him as the value of the underlying equity security *decreases*. n35 The crucial point is that, under Rule 16b-6(a), an insider who establishes or increases a "call equivalent position" or liquidates or decreases a "put equivalent position" is deemed to have a "purchase" for purposes of Section 16(b), while a person who establishes or increases a "put equivalent position" or liquidates or decreases a "put equivalent position" is deemed to have a "sale" for purposes of Section 16(b). n36

[ii] Interpretations Limiting Scope of Definition for Policy Reasons. The Commission staff has been forced to recognize that the extremely broad definition of "derivative securities" can subject transactions to reporting and liability when such results are unexpected and undesirable. Therefore, the staff has granted interpretive relief concluding that rights that otherwise appeared to constitute derivative securities would not be treated as derivative securities in the following cases:

(1) An insider's right of first refusal and a right to participate in a sale by another stockholder that arose under a stockholders' agreement were not viewed as "derivative securities" even at the point such rights are triggered. n37 When triggered, it appeared that such rights would constitute a right to acquire or dispose of equity securities at a fixed price which would have, absent staff relief, constituted a derivative security reportable under Section 16(a). As in the case of overallotment options, n38 the fact that the rights would have sprung to life as derivative securities and, if not exercised, expired within less than six months could have given rise to short-swing profits liability under Rules 16b-6(a) and 16b-6(d) (deeming the acquisition of such rights to be a purchase or sale, and the expiration of such derivative security unexercised as a matchable sale or purchase), absent interpretive relief.

(2) An insider's award that, under Rule 16a-1(c), becomes a derivative security but is then exercised on the same day has been treated as not constituting a separate reportable derivative security, but instead as simply a single transaction in which beneficial ownership of shares is acquired. n39

[iii] "Grandfathering" of Instruments Granted Before May 1, 1991 as Non-Derivative Securities.

The 1991 definition of "derivative securities" caused many kinds of instruments, particularly rights that could be settled only for cash under employee benefit plans, to become subject to Section 16 reporting and liability for the first time. Under transition provisions announced by the Commission, these rights are "grandfathered" as being not subject to Section 16 if the rights were granted before May 1, 1991 or, in certain cases, before August 15, 1996.

Under the pre-1991 version of the Section 16 rules, the question had frequently arisen whether interests with a value measured by reference to equity securities (such as "phantom shares") under an incentive or deferred compensation plan represented "beneficial ownership" of "equity securities" that was reportable under Section 16(a) (on Forms 3 and 4) and subject to potential short-swing profits liability under Section 16(b). No rule specified the treatment of these interests, but the Commission staff consistently concluded, in a long line of interpretive letters, that rights to future payments valued by reference to common stock but which could only be settled in cash did not represent reportable beneficial ownership of equity securities. n40 In some cases under the old rules, plan interests that were not strictly "cash-only" were also treated as not constituting beneficial ownership of equity securities. Thus, the Commission staff occasionally granted reporting relief where insiders acquired plan interests that could be settled in issuer stock, although this line of interpretive letters was not consistent (unlike the cash-only letters), and, even when it issued a favorable interpretive letter, the SEC staff often insisted that it did not necessarily agree with the legal analysis put forward by issuer's counsel. n41

The Commission took two steps to ameliorate the effect of its 1991 rules on cash-only employee benefit plan arrangements. First, the Commission announced a transition provision that grandfathered, as not subject to Section 16, all cash-only employee benefit plan instruments that had been awarded prior to May 1, 1991 in reliance on the prior staff interpretations. n42 No similar relief has been provided in the case of instruments granted prior to May 1, 1991 that

are not strictly cash-only, and the staff has taken the position that such instruments became reportable as derivative securities under the new rules. n43 Second, the Commission adopted two exclusions from the definition of "derivative securities" for certain "cash-only arrangements". These exclusions, originally set forth in Rule 16a-1(c), were repealed in 1996 in connection with the Commission's amendments to expand the Rule 16b-3 exemptions. Again, however, the Commission grandfathered instruments that had been issued prior to August 15, 1996 in reliance on the two exclusions.

[A] The 1991-1996 Exclusions for Certain Cash-Only Rights. The two exclusions from the definition of derivative security originally adopted in 1991 covered "securities that may be redeemed or exercised only for cash" and that either satisfied certain (but not all) of the conditions of Rule 16b-3 as it existed during the time of the exclusion, or that had a "fixed" date of redemption. The Commission staff took the position that these exclusions were available only for employee benefit plan arrangements. n44 Although repealed in 1996, the exclusions have continued significance in light of the number of incentive and deferred compensation plans implemented in reliance on the exclusions and the continued "grandfathered" status of instruments and rights issued before August 15, 1996 under such arrangements.

The threshold issue in the application of the two exclusions is whether a right that might otherwise be a derivative security is a "cash-only" right. To qualify, the right must have been redeemable or exercisable "only for cash and... not permit the receipt of equity securities in lieu of cash." Thus, not only must the right not be settleable in actual shares of common stock, but the right must not be in tandem with other awards that could be exercised to acquire common stock. n45

The first exclusion, ("Exclusion (i)") applied to rights awarded under an employee benefit plan that meet three of the requirements then available to exempt employee benefit plan transactions. n46 The first requirement was that a plan be in writing and set forth the "means or basis for determining eligibility to participate" as it applies to directors and officers, and "either the price at which the securities may be offered and the amount of securities to be awarded or the method by which the price and the amount of the award are to be determined." n47 The second requirement was that either the plan or a written agreement with the director or officer impose transfer restrictions on the rights issued under the plan. Finally, the exclusion required that the plan either be administered by disinterested directors or that grants or awards be made pursuant to a formula that eliminates discretion from the award process. n48 Of significance of the time, the exclusion did not require the plan to have been approved by shareholders.

Under the second exclusion, ("Exclusion (ii)"), cash-only securities which "may be redeemed or exercised only upon a fixed date or dates at least six months after award, or incident to death, retirement, disability or termination of employment" were excluded from the definition of "derivative securities." Exclusion (ii) was widely relied upon to exclude deferred compensation plan interests, including phantom shares, from the definition of "derivative securities."

The Commission staff took the position that Exclusion (ii) was available to cover interests acquired as a result of a participant's election to defer compensation. n49 This appears to be a broader interpretation of the term "award" than will be given that term under Exclusion (i) or under Rule 16b-3(c)'s exemption for "grant or award" transactions.

In stretching the term "award" under Exclusion (ii), however, the staff may have exacted a price. The staff stated:

Deferred compensation arrangements not otherwise viewed as awards nonetheless may satisfy the requirements of [old] Rule 16a-1(c)(3)(ii) if the deferred compensation is paid automatically upon death, disability or termination of employment, or upon the occurrence of a fixed date at least six months after acquisition of the cash-only right received from the issuer in a compensatory arrangement (see also footnote 136 of Release No. 34-28869). The participant may not have any further discretion once the decision to defer a specified amount has been made, other than to cease deferral or change the level of future deferrals. n50

The staff consistently took the position that participants can have little or no discretion in electing to redeem or exercise

rights under a deferred compensation plan meeting the requirements of Exclusion (ii), including positions that:

- discretion to switch the form of investment of deferred compensation did not satisfy Exclusion (ii)'s "fixed date" requirement; n51
- payouts triggered by a change in control did not satisfy Exclusion (ii)'s "fixed date" requirement (at least in the absence of an actual termination); n52
- payouts in the discretion of an administrator, based on the participant's severe financial hardship, did not satisfy Exclusion (ii)'s "fixed date" requirement; n53 and
- the ability of the participant to elect a payout on one of two or more fixed dates did not satisfy Exclusion (ii)'s "fixed date" requirement. n54

In view of the stringent restrictions required for compliance with Exclusion (ii), issuers sought to limit the application of such restrictions under deferred compensation plans only to insiders, and then only for the period of time that such participants were insiders. The Commission staff agreed that awards subject to such restrictions met the requirements of Exclusion (ii). n55

[B] Scope of the Grandfather for Cash-Only Rights.

Both when it first adopted the definition of derivative security that covered cash-only rights and when it repealed the two initial exclusions from that definition, the Commission announced that cash-only instruments issued prior to the effective dates of the respective rule changes would remain exempt from Section 16. Nevertheless, a significant interpretive issue remained as to the scope of "instruments" entitled to enjoy grandfathered status. Typically, cash-only interests in the nature of phantom shares would provide that the participant is credited with additional phantom shares as a deemed reinvestment of "dividend equivalents" on each dividend payment date. Thus, participants who acquired such cash-only plan interests before the grandfathered cut-off date, could expect to receive additional cash-only plan interests thereafter on quarterly dividend payment dates. Moreover, some plans allow participants to switch the method by which the cash-only interests are valued, from phantom shares to other forms of investment and back into phantom shares. If these and other kinds of transactions were viewed as involving new acquisitions of instruments not covered by the Commission's "grandfathering" position, such instruments might represent derivative securities subject to reporting and potential liability (unless excluded under the more stringent provisions of new Rule 16a-1(c)(3)).

The Commission staff resolved these issues by issuing the following interpretation:

Phantom units issued prior to May 1, 1991 pursuant to deferred compensation plans deemed to be cash-only by staff interpretation are not subject to Section 16. With respect to pre-May 1 account balances in such plans, transactions occurring on or after May 1 involving either transfers between a phantom stock unit and a cash account, the crediting of dividend equivalents, or the distribution of compensation previously deferred upon the occurrence of specified change in control events will continue not to be subject to Section 16. n56

The Commission took the same position in 1996 when it repealed the two exclusions for cash-only employee benefit plan instruments. At that time, citing the foregoing staff interpretation, the Commission stated:

Cash-only instruments excludable from the definition of "derivative security" under current Rule 16a-1(c)(3) originally issued before the Effective Date [August 15, 1996] will remain exempt from the reporting requirements of Section 16(a) after the Effective Date. With respect to such cash-only securities, a transaction on or after the Effective Date that is consistent with the conditions of the

exclusion pursuant to which the security was issued also will not be subject to Section 16. n57

In effect, the staff has concluded that cash-only interests granted in reliance on the old interpretive letters should be immune from regulation under the new Rules through the "life-cycle" of the interest.

[c] Scope of General Definition of "Derivative Securities." New Rule 16a-1(c) generally defines the term "derivative securities" to mean:

any option, warrant, convertible security, stock appreciation right, or similar right with an exercise or conversion privilege at a price related to an equity security, or similar securities with a value derived from the value of an equity security...

This general definition contains two distinct tests: First, a right could be a "derivative security" because it is a right to acquire, by exercise or conversion, actual shares of common stock or some other equity security (which includes other derivative securities.) n58 Second, a right could be a "derivative security" because it has a "value derived" from the value of common stock or some other equity security. Of course, instruments that come within the general definition of derivative securities may still be excluded by the "exclusions" contained in Rule 16a-1(c)(1) through (7), discussed in § 8.03[2][d] below. n59

[i] Exercisable and Convertible Instruments. The first part of Rule 16a-1(c)'s general definition specifies that certain instruments with an exercise or conversion privilege at a price related to an equity security are derivative securities. Under this test, the following instruments have been deemed to be derivative securities:

- Stock options, including market-traded standardized options and options issued under employee benefit plans. n60
- Warrants. n61
- Convertible debentures, stocks with conversion privileges, options and other rights to exchange. n62
- Stock appreciation rights. n63
- Rights, in the nature of stock depreciation rights, that provide for payments in the event of a decrease in market value of shares over a period of time. n64
- Dividend equivalent rights, entitling holders to receive additional shares or options at times dividends are otherwise paid on shares, with values equal to the amount of such dividends. n65
- A non-recourse note given for the purchase of stock, where the note is secured by the stock. n66

A number of interpretive difficulties have arisen over the years in applying the definition of "derivative security" to a wide variety of situations. The treatment of stock appreciation rights ("SARs") as a separate kind of derivative security has raised some difficult issues for the Commission and its staff. Of course, because an SAR allows the holder to profit from appreciation in the market price of the issuer's stock, there can be no doubt that a derivative security is present. But, of the economic rights and obligations that comprise an SAR, only one component would appear to be a derivative security. In other words, a SAR could be viewed as an option to acquire stock at a fixed price coupled with a right to resell some or all of such stock to the issuer at an unfixed price. n67 A right to sell shares at a price that is not fixed does not, by itself, represent a derivative security. n68 In contrast to this approach in which the complex economic rights and obligations making up an SAR are examined as separate components, Rule 16a-1(c)'s general definition of "derivative securities" simply includes SARs as a distinct type of derivative security.

Interpretive difficulties have resulted because the Commission and staff have not been consistent in treating an SAR as a complex right with a derivative security component or as a unitary derivative security. For example, the Commission and its staff have insisted that exercises of SARs for cash be reported in three "component" parts. n69 This method of reporting assumes that an exercise of an option for shares, and payment of the exercise price, is implicit in the exercise of an SAR for cash. The Commission and staff have also concluded that the exemption under Rule 16b-6(b) for exercises of derivative securities would exempt the component of an SAR exercise that resembles an exercise of an option for stock, but would not exempt the component that resembles an implicit sale of such stock. n70

In contrast, the Commission has taken the position that the exercise of an SAR for stock would be reported as a unitary transaction, in the same manner as an option exercise, and that the acquisition of stock upon such exercise would be exempt under Rule 16b-6(b). n71 This position ignores the economic components of the SAR exercise, distinguished with such care in the case of SARs exercised for cash. The only economic difference between the exercise of an SAR for stock and an exercise for cash is that the number of shares assumed to be sold in the exercise for stock is limited to the number required to pay the exercise price of the deemed option.

The Commission and staff have alternated between these two positions, generally looking at components of SAR-like rights in order to restrict relief under the Rule 16b-6(b) exemption for exercises but treating cash-out rights as unitary SARs, separate from other derivative securities, in order to broaden reporting requirements and the risk of liability for separate "grants" of SARs.

One area where these competing interests emerged was the treatment of cashless withholding rights which are commonly granted to insiders to enable them to elect to have shares issuable upon exercise of an option withheld to satisfy tax obligations. n72 The insider already has one reportable derivative security, the option to which the cashless withholding rights relate. Rather than viewing the cashless withholding right as merely an added component to the option which simply allows the resale of the option shares to the issuer at the market price prevailing at the date of exercise--a right exercisable at an unfixed price and thus not a separate derivative security--the Commission staff initially took the position that the cashless withholding right as a whole is a separate derivative security for which separate reporting is required. n73

The staff carried this interpretation over to the context of restricted stock, even concluding that cashless withholding rights relating to restricted stock constitute a derivative security. n74

In 1996, the Commission reversed the staff's interpretation as to tax withholding rights n75 Stating that such rights "as well as the right to have securities withheld in satisfaction of an exercise price, properly may be viewed as an integral feature of the related security," the Commission adopted an amendment to expressly exclude such rights from the definition of "derivative security." n76

The Commission staff has confirmed that a broker-assisted cashless exercise feature will not be viewed as a tandem cash component that rises to the level of a separate, SAR-like derivative security. n77 Under this kind of feature, the issuer coordinates option exercises with the optionee's broker, enabling the broker to immediately resell some or all of the option shares and to pay over to the issuer a portion of the proceeds (or an advance thereon) sufficient to cover the exercise price and, in some cases, withholding taxes. Because neither the issuer nor the broker is contractually bound to repurchase the shares, this kind of feature clearly should not be considered a derivative security. n78 The staff also appears to have taken the practical position that rights to cash in lieu of fractional shares need not be treated as tandem cash components and SARs if the shares to be cashed out were acquired in exempt transactions. n79

Another area where the staff has issued interpretations that, while pragmatic, may not be consistent with the definition of "derivative security" is where there are conditions to the ability to profit from a derivative security position. The staff has stated that an instrument that is subject to certain conditions which, if not satisfied, will preclude exercise,

conversion, or exchange will cause the instrument not to be considered a derivative security. Thus, if performance conditions must be met in order for an option to become exercisable, such option will not be deemed a derivative security until such conditions are satisfied. n80 Similarly, rights to acquire an unfixed or "floating" amount of shares, where the amount of shares to be acquired is determined by performance measures, are not considered derivative securities. n81 If a decision-maker independent of the insider has the power to determine whether or not the insider may exercise, convert or exchange his rights, such rights will not be deemed derivative securities prior to a decision. n82 However, conditions to exercise, conversion, or exchange that merely require the passage of time, continued employment, or the increases or decreases in the market prices of equity securities will not prevent such instruments from being deemed derivative securities. n83 Although not free from doubt, it appears that rights that can be exercised only in the event of a change in control of the issuer will constitute derivative securities, despite the conditional nature of such rights. n84

[ii] Instruments With Value Derived From Equity Securities. Under the second test of the general definition of "derivative securities" in Rule 16a-1(c), rights that are "similar" to those specified in the Rule may also be derivative securities if they have "a value derived from the value of an equity security." While this definition is clearly quite broad, the Commission staff has taken interpretive positions that have defined some of the boundaries of this definition.

The Commission staff initially took a position that performance awards that provide for varying levels of payment based on the issuer's earnings per share, return on equity, or other financial performance ratios could constitute "derivative securities" because reference to such ratios allowed the awards to "derive value" from equity securities. n85 The Commission staff apparently reasoned that, while market prices of equity securities are not directly linked to financial performance measures, the indirect links were strong enough to justify treating such measures as "components" of equity securities.

Subsequently, the Commission staff reversed this position, recognizing that rights to payments linked to financial performance measures (other than market prices of equity securities) should not be deemed "derivative securities" under the Rule 16a-1(c)'s general definition. n86 Subsequently, the staff extended this position, concluding that even where the changes in market price are considered in an award valuation formula, if factors unrelated to market price also substantially affect the valuation, such award will not be deemed a "derivative security." n87

Nevertheless, it remains clear that instruments, such as "phantom shares," that have a value that is linked directly to market values of issuer (and which are not subject to performance conditions) stock, will be deemed derivative securities under the general definition of Rule 16a-1(c). n88

[d] Exclusions From the Definition of "Derivative Securities." New Rule 16a-1(c) contains six specific exclusions from the definition of "derivative securities." Excluded are:

- (1) rights of a pledgee of securities to sell the pledged securities; n89
- (2) rights of all holders of a class of securities of an issuer to receive securities pro rata, or obligations to dispose of securities, as a result of a merger, exchange offer, or consolidation involving the issuer of the securities; n90
- (3) rights or obligations to surrender a security, or have a security withheld, upon the receipt or exercise of a derivative security or the receipt or vesting of equity securities, in order to satisfy the exercise price or tax withholding consequences of receipt, exercise or vesting; n91
- (4) interests in broad-based index options, broad-based index futures, and broad-based publicly traded market baskets of stocks approved for trading by the appropriate federal governmental authority; n92

- (5) interests or rights to participate in employee benefit plans of the issuer; n93
- (6) rights with an exercise or conversion privilege at a price that is not fixed; n94 or
- (7) options granted to an underwriter in a registered public offering for the purpose of satisfying over-allotments in such offering. n95

[3] Beneficial Ownership

[a] Beneficial Ownership Generally. The concept of beneficial ownership is central to the reporting requirements imposed by Section 16(a) of the Exchange Act. Section 16(a) requires any person who is a Section 16 insider to file with the Commission an initial statement of all equity securities of which he is the "beneficial owner," and, generally within two business days of any change in such "ownership," a statement reporting such change in beneficial ownership and the amount of equity securities owned following the reported transaction.

Thus, the equity securities (and derivative securities) n96 beneficially owned by an insider must be listed on the initial Form 3, and changes in such ownership typically will trigger the need to file subsequent Form 4s. n97 Under the rules adopted in 1991, some changes in beneficial ownership that might otherwise trigger Form 4 filing obligations are now reportable instead on a year-end Form 5. n98 As a result of perceived abuses arising from this delayed reporting and investor interest in learning of insiders' transactions, in 2002 Congress amended Section 16(a) and the Commission adopted revised reporting rules. These changes had the effect of requiring most Forms 4 to be filed within two business days of a transaction and requiring exercises and conversions of derivative securities as well as most employee benefit plan and other transactions covered by Rule 16b-3 to be subject to this two business day reporting requirement, instead of being eligible for delayed reporting on Form 5. n99 However, the rules allow modified two-day reporting in two specific circumstances. n100 Pursuant to Rule 16a-3, transactions pursuant to trading plans that satisfy the affirmative defense conditions of Rule 10b5-1(c) must be reported on the earlier of two business days after the date on which the broker or stock option plan administrator notifies the insider of the execution or five business days after the trade date. n101 Discretionary transactions must be reported on the earlier of two business days after the date on which the stock option plan administrator notifies the insider of the execution or five business days after the trade date. n102 Neither of these special rules are available, however, if the insider directly or indirectly selects or controls the date of the transaction.

Without formally defining additional terms, the Commission and its staff have come to use the term "holdings" to refer to the beneficial ownership of equity securities reported in initial Form 3s and the month-end and year-end beneficial ownership reported on Forms 4 and 5, and the term "transactions" to describe changes in beneficial ownership that trigger Form 4 or Form 5 filing obligations. n103

Section 16(a) uses the term "beneficial owner" in an additional sense, to define who is a Section 16 insider. Section 16(a) states that persons who are directly or indirectly the "beneficial owner" of more than ten percent of any class of equity securities registered under Section 12 of the Exchange Act are, like directors and officers of the issuers of such equity securities, subject to reporting obligations. n104 This statutory provision would give the impression that a single concept of beneficial ownership applies for both purposes, but, as discussed above, the Commission has adopted a special definition of "beneficial owner" for purposes of determining who is an insider, with a separate definition of "beneficial owner" to be used "for all other purposes." n105

The definitions of "beneficial ownership" were added to the rules under Section 16 in 1991. n106 Before the adoption of Rule 16a-1(a), no formal definition of "beneficial ownership" had been put forth by the Commission, and no precise definition had evolved in the cases. n107

The Commission not only sought to define the term "beneficial ownership," it sought also to read the term into the

statutory provisions of Section 16(b), and to do so in a way that would broaden short-swing profits liability. n108 Section 16(b) itself uses the term "beneficial owner" only as a convenient reference to persons who are, as 10% shareholders, insiders subject to potential short-swing profits liability. The substance of Section 16(b) is that an insider must disgorge any "profit realized by" the insider from purchases and sales of equity securities within less than six months. While courts have recognized that "profit realized by" the insider equates to a concept of "beneficial ownership," it is questionable whether such courts will regard the Commission's definition of an "unexpressed" term of Section 16(b) as binding on such courts' interpretations of the terms actually appearing in Section 16(b). n109

Possibly recognizing that an expanded definition of "beneficial ownership" might not assure expanded liability under Section 16(b), the Commission took additional steps to extend the reach of Section 16(b). For example, the Commission did not simply rely on Rule 16a-1(a)(2)(ii)(F)'s definition of "beneficial owner" of an equity security as including any equity securities that may be acquired by exercise or conversion of derivative securities, the Commission provided specifically in Rule 16b-6(a) that transactions in derivative securities would be deemed to be "purchases" and "sales" of the related equity securities. Similarly, Rule 16a-8's provisions depart from the concept of "beneficial ownership" in the case of interests in securities held by trusts, instead specifying when such interests are subject to reporting under Section 16(a) and providing that any insider subject to such reporting is likewise subject to liability under Section 16(b). n110

Beneficial ownership issues arise principally when an insider has a relationship to another person or entity who owns equity securities of the issuer or has rights akin to ownership of such equity securities. Beneficial ownership through another person or entity is termed "indirect" beneficial ownership. n111 In 1991, the Commission likewise expanded the scope of Section 16(b) in the context of indirect interests. Under Rule 16a-1(a)(2), an insider may be deemed the indirect beneficial owner of equity securities held by immediate family members sharing the same household, held by a corporation, partnership, or trust, and as a result of other legal relationships and rights. n112

The breadth of the definition of "beneficial owner" can cause more than one person to be deemed to be the beneficial owner of the same shares. In the case of such overlapping beneficial ownership, the amount of short-swing profit recoverable is limited to the amount that potentially could be recovered if only one person was the beneficial owner of the equity securities involved in the purchase and sale. n113

[b] Pecuniary Interest. In determining which equity securities are beneficially owned by a Section 16 insider for reporting and other purposes (but not for determining whether a person is a 10% shareholder), an insider generally is a beneficial owner of equity securities in which he or she has, directly or indirectly, a "pecuniary interest." n114 The Commission has stated that this approach is generally consistent with cases interpreting the terms of Section 16(b). n115

The term "pecuniary interest" means, with respect to equity securities,

the opportunity, directly or indirectly, to profit or share in any profit derived from a transaction in the subject securities. n116

The focus on "beneficial ownership" and "pecuniary interest" makes other indicia of ownership of little relevance. For example, voting and dispositive power, which are crucial to the definition of beneficial ownership for purposes of determining who is a 10% shareholder and thus an insider subject to Section 16, n117 do not, by themselves, constitute a pecuniary interest. n118 Likewise, record ownership may be of no significance to the question whether an insider is a beneficial owner of equity securities. n119

The Commission staff has recognized a limited number of situations in which, although an insider's interest may relate to issuer stock, the value of such interest is so little affected by transactions in such stock that the insider has no opportunity to "profit" and therefore no pecuniary interest. In one case, if an insider is a participant in a defined benefit pension plan, under which the amount of benefits to be paid as a pension to the insider is not based on the value of the assets of the trust holding plan assets, the insider is not viewed as having a pecuniary interest in the trust. n120 In a

somewhat similar situation, the staff concluded that a participant in a non-tax qualified plan for which a rabbi trust served as a funding vehicle did not have a pecuniary interest in issuer stock held in the trust because the amount ultimately payable was determined solely under the terms of the plan and not with reference to the value of the assets in the rabbi trust. n121 Finally, even where the value of the insider's interest as a trust beneficiary varies with the value of the trust assets, the staff took the position that, in the case of a trust for a tax-qualified plan subject to ERISA, if less than 20% of trust assets consist of issuer stock held in a mixed-equity fund managed by a trustee (such percentage measured at the end of the plan's latest fiscal year), an insider-beneficiary will not be deemed to have a pecuniary interest in issuer stock held in such fund. n122

One question not yet addressed by the Commission staff is whether the existence of conditions that could result in forfeiture of stock will cause an insider not to have a pecuniary interest in such stock. In an analogous area, the staff has taken the position that conditions that must be satisfied before a right that would otherwise be a derivative security will be exercisable or be deemed to have value will prevent such right from being a derivative security, under Rule 16a-1(c)(3), until such conditions are satisfied. n123 In one interpretive letter, the staff concluded that a right to receive a specified number of shares at a future date if certain performance conditions were met neither involved a derivative security or any other reportable interest. n124 In view of the staff's position that similar rights to future delivery of shares, unencumbered by performance conditions, represent a pecuniary interest and thus beneficial ownership of such shares, n125 it would appear that the existence of performance and other conditions may vitiate any "opportunity to profit" from the shares and therefore preclude the existence of a pecuniary interest in such shares. n126

Although Rule 16a-1(a)(2) distinguishes between "direct" and "indirect" pecuniary interests, the Rule does not in fact define "indirect" pecuniary interests. While Rule 16a-1(a)(2)(ii) sets forth a list of examples of indirect pecuniary interests, this list is not exhaustive, and the possibility exists that interests of types not listed might be deemed to constitute an indirect pecuniary interest. n127

[c] Family Relationships. An insider is presumed to have an indirect pecuniary interest in securities held by members of such insider's immediate family n128 sharing the insider's household, but this presumption is rebuttable by the insider. n129

In its 1988 proposals, the Commission sought to broaden this rule by treating it as a *per se* rule rather than just a presumption. n130 When commentators strongly opposed this change, the Commission concluded to retain the concept that indirect pecuniary interest is only presumed, similar to the Commission's position under the old Section 16 rules. n131 Thereafter, the language describing the rule as only a presumption was inadvertently dropped from the Rule in the release adopting the 1991 version of the Section 16 rules, n132 but the Commission subsequently reinserted the language in Rule 16a-1(a)(2)(ii)(A) before the Rule became effective. n133

The Commission has not interpreted the reporting requirements in light of the right to rebut the presumption of a pecuniary interest in securities held by immediate family members in the same household. Presumably, the insider who in good faith believes he or she can rebut such a presumption need not report such family members' securities on Forms 3, 4, and 5; if challenged in an enforcement action or short-swing profits liability claim, the burden of rebutting the presumption would fall on the insider. n134 The Rule does not appear to require the insider to report all such family members' holdings on his or her Forms and either rebut the presumption by means of a footnote or save the rebuttal arguments for any litigation. n135

The only other place in the rules under Section 16 in which the term "immediate family" is used is under Rule 16a-8, in defining which securities held by trusts are reportable by an insider. Significantly, in that context, the concept is not limited to immediate family members that share the insider's household. n136

Although Rule 16a-1(a)(2)(ii)(A) refers to securities "held by" family members, that undefined term appears to mean "beneficially owned" in its broad sense under Rule 16a-1(a)(2). Thus, if an immediate family member sharing an

insider's home has an "indirect pecuniary interest" in equity securities, the insider would apparently likewise be deemed (rebuttably) to have such indirect pecuniary interest.

[d] Partnerships. An insider is deemed to have an indirect pecuniary interest in equity securities held in the portfolio of certain partnerships.

Under Rule 16a-1(a)(2)(ii)(B), an insider who is a general partner of a general or limited partnership is deemed to have an indirect pecuniary interest in the partnership's portfolio securities to the extent of the insider's "proportionate interest." Such Rule deems the partner's "proportionate interest" to be the greater of:

"(1) the general partner's share of the partnership's profits, including profits attributed to any limited partnership interests held by the general partner and any other interests in profits that arise from the purchase and sale of the partnership's portfolio securities; or

(2) the general partner's share of the partnership capital account, including the share attributable to any limited partnership interests held by the general partner."

These interests are measured based on the partnership agreement in effect at the time of a transaction in issuer equity securities and the partnership's most recent financial statements. n137

Fortunately, an insider general partner need not become entangled in the complexities of measuring his partnership interests when simply filing a Form 3, 4, or 5. The instructions to such Forms allow a partner, in lieu of reporting the number of shares of issuer stock held by the partnership in which he is deemed to have an indirect pecuniary interest, to simply report the aggregate number of shares held by the partnership. n138 Not only does this simplify preparation of the Forms, but it also appears to avoid the need for the insider to file additional Forms 4 and 5 to report changes in his beneficial ownership resulting from changes in his proportionate interest, at least when such changes are outside of his control. n139

Although Rule 16a-1(a)(2)(ii)(B) addresses only general partners, the possibility remains, under the general definition of "pecuniary interest," that an insider who is only a limited partner would be deemed to have an indirect pecuniary interest in portfolio securities of a limited partnership. In the usual case, the "safe harbor" set forth in Rule 16a-1(a)(2)(iii) should preclude this result, n140 because a limited partner who can exercise only a limited partner's powers under state law should not be viewed as a "controlling shareholder" or as having or sharing investment power over the partnership's portfolio securities. n141

[e] Corporations. The Commission declined to propose or adopt a rule specifying to what degree an insider would be deemed to have an indirect pecuniary interest in issuer stock held by a corporation of which the insider is a shareholder, stating that such determination of indirect pecuniary interest generally should be left to the courts. n142 The Commission did, however, adopt a "safe harbor" provision that, if complied with, assures an insider that he will not be deemed to have an indirect pecuniary interest through a corporation. n143

Under the Rule 16a-1(a)(2)(iii) safe harbor, the insider is deemed not to have an indirect pecuniary interest in portfolio securities held by a corporation in which the insider owns securities if the insider is not a controlling shareholder of the entity and does not have or share investment control over the entity's portfolio. n144 The insider would not be deemed a controlling shareholder if such insider's power to control the corporation arises because the insider serves as a director or officer rather than through the insider's security holdings, n145 but service as a director or officer might be viewed as giving the insider sole or shared investment control. n146

As discussed above in the case of partnership holdings, an insider is permitted to report on Forms 3, 4, and 5 the aggregate amount of issuer stock held by a corporation through which the insider has an indirect pecuniary interest, rather than reporting the precise number of shares in which the insider has a pecuniary interest. n147

Where the safe harbor is not available, there remains the open question of how to calculate profits "realized by" an insider through other entities. In *Feder v. Frost*,ⁿ¹⁴⁸ the court held that an insider may have a pecuniary interest in stock of one company through his interests in a partnership (of which he was the sole general partner) and his ownership of stock of another publicly held corporation that -- in turn -- owned stock of the insider's company. The court stated, "at worst, Rule 16a-1(a)(2) gives a slightly expansive reading to the term 'profit realized,' as used in Section 16(b), by extending it to increases in the value of shares of a corporation dealing in portfolio securities rather than limiting it to cash-in-hand profits. This reading, however, does not even strain the ordinary or natural meaning of 'profits realized' and seems well within the Commission's discretion, although many wrinkles in interpretation and application may have to be confronted"^{n148.1}

[f] Trusts

[i] Overview. Rule 16a-8 sets forth the rules under which an insider is deemed to have an interest in shares of issuer stock held in a trust such that the insider must report transactions in and holdings of such shares under Section 16(a) and is subject to potential liability with respect to such shares under Section 16(b). The Rule, as interpreted by the Commission staff, is especially complex and is designed to do several things at once.ⁿ¹⁴⁹

Although Rule 16a-1(a)(2)(ii)(E) specifies that an insider has an "indirect pecuniary interest" in trust shares to the extent specified by Rule 16a-8, Rule 16a-8 does not actually specify when an insider has a "pecuniary interest" in shares held by a trust. Instead, Rule 16a-8 specifies when an insider has reporting obligations with respect to shares held in a trust.ⁿ¹⁵⁰ Significantly, the Commission staff has concluded that a trust beneficiary who does not have investment control will have no reporting obligations or short-swing profit liability with respect to trust shares.ⁿ¹⁵¹

Rule 16a-8 separately provides that a person required to report trust shares will also be subject to potential liability under Section 16(b) and the prohibition on sales in the nature of short sales under Section 16(c).ⁿ¹⁵²

Rule 16a-8 substantially expands reporting and potential liability with respect to trust shares far beyond the reach of old Rule 16a-8 in effect before May 1991. For one thing, the most common way in which insiders have a beneficial interest in trusts is as participants in employee benefit plans in trust form. Old Rule 16a-8 provided an exemption that in almost all cases applied to tax-qualified employee benefit plan trusts, and as so applied, relieved trust beneficiaries of all reporting of trust shares.ⁿ¹⁵³ Thus, as of May 1, 1991, insiders became subject to broad reporting requirements with respect to employee benefit plan trusts for the first time.ⁿ¹⁵⁴ Moreover, old Rule 16a-8 did not purport to impose Section 16(b) liability, in contrast to the new Rule.ⁿ¹⁵⁵

As discussed below, the role and identity of the trustee is important to the application of Rule 16a-8 in several respects, so the Commission staff has interpreted the term broadly to mean not only the person or persons who are designated as trustee, but also persons who perform the "functions of a trustee."ⁿ¹⁵⁶ The key trustee function, in the staff's view, is investment control. Thus, if an insider's spouse is the trustee of a trust and the insider in fact exercises investment control over the trust through the spouse, the insider will be deemed to be the trustee.ⁿ¹⁵⁷ If a committee has administrative powers over an employee benefit plan trust which includes investment control, the committee will be deemed to be a trustee for purposes of Rule 16a-8,ⁿ¹⁵⁸ although a committee that is only empowered to appoint others to make investment decisions regarding securities held by a trust will not be deemed to be a trustee solely for that reason.ⁿ¹⁵⁹ An investment manager or other person who is appointed to make investment decisions regarding securities held by a trust may be deemed to be performing a trustee function and thus to be a trustee for purposes of Rule 16a-8.ⁿ¹⁶⁰

[ii] Obligations of Trusts. If a trust is subject to Section 16 as a greater than ten percent beneficial shareholder,ⁿ¹⁶¹ the trustee is required to file on behalf of such trustⁿ¹⁶² Forms 3, 4, and 5 to report transactions in and holdings of equity securities of the issuer.ⁿ¹⁶³ This requirement is subject to three exceptions:

(1) A trust for an employee benefit plan subject to ERISA need not report transactions and holdings if no trustee exercises investment control. n164 This exception relieves a trust from reporting participant-directed transactions under tax-qualified plans, such as 401(k) plans. n165

(2) A trust need not report transactions over which a beneficiary has investment control without consultation with the trustee. n166 It is unclear whether this exclusion would relieve a trust of the obligation to file a Form 3, which reports "holdings" but not "transactions," if the beneficiaries had exclusive investment control. n167

(3) A trust need not report transactions and holdings if an insider is settlor, has or shares investment control, and has reserved the right to revoke the trust without the consent of another person. n168

These exceptions had great significance prior to the August 1996 repeal of a provision under Rule 16a-8 that resulted in trusts being insiders in certain cases when the trustee was an insider and an immediate family member of the trustee was a beneficiary of the trust. Nevertheless, current Rule 16a-8 makes a trust subject to Section 16 when the trust is a 10% shareholder and the trustee has or shares voting or investment control over shares held by the trust. In this context, it must be emphasized that a trust is viewed as a separate insider with separate filing obligations from those of insiders who may serve as trustees or be beneficiaries, settlors, or remainderpersons. Insiders in such other capacities may also have the obligation to report transactions and holdings in the trust shares. The reporting by another insider on his or her own Forms 3, 4, and 5 of trust transactions and holdings generally will not relieve a trust of its separate filing obligations. n169

[iii] Obligations of Trustees. An insider who is a trustee of a trust n170 and who has a pecuniary interest in any transaction in or holding of issuer stock held by the trust must report such transaction or holding on the trustee's individual Forms 3, 4, and 5. n171

Unlike the provisions relating to beneficiaries, settlors, and remainderpersons, nothing in Rule 16a-8(b)(2) explicitly requires that a trustee have investment control before the trustee will be required to report trust transactions and holdings. The Commission apparently presumed that a trustee would have such investment control, as is usually the case.

Obviously, an insider trustee will have a pecuniary interest when the insider is a beneficiary of the trust. n172 In addition, Rule 16a-8(b)(3) specifies that an insider will be deemed to have a pecuniary interest in issuer stock held by the trust if the insider receives a performance fee that does not comply with the safe harbor under Rule 16a-1(a)(2)(ii)(C) n173 or if a member of the insider's immediate family is a beneficiary of the trust. n174 If an immediate family member has a pecuniary interest in issuer stock held by a trust, the insider trustee must report only transactions in and holdings of issuer shares only to the extent of such pecuniary interest.

[iv] Obligations of Beneficiaries. An insider who is a beneficiary of a trust must report transactions in issuer stock held by a trust if the beneficiary is the "beneficial owner" of the issuer stock and has or shares investment control over the issuer stock. n175

In requiring reporting only by insider-beneficiaries who have investment control, the Commission

recogniz[ed]... that it is inappropriate to require beneficiaries to incur reporting and short-swing profit obligations for transactions beyond their control. n176

Valuable as such recognition may be, n177 the Commission and its staff have undercut this position in two important ways. First, transactions in which insiders initially acquire an interest in a trust are viewed as transactions that may be

controlled by beneficiaries and which are governed by Rule 16a-8(b)(3). n178 Second, the Commission and its staff have assumed that insider participants in employee benefit plans have investment control over most transactions in which they initially acquire an interest, although in many cases such participants clearly do not. n179

An insider beneficiary of a trust may have investment control in two common situations, although (as indicated above) these are not the only forms of investment control. First, the insider beneficiary may have the ability to direct the trustee in transactions in issuer stock, a typical feature of 401(k) plans and similar plans. n180 Second, the insider may himself be the trustee or an administrator of a trust and, in such capacity, have investment control. n181

Rule 16a-8(b)(3) requires an insider beneficiary to report transactions over which he has or shares investment control if the insider is a "beneficial owner" of the issuer stock held by the trust. Rule 16a-8(b)(3)(iii) specifies that a beneficiary will be deemed to have a "pecuniary interest" (and thus be a beneficial owner, under Rule 16a-1(a)(2)'s definition) in issuer stock held by the trust to the extent of the beneficiary's *pro rata* interest in the trust. n182

In interpreting this pecuniary interest requirement, the staff has indicated that the allocation of issuer stock to beneficiaries is the key determinant, but it is clearly possible for an insider to have a pecuniary interest in issuer stock held in a trust without such securities being allocated to the insider. n183 The key determinant of pecuniary interest is that, if the value of an insider's interest as a trust beneficiary varies with changes in the value of issuer stock held by the trust and transactions in such stock, the beneficiary will be deemed to have a "pecuniary interest" under Rule 16a-8(b)(3)(iii), and if the value of such interest does not have such a relationship to the value of issuer stock, the beneficiary will not have a pecuniary interest. n184

[v] Obligations of Settlers. An insider must report trust transactions and holdings if the insider

- is the settlor of the trust; n185
- reserves the right to revoke the trust without the consent of another person; n186 and
- has or shares investment control over issuer stock held by the trust. n187

[vi] Obligations of Remainderpersons. Rule 16a-8(c) provides that an insider who has a remainder interest in a trust is not deemed to be a beneficial owner of issuer stock held by the trust if the insider does not have or share investment control. This provision is in the nature of an exemption. It does not affirmatively say that an insider-remainderperson who does have or share investment control over issuer stock held in a trust will have reporting obligations, but the Commission apparently intended that result. n188 If Rule 16a-8 is taken at face value, such obligations would have to be determined under the provisions of Rule 16a-8(b).

[g] Performance Fees. Certain money managers and fiduciaries, including broker-dealers, banks, insurance companies, investment advisers, investment managers, trustees, and persons performing similar functions, are deemed to have an indirect pecuniary interest in--and thus beneficial ownership of--equity securities held in a managed portfolio if they receive fees that are based on the performance of the assets under management (including the equity securities). n189 Fees based on a percentage of asset value, and other fees not related to performance of the securities under management, do not give rise to a pecuniary interest. n190 Moreover, performance-related fees do not give rise to beneficial ownership if the issuer's equity securities represent less than ten percent of the market value of the managed portfolio and the performance-related fee is calculated based on performance of the manager or fiduciary over a period of one year or longer. n191

[h] Certain Other Interests. Rule 16a-1(a)(2) identifies certain other interests as possibly giving rise to an indirect pecuniary interest. In some cases, however, the Rule is drafted as a "safe harbor," specifying that interests meeting the Rule's requirements will *not* be deemed to constitute an indirect pecuniary interest in securities. n192

These other possible interests that may or may not constitute indirect pecuniary interests include the following:

- (1) If a right to dividends is separated or separable from the underlying equity securities, such a right would constitute an indirect pecuniary interest in equity securities. n193 A right to receive dividends is not otherwise deemed to represent a pecuniary interest in equity securities. n194
- (2) Ownership of interests in portfolio securities of a public utility holding company registered under the Public Utility Holding Company Act of 1935, as amended, does not give rise to a pecuniary interest in the portfolio securities held by such holding company. n195
- (3) Ownership of interests in portfolio securities of an investment company (e.g., mutual fund shares) registered under the Investment Company Act of 1940, as amended, does not give rise to a pecuniary interest in the portfolio securities held by such investment company. n196
- (4) Ownership of interests in a broad-based, publicly traded market basket or index of stocks, approved for trading by the appropriate federal authority, does not give rise to a pecuniary interest in any equity security that is part of the market basket or index. n197

[4] Forms and Filings

[a] Overview of the Reporting System. The reporting system under Section 16(a) was dramatically changed under the 1991 Rules and then, partly as a result of abuses under the 1991 reporting regime, was dramatically altered again in 2002 and 2003 pursuant to the Sarbanes-Oxley Act of 2002. Since 1991, there have been three Forms for reporting under Section 16(a), Form 3, Form 4, and Form 5. n198 Form 3 is filed by an insider to report his beneficial ownership of equity securities of the issuer at the time he first became an insider. Form 4 is filed by an insider to report "transactions" which change his beneficial ownership of equity securities of the issuer. Form 5 is used to report a narrow categories of transactions eligible for delayed reporting and for late transaction reporting. Commencing August 30, 2002, most transactions are required to be reported on Form 4 within two business days of the transaction, although certain transactions are eligible for an additional three business day extension. n198.1 As of June 30, 2003, all Section 16 forms are required to be filed electronically through the Commission's Edgar system. n199

One of the Commission's primary goals in overhauling the reporting system in 1991 was to reduce the rate of late and missed filings under Section 16(a). n200 The Commission implemented a number of new requirements intended to reduce the number of delinquencies, including the following:

- (1) A new filing, the Form 5, was introduced, requiring any person who was an insider at any time during an issuer's most recent fiscal year to disclose transactions and holdings that should have been reported during that fiscal year on Forms 3, 4, or 5 but were not. n201
- (2) Copies of Forms 3, 4, and 5 must be filed with the issuer as well as the Commission. n202
- (3) The issuer is required, under Item 405 of Regulation S-K, to review the filed Forms 3, 4, and 5 and disclose the names of any insiders who failed to file on a timely basis, the number of late reports, and any known failure to file a required Form. Such disclosure is required in the issuer's Form 10-K and in any proxy statement relating to an election of directors. n203
- (4) To facilitate monitoring of delinquencies and Item 405 disclosures thereof, the cover page of a Form 10-K (or Form 10-KSB) contains a box which serves to alert the Commission staff that the issuer's Form 10-K and proxy statement may contain Item 405 disclosure of one or more delinquencies. n204

In addition, Congress enhanced the Commission's enforcement powers by enacting the Securities Enforcement Remedies and Penny Stock Reform Act of 1990. n205 That Act gave the Commission power to issue cease and desist orders in administrative actions and to seek substantial fines in civil actions in federal district courts for Section 16(a) reporting violations. n206

[b] Events Triggering Filings of Forms; Filing Deadlines.

[i] Form 3 Filings. A Form 3 filing generally will be triggered at the following times:

- (1) when a person is elected or appointed as a director or officer of an issuer that has a class of equity securities registered under Section 12 of the Exchange Act;
- (2) when a person (including a trust) becomes a beneficial owner (as defined in Rule 16a-1(a)(1)) of more than ten percent of an outstanding class of equity securities that have been registered under Section 12 of the Exchange Act; and n207
- (3) when an issuer first registers a class of equity securities with the Commission under Section 12 of the Exchange Act, thereby subjecting existing directors, officers, and 10% shareholders to Section 16 for the first time. n208

An insider must file a Form 3 even if the insider does not beneficially own any equity securities. n209

Once a person has become an insider and therefore filed an initial Form 3, if such person (while still an insider) attains an additional insider status (e.g., if an officer is elected or appointed as a director or becomes a 10% shareholder), no additional Form 3 is required. n210 Likewise, no additional Form 3 is required if the issuer registers an additional class of equity securities under Section 12 of the Exchange Act. n211

The filing deadlines for Form 3s are as follows: When the Form 3 filing is triggered by the issuer's initial registration of equity securities under Section 12 (see (4) above), the Form 3 is due at the effective date of the Exchange Act registration statement. n212 When the Form 3 filing is triggered by any other event, the Form 3 is due within ten days after such event. n213

[ii] Form 4 and Form 5 Filings. Form 4 and Form 5 filings are required to report most transactions that represent a change in an insider's beneficial ownership of equity securities. n214

Every transaction is required to be reported on a Form 4 or Form 5 unless the Commission has adopted a rule under Section 16(a) exempting the transaction from reporting. [See 8.03[4][b][iii], below]. If a transaction is subject to potential liability under Section 16(b) -- that is, if it is not exempted from reporting by a Commission rule under Section 16(a) and is not exempted from potential liability by a Commission rule adopted under Section 16(b) -- then the transaction is required to be reported on Form 4. Transactions that are exempted from potential liability by a rule under Section 16(b) are required to be reported on either a Form 4 or Form 5, depending on the nature of the transaction. Since 1991, exercises or conversions of derivative securities that are exempted under Rule 16b-3 or Rule 16b-6(b) have been reportable on Form 4. Since August 29, 2002, transactions between an issuer and an officer or director (including employee benefit plan transactions) that are exempt from potential liability under Rule 16b-3(d) or (e) and "discretionary transactions," which are transactions defined in Rule 16b-3(b)(1) that occur under participant directed individual account plans, n215 have been reportable on Form 4. n216

All Forms 4 are due on the second business day after the transaction is executed, subject to two narrow exceptions. n217 The Commission staff provided a limited extension of time for Form 4 reporting for "discretionary transactions" (described above), and for transactions pursuant to Rule 10b5-1(c) trading plans provided in both cases that the insider

does not select the date the transaction is to occur. n218 Under the limited extension, the two business day deadline is counted from a "deemed" transaction date, which is the earlier of (i) the date the insider receives notice that the transaction was executed, or (ii) the third business day after the date the transaction is executed. n219 Consequently, the latest a Form 4 can be timely filed for these transactions is on the fifth business day after the transaction. n220 The extended time period for these transactions is not available if the insider has selected the date for transaction execution. n221 For example, if an employee benefit plan operates such that a discretionary transaction occurs on a date determined by the day the insider provides instructions authorizing the transaction (as opposed to being executed on a date selected in the discretion of the plan administrator), the insider arguably has selected the date for execution of the transaction, and consequently the limited filing extension would not be available. In these circumstances, the insider will need to receive information from the plan administrator to complete and file a Form 4 reporting the transaction within the normal two business day deadline.

Three types of transactions are required to be reported on Form 5: (1) small acquisitions eligible for deferred reporting under Rule 16a-6, other than acquisitions directly from the issuer or from an employee benefit plan sponsored by the issuer, which are required to be reported on Form 4; n222 (2) certain narrow categories of transactions that are exempt from Section 16(b) liability, and that are not otherwise required to be reported on Form 4, such as gifts or inheritances; and (3) as noted above, transactions and holdings that should have been previously reported but which were not. n223 A Form 5 is required to be filed within 45 days after the issuer's fiscal year end. n224 No Form 5 need be filed to report transactions if an insider has previously reported such transactions on Form 4s (which may include voluntary Form 4s, discussed below). n225 The use of Form 5 for reporting transactions that should have been reported earlier in effect imposes an obligation on the insider to review his prior year's transactions and Section 16(a) reports and to file a Form 5 to correct any filing delinquency. As a practical matter, however, the Form 5 requirement does not allow an insider who discovers delinquencies to put off correcting them until the due date of the Form 5. n226

Voluntary Form 4s may be filed to report any transaction the reporting of which could otherwise be deferred, as long as the Form 4 is filed before the due date of the Form 5. n227 A Form 4 filed to voluntarily report a transaction need not be filed within two business days after the transaction occurred; such a Form may be filed any time before the due date of the Form required to be filed to report the transaction. n228 The filing of voluntary Form 4s to report all transactions, which obviates the need for a Form 5, has become a common practice. n229 Because delinquencies disclosed in a Form 5 must be disclosed by the issuer under Item 405 of Regulation S-K, the question of what is to be viewed as an unreported "holding" or "transaction" that triggers a Form 5 filing can be significant. It is clear from the reference to "holdings and transactions" that errors in other kinds of information required on a Form 3 or 4 (such as transaction codes, dates, and nature of beneficial ownership) would not trigger a Form 5 filing. n230 On the other hand, a failure to report beneficial ownership of any equity securities of an issuer in a Form 3 would trigger a Form 5 filing. n231 In the not uncommon situation in which post-transaction "holdings" of equity securities are not accurately reported on a Form 4, no Form 5 filing should be triggered, because Form 5's reference to unreported "holdings" apparently should be read as referring only to Form 3 reports of holdings and not to the Form 4 requirement to show "beneficial ownership" of equity and derivative securities. n232

[iii] Transactions Not Required to be Reported. In addition to prescribing the foregoing reporting requirements, various rules under Section 16(a) exempt certain transactions from triggering reports on Forms 4 or 5. Insiders are not completely relieved from monitoring the effects of such transactions, however, as changes in their holdings that result from Section 16(a)-exempt transactions should be reflected on otherwise required Forms 4 and 5. While insiders should reflect the change in ownership from such transactions in the post-transaction holdings column of a Form 4 or Form 5, there no need for the insider to report the transaction in a line entry on the Form 4 or 5, there also is no obligation to footnote the Form or otherwise describe or reconcile the reported holdings. n233 Moreover, the holding information is required only when the Form otherwise is required to report a transaction in the same class of securities, and the holdings reported may be a "best estimate." n234

Transactions that are not required to be reported are:

- (1) the increase or decrease in the number of securities held as a result of a stock split or stock dividend applying equally to all securities of a class, including a stock dividend in which equity securities of a different issue are distributed; n235
- (2) acquisitions of pro-rata rights, such as in rights offerings; n236
- (3) acquisitions under broad-based dividend or interest reinvestment plans that do not discriminate in favor of the issuer's employees; n237.
- (4) acquisitions or dispositions pursuant to a domestic relations order incident to a divorce; n238
- (5) changes in the form of ownership that do not change a person's pecuniary interest, such as changes from indirect to direct ownership, other than pursuant to exercise of a derivative security or transfers into or out of a voting trust; n239
- (6) miscellaneous specialized exemptions for underwriter n240 and odd-lot dealers; n241 and
- (7) transactions under Rule 16b-3(c)'s definition of a "tax-conditioned plan," including purchases under tax-qualified employee stock purchase plans, allocations and forfeitures under 401(k) and other ERISA individual account plans and transactions under non-ERISA excess benefit plans, in each case other than "discretionary transactions." n242

Complications that arise because of this three-tiered reporting scheme are discussed in *Section 8.03[4][d]* below.

[iv] Changes to the Reporting Regime under the Sarbanes-Oxley Act of 2002. As noted above, Section 403 of the Sarbanes-Oxley Act mandated several changes in the Section 16(a) reporting regime. First, it required Section 16(a) transaction reports to be filed "before the end of the second business day following the day on which the subject transaction has been executed, or at such other time as the Commission shall establish, by rule, in any case in which the Commission determines that such 2-day period is not feasible." n243 This reporting change became effective on August 29, 2002 less than 60 days after the Sarbanes-Oxley Act was signed into law. Second, it required that, within one year of enactment, the Commission establish a system and mandate that Section 16(a) reports be filed electronically, and that issuers be required to post copies of those filings on their corporate websites, if they have one. n244 As discussed below in 8.03[e], the Commission's rules mandating electronic filing and website posting went into effect on June 30, 2003.

The Act's mandate that transaction reports generally be filed within two business days was in part a reaction to one aspect of the scandals that plagued corporate America in 2000 and 2001. Often, one element of the scandal would be revelations that insiders had sold millions of dollars of company stock prior to the stock price crashing, and it often emerged that those transactions had not been reported at all under Section 16, or had been reported on a year-end Form 5 as a result of the transactions being exempt under Rule 16b-3 because they occurred between the company and the insider. However, the amendments also reflected the growth in insiders' access to and dealings in company stock as a result of the explosion in equity compensation arrangements and developments in the electronic availability of information, such that investors were clamoring for more timely and readily available information on insider trades. One benefit of Congress' amendments to Section 16(a) is that it appears to have side-lined a Commission proposal that, in the absence of statutory authority to mandate two business day reporting of Forms 4, would have mandated that issuers' disclose their insider trades within two days on Form 8-K.

There have been a number of steps that companies have taken to reflect the implications of two business day reporting under Section 16. Among these are:

(1) Increase Compliance Programs for Insiders. Companies have actively informed insiders of the two day deadlines for Form 4 reporting. To the extent that a company is undertaking various steps to assist insiders in Section 16 compliance, the company should describe those steps to their insiders. Insiders should inform family members and others whose holdings or transactions are attributed to them of the new reporting deadlines.

(2) Designate Several Compliance Officers. The two business day reporting deadlines mean that the timing of transaction reports is less predictable. Therefore, it is helpful for companies to designate individuals to be available at all times to assist insiders with their Section 16 reports. Each company should designate at least two people for this responsibility, to accommodate times when one is on vacation or otherwise is absent. Files should be established with respect to each insider so that the compliance officers may keep track of past Section 16(a) filings and other vital reporting information.

(3) Coordinate with Plan Administrators. Companies should contact plan administrators inside and outside of the company to ensure that they are aware of the reporting deadlines, especially the fact that administrators need to report execution of trades on an expedited basis. While the three business day extension may be available in some instances, as noted above, if the insider knows when the plan administrator executes orders (for instance, by the business day after the order is placed), the three business day extension may not be available, and the administrator would need to provide information on the trade within one business day to enable the insider to meet the two business day deadline. Companies should consider asking insiders to request that a copy of their plan account statements be sent to the company, after talking with the administrators to be sure that they can accommodate such requests. Companies should inquire of plan administrators as to how discretionary transactions are processed and how quickly they can be reported.

(4) Tighten Preclearance Procedures. More than ever, it is important for companies that assist their insiders with Section 16 filings to know of proposed transactions in advance. A preclearance process should be implemented to gather information necessary to assist in prompt reporting of transactions. Specifically, preclearance procedures should capture information on the size and terms of the proposed transaction (for example, whether it involves a limit order), the exact date the order is to be placed and contact information for the broker who is responsible for the order. Companies and insiders should begin to prepare the Form 4 at the same time an order is placed. The insider should instruct the broker to promptly report execution of the trade (whether executed in whole or in part) to the company's compliance officers.

(5) Obtain Powers of Attorney. Given the short reporting deadlines, a company may need to file reports on behalf of an insider without time for obtaining the insider's review of or signature on a Form 4. In order to establish their authority to make those filings, companies should obtain a power of attorney from their insiders. As with the compliance officers, several individuals should be authorized to act under an insider's power of attorney. A company may wish to ensure that the authorized individuals (as well as any compliance officers) are included or added to the company's D&O insurance policy as covered persons or, alternatively, may wish to include an indemnification provision in the power of attorney.

(6) Catalog Insiders' Holdings. In order to track transactions and accurately report holdings, insiders (and companies assisting them) should catalog all of their holdings (including holdings of family members) and their on-going stock purchase arrangements (401(k) plans, dividend reinvestment plans, employee stock purchase plans, stock fund accruals under non-qualified deferred compensation plans) and should understand who has authority over the shares. Obtain copies of any trading plans established under Rule 10b5-1(c). Contact information (telephone numbers, fax numbers and email addresses) should be obtained for brokers and any others whose assistance is necessary to prepare insiders' reports.

(7) Consider Establishing Shortened Trading Windows. In the past, companies typically restricted insider transactions to a limited open window trading period (such as the traditional "ten business days following the second business day after an earnings announcement"). In recent years, however, the trend has been to lengthen trading windows or to eliminate trading windows completely and instead apply only a strict preclearance policy. In light of the demands on coordinated reporting that the two business day requirement will produce and the fact that investors are more focused on tracking insiders' transaction reports, some companies have shortened open trading windows. Some companies will find this approach preferable to prevent information on transactions from dribbling into the marketplace over extended periods.

(8) Consider the Reporting Implications of Compensation Practices. Companies need to bear in mind the implications on their compensation practices of accelerated reporting. Two business day reporting of employee stock option and restricted stock grants may affect the timing or frequency of such awards. For example, if directors receive a stock grant in connection with each Board meeting, then investors would have close to real-time information on the frequency of those meetings by monitoring Section 16 filings. Companies may need to revise the manner in which such grants are announced internally in light of the prompt public disclosure obligations. Transactions pursuant to Rule 10b5-1(c) trading plans may become more commonplace because of the view that sophisticated investors will not seek to read meaning into individual transactions once the existence of the trading program has been publicly disclosed.

[c] Reporting of Transactions Before Becoming an Insider and After Ceasing To Be an Insider; Simultaneous Transactions.

[i] Pre-Insider Transactions. With one exception, a person who becomes an insider will not be required to report transactions that occurred in the six months before the date he became an insider. n245 The one exception arises in the case of a director or officer (but not a 10% shareholder) that becomes subject to Section 16 solely as a result of the issuer registering a class of equity securities under Section 12 of the Exchange Act. n246 In such case, a director or officer must report any transaction that occurred before he became subject to Section 16 if such transaction occurred within six months before a transaction giving rise to a Form 4 filing obligation after he was subject to Section 16. n247

[ii] Post-Insider Transactions; "Exiting" Insider Disclosures. Directors and officers are required to report certain transactions after ceasing to be insiders but 10% shareholders who cease being insiders have no reporting obligations with regard to post-insider transactions. n248

A former director or officer must report a transaction after ceasing to be a director or officer only if the transaction is not exempt from Section 16(b) liability and is executed within six months after an "opposite way" transaction that was not exempt from Section 16(b) liability and that occurred while such person was a director or officer. n249

Under Rule 16a-2(c), a person who was an insider as a 10% shareholder need not report any transaction that occurs after such person ceases to be a 10% shareholder-insider. n250

Forms 4 and 5 contain a box, in the upper left corner of the front page, to be checked by "persons no longer subject to Section 16." n251 This "exit box" has created confusion in the following respects:

(1) No Form 4 or 5 filing is required simply to report that a person is no longer an insider subject to Section 16. The exit box is to be checked only if a Form 4 or 5 is otherwise required to be filed after a person has ceased being an insider. n252

(2) It is a misnomer for a person who has ceased being a director or officer to check a box stating that he

or she is "no longer subject to Section 16," because (as the Instructions to Forms 4 and 5 indicate) such person may well be subject to Section 16(a) filing requirements and possible Section 16(b) liability for up to six months after ceasing to be a director or officer.

(3) While a Form 5 specifies actual dates of transaction, and appears to provide other information as of the end of the year for which the Form is filed, the exit box probably should be checked if the reporting person has ceased being an insider as of the date of the filing.

[iii] Simultaneous Transactions. Although it is clear that a transaction which causes a person to become an insider as a 10% shareholder is not reportable or subject to liability, n253 it is unclear whether a transaction simultaneous with a person becoming a director or officer is reportable and subject to liability. n254 This has particularly become an issue after the 2002 reporting rule changes, because a Form 4 transaction report can become due before the Form 3 reporting that the person has become an insider. In these situations, careful analysis is required to determine whether a transaction is reflected as a *fait accompli* on the Form 3 filing or whether a separate Form 4 is required. In the latter case, it is good practice to file both the Form 3 and Form 4 on or prior to the Form 4 two-business day due date. Transactions that are simultaneous with cessation of insider status would generally be subject to reporting and liability regardless of the type of insider involved, because the insider would clearly have the access to inside information through his insider status at the time the decision to engage in the transaction is made. n255

[d] Problem Areas of Form 3, 4, and 5 Reporting. A number of issues have arisen relating to reporting under Forms 3, 4, and 5, including the following:

(1) Certain transactions that need not be reported until a year-end Form 5 result in changes in the insider's beneficial ownership, but Form 4s filed before the year-end Form 5 must set forth the insider's beneficial ownership at the end of a month, so the Commission found it necessary to reconcile these two requirements. To accomplish this, the Commission amended the instructions to Form 4 to indicate that insiders need not adjust the amounts shown as their post-transaction beneficial ownership of equity securities on any Form 4 in order to reflect exempt transactions that were not yet reportable or voluntarily reported. n256

(2) If, however, a transaction occurs that is reportable on a Form 4 involving securities acquired earlier that year in a not-yet-reported exempt transaction, further deferral of reporting of the exempt acquisition is no longer permitted. n257

(3) On the other hand, if a transaction is exempt from reporting on Form 4 and Form 5, the effect of that transaction should be reflected in the end-of-period holdings reported on the next otherwise required Form 4 or Form 5. n258

(4) If reporting of a transaction is deferred because the transaction is exempt, but a subsequent event causes the exemption to be lost retroactively, the transaction must be reported in a Form 4 filed for the month in which the exemption was retroactively lost. n259

(5) Forms 4 and 5 must show the insider's beneficial ownership as of the completion of the transaction and as of the end of the year, respectively, of equity securities of each class of securities for which a transaction is reported, although holdings need not be reported for other classes. n260 For reporting purposes, derivative securities are not considered to be the same class of security as their underlying equity securities. n261 Moreover, the Commission staff has taken the helpful position that derivative securities are not of the same class for reporting purposes unless they have "identical characteristics." n262

(6) The Commission provided little explanation of how to report derivative securities "positions," such as "call equivalent positions" and "put equivalent positions," on Table II of Forms 3, 4, and 5. n263 The instructions do instruct an insider to indicate, next to the title of the derivative security, whether it represents a "right to buy," "right to sell," "obligation to buy," or "obligation to sell." n264 But, insiders are also instructed to report "acquisitions" and "dispositions" of derivative securities in other columns of Table II, n265 which begs the question of whether an insider who "establishes" a "call equivalent position" by writing a put option has "acquired" or "disposed of" the derivative security. Odd as it may seem, an insider who in effects create the derivative security by "writing" it probably should report that he "disposed of" the derivative security. n266 These issues remain to be clarified by the Commission staff.

(7) The Commission has taken the position that, in the case of certain reorganizations in which a new issuer is the successor to a predecessor issuer that had securities registered under Section 12 of the Exchange Act, insiders need not file new Form 3s or Form 4s to report the transactions in securities of the old issuer or the new issuer. n267

[e] Filing Procedures.

[i] When to File. The deadlines for filing Forms 3, 4, and 5 are discussed in *Section 8.03[4][b]* above. If a filing deadline falls on a Saturday, Sunday, or holiday, the filing deadline will be the next following business day. n268 As of June 30, 2003, all filings must be made through the Commission's Edgar electronic filing system. n269 The Commission developed and continues to refine special features for the Edgar filing system that will facilitate electronic filing of Section 16 forms. On March 24, 2003, the Commission established a test system providing an on-line template system for Edgar filings of Forms 3, 4 and 5. Under the new Edgar filing system for these forms, it is possible to type Section 16 transaction data into an on-line template, add any applicable attachments and file the form. n270 The system became operational in early May 2003 to make actual electronic filings of Section 16 forms, and became mandatory on June 30, 2003. n271 In addition, a number of vendors have developed filing programs that will interface with the Edgar filing system for Section 16 forms. These systems provide assistance in generating the form in advance so that it can be reviewed and then provide assurance that the template used for filing through Edgar is populated with the proper information.

The Commission made a number of adjustments to its Edgar filing rules that apply only to Section 16 filings. These changes reflect the fact that the filing obligation often falls upon an individual. Even though insiders typically work with their companies to coordinate and make Section 16 filings, the personal nature of the information to be disclosed often makes it more difficult to obtain all the necessary information, as opposed to information on corporate developments that companies typically are responsible for reporting in Commission filings.

(1) The deadline for electronic filing of Section 16 Reports was extended from 5:30 p.m. Eastern time on the date on which a Section 16 form is due to 10:00 p.m. Eastern time. n272 Thus, if a Form 4 is filed electronically before 10:00 p.m. EST on its due date, it will be treated as timely filed. (As noted above, this extended filing deadline is not available for other SEC filings, such as Forms 8-K, 10-K (10-KSB) and 10-Q (10-QSB) or for registration statements. Although those reports currently can be submitted electronically between 5:30 and 10:00 p.m. Eastern time, they are not deemed to be filed until the next business day.).

(2) Until June 30, 2004, one year after mandatory Edgar filing was required, companies are not required to report an insider's late Section 16 filings in their Forms 10-K (or Form 10-KSB) or proxy statements, *if* the Section 16 filing is only one day late. n273 A one day late report is still treated as late, and the Commission theoretically could bring an enforcement action against insiders who miss the two-day filing deadline, although as a practical matter the Commission likely would pursue such an action only in

egregious cases.

(3) In light of these allowances, the Commission did not permit persons who encounter technical difficulties in filing Section 16 form to obtain an automatic hardship filing extension by filing a Form TH. Instead, in such circumstances the filer may request that the Commission adjust the filing date under Rule 13 of Regulation S-T if they can demonstrate to the Commission staff that they meet the requirements for an adjusted filing date. n274

Each insider is to obtain his own Edgar filer's number in order to make electronic filings. This has caused some problems because of a quirk in the Edgar system. Specifically, if a person applies for Edgar codes for an insider, and that insider already has Edgar codes (likely because of his insider status with respect to a different company), the first set of filing codes are deactivated when the second set of codes are issued. This may cause late filings if the other company where the individual is an insider seeks to make a Section 16 filing through Edgar on the individual's behalf, because the filing will not be accepted if the filing codes have been deactivated. In order to address this problem, the Commission's Edgar filer support attempts to determine first whether Edgar codes have already been issued with respect to an individual, and if filing codes have already been issued to an individual with a similar name, often the Commission staff will ask applicants whether an individual is the same person as the one for which codes have already been issued. In order to avoid delays from this process, companies that apply for filing codes on behalf of their insiders in order to be able to assist their insiders with Section 16 filings should (1) search the Edgar database under the individual's name to see if previous filings have been made on behalf of the individual, and (2) inquire whether the individual is an insider at any other companies and ask both the insider and the corporate secretary at such other company(ies) whether filing codes have been applied for or obtained on behalf of the individual.

[ii] Supplying Copies of Filed Forms. As of June 30, 2003, companies that maintain corporate websites are required to post copies of any Section 16 filings made by their insiders. n275 Companies may satisfy this requirement by linking to the Commission's Edgar database, or by coordination with the individual so that the company obtains copies of any filings by the individual, whether by filing on the individual's behalf or through coordination with the individual. Section 16(a) also requires that copies of forms filed under that provision be filed with any national security exchange on which the issuer has listed any class of equity securities. Nasdaq was converted from a trading association to a national securities exchange effective August 1, 2006; and as a consequence Section 16(a) reports with respect to Nasdaq listed issuers must be filed with Nasdaq. However the Commission staff has indicated that filers using the EDGAR system need not file separate copies of their reports with Nasdaq. Foreign securities exchanges have not been recognized as national securities exchanges. Both the New York Stock Exchange and the American Stock Exchange have adopted rules that deem any filing made through the Commission's Edgar system to be treated as a filing with the Exchange. n276

[iii] Signatures on Filed Forms. Electronic filings by necessity have conformed, typed signatures. Nevertheless, as with other electronically filed forms, rules require that an insider retain a manually signed original of the form for five years. Because Section 16 filings are an insider's responsibility and can provide evidence of transactions creating short-swing liability, it is not appropriate for a company making electronic filings on behalf of an insider to insert the insider's name on the signature line unless the insider has reviewed and authorized filing of the form. Companies may wish to obtain and retain manually signed copies of forms they file on behalf of insiders, to be able to substantiate the insiders' authorizations.

It is possible for a company to file a Section 16 form on an insider's behalf pursuant to a power of attorney.

In addition to signing by the insider himself, a Form may be signed on behalf of an individual insider by another person. n277 Although the evidence of the authority of another to sign on behalf of such an insider must be furnished to the Commission, it may be furnished after the filing of the Form. In such case, the Form should be amended, as promptly as practicable, by refiling the original Form (with the amendment box completed) with the signing authorization attached.

n278 If the document conferring signing authority was previously filed with the Commission, a Form should simply indicate when and with what document the evidence of signing authority was filed.

There are no fees to be paid upon becoming an insider or filing any Form 3, 4, or 5.

