____ [e.g., six (6)] percent per annum from the date hereof until the date on which the option is exercised.

(b) The option may be exercised by giving written notice thereof (as set forth in Paragraph 12) after the occurrence of the following events, but in no event later than _____ [e.g., thirty (30)] months from the execution of this Agreement:

(1) Purchaser has taken title to Parcel Number One (1);

(2) the remaining principal balance on the mortgage on Parcel Number One (1) does not exceed

_____ Dollars (\$

_____) [e.g., \$200,000];

(3) at least

_____ [e.g., twenty (20)] lots in Parcel Number One (1), with houses constructed thereon, have been sold to bona fide purchasers;

(4) at least

_____ [e.g., five (5)] lots in Parcel Number One (1) have contracts of sale pending on them; and

(5) there exists no default under this Agreement or under the note and mortgage on Parcel Number One.

(c) Seller shall not be obligated to provide acquisition financing to Purchaser for the purchase of Parcel Number Two (2). However, in the event that Seller shall elect to provide such financing, the terms shall be the same as for Parcel Number One (1), except that the maximum mortgage shall be _____ Dollars (\$ _____) _____ [e.g., \$160,000].

(d) Failure of the Purchaser to timely exercise this option shall eliminate any obligation of Seller to sell Parcel Number Two (2) to Purchaser.

4. *Option granted to purchaser to buy third parcel*

(a) Seller hereby grants to Purchaser the option to purchase Parcel Number Three (3), as described in Exhibit C, which

is annexed hereto and made a part hereof. The purchase price shall be the sum of _____ Dollars (\$ _____), plus interest at the rate of _____ [e.g., six (6)] percent per annum from the date hereof until the date on which the option is exercised.

(b) The option may be exercised by giving written notice thereof (as set forth in Paragraph 12) after the occurrence of the following events, but in no event later than _____ [e.g., thirty (30)] months from the execution of this Agreement:

(1) Purchaser has exercised the option to purchase Parcel Number Two (2) and has taken title thereto;

(2) the remaining principal balance on the mortgage on Parcel Number One (1) does not exceed

_____ Dollars (\$

_____) [e.g., \$50,000];

(3) ninety percent (90%) of the lots in Parcel Number One (1) have been sold or are under contract to be sold to bona fide purchasers who have received mortgage approval;

(4) Purchaser has received subdivision approval for Parcel Number Two (2); and

(5) there exists no default under the terms of this Agreement or under the terms of the note and mortgage on Parcel Number One (1) or Parcel Number Two (2).

(c) Seller shall not be obligated to provide acquisition financing to Purchaser for the purchase of Parcel Number Three (3). However, in the event that Seller shall elect to provide such financing, the terms shall be the same as for Parcel Number One (1), except that the maximum mortgage shall be _____ Dollars (\$ _____) [e.g., \$132,000].

(d) Failure of the Purchaser to timely exercise this option shall end any obligation on the part of Seller to sell Parcel Number Three to Purchaser.

5. *When Purchaser must accept transfer of title.* The Purchaser shall accept transfer of title within _____ [e.g., ninety (90)] days after exercise of any option contained herein.

6. *Seller must convey clear title.* Seller shall provide clear title, as set forth in Paragraph 2 above.

7. *Eminent domain.* In the event any land subject to the options in Paragraphs 3 or 4 shall be taken by eminent domain, the purchase price shall be reduced by the amount of the condemnation award granted to Seller.

8. *Seller's warranty regarding environmental condition of property.* Seller warrants that it has had an environmental site assessment performed by a reputable company. The results of the assessment have been provided to Purchaser. If, during the course of Purchaser's activities on the land described in Exhibits A, B and C, a pre-existing adverse environmental condition is discovered, Seller shall have the option of remediating that condition at its own cost, or terminating this Agreement as to the parcel which contains the adverse condition. In the event that Seller opts to terminate the Agreement, it shall take all steps necessary and appropriate to return the parties to their respective positions at the time this Agreement was executed.

This warranty is personal to Purchaser and may not be transferred to any other party without the written consent of Seller.

9. *No assignment of agreement by purchaser without written consent of seller.* This Agreement and the rights accruing hereunder may not be assigned by the Purchaser without the prior written approval of the Seller. Seller may condition its approval on receipt of a satisfactory report on the proposed assignee's credit-worthiness. In the event that Seller agrees to an assignment of any part of this Agreement, Purchaser shall remain liable for any payments due hereunder, unless Seller, in writing, specifically releases Purchaser from any further obligation.

10. *Subordinate financing.* Purchaser may not obtain subordinate financing on any parcel on which Seller holds a mortgage without the prior written permission of Seller.

11. *Events of default.* Purchaser shall be deemed to have defaulted under this Agreement, if any of the following events occurs:

- (a) Purchaser fails to make a payment on or before the date on which it is due;
- (b) Purchaser fails to fulfill any covenant and/or obligation contained in the notes or mortgages held by Seller;
- (c) Purchaser fails to fulfill any covenant and/or obligation contained in any note or mortgage held by any other party on Parcels One (1), Two (2) or Three (3);
- (d) Purchaser makes any assignment for the benefit of creditors;
- (e) a voluntary or involuntary petition in bankruptcy is filed by or against Purchaser;
- (f) a receiver is appointed for any property owned by Purchaser; or
- (g) the purchaser is dissolved.

12. *Notice.* Any notice to be given hereunder shall be in writing, signed by the party giving notice, and delivered by any one of the following methods:

- (a) personal delivery;
- (b) facsimile transmission;
- (c) certified or registered mail, return receipt requested; or
- (d) overnight courier service, provided that a receipt is maintained in the ordinary course of business.

Notices shall be given at the following addresses:

If to Seller:

Attn: _____

If to Purchaser:

 Attn:_____

Either party may designate a new address by giving notice thereof to the other party.

13. *Benefit.* This Agreement shall be binding upon and inure to the benefit of the respective heirs, legal representatives, successors and assigns of the Seller and the Purchaser.

14. *Entire agreement.* This Agreement, together with the other written agreements and instruments executed concurrently herewith or pursuant to the provisions hereof, contains the entire agreement between the parties respecting the matters herein set forth and supersedes all prior agreements between them respecting such matters.

15. *Counterparts.* This Agreement may be executed in two (2) or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one (1) and the same instrument. At the trial of any matter arising under this Agreement, only one (1) counterpart need be produced.

16. *Headings.* Paragraph headings are for purposes of convenience and identification only and shall not be used to interpret or construe this Agreement.

17. *Gender and number.* Whenever the singular or plural number, or masculine or feminine gender, is used herein, it shall equally include the other.

18. *Governing law.* This Agreement shall be construed and enforced in accordance with the laws of the State of _____[state].

19. *Modifications.* This Agreement may be modified only by a written document signed by both parties. A purported oral modification shall not be effective.

20. *Waiver.* Any failure or delay by either party to enforce any right arising hereunder shall not be deemed a waiver of such right. A waiver may only be created by a written document signed by the party who is waiving the performance of the other party.

The parties hereto have set their hands and seals the day and year first above written.

Part IV. FORMS

A. ACQUISITIONS FOR DEVELOPMENT AND SUBDIVISION

26-22 Current Legal Forms for Real Estate FORM 22.11

FORM 22.11 Contract of sale--apartment complex to be constructed

COMMENT

This is an agreement pursuant to which the owner of a parcel of land agrees to sell the same to the buyer. The seller then agrees to construct an apartment complex in accordance with certain green building standards specified in the contract on the land after title to the land has been conveyed to the buyer. The contract provides for an allocation of the purchase price between the land and improvements, construction of the improvements, financing, management, and the rights of the parties upon the occurrence of various events of default.

Capital cost recovery.

The Accelerated Cost Recovery System (ACRS) allows the recovery of capital costs of depreciable assets over specified recovery periods. The cost of residential rental property is recovered over 27.5 years, and the cost of nonresidential real property is recovered over 39 years. The straight line method is used for both categories, for property placed in service after 1986. Alternatively, the taxpayer may elect to recover the cost of the property by using the straight-line method of recovery over 40 years.

FORM

AGREEMENT made August 20, _____[year], between Chelsea Development Company, a general partnership consisting of Henry S. Bick, Louis Freed, Harold S. Gold, Jerry McCoy, and Alan Ross (the "Seller"), and Cort Real Estate Limited Partnership--VI, a limited partnership (the "Buyer").

Whereas the Seller represents to the Buyer that the Seller is the owner of that certain real property located in the County

of Harris, State of Texas, more particularly described in Exhibit A, hereunto annexed and made part hereof, on which it has commenced or will forthwith commence the construction of a 492 unit garden apartment complex; and

Whereas the Buyer desires to purchase such real property together with the improvements, structures, and fixtures now or hereafter thereon and the tangible and intangible personal property hereinafter described, provided the Seller agrees to complete the construction of the apartment complex and makes the other agreements hereinafter set forth. The Seller is agreeable to such sale and to making such agreements.

Now, therefore, in consideration of the above and the respective undertakings of the parties set forth below, it is hereby agreed as follows:

1. *Sale of property.* For the purchase price and upon the terms and conditions hereinafter set forth, the Seller shall sell to the Buyer and the Buyer shall purchase from the Seller:

(a) That certain real property described in Exhibit A hereof (the "Land");

(b) All improvements, structures, and fixtures ("Improvements") now existing or at any time or times hereafter placed, constructed, or installed on the Land, including, but not limited to, the apartment complex constructed and completed pursuant to Section 3 hereof;

(c) All tangible personal property (the "Personal Property") now existing or at any time or times hereafter placed or installed on or about the Land or Improvements and used in connection with the apartment house business now or hereafter conducted thereon, including, but not limited to, the items described in Exhibit B, hereunto annexed and made a part hereof; and

(d) All intangible property (the "Intangible Property") now or hereafter owned or held by the Seller in connection with the Land, the Improvements, or the Personal Property, or any business or businesses now or hereafter conducted thereon or with the use thereof, including, but not limited to, any trade style or trade name hereafter used in connection with the same and all leases, rental agreements, contract rights, agreements, business licenses, catalogs, customer lists, correspondence with tenants and suppliers, booklets and manuals, advertising material, utility contracts and telephone exchange numbers relating to the same.

The Land, Improvements, Personal Property and Intangible Property are collectively called the "Apartment House Property."

2. *Purchase price of apartment house property.* (a) *Purchase price.* The total purchase price of the Apartment House Property shall be \$7,125,700.

(b) *Allocation of purchase price.* The purchase price of the Apartment House Property shall be allocated as follows:

(1) \$745,000 to the Land;

(2) \$100 to the Intangible Property;

(3) \$571,500 to the Personal Property; and

(4) The balance for the Improvements.

3. *Construction.* (a) Without additional consideration to the Seller (the consideration for the same being included in the purchase price for the Apartment House Property), the Seller shall, at its sole expense, furnish or cause to be furnished

all of the materials, provide or cause to be provided all of the fixtures, equipment, and personal property, and per form or cause to be performed all of the work:

- (1) Required to construct, complete, and provide the structures, improvements, fixtures, and property shown or referred to in Exhibit C, hereunto annexed and made a part hereof, in accordance with the plans and specifications (the "Plans") described in Exhibit C;
- (2) Required under or in connection with any "Center Agreement" (as hereinafter defined);
- (3) Required to place the apartment buildings and other structures and improvements included in the Improvements in position to lease to tenants and to be fully utilized by tenants as contemplated by this agreement and the other agreements provided herein. This shall include, but not be limited to, procuring a certificate of occupancy or compliance from the municipality and procuring a certification of the building as "LEED Certified" as determined by the standards set by the U.S. Green Building Council; and
- (4) Required to complete or provide all offsite improvements, streets (including access streets and road), roadways, and utility services and installations (including the "Utility Facilities" as hereinafter defined) incidental to or connected with the use or improvement of the Apartment House Property or any part thereof.

As used herein, "Utility Facilities" means all utility equipment and facilities (including, but not limited to, the water system, sewer and drainage systems, and gas and electric distribution facilities) serving the Apartment House Property or any part thereof or required for its operation or use in the manner contemplated by this agreement, whether or not included in the Apartment House Property. The buildings, structures, improvements, and property, and the fixtures, equipment, and personal property, referred to in this Paragraph (a) (whether or not now in existence) are the "Apartment Structures."

"Center Agreement" means any "Tenant Lease" (as hereinafter defined), loan agreement, deed of trust, mortgage or, without limitation, any other covenant, agreement, or instrument affecting or relating to the Apartment House Property or any part thereof.

(b) In addition to its other representations, warranties, and agreements under this agreement, the Seller represents and warrants to the Buyer, and agrees:

- (1) The Seller shall pursue the completion of the Apartment Structures with due diligence after the date thereof and shall complete the same as soon as reasonably possible. In any event, not later than January 31, _____ [year], it shall complete same and cause the issuance of all certificates of occupancy, notices of completion, permits, and approvals, or their equivalent, that the procedures of the applicable governmental authorities provide relating to the same, including, but not limited to, all certificates of occupancy, utilities releases, permits, and approvals which under the applicable law are required before tenants may occupy the entire Apartment House Property. However, should the Seller experience delay in construction because of acts of God, riot, civil construction, strikes, labor or material shortage, governmental delays or conditions reasonably beyond its control, the time within which the Seller shall complete the Apartment Structures and cause the issuance of such certificates of occupancy, notices of completion, permits, and approvals, shall be extended by the amount reasonably necessary to allow for such delays, but in no event shall such time be extended by more than 30 days (or such additional period as may be permitted under the "Institutional Commitment" or any extension thereof (as hereinafter defined)). Notwithstanding the foregoing provisions of this subparagraph (b)(1), if the provisions of any Center Agreement shall require the completion of the Apartment Structures or any part

thereof or the filing of such notices of completion or the issuance of such certificates of occupancy, permits, or approvals, earlier than the times or times provided in this subparagraph (b)(1), the Seller shall complete the Apartment Structures and file the notices of completion and cause the issuance of the certificates of occupancy, permits, and approvals by the earlier time or times.

(2) The construction, completion, and providing of the Apartment Structures has been and will be accomplished in a good workmanlike and substantial manner, free from liens, claims, or material defects of any kind or nature and so as to achieve a green building rating of LEED Certified. In addition, whenever the Buyer acquires the Apartment House Property or any part thereof in accordance herewith, it will be in good condition and repair and free from material defects of any kind or nature. The period of survival of the warranties contained in this subparagraph (b)(2) is limited as hereinafter provided in Section 16 hereof. The warranties contemplated hereby shall relate to the circumstances which exist on the Completion Date (or any subsequent installation of acquisition date) and shall not include any repair or replacements resulting from or necessitated by normal wear and tear. This warranty is intended by the parties to replace any warranty afforded to the Buyer under any state or local law or ordinance. The parties hereby waive any rights to other or different warranty protections in favor of the provisions in this subparagraph (b)(2), which were negotiated by the parties at arm's length.

(3) The Business Structures and the materials, equipment, and labor incorporated therein and used in connection therewith has and shall in no material way vary or differ or depart from the descriptions, requirements, and features set forth or referred to in Exhibit C hereof (including, but not limited to, the Plans) except to the extent otherwise agreed in writing by the Buyer).

(4) The Seller shall at all times keep the premises reasonably free from accumulation of waste, materials, or rubbish and from its tools, scaffolding, and materials, except as required for the construction and completion then being performed by it hereunder. After such construction and completion the Seller shall leave the Apartment House Property in good, orderly, clean, safe and sanitary repair and condition and ready for the use and occupancy by tenants of the Apartment House Property and the conduct of the apartment house business contemplated hereby.

(5) The Apartment Structures include, and the Seller shall complete hereunder, all offsite improvements, streets (including access streets and roads), roadways, and utility services and installations (including the Utility Facilities) incidental to or connected with the use or improvement of the Apartment House Property or any part thereof.

(6) The access streets and roads as shown on the Plans and Utility Facilities constructed and completed by the Seller hereunder include all Utility Facilities that are reasonably required and all streets and roads that may be required by any public authority, in connection with the orderly and proper development and use of the Apartment House Property consistent with the provisions of this agreement. Where applicable, all streets, roadways, and Utility Facilities have been or will be built to the standards required by the applicable governmental authorities for streets, roadways, and Utility Facilities accepted for dedication, and except as otherwise may be agreed by the Buyer, all of the same shall be dedicated as promptly as possible to the applicable governmental authorities. At all times prior to such dedication, the Buyer shall have the irrevocable right of way and easement (free and clear of all liens and encumbrances) covering such streets, roadways, and Utility Facilities, of such nature, form, and location, as it shall approve.

(c) The Seller shall furnish Buyer on the "Closing Date" (as hereinafter defined), and monthly thereafter on or before the tenth day of each calendar month (commencing the month following the Closing Date), copies of all loan requests, supporting documents, vouchers, certificates, title insurance endorsements, plans, and specifications and, without limitations, other papers, documents, and items theretofore presented to any lender or proposed lender in connection

with the Apartment House Property or any part thereof or any construction thereon or loans made in connection therewith, and not precisely delivered to the Buyer.

(d) The Seller shall furnish Buyer (at the Seller's sole expense) on or before the tenth day of each calendar month (commencing with the month following the Closing Date) copies of current construction progress reports submitted to any construction lender, prepared by a licensed engineer or a registered architect, detailing the construction progress to the dates of such reports on the Apartment Structures.

(e) At all times during the construction of the Apartment Structures, the Buyer or its authorized agent may enter upon and inspect the same for the limited purpose of determining whether the work performed or being constructed confirms with Exhibit C and the terms of this agreement including its certification as a LEED Certified apartment. The Seller shall keep at the construction site a complete set of the Plans and all shop drawings related to the construction of the Apartment Structures, which Buyer or its authorized agent may examine at all reasonable times. If during such construction, the Buyer reasonably determines that the construction is not proceeding substantially in accordance with Exhibit C or this agreement and gives notice to the Seller specifying the particular deviation, deficiency, or omission, the Seller immediately shall take all necessary steps to correct the deviation. None of the following acts or omissions by the Buyer shall relieve the Seller of its liability or responsibility hereunder for defective materials or workmanship: the exercise of the Buyer's right to examine the Apartment structures during construction or its failure to exercise that right; any direction, request, or notice by the Buyer relating to the Apartment; or the Buyer's acceptance (in whole or in part) of the Apartment structures. Moreover, the Seller shall not be relieved of its liability or responsibility, without limitation, for any failure to comply with its obligations hereunder.

(f) Without limitation on its other obligations hereunder, the Seller shall pay, at its sole expense, at or before the time the payment of the same shall be due,

(1) All assessments, bonds, and special assessments constituting a lien or encumbrance against the Land or Improvements or any part thereof as of the Closing Date; and

(2) All assessments, bonds, and special assessments constituting a lien or encumbrance against the Land or Improvements or any part thereof at any time or times after the Closing Date and relating to or resulting from the construction, completion, and providing of the Apartment Structures as contemplated hereby;

However, the Seller shall pay in full all such assessments, bonds, and special assessments now existing or later placed against the Land or Improvements prior to the completion of the Apartment Structures. Such payment shall be made at or before its due date or the date on which the Apartment Structures are completed, whichever is earlier.

(g) Within 30 days after the Apartment Structures, but in no event later than January 31, _____[year] or any later date that may be permitted under the provisions of subparagraph (b)(1) above, the Seller shall cause to be delivered to the Buyer the following:

(1) A certificate or certificates duly executed by the architect or architects in charge of or connected with the construction of the buildings and improvements (or any part thereof) included in the Apartment Structures certifying that the buildings and improvements have been LEED Certified and constructed and completed in a good, workmanlike, and substantial manner, in conformity with good construction and engineering practice, and in substantial accordance with the Plans, that the Plans are complete in all respects, and that the Plans and the Apartment Structures fully comply with all applicable laws, ordinances, rules, and regulations (including, but not limited to, building codes and zoning ordinances and regulations).

(2) Notices of completion (if the local procedures provide or allow for the same) verifying that all construction included in the Apartment Structures has been completed, and the building permits and all authorizations and any special permits or licenses required in connection with the Apartment Structures (including, but not limited to, those authorizing the construction of the Apartment Structures and all offsite improvements in accordance with the Plans, and all permits or approvals required under any applicable federal, state or local law, ordinance, rule or regulation relating to the environment or the control of land use) and all authorizations for the operation of the Apartment House Property for the purposes contemplated by this agreement, issued by the municipality or governmental entity in which the Land is located or other appropriate federal, state, or local governmental agency.

(3) Except for any of the same previously delivered to Buyer, evidence reasonably satisfactory to it that:

(A) All streets and roads necessary for access to or full utilization of the Apartment House Property or any part thereof of their intended purpose and all Utility Facilities have been completed, dedicated, and accepted for maintenance and public use by the appropriate governmental authorities; and

(B) All necessary utilities service for the Apartment House Property or any part thereof is available and is in operation. Letters from local utility companies or municipal authorities stating that gas, electric, sewer, water, and telephone facilities are available to the Apartment House Property will be considered satisfactory evidence that necessary utility service is available.

(4) The Seller's statement verifying the payment in full of all work, labor, services, and materials used or employed in connection with the construction and completion of the Apartment Structures together with all supporting documents (including executed mechanic's lien waivers and evidences of payments) that the Buyer shall reasonably request.

(5) Final, unqualified, and unconditional certificates of occupancy in their usual form issued by the applicable governmental authorities relating to the entire Apartment Structures affirming, among other things, that the same are completed in accordance with the applicable governmental laws, rules, and regulations.

(6) Letters from governmental authorities having jurisdiction over the Land and Improvements stating that the Apartment Structures are built in conformance with all applicable environment quality acts and green building acts then in effect or an opinion of counsel that there are no such applicable acts.

(7) Surveys of the Land and Improvements prepared and certified by a licensed surveyor selected by the Seller and approved by the Buyer (which qualify as the Texas equivalent of an ALTA certified completion survey) showing the Improvements to be located and completed in accordance with Exhibit C, and, without limitation on the foregoing, demonstrating that the Improvements do not encroach onto adjoining land or onto any easements and that there are no encroachments of improvements from adjoining land onto the Apartment House Property and, in addition, showing the perimeter legal description of the Land, the dimensions and total square foot area of the Land, the dimensions and total square foot area of the Land, the interior lot lines, if any, the dimensions and location of the Improvements, the parking areas, easements, location of adjoining streets and the distance to and names of the nearest intersecting streets, and containing indemnifications of easements and rights of way by endorsements on the survey of the recording data of the instruments creating the same.

(8) Full plans and specifications showing the location of all utilities in or on or serving the Improvements and the location and detail of all the Improvements.

(9) Schedules in such detail as the Buyer shall reasonably request showing the percentage breakdown of the cost of construction to the components of the Improvements.

(10) Title insurance in favor of Buyer and showing that title is vested in Seller, free and clear of all liens and encumbrances, except those previously described herein.

(11) Certification of a licensed environmental engineer or equally qualified expert, stating that the land is free of any evidence of an adverse environmental impact or condition relating to the existence of any hazardous substance which may require remediation under the Federal Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), or any other federal, state or local law, rule, regulation or policy.

As used herein, "Completion Date" means the date as of which the Apartment Structures shall have been substantially completed in accordance with the foregoing provisions of this Section 3 and the "Endorsement" and the items hereinabove specified in this Paragraph (g) shall have been delivered to the Buyer and the "Prior Trust Deed" (as hereinafter defined) shall have been recorded and the permanent loan secured or to be secured thereby shall have been fully funded.

(h) The Seller's relation to the Buyer shall be that of independent contractor. Neither the Seller nor any subcontractor or supplier shall be the agent of the Buyer, nor shall any person employed by the Seller or any subcontractor or supplier be deemed an employee of or under the direction of the Buyer. Nothing contained in this agreement or otherwise shall create any contractual relationship between any subcontractor or supplier and the Buyer.

(i) In addition to and not in limitation of its other rights and remedies provided in this or in any other agreement or bylaw, the Buyer shall have certain additional rights stated below if at any time or times hereafter any one or more of the following ("Events of Default") occurs:

(1) The Seller fails or neglects to diligently prosecute its performance hereunder or in any material respect defaults in the performance of or breaches any covenant, warranty, condition, or restriction of this agreement, or any warranty made in this agreement proves to be untrue in any material way, and the failure, neglect, default, breach, or untruth is uncured or unrectified within ten days after the Buyer gives written notice of it. If the failure, neglect, breach, or default cannot be fully cured or rectified within the ten-day period, the Seller shall commence the cure or rectification within that period and thereafter diligently prosecute it to completion;

(2) Any judgment is entered against, or settlement agreed to by, the Seller or any of its General Partners, which in the Buyer's reasonable opinion could substantially impair the Seller's or any General Partner's ability to perform each and every one of their obligations hereunder, or any suit is filed against the Seller or a General Partner which, if adversely determined, could substantially impair their ability to perform hereunder, except such suits as to which the Seller or a General Partner (in the reasonable opinion of counsel satisfactory to the Buyer) has meritorious defenses and should prevail;

(3) The making by the Seller or any General Partner of any general assignment for the benefit of creditors, the filing by or against the Seller or any General Partner of a petition to have any of them adjudged bankrupt or for reorganization or arrangement under any bankruptcy law, the appointment of a trustee or receiver to take possession of substantially all the assets of the Seller or a General Partner or their interest in the Apartment House Property, or the attachment, execution, or other judicial seizure of substantially all of the assets of the Seller or a General Partner or their interest in the Apartment House Property;

(4) In any legal proceeding the Seller or any General Partner is adjudicated as being, or stipulates to being, insolvent or unable to pay its debts as they become due;

(5) Cessation of the work occurs prior to completion of the Apartment Structures for a continuous period

of ten days or more for causes other than those beyond the control of the Seller or consented to by it in writing, any delay occurs in completion of construction for any reason that would prevent or preclude the construction or completion of the Apartment Structures in an orderly and expeditious manner or within the times provided, or the Seller fails to commence with reasonable diligence and diligently carry to completion all necessary repair and restoration of any damage or loss to the Apartment House Property or the Apartment Structures or any part thereof;

(6) Any person obtains an order or decree in any court enjoining the construction of the Apartment Structures or enjoining or prohibiting the Seller from performing this agreement and such order or decree is not vacated within 60 days after it is granted;

(7) The Seller neglects, fails, or refuses to keep in force and effect any required permit or approval for the construction of the Apartment Structures; or

(8) Any part of the Apartment Structures is damaged or destroyed by casualty not fully covered by insurance for the property's repair and restoration unless, within 20 days after the damage or destruction occurs, the Seller deposits with the "Permanent Lender," (as defined below) sufficient funds to cover the uninsured loss upon terms and conditions reasonably satisfactory to the Buyer. If the loss is covered by insurance, an agreement from the Permanent Lender that the insurance proceeds will be made available for repair and restoration will be sufficient.

If any of the above Events of Default occurs, the Buyer (without prejudice to or limitation of its other rights and remedies) may, at any time after the Closing Date, with or without terminating the Seller's employment hereunder, take possession of the premises on which any portion of the work under this Section 3 is to be performed and of all materials, tools, or appliances thereon and finish the work provided in this Section by whatever reasonable method it may deem expedient. In that connection, it may perform or cause to be performed any and all work and labor necessary to complete the Apartment Structures substantially in accordance with the Plans and may do and perform all other acts and things that shall be necessary or useful in connection with the same. For this purpose, but without limitation on the other rights and remedies of the Buyer, the Seller (as a partnership but not its individual partners) hereby constitutes and appoints the Buyer, its true and lawful attorney-in-fact with full power of substitution to complete the construction of the Apartment Structures in the Seller's name and hereby empowers the Buyer, as such attorney, to take all actions necessary in connection therewith, including; but not limited to, the following: To use any funds of the Seller, including any balance which may be held in escrow or subject to any security agreement and any funds which may remain unadvanced under any construction loan, for the purpose of completing the Apartment Structures in the manner provided in the Plans; to make all additions and changes and corrections in the Plans that shall be necessary or desirable to complete the Apartment Structures in substantially the manner contemplated by the Plans; to employ all contractors, subcontractors, agents, architects, and inspectors required for such purposes; to pay, settle, or compromise all existing or future bills and claims which are or may be liens against the Apartment House Property or may be necessary or desirable for the completion of the Apartment Structures or the clearance of title to the Apartment House Property; to execute all applications and certificates in the name of the Seller which may be required to any construction contract and to do any and every act with respect to the construction of the Apartment Structures which the Seller may do in its own behalf. It is understood and agreed that this power of attorney shall be deemed to be a power coupled with an interest which cannot be revoked by death, dissolution, or otherwise. The Buyer may also prosecute and defend all actions or proceedings in connection with the construction of the Apartment Structures and take any action and require any performance as it deems necessary. The Seller shall pay to the Buyer upon demand the Buyer's expense of completing the Apartment Structures (including, but without limitation on the generality of the above, compensation for additional architectural, managerial, and administrative services and all loss or damages to the Buyer resulting from the Seller's default or breach or failure to complete its performance hereunder and all costs and expenses of all matters authorized to be done by the Buyer under the above power of attorney). Without limitation on its rights and remedies, the Buyer may deduct all or any part of its expense from any current or future sums payable to the Seller.

4. *Payment of purchase price.* The purchase price of the Apartment House Property shall be paid as follows:

(a) \$150,000 of the purchase price shall be paid on the "Closing Date" (as hereinafter defined);

(b) The balance of the purchase price shall be evidenced by and paid in accordance with the terms of a promissory note in the form of Exhibit D, hereunto annexed and made a part hereof (the "Purchase Price Note"). The Purchase Price Note shall be secured by a deed of trust (the "Purchase Price Trust Deed"), in the form of Exhibit E, hereunto annexed and made a part hereof. As provided therein, the Purchase Price Trust Deed is an all-inclusive deed of trust and may hereafter become subject and subordinate to the "Construction Encumbrance" and the "Prior Trust Deed" (as such quoted phrases are defined in the Purchase Price Trust Deed). The Buyer shall be required to comply with the requirements of the Prior Trust Deed pertaining to use and maintenance of the Apartment Structures.

5. *Additional payments.* In addition to the payments provided in Section 4 hereof, the parties shall pay the following:

(a) In accordance with and subject to the limitations specified in a promissory note (the "Loan Fee Note"), in the form of Exhibit F-1, hereunto annexed and made a part hereof, the Buyer shall pay the Seller a loan fee (i.e., points) of \$69,300 in connection with the Purchase Price Note. The Loan Fee Note shall be secured by a deed of trust (the "Loan Fee Trust Deed"), in the form of Exhibit F-2, hereunto annexed and made a part hereof. The Loan Fee Note and the Loan Fee Trust Deed shall be, respectively, delivered to the Seller and recorded on the Closing Date. The parties agree that the loan fee of \$69,300 is an additional charge solely for the use or forbearance of money during the period between the Closing Date and December 31,

_____ [year], inclusive (the Purchase Price Note being due and payable on January 31,

_____ [year] unless, as provided therein, the same is purchased by a "Permanent Lender" on or before January 31,

_____ [year], but shall not be credited against or reduce any other payment or sums payable to the Seller under this agreement or the Purchase Price Note or the Purchase Price Trust Deed.

(b) In accordance with and subject to the limitations specified in a promissory note (the "Covenant Fee Note"), in the form of Exhibit G-1, hereunto annexed and made a part hereof, the Buyer shall pay the Seller \$95,000 as consideration for the execution and delivery by the Seller to the Buyer of a covenant not to compete (the "Covenant"), in the form of Exhibit G-2, hereunto annexed and made a part hereof. The Covenant Fee Note shall be secured by a deed of trust (the "Covenant Fee Trust Deed"), in the form of Exhibit G-3, hereunto annexed and made a part hereof. The Covenant shall be delivered to the Buyer and the Covenant Fee Note and Covenant Fee Trust Deed shall be, respectively, delivered to the Seller and recorded on the Closing Date. The parties agree that such \$95,000 is consideration solely for the giving by the Seller to the Buyer of the Covenant, and shall not be credited against or reduce any other payment or sums payable to the Seller under this agreement or the Purchase Price Note or the Purchase Price Trust Deed.

(c) The Seller shall pay to MB Realty Corporation, a Delaware corporation ("MB"), the sum of \$427,500 in installments as follows: \$222,500 on or before the date on which shall be paid the installment of principal provided in Section 2, Paragraph (a) of the Purchase Price Note (i.e., the installment of \$248,700 therein provided); and \$205,000 on or before the date on which shall be paid the installment of

principal provided in Section 2, Paragraph (b) of the Purchase Price Note (i.e., the installment of \$327,000 therein provided).

All payments made or payable by either party or their successors or assigns under this agreement or under any agreement or instrument herein provided or entered into in connection herewith (whether or not the payment is payable to a party hereto) shall be made concurrently with each other payment which is due on the same date, and the obligation to make each payment is conditioned on the concurrent payment of each other payment.

6. *Management agreement.* The Seller shall cause Chelsea Management Company, a corporation ("Management"), to enter into a management agreement (the "Management Agreement") with the Buyer, in the form of Exhibit H, hereunto annexed and made a part hereof. As more particularly set forth in the Management Agreement, Management, as manager, shall manage the Apartment House Property under and pursuant to the provisions of the Management Agreement.

7. *Guarantee.* The Seller shall cause to be delivered to the Buyer, concurrently with the execution hereof, a guarantee, duly executed by Harold S. Gold, Alan Ross, Henry S. Bick, Louis Freed, and Jerry McCoy (individually and collectively the "Guarantor"), in the form of Exhibit I, hereunto annexed and made a part hereof.

8. *Closing conference.* The sale and purchase herein provided shall be consummated through a closing conference (the "Closing Conference") which shall be held on the Closing Date at 11:00 a.m., Central Time, at the office of Chicago Title Insurance Company, 1500 Austin, Houston, Texas 77002. As used herein, "Closing Date" means September 1, _____[year], or any other date the parties may hereafter agree upon for the transfer, assignment, and conveyance herein provided. The Seller, Chelsea Financial Services ("CFS") and MB shall each be represented at the Closing Conference. The parties will follow the following procedure in connection with the Closing Conference:

(a) Prior to the Closing Date, the parties shall cause to be delivered to Chicago Title Insurance Company ("Title"), at its or its agent's office in Houston, Texas, the following:

(1) By the Seller, a warranty deed in favor of the Buyer, covering the Land and Improvements, duly executed and acknowledged by the then record owner or owners of the Land and Improvements.

(2) By the Buyer, the following:

(A) Purchase Price Trust Deed,

(B) Loan Fee Trust Deed,

(C) Covenant Fee Trust Deed,

(D) "Commitment Fee Trust Deed" (as defined in the "Loan Commitment" referred to in Section 13 hereof), and

(E) "Management Fee Trust Deed" (as defined in the Management Agreement), each duly executed and acknowledged by the Buyer.

(b) At the Closing Conference, each party shall satisfy itself that the other is in position to deliver at the Closing Conference the items hereinafter specified to be delivered by such party in Paragraph (c) hereof. Upon being so satisfied, the parties shall obtain the advice of Title as to whether it is in position to:

(1) Cause the instruments described in Paragraph (a) hereof to be immediately recorded with the County

Recorder of the County of Harris, Texas; and

(2) Upon such recordation, to issue the "Initial Policy" and commitments specified in Paragraph (d) hereof. If Title shall advise affirmatively on all the aforesaid matters, then the parties shall give Title their instructions to:

(A) Cause the instruments described in Paragraph (a) to be immediately recorded in the order set forth in Paragraph (a) and to issue the Initial Policy and such commitments;

(B) Advise the County Recorder to return such deed to the Buyer, and the Purchase Price Trust Deed, the Loan Fee Trust Deed, and the Covenant Fee Trust Deed to Seller, and the Commitment Fee Trust Deed to CFS following such recordation, at their addresses hereafter specified in this agreement; and

(C) Advise the parties when the recordation of such instruments in accordance with the foregoing instructions shall have taken place.

(c) Upon receiving the advice from Title that it has recorded the instruments described in Paragraph (a) hereof in accordance with the foregoing instructions and is issuing the Initial Policy and commitments, and is immediately confirming all of the foregoing the following shall be delivered at the Closing Conference:

(1) The Seller shall deliver or cause to be delivered to the Buyer:

(A) A bill of sale and assignment in favor of the Buyer, as transferee, covering the Personal Property and Intangible Property, duly executed by the Seller;

(B) Two counterpart copies of the Management Agreement, duly executed by Management;

(C) The certificate of the Beneficiary under the Construction Encumbrance (in the form attached hereto as Exhibit J and incorporated herein) if the Construction Encumbrance has been recorded prior to the recordation of the documents described in Paragraph (a) hereof;

(D) Certificates of insurance evidencing the insurance policies provided in Section 10, Paragraph (e) hereof and showing the Buyer as an additional insured under each of such policies (at the time of the closing conference only Builder's Risk and Liability Insurance shall be required);

(E) An opinion of the attorneys for the Seller, CFS, and Management, addressed to the Buyer, in form reasonably satisfactory to counsel for the Buyer, dated as of the Closing Date, to the effect that

(i) This agreement, the Management Agreement, the Loan Commitment, and all agreements, instruments, and documents herein provided to be executed, or herein provided to be caused to be executed, by the Seller, CFS, Management, or the Guarantor are duly executed by and are binding upon the same;

(ii) The Seller is a partnership, duly organized, validly existing and in good standing under the laws of the State of Texas, consisting of Henry S. Bick, Louis Freed, Harold S. Gold, Jerry McCoy, and Alan Ross as general partners, and duly authorized, qualified, and licensed under any and all applicable laws, regulations, ordinances, and orders of

federal, state, and local authorities to carry on its business in the places and in the manner in which it is presently conducted, and to do all things required of it under or in connection with this agreement;

(iii) CFS is a partnership, duly organized, validly existing and in good standing under the laws of the State of Texas, consisting of Cap Exchange Corporation, Harold S. Gold Co., Inc., and Alan Ross, Inc., as general partners, and duly authorized, qualified, and licensed under any and all applicable laws, regulations, ordinances, and orders of federal, state, or local authorities to carry on its business in the places and in the manner in which it is presently conducted, and to do all things required of it under or in connection with this agreement;

(iv) Management is a corporation, duly organized, validly existing and in good standing under the laws of the State of Texas, and duly authorized, qualified, and licensed under any and all applicable laws, regulations, ordinances, and orders of federal, state, and local authorities to carry on its business in the places and in the manner in which it is presently conducted, and to do all things required of it under or in connection with this agreement;

(v) The transfer of the Apartment House Property to the Buyer and the other transactions contemplated by this agreement will not violate the terms of the Construction Encumbrance or any obligations secured thereby nor cause the acceleration of maturity of any obligation secured thereby;

(vi) The Land is zoned for the Apartment House Property and commercial businesses included and to be included in the Apartment House Property and the use of the Land for such purposes does not violate any covenant or agreement (including Restrictive Covenants) applicable to the Land or any party thereof or a statement that there is no zoning applicable to the Apartment House Property;

(F) Certified copies of resolutions of the Board of Directors of Management, in form and substance reasonably satisfactory to counsel for the Buyer, authorizing Management to enter into the Management Agreement and to consummate the transactions therein provided;

(G) Copies of all building permits and all authorizations and any special permits or licenses required in connection with the Apartment Structures (including, but not limited to, those authorizing the construction of the Apartment Structures and all offsite improvements in accordance with the Plans, and all permits or approvals required under any applicable federal, state, or local law, ordinance, rule, or regulation relating to the environment or the control of land use) and all authorizations for the operation of the Apartment House Property for the purposes contemplated by this agreement, issued by the municipality or governmental entity in which the Land is located or other appropriate federal, state, or local governmental agency.

(H) Evidence reasonably satisfactory to the Buyer that:

(i) All streets and roads necessary for access to the Apartment House Property or any part thereof for their intended purpose and all Utility Facilities have been or will be completed, and if applicable dedicated and accepted for maintenance and public use by the appropriate governmental authorities; and

(ii) All necessary utilities service for the Apartment House Property or any part thereof

is available. Letters from local utility companies or municipal authorities stating that gas, electric, sewer, water, and telephone facilities are available to the Apartment House Property will be considered satisfactory evidence that necessary utility service is available.

If for any reason the Buyer waives the requirement of the delivery at the Closing Conference of any of the items hereinabove specified in this Paragraph (c)(1), the Seller shall nevertheless cause such items to be delivered to the Buyer promptly following the Closing Date unless otherwise agreed.

(2) The Buyer shall deliver to the Seller:

(A) A certified or cashier's check payable to the Seller for \$150,000 (as the down payment on the purchase price of the Apartment House Property);

(B) The Purchase Price Note, the Loan Fee Note, and the Covenant Fee Note, each duly executed by the Buyer;

(C) Two counterpart copies of the Management Agreement, duly executed by the Buyer; and

(D) An opinion of the Buyer's attorneys, addressed to the Seller, in form reasonably satisfactory to the Seller to the effect that the Buyer's corporate general partner is a duly organized and existing corporation in the State of Illinois and in good standing in such state; that the Buyer is a duly organized and existing limited partnership under the laws of the State of Illinois; that this agreement and all other agreements executed concurrently herewith or in connection with the transaction contemplated hereby and the instruments delivered pursuant hereto, purporting to be executed by the Buyer, are duly executed by the Buyer and fully binding upon it and that all of the instruments are valid, binding, and fully enforceable against the Buyer in accordance with their terms, without contravening any laws, subject only to applicable bankruptcy laws.

(3) The Buyer shall deliver to CFS the Commitment Fee Note.

(4) CFS shall deliver to the Buyer the Loan Commitment.

(d) The Seller shall cause Title to issue the following:

(1) The Seller shall cause Title to issue to the Buyer, on the Closing Date, a Texas Owner's Policy of Title Insurance (the "Initial Policy"), with liability limits of \$7,125,700, insuring the Buyer as owner. In addition, upon the substantial completion of the Apartment Structures, the Seller shall issue a certificate warranting that title thereto is free and clear with the exception of:

(A) Parties in possession (other than tenants under Tenant Leases, solely as such tenants);

(B) Unrecorded easements;

(C) Taxes or special assessments not shown by the public records; and

(D) Exceptions which a correct survey would disclose (including the absence of any exception for any foundations in place as of the date of such policy not being within the lot lines and applicable setback lines, and any portion of the Improvements encroaching onto adjoining land or onto any easements, and any encroachments of improvements from adjoining land onto the Apartment House Property or any part thereof).

(2) The Seller shall cause Title to issue to Buyer on the Closing Date:

(A) A six-month commitment to issue to the Buyer and to its successors and assigns the Endorsement; and

(B) Title's agreement that it will, without additional consideration and without any request or direction from any party or person, automatically reissue the commitment for successive six-month periods at least 30 days prior to the expiration of the six-month period covered by the previous commitment, until issuance of the Endorsement, but not to exceed a total period of 24 months or such longer period as permitted under Section 3, Paragraph (b)(1) hereof.

(e) Without limitation on its other obligations hereunder, the Seller shall pay:

(1) Any documentary or transfer tax payable in connection with the delivery of any instrument or document provided in or contemplated by this agreement or any agreement or commitment described or referred to herein;

(2) All expenses of or related to the issuance of the title insurance commitments and the policies of title insurance herein provided (including, but not limited to, the premiums for the same and the costs of any surveys required in connection with the same);

(3) The charges of the County Recorder for or in connection with the recording of any instrument or document provided herein or contemplated by this agreement or any agreement or commitment described or referred to herein; and

(4) The cost of all opinions, pertaining to the Seller, certificates, instruments, documents, and papers required to be delivered, or to cause to be delivered, by the Seller hereunder, and, without limitations, the cost of all performances by the Seller of its obligations hereunder.

The Seller shall deposit with Title on the Closing Date a sum sufficient to pay all premiums for the Initial Policy, Endorsement, and title insurance commitment. However, if Title should be unwilling or unable to accept all or any part of the deposit, the Seller shall deposit such sums with the Buyer on the Closing Date (Buyer agreeing to apply the sum so deposited with it against such premiums and, to the extent the same shall not be so used, to return the balance to Seller).

9. Institutional commitment; existing encumbrance. The Apartment House Property may become subject to a certain deed of trust (the "Construction Encumbrance"), securing a certain promissory note (the "Construction Note"), having an original principal amount of not more than \$6,400,000. The Construction Note will evidence loans made for the purpose of constructing the Apartment Structures. In addition, the Seller has obtained from New Life Insurance Company ("New"), a loan commitment (the "New Commitment"), dated September 1, _____[year], as amended September 10, _____[year] and September 13, _____[year], under

which New agrees to make a permanent take-out loan on the Apartment House Property in the maximum amount of \$6,400,000 in replacement of the Construction Encumbrance and Construction Note. The New Commitment and any other loan commitment hereafter obtained by the Seller for a permanent or long term loan on or with respect to the Apartment House Property or any part thereof (not including, however, the "Loan Commitment" described in Section 13 hereof) is individually and collectively called the "Institutional Commitment." The Seller shall use its best efforts to obtain the consent of New to the assignment to the Buyer of the New Commitment, without the payment of any sum or amount by the Buyer and without any additional consideration to New thereunder. In addition, any future Institutional Commitment obtained by the Seller shall provide that it shall be assignable to the Buyer without the Buyer's payment and without any additional consideration to the lender thereunder. The Institutional Commitment (i.e., the New Commitment or any future loan commitment obtained by the Seller) shall be deemed automatically assigned to the Buyer upon delivery of notice to the Seller that the Buyer elects to have the Institutional Commitment assigned to it. The Seller shall pay all commitment fees, charges, costs, and expenses of or related to the Institutional Commitment. Nothing contained herein shall be deemed an acknowledgment or agreement by the Buyer that a loan made or note or mortgage given in accordance with the terms of any Loan Commitment will comply with the requirements for a "Prior Promissory Note" or "Prior Trust Deed" (as such quoted terms are hereinafter defined). The Seller shall cause the Prior Trust Deed and Prior Promissory Note to be given and delivered in replacement and in lieu of the Construction Encumbrance and Construction Note prior to the maturity of the Construction Note (and in any event before February 28, _____[year]). The Buyer has reviewed and approved the terms of the Institutional Commitment, a copy of which is attached hereto as Exhibit L.

10. *Representations and warranties of seller.* In addition to the representations and warranties contained in other paragraphs of this agreement, the Seller represents and warrants to the Buyer the following:

(a) On the Closing Date, the Seller will be the owner of the entire right, title, and interest in and to the Apartment House Property, except for that portion of it (the "Post-Closing Apartment House Property"), required hereunder to be provided the Buyer after the Closing Date; except for the Post-Closing Apartment House Property, the Buyer will acquire hereunder the entire right, title, and interest in and to the Apartment House Property on the Closing Date; the Seller will be the owner of (and the Buyer will acquire hereunder) the entire right, title, and interest in and to the Post-Closing Apartment House Property at or before the time the same is required to be provided to the Buyer hereunder; that on or before the Closing Date, or at such times after the Closing Date as shall be required in order to complete its performance in accordance herewith, the Seller will have obtained all required consents, releases, and permissions, and will have complied with all applicable statutes, laws, ordinances, and regulations of any kind or nature, in order to effectively vest in the Buyer good and marketable title (subject to the Permitted Exceptions) to the Apartment House Property; the Buyer will acquire the Apartment House Property (and except for the Post-Closing Apartment House Property, the Apartment House Property will be, on the Closing Date), free and clear of all liens, encumbrances, liabilities, claims, rights, demands, easements, leases, agreements, covenants, conditions, and restrictions of any kind or character (including, but without limitation on the generality of the foregoing, liens or claims for taxes, mortgages, conditional sale contracts or other title retention agreements, deeds of trust, security agreements and pledges) except for the Permitted Exceptions and any leases ("Tenant Leases") made to tenants of individual apartments (all of which comply with the requirements and limitations for leases and rental agreements set forth in the Management Agreement).

(b) Seller shall keep the Apartment House Property at all times (whether before or after the Closing Date) free and clear of all liens, claims, or demands of any kind or character for or in connection with the construction and completion and providing of the Apartment Structures provided in Section 3 hereof, including, but without limitation on the generality of the foregoing, liens for services or materials or for mechanic's liens, and from and against all expense and liability in connection therewith, including, but not limited to, court costs and attorneys' fees. However, if any such lien, claim, or demand is levied, the Seller, within ten days after the levy, shall secure its release by bonding or other appropriate means or shall take any other steps that the Buyer may reasonably require.

(c) The Apartment Structures comply and will at all times comply with all setback requirements (whether imposed by law or any covenant, condition, restriction, or contract relating to or affecting the same) and do not and will not when completed, encroach onto adjoining land or onto any easements, and there are no encroachments of improvements from adjoining land onto the Apartment House Property or any part thereof and there will not be any such encroachments on the Completion Date.

(d) This agreement and all agreements, instruments, and documents herein provided to be executed, or herein provided to be caused to be executed, by the Seller are duly executed by and are binding upon it; that all financial statements of the Seller or the Guarantor or of the Apartment House Property delivered to the Buyer at any time or times heretofore or hereafter or concurrently herewith, are and shall be true and correct in all respects, have been and will be prepared in accordance with generally accepted accounting practice except as noted therein, and have fairly presented and will fairly present the respective financial conditions of the subjects thereof as of the respective dates thereof, and no material adverse change has occurred or shall have occurred in the financial conditions reflected therein from the respective dates thereof to the dates of delivery of the same to the Buyer except as noted on such financial statements; none of the events, occurrences, or circumstances specified in Paragraph (i) of Section 3, hereof, has occurred or shall occur at any time or times on or before the Closing Date.

(e) The Seller will maintain the Builder's Risk Insurance and Liability Insurance on the apartment property and structures until the Apartment Structures are substantially completed and will thereafter maintain at least the coverage specified in Section 4, Paragraph (f) of the Management Agreement.

(f) The Business Property and the business conducted thereon and with the use thereof are accurately described in Exhibit C hereof; all statements and representations contained in Exhibit C hereof are true; the projections of income and expenses are true and correct to the Seller's best knowledge and are based upon the best information available to it; however, such projections are not a guarantee of the results of operation of the Apartment House Property.

(g) Seller has caused to be delivered to the Buyer previously the following financial statements:

(1) Balance sheets of Harold S. Gold, Alan Ross, and Henry S. Bick as of December 31, _____ [year]; and

(2) Balance sheet of the Seller as of August 1, _____ [year]; and

each of such statements are full, true, and correct. Within 120 days after the end of each calendar year during the term of the Management Agreement, the Seller shall cause full, true, and correct balance sheets of the Seller and the Guarantors (as of the end of the just concluded calendar year) of the Seller (but not the Guarantors) to be delivered to the Buyer. In addition, during the term of the Management Agreement, the Seller shall within 30 days after demand by the Buyer, deliver to it:

(A) All supplemental or additional documents or information (including updated Balance Sheets) pertaining to the financial condition of the Seller or Guarantor that the Buyer shall reasonably request; and

(B) Income statements for the operation of the Apartment House Property.

The Buyer shall reimburse the Seller for all actual costs incurred by it in providing any such supplemental or additional documents or information described in clause (A) above.

At all times the Seller has complied and will comply with all laws, ordinances, rules, regulations, and orders (including, but not limited to, those relating to zoning, building, fire, health and safety and environmental control and protection) of any government or any agency, body or subdivision thereof, and all standards and regulations of appropriate supervising

Boards of Fire Underwriters and similar agencies, bearing on the construction, operation, or use of the Apartment House Property or any part thereof; the Seller has not received and will not have received as of the Closing Date any notice or knowledge that any such government, agency, body, subdivision, board or agency, or any employee or official thereof considers the construction or completion of the Apartment House Property or the operation or use of the same to have violated any such law, ordinance, rule, regulation, order, standard, or regulation or that any investigation has been commenced or is contemplated respecting any such possible violation.

(i) Without limitation on any other representation or warranty contained in this agreement:

(1) The Apartment House Property is and will be in compliance with all applicable zoning, building (including green building requirements), and, without limitation, other legal requirements; there is no plan, study, or effort by any governmental authority or agency or any nongovernmental person or entity which in any way affects or would affect to the best of the Seller's knowledge and belief the use or zoning of the Land for such buildings and businesses;

(2) All notices of completion, licenses, permits, certificates, and authority, required or desirable in connection with the construction, completion, use, or occupancy of the Apartment House Property or any part thereof (including, but not limited to, zoning, utility, building, use, health, operating and environmental control permits, certificates of occupancy and business licenses, all permits, authorizations, and exemptions relating to the protection, maintenance, and control of the environment and all Fire Underwriter's certificates) have been obtained and are and on the Closing Date will be in effect and in good standing, except for any of the same not theretofore required or desirable; Seller has complied with and performed and will hereafter comply with and perform all covenants, conditions, and requirements imposed on the owner or developer or contractor under or in connection with such permits, licenses, certificates, and authority; proper procedure was followed and will be followed in procuring all such permits, licenses, certificates, and authority (including, but not limited to, the preparation and submission of complete and adequate environmental impact reports, if applicable);

(3) Seller has taken and will take all reasonable precautions for the safety of all individuals employed on or in connection with any work provided in this agreement and to prevent accidents or injuries to person or property on or about or adjacent to the Apartment House Property and without limitation on the foregoing has erected and maintained and shall erect and maintain at all times as required by the conditions and progress of the work all necessary safeguards for the protection of workmen and the public and has posted and shall post danger signs warning against the hazards created by any feature of the construction or work.

(j) The Apartment Structures have been and will be constructed, completed, and provided substantially in accordance with:

(1) The Plans;

(2) All applicable requirements, restrictions, and limitations of federal, state, and local statute, law, ordinance, rule, and regulation (including, but not limited to, those relating to zoning, building, fire, health and safety and environmental control and protection);

(3) All standards and regulations of appropriate supervising Boards of Fire Underwriters and similar agencies; and

(4) All covenants, conditions, restrictions, and agreements of any kind or nature affecting the Land or Improvements or affecting or related to the development or use of the Land, including, but not limited to, any made to or imposed by the lender under the Construction Encumbrance or any issuer of a permanent loan commitment in connection with the Apartment House Property or any part thereof, or any governmental authorities (including, but not limited to, any of the same imposed or required in connection with any zoning change or variance application or application for building permit), or made to or imposed by any party to any agreement to which the Land or Improvements is subject.

The Plans are substantially the same as the plans and specifications, if any, heretofore or hereafter submitted by the Seller to, and approved by, the lender under the Construction Encumbrance or any issuer of any such permanent loan commitment or any governmental authorities in connection with any zoning change or variance application or application for any license or permit relating to the Apartment House Property or any part thereof; that Seller has fulfilled and performed and complied with or will hereafter fulfill and perform and comply with, at or before the time or times due, all requirements or obligations or restrictions or limitations related to the development, use or operation of the Land or Improvements and imposed under any covenants, conditions, restrictions, easements, rights of way, encumbrances, or agreements to which the Land or Improvements or any part of the same is subject as of the Closing Date or becomes subject after the Closing Date at the request or with the consent of the Seller; that the description of the Apartment House Property contained in Exhibit C hereof is consistent with and complies with all such plans and specifications and covenants, conditions, restrictions, easements, rights of way, encumbrances, and agreements; the Plans have been provided by the Seller and are free from defects and take into account all relevant circumstances and conditions relating to the Land and the Apartment Structures and the construction thereof; that to the best knowledge of the Seller there are no soil conditions adversely affecting the Apartment House Property or the construction, completion, or operation of the same provided herein or contemplated hereby.

(k) On the Completion Date the Apartment House Property will have adequate water supply, storm and sanitary sewage facilities, telephone, gas, electricity, fire protection, means of ingress and egress to and from the Apartment House Property and public highways and, without limitation, other required public utilities; there have been and will be no impediment or delay with respect to the availability of any such facilities by virtue of any requirements under any statutes with respect to environmental protection or control; all streets and roads necessary for access to or full utilization of the Apartment House Property or any part thereof and all Utility Facilities necessary for sewer, water, gas, electric, and, without limitation, all other utilities service required for the Apartment House Property or any part thereof, have been completed, dedicated and accepted for maintenance and public use by the appropriate governmental authorities where necessary or appropriate.

(l) Except for miscellaneous personal property which may from time to time be required, the Apartment House Property constitutes and/or on the Completion Date shall constitute all the property and assets required in order to carry on and conduct the apartment house business conducted on and with the use of the Land and Improvements; and that the heating and air conditioning systems are or will be completed substantially in accordance with the plans and specifications and comparable in capacity to those customarily used in similar apartment projects in Houston, Texas.

(m) Seller is not, and at no time on or before or after the Closing Date will be, in default in respect of any of its obligations or liabilities pertaining to the Apartment House Property, or any part thereof, including, but not limited to, any obligations, or liabilities secured by the Construction Encumbrance; there is not, and on the Closing Date will not be, any state of facts or circumstance or condition or event which, after notice or lapse of time or both, would constitute or result in any such default; that the aggregate amount of principal which will become owing under the Construction Note and the Construction Encumbrances shall at no time or times heretofore or hereafter exceed \$6,400,000; that there are not now and will not be on the Closing Date any contracts, agreements, covenants, or understandings of any kind or nature (including, but not limited to, any amendments to the Permitted Exceptions) relating to the Apartment House Property or any part thereof or the rights or interests now or at any time or times hereafter held or owned by the Seller or the Buyer therein, except for any such contracts, agreements, covenants, or understandings entered by the Buyer, the exceptions permitted pursuant to Paragraph (a) of this Section 10 and construction subcontracts for the construction of the Apartment Structures in accordance herewith.

(n) Neither this agreement nor any agreement, document, or instrument executed or to be executed in connection with it, nor anything provided in or contemplated by this agreement or any such other agreement, document, or instrument, does now or shall hereafter breach, invalidate, cancel, make inoperative, or interfere with (or result in the breach, invalidation, cancellation or inoperativeness of, or the interference with) any contract, agreement, instrument, mortgage,

deed of trust, lease, bank loan or credit agreement, easement, right, interest, covenant, condition, restriction, corporate charter, bylaw or partnership agreement (individually and collectively the "Limitations"), to which the Seller is a party or by which it is bound or affected or which now or hereafter affects or relates to the Apartment House Property or any part thereof, including, but not limited to, the Construction Encumbrance or any present or future permanent loan commitment relating to the Apartment House Property or any part thereof; none of the Limitations have or shall delay or interfere with the construction, completion, operation, or use provided in or contemplated by this agreement or any such other agreement, document, or instrument.

(o) There are no actions, suits, or proceedings pending, or to the knowledge of the Seller threatened, before or by any judicial body or any governmental authority, against or affecting the Seller or the Apartment House Property, and the Seller is not in default with respect to any order, writ, injunction, decree, or demand of any court or any governmental authority; there is no fact, circumstance or condition, and no change in the condition of the Apartment House Property, financial or otherwise, known or suspected to exist by the Seller, which has had or will have a material adverse effect on the Apartment House Property or its operation nor which is likely to materially reduce in the future the gross revenue or net income from the operation of the Apartment House Property below that shown in Exhibit C; without limitation on the generality of the foregoing, to the best of the Seller's knowledge and belief, there is no existing, proposed, or contemplated plan to widen, modify, or realign any street or highway or any existing, proposed, or contemplated eminent domain proceeding that would affect the Land or Improvements in any way whatsoever.

11. *Additional conditions.* (a) In addition to the conditions provided in the other provisions of this agreement, the consummation of the sale hereunder and the Buyer's obligation to perform its undertakings provided in this agreement are conditioned on the fulfillment of each of the following:

(1) The due performance by the Seller of each and every undertaking and agreement to be performed by it under this agreement and the truth of each representation and warranty made in this agreement by the Seller at the time as of which the same is made and as of the Closing Date; without limitation on the generality of the foregoing, that Seller will deliver or cause to be delivered at the times and places provided herein, all instruments, documents, and certificates provided to be delivered or caused to be delivered by it, and the Buyer will acquire hereunder the entire right, title, and interest in and to the Apartment House Property free and clear of all liens, encumbrances, claims, rights, easements, leases, agreements, covenants, conditions, and restrictions, of every kind or character, except as expressly permitted by the provisions of Paragraph (a) of Section 10 of this agreement.

(2) Prior to the Closing Date, the Buyer shall have received a detailed appraisal of the Apartment House Property, at no cost or expense to it, dated between the date hereof and the Closing Date, prepared by an MAI appraiser, in form reasonably satisfactory to the Buyer showing the Apartment House Property, when completed in accordance with Section 3 hereof, to have a value of not less than \$8,600,000. The Seller shall pay the appraiser's fees and expenses.

(3) There shall not have occurred at any time or times on or before the Closing Date any Event of Default described in Section 3, Paragraph (i) hereof.

(4) There shall not have occurred at any time or times on or before the Closing Date any taking or threatened taking of the Apartment House Property or any part thereof by eminent domain.

(5) There shall not have occurred between July 1, _____ [year] and the Closing Date, inclusive, destruction of or damage or loss to the Apartment House Property or any portion thereof from any cause whatsoever, including, but not limited to, fire, flood, accident, or other casualty, which according to the Buyer's best estimate would cost more than \$15,000 to repair.

The Buyer may at any time or times on or before the Closing Date, waive any of the foregoing conditions to its obligations hereunder and the consummation of such sale, but any such waiver shall be effective only if contained in a

writing signed by the Buyer and delivered to the Seller. No such waiver shall reduce the rights or remedies of the Buyer by reason of any breach of any undertaking, agreement, warranty, or representation of the Seller hereunder. However, if such breach is disclosed in writing to the Buyer prior to the Closing Date, and the Buyer specifically consents in writing to the same, it shall be deemed to have waived any other right or remedy it may have against the Seller by reason of such breach. If for any reason any instrument, document, certificate, or paper required to be delivered to the Buyer hereunder shall not be delivered at the time or times required, the Seller shall nevertheless remain obligated to deliver the same to the Buyer and nothing (including, but not limited to, the closing of the transaction hereunder) shall be deemed a waiver by the Buyer of any such requirement unless specifically waived as to future requirements. If despite destruction of or loss or damage to the Apartment House Property, the transaction herein provided shall be consummated (either because such destruction, damage, or loss is not of sufficient size to cause the termination of this agreement or because Buyer elects not to terminate this agreement), the Seller shall, at its sole expense, repair the destruction, loss, or damage as soon as possible, but the Seller shall be entitled to use the proceeds of any insurance covering the destruction, loss, or damage to reimburse it up to the amount of its cost in affecting such repairs. If, despite the taking or threatened taking of the Apartment House Property or any part thereof by eminent domain, the transaction herein provided is consummated, the proceeds shall belong solely to the Buyer, and the Seller shall, at its sole expense, repair, modify, alter, or reconstruct the Apartment House Property in the manner approved by the Buyer so as to make it an economically viable unit in accordance with the purposes and uses contemplated by this agreement. If for any reason the above sale and purchase is not consummated on or before August 31, _____[year], the Buyer may at any later time, by giving written notice to the Seller, terminate this agreement and its obligations hereunder and the obligation of the Buyer to purchase and the Seller to sell the Apartment House Property hereunder, whereupon neither party shall have any further obligation or liability to the other.

12. *Indemnification.* (a) The Seller shall keep and save the Buyer and the Apartment House Property harmless from and hereby indemnifies the Buyer and the Apartment House Property against:

(1) Any and all obligations, liabilities, claims, accounts, demands, liens, or encumbrances, whether direct, contingent, or consequential and no matter how arising, in any way related to, or arising from any act, conduct, omission, contract, agreement, or commitment of the Seller at any time or times on or before or after the Closing Date, in any way related to or arising from the construction or completion or providing of the Apartment Structures or any part thereof except as otherwise limited in this agreement; without limitation on the generality of the foregoing, the Seller indemnifies the Buyer from any claim or judgment under any lawsuit or proceeding filed or pending prior to the Closing Date against the Apartment House Property or the Seller or any predecessor in interest of the Seller as owner of the Apartment House Property or any part thereof and all costs or expenses (including attorneys' fees) heretofore or hereafter incurred in connection with any such lawsuit or proceeding.

(2) Any loss or damage to the Buyer resulting from any inaccuracy in or breach of any written representation or warranty of the Seller or resulting from any breach or default by the Seller under any covenant or agreement of the Seller under this agreement.

(3) All costs and expenses, including attorneys' fees, related to any actions, suits, or judgments incident to any of the foregoing.

If any claim is made against the Buyer against which the Seller has agreed to make indemnification, the Buyer shall notify the Seller of the claim within 20 days after the Buyer has notice of it (unless the Seller already has knowledge of it). However, failure to notify the Seller shall in no case prejudice the Buyer's rights under this agreement unless the Seller is prejudiced by such failure and then only to the extent of such prejudice. Upon learning of such claim (as a result of notice to the Seller as aforesaid, or from any other source), the Seller shall undertake to defend and hold the Buyer free and harmless therefrom. If the Seller fails to discharge or undertake to defend against such liability, the Buyer may settle the same and Seller's liability to the Buyer shall be conclusively established by such settlement. The amount of the liability shall include both the settlement consideration and the reasonable costs and expenses (including

attorney's fees) necessarily incurred by the Buyer in effecting the settlement.

13. *Loan commitment.* As more particularly set forth therein, the Purchase Price Note provides in part that the entire balance of principal and interest thereunder shall become due and payable on March 31, _____[year] unless a "Permanent Lender" (as therein defined) shall purchase the same on or before March 31, _____[year]. Under date of August 25, _____[year], Chelsea Financial Services (the "Lender"), which qualifies as a "permanent Lender" under the Purchase Price Note, issued to the Buyer a written loan commitment (the "Loan Commitment"), under which the Lender agreed to purchase or cause to be purchased the Purchase Price Note on or before March 15, _____[year] upon the terms and conditions therein set forth. The Seller acknowledges that it has examined the Loan Commitment and is fully familiar with its terms. The Seller hereby agrees:

(a) Upon the tender to the Seller or its successor or assign as holder of the Purchase Price Note, of the consideration for the Purchase Price Note specified in the Loan Commitment, the Seller shall cause the Purchase Price Note to be sold to the Lender and shall execute or cause to be executed all assignments and documents and perform all other acts or things that may be required in order to cause the purchase of the Purchase Price Note to be consummated in accordance with the Loan Commitment or that may be requested by the Lender in connection with the consummation of such purchase.

(b) If for any reason whatsoever the Lender fails to purchase the Purchase Price Note on or before March 15, _____[year], then, unless the Buyer gives contrary written notice to the Seller, the Seller shall cause the Purchase Price Note to be purchased from its holder by a "Permanent Lender" (as defined in the Purchase Price Note) on or before March 31, _____[year] and otherwise on the same terms and conditions as are provided in the Loan Commitment for the purchase of the same by the Lender, all without cost, expense, or liability of any kind or nature to the Buyer. Without limitation on the generality of the foregoing, the Seller shall pay all costs, charges, fees, expenses, and reimbursements (including, but not limited to, any commitment fee, loan fee or points) charged by the "Permanent Lender" in connection with such purchase, and Seller shall execute or cause to be executed all assignments and documents and perform or cause to be performed all other acts or things that may be required in order to cause such purchase of the Purchase Price Note to be consummated or as may be requested by the Permanent Lender in connection with the consummation of such purchase. The transfer or assignment of the Purchase Price Note by the Seller or any of its successors or assigns, whether or not the Buyer consents to the sale or assignment, shall in no way and to no extent relieve the Seller of its obligations under this Section 13.

14. *Brokers.* The Seller and the Buyer represent and warrant to each other that neither has engaged any broker or finder in connection with any transaction contemplated by this agreement and that neither to its knowledge is in any way connected with any such transaction. If any claim for a broker's or finder's fee or commissions is made in connection with the negotiation, execution, or consummation of this agreement, either party (the first party) shall indemnify, save harmless, and defend the other party (the second party) from and against such claim if it is based upon any statement, representation, or agreement alleged to have been made by the first party. The provisions of this Section shall not apply to, and nothing herein contained shall be deemed to limit or reduce, the payments to MB provided in this agreement.

15. *Limitation of liability.* No present or future individual general partner of the Buyer or of any partnership which is now or hereafter a general partner of the Buyer shall have any personal liability of any kind or nature for or by reason of any matter or thing whatsoever, under or in connection with this agreement or any agreement, instrument, document, or covenant made or entered into under or pursuant to the provisions of this agreement, or any amendment or amendments to any of the foregoing made at any time or times, heretofore or hereafter, and the Seller hereby waives any and all such personal liability of such individual general partners. In addition, the Seller agrees that the Buyer shall not assume or have at any time or times hereafter, any duties, obligations, or liabilities of any kind or nature (whether arising or accruing on or before or after the Closing Date and including, but not limited to, any of the same based on performances or occurrences after the Closing Date) under or in connection with or secured by any contract, agreement, lease, instrument, encumbrance, claim, or right constituting a part of the Apartment House Property or to which the Apartment

House Property is now or hereafter subject, including, but not limited to, the Existing Encumbrance and Continuing Contracts. The limitation of liability provided in this Section is in addition to, and not in limitation of any limitation on liability applicable to the Buyer provided by law or by any other contract, agreement, or instrument relating to the Buyer.

16. *Survival of covenants, etc.* All warranties, representations, covenants, obligations, and agreements contained in this agreement shall survive the execution and delivery of this agreement and of any and all documents or instruments delivered in connection herewith and shall survive the closing hereunder and any and all performances in accordance with this agreement. Notwithstanding the foregoing, the cause of action of the Buyer or of its successors or assigns against the Seller by reason of any warranties specified in Section 3, Paragraph (b)(2) hereof (relating to the manner of construction of the Apartment Structures) shall continue until, but shall lapse as of, the "Expiration Date," except that the same shall not lapse as to any breach or default with respect to which the Buyer or such successor or assign shall have commenced suit or given written notice to the Seller, on or before the "Expiration Date." As used herein, "Expiration Date" means the later of (a) December 31, _____[year], or (b) six months after the first to occur of:

- (1) The end of the "Primary Term" under the Management Agreement, or
- (2) The termination of the Management Agreement.

Nothing contained herein shall be deemed to cause the limitation herein specified to apply to the Seller's obligations under the Management Agreement. Under no circumstances shall the construction warranty be deemed to include normal wear and tear.

17. *Taxes.* The Seller shall pay all sales or use taxes that are determined to be payable in connection with any transaction contemplated by this agreement.

18. *Further assurances.* Each party will, whenever and as often as the other shall request, execute, acknowledge, and deliver, or cause to be executed, acknowledged, or delivered any and all such further conveyances, assignments, confirmations, satisfactions, releases, powers of attorney, instruments of further assurance, approvals, consents, and any and all such further instruments and documents as may be necessary, expedient or proper, in the opinion of such requesting party, in order to complete any and all conveyances, transfers, sales, and assignments herein provided and to do any and all other acts and to execute, acknowledge, and deliver any and all documents as so requested in order to carry out the intent and purpose of this agreement.

19. *Entire agreement.* This agreement, together with the other written agreements and instruments executed concurrently herewith or pursuant to the provisions hereof, contains the entire agreement between the parties respecting the matters herein set forth and supersedes all prior agreements between them respecting such matters.

20. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

21. *Headings.* Section headings are for purposes of convenience and identification only and shall not be used to interpret or construe this agreement.

22. *Time is of essence.* Time is expressly declared to be the essence of this agreement.

23. *Breach.* If either party obtains a judgment against the other by reason of breach of this agreement, the judgment shall include reasonable attorneys' fees as fixed by the court. In addition, if either party is made a party to any litigation commenced by or against the Seller growing out of or related to the construction, completion or providing of the

Apartment House Property (or any part thereof) or to this agreement or the Seller's obligations under it, the Seller shall pay, on demand, all costs and reasonable attorneys' fees incurred by the Buyer in such litigation.

24. *Remedies.* Unless otherwise specified, no remedy conferred upon either party in this agreement is intended to be exclusive of any other remedy provided or permitted in it or by law. Each remedy shall be cumulative and in addition to every other remedy given hereunder or now or later existing at law, in equity, or by statute. The Buyer may exercise concurrently or independently and as often as it deems expedient every power or remedy given by this agreement or to which it may otherwise be entitled, and it may pursue inconsistent remedies.

25. *Waivers.* Except as herein expressly provided, no waiver by the Buyer or any breach of this agreement or of any warranty or representation hereunder by the Seller shall be deemed to be a waiver of any other breach by the Seller of any kind or nature (whether preceding or succeeding and whether or not of the same or similar nature). No acceptance of payment or performance by the Buyer after any such breach by the Seller shall be deemed to be a waiver of any breach of this agreement or of any representation or warranty hereunder by the Seller whether or not the Buyer knows of the breach when it accepts such payment or performance. No failure by either party to exercise any right it may have under this agreement or by law upon the other's default, and no delay in the exercise of that right, shall prevent it from exercising the right whenever the other party continues to be in default. No such failure or delay shall operate as a waiver of any default, or as a modification in any respect of the provisions of this agreement.

26. *Damages.* Notwithstanding the above or any other provision of this agreement, if the Seller fails to complete the Apartment Structures as provided in Section 3, the damages that the Buyer is entitled to recover from the Seller by reason of any such breach of this agreement shall not include recovery for consequential damages.

27. *Gender and number.* Whenever the singular or plural number, masculine or feminine or neuter gender is used herein, it shall equally include the other.

28. *Successors and assigns.* The Seller may not assign or transfer its rights or obligations under this agreement without the Buyer's prior written consent. If its consent is given, the transferee shall assume in writing all of the Seller's obligations hereunder, but the Seller shall not be released from them. The Buyer's consent to a particular transfer or assignment shall not be construed as a consent to any other transfer or assignment of the Seller's rights or obligations. No transfer or assignment in violation of the provisions of this agreement shall be valid or enforceable. Subject to the above, this agreement and its terms and provisions shall inure to the benefit of and be binding upon the parties' successors and assigns. Without limitation on the above, the Buyer and its successors and assigns may, if such action is approved by the Beneficiary of the Construction Encumbrance or the Prior Trust Deed, as the case may be, transfer and assign at any time the assignor's rights and obligations under this agreement. In that event, the transferee and assignee (the "Assignee") will be substituted in place of the assignor in the above-provided-for documents (including, but not limited to, the warranty deed, the Purchase Note, the Purchase Price Trust Deed, the Management Agreement and the policies of and commitments for title insurance) and it shall be entitled to the benefit of and may enforce the Seller's covenants, representations, and warranties hereunder. Upon any such assignment by the Buyer or any of its successors or assigns, the assignor's liabilities and obligations hereunder or under any instruments, documents, or agreements made pursuant hereto (including, but not limited to, the Purchase Price Note, the Purchase Price Trust Deed and the Management Agreement), shall be binding upon the transferee and assignee and the assignor shall be relieved of all of the same. However, the Assignee shall have the benefit of any limitations on such liabilities and obligations applicable to either assignor or Assignee, provided by law or by the terms hereof or such instruments, documents, or agreements, including, but not limited to, any restrictions against personal liability under or specified in the Purchase Price Note.

29. *Operational information.* Without limitation on its other obligations under this agreement or under the Management Agreement, the Seller shall at any time between the date hereof and the termination of the Management Agreement, upon the Buyer's reasonable request, provide the Buyer with information, schedules, and statements concerning the Apartment House Property and the operation thereof (including, but not limited to, descriptions of the Apartment House

Property and statements showing the revenues and expenses therefrom). In addition, if any federal, state, or local government, agency or authority (including, but not limited to, the Securities and Exchange Commission and any state Blue Sky Commissioner) shall require, at any time, that the Buyer file or furnish financial statements or information relating to the Apartment House Property (including its operating history and income and expenses covering a period of not more than five years), the Seller shall furnish the Buyer and such government, agency, or authority with the required financial statements or information. All statements and information shall be in the form and manner required by the appropriate government, agency, or authority, and shall include, but not be limited to, statements and information audited by a firm of certified public accountants. The Buyer hereby agrees, except as otherwise provided herein, to reimburse the Seller for the additional auditor's fees and expenses it incurs in compiling or providing such information for the Buyer. The Seller shall and does hereby warrant that the information, schedules, statements, financial statements, and operating history provided by it (including those furnished in response to the requirements of a government, agency, or authority) shall be true and correct as of the time furnished or delivered.

30. *Notices.* Any notice, demand or document which any party is required or may desire to give or deliver to or make upon any other party shall be in writing, and may be personally delivered or given or made by United States registered or certified mail, addressed as follows:

To Seller

60 Park Place
Houston, Texas 77057

and to

Marvin and Marvin

24 Houston Natural Gas Bldg. Houston Texas 77002

Attention: Jack Marvin, Esq.

To Buyer

85 North LaSalle Street
Chicago, Illinois 60611

and to

Poer & Hall
65 West Street
Los Angeles, California 90015
Attention: Peter Poer, Esq.

However, either party has the right to designate a different address for itself by giving similar notice. Any such notice, demand, or document shall be deemed to have been given, delivered, or made on the day after it is deposited in the United States mail as registered or certified matter, addressed as provided above, with postage fully prepaid. Any notice, demand, or document not given, delivered, or made by registered or certified mail as required above shall be deemed to be given, delivered, or made upon receipt by the party or parties for whom it is intended.

31. *Governing law.* This agreement shall be construed and enforced in accordance with the laws of the State of Texas.

32. *Binding effect.* This agreement shall be binding upon and inure to the benefit of all the parties, and their respective heirs, representatives, successors, and assigns.

33. *Time of essence.* Time is expressly declared to be the essence of this agreement.

The parties have executed this agreement as of the day and year first above written.

Exhibit A

Field notes covering a tract of land containing 17.0977 acres which is located in the James Young Survey, Abstract 944 in Houston, Harris County, Texas and being more particularly described by metes and bounds as follows:

Commencing at a point that marks the intersection of the west line of Antoine Drive, 60.00 feet wide, and the South line of West Tidwell Road, 100.00 feet wide;

Thence S 89 degrees 39 12" W along the south line of West Tidwell Road for 72.89 feet to a point for beginning of a curve;

Thence Northwesterly along the arc of a 2341.83 foot radius curve to the right which marks the south line of West Tidwell Road, said curve having a central angle of 27 degrees 45 55" and a chord that bears N 76 degrees 20 55" W for 1123.77 feet or along the said arc for 1134.84 feet to the end of curve;

Thence N 62 degrees 27 59" W for 247.86 feet to the beginning of another curve;

Thence Northwesterly around the arc of a 2241.83 foot radius curve to the left that marks the south line of West Tidwell Road, said curve having a central angle of 16 degrees 44 26" and a chord that bears N 70 degrees 48 58" W for 652.69 feet or along the said curve arc for 655.01 feet to the PLACE OF BEGINNING of the description of this 17.0977 acre tract of land;

Thence South along this tract's east line for 881.08 feet to the southeast corner that is located in the north line of Cole Creek, also called Harris County Flood Control's 150 foot wide feet strip according to Volume 5402, page 624 of the Harris County Deed Records;

Thence along the south line of this tract and with the meanders of the north line of said Cole Creek as follows:

N 46 degrees 51 32" W for 42.60 feet;
N 62 degrees 12 32" W for 174.59 feet;
N 77 degrees 35 17" W for 87.21 feet;
N 72 degrees 47 52" W for 187.27 feet;
N 63 degrees 10 42" W for 187.17 feet;
N 53 degrees 37 22" W for 187.17 feet;
N 44 degrees 02 07" W for 187.19 feet;
N 39 degrees 14 07" W for 108.15 feet;
N 51 degrees 46 07" W for 216.30 feet;
N 64 degrees 13 32" W for 216.63 feet;
N 76 degrees 49 22" W for 216.44 feet;
N 89 degrees 21 22" W for 108.15 feet;
N 78 degrees 19 12" W for 46.81 feet to a point for corner.

Thence N 00 degrees 10 12" W along the west line of this 17.0977 acre tract of land for 36.18 feet to its northwest corner that is located in the south right-of-way line of West Tidwell Road;

Thence S 89 degrees 55 08" E with the north line of this tract and the said south line of West Tidwell Road, 100.00 feet wide, for a distance of 1278.75 feet to the beginning of a curve;

Thence Southeasterly around the arc of a 2241.83 foot radius curve to the right that has a central angle of 10 degrees 43 13" and a chord that bears S 84 degrees 32 55" E for 418.84 feet or along the said curve arc for a distance of 419.46 feet to the Place of Beginning.

26-22 Current Legal Forms for Real Estate FORM 22.11

Description of Property

A 492 unit apartment project located on West Tidwell Road and Sun Forest Drive consisting of:

Code	Unit Type	Quantity	Square Feet
A	1 Bedroom/1 Bath	112	577
B	1 Bedroom/1 Bath	40	696
C	1 Bedroom/1 Bath	88	684
D	1 Bedroom/Study/11/4 Bath	44	798
E	2 Bedroom/11/4 Bath	68	928
F	2 Bedroom/2 Bath	60	1,016
G	2 Bedroom/2 Bath	68	1,021
H	3 Bedroom/2 Bath	12	1,231

The 38 buildings are of wood exterior and framing and are two story buildings with a balcony or patio for each unit. Parking is provided for each unit and all exterior parking is to be concrete. There will be a total of 532 parking spaces.

There will be a two story clubhouse, a rental information and two pools.

The project is built in accordance with plans prepared by Arthur D. Stein and Associates, 2444 Tines Blvd., 4635 Southwest Freeway, Houston, Texas AIA, dated September 12, _____[year] pages numbered 1 to 108, inclusive, page P[1] 1 to P[3], and S[1] to S[15] 25 inclusive, and General Instruction and Specification for Forest Village Apartments. Division C[1] to Division 1 to Division 13, inclusive.

Exhibit E

Deed of Trust and Security Agreement
[Construction Mortgage]

State of Texas
County of Harris

Know All Men By These Presents:

That Cort Real Estate Limited Partnership-VI, an Illinois Limited Partnership, hereinafter called Grantors (whether one or more), for the purpose of securing the indebtedness and obligations hereafter mentioned, and for and in consideration of the sum of \$10 paid by the Trustee hereafter named, the receipt of which is hereby acknowledged and confessed, and of the further considerations, uses, purposes and trusts hereinafter set forth and declared, have Granted, Sold, and Conveyed, and by these presents do hereby Grant, Sell, and Convey unto M. Marvin, as Trustee, of Harris County, Texas, and unto his successors and substitutes in the trust hereby created, and his assigns forever, all of the following described real estate, together with all improvements thereon and hereafter placed thereon, situated in the County of Harris, State of Texas:

That certain tract or parcel of land described on Exhibit A attached hereto and by this reference made a part hereof, together with all improvements now or hereafter located thereon.

Together with all improvements thereon and fixtures thereto and all rights, titles, and interests of Grantors in and to all property abutting upon the property hereinabove specifically described, and in and to all easements, streets, and rights-of-way of every character adjoining the property above described and serving such property or affording ingress and egress thereto, and public or private utility connections thereto, whether such easements, rights-of-way, and streets shall be public or private, and all appurtenances, servitudes, rights, ways, privileges, prescriptions, and advantages thereunto belonging, or in anywise appertaining; it being mutually covenanted and agreed that all awnings, door and window screens, storm windows and doors, mantels, cabinets, linoleum, carpeting, other floor coverings, wall and in-a-door beds, stoves, draperies, shades, radiators, furnaces, central and panel heating, oil or other fuel burning systems and equipment, water heaters, dish washers, radiator covers; and all plumbing, heating, lighting, cooking, ventilating, cooling, air conditioning and refrigerating apparatus and equipment, elevators and other mechanical equipment, and such other goods, chattels, and personal property as are ever furnished by landlords in letting or operating an unfurnished building similar to the one located upon the property above specifically described (whether now or hereafter) and which are, or shall be attached to said building adhesively by nails, screws, bolts, pipe connections, masonry, or in any other manner, and all additions thereto and replacements thereof, and such built-in equipment as

shall be shown by the plans and specifications for the building upon the above property, are and shall all be deemed to be fixtures and accessions to the premises, being hereby agreed to be immovable and a part of the realty as between the parties hereto, their heirs, executors, administrators, and assigns, legal successors and representatives and all persons claiming through or under them, and shall be deemed to be a part and portion of the security for the indebtedness herein mentioned and secured by this deed of trust, and not capable of being removed therefrom without substantial damage to the realty. The Beneficiary is also granted a security interest in all timber to be cut from the above-described realty and all minerals or the like (including oil and gas) thereon, and all accounts resulting from the sale of such minerals and the like at the wellhead or minehead.

To have and to hold the above-described property and premises, together with all rights, privileges, easements, hereditaments, and appurtenances thereto in anywise belonging, and all right, title, and interest of Grantors in and to the land lying in the bed of any street, road, or avenue, open or proposed, abutting or adjoining the property described above, unto the Trustee, and to his substitutes, successors, and assigns forever, hereby covenanting and agreeing to forever warrant and defend the property and premises aforesaid, and every part thereof, unto the Trustee above named, and to his substitutes and successors in such trust, and to the assigns of any Trustee or substitute trustee hereunder, against every person whomsoever lawfully claiming or to claim the same or any part thereof, the Grantors, and each of them, covenanting and warranting that they have good and indefeasible title to the above-described property, free of all liens, encumbrances, and adverse claims, and that such Grantors have the full right and authority to make this conveyance.

This conveyance, however, is intended as a trust, and is made to secure, by liens created upon the above-described property first and paramount except as expressly otherwise stated herein, the payment of all notes, indebtedness, and obligations described or referred to hereafter, principal, interest, and attorney's fees, all original indebtedness upon which same are founded, and all extensions, renewals, or rearrangements thereof, or any part thereof, together with all sums that have been or hereafter may be loaned or advanced by Beneficiary to, or for the account of, Grantors, or either of them, or which are or may hereafter become owing to Beneficiary, his heirs, and assigns, by Grantors, or either of them, whether as principals, sureties, or in any other capacity, during the existence of this deed of trust, or which may be paid to, or for the account of said Grantors, or either of them, by Beneficiary, or expended by Beneficiary, his heirs and assigns, in repairing, replacing, improving, caring for, insuring, protecting, or possessing the above-described property, or protecting, defending, or establishing the validity and priority of this lien thereon.

This conveyance secures the payment of a promissory note of even date herewith, executed by Grantors, in the face amount of \$6,975,700, payable to the order of Chelsea Development Company, herein called Beneficiary, in the City of Houston, Texas, which promissory note is due and payable as therein provided, reference being made to such note for full particulars.

Such note containing the usual provision for acceleration of maturity at the option of the holder thereof, in event of any default, and bearing interest at the rate therein provided, all past due principal and interest shall bear interest at the highest lawful rate then authorized by law to be paid by the maker of the note from date of maturity until paid, and for attorney's fees of 10 percent of the amount of principal and interest thereon due if such note is placed in the hands of an attorney for collection by reason of any default, or if collected through the Probate or Bankruptcy Court, or any other judicial proceeding.

In the event of any default in the payment of any indebtedness or obligation secured hereby, or any part thereof, as same shall become due and payable, however the maturity may be brought about, or if Grantors shall breach any of the covenants herein contained to be kept or performed by Grantors, or if the owner of the above-described property shall have filed for or against him or it, any proceeding under the Bankruptcy Act, then, and in any of such events, the entire indebtedness secured by the terms of this instrument, together with all interest and other sums hereby secured, may, at the option of Beneficiary or other holder of the promissory note and indebtedness secured hereby, be immediately matured and become due and payable, without demand, notice, or presentment of any note or other obligation secured

hereby. It shall thereupon, or at any time thereafter, be the duty of the Trustee, or his successor or substitute as hereafter provided, upon the request of the Beneficiary or other holder of the indebtedness hereby secured, or any part thereof (which request is hereby presumed), to enforce this trust, and after giving such notice as may be required by the law of Texas, which notices may be given or posted by the Trustee or substitute trustee acting, or by any other person, to sell such property in accordance with such advertisement, at public auction, in front of the door of the Courthouse of the county designated in such notice, where such real estate, or any portion thereof, is situated, in the State of Texas, on the first Tuesday in any month, between the hours of 10:00 a.m. and 4:00 p.m., to the highest bidder for cash, selling all the property above conveyed as an entirety, or in parcels, as the Trustee or substitute trustee acting may elect, and make due conveyance to the purchaser or purchasers thereof, with general warranty, binding the Grantors, their heirs, and assigns; and such sale shall forever be a perpetual bar against Grantors, their heirs, and assigns. The Beneficiary, or other holder of the indebtedness secured hereby, shall have a right to purchase at such sale, being the highest bidder.

The proceeds of any such sale shall be applied as follows: First to the payment of all charges of such advertising, sale, and conveyance, including a commission of 5 percent to the Trustee or Substitute Trustee then acting, and then to the Beneficiary or any other holder of the promissory note, indebtedness, and obligations secured hereby, the full amount of principal, accrued interest, and attorney's fees due and unpaid on such indebtedness and obligations above described, with the balance of such proceeds to be paid to Grantors herein, upon their furnishing to Trustee a duly executed and acknowledged receipt and release therefor.

If default shall be made in the payment of any installment of the promissory note or other obligations secured by this deed of trust, or of advancements made under the terms of this deed of trust, the holder thereof shall have the option to proceed with foreclosure to satisfy the payment of such items, either through the courts, or by directing the Trustee or his successor or substitute in trust to proceed as above authorized for a foreclosure by Trustee's Sale, conducting the sale as herein provided, and without declaring the whole debt due, and if such sale is made because of such a default, such sale may be made subject to the unmatured part of the note, indebtedness, and other obligations secured by this deed of trust, and any such sale, if so made (and recital in the notice of sale or Trustee's Deed given pursuant thereto shall be prima facie evidence that same was so made) shall not in any manner affect the unmatured part of the debts secured by this deed of trust, but, as to such unmatured part of such indebtedness and obligations, this deed of trust shall thereafter remain in full force and effect, just as though no sale had been made as authorized by the provisions of this paragraph. Several sales may be made under the terms of this deed of trust without exhausting the right or power of sale for any unmatured part of the indebtedness secured hereby, it being the purpose of this paragraph to provide for a foreclosure and Trustee's Sale of the above-described property, or any portion thereof, for the collection and enforcement of any matured portion of the debt secured hereby, without exhausting the power to later foreclose and sell the property securing payment hereof, or any part thereof, to enforce the payment of any other part of the indebtedness or obligations secured hereby, be the same matured at that time or subsequently maturing. An assignee who may hold any installment or installments, or portion of an installment owing upon any note hereby secured, or any advancement or other amount secured hereby, shall have the same powers as are conferred upon the Beneficiary, or holder of any other portion of the notes, indebtedness, or obligations secured hereby, to proceed with foreclosure and Trustee's Sale to enforce a matured installment or installments, or portion thereof, or other obligation or advancement secured hereby, and to request the Trustee or his successor or substitute in trust to sell the property herein conveyed, for such purpose. However, if an assignee of one or more installments, an advancement, or a portion of an installment which shall be less than the full amount owing upon the notes and obligations, payment of which are secured hereby, shall foreclose or cause a Trustee's Sale to be held to satisfy any such matured installment, part of an installment or installment or advancement, then any such foreclosure or Trustee's Sale shall be made subject to the lien of this deed of trust, insofar as same shall secure the payment of any unmature part of a note and indebtedness secured hereby, as well as any part thereof owned by any other party, at such time, matured or unmatured, and the lien of this deed of trust shall continue in full force and effect to secure the payment of such portion or portions of installments, notes, indebtedness, and obligations, which shall continue in force and effect. An assignee of one or more installments, or an obligation secured hereby which arose from an advancement or otherwise, which shall be less than a majority of the amount of the principal and interest then owing upon the total debts and obligations, payment of which is secured hereby, shall have no power to appoint a substitute

trustee, but the right to appoint a substitute trustee shall rest solely in the party holding a majority in amount of the obligations owing hereunder at the time of any such appointment.

The recitals in any conveyance to a purchaser at any Trustee's or Substitute Trustee's Sale held hereunder, or in any conveyance to a purchaser made hereunder pursuant to legal process, shall be full evidence of the truth of the matters therein stated. All prerequisites to the validity of such sale shall be conclusively presumed to have been performed, and such sale and conveyance shall be conclusive as against the Grantors, each of them, their heirs, and assigns, and any one claiming by, through or under them, or either of them, whether or not such prerequisites shall have been performed or shall not have been performed, it being presumed that same were performed from the fact of execution and delivery of any such conveyance.

In case of the absence, death, inability, refusal, or failure of the Trustee herein named to act, or, at the option of Beneficiary, or other holder of the notes, indebtedness, and obligations hereby secured (or a majority in amount thereof), with or without any reason, a successor or substitute may be named, constituted, and appointed by Beneficiary, or other holder of the note and obligations secured hereby (or a majority in amount thereof) or the President or other officer performing the functions of President or Manager of any corporation or other firm holding the indebtedness secured hereby, without other formality than an appointment and designation in writing, and this conveyance shall vest in such successor or substitute, as Trustee, the estate and title in all of the property and premises above described, and he shall thereupon hold, possess, and execute all the rights, titles, powers, and duties herein conferred on the Trustee herein named. Such right to appoint a successor or substitute trustee shall exist as often and whenever from any of such causes any trustee, original or substitute, cannot or will not act, and as often as the Beneficiary or other holder of a majority of the indebtedness and obligations secured hereby shall elect to appoint such a substitute or successor, with or without any cause.

In case any sale shall be held pursuant to the terms hereof, any Trustee named herein, or any substitute or successor trustee may perform any part of the foreclosure proceedings and sale herein provided for, and any other trustee or substitute trustee which may be hereafter appointed may complete any part of the foreclosure proceedings, commencing with the initial act of posting notices or at any subsequent time, through the execution and delivery of the Trustee's or Substitute Trustee's deed to the purchaser.

Grantors covenant and agree as follows:

1. *To pay secured debt.* To make prompt payment of the aforementioned indebtedness and obligations, both principal and interest, as same shall become due and payable, together with all costs, fees, and expenses of this trust.
2. *Taxes and assessments.* To pay, as same shall become due and payable, and before delinquency, all ad valorem taxes and assessments, general and special, now chargeable to or assessed against, or hereafter chargeable to or assessed against the above-described property, or any portion thereof.
3. *Insurance.* At all times, to keep the improvements on such property insured against loss by flood, fire, windstorm and hail, and such other risks or hazards as may be required by Beneficiary, and afford extended coverage, with companies satisfactory to Beneficiary, or other holder of the indebtedness secured hereby. Such policies shall have, at all times, loss payable clauses in favor of Beneficiary or other holders of the note and indebtedness secured hereby, as mortgagee, and such original policy or policies of insurance shall be held by Beneficiary, or other owner and holder of the indebtedness secured hereby. Such insurance shall be in an amount equal to the full insurable value of the improvements upon the above-described property, or in an amount not less than the balance owing upon all indebtedness and obligations, payment of which is secured by this deed of trust, whichever is lesser.
4. *No waste.* Grantors shall keep such improvements in good condition and repair, and shall not permit any waste, active or permissive, on such property, or do or permit to be done any act or thing that would tend to depreciate the value of

the above-described property; nor shall they permit or cause the removal of any fixtures, improvements, soil, gravel, minerals, trees, shrubs, or sod, without prior written permission of Beneficiary, nor alter, demolish, or remove any buildings on the premises without such written permission.

5. *No lien impairment.* Grantors shall in no manner suffer or cause the impairment of any lien securing the aforementioned indebtedness.

6. *Taxes on note and lien.* Grantors shall pay, as the same shall become due and payable, all taxes that shall be chargeable to or assessed against this mortgage and the note or notes hereby secured, which tax payments on this mortgage and the note or notes hereby secured, together with the interest payments, are not to exceed the highest lawful rate the maker of the note secured hereby may be required to pay as interest on the principal amount of the indebtedness hereby secured.

7. *Mortgagee's protective payments.* Beneficiary may, at its or his option, without demand or notice, and without waiver of any right whatsoever, including the right of foreclosure through Trustee's Sale or otherwise, pay or discharge any lien or claim upon the above-described property, pay any delinquent tax or assessment thereon, and upon any such payment, Beneficiary shall be subrogated to all rights of the holder of such lien or claim and to the rights of any taxing authorities so paid. Beneficiary may advance any unpaid insurance premiums, and may effect insurance which is not provided by Grantors as provided elsewhere herein; may maintain the improvements, making repairs necessary for the proper preservation of the security in the event Grantors fail to do so; and in any of such events, Grantors hereby expressly agree to pay to Beneficiary, upon demand, any and all amounts disbursed in payment of any or all such items herein named, together with interest thereon at the highest lawful rate, from the date of such disbursements and all such disbursements shall be added to and become a part of the indebtedness secured hereby, payable at the same place as is specified for payment of the promissory note above described and specifically secured hereby.

8. *Other documents.* To execute and deliver (and pay the costs of preparation and recordation thereof) to Beneficiary and to any subsequent holder from time to time, upon demand, any further instrument or instruments, including, but not limited to, deeds of trust, mortgages, security agreements, financing statements, assignments, and renewal and substitution notes, so as to reaffirm, correct, and perfect the evidence of the obligation hereby secured and the right of Beneficiary to all or any part of the premises intended to be hereby conveyed whether now conveyed, later substituted for, or acquired subsequent to the date of this deed and extensions or modifications thereof.

Upon request, made either personally or by mail, to certify by a writing, duly acknowledged, to Beneficiary or to any proposed assignee of the interest of Beneficiary, the amount of principal and interest then owing on the secured indebtedness, and whether or not any offsets or defenses exist against the secured indebtedness, within six days in case the request is made personally, or within ten days after the mailing if such request is made by mail.

9. *Repairs.* Beneficiary and any persons authorized by Beneficiary shall have the right to enter and inspect the premises at all reasonable times and access thereto shall be permitted for that purpose and for the purpose of making any repairs with interest thereon from the date of expenditure at the augmented rate called for in the note. All sums so expended and interest thereon shall be secured hereby. Provided, however, Beneficiary shall not be under any duty to make any repairs whatsoever. Beneficiary shall be the sole judge of what constitutes a good state of repairs or reasonable depreciation.

10. *Payments.* Any payment made in accordance with the terms of this deed by any person at any time liable for the payment of the whole or any part of the sums now or hereafter secured by this deed, or by any subsequent owner of the premises, or by any other persons whose interest in the premises might be prejudiced in the event of a failure to make such payment, or by any stockholder, officer, or director of a corporation which at any time may be liable for such payment, or may own or have such an interest in the premises, shall be deemed, as between Beneficiary and all persons who at any time may be liable as aforesaid or may own the premises, to have been made on behalf of all such persons.

11. *Costs.* To reimburse Beneficiary for Beneficiary's reasonable expenses, including attorneys' fees, incurred in any defense of the priority of the lien contained herein in any litigation in which it becomes necessary in the Beneficiary's judgment for the Beneficiary to participate because of its holding of this deed of trust and security agreement.

To the extent the proceeds of the aforesaid promissory note were utilized to take up and pay any outstanding balances upon notes and indebtedness taxes or other amounts secured by a lien or charge against the land above described, or any portion thereof, such amounts have been advanced by Beneficiary at the special instance and request of Grantors, and upon the representation by Grantors that such amounts are owing, are secured by good and valid liens against the above-described land, and with the express understanding and agreement that Beneficiary shall be subrogated to all rights, remedies, superior titles, liens and equities, rights and remedies owned and claimed by the owners and holders of the outstanding liens, charges, and indebtedness, however remote, so retired and paid from the proceeds of the above-described note, regardless of whether such liens, charges, or indebtedness are acquired by Beneficiary by assignment, or are expressly released by the holder thereof, upon receipt of such payment, each such lien and indebtedness and all remedies and process for the enforcement thereof in all instruments pertaining thereto being hereby expressly renewed and extended until the full recount of the indebtedness hereby accrued, and all renewals and extensions thereof shall be fully paid.

12. *Partial release.* Beneficiary, his heirs, and assigns, or any holder of any part of the indebtedness secured hereby, may release any portion or portions of the property or other security covered hereby, without affecting or impairing any liens, rights, or remedies of Beneficiary, or other holder of such indebtedness or a portion thereof, with respect to the remainder of such security. No indulgence or failure of Beneficiary, his heirs, or assigns, or other holder of the indebtedness secured hereby, or any part thereof, to properly or promptly enforce any right or remedy hereunder shall constitute any waiver or bar to the subsequent enforcement thereof, during the continuance of any such default or breach, or during any subsequent default or breach on the part of Grantors, or either of them.

13. *Duration.* This deed of trust shall remain in full force and effect until the full final and complete payment of all of the indebtedness and sums, payment of which is hereby secured, as above recited, as well as all sums hereafter owing by Grantors, or either of them, to Beneficiary or other holder or holders of the above-mentioned indebtedness, or any part thereof, during the existence hereof, whether same be evidenced by the original note or notes, any extension, renewal, or rearrangement thereof, by open account, or in whatever form any such indebtedness or obligation may take. Any other mortgage, lien, or security of any character, now or hereafter had or taken by Beneficiary, his heirs, or assigns, either on the property herein described, or on any other property, real or personal, as well as any endorsements, guaranties or the like, shall be supplemental to, and cumulative of this deed of trust, until this deed of trust is formally released, and the taking of any such additional security, of any character, now or hereafter, shall not be construed to in any manner waive the lien of this deed of trust or any right or remedy conferred hereunder. All constitutional, statutory, vendor's, contract, and other liens now or hereafter held, taken, or perfected by Beneficiary, his heirs, or assigns, on the property covered by this instrument are expressly retained and maintained in full force and effect. Each Grantor, for himself, further specifically waives all rights to any marshalling of assets, sale of properties in inverse order of alienation, or in any other particular order, and all other equitable claims which might otherwise be asserted by Grantors or those holding under Grantors, if more than one tract or parcel of land, or more than one character of property shall be held as security for the payment of any of the notes, indebtedness, or obligations, payment of which is secured by the terms of this deed of trust.

14. *Assignment of rentals.* Grantors hereby transfer, assign, and set over unto Beneficiary all rentals, leases, and other payments and compensation now or hereafter owing, or to become owing, for the use of the above-described property, or any part thereof, it being intended by Grantors that this shall be an absolute assignment unto Beneficiary, and Grantors do hereby irrevocably constitute and appoint Beneficiary as their true and lawful attorney in their name and stead to rent, lease, or let the property described herein, or any part thereof as hereinafter set forth; provided, however, that any person renting, leasing, hiring, or using such property shall be privileged to pay to the Grantors any rentals or other charges for the past or current month's use or hiring thereof until notified otherwise by Beneficiary, his heirs, or

assigns, in writing; but no prepayment of rentals or other compensation, covering more than one month in advance, shall be binding upon Beneficiary, his heirs, and assigns, and Beneficiary shall be entitled, upon any default in the payment of any of the obligations, payment of which is secured hereby, with or without having matured such obligations, to collect such rent or other compensation for the use of such property, directly from any tenant or lessee and apply same to the obligations secured hereby, in such order as Beneficiary shall determine, without waiving the right to proceed with other remedies provided hereunder, simultaneously. Upon any default hereunder, Beneficiary shall be entitled, at its option, to the appointment of a Receiver to take possession of such property, operate, receive, and collect all rentals therefrom pending foreclosure, hereby expressly waiving all defenses and objections thereto.

15. *Beneficiary in possession.* Beneficiary, his heirs, or assigns, after obtaining possession of the above-described property, or any part thereof, with or without legal process, and pending any foreclosure or sale thereof, and without prejudice to any rights of sale or other remedies available to Beneficiary hereunder, may rent or hire such property in his possession, and make application of any rentals collected therefrom first to the payment of the expenses of such renting, hiring, and collection of rentals, and then to the indebtedness and obligations secured hereby, in such order of priority as Beneficiary shall determine.

16. *No exemptions or encumbrances.* Grantors represent, covenant, and warrant to Beneficiary that none of the property above described constitutes exempt property, or property that is in any manner exempted from execution, forced sale, or other process, and all exemption laws in force in the State of Texas and in any state wherein the property covered hereby is situated, are hereby expressly waived in favor of the indebtedness and liens evidenced and secured hereby. Grantors further expressly represent, covenant, and warrant to Beneficiary, his heirs, and assigns, that they have never lived upon, used, or claimed, and that they do not now live upon, use, or claim, and have no present intention of ever living upon, using, or claiming all or any part of the above-described property, premises, or the improvements thereon, as their residence or business homestead, and they do hereby expressly waive, renounce, and release any and all homestead rights, claims, and other exemptions in and to the above described property which they may have or be entitled to, in and to such property under and by virtue of the laws and constitution of the State of Texas, or any other laws.

17. *Beneficiary not liable.* Beneficiary, his heirs, and assigns, shall not be liable for the care of upkeep of any property given as security hereunder, for failure to collect any rental or other income therefrom, for neglect or failure to sue or take any action in connection therewith, for any depreciation in the value thereof, whether before or after obtaining possession thereof, nor shall Beneficiary, his heirs, and assigns, agents or attorneys, be liable for any interest, rental, or other compensation for use or detention thereof. Any seizure or sale, with or without legal process, of all or any part or parts of the properties and premises above described (which is hereby made permissible) shall not exhaust any power, or affect the power to thereafter seize and sell the remainder, or any part thereof.

18. *Grantors' duty of care.* Grantors, and each of them, further promise and covenant they will care for and use all property described herein with care and caution, and keep same in a good state of repair and will not permit same to be neglected, damaged, injured, or depreciated, ordinary wear and tear excepted, and that Grantors will not place, permit, or suffer to be placed, any lien, voluntary or involuntary, of any character, upon or against such property or any part thereof, other than the liens to Beneficiary herein. Grantors further expressly covenant and agree that they will not use or permit the use of the above-described property and premises, or any part thereof, in violation of the revenue laws, custom laws, or any other laws, ordinances, rules, or regulations of the United States, the state wherein the property is situated, or any municipality or other political subdivision of any such state, or of any competent governmental authority having jurisdiction thereof.

19. *No usury.* All other provisions herein or in any other note or instrument of indebtedness secured hereby to the contrary notwithstanding, that nothing herein contained, nor in any such note or instrument secured hereby, shall be so construed, or shall so operate in any event, so as to require Grantors to pay interest on the indebtedness secured hereby, or on any other liability or indebtedness now existing, or hereafter to exist and secured hereby, at a rate greater than the

highest lawful rate of interest permitted by the laws then in force and governing this transaction for the period of time that same remains unpaid.

20. *Foreclosure; tenancy at will.* In the event of any foreclosure under the power granted in this deed of trust, the owner in possession of the above-described property, or any portion thereof, or any person holding by, through or under such owner, shall thereupon become the tenant at will of the purchaser at such foreclosure sale, and if such tenant shall refuse to surrender possession of such property upon demand, the purchaser at any such sale shall thereupon be entitled to institute and maintain the statutory action of forcible detainer, and procure a writ of possession thereunder.

21. *Failure of security.* If any part of the indebtedness or obligations purporting to be secured, evidenced by, or arising under, this deed of trust, or the above-described promissory note, cannot be or are not lawfully secured by the terms of this deed of trust, or if any part of the above-described property purported to be hereby conveyed in trust cannot be lawfully subject to the lien hereof to the full extent of such indebtedness and obligations, then, at, and to the extent of the beneficiary's election, and notwithstanding any prior application of payments, agreement, or rule of law to the contrary, all applications of payments on such indebtedness theretofore effected shall be held for naught, and all payments theretofore and thereafter made shall be applied on such indebtedness and obligations in the manner and order most advantageous to Beneficiary, being first applied in discharge of any portion of such indebtedness and obligations which is unsecured, or is least secured, by the terms of this deed of trust, and of the accrued interest on such portion or portions.

22. *Personal liability survives.* The Beneficiary may, at any time, without notice, release portions of the above-described property from the lien of this deed of trust, without affecting the personal liability of any person or persons for the payment of the full amount of the indebtedness and obligations then remaining unpaid, and without affecting the lien of this deed of trust upon the remainder of the property above described.

23. *Extension not deemed waiver.* Any indulgence by Beneficiary or extension of time for payment of any sums due hereunder, or acceptance by Beneficiary of any sum less than the amount due hereunder at the time of such payment shall not act as a waiver of any rights granted to Beneficiary herein, including the right to accelerate the maturity of the indebtedness secured hereby. No delay in the exercise or failure to exercise any remedy or right accruing on any default shall impair any such remedy or right or be construed as a waiver by Beneficiary of such default or an acquiescence therein, nor shall it affect the rights and remedies of Beneficiary upon any subsequent default of the same or a different nature.

24. *Waiver of notice of foreclosure.* Grantors own other real estate, and are familiar with and experienced in borrowing money upon the security of real estate, and particularly, the execution and delivery of Deeds of Trust and Security Agreements. Grantors have been advised by their counsel that certain recent decisions of the Supreme Court of the United States accord a delinquent debtor the opportunity of prior notice and/or a judicial hearing, after reasonable notice, before the creditor may be permitted to proceed with his statutory or contractual remedies, but that a debtor, with a full understanding of his rights, may, in advance, waive his rights to the opportunity of receiving prior notice of a proposed foreclosure sale or other foreclosure action by the creditor or the opportunity of a prior judicial hearing, after reasonable notice thereof, in the event the creditor proposes to undertake enforcement of his statutory or contractual remedies by reason of the default of the debtor, as specified above. **UNDERSIGNED GRANTORS FULLY UNDERSTAND THEIR RIGHTS IN THIS REGARD AND HEREBY WAIVE THEIR RIGHTS TO:**

(a) RECEIVE PRIOR NOTICE OF ANY PROPOSED SALE BY THE TRUSTEE OR OTHER FORECLOSURE SALE UNDER THIS DEED OF TRUST (AND SECURITY AGREEMENT) AND/OR

(b) THEIR RIGHT TO A PRIOR JUDICIAL HEARING, AFTER REASONABLE NOTICE, ATTENDANT TO THE ENFORCEMENT BY THE BENEFICIARY, ITS SUCCESSORS, OR ASSIGNS, OF ANY OF THE CONTRACTUAL OR STATUTORY REMEDIES OF THE BENEFICIARY, IN THE EVENT OF ANY

UNCORRECTED DEFAULT BY THE GRANTORS IN THE PERFORMANCE OF ANY OF THE TERMS, PROVISIONS, OR CONDITIONS OF THIS DEED OF TRUST (AND SECURITY AGREEMENT) OR THE ABOVE-DESCRIBED NOTE. Such waiver shall not be deemed to preclude Grantors from contesting the occurrence or nonoccurrence of any event of default.

25. *Late charge.* Grantors hereby agree to pay a "late charge" not to exceed four cents for each dollar of each payment more than ten days in arrears to cover the extra expense involved in handling delinquent payments.

26. *Status as construction mortgage.* This Deed of Trust (and Security Agreement) is a "Construction Mortgage," securing an obligation incurred for the construction of improvements upon and the acquisition of the above-described land.

27. *Default.* The term "default" or "event of default" whenever used herein shall mean any one or more of the following events:

(a) Failure by Grantors to pay the secured indebtedness or any part thereof, when and as the same shall become due and payable.

(b) Any warranty of Grantors herein contained, or contained in any instrument, transfer, conveyance, assignment, or loan agreement given with respect to the indebtedness, proving to be untrue or misleading in any material aspect.

(c) The premises being or becoming subject to actual or threatened waste, or any part thereof being removed, demolished, or materially altered so that the value of the premises becomes diminished except as provided for in the paragraph on condemnation.

(d) Any federal tax lien or claim of lien for labor or material being filed of record against Grantors or the premises and not removed by payment or bond within 30 days from date of recording.

(e) Any claim of priority to this deed by title, lien, or otherwise, not consented to by beneficiary being asserted in any legal or equitable proceeding which is not dismissed within 30 days after its institution.

(f) Any assignment made by Grantors for the benefit of creditors or appointment of a receiver, liquidator, or trustee of Grantor or of any of Grantors' property, or the filing of any petition for the bankruptcy, reorganization, or arrangement of Grantors pursuant to the Federal Bankruptcy Code or any similar statute (and, in respect of any such petition filed against Grantors and not consented to by Grantors, the failure to obtain dismissal of such petition within 50 days after the filing thereof) or adjudication of Grantors as a bankrupt or insolvent, or liquidation or dissolution of Grantors or expiration or revocation of Grantors' charter.

28. *Undertakings of grantor (debtor).* Without limiting any of the provisions of this instrument, the Grantors, as Debtors and being sometimes referred to herein as Debtors, expressly:

(a) Grant unto the holder of all indebtedness described herein, as Secured Party and referred to herein sometimes as Beneficiary, and sometimes as Secured Party, a security interest in all the properties hereinabove described (including both those now and those hereafter existing) to the full extent that same may be subject to the Uniform Commercial Code. The goods above described are or are to become fixtures on, or the timber above described is standing on, and all minerals or the like (including oil and gas) or accounts arising from sale thereof at the wellhead or minehead above mentioned are located on, the real property above described and this instrument is to be filed for record in the real estate records. In addition, Debtors grant unto Secured Party a security interest in and to all stoves, ovens, refrigerators, dishwashers, disposals, trash compactors, water softeners, intercoms, window coverings and draperies, light fixtures, shelving, counters, appliances of whatever kind or character, and display units now or hereafter located or situated in or

upon the real property described herein or the improvements located thereon.

(b) Agree that, in addition to any other remedies granted in this instrument to the Secured Party or Trustee, the Secured Party may, in the event of any default, proceed under the Uniform Commercial Code as to all or any part of the personal property (tangible or intangible) and fixtures included in the properties described herein, such portion of the properties being herein referred to as Collateral, all the rights, remedies, and powers of a secured party under the Uniform Commercial Code, including, without limitation, the right and power to sell, at public or private sale or sales, or otherwise dispose of, lease or utilize the Collateral and any part or parts thereof in any manner authorized or permitted under the Uniform Commercial Code after default by a debtor, and to apply the proceeds thereof toward payment of any costs and expenses and attorney's fees and legal expenses thereby incurred by Secured Party, and toward payment of the Debtors' obligations including the promissory note and all other indebtedness described in this instrument in such order or manner as Secured Party may elect. Among the rights of Secured Party in the event of default, and without limitation, Secured Party shall have the right to take possession of the Collateral and to enter upon any premises where same may be situated for such purpose without being deemed guilty of trespass and without liability for damages thereby occasioned, and to take any action deemed necessary or appropriate or desirable by Secured Party, at its option and in its discretion, to repair, refurbish, or otherwise prepare the Collateral for sale, lease or other use or disposition as herein authorized. To the extent permitted by law, Debtors expressly waive any notice of sale or other disposition of the Collateral and any other rights or remedies of a debtor or formalities prescribed by law relative to sale or disposition of the Collateral or exercise of any other right or remedy of Secured Party existing after default hereunder; and to the extent any such notice is required and cannot be waived, Debtors agree that if such notice is mailed, postage prepaid, to the Debtors at the address shown herein at least five days before the time of the sale or disposition such notice shall be deemed reasonable and shall fully satisfy any requirement for giving of such notice.

(c) Grant to the Secured Party the right, at its option, to transfer at any time, to itself or to its nominee, the Collateral, or any part thereof, and to receive the moneys, income, proceeds, or benefits attributable or accruing thereto, and to hold the same as security for the Debtors' obligations, or to apply it on the principal and interest or other amounts owing on any of the Debtors' obligations, whether or not then due, in such order or manner as Secured Party may elect. All rights to marshalling of assets of Debtors, including any such right with respect to the Collateral, are hereby waived.

(d) Covenant, stipulate, and agree that all recitals in any instrument of assignment or any other instrument executed by secured Party incident to sale, transfer, assignment, lease, or other disposition or utilization of the Collateral or any part thereof hereunder shall be full proof of the matters stated therein and no other proof shall be requisite to establish full legal propriety of the sale or other action taken by Secured Party or of any fact, condition, or thing incident thereto and all prerequisites of such sale or other action or of any fact, condition, or thing incident thereto shall be presumed conclusively to have been performed or to have occurred.

(e) Covenant and agree that Secured Party may require Debtors to assemble the Collateral and make it available to Secured Party at a place to be designated by Secured Party that is reasonably convenient to both parties. All expenses of retaking, holding, preparing for sale, lease or other use or disposition, selling, leasing, or otherwise using or disposing of the Collateral and the like which are incurred or paid by Secured Party as authorized or permitted hereunder, including also all attorney's fees, legal expenses, and costs, shall be added to the Debtors' obligations and the Debtors shall be liable therefor.

(f) Covenant and agree that the Secured Party may, at its election, at any time after delivery of this instrument, sign one or more copies of this instrument in order that such copies may be used as a Financing Statement under the Uniform Commercial Code. Such signature by the Secured Party may be placed between the last sentence of the instrument and the Debtors' acknowledgment or may follow the Debtors' acknowledgment. The Secured Party's signature need not be acknowledged and is not necessary to the effectiveness of this instrument as a deed of trust, mortgage, assignment, pledge, or security agreement.

29. *UCC financing statement.* Any photographic reproduction of this deed of trust which is signed by the Debtors may also serve as a Financing Statement under the Uniform Commercial Code between the Debtors and the Secured Party. Except for the security interest granted hereby in the Collateral, or as is herein expressly otherwise stated, Debtors are the owners and holders of the Collateral free of any adverse claim, security interest, or encumbrance, and Debtors will defend the Collateral against all claims and demands of any person at any time claiming the same or any interest therein. Except as may be expressly otherwise specifically stated therein, Debtors have not heretofore signed any financing statement and no financing statement signed by Debtors is now on file in any public office except those statements true and correct copies of which have been delivered to the Secured Party. So long as any amount remains unpaid on any indebtedness described in this deed of trust, debtors will not execute and there will not be filed in any public office any such financing statement or statements affecting the Collateral other than financing statements in favor of Secured Party hereunder, unless the prior written specific consent and approval of Secured Party shall have first been obtained. Debtors authorize Secured Party to file, in jurisdictions where this authorization will be given effect, a financing statement signed only by Secured Party covering the Collateral, and at the request of Secured Party, Debtors will join Secured Party in executing one or more financing statements, pursuant to the Uniform Commercial Code, in form satisfactory to Secured Party, and will pay the cost of filing the same or filing or recording this instrument, as a financing statement, in all public offices at any time and from time to time whenever filing or recording of any financing statement or of this instrument is deemed by Secured Party to be necessary or desirable.

30. *Miscellaneous; definitions.* (a) The term "Grantors" includes all Grantors hereinabove named and all endorsers, sureties, guarantors, other persons now or hereafter becoming liable, primarily, secondarily, or in any manner, for the indebtedness and obligations secured by the terms of this deed of trust, or any part thereof.

(b) "Beneficiary" includes not only the Beneficiary above named, but all persons who may hereafter acquire the indebtedness hereby secured, or any part or parts thereof.

(c) As used herein, the masculine gender includes the feminine and neuter; the singular and plural number shall include the other, unless otherwise expressly provided; and the word "person" and the words "Grantors" and "Beneficiary" shall include corporations, partnerships, associations, and other entities or groups, as well as natural persons, and the phrase "their heirs and assigns" or "his heirs and assigns" shall also include the successors and assigns of any such corporation, partnership, association, or other entity or group.

(d) The words "Grantors," "Beneficiary," "Trustee," and "person," whether singular or plural, shall also include the assignees, vendees, heirs, successors, and assigns of such Grantor, Beneficiary, Trustee, or person, whether natural or artificial.

Exhibit I

Guarantee

GUARANTEE made August 20, _____[year], by Henry S. Bick, Harold S. Gold, Alan Ross, Louis Freed, and Jerry L. McCoy, hereinafter called individually the Guarantor, and collectively the Guarantors, in favor of Cort Real Estate Limited Partnership-VI, an Illinois limited partnership, hereinafter called Cort.

Whereas:

A. Concurrently with the execution hereof, the following agreements have been entered into:

(1) That certain agreement which, as the same may be amended at any time or times hereafter, will be herein called the Sale Agreement, dated August 20, _____[year], by and between Chelsea Development Company, a general partnership, therein and hereinafter called the Seller, and Cort, as party of the second part, whereunder, among other things, the Seller agrees to sell to the Buyer certain real and personal property located in Harris County, Texas, commonly known as "Forest Apartments," and the Seller agrees to cause Chelsea Management Company, hereinafter called Management, to enter into a management agreement, as manager, with the Buyer, as owner, which, as the same may be amended at any time or times hereafter will be herein called Management Agreement, whereunder Management, as a manager, agrees to operate and manage the "Apartment House Property" (as defined in the Sale Agreement).

(2) Certain loan commitment which, as the same may be amended at any time hereafter, will be herein called Loan Commitment, dated September 1, _____[year] by and between Chelsea Financial Services, a general partnership, therein and hereinafter called Financial, and Cort whereunder, among other things, Financial agrees to purchase (or cause to be purchased or acquired) the "Purchase Price Note" (as defined in the Sale Agreement) from the Seller.

B. The Guarantors are partners of the Seller and the owner of all of the outstanding common stock of Management and of the partners of Financial.

C. The Sale Agreement requires the delivery of this Guarantee concurrently with the execution of the Sale Agreement.

Now, therefore, in consideration of the premises it is hereby agreed as follows:

1. *Unconditional guarantee.* The Guarantors, jointly and severally, hereby absolutely and unconditionally guarantee each and all of the obligations and liabilities of the Seller, Management, and Financial and of each successor or assign of the Seller, Management, and Financial of whatever kind or nature, under or in connection with the Sale Agreement or the Loan Commitment or any agreement, instrument, or document, hereinafter called the Collateral Agreement,

including, but not limited to, the Management Agreement, as such obligations may hereafter be amended or modified, regardless of whether the Guarantors have notice or knowledge of such amendment or modification, including, but without limitation on the generality of the foregoing, the obligations and liabilities of the Seller under the covenants, warranties, and indemnities set forth in the Sale Agreement, the obligations of the Seller to sell the Apartment House Property (as defined in the Sale Agreement) to Cort on the terms set forth in the Sale Agreement, the obligations and liabilities of Management as manager under the Management Agreement and the obligations of Financial to purchase or cause to be purchased the Purchase Price Note on the terms set forth in the Loan Commitment.

2. *Unconditional promise.* This Guarantee is in no way conditional or contingent and constitutes a valid, present, continuing, and absolute obligation of payment and performance of each of the Guarantors which shall not be impaired or affected in any way by any matter or thing whatsoever, including, but not limited to, the following (whether or not any of the Guarantors shall have any notice or knowledge of the same):

(a) Any extension or indulgence by Cort or by any other person, partnership, corporation, or entity in respect of the performance of or compliance with any obligation of the Seller, Management or Financial or of any other person, partnership, corporation, or entity, under or in connection with the Sale Agreement, Management Agreement, Loan Commitment, or any Collateral Agreement or under or in connection with any modification or amendment of the same;

(b) Any failure or omission to enforce any right, power, or remedy in respect of the Sale Agreement, Management Agreement, Loan Commitment, or Collateral Agreement or any such amendment or modification of any waiver of rights, powers, or remedies or of any default by the Seller, Management, or Financial or by any other person, partnership, corporation, or entity in respect to the Sale Agreement, Management Agreement, Loan Commitment, or Collateral Agreement or any such amendment or modification;

(c) Any receipt of security of any release of security;

(d) Any action or inaction by Cort or by any other person, partnership, corporation, or entity, in respect of the Sale Agreement, Management Agreement, Loan Commitment, or Collateral Agreement; or

(e) Any change in the name or identity of the Seller, Management, Financial, or Cort or any other person, partnership, corporation, or entity referred to in this Guarantee or any assignment or transfer of the Sale Agreement, Management Agreement, Loan Commitment, or Collateral Agreement or any rights or obligations thereunder.

The obligations of each Guarantor hereunder are absolute and unconditional. Without limitation on the obligations of each Guarantor hereunder, the Guarantors shall, if the Seller, Management, or Financial shall fail to comply with any of the obligations or liabilities covered by this Guarantee, immediately and without demand upon the Guarantors, the Seller, Management, or Financial, comply with and fulfill such obligation or liabilities of the Seller, Management, and Financial. The Guarantors hereby waive any right Guarantors may have to require Cort to proceed against the Seller, Management, or Financial or to pursue any other remedy in Cort's power which the Guarantors cannot pursue. However, the aggregate obligations of the Guarantors hereunder shall not be greater than the obligations of the Seller, Management, and/or Financial, as the case may be, reduced by any amounts which the Buyer may actually receive from the Seller or from letters of credit provided by the Seller.

3. *Other liability of guarantors.* Nothing contained herein shall be deemed to limit in any way the liability or obligations of any of the Guarantors in favor of Cort under or pursuant to any other agreement, instrument, contract, or document or by operation of laws, except as specified in the agreements which the Guarantors are guaranteeing, or any amendments or modifications thereof.

4. *Successors and assigns.* This Guarantee and the terms and provisions hereof shall inure to the benefit of Cort and of the successors and assigns of Cort and shall be binding upon each Guarantor and the individual and collective

successors and assigns of each Guarantor. Without limitation on the generality of the foregoing:

(a) No change in the name or identity of any person, partnership, corporation, or entity referred to in this Guarantee by reason of any matter or thing whatsoever shall impair or affect in any way the obligations of the Guarantors under this Guarantee.

(b) In the event Cort assigns the interest of Cort under the Sale Agreement, Management Agreement, Loan Commitment, or Collateral Agreement to any other person, partnership, corporation, or entity, then such assignee shall be entitled to the benefit of and may enforce the covenants and obligations of the Guarantors under this Guarantee.

5. *Miscellaneous.* The Section headings herein contained are for purposes of identification only and shall not be considered in construing this Guarantee. Time is of the essence of this Guarantee. If Cort obtains a judgment against any of the Guarantors by reason of breach of this Guarantee, a reasonable attorneys' fee as fixed by the court shall be included in such judgment.

6. *Notices.* Any notice, demand, or document which any party is required or may desire to give or deliver to or make upon any other party shall be in the same form and manner as is required by the applicable instrument or document being guaranteed, addressed as follows:

To Guarantors

60 Park Place Houston Texas 77057

and to:

Marvin and Marvin

24 Houston Natural Gas Building Houston Texas 77002

Attention: Jack Marvin, Esq.

To Cort

85 North La Salle Street Chicago Illinois 60611

and to:

Poer & Hall

65 West Street Los Angeles California 90015

Attention: Peter Poer, Esq.

subject to the right of any part to designate a different address for itself by notice similarly given. Any notice, demand, or document so given, delivered, or made by United States mail shall be deemed to have been given or delivered or made at the same time as is provided in the applicable instrument or document being guaranteed.

7. *Consequences of default.* In the event of any default under the terms of the Management Agreement, Cort shall not exercise its rights to terminate, accelerate, or assume the management of the Apartment House Property, so long as the Guarantors, or any of them, are otherwise complying with the terms and provisions of such Management Agreement in a timely manner.

The Guarantors have executed this Guarantee as of the day and year first above written.

26-22 Current Legal Forms for Real Estate FORM 22.12

FORM 22.12 Contract of sale--office building to be constructed by seller on turnkey basis

COMMENT

In this contract of sale and purchase, the seller is engaged in the real estate construction business. The purpose of the contract is to elicit the services of the seller in constructing an office building for the purchaser's law office. The building is to be erected on land which the purchaser is buying from the seller, after the building is constructed. In other words, it is being constructed on a turnkey basis, meaning that the purchaser does not close until all work is completed by the seller and the building is in "move in" condition, ready for occupancy and use by the purchaser.

The purchaser anticipates the steady growth of the law firm over an extended period of time; however, at the outset, the newly built structure will be too large for the firm's immediate needs. Accordingly, part of the building will be set aside initially for leasing to third parties. In addition, the contract contains a provision granting the seller the option to rent part of the building for its own use.

Under the terms of the contract, the seller will obtain construction financing, a debt which the purchaser will later assume when the building is completed. Such a provision will save the purchaser considerable time and expense upon the transfer of title since no mortgage "points" or mortgage tax will have to be paid by the purchaser. Nor will there be any delays in the transfer of title since the purchaser will not have to await mortgage approval.

The contract contains both a "time is of the essence" clause and a statement of penalties to be imposed on the seller if it fails to complete construction within the deadlines set forth in the document. These stringent provisions are necessary since the purchaser is required to vacate the rental space it currently occupies by a specified date. Its failure to do so will subject the purchaser to payment of "holdover" rent equal to twice its current rent. The seller agrees to cover that

expense if the new building is not ready on time.

FORM

AGREEMENT made this _____[day] day of _____[month], _____[year], between _____[name of entity] DEVELOPMENT, INC., a corporation existing under the laws of the State of _____[state], with offices for the transaction of business at _____[address]; (hereafter referred to as "Seller"), and the _____[name of entity] LAW FIRM, a partnership organized under the laws of the State of _____[state], with offices for the transaction of business at _____[address] (hereafter referred to as "Purchaser").

WITNESSETH:

WHEREAS, the Seller is the owner of a certain parcel of land commonly known as _____[insert address or other description of the property's location, including city, state and zip code] and more particularly described in Exhibit A, which is annexed hereto and made a part hereof; and

WHEREAS, the Seller is in the business of constructing office buildings; and

WHEREAS, Purchaser is in need of space for its law practice;

NOW, in consideration of the mutual promises contained herein, it is agreed as follows:

1. Construction

(a) Seller agrees to construct a first-class, four-story office building with a basement, in conformance with the plans and specifications set forth in Exhibit A, which is annexed hereto and made a part hereof. Said plans and specifications have been prepared by _____[name of architect], a licensed architect, and have been signed by both parties to indicate their acceptance thereof.

(b) Construction shall be commenced within _____[e.g., twenty (20)] days after execution of this Agreement and issuance of a building permit by the City of _____[city], State of _____[state]. Seller shall apply for the building permit within _____[e.g., forty-eight (48)] hours after execution of this Agreement. In the event that planning board approval is required, Seller shall take all steps necessary and proper to obtain such approval. If planning board approval is not obtained within _____[e.g., thirty (30)] days of the date of this Agreement, Purchaser may terminate this contract by giving written notice any time after the _____[e.g., thirty (30)] days has expired and before approval is received from the planning board.

(c) Construction shall be completed on or before _____[date]. Completion shall be deemed to have occurred when the City of _____[city] issues a final certificate of occupancy for the structure.

(d) In the event that completion does not occur by _____[insert same date as used in preceding paragraph], Seller shall be responsible for the following expenses of Purchaser if they are actually incurred by Purchaser:

(1) any rent charged by Purchaser's landlord in excess of that amount typically being paid by Purchaser on the date of execution of this Agreement;

- (2) the purchaser's cost of moving, but only in the event that more than one move is required;
- (3) the cost of storing items that cannot be moved directly into the new structure because said structure is not completed on time; and
- (4) other expenses directly caused by the late completion of the structure.

Seller shall also pay Purchaser a penalty of _____ Dollars (\$_____) per day for each day after _____ [insert same date as used in preceding paragraph], until completion occurs. Seller shall not be relieved of this obligation unless the failure to complete is caused by riot, war, natural disaster, or other causes beyond the reasonable control of Seller.

2. *Purchase.* Seller shall transfer title to the real property and premises, including the office building commonly known as _____ [insert address or other description of the property's location, including city, state and zip code] immediately upon completion of construction. Transfer shall be free and clear of all liens except the assumable construction mortgage from _____ [name of bank] Savings Bank.

3. *Purchase price.* The purchase price for the land and building shall be the sum of _____ Dollars (\$_____) [e.g., \$580,000]. Purchaser shall pay the said sum as follows: by depositing _____ Dollars (\$_____) [e.g., \$20,000] with the Seller's broker upon execution of this Agreement. The balance of the purchase price shall be paid upon transfer of title through the Purchaser's assumption of Seller's construction mortgage of _____ Dollars (\$_____) [e.g., \$400,000] and by the Purchaser paying _____ Dollars (\$_____) [e.g., \$160,000] in cash or by certified check.

4. *Adjustments.* Adjustments to the purchase price shall be made for property taxes, school taxes, and any other levies which are liens on the property on the date of closing and transfer of title. Such adjustments will be made on a per diem basis in favor of the party who has paid, or who will have to pay, said taxes. Interest on the _____ [name of bank] Savings Bank loan shall be adjusted in the same manner.

5. *Expenses.* Seller shall pay all expenses in connection with obtaining the building permit and planning board approval. Seller shall also pay all expenses in connection with obtaining the assumable construction loan. Seller shall further pay for deed stamps and for the filing fee on transfer of title. Purchaser shall pay all other recording and filing fees. Purchaser shall also pay for title insurance, if it desires such coverage.

6. *Survey.* Seller, at its expense, shall provide Purchaser with a survey of the land and building as they exist immediately before transfer of title to Purchaser. The survey shall show all improvements within the property's boundaries and all applicable setbacks. The survey shall be certified to Purchaser, to the Purchaser's title insurance company, and to _____ [name of bank] Savings Bank.

7. *Deed.* Seller shall provide a warranty deed with lien covenants to Purchaser. The deed shall contain a clause whereby Purchaser assumes Seller's obligation owed to _____ [name of bank] Savings Bank and holds Seller harmless therefor.