[iv] Amendments. Forms 3, 4, and 5 may be amended to make corrections or reflect information not known to the insider at the time of the original filing. n279 A box on the cover page of the Forms should be completed to indicate that a filing is an amendment, and all other information from the original Form plus any changed or updated information should be set forth on the Form. If information that changes or is added by an amendment would affect Forms filed after the date of the original Form filing, such subsequent Forms apparently need not be amended solely to reflect the changed or added information. n280

[v] Disclaimers. A person filing a Section 16(a) report may include a statement on the Form that the filing, or specific statements on the filing, shall not be deemed an admission that such person is, for purposes of Section 16 or otherwise, an admission that the filing person is a beneficial owner of equity securities reported on the Form. n281

FOOTNOTES:

(n1)Footnote 1. For purposes of this discussion, the term "insider" (which does not appear in Section 16) is used to refer to a director or officer of an issuer that has a class of equity securities registered under Exchange Act Section 12, or a person who is directly or indirectly the beneficial owner of more than ten percent of an outstanding class of Section 12-registered equity securities, who is subject to reporting requirements of Section 16(a) and other provisions of Section 16. In addition, certain trusts are deemed to be separate Section 16 insiders if the trustee thereof is an insider with a pecuniary interest in equity securities held by the trust under Rule 16a-8(a). The question of who is considered to be an insider subject to Section 16 is discussed in *Section 8.02 supra*.

(n2)Footnote 2. *See* Exchange Act § 16(a); Rule 16a-3.

Exchange Act Section 16(a) requires only the filing of an initial statement of beneficial ownership and filings of statements of changes in beneficial ownership within two business days after the date of the transaction. The Commission apparently relied on its authority under Section 23(a) of the Exchange Act to make rules and regulations necessary to "implement the provisions" of the Exchange Act as a basis for promulgating the Form 5 year-end filing requirements and to extend in certain cases the two business day Form 4 deadline. *See* Sec. Exch. Act Rel. No. 34-28,869, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,284 (Feb. 8, 1991).

(n3)Footnote 3. *See* Rule 16a-3.

(n4)Footnote 4. *See id.*

(n5)Footnote 5. H.R. Rep. No. 1381, 73d Cong., 2d Sess. 13 (1934). The House Report stated:

Because it is difficult to draw a clear line as a matter of law between truly inside information and information generally known by the better informed investors, the most potent weapon against the abuse of inside information is full and prompt publicity. For that reason, the bill requires the disclosure of the corporate holdings of officers and directors and stockholders owning more than 10 percent of any class of stock, and prompt disclosure of any changes that occur in their corporate holdings.

(n6)Footnote 6. *See id.* at 13, 24.

(n7)Footnote 7. For discussion of Section 16(b), *see* § 8.04 *infra*.

(n8)Footnote 8. For discussion of provisions of the Exchange Act and rules relating to insider trading, including Sections 10(b) and 21A and Rule 10b-5, *see* § 5.04 *supra*. For discussion of provisions of the Exchange Act and rules relating to market manipulation, including Section 9(b) and Rule 10b-5, *see* § 6.02 *supra*.

(n9)Footnote 9. Exch. Act Rel. No. 26,333, [1988-1989 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,343, at 89,600 (Dec. 2, 1988). The Commission stated in 1988:

In light of the importance of the information provided by Form 4 filings to investors, many major newspapers routinely publish information gleaned from the reports filed by insiders of selected companies, such as those of local interest. Moreover, there are a number of private newsletters and services that analyze or report trades by reporting persons.

Id. (footnotes omitted). Computerized database and internet services providing summaries of information reported under Section 16(a) have emerged in recent years as well.

(n10)Footnote 10. *See* Exch. Act Rel. No. 34-47,809 [2003 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 86,918 (May 7, 2003).

(n11)Footnote 11. Holding Company Act Section 17(a) requires broader reporting than Exchange Act Section 16(a), in that all securities, rather than just "equity securities," are reportable and securities of any subsidiary of the registered holding company are reportable. *See also* Exch. Act Rule 16a-2.

(n12)Footnote 12. Investment Company Act Section 30(a) requires broader reporting than Exchange Act Section 16(a), in that all securities, rather than just "equity securities," are reportable. *See also* Rule 16a-2.

The terms "advisory board," "affiliated person," and "investment advisor" are defined in Section 2(a) under the Investment Company Act.

Investment Company Act Rule 30h-1 relieves an affiliated person of an investment adviser of a registered closed-end investment company of filing obligations if such person is merely an employee and not an officer of the investment adviser.

(n13)Footnote 13. *See* Holding Company Act Rule 72; Investment Company Act Rule 30h-1; Exch. Act Rule 16a-2.

(n14)Footnote 14. *See, e.g.,* NY CLS INS § 1221.

When insurance companies are subject to state law regulation "substantially in the manner provided" in Exchange Act Section 16 (including both reporting and short-swing profits liability requirements), and meet certain other requirements, such companies are relieved of the obligation to register securities issued by the insurance company with the Commission under Exchange Act Section 12(g). *See* Exch. Act § 12(g)(2)(G).

(n15)Footnote 15. *See* 12 C.F.R. § 11.410 (Comptroller of the Currency); 12 C.F.R. § 208.16 (Board of Governors of the Federal Reserve System); 12 C.F.R. § 335.410 (Federal Deposit Insurance Corporation); 12 C.F.R. § 563d.1 (Office of Thrift Supervision).

(n16)Footnote 16. *See* Rule 16a-2 (introductory text). Under Rule 16a-1(a)(1), a person (not otherwise a director or officer) does not become an insider by acquiring beneficial ownership of more than ten percent of an outstanding class of equity securities if such class is not registered under Exchange Act Section 12. But, if such a person becomes an

insider by acquiring more than ten percent of a Section 12-registered class of equity securities (or by becoming a director or officer), such person's Forms 3, 4, and 5 would have to report beneficial ownership of any other class, including unregistered classes, of equity securities.

(n17)Footnote 17. *See* Sec. Exch. Act Rel. No. 34-10,129 [1973 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,356, at 83,058 (Apr. 27, 1973) (clarifies that the term "equity securities" under the Exchange Act specifically includes calls and puts).

(n18)Footnote 18. *See* Sec. Exch. Act Rel. No. 34-26,333, [1988-1989 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,343, at 89,609 (Dec. 2, 1988).

(n19)Footnote 19. *See* Rule 16a-6(a) (as in effect prior to May 1, 1991); Sec. Exch. Act Rel. No. 34-26,333, [1988-1989 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,343 at 89,603 (Dec. 2, 1988); Exch. Act Rel. No. 34-18,114, Fed. Sec. L. Rep. (CCH) P 26,062 at 19,063-3 (Sept. 23, 1981) (Questions 21 & 54).

Under the pre-1991 version of Rule 16a-6(a), reporting was required only when the option or right had become exercisable.

(n20)Footnote 20. The pre-1991 version of Rule 16a-6(a) did not require reporting of any options and rights granted under plans meeting the requirements of Rule 16b-3, and did not require reporting of options and rights that were not yet exercisable. The 1991 rules require such reporting. *See* Rule 16a-1(a)(2)(ii)(F); Rule 16a-3; Rule 16a-4; Sec. Exch. Act Rel. No. 34-28,869, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709 at 81,282 (Feb. 8, 1991), (Question 54).

(n21)Footnote 21. *See, e.g.,* Kern County Land Co. v. Occidental Petroleum Corp., 411 U.S. 582 (1973) (writing of an option generally not treated as a sale for purposes of Section 16(b)).

(n22)Footnote 22. *See also* Rule 16b-6(c)(1) (short-swing profits in transactions involving purchase and sale of derivative securities with identical characteristics measured by the actual prices paid or received in the transactions).

Of course, the Commission has also sought to have transactions in derivative securities matched, for purposes of Section 16(b), with transactions in the underlying equity securities that occur within six months. *See* Rule 16b-6(a), 16b-6(c)(2). This kind of matching relies on the theory that transactions in the derivative securities can also constitute purchases and sales of the underlying equity securities.

(n23)Footnote 23. *See generally* Emerson Electric Co., SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,699F at 78,183 (May 10, 1991) (Staff unable to conclude that phantom units awarded under plans were not derivative securities since value was derived from equity securities).

(n24)Footnote 24. For example, an option that does not have a fixed exercise price is excluded from being deemed a derivative security under Rule 16a-1(c)(6), but might be considered a "right" that would make it an "equity security" under the general definitions.

(n25)Footnote 25. *See, e.g.,* Becton Dickinson and Co., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,081 at 79,154 (Nov. 6, 1991). Reporting such beneficial ownership as a Table I equity security rather than as a Table II derivative security, for purposes of Forms 3, 4, and 5, may offer an advantage, in that the ultimate delivery of shares would not trigger further reporting if originally reported on Table I, but would be treated as an "exercise" of a derivative security triggering further reporting if originally reported on Table II. Conversely, exemptions under Rule 16b-3 may be available for transactions in derivative securities (such as surrenders in exchange for new derivative securities under Rule 16b-3(f)(1)) more broadly than for transactions in equity securities. Likewise, the exemption under Rule 16b-6(b) would be available for most "exercises" of derivative securities, while an election to receive equity securities that does not represent an exercise of a derivative security may be subject to additional

requirements in order to be exempt (such as Rule 16b-3(f)'s requirement that elections for "discretionary transactions" occur more than six months after the last election for an "opposite way" discretionary transaction).

(n26)Footnote 26. See Dynamics Corporation of America, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,098 at 79,208 (Feb. 11, 1992); Becton Dickinson and Co., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. P 76,081 at 79,154 (Nov. 6, 1991). Although dividends were not paid on the common stock to be delivered to settle plan awards described in these interpretive letters, amounts equal to dividends (so-called "dividend equivalents") were paid under such awards.

(n27)Footnote 27. See Lincoln National Corp., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,133 at 79,345 (Mar. 20, 1992).

(n28)Footnote 28. Rule 16a-1(d)

(n29)Footnote 29. See, e.g., Sec. Exch. Act Rel. No. 34-28,869, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709 at 81,258-63 (Feb. 8, 1991).

(n30)Footnote 30. Definitional "exclusions" under Rule 16a-1(c) are different from "exemptions" under other rules. If an instrument is excluded from being a "derivative security" under Rule 16a-1(c), it is not subject to any reporting or liability under Section 16(a) or (b) (assuming the instrument is not otherwise an "equity security"). Exemptive rules provide more limited relief for specific transactions. For example, Rules 16b-3 and 16b-6(b) provide protection from potential liability for certain employee benefit plan transactions and exercises of derivative securities, but do not eliminate reporting requirements under Section 16(a).

(n31)Footnote 31. It may be equally important to identify the time when such rights became a derivative security, so that transactions will be properly reported on a Form 4 or 5, and any applicable six-month holding period, such as that imposed under Rule 16b-3(d)(3) will be observed. See, e.g., Certilman Balin Adler & Hyman, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,144 at 79,388 (Apr. 20, 1992) (options that do not become exercisable unless performance conditions are met do not become derivative securities until they become exercisable). In *Certilman*, the staff noted that exercisability was not tied to the market price of the equity security, and that exercisability was not tied to the passage of time and continued employment. *Id.* at 79,390. See also GFC Financial Corp., SEC No-Action Letter [1994 Transfer Binder.] Fed. Sec. L. Rep. (CCH) P 76,841 (Apr. 11, 1994) (restrictive stock that has a performance component deemed a derivative security where holders have voting rights and the right to receive dividends prior to vesting).

(n32)Footnote 32. See, e.g., Hechinger Co., SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,772 at 78,464 (Sept. 17, 1991) (rights to exchange class A and class B common stock under a stockholders' agreement acknowledged as derivative securities). See also, NACCO Industries Inc., SEC No-Action Letter, [1994-1995 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,958 at 78,766 (Jan 17 1995) (voluntary conversion of different classes of common stock acknowledged as derivative securities).

(n33)Footnote 33. See Rule 16b-6(a); Rule 16a-1(b); Rule 16a-1(h); Exch. Act Rel. No. 28,869, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709 at 81,248 (Feb. 8, 1991). In contrast, the definition of "equity securities" under Exchange Act Rule 3a11-1 includes only an "option or privilege of buying [such a] security from or selling [such a] security to another without being bound to do so."

(n34)Footnote 34. Rule 16a-1(b). Examples of "call equivalent positions" include a "long call option" (an option under which the insider has the *right to exercise* to purchase stock at a fixed price) and a "short put option" (an option under which the insider has the *obligation* to purchase stock at a fixed price upon exercise by the option holder). See *id.*

(n35)Footnote 35. Rule 16a-1(h). Examples of "call equivalent positions" include a "long put option" (an option under which the insider has the *right to exercise* to sell stock at a fixed price) and a "short call option" (an option under

which the insider has the *obligation* to sell stock at a fixed price upon exercise by the option holder). *See id.*

The Commission's definitions are imprecise in one sense. If an insider "writes" a put option (a "call equivalent position"), the insider typically will be paid an amount (called the "premium") at the time the option is written. Contrary to Rule 16a-1(b), the insider's derivative security position thereafter will *not* become more "valuable" as the market price of the stock increases; rather, the position will become potentially less costly, because the likelihood that the holder of the put option will exercise it will go down, and the value of the stock the insider will be forced to acquire upon exercise, as compared to the option's fixed "strike price" the insider must pay upon exercise, will go up. Similarly, in the normal course of events, the insider who writes a call option will not receive any additional "value" after the premium is paid, even if the price of the underlying stock falls; rather, the insider's risk and potential cost that would be incurred upon exercise by the option holder will go down.

(n36)Footnote 36. For a discussion of the treatment of derivative securities that may represent "sales" of the underlying stock under Section 16(c), which prohibits transactions in the nature of "short" sales by insiders, see § 8.05 *infra*.

(n37)Footnote 37. Hechinger Co., SEC No-Action Letter, [1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,248 at 76,918 (Sept. 10, 1992). In granting relief, the staff acknowledged that the rules might otherwise lead to unintended and undesirable results. The staff noted

particularly [inquiring counsel's] representations that the Rights lack many of the economic components and consequences of market-oriented derivative securities, such that application of the Section 16 rules to the Rights would not be consistent with the purposes of Section 16.

(n38)Footnote 38. See the exemption for over-allotment options, derived from staff interpretations, codified in Rule 16a-1(c)(7)

(n39)Footnote 39. *See* American Stores Co., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,150 at 79,404 (May 5, 1992).

(n40)Footnote 40. *See, e.g.,* Tiger Int'l, Inc., SEC No-Action Letter (available Sept. 14, 1988); Digital Equipment Corp., SEC No-Action Letter (available Sept. 4, 1987); Consumers Water Co., SEC No-Action Letter (available Sept. 4, 1987); Control Data Corp., SEC No-Action Letter (available June 19, 1987); Hana Biologics, Inc., SEC No-Action Letter (available June 3, 1987); J.C. Penney Co., Inc., SEC No-Action Letter (available Nov. 26, 1984); The One Bancorp, SEC No-Action Letter (available June 22, 1984); SmithKline Beckman Corp., SEC No-Action Letter (available Dec. 27, 1983); Pfizer Inc., SEC No-Action Letter (available June 3, 1983).

Although these interpretive letters addressed only Section 16(a) reporting and not potential Section 16(b) liability, and the Commission staff never explained the basis for its grant of relief from Section 16(a) reporting requirements, the issuers' letters of inquiry indicated that such issuers believed cash-only plan interests did not give rise to beneficial ownership of an equity security and that, therefore, such interests did not give rise to potential Section 16(b) liability. This conclusion was significant because the only other practical method to protect plan participants acquiring such interests from liability risks under Section 16(b) generally would have been to qualify the plan under Rule 16b-3, which would have required submission of the plan to shareholders for approval.

(n41)Footnote 41. *See, e.g.,* PPG Industries, Inc., SEC No-Action Letter (available May 2, 1989) (reconsideration); PPG Industries, Inc., SEC No-Action Letter (available July 28, 1988); American Cyanamid Co., SEC No-Action Letter (available Mar. 8, 1988) New England Savings Bank, SEC No-Action Letter (available Oct. 24, 1988); CRS Serrine, Inc., SEC No-Action Letter (available Nov. 2, 1987); Oglebay Norton Co., SEC No-Action Letter (available Sept. 9, 1983). While an insider's decision not to report such a right to future delivery of actual shares as beneficial ownership of

an equity security was arguably correct based on these letters, this view was far from certain under the old rules.

(n42)Footnote 42. Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709 at 81,248 (Feb. 8, 1991), Pt. VII.B (the "Adopting Release").

(n43)Footnote 43. See Cravath, Swaine & Moore SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,699B, at 78,170 (May 6, 1991).

The Commission staff has also declined to extend pre-May 1, 1991 staff interpretations permitting deferred reporting of transactions relating to these kinds of plan interests, unless the transaction is exempt under an explicit exemptive rule. See Simpson Thacher & Bartlett, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,716, at 78,245 (June 27, 1991).

(n44)Footnote 44. See old Rule 16a-1(c)(3)(i); Marion Merrell Dow Inc., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,082, at 79,157 (Jan. 24, 1992); Sullivan & Cromwell, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,687, at 78,107 (Apr. 30, 1991).

(n45)Footnote 45. See old Rule 16a-1(c)(3)(i). See also Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,272 & n.210 (Feb. 8, 1991); Thacher, Proffitt & Wood, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,045, at 78,786 (Dec. 20, 1991). It apparently does not make a difference if the choice of cash or stock is made by the issuer rather than the participant, either. See Cravath, Swaine & Moore, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,699B, at 78,170-72 (May 6, 1991).

The Commission staff has concluded, however, that a right to receive cash in addition to actual stock, but not in lieu of such stock, can qualify as a cash-only right. See Frederic W. Cook & Co., Inc., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,047, at 78,995 (Dec. 20, 1991); CSX Corp., SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,758, at 78,429 (Aug. 30, 1991).

The staff's interpretation in *Frederic W. Cook & Co., Inc.*, now codified at Rule 16a-1(c)(3) in place of the original two cash-only rights exclusions, was that a tax-offset bonus--a cash payment equal to an optionee's tax liability paid at the time of an exercise of an option for actual shares--is a cash-only award that can be excluded under old Rule 16a-1(c)(3)(i). As in the case of *CSX Corp.*, the staff reached this conclusion even though the Section 16 insider would receive actual shares in the same transaction as the cash payment. The staff stated that the tax-offset bonus payment would be "in addition to (but not in lieu of) the shares purchased through an option exercise."

(n46)Footnote 46. To a limited degree it was also possible to rely on the pre-1991 version of Rule 16 b-3. See The Kansas Power and Light Co., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,137, at 79,360 (Mar. 25, 1992).

(n47)Footnote 47. A plan would need to expressly limit the number of cash-only awards to satisfy this requirement. The staff has stated that a plan intended to comply with Exclusion (i) "must include a maximum number of units to be issued either annually or over the life of the plan, or provide the method by which the amounts of awards are to be determined." Cravath Swaine & Moore, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,002, at 78,822 (Oct. 22, 1991). See Merrill Lynch & Co., Inc., SEC No-Action Letter, [1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,242, at 76,893 (Aug. 28, 1992).

(n48)Footnote 48. Compliance with this condition could be accomplished by either having a plan administered by a committee of two or more directors who are "disinterested persons," or by eliminating discretion from the plan by making awards pursuant to a "formula." In the case of an incentive award plan for executive officers, assigning to a disinterested board committee that administers the issuer's discretionary plans the duty to administer an Exclusion (i)

plan should satisfy this requirement. Incentive awards could also be made in compliance with the "formula"-plan requirements. In addition to formulas specifying the amount, price, and timing of grants, such plans must contain specific language limiting the frequency of plan amendments (other than those to conform with tax or other law changes) to no more than once every six months. *See* Rule 16b-3.

(n49)Footnote 49. *See* Anheuser-Busch Cos., Inc., [1991 Transfer Binder] *See* Rule 166.3. Fed. Sec. L. Rep. (CCH) P 79,748, at 78,387 (July 29, 1991); Emerson Electric Co., SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,699F, at 78,183-84 (May 10, 1991).

(n50)Footnote 50. Emerson Electric Co., SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,699F, at 78,183-84 (May 10, 1991). The staff reiterated some of these statements in Anheuser-Busch Cos., Inc., [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,748, at 78,387 (July 29, 1991). *See also* American Bar Association Joint Committee on Employee Benefits, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,719, at 78,252 (July 3, 1991) ("[a]ny discretion over timing is inconsistent with the exemption"); Emerson Electric Co., SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,699F, at 78,183 (May 10, 1991) ("[t]he participant may not have any further discretion once the decision to defer a specified amount has been made, other than to cease deferral or change the level of future deferrals").

Arguably, the staff's "automatic" requirement is a condition required by the staff so that "deferred compensation arrangements not otherwise viewed as awards (because of an election by the participant)" can be viewed as "awards" under Exclusion (ii), and not a requirement applicable to all other kinds of "awards" under Exclusion (ii). If so, this requirement should not apply to more conventional incentive awards, such as a discretionary award of phantom shares.

(n51)Footnote 51. *See* First Union Corp., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,151, at 79,412 (May 5, 1992).

Other issuers seeking interpretive advice under Exclusion (ii) had apparently assumed that such switching transactions must occur at fixed dates under a plan, however. *See* Consolidated Edison Company of New York, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,033, at 78,937 (Nov. 13, 1991) (amending plan to provide automatic switching out of phantom shares on fifth anniversary award, if elected by participant prior to receipt of award); Anheuser-Busch Cos., Inc., [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,748, at 78,387 (July 29, 1991) (issuer had adopted plan rule precluding participants from electing switching while they were subject to Section 16(a) reporting).

(n52)Footnote 52. *See* Emerson Electric Co., SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,699F, at 78,183 (May 10, 1991); Cravath, Swaine & Moore, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,699B, at 78,172 (May 6, 1991); American Bar Association, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,689, at 78,116 (May 2, 1991).

(n53)Footnote 53. *See* Emerson Electric Co., SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,699F, at 78,183 (May 10, 1991).

(n54)Footnote 54. *See* American Bar Association Joint Committee on Employee Benefits, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,719, at 78,252 (July 3, 1991).

In *American Bar Association Joint Committee on Employee Benefits*, the Commission staff also clarified the meaning of a statement in the release adopting Exclusion (ii) stating that "a series of fixed dates of partial redemption" satisfies Exclusion (ii)'s "fixed date" requirement. *See* Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,264, n.136 (Feb. 8, 1991). Inquiring counsel asked whether Exclusion (ii) would be applicable if the participant could elect to redeem or exercise the security in fixed percentages over a period of years, beginning at least six months after award (*e.g.*, phantom stock awarded on January 1, 1992 could be redeemed 20% on

December 31, 1992, 20% on December 31, 1993, and so on). The staff responded that the exclusion would be available provided that "(1) the recipient cannot choose between redeeming and realizing an alternative benefit; and (2) the unredeemed amounts cannot be redeemed later." American Bar Association Joint Committee on Employee Benefits, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,719, at 78,252 (July 3, 1991).

One common plan feature that uses alternative "redemption" dates has apparently been approved by the Commission staff under Exclusion (ii). Deferred compensation may be distributed under a plan on the *earlier* of a fixed date or termination of employment. Although termination serves to accelerate the distribution, and termination is to some extent under the control of the participant, the staff took the position that a plan containing this feature complied with an unrelated requirement of Exclusion (ii). See Consolidated Edison Company of New York, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,033, at 78,937 (Nov. 13, 1991).

In Anheuser-Busch Cos., Inc., [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,748, at 78,387 (July 29, 1991), inquiring counsel asked whether the date for redemption of phantom stock would be deemed a "fixed date" for purposes of Exclusion (ii) if the participant selected that date by irrevocably specifying such date at the time the participant elected to defer his compensation. In agreeing that this was permissible, the staff stated:

The fact that the distribution date or dates are chosen by the participant in a deferred compensation plan does not prevent satisfaction of the fixed date requirement, but any discretion over timing or ability to change the selection is inconsistent with the exemption... In this regard, we specifically note your representation that upon selection, the date of distribution is neither contingent nor subject to discretion or variation except upon death, retirement, disability or termination of service as a director.

Similarly, in Consolidated Edison Company of New York, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,033, at 78,937 (Nov. 13, 1991), the issuer proposed to amend a deferred compensation plan to allow a participant, prior to receipt of an award, to elect to have mandatorily deferred awards automatically switched out of phantom shares on the fifth anniversary of the award. The staff agreed that the switch would be deemed to occur on a "fixed date" under Exclusion (ii).

(n55)Footnote 55. See Citizens Utilities Co., SEC No-Action Letter, [1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,232, at 76,866 (Aug. 5, 1992); Sonnenschein Nath & Rosenthal, SEC No-Action Letter, [1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,226, at 76,841 (July 6, 1992). See also Anheuser-Busch Cos., Inc., [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,748, at 78,387 (July 29, 1991) (inquiring counsel stated that switching elections would not be permitted by participants during time such persons are subject to Section 16(a) reporting requirements; staff response did not address this feature).

(n56)Footnote 56. Cravath, Swaine & Moore, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,699B, at 78,172 (May 6, 1991).

The staff subsequently confirmed that cash-only plans could be amended after May 1, 1991 to provide additional participant rights to elect "switching" the form of investment of cash account balances, including switches into and out of phantom shares, without losing the benefits of the "grandfathering" of the pre-May 1, 1991 cash-only interests. See Consolidated Edison Company of New York, Inc., [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,033 at 78,937 (Nov. 13, 1991).

(n58)Footnote 58. See, e.g., The Hillhaven Corp., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,146, at 79,393 (Apr. 22, 1992); National Medical Enterprises, Inc., SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,672, at 78,075 (Apr. 23, 1991).

2-8 Federal Securities Exchange Act of 1934 § 8.03

(n59)Footnote 59. *See* § 8.03[2][d] *infra*. The Commission staff has concluded that, for policy reasons, certain rights that otherwise might come within the general definition should not be considered to be "derivative securities." These interpretations are discussed in § 8.03[2][b][ii] *supra*.

(n60)Footnote 60. Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,258-63 (Feb. 8, 1991).

(n61)Footnote 61. *See* Jenny Craig, Inc., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,086, at 79,167 (Jan. 30, 1992).

(n62)Footnote 62. *See, e.g.,* Hechinger Co., SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,772, at 78,464 (Sept. 17, 1991); Lilly Industrial Coatings, Inc., SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,699E, at 78,175 (May 9, 1991); National Medical Enterprises, Inc., SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,672, at 78,075 (Apr. 23, 1991).

(n63)Footnote 63. Cravath, Swaine & Moore, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,699B, at 78,170-72 (May 6, 1991). Typically, a stock appreciation right is a right, granted under an executive compensation plan, entitling the holder to be paid an amount equal to appreciation in market value of stock from the date of grant to the date of exercise, with payment either in cash or stock.

The Commission staff has taken the position that, for reporting purposes, the exercise of a stock appreciation right for cash must be reported in three "component" parts: the exercise of the derivative security is reported on Table II of Form 4, the acquisition of all shares to which the stock appreciation right relates is reported on Table I of Form 4, and the disposition of such shares for cash is reported in Table I of Form 4 or 5. *See id.* This method of reporting assumes that an exercise of an option for shares (and payment by the insider of the exercise price) is implicit in the exercise of a stock appreciation right for cash. The exemption for exercises of derivative securities under Rule 16b-6(b) applies only to the disposition of the stock appreciation right and the deemed acquisition of shares, and *not* to the deemed sale of shares. *See id.* Rule 16b-3(e) can, however, provide an exemption for the deemed sale of shares. *See id.*

(n64)Footnote 64. *See* Realty South Investors, Inc., SEC No-Action Letter, [1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,219, at 76,817 (June 17, 1992); Marion Merrell Dow Inc., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,082, at 79,156 (Jan. 24, 1992) (discussing contingent value rights).

(n65)Footnote 65. O'Connor, Cavanaugh, Anderson, Westover, Killingsworth & Beshears, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,040, at 78,965-67 (Dec. 11, 1991); Davis Polk & Wardwell, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,769, at 78,460 (Aug. 23, 1991).

(n66)Footnote 66. *See* CSX Corp., SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,758, at 78,429 (Aug. 30, 1991). In *CSX Corp.*, the Commission staff noted that the non-recourse nature of the note, and the fact that the note was secured by the underlying stock, imposed no obligation on the participant to pay off the note, so that the participant had the right but not the obligation to complete the purchase of the underlying stock. This, the staff concluded, is the "economic equivalent of a traditional stock option." *Id.*

The note and underlying common stock should be viewed as an option with a fixed exercise price under Rule 16a-1(c) and a cash-only right relating to common stock that is acquired upon an award exercise. *Id.*

(n67)Footnote 67. In exercising an SAR, the proceeds of this deemed resale of stock are treated as paying the exercise price. If the SAR is exercised for cash, any remaining proceeds of the deemed resale are paid over to the person exercising. If the SAR is exercised for stock, the deemed resale covers only enough shares to pay the exercise price, with any remaining shares delivered to the person exercising.

(n68)Footnote 68. Rule 16a-1(c)(6). *See* Section 8.03[2][d] below.

(n69)Footnote 69. See Cravath, Swaine & Moore, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,699B, at 78,172 (May 6, 1991). Under this approach, the exercise of the derivative security is reported on Table II of Form 4 or 5, the acquisition of all shares to which the SAR relates is reported on Table I of Form 4 or 5, and the disposition of such shares for cash is reported in Table I of Form 4 or 5. Deferred reporting on Form 5 is permitted for any component of the exercise that is exempt (except components exempted solely by Rule 16b-6(b) must be reported on the earlier of the next required Form 4 or the year-end Form 5). See Kirkpatrick & Lockhart, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,099, at 79,208-09 (Feb. 11, 1992); Simpson Thacher & Bartlett, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,686, at 78,105 (Apr. 30, 1991).

See also Realty South Investors, Inc., SEC No-Action Letter, [1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,219, at 76,817 (June 17, 1992) (exercise of "reset" right, representing a right to receive a number of shares having a value equal to amount by which stock price depreciated from date of grant of right, reportable as separate components).

(n70)Footnote 70. See Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,272 (Feb. 8, 1991); Cravath, Swaine & Moore, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,699B, at 78,172 (May 6, 1991); Simpson Thacher & Bartlett, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,686, at 78,105 (Apr. 30, 1991).

(n71)Footnote 71. See Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,273, 81,283 (Feb. 8, 1991) (stating that SARs settled in stock accorded same treatment as option; revised response to question 114 in Exch. Act Rel. No. 34-18,114, Fed. Sec. L. Rep. (CCH) P 26,062, at 19,063-44 (Sept. 23, 1981) stating exercises of SARs for stock exempt under Rule 16b-6(b)). See also Xerox Corp., SEC No-Action Letter, [1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,227, at 76,845 (July 7, 1992) (where cashless tax withholding feature of derivative securities is mandatory rather than elective, such feature is not a separate derivative security; as an inseparable feature of the derivative security, withholding of shares upon exercise is exempt by Rule 16b-6(b)); CSX Corp., SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,758, at 78,429 (Aug. 30, 1991) (referring to a right to have underlying shares withheld to repay a non-recourse purchase note treated as a kind of stock option as a "cashless exercise of the Option for stock," and implying that such right is not reportable as an SAR exercised partly for cash).

(n72)Footnote 72. See Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,272 & n.213 (Feb. 8, 1991).

The Commission and its staff have termed SAR-like features that permit plan participants to elect to surrender derivative securities and equity securities for cash or a benefit measured in cash as "tandem cash components." See *id.*; Stook & Stook & Lavan, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,718, at 78,249 (July 3, 1991).

(n73)Footnote 73. See Clorox Company, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,140, at 79,367-69 (Mar. 27, 1992). Previously, Commission staff members had taken the oral position that no separate reporting of cashless withholding rights was required.

In view of the fact that cashless withholding rights are so common, the staff granted some relief from its new position. The staff advised that, instead of reporting cashless withholding rights as separate derivative securities (on separate lines of the Form 3, 4, or 5), insiders could note the existence of such rights in a footnote to the related option. See *id.* With respect to those insiders who had failed to report cashless withholding rights as separate derivative securities or to note their existence as features of reported derivative securities, the staff concluded that no disclosure of a filing delinquency would be required by the issuer in its Form 10-K or proxy statements under Item 405 of Regulation S-K. See Skadden, Arps, Slate, Meagher & Flom, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,169, at 79,482 (June 8, 1992). Since a feature of an option or restricted stock which permits withholding of

shares otherwise issuable upon exercise of the option or vesting of the restricted stock to satisfy the income tax withholding requirements of exercise or vesting may be properly viewed as a feature of the instrument to which it relates, failure to report the feature does not give rise to a disclosure obligation under Item 405 of Regulation S-K. *Id.*

The Commission staff has granted favorable interpretive positions with respect to alternative features that can achieve cashless withholding without creating a separate derivative security. In *Xerox Corp.*, SEC No-Action Letter, [1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,227, at 76,845 (July 7, 1992), the staff concluded that a provision requiring cashless withholding upon exercise of an option is not a tandem cash component that would constitute a separate derivative security.

In contrast to the *Xerox Corp.* interpretive letter, in *Frederic W. Cook & Co., Inc.*, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,047, at 78,995-96 (Dec. 20, 1991), the staff concluded that a tax-offset bonus comes within the general definition of a derivative security. A tax-offset bonus provides for a payment to an optionee, upon exercise of an option, of a cash amount sufficient to pay taxes resulting from the exercise of the option. When tax-offset rights are awarded pursuant to an employee benefit plan satisfying the provisions of Rule 16b-3(a)(1), (a)(2) and (c)(2), the tax-offset rights would be excluded from the definition of a derivative security pursuant to Rule 16a-1(c)(3)(i). *Id.*

The staff has taken the position that, if an issuer has a policy of repurchasing shares (for tax withholding purposes or otherwise) that is informal and not a contractual right of the optionee, such general policy is not a separate derivative security. See *Safeco Corp.*, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,768, at 78,456 (Aug. 23, 1991).

(n74)Footnote 74. See *Clorox Company*, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,140, at 79,367 (Mar. 27, 1992):

This conclusion seems to derive from the fact that former Rule 16b-3(e), which provides an exemption for certain SAR exercises and cashless withholding transactions, states in pertinent part:

the cash settlement of an equity security to satisfy the tax withholding consequences of either the receipt or vesting of the equity security or the exercise of a derivative security related to the equity security... shall be deemed a stock appreciation right.

This language was included in former Rule 16b-3(e), which at the time provided a basis for exempting SAR exercises and which in its pre-1991 version had been interpreted to exempt tax withholding rights, in order to ensure that an exemption would be available for surrenders of restricted stock and other equity securities to pay tax withholding and other obligations. It has resulted, however, in expanding the definition of the term "stock appreciation right."

(n75)Footnote 75. Exchange Act Rel. No. 34-37,260 at Part III.C. (Aug. 15, 1996).

(n76)Footnote 76. *Id.* This action also clarified the theretofore uncertain treatment of stock withholding to pay the exercise price of an option.

The uncertain treatment of stock withholding to pay the exercise price arose prior to the amendment of the Section 16 rules in 1991. Compare *BMA Corp.*, SEC No-Action Letter (available Apr. 6, 1989) and *Rohr Indus., Inc.*, SEC No-Action Letter (available Feb. 2, 1989) (withholding of option stock to pay exercise treated exempted by introductory paragraph of Rule 16b-3 in the same way and to the same extent as an ordinary stock-swap) with *Peoples Energy Corp.*, SEC No-Action Letter (available Dec. 31, 1990), *C.R. Bard, Inc.*, SEC No-Action Letter (available Mar. 3, 1989), *The Pittston Company*, SEC No-Action Letter (available Feb. 8, 1989), and *Santa Anita Realty Enterprises, Inc.*, SEC No-Action Letter (available Oct. 27, 1988) (withholding of option stock to pay exercise price required to comply with

old Rule 16b-3(e) in order for deemed cash sale of shares withheld to be exempt).

One way to avoid this result is to permit a "pyramiding" option exercise, in which portions of an option are exercised in sequence, with the shares acquired upon exercise of each portion immediately surrendered to pay the exercise price of an additional portion of the option. The right to engage in a pyramiding option exercise is apparently not a separate derivative security, and the surrender of shares in such a transaction is exempt under Rule 16b-3(f)(2) (and the introductory paragraph of old Rule 16b-3) without complying with the additional requirements applicable to cash exercises of SARs. *See* Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,283 (Feb. 8, 1991) which indicates that interpretations in Nixon, Hargrave, Devans & Doyle, SEC No-Action Letter (available Feb. 8, 1982) (also cited as "Gannett Co., Inc.") and Debevoise & Plimpton, SEC No-Action Letter (available Feb. 8, 1982) (also cited as "David V. Smalley") that pyramiding is exempt under introductory paragraph of old Rule 16b-3 are unchanged under new Rule 16b-3; Sec. Exch. Act Rel. No. 34-19,756, Fed. Sec. L. Rep. (CCH) P 26,086, at 19,091-4 (May 11, 1983) in which the Commission stated that surrenders of shares in pyramiding transactions are exempt under introductory paragraph of old Rule 16b-3.

(n77)Footnote 77. *See* Ware & Friedenrich, P.C., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,069, at 79,072 (Jan. 10, 1992).

(n78)Footnote 78. *See also* Safeco Corp., SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,768, at 78,454-56 (Aug. 23, 1991) (issuer policy of repurchasing option shares, where issuer not contractually bound to do so, not a separate derivative security).

(n79)Footnote 79. *See* Health Management Associates, Inc., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,243, at 76,899-900 (Sept. 1, 1992); Simpson Thacher & Bartlett, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,712, at 78,241 (June 19, 1991).

(n80)Footnote 80. *See* Certilman Balin Adler & Hyman, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,144, at 79,388 (Apr. 20, 1992).

(n81)Footnote 81. *See, e.g.,* Ecolab Inc., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,066, at 79,067-69 (Jan. 9, 1992); Ford Motor Co., SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,724, at 78,261 (July 18, 1991).

(n82)Footnote 82. *See* Merrill Lynch & Co., Inc., SEC No-Action Letter, [1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,242, at 76,893 (Aug. 28, 1992); Cigna Corp., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,132, at 79,338 (Mar. 20, 1992); Boston Edison Co., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,128, at 79,327 (Mar. 19, 1992).

(n83)Footnote 83. *See, e.g.,* Certilman Balin Adler & Hyman, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,144, at 79,388 (Apr. 20, 1992); Jenny Craig, Inc., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,086, at 79,167 (Jan. 30, 1992). While not clear, this suggests that performance units that are settled in cash upon vesting are never reportable under Section 16.

(n84)Footnote 84. *See* Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,283 (Feb. 8, 1991) (revised response to question 129 in Sec. Exch. Act Rel. No. 34-18,114, Fed. Sec. L. Rep. P 26,062, at 19,063-43 (Sept. 23, 1981)); William M. Mercer, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,121, at 79,293 (Mar. 6, 1992). In William M. Mercer, the staff took the position that limited SARs are separate derivative securities even if they are only exercisable in lieu of exercise of a stock option. The limited SARs in question could only be exercised following the occurrence of a change in control of the issuer. *But cf.* The Kansas Power and Light Co., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P

76,137, at 79,356 (Mar. 25, 1992) (units having a value equal to shares of common stock would be settled upon a change-in-control, apparently without consideration of performance valuation measures that affect units' value in other circumstances, not deemed to be derivative securities).

(n85)Footnote 85. *See* General Mills, Inc., SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,699D at 78,173 (available May 7, 1991).

(n86)Footnote 86. *See* General Mills, Inc., SEC No-Action Letter (reconsideration), [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,087, at 79,171 (Jan. 31, 1992).

(n87)Footnote 87. *See, e.g.,* The Kansas Power and Light Co., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,137, at 79,356 (Mar. 25, 1992); Boston Edison Co., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,128, at 79,327 (Mar. 19, 1992). *See also* Ford Motor Co., SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,724, at 78,261 (July 18, 1991).

The Commission staff's position that performance valuation measures and performance conditions will prevent a right from being a derivative security until valuation or satisfaction of the conditions could have potentially adverse consequences. The greatest risk is that awards under executive incentive plans subject to such performance valuation or conditions will be viewed as being "granted" at the end of a performance period rather than at the beginning, which "grant" might be viewed as a purchase for Section 16(b) purposes. To avoid this Section 16(b) risk, the award could be conformed to an exemption under Rule 16b-3. If the date of "grant" is the date of valuation or the date conditions are satisfied, this six-month holding requirement will extend past the point at which rights under such plans have typically been settled. In addition, a requirement to report on Form 4 or Form 5 the "grant" of a derivative security that occurs at the time of valuation or satisfaction of conditions could be easily overlooked.

(n88)Footnote 88. *See, e.g.,* Thacher, Proffitt & Wood, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,045, at 78,986 (Dec. 20, 1991); Anheuser-Busch Cos., Inc., [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,748, at 78,384 (July 29, 1991); Emerson Electric Co., SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,699F, at 78,183 (May 10, 1991).

Similarly, if a right has conditions unrelated to stock price that might increase its value, but has a minimum value tied to stock price that is not subject to any performance condition, such right will be deemed a derivative security to the extent of the minimum value. *See* AMP Inc., SEC No-Action Letter, [1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,201, at 76,711 (June 12, 1992).

(n89)Footnote 89. Rule 16a-1(c)(1).

(n90)Footnote 90. Rule 16a-1(c)(2).

(n91)Footnote 91. Rule 16a-1(c)(3). This provision was adopted in 1996 to reverse the staff's interpretation in Clorox Company, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,140 at 76,367 (March 27, 1992). *See* Exchange Act Rel. No. 34-37,260 (May 31, 1996); and 8.03 [2][c][i] *supra*.

(n92)Footnote 92. Rule 16a-1(c)(4). This exclusion is intended to parallel the exclusion from the definition of "beneficial owner" of interests in broad-based, publicly traded market baskets and indexes of stocks under Rule 16a-1(a)(5)(iii). *See* Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,264, n.138 (Feb. 8, 1991). For further discussion, *see* § 8.03[3][g] *infra*.

The Commission pointed out that, if issuer stock is a component of a basket traded independent of the basket, such transaction is subject to Section 16. *See id.*

(n93)Footnote 93. Rule 16a-1(c)(5). Excluded under this Rule are only general rights to participate in an issuer

plan, but not "rights, options, or other derivative securities awarded under a plan." *See* Exch. Act Rel. No. 28,869, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,264, n.139 (Feb. 8, 1991). This Rule is primarily a variation on the principle that rights that are not exercisable at a fixed price or valued by reference to a fixed number of shares of issuer stock will not be viewed as derivative securities. The exclusion extends to interests or rights to participate in employee benefit plans of direct and indirect majority-owned subsidiaries of the issuer.

(n94)Footnote 94. Rule 16a-1(c)(6).

(n95)Footnote 95. Rule 16a-1(c)(7). This rule, adopted in 1996, codifies the staff's prior interpretation in Video Technology (Overseas) Ltd., SEC No-Action Letter, [1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P§76,220 at 76,823 (June 17, 1992). Absent this position, the grant of an overallotment option by an insider typically would have been a non-exempt sale, and the expiration of such option unexercised less than six months later (which likely would occur only if the issuer's stock price had declined) would have resulted, under rule 16b-6(d), in recoverable profits under Section 16(b).

(n96)Footnote 96. The terms equity securities and derivative securities are discussed in § 8.02[2] *supra*. Note that an insider must report beneficial ownership and changes in such ownership with respect to all equity securities of the issuer, not just equity securities registered under Section 12 of the Exchange Act. Exch. Act § 16(a); Rule 16a-2 (introductory paragraph).

(n97)Footnote 97. Rule 16a-3(a),(f).

(n98)Footnote 98. Rule 16a-3(a),(f),(g). The requirements for filing Forms 4 and 5 are discussed in § 8.02[4] *supra*.

(n99)Footnote 99. *See* Rules 16a-3(f) and 16a-3(g).

(n100)Footnote 100. *See* Rule 16a-3(g).

(n101)Footnote 101. *See* Rule 16a-3(g)(2).

(n102)Footnote 102. *See* Rule 16a-3(g)(3).

(n103)Footnote 103. *See, e.g.*, Rule 16a-2 ("Persons and Transactions Subject to Section 16"); Rule 16a-3 ("Reporting Transactions and Holdings"); Rule 16a-8(b) ("Trust Holdings and Transactions").

(n104)Footnote 104. Sections 16(b) and (c) go on to refer to such insiders as "such beneficial owner."

(n105)Footnote 105. *See* Rule 16a-1(a). The definition of the term "beneficial ownership" for purposes of determining who is a 10% shareholder subject to Section 16 is discussed in § 8.02[2][a] *supra*.

(n106)Footnote 106. Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,252-53 (Feb. 8, 1991).

(n107)Footnote 107. Sec. Exch. Act Rel. No. 34-26,333 [1988-1989 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,343, at 89,602 (Dec. 2, 1988); Exch. Act Rel. No. 34-18,114, Fed. Sec. L. Rep. P 26,062, at 19,063-7 and n.17 (Sept. 23, 1981). In Release 18,114, the Commission did point out the "generally accepted indicia of beneficial ownership," for purposes of Section 16(a), which include rights to vote or transfer the securities and receive income or the proceeds of a disposition of securities. *See id.*

(n108)Footnote 108. *See* Sec. Exch. Act Rel. No. 34-26,333 [1988-1989 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,343, at 89,603 & n.57 (Dec. 2, 1988) where the Commission stated:

2-8 Federal Securities Exchange Act of 1934 § 8.03

Rule 16a-1(a)(2), therefore, would define beneficial ownership for purposes of Section 16(a) reports and Section 16(b) profit recovery in terms of pecuniary interest, thereby codifying case law. Inclusion of a specific definition of beneficial ownership for reporting and profit recovery purposes, particularly those provisions of the definition that address specific situations such as family and trust ownership, will provide for greater certainty. It will, however, substantially reduce the flexibility of the courts to take into account the facts and circumstances of a specific case that might militate against a finding of beneficial ownership. For example, one court found beneficial ownership for reporting purposes and not recovery purposes. Under the proposed definition that would no longer be possible. (Footnotes omitted.)

The Commission admitted, in a footnote referring to the case law assertedly being codified, that the definition of "beneficial owner" goes "beyond most of the judicial decisions and state[s] that an indirect pecuniary interest is sufficient to convey beneficial ownership." *Id.*

(n109)Footnote 109. In *Whiting v. Dow Chemical Co.*, 523 F.2d 680, 689 (2d Cir. 1975), the court concluded that, if an insider is "the beneficial owner" of his wife's securities "for Section 16(b) purposes," such insider is chargeable with all profits realized from a sale of such shares.

In *Whittaker v. Whittaker Corp.*, 639 F.2d 516, 526 (9th Cir.), cert. denied, 454 U.S. 1031 (1981), the court stated that the court in *Whiting v. Dow Chemical Co.* "recognized" that [a] definition of 'beneficial ownership' may be broad enough to require reporting for purposes of public exposure but too broad for the imposition of liability under § 16(b). 523 F.2d at 685 n.8. But, the *Whiting* court still ended with a general proposition that, if one is the 'beneficial owner,' one is chargeable with the profits. 523 F.2d at 689. The *Whiting* court apparently created an unexpressed new term, "beneficial ownership for § 16(b) purposes." The court then took the defining characteristics of beneficial ownership in Release 34-7793 [Exch. Act Rel. No. 34-7,793, Fed. Sec. L. Rep. (CCH) P 26,031 at 19,056 (Jan. 19, 1966)] and applied them to the facts of the particular case, as Release 7824 advised [Exch. Act Rel. No. 34-7,824, Fed. Sec. L. Rep. (CCH) P 26,030, at 19,056 (Feb. 14, 1966)]. This application was done not simply to find if beneficial ownership for § 16(a) reporting was met, but to determine if the actual rewards of ownership were sufficiently present to warrant attributing the stock to the insider-spouse for § 16(b) liability. See 523 F.2d at 688-89 ... It was this "beneficial ownership for § 16(b)" which was dispositive in determining what profits were "realized by him."

In one of the releases cited by the *Whittaker* and *Whiting* courts, the Commission had taken the position that the concept of "beneficial ownership" for purposes of Section 16(a) was broader than the similar concept embodied in the language of Section 16(b). See Sec. Exch. Act Rel. No. 34-7,824, Fed. Sec. L. Rep. (CCH) P 26,030, at 19,056 (Feb. 14, 1966). As indicated by the quotation above, both courts apparently approved of this distinction.

By attempting to define the term "beneficial owner" for purposes of both reporting and liability under Sections 16(a) and (b), the Commission has sought to, in effect, exclude the traditional inquiry by the courts into whether given facts and circumstances should give rise to short-swing profits liability. It is questionable whether a court will accept that the Commission has done an adequate job in this regard. Because the Commission has sought to accomplish this end by defining an "unexpressed" term, with no comprehensive definition of the terms such as "profit realized by [the insider]" that actually appear in Section 16(b), the way appears open for a court to continue to apply the terms of Section 16(b) without being constrained by the definition of "beneficial owner" in Rule 16a-1(a)(2). See also *Colan v. Monumental Corp.*, 713 F.2d 330, 334 (7th Cir. 1983) (even though old Rule 16a-2(b) deemed holder of option the "beneficial owner" of underlying shares for purposes of determining whether he was a 10% shareholder, such rule applied only for purposes of Section 16(a) reporting; court concluded that shares underlying the option in question did not count for purposes of determining whether person is a 10% shareholder subject to short-swing profits liability provisions of Section 16(b)).

(n110)Footnote 110. See Rule 16a-8(d).

(n111)Footnote 111. *See, e.g.*, Rule 16a-1(a)(2)(ii).

(n112)Footnote 112. The principal circumstances in which indirect beneficial ownership have been viewed as arising are discussed in § 8.03[3][c] *infra*.

(n113)Footnote 113. Rule 16a-1(a)(3).

(n114)Footnote 114. Rule 16a-1(a)(2).

(n115)Footnote 115. *See* Sec. Exch. Act Rel. No. 34-26,333 [1988-1989 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,343, at 89,603 (Dec. 2, 1988). *See also* *CBI Indus., Inc. v. Horton*, 682 F.2d 643, 646 (7th Cir. 1982) (profit realized by insider under Section 16(b) requires "direct pecuniary" interest).

Although the notion of "pecuniary interest" or economic benefit is central to court decisions relating to whether an insider realized profits from purchases and sales, the circumstances under which an indirect pecuniary interest will be deemed to exist under Rule 16a-1(a)(2) go well beyond the holdings of prior cases. *See* Sec. Exch. Act Rel. No. 34-26,333, [1988-1989 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,343, at 89,604 and n.68 (Dec. 2, 1988).

(n116)Footnote 116. Rule 16a-1(a)(2)(ii).

(n117)Footnote 117. *See* Rule 16a-1(a)(1).

(n118)Footnote 118. *See* Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,252-53, 81,254 (Feb. 8, 1991). Thus, for example, a trustee of a trust holding more than ten percent of the outstanding equity securities of an issuer would be a Section 16 insider, assuming he had voting and dispositive power over trust shares (as a trustee typically would) and assuming that the trustee could not qualify for an exclusion under Rule 16a-1(a)(1). *See* § 8.02[2][a] *supra*. Any Form 3, 4, or 5 filed by such trustee would only report beneficial ownership of shares as to which the trustee has a pecuniary interest, which number may be far fewer than ten percent of the outstanding class. If neither the trustee nor members of his immediate family are beneficiaries of the trust, and the trustee did not separately beneficially own any of the issuer's equity securities, the trustee's Form 3 would indicate in Box 5 ("Relationship of Reporting Person to Issuer") that the trustee is a "10% owner," but would report no beneficial ownership of equity securities on Table I or derivative securities on Table II of the Form.

(n119)Footnote 119. *See* Exch. Act Rel. No. 34-18,114, Fed. Sec. L. Rep. P 26,062, at 19,063-7 (Sept. 23, 1981) (question 4), implicitly reaffirmed in Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709 at 81,281 (Feb. 8, 1991).

(n120)Footnote 120. *See* Cigna Corp., SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,747 at 78,381 (Aug. 6, 1991); Hewitt Associates, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,688, at 78,113 (May 1, 1991).

(n121)Footnote 121. Thacher, Proffitt & Wood, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,045, at 78,986 (Dec. 20, 1991).

A rabbi trust is a trust that holds assets for the purpose of funding an issuer's obligation to make future payments of deferred compensation. Typically used for deferred compensation arrangements with executives, a rabbi trust's terms permit creditors of the issuer to attach the trust assets to satisfy a judgment against the issuer. As a result, the executive's rights are deemed to be no greater than those of any other unsecured creditor of the issuer, so the deposit of assets in the rabbi trust does not cause the executive to be deemed to have "constructively received" the deferred compensation, for federal income tax purposes, prior to actual payment of the compensation.

(n122)Footnote 122. American Bar Association, SEC No-Action Letter [1993 Transfer Binder] Fed. Sec. L. Rep.

(CCH) P 76,694 at 77,998 (June 28, 1993). The staff indicated that this relief would not necessarily be available to an insider-trustee who managed such a mixed-equity fund.

The American Bar Association interpretive letter provides relief from a more stringent position taken in *Oglebay Norton Co.*, SEC No- Action Letter [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,777, at 78,485-86 (Sept. 23, 1991). In *Oglebay Norton Co.*, the staff concluded that an insider making a plan contribution to a mixed-equity fund that, by its terms, could invest not more than 50% of its assets in issuer stock, would acquire a pecuniary interest in issuer stock held in such fund. Instead of focusing on the potential percentage of issuer stock in the mixed equity fund, as in *Oglebay Norton Co.*, the *American Bar Association* interpretive letter focused on the actual percentage as of the end of the plan's last fiscal year. The relief granted by the staff in *American Bar Association* is available whether or not there is any explicit limit on the percentage of issuer stock that can be held in the mixed-equity fund. American Bar Association, SEC No-Action Letter, [1993 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,694 at 77,998 (available June 28, 1993).

(n123)Footnote 123. See, e.g., Certilman Balin Adler & Hyman, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,144, at 79,388 (Apr. 20, 1992); The Kansas Power and Light Co., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,137, at 79,356 (Mar. 25, 1992); Boston Edison Co., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,128, at 79,330 (Mar. 19, 1992). This issue is discussed in § 8.03[2] *supra*.

(n124)Footnote 124. See Ford Motor Co., SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,724, at 78,261 (July 18, 1991).

(n125)Footnote 125. See Lincoln National Corp., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,133, at 79,346 (Mar. 20, 1992); Dynamics Corporation of America, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,098, at 79,207 (Feb. 11, 1992); Becton, Dickinson and Co., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,081, at 79,154 (Nov. 6, 1991).

(n126)Footnote 126. As discussed in § 8.03[2] above, the Commission staff has concluded that conditions that could preclude exercisability of a right or prevent a right from having value will cause a right not to be deemed a derivative security, unless such conditions relate solely to passage of time, continued employment, or achievement of specified market prices. See, e.g., Certilman Balin Adler & Hyman, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,144, at 79,388 (Apr. 20, 1992).

(n127)Footnote 127. In the case of insiders who are trust beneficiaries, the Commission staff has taken a position that, in effect, treats the list under Rule 16a-1(a)(2)(ii) as exclusive. Rule 16a-1(a)(2)(ii)(E) refers to Rule 16a-8 as setting forth circumstances in which an insider's interest in a trust will be give rise to an indirect pecuniary interest in issuer stock. Rule 16a-8(b)(3) specifies that a trust beneficiary cannot have an indirect pecuniary interest unless he has investment control. Although the non-exclusive nature of Rule 16a-1(a)(2)(ii) would seem to allow for the possibility that a trust beneficiary might have a pecuniary interest without investment control, under an analysis separate from that under Rule 16a-8(b)(3), the staff has taken the clear position that a beneficiary will not be viewed as having an indirect pecuniary interest if such beneficiary does not have or share investment control. See Fulbright & Jaworski, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,126, at 79,319 (Mar. 13, 1992); Sullivan & Cromwell, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,687, at 78,107 (Apr. 30, 1991); Hewitt Associates, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,688, at 78,112-13 (May 1, 1991).

(n128)Footnote 128. Members of an insider's "immediate family" include "any child, stepchild, grandchild, parent, stepparent, grandparent, spouse, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law, and shall include adoptive relationships." Rule 16a-1(e).

(n129)Footnote 129. Rule 16a-1(a)(2)(ii)(A). *See also* Rule 16a-1(a)(4).

(n130)Footnote 130. Sec. Exch. Act Rel. No. 34-26,333 [1988-1989 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,343, at 89,603-04 (Dec. 2, 1988).

(n131)Footnote 131. *See* Sec. Exch. Act Rel. No. 34-27,148 [1989 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,439, at 80,386 (Aug. 18, 1989).

As discussed in § 8.03[a] *supra*, the Commission and the courts had considered a number of issues related to beneficial ownership of shares held by family members prior to adoption of Rule 16a-1(a)(2)(ii)(A). The Commission's attempt to adopt a rigid and non-rebuttable presumption was part of a broader effort, under the new rules, to extend Section 16(b) liability beyond existing limits established in the case law.

(n132)Footnote 132. *See* Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,286 (Feb. 8, 1991).

(n133)Footnote 133. *See* Sec. Exch. Act Rel. No. 34-29,131, Fed. Sec. L. Rep. (CCH) P 26,086A, at 19,091-11 (Apr. 26, 1991).

(n134)Footnote 134. Obviously, if an insider does not report such family members' securities on his Forms, his risk of litigation under Section 16(b) will be reduced.

(n135)Footnote 135. *But cf.* Exch. Act Rel. No. 27,148 [1989 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,439, at 80,388 (Aug. 18, 1989) ("Given the change from mandated to presumed attribution, the revised proposed rules would allow an insider to disclaim beneficial ownership of immediate family holdings").

(n136)Footnote 136. The Commission questioned whether an insider should not be viewed as having a pecuniary interest in equity securities held by anyone sharing the insider's household (other than employees and tenants), regardless of family relationships. *See* Sec. Exch. Act Rel. No. 34-26,333 [1988-1989 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,343, at 89,603-04 (Dec. 2, 1988). The Commission backed away from this position, in response to negative comment, but stated that an insider might, in given facts and circumstances, have such an indirect pecuniary interest (under the general definition of the term) even in the absence of a family relationship. *See* Sec. Exch. Act Rel. No. 34-27,148 [1989 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,439, at 80,386 (Aug. 18, 1989).

(n137)Footnote 137. Rule 16a-1(a)(2)(ii)(B). "The term 'indirect pecuniary interest' in any class of equity securities shall include, but not be limited to ... (B) a general partner's proportionate interest in the portfolio securities held by a general or limited partnership..." *Id.*

Treating partners as having such a pecuniary interest in portfolio securities of the partnership is generally consistent with prior case law and Commission positions. *See, e.g., Blau v. Lehman*, 368 U.S. 403 (1962) ; *Rattner v. Lehman*, 193 F.2d 564, (2d Cir. 1952) ; Sec. Exch. Act Rel. No. 34-18,114, Fed. Sec. L. Rep. P 26,062, at 19,063-7 (Sept. 23, 1981) (question 7). The Commission extended its prior positions in one sense, however, concluding that the general partner of a limited partnership should be deemed to have an indirect pecuniary interest the same as a general partner of a general partnership. *See* Sec. Exch. Act Rel. No. 34-27,148, [1989 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,439, at 80,387 (Aug. 18, 1989). *See also* Rule 16a-1(a)(2).

(n138)Footnote 138. *See* Form 3, Instr. 5(b)(iv); Form 4, Instr. 4(b)(iv); Form 5, Instr. 4(b)(iv). *See also* Shea & Gould, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,670, at 78,074 (Apr. 23, 1991) (aggregate reporting permitted by insider of portfolio shares held by a corporation when insider does not have pecuniary interest in all such shares). *See also* Rule 16a-1(a)(2).

As permitted by Rule 16a-1(a)(4), the insider-partner probably should include a footnote stating that he disclaims

beneficial ownership in any shares held by the partnership in which he does not have a pecuniary interest.

(n139)Footnote 139. The Commission staff has not addressed whether changes within the control of the insider would be deemed reportable transactions, or exactly when or how a partner reports changes in its pecuniary interests. For example, if an insider-partner acquires additional partnership interests at a time that the partnership is holding issuer stock so that his proportionate interest increases, one could see the analysis being different than what may apply if an insider-partner's proportionate interest decreases because the partnership issues additional interests to third-parties, or if other partners' withdrawals result in the partnership selling or distributing portfolio securities.

(n140)Footnote 140. Rule 16a-1(a)(2)(iii) provides:

A shareholder shall not be deemed to have a pecuniary interest in the portfolio securities held by a corporation or similar entity in which the person owns securities if the shareholder is not a controlling shareholder of the entity and does not have or share investment control over the entity's portfolio.

The Commission staff has confirmed that, despite the references in Rule 16a-1(a)(2)(iii) to "a shareholder," the safe-harbor under this Rule is available to a limited partner of a limited partnership. Widett, Slater & Goldman, P.C., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,135, at 79,348-49 (Mar. 25, 1992). This conclusion follows from the Rule's reference to "a corporation or similar entity."

(n141)Footnote 141. *See generally* Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,254, n.49 (Feb. 8, 1991) (term "controlling shareholder" refers to power to exercise control by virtue of securities holdings).

(n142)Footnote 142. *See, e.g.,* Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,254 (Feb. 8, 1991); Exch. Act Rel. No. 27,148 [1989 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,439, at 80,388 (Aug. 18, 1989).

(n143)Footnote 143. *See* Rule 16a-1(a)(2)(iii); Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,254 (Feb. 8, 1991).

(n144)Footnote 144. *See* L.B. Smith and A.O. Smith, SEC No-Action Letter [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,676, at 78,083 (Apr. 19, 1991).

(n145)Footnote 145. *See* Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,254, n.49 (Feb. 8, 1991).

(n146)Footnote 146. Under the safe-harbor Rule, it makes no difference whether the corporation in question is a publicly held corporation. *See* Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,254 (Feb. 8, 1991). Prior staff interpretations had attached significance to this fact. *See* Sec. Exch. Act Rel. No. 34-18,114, Fed. Sec. L. Rep. P 26,062, at 19,063-8 (Sept. 23, 1981) (questions 8, 9).

The Commission's approach in Rule 16a-1(a)(2)(iii) is a more refined (and possibly more inclusive) version of the analysis by the courts, which have examined whether a corporation serves as a "personal holding company" or "alter ego" of the insider. *See* *Blau v. Mission Corp.*, 212 F.2d 77, 81 (2d Cir.), *cert. denied*, 347 U.S. 1016 (1954); *Popkin v. Dingman*, 366 F. Supp. 534, 538 (S.D.N.Y. 1973) ; *Blau v. Lamb*, 242 F. Supp. 151, 158 (S.D.N.Y. 1965) , *aff'd in part, rev'd in part*, 363 F.2d 507 (2d Cir. 1966) , *cert. denied*, 385 U.S. 1002 (1967) .

(n147)Footnote 147. *See* Form 3, Instr. 5(b)(iv); Form 4, Instr. 4(b)(iv), Form 5, Instr. 4(b)(iv); Shea & Gould, SEC No-Action Letter [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,670, at 78,074 (Apr. 23, 1991).

As noted above, the insider probably should include in his Forms a footnote stating that he disclaims beneficial ownership in any shares held by the corporation in which he does not have a pecuniary interest, as permitted by Rule 16a-1(a)(4).

If an insider has elected aggregate reporting, an issue can arise as to whether the insider needs to report changes in the number of shares of issuer stock in which he has a pecuniary interest due to changes in the distribution of ownership of the corporation holding the issuer stock rather than changes in the number of shares of issuer stock actually held by such corporation. *See § 8.03[3][d] supra*.

(n148)Footnote 148. 220 F.3d 29 (2d. Cir. 2000) .

(n149)Footnote 148.1. *Id.* at 36.

(n150)Footnote 149. In addition to specifying what trust shares are beneficially owned by an insider who is a trustee, beneficiary, settlor, or remainderperson of a trust, Rule 16a-8 is intended to specify when such persons will be subject to Section 16.

Even the Commission had difficulty keeping the various threads straight, so that, as initially adopted, the Rule failed to specify when an insider trustee, beneficiary, or settlor must report beneficial ownership of trust shares if the trust itself was not at the same time an insider. *See* Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,291 (Feb. 8, 1991). The Commission amended the Rule shortly before it became effective to indicate that insiders could be required to report trust shares whether or not the trust was itself separately subject to reporting requirements. *See* Sec. Exch. Act Rel. No. 34-29,131, Fed. Sec. L. Rep. (CCH) P 26,086A, at 19,091-11 (Apr. 26, 1991).

(n151)Footnote 150. *See* Sullivan & Cromwell, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,687, at 78,107 (Apr. 30, 1991). In *Sullivan & Cromwell*, inquiring counsel questioned a statement by the Commission that an insider who, as a trust beneficiary, could receive income from trust shares in the discretion of an independent trustee would be deemed to have a pecuniary interest in such shares. Such counsel pointed out, correctly, that because such insider appeared to lack investment control, he would not under Rule 16a-8(b) have any obligation to report such shares and, therefore, should not be viewed as a beneficial owner of the shares. The staff responded that such an insider could be the "beneficial owner" of trust shares in many circumstances other than those in which the beneficiary has investment control. The staff went on to say that a beneficiary will only have reporting obligations over such trust shares in cases where the beneficiary has investment control.

Rather than clarify a confused statement, the staff by this response only compounded the confusion. The rules and forms require a person to report "holdings" of shares of which the person is a "beneficial owner." *See, e.g.*, Rule 16a-3(a); Form 3, Instr. 5(b). The Commission staff clearly stated in *Sullivan & Cromwell* that investment control has nothing to do with determining beneficial ownership of trust shares, then goes on to immediately state that nothing need be reported by a trust beneficiary if he does not have investment control. The SEC reply stated that for purposes of reporting and short-swing profit recovery, an insider beneficiary must have or share investment control and have a pecuniary interest in issuer's securities held by the trust. As helpful as this second interpretation is, it must be pointed out that nothing in the rules or forms appears to give Rule 16a-8 primacy over the general obligation to report beneficial ownership. The staff apparently views Rule 16a-8 as implicitly exempting from reporting any form of beneficial ownership of trust shares that the Rule does not affirmatively require to be reported. It would have been even more helpful if the Rule had included words that would have made this important point.

(n152)Footnote 151. *See* Fulbright & Jaworski, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,126, at 79,319 (Mar. 13, 1992); Sullivan & Cromwell, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,687, at 78,107 (Apr. 30, 1991); Hewitt Associates, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,688, at 78,113 (May 1, 1991). This position is discussed in

§ 8.03[3][b] *supra*.

As discussed below, although the Commission staff position tends to reduce reporting burdens, the staff has undercut the position by presuming a trust beneficiary under employee benefit plans to have investment control in certain situations in which they would appear not to have such control.

(n153)Footnote 152. Rule 16a-8(d). A trust, trustee beneficiary or settlor subject to Section 16(a) of the Exchange Act also shall be subject to Sections 16(b) and 16(c) of the Exchange Act. Clearly the Commission intended that such a person be subject to Sections 16(b) and 16(c) with respect to trust transactions required to be reported under Rule 16a-8, but, typical of the standards of draftsmanship throughout Rule 16a-8, Rule 16a-8(d) does not actually say this.

(n154)Footnote 153. Old Rule 16a-8, in conjunction with old Rule 16a-10, likewise relieved such participants of potential liability under Section 16(b).

(n155)Footnote 154. The Commission never has justified the complexity and resulting cost of complying with rules under Section 16 applicable to employee benefit plan trusts by pointing to any instance of speculative abuse involving such trusts under the old rules.

(n156)Footnote 155. As discussed below, the Commission staff has taken somewhat harsh positions in this regard, particularly with respect to transactions in which issuer stock is initially acquired by a trust or initially allocated to an insider beneficiary of a trust. *See, e.g.*, American Bar Association Joint Committee on Employee Benefits, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,719, at 78,252 (July 3, 1991); Thompson, Hine and Flory, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. P 79,658, at 78,021 (Mar. 29, 1991).

(n157)Footnote 156. Bryan, Cave, McPheeters & McRoberts, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,713, at 78,241 (June 20, 1991). The references to trustees throughout Rule 16a-8, including Rule 16a-8(a)(ii), include persons who directly or indirectly perform the functions of a trustee.

(n158)Footnote 157. *See id.* The Commission staff originally had established that an insider would be "presumed" to have investment control over shares in a trust of which the insider's spouse is trustee, but the staff abandoned this presumption. *See id.*; Ralston Purina Co., SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,714, at 78,244 (June 20, 1991) (reconsideration).

Upon reconsideration, the Commission staff will not presume an insider to be acting as a trustee for a trust in which the insider's spouse is the named trustee. Analysis depends upon the particular facts and circumstances.

(n159)Footnote 158. *See* Fulbright & Jaworski, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,126, at 79,319 (Mar. 13, 1992); Ventura County National Bancorp, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,757, at 78,420 (Aug. 30, 1991); Cigna Corp., SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,747, at 78,381 (Aug. 6, 1991).

(n160)Footnote 159. *See* Toys 'R' Us, Inc., SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,756, at 78,419 (Aug. 30, 1991). *See also* Rule 16a-8(b)(3).

(n161)Footnote 160. The investment managers, although not named trustees, may be deemed trustees for purposes of Rule 16a-8 because of their functions with respect to the trust. *See id.*

(n162)Footnote 161. *See* § 8.02[2][a][iv] and § 8.02[3] *supra*.

(n163)Footnote 162. For most legal purposes, a trust is not an entity, but is instead a legal relationship. The Commission and its staff usually treat trusts as entities, although Rule 16a-8(b)'s reference to the trustee reporting on behalf of the trust departs from this practice. In order to clearly distinguish instances in which a trustee has obligations

in the trustee's own right, the fiction that a trust is an entity will be respected herein.

(n164)Footnote 163. Rule 16a-8(b).

If a trust has multiple trustees, only one trustee is required to file Forms 3, 4, and 5. *See* American Bar Association, SEC No-Action Letter, [1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,225, at 76,839 (July 2, 1992); Chandler Trust No. 2, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,750, at 76,389 (Aug. 14, 1991). If a trust with multiple trustees is subject to Section 16 because an insider trustee has a pecuniary interest in issuer stock held by the trust, the insider trustee, and not other trustees, is the trustee obligated to file Forms 3, 4, and 5. *See* American Bar Association, SEC No-Action Letter, *supra*.

(n165)Footnote 164. Rule 16a-8(b)(1). The trust need not report holdings and transactions in the issuer's securities held by the trust in an employee benefit plan subject to ERISA. If a trustee shares investment control with a third party, this exception will not apply. *See* Cravath Swaine & Moore, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,002, at 78,822 (Oct. 22, 1991).

(n166)Footnote 165. *See* Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,255 and n.72 (Feb. 8, 1991); Ventura County National Bancorp, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,757, at 78,420 (Aug. 30, 1991).

As discussed in § 8.03[3][f][iv] below, the Commission and its staff do not regard certain allocations of securities to the account of participants as a transaction requiring reporting by a trust for an ERISA plan, apparently based on the view that the transaction is invariably controlled by the trust beneficiary/plan participant. *See, e.g.,* Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,255-56 (Feb. 8, 1991).

This exception would appear to be unnecessary in most cases, for two reasons. First, the exception set forth in Rule 16a-8(b)(3)(ii) (discussed immediately below) will apply to relieve a trust of any reporting obligation with respect to transactions over which a beneficiary has exclusive investment control (which is the case for participant-directed transactions under 401(k) plans). (As noted below, such relief may not relieve trusts of Form 3 filing obligations.) Second, in any case in which the investment control is not exercised by either the trustee or a beneficiary, the person exercising the investment control probably will be deemed to be a trustee and therefore no relief will be available under Rule 16a-8(b)(1) in any case.