8. *Financing.* Seller has obtained a construction loan from _____ [name of bank] Savings Bank. This loan is assumable by Purchaser without further approval of _____ [name of bank] Savings Bank. At the closing and transfer of title, Seller shall provide Purchaser with a certification from _____ [name of bank] Savings Bank stating that no defaults on the loan have occurred and specifying the current principal amount of the loan. Copies of the note, mortgage and other loan documents shall be provided to Purchaser within _____

_____ [e.g., thirty (30)] days after execution of this Agreement.

9. *Default by Seller.* Seller shall be deemed to be in default upon the occurrence of any of the following events:

- (a) failure to complete construction by _____ [year], regardless of cause;
- (b) the filing of a petition in bankruptcy by or against Seller, whether voluntary or involuntary;
- (c) failure to pay, when due, any installment of principal or interest on the _____ [name of bank] loan, or the occurrence of any default under the _____ [name of bank] note, mortgage or building loan agreement;
- (d) failure to pay, when due, any tax levied against the subject real property;
- (e) failure to obtain a building permit or planning board approval by _____ [date];
- (f) failure to work on the construction site for any five (5) consecutive days after _____ [date];
- (g) breach of any covenant contained in this Agreement;
- (h) transfer of any interest in the property;
- (i) creation of any lien against the property other than the _____ [name of bank] mortgage; or
- (j) failure to comply with the plans and specifications contained in Exhibit A.

In the event of a default, Purchaser shall send written notice to Seller, advising of the nature of the default and demanding correction within _____ [e.g., three (3)] business days. In the event that the default is not corrected, Purchaser may exercise any of the following options:

- (k) terminate this Agreement and receive a full refund of the deposit;
- (l) demand transfer of title immediately (in such case, Seller shall be paid only for the value of work completed and the land, as calculated by the architect, and Purchaser shall make arrangements for completion of construction at its own expense; however, exercise of this option shall not relieve Seller of any penalties set forth in Paragraph 1(d) above); or
- (m) correct the default at Seller's expense.

10. *Default by Purchaser.* Purchaser shall be deemed to be in default upon the occurrence of any of the following events:

- (a) failure to make any payment due hereunder;
- (b) failure to execute the deed with the assumption clause; or
- (c) failure to perform any other act required hereunder.

In the event of a default, Seller shall send written notice to Purchaser, advising of the nature of the default and demanding correction within _____ [e.g., three (3)] business days. In the event that the default is not corrected, Seller may exercise any of the following options:

(d) terminate the agreement and keep the deposit of _____ Dollars (\$_____) [e.g., \$20,000] as liquidated damages;

(e) terminate the agreement and charge Purchaser for any loss which occurs upon sale of the land and building; or

(f) seek specific performance of the contract.

11. *Warranty.* Seller warrants the entire structure against any defects for a period of one year from the date of completion. Seller warrants the roof, the heating, ventilation and air conditioning (HVAC) system, and the plumbing against any defects for a period of _____ [e.g., five (5)] years from the date of completion. Seller agrees to make any warranty repairs within _____ [e.g., five (5)] days of receipt of notice of defect. If Seller fails to make such repairs in a timely fashion, Purchaser may arrange for such repairs to be made at Seller's expense. Seller shall not be responsible for any consequential damages.

12. *Option to lease.* Seller shall have the option to lease the _____ [e.g., fourth] floor in the subject building for a term of _____ [e.g., three (3)] years from the date of completion. Seller shall give Purchaser notice of intent to exercise the option at least _____ [e.g., sixty (60)] days prior to _____ [date]. The rent shall be _____ Dollars (\$_____) per square foot for a maximum of _____ [insert number] square feet. Seller shall be responsible for payment of all separately metered utilities supplied directly to the leased space. Seller may freely sublet any or all space covered by this option, but Seller shall remain liable for the rent. Seller shall pay for all utilities associated with said space. Seller shall sign a lease containing the above provisions and other generally accepted commercial lease provisions as reasonably determined by Seller and Purchaser, and their respective counsel.

13. *Turnkey Condition.* Seller shall deliver the premises to Purchaser in "move in" condition, with all construction debris removed and the premises thoroughly vacuumed and dusted.

14. *Entire agreement.* This Agreement, together with the other written agreements and instruments executed concurrently herewith or pursuant to the provisions hereof, contains the entire agreement between the parties respecting the matters herein set forth and supersedes all prior agreements between them respecting such matters.

15. *Counterparts.* This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. At the trial of any matter arising under this Agreement, only one counterpart need be produced.

16. *Headings.* Paragraph headings are for purposes of convenience and identification only and shall not be used to interpret or construe this Agreement.

17. *Waivers.* Except as herein expressly provided, no waiver by the Purchaser of any breach of this Agreement, or of any breach of any warranty or representation hereunder, by the Seller shall be deemed to be a waiver of any other breach by the Seller of any kind or nature (whether preceding or succeeding the first breach and whether or not of the same or similar nature).

No acceptance of payment or performance by the Purchaser after any such breach by the Seller shall be deemed to be a waiver of any breach of this Agreement, or of any representation or warranty hereunder, by the Seller, regardless of whether the Purchaser knows of the existence of the breach when it accepts such payment or performance.

No failure by either party to exercise any right it may have under this Agreement or under law upon the other's default, and no delay in the exercise of that right, shall prevent it from exercising the right whenever the other party continues to

be in default. No such failure or delay shall operate as a waiver of any default, or as a modification with respect to the provisions of this Agreement.

18. *Gender and number.* Whenever the singular or plural number, or the masculine, feminine or neuter gender, is used herein, it shall equally include the other(s).

19. *Notices.* Any notice which any party is required or may desire to give hereunder shall be in writing and may be personally delivered, transmitted by facsimile machine, or delivered by the United States Postal service or private delivery service to the above addresses. Notice is deemed given when received.

20. *Governing law.* This Agreement shall be construed and enforced in accordance with the laws of the State of _____[state].

21. *Binding effect.* This Agreement shall be binding upon, and inure to the benefit of, all the parties, their respective heirs, representatives, successors and assigns.

22. *Modifications.* This Agreement may be modified only by a written document signed by representatives of both parties. A purported oral modification shall not be effective.

The parties hereto have set their hands and seals the day and year first above written.

Current Legal Forms for Real Estate

Chapter 22 DEVELOPMENT AND SUBDIVISION

Part IV. FORMS

A. ACQUISITIONS FOR DEVELOPMENT AND SUBDIVISION

26-22 Current Legal Forms for Real Estate FORM 22.13

FORM 22.13 Contract of sale of land for development--specified acreage excluded from mortgage--remainder subject to partial releases

COMMENT

This form is a basic contract for the sale of five parcels of land for development and subdivision. In many respects, its provisions cover the same items as those involved in option transactions. The objective here, however, is to permit the developer to free parts of the property from the lien of the purchase money mortgage as these parts are improved and become ready for resale.

Under this contract part of the property is to be excluded from the purchase money mortgage in consideration for the deposit money and the down payment at the closing. The balance of the property is to be controlled by the release provisions of the mortgage. The parties recognize that these release provisions will have to comply with the regulations issued by the governmental agency in charge of protecting the ultimate purchasers of subdivision homes. In addition, the seller agrees to join with the developer in any platting for subdivision purposes so that there is a proper dedication of streets, easements, and other public uses.

The purchase money mortgage in this transaction is subordinate to an existing first mortgage on each of the five parcels covered by the contract. The developer will have to arrange to satisfy the first mortgage on each separate parcel as soon as he is ready to resell any of the property in that parcel.

Use of partial releases.

Releases from the purchase money mortgage may also be obtained on the payment of a specified amount per acre or per platted homesite. These release amounts, however, are not uniform. In the case of the more valuable parcel, a larger amount per acre must be paid for releases.

FORM

AGREEMENT entered into November 10, _____[year], between Frank Haley, (the "Seller"), and Edward Smith, (the "Purchaser").

In consideration of the covenants hereinafter contained, the parties agree as follows:

1. *Sale.* The Seller shall sell and the Purchaser shall purchase five parcels of land situated in the County of Lee, State of Florida, more particularly described as follows:

[Insert description]

2. *Purchase price.* The purchase price is \$300,000, payable by Purchaser in the following manner:

(a) \$30,000 in cash simultaneously with the execution and delivery of this agreement. This sum shall be held in escrow by the Central National Bank, Fort Myers, Florida, as Escrow Agent, as a deposit to bind this agreement (the "Deposit").

(b) \$35,000 at the time of closing as hereinafter provided.

(c) \$150,000 by assuming the outstanding principal balance on the five first mortgages covering each of the parcels, the details of which are set forth in Schedule A attached hereto and made part hereof.

(d) The balance of the purchase price, \$85,000, shall be evidenced by a purchase money second mortgage and note in customary form, which shall also provide for a 30-day grace period, notice of payments due, and release provisions, as hereinafter set forth. The note shall be payable in four equal annual payments after date thereof, with interest at 8 percent per year payable semi-annually. The note shall be secured by all of the five parcels of land with the exception of 170 acres which shall be excluded from the terms and conditions of the mortgage and note but which shall not be Parcel 2, Parcel 3, or Parcel 4. The 170 acres shall be contiguous, insofar as is possible. The Purchaser may at any time prepay all or any part of the mortgage and note without penalty. In the event of a default of the mortgage and note, the Seller will look for recovery only to the property, and no deficiency judgment will be taken against the Purchaser.

3. *Taxes, interest, and expenses.* Taxes, interest, and other items of expenses of sale shall be prorated as of the date of closing. The Purchaser shall pay for all documentary stamps on the purchase money mortgage and note. The Seller shall pay the intangible tax on the mortgage and for the documentary stamps on the deed. Ad valorem taxes and interest due on first mortgages shall also be prorated as of the date of closing.

4. *Abstract of title.* The Seller shall furnish to the Purchaser a current abstract of title or title insurance within 30 days from the date of the execution of this agreement, showing title to be good and marketable or insurable without exceptions except as to taxes for the current year and the mortgages set forth in Schedule A. The Purchaser shall have 20 days after delivery of the abstract or title insurance commitment within which to notify the Seller of any defects in the title. If the Seller is unable to furnish evidence of good and marketable or insurable title, the Purchaser may elect to have the Deposit repaid to him or may take such other action as may be available to him in accordance with law. This transaction shall close and the Purchaser shall pay the balance of the purchase price and execute all papers required for the completion of this purchase on or before August 1, _____[year]. The transaction shall be closed at the office of Charles Harris, Attorney at Law, 100 Broadway, Fort Myers, Florida. If for any reason, other than failure of title, the Purchaser does not close this transaction as herein provided, the Seller shall retain the Deposit as liquidated damages.

5. *Environmental site assessment.* The parties hereto acknowledge that the Purchaser has had the opportunity to complete an environmental site assessment prior to entering into this agreement. Purchaser waives any objection to the condition of the property based on any environmental concerns of any nature whatsoever.

6. *Release and other provisions in purchase money mortgage.* In addition to the usual and customary covenants, the purchase money mortgage shall also provide that the Seller shall release property from the terms and conditions of the mortgage and note upon the following conditions:

- (a) 170 acres shall be excluded from the mortgage at the time of closing.
- (b) Property selected by the Purchaser shall be released at the rate of \$150 per acre, provided that all released property within any section shall be contiguous, and further that the release price for property in Parcel 4 shall be \$500 per acre.
- (c) If the Purchaser causes a plat to be recorded in the Public Records of Lee County, Florida, subdividing the property into lots, the Seller shall release them upon the payment of \$125 for each lot released. A lot shall consist of a homesite comprising two lots approximately 40 by 125 feet each.
- (d) For each principal payment made under the mortgage and note, the Purchaser shall be entitled to a pro rata release of either acreage or homesite on the basis set forth above.
- (e) If the property is platted, the Seller shall join in the platting for the purpose of dedicating all streets, easements, canals, or other public uses or ways on such plat.
- (f) All payments made for releases shall be applied toward the next principal payment due under the mortgage and note.
- (g) All releases shall be prepared and recorded at the Purchaser's expense.

7. *Entire agreement.* This agreement supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

8. *Notices.* All notices or other documents under this agreement shall be in writing and delivered personally or mailed by certified mail, postage prepaid, addressed to the parties at their last known addresses.

9. *Non-waiver.* No delay or failure by either party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

10. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

11. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of Florida.

12. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

13. *Binding effect.* This agreement shall be binding upon and inure to the benefit of the parties, and their respective heirs, legal representatives, successors, and assigns.

14. *Time of essence.* Time is expressly declared to be the essence of this agreement.

The parties have set their hands and seals on this the _____ [day] day of
_____ [month], _____ [year].

Signed, sealed, and delivered:

Current Legal Forms for Real Estate

Chapter 22 DEVELOPMENT AND SUBDIVISION

Part IV. FORMS

A. ACQUISITIONS FOR DEVELOPMENT AND SUBDIVISION

26-22 Current Legal Forms for Real Estate FORM 22.14

FORM 22.14 Contract of sale of land for development--use of trustee--general release provisions--special release provisions

COMMENT

This is a transaction for the sale of development property in those jurisdictions where deferred purchase money obligations are secured by trust arrangements rather than mortgage liens. Two separate properties are involved in this transaction: one is a parcel already in the possession of the trustee and held for the benefit of the seller (as the equitable owner) and a third party (as mortgagee); the other is an unencumbered parcel owned by the seller. Both parcels will be held by the trustee under the terms of this agreement. However, the outstanding indebtedness on the first parcel remains a prior lien. This indebtedness is not passed on to the buyer. Rather, the seller agrees to perform all obligations with respect to this indebtedness and to discharge it out of his own funds when it becomes due.

As in most development projects, the buyer is given the right to release parts of the property from the terms of the trust by paying specific sums against the deferred portion of the purchase price. These sums generally go to the owner. Here, however, because of the existing lien on the first parcel, all sums paid to obtain releases from that lien are to be paid to the mortgagee of that parcel. All other sums paid for releases, as well as installments due on the deferred portion of the purchase price, are to be paid by the trustee to the seller.

Restriction on construction.

Under most subdivision programs the developer (the buyer) may construct improvements on the purchased property and may defer obtaining a release from the purchase money mortgage until he is ready to resell the improved property to the homeowner. Under this agreement there is a basic provision prohibiting any construction of dwellings on property that has not been released from

the terms of the trust. However, to compensate for this provision and to enable the developer to get his program under way, the trustee is authorized to release 35 of the lots solely to enable the developer to obtain construction mortgages, provided that the lots are immediately conveyed back to the trust. In addition, the lots are to be reconveyed to the developer so that a sale can be made to the ultimate homeowner, but only on condition that the release price for the lots is paid to the trustee when the sale to the homeowner is consummated (see Paragraph 7).

The developer is also given the right to instruct the trustee to sell unimproved lots or parcels, provided the price in each case is sufficient to pay the release amount due to the seller on that lot or parcel, and provided the price is due no later than the date on which the last payment of purchase price is to be made by the developer to the seller. This appears at Paragraph 8.

FORM

PURCHASE AND TRUST AGREEMENT made and entered into August 20, _____[year], by and among Southwestern Properties, Inc., an Arizona corporation, (the "Seller"), Mason Construction Co., an Arizona corporation, (the "Buyer") and Desert Title and Trust Company, an Arizona corporation, (the "Trustee").

RECITALS

Title to the property described as Parcel 1 in Exhibit A, which is attached hereto and made a part hereof, is held by the Trustee pursuant to the terms and conditions contained in Trust No. 2000.

Title to the property described in Parcel 2 in Exhibit A is held by the Seller.

The Buyer desires to purchase Parcel 1 and Parcel 2 (collectively the "Property"), and the Seller desires to sell the Property upon the terms and conditions hereinafter set forth.

Therefore, in consideration of the mutual covenants hereinafter set forth, the parties agree as follows:

1. *Trust of property.* The Seller shall convey to the Trustee, by separate instrument, Parcel 2 of the Property described in Exhibit A in trust for the purposes set forth below. Until this trust is terminated, the legal title to all of the Property shall be vested in the Trustee, except as hereinafter provided, and no legal interest or title in and to the Property shall be vested in either the Seller or the Buyer. The rights of the Seller and Buyer consist only of the right to enforce performance of the terms and conditions of this agreement. The Property together with all of the proceeds from its sale to the Buyer, and all moneys that may be paid to the Trustee under the provisions hereof, shall constitute and be designated the "Trust Estate."

2. *Purpose of trust.* The trust herein provided for is established for the purpose of consummating the sale of the Property to the Buyer in a single transaction, and for such purpose the Trustee shall have the powers, rights, and obligations provided for herein.

3. *Purchase price.* The purchase price to be paid by the Buyer to the Trustee for the Seller's account shall be \$500,000, payable as follows:

(a) \$10,000 upon the execution of this agreement, the receipt of which is acknowledged.

(b) \$25,000 each year on the anniversary date of this agreement, until and including August 20,

_____[year].

(c) The balance payable on or before July 31, _____[year], with interest at the rate of 12 percent per year from the date hereof, on the unpaid balance, and with no premium or penalty for prepayment of all or part of the principal sum at any time.

4. *Outstanding indebtedness.* The Buyer understands that Parcel 1 of the Property is subject to the above mentioned Trust No. 2000 of the Title Company (the "Smith Trust") under which the Seller and a third party are respectively designated Second Beneficiary and First Beneficiary. The Seller warrants that the present total indebtedness against Parcel 1 of the Property under the Smith Trust is \$10,000 plus interest at 8 percent per year on the unpaid balance, and that the debt is payable in two annual installments: \$50,000 plus interest on July 1, _____[year], and \$50,000 plus interest on July 1, _____[year]. The Seller also warrants that no default has occurred nor has any act occurred that would constitute a default under Trust No. 2000. The Seller further agrees to faithfully perform and discharge all of the Trust's duties, liabilities, and obligations and to hold the Buyer harmless with respect thereto.

5. *Option to subdivide.* The Buyer may cause the Property to be subdivided and improved, provided that any subdivision plat complies with all existing governmental rules and regulations. The Trustee may dedicate all roads, alleys, rights-of-way, parkways, and easements necessary for such subdivision, and convey the dedicated portions to the County of Maricopa or the City of Phoenix. The Trustee may also file for record all restrictions submitted by the Buyer, provided they do not limit the sale or occupancy of the Property on account of race, color, or creed. All expenses in connection with such subdividing and improvement, including, but not limited to, installing streets, water lines, or other public utilities shall be the Buyer's obligation.

6. *Release price of lots.* Whenever the Buyer is not in default under this agreement, any lots into which the Property has been subdivided shall be released from any further right, title, interest, claim or demand of the Seller upon payment to the Trustee for the Seller's benefit of \$5,000 per gross acre of the Property described in Parcel 1, and \$6,000 per gross acre of the Property described in Parcel 2. All the lots in each parcel will be given a gross acreage figure, and the amount to be paid for their release shall be determined on the basis of the release price per acre specified above. The Buyer shall furnish for each lot in each parcel a schedule of the gross acreage amounts, to be made by a registered civil engineer. In addition to the release prices provided above, accrued interest shall be paid with respect to the principal balance represented thereby for each lot so released. All annual payments required to be made hereunder are to apply toward the release of lots in accordance with the release prices.

7. *Release of lots for construction mortgages.* If the Buyer is not in default in the payment of the purchase price, or in the performance of any other obligation under this agreement, the Trustee may convey 35 of the lots into which the Property shall have been subdivided to the Buyer or its nominee, either singly or in groups. Such conveyance shall be for the purpose of enabling construction mortgages (including any refinancing, renewal, or increase thereof) to be placed upon the lot or lots for the purpose of obtaining financing for the construction of homes, provided an escrow is set up in the Trustee's Escrow Department wherein such lot or lots will be immediately reconveyed to the Trustee after the placing of the construction mortgage of record (including any refinancing, renewal, or increase thereof) without any recorded liens or encumbrances having intervened other than the construction mortgage. The Trustee shall have no liability or responsibility for mechanic's or materialmen's liens which may attach to the property subject to transfer under this paragraph. Such lot or lots shall be reconveyed to the Buyer or its nominee whenever an escrow has been set up in the Trustee's Escrow Department under which the grantee in such deed is purchasing the Property, provided the escrow instructions require the payment of the release price for the lot or lots to the Trustee not later than the final distribution of funds on the sale to an approved buyer in such escrow. This amount must be paid not later than the date on or before which the purchase price for all of the trust property is to be paid in full. If payment is not so made, the Trustee shall thereafter hold any such lot or lots, together with all improvements thereon, subject to the forfeiture provisions set forth in this agreement covering default by the Buyer.

8. *Sale of lots to third parties.* The Buyer, if not in default in any obligation under this agreement, may instruct the Trustee to sell any of the lots into which the property has been subdivided, or any parcel of the trust property which has not been platted or subdivided, for cash or part cash with the balance on deferred payment. However, until the release price of the specified lot or lots as set out in Paragraph 6 has been paid in full, the sale price of any such lot or parcel sold on the deferred payment plan of purchase, or for cash, (excluding interest thereon), shall be sufficient to pay the release price due the Seller hereunder and expenses of sale, including, but not limited to, any real estate commission involved in such sale. Any such agreement for sale shall provide that the entire purchase price shall be payable in full not later than July 31, _____[year]. Any such agreement for sale shall be binding on the Seller, even though subsequently it may effect a forfeiture and cancellation as set forth in Paragraph 13. Upon completion of all payments and performance of all the terms and provisions required to be made or performed by the vendee of any agreement for sale entered into by the Trustee pursuant to the provisions hereof, the Trustee shall execute and deliver a deed to the vendee conveying the title to the parcel or lot sold free of this Trust and any lien or encumbrance created hereby.

9. *Disposition of trust money.* All moneys received by the Trustee under the provisions hereof shall be promptly paid and applied by it as follows:

(a) To the First Beneficiary of Trust No. 2000, the release price necessary to release any such lot to the Second Beneficiary thereunder (the Seller herein).

(b) To the Seller, all payments made for the conveyance out of the Property of lots or parcels either to the Buyer or to third parties as specified in Paragraph 8, and all payments made by the Seller into the Trust for the Seller's benefit until the Buyer's indebtedness to the Seller has been paid in full. In no event, however, shall the Trustee be entitled to receive on behalf of the Seller more than the specified price for each lot conveyed, sold, or released from this Trust.

(c) To the Trustee, its fees, costs, and expenses.

(d) All other moneys received by the Trust shall be paid to the Buyer.

10. *Title policy.* The Seller shall procure an owner's policy of title insurance issued by the Trustee at Phoenix, Arizona, insuring the Buyer in the full amount of the purchase price, subject only to the liens, encumbrances, and normal printed exceptions shown on the Trustee's Preliminary Title Report Number 25000.

11. *Taxes and assessments.* The Buyer shall pay all taxes, assessments, and special assessments, including but not limited to, water district assessments, and all other impositions of every kind and nature which may be levied, assessed, or imposed upon the property or any part thereof, or on any buildings or improvements situated thereon. Such payments shall be paid as they become due, but shall be prorated for the year _____[year] as of the date hereof. The Buyer shall advise the Trustee in writing on or before the due date for the payment of each installment of taxes, assessments, and special assessments that payment has been properly made including any penalties or interest thereon. The Seller may pay any delinquent taxes or assessments, and all amounts so expended shall be payable by the Buyer upon demand and shall be added to the purchase price hereunder and bear interest at 8 percent per year until paid.

12. *Trustee's fees.* As compensation for its services under this Trust, the Trustee shall receive its usual and customary trust fees and charges, 70 percent of the existing publicized owner's rates on title insurance policies and escrow charges at the date hereof, an acceptance fee of \$400, and existing collection charges, all of which the Buyer shall pay upon demand. However, the Trustee may retain the above fees and charges from any funds that would otherwise be payable to the Buyer under this Trust.

13. *Default by buyer.* If the Buyer defaults in the payment of the purchase price as specified in Paragraph 3, and the

default continues for a period of 30 days after the Trustee gives written notice thereof to the Buyer, the Seller may enforce a cancellation and forfeiture of the interests of the Buyer under this agreement. Any such cancellation and forfeiture shall be made in the following manner: By depositing in the United States mail, postage prepaid, by certified mail, the written declaration of cancellation and forfeiture, addressed to the Buyer at 100 West Adams Street, Phoenix, Arizona, and to the Trustee at 200 West Monroe Street, Phoenix, Arizona. Upon such declaration of cancellation and forfeiture by the Seller, all rights, estates, and interests hereby created or then existing in favor of the Buyer, or anyone who claims under it, in and to all portions of the Property not released to the Buyer or to third parties (as provided in Paragraph 8) prior thereto shall terminate, and become null and void, and all equitable and legal interests and estates in all the unreleased portions of the Property, together with all sums of money theretofore paid by the Buyer shall revert to and become the sole property of the Trustee for the Seller's benefit, free and clear of any right, title, lien, or claim of the Buyer. The Seller's rights to retain all sums previously received by it under this agreement, and to declare such cancellation and forfeiture and to receive all portions of the Property not released to the Buyer prior thereto, shall be its sole and exclusive remedy in the event of default by the Buyer, and the Buyer shall not be liable for any deficiency or for the payment of any balance due on the purchase price. In the event of a cancellation and forfeiture of the Buyer's rights, the Trustee shall upon written demand of the Seller and after payment of all the Trustee's costs, fees, expenses, and advances, convey the remaining trust property or any part thereof to the Seller or its nominee, or shall otherwise handle, manage, or dispose of the Property as the Seller may direct.

14. *Liability of trustee.* The Trustee shall not be liable to the Seller, the Buyer, or to anyone else for any act or omission to act under this agreement or the administration of the Trust Estate. Its sole liability hereunder shall be to act for and pay over to the Seller and the Buyer all sums to which they shall become entitled hereunder.

15. *Protection of trustee.* The Seller and the Buyer shall fully pay, indemnify, protect, save and hold harmless the Trustee from any and all suits, claims, demands, judgments, costs, and expenses, including attorney's fees and other obligations and liabilities of every kind and character that the Trustee may for any reason or at any time suffer, incur, or expend by reason of or in connection with this agreement or the administration thereof, other than through its own misconduct or willful neglect. As between the Seller and the Buyer, the obligations of the parties in this paragraph are the obligations of the Buyer. However, the Trustee may look to both of the parties or any property or funds in its hands to effect compliance therewith and to indemnify it and hold it harmless on account of any failure to make any payment or to do any act herein set forth.

16. *Adverse acts of buyer.* Until the Seller and the Trustee are fully paid hereunder, the Buyer will not create or permit the creation of, any lien against the trust property or any part thereof upon which the release price has not been paid, subject, however, to the provisions of Paragraph 8.

17. *Termination of trust.* This agreement shall terminate upon the conveyance of all of the trust property and the distribution of all funds in the hands of the Trustee to the person or persons entitled thereto in accordance with the terms hereof.

18. *Statements by trustee.* The Seller and the Buyer shall be furnished statements of account and statements of settlement from the Trustee annually; provided, however, that such statements shall supplement and not duplicate the preceding ones. The Trustee's accounting records shall at all reasonable times be open to the inspection of the Seller and the Buyer.

19. *Entire agreement.* The Seller and the Buyer certify that this agreement fully and correctly sets out the trust and the agreement between the parties and the conditions under which the Trustee is to hold, manage, or dispose of the property. There are no other understandings or agreements between the parties.

20. *Arbitration.* Any dispute or controversy arising between the parties involving the interpretation or application of any provision of this agreement, or arising out of this agreement, shall be submitted to and determined by arbitration in

accordance with the rules of the American Arbitration Association or of any other comparable organization if the American Arbitration Association is not then in existence. The arbitration award shall be subject to enforcement in any court of competent jurisdiction.

21. *Other documents.* Each party shall perform all such other acts and things and execute such other and further documents as may be necessary to carry out the intent and purposes of this agreement.

22. *Instructions to trustee.* Wherever in this instrument it is provided that the Trustee shall do a certain act upon the request or instruction of any party, that act, or a document evidencing it, shall be in the form and done in the manner satisfactory to the Trustee.

23. *Conveyances to third parties.* All property conveyed out of this Trust to persons not parties to this agreement shall be free of this Trust, and no purchaser shall in any way be obligated to see to the application of the proceeds by the Trustee.

24. *Possession of property.* The Buyer, upon written request of the Trustee and consent of the Seller, shall be allowed possession of the Property for the purpose of its development and sale during the term of this agreement. However, except as provided in Paragraph 7, no construction of dwellings shall begin until the property on which construction is contemplated has been released from this agreement, unless with the Seller's written consent and approval. The Buyer, however, shall be permitted to go upon the Property, without having received the Seller's written consent and approval, for the purpose of preparing surveys, master planning, engineering, and making soil tests as long as such work does not unreasonably interfere with the Seller's peaceful possession of the property.

25. *Trust number.* This agreement shall be known as Trust Number 5525 upon the records of the Trustee.

26. *Notices.* All notices or other documents under this agreement shall be in writing and delivered personally or mailed by certified mail, postage prepaid, addressed to the parties at their last known addresses.

27. *Non-waiver.* No delay or failure by a party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

28. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

29. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of Arizona.

30. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

31. *Binding effect.* This agreement shall be binding upon and inure to the benefit of the parties, and their respective legal representatives, successors, and assigns.

32. *Time of essence.* Time is expressly declared to be the essence of this agreement.

In witness whereof the Trustee, the Seller, and the Buyer have caused this instrument to be duly executed by their respective officers thereto duly authorized.

Chapter 22 DEVELOPMENT AND SUBDIVISION

Part IV. FORMS

A. ACQUISITIONS FOR DEVELOPMENT AND SUBDIVISION

26-22 Current Legal Forms for Real Estate FORM 22.15

FORM 22.15 Contract of sale and leaseback of land for development--trustee holds property--seller as beneficiary--installment payments of purchase price

COMMENT

This is another agreement for the sale of property on a deferred payment basis where the security device is a trust created by the seller and the buyer. In this type of transaction, the seller is the beneficiary and the purchaser is the trustor. Generally, a financial institution or title company acts as trustee. Payments of the purchase price, releases, platting and required recordations, installation of utilities, and other incidentals of the transaction are performed through the trustee as if he were an escrow agent. Legal title is conveyed to the purchaser as the property is released from the debt to the seller. The trustee is an agent of the parties and does not have to file a fiduciary return.

Advantages of sale and leaseback.

In many long-term land development programs, the landowner will frequently reserve for himself some temporary rights in the property. The technique used in this transaction to secure such rights for the landowner is a sale and leaseback. This technique offers a number of advantages to both parties.

From the seller's standpoint, the sale provides some immediate cash. At the same time, the leaseback insures the continued use of the property by the seller as the lessee. Thus, in this case, the seller may continue his farming operations on a gradually decreasing scale as the property is developed by the purchaser. The rent paid by the seller for the use of the land will be deductible for income tax purposes.

For the purchaser, a leaseback to the seller will provide temporary income from property that

would otherwise be unproductive. As soon as the purchaser is ready to develop a specific parcel, he may, upon reasonable notice and upon the required payment, release that parcel from the burdens of the trust and the lease. As in all similar development programs, a schedule for partial releases from the purchase-money debt is a basic feature of the transaction. But in this case, development cannot even be begun on any parcel until that parcel has been released from the trust.

FORM

PURCHASE AND TRUST AGREEMENT, entered, July 15, _____[year], by and among Camelback Title Guarantee & Trust Company, an Arizona corporation (the "Trustee"); and Farnsworth Company, a California corporation (the "Beneficiary"); and Mountain Development Co., an Arizona corporation (the "Trustor").

Recitals The trustee has received a deed from the Beneficiary conveying to it, as Trustee, the bare legal title to that certain real property (excluding all crops now growing on it), located in Maricopa County, Arizona, known as Sunrise Ranch, and described in Schedule I, which is attached to this agreement and made a part of it (the "property"),

The Trustor desires to purchase the property from the Beneficiary and the Beneficiary desires to sell the property to the Trustor upon the terms and conditions set forth herein, and

The Trustee holds title to all of the property in trust for the uses and purposes and upon the terms, conditions, and covenants contained in this agreement,

Therefore, in consideration of the mutual covenants and agreements set forth to be by them kept and performed, the parties agree as follows:

1. *Sale.* The Beneficiary agrees to sell to the Trustor the property for the full sum of \$1,500,000, payable at the time and in the manner set forth, and the Trustor agrees to purchase the property from the Beneficiary for that sum, payable as herein set forth.

2. *Trust estate:*

(a) The Trustor assigns and conveys to the Trustee all of the property described in Schedule I (excluding all crops now growing on it). Title to the property, together with all of the proceeds from this sale to the Trustor and all moneys that may be paid to the Trustee under these provisions, shall constitute and be designated the Trust Estate. Throughout the term of this agreement and the duration of the Trust hereby created, the legal title to the property shall be vested in the Trustee, except as herein provided, and no legal interest in the property shall be vested in either the Beneficiary or the Trustor. The rights of the Beneficiary and the Trustor under this agreement are personal, consisting only of the right to enforce performance on the terms and conditions by the other parties. This agreement, and the rights under it, shall not be assignable for any purpose by either the Beneficiary or the Trustor.

(b) The Beneficiary reserves the right to itself, its employees, agents and invitees to enter onto the property to be conveyed herein to harvest any crops which may be growing on the land at the time of transfer of title. This right to enter shall expire upon the completion of the harvest. Beneficiary agrees to promptly harvest all crops consistent with ordinary standards in the farming industry.

(c) The Beneficiary agrees to indemnify the other parties hereto for any claim for injury to person or property which arises out of, or in the course of, the entry onto the property and the harvesting of crops. This indemnity shall be interpreted broadly and shall include any judgment, settlement and other related payments (such as prejudgment and post-judgment interest), as well as all costs of defense, attorneys' fees and disbursements.

3. *Payment of purchase price.* The purchase price shall be paid to the Trustee for the account of the Beneficiary as follows:

- (a) \$100,000 or more, on or before one month from the date of this agreement.
- (b) An additional \$400,000 or more, on or before five years from the date of this agreement.
- (c) An additional \$500,000 or more, on or before eight years from the date of this agreement.
- (d) An additional \$500,000 or more, on or before ten years from the date of this agreement.

Interest at 8 percent per year from the date of this agreement to the date of payment shall be payable with respect to every portion of the unpaid balance of the purchase price.

4. *Taxes and assessments.* The Trustor shall pay all taxes, assessments, special assessments including, but not limited to, water district assessments, and all other impositions of every kind and nature, which may be levied, assessed, or imposed upon the property or any part of it, or on any buildings or improvements situated on it. Such payments shall be paid as they become due. The Trustor shall advise the Trustee in writing on or before the due date for the payment of each installment of taxes, assessment, and special assessments that payment has been properly made including any penalties or interest.

5. *Lease to seller.* The Trustee shall lease the property to the Beneficiary by lease of even date for the purpose of conducting a farming operation for a term of ten years commencing upon the date of execution hereof, subject to the right of the Trustor to request release of parcels of the property from the lease and this Trust upon payment of installments of the purchase price as set forth. The Beneficiary may sublease for periods not exceeding 15 months any or all of the property leased by it, except that subleases for a longer period may be made only with the Trustor's written consent. The Trustee shall not be required to execute such lease until the Trustor approves its form and contents in writing. The Beneficiary may terminate all or any part of the lease by giving six months' written notice to the Trustor.

6. *Purpose of trust.* This Trust is established and shall be operated for the purpose of consummating the sale by the Beneficiary to the Trustor of the property as a single transaction, and for this purpose, the Trustee shall have the power, rights, and obligations that are provided.

7. *Development of property.* The Beneficiary authorizes the Trustee, upon the Trustor's written request, to dedicate all easements and rights of way that are necessary to enable the property to be adequately served by gas, electricity, water, sewers, telephone, and other utilities. The Trustor is liable to the Beneficiary for all damages that may arise to crops, wells, cement ditches, pipelines, or buildings from construction of these easements. The Beneficiary further authorizes the Trustee, upon the Trustor's written request and with the Beneficiary's written consent and approval not to be unreasonably withheld or delayed, from time to time to:

- (a) Plat the property into an appropriate number of lots or parcels under some suitable designation or designations.
- (b) Execute and cause to be placed of record the plat or plats and to make dedication of streets, roads, alleys, easements, and parkways thereon subject to the provisions of Paragraph 8.
- (c) Cause to be placed of record appropriate building restrictions and other restrictive covenants to run with the title to the property.
- (d) Cause appropriate zoning changes to be made as the Trustor may desire.

All platting and recordation of plat or plats, dedications, easements, preparation, and recordation of restrictive covenants shall:

- (a) Comply with the rules and regulations of the State of Arizona Real Estate Department and all other applicable municipal and governmental rules, regulations, and ordinances, including, but not limited to, those of any County or Municipal Planning and Zoning Commissions having jurisdiction over the property.
- (b) Be executed by the Trustee whenever necessary to comply with the provisions of law; provided, however, any such execution shall be on behalf of the Trustor and shall not constitute the Trustee's independent act.
- (c) Be, together with all other expenses incidental to the development and sale of the property, including, without limitation, the installation, if any, of irrigation and domestic water lines, utilities, streets, gutters, sidewalks, and other improvements, at the Trustor's sole expense and free of all expense to the Beneficiary or the Trustee.

8. *Release of parcels.* Whenever the Trustor is not in default in the performance of any covenant or condition contained in this agreement, parcels of the property shall be released from any further right, title, interest, claim, or demand of the Beneficiary, and the Trustee shall execute deeds of conveyance without warranty, except as to its own acts, to the Trustor upon payment to the Trustee of an amount or amounts as set forth in Schedule II, which is attached to this agreement. The Trustor may designate any parcel of the property for release, provided that the parcel contains not less than 50 acres in any one section with the following exception: The Trustor may designate any parcel which amounts to less than 50 acres for release for dedication of streets, roads, alleys, easements, and parkways to the extent approved in writing by the Beneficiary as provided in Paragraph 7, provided that the Trustor gives the Beneficiary and Trustee reasonable written notice of its intent to have the parcel released. Three to fifteen months shall be considered reasonable written notice, depending upon the nature of the crop that is being grown upon the parcel. Installments of the purchase price to be paid by the Trustor to the Trustee under Paragraph 3 shall entitle the Trustor to the release of acreage in accordance with this Paragraph 8. All amounts paid into this Trust as Release Price will be applied to the next minimum installment of principal and interest to become due on the unpaid purchase price, and thereafter to successive minimum installments.

9. *Brokerage.* The Trustor shall not be liable for any real estate or brokerage commission resulting from or arising within the sale of the property.

10. *Title policy.* The Beneficiary shall procure an ALTA extended coverage Owner's Title Insurance Policy issued by Camelback Title Guarantee & Trust Company insuring the Trustor in the full amount of the purchase price, free and clear of all liens and encumbrances except those shown as exceptions on that certain Preliminary Title Report No. 5000 of Camelback Title Guarantee & Trust Company, Phoenix, Arizona. The Beneficiary shall deposit with the Trustee within 60 days from the date hereof a boundary survey of the property prepared by a registered civil engineer. The Beneficiary shall pay for the cost of the boundary survey and the Title Insurance Policy.

11. *Disposition of trust money.* The Trustee shall promptly account for and pay and apply all moneys received into this Trust under the provisions of this agreement, in the following order:

- (a) To the Beneficiary, all payments made for the conveyance of parcels out of the property, and all payments made by the Trustor into the Trust for the benefit of the Beneficiary until the Trustor's indebtedness to the Beneficiary has been paid in full.
- (b) To the Trustee, its fees, costs, and expenses.
- (c) All other moneys received into the Trust shall be paid to the Trustor.

12. *Trustee's fees.* As compensation for its services under this Trust, the Trustee shall receive its usual and customary trust fees and charges, 70 percent of the existing publicized owner's rates on title insurance policies and escrow charges at the date of this agreement, an acceptance fee of \$400, and existing collection charges, all of which the Trustor shall pay upon demand, and for which the Trustor acknowledges itself liable. However, the Trustor may retain the fees and charges from any funds that would otherwise be payable to the Trustor under this agreement. A schedule of fees is attached as Schedule III.

13. *Time of essence; default by buyer.* Time is of the essence in regard to this agreement and all its terms and conditions. Full performance by the Trustor of all of its obligations is a condition precedent to its right to a conveyance of the property held under this agreement and to its right to the performance of this agreement. If the Trustor defaults upon the payment of the purchase price due under Paragraph 3, and the default remains uncorrected for a period of 30 days after receipt of written notice from the Trustee, the Beneficiary may enforce a cancellation and forfeiture of the Trustor's interest. Cancellation and forfeiture may be made in the following manner:

By serving upon the Trustor and the Trustee a written declaration of cancellation and forfeiture, or by depositing in the United States mail, by registered mail, postage prepaid, such written declaration addressed to the Trustor at Post Office Box 2000, Phoenix, Arizona, or at any other post office address that the Trustor shall have filed with the Trustee, and to the Trustee at 200 West Adams Street, Phoenix, Arizona. Upon the declaration of cancellation and forfeiture by the Beneficiary as provided, all rights, estates, and interests hereby created or then existing in favor of the Trustor or anyone who claims under it to all portions of the property not released to the Trustor beforehand, shall cease, terminate, and become null and void. All equitable and legal interests and estates in all the unreleased portions of the property, together with all sums of money already paid by the Trustor hereunder, shall revert to, be vested in, and become the sole property of the Trustee for the benefit of the Beneficiary, free and clear of any right, title, lien, or claim of the Trustor. The Trustor shall have no right, either in law or in equity, to reclaim or recover any compensation for moneys paid or services performed. The Beneficiary's right to retain all sums previously received by it under this Trust and to declare such a cancellation and forfeiture and to receive all portions of the property not previously released to the Trustor shall be its sole and exclusive remedy if the Trustor defaults. If the Trustor's rights are forfeited, the Trustee shall, upon the Beneficiary's written demand, and after payment of all of the Trustee's costs, fees, expenses, and advances, deed all or any part of the remaining trust property to the Beneficiary or its nominee, or shall otherwise handle, manage, or dispose of the property as the Beneficiary may direct.

14. *Liability of trustee.* The Trustee shall not be liable to the Beneficiary or the Trustor or to anyone else for any act or omission to act under this Trust or the administration of the Trust Estate. Its sole liability hereunder shall be to account for and pay over to the Beneficiary and the Trustor all sums to which they shall become entitled hereunder.

15. *Protection of trustee.* The Beneficiary and the Trustor will fully pay, indemnify, protect, save, and hold harmless the Trustee from any and all suits, claims, demands, judgments, costs, and expenses, including attorneys' fees and other obligations and liabilities of every kind and character that the Trustee may for any reason or at any time suffer, incur, or expend by reason of or in connection with this Trust or its administration, other than through its own misconduct or willful neglect.

16. *Adverse acts of buyer.* The Trustor will not, before the Beneficiary and the Trustee are fully paid hereunder, create or attempt to create, or permit the creation of, any lien against the trust property, or any part of it upon which the Release Price has not been paid, due to any act or omission by it. However, with the Beneficiary's prior written consent, the Trustee shall execute all subordination instruments required by a financial institution lending moneys to the Trustor.

17. *Termination of trust.* This Trust shall terminate upon conveyance of all of the trust property and distribution of all funds in the hands of the Trustee to the person or persons entitled to them in accordance with the terms of this agreement.

18. *Statements by trustee.* The Beneficiary and the Trustor will be furnished statements of account and statements of settlement from the Trustee annually. The statements shall supplement and not duplicate the preceding ones. The Trustee's accounting records shall at all times be open to inspection by the Beneficiary and the Trustor.

19. *Entire agreement.* The Beneficiary and the Trustor certify that this agreement fully and correctly sets out the trust and the agreement between the parties and the conditions under which the Trustee is to hold, manage, or dispose of the property, and that there are no other understandings or agreements between them.

20. *Binding Effect.* This agreement shall be binding upon and inure to the benefit of the parties, and their respective heirs, representatives, executors, successors, and assigns.

21. *Arbitration.* Any dispute or controversy arising between the parties involving the interpretation or application of any provision of this agreement, or arising out of this agreement, shall be submitted to and determined by arbitration in accordance with the rules of the American Arbitration Association or of any other comparable organization if the American Arbitration Association is not then in existence. The arbitration award shall be subject to enforcement in any court of competent jurisdiction.

22. *Construction of agreement.* Wherever the context of this agreement so requires, words used in the neuter gender include the masculine and feminine; the singular includes the plural and the plural singular. The word "person" includes a corporation, company, partnership, association, or society, as well as a natural person.

23. *Possession of property.* Except for the leases and subleases provided for in Paragraph 5, the Trustor, upon its written request and with the Beneficiary's written consent and approval, shall be allowed possession of the property for the purpose of developing and selling it during the term of this Trust. However, no construction of dwellings or other buildings shall be commenced until the property on which the construction is contemplated has been released from this Trust, except with the Beneficiary's express written consent and approval.

24. *Conveyances to third parties.* All property conveyed out of this Trust to persons not parties to this agreement shall be free of this Trust, and no purchaser shall in any way be obligated to see to the application of the proceeds by the Trustee.

25. *Continuation of trust.* When all of the Trustee's fees, costs, and expenses have been fully paid, and all of the Trustor's indebtedness to the Beneficiary has been fully liquidated, the Trustor may allow the Trust to be continued for the Trustor's benefit, under appropriate instructions, only as to the conveyance of the Trust property to persons it may in writing direct.

26. *Liability and property damage insurance.* The parties in possession from time to time of the property under this agreement shall carry adequate public liability and property damage insurance insuring all parties to this agreement as is required by the other parties.

27. *Instructions to trustee.* Whenever this instrument provides that the Trustee shall do a certain act upon the request or instruction of any party, that act, or a document evidencing it, shall be in the form and done in the manner satisfactory to the Trustee.

28. *Trust number.* This agreement shall be known as Trust No. 1000 upon the records of the Camelback Title Guarantee & Trust Company.

29. *Notices.* All notices or other documents under this agreement shall be in writing and delivered personally or mailed by certified mail, postage prepaid, addressed to the parties at their last known addresses.

30. *Non-waiver.* No delay or failure by a party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

31. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

32. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of Arizona.

33. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

The Trustee, the Beneficiary, and the Trustor have caused this instrument to be duly executed by their respective duly authorized officers and their corporate seals to be affixed.

Current Legal Forms for Real Estate

Chapter 22 DEVELOPMENT AND SUBDIVISION

Part IV. FORMS

A. ACQUISITIONS FOR DEVELOPMENT AND SUBDIVISION

26-22 Current Legal Forms for Real Estate FORM 22.16

FORM 22.16 Contract of sale of land--seller obligated to plat and improve building lots--sites for commercial development and amenities to be selected--force majeure clause

COMMENT

Under this plan, the seller must convert raw land into finished building lots. The land is actually sold to the purchaser, but it is the seller who prepares the lots so that they are ready for residential construction. This means that the property is to be platted and subdivided, that drainage structures, sewerage, water systems, and streets and street signs are to be installed, and that easements are to be granted for electrical power. These obligations of the seller are all carefully defined, and a schedule is provided setting out the timetable for the seller's obligations.

If the seller defaults, there is a reduction in the deferred portion of the purchase price, measured by the reasonable costs of making the promised improvements plus damages in a restricted amount suffered by the purchaser. A force majeure clause relieves either party from timely compliance with contractual obligations during the period it is prevented by certain specified events (see Paragraph 13). In all, despite the outright sale of the property, the seller remains contractually involved in the initial aspects of the development program.

FORM

AGREEMENT entered into as of October 1, _____[year] between Eastern Estates, Inc., a Florida corporation (the "Seller"), and Viewpoint Homes, Inc., a Florida corporation (the "Purchaser").

Whereas the Seller is the owner of certain property in Dade County, Florida, and

Whereas the Seller desires to sell and the Purchaser desires to purchase certain lots from such property on the terms and

conditions set forth,

Now, therefore, for Ten Dollars and other valuable consideration including these mutual covenants, the parties do covenant and agree as follows:

1. *Description of lots.* The Seller agrees to sell and the Purchaser agrees to purchase 1,200 lots (the "premises"), to be subdivided and platted from the following described property:

(Insert description)

Out of the premises the Seller may retain areas (the size, location, and proportion of which it alone determines) for church sites, school sites, park sites, utility sites, and shopping center sites, that it may deem necessary or convenient. The above-described property will be platted in accordance with Dade County and Federal Housing Administration requirements. If the area conveyed at the time of closing exceeds an area equal to a minimum of 1,200 lots (plus the area necessary for rights-of-way, canal rights-of-way, streets, and easements), the Purchaser will reconvey to the Seller the excess portion either by joinder in platting or by good and sufficient instrument of reconveyance, whichever means may be appropriate, such reconveyance to occur when the area has been so platted and contains 1,200 lots. The Seller may from time to time change the size, location, and description for the church sites, school sites, park sites, utility sites, and shopping center sites set forth above. Accordingly, the Purchaser covenants to execute conveyances to accomplish such changes. However, this right to change may not be exercised when or to the extent intervening rights of institutional lenders or individual home purchasers have become vested. The Seller retains the right to award any or all utility franchises in connection with the premises and to receive all the benefits and profits therefrom. The Purchaser covenants to sign, execute, and deliver all forms, applications, documents, and other writings necessary or proper for the Seller to use and enjoy such franchises. The Seller will furnish the legal description for the area comprising the premises prior to the date of closing.

2. *Purchase Price.* The purchase price is \$4,225,000, payable as follows:

(a) \$25,000 on the signing of this contrast, the receipt of which is acknowledged;

(b) \$4,200,000 by the Purchaser or its assigns executing, acknowledging, and delivering to the Seller a note secured by a purchase money mortgage on the demised premises, in that amount. The note and mortgage shall be in substantially the form and content and contain substantially the terms, provisions, covenants, and conditions set forth in Exhibit A, which is attached to, and made a part of, this agreement.

3. *Closing.* The closing of this transaction shall take place on December 18, _____[year], at the office of Frank Baker, Attorney for the Seller, 10 S.E. 2d Street, Miami Beach, Florida, commencing at 10 a.m. and continuing until completed.

4. *Deed.* The Seller at the time of closing shall deliver to the Purchaser the ownership of the premises by executing in favor of the Purchaser a warranty deed, in statutory form, subject only to the following:

(a) Taxes for the current year;

(b) Zoning ordinances of Dade County, Florida;

(c) Restrictions and limitations of record common to the neighborhood;

(d) Existing easements for public utilities;

(e) Reservations as contained in the deed recorded in Deed Book 50 at page 100 of the Public Records of Dade County, Florida; and

(f) The lien of the purchase money mortgage as set forth in Exhibit A.

The Seller shall record the warranty deed and the purchase money mortgage, and shall pay for all recording fees, documentary stamps on the warranty deed, and the intangible tax and state stamps applicable to the purchase money mortgage. There shall be no prorations except as provided in Exhibit A.

5. *Seller's obligations to prepare lots.* The Seller shall, in accordance with Federal Housing Administration and Dade County requirements and as required herein, as its own expense except as otherwise provided:

(a) Plat and improve the premises so that the plat shall be recorded as part of the public records of Dade County, Florida, and the subdivision or subdivisions so platted will be improved so as to be approved by the Federal Housing Administration and Dade County as finished lots ready for use in the building of private residences, and for mortgages guaranteed by the Federal Housing Administration. However, the Seller need not plat all of the premises at any one time, but may cause as many different plats at as many different times and from time to time as it may deem advisable.

(b) Fill and compact the premises.

(c) Provide drainage, drainage structures and facilities, streets, sewerage, water distribution system, rough graded swales, and street signs.

(d) Grant adequate easements for electrical power lines and do all possible to facilitate the installation of electrical power lines by the Florida Power and Light Company, except that the Seller does not guarantee the installation of such power lines.

(e) Join in reasonable restrictions to be placed upon the premises acceptable to the Seller, the Purchaser, and the Federal Housing Administration.

6. *Details relating to seller's obligations.* With respect to the Seller's obligations as set forth in Paragraph 5, the following shall apply:

(a) The premises shall be so filled that the Purchaser will be able to build on top of the fill by use of monolithic footing and slab construction as approved by the Federal Housing Administration. Lots are to be filled to elevations equal to the crown of the street that abuts each lot. If the Purchaser gives prior written notification to the Seller that it desires the Seller to cause any lots to be filled and compacted to an elevation four inches higher than the crown of the abutting street, as to the area between the front and rear county setback lines, the Seller will cause such fill and compaction to be done in that manner, provided such notice is accompanied by the Purchaser's cash payment to the Seller of \$75 for each such lot. The compacted embankments are to be constructed of such size and in such manner as to give adequate safety berms so as to allow construction of footings within the full limits of the front and rear County setbacks. All filling is to be approved by the Federal Housing Administration and a registered engineer doing business in Dade County, Florida.

(b) The Seller shall lay water and sewer mains in the streets or in the rear of each lot with laterals to lot lines, but such mains shall not interfere with the construction of a one-family house on each lot. The Purchaser shall install and pay for the lateral lines leading from each house to its lot line. The Seller shall pay any tapping fee in connection with the water lines or sewer lines. The Purchaser shall not pay for any water meters or other meters that may be used in connection with the homes to be built on the premises.

(c) Notwithstanding the foregoing, the Seller or anyone to whom it gives a utility franchise in connection with the

premises may obtain utility deposits for all installations prior to installing them in and to the homes to be built by the Purchaser on the premises. The Purchaser shall, before making any such installation, advance the amounts of all these utility deposits to the Seller or any holder of any such utility franchise received from the Seller. The Seller or holder shall return to the Purchaser each deposit as it is received from the individual home owner. If the home owner does not pay the utility deposit to the Seller or the holder, neither shall be obligated to return the deposit to the Purchaser. The Federal Housing Administration shall approve the amount of each individual deposit.

(d) The platting and improvements of the first 180 acres shall be completed by April 1, _____[year] (the "initial time of completion"). Final approval of the sewage disposal plant and the water system need not be obtained before the initial time of completion, but shall, in any event, be obtained before the Purchaser is ready to deliver finished homes. The Seller shall thereafter complete platting and improvements as follows:

150 lots (Group 2) within six months from the initial time of completion.
 200 lots (Group 3) within one year from the initial time of completion.
 200 lots (Group 4) within 18 months from the initial time of completion.
 200 lots (Group 5) within 24 months from the initial time of completion.
 200 lots (Group 6) within 30 months from the initial time of completion.
 70 lots (Group 7) within 36 months from the initial time of completion.

(e) All work required to be done on the premises shall be inspected from time to time by the Seller's engineer, Carver, Smith & Associates. The Seller may at any time change its engineer and appoint another. However, any engineer the Seller appoints must be registered with the State of Florida and have a certification acceptable to the Federal Housing Administration. A valid and good faith certification by the engineer that the improvements to the premises have been completed shall be deemed conclusive compliance with the Seller's obligations under this agreement.

7. Default by seller. If the Seller fails, neglects, or refuses to make and complete the improvements to the premises as provided on or before nine months after the respective times of completion required under this agreement, the principal amount of the purchase money note and mortgage (Exhibit A) shall be reduced by an amount equal to the damages suffered by the Purchaser. This amount shall in no event exceed the total of the following:

(a) The reasonable cost to the Purchaser of making the improvements that the Seller failed to make or perform; and

(b) Actual damages of any nature whatsoever suffered by the Purchaser as a result of such defaults, which shall in no event exceed \$200,000.

These damages shall be determined by a court of competent jurisdiction. After deducting the damages the remaining balance due under the note and mortgage shall be paid in five equal annual installments, the first installment to be due and payable three months after entry of a final decree by the court.

8. Abstract of title. The Seller shall within seven days from the date of the execution of this agreement deliver to the attorney for the Purchaser, William Payne, Esq., 100 Lincoln Road, Miami, Florida, an abstract showing the title of the property described in Paragraph 1 to be good and marketable or insurable. The Purchaser shall have seven days from the date of delivery of the abstract within which to give written notice to the Seller of any defect in the title. If the Purchaser fails to give such notice it shall be conclusively presumed at the end of the seventh day that the Purchaser has waived any right to object to the abstract through the date of its continuation.

9. Default by purchaser. If the Purchaser, without the Seller's fault, fails to comply with any of its obligations in this agreement, specifically including, but not limited to, the covenants to pay moneys either under the provision of this agreement or the purchase money note and mortgage executed by the Purchaser, the Seller shall retain as liquidated damages all moneys that the Purchaser has paid to it up to that time. Upon the Purchaser's reconveyance to the Seller of

all unreleased portions of the mortgaged premises and cancellation of the unpaid portions of the purchase money mortgage and note, this agreement shall be at an end and neither party shall have any further liability or obligation against the other.

10. *Notice.* If either party desires to give notice to the other, the notice shall be in writing, and shall be deemed given when it is mailed by certified mail, return receipt requested, addressed to the party for whom it is intended as follows:

To the Purchaser:

c/o William Payne, Esq.
100 Lincoln Road
Miami, Florida

To the Seller:

c/o Frank Baker, Esq.
10 S.E. 2d Street
Miami Beach, Florida

Either party shall have the right to change its designee for the receipt of notices.

11. *Entire agreement.* All understandings between the parties have been expressed in this agreement. This agreement shall not be changed, modified, or altered unless the changes, modifications, or alterations are in writing and executed by the parties.

12. *Time of essence.* Time is expressly declared to be of the essence of this agreement.

13. *Force majeure.* If by reason of acts of God, floods, storms, explosion, fires, labor troubles, strikes, insurrection, riots, acts of the public enemy, or federal, state or local law, order, rule, or regulation, either party is prevented from complying with any condition of this agreement, or of the mortgage given in connection with it, or from complying with any express or implied covenant in the agreement, then while so prevented the condition shall be suspended and the party shall be relieved of the obligation of complying with such covenant and shall not be liable for damages for failure to comply with it. Any obligation of either party shall be extended for as long as it is so prevented from complying with any condition or covenant in the agreement.

14. *Survival of obligations.* All undertakings of the Seller and the Purchaser which are executory in nature at the time of the delivery of the deed shall survive delivery. All undertakings and obligations provided in Exhibit A shall be deemed to be fully set forth at length herein.

15. *Binding effect.* The provisions of this agreement shall be binding upon and inure to the benefit of both parties and their respective successors and assigns.

16. *Non-waiver.* No delay or failure by either party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

17. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

18. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of Florida.

19. *Counterparts*. This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

In witness whereof the parties have set their hands and seals the date and year above written.

A. ACQUISITIONS FOR DEVELOPMENT AND SUBDIVISION

26-22 Current Legal Forms for Real Estate FORM 22.17

FORM 22.17 Contract of sale of land for subdivision--purchase price designated as specified amount per usable acre--deed of trust--subordination and release provisions--allocation of expenses

COMMENT

This is a formal contract for the sale and purchase of undeveloped land for subdivision purposes. An interesting feature of this form is the manner of computing the purchase price (see Paragraph 2). It is determined by multiplying the number of acres suitable for subdivision by a specified amount per acre. The purchase price is secured by a deed of trust containing subordination and release provisions. The deed of trust is subordinated to subsequent deeds of trust that are used to finance the construction of improvements on lots. A limit is placed on potential construction loans (see Paragraph 6).

The contract calls for the release of lots as they are ultimately sold to the home owners and provides for the release to the buyer at the close of the escrow term of a specified fraction of the property free of the deed of trust. This type of provision, together with the subordination of the deed of trust to construction loans, minimizes the amount of money that the developer will have to invest.

The buyer must submit plans for the development of the property to the appropriate government agencies. The buyer's obligation to purchase the property is conditioned on those plans being approved. This agreement specifies which party bears the costs of deeds, title insurance, surveys, and brokers.

FORM

AGREEMENT entered into April 28, _____[year], between Eli Gold and Lillian Gold, of San

Francisco County, California, (the "Sellers"), and James Burns of Los Angeles County, California (the "Buyer").

Recitals

The Sellers who own certain property in Contra Costa County, California, and

The Sellers desire to sell and the Buyer desires to purchase that property,

Therefore, in consideration of the terms and conditions contained in this agreement, the parties agree as follows:

1. *Description.* The Sellers agree to sell to the Buyer and the Buyer agrees to purchase from the Sellers the real property (the "property") in Contra Costa County, California, described as follows:

(Insert description)

2. *Amount of purchase price.* The Buyer shall pay as the purchase price for the property \$15,000 per acre for each acre included in the property, determined as follows:

(a) The number of acres included in the property as well as its exact boundaries and legal description shall be determined by a survey. The survey shall be made at the Buyer's sole expense, by a registered civil engineer or licensed land surveyor selected by the Buyer and approved by the Sellers.

(b) For the purpose of computing the purchase price, any portion of the property disclosed by the survey to be unsuitable for subdivision or other development purposes because it is within the boundaries of any presently recorded road, street, highway, right-of-way, or easement shall be excluded in determining the number of acres included in the property.

3. *Payment of purchase price.* The Buyer shall pay the purchase price for the property to the Sellers as follows:

(a) \$50,000 on the execution of this agreement, receipt of which the Sellers acknowledge.

(b) An additional sum that, when added to the amount paid on the execution of this agreement, equals 25 percent of the purchase price of the property on the close of escrow as provided.

(c) The balance of the purchase price according to the terms of a promissory note in the usual form supplied by the California Title Company for use in Contra Costa County, California, executed by the Buyer, and containing provisions for the payment to the Sellers or their order of:

(1) The principal balance of the note in minimum annual installments of \$100,000 commencing three years after the close of escrow as provided.

(2) Interest at the rate of 12 percent per year from the close of escrow as provided on the unpaid principal balance of the note, payable annually commencing one year after close of escrow as provided.

4. *Security for purchase price.* The promissory note described in Paragraph 3 of this agreement shall be secured by a Deed of Trust on the property in the usual form supplied by the California Title Company for use in Contra Costa County, California, which shall also provide as set forth in Paragraph 5 below.

5. *Release of property.* Immediately after the recordation of the Deed of Trust, the trustee therein named shall reconvey

to the Buyer free and clear of the lien or charge of the Deed of Trust the portion of the property, not exceeding 10 percent, that the Buyer may select and designate in a writing delivered to the trustee. However, the portion of the property selected and designated by the Buyer for reconveyance must be situated in the northeast half of the property and cannot have a frontage on the public road providing access to the property of more than 100 feet.

6. *Subordination provisions.* After the recordation of a subdivision map for the property or any portion of it, the Deed of Trust (the "purchase money Deed of Trust") shall automatically be subordinated to subsequent Deeds of Trust executed by the Buyer from time to time to secure loans (construction loans) to finance the construction of improvements on lots shown on such subdivision map, provided:

(a) The purchase money Deed of Trust shall not be subordinated to any Deed of Trust securing a construction loan, if at the time of recordation of the construction loan Deed of Trust an unrescinded Notice of Default of the purchase money Deed of Trust is of record in the office of the County Recorder of Contra Costa County;

(b) The total amount of all such construction loans shall not exceed \$1,500,000;

(c) No portion of any construction loan shall be used to pay loan fees, interest, or other charges not directly connected with the construction of improvements on the lot or lots encumbered by the Deed of Trust securing the construction loan;

(d) Any construction loan does not exceed 75 percent of the anticipated value, as determined by the lending institution making the loan, of the lot or lots encumbered by the Deed of Trust securing the loan after completion of the improvements the loan was obtained to finance;

(e) No construction loan bears interest, exclusive of late charges and penalties or fees payable in case of default, greater than 18 percent per year;

(f) Each construction loan is payable over a period of not less than 12 months or more than three years from its date;

(g) The promissory note or other instrument executed by the Buyer to evidence any construction loan requires the proceeds to be distributed as progress payments for the construction of specified improvements on the lot or lots encumbered by the Deed of Trust securing the loan through a joint control agent.

7. *Partial reconveyances of raw acreage.* On the Buyer's written request at any time when an unrescinded Notice of Default of the Deed of Trust is not of record, the trustee shall reconvey to the Buyer free and clear of the lien or charge of the Deed of Trust any portion of the property designated in such request, provided:

(a) The written request contains a legal description of the portion of the property, (the "requested parcel") requested to be so reconveyed to the Buyer and a certificate by a civil engineer licensed to practice in California specifying in acres and fractions of acres the amount of land contained in the requested parcel;

(b) There has been paid to the trustee for the Seller's account an amount equal to the interest then due on the remaining unpaid principal balance of the promissory note secured by the Deed of Trust, the costs of executing and recording the requested reconveyance, and an amount to be applied toward payment of the unpaid principal balance of the promissory note secured by the Deed of Trust equal to \$10,000 per acre for each acre or fraction of acre of the property requested to be reconveyed. In computing the amount it is to receive under this provision, the trustee may rely on the certificate of the civil engineer contained in the Buyer's written request for reconveyance, as provided in subparagraph (a) above.

(c) The trustee shall not be required to reconvey the requested parcel to the Buyer if it is less than one

acre in size. The trustee under no circumstances shall reconvey the requested parcel to the Buyer if the reconveyance would leave the remainder of the property still subject to the Deed of Trust without frontage on a county maintained public road or street.

8. *Partial reconveyance of subdivided lots.* After recordation of a subdivision map for the property or any portion of it, on the Buyer's written request at any time when an unrescinded Notice of Default of the Deed of Trust is not of record, the trustee shall reconvey to the Buyer free and clear of the lien or charge of the Deed of Trust any one or more of the lots shown on the subdivision map designated by the Buyer on receipt by the trustee for the Sellers' account of:

(a) An amount equal to the interest then due on the remaining unpaid principal balance of the promissory note secured by the Deed of Trust;

(b) The costs of executing and recording the reconveyance; and

(c) An amount for each lot requested to be so reconveyed determined by dividing the amount, exclusive of interest, required under Paragraph 7 for the reconveyance to the Buyer of all of the property covered by the subdivision map by the number of lots shown on the subdivision map. The Sellers shall apply the amounts received by the trustee under this paragraph to the reduction of the remaining unpaid principal balance of the promissory note the Deed of Trust secures.

9. *Opening of escrow.* Within ten days after the date of this agreement, an escrow shall be opened to consummate the sale of the property pursuant to this agreement at the Walnut Creek office of the California Title Company.

10. *Preliminary report.* Within 15 days after the date of this agreement, the Sellers shall cause to be prepared by the California Title Company and delivered to the Buyer a preliminary report of the title to the property. All items, exceptions, or conditions shown on the preliminary report of title not objected to by the Buyer in a writing delivered to the title company and the Sellers within 15 days after receipt of the report by the Buyer shall be deemed accepted by him and he shall thereafter have no right to complain of title being conveyed or insured pursuant to this agreement subject to any such item, exception, or condition.

11. *Development plans.* Within 30 days after receipt of this preliminary report of title, the Buyer shall submit to the appropriate governmental agencies complete plans or maps for the subdivision or development of the property by him.

12. *Conditions of escrow.* The close of the escrow described in this agreement and the Buyer's obligation to purchase the property pursuant to the terms of this agreement are expressly conditioned on:

(a) The conveyance to the Buyer of good and marketable title to the property, as evidenced by a standard title insurance policy in the full amount of the purchase price issued by the California Title Company, subject only to the Deed of Trust described in Paragraph 4 of this agreement and all other liens, encumbrances, clouds, and other matters that may appear on the preliminary report of title and to which the Buyer has not objected.

(b) A determination by the Buyer's soil test or civil engineers that all of the property is free from filled ground or other geological or engineering conditions that would preclude its use and development in the usual and customary manner as a residential subdivision without extra expense for precautionary, corrective, or remedial measures.

(c) Completion and deposit in escrow of the survey of the property described in Paragraph 2(a) of this agreement.

(d) Final approval of the plans or maps submitted by the Buyer under Paragraph 11 of this agreement by all governmental agencies required to give approval.

(e) The property to be transferred hereunder must be free of all adverse environmental conditions. The condition of the property shall be determined by a licensed environmental engineer or other individual or corporation with comparable qualifications. Buyer shall be responsible for ordering all testing and for the cost of such testing. Buyer shall provide to Sellers a copy of the environmental site assessment report. In the event that Buyer exercises his right to cancel the escrow under Paragraph 13 herein, Buyer agrees not to disclose to anyone who is not a party to this agreement any information contained in the report.

13. *Failure of conditions.* If any condition specified in Paragraph 12 of this agreement fails to occur within 120 days after the opening of the escrow as provided in Paragraph 9, the Buyer may, by giving written notice to the escrow holder and the Sellers, cancel the escrow, terminate this agreement, and recover all amounts paid by him to the Sellers or the escrow holder on account of the purchase price of the property. The exercise of this power by the Buyer shall not, however, constitute his waiver of any other rights he may have against the Sellers for breach of this agreement. The escrow holder shall be and hereby is irrevocably instructed by the Sellers on the failure of condition and the receipt of notice from the Buyer to immediately refund to the Buyer all moneys and instruments deposited by him in escrow under this agreement.

14. *Proration of taxes.* The Buyer and the Sellers shall prorate all ordinary real property taxes levied or assessed against the property on the basis of the latest available tax bills and 30-day months as of the close of escrow.

15. *Bonds and assessments.* The Sellers shall pay in full, on close of escrow, all bonds or improvement assessments that are alien on the property.

16. *Broker's commissions.* The Sellers shall pay all commissions due to real estate or other brokers resulting from the sale of this property.

17. *Expenses of escrow.* The expenses of the escrow shall be paid in the following manner:

(a) The Sellers shall pay:

- (1) The full cost of securing the title insurance policy described in Paragraph 12(a) of this agreement;
- (2) The full cost of preparing, executing, and acknowledging all deeds or other instruments required to convey good and marketable title to the property to the Buyer in the manner described in Paragraph 12(a) of this agreement;
- (3) All taxes that may be imposed on the conveyance of title to the property to the Buyer.

(b) The Buyer shall pay:

- (1) The full cost of preparing, executing, acknowledging, and recording the promissory note and Deed of Trust described in Paragraphs 3 and 4 of this agreement;
- (2) The cost of recording the grant deed or other instrument executed by the Sellers conveying good and marketable title to the Buyer's property.

(c) The Buyer and the Sellers shall pay in equal proportions all escrow fees charged by the escrow holder in addition to the cost of the title insurance policy required by this agreement.

18. *Entry on property*

(a) The Buyer and his agents, employees, servants, or nominees, may immediately enter on the property for the purpose of making the survey provided for in this agreement and perform all further engineering, geological, or surveying work that may be required for their preparation of plans and maps for the subdivision or development of the property for residential and other uses.

(b) The Buyer shall have an affirmative duty to restore the land to its previous condition at the completion of the work contemplated under this agreement. This shall include filling holes, reseeding, leveling and any other activities needed to restore the land to its physical appearance prior to commencement of the work. All restoration work shall be done to Sellers' satisfaction.

19. *Duty to disclose.* The Sellers shall have an affirmative duty to disclose to Buyer any information which they may have about the land, including, but not limited to: prior use of the land; prior owners of the land; and any other information which a prudent buyer of land would want to know. Buyer agrees to hold all such information disclosed by Sellers in strict confidence until the closing of escrow has been completed. Buyer may disclose such information as is reasonably necessary to complete the resolution of the conditions contained in Paragraph 12. Buyer shall notify each person to whom such information is disclosed of the duty of confidentiality regarding such information. Buyer shall obtain a written statement from each such person, acknowledging said confidentiality and agreeing not to further disclose such information without prior authorization from Buyer.

20. *Costs of survey.* The Buyer shall pay for all costs, expenses, liabilities, or charges incurred in or related to the making of the survey provided for in this agreement, the performance of any engineering, geological, or surveying work on the property by the Buyer, the preparation by him of all plans or maps for the subdivision or development of the property, and the costs of filling, recording, or gaining approval by any governmental agencies of any such surveys, reports, plans, or maps. The Buyer shall indemnify and hold the Sellers, their property, and the property subject to this agreement free and harmless from these costs, expenses, liabilities, or charges. Further, if this agreement is terminated or canceled for any reason not the Sellers' fault at any time before good and marketable title has been conveyed to the Buyer, he shall, at the Sellers' written request, repair all damage done to the property by any engineering, geological, or surveying work performed on it by him and restore the property and title to it to the same condition they were in on the date of this agreement.

21. *Execution of development plans.* The Sellers shall sign and execute, at the Buyer's expense, any and all documents that the Buyer is required under this agreement to submit to governmental agencies for their approval of plans or maps for the subdivision or development of the property.

22. *Possession of property.* Possession of the property free and clear of all uses and encroachments, except those shown on the preliminary report of title described in Paragraph 10 of this agreement and not objected to in writing by the Buyer, shall be delivered to the Buyer on the close of escrow as provided.

23. *Default by buyer.* If the Buyer defaults in the performance of this agreement, the Sellers shall be released from their obligation to sell the property to him or to further perform this agreement and may proceed against him on any cause of action or for any remedy given them by law or equity.

24. *Notices.* Any and all notices or other communications required or permitted by this agreement or by law to be delivered to, served on, or given to the Buyer or the Sellers by the other party to this agreement or by the California Title Company as escrow holder shall be in writing and shall be deemed properly delivered, given, or served when personally delivered to the addressee or in lieu of such personal service when deposited in the United States mail, first-class postage prepaid, addressed to the Buyer at 100Wilshire Boulevard, Los Angeles, California, or to the Seller at

8 Locksley Avenue, San Francisco, California. Either party may change its address by giving written notice of such change to the other in the manner provided herein.

25. *Time of essence.* Time is expressly declared to be the essence of this agreement.

26. *Binding effect.* The provisions of this agreement shall be binding upon and inure to the benefit of both parties and their respective heirs, legal representatives, successors and assigns.

27. *Non-waiver.* No delay or failure by either party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

28. *Headings.* Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

29. *Governing law.* This agreement shall be construed in accordance with and governed by the laws of the State of California.

30. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

31. *Entire agreement.* This instrument supersedes all agreements previously made between the parties relating to its subject matter. Any agreement or representation respecting the property or the duties of either party in relation to it, unless expressly set forth in this instrument, is null and void.

The parties have executed this agreement the day and year first above written.

Chapter 22 DEVELOPMENT AND SUBDIVISION

Part IV. FORMS

A. ACQUISITIONS FOR DEVELOPMENT AND SUBDIVISION

26-22 Current Legal Forms for Real Estate FORM 22.18

FORM 22.18 Contract of sale of subdivided lots to a builder--option to buy additional lots from seller

COMMENT

In large land subdivisions, the land developer who subdivides the land and puts in the infrastructure needed to make the lots "buildable" will want to sell multiple lots to reputable builders so that the developer can recover its costs and make a profit. In this form the seller is a land developer which enters into a contract for the sale of 18 lots or "envelopes" as referred to in the form to a home builder. There is some flexibility in how the builder can pay for the lots, whether in all cash or by a lump sum cash payment plus an interest bearing note for the balance of the purchase price for the lot, secured by a purchase money mortgage deed. The seller has agreed to subordinate its purchase money mortgage deed to a construction loan mortgage obtained by the builder, subject to certain conditions being met.

In this form the builder has some flexibility on when he can acquire the lots, provided all 18 lots are acquired within 18 months after the first building permits become available from the city, and the private roadway serving the lots is completed. In Section 12 of this agreement, provided certain conditions are met and provided the seller and buyer can reach an agreement on the terms of the sale, the builder is given an option to acquire additional building lots in the overall subdivision. Finally, in Section 15, the seller asks for the right of first refusal to repurchase any lots, except those on which homes have been constructed, from the builder if the builder decides to sell the lots. In this way, the seller can control who the builders will be, and can prevent the initial buyer from just buying the lots on speculation for ultimate resale as vacant lots.

FORM

PURCHASE AGREEMENT

This Purchase Agreement (this "Agreement") is made this _____[day] day of _____[month], _____[year] by and between Suburban Development Corp., an Ohio corporation ("Seller") and Joseph Roudabush, d/b/a Joseph Homes ("Buyer").

1. Premises

Seller agrees to sell and Buyer agrees to buy for the consideration and upon the terms and conditions hereinafter set forth, the following described property (hereinafter referred to as the "Premises"):

Situated in the City of _____[city], County of _____[county] and State of _____[state], and known as being part of Original Township Lot No. 24, Tract 1, and further known as Building Envelopes Nos. 1 through and including 18 (the "Building Envelopes"), in proposed Green Subdivision as shown by the Map prepared by the Jones Surveying Co. dated December 1, _____[year], be the same, more or less, but subject to all legal highways (the "Subdivision Plat").

2. Purchase Price

The purchase price for the Premises shall be Sixty Thousand Dollars (\$60,000.00) per Building Envelope payable as follows:

(a) On or before each Closing Date (as defined in Section 8 hereof), Buyer shall pay to Seller, as provided in Section 2(b) hereof, an amount determined by multiplying the number of Building Envelopes being conveyed by Seller to Buyer on said Closing Date by Sixty Thousand Dollars (\$60,000.00) (the "Purchase Price").

(b) The Purchase Price shall be payable in cash on each Closing Date, or if Buyer elects, the Purchase Price shall be paid on each Closing Date as follows:

(i) Cash in the amount determined by multiplying the number of Building Envelopes being conveyed by Seller to Buyer on said Closing Date by Thirty-Five Thousand Dollars (\$35,000); and

(ii) Promissory note (the "Note") in the principal sum equal to the balance of the Purchase Price for such Building Envelopes, executed by Buyer and payable to Seller, bearing interest at the rate of eight percent (8%) per annum accruing to maturity, and the principal and all unpaid accrued interest shall be due and payable on the earlier of eighteen (18) months from the date of the Note, or the date of transfer of title to the Building Envelope to which the Note is applicable from Buyer to a third party. The Note shall be secured by a purchase money mortgage (the "Mortgage") executed by Buyer in favor of Seller covering the Building Envelopes being conveyed by Seller to Buyer on the Closing Date. The Note and Mortgage shall in all material respects be identical to the promissory note and mortgage attached hereto as Exhibit A and Exhibit B, respectively, and made a part hereof.

(c) If Buyer is in compliance with all terms and conditions of this Agreement, then, upon written request, Seller agrees to waive the priority of the Mortgage in favor of a bona fide construction loan mortgage on the applicable Building Envelope obtained by the Buyer from a bank, savings and loan association or other recognized financial institution, subject to Seller's approval of said mortgage and the amount of the construction loan.

3. Warranty Deed

On each Closing Date, Seller shall deliver to the Escrow Agent (as hereinafter defined) a Limited Warranty Deed (the "Deed") conveying to Buyer good and marketable title to the Building Envelope(s) then being conveyed by Seller to

Buyer, free and clear of all liens and encumbrances, except restrictions, conditions, reservations, limitations and easements of record, real estate taxes and assessments which are not yet due and payable, zoning ordinances, and, without limiting the generality of the foregoing, the restrictions, easements, conditions, reservations, liens and encumbrances contained in the Master Declaration of Covenants, Easements and Restrictions for Green Subdivision recorded in Volume _____ [volume], Page _____ [page], of the _____ [county] County Official Records, and in the Declaration of Covenants, Easements and Restrictions for Neighborhood Association No. _____ of the Green Subdivision recorded in Volume _____ [volume], Page _____ [page], of the _____ [county] County Official Records (all of said matters hereinafter collectively referred to as the "Permitted Exceptions").

4. Title Guaranty

On each Closing Date, Seller shall furnish Buyer with a title guaranty issued by the Escrow Agent in the full amount of the Purchase Price, guaranteeing record title to the Building Envelopes then being conveyed by Seller to Buyer to be good at the time of transfer of title in the Buyer subject only to the Permitted Exceptions. In the event that Buyer wishes to acquire a policy of title insurance, Seller shall pay that portion of the premium for said policy which is equal to the cost of a title guaranty, and Buyer shall pay the balance of the premium.

5. Improvement Plans

Prior to the date of this Agreement, Seller and Buyer have cooperated in the preparation of a site plan (the "Site Plan") which provides for eighteen (18) building Envelopes, and which provides the detail for the private roadway, underground utilities, elevations and the landscaping in respect of the property described in the Subdivision Plat. Seller and Buyer shall cooperate to obtain the approval of the Site Plan by the City of _____ [city].

6. Conditions Precedent

Seller's obligation to sell the Premises to Buyer and Buyer's obligation to purchase the Premises from Seller shall be conditioned upon the satisfaction of each of the following:

(a) Seller shall have obtained all required governmental approvals for the construction of Green Boulevard as shown on the Development Plan (the "Development Plan") submitted by Seller to the City of _____ [city], and approved by the City of _____ [city], on _____ [date], and Seller shall have commenced construction of Green Boulevard. "Commenced construction" shall be deemed to mean the date on which valid, binding and enforceable agreements for the construction of Green Boulevard are executed by Seller and Seller's contractor(s) and excavation shall have commenced.

(b) Seller shall have obtained final approval of the Site Plan by the City of _____ [city] and commenced construction of the private roadway and the underground utilities contemplated by the Site Plan. "Commenced construction" shall be deemed to mean the date on which valid, binding and enforceable agreements for the construction of each of such improvements are executed by Seller and Seller's contractor(s) and excavation shall have commenced.

(c) Building permits for the construction of dwelling units on at least two (2) Building Envelopes become available from the City of _____ [city] on or before _____ [date].

(d) In the event any of the conditions described above shall not have been satisfied or waived by both Seller and Buyer on or before _____ [date], this Agreement shall be null and void and of no further force or effect and Seller and Buyer shall have no obligations or rights hereunder. The periods set forth herein for satisfying the foregoing conditions shall not be extended or otherwise modified by force majeure.

7. Escrow Agent

(a) On or before each Closing Date, all documents and any necessary funds in addition to those which shall be paid to Seller pursuant to Section 2 hereof, shall be delivered to Standard Title Agency, which shall be designated as "Escrow Agent," and this Agreement shall constitute the escrow instructions to Escrow Agent.

(b) The Escrow Agent shall accept the escrow subject only to its Standard Conditions of Acceptance of Escrow, provided, however, that the provisions of this Agreement shall govern in the event of any conflict therewith.

(c) Upon the Escrow Agent's receipt of all of the documents and funds necessary to consummate each of the transactions contemplated hereby, unless otherwise instructed by the parties in writing, the Escrow Agent shall take all necessary acts to consummate each of the transactions contemplated hereby in the manner set forth in this Agreement.

(d) The Escrow Agent shall charge Seller, in respect of the Building Envelopes then being conveyed by Seller to Buyer, with the cost of the title search, title guaranty, the cost of transfer or conveyance taxes or fees, if any, and an amount equal to one-half (1/2) the escrow fee, if any; the Escrow Agent shall charge the Buyer with the cost of filing the Deed and Mortgage, if any, for record and the remaining one-half (1/2) of the escrow fee, if any. If no funds are escrowed, the Escrow Agent shall not charge either party any escrow fee.

8. Closing

(a) Provided the conditions set forth in Section 6 above have been satisfied or waived, Buyer shall have the right to cause Seller to convey to Buyer all, or any, of the Building Envelopes at any time during the term of this Agreement, on one or more Closing Dates, so long as:

(i) Buyer shall not be in default in the performance of its obligations under this Agreement, the declarations affecting the Premises or the Builders Manual (as hereinafter defined);

(ii) Buyer shall notify Seller in writing (the "Purchase Notice") of Buyer's desire to cause Seller to convey certain Building Envelopes to Buyer, which Building Envelopes shall be identified in the Purchase Notice; and

(iii) Buyer shall, on or before the Closing Date with respect to such Building Envelopes, deposit into escrow with the Escrow Agent the Purchase Price, including the fully executed Note and Mortgage, if applicable, and such additional monies and other documents and instruments as Escrow Agent may reasonably require.

(b) Seller shall, on or before the Closing Date with respect to the Building Envelopes identified in the Purchase Notice, deposit into escrow with the Escrow Agent the Deed and such other documents as Escrow Agent may reasonably require. The "Closing Date" shall be deemed to mean a date selected by Seller and Buyer for closing the sale and purchase of the Building Envelopes identified in the Purchase Notice, which date shall be no later than the thirtieth (30th) day after the delivery of the Purchase Notice.

(c) On each Closing Date, all general taxes shall be prorated by the Escrow Agent as of the date of transfer of title to the applicable Building Envelopes on the basis of the calendar year using the figures on the latest available tax duplicate.

9. Buyer's Timetable for Acquiring Title to Building Envelopes

(a) Buyer covenants to acquire fee simple title to at least two (2) Building Envelopes within ten (10) days following the later of (1) the date building permits for the construction of dwelling units on the Premises become available from the City of _____ [city], or (ii) the date on which paving of the private roadway contemplated by the Site

Plan is completed (the "Commencement Date"). Buyer further covenants to acquire fee simple title to all of the Premises within eighteen (18) months following the Commencement Date.

(b) If Buyer shall breach either of the foregoing covenants, and if Buyer shall fail to cure such breach within thirty (30) days after written notice of such breach from Seller, Seller shall have the right to elect one of the following remedies: (i) terminate this Agreement, including Buyer's right to acquire the remaining Building Envelopes comprising the Premises and Buyer's right to exercise its option to acquire Additional Building Envelopes (as hereinafter defined) to be created on the Additional Premises (as hereinafter defined); or (ii) without terminating this Agreement, terminate only Buyer's right to exercise its option to acquire the Additional Building Envelopes to be created on the Additional Premises in which case Buyer shall continue to have the right to cause Seller to convey to Buyer, in accordance with this Agreement, the Building Envelopes comprising the Premises which have not theretofore been conveyed by Seller to Buyer. In the event Seller exercises the remedy described in (i) above, upon Seller's termination of this Agreement, Seller and Buyer shall have no further obligations or rights hereunder, except as to matters which may have accrued prior to such termination. The "commencement of construction" on a Building Envelope shall be deemed to mean the date on which all of the following have been satisfied (i) Buyer shall have obtained a building permit for the dwelling unit on such Building Envelope; and (ii) Buyer shall have commenced excavation of the Building Envelope.

10. Buyer's Responsibility for Improvements

Buyer shall, at Buyer's sole cost and expense, strictly comply with the terms and conditions set forth in the Builders Manual (the "Builders Manual") attached hereto as Exhibit C and made a part hereof for all purposes. Buyer acknowledges that the Builders Manual requires, among other matters, that Buyer improve the land constituting common area adjacent to the Premises, as shown on the Site Plan, with certain improvements, including without limitation, the installation of landscaping and sprinkler systems. Buyer's failure to comply with the Builder's Manual shall be a default under this Agreement.

11. Seller's Responsibility for Improvements

In the event the conditions set forth in Section 6 hereof have been satisfied, and provided further that the Buyer shall have commenced construction of a dwelling unit on at least two (2) Building Envelopes, Seller covenants with Buyer that Seller shall complete (i) the clubhouse, tennis courts and swimming pool to be located in the Homeowner's Park (as described in the Development Plan) together with landscaping associated with the foregoing, and (ii) the private roadway and underground utilities shown on the Site Plan.

12. Option to Acquire Additional Building Envelopes

Seller and Buyer contemplate that the land described on Exhibit D attached hereto and made a part hereof (the "Additional Premises") may from time to time and in a manner acceptable to Seller and Buyer be subdivided to create additional building envelopes (the "Additional Building Envelopes"). Seller hereby grants to Buyer and Buyer hereby accepts from Seller the option to purchase, from time to time, the Additional Building Envelopes created within the Additional Premises upon the following terms and conditions:

(a) The following are conditions precedent to the effective exercise of Buyer's option hereunder:

(i) Buyer shall be in compliance with the timetable for acquiring fee simple title to the Building Envelopes as set forth in Section 9 of this Agreement.

(ii) Buyer shall not be in default under any other provision of this Agreement, or under any Note or Mortgage.

(iii) Seller and Buyer shall have agreed upon the configuration of the Additional Building Envelopes, the private streets,

underground utilities, elevations, the proposed dwelling units and such other matters as shown on the Preliminary Site Plan for Additional Envelopes (as hereinafter defined).

(iv) Seller and Buyer shall have agreed upon the purchase price for the Additional Building Envelopes which Buyer desires to purchase, in accordance with Section 12(c) below.

(v) Seller and Buyer shall have agreed upon the timetable for acquiring the Additional Building Envelopes which Buyer desires to purchase, in accordance with Section 12(c) below.

(b) To exercise its option to purchase the Additional Building Envelopes, Buyer shall notify Seller, in writing (the "Exercise Notice"), of Buyer's election to purchase the Additional Building Envelopes identified on the Concept Plan (as hereinafter defined) attached to such notice, which notice must be received by Seller on or before the end of the twelfth month after the date fee simple title to the first Building Envelope is conveyed to Buyer. If Buyer's initial Exercise Notice does not include all of the Additional Premises, then Buyer's option shall continue with respect to the balance of the Additional Premises. Buyer's option with respect to the balance of the Additional Premises may be exercised by Buyer's delivery to Seller of Buyer's Exercise Notice(s) with respect to all or any portion of the balance of the Additional Premises. Buyer's option with respect to the balance of the Additional Premises may be exercised by Buyer's delivery to Seller of Buyer's Exercise Notice(s) with respect to all or any portion of the balance of the Additional Premises, which notice(s) must be received by Seller at least six (6) months prior to the expiration of the period for acquiring the Additional Building Envelopes covered by the preceding Exercise Notice. Buyer shall have successive rights to exercise its right to purchase Additional Building Envelopes to be established on the Additional Premises in the same manner as provided above. Each Exercise Notice shall be accompanied by an architect's rendering of the approximate location of the Additional Building Envelopes, the approximate location of the private street(s) and the elevations and proposed dwelling units in respect of the Additional Building Envelopes (the "Concept Plan").

(c) Within sixty (60) days of Seller's receipt of any Exercise Notice together with the Concept Plan:

(i) Seller and Buyer shall attempt to agree upon the price of the Additional Building Envelopes identified in such Exercise Notice, any other terms of such sale, and the timetable for Buyer's acquisition of fee simple title to the Additional Building Envelopes;

(ii) Seller and Buyer shall endeavor to agree upon the exact number of Additional Building Envelopes, the configuration of the Additional Building Envelopes, the private roads, the types of dwelling units to be constructed on the Additional Building Envelopes and such other relevant aspects of the development of the applicable portion of the Additional Premises, and if Seller and Buyer shall agree on the foregoing details, a preliminary site plan acceptable to Seller and Buyer shall be prepared by Seller and submitted to the City of _____ [city] for approval (the "Preliminary Site Plan for Additional Envelopes").

If within said sixty (60) day period, Seller and Buyer shall fail to agree upon the price of the Additional Building Envelopes or the terms of such sale, the timetable for Buyer's acquisition of fee simple title to the Additional Building Envelopes, or any other matter concerning such Additional Building Envelopes which requires the agreement of Seller and Buyer, or if Seller and Buyer shall fail to agree upon and submit the Preliminary Site Plan for Additional Building Envelopes to the City of _____ [city], or if within one hundred twenty (120) days of Seller's receipt of such Exercise Notice and Concept Plan, Seller shall be unable, after using reasonable efforts, to obtain final approval of the City of _____ [city] with respect to the Preliminary Plan for Additional Envelopes, this option shall be null and void and of no further force or effect with respect to any portion of the Additional Premises (including the portion affected by such Exercise Notice and Preliminary Site Plan for Additional Envelopes) not yet acquired by Buyer.

(d) In the event the foregoing conditions have been satisfied, Buyer shall have the right to cause the Additional Building

Envelopes established on the Additional Premises under the terms of this purchase option to be conveyed by Seller to Buyer at the price and on the terms agreed upon by Seller and Buyer pursuant to this Section 12, and in accordance with Sections 3, 4, 7, 8, 9 (except that the timetable shall be modified in accordance with the agreement of Seller and Buyer and any reference therein to the Building Envelopes shall be deemed to include the Additional Building Envelopes), 10 and 13 through 22 hereof.

13. No Partnership

Seller and Buyer are not and shall not become partners or joint venturers by this Agreement or by any rights or obligations set forth herein.

14. Force Majeure

If either Seller or Buyer is prevented or hindered from timely satisfying any provisions set forth herein because of a shortage or inability to obtain materials or equipment, strikes or other labor difficulties, governmental restrictions, fire, casualties, Acts of God, or any other cause beyond such party's reasonable control, said party shall be permitted an extension of time of performance by the number of days during which such performance was prevented or hindered.

15. Seller's Right of First Refusal

Buyer agrees that none of the Building Envelopes or the Additional Building Envelopes (herein collectively the "Envelopes"), except those on which residential dwellings have been erected, will be sold or offered for sale unless said Envelopes are first offered to Seller for purchase at the original price paid by Buyer to Seller plus Buyer's carrying costs. Seller shall have thirty (30) days after receipt of written notice from Buyer to repurchase the Envelopes. If Seller elects to make such repurchase, Buyer shall convey to Seller the Envelopes by Limited Warranty Deed, free and clear from all liens, restrictions, reservations, easements, conditions or other encumbrances, except such restrictions, reservations and easements which existed at the time of the conveyance of the Envelopes to Buyer hereunder and any Note and Mortgage in respect of such Envelopes shall be cancelled by Seller.

16. Real Estate Commission

Buyer represents and warrants that Buyer has not dealt with any real estate broker or agent in connection with this transaction and no real estate commission is payable in connection herewith which is due to any act by him.

17. Binding Effect

Buyer may not transfer, convey or assign its rights and interests under this Agreement without the prior written consent of Seller; provided, however, Buyer may designate, as his nominee, a partnership, limited liability company, or corporation owned or controlled by Buyer to acquire title to any Building Envelope or Additional Building Envelope which Buyer shall be entitled to acquire hereunder. Subject to the immediately preceding sentence, the covenants, conditions and agreement made and entered into by the parties hereto shall be binding upon and inure to the benefit of the heirs, successors, administrators, representatives and assigns of the respective parties hereto.

18. Entire Agreement

This Agreement contains the entire agreement between the parties and no statement or representation of the respective parties hereto, their agents or employees, made outside of this Agreement and not contained herein shall form a part hereof or be binding upon the other parties hereto. This Agreement shall not be changed or modified except by written instrument signed by the parties hereto.

19. Notices

Any notice and other communication required or permitted to be given hereunder by either party hereto to the other party hereto shall be in writing and shall be deemed to have been properly given, upon personal delivery, or three (3) days after deposit in the United States mail, certified, registered or express mail, postage prepaid, return receipt requested, and addressed to such other party hereto as follows:

Seller: Suburban Development Corp.

 Attn:

Buyer: Joseph Roudabush

or to such other address or such additional party as may be designed from time to time by such other party hereto by notice given in the manner provided in this Section 19.

20. Remedies

Upon Buyer's failure to perform any term, condition, covenant or obligation of this Agreement on the part of Buyer to be performed, and if such failure shall continue for ten (10) days after Buyer receives written notice of such failure from Seller, Buyer shall be in default hereunder, and Seller shall be entitled to all of the remedies available to Seller at law or in equity, including without limitation, the remedies set forth in Section 9(b); provided, however, the period during which Buyer may cure defaults under Section 9(a) hereof and Seller's remedies for Buyer's default in the performance of its obligations under Section 9(a) shall be limited to and governed by Section 9(b) hereof.

21. Governing Law

This Agreement shall be governed by and enforceable in accordance with the laws of the State of Ohio. The representations, warranties and covenants contained herein shall survive each Closing Date.

22. Replat of Premises or Additional Premises

Without the prior written consent of Seller, Buyer shall not, after acquiring title to any portion of the Premises or Additional Premises, replat, or institute any proceedings or take any action whatsoever to replat, any portion of the Premises or the Additional Premises.

The parties have executed this Agreement as of the date first written above.

Chapter 22 DEVELOPMENT AND SUBDIVISION

Part IV. FORMS

A. ACQUISITIONS FOR DEVELOPMENT AND SUBDIVISION

26-22 Current Legal Forms for Real Estate FORM 22.19

FORM 22.19 Modification agreement for a real estate development contract

COMMENT

Many real estate development contracts contain contingency provisions which allow the purchaser or tenant to be relieved of its obligations under the contract if a particular problem or some unfavorable condition is found to exist on the premises, or if a specified event occurs or does not occur. Typically, the contingency clause provides that the contract may be cancelled if an inspection reveals some highly unfavorable condition or other problem.

The following is a list of items that commonly form the basis of a contingency provision in a real estate contract for the construction, sale or lease of a structure(s):

- (1) results of a radon gas inspection;
- (2) results of an asbestos insulation inspection;
- (3) results of a urea formaldehyde insulation inspection;
- (4) results of a wood-boring insect inspection;
- (5) results of a mold or fungal growth inspection;
- (6) results of a lead-based paint inspection;
- (7) results of an environmental site assessment;
- (8) results of a septic system inspection;

- (9) results of well water quality and quantity tests;
- (10) results of soil suitability tests;
- (11) the purchaser or tenant is unable to secure a means of solid waste removal;
- (12) the purchaser or tenant is unable to secure access to the public sewer system;
- (13) the purchaser or tenant is unable to secure access to the public water system;
- (14) a potable source of water is unavailable at the development site;
- (15) the transaction is contingent upon the parties receiving approval from the federal government to drain or fill a protected wetland;
- (16) the transaction is contingent upon the parties receiving all necessary governmental approvals (e.g., zoning and planning board, historic district, environmental conservation district, subdivision approval, etc.).

Frequently when a contingency fails, the parties are still interested in completing the transaction, but only if the terms of the original contract are modified. A modification agreement is the vehicle by which the parties change the relevant terms of the original contract that now require adjustment. Modification agreements typically provide for the remediation of the problem or adverse condition that triggered the failure of the contingency in the first place. The modification agreement normally sets forth, at a minimum:

- (1) the identity of the party responsible for taking the necessary remedial action;
- (2) when the action is to occur;
- (3) the identity of the party responsible for payment;
- (4) standards which the repairmen must meet;
- (5) an allocation of risk of loss while the repair work is being done; and
- (6) insurance requirements.

Generally speaking, when a modification agreement to a real estate sale contract is drafted, one of two approaches is followed by the parties. Either the purchaser agrees to handle the cost of repairing whatever is wrong with the property (with the purchase price lowered in an amount equal to that cost), or the seller agrees to assume the cost, with no increase in the sale price. Both of these approaches are demonstrated in the form that immediately follows.

FORM

AGREEMENT made this day of _____ [date] between _____ [name], residing at _____ [address] (hereafter referred to as "Seller"), and _____ [name], residing at _____

_____ [address] (hereafter referred to as "Purchaser").

W I T N E S S E T H:

WHEREAS, the parties hereto entered into an earlier agreement dated _____ [date], for the purchase and sale of the real property and premises commonly known as _____ [insert description of property and/or its street address, including city, state and zip code] (hereafter "property"); and

WHEREAS, the agreement contains a contingency in Paragraph No. _____ thereof for a _____ [e.g., satisfactory asbestos inspection]; and

WHEREAS, the inspection report dated _____ [date], shows _____ [e.g., the presence of friable asbestos]; and

WHEREAS, Purchaser has the right to cancel the agreement, but instead the parties desire to modify the agreement,

NOW, in consideration of the mutual promises contained herein, it is agreed as follows:

Alternative One: Purchaser Responsible for Remedial Action

1. The agreement dated _____ [insert date of original contract], shall be amended as follows:

(a) The purchase price, as set forth in Paragraph No. _____ thereof, shall be reduced by _____ Dollars (\$ _____) to the sum of _____ Dollars (\$ _____). Purchaser shall accept the property in its "as is" condition. Purchaser shall be fully responsible for taking whatever action may be required to repair the condition set forth in the inspection report dated _____ [date], after the transfer of title occurs.

(b) Purchaser shall indemnify and hold Seller harmless for any and all claims for injury to person or property occurring from the date of transfer of title onward and arising out of, or in any way related to, the condition of the property, the repair thereof, or the failure to repair.

2. All other provisions of the said agreement dated _____ [insert date of original contract], shall remain in full force and effect, except as amended herein. In the event of any conflict, the provisions of this modification shall supersede and take precedence over any provisions contained in the original agreement dated _____ [date].

OR:

Alternative Two: Seller Responsible for Remedial Action

1. The Agreement dated _____ [insert date of original contract], shall be modified as follows:

(a) It shall be the responsibility of Seller to _____ [e.g., remove the friable asbestos insulation located on the premises], as noted in the inspection report dated _____ [date].

(b) The parties shall obtain an estimate for the work to be performed from a contractor to be agreed upon. If the parties cannot agree upon a contractor, they shall each obtain a sealed estimate from a reputable contractor. The contractor submitting the lower bid shall be selected. Seller shall enter into an agreement for the work to be performed within

_____ [e.g., five (5)] days after the opening of the bids.

(c) The work to be performed is described in Schedule "A", which is annexed hereto and made a part hereof.

(d) Seller shall be responsible for the cost of work to be performed, up to the sum of _____ Dollars (\$_____). Any cost above that shall be the responsibility of Purchaser. In the event that Purchaser shall have financial responsibility hereunder, he/she shall be a party to the agreement with the contractor. The liability of the parties hereto for payment to the contractor shall be specified in the agreement with the contractor.

(e) The agreement with the contractor shall require that he/she/it maintain liability insurance in at least the amount of _____ Dollars (\$_____) [e.g., \$1,000,000]. That agreement shall further provide that Seller--and Purchaser, should he/she be a party to the contract--shall be an additional named insured. That agreement shall further contain a hold harmless provision protecting Seller and Purchaser from any liability for injury to person or property arising out of the contractor's work. The contractor shall be required to provide a certificate of insurance prior to commencing work.

(f) Upon completion of the contractor's work and prior to his/her/its receipt of payment, an additional inspection shall be performed by the same party who performed the inspection dated _____ [date]. This new inspection shall be performed at the expense of Purchaser. If the inspection shows the problem to be fully remediated, the contractor shall be paid. The parties hereto shall then proceed toward transfer of title as set forth in the original agreement.

If the problem has not been fully eliminated, the contractor shall be required to continue his/her/its performance until he/she/it has fully eliminated the problem, or until a good faith effort shows that the problem cannot be eliminated even though the work in Schedule A has been properly completed. Purchaser shall pay for all inspections required under this paragraph.

If, after the work described in Schedule A has been completed and all good faith efforts have been expended, the problem still has not been eliminated, Purchaser may elect to terminate this modification agreement and the original agreement. Purchaser shall give notice of election to terminate as specified in the original agreement dated _____ [date], at page no. _____. Purchaser shall nevertheless be obligated to pay any sums due under Paragraph 1(d) hereof.

(g) Seller agrees to provide access to the property to the contractor, the inspector, their agents and employees at all reasonable hours.

2. All other provisions of the said original agreement dated _____ [date], shall remain in full force and effect, except as modified herein. In the event of any conflict, the provisions of this modification shall supersede and take precedence over any provisions contained in the original agreement dated _____ [date].

The parties hereto have set their hands the day and year first above written.

Current Legal Forms for Real Estate

Chapter 22 DEVELOPMENT AND SUBDIVISION

Part IV. FORMS

A. ACQUISITIONS FOR DEVELOPMENT AND SUBDIVISION

26-22 Current Legal Forms for Real Estate FORM 22.20

FORM 22.20 Release agreement terminating existing real estate contract

COMMENT

The parties to an agreement often include one or more contingencies in the contract. For example, an agreement for the sale of real property will typically be made contingent upon the buyer obtaining a mortgage loan with an interest rate and other terms acceptable to buyer, and a commercial lease may be made contingent upon the tenant securing a favorable contract with a private trash hauler.

If contingencies cannot be fulfilled within a particular time period, the purchaser or tenant will have the right to terminate the agreement and walk away from the deal. Upon the failure of a contingency, the parties will often negotiate a modification agreement, in effect "resurrecting" the original transaction with certain changes in the terms. (See the preceding form, No. 22.19, for a sample modification agreement.)

However, the nature of certain contingencies is such that if the contingency fails, the purchaser or tenant will probably have no interest in negotiating a modification agreement. Examples include: (1) where the transaction is contingent upon the purchaser or tenant obtaining certain necessary governmental approvals, and such approvals are not granted; and (2) where the transaction is contingent upon the results of an environmental site assessment, which ultimately reveals the existence of a severe environmental problem on the premises.

The form that follows is intended for use under such circumstances in order to terminate the existing real estate sale agreement. It also contains a confidentiality provision requiring the erstwhile purchaser or tenant to remain silent about its reason for terminating the deal. Such a clause is designed to protect the seller or lessor from the ill effects of adverse publicity. The seller or lessor will be hard pressed to find a new buyer or tenant for the property if word spreads

throughout the community about the reason why the deal failed.

FORM

RELEASE made this day of _____ [date], between _____ [insert name of seller], residing at _____ [address] ("Seller"), and THE CORPORATION, a corporation existing under the laws of the State of _____ [state], with offices for the transaction of business at _____ [address] ("Purchaser").

WHEREAS, the parties hereto entered into an earlier agreement dated _____ [insert date of original contract], for the purchase and sale of property commonly known as _____ [insert street address or other description of the property's location, including city, state and zip code] and more particularly described in said agreement; and

WHEREAS, said agreement contained a contingency in Paragraph No. _____ for _____ [e.g., an environmental site assessment ("ESA") to be performed by Worldwide Scientific Company (Worldwide)]; and

WHEREAS, _____ [e.g., the ESA was timely performed by Worldwide, but Worldwide was unable to render an opinion that there did not exist any evidence of an adverse environmental impact]; and

WHEREAS, Purchaser gave timely notice of the failure of the contingency, pursuant to Paragraph No. _____; and

WHEREAS, the parties wish to release each other and clarify their rights and obligations;

It is, therefore, agreed as follows:

1. *Release.* The parties, for themselves, their heirs, successors and assigns, hereby release each other from any further obligation under said agreement dated _____ [date].
2. *Parties have no more rights under original contract.* Each party acknowledges that it has no further rights under the said agreement dated _____ [date].
3. *Return of deposit.* Upon execution of this release, the Purchaser's deposit of _____ Dollars (\$ _____) shall be delivered to Purchaser by the real estate broker, namely, Realty, Inc.
4. *Confidentiality clause.* Purchaser agrees for itself, its successors, heirs and assigns to refrain from disclosing to any individual, partnership, corporation or other entity any information _____ [e.g., that is contained in the Worldwide report or any information learned as a result of the inspections made by Worldwide]. Purchaser acknowledges that release of such information could have a serious impact on the value of Seller's property and upon Seller's ability to conduct business. Seller shall be entitled to injunctive relief and monetary damages in the event that Purchaser violates the provisions of this Paragraph 4.
5. *Seller to make best efforts to remedy problem plaguing property.* Seller represents that he/she will make his/her best efforts to learn more about the problem with the property and take steps to remediate the problem, if possible. However, Seller is not committed to take any particular course of action. Failure of Seller to take action does not relieve Purchaser of the confidentiality requirements under Paragraph 4 hereof.

_____ [Add, if appropriate:]

6. *Purchaser has returned copy of environmental site assessment.* Purchaser represents that it has returned its copy of the ESA report to Seller. Purchaser further represents that it has not made any photocopies or disseminated any copies or information to any third party.

The parties hereto have set their hands the day and year first above written.

Current Legal Forms for Real Estate

Chapter 22 DEVELOPMENT AND SUBDIVISION

Part IV. FORMS

A. ACQUISITIONS FOR DEVELOPMENT AND SUBDIVISION

26-22 Current Legal Forms for Real Estate FORM 22.21

FORM 22.21 Mutual easement agreement between purchaser and seller of land--each party may travel across other party's land in order to gain access to its own land and to public roadway

COMMENT

Nature and purpose of easement.

The parties to this agreement are the seller and purchaser of land named in a separate, earlier agreement. That agreement provides for the sale and purchase of raw land which the purchaser intends to develop into a residential real estate project. Under that separate agreement, the purchaser is entitled to pay for, and take title to, the seller's land in *sections*. However, the parties have recognized their mutual need to be able to cross the land owned by the other in order to gain access to their respective properties and to a public roadway serving the entire development. Accordingly, the agreement below provides for such mutual access until the time when: (1) the purchaser owns all of the land in question; or (2) all of the land--including any retained by the seller--has access to the public roadway serving the development.

Termination of agreement.

Each party also has the right to terminate this easement agreement upon the giving of notice to the other; that notice, however, must be provided long before the termination takes effect. This clause protects each party from unfair or abusive treatment at the hands of the other. It also allows the parties a substantial amount of time in which to renegotiate this easement agreement and (hopefully) resolve whatever dispute led to the termination. Alternatively, the lengthy span between notice and termination may provide the non-terminating party with enough time to find another access route to the public roadway.

Use of roads in the development.

This agreement allows each party free access across the other's property until such time as roadways are laid out on subdivision maps. In other words, each party may drive or walk across the other's undeveloped land for the time being. However, once the development's roads have been clearly delineated on subdivision maps, access must be confined to these areas. This provision will prevent damage to lots which are due to be marketed soon to prospective home buyers. It will also protect future home buyers from having the seller or the purchaser (as well as their employees and agents) drive or march through the newly-sold lots on the way to their property.

Insurance, indemnification and hold harmless provisions.

Each party also agrees to obtain liability insurance in case anyone is injured while crossing that party's property in route to the other party's property. The parties also exchange hold harmless and indemnification clauses.

Recording the easement.

The easement is recorded with the county clerk's office so that it will run with the land. It is to be recorded against both the purchaser and the seller as grantees and grantors. In this way, the recording will serve as notice to all future purchasers of lots within the development.

FORM

AGREEMENT made this day of _____ [date], between ENTERPRISES, INC., a corporation existing under the laws of the State of _____ [state], with offices for the transaction of business at _____ [address] (hereafter referred to as "Seller"), and DEVELOPMENT, LTD, a corporation organized under the laws of the State of _____ [state], with offices for the transaction of business at _____ [address] (hereafter referred to as "Purchaser").

W I T N E S S E T H:

WHEREAS, the parties hereto have entered into an agreement dated _____ [date], whereby Seller agrees to sell and transfer certain property located in the Town of _____ [town], State of _____ [state], to Purchaser; and

WHEREAS, the Purchaser has the ability to accept transfer of title on portions of the property at various times; and

WHEREAS, Seller may, from time to time, need to cross land which has been transferred to Purchaser in order to reach land which the Seller has retained; and

WHEREAS, Purchaser may, from time to time, need to cross land which the Seller has retained in order to reach land which the Purchaser owns; and

WHEREAS, it is the desire of the parties to establish their mutual rights and responsibilities,

NOW, in consideration of the mutual promises contained herein, it is agreed as follows:

1. *Easement established for Seller's benefit.* Until such time as Purchaser has completed its subdivision maps and provided copies thereof to Seller, Seller may cross and recross Purchaser's land at any spot in order to reach land retained by Seller.

Upon completion of the subdivision maps and regardless of whether such maps have received municipal approval, Purchaser shall provide copies of said maps to Seller. Upon receipt of such maps, Seller shall confine itself, its agents and invitees to crossing Purchaser's land at the approximate location of future roadways. Once such roadways are physically staked out on the land, Seller shall confine itself, its agents and invitees to the staked-out roadways for such crossings.

Purchaser shall have the right to alter the subdivision maps from time to time as its plans are altered, or as directed by the municipality. Seller shall abide by the modified plans upon receipt of them.

2. *Easement established for Purchaser's benefit.* It is Seller's expectation that it will not be making subdivision plans at any time during the near future. However, Seller reserves the right to do so at any time. So long as Seller has not made any subdivision plans, Purchaser, its agents and invitees may cross and recross Seller's land at any spot. However, in the event that Seller does make subdivision plans, Seller may follow the provisions of Paragraph 1 above in order to restrict the location of Purchaser's crossings of Seller's land.

3. *Neither party to interfere with other party's use and enjoyment of its land.* Each party, for itself, its successors, assigns, agents and invitees, agrees to cross the land of the other party without interfering with any use or enjoyment which such other party is making of said land.

4. *Neither party to damage other party's land.* Each party, for itself, its successors, assigns, agents and invitees, agrees not to cause or allow damage to the land of the other party as a result of its crossings. In the event that damage to the land of the other party does occur, the party causing or allowing the damage to occur shall promptly repair the damage at its sole expense.

5. *Indemnification and hold harmless granted by Seller to Purchaser.* Seller, for itself, its successors, assigns, agents and invitees, shall indemnify and hold Purchaser, its successors, assigns, agents and invitees, harmless against any claim for injury to person or property which occurs, or is alleged to have occurred, during the course of a crossing of Purchaser's land by Seller, its successors, assigns, agents and invitees. This shall include any settlement, judgment and costs of defense, including legal fees and disbursements.

6. *Indemnification and hold harmless granted by Purchaser to Seller.* Purchaser, its successors, assigns, agents and invitees, shall indemnify and hold Seller, its successors, assigns, agents and invitees, harmless against any claim for injury to person or property which occurs, or is alleged to have occurred, during the course of a crossing of Seller's land by Purchaser, its successors, assigns, agents and invitees. This shall include any judgment, settlement and costs of defense, including legal fees and disbursements.

7. *Duration of easement.* This easement shall continue until such time as Seller shall have transferred to Purchaser all land specified in the sale and purchase agreement dated _____[date], or until such time as all land subject to this agreement shall have its own direct access to a publicly owned roadway.

8. *Termination of easement by either party.* This easement may be terminated by either party, through the giving of written notice to the other party of the first party's intent to terminate, no earlier than _____[e.g., six (6)] months prior to the effective date of termination. Said notice shall specify the effective date of termination.

9. *Automatic termination of easement.* This easement agreement shall automatically terminate in the event that the sale

and purchase agreement dated _____[*date*], is terminated without the transfer of title to any parcel of land to Purchaser.

10. *Each party to carry liability insurance.* Each party shall carry liability insurance on the subject premises in at least the amount of _____ Dollars (\$_____) _____[*e.g.*, \$250,000] for any single injury, and at least in the amount of _____ Dollars (\$_____) _____[*e.g.*, \$1,000,000] in the aggregate. Each policy shall name the other party as an additional insured.

11. *Recording of easement.* This easement agreement shall be recorded in the office of the County Clerk. The real property subject to the terms of this easement is described in Schedule A, which is annexed hereto and made a part hereof. The Clerk shall index this agreement against Seller and Purchaser, both as grantors and as grantees. The fees for recording shall be shared equally by both parties.

12. *Entire agreement.* This Agreement, together with the other written agreements and instruments executed concurrently herewith or pursuant to the provisions hereof, contains the entire agreement between the parties respecting the matters herein set forth and supersedes all prior agreements between them respecting such matters.

13. *Counterparts.* This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. At the trial of any matter arising under this Agreement, only one counterpart need be produced.

14. *Headings.* Paragraph headings are for purposes of convenience and identification only and shall not be used to interpret or construe this Agreement.

15. *Waiver.* The failure of any party hereto to demand performance of any act required hereunder shall not be deemed a waiver of the right to enforce such performance or any other performance required later. A waiver can only be made if it is in writing and signed by the party excusing performance. Any attempted oral waiver shall not be valid.

16. *Gender and number.* Whenever the singular or plural number, or the masculine, feminine or neuter gender, is used herein, it shall equally include the other(s).

17. *Notice.* Any notice to be given hereunder shall be in writing, signed by the party giving notice, and delivered by any one of the following methods:

- (a) personal delivery;
- (b) facsimile machine transmission;
- (c) certified or registered mail, return receipt requested; or
- (d) overnight courier service, provided that a receipt is maintained in the ordinary course of business.

Notices shall be given at the following addresses:

If to Seller:

Attn: _____

If to Purchaser:

Attn: _____

Either party may designate a new address by giving notice thereof to the other party.

18. *Governing law.* This Agreement shall be construed and enforced in accordance with the laws of the State of _____[*state*].

19. *Binding effect.* This Agreement shall be binding upon, and inure to the benefit of, the parties, their respective heirs, representatives, successors and assigns.

20. *Modifications.* This Agreement may be modified only by a written document signed by representatives of both parties. A purported oral modification shall not be effective.

The parties hereto have set their hands and seals the day and year first above written.

FORM 22.22 Agreement for acquisition of property as tenants in common--transfer restrictions--waiver of partition--three owners

COMMENT

Of special importance in the real estate joint venture, apart from financing the operation, is the assigning of responsibility for completing the construction of the improvements and for managing the property post-consultant. This may include a broad range of activities, such as subdividing and platting the property, formulating construction plans, supervising construction, installing utilities, locating tenants, hiring professionals, paying invoices, etc. A typical venture agreement deals with other subjects normally covered in partnership agreements. These are: (1) name and business; (2) terms; (3) capital; (4) profit and loss; (5) salaries and drawings; (6) interest on capital; (7) management duties and restrictions; (8) banking; (9) books; (10) voluntary liquidation; (11) retirement; and (12) death.

For additional forms relating to joint ventures and joint ownership, see Chapter 2, Joint Ventures and Business Trusts, in Volume 2, *supra*, and Chapter 20, Real Estate Entities, in Volume 24, *supra*.

FORM

AGREEMENT made this _____[date], by and among _____[insert name], residing at _____[address], _____[city], _____[state] _____[zip code]; _____[insert name], residing at _____[address], _____[city], _____[state] _____[zip code]; and _____[insert name], residing at _____[address], _____[city], _____[state] _____[zip code], hereinafter sometimes collectively referred to as the "Tenants in Common."

RECITALS

The Tenants in Common have jointly acquired the fee title to premises described on Exhibit A (the "Premises").

Each of the Tenants in Common has an equal and undivided one-third interest in the Premises.

The parties have agreed to limitations on the right and power to transfer their undivided interests and also to provide for anticipated future contributions to such common fund for the purpose of improving the premises with a suitable building.

Now, therefore, the parties agree as follows:

1. *Transfer restriction.* Each of the Tenants in Common will not dispose, transfer, devise, convey, lease, mortgage, or otherwise encumber his undivided interest in the Premises, without the written consent of the other Tenants in Common, except as provided in this paragraph and in Paragraph 2.

(a) Upon the death of a Tenant in Common, his undivided interest may be transferred to a "related individual" or to "related individuals" upon such terms as may be agreed upon with the executor or administrator of the deceased Tenant's estate or as may be provided in his will or in a separate agreement duly signed by the Tenant. Notwithstanding any such transfer to a related individual, the transferee shall not have any rights in and to the Premises except through the transferor Tenant.

(b) In the event that no transfer is made as provided in subparagraph (a) within 60 days after the appointment of an executor or administrator of the deceased Tenant's estate, then the executor or administrator shall offer the undivided interest for sale to the other Tenants in Common at the "computed value." Each Tenant in Common shall have the right to purchase a "proportionate share" of the undivided interest. Payment for the undivided interest shall be made within 30 days after the determination of the "computed value" unless within the 30-day period arrangements for deferred payment are agreed upon. In the event that the undivided interest of the seller are not purchased by the other Tenants in Common, then the undivided interest shall be free of all restrictions under this agreement. Nothing herein contained shall be deemed to waive the provisions of Paragraph 3.

2. *Transfer to related individual.* Each of the Tenants in Common shall have the right to transfer to a "related individual" or to "related individuals" a share or all of his undivided interest in the Premises, in which event the party making the transfer shall deliver to the other parties to this agreement within 30 days of the making of the transfer, a copy of each and every instrument providing for the transfer. In the event of such transfer, the other parties to this agreement need not consult with or seek the approval of the transferee, and in all matters the consent of the transferor Tenant shall be binding and conclusive upon all such transferees.

3. *Partition.* Each of the Tenants in Common irrevocably waives any and all right that he may have to maintain any action for partition with respect to his undivided interest in the Premises or to compel any sale thereof under any applicable laws now existing or subsequently enacted.

4. *Improvement of premises.* Any improvement, sale, or mortgaging of the Premises may be made only of the entire Premises and then only upon the written consent of all Tenants in Common. However, if two (2) of the Tenants in Common vote to improve, sell or mortgage the Premises, said two (2) may acquire the interest of the remaining Tenant in Common by paying him the computed value as set forth in subparagraph (b) of Paragraph 1, above. Each of the Tenants in Common shall from time to time advance or cause to be advanced, on a pro rata basis, moneys to a common fund as such moneys shall from time to time be required to pay for the maintenance and operation of the Premises,

including interest and principal on mortgage liens, and for the cost of any improvement. Should any Tenant in Common for any reason fail or refuse to advance or cause to be advanced his pro rata share of moneys required, then and in that event, the other Tenants or Tenant in Common, as the case may be, shall have the right to acquire the interest of the delinquent Tenant in Common at "computed value" as provided in subparagraph (b) of Paragraph 1, above. In the computation for this purpose the value of any real estate and interests in real estate, including mortgages and leasehold improvements, shall be the book value as shown on the regular books of account without any adjustment for any agreed or appraised value.

5. *Profit and loss.* The profits and losses from the operation of the Premises shall be shared equally by the Tenants in Common.

6. *Voting.* In all matters coming before the Tenants in Common for a vote, each Tenant in Common shall have a vote that is directly proportionate to his right to share in the profits and losses from the operation of the Premises. (Thus, for example, if there are three Tenants in Common, each of whom is entitled to an equal, one-third share of the profits and losses, then each such Tenant in Common receives a single vote.) In the event of a transfer of the interest held by a Tenant in Common to related individuals, the transfer shall include voting rights in direct proportion to the interest transferred to each such related individual.

All matters which must be acted upon shall be decided by a simple majority vote, except as otherwise set forth in this agreement.

7. *Termination.* This agreement shall terminate on the sale of the Premises and the distribution to the Tenants in Common of the net proceeds of the sale, or at such other times as the parties may agree in writing.

8. *Definitions of terms.* The following terms shall have the meanings and definitions as set forth below:

(a) "Related individual" or "related individuals" shall mean brothers, sisters, spouses, lineal descendants, spouses of lineal descendants, trustees for the benefit of any such persons, and corporations owned or controlled by any of the foregoing.

(b) "Proportionate share" shall mean that portion of the undivided interest in the Premises offered for sale which the undivided interests owned by a Tenant in Common and his "related individuals" bears to all of the undivided interests in the Premises, other than that offered for sale.

(c) "Computed value" shall mean the value of the undivided interests in the Premises as computed by the regularly retained certified public accountants of the Tenants in Common. Such computation shall be binding and conclusive upon the parties. The computation shall be made in accordance with generally accepted accounting practices consistently applied and the following shall be observed:

(1) The computation shall be made as at the last day of the month preceding the month in which the event occurred conferring the right to purchase.

(2) No allowance of any kind shall be made for goodwill or any similar intangible asset.

(3) All accounts payable shall be taken at face amount, less deductible discounts, and all accounts receivable shall be taken at face amount, less discounts to the payors and a reasonable reserve for bad debts.

(4) Inventory of merchandise and supplies shall be computed at cost or market value, whichever is lower.

(5) All unpaid and accrued federal, state, city, or other local taxes and assessments, including, but not limited to, sales, payroll, unemployment insurance, excise, franchise, income, capital stock, real estate, sewer, and water taxes, shall be deducted as liabilities.

(6) All of the assets shall be valued as shown on the regular books of account, except that real estate and interests in real estate, including mortgages and leasehold improvements, shall be computed at a value to be agreed upon by the participants.

(7) In the event that the participants do not or cannot, for any reason, agree upon a value for real estate and interests in real estate, including mortgages and leasehold improvements, then and in that event, the following procedure shall be adopted for the determination of the "computed value" of those assets and for the payment thereof: The parties shall first determine if they have at any time within the preceding five months executed any agreement in writing or certificate in writing fixing the value as among themselves for the particular assets, or for any portion thereof. If there is such a writing, then as to the covered assets, the value fixed in the controlling agreement shall be controlling for the purpose of fixing "computed value" with respect thereto. As to the assets for which a "computed value" is thus determined, payment shall be made within 30 days after the determination of "computed value," and that payment shall be made within such period notwithstanding the fact that an appraisal may be required in order to fix the "computed value" of other assets.

(8) As to any real estate and interest in real estate, including mortgages and leasehold improvements, for which there is no controlling agreement of "computed value," an appraisal shall be made as promptly as feasible in the following manner: The Seller shall designate one of the following five appraisal firms:

_____ [insert name of any appraisal firms]. The Purchaser shall designate a second appraiser from the above list. These two appraisers shall fix a value for the real estate and interests in real estate. If they cannot agree, then they, together, shall appoint a third appraiser from the above list, or if they are unable to agree upon a third appraiser, then the President of the Real Estate Board of the City of

_____ [city] shall designate the third appraiser from the above list, or if he should fail or refuse to act, then the President of the Bar Association of the City of

_____ [city] shall designate the third appraiser from the above list. The decision of the majority of the three appraisers so selected shall be conclusive and binding upon the parties. All fees and expenses of all the appraisals shall be shared equally by the Seller and the Purchaser.

(9) The parties acknowledge that the prompt determination of "computed value" is of great importance to all concerned. Any action required by them, or any of them, with respect to the determination of "computed value" will be taken with the utmost dispatch and diligence.

9. *Effect on transferee.* Whenever any party to this agreement or any "related individual" or any other person acquires any interest in the Premises, the interest acquired shall be subject to all of the terms of this agreement with the same force and effect as if the party, "related individual," or person had owned the interest at the time of the execution of this agreement and had in fact signed this agreement at that time.

10. *Binding effect.* This agreement contains the entire understanding between the parties and may not be changed or modified orally. Except as otherwise provided in this agreement, this agreement shall inure to the benefit of and shall be binding upon the heirs, personal representatives, and assigns of the parties.

The parties have caused these presents to be duly signed and sealed the day and year first above written.

26-22 Current Legal Forms for Real Estate FORM 22.23

FORM 22.23 Tenancy in common--ownership by two entities--income--producing property

COMMENT

This form is an agreement between two entities. This agreement provides that each owner shall have an equal say in management without regard to the percentage of ownership which each owner has in the enterprise. Given this management structure, the agreement contains dispute resolution provisions. This agreement also provides for a forced buy-out in the event the parties cannot get along. Furthermore, this agreement provides one of the owners with a development fee in connection with certain improvements which are anticipated at the property.

For additional forms relating to joint ventures, see Chapter 20, Real Estate Entities, in Volume 24, *supra*.

FORM

JOINT OWNERSHIP AGREEMENT

THIS JOINT OWNERSHIP AGREEMENT is entered into this _____[day] day of _____[month], _____[year] by and between CAB PARTNERSHIP, a(n) _____[state] partnership ("Cab") and TREND COMPANY, LLC, a(n) _____[state] limited liability company ("Trend"). Cab and Trend are hereinafter sometimes referred to singularly as an "Owner" and collectively as the "Owners."

WHEREAS, the Owners have purchased the real estate located at _____[address], _____[city], _____[state] (the "Property"); and

WHEREAS, the Owners desire to set forth their agreements, including their joint obligations and responsibilities with respect to the Property;

NOW, THEREFORE, in consideration of the mutual covenants hereinafter set forth, the parties hereby agree as follows:

1. Principal Place of Business and Office. The principal place of business and the office of Cab is _____[address], _____[city], _____[state] or such other place as may be designated by Cab written notice to the Trend. The principal place of business and the office of the Trend is _____[address], _____[city], _____[state] or such other place as may be designated by the Trend by written notice to Cab.

2. Lease. The Owners agree to enter into the lease (or separate leases) with CLIP COMPANY (the "Tenant"), a copy of which is attached hereto as Exhibit A (the "Lease"). The Owners agree that the Lease(s) will not be amended, modified, extended or terminated without the express written consent of each of the Owners. Further, each Owner agrees that when dealing with the Tenant, they will require strict adherence to the terms and conditions of the Lease.

3. Purposes of the Relationship; Powers. The sole purpose of the Owners' relationship and this Agreement is to own, develop, maintain, operate, manage, lease and otherwise deal with the Property. The parties' joint ownership of the Property is not to be construed as a partnership. Except as is specifically set forth herein, an Owner shall not have the right with respect to their interest in the Property to enter into contracts, borrow money, issue evidences of indebtedness, mortgage, pledge or otherwise grant a security interest in their interest in the Property or to sell, refinance, lease, exchange or otherwise dispose of their interest in the Property, or to bind the other owner in any way.

4. Initial Contributions. Each Owner will initially contribute towards the purchase, ownership, construction and/or maintenance of the Property the amount set forth below:

Cab	\$ _____

Trend	\$ _____

5. Cash Calls. The Owners recognize that income produced from the Property may be insufficient to pay the costs of operating the Property. If, in the reasonable judgment of the Manager (as defined below) additional funds are required in connection with the ownership of the Property, such funds shall be called for by the Manager and shall be contributed by the Owners, in proportion to their ownership interests in the Property. All funds called for by the Manager shall be due on the date prescribed in the notice of the call; provided, however, that the due date shall be not less than fifteen (15) days after the call date. If any Owner fails to timely make any or all of its proportionate contribution, then the other Owner will have the option, but not the obligation, to contribute the funds in excess of its ownership interest. The Owner who makes such additional contribution in response to a call shall be a creditor of the other non-contributing Owner in the amount of the excess. The amount outstanding will be payable on demand, and will bear interest at the rate of two percent (2%) in excess of the prime lending rate as published in the Wall Street Journal.

6. Percentage of Ownership. Each Owner will initially own in fee simple the percentage of the Property set forth below, which interest will be reflected on the Deed which conveys the Property to the Owners:

Cab	_____
	____%
Trend	_____
	____%

7. Cash Flow. Subject to the cash flow preference described in Paragraph 9, below, the joint cash flow generated by the Property (if any), less any cash reserves which the Manager reasonably determines should be maintained with respect to the Property, will be distributed to the Owners at least annually, in proportion to their fee simple ownership interest in the Property. The cash flow will be computed by the Certified Public Accounting firm engaged by the Owners to maintain the books and records relating to the Property.

8. Control and Operation of the Company; Voting

A. Except as is specifically set forth herein, the Owners will each own control and manage their interest in their portion of the Property, however any action taken by either Owner which will affect the entire Property must be expressly approved by the other Owner.

B. The day-to-day ministerial management of the Property will be the responsibility of _____ [name] (the "Manager"). The Manager shall not be paid any compensation, but shall be reimbursed from the income from the Property for all reasonable out-of-pocket expenses incurred on behalf of the Property. The rights and duties of the Manager are as follows:

(i) to take any action with respect to the Property on an emergency basis; provided time does not permit consultation with the other Owner;

(ii) to open, maintain and close bank accounts and to draw checks and other orders for the payment of money;

(iii) to collect rent and to pay expenses of the Property (provided that the Manager will not pay any expense relating to the Property in excess of _____ Dollars (\$_____) without the consent of the other Owner);

(iv) to make the cash flow distributions described in Paragraph 8, above; and

(v) to maintain or cause to be maintained complete and accurate records, and to make such records and books of account available for inspection at any reasonable time by the Owners.

C. The Manager will not have any liability to the other Owner for any mistakes or errors in judgment, or for any act or omission believed in good faith to be within the scope of authority conferred by this Agreement. The Manager shall be liable only for acts and/or omissions involving intentional wrongdoing or gross neglect. Actions or omissions taken in reliance upon the advice of legal counsel approved by the Manager as being within the scope conferred by this Agreement shall be conclusive evidence of good faith; provided, however, the Manager will not be required to procure such advice to be entitled to the benefit of this and the preceding sentences.

9. Development and Development Fee. Cab will supervise the improvements to the existing building on the Property, and construction of the addition (collectively, the "Development"), which are required by the Lease. The Owners will jointly approve all budgets, contracts and financing, but Cab will be responsible for the implementation and supervision thereof. For its services hereunder, Cab will be entitled to receive a development fee equal to _____ percent (_____) of the cost of the Development, which development fee will be paid from the rents of the Property prior to the distribution of any cash flow to the Owners. In addition, Cab is hereby authorize to engage _____ [name] as the inspection and supervising agent for the Development, whose fee will be paid for by the Owners from the initial contributions, financing proceeds, or rents.

10. Dispute Resolution

A. Generally. In the event that a dispute of any kind arises in connection with this Agreement or the operation or management of the Property (including, without limitation, an allegation by one of the Owners that they are deadlocked because they are unable to reach a unanimous decision on an issue), the Owners will attempt to resolve the dispute as set forth in Paragraph B, below, before proceeding to arbitration as provided in Paragraph C, below. The Owners waive all rights to seek remedies in any court (except to enforce the decision or award of the Arbitrators) and the right to jury trial. All documents, discovery and other information related to any such dispute, and the attempts to resolve or arbitrate such dispute, shall be kept confidential to the fullest extent possible.

B. Notice of Desire for Arbitration. If a dispute arises, an Owner may give written notice to the other Owner of its desire to have the dispute resolved by arbitration. After such notice has been given, the Owners, in good faith, shall attempt to negotiate a resolution of the dispute through an independent mediator selected by the parties, or if no agreement can be reached, by an independent mediator selected by _____[name].

C. Arbitration. If, within twenty (20) days after the notice provided in Paragraph B, above, has been given, the dispute is not resolved through negotiation or mediation, the dispute shall be arbitrated. The Owners agree to settle the dispute exclusively by binding arbitration in accordance with the following provisions:

1. Selection of Arbitrator. The Owners shall unanimously agree to the selection of one arbitrator. If no such agreement is reached within thirty (30) days after the notice provided in Paragraph B, above, has been given, the Owners shall request that the American Arbitration Association submit a panel of ten arbitrators who are qualified in such matters from which the choice shall be made. The Owners shall draw straws and the Owner drawing the shortest straw shall strike first, then each Owner will alternatively strike. Each Owner shall strike a name until one name remains. The Owners may, by unanimous agreement, reject one entire list and request a second list. If selection by the above method is not completed within forty-five (45) days after the notice provided in Paragraph B, above, has been made, then an arbitrator shall be selected by the American Arbitration Association. That arbitrator shall then arbitrate the dispute in _____[city], _____[state], and issue a decision.

2. Rules for, and Effect of, Arbitration. The arbitration shall be conducted under the Commercial Arbitration Rules of the American Arbitration Association. The arbitrator shall have no ability to add, change or delete provisions of this Agreement, and shall be required to interpret the terms of this Agreement as they exist. The decision of the arbitrator shall be final, binding and non-appealable, absent fraud or manifest error on the part of the arbitrator. Judgment on the decision may be entered in, and enforced by, any court, state or federal, having jurisdiction.

3. Costs. The cost of any arbitration, including the fees and expenses of the arbitrator, shall be shared equally by the Owners. Each Owner shall bear its own costs, expenses and attorney's fees.

11. Forced Sale. If an Owner desires to sell any portion of its interest in the Property, then the Owner desiring to sell such interest will establish a price and terms upon which the selling Owner is willing to sell such interest. The selling Owner shall then present such proposal to the other Owner. The other Owner will have thirty (30) days to either accept or reject such offer. Failure to respond to a notice hereunder will be deemed to be a rejection of such offer. If the other Owner accepts such offer, then the interest will be purchased pursuant to such terms. If the other Owner rejects such offer, then the selling Owner will be required to purchase and the rejecting Owner will be required to sell, the rejecting Owner's interest on the same terms and conditions of the original proposal, save and except any adjustment which must be made to the purchase price in order to reflect the differing ownership percentages, if any, in the Property. In addition, any money owed to an Owner pursuant to Paragraph 5, above, will be paid at the closing of the sale of the interest hereunder. Such purchase shall take place within thirty (30) days of the rejection of the original offer. The provisions of this Paragraph constitute the only method or means under which an Owner may sell or convey such Owner's interest in the Property without obtaining the express written consent of the other Owner. The provisions of this Paragraph 11 may not be invoked before the two (2) year anniversary hereof. In addition, the Owners acknowledge that the Lease contains

a Right of First Refusal in favor of the Tenant, and that the operation of this Paragraph 11 is not subject to the Right of First Refusal contained in the Lease.

12. Prohibition Against Liens and Encumbrances. Each Owner agrees that they will not allow their interest in the Property to become subject to any lien or encumbrance, without the express written consent of the other Owner. In the event that an interest in the Property becomes encumbered, including, without limitation, becomes subject to a judgment lien, the Owner whose interest becomes so encumbered, will within thirty (30) days from the perfection of such encumbrance, take whatever action is necessary to have such encumbrance released with respect to the Property.

13. Amendments. This Agreement may be amended only with the written approval of the Owners. Any such amendment shall be set forth in a writing, signed by all of the Owners.

14. Notices. All notices, consents or other instruments hereunder shall be in writing and mailed by United States mail, postage prepaid, and shall be directed to the parties hereto at the last addresses of the parties furnished by them. The Owners shall have the right to designate a new address for receipt of notices by notice addressed to the Owner and mailed as aforesaid.

15. Other Activities of the Owners. The Owners may engage in or possess an interest in any other business venture of any nature and description, independently or with others, including, but not limited to, the real estate business in all its phases, which shall include, without limitation, ownership, operation, management and development of real property. Neither party shall have any rights in and to such independent ventures or the income or profits derived therefrom.

16. Obligations and Rights of Transferees. Any person who acquires in any manner whatsoever any interest in the Property, irrespective of whether such person has accepted and assumed in writing the terms and provisions of this Agreement, shall be deemed by the acceptance of the ownership of their interest in the Property to have agreed to be subject to, and to be bound by, all the obligations of this Agreement with the same force and effect as any predecessor in interest of such person. The parties may prepare a Memoranda of this Agreement and file it with the _____ [name of county] County Recorder's Office in order to give any transferee of any interest in the Property constructive notice of the terms hereof.

17. Binding Effect. This Agreement shall inure to the benefit of, and be binding upon, the parties hereto and their respective next of kin, legatees, administrators, executors, legal representatives, nominees, successors and permitted assigns.

18. Integration; Terminology. This Agreement constitutes the entire agreement among the parties hereto pertaining to the subject matter hereof, and supersedes all prior and contemporaneous agreements and understandings of the parties in connection therewith. All of the terms and provisions used in this Agreement shall be deemed and construed to include any other number, singular or plural, or any other gender, masculine, feminine or neuter, as the context or sense of this Agreement may require, unless specifically stated otherwise.

19. Governing Law. This Agreement and the rights of all parties hereunder shall be construed in accordance with the laws of the State of _____ [state].

20. Waiver of Partition. Each of the Owners hereby waive any right that such Owner may have to cause the Property to be partitioned or to file a complaint at law or in equity to cause the Property to be partitioned, sold or otherwise divided.

21. Execution. This Agreement may be executed in several counterparts, each of which shall be considered an original when executed by the Owners.

The parties hereto have executed this Joint Ownership Agreement or a counterpart hereof as of the day first written

above.

26-22 Current Legal Forms for Real Estate FORM 22.24

FORM 22.24 Agreement between current fee owner and purchaser of half interest including provision for buy--out

COMMENT

The transaction illustrated in this form involves the sale of a half interest in property with the understanding that the seller and purchaser will hold title to the entire parcel as tenants in common. The sale by the original owner will result in the realization of gain or loss, measured by the difference between one half of his adjusted basis and the purchase price received by him. The other half of his adjusted basis will be applicable to his remaining interest in the parcel. The basis to the new owner will be his cost in acquiring his half interest.

Buy--out arrangement.

One of the most important aspects of a joint ownership agreement is the arrangement for the disposition by one of the parties of his interest in the venture. Generally, a prerequisite to any such disposition is an option to purchase in favor of the other party. One of several methods may be used. Sometimes this purchase option is established in terms of a predetermined price. Generally, the option imposes an obligation to meet a bona fide offer made by a third party. This agreement approaches the buy-out problem from a different viewpoint. It gives either party the right to buy the interest of the other, but it establishes a procedure which is designed to insure a fair price. Either party may make an offer to purchase the other party's interest, provided the offer meets certain minimum conditions. The offeree has two choices: he may accept the offer; or, if he thinks the price proposed is not sufficient, he may purchase the interest of the offeror at that price. Thus, if one of the parties offers to purchase the interest of the other he runs the risk that he may become a seller, not a purchaser, if the price he proposes is too low.

For additional forms relating to joint ventures, see Chapter 2, Joint Ventures and Business Trusts,

in Volume 2; Chapter 20, Real Estate Entities, in Volume 24; and Chapter 21, Real Estate Sales and Exchanges, in Volume 25, *supra*.

FORM

THIS AGREEMENT is made _____[month] _____[day],
 _____[year], between STAN SMITH, of _____[address],
 _____[city], _____[state] ("Smith"), and GREG WILLIAMS, of
 _____[address], _____[city], _____[state] ("Williams").

WHEREAS, Smith is about to purchase from Williams an undivided one-half interest in a parcel of land consisting of 75 acres, more or less, situated in the County of _____[name of county], State of _____[state] (the "premises"), and more particularly described on Exhibit A attached hereto.

WHEREAS, the parties desire to establish certain provisions, conditions, and limitations with reference to their rights and privileges in the ownership of the premises.

IT IS THEREFORE AGREED AS FOLLOWS:

1. Declaration of Intention. Upon the closing of the transaction between them, in accordance with the terms of the Purchase Agreement, the relationship of the parties in the premises shall be as tenants in common with all the rights and privileges of such relationship in accordance with the laws of the State of _____[state], subject, however, to the terms and conditions in this agreement.

2. Appointment of Agent. The parties hereby appoint _____[name], _____[address],
 _____[city], _____[state], their agent in order to accept service of process, to receive all notices from the various governmental agencies, and for such other purposes as the parties hereto may from time to time designate.

3. Indemnity. Each party shall indemnify and hold harmless the other against all debts, liens, judgments, or charges of any nature accruing against the premises by reason of any act of the indemnifying party.

4. Payment of Taxes. Each party shall deposit his proportionate share of all taxes and other assessments that may be levied against the premises with their agent at least thirty (30) days before the due date. If either party shall fail to deposit his proportionate share of the taxes and assessments within the time specified, the other party may make the payment in full, and the amount of such payment shall then become a lien upon the share of the premises owned by the defaulting party.

5. Options to Purchase. Each party shall have the right to purchase the interest of the other party in the premises on the following terms and conditions:

(a) If either party desires to purchase the interest of the other, he may offer to do so at any time during the tenancy in common, provided the offer to purchase is based upon a minimum price of at least _____ Dollars (\$_____) per acre.

(b) The offer to purchase shall provide for a down payment of at least twenty percent (25%) of the total purchase price, with the balance payable in equal annual installments over a five-year period, with interest on unpaid balances at _____ percent (_____) per annum payable annually.

(c) If such an offer is made, the party receiving the offer shall, within thirty (30) days, either accept the offer, or make a counter-offer on the same terms and conditions as the offer.

(d) If such counter-offer is made, the party to whom it is made shall accept the counter-offer immediately.

(e) The party making an offer or counter-offer shall simultaneously deposit with _____[name], their agent, as a condition to the offer or counter-offer, an amount equal to ten percent (10%) of the proposed purchase price as earnest money for the consummation of the offer or counter-offer. If the offer or counter-offer is consummated, the earnest money shall be applied against the down payment. If either party fails to consummate his offer or counter-offer, the earnest money deposited by him shall be paid to the other party as liquidated damages.

6. Entire Agreement. This agreement supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

7. Notices. All notices under this agreement shall be in writing and delivered personally or mailed by certified mail, postage prepaid, addressed to the parties at their last known addresses.

8. Non-waiver. No delay or failure by either party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

9. Headings. Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

10. Governing Law. This agreement shall be construed in accordance with and governed by the laws of the State of _____[state].

11. Counterparts. This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

12. Binding Effect. The provisions of this agreement shall be binding upon and inure to the benefit of each of the parties and their respective heirs, executors, administrators, and assigns.

In witness whereof the parties have signed and sealed this agreement _____[month]
_____[day] _____, _____[year].

26-22 Current Legal Forms for Real Estate FORM 22.25

FORM 22.25 Tenancy in common--equal ownership by two individuals--unimproved property

COMMENT

This group of forms illustrates various joint ventures for the co-ownership of property. Generally, a joint venture is a union of two or more persons or corporations in an enterprise with well-defined restrictions on its activities. If the joint venture is involved in real estate, one of the first questions that arises is the form in which title to the real estate is to be held by the joint venturers. In many instances, title is taken in the name of all of the participants as tenants in common. In other cases, title is taken in the name of the joint venture. In some cases a nominee is designated to hold title for the benefit of the joint venture. This technical problem as to how title is to be held will often depend upon the number of participants in the joint venture and the extent of the proposed real estate activity, and must be governed by rules of local real estate law, considerations of title, control, and the practice of title insurance companies.

For additional forms relating to joint ventures, see Chapter 20, Real Estate Entities, in Volume 24, *supra*.

FORM

THIS AGREEMENT entered into on _____[*month*] _____[*day*],
_____[*year*], between Max Herald, a married man dealing with his sole and separate property
("Herald"), and David Pito ("Pito").

WHEREAS, the parties are purchasing as tenants in common the property described in Exhibit A attached hereto (the
"Property").

WHEREAS, each of the parties has an individual one-half interest in the Property.

WHEREAS, the parties desire to provide for the management and disposition of such Property.

IT IS, THEREFORE, AGREED AS FOLLOWS:

1. Down Payment and Title. The down payment, including closing costs with respect to the purchase of the Property shall be contributed equally by the parties in accordance with their respective ownership interest. Title to the Property shall be conveyed to each party as tenants in common.

2. Subsequent Contributions. Subsequent contributions of principal, interest, taxes, and all other costs or expenses on such Property shall be paid equally by each party.

3. Special Contribution. Pito shall contribute amounts not exceeding an aggregate of _____ Dollars (\$_____), for the surveying and platting thereof, and for the improvement of the access road thereon. Expenditures for such work in excess of _____ Dollars (\$_____), if any, shall be authorized only with the consent of and shall be paid equally, by both parties.

4. Sale of Property. Any decision to sell all or part of such Property shall be made by both parties. Except as hereinafter otherwise provided, the net proceeds of any sale or sales shall be distributed equally between both parties.

5. Default. Each party shall promptly contribute, when and as the same becomes due, his equal share of all future payments required to be made pursuant to the trust agreement under which the Property is being purchased, including principal, interest, taxes, and all other costs with respect to such Property. If either party is unable to pay his share of such costs, the other party is authorized to make such payment or payments so as to avoid a default under the trust agreement. All amounts so advanced by either party on behalf of the other party shall bear interest at the rate of _____ percent (_____%) per year from the date of advance, and shall be due immediately upon written demand for payment in the manner hereinafter provided. If the full amount of such advance or advances, together with interest thereon is not paid by the party for whom such advance was made, within ten days after receipt of such notice of demand for payment, then such party shall be a defaulting party hereunder. In the event of any sale of such Property, the proceeds shall be distributed equally between both parties, but a defaulting party shall in no event be entitled to receive an amount in excess of the total contributions made by such party, without interest. All other proceeds of sale shall belong to the nondefaulting party. In the event of a sale at a loss such defaulting party shall bear his one-half (1/2) share of such loss.

6. Management. All matters relating to the management and sale of the Property shall be decided by both parties, except that if either of the parties becomes a defaulting party, the other party shall have full power to make all decisions relating to the management and sale of such Property.

7. Restrictions. Neither party shall sell, transfer, mortgage, or otherwise dispose of, or encumber his undivided interest in such Property without first giving written notice to the other party of his intention to do so. The notice shall set forth the terms on which the offering party proposes to sell, transfer, mortgage, or otherwise dispose of or encumber his interest, and the identity of the person or persons to whom it is proposed to sell, transfer, or encumber such interest. The other party shall have ten (10) days after the giving of notice in which to elect to acquire the interest on the same terms and conditions that offering party desires to purchase. The purchase price shall be paid on the same terms as the original price paid by the parties pursuant to the escrow referred to in Paragraph 1, including percentage of down payment, amortization of principal balance, and interest rate. If the party to whom the notice is given does not elect to acquire the interest on the terms provided herein within the ten-day period, then the party giving the notice shall have the right to sell, transfer, mortgage, or otherwise dispose of, or encumber his interest, on the same terms as provided in the notice, for a period of thirty (30) days after the expiration of the ten-day period. After the expiration of the 30-day period, the

party giving the notice shall not sell, transfer, mortgage, or otherwise dispose of, or encumber his interest without again complying with the terms of this paragraph. If the party to whom notice is given elects to purchase, an escrow shall be established forthwith with a title company having an office in Flagstaff, Arizona, for the purpose of consummating the purchase. The escrow shall, by its terms, provide for a closing not more than thirty (30) days after its establishment.

8. Notices. Any and all notices and demands given under this agreement shall be given by registered or certified mail, return receipt requested, postage prepaid, addressed to the parties at the following addresses or at such other addresses as either or both may designate on written notice:

9. Binding Effect. This agreement shall be binding upon and shall inure to the benefit of each of the parties, and their respective heirs, executors, administrators, legal representatives, successors, and assigns.

10. Entire Agreement. This agreement supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

11. Non-waiver. No delay or failure by either party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

12. Headings. Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

13. Governing Law. This agreement shall be construed in accordance with and governed by the laws of the State of _____[state].

14. Counterparts. This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

Max Herald

David Pito

26-22 Current Legal Forms for Real Estate FORM 22.26

FORM 22.26 Tenancy in common--acquisition of leasehold by a group--operation of property--provisions for sale by owner

COMMENT

The purpose of this agreement is to govern the relationship of a group of unrelated individuals who are involved in the common ownership of property. This agreement is designed to set out the various duties and operating details. This agreement includes restrictive provisions on transfers and on sales, a provision setting up a technique for the sale of the entire property, a provision permitting a participant to borrow against his ownership interest, and a provision to take care of the possibility that an owner's interest may become subject to an involuntary lien.

For additional forms relating to joint ventures, see Chapter 20, Real Estate Entities, in Volume 24, and Chapter 2, Joint Ventures and Business Trusts, in Volume 2, *supra*.

FORM

THIS AGREEMENT made _____ [month] _____ [day],
_____ [year], among _____ [list owners] (collectively the "Owners").

WHEREAS, the Owners are about to acquire the property described in Schedule A (the "Property"), subject to the mortgage and other encumbrances recited in such Schedule A.

WHEREAS, the Owners desire to provide for the holding of title to the Property, division of the profits and losses thereon, restrictions upon disposition, management of the property, and other matters relating to their common ownership.

IT IS THEREFORE AGREED

1. Ownership. Title to the Property shall be taken in the names of the Owners as tenants in common, and the instrument of conveyance shall be duly recorded in the appropriate recording office.

2. Profits and Losses. The interests of the Owners in the Property and in its profits and losses shall be as follows:

(a) Capital. The capital interest of each of the Owners in the Property is the amount of his investment in this joint venture as set opposite his name under the heading Capital Investment in Schedule B.

(b) Profit and Loss Share. All profits and losses in the operation of the Property shall be shared and borne by the Owners in the percentages set opposite their respective names under the heading Share of Profits in Schedule B. In the event that there is a deficit at any time in the operations of the Property and it becomes necessary to obtain contributions from the Owners, each Owner shall be required, within five days after receipt of notice of such deficit, to pay an amount equivalent to his pro rata share of the deficit based upon his share of profits.

(c) Distribution on Sale. In the event of the sale of the Property, the net proceeds of sale shall be distributed as follows:

(1) Adjusted Capital Investment. Each of the Owners shall first receive a return equal to his adjusted Capital Investment. For all other purposes of this agreement, the adjusted Capital Investment of each Owner shall be the amount set opposite his name under the heading Capital Investment in Schedule B, as reduced, at any given time, by his proportionate share of amortization as reflected on the books of the joint venture. Amortization shall be allocated to each Owner on the basis of his proportionate interest in the total Capital Investments of all the Owners. If the net proceeds of sale are less than the adjusted Capital Investments of all the Owners, distribution shall be made among the Owners on the basis of their proportionate interests in the total adjusted Capital Investments.

(2) Special Payment. All additional net proceeds of sale, but in no event in excess of _____ Dollars (\$ _____), shall then be paid to _____ [name] (in addition to all net proceeds of sale distributable to him as an Owner under subdivision (1) above).

(3) Profits. All remaining net proceeds of sale shall then be shared by the Owners, including _____ [name], in the proportions set opposite their respective names under the heading Share of Profits in Schedule B.

3. Restrictions on Transfer. Except as hereinafter set forth, none of the Owners shall sell, dispose of, transfer, or encumber the Property or any interest therein. Notwithstanding the foregoing:

(a) Any partnership which is a party to this agreement may at any time dissolve such partnership and distribute its interest in kind to the individuals who comprise it.

(b) Any partnership which is a party to this agreement may transfer all of its interest to a successor partnership in which its present members have more than a 50 percent interest in capital and profits.

(c) Each individual Owner may, during his life time, transfer all or any part of his interest to his spouse, his adult issue, or the adult spouses of his issue.

(d) Each individual Owner may, at death, either by will or by operation of law, transfer his interest to one or more persons, provided that if a fiduciary, including but not limited to a testamentary trustee, guardian, executor, or administrator, shall be the holder of legal title to such interest, such fiduciary shall be subject to all of the terms of this agreement.

4. Sale of Interest of Owner. In the event that any Owner shall receive an acceptable offer from a competent adult, who is not a fiduciary, for the purchase of all of such Owner's interest in the Property, such Owner shall have the right to sell his interest only after complying with the following requirements:

(a) Notice. Such Owner shall procure and deposit with the Mailing Agent, as designated in Paragraph 7, a certified check for ten percent (10%) of the amount of the offer and the written offer signed by the prospective purchaser.

(b) Option to Purchase. The Mailing Agent shall forthwith notify all of the Owners of the terms of the offer. Each of the other Owners shall then have the option to purchase the interest of the offering Owner upon the same terms set forth in the offer, provided notice of purchase in writing is mailed to the Mailing Agent within twenty (20) days after the initial receipt by the Mailing Agent of the offer. Each Owner who exercises his option to purchase shall set forth in his letter of acceptance the amount of the interest he is willing to purchase. If the total interests which the Owners offer to purchase are in excess of the interest offered, each Owner shall then purchase that proportion of the offered interest which that acceptor's offer to purchase bears to the total offers of all the acceptors. If the total interests which the acceptors have offered to purchase shall be less than the interest offered, the Mailing Agent shall immediately give notice in writing to the acceptors of the amount of the difference. If within thirty (30) days after the initial receipt by the Mailing Agent of the offer, the acceptors do not make satisfactory arrangements for the purchase of the difference, then the offer of the entire interest shall be deemed to have been rejected. In the latter event, the Owner offering his interest shall have the right to sell to the person named in the offer, provided that the sale is concluded within thirty (30) days of the date upon which he is notified by the Mailing Agent that his offer has been rejected, and provided further that the sale is made strictly in accordance with the terms of the offer and at no less favorable terms.

(c) Purchase. If the interest of the offering Owner is purchased pursuant to the option referred to in subparagraph (b) of this paragraph, payment for the interest shall be made by certified check to the order of the Owner within thirty (30) days after the initial receipt by the Mailing Agent of the offer, against the delivery to the purchasers of appropriate instruments transferring title to the interest of the Owner.

5. Assumption by Assignee. All permitted transferees or other persons to whom an interest in the Property may be transferred by the terms of this agreement, and any assignee receiving an interest pursuant to the terms of this agreement, shall automatically take that interest subject to all of the terms and conditions of this agreement, and shall not be considered to have title to that interest until they and each of them have signified their acceptance and assumption of the terms and conditions of this agreement in writing.

6. Sale of Property.

(a) Offers to Purchase. If any Owner acting individually or jointly with other Owners (the "offering party"), shall receive a bona fide offer in writing acceptable to him to purchase the Property, he shall obtain from the prospective customer and deposit with the Mailing Agent, designated in this agreement, a certified check in the amount of _____ Dollars (\$ _____), an agreement to hold all Owners of the Property harmless in respect to any brokerage commissions in the event that the sale is not consummated, and an executed contract for the purchase of the Property providing for the payment of the purchase price in the form of all cash above mortgages and conditioned upon the acceptance of the offer within forty-five (45) days by all of the Owners of the Property.

(b) Option to Purchase. The Mailing Agent shall forthwith notify all of the Owners of the terms of the offer. The offering party and any Owner accepting the offer (the "offerors") shall be deemed to have offered their interests for sale to the other Owners upon the same terms set forth in the offer. (Any Owners rejecting the offer shall be referred to as "rejectors").

(c) Acceptance of Offer. Each Owner other than the offering party shall notify the Mailing Agent in writing, within twenty (20) days after the initial receipt of the offer by the Mailing Agent, whether he accepts or rejects the offer. If the

Mailing Agent does not receive any notice within the 20-day period, the Owner shall be deemed to have accepted the offer. If no Owner shall reject the offer, then it shall be deemed accepted by all of the Owners. In such event, the Owners shall take any and all steps necessary and proper to pass title pursuant to the offer.

(d) Rejection of Offer. Any rejector shall set forth in his letter of rejection, the amount of the interest of the offerors that the rejector is willing to purchase if available, provided, however, that in any case any rejector shall be obligated to purchase, if available, from the offerors an interest equal to a percentage of the interest then held by the rejector. If the total interests which the rejectors offer to purchase are in excess of the total interests of the offerors, each rejector shall then purchase that proportion of the interests offered that the total interests which the rejector has offered to purchase bears to the total offers to purchase made by all rejectors. If the total interests which the rejectors have offered to purchase shall be less than the total interests of the offerors, the Mailing Agent shall immediately give written notice to the rejectors of the amount of the difference. If within thirty-five (35) days after the initial receipt by the Mailing Agent of the offer, the rejectors do not make satisfactory arrangements for the purchase of the difference, then the offer shall be deemed accepted by all of the parties, and they shall take all of the steps necessary and proper to pass title pursuant to the offer.

(e) Sale. In the event of a sale of the Property pursuant to the offer, each Owner shall share in the net proceeds of the sale in accordance with the terms of Paragraph 2(c). In the event that, pursuant to the provisions of subparagraph (d) above, any rejectors shall purchase the interests of any offeror, the price to be paid to each offeror shall be such offeror's pro rata share of the difference between the selling price (less brokerage) set forth in the offer and the outstanding principal of any mortgages, plus or minus all usual real estate adjustments, in accordance with the interest of each offeror. Payment for the interest shall be made by certified check to the order of the offeror within sixty (60) days after the initial receipt of the offer by the Mailing Agent, against the delivery to the purchasers of appropriate instruments transferring title to the interests of the offerors.

7. Mailing Agent. _____[name] is designated Mailing Agent, and all notices to him shall be sent to _____[address], _____[city], _____[state], or to such other address as he shall, from time to time, designate in a notice given to all the Owners. The Mailing Agent or such other Owner or Owners as may be required to give notice under the terms of this agreement shall mail all notices required herein by registered or certified mail to the addresses of the Owners set forth in this agreement, or to the last address as the Owners or any of their transferees shall, from time to time, give in writing to the Mailing Agent. The Mailing Agent hereby is relieved of all liability by virtue of his undertaking herein, except for malfeasance or fraud.

8. Loan to Owners. Any Owner may borrow money on his interest in the Property on the following terms and conditions:

(a) The amount of the loan may be no more than seventy-five percent (75%) of the Owner's investment in the Property, less any capital returned to the Owner.

(b) The hypothecation of the Owner's interest in the Property, whether in the form of a mortgage or pledge, shall provide for prepayment of the loan without penalty.

(c) The Owner's pro rata share of the proceeds on any new mortgage placed upon the Property may be applied toward the payment of the loan made to the Owner, and any payment may be made directly to the lender.

(d) The unpaid balance of any mortgage or pledge by an Owner shall be subordinate to any mortgage placed upon the entire Property, and the lender shall undertake to execute all documents necessary and proper to effectuate the subordination of his loan to any mortgage on the entire Property.

(e) The Owner's pro rata share of the proceeds of the sale of the Property may be applied towards the payment of the

loan made by an Owner, and any proceeds may be paid directly to the lender.

(f) The terms of any mortgage or pledge shall in no manner prevent or unreasonably delay the sale or mortgage of the entire Property.

(g) The lender shall undertake to be bound by the terms and conditions of this agreement whenever required to carry out the purposes of this agreement.

(h) Any owner's mortgage or pledge shall provide that, in the event there is any default in the mortgage or pledge (provided the default is not a default on the part of the Owners as lessees under the terms of the Property) the lender, his successors, heirs, and assigns, shall give immediate notice of the default to the Mailing Agent. The notice shall constitute an irrevocable offer for a period of thirty (30) days, on the part of the lender and the Owner to sell the Owner's interest in the Property, and any interest of the lender in the Owner's Property, to all other Owners for the amount of the loan then outstanding plus interest to the date of payment.

9. Partition. No Owner shall, either directly or indirectly, make application to or petition any court for a partition of the Property.

10. Managing Agent

(a) Commission and statements. The Owners appoint _____ [insert name], as agent to supervise and manage the Property. _____ [insert name] shall pay all employees engaged in the operation of the Property out of the sums paid to it by the Owners. In full consideration of its services, _____ [insert name] shall be paid a yearly sum not to exceed _____ percent (____%) of the collected rents, the sums to be paid monthly within 20 days after the end of each month. Brokerage payable to outside brokers shall not be deemed included in the _____ percent (____%) item payable to _____ [insert name]. Monthly statements of the Property's operation shall be submitted by _____ [insert name] to each of the Owners within twenty (20) days after the end of each month, and the statements shall include an itemized list of all income and expenses in connection with the Property.

(b) Term. _____ [insert name] shall be employed for a term of one (1) year from the date of the execution of this agreement. Such term shall be automatically extended from year to year thereafter unless written notice of termination signed on behalf of the Owners is served upon _____ [insert name], at least sixty (60) days prior to the termination of any yearly period.

(c) Profit Payments. Enterprises, Inc. shall from time to time during the year, but at intervals of no more than three months, distribute to the various Owners their share of all profits earned from the operation of the Property.

11. Meetings. Meetings of the Owners may be called, upon five days notice, by the Mailing Agent or by Owners who have a ten percent (10%) or greater interest in the capital of the Property as set out under the heading Capital Investment in Schedule B. Meetings shall be held in _____ [city], _____ [state], at the office of the Mailing Agent, or at the office of any Owner who has a five percent (5%) or greater interest in the capital of the Property. The power to make all decisions with respect to the management of the Property is vested in the Owners. The decisions of the Owners shall be binding upon all the Owners if made by Owners who have a fifty percent (50%) or greater interest in the capital of the Property, at a meeting called pursuant to the provisions of this paragraph.

12. Separability. If any part or provision of this agreement shall be determined to be invalid or unenforceable under the laws of the State of _____ [state], the remaining portions of this agreement which can be separated from the invalid, unenforceable provisions shall nevertheless continue in full force and effect.

13. Arbitration. Any dispute or controversy arising under or as a result of this agreement shall be settled and determined by arbitration held in New York, New York, in accordance with the governing rules of the American Arbitration Association. Any award pursuant to such arbitration may be entered in any court of competent jurisdiction.

14. Modification. This agreement embodies the full understanding of the Owners. This agreement may not be changed orally. Any modifications of this agreement must be in writing signed by all of the parties hereto.

15. Binding Effect. Except as herein otherwise specifically stated, this agreement shall bind and inure to the benefit of the parties to this agreement, their legal representatives, successors, and assigns.

16. Entire Agreement. This agreement supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

17. Notices. All notices under this agreement shall be in writing and delivered personally or mailed by certified mail, postage prepaid, addressed to the parties at their last known addresses.

18. Non-waiver. No delay or failure by a party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

19. Headings. Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

20. Governing Law. This agreement shall be construed in accordance with and governed by the laws of the State of _____[state].

21. Counterparts. This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

The parties hereto have signed and sealed this agreement.

FORM 22.27 Joint venture--simple agreement

COMMENT

This joint venture agreement is designed to be very simple agreement. It specifically sets forth the role of each party. The venture is very limited in scope and duration. Each party has a very specific limited role.

For additional forms relating to joint ventures and joint ownership, see Chapter 2, Joint Ventures and Business Trusts, in Volume 2, and Chapter 20, Real Estate Entities, in Volume 24, *supra*.

FORM

_____ [month] _____ [day], _____ [year]

Mr. David Gil, President
The Gil Companies, Inc.

_____ [address]
_____ [city], _____ [state]

Dear Mr. Gil:

This letter is intended to set forth the agreement between The Gil Companies ("Gil") and Debut Builders, Inc. ("Debut") relating to the construction of a model home. The model home will be constructed on a joint venture basis consisting of the following terms:

1. Purpose. Gil and Debut shall be joint venturers for the purpose of constructing and selling a home on lot No. 1 (the "Lot") in the _____[*insert name of subdivision*] subdivision located in the City of _____[*city*], _____[*county*] County, _____[*state*].

2. Name. The joint venture will be conducted in the name of "Debut Builders." Gil acknowledges that Debut has a propriety interest in the use of the name "Debut Builders" and that Debut is granting to the joint venture a limited license to use the name in the conduct of the joint venture's business, and that Gil shall have no right to use the name "Debut Builders" except in connection with the joint venture.

3. Duties of Gil. Gil shall perform the following duties in connection with the joint venture:

A. Supervise and manage the day-to-day activities associated with the construction of the home, including, without limitation, the scheduling of delivery of materials and subcontractors required to construct the home, supervising the activities of the subcontractors and obtaining the necessary permits and consents.

B. Provide the construction and design expertise necessary for the construction of the home.

4. Duties of Debut. Debut shall perform the following duties in connection with the joint venture:

A. Maintain the books and records of the joint venture. Such books and records shall be available at all reasonable times for inspection and copying by Gil at the principal place of business of Debut (which shall also be the principal place of business of the joint venture).

B. Pay on behalf of the joint venture (from the proceeds of the sale of the home or from funds advanced to the joint venture by Debut) all reasonable costs and expenses incurred by the joint venture in furtherance of the purpose of the joint venture.

C. Enter into contracts on behalf of the joint venture including, without limitation, contracts for subcontractors and materials, contracts for the sale of the home and contracts with real estate brokers for listing the home for sale. Prior to entering into a contract on behalf of the joint venture, Debut shall consult with Gil regarding the advisability or necessity of such contract.

D. Use its best efforts to acquire the Lot for the benefit of the joint venture. If Debut shall not be able to acquire the lot within one (1) month after the date hereof, then this joint venture shall terminate. The lot shall be purchased in the name of Debut.

5. Division of Profits. Upon sale of the home, the net profits of the joint venture shall be divided equally between Gil and Debut. For purposes of this joint venture, the term net profits shall mean the gross sales price received for the model home, less the costs and expenses incurred in constructing and selling the model home. Included in the costs and expenses shall be the cost of the Lot, plus an interest factor of ten percent (10%) per annum from the date of acquisition payable to Debut until the lot is sold.

6. Division of Losses. If the computation described in Paragraph 5 results in a negative balance, each party shall be responsible for an equal share of the loss.

7. Limits of the Venture. The relationship between Gil and Debut is limited to the undertaking described herein. Nothing herein shall be construed to create a general partnership between the parties or to authorize either party to act as general agent for the other.

8. Non-assignability. Neither party shall have the right to assign their interest hereunder (including their right to receive

the net profit hereunder).

9. Miscellaneous

A. All leads received by either party for the construction of a new home as a result of the joint venture shall be the property of the joint venture and upon termination of the joint venture shall become the sole property of Debut.

B. The parties will use their best efforts to complete the home within sixty (60) days of the acquisition of the Lot.

C. The parties agree that they will jointly determine the design of the home; however, if the parties cannot agree prior to the time that the Lot is acquired, then this joint venture shall terminate, and the Lot shall belong solely to Debut.

If our agreement is accurately set forth in this letter, please have an authorized officer of Gil execute the enclosed copy of the letter and return it to the undersigned.

Very truly yours,

DEBUT BUILDERS, INC.

26-22 Current Legal Forms for Real Estate FORM 22.28

FORM 22.28 Joint venture between land owner and real estate developer

COMMENT

The form that follows is a joint venture agreement between an owner of a property and a developer. They agree to jointly develop a residential real estate development. The value of the parties' respective contributions is reflected in their split of the expected profits. The developer has control over the management and operation of the project. The land owner's interests are protected by the ability to audit the accounting books and records at any time and to have the audit costs paid by the developer if significant discrepancies are found.

For additional forms relating to joint ventures and joint ownership, see Chapter 2, Joint Ventures and Business Trusts, in Volume 2, and Chapter 20, Real Estate Entities, in Volume 24, *supra*.

FORM

AGREEMENT made this day of _____ [date], between _____ [insert name]
(hereafter referred to as "Land Owner"), and _____ [insert name] (hereafter referred to as
"Developer").

WITNESSETH:

WHEREAS, Land Owner is the owner of a certain parcel of land containing approximately
_____ [e.g., three hundred (300) acres], located in the Town of _____ [town], County
of _____ [county], and State of _____ [state], which parcel is more particularly
described in Schedule A, which is annexed hereto and made a part hereof; and

WHEREAS, Developer is in the business of constructing residential multi-unit developments; and

WHEREAS, the parties wish to enter into an agreement whereby they will form a joint venture for the purpose of building a residential multi-unit development on the real property described in Schedule A,

NOW, therefore, in consideration of the mutual promises contained herein, it is agreed as follows:

1. *Joint venture.* The parties hereby form a joint venture under the name and style of _____[*insert name*]. The joint venture shall have an office on the site of the development and a mailing address of _____[*address*].

2. *Preliminary plans*

(a) The parties, in the name of the joint venture, shall engage the architectural firm of _____[*insert name*] located at _____[*insert address*], in order to prepare preliminary plans for the development. These plans shall show the general location of:

- (1) roads within the development;
- (2) access to public water and sewer lines;
- (3) the approximate location of lots;
- (4) the approximate location of any wetlands or other environmentally sensitive areas.

These plans shall include a survey of the boundaries of the real property described in Schedule A. The preliminary plans shall be completed on or before _____[*date*].

(b) Upon receipt of the preliminary plans, the parties shall meet to review the plans. The parties shall make a list of changes which need to be made prior to finalization of the plans. If the parties cannot agree on a particular change, the dispute-resolution procedure set forth in Paragraph No. 11 hereof shall be used. The changes shall be provided to the architectural firm of on or before _____[*date*], with instructions that final drawings, sufficient for subdivision approval in the Town of _____[*town*] shall be completed within _____[*days*] days thereafter.

(c) Upon receipt of the final plans, the parties shall review the plans. Both parties shall sign the application for subdivision approval in the name of the joint venture. The application, together with all supporting documentation, shall be filed before _____[*date*].

3. *Subdivision approval.* Developer shall be responsible for taking all further steps necessary for obtaining subdivision approval. This shall include securing whatever expert assistance Developer deems necessary, including, but not limited to:

- (a) legal services;
- (b) engineering services;
- (c) architectural services; and
- (d) environmental services.

Developer shall appear at any zoning or planning board meetings held by the Town of _____ [town]. Developer shall arrange for appropriate testimony at such meetings. Developer shall pursue whatever appeals may be necessary in the event governmental approval is either not granted, or is granted subject to conditions that are unacceptable to the parties. In the event that subdivision approval cannot be obtained after exhausting all appellate remedies, this Agreement shall terminate. Either party may terminate the Agreement if the subdivision approval is not obtained within _____ [months] months of the date of this Agreement.

4. *Infrastructure*

(a) Once subdivision approval is obtained, Developer shall make arrangements for the installation of sewers, water mains, storm sewers and roadways for each phase of the development.

(b) Developer shall have authority, on behalf of the joint venture, to negotiate a loan from a commercial lender for up to _____ percent (_____ %) of the estimated cost of the infrastructure. The loan shall be structured so that funds may be drawn upon as needed. The interest rate shall not exceed the prime lending rate plus _____ percent (_____ %) per annum, without the consent of both partners.

(c) Land Owner agrees to allow the lender to secure the infrastructure loan with a mortgage on the Property.

(d) Developer shall contribute the balance of the cost of the infrastructure, up to the amount of _____ Dollars (\$ _____).

(e) All loan documents shall be executed in the name of the joint venture by Land Owner and Developer.

5. *Plans.* Developer shall secure a licensed architect to draw up plans for the improvements to be used in the development. Such plans shall be ready for preliminary review within _____ [number of days] days after subdivision approval is obtained. The parties shall transmit required changes to the architect within _____ [number of days] days thereafter. Final plans shall be ready to display to home buyers within _____ [number of days] days thereafter. All plans shall comply with the building code of the State or County of _____ [name of state or county], and with any additional requirements of the Town of _____ [town]. If any plans or changes thereto cannot be agreed upon between the parties, the dispute resolution procedure of Paragraph No. 11 hereof shall be used.

6. *Planned unit development*

(a) Developer shall be responsible for having covenants and restrictions drawn up and filed for the benefit of all lots to be contained in the development. The preliminary covenants and restrictions shall be available upon submission of the subdivision application. The final form of the covenants and restrictions shall be filed with the _____ [county] County Clerk before any lots are marketed to the public.

(b) At a minimum, the covenants and restrictions shall provide for the following:

- (1) minimum house size;
- (2) controls on exterior style of house and on further construction on houses or lots;
- (3) prohibition on the conduct of commercial activities within the development;
- (4) prohibition on the harboring of animals, except cats, dogs or domestic birds;

- (5) prohibition on the erection of exterior clothes' lines;
- (6) prohibition on the storage of vehicles, boats, or recreational vehicles;
- (7) prohibition on the erection of other structures on the premises; and
- (8) any other restrictions designed to protect property values.

(c) Developer may call for the creation of an association if Developer should so desire. Developer shall obtain any approvals which may be needed for such covenants, restrictions and/or homeowners' association.

7. *Marketing*

(a) Developer shall locate and engage a marketing firm to market the various phases of the Project in the development. The marketing agent shall enter into a contract which is terminable by the joint venture on _____ [days] days' written notice without cause, or on _____ [hours] hours' written notice with cause. The marketing agent shall be an independent contractor and shall be paid no more than _____ percent (_____) of the purchase price of each house and lot as a commission.

(b) The marketing agent shall be given written instructions as to representations which may be made to purchasers. All purchasers shall be given a copy of the covenants and restrictions at least _____ [days] business days before a contract may be signed.

(c) The marketing agent may do advertising. The text of all advertisements shall be approved by Developer in writing prior to use. The joint venture will do advertising as well.

8. *Representations of Land Owner*

(a) Land Owner owns the Property free and clear of any and all liens and encumbrances, except for certain power-line easements set forth in Schedule B, which is also annexed hereto and made a part hereof.

(b) Land Owner will allow agents and employees of the joint venture to enter upon the Property for the purpose of making improvements thereon and to otherwise fulfill the purposes of the joint venture.

(c) Land Owner has engaged a reputable and skilled environmental engineer to perform a Phase I environmental site assessment. The true and accurate results of the assessment have been provided to Developer. There have been no changes on the Property since the date of the assessment, to the best of Land Owner's knowledge.

(d) Land Owner will give a deed to any lot included in Schedule A upon the request of the joint venture, provided that all terms and conditions of this Agreement have been met, and the agreement is still in full force and effect at that time.

(e) The value of the Property which Land Owner is contributing to the joint venture is _____ Dollars (\$_____).

9. *Representations of Developer*

(a) Developer is skilled in the creation of a mixed use development.

(b) Developer will deposit the sum of _____ Dollars (\$_____) in the joint venture's checking account upon execution of this Agreement. Developer will deposit additional sums, as needed, to arrive at a maximum total of _____ Dollars (\$_____).

10. *General provisions*

(a) Neither party may bind the joint venture to any obligation without the consent of the other party. Both parties shall sign all contracts, notes, mortgages, checks and other obligations of the joint venture. Neither party shall make any representation to the contrary to any third party.

(b) Developer shall be the manager of the project. Developer shall have the right to hire and fire staff, and purchase inventory and supplies in the ordinary course of business. Developer shall conduct all negotiations with any third party. Land Owner shall not interfere in any way. Developer shall run the day-to-day operations and supervise construction.

(c) The parties shall have the ability to review the accounting books and records of the joint venture and make copies thereof for personal use at any time. Either party may audit the financial records at any time at his/her own expense. If a discrepancy appears in excess of _____ Dollars (\$_____), then Developer shall pay the cost of the audit.

(d) All financing shall be non-recourse, unless Land Owner agrees to recourse financing.

(e) The profits of the joint venture shall be divided between the parties in the following manner:
 _____ [e.g., one-third (1/3) to Land Owner, two-thirds (2/3) to Developer]. Profits shall be defined as the net proceeds from the sale of any lot, after deduction of all construction and other costs attributable to that lot, and payment of any lot release fees.

11. *Dispute resolution.* Any disputes between the parties may be fatal to the project. In the event that a dispute arises which cannot be settled within _____ [days] days, the parties agree to submit the dispute to a mediator within _____ [days] business days thereafter to resolve the dispute. The mediator shall be _____ [insert the name of the person or dispute resolution firm that will mediate the dispute]. The mediator may attribute mediation costs to either or both parties, or to the joint venture. The parties agree to be bound by the results of the mediation.

12. *Death or disability*

(a) In the event of the death of Land Owner, Developer and the executor of Land Owner's estate shall continue to adhere to the terms of this Agreement. Land Owner agrees to create a will with provisions which bind his/her executor to the terms of this Agreement.

(b) In the event of Developer's death, Land Owner may withdraw from the joint venture or secure a new joint venturer to replace Developer. Payment to Developer's estate shall be as set forth in Paragraph No. 14 ("Termination").

(c) In the event of the disability of Land Owner, Developer shall continue to pursue the goals of the joint venture pursuant to the terms of this Agreement.

(d) In the event of the disability of Developer, Land Owner shall have the same rights as set forth in Subparagraph (b) above. The term "disability" shall mean the inability of the Developer or Land Owner, due to physical or mental incapacity, to fulfill his/her obligations under this Agreement.

13. *Bankruptcy.* In the event that either party files a petition in bankruptcy, this Agreement would be considered

executory by the court. In the event that the debtor-party chose to reject the contract, he/she would be bound by the termination provisions contained in Paragraph No. 14 hereof.

14. *Termination*

(a) This Agreement may not be terminated by either party except for cause. The term "cause" shall be limited to the following:

- (1) defalcation or fraud committed by one party against the other;
- (2) failure of one party to fulfill a material obligation under the terms of this Agreement;
- (3) failure to obtain approval for the subdivision from the Town of _____[town];
- (4) death or disability of Developer; and
- (5) sale of the project.

(b) The party seeking to terminate the Agreement shall give the other party written notice of intention to terminate this Agreement. The written notice shall specify the basis for the termination and the date on which the termination shall become effective. Such date shall be at least _____[days] days after delivery of the notice. If the other party agrees to the termination, he/she shall so state in a writing delivered to the party seeking to terminate. If the other party does not agree to terminate, the matter shall be submitted to dispute resolution under Paragraph No. 11 hereof.

(c) Upon termination in the pre-development phase (*i.e.*, before any of the Property has been disturbed), Land Owner shall receive his/her Property back free and clear of the terms of this Agreement. After payment of all outstanding obligations of the joint venture, Developer shall receive a refund of any funds remaining which he/she contributed. If any obligations of the joint venture remain unpaid, they shall be the sole responsibility of Developer.

(d) Upon termination of the Agreement during the development phase (*i.e.*, after the Property has been disturbed, but prior to construction of any improvements), Developer shall have the right to buy the Property for the sum of _____ Dollars (\$_____).

In the event Developer chooses not to purchase the Property, Developer shall take whatever steps are needed to release any liens from the Property. Land Owner shall receive the Property back free and clear of all liens and any obligations under this Agreement. Developer shall not be entitled to any credit for improvements on the Property. After payment of all obligations of the joint venture, Developer shall receive a refund of any funds remaining which it contributed. If any obligations of the joint venture remain unpaid, they shall be the sole responsibility of Developer.

(e) Upon termination of the Agreement in the late development stage, rights upon termination shall be the same as in Subparagraph (d) above, except that Developer shall be obligated to complete any structure then under construction. In the event Developer purchases the Property, Developer shall receive a credit against the purchase price for any profit distributions previously made to Land Owner. In the event Developer does not purchase the Property, Developer shall be entitled to a lien against the Property of Land Owner equal to the value of any improvements made by Developer.

(f) Upon the sale of the entire project, payments shall be made in the following order: Land Owner shall receive _____ Dollars (\$_____). All debts of the joint venture shall be paid in full by Developer. Developer shall receive payment of all sums contributed by him/her. Any balance remaining shall be divided _____[*e.g.*, one-third (1/3) to Land Owner and two-thirds (2/3) to Developer]. If a shortfall

exists, Developer shall be solely responsible for any debts of the joint venture.

15. *Taxes.* Upon execution of this Agreement, all taxes which are levied against the Property shall be paid by the joint venture until said Property is sold to a third party.

16. *Insurance.* The joint venture shall, at its expense, maintain liability insurance on the Property. When construction begins, builder's all-risk insurance shall be obtained. Developer shall determine appropriate policy limits. The joint venture and the parties shall be named insureds on all policies of insurance.

17. *Tax returns.* Developer shall cause income tax returns to be prepared and filed for the joint venture in each year of its existence.

18. *Miscellaneous*

(a) *Entire agreement.* This Agreement, together with the other written agreements and instruments executed concurrently herewith or pursuant to the provisions hereof, contains the entire agreement between the parties respecting the matters herein set forth and supersedes all prior agreements between them respecting such matters.

(b) *Counterparts.* This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. At the trial of any matter arising under this Agreement, only one counterpart need be produced.

(c) *Headings.* Paragraph and subparagraph headings are for purposes of convenience and identification only and shall not be used to interpret or construe this Agreement.

(d) *Notice.* Any notice to be given hereunder shall be in writing, signed by the party giving notice, and delivered by any one of the following methods:

(1) personal delivery;

(2) facsimile machine transmission;

(3) certified or registered mail, return receipt requested; or

(4) overnight courier service, provided that a receipt is maintained in the ordinary course of business.

Notices shall be given at the following addresses:

If to Land Owner:

Attn: _____

If to Developer:

Attn: _____

Either party may designate a new address by giving notice thereof to the other party.

(e) *Governing law.* This Agreement shall be construed and enforced in accordance with the laws of the State of _____[*state*].

(f) *Binding effect.* This Agreement shall be binding upon and inure to the benefit of the parties, their respective heirs, representatives, successors and assigns.

(g) *Amendments.* Any amendment of this Agreement must be made in writing and signed by both parties. Any attempted oral modification will not be valid.

(h) *Waiver.* Any failure by either party to enforce any right arising under this Agreement shall not be deemed a waiver of the ability to later enforce that right. Any waiver must be in writing and signed by the person waiving the right in order to be enforceable.

The parties hereto have set their hands the day and year first above written.

B. DEVELOPMENT VENTURES

26-22 Current Legal Forms for Real Estate FORM 22.29

FORM 22.29 Joint venture between two corporations--acquisition of land and buildings--additional capital to be furnished by one venturer

COMMENT

The participants in this joint venture are two corporations. A singular feature of this agreement is the obligation of one of the venturers to make or arrange all loans required by the venture. In consideration for this, special protections are provided for the potential creditor, including a special termination provision. The venture is to continue at least until all of its properties are sold or until a specified date, whichever is earlier. If the venture is in operation and has not repaid its loans by the termination date, the lending venturer may elect either (1) an immediate termination of the venture, the sale of assets, and the payment of outstanding debts, or (2) a continuation of the venture from year to year until the repayment of its loans. Capital contributions of the venturers are not to be returned until debts are satisfied, and upon final dissolution each venturer is to bear equally the cost of repaying outstanding debts in excess of the proceeds from the sale of assets.

For additional forms relating to joint ventures and joint ownership, see Chapter 2, Joint Ventures and Business Trusts, in Volume 2, and Chapter 20, Real Estate Entities, in Volume 24, *supra*.

FORM

THIS AGREEMENT made and entered into _____[month] _____[day],
_____[year], by and between JAMES, INC., a(n) _____[state] corporation
("James"), and REALTY CORP., a(n) _____[state] corporation ("Realty").

WHEREAS, The parties have agreed to form a joint venture for the purpose of acquiring and owning, as an investment, certain property located in _____[County] County, _____[State], consisting of

approximately _____ [*number of acres*] acres of land and certain buildings and other improvements thereon (the "Property").

WHEREAS, the Property is described in and forms the subject matter of an Agreement for Sale and Purchase of Real Property, dated _____ [*month*] _____ [*day*], _____ [*year*], entered into by James, as buyer, and as nominee for the joint venture.

NOW, THEREFORE IT IS HEREBY AGREED AS FOLLOWS:

1. Formation of Joint Venture. The parties hereby form a joint venture upon the terms and conditions herein set forth (the "Venture").
2. Name of Venture. The name of the Venture shall be the ArrowVenture.
3. Purpose of Venture. The purpose of the Venture shall be to acquire, own, operate, maintain, and lease the Property as an investment.
4. Initial Capital. The initial capital of the Venture shall be _____ Dollars (\$ _____) to be contributed by the parties in equal shares. An individual capital account shall be maintained for each party to the Venture, and no interest shall be paid or shall accrue on the capital account of either party.
5. Percentages of Interest. The respective interests of the parties in and to the Venture, and in and to the net profits and losses shall be as follows:

James	50%
Realty	50%
6. Loans to Venture. Arnold shall lend or cause to be lent to the Venture all additional funds necessary or required in connection with the acquisition, ownership, operation, maintenance, and leasing of the Property, as and when required. (Each of such loans is herein referred to as a "Venture Loan" and all of such loans are herein collectively referred to as "Venture Loans.") Simultaneously with the making of each such loan to the Venture, the Venture shall execute and deliver to James or to the entity making such loan a promissory note in the principal amount of the loan, payable to the order of the entity making such loan. Each of the notes shall be in the form and contain the provisions of the form of note attached hereto, marked Exhibit A, and made a part hereof.
7. Title to Property. The title to the Property shall be acquired and held in the name of the Joint Venture. The Venture will file a fictitious name certificate with the _____ [*County*] County Recorder's Office indicating that James and Realty are "doing business" in the name of the Joint Venture. The parties may from time to time, jointly designate other persons and entities to act as nominee for the Venture.
8. Assignment. The respective interests of the parties in the Venture shall not be transferred or assigned in whole or in part.
9. Books of Account. Accurate books and accounts shall be kept by the Venture, showing all of its assets, liabilities, operations, transactions, and financial condition. Arnold shall keep or cause to be kept such books and accounts. As soon as practicable after the end of each fiscal year of the Venture (but in no event later than _____ [*number of days*] days after the end of such fiscal year), a general accounting and audit shall be taken and made by certified public accountants, covering the assets, properties, liabilities, and net worth of the Venture, and its transactions and operations during the preceding fiscal year. All matters and things customarily included in such

accounts and audits, and a full detailed statement shall be furnished to each party to the Venture, showing such assets, properties, and net worth and the profits and losses of the Venture, for the preceding fiscal year. Each party to the Venture shall have the right to object to such statement by giving written notice to the other party within sixty (60) days after such statement is received, setting forth in reasonable detail the objections of such party and the basis for such objections. If either party shall fail to give notice within the 60-day period, such statement and the contents thereof shall be deemed conclusive and binding upon the party so failing to give written notice. Each party to the Venture shall have the right to examine, at any and all reasonable times, its books, records, and accounts. The fiscal year of the Venture shall end on December 31 of each year.

10. Repayment of Venture Loans. All receipts, income, and proceeds of and from the Property and the Venture, except funds required for the operation and maintenance of the Property, shall be paid by the Venture in repayment of the Venture Loans. So long as any part of the Venture Loans shall remain unpaid, Realty shall not be entitled to any distributions or loans from the Venture, except with the express written consent of James.

11. Term of Venture. This venture shall continue until all of the Property shall have been sold or otherwise disposed of or until _____[month] _____[day], _____[year], whichever is sooner, unless sooner terminated by mutual agreement in writing of both of the parties. If, by _____[month] _____[day], _____[year], all of the Venture Loans shall not have been fully repaid by the Venture, James shall have the exclusive right to exercise either of the following options within thirty (30) days thereafter:

(a) To require the termination and dissolution of the Venture. Within ninety (90) days after any exercise of such option, all of the Venture's then noncash assets shall be sold for cash at the highest cash prices then available. If after such sale the cash assets shall not be sufficient to pay all of the Venture's liabilities, James and Realty shall each contribute, as capital contributions, one half of the aggregate cash amount required to pay and discharge in full all of such liabilities. The Venture shall thereupon fully pay all of its liabilities, including without limitation all unpaid amounts on the Venture Loans. All remaining assets of the Venture shall be distributed as provided in Paragraph 12; or

(b) To continue the Venture from fiscal year to fiscal year until such time as the Venture shall have fully repaid all of the Venture Loans. If James shall exercise the option provided for in this subparagraph (b) to continue the Venture, the maturity date of all then unpaid Venture Loans shall be deemed extended to the end of such fiscal year.

12. Distribution Upon Dissolution. Upon the dissolution of the Venture, the assets of the Venture, after full payment of all liabilities, including the repayment of all Venture Loans, shall be distributed to the parties as follows: first, in discharge and to return the respective capital contributions of the parties, and second, in proportion to the respective rights of the parties to share net profits and losses of the Venture, as set forth in Paragraph 5. In the event the assets of the Venture are insufficient to return to the parties all or any part of their respective capital contributions (including the contributions made under the provisions of subparagraph (a) of Paragraph 11), neither party shall have any claim or recourse against the other therefor. In the event that upon such dissolution the assets of the Venture are insufficient to pay and discharge all of its obligations and liabilities (including without limitations all of the obligations of the Venture under the Venture Loans), each of the parties shall forthwith contribute as capital contributions one half of the aggregate amount required to pay and discharge in full all of such obligations and liabilities.

13. Compensation. No salary, fees, commissions, or other compensation shall be paid by the Venture to either party or to any of the officers or employees of either party, for any services rendered to the Venture, or in connection with any of its business or property, except as may be expressly agreed to in writing by both of the parties.

14. Management. All questions relating to activities and operations of the Venture, and all questions relating to the sale or other disposition of its property, shall be determined by mutual agreement of the parties.

15. Notice. All notices and demands hereunder shall be in writing, and shall be deemed to have been given and received forty-eight (48) hours after the same shall have been deposited in the United States Registered or Certified Mail, postage prepaid, addressed to the parties hereto as follows:

To James: _____

To Realty: _____

James and Realty shall each have the right by notice in writing given to the other pursuant to the provisions of this Paragraph 15 to change, from time to time, the respective addresses at which such notices hereunder shall be given.

16. Office. The principal office of the Venture shall be at _____[address], _____[city], _____[state].

17. Governing Law. This agreement and the Joint Venture created hereunder shall be construed in accordance with and governed by the laws of the State of _____[state].

18. Grace Periods. The parties shall be deemed to have the following grace periods with respect to defaults in their respective obligations hereunder:

(a) With respect to any default in any other obligation to pay any sum of money, there shall be a grace period of ten days after written notice of such default.

(b) With respect to any default in any other obligation, there shall be a grace period of thirty (30) days after written notice of such default; provided, however, that (1) if such default cannot with due diligence and in good faith be cured within such thirty (30) days, and (2) if the defaulting party forthwith upon notice of such default commences and proceeds with due diligence and good faith to cure such default, the grace period with respect to such default shall be extended for only such period as may be necessary for the curing of such default with due diligence and in good faith.

19. Entire Agreement. This agreement supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

20. Non-waiver. No delay or failure by either party to exercise any right under this agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

21. Headings. Headings in this agreement are for convenience only and shall not be used to interpret or construe its provisions.

22. Counterparts. This agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

23. Binding Effect. Except as herein otherwise provided, the terms and conditions of this agreement shall be binding upon, and inure to the benefit of, both parties and their respective successors and assigns.

The parties hereto have executed this Joint Venture Agreement the day and year first above written.

Current Legal Forms for Real Estate
Chapter 22 DEVELOPMENT AND SUBDIVISION
Part IV. FORMS
B. DEVELOPMENT VENTURES

26-22 Current Legal Forms for Real Estate FORM 22.30

FORM 22.30 Joint venture for property development--funds and financing by one party--development by other party

COMMENT

The division of functions between joint venturers is shown in this Property development arrangement. Here one of the parties agrees to lend the joint venture the money needed to carry out the project, in excess of the initial capital contributed equally by the coventurers. The other party agrees to formulate and execute the development program. The list of duties assumed by the developing coventurer is indicative of the broad range of activities involved from the inception to the completion of the project.

Developer's obligations and expenses.

The developer's responsibilities (Paragraph 6 of the agreement) include: (1) the preparation of an economic analysis to determine the nature and extent of housing and commercial facilities; (2) the formulation of Property use plans and environmental impact statements; (3) the development of police, fire, and utility services; (4) the supervision of construction; and (5) the promotion and sale of improved lots. Plans concerning the proposed development, its estimated cost, and its sales programs are to be approved by the lending venturer (Paragraph 7). The work performed by the developing venturer is to be charged to the joint venture at cost without compensation for office overhead or profit (Paragraphs 6 and 16). Actual direct costs of construction are to be expenses of the venture.

For additional forms relating to joint ventures and joint ownership, see Chapter 2, Joint Ventures and Business Trusts, in Volume 2, and Chapter 20, Real Estate Entities, in Volume 24, *supra*.

FORM

AGREEMENT made and entered into _____[*date*] by and between MONEY MAN, INC., a(n) _____[*state*] corporation ("Money"), and DEVELOPER CONSTRUCTION CORP., a(n) _____[*state*] corporation ("Developer").

Recitals

The parties have agreed to form a Joint Venture for the purpose of acquiring and developing certain property, "Sunset Property," located in _____[*County*] County, _____[*State*], consisting of approximately 1,200 acres of land and certain personal property.

The Sunset Property is described in and is the subject matter of a Purchase Agreement dated _____[*date*] between Money, entered into by Money as nominee for this Joint Venture as Buyer and _____[*insert name of Seller*] a Seller (the "Purchase Agreement").

This agreement is also made for the purpose of owning, maintaining, operating, leasing, developing, and selling the Sunset Property.

Now, therefore, it is agreed as follows:

1. *Formation of joint venture.* The parties hereto hereby form a Joint Venture (the "Venture"), upon the terms and conditions herein set forth.

2. *Name of venture.* The name of the Venture shall be the Sunset Venture.

3. *Purpose of venture.* The purpose of the Venture shall be to acquire, own, operate, maintain, lease, develop, and sell the Sunset Property, and to engage in such operations and business as may be determined necessary or appropriate to these purposes. Money (as nominee for and on behalf of the Venture) shall consummate the purchase of the Sunset Property pursuant to the Purchase Agreement dated _____[*date*].

4. *Initial capital.* The initial capital of the Venture shall be _____ Dollars (\$_____) to be contributed by the parties in equal shares which shall constitute the capital of the Venture. An individual capital account shall be maintained for each party to the Venture and no interest shall be paid or shall accrue on the capital account of any party to the Venture.

5. *Interests in venture.* The respective interests of the parties as members of the Venture, in and to the Venture, and in and to the net profits and losses of the Venture, shall be as follows:

Money 50%

Developer 50%

6. *General development program.* Subject to the specific development plans of Paragraph 7, the management and operation of the affairs, activities, and business of the Venture in connection with the development and sale of the residential lots and the commercial development shall be in Developer. Developer will (at Developer's actual direct cost, without any allowance for main office overhead or profit) do, accomplish, and complete, or cause to be done, accomplished, and completed for and on behalf of the Venture with reasonable diligence all of the following with respect to the Sunset Property:

- (a) The development of an overall Property development program plus a detailed budget and cash flow estimate.
- (b) Land use, master plan and environmental impact studies for the entire project.
- (c) Economic studies of the trade area determining the nature and extent of the housing and commercial market requirements, price brackets, and the like.
- (d) Master plan, detailing residential, commercial, recreational, and service areas for the entire project.
- (e) Negotiations with municipal and public utility bodies for the proper servicing of the project with police, fire, and utility services.
- (f) The performance of all construction work, including the furnishing of all labor, materials, and equipment, necessary to accomplish finished residential and commercial lot development, including grading, leveling, installation of utility trunk lines, streets, curbs, gutters, and other on-site and off-site improvements.
- (g) The sale of improved residential lots, including formulation of advertising and other promotional activities, through television, radio, and other media.
- (h) The formulation and implementation of the commercial development program, including shopping centers, designation of proper areas, planning of commercial development, attraction of commercial tenants, negotiation of leases, construction of facilities, and management of completed improvements.
- (i) A master plan detailing residential, commercial, recreational, and service areas for each unit to be developed in the project.
- (j) The development of an estimated operating statement of profit and loss for each unit to be developed, and estimated costs and income, and cash flow for each unit.

In addition Developer shall furnish Money periodically, but not less than monthly, written reports, disclosing in reasonable detail the status and progress of the Sunset Property and its development, including without limitation receipts and disbursements, sales, rentals, status of development, construction costs, schedules and current financial requirements. Together with each report, all net receipts and income not then required for the development of the Sunset Property shall be paid by Developer to the Venture.

7. *Specific development plans.* It is contemplated that the residential lots will be developed in phases of not less than 100 lots, and that the commercial area will be developed either in portions or as a whole. Prior to proceeding with the development of any such unit of residential lots or with the development of the commercial property or any portion thereof, Developer shall submit to Money, in reasonable detail, the following:

- (a) Plans and specifications with respect to the proposed development of the unit of residential lots, or of the commercial property.
- (b) Estimated costs of the development of the residential unit or of the commercial property, together with budget or budgets and cash flow estimates with respect to it.
- (c) Proposed sales program with respect to the residential unit or proposed lease program with respect to the commercial development.

(d) Such other relevant data with respect to the residential unit or commercial development as may be then reasonably available.

Within a reasonable period, not to exceed _____ [number of days] days, after the above data and matters have been submitted by Developer to Money, Money and Developer will meet and determine whether or not to proceed with the proposed development. Money shall not unreasonably refuse to approve a development plan or other items required to be submitted by Developer. If the parties agree to proceed with the development, Developer will construct and complete the development and the sale of the residential unit or the lease of the commercial property, with reasonable diligence, pursuant to and in accordance with the plans, specifications, development program, and sale or lease program, approved by the parties. Developer shall have authority to construct and complete the development of residential unit or the commercial property pursuant to and in compliance with the mutually approved plans, specifications, budgets, and program. The refusal or failure of either Money or Developer to approve any proposed development of any unit of residential lots or of commercial property shall not affect or limit in any manner or to any extent any of Developer's or of Money's obligations or liabilities under this agreement or under any other agreements or instruments implementing or relating to this agreement or its subject matter.

8. *Loans to venture.* Money shall loan or cause to be loaned to the Venture all funds necessary or required in connection with the acquisition (including all mortgage payments and interest), ownership, operation, maintenance, leasing, development, and sale of the Sunset Property, as and when required and in substantial conformance with the cash flow estimates (the "Money Venture Loan" or the "Money Venture Loans"). Simultaneously with the making of each such loan to the Venture, the Venture shall execute or deliver to Money or to the entity making the loan a Note in the principal amount of the loan, payable to the order of the lender, in the form and containing the provisions of the form of Note attached and marked Exhibit A.

9. *Title to property of venture.* The Sunset Property and all other property of any kind which shall be owned, held, operated, or developed by the Venture shall be owned, held, operated, or developed in the name of the person or entity designated by the parties, as nominee solely for the benefit of the Venture pursuant to the terms, conditions, and provisions of this agreement.

The parties agree to hold the nominee harmless against any liability which may be imposed on the nominee for remediation of any adverse environmental condition existing upon any properties of the venture, where such remediation is required by federal, state or local law or regulation.

10. *Covenant against assignment.* The respective interests in the Venture of the parties shall not be transferred or assigned in whole or in part.

11. *Accounting and fiscal year.* Accurate books and accounts shall be kept by the Venture, showing all of its assets, liabilities, operations, transactions, and financial condition. Developer shall keep or cause the books and accounts to be kept. As soon as practicable after the end of each fiscal year of the Venture (but in no event later than _____ [number of days] days after the end of the fiscal year), a general accounting and audit shall be taken and made by certified public accountants, covering the assets, properties, liabilities, and net worth of the Venture, and its dealings, transactions, and operations during the preceding fiscal year, and all matters and things customarily included in such accounts and audits, and a full and detailed statement shall be furnished to each party to the Venture, showing the assets, properties, and net worth and the profits and losses of the Venture, for the preceding fiscal year. Each party shall have the right to object to the statement by giving written notice to the other party within sixty (60) days after receipt, setting forth in reasonable detail the objections and the basis for the objections. If either party shall fail to give notice within the 60-day period, the statement and its contents shall be deemed conclusive and binding upon the party failing to give written notice. Each party to the Venture shall have the right and power to examine and inspect, at any and all reasonable times, the books, records, and accounts of the Venture. The fiscal year of the Venture shall end on December 31 of each year.

12. *Repayment of loans made to venture.* All receipts, income, profits, and proceeds of and from the Sunset Property and the Venture, except funds then required for the development or sale of the Sunset Property and (except for the loans which the Venture shall then be required to make to Developer as provided in Paragraph 13), shall, as and when received by the Venture, be paid by the Venture in repayment of the Money Venture Loans.

13. *Tax loans to one joint venturer.* So long as any part of the Money Venture Loans shall remain unpaid, Developer shall not be entitled to any distributions or loans from the Venture, except loans as follows: As and when required by Developer for actual payment by Developer of federal and state taxes on or measured by net income, the Venture shall loan to Developer a sum equal to: (a) the net amount of the taxes which Developer shall then be required to pay on account of its share of the distributable taxable income of the Venture, less (b) the aggregate amount of all tax benefits previously realized by Developer from or on account of the Venture, including, without limitation, deductions on account of such items as losses, plus (c) the aggregate amount of such taxes previously actually paid by Developer on account of its share of the distributable taxable income of the Venture, less (d) the aggregate amount of all loans previously made by the Venture to Developer for the payment of such taxes under the provisions of this paragraph. In no event shall the amount of the loan to Developer exceed the net amount of the taxes which Developer shall then be required to pay on account of its share of the distributable taxable income of the Venture (the "Developer Tax Loan" or the "Developer Tax Loans"). Simultaneously with the making of each Developer Tax Loan by the Venture to Developer, Developer shall execute and deliver to the Venture a Note in the amount of the loan, in the form and containing the provisions of the form attached and marked Exhibit B.

14. *Term of venture.* This Venture shall continue until all of the Sunset Property acquired by the Venture is developed and sold or otherwise disposed of or until _____[date], if sooner, unless sooner terminated in writing of both of the parties. In the event development of the Sunset Property is delayed by any of the events listed in the next sentence, then the _____[date] date shall be deemed extended for a period equal to the time during which such event shall occur and continue but in no event later than _____[extended date] (the "Extended Date"). The events referred to and provided for in the preceding sentence are: strikes, lockouts, work stoppages, war, riot, insurrections, civil commotions, fire, flood, earthquake, act of God, or other causes beyond the control of Developer.

15. *Option to terminate or continue venture.* If prior to _____[date] or the Extended Date, all of the Money Venture Loans have not been fully repaid by the Venture, or if on or prior to _____[date] or the Extended Date, all of the Developer Tax Loans have not been fully repaid to the Venture, then in either event (in addition to all rights under the Notes), Money may exercise either of the following two options, which options shall be exercised by Money within thirty (30) days after _____[date] or the Extended Date:

(a) Money shall have the right and option to require the termination and dissolution of the Venture. Upon Money exercising the option for termination and dissolution of the Venture, then within ninety (90) days after the exercise by Money, all of the then noncash assets of the Venture shall be sold for cash at the highest cash prices then available. If after the sale of all of the noncash assets, or ninety (90) days after the exercise by Money, if sooner, the cash assets of the Venture shall be insufficient to pay and discharge all of the liabilities of the Venture, including without limitation, all of the then unpaid amount of the Money Venture Loans, Money and Developer each shall forthwith contribute, as capital contributions to the Venture, one-half of the aggregate cash amount required by the Venture to pay and discharge in full in cash all of the liabilities of the Venture. The Venture shall then fully pay all of its liabilities, including, without limitation, all unpaid amounts on the Money Venture Loans. All remaining assets of the Venture, after the payment in full of all liabilities, shall be distributed as provided in subparagraph (b)(1) of this paragraph, or

(b) Money shall have the right and option to continue the Venture from fiscal year to fiscal year until such time as the Venture shall have fully repaid all of the Money Venture Loans. If Money shall exercise the option to continue the Venture, the maturity date of all then unpaid Money Venture Loans shall be deemed extended to the end of the fiscal

year.

(1) Upon the dissolution of the Venture, the assets of the Venture, after full payment of all liabilities, including the repayment of all Money Venture Loans, shall be distributed to the parties as follows: first, in discharge and to return the respective capital contributions of the parties, and second, in proportion to the respective rights of the parties to share net profits and losses of the Venture.

(2) If the assets of the Venture are insufficient to return to the parties all or any part of their respective capital contributions, including the contributions made by the parties under the provisions of subparagraph (a) of this paragraph, neither party shall have any claim or recourse against the other therefor. In the event that upon dissolution the assets of the Venture are insufficient to pay and discharge all obligations and liabilities of the Venture (including the obligations under the Money Venture Loans), each of the parties shall forthwith contribute as capital contributions to the Venture one half of the aggregate amount required by the Venture to pay and discharge in full in cash all of such obligations and liabilities of the Venture.

16. *Salaries and fees.* No salary, fees, commissions, or other compensation shall be paid by the Venture to either party or to any of the officers or employees of any party, for any services rendered to the Venture, or in connection with any of its business or property, except as may be expressly agreed to in writing by both of the parties to the Venture.

17. *Large sales.* All questions concerning the sale of more than 100 acres of residential property in any one transaction, or the sale of the commercial acreage shall be determined by mutual agreement of the parties to the Venture.

18. *Notices.* Any notices and demands under this agreement shall be in writing, and shall be deemed given and received 48 hours after deposited with the United States Postal Service, registered or certified mail, postage prepaid, addressed to the parties as follows:

To Money: _____

To Developer: _____

Developer and Money shall each have the right by notice in writing given to the other pursuant to the provisions of this paragraph to change, from time to time, the respective addresses at which notices or demands shall be given.

19. *Office of Venture.* The principal office of the Venture shall be at _____[address],
_____ [city], _____ [state] _____ [zip code].

20. *Applicable law.* The Venture shall be governed by the laws of the State of _____ [state].

21. *Grace periods.* The parties shall have the grace periods below with respect to defaults in their respective obligations:

(a) With respect to any default in any obligations under this agreement to pay any sums of money, there shall be a grace period of ten days after written notice of default.

(b) With respect to any default in any other obligations under this agreement, there shall be a grace period of thirty (30) days after written notice of default; provided, however, that (1) if the default cannot with due diligence and in good faith be cured within thirty (30) days, and (2) if the defaulting party forthwith upon notice of default commences and

proceeds with due diligence and good faith to cure the default and thereafter to complete the full cure of the default with due diligence and in good faith, the grace period with respect to such default shall be extended for only such period as may be necessary for the curing of such default with due diligence and in good faith.

22. *Binding effect.* The terms and conditions of this agreement shall be binding upon, and inure to the benefit of, the parties hereto and their respective successors and (except as herein otherwise provided) assigns.

The parties have executed this Joint Venture Agreement the day and year first above written.

Chapter 22 DEVELOPMENT AND SUBDIVISION
Part IV. FORMS
B. DEVELOPMENT VENTURES

26-22 Current Legal Forms for Real Estate FORM 22.31

FORM 22.31 Joint venture for Property development--finances by one party--development by other party

COMMENT

In this form a construction corporation and an investing corporation combine in a joint venture to purchase acreage for development. The areas of responsibility assigned to each venturer follow a pattern in which one venturer is to provide the necessary funds, while the other is to arrange for the construction of the improvements.

Funds and financing.

Since funds will be required to purchase the Property to be developed, a significant contribution to initial capital is to be made by the investing venturer. Additional funds are first to be obtained through nonrecourse loans secured by the property, upon which neither coventurer will be individually liable. Any additional financing is to be arranged by the investing venturer, either by direct interest bearing loans to the venture or by guaranteeing outside loans for which it will receive a guarantor's premium. The investing venturer is to handle all other financial matters, including bookkeeping, purchasing, insurance, and banking.

Development and construction.

Responsibilities of the developing venturer include the formulation of a master development plan, the securing of governmental permits, the demolition of existing buildings, the installation of utilities, the construction and completion of improvements, and the lease or sale of the improved property.

For additional forms relating to joint ventures and joint ownership, see Chapter 2, Joint Ventures and Business Trusts, in Volume 2, and Chapter 20, Real Estate Entities, in Volume 24, *supra*.

FORM

AGREEMENT made by Global Realty Corp., a(n) _____ [state] corporation having its principal office at _____ [address], _____ [city], _____ [state] _____ [zip code] ("Global"), and MICRO CONSTRUCTION COMPANY, a(n) _____ [state] corporation having an office at _____ [address], _____ [city], _____ [state] _____ [zip code] ("Micro").

Global and Micro hereby enter into a joint venture upon the following terms and conditions:

1. *Name.* The name of the joint venture is Fox Run.

2. *Capital.* The capital of the joint venture, to be contributed by Global, shall consist of _____ Dollars (\$ _____) which shall be paid in as required. It is intended that funds required for the purposes of the joint venture, in addition to those for which commitments have been entered into prior to the closing, shall, to the extent reasonably possible, be supplied by loans from institutional lenders without personal liability on either Global or Micro and from retained earnings. To the extent that such funds are not reasonably available from those sources, Global shall either lend such funds to the joint venture at _____ percent (_____ %) interest and upon terms which are mutually satisfactory to Global and Micro, or shall guarantee loans by third parties to the joint venture and be entitled to guarantor's premium of the excess, if any, of percent over the interest rate on such loans. No loans to the joint venture, whether by Global or others, shall impose any personal liability on either Global or Micro unless expressly assumed.

3. *Purposes.* The purposes of the joint venture are:

(a) To purchase or otherwise acquire the property consisting of approximately 800 acres located in _____ [city], _____ [state], which is presently owned by Fox Run Corporation ("Fox Run Property").

(b) To develop and improve the Fox Run Property.

(c) To operate, maintain, lease, sell, or otherwise dispose of the Fox Run Property, in whole or in part, and the improvements made thereon.

(d) To carry on any other activities necessary or incidental to the foregoing purposes, including the establishment of offices and the employment of personnel.

The joint venture shall not engage in any other business or activity without the written consent of Global and Micro.

4. *Responsibilities of Micro.* Micro shall be responsible for:

(a) The preparation of a master plan for the development of and improvements to the Fox Run Property, including the selection, subject to Global's prior written approval, of architects and engineers for this purpose.

(b) The preparation for development of the Fox Run Property including (1) the securing of all necessary governmental permits, (2) the demolition of any buildings presently on the Fox Run Property, and (3) the construction of roads and installation of utilities.

(c) The design, preparation of plans and specifications, construction, and completion of developments and improvements in accordance with green building standards which are required by local ordinance or as appropriate for the development agreed upon, to those portions of the Fox Run Property which Global and Micro mutually agree to develop and improve.

(d) The operation, maintenance, leasing, sale, or other disposition of the Fox Run Property, in whole or in part, and the improvements made thereon.

(e) The preparation of an environmental site assessment and the supervision of the remediation of any adverse environmental condition which may be found, including, but not limited to: removal of underground storage tanks, removal of contaminated soils, and removal of hazardous substances and materials, as is needed to comply with applicable federal, state and local laws and regulations.

5. *Responsibilities of Global.* Global shall be responsible for:

(a) All financial matters involved in carrying on the business of the joint venture, including the negotiation of loans, maintenance of bank accounts, and payment of all obligations and expenses of the joint venture.

(b) Keeping all books and records and undertaking all accounting services.

(c) All purchasing by the joint venture.

(d) The insurance of the joint venture and its properties. The Fox Run Property and its improvements and all other tangible property of the joint venture shall be insured against fire, wind-storm, and other risks protected by extended coverage of the kind usually carried for comparable properties in the general vicinity of the Fox Run Property. The joint venture shall be insured against liability arising from its operations and activities, to the extent and of the kinds of insurance coverage normally carried for similar operations. All insurance shall be placed with responsible insurance companies and in the amounts determined by Global and Micro.

6. *Management representatives.* For convenience of operation, Global and Micro shall each designate management representatives to carry out the decisions of their principals and to serve as the channels of communication for disseminating information to and securing necessary action by their principals.

7. *Reimbursements.* The joint venture shall reimburse Micro and Global for all costs and expenses incurred by each in performing its duties pursuant to Paragraphs 4 and 5, including all allocation of compensation of employees performing substantial services for the joint venture, but not including any part of the compensation of management personnel (including management representatives) of either Micro or Global. The reimbursement of costs and expenses incurred by Micro and Global prior to closing on the Fox Run Property shall include interest at _____ percent (_____%) per annum.

8. *Limitations.* The performance by Micro and Global of their responsibilities under Paragraphs 4 and 5 shall be subject to the following limitations:

(a) The plans and specifications referred to in Paragraph 4 for the development of and improvements to the Fox Run Property, in whole or in part, shall be approved in writing by Global before any commitment is made by the joint venture with respect to them.

(b) No part of the Fox Run Property and its improvements and no other property or assets of the joint venture may be leased, sold, or otherwise disposed of without the prior written consent of both Global and Micro.

(c) No steps shall be taken by Micro which may result in a substantial change in the operation or policies of the joint venture without the prior written consent of Global.

(d) The office manager or other person in charge of the activities of the joint venture shall be selected by Micro, but if he or any successor is not satisfactory to Global, he shall, at Global's written request, be replaced by Micro.

(e) Micro shall only receive renting and management agent fees with respect to the Fox Run Property or parts thereof as shall be agreed to in writing by Global and Micro.

(f) No financing shall be committed by Global without the prior written consent of Micro as to the terms of the financing commitment.

(g) No purchase commitment exceeding

_____ Dollars (\$

_____) shall be made by Global without the prior written consent of Micro.

(h) The joint venture shall not mortgage, pledge, create a security interest in, encumber, or otherwise subject to any lien any property or assets owned or used by the joint venture or confess any judgment against the joint venture without the prior written consent of Global and Micro.

(i) No legal action shall be commenced to enforce the rights of the joint venture without the prior written approval of Global and Micro.

9. *Books and records.* There shall be kept for the joint venture accounts and complete books and records, on the accrual basis, in accordance with generally accepted accounting principles (which shall not be changed without mutual consent), showing all costs, expenditures, sales, receipts, assets, and liabilities, and profits and losses, and all other records necessary, convenient or incidental to recording the joint venture's business and affairs and sufficient to record the division of profits or losses as provided for in Paragraphs 14 and 15.

10. *Fiscal year.* The fiscal year of the joint venture shall be the calendar year.

11. *Reports.* Promptly, after the end of each month, there shall be prepared and delivered to each party a statement showing the results of operations during such month and for the year to date and a balance sheet. Promptly, after the end of each fiscal year, there shall be prepared a balance sheet showing the assets and liabilities of the joint venture at the close of the year and a statement of income showing the results of operations for the year. The joint venture shall have an audit of its books made immediately after the close of each year by a nationally recognized firm of public accountants mutually agreed to from year to year. On or before February 1, following the close of each year, the joint venture shall furnish each party copies of the annual balance sheet and statement of income, together with the certificate of the public accountants covering the results of the annual audit.

12. *Bank accounts.* All moneys of the joint venture shall be deposited in the joint venture's account in banks selected by Global. Withdrawals from bank accounts shall be made by signatures only of such person or persons as shall be authorized by Global.

13. *Accounting decisions.* All decisions as to accounting principles, whether for book or tax purposes (and such decisions may be different for each such purpose), shall be made by Global, including all elections to be made by or for the joint venture under the provisions of the Internal Revenue Code or under any superseding Revenue Code or federal income tax legislation.

14. *Division of profits and losses.* (a) As used in this paragraph, the following definitions shall apply:

(1) "Capital" is defined as the amounts contributed as capital by Global under Paragraph 2.

(2) "

_____ [percentage] percent annual return" is defined as

_____ [percentage] percent of the daily average of the capital remaining in the joint venture during the year.

(3) "Cumulative

_____ [percentage] percent annual return" is defined as the sum from the beginning of the joint venture of all of the

_____ [percentage] percent annual returns.

(4) "Cumulative tax profit" or "cumulative tax loss" is defined as the sum from the beginning of the joint venture of all of its annual tax profits and annual tax losses as reported in its annual United States income tax returns, adjusted to reflect any changes resulting from Internal Revenue Service audits which the parties have mutually accepted or with respect to which a final determination has been made.

(b) The current year's tax profit shall be shared as follows:

(1) Up to the amount of any cumulative tax loss at the beginning of the year previously shared two-thirds by Global and one-third by Micro, the current year's tax profit shall be shared two-thirds by Global and one-third by Micro.

(2) Up to the amount of any remaining cumulative tax loss at the beginning of the year previously allocated entirely to Global and any unearned cumulative

_____ [percentage] percent annual return at the end of the year, the current year's tax profit shall be allocated to Global.

(3) Any balance shall be shared two-thirds by Global and one-third by Micro.

(c) The current year's tax loss shall be shared as follows:

(1) Up to the amount of any cumulative tax profit at the beginning of the year previously shared two-thirds by Global and one-third by Micro, the current year's tax loss shall be shared two-thirds by Global and one-third by Micro.

(2) Up to the amount of any remaining cumulative tax profit at the beginning of the year previously

allocated entirely to Global and all capital and loans to the joint venture on which Global is the lender, co-maker, or guarantor, remaining in the joint venture at the end of the year, the current year's tax loss shall be allocated to Global.

(3) Any balance shall be shared two-thirds by Global and one-third by Micro.

15. *Distributions.* As mutually determined by Global and Micro, any excess assets of the joint venture not needed to carry out the purposes of the joint venture (whether in the form of cash, securities, or other property, and whether arising from operations, loans on the security of assets of the venture, or proceeds from sales or other dispositions) shall first be used to repay the obligations of the joint venture on which Global or the joint venture is personally liable as Global shall determine. As mutually determined by Global and Micro, any excess assets of the joint venture not needed to carry out the purposes of the joint venture and which are not used to repay obligations of the joint venture pursuant to the preceding sentence shall be distributed in the following priority:

(a) To the extent of the previously undistributed cumulative

_____ [percentage] percent annual return, all to Global.

(b) To the extent of previously undistributed capital, all to Global.

(c) Any remaining assets shall be distributed two-thirds to Global and one-third to Micro.

Except as required in subparagraph (b) of paragraph 19, neither Global nor Micro shall be required to return to the joint venture any amounts distributed pursuant to this Paragraph 15.

16. *Events of termination.* The joint venture shall terminate upon the first to occur of the following events:

(a) Upon the expiration of

_____ (

_____) [number of years] years from the date of this agreement.

(b) Upon notice by either party if the other party shall fail to perform its obligations hereunder and such failure shall continue for a period of at least three months after written notice from the party claiming the default. The party desiring to terminate under this provision shall, after the expiration of the three-month period, give one month's written notice of its intention to terminate.

(c) Upon three months' written notice by either party that such party elects to terminate the joint venture because of the failure of the parties to agree upon any proposed action or nonaction by the joint venture resulting in the inability to carry on the business of the joint venture under normal standards of commercial reasonableness, provided that at the end of the three-month period the parties still fail to agree.

(d) Upon the sale of all of the Fox Run Property and its improvements.

(e) At the option of the other party, upon the purported assignment of rights or delegation of obligations under this agreement or upon the voluntary liquidation or dissolution of either party.

(f) At the option of either party within a reasonable time after notice that the other party shall have had

filed against it pursuant to a statute of the United States or of any state, a petition in bankruptcy or insolvency or for reorganization or for the appointment of a receiver, custodian, or trustee of all or a portion of such other party's property and within

_____ (

_____) [number of days] days thereof such other party fails to secure a discharge thereof or that such other party shall make an assignment for benefit of creditors or petition for or voluntarily enter into an arrangement, or be unable to meet its obligations as they become due.

(g) By mutual agreement of the parties.

17. *Distributions on termination.* Upon termination of the joint venture, a final audit shall be made by a mutually agreeable nationally recognized firm of public accountants and all of the property and assets of the joint venture shall be distributed as follows:

(a) All of the property and assets, if any, other than cash, shall be sold or collected and turned into cash or purchase money obligations within a period of three years from the date of such termination. Both Global and Micro shall have the right to bid on and purchase any or all of the property and assets being sold.

(b) All of the debts and obligations of the joint venture on which the joint venture is separately and personally liable or on which Global is separately and personally liable shall be paid in full.

(c) The remaining cash and other property, if any, shall be distributed to the parties as provided in Paragraph 15.

18. *Title.* Legal title to the Fox Run Property shall be held by Global as nominee of and for the benefit of the joint venture or by such other nominee or nominees as Global and Micro shall hereafter mutually designate. Global or the other nominee or nominees shall execute all deeds, leases, and other documents and instruments relating to the Fox Run Property or any part thereof as required by the joint venture, and shall not lease, sell, mortgage, pledge, create a security interest in, encumber, lien, or otherwise dispose of the same without the prior written consent of both Global and Micro.

19. *Liability.* (a) The liability of the joint venture or of Global or Micro as joint venturers arising out of any of the activities of the joint venture shall be covered by appropriate policies of insurance to be purchased by the joint venture as provided in subparagraph (d) of Paragraph 5.

(b) In the event that any liability shall not be adequately covered by insurance, the uninsured liability shall first be satisfied out of the assets of the joint venture. If the assets of the joint venture are not sufficient to fully satisfy the uninsured liability, Global and Micro shall return to the joint venture in the ratio of two-thirds by Global and one-third by Micro prior distributions made pursuant to subparagraph 15 (c) to the extent needed to satisfy such liability. Global shall, in accordance with Paragraph 2 and subparagraph 8(f), be responsible for obtaining for or furnishing to the joint venture any additional funds necessary to satisfy the balance of the uninsured liability.

(c) Global and Micro shall each be indemnified by the other and held harmless against and from all claims, demands, actions, and rights of action which shall or may arise by virtue of anything done or omitted to be done by the other (through or by agents, employees, or other representatives) outside the scope of, or in breach of the terms of this agreement provided the other shall be promptly notified of the existence of the claim, demand, action, or right of action and shall be given reasonable opportunity to participate in the defense thereof.

(d) Nothing contained in this agreement shall be construed to constitute either party the general partner of the other party or the agent of the other party other than in connection with the activities included within the scope of the joint venture nor in any manner to limit the parties in the carrying on of their other respective businesses or activities.

(e) If, on partial or complete termination of the joint venture, or at a time of any distribution to the parties, there are insufficient assets to repay any part or all of the capital contributions or the cumulative percent annual return which is then unpaid, Micro shall not be liable to Global for any deficiency in any such unpaid amounts nor shall Micro be required to make any capital contributions to the joint venture or payments to the other party in order to cover such deficiencies, it being expressly understood that Global' capital contribution is made at its sole risk.

20. *Inspection.* Each party or its authorized representatives may examine any of the books and records of the joint venture or the Fox Run Property or its improvements at any time and without notice.

21. *Integration.* This agreement is the entire agreement between the parties with respect to its subject matter hereof and supersedes all prior agreements between the parties with respect thereto. No alteration, modification, or interpretation hereof shall be binding unless in writing and signed by both parties.

22. *Interpretation.* This agreement shall be interpreted and construed in accordance with the laws of the State of _____[state]. The titles of the paragraphs have been inserted as a matter of convenience of reference only and shall not control or affect the meaning or construction of any of the terms and provisions hereof.

23. *Assignment.* Neither Global nor Micro may assign or pledge any of its right, title, or interest in this joint venture.

24. *Notices.* All notices required or permitted by this agreement shall be in writing and shall be sent by registered or certified mail addressed:

To Global: _____

To Micro: _____

or to such other address or to the attention of such other person as shall be supplied in like manner.

The parties have caused this joint venture agreement to be executed in duplicate this _____[day] day of _____[month], _____[year].

26-22 Current Legal Forms for Real Estate FORM 22.32

FORM 22.32 Pre--incorporation Agreement

COMMENT

This agreement illustrates the basic terms in a program to organize a corporation which is to take over a contract with a redevelopment agency in an urban renewal area. The organizers consist of a builder, a developer, and a financial organization. A major portion of the corporation's financing is to be arranged through the financial organization. While each incorporator is to make an investment in the corporation, the financial organization agrees to lend a substantial additional sum to the corporation. In addition, it is to arrange for a commitment which will be the source of a major portion of the cash required for construction.

For additional forms relating to corporations, see Chapter 15, Shareholders' Agreements, in Volume 18, and Chapter 20, Real Estate Entities, in Volume 24, *supra*.

FORM

AGREEMENT made this _____ [day] day of _____ [month],
 _____ [year], among Jumbo Corp., a(n) _____ [state] corporation, with offices at
 _____ [address], _____ [city], _____ [state] _____ [zip
 code] ("Jumbo"), Harold Jamison, of _____ [address], _____ [city],
 _____ [state] _____ [zip code] ("Jamison"), and James Bindel, of
 _____ [address], _____ [city], _____ [state] _____ [zip
 code] ("Bindel").

Recitals

The parties (the "Shareholders") wish to form an S corporation to engage in the acquisition and construction of real property in the City of _____ [city], State of _____ [state] (the "Corporation"); and

The Shareholders wish that the Corporation to be formed acquire the redevelopment contract from United and perform the terms thereof; and

Jamison is experienced in the real estate construction field and Bindel has had extensive experience in the urban redevelopment field; and

The Corporation will commence business with the sum of _____ Dollars (\$ _____) as working capital; and

The parties wish to obtain a letter of credit of _____ Dollars (\$ _____) in addition to the working funds of _____ Dollars (\$ _____);

Now, therefore, it is agreed as follows:

1. *Formation of corporation.* The shareholders shall organize a corporation (the "Corporation"), under the laws of the State of _____ [state] upon such authorized capitalization as may be mutually agreeable, but with shares all of one class, and all of whose shareholders shall have equal rights with respect to earnings, dissolution, or distributions of property, subject only to the pro rata interest of the shares owned. The Code of Regulations attached hereto will be adopted by the Corporation as soon as practicable after its formation. Further, the parties agree to execute and deliver the Close Corporation Agreement attached hereto as soon as reasonably practicable after the issuance of the shares of the Corporation.

2. *Name of corporation.* The name of the Corporation shall be _____ [name of corporation], or in the event that name is not readily available, then such other name as may be mutually agreeable to the parties.

3. *Acquisition of contract.* The Shareholders, individually and collectively, shall use their best efforts to obtain the assignment to the Corporation of the redevelopment contract.

4. *Contributions and loans.* (a) Each of the Shareholders shall contribute to the Corporation the sum of _____ Dollars (\$ _____), to be comprised of debt and equity in such proportion as shall be mutually agreeable. That portion which shall be debt shall be repayable only upon the completion of the redevelopment contract and shall bear interest at the rate of _____ percent (_____ %) per annum payable quarterly.

(b) Jumbo shall, upon the transfer of the redevelopment contract to the Corporation, lend the Corporation the sum of _____ Dollars (\$ _____), which shall bear interest at the rate of _____ percent (_____ %) per annum payable quarterly and which shall be repayable as the proceeds of permanent mortgages are available to the Corporation.

(c) Each of the Shareholders shall lend the Corporation an additional sum of _____ Dollars (\$ _____) repayable with interest in the manner provided in subparagraph (b) of this paragraph or,

alternatively, shall each execute such guarantees of corporate obligations up to _____ Dollars (\$ _____) as will permit the Corporation to borrow a total sum of _____ Dollars (\$ _____).

5. *Outside loans.* Jumbo shall use its best efforts to obtain a letter of commitment in the sum of not less than _____ Dollars (\$ _____) from recognized lending institutions. Jamison and Bindel shall each guarantee the sum of _____ Dollars (\$ _____) of the letter of credit, which shall be at the usual interest rates and contain terms and conditions normally consistent with this transaction.

6. *Directors.* The Board of Directors of the Corporation shall consist of either three members, or such larger number as is divisible by three, and each of the Shareholders shall nominate its designee or designees so that each shareholder shall be equally represented on such Board of Directors. Each party shall vote for the nominee of the other Shareholders so long as the share ownership of the Shareholders continues. All actions by the Board of Directors shall be taken only at a meeting duly called on at least five (5) days prior written notice, unless notice is waived in writing by the members of the Board of Directors.

7. *Officers.* The officers of the Corporation shall consist of a president, vice president, secretary, and treasurer. To the extent permissible, the Shareholders agree to use their best efforts to vote for the election of Jamison and Bindel as president and vice president, or as the vice president and president, as Jamison and Bindel may agree, and the election as secretary and treasurer of a nominee of Jumbo. All checks, notes, loans, commitments, mortgages, and contracts shall be incurred only upon execution of the president and vice president and countersigned by the secretary or treasurer.

8. *Formation of related corporations.* The Shareholders shall form subsidiary or independent corporations, in which their respective interests shall parallel their interests in the Corporation, required to qualify for benefits under the federal law and regulations in the construction of the residential apartment units required under the terms of the redevelopment contract. The Shareholders will execute corporate certificates and documents and other necessary papers required under the law and the applicable rules and regulations to give the Federal Housing Administration an equity interest in the Corporation or in any subsidiary or independent corporation.

9. *Information by individuals.* Whenever required by the Agency, Jamison and Bindel shall submit to the Agency their personal financial statements, and the financial statements of corporations which they may control if the values of the corporations are set forth in the personal statements.

10. *Restriction against pledge.* None of the Shareholders may create a security interest in, hypothecate, pledge, or otherwise encumber the shares to be issued by the Corporation or any other corporation which may be formed pursuant to the terms of this agreement. This restriction shall be endorsed onto the share certificates.

11. *Arbitration.* Any disputes, controversies, or disagreements under this agreement shall be resolved by arbitration to be conducted by and under the rules of the American Arbitration Association, to be held in the County and State of _____ [county], _____ [state]. Arbitration shall be commenced by the sending of a written notice by the aggrieved party to the other parties at the addresses first above listed, setting forth in brief a statement of the grievance. The mailing of such notice shall commence the arbitration, and the award or decision in arbitration shall be binding upon the parties. The arbitration award or decision may be entered as a judgment in any court or courts having jurisdiction in the matter. Any controversy arising under this agreement shall be determinable only by this arbitration procedure.

12. *Binding effect.* This agreement may not be altered, modified, or revoked except by similar instrument in writing signed by the Shareholders, and it shall inure to the benefit of and bind their heirs, executors, administrators, successors, and assigns.

The parties have set their hands and seals the day and year first above written.

26-22 Current Legal Forms for Real Estate FORM 22.33

FORM 22.33 Joint venture for development of private water system

COMMENT

The following form is a joint venture agreement among three parties. Together they will construct and operate a private water system that will supply water to a housing development. One of the three joint venturers has substantial experience in the design and construction of a private water system and in its management once the system is "up and running."

Finally, there are strong restrictions on the sale of interests in the joint venture. Like a small, closely held corporation with only a few shareholders, a joint venture consisting of only three investors can easily be thrown into serious disruption if one member suddenly sells his or her interest to a stranger whose ideas about running the venture differ from those of the remaining investors. However, there are also protections built into the agreement to shield the investor who wishes to sell his or her interest: for example, in the event a proposed sale of an investor's interest is unreasonably vetoed by the joint venture, its remaining members must purchase the interest at the purchase price contained in the rejected offer.

For additional forms relating to joint ventures and joint ownership, see Chapter 2, Joint Venturers and Business Trusts, in Volume 2, and Chapter 20, Real Estate Entities, in Volume 24, *supra*.

FORM

AGREEMENT made this _____[day] day of _____[month],
 _____[year], among JOE RIGLEY ("Rigley"), residing at _____[address, city, state,
 zip code]; STEVE PINCE ("Pince"), residing at _____[address, city, state, zip code]; and JAMES

FOCUS ("Manager"), residing at _____[address, city, state, zip code].

W I T N E S S E T H:

WHEREAS, Rigley and Pince are in the process of obtaining municipal approvals for a residential subdivision to be located within the Town of _____[town], County of _____[county], State of _____[state]; and

WHEREAS, the Town of has no municipal water system which serves the area in which the development will be located; and

WHEREAS, neither Rigley nor Pince has any experience operating a water system or making a government application therefor; and

WHEREAS, Manager is the operator of several private water systems,

NOW, in consideration of the mutual promises contained herein, it is agreed as follows:

1. *Joint venture.* The parties hereto agree to form a joint venture for the purpose of building and operating a private water system. Eventually, a corporation may be formed that will own and operate the water system. In such case, the joint venture will own all the shares of the corporation. The name of the joint venture will be the _____[name of entity] Water Company.

The office of the joint venture will be located at _____[address, city, state, zip code].

2. *Authority.* Manager shall have the authority to bind the joint venture to any obligation up to the amount of _____ Dollars (\$ _____). Any obligation above _____ Dollars (\$ _____) and up to _____ Dollars (\$ _____) may be incurred with the concurrence of Manager and at least one other member of the joint venture. Any obligation in excess of _____ Dollars (\$ _____) shall require the unanimous consent of all members of the joint venture. No member of the joint venture shall make any representation to the contrary to any person who is not a party to this Agreement.

The sale of all or substantially all of the assets of the joint venture or of the water company may be done only upon the consent of all members of the joint venture, or pursuant to court order.

3. *Management.* Manager shall be responsible for ordinary operations of the joint venture and of the water company which the joint venture intends to operate. He may be discharged as manager upon his death or disability by unanimous action of the remaining members of the joint venture or pursuant to court order. Manager shall have the ability to hire and dismiss such staff as he/she deems necessary or appropriate in order to operate both the joint venture and the water company. Manager has authority to purchase such inventory and supplies as are necessary or appropriate for the ordinary operation of the joint venture and the water company. Manager shall be responsible for taking any and all actions required to achieve and maintain compliance with any and all governmental requirements for the existence and operation of the joint venture and the water company. These shall include, but not be limited to, making applications for approval through _____[list all applicable federal, state and local government agencies whose approval is necessary for the joint venture and water company].

Manager shall be responsible for maintenance of the physical plant and keeping it in good working order at all times. He shall be responsible for reading meters, billing customers and collecting amounts due.

4. *Books and records.* Manager shall be responsible for maintaining accurate books and records for the joint venture or the water company. He shall cause all necessary tax forms to be prepared and filed with any governmental agency having jurisdiction over the joint venture and the water company. In the event that any tax is due, Manager shall pay the same from joint venture or water company funds, as the case may be.

Manager shall make reports to the other joint venture members regarding the financial condition of the joint venture and water company no less often than quarterly. More frequent reports shall be made on the request of any two joint venturers. Said reports, at a minimum, shall set forth all income and expenses of the joint venture and water company and show increases or decreases (if any) from the applicable projected or budgeted amounts.

All joint venturers shall have access to the books and records of the joint venture and water company during regular business hours. The joint venturers shall not exercise this right to access in such a way as to interfere with the business operations of either the joint venture or the water company.

Any member of the joint venture may request an audit of the records of the joint venture and/or the water company. In the event that the audit shows no discrepancies, the audit shall be paid for by the party requesting it. In the event that a discrepancy is found, the audit shall be paid for by the joint venture or the water company, as the case may be. In any year in which an audit is required in order to comply with governmental regulations, another audit in that same year will not be granted at the request of a member, except for good cause shown.

5. *Capital contributions.* The members shall contribute to the joint venture such capital as is necessary to establish the joint venture and construct the water supply facilities needed. The initial contribution shall be the sum of _____ Dollars (\$_____) per member. Notwithstanding the foregoing, where deemed appropriate by the members, amounts needed for construction may be borrowed by the joint venture or water company.

From time to time, members shall make further contributions which they determine are needed. All contributions shall be made within _____ [days] days after the decision is made to require a further contribution, unless the resolution specifies a different time period.

6. *Professional consultants.* Manager shall have the right to hire professional consultants where he deems such assistance necessary or appropriate for accomplishing the goals of the joint venture and water company. Manager shall negotiate with the professional consultant the fee to be paid and the nature and scope of his duties. A letter agreement setting forth this information shall be maintained in the business records of the joint venture and water company. Such professional consultants may include, but are not limited to, attorneys, engineers, certified public accountants, and other similar assistants. Manager shall provide the members of the joint venture with the name and address of each such professional consultant so engaged.

7. *Construction.* It is anticipated that the joint venture will construct a water storage facility, several wells, a water pumping station, and a building which will contain office space for billing and operations, as well as space for maintenance work and storage of supplies.

Manager shall obtain engineering drawings adequate for use in making application to appropriate governmental authorities for permits and approvals necessary for said construction.

He shall also obtain estimates from licensed contractors experienced in this type of construction. Manager shall award the contract to the lowest responsible bidder after consultation with the other members. Approval of the other members is not required. Manager shall act as the general contact person for the contractor. Manager shall make periodic reports to the members on the status of the construction.

8. *Financing construction.* In the event it is decided by the members to seek outside financing for all or part of the construction costs, Manager shall contact commercial lenders. He shall provide to the members a proposal for obtaining the necessary financing. The loan amount should not exceed the probable value of the system being constructed. The loan may encumber the system as security, if required. The members shall consider the financing package, and upon approval by the members, the loan shall be consummated.

9. *Compensation.* Manager shall be entitled to a salary for management services rendered to the joint venture and water company. The joint venture and water company shall set his salary in December of each year for the following calendar year. As manager, he may determine when such salary shall be payable.

Other members may be compensated for their services rendered to the joint venture and/or water company upon the unanimous agreement of the members.

10. *Profits and losses.* The members shall share profits of the joint venture equally. Profits shall be paid at such time and in such manner as Manager shall determine is in the best interests of the joint venture. Manager shall be entitled to retain in the joint venture so much of the profits as he deems necessary for the operation of the joint venture.

Losses of the joint venture shall be shared equally by members of the joint venture.

11. *Dissolution.* The joint venture shall be dissolved upon the unanimous consent of the members. In the event that the members disagree on dissolution, the parties hereto agree to submit to the jurisdiction of _____ [insert name of arbitration or mediation service] to decide the matter.

Upon dissolution of the joint venture, its debts shall be paid and any remaining assets shall be distributed to the joint venturers *pro rata*. If the debts cannot be fully satisfied, the joint venturers shall assume liability for the debts *pro rata*. Each shall hold the others harmless for his *pro rata* share.

12. *Actions of the joint venture.* Except as otherwise noted herein, the joint venture may act on the vote of two-thirds of its members at any meeting of the joint venturer's members.

13. *Meetings.* The joint venture shall hold meetings on _____ [e.g., the first Friday of each month] at its office located in the City of _____ [city]. Other meetings shall be held at the request of any joint venturer. A meeting shall be held within _____ [number of days] days after the request of any member. Requests for meetings shall be delivered to Manager. Each member shall have one vote at the meeting.

14. *Death or disability.* The joint venture shall not be affected by the death or disability of any member. The personal representative of any such member shall be substituted in place of the deceased member. In the event that Manager dies or becomes disabled, the members shall hire a new manager who is qualified to fulfill the duties assigned to him/her herein.

15. *New members.* The joint venture may admit new members upon a unanimous vote of approval of the members. (The preceding sentence shall not apply in the event of the death or disability of a member.) The new member shall be deemed admitted upon payment of a capital contribution fixed by the existing members. The new member shall be provided with a copy of this Agreement and shall execute an acknowledgment thereof. The new member shall be bound by the terms of this Agreement, as amended from time to time, as if he/she were an original signatory.

16. *Sale of interest.* No member may sell his/her interest in the joint venture without the approval of the other members of the joint venture. If the members unreasonably reject such a proposed sale, the members shall purchase the interest at the price contained in the disapproved proposal. It shall not be deemed unreasonable to disapprove a sale to a party

who:

- (a) has a demonstrable lack of financial ability to purchase the interest;
- (b) has been convicted of a crime;
- (c) has been penalized by any state agency with regulatory authority over water supply companies; or
- (d) has had a professional license revoked.

17. *Amendment.* Amendments to this agreement may be made upon the unanimous consent of all parties. The amendment shall be in writing and signed by all parties. A copy of the amendment shall be appended to this agreement.

18. *Entire agreement.* This Agreement, together with the other written agreements and instruments executed concurrently herewith or pursuant to the provisions hereof, contains the entire agreement among the parties respecting the matters herein set forth and supersedes all prior agreements among them respecting such matters.

19. *Counterparts.* This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. At the trial of any matter arising under this Agreement, only one counterpart need be produced.

20. *Headings.* Paragraph headings are for purposes of convenience and identification only and shall not be used to interpret or construe this Agreement.

21. *Waivers.* Except as herein expressly provided, no waiver by any party of any breach of this Agreement, or of any breach of a warranty or representation hereunder, shall be deemed to be a waiver by the same party of any other breach of any kind or nature (whether preceding or succeeding the first breach, and whether or not of the same or similar nature).

No acceptance by a party of payment or performance after any such breach shall be deemed to be a waiver of any breach of this Agreement or of any representation or warranty hereunder (whether or not the party knows of the breach when it accepts such payment or performance).

No failure by a party to exercise any right it may have under this Agreement or under law upon another party's default, and no delay in the exercise of that right, shall prevent it from exercising the right whenever the other party continues to be in default. No such failure or delay shall operate as a waiver of any default or as a modification of the provisions of this Agreement.

22. *Gender and number.* Whenever the singular or plural number, or masculine, feminine or neuter gender, is used herein, it shall equally include the other(s).

23. *Notices.* Any notice which any party is required or may desire to give hereunder shall be in writing and may be personally delivered, transmitted by facsimile machine, or delivered by the United States Postal Service or private delivery service to the above addresses. Notice is deemed given when received.

24. *Governing law.* This Agreement shall be construed and enforced in accordance with the laws of the State of _____[state].

25. *Binding effect.* This Agreement shall be binding upon, and inure to the benefit of, all the parties, and their respective heirs, representatives, successors and assigns.

26. *Modifications.* This Agreement may be modified only by a written document signed by all parties. A purported oral modification shall not be effective.

The parties hereto have set their hands the day and year first above written.

Part IV. FORMS
B. DEVELOPMENT VENTURES

26-22 Current Legal Forms for Real Estate FORM 22.34

FORM 22.34 Sale of undivided interest in joint tenancy--property

COMMENT

In this agreement, the venture takes the form of a tenancy in common. This is accomplished through the sale, by one party to the other of a one half interest in the project. The selling price consists of two components: the fair market value of the property and the costs already invested in the initial stages of the development. This aspect of the transaction will result in taxable gain or loss to the seller based upon one half of his adjusted basis for the entire property. As part of the sale, there is an assignment to the purchaser of a one half interest in all existing contracts, commitments, and other collateral rights in the building project.

The other aspect of the transaction is an agreement between the parties to complete the construction of a hotel and then to lease the hotel in a net lease arrangement to a specific lessee. In order to complete the construction each party agrees to make additional contributions up to a specific maximum. If additional investment is needed, the original venturer agrees to furnish the capital necessary to complete the project. The original venturer also agrees to manage the hotel and to subordinate all management fees to the rental payments due under the lease.

For additional forms relating to the purchase and sale of real estate, see Chapter 20, Real Estate Entities, in Volume 24 and Chapter 21, Real Estate Sales and Exchanges, in Volume 25, *supra*.

For additional forms relating to joint ventures and joint ownership, see Chapter 2, Joint Venturers and Business Trusts, in Volume 2, and Chapter 20, Real Estate Entities, in Volume 24, *supra*.

FORM

AGREEMENT made and entered into on _____[*month and day*], _____[*year*],
between Union Hotel, a(n) _____[*state*] corporation ("Union"), and Club Real Estate Company, a(n)
_____ [state] corporation ("Club").

Recitals

Union is the owner in fee of certain land in _____[*city*], _____[*state*], more
particularly described on the attached Exhibit A, the agreed value of which land as of this date is
_____ Dollars (\$ _____) (the "Agreed Land Value").

Union has caused plans and specifications to be prepared by _____[*name of entity*] of
_____ [city], _____[*state*], for the construction on this land of a hotel (the "Hotel")
which plans and specifications (the "Plans") more particularly described on the attached Exhibit B have been shown to,
initialed, and approved by Club.

Union has expended, as of the date hereof, on architectural services, excavations, foundations, steel work, and other
building activities approximately _____ Dollars (\$ _____), the exact amount of
which (the "Verified Improvement Cost"), will be certified by Union and can be verified by Club by examination of the
books of account of Union.

Union has obtained a first mortgage commitment from _____[*insert name of lender*], under a letter
agreement dated _____[*date*], for this land and improvements when completed, in the amount of
_____ Dollars (\$ _____).

No interim construction loan has as yet been secured or sought.

Union has entered into a construction contract (the "Construction Contract"), dated _____[*month and*
day], _____[*year*], with _____[*name of entity*], covering the Hotel, a copy of which
contract has been shown to, initialed, and approved by Club.

The total cost of the land and completed building, exclusive of furniture, furnishings, and other personal property,
according to the Construction Contract and other commitments and contractual obligations listed on the attached
Exhibit C has been estimated at approximately _____ Dollars (\$ _____).

Club wishes to acquire a fifty percent (50%) interest, as a tenant in common, in the land and improvements and the
contracts, commitments, and contractual obligations, completing, as co-owner and tenant in common, the structure on a
50-50 basis with Union, and leasing the Hotel to a lessee company (the "Lessee"), with furniture, furnishings, and other
personal property to be made available by Union.

Union wishes to sell to Club as a tenant in common an undivided fifty percent (50%) interest in the land and
improvements and the contracts, commitments, and contractual obligations and retaining the other fifty percent (50%)
as a tenant in common, completing, as co-owner and tenant in common, the structure on a 50-50 basis with Club, and
leasing the Hotel to the Lessee, with furniture, furnishings, and other personal property to be made available by Union.

The land not occupied by the Hotel will be developed in the manner decided to be most appropriate and profitable by
Union and Club.

Now, therefore, the parties agree as follows:

1. *Sale of one-half interest.* Union will sell and convey to Club, as tenant in common, an undivided one half of Union's fee interest in the property described in Exhibit A, together with all improvements thereon. Such conveyance shall be made by virtue of a grant deed which shall include all right, title, and interest, if any, of Union in and to the land of any adjacent streets, and shall be subject only to the encumbrances reflected on Exhibit B annexed hereto. The sale and conveyance shall be made against payment to Union in _____ [describe funding] funds of fifty percent (_____%) of (a) the Agreed Land Value, plus (b) the Verified Improvement Cost as of the date of such sale and conveyance, which sale and conveyance shall be settled on a date and in a place in _____ [city] to be mutually agreed upon (if no agreement on a date or place is reached, then on the 60th day after the date hereof at the offices of _____ [name of entity], _____ [address], _____ [city], _____ [state]). The merchantable fee title to be conveyed shall be covered by a title insurance policy in appropriate and satisfactory form. A short form of the Project Agreement, in form satisfactory for recording in the office of the County Recorder of the City and County of _____ [county], _____ [state], shall be executed by Union and Club and recorded.

2. *Assignment of one-half interest in existing contracts.* Simultaneously, with the sale and conveyance in Paragraph 1, Union will also assign to Club subject to the assumption by Club of a commensurate share of the obligations thereunder, a fifty percent (50%) interest in all Union's rights under all existing contracts, commitments, contractual obligations, assignable insurance policies, if any, licenses, and permits with respect to the Hotel and will use its best efforts to secure any and all consents which may be required or appropriate from the other parties thereto. As to any nonassignable or blanket insurance policies, Union will cause Club to be named as an assured or an insured, as its interest may appear.

3. *Project agreement.* As tenants in common and not as copartners or joint venturers, Union and Club will enter into a Project Agreement in which, among other things, they will agree:

(a) To complete the construction of the Hotel in accordance with the contracts, commitments, and contractual obligations listed in Exhibit C, with such modifications, improvements, and changes as may be agreed upon, on a 50-50 or dollar-for-dollar basis until each party has invested, including for each party an amount equal to the price paid to Union in accordance with paragraph 1, but excluding any computation under paragraph 5, the sum of _____ Dollars (\$ _____) (the total amount thus invested by each party plus as to each party all computations pursuant to paragraph 5 being called the Individual Equity Investment).

(b) If any additional investment is needed, Union will complete, at its cost, the Hotel.

(c) Union will cause the furniture, furnishings, and other personal property, necessary for the appropriate operation of the Hotel, to be made available either under a lease providing a fair return on cost basis to the lessor of the furniture, furnishings, and other personal property, or by a sale at cost to the Lessee, upon such terms and conditions, however, as will comply with the terms of the security agreement to be made with the lender, subject to the payment of any charges for the lease or sale, and will insure continued availability of the furniture, furnishings, and other personal property for the operation of the Hotel, irrespective of any default by the Lessee.

(d) Union and Club, by their execution hereof, do severally waive, during the lesser of (1) the term of the Project Agreement, or (2) the period commencing on the date of execution hereof and ending with the Measuring Life (as hereinafter defined), plus 21 years, all of the rights inconsistent with the provisions of the Project Agreement accruing to each of them by virtue of the ownership by each of them of an undivided one-half interest in the Hotel as tenants in common, including, without limiting the generality of the foregoing, the right to possession and management of the respective undivided one-half interests in the Hotel and the right of each to partition the property. It is the intent that the tenants in common, their respective successors and assigns, shall act unanimously with respect to the Hotel in accordance with the terms and conditions contained in this Agreement and the Project Agreement. The term "Measuring Life" shall mean the lifetime of whomever of the following persons alive at the date of execution of the Project

Agreement shall live the longest: (1) any of the directors of Union, or the spouses of such directors, or (2) any of the directors of Club, or the spouses of such directors.

(e) Neither Union nor Club will offer for sale, or sell or otherwise dispose of, any part of their respective interests in the Hotel within the first five years after the opening of the Hotel to the public and thereafter, subject to specific terms to be included in the Project Agreement, only after first offering to the other party for a period of at least thirty (30) days the right of first refusal; but in no event shall the period within which either Union or Club may exercise the right of first refusal exceed the period commencing on the date of execution hereof and ending with the Measuring Life plus twenty-one years. At no time will Union sell any part of its interest in the Hotel if such sale will accelerate or require the repayment of the first mortgage loan to be made by the lender any more rapidly than now provided in the loan commitment without Union making provision for such acceleration or repayment on terms no less burdensome to the parties than as now provided in the loan agreement, subject to a right of subrogation in favor of Union in respect of any provision thus made.

(f) The tenants in common will lease the Hotel on a net basis, in the form customarily used for such properties, to the Lessee. Such lease shall be for a term of twenty (20) from the date of the completion and furnishing of the Hotel (provided, however, that the term of such lease must commence within the period beginning with the date of execution hereof and ending with the Measuring Life plus 21 years) at the following rent per annum:

(1) In each year, the Lessee will pay, as and when they become due and payable, all real estate, personal property, business, and other (except income) taxes which may be assessed against the land, the Hotel, and its operation; and

(2) To Union and Club, respectively, as tenants in common, whatever amounts (when and as they become due and payable) may be required to service (interest and amortization) their respective shares of the mortgage loan; and

(3) To Union and Club, respectively, as further rent, an amount per annum equal, during the first four (4) 12-calendar-month periods of the lease, to _____ percent (_____%) and, during the remainder of the lease and any extension thereof, to _____ percent (_____%), of the Individual Equity Investment of each such party.

The Lessee may renew the lease for three successive periods of _____ (_____) _____[years] years each on the same terms and conditions except the annual rent to be paid during each renewal period shall be determined in the light of the then fair value of the Hotel, including the land, by agreement of the parties or failing such agreement by arbitration.

(g) When and as the Hotel is ready to be opened to the public, Union and Club will each loan the Lessee, if so requested, equal amounts up to the sum of _____ Dollars (\$_____) each to be evidenced by notes secured by a first mortgage or first trust deed on the above-described leasehold, such loans to bear interest at the rate of percent per annum, to be amortized in equal annual installments commencing at the beginning of the fourth year of the loan over the fourth year and the next eleven years, and to be repayable in part or in full at any time without premium by the Lessee.

(h) Union will supply the management of the Hotel for the term of the Project Agreement on the terms described in the following subparagraph.

(i) The Lessee will enter into a management contract with Union under which Union will provide all necessary managerial and supervisory services for the Hotel for a fee per annum of _____ percent (_____%) of the gross revenues of the Hotel, payable monthly subject to year end adjustments, plus
(1) in the event the percentage of rooms occupied by guests in the Hotel in any year should equal or exceed _____ percent (_____%) but be less than _____ percent

(_____%), _____ percent (_____%) of the gross operating profit of the Hotel in that year, or (2) in the event the percentage of rooms occupied by guests in the Hotel in any year should equal or exceed _____ percent (_____%), _____ percent (_____%) of the gross operating profit of the Hotel in that year. The management contract shall contain other reasonable and applicable terms and conditions set forth in the Union Standard Management Agreement, not inconsistent with the terms of this Agreement and the Project Agreement.

(j) The term of the Project Agreement shall continue in full force and effect for a term of years expiring on the later to occur of (1) a date _____ (_____) _____[years] years after the last day of the month in which the date of opening of the Hotel shall occur, or (2) the expiration of the term of the Lease, as extended by the exercise of the option or options to renew to be contained therein.

(k) The provisions of the Project Agreement shall inure to the benefit of and be binding upon the respective successors or assigns of the parties.

4. *Guarantee of rent.* If in any year during the term of the management agreement, as described in subparagraph 3(i), the Lessee is unable to pay all its obligations and the total amount of the rent for the Hotel as described in subparagraph 3(f), Union will waive and forgive whatever part of its management fee and all percentages of gross operating profit in that year under the management contract (up to and including the entire amount), as is necessary to be waived and forgiven in order to provide funds for the Lessee to pay the rent.

5. *Interest on invested capital.* In determining the Individual Equity Investment of each party but without any obligation of either party to accrue or pay the same, there shall be added to all sums, computed in respect of each party as provided in subparagraph 3(a), an interest percentage (not in excess of percent per annum) equal to the highest rate per annum paid by either party for any borrowing made during the period of construction of the Hotel for use as invested capital under this and the Project Agreement or, if no such borrowing is made, at percent per annum. Any borrowings which may be made by either party in aid of this project shall be solely on the credit of the borrower and, if secured by any of the rights of the borrower in this project, expressly subject to or limited by all covenants, disabilities, and obligations of the borrower hereunder and under the Project Agreement.

6. *Conditions to agreement.* The obligation of the parties under paragraphs 1 and 2 shall be subject to the following conditions precedent:

(a) The parties shall have obtained (1) direct consent of the lender to the assignment of the Commitment from Union to Union and Club, and (2) an amendment to the Commitment whereby the lender agrees to look solely to the mortgaged property and the property covered by the security agreement as security for the payment of the mortgage indebtedness and the amount due under the security agreement.

(b) The consent of the other party when and if required to the assignment by Union of its rights under the construction contract and the other commitments and contractual obligations.

(c) The Project Agreement provided for in paragraph 3, the lease referred to in subparagraph 3(f), and the management contract referred to in subparagraph 3(i) shall have been executed and delivered.

(d) The assignment and assumption agreements provided for in paragraph 2 shall have been executed and delivered.

7. *Entire agreement between parties.* The foregoing sets forth the understanding and agreements of the parties as of the date hereof.

Wherefore the parties have caused this Agreement to be executed and delivered on their behalf by an officer of the

respective parties as of the date above written.

Chapter 22 DEVELOPMENT AND SUBDIVISION
Part IV. FORMS
B. DEVELOPMENT VENTURES

26-22 Current Legal Forms for Real Estate FORM 22.35

FORM 22.35 Partnership for land development--land contributed to partnership by owners--construction and financing assumed by developers--provision for admitting new partners for additional equity money

COMMENT

The owners agree to lease the property to the venture, and later to make piecemeal contributions of the property to the venture as improvements on it are planned. The other parties to this venture are developers. Beginning with the year in which the first project is completed, the owners are to receive a guaranteed annual amount as a first charge against the income of the venture. If the venture fails to make this guaranteed payment for a three-year period, the owners may declare a default unless the other two venturers, the developers, make additional contributions to the capital of the venture to enable all past due guaranteed payments to be made to the two owners.

Except for the initial capital contribution of property, the parties do not anticipate any other capital contributions. It is expected that all funds needed in the development program will be obtained through conventional first mortgage financing. If this financing does not produce all the required funds, equity money may be drawn into the venture through the sale to third parties of general or limited partnership interests in the venture. While the admission of such new members into the partnership will reduce the profit percentages of the original venturers, the agreement provides that the guaranteed annual payment to the owners can not be affected.

For additional forms relating to partnerships, see Chapter 1, Partnerships, in Volume 1, and Chapter 20, Real Estate Entities, in Volume 24, *supra*.

FORM

PARTNERSHIP AGREEMENT made and entered into _____[date], by and between Sharon Lake and

Harold Lake (husband and wife) (the "Owners"), and Kathleen Brad (the "Developer").

Recitals

The Owners own that certain real property described on Exhibit A (the "premises").

The parties desire to form a partnership to operate the premises and to plan the improvement of, and to improve, the premises.

Now, therefore, the parties form a partnership upon the following terms and conditions:

1. *Name and business.* The name of the partnership shall be Lake-Brad Development Co. Its business shall be to operate the premises and the present or future improvements and to collect all rents and other income which shall belong to the partnership during the term of this agreement; and to plan the improvement of the premises with multistoried office buildings or other commercial developments and to improve the premises pursuant to such plan, if proper financing is obtained.

2. *Term.* The partnership shall commence on _____[*date*], and shall continue until terminated by the mutual agreement of the partners or until dissolved.

3. *Lease of premises.* The Owners shall lease the premises to the partnership for a term commencing _____[*date*], pursuant to the terms and conditions of a Lease Agreement to be executed contemporaneously herewith.

4. *Place of business.* The business of the partnership shall be conducted and carried on, and its principal place of business shall be, at _____[*address*], _____[*city*], _____[*state*], and at such other places as from time to time may be determined by the partnership.

5. *Preliminary development work.* The Developer shall proceed with reasonable diligence to do the following the "preliminary development work," all at the Developer's initial expense:

- (a) Prepare an environmental impact study and an engineering survey of the premises showing, among other things, the present improvements thereon and the location of all streets, alleys, and public utilities.
- (b) Prepare a master plan of the premises showing the layout of the improvements. The master plan shall provide for the subdivision of the premises into four parcels, approximately equal in size, and for multistoried office building improvements upon the premises. With the Owners' consent, the master plan or any amendment may provide for other or additional commercial improvements upon the premises.
- (c) Prepare preliminary plans and specifications for the improvements to be included in the first project.
- (d) Prepare a brochure with respect to the first project. The brochure should be so prepared that it may be used in obtaining mortgage and equity financing.
- (e) Commence a leasing program designed to obtain commitments from prospective tenants for the improvements to be included in the first project.
- (f) Prepare a schedule showing how the improvements in the first project will achieve a green building rating of LEED Certified as determined by the U.S. Green Building Council.

The Developer shall be entitled to reimbursement from the partnership of their costs of the preliminary development work immediately upon completion of construction of the first project. Preliminary development work with respect to each succeeding project shall also be undertaken by the Developer at her initial expense, but subject to similar reimbursement upon completion of construction. The Developer shall not expend in excess of _____ Dollars (\$_____) for the preliminary development work pertaining to any one project; provided, however, that real estate brokerage fees incurred, if any, shall not be included in this computation, but shall, for all other purposes, be considered part of the cost of the preliminary development work.

6. Financing of improvements

(a) Upon completion of the preliminary development work, the Developer shall apply for commitments for conventional first mortgage financing for the first project with reasonable diligence. The Developer shall attempt to obtain commitments for amounts which, in the aggregate, shall be sufficient to pay for all estimated costs of the improvements. The cost of the preliminary development work shall be included in the estimated costs of the improvements of the first project. At the same time, the Developer shall commence trying to obtain commitments for additional funds in an amount equal to the difference, if any, between the estimated costs of the improvements and the amount of the mortgage financing commitments expected to be obtained, the "equity money." The equity money may be in the form of loans to the partnership, either unsecured or secured by a mortgage or deed of trust of the portion of the premises allocated to the first project and of the improvements to be erected thereon, or of contributions to the capital of the partnership in exchange for an interest, either general or limited or both, in the partnership, or of a combination of loans and contributions. The Developer shall keep the Owners advised of their progress in trying to obtain financing commitments. Upon the receipt by the Owners of notice from the Developer of the terms and conditions of any financing commitment or commitments obtained by the Developer, the Owners shall forthwith approve the same or, at their election, by notice within ten days thereafter to the Developer. The Owners shall have a period of ninety (90) days after the date of receipt of such notice from the Developer in which to try to obtain other commitments upon terms and conditions more advantageous to the partnership than those obtained by the Developer. Upon the expiration of the 90-day period the partnership shall accept the commitment or commitments most favorable to it.

(b) If the terms and conditions of the equity money commitments so require, the person or persons making the commitments, the "investors," shall be admitted to the partnership, provided, however, that the partnership interests of the Developer and of the Owners, including the right to share in the annual net profits of the partnership, shall be reduced in the same proportion in order to make partnership interests available to the investors. If the investors desire to become limited partners, the partners shall form a limited partnership for this purpose, subject to substantially the same terms and conditions as this partnership, and shall otherwise cooperate as necessary to meet the conditions of the equity money commitments. No equity money shall be obtained by the partnership from any person, firm, or corporation with whom any of the partners is directly or indirectly associated in business without the approval of the other partners, which approval shall not be unreasonably withheld.

(c) Notwithstanding anything implied to the contrary in this agreement, the Owners' right to the full sum of their guaranteed annual withdrawal shall in no way be affected by the admission of any investors to the partnership and shall take precedence over any obligations of the partnership to any other partner or any investors, unless the Owners shall otherwise consent.

(d) Each of the projects in the development shall be financed in the manner and pursuant to the procedure outlined above for the first project.

7. Construction of improvements

(a) If the Developer does not cause the commencement of construction of the first project within seven years from the

date of this agreement, the Owners may dissolve the partnership by giving the Developer notice of their election at any time prior to commencement of construction, and the partnership then shall deliver a quitclaim deed of the premises to the owners of the reversionary interest. If construction of any succeeding project is not commenced within five years after completion of the preceding project, the Owners may require the partnership to deliver a quitclaim deed of all unimproved portions of the premises to the owners of the reversionary interest by giving the Developer notice of their election at any time prior to commencement of construction of the next succeeding project. If construction of all projects has not been completed within _____ (_____) _____[years] years after the date of this agreement, the Owners may require the partnership to deliver a quitclaim deed of all unimproved portions of the premises to the owners of the reversionary interest by giving the Developer notice of their election at any time within _____ (_____) _____[days] days after the date this option first exists. In either such event, the Owners' guaranteed annual withdrawal shall be reduced to a sum to which it bears the same relation as the square footage of the entire premises bears to the square footage of the improved portions of the premises. The Developer's annual withdrawal shall be similarly reduced.

(b) If commencement of construction of any project is delayed by reason of war, civil riot, strikes, weather, government regulations, shortages or unavailability of labor or materials, or Acts of God, or other similar causes beyond the control of the Developer, all the periods in subparagraph 7(a) shall be extended for the period of the delay.

(c) The Developer shall cause all construction work of improvements for the partnership to be done by the general contractor at its actual cost of labor, materials, and subcontracts, excluding any allowance to the general contractor for profit or for costs not directly allocable to such construction work. The following items shall be excluded in computing the costs directly allocable to the construction work:

(1) Salaries of executive officers who will direct and supervise the work to be performed under the construction contract.

(2) Salaries and expenses of accounting and auditing staff, clerical staff, legal counsel, and other functions of the general contractor's organization, except any salaries or expenses which may be incurred on the job site.

(3) All other overhead expenses of the general contractor's office organization.

(d) The Developer shall require the general contractor to use its best efforts to generate competition among bidders for the subcontracting and material-supplying phases of the construction work in order to obtain low costs for such construction work and to furnish the Owners with the cost breakdown of the work. The Owners shall have the right to audit the general contractor's books any time within six months after completion of construction of any project to verify the costs of construction.

(e) _____[name of entity], a(n) _____[state] corporation, or its successor, will be the general contractor.

8. *Capital contributions.* (a) Within _____ (_____) _____[days] days after the date of this agreement, the partners shall make the following contributions in cash to the capital of the partnership in order to set up the books of account:

Sharon Lake	\$ _____

Harold Lake	\$ _____

Kathleen Brad	\$ _____

(b) The Developer, from time to time, shall make such contributions to the capital of the partnership as may be necessary, over and above the income of the partnership, to enable the partnership, until completion of construction of the first project, to pay the following: the rent, taxes, and assessments required to be paid by the Lease Agreement, and the operating expenses of the partnership. The Developer shall not be entitled to any reimbursement for such contributions.

(c) Within ten days after completion of the plans and specifications for each project, the approval of financing commitments for the project, and the receipt by the Owners of a request from the Developer, the Owners shall convey to the partnership by grant deed that portion of the premises allocated to the project. The conveyance shall be treated upon the books of the partnership as a contribution by the Owners to the capital of the partnership of an amount equal to the tax basis of the contributed land in the hands of the Owners.

(d) Upon each contribution of land to the capital of the partnership, the Developer shall become obligated to commence within _____ (_____) [days] days, and to complete with reasonable diligence, the construction of the improvements planned for the land and to complete the same with the funds available from the mortgage and equity financing commitments. If subsequently the partnership should obtain any financing commitments more favorable than those described in the notice of commitments obtained by the Developer, then the commitments more favorable to the partnership shall be accepted.

(e) The Owners shall not be required to make any contribution to the capital of the partnership other than as provided in the preceding subparagraphs 8(a) and 8(c). Notwithstanding the foregoing, if the owners of _____ percent (_____) of the partnership interests determine that an additional capital contribution is needed, the partners shall contribute the amount specified within _____ (_____) [days] days after such determination is made. Any partner who fails to contribute the specified amount shall be assessed an interest charge, at the rate of _____ percent (_____) per annum, until such capital contribution and accrued interest charges are paid in full. No distribution of profits shall be made to any partner who is in default on the payment of capital contributions, unless the distribution is first reduced by an amount equal to the unpaid capital contributions and accrued interest thereon.

(f) No interest shall be paid or shall accrue on the capital account of any partner.

9. *Profits and losses.* (a) The net profits or net losses of the partnership shall be credited or charged to the partners at the end of each fiscal year in the following ratios:

Sharon Lake _____ %
 Harold Lake _____ %
 Kathleen _____ %
 Brad _____ %

(b) To the extent of any contributions made by the Developer pursuant to subparagraph 8(b), any deduction for income tax purposes allowable to the partnership prior to the completion of the first project resulting from the payment by the partnership of its operating expenses and the rent, taxes and assessments pursuant to the Lease Agreement shall be allocated in equal amounts to Developer.