(n167)Footnote 166. Rule 16a-8(b)(3)(ii). If a beneficiary has investment control with respect to a trust transaction without consultation with the trustee, the transaction shall be attributed to and reported by the beneficiary only. *Id. See* Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,255 (Feb. 8, 1991); The Taylor Voting Trust, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,051, at 79,000 (Jan. 3, 1992); Ventura County National Bancorp, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,757, at 78,420 (Aug. 30, 1991).

This result follows from the fact that Rule 16a-8(b)(3)(ii) states that such a "transaction shall be attributed to and reported by the beneficiary *only*." (Emphasis added.) For further discussion of Rule 16a-8(b)(3)(ii), see § 8.03[3][f][iv] *infra*.

(n168)Footnote 167. Although the voting trust in The Taylor Voting Trust, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,051, at 79,000 (Jan. 3, 1992), provided an example of a trust in which only beneficiaries had investment control, a Form 3 had apparently already been filed for the voting trust, so the staff did not address the "holdings" issue. Because it is fair to assume that the Commission and its staff would read Rule 16a-8(b)(3) to require insider-beneficiaries with investment control over trust shares to report those trust shares as "holdings," it would be equally fair to conclude that a trust need not report such "holdings." The staff's position in certain no-action letters interpreting Rule 16a-8 prior to its amendment in 1996 would appear to read Rule

16a-8(b)(3)(ii) to relieve trusts of the need to file a Form 3 to report "holdings." *See, e.g.*, Manatt, Phelps & Phillips, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,745, at 78,379 (Aug. 5, 1991).

(n169)Footnote 168. Rule 16a-8(b)(4).

This result follows from the fact that Rule 16a-8(b)(4) states that such "holdings and transactions shall be attributed to and reported by the settlor *instead of the trust*." (Emphasis added.) For further discussion of Rule 16a-8(b)(4), see § 8.03[3][f][v] *infra*.

(n170)Footnote 169. Rule 16a-8(b). However, the trust need not report holdings and transactions in the issuer's securities held by the trust in an employee benefit plan subject to ERISA over which no trustee exercises investment control. *See* Rule 16a-8(b)(1).

(n171)Footnote 170. As discussed in § 8.03[3][f][i] *supra.*, an insider who has investment control over trust shares may be deemed to be the trustee even if the insider does not formally serve as trustee. *See, e.g.*, Ventura County National Bancorp, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,757, at 78,420 (Aug. 30, 1991).

(n172)Footnote 171. Rule 16a-8(b)(2). A trustee subject to Section 16 of the Exchange Act has a pecuniary interest in any holding or transaction in the issuer's securities held by the trust, such holding or transaction shall be attributed to the trustee and shall be reported by the trustee in the trustee's individual capacity, as well as on behalf of the trust. *Id.* *See* Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,256 (Feb. 8, 1991).

(n173)Footnote 172. *See* Rule 16a-8(b)(3). A beneficiary subject to Section 16 of the Exchange Act shall have or share reporting obligations with respect to transactions in the issuer's securities held by the trust, if the beneficiary is a beneficial owner of the securities pursuant to Rule 16a-1(a)(2). *Id.* *See* Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,256 (Feb. 8, 1991). *See* Ventura County National Bancorp, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,757, at 78,420 (Aug. 30, 1991); Munger, Tolles & Olson, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,039, at 78,964 (Dec. 10, 1991).

(n174)Footnote 173. *See* EnergyNorth, Inc., SEC No-Action Letter, [1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,293, at 77,158 (November 4, 1992); Sullivan & Cromwell, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,687, at 78,107 (Apr. 30, 1991).

The performance fee safe harbor is discussed in § 8.03[3][g] *infra*.

(n175)Footnote 174. *See* Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,256 (Feb. 8, 1991). Although the Rule appears to treat the status of an immediate family member as a beneficiary as the equivalent of the family member having a pecuniary interest, this is not always the case. *See, e.g.*, Cigna Corp., SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,747, at 78,384 (Aug. 6, 1991). Clearly, Rule 16a-8(b) requires a true pecuniary interest.

The term "immediate family member" as used in Rule 16a-8(b)(2) is not limited to members of the insider's immediate family who share the insider's household; this is in contrast to Rule 16a-1(a)(2)(ii)(A), which attributes to an insider issuer stock held by immediate family members who share the same household. *See* Fulbright & Jaworski, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,126, at 79,319 (Mar. 13, 1992). In that letter, the staff rejected the suggestion that the reference in Rule 16a-8(b)(2) to Rule 16a-1(a)(2)(ii) may have implicitly incorporated the same household limitation.

(n176)Footnote 175. Rule 16a-8(b)(3). Pursuant to note to Paragraph (b)(3) of Rule 16a-8, "Transactions and holdings attributed to a trust beneficiary may be reported by the trustee on behalf of the beneficiary, provided that the report is signed by the beneficiary or other authorized person. Where the transactions and holdings are attributed both to the trustee and trust beneficiary, a joint report may be filed in accordance with § 240.16-3(j)." *See* The Taylor Voting Trust, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,051, at 79,000 (Jan. 3, 1992); Ventura County National Bancorp, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,757, at 78,420 (Aug. 30, 1991); Chandler Trust No. 2, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,750, at 78,389 (Aug. 14, 1991).

If one insider beneficiary of a trust has investment control but another insider beneficiary does not, only the insider beneficiary with investment control will be required to report issuer stock held by the trust. *See* Sullivan & Cromwell, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,687, at 78,107 (Apr. 30, 1991).

(n177)Footnote 176. Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,256 (Feb. 8, 1991).

(n178)Footnote 177. As discussed in § 8.03[3][b] and [f][i] *supra*, the staff has concluded that Rule 16a-8(b)(3) and its requirement of investment control will be viewed as the exclusive way in which beneficiaries will have reporting obligations and potential short-swing profits liability. *See* Fulbright & Jaworski, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,126, at 79,319 (Mar. 13, 1992); Sullivan & Cromwell, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,687, at 78,107 (Apr. 30, 1991); Hewitt Associates, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,688, at 78,113 (May 1, 1991). In so doing, the staff has forsworn any theory that the trust shares over which a beneficiary does not have investment control might still be reportable as a result of Rule 16a-1(a)(2)(ii)'s general definition of "indirect pecuniary interest." Absent this staff interpretation, Rule 16a-8(b)(3) would appear to be nothing more than a non-exclusive *example* of how a beneficiary might beneficially own trust shares.

(n179)Footnote 178. The following are examples of such transactions:

(1) Allocation of issuer stock under a tax-qualified plan. *See* Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,255-56 (Feb. 8, 1991);

(2) Deferral of compensation under a non-qualified plan in which the participant elects deferral at least one year in advance, the amount deferred is deposited in trust, and the trustee makes open-market purchases of issuer stock in the trustee's discretion. Eaton Corp., SEC No-Action Letter, [1992-1993 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,409, at 77,237 (Jan. 19, 1993);

(3) Investment of participant contributions at the direction of the participant under a tax-qualified defined contribution plan in an equity fund which could include issuer stock as up to 50% of fund assets. Oglebay Norton Co., SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,777, at 78,485-86 (Sept. 23, 1991); and

(4) Acquisition of issuer stock under a tax-qualified profit-sharing plan, whether as a grant or award transaction or as a participant-directed transaction. Southwest Airlines, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,721, at 78,258 (July 17, 1991). Plan participants must report only those securities that are allocated to their account and any subsequent transactions involving the securities. Although the acquisition of securities under the plan has aspects of both a grant and participant-directed transaction, it should be reported as one transaction. *Id.*

The position of the Commission staff attributing to an insider transactions in which the insider acquires an interest in a

trust is logical, but it leads to odd results in some cases. If the insider, as a trust beneficiary, has no investment control over issuer stock held in the trust, his Forms 4 or 5 will have reported an acquisition and a holding of the trust shares, but the number of such shares may later increase or decrease due to transactions not within the insider's control. In that event, it appears that no Form 4 or 5 need be filed to report the transaction; while the insider must report, post-transaction or year-end beneficial ownership on Forms 4 and 5, the number of his trust shares over which he continues to have any investment control, it is questionable whether the insider must continue to report shares over which he has no investment control, and in any case he need not explain why the number of trust shares he "beneficially owns" has changed when the cause of such change is not his own exercise of investment control. *See generally* Oglebay Norton Co., SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,777, at 78,485-86 (Sept. 23, 1991) (once insider-participant has directed investment in equity fund holding issuer stock, subsequent changes in amount of issuer stock held for participant under such fund resulting from purchases and sales by the fund itself need not be reported).

(n180)Footnote 179. *See* Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,255-56 (Feb. 8, 1991). The Commission and its staff have focused on allocations of issuer stock to participant accounts in defined contribution plans as transactions over which an insider participant is deemed to have investment control. In most cases, the plans were employee stock ownership plans ("ESOPs"), in which the participant made no contributions or elections to receive the allocation. *See* Hewitt Associates, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,688, at 78,112-13 (May 1, 1991); Thompson, Hine and Flory, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. P 79,658, at 78,021 (Mar. 29, 1991).

The staff has expanded this position to 401(k) plans in which an insider makes cash contributions and receives matching cash contributions from the employer, which are then invested in the discretion of an administrative committee in issuer stock. Fulbright & Jaworski, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,126, at 79,319 (Mar. 13, 1992); Ventura County National Bancorp, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,757, at 78,420 (Aug. 30, 1991).

In Hewitt Associates, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,688, at 78,113 (May 1, 1991), the staff stated:

Once shares are allocated to participants, the investment control ordinarily will be viewed as having shifted to the participant, and accordingly participants who are subject to Section 16 will be responsible for reporting such holdings and transactions, beginning with the allocation of the securities to the individual account.

In Thompson, Hine and Flory, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. P 79,658, at 78,021 (Mar. 29, 1991), the staff went so far as to term this transaction a "purchase" by the participant. It seems obvious, however, that participants in ESOPs and some other trustee plans do not have any investment control over allocation transactions. Accordingly, the staff's position that participant investment control will be assumed almost certainly reflects the staff's desire that wide-spread holdings of issuer stock under ESOPs and other trustee plans should be reported by somebody on Section 16(a) forms, rather than fall through the cracks in the reporting system.

Not only is the staff's premise, that a participant who does not have investment control over issuer stock in a trust should still have to report such stock and be subject to liability for such stock, questionable, ("inappropriate" in the words of the Commission as quoted in the text accompanying n.176 *supra*), but it is doubtful that the Commission or its staff have the power to utterly contradict the meaning of the words of Rule 16a-8(b)(3) to require reporting of allocations of issuer stock under trustee employee benefit plans where participants in fact have no investment control.

(n181)Footnote 180. *See* Sec. Exch. Act Rel. No. 34-28,869, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,255, n.72 (Feb. 8, 1991).

(n182)Footnote 181. *See, e.g.*, Ventura County National Bancorp, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,757, at 78,420 (Aug. 30, 1991). In this case, reporting obligations will also be imposed on the insider as trustee, under Rule 16a-8(b)(2). *See id.*

(n183)Footnote 182. The definition of a trust beneficiary as "beneficial owner" applies only "where the trustee does not exercise exclusive investment control." Rule 16a-8(b)(3)(iii). When determining whether the beneficiary is the beneficial owner of the securities, beneficiaries shall be deemed to have a pecuniary interest in the issuer's securities held by the trust to the extent of their pro rata interest in the trust where the trustee does not exercise exclusive investment control. *Id.* The Commission staff has confirmed that these words do not require reporting of trust transactions by beneficiaries where parties other than the trustee or the beneficiary exercise some investment control. *See* Cravath Swaine & Moore, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,002, at 78,822 (Oct. 22, 1991). As indicated by Rule 16a-8(b)(3)(i) and (ii), the focus is on whether the beneficiary has investment control (whether solely or jointly).

(n184)Footnote 183. In Cigna Corp., SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,747, at 78,381 (Aug. 6, 1991) and Hewitt Associates, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,688, at 78,112-13 (May 1, 1991), the Commission staff concluded that plans that "allocate cash balances" and do not have "individual accounts" do not give rise to a "pecuniary interest." These references are misleading, because they do not go to the question of whether the insider beneficiary could profit from transactions by the trust in issuer stock. The staff has recognized, in other letters, that if a beneficiary is allocated a cash balance determined by reference to the value of issuer stock held by a trust, such beneficiary will have a "pecuniary interest" in the issuer stock. *See* Fulbright & Jaworski, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,126, at 79,319 (Mar. 13, 1992); Thacher, Proffitt & Wood, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,045, at 78,986 (Dec. 20, 1991); Oglebay Norton Co., SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,777, at 78,485-86 (Sept. 23, 1991). Similarly, the existence of an individual account is significant only if it provides a means to value the beneficiary's interest by reference to the value of trust assets, including issuer stock.

Although the Commission staff has not yet addressed the issue, a participant in a leveraged ESOP probably should not be viewed as having a pecuniary interest in unallocated shares held by an ESOP trust. (In such case, investment control might exist if the participant also served as a trustee.) Under such an ESOP, the increase in value of the unallocated stock could ultimately yield additional value to the participant. But, prior to an allocation to the participant's account, there exist substantial conditions that might preclude allocation or vary the amount of the allocation. These considerations strongly argue against the view that the beneficiary of an ESOP trust has a pecuniary interest in unallocated shares held by the ESOP trust.

(n185)Footnote 184. *See, e.g.*, Eaton Corp., SEC No-Action Letter, [1992-1993 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,409, at 77,237 (Jan. 19, 1993) (insiders have a pecuniary interest as trust beneficiaries where issuer stock is the only kind of asset held by the trust). In American Bar Association, SEC No-Action Letter, [1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,225, at 76,839 (July 2, 1992), the Commission staff concluded that interests in a trust which held issuer stock as less than 20% of its assets would not involve a pecuniary interest, in view of the attenuated affect of issuer stock on the overall value of the trust interest. Similarly, in Hewitt Associates, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,688, at 78,113 (May 1, 1991), the staff concluded that interests in a trust for defined benefit pension plans did not involve a pecuniary interest where the benefits payable from the trust would not be determined based on the value of trust assets. If the participant has no investment control he or she has no reporting obligation. *Id.*

Although the similar staff position in Cigna Corp., SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,747, at 78,384 (Aug. 6, 1991), that a beneficiary of a defined benefit pension plan has no pecuniary interest in the plan addressed only trustee reporting obligations under Rule 16a-8(b)(2), the Commission staff has orally

2-8 Federal Securities Exchange Act of 1934 § 8.03

confirmed that the position applies equally for purposes of Rule 16a-8(b)(3). *See also* Thacher, Proffitt & Wood, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,045, at 78,986-92 (Dec. 20, 1991) (insider plan participant entitled to benefits based on plan formula, where rabbi trust created to fund payment of benefits but calculation of benefits was not dependent on assets in rabbi trust, not deemed to have a "pecuniary interest" in rabbi trust assets for purposes of Rule 16a-1(a)(2); Rule 16a-8(b)(3)(iii) not addressed).

(n186)Footnote 185. An insider who makes contributions to an employee benefit plan trust will not be deemed a settlor. *See* Eaton Corp., SEC No-Action Letter, [1992-1993 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,409, at 77,237 (Jan. 19, 1993).

(n187)Footnote 186. The power to remove a trustee without approval of beneficiaries is not a power to revoke the trust for purposes of this Rule. *See* Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,282 (Feb. 8, 1991) (revising the response to question 59 contained in Sec. Exch. Act Rel. No. 34-18,114, Fed. Sec. L. Rep. P 26,062, at 19,063-22 (Sept. 23, 1981)).

(n188)Footnote 187. Rule 16a-8(b)(4). If the settlor does not exercise or share investment control over the issuer's securities held by the trust, the trust holdings and transactions shall be attributed to and reported by the trust instead of the settlor. *Id.* *See* Sonnenschein Nath & Rosenthal, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,134, at 79,347 (Mar. 23, 1992).

Interpretations of this Rule have generally arisen in the context of completely excluding the trust from reporting.

(n189)Footnote 188. *See* Sec. Exch. Act Rel. No. 34-27,148 [1989 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,439, at 80,389, n.77 (Aug. 18, 1989).

(n190)Footnote 189. *See* Rule 16a-1(a)(2)(ii)(C). Rule 16a-8(b)(2) reinforces the point that a trustee who receives a performance fee, other than a fee that is excluded, will cause the trustee to be viewed as having a pecuniary interest in the trust securities. *See* Sullivan & Cromwell, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,687, at 78,107 (Apr. 30, 1991). What remains unclear, however, is when and how reporting and potential liability arise under such arrangements. For example, whether the insider reports actual share transactions, or accrual or payment of annual fees or transactions only if they result in a fee being earned.

(n191)Footnote 190. Rule 16a-1(a)(2)(ii)(C)(2). A right to nonperformance-related fee alone shall not represent a pecuniary interest in the securities. *Id.*

In EnergyNorth, Inc., SEC No-Action Letter, [1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,293, at 77,158 (Nov. 4, 1992), the Commission staff concluded that a trustee's fee based on income (dividends and interest on portfolio securities) and assets, but not on net capital gain or net capital appreciation or overall performance, was not a "performance-related" fee).

(n192)Footnote 191. *See* Rule 16a-1(a)(2)(ii)(C)(2). Although this safe-harbor refers to performance measures based upon either "net capital gains and/or net capital appreciation generated" from the managed portfolio or "overall performance," these may not be requirements of the safe-harbor so much as a listing of the types of performance measures that are viewed as giving rise to an indirect pecuniary interest absent the safe-harbor. *See* EnergyNorth, Inc., SEC No-Action Letter, [1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,293, at 77,158 (Nov. 4, 1992).

A performance fee can qualify for this safe-harbor even if fees are paid more often than once per year. *See* Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,254 (Feb. 8, 1991). The adopted rules clarify that asset-based fees do not create a pecuniary interest in the securities managed and that advisors or trustees may be paid more than once during a year, as long as the fee is related to performance for a year or more. *Id.*

(n193)Footnote 192. See Rule 16a-1(a)(5).

(n194)Footnote 193. Rule 16a-1(a)(2)(ii)(D). By "separated or separable," the Commission means a right to dividends that is a "separate security or traded as a separate right or security." Sec. Exch. Act Rel. No. 34-27,148 [1989 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,439, at 80,388 (Aug. 18, 1989). The Commission expressed a belief that such rights have "the same potential for speculative profit as the related equity security." *Id.* The Commission also suggested that a right to vote or dispose of an equity security that is tradable separately from the equity security could represent an indirect pecuniary interest in the equity security, although this position is not codified in a Rule. See *id.* at 80,386.

(n195)Footnote 194. Rule 16a-1(a)(2)(ii)(D). The staff has in several interpretive letters addressed the related question of whether dividend equivalent rights ("DERs") constitute a derivative security. In approaching these letters, it should be recognized that the DER label has been applied to rights that have very different terms. In any case, the staff has confirmed that a DER that only confers a right to receive an amount equal to cash dividends paid on common stock does not represent a derivative security under Rule 16a-1(c), any more than it would represent a pecuniary interest in the equity security under Rule 16a-1(a)(2)(ii)(D). See Cigna Corp., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,132, at 79,340 (Mar. 20, 1992). In other letters, where the DER was credited at the rate of payment of cash dividends but then deemed to be applied to purchase common stock at either the then prevailing market price or the original exercise price of options to which the DER was attached, the allocation of shares was deemed an acquisition of derivative securities. See, e.g., American Home Products Corp., SEC No-Action Letter, [1992-1993 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,403, at 77,221 (Dec. 15, 1992); Skadden, Arps, Slate, Meagher & Flom, SEC No-Action Letter, [1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,221, at 78,828 (June 23, 1992); O'Connor, Cavanaugh, Anderson, Westover, Killingsworth & Beshears, SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,040, at 78,967 (Dec. 11, 1991); Davis Polk & Wardwell, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,769, at 78,460 (Aug. 23, 1991). The Commission staff deems the date of the acquisition to relate back to the date of acquisition of the security in which DER is paid. Exchange Act Rel. No. 34-37,260 at Part II.D.2.

(n196)Footnote 195. Rule 16a-1(a)(5)(i). See § 8.03[1][b] *supra*.

(n197)Footnote 196. Rule 16a-1(a)(5)(ii).

(n198)Footnote 197. Rule 16a-1(a)(5)(iii). See Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,254 (Feb. 8, 1991). The Commission staff has stated that a transaction involving a security that is a component of a market basket that is traded independent of the basket would be subject to Section 16. See *id.* n.138. Rule 16a-1(c)(4) excludes interests in broad-based index options, broad-based index futures, and broad-based publicly traded market baskets of stocks approved for trading by the appropriate federal governmental authority.

(n199)Footnote 198. See Rule 16a-3 (reporting transactions and holdings).

(n200)Footnote 198.1. The Commission proposed its new rules in Release No. 34-46313 (2002) and adopted them in Release No. 34-46421 (Aug. 29, 2002). Section 16(a) requires insiders to report transactions in issuer securities by the end of the second business day following execution of the transactions, "or at such other time as the Commission shall establish by rule, in any case in which the Commission determines that such 2-day period is not feasible."

(n201)Footnote 199. The rules were proposed in Release No. 34-47069 (Dec. 20, 2002) and adopted in Release No. 34-47809 (May 7, 2003).

(n202)Footnote 200. The delinquency rate ranged between 21% and 48% in prior years, according to the Commission. See Sec. Exch. Act Rel. No. 34-28,869, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,274 & n.227 (Feb. 8, 1991); Sec. Exch. Act Rel. No. 34-27,148, [1989 Transfer Binder] Fed. Sec. L. Rep. (CCH)

P 84,439, at 80,398 & n.148 (Aug. 18, 1989); Sec. Exch. Act Rel. No. 34-26,333, [1988-1989 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,343, at 89,625-26 & n.208 (Dec. 2, 1988).

(n203)Footnote 201. See Rule 16a-3(f)(1).

A Form 5 filing is required to report a complete failure to file, but not to report the fact that a Form 3, 4, or 5 was filed late. A Form 5 filed to report transactions or holdings that should have been reported on an earlier Form 3 is deemed to represent the delinquent Form 3 or 4, so no separate filing of the Form 3 or 4 is required. See Form 5, Note to Instr. 4(a)(i).

(n204)Footnote 202. Rule 16a-3(e).

(n205)Footnote 203. See Form 10-K, Item 10; Regulation 14A, Item 7(b).

As a practical matter, the substance of an Item 405 disclosure may not appear in the Form 10-K, because an issuer is permitted to incorporate into its Form 10-K by reference the disclosure that appears in a proxy statement relating to an election of directors (typically, the proxy statement relating to the issuer's annual meeting of stockholders). See Form 10-K, General Instr. G(3).

(n206)Footnote 204. See Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,275 (Feb. 8, 1991).

(n207)Footnote 205. Pub. L. No. 101-429, 104 Stat. 931.

The Securities Enforcement Remedies and Penny Stock Reform Act of 1990 vests the Commission with the general power to seek civil money penalties in enforcement cases against corporate issuers.

(n208)Footnote 206. See Exch. Act §§ 21C & 21(d)(3).

A cease-and-desist order requires the respondent to cease and desist from committing or causing any present or future violation of Section 16(a). See Section 21C, 15 U.S.C. § 78u(a)(1). The Exchange Act empowers federal courts (and the Commission in certain limited circumstances not relevant to Section 16) to impose civil money penalties for violation of securities laws. See generally Section 21(d)(3) and 21B of the Exchange Act.

(n209)Footnote 207. Note that, because beneficial ownership is defined differently for purposes of determining ten percent beneficial ownership than for determining *what* to report, the Form 3 filing obligation may occur before or after acquisition of a reportable pecuniary interest.

(n210)Footnote 208. See Exch. Act § 16(a); Rule 16a-2.

Although there will be no Form 3 filing requirement unless an issuer has at least one class of equity securities registered under Section 12 of the Exchange Act, and a 10% shareholder will become subject to a Form 3 filing requirement only if the shareholder holds more than 10% of the class that is registered under Section 12, the Form must also disclose the insider's holdings of non-registered equity securities. See Exch. Act § 16(a); Rule 16a-2; Form 3, Instr. 4(a)(i).

(n211)Footnote 209. See Form 3, Instr. 1(c). In such case, if an insider does not beneficially own any securities required to be reported, see Rule 16a-1 and Form 3, Instr.5, the insider should file Form 3 stating that no securities are beneficially owned. See *id.*

It is possible even for a 10% shareholder to report beneficial ownership of no equity securities. See § 8.03[3][b], *supra*.

(n212)Footnote 210. Rule 16a-3(b).

(n213)Footnote 211. Rule 16a-3(b)(2)

(n214)Footnote 212. See Rule 16(a)-2. Where a person is an officer, director, or ten percent owner of an issuer that does not have a class of equity securities registered under Section 12 of the Exchange Act, and the issuer registers a class of its equity securities under Section 12, the insider's Form 3 is due on the effective date of the issuer's registration under Section 12. *Id.* Form 3, Instr. 2(b). Note that initial registration under Section 12 of the Exchange Act is common in connection with an initial public offering of equity securities under the Securities Act of 1933, as amended. In such cases, the effectiveness of the Exchange Act registration statement may occur prior to the closing date of the offering.

(n215)Footnote 213. Form 3, Instr. 2(a). The ten-day period is calculated using calendar days, not business days. Note that this deadline is ten days after the event, in contrast to the Form 4 filing deadline, which is generally two business days after the reportable transaction occurred. Inadvertent late Form 4 filings can result from confusion on this point when an insider has a transaction on the day that he becomes subject to Section 16, since the Form 4 in that case is due even before the Form 3. The Commission staff suggests early filing of Form 3 in these circumstances.

(n216)Footnote 214. Rule 16a-3(f)(1) & (g)(1); Form 4, Instr. 4(a)(i); Form 5, Instr. 4(a)(i).

However, Rule 16a-13 exempts reporting transactions(s), other than the exercise or conversion of a derivative security or deposit into or withdrawal from a voting trust, that effects only a change in the form of the beneficial ownership (such as from indirect to direct) without changing a person's pecuniary interest in the subject equity securities. *Id.*

(n217)Footnote 215. A "discretionary transaction" is a participant-directed movement of a portion of his or her account balance into or out of a company stock fund under a deferred compensation plan. The term does not include transactions made in connection with the plan participant's death, disability, retirement or termination of employment, or that are required to be provided under IRS regulations. Discretionary transactions may occur in a tax-qualified plan, such as a 401(k) plan, or in a non-tax qualified plan, such as a SERP or a directors' fee deferral arrangement.

(n218)Footnote 216. See Rule 16a-3(g)(1).

(n219)Footnote 217. See *id.* See also Form 4, Instr. 1(a).

(n220)Footnote 218. See Rule 16a-3(g)(2)(ii) and Rule 16a-3(g)(3).

(n221)Footnote 219. See Rule 16a-3(g)(4).

(n222)Footnote 220. See *id.*

(n223)Footnote 221. See Rule 16a-3(g)(2)(ii) and Rule 16a-3(g)(3).

(n224)Footnote 222. See Rule 16a-6(a). A "small acquisition" eligible for deferred reporting is an acquisition, other than from the issuer or an employee benefit plan sponsored by the issuer, that together with acquisitions of equity securities of the same class in the prior six months, other than acquisitions exempt from Section 16(b) or non-exempt transactions that were previously reported, does not exceed \$10,000 in market value, provided that the insider does not make any non-exempt disposition in the six months following the acquisition. See Form 5, Instr. 4(a). See also Rule 16a-3(f)(1)(iv).

(n225)Footnote 223. Rule 16a-3(f). The Form 5 contains boxes, in the upper left corner of the front page, which must be checked if the Form reports delinquent "Form 3 Holdings" or "Form 4 Transactions."

(n226)Footnote 224. Rule 16a-3(f)(1).

(n227)Footnote 225. Rule 16a-3(f)(2); Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,252 (Feb. 8, 1991). This assumes that the insider has not failed to report any transactions and holdings required to be reported during the most recent fiscal year, which can separately trigger the need to file a Form 5. Rule 16a-3(f)(1). The Form 5 requirements relating to such delinquencies are discussed below.

(n228)Footnote 226. Obviously, the usual delinquency is inadvertent. Once an insider becomes aware of a delinquency, any continuing failure to promptly file the required Form would become willful, which (if discovered) could be expected to result in more vigorous enforcement action and potentially stronger sanctions. *See, e.g.*, Exch. Act § 21(d)(3)(B) (specifying higher potential fines where violation involves "deliberate or reckless disregard of a regulatory requirement").

Accordingly, an insider who, before the due date of the Form 5, discovers that he missed a Form 3 or 4 filing, or failed to report a Form 3 holding or Form 4 transaction on a Form otherwise filed, probably should promptly file or amend the Form 3 or 4. An insider who discovers such a delinquency during the 45 days after the end of the issuer's fiscal year could instead file the Form 5, but he should do so without delay. If an insider discovers, after the due date for a Form 5, that he missed a Form 3 or 4 filing, or failed to report a Form 3 holding or Form 4 transaction on a Form otherwise filed, he will have two violations to correct, the original Form 3 or 4 and the Form 5 that would have been required to correct the Form 3 or 4 delinquency. In such case, the insider might as well file only the Form 5 late, without separately filing or amending the Form 3 or 4, because the single Form 5 filing will redress both delinquencies.

(n229)Footnote 227. *See* Rule 16a-3(a) & (g)(3); and Note to Form 4, Instr. 4(a)(i); Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,256 (Feb. 8, 1991).

(n230)Footnote 228. *See* Rule 16a-3(a) & (g)(3); Pettit & Martin, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,675, at 78,081 (Apr. 18, 1991). Thus, for exempt transactions other than exercises or conversions, voluntary Form 4s may be filed any time before the due date of the Form 5 (45 days after the issuer's fiscal year ends). *See* Gibson, Dunn & Crutcher, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,711, at 78,238 (June 12, 1991).

(n231)Footnote 229. This is particularly true where issuers assist insiders by preparing the Forms required under Section 16(a).

(n232)Footnote 230. Of course, a Form 3 or 4 containing such errors should be amended to correct them.

(n233)Footnote 231. If, however, an error was made in reporting the exact number of shares beneficially owned, arguably an error overreporting the number would not trigger a Form 5 filing because all actual "holdings" were reported as part of the too-large number. An underreporting error would represent unreported "holdings" that would apparently trigger the Form 5 filing. Nevertheless, Commission staff have indicated orally that there may be leeway for "inadvertent and insignificant" errors in reporting numbers.

(n234)Footnote 232. There is ample evidence for this conclusion on the Form 5 itself. For example, the boxes to be checked on the cover page to indicate that the Form 5 corrects a delinquency list "Form 3 Holdings Reported" and "Form 4 Transactions Reported." Similarly, Form 5, Instrs. 4(a)(i)(C) and 8, clearly associated unreported "holdings" only with Form 3 and unreported "transactions" only with Form 4. As indicated in the Note to Form 5, Instr. 4(a)(i)(C), a required Form 3 or Form 4 must be filled within the time specified by the Form. Form 3 holdings or Form 4 transactions reported on Form 5 represent delinquent Form 3 and Form 4 filings.

The conclusion of the Commission staff in American Society of Corporate Secretaries, Inc., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,083, at 79,161 (Jan. 24, 1992), is consistent. In that interpretive letter, the staff concluded:

2-8 Federal Securities Exchange Act of 1934 § 8.03

A Form 4 or 5 filed only for the purpose of reporting exempt employee benefit plan transactions will not be deemed untimely if the month-end or year-end holdings column includes only employee benefit plan securities, and omits other holdings of the same class. However, an amendment should be filed to reflect all holdings of the class.

While the wording of this response may suggest that the fact that the Form 4 or 5 was being filed to report employee benefit plan transactions may have been the basis for the relief, the relief is nevertheless consistent with the view that an unreported holding in a Form 4 would not be viewed as a failure to report a "holding" that would trigger a Form 5 filing.

(n235)Footnote 233. Exch. Act Rel. No. 34-37,260 at Part IV.A. The Commission notes that "insiders may choose, but are not required, to include footnote disclosure indicating the date and nature of transactions not required to be reported." *Id.* The purpose is not indirectly to require insiders to report transactions exempt from Section 16(a), but rather, to provide users of Section 16 information with holdings information that is as accurate as reasonably possible. *Id.*

(n236)Footnote 234. *Id.* See also Form 4 Instr. 4(a)(i).

(n237)Footnote 235. Rule 16a-9(a).

(n238)Footnote 236. See Rule 16a-9(b). The exercise of such rights typically will be exempt under Rule 16b-6(b), but their sale would typically not be exempt unless to the issuer under Rule 16b-3.

(n239)Footnote 237. See Rule 16a-11

(n240)Footnote 238. See Rule 16a-12.

(n241)Footnote 239. See Rule 16a-13. Transactions that effect only a change in the form of beneficial ownership without changing a person's pecuniary interest in the subject equity securities are exempt. This rule codifies and expands the staff's interpretive position in Munger, Tolles & Olson, SEC No-Action Letter [1991-1992 Transfer Binder], Fed. Sec. L. Rep. (CCH) P 76,039 at 78,964 (Dec. 10, 1991). Exercises and conversions of derivative securities, as noted above, must be reported on Form 4, even though they involve a change from indirect to direct beneficial ownership. See Rules 16a-3(g)(1) and Rule 16a-4(a). Transfers into or out of a voting trust are reportable on a Form 5 pursuant to Rule 16b-8.

(n242)Footnote 240. Rule 16a-7.

(n243)Footnote 241. Rule 16a-5.

(n244)Footnote 242. See Rule 16a-3(f)(1)(i)(B) and Rule 16b-3(c).

(n245)Footnote 243. See Section 16(a)(2)(c).

(n246)Footnote 244. See Section 16(a)(4).

(n247)Footnote 245. Rule 16a-2(a) & (c). No reporting of transactions that occurred more than six months before the insider became subject to Section 16 would ever be required.

Rule 16a-2 provides that a person's transactions in the six months before he becomes an insider, except in the case of a person who becomes an insider because the issuer registers equity securities under Section 12 for the first time, are not subject to any provision of Section 16, including potential liability under Section 16(b). See *id.* See also Rule 16a-10 (providing exemption from Section 16(b) liability for any transactions completely exempted from reporting under the Section 16 rules).

(n248)Footnote 246. Rule 16a-2(a). By narrowing this requirement only to the case of Section 12 registration by the issuer, the Commission narrowed its existing reporting rule for directors and officers and overruled pre-May 1, 1991 court cases that consistently held directors and officers liable under Section 16(b) for sales after they became insiders within six months of purchases that occurred before they became insiders. *See, e.g.,* old Rule 16a-1(d); *Adler v. Klawans*, 267 F.2d 840, 845 (2d Cir. 1959) ; *Marquette Cement Mfg. Co. v. Andreas*, 239 F. Supp. 962 (S.D.N.Y. 1965) ; *Blau v. Allen*, 163 F. Supp. 702 (S.D.N.Y. 1958) .

(n249)Footnote 247. *Id.* Note that even exempt pre-insider transactions can become reportable under this Rule. *See* Garvey, Schubert & Barer, SEC No- Action Letter, [1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,240, at 76,884 (Aug. 14, 1992). But, such reporting of exempt or non-exempt pre-insider transactions will only be triggered by a post-insider transaction "giving rise to [a] Form 4 obligation," which can only mean a derivative security exercise or a transaction not exempt from Section 16(b) liability. *See* Rule 16a-2(a).

Rule 16a-2(a) requires that the insider's Form 4 report the pre-insider transaction as well as the transaction that triggers the Form 4 filing. This is apparently required even though the pre-insider transaction is exempt from Section 16(b) liability and thus would normally be eligible for year-end Form 5 reporting.

Note that a transaction is not reportable simply because it occurred during the six months before a director or officer became subject to Section 16 (as a result of the issuer's Section 12 registration); only if the insider has a transaction reportable on Form 4 and, looking back six months from the date of such transaction, he had a pre-insider transaction will the pre-insider transaction be reportable.

(n250)Footnote 248. *See* Rule 16a-2(b) & (c).

(n251)Footnote 249. Rule 16a-2(b). A purchase is an "opposite way" transaction from a sale, and vice versa. This rule, which was adopted in 1996, reversed the 1991 provision to the effect that the post-insider transactions to be reported and the pre-termination transactions that begin the six-month reporting period included exempt transactions that are eligible for Form 5 reporting. But, a pre-termination transaction that is not reportable does not trigger a six-month reporting period. *See* Unisys Corp., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,117, at 79,276 (Feb. 27, 1992).

Rule 16a-2(b) purports to subject reportable post-insider transactions to potential liability under Section 16(b) as well. This is generally consistent with case law holding that a sale occurring after a person ceases to be a director or officer is matchable under Section 16(b) with a purchase that occurred during the previous six months and at a time that the person was a director or officer. *See Winston v. Federal Express Corp.*, 853 F.2d 455 (6th Cir. 1988) ; *Feder v. Martin Marietta Corp.*, 406 F.2d 260, 266 (2d Cir. 1969) , *cert. denied*, 396 U.S. 1036 (1970) .

The Commission took the position, however, that persons who ceased to be insiders as a result of changes in the Section 16 rules effective May 1, 1991, had no reporting obligations regarding post-April 30, 1991 transactions. *See* Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,276 (Feb. 8, 1991). Although the Commission did not state that such transactions would likewise be exempt from Section 16(b), the staff subsequently took the position that Rule 16a-10, in combination with the Commission's "exemption" from reporting, exempted such transactions from Section 16(b) liability. *See* Bryan, Cave, McPheeters & McRoberts, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,679, at 78,089 (Apr. 25, 1991). Persons ceasing to be insiders by operation of the Section 16 rules are not required to report post termination transactions. However, transactions conducted prior to termination must be reported, and, to the extent these transactions have not been reported, a person ceasing to be an insider continues to have a reporting obligation on Form 4 or Form 5.

(n252)Footnote 250. Although Rule 16a-2(c) does not explicitly remove such transactions from the ambit of Section 16(b), it is clearly an exemption from reporting for pre- and post-insider transactions for persons who were insiders due to their status as 10% shareholders. Rule 16a-10 provides that transactions completely exempt from

reporting are also exempt from Section 16(b) liability. This exemption for 10% shareholders is consistent with decisions of the Supreme Court and other courts construing the language of Section 16 itself. *See, e.g., Foremost-McKesson, Inc. v. Provident Securities Co., 423 U.S. 232, 249-50 (1976)*.

(n253)Footnote 251. *See* Form 4, Instr. 1(b); Form 5, Instr. 1(b); Sec. Exch. Act Rel. No. 34-28,869 [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,709, at 81,258 (Feb. 8, 1991).

(n254)Footnote 252. The reporting requirements of Section 16(a) are so specific that it is questionable whether the Commission would have the authority to require a filing solely to report that a person has ceased having the status of an insider.

(n255)Footnote 253. Rule 16a-2(c); *Foremost-McKesson, Inc. v. Provident Securities Co., 423 U.S. 232, 249-50 (1976)*.

As discussed in § 8.02[2][a], the fact that status as a 10% shareholder is now determined under Section 13(d) principles creates a much greater risk that a person may become a 10% shareholder-insider at a point in a complex transaction before the Section 16 purchase occurs. Prior to adoption of the new rules in 1991, status as a 10% shareholder generally was determined by the same analysis as that used to identify the purchase. Now, it is unclear under Rule 16a-2(c) whether the exemption from reporting and liability (in conjunction with Rule 16a-10) applies if the purchase is a discrete step in a complex transaction that occurs after the point at which the person became a 10% shareholder.

(n256)Footnote 254. This issue can arise in two different ways. First, a person may become a director or officer as part of a transaction in which such person, or an entity which such person represents, acquires equity securities. In such case, it might be argued that a right to be appointed as a director or officer is not tantamount to being a director or officer, because the right itself does not give access to insider information. But, that question aside, the same logic would suggest that, if a transaction during the six months before a person becomes a director or officer, or a transaction before or simultaneous with becoming a 10% shareholder, should not be subject to reporting and liability because the person lacks access to inside information before the transaction, the same should be true of a transaction that had to be arranged before the person became a director or officer, even if transaction and the appointment were to be simultaneous.

Second, a person may acquire beneficial ownership at the time an issuer first registers equity securities under Section 12 of the Exchange Act. In such case, the transaction would be subject to possible reporting and liability even if it were deemed to have occurred before the Section 12 registration statement became effective. Nevertheless, it is unclear whether a simultaneous transaction would be reported on a Form 4, as a post-insider transaction, without showing the resulting beneficial ownership on the insider's initial Form 3, or whether the beneficial ownership would be shown on the initial Form 3 but reported only on a subsequent Form 4 filed to report a transaction in the six months following Exchange Act registration.

(n257)Footnote 255. *See* Rule 16a-8(b) & (c).

(n258)Footnote 256. *See* Sec. Exch. Act Rel. No. 34-28869B (Apr. 4, 1991). The amendment added the following note at the end of Form 4, Instr. 4(a)(i):

The amount of securities beneficially owned following the reported transaction(s) specified in Column 5 of Table I and Column 9 of Table II should reflect holdings reported or required to be reported by the date of the Form. Transactions and holdings eligible for deferred reporting on Form 5 need not be reflected in the month end total unless the transactions were reported earlier or are included on this Form.

(n259)Footnote 257. *See* Exchange Act Rel. No. 34-37,260 at n. 126. Thus, for example, if shares received as a gift

are sold, the sale would trigger a Form 4 filing and the gift would be reportable on the same Form 4 (rather than deferred until the year-end Form 5). *See id.*

(n260)Footnote 258. *See § 8.03 [4][b][ii], supra.*

(n261)Footnote 259. *See Simpson Thacher & Bartlett, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,686, at 78,105 (Apr. 30, 1991).*

(n262)Footnote 260. Form 4, Instr. 4(a)(i); Form 5, Instr. 4(a)(i). This means that, if an insider reports a purchase of common stock which is owned directly by the insider, the Form 4 must also show his indirect beneficial ownership of common stock, such as through a trustee employee benefit plan. *See, e.g., American Society of Corporate Secretaries, Inc., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 76,083, at 79,161 (Jan. 24, 1992).*

(n263)Footnote 261. Rule 16a-4(a) (the acquisition or disposition of a derivative security must be separately reported). *See Bell, Boyd & Lloyd, SEC No-Action Letter, [1991 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,703, at 78,215 (June 3, 1991).* For purposes other than reporting, the derivative security is deemed both to be of the same class as the underlying equity security and to constitute beneficial ownership of any equity security that could be acquired by exercising the derivative security. *See Rule 16a-1(a)(2)(ii)(F); Rule 16a-4(a).* The effect of this reporting rule is that reporting of acquisitions and dispositions of derivative securities takes place only on Table II of the Forms, with reporting of acquisitions and dispositions of underlying equity securities upon exercise or conversion of derivative securities taking place on Table I of the Forms.

Some securities, such as convertible preferred stock, may constitute both an equity security and a derivative security. Such a security is reported on Table II of Forms 3, 4, and 5, with no Table I reporting until such time as the securities are exercised or converted for an equity security that is not also a derivative security. Form 3, Instr. 5(c)(i); Form 4, Instr. 4(c)(i); Form 5, Instr. 4(c)(i).

(n264)Footnote 262. *See Thompson, Hine and Flory, SEC No-Action Letter, [1990-1991 Transfer Binder] Fed. Sec. L. Rep. P 79,658, at 78,019-21 (Mar. 29, 1991).* Thus, for example, an option exercise which is the only transaction reported on Table II of Form 4 would show, as beneficial ownership following the transaction in column 9, the number of shares as to which such option remains unexercised, but none of the insider's other options (unless they happened to have identical exercise prices, expiration dates, and other characteristics) are required to be listed on such Table or included in the number of unexercised derivative securities listed in column 9.

(n265)Footnote 263. As discussed in § 8.03[2], *supra.*, the Commission's primary concern in drafting the rules relating to these "positions" appears to have been to broaden liability under Section 16(b), which may have led to a failure to focus on how such positions should be reported.

(n266)Footnote 264. *See Form 3, Instr. 5(c)(ii); Form 4, Instr. 4(c)(ii); Form 5, Instr. 4(c)(ii).*

(n267)Footnote 265. *See Form 4, Table II; Form 5, Table II, Form 4, Instr. 4(c)(i); Form 5, Instr. 4(c)(i).*

(n268)Footnote 266. If so, however, it probably follows that the "Number of Derivative Securities Beneficially Owned Following Reported Transaction(s)" to be filled in under Column 9 of Table II of Form 4 or 5 would be a negative number for such an insider.

If this is the proper treatment, then any time the insider is the party *obligated* to purchase or sell--rather than the party with the right to exercise--he should report that he "disposed of" the derivative security. Such an insider in effect has a "short" derivative security position. When such a derivative security is closed (by exercise or otherwise), the insider would report that he "acquired" the derivative security.

(n269)Footnote 267. *See, e.g., Varsity Corp., SEC No-Action Letter, [1991-1992 Transfer Binder] Fed. Sec. L. Rep.*

(CCH) P 76,166, at 79,467 (October 15, 1991). These positions represent broad relief, because they would appear to, in effect, exempt the surrender of securities of the old issuer and the acquisition of securities of the new issuer from short-swing profits liability as well.

(n270)Footnote 268. Exch. Act 0-3.

(n271)Footnote 269. *See* Exch. Act Rel. No. 34-47809 (May 7, 2003).

(n272)Footnote 270. *See id.*

(n273)Footnote 271. *See id.*

(n274)Footnote 272. *See* Regulation S-T, Rule 13(a).

(n275)Footnote 273. *See* Exch. Act Rel. No. 34-47809 (May 7, 2003).

(n276)Footnote 274. Rule 13(b) of Regulation S-T provides, "If an electronic filer in good faith attempts to file a document with the Commission in a timely manner but the filing is delayed due to technical difficulties beyond the electronic filer's control, the electronic filer may request an adjustment of the filing date of such document. The Commission, or the staff acting pursuant to delegated authority, may grant the request if it appears that such adjustment is appropriate and consistent with the public interest and the protection of investors." This is the same standard that applies for the automatic extension available for other Edgar filings under Form TH.

(n277)Footnote 275. *See* Rule 16a-3(k).

(n278)Footnote 276. *See* New York Stock Exchange, SEC No-Action Letter, 1998 Transfer Binder Fed Sec. L. Rep. (CCH) P 77,456 (July 22, 1998), American Stock Exchange, SEC No-Action Letter, 1998 Transfer Binder Fed. Sec. L. Rep. (CCH) P 77,455 (July 22, 1998). *See* The Nasdaq Stock Market LLC No-Act, WSB File No. 0731200610, NASDAQ Stock Market LLC (Aug. 1, 2006).

(n279)Footnote 277. *See* Form 3, Instr. 7; Form 4, Instr. 7; Form 5, Instr. 7. This flexibility is not explicitly available if the insider is an entity. Signatures on behalf of an entity should indicate the capacity in which the signing person is acting on behalf of the entity.

(n280)Footnote 278. This is typically accomplished by means of a power of attorney or a document styled as a "signing authorization." In either case, the written authorization should state its duration. It is often useful to have the authorization cover subsequent Form 4 and Form 5 filings.

(n281)Footnote 279. *See* Form 3, Instr. 8; Form 4, Instr. 9; Form 5, Instr. 9.

(n282)Footnote 280. Only the line item or other information being amended should be set forth in the amendment. *Id.*

CHAPTER 8 Insider Reporting and Short-Swing Trading

2-8 Federal Securities Exchange Act of 1934 § 8.04

AUTHOR: Elliot Cohen Tim Mast Robert M. Carmen Jaime Theriot Marvin G. Pickholz Alan H. Aronson

§ 8.04 Liability for "Short-Swing" Profits Under Section 16(b)

An insider is subject to civil liability under Section 16(b) for profits realized from the purchase and sale, or sale and purchase, of any equity security of the issuer within any period of less than six months. A voluntary cash-for-stock transaction constitutes a purchase and sale for purposes of Section 16(b). An issuer may bring an action under Section 16(b) to recover profits realized by an insider's short-term trades or, if the issuer declines to bring suit or does not diligently prosecute a Section 16(b) action, any security holder of that issuer may institute an action on behalf of the issuer. Section 16(b) imposes strict liability on insiders who violate its provisions if the statutory terms are met. No defenses are available to the insiders except for the running of the statute of limitations.

Section 16(b) imposes civil liability on:

- (1) an officer, director, or beneficial owner of more than ten percent of any class of equity security (other than an exempted security) registered under Section 12, *i.e.*, an insider, of an issuer; n1
- (2) who realizes a profit; n2
- (3) from any purchase and sale, or any sale and purchase; n3
- (4) of any equity security of the issuer n4 (other than an exempted security); n5
- (5) within any period of less than six months; n6
- (6) unless the security was acquired in good faith in connection with a debt previously contracted. n7

The purpose of Section 16(b) is to prevent the unfair use of inside information obtained by a person because of his relationship to an issuer for that person's personal gain. n8 This purpose is accomplished by denying the insider the right to keep any profits realized from his short-term trading in the securities of his corporation; the profits instead inuring to, and being recoverable by, the issuer. n9 The application of Section 16(b), however, is automatic and without regard to

the insider's state of mind. It is not conditioned on proof that an insider acted in bad faith, *i.e.* that he intended to make a profit from the use of the inside information. It is sufficient that the statutory conditions of Section 16(b) are present for liability to be imposed. n10

Although Congress believed that the only effective method of preventing insider trading abuses was through the imposition of the objective "crude rule of thumb" n11 of Section 16(b), on occasion courts have adopted a subjective approach with respect to certain "unorthodox transactions," *e.g.*, exchanges pursuant to mergers or conversions of securities, to determine whether the particular transaction violates the policy of Section 16(b) against the speculative abuse of inside information.

[1] "Who is Subject to Liability?"

Any insider-- *i.e.*, beneficial owner of more than ten percent of any class of an issuer's equity securities, other than exempted securities, registered under Section 12--or a director or officer of that issuer n12 is subject to the liability provisions for short-swing trading under Section 16(b). The duty to report transactions under Section 16(a), however, was not considered to be coextensive with liability under Section 16(b) n13 until the Commission, in 1991, added the definition of "beneficial ownership" and sought to read that definition into the statutory provisions of Section 16(b) to enlarge the number of persons potentially liable for short-swing profits. n14 Despite this attempt to broaden Section 16(b) liability, courts have been unwilling to impose Section 16(b) liability merely because a person was deemed to be an "beneficial owner" for the purposes of the reporting requirements of Section 16(a). n15 Transactions in securities that are exempt from the reporting requirements of Section 16(a), however, are also exempt from liability under Section 16(b). n16

[a] Directors and Officers. A director or officer of an issuer need not occupy that status at the time of both the purchase and sale of the transaction that is subject to Section 16(b). n17 It is sufficient if the director or officer is an insider at the time of the sale, but not at the time of the purchase, n18 or at the time of the purchase, but not at the time of the sale, n19 for Section 16(b) liability to be imposed. However, under the 1991 Rules, the Commission exempted from both Section 16(a) and Section 16(b) transactions that occur prior to a person becoming a director or officer, but not transactions by such persons that occurred prior to the issuer having a class of securities registered under Section 12. n20 A former director or officer continues to be potentially liable if one part of the transaction occurs after he ceases to hold that position. n21 Section 16(b) also does not place liability on a director or officer if both the sale and purchase or both the purchase and sale occurred after he no longer occupied his insider corporate position. n22

[b] Principal Security Holders. Section 16(b) demonstrates a clear Congressional intent to distinguish between corporate directors and officers and principal security holders when determining liability for short-swing trading. n23 The last sentence of Section 16(b) states, in part, that the coverage of Section 16(b) does not extend to any transaction where the more than ten percent beneficial owner "was not such both at the time of the purchase and sale, or the sale and purchase, of the security involved"

The Supreme Court, in *Reliance Electric Co. v. Emerson Electric Co.*, n24 held that a person who purchases more than ten percent of an issuer's stock may reduce his holdings to less than ten percent in an initial transaction and then proceed to sell his remaining holdings in a second transaction, all within a period of less than six months, without incurring liability for the second transaction under Section 16(b), since that person would no longer be an insider at the time of the second sale. In *Reliance*, for example, the defendant had acquired 13.2 percent of a company's outstanding common stock on June 16, reduced its holdings to 9.96 percent of the stock through a sale on August 28, and was held liable for the profits realized pursuant to that sale. The sale of the remaining shares of stock, however, which were sold on September 11, did not subject the defendant to short-swing trading liability, although the sale occurred within the "less than six months" time period, because the defendant was no longer a ten percent beneficial owner at the time of the September 11th sale. n25

The Supreme Court further limited the applicability of Section 16(b) in *Foremost-McKesson, Inc. v. Provident Securities Co.* n26 by requiring that an individual, who is not a director or officer, be a more than ten percent security holder *before* any purchases and sales can be matched for Section 16(b) liability to be imposed. The Court held that the phrase "at the time of the purchase" in Section 16(b) means "before the purchase" and not "immediately after the purchase." n27

An individual, therefore, who acquires more than ten percent of the equity securities of an issuer, and who makes no acquisitions after attaining that percentage, will not be subject to liability under Section 16(b) if he were to make any sales of those securities thereafter. To illustrate, if a person, other than an officer or director, who owns 5 percent of a corporation's outstanding equity securities, acquires an additional 6 percent on January 1, and sells 2 percent of the securities on February 1, he would not be required to account for any profits realized by that sale since he was not a ten percent holder "at the time of purchase" on January 1.

A security holder who is neither a director nor an officer can therefore avoid the applicability of Section 16(b) by carefully structuring his securities transactions to meet the strict statutory requirements of Section 16(b). However, as noted in Section 8.02[2][a][i], addressing this issue has become more complicated, now that the Section 13(d) beneficial ownership standard is applied for purposes of determining insider status and the pecuniary interest standard is applied for purposes of determining which transactions are potentially subject to short-swing liability under Section 16(b). For example, if a person acquires an option that is exercisable for more than 10 percent of a company's equity securities but the option has a floating exercise price, then that person may be subject to Section 16 as a result of the shares underlying the option, but may not be deemed to have purchased those shares for purposes of liability under Section 16(b) until the option is exercised or has a fixed exercise price.

[2] "Purchase and Sale"

Section 16(b) requires that there be a purchase and sale, or sale and purchase, of the equity securities of an issuer registered under Section 12 of the Exchange Act. In determining whether a transaction constitutes a purchase and sale for purposes of Section 16(b), courts have adopted two approaches:

- (1) the objective or mechanistic approach that applies to "ordinary" and voluntary cash-for-stock transactions, and
- (2) the subjective or pragmatic approach that applies to "unorthodox" transactions, *i.e.*, transactions to which it would be unfair to apply Section 16(b).

Since the statutory definition of sale n28 and purchase n29 are broad enough to reach transactions not usually considered to be a sale or purchase, a court in analyzing a "borderline" transaction will look to "whether the transaction may serve as a vehicle for the evil which Congress sought to prevent," *i.e.*, the use of inside information to realize short-swing profits. n30 *After determining that a transaction is "unorthodox," a court, before imposing Section 16(b) liability, will examine the following factors to determine whether the particular transaction provides the opportunity for speculative abuse:*

- (1) whether the defendant had access to inside information, although actual possession of insider information is irrelevant; and
- (2) whether the defendant controlled or influenced the timing of the particular transaction.

Security conversions, exchanges pursuant to mergers and other corporate reorganizations, stock reclassifications, and

dealings in options, rights, and warrants have been defined as unorthodox transactions, n31 although the application of the unorthodox transaction doctrine to convertible securities and options appears to have been preempted by the derivative security rules adopted by the Commission in 1991. The pragmatic approach, however, has never been applied in cases of "garden-variety" cash-for-stock transactions where a purchase or sale has clearly occurred. n32

[a] Gifts. A bona fide gift is not a purchase or sale under Section 16(b) because it does not involve the transfer of value in exchange for a security. n33 In addition, the subsequent sale of securities by the donee would not be attributed to the donor unless the donee had functioned merely as an "alter ego" of the donor. n34

[b] Conversions of Securities. Under the derivative security framework adopted by the Commission in 1991, the conversion of a security into another equity security of a Section 12 issuer (*e.g.*, the conversion of debentures or preferred stock into common stock) is exempt, under most circumstances, from the provisions of Section 16(b). n35 Prior to 1991, the Commission's rules held that a conversion was exempt only if no consideration was paid in connection with the conversion, although courts had, in other circumstances, also held that conversions were not purchases or sales. n36

[c] Corporate Recapitalizations and Simplifications. A recapitalization, in which a corporation exchanges a new security for one of its outstanding securities, typically has not been considered a purchase or sale of new stock under Section 16(b) since:

- (1) all similarly situated shareholders are treated equally;
- (2) shareholder approval of the recapitalization plan is usually required; and
- (3) each shareholder is merely continuing his investment in the issuer in a different form. n37

Such transactions now will typically be exempt under Rule 16a-9, exempting stock dividends including spin-offs, and Rule 16b-7, discussed *infra* at § 8.06[12].

[d] Transfers of Securities Between Affiliates. In *Blau v. Lamb*, n38 the purchase of securities by a corporation that was wholly owned by the defendant insider from a corporation owned 97 percent by the defendant insider was held not to be a purchase under Section 16(b) since no real change in the insider's investment position resulted. In *Blau v. Mission*, n39 the defendant owned more than 10 percent of the shares of an issuer and on two occasions, between which the stock of the subsidiary became listed on the New York Stock Exchange, transferred some of those holdings to its subsidiary in exchange for stock in its subsidiary. n40 The court concluded that while the first exchange was a mere transfer between corporate pockets and was therefore not subject to Section 16(b), n41 the second was a sale for the purposes of that provision, since the subsidiary was no longer an alter ego of its parent and the subsidiary's stock had an independent market value. n42

[e] Stock Options. n43 Prior to 1991, the acquisition of a stock option was not typically viewed as involving a purchase by the optionee under Section 16(b), since receipt of an option does not impose a liability on the grantee to take and pay for the underlying stock, n44 unless the terms of the option leave no doubt that it would be exercised. n45 It was generally held to be the case, however, that the exercise of an option constituted a purchase that was subject to Section 16(b), so that the exercise of an option and sale of the underlying shares within six months could result in short-swing liability.

In 1991, however, the Commission reversed the previous scheme by adopting the derivative security "framework," n46 which equated equity securities with options or other rights to acquire equity securities or rights with a value based on equity securities. n47 The Commission treated a transaction in a derivative security as a transaction in the underlying security because, at least when the derivative security has a fixed exercise price, the derivative security transaction locks in the opportunity to profit from a transaction in the underlying security. n48 In implementing the derivative security

rules, the Commission went so far as to state that *any* acquisition or disposition of a derivative security involves either a purchase or sale. n49 The quid pro quo was that the Commission exempted from Section 16(b) most exercises and conversions of derivative securities. n50 An open issue exists as to whether courts will feel constrained to accept the characterization of every derivative security transaction as involving a purchase or sale, even in the absence of voluntariness and the payment of consideration, or whether some derivative security transactions remain where the unorthodox transaction doctrine would have continued viability. n51

[f] Corporate Reorganizations. The exchange of stock pursuant to a corporate merger is often considered to be a purchase or sale under Section 16(b) since there is the possibility of insiders engaging in speculative abuse through the use of inside information acquired during the course of the merger negotiations.

In *Newmark v. RKO General, Inc.*, n52 RKO, which controlled Frontier Airlines, obtained an option to purchase the controlling shares in Central Airlines and then concluded an agreement to merge Central into Frontier, with Central shareholders to be paid in Frontier stock. The court held that the acquisition of Central stock pursuant to the option, and the subsequent exchange of that stock as a result of the merger, were subject to liability under Section 16(b) since the circumstances indicated an opportunity for speculative abuse. n53 The court based its decision on RKO's position in the merger negotiations that permitted it to take advantage of inside information and influence whether and when the merger took place. n54

Similarly, directors and officers who are involved in merger negotiations can be subject to liability under Section 16(b) concerning the shares acquired in the merger exchange. In *Gold v. Sloan*, n55 two officers who sold shares within six months of a merger were exonerated while a third officer was found liable under Section 16(b). The two officers who escaped liability did not have any connection with the merger negotiations. n56 The third defendant, however, as chief executive officer of the company, was intimately involved in the merger discussions and possessed specific financial information that permitted the possibility of speculative abuse. n57

There is no clear test as to the amount of control of, or involvement in, merger negotiations necessary to impose liability under Section 16(b). An insider who acquires shares as a result of a merger should refrain from any sales during the six month period after the merger, and should have refrained from any purchases during the six month period prior to the merger, to avoid Section 16(b) liability. n58

[g] Tender Offers and Defensive Mergers. n59 The unsuccessful tender offeror that has acquired more than ten percent of the securities of the company that was the subject of the tender offeror's takeover bid may find itself subject to the provisions of Section 16(b).

For instance, if the tender offeror sells the shares acquired in its takeover attempt within six months of their purchase, the tender offeror will be liable for any profits realized from the purchase and sale. n60

In addition, if the target company defeated the takeover attempt by merging defensively with a third corporation, the tender offeror may be required to exchange its shares in the target company for shares in the surviving corporation, in which case the exchange may be deemed a "purchase" and Section 16(b) liability could ensue.

Furthermore, hostile circumstances surrounding many takeover attempts make it likely that a target company will institute a Section 16(b) proceeding to recover profits realized by the tender offeror. n61 Since the tender offeror is usually an outsider, however, the tender offeror may not have had access to the inside information the abuse of which Section 16(b) is designed to prevent. n62

In *Kern County Land Co. v. Occidental Petroleum Corp.*, n63 Kern sought a defensive merger with Tenneco after Occidental had made a tender offer for Kern stock. Occidental, after realizing that its tender offer would be unsuccessful, entered into an option agreement with a subsidiary of Tenneco that gave the subsidiary the right to

purchase the Tenneco stock that Occidental would have been entitled to receive in exchange for its Kern stock holdings when the merger was closed. These stock holdings amounted to more than ten percent of Kern's common stock. Upon the closing of the merger Tenneco's subsidiary exercised this option.

The Supreme Court held that neither the execution of the option agreement nor the exchange by Occidental of Kern stock for shares of Tenneco pursuant to the terms of the merger agreement between Kern and Tenneco constituted a sale by Occidental under Section 16(b).ⁿ⁶⁴ In concluding that the merger exchange did not present the possibility of speculative abuse, the Court relied on two factors:

- (1) the unlikelihood of any access to inside information by Occidental, which as an outsider, was operating in an atmosphere of hostility towards its takeover attempts; and
- (2) the complete inability of Occidental to control the events that resulted in the exchange of Kern stock for shares of Tenneco.ⁿ⁶⁵

The Supreme Court, however, made it clear that its decision in *Kern* did not provide an exemption from Section 16(b) for all exchanges of stock pursuant to a merger.ⁿ⁶⁶

Section 16(b) applies to purchases and sales of securities of the same issuer. Thus, an unsuccessful tender offeror's purchase of stock in the target corporation and subsequent sale of the stock in the successor corporation that it received upon the completion of a defensive merger can not be matched to impose Section 16(b) liability because the securities purchased and the securities sold were not of the same issuer.ⁿ⁶⁷ It may be possible for officers and directors to avoid liability under Section 16(b) for securities disposed of in or acquired through a merger, as a result of the exemption provided under Rule 16b-3, discussed below at Section 8.06[9][b][D].

[h] "Forced" Cash Transactions; Sale by Pledgee. Courts have uniformly rejected "forced sale" defenses to Section 16(b) liability with respect to cash-for-stock transactions by applying a strict test for voluntariness: the seller or purchaser must not retain any degree of control over the transaction.ⁿ⁶⁸ Thus, economic necessityⁿ⁶⁹ or the threat of litigationⁿ⁷⁰ have been held to be insufficient factors for upholding a claim of involuntariness.

The sale of pledged securities by a pledgee-bank to meet the loan obligations of an insider has also been found to have been sufficiently within the insider's control for imposition of liability on the insider under Section 16(b).ⁿ⁷¹

[3] "Any Period of Less Than Six Months"

Under Section 16(b), any purchase and sale, or sale and purchase, of securities occurring within a period of less than six months may be matched to impose liability. Purchases six months prior to and six months after a sale may be matched to that sale.ⁿ⁷² Section 16(b), however, does not take into account fractions of days.ⁿ⁷³ A period of less than six months therefore commences at 12:01 AM on one day and ends at midnight on the day two days prior to the corresponding date on the sixth succeeding month.ⁿ⁷⁴

[a] Time of Purchase or Sale.

Under Section 16(b), the passage of title, the execution of an agreement, or the date selected by the parties to the transaction does not automatically determine when a purchase or sale has occurred. Rather, a purchase occurs when a buyer incurs an irrevocable liability to take and pay for a security, and a sale occurs when a seller incurs an irrevocable liability to deliver and accept payment for a security.ⁿ⁷⁵ The rights and obligations of both parties to the transfer, therefore, must be fixed.ⁿ⁷⁶

[i] Contingent or Conditional Agreements. A contract to purchase or sell securities is not a purchase or sale of those securities under Section 16(b) until there is a firm commitment evidencing that both parties are bound by the

terms of the agreement. n77 If there is a significant condition precedent in an agreement, the purchase or sale will be deemed to occur at the time the transaction is actually closed rather than at the time the agreement was executed. n78 A purchase, for example, is not deemed to have occurred at the time of the agreement to purchase if the agreement is conditioned on the acquisition of a loan from a bank. n79

A division of authority exists on whether shares to be delivered as part of a purchase price based on future contingent events are "purchased" on the date of contract or the date of delivery. In *Booth v. Varian Associates*, n80 the court held that an agreement that committed both parties to an eventual exchange of shares was incomplete since it left the purchase price unfixed. The purchase was held to have occurred on the date of the delivery of the shares because the agreement provided that the price of the shares would be determined on the day prior to closing, which was almost three and one-half years after execution, "thus making the purchase under the contract as much as possible *like a market purchase at the time of closing*." n81 In *Prager v. Sylvestri*, n82 however, the court expressly rejected *Booth* and held that the date of purchase was the date of the merger agreement, although the number of shares to be received in the future was contingent on corporate earnings exceeding specified sums of money.

[b] Rescissions. When both parties agree to rescind a contract for the sale of securities because of incomplete performance, a sale and purchase will not be deemed to have occurred under Section 16(b). n83 If, however, the parties rescind a completed agreement in an attempt to avoid Section 16(b) liability, a sale and purchase will still be considered to have occurred. n84

[4] "Profit Realized"

[a] From the Purchase and Sale of Securities.

The profits realized in a Section 16(b) action are calculated by arbitrarily matching purchases of securities with sales of securities within a six month period to obtain the maximum profit. n85 Profit is calculated by matching the "lowest price in" with the "highest price out" of all transactions within the six month period. n86

Section 16(b) does not require that the shares sold by an insider be identical to those purchased, n87 and it is of no consequence that an insider had an overall loss on all of his combined purchases and sales within a six month period as long as any of the insider's purchases and sales in that period could be matched to reflect a profit. n88 The insider, however, is entitled to a deduction from the calculation of profits for any expenses incurred in conducting the transactions held to be in violation of Section 16(b). n89

If consideration other than cash is given in exchange for a security, the value of that consideration represents the cost of a purchase or sale in computing the profits realized and that value is included in the computation of profits. n90

[i] Prejudgment Interest. Although Section 16(b) does not provide for recovery of interest on profits realized, the allowance of prejudgment interest is within the discretion of the trial court based on considerations of fairness. n91

In general, courts will award interest unless it is shown n92 *that the transactions in violation of Section 16(b) were conducted in "good faith,"* n93 *e.g.,* an innocent or unknowing violation of Section 16(b). n94 Some courts, however, have applied a more stringent standard, requiring that a showing of an "overriding inequity" be made before awarding prejudgment interest. n95 Unexcused or inordinate delay in the litigation of a Section 16(b) claim may result in a denial of prejudgment interest. n96

Interest will usually be accrued from the time of the transaction from which an illegal short-swing profit was realized. n97 Some courts, however, have awarded interest computed from the date of the commencement of the Section 16(b) action. n98

[ii] Dividends. Dividends received on securities held during a six month period in which short-swing trading

occurred will not be part of the profit realized when they are:

(1) declared on stock prior to the purchase of the stock by the insider; or

(2) declared prior to the security holder becoming an insider. n99

There is, however, a division of authority as to whether dividends declared on shares held by the insider during the six month period are recoverable by the issuer in a Section 16(b) action. Some courts have held that dividends are not recoverable unless they are "inextricably connected" with the decision to engage in a short-swing transaction. n100 Thus, if dividends received reflect what would normally be expected to be received by investors, they may not be recovered in a Section 16(b) action. n101 Other courts have held that dividends declared on the actual shares sold at a profit while the defendant was an insider are part of the profit realized. n102 In addition, one court has held that dividends received on the amount of shares equivalent, although not identical, to the amount sold were part of the profit realized. n103

[iii] Control Premiums. Some courts have added a control premium to the computation of profits when a transaction in securities involves the acquisition of control over a company. n104 The premium represents the special value the acquired securities have in granting the insider control over the issuer that the securities would not otherwise have for the ordinary investor. n105

[b] From the Purchase or Sale of Options. The valuation of any profit from the purchase or sale of an option or other derivative security, including a warrant or convertible note, is governed by Rule 16b-6(c). The rule provides that, when matching a purchase and sale of derivative securities with identical characteristics, one looks strictly to the transaction prices. However, when matching transactions in two different securities, or a transaction in a derivative security with an opposite transaction in the underlying security, Rule 16b-6(c)(2) provides that the recoverable profit "shall not exceed" the difference in the underlying security's price on the day of the two transactions. In addition, one "may" value the profits from any such transactions by looking only at the price on the respective trade dates of a derivative security involved in the transaction. n106 Presumably this permissive alternative rule would be used only if it produced a smaller profit than that determined by looking at the prices of the underlying security. In adopting this rule, the Commission noted that "[i]f an insider can demonstrate that the amount of profit was less, then a court can order a lesser recovery." n107 The Commission gave, as an example of an instance where a lesser recovery may be appropriate, an instance where a portion of the profit represented an issuer's matching contribution or other form of compensatory subsidy. n108 Defendants would no doubt also argue that prices paid for the derivative security, representing the value of the right itself as opposed to the value of the underlying security, should be excluded from the calculation. n109

[5] Procedure

[a] Proper Forum.

An action under Section 16(b) "may be instituted at law or in equity in any court of competent jurisdiction." Service of process may be made in any district where the insider is an inhabitant, or is found. n110

[i] Jurisdiction. Section 27 grants exclusive jurisdiction to the federal courts for any action based upon a violation of Section 16(b) or the rules promulgated thereunder.

[ii] Venue. Section 27 provides that an action based upon a violation of Section 16(b) may be brought in any district where:

(1) the defendant is found, is an inhabitant, or transacts business n111 or

(2) any act or transaction constituting the violation took place.

Thus, if either the purchase or sale of securities occurred in a particular district, venue is proper in that district. n112

Venue, however, will not be laid in a district where acts preliminary to the purchase or sale of stock have occurred. n113 There is some question whether venue is limited to the district in which the transaction is consummated, *i.e.*, where both parties made a firm commitment to transfer the securities. n114 If, however, the transaction was executed on a securities exchange, an action under Section 16(b) may be brought in the district where the exchange is located. n115 In addition, an action for attorney's fees under Section 16(b) can be maintained in any district where the substantive Section 16(b) suit could have been brought. n116

[6] Who May Institute an Action?