(c) If there is not sufficient cash available to enable the Owners and the Developer to each withdraw, _____ (_____) [days] days after the end of each fiscal year,

the respective sums to be withdrawn by them pursuant to subparagraphs 12(a), 12(b), and 12(c), then the net profit of the partnership for that fiscal year (and each fiscal year thereafter until the deficiency is made up) shall be allocated between the Owners and the Developer in the same ratio as the amount of their respective withdrawals for the fiscal year bears to the total withdrawals relating to the fiscal year.

(d) If the partnership sells the premises, the net sale price shall be allocated by the partners between land and improvements on a reasonable basis. In the event the partners are unable to agree on an allocation, the allocation shall then be determined by arbitration. Any loss on the land (but not the improvements) shall be charged to the Owners in equal amounts. Any gain on the land (but not the improvements) shall be credited among the partners in the following order:

(1) Any gain resulting from the first

_____ Dollars (\$

_____) or less of net selling price allocated to the land shall be credited in equal amounts to Sharon Lake and Harold Lake. In the event only a portion of the premises is sold, then any gain resulting from so much of the selling price allocated to the land which bears the same relation to

_____ Dollars (\$

_____) as the square footage of the portion sold bears to the square footage of the entire premises shall be credited in equal amounts to Sharon Lake and Harold Lake.

(2) Any gain resulting from the next

_____ Dollars (\$

_____) or less of net selling price allocated to the land shall be credited in equal amounts to Developer. In the event only a portion of the premises is sold, then any gain resulting from so much of the selling price allocated to the land which bears the same relation to

_____ Dollars (\$

_____) as the square footage of the portion sold bears to the square footage of the entire premises shall be credited in equal amounts to Developer.

(3) Any gain in excess of that referred to in the preceding subdivisions (1) and (2) shall be credited to the partners in the ratios set forth in subparagraph 9(a).

10. *Management of firm business.* (a) The Developer shall devote the time to the partnership business required for its proper conduct, or as is agreed upon by the partners. While the Developer shall consult with the Owners with respect to major matters of partnership policy, the Developer shall have the exclusive control and management of the business of the partnership, including the sole right to sign contracts and to assume direction of business operations, except as provided in this agreement. No salary or other remuneration shall be paid to any partner except by mutual agreement. However, all costs incurred with respect to management, operation, and maintenance of the premises and any improvements, including, but not limited to, the salaries of any managerial personnel hired as employees of the partnership, shall be expenses of the partnership.

(b) No partner may, except by the mutual agreement of the partners or except as authorized by this agreement:

- (1) Borrow money in the firm name or utilize collateral owned by the partnership as security for such loans.
- (2) Assign, transfer, pledge, compromise, or release any of the claims of or debts due the partnership except upon payment in full, or arbitrate or consent to the arbitration of any of the disputes or controversies of the partnership.
- (3) Make, execute, or deliver any assignment for the benefit of creditors, or any bond, confession of judgment, security interest, deed, or guarantee with respect to this partnership or its assets, or contract to sell, or contract of sales of all or substantially all of the assets of the partnership.
- (4) Sell or contract to sell the premises or any part.
- (5) Lease or mortgage any partnership assets or any interest therein, or enter into any contract for any such purposes.
- (6) Except as specifically provided in this agreement, pledge or hypothecate or in any manner transfer his interest or any part interest in the partnership.
- (c) The partnership shall pursue such maintenance and repair policies, shall maintain such reserves for present and future obligations (other than reserves for depreciation), and shall follow such accounting procedures as are consistent with good accounting and business practices.
- (d) The partnership shall not execute any promissory note or other document in connection with the mortgage and equity financing anticipated by this agreement if the effect would be to subject the partnership or any partner to any liability for any deficiency judgment in the event of the foreclosure of any mortgage, deed of trust, or other loan documents securing the note or document. However, the partnership and the partners shall execute whatever loan documents or other instruments may be necessary to hypothecate their interests in the premises and any improvements as required by the financing commitments. None of the partners either directly or indirectly shall be required to assume any personal liability for the repayment of any mortgage loans or equity money obtained as contemplated by this agreement. In the event it should become necessary or advisable, in order for the partners to avoid personal liability on any mortgage loan or on any lease, the parties shall cause the partnership to form a corporation, the stock of which would be owned by the Owners and the Developer in the same ratios as their respective percentage rights to share in the profits of the partnership, or which would be owned by the partnership, and to have the corporation own the interests of the parties in one or more of the projects.
- (e) The terms "mutual agreement" or "mutual agreement of the partners" shall mean agreement by the partners then entitled to _____ percent (_____%) or more of the profits of the partnership.
11. *Records and accounts.* (a) Full, true, and accurate records and accounts of the transactions of the partnership shall be kept in proper books, and each partner shall cause to be entered in such books an accurate accounting of all of his transactions in behalf of the partnership.
- (b) The books of the partnership shall be kept at _____ [name of entity], _____ [city], _____ [state], or at such place as shall be determined by mutual agreement of the partners.
- (c) The books of the partnership shall be open to inspection by any of the partners or by their accredited representatives at any reasonable time during business hours.

(d) The partnership shall be operated on a fiscal year ending December 31 of each year.

(e) At the end of each fiscal year of the partnership, an accurate accounting shall be made in writing of all of the assets and liabilities of the partnership, the books of the partnership shall be properly balanced, and the capital account of each partner shall be adjusted as of such date. A financial statement, including a balance sheet and profit and loss statement, as of the close of the fiscal year, shall be prepared and certified by a certified public accountant at the expense of the partnership, and a copy of such certified statement shall be furnished to each partner within 75 days after the end of the fiscal year. The certified public accountant to perform such work shall be determined by mutual agreement of the partners.

(f) An account in the name of the partnership shall be maintained in the bank from time to time determined by mutual agreement of the partners. All moneys of the partnership and all instruments for the payment of money to the partnership shall, when received, be deposited in the bank account of the partnership. Checks shall be signed with the firm name, and may be drawn by the person or persons determined from time to time by mutual agreement of the partners.

12. *Withdrawals.* Subject to the retention of reserves necessary to meet the requirements of any loan or loans secured by any assets of the partnership and to provide for current operating expenses, any cash that the partnership may have shall be subject to withdrawal, as follows:

(a) _____ (_____) _____ [days] days after the end of each fiscal year of the partnership, commencing with the fiscal year during which construction of the first project is completed, the Owners shall have the right to make a withdrawal, the "guaranteed annual withdrawal." The amount of the first of the guaranteed annual withdrawals shall bear the same relation to _____ Dollars (\$ _____) as the number of days in the fiscal year following the date of such completion shall bear to 365. The amount of each subsequent guaranteed annual withdrawal shall be _____ Dollars (\$ _____). The right to make guaranteed annual withdrawals shall be cumulative so that any portion which is not withdrawn for one year shall increase pro tanto the amount of the Owners' guaranteed annual withdrawal for the ensuing year. In the event the guaranteed annual withdrawal is not paid in full for three consecutive years, the Owners, by notice to the Developer within _____ (_____) _____ [days] days after the end of the third such year, may declare the partnership in default for failure to pay the Owners' guaranteed annual withdrawals. Within ten days thereafter, the Developer, at their option, by notice to the Owners, may make additional contribution to the capital of the partnership necessary to enable the partnership to make all past due payments of the Owners' guaranteed annual withdrawals. Such additional contribution shall be made at the time of exercise of the option. If the Developer does not exercise such option, the Developer shall relinquish to the Owners all rights to participate in the control and management of the business of the partnership, and in the event the Owners should cause the partnership to employ a manager to perform the active management of the business of the partnership, reasonable compensation may be paid by the partnership to the manager. However, when all payments of the Owners' guaranteed annual withdrawals are current, control and management of the business of the partnership shall revert to the Developer.

(b) The Developer shall have the right, at any time, to withdraw an amount equal to the amount contributed by them pursuant to subparagraph 12(a) provided all payments of the Owners' guaranteed annual withdrawals are current.

(c) _____ (_____) _____ [date] days after the end of each fiscal year of the partnership, commencing with the fiscal year during which construction of the first project is completed, the Developer shall have the right to make a withdrawal, but this right may be exercised only in the event that all payments of the Owners' guaranteed annual withdrawals are current. The amount of the first of the Developer' withdrawals shall bear the same relation to _____ Dollars (\$ _____) as the number of days in such fiscal year following the date of completion shall bear to 365. The amount of each subsequent annual withdrawal shall

be _____ Dollars (\$_____). The right to make annual withdrawals shall be cumulative so that any portion which is not withdrawn for one year shall increase pro tanto the amount which may be withdrawn for the next ensuing year.

(d) Any further withdrawals shall be made by mutual agreement of the partners but shall be in the same ratio as the partners' respective percentage rights to share in the profits of the partnership on the date of the withdrawals.

(e) It is the intention of the partners that if sufficient cash reserves are or will be available to provide for all reasonably contemplated expenses of the partnership, arrangements shall be made, subject to mutual agreement of the partners, for periodic cash withdrawals more frequent than the annual withdrawals.

13. *Transfer of partnership interests.* (a) None of the prohibitions or limitations in this paragraph or elsewhere in this agreement shall apply to the admission of any investor as a partner, general or limited, or to the sale or transfer by the Developer of their interest in the partnership to _____ [name of entity] ("Assignee") or a subsidiary, or to the sale or transfer by the Owners of their interest in the partnership to a corporation wholly owned by them or any child or children of them, or to the transfer by any partner of his interest in the partnership to or in trust for any child or children of any partner, or to the transfer by either of the Owners of their interest in the partnership in trust for the benefit of their respective wives, or any religious, scientific, educational, or charitable institution. In the event of a sale or transfer by the Developer of their interest in the partnership to Assignee or a subsidiary, the Owners agree that if Assignee expressly assumes all of the Developer's obligations under this agreement the Developer shall be released from all further obligations under this agreement and the Owners shall look solely to the responsibility of Assignee with respect to all matters in connection with this agreement.

(b) Until the expiration of a _____ (_____) _____ [number of year(s)] year period after completion of construction of the first project, the partners, except with the consent of the other partners, will not sell, assign, mortgage, pledge, or otherwise encumber or transfer their interest in this partnership.

(c) Any partner who shall desire to sell, assign, mortgage, pledge, create a security interest in, or otherwise encumber or transfer any part of his interest in the partnership after the period defined in subparagraph 13(b), the "transferring partner", shall notify the other partners of the terms and conditions of the proposed disposition. The date of receipt of the notice is an option date. The following options shall then exist to acquire the interest of the transferring partner upon the same terms and conditions as are stated in the notice. In the event that the transferring partner desires to make a gift of his interest the remaining partners shall have the right to acquire the interest at its market value.

(1) If the transferring partner is an investor, the Owners and the Developer shall have an option to acquire the interest of the transferring partner. The option shall be exercised by giving notice to the transferring partner within thirty (30) days after the option date.

(2) If the transferring partner is an Owner, the other Owner shall have an option to acquire the interest of the transferring partner. The option shall be exercised by giving notice to the transferring partner within thirty (30) days after the option date. In the event the option is not exercised, the Developer shall have a similar option to acquire the Owner's interest which shall be exercised by giving notice to the transferring partner within 30 days after expiration of the prior 30-day period.

(3) If the transferring partner is a Developer, the Owners shall have a similar option to acquire the Developer's interest which shall be exercised by giving notice to the transferring partner within thirty (30) days after expiration of the prior 30-day period.

(4) Each eligible partner desiring to participate in the acquisition of the interest of the transferring partner shall be

entitled to acquire that portion of the interest as his percentage right to share in the partnership profits on the option date shall bear to the aggregate percentage rights of all eligible partners desiring to participate in the acquisition. In the event the entire interest that the transferring partner desires to dispose of pursuant to the terms and conditions of the proposed disposition is not acquired pursuant to any of the above options, the transferring partner shall have the right during the 30-day period following the expiration of the option periods to complete the disposition to the person and upon the terms and conditions stated in the notice.

(d) Upon the death or adjudication either as a bankrupt or as an incompetent of any partner, the following options to purchase the interest in the partnership of such partner shall then exist:

(1) Upon the death or adjudication of any investor, who shall own an interest in the partnership, the Developer and the Owners shall have an option to purchase the interest then owned by the investor. The option shall be exercised by giving notice to the legal representative of the investor within sixty (60) days after his appointment.

(2) Upon the death or adjudication of either Owner, the survivor shall have an option to purchase all interest in the partnership then owned by the deceased or adjudicated Owner. The option shall be exercised by giving notice to the legal representative of the deceased or adjudicated person within sixty (60) days after his appointment. In the event the option is not exercised, the Developer shall have a similar option to purchase the interest which shall be exercised by giving notice to the legal representative of the deceased or adjudicated person within sixty (60) days after expiration of the prior 60-day period.

(3) Upon the death or adjudication of the surviving Owner, the Developer shall have an option to purchase all interest in the partnership then owned by the survivor. The option shall be exercised by giving notice to the legal representative of the survivor within sixty (60) days after his appointment.

(4) Upon the death or adjudication of the Developer, Owners shall have an option to purchase the interest which shall be exercised by giving notice to the legal representative of the deceased or adjudicated person within sixty (60) days after expiration of the prior 60-day period.

(5) Upon the death or adjudication of the surviving Developer, or the adjudication of Assignee, or a subsidiary to which the Developer may have transferred any part of her interest in the partnership, the Owners shall have an option to purchase the interest then owned by the survivor or corporation. The option shall be exercised by giving notice to the legal representative of the survivor or corporation within sixty (60) days after his appointment.

(6) Each eligible partner desiring to participate in the acquisition of the interest of the deceased or adjudicated partner shall be entitled to acquire that portion of the interest as his percentage right to share in the partnership profits on the option date shall bear to the aggregate percentage rights of all eligible partners desiring to participate in the acquisition. The legal representative of the deceased or adjudicated partner shall be required to sell the interest only in the event the entire interest is acquired by exercise of any of the above options.

(7) On or before January 31 of each year, the partners shall agree upon and state in writing the market value of the interest of each partner in the partnership. The purchase price to be paid for any partnership interest during the remainder of the year shall be the so determined market value of that partnership interest, with an appropriate adjustment for the subsequent period. In fixing the market value of the interest of each partner, consideration shall be given to any unpaid withdrawals due the partner. In the event no market value has been determined by the partners, no liability shall result from such failure and

the value shall be determined by arbitration.

(8) Any sale contemplated by this paragraph shall be deemed to be consummated upon the occurrence of the death or adjudication giving rise to the sale, and as of that date the purchaser shall succeed to all rights of the seller pursuant to this agreement.

(9) Within thirty (30) days after the exercise of any of the options arising upon the death or adjudication of any partner, the purchaser shall deliver to the seller or to the legal representative of the seller an amount of cash equal to

_____ percent (

_____ %) of the purchase price. The remainder of the purchase price shall bear interest at the rate of

_____ (

_____ %) percent per annum from the date of sale, computed on the unpaid balance, compounded annually, and principal and interest due on such remainder shall be amortized by ten equal annual installment payments, commencing one year after the date of sale, payments to apply first to interest due and the balance to principal. The purchaser may prepay all or any part of the unpaid balance without penalty. The obligation of the purchaser shall be evidenced or represented by the purchaser's promissory note payable to the seller and delivered to the seller or the legal representative of seller, and shall be secured by an appropriate assignment, as collateral security, of the entire partnership interest being acquired by the purchaser.

(e) The death or adjudication of any partner, or the transfer of the interest of any parties as permitted or required by this agreement, shall not cause a dissolution of the partnership, but the business shall continue without interruption and upon the same terms and conditions as are provided in this agreement, except that the successor in interest shall succeed to the rights of his predecessor in interest in this agreement, including the right to share in the profits and losses and in the right to make withdrawals from the capital of the partnership.

(f) Any attempted sale, transfer or other disposition of any interest in this partnership, except as specifically permitted by this agreement, shall be null and void.

14. *Sale of partnership assets.* In the event the partnership shall make a sale of the premises, either improved or unimproved, the net proceeds of sale shall be paid to the partners in the following order of preference:

(a) Any unpaid guaranteed withdrawals due to the Owners shall first be paid.

(b) The next _____ Dollars (\$ _____) or less of net proceeds shall be paid to the Owners. In the event only a portion of the premises is sold, then the amount to be paid to the Owners pursuant to this subparagraph shall bear the same relation to _____ Dollars (\$ _____) as the square footage of the portion sold shall bear to the square footage of the entire premises.

(c) Any unpaid withdrawals due to the Developer pursuant to subparagraphs 12(b) and 12(c) shall next be paid.

(d) The next _____ Dollars (\$ _____) or less of net proceeds shall be paid to the Developer. In the event only a portion of the premises is sold, then the amount to be paid to the Developer pursuant to this subparagraph shall bear the same relation to _____ Dollars (\$ _____) as the

square footage of the portion sold shall bear to the square footage of the entire premises.

(e) Any remaining net proceeds of sale shall be distributed in the same ratio as the partners' respective percentage rights to share in profits of the partnership on the date of the sale.

(f) The priorities provided in subparagraphs 14(a) and 14(b) shall take precedence over any obligations of the partnership to any investors, unless the Owners shall otherwise consent.

15. *Dissolution of partnership.* (a) At any time after one year from the date hereof and following substantial compliance by the Developer with the requirements of Paragraph 5 pertaining to preliminary development work with respect to the first project, the Developer shall have the right to dissolve the partnership by giving all other partners thirty (30) days' notice of such election. However, subsequent to the commencement of construction of any project, the Developer shall cause the completion of construction prior to dissolution.

(b) The partners agree that the partnership shall not otherwise be dissolved, except as specifically provided in this agreement.

(c) Upon dissolution of the partnership, an accurate accounting shall be made, the assets and liabilities of the partnership shall be determined, and the debts of the partnership shall be discharged.

(d) If dissolution shall occur subsequent to the conveyance of any part of the premises by the Owners to the partnership, but prior to the commencement of construction of the first project, the premises shall be distributed to the Owners in dissolution.

(e) Upon dissolution of the partnership, the partnership shall engage in no further activity other than that necessary to wind up its business. The assets of the partnership, including the premises and improvements, shall be liquidated and the cash resulting from the liquidation shall be distributed as provided in Paragraph 14.

16. *Notices.* Any notice required to be given pursuant to this agreement, or desired to be given in connection with this agreement or the business of the partnership, shall be in writing and shall be sent by registered or certified mail, postage prepaid, and properly addressed, and shall be deemed to have been received 24 hours after its deposit with the United States Postal Service at Phoenix, Arizona. Any notice intended for any partner shall be addressed to him at the address specified unless he shall subsequently specify some other address for the service of notices:

Developer: _____

Owners: _____

17. *Successors in interest.* This agreement shall be binding upon and inure to the benefit of the heirs, executors, administrators, assigns, and successors in interest of the parties, subject to the provisions of Paragraph 13.

In witness whereof the parties have executed this agreement as of the day and year first above written.

Owners:

Current Legal Forms for Real Estate
Chapter 22 DEVELOPMENT AND SUBDIVISION
Part IV. FORMS
C. PLANNING AND CONSTRUCTION

26-22 Current Legal Forms for Real Estate FORM 22.36

FORM 22.36 Contract to prepare and implement master plan for subdivision of property

COMMENT

The forms in this group are for planning and completing a development program. In the form illustrated here, the owner of a large tract of undeveloped land hires an engineering company to prepare a master plan for the property and supervise all the details for carrying out the plan. The engineering company is in effect taking over all the responsibilities of the developer. In addition to preparing the master plan, the company is to arrange for and supervise the necessary engineering, negotiate with utility companies, direct and manage the required construction, plan and promote sales and leases, and perform general management and administrative services. The owner has therefore turned over to the engineering company full control of the development program even to the sale and lease of the finished land sites.

Tax accounting.

Compensation for the services to be rendered by the engineering company generally falls into two classes. For its general services the company receives a fixed monthly payment. For its engineering services it is reimbursed for specified categories of costs plus a fixed percentage of certain of these costs as its fee. The fixed monthly payment is reportable by the engineering company when received or accrued depending upon its accounting method. If the company is on the accrual basis, its fee for performing the engineering services should be accrued as the costs for those services are incurred.

Cost allocation of future expenses.

Improvement costs are allocated to individual land sites for the purpose of determining gain or loss on each separate sale or other disposition. But in the sale of the first lots there may also be

included in their tax basis an allocation of the estimated costs of future development which may benefit those lots. In order to sustain the allocation of an estimate of such future expenses on the basis of lots first sold, the owner must submit information supporting the following: (a) the cost of the entire tract on which the lots are located, and the suitable allocation of such costs to each lot; (b) a description of the proposed improvements, with evidence that the owner is contractually obligated to make such improvements; (c) an explanation of the method of estimating the costs of the future improvements; (d) an allocation of the estimated costs to each lot, accompanied by a plat map; and (e) if estimates have been allocated to lots sold in prior years, complete information as to the allocation, including actual expenditures for the improvements and their proper allocation. Estimates may be corrected in the light of actual experience.

FORM

AGREEMENT dated and entered into on _____[date], between Land East Corporation, a California corporation, (the "Owner"), and Hodges & Harrison Company, Inc., a New York corporation (the "Company").

The Owner and the Company agree as follows:

1. *Managerial services.* The Company will, subject to the general direction and control of the Owner, perform for the Owner the following services:

(a) Prepare a master plan for the entire property of the Owner (in coordination with an environmental impact study) which will set forth the proper relationship of residential areas, golf courses, beach and recreational facilities, apartment houses, hotels, shopping centers, industrial parks, highways and road networks, and sewer, water, and power systems.

(b) Arrange for and supervise the engineering necessary to execute the master plan including detailed design of utilities, streets, subdivisions, and prepared building sites, and to suggest, arrange for and supervise the implementation of green building techniques and green alternatives into all improvements made as part of the Master Plan so as to maximize energy and water use efficiencies and minimize the environmental impact of the construction.

(c) Negotiate with each of the various utility companies to obtain installation of power, rail, gas, and telephone facilities required to implement the master plan on the most favorable terms and conditions, and coordinate the scheduling and installation of such facilities.

(d) Arrange for and supervise the construction necessary to execute the master plan, and prepare budgets for various stages of development and specific projects.

(e) Coordinate with the various municipal, county, and state agencies in design of services required to implement the master plan including schools, fire stations, locations of roads, access to existing roads, and major drainage systems.

(f) Plan, coordinate, and supervise all sales, promotion, and advertising to facilitate, at the earliest date possible, the sale or lease of bulk land sites, individual land sites, and all finished uses which might be deemed to be the highest and best use of the land involved.

(g) Negotiate sales and leases, and work with tenants and prospective purchasers.

(h) Negotiate for temporary and permanent financing of land development and building construction.

(i) Arrange for and supervise on a coordinated program all necessary insurance.

(j) Perform general management and administrative services for the Owner including, but not limited to, the following:

- (1) Manage all property;
- (2) Propose projects for sale or investment and make complete financial analysis and recommendations on each project to the Owner;
- (3) Investigate and make financial analysis and recommendations on all proposals submitted to the Owner by other parties;
- (4) Keep accounting books and records;
- (5) Offer tax advice, consult with tax attorneys and advisers, and prepare tax returns;
- (6) Review all legal documents, including land purchase and sale agreements, leases, construction loan agreements, notes, mortgages, and deeds;
- (7) Represent the Owner at public functions, as required, and recommend policies to be followed on public matters affecting the Owner;
- (8) Work with municipal, county, and state officials and with municipal bodies, such as planning boards, water boards, board of appeals, and board of assessors;
- (9) Seek short-term loans as needed, and offer financial advice;
- (10) Handle advertising and public relations for the Owner, including preparation of press releases, opening ceremonies, releases of special sales and large sales, and the handling of magazine articles, trade publication articles, and anything else deemed to be in the best interests of the Owner.

2. *Compensation for managerial services.* The Owner shall pay the Company for the services in Paragraph 1 the sum of \$30,000 a month, payable in advance, the first payment to be due _____[date], and each payment to be made on the first day of each and every calendar month thereafter to and including _____[date]. In addition, the Company shall be entitled to a monthly reimbursement for costs and expenses incurred in rendering the services. Without limiting the generality of the foregoing, the Company shall be reimbursed for the following:

- (a) All direct costs of any branch office that may be opened and operated by the Company in relation to the performance of the terms and conditions of this agreement, including but not limited to payroll, office overhead, advertising and promotion, legal fees, consulting fees, and transportation.
- (b) Out-of-pocket expenses of Company personnel, including but not limited to travel, lodging, and communication expenses.
- (c) The costs and expenses shall not include salaries of officers or employees of the Company, or general overhead expenses of the Company.

3. *Engineering services.* The Company shall have its Engineering Division perform engineering services required by the Owner, including site engineering and planning for the land owned by the Owner, preparation of necessary site development plans and specifications, environmental impact studies and statements, propose green building alternatives and such other engineering services as directed by the Owner, all to be in accordance with state Codes and Ordinances.

Any such work may be cancelled at any stage by the Owner.

4. *Compensation for engineering services.* In consideration of the performance of the engineering services in Paragraph 3, the Owner shall make monthly payments to the Company as follows:

(a) All direct costs of the work, including wages, supplies, blueprints, payroll taxes, and insurance. Direct costs, however, shall not include items such as rent, lights, clerical services, salaries of officers of the Engineering Division or of the Company, or other expenses of a similar nature.

(b) 70 percent of direct wages for overhead expenses. The premium portion of salaries and wages for overtime work shall be a reimbursable expenditure but shall not be included as a part of direct wages for the computation of overhead expenses.

(c) 20 percent of the total of the above two items as its fee for performing the work.

(d) Costs of any outside engineering services. The Engineering Division shall submit to the Owner for approval any contracts for outside engineering services amounting to more than \$60,000.

(e) Travel expenses.

(f) Living expenses incurred by personnel of the Engineering Division while away from their homes in connection with the rendering of the services required under Paragraph 3 of this agreement.

5. *Term.* Services under this agreement shall commence _____[date], and terminate _____[date].

6. *Monthly statements.* The Owner may request and receive, from the Company on request, a detailed report of all or any item or items contained in any other usual monthly statement covering costs and expenses. Each monthly statement shall be subject to the approval of the Owner, such approval not to be unreasonably withheld.

7. *Assignment.* The Company may assign or transfer this agreement or any part to any other person, firm, trust, association, or corporation, hereinafter called the Assignee, only provided that:

(a) The Company receives the Owner's prior written consent to such assignment; and

(b) The principal owners of the Company have at the date of the assignment and at all times during the term of this agreement (1) full and complete management and controls of the Assignee; and (2) are the owners of a majority interest in the Assignee.

8. *Personal liability.* No director, shareholder, officer, or agent of the parties shall be held to any personal liability under this agreement, but only the property of each party shall be liable hereunder or by reason hereof.

9. *Licenses and registration.* The Company shall procure, and thereafter during the term of this agreement maintain in effect, all necessary licenses and registrations for the performance of the activities to be engaged in under this agreement, or the Company shall have duly associated with it personnel duly licensed to perform the activities on behalf of the Company. Notwithstanding any other provision, this agreement shall not be deemed to have taken effect with respect to any activities which would be unlawful without proper licensing or registrations until the same have been procured, or the personnel having and maintaining the licenses to engage in the activities on behalf of the Company are associated with the Company.

Executed in duplicate as of the date first above written.

Chapter 22 DEVELOPMENT AND SUBDIVISION
Part IV. FORMS
C. PLANNING AND CONSTRUCTION

26-22 Current Legal Forms for Real Estate FORM 22.37

FORM 22.37 Contract with engineer to plan, map, and supervise development of subdivision--compensation based upon professional fee plus multiple of direct expenses

COMMENT

After an owner or purchaser of undeveloped land decides upon subdividing, he will normally retain a registered civil engineer. The engineer's services ordinarily may be divided into three parts: (1) making a survey and conducting soil tests of the property; (2) preparing and gaining approval of the tentative and final subdivision maps; and (3) supervising the construction of the requisite off-site improvements. Because the agreement illustrated here is entered into before a subdivision map has been prepared and before the cost of constructing the subdivision is known, it is provided that the engineer will be paid a specified professional fee plus an amount equal to a multiple of his direct personal expenses. The professional fee will be paid in progress payments and the direct personal expenses will be paid monthly.

FORM

AGREEMENT made _____[*date*] between Kenneth Young of Placerville, California (the "Owner"), and Frank Wagner of Placerville, California (the "Engineer").

Recitals

The Owner wishes to develop a planned community subdivision on certain real property situated in El Dorado County (the "property") described as follows:

(Insert description)

and

The Engineer wishes to perform professional services in connection with the property,

Now, therefore, it is agreed between the parties as follows:

1. *Duties.* The Engineer will furnish and perform the following professional services:

(a) Prepare a complete boundary survey of the property showing all rights-of-way, easements, and other physical burdens now encumbering the land, and stake out all corners of the property.

(b) Make such soil-bearing tests, investigations, and reports as may be required to determine the soil-bearing capacity of the property, the types of soil contained in the property, and the amount of filling and other remedial work that may be necessary to render the property suitable for the purposes intended by the Owner.

(c) Prepare a tentative subdivision map for the property as required by California law and any local ordinances pertaining to such a tentative subdivision map for the property.

(d) Do all things reasonably required to gain approval or conditional approval of the tentative subdivision map by the governmental agencies required by California law and local ordinances to approve the tentative subdivision map. This shall include the responsibility of engaging legal counsel and other professional consultants, as may be deemed necessary and appropriate by Engineer.

(e) Prepare a survey and final subdivision map for the property as required by California law and any local ordinances pertaining to the property.

(f) Do all things reasonably required by him as a licensed Civil Engineer to gain approval of the final subdivision map by the governmental agencies required by California law or local ordinances to approve such map. Provided, however, nothing herein shall require the Engineer to post or become bound on or for any bond or other security required by any such governmental agency as a condition to the approval of such map.

(g) Prepare detailed plans, specifications, and cost estimates for all streets, utilities, and other improvements (the "off-site improvements") required by law or otherwise to be installed on the property by the Owner.

(h) Prepare, subject to the Owner's approval, invitations for bids, instructions to bidders, and bid forms reasonably required to enable the Owner to award a beneficial contract for construction and installation of the off-site improvements.

(i) Receive and assist the Owner in evaluating any bids received for the construction and installation of the off-site improvements.

(j) Exercise general supervision over the work of any contractor employed by the Owner to construct and install the off-site improvements, but the Engineer does not guarantee the performance of any contract or contracts for the construction and installation of the off-site improvements awarded by the Owner to any such contractor or contractors.

2. *Compensation.* The Owner shall pay to Engineer, as compensation for his services under this contract:

(a) A professional fee of \$30,000.

(b) An amount equal to two and one-half times the direct personal expenses incurred by Engineer in performing this contract. The term direct personal expenses incurred by the Engineer shall mean the cost to him of time spent by himself or his employees, including engineers, designers, draftsmen, specification writers, surveying crews, computers operators, typists, and project representatives, in performing services required by this contract. In determining such costs, the Engineer's own time shall be valued at \$225 per hour and the time of his employees calculated according to their regular rates of pay and the costs of vacation, sick leave, and other employee benefits furnished such employees pursuant to union contracts or the Engineer's normal employment practices.

(c) Actual expenses incurred by the Engineer in performing this contract for:

(1) Travel by himself or his employees to locations more than 100 miles from the property including transportation costs not exceeding thirty cents per mile and living expenses while on such trips of \$60 per day;

(2) Long distance telephone calls and electronic mail;

(3) Telegrams and express mail;

(4) Fees paid pursuant to statute or ordinance to governmental agencies or bodies required to approve the tentative or final subdivision maps for the property.

3. *Manner of payment of costs.* On or before the 15th day of each calendar month, the Engineer shall prepare, certify as correct, and deliver to the Owner an itemized statement of all expenses described in Paragraph 2 incurred by him during the preceding calendar month. Within ten days after delivery to him of the itemized statement, the Owner shall pay to the Engineer the full amount of all the expenses shown on the statement.

4. *Manner of payment of fee.* The Owner shall pay to the Engineer the professional fee specified in this contract in installments as follows:

(a) Ten percent on the execution of this contract, receipt of which is acknowledged by the Engineer.

(b) Twenty percent on completion of the boundary survey, soil-bearing tests, investigations, and reports specified in subparagraphs (a) and (b) of Paragraph 1.

(c) Twenty percent on approval of the tentative subdivision map for the property by all governmental agencies or bodies required to approve the same.

(d) Twenty-five percent on approval of the final subdivision map by all governmental agencies and bodies required to approve the same.

(e) Twenty-five percent on completion of construction and installation of all the off-site improvements.

5. *Indemnity.* The Engineer shall indemnify and hold the Owner and the property of the Owner harmless from any claims, losses, damages, injuries, and liabilities arising from the death or injury of any person or persons including employees of the Engineer, or from the damage or destruction of any property caused by or connected with the performance of this contract by the Engineer, his agents or employees. For the purposes of this paragraph, legal counsel and other professional consultants engaged by Engineer pursuant to the provisions of Paragraph 1(d) shall not be deemed agents or employees of the Engineer, but instead of the Owner.

6. *Worker's compensation insurance.* The Engineer shall procure and maintain during the continuance of this contract a policy of workers' compensation or employer's liability insurance for the protection of his employees, including

executive, managerial, and supervisory employees, engaged in work required by this contract, and shall, on demand, deposit a certificate evidencing the policy with the Owner.

7. *Ownership of plans, maps, drawings.* All maps, plans, drawings, specifications, and other instruments prepared by the Engineer pursuant to this contract shall remain the property of the Engineer and may not be used by the Owner for any project or purpose other than the construction and development of the subdivision described in this contract.

8. *Termination.* If the requirements imposed on the Owner by any governmental agency or body required to approve the tentative or final subdivision map for the property render the subdivision of the property as anticipated by this contract economically unfeasible, the Owner may cancel this contract by giving 30 days' written notice of cancellation to the Engineer. If this contract is cancelled by the Owner, the Engineer shall be entitled to be paid all expenses described in subparagraphs 2(b) and 2(c) incurred by him prior to expiration of the notice period and the percentage of his professional fee specified in Paragraph 4 applicable to the services furnished or performed by him under this contract prior to the date of the notice. The subdivision of the property as anticipated by this contract shall be economically unfeasible if, after the sale of all lots in the subdivision proposed or allowed for the property at prices not exceeding \$7,500 per lot, the net profit to the Owner would be less than 10 percent of the cost of acquiring the property and creating the subdivision.

(b) If either party to this contract is declared a bankrupt, makes a general assignment for the benefit of creditors, is unable to meet obligations as they become due, or commits a substantial breach of this contract, the other party to this contract, the Owner or the Engineer, shall be excused from rendering or accepting any further performance under this contract.

9. *Assignment.* Neither this contract nor any rights or duties hereunder may be assigned or delegated to any other person or entity by either party without the express written consent of the other party.

10. *Arbitration.* Should any dispute arise between the parties concerning this contract or the rights and duties of either in relation thereto, the dispute shall be settled by arbitration held in accordance with the Construction Industry Rules of the American Arbitration Association in effect at the time a demand for arbitration is filed with that association. Either party may file, in the manner provided by the rules of the association, a demand for arbitration at any time. The arbitrator or arbitrators appointed by the association shall have power to award to either party to the dispute such sums, costs, expenses, and attorney's fees as the arbitrator or arbitrators may deem proper.

11. *Notices.* Any notices or other communications required or permitted by this contract or by law to be served on, given to, or delivered to either party, by the other party shall be in writing and shall be deemed duly served, given, or delivered when personally delivered to the party to whom it is addressed or in lieu of personal service, when deposited in the United States mail, first-class postage prepaid, addressed to the Owner at 10 Pembroke Street, Placerville, California, or to the Engineer at 15 Washington Avenue, Placerville, California. Either party may change his address by giving written notice of the change to the other party in the manner provided in this paragraph.

12. *Entire agreement.* This instrument constitutes the entire agreement between the parties relating to the property and sets forth the rights, duties, and obligations of each to the other as of its date. Any prior agreements, promises, negotiations, or representations not expressly set forth in this contract are of no force and effect.

13. *Binding agreement.* This contract shall inure to and be binding on the heirs, executors, administrators, successors, and assigns of the parties.

The parties have executed this contract the date first above written.

Current Legal Forms for Real Estate
Chapter 22 DEVELOPMENT AND SUBDIVISION
Part IV. FORMS
C. PLANNING AND CONSTRUCTION

26-22 Current Legal Forms for Real Estate FORM 22.38

FORM 22.38 Contract with engineering firm to obtain its services in connection with real estate development project--services include surveying and mapping work necessary to prepare preliminary subdivision map, preparing applications for site plan approval and subdivision approval, etc.

COMMENT

The form below is an agreement between an engineering firm and the purchaser of land that will be used in a real estate development project. The purchaser is seeking the professional services of the firm in connection with obtaining project approval from the municipality where the development will be located.

Services to be performed.

The agreement sets forth in detail the services to be rendered by the firm and approximate deadlines. Specifically, the firm will be providing these services, among others:

- (1) all surveying and mapping work necessary to prepare a preliminary subdivision map;
- (2) making whatever amendments to the preliminary map the purchaser requests;
- (3) preparing the applications for site plan approval and subdivision approval;
- (4) testing soil, ground water and surface water, as may be necessary to obtain government approval of the plan;
- (5) testifying at all hearings of the planning and zoning boards; and
- (6) preparing "green" alternatives for the construction of the improvements to achieve energy

savings and water use efficiencies.

Compensation.

The purchaser has paid a substantial deposit to the engineering firm. Initially, the firm will draw against this sum in compensation for its services. Thereafter, once the deposit is exhausted, the purchaser will be billed at an hourly rate, but will pay no more than the sum of \$10,000. Any expenses beyond that are not due until subdivision approval is obtained from the municipality.

In an earlier, separate agreement entered into by the purchaser, it agreed to buy the land in question on condition that it received subdivision approval for the development project. In the event approval cannot be obtained, the contract of sale and purchase will be terminated. On the date that the contingency for subdivision approval expires, any further payments earned by the engineering firm will become due and payable.

Finally, the agreement is terminable at any time by either party.

FORM

AGREEMENT made this _____ [day] day of _____ [month],
 _____ [year], between _____ [insert name of purchaser of land/real estate developer], a corporation existing under the laws of the State of _____ [state], with offices for the transaction of business at _____ [address] (hereafter referred to as "Purchaser"), and _____ [insert name of engineering firm], a corporation organized under the laws of the State of _____ [state], with offices for the transaction of business at _____ [address] (hereafter referred to as "Engineering").

WITNESSETH:

WHEREAS, Purchaser is the contract vendee of a certain parcel of land located in the Town of _____ [town], County of _____ [county], State of _____ [state], and more particularly described in Schedule A, which is annexed hereto and made a part hereof; and

WHEREAS, one of the conditions in the aforementioned contract provides that Purchaser may be relieved of its obligation to purchase in the event that it does not receive residential subdivision approval from the Town of _____ [town] on or before _____ [date]; and

WHEREAS, Engineering is in the business of preparing maps and other materials needed to obtain such subdivision approval,

NOW, in consideration of the mutual promises contained herein, it is agreed as follows:

1. *Engineering firm to provide following services.* Engineering will undertake the following work on behalf of Purchaser:

(a) All surveying and mapping work needed to prepare a preliminary subdivision map for Purchaser's approval. Said map shall comply with all laws, rules and regulations of the State of _____ [state], County of _____ [county] and Town of _____ [town] for obtaining residential subdivision approval.

(b) Amending said map to reflect changes requested by Purchaser, so long as such amendments do not render the map out of compliance with the above-mentioned legal requirements.

(c) Completing the site plan application and subdivision approval application.

(d) Performing soil, ground water and surface water testing (and other testing of the subject land) that may be required as part of the approval process.

(e) Attending and testifying at all hearings of the planing and zoning boards that may be required to obtain subdivision approval.

(f) Conducting necessary research and testing on environmental conditions appearing on or below the land, including, but not limited to, wetlands and deposits of hazardous wastes, and preparing "green" alternatives for the purpose of achieving energy and water efficiencies.

(g) Performing such other services as may be reasonably necessary to accomplish the preceding tasks.

2. *Services to be supervised by licensed engineer.* All services performed by Engineering will be supervised by a professional engineer licensed by the State of _____[state]. All services performed will be in keeping with the standards of professional engineers practicing in the State of _____[state].

3. *Deadlines for performing services.* Services shall be rendered in a timely fashion. Engineering has been made aware that Purchaser must obtain subdivision approval on or before _____[date]. The parties have agreed upon the following as an approximate timetable for completion of tasks hereunder:

(a) testing to be completed within four (4) to six (6) weeks after execution of this Agreement;

(b) surveying and preliminary map to be completed within four (4) to six (6) weeks thereafter;

(c) Purchaser's comments to be provided within two (2) weeks after completion of the preliminary map;

(d) revisions required by Purchaser to be completed within two (2) weeks after comments are provided to Engineering;

(e) applications for site plan and subdivision approval to be completed for attorney review six (6) weeks thereafter;

(f) attorney's comments to be provided within two (2) weeks thereafter; and

(g) applications to be submitted to the Town of _____[town] within two (2) weeks after receipt of the attorney's comments.

The parties understand that this timetable is not binding and may be subject to change, depending on factors over which Engineering has no control, such as weather conditions and the speed with which third parties provide their comments. Time is not of the essence. However, Engineering will complete its tasks in a timely and efficient manner.

4. *Engineering firm to cooperate with Purchaser's counsel in preparation of documents.* Engineering agrees to fully cooperate with Purchaser's counsel in the preparation and submission of documents. Engineering also agrees to fully cooperate in the preparation and submission of testimony and other evidence to the zoning and planning boards.

5. *Engineering firm to have access to all documents and information relating to subject property.* Purchaser agrees to

provide Engineering with access to all information and existing documents with respect to the subject land, including, but not limited to, maps, surveys, title abstracts, and the results of the environmental site assessment.

6. *Engineering firm may subcontract work with Purchaser's approval.* Engineering may subcontract work to be completed by it hereunder, but only with the prior written approval of Purchaser. Engineering shall be responsible for the payment of such subcontractor, and it may bill Purchaser for the subcontractor's services at the rates contained herein. Notwithstanding the foregoing, the letter containing Purchaser's approval may modify the provisions of this paragraph.

7. *Engineering firm to have access to subject property.* Purchaser shall secure from the owner free access to the property for Engineering, its subcontractors, employees, agents and invitees in order that they might complete the tasks required under this Agreement.

8. *Compensation for engineering firm.* Engineering shall be compensated for services as follows:

(a) for field work:

by a licensed surveyor, _____ Dollars (\$ _____) per hour,

by an unlicensed assistant, _____ Dollars (\$ _____) per hour;

(b) for mapping services:

by a licensed engineer, _____ Dollars (\$ _____) per hour,

by an unlicensed engineer, _____ Dollars (\$ _____) per hour,

by a licensed surveyor, _____ Dollars (\$ _____) per hour,

by a draftsman, _____ Dollars (\$ _____) per hour;

(c) for consultations with the project engineer, _____ Dollars (\$ _____) per hour;

(d) for preparation of applications, _____ Dollars (\$ _____) per hour;

(e) for preparation for, and attendance at, hearings, _____ Dollars (\$ _____) per hour;

(f) for testing and evaluation services:

by lab technician, _____ Dollars (\$ _____) per hour,

by engineering staff, _____ Dollars (\$ _____) per hour;

(g) for disbursements:

mileage, _____ \$ per mile,

facsimile, _____ \$ per page,

photocopies, _____ \$ per page, and

postage, as required.

Payment for services rendered shall be made as follows:

Purchaser has deposited the sum of _____ Dollars (\$ _____) _____ [e.g., \$5,000] with Engineering. Receipt of the same is hereby acknowledged. Itemized monthly bills shall be rendered by Engineering for Purchaser. Services shall be billed against the deposit on a monthly basis.

When the deposit is exhausted, Purchaser shall pay all sums billed, up to an additional _____ Dollars (\$ _____) _____ [e.g., \$10,000]. Thereafter, Purchaser may delay further payment until either subdivision approval is received or until _____ [date], whichever date is earlier. At that time, all outstanding sums shall be due and payable in full. Any further statements for work performed thereafter shall be sent monthly and shall be due and payable within _____ [e.g., thirty (30)] days of receipt of the statement. An interest charge of _____ [e.g., one (1)] percent per month shall be assessed on any payment not made when due.

9. *No guarantee that subdivision approval will be obtained.* Nothing contained herein shall be construed by Engineering as a guarantee that the Town of _____ [town] will approve the subdivision application.

10. *Purchaser's representations.* Purchaser makes the following representations:

(a) It is authorized by the owner of the subject property to apply for subdivision approval.

(b) The premises are expected to be served by municipal water and sewer services.

(c) The premises have been examined by a reputable environmental consulting firm and have received a favorable Phase I environmental site assessment report. The copy of such report, furnished to Engineering by Purchaser, is a true and accurate copy.

11. *Plans prepared by engineering firm remain its property until all services have been compensated.* All plans prepared by Engineering shall remain the property of Engineering until all services have been paid for in full.

12. *Termination.* This Agreement may be terminated by either party at any time, either with or without cause, by giving written notice of termination to the other party. The termination shall be effective upon receipt. Upon termination, all services rendered to date by Engineering shall be billed by Engineering. Payment shall be due within _____ [e.g., ten (10)] days of billing. All documents shall be released to Purchaser upon payment.

13. *Entire agreement.* This Agreement, together with the other written agreements and instruments executed concurrently herewith or pursuant to the provisions hereof, contains the entire agreement between the parties concerning the matters herein set forth and supersedes all prior agreements between them respecting such matters.

14. *Counterparts.* This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. At the trial of any matter arising under this Agreement, only one counterpart need be produced.

15. *Headings.* Paragraph headings are for the purposes of convenience and identification only and shall not be used to interpret or construe this Agreement.

16. *Waivers.* Except as herein expressly provided, no waiver by either party of any breach of this Agreement, or of any warranty or representation hereunder, shall be deemed to be a waiver by the same party of any other breach of any kind or nature (whether preceding or succeeding the first breach, and whether or not of the same or similar nature).

No acceptance by a party of payment or performance after any such breach shall be deemed to be a waiver of any breach of this Agreement or of any representation or warranty hereunder, whether or not the party knows of the breach when it accepts such payment or performance.

No failure by a party to exercise any right it may have under this Agreement or under law upon another party's default, and no delay in the exercise of that right, shall prevent it from exercising the right whenever the other party continues to be in default. No such failure or delay shall operate as a waiver of any default or as a modification of the provisions of this Agreement.

17. *Gender and number.* Whenever the singular or plural number, or the masculine, feminine or neuter gender, is used herein, it shall equally include the other(s).

18. *Notices.* Any notice which any party is required or may desire to give hereunder shall be in writing and may be personally delivered, transmitted by facsimile machine, or delivered by the United States Postal Service or private delivery service to the above addresses. Notice is deemed given when received.

19. *Governing law.* This Agreement shall be construed and enforced in accordance with the laws of the State of _____[state].

20. *Binding effect.* This Agreement shall be binding upon, and inure to the benefit of, both parties, and their respective heirs, representatives, successors and assigns.

21. *Modifications.* This Agreement may be modified only by a written document signed by representatives of both parties. A purported oral modification shall not be effective.

The parties hereto have set their hands and seals the day and year first above written.

26-22 Current Legal Forms for Real Estate FORM 22.39

FORM 22.39 Proposal for Phase I Environmental Site Assessment

COMMENT

This form is an agreement between an environmental engineering firm and the prospective purchaser of vacant land that will be used in a real estate development project. The purchaser is seeking the professional services of an environmental engineering company in connection with performing a Phase I Environmental Site Assessment of the property.

The services to be performed are listed under items 1 through 7 of the agreement. Those services are the services to be provided in connection with a Phase I Environmental Site Assessment. If any questionable conditions are found as a result of this Environmental Site Assessment, then the environmental engineer should be able to inform the prospective purchaser of the potential problem, and may recommend additional testing be done in connection with the problem areas. If additional testing is done, it is advisable that the purchaser use a company independent of the environmental engineering company doing the Phase I Environmental Site Assessment to avoid any conflicts of interest.

It is usually important that these reports be kept confidential and this form offers one way in which to do so, namely by protecting the report under the attorney/client privilege. It is important for legal counsel to interface with the environmental engineering company to establish this attorney/client privilege on the report.

FORM

_____ [Date]

Name of Owner ("Client")

RE: Proposal for Phase I Environmental Site Assessment

Gentlemen:

Environmental Engineering Company ("Engineer") is pleased to submit this proposal to conduct a Phase I Environmental Site Assessment ("ESA") of the land located in _____[city], _____[state] (more fully described on Exhibit A, attached hereto and made a part hereof). It is my understanding that the site consists of approximately 250 acres of vacant land. The Phase I assessment is designed to establish whether the subject property is likely to have suffered environmental degradation. The assessment typically involves non-intrusive investigative techniques to discover potential environmental impacts to the subject property as well as adjacent properties.

Scope of Services

The following items constitute the 7 principal tasks to be performed throughout the Phase I ESA. Item 8 represents the typical expenses associated with a project of this nature.

1. Research and preparation for field work, including conducting document searches and reviewing all client provided documents, scheduling local file reviews, personal interviews and arranging site visits and travel accommodations.
2. Travel to and from site, local file reviews and interviews.
3. Conduct site walkover and on-site interviews, which typically include bordering properties as well as related facilities such as rail lines or barge operations. The interviews include site owners who have historical knowledge of past practices and operations. The time estimate for covering approximately 250 acres and interviews is 3 days. It may be beneficial to have representatives of your company accompany Engineer personnel throughout the site walkover.
4. Identify and, if practical, map (not to scale) any potential areas of concern for future sample collection. This does not include detailed AutoCad type mapping.
5. Conduct appropriate local file reviews and interviews. This typically includes discussions with local fire, hazmat and health department personnel. A reasonable search and review of readily available aerial photographs will also be conducted.
6. Conduct and review an environmental record search of the subject property and surrounding area.

This typically includes the following records and data sources:

Federal Sources: NPL, CERCLIS, RCRIS, ERNS, NPDES and FINDS.

State Sources: CONFIRMED DISPOSAL SITES, SPILLS, LANDFILLS, UST, PUBLIC WATER

SUPPLY, AQUIFERS and AREAS OF CRITICAL ENVIRONMENTAL CONCERN.

This will include a USGS site map of the subject area.

Note: All sources may not be available.

7. Prepare and deliver three copies of the report for your distribution:

All reports can be marked, *"Documentation has been prepared at the direction and request of Counsel and is protected by Attorney Client Privilege and/or the Work Product Doctrine or other applicable law,"* if so desired.

A typical report includes the following:

- Introduction
- Site Location and Description
- Description of Current and Prior Site Use
- Site Reconnaissance
- Document Review
- Summary of Findings and Conclusions
- Recommendations (optional)
- Limitations
- Attachments

8. Estimated Expenses

- Federal Document Search Service (a rush fee may be required)
- Hotel, food and transportation costs
- Field supplies such as film and development, delivery service costs and all necessary copies

TOTAL ESTIMATED PROJECT COST IS: _____ Dollars (\$_____). Engineer has estimated approximately _____ (_____) _____ [hours] hours to complete these tasks and approximately _____ Dollars (\$_____) for related expenses. We will make every effort to keep all costs to a minimum throughout the project.

Services not Included

The following services are not included in this scope of work:

- Sampling of soils, water, air and building materials will not be conducted or analyzed under this scope of work.
- Extensive research into economic geology and hydrogeology will not be conducted under this scope of work.
- Researching of Deeds, Title and Zoning information and mapping will not be conducted under this scope of work.
- Remediation plans, cost estimates and compliance analysis will not be conducted under this scope of work.

Time Schedule

Engineer understands that your company would like to have this project completed within a short time frame. We are prepared to initiate the *research work immediately* upon your authorization and sharing of any available documents. Currently we can schedule the *site visit and local file reviews* to begin on _____[*date*] and extend through _____[*date*] (if need be). We expect the entire project can be completed and the reports submitted to you by _____[*date*], assuming authorization to proceed is received by _____[*date*].

Background Materials

If at all possible, Engineer requests that your company supply the following background materials prior to the start of the investigation to allow for maximum efficiency of time and money.

- Permission for right of entry to the subject property and a list of contacts including names, addresses and phone numbers.
- Copies of the most recent survey maps of the subject properties. (If none are available, any subject site maps will greatly assist)
- An accurate address along with the latitude and longitude coordinates for the subject property.
- Copies of any available reports such as soils, hydrologic, geologic, property evaluations, past ESAs or zoning records will be of assistance.

Terms and Conditions

The Terms and Conditions attached hereto are a part of this proposal the same as if incorporated herein.

We appreciate the opportunity to provide your company with this proposal. Should you decide to award this project to Engineer, please sign and date one copy of this letter and return it to me. If you wish to discuss any elements of this proposal, please feel free to call me at (_____) _____[*telephone number*].

Sincerely,

ENVIRONMENTAL ENGINEERING COMPANY

By: _____

[name and title]

We hereby accept your proposal and authorize you to proceed.

NAME OF OWNER ("CLIENT")

By: _____

Date: _____ Title: _____

Exhibit A

STANDARD TERMS AND CONDITIONS

1. **STANDARD OF CARE.** Services shall be performed in accordance with the standard of professional practice ordinarily exercised by the applicable profession at the time and within the locality where the Services are performed. Professional services are not subject to, and Engineer cannot provide, any warranty or guarantee, express or implied, including warranties or guarantees contained in any uniform commercial code. Any such warranties or guarantees contained in any purchase orders, requisitions or notices to proceed issued by client are specifically objected to.
2. **CHANGE OF SCOPE.** The Scope of Services set forth in the Agreement is based on facts known at the time of execution of this Agreement including, if applicable, information supplied by Client. For some projects involving conceptual or process development services, scope may not be fully definable during initial phases. As the Project progresses, if facts discovered by Engineer indicate that the scope must be redefined, Engineer will promptly provide Client with an amendment to this Agreement to recognize such change, which shall be deemed approved if not objected to within 15 days of receipt by Client.
3. **INVOICING AND PAYMENT.** Invoice statements will be issued not less than monthly, with net payment due in 30 days. A 2% discount may be taken for invoices paid within 10 days of invoice date. Past due invoices will be subject to a service charge at the rate of 11/2% per month beginning 30 days from date of invoice. The monthly bill shall consist of a summary of direct labor hours, plus a listing of reimbursable costs incurred. Payments shall be sent to the address appearing on the invoice. Unless Client provides Engineer with a written statement of any objections to the bill within 15 days of receipt, Client shall be deemed to accept the bill as submitted. An administrative fee will be added to all expenses billed through Engineer, including subcontracted services.
4. **ESTIMATED COST.** Engineer will perform the work and accomplish the objectives defined within the estimated costs and schedule proposed. The estimated costs and schedule proposed are based on our best judgment of the requirements known at the time of the proposal. Successful completion within cost and schedule limits can be influenced--favorably or adversely--by changes in work scope and schedule as dictated by Client's needs and by presently unforeseen circumstances. Engineer will notify the Client in advance if schedule or costs are expected to exceed the estimate. In such event, the Client may wish to (1) authorize additional funds to complete the work as

originally defined, (2) redefine the scope of work in order to fit the remaining funds, or (3) request that work be stopped at the specific expenditure level. If option 3 is chosen, Engineer will turn over such data, results, and materials completed at the authorized level without further obligation or liability to either party except for payment for work performed.

5. SAFETY. Unless specifically included as a service to be provided under this Agreement, Engineer specifically disclaims any authority or responsibility for general job site safety and safety of persons other than Engineer employees.

6. DELAYS. If events beyond the control of Client or Engineer, including, but not limited to, fire, flood explosion, riot, strike, war, process shutdown, Act of God or the public enemy, and act or regulation of any government agency, result in delay to any schedule established in the Agreement, such schedule shall be amended to the extent necessary to compensate for such delay. In the event such delay exceeds 90 days, Engineer shall be entitled to an equitable adjustment in compensation.

In the event Engineer is delayed by Client and such delay exceeds 30 days, Engineer shall be entitled to an extension of time equal to the delay and an equitable adjustment in compensation.

7. TERMINATION/SUSPENSION. Either party may terminate this Agreement upon 30 days written notice to the other party. Client shall pay Engineer for all Services, including profit relating thereto, rendered prior to termination, plus any expenses of termination.

In the event either party defaults in its obligations under this Agreement (including Client's obligation to make the payments required hereunder), the non-defaulting party may, after 7 days' written notice state its intention to suspend performance under the Agreement if cure of such default is not commenced and diligently continued, and failure of the defaulting party to commence cure within such time limit and diligently continue the cure, shall suspend performance under this Agreement.

8. OPINIONS OF REMEDIATION/CONSTRUCTION COST. Any opinion of remediation/construction costs prepared by Engineer is supplied for the general guidance of the Client only. Since Engineer has no control over competitive bidding or market conditions, Engineer cannot guarantee the accuracy of such opinions as compared to contract bids or actual costs to Client.

9. RELATIONSHIP WITH CONTRACTORS. Engineer shall serve as Client's professional representative for the Services, and may make recommendations to Client concerning actions relating to Client's contractors, but Engineer specifically disclaims any authority to direct or supervise the means, methods, techniques, sequences or procedures of remediation/construction selected by Client's contractors.

10. REMEDIATION/CONSTRUCTION REVIEW. For projects involving remediation/construction, Client acknowledges that under generally accepted professional practice, interpretations of remediation/construction documents in the field are normally required, and that performance of remediation/construction-related services by the design professional for the project permits errors or omissions to be identified and corrected at comparatively low cost. Client agrees to hold Engineer harmless from any claims resulting from performance of remediation/construction-related services by persons other than Engineer.

11. INSURANCE. Engineer will maintain insurance coverage for Professional, Comprehensive General, Automobile, Worker's Compensation, and Employer's Liability in amounts in accordance with legal and Engineer's business requirements. Certificates evidencing such coverage will be provided to Client upon request. For projects involving remediation/construction, Client agrees to require its remediation/construction contractor, if any, to include Engineer as an additional insured on its policies relating to the Project. Engineer's coverages referenced above shall, in such case, be the excess over contractor's primary coverage.

12. INDEMNITIES. Both Engineer and Client agree to and hereby do defend, hold harmless, and indemnify each other and their officers, directors, employees, agents, and representatives from and against any and all claims, damages, demands, costs and expenses, including attorney's fees, and other losses of any kind or nature whatsoever relating in any manner to any and all personal injuries, deaths, and/or property damage by whomsoever suffered including, but not limited to, the other party or its officers, directors, employees, agents, or representatives arising out of, resulting from or in any manner connected with any negligent act or omission or any intentional misconduct by the other party, its agents or employees under the services provided hereunder.

In no event shall Engineer, its officers, directors, employees or agents be liable for, and Client agrees to defend, indemnify and hold harmless, all at its costs and expense, Engineer, its officers, directors, employees or agents from and against all liabilities, claims, demands, losses, costs, damages, actions, suits or other proceedings (including, but not limited to, any air, ground or water pollution or environmental impairment) by whomsoever made, including claims for bodily injuries, death and physical property loss or damage brought or prosecuted in any manner based upon, occasioned by, or attributable to, arising out of or in any manner connected with or related to Engineer's performance of work that may be made or brought against Engineer of (i) any claims or causes of action arising out of the ownership, transportation, and/or disposal of any contaminated materials; (ii) any claims or causes of action arising out of subsurface conditions or damage to subsurface structures whether owned by Client or any third party, the presence or location of which were not revealed to Engineer by the Client in writing prior to the commencement of Engineer's performance; (iii) any claims or causes of action arising under the Resource Conservation and Recovery Act as amended, the Toxic Substances and Control Act, as amended, the Comprehensive Environmental Response, Compensation and Liability Act, as amended; (iv) any third party claims or causes of action; and (iv) any expenses incurred by Engineer in connection therewith (including reasonable attorney's fees), as such expenses are incurred.

13. LIMITATIONS TO LIABILITY. No employee or agent of Engineer shall have individual liability to Client. Client agrees that, to the fullest extent permitted by law, Engineer's total liability to Client for any and all injuries, claims, losses, expenses or damages whatsoever arising out of or in any way related to the Project or this Agreement from any causes including, but not limited to, Engineer's negligence, errors, omissions, strict liability, or breach of contract shall not exceed the liability insurance limits under the policies described in Paragraph 11, above, as represented and disclosed in writing to Client. If Client desires a limit of liability greater than that provided above, Client and Engineer shall include in this Agreement the amount of such limit and any additional compensation to be paid to Engineer for assumption of such additional risk. IN NO EVENT AND UNDER NO CIRCUMSTANCES SHALL ENGINEER BE LIABLE TO CLIENT FOR CONSEQUENTIAL, INCIDENTAL, INDIRECT, SPECIAL, OR PUNITIVE DAMAGES.

14. ACCESS. Client shall provide Engineer safe access to any premises necessary for Engineer to provide the Services.

15. REUSE OF PROJECT DELIVERABLES. Reuse of any documents or other deliverables, including electronic media, pertaining to the Project by Client for any purpose other than that for which such documents or deliverables were originally prepared, or alteration of such document or deliverables without written verification or adaptation by Engineer for the specific purpose intended, shall be at the Client's risk. Client agrees to defend, indemnify, and hold harmless Engineer from all claims, damages, and expenses, (including reasonable litigation costs), arising out of such reuse or alteration by Client or others acting through Client.

16. AMENDMENT. This Agreement, upon execution by both parties hereto, can be amended only by a written instrument signed by both parties.

17. ASSIGNMENT. The agreement to which these terms and conditions relate and the rights and obligations hereunder may not be assigned or otherwise transferred by either the Client or Engineer without prior written consent of the other party and any such attempted assignment or transfer shall be void.

18. **STATUTES OF LIMITATION.** To the fullest extent permitted by law, parties agree that, except for claims for indemnification, the time period for bringing claims under the Agreement shall expire one year after Project completion.

19. **PREVAILING PARTY LITIGATION COSTS.** In the event any actions are brought to enforce this Agreement, the prevailing party shall be entitled to collect its litigation costs from the other party.

20. **NO WAIVER.** No waiver by either party of any default by the other party in the performance of any particular section of this Agreement shall invalidate any other section of this Agreement or operate as a waiver of any future default, whether like or different in character.

21. **NO THIRD-PARTY BENEFICIARY.** Nothing contained in this Agreement, nor the performance of the parties hereunder, is intended to benefit, nor shall inure to the benefit of, any third party, including Client's contractors, if any.

22. **SEVERABILITY.** The various terms, provisions and covenants herein contained shall be deemed to be separate and severable, and the invalidity or unenforceability of them shall not affect or impair the validity or enforceability of the remainder.

Current Legal Forms for Real Estate
Chapter 22 DEVELOPMENT AND SUBDIVISION
Part IV. FORMS
C. PLANNING AND CONSTRUCTION

26-22 Current Legal Forms for Real Estate FORM 22.40

FORM 22.40 Contract between consulting firm and non-profit corporation which supplies housing for low-income senior citizens--consulting firm to assist corporation in locating potential sites for construction of housing development--firm will also negotiate purchase agreement on behalf of corporation, locate government financing for project, and recruit architect, surveyor, engineer and attorney for project

COMMENT

Many states throughout the country provide some form of financing for non-profit real estate developers who supply affordable housing for elderly Americans with low or moderate incomes. In the agreement below, the developer is a non-profit corporation authorized by law to own and operate housing projects for senior citizens of such economic means. Most projects of this kind must be owned by non-profit entities, since the financing provided by the state usually takes the form of either outright grants, low-interest loans, or loans that are forgiven after a lengthy period of time (*e.g.*, 99 years). Such funding is obviously not available to profit-making companies.

In this agreement, the non-profit corporation has the ability to operate the project once it is built, but it does not have the ability to find an appropriate site for the proposed development, to secure financing, and to organize and supervise the construction of the project. The other party to the contract is a consulting firm which will provide those services for the non-profit corporation. Specifically, the consulting firm agrees to do the following:

- (1) Identify the towns within a particular county that have the greatest need for affordable housing for the elderly.
- (2) Locate potential sites within those towns for erection of the housing development.
- (3) Prepare, for each site, an analysis of its access to: (a) basic utilities (*e.g.*, water, gas, electricity, sewer services, etc.); and (b) necessary services for the elderly (*e.g.*, mass transportation,

supermarkets, drugstores, doctors' offices and hospitals, etc.).

(4) Negotiate, on the developer's behalf, a purchase agreement with the owner of the site chosen by the developer.

(5) Complete and file an application, again on the developer's behalf, to obtain government financing for the construction. (The consulting firm is also responsible for guiding the developer through the entire process, from filing the application and gaining financing approval through closing.)

(6) Assemble a "development team" (i.e., architect, engineer, surveyor and attorney) for the project and negotiate professional service contracts with them on the developer's behalf.

(7) Complete and file an application for a real property tax abatement on the developer's behalf.

In some instances, the consulting firm may also supervise the actual construction of the housing project. That is not the case here. However, in such cases, the level of supervision exercised by the consulting firm often rises to such a high level that the firm basically functions as the general contractor for the project.

FORM

AGREEMENT made this _____ [day] day of _____ [month],
 _____ [year], between _____ [name of entity], a non-profit corporation existing
 under the laws of the State of _____ [state], with offices for the transaction of business at
 _____ [address] (hereafter referred to as "Client"), and _____ [name of entity], a
 corporation organized under the laws of the State of _____ [state], with offices for the transaction of
 business at _____ [address] (hereafter referred to as "Consultant").

WITNESSETH:

WHEREAS, Client is in the business of operating housing for senior citizens; and

WHEREAS, Consultant is in the business of providing consulting services to housing corporations; and

WHEREAS, Client intends to provide approximately _____ [e.g., one hundred (100)] units of new
 senior-citizen housing in _____ [county] County,

NOW, therefore, in consideration of the mutual promises contained herein, it is agreed as follows:

1. *Consultant to prepare market demand study.* Consultant shall prepare a market demand study for
 _____ [county] County. This study shall seek to determine which towns within the county have the
 greatest need for affordable housing for senior citizens of low to moderate income, as defined by state and federal
 guidelines.

2. *Consultant to locate potential sites for senior citizen housing development.* Consultant shall next locate potential sites
 in those towns within _____ [county] County shown to have the highest need for affordable senior
 citizen housing. Each site must be able to accommodate at least _____ [e.g., one hundred (100)] units of

new senior citizen housing]. Consultant shall analyze each site for ease of access to: (1) basic utilities (*e.g.*, water, gas, electricity, sewer services, etc.); and (2) necessary services for the elderly (*e.g.*, mass transportation, supermarkets, drugstores, doctors' offices and hospitals, etc.).

3. *Selecting the site; Consultant to negotiate purchase agreement for Client.* Upon receipt of Consultant's list of potential sites and Consultant's analysis of the pros and cons of each site, Client shall indicate the site upon which it wishes to build the project. Consultant shall negotiate a purchase agreement for that site, subject to the following limitations:

- (a) The contract shall be subject to approval by Client's legal counsel before it is binding upon Client.
- (b) The contract shall be contingent upon Client's obtaining all necessary government financing. (Client shall provide Consultant with a range of acceptable purchase prices and with information regarding necessary financing.)
- (c) The contract shall be contingent upon the results of a Phase I environmental site assessment, and wetlands delineation showing the extent of any wetlands.
- (d) The contract shall be contingent upon receipt of all governmental approvals needed to construct the intended number of units on that site.
- (e) The contract shall be contingent upon the Client's receiving marketable title, free and clear of all encumbrances, with a policy of title insurance to be provided by the seller.

4. *Consultant to prepare application for government financing.* Consultant shall prepare the application to obtain funding from _____ [*insert name of state or local government agency that will supply financing*]. The application shall first be reviewed and approved by Client. Consultant shall make any changes required by Client. Consultant shall attend all meetings between _____ [*insert name of state or local government agency that will supply financing*] and Client as Client's advocate.

5. *Consultant to obtain services of project architect, engineer, surveyor and attorney.* Consultant shall seek the services of a project architect, engineer, surveyor and attorney and make recommendations to Client regarding the individuals who are best qualified for these positions. Client shall select the professionals whose services it intends to use. Consultant shall negotiate professional service agreements with each, subject to Client's approval.

6. *Consultant to make application for real property and other tax abatements.* Consultant shall make application on behalf of Client for real property and other tax abatements for the site.

7. *Compensation for Consultant.* Consultant shall be compensated as follows:

- (a) For the market study, the sum of _____ Dollars (\$_____). This sum shall be paid upon completion and delivery of the study.
- (b) For site acquisition, _____ [*e.g., five (5)*] percent of the purchase price, to be paid at the closing.
- (c) For preparing and filing the application for government financing of the project, negotiating the professional service contracts with the architect, engineer, surveyor and attorney, and filing the applications for real property and other tax abatements, _____ Dollars (\$_____) per unit, payable upon receipt of government funds by Client.
- (d) All other services which are not specified in this Agreement, but which Client may request of Consultant hereafter,

shall be billed at the rate of _____ Dollars (\$_____) per hour, billable monthly and payable within _____ [e.g., ten (10)] days after billing.

8. *Termination.* This Agreement may be terminated by either party at any time through the giving of written notice to the other party. The termination shall be effective upon receipt of such notice, unless some other date of termination is specified. Consultant shall be paid for all services completed as of the effective date of termination. Consultant shall not be entitled to payment for any services which are still in progress, but which are not completed as of the effective date of termination.

9. *Entire agreement.* This Agreement, together with the other written agreements and instruments executed concurrently herewith or pursuant to the provisions hereof, contains the entire agreement between the parties concerning the matters herein set forth and supersedes all prior agreements between them respecting such matters.

10. *Counterparts.* This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. At the trial of any matter arising under this Agreement, only one counterpart need be produced.

11. *Headings.* Paragraph headings are for the purposes of convenience and identification only and shall not be used to interpret or construe this Agreement.

12. *Waivers.* Except as herein expressly provided, no waiver by either party of any breach of this Agreement, or of any warranty or representation hereunder, shall be deemed to be a waiver by the same party of any other breach of any kind or nature (whether preceding or succeeding the breach in question, and whether or not of the same or similar nature).

No acceptance by a party of payment or performance after any such breach shall be deemed to be a waiver of any breach of this Agreement or of any representation or warranty hereunder, whether or not the party knows of the breach when it accepts such payment or performance.

No failure by a party to exercise any right it may have under this Agreement or under law upon another party's default, and no delay in the exercise of that right, shall prevent it from exercising the right whenever the other party continues to be in default. No such failure or delay shall operate as a waiver of any default or as a modification of the provisions of this Agreement.

13. *Gender and number.* Whenever the singular or plural number, or the masculine, feminine or neuter gender, is used herein, it shall equally include the other(s).

14. *Notices.* Any notice which any party is required or may desire to give hereunder shall be in writing and may be personally delivered, transmitted by facsimile machine, or delivered by the United States Postal Service or private delivery service to the above addresses. Notice is deemed given when received.

15. *Governing law.* This Agreement shall be construed and enforced in accordance with the laws of the State of _____ [state].

16. *Binding effect.* This Agreement shall be binding upon, and inure to the benefit of, both parties and their respective heirs, representatives, successors and assigns.

17. *Modifications.* This Agreement may be modified only by a written document signed by representatives of both parties. A purported oral modification shall not be effective.

The parties hereto have set their hands and seals the day and year first above written.

Current Legal Forms for Real Estate
Chapter 22 DEVELOPMENT AND SUBDIVISION
Part IV. FORMS
C. PLANNING AND CONSTRUCTION

26-22 Current Legal Forms for Real Estate FORM 22.41

FORM 22.41 Contract to locate and negotiate funding for real estate development project

COMMENT

The form that follows is an agreement between a real estate developer and a mortgage broker, in which the latter agrees to locate and negotiate a source of funding for a project to be undertaken by the developer. Specifically, the developer is planning to gut an existing school building and redesign it as residential housing units.

The developer here is unsure whether the units will be turned into owner-occupied condominiums, or whether they will be rented out as low-income apartments for senior citizens. The developer is considering selling the project, once it is completed, to a non-profit corporation which will own and operate the facility under a federal or state housing program for the elderly. (As noted in the Comment to the preceding form, Form 22.40, in many states, non-profit corporations provide low-cost housing for elderly citizens of limited financial means. Typically, a government agency would make funds available to these corporations in order to acquire housing for senior citizens; such funding may be in the form of a grant, low-interest loan, etc.) Accordingly, in the contract below, a great deal of flexibility is given to the mortgage broker in determining the most appropriate form of funding available for this project.

Broker's compensation.

The broker will be compensated for finding a loan which either meets the developer's guidelines, or which the developer finds acceptable--even though the loan terms may not satisfy all of the guidelines. The fee in this form is a fixed fee, but in many instances the fee will be a percentage of the amount of the loan. To protect the broker from an untimely termination of this agreement by the developer, the right to compensation is fixed at the time of issuance of a loan commitment letter by a lender. If the broker is negotiating with a lender at the time of termination and the lender

subsequently grants the loan, then the broker receives a *quantum meruit* payment for work already done.

The broker will receive payment either at the time of settlement of the loan, or 60 days after issuance of the loan commitment letter, whichever comes first. This provision will guarantee that the developer will move rapidly toward settlement of the loan transaction so that it can pay off the broker with loan proceeds, rather than with the corporation's own operating funds.

FORM

AGREEMENT made this _____[day] day of _____[month],
 _____[year], between _____[name of entity], INC., a corporation existing under the
 laws of the State of _____[state], with offices for the transaction of business at
 _____[address] (hereafter referred to as "Investor"), and _____[name of entity], a
 partnership organized under the laws of the State of _____[state], with offices for the transaction of
 business at _____[address] (hereafter referred to as "Broker").

WITNESSETH:

WHEREAS, Investor is about to undertake a project to renovate a former school into housing units; and

WHEREAS, the purchase agreement between Investor and the owner is contingent upon Investor obtaining suitable mortgage financing on or before _____[date]; and

WHEREAS, Investor may desire to immediately sell the project upon completion to a non-profit corporation for use as low-income housing or, alternatively, as condominiums; and

WHEREAS, Broker is in the business of locating and negotiating financing,

NOW, in consideration of the mutual promises contained herein, it is agreed as follows:

1. *Loan.* Broker agrees to use its best efforts to locate financing for Investor which has the following features:

(a) *Loan amount.* The total loan amount must be at least _____ Dollars (\$_____)
 _____[e.g., \$2.5 million]. The loan may be advanced in stages pursuant to a building loan agreement.
 The initial release must be at least _____ Dollars (\$_____) _____
 _____[e.g., \$500,000] in order to cover acquisition and closing costs.

(b) *Interest rate.* The interest rate may be variable; however, it must have a cap of no more than
 _____[e.g., eight (8)] percent. The rate should vary in accordance with the prime lending rate. Under
 no circumstances may the interest rate increase more than _____[e.g., three (3)] percent in any
 calendar year. Adjustments may be made monthly or quarterly.

(c) *Loan term.* The loan term must extend for at least a period of _____[e.g., ten (10)] years. The loan
 term must be automatically renewable for at least _____[e.g., ten (10)] additional years at the option of
 Investor, provided that Investor has had no adverse changes in its financial condition during the initial loan period.

(d) *Loan repayment.* The loan should be repayable as follows: (i) during the construction period, interest only will be

payable monthly; and (ii) amortized payments of both principal and interest shall begin _____ [e.g., sixty (60)] days after the last advance of loan funds or after the issuance of the certificate of occupancy, whichever event occurs first.

(e) *Environmental site assessment.* The lender shall not require an environmental site assessment as a condition precedent to making the loan.

(f) *Loan assumable.* The loan must be assumable if Investor transfers the property to a non-profit corporation.

(g) *Principals need not personally guarantee loan.* The principals of Investor will not have to personally guarantee repayment of the loan.

(h) *Security for loan.* The loan may be secured by a mortgage on the real property. The lender may request a conditional assignment of leases and rents.

(i) *Prohibited loan terms.* The loan shall not include any of the following provisions:

(i) a prohibition on secondary financing;

(ii) the imposition of liens against bank accounts belonging to Investor;

(iii) cash security from Investor for the loan;

(iv) the charging of more than _____ [e.g., two (2)] loan "points";

(v) the imposition of liens on Investor's inventory or supplies; and

(vi) the imposition of liens on plans and maps prepared for the project.

(j) *Other terms required by lender are subject to Investor's approval.* Any provisions required by lenders which are not discussed herein shall be subject to approval of Investor.

2. *Financial information.* Broker may provide copies of Investor's financial statement, credit report and economic projections for the project to prospective lenders. Lender must agree to maintain Investor's privacy with regard to the information revealed in the aforesaid documents. Copies of financial information shall not be released to anyone by lenders without either prior written permission from Investor or a subpoena. Potential lenders who decline to make the loan shall return all financial documents to Broker.

3. *Time is of the essence.* Time is of the essence. Broker agrees to complete its duties hereunder on or before _____ [date].

4. *Compensation.* In the event that Broker is able to secure a loan commitment letter for Investor which meets the conditions set forth in Paragraph 1 hereof, or which does not meet all such conditions but is nonetheless acceptable to Investor, Broker shall be entitled to compensation. Broker shall be paid the sum of _____ Dollars (\$_____) _____ [e.g., \$2,500] by Investor. Said sum shall be paid either at the settlement of the loan or _____ [e.g., sixty (60)] days after issuance of the loan commitment letter by a lender, whichever event occurs first.

In the event that a fully-negotiated loan does not reach settlement, Broker shall still be entitled to payment, provided that the lack of settlement does not stem from any act or omission on Broker's part, including, but not limited to, neglect

of its duties or intentional misrepresentations made by Broker.

5. *Termination.* Either party may terminate this Agreement upon the giving of _____ [e.g., *twenty-four (24) hours' or five (5) days'*] written notice. In the event that Broker has entered into negotiations with a lender who ultimately makes the loan to Investor, Broker shall be entitled to a *quantum meruit* payment by Investor.

6. *Representations by Investor.* Investor makes the following representations to Broker, intending Broker to rely thereon:

- (a) All financial statements of Investor are true and accurate.
- (b) There have been no material changes in Investor's financial condition since issuance of the financial statements.
- (c) Neither Investor nor any principal of Investor has ever filed a petition in bankruptcy or made an assignment for the benefit of creditors.
- (d) Investor is a duly-formed corporation in good standing, organized under the laws of the State of _____ [state].

7. *Representations of Broker.* Broker makes the following representations to Investor, intending Investor to rely thereon:

- (a) Broker is experienced in the area of locating financing for commercial real estate development projects.
- (b) Broker is very familiar with the lending requirements and practices of commercial lenders in the State of _____ [state].
- (c) Broker has secured all licenses, if any, needed to engage in the activities required of it under this Agreement.

8. *No guaranty.* Nothing herein shall be construed as a guaranty by Broker that it will be able to find financing meeting Investor's requirements. Broker covenants to use its best efforts to secure such financing. Broker will present all offers of financing received from potential lenders to Investor for review.

9. *Entire agreement.* This Agreement, together with the other written agreements and instruments executed concurrently herewith or pursuant to the provisions hereof, contains the entire agreement between the parties concerning the matters herein set forth and supersedes all prior agreements between them respecting such matters.

10. *Counterparts.* This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. At the trial of any matter arising under this Agreement, only one counterpart need be produced.

11. *Headings.* Paragraph headings are for the purposes of convenience and identification only and shall not be used to interpret or construe this Agreement.

12. *Waivers.* Except as herein expressly provided, no waiver by either party of any breach of this Agreement, or of any warranty or representation hereunder, shall be deemed to be a waiver by the same party of any other breach of any kind or nature (whether preceding or succeeding the breach in question, and whether or not of the same or similar nature).

No acceptance by a party of payment or performance after any such breach shall be deemed to be a waiver of any breach of this Agreement or of any representation or warranty hereunder, whether or not the party knows of the breach when it accepts such payment or performance.

No failure by a party to exercise any right it may have under this Agreement or under law upon another party's default, and no delay in the exercise of that right, shall prevent it from exercising the right whenever the other party continues to be in default. No such failure or delay shall operate as a waiver of any default or as a modification of the provisions of this Agreement.

13. *Gender and number.* Whenever the singular or plural number, or the masculine, feminine or neuter gender, is used herein, it shall equally include the other(s).

14. *Notices.* Any notice which any party is required or may desire to give hereunder shall be in writing and may be personally delivered, transmitted by facsimile machine, or delivered by the United States Postal Service or private delivery service to the above addresses. Notice is deemed given when received.

15. *Governing law.* This Agreement shall be construed and enforced in accordance with the laws of the State of _____[state].

16. *Binding effect.* This Agreement shall be binding upon, and inure to the benefit of, both parties and their respective heirs, representatives, successors and assigns.

17. *Modifications.* This Agreement may be modified only by a written document signed by representatives of both parties. A purported oral modification shall not be effective.

The parties hereto have set their hands and seals the day and year first above written.

Chapter 22 DEVELOPMENT AND SUBDIVISION
Part IV. FORMS
C. PLANNING AND CONSTRUCTION

26-22 Current Legal Forms for Real Estate FORM 22.42

FORM 22.42 Contract to plat and subdivide land and construct housing development--terms favorable to contractor--contractor's work furnished at cost

COMMENT

Many development ventures are a combination of a landowner and a builder or developer. The venturers may join as mere co-owners, as joint venturers, as partners, or as shareholders in the corporation holding title to the property. In such case, the organization agreement will frequently provide that the builder or developer will perform the general contracting services. In this case, the relationship between the owner and the developer is through corporation ownership. The developer corporation owns 50 percent of the shares of the owner corporation. The contract provides that all services by the developer corporation are to be furnished at cost. To complement these services by the developer the owner is responsible for the planning, financing, and sales aspects of the venture.

Since all work for the venture is to be performed by both parties at cost, the basic purpose of this contract is simply to define the financial and working responsibilities of the venturers. The developer is to plat all properties designated by the owner for improvement and is to construct the roads. Building construction is to be initiated by the erection of model homes, followed by the construction of homes in groups of not less than 25. The contract defines in precise terms the construction costs and overhead and office expenses for which the developer is to be reimbursed by the owner. At the same time, it requires the owner to work out in advance a satisfactory financial program to insure the developer that the reimbursement will in the first instance be made by way of progress payments from construction mortgages. If these are not sufficient, payments are to be made from the proceeds of permanent mortgages or by the owner itself if full payment has not otherwise been made within a fixed time after the completion of each home.

FORM

AGREEMENT made and entered into at Miami, Dade County, Florida, _____[date], by and between Central Development Co., Inc., a Florida corporation (the "Owner"), and General Building Corporation, a Florida corporation, (the "Contractor").

Recitals

The Contractor is the owner of one half of the outstanding stock of the Owner, and is beneficially interested in the development of the properties now owned or hereafter acquired by the Owner. By reason of the ownership of such stock by the Contractor, the parties have agreed that the Owner would employ the Contractor as a general contractor to develop all properties now owned or hereafter acquired by the Owner,

Now, therefore, the parties agree as follows:

1. *Employment.* The Owner employs the Contractor to do the work covered by this contract and the Contractor accepts such employment.

2. *Preliminary work.* When the Owner has designated properties for improvement, the Contractor will then be authorized, empowered, and directed to let all contracts and take all actions on behalf of the Owner which may be necessary for the doing of all preliminary work of laying out the properties, constructing roads and streets, platting the property or properties on behalf of the Owner and hiring of architects to propose "green" alternatives during the schematic design phase of the proposed improvements. The Owner, on its behalf, will, upon the demand of the Contractor, execute any and all instruments and do any and all things which may be necessary or incidental to the performance of the work by the Contractor pursuant to the foregoing provisions.

3. *Model homes.* The Contractor will erect model homes on the properties that the Owner designates, and the homes will be constructed in accordance with plans and specifications which the Owner will furnish, for the purpose of offering homes for sale in the respective subdivisions and areas which the Owner proposes to develop.

4. *Group construction.* After the Contractor has erected the model homes, the work covered by this contract will consist in the construction by the Contractor of homes in groups of not less than 25 in number. The homes will be built on the lots or sites that the Owner designates, in accordance with plans and specifications furnished by the Owner prior to the commencement of the construction work. The Contractor will continue to build homes for the Owner, in groups of not less than 25 homes, as long as the Owner designates the homes to be built by the Contractor. Nothing herein contained shall be construed as precluding the Owner from terminating construction work if, in the judgment of the Owner, the construction of additional homes is unwarranted.

5. *Financial assurances to contractor.* Before making it obligatory upon the Contractor to do any work, pursuant to the terms of this contract, the Owner shall:

(a) Satisfy the Contractor that the Owner can and will pay for the cost of platting and subdividing the portions of the lands to be platted and subdivided, and pay for all cost of constructing the roads and streets in the platted portions of the property; and

(b) Satisfy the Contractor of the ability of the Owner to pay for the work of constructing the homes, by having procured financing from an institution which will cover both the making of progress payments and the final payment to be made in each instance hereunder, and by having procured a permanent mortgage commitment covering each home. The permanent mortgage commitment and the proceeds therefrom shall be in an amount sufficient to enable the Owner to

pay the Contractor its overhead as provided for in Paragraph 7(f) and the then unpaid amount which the Contractor should receive for the cost of constructing the home.

6. *Progress of work.* After financing is arranged as required by Paragraph 5, the Contractor shall proceed with the work of construction, and shall perform or cause to be performed, all of the work and furnish or cause to be furnished, all of the materials shown on the plans and specifications. In each instance the work to be performed shall be commenced as quickly as possible after the Owner has notified the Contractor of the homes to be constructed and the lots upon which the homes are to be situated. The work, when commenced, shall be carried through expeditiously and continuously to completion as rapidly as the proper doing of the work, the employment of available crews of labor, the prompt placing of orders by the Contractor, and the availability of materials will permit. Nothing herein contained shall require the Contractor to employ overtime labor. The Contractor shall exercise its best efforts to cause the work to be done as promptly as possible. In no event shall the Contractor be deemed liable to the Owner for any delay in the final completion of the work caused by Act of God, casualty, strike, governmental restriction upon the availability or use of labor or materials, or by reason of any other fact which is not caused by the act or default of the Contractor or of any employee or agent of the Contractor.

7. *Amounts to be paid contractor.* The Owner shall pay to the Contractor for the performance of the contract, the following sums:

(a) The actual cost to the Contractor for the work, labor, and services performed and materials furnished in connection with the platting and subdividing of the various properties and the construction of the roads and streets and, in general, the actual cost of all work of laying out and preparing the property for development purposes prior to the actual commencement of constructing homes. Payment for the work referred to in this subparagraph (a) shall be made by the Owner promptly upon the rendition and presentation of bills covering the work, whether bills have been rendered to the Owner or the Contractor.

(b) The actual cost to the Contractor for the work, labor, and services performed and materials furnished upon and incorporated in the job.

(c) The term "job" means any and all construction work done or caused to be done by the Contractor pursuant to the provisions of this contract. "Actual cost" does not include any rebate, discount, or allowance which the Contractor obtains from the subtrades or from the purchase of materials, which items shall be promptly reported by the Contractor to the Owner and shall accrue to the benefit of the Owner. "Actual cost" includes the actual expense of all work, labor, services, and materials, and all utilities' bills rendered to the job during the performance of this contract; the premiums for or the cost of all insurance which the Contractor carries on the job, including any bond which the law may require the Contractor to carry for the job; drayage, cartage, gasoline, and oil used for or in connection with work on the job; and salary or wages of employees, superintendents, foremen, supervisors, timekeepers, expeditors, and additional personnel actually agreed upon for work performed under this contract.

(d) If any dispute shall arise between the parties as to the manner in which the Contractor has computed "actual cost," then the matter shall be resolved by Arnold & Smith, Certified Public Accountants, DuPont Building, Miami, Florida, who shall determine the "actual cost" in accordance with the provisions herein contained.

(e) All of the items referred to in subparagraphs 7(a) and 7(b) will be collectively referred to as "cost."

(f) In addition to cost, the Owner will pay to the Contractor a sum equivalent to 4 percent of the cost of the work referred to in subparagraphs 7(a) and 7(b) for the Contractor's overhead and office expense, which the parties have estimated as being an amount which will represent the actual cost of the Contractor's overhead and office expense. If in any tax year of the Contractor, and during the term of this contract, the Contractor's actual overhead and office expense is in excess of or less than 4 percent of the cost of the work referred to in subparagraphs 7(a) and 7(b), then within 90

days from the last day of the Contractor's tax year, the parties will readjust the amount due the Contractor for its actual cost of overhead and office expense, and whichever party owes the other any sums of money as a result thereof will pay the same upon demand. The Contractor's actual cost of overhead and office expense will be computed in the first instance from the date of this contract up to the end of the Contractor's tax year, and thereafter the cost will be computed for each tax year of the Contractor. If any dispute arises between the parties as to the matters set forth in this subparagraph, then it shall be resolved by Arnold & Smith, Certified Public Accountants, DuPont Building, Miami, Florida.

(g) The Owner shall at all times have the right to check the Contractor's records covering the work under this contract.

8. *Method of payment.* The Contractor will receive payment of the compensation provided for in Paragraph 7 in the following manner and at the following times:

(a) Progress payments shall be made to the Contractor out of the proceeds of the construction financing in the manner and in the amounts permitted under the construction mortgages. The term "progress payments" includes the final payment by way of reimbursement for "cost" and "Contractor's overhead" if the disbursing agent for the construction mortgagee consents to final payment made in advance of the time when the improved lot is sold or the permanent mortgage is closed and its proceeds disbursed. If the total of all progress payments by way of reimbursement to the Contractor for "cost" and "Contractor's overhead" is less than the total of all items of "cost" and "Contractor's overhead," then the final payment of reimbursement for "cost" and "Contractor's overhead" shall be made to the Contractor in a transaction which is simultaneous with the closing of the permanent mortgage, but in no event later than 60 days after the construction work is completed. Irrespective of the provisions herein contained, the Owner shall pay to the Contractor, upon statements being presented therefor, all bills for all materials, supplies, and equipment purchased by the Contractor and stored either on or off of the site of the job, which materials, supplies, and equipment are or will be used in connection with the construction work.

(b) The provisions contained in subparagraph 8(a) relating to payment for work and the time when "the construction work is completed" mean, in each instance, payment for work on a particular home (as distinguished from the entire group) and the time when a particular home is completed. The parties anticipate that homes will be sold, the sale concluded, and the permanent mortgage closed as quickly as a home is finished and the details of the sale and closing can be completed. Irrespective of whether or not a sale is completed, all unpaid balances due the Contractor in connection with the construction of a particular home shall be paid not later than 60 days after that particular home is completed.

(c) It shall be the duty of the Owner to see that payments earned under the terms of this contract are paid to the Contractor by the disbursing agent of the construction mortgagee as and when they become due. If for any reason other than the Contractor's own default the payments are not made by the disbursing agent, then it shall be the duty of the Owner to make the payments to the Contractor as and when they become due.

(d) At any time on or after the date when the Contractor has completed a particular home and while any balances due to the Contractor still remain unpaid, the Contractor may require the Owner to join with the Contractor in the execution of a recordable instrument which will identify the particular home by lot and block number and will contain the statement that there remains unpaid to the Contractor a portion of the amount due by reason of or in connection with the work of construction. The instrument will further state that the Contractor is granted a lien to secure the payment of all sums in connection with the construction of the home, and that the lien is granted by contract and will not expire by the ordinary limitations of the mechanics' lien law. It is the duty of the Contractor to satisfy of record any such recorded instrument, when the Contractor is actually paid all sums which are due by reason of the construction of the home.

9. *Insurance.* During the continuance of this contract, the Contractor shall carry public liability, subcontractors' liability, property damage, worker's compensation, social security, unemployment insurance, and any other forms of insurance

required by the law or customarily carried by a general contractor. The cost of the insurance shall be included in the computation of the Contractor's cost under this contract. The Owner shall carry fire and windstorm insurance. If any loss is compensated for by fire and windstorm insurance, then that amount shall be paid to the Contractor to repair the actual damage sustained on the job. The amount of the insurance compensation shall not determine the actual cost of repairing the damage. If the cost of repairing the damage is more than the insurance compensation, then the Owner shall make good the deficiency by prompt payment to the Contractor. If the insurance compensation is more than the cost of repairing the damage, then the excess shall be refunded by the Contractor to the Owner.

10. *Quality of work.* All work under this contract is to be performed in all respects in compliance with applicable building laws, ordinances, and regulations; and all such work shall be done in a good and workmanlike manner. Upon the payment by the Owner of all sums due the Contractor under this contract, the Contractor will hold the Owner harmless against any claims which may be made against the Owner or the Owner's properties for work, labor, services, or materials furnished to the Owner by or on behalf of the Contractor.

11. *Mortgage requirements.* It shall be the duty of the Owner to comply with all requirements of governmental agencies which grant, insure or acquire permanent mortgages on the homes constructed under this contract. It shall be the duty of the Contractor to construct the homes in accordance with all requirements of governmental agencies which grant, insure or acquire permanent mortgages on the homes, and in accordance with all requirements of construction mortgages on the homes.

12. *Right of termination.* Either party to this contract shall have the right to terminate this contract upon giving six months' written notice to the other. Upon termination, the Contractor shall complete all homes then under construction as expeditiously as possible. Upon receipt of notice of termination, the Contractor shall not commence construction on any homes not yet begun.

13. *Marketing.* Owner shall be responsible for the pricing of all homes to be sold. Owner shall actively market homes. Owner shall have the right to engage a real estate broker or use its own staff, at its sole discretion.

14. *Entire agreement.* This agreement, together with the other written agreements and instruments executed concurrently herewith or pursuant to the provisions hereof, contains the entire agreement between the parties respecting the matters herein set forth and supersedes all prior agreements between them respecting such matters.

15. *Counterparts.* This agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. At the trial of any matter arising under this agreement, only one counterpart need be produced.

16. *Headings.* Paragraph headings are for purposes of convenience and identification only and shall not be used to interpret or construe this agreement.

17. *Waivers.* Except as herein expressly provided, no waiver by either party of any breach of this Agreement, or of any warranty or representation hereunder, shall be deemed to be a waiver by the same party of any other breach of any kind or nature (whether preceding or succeeding the breach in question, and whether or not of the same or similar nature).

No acceptance by a party of payment or performance after any such breach shall be deemed to be a waiver of any breach of this Agreement or of any representation or warranty hereunder, whether or not the party knows of the breach when it accepts such payment or performance.

No failure by a party to exercise any right it may have under this Agreement or under law upon another party's default, and no delay in the exercise of that right, shall prevent it from exercising the right whenever the other party continues to be in default. No such failure or delay shall operate as a waiver of any default or as a modification of the provisions of

this Agreement.

18. *Gender and number.* Whenever the singular or plural number, or the masculine, feminine or neuter gender, is used herein, it shall equally include the other(s).

19. *Notices.* Any notice which any party is required or may desire to give hereunder shall be in writing and may be personally delivered, transmitted by facsimile machine, or delivered by the United States Postal Service or private delivery service to the above addresses. Notice is deemed given when received.

20. *Governing law.* This Agreement shall be construed and enforced in accordance with the laws of the State of Florida.

21. *Binding effect.* This agreement shall be binding upon, and inure to the benefit of, all the parties and their respective heirs, representatives, successors and assigns.

22. *Modifications.* This agreement may be modified only by a written document signed by both parties. A purported oral modification shall not be effective.

The Owner and the Contractor have caused these presents to be executed by their proper officers, who are duly authorized, and their corporate seals to be affixed, all of which has been done at the place and on the day and year first above written.

Chapter 22 DEVELOPMENT AND SUBDIVISION
Part IV. FORMS
C. PLANNING AND CONSTRUCTION

26-22 Current Legal Forms for Real Estate FORM 22.43

FORM 22.43 Contract to plat and subdivide land and construct homes and other buildings--separate categories for contractor's cost plus percentage compensation--owner to pay construction costs

COMMENT

In this form, the owner of a large tract of undeveloped land employs a contracting corporation to supervise the platting and subdivision of the land and to construct homes and other buildings in accordance with plans and specifications furnished by the owner. There is a careful definition of the areas of activity for each of the parties. Essentially, the owner has reserved control over the planning and financing of the venture while passing on to the contractor the responsibility for substantially all of the construction work.

Since the development program involves the sale of building lots, the construction and sale of residences, and the construction of other buildings, the compensation of the contractor takes these various factors into account. Compensation to the contractor is to consist of the following: a percentage of the sales price of each building lot; a percentage of the cost of each residence, but not in excess of one-half the profit resulting from the sale of the residence; a percentage of the cost of each building (other than a residence) constructed by the contractor; and all of the overhead incurred by the contractor. The agreement carefully defines the terms "cost," "profit resulting from the sale of a residence," and "overhead," and the times and manner in which compensation payments are to be made to the contractor. In addition, the owner is obligated to pay all construction costs incurred under the contract, whether incurred in the name of the owner or the contractor. Rights to inspect books of account are allowed to each party to permit verification of financial matters.

FORM

THIS AGREEMENT is made on _____[*date*], in Miami, Florida, by and between General Realities Corporation, a Florida corporation ("General"), and Central Construction Corporation, a Delaware corporation authorized to do business in Florida ("Central").

The parties agree as follows:

1. *Definitions.* For the purposes of this agreement, the following terms have the following meanings:

- (a) "Lots" or "tracts" or "plots" mean property owned and hereafter acquired by General which are contained in a proposed unrecorded plat or a recorded plat of land.
- (b) "Land" or "property" means property owned and hereafter acquired by General which is not contained in a proposed unrecorded plat or a recorded plat.
- (c) "Residence" means a single-family residence.
- (d) "Building" means any structure other than a residence.

2. *Employment.* General employs Central to perform the work covered by this agreement and Central accepts such employment.

3. *Contractor's obligations.* Central shall perform the following work:

- (a) Supervise the platting and subdividing of the land General designates, from time to time, into lots, tracts, or plots; supervise the preparation of plats of the land and cause the plats to be recorded; and supervise the improvement of and development of land designated by General from time to time;
- (b) Construct residences and buildings on the land or the lots, tracts, or plots General designates, from time to time, in accordance with plans and specifications furnished by General, which plans and specifications shall comply with all building code provisions covering the construction of the residences and buildings covered by the plans and specifications, including any codes requiring the improvements to meet certain green building standards. The construction of residences and buildings shall be at actual cost though subject to the payment by General to Central of the compensation and other moneys provided in Paragraph 6, and its accompanying subparagraphs; and
- (c) Any and all other work necessary or incidental to accomplish any of the foregoing.

4. *Owner's obligations.* In connection with the work referred to in Paragraph 3, General shall:

- (a) Construct and install the roads and other improvements on and across the land to enable Central to do and perform the work provided for under this agreement;
- (b) Execute all plats, procure all bonds, and pay all bond premiums, and make all disbursements which may be necessary or requisite to the preparation and recording of plats of the land;
- (c) File all applications and pay all fees and expenses necessary to procure the approval of lots for financing under Federal Housing Administration or conventional mortgages;
- (d) Furnish all financing and supply all funds for the construction of residences and buildings; in order to assure Central that all construction costs will be paid promptly;

- (e) Do all things, award all contracts with subcontractors and materialmen, and place all orders, all of which shall be done in the name of General, to enable Central to perform the work provided in Paragraph 3;
- (f) Pay all bills for work, labor, services, and materials furnished for the doing of the work, and to pay the same within 30 days after Central has made demand that payment be made;
- (g) Make the advances necessary for the purchase of materials, supplies, machinery, and equipment for the work;
- (h) Indemnify and hold Central harmless from liability for the payment of any or all of the foregoing; and
- (i) Pay Central its compensation and overhead hereinafter provided for.

5. *Time of performance.* In each instance, the work to be performed, under this agreement, shall be commenced as quickly as possible after General has notified Central of the particular work to be done. The work, when commenced, shall be carried through expeditiously and continuously to completion as rapidly as the proper doing of the work and the availability of crews of labor and materials permit. In no event shall Central ever be deemed liable to General for any delay in the completion of any work caused by Act of God, or the public enemy, or by casualty, or by strike, or by governmental restriction upon the availability or use of labor or materials, or by reason of any other fact which shall not have been caused by the act or default of Central or any employee or agent of Central.

6. *Compensation to contractor.* General shall pay Central for the work performed under this agreement the following sums:

(a) A sum equivalent to 22/3 percent of the sales price of each lot, tract, or plot sold or contracted to be sold by General between and including _____[date], and _____[date], and payment shall be made in the following manner, and at the following times:

(1) If any lots, tracts, or plots are sold under sales contracts or agreements for deed, the compensation to be paid Central shall be paid in equal installments concurrently with the first 36 payments made by the purchasers under the sales contracts or agreements for deed; but if any of the sales contracts or agreements for deed are payable over a period of less than 36 months, then the compensation to be paid Central shall be paid in equal installments out of the payments received by General during the term of such sales contracts or agreements for deed; but

(2) If any lots, tracts, or plots are sold for cash or sold partially for cash and the balance of the purchase price is evidenced by a purchase money mortgage, or other instrument evidencing the unpaid balance of the purchase price, and a deed of conveyance is delivered to the purchaser, General shall pay Central the compensation simultaneously with the execution and delivery of the deed of conveyance by General to the purchaser; and

(3) Payment of the compensation provided for in subparagraph (1) hereof is contingent upon payments being made under the sales contracts and agreements for deed, and if a purchaser defaults, and as a result of a default the sales contract or agreement for deed is cancelled, then General shall only be liable to pay Central the compensation out of the installments paid on contracts and agreements for deed up to the date of the cancellation of the sales contract or agreement for deed.

(b) A sum equivalent to 5 percent of the cost of each residence constructed by or for General between and including _____[date], and _____[date], but such sum equivalent to 5 percent of the cost of each residence shall not exceed one half of the profit resulting from the sale of the residence.

(1) The compensation for each residence shall be paid by General to Central within 30 days from the date of the execution and delivery to the purchaser of a deed of conveyance. If a residence is sold under an agreement providing for

the payment of the purchase price in installments and the delivery of a deed to the purchaser after payment of installments in accordance with the agreement, then the compensation for the residence shall be paid by General to Central within 30 days from the date of the execution and delivery of the agreement.

(2) In the event the compensation to be paid Central, as herein provided, cannot be determined with mathematical precision at the time the compensation is required to be paid, then the compensation shall be estimated by the then Certified Public Accountants of General and the estimated amount shall be paid to Central. When such compensation can be accurately computed the parties will account to each other for the exact amount to be paid to Central.

(3) In the event General is unable to dispose of any residences, then General shall not be obligated to pay Central the sum of 5 percent of the cost of the residence for any residence remaining unsold. If a purchaser under a sales contract or agreement for deed purchases a residence from General and in connection with such purchase surrenders the sales contract and receives a credit on the purchase price of the residence for the amounts paid under the sales contract, then there shall be credited against the compensation to be paid Central upon the sale of the residence the amount of the compensation General previously paid Central on the sales contract surrendered in exchange for part payment on the purchase of a residence.

(c) A sum equivalent to 5 percent of the cost of each building constructed by or for General between and including _____[date], and _____[date]; and for the purposes of this paragraph, the parties have agreed that the cost of each building shall be determined by taking the sum total, in the aggregate, of the lot improvement cost, actual cost of constructing, and overhead. Compensation for buildings shall be paid within 30 days from the date of the completion of the building. "Completion of the building" has occurred when the governmental agency having jurisdiction over the approval of the construction work issues a certificate of occupancy. If there is no governmental agency having authority to issue a certificate of occupancy then completion means the actual completion of all of the work required to be done by or through Central pursuant to the terms of this contract for the completion of the building. The fact that there may remain minor items of touching up to be done, which can be done after the occupancy of the building by General, or parties claiming by, through, or under General, will not prevent the building from being considered completed for the purpose of determining whether Central has completed the building and is entitled to payment.

(d) All of Central's overhead covering the work provided for under this agreement.

(e) The cost of each residence shall be determined in the following manner:

(1) First, the number of acres contained in and covered by the plat in which the lot, tract, or plot where the residence is to be constructed is located shall be determined; and then the actual cost paid by General per acre for the land included in the plat shall be determined; and then the total acreage covered by such plat shall be multiplied by the amount paid per acre and the resulting figure shall then be divided by the number of lots, tracts, or plots included in the plat, and the quotient shall be the "base cost" of the lot, tract, or plot. When the base cost of a lot, tract, or plot, is inequitable by reason of location and size of particular lots, tracts, or plots, then the base cost may be increased or diminished in accordance with sound accounting and business practices, agreed to by the parties, and upon their failure to agree to such change, then the same shall be resolved in the manner provided for in Paragraph 15 hereof.

(2) The cost shall be determined of surveying, platting, and laying out of the land contained in and covered by the plat in which the lot, tract, or plot is located, upon which the residence or building is to be constructed, including engineering and architect's fees, (other than the fees of engineers and architects employed by General or Central) and the cost of laying out and building all roads, streets, sidewalks, and parkways, and the cost of preparing the property for the construction of residences and buildings, and the cost of installing water and sewer mains to service all of the property included in the plat, and the cost of installing drainage systems, street signs, subdivision gates, and all other improvements necessary or required to create a complete subdivision of the land covered by the plat. The aggregate of

all of these costs shall be divided by the number of lots, tracts, or plots included in such plat and the quotient shall be the "lot improvement cost." If there are any lots, tracts, or plots in such plat abutting on a canal or waterway, then the entire cost of creating the canals and waterways contained in such plat shall be divided by the number of lots, tracts, or plots, abutting the canals and waterways and the quotient shall be added to and included as a part of the lot improvement cost of each canal or waterfront lot, tract, or plot.

(3) The actual cost of constructing the residence or building shall then be determined. The term "actual cost of constructing" shall include the actual cost of all work, labor, services, and materials furnished for the construction of the residence or building, and all utilities furnished to the residence or building in connection with the construction work; and the cost of all machinery, equipment, and appliances installed in the residence or building; and the premiums for or the cost of comprehensive-liability insurance and worker's compensation insurance and all other insurance carried on the residence or building being constructed, including any bond which the law may require, including drayage, cartage, gasoline, and oil used for or in connection with the doing of the work, and salaries or wages of employees, superintendents, foremen, supervisors, timekeepers, expeditors, and other personnel engaged upon and being paid wages for the construction of the residence or building; and all other improvements or installations on the lot, tract, or plot which are not included in the lot improvement cost; and including, in general, everything which, for example, under the terms of an A.I.A. cost-plus contract would be cost. The actual cost of constructing shall also include sales commissions paid for the sale of a residence and direct advertising costs applicable to a residence and interest paid on a construction mortgage on a residence.

(4) The overhead of Central in the proportions provided in this agreement shall be included in and deemed a part of the cost of each residence or building. In each "taxable year" of Central, the overhead of Central for the taxable year shall be ascertained by taking the sum total of Central's cost (not included in actual cost of constructing) of maintaining and operating its construction equipment, automobiles, trucks, and rolling stock, salaries and bonuses paid to Central's employees, charitable donations and contributions not exceeding \$30,000, dues, subscriptions for services, periodicals, and literature, premiums paid for general comprehensive-liability insurance, workers' compensation insurance, employees' health and accident insurance, legal and professional fees, lights, water, and all utility charges, salaries paid to the officers of Central which shall not exceed \$200,000 rent, in each year, office supplies, promotion, travel, and entertainment expenses, and all other items of expense which under sound accounting principles are included in and considered as overhead. The method of charging overhead against the work performed for General shall be as follows: there shall first be determined the entire amount of land development costs for General and actual cost of constructing residences and buildings for General in each taxable year of Central, but for the purposes of this subparagraph only, actual cost of constructing residences shall not include sales commissions, advertising, or interest on construction loans; and that proportion of the entire overhead allocable to work performed under this contract which the actual cost of constructing residences and buildings bears to the entire amount of land development costs and actual costs of constructing residences and buildings will be the overhead allocable to residences and buildings, and the balance of the overhead will be the overhead allocable to land development work. That proportion of the overhead (allocable to residences and buildings) which the actual cost of constructing the buildings bears to the actual cost of constructing residences and buildings shall be charged against the buildings constructed by Central for General, and the balance will be charged against the residences constructed by Central for General, and the overhead allocable to residences shall be divided by the number of residences constructed by Central for General in Central's taxable year and the quotient will be the overhead charged to each residence constructed by Central for General. The overhead allocable to buildings shall be divided by the number of buildings constructed by Central for General in Central's taxable year and the quotient will be the overhead charged to each building constructed by Central for General. In determining the overhead and its allocation, consideration shall be given to uncompleted residences and buildings being constructed at the time the overhead and allocation is determined.

The sum total, in the aggregate, of the base cost of the lot, tract, or plot and the lot improvement cost and actual cost of constructing and the overhead of Central shall be the cost of each residence constructed by or for General; and the sum total, in the aggregate, of the lot improvement cost and actual cost of constructing and overhead of Central shall be the

cost of each building constructed by or for General.

(f) The "profit resulting from the sale of a residence" shall be computed as follows:

(1) For a minuend or gross figure, there shall be first computed the net proceeds of the sale of the residence. The "net proceeds" are the sum total of the gross selling price of the residence less the actual deductions made at the time of the closing to give effect to the actual closing costs, including abstracting bills, mortgage loan creation costs, proration of taxes, and any other actual prorations or adjustments made upon the occasion of the closing; and

(2) The subtrahend will constitute the cost of each residence, determined under subparagraph (e) and its accompanying subparagraphs; and

(3) The subtrahend shall be subtracted from the minuend and the amount of the remainder shall be and constitute the profit resulting from the sale of a residence, for the purposes of subparagraph (b).

7. *Statements and books.* General will, at the time of making the payments to Central, furnish a statement to Central showing the manner in which the compensation has been determined, and the particular sales contracts and sales upon which the compensation is being paid. Central shall have the right to examine General's books and records, from time to time, for the purpose of determining the names of purchasers, and the lots, residences, and buildings being purchased and the amounts being paid; and General shall have a corresponding right to examine Central's books and records for the purpose of determining Central's overhead, and for any purpose germane to this agreement.

8. *Payments by owner.* In addition to the payments provided for in subparagraphs (a), (b), and (c) of Paragraph 6, General will pay Central, upon demand, all moneys advanced or paid by Central for work, labor, services, and materials furnished in connection with the work covered by this agreement which, by the terms of this agreement, General is obligated to pay; and General will pay Central its overhead in the manner and at the times provided in Paragraph 9.

9. *Time of payments.* The parties acknowledge that from an accounting standpoint it may be impractical to determine with mathematical precision the amounts to be paid to Central under subparagraphs (b) and (c) of Paragraph 6, until the end of Central's taxable year in which the residences or buildings are completed; and, therefore, the parties agree as follows:

(a) General shall, on or before the tenth day of each calendar month, commencing with the calendar month next succeeding the date of the execution of this agreement, pay to Central a sum equivalent to 1/12 of Central's annual overhead as estimated by General and Central, and upon any failure to agree upon the annual overhead the matter shall be resolved as provided for in Paragraph 15.

(b) Within 60 days after the end of each taxable year of Central, the overhead of Central will be determined for the taxable year, and if the overhead is in excess of or less than the amount paid by General to Central, then the overhead will be readjusted and whichever party owes the other any sums by reason thereof, will pay the same upon demand.

(c) General shall pay Central a sum equivalent to 5 percent of the cost of each residence and building constructed by or for General within the time provided for in subparagraphs (b) and (c) of Paragraph 6 but with the understanding that the amount or amounts so paid shall be subject to adjustment to give effect to the provisions of such subparagraphs. The adjustment will be made within 60 days after the end of the taxable year of Central in which payment has been made, and whichever party owes the other any sums by reason of the adjustment, will pay the sums upon demand. For the purpose of determining the cost of each residence and cost of each building a sum equivalent to 4 percent of the actual cost of constructing shall be included as "overhead" until the actual overhead is determined in accordance with the provisions of subparagraph (e)(4) of Paragraph 6.

10. *Exclusive services of contractor.* During the term of this agreement, Central will confine its efforts and work exclusively to the performance of the work provided for under this agreement. Anything in this agreement to the contrary notwithstanding, if, at any time, the construction of the residences and buildings by Central for General is insufficient to use Central's building and construction personnel normally used by Central, then Central shall have the right to construct residences and buildings for itself and other parties without being in default hereunder. If Central does so construct residences and buildings for itself and other parties, then the overhead of Central allocable to work performed under this agreement shall be that proportion of Central's overhead which the actual cost of land development work and the actual cost of constructing residences and buildings by Central for General bears to the actual cost of land development work and the actual cost of constructing residences and buildings by Central for itself, for General, and for other parties. General will not, during the term of this agreement, enter into any agreement or employ any party to do any of the work provided for by this agreement without the consent, in writing, of Central, and Central shall have the exclusive right to do and perform, for General, its successors and assigns, all of the work contemplated and provided for under the terms of this agreement.

11. *Term of agreement.* The term of this agreement shall be from the date hereof up to and including _____[date]. General shall be obligated to continue to pay Central the compensation provided for in subparagraph 6(a), after the expiration date, on those lots, tracts, or plots sold or contracted to be sold up to and including the expiration date. In the event there are any uncompleted residences, and buildings on the expiration date, Central shall be obligated to complete the construction of such residences and buildings, and General shall be obligated to pay Central the compensation provided for in subparagraphs 6(b) and 6(c) for all work completed subsequent to the expiration date. The compensation on any unsold residences completed prior to or subsequent to the expiration date shall be paid to Central when such residences are sold.

12. *Additional obligations of owner.* General agrees that:

(a) General shall pay Central the sums of money required under this agreement as and when they become due and payable in accordance with the terms of this agreement.

(b) General will take all actions, do all things, let all contracts, and make all payments and disbursements which, under the terms of this agreement, General is obligated to do and perform.

(c) General shall carry fire, windstorm, and extended coverage insurance on all residences and buildings constructed by Central, and shall pay all the premiums, and the insurance shall be taken out upon the commencement of the construction work and carried continuously until General sells the residences and buildings.

(d) From and after the completion of the construction of a residence and building by Central, General shall be responsible for the maintenance and repair of the residence and building; but the provisions herein contained shall not relieve Central of the obligation to make repairs to residences or buildings which become necessary as a result of defective materials and workmanship.

(e) General will hold Central harmless against any claim made against Central by reason of the use by General of Central's name in connection with the development and sale of General's properties; and

(f) Upon the termination or expiration of this agreement, General shall not in any manner use Central's name in connection with the development and sale of General's properties, and shall not in any manner make reference to the fact that Central, prior to termination or expiration, developed General's properties. Upon a breach of the provisions herein contained, Central shall have such rights and remedies as the law permits to enforce the provisions herein contained and to recover damages for such breach.

13. *Additional obligations of contractor.* Central agrees that it:

- (a) Shall cooperate with General in the preparation and filing of the applications referred to in Paragraph 4(c).
- (b) Will procure bids from subcontractors and materialmen to enable General to award the contracts referred to in subparagraph 4(e), and Central will do all necessary work to procure such bids.
- (c) Will supervise the work of all parties furnishing work, labor, services, and materials for the doing of the work provided for under this agreement.
- (d) Will represent General, if requested by General, in any and all disputes arising between General and parties furnishing work, labor, services, and materials for the doing of the work provided for under this agreement.
- (e) Will not assign this contract.
- (f) Will indemnify and hold General harmless against damages for injury to persons or property that may arise by reason of the work being performed by Central under this agreement.
- (g) Will execute such receipts, waivers, and releases as are appropriate and necessary to acknowledge payments made under this agreement upon the payment by General to Central of the sums due Central in accordance with the terms of this agreement; and
- (h) Will perform all work required under this agreement in compliance with any and all building laws, ordinances, and regulations of any and all governmental agencies entitled to impose such laws, ordinances, and regulations; and all such work shall be done in good and workmanlike fashion.

14. *Relationship between parties.* The relationship between the parties is that of owner and contractor, and the law relating to such relationship shall govern the rights of the parties.

15. *Settlement of disputes.* If any dispute shall arise between the parties as to the manner of computing the amounts due Central under this agreement, then the same shall be resolved by the certified public accountants then representing General and Central. If the certified public accountants are unable to resolve the dispute, then the accounting firms shall designate an independent certified public accountant who shall have the authority to resolve the dispute. If the accounting firms then representing General and Central are unable to agree upon an independent accountant to resolve the dispute, either of the parties shall have the right to procure the appointment of an independent accountant by filing an action in the Circuit Court of Dade County, Florida, for the appointment of a certified public accountant to resolve the dispute. The fees to be paid the independent certified public accountant, shall be borne equally by the parties, and the costs of procuring the appointment of the independent certified public accountant shall be borne equally by the parties hereto.

16. *Entire agreement.* This agreement contains the entire agreement between the parties, and supersedes, and extinguishes all previous agreements, contracts, and undertakings heretofore existing between the parties.

17. *Notice.* If either party desires to give notice to the other in connection with and according to the terms of this agreement, such notice shall be given by registered or certified mail, and it shall be deemed given when deposited, with sufficient prepaid postage to carry it to its addressed destination. Notices shall be addressed as follows:

For General:

For Central:

18. *Waivers.* Except as herein expressly provided, no waiver by either party of any breach of this agreement, or of any warranty or representation hereunder, shall be deemed to be a waiver by the same party of any other breach of any kind or nature (whether preceding or succeeding the breach in question, and whether or not of the same or similar nature).

No acceptance by a party of payment or performance after any such breach shall be deemed to be a waiver of any breach of this agreement or of any representation or warranty hereunder, whether or not the party knows of the breach when it accepts such payment or performance.

No failure by a party to exercise any right it may have under this agreement or under law upon another party's default, and no delay in the exercise of that right, shall prevent it from exercising the right whenever the other party continues to be in default. No such failure or delay shall operate as a waiver of any default or a modification of the provisions of this agreement.

19. *Amendment.* This agreement may be modified only by a written document signed by both parties. A purported oral modification shall not be effective.

20. *Governing Law.* This agreement shall be construed and enforced in accordance with the laws of the State of Florida.

In witness whereof the parties have caused these presents to be executed by their proper officers, who are duly authorized, and their corporate seals to be affixed, all of which has been done at the place and on the day and year first above written.

C. PLANNING AND CONSTRUCTION

26-22 Current Legal Forms for Real Estate FORM 22.44

FORM 22.44 Contract between real estate developer and construction company--developer plans to build residential development--construction company will build houses within development--developer will be responsible for creation of infrastructure

COMMENT

The form below is an agreement between a real estate development corporation and a construction company. The developer owns a tract of land upon which a residential development will be built. The construction company will serve as the builder of homes within the development, while the developer will be responsible for creation of the infrastructure.

The developer has already obtained government approval for the construction of 200 single-family homes, as well as architectural plans for five different model homes. Purchasers may choose from the five models and, if they wish, order one or more pre-priced options from the developer. If a buyer wants any other modifications made to his or her home, the developer must obtain a price quote from the construction company. In such cases, the developer must be sure that its marketing agents or real estate brokers do not quote final prices until the written quote is returned from the construction company.

Warranty from construction company to developer.

The construction company must provide a warranty to the developer that may be assigned later to a home buyer. The warranty must protect against defects in workmanship and materials for certain minimum time periods, for example, the roof must be warranted for five years, the plumbing and heating for two years, etc. Should the agreement between the developer and construction company be terminated, the warranties must survive the termination.

FORM

AGREEMENT is made this _____[day] day of _____[month], _____[year], between _____[name of entity] DEVELOPMENT, LTD, a corporation existing under the laws of the State of _____[state], with offices for the transaction of business at _____[address] (hereafter referred to as "Developer"), and _____[name of entity] CONSTRUCTION COMPANY, INC., a corporation organized under the laws of the State of _____[state], with offices for the transaction of business at _____[address] (hereafter referred to as "Contractor").

W I T N E S S E T H:

WHEREAS, Developer is the owner of a certain parcel of land located in the Town of _____[town], commonly known as _____[insert name of future development, e.g., Pleasantdale Acres]; and

WHEREAS, the Developer has obtained subdivision approval for the construction of _____[insert number and type of homes to be built in development, e.g., two hundred (200) single-family] homes on lots measuring _____[e.g., one and one-half] acres in size; and

WHEREAS, Developer has obtained completed and approved architectural plans for _____[e.g., five (5)] standard homes to be used exclusively in this development; and

WHEREAS, Contractor is in the business of constructing such homes,

NOW, in consideration of the mutual promises contained herein, it is agreed as follows:

1. *Scope of work.* The Developer has caused or will cause all roads, sewers, water mains and storm sewers to be installed in the development, as needed. The Contractor agrees to construct single-family homes in accordance with the architect's plans and specifications, as contained in Schedule A, which is annexed hereto and made a part hereof. Also contained in Schedule A is a list of modifications which may be made to the homes by the Contractor and at the request of the Developer.

The Contractor is guaranteed to receive orders to build at least _____[insert number, e.g., ten (10)] such homes per calendar year. The Contractor shall not be required to build any more than _____[insert number, e.g., forty (40)] such homes in any calendar year. While this Agreement is in effect, Contractor shall be the only person permitted to construct homes in the development known as _____[insert name of future development, e.g., Pleasantdale Acres].

2. *Materials.* The Contractor shall construct all homes in a workmanlike manner and strictly in accordance with the architect's plans and specifications. Contractor shall make no changes in the types of materials used without the written prior consent of the Developer. Contractor acknowledges that Developer has made representations to the purchasers of such homes regarding the materials to be contained therein.

3. *Warranty.* Contractor shall supply a new home warranty substantially in the form contained in Schedule B, which is annexed hereto and made a part hereof. Said warranty, by its terms, shall be assignable to future owners of the subject premises. The warranty shall warrant against defects in labor and materials for the following minimum periods:

(a) roof: _____[e.g., five (5)] years;

(b) plumbing and heating systems: _____[*e.g., two (2)*] years;

(c) foundation, beams, joists and framing: _____[*e.g., five (5)*] years;

(d) all other items: _____[*e.g., one (1)*] year.

The warranty may exclude liability for consequential damages.

All warranty claims shall be acknowledged by Contractor within _____[*insert number, e.g., two (2)*] days of receipt. Contractor shall inspect the premises and make arrangements for repairs within _____[*insert number, e.g., ten (10)*] days thereafter. In the event Contractor rejects a warranty claim on the ground that, for example, the problem falls outside the scope of the warranty or the warranty has expired, Contractor's reason for rejecting the claim shall be put in writing and submitted to the party making the claim.

4. *Punchlists.* At least _____[*insert number, e.g., three (3)*] days prior to transfer of title to a new-home purchaser, Developer or its agent shall inspect the new home with purchaser. A list of all unfinished items, missing items, and items requiring repair or "touch-up" shall be made by Developer. A copy of this list shall be provided to Contractor immediately. Contractor shall remedy all such matters within _____[*insert number, e.g., thirty (30)*] days thereafter. A reasonable extension shall be granted for obtaining any materials which are back ordered with a supplier.

5. *Subcontractors.* Contractor may engage the services of subcontractors for portions of the work contemplated hereunder. Contractor must obtain written approval from Developer as to each subcontractor before using such subcontractor's services. Developer shall not unreasonably withhold approval. All subcontracts shall contain a provision acknowledging that said subcontractors are the agents of Contractor and not the agents of Developer. Subcontractors shall be required to look to Contractor alone for compensation. All subcontractors shall provide a waiver of lien as to each lot when work is completed.

6. *Insurance.* Contractor shall carry builder's all-risk insurance with a property damage limit set at _____ Dollars (\$ _____) _____[*e.g., \$250,000*] per unit and a personal injury limit set at _____ Dollars (\$ _____) _____[*e.g., \$1,000,000*]. Contractor shall carry worker's compensation insurance and disability insurance as required under the law of the State of _____[*state*]. The risk of loss for each new home will rest with the Contractor until title is transferred to the new-home purchaser.

7. *Hold harmless.* The Contractor shall hold the Developer harmless for any claim for injury to person or property arising out of, or in the course of, the construction of new homes as contemplated by this Agreement. This shall include all costs of defense (such as attorneys' fees, court costs, fees of expert witnesses, etc.), as well as the amount of any settlement or judgment.

8. *Consideration.* The Contractor shall be paid in accordance with Schedule C, which is annexed hereto and made a part hereof. The consideration shall include: (a) the base fee for building the house, as therein specified, (b) together with the fee for making any of the standard modifications requested by the purchaser. Consideration to be paid to Contractor for each type of standard modification is also set forth in Schedule C. For any modifications not contained in Schedule C, Contractor shall provide Developer with a written fee proposal. Developer shall then have _____[*insert number, e.g., ten (10)*] days in which to accept or reject the proposal in writing.

The Contractor shall be paid the full price for each house built within _____[*insert number, e.g., twenty-four (24)*] hours after transfer of title to the new-home purchaser, or within _____[*insert number, e.g., five (5)*] days after issuance of a certificate of occupancy, whichever event occurs first.

Developer shall have the right to withhold funds for any incomplete items, the aggregate of which exceeds _____ Dollars (\$_____) [e.g., \$500] to complete. The funds shall be held in an escrow account and shall be released upon satisfactory completion of the work.

The pricing in Schedule C shall be reviewed and modified by the parties no less often than quarterly. Modifications shall be made based on actual price increases imposed on Contractor by its suppliers, laborers and subcontractors. Contractor shall not be entitled to any price increases on existing orders.

9. *Orders.* Upon execution of a purchase contract with a purchaser, Developer shall prepare and deliver to Contractor an "order." Said order shall contain the following information:

- (a) lot number, as derived from subdivision maps;
- (b) model number, as derived from Schedule A, and price, as derived from Schedule C;
- (c) a list of standard modifications desired by the purchaser and the price for each such modification, as derived from Schedule C;
- (d) a list of non-standard modifications desired by the purchaser, if any, and a request to the Contractor for a price quote;
- (e) color selections made by purchaser; and
- (f) a requested date of completion.

Upon receipt, Contractor shall review the order. If any prices are incorrect, Contractor shall notify Developer immediately. A copy of the order--as corrected, if necessary--shall be signed by Contractor and returned to Developer.

10. *Completion.* Upon signing the order, Contractor shall schedule the house to be built based upon the requested date of completion. Contractor shall next obtain a building permit. Construction shall be commenced in accordance with the above-mentioned schedule. Upon completion, Contractor shall obtain a certificate of occupancy. Approximately _____ [insert number, e.g., ten (10)] days prior to the expected date of completion, Contractor shall notify Developer so that inspections and the closing may be scheduled.

11. *Change orders.* Contractor shall be under no obligation to accept change orders after it has signed the original order. However, where Contractor agrees to accept a change order, it may demand full payment for the cost of making such change at the time of its acceptance of the change order.

12. *Marketing.* Contractor shall have no responsibility for marketing. All marketing shall be the sole responsibility of Developer. Developer may request Contractor, its agent or employee to appear at no more than _____ [insert number, e.g., three (3)] open houses or marketing seminars per year. Contractor agrees to provide professional autobiographical material to developer for use in marketing.

13. *Purchasers.* Contractor shall have no responsibility for meeting with, or authority to meet with, purchasers directly. All direct inquiries received by Contractor from purchasers shall be forwarded immediately to Developer. Developer shall not be bound by any discussions and agreements between Contractor and purchasers.

14. *Termination.* Either party may terminate this Agreement upon the giving of _____ [insert number, e.g., six (6)] months' written notice to the other party. During the _____ [insert number, e.g., six (6)]

month period, Contractor shall complete all houses for which it has already received orders. Contractor shall not receive new orders during this period. Developer shall be entitled to forward new orders to other contractors. The provisions of this Agreement regarding warranties and punchlist work shall survive this Agreement.

15. *Disputes.* Any disputes which may arise under this contract shall be arbitrated before the project architect, _____[insert name of architect], at his/her offices, located at _____[address]. His/her decision shall be binding on all parties. Either party may request arbitration of any matter by writing to the arbitrator and by forwarding a copy of the writing to the other party. The arbitration shall be scheduled for hearing within _____[insert number, e.g., forty-eight (48)] hours thereafter. A written decision shall be issued within _____[insert number, e.g., forty-eight (48)] hours after completion of the hearing.

16. *Entire agreement.* This Agreement, together with the other written agreements and instruments executed concurrently herewith or pursuant to the provisions hereof, contains the entire agreement between the parties concerning the matters herein set forth and supersedes all prior agreements between them respecting such matters.

17. *Counterparts.* This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. At the trial of any matter arising under this Agreement, only one counterpart need be produced.

18. *Headings.* Paragraph headings are for the purposes of convenience and identification only and shall not be used to interpret or construe this Agreement.

19. *Waivers.* Except as herein expressly provided, no waiver by either party of any breach of this Agreement, or of any warranty or representation hereunder, shall be deemed to be a waiver by the same party of any other breach of any kind or nature (whether preceding or succeeding the breach in question, and whether or not of the same or similar nature).

No acceptance by a party of payment or performance after any such breach shall be deemed to be a waiver of any breach of this Agreement or of any representation or warranty hereunder, whether or not the party knows of the breach when it accepts such payment or performance.

No failure by a party to exercise any right it may have under this Agreement or under law upon another party's default, and no delay in the exercise of that right, shall prevent it from exercising the right whenever the other party continues to be in default. No such failure or delay shall operate as a waiver of any default or as a modification of the provisions of this Agreement.

20. *Gender and number.* Whenever the singular or plural number, or the masculine, feminine or neuter gender, is used herein, it shall equally include the other(s).

21. *Notices.* Any notice which any party is required or may desire to give hereunder shall be in writing and may be personally delivered, transmitted by facsimile machine, or delivered by the United States Postal Service or private delivery service to the above addresses. Notice is deemed given when received.

22. *Governing law.* This Agreement shall be construed and enforced in accordance with the laws of the State of _____[state].

23. *Binding effect.* This Agreement shall be binding upon, and inure to the benefit of, both parties and their respective heirs, representatives, successors and assigns.

24. *Modifications.* This Agreement may be modified only by a written document signed by representatives of both parties. A purported oral modification shall not be effective.

The parties hereto have set their hands and seals the day and year first above written.

FORM 22.45 Demolition agreement--insurance and performance bond provided by contractor

COMMENT

This form is an agreement between a property owner and a demolition company for the demolition of existing improvements.

FORM

AGREEMENT made on _____[*date*], between Golden State Demolition Company, Inc. (the "Contractor"), and Dane Land Company (the "Owner").

Recitals

The Owner is the owner of real property situated in Kern County, California, designated as Parcels 1, 2, 3, and 4 (the "land"), more particularly described in the attached Exhibit A.

The Owner wishes to demolish all of the buildings and other improvements on the land (collectively the "Improvements").

The Owner wishes to engage the Contractor to demolish the Improvements.

It is therefore agreed as follows:

1. *Demolition.* The Contractor shall demolish the Improvements, beginning on or before _____[*date*], and to be completed no later than _____[*date*].

2. *Labor, materials, and equipment.* The Contractor shall provide all labor, materials, and equipment necessary to demolish the Improvements and contact all utility companies necessary to provide for the discontinuance and disconnection of service to the property in accordance with the requirements of all authorities having jurisdiction thereof. The Contractor shall coordinate all activities concerning the demolition of the Improvements.

3. *Permits and licenses.* The Contractor shall obtain all necessary permits and licenses and pay all fees connected with the demolition in accordance with the requirements of the respective municipal agencies and other authorities having jurisdiction.

4. *Removal of debris.* The Contractor shall remove from the land all materials and debris resulting from the razing of the Improvements, the materials and debris so removed to become the property of the Contractor. All materials so removed shall be disposed of at the Contractor's expense and in strict compliance with all state, federal and local laws and regulations. In the event that any regulated material is included (e.g., asbestos insulation), proof of proper disposal shall be provided to the Owner.

5. *Combustible and noncombustible materials.* The Contractor may leave noncombustible materials, such as brickbats and plaster, in the basements. All combustible materials, such as wood, tar paper, wood furring, lathe, etc., shall be completely removed from the land. The basements shall be back-filled with the noncombustible material, no higher than curb elevation. Contractor shall not use any organic fill which could decompose and settle, or which could produce methane gas. Contractor shall install vents, where necessary, in the event that methane gas is found during demolition and fill operations.

6. *Bridge.* The Contractor shall provide a bridge, if and as required by local agencies, and provide the necessary bonds and permits with respect to the maintenance of the bridge. The Contractor shall install and maintain necessary lights in the bridge area.

7. *Extermination and protection.* The Contractor shall do all necessary extermination work, provide adequate and required fire protection in accordance with the regulations of the agencies having jurisdiction, maintain and provide adequate protection of the area, and not create any hazardous conditions.

8. *Evidence of compliance with requirements.* The Contractor shall furnish to the Owner the necessary bonds, permits, insurance certificates, and other evidence of compliance with the requirements of the various agencies or departments having jurisdiction over demolition of buildings before proceeding with the demolition.

9. *Performance bond.* The Contractor shall provide a performance bond for the faithful performance of this agreement in all its particulars, in the sum of \$300,000, duly executed with a surety company in form and substance acceptable to the Owner, the premium to be paid by the Owner.

10. *Insurance.* The Contractor shall provide for itself and maintain at its own cost and expense until the completion of the demolition the following forms of insurance: workers' compensation insurance in accordance with the laws of the State of California, public liability insurance with limits of liability in the sum of \$1,000,000 for injury to any one person and \$3,000,000 for any one accident, and property damage liability in the sum of \$250,000. The Contractor shall furnish certificates of insurance to the Owner for the coverages referred to above, each of which insurance policy shall contain an endorsement requiring the carrier to give at least ten days' prior notice of cancellation to the Owner.

11. *Right of way.* The Contractor acknowledges that Clinton Realty Corp. has and maintains a right of way on the property owned by the Owner, and warrants that proper precautions and measures will be taken by the Contractor not to endanger or cause any damage to such right of way.

12. *Indemnification.* The Contractor warrants that it is an independent contractor and shall indemnify and hold harmless the Owner against any loss or expense arising out of any liability imposed by law upon the Owner for damages because of bodily injuries, including death at any time resulting therefrom, or because of accidents sustained by any person or persons on account of damage to property arising out of or in consequence of the performance of this agreement, whether such injuries to persons or damage to property are due or claimed to be due to any negligence of the Contractor, the Owner, their agents, servants, or employees, or of any other person.

13. *Assignment.* The Contractor shall not assign or subcontract any part of the work to be performed under this agreement.

14. *Payment.* The Owner shall pay the Contractor for the work to be performed the sum of \$180,000, payable as follows: \$60,000 within two weeks after the commencement of the demolition of the Improvements, \$60,000 one month after such commencement, and the balance of \$60,000 within 30 days after the completion of the demolition in accordance with the terms and conditions of this agreement.

15. *Binding effect.* This agreement shall be binding upon the successors and assigns of the parties.

The parties have executed this agreement as of the day and year first above written.

FORM 22.46 Contract do to site work for new building

COMMENT

This form is being entered into with a builder for the purpose of doing all of the site work required prior to the construction of a building on the land owned by the owner. The commencement of this contract is tied to the acquisition of a building permit by the builder for the actual construction of the building to be constructed on the site.

In Section 4 of this particular contract, the owner has inserted a clause in which the builder acknowledges being familiar with the site, its topographical features and the surface conditions of the site, in an attempt to avoid any claims from the builder for additional compensation because of a lack of familiarity with such matters. The builder will probably object to such a provision unless the builder has done its due diligence and verified such matters. However, in this form, the builder is not responsible for out of the ordinary subsurface conditions relating to the subsurface conditions of the soil because the builder has not yet taken soil boring tests.

FORM

SITE DEVELOPMENT CONTRACT

THIS SITE DEVELOPMENT CONTRACT made this _____[day] day of _____[month], _____[year], by and between MAGNUM LIMITED PARTNERSHIP, hereinafter called "Owner," and BUILDER ASSOCIATES, INC., a Pennsylvania corporation duly licensed to do business in the State of Ohio, hereinafter called "Builder." The situs of the contract and performance of the contract is in the State of Ohio.

WHEREIN IT IS MUTUALLY AGREED AS FOLLOWS:

1. *Scope of Work.* The Owner herewith employs the Builder to demolish the existing house and other structures and improvements on the site, including removal of demolished materials and waste resulting therefrom, and to supervise, direct, and install the site improvements insubstantial conformity with plans and specifications dated _____[date], and attached hereto and made a part of this Contract by incorporation herein. The Builder accepts such employment and agrees to construct or subcontract the site improvements in accordance with the plans and specifications attached hereto and made part of this agreement by incorporation.

2. *Location.* The site covered by this contract is located on the south side of James Road, east of Sill Road, in the City of Salem, State of Ohio, and more particularly described on Exhibit A attached hereto and made a part hereof.

3. *Insurance.* The Builder, at Builder's expense, will carry Worker's Compensation coverage in conformity with state requirements and Public Liability coverage in the amount of Two Hundred Fifty Thousand Dollars (\$250,000) per person, Five Hundred Thousand Dollars (\$500,000) per accident, and Two Hundred Fifty Thousand Dollars (\$250,000) property damage. In addition, blanket umbrella coverage in the amount of Five Million Dollars (\$5,000,000) for over and above the insurance herein specified shall be provided by Builder.

4. *Other Provisions.*

A. Builder acknowledges that it has inspected the site, including the 25 foot driveway easement appurtenant thereto, as shown on the survey prepared by Johnson and Associates, copies of which have been delivered to Builder, and the topographical features of the aforesaid site as set forth in the topographical survey prepared by Johnson and Associates and delivered to Builder. Builder represents and warrants that except for subsurface conditions at the site to be determined by soil boring tests, to be obtained by Builder, it is fully familiar with the site, including the surface conditions thereof, and is satisfied with the same. Claims for additional compensation or extensions of time because of the failure of the Builder to familiarize itself with the conditions of the Contract or the conditions at the site (except for subsurface conditions to be determined by soil boring tests) will not be allowed.

B. Owner shall not be responsible for any costs due to the negligence of Builder, any subcontractor or supplier, anyone directly or indirectly employed by any of them, or anyone for whose action they may be liable, including but not limited to the correction of defective or nonconforming work.

C. Builder agrees to commence the site preparation work as soon as a building permit is obtained by Builder pursuant to the Building Contract of even date herewith and to diligently prosecute the performance of the site preparation work so as to complete the same as soon as reasonably possible. All landscaping work required to be done after construction of the building to be constructed on the site shall be completed as soon as reasonably possible, weather permitting.

D. Builder agrees that all work shall be completed free of any mechanics' or materialmen's liens. If any such liens are filed, they shall be removed by Builder by payment, bonding or otherwise within 30 days of the time they are filed of record; otherwise, Owner shall have the right to remove the same and charge the costs thereof to Builder. As progress payments are made, Builder agrees to provide to Owner the same lien waivers and other documents as are required to be provided by the terms of the Building Contract of even date herewith.

E. Any default under this Contract on the part of Builder shall be considered a default under the terms of the Building Contract between the parties hereto dated of even date herewith, and shall entitle Owner to the same rights and remedies as Owner shall have under the Building Contract or at law or in equity.

5. *Warranty:* The Builder guarantees that the site work shall be constructed in accordance with this Contract and the

attached plans and specifications which have been made a part of this Contract. If, during the period of one year after the completion of work hereunder, any defect is discovered which is the result of faulty workmanship or materials, it will be promptly remedied by Builder at Builder's expense.

6. *Contract Price and Terms of Payment*: The Owner shall pay to the Builder for the latter's performance of this Contract a total contract price of One Hundred Thousand Dollars (\$100,000).

This contract price includes all federal, state and local taxes. The contract price shall be paid in the following manner:

A. On or about the 10th day of each month, the Builder shall prepare a statement showing the value of all labor and materials incorporated in the work to the last day of the next preceding month. The Owner, within five days after presentation of such statement, shall pay the Builder ninety percent (90%) of the amount indicated as owing by such statement until fifty percent (50%) of the full contract price has been paid. Thereafter, one hundred percent (100%) of all progress billings shall be paid to the Builder.

B. The entire remaining balance of the total contract price shall be paid upon completion of this contract.

Any payment not made when due is subject to a late payment charge calculated at the maximum penalty rate permitted under governing law, or if no maximum is applicable, at the rate of one and one-half percent (1 1/2%) per month.

MAGNUM LIMITED PARTNERSHIP has caused these presents to be signed by it at Salem, Ohio on the day and year first above written, and BUILDER ASSOCIATES, INC. has caused these presents to be signed by it at Pittsburgh, Pennsylvania and its corporate seal to be affixed this _____[day] day of _____[month], _____[year].

FORM 22.47 Long-term contract to construct building to specifications--terms favorable to owner

COMMENT

This is a contract between an owner of land and a contractor for the construction of a motor hotel for occupancy in "turnkey" condition. The contract price is a fixed sum, but is subject to reduction if the aggregate costs incurred for certain subcontracts fall below a specified amount. Progress payments to the contractor are to be made monthly upon the basis of the value of acceptable work in place and acceptable inventory suitably stored. The balance is to be paid after completion in two installments. All rights of the subcontractor are subject to the priority and the terms of the building loan agreement. Both the lender and the owner have the right to pass on the acceptability of the contractor's work. The contractor is required to complete construction within 15 months or pay damages in a liquidated amount for each extra day.

FORM

AGREEMENT made on _____[*date*], by and between Motel Ownership Corp., a corporation organized in the District of Columbia (the "Owner"), and Shoreline Construction Corp., a corporation organized in the State of Maryland (the "Contractor").

Recitals

The Owner has title to a tract of land containing approximately two acres situated at the southwest corner of Main Street and 16th Street South, Arlington County, Virginia (the "Tract"), and

The Owner has secured a commitment from the Capital Trust Company of Washington, D.C., for a construction and

permanent loan to finance the construction of improvements on the Tract; the Capital Trust Company (or such other lending institution from which the Owner may ultimately secure a loan to finance the improvements on the Tract) is referred to in this agreement as the "Lender," and

The Owner wishes to employ the Contractor to construct the improvements on the Tract, and the Contractor wishes to accept the employment.

Now, therefore, the parties agree as follows:

1. *General scope of work.* The Contractor shall furnish all of the labor and materials and perform all of the work on the Tract as set forth in plans and specifications prepared by Harrison, Smith and Associates, Architects and Engineers, of Baltimore, Maryland, dated _____[date], consisting of 38 pages of plans and 130 pages of specifications (the "Plans"). Copies of the Plans, initialed by each of the parties, are in the possession of each of the parties and are incorporated in this agreement to the same extent and effect as if such Plans were fully set out herein. The Plans have been prepared at the Contractor's request and have been furnished by the Contractor to the Owner upon the express warranty and representation of the Contractor that the Plans cover all items of work, labor, and materials needed for the construction of improvements and appurtenances on the Tract consisting of a four-story motor hotel and appurtenances including a swimming pool, parking areas, and all necessary utilities. The Contractor shall perform all necessary work and furnish all necessary materials in order to erect on the Tract a completed motor hotel, with appurtenances, in "turnkey" condition so that, upon completion of the Contractor's obligations, the Owner will not be required to perform any work or furnish any material or labor (other than the installation of furniture) in order to make use of the improvements as a fully equipped and integrated motor hotel which is ready to be occupied and opened for business. If anything is omitted from the Plans which may be required in order to furnish a motor hotel and appurtenances, complete in every respect and ready to be occupied and opened for business (with the exception of the necessary furniture to be supplied by the Owner), the omitted items will be deemed to be included within the scope of the work to be performed by the Contractor, and the Contractor shall furnish all work materials, and labor as may be necessary to provide, furnish, and install the same, without additional cost to the Owner.

2. *Independent contractor.* The Contractor warrants and represents to the Owner that it is fully experienced and properly qualified as an expert to perform the work provided for herein and that it is properly equipped, organized and financed to perform such work. The Contractor shall finance its own operations, shall operate as an independent contractor and not as the agent of the Owner, and shall indemnify and hold the Owner free and harmless from all liabilities, costs, and charges by reason of any act, omission, or representation of the Contractor or of its subcontractors, agents, or employees.

3. *Compliance with requirements of lender.* All work, labor, and materials to be furnished and performed by the Contractor shall be to the satisfaction of both the Owner and the Lender, and payment shall be made only for such work and materials as are accepted by the Owner and the Lender; provided, however, that the Owner and the Lender shall not arbitrarily withhold acceptance of such work and materials or payment so long as the Contractor makes satisfactory progress and performs all of its obligations in accordance with and pursuant to all the terms and conditions of this agreement.

4. *Contract price.* The total contract price for all work, materials, and labor to be furnished and performed by the Contractor shall be in the fixed or "lump sum" amount of \$3,600,000, provided, however, that the total contract price shall be subject to reduction as hereinafter provided. In the event the aggregate sum of the Contractor's subcontracts for the following items, viz:

(a) Masonry,

(b) Roofing,

- (c) Lathing and plastering,
- (d) Acoustical treatment,
- (e) Tile, terrazzo, and marble.
- (f) Resilient floor,
- (g) Glass and glazing,
- (h) Painting and decorating,
- (i) Electrical wiring and fixtures,
- (j) Plumbing, heating, and air conditioning,
- (k) Elevators and dumbwaiter,
- (l) Asphaltic paving,

is less than \$1,800,000, the total contract price shall be reduced by the difference between \$1,800,000 and the aggregate sum of the Contractor's subcontracts for the above listed items; provided further, however, that in no event shall the total contract price of \$3,600,000 be increased regardless of the subcontract prices for the above listed items. For purposes of verification by the Owner of the subcontract amounts for the above listed items, the Contractor shall submit to the Owner true copies of each of the subcontracts, and the Contractor shall permit the Owner, its agents, and accountants, to examine and make copies of all books and records of the Contractor pertaining to the work, labor, and materials to be performed and furnished by the Contractor pursuant to this agreement. The contract price shall be payable in installments.

5. *Method of payment.* The Owner's agreement with the Lender provides that the Lender will advance moneys to the Owner to finance the construction of the work at designated stages of construction of the improvements. Subject to the provisions of the construction loan agreement, the Owner shall make the following payments to the Contractor:

(a) Monthly, on or about the tenth day of each month (commencing ten days after the first full month following the commencement of construction), an amount equal to 90 percent of the value of the acceptable work in place and acceptable inventory suitably stored and protected on the Tract as of the 25th day of the preceding month, less all amounts previously paid, and less any reserves necessary to correct faulty work or to replace unsuitable materials; provided the Contractor's monthly estimate of progress and inventory, in such form as may be required by the Owner, is submitted to the Owner (and to the Lender if it so requires) on or before the 26th day of the preceding month and provided further, that the Owner has received a progress payment from the Lender in an amount sufficient to make the monthly payment.

(b) Ten days after substantial completion of all work, materials, and labor to be performed by the Contractor and its acceptance by the Lender, an additional payment in an amount sufficient to bring the total payments to an aggregate sum equal to 95 percent of the full contract price, provided the Owner has received from the Lender an amount sufficient to make the payment, and provided further, that the Contractor has furnished to the Owner a complete release of all liens, in form satisfactory to the Owner and the Lender, from all persons, firms, and corporations who have performed work or supplied materials for or in connection with this agreement as well as an affidavit by the Contractor that the releases include all the labor and materials for which any lien could be filed, and provided further, that all work

requiring inspection by any governmental authorities having jurisdiction has been duly inspected and approved by such authorities and by the applicable Board of Fire Underwriters, and all requisite certificates of occupancy and other governmental approvals, licenses, and permits have been duly issued.

(c) The remainder of the contract price on the 30th day following final completion and acceptance by the Owner and the Lender.

6. *Performance and payment bond.* The Contractor shall furnish a bond in favor of the Owner and the Lender assuring completion and faithful performance of all work under this agreement and the payment of all obligations arising hereunder, in the form and with the surety or sureties that are approved by the Owner and in an amount equal to the contract price. The premium for the bond shall be paid by the Owner. If the bond is furnished prior to the execution of the deed of trust or mortgage securing the construction loan, the form of the bond and the surety or sureties thereunder shall also be subject to the approval of the Lender and changes in the form of the bond and sureties shall be made as required by the Lender.

7. *Time for completion.* The Contractor shall commence performance of its obligations under this agreement immediately (or in the event the mortgage or deed of trust securing the construction loan has not been executed at the time this agreement is executed, the Contractor shall commence construction upon written notification by the Owner of the execution of the construction mortgage or deed of trust) and the Contractor shall complete construction not later than 15 months from the date of this agreement (or not later than 15 months from the date of such notice). If for any reason all construction is not completed in full upon the expiration of the 15-month period, there shall be deducted from the contract price an amount equal to \$750 per day for each day in excess of the 15-month period counting from the first day following the expiration of the 15-month period until the day upon which all construction is fully completed and accepted in accordance with this agreement; provided that in the event the delay in completion of construction beyond the 15-month period is caused by or results from labor difficulties (including but not limited to strikes, walk-outs, picketing, boycotts, shutdowns, or inability to obtain a sufficient number of competent laborers or mechanics) or from Acts of God, including, but not limited to, extreme weather conditions and/or other natural causes that lie beyond the reasonable control of Contractor, then there shall be deducted from the contract price an amount equal to \$300 per day for each day in excess of the 15-month period counting from the first day following the expiration of the 15-month period until the day upon which all construction is fully completed and accepted in accordance with this agreement. If the unpaid amount of the contract price following the expiration of the 15-month period is less than the total amount to be deducted as above provided, the Contractor shall promptly pay to the Owner, upon the Owner's demand, the amount by which such sum exceeds the unpaid balance of the contract price. The foregoing \$300 or \$750 per day sum represents the amount of liquidated damages which the parties have agreed upon as compensation to the Owner for any delay in completion of construction in excess of the 15-month period, and the parties acknowledge that such sum represents a fair and equitable amount of compensation for delay in view of the impossibility of ascertaining actual damages. The foregoing liquidated damages clause shall, however, be in addition to and not in substitution for any other rights or remedies which the Owner may have under this agreement or otherwise against the Contractor by reason of its failure to complete construction within the time set forth in this paragraph.

8. *Best efforts of contractor.* Notwithstanding the time set forth in Paragraph 7 for completion of construction, the Contractor will at all times exert its best efforts to complete the construction at the earliest possible time, will at all times furnish sufficient labor and materials to assure the most efficient and speediest construction progress, will have a competent foreman or superintendent on the job at all times, and will at all times have a watchman or watchmen present on the Tract to protect and safeguard all construction work and materials.

9. *Default by contractor.* If the Contractor fails to perform the work diligently, or to make the progress required by the Lender, or abandons or ceases work for a period of five or more days, or fails in any way to perform the conditions hereof, or fails to pay laborers, mechanics, materialmen, and suppliers when due (provided the failure to pay is not caused by the Owner's failure to make payments to the Contractor in accordance with Paragraph 5), or shall become

insolvent, or unable to meet its obligations as they become due, or shall make an assignment for the benefit of creditors, or shall commence any proceeding in bankruptcy, or if any such proceedings are commenced against it (and are not discharged within ten days), the Owner may, and without prejudice to any other rights it may have, by giving 48 hours' written notice of its election to the Contractor, take over all work, or any part thereof, and all tools, equipment, and supplies and finish the work by whatever method it deems expedient. In such event, the Contractor shall not be entitled to receive any further payment until the work is finished. If the unpaid balance of the contract price exceeds the Owner's expense of completion of the work, the excess shall be paid to the Contractor. If the expense exceeds the unpaid balance, the Contractor shall promptly pay the difference to the Owner on demand. The Owner's expense of completion shall be established as the actual cost of construction plus 10 percent additional for overhead and supervision (and in the event the construction is not completed until after the 15-month period referred to in Paragraph 7, there shall be added to such "expense of completion" the \$300 per day, or \$750 per day, liquidated damage amount referred to in such Paragraph 7).

10. *Clean-up.* Before the Contractor is entitled to the payment provided for in subparagraph 5(b), the improvements on the entire Tract, as well as all parking areas and appurtenances, shall be in "broom clean" condition, completely free of all trash, rubbish, debris, boxes, wrappings, etc., and all of the Contractor's equipment as well as any leftover materials and inventory. In the event the Contractor does not perform this clean-up operation to the Owner's satisfaction, the Owner may, after 48 hours' written notice to the Contractor, perform the clean-up operations with owner's own contractor or agents, charging the Contractor with the cost thereof, plus 10 percent, and deducting the same from the payments provided for in Paragraph 5.

11. *Permits and licenses.* The Contractor shall, at its own cost and expense, apply for and obtain all necessary building, occupancy, and other governmental permits and licenses required in connection with the construction and for the use and occupancy of the improvements as a completed motor hotel, with the appurtenances. The Contractor shall, at all times, strictly comply with and conform to all rules and regulations of the applicable Board of Fire Underwriters and to all laws, ordinances, and regulations (including but without limitation all applicable building codes and requirements) of all governmental authorities relating to the manner of doing the work to be performed under this agreement.

12. *Temporary construction.* The Contractor shall provide and furnish, at its own-cost, its own office and temporary construction trailer and shall provide at the Contractor's own cost all light, heat, telephone, water, and other utilities as well as all necessary sanitary facilities for the same during the period of construction.

13. *Indemnity.* The Contractor shall indemnify the Owner and hold it harmless against all liabilities, claims, and demands for personal injury or property damage arising out of or caused by any act or omission of contractor, its subcontractors, agents, or employees, or arising in or about the Tract at any time from the date of this agreement until final completion of construction. The Contractor shall use proper care in the performance of its work so as not to cause damage to any adjacent property, and the Contractor shall indemnify and hold the Owner harmless from any liabilities, claims, or demands for damage to such adjoining or adjacent property.

14. *Insurance.* The Contractor shall, at all times, commencing with the date upon which construction begins, carry the following types of insurance with an insurance carrier or carriers acceptable to the Owner and the Lender and in policies approved by the Owner and the Lender:

(a) Workers' compensation insurance fully covering all persons engaged in the performance of this agreement in accordance with Virginia Law.

(b) Public liability insurance covering death or bodily injury with limits of not less than \$1,000,000 for one person and \$3,000,000 for any one accident or disaster and property damage coverage with limits of not less than \$500,000 which insurance shall name the Owner as an additional insured.

(c) "Builder's risk" insurance against damage or destruction by fire and full extended coverage including vandalism and malicious mischief, covering all improvements to be erected and all materials for the same which are on or about the Tract, in an amount equal to the full insurable value of the improvements and materials, such insurance to be made payable to the Owner and the Contractor, as their interests may appear, with standard mortgagee endorsement to the Lender or its assigns as mortgagee.

The Contractor shall furnish to the Owner and the Lender, five days prior to the date construction commences, duplicate policies of insurance as set forth in this paragraph, together with certificates or receipts showing that the insurance is in force and fully paid. Each of the policies shall contain a provision to the effect that it may not be cancelled except upon ten days prior written notice to the Owner and the Lender.

15. *Liens.* The Contractor shall indemnify and hold the Owner harmless from all liens, or claims of rights to enforce liens, against the Tract or the improvements arising out of any work to be performed or labor or materials to be furnished under this agreement. Neither final payment by the Owner nor acceptance of the improvements shall constitute a waiver of this indemnity, and if any lien or claim for lien shall, at any time, be filed the Contractor shall refund to the Owner all moneys the Owner may be compelled to pay in discharging the lien including all costs and a reasonable attorney's fee.

16. *Assignment.* The Contractor shall not assign this agreement or any amount payable hereunder without the prior written consent of the Owner. The Contractor shall, upon request of the Owner, disclose to the Owner the names of all subcontractors or other persons with whom it contracts or intends to contract with or hereafter contracts with in connection with the performance of this agreement.

17. *Correction of defaults.* The Contractor will, for a period not to exceed one (1) year after completion of the building, at the request of the Owner (or of the managing agent employed by the Owner to manage the motor hotel), correct any defaults due to faulty materials or workmanship, without cost to the Owner, and neither the final payment by the Owner nor the final acceptance by the Owner of the improvements shall relieve the Contractor from responsibility for any defect in materials or workmanship.

18. *Extras.* No claim for payment (in excess of the amount set forth in Paragraph 4) for extra labor or materials of any kind shall be made by the Contractor or shall be payable by the Owner unless the same is performed or furnished pursuant to a written agreement executed by both the Owner and the Contractor.

19. *Unemployment insurance and taxes.* The Contractor shall pay, at the Contractor's own cost, all taxes and impositions in connection with the work or materials to be performed or furnished, including, but not limited to, state and federal unemployment and old age benefit taxes, income tax, sales taxes, use taxes, and excise taxes.

20. *Notices.* All notices to the parties shall be in writing and shall be sent by registered or certified mail to the addressees and addresses specified below:

All notices to the Owner shall be sent to:

Motel Ownership Corp.
1317 F Street, N.W.
Washington, D.C.

All notices to the Contractor shall be sent to:

Shoreline Construction Corp.

500 River Road Baltimore Maryland

21. *Owner's option to cancel.* If settlement of the Owner's construction loan commitment with the Capital Trust Company of Washington, D.C., is not made on or before _____[*date*], the Owner may cancel and terminate this agreement by giving the Contractor written notice on or before _____[*date*]. In the event of such cancellation, this agreement shall automatically be null and void and of no effect, and there shall be no liability on the part of either party to the other. If, on the other hand, the loan is consummated, the Owner shall give the Contractor notice in accordance with Paragraph 7 and upon the giving of the notice the Contractor shall commence construction as provided in Paragraph 7.

22. *Entire agreement.* This agreement constitutes the entire agreement between the parties and neither of the parties shall be bound by any promises, representations, or agreements except as are herein expressly set forth. Time is of the essence of this agreement. All warranties and representations of the Contractor hereunder shall survive final payment and acceptance of the work.

The parties have caused this agreement to be executed by their duly authorized officers, with their seals hereunto affixed, the day hereinabove written.

C. PLANNING AND CONSTRUCTION

26-22 Current Legal Forms for Real Estate FORM 22.48

FORM 22.48 Contract to construct a manufacturing building to specifications of tenant--option in tenant to purchase outright or to lease and acquire title upon expiration of lease

COMMENT

In this agreement, arrangements for construction are made between a landlord and a tenant. The landlord is a nonprofit corporation devoted to increasing the industry in the community. The tenant is a manufacturing company which has been induced to locate in that community partly because a plant is being made available to it on favorable terms. One of these terms is an option in the manufacturing company either to purchase the land and building as soon as the plant is completed, or to enter into a lease-purchase agreement at a rental which will pay off the cost of construction plus interest after 20 years at which time the lessee will be entitled to a deed to the property.

Lease treated as sale.

Lease-purchase or lease-option arrangements often raise the question of their proper characterization for tax purposes. If the transaction is held to be essentially a lease, the lessee may deduct periodic payments as rent. If the transaction is considered to be a sale, the lessee's periodic payments are not deductible in full. The lessee may deduct an allowance for cost recovery, and for the interest factor in the periodic payments of selling price. Although the decision in each case depends upon the particular circumstances of that case, there is little doubt, however, that when the total payments for rent plus any purchase optional costs of acquiring the property equal the price for which the property could have been purchased initially, plus interest, a sale rather than a lease will be recognized. This is apparently the result under this agreement. The purchase price is the sum of land acquisition and development costs. Total rental payments equal the purchase price plus an interest factor. Moreover, the parties have indicated their intention to treat the transaction as a sale by providing that the lease-purchase is to be set up so that the manufacturing company

will be able to deduct cost recovery of the building. This type of lease is sometimes referred to as a synthetic lease. Synthetic leases are discussed in Section 22.27[3] of the Practice Background.

Regardless of the option chosen by the manufacturing company, it is obligated to pay for the property in one way or another, and therefore, has a direct stake in the costs of construction. The agreement defines the costs to be included for this purpose, and provides for procedures by which the construction records may be inspected by the manufacturing company. A maximum amount for construction costs is stipulated, but a special protection to assure minimal costs is afforded by a provision prescribing procedures for submission of bids by contractors.

FORM

AGREEMENT made on _____[date], by and between Penwick Development Organization, Inc., a nonprofit industrial development corporation with its principal offices in the Central Building, in the City of Penwick, County of Luzerne, Commonwealth of Pennsylvania ("Penwick"), and Standard Computer Corporation, a corporation organized under the laws of the Commonwealth of Pennsylvania, with its office at 100 Elm Avenue, in the City of Penwick, County of Luzerne, Commonwealth of Pennsylvania ("Standard").

Recitals

Penwick primarily desires to increase employment and develop a more stable economic base in the City of Penwick, Pennsylvania, and

Penwick has developed a property known as Central Industrial Park in the City of Penwick, and

Penwick desires to erect a building in Central Industrial Park and desires also to give Standard the right to use the building under a lease-purchase agreement or the right to purchase the building, and

Standard, through its authorized officers has inspected and approved the site for the building, and

In order to obtain necessary financing, the parties have made various applications for loans from the Area Redevelopment Administration ("ARA"), Pennsylvania Industrial Development Authority ("PIDA"), and appropriate financial institutions in the City of Penwick ("local banks");

Now, therefore, the parties agree as follows:

1. *Description of property.* The site for the building shall contain 30 acres, more or less, in accordance with the legal description and plot plan drawn by the City Engineer of the City of Penwick, both of which are annexed as Exhibits A and B respectively. Penwick shall erect on the site a building containing dimensions of 300 feet by 250 feet for manufacturing space, and 50 feet by 125 feet for office space, of a structural steel frame, masonry walls, steel roof decking, and built-up roof, complete with plumbing, heating, electric wiring and lighting, sprinkler system, air conditioning, humidity control, exterior paving and landscaping, and conforming in all respects to the building rules and requirements of the authorities having jurisdiction and to the plans and specifications prepared at the request of Standard by William Carlin Associates, Registered Professional Engineers and Architects.

2. *Proposed financing.* This agreement shall not become effective until it has been approved by the ARA and the PIDA, nor shall it be effective until such time as it has been approved by the local banks which have tentatively made commitments to aid and assist in the financing of the building (collectively, the "lending institutions"). For the exclusive

purpose of purchasing the land and constructing the building, Penwick has applied for the following loans for a term of 20 years with interest only to be paid during the first year and the total loan to be amortized over the remaining 19 years:

<i>Amount</i>	<i>Source</i>
\$1,968,000	ARA
1,574,400	PIDA
393,600	Local banks
\$3,936,000	Total

In addition to joining in the foregoing applications for loans, Standard shall execute and deliver to the lending institutions such other necessary assurances and instruments, such as notes and mortgages, as may be required for the purpose of carrying out this agreement and the applications for loans. Standard shall promptly make the principal and interest payments due on the foregoing loans from ARA, PIDA, and the local banks whenever such payments shall become due, at the places and in the manner specified in the respective loan commitments, whether such payments are made directly to the lenders or by payment to Penwick under the terms of the lease-purchase agreement.

3. *Maximum costs.* Considering the foregoing "Proposed financing" as the maximum financing available, the following maximum costs shall not be exceeded:

Land acquisition	\$150,000
Building construction	\$3,786,000

The "Building construction" figure shall be the aggregate of the following costs:

(a) Amounts paid by or for the account of Penwick and which Penwick shall be obligated to pay for the construction of the building and other facilities in accordance with the approved plans and specifications (and any modifications made by the parties) including, without limiting the generality of the foregoing, the cost of rock removal, a driveway and parking lot, sewer and water lines leading from the building and connected to the public sewer and water lines, and the cost of any clearing or improvements made by Penwick with on or near the site.

(b) The fee of William Carlin Associates, or its successor, for architectural and engineering services (which shall not exceed 4 percent of item (a) above).

(c) Special engineering consulting services requested by Standard, not to exceed \$15,000.

(d) Penwick's out-of-pocket costs of permits and licenses required by public authorities in connection with the construction.

(e) The cost of surveying the site.

(f) The cost of fire, worker's compensation, and public liability insurance (and other insurance approved by Standard) which Penwick may carry during and in connection with such construction, with provisions that loss shall be payable to Penwick, Standard, and the financial institutions which finance the construction, as their interests may appear.

(g) Title insurance at actual cost to Penwick, and legal fees not to exceed \$30,000.

(h) Any transfer taxes or recording fees imposed upon the delivery or recording of any of the instruments connected with this transaction.

(i) Real estate taxes on the site, prorated for the period from the commencement of construction until the "date of occupancy."

(j) Interest at a rate not in excess of ____% (____ percent) per annum until the "date of occupancy," which Penwick may pay on moneys it borrows for construction purposes hereunder.

4. *Determination of construction costs.* Within 30 days after the "date of occupancy," Penwick shall furnish to Standard a statement, certified as correct by its principal accounting officer, itemized in reasonable detail, of the elements of the construction costs and of the amounts of mortgage loans, but not exceeding the maximum construction cost determined in accordance with Paragraph 3. Penwick grants to Standard the right and privilege at any time, either by itself or its authorized agents or employees, to inspect the invoices, evidences of payments, and other books and records of Penwick, to ascertain the exact costs of the items mentioned in Paragraph 3 and in the other paragraphs of this agreement. If Standard determines that these amounts are greater than the amount expended by Penwick, or shall be improper charges against the premises, then the costs to Standard shall be reduced accordingly. If there is any dispute between the parties as to these costs, such dispute shall be referred to arbitration. The agreed cost of the land is \$150,000.

5. *Construction specifications.* Penwick shall construct or have constructed on the site an industrial-office building and related construction, in accordance with the final plans and specifications being drawn by William Carlin Associates (or such substitute or successor selected by either party with the approval of the other), approved by Standard and Penwick together, with such changes as the parties agree upon (the final revised plans and specifications and changes being the "approved plans and specifications"). The building, when completed, (a) will conform to the approved plans and specifications, except that if specific materials or supplies shall be unavailable, Penwick may, with the approval of Standard and the architect, use substitute materials or supplies of an equivalent quality; (b) will conform with the conditions of all licenses and permits issued for its construction; and (c) will not violate any applicable law, or regulation, of any governmental authority or agency having jurisdiction thereof, including any laws requiring certain green building alternatives to be used. Penwick will deliver to Standard the certificate or certificates of the architect, in usual form, that construction has been completed in accordance with the approved plans and specifications.

6. *Roadway, water lines, and sewer lines.* Without cost to Standard, Penwick shall hard-surface the roadway shown on Exhibit B as Central Drive at least beyond the area of the building site. Such hard surface shall be of a quality required for a roadway which is to be dedicated to a municipality. Sewer lines and water lines shall be brought to Standard's property line without cost to Standard. Standard is given, in common with other lessees or owners, the right to use sewer lines, water lines, and the road adjacent to the building and leading to the county road in common with all other users of the land in Central Industrial Park. Penwick represents that it will maintain the road until such time as the road is taken over by a public authority and will continue to maintain the sewer lines and water lines until taken over by a proper public utility or municipal authority. Nothing herein contained, however, shall limit the right of Penwick to convey the road, sewer lines, or water lines to proper public authority, public utility, or municipal authority. No assessment for the construction of the road, sewer lines, or water lines shall be made against Standard. Without limiting the foregoing, the facilities for the discharge, run-off, or other disposition of sewage, industrial wastes, and other fluid discharges from the site and buildings will be discharged into the common sewage system used by Penwick. Penwick shall secure all necessary licenses and permits and the facilities, when constructed and in use, shall satisfy the conditions of the licenses and permits, and the representations and descriptions of the facilities in the applications for the licenses and permits. This shall not prohibit Penwick or the municipal or other government authority from charging a sewage rent.

7. *Access during construction period.* Penwick will permit Standard and its agents access to the site during construction, and will permit them to make such examinations, tests, and checks which they may deem advisable, provided the same do not unduly interfere with construction. Penwick will also make the site and the building available to Standard for the installation of its facilities and equipment, and for such other related uses, provided the same do not unduly interfere with construction, but Standard shall not be deemed in possession of the premises or any part thereof until the "date of occupancy."

8. *Date of occupancy.* The "date of occupancy" shall be the date of receipt by Standard of the certificate of the architect addressed to it, that the building and related construction have been substantially completed in accordance with the approved plans and specifications and is available for occupancy and use, except that the date shall not, subject to delays permitted under this paragraph, be later than _____[date]. In addition to the architect's certificate, the building shall previously have been certified by the Commonwealth of Pennsylvania as being approved for the purposes for which the building is to be used and for the number of people to be employed therein. Notwithstanding the foregoing, the completion date shall be extended for the number of days during which construction is interrupted by reason of strikes, other labor disturbances, unavailability of supplies and materials not occasioned by the fault of Penwick or its contractors, civil disturbances, action or inaction of any governmental authority notwithstanding the diligence by Penwick, unusual weather conditions, breach by Standard, or acts of God.

9. *Insurance after construction.* After completion of the building, Standard shall keep the building insured against fire, with extended coverage, for not less than 80 percent of the full replacement value of the building, exclusive of the cost of excavation, foundations, and footings, less physical depreciation, and in any event not less than the amount due on any mortgages thereon. The insurance shall be carried with insurance companies approved by Penwick and by the lending institutions, and each such policy shall contain appropriate mortgage clauses.

10. *Bidding and instructions to bidders.* When appropriate, and after the approved plans and specifications are completed, bids will be sought from reputable contractors, by public advertisement, for the construction and completion of the building within the specified time. Standard shall have the right to approve or reject the bids and will direct the awarding of the bids to the successful bidders before the same are awarded by Penwick. Bidders shall be instructed to conform to the following:

(a) Each bidder shall submit data regarding the education and experience of the key men of its organization, minority employment, the construction equipment available for use, the projects previously completed, and its financial status.

(b) Each bidder shall submit a deposit on receipt of copies of the drawings and specifications to insure their prompt return in good condition.

(c) Completion dates shall be made a part of all bids with a liquidated damage clause for failure to complete within the specified time. (The liquidated damage amount shall be an amount which shall be arrived at between Standard and the architect, with the approval of counsel for Penwick.)

(d) Upon the awarding of bids, there shall first be secured from all contractors bonds for the full amount of the bid, which bonds shall cover the following items:

(1) Completion bond with liquidated damage clause, guaranteeing completion of the work.

(2) Bond guaranteeing the structure for one year from date of completion against structural defects.

(3) Labor and material bond and indemnification against claims for labor or material by the contractor or subcontractor.

In addition, each contractor will be required to file, at the contractor's expense before any work is done on the building,

a Stipulation Against Liens in accordance with the laws of the Commonwealth of Pennsylvania, further to protect the parties against liens that may be filed for labor and material.

(e) Bids shall be made upon the form provided, and all blank spaces in the form shall be fully filled in; numbers shall be stated in both writing and figures; the signatures shall be in longhand; and the completed form shall be without interlineation, alteration, or erasure.

(f) Bids shall not contain any recapitulation of the work to be done. No oral, telegraphic, or telephonic bids or modifications will be considered.

(g) Bids shall be addressed to Penwick in care of the architect and shall be delivered to the architect enclosed in an opaque sealed envelope addressed to him, marked "Bid" and bearing the title of the work and the name of the bidder.

(h) Should a bidder find discrepancies in, or omissions from, the drawings or other documents, or should a bidder be in doubt as to their meaning, the bidder should at once notify the architect, who will send written instructions to all bidders. Neither Penwick, Standard, nor the architect will be responsible for any oral instructions.

(i) Before submitting a bid, bidders should carefully examine the drawings and specifications, visit the site of work, and fully inform themselves as to all existing conditions and limitations. They shall include in the bid a sum to cover the cost of all items included in the proposal.

(j) The competency and responsibility of bidders and of their proposed subcontractors, and minority employment, will be considered in making the award. Penwick and Standard do not obligate themselves to accept the lowest or any other bid.

(k) Any bulletins issued during the time of bidding are to be covered in the bid and in closing a contract they will become a part of it.

11. *Assignment of bonds.* If any work of a contractor or subcontractor is not completed within the dates specified for completion, Penwick shall assign to Standard the bonds given by such contractor or subcontractor, giving to Standard, in addition to other rights, the right to collect liquidated damages for failure to complete the building within the specified time. In consideration of this assignment, Standard releases Penwick from any and all claims for failure to complete the building within the specified time, and warrants that it will look to the bonds for liquidated damages for its entire recovery of damages for failure to complete the building within the specified time.

12. *Agreement to enter into lease or to purchase property.* Standard shall have the option either to lease or to purchase the land and building, either of which options shall be exercised at any time after the date hereof, but not later than immediately after the closing of the permanent mortgages on the land and building with the ARA and PIDA.

(a) If Standard desires to lease, Penwick and Standard will enter into a lease-purchase agreement for the land and building, which agreement, beginning as of the date of occupancy, will provide for equal monthly payments so that the entire cost of the land and building, together with all interest payable to the lending institutions, whether incurred during the period of construction or during the period of the mortgages, will be amortized on or before the expiration of such agreement. The lease agreement will be for a term of 20 years, and shall contain a judgment clause. The lease agreement shall further provide that Penwick will convey to Standard a good and marketable title in fee simple to the premises at the end of the term of the lease agreement, provided that Standard is then in possession and all sums of money due under the lease agreement, whether specified as rent or not, have been paid. At the time of this or any other transfer of title, all costs, taxes, and legal fees or any other item necessary for the cost of transfer shall be borne exclusively by Standard. An appropriate prepayment clause shall be inserted in the lease agreement.

(b) If Standard desires to purchase the land and building, then Penwick shall sell and convey to Standard a good and marketable title in fee simple to the premises, together with the improvements, easements, and other rights therein belonging to Penwick or in which Penwick may have any right, title, or interest. The purchase price shall be the aggregate actual cost for the land acquisition and for the building construction, as set forth in Paragraph 3, but in no event shall the aggregate purchase price exceed \$3,936,000. Upon purchase, the closing of title shall be consummated within thirty (30) days after receipt by Penwick of Standard's election to purchase.

(c) Consummation of this transaction by lease or by purchase shall be subject to the requirements of the ARA and the PIDA. However, regardless of which alternative is eventually selected, the parties shall cooperate so that the transaction is consummated in such a manner as to enable Standard to take cost recovery and depreciation of the building construction cost.

13. *Cooperation between parties.* The parties shall cooperate with each other in the performance of any work required to be performed by them respectively, to the end that neither shall cause the other any delay nor interfere with the due prosecution of the work of the other.

14. *Applicable law.* This agreement shall be interpreted in accordance with the laws of the Commonwealth of Pennsylvania.

15. *Notices.* All notices and consents shall be in writing, mailed registered or certified mail, and addressed to the parties as specified above, unless a change of address is given in writing.

16. *Arbitration.* If any controversy shall arise between the parties with respect to any of the matters set forth in this agreement the dispute shall be settled by arbitration in accordance with the rules of the American Arbitration Association, and judgment upon the award rendered by the arbitrator, or arbitrators if there be more than one, may be entered in any court having jurisdiction.

The parties have caused this agreement to be executed by their proper corporate officers and their corporate seals to be affixed, duly attested by their proper corporate officers, the day and year first above written.

C. PLANNING AND CONSTRUCTION

26-22 Current Legal Forms for Real Estate FORM 22.49

FORM 22.49 Lease and contract to construct building to specifications of tenant--loan for construction made to landlord by tenant--percentage rent on restaurant receipts

COMMENT

This form illustrates a combined lease and building agreement, which includes preliminary plans, specifications for the lessor's construction, provision for the lessee's approval of final plans and specifications, as well as conventional lease provisions.

Tax aspects of related loan and rental payments.

Part of the funds required by the owner for construction are to be obtained through a loan made by the lessee. This loan is to be repaid by offsetting the percentage rental under the lease which is due in addition to a basic rental. No repayments are to be made except from the percentage rental. The agreement provides that the loan is granted specifically to finance construction costs. If this amount is received by a lessor without restriction, and subject to repayment from future rentals, the Service would be likely to treat it as an advance rental taxable to the lessor in the year received. Although a limited deferral of some prepaid income items by an accrual basis taxpayer is allowed, the deferment of prepaid rent is not permitted. If the amount is treated as a loan, the lessor would report rental income each year to the extent that the loan is reduced by offsetting percentage rental. To the extent that the lessor has not repaid the loan at the termination of the lease, it would realize debt cancellation income.

The owner's costs of construction are recovered over the recovery period of the improvement, regardless of the length of the term of the lease. The provisions of this agreement are guaranteed by the individual shareholders of the lessee corporation.

FORM

AGREEMENT executed this _____[day] day of _____[month], _____[year], by the Smith Construction Company, a California corporation (the "Company"); Southwest Restaurant, Inc., a California corporation (the "Restaurant"); and Howard Parnell and James Thacher (the "Guarantors").

Recitals

The Company is the owner of a certain parcel of land, located on the westerly side of Hermosa Avenue in Los Angeles, California, the portion of that property which is material to this agreement having been examined by both the Restaurant and the Guarantors.

The Restaurant desires to lease from the Company a portion of that property, have the Company erect a building thereon, and conduct a restaurant business in such building.

The Guarantors are financially interested in the Restaurant and are becoming guarantors on the Restaurant's obligations for the purpose of inducing the Company to enter into this agreement.

This instrument contains all the various agreements between the Company, the Restaurant, and the Guarantors concerning this transaction.

Now, therefore, it is agreed as follows:

1. *Construction of improvement.* The Company shall construct on the premises hereinafter leased a one-story modern restaurant or coffee shop-type commercial building, containing approximately 4,500 square feet, substantially in accordance with the preliminary plans and specifications attached hereto and marked Exhibit A. The general quality of construction and appearance shall approximate the existing restaurant building known as Southwest Restaurant, located at 100 Bayview Avenue, Los Angeles. The building will include the following, whether or not shown in the preliminary plans and specifications: refrigerated air conditioning, exhaust system, ceiling fans, exterior window coverings, exterior lighting for the building and adjacent parking area, parking lot striping, bumper guards, asphalt covering the parking area, glazing, lighting fixtures, exterior and interior decorative masonry, tile, stone or ornamental wall treatment, acoustically treated ceilings, floor covering, distinctive type restaurant roof, exterior walls, if needed, and Kalman floor in kitchen area. The Company shall cause its architect to complete final plans and specifications with due diligence upon the execution of this agreement. Upon completion of the final plans and specifications, together with any modifications or amendments, they shall be approved by the Company and by the Restaurant. If there are any changes of substance from the preliminary plans and specifications, and either the Company or the Restaurant refuses to approve such changes in the final plans and specifications, the Company and the Restaurant shall submit immediately the resolution of such changes to arbitration, and shall share equally the costs of arbitration, and shall be bound by the decision of the arbitrator or arbitrators appointed. The rules and regulations of the American Arbitration Association shall govern the appointment of any arbitrator or arbitrators required and any hearing or decision with respect to the changes. Upon approval of the final plans and specifications by the Company and the Restaurant, the Company shall immediately commence construction of the improvements on the property described in Paragraph 5 in accordance with the final plans and specifications and shall proceed diligently to complete the same.

2. *Landscaping.* The Company shall provide exterior landscaping on the premises substantially in accordance with the preliminary plans and specifications attached hereto and marked Exhibit B. However, the Company's obligation for landscaping shall be limited to \$30,000. If the cost of landscaping shall exceed \$30,000, the Restaurant shall have the option either to pay the excess or to curtail the amount of landscaping so that the total cost thereof does not exceed

\$30,000.

3. *Installation of trade fixtures.* In order to facilitate the early occupancy and commercial use of the building by the Restaurant, the Restaurant shall have the right to install its trade fixtures during the course of the construction of the building, so long as such installation does not unreasonably interfere with the progress of the construction work. However, during the course of the installation, the Restaurant shall be liable for all loss, damage, or other liability arising from the installation.

4. *Loan from tenant to landlord.* To assist in financing the construction of the building, the Restaurant shall loan the Company the sum of \$450,000, together with an amount equal to the Company's expenditures for landscaping as provided in Paragraph 2 (the "loan"), without interest. The Company acknowledges receipt of \$30,000 of the loan simultaneously with the execution of this agreement. The Restaurant will loan the remaining \$420,000 to the Company at the time the actual construction of the improvement is commenced. For this purpose, actual construction will be deemed to have been commenced at the time when the first contract for actual construction work is executed by the Company if the Company and the Restaurant have approved the final plans and specifications, or any dispute between the Restaurant and the Company with respect to the final plans and specifications has been finally resolved and determined by arbitration. If the building is not completed by the Company within 12 months after the approval of the final plans and specifications, and if the completion is not delayed by strike, Act of God, or war, then the loan will be repaid 12 months after the approval. If the building is completed by the Company within 12 months after the approval of the final plans and specifications, (exclusive of delays caused by strike, Act of God, or war), the loan shall be repaid in the manner provided in subparagraph 9(f) and solely from the percentage rent provided for in subparagraph 8(d). The obligation of the Company to repay the loan shall be limited to the amount of percentage rent due under subparagraph 8(d), and if the percentage rent due the Company under the terms of this lease is insufficient to repay the loan, there will be no obligation of the Company to make any further repayment.

5. *Lease.* The Company hereby leases to the Restaurant that certain property situated in the City and County of Los Angeles, State of California, described as follows (the "premises"):

(Insert description)

6. *Term of lease.* The property is leased for a term ending on _____[date], and commencing on the earliest of the following dates:

(a) Forty-five days after the filing for record of a notice of completion of the building. The Company shall not file a notice of completion until such time as the building has been constructed and completed in accordance with the final plans and specifications.

(b) Seven days after the date of issuance by the proper city authorities of a certificate of occupancy for the building.

(c) The day upon which the Restaurant commences doing business as a restaurant in the building.

(d) _____[date].

If the building has not been completed and the notice of completion filed within 12 months after the approval of the plans and specifications, the Restaurant shall have the right to terminate this lease upon 30 days' notice to the Company, unless construction is delayed by strikes, Acts of God, or war. If the building has not been completed in accordance with the final plans and specifications on or before _____[date], the Restaurant shall have the right to terminate this lease upon 15 days' written notice to the Company, and the Company shall, at the expiration of the 15-day period, refund and repay to the Restaurant, forthwith, any moneys advanced or loaned to the Company by the Restaurant. The right of termination on the part of the Restaurant shall inure to the Restaurant, regardless of strikes,

Acts of God, or war, or other delays in the construction of the building.

7. *Options to renew.* If, at the end of the initial term of the lease, the Restaurant is not in default in any of its obligations imposed in the lease, the Restaurant shall have the right to extend the term of the lease for an additional five-year term at the rental provided for in Paragraph 8, payable in a like manner, and subject to all the remaining terms contained in the lease. The Restaurant shall exercise this first option by giving the Company notice of its intention to do so at least one year prior to the expiration of the original term. If the Restaurant has exercised the right to extend the term, and at the end thereof is not in default in any of its obligations imposed in the lease, it shall have the additional right to extend the term of the lease for an additional five-year term beyond the end of the first extension at the rental provided for in Paragraph 8, payable in a like manner, and subject to all the remaining terms contained in the lease. The Restaurant shall exercise this second option by giving the Company notice of its intention to do so at least one year prior to the expiration of the first five-year extension. If the Restaurant has exercised both of the foregoing rights to extend the term, and at the end thereof is not in default in any of its obligations imposed in the lease, it shall have the additional right to extend the term of the lease for an additional five-year term beyond the end of the second extension at the rental provided for in Paragraph 8, payable in a like manner, and subject to all the remaining terms contained in the lease. The Restaurant shall exercise this third option by giving the Company notice of its intention to do so at least one year prior to the expiration of the second five-year extension.

8. *Rent.* The rent and additional rent for the premises shall be the following:

(a) The Restaurant shall pay to the Company in advance on the first day of each and every month of the term a minimum rent for the demised premises computed as follows:

[Insert rent schedule]

The first month's rent shall be prorated for the actual number of days between the commencement of the term and the end of the first calendar month thereafter.

(b) As additional rent, the Restaurant shall pay all real estate taxes assessed against the demised premises before the taxes become delinquent. For the first year of the term, the amount of the taxes which will be paid as additional rent shall be equitably prorated between the Company and the Restaurant.

(c) As additional rent, the Restaurant shall provide and pay premiums on a fire insurance policy with extended coverage endorsement with an insurer in an amount satisfactory to the Company covering the demised premises. The amount of insurance shall be not less than the replacement value of the building and improvements at all times. The policy shall show the Company as a beneficiary. The Restaurant shall, from time to time, deposit with the Company, in duplicate, a certificate of the insurance carrier as to each policy of insurance.

(d) The Restaurant shall pay to the Company additional annual rent computed as follows:

(1) 6 percent of the gross annual receipts derived by the Restaurant from the operation of the business on the demised premises.

(2) Minus the minimum rent as provided for in subparagraph (a).

(3) Minus the amount of real property taxes assessed against the demised premises and paid by the Restaurant as provided in subparagraph (b), and

(4) Minus the premiums on the fire and extended coverage insurance paid by the Restaurant as provided in subparagraph (c).

9. *Provisions relating to additional rent.* With respect to additional rents required to be paid under Paragraph 8, the following shall apply:

(a) "Gross receipts" shall mean the gross amount received by the Restaurant from all sales and services from the operation of the business upon the demised premises (except receipts from the sale of tobaccos, candies, postcards, and stamps) both for cash and on credit, and in case of sales on credit, whether or not payment is actually made therefor. It shall include all receipts received by the Restaurant for merchandise sold pursuant to orders received on the demised premises although filled elsewhere. The amount collected on behalf of the State of California and the County of Los Angeles and representing California and County sales tax shall not be deemed to be receipts for this purpose.

(b) The Restaurant shall keep full, complete, and proper books, records, and accounts of its gross receipts. The books, accounts, and records, including any sales tax reports that the Restaurant may be required to furnish to any governmental agency, shall at all reasonable times be open to the inspection of the Company and any of its authorized agents.

(c) Within ten days after the end of each calendar month, commencing with the first month after the beginning of the term, the Restaurant shall furnish the Company with a statement, certified by an officer of the Restaurant to be correct, which shall set forth the gross receipts received by the Restaurant for the preceding calendar month. Annually, the Restaurant shall furnish the Company with an audit of the Restaurant's business for the preceding year certified by a Certified Public Accountant. The Company may, once in any calendar year, cause an audit of the Restaurant's business to be made by an accountant of the Company's own selection. If the statement of gross sales previously made by the Restaurant to the Company shall be found to be less than 97 percent of the amount of the Restaurant's gross sales, shown by such an audit, the Restaurant shall immediately pay the cost of the audit as well as the additional rent shown to be payable. Otherwise, the cost of the audit shall be paid by the Company.

(d) Acceptance by the Company of moneys from the Restaurant as additional rent shall not be an admission of the accuracy or sufficiency of the amount of the additional rent payment. The Company may, at any time within two years after the receipt of any additional rent payment, question the sufficiency and accuracy of the amount thereof. The Restaurant shall, for a period of two years after payment to the Company of any additional rent, keep safe and intact all of the Restaurant's records, books, and accounts which bear upon or are required to establish the Restaurant's gross sales, and shall make the same available to the Company upon the Company's request at any time during the two-year period.

(e) For purposes of this paragraph, the crediting of rent on the unpaid balance of the loan shall be deemed to be receipt and acceptance of the additional rent.

(f) The additional rent required by Paragraph 8(d) shall be computed annually and shall be paid on or before the 15th day of January in each successive year. Until the loan is repaid in full, the additional rent provided for in Paragraph 8(d) shall be paid by crediting the amount thereof to the unpaid balance of the loan and notifying the Company of the amount of the credit. When the loan has been paid in full, the additional rent provided for in Paragraph 8(d) shall be paid by the Restaurant to the Company at the Company's offices.

10. *Use of premises.* The Restaurant shall use the premises only for the purpose of conducting a restaurant or coffee shop business together with other uses normally and customarily incident to the operation of a restaurant or coffee shop. The Restaurant shall not sell alcoholic beverages (except beer and wine if licensed) upon the premises.

The Restaurant shall only use the premises in a manner consistent with the certification of the building by the U.S. Green Building Council LEED rating system, and in accordance with the Company's sustainability policies or practices adopted by Company from time to time. All such policies and practices shall be made known to Restaurant in writing.

11. *Compliance with law.* The Restaurant shall comply with all federal, state, or municipal laws, ordinances and regulations dealing with the use of the premises, and will save the Company harmless from any damage, penalty, or charge imposed or incurred for the violation of any such laws, ordinances, or regulations, whether occasioned by the Restaurant, its agent, or any other person using or present upon the demised premises.

12. *Waste and quiet conduct.* The Restaurant shall not commit or suffer to be committed any waste or any nuisance upon the premises. The Restaurant shall keep the premises reasonably clean and free of trash, waste paper, and other litter.

13. *Conduct of business.* The Restaurant shall, during the entire term hereof, continuously conduct a restaurant business on the premises, and shall keep the premises open for business during each and every business day for the number of hours customary for businesses of a like character in the City of Los Angeles. The Restaurant shall operate such business with diligence and efficiency and in a like manner as comparable businesses in Los Angeles so as to produce all the gross sales which may reasonably be produced by such a restaurant.

14. *Utilities and services.* The Restaurant shall, throughout the term of this lease, pay for all electricity, gas, water, and every other service, commodity, or article which may be furnished and supplied to it or to the premises.

15. *Personal property taxes.* The Restaurant shall pay all personal property taxes levied against personal property of any kind or nature located on the premises.

16. *Alterations and improvements.* The Restaurant shall make no structural alterations or structural improvements upon the premises without first having secured the written approval of the Company.

17. *Repairs.* The Restaurant shall, throughout the term of the lease, at its own expense keep the building to be erected on the premises and the pavement surrounding the building in good repair at all times. At the end of the term, the Restaurant will return the building and the premises to the Company in good repair, reasonable wear and tear and damage by fire, acts of God, and war excepted. The Restaurant acknowledges that the Company's obligation to repair the premises is limited to that set forth in Paragraph 39.

18. *Mechanic's liens.* The Restaurant shall not permit any mechanic's, materialman's, contractor's, or subcontractor's liens arising from any construction work, repair, restoration, or removal or any other claims or demands to be enforced against the premises or any part thereof. The Company shall have the right at any time to post and maintain upon the premises such notices as may be necessary to protect the Company against liability for all such liens or otherwise. The Restaurant shall give the Company prior notice of the start of any work or the delivery of any materials connected with any such work of construction, repair, restoration, or removal occurring after the commencement of the term of the lease.

19. *Trade fixtures and equipment.* The Restaurant shall provide, at its own expense, all restaurant and kitchen equipment, including but not limited to booths, stools, counters, refrigeration equipment, stoves, stainless steel equipment, dishwasher, food preparation equipment, tables, and chairs. The Restaurant shall install or cause to be installed all such equipment in such position as it desires. The Company shall make at its expense all initial electrical and plumbing connections. Thereafter, changes in the electrical and plumbing connections will be at the expense of the Restaurant.

20. *Security agreement.* The Restaurant may finance the purchase of the restaurant fixtures and equipment installed in the premises by the execution of a security agreement. Except for such a purchase money security agreement, the Restaurant shall permit no liens or encumbrances to be levied or placed against the trade fixtures and equipment, except for that provided in Paragraph 37.

21. *Landlord's right to enter.* The Restaurant shall permit the Company at all reasonable times during the period of the lease to enter upon the premises for the purpose of inspecting them, or making repairs as provided in Paragraph 39, or of posting notices of non-liability for alterations, additions, or repairs. The Restaurant shall permit the Company, at any time, within 30 days prior to the expiration of the lease to place upon the demised premises any usual or ordinary "To Let" or "To Lease" signs.

22. *Indemnification of landlord.* The Restaurant shall indemnify the Company and hold it harmless from damage by reason of the death of or injuries sustained by or property damage suffered by any person on the premises, or the street or sidewalk adjacent thereto in any manner whatsoever. If the Company is made a party to any litigation on account of any such damage or alleged damage, the Restaurant shall pay all damage and costs recovered against the Company. Such damage and costs shall be due forthwith after notice thereof from the Company. The Restaurant shall also pay to the Company all reasonable attorneys' fees and other expenses which the Company may incur in connection with such litigation or threatened litigation, provided that the Company retains for such purpose, such attorney as may be recommended by the Restaurant. If the Company elects to have its own attorney defend any action which may be brought against it by reason of any matter covered by this paragraph, the Company shall pay for the same, and the Restaurant shall have no liability with respect to such attorneys' fee. The Restaurant's liability shall not be released or affected if the Company elects to have its own attorney defend any action which may be brought against it by reason of any matter covered by this paragraph.

23. *Public liability insurance.* The Restaurant shall carry with an insurer satisfactory to the Company a comprehensive public liability insurance policy with insurance limits of not less than \$1,000,000/\$3,000,000. The Restaurant will name the Company as an additional insured under the policy and will pay all premiums.

24. *No assignment.* The Restaurant shall not assign the lease or any interest in it, and shall not sublet the premises or any part thereof, or permit another person to occupy or use the premises or any portion thereof without the written consent of the Company. No purported encumbrance, assignment, or transfer of any right or interest in the lease, whether voluntary or involuntary, by operation of law, under legal process, in bankruptcy, or otherwise shall be valid or effective without the prior written consent and approval of the Company. The consent to one assignment, subletting, occupation or use by another person shall not be deemed to be a consent to any subsequent assignment, subletting, occupation, or use by another person.

25. *Signs.* The Restaurant shall not place any sign or signs of any kind on the premises without the Company's prior written approval.

26. *Surrender.* Upon the last day of the term (as extended, if extended) or sooner termination of the lease, the Restaurant shall surrender to the Company all of the premises, including the building in the same condition as when received, reasonable use and wear thereof and damage by fire, Act of God, or war excepted; and the Restaurant shall remove all of its signs from the premises.

27. *Abandonment of premises; trade fixtures.* The Restaurant shall not vacate or abandon the premises at any time during the term. If the Restaurant does abandon, vacate, or surrender the premises or is dispossessed by process of law or otherwise, any personal property belonging to the Restaurant and left on the premises shall be deemed to be abandoned at the option of the Company, except such property in which the Company has a security interest.

28. *Right to lease.* The Company warrants to the Restaurant that the Company has the right to enter into the lease containing the terms and conditions set forth herein.

29. *Other restaurants.* The Company shall not permit the operation of a public eating establishment other than that operated by the Restaurant upon any of the property now owned by the Company on the westerly side of Hermosa

Avenue in Los Angeles, California without the prior written approval of the Restaurant. This shall not preclude the operation by any tenant of such property of a lunchroom, cafeteria, or other similar eating facility for the sole use and benefit of its own employees and their guests.

30. *Quiet possession.* The Company warrants that the Restaurant shall have quiet possession of the premises during the term of this lease, subject however, to the right of forfeiture and reentry in the event of the Restaurant's failure to perform its covenants and conditions under the lease.

31. *Default by tenant.* Each of the following shall be deemed to be both a default by the Restaurant and a breach of the lease:

(a) A default in the payment of the rent or any part thereof for a period of ten days, after the Company gives to the Restaurant written notice of such default.

(b) A default in the performance of any other covenant or condition of the lease by the Restaurant for a period greater than that reasonably required to cure such default by diligent action after the giving of written notice thereof by the Company to the Restaurant.

(c) The appointment of a receiver, custodian or trustee to take possession of all or substantially all of the assets of the Restaurant.

(d) The general assignment by the Restaurant for the benefit of creditors.

(e) The dissolution or the commencement of any action for the dissolution or liquidation of the Restaurant.

(f) The inability of the Restaurant to meet its obligations as they fall due, or any action taken or suffered by the Restaurant under any insolvency or bankruptcy act.

32. *Landlord's right to cure tenant's default.* In the event of any breach under the lease by the Restaurant, the Company may immediately or at any time thereafter without notice cure the breach for the account and at the expense of the Restaurant. If the Company at any time by reason of such breach is compelled or elects to pay any sum of money or incurs any expenses, including reasonable attorneys' fees, in instituting, prosecuting, or defending any action to enforce or protect the Company's rights, the sum and expenses, together with interest, costs, and damages, shall be deemed to be additional rent and shall be due from the Restaurant to the Company on the first day of the month following the Company's payment of such sums or expenses.

33. *Landlord's remedies.* The remedies of the Company for any default by the Restaurant shall include the following:

(a) Upon any default by the Restaurant, and at any time thereafter, the Company may give written notice to the Restaurant that the Company elects to terminate the lease upon a specified date not less than five days after the mailing of such notice. The lease shall then expire on the date so specified.

(b) Upon any default by the Restaurant, or if, during the term (or any extension) the premises are abandoned by the Restaurant or become vacant, the Company may immediately or any time thereafter reenter and resume possession of the premises. The Company may remove all persons and property from the premises and may store the property in a public warehouse or elsewhere at the expense and for the account of the Restaurant, and without liability for any damages on account of such removal. The Company's reentry shall not be deemed either an acceptance of a surrender of the lease or termination thereof.

(c) If the Company shall reenter the demised premises under subparagraph (b) or take possession pursuant to legal

proceedings or pursuant to any notice provided for by law, the Company may, without terminating the lease, relet the demised premises or any part thereof. Such reletting may be for such term or terms, including a term extending beyond the term of the lease, at such rental, for such use, and upon such other terms and conditions (including the right to make alterations and repairs) as the Company in its sole discretion may deem advisable. Upon such reletting, at the option of the Company:

(1) Either the Restaurant shall be immediately liable to pay to the Company, in addition to any indebtedness other than rent due hereunder, the amount by which the rent reserved under this lease for the period of reletting (up to the end of the term of this lease) exceeds the cost and expenses of such reletting and the alterations and repairs incurred by the Company; or

(2) The Company may apply rents from such reletting first to the payment of any indebtedness other than rent due hereunder from the Restaurant to the Company; second, to the payment of any costs and expenses of such reletting and of such alterations and repairs; third, to the payment of rent due and unpaid hereunder; and the remainder, if any, shall be held by the Company and applied in payment of future rent as the same may become due and payable hereunder.

If the Restaurant has been credited with any rent to be received by reletting under option (1), and rent is not promptly paid to the Company by the new tenant, or if rentals received from reletting under option (2) during any month are less than that to be paid during that month by the Restaurant, the Restaurant shall pay any such deficiency to the Company. Each deficiency shall be calculated and paid monthly. Notwithstanding any reletting without termination, the Company may at any time thereafter elect to terminate the lease for the previous breach. Should the Company at any time terminate this lease for any breach, the Company may recover from the Restaurant all damages the Company may incur by reason of such breach, including the cost of recovering the premises, and including the worth at the time of such termination of the excess, if any, of the amount of rent and charges equivalent to rent in the lease for the remainder of the stated term over the then reasonable rental value of the demised premises for the remainder of the stated term, all of which amounts shall be immediately due and payable from the Restaurant to the Company.

34. *Attorneys' fees.* If action shall be brought to recover the premises or for the recovery of any rent due under the provisions of the lease or because of the breach of any of the Restaurant's other covenants in the lease, the Restaurant shall pay to the Company reasonable attorneys' fees which shall be fixed by the court. If action is brought by either party under the lease, or by reason of any claim or cause of action against the other party, arising out of or in connection with this lease, the successful party in any such action shall be entitled to reasonable attorneys' fees, which shall be fixed by the court.

35. *Waiver.* The waiver by the Company of any breach of any term, covenant, or condition herein shall not be deemed to be a waiver of such term, covenant, or condition or any subsequent breach, or of any term, covenant, or condition. The subsequent acceptance of rent by the Company shall not be deemed to be a waiver of any preceding breach by the Restaurant of any term, covenant, or condition other than the failure of the Restaurant to pay the particular rent so accepted, regardless of the Company's knowledge of such preceding breach at the time the Company accepts such rent.

36. *Remedies cumulative.* The rights given to the Company herein are in addition to any rights which may be given to the Company by statute or otherwise.

37. *Security.* The Restaurant shall secure the performance of its agreements under this lease by the execution of a security agreement upon all of its trade fixtures and equipment to the Company. The Company shall subordinate its security interest to any purchase money security interest executed by the Restaurant to finance the purchase of fixtures as provided in Paragraph 20 and the Company shall execute any and all instruments necessary to effect such subordination. The Restaurant has no obligation to purchase signs or ice machines, but may lease these from suppliers.

38. *Guarantors' undertaking.* The Guarantors jointly and severally guarantee the faithful performance of all the

agreements made by the Restaurant hereunder. Whenever the security interest or interests described in Paragraph 20, covering all trade fixtures and equipment installed upon the demised premises (except signs and ice machines which are leased by the Restaurant), become security interests that are first in priority and the complete beneficial title to all property included in such security interests is vested in the Restaurant free and clear of all liens and encumbrances except the security interests running in favor of the Company, then the personal guaranty and liability of the Guarantors hereunder shall cease.

39. Damage or destruction of premises. (a) If the building to be built in accordance with Paragraph 1 shall, by reason of fire or other unavoidable casualty, is destroyed or damaged to such an extent that the cost of restoring or repairing the same would amount to 50 percent or more of its total value immediately prior to the destruction or damage, and the destruction or damage occurs

(1) prior to _____[date]; or

(2) prior to _____[date], and the Restaurant has exercised its first option to extend under Paragraph 7; or

(3) between _____[date], and _____[date], inclusive and the Restaurant gives to the Company within 30 days after such destruction or damage written notice of its exercise of the second option to extend under Paragraph 7; or

(4) prior to _____[date], and the Restaurant has exercised its second option to extend under Paragraph 7; or

(5) between _____[date], and _____[date], inclusive, and the Restaurant gives to the Company within 30 days after such destruction or damage written notice of its exercise of the third option to extend under Paragraph 7,

the Restaurant shall give to the Company immediate notice of the destruction or damage and the Company shall thereupon, at its own expense, cause such damage to be repaired, so that the building shall be in as good a condition as immediately prior to the fire or other unavoidable casualty. If the damage shall be so extensive as to interfere with the conduct of the Restaurant's business in the demised premises, there shall be a just and proportionate abatement of the rent until such time as the damage is repaired. If the destruction or damage occurs under any circumstance not above provided for then this lease shall be terminated as of the date of the destruction or damage, and the Company and the Restaurant shall be freed of and from all obligation hereunder with respect to anything arising thereafter.

(b) If the building shall be damaged by fire or other unavoidable casualty, at the time during the term of the lease, but not to the extent mentioned in subparagraph (a) the Restaurant shall give immediate notice to the Company and the Company shall thereupon, at its own expense, cause the damage to be repaired, so that the demised premises shall be in as good condition as immediately prior to the fire or other unavoidable casualty, and if the damage shall be so extensive as to interfere with the conduct of the Restaurant's business in the demised premises, there shall be a just and proportionate abatement of the rent until such time as the damage is repaired.

(c) In no event are trade fixtures to be considered any part of the building which the Company is obligated to repair under this paragraph. Restaurant shall insure, repair and replace its trade fixtures at its sole expense. All trade fixtures visible to the public shall be maintained in good condition at all times.

40. Condemnation. If, at any time, during the term of the lease the premises or any part thereof are taken or condemned by public authority, then the leasehold estate and interest of the Restaurant in the part of the demised premises taken shall forthwith cease and terminate. All compensation awarded by reason of the taking of the leased land and

improvements shall be payable to and be the sole property of the Company. All compensation awarded by reason of the taking of any fixture or for the value of the restaurant business as a going business (i.e., goodwill) shall be payable to and be the sole property of the Restaurant. If less than one-half of that portion of the premises described in Paragraph 5 shall be taken or condemned, the Company shall forthwith repair any damage to the building, if taken, or substitute another building and the lease shall continue and the rent thereafter payable for the rest of the term shall be reduced in the proportion that the area of land so taken shall bear to the remainder of the area described in Paragraph 5. If more than one-half of that part of the premises described in Paragraph 5 is taken or condemned, the Company or the Restaurant shall have the option to terminate this lease.

41. *Notices.* All notices required to be given to the Company shall be given by mailing the same by registered or certified mail, return receipt requested, addressed to:

Smith Construction Company

5000 Wilshire Boulevard Los Angeles California.

All notices required to be given to the Restaurant shall be given by mailing the same by registered or certified mail, return receipt requested, addressed to:

Southwest Restaurant, Inc.

100 National Bank Building
Beverly Hills, California.

All notices required to be given to the Guarantors shall be given by mailing the same by registered or certified mail, return receipt requested, addressed to:

Howard Parnell, 400 Central Avenue,

North Hollywood, California.
James Thacher, 600 Taft Street, Los Angeles California.

Any party may from time to time give the others written notice of a change in the address to which notices are to be sent.

42. *Time.* Time is of the essence in this agreement.

43. *Binding on successors.* The covenants and conditions herein contained shall, subject to the provisions as to assignment, apply to and bind the heirs, successors, and assigns of all the parties. All of the parties shall be jointly and severally liable hereunder.

Witness the following signatures and seals.

Part IV. FORMS
C. PLANNING AND CONSTRUCTION

26-22 Current Legal Forms for Real Estate FORM 22.50

FORM 22.50 Contract by lessee to construct building--lessor to approve plans and construction--demolition by lessee

COMMENT

A lease arrangement which contemplates the construction of an improvement by the lessee to be conveyed to the lessor upon termination of the lease offers attractions to both parties. The lessor obtains periodic income plus the eventual tax-free acquisition of the improvement. The lessee obtains possession of land for development for less than the cost of a fee interest, with periodic tax deductions for rent.

Construction agreement.

In this transaction, two documents encompass the contractual arrangements between the parties. One is the lease of the property. The other, illustrated in this form, is the agreement requiring the tenant to construct the improvement. The purpose, as in all other construction agreements, is to define precisely the improvements to be constructed and the various details relating to their financing and completion. The lessor reserves the right to approve plans for the construction and all work performed pursuant to those plans. Deadlines are established for completing the various stages of the project. The lessee is to deliver a bond for faithful performance and payment.

Lessee improvements are not lessor income.

Improvements constructed by the lessee do not constitute income to the lessor, either while the lessee is in possession under the lease, or when the lessor acquires the improvements upon the termination of the lease. These exclusions from gross income do not apply, however, when either the construction or the conveyance is in lieu of rental obligations.

FORM

AGREEMENT made this _____ [day] day of _____ [month], _____ [year], between Madison Realty Corporation, a New York corporation, having its principal office at 500 Fifth Avenue, New York, New York (the "Landlord"), and Third Avenue Corporation, a New York corporation, having its principal office at 100 Broadway, New York, New York (the "Tenant").

Recitals

The Tenant has by agreement of lease (the "Lease"), bearing even date and to be delivered simultaneously herewith, taken and hired from the Landlord certain real property (the "Premises"), and

The Tenant wishes to construct within the Premises certain buildings and structures for the purposes described in the Lease (the "Building"), and

The parties desire by this agreement to provide for the construction by the Tenant of the Building upon the Premises,

Now, therefore, the Landlord and the Tenant agree as follows:

1. *Plans and specifications.* The Tenant shall no later than four months from the delivery of the Lease cause an architect (the "Architect"), satisfactory to the Landlord to prepare plans and specifications (the "Plans and Specifications"), for the project, which shall include for consideration any green building alternatives for consideration by Landlord. The term "project" includes all work to be performed on the Premises pursuant to this agreement, including, but not limited to, any work of demolition, construction, or relocation and whether or not the work is embodied in the Plans and Specifications. The Plans and Specifications shall conform to the requirements of governmental bodies having jurisdiction over the project. Before any work is begun on the project, the Plans and Specifications, and every modification, shall be approved in writing by the chief engineer (the "Engineer of Landlord"), and such approval shall not be unreasonably withheld. Two copies of the Plans and Specifications shall be furnished to the Landlord by the Architect promptly after their preparation and upon completion of the project. One copy of all original design, contract, detail, and shop drawings, together with one copy of the reproducible Plans and Specifications corrected by the Tenant for work as built, shall be delivered to the Landlord. If the Lease is terminated for any reason before completion of the project, the Tenant shall deliver to the Landlord copies of all plans, reports, estimates, and models.

2. *Construction.* If any demolition within the Premises is required prior to or during construction of the Building, the Tenant, at its own cost and expense, shall commence and complete the demolition in a manner satisfactory to governmental bodies having jurisdiction over the demolition and in accordance with such reasonable regulations and requirements as the Engineer may impose. Unless prevented by a change in any statute or ordinance or by any cause beyond the control of the Tenant, but in no event later than one year from the delivery of the Lease, the Tenant, at its own cost and expense and in accordance with the Plans and Specifications as approved in writing by the Engineer shall proceed to construct or cause to be constructed the Building. All construction work shall be done in a good and workmanlike manner and shall at all times be subject to inspection by and approval of the Architect and the Engineer and all work shall be done in accordance with the Plans and Specifications and in accordance with the requirements of governmental bodies having jurisdiction, including all sustainability requirements of the governmental jurisdiction which shall include for consideration any green building alternatives. The materials used shall be approved by the Architect and the Engineer and shall meet the requirements of all governmental bodies having jurisdiction, including all sustainability requirements of the governmental jurisdiction.

In the event that asbestos is found, Tenant shall consult with a qualified asbestos consultant who is licensed by the State

of New York to remove asbestos. Said consultant shall be asked to make a recommendation as to whether the asbestos should be removed or contained. Tenant, at its sole expense, shall engage a licensed asbestos handler to perform the recommended work. All work shall be performed in full compliance with the New York State Labor Law and regulations promulgated thereunder. The asbestos handler shall procure insurance covering all risks to person and property in at least the amount of \$1 million. Landlord and Tenant shall be named as additional insureds under the policy or policies. A certificate evidencing the existence of such insurance shall be provided to Landlord by Tenant prior to the commencement of any work.

All removal or containment plans shall be subject to review and written approval by Landlord, its architect or engineer prior to the commencement of work. Approval shall not be unreasonably withheld.

3. *Violations.* In case of the filing of a notice of violation of any applicable rule or regulation, the Tenant, at its own cost and expense, shall cause the cancellation of the notice of violation and shall obtain all certificates required by governmental bodies in relation to completion and occupancy of the Building. The Tenant shall, however, have the right, in good faith and at its own expense, to contest the validity or legality of any notice of violation filed with respect to such work, and pending such contest actively conducted by the Tenant, the failure to comply with the requirements of the notice shall not be deemed a default of the Tenant's covenant, provided the Tenant shall have furnished the Landlord indemnity in form and substance reasonably satisfactory to the Landlord protecting against any loss by the Landlord by reason of the failure to comply with the requirements of the notice.

4. *Indemnity.* The Tenant shall indemnify the Landlord and hold it harmless against any mechanics' or other liens, security agreements, or other encumbrances which may be imposed upon the Premises or any materials, fixtures, or articles used in the construction of the Building, and the Tenant shall bond, satisfy, or discharge all such liens, security agreements, and other encumbrances, and in the event of the Tenant's failure to do so, the Landlord may bond, satisfy, or discharge same and the cost of so doing shall be considered Additional Rent payable pursuant to the terms of the Lease ten days after receipt of a bill from the Landlord. Paragraph 5 of the Lease providing for the Tenant's indemnification of the Landlord shall apply to all phases of work, of whatever description, relating to this Agreement or the project.

5. *Completion of project.* The Tenant shall construct the project and shall complete the same, in accordance with the Plans and Specifications free from any liens, and shall acquire certificates of occupancy for Building within two years after the delivery of the Lease. In the event of failure of the Tenant to complete the project within such time by reason of causes beyond the control of the Tenant or its subcontractors or licensees, the Tenant shall complete the project within a period after the completion date that is equal to the time the Tenant was delayed by the causes beyond its control; provided, however, that in no event shall the completion date be extended beyond a date which is three years after the delivery of the Lease. The project shall be completed when:

(a) The Architect shall certify to the Landlord in writing that the project has been completed in accordance with the Plans and Specifications and in accordance with this agreement;

(b) A certificate of occupancy shall have been duly issued by the Department of Housing and Buildings of the City of New York (or governmental body exercising comparable functions) for each structure of the project susceptible of occupancy; and

(c) No mechanics' lien or security agreement shall affect the Premises or any property located therein within four months after the issuance of the last of the certificates of occupancy mentioned in (b) above.

6. *Payment and performance bond.* Prior to the commencement of any demolition, construction, or other work upon the project, the Tenant shall execute and deliver to the Landlord a payment and performance bond or bonds, in form and substance satisfactory to the Landlord, in the total amount of \$3,000,000, with respect to the Building to be erected

upon the Demised Premises, with a surety or sureties approved by the Landlord conditioned upon the completion of the project pursuant to this agreement in accordance with the Plans and Specifications and within the time limited herein free and clear of all mechanics' liens or security agreements, and conditioned further upon the due and prompt payment by the Tenant of all sums required to construct and complete the Building pursuant to the Plans and Specifications. As an alternative to the above, the Landlord may accept such other security as the Tenant may provide which may be satisfactory in form and substance to the Landlord in the Landlord's sole discretion.

7. Assignments to landlord. The Tenant as additional security shall promptly deliver to the Landlord assignments of all financing commitments made to the Tenant with respect to the construction of the Building, together with the written consents of the respective lending institutions to such assignment, and an assignment of any leases or agreements to lease space in the Building, such assignments to take effect only upon the taking over by the Landlord of the work of construction pursuant to the provisions of Paragraph 8. The Landlord shall reassign to the Tenant the leases and agreements to lease upon the completion of the project by the Tenant pursuant to this agreement; provided, however, that the Landlord shall reassign any lease or agreement to lease space in the Building which the Tenant is required to assign to a lending institution in connection with obtaining a financing commitment made to the Tenant in relation to the project.

8. Failure to complete. Subject to the provisions of Paragraph 5, if the Tenant shall fail to prosecute any work required on the project or shall abandon such work before completion or shall fail to bond, satisfy, or discharge any lien or security agreement or shall fail to comply with any notice of a governmental body having jurisdiction, the Landlord may serve upon the Tenant a notice, in the manner provided for in the Lease, that the Landlord intends to take over the completion of the project, and within 60 days from the service of the notice, unless the default has been remedied, the Landlord may take over the work of construction. If the default cannot be cured within 60 days, the time within which the Tenant may cure shall be extended for a period reasonably necessary, provided the Tenant proceeds in good faith and with due diligence and deliberate speed to cure the same. In the event the Landlord intends to take over the work of construction, the Lease shall terminate ipso facto in the same manner and with the same effect as a termination pursuant to Paragraph 15 of the Lease, and the Landlord shall be entitled to exercise all rights under the payment and performance bond or other security and the sureties thereunder shall remain liable to the Landlord upon the bond or other security and the proceeds of the bond or other security shall be and become the property of the Landlord.

9. Remedies. Any breach of this agreement shall constitute a breach of the Lease, and the Landlord may exercise any rights pursuant to the Lease in the event of a breach hereunder. All rights and remedies of the Landlord hereunder are separate, distinct, and cumulative and in addition to, and not in substitution of or waiver of, any other rights or remedies of the Landlord contained either in this agreement or the Lease.

The parties have caused the execution of this agreement the day and year first above written.

Part IV. FORMS
C. PLANNING AND CONSTRUCTION

26-22 Current Legal Forms for Real Estate FORM 22.51

FORM 22.51 Urban renewal project--sale of land by municipal agency--improvement by purchaser in accordance with redevelopment plan

COMMENT

Public redevelopment programs involving the purchase of land and construction of improvements by private developers are generally organized under state or municipal laws, which provide for detailed regulation of the activities of the developer in order to insure that the intended public improvement is accomplished. Consequently, the contents of an agreement for the acquisition of property for redevelopment are to a large extent dependent upon the requirements of the applicable statutes and underlying regulations. The developer is likely to be considerably circumscribed in the use of land acquired from a public agency and in his construction procedures.

Agency responsibilities.

Under this agreement the public agency, which has undertaken a broad urban renewal project, agrees to sell part of its property on condition that the purchaser (the developer) improve that portion in accordance with the municipality's redevelopment plan. At no cost to the developer and prior to the transfer of title, the public agency is to prepare the property for the construction program. This includes the demolition of existing structures, and the filling, grading, and leveling of the land. After construction has begun and before its completion, the public agency is to pave streets, provide street lighting, install sewers, drains, and water lines, and set up or relocate all other public utility appurtenances.

Developer responsibilities.

Before the developer can acquire title to the property, the developer is required to submit for the agency's approval construction and design plans in sufficient detail to show that the improvements

will conform to the redevelopment plan and when constructed, meet the requirements necessary to be certified as LEED Certified as set by the U.S. Green Building Council. In addition, the developer must satisfy the agency that the developer has the financial strength to complete the improvements. As soon as title is transferred, the developer must begin construction. The project must be completed within a prescribed time. In the interval the developer is required periodically to make detailed progress reports to the agency.

Transfer restrictions.

Any assignment of the land or any transfer of ownership in the developer prior to completion of the improvements is subject to the approval of the agency. A proposed transferee must agree to complete the project and must establish its capacity to do so. So that the developer will not obtain speculative profits from any sale of the property prior to completion of the improvements, the consideration received from a sale may not exceed the developer's cost of the land and cost of construction. The agency is authorized to increase the developer's purchase price to achieve this result.

Default and remedies.

The agreement contains elaborate provisions relating to possible defaults by the developer. These provisions take into account the rights of any mortgagee, the remedies available to the public agency, and the obligations of the public agency on any reacquisition of the property.

FORM

AGREEMENT entered into on _____ [date], between the Redevelopment Agency of the City of Bedford, together with any successor public agency designated by or pursuant to law (the "Agency"), a public body organized and appointed under the provisions of the General Statutes of the State of Connecticut, and Holz Development Corp. (the "Redeveloper").

Recitals

In furtherance of the objectives of the State Redevelopment and Urban Renewal Laws, the Agency has undertaken a program for the clearance and reconstruction of slum and blighted areas in the City of Bedford (the "City") in the area bounded as follows:

(Insert description)

The Agency has prepared, and the City, acting through the City Council, has approved a plan (the "Redevelopment Plan"), providing for the clearance, redevelopment, and future uses of the land comprising such area, a copy of which plan is attached as Exhibit A; and

In order to enable the Agency to achieve the objectives of the Redevelopment Plan, and particularly to make such land available, after acquisition and clearance by the Agency, for redevelopment by private enterprise in accordance with the uses specified in the Redevelopment Plan, both the federal government and the City have undertaken to provide, and have provided, substantial aid and assistance to the Agency through a Contract for Loan and Capital Grant in the case of the federal government, and two bond ordinances, in the case of the City; and

The Redeveloper has offered to purchase that part of the land described in Exhibit B attached hereto, (the "Property"), and to redevelop the Property in accordance with the Redevelopment Plan; and

The Redeveloper has deposited with the Agency the amount of \$150,000 as security for the performance of the obligations of the Redeveloper pursuant to this agreement, which deposit is to be retained by the Agency without obligation to pay interest thereon until completion of the improvements to be constructed; and

The Agency on the basis of the foregoing, and the undertakings of the Redeveloper pursuant to this agreement, is willing to sell the Property to the Redeveloper,

Now, therefore, it is agreed as follows:

1. *Purchase price.* Subject to all terms, covenants, and conditions of this agreement, the Agency will convey the Property to the Redeveloper for the purchase price of \$3,000,000. The purchase price will be paid in cash or certified check in the following installments, subject to adjustments resulting from the survey:

On or before _____ [date] \$300,000

On or before _____ [date] 1,500,000

On or before _____ [date] 600,000

On or before _____ [date] 600,000

2. *Restrictions on title.* The agency will convey marketable fee simple title to the Property to the Redeveloper by quitclaim deed. The conveyance and title, in addition to the conditions hereinafter provided for, shall be subject to easements necessary to the Redevelopment Plan, and which are more specifically described in the property description contained in the attached Exhibit B, and easements for sewers, drains, water, and gas distribution lines, electric, telephone, and telegraph installations, rights-of-way and access, and other public or private utilities and facilities, provided the easements shall not interfere with buildings or parking structures as set forth in the Redeveloper's Final Proposal.

3. *Conveyance of parcels.* The Agency will deliver the deed and possession of portions of property to the Redeveloper as described in the attached Exhibit C on the date specified by Exhibit C or earlier as agreed upon by the Agency and the Redeveloper. The Agency shall not be required to convey later scheduled parcels until title has been taken by the Redeveloper to the prior scheduled parcels, provided any delay in transfer of title is not caused by fault of the Agency. Each conveyance shall be made at the principal office of the Agency, at 128 State Street, Bedford, Connecticut. The Agency shall, prior to the transfer of possession or title, permit the Redeveloper to make soil boring and bearing tests and detailed surveying activities on property owned by the Agency, provided the work does not interfere with demolition or site improvement activities of the Agency or business use of any tenant in possession.

4. *Taxes and other expenses.* The Redeveloper shall be responsible for the following:

(a) A payment in lieu of taxes to the City from the date of transfer of title until the date it becomes responsible for taxes under normal assessing procedures. The payment shall be in an amount equal to the then current tax rate multiplied by the value of the land, excluding the value of preexisting improvements that have been demolished. For this purpose, the value of the land shall be an amount equal to the assessed value of the land as determined by the City Tax Assessor at the next regular assessment date following the recording of the deed, subject to appeal as provided by statute. The payment in lieu of taxes shall be payable to the City within 30 days after notice of the amount due. In computing the payment for the tax year in which the transfer of title occurred, the amount shall be prorated and apportioned as of the

date of closing.

(b) Recording of all documents pursuant to this transaction on the date of closing, and payment of recording costs.

(c) The costs of having the Property title searched for title insurance. The Agency through its counsel shall make available such information and evidence as it may have as to the condition of title to the Property for the use and benefit of the Redeveloper, its counsel, and title searchers. However, the responsibility of investigating title shall be upon the Redeveloper. The Agency makes no guarantees respecting title except that it will cooperate through its counsel in making available title notes and evidence.

5. *Agency's preparation of property.* The Agency shall, prior to the conveyance of the Property and without expense to the Redeveloper, prepare the Property for development by the Redeveloper. Such preparations shall consist of the following:

(a) Demolition and removal to grade of all existing buildings, structures, and nonnatural obstructions on the Property, including the removal of any debris resulting from demolition in accordance with the Agency's Demolition Contract, with the exception of trees, shrubs, and retaining walls which the Redeveloper has requested the Agency to retain and walls required for support of existing or planned improvements.

(b) Removal by the Agency or by appropriate public bodies or public utility companies of all paving, including curbs and gutters, sidewalks, and utility lines, installations, facilities, and related equipment, within or on the Property which are to be eliminated or removed pursuant to the Redevelopment Plan, except for items specifically requested to be retained by the Redeveloper.

(c) The filling, grading, and leveling of the land (but not including top soil, landscaping, or any natural outcropping of ledge or rock) necessary to make it ready for construction of the improvements by the Redeveloper, it being intended that such filling, grading, and leveling conform generally to the respective surface elevations of the land prior to demolition.

(d) The Agency shall fully inspect all areas for underground storage tanks. In the event that any such tanks are found, such tanks and any contaminated soil shall be removed and disposed of in strict compliance with all federal, state and local laws, rules and regulations.

The Redeveloper, at its own expense, shall be entitled to inspect and test all areas from which tanks and soil were removed. In the event that the Redeveloper believes that tanks and/or contaminated soil remain, it shall notify the Agency and provide the Agency with any written reports which it may possess. If the Agency fails to complete removal of all remaining tanks and/or contaminated soil within sixty (60) days after notification, the Redeveloper may terminate this agreement. The Redeveloper shall be entitled to a refund of all sums paid hereunder and shall have no further obligation under this agreement.

6. *Additional improvements by agency.* The Agency shall, without expense to the Redeveloper or public assessment against the Property, prior to the completion of the improvements by the Redeveloper and without impeding the progress of the construction of improvements by the Redeveloper, provide for the following:

(a) Paving and improving of streets in accordance with the usual technical specifications and standards of the City, including the installation of gutters, curbs, and catch basins; the removal of trees and shrubs; street lighting; sidewalks; and paving and improving public rights-of-way to be provided under the Redevelopment Plan.

(b) Installing and relocating sewers, drains, water and gas distribution lines, and electric, telephone, and telegraph installations to be installed or relocated under the Redevelopment Plan.

(c) Vacating present streets, alleys, other public rights-of-way, and plats, and dedicating new streets, alleys, other public rights-of-way in the project area and the rezoning of the area in accordance with the Redevelopment Plan; provided that the Redeveloper will, upon request by the Agency, subscribe to and join with the Agency in any petitions and proceedings required for such vacations, dedications, and rezoning.

7. Redeveloper's improvement plans. Plans and specifications and all work by the Redeveloper with respect to the Redevelopment of the Property and the construction of improvements shall be in conformity with the Redevelopment Plan and this agreement, and all applicable state and local laws and regulations, including all sustainability requirements. As promptly as possible after execution of this agreement, and, in any event, no later than the dates specified in Exhibit C, and as a condition precedent to the obligation of the Agency to convey the Property to the Redeveloper, the Redeveloper shall submit to the Agency, for approval by the Agency, plans (the "Construction Plans"), for the improvements to be constructed by the Redeveloper on the Property, in sufficient completeness and detail to show that the improvements and their construction will be in accordance with the provisions of the Redevelopment Plan, in substantial agreement with proposals made by the Redeveloper to the Agency, and designed to meet the requirements to be certified as LEED Certified as set by the U.S. Green Building Council. Redeveloper shall do all work necessary to apply for such certification by registering the Redevelopment Plan with a professional at the U.S. Green Building Council to track the progress of construction and document achievement levels required to obtain the LEED Certification. Each set of Construction Plans shall include the following:

(a) A landscaping plan showing approximate location and types of plantings, seeded areas, walkways, and the treatment plan for such. High-style outdoor furniture of concrete or other durable construction is permitted. Marine artifacts shall be constructed of durable material and placed in locations inconvenient to destruction. The plan shall include a cost estimate and item breakdown.

(b) A lighting plan demonstrating that all walkways, malls, parking areas, and other areas accessible to pedestrians during the hours of darkness will be adequately lighted to insure pedestrian safety. The plan will demonstrate the amount, placement, type, and construction of the lighting. Decorative metal or treated wood standards will be used.

(c) A safety plan demonstrating the location, size, and construction material to be used in all fencing. Chain link fencing will not be permitted. Sufficient safety precautions will be taken for residential promenade decks, pedestrian walks near parking and service areas, pedestrian overpasses, and parking decks. Attractive wrought iron, concrete, and metal are acceptable. Treated wood posts are also acceptable providing that railings between posts are of one of the materials.

(d) A vehicular traffic plan indicating traffic flows within the parcels and their relation to the proposed street patterns. The plan must be acceptable to the Agency's consulting engineer.

(e) A parking plan indicating the location of parking areas, the means of access and egress, and the placement of curbing. The construction plan accompanying the parking plan will demonstrate that all at grade parking will be paved with a durable surface of at least bituminous concrete, over a sufficient base to prevent differential settlement. All parking areas, including decked areas, will be properly drained, and all internal parcel and private road curbing will be constructed of granite or concrete; each parking space will have a minimum of 270 square feet which includes a portion for access and egress. Parking decks will be of concrete, and supports for the decks will be concrete or steel with a concrete protective covering or the combination of such. In addition, the parking plan will show the number of covered parking spaces in the residential section. The plan shall show the location of all open parking in the residential section (one per apartment), and the location of the 1500 free and convenient parking spaces to serve commercial structures.

(f) A recreation plan showing areas to be devoted, type of facilities to be included, supervision and policing to be provided. The motel to be constructed pursuant to subparagraph (h)(3) of this paragraph will contain a 1000-square-foot, indoor-outdoor swimming pool. A 25-yard, six-lane swimming pool and at least two regulation

composition or clay tennis courts will be provided in the housing area. Central television antennas and satellite dishes for each residential structure will be provided over the total residential area, and sufficient apartment television and telephone jacks will be placed in each apartment. The plan shall include a cost estimate and item breakdown.

(g) A pedestrian movement plan showing malls, walkways, and pedestrian bridges, to be constructed of concrete or some other equally durable and attractive construction. Pedestrian ramps and overpass bridges will be a minimum width of ten feet. The pedestrian walkway from the pedestrian bridge to the specialty shops shall have a minimum width of 50 feet and shall be broken up by permanent potted plants and shade trees, marine artifacts, brassed areas, outdoor furniture, and other landscaping and decorative items which will provide a pleasant setting. The pedestrian walkway adjacent to the specialty shops will have a minimum width of 15 feet and will be given a landscaping treatment similar to that given the 50-foot wide pedestrian walkway. Outdoor furniture, however, need not be included in the 15-foot walkway.

(h) Design plans which shall show, in addition to the usual elements of design plans, the following structures:

(1) A department-food store combination of not less than 125,000 square feet of floor space, with at least 100,000 square feet of floor space for the department store.

(2) An office building with at least 38,000 square feet of floor space, not less than three stories high.

(3) A motel of at least ten stories and 100 units in a separate tower structure with a connected restaurant of at least 12,500 square feet of floor space, containing conference-banquet facilities.

(4) A residential housing plan including 700 units.

(5) A utility plan indicating the type of utility, the proposed connections with existing utilities, and the underground location of all utility lines within the parcel.

Construction of all buildings will meet the specifications set forth in the attached Exhibit D.

8. *Prior approvals.* If the Construction Plans conform to the provisions of the Redevelopment Plan and proposals made by the Redeveloper, the Agency shall formally approve the plans, and no further filing by the Redeveloper or approval by the Agency shall be required. The plans shall, in any event, be deemed approved unless formal rejection thereof by the Agency, in full or in part, setting forth in detail the reasons therefor, shall be made within 45 days after their submission to the Agency. If the Agency rejects the Construction Plans in whole or in part as not being in conformity with the Redevelopment Plan, the Redeveloper shall submit new or corrected plans which are in conformity with the Redevelopment Plan within 45 days after written notification to it of the rejection, and the provisions of this section relating to approval, rejection, and resubmission of corrected Construction Plans for the original Construction Plans shall continue to apply until the Construction Plans have been approved by the Agency; provided that the Redeveloper submit satisfactory Construction Plans no later than 150 days after the original submission of Construction Plans. The term "improvements" means the improvements specified in the Construction Plans as so approved. The approval referred to in this paragraph shall be at the discretion of the Agency but shall not be unreasonably withheld.

As promptly as possible after approval by the Agency of the Construction Plans, and, in any event, no later than 30 days prior to the delivery of the deed and the possession date set forth in Exhibit C and as a condition precedent to the obligation of the Agency to convey the Property to the Redeveloper, the Redeveloper shall submit to the Agency, for approval by the Agency, evidence satisfactory to the Agency that the Redeveloper has the equity, capital, and commitments for mortgage financing necessary for the construction of the improvements.

9. *Performance of construction.* (a) The Redeveloper shall promptly begin and diligently perform to completion the

redevelopment of the Property, and shall begin construction within 60 days from the date of the deed. Construction shall be completed within 24 months from such date; provided that if a mortgage to finance the improvements, or any part thereof, is insured by the Federal Housing Administration, then the completion deadline shall not apply. In such case, the construction of such improvements or part thereof shall be completed within the time specified in the applicable building loan agreement approved by the Federal Housing Administration, but in any event within four years from the date of execution of the building loan agreement. The provisions of this subparagraph shall be included in the deed, and shall be covenants running with the land and shall, except as otherwise specifically provided in this agreement itself, be binding for the benefit of the community and the Agency and enforceable by the Agency against the Redeveloper and its successors and assigns to or of the Property, any part thereof, or any interest therein.

(b) Prior to delivery of possession of the Property to the Redeveloper, the Agency shall permit the Redeveloper access, to the extent necessary to fulfill this agreement. Subsequent to such delivery, the Redeveloper shall permit access to the Property to the Agency, the United States of America, and the City to the extent necessary to fulfill this agreement. In either case, there shall be no compensation payable by or to any party for access.

(c) Subsequent to conveyance of the Property or any part thereof to the Redeveloper, and until construction of the improvements has been completed, the Redeveloper shall make, in such detail as may reasonably be required by the Agency, a report in writing to the Agency every six months as to the actual progress of the Redeveloper in construction. During such period the work of the Redeveloper shall be subject to inspection by representatives of the Agency.

10. *Certificate of completion.* (a) Promptly after completion of the improvements in accordance with the provisions of this agreement, including certification of the construction as LEED Certified, the Agency will furnish the Redeveloper with an instrument certifying completion. The certification of the Agency shall be a conclusive acknowledgment by the Agency of satisfaction by the Redeveloper of the obligations of the Redeveloper under this agreement to complete improvements. The certification shall not constitute evidence of compliance with or satisfaction of any obligation of the Redeveloper to any holder of a mortgage, or any insurer of a mortgage, securing money loaned to finance the improvements, or any part thereof.

(b) With respect to the individual parts or parcels of the Property which the Redeveloper is to convey or lease as the improvements to be constructed are completed, the Agency will also, upon proper completion of the applicable improvements and provided the Redeveloper is not in default, certify to the Redeveloper that the improvements have been completed in accordance with the provisions of this agreement. The certification shall provide that any party purchasing or leasing the individual part or parcel shall not because of such purchase or lease incur any obligations for the construction of the improvements relating to such part or parcel or to any other part or parcel of the Property. The certification shall further provide that neither the Agency nor any other party shall thereafter have or be entitled to exercise any rights, remedies, or controls that it may otherwise have or be entitled to exercise with respect to the Property as a result of a default by the Redeveloper in any provisions of this agreement or the deed.

(c) All certifications provided for in this Paragraph 10 shall be in such form as will enable them to be recorded with the City and Town Clerk of the City of Bedford. If the Agency shall refuse or fail to provide any certification in accordance with the provisions of this paragraph, the Agency shall within 60 days after written request by the Redeveloper provide the Redeveloper with a written statement, indicating in adequate detail in what respects the Redeveloper has failed to complete the improvements in accordance with the provisions of this agreement or is otherwise in default, and what measures will be necessary, in the opinion of the Agency, for the Redeveloper to take or perform in order to obtain such certification.

11. *Restrictions on assignment prior to completion.* (a) The Redeveloper represents that its purchase of the Property, and its other undertakings pursuant to this agreement are for the purpose of redevelopment of the Property and not for speculation.

(b) Prior to completion of the improvements as certified by the Agency there shall be no transfer by any party owning 10 percent or more of the shares in the Redeveloper without approval of the Agency. There shall not be, without approval of the Agency, any other similarly significant change in the ownership of such stock or in the relative distribution thereof, or with respect to the identity of the parties in control of the Redeveloper by any other means, whether by increased capitalization, merger with another corporation, corporate or other amendments, issuance of additional or new shares or classification of shares, or otherwise.

(c) During the period between execution of this agreement and completion of the improvements as certified by the Agency, the Redeveloper will promptly notify the Agency of any and all changes whatsoever in the ownership of shares, legal or beneficial, or of any other act or transaction involving or resulting in any change in the ownership of such shares or in the relative distribution thereof, or with respect to the identity of the parties in control of the Redeveloper or the degree thereof, of which it or any of its offices have been notified or otherwise have knowledge. The Redeveloper shall, whenever the Agency shall so request, furnish the Agency with a complete statement, subscribed and sworn to by the Secretary of the Redeveloper, setting forth all of the shareholders of the Redeveloper and the extent of their respective holdings, and in the event any other parties have a beneficial interest in such shares, their names and the extent of such interest. The list, data, and information shall in any event be furnished the Agency immediately prior to the delivery of the deed to the Redeveloper and as a condition precedent thereto, and annually thereafter on the anniversary of the date of the deed.

(d) The restrictions and reporting requirements with regard to the sale, transfer, or exchange of securities in subparagraph (b) shall not apply to any sale or transfer of securities of the Redeveloper occurring or taking place in the ordinary course of business in the over-the-counter market or on any exchange in the event of a listing of its stock thereon, nor to its right to acquire corporations by an exchange of its shares.

(e) The Redeveloper shall not, prior to the proper completion of the improvements as certified by the Agency, make any sale, assignment, conveyance, or lease, or any trust or power, or transfer in any other form with respect to this agreement or the Property, without the prior written approval of the Agency. Any proposed transferee shall have the qualifications and financial responsibility, as determined by the Agency, necessary and adequate to fulfill the obligations of the Redeveloper, and if the proposed transfer relates to a part of the Property, such obligations to the extent that they relate to such part. Any proposed transferee shall, by instrument in writing, for itself and its successors and assigns, and expressly for the benefit of the Agency, assume all of the obligations of the Redeveloper under this agreement and agree to be subject to all the conditions and restrictions to which the Redeveloper is subject (or, in the event the transfer is of or relates to part of the Property, such obligations, conditions, and restrictions to the extent that they relate to such part). The fact that any transferee of or any other successor in interest to the Property, or any part thereof, shall not assume such obligations or so agree, shall not, unless and only to the extent otherwise specifically provided in this agreement or agreed to in writing by the Agency, relieve such transferee or successor from such obligations, conditions, or restrictions, or deprive or limit the Agency of any rights with respect to the Property or the construction of the improvements. The consideration payable for the transfer by the transferee or on its behalf shall not exceed an amount representing the actual cost, including carrying charges, to the Redeveloper of the property, or allocable to the part thereof or interest therein transferred, and any improvements made thereon by the Redeveloper. If the consideration upon any such assignment or transfer exceeds this limitation, the Agency may increase the purchase price to the Redeveloper of the property by the amount of such excess. Notwithstanding the provisions of this subparagraph, the Redeveloper may assign all its interest in and to this agreement to its wholly owned subsidiary. However, such assignment shall not relieve the Redeveloper of any of its obligations or liabilities under this agreement. The Agency shall be notified of any such assignment.

12. Mortgages prior to completion of improvements. (a) Prior to the completion of the improvements as certified by the Agency, neither the Redeveloper nor any successor in interest to the Property or any part thereof shall engage in any financing or any other transaction creating any mortgage or any other encumbrance or lien upon the Property, whether by express agreement or operation of law, or permit any encumbrance or lien to be made on or attached to the Property,

except for the purposes of obtaining funds necessary for making improvements and additional funds not to exceed the purchase price of the Property paid by the Redeveloper to the Agency. The Redeveloper shall notify the Agency in advance of any mortgage financing it proposes to enter into with respect to the Property, and of any encumbrance or lien that has been created on or attached to the Property, whether by voluntary act of the Redeveloper or otherwise. For the purposes of such mortgage financing as may be made pursuant to this agreement, the Property may, at the option of the Redeveloper or successor in interest, be divided into several parts or parcels, provided that such subdivision, in the opinion of the Agency, is not inconsistent with the purposes of the Redevelopment Plan and this agreement.

(b) The holder of any mortgage authorized by this agreement, including any such holder who obtains title to the Property or any part thereof as a result of foreclosure proceedings or action in lieu thereof, shall not be required to construct or complete the improvements or to guarantee construction or completion. No covenant or any other provision in any deed shall be construed so to obligate any such holder. However, such holder shall not be authorized to devote the Property or any part thereof to any uses, or to construct any improvements thereon, other than those uses or improvements provided or authorized in this agreement.

13. *Notice of default to mortgagee.* (a) Whenever the Agency shall give any notice to the Redeveloper of any breach or default by the Redeveloper in its obligations or covenants under this agreement, the Agency shall at the same time deliver to each holder of record of any mortgage authorized by this agreement a copy of the notice or demand. Each holder shall, insofar as the rights of the Agency are concerned, have the right at its option to cure the breach or default and to add the cost thereof to the mortgage debt and the lien of its mortgage. However, if the breach or default is with respect to construction of the improvements, the holder may not undertake or continue the construction or completion of the improvements beyond the extent necessary to conserve or protect improvements or construction already made without first having expressly assumed in writing the obligation to the Agency to complete, in the manner provided in this agreement, the improvements on the Property or the part thereof to which the lien or title of such holder relates, and having submitted evidence satisfactory to the Agency that it has the qualifications and financial responsibility necessary to perform such obligation. Any such holder who shall properly complete the improvements relating to the Property or applicable part thereof shall be entitled, upon written request made to the Agency, to a certification by the Agency to the effect provided in Paragraph 10. The certification shall, if so requested by the holder, provide that any remedy with respect to revesting of title to the Property that the Agency shall have because of failure of the Redeveloper to cure any default with respect to the construction of the improvements on other parts or parcels of the Property, or because of any other default in or breach of this agreement by the Redeveloper, shall not apply to the part or parcel of the Property to which the certification relates.

(b) If subsequent to default by the Redeveloper under this agreement, the holder of any mortgage on the Property or part thereof does not exercise the option to construct or complete the improvements relating to the Property or part thereof covered by its mortgage or to which it has obtained title within 60 days after the holder has been notified of the default or undertakes completion of the improvements but does not complete construction within the period as agreed upon by the Agency and the holder, the Agency shall have the option of paying to the holder the amount of the mortgage debt and obtaining an assignment of the debt and of the mortgage. If ownership of the Property or part thereof has vested in such holder by way of foreclosure or action in lieu thereof, the Agency shall be entitled to a conveyance of the Property or part thereof upon payment to such holder of an amount equal to the sum of the mortgage debt at the time of foreclosure or action in lieu thereof less all appropriate credits, including those resulting from collection and application of rentals received during foreclosure proceedings; all expenses with respect to the foreclosure; the net expenses, exclusive of general overhead, incurred by the holder in and as a direct result of the subsequent management of the Property; the cost of any improvements made by such holder; and an amount equivalent to the interest that would have accrued on the aggregate of the amounts had all the amounts become part of the mortgage debt and the debt had continued in existence until the acquisition by the Agency.

(c) In the event of a default by the Redeveloper in its obligations under any mortgage or other instrument creating an encumbrance upon the Property or part thereof prior to completion of improvements, the Agency may at its option cure

the default or breach. In such case, the Agency shall be entitled, in addition to and without limitation upon any other remedy to which it shall be entitled by this agreement, operation of law, or otherwise, to reimbursement from the Redeveloper or successor in interest of all costs and expenses incurred by the Agency in curing the default or breach, and to a lien upon the Property or part thereof to which the mortgage, encumbrance, or lien relates to secure the reimbursement.

(d) The term "holder" in reference to a mortgage includes any insurer or guarantor of any obligation secured by the mortgage.

14. *Availability of remedies.* (a) In the event of any default under this agreement by either party, the defaulting party shall, upon written notice from the other, proceed immediately to cure the default and shall cure the default within 60 days after receipt of the notice. In case such action is not taken, or diligently pursued, or the default shall not be cured or remedied within the 60-day period, the aggrieved party may institute such proceedings as may be necessary in its opinion to cure the default, including, but not limited to, proceedings to compel specific performance by the party in default of its obligations and in the case of the Agency, the right to apply the Redeveloper's deposit in payment of the damages suffered by it or by the City. The loss may be measured by the loss of tax revenue from the Property or the anticipated improvements, or otherwise, resulting from the default.

(b) The rights and remedies of the parties to this agreement, whether provided by law or by this agreement, shall be cumulative, and the exercise by either party of any one or more of such remedies shall not preclude the exercise by it, at the same or different times, of any other remedies for the same default or breach. No waiver made by either party shall apply to obligations beyond those expressly waived.

(c) The Redeveloper (for itself and its successors and assigns, and all other persons who are or who shall become liable, by express or implied assumption or otherwise, upon or subject to any obligation or burden under this agreement), waives to the fullest extent permitted by law and equity all claims or defenses otherwise available on the ground of being or having become a surety or guarantor, whether real, personal, or otherwise, or whether by agreement or operation of law. This waiver includes, but is not limited to, all claims and defenses based upon extensions of time, indulgence, or modification of terms of contract.

15. *Agency's failure to convey.* (a) If the Agency does not tender the conveyance or possession of the Property, in the manner and condition, and by the date provided in this agreement, and the failure is not cured within 120 days after written demand by the Redeveloper, then this agreement shall, at the option of the Redeveloper, be cancelled, the Redeveloper shall be entitled to a return of its deposit, and neither the Agency nor the Redeveloper shall have any further rights against or liability to the other under this agreement, except as to any parcels previously conveyed.

(b) If prior to or at the time of closing, a cloud, encumbrance, or other defect in title is noted by the Redeveloper which makes the title being conveyed to the Redeveloper not marketable, and such cloud, encumbrance, or defect can be eliminated by the Agency through the power of condemnation, then the cloud, encumbrance, or defect shall be eliminated by the Agency at the Agency's own expense within 120 days of notification by the Redeveloper, and the Redeveloper need not accept title prior to such elimination. In the event the cloud, encumbrance, or defect on property subject to condemnation cannot be eliminated or cured within the 120-day period, then the Redeveloper may accept such title as the Agency may convey or may reject the acceptance of such title. If the Redeveloper rejects such title, then the Redeveloper may terminate this agreement and receive a return of its deposit, or the Redeveloper may terminate only as to the portion of land involved, in which case a return to the Redeveloper of the portion of its deposit applicable to such portion shall be made by the Agency.

(c) If it is finally determined that the Agency is unable to secure title to property not subject to its power of condemnation, such inability shall be made known to the Redeveloper immediately. The right to terminate this agreement shall apply only to the parcel affected, and the relevant portion of Exhibit C shall be renegotiated. If it is

undetermined if the Agency will be able to secure title to the noncondemnable property, and negotiations are continuing, such fact will be made known by the Agency to the Redeveloper at least six months prior to the delivery of deed and possession date for such parcel. If title is subsequently obtained by the Agency then the relevant deadline in Exhibit C shall be extended so that the timetable of delivery of deed and possession date shall be six months after notice of ability to convey title. If the Agency is unable to secure title to the noncondemnable property prior to _____[date], then, in any event the relevant portion of Exhibit C shall be renegotiated.

16. *Inability to obtain mortgage financing.* If the Redeveloper furnishes satisfactory evidence that the Redeveloper is unable, after diligent effort for a period of at least 60 days after approval by the Agency of design plans, to obtain mortgage financing, on a basis and on terms that would generally be considered satisfactory by builders or contractors for improvements of the nature and type provided in the design plans, and the Redeveloper shall, if so requested by the Agency, continue to make diligent efforts to obtain such financing for a period of 60 days after such request, but without success, then this agreement shall be canceled, except as to any parts or parcels previously conveyed, and the Redeveloper shall be entitled to a return of the deposit. Upon such cancellation neither the Agency nor the Redeveloper shall have any further rights against or liability to the other under this agreement except as to any such parts or parcels previously conveyed.

17. *Default by redeveloper prior to conveyance.* If prior to conveyance of the Property to the Redeveloper and in violation of this agreement the Redeveloper assigns this agreement or any rights therein or in the Property; or there is any change in the ownership or distribution of the shares of the Redeveloper or with respect to the identity of the parties in control of the Redeveloper; or the Redeveloper does not submit Construction Plans, or evidence that it has the necessary equity capital and mortgage financing, in satisfactory form and in the manner and by the dates respectively provided in this agreement; or the Redeveloper does not pay the purchase price for and take title to the Property upon tender of conveyance by the Agency pursuant to this agreement; and any such default or failure shall not be cured within 60 days after written demand by the Agency, then this agreement may, at the option of the Agency, be terminated by the Agency, except as to parcels previously conveyed where improvements have been certified by the Agency or where improvements are being constructed in conformity with this agreement. In the event of such termination, the deposit may be retained by the Agency as liquidated damages and as its property without any deduction, offset, or recoupment whatsoever, and neither the Redeveloper nor the Agency shall have any further rights against or liability to the other under this agreement.

18. *Defaults by redeveloper following conveyance.* The Agency may recover title and possession of the Property on behalf of the City in the event that subsequent to a conveyance of property to the Redeveloper and prior to completion of the improvements as certified by the Agency, any of the following occurs:

(a) The Redeveloper defaults in or violates its obligations with respect to the construction of the improvements, or abandons or substantially suspends construction, and any such default or violation, abandonment, or suspension is not cured within three months (six months, if the default is with respect to the date for completion of the improvements) after written demand by the Agency so to do.

(b) The Redeveloper fails to pay real estate taxes, assessments, or payments in lieu of taxes, on the Property or any part thereof when due, or places thereon any encumbrance or lien unauthorized by this agreement, or suffers any levy or attachment to be made, or any materialman's or mechanic's lien or any other unauthorized encumbrance or lien to attach, and such taxes, assessments, or payments in lieu of taxes, are not paid, or the encumbrance or lien not removed and discharged, or provisions satisfactory to the Agency made for such payment, removal, or discharge, within 90 days after written demand by the Agency so to do.

(c) There is, in violation of this agreement, any transfer of the Property or any part thereof, or any change in the ownership or distribution of the stock of the Redeveloper, or with respect to the identity of the parties in control of the Redeveloper or the degree thereof, and such violation is not cured within 60 days after written demand by the Agency to

the Redeveloper.

The right of the Agency to recover title and possession shall be subject to and limited by the lien of any construction mortgage authorized by this agreement, and any rights or interests provided in this agreement for the protection of the holder of such mortgage. This right of the Agency shall not apply to individual parts or parcels of the Property on which the improvements have been completed and which have, pursuant to authorization contained in this agreement, been sold or leased to other parties. Such right of the Agency shall not apply to individual parts and parcels upon which construction has commenced and is proceeding according to schedule, and as to which there has been no default under this agreement, unless a default described in subparagraph (c) of this paragraph has taken place.

Upon recovery of title and possession by the Agency under this paragraph, the Agency shall, in addition, have the right to retain the deposit as its property without any deduction, offset, or recoupment. The Agency may institute any action or proceedings to carry out this paragraph. The Agency shall have the right to execute and record or file with the Town Clerk of the City of Bedford a written declaration of the termination of all rights and title of the Redeveloper in the Property, and the vesting of title in the City. Any delay by the Agency in instituting or prosecuting any such actions or proceedings or otherwise asserting its rights under this paragraph shall not operate as a waiver of such rights or limit them in any way. No waiver in fact made by the Agency of any specific default by the Redeveloper shall be considered or treated as a waiver of the rights of the Agency with respect to any other defaults by the Redeveloper, or with respect to the particular default except to the extent specifically waived.

19. *Agency's obligations on reacquisition.* In the event that title to the Property or a part thereof shall vest again in the City, the Agency shall use its best efforts to resell the Property as soon as the Agency shall find it feasible, consistent with the objectives of the State Redevelopment and Urban Renewal Law and of the Redevelopment Plan, to a qualified and responsible party or parties, as determined by the Agency, who shall assume the obligation of making or completing the improvements in accordance with the uses specified in the Redevelopment Plan. The proceeds of resale shall be applied as follows:

(a) To reimburse the Agency, on its own behalf or on behalf of the City, for all costs and expenses incurred by the Agency in connection with the reacquisition, management, and resale of the Property or part thereof, but less any income derived by the Agency from the Property or part thereof in connection with its management; for all taxes, assessments, and water and sewer charges of the Property or in the event the Property is exempt from taxation or assessment or such charges during the period of ownership by the Agency, an amount equal to the taxes, assessments, or charges, as determined by the City assessing official, that would have been payable if the Property were not so exempt; for any payments made or necessary to be made to discharge any encumbrances or liens existing on the Property at the time of vesting again of title in the Agency or to discharge or prevent from attaching or being made any subsequent encumbrances or liens attributable to obligations, defaults, or acts of the Redeveloper, its successors, or transferees; for any expenditures made or obligations incurred with respect to the making of improvements on the Property; and for any amounts otherwise owing to the Agency by the Redeveloper, its successor, or transferee; and

(b) To reimburse the Redeveloper up to the amount equal to the sum of the purchase price paid for the Property or allocable to the part thereof and the cash actually invested by it in making any of the improvements on the Property, less any gains or income withdrawn or made by it from this agreement or the Property.

(c) Any balance remaining after such reimbursements shall be retained by the Agency.

20. *Effect of unavoidable delays.* In the event of enforced delay in the performance by either party of obligations under this agreement due to unforeseeable causes beyond its control and without its fault or negligence, including, but not restricted to, Acts of God, acts of the government, acts of the other party, fires, floods, strikes, freight embargoes, unusually severe weather, or delays of subcontractors due to such causes, the time for performance of such obligations shall be extended for the period of the enforced delay; provided that the party seeking the benefit of the provisions of

this paragraph shall, within 30 days after the beginning of any such enforced delay, have first notified the other party in writing of the causes and requested an extension for the period of the enforced delay.

21. *Nondiscrimination in course of development.* The Redeveloper will not discriminate against any employee or applicant for employment because of race, creed, color, or national origin in the construction of the improvements in accordance with the provisions of this agreement. The Redeveloper will, in all solicitations or advertisements for employees placed by or on behalf of the Redeveloper, state that all qualified applicants will receive consideration for employment without regard to race, creed, color, or national origin. The Redeveloper shall include the terms of this paragraph in every contract into which it enters, and shall require the inclusion of these provisions in every subcontract entered into by any of its contractors, so that such provisions shall be binding upon each such contractor or subcontractor, as the case may be.

22. *Nondiscrimination in use of property.* The Redeveloper shall not discriminate upon the basis of race, color, creed, or national origin in the sale, lease, or rental or in the use or occupancy of the Property or any improvements thereon, and shall not effect or execute any agreement, lease, conveyance, or other instrument whereby the Property or any part thereof is restricted upon the basis of race, religion, color, or national origin in the sale, lease, or occupancy thereof. The Redeveloper shall comply with all state and local laws, in effect from time to time, prohibiting discrimination or segregation by reason of race, religion, color, or national origin in the sale, lease, or occupancy of the Property. Such provisions shall be included in the deed as covenants running with the land and shall, except only as otherwise specifically provided in this agreement, be binding for the benefit of, and enforceable by, the Agency, its successors and assigns, the City, the Redeveloper, or any successor in interest, the owner of any other land or of any interest in such land in the project area which is subject to the land use requirements and restrictions of the Redevelopment Plan, and any party in possession or occupancy of the Property.

The Agency shall be deemed a beneficiary of the covenants provided in this paragraph both in its own rights and for the purposes of protecting the interest of the community and the other parties, public or private, in whose favor or for whose benefit such covenants have been provided. The covenants shall run in favor of the Agency for the entire period during which such covenants shall be in force and effect, without regard to whether the Agency has at any time been an owner of any land or interest therein in favor of which the covenants relate. The Agency shall have the right, in the event of any breach of any such covenant, to exercise all the right and remedies and to maintain any actions at law or suits in equity or other proper proceedings to enforce the curing of such breach of covenant, to which it or any other beneficiary of such covenant may be entitled.

23. *Notice.* A notice or communication under this agreement by either party to the other shall be sufficiently given if sent by registered or certified mail, postage prepaid, return receipt requested, addressed as follows:

(a) To the Redeveloper:

Holz Development Corp.

400 Central Avenue Staten Island New York

(b) To the Agency:

Redevelopment Agency of the City of Bedford
Bedford, Connecticut

Any other address may be designated by either party by notice in writing dispatched as provided in this paragraph.

24. *Effect of deed.* None of the provisions of this agreement shall be affected by reason of any deed transferring title to the Property from the Agency to the Redeveloper.

The Agency has caused this agreement to be duly executed in its behalf and its seal to be affixed and attested, and the Redeveloper has caused the same to be duly executed in its behalf, on or as of the day and year first above written.

26-22 Current Legal Forms for Real Estate FORM 22.52

FORM 22.52 Contract to clear land and construct roads and similar improvements--compensation on cost-plus basis--contractor's individual services required

COMMENT

This is an agreement between the owner of land which is to be developed and a contractor in which the latter undertakes to clear land and construct roads, rights-of-way, canals, and drainage ditches. The specific work to be performed by the contractor and the maximum costs which are to be incurred each month are subject to the owner's prior approval. Either party may terminate the agreement on short notice.

The contractor is to be paid on the basis of the gross costs incurred on the job plus 10 percent of the net costs. The difference between gross costs and net costs is the cost of financing and amortizing the loans on the equipment used on the job. The contractor is to be paid on a weekly or a monthly basis, depending upon the classification of the expenditure as set forth in the agreement.

FORM

AGREEMENT made and entered into at Miami, Dade County, Florida on _____[date], by and between Homes Construction, Inc., a Florida corporation (the "Owner"), and Smith Engineering Co., Inc., a Florida corporation (the "Contractor").

The parties agree as follows:

1. *Employment.* The Owner hires the Contractor to clear land and construct all roads, road rights-of-way, canals, and drainage ditches desired by the Owner to be cleared and constructed on the land of the Owner located in Brevard County, Florida, and the Contractor agrees to and accepts such employment.

2. *Extent of work.* All work done, pursuant to this agreement will be performed in accordance with plans and specifications contained in written instructions that will be issued and signed by the Owner and accepted in writing by the Contractor. These written instructions will specify the nature, extent, location, type, and specifications of all of the work to be performed.

3. All refuse created in the clearing contemplated hereunder shall be disposed of in accordance with all federal, state and local laws, regulations and rules. No organic material shall be burned on or about the premises.

4. The Contractor shall obtain all permits which may be necessary or appropriate in the event that wetlands (as described in federal and state regulations) are discovered on the premises. No land shall be drained or filled without a valid permit. The Contractor shall fully comply with all regulations dealing with wetlands in clearing the land and constructing the improvements thereon.

5. *Quality of work.* The Contractor shall furnish all equipment, machinery, tools, and labor and shall furnish and deliver all materials required to be furnished and delivered in completing all work performed in a proper and workmanlike manner. The Contractor warrants that Martin Smith, one of its officers, will personally direct and supervise all work performed under this agreement and that he will be physically present at the work site at least one day each week (and more often if the job so requires) during the entire term of this agreement.

6. *Compensation.* In consideration of the foregoing, the Owner shall pay to the Contractor and the Contractor shall accept as full compensation for all work done and materials furnished under the terms of this agreement, the Contractor's gross costs, plus 10 percent of the Contractor's net costs.

7. *Definitions.* When used in this agreement:

(a) "Gross costs" means the actual cost of all labor paid for, including payroll, insurance, and taxes, and materials furnished by the Contractor, including amortization and interest on equipment loans and the cost of insuring, operating, maintaining, repairing, and financing the machinery utilized by the Contractor necessary and incident to its performance of this agreement. All equipment loans will be amortized over a period of at least 36 months and shall bear interest at a rate not in excess of 6% (six percent) per annum.

(b) "Net costs" means the gross costs as reduced by and specifically excluding interest and finance charges on equipment loans, amortization of equipment loans, and taxes of any type or description whatsoever.

8. *Work procedure.* The following procedure applies to the performance of the work under this agreement and full compliance is conclusively a condition precedent to any liability for payment by the Owner of the compensation to the Contractor: Ten days prior to the first day of each calendar month of the term of this agreement, the Contractor will submit to the Owner for its written approval a schedule of the work to be accomplished and the maximum gross costs to be expended in the next succeeding month, which maximum gross costs shall in no event be exceeded by the Contractor. Written approval of the Owner will be a condition precedent to the performance of any work by the Contractor. The Owner reserves the right to approve each monthly schedule and, at its option and in its unlimited discretion, the right to limit and decrease the work and the maximum gross costs planned to be expended in each and every month of the term of this agreement, provided, however, that in no event shall the Owner limit or decrease the maximum gross costs planned for any one month below \$10,000. Upon written approval of a monthly schedule by the Owner, the Contractor shall commence and complete each month's work.

9. *Method of payment.* The Contractor shall be reimbursed and paid the compensation as follows:

(a) The costs of all labor paid for, including payroll insurance and taxes, by the Contractor will be reimbursed by the

Owner to the Contractor weekly and forthwith upon receipt by the Owner of a statement of the Contractor's labor expenses for the preceding week.

(b) On the last day of each calendar month, the Contractor will submit to the Owner a schedule of work accomplished together with an itemized statement of gross costs incurred during that month. The Owner will reimburse the Contractor for such gross costs not previously reimbursed on or before the tenth day of the next succeeding month.

(c) The 10 percent of net costs will first be paid at the end of the sixth month of this agreement. Thereafter, such payments will be made monthly, simultaneously with the payments referred to in subparagraph (b).

10. *Books and records.* The Contractor shall keep and maintain accurate books of account and records of all of its business transactions under this agreement. These books and records shall be kept in the Contractor's place of business and, at all times, the Owner or its duly authorized agents shall have access to such books and records and may transcribe or may cause to be transcribed such extracts as may be deemed necessary by the Owner. At the expense of the Contractor, a semi-annual audit shall be made of such books and records of the Contractor by a certified public accountant, agreeable to both parties, on the 30th day of June and 31st day of December of each year of this agreement, and a copy of such audit, unqualifiedly certified to by such certified public accountant, will be delivered to the Owner within 15 days from the date of each audit.

11. *Termination.* This agreement may be terminated by either of the parties, without cause, upon the giving of 45 days' notice, in writing, to the other. This agreement shall terminate 45 days from the delivery of such notice, and be of no further force or effect. Within 30 days after termination, the Owner will pay to the Contractor all moneys due and owing.

12. *Entire agreement.* This agreement represents the entire understanding of the parties and supersedes all previous negotiations, written or oral, and may not be altered, changed, amended, or modified except by an agreement in writing signed by the parties.

13. *No assignment.* Part of the consideration and inducement offered to the Owner for the execution of this agreement is the personal character, reputation, integrity, and experience of the Contractor. For this reason, the parties agree that the Contractor shall not be permitted to assign either its rights or its duties under the terms of this agreement, or to subcontract any of the work contracted for hereunder.

The parties have caused these presents to be signed by their proper officers and their corporate seals to be affixed, attested by their secretaries, the day and year first above written.

26-22 Current Legal Forms for Real Estate FORM 22.53

FORM 22.53 Contract to construct a warehouse-office building on a cost plus basis but with a not to exceed price limit

COMMENT

To provide an incentive to the builder to try to build the warehouse-office building for less than the not to exceed price set forth in the contract, a formula is provided in Paragraph 3 of the agreement to allow the builder to share in a portion of the savings if the total contract price is done for less than the not to exceed price. The not to exceed price is referred to as the upset price in this form. In this case, the builder receives 60% of the savings.

In this agreement, the builder has attempted to protect itself from unknown subsurface conditions it might run into by the provisions set forth in Paragraph 5 of the agreement. It states that if such conditions are encountered, the upset price shall be adjusted by a change order agreed to by both parties.

FORM

AGREEMENT BETWEEN CONTRACTOR AND OWNER

THIS AGREEMENT is made and entered into at _____[city], _____[state], this _____[day] day of _____[month], _____[year], by and between _____[insert name of owner], hereinafter called the "Owner," and _____[insert name of contractor], hereinafter called the "Contractor."

WITNESSETH THAT:

In consideration of the mutual covenants and promises hereinafter contained, the parties agree as follows:

1. The Owner hereby employs the Contractor and the Contractor does hereby agree to construct on certain premises now owned or to be acquired by the Owner, located on the land described on Exhibit A, attached hereto and made a part hereof, an industrial warehouse/office building with site improvements, all in accordance with certain plans and specifications identified on Exhibit B, attached hereto and made a part hereof. Two (2) sets of said plans and specifications shall be initialed by Owner and Contractor and one (1) set kept by each, on or before the execution of this Agreement. This Agreement, said plans and specifications, and all modifications thereto agreed to in writing by the parties as hereinafter provided, shall hereinafter be referred to as the "contract documents," and the work prescribed therein as the "contract work."

It is understood that the Owner may enter into other contracts for various other work at the premises. With respect to said other work, Contractor agrees that Contractor, and Contractor's agents and employees, will not unreasonably interfere with such other work and will cooperate with the Owner, Owner's other contractors, and their respective agents and employees, so as to insure that the contract work required herein shall be coordinated with said other work. Owner shall require that any such other contractors, their agents and employees, shall similarly agree to cooperate with Contractor and agree not to unreasonably interfere with the contract work of Contractor. Owner further agrees that the Contractor shall not be held responsible for any loss or damage sustained by Owner because of delays caused directly or indirectly by the employment of such other contractors of Owner, including, without limitation, delays due to jurisdictional disputes between the competing unions of the various contractors and subcontractors doing work at the premises.

2. The Contractor agrees to provide and pay for all labor, materials, equipment, tools, construction equipment and machinery and other facilities and services necessary for the proper execution and completion of the contract work and warrants to the Owner that all materials and equipment furnished under this contract will be new, unless otherwise specified, and that all work will be performed in a good and workmanlike manner, free from faults and defects.

3. The Owner agrees to pay the Contractor for the contract work hereinbefore described a contract amount equal to the sum of hard costs, as hereinafter defined, plus fifteen (15%) thereof, plus Fifteen Thousand Dollars (\$15,000) for supervision, plus Five Thousand Dollars (\$5,000) as a landscaping allowance charge, but in no event to exceed _____ Dollars (\$ _____) (which sum includes the aforesaid supervision fee and landscaping allowance except for certain costs hereinafter set forth to be directly reimbursed to Contractor, not considered part of the upset price. If the total of the hard costs, plus fifteen percent (15%) thereof, plus the supervision fee and landscaping allowance charge is less than the upset price, the amount payable by Owner shall be the upset price less an amount equal to sixty percent (60%) of the difference between (i) the sum of the hard costs, plus fifteen percent (15%) thereof, plus the supervision fee and landscaping allowance charge, and (ii) the upset price.

The Contractor's hard costs are hereby defined to include all costs incurred by Contractor for:

(a) all wages paid for labor in the direct employ of the Contractor in the performance of the contract work, and the cost of contributions, assessments or taxes paid for Unemployment Compensation, Workers' Compensation, Social Security and other similar benefits paid with respect thereto;

(b) materials and equipment incorporated in the contract work and materials suitably stored at the site thereof or at some other location agreed upon in writing, by Owner and Contractor;

(c) subcontracts performed by other contractors or materialmen in the performance of the contract work;

(d) cost, including transportation and maintenance, of all materials, supplies, equipment, temporary facilities and hand

tools not owned by the workmen, which are consumed in the performance of the work, and cost, less salvage value, on such items used but not consumed which remain the property of the Contractor;

(e) salaries of Contractor's personnel when stationed at the field office, in whatever capacity employed (personnel engaged, at shops or on the road, in expediting the production or transportation of materials or equipment, shall be considered as stationed at the field office and their salaries paid for that portion of their time spent on the contract work);

(f) rental charges of all necessary machinery and equipment used at the construction site, exclusive of hand tools, at prevailing rates;

(g) sales, use or similar taxes related to the contract work, and the proportion of reasonable transportation, traveling and hotel expenses of Contractor or of its officers and employees incurred in discharge of duties connected with the contract work;

(h) the cost of removal of all debris;

(i) costs incurred due to an emergency affecting the safety of persons and property; and

(j) other cash disbursements made or required to be made by the Contractor in order to perform the contract work, exclusive of those with respect to which there is provision herein for reimbursement to Contractor by Owner as hereinafter provided and except for the aforesaid supervision fee and landscaping allowance charge.