An issuer may bring an action under Section 16(b) to recover profits realized by an insider on short-swing trades. If the issuer declines to bring a Section 16(b) suit within sixty days after being requested by a security holder to do so, n117 or if the issuer does not diligently prosecute a Section 16(b) action, the owner of *any security* of that issuer may institute the action on behalf of the issuer. n118

Section 16(b)'s requirement that the security holder request the issuer to institute an action to recover profits will be waived if the security holder can establish that a request upon the issuer for the institution of the action would be futile, n119 *e.g.*, when the insiders accused of short term transactions are in control of the issuer. n120 In addition, if the statute of limitations would bar a Section 16(b) action before the expiration of the sixty day period, the security holder will be relieved of complying with the demand requirement. n121

Section 16(b) permits a security holder to intervene in an action brought by the issuer if the issuer fails to diligently prosecute the suit. The courts have adopted a liberal policy of permitting intervention in Section 16(b) cases. n122

A security holder has the right to institute a Section 16(b) action regardless of the good faith or reasonable business judgment of the issuer's board of directors in deciding not to bring the suit. n123 The Commission, however, has no authority to seek any relief under Section 16(b). n124

An action brought under Section 16(b) is not subject to Rule 23.1 of the Federal Rules of Civil Procedure, regulating derivative actions by shareholders, which requires the plaintiff to be a security holder at the time the transactions constituting the violation of Section 16(b) occurred. n125 The plaintiff may therefore purchase a security subsequent to the time of the alleged illegal transactions and still have standing to institute a Section 16(b) action. The motive of the plaintiff in acquiring the securities is irrelevant, even if he makes a token purchase merely to bring a Section 16(b) action. n126 It is also of no consequence for the purposes of a Section 16(b) action that the plaintiff's interest in the issuer is insubstantial n127 or that the plaintiff purchased the securities on a margin account and those securities remained in the name of the broker until that account was settled. n128 Finally, ownership of an issuer's debt securities constitutes a sufficient interest to institute a suit. n129

A Section 16(b) cause of action has been held to be a property right and assignable by the issuer. n130 The cause of action also can not be abated by the death of the defendant. n131

Since Section 16(b) grants standing after demand on the issuer to owners of any security *of the issuer*, there was a question whether a security holder that has instituted an action under Section 16(b) must maintain his status as a security holder of that issuer throughout the pendency of the suit. In *Rothenberg v. United Brands Company*, n132 the Second Circuit, in dismissing the complaint, held that the plaintiff lost his status as a security holder of the issuer, and therefore his standing to maintain an action under Section 16(b), when he accepted cash for his stock upon the merger of the issuer into another corporation. n133 However, in *Gollust v. Mendell*, the Supreme Court held that a security holder of the issuer who commenced an action under Section 16(b) could maintain that action after his interest in the issuer

was exchanged in a merger for stock in the issuer's new parent company. n134 However, the Supreme Court made it clear that a shareholder of a parent of an issuer would not have standing to commence an action under Section 16(b). n135

[7] Defenses; Counterclaims; Settlements

Since Section 16(b) imposes strict liability on insiders who violate its prohibition on short-swing trading, if all the terms of the statute are met, there are no defenses available except for the running of the statute of limitations.

[a] Statute of Limitations. Section 16(b) provides that no suit may be brought more than two years after an insider has realized a profit on short-term trading, that is, the date on which the second of a matched pair of transactions, either a purchase or sale, is completed. The statute of limitations begins to operate from the time the consideration for the transaction is received by the insider, not the time when the consideration is reduced to cash. n136 The statute of limitations, however, may be tolled if the insider has not filed the reports required to be filed under Section 16(a). n137

[b] Demand Upon the Issuer. Although Section 16(b) permits a shareholder to bring an action only if the issuer has not instituted the action within sixty days of being requested to do so, the demand requirement exists for the benefit of the issuer. The insider-defendant, therefore, cannot claim as a defense that the plaintiff failed to make a demand upon the issuer. n138

[c] Waiver and Estoppel. Section 29(a) of the Exchange Act prohibits an issuer from waiving compliance with any of the Exchange Act's provisions, including Section 16(b). n139

The defense of equitable estoppel also is not available in a Section 16(b) action, so that claims that the prohibited transaction occurred at the initiative of the issuer, n140 was participated in by the issuer, n141 or benefited the issuer n142 *are insufficient as a matter of law to defend a Section 16(b) claim. Similarly, the approval by the shareholders of the issuer of the prohibited transaction is not a defense available to the insider.* n143 However, transactions between an officer or director and the issuer occurring after August 15, 1996 that are approved by shareholders, may be exempt under Rule 16b-3. n144

[d] Counterclaims. A defendant in Section 16(b) action will not be permitted to file a counterclaim against the issuer for whose benefits the action was commenced if the counterclaim is unrelated to the transactions that are the subject of the action. n145

[e] Settlements. The settlement of a Section 16(b) action will be permitted upon a finding by a court that the settlement is fair and reasonable n146 and the result of a compromise through good faith negotiations. n147 In general, however, a settlement for an amount less than the maximum potential amount recoverable under the Section 16(b) action will not be approved unless a significant obstacle to recovery by the plaintiff or "sufficiently substantial defenses," or both, exist. n148 Payment by an insider of an issuer's claims under Section 16(b), outside of a judicially-approved settlement, will not bar a subsequent action by a stockholder for the recovery of the profits that were the subject of the suit for which the settlement was made, although the settlement payment may be deducted from any amount for which the insider may be found liable. n149

Some courts have added two requirements from Rule 23 of the Federal Rules of Civil Procedure, governing settlement of class actions, to the process of settling Section 16(b) claims: notice of the proposed settlement to all other security holders of the issuer, usually by newspaper publication, and the opportunity for a hearing prior to the approval of the settlement. n150

[8] Attorney's Fees

A security holder and his attorney are entitled to recover the reasonable value of attorney's fees incurred in the recovery

of profits realized by an insider in violation of Section 16(b). n151 In addition, reimbursement for work performed in discovering and informing a corporation of an insider's violations of Section 16(b) may be obtained by the security holder and his attorney, even if the corporation recovered the profits without bringing a suit, when it appears that the corporation would not otherwise have discovered the violation. n152

To encourage enforcement of the statute, courts have granted substantial allowances for attorney's fees in proportion to the time spent on and the complexity of the litigation, and the profits recovered. n153 If intervention by a security holder in a Section 16(b) action is permitted, the allocation of attorneys' fees is dependent upon the relative contribution of each attorney to the proceedings. n154

Since a security holder's interest in any ultimate corporate recovery is usually too small to provide an incentive to institute an action under Section 16(b), the possibility of attorney's fees will often be the sole motivation for bringing a suit. n155 A suit for attorney's fees is a remedial incident of an action brought under Section 16(b) and is not separately subject to the requirements for federal jurisdiction. n156

(n3)Footnote 3. For discussion of "purchase" and "sale" for purposes of Section 16(b), *see* § 8.04[2] *infra*.

(n4)Footnote 4. For discussion of an issuer's equity securities, *see* § 8.03[2] *supra*.

(n5)Footnote 5. For discussion of exempted securities for purposes of Section 16(b), *see* § 8.06 *infra*.

(n6)Footnote 6. For discussion of the "less than six months" time period, *see* § 8.04[3] *infra*.

(n7)Footnote 7. Section 16(b). *See also*, § 8.06[15] *infra* (discussing the exemption for securities acquired in connection with a debt previously contracted).

(n8)Footnote 8. Section 16(b).

In addition to Section 16(b), Section 10(b) and *Rule 10b-5* promulgated thereunder, which prohibits "any manipulative or deceptive device or contrivance," also serves to curb insider trading abuse, although *Rule 10b-5* is in many respects much broader in scope than the provisions of Section 16(b):

- (1) *Rule 10b-5* applies to *any* person, not merely to a statutory insider;
- (2) *Rule 10b-5* applies to the purchase or sale of *any* security and is not limited to an equity security that is registered pursuant to Section 12;
- (3) *Rule 10b-5* requires a purchase *or* a sale of any security for liability to be imposed; Section 16(b) requires both a purchase *and* a sale; and
- (4) A violation of *Rule 10b-5* is not limited to a transaction occurring "within any period of less than six

months" as would be required for an action under Section 16(b).

The burden of proof in an action under Section 16(b), however, is easier to satisfy than in an action under Rule 10b-5. A plaintiff under Section 16(b) need only show that a purchase and a sale occurred within a period of less than six months for absolute liability to be imposed, see § 8.04[3] *infra*, while under Rule 10b-5 the plaintiff must show that the insider actually traded on the basis of inside information.

See Feldman & Teberg, *Beneficial Ownership Under Section 16 of the Securities Exchange Act of 1934*, 17 W. Res. L. Rev. 1054, 1064 (1966); Note "Beneficial Ownership" Under Section 16(b) of the Securities Exchange Act of 1934, 77 Colum. L. Rev. 446, n.5 (1977).

For a detailed discussion of civil liability under Rule 10b-5, see § 5.04 *supra*.

In addition to an action under Section 16(b) or Rule 10b-5, insider trading abuse may be subject to liability under state law. See, e.g., *Diamond v. Oreamuno*, 24 N.Y.2d 494, 301 N.Y.S.2d 78, 248 N.E.2d 910 (1969); 10 Cavitch, *Business Organizations*, § 127.02[2].

For discussion of the exemptions from Section 16(b), see § 8.06 *infra*.

(n17)Footnote 17. *But see* *Allis-Chalmers Manufacturing Co. v. Gulf & Western Industries, Inc.*, 527 F.2d 335, (7th Cir. 1975), *cert. denied*, 423 U.S. 1078 (1976), in which the court indicated in dicta that it would not hold a director or officer liable unless he was an insider prior to the initial purchase or sale. The Supreme Court in *Foremost-McKesson, Inc. v. Provident Securities Co.*, however, would not express its views with respect to this reasoning, relying instead on the exemptive provision in Section 16(b) as to more than ten percent security holders. *Foremost-McKesson, Inc. v. Provident Sec. Co.*, 423 U.S. at 243, n.16.

(n18)Footnote 18. See *Steel Partners II, L.P. v. Bell Indus.*, 315 F.3d 120, 127 n.1 (2d Cir. 2002); *Adler v. Klawans*, 267 F.2d 840 (2d Cir. 1959); *Marquette Cement Manufacturing Co. v. Andreas*, 239 F. Supp. 962 (S.D.N.Y. 1965); *Blau v. Allen*, 163 F. Supp. 702 (S.D.N.Y. 1958).

(n19)Footnote 19. *Feder v. Martin Marietta Corp.*, 406 F.2d 260 (2d Cir. 1969).

In *Sullair Corp. v. Hoodes*, Fed. Sec. L. Rep. (CCH) P 93,568 (N.D. Ill. 1987), the court granted plaintiff's motion for summary judgment and awarded the plaintiff \$11,350 from insider profits realized by the company's former chairman and chief executive officer. The court noted that the defendant's contention that he should not be liable because the corporation had made up its mind to terminate him three days prior to his initial sale ignored the strict nature of Section 16(b).

(n20)Footnote 20. See Rule 16a-2(a) and § 8.03[4][c][i] *supra*.

(n21)Footnote 21. See Rule 16a-2(b) and § 8.03[4][c][ii] *supra*.

(n22)Footnote 22. See *Lewis v. Mellon Bank*, 513 F.2d 921 (3d Cir. 1975); *Lewis v. Varnes*, 505 F.2d 785 (2d Cir. 1974).

However, in *Winston v. Federal Express Corp.*, Fed. Sec. L. Rep. (CCH) P 93,948 (6th Cir. 1988), the court held that a senior vice president who resigned on August 27, 1985, effective September 30, 1985, and had no contact with the company in the interim period was liable for short swing profits on stock he purchased from the company on September 30, 1985 and sold on March 26, 1986. It was uncontroverted that the officer did not receive any confidential information between his resignation and its effective date, but the court found that this was inconsequential since he did not carry

the burden of proof to overcome the strong presumption that he had potential *access* to confidential information during the interim period and that had he requested such information it would not have been withheld from him.

(n23)Footnote 23. See Hearings on Stock Exchange Practices, *supra* note 11, at 6556.

In *Foremost-McKesson, Inc. v. Provident Securities Co.*, 423 U.S. 232, 96 S. Ct. 508, 46 L. Ed. 2d 464 (1976), the Supreme Court stated:

"The legislative discourse revealed that Congress thought that all short-swing trading by directors and officers was vulnerable to abuse because of their intimate involvement in corporate affairs. But trading by mere stockholders was viewed as being subject to abuse only when the size of their holdings afforded the potential for access to corporate information." (Footnote omitted.)

423 U.S. at 253-54.

(n24)Footnote 24. 404 U.S. 418 (1972).

(n25)Footnote 25. The Court applied an "objective standard" interpretation of Section 16(b) in holding that the statute was designed to curb insider abuse regardless of the intent of the insider or the existence of speculative abuse provided the statutory conditions of Section 16(b) were met. 404 U.S. at 422. On the other hand, the Court would not impose liability simply because the insider "structured his transaction" with the intent of avoiding liability if the method of avoidance was permitted by statute. *Id.*

The Court also noted that the Commission's rules required the same interpretation. 404 U.S. at 426, *C.C.H. Fed. Sec. L. Rep. at p. 91,753*. The Commission's reporting rules now clearly limit a 10% shareholder's liability to transactions occurring while it holds such status. See Rule 16a-2(c). A Form 4 would not have had to be filed when the defendant's holdings dropped to 9.96% of the outstanding shares. Since a transaction that is exempt from the reporting requirements of Section 16(a) is exempt from liability under Section 16(b), see Rule 16a-10, the defendant could not incur Section 16(b) liability when he made the September 11th sale. 404 U.S. at 425, *C.C.H. Fed. Sec. L. Rep. at p. 91,753*.

However, in *Reece Corporation v. Walco National Corporation*, Fed. Sec. L. Rep. (CCH) P 98,289 (S.D.N.Y. 1981), the first reported case since *Reliance* dealing with an attempt to structure a sale of stock in phases to avoid Section 16(b) liability, the court found the division of a single transaction into two "sales" to be "wholly artificial and contrived" since, unlike *Reliance*, in which there were two separate sales to two different buyers that were not tied together in any manner, the *Reece* transaction involved a single plan of disposition negotiated by the defendant with the same buyer. Fed. Sec. L. Rep. (CCH) at 91,846. In *Reece* the transaction was structured so that one "sale" would not be carried out without the other, although there had been no "express legal tie" between the two phases. *Id.*

(n26)Footnote 26. 423 U.S. 232 (1976).

(n27)Footnote 27. The Court traced the legislative history of the exemptive provision of Section 16(b) to find that in a purchase-sale sequence, a beneficial owner would be liable only if he was a beneficial owner "before the purchase," *i.e.*, a time when he presumptively had access to inside information:

"... the crucial point in the acquisition of securities is not the technical 'purchase,' but rather the decision to make the acquisition. In the case of an acquisition of a large block of a corporation's stock, that decision may precede the 'purchase' by a considerable period of time ... well in advance of the event that is presumed to afford access to inside information."

423 U.S. at 254 n. 28.

In *Piano Remittance Corp. v. Reliance Financial Services Corp.*, 618 F. Supp. 414, Fed. Sec. L. Rep. (CCH) P 92,320 (S.D.N.Y. 1985), the court held that a holder of 9.3% of an issuer's shares who placed an order with its broker for a block purchase of an additional one million shares that raised the shareholder's interest in the issuer to 12.2% could be liable for Section 16(b) short swing profits since:

(1) the block buy was executed in separate purchases over a period of several days and could not therefore be treated as a unified transaction; and

(2) the plaintiff may be able to show that the purchaser was not irrevocably committed to the entire purchase when all the orders were placed and that the purchaser was liable for profits on shares acquired after the ten percent level was reached.

(n28)Footnote 28. "The terms 'sale' and 'sell' each include any contract to sell or otherwise dispose of." Section 3(a)(14).

In *Colan v. Cutler-Hammer, Inc.*, Fed. Sec. L. Rep. (CCH) P 92,826 (N.D. Ill. 1986), *aff'd*, 812 F.2d 357 (7th Cir. 1987), the court found that the evidence did not support the plaintiff's allegation that pursuant to a secret agreement between a tender offeror and a shareholder of the target company, the merger between the companies was delayed to avoid liability of the shareholder under Section 16(b). The court observed, however, that even if the existence of a secret agreement was proved, no "sale" of the target's shares was made, since there was no "irrevocable commitment" and no fixing of the rights and obligations of the target company shareholder with respect to the sale of its shares.

In *Lewis v. Bradley*, 599 F. Supp. 327 (S.D.N.Y. 1984), the court held that an informal agreement to sell a director's shares to the issuer after the director's retirement as a director did not constitute a sale within the meaning of Section 16(b). The court observed that whether a "sale" has been made depends on whether an insider has incurred an "irrevocable liability" to dispose of his stock, so that his rights and obligations have become fixed. Applying that standard, the court declined to find that a sale had been made, since the parties had never discussed price. In the absence of a fixed price, the court found, the seller's rights and obligations could not be determined in any meaningful sense in terms of the statute's purpose to thwart short-swing speculation based on inside information. *See also Tristar Corp. v. Freitas*, 867 F. Supp. 149, 152-53 (E.D.N.Y. 1994) (finding that a loan agreement had the indicia of an installment sales contract and was a sale for 16(b) purposes where defendants were contractually bound to purchase).

(n29)Footnote 29. "The terms 'buy' and 'purchase' each include any contract to buy, purchase, or otherwise acquire." Section 3(a)(13).

(n30)Footnote 30. *Kern County Land Co. v. Occidental Petroleum Corp.*, 411 U.S. 582, 594 (1973), discussed in § 8.04[2][g] *infra*.

(n31)Footnote 31. II Loss, *Securities Regulation* (2d ed. 1961, Supp. 1969), at 1069.

See Pay Less Drug Stores v. Jewel Cos, Inc., 579 F. Supp. 1396 (N.D. Cal. 1984) (stock option); *see also Kay v. ScienTex Corp.*, 719 F.2d 1009 (9th Cir. 1983) (overissuance of 673,000 shares to an insider in connection with a stock ownership dispute was an unorthodox transaction that constituted a purchase under Section 16(b) since the transaction was voluntary and the recipient engaged in short-swing sales within a six-month period).

But see Colan v. Prudential-Bache Securities, Inc., 557 F. Supp. 1074 (N.D. Ill. 1983), discussed in note 66 *infra* (pragmatic approach applied to merger that was characterized as an unorthodox transaction).

In *Heit v. Katz*, Fed. Sec. L. Rep. (CCH) P 96,405 (S.D.N.Y. 1978), the court concluded that a transfer of stock to an

insider by an issuer in return for a non-recourse note payable in five years was an unorthodox transaction since it was the equivalent of a call option. Although the stock was transferred to the defendant's name and he could vote the stock, it was not "an instrument with potential for speculative abuse" since he could not dispose of it and was not entitled to distributions or dividends on the stock. *Id.* at 93,448.

(n32)Footnote 32. *Tyco Laboratories, Inc. v. Cutler-Hammer, Inc.*, Fed. Sec. L. Rep. (CCH) P 97,370, at 97,474 (S.D.N.Y. 1980).

In *Super Stores, Inc. v. Reiner*, 737 F.2d 962 (11th Cir. 1984), the court held that a transaction involving short swing profits, in which a corporate officer/director facing defeat in a tender offer battle voluntarily tendered his stock acquired less than six months earlier to his opponents for cash, was subject to Section 16(b) liability.

See also *Gund v. First Florida Banks, Inc.*, 726 F.2d 682 (11th Cir. 1984), discussed in note 36 *infra*; *Lane Bryant, Inc. v. Hatleigh Corp.*, 517 F. Supp. 1196 (S.D.N.Y. 1981) (sale of stock for cash by an insider to the issuer following the insider's decision not to pursue a contest for control was an orthodox transaction subjecting the insider to automatic Section 16(b) liability).

In *Cutler-Hammer, Inc. v. Leeds & Northrup Co., Inc.*, 469 F. Supp. 1021 (E.D. Wis. 1979), the court held that a purchase and sale of securities by an insider were subject to Section 16(b) although

(1) the purchase and sale was subject to the approval of the issuer, and

(2) the sale was prompted by the issuer's intent to merge, an action over which the insider had no control.

See also *Blau v. Albert*, 157 F.Supp. 816 (S.D.N.Y. 1957) (transfer of stock for services provided subject to Section 16(b)); *Lewis v. Adler*, 331 F.Supp. 1258 (S.D.N.Y. 1971)(transfer of stock as compensation for money loaned subject to Section 16(b)).

(n33)Footnote 33. *Portnoy v. Memorex Corp.*, 667 F.2d 1281 (9th Cir. 1982) (bank's transfer of warrants to a charitable organization was not a "sale," and charitable organization's acquisition of warrants was not a "purchase," for the purposes of Section 16(b), since the definitions of purchase and sale do not include gifts); *Shaw v. Dreyfus*, 172 F.2d 140 (2d Cir.), *cert. denied*, 337 U.S. 907 (1949); *Blau v. Albert*, 157 F. Supp. 816 (S.D.N.Y. 1957); *Lewis v. Adler*, 331 F. Supp. 1258 (S.D.N.Y. 1971).

In *Truncale v. Blumberg*, 80 F. Supp. 387 (S.D.N.Y. 1948), the court rejected the argument that a gift to a charitable foundation should be considered a sale since the donor received a tax deduction for the transaction.

(n34)Footnote 34. *Truncale v. Blumberg*, 83 F. Supp. 628 (S.D.N.Y. 1949) .

(n35)Footnote 35. Rule 16b-(6)(b).

(n36)Footnote 36. In *Heli-Coil Corp. v. Webster*, 352 F.2d 156 (1965 3d Cir.), the court strictly applied the definitions of "purchase" and "sale" and the provisions of Section 16(b) to hold that the conversion of convertible debentures into common stock involved a "sale" of the debentures and the "purchase" of the common. This reasoning was rejected by the Second Circuit in *Blau v. Lamb*, 363 F.2d 507 (2d Cir. 1966) , *cert. denied*, 385 U.S. 1002 (1967) .

In *Gund v. First Florida Banks, Inc.*, 726 F.2d 682 (11th Cir. 1984), the court held that the sale by an insider of a convertible security followed within six months by the purchase of the underlying security was subject to Section 16(b). The court also held that the transaction clearly fell within the language of Section 16(b) and refused to apply the pragmatic approach and to analyze whether there was a potential for speculative abuse.

In *Ferraiolo v. Newman*, 259 F.2d 342 (6th Cir. 1958), cert. denied, 359 U.S. 927 (1959), a conversion of convertible preferred stock into common stock was held not to be subject to Section 16(b) since the insider had no control over the decision of the issuer to call convertible securities for redemption and the failure of the security holder to convert would have resulted in his losing a substantial portion of his investment. The court also noted that the securities exchanged were economic equivalents, all preferred shareholders were treated alike, full disclosure was made to them, and the conversion did not materially change the proportional equity ownership in the issuer. 259 F.2d at 345-46.

See also *Petteys v. Butler*, 367 F.2d 528 (8th Cir. 1966), cert. denied, 385 U.S. 1006 (1967); *Lynam v. Livingston*, 276 F. Supp. 104 (D. Del. 1967).

In *Park & Tilford, Inc. v. Schulte*, 160 F.2d 984 (2d Cir.), cert. denied, 332 U.S. 761 (1947), the court held that a redemption of preferred stock for common stock was a "purchase." The insiders in *Park & Tilford*, however, had complete control of the issuer and could therefore determine when the redemption would be called. 160 F.2d at 986.

In *Blau v. Lamb*, 363 F.2d 507 (2d Cir. 1966), defendant Lamb had received convertible preferred stock in Air-Way Industries, Inc., a corporation that he controlled as a result of a merger of another Lamb company into Air-Way. The Second Circuit refused to infer the existence of an opportunity for speculative profit from control alone, and examined the transaction to determine whether the possibility of speculative abuse existed. 363 F.2d at 521. The court concluded, after focusing on the economic equivalence of the transactions, that the new stock was not appreciably more marketable than the old stock and, although the new stock increased the voting power of the insiders and paid greater dividends than the preferred, the exchange did not present the insiders with trading advantages. 363 F.2d at 522-23.

See also *Hayes v. Sampson*, Fed. Sec. L. Rep. (CCH) P 97,693 (S.D.N.Y. 1980), in which the court held that the conversion of "Old Debentures" into "New Debentures" was not subject to Section 16(b) although the "New Debentures" differed in repayment characteristics. Specifically, the "New Debentures"

- (1) were not convertible into common stock,
- (2) had a lower face value principal amount,
- (3) had a higher interest yield, and
- (4) had a different maturity date.

Fed. Sec. L. Rep. (CCH) at 98,644.

See also *Blau v. Max Factor & Co.*, 342 F.2d 304, (9th Cir. 1965), in which the court concluded that an exchange of common stock for substantially similar Class A stock pursuant to a conversion right by members of a family that controlled the issuer was not subject to Section 16(b) since

- (1) the insiders' investment in the issuer was long term,
- (2) the exchange did not interrupt the continuity of the insiders' investment or increase or decrease the amount invested, and
- (3) no investment risk was taken by the insiders.

(n37)Footnote 37. *See Roberts v. Eaton*, 212 F.2d 82 (2d Cir.), *cert. denied*, 348 U.S. 827 (1954), the court described the third factor listed in the text above as essential, although it relied on the cumulative effect of all three factors in reaching its decision. 212 F.2d at 86 .

See also *Rothenberg v. United Brands Co.*, Fed. Sec. L. Rep. (CCH) P 96,045 (S.D.N.Y.), *aff'd*, 573 F.2d 1295 (2d Cir. 1977) , which involved a recapitalization plan approved by the shareholders subsequent to a successful tender offer, in which the tender offeror's shares were converted into "Class A Common Stock" with greater voting rights, while all other outstanding stock was converted into "special convertible cumulative and preferred" with greater dividend rights. The court, relying on the continued investment position of the tender offeror and that the conversion did not involve a new investment, held that the conversion was not a "sale" under Section 16(b), although the tender offeror received significant economic benefits as a result of the exchange in that it was entitled to file a consolidated tax return permitting it to obtain enormous tax savings in addition to being able to elect 80% of the board of directors. Fed. Sec. L. Rep. (CCH) at 91,694.

In *Blau v. Hodgkinson*, 100 F. Supp. 361 (S.D.N.Y. 1951), the receipt of stock in a parent corporation in exchange for stock in a subsidiary pursuant to a plan of corporate simplification was held to be a "purchase" under Section 16(b) where the insider had the option to dissent from the plan and receive cash instead.

(n38)Footnote 38. *See supra* note 36.

(n39)Footnote 39. 212 F.2d 77 (2d Cir.), *cert. denied*, 347 U.S. 1016 (1954).

(n40)Footnote 40. 212 F.2d at 79 .

(n41)Footnote 41. *Id. at 80* . The defendants's beneficial interest in the issuer was not changed since it received an indirect interest exactly equal in value to what it gave up in direct interest. *Id.*

(n42)Footnote 42. *Id. at 81* .

(n43)Footnote 43. *See* § 8.06[9][c] & [d] *infra*, for discussion of rule 16b-3, exempting from Section 16(b) the acquisition of stock, stock options, and stock appreciation rights in transactions between an officer or director and an issuer.

(n44)Footnote 44. *See* *B.T. Babbitt, Inc. v. Lachner*, 332 F.2d 255 (2d Cir. 1964); *Silverman v. Landa*, 306 F.2d 422 (2d Cir. 1962); *Shaw v. Dreyfus*, 172 F.2d 140 (2d Cir. 1949); *Levy v. Seaton*, 358 F. Supp. 1 (S.D.N.Y. 1973).

See also *Heit v. Katz*, Fed. Sec. L. Rep. (CCH) P 96,405 (S.D.N.Y. 1978), discussed in note 31 *supra* (transaction in which a note given for securities construed to be a call option).

The grant or acquisition of a stock option must be reported by an insider under Section 16(a). Rule 16a-6(a).

(n45)Footnote 45. *See Bershad v. McDonough*, 428 F.2d 693 (7th Cir. 1970), the court listed the following circumstances as indicating that the stock was effectively transferred at the grant rather than at the exercise of the option:

- (1) a \$350,000 binder paid for the option that represented over 14 percent of the total purchase price of the stock;
- (2) the placement of the stock in escrow;
- (3) the vesting of the voting rights of the stock in the optionee; and

(4) the resignation of the optioner from the board of directors and the appointment of optionee representatives to the board.

(n46)Footnote 46. Exch. Act Rel. No. 28869, Part III (Feb. 8, 1991) (the Commission noted that the derivative security framework "not only reverses the Commission's own [prior] regulatory approach but also differs from a line of cases ...").

(n47)Footnote 47. See Rule 16a-4.

(n48)Footnote 48. "Just as an insider's opportunity to profit commences when he purchases or sells the issuer's common stock, so too the opportunity to profit commences when the insider engages in transactions in options or other derivative securities that provide an opportunity to obtain or dispose of the stock at a fixed price." Exch. Act Rel. No. 28869, at n.97.

(n49)Footnote 49. Rule 16b-6(a).

(n50)Footnote 50. Rule 16b-6(b).

(n51)Footnote 51. The staff has acknowledged that the unorthodox transaction doctrine has some continued validity. ConAgra, SEC No-Action Letter (Jan. 2, 1992).

(n52)Footnote 52. 425 F.2d 348 (2d Cir.), *cert. denied*, 400 U.S. 854 (1970).

(n53)Footnote 53. 425 F.2d at 354.

In *Colan v. Cutler-Hammer, Inc.*, Fed. Sec. L. Rep. (CCH) P 98,294 (N.D. Ill. 1981), the court found that the defendant-insider, who was an ally of the issuer in the issuer's campaign to retain control, sold its stock in the issuer at the time the issuer became irrevocably bound to a merger, although the defendant-insider was unable to control the course of events leading to the merger with another company. The court found that a strong possibility for speculative abuse of inside information existed under the circumstances since the chairman of the board of the issuer was also on the board of the defendant-insider. Fed. Sec. L. Rep. (CCH) at 91,860.

(n54)Footnote 54. 425 F.2d at 354. The "economic equivalence" test applied in *Blau v. Lamb* could not be applied in this instance since the test is applicable only to exchanges of securities of the same issuer. *Id.*

(n55)Footnote 55. 486 F.2d 340 (4th Cir. 1973), *cert. denied*, 419 U.S. 873 (1974).

(n56)Footnote 56. 486 F.2d at 351. It is doubtful whether these two individuals would be considered insiders under the Commission's 1991 rule revisions that defined "officer" to mean "executive officer." Rule 16a-1(f).

(n59)Footnote 59. See, generally, Ribstein, *The Application of Section 16(b) of the Securities Exchange Act of 1934 to Tender Offers*, 31 *Sw. L. J.* 503 (1977).

(n60)Footnote 60. The tender offeror, however, must be a more than ten % shareholder *before* the purchase that is

being matched with a subsequent sale for Section 16(b) purposes. See § 8.04[1] *supra*. Thus, if all the acquisitions made pursuant to a tender offer are deemed to be a single purchase, a tender offeror who was not a more than ten % shareholder prior to the making of the tender offer would not be liable under Section 16(b) for any subsequent sales of shares acquired pursuant to the tender offer. Whether tender offer acquisitions constitute a single purchase or a series of purchases is still unresolved. Ribstein, *supra* note 59, at 506.

In *Sterman v. Ferro Corp.*, Fed. Sec. L. Rep. (CCH) P 92,503 (6th Cir. 1986), the court held that where an issuer repurchased the shares of a principal security holder to avoid a potential tender offer by that security holder, and an amount was added to the base repurchase price equivalent to the amount that the security holder would be required to disgorge under Section 16(b) as a result of the repurchase, and after completion of the transaction the security holder repaid the latter amount to the issuer, the security holder had no further liability under Section 16(b).

See also *Morales v. Lukens, Inc.*, Fed. Sec. L. Rep. (CCH) P 91,676 (S.D.N.Y. 1984).

(n61)Footnote 61. *Ribstein, supra*, note 59, at 503.

(n62)Footnote 62. *Id.* at 504.

(n63)Footnote 63. 411 U.S. 582 (1973).

(n64)Footnote 64. 411 U.S. at 590-91. No liability was asserted by Kern as to the exercise of the option by Tenneco's subsidiary since the exercise occurred more than six months after Occidental's last purchase of Kern stock. *Kern County Land Co. v. Occidental Petroleum Corp.*, 411 U.S. at 596, n.28 (1973).

(n65)Footnote 65. 411 U.S. at 600. The court found that Occidental had no real alternative to the exchange, *e.g.*, the merger did not provide for appraisal rights once the merger had been approved. *Id.*

(n66)Footnote 66. *Id.*

In *Heublein, Inc. v. General Cinema Corp.*, 722 F.2d 29 (2d Cir. 1983), the court held that as a matter of law, there was no "sale" for purposes of creating short-swing sale liability under Section 16(b) where a shareholder who owned more than 10% of a company's stock was forced to exchange that stock as the result of merger. The Court stated that where the exchange is the involuntary result of a merger, and there is not likelihood of access to material inside information, Section 16(b) will not apply.

See also *Texas International Airlines v. National Airlines, Inc.*, Fed. Sec. L. Rep. (CCH) P 99,488 (5th Cir. 1983) in which the court held that the defendant, a more than ten % owner of an issuer's stock, could not claim lack of access to inside information as a defense to a Section 16(b) action when the defendant, realizing it had lost a battle for control of the issuer, sold shares of the issuer to the issuer's merger partner prior to the merger "going through" and within six months of purchases since the *Kern* exception to Section 16(b) liability for unorthodox transactions does not apply to traditional cash-for-stock transactions.

See also *Pay Less Drug Stores v. Jewel Cos, Inc.*, 579 F. Supp. 1396 (N.D. Cal. 1984), in which the court held that although no stock changed hands, an unsuccessful tender offeror's attempted exercise of an option to acquire shares in a target company and the subsequent settlement of the contract constituted a purchase for purposes of Section 16(b). However, there was no liability despite the voluntary nature of the transaction, since the defendant's decision to exercise its options was not based on inside information that might have been used at the public's expense in violation of Section 16(b). The rate of exchange had been fixed by the option before the defendant ever became a statutory insider.

See also *Colan v. Prudential-Bache Securities, Inc.*, 557 F. Supp. 1074 (N.D. Ill. 1983), in which the court held that an exchange of shares was not a "sale" but rather an unorthodox transaction not subject to Section 16(b) liability for

short-swing profits. Applying the pragmatic *Kern* analysis, the court stated that the beneficial owners of more than 10% of a target company's stock were not liable for short-swing profits realized as a result of exchanging the shares pursuant to a merger since it was a forced, involuntary exchange. Furthermore, the existence of an atmosphere of hostility rendered it unlikely that the shareholders had access to inside information in a way that would raise the possibility of speculative abuses.

See also *Pier I Imports of Georgia, Inc. v. Wilson*, 529 F. Supp. 239 (N.D. Tex. 1981), in which the court applied the rationale of *Kern* to hold that a vice-president who sold his shares after a tender offer for his company was made was not liable under Section 16(b) because:

(1) the sale was an unorthodox transaction, since the transaction was pursuant to a tender offer and the vice-president believed he had no alternative to tendering his shares, *i.e.*, the president informed him that he was required to tender and that his continued employment depended upon tendering;

(2) the sale did not present the opportunity for speculative abuse since the vice-president did not attend board of directors meetings and was not informed of, or had access to, confidential and relevant financial aspects of the company.

See also *American Standard, Inc. v. Crane Co.*, 510 F.2d 1043, (2d Cir. 1974), *cert. denied*, 421 U.S. 1000 (1975) (exchange of stock in target company by unsuccessful tender offeror following a defensive merger not a sale under Section 16(b)).

A cause of action under Rule 10b-5 for the abuse of inside information and the regulation of tender offers under the Williams Act, discussed in Ch. 7A *supra*, lessen the need to rely on Section 16(b) in merger exchanges. *American Standard, Inc. v. Crane Co.*, 510 F.2d at 1063. Strict application of Section 16(b) to the exchange of stock by a tender offeror subsequent to a defensive merger would also discourage tender offers to the detriment of target company stockholders. *Abrams v. Occidental Petroleum Corp.*, 450 F.2d 157, 163-64 (2d Cir. 1971), *aff'd*, *Kern County Land Co. v. Occidental Petroleum Corp.*, 411 U.S. 582 (1973).

Exchanges of stock arising out of tender offer situations are not in and of themselves "unorthodox transactions." *See* *Lane Bryant, Inc. v. Hatleigh Corporation*, 614 Sec. Reg. & L. Rep. A-4 (BNA July 29, 1979) (sale of stock by a more than ten% security holder pursuant to an agreement settling a proxy fight for control is a simple cash-for-stock stock sale subject to Section 16(b) liability); *Allis-Chalmers Manufacturing Co. v. Gulf & Western Industries, Inc.*, 527 F.2d 335 (7th Cir. 1975), *cert. denied*, 423 U.S. 1078 (1978) (voluntary disposition of shares acquired during a tender offer subject to Section 16(b) liability).

See also *Bunker Ramo-Eltra Corp. v. Fairchild Industries, Inc.*, Fed. Sec. L. Rep. (CCH) P 93,125 (D. Md. 1986), in which the court distinguished *Kern* and held that the exemption from Section 16(b) for exchanges of stock pursuant to a merger did not apply to a cash for stock merger, even though a promissory note was given for a portion of the purchase price.

(n67)Footnote 67. *American Standard, Inc. v. Crane Co.*, 510 F.2d at 1058.

(n68)Footnote 68. The Supreme Court, however, has indicated that a subjective analysis of the transaction is unnecessary with respect to an orthodox transaction since Section 16(b) applies automatically. *Kern County Land Co.*, 411 U.S. at 593-94.

But see *Pier I Imports of Georgia, Inc. v. Wilson*, 529 F. Supp. 239 (N.D. Tex. 1981) (discussed in note 66 *supra*) (a cash-for-stock transaction was deemed unorthodox).

(n69)Footnote 69. See *Oliff v. Exchange International Corporation*, Fed. Sec. L. Rep. (CCH) P 97,634 (7th Cir. 1980) (repurchase of shares sold by a defendant estate to a foundation as a corrective transaction to avoid a tax penalty of 205% on the sale price for self-dealing was a purchase under Section 16(b)); *Makofsky v. Ultra Dynamics Corp.*, 383 F. Supp. 631 (S.D.N.Y. 1974) (sale of securities to raise cash to avoid default on contractual obligations subject to Section 16(b)); *Volk v. Zlotoff*, 285 F. Supp. 650 (S.D.N.Y. 1968) (sale of securities to raise working capital for issuer subject to Section 16(b)).

Involuntariness based on economic necessity has, however, been a factor in determining that a conversion of securities was not subject to Section 16(b). See *supra* note 66.

(n70)Footnote 70. See *American Standard, Inc. v. Crane Co.*, 346 F. Supp. 1153, (S.D.N.Y. 1973)], *rev'd on other grounds*, 510 F.2d 1043, (2d Cir. 1974), *cert. denied*, 421 U.S. 1000 (1975) (sale of securities compelled by threat of antitrust litigation subject to Section 16(b)); *Western Auto Supply v. Gamble-Skogmo, Inc.*, 348 F.2d 736 (8th Cir. 1965), *cert. denied*, 382 U.S. 987 (1966) (sale of securities in accordance with Department of Justice antitrust consent decree subject to Section 16(b)).

(n71)Footnote 71. *Alloys Unlimited, Inc. v. Gilbert*, 319 F. Supp. 617 (S.D.N.Y. 1970) (the bank had notified the insider that it intended to sell the securities and the insider had not attempted to prevent the sale through refinancing).

(n72)Footnote 72. In *Arrow Distributing Corp. v. Baumgartner*, 738 F.2d 1274 (5th Cir. 1986), the court held insiders liable under Section 16(b) for purchasing stock by exercise of a stock option less than six months after they sold stock, despite the fact that the issuer's stock was not registered under the Act at the time of the insiders' sales.

See also *Gratz v. Claughton*, 187 F.2d 46 (2d Cir.), *cert. denied*, 341 U.S. 920 (1951).

(n73)Footnote 73. *Morales v. Reading & Bates Offshore Drilling Co.*, 392 F. Supp. 41, 45 (N.D. Okla. 1975).

(n74)Footnote 74. *Id.* (a sale on April 17 must be followed at the latest by a purchase on October 15 for Section 16(b) liability to ensue); see also *Colonial Reality Corp. v. MacWilliams*, 381 F. Supp. 26 (S.D.N.Y. 1974), *aff'd*, 512 F.2d 1187 (2d Cir. 1975) (sale by officer on December 20 and subsequent purchase on June 19, and sale by another officer on December 22 and subsequent purchase on June 21, did not constitute sales and purchases within a period of less than six months); *Stella v. Graham-Paige Motors Corp.*, 132 F. Supp. 100 (S.D.N.Y. 1955), *rev'd on other grounds*, 232 F.2d 299, (2d Cir.), *cert. denied*, 352 U.S. 831 (1956) (sales made before August 8 were within statutory period when purchases were made on preceding February 10); *Jammies International, Inc. v. Nowinski*, Fed. Sec. L. Rep. (CCH) P 94,099 (S.D.N.Y. 1988) (sale by officer on April 29 was not within six months of purchase on October 31 because it was plausible for officer to pick the last day of April, April 30, as the most logical date to correspond to the last day of October, and then subtract one day to arrive at the first legally permissible sale date).

(n75)Footnote 75. See Sec. Exch. Act Rel. No. 34-116, Fed. Sec. L. Rep. (CCH) P 26,026 (1935); *Blau v. Ogsbury*, 210 F.2d 426, (2d Cir. 1954); see also *Piano Remittance Corp. v. Reliance Financial Securities Corp.*, 618 F. Supp. 414 (S.D.N.Y. 1985), discussed in note 27 *supra*.

See also *Freeman v. Decio*, 584 F.2d 186 (7th Cir. 1978) (purchase occurred at time stock was contracted and paid for, not five years later when restrictions on resale lapsed); *Champion Home Builders Co. v. Jeffress*, 490 F.2d 611 (6th Cir. 1974) (preliminary handshake agreement and subsequent board of directors authorization to negotiate sale did not constitute an irrevocable commitment to sell for purposes of Section 16(b); sale occurred at time of board of directors acceptance of offer to sell).

(n76)Footnote 76. See e.g., *Lewis v. Realty Equities Corp.*, 373 F. Supp. 829 (S.D.N.Y. 1974).

In *Morales v. Gould Investors Trust*, 445 F. Supp. 1144 (S.D.N.Y. 1977), *aff'd*, 578 F.2d 1369 (2d Cir. 1978), the

court held that a sale had occurred although there was a family relationship between the parties, the "seller" remained liable on notes with reference to the shares transferred, and the transfer might have been unenforceable under the statute of frauds.

(n77)Footnote 77. *Stella v. Graham-Paige Motors Corp.*, 132 F. Supp. 100 (S.D.N.Y. 1955), discussed in note 74 *supra*.

Sections 3(a)(13) and 3(a)(14) of the Exchange Act define a "purchase" and a "sale," respectively, to include a contract to purchase or sell. *See supra* notes 28 & 29.

See also Bershad v. McDonough, 428 F.2d 693, 697, C.C.H. Fed. Sec. L. Rep. P 92,683, p. 99,004 (7th Cir. 1970) , cert. denied, 400 U.S. 992 (1971) :

"The phrase 'any purchase and sale' in Section 16(b) is ... not to be limited or defined solely in terms of commercial law of sales and notions of contractual rights and duties."

(n78)Footnote 78. In *Portnoy v. Revlon*, Fed. Sec. L. Rep. (CCH) P 98,020 (7th Cir. 1981), an insider that pledged stock in support of a merger was held not to have sold stock until the closing of the merger rather than at the time of the execution of the merger agreement since the merger agreement contained several conditions precedent to closing, specifically:

- (1) receipt from the Internal Revenue Service of a ruling that the merger would qualify as a tax-free reorganization;
- (2) receipt of an opinion from an accounting firm that the merger would be treated as a pooling of interests for accounting purposes;
- (3) the exercise of appraisal rights by some stockholders;
- (4) the consummation of certain employment agreements; and
- (5) the consummation of noncompetition undertakings by certain stockholders.

Although the insider had no control over the consummation of the merger and the insider had completed whatever steps it could take for closing, the transaction was not finalized since there was no irrevocable commitment to exchange shares until these conditions were fulfilled. Fed. Sec. L. Rep. (CCH) at 98,275; *see also Staffin v. Greenberg*, 672 F.2d 1196 (3d Cir. 1982) (since defendant's proxy provided that his shares should be voted for or against the merger according to the wishes of the majority of other shareholders, he was not "irrevocably bound" to sell his shares to the acquiring corporation until the other shareholders approved the merger); *Kramer v. Ayer*, 317 F. Supp. 254 (S.D.N.Y. 1976) (purchase of stock occurred at time merger was complete rather than at the time of shareholder approval of the merger, since the merger agreement allowed either corporation to cancel the agreement until all acts necessary for the completion of the merger had been performed).

However, in *Provident Securities Co. v. Foremost-McKesson, Inc.*, 506 F.2d 601 (9th Cir. 1974), *aff'd on other grounds*, 423 U.S. 232 (1976), the court concluded that a sale had occurred upon the execution of a merger agreement, not at the time of closing, because the price was fixed thereby removing the potential to use inside information to manipulate the terms and conditions of the agreement, and there were only the usual conditions precedent to closing.

See also Morales v. Gulf Energy & Development Corp., Fed. Sec. L. Rep. (CCH) P 96,222 (D. Col. 1977) (purchase

of stock pursuant to agreement conditioning the transfer on the effective date of a registration statement occurred upon the effective date).

(n79)Footnote 79. *Stella v. Graham-Paige Motors Corp.*, 132 F. Supp. 100 (S.D.N.Y. 1955), discussed in note 74 *supra*.

(n80)Footnote 80. 334 F.2d 1 (1st Cir. 1964), *cert. denied*, 379 U.S. 961 (1965).

(n81)Footnote 81. *Booth v. Varian Associates*, 334 F.2d 1 (1st Cir. 1964) (emphasis in original). The seller's right to accelerate the date of closing indicated that the date of purchase was not the date of the execution of the contract. *Booth v. Varian Associates*, 334 F.2d at 5.

In *Riseman v. Orion Research, Inc.*, 749 F.2d 915 (1st Cir. 1984), the First Circuit distinguished its holding in *Varian*, and held that a director and 10% holder had "purchased" shares pursuant to an option for purposes of Section 16(b) when he paid for the shares on the last day of his directorship, and not seven months later when the share certificates were delivered to him, although he did not make the investment representation required under the option agreement (a condition precedent to the purchase and sale of shares was the optionee providing the issuer with a written representation that the shares acquired would be held for investment and not distributed). Since by tendering the purchase price the director sought to make the issuer's obligation to deliver the shares irrevocable and since the director alone had the power to satisfy the condition precedent, it would be inconsistent with the purposes of the Act to allow him to postpone his "purchase" date by deliberately refusing to comply with the terms of the option.

(n82)Footnote 82. 449 F. Supp. 425 (S.D.N.Y. 1978).

(n83)Footnote 83. *Kahansky v. Emerson Radio & Phonograph Corporation*, 184 F. Supp. 90 (S.D.N.Y. 1960); *see also* *Lewis v. Riklis*, 446 F. Supp. 582 (S.D.N.Y. 1978) (an agreement to transfer stock for an unsecured promissory note was not a sale under Section 16(b) when the alleged seller did not receive any payments on the note and had possession of the stock and title at the time of rescission); *Morales v. Gulf Energy & Development Corp.*, Fed. Sec. L. Rep. (CCH) P 96, 222 (D. Colo. 1977) (a second agreement to purchase shares rescinded rather than amended the first agreement to purchase when the first was not completed because of an inability to perform).

(n84)Footnote 84. *Volk v. Zlotoff*, 285 F. Supp. 650, (S.D.N.Y. 1968); *see also* *Lewis v. Mason*, Fed. Sec. L. Rep. (CCH) P 90,915 (S.D.N.Y. 1959) (agreement that gives a purchaser the right to rescind within two years of the sale is within Section 16(b) coverage since the agreement had been completed and a profit had been realized).

But see *Morales v. Great American Corp.*, 445 F. Supp. 869 (M.D. La. 1978) (rescinded sale was not a sale for the purposes of Section 16(b) since the defendant-officers had made a full account of the profits to the corporation and the rescission was not motivated by a desire to avoid liability under Section 16(b), *i.e.*, the sale was rescinded because relations between the buyers and sellers had become strained, there was an indication that some of the buyers might have difficulty paying installments as they came due on notes that were part of the purchase price, and the sale had become the subject of litigation that might have resulted in bad publicity for the issuer); *Hennesey v. Fein*, 184 F. Supp. 86 (S.D.N.Y. 1958) (purchases of stock that had been rescinded were not purchases for the purposes of Section 16(b) since they had been rescinded pursuant to a judicially approved settlement that was binding on the issuer and its shareholders and since there was no fraudulent intent to frustrate the purposes of the Exchange Act).

(n85)Footnote 85. *Smolowe v. Delendo Corp.*, 136 F.2d 231, 237 (2d Cir.), *cert. denied*, 320 U.S. 751 (1943); *see also* *Gratz v. Claughton*, 187 F.2d 46, 51 (2d Cir.), *cert. denied*, 341 U.S. 920 (1951); *Segen v. Westcliff Capital Mgmt. LLC*, 299 F.Supp. 2d 262, 268 (S.D.N.Y. 2004)

In *Herrmann v. Steinberg*, Fed. Sec. L. Rep. (CCH) P 92,748 (S.D.N.Y. 1986), the court held that in calculating short swing profits to be disgorged following an abandoned tender offer, the profits realized by the tender offeror for purpose

of Section 16(b) should be the selling price of the shares less the purchase price, and less expenses incidental to the purchase and sale such as brokerage commissions and transfer taxes. The court held that amounts reimbursed the tender offeror by the target to offset the offeror's fees to its attorneys, investment bankers and lenders should not be considered in computing the offeror's profits.

In *Herrmann v. Steinberg*, Fed. Sec. L. Rep. (CCH) P 93,136 (2d Cir. 1987), the court vacated and remanded the ruling of the Southern District of New York. Although the Court of Appeals did not take issue with the district court's conclusion that tender offer expenses such as fees to attorneys, investment bankers, and lenders should not be considered in computing the tender offeror's short swing profits, the district court was instructed to determine whether any part of the payment by the target to the tender offeror represented reimbursement for expenses incurred in the actual purchase of shares, or consideration for the sale by the tender offeror of its holdings of the target's shares, and to include in its computation of profits any amounts found to have been paid for those purposes.

In *Morales v. Consolidated Oil & Gas, Inc.*, Fed. Sec. L. Rep. (CCH) P 98,796 (S.D.N.Y. 1982), the court held that the maximizing profits principle prevented a reduction in the amount of profits to be disgorged by the defendant for a short-swing purchase and sale of stock although for tax purposes the defendant was deemed to have incurred incentive income in the transaction effectively raising his basis in the stock and resulting in a net tax loss on the transaction.

If an insider is held to be the beneficial owner of securities, see § 8.02[2][a] *supra*, he is liable for *all* profits made on transactions in those securities pursuant to Section 16(b). See *Walet v. Jefferson Lake Sulphur Co.*, 104 F. Supp. 20 (D. La. 1952), *aff'd*, 202 F.2d 433 (5th Cir.), *cert. denied*, 346 U.S. 820, (1953) (insider liable under Section 16(b) for all short-swing profits although under the community property law of Louisiana securities and profits made thereon belonged to the marital community); *Mouldings, Inc. v. Potter*, 465 F.2d 1101 (5th Cir. 1972), *cert. denied*, 410 U.S. 929 (1973) (although an insider designated others to whom profits would go to on his trading transactions, under Section 16(b) the profits were attributable to the insider in their entirety).

(n86)Footnote 86. *Smolowe v. Delendo Corp.*, 36 F.2d at 237.

As an example, assume that the insider bought 100 shares at \$30 on April 1, sold 200 shares at \$35 on June 1, sold 200 shares at \$38 on July 1, and bought 300 shares at \$34 on November 1. His profit would be computed as follows:

Sold 100 at \$38	3800	
Bought 100 at \$30	3000	
		800
Sold 100 at \$38	3800	
Bought 100 at \$34	3400	
		400
Sold 200 at \$35	7000	
Bought 200 at \$34	6800	
		200

TOTAL

—
1400

In *Gund v. First Florida Banks, Inc.*, 726 F.2d 682, (11th Cir. 1984), the court held that although the district court applied the method of computation used for calculating profits from sales of employee stock options under former Rule 16b-6(b) to the purchase and sale of securities, the result was consistent with the Exchange Act's remedial purpose. Accordingly, the court upheld the district court's award of damages, computed by matching the price paid for the common stock with the highest market price of the common stock within six months of when the debentures were sold.

See also *Morales v. Lukens, Inc.*, Fed. Sec. L. Rep. (CCH) P 91,676 (S.D.N.Y. 1984), in which short swing profits recoverable under Section 16(b) were calculated at the average price received by the tender offeror for all the stock purchased within a six month period rather than the highest price paid during the short swing period because the sales were part of an agreement to end the offeror's takeover bid and help facilitate the target's merger with a friendly bidder. Although the stock sales were treated as two separate parts for bookkeeping and appearance purposes, they were actually parts of one transaction. Therefore, the individual prices paid did not reflect the true sales prices and an averaging of the prices was the appropriate way to determine short swing profits.

(n87)Footnote 87. *Smolowe v. Delendo Corp.*, 136 F.2d at 237; *Gratz v. Claughton*, 187 F.2d at 50-51.

(n88)Footnote 88. *Blau v. Lamb*, 363 F.2d 507 (2d Cir. 1966), *cert. denied*, 385 U.S. 1002 (1967); *Makofsky v. Ultra Dynamics Corp.*, 383 F. Supp. 631 (S.D.N.Y. 1974).

(n89)Footnote 89. In *Reece Corp. v. Walco National Corp.*, Fed. Sec. L. Rep. (CCH) P 99,226 (S.D.N.Y. 1983), the court held that brokerage commissions incurred on short-swing stock purchases are deductible from the computation of profits realized, but legal fees incurred by the defendant when the plaintiff was attempting to prevent the defendant from purchasing the stock are not. The court also held that the defendant-insider was not entitled to a reduction in its profits realized on the sale of securities to the issuer for the value of the insider's covenants to take no action that might affect the control of the issuer or its management by tender offer, exchange offer, or otherwise since such apportionment of the price of the securities was inconsistent with the purpose of Section 16(b), *i.e.*, to squeeze all possible profits out of transaction coming within its scope.

See also *Blau v. Mission Corp.*, 212 F.2d 77 (2d Cir.), *cert. denied*, 347 U.S. 1016 (1954) (expenses of transfer are those actually incurred and not mere possibilities that might have been incurred had equivalent stock been sold); *Falco v. Donner Foundation, Inc.*, 208 F.2d 600 (2d Cir. 1953); *Allis-Chalmers Manufacturing Co. v. Gulf & Western Industries, Inc.*, 372 F. Supp. 570 (N.D. Ill. 1974), *rev'd in part and remanded*, 527 F.2d 335 (7th Cir. 1975), *cert. denied*, 423 U.S. 1078 (1976); *Arkansas Louisiana Gas Co. v. W.R. Stephens Investment Co.*, 141 F. Supp. 841 (W.D. Ark. 1976) (court included automobile, general overhead, office rent, office salaries, office supplies, postage, telephone, teletype, and telegraph expenses, but disallowed claimed expenses for the salaries of salesmen since no sales campaign was conducted to sell the securities in question).

However, *Lane Bryant, Inc. v. Hatleigh Corp.*, 517 F. Supp. 1196, (S.D.N.Y. 1981) the court refused to deduct from profits realized from purchases and sales in violation of Section 16(b), which were made in the course of a contest for control of the issuer:

(1) a bank's administrative charges for handling the defendant's account or its interest charges on loans which the defendant secured to finance the purchases;

(2) lawyers' fees and costs of litigation seeking control of the issuer; and

(3) office overhead for the six-month period involved

because to permit these deductions would encourage the type of transactions Section 16(b) seeks to deter.

In *Oliff v. Exchange International Corp.*, 449 F. Supp. 1277, (N.D. Ill. 1978), the court refused to reduce the judgment by the expenses incurred by the insider in conducting the purchase and sale, including attorney's fees arising in connection with a probate court proceeding, since to do so would frustrate the penal and remedial purposes of Section 16(b).

(n90)Footnote 90. *See, e.g., Marquette Cement manufacturing Co. v. Andreas*, 239 F. Supp. 962 (S.D.N.Y. 1965); *see also Allis-Chalmers Manufacturing Co. v. Gulf & Western Industries, Inc.*, 527 F.2d 335 (7th Cir. 1975), *cert. denied*, 423 U.S. 1078 (1976) (valuation of unregistered stock at 75% of volume-weighted average price of identical registered shares traded on New York Stock Exchange on the date of the sale).

But see Rule 16b-6(c)(2) (providing that for purposes of determining the purchase or sale price for a derivative security the market price of the underlying securities may be relied upon).

(n91)Footnote 91. *Blau v. Lehman*, 368 U.S. 403 (1962).

(n92)Footnote 92. Some courts require that the defendant carry the burden of proving good faith. *See Whittaker v. Whittaker Corp.*, 639 F.2d 516 (9th Cir. 1981).

(n93)Footnote 93. *See Gold v. Sloan*, 486 F.2d 340 (4th Cir. 1973), *cert. denied*, 419 U.S. 873 (1974) (interest not awarded since defendant did not act willfully); *Lewis v. Levinson*, Fed. Sec. L. Rep. (CCH) P 96,430 (S.D.N.Y. 1978) (award of prejudgment interest denied when insider was under the mistaken assumption that his sales had occurred more than six months before his purchases); *Oliff v. Exchange International Corp.*, 449 F.Supp. 1277 (N.D. Ill. 1978) (since violation of Section 16(b) was inadvertent, interest awarded from date of judgment and not from the date of the sale of the securities that resulted in the realization of short-swing profits); *Morales v. Gould Investors Trust*, 445 F. Supp. 1144 (S.D.N.Y. 1977), *aff'd*, 578 F.2d 1369 (2d Cir. 1978) (in the absence any showing of bad faith and in consideration of the unique relationships and transactions involved, *i.e.*, the transfer of equal number of shares between two family members who were trustees of a Massachusetts trust, the award of prejudgment interest was denied); *Volk v. Zlotoff*, 318 F. Supp. 864 (S.D.N.Y. 1970) (no prejudgment interest awarded since there was no substantial showing of bad faith or other inequitable conduct by the defendants); *Marquette Cement Manufacturing Co. v. Andreas*, 239 F.Supp. 962 (S.D.N.Y. 1965) (since the transaction was innocent, interest was not added to the judgment).

But see *Champion Home Builders Co. v. Jeffress*, 385 F. Supp. 245 (E.D. Mich. 1974) (interest granted from the date of the commencement of the suit regardless of whether the violation of Section 16(b) may have been inadvertent).

See also *Perfect Photo, Inc. v. Grabb*, 205 F. Supp. 569 (E.D. Pa. 1962) (interest awarded although there was no indication that the defendant acted in bad faith).

(n94)Footnote 94. *Whittaker v. Whittaker Corp.*, 639 F.2d 516 (9th Cir. 1981).

(n95)Footnote 95. *See Western Auto Supply Co. v. Gamble-Skogmo, Inc.*, 348 F.2d 736, C.C.H. Fed. Sec. L. Rep. P 91,556 (8th Cir. 1965), *cert. denied*, 382 U.S. 987 (1966); *Perfect Photo, Inc. v. Grabb*, 205 F.Supp. 569 (E.D. Pa. 1962).

See also *Lane Bryant, Inc. v. Hatleigh Corp.*, 517 F. Supp. 1196 (S.D.N.Y. 1981)(prejudgment interest not assessed since no substantial showing of bad faith or other inequitable conduct by defendant).

(n96)Footnote 96. *Lewis v. Realty Equities Corp.*, 396 F. Supp. 1026 (S.D.N.Y. 1975) (plaintiff not entitled to prejudgment interest when there was a three and one half year time lapse between the filing of the complaint and the summary judgment motion and there was no indication that the insider was responsible for the delay or that the plaintiff had an excuse for it); *Blau v. Lamb*, 242 F. Supp. 151 (S.D.N.Y. 1965), *aff'd in part, rev'd in part*, 363 F.2d 507 (2d Cir. 1966), *cert. denied*, 385 U.S. 1002 (1967) (plaintiff's claim for interest was inequitable considering the protracted litigation).

(n97)Footnote 97. *See e.g.*, *Whittaker v. Whittaker Corp.*, 639 F.2d 516 (9th Cir. 1981); *Stella v. Graham-Paige Motors Corp.*, 232 F.2d 299 (2d Cir.), *cert. denied*, 352 U.S. 831 (1956); *Blau v. Mission Corp.*, 212 F.2d 77 (2d Cir.) *cert. denied*, 347 U.S. 1016 (1954).

(n98)Footnote 98. In *Lane Bryant, Inc. v. Hatleigh Corp.*, 517 F. Supp. 1196, (S.D.N.Y. 1981), the court stated that an assessment of prejudgment interest would involve interest from either the date:

- (1) demand for repayment of profits realized was served, *i.e.*, the date of service of the complaint; or
- (2) the answer denying liability under Section 16(b) was filed.

The court, however, declined to award prejudgment interest.

See also *Champion Home Builders v. Jeffress*, 385 F.Supp. 245 (E.D. Mich. 1974); *Schur v. Salzman*, 365 F. Supp. 725 (S.D.N.Y. 1973); *Abbe v. Goss*, Fed. Sec. L. Rep. (CCH) P 95,319 (S.D.N.Y. 1975) (interest not allowed when most of profits realized on short-swing trades were paid to the issuer prior to service of the complaint).

(n99)Footnote 99. *Adler v. Klawans*, 267 F.2d 840 (2d Cir. 1959).

(n100)Footnote 100. *Blau v. Lamb*, 363 F.2d 507 (2d Cir. 1966), *cert. denied*, 385 U.S. 1002 (1967); *Cutler-Hammer, Inc. v. Leeds & Northrup Co., Inc.*, 469 F. Supp. 1021 (E.D. Wis. 1979).

(n101)Footnote 101. In *Blau v. Lamb*, the cash dividend received was only 30cent(s) per share, an increase of 5cent(s) per share on the regular quarterly dividend paid prior to the acquisition of the securities and was therefore excluded from the Section 16(b) recovery. 363 F.2d at 528. The issuer, however, was entitled to recover a 100% stock dividend declared near the time of the stock conversion since the dividend was substantial and coincided with the conversion. 363 F.2d at 527. In *Cutler-Hammer, Inc. v. Leeds & Northrup Co., Inc.*, quarterly dividends were 15cent(s) per share prior to the acquisition of the securities and 18cent(s) per share after the acquisition of the securities by the insider; the court held that the dividends were not recoverable. 469 F. Supp. at 1024.

See also *Allis-Chalmers Manufacturing Co. v. Gulf & Western Industries, Inc.*, 372 F. Supp. 570 (N.D. Ill. 1974), *rev'd in part and remanded*, 527 F.2d 335 (7th Cir. 1975), *cert. denied*, 423 U.S. 1078 (1976) (dividends are not profits realized from the purchase and sale of the securities, but rather from the holding of the stock in the manner of operational earnings or income).

(n102)Footnote 102. *Adler v. Klawans*, 267 F.2d 840 (2d Cir. 1959) (the dividends paid combined with the loss on the sale did not result in a profit); *Marquette Cement Manufacturing Co. v. Andreas*, 239 F. Supp. 962 (S.D.N.Y. 1965).

(n103)Footnote 103. *Western Auto Supply Co. v. Gamble-Skogmo, Inc.*, 348 F.2d at 744 (holding that interest on the dividends ran from the date of the sale of the stock, not the date on which the dividends were paid).

(n104)Footnote 104. *Mueller v. Korholz*, 449 F.2d 82 (7th Cir. 1971), *cert. denied*, 405 U.S. 922 (1972) (shares had a premium value of 20%); *Newmark v. RKO General, Inc.*, 425 F.2d 348 (2d Cir.), *cert. denied*, 400 U.S. 854 (1970) (15% of purchase price of securities added as a control premium); *Blau v. Lamb*, 242 F. Supp. 151 (S.D.N.Y.

1965), *aff'd in part, rev'd in part*, 363 F.2d 507 (2d Cir. 1966), *cert. denied*, 385 U.S. 1002 (1967) (premium of \$2.50 added to book value of \$6.00 per share).

See also Lewis v. The Dekcraft Corporation, Fed. Sec. L. Rep. (CCH) PP 94,855, 94,905 (S.D.N.Y. 1974) (no control premium added since there was no value attributable to the purchaser's grant of an irrevocable proxy to vote the controlling securities one year after the sale to the selling insider).

(n105)Footnote 105. Newmark v. RKO General, Inc., 425 F.2d at 357 (evidence of special value to the insider consisted of expert testimony on the value of obtaining legal control and 15% to 26% premiums on prior purchases of the issuer's stock that had been conferred on the purchaser.)

(n106)Footnote 106. Rule 16b-6(c)(2).

(n108)Footnote 108. *Id.*

(n109)Footnote 109. *But see* Gund v. First Florida Banks, Inc., 726 F.2d 682 (11th Cir. 1984) (court refused to reduce profit from trades in convertible notes to reflect that their price was being affected by the level of interest they paid and their maturity value, given that the conversion price was above the underlying common stock's price at the time of the transactions).

(n110)Footnote 110. Section 27.

(n111)Footnote 111. In Gilson v. Pittsburgh Forgings Co., 284 F. Supp. 569 (S.D.N.Y. 1968), the court concluded that the listing of the defendant company's stock on the New York Stock Exchange, the trading of its shares on the Exchange, and the defendant's appointment of a registrar and transfer agent in New York did not constitute transacting business in New York.

See also Allis-Chalmers Manufacturing Co. v. Gulf & Western Industries, Inc., 309 F. Supp. 75 (E.D. Wis. 1970) (corporation does not do business where its wholly-owned subsidiary does business as long as the subsidiary is a distinct corporate organization and that distinction is bona fide).

(n112)Footnote 112. Fred S. James Co., Inc. v. Rathmell, Fed. Sec. L. Rep. (CCH) P 98,749 (S.D.N.Y. 1982); Peyser v. Meehan Fund, Inc., 264 F. Supp. 1 (S.D.N.Y. 1966).

(n113)Footnote 113. *See* Abrams v. McDonough & Cudahy Company, Fed. Sec. L. Rep. (CCH) P 92,271 (S.D.N.Y. 1968) (preliminary communications occurring in, or the drawing of a check in payment on a bank located in, a district not sufficient to lay venue in that district); Rothenberg v. Silberman, 278 F. Supp. 116 (S.D.N.Y. 1968) (venue in New York not established by the retention of any telephone communications, correspondence, and visits with New York counsel with respect to the transaction).

Unlike Section 10(b), an action brought under Section 16(b) does not require proof of the use of the mails or interstate facilities. Therefore communications that may be essential for proof of the use of interstate facilities of an action under Section 10(b) are insufficient for that purpose to confer venue in a Section 16(b) proceeding. Allis-Chalmers Manufacturing Co. v. Gulf & Western Industries, Inc., 309 F. Supp. at 80; Rothenberg v. Silberman, 278 F. Supp. at 119.

For other differences between actions brought under Section 16(b) and Section 10(b), see *supra* note 8.

(n114)Footnote 114. In Rothenberg v. Silberman, the court stated in dictum that venue would be laid if some operative act constituting part of the purchase or sale occurred in the forum district, including the

2-8 Federal Securities Exchange Act of 1934 § 8.04

- (1) making and transmitting of an offer or order to purchase or sell the securities;
- (2) acceptance of the offer;
- (3) confirmation;
- (4) record transfer of the security;
- (5) delivery of the certificates;
- (6) payment; and
- (7) execution by the parties of the purchase and sale instruments.

278 F. Supp. at 119. This dictum was expressly rejected by the court in *Allis-Chalmers Manufacturing Co. v. Gulf & Western Industries, Inc.*, in which venue was held to be limited to the district in which the transaction was consummated. The court concluded that the solicitation, tender, and consummation of a stock exchange offer and the registration of warrants and debentures used in the exchange in Wisconsin did not constitute a purchase of the stock there. 309 F. Supp. at 81.

(n115)Footnote 115. *Gratz v. Claughton*, 187 F.2d 46 (2d Cir.), *cert. denied*, 341 U.S. 920 (1951); *Roth v. The Fund of Funds, Ltd.*, 279 F. Supp. 935 (S.D.N.Y.), *aff'd*, 405 F.2d 421 (2d Cir. 1968), *cert. denied*, 394 U.S. 975 (1969).

(n116)Footnote 116. *Morales v. Gearhart-Owen Industries, Inc.*, Fed. Sec. L. Rep. (CCH) P 95,922 (S.D.N.Y. 1977); *Blau v. Tool Research & Engineering Corp.*, 330 F. Supp. 1374 (S.D.N.Y. 1971).

For discussion of an action for recovery of attorney's fees, see § 8.04[8] *infra*.

(n117)Footnote 117. The request is usually made by a letter to the corporation listing the transactions that are in violation of Section 16(b). *Cook & Feldman, Insider Trading Under the Securities Exchange Act*, 66 Har. L. Rev. 385, 412 (1953).

However, in *Jones v. Fremont Energy Corporation*, 537 F. Supp. 300, (D. Col. 1982), the court tolled the sixty day period after the plaintiff's initial demand on the issuer to bring suit under Section 16(b) from the date of the issuer's letter to the plaintiff indicating insufficient information of the plaintiff's shareholder identity until the plaintiff responded with information as to her true shareholder identity.

(n118)Footnote 118. A corporation that was nominally a defendant could change to a plaintiff in a Section 16(b) suit to ensure vigorous prosecution of the suit when it believed that the security holder who instituted the suit was not diligent, although at the time the change in status from defendant to plaintiff was sought, the corporation was barred by the statute of limitations from bringing a new and separate action. *Silverman v. Re*, 194 F. Supp. 540 (S.D.N.Y. 1961).

(n119)Footnote 119. *Weisman v. Spector*, 158 F. Supp. 788 (S.D.N.Y. 1958) .

(n120)Footnote 120. *Abbe v. Goss*, 411 F. Supp. 923 (S.D.N.Y. 1975); *Netter v. Ashland Paper Mills*, 19 F.R.D. 529 (S.D.N.Y. 1956); *Henss v. Schneider*, 132 F. Supp. 60 (S.D.N.Y. 1955); *Benisch v. Cameron*, 81 F. Supp. 882 (S.D.N.Y. 1948); *Grossman v. Young*, 72 F. Supp. 375 (S.D.N.Y. 1947).

Although a corporation must be granted the right to conduct litigation on its own behalf, Section 16(b)'s provision for security holder standing recognizes that a corporation will generally be reluctant to sue its directors, officers, and principal shareholders. *Pellegrino v. Nesbit*, 203 F.2d 463 (9th Cir. 1953).

(n121)Footnote 121. *Morales v. Mylan Laboratories*, 443 F. Supp. 778 (W.D. Pa. 1978) ; *Benisch v. Cameron*, 81 F.Supp. 882 (S.D.N.Y. 1948).