4. The Owner shall make payment to the Contractor on account of the contract work as follows:

A. On or about the twenty-fifth (25th) day of each month, the Contractor shall submit a request or invoice for progress payment to the Owner equal to ninety percent (90%) of the Contractor's hard costs incurred to invoice date, plus fifteen percent (15%) thereof, plus a pro rata share of the supervision fee based upon the percentage of the contract work completed, plus a pro rata share of the landscaping allowance charge based upon the estimated percentage of the landscaping work completed, less the aggregate of previous payments. Contractor agrees to provide such documentation to substantiate the amount of its request for progress payments as may reasonably be requested by Owner or Owner's lender.

B. Upon substantial completion of the contract work, the Contractor shall submit an invoice for progress payment in an amount sufficient to increase the total progress payments to one hundred percent (100%) of the Contractor's hard costs, plus fifteen percent (15%) thereof, plus the balance of the supervision fee and plus the pro rata share of the landscaping allowance charge required to increase such charge to an amount equal to the estimated percentage of the landscaping work completed.

C. All progress payments are due and shall be paid to the Contractor, as hereinbefore and hereinafter provided, on or before the tenth (10th) day following the invoice date. Payments due and unpaid hereunder shall bear interest from the date payment is due at the rate of seven (7%) per annum.

D. Final payment is to be made sixty-one (61) days after substantial completion of the contract work. Prior to final payment, the Contractor agrees to (i) submit evidence satisfactory to the Owner that all payrolls, material bills and other indebtedness connected with the contract work have been paid, and (ii) furnish Owner, with the affidavit or sworn statement of Contractor, and the affidavits, certificates of materialmen (or lien waivers) of the major subcontractors and major suppliers of Contractor, for the purposes of the Ohio Mechanic's Lien Act; provided, however, that no certificates of materialmen or statements of subcontractors shall be required with respect to whom there shall be attached to the Contractor's sworn statement a waiver of lien for all work done or material supplied by such subcontractor or

materialmen.

E. In the event Contractor submits to the Owner the documentation required by subparagraph D, above prior to said 61-day period, final payment shall be made at that time.

F. If there is any dispute between Owner and Contractor as to whether the contract work has been "substantially completed," as used herein, the issuance of a certificate of occupancy or the taking of possession by Owner shall be deemed to be conclusive evidence that the contract work has been substantially completed. If exterior items, such as landscaping, cannot be completed due to inclement weather conditions, or interior punchlist items remain to be completed, such items shall not be considered items required to be substantially completed before the payments required by subparagraphs 4.B, and 4.D are made. Rather, if such items cannot be or are not completed at the time, Contractor shall submit to Owner an estimate of the costs to complete the same, which estimate must be reasonably satisfactory to Owner, and Owner shall be permitted to withhold a sum equal to said costs until such items can be completed by Contractor. Contractor agrees to complete the same as soon as reasonably possible.

5. Changes in the contract work planned and specified, as hereinbefore described, provided the same do not materially alter the scope of the contract work, shall be made only by written agreement or change order signed by both parties. The Contractor covenants and agrees that Contractor will perform said changes on the basis of Contractor's hard costs thereof, plus fifteen percent (15%). Said changes shall be paid for by Owner in compliance with the provisions set forth in Paragraph 4, hereinabove. The upset price shall be increased or decreased to take into account any such changes in the contract work.

Should concealed conditions encountered in the performance of the contract work below the surface of the ground, or should concealed or unknown conditions in an existing structure be at variance with the conditions indicated by the contract documents, or should unknown physical conditions below the surface of the ground or should concealed or unknown conditions in an existing structure of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in this contract, be encountered, the upset price shall be equitably adjusted by change order upon claim by either party made within twenty (20) days after the first observance of the conditions.

6. The Contractor shall secure all permits, governmental fees and licenses necessary for the proper execution and completion of the contract work covered by this contract and shall comply with all laws, ordinances, rules, regulations, and orders of any proper public authority bearing on the performance of said contract work. In the event that any of the contract work is at variance with any applicable governmental laws, ordinances, rules and regulations, the Contractor shall promptly notify the Owner in writing, and any necessary changes shall be adjusted by proper change orders as hereinbefore provided. Owner shall reimburse Contractor for the cost of all such permits, governmental fees and licenses secured by Contractor within ten (10) days of submission by the Contractor to the Owner of a receipt for the payment of the same by Contractor, which reimbursement shall be in addition to the contract amount required to be paid pursuant to Paragraph 3, above and shall not be considered part of the upset price.

7. The Owner shall have the right to require the Contractor to furnish bonds covering the faithful performance of the contract work. However, in such event Owner shall reimburse Contractor for the costs of any such bonds within ten (10) days of submission to the Owner by Contractor of the receipt evidencing payment therefor, which reimbursement shall be in addition to the contract amount required to be paid pursuant to Paragraph 3, above, and shall not be considered part of the upset price.

8. The Owner agrees to carry Builders Risk Insurance during construction, at Owner's expense, insuring the contract work under construction to one hundred percent (100%) of the insurable value thereof, including material therefor stored on the site or elsewhere, which shall insure against the perils of fire and extended coverage and shall include "all risk" insurance for physical loss or damage including, without duplication of coverage, theft, vandalism and malicious

mischief. Said policy shall name Contractor thereunder as Contractor's interest may appear. A certificate of such insurance shall be filed with the Contractor prior to commencement of the contract work.

9. The Contractor agrees to maintain during the period of construction, at Contractor's expense, public liability insurance in the minimum amount of Three Hundred Thousand Dollars/Five Hundred Thousand Dollars (\$300,000/\$500,000) and property damage in the amount of One Hundred Thousand Dollars (\$100,000) covering Contractor and the Owner, and any additional insured requested by Owner, for negligent acts or omissions of Contractor during construction. A certificate of such insurance shall be filed with the Owner prior to commencement of the contract work.

10. The Contractor shall register and make proper contributions and maintain insurance in compliance with all laws regulating Workers' Compensation, old-age benefits and Ohio and federal Unemployment Compensation, and all other employee benefit laws, with respect to any employees of Contractor.

11. Owner and Contractor agree that Contractor shall commence the contract work. Contractor shall diligently perform the contract work in order to substantially complete the contract work on or before provided, however, that said contemplated completion date shall be extended by such time as shall be occasioned by delay caused by any act or neglect of the Owner, by changes ordered in the contract work in writing, material shortages, or by strike, public authority or lockout, fire, unavoidable acts or casualty, Acts of God, or for any other reason beyond the control of Contractor.

12. The Contractor agrees that at all times Contractor shall keep the premises free from the accumulation of waste materials or rubbish caused by Contractor's operations. At the completion of the contract work, the Contractor shall remove all waste materials and rubbish from and about the site of the contract work as well as Contractor's tools, construction equipment, machinery and surplus materials, and shall deliver the premises in "broom-clean" condition to Owner.

13. The Contractor further warrants and agrees that:

(a) title to all work, materials and equipment covered by a request for a progress payment as hereinbefore provided in Paragraph 3, whether incorporated in the project at that point or not, will pass to the Owner upon the receipt of such payment by the Contractor, free and clear of all liens, claims or encumbrances of any kind whatsoever;

(b) if within one (1) year after the date of substantial completion of the contract work herein specified any of the contract work to be performed hereunder is found to be defective or not in accordance with the contract documents, or if a defect is found with respect to contract work covered by a guarantee or warranty not assignable to Owner within such longer period of time as may be prescribed by the terms of said guarantee or warranty obtained by the Contractor from any of Contractor's subcontractors or suppliers, the Contractor shall correct, or cause to be corrected, such situation promptly after receiving written notice from the Owner specifying the nature of such defect (the Owner agrees that Owner shall give such notice promptly after discovery of any such condition); and

(c) Contractor shall assign to Owner any and all warranties or guaranties of workmanship and/or materials that are assignable relating to the contract work performed hereunder. Any defective work performed or materials covered by said warranties or guaranties shall be corrected or caused to be corrected by Owner.

14. Contractor shall keep reasonably full and detailed accounts as may be necessary for proper financial management under this Agreement. Owner and Owner's authorized agents shall have the right to inspect all books, contracts and records of Contractor insofar as they relate to the contract work, commencing with substantial completion of the contract work, and for a period of six (6) months thereafter.

15. Whenever Owner or Contractor shall make any demand or serve any notice which is required to be in writing under the terms of this Agreement upon the other, the same shall be in writing and shall be sufficiently given if sent, postage prepaid, by United States registered or certified mail, addressed to Owner at _____[*street address*], _____[*city*], _____[*state*] _____[*zip code*], and addressed to Contractor at _____[*street address*], _____[*city*], _____[*state*] _____[*zip code*], or at such other address as Owner or Contractor may therefore by written notice to the other have designated for the service of such notice.

16. This Agreement and the contract documents referred to herein represent the entire agreement between the parties. The parties agree that no verbal agreement or undertaking before the execution of this Agreement shall alter, amend or modify any of the terms of this Agreement.

17. This Agreement shall be binding upon the Owner and the Contractor and the respective successors, heirs and assigns of each.

The parties have hereunto set their hands the day and year first above written.

26-22 Current Legal Forms for Real Estate FORM 22.54

FORM 22.54 Contract for services with a construction manager

COMMENT

This is a form of agreement for the hiring of a construction manager. Construction management is a construction method in which the construction manager (usually a qualified general contracting organization) is paid a professional fee, like a project architect, for management and consulting services. With this method, the project planning, design, and construction phases are treated as integrated tasks assigned to a team consisting of the owner, an architect-engineer, and the construction manager, all of whom work together from project inception to completion.

The construction manager should be selected at the same time the architect is selected so that the construction manager's expertise can be used at the outset before the building concept is set in place. The parties can then work together to develop the best and most economical building project. The architect-engineer and the construction manager can engage in value analysis of alternative design and construction procedures from the early stages of design development including the possible incorporation of green alternatives in the design schematic phase to increase the energy and water use efficiency of the Project. This will enable the architect-engineer to make design decisions based on accurate information relative to cost and time, as well as to function and aesthetics.

The construction manager is usually compensated for the construction manager's services with a professional fee instead of the traditional contractor's markup. The fee is intended to include home office overhead and profit.

FORM

CONSTRUCTION MANAGEMENT AGREEMENT

THIS CONSTRUCTION MANAGEMENT AGREEMENT is made at _____[city],
 _____[state], this _____[day] day of _____[month],
 _____[year], by and between THE JOHNSON COMPANY (hereinafter "Owner"), and DONNELLY
 CONSTRUCTION MANAGERS, INC. (hereinafter "Manager").

WITNESSETH:

WHEREAS, Owner intends to construct the Project (as defined below) and desires to engage Manager to render general management services with respect thereto; and

WHEREAS, Manager has significant expertise in connection with the management of construction projects and desires to manage the Project;

NOW, THEREFORE, in consideration of the mutual covenants and promises hereinafter contained, the parties agree as follows:

1. Management of Project. In connection with the construction and remodeling of the Frantz Medical Clinic (the "Project") located at _____[street address], _____[city], _____[state]
 _____[zip code], Owner hereby employs Manager and Manager does hereby agree to undertake all construction management obligations and services with respect to the project.

2. Duties. Manager's duties shall include, without limitation, the following:

- (a) consult and advise Owner on all aspects of the Project including the consideration of green alternatives proposed by the architect in the schematic design phase;
- (b) review agreements which Owner may desire to enter into with respect to the Project;
- (c) consult with Owner in connection with the preparation of budgets, reports, scheduling, evaluations, cost estimates, bid packages in connection with the selection of contractors, materials, and issuance of permits;
- (d) approve invoices and issue payments for contractors, subcontractors, materialmen and other ordinary expenses related to the Project;
- (e) advise Owner obtaining necessary permits, complying with applicable laws, and making sure that all necessary safety precautions have been obtained; and
- (f) advise Owner as to the types and amounts of insurance that Owner should carry with respect to the Project.

The parties acknowledge that Manager will devote a least twenty-four (24) hours per week during the remodeling phase and forty (40) hours per week during the new construction phase.

3. Contract Price. Owner agrees to pay Manager for its duties hereunder the sum of One Hundred Twenty-Five Dollars (\$125) per hour. Manager shall keep track of, and account to Owner for, the number of hours which he works directly

for the Project.

4. Indemnity. To the fullest extent permitted by law, Manager shall indemnify, defend and hold harmless Owner and Owner's agents and employees from and against all claims, damages, losses and expenses, including, but not limited to, attorneys' fees arising out of or resulting from the performance or non-performance of his duties hereunder. Manager will obtain errors and omissions insurance with respect to his duties hereunder in such amounts as Owner shall reasonably designate.

5. Debris. Manager agrees that at all times Manager shall keep the premises free from accumulation of waste materials or rubbish caused by any contractor's operations.

6. Default. If Manager is adjudged a bankrupt, makes a general assignment for the benefit of creditors, if a receiver is appointed on account of Manager's insolvency, if Manager persistently or repeatedly fails to diligently perform his obligations hereunder to Owner's satisfaction, Owner may, after seven (7) days' written notice to Manager, and without prejudice to any other remedy Owner may have, terminate the services of Manager.

7. Notices. Whenever Owner or Manager shall make any demand or serve any notice which is required to be in writing under the terms of this Agreement upon the other, the same shall be in writing and shall be sufficiently given if sent, postage prepaid, by United States registered or certified mail addressed

If to Owner: The Johnson Company

If to Manager: Donnelly Construction Managers, Inc.

or at such other address as Owner or Manager may theretofore by written notice to the other have designated for the service of such notice.

8. Assignment. This Agreement shall not be assigned by Manager without Owner's written consent.

9. Binding Effect. This Agreement shall be binding upon and inure to the benefit of Owner and Owner's successors or assigns, and shall be binding upon and inure to the benefit of Manager and Manager's heirs, personal representatives, successors or permitted assigns.

The parties have hereunto set their hands the day and year first above written.

26-22 Current Legal Forms for Real Estate FORM 22.55

FORM 22.55 Contract for sale of on-site water and sewage facilities--purchaser to erect off-site water supply and sewage disposal plants

COMMENT

Generally, the portions of a water distribution and sewage collection system on the site of a housing development will be constructed by the developer in the course of erecting the houses. However, the additional work that is inevitably necessary to make these systems operative is likely to be shifted by the developer to a separate entity, when they are not already available as public services. This will even be the case when the off-site facilities to which the on-site lines are to be connected are not yet in existence. Water wells, pumping and purification plants, and sewage treatment and disposal plants are generally constructed by separate water and sewage companies which own and operate them.

In this case, the owner is to construct such on-site water mains, valves, hydrants, water meters, and sewage collection lines. The owner will sell these facilities to separate water and sewage companies which will erect the necessary off-site supplementary installations and provide water and sewage services to the residences in the housing development.

FORM

AGREEMENT made this _____[day] day of _____[month],
_____[year], by and between Riverdale Construction Corp., a New Jersey corporation ("the Seller"),
and Water Supply Corporation, a New Jersey corporation, and Sanitation Corporation, a New Jersey corporation,
(hereinafter jointly referred to as the "Buyer").

Recitals

The Seller is the owner of certain tracts of land in the Township of Weston, Brewster County, New Jersey, and is presently engaged in the initial stages of constructing a new residential community, designated as Riverdale, New Jersey.

An extensive system of water supply and distribution, and of sewage treatment and collection must be constructed contemporaneously with the construction of the Riverdale community in order that water and sewer service shall be available to the residents of Riverdale, New Jersey as they occupy the houses therein.

The Seller is engaged primarily in the construction and sale of houses, and finds it neither feasible nor advisable to construct or own the water supply and sewage treatment facilities necessary to serve Riverdale, New Jersey.

Water Supply Corporation has been created for the purpose of constructing and acquiring water supply and distribution facilities, designed to serve Riverdale, New Jersey, and is making arrangements for the construction of a water supply system consisting of wells, pumps, and treatment facilities, which facilities have been designed with a view to supplying adequate service for a predominantly residential community containing approximately 5,000 houses.

Sanitation Corporation has been created for the purpose of constructing and acquiring sewage treatment and collection facilities, designed to serve Riverdale, New Jersey, and is making arrangements for the construction of a sewage treatment and disposal plant, which facilities have been designed with a view to supplying adequate service for a predominantly residential community containing approximately 5,000 houses.

The Seller is about to commence construction of the necessary water distribution and sewage collection facilities to serve Riverdale, New Jersey, to be connected to the water supply and sewage treatment facilities, respectively, which the Buyer will construct.

The Buyer desires to buy, and the Seller is willing to sell, the water distribution and sewage collection facilities, for the price and upon the terms and conditions hereinafter set forth.

Now, therefore, the parties agree as follows:

1. *Sale.* The Seller agrees to sell, and the Buyer agrees to buy:

(a) The complete water distribution system to be constructed by the Seller to serve Riverdale, New Jersey, and all easements, rights, equipment, and installations appurtenant thereto, including, but not by way of limitation, the water mains, the valves, the hydrants, the water storage facilities, the water meters to be installed in the houses, and the service lines between the mains and the water meters, all of which are the "water distribution facilities," and

(b) The complete sewage collection system to be constructed by the Seller to serve Riverdale, New Jersey, and all easements, rights, equipment, and installations appurtenant thereto, including, but not by way of limitation, the laterals and the wye branches appurtenant thereto, the collector lines, the trunk sewers up to the site of the Buyer's sewage treatment and disposal facilities, the force mains, and the pumping stations other than the main pumping station to be erected at the site of such sewage treatment and disposal facilities, all of which are the "sewage collection facilities."

2. *Method of conveyance.* On the first (1st) day of _____[month], _____[year], and on the first (1st) day of _____[month] of each year thereafter, so long as Seller shall continue the construction of Riverdale, New Jersey, (conveyance dates), the Seller shall transfer and convey to the Buyer all of the Seller's right, title, and interest in and to the portions of the water distribution and sewage collection facilities that are completed by the Seller as of the conveyance date and not previously acquired by the Buyer; provided, however, that in

the case of any such facilities located within a numerically designated section of Riverdale, New Jersey (pursuant to subdivision maps filed with the appropriate township authorities), such facilities shall not be conveyed to the Buyer unless on the conveyance date not less than one half of the houses planned to be constructed in the section are completed and occupied. However, during the period prior to conveyance thereof, all water distribution and sewage collection facilities connected to occupied houses in Riverdale, New Jersey shall be and remain available, without charge, for the use of the Buyer and of the Buyer's assignees, lessees, and successors in interest, for the purpose of furnishing water and sewer service to such houses.

3. *Purchase price.* The purchase price for the sale of the water distribution and sewage collection facilities shall be an amount equal to \$450 multiplied by the total number of houses constructed by the Seller, connected to the water distribution and sewage collection facilities, and delivered to the Seller's customers, which sum shall be paid in the following manner, to wit:

Commencing _____[date], and on the first day of June, September, December, and March of each year thereafter until the entire purchase price is paid, the Buyer shall pay to the Seller an amount equal to \$11.25 multiplied by the number of houses so delivered; provided, however, that when 40 installment payments have been made for any house, so that the full amount of the \$450 has been paid for the house, that house shall not thereafter be counted in computing succeeding installment payments. Upon default in the payment of any installment of the purchase price on the date due, the entire unpaid balance of the purchase price (or, if the unpaid balance cannot be ascertained because the Seller has not completed the construction of houses in Riverdale, New Jersey, then the unpaid balance of that portion of the purchase price based upon houses delivered prior to the date of default) shall, at the Seller's option, become immediately due and payable, and the Seller, at its option, shall be relieved of any further obligation to convey portions of the water distribution and sewage collection facilities to the Buyer.

4. *Buyer's obligations.* The Buyer shall:

(a) Construct, on land owned by the Buyer, wells and pumping and treatment facilities that shall be capable of providing potable water, of chemical content conforming to the standards of all governmental authorities having jurisdiction, in quantity at least sufficient to meet the reasonable requirements of all houses constructed by the Seller in Riverdale, New Jersey, as they shall become occupied, and also to meet the reasonable requirements of all fire-fighting facilities constructed by the Seller in connection with the development of Riverdale, New Jersey.

(b) Construct, on land owned by the Buyer, sewage treatment and disposal facilities that shall be capable of providing sewage treatment and disposal, conforming to the standards of all governmental authorities having jurisdiction, and at least sufficient to meet the reasonable requirements of all houses constructed by Seller in Riverdale, New Jersey, as they shall become occupied.

(c) Make suitable arrangements, which shall become effective no later than _____[date], and which shall remain effective thereafter for a period of not less than 40 years, to assure that the water supply and sewage treatment and disposal facilities, and the water distribution and sewage collection facilities, shall continuously be available for water and sewer service to the occupants of houses in Riverdale, New Jersey. Such service shall be rendered by one or more corporations subject to the jurisdiction of the Board of Public Utility Commissioners of the State of New Jersey, or by one or more duly organized municipal utilities authorities, or by the Township of Weston, or by a combination of the foregoing. In the event of the Buyer's failure to comply with the provisions of this subparagraph (c), the Seller, at its option, shall be relieved of any further obligation to convey portions of the water distribution and sewage collection facilities to the Buyer.

(d) In concluding the arrangements referred to in subparagraph 4(c), it will use its best efforts to provide assurance that the rates charged to consumers of water and sewer services in Riverdale, New Jersey, shall compare favorably with rates prevailing in comparable communities in Northern New Jersey.

5. *Good title.* The Seller shall furnish on each conveyance date appropriate instruments of conveyance sufficient to vest in the Buyer, subject to no prior liens or encumbrances, good and marketable title to all of the physical components of the portions of the water distribution and sewage collection facilities then being conveyed, together with all such rights-of-way and easements as shall be necessary and appropriate for the operation, maintenance, and improvement of the portions of the facilities conveyed.

6. *Quality of work.* The Seller covenants, represents, and warrants that the water distribution and sewage collection facilities will be constructed in good workman-like manner in accordance with generally accepted engineering practice, and that when completed they will be adequate for the furnishing, respectively, of water and sewer service at least for the houses constructed by the Seller in Riverdale, New Jersey and connected to such facilities.

7. *Place of conveyances.* Conveyances shall be made on each conveyance date (or if any conveyance date be a Sunday or legal holiday, then on the next ensuing day that is not a Sunday or legal holiday), at 11 a.m., at the Seller's executive offices, or at such other place as may be mutually agreed upon by the Seller and the Buyer.

8. *Assignment.* No assignment of this agreement by either party shall be valid unless consented to in writing by the other party.

9. *Survival of covenants.* All of the promises, covenants, terms, and conditions of this agreement shall survive the conveyances hereunder.

10. *Binding effect.* This agreement, subject to the provisions of Paragraph 8 shall extend to and bind the successors and assigns of the respective parties.

The parties have executed this agreement the day and year first above written.

26-22 Current Legal Forms for Real Estate FORM 22.56

FORM 22.56 Trust agreement for water and sewage facilities--trustee to provide temporary facilities and arrange for central facilities

COMMENT

This trust agreement illustrates a technique for providing first temporary and then permanent water and sewage facilities to the homeowners in a housing development. It sets forth the basic terms between a developer and a servicing organization. In certain circumstances more elaborate trust provisions may be desirable.

The developer is to collect fees from the homeowners and turn them over to the trustee. The trustee is to use the funds to furnish and maintain temporary water and septic tank facilities for each homeowner until central water and sewage facilities become available. The trustee is then to pay the cost of connecting each home to these central facilities.

The developer under this type of arrangement incurs no burden for the water and sewage facilities, and therefore, has no costs to allocate to his property. Each homeowner must capitalize the fees he pays as part of the tax cost of his property, and may not take the fees as deductions at the time they are paid. The future obligation of a lot owner to pay the fees will be contained either in his deed, or in a set of recorded restrictions, or in both.

FORM

DECLARATION OF TRUST made between Waterside Land Corporation, a Florida corporation, the Developer, and Homes Service Corporation, a Florida corporation, the Trustee.

Recitals

The Developer is the developer of Red Sand Subdivision, according to the maps or plats recorded among the public records of Lee County, Florida.

It is desirable and necessary to establish an improvement fee against the properties being developed, in order to assure to the persons residing therein adequate water and sewage facilities which will be connected to a central system when such system becomes available.

A general deed of restriction has been recorded in Miscellaneous Book 460, Page 100, Public Records, Lee County, Florida, providing for the charge of the improvement fees and that the Trustee act as trustee of the funds thereby collected.

The Trustee has agreed to act as trustee of the funds, upon the terms and conditions as hereinafter set forth.

Now, therefore, it is agreed between the Developer and the Trustee as follows:

1. *Collection of fees.* From and after the effective date of this Declaration of Trust, the Developer shall pay to the Trustee all improvement fees previously collected or subsequently collected by it from the purchasers of land in Red Sand Subdivision, and hereafter to collect an improvement fee of \$3,000 per homesite and pay the same to the Trustee.
2. *Trustee's obligation.* The Trustee shall furnish to each owner of property in Red Sand Subdivision who pays the improvement fee the following: (a) water; (b) septic tank; (c) the reasonable maintenance cost of the same during the term of this trust, or until central water and sewage facilities are available; (d) when central water and sewage facilities become available, the cost of connecting each such owner with the facilities, including the cost of all necessary materials, but not required meter or other deposits or connection charges.
3. *Investment of fees.* During the term of this trust, the Trustee shall invest and reinvest all funds paid to it under the terms and conditions of this trust in such manner as to obtain a reasonable return, and shall maintain full and complete records of accounts of all the funds and furnish to the Developer an annual accounting of the funds.
4. *Trustee's expenses.* The Trustee may charge against the trust funds only the expenses necessary and proper for the administration of this trust including, but not limited to, salaries, investment counsel, and legal fees.
5. *Substitution of trustee.* The Trustee, in its discretion, may designate a person or persons to act in its place and stead under this trust, subject, however, to the same terms and conditions hereof, and after first obtaining the written consent of the Developer. In the event of a failure of the Trustee to act, or to designate someone to act in its place, the Developer reserves the right to designate a new trustee, and in such event, all sums then in the hands of the Trustee or person designated by it, shall immediately be turned over to the Developer or to such person as it may designate, together with all records relating thereto.
6. *Term of trust.* This trust shall terminate 20 years from the date hereof or upon the installation of central water and sewage facilities in and to all of Red Sand Subdivision, whichever shall first occur, unless extended by the Developer.

The respective parties have caused this instrument to be executed by their respective presidents and attested to by their respective secretaries, and their respective corporate seals affixed hereto, this _____[*day*] day of _____[*month*], _____[*year*].

26-22 Current Legal Forms for Real Estate FORM 22.57

FORM 22.57 Contract through which municipality acquires private water company presently serving residential real estate development

COMMENT

In many rural areas of the country, it is often necessary for a real estate developer to build its own water system to meet the future needs of the purchasers and/or tenants who will be moving into the developer's newly-built residential project. The construction of such a system becomes necessary when no municipal water system yet exists.

Of course, the developer can opt for drilling a well and installing pumping equipment for each home. However, such individual wells are often unattractive to home buyers who are already accustomed to the trouble-free convenience of using municipal water. In addition, it may be less costly in the long run for the developer to drill several large wells that will serve the entire development rather than--for example--200 small, individual wells, each serving a single home. Finally, a development-wide water system tends to provide a far more steady and reliable level of service than many individual wells.

With the passage of time, the municipality surrounding the real estate development will gradually grow. Residents outside the development, who in the past have relied on their own wells for water, may want the municipality to begin meeting their water-supply needs. In such cases, many municipalities have found that, rather than constructing a new water system from scratch, it is far easier and less expensive to purchase existing water systems presently serving local real estate developments, expand these systems (if necessary), and link them together. Area residents can then be tied into the system and charged a monthly or quarterly fee for the service. Funding necessary to finance the cost of acquisition can usually be raised if the municipality floats a bond at a low rate of interest. This approach allows the impact of the cost of acquisition to be spread over a considerable period of time.

The form below is an agreement through which a municipality acquires a private water system.

FORM

AGREEMENT made this _____[day] day of _____[month],
 _____[year], between _____[insert name of entity] WATER COMPANY, INC.
 (hereafter referred to as "Company"), a corporation existing under the laws of the State of
 _____[state], with offices for the transaction of business at _____[address], and THE
 TOWN OF _____[insert name of town] (hereafter referred to as "Town"), a municipal corporation
 organized under the laws of the State of _____[state], with offices for the transaction of business at
 _____[address].

WITNESSETH:

WHEREAS, Company is the owner and operator of a private water system located in the Town; and

WHEREAS, the Town has decided to acquire the water system owned by Company as part of the Town's municipal water system;

NOW, in consideration of the mutual promises contained herein, it is agreed as follows:

1. *Transfer.* Company agrees to transfer to the Town all its right, title and interest in and to the water franchise and operating permits held by Company. In addition, Company agrees to transfer to the Town all equipment, fixtures and supplies used in the operation of the Company. A complete list of such personalty is set forth in Exhibit A, which is attached hereto and made a part hereof. Company also agrees to transfer to Town all real estate owned by Company. A metes and bounds description of said real estate is annexed hereto as Exhibit B and made a part hereof.

2. *Purchase price.* The Town shall pay the sum of _____ Dollars (\$_____)
 _____[insert number, e.g., two (2) million] for the purchase of the items set forth in Paragraph 1
 above. Said sum shall be paid in _____[insert number, e.g., four (4)] equal installments of
 _____ Dollars (\$_____) _____[e.g., \$500,000] on the following
 dates:

(a) date of closing and transfer of title;

(b) _____[insert number, e.g., four (4)] months thereafter;

(c) _____[insert number, e.g., eight (8)] months after closing; and

(d) _____[insert number, e.g., twelve (12)] months after closing.

No interest shall be payable on these installments, unless they are not paid when due. The interest rate, where applicable, shall be _____[insert number, e.g., six (6)] percent per annum and shall be due and payable with the overdue installment.

3. *Conditions precedent*

(a) *State approval of agreement.* This agreement shall be contingent upon receipt of approval of the transfer from the _____ [insert name of applicable government agencies that must approve deal, e.g., Public Service Commission and the Department of Environmental Conservation] of the State of _____ [state]. Company shall make application for approval within _____ [insert number, e.g., thirty (30)] days after execution of this Agreement. The Town shall cooperate by providing any and all information required for the application to win approval. In the event that approval is not received by _____ [date], either party may terminate this Agreement.

(b) *Town to sell bonds to finance acquisition.* This Agreement shall also be contingent upon the Town's ability to sell municipal bonds in the amount of _____ Dollars (\$ _____) [insert number, e.g., two (2) million]. Upon execution of this Agreement, Town shall commence the legal work needed to sell said bonds. The Town shall use its best efforts to have at least _____ [insert number, e.g., twenty-five (25)] percent of the proceeds available on or before _____ [date]. In the event that _____ [insert number, e.g., twenty-five (25)] percent of the proceeds are not available by such date, either party may terminate this Agreement.

4. *Inspections.* The Town acknowledges that it has had an opportunity to inspect the entire physical plant of Company. The Town acknowledges that it has had an opportunity to test equipment and to test water quality and quantity. Company shall allow the Town continuing access to do further tests and inspections prior to the closing and the transfer of title. The parties acknowledge that the sole purpose of further testing is to allow the Town to be completely familiar with the condition and the use of the operating equipment, so as to be fully prepared to assume its obligations upon transfer of title. The Town may not use the results of inspections or testing to renegotiate the purchase price.

5. *Repairs.* Company shall keep the system in good working order until the date of closing and transfer of title. All repairs and ordinary maintenance shall be performed at the sole expense of Company. The Town shall be entitled to a final inspection on the date of closing and transfer of title in order to be certain that the system is in good working order.

6. *Notice to customers.* When the conditions precedent contained in Paragraph 3 hereof have been satisfied, Company shall send a notice to all customers:

- (a) notifying them of the imminent transfer to the Town and the expected date thereof; and
- (b) providing a telephone number and address to use in order to obtain further information.

Company shall maintain a knowledgeable staff to respond to telephone calls between the hours of _____ [e.g., 8:00 a.m. and 6:00 p.m.] from _____ [e.g., Monday through Friday], beginning on the date notice is sent and continuing until the closing and transfer of title.

7. *Billings*

(a) One week prior to the closing and transfer of title, Company shall do a final reading of all water meters. Company shall prepare and send a final water bill to each customer. Company shall be entitled to collect all revenues generated from said final reading.

(b) Company shall reset all water meters to the "zero" setting and affix a new seal to each meter when performing the final reading.

(c) Company shall be entitled to retain all past billing records. Company shall provide access to such records if requested by the Town.

8. *Closing.* The closing and transfer of title shall take place within _____ [insert number, e.g., sixty (60)] days after the satisfaction of the conditions precedent contained in Paragraph 3 hereof. The parties shall set a mutually-convenient date for the closing upon satisfaction of the conditions precedent. The closing and transfer of title shall take place at the office of the Town Attorney, _____ [insert name], located at _____ [address]. The time of the closing shall be _____ a.m./p.m. _____ [insert time], or such other time as the parties may agree upon.

9. *Adjustments.* The parties shall make adjustments for real property and school taxes levied against the property as of the date of closing and transfer of title.

10. *Representations by Company.* Company hereby represents and warrants the following:

- (a) it shall provide its customer list, including names and addresses, to the Town on the date of closing and transfer of title, and that such customer list shall be true and accurate;
- (b) Company has not and will not accept any prepayment of water bills for services to be provided following the closing and transfer of title;
- (c) Company is a corporation in good standing with the Department of State of the State of _____ [state];
- (d) Company has paid all outstanding franchise taxes and income taxes as of the date of closing and transfer of title;
- (e) Company has given UCC bulk sales tax notices to all of its creditors;
- (f) Company is not subject to the sales tax of the State of _____ [state];
- (g) Company is duly authorized to operate its water system by the _____ [insert names of applicable government agencies, e.g., Public Service Commission and the Department of Environmental Conservation] of the State of _____ [state];
- (h) the water rates charged by Company have been duly approved by the _____ [insert name of applicable government agency, e.g., Public Service Commission] of the State of _____ [state];
- (i) Company has not charged any customer a rate in excess of the rate approved by the _____ [insert name of applicable government agency, e.g., Public Service Commission] of the State of _____ [state];
- (j) there are no unresolved disputes with any customers over the amount of any water bill, the quality of service, the rate charged, or any other matter;
- (k) all properties serviced by Company have water meters installed and that, to the best of Company's knowledge, all such meters are in good working order; and
- (l) Company has the requisite power and authority to transfer the assets of the corporation.

These representations and warranties shall survive the closing and transfer of title.

11. *Representations by the Town.* The Town hereby makes the following representations and warranties:

- (a) the Town is fully authorized to purchase from Company the water system described in Paragraph 1 hereof, at the

price set forth herein;

(b) the Town Council, at a regular or special meeting and when a legal quorum was present, unanimously approved this purchase during the public session of such meeting; and

(c) there is no litigation pending or threatened which would prevent this sale or the sale of bonds contemplated hereunder.

These representations and warranties shall survive the closing and transfer of title.

12. *No representations.* Company makes no representation or warranty with respect to the following matters:

(a) the state of any equipment or of any water lines, except that all equipment shall be in good working order on the date of transfer of title;

(b) whether any customer or other person has tampered with any water meter;

(c) the adequacy of any wells or pieces of equipment; and

(d) whether there are any adverse environmental conditions on any properties owned by Company which are to be transferred to Town hereunder.

13. *Entire agreement.* This Agreement, together with the other written agreements and instruments executed concurrently herewith or pursuant to the provisions hereof, contains the entire agreement between the parties concerning the matters herein set forth and supersedes all prior agreements between them respecting such matters.

14. *Counterparts.* This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. At the trial of any matter arising under this Agreement, only one counterpart need be produced.

15. *Headings.* Paragraph headings are for the purposes of convenience and identification only and shall not be used to interpret or construe this Agreement.

16. *Waivers.* Except as herein expressly provided, no waiver by either party of any breach of this Agreement, or of any warranty or representation hereunder, shall be deemed to be a waiver by the same party of any other breach of any kind or nature (whether preceding or succeeding the breach in question, and whether or not of the same or similar nature).

No acceptance by a party of payment or performance after any such breach shall be deemed to be a waiver of any breach of this Agreement or of any representation or warranty hereunder, whether or not the party knows of the breach when it accepts such payment or performance.

No failure by a party to exercise any right it may have under this Agreement or under law upon another party's default, and no delay in the exercise of that right, shall prevent it from exercising the right whenever the other party continues to be in default. No such failure or delay shall operate as a waiver of any default or as a modification of the provisions of this Agreement.

17. *Gender and number.* Whenever the singular or plural number, or the masculine, feminine or neuter gender, is used herein, it shall equally include the other(s).

18. *Notices.* Any notice which any party is required or may desire to give hereunder shall be in writing and may be

personally delivered, transmitted by facsimile machine, or delivered by the United States Postal Service or private delivery service to the above addresses. Notice is deemed given when received.

19. *Governing law.* This Agreement shall be construed and enforced in accordance with the laws of the State of _____ [state].

20. *Binding effect.* This Agreement shall be binding upon, and inure to the benefit of, both parties and their respective heirs, representatives, successors and assigns.

21. *Modifications.* This Agreement may be modified only by a written document signed by representatives of both parties. A purported oral modification shall not be effective.

The parties hereto have set their hands and seals the day and year first above written.

EXHIBIT A

The following is a list of all equipment, fixtures, supplies and other personalty which is used by the Company in its operations and is being transferred to the Town:

(1) all water mains and laterals lying beneath the ground in that housing development commonly known as _____ [insert name of development, e.g., Piccard Glen];

(2) a water storage tank;

(3) _____ [insert number, e.g., six (6)] wells;

(4) _____ [insert number, e.g., three (3)] pumps;

(5) a pumping station, including all fixtures and equipment;

(6) spare parts for pumps; and

(7) chemicals for water treatment.

EXHIBIT B

[Insert here a legal description of all real property that is being transferred to the Town as part of the sale]

C. PLANNING AND CONSTRUCTION

26-22 Current Legal Forms for Real Estate FORM 22.58

FORM 22.58 Preservation covenants and easements--historic property

COMMENT

Covenants and restrictions variously include true easements, negative easements or restrictions, or affirmative easements or restrictions.

True easements.

A true easement runs with the land. It is perpetual and thus all grantees and future conveyances are automatically subject to the easement in perpetuity, with or without notice, unless it is extinguished or abandoned.

The vast majority of negative easements and restrictions (which are easements which prohibit the grantee from doing something with his property) are true easements: they run with the land automatically and they are created by the grantor who spells them out in his grant or deed.

Affirmative easements and restrictions.

An affirmative restriction ordinarily does not run with the land unless the grantee expressly assumes performance. This is why it is necessary to have the grantee assume and assent to these affirmative obligations in the contract of sale, coupled with a security deposit to insure the faithful performance of these covenants and obligations by the grantee. Thereafter they are recited in the grantee deed and are declared to bind him and his successors, be they purchasers, assigns, tenants, or heirs. At common law there are essentially three methods to create covenants and restrictions (easements).

Adjacent land covenants and restrictions.

The most common type of covenant or restriction is created when the grantor retains contiguous or adjacent land and creates easements or restrictions on the land conveyed which burden this land for the benefit of the grantor. Examples: The grantor has the right to go across the land conveyed; the grantor has the right to use the grantee's underground water; the grantor may have the right to restrict the subdivision of the same, to prohibit the grantee from erecting anything but a single family dwelling and various other uses of the property; a grantor reserves the right-of-way or a driveway through a grantee's land in favor of the grantor as a contiguous owner. (An easement should always be spelled out in the deed from the grantor to the grantee.)

Subdivision covenants and restrictions.

The second common type of covenant or restriction involves the subdivision of a tract of land. The land is subdivided and mutual covenants and restrictions are created for the benefit of all the future owners of the parcels. Whole developments have been created in this manner.

Area covenants and restrictions.

A third common method is to create covenants and restrictions and to expressly declare that they are to run with the land for the benefit of other parcels in an area or the owners of these other parcels. By creating these types of easements, the grantor expressly gives a right at law or in equity to the grantor, his legal representatives or assigns or to other persons thereafter owning or possessing any lot or property fronting on the street or area upon which the property conveyed is situated, to sue any person violating the covenants and restrictions or to otherwise enforce the covenants and restrictions. An example is a setback restriction which is the number of feet a person must build from the property line fronting a street or avenue.

Accomplishing preservation society purposes.

The creation of covenants and restrictions by this third method is not necessarily advantageous to a preservation society because it would not wish to give strangers the right to enforce the society's covenants and restrictions which were granted for a specific purpose. For example, in conveying the land upon which an historical house is situated, the owner and future owners may be prohibited from subdividing this parcel of land which contains more than one conforming building plot. At some time in the future the society might wish to waive this restriction if it were able to persuade the present or future owner to do so for the purpose of moving and placing a dwelling or building worthy of preservation on a subdivided plot on this land. If adjacent or neighboring property owners, however, had the right to enforce this restriction, this worthwhile project, however remote, could never be achieved.

Personal covenants to ensure preservation.

In view of the fact that a preservation society seldom, if ever, owns contiguous or adjacent land and a preservation society is rarely, if ever, in the business of subdividing large tracts of land, the most effective tool or vehicle through which a preservation society can create covenants and restrictions is a personal covenant or restriction. Ordinarily, personal covenants or restrictions are contracts, such as a contract between a builder and an owner. Generally, personal preservation covenants are assignable, fixed in duration, and terminated at the death of the grantor and/or grantee. However, if the grantee binds heirs and assigns to preservation covenants, the preservation society can continue to enforce the obligations and restrictions over a much longer

period of time.

Preparing effective preservation covenants.

Certain practices enhance the ability of a preservation society to enforce preservation covenants and restrictions. Incorporation of the preservation society, as a not-for-profit or similar corporation, will establish it as a separate legal entity with perpetual existence. Tax-exempt status should be obtained if the society is qualified. The covenants and restrictions should be expressly enforceable and survive the death of the grantee or any future conveyance of the property. The covenants and restrictions can also be included in the deed to the grantee (as well as the contract) with the grantee's assumption and assent to them. As an additional precaution, the preservation society could require a cash security, held in escrow, to insure performance of any affirmative obligations of the grantee. The funds would be used by the preservation society to complete the work required by the grantee or refunded to the grantee on satisfactory completion of the requirement.

FORMS

(1) Negative easements

1. *House, building and construction.* No building or construction as hereinafter described and specified, shall be commenced by the Grantee until the plans and specifications have been approved by the Grantor.
2. *Exterior of house.* No exterior doors or windows shall be relocated without the express permission of the Grantor. No exterior doors shall be placed in this wall without the express permission of the Grantor.
3. *Subdivision.* The land shall not be subdivided, now or hereafter, in order that the aims set forth in the above declarations shall not be placed in jeopardy, except certain portions of the land are not to be considered to be essential to the accomplishment of the above aims and declarations, and may be sold, if desired, subject to conditions annexed hereto.
4. *New construction.* No new construction, other than replacement of existing construction, shall be completed between the east facade of the house and Old Northern Boulevard and including the entire distance from the north to the south boundary. This area shall not be used for parking and its general garden-like quality shall be preserved and enhanced.
5. *New residence and/or accessory building.* No new residence or accessory buildings, such as garages, tool sheds or decorative garden structures or additions thereto shall be built upon or made to the existing buildings without the written permission of the Grantor corporation, its successors or assigns. If the corporation is no longer in existence, approval must be granted by the Board of Trustees of the Baymont Landmark Society, or if this group is not in existence, by the Historic District Board of the Incorporated Village of Baymont.

(2) Affirmative easements

1. *Exterior of house.* Exterior siding shingles shall be retained so far as is feasible. Replacement shingles shall be made of wood and shall have the same overlap exposure as existing shingles.

The garage doors shall be removed from the west wall of the house, and this wall shall be closed in to conform to the remainder of the structure. Two ground floor windows shall be installed in this wall which shall be symmetrically placed and which shall conform as closely as feasible to the surviving nine-over-six window in the north wall of the

house. The two loft windows in the west wall shall be made symmetrical in position by the relocation of the northerly window. If this window requires replacement, the replacement shall conform to the southerly window. A chimney shall be constructed at the west end of the house. This shall conform, approximately, in size and position to the existing chimney at the east end of the house. All exposed portions of the chimney, interior as well as exterior, shall be constructed of used brick, or of brick acceptable to the grantor.

Two porches, approximately 6 to 8 feet in width, originally were situated at the clapboarded areas of the north and south walls of the nineteenth century part of the house. The porch on the south wall shall be replaced. The Grantee is encouraged to replace the porch on the north wall of the house, but is not required to do so. In the event the Grantee elects not to replace the north porch, the existing clapboards shall be removed, and replaced with wooden shingles having the same overlap as do the existing shingles on this wall of the house.

The front porch shall be restored in conformity with the Grantor corporation's architectural drawings and specifications which will provide for the restoration of the original "broken-front" contour of the porch; the utilization of appropriate porch columns, and the restoration of the medallioned porch cornice.

The Corinthian pilasters at each side of the principal entrance shall be stripped of their later shingles and refurbished as required. The front doors and doorway shall be stripped of later, reticulated paint prior to repainting.

2. Interior of house. Four of the interior rooms are considered to have special architectural merit and shall be restored, as closely as possible, to their original appearances. In each of these rooms the original flooring and all other surviving architectural panelling and trim shall be preserved and utilized.

In the restoration of the Center Hall, the stairway structure shall be jacked up to or near level. The ceiling shall be restored in accordance with the specifications. The stair-rail and balusters shall be stripped of finish, carefully, and refinished with an approved finish. The condition of the artificially grained panelling, beneath the stairway, shall be discussed with the Grantor corporation, and retained, if feasible.

In the restoration of the front parlor the cracked mantel facing shall be removed, repaired and replaced. The firebox opening shall be trimmed with brass, temporarily, with the understanding that this trim will be replaced by a more proper installation if and when the Grantor corporation is able to find one.

(3) Restrictions running with the land

SUBJECT to the following Declaration of Covenants, Conditions, Limitations, Restrictions and Easements, which said declarations shall constitute covenants to run with all of the aforesaid described land and shall be binding upon the grantee herein and all other persons and parties claiming through the grantee herein and for the benefit of and limitation upon all future owners of said land and premises, this declaration of restrictions being designed for the purpose of assuring the preservation of the rural wooded character of the land and the restoration of the Jonas Williams House (which was built about 1770 and enlarged about 1825) for use as a residence; and during such restoration to preserve to as great a degree as possible its original architectural character and detail which has not been substantially altered; to permit modernization, to that end with the intention that the traditional architectural quality of the early buildings and parts of Baymont Village shall be contributed to and maintained.

(4) Enforcement of above provisions

The provisions contained herein shall be enforceable at law or in equity by the Grantor, by the Board of Trustees of the Baymont Landmark Society, and/or the Historic District Board of the Incorporated Village of Baymont. In any action to enforce the provisions herein, the Grantor, or other enforcing party, shall be entitled to recover its legal fees and expenses in the event that a court shall determine that Grantee has committed or suffered one or more violations of the

provisions herein contained.

This Declaration shall be recorded in the office of the clerk of the county in which the subject property is situated.

Grantor

Grantee

Part IV. FORMS

D. COMMERCIAL DEVELOPMENT Shopping Centers, Industrial Buildings and Office Buildings

26-22 Current Legal Forms for Real Estate FORM 22.59

FORM 22.59 Lease in shopping center to be constructed by lessor--tenant's building requirement to be satisfied--minimum and percentage rentals

COMMENT

A basic attraction of the regional shopping center is the potential increase in the business of each tenant by reason of the proximity of other successful tenants. The center contains a variety of stores and services, thus providing the consumer the opportunity for "one stop" and comparative shopping. Another major factor in shopping centers is the easy flow of traffic and the availability of parking facilities. Each tenant is not only concerned with the adequacy of access roads and parking areas, but also with their maintenance and repair.

Necessity for long term commitments.

The successful development of a regional shopping center is dependent to a large extent on the developer obtaining long term lease commitments, prior to construction, of one or more prime tenants as major tenants of the center. This is necessary for two reasons:

(1) The reputation, quality, and merchandising ability of a major store are strong factors in attracting smaller stores which will be dependent on the consumer traffic generated by the prime tenant; and

(2) Long term leases with major tenants are a prerequisite to the developer obtaining the financial backing of lending institutions in order to construct the shopping center. However, this puts the major tenants in a strong bargaining position with the developer enabling them to obtain concessions in their leases which would not otherwise be in the developer's best interest since his freedom of choice in selecting other tenants is thereby restricted.

Exclusionary provisions.

Whether or not certain exclusionary provisions in a shopping center lease will be held in violation of the antitrust statutes would depend on many factors including the tenant mix of the shopping center, the competitive area involved, the market serviced, as well as whether the legitimate economic or business justification for the particular provision outweighs its anticompetitive effects.

Approval right provisions are especially suspect because of the broad anticompetitive possibilities created thereby. Such provisions confer upon the lessee the power to exclude potential entrants for any reason whatsoever, including the fact that such entrants may compete with the lessee on the basis of price or other factors. The lessee may also condition the entry of a competitor upon its adoption of suitable pricing policies.

However, a provision in a lease requiring the lessor to select as tenants, businesses which are financially sound and of good reputation will not be in violation of the antitrust statutes. Nor would lease clauses requiring the developer to consider the objective of maintaining a balanced and diversified grouping of stores, merchandise, and services in the shopping center, or clauses which prevent a developer from leasing space to a tenant who would create undue noise, litter, or odor be objectionable.

Regulatory provisions.

The successful operation of a shopping center depends, to a large degree, upon its attractiveness as a whole. Provisions requiring that reasonable standards of appearance, signs, maintenance, and housekeeping be maintained in the center would not be precluded.

A lease requirement that a tenant join an association and pay dues for the maintenance of the shopping center should, in itself, be considered as justifiable and fair. The question in determining the reasonableness of the requirement is not the means by which the money is collected but the use to which it is put. It can be seen that the regulation of the price range of the merchandise sold or the prohibition of discount advertising, whether by a lease provision or the regulations of a merchant's association, may create the same anticompetitive results as the prohibition of discount houses and covenants not to compete.

"Exclusive use" provision.

The idea of a shopping center as a "one stop" shopping place for the consumer presupposes that the various businesses will be complementary to each other, rather than overlapping and competitive. Protection against competition by neighboring tenants is afforded in the lease illustrated by an "exclusive use" provision which, however, may be in violation of the antitrust statutes as previously discussed. The tenant, who in this case will operate a supermarket, is assured that food departments will not be operated elsewhere in the shopping center.

Should this provision not be challenged, judicially or administratively, the remedies available to the tenant when another tenant conducts competing activities in violation of its lease vary considerably. Since there is no privity of contract among the tenants, the injured tenant is limited in its right of action against offending tenants. In this case, the tenant may select one or more of several remedies vis-a-vis the landlord, including termination of the lease, payment of only the percentage rent, and recovery from the landlord of the expenses incurred in eliminating the prohibited activity. In addition, the tenant is given the right to enjoin the prohibited use in its own

name or in the name of the landlord.

Right of tenant to terminate lease in absence of other tenants.

To insure the proximity of other business enterprises, the tenant is given the right to terminate the lease unless within a specified time leases are entered into with other types of tenants, and stores are constructed and are ready for occupancy by them.

Parking facilities.

Provisions in the lease dealing with parking facilities afford ample protection to the tenant. The ratio of parking space to floor space is adequate. The tenant is permitted to recover for its expenses to correct the landlord's defaults as well as to elect to pay only percentage rent or terminate the lease.

Construction of tenant's premises.

To attract some tenants, especially where leases are to be executed before construction begins, the developer may have to formulate his plans to satisfy the special needs of those tenants. This type of tenant will insist upon various standards and guarantees of construction, and upon protection against mortgagees and other lienors. In the lease illustrated, provision is made for the tenant to approve the proposed and final plans, and to verify that such plans are complied with in the construction. The lease term is to begin when construction is completed, but the landlord is required to keep the heating plant and equipment and all mechanical installations in repair for the first year of the lease.

Rental; minimum rental.

Rent under shopping center leases frequently consists of two components: a guaranteed or minimum rent, and a percentage rent determined on the basis of income from the tenant's use of the premises. The percentage rent provision is designed to enable the landlord to benefit from the center's commercial growth, to give it a stake in the center's future potential, and to counteract the effects of economic fluctuations. The arrangement for minimum rent in this lease is distinctive. Minimum rentals are based on the cost of the land and the improvements. These rentals are calculated so that the landlord will receive as minimum rent the amount required to meet the self-liquidating provisions of the first mortgage on the property. It should be noted, however, that under this lease the landlord must bear the burden of real estate taxes, certain repairs, and insurance.

Percentage rental.

As percentage rent the landlord will receive a fixed percentage of the lessee's gross sales to the extent that such amount exceeds the guaranteed rent. If the lessee exercises the renewal options available under the lease, guaranteed rentals are reduced, so that the percentage rent is likely to become a more significant component of the total annual rent. All rent received by the landlord, regardless of how it is applied by the landlord, constitutes ordinary income. Percentage rent is reported by a cash basis taxpayer when received, but is reported by an accrual basis taxpayer as income for the period in which the sales are made.

Cash flow of landlord.

The cash flow of the landlord will depend upon the relationship between his deductions for depreciation and the mortgage amortization payments, and will fluctuate depending upon the effect of the percentage rental provisions in the lease and the terms of the leases made with other tenants.

FORM

AGREEMENT made and entered into this _____[day] day of _____[month], _____[year], by and between Central Realty corporation, a New York corporation (the "Landlord"), and Mountain Supermarkets, Inc., a New Jersey corporation (the "Tenant").

The Landlord does hereby let unto the Tenant, for a term of 25 years upon the covenants and conditions set forth below, and the Tenant does hereby hire from the Landlord, premises located at _____[address],

_____ [insert description]

as outlined in red on the sketch annexed hereto and made a part hereof as Exhibit A, together with the building to be built thereon by the Landlord as provided below (sometimes hereinafter the "Building"), such premises and any improvements now or hereafter erected thereon sometimes hereinafter called the Demised Premises or Premises. The Premises together with the right to use the property outlined in yellow and marked Parking Area on the annexed Exhibit A are located within the project known as Central Shopping Center (the "Shopping Center") as outlined in green on the annexed Exhibit A.

1. *Building to be constructed.* The Landlord shall erect, at its own cost and expense, upon the Demised Premises at the location outlined in red on Schedule A, a Building containing at least 20,000 square feet on the street level floor, with a basement of at least 10,000 square feet thereunder. Such Building and Parking Area shall be constructed in accordance with the plans and specifications to be prepared by the Landlord and to be approved, in writing, by the Landlord and the Tenant. The Building shall be substantially similar to the Mountain Supermarket being operated at Newark, New Jersey, as to quality and kind of materials and workmanship. A general synopsis of such proposed plans and specifications is annexed hereto, made a part hereof, and marked Schedule B, it being agreed that the final plans and specifications shall embody substantially the items set forth in such general synopsis.

2. *Time of completion.* Immediately upon written approval by the Landlord and the Tenant of plans and specifications for the Building and Parking Area, the Landlord shall apply to all municipal, federal, and other governmental agencies having jurisdiction for permission to erect the Building and to make all the improvements required by this Lease, and the Landlord shall proceed diligently with such applications for such permits. The Tenant shall cooperate with the Landlord and furnish the Landlord with all necessary information and data in its possession required in connection with such applications. The Landlord shall proceed with diligence to complete construction of the Building and the other improvements to be erected and performed by the Landlord hereunder. If the Building is not commenced within 12 months of date hereof or is not completed ready for use and occupancy by the Tenant and possession thereof actually delivered to the Tenant within 12 months of the date of commencement (barring unavoidable delays either arising from strikes affecting construction generally in or about Trenton, New Jersey, or in procuring materials, the availability of which is restricted by governmental action), the Tenant shall have the right, at any time thereafter so long as the construction of the Building has not been commenced or the Building and Parking Area have not been completed within the time hereinabove set forth, to (a) terminate this Lease by giving the Landlord ten days' written notice, and thereupon the Tenant shall be relieved and released of all its obligations hereunder as if this agreement had never been drawn; or (b) extend the Landlord's time for completion thereof and delivery of possession to the Tenant. If the Tenant terminates this Lease pursuant to this Paragraph 2, or any other provision of this Lease, the Landlord shall not, for a period of three

years after such termination, permit, suffer, or consent to the use of any portion of the Shopping Center, of which the Demised Premises are a part, as a supermarket; and this clause shall be self-operative and no further instrument shall be required of the Landlord to make the same effective. In confirmation thereof, the Landlord shall execute any instrument that the Tenant may request, hereby constituting and appointing the Tenant the Landlord's attorney-in-fact to execute any such instrument for and on behalf of the Landlord.

3. *Quality of construction.* Construction of the Building and Parking Area, and any other work to be performed by the Landlord hereunder at any time, shall be undertaken, performed, and completed in a good and workmanlike manner and in full compliance with all provisions of all federal, state, and local authorities having jurisdiction, including all sustainability provisions adopted by the local jurisdiction.

4. *Tests for completion.* For the purposes of this agreement, the Building shall be deemed to have been completed when the Landlord furnishes the Tenant with written proof that:

(a) All the work provided for by the plans and specifications mentioned in Paragraph 1 hereof has been fully completed in accordance therewith.

(b) The certificate of the architects of both the Landlord and the Tenant that the plans and specifications have been complied with are issued to the Landlord and notice thereof given to the Tenant.

(c) A certificate of occupancy is issued by the governmental agency in authority.

(d) The Building and Parking Area shall have been examined and accepted by the municipal or other governmental authorities having jurisdiction.

(e) All streets and highways shown on Schedule A shall have been fully opened as public streets with public sewers installed therein and shall have been fully paved.

(f) Stores for those other tenants of the Shopping Center (of which Demised Premises are a part) referred to in Paragraph 30 hereof shall have been completed ready for occupancy as therein provided, under leases providing for occupancy and opening of business by such other tenants and payment of rentals by such other tenants no later than the commencement date of this lease, and sufficient proof thereof shall have been given to the Tenant herein, as provided in Paragraph 30.

5. *Certificate of occupancy.* The certificate of occupancy referred to in Paragraph 4(c) hereof at the time of the completion of the Building by the Landlord shall authorize the use of the Demised Premises for supermarket and for general retail purposes. The Landlord warrants that at the time of the completion of the Building the street level floor of the Demised Premises when completed may be occupied by the Tenant as a supermarket and for the sale, storage, and processing of items sold in such supermarket, that the basement of the Demised Premises may be used for the storage and processing of items sold in such supermarket, and that the Building will comply with all provisions of all federal, state, and municipal governments.

6. *Rent.* The Tenant shall pay, and the Landlord shall accept, as rental for each lease year (as hereinafter defined) of this Lease the sums hereinafter set forth in this paragraph; provided, however, that for and with respect to each full lease year the Tenant shall pay a minimum annual rental as set forth in Paragraph 41 hereof. Such rental shall be payable as follows: On the first day of each month, in advance, the Tenant shall pay a sum representing one twelfth of the minimum annual rental. On or before the tenth day after the expiration of each three-month quarterly period of each lease year the Tenant shall deliver to the Landlord a statement certified by an executive officer indicating the amount of gross sales during the preceding quarterly period, the first quarterly statement to have added thereto the gross sales during the hereafter mentioned initial interim period, if any, and same shall constitute for that purpose a part of the first

lease year. The Landlord shall have the right to inspect, audit, and verify the Tenant's permanent books of account and records of gross sales relating to the Demised Premises only at the Tenant's office in the City of Newark, at reasonable times during the course of each lease year, upon notice, but not more than twice in any such lease year. If, during but before the expiration of any such lease year, such gross sales exceed 100 times the minimum annual rental, then the Tenant shall pay to the Landlord 1 percent of such excess gross sales above 100 times the minimum annual rental accrued to the end of each quarterly period of such lease year at the time of and together with delivery of such quarterly statement. Any claim by the Landlord for revision of any statement of gross sales which is not made to the Tenant within 30 days after the date when such statement of gross sales is mailed or delivered to the Landlord shall be deemed and hereby is waived by the Landlord. The Landlord shall hold in confidence all gross sales figures and other information obtained from the Tenant's records. The Tenant makes no representation or warranty in regard to gross sales or excess rentals.

For the purposes of this agreement, "gross sales" shall mean the selling price of all goods, wares, and merchandise sold in, upon, or from any part of the Demised Premises by the Tenant or any of its licensees, at retail, on credit, or any other terms, without any deduction or allowances, except that the following shall not be included in gross sales and shall be deducted therefrom:

- (a) Returns or refunds, or credits received in settlement of claims for loss or damage to goods, wares, or merchandise.
- (b) All sales taxes, excise taxes, gross receipts taxes, and similar taxes, whether imposed under any existing or future rules, regulations, laws, or ordinances.
- (c) All receipts from the transfer of goods, wares, or merchandise from the Demised Premises to any other store or warehouse in the chain of stores operated by the Tenant or its affiliates.
- (d) All receipts from the delivery of goods, wares, or merchandise from the Demised Premises to any manufacturers or suppliers thereof, for any purpose except a sale.
- (e) All receipts from vending machines, weighing machines, stamp machines, telephones, and the like, except such portion thereof as the Tenant may retain.
- (f) All receipts from sales to employees made at a discount.

The term "lease year" as used above shall mean a period of 12 calendar months commencing on any anniversary date of the commencement of the term of this Lease. The "first lease year" as used above shall mean a period of 12 calendar months commencing on the commencement date of the term hereof as defined in Paragraph 7.

7. Beginning of term. The commencement date of the original term of this Lease shall be the first day of the month following the expiration of 60 days after completion of the Building as defined in Paragraph 4.

8. Tenant's entry into premises. The Tenant may enter upon the Demised Premises during the course of construction of the Building, to do such work in the Demised Premises as it deems necessary, and may commence business operations thereon prior to the commencement date of the term hereof as defined in Paragraph 7 hereof. The Tenant's taking of possession and commencement of business operations or payment of any rentals or other sums under any provision of this Lease shall not relieve or release the Landlord from any obligations imposed on the Landlord under this Lease, and shall not be deemed a waiver of any such obligations imposed upon the Landlord under this Lease, or an acceptance by the Tenant of the Building as fully completed, or cause the term hereof to begin or the rent hereunder to accrue prior to the time herein mentioned as the commencement date of the term. The Tenant's gross sales, as defined in Paragraph 6 hereof, during the interim period prior to the commencement of the term shall be deemed a part of the gross sales during the first lease year of the term hereof. During such interim period, both parties shall be governed by all other provisions

of this Lease, but the term of this Lease for the purpose of any renewal options or any other provisions measured by the term shall be deemed to commence on the date fixed for the commencement of the term as defined in Paragraph 7 hereof.

9. *First renewal option.* The Tenant may renew the term of this Lease for an additional period of five years commencing upon the expiration of the original term hereof under the same terms and conditions as are set forth herein for the original term hereof (the "First Renewal Period"), except that the annual rental shall be as set forth in Paragraph 42. If the Tenant decides to exercise this option, it shall give the Landlord written notice of such intention not later than two months preceding the termination of the original term hereof.

10. *Second renewal option.* The Tenant may further renew the term of this Lease for an additional period of five years commencing upon the expiration of the First Renewal Period, under the same terms and conditions as are herein set forth for the First Renewal Period (the "Second Renewal Period"). If the Tenant decides to exercise this option, it shall give the Landlord written notice of such intention not later than two months preceding the termination of the First Renewal Period.

11. *Third renewal option.* The Tenant is herewith given the further option to renew the term of this Lease for an additional period of five years commencing upon the expiration of the Second Renewal Period, under the same terms and conditions as are herein set forth for the First Renewal Period (the "Third Renewal Period"). If the Tenant decides to exercise this option, it shall give the Landlord written notice of such intention not later than two months preceding the termination of the Second Renewal Period.

12. *Fourth renewal option.* The Tenant is herewith given the further option to renew the term of this Lease for an additional period of five years commencing upon the expiration of the Third Renewal Period, under the same terms and conditions as are herein set forth for the First Renewal Period (the "Fourth Renewal Period"). If the Tenant decides to exercise this option, it shall give the Landlord written notice of such intention not later than two months preceding the termination of the Third Renewal Period.

13. *Limitations on renewal.* Notwithstanding the foregoing provisions contained in Paragraphs 9, 10, 11 and 12, Tenant shall not be entitled to renew if, at the time of giving notice, Tenant is in default under any of the terms of this agreement. In addition, in the event Tenant is in default at the time any renewal period is due to commence, the right to renew shall be voidable at the option of Landlord.

14. *Use of premises.* The Tenant may use the Demised Premises for any lawful purposes, including, but not limited to, all of the following: the sale and marketing of groceries, meats, seafoods, fruits, produce, poultry, vegetables, delicatessen, dairy products, baked goods, beverages, food products of all kinds, pharmaceuticals, cosmetics, toiletries, drugs which can be sold without the presence of a registered pharmacist, soap powders, shampoos, babies' needs, books, magazines, kitchen and household supplies, beer for off-premises consumption and wine for off-premises consumption (if beer license includes the sale of wine, and if Tenant procures license therefor), and other articles sold in any supermarket at any time during the term of this Lease, and for the sale, storage, warehousing, and processing of such items in the basement of the Demised Premises and the incidental storage and processing of such items on the first floor of the Demised Premises. If at any time after the execution hereof it shall become unlawful to use any part of the Demised Premises for food merchandising purposes as ordinarily conducted in supermarkets of the Tenant or any of its affiliates at such time, then, and in that event, the Tenant shall have the right to declare this Lease to be at an end and for nothing holden, on giving written notice thereof to the Landlord, and, in such event, both parties shall be relieved of all further obligations hereunder except obligations accruing prior to such termination.

In its use of the Demised Premises, Tenant shall at all times comply with Landlord's sustainability policies adopted from time to time and made known to Tenant by a writing delivered to Tenant.

15. *Mortgage of premises.* The Landlord covenants that the Demised Premises, the Shopping Center, and the Parking Area during the term hereof shall be free and clear of all liens, encroachments, restrictions, encumbrances, mortgages, judgments, and claims of any kind whatsoever which may be prior in lien to the lien of this Lease, except a first mortgage, which is at all times held by a so-called Public Institution such as a bank, savings institution, cemetery, annuity, trust or retirement fund, insurance company, or a recognized financial institution ("Permanent Mortgage"), provided that the conditions hereinafter set forth in this paragraph with respect to subordination of this Lease are agreed to by any holder of such Permanent Mortgage. The Landlord shall pay all installments of interest and principal due or to grow due on such Permanent Mortgage and to maintain the same in good standing without default. This Lease shall, without requiring the execution of any further instrument, be deemed subordinate to such Permanent Mortgage, and the Tenant shall execute and deliver to the holder of such Permanent Mortgage any instrument of subordination reasonably requested by such mortgagee; provided, however, that such subordination of this Lease to such Permanent Mortgage is conditioned upon the following provisions against the disturbance of the Tenant's possession:

(a) So long as the Tenant continues to pay the rent provided for in this Lease and otherwise complies with the terms and provisions of this Lease, the right of possession of the Tenant to the Demised Premises and the use of the Parking Area and the terms and provisions of this Lease otherwise shall not be affected or disturbed by the Permanent Mortgagee in the exercise of any of its rights under such Permanent Mortgage, or the bond or debt secured thereby, or otherwise by law provided.

(b) If the Permanent Mortgagee comes into possession of or ownership of the title of the Demised Premises or the Parking Area by foreclosure of such Permanent Mortgage, or by proceedings on such bond, or otherwise, this Lease shall not be terminated by such foreclosure or any of such proceedings.

(c) If the Demised Premises or the Parking Area are sold or otherwise disposed of pursuant to any right or any power contained in such Permanent Mortgage or such bond, or as a result of proceedings thereon, or as otherwise authorized by law, the purchaser of the Demised Premises or the Parking Area at such sale, or any person acquiring title through or by virtue of such sale, shall take title subject to this Lease.

(d) If any building upon the Demised Premises is damaged or destroyed by fire or other casualty, for which under any of the insurance policies the loss is payable to the Permanent Mortgagee, the Permanent Mortgagee agrees that such insurance funds, if and when payable to it, shall be made available for the purpose of repair or rebuilding of the Demised Premises, as provided in this Lease.

(e) The Permanent Mortgagee shall give the Tenant at least ten days' advance written notice of any default under such Permanent Mortgage, and the Tenant shall have the right to cure any such default and to deduct the cost and expense incurred by reason thereof from any sums due under this Lease.

(f) This agreement shall be binding upon and inure to the benefit of such Permanent Mortgagee, the Landlord, and the Tenant, and their respective successors and assigns.

16. *Taxes.* The Landlord shall pay all real estate taxes, real estate assessments, and any and all other governmental charges, assessments, or taxes payable in respect to the Demised Premises, the Shopping Center, and the Parking Area or any part thereof. In default thereof, the Tenant shall have the right to pay the same, and the amount so paid shall be payable by the Landlord to the Tenant on demand with lawful interest thereon. The Tenant may deduct or retain the amount so paid out of any rents (minimum and percentage rentals) or other sums then due or which may thereafter become due from the Tenant hereunder.

17. *Repairs.* The Landlord shall, from time to time, at its own cost and expense, maintain and keep in good repair the outside walls, roof, and all other outer portions of the Demised Premises, and the appurtenances to the Demised Premises, including, but not limited to, the sidewalks and curbs adjacent to the Demised Premises and all facilities

servicing the Demised Premises. The Landlord shall also promptly execute and comply with all statutes, ordinances, rules, orders, regulations, and requirements of the federal, state and municipal governments and of any and all their departments and bureaus and of the Board of Fire Underwriters and Board of Health applicable to the Building, the Demised Premises, appurtenances thereto, and all facilities servicing the Demised Premises. The Landlord shall from time to time, at its own cost and expense, make all structural repairs to the Building, and repair any damage to any portion of the interior of the Building resulting from the Landlord's failure to repair or maintain the outer portions of the Building, including, without limitation, damage to the interior arising from defective construction or maintenance of other portions of the Building, damage to the interior and exterior of the Building arising from defective workmanship in the original construction, and damage arising from the settling of the Building and the laying of the concrete foundations and floors. If the Landlord shall fail, neglect, or refuse to keep or place in repair such outside walls, roof, or other outer portions, or fail to repair any interior damage arising from a failure to repair or maintain other portions, as hereinabove provided, or fail to comply with any of such statutes, ordinances, etc., or fail to make any repairs required to be made by the Landlord under and of the provisions of this Lease, the Tenant shall have the right to make such repairs and comply with such statutes, ordinances, etc. In such event, the Landlord shall pay the cost thereof to the Tenant on demand with lawful interest thereon, and the Tenant may deduct or retain the amount so paid out of any rents (minimum and percentage rentals) or other sums that may then be due or that may thereafter become due hereunder. In the event of an emergency requiring immediate action, i.e., fire, water seepage, sewer back-up, cessation, or interruption of any facility servicing the Demised Premises, and the like ("Emergency"), the Tenant may make such repairs at the Landlord's expense, prior to giving any written notice to the Landlord; provided, however, that the Tenant notifies the Landlord in writing within three business days after the expiration of the Emergency.

18. *Heating plant and equipment.* The Landlord covenants that the heating plant and equipment to be installed in the Building on the Demised Premises shall be, at the commencement of the term, in good working order capable of producing temperature in the Building on the Demised Premises of at least 70 degrees Fahrenheit at 0 degrees outside, and shall be in compliance with all federal, state, and municipal orders, regulations, and requirements. The Landlord shall at all times during the first lease year of the term hereof, at its own cost and expense, keep such heating plant and equipment in good order and make any and all necessary repairs to and replacements thereto. If the Landlord fails to make such repairs or replacements the Tenant shall have the right to make such repairs or replacements. In such event, the Landlord shall pay the cost thereof to the Tenant on demand with lawful interest thereon, and the Tenant may deduct or retain the amount so paid out of any rents (minimum and percentage rentals) or other sums that may then be due or that may thereafter become due hereunder. In the event of an emergency, the Tenant may make such repairs at the Landlord's expense, prior to giving any written notice to the Landlord; provided, however, that the Tenant notifies the Landlord in writing, within three business days after the expiration of the emergency.

19. *Mechanical installations.* The Landlord covenants that the storage boxes, electrical, sprinkler, plumbing, sewerage systems, air conditioning systems and ducts, and other mechanical installations and facilities installed or to be installed in the Building on the Demised Premises or servicing the Demised Premises shall be, at the commencement of the term, in good working order, and shall be in compliance with all federal, state, and municipal orders, regulations, and requirements. The Landlord shall at all times during the first lease year of the term hereof, at its own cost and expense, make all repairs or replacements thereto. If the Landlord fails to make such repairs or replacements, the Tenant shall have the right to make such repairs and replacements. In such event, the Landlord shall pay the cost thereof to the Tenant on demand with lawful interest thereon, and the Tenant may deduct or retain the amount so paid out of any rents (minimum and percentage rentals) or other sums that may then be due or that may thereafter become due hereunder. In the event of an emergency, the Tenant may make such repairs at the Landlord's expense, prior to giving any written notice to the Landlord; provided, however, that the Tenant notifies the Landlord in writing, within three business days after the expiration of the emergency.

20. *License to use.* When completed, the Tenant may occupy the Demised Premises as a supermarket of substantially the same type and operated in substantially the same manner as the supermarket now being operated by the Landlord at Newark, New Jersey, with an unlimited number of employees therein. The Landlord further warrants that the Demised

Premises and such supermarket therein, shall, on the commencement date of the term of this Lease, be in full compliance with all provisions of all federal, state, and municipal authorities having jurisdiction, including, without limitation, all applicable municipal zoning, building, and licensing ordinances, rules, and regulations. The Building shall not be deemed completed until the Landlord has fully complied with all the provisions of this paragraph, and (if a license for supermarket operations is required) the Landlord has delivered to the Tenant a certification from the appropriate licensing authority that such licenses will be issued to the Tenant for such supermarket. Anything herein contained to the contrary notwithstanding, this Lease and any and all obligations on the part of the Tenant hereunder are contingent and conditioned upon the Landlord's full compliance with all the provisions of this paragraph.

21. *Water, gas, and electricity.* The Landlord shall install a separate water meter for the Tenant at the Landlord's own cost and expense. The Tenant shall pay for all water, gas, and electricity consumed by it on the Demised Premises. If the Tenant shall fail, refuse, or neglect to pay such water, gas, and electricity charges, the Landlord shall have the right to pay the same and add the amount thereof to the rent which may be due and which may become due hereunder.

22. *Repairs by tenant.* Except as herein otherwise provided, the Tenant shall keep the interior of the Demised Premises in tenantable repair, at its own cost and expense, and at the end or other expiration of the term hereof shall deliver up the Demised Premises in substantially as good condition as they are at the beginning of the term hereof, damage by reasonable wear and tear, fire, war, civil riot and commotion, casualty, the elements, and acts beyond the control of the Tenant excepted. The Tenant shall promptly execute and comply with all statutes, ordinances, rules, orders, regulations, and requirements of the federal, state and municipal governments and of any and all their departments and bureaus and of the Board of Fire Underwriters and Board of Health; provided, nevertheless, that same are applicable solely to the Tenant's use of the Demised Premises. The Tenant's obligation to make repairs shall at all times be limited to the making of ordinary repairs and not structural repairs or repairs necessary to remedy damages caused by wear and tear, fire, war, civil riot and commotion, casualty, the elements, and acts beyond the control of the Tenant, whether or not such repairs shall be ordered by any municipal, county, state, federal, or other governmental authority. All of such repairs shall be made by the Landlord at its own expense. The Landlord shall at the commencement of and during the term of this Lease assign and transfer to the Tenant all warranties, guarantees, or other representations received by it from all parties who may have supplied the Landlord with labor or materials with respect to any portion of the Demised Premises which the Tenant is required to repair or maintain pursuant to this Lease.

23. *Consent to repairs.* The Tenant shall have the right to make such repairs, alterations, additions, and improvements to the Demised Premises (including alterations, additions, and improvements to store fronts or in connection with the installation of the Tenant's fixtures, facilities, and equipment), as it may desire without the necessity of obtaining the Landlord's prior consent thereto. However, the Tenant shall not make any other structural repairs unless the Landlord's prior written consent is obtained, which consent the Landlord shall not unreasonably withhold, or unless and until the Landlord shall have failed to comply with the making of any structural repairs pursuant to any provision of this Lease. Nothing contained in this Lease shall require the Tenant to restore the Demised Premises, at the expiration of the term of this Lease, to the condition in which they were prior to any repairs or alterations, additions, or improvements made by it pursuant to the terms hereof or with the Landlord's consent.

24. *Signs.* The Tenant shall have the right to paint or erect in, on, or about the Demised Premises and the Parking Area such signs as it shall in its discretion deem to its advantage, and to remove such sign or signs at any time during the term of this Lease or at the expiration thereof.

25. *Fixtures.* At any time during or after the original or any renewal term hereof, the Tenant may remove any and all property, fixtures, refrigeration, and other equipment and improvements placed, installed, supplied or made on the Demised Premises, notwithstanding any law, rule or regulation to the contrary. However, the Tenant shall repair, at its expense, any damage caused to the Demised Premises by such removal.

26. *Insurance.* The Landlord shall at all times during the term of this Lease, at its own cost and expense, insure and keep

in effect on the Building on the Demised Premises, fire insurance (with additional coverage commonly known as supplemental contract or extended coverage) covering the Landlord's and Tenant's interests written by an insurance company or companies authorized to do business in the state in which the Demised Premises are situated, in an amount or amounts sufficient to pay in full all losses covered thereby. If the Landlord shall fail, refuse, or neglect to obtain such insurance or to maintain same, and furnish the Tenant with proof of same upon demand, the Tenant shall have the right to procure such insurance and to deduct the cost thereof from any rental or other sums payable hereunder. In such event, the Landlord shall pay the amount thereof on demand with lawful interest thereon. All proceeds of such insurance if and when received by the Landlord shall be considered as having been received by it in trust, and the Landlord shall use the same first to restore the Demised Premises and the Building thereon to the condition in which they were prior to the occurrence of the damage. The Landlord shall procure endorsements on the policies required to be maintained by it under the provisions of this paragraph wherein and whereby:

(a) the insurance company shall agree to give the Tenant ten days advance written notice of any cancellation or reduction of insurance under any such policy, and to forward to the Tenant copies of all endorsements issued after the date of such policy, all endorsements and notices to be given the Tenant at 100 Railroad Avenue, Newark, New Jersey, and

(b) the insurance company shall agree to waive any right of subrogation against the Tenant on any claim that the Landlord, or any other party having an interest in such insurance policies or proceeds, may have against the Tenant, in connection with fire or other risks or casualty covered by such insurance.

27. Damage to premises. In the event that the Building on the Demised Premises or any or all of other buildings in the Shopping Center shall be damaged by fire or other casualty, the Demised Premises and such other buildings shall forthwith be repaired, restored, or rebuilt, as the case may be, by the Landlord, at the Landlord's expense, to their condition immediately prior to such damage or destruction as speedily as possible. If the Landlord fails forthwith to commence or to complete the same with diligence, the Tenant shall have the option to make any such repairs, restoration, or rebuilding and charge the cost thereof to the Landlord. In such event, the Landlord shall pay the amount of such cost to the Tenant on demand with lawful interest thereon, and the Tenant may deduct such amount from any rent or other sums due or to grow due under this Lease. Until such repairs are completed, all provisions in this Lease with respect to the payment of any guaranteed minimum annual rental shall be eliminated, and the Tenant's only obligation with respect to rental shall be the payment of the percentage on gross sales in the amounts set forth in Paragraph 6 hereof, payable only after the expiration of the lease year in which such repairs are completed. In any case where such repairs are not proceeded with diligently by the Landlord, or in the case of substantial damage are not fully completed within four months after the date of damage, the Tenant may, at any time after such default, in addition to any other remedy available to it, terminate this Lease. In such event, this Lease shall terminate and both parties shall be relieved and discharged of and from any further liability hereunder, subject, however, to the provisions of Paragraph 2 hereof. The Landlord shall make no claim nor authorize any claim to be made against the Tenant, its employees, servants, or agents in connection with or as a result of fire, explosion, or other casualty damaging the Demised Premises.

28. Liability insurance. Tenant shall obtain liability insurance at Tenant's own expense. The minimum limits of such insurance shall be \$500,000 for any single injury, and \$1,000,000 in the aggregate. The policy shall name Landlord and Tenant as insured parties. Tenant may obtain coverage under a blanket policy, provided that limits affecting the demised premises are met. Tenant shall provide Landlord with a certificate of insurance prior to taking possession of the demised premises. Renewal certificates shall be provided each year during the term of the lease and extensions thereof, prior to the expiration of the previous certificate. Failure to provide a certificate of insurance shall be an event of default under the terms of this lease.

Tenant may not self-insure the demised premises for liability without first obtaining written permission from Landlord. Landlord may condition such permission on a review of Tenant's financial statements of its self-insurance program.

Landlord may withhold permission without cause.

In the event that Tenant fails to provide a certificate of insurance, Landlord, without prejudice to any other of its rights, may obtain such insurance and charge the cost thereof back to Tenant. Tenant shall reimburse Landlord upon receipt of the bill. Any policies of insurance obtained hereunder shall include a provision requiring the carrier to notify Landlord, in writing, of cancellation of the policy at least ten (10) days prior to the effective date of cancellation.

29. *Plate glass.* The Tenant shall replace any plate glass broken or damaged upon the Demised Premises at its own cost and expense, excepting that it shall not be obligated to replace any plate glass broken or damaged by or as a result of any casualty included as a risk in the insurance policies maintained or required to be maintained by the Landlord under this Lease. The Tenant may replace any plate glass broken or damaged by or as a result of a casualty included as a risk in any insurance policies maintained or required to be maintained by the Landlord under this Lease. However, in such event, the Landlord shall reimburse the Tenant for the cost or expense thereof together with interest thereon at the legal rate, on demand, and the Tenant may deduct such amounts from all rents or other sums due or to become due hereunder.

30. *Other leases.* The Landlord warrants that within six months of the signing of this agreement, it shall exhibit to the Tenant signed lease agreements covering other portions of the Shopping Center of which the Demised Premises are a part (the "Other Leases"), made with other tenants who meet the qualifications and requirements set forth in Schedule C annexed hereto (the "Other Tenants"). The Landlord warrants that the Other Leases shall contain its obligation to erect and complete stores for such Other Tenants and that such stores shall be ready for occupancy by the Other Tenants at or prior to the commencement date of this Lease. The Landlord also warrants that the Other Leases shall contain obligations by the Other Tenants requiring each of them to occupy their respective stores, open for business, and pay rentals under their respective Other Leases no later than the commencement date of this Lease. The Landlord shall furnish the Tenant, simultaneously with the furnishing of the various proofs referred to in Paragraph 4 hereof, certificates by the Landlord's architect as to the completion of the stores required by the Other Leases ready for occupancy by such Other Tenants and copies of the certificates of occupancy, if any, relating to the stores included in such Other Leases issued by any governmental agency in authority. At the same time, the Landlord shall also notify the Tenant herein that the Other Tenants are required to occupy their respective stores, open for business, and pay rental no later than the commencement date of this Lease.

If the Landlord fails to exhibit the Other Leases within the time hereinabove set forth, or if the Landlord or any of such Other Tenants fails to comply with any of the foregoing provisions respectively applicable to them relating to completion of stores, occupancy, and opening for business, the Tenant shall have the right at its option to:

(a) occupy the Demised Premises and commence or continue with business operations except that the Tenant's only obligation with respect to rental shall thereupon be the payment of percentage rentals only, with no guaranteed minimum annual rentals, on the basis of the percentages of gross sales set forth in Paragraph 6 hereof, such percentage rentals to be payable only after the expiration of each 12-month period of such business operation, so long as such condition shall continue. If the Tenant elects to exercise this option, the provisions of this subparagraph shall supersede all inconsistent provisions with respect to the payment of rental otherwise provided in this Lease, and the Landlord shall continue liable to perform all obligations imposed upon it under this Lease without being relieved or released therefrom by the Tenant's exercise of such option; or

(b) terminate this Lease at any time on written notice so long as such condition continues, which right to terminate may be exercised notwithstanding the Tenant's exercise of the option of preceding subparagraph (a). Such options are not mutually exclusive, and this option (b) may be exercised at any time so long as the Landlord or the Other Tenants have not complied with the provisions set forth above.

31. *Exclusive right of tenant.* The Landlord contemplates the erection of additional stores in the Shopping Center of which the Demised Premises constitute a part. The Landlord shall not during the term or any renewal of this lease, use,

permit, suffer, or consent to the use of any portion of the Shopping Center as a supermarket or for the retail sale of meats, groceries, produce, fruits, vegetables, seafood, dairy, delicatessen, poultry, or any other article of food unless the Tenant consents in writing thereto, subject to applicable regulations and statutes.

In the event that there is a breach of any provision of this paragraph, the Tenant shall have the following rights and remedies, none of which shall be exclusive of the others or any other remedy otherwise available to the Tenant:

- (a) The Tenant may institute proceedings to enjoin the violation in its name or in the name of the Landlord.
- (b) If such conflicting use continues for a period of ten days after the Tenant gives written notice thereof to the Landlord, the Tenant may, at any time thereafter, elect to terminate this Lease. If the Tenant so elects, this Lease shall, on the date fixed in the notice of such election, be terminated, and the Tenant shall be released and discharged of and from any and all further liability hereunder.
- (c) So long as such condition exists, the Tenant's only obligation with respect to rental shall be the payment of percentage rentals only, with no guaranteed minimum annual rentals, on the basis of the percentages of gross sales set forth in Paragraph 6. Such percentage rentals shall be payable only after the expiration of each lease year of the term, so long as such condition continues.
- (d) The Tenant may hold the Landlord liable for all costs and expenses, including counsel fees, sustained or incurred in connection with any proceedings instituted by the Tenant. If the Landlord does not institute and proceed diligently with suit to enjoin such conflicting use, the Tenant may hold the Landlord liable for any and all other damages sustained or to be sustained by reason of the violation of such covenant.

32. *Landlord's title.* The Landlord covenants that it is the owner in fee simple of the Shopping Center, the Demised Premises, and the Parking Area. The Landlord further covenants that the Tenant shall have quiet possession and enjoyment of the Demised Premises and the Parking Area during the term of this Lease. Simultaneously herewith the Landlord has furnished the Tenant with a certificate from a reputable title insurance company evidencing the Landlord's title to the Shopping Center, the Demised Premises, and the Parking Area, and that the Tenant can use same for the purposes herein stated, knowing that the Tenant relies thereon in executing this Lease. A similar certificate from the same title insurance company shall be furnished to the Tenant on the day that the Landlord notifies the Tenant that the Building is completed, which certificate, however, shall be dated as of the time of such completion notice. The premises indicated as the Loading Area on Schedule A annexed hereto and cross-hatched in red shall be deemed a part of the Demised Premises leased to the Tenant hereunder for its sole and exclusive use and shall not be deemed a part of the Parking Area.

33. *Parking area.* The Landlord represents, warrants, and agrees and this Lease is upon the express condition that:

- (a) The Landlord shall at all times during the term of this Lease or any extension or renewal thereof maintain a general Shopping Center upon the premises outlined in green on Schedule A. Such Shopping Center shall always have as a part thereof, or upon premises immediately contiguous or adjacent thereto, a Parking Area to furnish parking space without charge to all customers of the Shopping Center seeking parking, so that there shall be maintained at all times a ratio of at least three square feet of parking space for each square foot of floor area in the Shopping Center.
- (b) The Tenant shall at all times have the nonexclusive and nonrevocable right, together with the Other Tenants and occupants of stores in the Shopping Center, to the use of the Parking Area and driveways appurtenant thereto for purposes of egress, ingress, parking of motor vehicles for itself and its customers, and loading and unloading of vehicles in connection with and incidental to the business conducted by the Tenant on the Demised Premises, all without charge.
- (c) The Parking Area shall not be made available for use by employees of the Tenant or of Other Tenants or occupants

of the Shopping Center. A provision to that effect shall be included in all leases with all tenants or occupants of the Shopping Center.

(d) The Landlord shall, at its own cost and expense, grade, drain, and suitably hard surface the Parking Area to conform with the Tenant's requirements at or prior to the commencement of the term hereof.

(e) The Landlord shall at all times, during the term of this Lease, at its own cost and expense:

(1) Maintain floodlights and other means of illumination sufficient to illuminate the Parking Area during all twilight and evening hours that the Tenant's store is open for business and in operation;

(2) Maintain and keep the Parking Area in good condition with a hard-top surface pavement and properly striped, and clean and remove debris, ice, and snow therefrom, and provide suitable and sufficient traffic direction personnel as required;

(3) Permit free parking on the Parking Area at all times by the Tenant, its customers, and persons dealing with the Tenant; and

(4) Obtain and maintain public liability insurance covering the interests of the Landlord and the Tenant, indemnifying the Tenant and holding it harmless from any liability for personal injury, death, or property damage arising on or about the operations on the Parking Area. Such insurance shall be within limits of \$200,000/\$1,000,000 for personal injury and death, and \$50,000 for property damage. The Landlord shall also furnish the Tenant on demand with certificates evidencing the existence of such insurance.

(f) If at any time during the term of this Lease there shall be a default in or other noncompliance with any provision of this Paragraph 33, then, and in any such event, the Tenant shall have the following rights and remedies, none of which shall be exclusive of the others or any other remedy otherwise available to the Tenant:

(1) The Tenant may remedy or attempt to remedy any such default or other noncompliance and expend all sums necessary therefor at the Landlord's cost and expense. The sums so expended shall be payable to the Tenant on demand with lawful interest thereon, and may be deducted by the Tenant from all rents or other sums due or to become due hereunder;

(2) So long as any such default or other noncompliance continues, all provisions in this Lease with respect to the payment of any guaranteed minimum annual rental shall be eliminated, and the Tenant's only obligation with respect to rental shall be the payment of the percentage rentals on gross sales in the amounts set forth in Paragraph 6 hereof, payable only after the expiration of each lease year of the term so long as such condition shall continue;

(3) So long as any such default or other noncompliance continues, the Tenant may, on written notice, at its option, terminate and cancel this Lease, in which event the Tenant shall be relieved of any further liability hereunder.

34. *Condemnation*

(a) If any competent authority takes or condemns for any period of time the whole of the Demised Premises, or less than the whole of the Demised Premises but the remaining portions thereof are not sufficient in the Tenant's judgment to conduct its normal business operations, and the Tenant so notifies the landlord within one month after such taking, then this Lease shall thereupon terminate. In such event, the parties shall be relieved and discharged of all further liability hereunder accruing after the date of such taking, except that the rental accruing during the month of such taking shall be apportioned pro rata on a daily basis. In any such event, each party shall keep its own award (if separate awards are given by the condemning authority), or, if only one award is given for all interests in the Demised Premises, such award

shall be apportioned between the parties as their respective interests shall appear. For the purpose of any award, however, the value of the Tenant's interest in the Demised Premises shall be at all times determined as though all options to renew afforded the Tenant under this Lease had been unconditionally exercised.

(b) If the Tenant does not exercise the option to terminate arising upon a condemnation in the manner set forth in subparagraph (a) of this paragraph, or the taking on condemnation does not terminate this Lease, then, and in any event, this Lease shall continue in full force and effect, and the Landlord shall forthwith and diligently proceed to restore the Demised Premises to a condition as nearly as possible to that in which the Demised Premises were, prior to such taking, in the light of any reduced area of the Demised Premises. Such restoration shall be made under the supervision of any architect to be selected by the Landlord and the Tenant in accordance with plans and specifications to be prepared by the Landlord and to be approved by the Tenant, and to be prepared in such manner as to comply with the requirements of the Tenant in its business operations, the Tenant agreeing to cooperate in the preparation thereof. Until such restoration is completed, all provisions in this Lease with respect to the payment of any guaranteed minimum annual rental shall be eliminated, and the Tenant's only obligation with respect to rental shall be the payment of the percentage of gross sales in the amounts set forth in Paragraph 6 hereof, payable only after the expiration of the lease year in which such restoration is completed. Thereafter, such guaranteed minimum annual rental shall be equitably adjusted, taking into consideration the proportion and area of the Demised Premises taken, and the period of time of such taking. The Landlord and the Tenant shall bear the cost of such restoration pro rata in proportion to the amount of their respective awards, but in no event shall the Tenant's share thereof exceed the amount of its award. The Tenant shall pay the Landlord its share of the cost of the restoration as soon as all of the following events shall occur: the restoration is completed; a certificate therefor is issued by the architect selected by the Landlord and the Tenant to take charge of the work; and proper proof is submitted that all labor and materials in such work of restoration have been paid for and that no liens exist against the Demised Premises by reason thereof. Any controversy under this subparagraph (b) shall be submitted to three arbitrators, one selected by each party and the third by the other two arbitrators. The decision of a majority of the arbitrators shall be conclusive and binding. If the arbitrators are not so chosen or fail to render decision, either party may apply for relief to a court of competent jurisdiction of the state where the Demised Premises are located for the enforcement thereof.

35. *Union labor.* The Landlord agrees that whenever any repairs, alterations, or other work, including original construction of the Building, are to be performed by or for the Landlord on the Demised Premises, such work shall be performed only by recognized building trade union labor. However, in the event that union labor is unavailable, for any reason, Landlord shall be entitled to use non-union labor, provided that Landlord shall pay the prevailing wage as defined in the New York Labor Law and its accompanying regulations.

36. *Short form of lease.* For the purpose of recording some of the basic terms and conditions of this Lease, the Landlord shall execute, simultaneously upon the execution of this Lease, a short form of lease agreement for recording. It is understood that the agreement mentioned in this paragraph is for purposes of recordation only and is not intended to and shall not in anywise modify, amend, supersede, or otherwise affect this Lease.

37. *Enforcement of remedies.* Many of the foregoing provisions of this Lease contain obligations on the part of the Landlord or the Tenant or both. In many instances, various rights are granted to each party consequent upon default by the other party in the performance of such obligations. It is expressly understood and agreed that, notwithstanding anything herein contained to the contrary (except as otherwise provided in this Paragraph 37), each and every one of such rights on the part of either party to take advantage of a failure on the part of the other party to fulfill its such obligations shall be subject to the following limitations:

(a) The Tenant shall not have the right to declare this Lease at an end by reason of any default of the Landlord or to proceed with any suit or to avail itself of any remedy whatsoever provided for in this Lease or under the law, unless the Tenant shall have given to the Landlord written notice of the alleged default, and the Landlord for a period of ten days thereafter shall have failed to correct the alleged default. If the alleged default is of such a nature that it cannot be

completely remedied or cured within such ten-day period, then such default shall not be an enforceable default against the Landlord, if the Landlord shall have commenced curing such default within such ten-day period and shall proceed with reasonable diligence and good faith to complete the curing thereof. The ten-day notice provision herein set forth shall be inapplicable to any emergency.

(b) The Landlord shall not have the right to declare this Lease at an end by reason of any default of the Tenant or to proceed with any suit or to avail itself of any remedy whatsoever provided for in this Lease or under the law, nor shall the Tenant's right to exercise any option granted herein be deemed to have expired, unless the Landlord shall have given to the Tenant written notice of the alleged default or the failure to exercise any option, and the Tenant for a period of ten days thereafter shall have failed to correct the alleged default or to exercise such option. If the alleged default or failure to exercise any option is of such a nature that it cannot be completely remedied or cured or exercised within such ten-day period, then such default or failure to exercise shall not be deemed an enforceable default or failure of the Tenant, if the Tenant shall have commenced during such default or undertaken to exercise such option within such ten-day period and shall proceed with reasonable diligence and good faith to complete the curing or exercising thereof, as the case may be.

38. *Tenant's remedies.* Notwithstanding anything herein contained, in the event of any default on the part of the Landlord under this Lease, the Tenant shall, in addition to all other remedies available to it, have the right at its option:

(a) to continue this Lease in full force and effect, except that the Tenant's only obligation with respect to rental shall be the payment of the percentage rentals on gross sales in the amounts set forth in Paragraph 6 hereof during such period, in lieu of any guaranteed minimum rental set forth in this Lease, payable after the expiration of each lease year of the term hereof so long as such condition shall continue. If the Tenant shall elect this option (a), the provisions of this subparagraph shall supersede all inconsistent provisions with respect to the payment of any rental. Notwithstanding the Tenant's election to continue this Lease pursuant to this option (a), the Tenant may, at any time while such condition exists, by giving ten days' written notice, terminate this Lease;

(b) to terminate this Lease by giving ten days written notice, in which event the Tenant shall be relieved of and from any further liability hereunder.

39. *Notice to tenant.* The mailing of a written notice of demand by registered mail in a sealed, postpaid envelope addressed to the Tenant at 100 Railroad Avenue, Newark, New Jersey, shall be sufficient notice or demand in any case arising under this agreement.

40. *Notice to landlord.* The mailing of a written notice or demand by registered mail in a sealed, postpaid envelope addressed to the Landlord at 100 Fifth Avenue, New York, New York, shall be sufficient notice or demand in any case arising under this agreement.

41. *Minimum annual rental.* The minimum annual rental shall be based upon the cost to Landlord of the land comprising the Demised Premises and the cost of construction of the Building and that portion of the cost of site improvements upon the Shopping Center as shall be allocable to the Demised Premises.

The "cost of the land" allocable to the Demised Premises shall bear the same ratio to the cost of all land comprising the Shopping Center as the square footage of building area (exclusive of basement area not used for sales) contained in the Demised Premises bears to the total square footage of all building areas (exclusive of basement areas not used for sales) from time to time contained in all units (including the Demised Premises) located within the Shopping Center. The cost of construction of the Building shall be the actual cost of all general contract work generally included within a general contract for a building where a lump-sum price is obtained and where the scope of the work is within the building lines of the exterior store walls, including, but not limited to labor, materials, contractors' profits, supervision, surveys, tests and borings, permit fees, architects' and engineers' fees, completion bonds, insurance during construction, and cost of

construction loans or any funds used in lieu thereof at a rate not exceeding 4 percent per annum for construction loans or funds in lieu thereof. The cost of site improvements (as defined below) allocable to the Demised Premises shall bear the same ratio to the cost of all site improvements within the Shopping Center as the square footage of building area (exclusive of basement area not used for sales) contained in the Demised Premises bears to the total square footage of building areas (exclusive of basement areas not used for sales) from time to time contained in all units (including the Demised Premises) located within the Shopping Center.

The term site improvements shall mean all work outside the building lines of the exterior walls of any of the store units (including the Demised Premises) located in the Shopping Center.

All contracts for the construction of the Building and for any site improvements for the Shopping Center shall be subject to the Tenant's written approval. The cost of any work done or to be done by the Landlord, without contract, where the Tenant is chargeable with any portion thereof, shall also require the Tenant's written approval. The Landlord shall furnish the Tenant with satisfactory proof of all costs so incurred.

The minimum annual rental payable by the Tenant hereunder shall be a sum equal to 7.94 percent of the Rental Factor (as defined below).

The term "Rental Factor," as used in this Lease, shall mean the sum of the cost of (a) land, (b) construction, and (c) site improvements, as any of the foregoing may be allocable to the Tenant hereunder.

Such figure of 7.94 percent has been used by the parties hereto to conform with the Landlord's proposed mortgage financing of the Shopping Center through a Permanent Mortgage complying with the provisions of Paragraph 15 hereof, or other type of Permanent Financing selected by the Landlord, it being contemplated that the Landlord will procure a Permanent Mortgage or other Permanent Financing which would be fully amortized in 25 years through constant annual payments of combined principal and interest equal to 7.94 percent of the original principal amount of such mortgage, the interest on such mortgage being at the rate of 6.25 percent. In the event, however, that the annual constant payment under the mortgage or other financing as actually procured by the Landlord is changed by reason of a change in interest rates above or below 6.25 percent, the final constant percentage figure reflecting such changed interest rate shall be substituted for 7.94 percent of the Rental Factor in determining the minimum annual rental payable hereunder.

42. *Minimum annual rental during renewal periods.* During any renewal period set forth in Paragraphs 9 through 12 hereof, the annual rental payable by the Tenant shall be as follows:

(a) The minimum annual rental shall be a sum equal to 3 percent of the Rental Factor (as defined in Paragraph 41 hereof) in lieu of the minimum annual rental provided for the original term hereof.

(b) If during, but before the expiration of, any lease year during any renewal period, the gross sales (as defined in Paragraph 6) exceed $133\frac{1}{3}$ times the minimum annual rental payable during such renewal period, then $\frac{3}{4}$ of 1 percent of such excess gross sales above $133\frac{1}{3}$ times such minimum annual rental accrued to the end of each quarterly period of such lease year during such renewal period shall be paid by the Tenant to the Landlord at the time of the together with delivery of any quarterly statement deliverable during the balance of such lease year.

(c) Except as herein modified, all the provisions of Paragraph 6 shall be applicable to each lease year of such renewal period.

43. *Assignment.* The Tenant shall have the right to assign this Lease or sublet all or any part of the Demised Premises without the Landlord's consent. The Tenant, however, shall continue to remain liable under this Lease in accordance with the terms and conditions thereof.

44. *Entire agreement.* This Lease sets forth all the promises, inducements, agreements, conditions, and understandings between the Landlord and the Tenant relative to the Demised Premises, and there are no promises, agreements, conditions, or understandings, either oral or written, express or implied, between them other than are herein set forth. Except as herein otherwise provided, no subsequent alteration, amendment, change, or addition to this Lease shall be binding upon the Landlord or the Tenant unless reduced to writing and signed by them.

45. *Binding effect.* This agreement is binding upon and shall inure to the benefit of the respective parties hereto, their respective successors, legal representatives, and assigns.

46. *Non-waiver.* No delay or failure by either party to exercise any right under this Agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

47. *Headings.* Headings in this Agreement are for convenience only and shall not be used to interpret or construe its provisions.

48. *Governing law.* This Agreement shall be construed in accordance with and governed by the laws of the State of New Jersey.

49. *Counterparts.* This Agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

The parties hereto have caused these presents to be signed by their proper corporate officers and cause their proper corporate seals to be hereunto affixed the day and year first above written.

26-22 Current Legal Forms for Real Estate FORM 22.60

FORM 22.60 Commercial lease--shopping center--common area maintenance charges imposed on tenants

COMMENT

This is a commercial lease for a "strip" mall containing a variety of retail businesses. A strip mall is a group of stores built alongside each other on a strip of land that runs parallel to a heavily-traveled roadway.

Typically, when a commercial lease is executed, the landlord is compensated in one of two ways. The first method is the payment of a fixed rental fee on a monthly, quarterly or annual basis. The second method provides for the payment of a percentage of either the tenant-business's gross receipts or net income (the "percentage-of-income" model).

The form below utilizes the first method: the tenant agrees to pay a monthly rental which is tied to the number of square feet included in the leased premises. This lease also contains a provision charging the tenant for the tenant's share of common area maintenance ("CAM"). Today, many real estate developers and other landlords are imposing CAM charges upon their commercial tenants. The term "common area maintenance" charges is very broadly defined to include nearly any operating expense the landlord incurs which is not tied to just one rental unit. It includes the following expenses, among others:

(1) cleaning the building;

(2) maintaining the building in good working condition, e.g., changing light bulbs, replacing worn carpeting, etc.

(3) repairing the building;

- (4) removing snow and ice;
- (5) repairing sidewalks, streets and parking areas;
- (6) providing for the removal of trash;
- (7) real property taxes;
- (8) liability and casualty insurance;
- (9) landscaping; and
- (10) lighting, electricity, gas, water and sewer service.

In stark contrast to the rental arrangement known as the "percentage-of-income" model, CAM charges guarantee that the landlord will receive a complete return of out-of-pocket expenses which benefit the entire mall. CAM charges also appear to be much fairer to tenants, who will each pay their pro-rata share of the expenses based on the number of square feet which they occupy within the mall.

In addition, CAM charges are very easy to calculate, seldom (if ever) requiring an accounting audit. The "percentage-of-income" model, on the other hand, always creates the potential for nasty disagreements between landlord and tenant, which can only be resolved through often lengthy, expensive and frustrating audits in which competing accountants analyze the tenant's business expenses and income.

FORM

AGREEMENT made this _____ [day] day of _____ [month],
 _____ [year], between _____ [insert name of entity] MANAGEMENT CORP., a
 corporation organized under the laws of the State of _____ [state] with offices for the transaction of
 business at _____ [address], in the City of _____ [city], County of
 _____ [county], and State of _____ [state] (hereafter referred to as "Landlord"), and
 _____ [insert name of entity], a general partnership with offices for the transaction of business at
 _____ [address], in the City of _____ [city], County of
 _____ [county], and State of _____ [state] (hereafter referred to as "Tenant").

WITNESSETH:

WHEREAS, Landlord is the owner of a retail strip mall commonly known as _____ [insert name of
 mall], located in the City of _____ [city], County of _____ [county] and State of
 _____ [state] (hereafter referred to as "premises"); and

WHEREAS, Tenant desires to lease Unit No. _____ [insert unit number] of said strip mall;

NOW, in consideration of the mutual promises contained herein, it is agreed as follows:

1. *Identification of leased premises.* Landlord hereby leases to Tenant the following premises at

_____ [insert name of mall]: _____ [e.g., one thousand (1,000)] square feet of floor space, as shown in the attached drawing as Unit No. _____ [insert unit number], for a term of _____ [number of years] years, to commence on _____ [date], and to end on the _____ [date], and to be used and occupied only as a _____ [e.g., gift shop specializing in monogrammed items].

2. *Rental fee.* Tenant shall pay the annual rent at the rate of _____ [e.g., twelve dollars (\$12.00)] per square foot, equaling _____ Dollars (\$ _____) _____ [e.g., twelve thousand dollars (\$12,000)] per year. This annual rent is to be paid in twelve (12) equal monthly payments of _____ Dollars (\$ _____) _____ [e.g., one thousand dollars (\$1,000)], each on the first day of each and every month.

(a) At the expiration of the term, if this Lease shall then be in full force and effect and Tenant shall have fully performed all of the terms and conditions of the Lease, Tenant shall have the right to extend this Lease upon the same terms and conditions contained herein, for an additional term of _____ [e.g., five (5)] years, to commence on _____ [date], and to end on _____ [date]. Notwithstanding the foregoing, the annual rental shall be adjusted as hereafter provided.

The option for the additional term shall be exercised by Tenant through the giving of written notice of intention to renew the Lease to the Landlord. Such notice shall be given at least _____ [e.g., six (6)] months prior to the expiration of the current term. In order to be eligible to extend the term of this Lease, Tenant must have fully performed all of the terms and conditions of said Lease. In the event Tenant is in default in any manner at the time notice is given to renew, or at any time prior to the commencement of the new term, the right to an additional term is automatically revoked.

(b) There shall be no right to extend the term of this Lease for any period of time beyond the expiration of the renewal term that is specified above.

(c) The annual rental amount for the renewal term shall be increased only if the interest rate which the landlord is paying on the mortgage note for the property containing the mall has increased by the date on which the new term commences. As of the date of execution of this Lease, the Landlord is paying _____ [e.g., the prime lending rate plus one (1) percent, which equals 7.5] percent per annum. The annual rental amount for the renewal term shall be increased by a percentage equal to the percentage increase in the interest rate which the Landlord pays. The Landlord will provide written proof of the increased interest rate if requested to do so by Tenant. The rental rate shall not decrease under any circumstances.

3. *Condition of leased premises*

(a) The premises to be leased shall be delivered to Tenant in the following manner:

- (1) the interior walls will be sheetrocked, taped, primed and ready for painting;
- (2) acoustical tile ceilings will be installed;
- (3) recessed lighting fixtures will be installed in ceilings and fully operational;
- (4) exit lights and electrical outlets will be installed and fully operational;
- (5) ventilation and air conditioning systems will be installed and fully operational;

(6) meters for water, gas and electric usage will be installed and fully operational;

(7) restrooms will be installed and fully operational;

(8) a gas or electric heating system will be installed and fully operational;

(9) a standard store front, with one front and one rear door, shall be in place; and

(10) a concrete floor covered with plastic floor tiles shall be in place.

(b) All other preparation expenses shall be the sole cost and responsibility of Tenant. All preparation plans of the Tenant shall be approved in writing by Landlord prior to the commencement of work. In such case, Tenant shall provide to Landlord proof of insurance, running from Tenant or his contractor to Landlord, as follows:

Workers' Compensation: statutory limit;

Liability: \$_____ [e.g.,
\$1,000,000 per claim/\$3,000,000 in
aggregate coverage];

Casualty: \$_____ [e.g.,
\$300,000].

The policies shall provide that notice of cancellation shall be given to Landlord at least _____ [e.g., ten (10)] days prior to the effective date of cancellation. Landlord and Tenant shall be named as additional insureds.

(c) Tenant shall take good care of the premises and shall, at Tenant's own cost and expense, make all necessary interior repairs, alterations, decorations and improvements to the leased premises during the period covered by this Lease. Tenant shall only use the premises in a manner consistent with Landlord's sustainability policies now adopted or adopted in the future, as and when made available to Tenant. Tenant agrees to make all its repairs and alterations so as not to violate Landlord's sustainability policies adopted for improvements made to the premises. All repairs, alterations, decorations or improvements made in or to the leased premises by Tenant shall become the property of Landlord and shall be surrendered with the premises at the termination of the Lease. However, Tenant shall have the right to remove or replace its movable trade fixtures, provided Tenant repairs any damage caused by such removal. The failure of Tenant to remove its fixtures or any of its other property at the termination of this Lease shall be deemed abandonment of such property, at the option of Landlord. If Landlord must remove such property, the cost of removal shall be deducted from Tenant's security deposit.

(d) At the end or other expiration of the lease term or any extensions thereof, Tenant shall deliver the leased premises to Landlord in good order and condition, damages by the elements and reasonable wear and tear excepted.

4. *Tenant shall comply with all relevant laws and ordinances.* Tenant, at its sole cost and expense, shall promptly comply with all statutes, ordinances, rules, orders, regulations and requirements of the federal, state and local governments which are applicable to said premises. Tenant shall promptly provide Landlord with a copy of any notice received from any such authority.

5. *Signs.* Landlord shall provide an identification sign for the _____ [insert name of mall] Mall, which shall include a smaller sign containing the name and logo of Tenant's business. Landlord shall seek approval from the Town of _____ [town] for the mall sign.

Tenant shall be obligated to obtain approval from the Town of _____ [town] for the sign to be placed

on the building directly above the entrance to Tenant's store. The size, content and appearance of the sign may be as prescribed by the Town of _____[town], but the sign must also be approved in advance by Landlord. The maximum size of the sign above Tenant's premises shall not exceed _____[e.g., two (2) feet by ten (10) feet]. The sign may contain only the name and logo of the Tenant. The cost of the sign application filed with the Town of _____[town] will be borne by Tenant alone. The cost of the sign shall be Tenant's sole expense. The signs for the individual tenants in the _____[insert name of mall] Mall shall be as uniform as practicable.

6. *No assignment or sublease without Landlord's consent.* Tenant shall not assign this Lease or sublease the premises, or any part thereof, without Landlord's prior written consent. Such consent shall not be unreasonably withheld. Landlord may condition such consent upon review of the assignee or sublessee's credit history. Upon receipt of the written consent, Tenant shall be released from all further liability for rent, provided that the sublessee or assignee first signs a new lease with Landlord.

7. *Leased premises are newly-constructed.* Landlord hereby represents that the space to be leased to Tenant is newly constructed. The space has not been previously leased or otherwise occupied. All plumbing, heating and mechanical systems are in good working order as of the date of this Lease.

8. *Environmental considerations.* Landlord represents that none of the present tenants in the _____[insert name of mall] Mall uses, stores or produces any substance in its business which may be deemed hazardous under state or federal laws and regulations. Landlord agrees, during the term of this lease and any extensions thereof, not to lease any space to any tenant who uses, stores or produces any substance deemed hazardous, as defined above. In the event of a breach of this covenant, Tenant shall be entitled to terminate this Lease agreement without penalty. However, nothing contained herein shall be deemed to render Landlord liable to Tenant for any expenses incurred in terminating the Lease and in relocating, including, but not limited to, moving expenses, "fit-up" costs, loss of business, or injury to person or property. Landlord agrees to include a provision in each tenant's lease specifically prohibiting the use, storage, creation or disposal of hazardous substances in the mall.

9. *Tenant does not use, store or produce hazardous substances.* Tenant represents that Tenant does not use, store or produce hazardous substances in the course of Tenant's business. Tenant agrees not to allow or suffer the use, storage or production of hazardous substances, as defined above, on the leased premises. A breach of this covenant will allow Landlord to terminate this Lease and will render Tenant liable for any damage sustained by Tenant's unit or by any other unit due to said usage, storage or production. Tenant agrees to comply at all times with Landlord's Environmental Management Plan attached hereto as an Exhibit, and made a part hereof.

10. *Tenant to notify Landlord of fire, accident, etc., on leased premises.* Tenant must give Landlord prompt notice of fire, accident, damage, or dangerous or defective condition on the leased premises. If the leased premises cannot be used because of fire or other casualty, Tenant is not required to pay rent for the time the premises are unusable. Landlord shall have the right to decide whether and which part of the premises are unusable. Landlord need only repair the damaged structural parts of the premises. Landlord shall return the leased premises in the same condition in which Landlord was required to deliver the premises to Tenant at the commencement of this Lease under Paragraph 3(a). Landlord is not required to repair or replace any equipment, fixtures, furnishings or decorations unless they were originally installed by Landlord. Landlord is not responsible for delays due to settling insurance claims, obtaining estimates, labor or supply problems, or any other matter that is not fully under Landlord's control. Tenant shall be responsible for the remainder of the repairs.

If there is substantial damage caused by fire or other casualty, Landlord has the right to demolish the building. Landlord may cancel this Lease within _____[e.g., thirty (30)] days after a fire or casualty that causes substantial damage by giving Tenant written notice of Landlord's intention to demolish. This Lease shall end upon Landlord's giving of the demolition notice to Tenant. Tenant shall then surrender the premises to Landlord immediately.

Tenant shall pay all rent due up to the date of the fire or casualty. If this Lease is so canceled, Landlord shall have no obligation to repair the premises or building, or to re-lease the premises to Tenant should Landlord make such repairs. Landlord, in its sole discretion, shall determine whether substantial damage has occurred.

11. *Landlord's right to examine leased premises during lease term.* Tenant shall permit Landlord and Landlord's agents and representatives to enter into and upon said premises, or any part thereof, at any reasonable hour, for the purpose of examining the same, or making such repairs or alterations as Landlord deems appropriate. In the event Landlord needs access to Tenant's space during non-business hours, Landlord shall give notice of its intention to enter at least _____ [e.g., twenty-four (24)] hours prior to entry. Tenant shall have the right to be present during such entry. In the event of an emergency, Landlord may enter the leased premises without having first received Tenant's permission.

12. *Landlord's rights when Tenant vacates premises during lease term or fails to pay rent.* If the premises become vacant during the term of this Lease, or if Tenant fails to pay the rent in full when due, or if Tenant violates any other provision of this Lease, Landlord or its duly-authorized representatives may re-enter the said premises, following issuance of an order of eviction by a court of competent jurisdiction, and remove all persons therefrom, without being liable to criminal or civil prosecution therefor. Tenant hereby expressly waives its right to the service of any written notice of Landlord's intention to re-enter upon default. Tenant shall remain responsible for all rent payments as they become due and payable under the terms of this Lease. Landlord may rent the premises on behalf of Tenant. Without releasing Tenant from any liability for rent, Landlord may rent the premises for a longer period of time than fixed in the original lease, or for a lower rental payment. Landlord shall apply any rent collected:

- (a) first, to the expense of obtaining possession, including court costs and reasonable attorneys' fees;
- (b) second, to restoring the premises to a rentable condition;
- (c) third, to the broker's fee for re-renting; and
- (d) fourth, to the payment of the rent and any other charges which may be due from Tenant.

Tenant shall remain liable for any deficiency.

13. *Lease is subordinate to any mortgage on the building.* This Lease shall be subordinate to any mortgage that is now on, or that hereafter may be placed against, said premises. The recording of such mortgage shall create a superior and prior lien to this Lease, regardless of the date of recording. Tenant agrees to execute, without cost to Landlord, any instrument which may be deemed necessary or desirable to further effect the subordination of this Lease to a mortgage. A failure to execute such instrument, after reasonable request by Landlord, shall be a violation of this Lease and shall entitle Landlord to commence proceedings to evict Tenant.

14. *Eminent domain.* If the whole or any part of the leased premises shall be taken by eminent domain, this Lease shall terminate on the date of the vesting of title to the said premises in the governmental body exercising its power of eminent domain. Tenant shall have no claim against Landlord for the value of any unexpired term of this Lease. No part of any award shall belong to Tenant.

15. *No right to trial by jury for any claim arising under lease.* Landlord and Tenant waive the right to trial by jury on any cause of action arising out of this Lease.

16. *Tenant's duty to pay rent is unconditional.* The obligation of Tenant to pay rent hereunder and to perform all other covenants shall not be excused because Landlord is unable to supply, or is delayed in supplying, any service or repair to be supplied by Landlord under the terms of this Lease, unless such inability or delay is due to gross negligence on the

part of Landlord. No diminution or abatement of rent or other compensation shall be claimed by or allowed to Tenant for any inconvenience, discomfort or other loss arising from the making of repairs or improvements to the building by Landlord. No interruption or curtailment of any service shall be deemed a constructive eviction.

17. *Utilities.* Tenant shall be responsible for payment of all utility bills relating to the leased premises, including gas, electricity, water, sewer and telephone. In the event that water and sewer usage are not separately metered for the leased premises, the cost of such services shall be included in the common area maintenance charges.

18. *Common area maintenance charge.* Landlord shall maintain the mall's common areas at all times. Tenant shall pay its proportional share of the cost of:

- (a) outdoor repairs, maintenance and landscaping;
- (b) common area maintenance and repairs;
- (c) snow and ice removal from the sidewalks and parking areas in and about the mall;
- (d) collection and disposal of rubbish and other refuse;
- (e) exterior lighting;
- (f) water and sewer charges not individually metered;
- (g) real property taxes; and
- (h) insurance and any other expenses which benefit all tenants,

together with a _____ [e.g., five (5)] percent overhead charge for bookkeeping and management expenses. Tenant is responsible for _____ [e.g., eight (8)] percent of the common area charges, as defined above, since Tenant presently occupies an equal percentage of the total leased area of the mall. Landlord shall compute the amount due from Tenant pursuant to this paragraph on a monthly basis and give notice to Tenant in writing. The bill shall be paid within _____ [e.g., fifteen (15)] days of the date of delivery of notice.

19. *Parking.* Tenant and employees of Tenant shall park their automobiles in the rear parking area designated by Landlord for employees. Landlord shall provide appropriate lighting and security for said area. Landlord shall be entitled to tow improperly-parked vehicles at the owners' expense and without notice.

20. *Tenant responsible for cleaning its unit.* Tenant shall be responsible for the cleaning and maintenance of Tenant's own unit. Tenant shall maintain its unit in a clean and orderly fashion. Tenant shall repaint, at least once per year, all areas visible to the public.

21. *Plate glass insurance.* Tenant, at its own cost and expense, shall maintain full coverage plate glass insurance on the premises. Landlord shall be named as an additional insured on all policies. Plate glass shall be cleaned at least weekly by Tenant.

22. *Security deposit.* Tenant shall pay to Landlord a security deposit in the amount of _____ Dollars (\$_____) _____ [e.g., \$1,000]. Said sum shall be returned to Tenant after the expiration of the term of this Lease and any additional terms, provided Tenant has fully performed all of the terms, covenants and conditions required hereunder.

23. *Arbitration.* Any disagreement between the parties with respect to the interpretation or application of this Lease, or the obligations of the parties hereunder, shall be determined by arbitration conducted under the auspices of the _____ [insert name of arbitrator, e.g., *Alternative Dispute Resolution Center*], located at _____ [address]. The arbitrator designated and acting under this Lease shall make the award in strict conformity with the terms of this Lease and applicable law, and shall have no power to depart from, or change any of, the provisions of this Lease. The expense of arbitration proceedings conducted hereunder shall be borne equally by the parties. All arbitration proceedings hereunder shall be conducted in the county in which the leased premises are located.

24. *Entire agreement.* This Agreement, together with the other written agreements and instruments executed concurrently herewith or pursuant to the provisions hereof, contains the entire agreement between the parties concerning the matters herein set forth and supersedes all prior agreements between them respecting such matters.

25. *Counterparts.* This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. At the trial of any matter arising under this Agreement, only one counterpart need be produced.

26. *Headings.* Paragraph headings are for the purposes of convenience and identification only and shall not be used to interpret or construe this Agreement.

27. *Waivers.* Except as herein expressly provided, no waiver by either party of any breach of this Agreement, or of any warranty or representation hereunder, shall be deemed to be a waiver by the same party of any other breach of any kind or nature (whether preceding or succeeding the breach in question, and whether or not of the same or similar nature).

No acceptance by a party of payment or performance after any such breach shall be deemed to be a waiver of any breach of this Agreement or of any representation or warranty hereunder, whether or not the party knows of the breach when it accepts such payment or performance.

No failure by a party to exercise any right it may have under this Agreement or under law upon another party's default, and no delay in the exercise of that right, shall prevent it from exercising the right whenever the other party continues to be in default. No such failure or delay shall operate as a waiver of any default or as a modification of the provisions of this Agreement.

28. *Gender and number.* Whenever the singular or plural number, or the masculine, feminine or neuter gender, is used herein, it shall equally include the other(s).

29. *Notices.* Any notice which any party is required or may desire to give hereunder shall be in writing and may be personally delivered, transmitted by facsimile machine, or delivered by the United States Postal Service or private delivery service to the above addresses. Notice is deemed given when received.

30. *Governing law.* This Agreement shall be construed and enforced in accordance with the laws of the State of _____ [state].

31. *Binding effect.* This Agreement shall be binding upon, and inure to the benefit of, both parties and their respective heirs, representatives, successors and assigns.

The parties hereto have set their hands and seals the day and year first above written.

26-22 Current Legal Forms for Real Estate FORM 22.61

FORM 22.61 Memorandum of lease

COMMENT

In many states around the nation it is customary for a commercial landlord to file a "memorandum of lease" once it has executed a commercial lease. Typically, the memorandum is filed with the clerk of the county where the leased premises are located.

The memorandum is usually considerably shorter than the lease itself, but it still contains the vital information found in the lease:

- (1) lease term;**
- (2) rental fee;**
- (3) whether the tenant has the right to renew;**
- (4) whether the rental fee for the renewal period may be increased;**
- (5) common area maintenance charges, if any;**
- (6) grounds for terminating the lease; and**
- (7) any other provisions which may affect title to the property.**

The reason for filing a brief memorandum is that recording fees are generally calculated on a per-page basis--which is, of course, an incentive for filing only the lease's material terms, rather

than the entire lease. In addition, the lease may contain provisions which the parties may not wish to make public.

The purpose of recording a memorandum of lease is to give the general public notice that the lease exists. For example, the tenant may wish to make known its rights under the lease to anyone who may want to purchase the property from the landlord. (This is especially true where the lease extends for a very long period of time.) And the landlord may wish to use the memorandum as proof to a commercial lender or title company of the terms of the lease.

The following memorandum assumes that the landlord is the owner of a retail shopping mall and that the tenant is one of the businesses leasing space within the mall.

FORM

MEMORANDUM OF LEASE

AGREEMENT between _____ [insert name of entity] MANAGEMENT CORP., a corporation organized under the laws of the State of _____ [state], with offices for the transaction of business at _____ [address], in the City of _____ [city], County of _____ [county], and State of _____ [state] (hereafter referred to as "Landlord"), and _____ [name of entity], a general partnership with offices for the transaction of business at _____ [address], in the City of _____ [city], County of _____ [county], and State of _____ [state] (hereafter referred to as "Tenant").

WITNESSETH:

WHEREAS, the parties hereto entered into a lease agreement dated _____ [date]; and

WHEREAS, the parties desire to record a memorandum of lease;

NOW, THEREFORE, the parties hereby record the following memorandum of lease:

1. The lease applies to Unit No. _____ [unit number] of _____ [insert name of mall, e.g., Heritage Village] Mall. The mall is more particularly described in Schedule A, which is annexed hereto and made a part hereof.
2. The term of the lease is for _____ [e.g., five (5)] years, commencing on _____ [date], and terminating on _____ [date].
3. The lease contains a right to renew for an additional term of _____ [e.g., five (5)] years, commencing on _____ [date], and terminating on _____ [date]. No other rights to renew are included.
4. The annual rent may increase during the renewal term.
5. The lease provides for the payment by Tenant of its *pro rata* share of common area maintenance charges.

6. The lease is subordinate to all mortgages now or hereafter in effect which are, or shall become, a lien against the subject premises.

7. The lease may not be orally amended.

8. Tenant has no right to purchase the mall or the unit included in the lease.

The parties hereto have set their hands and seals the day and year first above written.

26-22 Current Legal Forms for Real Estate FORM 22.62

FORM 22.62 Lease in shopping center to be constructed by lessor--minimum and percentage rental--proportionate share of maintenance of common areas and tax increases borne by lessee

COMMENT

The planning and the leasing of space in a shopping center is often the handiwork of a developer. In working out the planning and leasing, the developer's primary concern is with the mortgagee and the principal large-store tenants who, typically, must be signed up first. Frequently, the economic power and the bargaining position of a large-store tenant greatly exceed that of the developer. In order to attract such a tenant, the developer must consult with him in the planning of the shopping center and its lease must be tailored to its specific requirements. On the other hand, smaller satellite tenants generally have no voice in planning the shopping center and little bargaining power when it comes to securing lease protection. What lease protection a satellite tenant can obtain will depend upon such factors as the size of the shopping center, the tenant's economic strength, the stage of development of the shopping center at the time the lease is executed, and the tenant's value based upon an estimate of its ability to attract shoppers to the shopping center.

Tenant restrictions.

In the following form, the relative strength of the parties is indicated by the degree of control retained by the landlord. The lease imposes minimum standards for the tenant's operation, stringent requirements for alterations and repairs, tight control over the tenant's signs and appearance, and a radius clause, which effectively protects the landlord's percentage rent by prohibiting the tenant from operating other stores in the area. The tenant is required to join a merchants' association and pay a proportionate part of the association's advertising and promotional expenses.

Use restriction.

In addition, at least 75 percent of the leased space must be devoted to the business of the tenant, as distinguished from licensees or concessionaires. This use restriction is intended to maintain the intended use of the satellite store in conformity with the character of the shopping center as well as protect the landlord's interest in percentage rent, which is based on the tenant's gross receipts.

Common charges for operation and taxes.

The tenant is required to pay a proportionate share of the operating cost of the common facilities, including sustainability costs incurred to keep the common facilities in compliance with Landlord's sustainability policies and a proportionate share of any increase in real estate taxes over taxes levied during the base period. Taxes of a landlord paid by a tenant are taxable as rent to the landlord and deductible by the tenant since the tenant is using the rental property for business purposes.

FORM

LEASE made this _____[day] day of _____[month],
 _____[year], by and between D & S Realty Company (the "Landlord") and Carker Stores, Ltd., a Delaware corporation (the "Tenant").

1. *Premises.* The Landlord demises unto the Tenant, and the Tenant leases from the Landlord, for the term and upon the terms and conditions hereinafter set forth certain parts of Building 12 consisting of approximately 10,000 square feet, to be erected (the "demised premises"), in the Charlottesville Shopping Center in Charlottesville, Virginia, the Shopping Center shown on Exhibit A attached hereto and made part hereof, and the demised premises being outlined in red on Exhibit B which is attached hereto and made part hereof, together with the right to the nonexclusive use, in common with others, of all such automobile parking areas, driveways, footways, and other facilities designed for common use, as may be installed by the Landlord and the other fee owners of the property comprising in total the Shopping Center (jointly and severally the "Owner"), and of such other facilities as the Owner may from time to time provide or designate for the common use, subject to the terms and conditions of this Lease and to the rules and regulations for the use thereof, set forth in Exhibit C, attached hereto and incorporated as a portion of this Lease as if it had been fully set forth within the body hereof.

2. *Possession.* (a) The Landlord warrants that it is the owner of the tract of land shown on Exhibit A (the "Landlord's property"), and shall develop upon such tract commercial buildings with parking areas and improvements generally in accordance with such Exhibit and that, subject to any delays caused by governmental restrictions, scarcity of labor or materials, strikes, or for reasons beyond its control, it shall proceed with due diligence to complete the project.

(b) The Landlord shall construct the demised premises substantially in accordance with the specifications set forth in Exhibit D attached hereto and made part hereof, and shall notify the Tenant in writing at least ten days prior to the completion thereof, and such notification shall constitute delivery of possession at the end of the ten-day period. At any time prior to the delivery of possession of the demised premises, the Tenant, its agents, servants, and contractors shall have the right at their own risk to enter thereon for the purpose of taking measurements, but for no other purpose, provided, however, that such entry shall not interfere with or obstruct the progress of the work being done by the Landlord.

(c) Upon receiving possession of the demised premises from the Landlord, the Tenant shall proceed with due diligence to install such stock, fixtures, and equipment and perform such other work necessary or appropriate to prepare the

demised premises for the opening of business. In the event that the Tenant does not open the demised premises for the conduct of its business within 90 days after receiving possession thereof, as provided in subparagraph (b), the Landlord shall have, in addition to all other remedies it may have, the right at its option to collect not only the minimum rent herein provided, but additional rent at the rate of one fifteenth of the minimum monthly rental per day for each day that the Tenant shall fail to commence to do business as herein provided. Such additional rental shall be deemed to be in lieu of any percentage rent that might have been earned during such period of the Tenant's failure to open. The Landlord shall have the right at any time thereafter to terminate this Lease by giving the Tenant written notice of such termination, whereupon this Lease shall be terminated, except for the Landlord's rights and remedies upon termination, as hereinafter provided. The Tenant shall submit to the Landlord, on or before 60 days after the signing of this Lease, plans and specifications covering all work which the Tenant proposes to do in the demised premises. Such plans and specifications shall be prepared in such detail as the Landlord may require, and the Tenant shall not commence any work until the Landlord has approved such plans and specifications in writing. The Landlord shall act with reasonable promptness with respect to such plans and specifications. In no event shall the Tenant be required to open for business nor shall the rent commence before Rudge's Department Store is open for business in the Shopping Center.

(d) By occupying the demised premises after the delivery of possession to install fixtures, facilities, or equipment, or to perform finishing work, the Tenant shall be deemed to have accepted the same and to have acknowledged that the premises are in the condition required by this Lease.

3. *Use.* (a) The Tenant shall use and occupy the demised premises solely for the conduct of a store for the retail sale of furniture and furnishings, and for no other purpose.

(b) The Tenant shall continuously, during the full term of this Lease, and every extension or renewal thereof, keep the entire demised premises occupied and open for business during the hours hereinafter specified. At least 75 percent of the sales floor area of the demised premises shall at all times be devoted to the business of and be operated by the Tenant, as distinguished from the Tenant's licensees, concessionaires, etc. Tenant shall use the demised premises in a manner consistent with the Landlord's sustainability practices or policies adopted by the Landlord from time to time, and promulgated to Tenant in writing.

4. *Term.* The term of this Lease shall commence on the date when the Landlord shall deliver possession of the demised premises to the Tenant, as provided in Paragraph 2, and shall end (unless sooner terminated as hereinafter provided) at midnight on the date of the expiration of 15 full years from the first day of the calendar month next succeeding the Rental Commencement Date, as defined in Paragraph 5. The parties hereto shall execute, within 30 days after the Rental Commencement Date, a Supplement to this Lease, in the form attached hereto as Supplement 1, fixing the definite date of the ending of the term of this Lease.

5. *Rental.* (a) The Tenant shall pay to the Landlord minimum annual rentals as follows:

During the 1st year: \$3,000 per year;

During the 2d year: \$4,000 per year;

During the 3rd to 15th \$5,000 per year;

payable in advance in equal monthly installments on the first day of each calendar month during the term hereof. Such minimum rental shall start to accrue on the date that the Tenant opens the demised premises for business but, in any event, no later than 60 days after the Landlord delivers possession of the demised premises to the Tenant (the "Rental Commencement Date"). The first rental payment date hereunder shall be the first day of the first calendar month following the Rental Commencement Date. On that date the Tenant shall pay to the Landlord a prorated amount applicable to the period from the Rental Commencement Date to such first rental payment date.

(b) For each lease year during the term hereof, the Tenant shall pay, in addition to minimum rent, percentage rental which shall be the amount by which 3 percent of the Tenant's gross receipts exceeds the minimum rental paid for such period; provided, however, that for the first lease year the Tenant shall pay, in addition to minimum rent, percentage rental which shall be the amount by which 3 percent of the Tenant's gross receipts during the first lease year exceeds the minimum rent paid in the first lease year.

(c) Each lease year shall be divided into four quarterly periods, ending respectively on the last day of March, June, September, and December. The first lease year shall begin on the Rental Commencement Date, and shall extend through the balance of the current quarterly period and through the three next ensuing quarterly periods. Thereafter, each lease year shall commence on the day following the expiration of the preceding lease year and shall end at the expiration of 12 calendar months thereafter.

(d) (1) Within 30 days after the end of each quarterly period during the term of this Lease, the Tenant shall submit to the Landlord an accurate, unaudited, written statement signed by the Tenant or on its behalf by a duly authorized officer or representative, showing by month the full amount of the Tenant's gross receipts in the demised premises during such quarterly period.

(2) Within 30 days after the end of each lease year, commencing with the first lease year, the Tenant shall submit to the Landlord a complete statement certified by an independent certified public accountant and also certified by the Tenant or on its behalf by a duly authorized officer or representative, showing accurately and in reasonable detail the full amount of the Tenant's gross receipts in the demised premises during the immediately preceding lease year and the percentage rental for such lease year. At the same time, the Tenant shall pay to the Landlord the percentage rent payable for such lease year, if any. The receipt by the Landlord of any payment of percentage rent for any period or the failure of the Landlord to make an audit for any period shall not bind it as to the correctness of the Tenant's statement of percentage rental due hereunder or the correctness of the Tenant's payment of percentage rental, nor bind the Landlord from collecting at any time thereafter the percentage rental actually due for such period.

(e) The term gross receipts as used herein means gross receipts of the Tenant and of all its licensees, concessionaires, and tenants, from all business conducted upon or from the demised premises, whether such receipts be obtained at the demised premises or elsewhere, and whether such business be conducted by the Tenant or by its licensees, concessionaires, or tenants, and whether such receipts be evidenced by check, credit, charge account, exchange, or otherwise. The term gross receipts shall include, but not be limited to, the amounts received from the sale of goods, wares, and merchandise and for services performed, together with the amount of all orders taken, received, or filled at the demised premises. If any one or more departments or other divisions of the Tenant's business shall be sublet by the Tenant or conducted by any person, firm, or corporation other than the Tenant, there shall be included in gross receipts for the purpose of fixing the percentage rent payable hereunder all the gross receipts of such departments or divisions, whether such receipts be obtained at the demised premises or elsewhere, in the same manner and with the same effect as if the business or sales of such departments and divisions of the Tenant's business had been conducted by the Tenant itself. Provided, and to the extent the sales price of merchandise has originally been included in gross receipts, there may be deducted from gross receipts allowances made on merchandise claimed to be defective or unsatisfactory, refunds for merchandise returned, and the sales price of merchandise delivered to the customer in exchange. Gross receipts shall not include the amount of any sales or gross receipts tax levied directly on sales and collected from customers, provided that specific record is made at the time of each sale of the amount of such sales or gross receipts tax and the amount thereof is separately charged to the customer.

(f) The business of the Tenant and of any sublessee, licensee, or concessionaire upon the demised premises shall be operated so that a duplicate sales slip, invoice, or nonresettable cash register receipt, serially numbered, shall be issued with each sale or transaction, whether for cash, credit, or exchange. The Tenant shall keep at all times during the term hereof, at the demised premises or at its general office, full, complete, and accurate books of account and records in

accordance with accepted accounting practices with respect to all operations of the business to be conducted in or from the demised premises, including the recording of gross receipts and the receipt of all merchandise into and the delivery of all merchandise from the demised premises during the term hereof. The Tenant shall retain such books and records, as well as all contracts, vouchers, checks, inventory records, and other documents and papers in any way relating to the operation of such business, for at least two years from the end of the lease year to which they are applicable, or, if an audit is required or a controversy should arise between the parties hereto regarding the rent payable hereunder, until such audit or controversy is terminated. Such books and records shall at all reasonable times during the retention period referred to above be open to the inspection of the Landlord or its duly authorized representatives, who shall have full and free access thereto and the right to require of the Tenant, its agents, and employees such information or explanation with respect thereto as may be necessary for a proper examination, and, further, shall have the right to copy and duplicate, at the Landlord's expense, such information as the Landlord may require.

(g) If it is determined that the actual gross receipts for any period covered by the statement required pursuant to subparagraph (d)(2) of this Paragraph 5, shall exceed the amount thereof shown in such statement by 5 percent or more, the Tenant shall pay all the expenses incurred in determining the actual gross receipts for such period. If any audit by the Landlord or its agents of the Tenant's records shall reveal a deficiency in any payment of percentage rental, the Tenant shall, within five days of being notified of any such deficiency, pay to the Landlord the amount of such deficiency, plus interest at 6 percent per year from the date when such payment should have been made.

(h) The relationship of the parties during the term of this Lease shall at all times be that of landlord and tenant. Neither the Landlord nor the Tenant shall be deemed to be a partner or engaged in a joint venture with or an associate of the other in the conduct of its business, nor shall the Tenant or the Landlord be liable for any debts incurred by the other in the conduct of its business, nor shall anything contained herein be deemed or construed to confer upon the Landlord or the Tenant any interest in the other's business.

(i) Tenant shall pay all rentals and other charges to the Landlord's agent, S. Nipper Corp., and render all statements herein prescribed to such agent at 10 Paradise Lane, Charlottesville, Virginia, or to such other person or corporation and at such other place as the Landlord shall designate in writing at least ten days prior to the next ensuing rental payment date.

6. *Common use areas and facilities.* (a) All facilities furnished in the Shopping Center and designated for the general use, in common, of occupants of the Shopping Center, including the Tenant, its officers, agents, employees, and customers, shall at all times be subject to the Owner's exclusive control and management. Such facilities shall include, but not be limited to, parking areas, streets, sidewalks, canopies, roadways, loading platforms, washrooms, shelters, ramps, landscaped areas, and other similar facilities. The Owner shall have the right from time to time: to change the area, level, location, and arrangement of such parking areas and other facilities above referred to; to restrict parking by tenants and their employees to employee parking areas in accordance with the provisions of Exhibit C; to do such things as in the Owner's sole discretion may be necessary regarding such facilities; and to make all rules and regulations pertaining to and necessary for the proper operation and maintenance of the common facilities, all in accordance with the provisions of Exhibit C. Subject to the provisions of Paragraph 7, the Landlord warrants that during the term hereof there shall be available for the use of the customers of the Shopping Center parking spaces for 500 American-made automobiles.

After the Rental Commencement Date, the Landlord shall not, nor permit others, including the Owner, to build any sign, fence, building, parking ramp, or garage or parking level, which shall unreasonably obstruct the view of the demised premises.

(b) In each lease year, the Tenant shall pay to the Landlord as additional rent such proportion of the Landlord's respective operating cost of common facilities as the gross floor area of the demised premises bears to the gross rentable floor area of all the Landlord's buildings in the Shopping Center.

(c) For the purposes of this paragraph, the Landlord's respective operating cost of common facilities is defined as including all of the Landlord's portion of the cost and expenses of operating and maintaining the common facilities in the Shopping Center, either individually or jointly with the other owners of the Shopping Center, and shall be deemed to include, without limitation, landscaping, sanitary control, cleaning, lighting, snow removal, resurfacing, painting, fire protection, public liability and property damage insurance, repairs, policing, costs incurred to carry out Landlord's sustainability practices with respect to the common facilities, and the Landlord's overhead expense for administering the same.

(d) The annual charge shall be computed on the basis of periods of 12 consecutive calendar months as designated by the Landlord, and shall be paid by the Tenant in equal installments in advance on the first day of each calendar quarter in an amount estimated by the Landlord. Within 60 days after the end of each such 12-month period, the Landlord shall furnish to the Tenant a statement showing in reasonable detail the amount of the Landlord's portion of such operating costs for the preceding period, any necessary adjustments thereupon to be made, and the quarterly payments to be made by the Tenant for the ensuing year estimated accordingly. Changes in applicable floor areas shall result in corresponding pro rata adjustments.

7. *Tenants' association.* The Tenant shall maintain a membership in a Tenants' Association authorized and recognized by the Landlord and established by the tenants in the Shopping Center, and shall pay to the Tenants' Association each lease year, when bills are rendered, an amount not less than two cents per square foot of total area of the demised premises for promotional and advertising purposes. The Tenant shall use the name Charlottesville Shopping Center prominently as part of its address in all of its advertising and promotional literature, but the name shall not be used at any location other than the demised premises.

8. *Public utilities.* The Tenant shall pay for all utilities, used or consumed in or upon the demised premises, and all sewer charges, as and when the charges therefor become due and payable. If the Landlord elects to furnish any utility services to the Tenant, the Tenant shall purchase the same from the Landlord, provided the Landlord shall charge therefor the same consumer rate as is charged by the public service corporation or municipal authority, as the case may be, supplying similar services in the general area in which the demised premises are situated. The Landlord shall not be liable to the Tenant for any damages should the furnishing of any utilities by the Landlord be interrupted or required to be terminated because of necessary repairs or improvements or any cause beyond its reasonable control. Nor shall any such interruption or cessation relieve the Tenant from the performance of any of its covenants hereunder.

9. *Taxes.* (a) Commencing with the calendar year next following the calendar year for which the total real estate tax assessment upon the Landlord's property in the Shopping Center shall reflect the completion of the building of which the demised premises are a part, the Tenant shall pay to the Landlord each year on demand, as additional rent, the Tenant's share of excess real estate taxes, if any, as hereinafter described.

(b) The Tenant's share of excess real estate taxes for any such calendar year shall be the sum equal to the product obtained by multiplying the number of square feet of gross floor area leased to the Tenant by the amount, if any, that the current tax per square foot for such calendar year exceeds the basic tax per square foot. The basic tax per square foot shall be computed by dividing the amount of the total real estate taxes levied on the Landlord's buildings, land, and land improvements for the first calendar year for which the assessment thereof reflects the completion of the building of which the demised premises are a part by the total number of square feet of mall-level rentable floor area of the Landlord's property in the Shopping Center reflected in such assessment. The current tax per square foot for any calendar year shall be computed by dividing the amount of the total real estate taxes levied on the Landlord's buildings, land, and land improvements in the Shopping Center for such calendar year by the total number of square feet of mall-level rentable floor area in the Landlord's property in the Shopping Center reflected in the real estate tax assessment thereof for such calendar year.

10. *Repairs.* The Landlord shall keep the roof and the exterior walls of the premises, excepting any work done by the Tenant and any glass or doors, in proper repair, provided that in each case the Tenant shall have given the Landlord prior written notice of the necessity of such repairs; and provided, further, that if any such repair is required by reason of the Tenant's negligence or the negligence of any of its agents, employees, or customers, or other person using the premises with the Tenant's consent, express or implied, the Landlord may make such repair and add the cost thereof to the first installment of minimum rent which shall thereafter become due. The Tenant shall keep the interior of the demised premises, which includes, but is not limited to, all electrical, plumbing, heating, air conditioning, and other mechanical installation therein, all doors, and all plate glass and door and window glass, in good order, making all repairs, alterations, replacements, and modifications at its own expense and using materials and labor of a kind and quality equal to the original work. The Tenant shall surrender the demised premises at the expiration or earlier termination of this Lease in as good condition as when received, excepting only deterioration caused by ordinary wear and tear and damage by fire or other casualty of the kind insured against in standard policies of fire insurance with extended coverage. Except as hereinabove provided, the Landlord shall have no obligation to repair, maintain, alter, replace, or modify the demised premises or any part thereof, or any electrical, plumbing, heating, air conditioning, or other mechanical installation therein.

11. *Tenant's right to make alterations.* The Tenant shall not make any alterations, improvements, or additions to the demised premises during the term of this Lease or any extension thereof without first obtaining the Landlord's written consent. The Tenant shall not cut or drill into, or secure any fixture, apparatus, or equipment of any kind to any part of the demised premises without first obtaining the Landlord's written consent. All such alterations, improvements, and additions made by the Tenant shall remain upon the premises at the expiration or earlier termination of this Lease and shall become the property of the Landlord, unless the Landlord shall, prior to such termination, have given written notice to the Tenant to remove the same. In such event, the Tenant shall remove such alterations, improvements, and additions and restore the premises to the same good order and condition in which they were at the commencement of this Lease. Should the Tenant fail so to do, the Landlord may so do, collecting the cost and expense thereof from the Tenant as additional rent, or, at the Landlord's option, by application of the security deposit required hereunder.

12. *Affirmative covenants of tenant.* The Tenant covenants that it shall:

- (a) Comply with the terms of any state or federal statute or local ordinance or regulation applicable to the Tenant or its use of the demised premises, and save the Landlord harmless from penalties, fines, costs, expenses, or damages resulting from its failure so to do.
- (b) Comply with the terms and conditions set forth in Exhibit C attached hereto relating to the use, operation, and maintenance of the common facilities.
- (c) Give to the Landlord prompt written notice of any accident, fire, or damage occurring on or to the demised premises and the common area.
- (d) Arrange for loading and unloading of goods to be done only at such times, in the areas, and through such entrances as the Landlord may designate for such purposes. Subject to the provisions of Exhibit C, trailers or trucks shall not be permitted to remain parked overnight in any area of the Shopping Center, whether loaded or unloaded.
- (e) Keep all garbage and refuse in the kind of container specified by the Landlord and place the same outside of the premises prepared for collection in the manner and at the times and places specified by the Landlord, and in accordance with municipal regulations.
- (f) Keep the premises sufficiently heated to prevent freezing of water in pipes and fixtures.
- (g) Keep the outside areas immediately adjoining the premises clean and free from ice and snow, and not burn, place, or

permit any rubbish, obstructions, or merchandise in such areas.

(h) Keep the demised premises clean, orderly, sanitary, and free from objectionable odors and from insects, vermin, and other pests.

(i) Require the Tenant's employees to park their cars only in those portions of the parking area or at such other places as the Landlord shall designate for that purpose. The Tenant shall from time to time, upon written notice, furnish the Landlord with the state automobile license numbers assigned to the Tenant's cars and the cars of all the Tenant's directors, officers, employees, agents, contractors, subtenants, licensees, and concessionaires.

(j) Keep its display windows, including window and shadow boxes, in the demised premises dressed and illuminated and its exterior signs and lights continuously well-lighted every day of the term of this Lease from dusk and thereafter during such time as the store occupied by Rudge's Department Store maintains illumination for its display windows, exterior signs, and exterior advertising displays. The Tenant shall open for business at least six days and five nights in each week, opening by at least 10 a.m. each morning, and remaining open each night so long as Rudge's Department Store remains open for business to the general public, and such additional hours as may become the standard as maintained by a majority of the tenants in the Shopping Center.

(k) Conduct its business in the demised premises in a dignified manner and keep the demised premises in first-class condition in accordance with high standards of store operation, maintaining a full and complete stock of seasonable merchandise so as to attain the highest possible sales volume.

(l) Comply with all the Landlord's rules and regulations in effect at the time of the execution of this Lease or at any time and from time to time promulgated by the Landlord, which the Landlord in its sole discretion shall deem necessary in connection with the demised premises, the building of which the demised premises are a part, or the Shopping Center, including the installation of such fire extinguishers and other safety equipment as the Landlord may require; and comply with the recommendations of the Landlord's insurance carriers and their rate-making bodies.

(m) Do all things necessary to prevent the filing of any mechanics' or other liens against the demised premises or any part thereof by reason of work, labor, services, or materials supplied or claimed to have been supplied to the Tenant, or anyone holding the demised premises, or any part thereof, through or under the Tenant. If any such lien shall at any time be filed against the Tenant's interest in the demised premises, the Tenant shall either cause the same to be discharged of record within 20 days after the date of filing of the same, or, if the Tenant, in the Tenant's discretion and in good faith, determines that such lien should be contested, the Tenant shall furnish such security as may be necessary or required to prevent any foreclosure proceedings against the Tenant's interest in the demised premises during the pendency of such contest. If the Tenant shall fail to discharge such lien within such period or fail to furnish such security, then, in addition to any other right or remedy of the Landlord resulting from the Tenant's default, the Landlord may, but shall not be obligated to, discharge the same either by paying the amount claimed to be due or by procuring the discharge of such lien by giving security or in such other manner as is, or may be, prescribed by law. Nothing contained herein shall imply any consent or agreement by the Landlord to subject its estate to liability under any mechanics' or other lien law.

(n) Repay the Landlord, as additional rent, on demand, all sums disbursed or deposited by it pursuant to the foregoing provisions of this Article, including the Landlord's costs, expenses, and reasonable attorneys' fees incurred by it in connection therewith.

13. *Negative covenants of tenant.* The Tenant covenants that it shall not do any of the following without the Landlord's prior written consent:

(a) Use or operate any machinery that, in the Landlord's opinion, is harmful to the building or disturbing to other tenants in the building of which the demised premises are a part or use any loudspeakers, televisions, phonographs, radios, or

other devices in a manner so as to be heard or seen outside of the demised premises, or display merchandise on the exterior of the demised premises either for sale or for promotional purposes.

(b) Do or suffer to be done, anything objectionable to the fire insurance companies whereby the fire insurance or any other insurance now in force or hereafter to be placed on the demised premises or any part thereof, or on the building of which the demised premises may be a part, shall become void or suspended, or be rated as a more hazardous risk than at the date when the Tenant receives possession hereunder. In case of a breach of this covenant, in addition to all other remedies of the Landlord hereunder, the Tenant shall pay to the Landlord as additional rent any increase of premiums on insurance carried by the Landlord on the demised premises, or any part thereof, or on the building of which the demised premises may be a part, caused in any way by the Tenant's occupancy.

(c) Attach any awning, antenna, or other projection to the roof or the outside walls of the demised premises or the building of which the demised premises are a part.

(d) Conduct any auction, fire, bankruptcy, selling out, or going out of business sale on or about the demised premises.

(e) Commit or suffer to be committed by any person any waste upon the demised premises or any nuisance or other act which may disturb the quiet enjoyment of (1) any other tenant in the Shopping Center, or (2) any person within 500 feet of the boundaries of the Shopping Center.

(f) Solicit business for itself, or permit its licensees or concessionaires to solicit business in the parking or other common areas, nor shall any of them distribute any handbills or other advertising matter in or on automobiles parked in a parking area or in other common areas.

14. *Signs.* The Tenant shall not decorate, paint, or in any other manner alter the demised premises, and shall not install or affix any sign, device, fixture, or attachment on or to the exterior of the demised premises, or any building thereon, including the roof or the canopy thereof, without first obtaining the Landlord's written consent and complying in all respects with the standards set for such signs, or other decoration in Exhibit C, attached hereto. If the Tenant shall do any of the foregoing acts in contravention of this provision, the Landlord shall have the right to remove any such decoration, paint, alteration, sign, device, fixture, or attachment and restore the demised premises to their condition prior to such act, and the Tenant shall pay the cost of such removal and restoration as additional rental payable for the month next following such removal or restoration.

15. *Rights of landlord.* The Landlord reserves, in addition to all other rights reserved herein, the following rights with respect to the demised premises:

(a) At all reasonable times, by itself or its duly authorized agents, to go upon and inspect the demised premises, and at its option to make repairs, alterations, and additions thereto or to the building of which the demised premises are a part. If the Tenant shall not be personally present to open and permit an entry by the Landlord into the demised premises, at any time, and for any reason an entry therein shall be necessary in the sole discretion of the Landlord, the Landlord or the Landlord's agents may enter the same by a master key, or make forcible entry without rendering the Landlord or such agents liable therefor and without in any manner affecting the obligations and covenants of this Lease.

(b) To display a "For Sale" sign at any time, and also, after notice from either party of intention to terminate this Lease, or at any time within three months prior to the expiration of this Lease, to display a "For Rent" sign. Such signs shall be placed upon such part of the demised premises as the Landlord shall require, except on display windows or doors leading into the demised premises. Prospective purchasers or tenants authorized by the Landlord may inspect the premises at reasonable hours at any time.

(c) To install or place upon, or affix to, the roof and exterior walls of the demised premises equipment, signs, displays,

antennas, and any other object or structure of any kind, provided the same shall not materially impair the structural integrity of the building.

The exercise of any right reserved to the Landlord in this paragraph, or otherwise, shall not be deemed an eviction or disturbance of the Tenant's use and possession of the demised premises and shall not render the Landlord liable in any manner to the Tenant or to any other person.

16. *Damage to premises.* If the demised premises shall be damaged by fire or other casualty of the kind insured against in standard policies of fire insurance with extended coverage, but are not thereby rendered untenable in whole or in part, the Landlord shall promptly, at its own expense and to the extent required in Exhibit D, cause such damage to be repaired, and the rent shall not be abated. If, by reason of such occurrence, the premises shall be rendered untenable only in part, the Landlord shall promptly at its own expense cause the damage to be repaired to the extent required by its original obligation to build as set forth in Exhibit D attached hereto, and the minimum rent, meanwhile, shall be abated proportionately as to the portion of the premises rendered untenable. If the premises shall be rendered wholly untenable by reason of such occurrence, the Landlord shall promptly at its own expense cause such damage to be repaired to the extent required by its original obligation to build as set forth in Exhibit D, and the minimum rent meanwhile shall be abated in whole, provided, however, that there shall be no extension of the term of this Lease by reason of such abatement. If the demised premises shall be rendered wholly untenable after the beginning of the last two years of the term of this Lease, the Landlord may terminate this Lease by notice to the Tenant, such notice to be given within 30 days of the event rendering the demised premises wholly untenable, provided that such termination shall not affect any rights theretofore accrued to the Landlord hereunder because of the Tenant's prior defaults. Except as herein provided, the Landlord shall have no obligation to repair or rebuild in case of fire or other casualty.

17. *Indemnification and public liability insurance.* The Tenant shall: (a) Indemnify the Owner and save it harmless from and against any and all claims, actions, damages, liability, and expense in connection with loss of life, personal injury, or damage to property occurring in or about, or arising out of, the demised premises and adjacent sidewalks and loading platforms or areas, or occasioned wholly or in part by any act or omission of the Tenant, its agents, subtenants, licensees, concessionaires, contractors, customers, or employees. In case the Owner shall be made a party to any litigation commenced by or against the Tenant, its agents, subtenants, licensees, concessionaires, contractors, customers, or employees, then the Tenant shall protect and hold the Owner harmless and shall pay all costs, expenses, and reasonable attorneys' fees incurred or paid by the Owner in connection with such litigation. The Tenant shall also pay all costs, expenses, and reasonable attorneys' fees that may be incurred or paid by the Owner in enforcing the covenants and conditions of this Lease, whether incurred as a result of litigation or otherwise.

(b) At all times during the term hereof keep in force at its own expense public liability insurance in companies acceptable to the Owner and naming as insured both the Landlord and the Tenant, with minimum limits of \$500,000 on account of bodily injuries to or death of one person, and \$1,000,000 on account of bodily injuries to or death of more than one person as the result of any one accident or disaster, and \$50,000 on account of damage to property.

(c) At all times during the term hereof keep in force at its own expense plate glass insurance in companies acceptable to the Owner and naming as insured both the Landlord and the Tenant.

(d) At all times during the term hereof keep in force at its own expense fire insurance with extended coverage in companies acceptable to the Owner, equal to the replacement costs of the Tenant's betterments and improvements on the demised premises, and naming the Landlord as an insured, to the extent of such betterments and improvements.

(e) Furnish to the Landlord, within 30 days after the Tenant receives notice of intention to deliver possession as set forth in subparagraph 2(b), copies of policies or certificates of insurance evidencing coverages required by this Lease. All policies required hereunder shall contain an endorsement providing that the insurer will not cancel or materially change the coverage of such policies without first giving ten days' prior written notice thereof to the Landlord.

(f) Tenant shall not self-insure in order to obtain coverage for the risks described above. All policies shall be obtained from an insurance carrier with a "AA" or better rating.

(g) In the event Tenant fails to insure, Landlord may obtain insurance and charge the cost thereof--plus ten (10) percent of the premium charge to cover administrative expenses--to Tenant. Tenant shall reimburse Landlord with the payment of the next installment of rent.

18. *Waiver of claims.* (a) The Owner and the Owner's agents, employees, and contractors shall not be liable, and the Tenant hereby releases all claims, for damage to person or property sustained by the Tenant or any person claiming through the Tenant resulting from any fire, accident, occurrence, or condition in or upon the demised premises or building of which they shall be a part, including, but not limited to, claims for damage resulting from (1) any defect in or failure of plumbing, heating, or air conditioning equipment, electric wiring or installation thereof, water pipes, stairs, railings, or walks; (2) any equipment or appurtenances becoming out of repair; (3) the bursting, leaking, or running of any tank, washstand, water closet, waste pipe, drain, or any other pipe or tank in, upon, or about such building or premises; (4) the backing-up of any sewer pipe or downspout; (5) the escape of steam or hot water; (6) water, snow, or ice being upon or coming through the roof or any other place upon or near such building or premises or otherwise; (7) the falling of any fixture, plaster, or stucco; (8) broken glass; and (9) any act or omission of cotenants or other occupants of such building or of adjoining or contiguous property or buildings.

(b) In the event the demised premises or its contents are damaged or destroyed by fire or other insured casualty, the rights, if any, of owner and tenant against each other with respect to such damage or destruction are waived. All policies of fire and extended coverage or other insurance covering the demised premises or its contents shall contain a clause or endorsement providing in substance that the insurance shall not be prejudiced if the assureds have waived their right of recovery from any person or persons prior to the date and time of loss or damage, if any.

19. *Trade fixtures.* All trade fixtures installed by the Tenant in the demised premises shall remain its property and shall be removable at the expiration or earlier termination of this Lease or any renewal or extension thereof, provided the Tenant shall not at such time be in default under any covenant or condition contained herein; and provided, further, that in the event of such removal, having repaired the damage caused by such removal, the Tenant shall promptly restore the premises to their original order and condition. Any such trade fixture not removed at or prior to such termination shall become the property of the Landlord. Lighting fixtures and air conditioning equipment, whether or not installed by the Tenant, shall not be removable at the expiration or earlier termination of this Lease, or at the expiration of any renewal or extension thereof, and shall become the property of the Landlord.

20. *Assigning, mortgaging, subletting.* (a) The Tenant shall not assign, create a security interest in, pledge, or encumber this Lease, in whole or in part, or sublet the whole or any part of the demised premises, or permit the use of the whole or any part thereof by any licensee or concessionaire, without first obtaining the Landlord's written consent. In the event of any such assignment, subletting, licensing, or granting of a concession, the Tenant shall nevertheless remain liable for the performance of all the terms, conditions, and covenants of this Lease. If the Tenant is a corporation, and if control thereof changes at any time during the term hereof, the Landlord, at its option, may, by giving 60 days' prior written notice to the Tenant, declare such change an event of default under this Lease. Any transfer, sale, pledge, or other disposition, in any single transaction or cumulatively during the term of this Lease, or any renewal or extension thereof, of 50 percent of the shares of the Tenant shall be deemed an assignment of this Lease, and prohibited without the Landlord's express written consent.

(b) The Landlord hereby consents to the assignment of this Lease, or the subletting of the demised premises to a wholly-owned subsidiary of the Tenant, on condition that (1) any such assignee or sublessee shall agree with the Landlord in writing, prior to any such assignment or subletting, to be bound by and to perform all covenants and conditions of this Lease applicable to the Tenant; (2) that the Tenant shall remain liable for the observance and

performance of all of the covenants and conditions of this Lease; and (3) that notice of such assignment or subletting is given to the Landlord no less than 15 days prior thereto. Any assignment by the Tenant of this Lease, or subleasing of the demised premises, shall forever terminate all rights of the Tenant to possession of the demised premises notwithstanding any provision in any such assignment or sublease to the contrary, and notwithstanding the Landlord's consent to such assignment or sublease. Thereafter, the Landlord may exercise against any subtenant or assignee all the rights and remedies herein provided upon default, without notice of any kind to the Tenant, and the Tenant shall have no right to reenter the demised premises upon default of the assignee or sublessee, but the Tenant shall remain liable, jointly and severally, with any assignee or subtenant for the performance of all of the covenants and conditions of this Lease, including, but not being limited to, the payment to the Landlord of all payments due or to become due to the Landlord hereunder.

21. *Subordination.* This Lease is subject and subordinate to any and all mortgages or deeds of trust now or hereafter placed on the property of which the demised premises are a part, provided, however, that in each such case the holder of the mortgage or the trustee of such deed of trust shall agree that this Lease shall not be divested or in any way affected by foreclosure or other default proceedings under such mortgage, deed of trust, or obligation secured thereby, so long as the Tenant shall not be in default under the terms of this Lease. This Lease shall remain in full force and effect notwithstanding any such default proceedings under such mortgage, deed of trust, or obligation secured thereby.

22. *Performance of tenant's covenants.* The Tenant shall perform all of the covenants and conditions on its part to be performed, and it shall immediately, upon receipt of written notice, where notice of nonperformance is required by this Lease, comply with the requirements of such notice. Further, if the Tenant shall violate any covenant or condition herein, whether or not notice is required, the Landlord may at its option do or cause to be done any or all of the things required by this Lease, and in so doing the Landlord shall have the right to cause its agents, employees, and contractors to enter upon the demised premises and in such event shall have no liability to the Tenant for any loss or damage resulting in any way from such action. The Tenant shall pay within five days of demand all moneys paid or expenses incurred by the Landlord in taking such actions, including counsel fees, any such sum to be collectible from the Tenant as additional rent hereunder.

23. *Financing agreement.* The Tenant shall not enter into, execute, or deliver any financing agreement that can be considered as a priority to any mortgage or deed of trust pertaining to the demised premises. If the Tenant does so execute or deliver such financing agreement, such action on its part shall be considered an event of default under this Lease entitling the Landlord to such remedies as are provided for herein.

24. *Custom and usage.* Any law, usage, or custom to the contrary notwithstanding, the Landlord shall have the right at all times to enforce the covenants and conditions of this Lease in strict accordance with the terms hereof, notwithstanding any conduct or custom on the part of the Landlord in refraining from so doing at any time or times. The failure of the Landlord at any time to enforce its rights under such covenants and conditions strictly in accordance with the same shall not be construed as having created a custom in any way or manner contrary to the specific covenants and conditions of this Lease or as having in any way or manner modified or waived the same.

25. *Surrender and holding over.* (a) The Tenant, upon expiration or termination of this Lease, either by lapse of time or otherwise, shall peaceably surrender to the Landlord the premises in broom-clean condition and in good repair as required by Paragraph 10. In the event that the Tenant shall fail to surrender the demised premises upon demand, the Landlord, in addition to all other remedies available to it hereunder, shall have the right to receive, as liquidated damages for all the time the Tenant shall so retain possession of the premises or any part thereof, an amount equal to twice the minimum and percentage rent specified in Paragraph 5 of this Lease, as applied to such period.

(b) If the Tenant remains in possession of the premises with the Landlord's consent but without a new Lease reduced to writing and duly executed, the Tenant shall be deemed to be occupying the premises as a tenant from month to month, but otherwise subject to all the covenants and conditions of this Lease.

26. *Additional construction.* The Landlord reserves the right at any time, and from time to time, to make alterations or additions to, and to build additional stories on, the building in which the premises are contained, and to build adjoining the same. The Landlord also reserves the right to construct other or add to other buildings or improvements in the Shopping Center, and to permit others to do so from time to time. In the event of such additional construction, the Landlord shall not unreasonably interfere with the Tenant's occupancy.

27. *Condemnation.* The Tenant waives any loss or damage to the Tenant as the result of the exercise of the power of eminent domain by any governmental body, and the right to receive any portion of any condemnation award, as a participant in the condemnation proceedings or otherwise, whether such loss or damage results from condemnation of part or all of the demised premises or any portion of the parking area or service entrances and exists. Should any power of eminent domain be exercised after the Tenant is in possession, such exercise shall not void or impair this Lease unless the demised building shall be substantially taken. Upon the happening of such event the rental herein provided shall proportionately abate as of the date that possession is required by the condemning authority.

28. *Cancellation of lease.* The Tenant shall have the option, if construction of the demised premises is not completed by _____ [date], of cancelling this Lease by giving written notice thereof to the Landlord within 15 days after such date; provided that if such failure to complete is caused by a strike, picketing, Act of God, war emergency, or cause beyond the Landlord's control, such completion date shall be extended for a period equal to the period necessary to cure such cause. If, for any reason whatsoever, the Landlord does not commence construction of the demised premises by _____ [date], or if the Landlord does not complete construction by _____ [date], the Landlord shall have the option of cancelling the Lease by giving similar written notice to the Tenant, within 15 days after either of the applicable dates.

29. *Notices.* Wherever in this Lease it shall be required or permitted that notice or demand be given or served by either party to or on the other, such notice or demand shall not be deemed to have been duly given or served unless in writing and either personally delivered or forwarded by registered mail, postage prepaid, to the respective addresses hereinafter set forth. Such addresses may be changed from time to time by either party by serving notice as above provided.

To Landlord at: c/o S. Nipper Corp. 15 Paradise Lane Charlottesville, Virginia

The Tenant shall appoint during the term of this Lease, or any extension thereof, and hereby designates the following, as its agent within the State of Virginia for purposes of receiving all notices required to be given and any service of process:

To Tenant at: Edward Cuttle 50 Main Street Arlington, Virginia

30. *Agency.* It is understood that S. Nipper Corp. is the sole and exclusive agent of the Landlord in negotiating and having this Lease consummated, and is entitled to compensation pursuant to an agreement with the Landlord.

31. *Successors and assigns.* All rights, obligations, and liabilities given to, or imposed upon, the parties hereto shall extend to and bind their respective heirs, executors, administrators, successors, sublessees, licensees, concessionaires, and assigns, subject to the provisions of Paragraph 21. No rights, however, shall inure to the benefit of any assignee of the Tenant unless the Landlord has approved the assignment in writing as set forth above.

The term Landlord, as used in this lease, so far as covenants and conditions on the part of the Landlord are concerned, shall be limited to mean the D & S Realty Company, its successors, and assigns. In the event of any transfer of title to the demised premises the Landlord (and in case of any subsequent transfers or conveyances, the then grantor) shall be automatically freed and relieved from and after the date of such transfer or conveyance of all liability as respects the performance of all covenants and conditions on the part of the Landlord thereafter to be performed, provided that any

amount then due and payable to the Tenant by the Landlord, or the then grantor, under any provision of this Lease, shall be paid to the Tenant, it being intended hereby that the covenants and conditions contained in this Lease on the part of the Landlord shall be binding on the Landlord, its successors, and assigns, only during and in respect of their respective successive period of ownership. Further, the Landlord's liability under this Lease shall be limited to and include only the interests of the Landlord in the real estate comprising the Shopping Center.

32. *Scope and interpretation of agreement; governing law.* This Lease shall be considered to be the only agreement between the parties hereto pertaining to the demised premises. All negotiations and oral agreements acceptable to both parties are included herein. The laws of the State of Virginia shall govern the validity, interpretation, performance, and enforcement of this Lease.

33. *Short form lease.* At the option of either party, a short form of this Lease, suitable for recording purposes, but in no way varying the provisions of this Lease, shall be entered into by the Landlord and the Tenant, and in the event either party desires to record such short form of this Lease, such party shall pay the expense of recording.

34. *Force majeure.* In the event that the Landlord shall be delayed, or hindered, or prevented from the performance of any act required hereunder, by reason of governmental restrictions, scarcity of labor or materials, strikes, or for reasons beyond its control, the performance of such act shall be excused for the period of delay, and the period for the performance of any such act shall be extended for the period necessary to complete performance after the end of the period of such delay.

35. *Offset statement.* Within ten days after request therefor by the Landlord or any mortgagee, or if in the event that upon any sale, assignment, or hypothecation of the demised premises or the land thereunder by the Landlord an offset statement shall be required from the Tenant, the Tenant shall deliver in recordable form a statement to any proposed mortgagee or purchaser, or to the Landlord, certifying (if such be the case) that this Lease is in full force and effect, that the Tenant is in possession, that the Tenant has commenced the payment of rent, and that the Tenant claims no defenses or offsets to this Lease.

36. *Events of default.* The occurrence of any of the following shall, in addition to all other events of default provided herein, constitute an event of default hereunder:

(a) Failure of the Tenant to commence business within the time period specified by Paragraph 2.

(b) Discontinuance by the Tenant of the conduct of its business in the demised premises.

(c) The filing of a petition by or against the Tenant or its surety for adjudication as a bankrupt or insolvent, or for its reorganization or for the appointment of a receiver or trustee of the Tenant or the Tenant's property; or an assignment by the Tenant for the benefit of creditors; or the taking possession of the property of the Tenant by any governmental officer or agency pursuant to statutory authority for the dissolution or liquidation of the Tenant; or if a temporary or permanent receiver or trustee shall be appointed for the Tenant or for the Tenant's property and such temporary or permanent receiver or trustee shall not be discharged within 30 days from the date of appointment; or any other execution, levy, attachment, or other process of law upon the Tenant's interest in the leasehold estate, or any part thereof.

(d) Failure of the Tenant to pay when due any installment of rent hereunder, or any other sum herein required to be paid by the Tenant, within ten days after written notice of failure from the Landlord.

(e) Vacation or desertion of the demised premises or permitting the same to be empty and unoccupied, or the failure to open and actively conduct its business for a period of ten consecutive calendar days.

(f) The Tenant's removal or attempt to remove or manifesting an intention to remove the Tenant's goods or property from or out of the demised premises otherwise than in the ordinary and usual course of business, without having first paid and satisfied the Landlord for all rent which may become due during the entire term of this Lease.

(g) The transfer or devolution, whether by operation of law or otherwise (except as hereinabove permitted), of this Lease or the Tenant's estate or any of the Tenant's interest to anyone other than the Tenant, or any such attempted transfer or devolution.

(h) The Tenant's failure to perform or observe any other covenant or condition of this Lease, after written notice and demand, provided that, if such failure is of such a character as not to permit immediate compliance, then the Tenant's failure to proceed diligently and immediately upon receipt of notice to commence the cure of such failure, and thereafter to complete such cure with all reasonable dispatch within ten days after written notice from the Landlord.

37. Landlord's remedies upon default by tenant. (a) If any rent or any charges herein included as rent shall remain unpaid on any day on which the same are due, as provided in Paragraph 36(d) hereof, then the Landlord, or any person acting under the Landlord, or any officer of any court acting on behalf of the Landlord, may enter the premises and without further demand proceed by distress or sale of the goods there found to levy the rent and all other charges herein payable as rent, and all costs and officers' commissions, including watchmen's wages, shall be paid by the Tenant. In such case all costs, officers' commissions, and other charges shall immediately attach and become a part of the Landlord's claim for rent, and any tender of rent without such costs made after the issuance of a warrant of distress shall not be sufficient to satisfy its claim. The Tenant hereby waives the benefit of all present or future laws regarding any limitation of time within which distress may be levied after removal of goods from the demised premises, and relieves the Landlord of any obligation of proving or identifying or appraising such goods. The Tenant shall not lease goods of any kind for use on the demised premises with the understanding that such goods shall be exempt from levy for rent, and other charges herein reserved as rent.

(b) Upon the occurrence of an event of default as set forth in Paragraph 36, and in any of such events, the Landlord, at its option, may at such times as it may determine in its sole discretion, concurrently or successively, without being deemed to have waived any rights or to have made an election in any circumstance, do any or all of the following:

(1) The Landlord may serve upon the Tenant notice that this Lease and the then unexpired term hereof shall terminate and become absolutely void on a date specified in such notice, to be not less than ten days after the date of such notice. On the expiration of the time limited in such notice, this Lease and the term herein granted, as well as all of the right, title, and interest of the Tenant hereunder, shall, except as to the rights and remedies of the Landlord upon termination as provided herein, terminate and become void in the same manner and with the same force and effect as if the date fixed in such notice were the date originally specified for the expiration of the term herein demised. The Tenant shall then immediately quit and surrender to the Landlord the demised premises, including any and all buildings and improvements thereon, and the Landlord may then, or at any time thereafter, without judicial proceedings of any kind, enter into and repossess the demised premises, breaking open locked doors if necessary, and may use such force as it may deem necessary to effect such entrance and may remove all occupants and any property thereon without being liable to any action or prosecution of any kind for such entry or the manner thereof or loss of or damage to any property upon the demised premises.

(2) Without terminating this Lease and without notice, the Landlord may, without judicial proceedings of any kind, enter into and repossess the demised premises, breaking open locked doors if necessary, and may use such force as it may deem necessary to effect such entrance and may remove all occupants and any property thereon without being liable to any action or prosecution of any kind for such entry or the manner thereof or loss of or damage to any property upon the demised premises.

In the event of either (1) or (2), the Landlord may, but shall not be obligated to, obtain possession of the demised

premises by unlawful detainer or any other judicial proceeding which it may, in its sole discretion, institute for such purpose. The Landlord's obtaining of possession of the demised premises, either with or without judicial proceedings for that purpose, shall not, of itself, terminate this Lease.

(3) With or without terminating this Lease and with or without reentering and obtaining possession of the demised premises, the Landlord may lease the demised premises to any other person upon such terms as the Landlord may deem reasonable, in its sole discretion, and for a term within or beyond the term of this Lease. The Tenant shall be liable for any loss in rent for the balance of the then current term together with all expenses or costs incurred by the Landlord in rerenting the premises, such as the payment of commissions, the making of alterations, or otherwise, whether the recovery of the Landlord shall be classed as rent, or damages, or otherwise, and the Landlord may recover such loss at any time, or from time to time, after any of the foregoing events, whether prior to the end of the term herein granted or otherwise.

Without limitation of or by the foregoing, the Tenant waives any and all demands and notices of any kind which may be required by law to be given prior to any entry or reentry by the Landlord, by means of judicial proceedings for that purpose or otherwise. In the event the Landlord shall terminate this Lease, prior to the date of expiration originally fixed, or in the event the Landlord shall repossess the demised premises, by judicial process or otherwise, with or without termination of this Lease, the Tenant waives all right to recover or regain possession of the demised premises to save forfeiture, of possession or of this Lease, as the case may be, by payment of rent due or by other performance of the covenants and conditions hereof. Without limitation of or by the foregoing, the Tenant waives all right to reinstate or redeem this Lease notwithstanding any provisions of any statute, law, or decision now or hereafter in force or effect.

The parties hereto waive trial by jury in any action, proceeding, or counterclaim brought by either party against the other on all matters arising out of or in any way connected with this Lease, the relationship of the Landlord and the Tenant, the Tenant's use or occupancy of the demised premises, and any claim of injury or damage. In the event the Landlord commences any proceedings for nonpayment of rent, minimum rent, percentage rent, additional rent, or damages for breach of this Lease, the Tenant shall not interpose any counterclaim in such proceedings. This shall not, however, be construed as a waiver of the Tenant's right to assert such claims in any separate action brought by the Tenant. The words entry and reentry as used in this Lease shall not be deemed restricted to their technical legal meaning.

In the event of a breach or threatened breach by the Tenant of any covenant or condition hereof, the Landlord shall have the right of injunction to restrain the same and the right to invoke any remedy allowed by law or in equity whether or not other remedies, indemnity, or reimbursements are herein provided. The various rights and remedies, powers, options, and elections of the Landlord reserved, expressed, or contained in this Lease are distinct, separate, and cumulative, and no one of them shall be deemed to be exclusive of the other rights, remedies, powers, or options provided herein, or are now or may hereafter be conferred upon the Landlord by statute or by state law.

If any of the foregoing acts of default shall occur, the whole rent for the balance of the term and all other sums payable hereunder as rent for the balance of the term, or any part thereof, at the option of the Landlord, shall immediately without action or notice become due and payable as if by the terms of this Lease it were payable in advance. The Landlord may immediately proceed to collect or bring action for the whole rent, or such part thereof as aforesaid, as rent being in arrears, or may file a proof of claim in any bankruptcy or insolvency proceedings for such rent, or may institute any other proceedings to enforce payment thereof. Rent for the balance of the term after the happening of any of the foregoing occurrences shall be computed as equal to the yearly average of the minimum and percentage rent paid by the Tenant upon the gross sales in the demised premises, from the commencement of the term of this Lease to the end of the lease year next preceding the date of such occurrence.

No such termination of this Lease, nor taking nor recovering possession of the premises with or without termination of this Lease, shall deprive the Landlord of any remedies or actions against the Tenant for rent or for damages due or to

become due for the breach of any covenant or condition herein contained, nor shall the bringing of any such action for rent, or breach of any covenant or condition, nor the resort to any other remedy herein or otherwise provided for the recovery of rent or damage for such breach, be construed as a waiver of the right to insist upon the forfeiture and to obtain possession in the manner herein provided.

No payment by the Tenant or receipt by the Landlord of a lesser amount than the monthly rent herein stipulated shall be deemed to be other than on account of the earliest stipulated rent, nor shall any endorsement or statement on any check or any letter accompanying any check or payment as rent be deemed an accord and satisfaction. The Landlord may accept such check or payment without prejudice to its right to recover the balance of such rent or pursue any other remedy provided in this Lease.

38. *Security.* The Tenant has deposited with the Landlord the sum of \$10,000 as security for the performance by the Tenant of the terms of this Lease. The Landlord may use, apply, or retain the whole or any part of the security so deposited to the extent required for the payment of rent, additional rent, and charges herein reserved as rent or other sum as to which the Tenant is in default or for any sum which the Landlord may expend or be required to expend by reason of the Tenant's default in the performance or observance of any of the other covenants and conditions of this Lease. Such sum shall be returned to the Tenant after the expiration of this Lease and after delivery of possession of the demised premises to the Landlord, provided the Tenant shall have complied with all of the terms hereof. In the event of any transfer of title to the demised premises, the Landlord shall have the right to transfer the security to the grantee or transferee and the Landlord shall thereupon be released from all liability for the return of such security to the Tenant. The Tenant shall not assign or encumber the money deposited as security.

39. *Invalid provision.* If any provision of this Lease shall be determined to be void by any court of competent jurisdiction, then such determination shall not affect any other provision hereof, all of which other provisions shall remain in full force and effect. It is the intention of the parties hereto that if any provision of this Lease is capable of two constructions, one of which would render the provision void and the other of which would render the provision valid, then the provision shall have the meaning which renders it valid.

40. *Binding effect.* All rights accruing to the Landlord under this Lease shall be deemed and are to accrue to the benefit of the Owner, its successors, and assigns, and any action brought by the Owner shall be deemed to be brought on behalf of the Landlord.

41. *Captions.* Any headings preceding the text of the several articles and subparagraphs hereof are inserted solely for convenience of reference and shall not constitute a part of this Lease, nor shall they affect its meaning, construction, or effect.

42. *Non-waiver.* No delay or failure by either party to exercise any right under this Lease, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

43. *Counterparts.* This Lease may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

The parties hereto have caused this Lease to be executed and Carker Stores, Ltd., has caused its corporate seal to be affixed the day and year first above written.

Chapter 22 DEVELOPMENT AND SUBDIVISION

Part IV. FORMS

D. COMMERCIAL DEVELOPMENT Shopping Centers, Industrial Buildings and Office Buildings

26-22 Current Legal Forms for Real Estate FORM 22.63

FORM 22.63 Lease to developer for purpose of constructing shopping center--construction in three stages--fixed and percentage rentals

COMMENT

There are several reasons why a lease from a landowner to a developer can become the technique used for setting up a shopping center project. The landowner may be reluctant to sell his property because of its potential long-term value, especially if he can receive a reasonable and assured return on its present value in the form of a minimum rent and an interest in its increased future value in the form of a percentage rent. The developer may prefer a long-term lease over a purchase because it reduces the capital investment otherwise required to be made in the land. From the tax viewpoint such an investment in land is nondepreciable, while the rent paid for its use is deductible.

Initial rent.

Under this lease the construction of the shopping center is to be completed by the developer in three stages. The rent is initially levied at a reduced rate on unimproved acreage. Rental increases become effective as each of the three stages of development is completed. If construction of any unit is not concluded on schedule, the lessor may elect to terminate the lease as to all units not completed.

Percentage rent.

In this agreement, the rental after completion is a percentage rental or a specified amount, whichever is greater. The percentage rental is based on gross rents received by the developer from his store tenants. In turn, the developer would normally insert a percentage rental clause in his leases with the store tenants.

Mortgage.

When land is unimproved it is often necessary for the owner to join in the execution of a mortgage in order to enable the developer to finance construction. This agreement obligates the owner to execute any mortgage necessary for this purpose, and provides several forms of protection for the owner. First, no personal liability is to be assumed by the owner. Second, the developer agrees to indemnify the owner for losses from any default under the mortgage. Finally, two named shareholders of the developer are to guarantee the mortgage debt if the list of prospective tenants submitted prior to execution of the mortgage does not appear to the owner to offer the prospect of sufficient income to satisfy the mortgage debt.

Improvements.

In light of the length of the lease the developer has been allowed considerable flexibility to alter and improve the premises after construction has been completed. It may demolish and rebuild improvements, in which case the annual rent during rebuilding is to be based on the rent paid in previous years. However, the developer is to convey all improvements to the owners at the termination of the lease in the same condition as they were at the completion of construction, reasonable wear and tear excepted. Any expense incurred in order to restore the property as required by this provision would be deductible by the developer, as would any cash payment to the owner in lieu of such restoration. Moreover, the lessee may deduct the cost of current repairs.

Developer expenses.

In addition to the obligation to keep the premises in repair, the developer is to maintain fire and liability insurance. The developer is also required to pay all taxes, assessments, and water charges against the property. However, during the period of construction such taxes, assessments, and charges on the undeveloped land are to be borne by the owner, except to the extent of any increase in these items over the rate fixed for the year in which the lease is executed.

FORM

LEASE, made in Tucson, Arizona, this _____[day] day of _____[month], _____[year], between Dale Morrison and Henrietta Morrison, residing at 100 East First Street, Tucson, Arizona (the "Lessor"), and Center Development Co., an Arizona corporation (the "Lessee").

The Lessor, in consideration of the rentals herein agreed to be paid by the Lessee and the other agreements herein agreed to be performed by the Lessee, hereby leases unto the Lessee, and the Lessee leases from the Lessor, the following described real property:

_____ [Insert description]

upon and subject to the following terms, covenants, and conditions:

1. *Term.* The term of this Lease shall be for a period of 99 years commencing on the date hereof, and expiring on _____[date].

2. *Plat of property.* Within six months after the commencement of the term hereof, the Lessee shall prepare and file

with the Lessor a plat of the premises, which plat shall divide the same into three units numbered Unit No. 1, Unit No. 2, and Unit No. 3. Unit No. 1 shall contain not more than 60 acres; Unit No. 2 shall contain not more than 20 acres and shall be contiguous to Unit No. 1; and Unit No. 3 shall contain not more than 20 acres.

3. *Construction of shopping center.* The Lessee shall construct upon the premises a first-class, modern shopping center with adequate parking and other facilities, and to complete the same within seven years after the commencement of the term hereof. The Lessee may perform such development and construction in three separate, successive stages, as follows:

(a) On or before _____ [date], the Lessee shall commence on Unit No. 1 the construction of a shopping center building or buildings to provide at least 360,000 square feet of floor space, and shall complete such construction not later than _____ [date].

(b) On or before _____ [date], the Lessee shall commence on Unit No. 2 the construction of an additional building or buildings and shall complete such construction not later than _____ [date].

(c) On or before _____ [date], the Lessee shall commence on Unit No. 3 the construction of an additional building or buildings and shall complete such construction not later than _____ [date].

If the Lessee shall develop Unit No. 1 but shall fail to develop Unit No. 2, or shall develop Unit No. 1 and Unit No. 2 but shall fail to develop Unit No. 3, in the manner above provided, the Lessor shall have the following exclusive options, which options shall continue, and may be exercised at any time so long as the Lessee has not developed any Unit: (1) to cancel this Lease as to the Unit or Units which have not been so developed, in which case the Lessee shall continue to pay rent, at the rates provided in Paragraph 4, on the Unit or Units the Lessee has developed; or (2) to continue the Lease in effect as to all Units, in which case the rent on the Unit or Units which have not been so developed shall thereafter be \$50 per acre in such Unit or Units per year. Notwithstanding the exercise of option (2) above, if the Lessee thereafter shall develop such Unit or Units, then the rent on each thereof shall increase to the amounts provided in Paragraph 4. If the Lessor shall elect to cancel this Lease as to the Unit or Units which have not been developed as provided in (1) above, the Lessee shall have the option to continue this Lease for a period not to exceed five years from and after the date of cancellation by the Lessor with respect to such Unit or Units upon the payment to the Lessor of an annual rental, at the times provided for in Paragraph 4, of a sum equal to \$900 per acre per year for the land in the Unit or Units not so developed.

4. *Rental.* The Lessee shall pay to the Lessor as rent during the term hereof the following sums:

(a) From the commencement of the term until the completion of construction as required by Paragraph 3(a), the sum of \$50 per acre in the premises per year, less all real property taxes, assessments, or water charges paid by the Lessee during such period, plus any increase in such taxes, assessments, or charges in excess of the _____ [year] rate.

(b) From the date of the completion of construction as required by Paragraph 3(a) and until the date construction as required by Paragraph 3(b) is completed, whichever of the following sums is the greater:

(1) The sum of \$54,000 per year, plus \$50 per acre per year for the land in Unit No. 2 and Unit No. 3 upon which required construction has not been completed, less all real property taxes, assessments, or water charges paid by the Lessee during such period on such undeveloped land, plus any increase in such taxes, assessments, or charges in excess of the _____ [year] rate; or

(2) A sum equal to 10 percent of the gross rents received by the Lessee from tenants of space in the shopping center, plus \$50 per acre per year for the land in Unit No. 2 and Unit No. 3 upon which required construction has not been completed, less all real property taxes, assessments, or water charges paid by the Lessee during such period on such

undeveloped land, plus any increase in such taxes, assessments, or charges in excess of the _____ [year] rate.

(c) From the date of completion of construction required by paragraph 3(b) and until the construction required by Paragraph 3(c) is completed, whichever of the following sums is greater:

(1) The sum of \$72,000 per year plus \$50 per acre per year for the land upon which construction required by Paragraph 3(c) has not been completed, less all real property taxes, assessments, or water charges paid by the Lessee during such period on such undeveloped land, plus any increase in such taxes, assessments, or charges in excess of the _____ [year] rate; or

(2) A sum equal to 10 percent of the gross rents received by the Lessee from tenants of space in the shopping center plus \$50 per acre per year for the land in Unit No. 3 upon which construction has not been completed, less all real property taxes, assessments, or water charges paid by the Lessee during such period on such undeveloped land, plus any increase in such taxes, assessments, or charges in excess of the _____ [year] rate.

(d) From the date of the completion of construction required by Paragraph 3(c) and during the remainder of the term, whichever of the following sums is greater:

(1) The sum of \$90,000 per year, or

(2) 10 percent of the gross rents received by the Lessee from tenants of space in the shopping center.

All fixed amounts of rent payable by the Lessee shall be paid in equal quarterly installments in advance on or before January 31, April 30, July 31, and October 31 of each year. Within 60 days after the end of each calendar year, the Lessee shall furnish to the Lessor a written statement showing the amount of gross rents received by the Lessee with respect to such calendar year. If the percentage rent due shall exceed the minimum rent, then the Lessee shall pay such excess to the Lessor at the time of delivery of such statement. During the one-year period after the furnishing of such statement by the Lessee, the Lessor shall have the right to commence, and thereafter with reasonable diligence shall complete, an audit of the Lessee's books and records with respect to such calendar year to determine the correctness of such statement. If the Lessor shall fail to commence such audit within such one-year period, then such statement shall be conclusively deemed to be correct as between the Lessee and the Lessor excepting however, fraud by the Lessee or its tenants. The Lessee shall keep true and accurate books and records which shall reflect the gross rents received. If such audit discloses that the Lessee owes an additional \$1,000 or more in rent, the Lessee shall pay for the cost of such audit. If such audit discloses that the Lessee owes less than an additional \$1,000 in rent, the Lessor shall pay for the cost of such audit.

5. *Mortgage of premises.* To enable the Lessee to obtain financing for the construction of the improvements and subsequent enlargements, alterations, and modifications thereof, and financing for any improvements made pursuant to Paragraphs 7 or 8, the Lessor shall execute all mortgages, deeds of trust, security agreements, or subordination agreements, secured by the premises or part thereof, and all improvements thereon, as any lending institution may require as a condition of making a loan to the Lessee. The Lessor agrees to execute, from time to time, such documents and forms of agreement as any lending institution may require as a condition of making a loan to the Lessee. The Lessor, however, shall not be required to execute any document that shall directly or indirectly impose personal liability upon the Lessor for the repayment of any loan made to the Lessee, as provided for in this Paragraph 5. The Lessee shall pay in full any loan made as contemplated by this paragraph, and shall indemnify and save harmless the Lessor from any and all liabilities, loss, costs, obligations, expenses, claims, demands, suits, causes of action, or damages of any kind or character and by whomsoever claimed, arising from or in any manner connected with or related to any such mortgages, deeds of trust, security agreements, or subordination agreements, and the Lessee shall pay to the Lessor all reasonable attorneys' fees incurred by the Lessor in connection with the protection of the Lessor's right, title, and

interest in and to the premises and improvements thereon to the extent that the same may be affected by claims arising out of or related to such mortgages, deeds of trust, security agreements, or subordination agreements. The Lessee covenants that any such mortgage, deed of trust, or security agreement shall contain a provision that notice shall be given to the Lessor by the mortgagee or holder of the security interest 30 days prior to the commencement of any foreclosure proceedings against the Lessee. In the event the Lessee fails to remedy any default in the payment of any obligation properly due from the Lessee and secured by a mortgage, deed of trust, security agreement or any other security with respect to the premises within 15 days after written notice thereof from the Lessor, the Lessor may make any such defaulted payments. In such event, the Lessee shall repay to the Lessor, upon demand, the full amount so paid and expended by the Lessor, together with interest thereon at the rate of 7 percent per year. Before the Lessor shall be required to sign any mortgage, deed of trust, or security agreement pursuant to this Paragraph 5, the Lessee shall submit to the Lessor the names of tenants who will occupy space in the shopping center, the terms of the leases with such tenants, any information in the Lessee's possession concerning the financial responsibility of such tenants, and the terms of any mortgage, deed of trust, or security agreement required to be signed by the Lessor. In the event the Lessor is not satisfied that (a) the leases with such tenants will yield sufficient rent to make all payments required by such mortgage, deed of trust, or security agreement, or (b) the financial responsibility of such tenants is sufficient to guarantee sufficient rental income to make all such mortgage or security agreement payments, then the Lessor may require the Lessee to cause James Watson and Lawrence Mann, who have a financial interest in the Lessee, to guarantee jointly and severally to the Lessor that all such payments shall be made.

6. *Insurance*

(a) The Lessee shall at all times during the term of this Lease keep all buildings, improvements, and fixtures on the premises insured to the extent of 90 percent of the net sound insurable value thereof against loss or damage from fire, and such policy or policies shall be standard policies and shall contain extended coverage provisions. Such policy or policies shall be taken out with such responsible and solvent insurance company or companies as the Lessee shall determine. The proceeds of such policies shall be payable to any mortgagee, or beneficiary of any deed of trust if required by the mortgagee or beneficiary and, if not so required, then to the Lessor and the Lessee as their interests may appear.

(b) The Lessee shall at all times during the term of this Lease maintain in force an insurance policy or policies which will name the Lessor and the Lessee as insureds against all liability resulting from injury occurring to persons in or about the premises. The liability under such insurance shall be not less than \$500,000 for any one person injured, \$1,000,000 for any one accident, and \$50,000 for property damage. The original of such policy or policies shall remain in possession of the Lessee provided, however, that the Lessor shall have the right to receive from the Lessee, upon written demand, a duplicate policy or policies of any such insurance. The Lessee shall also maintain and keep in force all employees' compensation insurance on its employees required under the applicable Workers' Compensation Act.

7. *Alterations and improvements.* The Lessee may, at any time, make any alteration or addition to the improvements or fixtures constructed on the premises, or erect additional improvements or fixtures on such premises. In connection with any action which the Lessee may take with respect to the Lessee's rights pursuant to the preceding sentence, the Lessee shall pay all costs, expenses, and liabilities arising out of or in any way connected with such alterations, improvements, or additions made by it and hold harmless and indemnify the Lessor from or against all such costs, expenses, and liabilities including, but not by way of limitation, all or any liabilities from any mechanics', laborers' or materialmen's liens, or other liens of a similar nature. The Lessor shall not be called upon or be obligated to make any improvements, alterations, or repairs whatsoever in or about such premises, and the Lessor shall not be liable or accountable for any damages to such premises or any property located thereon. The Lessee shall have the right at any time to demolish or substantially demolish the improvements upon the premises, provided, however, that the Lessee shall thereafter construct or reconstruct upon the premises improvements of a nature then consistent, in the Lessee's opinion, with the highest and best use thereof as the Lessee shall determine, and that the value of such substituted improvements when completed shall not be disproportionate to the replacement cost of the improvements demolished. In the event the

Lessee exercises its right to demolish the shopping center and erects improvements other than in the nature of a shopping center, then the minimum guaranteed annual rent for the period subsequent to the demolition shall be an amount equal to the average total annual rent received by the Lessor for the two years prior to the demolition.

8. *Total and partial destruction.* The Lessee shall, at its own cost and expense, rebuild or repair any or all buildings, improvements, or fixtures on the premises that are totally or partially destroyed or damaged by fire or other casualty. In such event, the Lessee shall proceed with the work of repair or reconstruction thereof with all reasonable diligence and as often as such buildings, improvements, or fixtures subsequently constructed on such premises, or any part or portion thereof, shall be damaged or destroyed. Subject to the rights of the Lessee as set forth in Paragraph 7, in rebuilding after destruction of any such buildings, improvements, or fixtures, the Lessee shall reconstruct upon the premises buildings, improvements, or fixtures of like type and purpose and of substantially the same design and construction as those so destroyed, or buildings, improvements, or fixtures then consistent, in the Lessee's opinion, with the highest and best use thereof, as the Lessee shall determine. If the Lessee shall elect to repair the existing building, improvement, or fixture, such repairs shall be such as to restore the same to at least an equivalent condition as it was in before such damage thereto by fire or other casualty.

9. *Repairs.* Subject to the provisions of Paragraphs 7 and 8, the Lessee at its sole cost and expense shall maintain and keep in good and sanitary condition and repair the premises and all buildings and improvements constructed by it, reasonable wear and tear excepted. Upon termination of this Lease, the Lessee shall peacefully surrender possession of the premises and all buildings, improvements, and fixtures thereon in as good condition as the same are at the time of completion of construction, reasonable wear and tear excepted, subject, however, to the rights of removal set forth in Paragraph 20.

10. *Use of premises.* The Lessee shall continuously operate the improvements on the premises as described in Paragraph 3 during the entire term of this Lease following completion of construction, subject, however, to the Lessee's right to demolish as set forth in Paragraph 7. If the Lessee elects to demolish as provided in such paragraph, then in that event the Lessee shall continuously operate and maintain the substituted works of improvements. The Lessee shall not knowingly permit any part of the premises to be used for unlawful or immoral purposes or for any purpose or use which may constitute a nuisance. Tenant shall, at all times, comply with Landlord's sustainability practices as identified on Exhibit [____], attached hereto and made a part hereof.

11. *Taxes and assessments.* The Lessee shall pay and discharge all taxes, assessments, and water charges assessed against the premises, subject to the Lessee's right of deduction therefor as provided in Paragraph 4.

12. *Mechanics' liens.* The Lessee shall hold harmless and indemnify the Lessor from or against all costs, expenses, and liabilities from all mechanics', laborers', or materialmen's liens which may be filed against the premises during the term of this Lease. The Lessee shall have the right to contest any such liens in the name of the Lessor as the Lessee may deem necessary, provided, however, that the Lessee shall pay for the expenses incurred by reason thereof.

13. *Lessor's access to premises.* The Lessor, or its agent or nominee, at all reasonable times shall have free access to the premises for the purpose of examining or inspecting the condition thereof, to exhibit the premises to prospective purchasers, and to determine if the Lessee is performing the covenants and agreements of this Lease, and to post such reasonable notices as the Lessor may desire to protect the Lessor's rights, including, but not by way of limitation, notices of nonresponsibility for lien claims.

14. *Assignment and sublease.* This Lease and any interest therein shall be subject to assignment or sublease at any time or from time to time to any person or persons, subject, however, to the following provisions:

(a) Such right of assignment shall be specifically conditioned upon the assignor's notifying the Lessor of each such assignment and furnishing the Lessor with a copy of such assignment.

(b) Each such assignment shall provide that the assignee takes subject to the provisions of this Lease.

(c) No assignment or sublease shall release the Lessee or its successors from any obligation which it is bound to perform pursuant to the provisions of this Lease.

15. *Liability.* Lessor shall not be liable for any damages by reason of any injury to any person or persons, including the Lessee, or property of any kind whatsoever and to whomsoever belonging, including the Lessee's, from any cause whatsoever while in, upon, or in any way connected with the premises during the term of this Lease or any extension hereof, or any occupancy hereunder. The Lessee shall indemnify and save harmless the Lessor from all liability, loss, costs, and obligations on account of or arising out of any such injuries or losses, however occurring. The Lessee shall have the right to contest the validity of any and all such claims and defend, settle, and compromise any and all such claims of any kind or character and by whomsoever claimed, in the name of the Lessor, as the Lessee may deem necessary, provided that the Lessee shall pay the expenses thereof.

16. *Zoning.* The Lessee shall commence proceedings to have the premises zoned to permit the construction and operation of a shopping center of a type and of a size contemplated in Paragraph 3. The Lessor shall cooperate with and assist the Lessee in its dealings with the city, county, and state agencies and make application in its name for the benefit of and at the request of the Lessee to any of such agencies. If the Lessee is unable to obtain such zoning by _____[date], it may terminate this Lease by giving written notice thereof to the Lessor at any time within six months after such date.

17. *Easements and dedications for utilities and streets.* The Lessor shall at the Lessee's request grant such easements as may be necessary to enable the premises to be adequately served by gas, electricity, water, sewer, and telephone utilities, and dedicate to public use such portions of the premises as may be required by any governmental authority for streets, alleys, parkways, or other use as a condition of permitting the Lessee to erect improvements upon the premises.

18. *Force majeure.* In the event that the obligation of any party to this Lease shall be impossible of performance by reason of an Act of God, or the elements, shortage or unavailability of necessary materials, supplies, or labor, shortages or interruptions of transportation facilities, or because of applicable governmental regulations or restrictions, including zoning ordinances applicable to the premises, or other cause beyond the affected party's control, then in such event the time for performance of the obligation of the party so affected shall be extended until the termination of such cause beyond such party's control.

19. *Title policy.* Within 30 days after receipt of written request from the Lessee, the Lessor shall furnish the Lessee with a policy of title insurance insuring the Lessee in an amount not less than \$150,000, showing the property to be free and clear of all liens and encumbrances except taxes for the current year.

20. *Termination of lease.* Upon any termination of this Lease, ownership and possession of all buildings and improvements located upon the premises as of such date of termination shall pass to the Lessor. The Lessee may, however, within a reasonable time after such termination, remove any and all personal property belonging to it and trade fixtures installed by it, but it shall repair any damage caused to the improvements on the premises by such removal.

21. *Removal of personal property and tenants' and trade fixtures.* Upon the expiration of the term of this Lease, and at any time, and from time to time, prior to such expiration or termination, the Lessee, its tenants, agents, and employees, if not then in default as to any term of this Lease, shall have the right to remove from the premises any and all of their personal property and any and all tenants' and trade fixtures theretofore placed thereon, except fixtures and equipment which are attached to the building or the premises. The Lessee shall repair any damage caused to the premises by the removal of such property.

22. *Default.* In the event that the Lessee, within 30 days after receipt from the Lessor of notice of any default by the Lessee, shall fail to commence correcting such default with reasonable diligence, then the Lessor shall have the right immediately to terminate this Lease. In such event, the Lessor shall have the immediate right of reentry and repossession of all the premises and all buildings, fixtures, and improvements located thereon, without any obligation to compensate the Lessee in any manner therefor, and all of such buildings, fixtures, and improvements shall thereupon become the property of the Lessor and the Lessee shall have no further right, title, or interest therein. The Lessee, however, shall only have ten days after written notice from the Lessor to correct any default in the payment of rent.

23. *Waiver of breach.* No waiver by either party of its right to enforce any provision hereof after any default on the part of either party shall be deemed a waiver of its right to enforce each and all of the provisions hereof upon any further or other default on the part of either party.

24. *Notices.* Any notice required to be served by either party to the other respecting this Lease shall be served by registered mail addressed to the Lessee at 300 West College Road, Tucson, Arizona, or the Lessor, 100 East First Street, Tucson, Arizona, unless and until different addresses may be furnished in writing by either party to the other. Such notice shall be deemed to have been served within 24 hours after it has been deposited in the United States Post Office at Tucson, Arizona, which shall be a valid and sufficient service of notice for all purposes.

25. *Arbitration.* Any dispute or controversy arising between the parties involving the interpretation or application of any provision of this Lease, or arising out of this Lease, shall be submitted to and determined by arbitration, in accordance with the governing rules of the American Arbitration Association, or the rules of any other comparable organization in the event that the American Arbitration Association is not then in existence.

26. *Attorneys' fees.* If either party shall institute any suit or arbitration against the other in any way connected with this Lease or for the recovery of possession of the premises, the successful party shall recover from the other a reasonable sum for its attorneys' fees in connection with such suit or arbitration. The amount of such attorneys' fees shall be fixed by the court or arbitrators, as the case may be. If any person who is not a party to this Lease shall institute an action against the Lessee in which the Lessor shall be involuntarily and without cause joined as a party, the Lessee shall reimburse the Lessor for all attorneys' fees incurred by the Lessor in connection therewith.

27. *Prohibited assignments.* If the Lessee shall make a general assignment for the benefit of its creditors, or if the Lessee shall be finally adjudicated a voluntary or involuntary bankrupt by final order of a bankruptcy court of competent jurisdiction or is finally adjudicated an insolvent by a final order of a court of competent jurisdiction, at the option of the Lessor and after 15 days' written notice from the Lessor to the Lessee, this Lease shall terminate. In such event, the Lessor shall have the immediate right to reenter and take possession of all the premises and all of the buildings, improvements, and fixtures located thereon.

28. *Quiet enjoyment.* Conditioned upon the Lessee's paying the rent herein provided and performing and fulfilling all the covenants, agreements, conditions, and provisions herein to be kept, observed, or performed by the Lessee, the Lessee shall and may at all times during the term hereby granted peaceably, quietly, and exclusively have, hold, and enjoy the demised premises.

29. *Recordation of lease.* The parties prefer to record a memorandum of this Lease, rather than the Lease itself, and contemporaneously with the execution hereof they have executed a Memorandum of Lease in the form of Exhibit A, which is attached hereto and which may be recorded by either party. In the event it should be so required by any title company insuring title for the Lessor or the Lessee, or by any lending institution from which the Lessee proposes to make a loan, then the Lessee may cause this Lease to be placed of record.

30. *Titles.* The titles which are used following the number of each paragraph are so used only for convenience in locating various provisions of this Lease, and shall not be deemed to affect the interpretation or construction of such

provisions.

31. *Binding effect.* Subject to the other provisions of this Lease, all of the terms, covenants, and conditions of this Lease shall inure to the benefit of and shall bind, as the case may be, not only the parties hereto but the heirs, executors, administrators, successors, assigns, and legal representatives of the respective parties hereto.

32. *Entire agreement.* This Lease supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

33. *Non-waiver.* No delay or failure by either party to exercise any right under this Lease, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

34. *Governing law.* This Lease shall be construed in accordance with and governed by the laws of the State of Arizona.

35. *Counterparts.* This Lease may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

The parties have executed this Lease the day and year first above written.

26-22 Current Legal Forms for Real Estate FORM 22.64

FORM 22.64 Contract for sale of land to be developed by purchaser as shopping center--provision for leaseback of part of space to seller--control of seller over building plans

COMMENT

The "sale and leaseback" transaction is a common real estate technique. A sale is made by the owner of property on condition that the purchaser lease it back to the former owner. The former owner may operate the property by subleasing it to various subtenants, or may occupy the property because it suits the former owner's special requirements. In most of these transactions, the property involved has already been improved with income-producing structures.

Illustrated here is a situation in which a retail chain store organization has acquired vacant land as part of an expansion program and wants this land developed into a shopping center in which it will occupy one of the buildings. The retail organization has obviously taken the initial risk in selecting the site for the shopping center, and is willing to back up its judgment by committing itself to a long-term lease. The retail organization has also formulated the concept of the entire shopping center and because of this has retained considerable control over the plans and details of the entire project. But the basic financial risk of constructing and owning the shopping center has been passed on to the developer who agrees to buy the land and carry out the development program conceived by the retail organization. This includes an obligation on the part of the developer to enter into leases with other tenants for certain minimum floor areas.

It should be noted that this agreement encompasses the two aspects of the transaction dealing with the sale of the land and the construction of the improvements. The actual lease between the new owner and the retail organization is a separate document.

FORM

AGREEMENT made _____[*date*], between Worldwide Stores, Inc., a Delaware corporation having its principal office at 100 East 34th Street, New York, New York ("Worldwide"), and Eastern Shopping Center, Inc., a Delaware corporation, having its principal office at 100 Fifth Avenue, New York, New York (the "Developer").

Whereas Worldwide acquired the real estate hereinafter described for development and use as a one-stop regional shopping center as more fully in this agreement and the accompanying documents described; and

Whereas the Developer, having been fully informed of Worldwide's intent and desires with respect to the development and use of such real estate, on its own initiative proposed that if Worldwide would sell such real estate to the Developer, the Developer would cause the same to be developed and used in the manner hereinafter and in the accompanying documents mentioned and would give Worldwide the assurances so to do provided hereinafter and in the accompanying documents,

Now, therefore, it is agreed between the parties as follows:

Article I

Sale of the Center

Section 1.1. *Sale.* Worldwide agrees to sell and convey, and the Developer agrees to purchase, upon the terms and conditions herein provided, that certain parcel of land situate, lying, and being in Nassau County, State of New York, that is described in Appendix A annexed hereto and made a part hereof (the "Center"), subject to the exceptions set forth in Appendix B annexed hereto and made a part hereof.

Section 1.2. *Purchase price.* The purchase price for the Center is \$500,000, payable as follows:

(a) Upon the execution and delivery of this agreement a down payment of \$100,000 by check subject to collection; and

(b) Upon the closing date, as defined in Section 3.2:

(1) by delivery to Worldwide of a check of the Developer drawn to Worldwide's order upon a bank which is a member of the New York Clearing House and duly certified by such bank or official or cashier's check of a New York City bank to Worldwide's order for \$150,000; and

(2) by the Developer duly executing, acknowledging, and delivering to Worldwide a purchase money note and purchase money mortgage covering the Center in the form and substance set forth in Appendices C and D annexed hereto, completed as indicated in such Appendices, such note to be for the sum of \$250,000.

Section 1.3. *Deed.* The deed conveying the Center to the Developer and required to be delivered hereunder shall be the usual bargain and sale deed with covenant against grantor's acts in proper short statutory form for record; shall be duly executed, acknowledged, and have revenue stamps in the proper amount affixed thereto by Worldwide, at Worldwide's expense, so as to convey to the Developer the fee simple to the Center, free of all encumbrances, except as herein and in Appendix B annexed hereto stated; and shall also contain the covenant required by subdivision 5 of Section 13 of the Lien Law. Except for the revenue stamps, the Developer shall, on the closing date, pay all expenses in connection with the recording of the deed, including, but not limited to, the recording charges.

Section 1.4 *Purchase money mortgage.* The attorneys for Worldwide shall draw, at its expense, the purchase money note and the purchase money mortgage to be delivered hereunder. The Developer shall, on the closing date, pay the mortgage recording tax and recording fees.

Section 1.5. *Prorations.* All taxes (including town, village, and school taxes) and water charges for the Center shall be apportioned as of the closing date. If the closing date shall occur before the tax rate is fixed, the apportionment of taxes shall be based upon the tax rate for the next preceding year applied to the latest assessed valuation. If there are any water meter or meters on the Center, Worldwide shall furnish a reading to a date not more than 30 days prior to the closing date, and the unfixed meter charge for the intervening time shall be apportioned on the basis of such last reading.

Section 1.6. *Condition of property.* Worldwide has not made and does not make any representations as to the quality or nature of the Center's ground or subsurface. Developer acknowledges that it has had a full and fair opportunity to examine the site and its history of use. Such examination included the ability to take and analyze soil samples. Developer acknowledges that it is satisfied with site conditions and accepts the site in its "as is" condition.

Section 1.7. *Right of entry.* From and after the date hereof and so long as the Developer is not in default under any provision of this agreement, the Developer (and the Developer's designees) may, from time to time, at the Developer's sole cost, expense, and risk, enter upon all or any part of the Center for the purpose of performing the Developer's obligations hereunder.

Section 1.8. *Title examination.* (a) The Developer shall order an examination of title to, and survey of, the Center and shall deliver a copy of the report and survey to Worldwide's attorneys, Smith and Brown, Esqs., 200 Madison Avenue, New York, New York, no later than 20 days after the date hereof. If any defects, encumbrances, or encroachments appear upon such report or survey (other than those to which the Developer has agreed to take subject by the terms of this agreement) which render the title unmarketable, the Developer shall send notice to Worldwide's attorneys of such alleged defects, encumbrances, and encroachments within five days after the above specified date. The Developer shall take title subject to all defects, encumbrances, and encroachments which are set forth in such report or survey and not included in such notice. Within 20 days after receipt of such notice, Worldwide shall notify the Developer that it will cure the defects, encumbrances, and encroachments of which the Developer shall have so notified Worldwide (other than those to which the Developer has agreed to take subject to) or Worldwide shall notify the Developer that Worldwide elects to cancel this agreement. If Worldwide shall have failed to so notify the Developer that it will cure such defects, encumbrances, and encroachments, this agreement shall be cancelled. In the event of any such election to cancel or cancellation, neither party hereto shall have any liability to the other hereunder; but Worldwide shall promptly thereafter refund to the Developer its down payment to Worldwide upon the execution and delivery of this agreement, and shall pay to the Developer the cost of title examination, the Developer's reasonable attorneys' fees, and the reasonable value of all work performed by James Baker which the Developer shall have paid or be obligated to pay to James Baker for work performed to the date of such cancellation in accordance with agreements theretofore made by and between the Developer and James Baker for performance of architectural and engineering services as provided in Article II of this agreement. The term cost of title examination is defined, for the purposes of this agreement, as the expense actually incurred by the Developer for title examination, in no event, however, to exceed the charges fixed by the New York Board of Title Underwriters for title examination of the Center, without the issuance of a policy, plus the cost to the Developer of any survey actually obtained, such cost not to exceed, however, the amount which would be charged by Guarantee Title Company for a similar survey.

(b) The Developer shall also order a continuation of the examination of title, and a survey, of the Center and deliver a copy of such continuation report and of such survey to the attorneys for Worldwide between ten and 20 days before the closing date.

(c) Worldwide shall be entitled to an adjournment of the time fixed for the closing date for 20 days in order to eliminate any of the defects, encumbrances, and encroachments contained in such continuation report or survey.

Section 1.9. *Failure of title.* If Worldwide shall be unable to convey title to the Center to the Developer, subject to and

in accordance with the terms of this agreement, the Developer shall have only the following rights:

(a) to accept whatever title Worldwide is able to convey without any abatement of the purchase price and without any other liability on the part of Worldwide, provided, however, that if it shall be an objection to the title that the same is encumbered by any lien dischargeable by the payment of money (except such lien as the Developer has agreed by the terms of this agreement to take subject to), Worldwide agrees that it shall either present a proper discharge thereof to the Developer at the closing and pay the cost of recording and filing such instruments, or the Developer may, but shall not be obligated to, deduct the amount thereof with costs of discharge from the purchase price; or

(b) to reject title.

The Developer shall not be entitled to any other rights or remedies. If the Developer shall reject title, neither party shall have any liability to the other hereunder; but Worldwide shall promptly thereafter refund to the Developer the down payment made by the Developer to Worldwide upon the execution and delivery of this agreement and shall pay to the Developer the cost of title examination and the Developer's reasonable attorneys' fees. If title shall have been rejected by the Developer by reason of any defects, encumbrances, or encroachments appearing on such report or such continuation report, or on such surveys, which render title unmarketable, or if title shall have been rejected pursuant to Section 1.14 hereof, Worldwide shall pay to the Developer, in addition to and at the time of the payments specified above, the amount of all architects' and engineers' fees and other expenses in connection therewith which the Developer shall have paid or be obligated to pay to such architects and engineers to the closing date in accordance with agreements theretofore made by and between the Developer and such architects and engineers for performance of architectural and engineering services as provided in Article II of this agreement. It is understood and agreed, however, that if the defects, encumbrances, or encroachments which render title unmarketable shall have appeared in the continuation report or survey but not in the original report or survey and if such defects, encumbrances, or encroachments were in existence when the original report of title was issued or when the original survey was made and should have been disclosed therein, Worldwide shall not be required to pay to the Developer the architectural and engineering fees and expenses specified in this Section 1.9.

The existence of any conditions to which the Developer agrees to take subject under this agreement shall not be deemed or construed to render Worldwide's title unmarketable; and, notwithstanding that such conditions may render title unmarketable, the Developer shall not have the right to refuse to take title by reason thereof, and the purchase price shall not in any respect be reduced nor shall the Developer be entitled to damages.

Section 1.10. *Test of good title.* Worldwide shall give, and the Developer shall accept, a title such as Guarantee Title Company will approve and insure, subject, however, to any objection to title that the Developer has agreed by the terms of this agreement to take subject to. If at the closing date the Center is subject to any liens, including but not limited to judgments, licenses, or taxes, the amount of which are the subject of litigation or negotiation, or shall not have been finally fixed (other than those to which the Developer is to take subject under this agreement), the same shall not be deemed an objection to title, provided that Guarantee Title Company will, at the time of the delivery of the deed thereto, issue or bind itself to issue its fee title policy which will insure the Developer against the collection of such liens from the Center.

Section 1.11. *Customs.* Except as otherwise in this agreement provided, the customs in respect of title closings adopted by the Real Estate Board of New York, Inc., as amended, shall apply to the apportionments and other matters in this Article I mentioned.

Section 1.12. *Fire and condemnation.* If, prior to the closing date, all or any part of the Center is taken by eminent domain, neither party shall have the right to cancel this agreement and Worldwide, upon the closing of title and the receipt of the purchase price, shall assign, transfer, and set over to the Developer all of Worldwide's right, title, and interest in and to any awards that may be made for such taking.

Section 1.13. *Purchaser's lien.* The cost of title examination and the \$100,000 down payment by check subject to collection delivered by the Developer simultaneously with the execution and delivery of this agreement shall, upon collection, become a lien upon the Center. Such lien shall not continue after default by the Developer hereunder or after payment to the Developer of all of the moneys provided for in Sections 1.8 or 1.9 hereof.

Section 1.14. *Zoning and other restrictions.* (a) The Developer shall take title subject to existing zoning and building laws, ordinances, restrictions, and regulations imposed by any public authority ("zoning laws") affecting the Center. If, between the date hereof and the closing date, such zoning laws are so changed as to prevent the construction, operation, maintenance, and use of the Center as a one-stop regional shopping center as more fully in this agreement and the accompanying documents described (except to the extent, if any, such construction, operation, maintenance, or use may be prevented by such currently existing zoning laws), the Developer shall have only the rights at the closing date to accept title (and thereby waive any objections to such change in zoning laws) or to reject title, in which case the Developer's only rights and remedies shall be as provided in Section 1.9 hereof.

(b) If any governmental authority having jurisdiction over the Center shall have obtained, at the closing date, any rights in and to streets, roads, or avenues (whether dedicated or not), if any, in, upon, or across the Center which may be plotted or laid out on any map or plan issued and filed by such governmental authority or shall have imposed any restrictions against building upon the bed of such streets, roads, or avenues, and if such rights or restrictions would prevent the construction, operation, maintenance, and use of the Center as a one-stop regional shopping center as more fully in this agreement and the accompanying documents described, the Developer shall have only the rights, at the closing date, to accept title (and thereby waive any objections to such rights and restrictions) or to reject title, in which case the Developer's only rights and remedies shall be as provided in Section 1.9 hereof.

Article II

Development of the Center

Section 2.1. *Outline plans.* Worldwide has previously prepared and delivered to the Developer, and each has approved and initialed, outline plans and specifications for the construction of Worldwide's building. As used in this agreement, Worldwide's building means the Tenant's building--including building equipment--to be erected and installed as provided in Article II of the lease attached as Appendix G hereto. The plans and specifications for Worldwide's building shall be so drawn and written that it will be capable of supporting and servicing four stories, including basement.

Section 2.2. *Preliminary architectural and structural engineering plans.* Within 30 days after the date hereof, and at no cost to Worldwide, the Developer shall commence and thereafter diligently pursue the preparation of preliminary architectural and structural engineering plans and specifications for Worldwide's building (including building equipment therefor) and upon completion thereof, deliver the same to Worldwide. (As used in this agreement, building equipment shall have the meaning specified in Section 17.6 of the lease attached as Appendix G hereto.) Such plans and specifications and those referred to hereafter in Section 2.3 hereof shall be consistent with and reasonably inferable from both Worldwide's outline plans and specifications referred to in Section 2.1 hereof and Appendix F hereto and shall provide for first-class workmanship and materials and shall be designed to meet the requirements to be certified as LEED Certified as set by the U.S. Green Building Council; the parties contemplate that Worldwide's building will be of the same quality of workmanship and materials as is contained in, but may otherwise differ substantially from, Worldwide's Bronxville, New York, store. (As used in this agreement, Appendix F means the design concept and site plan annexed hereto as Appendix F, as they may be modified from time to time as provided by Section 2.7 hereof and by agreement of the parties.) Such preliminary plans and specifications and all other plans and specifications and drawings hereinafter referred to shall be prepared by such architects and engineers as the Developer shall from time to time select as in this Section provided. The Developer shall select only such architects or engineers as Worldwide shall from time to time approve to perform any services with respect to the demised premises. (As used in this agreement,

demised premises shall have the meaning specified therefor in Section 1.1 of the lease attached as Appendix G hereto.) Before selecting an architect or engineer to perform any services with respect to the remainder of the Center, excluding demised premises, the Developer shall deliver to Worldwide a list of one or more architects or engineers the Developer is considering selecting. Worldwide shall, within 20 days after receipt of such list, advise the Developer of any architect or engineer named therein disapproved by Worldwide, and agree not to disapprove any architect or engineer unreasonably. The Developer may, after the expiration of 20 days after Worldwide has received such list, select any architect or engineer named therein to perform services with respect to the remainder of the Center, excluding demised premises, except such, if any, as Worldwide has advised the Developer it disapproves as provided herein. The Developer shall pay all fees and expenses of all architects and engineers selected in accordance with this Section. The Developer agrees that it shall, upon completion of each unit or part of the preliminary architectural and structural engineering plans and specifications for Worldwide's building, submit same to Worldwide and covenants to complete and submit to Worldwide on or before _____, _____[date], all of such preliminary plans and specifications. Worldwide shall have full right and authority to object to, and require changes, modifications, and corrections which it deems necessary or desirable in, all such plans and specifications, provided that any and all such objections and requirements shall be made in writing within 30 days after receipt of such plans and specifications and provided that such objections and requirements shall be consistent with and reasonably inferable from both Worldwide's outline plans and specifications above referred to in Section 2.1 hereof and Appendix F. The Developer shall, without cost or expense to Worldwide, revise such preliminary plans and specifications and make all of the changes, modifications, and corrections, if any, so required by Worldwide, with diligence, promptly after receipt of Worldwide's written request therefor. Worldwide's failure to make such request within 30 days after receipt of such preliminary plans and specifications shall constitute its approval thereof. Three copies of all such preliminary plans and specifications as so revised and corrected shall be supplied to Worldwide without charge promptly after completion thereof.

Section 2.3. *Preliminary mechanical engineering plans.* The Developer shall diligently prepare, without cost or expense to Worldwide, and deliver to Worldwide preliminary mechanical engineering plans and specifications for Worldwide's building. The Developer agrees that it shall, upon completion of each unit or part of the preliminary mechanical engineering plans and specifications for Worldwide's building, submit same to Worldwide and covenants to complete and submit to Worldwide on or before _____[date], all of such preliminary plans and specifications. Worldwide shall have full right and authority to object to, and require changes, modifications, and corrections which Worldwide deems necessary or desirable in, all such plans and specifications, provided that any and all such objections and requirements shall be made in writing within 30 days after receipt of such plans and specifications and provided that such objections and requirements shall be consistent with and reasonably inferable from both Worldwide's outline plans and specifications above referred to in Section 2.1 hereof and Appendix F. The Developer agrees, without cost or expense to Worldwide, to revise such preliminary plans and specifications and to make all of the changes, modifications, and corrections, if any, so required by Worldwide, with diligence, promptly after receipt of Worldwide's written request therefor. Worldwide's failure to make such request within 30 days after receipt of such preliminary plans and specifications shall constitute its approval thereof. Three copies of all such preliminary plans and specifications as so revised and corrected shall be supplied to Worldwide without charge promptly after completion thereof.

Section 2.4. *Final plans.* The Developer shall, no later than 30 days after:

(a) Worldwide's approval of such preliminary plans and specifications originally submitted by the Developer to Worldwide in accordance with Section 2.3 hereof; or

(b) (if Worldwide, in accordance with Section 2.3 hereof, shall have requested any changes, modifications, and corrections) the Developer shall have made all such requested changes, modifications, and corrections and shall have supplied Worldwide with such plans and specifications as so revised and corrected, as the case may be, commence to prepare and thereafter diligently prepare, without cost or expense to Worldwide, and deliver to Worldwide detailed final architectural and engineering plans and specifications, including working drawings, for Worldwide's building. Such

final plans, specifications, and drawings shall be consistent with and reasonably inferable from both Appendix F hereto and the preliminary plans and specifications, as revised and corrected pursuant to Sections 2.2 and 2.3 hereof. The Developer covenants that it shall, upon completion of each unit or part of the final plans, specifications, and working drawings for Worldwide's building, submit same to Worldwide and covenants to complete and submit to Worldwide all of such plans, specifications, and drawings on or before the expiration of eight months following the applicable date provided in the first sentence of this Section 2.4 for the Developer to commence to prepare such plans, specifications, and drawings. Worldwide shall have the full right and authority to object to, and require changes, modifications, and corrections which Worldwide deems necessary or desirable in, all such final plans, specifications, and drawings, provided that any and all such objections and requirements shall be made in writing within 30 days after receipt of such plans, specifications, and drawings and provided that such objections and requirements shall be consistent with and reasonably inferable from both Appendix F hereto and the preliminary plans and specifications, as revised and corrected pursuant to Sections 2.2 and 2.3 hereof. The Developer agrees, without cost or expense to Worldwide, to revise such final plans, specifications, and drawings, and to make all of the changes, modifications, and corrections, if any, so required by Worldwide, with diligence, promptly after receipt of Worldwide's written request therefor. Worldwide's failure to make such request within 30 days after receipt of such plans, specifications, and drawings shall constitute its approval thereof. Five copies of all such final plans, specifications, and drawings, as so revised and corrected, shall be supplied to Worldwide to retain as its property without charge promptly after completion thereof.

Section 2.5. *Costs in excess of items in specific building.* If the plans, specifications, and drawings for Worldwide's building pursuant to Sections 2.2, 2.3, and 2.4 hereof include any items of equipment or material which are more or less expensive than the items of equipment and material designed to serve the corresponding functions in Worldwide's Bronxville, New York, store, the Developer shall prepare the plans, specifications, and drawings with such items included, subject to the provisions of Sections 2.2, 2.3, and 2.4 hereof; provided that if the cost of all such items included therein as the result of such requests by Worldwide will result, as shown in the estimate hereinafter provided for this Section, in a net increase in the aggregate of the construction costs for Worldwide's building as compared with what such costs would have been had the items designed to serve the corresponding functions in Worldwide's Bronxville, New York, store been included in the plans, specifications, and drawings for Worldwide's building instead of the requested items, the Developer shall advise Worldwide of any such net increase as follows. Whenever Worldwide shall make any such request, the Developer shall promptly cause to be prepared and submitted to Worldwide a bona fide written estimate by the architects or engineers responsible for preparation of such plans, specifications, and working drawings of any increase or decrease in architects' and engineers' fees and in such construction costs that would result from any such request; such estimate shall itemize separately the estimated cost of any item of material Worldwide so requested the Developer to include. Such estimate, as submitted, may be approved in writing by Worldwide and returned to the Developer within 15 days after receipt thereof by Worldwide, in which case Worldwide agrees to reimburse the Landlord under the lease attached hereto as Appendix G for the aggregate net increase in architects' and engineers' fees and in construction costs, if any, shown on all of such approved estimates promptly upon receipt of a statement therefor following completion of the construction of the work involved; or such estimate, as submitted, may be revised by Worldwide by deducting from any increase in such fees and costs stated therein the difference between the estimated cost of any item of material included therein and the lower written bid for the identical item of material from a reliable supplier, provided Worldwide submits such bid to the Developer within 15 days after receipt of such estimate by Worldwide. Such estimate, as so revised, may be approved in writing by Worldwide and returned to the Developer within 15 days after receipt thereof by Worldwide, in which case Worldwide agrees to reimburse the Landlord under the lease attached hereto as Appendix G for the aggregate net increase in architects' and engineers' fees and in construction costs, if any, shown on all of such approved estimates, as so revised, promptly upon receipt of a statement therefor following completion of the construction of the work involved. If such estimate, whether or not so revised, is not approved in writing by Worldwide and returned to the Developer so approved within 15 days after receipt thereof by Worldwide, the request shall be considered to have been withdrawn by Worldwide, but Worldwide shall reimburse the Developer for reasonable architects' and engineers' fees for the preparation of such estimate.

Section 2.6. *Preliminary plans for other buildings.* The Developer shall no later than 30 days after the date hereof

commence to prepare and thereafter diligently prepare, without cost or expense to Worldwide, and deliver to Worldwide preliminary architectural plans and preliminary outline specifications, including isometric drawings and elevations, for the construction of at least 200,000 square feet, and not more than 400,000 square feet, of building floor area of the buildings (other than Worldwide's building) shown on Appendix F and the other improvements (including the paving, landscaping, and lighting of the driveways, roads, malls, and parking areas shown on Appendix F and the sidewalks, service areas, and other common facilities required for a complete shopping center). (As used in this agreement floor area and building floor area shall be defined, respectively, as they are respectively defined in Section 4.1 of the lease attached as Appendix G hereto.) Such plans, specifications, drawings, and elevations shall be consistent with and reasonably inferable from Appendix F hereto, shall provide for good quality workmanship and materials, and shall provide that all vehicular and pedestrian traffic ways shall be hard-surfaced and that all parking areas shall be finished with a permanent surface at least equal in quality to blacktop. The Developer covenants to complete and submit to Worldwide without charge three copies of such plans, specifications, drawings, and elevations no later than 90 days after the date hereof. If Worldwide shall, within 30 days after receipt of such plans, specifications, drawings, and elevations give notice in writing to the Developer that any of them do not comply with this Section 2.6, the Developer shall, without cost or expense to Worldwide, diligently make all changes, modifications, and corrections therein required to make them comply with this Section 2.6, promptly after receipt of such notice from Worldwide. Worldwide's failure to give such notice within 30 days after receipt of such plans, specifications, drawings, and elevations shall constitute its approval thereof. Three copies of all such plans, specifications, drawings, and elevations, as so revised and corrected, shall be supplied to Worldwide to retain as its property without charge promptly after completion thereof.

Section 2.7. *Plans for service areas.* The Developer shall prepare, without cost or expense to Worldwide, and deliver to Worldwide no later than 60 days before the closing date, preliminary architectural plans for screened service courts for all buildings (other than Worldwide's building) shown on Appendix F (unless prior to such delivery date Worldwide has agreed with the Developer on a substitute arrangement to replace such screened service courts). Upon such delivery, Appendix F hereto shall be modified solely to the extent required to incorporate such preliminary architectural plans therein.

Section 2.8. *Other leases.* The Developer agrees that on or before _____ [date], tenants (other than Worldwide) shall have entered into commitments to lease stores aggregating at least 200,000 square feet of floor area in the Center, and shall be obliged thereunder to open for business in such stores on or before the later of the date on which Worldwide shall open for business in Worldwide's building or _____ [date]. The Developer further agrees that such commitments for leases, a true copy of each of which the Developer shall deliver to Worldwide on or before _____ [date], shall comply with Article X of the lease attached as Appendix G hereto (as if such lease governed such commitments for leases) and shall include commitments for leases of at least: (a) 5,000 square feet of floor area to a drug store for an initial term of at least ten years; (b) 15,000 square feet of floor area to a supermarket for an initial term of at least 15 years; (c) 20,000 square feet of floor area to one or more variety stores for initial terms of at least 20 years each; and (d) 40,000 square feet of floor area to apparel stores (including shoe stores) for initial terms of at least 15 years each. The Developer shall deliver to Worldwide, within ten days after the execution thereof, a true copy of each lease or commitment to lease space in the Center.

Article III The Closing

Section 3.1. *Place of closing.* All matters to be performed under this agreement on the closing date shall be performed at the office of Smith and Brown, Esqs., 200 Madison Avenue, New York, New York, at 10 a.m., New York City time, on the closing date.

Section 3.2. *Date of closing.* The closing date shall be _____ [date]. Provided (a) the Developer is not

in default under this agreement and (b) at the time of giving the notice next mentioned (if the Developer gives such a notice) all matters hereunder to be done or performed prior to the closing date (except those to be done or performed by Worldwide) have been done or performed, the Developer upon 20 days' prior written notice to Worldwide setting forth an earlier closing date, may accelerate the closing date, in which event the earlier date mentioned in such notice shall be the closing date hereunder. The closing date may be extended as provided in Sections 1.8 or 3.3 hereof.

Section 3.3. *Default by developer.* If Developer shall default in performing any of its obligations hereunder, and fail to cure the same within 20 days after Worldwide shall have given Developer written notice which specifies the nature of such default, Worldwide, in addition to all other rights it may have hereunder, or otherwise, may cancel this agreement and retain the down payment made by Developer to Worldwide upon the execution hereof.

Section 3.4. *Completion bond.* On the closing date, the Developer shall deliver to Worldwide a bond wherein the general contractor to be employed by the Developer to construct Worldwide's building (as contemplated by Appendix G) and the Developer shall be the Principals, Worldwide shall be the Obligee, and any one of the following companies shall be Surety:

Eastern Surety Company Fidelity Company of New York Central Insurance Company United States Guaranty Co.

Such bond shall be in the amount of \$3,000,000 unless such amount shall be changed as hereinafter provided, and shall guarantee the construction and completion of Worldwide's building (as defined in Appendix G) fully paid for. Between 60 and 90 days prior to the closing date, if either party is of the opinion that the cost of such construction and completion will be more or less than \$3,000,000, such party may be written notice to the other request that such amount of \$3,000,000 be changed. If the parties cannot agree upon a mutually satisfactory amount within ten days after such notice shall have been given, either party may refer the dispute to the architect selected to perform services with respect to the demised premises as provided in Section 2.2 hereof not later than 45 days prior to the closing date. Such architect shall, not later than 15 days prior to the closing date, advise the parties of the amount which in his opinion would be required to construct and complete Worldwide's building (as defined in Appendix G) by a responsible contractor and the bond shall be in the amount so determined. If then obtainable from the applicable surety company the bond shall be substantially in the form of Appendix E hereto.

Section 3.5. *Authority of seller.* On the closing date, Worldwide shall deliver to the Developer (a) certified resolutions of Worldwide's Board of Directors authorizing the execution of this agreement and performance of its obligations (including the execution and delivery of the deed and the lease) hereunder, and (b) an opinion of Smith and Brown, Esqs., to the effect that the execution and delivery of this Agreement and the execution and delivery of this Agreement and the execution and delivery of the deed and the lease then required to be executed and delivered to consummate this agreement have been duly authorized by Worldwide, have been duly executed and delivered on behalf of Worldwide by an officer or officers thereunto duly authorized, and are legal, valid, and enforceable in accordance with their terms.

Section 3.6. *Authority of developer.* On the closing date, the Developer shall deliver to Worldwide (a) certified resolution of the Developer's Board of Directors authorizing the execution of this agreement and performance of its obligations (including the execution and delivery of the purchase money mortgage, purchase money note, the bond referred to in Section 3.4 hereof, and the lease) hereunder, and (b) an opinion of James Warwick, Esq., attorney for the Developer, to the effect that the execution and delivery of this agreement and the execution and delivery of the purchase money mortgage, purchase money note, such bond, and the lease then required to be executed and delivered to consummate this agreement have been duly authorized by the Developer, have been duly executed and delivered on behalf of the Developer by an officer or officers thereunto duly authorized, are (except for such bond) legal, valid, and enforceable in accordance with their terms, and such bond is (except with respect to the applicable surety company concerning which no opinion need be expressed) legal, valid, and enforceable in accordance with its terms, and (c) a certificate, executed by the Developer's chief executive officer, to the effect that no leases or written commitments to lease any part of the Center have been entered into by or on behalf of the Developer except in conformity with this

agreement and the accompanying documents.

Section 3.7. *Documents.* On the closing date, provided that all matters hereunder to be done or performed then or prior thereto shall have been duly done and performed:

- (a) Worldwide shall deliver to the Developer the deed required to be delivered to the Developer hereunder; and
- (b) Concurrently, Worldwide and the Developer shall duly execute, acknowledge, and deliver, as Tenant and Landlord, respectively, the lease attached as Appendix G hereto, after it has been completed as hereinafter in this Section 3.7 provided.

On the closing date prior to such execution of such lease by the Developer and Worldwide:

- (a) Both parties shall approve, date, and initial (and each shall receive an initialed copy of): (1) the final plans, specifications, and drawings, as revised and corrected pursuant to Section 2.4 hereof, and (2) the preliminary plans, specifications, drawings, and elevations, as revised and corrected pursuant to Section 2.6 hereof.
- (b) The lease attached as Appendix G hereto shall be completed as therein indicated.
- (c) Such lease shall have attached thereto as Exhibit 2 thereto Appendix F hereto.
- (d) Both parties shall initial each page of each exhibit to such lease.

Article IV Miscellaneous

Section 4.1. *Notices.* Any notice, request, or demand given or required to be given under this agreement shall, except as otherwise expressly provided herein, be in writing and shall be deemed to have been given when mailed by United States registered mail postage prepaid to the other party at the address stated below or at the last changed address given by the party to be notified as hereinafter specified:

To the Developer by addressing the same to:

Eastern Shopping Center, Inc., 100 Fifth Avenue New York, New York 10012

To Worldwide by addressing the same to:

Worldwide Stores, Inc., 100 East 34th Street New York, New York 10016

Either party may, however, at any time change its address for notification purposes by mailing, as herein provided, a notice stating the change and setting forth the new address.

Section 4.2. *Assignment; binding effect.* Any reference in this agreement to the Developer shall mean Eastern Shopping Center, Inc. provided that if Eastern Shopping Center, Inc., shall assign all of its right, title, and interest in this agreement to any person, firm, or corporation, the Developer shall mean the person, firm, or corporation which for the time being owns all of the right, title, and interest of Eastern Shopping Center, Inc., under this agreement, provided that (a) such assignee shall in writing expressly assume all of the obligations of Eastern Shopping Center, Inc., hereunder, (b) a duplicate copy of such assignment and assumption shall be delivered to Worldwide no later than five days prior to the closing date, and (c) such copy shall state the assignee's business address, and, if the assignee be a corporation, the

state of its incorporation. Except as herein otherwise expressly provided, this agreement and the several covenants, restrictions, conditions, agreements, stipulations, and provisions herein contained shall be binding upon the legal representatives, successors, and assigns of the respective parties hereto.

Section 4.3. *Relationship between parties.* It is the intention of this agreement to create the relation of Vendor and Purchaser between the parties hereto and no other relation whatsoever (except as provided in the Appendices hereto). Nothing herein (or in such Appendices) contained shall be construed to make the parties hereto partners or joint venturers, or to render either party liable for any of the debts or obligations of the other party. The provisions of Sections 1.6, 4.3, and 4.5 and Article II hereof shall survive the delivery of the deed and lease.

Section 4.4. *Non-waiver.* No delay or omission by either party hereto to exercise any right or power accruing upon any noncompliance or default by the other party with respect to any of the terms of this agreement shall impair any such right or power to be construed to be a waiver thereof, except as otherwise herein provided. A waiver by either of the parties hereto of any of the covenants, conditions, or agreements hereof to be performed by the other shall not be construed to be a waiver of any succeeding breach thereof or of any other covenant, condition, or agreement herein contained.

Section 4.5. *Broker.* The parties hereto agree that Johnson and Berger, 300 Third Avenue, New York, New York, brought about this agreement as broker. The Developer assumes the obligations for itself, its successors, and assigns (and Worldwide shall have no obligation of any kind) for the payment of any commissions or brokerage with respect to this agreement or the negotiation thereof, including the lease attached as Appendix G hereto and any extensions or renewals thereof and any additions to Worldwide's building.

Section 4.6. *Article and section headings.* The article and section headings herein are for convenience and reference only, and in no way define or limit the scope and content of this agreement or in any way affect its provisions.

Section 4.7. *Applicable law.* This agreement shall be governed by and construed in accordance with the laws of the State of New York.

Section 4.8. *Entire agreement.* This agreement contains the entire agreement between the parties, except as provided in other written agreements between the parties, and any agreement hereafter made shall be ineffective to change, modify, or discharge this agreement or any other existing written agreement in whole or in part unless such agreement hereafter made is in writing and signed by the parties hereto.

Section 4.9. *Short forms for recording.* The Developer agrees that the Developer shall execute and deliver such a short form of this agreement and the Appendices hereto as Worldwide, in its discretion, shall request from the Developer in order to record the provisions of this agreement and the Appendices hereto which Worldwide may deem necessary or desirable to make a matter of record. The Developer and Worldwide, however, hereby agree that, as between themselves, their respective successors and assigns, their relations shall be governed solely by the provisions of this agreement and the Appendices annexed hereto and not by any short form thereof which may be executed, delivered, and recorded for the purposes of record. Each party agrees to execute, in recordable form, any such certificate as the other reasonably requests concerning the rights and obligations of the parties under this agreement, or, if any of such rights or obligations have been waived, cancelled, or released, concerning their waiver, cancellation, or release.

Section 4.10. *Execution in counterparts.* This agreement may be executed in several counterparts, each of which shall be deemed an original, and all such counterparts shall together constitute but one and the same instrument.

Worldwide and the Developer have duly executed this agreement as of the day and year first above mentioned.

Chapter 22 DEVELOPMENT AND SUBDIVISION
Part IV. FORMS

D. COMMERCIAL DEVELOPMENT Shopping Centers, Industrial Buildings and Office Buildings

26-22 Current Legal Forms for Real Estate FORM 22.65

FORM 22.65 Joint venture between developer and retailer to develop and operate shopping center

COMMENT

A retail organization with a dominant position in its trade may be able to exert considerable control over the plans for a shopping center, even though its only obligation will be that of a tenant of one of the various stores in the center. Such an organization can exercise similar control by first selecting and acquiring the vacant land and then engaging in a sale-leaseback transaction in which the purchaser undertakes to construct improvements in accordance with a prearranged plan. In either case, such a retail organization can obtain possession of premises constructed to its own special requirement without tying up any of its operating funds in fixed real estate assets. A less formidable organization may have to acquire a proprietary interest in the real estate if it wants to select its own business location and supervise the design and construction of the shopping center. In this type of situation, it may be necessary for the retail organization to join forces with a real estate developer who can offer his specialized experience in planning and constructing the project. From the standpoint of the developer, such a combination of forces may be ideal, for it assures the availability of a major tenant at an early stage in the venture.

This agreement illustrates a joint venture between a real estate developer and a retail organization to acquire property for the construction of a shopping center. Prior to commencement of construction, the retail organization is to enter into a lease with the joint venture for space in the shopping center. If this lease is not executed by the retail organization, the developer has the option to sell his interest in the joint venture to the retail organization for an amount equal to the developer's investment. This provision indicates that a principal inducement to the developer to join in the venture is the certainty of a tenant for substantial space.

This agreement sets forth the guidelines for the lease to be entered into with the retail organization and for the construction contract to be entered into with the developer. As to the

lease, the size of the store, the rent, the general obligations of the tenant, and the provisions relating to exclusive use are defined. As to the construction contract, the cost of the improvements to the venture, the starting and completion dates, and the other basic provisions are spelled out.

FORM

AGREEMENT entered into _____[date], between Samuel Knight, residing at 74 Dodge Road, Staten Island, New York ("Knight"), and Crossroads Stores Corporation, a New York Corporation ("Crossroads").

RECITALS

Knight and Crossroads wish to form a joint venture for the purpose of acquiring and developing certain property more fully described in Exhibit A annexed hereto and made a part hereof (the "property").

Crossroads has entered into a contract to purchase the property, and title is to be held by Welldone Realty Co., or such other entity which the joint venture may designate as its nominee.

It is contemplated that the property will be developed as a shopping center (the "Center"), to be constructed by Samuel Knight Construction Co., Ltd., which will include a 60,000 square foot store to be leased to Crossroads.

Now, therefore, in consideration of the foregoing, it is hereby agreed as follows:

1. *Formation of venture.* The parties hereto form a joint venture (the "Venture"), upon the terms and conditions herein set forth.

2. *Purpose of venture.* The purpose of the Venture is to develop the property as a first-class, modern shopping center consisting of approximately 100,000 square feet of ground floor space, including a store with approximately 60,000 square feet of ground floor space to be leased to Crossroads. Leases of the remaining space in the Center are to be made with tenants conducting businesses which are complementary to the business of Crossroads but not competitive.

3. *Initial capital.* The initial capital of the Venture will be \$200,000, consisting of the amount necessary to purchase the property, and the cost of on-site improvements preparatory to construction. Such initial capital shall be contributed equally by the parties no later than the closing of the purchase of the property. Separate capital accounts shall be maintained for each venturer, and no interest shall be paid on balances in such accounts.

4. *Interest in venture.* The respective interests of the parties hereto as members of the Venture, in and to the Venture, and in and to the net profits and losses of the Venture, shall be as follows:

Knight	50%
Crossroads	50%

5. *Lease to one party.* Prior to _____[date], Crossroads, as tenant, shall enter into a lease with the Venture, as landlord, covering a store with approximately 60,000 square feet of ground floor space (the "Store"), to be constructed by the Venture on the property. The Store shall be constructed in accordance with the provisions of Paragraph 7 hereof. The rent shall be \$1.20 per annum for each square foot of ground floor space in the Store. Such rent shall be a "net" rental, with all expenses in connection with the property, including, but not limited to, repairs, maintenance, insurance, and a pro rata share of real estate taxes (but excluding any interest or amortization on

mortgages) to be borne by the tenant. Other terms of the lease shall be similar to the terms of the lease between Hartsdale Realty Co. and Crossroads, dated _____[*date*], on property located in Bedford, Pennsylvania, a copy of which lease is attached hereto as Exhibit B. The provisions of the lease attached as Exhibit B dealing with the business activities to be permitted to the tenant and to be denied to other tenants shall be included in the lease to be entered into between Crossroads and the Venture.

6. *Option if lease not executed.* If Crossroads does not execute the type of lease described in Paragraph 5 before _____[*date*], Knight shall have the right, for a period of 60 days thereafter, to require Crossroads to purchase his interest in the Venture for the total amount that Knight previously contributed to the Venture. The option may be exercised by Knight's giving written notice thereof to Crossroads no later than _____[*date*]. If the option is exercised, the closing of the sale shall take place within 60 days thereafter, at which time the interest in the Venture shall be transferred and the purchase price therefor paid.

7. *Construction of center.* Within 30 days after the execution of the lease provided for in Paragraph 5 hereof, the Venture shall enter into a contract with Samuel Knight Construction Co., Ltd., for the construction of the Center substantially in accordance with the following terms:

(a) The contract shall be similar to the standard form of construction contract employed by the American Institute of Architects.

(b) Construction of the Center consisting of approximately 100,000 square feet of ground floor space shall commence no later than _____[*date*], and shall be completed by _____[*date*]; but such deadline for completion shall be postponed by the number of days during which construction is prevented by causes or events beyond the control of Samuel Knight Construction Co., Ltd., and provided further that if the contract to construct the Center is entered into after _____[*date*], the starting date and completion deadline shall be two months and 15 months, respectively, after the date such construction contract is entered into.

(c) The Center shall be constructed by Samuel Knight Construction Co., Ltd., for an amount equal to the actual cost of construction (with no allowance for overhead) plus 12 percent of the actual cost of construction.

(d) The Venture and an authorized employee of Crossroads shall have the right to audit the books of Samuel Knight Construction Co., Ltd., at any time after commencement of construction until one year after completion of construction in order to verify the actual cost of construction.

(e) The Venture shall make payment to Samuel Knight Construction Co., Ltd., of the amount provided for in subparagraph (d) of this paragraph according to the schedule attached as Exhibit C.

(f) The Store shall be similar to Crossroads' store located at Bedford, Pennsylvania.

(g) The lease to be executed between Crossroads and the Venture shall give Crossroads the right to approve preliminary and final plans and specifications for the Center and to verify that final plans and specifications have been complied with in the construction, provided such approval and verification is not to be unreasonably withheld.

8. *Term of venture.* The term of the Venture shall commence on the date hereof and continue until the earliest of the following:

(a) The sale or other disposition of the property.

(b) The exercise of an option to terminate by Knight following the termination or expiration of the lease between the Venture and Crossroads as a result of the default by Crossroads under such lease.

(c) The exercise by Knight of the option under Paragraph 6 hereof.

(d) The death of Knight.

(e) The mutual agreement of both parties to terminate the Venture.

9. *Distribution upon dissolution.* Upon the dissolution of the Venture, its noncash assets shall be liquidated, and the total assets, after full payment of all obligations and liabilities, shall be distributed to the parties as follows: first, in discharge and to return the respective capital contributions of the parties, and, second, in proportion to the respective rights of the parties to share net profits and losses of the Venture, as set forth in Paragraph 4. If, upon such dissolution, the assets of the Venture are insufficient to pay and discharge all of its obligations and liabilities, each of the parties hereto shall forthwith contribute as capital contributions to the Venture one-half of the aggregate amount required by the Venture to pay and discharge in full in cash all of such obligations and liabilities. If the assets of the Venture are insufficient to return to the parties all or any part of their respective capital contributions, neither party shall have any claim or recourse against the other therefor.

10. *Binding effect.* This agreement shall be binding upon and inure to the benefit of the parties hereto, their successors and assigns, and to any executor or administrator of Knight; provided that neither party, without the written consent of the other party, may transfer or assign an interest in the Venture in whole or in part, except to a nominee or a wholly owned subsidiary.

11. *Books.* The books and records of the Venture shall be kept in Knight's office at the address to which notice is to be sent to Knight under Paragraph 13 hereof. Such books and records shall be audited regularly by a certified public accountant employed by the Venture for such purpose. Certified financial statements shall be made available to each party at least annually. The designation of the certified public accountant and the compensation to be paid to him shall be subject to the agreement of both parties. The method of depreciation of fixed assets belonging to the Venture and its fiscal year shall be determined by mutual agreement of both parties.

12. *Management.* All questions relating to the conduct, management, or operation of the affairs, activities, or business of the Venture, and all questions relating to any asset or property of the Venture, or the disposition thereof, shall be determined by mutual agreement of Crossroads and Knight.

13. *Notices.* Notices hereunder shall be deemed to have been given when mailed by United States Registered or Certified mail, postage prepaid, addressed to the parties as follows:

To Knight:	Samuel Knight 74 Dodge Road Staten Island, New York 10314
To Crossroads:	Crossroads Stores Corporation 3150 Broadway New York, New York 10027

14. *Entire agreement.* This Agreement supersedes all agreements previously made between the parties relating to its subject matter. There are no other understandings or agreements between them.

15. *Non-waiver.* No delay or failure by either party to exercise any right under this Agreement, and no partial or single exercise of that right, shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

16. *Headings.* Headings in this Agreement are for convenience only and shall not be used to interpret or construe its provisions.

17. *Governing law.* This Agreement shall be construed in accordance with and governed by the laws of the State of New York.

18. *Counterparts.* This Agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

The parties hereto have signed this agreement this _____[*day*] day of _____[*month*],
_____[*year*].

Chapter 22 DEVELOPMENT AND SUBDIVISION

Part IV. FORMS

D. COMMERCIAL DEVELOPMENT Shopping Centers, Industrial Buildings and Office Buildings

26-22 Current Legal Forms for Real Estate FORM 22.66

FORM 22.66 Operating and Easement Agreement for strip shopping center where big box retailer acquires its own parcel

COMMENT

In this agreement, the developer has purchased a large tract of land on which it intends to construct a large strip center. One of the keys to the success of the strip center development is the developer's ability to attract one or more stores. An anchor tenant is typically a store that generates a large number of shoppers for the center. In many cases, this may be a big box retailer. That is a retailer that has a large store and shoppers go to the store as one of the shoppers destinations. The smaller stores in the center feed off of the shopping traffic generated by the big box retailer. A typical big box retailer might be a department store. The shoppers can drive to the center to shop at the department store. Before or after they visit the department store, they might visit a jewelry store, drop off dry cleaning, sit at a coffee shop, etc.

Most of the big box retailers are sophisticated in real estate matters. As such, they understand the benefits of owning real estate, and the benefit of being able to control the real estate the big box retailer is intending to utilize. As a result, it is sometimes necessary for the developer to sell the portion of the strip center that the big box retailer will occupy in order to attract it to the center. In the case where the ownership of the strip center is being divided, both the developer and the big box retailer have a significant interest in making sure that the development of each party's parcel is compatible with their own use of the property. For example, the big box retailer may not want to be located next to a flea market. Additional concerns are likely to be common points of access from dedicated roads, maintenance of parking and other improvements, joint use of utilities and common signage, competing uses, and hours of operation.

The following Operating and Easement Agreement involves the development of a strip center when the big box retailer purchased the land from the developer to construct its store.

FORM**OPERATING AND EASEMENT AGREEMENT**

THIS AGREEMENT ("OEA") is made and entered into as of the _____[day] day of _____[month], _____[year], among BIG BOX RETAILER, INC., a(n) _____[state] _____[insert name of entity] (Big Box") and Development Company L.L.C., a(n) _____[state] _____[insert name of entity] ("Developer"). Big Box and Developer are sometimes collectively called "Parties" and sometimes individually called a "Party."

WITNESSETH:

WHEREAS, Big Box is the owner of a certain tract of land described in Exhibit A attached hereto ("Big Box Tract") and identified as such on Exhibit X (the "Site Plan") attached hereto; and

WHEREAS, Developer is the owner of a certain tract of land described in Exhibit B attached hereto ("Developer Tract") and identified as such on the Site Plan; and

WHEREAS, the Big Box Tract is contiguous with and adjacent to the Developer Tract (collectively the "Shopping Center") as shown on the Site Plan; and

WHEREAS, Big Box and Developer intend to develop and operate their respective Tracts in conjunction with each other as integral parts of a retail shopping complex and in order to effectuate the common use and operation thereof they desire to enter into certain covenants and agreements as a part of a general plan, and to grant to each other certain reciprocal easements, in, to, over, under and across their respective Tracts.

NOW, THEREFORE, in consideration of the premises, the covenants and agreements hereinafter set forth and in furtherance of the Parties' understanding, it is agreed as follows:

ARTICLE I
DEFINITIONS

1.1 Building Area. "Building Area" shall mean the limited areas of the Shopping Center within which buildings (including canopies, supports, truck docks and/or receiving docks, truck ramps and other outward extensions, pilasters and overhangs, and footings projecting into the Common Area) are shown on the Site Plan.

1.2 Common Area. "Common Area" shall mean all areas within the exterior boundaries of the Shopping Center, exclusive of Building Area, all as shown on the Site Plan.

1.3 Final Plans. "Final Plans" shall mean the plans and specifications consisting of the Site Plan (attached hereto as Exhibit X) and the various plans and specifications prepared to comply with the Big Box CPR Book and Notes.

1.4 Floor Area. "Floor Area" shall mean the actual number of square feet of space contained on each floor within any building as measured from the exterior faces of the exterior walls or store front and/or the center line of any common walls; provided, however, that the following areas shall not be included in such calculations: mezzanine storage space,

mezzanine office space, loading docks which are not heated and/or air conditioned, building canopies, pilasters, overhangs, unenclosed recessed openings and any unenclosed utility and/or unenclosed mechanical equipment room or space. Garden shop and outdoor sales areas shall be part of Floor Area, but only to the extent counted as floor area by local code without variances in determining parking ratios. Each Party shall direct its architect to make a determination of the total Floor Area of any building on such Party's Tract within one hundred twenty (120) days of the date of completion of such building subject to verification by the other party's Architect. Within a reasonable time thereafter, such Party shall certify to the other Party the Floor Area applicable to such building.

During any period of rebuilding, repairing, replacement or reconstruction (including any addition or expansion allowed hereunder) of a building, the Floor Area of that building shall be deemed to be the same as existed immediately prior to that period. Upon completion of such rebuilding, repairing, replacement or reconstruction (including any addition or expansion allowed hereunder), the Party upon whose Tract such building is located, shall cause a new determination of Floor Area for such building to be made in the manner described above, and such determination shall be sent to the other Party.

1.5 Occupant. "Occupant" shall mean any Person from time to time entitled to the use and occupancy of any portion of a building in the Shopping Center under any lease, sublease, license, concession, or other similar agreement.

1.6 Party. "Party" shall mean Big Box and Developer, and after compliance with the notice requirements set forth below, shall mean their respective successors and assigns who become owners of the entirety of any one of the Tracts forming the Shopping Center. Until the notice requirement is complied with, the transferring Party shall (for the purpose of this OEA only) be the transferee's agent. Each Party shall be liable for the performance of all covenants, obligations and undertakings herein set forth with respect to the portion of the Shopping Center owned by it which accrue during the period of such ownership, and such liability shall continue with respect to any portion transferred until the notice requirement set forth below is complied with, at which time the transferring Party's personal liability shall terminate. The transferee Party shall automatically become liable for all obligations arising after compliance with the notice requirement. A Party transferring all or any portion of its interest in the Shopping Center shall give notice to the other Party of such transfer and shall include therein at least the following information:

- (a) the name and address of the transferee; and
- (b) a copy of the survey showing the location and indicating the legal description of the portion of the Shopping Center transferred.

Nothing contained herein to the contrary shall affect the existence, priority, validity or enforceability of any lien permitted hereunder which is placed upon the transferred portion of the Shopping Center prior to receipt of the notice.

1.7 Permittee. "Permittee" shall mean all Occupants and the officers, directors, employees, agents, contractors, customers, vendors, suppliers, visitors, invitees, licensees, subtenants, and concessionaires of Occupants insofar as their activities relate to the intended use of the Building Area of the Shopping Center. Among others, Persons engaging in the following activities on the Common Area shall not be considered to be Permittees:

- (i) Exhibiting any placard, sign, or notice;
- (ii) Distributing any circular, handbill, placard, or booklet;
- (iii) Soliciting memberships, contributions or signatures;
- (iv) Parading, picketing, or demonstrating; and

(v) Failing to follow regulations relating to the use of the Shopping Center which regulations will be applied to equally and in a nondiscriminatory manner to all tenants off the Shopping Center and will. not require payments of money to Developer by any tenant.

1.8 Person. "Person" shall mean any individual, partnership, firm, association, corporation, trust, or any other form of business or government entity.

1.9 Scope of Work. "Scope of Work" shall mean the narrative description of Developer's obligations relating to the Common Area as described in the Big Box CPR Book and Notes.

1.10 Big Box CPR Book and Notes. "Big Box CPR Book and Notes" shall mean the narrative description of Developer's obligations relating to the Common Area as described in Exhibit Z attached hereto.

1.11 Tract. "Tract" shall mean that portion of the Shopping Center owned by a Party.

ARTICLE II EASEMENTS

2.1 Ingress and Egress and Parking.

(A) During the term of this OEA, each Party hereby grants and conveys to the other Party for its use and for the use of its Permittees, in common with others entitled to use the same, a non-exclusive easement for the passage and parking of passenger, service and delivery vehicles over and across the parking and driveway areas of the grantor's Tract as shown on the Site Plan for such use and for the passage and accommodation of pedestrians over and across the parking, driveways and sidewalk areas of the grantor's Tract as shown on the Site Plan. The foregoing easement rights shall be subject to the following reservations as well as other provisions contained in this OEA:

(i) Except for situations specifically provided for in the following subparagraphs, no fence or other barrier which would prevent or obstruct the passage of pedestrian or vehicular travel for the purposes herein permitted shall be erected or permitted within or across the easement areas; provided, however, that the foregoing provision shall not prohibit the installation of convenience facilities (such as mailboxes, public telephones, benches, trash deposit enclosures and containers, and transformers), of landscaping, berms or planters, nor of limited curbing and other forms of traffic controls only to such extent shown on the Site Plan.

(ii) In connection with any construction, reconstruction, repair or maintenance on its Tract, each Party reserves the right to create a staging and/or storage area in the Common Area on its Tract at the location shown on the Site Plan.

(iii) No Party shall, without obtaining the consent or approval of all other Parties, make any material change, modification or alteration in its portion of the Common Area. Either party may make changes which do not materially affect the traffic patterns or direction of parking, or reduce the amount of parking.

(iv) Each Party reserves the right to close off its portion of the Common Area for such reasonable period of time as may be legally necessary, in the opinion of such Party's counsel, to prevent the acquisition of prescriptive rights by anyone; provided, however, that prior to closing off any portion of the Common Area, as herein provided, such Party shall give written notice to all other Parties of its intention to do so, and shall attempt to coordinate such closing with the other Parties so that no unreasonable interference in

the passage of pedestrians or vehicles shall occur (it being understood and agreed by the Parties that without the prior written consent of the other Parties and except for a bona fide emergency no such closing shall take place during the time period between April 1 and July 4; August 1 and September 15; November 1 and December 31; and the thirty (30) calendar day period before Easter).

(v) Each Party reserves the right at any time and from time to time to exclude and restrain any Person who is not a Permittee from using its Common Area.

(vi) The grant of the foregoing easements over that part of the Common Areas identified as the 'Perpetual Drives' shall be perpetual and nonexclusive; provided, however, the owner of the Developer Tract and the owner of Big Box Tract shall have the right to relocate such portion of the Perpetual Drives as is located on their respective Tract from time to time during the Term of this Agreement in accordance with the terms hereof and after the Term hereof as each Party may reasonably desire; provided, however, that (i) in no event shall such Perpetual Drives be less than thirty (30) feet in width; (ii) in no event shall a curb cut connecting a Perpetual Drive to a public roadway be relocated without the consent of the owner of the other Tract, which consent shall not be unreasonably withheld or delayed; (iii) such perpetual Drives shall at all times provide access to such curb cuts in a manner not materially more burdensome than that provided by the Perpetual Drives, as now existing (in the event of any dispute with respect to this clause, the parties shall, within ten (10) days after one party objects to such relocation, submit drawings of the proposed relocation to _____ [insert name of mediator], or if such organization is nonexistent the president of such other similar organization as may be existing at such time, and such president shall approve a certified traffic consultant to determine whether such relocation is more burdensome, which determination shall be made within thirty (30) days of submission to such traffic consultant and which determination shall be final, foil-appealable, and binding); and (iv) the Big Box Tract shall at all times benefit from an insurable, nonexclusive, perpetual easement over such portion of the Perpetual Drives as is located on the Developer Tract, and the Developer Tract shall at all times benefit from an insurable, nonexclusive, perpetual easement over such portion of such Perpetual Drives as is located on the Big Box Tract,

(v) Those portions of the Developer Tract identified as "Outlots" shall not have reciprocal parking rights.

2.2 Utilities.

(A) Each Party hereby grants and conveys to all other Parties non-exclusive perpetual easements in, to, over, under, along and across those portions of the Common Area (exclusive of any portion located within a Building Area) located on the grantor's Tract necessary for the installation, operation, flow, passage, use, maintenance, connection, repair, relocation, and removal of lines or systems for utilities serving the grantee's Tract, including but not limited to, sanitary sewers, storm drains, cable TV, water (fire and domestic), gas, electrical, telephone and communication lines. Except with respect to ground mounted electrical transformers and emergency generators at the rear of a building or as may be necessary during periods of construction, repair, or temporary service, all utilities shall be underground unless required to be above ground by the utility providing such service. Prior to exercising the right granted herein, the grantee shall first provide the grantor with a written statement describing the need for such easement, shall identify the proposed location of the utility, and shall furnish a certificate of insurance showing that its contractor has obtained the minimum insurance coverage required by Section 5.4(C) hereof. Any Party installing utilities pursuant to the provisions of this subparagraph shall plan such installation and use in a manner so as to minimize interference with existing utilities previously installed by any other Party, shall pay all costs and expenses with respect thereto and shall cause all work in connection therewith (including general clean-up and proper surface and/or subsurface restoration) to be completed as quickly as possible and in any event in not more than ten (10) calendar days and in a manner so as to minimize interference with the use of the Common Area by any other Party hereto. If any Party elects to install common utilities, all costs and expenses thereof may be set forth in a separate agreement between the Parties.

(B) The initial location and width of any utility shall be subject to the prior written approval of the Party whose Common Area is to be burdened thereby, and such approval shall not be unreasonably withheld or delayed. The easement area shall be no larger than whatever is necessary to reasonably satisfy the utility company as to a public utility or five feet (5') on each side of the centerline as to a private line. The grantee shall provide to the grantor a copy of an as-built survey meeting the basic requirements of the American Land Title Association showing the location of such utility. The grantor shall have the right at any time to relocate a utility line upon thirty (30) days' prior written notice, provided that such relocation:

- (i) shall not interfere with or diminish the utility services to the grantee;
- (ii) shall not reduce or unreasonably impair the usefulness or function of such utility;
- (iii) shall be performed without cost or expense to grantee;
- (iv) shall be completed, using materials and design standards which equal or exceed those originally used;
- (v) and the appropriate governmental or quasi-governmental agencies having jurisdiction thereover;
- (vi) shall not materially interfere with the use of the Common Area; and
- (vii) except in the case of an emergency and/or during the course of initial construction, shall not be constructed during the four (4) time periods set out in Section 2.1 (iv).

Documentation of the relocated easement area shall be the grantor's expense and shall be accomplished as soon as possible. Grantee shall have a right to require an as-built survey of such relocated utility be delivered to it at grantor's expense. The grantor expressly covenants and agrees to restore the surface of the easement area and to repair any damage caused to the Common Area by such work in a good and workmanlike manner.

2.3 Construction, Maintenance and Reconstruction.

(A) In order to accommodate any footings, foundations, columns or walls which may be constructed or reconstructed immediately adjacent to a common boundary line and which may overlap that common boundary line, and should any Parties owning adjacent Tracts elect to use common footings, Developer and Big Box mutually, as to their respective Tracts, grant to each other a nonexclusive easement in, to, over, under and across that portion of its Tract adjacent to such common boundary line in a space not theretofore occupied by any then existing structure for the construction, maintenance and replacement of footings to a maximum of a three feet (3') distance as between the Developer Tract and the Big Box Tract, and an easement onto the grantor's tract for incidental, encroachments for the construction, replacement and maintenance of foundations, columns, or walls not to exceed six (6) inches. This grant of easement shall include the reasonable right of access necessary to exercise and enjoy such grant. The Party availing itself of such easement shall pay any additional expense incurred by the owner of the burdened Tract caused by such encroaching footing when such owner constructs its building. Furthermore, the owner of the burdened Tract shall have the right to approve and monitor the placement of such encroaching footing and to approve the quality of construction of such footing. The easement shall continue in effect for the term of this OEA and thereafter so long as the building utilizing the easement area exists, including a reasonable period to permit reconstruction or replacement of such building if the same shall be destroyed, damaged, or demolished.

(B) Prior to utilizing the easement right set forth in (A) above, the grantee Party shall advise the grantor Party of its intention to use the same, shall provide plans and specifications and proposed construction techniques for the

improvements to be located within the easement area approved by a certified structural engineer, and shall give the grantor Party an opportunity to commence any construction activities which such Party contemplates undertaking at approximately the same time to the end that each Party involved shall be able to utilize subterranean construction techniques which will permit the placement above ground of a building on each Tract immediately adjacent to the common boundary line. If a common subterranean construction element is used by the Parties, it is specifically understood that each shall assume and pay its reasonable share of the cost and expense of the initial construction and, so long as both Parties are benefitting therefrom, subsequent maintenance thereof. In the event any building utilizing a common subterranean element is destroyed and is not replaced or is removed, the common subterranean construction element shall be left in place for the benefit of any building utilizing the same located on the adjoining Tract. No Party is obligated to utilize a common subterranean element and each Party may utilize a zero lot line subterranean element.

2.4. Restriction. No Party shall grant any easement for the purpose set forth in this Article for the benefit of any property not within the Shopping Center except Developer may grant easements for the benefit of property owned by Developer or acquired by Developer to the South of the Developer Tract for all purposes except parking so long as such parcels are burdened by all of the covenants and restrictions set forth in this OEA; provided, however, that the foregoing shall not prohibit the granting or dedicating of utility easements by a Party on its Tract to governmental or quasi-governmental authorities or to public utilities. Furthermore, Developer shall have the right to grant an access easement for the benefit of the property identified as "Sunlight" on the Site Plan over the drives of the Shopping Center.