(n122)Footnote 122. *See Park & Tilford v. Schulte*, 160 F.2d 984 (2d. Cir.), *cert. denied*, 332 U.S. 761 (1947); *Twentieth Century-Fox Film Corp. v. Jenkins*, 7 F.R.D. 197 (S.D.N.Y. 1947).

See also Miracle Mart, Inc. v. Margolis, 46 F.R.D. 458 (D. Mass. 1968) (proposed intervenor need not show conclusively that the issuer has been less than diligent in prosecuting action); *Nedick's Stores, Inc. v. Genis*, 34 F.R.D. 235 (S.D.N.Y. 1963)(intervention permitted on basis that representation of intervenor's interest by issuer might not be adequate notwithstanding the issuer's statement that the claims of the proposed intervenor had been rejected as being without merit); *Molybdenum Corp. of America v. International Mining Corp.*, 32 F.R.D. 415 (S.D.N.Y. 1963) (intervention permitted although the Section 16(b) action appeared to have been instituted on the issuer's own initiative); *Pellegrino v. Nesbit*, 203 F.2d 463 (9th Cir. 1953) (stockholder intervention for the purpose of perfecting an appeal from a trial court judgment granted when that judgment raised important and substantial questions of law relating to the correctness of the judgment).

But see Heit v. Gulf & Western Industries, Inc., 321 F. Supp. 921 (D. Del. 1971) (time lapse of 81 days between the date of demand by security holder to sue and date that issuer brought Section 16(b) action insufficient to show lack of diligence on issuer's part); *Arthur G. McKee & Company v. Gulf & Western Industries, Inc.*, 52 F.R.D. 332 (D. Del. 1971) (intervention not granted when it was not proposed until two years after corporation filed suit and there was no evidence of a lack of diligence by the corporation in prosecuting the suit or the possibility of inadequate representation).

Some commentators have argued that Section 16(b) grants security holders an absolute right to intervene without complying with the requirements of the Federal Rules of Civil Procedure for intervention, although the courts have not yet accepted this proposition. *Cook & Feldman, Insider Trading Under the Securities Exchange Act*, 66 *Har. L. Rev.* 385, 414-15 (1953):

"The many opportunities for less than vigorous prosecution in the course of litigation, the amicable nature of many section 16(b) claims by a corporation against its own officers and directors, the possibility of subtle conflicts of interest, and the public enforcement of the sanction all require free intervention by minority interests."

(n123)Footnote 123. *Pellegrino v. Nesbit*, 203 F.2d 463 (9th Cir. 1953).

See also Grynberg v. Farmer, Fed. Sec. L. Rep. (CCH) P 97,683 (D. Col. 1980) (a shareholder's Section 16(b) action could not be dismissed by a special litigation committee of the issuer acting with reasonable business judgment because the members of the committee were biased in favor of the defendant-directors).

(n124)Footnote 124. Since Congress left the enforcement of Section 16(b) to private parties, the Commission's staff will not take no-action or interpretive positions on the scope of liability under Section 16(b). *Sec. Exch. Act Rel. No. 34-18114*, Fed. Sec. L. Rep. (CCH) P 26,062 (1981).

(n125)Footnote 125. *Mendell v. Gollust*, 909 F.2d 724, 728 (2d Cir. 1990); *Dottenheim v. Murchison*, 227 F.2d 737 (5th Cir. 1955), *cert. denied*, 351 U.S. 919 (1956); *Blau v. Mission Corp.*, 212 F.2d 77 (2d Cir.), *cert. denied*, 347 U.S. 1016 (1954); *Pellegrino v. Nesbit*, 203 F.2d 463 (9th Cir. 1953); *Morales v. Great American Corp.*, 445 F. Supp. 869 (M.D. La. 1978); *Blau v. Oppenheim*, 250 F. Supp. 881 (S.D.N.Y. 1966); *Blau v. Albert*, 157 F. Supp. 816

(S.D.N.Y. 1957); *Benisch v. Cameron*, 81 F. Supp. 882 (S.D.N.Y. 1948).

Rule 23.1 of the Federal Rules of Civil Procedure applies to derivative actions. Section 16(b) grants a primary right of action to security holders of the issuer. *Blau v. Oppenheim*, 250 F. Supp. 881 (S.D.N.Y. 1966).

(n126)Footnote 126. *Morales v. Great American Corp.*, 445 F.Supp. 869 (M.D. La. 1978); *see also Magida v. Continental Can Co.*, 231 F.2d 843 (2d Cir.), *cert. denied*, 351 U.S. 972 (1956) (alleged collusive arrangement between a stockholder and his attorney would not defeat a Section 16(b) action since the relationship could not defeat the rights of the corporation or its stockholders).

(n127)Footnote 127. *Pellegrino v. Nesbit*, 203 F.2d 463 (9th Cir. 1953); *Twentieth Century-Fox Film Corp. v. Jenkins*, 7 F.R.D. 197 (S.D.N.Y. 1947).

(n128)Footnote 128. *Blau v. Lamb*, 314 F.2d 618 (2d Cir.), *cert. denied*, 375 U.S. 813 (1963) (the court concluded that "owner of any security" was not limited to a beneficial owner, instead implying a broader meaning to carry out the remedial purpose of the statute).

(n130)Footnote 130. *Western Auto Supply Co. v. Gamble-Skogmo, Inc.*, 348 F.2d 736 (8th Cir. 1965), *cert. denied*, 382 U.S. 987 (1966)).

(n131)Footnote 131. *Epstein v. Shindler*, 200 F. Supp. 836 (S.D.N.Y. 1961).

(n132)Footnote 132. Fed. Sec. L. Rep. (CCH) P 96,045 (S.D.N.Y.), *aff'd*, 573 F.2d 1295 (2d Cir. 1977) .

(n133)Footnote 133. *See also Portnoy v. Kawecky Berylco Industries, Inc.*, 607 F.2d 765 (7th Cir. 1979).

(n134)Footnote 134. *Gollust v. Mendell*, 501 U.S. 115, (1991).

In *C.R.A. Realty Corp. v. American Express*, Fed. Sec. L. Rep. (CCH) P 91,528 (S.D.N.Y. 1984), the court held that unless further discovery shows that a wholly owned subsidiary has survived as a separate corporation, a shareholder of the parent corporation has standing to bring suit against a former director of an issuer that became the subsidiary of the company pursuant to a merger for short-swing profits in violation of Section 16(b), even though the shareholder did not own the subsidiary's stock, since, under *Blau*, the term issuer could be interpreted to include the subsidiary's successor in interest.

See also Schur v. Salzman, 365 F. Supp. 725 (S.D.N.Y. 1973) (successor corporation in a merger succeeded to the assets of the issuer, including the chose in action based on the Section 16(b) claim; plaintiff security holder of issuer who became a security holder of the successor upon the merger not required to file a new demand on the successor corporation); *Western Auto Supply Co. v. Gamble-Skogmo, Inc.*, 348 F.2d 736 (8th Cir. 1965), *cert. denied*, 382 U.S. 987 (1966). (Section 16(b) cause of action survived the absorption of the issuing corporation and was properly exercisable by the surviving corporation).

However in *Lewis v. McAdam*, 762 F.2d 800, Fed. Sec. L. Rep. (CCH) P 92,072 (9th Cir. 1985) , the court, rejecting the *Blau* doctrine, held that a shareholder of a parent corporation who never held stock in either the acquired company or the acquiring company, a wholly owned subsidiary of the parent corporation, lacked standing to bring an action for short-swing profits under Section 16(b) against a director of the corporation acquired by the subsidiary of the parent where the subsidiary was the surviving corporation since

(1) the parent was not an issuer within the meaning of Section 16(b); and

(2) any rights against the directors of the acquired company were, inherited upon merger by the surviving subsidiary into which the acquired company was merged.

See also *Bunker Ramo-Eltra Corp. v. Fairchild Industries, Inc.*, 639 F.Supp. 409 (D. Md. 1986) (successor by merger to an original issuer of securities has standing to assert any claim under Section 16(b) that the original issuer could have asserted).

See also *Untermeyer v. Valhi, Inc.*, Fed. Sec. L. Rep. (CCH) P 93,690 (2nd Cir. 1988) (court found that shareholder of parent does not have standing in action for recovery of short-swing profits on behalf of either the parent or the subsidiary with respect to transactions on stock of the subsidiary and said such ruling is consistent with *Blau* where issuer was merged out of existence).

See also, *Mendell v. Gollust*, Fed. Sec. L. Rep. (CCH) P 94,086 (S.D.N.Y. 1988).

(n135)Footnote 135. *Gollust v. Mendell*, 111 S. Ct. at 2179. In *Portnoy v. Kaweck Berylco Industries, Inc.*, the court stated that because the issuer still existed, its sole shareholder was the only person with standing to bring a Section 16(b) action. The court conceded, however, that the sole shareholder was unlikely to bring a Section 16(b) action since among other things, it was on the purchasing end of the short-swing transaction. 607 F.2d at 769.

(n136)Footnote 136. For discussion of the time a purchase or sale occurs for purposes of Section 16(b), see § 8.04[3][a] *supra*.

(n137)Footnote 137. *Whittaker v. Whittaker Corp.*, 639 F.2d 516 (9th Cir. 1981); *Roth v. Reyes*, 2007 U.S. Dist. LEXIS 14532, at *12 (N.D. Cal. Feb. 13, 2007) *Shattuck Denn Mining Corp. v. LaMorte*, Fed. Sec. L. Rep. (CCH) P 94,429 (S.D.N.Y. 1974); *Blau v. Albert*, 157 F. Supp. 816 (S.D.N.Y. 1957); *Grossman v. Young*, 72 F. Supp. 375 (S.D.N.Y. 1947).

The court in *Whittaker*, reasoned that the main source of information for individual shareholders to bring an action under Section 16(b) is the reports filed under Section 16(a); to hold otherwise would reward violations of the statute. 639 F.2d at 528. In addition, the court rejected an interpretation of Section 16 whereby the statute of limitations would be tolled until the time the short-swing trades were discovered or should have been discovered since this interpretation would undermine the mechanistic functioning of Section 16(b). 639 F.2d at 528-29.

However, in *Carr-Consolidated Biscuit Company v. Moore*, 125 F. Supp. 423 (M.D. Pa. 1954), the court refused to toll the statute of limitations for a failure by the insiders to file reports required by Section 16(a). The court in *Whittaker* distinguished *Carr-Consolidated* on the basis that the *Carr-Consolidated* decision relied on a theory, since discarded by the United States Supreme Court in *American Pipe & Construction Co. v. Utah*, 414 U.S. 538 (1974), that substantive statutes of limitation are entitled to literal, strict application by the courts and cannot be tolled. 639 F.2d at 529.

See *Kay v. ScienTex Corp.*, 719 F.2d 1009 (9th Cir. 1983) (failure to file insider reports does not toll statute of limitations where information regarding insider's trading was known, *i.e.*, since the moving party was the issuer of stock allegedly sold in violation of Section 16, its own records contained the information that should have been disclosed in insider reports under Section 16(a)); see also *Rogers v. Valentine*, 37 F.R.D. 231 (S.D.N.Y. 1964) (the failure of an insider to file reports does not affect the requirement that the matched pair of transactions occur within a period of less than six months).

For discussion of the reporting requirements under Section 16(a), see § 8.03[2][b] *supra*.

(n138)Footnote 138. *Colan v. Monumental Corp.*, 524 F. Supp. 1023 (N.D. Ill. 1981) (since the demand requirement of Section 16(b) is designed to benefit the corporation and the public interest, insider-defendants lacked

standing to complain of any deficiencies in the demand made by the plaintiff upon the corporation's directors); *Prager v. Sylvestri*, 449 F. Supp. 425 (S.D.N.Y. 1978); *Morales v. Mylan Laboratories*, 443 F. Supp. 778 (W.D. Pa. 1978); *Schur v. Salzman*, 365 F. Supp. 725 (S.D.N.Y. 1973); *Benisch v. Cameron*, 81 F. Supp. 882 (S.D.N.Y. 1948); *Grossman v. Young*, 72 F.Supp. 375 (S.D.N.Y. 1947).

(n145)Footnote 145. In *Epstein v. Shindler*, 26 F.R.D. 176 (S.D.N.Y. 1960), the court did not permit defendant's claim for sums allegedly due for past services rendered to the issuer, since it would not be in the interest of the policy of Section 16(b) to discourage security holders from bringing actions under the statute by confronting them with the possibility of having to defend claims against the issuer for conduct unrelated to the action brought. The court stated that the policy of Rule 13 of the Federal Rules of Civil Procedure, of avoiding a multiplicity of actions through the use of permissive counterclaims, should not be extended in this case to thwart the substantive policies of Section 16(b). 26 F.R.D. at 178-79.

(CCH) P 97,325 (S.D.N.Y. 1980); *Olin v. Ginsberg*, Fed. Sec. L. Rep. (CCH) P 92,872 (S.D.N.Y. 1970); *Blau v. Kagan*, Fed. Sec. L. Rep. (CCH) P 92,119 (S.D.N.Y. 1968).

See also *Peyser v. Meehan Fund*, 271 F. Supp. 271 (S.D.N.Y. 1967) (valuation of stock must be determined before a settlement may be found to be fair).

(n147)Footnote 147. *See* *Lewis v. Levinson*, Fed. Sec. L. Rep. (CCH) P 96,430 (S.D.N.Y. 1978) (potential liability two and a half times greater than settlement amount indicates that the settlement was not the result of compromise).

(n148)Footnote 148. See *Morales v. Holiday Inns, Inc.*, Fed. Sec. L. Rep. (CCH) P 94,219 (S.D.N.Y. 1973) (settlement for 70% of maximum potential recovery not approved when the defendant, a vice-president of the issuer, contended that he was not an officer for the purposes of Section 16(b), since this defense was not sufficiently substantial considering the defendant had access to inside information with respect to the financial and operational performance of establishments owned by the issuer; waiver of interest on a potential recovery, however, was permitted since legal expenses were saved and the court was willing to give some credence to the defense); *Lewis v. Wells*, 325 F. Supp. 382 (S.D.N.Y. 1971) (although counsel for the issuer waived its fee, estimated at 20% of recovery, a settlement for 82% of the profits realized by the defendants not approved when there was no substantial defense to recovery); *Pappas v. Moss*, 257 F. Supp. 345 (D.N.J. 1966), *rev'd and remanded on other grounds*, 393 F.2d 865 (3d Cir. 1968) (settlement for an amount substantially less than the amount that would be recoverable under Section 16(b) not approved as against public policy).

See also *Morales v. Geothermal International, Inc.*, Fed. Sec. L. Rep. (CCH) P 98,038 (S.D.N.Y. 1981) (settlement approved after the court weighed the probability of recovery against the benefit of the proposed settlement agreement); *Matas v. Siess*, Fed. Sec. L. Rep. (CCH) P 97,325 (S.D.N.Y. 1980) (court approved settlement after finding that the settlement had been negotiated at arms length after completion of substantial discovery, the plaintiff had substantial obstacles to overcome, and the defendant had several defenses); *Schimmel v. Goldman & Banner Industries, Inc.*, Fed. Sec. L. Rep. (CCH) P 93,736 (S.D.N.Y. 1973) (settlement for 72% of possible maximum amount recoverable approved since defendant's contention that he was not an officer for purposes of Section 16(b), although he was a titular vice-president, may have had merit).

But see *Blau v. Kagan*, Fed. Sec. L. Rep. (CCH) P 92,119 (S.D.N.Y. 1968) (court approved settlement of \$28,001 out of a maximum total potential recovery of \$42,404, finding the settlement to be fair, adequate, and reasonable since long, protracted, and expensive litigation would be avoided and the issuer and its officers would be permitted to devote their attention to the issuer's business); *Blau v. Allen*, 171 F. Supp. 669 (S.D.N.Y. 1959) (settlement of \$45,000 out of maximum total potential recovery of \$75,000 approved).

(n149)Footnote 149. *Blau v. Hodgkinson*, 100 F. Supp. 361 (S.D.N.Y. 1951) (the court emphasized that the potential liability amounted to ten times the settlement payment made).

But see *National Westminster Bancorp NJ v. Leone*, Fed. Sec. L. Rep. (CCH) P 94,301 (D.N.J. 1988) (issuer could not recover claimed short-swing profits from director and her family in trades allegedly made upon inside information where SEC had already brought and settled by consent judgment an action for disgorgement in connection with which the defendants had been required to pay a civil penalty).

(n150)Footnote 150. In *Kaplan v. Lipman*, Fed. Sec. L. Rep. (CCH) P 92,732 (S.D.N.Y. 1970); *Blau v. Brown & Western Nuclear, Inc.* Fed. Sec. L. Rep. (CCH) P 92,263 (S.D.N.Y. 1968), the courts reasoned that settlements of Section 16(b) claims were similar enough to settlements of class actions for the notice and opportunity for a hearing requirements in settlements of class actions to be applied to Section 16(b) claims.

(n151)Footnote 151. See *e.g.*, *Smolowe v. Delendo Corp.*, 136 F.2d 231 (2d Cir.), *cert. denied*, 320 U.S. 751 (1943) (a corporation that has received the benefit of an attorney's services should pay for the reasonable value of them); *FTR Consulting Group, Inc. v. Advantage Fund II, Ltd.*, 2005 U.S. Dist. LEXIS 20013, at 8 (S.D.N.Y. Sept. 13, 2005).

(n152)Footnote 152. *Blau v. Rayette-Faberge, Inc.*, 389 F.2d 469 (2d Cir. 1968); *Gilson v. Chock Full O' Nuts Corp.*, 331 F.2d 107 (2d Cir. 1964); *Lewis v. L.B. Nelson Corp.*, Fed. Sec. L. Rep. (CCH) PP 97,554, 97,621 (S.D.N.Y. 1980).

(n153)Footnote 153. *Cook & Feldman, Insider Trading Under the Securities Exchange Act*, 66 *Har. L. Rev.* 385, 421 (1953).

See, e.g., Morales v. Geothermal International, Inc., Fed. Sec. L. Rep. (CCH) P 98,038 (S.D.N.Y. 1981) (attorney's fees granted at rate of \$88 per hour); Matas v. Siess, Fed. Sec. L. Rep. (CCH) P 97,325 (S.D.N.Y. 1980) (37% of profits recovered awarded for attorney's fees); Blau v. Kagan, Fed. Sec. L. Rep. (CCH) P 92,119 (S.D.N.Y. 1968) (attorney's fees amounting to 20% of profits recovered); Blau v. Brown & Western Nuclear, Inc., Fed. Sec. L. Rep. (CCH) P 92,263 (S.D.N.Y. 1968) (attorney entitled to a \$7500 fee out of \$38,000 profits recovered although the services performed by the attorney were brief and uncomplicated, i.e., it was indicated that only thirty hours of time was needed on the case).

But see Blau v. Allen, 171 F.Supp. 669 (S.D.N.Y. 1959) (attorney's fees amounting to 40% of settlement seemed exorbitant).

In Blau v. Berkey and Berkey Photo, Inc., Fed. Sec. L. Rep. (CCH) P 92,264 (S.D.N.Y. 1968) and *Blau v. Brown & Western Nuclear, Inc.*, Fed. Sec. L. Rep. (CCH) P 92,263 (S.D.N.Y. 1968); the court emphasized that the most important factor in its determination of a reasonable attorney's fee was the corporation's windfall benefit that resulted directly from the plain tiff bringing the claim shortly before the statute of limitations had run.

But see Portnoy v. XTAL., 638 F. Supp. 489 (N.D. Ill. 1986), in which the court refused a claim for plaintiff's attorney's fees in the amount of approximately \$5,000, where a settlement agreement was reached under which the alleged insider would pay the issuer \$15,000, and the issuer would reimburse the insider for his attorney's fees. In the court's view, assuming that the insider's attorneys would also claim fees of approximately \$5,000, the proceeds remaining for the issuer, after payment of both fees, would be negligible.

CHAPTER 8 Insider Reporting and Short-Swing Trading

2-8 Federal Securities Exchange Act of 1934 § 8.05

AUTHOR: Elliot Cohen Tim Mast Robert M. Carmen Jaime Theriot Marvin G. Pickholz Alan H. Aronson

§ 8.05 Prohibition of "Short Sales" and Restrictions on "Short Sales Against the Box" and Delayed Deliveries--Section 16(c)

Under Section 16(c), an insider is prohibited from engaging in "short sales" (selling equity securities of his company that he does not own at the time of the sale) and is subject to strict time limitations within which to deliver shares or deposit them for delivery following a sale, unless the required delivery would cause undue inconvenience or expense. The time limitations applicable to deliveries severely limit an insider's ability to engage in "short sales against the box" (selling equity securities that he owns but delivering borrowed securities to the buyer). Transactions involving options and other derivative securities entitling or obligating an insider to sell equity securities may represent "sales" subject to Section 16(c)'s restrictions, but whether the reverse situation--sales of actual equity securities at a time when the insider has a right to acquire the equity securities through exercise or conversion of derivative securities--represents a prohibited "short sale" under Section 16(c) is uncertain.

Section 16(c) prohibits any director, officer, or 10 percent shareholder subject to Section 16 n1 from selling, directly or indirectly, any equity security of the issuer (other than an exempt security) if the insider or his principal

(1) does not own the security sold n2; or

(2) owns the security sold but does not deliver it within twenty days after the sale, or does not deposit it in the mails or other usual channel of transportation within five days after the sale, n3 unless the insider or his principal can show

(a) that in good faith he was unable to make the delivery within twenty days or the deposit within five days; or

(b) that to make the delivery within twenty days or the deposit within five days would cause undue inconvenience or expense. n4

Section 16(c) sets forth an outright prohibition on insiders' sales of equity securities that are not owned or are not

delivered or deposited within the prescribed times. In contrast, Section 16(b) prohibits nothing, instead making insiders liable for disgorgement of "profits" from short-swing transactions. n4.1 Accordingly, violations of Section 16(c) are subject to enforcement action by the Commission or even criminal prosecution while, under Section 16(b), the Commission has no authority to bring any enforcement action. n5 Courts have held that there is not a private right of action under Section 16(c). n6

[1] "Short Sales"

Section 16(c)(1) prohibits an insider from selling an equity security that he (or his principal) does not own at the time of the sale, *i.e.*, engaging in a "short sale." n7 Section 16(c) does not, however, preclude an insider from selling securities as an agent for another party that in fact owns a number of equity securities at least equal to the number sold. n8

Section 16(c)(1) requires only that the insider "own" the equity securities sold, so that an ownership interest in equity securities that does not rise to the level of "beneficial ownership" required to be reported under Section 16(a) may be enough to permit an insider to enter into a sale of such securities. For example, in *Fuller v. Dilbert*, n9 the court held that, for purposes of Section 16(c), legatees under a will "owned" stock bequeathed to them even though legal ownership of such stock was vested in executors, the legatees' ultimate receipt of the stock was subject to their paying substantial estate taxes, and the legatees had never reported "beneficial ownership" of the legacy shares on a Form 4. n10 Whether Section 16(c)'s ownership requirement is satisfied if the insider has a right to acquire the equity security being sold is discussed in *Section 8.05[3]* below.

Section 16(c)(1) prohibits an insider from entering into a sale of equity securities if he does not "own" such securities, but it does not prohibit the insider from delivering "borrowed" equity securities--that is, equity securities other than the ones that the insider owns--to settle the sale. n11 Thus, Section 16(c)(1) does not itself forbid "short sales against the box," in which the insider, though owning the equity securities sold, delivers borrowed equity securities rather than his own. n12 Of course, as discussed in *Section 8.05[2]* below, Section 16(c)(2) imposes separate requirements that strictly limit an insider's ability to satisfy obligations under a sales contract by delivery of "borrowed" shares. n13

[2] "Short Sales Against the Box" and Delayed Delivery

Section 16(c)(2) prohibits an insider from selling an equity security if he (or his principal) owns the security but does not deliver it within twenty days after the sale, or does not deposit it in the mails or other usual channel of transportation within five days after the sale, except in specified circumstances (discussed below). n14 This provision is intended to prevent an insider from entering a contract for the sale of stock while keeping the stock registered in his name for an extended period to conceal the change in his holdings, n15 or from settling the sale by delivering, twenty or more days after the sale, stock purchased after the sale at a price lower than the sale price. n16

Section 16(c)(2) permits "short sales against the box," but severely limits an insider's ability to make use of this technique. A "short sale against the box" is one in which the seller owns an amount of securities equal to the number he sells short but nevertheless asks his broker to borrow the necessary number of shares to deliver to the buying broker; the seller later will cover his short position by directing his broker either to replace the borrowed securities with the ones owned all along by the seller or to purchase securities in the market to replace the borrowed securities. n17 Under Section 16(c), an insider may execute a sale and have his broker deliver borrowed shares, but he must deliver the securities that he owns to close out the short position within twenty days or deposit such securities in the mails or other usual channel of transportation within five days in order to comply with Section 16(c)(2). n18 Obviously, this requirement strictly limits the period in which an insider may be "short" issuer securities "against the box."

Although the Commission and its staff have generally focused on Section 16(c)(2) as it affects open-market transactions executed through brokers--the typical situation in which "short" sales may occur--the provision's prompt delivery requirement also applies to transactions not effected through a broker or in a trading market. Thus, insiders who contract

to sell equity securities privately generally may not delay delivery beyond the twenty-day delivery or five-day deposit period. The issue that will arise is whether contract terms that do not themselves require delivery of the equity securities for more than twenty days can relieve the insider of the obligation imposed by Section 16(c)(2).

An insider is not subject to Section 16(c)(2)'s twenty-day delivery/five-day deposit requirements if he or his principal can show that "in good faith he was unable to make such delivery or deposit within such time or that to do so would cause undue inconvenience or expense." n19 The courts have generally concluded that sales contracts that explicitly provided for delivery more than twenty days after the date of the contract do not violate Section 16(c)(2) because the insider is "unable" to deliver in good faith or because earlier delivery would cause "undue inconvenience or expense." n20

[3] Derivative Securities Under Section 16(c)

As a result of the Commission's adoption of the new rules under Section 16 that became effective May 1, 1991, n21 the treatment of options, warrants, and other derivative securities n22 under Section 16(c) has become more unsettled. Two distinct questions can arise:

- (1) Does Section 16(c) forbid an insider from "writing" a derivative security obligating or permitting the insider to sell equity securities if he does not own the number of equity securities which he may be required to deliver or if delivery will occur more than twenty days after the contract is entered into?
- (2) Does an insider's right to acquire equity securities by exercise of a derivative security represent "ownership" of such equity securities so that a sale of not more than that number of equity securities by the insider would not be deemed a "short sale" in violation of Section 16(c)(1)?

[a] Status of Acquisitions of Derivative Securities as Sales for Purposes of Section 16(c). An insider engaging in certain derivative securities transactions may acquire the legal obligation or right to sell equity securities of the issuer. For example, the insider may "write" a call option, which would obligate the insider to sell equity securities to the person who holds the option at a specified price during the term of the option. n22.1 Similarly, the insider might acquire a put option, which would give the insider the right to sell equity securities to the person who "wrote" the option at a specified price during the term of the option. n23

An insider's obligation or right to sell equity securities under a derivative security would appear to come within the broad definition of the term "sale" under the Exchange Act. Section 3(a)(14) of the Exchange Act provides that "[t]he terms 'sale' and 'sell' each include any contract to sell or otherwise dispose of."

Despite the breadth of the definition of the term "sale," in *Silverman v. Landa* n24 a district court and court of appeals concluded that an insider who had written both put option and a call option (a "straddle") had not engaged in a sale for purposes of Section 16(c). The district court reasoned that, although a call option might appear to fall within the general definition of the term "sale," that definition would not apply if "the context otherwise required" (quoting the introductory language of Exchange Act Section 3(a)); the "context" under Section 16(c) required that a call option be viewed only as an irrevocable offer to sell that would not become a "sale" until the option was exercised. n25 The court of appeals likewise concluded that the call option did not represent a "sale" under Section 16(c), based on prior holdings that a "sale" does not occur for Section 16(b) purposes until the insider's rights and obligations become fixed, which in the context of options was deemed to occur upon exercise. n26

Of course, for purposes of Section 16(b), the Commission's 1991 Section 16 rules turned on its head the traditional view of the courts that no "sale" occurs until an option is exercised. n26.1 In order to overrule the courts, the Commission adopted Rule 16b-6(a), which states in pertinent part:

The establishment of or increase in a call equivalent position or liquidation of or decrease in a put equivalent position shall be deemed a purchase of the underlying security for purposes of Section 16(b) of the Act, and the establishment of or increase in a put equivalent position or liquidation of or decrease in a call equivalent position shall be deemed a sale of the underlying securities for purposes of Section 16(b) of the Act... .

For reasons not explained by the Commission, neither Rule 16b-6(a) nor any other rule overrules the holdings of *Silverman v. Landa* with respect to whether derivative securities will be deemed a "sale" for purposes of Section 16(c). The Commission did, however, clearly indicate that it thought it was treating acquisitions of put equivalent positions as "sales" for purposes of Section 16(c). n27 In proposing Rule 16c-4, the Commission stated:

The proposed treatment of derivative securities is intended to subject derivative securities to the short sale prohibitions of section 16(c). The potential for abuse is not less when insiders establish put equivalent positions, rather than selling short underlying securities. Indeed, options were instrumental to insiders in the notorious "bear raids" of the early 1930's. A reading of the legislative history indicates the Congress did not want insiders, with access to inside information, speculating in their company's stock by acquiring short positions. Further, Congress did not want insiders to take short positions in conflict with their fiduciary duties, because insiders could use short positions to manipulate a stock price or to profit by a fall in the price of their company's stock. Derivative securities can be used to establish a short position, even where the insider has large stock holdings. The proposed rule thus would ensure that an insider does not have an economic interest in the poor performance of the issuer's stock. n28

The Commission was mistaken as to the effect of its adoption of Rule 16c-4 in 1991. n29 Rule 16c-4 merely provides an exemption from Section 16(c) for "establishing or increasing a put equivalent position ... so long as the amount of securities underlying the put equivalent position does not exceed the amount of underlying securities otherwise owned." An exemptive rule that defines a class of transactions that are not subject to Section 16(c) does not operate to make any transaction outside the scope of the exemption a violation of Section 16(c). n29.1 Thus, the Commission's failure to adopt a Rule affirmatively defining the term "sale" for purposes of Section 16(c), in the way Rule 16b-6(a) defines the term for purposes of Section 16(b), leaves it to the courts to determine whether to overrule *Silverman v. Landa*.

[b] Status of Rights to Acquire Equity Securities as "Ownership" of the Equity Securities for Purposes of Section 16(c). A distinct question under Section 16(c) is whether an insider's right to acquire equity securities under an option or other derivative security represents "ownership" of the underlying security so that a sale of an equal number of equity securities would not violate Section 16(c)(1).

The Commission deliberately designed Rule 16c-4 to not provide an exemption for this kind of transaction. n30 The logic of the current Section 16 rules would appear to support the view that an insider "owns" securities underlying derivative securities. Under these Rules, an insider's right to acquire equity securities at a fixed price represents "beneficial ownership" of the underlying equity securities for virtually all other purposes. n31

The only court to address the issue concluded that Section 16(c) was not violated where the insiders agreed, in a sales contract, to either exercise their right of conversion upon request of the purchaser or to deliver the derivative securities themselves (convertible preferred stock) together with documents transferring title thereto. n32

Of course, even if the insider were deemed to own equity securities acquirable through the exercise or conversion of a derivative security so that his sale of no greater a number of equity securities would not be deemed a short sale in violation of Section 16(c)(1), the delivery requirements of Section 16(c)(2) in most cases would still require the insider to deliver the equity securities he owns within twenty days of the sale or deposit them for delivery within five days. n33

Finally, the Commission staff has recognized, in the narrow context of broker-assisted cashless exercise transactions,

n34 that an insider's right to receive delivery of equity securities after he has duly exercised an option issued by the issuer should be viewed as "ownership" of the equity securities under Section 16(c). n35 The staff took this position even though the equity securities might not even be issued until several days after the sale. n36

FOOTNOTES:

(n1)Footnote 1. For discussion of who is an insider under Section 16(c), see § 8.02 *supra*.

(n2)Footnote 2. Section 16(c)(1).

"Short sales" are discussed in § 8.05[1] *infra*.

(n3)Footnote 3. Section 16(c)(2).

"Short sales against the box" and delayed deliveries are discussed in § 8.05[2] *infra*.

(n4)Footnote 4. Section 16(c)(2).

(n5)Footnote 4.1. *United States v. Chestman*, 947 F.2d 551, 572 (2d Cir. 1991) (stating that Section 16(b) regulates short-swing trading by insiders and requires that they disgorge any profits from such trading to the corporation).

(n6)Footnote 5. *See* Sec. Exch. Act § 21(d)(1) & (e) (authority to seek injunctive relief in federal district and territorial courts); Sec. Exch. Act § 21C (authority to issue cease and desist orders and require an accounting and disgorgement); Exch. Act § 21(d)(3) (authority to seek fines in federal district courts for violations of Section 16(a) and (c) of the Exchange Act, rules and regulations thereunder, or any cease and desist order).

Remedies under Sections 21C and 21(d)(3) were added by the Securities Enforcement Remedies and Penny Stock Reform Act of 1990, Pub. L. No. 101-429, 104 Stat. 931. Prior to enactment of these provisions, enforcement action under Section 16(c) generally took the form of injunctive actions. *See, e.g., SEC v. Gillette*, Litig. Rel. No. 11502 (S.D. Fla. July 27, 1987); *SEC v. Tate*, Litigation Rel. No. 11485 (S.D. Fla. July 14, 1987).

(n7)Footnote 6. *See* *Executive Telecard, Ltd. v. Mayer*, 941 F.Supp. 435, 437 (S.D.N.Y. 1996) (finding that plaintiff did not carry its heavy burden of showing that Congress intended to create a private right of action to enforce Section 16(c)); *Silverman v. Landa*, 200 F. Supp. 193, 198 (S.D.N.Y. 1961), *aff'd*, 306 F.2d 422 (2d Cir. 1962) (same).

(n8)Footnote 7. Thus, for example, an officer of an issuer who has acquired unfavorable inside information that will result in a decrease in the price of his corporation's stock cannot agree to sell stock he does not own and then cover that sale by purchasing stock after the stock's price has dropped. *See, e.g., SEC v. Gillette, supra*

Section 16(c)(1) does not in fact use the term "short sale."

"Short sales" are regulated under Section 10 of the Exchange Act and the rules promulgated thereunder. *See* § 6.02[3], *supra*.

(n9)Footnote 8. *Rogers v. Valentine*, 306 F. Supp. 34, 38 (S.D.N.Y. 1969).

(n10)Footnote 9. 244 F. Supp. 196 (S.D.N.Y. 1965), *aff'd per curiam sub nom. Righter v. Dilbert*, 358 F.2d 305 (2d Cir. 1966) .

(n11)Footnote 10. *244 F. Supp. at 214-15*. The court emphasized that the insiders were specific legatees of the stock, and pointed out that

- (1) the claims of creditors that might result in the legatees not receiving the stock were in fact negligible compared with the assets in the estate;
- (2) claims of other would-be beneficiaries were insubstantial and had been withdrawn;
- (3) the proceeds of the sale alleged to violate Section 16(c)(1) were sufficient to provide for taxes due; and
- (4) the taxes due had in fact been paid.

(n12)Footnote 11. Sec. Act Rel. No. 6099, C.C.H. Fed. Sec. L. Rep. P 2,705H, Pt. II.H.2 (1979); SEC Letter to Michael G. Marks (Div. Corp. Fin., Mar. 26, 1980). In the Michael G. Marks interpretive letter, the Commission staff rejected the suggestion of inquiring counsel that delivery of borrowed securities would represent a sale of securities not owned by the insider regardless of the insider's other holdings.

(n13)Footnote 12. Sec. Exch. Act Rel. No. 34-18114, Fed. Sec. L. Rep. (CCH) P 26,062, Question 18 & 30 (1981).

(n14)Footnote 13. Indeed, the basis for concluding that Section 16(c)(1) does not preclude delivery of borrowed shares would appear to be that, because Section 16(c)(2) imposes a separate and strict limitation on delivery against a sale, it is unnecessary to interpret Section 16(c)(1) narrowly on this point. *See* SEC Letter to Michael G. Marks, *supra* (Commission staff conceded that a prior Commission statement summarizing Section 16(c)(2) had "assumed" that Section 16(c)(1) does not forbid short sales against the box, but concluded that that interpretation is in fact correct).

(n15)Footnote 14. Section 16(c)(2). It appears that an insider avoids a violation of this provision if he either makes delivery within twenty days or makes the deposit within five days; failure to do one but not the other does not apparently violate the statute. Michael G. Marks Letter to SEC (Div. Corp. Fin., Dec. 19, 1979).

(n16)Footnote 15. H.R. Rep. No. 1383, 73d Cong., 2d Sess. 25 (1934).

(n17)Footnote 16. S. Rep. No. 1455, 73d Cong., 2d Sess. 52 (1934).

(n18)Footnote 17. *See* United States v. Wood, 364 F.3d 704, 718 (6th Cir. 2004)(defining short sales against the box); *see also* Sec. Exch. Act Rel. No. 34-18114, Fed. Sec. L. Rep. (CCH) P 26,062, Question 18 & n.30 (1981); Sec. Act Rel. No. 6099, Fed. Sec. L. Rep. (CCH) P 2,705H, Pt. II.H.2, n.37 (1979).

(n19)Footnote 18. Michael G. Marks Letter (Div. Corp. Fin., Dec. 19, 1979).

The Commission staff introduced confusion on this point in Sec. Exch. Act Rel. No. 34-18114, Fed. Sec. L. Rep. (CCH) P26,062, Question 18 n.30 (1981). There, the staff stated:

A short sale against the box is a brokerage transaction in which the seller already owns an amount of securities at least equal to the amount he wishes to sell short. While Section 16(c) of the Exchange Act prohibits insiders from making short sales, i.e., the sale of a security which the seller does not own, this prohibition does not extend to short sales against the box where the securities ultimately to be delivered already belong to the seller. *See* letter to Michael G. Marks dated February 26, 1980.

By completely failing to point out that Section 16(c)(2) imposes strict time limits on the delivery of the equity securities owned by the insider in the case of a short sale against the box, the Commission staff seemed to say in footnote 30 that short sales against the box are permitted without restriction under Section 16(c). This is clearly not the case. Sec. Act Rel. No. 6099, Fed. Sec. L. Rep. (CCH) P 2,705H, Pt. II.H.2, n.38 (1979).

(n20)Footnote 19. Section 16(c)(2).

(n21)Footnote 20. See *Silverman v. Landa*, 306 F.2d 422, 425, Fed. Sec. L. Rep. (CCH) P 91,173 (2d Cir. 1962) (insider who writes a call option is unable to deliver the underlying securities until called on to do so, i.e., when the optionee exercises the option); *Fuller v. Dilbert*, 244 F. Supp. 196, 215-16, (S.D.N.Y. 1965) ("undue inconvenience" shown where contract called for delayed delivery to permit sellers to effect a release of bequeathed shares from estate, raise funds to pay estate taxes, take other usual steps in estate administration, and obtain the return of pledged securities), *aff'd per curiam sub nom. Righter v. Dilbert*, 358 F.2d 305 (2d Cir. 1966) .

Significantly, the Commission filed an *amicus curiae* brief in *Fuller v. Dilbert* arguing that Section 16(c)(2)'s delivery period should begin to run not on the date of the sale contract but from the date of delivery specified in the contract. 244 F. Supp. at 216 . The court did not decide on the proper construction of Section 16(c)(2), but instead found that delivery within twenty days after execution of the sale contract was excused because such delivery, in that case, would cause "undue inconvenience." *Id.*

(n22)Footnote 21. Sec. Exch. Act Rel. No. 28869, Fed. Sec. L. Rep. (CCH) P 84,709 (Feb. 8, 1991).

(n23)Footnote 22. The term "derivative securities" is generally defined in Rule 16a-1(c) to include

any option, warrant, convertible security, stock appreciation right, or similar right with an exercise or conversion privilege at a price related to an equity security, or similar securities with a value derived from the value of an equity security... .

Section 16(c) does not itself make reference to derivative securities.

(n24)Footnote 22.1. *Magma Power Co. v. Dow Chem. Co.*, 136 F.3d 316, 321 (2d Cir. 1998) ("A call option gives the option holder the right to buy shares of an underlying security at a particular price... .").

(n25)Footnote 23. *Id.* ("A put option is the right to sell a security at a specified price.") See generally Sec. Exch. Act Rel. No. 28869, Fed. Sec. L. Rep. (CCH) P 84,709, Pt. III (Feb. 8, 1991).

The right or obligation to deliver equity securities generally is deemed a "put equivalent position" under the above Section 16 Rules. Rule 16a-1(h) defines the term "put equivalent position" to mean

a derivative security position that increases in value as the value of the underlying equity decreases, including, but not limited to, a long put option and a short call option position.

(n26)Footnote 24. 200 F. Supp. 193 (S.D.N.Y. 1961), *aff'd*, 306 F.2d 422 (2d Cir. 1962).

(n27)Footnote 25. 200 F. Supp. at 197-98. The Commission, in an *amicus curiae* brief, reportedly agreed that Section 16(c) was not violated by the writing of a call option, although the Commission apparently emphasized the fact that the insider owned enough of the underlying equity securities to fully "cover" the call option. *Id.* at 198.

(n28)Footnote 26. 306 F.2d at 424-25 (finding no Section 16(b) liability where an insider sold both a call option

and put option within six months)(citing *Blau v. Ogsbury*, 210 F.2d 426, 427 (2d Cir. 1954)); *Falco v. Donner Foundation, Inc.*, 208 F.2d 600 (2d Cir. 1953)) .

(n29)Footnote 26.1. *Magma Power Co.* 136 F.3d at 321 (noting that under Rule 16b-6(a), "the acquisition or disposition of a derivative security with a fixed exercise price is treated just as if the insider had traded the underlying security itself"); *Gryl v. Shire Pharms. Group, PLC*, No. OO-CV-9173(HB), 2001 U.S. Dist. LEXIS 13371, at *5 n.4 (S.D.N.Y. Aug. 31, 2001) ("In 1991, the SEC adopted comprehensive amendments to its rules under Section 16(b) under which the acquisition of derivative securities was held to be equivalent with the acquisition of the underlying securities.")

(n30)Footnote 27. See Sec. Exch. Act Rel. No. 34-26333, Fed. Sec. L. Rep. (CCH) P 84,343 (Dec. 2, 1988), Pt. IV.C.

(n31)Footnote 28. *Id.* (footnote omitted). The Commission also suggested in Sec. Exch. Act Rel. No. 34-26333, C.C.H. Fed. Sec. L. Rep. P 84,343 (Dec. 2, 1988) that, "as a result of" proposed Rule 16c-4, "put equivalent positions will be deemed violations of Section 16(c) in certain circumstances." *Id.*, Pt. XI.

(n32)Footnote 29. For a discussion of the exemption under Rule 16c-4, see § 8.06[19][d] *infra*.

(n33)Footnote 29.1. Merritt B. Fox, *Insider Trading Deterrence Versus Managerial Incentives: A Unified Theory of Section 16(b)*, 92 Mich. L. Rev. 2088, 2203 n. 213 (1994) (stating that the new Rule 16c-4 "implies that an insider does violate 16(c) when she purchases more put options than she owns underlying shares, but nothing in the statute, which by its terms make unlawful a statutory insider selling an equity security 'if the person selling ... does not own the security sold,' or in the 16 rules, directly provides that such a put purchase is a violation").

(n34)Footnote 30. Sec. Exch. Act Rel. No. 34-26333, Fed. Sec. L. Rep. (CCH) P 84,343 (Dec. 2, 1988), Pt. IV.C. The Commission explained that, in adopting Section 16(c), Congress was particularly concerned with this form of transaction, particularly in view of the fact that the insider could repurchase shares in the market to cover his short position. See *id.*

(n35)Footnote 31. Rule 16a-1(a)(2)(ii)(F); Rule 16a-1(d); Rule 16a-4(a). The one exception is that acquisitions and dispositions of derivative securities are reported separately on Forms 4 and 5 (on Table II) from transactions in the underlying securities (reported on Table I). See Rule 16a-4(d); Form 4; Form 5.

(n36)Footnote 32. *Fuller v. Dilbert*, 244 F. Supp. 196 (S.D.N.Y. 1965), *aff's per curiam sub nom. Righter v. Dilbert*, 358 F.2d 305 (2d Cir. 1966) .

(n37)Footnote 33. The issue could arise, however, in the context of a "put equivalent position" that an insider acquires at a time he holds an offsetting "call equivalent position." Rule 16c-4 does not itself exempt this kind of transaction but, as discussed in Section 8.05[2] above, there is support for the view that Section 16(c)(2) would not require prompt delivery prior to the exercise of the put equivalent position derivative security (at least where the time of exercise is outside the control of the insider). If so, the conclusion that such transaction is not regarded as a short sale prohibited by Section 16(c)(1) would mean that an insider could engage in the transaction even in the absence of an explicit exemption under Rule 16c-4.

(n38)Footnote 34. A broker-assisted cashless exercise is a transaction in which a holder of a stock option issued by the issuer (usually under a compensatory option plan) sells shares to be delivered upon exercise of the option in order to pay the exercise price and applicable withholding taxes. To do this, typically the optionee's notice of exercise is delivered to both the issuer and a stock broker, with additional irrevocable instructions given to the broker to sell some or all of the number of shares being acquired by exercise of the option and to pay the exercise price and any withholding taxes to the issuer. The broker will then, in the usual case, immediately sell shares on behalf of the optionee, and will either pay the exercise price and withholding taxes out of the proceeds of such sale or advance immediate payment to

2-8 Federal Securities Exchange Act of 1934 § 8.05

the issuer against the proceeds of the sale (the immediate payment sometimes being required to comply with corporate law requirements or terms of the option plan). *See generally* Ware & Freidenrich (Div. Corp. Fin., Jan. 10, 1992); Safeco Corp. (Div. Corp. Fin., Aug. 23, 1991); Dean Witter Reynolds Inc., Fed. Sec. L. Rep. (CCH) P 79,684 (Div. Corp. Fin., Apr. 30, 1991); Dean Witter Reynolds Inc., Fed. Sec. L. Rep. (CCH) P 78,676 (Div. Corp. Fin., Dec. 18, 1987).

(n39)Footnote 35. Dean Witter Reynolds Inc., Fed. Sec. L. Rep. (CCH) P 79,684 (Div. Corp. Fin., Apr. 30, 1991). The Commission staff imposed conditions on this interpretive position, however, stating in pertinent part:

[C]ashless stock option exercises made in conformity with current Regulation T [margin regulation] provisions... where settlement occurs no later than regular way will not violate Section 16(c) of the Securities Exchange Act of 1934.

In Safeco Corp. (Div. Corp. Fin., Aug. 23, 1991), the staff imposed conditions similar to the "regular way" settlement requirement imposed in Dean Witter Reynolds Inc. on a program in which the issuer itself would repurchase all of the shares acquired upon exercise of the option at the fair market value of the shares on the date the issuer received the notice of exercise. The staff concluded that this procedure would not be deemed to violate Section 16(c) if settlement occurred within five business days and the optionee received no funds before settlement.

(n40)Footnote 36. *See* Dean Witter Reynolds Inc., Fed. Sec. L. Rep. (CCH) P 79,684 (Div. Corp. Fin., Apr. 30, 1991).

Cf. Rule 16c-3 (exemption from Section 16(c) for sales of "when issued" and "when distributed" equity securities). Rule 16c-3 is discussed in § 8.06[19][c] *infra*.

The staff's position is consistent with revisions of Regulation T adopted by the Federal Reserve Board in 1987 in order to permit brokers to engage in broker-assisted cashless exercise transactions. *See* Fed. Res. Sys. Docket No. R-0611, Order, Fed. Sec. L. Rep. (CCH) P 84,208 (Dec. 18, 1987) (adopting release for amendments to Regulation T to permit broker-dealers to participate in cashless exercise transactions without violating margin rules); Fed. Res. Sys. Docket No. R-0611, Order, Fed. Sec. L. Rep. (CCH) P 84,155 (Aug. 24, 1987) (proposing release for such amendments).

CHAPTER 8 Insider Reporting and Short-Swing Trading

2-8 Federal Securities Exchange Act of 1934 § 8.06

AUTHOR: Elliot Cohen Tim Mast Robert M. Carmen Jaime Theriot Marvin G. Pickholz Alan H. Aronson

§ 8.06 Exemptions

The Commission has exempted certain transactions from all or some of the provisions of Section 16. Transactions exempted from both Section 16(a) reporting and Section 16(b) liability include certain transactions relating to a pro rata stock split, stock dividend, or rights distribution, certain transactions under dividend and interest reinvestment plans, transactions pursuant to a domestic relations order, transactions that effect only a change in the form of beneficial ownership (other than incident to the exercise of a derivative security), transactions by fiduciaries during the twelve months after appointment involving securities held by an estate, certain transactions by dealers and underwriters in connection with a distribution, and odd-lot transactions by an odd-lot dealer (also exempted from Section 16(c)). Certain small acquisitions are exempted from the requirement that they be reported on a month-end Form 4 under Section 16(a), but such transactions are reportable on the year-end Form 5 and remain subject to potential Section 16(b) liability. Transactions exempted only from Section 16(b) liability and not from Section 16(a) reporting (although deferred reporting may be permitted) include certain transactions by registered investment companies, registered public utility holding companies, and companies subject to the Interstate Commerce Act, certain transactions under employee benefit plans, certain issuer redemptions, bona fide gift and inheritance transactions, certain transactions relating to exercises and conversions of derivative securities, and dispositions of derivative securities where no value is received, certain transactions resulting from mergers and related transactions between a parent company and a subsidiary at least 85 percent owned by the parent, certain transactions relating to the deposit or withdrawal from a voting trust, and acquisitions in connection with a debt previously contracted. In addition, Section 16 provides an exemption for market makers and foreign and domestic arbitrage transactions, and the Commission has adopted a complete exemption for the securities of certain foreign issuers. Exemptions from Section 16(c)'s short-sale prohibition are also provided for brokers acting in an agency capacity, dealers participating in a distribution, sales of "when issued" or "when distributed" securities, and fully-hedged short sales resulting from transactions in put and call options.

The Commission has adopted several exemptions from all or some of the provisions of Section 16. These exemptions were, in many cases, substantially revised in connection with the comprehensive revision to the Section 16 rules that became effective May 1, 1991. n1 Further revisions became effective in August 1996. n2 The revisions to the rules under Section 16 that implemented provisions from the Sarbanes-Oxley Act of 2002 altered only the reporting requirements under Section 16(a) and did not affect the exemptive rules under Sections 16(b) and 16(c).

The Commission's authority to adopt rules exempting certain securities and transactions from the statute is based upon:

- (1) the rulemaking power of the Commission under various sections of the Exchange Act to interpret and define the Act's provisions and to exempt securities from any of those provisions, *e.g.*, Sections 3(a)(12), 3(b), and 23(a); and
- (2) the specific power given to the Commission under Section 16(b) to exempt from that subsection "any transaction or transactions which the Commission by rules and regulations may exempt as not comprehended within the purpose of [Section 16(b)]."

In addition, Section 16 itself provides an exemption for market makers (Section 16(d)), and for foreign and domestic arbitrage transactions (Section 16(e)).

Furthermore, Section 12(h) of the Exchange Act grants the Commission the authority to exempt insiders from the provisions of Section 16 if the exemption is consistent with the public interest or the protection of investors. n3

Under this authority, the Commission has adopted three broad classes of exemptions. The series of rules under Section 16(a) exempt certain transactions from the reporting requirements of Section 16. Significantly, under Rule 16a-10, any transaction that is exempt from reporting is also exempt from potential liability under Section 16(b). The series of rules adopted by the Commission under Section 16(b) exempt certain transactions from potential short-swing liability, but not from the reporting obligations of Section 16(a). Finally, under Rule 3a12-3(b), the Commission exempted securities of foreign private issuers from Section 16. n4

[1] Exemption for Stock Splits, Stock Dividends, and Pro Rata Rights Distributions--Rule 16a-9

Rule 16a-9(a) exempts "the increase or decrease in the number of securities held as a result of a stock split or stock dividend applying equally to all securities of a class, including a stock dividend in which equity securities of a different issuer are distributed." No provision under the pre-1991 Section 16 rules explicitly exempted stock splits or dividends, although there was some authority for the proposition that such transactions did not constitute purchases or sales for purposes of Section 16(b). n5

Rule 16a-9(b) exempts the acquisition of rights, such as shareholder or preemptive rights, pursuant to a pro rata grant to all holders of the same class of equity securities registered under Section 12 of the Act. n6 This provision is the successor to old Rule 16b-11, which exempted sales of certain rights to subscribe for equity securities distributed to holders of a class of equity securities. n7 The Rule was intended to exempt not only pro rata grants of subscription rights, but also pro rata grants of repurchase rights and rights granted under a "poison pill" shareholder rights plan. n8 Under Rule 16b-6(a), the acquisition of such rights would apparently constitute a purchase or sale of the equity securities to which the rights relate, absent this exemption. n9 The exercise of such rights would be eligible for exemption under Rule 16b-6(b). n10 In contrast to old Rule 16b-11, no exemption would be available under Rule 16a-9 (or Rule 16b-6(b)) for a sale of such rights. n11

One area of uncertainty when Rule 16a-9 was first adopted was whether the Rule exempted transactions relating to stock dividends and pro rata distributions of rights only if the equity security issued as a dividend, and the equity security to be acquired or sold pursuant to the right, is of the same class as the class of equity security with respect to which the pro rata distribution is made. The issue was resolved in 1996 when the Commission expressly covered securities of a different issuer by adopting the closing phrase of Rule 16a-9(a). n12 Although clause (b) was not likewise amended, its reference to holders of the "same class" should be read to mean that *all* holders of given class must receive the rights in order for the exemption to apply. Otherwise, for the reasons noted above, a distribution of rights could be deemed a "purchase" or "sale" under Rule 16b-6(a), regardless of the fact that the insider might have

exercised no volition in acquiring the rights. n13

The exemption for stock splits, stock dividends, and pro-rata rights applies not only to the short-swing profits liability provisions of Section 16(b), but also to the reporting requirements of Section 16(a) and the short-sale prohibition of Section 16(c). n14 The exemption from reporting creates the somewhat anomalous situation in which, although an insider's beneficial ownership has changed due to a stock split, stock dividend, or rights distribution, nothing requires the insider to explain changes to the number of securities previously reported as beneficially owned on Forms 3, 4, or 5. n15 The Commission acknowledged this result in the adopting release for the 1991 rules, pointing out that an insider may note the reason for such changes in the space provided on Form 4 or 5. n16 The exemption from Section 16(c) would appear to apply to transactions possibly deemed short sales that could result from the acquisition of a right to "put" securities back to the issuer through a rights distribution. n17

[2] Exemption for the Reinvestment of Dividends or Interest--Rule 16a-11

Rule 16a-11 provides that any acquisition of securities by insiders resulting from the reinvestment of dividends or interest on securities of the same issuer will be exempt from reporting and potential liability under Section 16 if made pursuant to a plan that:

- (1) provides for the regular reinvestment of dividends or interest;
- (2) allows for broad-based participation; and
- (3) does not discriminate in favor of employees and operates on substantially the same terms for all plan participants.

In 1996 the Commission returned this exemption to Rule 16a-11, where it had originally been codified prior to 1991. In 1991, the Commission moved the original Rule 16a-11 exemption for dividend and interest reinvestment plans to Rule 16b-2, thereby effectively requiring transactions under such plans to be reported on Form 5. Rule 16b-2 and its predecessor required a dividend or interest reinvestment plan to be available on the same terms to *all* holders of a class of securities. This "all holders requirement" made the exemption unavailable to insiders when issuers excluded foreign shareholders from their plans. The Commission determined in 1996 that Rule 16b-2 was overly restrictive and that the three conditions set forth in its new Rule 16a-11 adequately protected against abuse of the exemption. n18 In 1996, the Commission also moved Rule 16b-2 back to its original location, Rule 16a-11.

The exemption, both in its current and prior versions, has been interpreted to cover arrangements that are separate from, but operate on a similar basis to, an issuer's qualifying dividend or interest reinvestment plan. Thus, dividend reinvestment provisions in employee benefit plans can result in exempt transactions for insiders, even if the "dividends" are accrued on "phantom" stock or derivative securities, provided that the issuer has a qualifying dividend reinvestment plan available for the *underlying* class of securities. n19

The staff also interpreted the exemption to cover dividend and interest reinvestment provisions offered by brokerage firms on securities held in a client account at the firm, provided that the issuer offers a dividend reinvestment plan. n20 Given that such brokerage firm plans typically are made available to all of a firm's clients on the same basis, and the issuers' lack of control over the firms, it is unclear why the staff insisted that the issuer must also operate a plan in order for the brokerage firm's plan to be exempt.

The Rule exempts only the reinvestment of dividends or interest; it does not exempt the acquisition of securities through voluntary cash contributions made by participants in the plan. n21 Moreover, Rule 16a-11 exempts only the acquisition of securities pursuant to a dividend or interest reinvestment plan and not the subsequent disposition of those securities. n22

[3] Exemption for Transactions Pursuant to Domestic Relations Orders--Rule 16a-12

In 1996, the Commission adopted an exemption under Section 16(a) for acquisitions or dispositions pursuant to a "domestic relations order," as defined under the Internal Revenue Code or ERISA. Although the general view among commentators had been that transactions occurring pursuant to a divorce should not be treated as involving a "purchase" or "sale," there had been some uncertainty on this point because the insider often would have some say in negotiating what property would be subject to a domestic relations order. In 1991, the Commission adopted an exemption for dispositions of employee benefit plan securities pursuant to qualified domestic relations orders as defined under ERISA. Rule 16a-12 reflects the Commission's determination that all such transactions are unlikely to be influenced by access to inside information and thus that a broader exemption was warranted. n23

[4] Exemption for Changes in the Form of Beneficial Ownership--Rule 16a-13

Rule 16a-13, also adopted in 1996, exempts any change in the form of an insider's beneficial ownership that does not change the insider's pecuniary interest in the subject securities. Examples of such transactions are distributions from employee benefit plans or transfers to certain "living trusts." The rule expands on and codifies an earlier staff interpretation. n24 As with the exemption for transactions pursuant to a divorce, Rule 16a-13 provides a firm basis for what most commentators believed was the appropriate result for such transactions.

The exemption for changes in the form of beneficial ownership has two exceptions, both involving transactions that can be exempt from Section 16(b) under different rules, but which are still subject to reporting under Section 16(a). First, Rule 16a-13 does not cover the exercise or conversion of a derivative security, which is required to be reported on a Form 4, n25 but typically will be exempt from potential liability under Rule 16b-6(b). Second, Rule 16a-13 does not cover the deposit of securities into or withdrawal of securities from a voting trust, which instead is governed by Rule 16b-8.

[5] Temporary Exemption for Executors and Administrators of Estates--Rule 16a-2(d)

Rule 16a-2(d) n26 provides an exemption from Section 16(a) and Section 16(b) for transactions during the twelve months following appointment and qualification of persons acting in the following capacities, to the extent they are acting in such capacities:

- (1) executors or administrators of the estate of a decedent; n27
- (2) guardians or members of a committee for an incompetent; n28
- (3) receivers, trustees in bankruptcy, assignees for the benefit of creditors, conservators, liquidating agents, and similar persons authorized by law to administer the estate or assets of other persons; n29 and
- (4) fiduciaries acting in similar capacities n30 for a period of twelve months following their appointment and qualification. n31 After the twelve-month period expires, a fiduciary will be subject to the reporting requirements of Section 16(a) and to the liability provisions of Section 16(b) with respect to the securities held by the estate only if the estate is a more than ten percent beneficial owner of any non-exempt class of the issuer's equity security registered under Section 12 of the Act. n32

The primary purpose of Rule 16a-2(d) is to permit the liquidation of an insider's estate, without the filing of reports under Section 16(a), and without the risk of liability under Section 16(b), through any sales of estate securities by the executor or administrator of the estate although the insider may have purchased securities within six months prior to the sales. n33 The Rule 16a-2(d) exemption, however, does not run with the securities, n34 but is applicable only when the securities are held by the persons listed in the Rule. n35

It appears that a fiduciary whose transactions are exempted by Rule 16a-2(d) may nevertheless have to include securities held by the estate over which he has voting or dispositive power with his personal holdings for purposes of determining whether he is a beneficial owner of more than ten percent of an outstanding class of equity securities under Rule 16a-1(a)(1). n36

[6] Section 16(a) and 16(b) Exemptions for Transactions by Market Professionals

[a] Exemption of Certain Transactions Effected in Connection With a Distribution--Rule 16a-7. A person participating in an underwriting may already be an insider of the issuer whose securities he is distributing, or may become one as a result of his participation in the distribution. n37 Rule 16a-7, n38 however, provides an exemption from Section 16(a) reporting and Section 16(b) liability for transactions in connection with a person's participation in an underwriting. n39 An insider can participate in the underwriting of issuer securities without the underwriting transactions being reportable under Section 16(a) or subject to matching under Section 16(b) with the insider's other purchases and sales of the issuer's equity securities if:

(1) he is engaged in the business of distributing securities and is participating in good faith, in the ordinary course of his business, in the distribution; n40

(2) the security involved in the transaction is:

(i) part of the block of securities being distributed and is acquired by the person effecting the transaction, with a view to distribution, from the issuer or other person on whose behalf such securities are being distributed or from a person who is participating in good faith in the distribution; n41 or

(ii) purchased in good faith by or for the account of the person effecting the transaction for the purpose of stabilizing the market price of securities of the class being distributed or to cover an over-allotment or other short position created in connection with the distribution. n42

Each person participating in the underwriting must qualify on an individual basis for the exemption under Rule 16a-7. n43

[b] Exemption for Odd-Lot Dealers--Rule 16a-5. Rule 16a-5 n44 provides an exemption from Section 16(a) reporting and, by virtue of Rule 16a-10, from Section 16(b) liability for purchases and sales of securities by odd-lot dealers n45 if such purchases and sales are:

(1) in odd-lots to the extent reasonably necessary to carry on odd-lot transactions; or

(2) in round lots to offset odd-lot transactions previously or simultaneously executed or reasonably anticipated in the usual course of business.

One who properly performs the functions of an odd-lot dealer is entitled to the exemption, although the exemption is not applicable to an odd-lot dealer who takes a position not reasonably related to his odd-lot business. n46

[7] Reporting Deferral for Small Transactions--Rule 16a-6

Rule 16a-6 n47 provides a deferral from the requirement that a transaction be reported under Section 16(a) on Form 4 within two business days after the transaction occurred. The reporting deferral allows an acquisition to be reported on a Form 5 filed with respect to the fiscal year in which the transaction occurred, if:

(1) total acquisitions of securities of the same class (including securities underlying derivative securities) within the six months preceding the transaction, other than acquisitions that were exempt from Section 16(b) or that were previously reported, do not exceed \$10,000 in market value; n48

(2) the person making the acquisition does not within six months thereafter make any disposition, other than by a transaction exempt from Section 16(b); n49 and

(3) the transaction is not an acquisition from the issuer or an employee benefit plan sponsored by the issuer. n50

The utility of Rule 16a-6 was expanded in 1996 when the Commission adopted the above clause that excludes exempt or previously reported transactions from the \$10,000 limitation.

If an acquisition that was subject to Rule 16a-6's reporting deferral no longer qualifies (for example, if there occurs a non-exempt disposition within the six months after the small acquisition), an acquisition that has not yet been reported must be reported on a Form 4 before the end of the second business day following the day on which the conditions of Rule 16a-6(a) were no longer met. n51

[8] Exemptions for Regulated Entities

[a] Exemption for Certain Transactions by Investment Companies--Rule 16b-1(a). Rule 16b-1(a) n52 exempts a purchase and sale, or sale and purchase, of a security by an investment company from Section 16(b) if:

(1) the investment company is registered under the Investment Company Act of 1940; and

(2) both the purchase and the sale of the security have been exempted from Section 17(a) of the Investment Company Act (prohibiting transactions between affiliated persons and underwriters of a registered investment company, on the one hand, and the registered investment company or a company controlled by the registered investment company, on the other hand) by rule or order of the Commission. n53

[b] Exemption for Certain Transactions by Public Utility Holding Companies and Their Subsidiaries--Rule 16b-1(b). Rule 16b-1(b) n54 exempts a purchase and sale, or sale and purchase, of a security by a public utility holding company or its subsidiary from Section 16(b) if:

(1) the public utility holding company is registered under the Public Utility Holding Company Act of 1935 or is a subsidiary company of a registered holding company; and

(2) both the purchase and sale of the security have been approved or permitted by the Commission under the Public Utility Holding Company Act of 1935 or the rules and regulations promulgated thereunder. n55

[9] Exemptions for Transactions Between an Issuer and Its Officers and Directors--Rule 16b-3

On May 1, 1996, the Commission adopted significant rule changes under Section 16 of the Exchange Act. n56 The most significant aspect of the 1996 amendments n57 were a complete rewrite, and a reorientation, of Rule 16b-3, the rule that traditionally has provided an exemption from Section 16(b) for certain employee benefit plan transactions. The version of Rule 16b-3 adopted in 1996 provides a variety of simple exemptions for most stock-based transactions between a company and its officers and directors, while eliminating many of the restrictions and procedures historically required for employee benefit plan transactions to be exempt. Rule 16b-3 as amended applies to all employee benefit plan

transactions occurring on or after November 1, 1996. n58 Accordingly, transactions occurring after November 1, 1996 under employee benefit plans must satisfy the conditions of Rule 16b-3 as a basis for exempting any post transaction under such plan, award, or arrangement. After May 1, 1997, the six-month anniversary of Rule 16b-3's effective date, most vestiges of the pre-1996 versions of Rule 16b-3 were no longer of importance.

[a] Background of Rule 16b-3. In 1988, n59 the Commission proposed the first comprehensive amendments to Rule 16b-3 since the rule had been adopted. The amendments were proposed in the context of a complete review of the rules and forms under Section 16, and attempted to respond to the profusion of new equity-based compensation arrangements and the accretion of years of no-action letter interpretations which left in jeopardy one who merely read and relied on the text of then-Rule 16b-3. The project resulted in a re-proposal in 1989 n60 and, finally, the adoption of new rules in early 1991. n61 The version of Rule 16b-3 adopted in 1991 attempted to supplement the exemption that had existed for traditional "discretionary award" plans, such as employee stock option plans, and the interpretations applicable to "formula" plans, with rules specifically oriented toward other types of plans, such as "participant-directed" individual savings account plans. n62 Almost immediately after adoption of the 1991 version of Rule 16b-3, the Commission heard complaints that the rules presented substantial administrative burdens for employee benefit plans and, in some cases, simply could not be satisfied. To its credit, the Commission committed to simplify the rules and in the interim allowed companies to elect to rely on the pre-1991 version of Rule 16b-3. n63

With the adoption of the 1996 version of Rule 16b-3, the Commission fulfilled its commitment to provide simple and workable exemptions for employee benefit plan transactions. In lieu of the complex procedural safeguards contained in the 1991 version of Rule 16b-3, the current version of Rule 16b-3 is founded on the premise that transactions between a company and its officers and directors, who owe state law fiduciary duties to the company and its stockholders, n64 do not present the possibility for the type of short-swing trading abuse that Section 16 was designed to address. As a result, Rule 16b-3 now contains few of the procedural safeguards that the pre-1996 versions of the rule contained. For example, it is possible to exempt transactions even if they do not occur under employee benefit plans as compensatory transactions. n65 It is, in fact, possible, to engage in abusive short-swing transactions under the rules. However, the continuing reporting obligations under Section 16(a) and the availability of antifraud enforcement under Exchange Act Rule 10b-5 also operate to deter abusive transactions. n66

[b] Four Broad Categories of Exemptions. To fully appreciate the flexibility that Rule 16b-3 affords, one must largely forget the requirements historically imposed on employee benefit plans under past versions of Rule 16b-3 (most of which have been eliminated), and instead focus on specific categories of transactions. Rule 16b-3 provides an exemption for any transaction between an officer or director and a company if the transaction satisfies the applicable requirements under one of four broad categories: (1) transactions under "tax-conditioned plans" that satisfy certain requirements of the Internal Revenue Code ("IRC"); (2) "discretionary transactions" involving intra-plan transfers of funds into or out of a company stock fund; (3) grants, awards, and other acquisitions from a company; and (4) dispositions to a company. Each of these categories is discussed below.

An overarching requirement of Rule 16b-3 is that it only exempts transactions that occur between an issuer and an officer or director. n67 The origin of this requirement is the Commission's premise that these transactions do not present the same opportunities for insider profit on the basis of non-public information as do market transactions. n68 To reflect the significance of this premise, the Commission renamed Rule 16b-3 to be "Transactions between an issuer and its officers or directors," instead of "Employee benefit plan transactions." The Commission also stated that transactions can be exempt under Rule 16b-3 even if there is no compensatory element to the transaction. n69 However, for purposes of satisfying this requirement, transactions with an employee benefit plan sponsored by the company count as transactions with the company. n70 In contrast, transactions under an employee benefit plan which provides for open market purchases of stock and which are not deemed to involve offers and sales by the company for purposes of the Securities Act of 1933, n71 do not qualify as transactions with the company, and therefore are not covered by Rule 16b-3. Also, the rule does not specifically exempt transactions between an officer or director and a subsidiary or parent of the issuer or an employee benefit plan sponsored by a parent or a subsidiary of the company.

[i] Look-Back Exemption for "Discretionary Transactions." Rule 16b-3(f) provides an exemption for "fund switching" transactions under employee benefit plans. The rule defines these types of transactions as "discretionary transactions." Prior to August 29, 2002, pursuant to Rule 16a-3(f), the exemption granted to "discretionary transactions" also permitted directors and officers to report such transactions on a year-end Form 5, rather than on a Form 4. However, in a response to the enactment of the Sarbanes-Oxley Act, on August 29, 2002 the Commission amended the reporting rules under Section 16(a). As a result, "discretionary transactions" exempt from short-swing matching pursuant to Rule 16b-3(f) must now be reported on a Form 4 within two business days after the date of the transaction. n72 Rule 16a-3(f) specifically states that a Form 4 must be filed to report "all transactions exempt from Section 16(b) of the Exchange Act pursuant to Exchange Act Rule 16b-3(d), 16b-3(e), or 16b-3(f)." n73 Under the rule, a "discretionary transaction" will be exempt if the participant's *election* to effect the transaction (as opposed to the actual occurrence of the transaction) is made at least six months after the last election to effect an "opposite way" discretionary transaction under *any* company-sponsored plan. n74 For these purposes, a transfer into a company stock fund is an "opposite way" transaction from a transfer out of a company stock fund, and vice versa. Because the six-month opposite way transaction condition applies to every plan maintained by a company, a company monitoring satisfaction of the six-month condition will need to review any plan under which a "discretionary transaction" may occur. To ensure compliance with this exemption, companies may want to amend their plans to specifically prohibit insiders from electing to effect transactions in a stock fund within six months of an election to effect an opposite way transaction. Rule 16b-3(b)(1) defines the term "discretionary transaction" to cover a narrow class of transactions effected pursuant to an employee benefit plan that (i) are made at the election of the plan participant, and (ii) result in an intra-plan transfer into or out of a company stock fund (including a cash distribution funded by a volitional sale or other disposition of company securities). n75 However, the term "discretionary transaction" does not include any such transaction that is either (iii) required to be made available under the IRC, n76 or (iv) made in connection with death, disability, retirement, or termination of employment (these two types of transactions instead may be covered by the blanket exemption discussed below for "tax-conditioned plans").

If a discretionary transaction results from an election made within six months of an election to effect an opposite way transaction, the second of the two transactions is not exempt from Section 16(b) and can be matched with any non-exempt opposite way transaction that occurs within six months before or after the non-exempt discretionary transaction. However, the fact that the second transaction may not be exempt does not affect the status of the previous transaction; the previous transaction is exempt as long as there had not been an election to effect an opposite way transaction during the six months preceding it. For example, under the exemption for "discretionary transactions," if an executive officer elects to transfer one-half of his or her account balance under a 401(k) plan from the company stock fund to the money market fund, and four months later elects to transfer his or her account balance from the bond fund to the company stock fund, the transaction resulting from the later election will be a non-exempt purchase because the transfer into the stock fund is an "opposite way" transaction. However, the transfer from the bond fund to the company stock fund will not affect the status of the earlier transfer from the company stock fund to the money market fund. Alternatively, if after making the initial transfer from the company stock fund to the money market fund, the executive officer elects to transfer the remaining balance out of the company stock fund, or waits for seven months before electing to have the bond fund account balance transferred into the company stock fund, the resulting transactions will be exempt.

The "look-back" exemption for "discretionary transactions" is intended primarily to address transactions occurring when a plan participant moves previously deferred amounts into or out of a company stock fund under a 401(k) or similar plan. The term includes transfers out of a company stock fund to provide for a cash distribution or a plan loan. In addition, the term is not limited to transactions under tax-conditioned plans. For example, transfers into or out of a company stock account under a simple non-qualified deferred compensation plan are treated as "discretionary transactions." n77 On the other hand, it appears that the term is not intended to apply to transactions occurring under IRC Section 423 employee stock purchase plans n78 and other plans that are not traditionally viewed as involving a company stock fund account. For example, the SEC staff has interpreted the term as not encompassing the exercise for cash of a stock appreciation right or the cash settlement of a stock option or phantom stock right and as not involving an

election to receive a bonus in cash rather than stock, even though those transactions could be viewed as involving a cash distribution funded by a volitional disposition of company securities. n79 Similarly, the staff has said that the repayment of loans under a tax-qualified plan is not a discretionary transaction. n80

[ii] Blanket Exemption for Tax-Conditioned Plans. Rule 16b-3(c) exempts any transaction occurring under one of three types of so-called "tax-conditioned plans," unless the transaction is a "discretionary transaction" (as discussed above). The three types of plans covered by the exemption are: (1) "qualified" plans, which the rule defines as plans that satisfy the coverage and participation requirements imposed on tax-qualified ERISA plans under IRC Sections 401(a)(26) and 410; (2) "excess" plans that operate in conjunction with qualified plans and provide only the benefits that would be provided under a qualified plan but for benefit or contribution limitations imposed under the IRC; and (3) stock purchase plans that satisfy the coverage and participation requirements of either IRC Section 410 or Section 423.

The exemption for tax-conditioned plans covers, among other things, allocations of stock to an employee's account (*e.g.*, under a 401(k) plan) resulting from the employee's on-going payroll contributions to the plan or from the company's contribution to a plan; roll-over transfers into an employee's account under one plan that are funded from distributions under another plan; transfers into or out of a stock fund resulting from diversification or distribution elections that are "required to be made available to plan participants pursuant to a provision of the [IRC];" n81 distributions and other transactions resulting from elections made in connection with death, disability, retirement, or termination of employment; and reallocations resulting from forfeitures or assessments against plan accounts. The staff has affirmed that loan repayments under a qualified plan are eligible for the blanket exemption, even if the repayment is made through a lump sum transfer into the plan. n82 The only type of transaction occurring in these plans that is not covered by this exemption is a voluntary intra-plan transfer of previously contributed amounts into or out of a company stock fund, *i.e.*, "discretionary transactions" that are conditionally exempted by Rule 16b-3(f) as discussed above.

Significantly, a plan need not be a "tax-qualified plan" under IRC Section 401(a) or a IRC Section 423 employee stock purchase plan in order for the tax-conditioned plan exemption to be available; rather, the plan need only meet the coverage and participation requirements of IRC Section 410. n83 Initially, there was some confusion over whether broker-effected transactions occurring under a payroll deduction open-market purchase plan would qualify as transactions occurring between an employee benefit plan and an employee, n84 because the shares are purchased for the participant on the open market without the involvement of the issuer. However, the staff has indicated that such plans qualify for the exemption so long as the issuer deducts the funds under the plan from the employee's compensation at regular intervals, the funds are used to purchase issuer stock, and plan participation is limited to certain employees of the issuer. n85 Further, the staff stated that subsequent sales of stock acquired under the plan by plan participants would not be eligible for exemption, nor would voluntary contributions by plan participants. n86

The exemption for "excess plans" is available even for transactions that do not "mirror" a transaction in the related qualified plan. n87 However, interpretive issues will arise as to what variations, if any, can exist between an excess plan and a qualified plan without causing the excess plan to be viewed as not providing "only" the benefits or contributions that were limited under the qualified plan. For example, it is unclear whether a plan that allows contributions to be made from salary and bonuses will qualify as an excess plan if the related qualified plan allows contributions to be made only from salary. n88

[iii] Multiple Exemptions for Acquisitions from and Dispositions to the Company. Rule 16b-3 offers a variety of simple alternatives for exempting transactions that, under earlier versions of Rule 16b-3, were known as grant or award transactions and participant-directed transactions (other than "discretionary transactions"). Specifically, Rule 16b-3(d) provides that any acquisition from a company will be exempt if it is approved in advance by either the company's board of directors or by a committee composed solely of two or more "non-employee directors," or if it is approved in advance or ratified by the company's stockholders at or before the next annual meeting of stockholders. As a fourth alternative, any acquisition of securities from a company will be exempt if the acquired securities are held for six months (or in the case of acquisition of an option or other derivative security, if at least six months elapse between

acquisition of the derivative security and disposition of the shares acquired upon exercise or conversion of the derivative security). n89

As to dispositions to an issuer, Rule 16b-3(e) provides that such transactions will be exempt if approved in advance by the company's board of directors, by a committee composed solely of two or more "non-employee directors" or by the company's stockholders. The express exemptions for dispositions to an issuer encompass a number of transactions. First, the delivery to the issuer of already owned shares to pay the exercise price and/or taxes due upon exercise of a stock option constitutes a "disposition to the issuer" of the already owned shares. Similarly, instructing the company to withhold shares otherwise issuable upon exercise of a stock option or vesting of a restricted stock award, in order to pay the exercise price and/or taxes due upon such event, constitutes a disposition. The cash settlement of a stock option or stock appreciation right constitutes a disposition of the underlying security following a deemed exercise for cash that can qualify for the Rule 16b-3(e) exemption. However, as noted above, if a derivative security (including a "phantom stock" or "stock unit" arrangement) is held in a multi-fund deferred compensation account that allows for reallocation of the account balance among various "investment" alternatives, then cashing out of the derivative security account is not treated as a disposition eligible for the Rule 16b-3(e) exemption, but instead is treated as a "discretionary transaction" that must comply with Rule 16b-3(f) to be exempt.

Like the exemption for "discretionary transactions" provided by Rule 16b-3(f), the exemption provided by Rules 16b-3(d) and 16b-3(e) for approved grants and distributions between the issuer and a director or officer no longer translates into an exemption from Form 4 reporting. Prior to August 29, 2002, pursuant to Rule 16a-3(f), transactions exempt from Section 16(b) pursuant to Rules 16b-3(d) or (e) could be reported in a year-end Form 5. As a result of the Sarbanes-Oxley Act, however, Rule 16a-3(f) now states that a Form 4 must be filed to report "all transactions exempt from Section 16(b) of the Exchange Act pursuant to Exchange Act Rule 16b-3(d), 16b-3(e), or 16b-3(f)." n90

[A] Non-Employee Directors. If relying on approval of a committee of the board of directors to exempt acquisitions or dispositions, the committee must be composed solely of two or more "non-employee directors." The qualification of directors under this standard is tested as of the date the directors vote to approve the transaction. "Non-employee director" is defined under Rule 16b-3(b)(3) as a director who, at the time he or she approves a transaction, (i) is not an executive officer or other employee of the company or a parent or subsidiary of the company, (ii) has not received more than \$120,000 per annum for services as a consultant to or in another capacity (other than as a director) with the company or a parent or subsidiary of the company, (iii) and does not possess an interest in a transaction with the company that is disclosable under Item 404(a).

Note that the definition of a "non-employee director" is based in large part on the disclosure requirements of Item 404, which were substantially revised in 2006. Accordingly, the SEC issued conforming amendments to the "non-employee director" definition. Significantly, the compensation threshold described in (ii) above was raised from \$60,000 to \$120,000, and the former requirement that the director not be engaged in any business relationship with the company that would require disclosure under Item 404 was eliminated. n91 While the heightened compensation allowance will likely allow certain directors who were previously excluded from the definition of "non-employee directors" to qualify as such, other amendments to Item 404 will probably exclude some directors who formerly qualified as "non-employee directors." Specifically, the related transactions disclosure requirement of Item 404, which (iii) above is dependent upon, was amended to include the disclosure of certain director indebtedness transactions, which were previously covered by a separate disclosure requirement. Accordingly, directors who have indebtedness subject to disclosure under amended Item 404 and who formally qualified as "non-employee directors" will no longer qualify as such. n92

In determining whether a transaction or relationship between a company and a director will disqualify the director from being a "non-employee director," the company is permitted to rely on the transactions disclosed in the most recent filing requiring Item 404 disclosures. n93 If a transaction disclosed in such filings was terminated before the director serves as a "non-employee director," then the transaction will not disqualify the director. n94 Additionally, a director will not be automatically disqualified from service as a "non-employee director" even though the director is involved in a current

transaction at the time of service; however, in order to avoid disqualification, the issuer must believe in good faith that the transaction will not require Item 404 disclosure. Further, if the issuer later determines that the transaction does require disclosure, then the director will be disqualified from service as a "non-employee director" at that time, but previous transactions approved by the director will remain exempt under Rule 16b-3 despite such disqualification. n95

[B] Satisfying the Advance Approval Requirements. When relying on stockholder, board, or qualifying committee approval under Rule 16b-3(d) or (e) to exempt a transaction from Section 16(b), the required approval must be addressed to the specific transaction; approval of a plan providing broad discretion to the company to set the terms of individual grants will not satisfy the new stockholder approval standard. n96 This raises a number of issues as to when the approval may be given and how specific it must be. A note to Rule 16b-3 indicates that stockholder, board, or qualifying committee approval will be satisfied if the requisite approval is obtained for a plan or arrangement under which the terms and conditions of a transaction are fixed in advance, such as approval of a formula plan under which the timing, size, term, and method for determining the exercise price of stock options all are specified under the plan. Similarly, if a plan provides that optionees shall have the right to deliver already owned shares to pay the exercise price and/or taxes due upon exercise of an option, then any such transaction occurring under an option issued under the plan will be deemed to have been approved in advance when stockholders, the board, or a qualifying committee approved the plan. In contrast, if the plan provides that a committee may grant optionees the right to deliver already owned shares in such circumstances, then shareholder approval of the plan will not of itself be sufficient to exempt such transactions.

Stockholder, board, or qualifying committee approval may encompass a variety of transactions that are provided for under the terms of the approved plan or the approved grant, even if those transactions are not effected immediately and occur only at the election of the executive officer or director. n97 For example, a committee of non-employee directors can approve the grant of a stock option under an agreement that provides for an increase in the number of shares issuable to reflect dividend equivalent rights, a "cashless exercise" (*i.e.*, that allows the exercise price and/or tax withholding obligation to be paid by the company retaining shares otherwise issuable upon exercise of the option) and a "reload" grant of options. Under Rule 16b-3, the committee approval exempts not only the grant of the option, but also the subsequent issuance of the dividend equivalent shares upon exercise of the option, the deemed delivery of shares to the company through the cashless exercise to pay the exercise price and tax withholding amounts, and the grant of the reload option. Similarly, the staff has indicated that stockholder, board, or qualifying committee approval of provisions addressing the deferral and stock account allocation process under a deferred compensation plan that is not a "tax-conditioned plan" n98 will exempt each election by an officer or director to defer amounts into a stock account under that plan; there need not be approval of each subsequent deferral election. n99

In an interpretive letter issued to the ABA, the staff has also addressed the approval requirements in the context of dispositions that occur under deferred compensation arrangements that do not qualify as "tax-conditioned plans." n100 The staff stated that, with one exception, approval of the cash settlement of derivative securities (such as stock options, stock appreciation rights, "phantom stock," and stock unit rights) that occurs at the time the officer's or director's right to acquire the derivative security is approved will not satisfy Rule 16b-3(e) if the derivative security is issued under an arrangement that gives the officer or director discretion as to the number of derivative securities initially obtained. In other words, if stockholder, board, or qualifying committee approval is obtained for a grant of 500 stock options and the options state that the optionee has the right to cash settlement of the options, the disposition of the option upon the optionee's cash settlement election will be exempt without further approval. If, however, the option is issued under a plan where the number of options granted depends on the amount of compensation that the officer or director had determined to defer and receive in the form of options, then approval of the plan will not necessarily constitute approval of the cash settlement of the options.

One exception exists to the foregoing interpretation. Approval of a deferred compensation arrangement by stockholders, the board, or a qualifying committee will also constitute approval of the cash settlement of derivative securities issued thereunder for purposes of Rule 16b-3(e) if either (i) the date on which cash settlement will occur is fixed under the plan, or (ii) at the time the officer or director elects to receive derivative securities under the deferred compensation

arrangement, the officer or director also elects a fixed date on which cash settlement of the derivative securities will occur and, if the plan allows for intra-plan transfers into accounts that are not derivative securities, the officer or director specifically agrees not to engage in intra-plan transfers out of the derivative security account. If the officer or director subsequently changes the fixed payout date, changes the payout schedule (assuming that amounts are paid out in installments) or engages in an intra-plan transfer out of the derivative security account, then further specific approval for the cash settlement of the derivative securities is required to satisfy the Rule 16b-3(e) exemption. n101

[C] Operation of the Exemptions for Acquisitions and Dispositions. It is possible to "mix and match" exemptions. For example, if stockholders have approved a formula plan that provides for the automatic grant of options, but have not approved a cashless exercise feature as part of the plan, cashless exercises can be exempted through board approval of an amendment to the plan adding the cashless exercise feature. The grant of the options will then be exempt on the basis of the stockholder approval, and the delivery of shares in a cashless exercise will be exempt on the basis of the advance board approval.

When determining which of the alternatives to utilize to exempt transactions, various considerations will come into play. Although approval by the full board may be viewed as most expedient, it may not satisfy the requirements for compensation arrangements to be exempt from the \$1 million limitation on deductibility under IRC Section 162(m). In addition, institutional stockholders increasingly have expressed the view that compensation decisions should be made by outside directors. In other cases, the six-month holding period exemption will prove inadequate. First, it is not available to exempt dispositions. For example, the deemed sale that occurs in a cashless exercise will not be exempt just because the option has been held for more than six months prior to exercise. Second, the six-month holding period condition may not be satisfied if there is a forced disposition of the securities prior to satisfying the six-month period, such as upon an acquisition of the company, a termination of the executive's employment, or a court-ordered disposition in a divorce. Third, the six-month holding period requirement may recommence if the terms of a security are changed, for example through an amendment to the post-termination expiration provisions. Thus, while there are times that the six-month holding period will serve as a useful exemption, it appears likely that advance committee approval will develop as the most common basis for exempting acquisitions and dispositions.

[D] Applicability to Mergers. While it is clear that the Commission intended Rules 16b-3(d) and (e) to be available to exempt transactions arising in the context of a merger, the scope and conditions for the availability of the exemptions in the context of mergers continue to be uncertain. In the 1996 Adopting Release, the Commission stated, "In the context of a merger, the new rule will exempt the disposition of issuer equity securities (including derivative securities) solely to the issuer, provided the conditions of the rule are satisfied. Dispositions of such securities to parties other than the issuer, such as an acquirer, are not covered by the rule and consequently would not be eligible for exemption under the rule." n102 In a significant interpretive letter, the staff endorsed the view that the conversion of target company stock into the right to receive merger consideration and the conversion of target company options into acquiring company options or cash constitute dispositions to the issuer that can be covered by the Rule 16b-3(e) exemption, even though the consideration in such transactions is paid by the acquiring company. The staff also confirmed that the acquisition of acquiring company stock and options by target company insiders who become insiders of the acquiring company can be exempt under Rule 16b-3(d). However, the staff stated that in this context the Rule 16b-3(d) and (e) approval by a board of directors or qualifying compensation committee should satisfy a high level of specificity, including specifically indicating that the approval is granted for purposes of exempting the transactions under Rule 16b-3. n103 Members of the staff stated informally at the time that the degree of specificity called for in this interpretive letter reflected concern over the high potential for speculative abuse in the merger context. Subsequent court cases generally have concurred with the staff's views as to the availability of Rule 16b-3 for transactions occurring in the context of a merger, but have declined to read more into the rule as to the level of specificity required of a Board or qualifying compensation committee to exempt such transactions. In *Atlanta Tele-Network v. Prosser*, n104 the court held that dispositions of shares in a merger were exempt, without regard to whether the Board had specifically manifested an intent to exempt the transactions for purposes of Rule 16b-3. In *Gryl v. Shire Pharmaceuticals Group Plc*, n105 the court held that approval of a merger agreement by an acquiring company's Board was adequate to exempt

the resulting transactions under Rule 16b-3(d) because the approved terms operated in a manner comparable to a "formula plan" under the Rule and did not allow any discretion as to amount, price, timing and exercise terms of the option conversions. Notwithstanding these decisions, counsel generally seeks to document approval of insiders' transactions in the merger context to a degree that satisfies the staff's interpretive letter.

In the highly controversial decision *Levy v. Sterling Holding Co., LLC*,ⁿ¹⁰⁶ the Third Circuit Court of Appeals ruled that transactions must have a "compensatory nexus" in order to be exempt under Rule 16b-3. Accordingly, the court held that the disposition of shares by investors in a recapitalization could not be exempt under Rule 16b-3 where the shares involved had been acquired as part of an investment in a leveraged buy-out. In so ruling, the court not only ignored the SEC's statement in the 1996 Adopting Release that a compensatory purpose is not necessary for exemption,ⁿ¹⁰⁷ but the court also denied a motion for rehearing in which the SEC had submitted an amicus brief urging that the court had improperly restricted the scope of the Rule 16b-3 exemption. Thus, the SEC amended Rule 16b-3 in 2005 to make clear that the exemptions under Rule 16b-3(d) and (e) apply "whether or not [the transactions or dispositions are] intended for a compensatory or other particular purpose."ⁿ¹⁰⁸ In doing so, the SEC explained that the amendments were intended to ensure that Rule 16b-3 was given its intended scope and was not limited by decisions such as *Levy*.ⁿ¹⁰⁹ Because the SEC viewed the amendments as mere clarifications of the Rule, as opposed to substantive changes, the SEC stated that such amendments apply retroactively to all transactions occurring since the 1996 Adopting Release.ⁿ¹¹⁰

[c] Elimination of Old Rule 16b-3 Plan Requirements. As noted above, Rule 16b-3 eliminates many of the traditional requirements imposed on employee benefit plans under past versions of Rule 16b-3. Rule 16b-3: (1) no longer requires plans and material plan amendments to be approved by stockholders; (2) no longer requires that a plan specify limitations on the number of shares issuable or the price at which shares may be issued; (3) no longer requires administration by a committee of "disinterested" administrators; (4) no longer requires a six-month holding period; ⁿ¹¹¹ (5) no longer restricts the transferability of options; and (6) no longer requires there to be a written plan. Notwithstanding the elimination of these requirements from Rule 16b-3, many of these provisions will not disappear from plans. Tax and other securities laws, as well as practical considerations, will influence plan design. For example, notwithstanding Rule 16b-3, companies will continue to submit plans for stockholder approval, both because the New York and American Stock Exchanges and the Nasdaq National Market have stockholder approval requirements ⁿ¹¹² and because the IRC requires stockholder approval of a plan in order for grants under it to qualify for an exemption from the \$1 million limitation on deductible compensation under IRC Section 162(m) or for incentive stock option treatment. ⁿ¹¹³ However, once a plan is approved by stockholders, Rule 16b-3 will no longer limit a company's ability to amend the plan without further stockholder approval. For existing plans that have been approved by stockholders, it will be necessary to see if the terms of the plan require stockholder approval of amendments notwithstanding the absence of such a requirement under Rule 16b-3.

Finally, corporate governance and institutional stockholder considerations will also be relevant. Some institutional stockholders object to inside directors making compensation decisions. In addition, many institutions already have voting guidelines requiring a plan to contain certain provisions, such as a prohibition on option repricings. Some institutions may insist that, even though not required under Rule 16b-3, plans have a provision limiting the company's ability to amend these types of provisions without stockholder approval.

[d] Elimination of Old Rule 16b-3 Exemptions. Rule 16b-3 also eliminates some of the exemptions that companies and insiders traditionally relied on. Before the 1996 rule change, Rule 16b-3 provided that the delivery of already owned stock to exercise an option (a "stock-for-stock exercise") was automatically exempt, and that exercise of a stock appreciation right or a cashless exercise right was exempt if the optionee satisfied the requirements for a "window period" exemption or made a six-month advance irrevocable election. However, Rule 16b-3 eliminates the exemption that specifically covered these transactions. Even if an option was granted prior to the current version of Rule 16b-3 becoming effective, stock-for-stock exercises or other disposition transactions that occur upon exercise of an option must now satisfy the current version of Rule 16b-3. Therefore, to ensure that these transactions will be exempt in

the future, companies should make sure that shareholders, the board of directors or a non-employee director committee approves the terms of each option that was granted prior to November 1, 1996 and that permits a stock-for-stock exercise or a cashless exercise and the terms of each stock appreciation right that allows cash settlement (including "limited" stock appreciation rights that are exercisable for cash only following a change of control). n114

[e] Repeal of the Exemption for Cash-Only Rights. At the same time that the current version of Rule 16b-3 was adopted, the Commission repealed an exemption from the definition of "derivative security" that existed for "cash-only" rights granted under an employee benefit plan. n115 Previously, rights that are payable only in cash and that have a value derived from the value of a company's stock were not reportable and not subject to Section 16(b) if they were either (i) paid out only on a fixed date at least six months after grant or in connection with death, disability, retirement, or termination of employment, or (ii) non-transferable and granted under a written plan by a committee of disinterested directors. However, the Commission grandfathered the status of cash-only arrangements that were granted before August 15, 1996 and were exempt from Section 16 under the 1991 rules. These grandfathered cash-only arrangements remain exempt from reporting and from Section 16(b) liability following August 15, 1996. The impact of the repeal of the exclusion for certain cash-only rights is ameliorated by the fact that it should not be difficult for grants and payouts of most cash-only arrangements to qualify for an exemption under Rule 16b-3. The status of cash-only rights granted prior to August 15, 1996 is discussed further at Section 8.03[2][b][iii].

Exempt cash-only rights granted before August 15, 1996 enjoy a complete exemption from reporting. Even if similar cash-only rights are granted on or after August 15, 1996, the pre-August 15 cash-only rights need not be reflected in the "end-of-month" holding column of a Form 4. Post-August 15, 1996 grants of cash-only rights must be reported as derivative security grants on a Form 4, and are subject to Section 16(b) unless an exemption is satisfied. The payout of a cash-only right is treated by the staff as an exercise of a derivative security and sale of the underlying stock, and therefore must be reported on a Form 4 regardless of whether an exemption is available.

[10] Exemption for Directors and Officers for the Acquisition of a Security by Redemption--Rule 16b-4

Former Rule 16b-4, which provided an exemption for redemptions by the issuer, was rescinded in 1996. n116 However, the broader version of Rule 16b-3, which was adopted in 1996, exempts all transactions by directors and officers with the issuer. n117

[11] Exemption for Transactions Relating to Bona Fide Gifts and Inheritance--Rule 16b-5

Rule 16b-5 n118 provides an exemption from Section 16(b) liability for any acquisition or disposition of an equity security that is a bona fide gift or a transfer of securities by will or the laws of descent and distribution. n119

[12] Exemptions for Certain Exercises, Conversions, and Dispositions of Derivative Securities

Perhaps the most striking and controversial new rule adopted by the Commission in the 1991 comprehensive revision of the Section 16 rules was the broad exemption for exercises of derivative securities contained in Rule 16b-6(b). This Rule in effect reverses decades of generally consistent treatment, by the courts and the Commission, of exercises of options and other derivative securities (other than convertible securities) as "purchases" under Section 16(b). n120

The Commission adopted this exemption because it concluded that the opportunity for speculative abuse arises not at the time of exercise of a derivative security with a fixed exercise price, but rather at the time such derivative security was initially acquired. n121 In the Commission's view, an insider's ability to profit from a change in the market price of a given equity security is essentially the same whether he holds the underlying equity security or a derivative security that may be exercised for or converted into the underlying equity security. n122 Therefore, the Commission adopted Rule 16b-6(a), which provides that, for Section 16(b) purposes, acquiring a derivative security in the nature of a call equivalent position n123 is deemed a purchase and disposing of such a derivative security is deemed a sale, and acquiring a derivative security in the nature of a put equivalent position n124 is deemed a sale and disposing of such a

derivative security is deemed a purchase. n125

Except for certain exercises of out-of-the-money options, warrants, and rights (as discussed below), Rule 16b-6(b) exempts from Section 16(b):

- (1) the closing of a derivative security position as a result of its exercise or conversion, and the acquisition of underlying securities at a fixed exercise price due to the exercise or conversion of a call equivalent position, and
- (2) the disposition of underlying securities at a fixed exercise price due to the exercise of a put equivalent position. n126

Accordingly, Rule 16b-6(b) provides an exemption from Section 16(b) liability for most exercises of options, convertible securities, and other derivative securities. n127

The Rule 16b-6(b) exemption generally does not apply to exercises of options, warrants, or rights that are "out of the money"--that is, at a time that the exercise price is greater than the fair market value of the underlying securities. n128 The conversion of an out-of-the-money convertible security is exempted, however. n129

The applicability of Rule 16b-6(b) is potentially quite broad because the definition of the term "derivative securities" is so broad. For example, exercises, conversions, or exchanges of securities pursuant to the terms of other equity or debt securities, agreements relating to corporate acquisitions, trust instruments, shareholders agreements, or other agreements may be exempted under the Rule. n130 In the case of an exercise of a stock appreciation right for cash, however, Rule 16b-6(b) exempts the surrender of the derivative security and the deemed acquisition of the underlying equity securities, but does not exempt the deemed sale of equity securities. n131

[13] Exemptions for Certain Mergers, Reclassifications, and Consolidations--Rule 16b-7

Rule 16b-7 n132 exempts from Section 16(b) certain transactions in connection with the merger n133 or consolidation of companies when prior to the merger or consolidation at least 85 percent of the securities or over 85 percent of the assets of all of the other companies involved in the merger or consolidation (except the resulting company if the transaction is a consolidation) is owned, directly or indirectly, n134 by the acquiring company. n135 Typically, the exemption is relied on when a company reincorporates in a different state or reorganizes its corporate structure. n136

Rule 16b-7 provides that the following transactions will not be considered to be a purchase or sale under Section 16(b):

- (1) an acquisition of a security of a company pursuant to a merger or consolidation in exchange for a security of a company that prior to the merger, reclassification, or consolidation
 - (a) owned at least 85 percent of the equity securities of all other companies involved in the merger, reclassification, or consolidation (not including the resulting company in the case of a consolidation); n137 or
 - (b) owned over 85 percent of the combined assets of all the companies involved in the merger, reclassification, or consolidation, computed according to their book values prior to the transaction by reference to their most recent available financial statements for a twelve-month period prior to the transaction (or such shorter time as the company has been in existence); n138 and
- (2) a disposition of a security, pursuant to a merger, or consolidation, of a company that prior to the

merger, reclassification, or consolidation

(a) owned at least 85 percent of the equity securities of all other companies involved in the merger, reclassification, or consolidation (not including the resulting company in the case of a consolidation); n139 or

(b) owned over 85 percent of the combined assets of all the companies involved in the merger, reclassification, or consolidation, computed according to their book values prior to the merger, reclassification, or consolidation as determined by reference to their most recent available financial statements for a 12-month period prior to the transaction. n140

In addition to mergers and consolidations, Rule 16b-7 is also applicable to transactions structured as statutory mergers. n141 Liquidations, however, are not covered by the Rule since liquidations "in substance and purpose" do not resemble the types of transactions exempt under the Rule. n142

Rule 16b-7 is unavailable to the extent an insider has made any non-exempt purchase of a security in any company involved in the merger, reclassification, or consolidation and any non-exempt sale of a security in any company involved in the merger, reclassification, or consolidation within any period of less than six months during which the merger or consolidation took place. n143

[14] Exemption for Deposits or Withdrawals Under Voting Trusts or Deposit Agreements--Rule 16b-8

Rule 16b-8 provides an exemption from Section 16(b) for the acquisition or disposition of equity securities as a result of withdrawal from or deposit under a voting trust or deposit agreement if substantially all the assets held under the voting trust or deposit agreement immediately before the withdrawal or immediately after the deposit consisted of equity securities of the class withdrawn or deposited. n144

The exemption is unavailable, however, to the extent that, within a six-month period that includes the date of withdrawal or deposit there has been:

(1) a non-exempt purchase of an equity security of the class deposited and a non-exempt sale of any certificate representing an equity security of that class; n145 or

(2) a non-exempt sale of an equity security of the class deposited and a non-exempt purchase of any certificate representing an equity security of that class, n146

other than an actual deposit or withdrawal of the securities to or from the trust. n147

[15] Section 16(b) Exemption for Securities Acquired in Connection With a Debt Previously Contracted

Section 16(b) provides that its provisions do not apply to a security "acquired in good faith in connection with a debt previously contracted." The receipt of securities in connection with the release of a debt, therefore, will not be deemed to be a purchase under Section 16(b). n148 The security must be delivered in payment of an independent and matured obligation n149 that is legally enforceable. n150 In addition neither preferred stock convertible into common stock n151 nor an employment incentive contract providing for regular remuneration in warrants are debts for the purposes of Section 16(b). n152

[16] Exemption for Market Makers--Section 16(d)

Section 16(d) provides an exemption from liability for short-swing trading under Section 16(b) and from the prohibition

of "short sales" and "sales against the box" of Section 16(c) for the trading activities of dealers acting as market makers. n153 Section 16(d) exempts:

- (1) from Section 16(b), the purchase and sale, or sale and purchase, of an equity security, n154 and
- (2) from Section 16(c), the sale of an equity security,

by a dealer in the ordinary course of business and incident to the establishment or maintenance by such dealer of a primary or secondary market, other than on a national securities exchange or an exchange exempted from registration under Section 5, n155 for the equity security. The Section 16(d) exemption is not available with respect to the sale of an equity security that has at any time since its purchase been held by the dealer in an investment account. n156

The Commission has concluded that a transaction on a national securities exchange incident to the establishment or maintenance of a domestic or foreign over-the-counter market is exempted by Section 16(d), if the transaction is in the ordinary course of the market-maker's business in providing liquidity in the over-the-counter market and the securities purchased on a national securities exchange are held in the dealer's trading account to be used solely for providing liquidity and not for investment. n157

Although Section 16(d) does not provide an express exemption from reporting obligations to market-makers, the Commission and its staff have taken the interpretive position that the exemption applies to market-maker's reporting obligations. n158 The Commission had proposed the adoption of a rule to codify these interpretations as part of its comprehensive revision to the Section 16 rules, n159 but the Commission determined not to adopt the proposed exemptive rule. n160

[17] Exemption for Certain Foreign Issuers--Rule 3a12-3

Rule 3a12-3 under the Securities Exchange Act exempts the securities of certain foreign issuers from all requirements under Section 16. The Rule exempts securities of foreign issuers authorized to file registration statements on Form 18 and securities of foreign private issuers eligible to file Form 20-F. n161

[18] Exemption for Arbitrage Transactions--Section 16(e)

Section 16(e) and Rule 16e-1 n162 provide an exemption for foreign and domestic arbitrage transactions effected by:

- (1) holders of more than ten percent of any class of any registered equity security of an issuer, from all the provisions of Section 16; n163 and
- (2) directors and officers of that issuer, from Section 16(c).

There are two forms of arbitrage transactions:

- (1) "place arbitrage," in which a security is purchased and sold in two different markets at about the same time; and
- (2) "kind arbitrage," in which closely related securities, *e.g.*, a convertible security and the security into which it can be converted, are purchased and sold in the same market at about the same time. n164

Since the key feature of an arbitrage transaction is a simultaneous purchase and sale of securities, a substantial interval between the date of the purchase and the date of sale will make the exemption unavailable. n165

[19] Exemptions from Section 16(c)

[a] Exemption for Certain Transactions by Brokers--Rule 16c-1. Rule 16c-1 n166 exempts from the short-sale prohibitions of Section 16(c) transactions by a broker involving the execution of an order for an account in which the broker has no direct or indirect interest. Rule 16c-1 therefore exempts a broker's transactions as agent from Section 16(c).

[b] Exemption from Section 16(c) of Certain Transactions Effected in Connection With a Distribution--Rule 16c-2. Rule 16c-2 n167 exempts the sale of a security by or on behalf of a dealer in connection with the distribution of a substantial block of securities from Section 16(c)'s prohibition of short sales if the sale is represented by an over-allotment in which the dealer is participating as a member of an underwriting group, n168 or the dealer or a person acting on his behalf intends in good faith to offset the sale with a security to be acquired by or on behalf of the dealer as a participant in an underwriting, selling, or soliciting-dealer group of which the dealer is a member at the time of the sale, whether or not the security to be acquired is subject to a prior offering to existing security holders or some other class of persons. n169

[c] Exemption for Sales of Securities to be Acquired--Rule 16c-3. An insider entitled to receive a security as an incident of ownership of an issued security "when issued" or "when distributed" without the payment of consideration may sell the security to be acquired without violating Section 16(c), which prohibits "short sales" and "sales against the box," if:

- (1) the sale of the security to be acquired is subject to the same conditions as those attached to the right of acquisition; n170
- (2) the insider exercises reasonable diligence to deliver the security to the purchaser promptly after the right of acquisition matures; n171 and
- (3) the insider reports the sale under Section 16(a). n172

Rule 16c-3, however, does not exempt a transaction in which both a sale of a security "when issued" or "when distributed" and a sale of securities of the class to be issued or distributed occurs if the two transactions combined result in a sale of more securities than the aggregate of those securities actually owned by the selling insider plus those to be received by the selling insider under his right of acquisition. n173

[d] Exemption for Possible Short Sales Relating to Fully-Hedged Derivative Securities Transactions--Rule 16c-4. Rule 16c-4 provides an exemption from Section 16(c)'s short-sale prohibition for transactions in derivative securities that establish or increase a put equivalent position "so long as the amount of securities underlying the put equivalent position does not exceed the amount of underlying securities otherwise owned." n174 This exemption permits an insider to acquire a put option, write a call option, or otherwise acquire a derivative security that permits or obligates the insider to dispose of underlying equity securities of the issuer without being deemed to violate Section 16(c) if the derivative security position is "fully-hedged" by ownership of the underlying securities.

As an initial matter, it is not clear that transactions in derivative securities represent Section 16(c) "sales" that need an exemption. The Commission apparently intended that, under the current Rules, establishing or increasing a "put equivalent position" (defined in Rule 16a-1(h)) would be treated as a short sale. n175 But, as adopted, the current Rules do not explicitly carry out this intent. n176 Of course, a court might still accept that, under the terms of Section 16(c), the acquisition of a put option or the writing of a call option with a fixed exercise price represents a "sale" of securities not owned for purposes of Section 16(c).

It is clear that an acquisition of a put option or writing of a call option will only be exempt under Rule 16c-4 if the insider "owns" a number of shares equal to the number underlying the put or call option at the time it is acquired or

written. Rule 16c-4's "so long as" phrase may also mean that the exemption could be lost if, after such a put or call option is acquired or written and while it is still outstanding, the insider disposes of securities that underlie the put equivalent position, so that he no longer "owns" securities at least equal to the number of securities underlying the put equivalent position. n177 Rule 16c-4, as originally proposed, clearly provided for such a retroactive loss of the exemption if the insider reduced his ownership of the underlying securities in such manner, but the Commission changed the wording of the final Rule, without explanation, to make the Rule ambiguous on this point. n178

The exemption does not apply to a short sale of actual equity securities of the issuer that are hedged by ownership of a call option or other derivative security entitling the insider to acquire a number of equity securities equal to the short position (an offsetting "call equivalent position" as defined in Rule 16a-1(b)). n179 It is unclear, however, whether Rule 16c-4 exempts acquisitions of put equivalent positions that are fully hedged by call equivalent positions. n180

(n29)Footnote 29. Rule 16a-2(d)(1)(iii).

(n30)Footnote 30. Rule 16a-2(d)(1)(iv).

(n31)Footnote 31. For example, on January 1, 1981, E is appointed the executor of the estate of D, who was a director of C, a company with a class of equity securities registered under Section 12. D had purchased 50,000 shares of C stock on December 1, 1980. The estate holds 100,000 shares of common stock of C, representing 10.1% of the outstanding shares of the class. E's sale of 50,000 shares of this stock on February 1, 1981 is not subject to Section 16(a) or Section 16(b). Sec. Exch. Act Rel. No. 34-18114, Fed. Sec. L. Rep. (CCH) P 26,062, Question 42 (1981).

(n32)Footnote 32. Rule 16a-2(d)(2).

Thus, in the example in note 31 *supra*, the executor would not be subject to Section 16(a) or Section 16(b) after the 12-month grace period has expired if the estate is no longer a more than 10% security holder.

(n33)Footnote 33. See Sec. Act Rel. No. 34-26333, Fed. Sec. L. Rep. (CCH) P 84,343 Pt. II.B.2 (Dec. 2, 1988). The Commission staff has also taken the position that transactions exempt under Rule 16a-2(d)(1) disposing of securities within six months after the grant of such securities in a transaction intended to be exempted by Rule 16b-3(d)(3) will not cause the loss of the Rule 16b-3(d)(3) exemption for the original *grant* even though the securities were disposed of before the expiration of the six-month holding period required by Rule 16b-3(d)(3). See American Society of Corporate Secretaries, SEC No-Action Letter (Dec. 11, 1996).

(n34)Footnote 34. Sec. Exch. Act Rel. No. 34-4754 (1952).

(n35)Footnote 35. *Id.*

(n36)Footnote 36. A bank (and other possible fiduciaries identified in Rule 16a-1(a)(1)) could possibly exclude the estate's securities from this ten-percent calculation if it is acting as a fiduciary in the ordinary course of business without any purpose or effect of changing or influencing control of the issuer. If the fiduciary becomes a 10% security holder under Rule 16a-1(a)(1), the temporary exemption under Rule 16a-2(d) would apparently allow the fiduciary to not report, and avoid potential liability with respect to, transactions involving securities held by the estate (apparently even if the fiduciary has a pecuniary interest in such transactions), but he would be obligated to file a Form 3 and would be subject to reporting and potential liability with respect to transactions involving other securities in which he has a pecuniary interest. This represents a substantial change from prior law. See *generally* II Loss, *Securities Regulation* at 1110-11 (2d ed. 1961 Supp. 1969).

(n37)Footnote 37. See § 8.02 *supra*. For example, an unaffiliated underwriter could become a more than 10% security holder of an issuer because of its purchase of 25% of a new offering of the issuer on a firm commitment basis. See Sec. Exch. Act Rel. No. 34-018114, Fed. Sec. L. Rep. (CCH) P 26,062, Question 85 (1981). Although Rule 16a-7 provides an exemption from reporting, it would not appear to allow the underwriter to exclude the shares acquired in the distribution from its calculation of beneficial ownership of 10% of the outstanding class for purposes of Rule 16a-1(a)(1). Thus, participation in the underwriting could result in the underwriter becoming a 10% security holder of the issuer required to file a Form 3, and subject to further reporting and potential liability with respect to issuer securities in which it has a pecuniary interest. Even if the Rule 16a-7 exemption were unavailable, an acquisition of securities that causes an underwriter to become an insider (as a 10% security holder) could not be matched with a sale after the underwriter has insider status to yield short-swing profits liability. See *Foremost-McKesson, Inc. v. Provident Sec. Co.*, 423 U.S. 232 (1976); *Editek, Inc. v. Morgan Capital, LLC*, 150 F.3d 830, 831 (8th Cir. 1998); *Colan v. Monumental Corp.*, 713 F.2d 330, 334 (7th Cir. 1983).

(n38)Footnote 38. Rule 16a-7 is the successor to old Rule 16b-2. Release No. 34-26333, Fed. Sec. L. Rep. (CCH) P 84,343 Pts. III.B.2 & VI.A.2 (Dec. 2, 1988). The new Rule expands on old Rule 16b-2 by exempting underwriting transactions from reporting as well as liability, and deletes a requirement that persons not subject to Section 16(b) participate in the underwriting on terms at least as favorable as those on which the insider is participating and to an extent at least equal to the combined participation of all persons exempted under old Rule 16b-2. Thus, under new Rule 16a-7 an insider underwriter's participation may exceed 50% of the aggregate offering. See Release No. 34-28869, Fed. Sec. L. Rep. (CCH) P 84,709 Pt. VIII.C. (Feb. 8, 1991) (overruling prior interpretations in Sec. Exch. Act Rel. No. 34-18114, Fed. Sec. L. Rep. (CCH) P 26,062, Question 84 (1981)).

(n39)Footnote 39. Typically, an underwriter or selling dealer would look to the exemption under new Rule 16a-7. See Sec. Act Rel. No. 34-26333, Fed. Sec. L. Rep. (CCH) P 84,343 Pt. III.B.2. (Dec. 2, 1988).

(n40)Footnote 40. Rule 16a-7(a)(1).

(n41)Footnote 41. Rule 16a-7(a)(2)(i).

(n42)Footnote 42. Rule 16a-7(a)(2)(ii).

See also Sec. Exch. Act Rel. No. 34-18114, Fed. Sec. L. Rep. (CCH) P 26,062, Question 82 (1981).

(n43)Footnote 43. Rule 16a-7(b).

(n44)Footnote 44. Rule 16a-5 continues the exemption provided under old Rule 16a-5 without substantive change. *See* Release No. 34-26333, Fed. Sec. L. Rep. (CCH) P 84,343 Pt. III.B.2 (Dec. 2, 1988).

(n45)Footnote 45. *See* § 3.02 *supra* for discussion of odd-lot dealers.

(n46)Footnote 46. Sec. Exch. Act Rel. No. 34-18114, Fed. Sec. L. Rep. (CCH) P 26,062, Questions 44, 45 (1981).

An odd-lot dealer who takes a position on the long or short side in excess of that necessary to transact his odd-lot business is not entitled to the exemption. *Id.* at Question 45.

(n47)Footnote 47. Rule 16a-6 is the successor to old Rule 16a-9. The old Rule was styled an "exemption" from Section 16(a) reporting, although, like new Rule 16a-6, the Rule required reporting of small transactions covered by the exemption in the next Form 4 otherwise filed. Although the apparent reporting exemption of old Rule 16a-9 could have been viewed as providing an exemption from Section 16(b) liability in conjunction with old Rule 16a-10, the Commission has indicated that it did not view old Rules 16a-9 and 16a-10 as providing such a liability exemption. *See* Release No. 34-26333, Fed. Sec. L. Rep. (CCH) P 84,343 Pt. III.B.3. (Dec. 2, 1988). Rule 16a-10 reflects a change from old Rule 16a-10 specifying that the exemption from Section 16(b) liability for transactions exempted from reporting does not apply to transactions covered by Rule 16a-6. Release No. 34-26333, Fed. Sec. L. Rep. (CCH) P 84,343 Pt. VI.A.3 (Dec. 2, 1988).

(n48)Footnote 48. Rule 16a-6(a)(1).

(n49)Footnote 49. Rule 16a-6(a)(2).

(n50)Footnote 50. The exclusion from Rule 16a-6 of transactions with the issuer and under issuer-sponsored employee benefit plans was adopted as of August 29, 2002, as part of the amendments implementing two-business day reporting mandated by the Sarbanes-Oxley Act. One result has been subjecting needlessly small transactions to two-business day reporting, such as acquisitions pursuant to dividend equivalent features under employee benefit arrangements unless the exemption under Rule 16a-11 is available.

(n51)Footnote 51. Rule 16a-6(b).

(n52)Footnote 52. Rule 16b-1(a) is the successor to old Rule 16b-1. Release No. 34-26333, Fed. Sec. L. Rep. (CCH) P 84,343 Pt. III.B.1 (Dec. 2, 1988). The new Rule is substantially the same as old Rule 16b-1, except that it has been broadened to codify interpretations of the Commission staff that allowed reliance on exemptive rules under Section 17(a) of the Investment Company Act as well as exemptive orders under Section 17(b) of that Act. *See id.*, *see also* Sec. Exch. Act Rel. No. 34-18114, Fed. Sec. L. Rep. (CCH) P 26,062, Question 81 (1981); Asset Investors Fund, Inc., Fed. Sec. L. Rep. (CCH) P 82,401 (Div. Corp. Fin. 1979).

(n53)Footnote 53. Section 17(b) of the Investment Company Act permits the Commission to exempt a proposed transaction from all or part of Section 17(a) of that Act. Exemptions are also set forth in Rules 17a-1 to 17a-8 under the Investment Company Act.

(n54)Footnote 54. Rule 16b-1(b) is the successor to old Rule 16b-4, and is substantially the same as old Rule. Sec.

Act Rel. No. 34-26333, Fed. Sec. L. Rep. (CCH) P 84,343 Pt. VI.B.1 (Dec. 2, 1988).

(n55)Footnote 55. Rule 16b-1(b) does not require a formal order of the Commission to ensure the availability of the exemption. Sec. Exch. Act Rel. No. 34-18114, Fed. Sec. L. Rep. (CCH) P 26,062, Question 132 (1981).

(n56)Footnote 56. Release No. 34-37260, 61 Fed. Reg. 30376 (June 14, 1996) ("1996 Adopting Release").

(n57)Footnote 57. Other amendments to the rules and forms under Section 16 that were adopted at the same time (i) make phantom stock and other "cash only" rights subject to Section 16; (ii) eliminate the reporting requirement for certain transactions, but create an on-going duty to monitor and account for such transactions when filing Forms 4 and 5; (iii) accelerate the reporting of option exercises by requiring them to be reported on Form 4 by the 10th day of the month following the exercise; (iv) require companies disclosing late Section 16 filers in their proxy statements to present the information under a separate caption; and (v) amend various other definitions and exemptions.

(n58)Footnote 58. Companies could elect to rely on the amended rule at any time on or after August 15, 1996.

(n59)Footnote 59. Exchange Act Rel. No. 26333 (Dec. 2, 1988).

(n60)Footnote 60. Exchange Act Rel. No. 27148 (Aug. 19, 1989).

(n61)Footnote 61. Exchange Act Rel. No. 28869, 56 Fed. Reg. 7242 (Feb. 21, 1991).

(n62)Footnote 62. In connection with adoption of the 1991 rules, the exemption that formerly covered transactions occurring in ERISA-qualified employee benefit plan trusts was prospectively repealed.

(n63)Footnote 63. The "phase-in period" during which companies could rely on the pre-1991 version of Rule 16b-3 was extended in five successive years, eventually lasting until November 1, 1996. Release No. 34-37261, 61 Fed. Reg. 30396 (June 14, 1996).

(n64)Footnote 64. *Byrne v. Lord*, Fed. Sec. L. Rep. (CCH) P 98,987 (Del. Ch. 1995) (directors breached fiduciary duty in granting options to themselves).

(n65)Footnote 65. Release No. 34-52202, 70 Fed. Reg. 46080 (Aug. 9, 2005) ("August 2005 Release") (amending sections (d) and (e) of Rule 16b-3 to clarify that qualifying transactions under such sections are exempted "whether or not intended for a compensatory or other particular purpose").

(n66)Footnote 66. See August 2005 Release at n.53 (stating that investors' interests will continue to be protected despite the exemptions of Rule 16b-3 due to the various prohibitions of Rule 10b-5).

(n67)Footnote 67. Though not expressly included within the Rule's definition of "director," the SEC recently submitted an amicus curiae brief to the court in *Dreiling v. American Express Co.*, 458 F.3d 942 (9th Cir. 2006), in which it stated that, for purposes of Rule 16b-3(d), "director" includes "directors by deputization." *Id.* at 952. A director by deputization is "a corporation, partnership, trust or other person [who] has expressly or impliedly 'deputized' an individual to serve as its representative on a company's board of directors." Release No. 34-26333, 53 Fed. Reg. 49997, text following n.49 (Dec. 13, 1988). However, a transaction with a director by deputization will not be exempt if the board did not know of the deputization at the time it approved the transaction. *Dreiling*, 458 F.3d at 952. The Court of Appeals for the Ninth Circuit accepted the Commission's interpretation, holding "directors by deputization are entitled to seek the protection of Rule 16b-3(d) to the same extent, and on the same terms, as an individual director or officer." *Id.* at 953.

(n68)Footnote 68. 1996 Adopting Release at n.17.

(n69)Footnote 69. 1996 Adopting Release, text following n.43; see also August 2005 Release, text following n.40.

(n70)Footnote 70. Adopting Release, text at n.43.

(n71)Footnote 71. Securities Act Release No. 6188, 45 Fed. Reg. 8962 (Feb. 1, 1980), describes certain conditions under which open market purchase plans do not require registration under the Securities Act of 1933.

(n72)Footnote 72. See Rule 16a-3(f).

(n73)Footnote 73. *Id.*

(n74)Footnote 74. The effect of the conditional exemption for "discretionary transactions" will depend on how intra-plan transfers are administered under a particular plan. Under certain plans, participants may only designate the percentage of their account to be invested in various investment funds. Any decision to increase the percent allocated to one investment will result in a prorated reduction of the amounts invested in each other fund. Thus, once a participant has allocated amounts to the company stock fund, any reallocation of account balances will result in a "discretionary transaction." In contrast, discretionary transactions should occur less often if the plan permits participants to choose the account from which an intra-plan transfer will be made.

(n75)Footnote 75. A company stock fund may include a mixed equity fund unless the company's securities did not comprise more than 20% of the fund's assets as of the end of the most recent fiscal year. American Bar Association, SEC No-Action Letter (June 28, 1993).

(n76)Footnote 76. The staff has interpreted this provision liberally to include transactions under tax-qualified plans that satisfy the requirements of IRC Section 401(a)(9) and 401(a)(28) as to timing and amount of distributions, but that are more generous to participants than required under the IRC and that are available to all plan participants on a non-discriminatory basis. American Society of Corporate Secretaries, SEC No-Action Letter, Question 7 (Dec. 11, 1996); American Bar Association, SEC No-Action Letter, Question 3 (Dec. 20, 1996).

(n77)Footnote 77. American Bar Association, SEC No-Action Letter, Question 2 (Dec. 20, 1996) ("[T]he cash-out of a derivative security, such as a phantom stock unit, held in a multi-fund plan that permits fund switching is a Discretionary Transaction. Further, a cash-out from an issuer stock fund, such as a common stock fund,... is a Discretionary Transaction eligible for exemption pursuant to Rule 16b-3(f), whether the plan is single-fund or multi-fund.").

(n78)Footnote 78. Joseph A. Grundfest, *et al.*, SEC No-Action Letter (Aug. 18, 1991).

(n79)Footnote 79. American Bar Association, SEC No-Action Letter, Question 2 (Dec. 20, 1996).

(n80)Footnote 80. American Society of Corporate Secretaries, SEC No-Action Letter, Question 3 (Dec. 20, 1996).

(n81)Footnote 81. Technically, the "required to be made available" standard is an exception from the definition of a "discretionary transaction," discussed above, for a transfer into or out of a company stock fund under a plan. In the context of a tax-conditioned plan, if a transaction is not a "discretionary transaction," it qualifies for the blanket exemption for all other transactions. For an example of IRC provisions permitting transfers out of a company stock fund that is required to be made available, see IRC § 401(a)(28)(B), which provides that ESOP participants age 55 and older must be provided a right to diversify ESOP account into other investments.

(n82)Footnote 82. American Society of Corporate Secretaries, SEC No-Action Letter, Question 3 (Dec. 11, 1996).

(n83)Footnote 83. 1996 Adopting Release n.47; Peter J. Romeo & Alan L. Dye, *The Section 16 Deskbook* § V.C.3.a. (2006)..

(n84)Footnote 84. There was concern that these types of plans may not be viewed as involving transactions with the company because, to avoid registration under the Securities Act of 1933, the company's involvement with such

plans is limited to ministerial functions. Release No. 33-6188, 45 Fed. Reg. 8960, Part III.B.1. (Feb. 1, 1980).

(n85)Footnote 85. American Bar Association, SEC No-Action Letter (Oct. 15, 1999); Peter J. Romeo & Alan L. Dye, *The Section 16 Deskbook* § V.C.3.c.2. (2006).

(n86)Footnote 86. American Bar Association, SEC No-Action Letter (Oct. 15, 1999); Peter J. Romeo & Alan L. Dye, *The Section 16 Deskbook* § V.C.3.c.2. (2006).

(n87)Footnote 87. The new rules thus reverse *Sonnenschein Nath & Rosenthal*, SEC No-Action Letter (July 19, 1995), which stated that the 1991 version of Rule 16b-3 was available for excess plans only if transactions conducted by persons subject to Section 16 mirror those conducted in the qualified plan.

(n88)Footnote 88. In contrast, in *Sonnenschein*, the staff confirmed that distributions from excess plans need not mirror those under the qualified plan. *Sonnenschein Nath & Rosenthal*, SEC No-Action Letter (July 19, 1995).

(n89)Footnote 89. For stock acquired through dividend reinvestments or dividend equivalent rights, the six-month holding period dates from the date of the acquisition of the option or stock to which the dividend relates. The six-month holding period is deemed to be satisfied if the officer or director dies before the six months are over. American Society of Corporate Secretaries, SEC No-Action Letter, Question 6 (Dec. 11, 1996).

(n90)Footnote 90. *See* Rule 16a-3(f).

(n105)Footnote 105. 298 F.3d 136 (2d Cir. 2002).

(n106)Footnote 106. 314 F.3d 106 (3d Cir. 2002).

(n107)Footnote 107. "A transaction need not...to be exempt...specifically have a compensatory element."

(n108)Footnote 108. Release No. 34-52202, 70 Fed. Reg. 46080 (Aug. 9, 2005) ("August 2005 Release").

(n109)Footnote 109. *See id.* (referring to the *Levy* decision as a "restrictive and unintended construction" of the scope of Rule 16b-3's exemptions).

(n110)Footnote 110. *Id.*; *see Tinney v. Geneseo Communs., Inc.*, 457 F. Supp. 2d 495 (D. Del. 2006) (accepting the SEC's interpretation that the amendments apply retroactively). Note that the *Levy* plaintiff has challenged the validity of the amendments in a pending lawsuit. *See Levy v. SEC*, 462 F. Supp. 2d 64 (D.D.C. 2006).

(n111)Footnote 111. The 1991 version of Rule 16b-3 exempting grant and award transactions required a six-month holding period between grant and disposition of any security. As a transition rule, such a six-month holding period was applied to options granted under the pre-1991 version of Rule 16b-3, as a condition to the exercise of such options to be exempt. Release No. 28869 at Part VII.B. Both the 1991 version and the pre-1991 version of Rule 16b-3 imposed a six-month holding period on stock appreciation rights and cashless exercise rights.

(n112)Footnote 112. *See* New York Stock Exchange Listed Company Manual P 312; NASD Manual, Schedule D, Part III § 4(i)1(a) (national market criteria); American Stock Exchange Company Guide § 711.

(n113)Footnote 113. IRC Reg. 1.162-27(3)(4); IRC § 422(b)(1).

(n114)Footnote 114. American Society of Corporate Secretaries, SEC No-Action Letter, Question 2 (Dec. 11, 1996) (approval by committee of directors satisfying requirements under former but not new Rule 16b-3 is not sufficient).

(n115)Footnote 115. *See* Rule 16a-1(c)(3).

(n116)Footnote 116. *See* 1996 Adopting Release.

(n117)Footnote 117. *See* § 8.06[9] *supra*; 1996 Adopting Release.

(n118)Footnote 118. Rule 16b-5, which became effective May 1, 1991, is a successor to old Rule 16a-9(b) as it relates to gifts and is substantially new as it relates to inheritances. *See* Sec. Act Rel. No. 34-26333, Fed. Sec. L. Rep. (CCH) P 84,343 VI.B.2. (Dec. 2, 1988). Significantly, old Rule 16a-9(b) exempted gift transactions only if the aggregate value did not exceed \$10,000 during any six-month period, while new Rule 16b-5 exempts bona fide gift transactions regardless of the value of the securities. *See id.*

Of course, the courts had consistently held that bona fide gift transactions do not constitute "sales" under Section 16(b). *Portnoy v. Memorex Corp.*, 667 F.2d 1281 (9th Cir. 1982); *Shaw v. Dreyfus*, 172 F.2d 140 (2d Cir.), *cert. denied*, 337 U.S. 907 (1949); *Lewis v. Adler*, 331 F. Supp. 1258 (S.D.N.Y. 1971); *Blau v. Albert*, 157 F. Supp. 816 (S.D.N.Y. 1957); *Truncale v. Blumberg*, 80 F. Supp. 387 (S.D.N.Y. 1948). *See also* § 8.04[2][a] *supra* for discussion of the status of gifts as purchases or sales. The Commission asserted that limiting the exemption under old Rule 16a-9(b) to small gifts may have undercut the holdings of these cases, although a court presumably would have recognized that the Commission is free to exempt or not exempt transactions without regard to whether such transactions are purchases or sales. *See* Release No. 34-26333, Fed. Sec. L. Rep. (CCH) P 84,343 Pt. VI.B.2 (Dec. 2, 1988).

Transactions relating to bona fide gifts and inheritances that are exempted under Rule 16b-5 need not be reported on a

Form 4 within two business days of the date of the transaction, but must be reported on the year-end Form 5 (unless earlier reported voluntarily on a Form 4). Rule 16a-3(f)(1); Rule 16a-3(g); *see also* § 8.03 *supra* (discussing the filing of Form 4 and Form 5 reports.)

(n119)Footnote 119. The Commission staff has concluded that, where a broker advances funds to the issuer to pay the exercise price of an insider's option, immediately sells the underlying stock (in a cashless exercise transaction), and pays part of the proceeds to offset its advance of the exercise price on behalf of the insider and donates the remaining proceeds to a charity, the portion of the option shares the proceeds of which are donated to the charity may be deemed to be disposed of by a gift transaction exempt under Rule 16b-5, but the portion of the shares the proceeds of which repays the broker its advance of the exercise price is not exempt by Rule 16b-5. *See* Dean Witter Reynolds Inc. (Div. Corp Fin., Jan. 3, 1992). In contrast, the staff concluded that a bona fide gift of equity securities purchased on margin or subject to a loan is eligible for the exemption under Rule 16b-5, even if the donee assumes liability for the loan as part of the gift. *See* Cravath, Swaine & Moore (Div. Corp. Fin., Feb. 25, 1992).

(n120)Footnote 120. *See, e.g., Morales v. Napco, Inc.*, 541 F.2d 233 (10th Cir. 1976) ; *Blau v. Ogsbury*, 210 F.2d 426 (2d Cir. 1954) ; *Morales v. Reading & Bates Offshore Drilling Co.*, 392 F. Supp. 41 (N.D. Okla. 1975) ; *see also* § 8.04[2][e] *supra*.

Once before, in the early 1950s, the Commission attempted to exempt option exercises. *See* Sec. Exch. Act Rel. No. 28869, Fed. Sec. L. Rep. (CCH) P 84,709 Pt. III.A (Feb. 8, 1991). As originally adopted, Rule 16b-3 exempted exercises of non-transferable options under plans meeting the requirements of the Rule. Several courts concluded that such an exemption was not consistent with the purposes of Section 16 because, in the courts' view, option exercises within six months of sales of the underlying stock could give rise to speculative abuse. *See Greene v. Dietz*, 247 F.2d 689, 696 (2d Cir. 1957) (dicta); *Perlman v. Timberlake*, 172 F. Supp. 246, 251-54 (S.D.N.Y. 1959) . *But see Perlitz v. Continental Oil*, 176 F. Supp. 219 (S.D. Tex. 1959) (upholding the exemption for option exercises). The Commission subsequently amended the Rule to eliminate the exemption for option exercises. *See* Sec. Exch. Act Rel. No. 34-6275 (1960). The Commission pointed out that its comprehensive approach, treating acquisitions of derivative securities as purchases (and, in some cases, sales) provided adequate protection from speculative abuse and therefore distinguished Rule 16b-6(b) from the exemption struck down in the late 1950s. Sec. Exch. Act Rel. No. 34-28869, Fed. Sec. L. Rep. (CCH) P 84,709 Pt. III.A (Feb. 8, 1991).

(n121)Footnote 121. *See* Sec. Exch. Act Rel. No. 28869, Fed. Sec. L. Rep. (CCH) P 84,709 Pt. III.A (Feb. 8, 1991).

Subject to certain exceptions, the term "derivative securities" means "any option, warrant, convertible security, stock appreciation right, or similar right with an exercise or conversion privilege at a price related to an equity security, or similar securities with a value derived from the value of an equity security." Rule 16a-1(c). Instruments excluded from the definition of "derivative securities" are described in paragraphs (1) to (7) under Rule 16a-1(c).

(n122)Footnote 122. *See id.*

(n123)Footnote 123. A "call equivalent position" is defined to mean "a derivative security position that increases in value as the value of the underlying equity increases, including, but not limited to, a long convertible security, a long call option, and a short put option position." Rule 16a-1(b).

(n124)Footnote 124. A "put equivalent position" is defined to mean "a derivative security position that increases in value as the value of the underlying equity decreases, including, but not limited to, a long put option and a short call option position." Rule 16a-1(h).

(n125)Footnote 125. Rule 16b-6(a).

(n126)Footnote 126. Rule 16b-6(b).

(n127)Footnote 127. Exercises of convertible securities were generally exempt under old Rule 16b-9, subject to certain conditions. Rule 16b-6(b) is the successor to old Rule 16b-9, which has been deleted.

(n128)Footnote 128. Sec. Exch. Act Rel. No. 28869, Fed. Sec. L. Rep. (CCH) P 84,709 Pt. III.A (Feb. 8, 1991). An exercise of an option, warrant or right that is "at-the-money"--that is, the same as the market price of the underlying equity securities--is exempt under the Rule. *Id.*

The determination of whether an option, warrant, or right is "out-of-the-money" is a factual one. *See* CSX Corp., Fed. Sec. L. Rep. (CCH) P 79,758 (Div. Corp. Fin., Aug. 30, 1991) (Commission staff refused to state a view on whether favorable financing terms might result in an exercise price, the face amount of which might exceed the market price of the underlying securities on a given exercise date, being deemed to be not "out-of-the-money").

The Rule makes an exception, however, to permit exempt exercises of out-of-the-money options 'necessary to comport' with the sequential exercise requirement applicable to incentive stock options granted before 1987 under then-*Section 422A of the Internal Revenue Code of 1954*, as amended. The old sequential exercise requirement, eliminated for incentive stock options granted after 1986, did not permit the exercise of a later-granted incentive stock option until all previously granted incentive stock options had been exercised.

(n129)Footnote 129. *See* Sullivan & Cromwell, Fed. Sec. L. Rep. (CCH) P 79,687 (Div. Corp. Fin., Apr. 30, 1991).

(n130)Footnote 130. *See, e.g.,* Marion Merrell Dow, Inc. (Div. Corp. Fin., Jan. 24, 1992); The Taylor Voting Trust (Div. Corp. Fin., Jan. 3, 1992); Hechinger Co., C.C.H. Fed. Sec. L. Rep. P 79,772 (Div. Corp. Fin., Sept. 17, 1991); ALZA Corp., C.C.H. Fed. Sec. L. Rep. P 79,720 (Div. Corp. Fin., July 17, 1991); National Medical Enterprises, Inc., C.C.H. Fed. Sec. L. Rep. P 79,672 (Div. Corp. Fin., Apr. 23, 1991).

(n131)Footnote 131. *See, e.g.,* Anheuser-Busch Cos., Inc. (Div. Corp. Fin., Nov. 27, 1991); CSX Corp., C.C.H. Fed. Sec. L. Rep. P 79,758 (Div. Corp. Fin., Aug. 30, 1991); Simpson Thacher & Bartlett, C.C.H. Fed. Sec. L. Rep. P 79,686 (Div. Corp. Fin., Apr. 30, 1991).

See also Marion Merrell Dow, Inc. (Div. Corp. Fin., Jan. 24, 1992) (implying that the deemed purchase upon redemption of a "contingent value right," in the nature of a "stock depreciation right," is not exempt under Rule 16b-6(b), although the staff's position is not at all clear); Cravath, Swaine & Moore, C.C.H. Fed. Sec. L. Rep. P 79,699 (Div. Corp. Fin., May 6, 1991) (reporting of exercise of stock appreciation right requires separate reporting of the deemed acquisition of actual stock and the deemed disposition of the actual stock on Table I of Form 4 or Form 5).

(n132)Footnote 132. Rule 16b-7 is the successor to old Rule 16b-7, which was revised in minor ways in connection with the adoption of the new Section 16 rules in 1991. *See* Release No. 34-28869, Fed. Sec. L. Rep. (CCH) P 84,709 Pt. VIII.A (Feb. 8, 1991).

(n133)Footnote 133. A "merger" is defined under the Rule as including the sale or purchase of substantially all the assets of one company to or by a second company in exchange for equity securities that are then distributed to the security holders of the company that sold its assets. Rule 16b-7(b).

(n134)Footnote 134. The Division of Corporation Finance has taken the position that the Rule applies to indirect as well as direct ownership if the merger or consolidation does not result in a significant change in the character or structure of the company. Sec. Exch. Act Rel. No. 18114, Fed. Sec. L. Rep. (CCH) P 26,062, Question 143 (1981). For example, Corporation X enters into an agreement with its wholly owned subsidiary, Corporation Y, whereby Y would become the parent of X through an exchange of shares and the merger of a wholly-owned shell subsidiary of Y,

Corporation S, into X. X indirectly owns 100% of the equity securities of S. Although X will merge into S rather than Y, the Rule 16b-7 exemption will still be available because:

- (1) Y, on a consolidated basis, will represent the same business entity as premerger X;
- (2) Y will be managed by the same directors and officers as X; and
- (3) Y will have charter and bylaw provisions the same as those of X.

(n135)Footnote 135. The Rule recognizes that these transactions:

- (1) are of relatively minor importance to the stockholders of a particular company;
- (2) do not present significant opportunities for insiders to profit by inside information with respect to the merger; and
- (3) do not significantly alter economically the kind of security the insiders owned prior to the transaction.

Sec. Exch. Act Rel. No. 34-18114 Pt. IV G, Fed. Sec. L. Rep. (CCH) P 26,062 (1981). *See also* Sec. Exch. Act Rel. No. 4996 (1954).

(n136)Footnote 136. Sec. Exch. Act Rel. No. 34-18114, Fed. Sec. L. Rep. (CCH) P 26,062, n.196 (1981).

For example, C, an insurance company, wants to reorganize as a general business corporation. C intends to transfer all assets and liabilities to new C, a wholly owned subsidiary of C, and then merge into the insurance subsidiary of new C. The merger agreement provides that each share of C stock will be exchanged for a single share of new C stock. The merger exchange would have no effect on the consolidated financial statements, the composition of management, or the rights of C shareholders. Under Rule 16b-7, the acquisition or disposition of securities pursuant to the merger will not be considered to be a purchase or sale under Section 16(b).

(n137)Footnote 137. Rule 16b-7(a)(1)(i).

A language change in this provision seems to suggest that ownership of 85% of the securities of the company resulting from consolidation by the issuer of the securities surrendered will qualify for the exemption even if that issuer does not own 85% of the securities of the other companies in the transaction. In the absence of an indication that this result was intended, the language probably should be read in a manner consistent with old Rule 16b-7 to mean that ownership of 85% of the securities of the company that will result from a consolidation will not be required *prior to the transaction* because that company will not come into existence until the consolidation occurs.

(n138)Footnote 138. Rule 16b-7(a)(1)(ii).

(n139)Footnote 139. Rule 16b-7(a)(2)(i).

(n140)Footnote 140. Rule 16b-7(a)(2)(ii).

(n141)Footnote 141. For example, under Virginia law, Company X, a savings and loan association, is not permitted to acquire stock of other savings and loan associations. X incorporates Company Y, a wholly-owned subsidiary of X, with the intention of creating a holding company that would be able to acquire savings and loan associations. Pursuant to statutory procedures under Virginia law, an exchange is arranged whereby X became a

wholly-owned subsidiary of Y and X shareholders became the owners of all the outstanding shares of Y. The acquisition of Y stock by X shareholders and the disposition of the X stock in the exchange pursuant to this statutory merger is exempt from Section 16(b) by Rule 16b-7. Sec. Exch. Act Rel. No. 34-18114, Fed. Sec. L. Rep. (CCH) P 26,062, Question 142 (1981).

(n142)Footnote 142. *Id.*

For example, X is a holding company whose principal asset is 100,000 shares of Company Y stock, representing approximately six percent of the outstanding Y stock. Pursuant to a plan of liquidation, X shareholders will exchange X stock for Y stock on a pro rata basis. Neither the acquisition nor the disposition of stock pursuant to this exchange is exempt from Section 16(b) under Rule 16b-7 because the conditions of Rule 16b-7(a) have not been met.

(n143)Footnote 143. Rule 16b-7(d).

For example, an officer of a New York corporation makes a non-exempt purchase of 1,000 shares of his company's stock on January 2, bringing his total holdings to 3,000 shares. His company reincorporates through a merger transaction satisfying Rule 16b-7 on March 1, in which transaction he surrenders his 3,000 shares and receives 3,000 shares in a Delaware corporation. He then makes a non-exempt sale of 1200 shares of the Delaware corporation on April 15. Although the officer's participation in the merger exchange is otherwise exempt under the Rule, the exemption is unavailable to the extent of 1,000 shares. *See* Sec. Exch. Act Rel. No. 18114, Fed. Sec. L. Rep. (CCH) P 26,062, Question 144 (1981). As a result, a Section 16(b) claim might be based not only upon matching the April 15 sale with the January 2 purchase, but also by matching the January 2 purchase with the March 1 "sale" in the reincorporation merger, and the March 1 "purchase" in the reincorporation merger with the April 15 sale. The likelihood of success on these theories, even in the absence of the exemption, is uncertain.

(n144)Footnote 144. *See* Rule 16b-8.

(n145)Footnote 145. Rule 16b-8.

(n146)Footnote 146. Rule 16b-8.

(n147)Footnote 147. Rule 16b-8.

The unavailability of the exemption would extend only to the securities involved in the purchases and sales described in the text in (1) and (2) above within six months of withdrawal or deposit. Sec. Exch. Act Rel. No. 34-7826, Fed. Sec. L. Rep. (CCH) P 77,329 (1966).