ARTICLE III CONSTRUCTION

3.1 General Requirements.

(A) All construction activities performed by a Party within the Shopping Center shall be performed in compliance with this OEA and all laws, rules, regulations, orders, and ordinances of the city, county, state, and federal governments, or any department or agency thereof, affecting improvements constructed within the Shopping Center.

(B) The construction activities of a Party shall not:

- (i) cause any unreasonable increase in the cost of constructing improvements upon any other Party's Tract (provided, however, no Party shall have any obligation to take any action to minimize the cost of constructing improvements upon another Party's Tract);
- (ii) unreasonably interfere with construction work being performed on any other part of the Shopping Center;
- (iii) interfere with the use, occupancy or enjoyment of any part of the remainder of the Shopping Center by any other Party or its Permittees;
- (iv) cause any other Party to be in violation of any law, rule, regulation, order or ordinance applicable to its Tract of the city, county, state, federal government, or any department or agency thereof; and
- (v) violate this OEA.

(C) Each Party shall defend, indemnify and hold harmless the other Parties from all claims, actions and proceedings and costs incurred in connection therewith (including reasonable attorneys' fees and costs of suit) resulting from any accident, injury or loss or damage whatsoever occurring to any Person or to the property of any Person arising out of or resulting from the performance of any construction activities performed or authorized by such indemnifying Party.

(D) Following initial construction of the building upon the Big Box Tract, each Party shall utilize the "Staging and Storage Area" on its Tract located as shown on the Site Plan. If substantial work is to be performed, such constructing Party shall, at the request of any other Party, fence off the Staging and Storage Area. Upon completion of such work, the constructing Party shall restore the affected Common Area to a condition at least equal to that existing prior to commencement of such work. The constructing Party shall cause its contractors to park construction equipment in the Staging and Storage Area on its Tract or in other areas mutually agreed upon by the Parties.

(E) Each Party hereby grants and conveys to each other Party and to its respective contractors, material men and laborers a temporary license to enter upon the Common Area of the grantor's Tract as shall be reasonably necessary for the grantee to construct and/or maintain improvements upon the grantee's Tract; provided, however, that such license shall be in effect only during periods when actual construction and/or maintenance is being performed and provided further that the use of such license shall not be exercised so as to unreasonably interfere with the use and operation of the Common Area by others, especially if any other Party is open for business. Prior to exercising the rights granted herein, the grantee shall first provide the grantor with a written statement describing the need for such license and why it is impossible to use the Tract of the requesting Party, and shall furnish a certificate of insurance showing that the first Party's contractor has obtained the minimum insurance coverage required by Section 5.4(C) hereof. Any Party availing itself of the temporary license shall promptly pay all costs and expenses associated with such work, shall diligently complete such work as quickly as possible, and shall promptly clean the area and restore the affected portion of the Common Area to a condition which is equal to or better than the condition which existed prior to the commencement of such work. Notwithstanding the foregoing, in the event a dispute exists between the contractors, laborers and/or others connected with construction activities, each Party shall have the right to prohibit the contractors, laborers and/or others working for another Party from using the Common Area on its Tract.

(F) Other than: (i) initial construction as contemplated by this OEA; (ii) reconstruction made necessary by casualty damage or condemnation; (iii) any construction or reconstruction made necessary by an emergency; or with the prior written consent of all Parties; all exterior construction and/or reconstruction and/or major repair or replacement (including expansions and additions) shall be done only during the months of February and from and after Easter until September 15. Notwithstanding the foregoing, any exterior construction may take place at any time so long as: (i) such construction is limited to a fenced area not to extend beyond five (5) feet into the asphalt driveway located adjacent to the Building Area; and (ii) that all construction materials are stored in a location approved by the Parties or as shown on the Site Plan.

3.2 Common Area. Except as set forth in the Site Development Agreement of even date herewith between the Parties, Developer shall cause the Common Area on the Developer Tract and Big Box Tract to be improved as shown on the Site Plan in accordance with the Final Plans and Big Box CPR Book and Notes and in accordance with that portion of the schedule attached hereto as Exhibit ZZ labeled "Site Construction." Such work shall be done by Developer in a good and workmanlike manner and in accordance with good engineering standards, including, but not limited to, the following minimum general design standards:

(A) The lighting system shall be designed to produce a minimum maintained lighting intensity at grade at all points in the Common Area of 2.00 foot candle; provided however, that the extreme edge of the parking or drive areas may have not less than a minimum maintained lighting intensity measured at grade of 0.5 foot candle, and provided further that the drive areas immediately in front of the entrance to any building shall have not less than a minimum maintained lighting intensity measured at grade of 5.0 foot candles. Each Party may elect to control the light standards located on its Tract. Until a building on the Developer Tract is opened for business all Shopping Center lighting shall be wired to Big Box's control panel and the electricity paid for by Big Box. Thereafter, the circuitry shall be changed to permit Developer to control the lighting on the Developer Tract and Developer shall pay for the electricity to operate such lighting. All light poles and fixtures on all Tracts shall be of an identical design, which design shall be designated by Developer and consented to by Big Box, which consent shall not be unreasonably withheld or delayed.

(B) The slope in the parking area shall not exceed a maximum of _____ percent (_____%), nor be less than a minimum of _____ percent (_____%). All parking spaces shall be at least nine (9) foot spaces.

(C) All sidewalks shall be concrete or other material approved by the Parties. The paved portions of the Common Area shall be paved in accordance with a paving recommendation obtained from a reputable engineering firm approved by the Parties.

(D) Utilities that are placed underground shall be at depths of not less than that designated by consultants approved by the Parties. Design and working drawings may be prepared by the utility company providing the service.

(E) The parking area on each Tract shall contain sufficient ground level, standard automobile size, parking spaces in order to comply with the greater of: (i) governing municipal standards as modified by any obtained variance; or (ii) the following:

(a) five (5.0) parking spaces for each one thousand (1,000) square feet of Floor Area located on the Big Box Tract;

(b) five (5.0) parking spaces for each one thousand (1,000) square feet of Floor Area located on the Developer Tract;

plus, with respect to each Tract,

(c) if a business use contains a drive-up unit (such as remote banking teller or food ordering/dispensing facility), then there shall also be created space for stacking not less than five (5) automobiles for each drive-up unit;

(d) if a business use includes a restaurant which has less than five thousand (5,000) square feet of Floor Area, then five (5) additional parking spaces for each one thousand (1,000) square feet of Floor Area devoted to such use; or

(e) if a business use includes a restaurant which has five thousand (5,000) square feet of Floor Area or more, then ten (10) additional parking spaces for each one thousand (1,000) square feet of Floor Area devoted to such use;

provided, however, if a restaurant is operated incidentally to another business operation (gross sales of ten percent (10%) or less of the total gross sales of such business operation), then the Floor Area occupied by such restaurant shall be excluded from the operation of (d) and (e) above, and provided, further, that in determining if the foregoing parking ratios are met, the total Floor Area on all Outlots and the total Floor Area located upon the Developer Tract may be aggregated, and the total number of parking spaces on all Outlots and the Developer Tract may be aggregated, and so long as the aggregate of such numbers meet the cumulative parking ratio set forth herein, the parking ratios as set forth in this OEA shall be deemed satisfied.

The foregoing requirements as well as all governmental regulations, ordinances and similar orders relating to parking shall be satisfied without reliance on the parking spaces that may be available on another Tract, subject to the immediately foregoing sentence. In the event of condemnation of part of a Tract or sale or transfer in lieu thereof that reduces the number of usable parking spaces below that which is required herein, the Party whose Tract is so affected shall use its best efforts (including using proceeds from the condemnation award or settlement) to restore and/or substitute parking spaces in order to comply with the parking requirements set forth above. If such compliance is not

reasonably possible, such Party shall not be deemed in default hereunder, but shall not be permitted to expand the amount of Floor Area located upon its Tract. If such Floor Area is thereafter reduced, then it may not be subsequently increased unless the parking requirement is satisfied.

(F) During the term of this OEA, no Party shall materially change any of the foregoing from those established by the Final Plans, subject to Section 2.l(A)(iii).

3.3 Building Improvement.

(A) The Parties hereby agree that all buildings may be located only within the Building Area designated on the Site Plan.

(B) In order to produce an architecturally compatible Shopping Center, Developer and Big Box agree to cooperate in developing architectural plans and specifications for materials and the exterior facades of the buildings for the Shopping Center and agree that the initial building construction and any additions, exterior remodeling or reconstruction of existing improvements thereafter shall be performed only in accordance with plans and specifications approved by Developer and Big Box. Notwithstanding anything contained herein to the contrary, subject to the approval of Chesterfield Township of the plans and specifications (including the exterior elevations), Developer and Big Box agree that said plans and specifications shall provide for the construction by Big Box upon its Tract of a building that is typical in size, configuration, design (including exterior elevations) and utility for its retail business operations in the State of _____[state]. Approval of Final Plans by Developer and Big Box shall not constitute assumption of responsibility or the accuracy, sufficiency, or propriety thereof, nor shall such approval constitute a representation or warranty that the Final Plans comply with applicable laws. No material deviation shall be made from the approved Final Plans. Approval of any additions, exterior remodeling or reconstruction shall be granted as same is either: (i) architecturally harmonious with the existing improvements; or (ii) in accordance with the prototypical plans of any national or regional retail operation in excess of twenty thousand (20,000) square feet of Floor Area.

(C) The Parties hereby specifically consent to the placement of buildings along their respective common boundary lines and each agrees to support any request by the other for a side-yard or setback variance if the same is required in order to accommodate such construction.

(D) The Parties acknowledge that Big Box intends to construct on its Tract a building which is generally classified under applicable building code regulation as an "unlimited area" building. (By way of explanation, but not limitation, such building classification is designated II-N or SN under the Uniform Building Code and 2c under the BOCA code.) So long as Big Box plans to construct a building of such classification, or so long as a Building of such classification exists on the Big Box Tract (including any restoration or reconstruction thereof), Developer agrees that any building to be placed or constructed on the Shopping Center that is located any closer than fifty (50') feet to the Building Area on the Big Box Tract shall be fully fire sprinklered with an approved sprinkler system for fire protection and shall be in compliance with the BOCA code for unlimited area. In order to confirm the existence of a fifty (50') foot yard or clear area around Building Area on the Big Box Tract, it may be necessary to place of record an instrument establishing the same. Each Party shall join in the execution of such instrument in a form satisfactory to such Parties. In addition to the requirements set forth above, no building located on the Shopping Center shall be placed or constructed in a manner which will itself preclude the construction of a building of such classification on the Big Box Tract and the Developer Tract.

(E) The second Party to construct a building along the common boundary line shall do so in a manner that does not result in damage to the improvements in place on the adjoining Tract, and further shall undertake and assume at its sole cost the obligation of completing and maintaining the nominal attachment (flashing and seal) of its building to that of the existing building on the other Tract, it being the intent of the Parties to establish and maintain the appearance of one continuous building complex. In performing such attachment, the wall of one building shall not receive support from

nor apply pressure to the wall of the other building.

(F) If a portion of any Building Area is at one point in time paved or landscaped and used as Common Area, such portion may be subsequently used as Building Area provided that all parking requirements and other provisions of this OEA for such Tract are also complied with. Likewise, if an area is at one point in time occupied by a building, such building may be subsequently razed, and until replaced, the area shall thereafter be paved or landscaped and maintained as though it were a part of the Common Area, but at the sole expense of the owner thereof.

(G) The following building height restrictions measured from the upper side of the finished floor slab on the applicable Tract shall be applicable to the Shopping Center:

Tract	Building Height Restriction
(i) Big Box Tract	30';
(ii) Developer Tract	30' except for any building occupied by a single tenant occupying at least 30,000 square feet of the Floor Area, in which case such building height will not exceed 36';
(iii) Outlots	24'

No mechanical equipment, penthouse or similar appurtenant structure located on the roof of a building shall extend upward above the top of the building more than thirty-six feet (36') as measured from the upper side of the finished floor slab. No building shall contain more than one (1) floor and a mezzanine level.

Notwithstanding anything to the contrary contained herein, Big Box and Occupants of the Developer Tract shall be permitted to install, operate, maintain, repair and replace a television, radio and cable antenna and/or receiver which shall be affixed to the rear exterior of the Big Box building or the building utilized by such Occupant respectively, and which shall be covered or screened by an attractive facade so that same will not be visible from any direction. In addition, all rooftop equipment shall be screened from view from all directions but not enclosed.

(H) The following restrictions shall apply to construction of buildings of less than fifty thousand (50,000) square feet in the Shopping Center: (i) all of the individual buildings located within the Shopping Center shall be constructed using materials approved by Developer and Big Box ("Approved Materials"), in a manner which provides for an integrated and consistent architectural appearance, including, without limitation, architectural detailing; (ii) all exterior materials and elevations shall be Approved Materials and be compatible with the other buildings located with the Shopping Center; and (iii) all elevations shall be subject to the prior written approval of Developer but approval will be granted if it is the prototype of a national or regional chain of over twenty thousand (20,000) square feet of Floor Area. In the event a disagreement between Developer and Big Box arises with respect to such materials or elevations, the Parties shall appoint a mutually satisfactory architect to arbitrate and resolve any such conflict. The decision of such arbitrator shall be final and binding upon the parties to such disagreement and a judgment on such decision may be entered in a court of competent jurisdiction.

ARTICLE IV MAINTENANCE AND REPAIR

4.1 Utilities.

(A) Each Party shall repair and maintain in first-class condition all utility facilities, lines, and systems located on its

Tract that serve only its Tract unless the same are dedicated to and accepted by a public or quasi-public utility or authority and failing to maintain and repair such facilities shall give the other Parties the right, after giving reasonable notice or in the case of an emergency without any notice, to make such repairs and charge the Party upon whose Tract the repairs are made.

(B) The grantee of a utility easement referred to in Section 2.2(A) shall maintain and repair at its cost any facilities installed pursuant to such grant which exclusively serve such grantee's Tract unless the same are granted or dedicated to and accepted by a utility or a governmental agency acceptable to the grantor which agrees to maintain and replace the same. Any maintenance and repair of non-dedicated utilities located on another Party's Tract shall be performed in a lien-free manner following two (2) weeks' notice to the grantor (except in an emergency the work may be immediately initiated, provided notice is given as soon as reasonably possible) and shall be done after normal business hours whenever possible and shall otherwise be performed in such a manner as to cause as little disturbance in the use of the grantor's Tract as is practicable under the circumstances. Any Party performing or causing to be performed maintenance or repair work agrees to promptly pay all costs and expenses associated therewith, to diligently complete such work as quickly as possible and to promptly clean the area and restore the affected portion of the Common Area to a condition equal to or better than the condition which existed prior to the commencement of such work.

(C) All utility lines which serve more than one Tract shall be maintained as part of Common Area, including, but not limited to, the private storm water trunk line servicing the Shopping Center.

4.2 Common Area.

(A) Developer and Big Box agree to individually maintain or cause to be maintained the portion of the Common Area on their respective Tracts in first-class condition at all times and in compliance with all applicable governmental laws, rules, regulations, orders, and ordinances and the provisions of this OEA.

(B) Until the Common Area on a Tract is initially improved, the Party owning the same shall plant such Tract with sufficient vegetation to reduce dust and thereafter keep it mowed and free of debris, and otherwise maintained so as to prevent erosion and present an attractive appearance.

(C) The minimum standard of maintenance for the improved Common Area shall be comparable to that followed in other first-class retail developments of comparable size in the metropolitan area where the Shopping Center is located and shall include, but not be limited to, the following:

(i) Maintain, repair and all drive and parking areas to keep the same in a smooth and evenly covered condition and periodically sweep, clean and restripe the same. Such activities shall, to the extent possible, be scheduled to occur prior to or after normal business hours of the Shopping Center.

(ii) Remove papers, debris, filth, refuse, ice and snow from the drive and parking areas and adequately drain the drive and parking area to the extent necessary to keep the same in a first-class, clean, and orderly condition.

(iii) Install and maintain appropriate directional signs and markers, and replace the same as necessary.

(iv) Illuminate the drive and parking areas, and maintain and replace lighting facilities, bulbs and ballasts.

(v) Maintain all landscaped areas, including the replacement of shrubs and other landscaping as necessary, and maintain any automatic sprinkler system serving the landscaped areas.

(vi) Clean, sweep, maintain, and repair all sidewalks.

(vii) Store all trash and garbage in adequate, screened containers and provide for regular collection of same.

(D) In the event any of the Common Area is damaged or destroyed by any cause other than normal wear and tear, whether insured or uninsured, during the term of this OEA, the Party upon whose Tract such Common Area is located shall with reasonable dispatch and subject to adjustment of any insurance claims, which claims the affected Party agrees to promptly file and diligently prosecute, repair or restore such Common Area at its sole cost and expense with all due diligence; provided, however, that no Party shall be required to expend more than _____ Dollars (\$_____) (which amount shall be increased on the fifth anniversary of this OEA and each five (5) year period thereafter by _____ Dollars (\$_____)) in excess of insurance proceeds which may be available for such repair or restoration. Notwithstanding the foregoing, in the event such damage or destruction of Common Area is caused in whole or in part by another Party or third Person, the Party obligated to make such repair or restoration reserves and retains the right to proceed against such other Party or third Person for indemnity, contribution or damages.

4.3 Building Improvements.

(A) After completion of construction, each Party covenants and agrees to maintain and keep the building improvements located on its Tract in first-class condition and state of repair, in compliance with all governmental laws, rules, regulations, orders, and ordinances excluding jurisdiction thereover, and in compliance with the provisions of this OEA and in compliance with all ordinances requiring certain sustainability standards to be met. Each Party further agrees to store all trash and garbage in adequate containers, to locate such containers so that they are not readily visible from the parking area, and to arrange for regular removal of such trash or garbage.

(B) In the event any of the building improvements are damaged by fire or other casualty (whether insured or not), the Party upon whose Tract such building improvements are located shall immediately remove the debris resulting from such event and provide a sightly barrier and within one hundred eighty (180) days after delivery of the notice provided for In the next sentence of this paragraph shall either: (i) commence to and diligently complete repair or restore the building improvements so damaged, such repair or restoration to be performed in accordance with all provisions of this OEA; (ii) commence to and diligently complete erection of other building improvements in such location, provided all provisions of this OEA are complied with; or (iii) demolish the damaged portion or all of such building improvements and have restored the area to an attractive condition in which event the area shall be Common Area until a replacement building is erected. Such Party shall have the option to choose which of the foregoing alternatives to perform, but such Party shall be obligated to perform one of such alternatives. Such party shall give notice to the other Party within ninety (90) days from the date of such casualty of which alternative it elects, provided, however, that due allowance for delivery of such notice shall be made for collection of insurance proceeds.

4.4 Additional Obligations. In addition to each party's obligation to maintain their respective Tracts, the owner of the Big Box Tract and any portion of the Developer Tract designated by Developer shall pay its pro rata share of all costs incurred by Developer in maintaining (i) any private off-site utilities servicing the Shopping Center Site and (ii) the Storm System servicing the Shopping Center Site (and such other parcels of land as Developer may elect) and storm lines servicing such Storm System. Each Party shall pay its proportionate share of such costs, and each Party's proportionate share of such costs shall be calculated by multiplying such costs by a fraction, the numerator of which is the square foot area of each Party's respective Site which has been improved with either Common Areas or Buildings or other structures, and the denominator of which is the sum of the square foot area of all parcels of land (except for the portions of the Developer Site containing retention or detention ponds) which have the right to use such Storm System and storm lines, to the extent that such parcels of land have been improved. For purposes of this Section 4.4, such maintenance costs shall include all of the actual costs of maintaining such improvements in the same manner as the Common Areas must be maintained pursuant to this Article IV, and shall also include (i) all costs of insuring same,

which insurance shall meet the requirements of Section 5.4 of this OEA; (ii) all costs of paying real estate taxes and assessments assessed against same; and (iii) an administrative charge in the amount of ten percent (10%) of all costs (except taxes and insurance) set forth in this Section 4.4.

ARTICLE V

OPERATION OF TOTAL SHOPPING CENTER

5.1 Uses.

(A) Except as specifically provided for herein, no part of the Shopping Center shall be used for other than retail sales or services, provided any retail services located on the Shopping Center shall be of the type defined below and shall in no event be located in more than fifteen percent (15%) of the total Floor Area on such Tract as the case may be. Retail services shall mean retail financial institutions, real estate and stock brokerage offices, travel agencies, post office, copy business and other uses providing services directly to the public for retail fees which are commonly found within first class retail shopping centers in the Detroit Metropolitan Area.

Notwithstanding the foregoing, no use or service shall be permitted in the Shopping Center which is inconsistent with the operation of a first-class retail shopping center. Without limiting the generality of the foregoing, the following uses or services shall not be consistent with the concept of a first-class retail shopping center:

- (i) Any use which emits a noxious odor, noise, or sound which can be heard or smelled outside of any building in the Shopping Center;
- (ii) Any operation used as a warehouse operation (other than in connection with on-premises retail sales and other than a warehouse club such as Sam's, Pace, etc.) and any assembling, manufacturing, distilling, refining, smelting, agricultural, or mining operation;
- (iii) Any "second hand" store or store selling surplus merchandise as a principal method of doing business, but this prohibition shall not exclude a store selling antiques or used books in a first class manner;
- (iv) Any mobile home park, trailer court, labor camp, junkyard, or stockyard (except that this provision shall not prohibit the temporary use of construction trailers during periods of construction, reconstruction, or maintenance);
- (v) Any dumping, disposing, incineration, or reduction of garbage (exclusive of garbage compactors located in the rear of any building);
- (vi) Any fire sale (other than merchandise actually damaged by fire on the premises), bankruptcy sale (unless pursuant to a court order) or auction house operation;
- (vii) Any central laundry, dry cleaning plant, or laundromat; provided, however, this prohibition shall not be applicable to on-site service oriented to pickup and delivery by the ultimate consumer, including nominal supporting facilities, as the same may be found in retail shopping districts in the Detroit Metropolitan Area;
- (viii) Any automobile, truck, trailer or R.V., sales, leasing, display or repair;
- (ix) Any bowling alley;

- (x) Any skating rink;
 - (xi) Any living quarters, sleeping apartments, lodging rooms;
 - (xii) Any veterinary hospital or animal raising facilities;
 - (xiii) Any mortuary;
 - (xiv) Any establishment selling, leasing or exhibiting pornographic materials or selling or exhibiting obscene performances;
 - (xv) Any bar, tavern, restaurant or other establishment whose reasonably projected annual gross revenues from the sale of alcoholic beverages for on-premises consumption exceeds fifty percent (50%) of gross revenues arising out of such business;
 - (xvi) Any flea market, amusement arcade, pool or billiard hall, car wash, or dance hall;
 - (xvii) Any health club or health spa except one located in the rear of the Shopping Center, with an entrance facing East or South and with a parking ratio of ten (10) cars for each one thousand (1,000) square feet of Floor Area in the health club or health spa;
 - (xviii) Any live performance or movie theater; or
 - (xix) Any training or educational facility, including but not limited to: beauty schools, barber colleges, reading rooms, places of instruction or other operations catering primarily to students or trainees rather than to customers; provided, however, this prohibition shall not be applicable to on-site employee training by an occupant incidental to the conduct of its business at the Shopping Center.
- (B) The following use and occupancy restrictions shall be applicable to the Shopping Center: No restaurant shall be located thereon within one hundred fifty (150') feet of the building on the Big Box Tract, nor may any restaurant occupy more than ten percent (10%) of the Floor Area on any Tract (except on Outlot).
- (C) The name "Big Box" shall not be used to identify the Shopping Center or any business or trade conducted on the Shopping Center.
- (D) No merchandise, equipment or services shall be displayed, offered for sale or lease, or stored within the Common Area; provided, however, that the foregoing prohibition shall not be applicable to (i) the storage of shopping carts on the Big Box Tract and/or the Developer Tract; and (ii) temporary Shopping Center promotions, except that no promotional activities will be allowed without the prior written approval of the Parties, and such approval may be withheld in their sole and absolute discretion except sales and promotional events may be allowed on an intermittent basis in areas shown on the Site Plan.
- (E) No Permittee shall be charged for the right to enter or use the Common Area.
- (F) Each Party shall use its best efforts to cause the employees of the Occupants of its Tract to park their vehicles only on such Tract.

5.2 Lighting.

(A) After completion of the Common Area lighting system on its Tract, each Party hereby covenants and agrees to keep its Tract fully illuminated each day from dusk to at least thirty (30) minutes after the last business operation on its Tract has closed, and further agrees to keep any exterior building security lights on from dusk until dawn.

(B) It is recognized that business establishments within the Shopping Center may be open for business at different hours, and that the owner or principal Occupant of one Tract upon which a business establishment is open later may wish to have the Common Area lights on another Tract continue to burn beyond the required period. Accordingly, the owner or principal Occupant of such Tract ("Requesting Owner") shall have the right at any time to require the owner or principal Occupant of any other Tract ("Requested Owner") to keep its Common Area lights on for additional hours at night as stipulated by the Requesting Owner; provided that the Requesting Owner notifies the Requested Owner of such request not less than fifteen (15) days in advance. The Requesting Owner shall state the period during which it wishes the lights to be kept on to a later hour and shall pay to the Requested Owner a prepayment deposit as follows:

1. If the period is less than thirty (30) days, then the deposit shall be one hundred ten percent (110%) of the reasonable cost (as estimated by the Requested Owner) of electrical power for such later hours to be incurred by the Requested Owner.
2. If the period is greater than or equal to thirty (30) days, then the deposit shall be one hundred ten percent (110%) of the reasonable cost (as estimated by the Requested Owner), of electrical power during the first thirty (30) days of the period for such later hours to be incurred by the Requested Owner. If the period is greater than thirty (30) days, then the Requesting Owner shall renew such prepayment deposit at the end of each thirty (30) day period.

The Requesting Owner agrees to pay one hundred ten percent (110%) of the cost to the Requested Owner of electrical power to provide such extra-hours illumination. If the Requested Owner is of the opinion that the deposits made by the Requesting Owner do not cover one hundred ten percent (110%) of such costs, the Parties shall attempt to agree to the cost of such electrical power and if they cannot do so, then the amount the Requesting Owner is obligated to pay shall be determined from the power costs as estimated by the electrical utility company furnishing such power, or if the utility fails to do so, by a reputable engineer. Upon the failure of a Requesting Owner to pay the aforesaid amount or renew a deposit as required hereby, the Requested Owner shall have the right to discontinue such additional lighting and to exercise other remedies herein provided. Any such request for additional lighting may be withdrawn or terminated at any time by written notice from the Requesting Owner; and a new request or requests for changed hours may be made from time to time. If more than one Party elects to remain open and request additional lighting, such Parties shall share the cost of such additional lighting on a basis agreed to by such Parties.

(C) As an alternative to the process of lighting another Party's Tract as set forth in (B) above, a Party ("Constructing Party") may install, with the consent of the other Party ("Consenting Party"), a secondary wiring system, from the Constructing Party's Tract to the light standards on the Consenting Party's Tract, which would permit a portion or all of the lighting on the Consenting Party's Tract to be operated contemporaneously with the lighting on the Constructing Party's Tract. All costs and expenses associated with the installation, maintenance, replacement, and operation of such secondary wiring, including the cost of energy to light any portion of the Consenting Party's Tract, shall be assumed and promptly paid by the Constructing Party. The Constructing Party shall submit to the Consenting Party appropriate plans and specifications for the installation of such secondary wiring systems. The Consenting Party shall have thirty (30) days to approve or disapprove of such submission, such approval not to be unreasonably withheld or delayed. If the Consenting Party does not disapprove of the submission within the thirty (30) day period, approval shall be deemed given. If disapproval is given, the Constructing Party shall revise the submission to accommodate the reasonable objections of the Consenting Party and then may resubmit such plans and specifications to the Consenting Party for its approval.

5.3 Signs.

No exterior identification signs shall be allowed within the Shopping Center except as set forth hereinafter.

(A) No freestanding sign shall be permitted within the Shopping Center unless constructed in areas designated on the Site Plan.

Notwithstanding anything above to the contrary, each Party shall be permitted to place within the Common Area located on its Tract directional signs or informational signs such as "Handicapped Parking", the temporary display of leasing information and the temporary erection of one sign identifying each contractor working on a construction job.

(B) Any Occupant occupying less than twenty thousand (20,000) square feet of Floor Area may not have more than one (1) identification sign placed on the exterior of the building it occupies; provided, however, that if any such Occupant is located at the corner of a building, then such Occupant may have an identification sign on each side of such corner. Any Occupant occupying at least twenty thousand (20,000) square feet of Floor Area and any Occupant of any Outlot shown on the Site Plan may have more than one identification sign placed on the exterior of the building it occupies.

No exterior identification sign attached to a building shall be of the type set forth below:

- (i) placed on canopy roofs extending above the building roof, placed on penthouse walls, or placed so as to project above the parapet, canopy, or top of the wall upon which it is mounted;
- (ii) placed at any angle to the building; provided, however, the foregoing shall not apply to any sign located under a sidewalk canopy if such sign is at least eight (8) feet above the sidewalk; or
- (iii) painted on the surface of any building;

provided, however, this paragraph shall not prohibit the placing of exterior identification sign on the face of an architectural facade constructed at an angle to the front of any building and extending above the normal roof line of a building, such architectural facade being commonly known as a "Sign Tower." No exterior sign shall identify leased departments, concessionaires, products or services. Exterior signs attached to a building shall not be of the "box" or "canned type."

(C) Neither exterior identification signs attached to buildings nor freestanding signs shall be of the type set forth below:

- (i) signs using exposed neon tubes, flashing, moving or audible signs;
- (ii) signs employing exposed raceways, exposed ballast boxes, or exposed transformers;
- (iii) paper or cardboard signs other than professionally prepared interior window signs advertising special sales within the premises, temporary signs (exclusive of contractor signs), stickers or decals; provided, however, the foregoing shall not prohibit the placement at the entrance of each Occupant's space a small sticker or decal, indicating hours of business, emergency, telephone numbers, and other similar information.

All exterior signs not in compliance with the provisions of Exhibit Y shall be subject to the approval of Big Box and Developer except standard signs of national or regional retail tenants or occupants. Nevertheless, all signs shall comply with the provisions of Section 5.3(C)(i), (ii) and (iii). The foregoing sentence shall not apply to the Big Box Tract or any Occupant of the Shopping Center occupying at least twenty thousand (20,000) square feet of Floor Area and their successors and assigns. All exterior signs shall be subject to the approval of Chesterfield Township.

(D) Prior to the date Big Box opens the store to the public, Developer shall, subject to applicable governmental laws, statutes, and ordinances, at its sole cost and expense, install two (2) Shopping Center pylon signs at the locations shown therefor on Exhibit X. Such signs shall be designed to permit the installation of other identification on same and Big Box shall have the right to install or have install its identification sign on such pylon. The pylon signs shall be constructed in accordance with the design set forth on Exhibit C attached hereto and made a part hereof. In the event Big Box shall elect to install or have installed its identification sign on the pylon, Big Box shall reimburse Developer for a portion of the cost of maintaining, repairing, insuring and replacing such pylons; Big Box's portion of said costs shall be equal to the cost of said insurance, maintenance, repairs and replacement multiplied by a fraction, the numerator of which shall be the square footage of Big Box's signs upon such pylon, and the denominator of which shall be the total square footage of all identification signs installed on such pylon, including the Shopping Center identification sign, if one is installed. The pylon sign shall have three (3) panels below the Big Box sign.

5.4 Insurance.

(A) Each Party shall, with respect to the Common Area on its Tract, maintain or cause to be maintained in full force and effect Comprehensive General Liability Insurance, including Personal Injury Liability Insurance and Contractual Liability Insurance with a financially responsible insurance company or companies licensed in _____ [state], with a minimum Best's rating of AX; such insurance to provide for a limit of not less than _____ Dollars (\$____) per occurrence with a _____ Dollar (\$____) annual aggregate. Additionally, such insurance shall include the following minimum requirements:

- (i) shall provide coverage on an occurrence basis;
- (ii) shall provide that the policy may not be cancel led or materially reduced in amount or coverage without at least 30 days prior written notice by the insurer to the other Parties;
- (iii) shall include the other Parties as additional insured;
- (iv) shall provide for severability of interests; and
- (v) shall provide that an act or omission of one of the insureds or additional insureds which would void or otherwise reduce coverage, shall not reduce or void the coverage as to the other additional insureds or the insured, respectively.

Such insurance shall specifically extend to the contractual obligation of the insured Party arising out of the indemnification obligations set forth in this OEA. Each Party ("Indemnitor") shall indemnify, defend and hold harmless each other Party ("Indemnitor") from and against all claims, costs, expenses and liability (including reasonable attorney's fees and cost of suit incurred in connection with all claims) including any action or proceedings brought thereon, arising from or as a result of the injury to or death of any person, or damage to the property of any person or entity which shall occur on the Tract owned by each Indemnitor, except for claims caused by the negligence or willful act or omission of such Indemnatee, its licensees, concessionaires, agents, servants, or employees, or the agents, servants, or employees of any licensee or concessionaire thereof. The Parties shall review the minimum limits set forth above every five (5) years and further agree to adjust such limits if circumstances warrant.

(B) Effective upon the commencement of construction of improvements, the constructing Party, and after the completion of construction of improvements the owner of each Tract, will carry or cause to be carried fire insurance with an extended coverage endorsement with a financially responsible insurance company or companies licensed in _____ [state], with a minimum Best's rating of AX, in an amount at least equal to the replacement cost (exclusive of the cost of excavation, pavement, foundations, and footings) of the buildings and improvements on such Tract, such coverage extending at least to the following perils: loss or damage by fire, windstorm, cyclone, tornado,

hail, explosion, riot, riot attending a strike, civil commotion, malicious mischief, vandalism, aircraft, vehicle, smoke damage, and sprinkler leakage.

Each Party (the "Releasing Party") hereby releases and waives for itself and on behalf of its insurer, each other Party (the "Released Party") from any liability for any loss or damage to all property of such Releasing Party located upon any portion of the Shopping Center, which loss or damage is of the type generally covered by fire insurance with an extended coverage endorsement, irrespective either of any negligence on the part of the Released Party which may have contributed to or caused such loss, or of the amount of such insurance required or actually carried. Each Party agrees to use its best efforts to obtain, if needed, appropriate endorsements to its policies of insurance with respect to the foregoing release; provided, however, that failure to obtain such endorsements shall not affect the release hereinabove given.

Each Party ("Indemnitor") covenants and agrees to indemnify, defend and hold harmless each other Party ("Indemnitee") from and against all claims asserted by or through any Permittees of the Indemnitor's Tract for any loss or damage to the property of such Permittee located upon the respective Indemnitor's Tract, which loss or damage is of the type generally covered by fire insurance with an extended coverage endorsement irrespective of any negligence on the part of the Indemnitee which may have contributed to or caused such loss.

(C) Prior to commencing any construction activities within the Shopping Center, each Party shall obtain or require its contractor to obtain and thereafter maintain so long as such construction activity is occurring, at least the minimum insurance coverages set forth below:

(i) Workers' Compensation - statutory limits

(ii) Employers Liability - _____ Dollars (\$____)

(iii) Comprehensive General and Comprehensive Auto Liability as follows:

(a) Bodily Injury - _____ Dollars (\$____) per occurrence;

(b) Property Damage - _____ Dollars (\$____) per occurrence;

(c) Independent Contractors Liability or Owner's Protective Liability; same coverage as set forth in (a) and (b) above;

(d) Products/Completed Operations Coverage which shall be kept in effect for two (2) years after completion of work;

(e) "XCU" Hazard Endorsement, if applicable;

(f) "Broad Form" Property Damage Endorsement;

(g) "Personal Injury" Endorsements;

(h) "Blanket Contractual Liability" Endorsement.

If the construction activity involves the use of another Party's Tract, then the owner of such Tract shall be named as an additional insured and such insurance shall provide that the same shall not be canceled without at least thirty (30) days prior written notice to the named insureds. If such insurance is canceled or expires then the constructing Party shall immediately stop all work on or use of the other Party's Tract until either the required insurance is reinstated or

replacement insurance obtained.

(D) Each Party with respect to the portions of its Tract not part of the Common Area shall maintain or cause to be maintained in full force and effect Comprehensive General Liability Insurance, including Personal Injury Liability Insurance and Contractual Liability Insurance with a financially responsible insurance company or companies licensed in _____[state], with a minimum Best's rating of AX such insurance to provide for a limit of not less than _____ Dollars (\$____) for bodily injury or death to any one person, for a limit of not less than _____ Dollars (\$____) for bodily injury or death to any number of persons arising out of any one occurrence, and for a limit of not less than _____ Dollars (\$____) for any property damage. Additionally, such insurance shall include the following minimum requirements:

- (i) shall provide coverage on an occurrence basis;
- (ii) shall provide that the policy may not be cancelled or materially reduced in amount or coverage without at least 30 days' prior written notice by the insurer to each other Party;
- (iii) shall include each other Party as additional insured;
- (iv) shall provide for severability of interests; and shall provide that an act or omission of one of the insureds or additional insureds which would void or otherwise reduce coverage, shall not reduce or void the coverage as to the other additional insureds or the insured, respectively.

Such insurance shall specifically extend to the contractual obligation of the insured Party arising out of the Indemnification obligations set forth in the next sentence. Each Party ("Indemnitor") covenants and agrees to indemnify, defend and hold harmless each other Party ("Indemnitee") from and against all claims, costs, expenses and liability (including reasonable attorney's fees and cost of suit incurred in connection with all claims) including any action or proceedings brought thereon, arising from or as a result of the injury to or death of any person, or damage to the property of any person or entity which shall occur on the Tract owned by each Indemnitor, except for claims caused by the negligence or willful act or omission of such Indemnitee, its licensees, concessionaires, agents, servants, or employees, or the agents, servants, or employees of any licensee or concessionaire thereof. The Parties agree to review the minimum limits set forth above every five (5) years and further agree to adjust such limits if circumstances warrant.

(E) The insurance described above may be carried under: (i) an individual policy covering this location; (ii) a blanket policy or policies which includes other liabilities, properties and locations of such Party; (iii) a plan of self-insurance, provided that the Party so self-insuring, or its guarantor, a Party's assignee if such Party shall guarantee said assignee's insurance obligations, has and maintains 50,000,000 or more of net current assets as evidenced by a certificate of such Party's or guarantor's chief financial officer; or (iv) a combination of any of the foregoing insurance programs. To the extent any deductible is permitted or allowed as a part of any insurance policy carried by a Party in compliance with Section 5.4, such Party shall be deemed to be covering the amount thereof under an informal plan of self-insurance; provided, however, that in no event shall any deductible exceed _____ Dollars (\$____) unless such Party qualifies for self-insurance pursuant to (iii) above. Each Party agrees to furnish to any Party requesting the same, a certificate(s) of insurance evidencing that the insurance required to be carried by such requested Party is in full force and effect and any Party electing to self insure shall so advise the other Parties in writing.

5.5 Taxes and Assessments. Each Party shall pay, or cause to be paid prior to delinquency, all taxes and assessments with respect to its Tract, including, without limitation, the buildings and improvements located thereon and any personal property owned or leased by such Party in the Shopping Center, provided that if the taxes or assessments or any part thereof may be paid in installments, the Party may pay each such installment as and when the same becomes due and payable. Nothing contained in this subsection shall prevent any Party from contesting at its own cost and expense any such taxes and assessments with respect to its Tract in any manner such Party elects, so long such contest is maintained

with reasonable diligence and in good faith. At the time as such contest is concluded (allowing for appeal to the highest appellate court), the contesting Party shall promptly pay all such taxes and assessments determined to be owing, together with all interest, penalties and costs thereon. The easements granted in this OEA shall survive the imposition of any tax lien on the individual Tracts and the Shopping Center. In order to accomplish the foregoing, from time to time, but not more than twice in any calendar year, any Party ("Requesting Party") may request in writing that another Party ("Taxpayer") furnish written evidence that all real property taxes and installments of assessments and special assessments upon the Taxpayer's Tract then due have been paid in full. Upon such request, the Taxpayer shall furnish such evidence to the Requesting Party.

If a Party ("Defaulting Party") shall fail to pay any real property taxes or installments of assessments or special assessments ("Taxes") on its Tract before any penalties and statutory interest accrue, another Party ("Non-Defaulting Party") may pay the Taxes, penalties and statutory interest if such amounts are not paid by the Defaulting Party within thirty (30) days after written notice from the Non-Defaulting Party to the Defaulting Party demanding the payment of such amounts. In such event, the Defaulting Party shall reimburse the Non-Defaulting Party upon demand for all Taxes, penalties, and statutory interest paid by the Non-Defaulting Party for the property in the Shopping Center owned by the Defaulting Party, plus interest at the Default Rate (as defined in Section 6.2, below). Upon payment of the Taxes by the Non-Defaulting Party, such Party shall have a lien on the Defaulting Party's Tract which shall be subject only to any then existing mortgage, if any, until such time as the Defaulting Party pays in full to the Non-Defaulting Party the amounts provided for above.

5.6 Liens. In the event any mechanic's lien is filed against the Tract of one Party as a result of services performed or materials furnished for the use of another Party, the Party permitting or causing such lien to be so filed agrees to cause such lien to be discharged prior to entry of final judgment (after all appeals) for the foreclosure of such lien and further agrees to indemnify, defend, and hold harmless the other Party and its Tract against liability, loss, damage, costs or expenses (including reasonable attorneys' fees and cost of suit) on account of such claim of lien. Upon request of the Party whose Tract is subject to such lien, the Party permitting or causing such lien to be filed agrees to promptly cause such lien to be released and discharged of record, either by paying the indebtedness which gave rise to such lien or by posting bond or other

security as shall be required by law to obtain such release and discharge. Nothing herein shall prevent a Party permitting or causing such lien from contesting the validity thereof in any manner such Party chooses so long as such contest is pursued with reasonable diligence. In the event such contest is determined adversely (allowing for appeal to the highest appellate court), such Party shall promptly pay in full the required amount, together with any interest, penalties, costs, or other charges necessary to release such lien.

ARTICLE VI MISCELLANEOUS

6.1 Default.

(A) If any Party fails to comply with any provision herein ("Defaulting Party"), then each other Party ("Non-defaulting Party") may, upon forty-five (45) days' prior written notice to the Defaulting Party (with a copy to such Party's mortgagee if the provisions of Section 6.4 hereof have been met), proceed to cure the default (and shall have a license to do so) by the payment of money or performance of some other action for the account of the Defaulting Party. The foregoing right to cure shall not be exercised if within the forty-five (45) day notice period: (i) the Defaulting Party or its mortgagee cures the default; or (ii) if the default is curable, but cannot reasonably be cured within that time period, the Defaulting Party or its mortgagee begins to cure such default within such time period and diligently pursues such action to completion. The forty--five (45) day notice period shall not be required if, using reasonable judgment, a Non--defaulting Party deems that an emergency exists which requires immediate attention. In the event of such an

emergency, the Non-defaulting Party shall give whatever notice to the Defaulting Party as is, reasonable under the circumstances.

(B) Within ten (10) days of written demand (including providing copies of invoices reflecting costs) the Defaulting Party shall reimburse the Non-defaulting Party for any sum reasonably expended by the Non-defaulting Party due to cure the default, together with interest thereon at the Default Rate.

(C) In the event any Party shall institute any action or proceeding against the other Party relating to the provisions of this OEA, or any default hereunder, or to collect any amounts owing hereunder, or if an arbitration proceeding is commenced by agreement of the Parties to any dispute, the unsuccessful litigant in such action or proceeding shall reimburse the successful litigant therein for costs and expenses incurred by the successful litigant in connection with such action or proceeding and any appeals therefrom, including attorneys' fees and court costs.

(D) All remedies are cumulative and shall be deemed additional to any and all other remedies to which any Party may be entitled in law or in equity. Each Party shall also have the right to restrain, by injunction, any violation or threatened violation by the other Party of any of the terms, covenants, or conditions of this OEA, or to obtain a decree to compel performance of any such terms, covenants, or conditions, it being agreed that the remedy at law for a breach of any such term, covenant, or condition (except those, if any, requiring the payment of a liquidated sum) is not adequate.

6.2 Interest. Wherever and as often as one Party shall not have paid any sum payable hereunder to the other Party within five (5) days after the due date, such delinquent Party shall pay interest on such amount from the due date to and including the date such payment is received by the Party entitled thereto, at the lesser of (the "Default Rate"):

(A) The highest rate permitted by law to be paid on such type of obligation by the Party obligated to make such payment or the Party to whom such payment is due; or

(B) Three (3%) percent per annum in excess of the prime rate from time to time publicly announced by _____ [name of bank] Bank, or its successor.

6.3 Estoppel Certificate. Each Party agrees that upon written request (which shall not be more frequent than three (3) times during any calendar year) from time to time of another Party, it will issue at no charge to a prospective mortgagee of such other Party or to a prospective successor Party to such other Party, an estoppel certificate stating:

(A) whether the Party to whom the request has been directed knows of any default by any Party under this OEA, and if there are known defaults, specifying the nature thereof;

(B) whether this OEA has been assigned, modified or amended in any way by such Party (and if it has, then stating the nature thereof);

(C) that to the best of the requested Party's knowledge this OEA as of that date is in full force and effect; and

(D) that to the best of the requested Party's knowledge there are/are not any sums owed by any Party.

Such statement shall act as a waiver of any claim by the Party furnishing it to the extent such claim is based upon facts contrary to those asserted in the statement and to the extent the claim is asserted against a bona fide encumbrances or purchaser for value without knowledge of facts to the contrary of those contained in the statement, and who has acted in reasonable reliance upon the statement; however, such statement shall in no event subject the Party furnishing it to any liability whatsoever, notwithstanding the negligent or otherwise inadvertent failure of such Party to disclose correct and/or relevant information.

6.4 Notices.

All notices, demands, statements, and requests ("Notice") required or permitted to be given under this OEA must be in writing and shall be deemed to have been properly given or served as of the date the same is deposited in the United States mail, prepaid, by registered or certified mail, return receipt requested or delivered to a private express package courier prepaid. The address of the signatories to this OEA is set forth below. In the event a Party shall encumber its Tract by a first mortgage and Notice of such fact has been given to the Party issuing such Notice, then a copy of any Notice directed to such mortgaging Party shall also be sent to its first mortgagee.

Big Box:

To Seller:

With a copy to:

Any Party shall have the right from time to time and at any time, upon at least ten (10) days' prior written Notice thereof in accordance with the provisions hereof, to change its respective address and to specify any other address within the United States of America; provided, however, notwithstanding anything herein contained to the contrary, in order for the Notice of address change to be effective it must actually be received; and further provided such address may not be a post office box.

The refusal of a Party to accept certified or registered mail or of a private courier package delivery service shall be deemed delivery on the date of such refusal.

Upon receipt of a written Notice complying with the provisions of this Section 6.4 from a mortgagee having an interest in one of the Tracts within the Shopping Center, the Parties agree that from and after such date a copy of any Notice given will be sent to such mortgagee. Such Notice from a mortgagee must clearly state the Tract in which such mortgagee has an interest.

6.5 Approval Rights. Unless otherwise herein provided, whenever approval is required, such approval shall not be unreasonably withheld or delayed. Unless provision is made for a specific time period, approval shall be given or withheld within fifteen (15) business days of the receipt of the request for approval. The request for approval shall be delivered in accordance with the provisions of Section 6.4 hereof and shall clearly reference that approval deemed given if disapproval is not noted within fifteen (15) business days as provided in the preceding sentence. If a disapproval is not given within the required time period, the requested Party shall be conclusively deemed to have given its approval. If a Party shall disapprove, the reasons therefor shall be stated. Except with respect to an approval given by lapse of time, all approvals and disapprovals shall be in writing. The "right to approve" herein reserved by the Parties, respectively, shall be assignable by each, but only to a successor that owns a majority in area of the original Tract owned by the transferring party. Any entity who owns less than such majority agrees to be bound by the decision of such majority owner. Each successor assignee may also assign such "right to approve" on the same condition. If the holder of the "right to approve" transfers its entire ownership interest prior to assigning such "right to approve," then the transferee Party shall immediately become vested with such "right to approve."

6.6 Condemnation. In the event of a condemnation or a sale in lieu thereof concerning a portion or all of the Shopping Center, the award or purchase price paid for such taking shall be paid to the Party owning such Tract or portion thereof

so taken; it being the intent of the other Parties who might have an easement or other property interest or right under this OEA in the Tract so taken, to release and/or waive such property interest or right with respect to such award or purchase price; provided, however, such other Party shall have the right to seek an award or compensation for the loss of its easement right or property interest to the extent such award or compensation paid or allocated for such loss does not reduce or diminish the amount paid to the Party owning such Tract. Notwithstanding the above, this Section 6.6 is not intended to alter any other agreement which may exist between the owner of the Tract so taken and any person having an interest in said Tract pursuant to other contractual relationships.

In the event of a condemnation or a sale in lieu thereof which in either event reduces the parking ratio on any Tract or on the Shopping Center as a whole below a ratio of four and one-half (4.5) cars per one thousand (1,000) square feet of Floor Area on any Tract or on the Shopping Center as a whole, the Parties agree to meet and discuss substitute and/or alternative methods of creating additional parking spaces and the division of cost of providing such spaces. If for any reason the Parties cannot reach a mutually acceptable agreement within ninety (90) calendar days of the date of the taking, thereafter any Party may as to itself terminate this OEA by giving the other Parties written notice, and effective as of the date of such notice the Party giving such notice shall be released from any liability under this OEA after such date and this OEA shall be terminated as to such Party's Tract but for those easements designated in Article II to continue after termination or expiration of this OEA.

6.7 Binding Effect. The terms of this OEA shall constitute covenants running with the land within the Shopping Center and shall be binding upon any person or entity acquiring an interest in the Shopping Center or any part thereof. The terms of the OEA shall inure solely to the benefit and shall be binding upon the signatories hereto and their successors and assigns who become Parties hereunder in accordance with the terms of the OEA. This OEA is not intended to supersede, modify, amend, or otherwise change the provisions of any prior instrument affecting the land burdened hereby.

6.8 Singular and Plural. Whenever required by the context of this OEA, the singular shall include the plural, and vice versa, and the masculine shall include the feminine and neuter genders, and vice versa.

6.9 Counterparts and Signature Pages. This OEA may be executed in several counterparts, each of which shall be deemed an original. The signatures to this OEA may be executed and notarized on separate pages, and when attached to this OEA shall constitute one complete document.

6.10 Negation of Partnership. None of the terms or provisions of this OEA shall be deemed to create a partnership between or among the Parties in their respective businesses or otherwise, nor shall it cause them to be considered joint venturers or members of any joint enterprise. Each Party shall be considered a separate owner, and no Party shall have the right to act as an agent for another Party, unless expressly authorized to do so herein or by separate written instrument signed by the Party to be charged.

6.11 Not a Public Dedication. Nothing herein contained shall be deemed to be a gift or dedication of any portion of the Shopping Center or of any Tract or portion thereof to the general public, or for any public use or purpose whatsoever. Except as herein specifically provided, no right, privileges or immunities of any Party hereto shall inure to the benefit of any third-party Person, nor shall any third-party Person be deemed to be a beneficiary of any of the provisions contained herein.

6.12 Excusable Delays. Whenever performance is required of any Party hereunder, that Party shall use all due diligence to perform and take all necessary measures in good faith to perform; provided, however, that if completion of performance shall be delayed at any time by reason of Acts of God, war, civil commotion, riots, strikes, picketing, or other labor disputes, unavailability of labor or materials, damage to work in progress by reason of fire or other casualty or any cause beyond the reasonable control of a Party (excluding however the inability to secure financing or a temporary shortage of cash), then the time for performance as herein specified shall be appropriately extended by the

amount of the delay actually so caused. The provisions of this Section shall not operate to excuse any Party from the prompt payment of any movies required by this OEA.

6.13 Severability. Invalidation of any of the provisions contained in this OEA, or of the application thereof to any Person by judgment or court order shall in no way affect any of the other provisions hereof or the application thereof to any other Person and the same shall remain in full force and effect.

6.14 Amendments. This OEA may be amended by, and only by, a written agreement signed by all of the then current Parties and shall be effective only when recorded in the county and state where the Shopping Center is located. No consent to the amendment of this OEA shall ever be required of any Occupant or Person other than the Parties, nor shall any Occupant or Person other than the Parties have any right to enforce any of the provisions hereof.

6.15 Captions and Capitalized Terms. The captions preceding the text of each article and section are included only for convenience of reference. Captions shall be disregarded in the construction and interpretation of the OEA. Capitalized terms are also selected only for convenience of reference and do not necessarily have any connection to the meaning that might otherwise be attached to such term in a context outside of this OEA.

6.16 Minimization of Damages. In all situations arising out of this OEA, all Parties shall attempt to avoid and minimize the damages resulting from the conduct of any other Party. Each Party hereto shall take all reasonable measures to effectuate the provisions of this OEA.

6.17 OEA Shall Continue Notwithstanding Breach. It is expressly agreed that no breach of this OEA shall: (1) entitle any Party to cancel, rescind or, otherwise terminate this OEA; or (ii) defeat or render invalid the lien of any mortgage made in good faith and for value as to any part of the Shopping Center. However, such limitation shall not affect in any manner any other rights or remedies which a Party may have hereunder by reason of any such breach.

6.18 Time. Time is of the essence of this OEA.

6.19 Non Waiver. The failure of any Party to insist upon strict performance of any of the terms, covenants or conditions hereof shall not be deemed a waiver of any rights or remedies which that Party may have hereunder or at law or equity and shall not be deemed a waiver of any subsequent breach or default in any of such terms, covenants or conditions.

6.20 Perpetual Easement. Those easements designated as being perpetual or as continuing beyond the term of this OEA shall continue indefinitely but can be extinguished only by: (1) a written termination agreement signed by all the Parties; or (2) a written affidavit by a Party hereto filed among the land records of Macomb County stating that: (i) such Party is an owner of a Tract within the Shopping Center; (ii) such Party has given written notice to the owner of each other Tract that it desires to terminate the easement in question and that such termination shall be effective automatically unless such Party receives written objection of such termination within sixty (60) days; (iii) such Party has not received any notice of objection to such termination from any other Party within sixty (60) days following delivery of such notice; and (iv) that such easement has not been used for two (2) years. Upon filing of such affidavit, the easement in question shall be deemed terminated.

6.21 Name of Shopping Center. The name of the Shopping Center shall be _____[*name of shopping center*]. If any advertising shall make reference to the Shopping Center, such advertising shall use only the name of the Shopping Center for identification purposes, and shall not use the name of Big Box.

6.22 Mortgages on Shopping Center. Any mortgage or similar instrument securing financing upon any Tract, or portion thereof, shall be subject to and subordinate to the terms and conditions of this OEA.

6.23 Transferees. Within fourteen (14) days after a Party shall convey to a third party ("Transferee") any of the property

subject to this OEA, the Transferee shall furnish to any tenant of the Developer Tract identified by Developer ("Beneficiary") an agreement providing that:

- (i) the OEA is in full force and effect at such time and the property acquired by the Transferee is subject to this OEA; and
- (ii) Transferee will recognize Beneficiary's rights of ingress, egress and parking over and across the Common Area notwithstanding any early termination of this OEA, but not after the expiration of the term hereof.

6.24 Exculpation. If Developer or Big Box shall fail to perform any covenant, term or condition of this Agreement upon Developer's or Big Box's part to be performed, and if as a consequence of such default any other party hereto shall recover a money judgment against Developer or any partner thereof or Big Box or any officer or shareholder thereof, such judgment shall be satisfied only out of the proceeds of sale received upon execution of such judgment and levy thereon against the right, title and interest of Developer or any partner thereof in the Developer Site, or of Big Box or any shareholder thereof in the Big Box Site, or of Developer's or Big Box's, as the case may be, interest in the rents, income or insurance proceeds derived therefrom from and after the date of such judgment, and Developer and its partners or Big Box and its officers, directors, and shareholders shall not be liable for any deficiency.

ARTICLE VII

TERM

7.1 Term of this OEA. This OEA shall be effective as of the date first above written and shall continue in full force and effect until 11:59 p.m. on February 1, 2076; provided, however, that the easements referred to in Article II hereof which are specified as being "perpetual" or as "continuing beyond the term of this OEA" shall continue in force and effect as provided therein. Upon termination of this OEA, all rights and privileges derived from and all duties and obligations created and imposed by the provisions of the OEA, except as relates to the easements mentioned above, shall terminate and have no further force or effect; provided, however, that the termination of this OEA shall not limit or affect any remedy at law or in equity that a Party may have against any other Party with respect to any liability or obligation arising or to be performed under this OEA prior to the date of such termination.

The Parties have caused this OEA to be executed effective as of the day and year first above written, which execution may appear on separate pages.

Part IV. FORMS

D. COMMERCIAL DEVELOPMENT Shopping Centers, Industrial Buildings and Office Buildings

26-22 Current Legal Forms for Real Estate FORM 22.67

FORM 22.67 Shopping center with enclosed mall--reciprocal easement grant--multiple owners

COMMENT

Historically, the shopping center was developed or owned by a single entity. In recent years, shopping centers have become increasingly more expensive to launch in terms of both land and construction costs. One answer is for the ownership interests at the site of the shopping center to pool their resources in order to carry the plan for the shopping center to completion.

In order to integrate the variously owned properties into a coordinated shopping center, an agreement among the property owners is required. In such an agreement, the covenant will typically run with all parts of the land affected until such time as the then current owners agree otherwise or until the agreement terminates by its own provisions. It is not enough to cover just the problem of reciprocal easements in parking areas, although this is a very important concern. There are other considerations to be covered such as uniform design standards and supervision, management of the common areas, restrictions on or exclusives for certain types of businesses, especially where key tenants are involved as owners, and required membership in a merchants' association.

The following form illustrates a multiple owner's agreement directed to a situation in which a developer and the shopping center's key tenants join in the construction of the shopping center, each on its own parcel of land.

FORM

AGREEMENT made this _____[day] day of _____[month],
_____[year], by and among Arthur Rubinstein, Inc., a California corporation (the "Developing

Party"), Universal Variety Stores, Inc., an Idaho corporation, Great Value Food Corporation, an Idaho corporation, Big Sky Drug Corporation, an Idaho corporation, and Associated Industries, Inc., a Washington corporation (collectively the "Parties").

Recitals

The Parties wish to establish a general plan for the development, maintenance, and improvement of certain real estate as an integrated retail shopping center. The shopping center is to be designed for the mutual benefit of the Parties, and is more fully identified and described in Exhibit A annexed hereto (the "Shopping Center").

The Parties wish to establish protective provisions, covenants, restrictions, and setback lines, and provide for liens and charges (collectively called "restrictions"), with respect to which all or any part of such property is to be improved, held, used, occupied, leased, sold, or conveyed. It is intended that such restrictions run with the land and apply to and bind the respective successors in interest.

All of such restrictions are imposed on each portion of such property as a mutual, equitable servitude in favor of all other portions of such property.

Now, therefore, the parties agree as follows:

Article 1

Definitions

Section 1.01. These restrictions relate to Parcels 15 through 35, inclusive, in the County of Ada, State of Idaho (the "Shopping Center").

Section 1.02. The term "occupant" means each of the parties and any person from time to time entitled to the use and occupancy of commercial area in the Shopping Center under any lease, license, or concession agreement, or other instrument or arrangement under which each occupant acquires his status as such.

Section 1.03. The term "party" means each of the persons executing this instrument, or their respective successors in interest, as later provided, of their respective interests in the Shopping Center, as shown by the records of the County of Ada, as of the date of the exercise of powers or the performance of or failure of performance by such parties of obligations created by this instrument, who fit within the following classifications:

(a) The person or persons holding fee title to all or any portion of the parcels comprising the Shopping Center, except as provided in (b); or

(b) The lessee or lessees under a ground lease of all or a portion of the parcels comprising the Shopping Center for a fixed term of 50 years, or longer, in which event the fee owner of the real property covered by such lease will not be deemed to be a party as to such property for the purposes of this agreement during the duration of such ground lease.

Section 1.04. The word "person" means and includes individuals, partnerships, firms, associations, and corporations, or any other form of business entity.

Section 1.05. The term "permittees" refers to all occupants and all customers, employees, and other business invitees of occupants.

Section 1.06. All common areas used for the parking of motor vehicles, including incidental and interior roadways, perimeter sidewalks, walkways, curbs, and landscaping within or adjacent to areas used for parking of motor vehicles, together with all improvements which at any time are erected on such, subject to the provisions of Article 4, will be referred to as motor vehicle parking area.

Section 1.07. All areas within the Shopping Center, subject to nonexclusive use and not exclusively appropriated for the use of any single occupant, will be improved, operated, and maintained, and will be referred to as common areas. Such areas include motor vehicle parking areas including employee parking areas, roadways, walkways, malls, landscaped areas, public restrooms, which are both directly accessible from pedestrian passageways and not within space leased to any tenant, and all other similar facilities provided for the convenience of such permittees. Such areas do not include buildings, areas, or facilities which are constructed and used for commercial use as defined herein.

Section 1.08. Plans and specifications prepared for the development of certain common areas in the Shopping Center, as more particularly set forth in Articles 5 and 6 of this agreement, will be referred to as improvement plans.

Section 1.09. All areas used or constructed for use for commercial purposes will be referred to as commercial area.

(a) Commercial area includes:

- (1) Sales and service areas.
- (2) Warehousing and storage areas.
- (3) Clerical or office areas.
- (4) Employee facilities, except as provided in (b)(7).

(b) Commercial area does not include:

- (1) Truck ramps, loading and delivery areas, whether or not situated within a building or enclosure.
- (2) Equipment rooms or areas to house heating, air conditioning, and other mechanical equipment, and meter room.
- (3) A common meeting room of not more than 100 square feet, which is available for use by the parties, tenants, and merchants' association.
- (4) A Shopping Center office of not more than 200 square feet for the administration and supervision of the maintenance and operation of the Shopping Center.
- (5) Common areas.
- (6) Signs.
- (7) Employee motor vehicle parking.

Section 1.10. The parties shall designate the project architect to prepare plans and specifications for the integrated development of certain common areas of the Shopping Center and to perform for them such architectural services as are herein provided. The project architect may be removed by a majority of the parties. The parties, acting unanimously, shall have the right from time to time to designate and redesignate the project architect.

Section 1.11. The term "allowable gross square feet" means the maximum number of square feet of permitted commercial area, plus the areas defined in Section 1.09(b)(2), (3), and (4) of each of the parties on its parcel or combined parcels of land, whether the entire amount is initially used, or whether part is initially used and the balance held for expansion.

Section 1.12. The term "common building component" means any single improvement which is located partly on a parcel of land in the Shopping Center owned by one party and partly on a parcel of land in the Shopping Center owned by another party.

Section 1.13. All sidewalk areas lying between two or more buildings within the Shopping Center are referred to as malls, and are part of the common areas.

Section 1.14. The term "enclosed mall" refers to and includes the mall enclosure as provided for in Article 6, which is designated "enclosed mall," delineated on Exhibit A, and is part of the common areas.

Article 2

Regulation of Improvements

Section 2.01. No building, structure, or improvement of any kind, other than common area improvements, will be constructed, installed, and maintained above the surface of the ground area lying between setback line No. 3 and setback line No. 4, all as shown on Exhibit A, except in those areas specifically designated on Exhibit A for building sites.

The parties each have the right to place footings, signs, canopies, cornices, and other building features attached to a commercial building which project over the building setback lines, sidewalks, or walkways, provided the same are architecturally approved as provided in Article 11 and if the same project over the parcel of another party, the other party has approved them in writing.

Section 2.02. No sign, symbol, advertisement, or billboard shall be constructed, used, maintained, erected, posted, pasted, displayed, or permitted on or about any portion of the Shopping Center except one or more signs for each retail facility operating in the Shopping Center, which identifies the name, business, or symbol of such retail facility, which does not advertise any particular item of merchandise, which is harmonious to the general exterior architectural treatment of the buildings in the Shopping Center, which is of a type, size, and design commonly found in first-class regional shopping centers in Idaho, and which complies with the sign criteria approved by the parties, attached as Exhibit C.

Section 2.03. No hedge, fence, wall, or other like barrier shall be constructed on the line separating one parcel from another parcel, other than the improvements expressly permitted here.

Section 2.04. No building shall at any time be constructed or maintained on, under, or above the surface of any parcels of the Shopping Center which exceeds the allowable gross square feet for such parcel or parcels.

Section 2.05. (a) Each party owning any improvements in the Shopping Center which contains a common building component, if such common building component is utilized by another improvement in the Shopping Center owned in whole or in part by another party (as owner of a benefitted improvement):

(1) Shall maintain, at its own cost and expense, the common building component in such state of repair that it will continue to have the capacity to be so used in common by the benefitted improvement in question (subject to the provision of (1) of subparagraph (b) of this section).

(2) Shall not cause or permit to occur any damage, loss, or injury to the owner of the benefitted improvements or his

tenants by or as a result of any act or negligence on its part with respect to the common building component in question, or any other portion of the improvement owned by it which contained the common building component in question.

(b) Each party owning any benefitted improvement which utilizes any common building component contained in an improvement which is not owned in whole or in part by it:

(1) Shall not place on the common building component in question any burden which at the time of placement is in excess of the capacity of the common building component for such or will prevent the use of the improvement contained in the common building component in question for its intended purposes; and

(2) Shall not cause or permit to occur any damage, loss, or injury to the improvement which contains the common building component in question by or as a result of any act or negligence on its part with respect to the benefitted improvement.

Section 2.06. Nothing in Section 2.05 shall be deemed to preclude any party owning either an improvement containing a common building component or a benefitted improvement, as the case may be, from doing or causing to be done any work (whether of repair, alteration, restoration, or otherwise) with respect to any such improvement (notwithstanding that during the course of performing such work a condition otherwise prohibited by the provisions of this Article may result) if:

(a) During the course of performance of such work the party by whom or on whose behalf such work is being done will, at its own cost and expense, provide such temporary facilities as may be necessary:

(1) To perform the function performed by the common building component in question, if such work is performed with respect to the improvement containing the common building component in question; or

(2) To increase the capacity of, or supplement, the common building component in question to the extent necessary so that the benefitted improvement will not, during the course of the performance of such work, either place on the common building component a burden in excess of its capacity for such purpose or otherwise prevent the use of the improvement containing the common building component in question for its intended purposes, if the work is performed with respect to the benefitted improvement in question; and

(b) At the conclusion of work there is full compliance with the provisions of (1) of whichever subparagraph (a) or (b) of Section 2.05 is appropriate to the improvement with respect to which the work in question was done.

Notwithstanding the provisions of (2) of subparagraphs (a) and (b) of Section 2.05 appropriate to the improvement with respect to which the work in question was done, the owner of the improvement with respect to which the work in question was being performed shall not be liable to the owner of the other improvement affected by such work for any inconvenience, annoyance, disturbance, or loss of business to the owner of the improvement affected by the performance of such work (or his tenants) arising out of and during the performance of such work (unless occasioned by the negligence of the owner of the improvement with respect to which the work in question was being performed, or its agents). The owner of the improvement with respect to which such work is being performed, however, shall make all reasonable efforts to keep any such inconvenience, annoyance, disturbance, or loss of business to the minimum reasonably required by the work in question.

Section 2.07. No building or other improvement will be constructed or maintained on any party's parcel, unless and until provision is made for the construction and maintenance of a minimum ratio of not less than 2.5 square feet of motor vehicle parking area for each square foot of commercial area. For the purposes of this Section, truck ramps, loading and delivery areas, not situated within a building or enclosure, will be considered motor vehicle parking area.

Article 3

Operations and Use

Section 3.01. Neither the Shopping Center nor any part of it will be used and no building or other improvement will be constructed, maintained, or used for any purpose other than the following: retail, office, and service establishments, including without limitation, financial institutions, brokerage offices, restaurants, automotive service stations, travel and other agencies, automotive sales display area, bowling alley, skating rink, motion picture theater, car washing establishment, veterinary hospital, mortuary, commercial laundry plant, and similar service establishments, unless specifically approved in writing by the parties.

Section 3.02. Except as otherwise prohibited by this agreement any part of the Shopping Center may be used for any commercial or business operation, use or purpose, which is expressly authorized here or which is common to first-class regional shopping centers and which is not prohibited by this agreement or by law.

Section 3.03. No use or operation will be made, conducted, or permitted on or with respect to all or any part of the Shopping Center, which use or operation is obnoxious to or out of harmony with the development or operation of a first-class shopping center including the following:

- (a) Any public or private nuisance;
- (b) Any noise or sound that is objectionable due to intermittence, beat, frequency, shrillness, or loudness;
- (c) Any obnoxious odor;
- (d) Any noxious, toxic, caustic, or corrosive fuel or gas;
- (e) Any dust, dirt, or fly ash in excessive quantities;
- (f) Any unusual fire, explosion, or other damaging or dangerous hazard;
- (g) Any warehouse, assembly, manufacture, distillation, refining, smelting, agriculture, or mining operations;
- (h) Any "second hand" store, Army, Navy, or government "surplus" store;
- (i) Any trailer court, labor camp, junk yard, stock yard, or animal raising other than a pet shop;
- (j) Any drilling for a removal of subsurface substances;
- (k) Any dumping, disposal, incineration, or reduction of garbage or refuse; and
- (l) Any fire or bankruptcy sale or auction house operation.

Section 3.04. No retail or business establishment will be located within any mall, including the enclosed mall, without the consent of the parties hereto.

Article 4

Easements

Section 4.01. The parties grant each to the other the following reciprocal easements:

(a) Nonexclusive easements appurtenant to the party's property for the purpose of parking vehicles of the party; the tenants, concessionaires, or owners of any portion of the party's property; and the customers, licensees, and invitees of the party and the tenants, concessionaires, or sublessees; limited, however, for purposes connected with or incidental to any use being made of any portion of the party's property. The parking area easements are easements on each and all of the one or more portions of the Shopping Center property as is or are improved by any party from time to time for the parking or accommodation of vehicles.

(b) Nonexclusive easements appurtenant to the party's property for the purpose of pedestrian traffic of customers, invitees, and licensees of the party; the tenants, concessionaires, or owners of any portion of such party's property; and the customers, officers, employees, licensees, and invitees of the party and the tenants, concessionaires, or owners; limited, however, for purposes connected with or incidental to any use then being made of such party's property. The common area easements are easements on each and all of the one or more portions of the Shopping Center property (other than the motor vehicle parking areas) as is or are provided or available for general use and the convenience of tenants of the Shopping Center and concessionaires, employees, and customers of the Shopping Center as such portions may be made available and designated from time to time for these purposes by any party, as each such portion or portions so made available and designated may from time to time be reduced or increased in size or relocated by any party.

(c) Nonexclusive easements appurtenant to the party's property for the purpose of furnishing access and the right of access between the public streets and any parking areas situated on the Shopping Center property and between the public streets and parking areas and the party's property, including any and all improvements from time to time located on or in the party's property.

(d) Nonexclusive easements appurtenant to such party's property for the purpose of furnishing connection, support, or attachment including, without limitation, walls, slabs, and structural systems of an improvement to any building component owned by another party where such building component constitutes a common building component.

(e) Nonexclusive easements for the benefit of and appurtenant to each portion of the Shopping Center, for the conveyance of water, all as described in Exhibit B, labeled "water line easements," attached and incorporated here by reference, and the maintenance, removal, and replacement of water pipes and systems.

(f) Nonexclusive easements for the benefit of and appurtenant to each portion of the Shopping Center for telephone lines in, on, and under portions of the Shopping Center, all as described in Exhibit B, labeled "telephone line easements," attached and incorporated here by reference, and the maintenance, removal, and replacement of the lines.

(g) Nonexclusive easements for the benefit of and appurtenant to each portion of the Shopping Center for the conveyance of gas in, on, and under the Shopping Center, all as described in Exhibit B, labeled "gas lines," attached and incorporated here by reference, and the maintenance, removal, and replacement of gas pipes and systems.

(h) Nonexclusive easements for the benefit of and appurtenant to each portion of the Shopping Center for sewage disposal in, on, and under the Shopping Center, all as described in Exhibit B, labeled "sewer lines," attached and incorporated here by reference, and the maintenance, removal, and replacement of sewers.

(i) Nonexclusive easements for the benefit of and appurtenant to each portion of the Shopping Center for the conveyance of electricity in, on, and under the Shopping Center, all as described in Exhibit B, labeled "electric lines," attached and incorporated here by reference, and the maintenance, removal, and replacement of electric power conduits, lines, and wires.

(j) Nonexclusive easements for the benefit of and appurtenant to each portion of the Shopping Center for drainage lines and systems in, on, and under the Shopping Center, all as described in Exhibit B, labeled "drainage lines," attached and

incorporated here by reference, and the maintenance, removal, and replacement of drainage lines and systems.

Section 4.02. The parties agree that at all times free access between the parcels owned by each party and the remainder of the Shopping Center shall not be impeded and shall be maintained.

Section 4.03. Subject to the rules and regulations adopted for the use of such areas as provided in this instrument, the use of all easements provided for in this Article and all other improved common areas in the entire Shopping Center shall, in each instance, be nonexclusive, and for the use and benefit of all of the parties or their respective successors or assigns to all or any part of their parcels, and to the extent any party may see fit to grant the same, for the use and benefit of other persons who are permittees as defined in Article 1.

Section 4.04. The common areas, on completion of the improvement of such areas, may be jointly managed, controlled, and operated by the parties or their respective successors or assigns to all or any part of their parcels, for their mutual benefit.

Section 4.05. The parties, or their respective successors or assigns to all or any part of their parcels, shall jointly have the general possession of all common areas of the Shopping Center. Such parties jointly or individually may, at any time and from time to time, remove, exclude, and restrain any person from the use or occupancy of such, excepting bona fide permittees who make use of such areas in accordance with the rules and regulations established from time to time for such use as provided in this instrument. If unauthorized use is being made of any of such common areas, any of the parties may also restrain or terminate such unauthorized use by appropriate proceedings after written notice to the owner of such parcel and failure to abate such use.

Section 4.06. None of the common areas shall be used for commercial purposes by any individual party, tenant, or lessee, or other permittee, except in accordance with the provisions of this agreement and rules and regulations adopted as provided herein.

Section 4.07. In the operation of the common areas, the parties from time to time shall adopt rules and regulations pertaining to the use of all common areas by the permittees of the Shopping Center, which may include the validation of customer parking tickets, provided that all such rules and regulations and other matters affecting the users of the common areas will apply equally and without discrimination to all permittees of parties in the Shopping Center. Such rules and regulations must, subject to the provisions of this agreement, be adopted by unanimous vote of the parties. Until modified by subsequent agreement, the rules and regulations attached and marked Exhibit D and incorporated herein will be in force and effect.

Section 4.08. When utility facilities have been installed, each party may relocate such utility facilities within its own parcel from time to time, at its own expense. Such relocation, however, shall be performed only if the party gives 60 days' written notice to all other parties using the utility facilities, and if the relocation will not reduce or impair the usefulness or function of the utility facilities and will be performed at the sole cost and expense of the party so relocating.

Section 4.09. (a) Within the separate areas of the parcels of each individual party, such party from time to time shall have the right to designate, withdraw, and redesignate as motor vehicle parking or commercial areas such areas as it will select from time to time, provided that within such parcels, there will not be maintained commercial areas in excess of the allowable gross square feet permitted by Section 1.12 within such parcels, or commercial areas within the setback areas, except as otherwise permitted by Section 2.01.

(b) All areas not used as commercial areas or used for other purposes permitted by this Article will be improved, used, and maintained as common area, and there are established nonexclusive easements for ingress and egress, parking of motor vehicles, and other incidental uses during each period that the areas are so used, improved, and maintained as

common area.

Section 4.10. Prior to commencement of and during construction of any commercial structure on the premises of any party, the party will erect and maintain a solid panel fence, ten feet in height, to protect existing facilities from the dust and other inconvenience occasioned by the unimproved character of such premises or the construction. The design, location, construction, maintenance, and painting of the fence will be approved by the project architect.

Article 5

Improvement Plans

Section 5.01. Eugene Thomas of Boise, Idaho, is designated as the project architect.

The parties will cause the project architect to prepare the improvement plans for all commercial buildings, the enclosed mall, and all parking and common areas to be constructed, all as provided for in Article 17, including the general architectural concept, and for the integrated development of all common areas of the Shopping Center. The parties will be consulted during the course of the preparation of such improvement plans, and if any party has a preference as to a particular type of installation, it will furnish to the project architect detailed drawings of such installation or portion of such for its consideration, and for incorporation in the improvement plans if approved by the other parties. From time to time during the course of the preparation of such plans, the project architect will cause progressive working drawings of the plans to be submitted to the parties for review and recommendation. Such improvement plans will include:

(a) Schematic improvement plans, which will within 30 days following the execution of this agreement be submitted by the project architect to the parties of their review and approval. Such schematic improvement plans will include elevations, perspective renderings reflecting design concepts, layout of parking and other common area improvements.

(b) Preliminary improvement plans which will within 30 days following the above approval of the schematic improvement plans, be submitted to the parties by the project architect for their review. The preliminary improvement plans will be developed from Exhibit A and the approved schematic improvement plans and will conform to the schematic improvement plans and to the requirements of this agreement and will include, without limitation:

(1) All access roadways, exterior boundary walls or fences, project signs, malls, curbs, curb cuts, entrance driveways, interior roadways, motor vehicle parking areas, utility loop systems, and lines to serve common improvements and such commercial improvements as the parties may designate, also sewer, storm, and other drainage lines or systems, including extensions, fire hydrants, lighting facilities, and other similar facilities for common use.

(2) The location of all facilities for common use where the fixing of such location is reasonably possible, and if precise location cannot be shown, then specifications for such location.

(3) A composite parking layout for the entire Shopping Center, including paving, striping, bumpers, curbs, location of electroliers and lighting systems, with designation of areas which may be separately illuminated from time to time at the request of any party.

(4) A composite landscaping plan as prepared by a landscape architect specifying overall plant materials and planting, but excluding planting areas adjacent to buildings.

(5) The conditions, standards, and architectural treatment under which such improvements will be located, constructed, or installed. Such conditions, standards, or architectural treatment are not to be less than the minimum requirements of the County of Ada or other governmental agency having jurisdiction of the performance of such work in the Shopping Center.

(6) The improvement plans are not to include any commercial area but will designate the general location of the commercial areas where such locations have been established.

If a party whose approval is required does not specify any objection or make a proposal that would add to or change the schematic or preliminary improvement plans to the project architect, with a copy to each other party, within 30 days from the date of submission, the plans will be deemed to be satisfactory for further development. If there is an objection or proposal from any party, the project architect will call a meeting of all parties whose approval is required, to be held within 45 days from the date of submission, to resolve and adjust any objection or proposal with reference to such improvement plans. All objections or proposals will be considered at the meeting with a view to developing such improvement plans in their final form at the meeting. If at such meeting the parties are unable to agree unanimously, all matters of disagreement will be resolved by the arbitration procedures of Article 8.

Within 90 days from the date of approval of the preliminary improvement plans, the project architect will submit final improvement plans to the parties for review; such final improvement plans will be developed from the approval preliminary improvement plans.

If a party whose approval is required does not specify any objection to the project architect or make a proposal that would add to or change the final improvement plans, with a copy to each such party, within 30 days from the date of submission, the plans will be deemed to be satisfactory for final development. If there is an objection or proposal from any party, the project architect will call a meeting of all such parties to be held within 45 days from the date of submission, to resolve and adjust all objections or proposals with reference to the final improvement plans. All objections or proposals will be considered at the meeting with a view to developing the final improvement plans in their final form at the meeting. If at the meeting the parties are unable to agree unanimously, all matters of disagreement will be resolved by the arbitration procedures of Article 8.

(c) Additional improvement plans may be developed by the project architect for the future development of the common areas or may be developed by others and submitted to the project architect for approval. On preparation or approval by the project architect, as the case may be, such plans will be submitted to the parties for their approval in writing.

To provide continuity and harmonious architectural treatment in the development or approval of such plans, prior approved improvement plans will be followed as a guide in any such additional plans and in the establishment of conditions, standards, and architectural treatment under which unimproved areas will be improved or additional improvements will be made.

Changes may be made in approved improvement plans only by written agreement of the parties whose approval is required, representing not less than 80 percent of such parties in interest as to each parcel of land within the Shopping Center at the time of the execution of such written amendment to the improvement plans, subject, however, to the provisions of Section 1.03.

All improvement plans shall be stamped approved, dated, and certified by the project architect and maintained by it in a safe and convenient place. In the event of designation of another project architect, all improvement plans and other records relating thereto will be delivered to the new project architect at the time of such designation.

Article 6

General Design Data

In the preparation of any improvement plan, the following general design data, without limitation, will be followed, as minimums, unless governmental specifications for such work establish higher standards; provided, however, that the existing motor vehicle parking areas are approved in their existing condition.

Section 6.01. Sewer drainage and utility lines, conduits, or systems will not be constructed or maintained above the ground level of the Shopping Center unless such installations are within approved enclosed structures, and will conform with requirements of the County of Ada or other applicable governmental or private agency having jurisdiction of the work.

Section 6.02. Concrete walkways, not less than ten feet in width, will be constructed along the outer perimeter of the commercial buildings in the development of the Shopping Center as shown on Exhibit A. The walkways, including any planting, when installed, will become a part of the common area. Such walkways, however, will be constructed as part of the construction of the buildings adjacent to each such walkway.

Section 6.03. Lighting for motor vehicle parking areas will be provided by mercury vapor fixtures with area controls with electric time switches on a seven-day program, sufficient to produce a minimum of one and one-half foot candle of lighting, or such other minimum as may be mutually approved by the parties.

Section 6.04. Each parking space regardless of angle of parking, will have a width of nine feet on center, measured at right angles to the side line of the parking space. Parking lanes or bays will have the following minimum and preferred widths at the angle of the parking designated below:

Degrees	Minimum	Preferred
45 degrees	46.6	52
52.5 degrees	50	52
60 degrees	52	54
90 degrees	60	62

The maximum slope in parking areas will not exceed 4 percent.

Section 6.05. All fire protective systems will be installed in accordance with the requirements of the Western Board of Fire Underwriters or other qualified inspection firm, and any additional requirements of local authorities having jurisdiction over the installation.

Section 6.06. The finished surface of the enclosed mall will be established at the same elevation as the first floor of the adjoining retail store building at all points adjoining such building.

Section 6.07. The surface of that portion of the enclosed mall devoted to pedestrian traffic will be installed in a continuous plane without steps. The maximum slope in such surface will not exceed 1 percent.

Article 7

Improvement Plan of Enclosed Mall

Section 7.01. Arthur Rubinstein, Inc., the developer, will cause the project architect to prepare a schematic plan for the enclosed mall, showing:

- (a) Principal interior and exterior dimensions, including ceiling elevations and height of principal components.
- (b) Design concepts.
- (c) Materials selection.

- (d) Outline specifications for heating, ventilation, and air conditioning, including performance specifications.
- (e) Lighting.
- (f) Landscaping.
- (g) Signing.
- (h) Any structural facilities, decorative, or architectural treatment in the mall.

Such schematic plans will be submitted to the parties for their written approval. The procedures for such approval will follow the procedures for the approval of improvement plans provided for in Section 5.01.

Section 7.02. The developer will complete the construction of the enclosed mall in accordance with working drawings and specifications developed from and implementing the approved schematic plans. Such working plans will be submitted to the parties, whose approval is required, for their review. The written approval of the parties must be obtained if a change is made in the basic design, appearance, location, or components of the approved schematic plans, and with respect to the structural attachments of the mall enclosure to the common area building of any such party. The plans for the attachment need only be approved by the party to whose building such attachment is to be made. In the development of plans for attachment, insurance requirements, building code requirements, increased or decreased costs of construction of the structure to which attachment is to be made will be relevant circumstances in resolving questions that may arise respecting such attachment.

Article 8

Arbitration of Disputes

Any dispute, controversy, or disagreement including lack of approval of the project architect or the party arising under this agreement will be resolved under the procedures set forth here. In the event that any party does not notify the project architect in the case of any plan or proposal prepared by or requiring the approval of the project architect, or the party making the proposal (if approval of such project by the project architect is not required) of its objection to such in writing within 30 days from the date of submission, the plan or proposal will be deemed to be approved by such party. On written objection being given to all required parties to any plan or proposal submitted, in cases where approval of the project architect is required, the project architect on his own motion or at the request of any such party will, and in all cases where the project architect's approval is not required the party making the proposal will, by written notice call a meeting to be held within ten days from such date to be attended by all the parties, and if necessary by the project architect, to resolve and determine the matter. The project architect will not vote. A unanimous decision of the parties in attendance will be required. In the event the meeting is not called or held within such period, or if the matter is not thus finally determined, any party will have the right on written notice to each of the other parties to have the matter determined by arbitration. Each such party within ten days after mailing of the notice will select, in cases when approval of the project architect is required, an architectural engineering firm experienced in and having an established reputation in the development of shopping centers, and in all cases where the project architect's approval is not required, a recognized expert experienced in the operation of such shopping centers. These firms, and if necessary, the project architect, will meet within ten days after selection is completed to study and consider the plans or proposals and objections to them. A majority decision of the participants will be final. Each participant party will bear its own expenses except those relating to the services of a project architect or any nonparty arbitrator, which expense will be divided and borne equally among the participant parties.

Article 9

Operation and Maintenance of Common Areas

Section 9.01. The Developing Party will maintain all the common areas and all of the improvements of the common areas located within the Shopping Center, or portions of these, and keep them in good condition, repair, clean, and free of rubbish and other hazards to persons using such areas. It will have the right to select from time to time a person or persons to operate and maintain the common areas, provided that such selection will not diminish its obligations to maintain and operate the common areas. The remaining parties will each pay to the Developing Party as their respective share of each of the costs of maintenance and operation of the common areas a pro rata share of such costs based on the ratio of the allowable gross square feet of commercial area on its parcel to the allowable gross square feet in all parcels within the Shopping Center. Such maintenance will include, without limitation:

- (a) Maintenance of the surface of the area and sidewalks level, smooth, and evenly covered with the type of surfacing material originally installed on such, or such substitute as will in all respects be equal to it in quality, appearance, and durability.
- (b) Removal of all papers, debris, filth, and refuse from the Shopping Center, and washing or thoroughly sweeping paved areas as required.
- (c) Maintenance within the Shopping Center of such appropriate parking area entrance, exit, and directional signs, markers, and lights in the Shopping Center as will be reasonably required and in accordance with the practices prevailing in the operation of shopping centers in Idaho.
- (d) Cleaning of lighting fixtures of the Shopping Center and relamping as needed.
- (e) Repainting of striping, markers, directional signs, etc., as necessary to maintain in first-class condition.
- (f) Performance of maintenance of landscaping necessary to keep in first-class condition and to provide the general effect contemplated by the improvements. For example, trees and shrubbery will be properly pruned or otherwise controlled to prevent any condition of over-growth.
- (g) Cleaning of signs of the Shopping Center and including relamping and repairs being made as required.
- (h) Maintenance of all of the common areas free from any obstructions not required for their intended use, including the prohibition of the sale or display of merchandise outside the exterior limits of improved commercial areas within the Shopping Center, except in areas specifically designated within the Shopping Center for such purposes. It is expressly understood and agreed, however, that in the event of promotional activities in the Shopping Center, approved by the parties, these provisions may be waived during the period of the promotional event.
- (i) Payment of all electrical, water, and other utility charges or fees for services furnished to the common areas, except as to the illumination of common areas within its parcel, which is provided at the request of any other parties.
- (j) Maintenance of utility lines or a system which is to be used in whole or in part to provide service for common or commercial facilities erected, constructed, or installed on the parcel of one or more of the other parties.

The cost of maintenance and operation of common areas referred to means the total of all items of direct cost and expense necessarily expended for the supervision, operation, maintenance, and repair of the common area, determined in accordance with generally accepted accounting principles on the accrual method of accounting, but which costs will exclude any real property taxes or assessments. The cost includes maintenance, replacements, and reconstruction work as required to preserve the utility of the common area and its equipment, in the same condition and status as it was as of the time of the completion of the original construction and installation, and further includes all rental charges for equipment, the cost of small tools and supplies, all costs for police security protection, traffic direction and control, and parking regulations; costs of cleaning and removal of rubbish, dirt, and debris from the common area; the cost of

landscaping, and supplies incidental to such; all charges for utility services used in connection with such, together with all costs of maintaining lighting fixtures in the automobile parking areas and all premiums for public liability and property damage insurance covering the common area. In addition there may be expended for replacement of capital improvements in any one calendar year the sum of not to exceed \$25,000, and no capital expenditure in excess of such amount in any one calendar year may be made without the prior approval of the remaining parties.

Section 9.02. The Developing Party will, in addition to the foregoing, provide heating, cooling, ventilation, and illumination for the enclosed mall and will maintain its air conditioning system and keep the enclosed mall illuminated at all times when the retail operations are open for business and in such manner so that the temperature and humidity throughout the enclosed mall is at a reasonably comfortable level, and in any event, in accordance with minimum design standards as recommended for the area in which the Shopping Center is located, by the American Society of Heating, Refrigeration, and Air Conditioning Engineers guide and data books current at the time of construction; and will maintain the glass, floors, walls and roof of the enclosed mall in good condition and repair, and will clean such areas, wash all such glass and replace all electric lamps as may be required.

The other parties will each pay to the Developing Party, as its respective share of the cost of maintenance and operation of the enclosed mall, including air conditioning, such sums, at such times, as Arthur Rubinstein, Inc., and each of them shall, by separate agreement executed simultaneously with this, provide.

Section 9.03. Each party will pay all real estate taxes, assessments, and other charges which may be levied, assessed, or charged against its parcel in the Shopping Center or any part of such.

Section 9.04. In the event the other parties jointly, at any time, or from time to time, are dissatisfied with the Developing Party's, performance of its obligations under this Article 9, such parties will have the right to give it written notice of such dissatisfaction, specifying the particulars in respect to which its performance is deemed by such parties to be unsatisfactory. If during the 30-day period from the date of such notice such performance continues to be unsatisfactory, the notifying parties will have the right to give a second notice of such dissatisfaction in the same manner, specifying the particulars in respect of which the performance is deemed by such parties to be unsatisfactory, and if during the 15-day period from the date of such second notice the performance continues to be unsatisfactory, the notifying parties will have the right to cause to be taken over from the Developing Party by means of an entity created for such purpose by the notifying parties or by means of an entity hired for such purpose by such parties, effective on the first day of the next succeeding calendar month, the maintenance, management, and operation of the common areas and of any and all improvements located on these; provided, however, that anything herein to the contrary notwithstanding, such takeover of the maintenance, management, and operation of the common area will not relieve the Developing Party of its obligation to pay all costs and expenses of maintenance, management, and operation of any such areas to the extent obligated under this agreement; and provided further that the takeover by such entity will not relieve the Developing Party of the obligation to keep, perform, and observe any of the other terms, provisions, and conditions contained in this agreement to be kept, performed, and observed by such party, other than those relating to the maintenance, management, and operation of the common areas. The Developing Party shall promptly pay to the entity, on demand, any sum which it will be obligated to pay with respect to the maintenance, management, and operation of the common area pursuant to this paragraph. In the event that the maintenance, management, and operation of the common area are taken, as provided in this paragraph, then any and all sums payable to the Developing Party by any and all occupants of the Shopping Center in respect of its or their pro rata share of common area maintenance cost, together with the right to enforce payment of and to collect the same, will stand assigned to such entity without the necessity of the execution of any further instrument of assignment; and the entity will thereafter perform such maintenance, management, and operation of the common area throughout the remainder of the term of this agreement, unless the Developing Party, at any time thereafter, resumes maintenance, management, and operation of the common area with the consent of the remaining parties.

Section 9.05. Whatever party or entity is charged with the responsibility of performing the maintenance, management,

and operation of such common area will during the time it is performing the maintenance, management, and operation of the common area, and so long thereafter as any charge for such remains unpaid, have a lien on the parcel of the party in performing its maintenance, management, and operation to secure the payment by the party of all sums payable to the managing entity. Any such lien will be perfected only by adhering to the provisions of Section 12.02. The lien will be junior to and will in no way impair the lien or charge of any first mortgage or first deed of trust, recorded prior to or subsequent to the recording of the notice.

Article 10

Insurance

Section 10.01. Each party shall hold harmless all other parties, and all tenants, lessees, and occupants of the parcels of the other parties from all claims or judgments arising from the use of common areas located within its respective parcel or portion of such, unless the claim, demand, or judgment is caused by the negligence of the other party, tenant, lessee, or occupant. The parties each will provide public liability insurance with limits of not less than \$1,000,000 for each individual, \$2,000,000 for each accident, and \$250,000 for property damage in the performance of its obligations under this Section. The other parties will be named as an additional assured. Such obligation may also be discharged by self-insurance, if approved in writing by the other parties.

Section 10.02. Each party releases each of the other parties from any liability for any loss or damage of the type provided by fire insurance with extended coverage, and grants to the other parties, respectively, on behalf of any insurer providing such insurance, a waiver of any right of subrogation which any such insurer of any one party may acquire against any other party or parties by virtue of payment of any loss covered by such insurance.

Section 10.03. Arthur Rubinstein, Inc., covenants to and with the other parties, each severally, that in the event of any damage or destruction to all or any portion of the improvements it will, at its own expense, restore, repair, or rebuild such improvements with all due diligence.

Except as provided below, The Developing Party will be released from its obligations to restore, repair, or rebuild under the provisions of this subparagraph if:

- (a) Such damage or destruction was caused by a peril other than one enumerated in a fire insurance policy with standard extended coverage endorsement attached; or
- (b) The stores of the other parties are not, after the occurrence of such damage or destruction, open for retail business; or
- (c) Such damage or destruction occurs during the term of this agreement, as provided in Section 13.01 and the Developing Party is not assured of the continuation of the agreement and the operating covenants referred to below.
- (d) Such damage or destruction occurs at a time when The Developing Party is not assured, under the terms and provisions of this agreement, of ten years (the commencement of such period to be the date of completion of such restoration, repair, or rebuilding) of operation under this agreement.

However, if there is not such assurance, then the provisions of this subparagraph will not apply, if within 30 days after the occurrence of such damage or destruction, the other parties jointly give the Developing Party written assurance in recordable form that it will have such a ten-year period of operation.

All restoration, repair, or rebuilding under Section 10.03, and all conditions of the requirements of such restoration, repair, or rebuilding, will be subject to the applicable provisions of this agreement.

Article 11

Commercial Area Development

Before any exterior surface of any building or other commercial facility is erected, altered, repaired, or restored, or before any unenclosed or uncovered area is used for commercial purposes in the Shopping Center, accurate plans of the exterior design; color; finish; and signing of such sign, building, or facility; or screening of unenclosed or uncovered areas will be submitted for approval of the other parties for the purpose of achieving a harmonious relationship among the various buildings, facilities, and signing which will comprise the commercial areas of the Shopping Center. In the event such plans are submitted and not disapproved within 30 days from date of submission, the plans will be deemed to have been approved. In the event any such plans are disapproved, such disapproval will indicate the particulars for such disapproval. If the parties are unable to agree, the matter will be determined in accordance with the procedures established in Article 8.

Article 12

Enforcement

Injunctive Relief

Section 12.01. In the event of any violation or threatened violation by any party, lessee, or occupant of any part of the Shopping Center of any of the terms, restrictions, covenants, and conditions provided here, either of the parties, or their respective successors or assigns to all or any part of their parcels, will have in addition to the right to collect damages, the right to enjoin such violation or threatened violation in a court of competent jurisdiction. Prior to the commencement of any such action, written notice of the violation will be given to the other party or other person responsible for such.

Section 12.02. If performance of any act or obligation of any party is prevented or delayed by Act of God, war, labor disputes, or other cause or causes beyond the reasonable control of such party, the time for the performance of the act or obligation will be extended for the period that such act or performance is delayed or prevented by any such cause.

Section 12.03. A party will not be in default under this agreement except under such provisions as require the performance of an act on or before a specific date or within a specified period of time, unless the party has been given a written notice specifying the default and fails to cure it within the period of 30 days, except that under Section 13.02 the period of time is ten days, or commences to cure the default within such period of time, and if the default cannot be cured within the times specified above, if he thereafter does not diligently proceed to complete the curing of the default.

Section 12.04. It is expressly agreed that no breach of this agreement will entitle any party to cancel, rescind, or otherwise terminate this agreement, but this limitation will not affect, in any manner, all other rights or remedies which the parties may have by reason of any breach of this agreement.

Section 12.05. A breach of any of the terms, conditions, covenants, or restrictions of this agreement will not defeat or render invalid the lien of any institutional first mortgage or institutional first deed of trust, made in good faith and for value, but such term, condition, covenant, or restriction will be binding on and effective against any of the parties whose title to the property or any portion of such is acquired by foreclosure, trustee's sale, or otherwise.

Article 13

Duration, Extinguishment, Continuation, and Modification Duration

Section 13.01. This agreement and each easement, setback line, covenant, restriction, and undertaking of this agreement will be for a term of 50 years from its date, and will continue in full force and effect thereafter so long as 50 percent of the allowable gross square feet of the commercial area of the Shopping Center are used for the uses permitted under this

agreement, except that each easement granted pursuant to Article 4 will continue so long as such easement is used by any party and will terminate on nonuse for a consecutive 12-month period, unless notice has been given by any party to the other parties during such period of its intention, to resume use within 18 months following the date on which nonuse commenced.

Section 13.02. This agreement and any provision, covenant, condition, or restriction contained within it may be terminated, extended, modified, or amended as to the whole of the Shopping Center or any portion of it, with the consent of the parties in interest of 80 percent of the total number of square feet of the land then subject to this agreement, based on the number of square feet of land owned, as compared to the total number of square feet of land then subject to this agreement, provided that whenever any parcel of land is owned or ground leased by more than one in the manner covered by Section 1.03(a), then the consent of such parties to any termination, extension, modification, or amendment will be determined as follows:

(a) Each party sharing multiple ownership of a parcel will be entitled to one vote for each square foot of land in such parcel of land owned or leased by him multiplied by his fractional interest in any undivided interest.

(b) Any interest owned by any person who is a minor or is otherwise suffering under any legal disability will be disregarded in the making of such determination, unless there is, at the time, a duly appointed guardian or other legal representative fully empowered to cast a vote on behalf of such person.

No termination, extension, modification, or amendment will be effective until a written instrument setting forth its terms has been executed, acknowledged, and recorded in the Office of the Recorder of Ada County.

No such amendment, modification, extension, or termination will affect the rights of any mortgagee under a mortgage or the trustee or beneficiary under any deed of trust constituting a lien on the Shopping Center at the time unless the mortgagee, or beneficiary and trustee consent to such, nor will any amendment, modification, extension, or termination be effective against such mortgagee, trustee, or beneficiary subsequent to its securing title to its encumbered parcel by foreclosure, trustee's deed, or deed in lieu of foreclosure, unless the mortgagee, or trustee and beneficiary have consented in writing.

No lessee, licensee, or other person having a possessory interest, other than a party, will be required to join in the execution of or consent to any act of the parties taken subject to this Section.

Article 14

Not a Public Dedication

Nothing contained in this agreement will be deemed to be a gift or dedication of any portion of the Shopping Center to the general public or for the general public or for any public purpose whatsoever, it being the intention of the parties that this agreement will be strictly limited to and for the purpose expressed here.

Article 15

Severability

If any clause, sentence, or other portion of the terms, conditions, covenants, and restrictions of this agreement become illegal, null, or void for any reason, or be held by any court of competent jurisdiction to be so, the remaining portions will remain in full force and effect.

Article 16

Notices

Except to the extent otherwise provided in Section 1.03(a) all notices, statements, demands, approvals, or other communications to be given under or pursuant to this agreement will be in writing, addressed to the parties at their respective addresses as provided below, and will be delivered in person, or by certified or registered mail, postage prepaid, return receipt requested. Notice may also be sent by facsimile transmission, provided that all parties have facsimile machines and have provided the transmission numbers to all other parties. The placing of a facsimile number on letterhead shall be deemed to be provision of the transmission number to all parties.

If mailed, the notice will be deemed to have been given 24 hours after the date of mailing. A notice sent by facsimile transmission shall be deemed given when received, if it is received during normal business hours. If received after normal business hours, it shall be deemed given at 9:00 a.m., recipient's local time, on the next business day.

The addresses of the parties to which such notices are to be sent will be those of which the other party or parties actually receive notice, and until further notice are as follows:

Arthur Rubinstein, Inc.	8400 Beverly Boulevard, Los Angeles, California
Universal Variety Stores, Inc.	800 LeMot Avenue, Boise, Idaho
Great Value Food Cor- poration	55 Irving Street, Boise, Idaho
Big Sky Drug Corpora- tion	200 Washington Avenue, Pocatello, Idaho
Associated Industries, Inc.	401 West Broadway, Seattle, Washington

Article 17

Commencement of Construction and Opening

Section 17.01. The parties each will commence construction on their parcels of retail store facilities on or before _____[*date*]. Once construction has commenced, the same will be diligently prosecuted to completion.

Section 17.02. The Developing Party will commence construction of the enclosed mall, motor vehicle parking areas, and other common areas on all parcels and as soon as reasonably practicable after the commencement of construction of the buildings as above, so that they will be completed and available for the general public not less than 30 days prior to the opening for business of the retail store facilities.

Section 17.03. A party will be deemed to have commenced construction of its improvements at such time as any concrete is poured on its parcel by a contractor acting under a contract with the party providing for the construction of its commercial area in accordance with approved plans and specifications for such commercial use.

Section 17.04. The parties will each construct retail facilities in the location shown for such on Exhibit A.

Section 17.05. During the course of such construction the parties will each submit to the other, from time to time on request, reports in reasonable detail regarding the progress of construction and give the other party, its agents, employees, representatives, and contractors access to its parcel, at all reasonable times.

Section 17.06. The Developing Party shall use all diligent efforts to procure binding leases with and executed by tenants approved by the other parties appropriate in mix and experience for shopping centers for occupancy in sufficient time so that they may be opened for business simultaneously with the opening of the establishments of the other parties.

Section 17.07. Prior to the commencement of any work of improvement on the enclosed mall, or any other work jointly under the contract for such improvement, The Developing Party will file the contract for such work and record the bond covering it.

Article 18

Approvals

Whenever approval is required, unless otherwise provided here, it will not be unreasonably withheld. Unless provision is made for a specific period of time, it will be deemed to be 30 days, and if any party neither approves nor disapproves within that period, the party will be deemed to have given its approval. If a party disapproves, the reason must be stated.

Article 19

Condemnation

Any award, whether the same be obtained by agreement prior to, or during the time of any court action or by judgment, verdict, or order resulting from or entered after any such court action, resulting from a taking or damaging by condemnation of the Shopping Center, or any portion or portions of such, or the enclosed mall, or any rights or interests in the Shopping Center or any portion or portions of such, or the enclosed mall, or resulting in a requisitioning of any part by military or other public authority for any purpose arising out of a temporary emergency or other temporary circumstances, will be distributed among the parties, or any other person having an interest in the award, in accordance with the terms and conditions of such agreement, judgment, verdict, or order; provided, however, that the parties or any other person having an interest in the award, or any of them, will have the right to appeal any judgment, verdict, or order with respect to their or its respective interests. If any portion of the total award is made for a taking of any portion of any party's parcel which at the time of such taking was common area, then the portion of such award (which will include the reciprocal easement interests of other parties) will be used to the extent necessary to:

- (a) Replace common area improvements, other than motor vehicle parking area, so taken;
- (b) Replace motor vehicle parking area, so taken, on such party's parcel, to the extent required to bring the motor vehicle parking area to the minimum parking ratios required by this agreement; and
- (c) Replace motor vehicle parking area so taken so as to maintain up to the parking ratio existing on the party's parcel prior to the taking, if the party, a portion of whose parcel is so taken, elects to so restore the motor vehicle parking area. In the event any replacement of a motor vehicle parking area requires the construction of a parking structure on any parcel, no such construction will be commenced until all the parties first have approved both their location and architecture.

Article 20

Liens

Wherever, under the terms of this agreement, any party is permitted to perform any work upon the parcel of another party, it is expressly understood and agreed that such party will not permit any mechanics', materialmen's, or other similar liens to stand against the parcel on which such labor or material has been furnished in connection with any work performed by any such party. The party may bond and contest the validity of any lien, but on final determination of the validity and the amount of such, the party will immediately pay any judgment rendered, with all proper costs and charges, and will have the lien released at such party's expense.

Article 21

Mutuality, Reciprocity Runs with Land

Section 21.01. Each and all of the easements and rights granted or created here are appurtenances to the applicable portions of the Shopping Center and none of the easements and rights may be transferred, assigned, or encumbered except as an appurtenance to such portions. For the purposes of the easements and rights, the property benefitted will constitute the dominant estate, and the particular area in the Shopping Center which respectively is burdened by such easements and rights will constitute the servient estate.

Section 21.02. Each and all of the covenants, restrictions, conditions, and provisions contained in this agreement (whether affirmative or negative in nature) are made for the direct, mutual, and reciprocal benefit of each parcel of land in the Shopping Center; will create mutual equitable servitudes upon each parcel of land in the Shopping Center in favor of every other parcel; will constitute covenants running with the land; will bind every person having any fee, leasehold, or other interest in any portion of the Shopping Center at any time or from time to time to the extent that such portion is affected or bound by the covenant, restriction, condition, or provision in question, or that the covenant, restriction, condition, or provision is to be performed on such portion; and will inure to the benefit of the parties and their respective successors and assigns as to their respective parcels of land in the Shopping Center.

Section 21.03. The parties covenant that in each instance in which either of them ever conveys all or any part of their interest as parties to all or any portion of the Shopping Center to a grantee or lessee who will become thereby a new party, the grantor in such instance will require the prospective new party to agree not to use, occupy, or allow any lessee of such to use or occupy the premises in any manner which would constitute a violation or breach of any of the affirmative or negative covenants in this agreement and require the new party to assume and agree to perform each and all of the obligations of the conveying party under this agreement with respect to the portion of the Shopping Center conveyed in fee to such new party, in each case by a written instrument executed, acknowledged, and recorded in the Office of the Recorder of Ada County, notice of each such conveyance and agreement to be given to each person owning fee title to any part of the Shopping Center by the conveying party involved within ten days after its making, which notice is to be accompanied by a copy of the conveyance and agreement. On such assumption by a new party and notice of such, the conveying party will thereafter be released from any further obligation under this document arising thereafter with respect to the part of the Shopping Center so conveyed to the new party in compliance with this document, provided Arthur Rubinstein, Inc., will be released by such assumption, whenever executed, only at or after compliance as may be required of it by the provisions of Sections 17.02 and 17.06 from the date of such compliance, and if such assumption will have been executed before compliance, will be released at the time when such conditions will have been fully accomplished, without the necessity of any further act by any party. Each party agrees to execute and deliver any necessary or appropriate further documents or assurances to evidence the release for the purpose of recording or otherwise, which documents or assurances will be duly executed by the parties or any grantee or lessee of either, as the case may be, to any such grantor or lessor.

Section 21.04. If any party sells part or all of its parcel for the purpose of financing the improvements on such parcel, and simultaneously enters into a leaseback of not less than 50 years with the fee owner, by which the seller has the possessory rights in the real property, subject to the terms of the lease, then so long as the lease remains in existence, the fee owner of the parcel, or portion of such, will be given all of the same rights and privileges as the holder of a first mortgage of the real property, and the fee interest will not be subject to any lien which might be created pursuant to any of the provisions of this agreement to any greater extent than would be the holder of a mortgage. In the event of any termination of the leasehold interest, and notwithstanding any language in the lease preventing a merger of title in the fee owner, the provision will not be operative to relieve the fee owner and its respective successors or assigns of the obligations under and pursuant to the terms of this agreement, provided, however, that the fee interest will not be subject to liens as provided for here which are superior to the fee ownership during the first 12 months in which the leasehold interest and the fee interest are held by the same party, but thereafter will be so subject unless a new lease will have been entered into which would otherwise comply with the provisions of this paragraph or the lease will have been assigned to a new person, in which event the rights of the fee owner will continue as though no default had taken place under the lease. In the event of the merger of the title to the fee interest and the leasehold interest in an institutional owner as provided for above, then and in that event as respects such institutional owner the provisions of this paragraph

will be of no force or effect whatsoever. The lessee under any qualifying lease, as provided here, will be deemed a party so long as the lease is in existence. As used in this Section 21.04, the term "sell" or "sale and leaseback" will be deemed to include any lease by any party of all or part of its parcel for the purposes of financing the improvements on its parcel and simultaneous leaseback, and the provisions of this paragraph will apply to such; and the terms "owner" and "fee" will include a lessee and leasehold under such lease and leaseback transaction in the same manner and with like effect.

Article 22

Merchants' Association

Section 22.01. The Developing Party shall organize and sponsor a merchants' association for membership and the mutual benefit of the parties and all merchants and businesses in the Shopping Center, and to require membership in such as a condition to occupancy in the Shopping Center complex. The Developing Party shall actively participate in the operation of the merchants' association, and will contribute annually to the merchants' association not less than 10 percent of the aggregate amount of the annual contribution payable by all members during such year to the merchants' association.

It is expressly understood and agreed that as to nontenant parties, each will contribute annually to the merchants' association an amount based on a direct pro rata of square footage of gross allowable square feet of commercial area on its own parcel to the gross allowable square feet of commercial area on all parcels multiplied by any fractional interest he may have in an undivided interest as to any parcel.

Section 22.02. The parties will become and remain throughout the term of this agreement members of the merchants' association, composed of operators of stores in the Shopping Center; provided, however, that such parties each need remain a member of such merchants' association only so long as at least 90 percent of all tenants in the Shopping Center are members.

Section 22.03. The merchants' association by a majority vote will make its own rules and regulations with respect to such matters. The Bylaws of the association will provide that the parties to this agreement will each have a permanent member on the Board of Directors which will consist of not more than 11 members.

Article 23

Covenants of the Developer

Arthur Rubinstein, Inc., covenants and agrees, subject to the provisions of the agreement that it will continuously manage and operate, or cause to be managed and operated, during the term of this agreement, the Shopping Center in the following manner:

(a) As a complex of retail stores and commercial enterprises which are a part of the Shopping Center development, with related common facilities.

(b) Use its best efforts to:

(1) Have the commercial area occupied in its entirety; and

(2) Have at all times a proper mix and balance of occupants; and

(3) Maintain the quality of management and operation not less than that generally adhered to in other similar shopping centers in Idaho.

(c) Under the name of Boise Mall and under no other name without the prior approval of the other parties, so long as

any of the parties is the occupant of its own parcel, as respects such party, which approval will be granted or withheld in the sole and absolute judgment of such parties, respectively.

(d) So as not to enter into any lease of any premises located within 1,000 feet of the Shopping Center without the prior written approval of two thirds of the parties as to the tenant and location, or any lease in the balance of such buildings without the prior written approval of the parties as to the tenant, which approval will not be unreasonably withheld.

(e) Subject to the provisions of this agreement, the Developing Party will, at all times during the term of this agreement, from and after the completion of the construction of its improvements and the common area, keep and maintain (or cause to be kept and maintained in good condition and repair) all completed portions of the center, including all landscaping.

The parties have executed this agreement on the date first above written.

Current Legal Forms for Real Estate
Chapter 22 DEVELOPMENT AND SUBDIVISION
Part IV. FORMS

D. COMMERCIAL DEVELOPMENT Shopping Centers, Industrial Buildings and Office Buildings

26-22 Current Legal Forms for Real Estate FORM 22.68

FORM 22.68 Bylaws of shopping center association

COMMENT

Associations of shopping center tenants are organized, in general, to enhance the business reputation of the center, to conduct advertising campaigns on behalf of all members, to maintain the appearance of the center, and otherwise to stimulate commercial activity in the center as a whole. This form illustrates the bylaws for an association whose membership is open to business tenants in a shopping center and their landlord.

Membership in such an association may be voluntary, or may be required by the terms of the shopping center leases. Substantial tenants in shopping centers frequently oppose compulsory membership in a merchants' association, and often possess sufficient bargaining power to negotiate a lease without such a requirement. Since the failure of the principal tenants to join such an association would make it largely ineffective, the leases for other tenants generally provide that membership is not required unless a specified minimum number or percentage of tenants joins the association. The landlord's interest in joining such an association stems from his direct financial interest in the quality and success of the shopping center tenants.

Under these bylaws, dues are to be levied at the annual meeting of the association. Assessments are apportioned among tenants according to their respective proportions of total floor space in the center. Owner-members may be assessed up to a specified maximum amount. If there are two or more owner-members, their total assessment is apportioned among them according to the amount of area owned by each of them. Dues paid to merchants' associations are deductible by both owners and tenants as ordinary and necessary business expenses.

FORM

Bylaws

of

Seaview Center Merchants Association, Inc.

Article I Name

The name of this corporation is Seaview Center Merchants Association, Inc., (the "Association").

Article II Members

1. Any person owning or having a regular and currently operating place of business within the Seaview Shopping Center, Centerville, Massachusetts, (the "Center"), and the landlord of such person, shall be eligible for membership in the Association upon his application therefor to the Association's Board of Directors and upon his subscription to these Bylaws. Any such person shall be admitted as a member only upon approval of his application by vote of the Board of Directors. The term "person," as used in these Bylaws, shall include an individual, association, partnership, corporation, and business trust.

2. Members may be expelled by the Board of Directors, in its discretion, for nonpayment of dues or assessments within such reasonable time as it may fix, or for any other good and sufficient cause. Except for nonpayment of dues or assessments, however, no member may be expelled until he has been given a hearing before the Board of Directors after reasonable notice of the proposed time and place thereof. A member expelled for any reason other than nonpayment of dues or assessments shall have the right to appeal from the action of the Board of Directors to the entire membership. Upon written request of such member to the President, the latter shall call a special meeting of the Association within 30 days after such request for the purpose of hearing such appeal. A vote of the Board of Directors expelling a member shall be overruled only on the vote of at least two-thirds of the membership of the Association present and voting at such meeting.

3. The resignation or expulsion of a member, or the termination of a member's business in the Center, shall automatically terminate such member's membership in the Association. Upon termination of a membership all interest of such member in and to the Association's property shall terminate and such member shall thereafter have no right thereto or to any part thereof. Such termination shall not relieve such member of any indebtedness to the Association, including indebtedness with respect to dues and other payments assessed in advance, prorated for the period ending with the date of termination of such membership. Any member who shall resign but who shall continue to own or have a regular and currently operating business within the Center, and any member who shall be expelled for nonpayment of dues or assessments or breach of any other rule, regulation, or Bylaw of the Association, shall also pay to the Association, upon such resignation or expulsion, an additional sum equal to one-quarter of such member's share of dues and assessments assessed to such member for the year in which he shall have resigned or been expelled.

Article III Meetings

1. Meetings of the Association shall be held annually at such time and place as the Board of Directors may decide. Notice of each annual meeting shall be sent to each member at least 15 days prior thereto.

2. Special meetings of the Association shall be called by the President at any time, either upon the order of the Board of Directors or the President, or upon the written request of any seven members. Notice of each such meeting, stating its purpose, shall be sent to each member at least 15 days prior thereto.

3. Any member of the Association whose dues and assessments have been paid in full may be represented at any meeting by any number of duly appointed delegates. No member shall be entitled to more than one vote, which shall be

cast by one of the delegates duly authorized by such member to cast such member's vote. In the absence of specific authority granted to a particular delegate, such member's vote shall be cast by a majority of the delegates present representing such member.

4. One-half of the members of the Association entitled to vote, including members represented by delegates, shall constitute a quorum at any meeting of the Association, and, except as otherwise specifically provided herein, any action shall be effective and valid if taken or authorized by at least a majority of all votes cast at a meeting.

5. The Board of Directors shall meet annually immediately after the annual meeting of the Association. Regular meetings of the Board of Directors shall be held at least once every three months and shall be called by the President. Notice of each meeting shall be sent to each Director at least four days prior thereto.

6. The President may call special meetings of the Board of Directors at any time, either upon the President's order or upon the written request of any three Directors. Notice of such meeting, stating its purpose, shall be sent to each Director at least two days prior thereto.

7. It shall not be requisite to the validity of any meeting of the Association or of the Board of Directors that notice thereof shall have been given to any member of the Association or of the Board of Directors who shall attend such meeting, or who, if absent, waives notice thereof in writing either before or after it is held.

Article IV Officers

The officers of the Association shall consist of a President, a Vice President, a Secretary, and a Treasurer, all of whom shall be either individual members, or officers, partners, or employees of members. All officers shall be elected at each annual meeting of the Association and shall serve until their successors have been elected and qualified. The offices of Secretary and Treasurer may be held by the same person. The duties of the officers shall be as follows:

1. The President shall be the chief executive officer. He shall, when present, preside at all meetings of the Association and the Board of Directors, and shall, in general, perform all duties incidental to the office of president of similar organizations, and such other duties as the Board of Directors may assign to him.

2. The Vice President shall perform the duties of the President in his absence or disability and shall perform such other duties as the Board of Directors may assign to him.

3. The Treasurer shall have charge of the Association's corporate seal, deposit all of the Association's funds in such depositories as the Board of Directors may select, pay all of the Association's bills, collect all moneys due the Association, and keep full and accurate books of account of all moneys received and paid out for the Association. Such books and accounts shall be constantly open to the inspection of each officer and Director. The Treasurer shall upon request of the Board of Directors, and in any event at least once in each year, render to the Board of Directors and the Association a complete statement of the Association's financial position. In addition, the Treasurer shall perform all other duties incidental to the office of treasurer of similar organizations, and all duties that the Board of Directors may assign to him. The Treasurer shall give a bond for the faithful discharge of his duties if and when the Board of Directors so requires.

4. The Secretary shall attend all meetings of the Board of Directors and the Association, shall keep full and accurate records of all proceedings at such meetings, and shall perform all other duties incidental to the office of secretary of similar organizations and all duties which the Board of Directors may assign to him. He shall have custody of the Association's record books, and shall give notice of all meetings of the Association and the Directors in the manner prescribed by these Bylaws.

Article V
Board of Directors

The Board of Directors shall consist of the elected officers of the corporation and those persons elected as Directors by the members. There shall be no more than eight Directors, including the officers, and no member shall have more than one representative on the Board of Directors. The elected Directors shall serve for a term of one year. The Board of Directors shall have supervision of the affairs and interests of the Association and shall perform such duties as may from time to time be referred to it. The Board of Directors may fill the vacancies caused by the death or resignation or ineligibility of any officer or Director. Any such substitute appointee shall serve for the unexpired term. A majority of the Board of Directors shall constitute a quorum.

Article VI Committees

There shall be a standing committee of the Association, called the Advertising Committee. The members of this committee shall be the officers of the Association and such other members as shall be elected at the annual meeting of the Association. There shall be such other committees as the Board of Directors shall from time to time determine to be desirable in the operation of the Association. Such committees shall serve for one year or until their successors are appointed. Such committees shall have such duties and responsibilities as the Board of Directors may assign to them, and shall make reports at least semi-annually to the Board of Directors and annually at the meeting of the Association.

Article VII Dues

1. The total annual dues payable by all tenant members shall be assessed annually by the Association at its annual meeting. The portion of such total dues payable by each tenant member shall be determined according to the proportion of the total square foot area of floor space in the Center occupied by such member.

Article V Board of Directors

The Board of Directors shall consist of the elected officers of the corporation and those persons elected as Directors by the members. There shall be no more than eight Directors, including the officers, and no member shall have more than one representative on the Board of Directors. The elected Directors shall serve for a term of one year. The Board of Directors shall have supervision of the affairs and interests of the Association and shall perform such duties as may from time to time be referred to it. The Board of Directors may fill the vacancies caused by the death or resignation or ineligibility of any officer or Director. Any such substitute appointee shall serve for the unexpired term. A majority of the Board of Directors shall constitute a quorum.

Article VI Committees

There shall be a standing committee of the Association, called the Advertising Committee. The members of this committee shall be the officers of the Association and such other members as shall be elected at the annual meeting of the Association. There shall be such other committees as the Board of Directors shall from time to time determine to be desirable in the operation of the Association. Such committees shall serve for one year or until their successors are appointed. Such committees shall have such duties and responsibilities as the Board of Directors may assign to them, and shall make reports at least semi-annually to the Board of Directors and annually at the meeting of the Association.

Article VII Dues

1. The total annual dues payable by all tenant members shall be assessed annually by the Association at its annual meeting. The portion of such total dues payable by each tenant member shall be determined according to the proportion of the total square foot area of floor space in the Center occupied by such member. Annual dues shall be payable in

equal monthly installments on or before the first day of each month.

2. Members who are owners of premises in the Center may be assessed for a total amount not greater than \$5,000 per year. If there are two or more members who are owners, the portion of such total amount payable by each such member shall be in proportion to the respective areas owned by such member in the Center.

Article VIII Use of funds

The funds of the Association shall be used only for the purposes specified in the articles of organization, in behalf of its members as a whole, and for its necessary expenses. The primary purpose for the expenditure of funds shall be to increase the sale of merchandise or services by the members of the Association by general advertising and promotional activities. Funds shall not be used for entertainment of the members, or to pay business expenses or charitable contributions on behalf of individual members. No profits or dividends shall be distributed to any member of the Association.

Article IX Fiscal year

The fiscal year of the Association shall be the calendar year, except that the first fiscal year shall begin as of the date of the articles of organization of the Association and shall end on the succeeding December 31st.

Article X Amendments

These Bylaws may be amended at any meeting of the Association by a two-thirds vote of the members represented at the meeting, provided that an explanation of the proposed amendment shall have been included in the notice of the meeting.

Chapter 22 DEVELOPMENT AND SUBDIVISION
Part IV. FORMS

D. COMMERCIAL DEVELOPMENT Shopping Centers, Industrial Buildings and Office Buildings

26-22 Current Legal Forms for Real Estate FORM 22.69

FORM 22.69 Mandatory merchants' association--constitution and by-laws

COMMENT

Leases for space in retail shopping malls routinely provide that all tenants must join a new or pre-existing merchants' association, consisting of all the tenants in the development, both present and future. The purpose of these associations is to promote all of the businesses within the mall without any advertising expense accruing to the landlord.

In the form below, the merchants are assessed a fee each month, based on the size of each tenant's space when compared to the total amount of space rented to all merchants in the association. The board of managers of the association must use the funds for advertising at least once each month. The funds may also be used for promotional activities, such as hiring actors to play Santa Claus and his elves at Christmas time, or the Easter Bunny. Funds may not be used for other purposes without the approval of the membership at large.

The board of managers must account to the members on a quarterly basis for its use of the funds. The monthly assessment amount can only be changed at the end of each year, with the new amount taking effect in the new year. Under the terms of the constitution and by-laws, the change goes into effect shortly before the annual election of members to the board of managers. Thus, the first adjusted payment of the new year will be due only a few days before the election. This timing can serve as an effective way of making certain that assessment amounts remain reasonable. Obviously, managers who support increases that are too high will not be re-elected.

The landlord retains one seat out of five on the board of managers. This fact gives the landlord some control over the types of promotions and advertising to be used. Such a measure of control is important to landlords who will, of course, want to maintain a certain atmosphere at their malls. For example, certain shopping malls are considered "upscale," while others are geared towards

discount shopping. Accordingly, the landlord and its tenants will undoubtedly want to guard against any "blurring of the lines" that can be caused by inappropriate advertising and promotions.

The landlord collects the monthly assessments along with the rent. Failure to pay an assessment can render the tenant liable for interest payments on the unpaid amount and subject the tenant to an eviction action.

Finally, the constitution and by-laws may be amended by a two-thirds vote of the membership. The amended constitution and by-laws must be provided to the landlord for distribution to future tenants. However, amendments cannot impair the existing rights of the landlord.

FORM

_____ [insert name of mall, e.g., MIDDLEGROVE MALL] **MERCHANTS' ASSOCIATION: CONSTITUTION AND BY-LAWS**

WHEREAS, the leases for each of the stores in the retail shopping center known as _____ [insert name of mall, e.g., Middlegrove Mall] provide that the tenant shall be a member of the _____ [insert name of mall, e.g., Middlegrove Mall] Merchants' Association; and

WHEREAS, the _____ [insert name of mall, e.g., Middlegrove Mall] Merchants' Association requires a set of organizational documents under which to operate,

It is hereby declared as follows:

1. *Name.* The name of the association shall be the _____ [insert name of mall, e.g., Middlegrove Mall] Merchants' Association.

2. *Address.* The association shall have offices at _____ [insert address; the address will usually be the same as that of the mall]. The merchants' association shall be entitled to use one office in the mall's administrative center.

3. *Form of association.*

(a) The association shall not incorporate, but shall instead operate as an unincorporated association.

(b) Each tenant shall be a member of the association pursuant to the terms of its lease.

(c) Each tenant shall have one vote for every _____ [e.g., 1,000] square feet of space contained in its unit. However, no tenant, regardless of the space in its unit, shall have more than _____ [e.g., ten (10)] votes.

(d) The association shall be governed by a board of managers which shall be elected annually. There shall be _____ [e.g., five (5)] members on the board of managers. One of the _____ [e.g., five (5)] seats shall belong to the landlord and shall not be subject to election. This provision 3(d) may not be amended without the consent of the landlord. The annual election of the board shall be held on _____ [e.g., the first Friday of January occurring after January 10th].

4. Elections.

(a) Any member may nominate another member for election to the board of managers by sending a written nomination to the exiting board of managers.

(b) Any member may nominate a member for election to the board of managers at the annual meeting to be held on _____ [e.g., the Friday before the election].

(c) One written ballot per vote allowed shall be provided to each member on the day of the election. Ballots shall be placed in the ballot box, located in the association office, by _____ [e.g., 5:00 p.m.] on the day of the election. The existing board of managers shall count and tally the ballots. The _____ [e.g., four (4)] members receiving the greatest number of votes shall be deemed elected. The new members shall take office the following day.

5. Annual membership meetings.

(a) There shall be an annual meeting of the members on _____ [e.g., the Friday before the election].

(b) There shall be such other meetings as shall be called by the board of managers.

(c) Any _____ [e.g., three (3)] members of the association may request the board of managers to call a meeting. Such a meeting shall be held within _____ [e.g., ten (10)] days thereafter.

(d) Notice of all meetings shall be mailed to all members at least _____ [e.g., five (5)] days before any meeting. The notice shall specify the date, time and place of the meeting. Members may, through a signed writing, waive their right to receive notice of upcoming meetings.

6. Board meetings.

(a) The board of managers shall meet in the association office on _____ [e.g., the first Monday of each month, at 6:00 p.m.].

(b) There shall be such other meetings as shall be called by the board of managers from time to time.

(c) Oral notice of a special meeting shall be given at least _____ [e.g., twenty-four (24)] hours prior to the special meeting. Members of the board of managers may waive the right to receive notice of special meetings through a signed writing.

7. Duties of board of managers.

(a) The board of managers shall determine the monthly assessment fee for advertising and promotions at the mall. For the first year, the monthly assessment shall be: _____ [e.g., not less than \$ _____ per square foot of the member's unit, nor more than \$ _____ per square foot]. The board of managers may adjust the assessment in _____ [e.g., December] of each year. Such adjustment shall take effect the following year.

(b) The board of managers shall prepare, or cause to be prepared, advertising circulars to be placed in local newspapers, or to be distributed through direct mail, no less often than once per month. All advertisements shall contain at least one prominent reference to each tenant's business, both by name and product.

(c) The board of managers shall sponsor seasonal promotional events--such as hiring an actor to portray Santa Claus at Christmas--as needed.

(d) The board of managers may hire such staff or consultants as are deemed necessary or appropriate to carry out the duties set forth herein.

(e) The board of managers shall provide a quarterly accounting of the assessment payments received and expenses paid.

8. Assessments.

(a) The assessment fee shall be billed by the landlord with the monthly rent. The failure to pay assessments is a default under Paragraph _____ [e.g., 2(b)] of each and every lease. The association may sue the defaulting tenant-member directly, or landlord may seek to evict tenant for non-payment. Interest, at the rate of _____ [e.g., nine (9)] percent per annum, shall be added to any assessment not received by _____ [e.g., the 10th day of the month in which it is due].

(b) Assessment fees may only be used for advertising and promotional activities, unless some other usage is approved by a majority of members at a meeting.

9. Amending the constitution and by-laws.

(a) The constitution and by-laws may be amended by a _____ [e.g., two-thirds (2/3)] vote of the entire membership at any meeting. However, notice of the proposed amendment shall be sent to all members at least _____ [e.g., five (5)] days prior to the meeting.

(b) No amendment may impair the right of the landlord to one seat on the board of managers.

(c) The text of any amendment which is approved shall be provided to landlord immediately for attachment to future leases.

(d) The amendment, by its terms, shall state the date on which it becomes effective.

I have set my hand and seal this _____ [day] day of _____ [month],
_____ [year].

President and Owner

_____ [insert name of mall, e.g., MIDDLEGROVE MALL]

Current Legal Forms for Real Estate

Chapter 22 DEVELOPMENT AND SUBDIVISION

Part IV. FORMS

D. COMMERCIAL DEVELOPMENT Shopping Centers, Industrial Buildings and Office Buildings

26-22 Current Legal Forms for Real Estate FORM 22.70

FORM 22.70 Contract for sale of land to be developed by purchaser as industrial park, and for office or commercial purposes--parcels sold for different prices and at different times

COMMENT

The seller owns a large tract of land that is located in the same general area, but is separated into different parcels, some of which are geographically separate because of roadways running through the property. The purchaser is a developer who wants to tie up the entire tract, but reserve the right to take down the parcels at different times as needed for the overall development. The seller has required the purchaser to submit a Master Plan for the overall project, subject to the seller's approval and to the approval of the city in which the property is located.

The seller has allowed the purchaser to tie up the entire parcel because there are time limits imposed on the purchaser within which the parcels must be purchased. The time periods can be extended, but only by the payment of additional deposits by the purchaser.

The purchase price per acre in a particular parcel varies because the acreage in certain parcels is more valuable because of its location and usability. Because the price is tied to the amount of acreage, Section 2(c) defines acreage to mean the number of acres calculated to the nearest 1/100 th of an acre, but excluding acreage lying in a right of way used for any highway, road, access easement or railroad right of way. In addition, depending on the parcel being acquired, the price is tied to the "Total Number of Buildable Acres" as defined in Section 2(d). The term Total Number of Buildable Acres as defined in Section 2(d) means the total number of acres reduced by the number of acres in the parcel which are determined to be unbuildable because of adverse soil conditions or the existence of wetlands unless such acreage can be used as open or green space by the purchaser. As stated in Section 13, a registered surveyor or professional engineer must make this determination.

FORM**AGREEMENT**

THIS AGREEMENT is by and among all persons executing the signature page hereof as a seller (collectively, "Seller"), and MAX TURNER, TRUSTEE ("Purchaser").

WITNESSETH:

WHEREAS, Seller is the owner of approximately 201.73 acres of real property (the "Land") situated in the City of Streetsboro, County of Portage, State of Ohio, and depicted on the map attached hereto as Exhibit A and made a part hereof (the "Map"); and

WHEREAS, Purchaser desires to obtain rights to purchase the Property, and Seller has agreed to grant such rights, all on and subject to the terms, conditions, and provisions set forth in this Agreement;

NOW, THEREFORE, Seller and Purchaser hereby agree as follows:

1. The Property; the Master Plan. (a) The term the "Property," as used in the Agreement, shall mean the Land and all buildings and improvements thereon, together with all rights, privileges, easements, and appurtenances thereunto belonging, all mineral, oil, and gas rights, and all rights, if any, to adjacent roads, streets, and highways.

(b) For purposes of this Agreement the Property shall be considered divided into parcels, as preliminarily depicted on the Map and generally described herein as follows:

(i) "Parcel A" shall be the approximately 20 acres of the Property designated as "A" on the Map.

(ii) "Parcel B" shall be the approximately 20 acres of the Property designated as "B" on the Map.

(iii) "Parcel C" shall be the approximately 76 acres of the Property designated as "C" on the Map.

(iv) "Parcel C1" shall be the approximately 5.6 acres of the Property designated as "C1" on the Map.

(v) "Parcel D" shall be the approximately 15 acres of the Property designated as "D" on the Map.

(vi) "Parcel E" shall be the approximately 65.13 acres of the Property designated as "E" on the Map.

Each of the Parcels identified in this subsection sometimes is referred to individually as a "Parcel" and two or more of such Parcels sometimes are referred to together as "Parcels."

(c) Each of Seller and Purchaser recognizes that the Map is not to scale and the delineations of the Parcels is representative and preliminarily descriptive only. The final locations of the Parcels shall be as set forth on the Master Plan defined in Section 1(d) below. The legal description of the Property and each of the Parcels shall be prepared by the Surveyor, as hereinafter defined, in the manner set forth in Section 13 below.

(d) Within 30 days of Purchaser's receipt of a counterpart of this Agreement executed by each person (and such person's spouse, if any) who owns a fee simple interest in and to all or any part of the Property (such date of receipt hereinafter