The purpose of the limitation on purchases and sales of the class of equity securities deposited and certificates representing these equity securities is to exempt only transactions of withdrawal or deposit in the voting trust itself. Sec. Exch. Act Rel. No. 34-18114, Fed. Sec. L. Rep. (CCH) P 26,062, Question 145 (1981).

(n148)Footnote 148. *See, e.g.,* C.R.A. Realty Corp. v. Fremont Gen. Corp., 5 F.3d 1341 (9th Cir. 1993); Portnoy v. Memorex Corp., 667 F.2d 1281 (9th Cir. 1982).

(n149)Footnote 149. C.R.A. Realty Corp. v. Fremont Gen. Corp., 5 F.3d 1341 (9th Cir. 1993); Heli-Coil Corporation v. Webster, 222 F. Supp. 831 (D.N.J. 1963); *see also* Booth v. Varian Associates, 334 F.2d 1 (5th Cir. 1964), *cert. denied*, 379 U.S. 961 (1965); Smolowe v. Delendo Corp., 136 F.2d 231 (2d Cir.), *cert. denied*, 320 U.S. 751 (1943).

(n150)Footnote 150. C.R.A. Realty Corp. v. Fremont Gen. Corp. 5 F.3d 1341, 1342-43 (9th Cir. 1993) (holding that only the portion of stock necessary to satisfy a valid, preexisting debt is exempted from 16(b), but any transfer in excess of the debt is not exempt); Schur v. Salzman, 365 F. Supp. 725, 733 (S.D.N.Y. 1973) (holding that the

repurchase of a security in satisfaction of a debt of honor or moral obligation based on a promise that a director would be able to sell his shares after leaving his position does not constitute a debt previously contracted).

In *Rheem Manufacturing Co. v. Rheem*, 295 F.2d 473 (9th Cir. 1961), the court held that for the purposes of Section 16(b):

(1) a debt previously contracted is an obligation to pay a fixed sum certainly and in all events that existed prior to and apart from the settlement of the obligation by the transfer of the stock; and

(2) a demonstration of good faith does not require that the acquisition of the securities be completely involuntary.

(n151)Footnote 151. *Park & Tilford, Inc. v. Schulte*, 160 F.2d 984 (2d Cir.), *cert. denied*, 332 U.S. 761 (1947).

(n152)Footnote 152. *Truncale v. Blumberg*, 80 F. Supp. 387 (S.D.N.Y. 1948); *see also Rheem Mfg. Co.*, 295 F.2d 473.

(n153)Footnote 153. Section 3(a)(38) defines a market-maker as:

any specialist permitted to act as a dealer, any dealer acting in the capacity of block positioner, and any dealer, who, with respect to a security, holds himself out (by entering quotations in an inter-dealer communications system or otherwise) as being willing to buy and sell security for his own account on a regular or continuous basis.

In *C.R.A. Realty Corp. v. Tri-South Investments*, 738 F.2d 73, (2d Cir. 1984), the Second Circuit held that a brokerage firm's common stock trading, that was incidental to and inextricably connected with the firm's market-making activity in the same issuer's debentures that were convertible into the common stock, was exempted by Section 16(d)'s market-maker exemption from the short-swing profits provision of Section 16(b). The court concluded that common stock and securities of the same issuer convertible into the common should be treated as economic equivalents considering the realities of the market place, the congressional goal of facilitating market-making activity, and the Commission's rules.

(n154)Footnote 154. Both the purchase and sale, or sale and purchase, must have been made as a market making transaction if Section 16(d) is to apply. Sec. Exch. Act Rel. No. 34-7905, Fed. Sec. L. Rep. (CCH) P 77,355 (1966).

(n155)Footnote 155. There are currently no exchanges exempted from registration under Section 5. *See* § 2.02 *supra*.

(n156)Footnote 156. Section 16(d). The Commission may, by rule and regulation, define and prescribe (1) the terms and conditions concerning the securities held in an investment account, and (2) transactions made in the ordinary course of business and incident to the establishment or maintenance of a primary or secondary market. *Id.*

(n157)Footnote 157. Release No. 34-28869, Fed. Sec. L. Rep. (CCH) P 84,709 Pt. V.D. (Feb. 8, 1991) *see* *Normura Securities Co., Ltd.* (Div. Corp. Fin. 1990).

(n158)Footnote 158. *See* Sec. Act Rel. No. 34-28869, Fed. Sec. L. Rep. (CCH) P 84,709 Pt. V.D. (Feb. 8, 1991); Release No. 34-26333, Fed. Sec. L. Rep. (CCH) P 84,343 Pt. VI.E (Dec. 2, 1988); *Prudential-Bache Securities Inc.* (Div. Corp. Fin., Dec. 2, 1985); *L.F. Rothschild, Unterberg, Towbin* (Div. Corp. Fin., Oct. 28, 1983). At least one court has also implied that Section 16(d) provides an exemption from Section 16(a) reporting. *See Simon v. Merrill, Lynch, Pierce, Fenner & Smith*, 482 F.2d 880 (5th Cir. 1973).

(n159)Footnote 159. See Sec. Act Rel. No. 34-26333, Fed. Sec. L. Rep. (CCH) P 84,343 Pt. VI.E (Dec. 2, 1988).

(n160)Footnote 160. See Sec. Act Rel. No. 34-28869, Fed. Sec. L. Rep. (CCH) P 84,709 Pt. V.D (Feb. 8, 1991). The Commission reaffirmed the vitality of the prior interpretations, but offered no explanation of why it determined not to adopt the proposed rule. See *id.*

(n161)Footnote 161. See also Rule 3b-4 (defining "foreign private issuer").

(n162)Footnote 162. Rule 16e-1 was not amended in connection with the comprehensive revision of the Section 16 rules that became effective May 1, 1991.

(n163)Footnote 163. See *Falco v. Donner Foundation, Inc.*, 208 F.2d 600 (2d Cir. 1953) (Section 16(b) not applicable to the arbitrage transactions of a more than ten percent security holder); see also *Lewis v. Dekcraft Corp.* No. 69 Civ. 2982, 1974 U.S. Dist. LEXIS 7862, at *7 (S.D.N.Y. June 27, 1974) (Rule 16e-1 "in substance exempts from § 16(b) liability bona fide arbitrage transactions effected by 10% beneficial owners but does not exempt transactions effected by directors or officers.").

(n164)Footnote 164. II Loss, *Securities Regulation*, at 3079 n.276 (2d ed. Supp. 1969).

Place and kind arbitrage can be combined, *e.g.*, the purchase of convertible securities in one market and the sale of the securities into which they can be converted in another. *Id.*; see *Lewis v. Dekcraft Corp.*, 1974 U.S. Dist. LEXIS 7862, at *5-7 (discussing the various types of arbitrage and stating that such transactions effected by 10% are exempted from § 16(b) liability); see also *Falco v. Donner Corp.*, 208 F.2d 600 (2d Cir. 1953) (transaction by a more than 10% percent security holder in which he sold shares of the issuer's stock with dividend rights attached and simultaneously purchased the same number of shares without dividend rights, and in which he realized a profit because of the market fluctuation of stock with and without the dividend rights, was exempt from the provisions of Section 16(b) by Section 16(d) [now Section 16(e)]).

(n165)Footnote 165. See *Heli-Coil Corp. v. Webster*, 352 F.2d 156 (3d Cir. 1965); *Falco v. Donner Corp.*, 208 F.2d 600 (2d Cir. 1953).

In *Lewis v. Dekcraft Corp.*, *supra* the court concluded that the Section 16(e) exemption was inapplicable because:

(1) the purchase and sale was not simultaneous; and

(2) the insider's position with respect to the securities did not remain constant, *i.e.*, it purchased 220,000 shares at one time and sold 168,694 shares at the other time.

(n166)Footnote 166. Rule 16c-1 continues the exemption provided under old Rule 16c-1 without substantive change. See Release No. 34-26333, Fed. Sec. L. Rep. (CCH) P 84,343 Pt. VI.D (Dec. 2, 1988).

(n167)Footnote 167. Rule 16c-2 is the successor to old Rule 16c-2. see Sec. Act Rel. No. 34-26333, Fed. Sec. L. Rep. (CCH) P 84,343 Pt. VI.D (Dec. 2, 1988). The new Rule eliminated a requirement of old Rule 16c-2(b) that persons not subject to Section 16(b) participate in the underwriting on terms at least as favorable as those on which the insider is participating and to an extent at least equal to the combined participation of all persons exempted under old Rule 16c-2. *Id.*

(n168)Footnote 168. The manager of an underwriting group will overalloc to ensure the success of the distribution and so that subsequent covering purchases will tend to stabilize the market. II Loss, *Securities Regulation* at 1120 (2d ed. Supp. 1969).

(n169)Footnote 169. Rule 16c-2.

(n170)Footnote 170. Rule 16c-3(a)(1).

(n171)Footnote 171. Rule 16c-3(a)(2).

(n172)Footnote 172. Rule 16c-3(a)(3).

The reporting requirements under Section 16(a) for the sale of a security by an insider are discussed in § 8.03[2][a][ii] *supra*.

(n173)Footnote 173. Rule 16c-3(b).

(n174)Footnote 174. Rule 16c-4.

(n175)Footnote 175. *See* Sec. Exch. Act Rel. No. 34-26333, Fed. Sec. L. Rep. (CCH) P 84,343 Pt. IV.C (Dec. 2, 1988). The Commission stated:

The proposed treatment of derivative securities is intended to subject derivative securities to the short sale prohibitions of section 16(c). The potential for abuse is not less when insiders establish put equivalent positions, rather than selling short underlying securities. Indeed, options were instrumental to insiders in the notorious 'bear raids' of the early 1930's. A reading of the legislative history indicates the Congress did not want insiders, with access to inside information, speculating in their company's stock by acquiring short positions. Further, Congress did not want insiders to take short positions in conflict with their fiduciary duties, because insiders could use short positions to manipulate a stock price or to profit by a fall in the price of their company's stock. Derivative securities can be used to establish a short position, even where the insider has large stock holdings. The proposed rule thus would ensure that an insider does not have an economic interest in the poor performance of the issuer's stock.

Id. (footnote omitted). Elsewhere in the Proposing Release, the Commission suggested that, "as a result of" proposed Rule 16c-4, "put equivalent positions will be deemed violations of Section 16(c) in certain circumstances." *Id.* at Pt. XI. There would appear to be no basis for this statement; the fact that the Commission adopts an exemptive rule would not dictate that the transaction that is the subject of the rule must be treated as a purchase or sale in any circumstance in which the exemption did not apply.

(n176)Footnote 176. The Commission could have simply drafted a Rule similar to Rule 16b-6(a) to provide that the establishment or increase in a put equivalent position would be deemed a "sale" of the underlying securities for purposes of Section 16(c). Rule 16b-6(a), as drafted, deems such transactions to be a "sale" only for purposes of Section 16(b).

(n177)Footnote 177. A separate issue might arise as to whether a sale of underlying securities which, when viewed together with outstanding derivative securities then owned by the insider, creates a "net short position" might be deemed a violation of Section 16(c).

(n178)Footnote 178. *Compare* Sec. Exch. Act Rel. No. 34-26333, Fed. Sec. L. Rep. (CCH) P 84,343 Pt. XIV (Dec. 2, 1988) (proposed Rule 16c-4), *with* Rule 16c-4.

In the Proposing Release, the Commission stated:

[Rule 16b-4's] exemption would be lost if the insider later sold enough underlying securities that the securities underlying the put equivalent positions exceeded the number of underlying securities otherwise

owned.

Id. at Pt. IV.C.

Although the language of Rule 16c-4 changed between the proposal and adoption to make it unclear whether the hedging position must be maintained at all times while the put equivalent position is outstanding, the Commission did not explain the change. *See* Sec. Exch. Act Rel. No. 34-28869, Fed. Sec. L. Rep. (CCH) P 84,709 (Feb. 8, 1991); Sec. Exch. Act Rel. No. 34-27148, Fed. Sec. L. Rep. (CCH) P 84,343 (Aug. 18, 1989).

(n179)Footnote 179. *See* Sec. Exch. Act Rel. No. 34-26333, Fed. Sec. L. Rep. (CCH) P 84,343 Pt. IV.C (Dec. 2, 1988). The Commission explained that, in adopting Section 16(c), Congress was particularly concerned with this form of transaction, particularly in view of the fact that the insider could repurchase shares in the market to cover his short position. *See id.* As a practical matter, because insiders often hold options and other call equivalent positions under employee benefit plans, an exemption for this kind of transaction could have permitted wide-spread short selling.

(n180)Footnote 180. *See id.*

The Rule itself uses the undefined term "owns" rather than the defined term "beneficially owns." Clearly, an insider who acquires a call equivalent position thereby acquires "beneficial ownership" of the underlying equity securities. *See* Rule 16a-1(a)(2)(ii)(F); Rule 16a-1(d); Rule 16a-4(a). Thus, the use of the different term "owns" under Rule 16c-4 may have been intended to denote ownership of the actual underlying equity securities and not derivative securities exercisable for the underlying equity securities.

CHAPTER SA-9 SPECIAL ALERT TO CHAPTER 9

2- Federal Securities Exchange Act of 1934

Impact of the Sarbanes-Oxley Act of 2002 on SEC Enforcement_and_@_)_and_footnotes(n2);vk n*

On July 30, 2002, President signed into law The Sarbanes-Oxley Act of 2002. The Sarbanes-Oxley Act is probably the newest piece of federal securities legislation in more than 60 years and will directly impact the SEC enforcement process in a number of ways. These impacts include:

- §307, which required the SEC to adopt professional standards for attorneys who appear and practice before the Commission in the representation of an issuer, including a requirement that such attorneys report "evidence of a material violation" up the ladder of an issuer's organization. Effective August 5, 2003, the SEC adopted Part 205 of 17 CFR, implementing Sarbanes-Oxley §307. Under certain circumstances, Part 205 will impose new obligations on attorneys who represent issuers in SEC investigations, including the law department attorneys who supervise such representations.
- §1105, which authorizes the SEC to issue orders barring an individual from serving as an officer and director of a public company. Previously, the SEC could only obtain an officer-and-director bar from a federal court.
- §305, which changed the showing that the SEC must make to obtain an order barring an individual from serving as an officer and director of a public company. The provision changed the standard from "substantial unfitness" to "fitness." This change is widely viewed as having lowered the required showing.
- §305(b), which authorized the SEC to seek, and courts to grant, any equitable relief that may be appropriate or necessary for the benefit of investors. This provision confirms the authority of the courts to fashion a wide variety of equitable relief.
- § 1103, which authorizes the Commission to seek from a federal court a form of emergency relief previously not expressly authorized by statute. Specifically, this section authorizes, in certain circumstances, the issuance of a court order freezing extraordinary payments by an issuer.

2- Federal Securities Exchange Act of 1934

Sarbanes-Oxley §304 may also have a significant impact on the enforcement process. This section provides that if an issuer is required to restate its financial statements due to material noncompliance of the issuer, as a result of misconduct with any financial reporting requirement under the federal securities laws, the CEO and CFO must reimburse the issuer for (1) any bonus or other incentive-based or equity-based compensation received by that person during the 12-month period following the first issuance of the restatement and (2) any profits realized from the sale of securities during that 12-month period.

Similarly, Sarbanes-Oxley §§806 and 1107 may also impact the enforcement process. These provisions provide for civil and criminal penalties against issuers and issuer personnel who retaliate against whistleblowers.

CHAPTER 9 SEC Enforcement--Legal Considerations

*2-9 Federal Securities Exchange Act of 1934 § 9.01***AUTHOR:** Theodore Altman and Joshua S. Sohn**§ 9.01 Introduction**

The Securities and Exchange Commission (the "SEC" or "Commission") consists of five members appointed by the President with the advice and consent of the Senate for staggered five-year terms. n1 The President designates a member of the Commission as Chairman. n2 Although the Commission is a collegial body on which the Chairman has only one vote, the position has been described as "at least primus inter pares and sometimes a good deal more than that." n3

The Commission keeps a very watchful eye on its enforcement program, and the Commissioners devote much time and energy to this phase of their duties. However, the Commission's role is essentially that of policy maker, supervisor, monitor, and ultimate decision maker. The laboring oar is borne by a staff of professional employees who do the investigating and the litigating.

As its name suggests, the Division of Enforcement is the staff unit responsible for conducting investigation and enforcement work under the Acts administered by the Commission. n4 As stated in the Division's Enforcement Manual ("SEC Enforcement Manual"), its mission is "to protect investors and the markets by investigating potential violations of the federal securities laws and litigating the SEC's enforcement actions." n5

Although the Division, like the Commission itself, is located in Washington, D.C., its activities are nationwide and much of the actual enforcement work is performed by regional offices. The Division's relationship to the regional offices is comparable in some ways to the Commission's relationship to the Division. n6

The Commission's chief legal officer is the General Counsel, whose office figures prominently in enforcement matters. The views of the General Counsel's Office on legal and policy questions are solicited by the Division and by the Commission itself. The General Counsel's Office conducts all of the Commission's appellate litigation, defends all actions against the Commission, and supervises other civil litigation. It also reviews the Enforcement Division's recommendations that cases be referred to the Department of Justice for criminal prosecution.

Finally, in response to the 2008-2009 Financial Crisis and high profile scandals such as the Madoff Ponzi scheme, there has been a recent increased push for more vigilant securities enforcement. For example, in its 2009 Performance and

Accountability Report, the SEC announced that it had enacted enforcement reforms in response to the Madoff fraud, including: a restructuring of the Enforcement Division to reduce bureaucracy and accelerate the enforcement process, the creation of specialized units within the Enforcement Division which will enable the SEC to prepare and bring cases more quickly, the recruitment of more staff with specialized industry experience, and the creation of a new division of Risk, Strategy, and Financial Innovation, which will study emerging trends and financial products in order to "proactively uncover potential risks to investors." n7 Indeed, the SEC devoted nearly fifty five percent of its FY 2009 budget, or approximately \$531 million, to enforcement and examination efforts. n8 Furthermore, "[i]n FY 2009, the SEC opened about 6 percent more investigations when compared to FY 2008 and about 22 percent more investigations when compared to FY 2007." n9 Additionally, as discussed in this chapter, the enactment of the *Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010* will arm the SEC with more powerful enforcement tools. Accordingly, the recent trend of increased regulatory vigilance by the SEC can be expected to continue, if not increase, in the near future.

CHAPTER 9 SEC Enforcement--Legal Considerations

2-9 Federal Securities Exchange Act of 1934 § 9.02

AUTHOR: Theodore Altman and Joshua S. Sohn

§ 9.02 Statutory Authority to Investigate

The federal securities laws bestow upon the SEC broad investigatory powers. Section 20(a) of the Securities Act of 1933 (the "1933 Act" or "Securities Act")ⁿ¹ grants the Commission authority to investigate when the Act or the rules or regulations thereunder appear to have been or are about to be violated. Section 21(a) of the Securities Exchange Act of 1934 (the "1934 Act" or "Exchange Act") enables the Commission, in its discretion, to investigate as it deems necessary to determine whether any person has violated, is violating, or is about to violate any provision of the Exchange Act, the rules and regulations thereunder, or the rules of a national securities exchange.ⁿ² Investigations under Section 21(a) need not be predicated on possible violations--they may be made to obtain information relevant to the promulgation of rules and regulations or to make legislative recommendations. Section 21(b) of the Exchange Act provides the Commission with subpoena power. Sections 19 and 20 of the Securities Act, Section 42 of the Investment Company Act of 1940 (the "Investment Company Act"),ⁿ³ and Section 209 of the Investment Advisers Act of 1940 (the "Investment Advisers Act")ⁿ⁴ give the Commission similar powers to investigate possible violations of those Acts.

Finally, the Sarbanes-Oxley Act of 2002 (the "Sarbanes-Oxley Act"), perhaps the most important addition to the arsenal of securities laws since the Exchange Act, was enacted in July 2002.ⁿ⁵ Impetus for passage of the law came from an extraordinary string of accounting scandals and alleged corporate fraud episodes beginning in 2001. Some breathtaking in their magnitude, the most notable of these are the following: Enron,ⁿ⁶ Arthur Anderson,ⁿ⁷ Global Crossing,ⁿ⁸ Adelphi Communications,ⁿ⁹ and WorldCom.ⁿ¹⁰

The run of corporate scandals, bankruptcies, and the losses to investors which followed made clear to many that, in addition to any possible individual wrongdoing, the system of watchdogs and regulators--officers, directors, auditors, and the SEC--had simply failed and needed strengthening. The resulting Sarbanes-Oxley Act attempted to fill that need through a combination of increased disclosure requirements and management certifications, corporate governance changes, increased penalties for securities laws violations, and the creation of a new Public Company Accounting Oversight Board ("PCAOB") to oversee the audit profession.

Section 3(b) of the Sarbanes-Oxley Act provides that violations of the Act, any rules or regulations of the Commission passed pursuant to the Act, or any rules of the PCAOBⁿ¹¹ are to be treated "for all purposes" as violations of the Exchange Act or the rules and regulations issued thereunder. The Sarbanes-Oxley Act also (perhaps redundantly)

extends the Commission's investigative powers under Section 21(a) of the Exchange Act to potential violations of the rules of the PCAOB.

Sarbanes Oxley's regulatory structures have been criticized as being unnecessarily restrictive for foreign companies listed on United States' exchanges and harmful to capital formation. n12 As a consequence, the SEC adopted amendments to the rules governing those companies' requirements to register their securities and ease the barriers to deregistration. n13

The *Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010* made some changes to Sarbanes-Oxley. For example, non-accelerated filers now have an exemption from the Sarbanes-Oxley § 404(b) auditor-attestation requirements, and the SEC is required to conduct a study on reducing the compliance burden of § 404(b) for other issuers. Specifically, the SEC's study is to seek to reduce compliance burdens for companies with a market capitalization between \$75 million to \$250 million. n14 Under Sarbanes-Oxley § 304, CEO and CFO bonuses paid or earned in the twelve-month period preceding an accounting restatement revealing misconduct may be subject to clawback. By contrast, Dodd-Frank obligates "the SEC to adopt rules requiring national securities exchanges to require every listed company, as a condition of listing, to adopt a policy for the claw back of executive compensation" from the previous three years where there is material noncompliance (even if no misconduct) by any executive officer. n15

(n2)Footnote 2. 15 U.S.C. § 78a et seq.

(n3)Footnote 3. 15 U.S.C. § 80a-1 et seq.

(n4)Footnote 4. 15 U.S.C. § 80b-1 et. seq.

(n5)Footnote 5. Pub. L. No. 107-204, 116 Stat. 745 (July 30, 2002); 15 U.S.C. § 7201 et. seq.

(n6)Footnote 6. In October 2001, Enron Corp. ("Enron"), a former small-time natural gas company turned energy/commodity trading giant, announced an extraordinary earnings charge of \$544 million and a \$1.2 billion reduction in stockholder equity. Much of the write-down was tied to off-balance-sheet partnerships that resulted in significant financial risk to the company. Enron subsequently restated its earnings for 1997 to 2001 by an aggregate of \$586 million and, following an unsuccessful attempt to salvage a merger with Dynegy Corp., declared bankruptcy on December 2, 2001--at that time the largest bankruptcy in U.S. history. Prior to its collapse, Enron boasted a peak market capitalization of approximately \$70 billion. The prosecutions against Enron executives have had mixed results. On January 31, 2007 a federal judge vacated the conviction of former Enron chief financial officer, Kevin A. Howard, Kate Murphy, *Judge Throws Out a Conviction in Enron Case*, NY TIMES, Feb. 1, 2007. The first trial of Mr. Howard ended in hung jury. *Id.* Another former chief financial officer of Enron, Andrew Fastow was sentenced to six years in prison on September 27, 2006. Kate Murphy & Alexei Barrionuevo, *Fastow Sentenced to 6 Years*, NY TIMES, Sept. 27, 2006. Richard Causey, the former Enron chief accounting officer was sentenced to five and a half years and began serving his sentence on Jan. 3, 2007. Associated Press, *Ex-Enron Executive Reports to Prison*, January 4, 2007. Finally, Jeffrey Skilling and Kenneth Lay, both former Enron chief executives were convicted of conspiracy, fraud and insider trading on Oct. 24, 2006. Alexei Barrionuey, *Skilling Sentenced To 24 Years*, N.Y. TIMES, Oct. 24, 2006, at C1. Mr. Lay died of heart disease shortly after being convicted on ten counts of fraud and conspiracy. After his death, Judge Simeon T. Lake acted in conformity with established precedent by dismissing the indictment against Mr. Lay, thereby expunging Mr. Lay's convictions, Carrie Johnson, *Judge Revokes Lay's Conviction*, WASH, POST, Oct. 182006, at D01, 544 U.S. 696 (2005), *Id.* at 706-08.

(n7)Footnote 7. In connection with the Enron scandal, "Big Five" accounting firm Arthur Andersen, LLP (Enron's auditor) revealed that certain of its partners and employees had destroyed documents related to Enron at around the time

the SEC had begun its investigation into Enron's problems. Subsequently, the U.S. Department of Justice indicted the firm: a jury found it guilty of obstruction of justice on June 15, 2002, and the firm announced its dissolution that same day--leaving today's "Big Four" accounting firms. Arthur Andersen's conviction was reversed by the *Supreme Court in Arthur Andersen v. United States*, 2005 U.S. LEXIS 4348 (May 31, 2005). The Court held that the jury instruction did not adequately convey the requisite nexus between the persuasion to destroy documents and the prospective official proceeding.

(n8)Footnote 8. This fiber-optics telecommunications company (also an Arthur Andersen client) declared bankruptcy in January 2002--wiping out what had been, at its peak, a market capitalization of some \$50 billion--amidst an investigation into its revenue recognition practices related to swapping fiber-optic network capacity with other companies.

(n9)Footnote 9. The nation's sixth-largest cable television operator declared bankruptcy in June 2002 following the disclosure of some \$2.3 billion in off-balance-sheet debt co-borrowed with entities controlled by founder John Rigas and his family and following significant restatements of its prior earnings. Rigas and his sons were indicted on fraud charges in September 2002. On April 25, 2005, Adelphia agreed to a settlement with the SEC and the US Attorney's Office regarding the fraud of its prior management.

(n10)Footnote 10. On June 25, 2002, telecommunications giant WorldCom, Inc. ("WorldCom") disclosed that it had overstated its cash flow for the previous five quarters by some \$3.8 billion, primarily by improperly booking operating costs as capital expenses. The SEC filed fraud charges the next day, and within a month WorldCom, which at its height reached a market capitalization of over \$175 billion, had filed for bankruptcy protection--which at that time was the largest such filing in history. Despite this colossal fraud, the SEC took a less punitive approach in an effort to preserve more than 50,000 jobs at WorldCom. The SEC, therefore, settled with WorldCom for an overall monetary penalty of \$2.25 billion. *See SEC v. WorldCom, Inc.*, No. 02 Civ. 4963 (S.D.N.Y. July 7, 2003) (order approving of settlement between SEC and WorldCom). WorldCom's fraud also generated several class action lawsuits brought by shareholders, mostly mutual funds. The lawsuits resulted in several billion dollar settlements. *See In re WorldCom, Inc. Secs. Litig.*, No. 02 Civ. 3288 (S.D.N.Y. Sept. 21, 2005).

(n11)Footnote 11. *See* § 9.10[6][b] *infra*.

CHAPTER 9 SEC Enforcement--Legal Considerations

2-9 Federal Securities Exchange Act of 1934 § 9.03

AUTHOR: Theodore Altman and Joshua S. Sohn

§ 9.03 Inspections of Regulated Entities

Unlike its power to investigate, which reaches all persons, the Commission's power to inspect extends only to professionals in the securities business, n1 registered investment companies, n2 and investment advisers other than those specifically exempted from registration. n3 Pursuant to the *Dodd-Frank Wall Street Reform and Consumer Protection Act*, this list now also includes credit ratings agencies. Inspection powers are also granted to self-regulatory organizations and others under the provisions that are discussed *infra*. The power to investigate is not unfettered, however, as inspections of these entities must be reasonable.

The Commission's inspections, which have much in common with those made by the banking authorities, are essentially regulatory audits of a company's books and records to ensure compliance with the law. Although an important enforcement tool, inspections lead more frequently to informal conferences and cautionary letters than to formal enforcement proceedings. The primary emphasis of the inspection program is educational, not punitive.

Inspections of stock exchanges and other self-regulatory organizations, including the Financial Industry Regulatory Authority ("FINRA"), are elaborate affairs that consume much time and energy. These examinations are made by the Commission's Division of Trading and Markets, not the Division of Enforcement and enable the Commission to monitor the quality of self-regulatory performance and to suggest improvements. n4 Since the self-regulatory organizations also make inspections, the Commission's inspections of the self-regulating bodies are, among other things, inspections of the inspectors.

CHAPTER 9 SEC Enforcement--Legal Considerations

2-9 Federal Securities Exchange Act of 1934 § 9.04

AUTHOR: Theodore Altman and Joshua S. Sohn

§ 9.04 Informal Investigations

Normally, though not invariably, activity of the Commission's enforcement staff begins with an informal inquiry. The stimulus for this may be an investor's complaint, a news article, a referral from a stock exchange or from the NASD, or a document filed with the Commission that suggests a potential problem area. Inquiries are also touched off by inspections, contacts with other governmental agencies, tips from informants, communications from corporate dissidents, and patterns of trading activity that suggest possible irregularity. For example, contests for corporate control sometimes lead each side to tell the Commission about its adversary's derelictions. Voluntary disclosures often cause the staff to probe further. Nevertheless, the Commission emphasizes that self-policing and voluntary cooperation may yield substantial benefits for potential enforcement targets, in the form of reduced charges or sanctions or, in the unusual case, the avoidance of enforcement action altogether. n1 Broadly speaking, in determining whether a company's conduct warrants the exercise of favorable enforcement discretion, the Commission assesses self-policing prior to the discovery of the misconduct; self-reporting of the misconduct when it is discovered; remediation measures, including disciplining wrongdoers and modifying or improving internal controls; and cooperation with law enforcement authorities, including providing the Commission's enforcement staff with all relevant information about the company's violations and remedial efforts. n2 In April 2010, the U.S. Sentencing Commission proposed rules that will eliminate the bar to credit for having a compliance program, expand the circumstances under which credit for having a compliance program is available, and detail the remedial mechanisms and steps necessary to receive sentencing credit when wrongdoing is discovered. n3 Absent Congressional action, the proposed sentencing rules will take effect in November 2010.

Whatever the stimulus for the inquiry, the staff needs no authority from the Commission to investigate informally. Though unable to compel testimony or to issue process when it proceeds on this basis, the staff's informal investigation is often extensive. n4 An informal investigation that reveals evidence of wrongdoing need not be followed by a formal investigation of the matter. Administrative or judicial proceedings can be instituted on the basis of information that has been discovered informally. n5

Informal investigations present counsel with questions of judgment. There is much to be said for cooperating fully with the staff, satisfying its concerns, and bringing the inquiry to an expeditious conclusion. However, the exigencies of the particular situation sometimes warrant narrow responses. Whatever the approach, an informal SEC inquiry is an

intensely serious matter.

Though staff members are not authorized to administer oaths in an informal inquiry, they may ask a court reporter to do so, which triggers the applicability of perjury laws. n6 Moreover, 18 U.S.C. § 1001, which criminalizes false statements to federal officers, applies to unsworn as well as to sworn statements. Finally, the staff's view of the total situation and the course it eventually elects to pursue will be influenced in large measure by impressions derived from the informal investigation.

Persons asked to voluntarily provide information in an informal investigation are furnished with a written summary of their rights and other important procedural information. n7 This summary advises the witness of various protections pertaining to the giving of testimony, including the right to counsel, the right to inspect and purchase a copy of any transcript of the testimony, and the right to invoke the *Fifth Amendment* privilege against self-incrimination. n8 The summary also contains an extensive list of the Commission's routine potential uses of information supplied to the enforcement staff. The Commission advises witnesses that it may use such information for the following purposes, among others: to coordinate law enforcement activities between the Commission and other federal, state, local, or foreign law enforcement agencies; to conduct other Commission investigations of possible securities law violations; to assist licensing or professional oversight bodies in performing disciplinary functions; to respond to inquiries from Members of Congress; to assist any court-appointed trustee or receiver appointed under the securities laws or under the Bankruptcy Code; and to respond to subpoenas in any litigation or other proceeding. n9

CHAPTER 9 SEC Enforcement--Legal Considerations

2-9 Federal Securities Exchange Act of 1934 § 9.05

AUTHOR: Theodore Altman and Joshua S. Sohn

§ 9.05 Formal Investigations

[1] Formal Order for Investigation

If an informal investigation or information obtained from other sources suggests a need for further inquiry, the staff asks the Commission for a "formal order of investigation." The formal order of investigation serves two functions: (1) it generally describes the nature of the authorized investigation; and (2) it designates specific staff members as officers for the investigation and authorizes these staff members to administer oaths, subpoena witnesses, take evidence, and seek the production of documents. n1 These requests are made *ex parte* and are typically made by providing the Commission with an action memorandum describing the known facts, the potential violation, entities or individuals involved, and highlighting any special issues or exigent circumstances. n2 The Commission considers requests for formal orders at closed meetings. In January 2009, the SEC launched a series of initiatives intended to facilitate and accelerate investigations. One of these initiatives was the delegation of the authority to initiate formal orders of investigation to the Division of Enforcement in order to "ensure that subpoena power is available to the staff as soon as it is needed." n3

[2] Investigations Conducted Privately

Most of the Commission's investigations are non-public. n4 This is true even under the Securities Act, although Section 21 of that statute directs that "[a]ll hearings shall be public." The reason is that investigations are not considered "hearings" within the statutory meaning of that term. n5 Rather, they are viewed as preliminary inquiries in which the staff tries to find out whether a "hearing" is warranted. The statutory scheme does not require that the preliminary pre-hearing inquiry be private. Though exceedingly rare, public investigations are permissible. n6 Despite the non-public nature of formal investigations, pursuant to Rule 7(a) of the SEC's Rules Relating to Investigations, a person or entity that is required to produce documents or provide testimony at a formal investigative proceeding will, upon request, be shown the Commission's formal order. n7

[3] Broad Authority to Investigate

The Commission's investigatory powers are broad. It "can investigate merely on the suspicion that the law is being violated, or even just because it wants assurance that it is not." n8 It can also conduct an investigation to determine whether the regulation of a particular activity is within its authority. n9 Arguments that an investigation is a general,

roving inquiry or a "fishing expedition" have rarely succeeded. n10

However, a much discussed Third Circuit decision, *SEC v. Wheeling-Pittsburgh Steel Corp.*, n11 suggests that there is a good faith limitation on the Commission's investigative power that can bar it from proceeding when the decision to investigate was tainted by improper influences. *Wheeling-Pittsburgh* involved a formal order of investigation issued under questionable circumstances at the request of a United States Senator. n12 A closely divided *en banc* court held:

The SEC order must be supported by an independent agency determination, not one dictated or pressured by external forces. If an allegation of improper influence and abdication of the agency's objective responsibilities is made, and supported by sufficient evidence to make it facially credible, respondents are entitled to examine the circumstances surrounding the SEC's private investigative order. n13

Wheeling-Pittsburgh was an unusual case in which the investigated party established that the Senator's communication led to the virtually instantaneous entry of a formal order of investigation. Accordingly, *Wheeling-Pittsburgh* stands for the proposition that there are some good-faith limitations to the exercise of the SEC's broad powers.

Although the SEC did initiate an investigation at the direction of the senator in *Wheeling-Pittsburgh*, a much more common situation involving tippers or informants is when the Commission declines to investigate. The informant cannot compel it to do so. n14 This is because the governing statutes do not direct the Commission to investigate. They say only that it may do so. n15 The courts' traditional reluctance to review the agencies' exercise of their prosecutorial discretion is also relevant. n16 Administrative investigations are not adjudications. n17 As the Commission said early in its history:

An investigation [is] ... simply a preliminary inquiry... to determine whether grounds exist for the institution of formal proceedings... . It is not a hearing. It is not in any sense an adversary proceeding. There are no parties. There are no issues. n18

The Commission's view is that a witness who testifies at the investigative stage need not be told that he or she is considered a potential defendant or respondent. n19

[4] Subpoenas

The power to investigate, which is provided under Section 19(b) of the Securities Act, Section 21(b) of the Exchange Act, Section 42(b) of the Investment Company Act, and Section 209(b) of the Investment Advisers Act, is accompanied by the power to compel testimony and the production of documents.

There are two principal points to note about the power conferred by those sections. First, it is not self-executing. To enforce a subpoena against a recalcitrant witness, the Commission must invoke the aid of the courts. n20 Second, it is nationwide. All of the sections cited above provide that "[s]uch attendance of witnesses and the production of any such records may be required from any place in the United States or any State at any designated place of hearing." n21

(n4)Footnote 4. 17 C.F.R. § 202.5(a). Persons being investigated have a right to privacy regarding certain non-public information obtained over the course of an SEC investigation. See *Hunter v. Heffernan*, 879 F. Supp. 494 (E.D. Pa. 1995), 1996 U.S. Dist. LEXIS 14071 (E.D. Pa. Sept. 26, 1996), where plaintiff alleged that an SEC investigator violated his right to privacy by disclosing to his girlfriend confidential financial information obtained during the investigation. There, the court dismissed on summary judgment upon a determination that the information had previously been disclosed.

(n5)Footnote 5. See *Woolley v. United States*, 97 F.2d 258 (9th Cir. 1938), cert. denied, 305 U.S. 614 (1938).

(n6)Footnote 6. *SEC v. Harrison*, 80 F. Supp. 226 (D.D.C. 1948). "Quasi-public" investigations may also be made. See *Transactions in Washington Public Power Supply Systems Securities*, [1983-84 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 83,481 (1984). Although this was done because of a special problem with respect to subpoenas and although the Commission made the investigation nonpublic as soon as that problem was resolved (Sec. Act Rel. No. 33-6541, 30 SEC Docket 1065 (1984)), the Commission could choose to use this procedure again where the inquiry is of great public interest.

(n7)Footnote 7. SEC Enforcement Manual Section 2.3.4.2.

(n8)Footnote 8. *Nelson v. U.S. S.E.C.*, No. C08-80080MISC JF (HRL), 2008 U.S. Dist. LEXIS 51035 (N.D. Cal. June 16, 2008), quoting *United States v. Morton Salt Co.*, 338 U.S. 632, 634 (1950) (administrative agencies held to "possess a power of original inquiry analogous to that of a grand jury"); *Sandsend Financial Consultants, Ltd. v. Fed. Home Loan Bank Bd.*, 878 F.2d 875, 882 (5th Cir. 1989) (an administrative agency's "power of inquisition" is a "broad-ranging one which courts are reluctant to trammel").

(n9)Footnote 9. *AVCO Financial Corp. v. Commodity Futures Trading Com'n*, 929 F. Supp. 714, 721 (S.D.N.Y. 1996), quoting *SEC v. Brigadoon Scotch Distributing Co.*, 480 F.2d 1047 (2d Cir. 1973), cert. denied, 415 U.S. 915 (1974) ("The [Securities Exchange] Commission must be free without undue influence or delay to conduct an investigation which will adequately develop a factual basis for a determination as to whether particular activities come within the Commission's regulatory authority."); see, e.g., *SEC v. Howatt*, 525 F.2d 226 (1st Cir. 1975) (investigation permissible where SEC's regulatory jurisdiction over transactions "unclear"); *SEC v. Savage*, 513 F.2d 188 (7th Cir. 1975) (Commission could investigate without first establishing that the commodity futures contracts in question were "securities"); *SEC v. Wall Street Transcript Corp.*, 422 F.2d 1371 (2d Cir.), cert. denied, 398 U.S. 958 (1970) (investigation to determine whether publisher might be an "investment adviser" within the meaning of the Investment Advisers Act).

(n10)Footnote 10. See *Enterra Energy, LLC v. U.S. S.E.C.*, No. 08-mc-00011- TCK-PJC, 2008 U.S. Dist. LEXIS 22727 (N.D. Okla. March 21, 2008) ("fishing expedition" challenge rejected because "so long as the material requested 'touches a matter under investigation' it will survive a relevancy challenge"), quoting *F.T.C. v. Texaco, Inc.*, 555 F.2d 862, 872 (D.C. Cir.), cert. denied, 431 U.S. 974 (1977); *S.E.C. v. Badger*, No. 2:97-CV-963K, 2008 U.S. Dist. LEXIS 24022 (D. Utah 2009) ("fishing expedition" challenge against subpoena of defendant's wife rejected because the subpoena was necessary to determine whether and to what extent her finances were commingled with her husband's); *McGarry v. SEC*, 147 F.2d 389 (10th Cir. 1945) ("fishing expedition" challenge rejected even though the cost of examining and reproducing materials subpoenaed was estimated at \$100,000); *SEC v. Arthur Young & Co.*, 584 F.2d 1018 (D.C. Cir. 1978), cert. denied, 439 U.S. 1071 (1979) (but appellant afforded opportunity to show that actual expense of compliance was unreasonable).

(n11)Footnote 11. 648 F.2d 118 (3d Cir. 1981), discussed in *SEC v. Wheeling-Pittsburgh Steel Corp. Bad Faith and the Abuse of Process Defense to Administrative Subpoenas*, 82 Colum. L. Rev. 811 (1982) and in Comment, *SEC v. Wheeling-Pittsburgh Steel Corp.--Informant Bad Faith Defense to Enforcement of an Administrative Subpoena*, 6 J. Corp. L. 121 (1981).

(n13)Footnote 13. 648 F.2d at 130 .

(n14)Footnote 14. *Leighton v. S.E.C.*, No. 94-1777 1995 U.S. App. LEXIS 15184 (D.C. Cir. 1995) , citing *Crooker v. SEC*, 161 F.2d 944 (1st Cir. 1947) ; see also *SEC v. Tiffany Industries, Inc.*, 535 F. Supp. 1167 (E.D. Mo. 1982) holding that private persons cannot compel the Commission to institute litigation.

(n15)Footnote 15. See § 9.02 *supra*.

(n16)Footnote 16. See, e.g., *Gor v. Holder*, 607 F.3d 180 (6th Cir. 2010) , citing *Heckler v. Chaney*, 470 U.S. 821 (1985) .

(n17)Footnote 17. *S.E.C. v. Rivlin*, No. 99-1455 (RCL), Fed. Sec. L. Rep., P 90,725 (D.D.C. 1999); *SEC v. Jerry T. O'Brien, Inc.*, 467 U.S. 735 (1984) .

(n18)Footnote 18. *In re White, Weld & Co.*, 1 SEC 574, 575 (1936) .

(n19)Footnote 19. The Court of Appeals for the District of Columbia Circuit agrees. *SEC v. National Student Marketing Corp.*, 538 F.2d 404 (D.C. Cir. 1976) , cert. denied sub nom. *White & Case v. SEC*, 429 U.S. 1073 (1977) .

(n20)Footnote 20. In *SEC v. Knowles*, the District Court held that it did not need personal jurisdiction over the defendant in order to enforce an SEC subpoena because "the Commission may invoke the aid of any court of the United States within the jurisdiction of which such investigation or proceeding is carried on ..." 902 F. Supp. 211 (D. Colo. 1995) quoting 15 U.S.C. § 78u(c). However, on appeal the SEC did not argue personal jurisdiction, but obtained an affirmance based on the Court's holding that the defendant's contacts with the United States were sufficient to invoke the Court's jurisdiction. *SEC v. Knowles*, 87 F.3d 413 (10th Cir. 1996) ; see also *SEC v. Carrillo*, 115 F.3d 1540, 1544 (11th Cir. 1997) .

(n21)Footnote 21. Hence, the 100-mile limitation in Rule 45(e)(1) of the Federal Rules of Civil Procedure is inapplicable.

CHAPTER 9 SEC Enforcement--Legal Considerations

2-9 Federal Securities Exchange Act of 1934 § 9.06

AUTHOR: Theodore Altman and Joshua S. Sohn

§ 9.06 Rules Relating to Investigations

Investigations are governed by a set of rules that relates only to them. n1 These rules stress the confidential, nonpublic character of the normal investigative inquiry. n2 Of course, the limitations that the Commission imposes on itself and on its employees do not extend to others. n3 Hence, the press frequently reports investigations on which the Commission and its staff maintain an inflexible "no comment" posture.

The rules state that "[f]ormal investigative proceedings may be held before the Commission, before one or more of its members, or before any officer designated by it for the purpose." n4 In actual practice, however, investigations are invariably conducted by staff members named in the formal order of investigation. That document outlines the scope of the projected inquiry and cites the statutory provisions the investigators have in mind.

Often, however, the investigators delve into other matters. They have no authority to do so. Hence, counsel can properly direct his client to refuse to answer questions about subjects that are not within the scope of the order. Objections on this ground cannot be counted on to yield any lasting fruit, however, because the staff is almost invariably able to persuade the Commission to amend the order. However, it may elect not to do so. Time can be gained even if the staff opts for a request to amend.

Though the Commission's investigative order is general and subject to amendment, it is a key document that supplies essential information about the thrust of the inquiry. Thus counsel should examine it as soon as possible. Though the rules relating to investigations do not entitle him or her to a copy of the order as a matter of right, access to it can generally be obtained without undue difficulty. n5

[1] Right to Transcript

Witnesses are entitled to inspect transcripts of their own testimony. However, those who want copies have to buy them. While the right to inspect is absolute, requests to purchase can be denied. n6

Strategic decisions not to purchase are sometimes made. These stem from the desire to avoid having to produce the transcript in private litigation. Such production is required because "once the witness has been allowed to obtain the

transcript of his testimony, it is no more privileged or confidential in his hands... than any other record of a previous statement would be." n7

However, the idea that one is better off without a transcript is not foolproof. First, the non-purchase strategy may not work. The court in which the private action is pending may order the witness to buy the transcript. n8 Second, not having the transcript could impede effective representation and effective defense in the Commission's proceeding.

[2] Right to Counsel

Witnesses are entitled to be accompanied, represented and advised by counsel. n9 The attorney can advise, question briefly at the conclusion of the examination in order to clarify, and make notes. Though counsel's role is limited, it is far from perfunctory. n10 The attorney can correct ambiguities, object to questions clearly outside the scope of the formal order, and assert applicable evidentiary privileges. Implications of wrongdoing by his client entitle him to cross-examine, rebut, and submit documentary evidence. n11 That counsel can do these things does not mean that counsel should do them. Ambiguities are sometimes best left unresolved. Steps that open new areas of inquiry may be undesirable. So the lawyer may deem it best to keep a low adversarial profile while remembering that the investigative transcript is an admission that may become crucial in a subsequent adjudicatory proceeding. n12 Hence, a clear statement on the record reserving the right to supplement or correct that transcript is always desirable.

[3] Sequestration and Multiple Representation

The Commission's concern about the ease with which its investigations can be frustrated when witnesses know each other's testimony n13 is reflected in its sequestration rule, which provides:

All witnesses shall be sequestered, and unless permitted in the discretion of the officer conducting the investigation, no witness or counsel accompanying any such witness shall be permitted to be present during the examination of any other witness called in such proceeding. n14

Although witnesses are almost invariably sequestered, the rule is seldom applied to a witness's counsel because of two Court of Appeals decisions that took a jaundiced view of that practice. n15 Sequestering a lawyer effectively bars the lawyer from representing more than one witness. n16 Courts are loath to sanction the view that, absent "concrete evidence," multiple representation will impede the inquiry. n17

Of course, multiple representation often raises ethical issues on which the staff may or may not focus. n18 In any case, counsel's independent ethical and professional obligations require attention to these issues.

Where the case involves the simultaneous representation of corporations, high-ranking corporate officers, and corporate directors, there is no obvious clash of interest. The real issue is potential detriment to the inquiry rather than potential detriment to sophisticated witnesses whose choice of counsel was probably rational and fully informed. n19 Cases in which an employer has a motive for shifting blame to a relatively low-level employee and vice versa present much more troublesome questions. Such cases are complicated by economic exigencies when an employee of modest means has to choose, as often happens, between cost-free representation by his employer's lawyer and independent counsel of his own. The lawyer who represents both employer and employee in such a situation must at a bare minimum take great pains to see to it that the employee's choice is fully informed. Sometimes the interests are so divergent as to require withdrawal. n20 Divergences of that character often become apparent as the case progresses. Hence, a lawyer who represents two or more clients in the same SEC inquiry should reassess the propriety of that course in light of each material development. n21

If questions arise concerning documents prepared by the attorney or advice that he or she has given, the attorney becomes a potential substantive witness. Withdrawal in this situation is not always mandatory; for example, the

documents or the opinions may be only peripheral to the case. However, if they are or appear likely to become central, it is best for counsel to refrain from representing anyone in the investigation. n22

FOOTNOTES:

(n1)Footnote 1. These are in Part 203 of 17 C.F.R. *See also* 17 C.F.R. § 202.5.

(n2)Footnote 2. *See* 17 C.F.R. §§ 203.2, 203.5, and 230.122. Moreover, members and employees of the Commission are prohibited from disclosing nonpublic information or documents, even when served with a subpoena requiring such disclosure. 17 C.F.R. § 200.735-3(b)(7). This rule has been held valid. *Appeal of SEC and Timbers*, 226 F.2d 501 (6th Cir. 1955). However, confidential discussions with persons associated with other government agencies (foreign as well as domestic) and with the securities industry's self-regulatory bodies are permitted and "encouraged." This also extends to receivers, special counsels, and similar persons appointed in litigation initiated by the Commission. 17 C.F.R. § 203.2.

(n3)Footnote 3. In some circumstances the full disclosure provisions of the securities laws require such other persons to reveal information. *See* Item 103 of Regulation S-K, 17 C.F.R. § 229.103. Even when this is not so, voluntary disclosure is often beneficial. It mitigates the damaging effect of leaks. It shows candor and causes the limitation period on certain private actions to begin to run.

(n4)Footnote 4. 17 C.F.R. § 203.4(b).

(n5)Footnote 5. Rule 7(a) of the Rules Relating to Investigations (17 C.F.R. § 203.7(a)) says only that a witness is entitled to see a copy of the order if he asks for it. It also provides that copies for retention "shall not be furnished except with the express approval of a Regional Administrator, or a Director, Associate Director, or Assistant Director of the Division or Divisions conducting the investigation." However, the staff permits counsel to inspect the order and to make notes. It will also generally comply with counsel's request for a copy.

(n6)Footnote 6. 17 C.F.R. § 203.6 (transcript can be withheld "for good cause," which is left undefined and which the Commission has never attempted to define.); *see also* Section 6(b) of the Administrative Procedure Act (5 U.S.C. § 555(c)). The Commission's refusal to permit either the purchase of the transcript or a tape recording of the testimony was sustained in *SEC v. Sprecher*, 594 F.2d 317 (2d Cir. 1979). *See also Commercial Capital Corp. v. SEC*, 360 F.2d 856, 858 (7th Cir. 1966) ("The legislative history of the Administrative Procedure Act shows Congress was aware that investigations by the Commission, like those of a grand jury, might be thwarted in certain cases if not kept secret, and that if witnesses were given a copy of their transcript, suspected violators would be in a better position to tailor their own testimony to that of the previous testimony, and to threaten witnesses about to testify with economic or other reprisals.").

(n7)Footnote 7. *La Morte v. Mansfield*, 438 F.2d 448, 451 (2d Cir. 1971) (footnote omitted); *see also Baxter v. A.R. Baron & Co.*, 1996 U.S. Dist. LEXIS 18242 (S.D.N.Y. Dec. 10, 1996).

(n8)Footnote 8. *See Preservation Products, LLC v. Nutraceuical Clinical Lab's. Int'l, Inc.*, 214 F.R.D. 494 (N.D. Ill. 2003); *Herbst v. Able*, 63 F.R.D. 135 (S.D.N.Y. 1972)

(n9)Footnote 9. 17 C.F.R. § 203.7(c). If the witness is not accompanied by counsel, the witness may advise the enforcement staff that he or she wishes to be accompanied and represented by counsel. The staff will then adjourn the testimony to allow for such representation by counsel. 17 C.F.R. § 203.7(b). Where exceptionally arcane technical matters are involved the witness may have a right to be accompanied by an expert who is not a lawyer. *See SEC v. Whitman*, 613 F. Supp. 48 (D.D.C. 1985).

(n10)Footnote 10. After noting that "Vital desiderata of public policy, Congressional purpose, and statutory interpretation require the courts to deal liberally with the SEC's inquisitorial power," one court pointed out that "this power is not unbridled." It went on to say:

Witnesses... before administrative agencies have the right to be protected against oppressive tactics, unduly repetitive questioning designed to coerce a witness or to compel him to adopt the examiner's language, or any other procedure that violates standards of fundamental fairness and decency. In such a case the courts will not hesitate to give the witness judicial protection.

SEC v. Isbrandtsen, 245 F. Supp. 518, 521 (S.D.N.Y. 1965) .

However, "judicial protection" is rarely sought because it is rarely needed. Counsel generally finds that courteous but firm remonstrances do the trick. When an inexperienced, overzealous investigative attorney persists with tactics that are clearly abusive, the matter should be brought to the attention of the Director of the Division of Enforcement or the Regional Administrator.

(n11)Footnote 11. 17 C.F.R. § 203.7(d).

(n12)Footnote 12. See, e.g., *In re Alessandrini & Co. Inc.*, 45 SEC 399, 409 (1973) (investigative testimony held to have "essentially the same standing" as that given in an adjudication). False investigative testimony can lead to criminal prosecution. See *U.S. v. Stewart*, 433 F.3d 273 (2d Cir. 2006) ; *United States v. Thayer*, 17 B.N.A. Sec. Reg. & L. Rep. 841 (D.D.C. 1985).

(n13)Footnote 13. For a statement of the Commission's traditional position on this score, see *SEC v. Higashi*, 359 F.2d 550, 552 (9th Cir. 1966) .

(n14)Footnote 14. 17 C.F.R. § 203.7(b).

(n15)Footnote 15. *SEC v. Higashi*, 359 F.2d 550 (9th Cir. 1966) ; *SEC v. Csapo*, 533 F.2d 7 (D.C. Cir. 1976) (Commission conceded "that its sequestration rule is only rarely applied"). But see *United States v. Steel*, 238 F. Supp. 575 (S.D.N.Y. 1965) , *aff'd on other grounds*, 359 F.2d 381 (2d Cir. 1966) (earlier version of the present sequestration rule found unobjectionable).

(n16)Footnote 16. It also raises legal costs.

(n17)Footnote 17. *SEC v. Csapo*, 533 F.2d 7, 11-12 (D.C. Cir. 1976) .

(n18)Footnote 18. For a case in which it did so in an adjudicatory proceeding, see *In re Merrill Lynch, Pierce, Fenner & Smith, Inc.*, [1973-74 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,608 (1973). Form 1662 advises witnesses that counsel's representation of more than one party involved in an investigation presents a potential conflict of interest, and that in any such multiple representation the Commission will assume that the witness and counsel have "discussed and resolved all issues concerning potential conflicts of interests." SEC Form 1662 (7-98).

(n19)Footnote 19. See *SEC v. Higashi* and *SEC v. Csapo*, n.16 *supra*.

(n20)Footnote 20. *Though Wood v. Georgia*, 450 U.S. 261 (1981) , was a criminal case, the justices' discussion of the divided loyalties of a lawyer who represented employer and employee is instructive and thought-provoking.

(n21)Footnote 21. A former Director of the Division of Enforcement who is now a judge of the United States District Court for the District of Columbia thinks second legal opinions helpful in this context. See Sporkin and Steinberg, *Second Opinion for Lawyers--The "Consultative Attorney,"* N.Y.L.J., Jan. 3, 1983, at 1.

(n22)Footnote 22. See Canons 5 and 9 of the American Bar Association's Code of Professional Responsibility. See also Rules 1.7 and 3.7 of the Association's Model Rules of Professional Conduct (2002). Special heed should be paid to the emphasis in Canon 9 on the importance of avoiding even an appearance of impropriety. The appearance and

sometimes the substance of impropriety can be present even when the lawyer has no reason to think himself a potential target.

CHAPTER 9 SEC Enforcement--Legal Considerations

2-9 Federal Securities Exchange Act of 1934 § 9.07

AUTHOR: Theodore Altman and Joshua S. Sohn

§ 9.07 Wells Submissions

Post-investigation briefs addressed to the Commission's prosecutorial discretion are commonly called "Wells Submissions." The term reflects the fact that this procedure was recommended by the "Wells Committee," an ad hoc advisory group chaired by the late John A. Wells of the New York bar. n1 The pertinent rule provides that "[p]ersons who become involved in preliminary or formal investigations may, on their own initiative, submit a written statement to the Commission setting forth their interests and position in regard to the subject matter of the investigation." n2

A Wells Submission is "a document filed with the SEC in which a defendant presents the evidence and legal theories he believes the SEC should consider in deciding whether to file an enforcement action." n3 These submissions may be made at any time, but are not particularly useful unless and until one knows that the staff plans to recommend enforcement action to the Commission. Wells submissions are considered in connection with such recommendations. n4

The staff is under no duty to tell the investigated party that it plans to ask the Commission to authorize a proceeding against him. It "may advise... of the general nature of the investigation including the indicated violations... and the amount of time that may be available for preparing and submitting a statement prior to the presentation of a staff recommendation to the Commission for the commencement of an injunction proceeding." n5 However, the determination is discretionary. n6 There is no "Wells submission right." n7 Where immediate enforcement action is believed to be necessary, the staff is unlikely to provide notice of its intention to request authorization to commence a legal proceeding. n8

Note also that the staff exercises its "Wells" discretion "upon request." Thus counsel should tell the staff that he or she wants to be in a position to make a Wells submission at the appropriate time. This normally leads to a "pre-Wells conference" in which the staff describes its view of the case and the enforcement recommendations it proposes to make.

Wells submissions are purely voluntary. Requests for permission to make them impose no duty to file, and there are no formal requirements. n9 In addition, the SEC is under no obligation to accept and respond to the arguments presented in the Wells Submission. n10 In fact, even after submitted, the SEC may reject a Wells submission if it exceeds length limitations agreed upon by the staff, if the party making the submission limits the admissibility of the submission under Federal Rule of Evidence 408, or otherwise purports to limit the Commissions' ability to use the submission. n11

Wells submissions often seek to dissuade the Commission from taking any action at all. The submitting party may point out, for example, that he or she has made restitution, acted in good faith, was victimized by others, played only a peripheral role in the wrongdoing or has already taken other corrective steps. Alternatively, counsel can attempt to persuade the Commission to take an approach gentler than the one its staff recommends. Counsel may, for example, propose that the Commission issue a report instead of litigating, or may seek the deletion of allegations that counsel considers damaging and inappropriate. Finally, counsel may make an offer of settlement.

Securities lawyers differ about the advisability of Wells submissions. Some think them unlikely to accomplish anything because they are considered together with the staff's recommendations at closed meetings at which only the staff is present. In these circumstances, the Commission tends to give the staff the benefit of the doubt. n12 Moreover, the submission often educates the staff about weaknesses in its case that it still has time to cure. n13 It may also give the staff a road map of the defense it will ultimately have to meet.

Others, who acknowledge all this, consider the Wells submission a valuable tool when mitigating circumstances can be pointed to or significant issues of law or policy delineated. However, it is generally agreed that Wells submissions seldom carry the day on purely factual issues. As the Commission said when it adopted this procedure:

It is likely that a disagreement exists between the staff and a prospective respondent or defendant as to factual matters can be resolved in an orderly manner only through litigation. Moreover, the Commission is not in a position to, in effect, adjudicate issues of fact before the proceeding has been commenced and the evidence placed in the record. In addition, where a proposed administrative proceeding is involved, the Commission wishes to avoid the possible danger of apparent prejudgment involved in considering conflicting contentions, especially as to factual matters, before the case comes to the Commission for decision. Consequently, submission by prospective defendants or respondents will normally prove most useful in connection with questions of policy, and, on occasion, questions of law bearing upon the question of whether a proceeding should be initiated, together with considerations relevant to a particular prospective defendant or respondent which might not otherwise be brought clearly to the Commission's attention. n14

Even when fully successful, a Wells submission produces only a discretionary administrative determination not to proceed. Since it is not a decision on the merits, it has no preclusive effect.

That the Commission has chosen not to proceed does not bar private litigants, other law enforcement agencies, or self-regulatory bodies from doing so. Indeed, the pendency of such actions or the likelihood of their initiation may have had much to do with the Commission's conclusion that there was no need for it to act. n15 This is not limited to Wells submissions. It applies to every investigation that is dropped without enforcement action being taken. n16

FOOTNOTES:

(n1)Footnote 1. The body's official name was the Securities and Exchange Commission's Advisory Committee on Enforcement Policies and Processes. Its report, which was published on June 1, 1972, is reprinted in Mathews, Finkelstein and Milstein, *Enforcement and Litigation Under the Federal Securities Laws--1973* at 275 (Practicing Law Institute 1973). Sec. Act Rel. No. 33-5310, [1972-73 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,010 (1972) adopted the recommendation in modified form.

(n2)Footnote 2. 17 C.F.R. § 202.5(c).

(n3)Footnote 3. *SEC v. Sands*, 902 F. Supp. 1149 (C.D. Cal. 1995) .

(n4)Footnote 4. The Wells submissions should be sent "to the appropriate Division Director or Regional Administrator with a copy to the staff members conducting the investigation and should be clearly referenced to the

specific investigation to which they relate." They are "forwarded to the Commission in conjunction with the staff memorandum." 17 C.F.R. § 202.5(c)

(n5)Footnote 5. 17 C.F.R. § 202.5(c); *see also* SEC Enforcement Manual Section 2.4.

(n6)Footnote 6. Sec. Act Rel. No. 33-5310 [1972-1973 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,010 (1972), explains that "The staff must... have discretion in this regard... to protect the public interest and to avoid not only undue delay, but possible untoward consequences which would otherwise obstruct or delay enforcement action."

(n7)Footnote 7. *See SEC v. National Student Marketing Corp.*, 538 F.2d 404 (D.C. Cir. 1976) , *cert. denied sub nom. White & Case v. SEC*, 429 U.S. 1073 (1977) .

(n8)Footnote 8. SEC Enforcement Manual Section 2.4.

(n9)Footnote 9. The staff should be informed of a decision not to file as soon as it has been made.

(n10)Footnote 10. *SEC v. Sands*, 902 F. Supp. 1149 (D.C. Cal. 1995) .

(n11)Footnote 11. SEC Enforcement Manual Section 2.4.

(n12)Footnote 12. Even a very strong factual case is hard to present effectively in this inherently one-sided context in which the staff has its adversary's presentation, while the adversary has to guess what it will tell the Commission.

(n13)Footnote 13. The SEC can take more testimony and subpoena additional documents.

(n14)Footnote 14. Sec. Act Rel. No. 33-5310, [1972-73 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,010 (1972).

(n15)Footnote 15. *See* the discussion of "parallel proceedings" in § 9.09[1] *infra* .

(n16)Footnote 16. 17 C.F.R. § 202.5(d) states that the staff's determination not to recommend an enforcement proceeding "must in no way be construed as indicating that the party has been exonerated or that no action may ultimately result from the staff's investigation of the particular matter." For reasons pointed out in the text, the Commission's decision not to proceed is as incapable of exonerating as is the staff's decision not to recommend proceedings. With respect to action by the agency, itself, however, there is probably an administrative distinction between a non-enforcement decision made by the staff and a non-enforcement decision made by the Commission. The staff is always free to reconsider its own prosecutorial judgments and to resume inquiries that it earlier chose to drop. Its freedom to reconsider a prior prosecutorial judgment made by the Commission appears much more limited. But even in the latter situation, the agency would almost certainly maintain that a determination made by the Commission after a Wells submission does not necessarily bar reinvestigation and reassessment.

CHAPTER 9 SEC Enforcement--Legal Considerations

2-9 Federal Securities Exchange Act of 1934 § 9.08

AUTHOR: Theodore Altman and Joshua S. Sohn

§ 9.08 Subpoena Enforcement

[1] Generally

As stated above, the Commission's statutory power to compel the attendance of witnesses and the production of documents is not self-enforcing. n1 To enforce its subpoenas, the Commission must go to the courts. However, the courts generally compel compliance. n2 The Commission's power to compel testimony is broad because its power to investigate is broad. n3 In determining whether to enforce an SEC subpoena, courts have generally applied the test set out in *United States v. Powell*, 379 U.S. 48 (1964) . The inquiry involves a four-part test--the SEC must show that "the investigation serves a legitimate purpose, that the inquiry may be relevant to the purpose, that the information sought is not already within the [agency's] possession, and that the administrative steps required by the [agency] have been followed." n4 Therefore, challenges to subpoenas based on the contention that the whole enquiry is improper seldom succeed. n5

Nonetheless, efforts to narrow sweeping requests for documents are occasionally worth making. This is so because it is well established that "the *Fourth Amendment* requires that the subpoena be sufficiently limited in scope, relevant in purpose, and specific in directive so that compliance will not be unreasonably burdensome." n6 The staff knows this. It also knows that subpoena enforcement actions are a drain on its resources. n7 Hence, an accommodation can often be reached.

If not, counsel may decide to wait for a subpoena enforcement action and hope that the court will see things his way or that the Commission's sophisticated litigation judgment will cause it to yield on some points. Another approach is to take the offensive by bringing an action against the Commission to quash or modify the subpoena. n8 This brings the General Counsel's office into the picture. n9 Counsel can hope that the General Counsel's office will be more sympathetic and less adamant than the Enforcement Division.

Litigation about investigative subpoenas in the courts brings what would otherwise be a nonpublic inquiry into the limelight. Investigatees sometimes try to avoid this by asking the Commission to modify or quash a subpoena they consider overly intrusive. Although the Commission's rules do not provide for such applications and although they are seldom entertained, they have occasionally led the staff to modify its demands. n10

However, counsel should remember that the staff's legal position is very strong and that the Commission almost invariably succeeds in sustaining its subpoenas. n11 This is as true of subpoenas addressed to third persons as it is of those addressed to persons being investigated. n12 The Supreme Court has held unanimously that investigative targets have no right to receive advance notice of subpoenas issued to third persons. When it did so, the Court observed that "Congress intended to vest the SEC with considerable discretion in determining when and how to investigate." n13

[2] Territorial Limits on SEC Subpoenas

As has already been noted, the Commission's subpoena power is nationwide. n14 It also has a significant international reach. Witnesses can be required to bring books and records from foreign countries or to permit the Commission to inspect them in such countries. n15 When applicable foreign law prohibits this, the witness can be ordered to use his or her best efforts to obtain such permission to comply with the Commission's subpoena as may be necessary. n16 However, "the Commission has no power to subpoena an alien non-resident to appear before it from a foreign land." n17 Furthermore, the *Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010* explicitly amended the Exchange Act to allow for extra-territorial enforcement by the SEC. n18

[3] International Aspects

Even with Dodd-Frank, there still may be difficulties in compelling non-U.S. persons to comply with SEC subpoenas. Situations in which witnesses are domiciled and evidence is situated in foreign countries are much more frequent than they used to be because of the internationalization of the capital markets. The investigative difficulties these present are complicated by the financial secrecy laws of Switzerland and a number of other countries. However, the Commission has had considerable success in this area. It has, for example, succeeded in compelling a Swiss bank with a New York branch office to disclose the identity of customers who traded through it in Switzerland. n19 It has also entered into agreements for the exchange of information and the lifting of secrecy bars with Switzerland, the United Kingdom, Japan, the Cayman Islands, Germany, and Quebec. n20 These have produced significant results. n21 As discussed, under Dodd-Frank, the SEC now has the power to enforce the Exchange Act extra-territorially. n22

[4] The Right to Financial Privacy Act of 1978

[a] Applicability to the Commission. The Right to Financial Privacy Act of 1978 (the "RFPA") n23 applies to the Commission, except as otherwise provided by Section 21(h) of the Exchange Act. n24 The Commission may, in addition to proceeding under Section 21(h), obtain the financial records of a "customer" n25 from a "financial institution" n26 or transfer such records in accordance with the provisions of the RFPA. n27

A comparison between the provisions of Section 21(h) of the Exchange Act and the RFPA reveals that Section 21(h) only details the procedure by which the Commission may obtain financial records and information pursuant to a judicial subpoena. Therefore, when the Commission issues an *administrative* subpoena, it must proceed pursuant to Section 1105 of the RFPA. n28

[b] Procedure for Commission to Obtain Financial Records Without Prior Notice. Section 21(h)(2) provides that, notwithstanding Sections 1105 or 1107 of the RFPA, n29 the Commission may, without prior notice to the customer, have access to financial records or the information contained therein, of a customer from a financial institution upon an *ex parte* showing to an appropriate United States district court n30 that the Commission seeks such records pursuant to a properly issued subpoena. n31 The Commission must have "reason to believe" that one of the following circumstances is present:

- a delay in obtaining access to the financial records, or the required notice, will result in: flight from prosecution; destruction of or tampering with evidence; transfer of assets or records outside the territorial limits of the United States; improper conversion of investor assets; or impediment of the ability of the

Commission to identify or trace the source or disposition of funds involved in any securities transaction;

- such financial records are necessary to identify or trace the record or beneficial ownership interest in any security;

- the acts, practices, or course of conduct under investigation involve the dissemination of materially false or misleading information concerning any security issuer, or market, or the failure to make disclosures required under the securities laws, which remain uncorrected, or a financial loss to "investors" or "other persons protected under the securities laws" n32 which remains uncompensated; or

- the acts, practices, or course of conduct under investigation involve significant financial speculation in securities, or endanger the stability of any financial or investment intermediary. n33

Although judges and magistrates are not expected to act as mere "rubber stamps" in determining whether notice is to be delayed, n34 their inquiry n35 is limited. n36

The Commission's application for a delay in notice pursuant to Section 21(h)(2) must be made with "reasonable specificity." n37 This requirement is not to be construed to compel the Commission to make out its case-in-chief at the investigatory stage. Rather, the standard the Commission must meet is a "reason to believe" standard, which requires the Commission only to establish a factual basis from which it would be reasonable to infer n38 that one or more of the circumstances set forth Section 21(h)(2)(A)-(D), set forth above, exist. n39

Furthermore, as in cases where the Commission seeks enforcement of its subpoenas, n40 the Commission's investigation must have a "legitimate purpose." n41 An investigation has a legitimate purpose if "the inquiry is within the authority of the agency, the demand is not too indefinite and the information sought is reasonably relevant." n42 The Commission is not required to establish a likelihood that securities law violations have been or may be committed. n43

Once the Commission has made the requisite showing, the presiding judge or magistrate must enter an *ex parte* order granting the requested delay for a period not to exceed 90 days and prohibiting the financial institution involved from disclosing that records have been obtained or that a request for records has been obtained. n44 Extensions of up to 90 days each may be granted by the court upon application in accordance with Section 21(h) or Section 1109(a), (b)(1), or (b)(2) of the RFPA. n45

Once the period of delay (including extensions) expires, the customer must be served with or mailed a copy of the subpoena, insofar as it applies to the customer, n46 together with the following notice:

Records or information concerning your transactions which are held by the financial institution named in the attached subpoena were supplied to the Securities and Exchange Commission on (date). Notification was withheld pursuant to a determination by the (title of court so ordering) under section 21(h) of the Securities Exchange Act of 1934 that (state reason). The purpose of the investigation or official proceeding was (state purpose). n47

[c] Transfer of Records or Information to Other Government Authorities. The Commission is permitted to transfer financial records, or the information contained therein, to any government authority if the Commission proceeds as a transferring agency in accordance with Section 1112 of the RFPA. n48 Pursuant to Section 1112, the Commission may transfer records to another agency or department if it certifies in writing that there is a reason to believe that the records are relevant to a legitimate law enforcement inquiry within the jurisdiction of the receiving agency or department. n49

The customer notice required under Section 1112(b) or (c) of the RFPA may be delayed upon a showing by the

Commission, in accordance with the procedure set forth in Section 21(h)(4)-(5), that one or more of subparagraphs (A) through (B) of Section 21(h)(2) apply. n50

If, however, the financial records or information are transferred to a State securities agency or the Department of Justice, the Commission need not give the notice required by Section 1112 of the RFPA. n51 In this instance, the financial records or information transferred to a State securities agency or the Department of Justice may be disclosed or used by these two entities only in an administrative, civil, or criminal action that arises out of or relates to the acts, practices or courses of conduct investigated by the Commission. n52 Otherwise, if the State securities agency or the Department of Justice determines that the information should be disclosed or used for any other purpose, it may do so if it notifies the customer (except as otherwise provided in the RFPA) within 30 days of its determination, or it complies with the provisions of the RFPA that govern delay of customer notice. n53

[d] Customer Remedies After Expiration of the Delay Period. Once the period of delay of notification expires, the customer may, upon motion, reopen the proceedings in the district court that issued the order. n54 If the judge or magistrate finds that the movant is the customer to whom the obtained records relate and that the Commission obtained the financial records, or the information contained therein, in violation of Section 21(h) (other than paragraph (1)), the court may order that the customer be granted civil penalties against the Commission. n55 In determining whether a customer is entitled to relief under Section 21(h)(7) the court may consider, but is not bound by, the findings it made during the course of the *ex parte* proceedings under Section 21(h)(2). n56

The amount of the civil penalty that may be imposed on the Commission is equal to the sum of \$100, out-of-pocket damages sustained by the customer as a direct result of the disclosure, n57 and, if the violation is found to have been willful, intentional, and without good faith, such punitive damages as the court may allow, together with the costs of the action and reasonable attorneys' fees. n58

Any other government authority that violates Section 21(h)(9), n59 is also subject to the civil penalties and the procedures set forth above. n60

In its discretion, the court may also, or in the alternative, issue injunctive relief to require the Commission to comply with Section 21(h) with respect to any subpoena that the Commission issues in the future for financial records of such customer for purposes of the same investigation. n61

The remedies of the customer are confined to the monetary penalties against the Commission and other government authorities and injunctive relief against the Commission set forth above. n62 There is no "exclusionary rule" remedy for the customer. Section 21(h) specifically states that nothing in the section or in the RFPA shall be deemed to prohibit the use in any investigation or proceeding of the financial records, or the information contained therein, obtained by a subpoena issued by the Commission. n63

In the event the customer is unsuccessful in its action against the Commission under Section 21(h)(7), the court shall award the costs of the action and attorneys' fees to the Commission if the judge or magistrate finds that the customer's claims were made in bad faith. n64

Section 21(h) is not intended to enlarge or restrict any rights of a financial institution to challenge requests for records made by the Commission under existing law, or to entitle a customer to assert any rights of a financial institution. n65 In addition, Section 21(h)(7)-(8) supersedes (but only with respect to actions under Section 21(h)) the provisions of Section 27 of the Exchange Act prohibiting the awarding costs for or against the Commission. n66

(n21)Footnote 21. The report cited in n.18 *supra* describes three important insider trading cases in which documents were obtained abroad.

(n22)Footnote 22. Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 § 929P.

(n23)Footnote 23. This section is not intended to be a comprehensive discussion of the RFPa. For a detailed discussion of practice and procedure under the RFPa, see 1 G. Trubow, *Privacy Law and Practice* § 3.04[3][Matthew Bender].

Rather, it is intended simply as a discussion of the provisions of Exchange Act § 27(h), which supplement (rather than supplant) the RFPa. As noted in the legislative history of Section 21(h), the general purpose of Section 21(h) make it easier for the Commission to obtain financial records *ex parte* under specified circumstances. See generally H.R. Rep. No. 1321, 96th Cong., 2d Sess. 2-4, reprinted in 1980 U.S. Code Cong. & Admin. News 3874 (hereinafter cited as "1980 House Report" using citations to the original report pages).

(n24)Footnote 24. 12 U.S.C. § 3422; Exch. Act § 21(h)(1). Section 21(h) is codified at 15 U.S.C. § 78u(h). Unless the context otherwise requires, all terms defined in the RFPa that are common to Section 21(h) have the same meaning as in the RFPa. *Id.* § 27(h)(13).

(n25)Footnote 25. The RFPa defines "customer" as "any person or authorized representative of that person who utilized or is utilizing any service of a financial institution, or for whom a financial institution is acting or has acted as a fiduciary, in relation to an account maintained in the person's name." 12 U.S.C. § 3401(5). A "person" is an individual or a partnership of no more than five individuals. 12 U.S.C. § 3401(4).

(n26)Footnote 26. The term "financial institution" includes a variety of financial entities such as banks and credit card companies. See 12 U.S.C. § 3401(1).

(n27)Footnote 27. Exch. Act § 21(h)(11); see also 1980 House Report, n.1 *supra*, at 11.

(n28)Footnote 28. See 12 U.S.C. § 3405; *In re SEC Private Investigation*, [1990 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 95,424 (S.D.N.Y. 1990) (motion by customer to quash administrative subpoena issued by the Commission).

(n29)Footnote 29. Sections 1105 or 1107 of the RFPa provide the procedure by which government authorities other than the Commission may obtain financial records and notify customers. See 12 U.S.C. § 3405 (administrative subpoena); 12 U.S.C. § 3407 (judicial subpoena).

(n30)Footnote 30. The legislative history of Section 21(h) states that an "appropriate" court is any court specified in Section 21(c) of the Exchange Act. 1980 House Report, *supra* n.1, at 5. Therefore, it appears as though the

2-9 Federal Securities Exchange Act of 1934 § 9.08

appropriate court would be any United States district court whose jurisdiction encompasses either (1) the place where the investigation is being carried on, or (2) the place where the customer resides or carries on business. *See* Exch. Act § 21(c).

(n31)Footnote 31. The subpoena must be issued in conformity with the requirements of Section 19(b) of the Securities Act, Section 21(b) of the Exchange Act, Section 18(c) of the Public Utility Holding Company Act, Section 42(b) of the Investment Company Act of 1940, or Section 209(b) of the Investment Advisers Act. Exch. Act § 21(h)(2); *see generally* § 9.05[4] *supra*.

(n32)Footnote 32. The Commission is not required to identify a particular individual who may have been adversely affected by the activities under investigation. 1980 House Report, *supra* n.1, at 7. Rather, it must show that it has reason to believe that those who may have suffered the uncompensated financial loss fall within the categories of persons whom Congress wished to protect under the securities laws. *Id.* In this respect, "investors" includes those who already own securities, those considering whether to buy securities, and those who actually buy or sell securities. *Id.* at 7-8. "[O]ther persons protected under the securities laws" includes a broad category of individuals and entities whose interests are touched by transactions and courses of business occurring in the securities markets. *Id.* at 8 (*citing United States v. Naftalin*, 441 U.S. 768, 777-78 (1979)).

(n33)Footnote 33. Exch. Act § 21(h)(2)(A)-(D).

(n34)Footnote 34. 1980 House Report, *supra* n.1, at 6.

(n35)Footnote 35. The 1980 House Report uses the word "industry." *See* 1980 House Report, *supra* n.1, at 6. It is assumed that use of the word "inquiry" was intended.

CHAPTER 9 SEC Enforcement--Legal Considerations

2-9 Federal Securities Exchange Act of 1934 § 9.09

AUTHOR: Theodore Altman and Joshua S. Sohn

§ 9.09 Additional Issues Regarding SEC Investigations

[1] Parallel Proceedings

"Parallel proceedings" have always been a concern in securities law practice, and have become even more frequent over the last thirty years. n1 The Commission can make a two-pronged civil enforcement effort by seeking both injunctive relief in the courts n2 and administrative sanctions before itself. n3 It can also refer the same case to the Department of Justice for criminal prosecution. n4 One who faces all this is also likely to confront proceedings initiated by private litigants, stock exchanges, FINRA, and state regulators. Indeed, as far as private litigants are concerned, the Commission maintains that an essential purpose of its proceedings is to inform injured investors of their rights. n5

The Commission's governing statutes clearly permit such multiplicity of proceedings. Parallel civil and criminal investigations, however, have been challenged on the ground that they force the investigatee to choose between exercising his *Fifth Amendment* right to preserve his position in the criminal case, thus leaving the civil action undefended or inadequately defended, or waiving the *Fifth Amendment* privilege, which protects his position in the civil case but deprives him of a basic constitutional protection. The attack has been unsuccessful. The courts see no constitutional impropriety in this. n6

The prospective defendant faces a difficult, uncomfortable and perplexing choice. However, a different rule would force the government to make a choice of that character between criminal prosecution and civil relief. That, a unanimous Supreme Court has held, "would stultify enforcement of federal law." n7

Because the social interest in the effective enforcement of both the criminal and the civil provisions of important regulatory statutes is so strong and because the government can pursue both avenues simultaneously, documents can be subpoenaed by both the SEC and a grand jury. As the District of Columbia Circuit's *en banc* opinion in *SEC v. Dresser Industries, Inc.* n8 explained:

Effective enforcement of the securities laws requires that the SEC and Justice [Department] be able to investigate possible violations simultaneously... If the SEC suspects that [the company has violated the securities laws], it must be able to respond quickly: it must be able to obtain relevant information concerning alleged violations and to seek prompt judicial redress if necessary. Similarly, Justice must act

quickly if it suspects that the laws have been broken. Grand jury investigation takes time, as do criminal prosecutions. If Justice moves too slowly the statute of limitations may run, witnesses may die or move away, memories may fade, or enforcement resources may be diverted... The SEC cannot always wait for Justice to complete the criminal proceedings if it is to obtain the necessary prompt civil remedy, neither can Justice always await the conclusion of the civil proceedings without endangering its criminal case. Thus, we should not block parallel investigations by these agencies in the absence of "special circumstances" in which the nature of the proceedings demonstrably prejudices substantial rights of the investigated party or the government. n9

Dresser suggests that such "special circumstances" arise after an indictment has been returned. For the Commission to persist with its civil inquiry after that point, "might undermine the party's *Fifth Amendment* privilege against self-incrimination, expand rights of criminal discovery beyond the limits of Federal Rules of Criminal Procedure 16(b), expose the basis of the defense to the prosecution in absence of criminal trial, or otherwise prejudice the case." n10

This does not mean, however, that the Commission's civil inquiry must be aborted following an indictment. Deferral of the civil case or a protective order prohibiting the Commission from divulging information to the Department of Justice may suffice. n11 Absent such a protective order, the defendant would be afforded access to broader civil discovery to be used in the criminal case.

"Special circumstances" that prohibit parallel proceedings may also be found when the civil action has been brought solely to obtain evidence for the criminal prosecution, when the defendant is without counsel, or when the defendant "reasonably fears prejudice from adverse publicity or other unfair injury." n12 Two cases, *United States v. Scrushy* n13 and *United States v. Stringer*, n14 make plain the risks to prosecutors if they commingle SEC and Department of Justice investigations or actions. In both cases, indictments were dismissed because the courts found that the Department of Justice improperly manipulated the SEC's civil actions to collect evidence and set traps for the soon-to-be criminal defendants. n15 The decisions in *Scrushy* and *Stringer* have been criticized as setting forth a standard for identifying bad faith in SEC discovery that "too closely scrutinize[s] interagency communication" and as incompatible with established case law governing parallel proceedings. This concern is belied by the subsequent narrowing of the *Scrushy* holding n16 to instances of singularly egregious behavior by government prosecutors and the Ninth Circuit's decision in *Stringer* vacating the dismissal of the criminal indictment and affirming the broad discretion given to the SEC and government prosecutors in conducting parallel investigations. n17 In doing so, the Ninth Circuit held that the SEC did not conduct its civil investigation solely to obtain evidence for the parallel criminal investigation and did not affirmatively mislead defendants into turning over incriminating evidence.

Since the passage of the Sarbanes-Oxley Act in 2003 the SEC has vigorously employed its penalty authority, such that the largest penalties have been imposed since the passage of SOX. n18 Simultaneously, the Department of Justice has become increasingly aggressive in its pursuit of criminal charges against entities and individuals that commit securities fraud. n19 The increased aggressiveness of the SEC and the DOJ converge with parallel proceedings, heightening the risks that the target may be whipsawed between the two investigations. The SEC proceeding will produce evidence that leads to the target's criminal conviction in the DOJ proceeding, and thus expose the target to further civil liability. *Scrushy* and *Stringer* suggested that the judiciary began pushing back against these encroachments and ensure proper protection of a target's *Fifth Amendment* right against self-incrimination. n20

[2] Double Jeopardy

Defendants in parallel proceedings also have argued that cases involving both criminal and civil enforcement actions violate the *Fifth Amendment*. In those cases the defendants unsuccessfully argued that the *Fifth Amendment's double jeopardy clause* precludes the SEC from imposing sanctions for the same conduct in which criminal penalties have already been imposed. The Supreme Court, however, held that a sanction will be considered a criminal punishment for purposes of the *Fifth Amendment* only if: 1) the legislature indicated that the sanction be considered a criminal

punishment or 2) the statutory scheme is so punitive as to transform a civil remedy into a criminal one. n21 In addition, courts have held that disgorgement is not a criminal penalty for purposes of the *Fifth Amendment*. n22 Accordingly, this argument is almost always unsuccessful.

[3] Privileges

[a] Fifth Amendment. The *Fifth Amendment* privilege against self-incrimination is available to witnesses in SEC investigations. However, it does not permit them to refuse to appear. Rather, they must claim the privilege in response to specific questions. Witnesses must assert that claim themselves; counsel cannot do it for them. n23

Corporations and other collective entities have no *Fifth Amendment* privilege. n24 Since the privilege is personal, a corporation cannot claim it on its employees' behalf. Their books and records, therefore, are subject to compulsory disclosure and must be produced even when their production would tend to incriminate their flesh and blood custodian. n25

Although individual witnesses may invoke their *Fifth Amendment* privilege against self-incrimination, a decision to assert the privilege can have detrimental effects in civil litigation where adverse inferences are permissible. n26 In this context, civil litigation does not only mean private litigation. It also can result in quasi-judicial administrative proceedings, injunctive actions, as well as private litigation. n27

[b] Fourth Amendment. Mention has already been made of the reasonableness limit that the *Fourth Amendment's* ban on unreasonable searches and seizures imposes on the Commission's subpoenas n28 and on its inspections of regulated entities. n29 A person asserting his *Fourth Amendment* right must establish an expectation of privacy and an unreasonable intrusion on that privacy right. n30 Wiretapping and the surreptitious recording of conversations by Commission informants also raise *Fourth Amendment* issues. n31 Witnesses who believe that they have been subjected to these practices can demand that the Commission affirm or deny that this is so. This requires the Commission to make a full factual response before it proceeds with the inquiry. n32

Even if that response indicates that the surveillance was lawful, the witness and his counsel would appear to have a due process right to access the tapes before an interrogation about the conversations in question begins. Otherwise, the witness will have to rely on his fallible recollection of those conversations to answer questions based on the interrogators' actual knowledge of who said what to whom. This seems fundamentally unfair.

[c] Attorney/Client Privilege. Judge Wyzanski's classic formulation of this basic privilege in *United States v. United Shoe Machinery Corp.* n33 states that the attorney-client privilege applies when:

- the person who asserts the privilege is or seeks to become a client;
- the person to whom the communication was made is an attorney or an attorney's agent, functioning as an attorney with respect to the communication;
- the communication relates to a fact of which the attorney was informed by the client in confidence;
- the communication relates to the seeking of legal advice or assistance, and not for the purpose of committing a crime or tort; and
- the privilege has been claimed and not waived. n34

Communications to securities lawyers often fall outside the privilege because they relate to matters intended to be disclosed in prospectuses or other public documents. Thus, the essential element of confidentiality is missing. n35 The traditional view is that the privilege is "waived" whenever the information is imparted to the lawyer for the very purpose

of communicating it to someone else, n36 and that it is also waived whenever the client himself discloses it to another. n37 Hence, it can be argued that there is no privilege for anything divulged or intended to be divulged to the SEC or to other governmental agencies, even if the disclosure was intended to be confidential. n38 Moreover, such disclosure can be deemed to have waived the privilege with respect to other communications about the same general subject. n39

Viewed from the perspective of someone who tells or wants to tell the SEC things to satisfy the agency's enforcement-related concerns or to expedite its review of a disclosure filing but who also wants to shield that information from others, the traditional limitations on the scope of this privilege are most unsatisfactory. The Commission agrees. That is not surprising. It wants people to come forward with material protected by the attorney-client privilege. n40 As a general matter, the staff, however, is directed not to ask a party to waive the attorney-client privilege. n41

Efforts have been made to develop a limited-waiver doctrine under which confidential communications to the Commission would be privileged from discovery by others, including other governmental agencies. The results have been mixed. n42 Some courts reject the idea. n43 Others accept it. n44 In 2003 a bill was introduced to the House of Representatives that would have provided for a selective waiver of the attorney-client privilege. n45 Under the proposed law, which was never passed, disclosure to the SEC would only waive the attorney-client privilege as to the SEC and not a third party. n46 Similarly, an intermediate approach is that disclosure to the Commission is "a complete waiver of the attorney-client privilege unless the right to assert the privilege in subsequent proceedings is specifically reserved at the time the disclosure is made." n47 Subsequent decisions, however, have cast doubt on the continued viability of the limited-waiver doctrine. n48

Disclosures to special counsels appointed at the SEC's suggestion or behest have also led to a division of authority. Two courts found the privilege unavailable. One did so on the ground that the special counsel was not retained to render legal advice. n49 The other found special counsel's obligation to notify the Commission and the corporation's Board of Directors of securities-related derelictions inconsistent with any "legitimate expectation of confidentiality." n50 A third court broke with the traditional theories to encourage "this developing procedure of negotiated corporate self-investigation" and because it thought that discovery "would have immediate adverse impact on the ongoing investigation." n51 In addition, reports of internal investigations, which were produced to the SEC or released to the public, have been held to have lost any privilege. n52

[d] Work Product. The work product doctrine is codified in Fed. R. Civ. P. 26(b)(3), which provides that:

- (1) Documents or tangible things,
- (2) Prepared in anticipation of litigation or trial,
- (3) By or for an other party, or by or for that party's representative, including the party's "attorney, consultant, surety, indemnitor, insurer or agent,"
- (4) Are protected against discovery unless the party seeking disclosure can demonstrate:
 - (a) substantial need, and
 - (b) undue hardship. n53

Documents prepared in anticipation of litigation other than the particular case in which the work product claim is asserted are generally held to be privileged work product. n54 Materials prepared in anticipation of SEC investigations have been protected under the work product doctrine. n55

As to the issue of waiver, when a corporation discloses work product to a government agency, the court may permit private parties and other government agencies access to the materials. n56

[4] Immunity

If a witness invokes the *Fifth Amendment* privilege against self-incrimination, the SEC with the approval of the Attorney General, under certain circumstances, may grant use immunity and thereby compel the witness to testify. n57

Title 2 of the Organized Crime Control Act of 1970 n58 applies to SEC investigations. The statute provides that if an individual is called to testify before a federal agency, the agency may, with the approval of the Attorney General, issue an order requiring the individual to give testimony regarding the basis of his privilege against self-incrimination. n59 The order to testify may also include an order granting the witness immunity, such that "no testimony or other information compelled under the order ... may be used against the witness in any criminal case, except a prosecution for perjury, giving a false statement, or otherwise failing to comply with the order." n60 Thus, once immunity is granted to a witness in an SEC investigation, the witness may not refuse to testify on the basis of the privilege against self-incrimination.

The statute gives only "use immunity." A witness may still be prosecuted for transactions about which he or she has testified if the prosecution can show that the evidence used to convict the defendant was obtained from an independent source. n61 "Transactional immunity," which bars any prosecution for any crime related to the immunized witness's testimony or to the information he or she furnishes, can be granted only by the Attorney General. n62 Since even the narrower use immunity requires the Attorney General's consent, the Commission has no authority to bind the Department of Justice with respect to immunity and the Commission's employees certainly have no power to do so. n63

The Commission has, however, permitted its staff to experiment with consensual arrangements that fall short of immunity but that offer significant inducements to testify. These agreements between the staff and the witness call for a two-stage process. The first stage is that the staff agrees not to use a statement in any action or proceeding the Commission may bring. This undertaking relates only to the statement itself. It does not preclude the staff from using the witness's statement as a lead to other evidence that it can offer against the witness. The second stage arrives if and when the staff tells the witness that it will not recommend any enforcement action against him or her. At that point, the agreement binds the witness to cooperate fully. Should the witness fail to honor that commitment, the Commission is free to take whatever enforcement action it deems appropriate and to use the witness's first-stage statement in any such action or proceeding.

[5] Perjury, Obstruction of Justice and False Statements

18 U.S.C. § 1621 provides that:

Whoever, having taken an oath before a competent tribunal, officer, or person, in any case in which a law of the United States authorizes an oath to be administered, that he will testify, declare, depose, or certify truly or that any written testimony, declaration, deposition, or certificate by him subscribed, is true, willfully and contrary to such oath states or subscribes any material matter which he does not believe to be true, is guilty of perjury, and shall, except as otherwise provided by law, be fined not more than \$2,000 or imprisoned not more than five years, or both. n64

An attorney on the staff of the Commission may be designated an officer of the Commission and be empowered to administer oaths and take evidence for the purpose of an investigation. n65 Even if the testimony at an investigation is provided voluntarily, perjury is committed when false statements are made willfully and are material. n66 The *ex parte* character of the inquiry is no bar to a perjury prosecution. n67 In addition, 18 U.S.C. § 1001 criminalizes "false statements" in SEC investigations, regardless of whether given under oath. n68

As to obstruction of SEC proceedings, 18 U.S.C. §§ 1501-1515 prohibit conduct that tends to disrupt the administrative process. n69

[6] Statute of Limitations

With the exception of a five-year statute of limitations for civil penalties imposed pursuant to the insider trading provisions of the Exchange Act, there is no express statute of limitations governing SEC enforcement actions. In 1993, the Ninth Circuit interpreted Congress' silence to mean that no statute of limitations should apply to SEC enforcement actions. n70 In 2004 the Eleventh Circuit concurred with the Ninth Circuit's ruling, holding that, generally, there is no statute of limitations placed on SEC enforcement actions. n71 However, in 1994 the D.C. Circuit held that the five year statute of limitations of 28 U.S.C. § 2462, for proceedings for the enforcement of any civil fine, penalty or forfeiture, applied to both judicial and administrative proceedings. n72 In 1996 the D.C. Circuit held that § 2462's five-year statute of limitations applied to an SEC administrative proceeding to censure and suspend for six months a securities branch manager. n73 In applying the statute of limitations to the SEC enforcement action, the court reasoned that the sanction imposed on the branch manager constituted a penalty under § 2462. n74

Courts, however, are not unanimous in this view. In *SEC v. Pinchas*, the Southern District of New York strongly suggested that § 2462 does not apply to summary proceedings brought by the SEC to enforce its orders. n75 In addition, Section 2462's five-year statute of limitations does not apply when the SEC seeks equitable relief.

[7] Temporary Freeze Authority

One complaint that had arisen about Commission enforcement authority in the past was that assets could often be dissipated before judgment could be reached against violators. In one attempt to correct this situation, Section 1103 of the Sarbanes-Oxley Act n76 gives the Commission the authority, where the Commission is investigating an issuer (or one of its directors, officers, partners, controlling persons, agents or employees) for possible securities violations and it appears to the Commission likely that the issuer will make "extraordinary payments (whether compensation or otherwise)" to any of the foregoing persons, to petition a federal court for an order requiring the issuer to escrow those payments for up to forty-five days (with the possibility of one forty-five-day extension). The Commission does not have to demonstrate any likelihood that the person to whom such payments are directed has actually violated the securities laws, only that there is a "lawful investigation." If actual charges are filed while a temporary escrow order is in effect, that order remains in effect until resolution of those charges. The Commission used this authority in its action against HealthSouth Corporation and its CEO, Richard Scrushy. n77

(n3)Footnote 3. *See* § 9.10 *supra*.

(n4)Footnote 4. *See* § 9.14 *supra*. It can do so before it reaches a decision with respect to civil enforcement action. *In re Clinton Engines Corporation*, 41 *S.E.C.* 408, 413 (1963) : "[T]hat we have referred evidence to the Attorney General does not mean that we are incapable of weighing all of the evidence deliberately and impartially... in our quasi-judicial capacity." *See generally Withrow v. Larkin*, 421 *U.S.* 35, 47-50 (1975) .

(n5)Footnote 5. *See, e.g., Angelastro v. Prudential-Bache Secs., Inc.*, 764 *F.2d* 939 (3rd Cir. 1985) ; *In re Franchard Corporation*, 42 *S.E.C.* 163, 185 n.58 (1964) . Parallel enforcement proceedings by the Commission and

other regulatory bodies may be closely coordinated, as was the case in related enforcement actions by the Commission and National Association of Securities Dealers ("NASD") Regulation, Inc. against Credit Suisse First Boston Corporation, arising from the latter's allocation of shares in "hot" initial public offerings. See Press Release, *SEC Charges CSFB with Abusive IPO Allocation Practices* (Jan. 22, 2002) (hereafter, "SEC Press Release") (characterizing joint effort as "a model of effective cooperation and parallel investigation" by Commission enforcement staff and the staff of NASD Regulation); see also SEC Litigation Release No. 17327 (Jan. 22, 2002). Indeed, at the culmination of the parallel investigation, the Commission commenced an enforcement proceeding in federal court to enjoin violations by Credit Suisse First Boston of the NASD's rules prohibiting profit sharing with customers by allegedly extracting inflated commissions from customers in return for preferential allocations of certain initial public offerings. See *SEC v. Credit Suisse First Boston Corp.*, No. 02 CV 00090 (D.D.C.) (complaint filed Jan. 22, 2002). The SEC observed that it had "taken the unusual step of seeking a federal court injunction to enforce NASD rules," in view of the nature and scale of Credit Suisse First Boston's alleged misconduct. SEC Press Release (Jan. 22, 2002). Related administrative proceedings charging similar violations were commenced by NASD Regulation, Inc. See Press Release, *NASD Regulation Charges Credit Suisse First Boston with Siphoning Tens of Millions of Dollars of Customers' Profits in Exchange for "Hot" IPO Shares* (Jan. 22, 2002) (hereafter, "NASD Press Release"). In order to resolve the parallel proceedings, Credit Suisse First Boston agreed to a consent judgment in the federal court action enjoining it from further violations of the NASD rules and also agreed to monetary penalties totaling \$100 million, half to be paid to the Commission and half to be paid to NASD Regulation, Inc. See *SEC v. Credit Suisse First Boston Corp.*, No. 02 CV 00090 (D.D.C.) (consent judgment entered Jan. 22, 2002); NASD Press Release. This type of coordinated resolution between the SEC and other regulatory agencies, such as FINRA, may often be the most favorable resolution from the target's perspective, as well.

(n6)Footnote 6. *United States v. Kordel*, 397 U.S. 1 (1970) , cited in *S.E.C. v. Brown*, No. 06-1213 (PAM/JSM), 2007 U.S. Dist. LEXIS 98410 (D. Minn. July 16, 2007) .

(n7)Footnote 7. *United States v. Kordel*, 397 U.S. 1, 11 (1970)

(n8)Footnote 8. 628 F.2d 1368 (D.C. Cir. 1980) , cert. denied, 449 U.S. 993 (1980) .

(n9)Footnote 9. *Id.* at 1377 . *Dresser* also held the restrictive rule of *United States v. La Salle National Bank*, 437 U.S. 298 (1978) with respect to Internal Revenue Service summonses inapplicable "to the securities laws in which the SEC's civil enforcement authority continues undiminished after Justice initiates a criminal investigation by the grand jury." 628 F.2d at 1378 ; see also, *SEC v. First Financial Group of Texas, Inc.*, 659 F.2d 660, 666-68 (5th Cir. 1981) .

(n10)Footnote 10. 628 F.2d at 1376 ; see also *SEC v. Oakford Corp.*, 1998 U.S. Dist. LEXIS 12314 (S.D.N.Y. 1998) .

(n11)Footnote 11. *Id.* But see the brief concurring opinion of Judge Edwards: "I express no opinion as to whether the summons authority of a government agency may continue once an indictment has been issued or, if it may, whether protective conditions need be placed on the exercise of that power." 628 F.2d at 1391 .

(n12)Footnote 12. *United States v. Kordel*, 397 U.S. 1, 11-12 (1970) . Kordel also indicates that special circumstances may be present when the Government "has failed to advise the defendant in its civil proceeding that it contemplates his criminal prosecution." But this is not always so. Compare *United States v. Rodman*, 519 F.2d 1058 (1st Cir. 1975) (criminal prosecution barred where SEC staff member breached promise to recommend against criminal proceedings) with *United States v. Fields*, 592 F.2d 638 (2d Cir. 1978) , cert. denied, 442 U.S. 917 (1979) (isolated instance of misconduct by SEC staff members who did not tell target that they envisaged a criminal proceeding did not warrant dismissal of the indictment so as to deter official wrongdoing).

(n13)Footnote 13. *United States v. Scrushy*, 366 F. Supp. 2d 1134, 1139 (N.D. Ala. 2005) (finding that "the government manipulated the simultaneous proceedings for its own purposes" by setting a perjury trap for the defendant

through coordinated efforts of the SEC and Department of Justice and throwing out perjury counts based on testimony elicited through the improper scheme).

(n14)Footnote 14. *United States v. Stringer*, 408 F. Supp. 2d 1083, 1089 (D. Or. 2006) (dismissing indictment because the Department of Justice spent years "hiding behind the civil investigation to obtain evidence, avoid criminal discovery rules, and avoid constitutional protections.").

(n15)Footnote 15. According to one commentator, these two cases stand for the proposition that the courts continue to rubber stamp the procedure by which the SEC and the Department of Justice share information. Ralph C. Ferrara & David A. Garcia, *Meeting in Dark Corners and Strange Places: Scheming Between the SEC and the Department of Justice*, 1557 PLI/Corp 515, 531 (2006). However, courts will scrutinize the relationship between the DOJ and the SEC when the "parallel investigations have advanced beyond the initial sharing of information" to "examine whether the investigations have improperly merged, whether the defendant has received adequate notice that he could be subject to criminal charges, and whether the liberal rules of civil discovery are being abused to gain an advantage in a parallel criminal investigation." *Id.*

(n16)Footnote 16. Eli Ewing, Comment, *Too Close for Comfort: United States v. Stringer and United States v. Scrusby Impose a Stricter Standard on SEC/DOJ Parallel Proceedings*, 25 YALE L. & P OL'Y REV. 217 (2006)).

(n17)Footnote 17. *United States v. Stringer*, 521 F.3d 1189 (9th Cir 2008) .

(n18)Footnote 18. Similarly, as previously discussed, the SEC touts that it "has returned more than \$6.6 billion to harmed investors since the passage of the Sarbanes-Oxley Act" under provisions allowing the SEC to redirect penalties collected from securities violators to harmed investors.

(n19)Footnote 19. Eli Ewing, Comment, *Too Close for Comfort: United States v. Stringer and United States v. Scrusby Impose a Stricter Standard on SEC/DOJ Parallel Proceedings*, 25 YALE L. & P OL'Y REV. 217 (2006). Alvin K. Hellerstein & Gary P. Naftalis, *Defending Parallel Civil and Criminal Proceedings*, ALI-ABA 777 (2006).

(n20)Footnote 20. *E.g.*, *United States v. Luce*, No. 05 CR 340, 2006 U.S. Dist. LEXIS 76052, at *16 (N.D. Ill. Sept. 26, 2006) (holding no violation of *Fifth Amendment* because defendant was provided with sufficient notice that criminal prosecution may occur through service of grand jury subpoena and the government had not "affirmatively concealed" the existence of parallel investigations); *United States v. Mahaffy*, 446 F. Supp. 2d 115 (E.D.N.Y. 2006) (limiting the holdings of *Stringer* and *Scrusby* to when the government engages in such "egregious conduct as to constitute a violation of the universal sense of justice."); *SEC v. Sandifur*, No. C05-1631C, 2006 U.S. Dist. LEXIS 40716, at *7 (W.D. Wash. June 19, 2006) (holding that interaction between SEC and DOJ a rises to violation of Due Process if SEC virtually becomes a tool of DOJ).

(n23)Footnote 23. *SEC v. First Financial Group of Texas, Inc.*, n.9 *supra*, 659 F.2d at 668-69 , reviews the authorities.

(n24)Footnote 24. *SEC v. Brown*, No. 06-1213 (PAM/JSM), 2007 U.S. Dist. LEXIS 98410 2007 WL4192000 (D. Minn. July 16, 2007), citing *Bellis v. United States*, 417 U.S. 85 (1974) (holding that this principle was applicable to a law firm).

(n25)Footnote 25. *SEC v. Brown*, No. 06-1213 (PAM/JSM), 2007 U.S. Dist. LEXIS 98410 (D. Minn. July 16, 2007) citing *Bellis v. United States*, 417 U.S. 85 (1974)

(n26)Footnote 26. *Baxter v. Palmagiano*, 425 U.S. 308 (1976) ; *Lefkowitz v. Cunningham*, 431 U.S. 801, 809 n.5 (1977) .

(n27)Footnote 27. *Pagel, Inc. v. SEC*, 803 F.2d 942, 946-47 (8th Cir. 1986) approved this practice. See also *N. Sims Organ & Co. v. SEC*, 293 F.2d 78, 80 (2d Cir. 1961) , cert. denied, 368 U.S. 968 (1962) . *SEC v. Tome*, 638 F. Supp. 596, 610 (S.D.N.Y. 1986) (opinion on the merits) and *SEC v. Tome*, 638 F. Supp. 629, 631 (S.D.N.Y. 1986) (memorandum on evidentiary matters). See Heidt, *The Conjurer's Circle: The Fifth Amendment Privilege in Civil Cases*, 92 Yale L. J. 1062 (1982). As Justices Brennan and Marshall, staunch defenders of the privilege, said in *Baxter v. Palmagiano*, 425 U.S. 308, 335 (1976) (dissenting opinion): "In a civil suit involving only private parties, no party brings to the battle the awesome powers of the government, and therefore, to permit an adverse inference to be drawn from exercise of the privilege does not implicate the policy considerations underlying the privilege."

(n28)Footnote 28. See § 9.08[1] *supra*.

(n29)Footnote 29. The statutory provisions cited in § 9.03 *supra* all require that inspections be reasonable. In *S.E.C. v. Lazare*, No. 3: CV-96-0705, 2007 U.S. Dist. LEXIS 71409 (M.D. Pa. Sept. 26, 2007) , the court rejected the defendants' allegations that staff members made an unreasonable seizure when they took evidence from the defendants' personal residence. The Third Circuit affirmed. *SEC v. Lazare*, 294 Fed.Appx. 711 (3d. Cir. 2008) . In *Wolf Corp. v. SEC*, 317 F.2d 139, 142 (D.C. Cir.1963) , an issuer of securities alleged that staff members made an unreasonable search when they examined records at its premises. The court held that the issue had to be raised before the Commission and that judicial review was available only by way of an appeal from a final order of the Commission. Settlement ultimately rendered the point moot. *In re The Wolf Corporation*, 42 S.E.C. 1042 (1966) .

(n30)Footnote 30. *U.S. v. Szur*, 1998 U.S. Dist. LEXIS 3519 (S.D.N.Y. Mar. 18, 1998) .

(n31)Footnote 31. See *Smith v. SEC*, 129 F.3d 356 (6th Cir. 1997) in which a taped conversation was suppressed.

The latter technique is said to have figured prominently in certain SEC inquiries. N.Y. Times, Mar. 26, 1987, § D, at 2 . See also *id.*, Nov. 22, 1986, at 35; *Id.*, Nov. 24, 1986, § A, at 1 ; Wash. Post, Nov. 19, 1986, at 1.

(n32)Footnote 32. 18 U.S.C. § 3504. On the right to refuse to answer questions based on illegal electronic surveillance, see *Gelbard v. United States*, 408 U.S. 41, 52 (1972) . For the nature of the required governmental response, see *United States v. Alter*, 482 F.2d 1016, 1027 (9th Cir. 1973) . In *SEC v. Brown*, Civil Action No. 81-532 (D.D.C., January 6, 1982), the court ordered the Commission to make such a response. And the agency did so. A controversy about the adequacy of the response was rendered moot by settlement.

(n33)Footnote 33. 89 F. Supp. 357, 358-59 (D. Mass. 1950) ; see also 8 J. Wigmore, Evidence § 2291 at 554 (McNaughton rev. ed. 1961).

(n34)Footnote 34. Regarding the last element, the SEC and the Department of Justice have promulgated policies controlling when the two agencies may demand targets of investigations waive the attorney-client privilege. The SEC policy is set forth in the so-called Seaboard Report, a cease and desist order issued by the SEC in October 2001, alia, the company "did not invoke the attorney-client privilege, work product protection or other privileges or protections with respect to any facts uncovered in the investigation."

The Department of Justice counterparts to the Seaboard Report are the Thompson Memorandum of January 20, 2003 and the McNulty Memorandum of December 12, 2006. See Larry D. Thompson, *Principles of Federal Prosecution of Business Organizations* 3 (Jan. 20, 2003) and Paul J. McNulty, *Principles of Federal Prosecution of Business Organizations* 8 (Dec. 12, 2006).

Consistent with the SEC's Seaboard Report, the Thompson Memorandum prescribed guidelines that encouraged target

companies to waive the attorney-client privilege in order to escape indictment: "In ... determining whether to bring charges ... prosecutors should consider the following factors in reaching a decision ... the corporation's timely and voluntary disclosure of wrongdoing ... including, if necessary, the waiver of corporate attorney-client and work product protection" The McNulty Memorandum revised the Thompson Memorandum by limiting when a prosecutor may broach the subject of attorney-client privilege waiver in lieu of an indictment. The Thompson Memorandum omitted reference to waiver of the attorney-client privilege as a factor properly considered in the charging decision. Instead, the Thompson Memorandum stated, "Prosecutors may only request waiver of attorney-client or work product protections when there is a legitimate need for the privileged information to fulfill their law enforcement obligations."

(n35)Footnote 35. See *Cowan Liebowitz & Latman, P.C. v. Kaplan*, 902 So.2d 755 (Fla. 2005) , citing *U.S. v. Moscony*, 927 F.2d 742 (3d Cir. 1991) and *In re Grand Jury Proceedings*, 727 F.2d 1352 (4th Cir.1984) ; *United States v. Tellier*, 255 F.2d 441 (2d Cir. 1958) , cert. denied, 358 U.S. 821 (1958) . Judge Lumbard's dissent in *Tellier*, 255 F.2d at 451 , shows how close the confidentiality questions can become in the financing context. The case involved a lawyer's warning to his client that a proposed financing might be a criminal fraud. The majority rejected the claim of privilege on the ground "that this advice was not understood... to be confidential." A telephone conversation in which the lawyer characterized the deal as a "Ponzi scheme" was found outside the privilege even if there was no intent to communicate it further because "[i]t was too closely connected with the information which was intended to be communicated."

(n36)Footnote 36. *In re Grand Jury Proceedings*, 33 F.3d 342 (4th Cir. 1994) ("[I]f a client communicates information to his attorney with the understanding that the information will be revealed to others, that information ... will not enjoy the privilege.")

(n37)Footnote 37. *In re Horowitz*, 482 F.2d 72, 82 (2d Cir.) , cert. denied, 414 U.S. 867 (1973) (affirmative action to preserve confidentiality required).

(n38)Footnote 38. *In re Penn Central Commercial Paper Litigation*, 61 F.R.D. 453, 463-64 (S.D.N.Y. 1973) .

(n39)Footnote 39. *Duplan Corp. v. Deering Milliken, Inc.*, 397 F. Supp. 1146, 1161-62 (D.S.C. 1974) .

(n40)Footnote 40. On September 19, 2008, Congress passed legislation that amends the Federal Rules of Evidence 502 to state that the disclosure of privileged material in a government investigation waives the privilege unless the disclosure was inadvertent and the disclosing party had taken reasonable steps to prevent disclosure. See Public Law No. 110-322, 122 Stat. 3537 (2008).

(n41)Footnote 41. SEC Enforcement Manual Section 4.3.

(n42)Footnote 42. *In re Columbia/HCA Healthcare Corp. Billing Practices Litigation v. Columbia/HCA Healthcare Corp.*, 293 F.3d 289, 294-95 (6th Cir. 2002) ("[U]nfortunately, 'the case law addressing the issue of limited waiver [is] in a state of hopeless confusion.'"), citing *In re M&L Business Machine Co. Inc.*, 161 B.R. 689, 696 (D. Col. 1993) .

(n43)Footnote 43. *Permian Corp. v. United States*, 665 F.2d 1214 (D.C. Cir. 1981) ; *In re Subpoenas Duces Tecum to Fulbright & Jaworski*, 738 F.2d 1367, 1370 (D.C. Cir. 1984) ; *In re Penn Central Commercial Paper Litigation*, 61 F.R.D. 453,463-467 (S.D.N.Y. 1973) . *Permian* held documents given to the SEC to expedite the processing of a registration statement discoverable by the Department of Energy because "Important though the SEC's mission may be, we are aware of no congressional directive or judicially-recognized priority system that places a higher value on cooperation with the SEC than on cooperation with other regulatory agencies, including the Department of Energy." 665 F.2d at 1222 . *Fulbright & Jaworski* held the privilege waived by disclosure to the SEC even though the transmittal letter had stated that the documents were confidential and that their delivery to the SEC was not a waiver of the privilege. However, the court suggested that a "promise of confidentiality before disclosure to the SEC" would have made for a different result. 738 F.2d at 1375 . *Penn Central* ordered the production of an attorney's testimony before

the SEC as well as documents given the Commission. *See also, In re Sealed Case*, 676 F.2d 793 (D.C. Cir. 1982) (requiring production of documents missing from file turned over to the SEC); *In re Weiss*, 596 F.2d 1185, 1186 (4th Cir. 1979) (attorney who had testified before the SEC "would be questioned by the grand jury regarding the areas and subject matter touched on by his testimony before the SEC").

(n44)Footnote 44. *Diversified Industries, Inc. v. Meredith*, 572 F.2d 596, 611 (8th Cir.1977) (*en banc*): "As Diversified disclosed these documents in a... nonpublic SEC investigation, we conclude that only a limited waiver of the privilege occurred... To hold otherwise, may have the effect of thwarting the developing of procedures of corporations to employ independent outside counsel to investigate and advise them in order to protect stockholders, potential stockholders and customers." *See also In re Grand Jury Subpoena*, 478 F. Supp. 368 (E.D. Wis. 1979) ; *Byrnes v. IDS Realty Trust*, 85 F.R.D. 679 (S.D.N.Y. 1980) ; *Salomon Bros. Treasury Litig. v. Steinhardt Partners L. P.*, 9 F.3d 230, 235 (2d Cir. 1993) .

(n45)Footnote 45. H.R. 2179, 108th Cong. (2003). *Id.*

(n46)Footnote 46. However, disclosure to the SEC runs the risk of waiving the attorney-client privilege as to the disclosed information, increasing an individual's liability in a subsequent private action. *See, e.g., SEC v. Beacon Hill Asset Management, Inc.* 231 F.R.D. 134 (S.D.N.Y. 2004) (holding that the SEC's contention regarding waiver of attorney-client privilege is overbroad and not in line with established precedent).

(n47)Footnote 47. *Teachers Insurance & Annuity Ass'n of America v. Shamrock Broadcasting Co., Inc.*, 521 F. Supp. 638, 645 (S.D.N.Y. 1981) .

(n48)Footnote 48. *See, e.g., In re Columbia/HCA Healthcare Corp. Billing Practices Litigation v. Columbia/HCA Healthcare Corp.*, 293 F.3d 289, 294-95 (6th Cir. 2002) (plaintiffs in multidistrict action against health services provider entitled to documents health services previously provided to the federal government); *In re Steinhardt Partners, L.P.*, 9 F.3d 230, 233 (2d Cir.1993) (noting a circuit split on the issue of selective waiver) (holding that trader's voluntary submission of legal memorandum to Securities and Exchange Commission (SEC), with whom trader stood in adversarial position as subject of SEC investigation in connection with which memorandum was sought, waived protections of work product doctrine in subsequent class action); *In re John Doe Corp.*, 675 F.2d 482, 489 (2d Cir. 1982) (rejecting the limited waiver doctrine in a grand jury proceeding where previous disclosure was to a non-governmental agency) (noting that the attorney-client privilege "is an exception to the critically important duty of citizens to disclose relevant evidence in legal proceedings [and that it] does not shield communication which serve purposes other than those which led to judicial recognition of the privilege").

(n49)Footnote 49. *Osterneck v. E.T. Barwick Industries, Inc.*, 82 F.R.D. 81, 85-87 (N.D. Ga. 1979) : ("They were not retained... for their legal expertise. They were retained to conduct an investigation... as a result of a complaint being filed by the SEC") An agreement with the SEC that disclosure to the special counsel would "not be deemed... a waiver of any privilege which may have previously attached" was found beside the point essentially because the privilege had never attached.

(n50)Footnote 50. *SEC v. Canadian Javelin, Ltd.*, 451 F. Supp. 594, 596 (D.D.C.) , *vacated and remanded*, [1979 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 96,742 (D.C. Cir. 1978).

(n51)Footnote 51. *In re LTV Securities Litigation*, 89 F.R.D. 595, 618 (N.D.Tex. 1981) . The court also observed that "allowing the type of discovery requested here may kill the goose that lays the golden egg--the Commission may be deprived of a useful enforcement option, while shareholders will hardly be benefited by inhibiting corporate self-investigation." *Id.* at 619 .

CHAPTER 9 SEC Enforcement--Legal Considerations

2-9 Federal Securities Exchange Act of 1934 § 9.10

AUTHOR: Theodore Altman and Joshua S. Sohn

§ 9.10 Administrative Proceedings

[1] Broker-Dealers

Under Section 15(b)(4) of the Exchange Act, the Commission can terminate a broker-dealer's registration, limit a broker-dealer's activities, or censure a broker-dealer if the Commission finds, on the record, after notice and an opportunity for a hearing that certain specified offenses have been committed and that such disciplinary action is in the public interest.

While Section 15(b)(4) applies only to firms, Section 15(b)(6) gives the Commission similar authority over "any person associated or seeking to become associated, with a broker or dealer." n1 In practice, however, the Commission does not use that section to proceed administratively against people who are neither associated nor seeking association with broker-dealers, but it may use it to proceed against people formerly associated with brokers or dealers if they committed violations while so associated. n2

These sections of the Exchange Act provide that the commission cannot "suspend [a broker-dealer's activities] for a period ... exceeding twelve months." n3 Despite this language, sanctions tantamount to suspensions for longer periods are commonplace. The commission achieves this result by barring the respondent from the industry with the express provision that he or she may apply for permission to return to it after two, three, or five years. n4

Though broad, the Commission's discretion with respect to disciplinary sanctions is not unlimited and is subject to judicial review. n5 Although the Commission has argued that harsh sanctions can be used to deter others, n6 severe sanctions require cogent explanations. n7

With respect to disciplinary actions taken by the securities industry's self-regulatory organizations, the Commission's jurisdiction is purely appellate. n8 This jurisdiction is normally invoked by an aggrieved respondent, but the Commission may review on its own motion. n9

The standard of review depends on the nature of the issue. If the contention is that there was no violation, the Commission must make its own de novo finding. n10 When the appropriateness of the sanction is at issue, the

Commission must affirm unless it finds the penalty "excessive or oppressive." n11

[2] Stop Orders

Stop orders suspend the effectiveness of registration statements under the Securities Act. n12 They must be supported by findings of material misstatements or omissions made after notice and opportunity for a hearing. n13 No showing of an intent to deceive is needed. The essential issue is the accuracy of the filing, not the good faith of those who prepared it. n14 This does not mean that mitigating factors are totally irrelevant. n15 They may lead the Commission to withhold a stop order on condition that its opinion be distributed to all security holders. n16

Regulation A and other exemptive regulations under the Securities Act provide for proceedings akin to stop orders. n17 They differ procedurally from stop orders in that the proceeding begins with an order temporarily suspending the claimed exemption. The suspension order will be vacated if shown after hearing to be erroneous or unwarranted. If the Commission finds the allegations in the temporary order well founded and if it is not persuaded that vacation would be appropriate, the suspension becomes permanent. n18

[3] National Securities Exchanges

Section 19 of the Exchange Act authorizes administrative proceedings against national securities exchanges. n19

[4] Suspension of Trading

Section 12(k) of the Exchange Act permits the SEC summarily to suspend trading in any security for a period not exceeding ten days, if, in its opinion, the public interest and the protection of investors so require. In *SEC v. Sloan*, n20 the Supreme Court held that "ten days" means ten days. The Court unanimously rejected the Commission's long standing position that the statute authorized a series of summary suspension orders based on a single set of circumstances. Prolonged trading suspensions are still possible, but notice, an opportunity for a hearing, and findings on the record are essential. n21 Summary suspensions of trading, which were frequent before *Sloan*, are now quite rare.

[5] Lawyers, Accountants and Other Professionals

Prior to the passage of the Sarbanes-Oxley Act, the SEC had no explicit authority to discipline professionals. It believed, however, that it had the inherent power to do so. The "peculiarly strategic and especially central role of the private [practitioner] n22 in the investment process and in the enforcement of the body of federal law aimed at keeping that process fair" requires that persons who practice before it be held "to appropriately rigorous standards of professional honor." n23

Any doubt as to the SEC's statutory authority was erased by the passage of the Sarbanes-Oxley Act. Section 602 added a new Section 4C to the Exchange Act n24 which, in effect, adopts the SEC's Rule 102(e). n25 Under Section 4C and Rule 102(e), the SEC may sanction, by way of censure or the denial of the privilege to practice before it, a professional whom it finds fails to possess the requisite qualifications to represent others, engages in improper professional conduct or willfully violates (or aids and abets a violation of) the Federal securities laws. With respect to accountants, the definition of "improper professional conduct" specifies the mental state required for a violation and states that the standard for professional conduct is evaluated based on applicable professional standards. n26 This definition is the same as that adopted by the SEC in 1998 in response to judicial criticism that the SEC had not promulgated intelligible standards for this term. n27

No court has ruled on whether former Rule 102(e), as modified in 1998, meets constitutional standards, and skeptics continued to wonder about the adequacy of Rule 102(e)'s legal basis. n28 Regardless, courts continue to uphold SEC orders penalizing professionals pursuant to Rule 102(e). n29 With respect to anything other than constitutional concerns, it would seem that the Sarbanes-Oxley Act resolved these doubts. Critics also raise policy questions about the

desirability of a practice under which an agency that they consider prosecutorially oriented determines who can and who cannot practice before it. They maintain that this can have a chilling effect on advocacy and on the vigorous assertion of legitimate positions with which the Commission or its staff happen to disagree.

Other objections go to the scope of such terms as "practice before the Commission," "lacking in character or integrity" and "the requisite qualifications to represent others." n30 The Commission's view that anybody who gives advice about any question relating to the federal securities laws is practicing before it n31 has been criticized as overbroad. n32 The other quoted phrases give the Commission similarly broad latitude. Vicarious responsibility for another's ethical infractions is another point of contention. A question arises as to whether an entire firm should be held accountable for the derelictions of one or two partners or associates. n33

Firms usually stand behind their partners. Fully litigated Rule 2(e) cases are very rare and the Commission assesses the extent of the firm's involvement when it imposes sanctions. Thus, for example, in *In the Matter of Ernst & Ernst*, the firm was censured while two of its partners were suspended for varying periods. Moreover, that opinion observed that the firm had not tried to disassociate itself from the partners involved so that "the question of whether there might be circumstances in which it would be inappropriate to attribute the unprofessional conduct of a partner in a... firm to that firm" was not raised. n34

The Commission answered by pointing to considerations similar to those stated at the outset of this section, to such institutional safeguards against abuse as prosecution by the presumably more detached General Counsel's Office rather than by the Division of Enforcement, to what it views as its historical record of fairness and to the availability of judicial review. n35 The Rule created a presumption in favor of the proceedings being public, although this was not always the case. n36 There were years of debate before the change was made; until the change, the proceedings were normally nonpublic. n37 There was also significant opposition from the bar. n38

Some Rule 102(e) proceedings are "derivative," *i.e.*, they are based on other cases. Criminal convictions, disbarments or other disciplinary actions, injunctions obtained by the Commission, or findings of willful violation of the federal securities laws by a court or by the Commission itself in an earlier administrative proceeding can lead to *ex parte* temporary suspensions from practice n39 before the Commission. n40 The suspended professional must then petition for an order lifting the suspension. That normally leads to a hearing on the question of whether the suspension should be made permanent. Since collateral attacks on the result in the predicate proceeding are prohibited and since the burden is on the petitioner to show cause why the Commission should not disbar him, there is little the petitioner can do at the hearing but plead for leniency. n41

Derivative Rule 102(e) proceedings are not automatic. Their institution is discretionary with the Commission. Accordingly, settlements in predicate proceedings against professionals sometimes provide that they will not be used for Rule 102(e) purposes. n42

[a] Attorney Reporting Requirements. On January 29, 2003, pursuant to its mandate under Section 307 of the Sarbanes-Oxley Act, the Commission promulgated a set of rules setting forth minimum standards of professional conduct for attorneys appearing and practicing before the Commission in the representation of issuers. n43 As mandated by Congress, the heart of these rules is a requirement that an attorney who "becomes aware of evidence of a material violation by the issuer" or any officer, director, employee or agent of the issuer must report such evidence "up the ladder"--to some combination of the chief legal officer, chief executive officer, or a committee of the board of directors. n44 Violations of these duties subject the attorney to potential civil penalties and other remedies available to the Commission in court proceedings for violating the securities laws, and may also subject the attorney to disciplinary proceedings under Rule 102(e). n45 Moreover, Section 307 represents another example of the extraterritorial reach of Sarbanes-Oxley, because the provision applies equally to foreign and domestic attorneys. n46 The most controversial proposal, one requiring "noisy withdrawal" by attorneys whose "up the ladder" reporting meets with an unsatisfactory response, received extensive criticism and commentary. n47 As a result, the SEC extended the comment period and

invited further discussion. The comment period for the "noisy withdrawal" proposal, however, expired on April 7, 2003 and the proposal has never been adopted.

The Commission has not aggressively sought enforcement actions against attorneys under Section 307 since then. In one case, *SEC v. Spiegel*, the court did reference Section 307 of the Sarbanes-Oxley Act.ⁿ⁴⁸ The reference however, was more of a warning than an application, because the conduct at issue occurred prior to the passage of Sarbanes-Oxley. In addition, it is clear that the SEC does not consider Section 307 to provide a private right of action against an attorney.ⁿ⁴⁹ The Commission has, by these rules, extended its reach into areas of attorney discipline previously reserved primarily to the states.ⁿ⁵⁰ The passage of Section 307 has not led to a dramatic increase in SEC enforcement actions and litigation against attorneys.ⁿ⁵¹

[b] Regulation of Accountants--The Public Company Accounting Oversight Board. Title I of the Sarbanes-Oxley Actⁿ⁵² created a new entity, the Public Company Accounting Oversight Board ("PCAOB" or "Board"), "to oversee the audit of public companies that are subject to the securities laws, and related matters, in order to protect the interests of investors and further the public interest in the preparation of informative, accurate, and independent audit reports for companies the securities of which are sold to, and held by and for, public investors."ⁿ⁵³ The PCAOB is not a federal agency but is rather a private, not-for-profit corporation that for most purposes should be considered a self-regulatory organization ("SRO") similar to the exchanges.

While the Sarbanes-Oxley Act carefully states that the creation of the PCAOB in no way detracts from the Commission's authority to directly regulate auditors and auditing standards,ⁿ⁵⁴ the PCAOB has become a major source of regulations of accounting firms and accountants. For example, in the PCAOB's first year of operation alone, compliance with PCAOB regulations pursuant to the Sarbanes-Oxley Act cost U.S. firms more than \$35 billion.ⁿ⁵⁵

The PCAOB consists of five members appointed by the Commission in consultation with the Federal Reserve Chairman and the Secretary of the Treasury.ⁿ⁵⁶ Two of the five members must be or must have been certified public accountants.ⁿ⁵⁷ Each member serves for five years (in staggered terms), subject to removal for cause prior to expiration of his or her term by the Commission.ⁿ⁵⁸ As required by Section 101(d) of the Sarbanes-Oxley Act,ⁿ⁵⁹ on April 25, 2003, the PCAOB was certified by the Commission to be sufficiently organized to begin fulfilling its duties under the Act.ⁿ⁶⁰ In 2010, the Supreme Court addressed the constitutionality of the PCAOB and found it to be constitutional except for the removal procedures of PCAOB members.ⁿ⁶¹ Those procedures were changed and now allow for the removal of PCAOB members at will by the SEC.ⁿ⁶²

Effective October 22, 2003, all public accounting firms participating in the audit of any issuer must be registered with the PCAOB.ⁿ⁶³

The PCAOB's enforcement powers in many ways parallel those of the Commission, and consist of both regular inspectionsⁿ⁶⁴ of registered firms (and associated persons) and investigative and disciplinary powers.ⁿ⁶⁵ On October 7, 2003, the PCAOB issued its final rules with respect to both inspections and investigations;ⁿ⁶⁶ Pursuant to 15 U.S.C. § 7217(b)(2), these rules went into effect with the Commission's approval on June 18, 2004.ⁿ⁶⁷ The overall structure of inspections and investigations is largely laid out in the Sarbanes-Oxley Act itself.

With respect to inspections, the PCAOB must conduct regular inspections at a frequency dependent upon the number of audits performed by a registered firm; annual inspections are required for firms that regularly audit at least 100 issuers, while other firms must be inspected at least once every three years--subject to potential adjustment by PCAOB rulemaking and the ability of the PCAOB to conduct special inspections.ⁿ⁶⁸ Inspections must include inspection and review of selected audit engagements of each firm, evaluation of the firm's quality control and communication systems, and such other testing as the PCAOB determines to be necessary.ⁿ⁶⁹ Firms are given the opportunity to review and comment on inspection reports prior to their transmittal to the Commission.ⁿ⁷⁰ Critical comments by the Board about a firm's quality control systems will not be made available to the public, provided that the firm takes corrective action

within twelve months of the date of the report. n71

The PCAOB has the power to investigate any act, practice, or omission by a registered public accounting firm, or any associated person, that may violate the Sarbanes-Oxley Act, the rules of the Board, or the securities laws or rules or regulations issued thereunder insofar as they relate to audit reports. n72 The PCAOB has, like the Commission, provided for both informal and formal investigations, the latter initiated by an order of formal investigation issued by the Board. n73 While the Board has the power to compel testimony and production of documents by a registered firm or associated person, it must request the Commission to issue subpoenas to any other persons. n74 Failure of a registered firm or associated person to cooperate with an investigation may lead to disciplinary proceedings by the Board resulting in sanctions, including suspension and revocation of registration. n75

The Board may initiate disciplinary proceedings by a formal order notifying the registered firm or associated person of the specific charges. n76 The PCAOB has adopted a form of "Wells submission" procedure n77 by which targets of informal or formal investigations may submit a statement of position that will be forwarded to the Board along with any staff recommendation for initiation of disciplinary proceedings. n78 Hearings will normally be non-public, n79 and will typically be conducted before a hearing officer who will make a final recommendation as to disposition to the Board itself. n80

The Board may impose sanctions for intentional or reckless violations, or repeated negligent violations, including (1) temporary suspension or permanent revocation of registration; (2) temporary or permanent bar of a person from association with a registered firm; (3) temporary or permanent limitations on the activities of a firm or associated person; and (4) civil monetary penalties of up to \$750,000 for a natural person or \$15,000,000 for any other person. The Board may also impose the following sanctions for *any* violation: (1) a civil penalty of up to \$100,000 for a natural person or \$2,000,000 for other persons; (2) censure; (3) mandatory additional professional education or training; or (4) other sanctions provided for by rules of the Board. n81 Sanctions by the PCAOB are appealable to the Commission in the same manner as sanctions by other SRO's n82 and an appeal operates as an automatic stay of such sanctions until and unless the stay is lifted by the Commission. n83

[c] Regulation of Credit-Ratings Agencies. Credit-ratings agencies were widely criticized as contributing to the 2008-2009 Global Financial Crisis, because credit-ratings agencies were viewed as having failed to accurately identify the riskiness of complex financial products such as mortgage-backed securities. Indeed, in the post-crisis aftermath, many believe that the underlying assumptions and methodologies used by the credit-ratings agencies were overly optimistic. Further, some alleged that the ratings agencies' over-optimism was driven, in whole or in part, by conflicts of interest inherent in the relationship in which the ratings agencies are paid directly by the issuers they are rating.

As a result, the *Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010* imposes sweeping reforms of the credit-ratings industry. The Dodd-Frank Act establishes an "Office of Credit Ratings" within the SEC and imposes enhanced regulatory standards and reporting requirements for ratings agencies. Ratings agencies will now be examined by the SEC annually, and the key findings of these examinations will be publicly available. n84 Additionally, credit-ratings agencies will have to disclose their methodologies and assumptions, n85 their use of third parties to conduct due diligence, n86 and their ratings track record. Furthermore, credit-ratings agencies must not permit certain employees from performing functions for an issuer that may create a conflict of interest--namely, persons engaged in sales and marketing efforts to issuers should be separated from those responsible for making the rating. n87 Finally, Dodd-Frank ends the practice of "ratings shopping" by issuers. Importantly, Dodd-Frank creates a private right of action for "expert liability" against any credit ratings agency for knowing or reckless failures to conduct a reasonable investigation of the underlying facts concerning the product being rated or to obtain analysis from independent sources. n88

Regarding corporate governance, credit-ratings agencies are now required to have a board of directors that is comprised of at least 50% independent directors. The board of directors will be charged with oversight of conflicts of interest,

compliance, compensation, and promotion. Further, each credit agency is required to have a compliance officer who is not permitted to perform credit ratings or engage in any sales or marketing efforts. n89 The compliance officer's compensation may not be tied to the overall performance of the ratings agency. n90 The compliance officer will be responsible not only for maintaining and implementing internal controls, such as the establishment of procedures to effectively investigate external complaints and protect internal whistleblowers, but also for the filing of annual reports with the SEC addressing the credit-ratings agency's internal controls and compliance with the securities laws. n91

Because many of the necessary rules and procedures implementing the regulation of credit-ratings agencies under the Dodd-Frank Wall Street Reform Act have not yet been developed, it is unclear the extent to which credit-ratings agencies will find themselves subject to SEC enforcement proceedings. However, it is clear that Congress intends to make credit-ratings agencies subject to, and liable for breaches of, the federal securities laws.

[6] Reports of Investigation

Section 21(a) of the Exchange Act authorizes the Commission to publish reports about violations of the statutes it administers. These reports, which are not adjudications, enable the Commission to publicize its concerns about practices it thinks objectionable. Section 21(a) supplies the Commission with a viable middle ground between total inaction and litigation before itself or in the courts. n92 Although the absence of any need to meet the standards of proof that govern adjudication creates a potential for abuse, n93 affected private persons generally prefer a report under Section 21(a) to litigation in which they risk findings of misconduct and administrative or judicial sanctions. n94 Moreover, Section 21(a) permits the private persons to tell their side of the story. n95

Section 21(a) reports were intended to deal with inquiries of great public concern. n96 The Commission used a Section 21(a) report in 1943 to articulate the concerns that had led it to adopt its then new *Rule 10b-5* under the Exchange Act and to make what appears to have been its first statement about insider trading. n97 Section 21(a), however, has never been confined to "great cases." It has been used in lesser matters where malpractices were cured and mitigating circumstances present. n98 An undertaking to distribute copies of the Commission's report to shareholders can be helpful in borderline situations of this character. n99

Suggestions that this procedure be followed can be made in negotiations with the staff and in Wells submissions to the Commission. n100 Counsel should consider Section 21(a) when confronted by a case in which it may be best to concede that "something" ought to be done but where counsel can also point to flaws in the Commission's litigating posture. The more doubtful the Commission's chance of success in the arena, the greater the likelihood that Section 21(a) will be found the remedy of choice. n101

[7] Rules of Practice Applicable to Administrative Proceedings

[a] Notice of Proceedings. Parties entitled to notice must be informed of the time and nature of the hearing and supplied with a short and simple statement of the matters of fact and law to be considered and determined. n102 The document in which this is done is known as the "Order for Proceedings." It is analogous to a complaint in a civil action. Though orders for proceedings are prepared by the Division of Enforcement and though they consist in the main of the Division's allegations, the staff has no authority to issue them. They are issued by the Commission itself. n103 They are called "orders" because they direct that a hearing be held to determine whether the allegations are true and what, if any, remedial action should be taken.

A pre-hearing motion to dismiss orders for proceedings for legal insufficiency can be made. n104 As a practical matter, the movant must show a want of administrative jurisdiction. n105 An order denying a motion to dismiss a proceeding before any evidence has been taken is not reviewable in the courts of appeals because it is not "final agency action." n106

Courts are loath to interfere at the pre-hearing stage. Like the decision to investigate, n107 the decision to go forward with an administrative adjudication is interlocutory, committed to agency discretion, and immune from judicial review. n108 However, the rule may be different when pre-hearing dismissal is sought solely on jurisdictional grounds and the only question presented is one of statutory interpretation. n109

[b] Failure to Appear. If any person against whom findings may be made or sanctions imposed fails to appear at a hearing, of which he or she has been duly notified, that person may be deemed in default and the proceedings may be determined against him. n110

[c] Answers. In any order for proceedings issued by the Commission, the Commission may direct that an answer be filed. Failure to file an answer shall be deemed a default and the proceeding may be determined against any such person. n111

[d] Settlements. Parties may propose offers of settlement in writing that shall be considered by the staff of the Commission where time, the nature of the proceedings and the public interest permit. If the staff recommends approval, the offer and the staff recommendation go to the Commission. n112

Offers that the staff recommends are generally viewed with favor by the Commission. But counsel must remember that only the Commission can accept an offer of settlement. n113 Once in a great while it concludes that the staff settled too cheaply. In that event, the offeror must choose between litigation on the merits and a revised offer acceptable to the Commission. n114

On the other hand, the staff's objection to an offer is not determinative. The offeror, although not permitted to approach the Commission directly, may insist that the staff present the offer to the Commission. n115 Strong showings with respect to the equities of the matter and forceful presentations of mitigating circumstances occasionally lead the Commission to accept settlements to which its staff objects. n116

Offers of settlement that the Commission rejects are deemed withdrawn and documents relating to them do not become part of the record. n117

[e] Evidence. All witnesses shall testify under oath. Every party has the "right to present its case or defense by oral or documentary evidence, to submit rebuttal evidence and to conduct such cross-examination as in the discretion of the Commission or the hearing officer may be required for a full and true disclosure of the facts." n118 The scope and form of evidence, rebuttal and cross examination are determined by the Commission or the hearing officer. n119

The rules of evidence that govern jury trials, however, are not controlling. The Commission's general policy with respect to admissibility is extremely liberal and favors the receipt of anything that "can conceivably throw any light upon the controversy." n120 Hence, objections based solely on the hearsay rule are unlikely to be sustained. n121 However, counsel should not hesitate to assert privileges and to object to the form of questions.

[f] Right to Counsel. A party to an SEC administrative proceeding has a right to be represented by counsel in the proceeding, n122 but indigents have no right to appointed counsel. n123

[g] Initial Decisions. An initial decision shall include factual findings and conclusions of law with the reasons or basis thereof, on all material issues. The initial decision becomes the final decision of the Commission unless a petition for review is filed. n124

Initial decisions can be waived with the consent of all parties and the hearing officer. Because the staff is a party, its consent is essential. Although the parties' wishes usually govern, the Commission can:

- order an initial decision, even if the parties chose to waive it; n125 or

- direct that the initial decision be omitted if it "finds on the record that due and timely execution of its functions imperatively and unavoidably so requires." n126

[h] Review by the Commission and by the Courts of Appeals. Parties dissatisfied with the initial decision must normally file petitions for review within 21 days after service of the initial decision. n127 These need not be elaborate and are invariably granted. n128 However, objections to the initial decision that are not stated in the petition for review may be disregarded. n129 Hence, care should be taken to articulate all points that seem worth raising.

After the petition has been granted, briefs are filed n130 and, although they are not favored, oral argument may be requested. n131 Commissioners who were not present at the argument can participate in the decision. n132 Appeals from the Commission's decisions can be taken to the Court of Appeals for the circuit in which the aggrieved person resides or has his principal place of business, or to the United States Court of Appeals for the District of Columbia Circuit. n133 As previously noted, the Commission is represented on appeal by the General Counsel and his or her staff. In addition, lawyers from the Division of Enforcement often participate and are free to act as advocates at any stage of the proceeding.

Of course, this freedom does not extend to adjudication. n134 The "decisional employees" who assist in the preparation of the SEC's opinions and orders n135 have no prior association of any sort with the controversies described in the opinions and orders they help to draft. n136 When it decides cases, the Commission adheres scrupulously to the Administrative Procedure Act's separation of functions mandate. n137

Some consider this a mere ritual since the Commission's contacts with its enforcement staff are daily and intimate and the Commissioners authorized the formal investigation and voted to institute the proceeding. n138 However, American administrative law assumes that agency members can and will put their prior contacts with a case to one side when they sit as adjudicators. n139 Administrative lawyers and students of the administrative process differ about the realism of this assumption. With respect to SEC enforcement jurisprudence, it is true that the staff's batting average before the Commission is very high. However, it must be remembered that the cases are on the whole well prepared and abundantly supported by the record. n140

[i] Standard of Proof and Scope of Judicial Review. The preponderance of the evidence test controls, even in fraud cases. n141 In the Court of Appeals, the Commission's findings of fact are conclusive, "if supported by 'substantial evidence.'" n142 Though that is on the whole a deferential standard, n143 courts do not hesitate to reverse SEC factual determinations they consider farfetched or dubious. n144

The Commission is sensitive to this. It does not like reversals and is genuinely concerned about the fairness of its proceedings. Hence, arguments before the Commission that persuasively emphasize factual weaknesses in the staff's case often succeed. n145

[8] Assessment of Monetary Penalties

[a] Imposition of a Penalty. In proceedings instituted pursuant to Sections 15(b)(4), 15(b)(6), 15B, 15C, or 17A of the Exchange Act, Section 9(b) of the Investment Company Act, and Section 203(e)-(f) of the Investment Advisers Act, the Commission (or the appropriate regulatory agency) is empowered to impose civil penalties if it finds, on the record after notice and an opportunity for a hearing, that the penalty is in the public interest, and the respondent willfully committed one of the following violations:

- violation of any provision of the Securities Act, the Investment Company Act, the Investment Advisers Act, or the Exchange Act, the rules or regulations there under, or the rules of the Municipal Securities Rulemaking Board;

2-9 Federal Securities Exchange Act of 1934 § 9.10

- aiding, abetting, counseling, commanding, inducing, or procuring such a violation by another person;
- making or causing to be made in any registration statement, application for registration or report required to be filed, or proceeding before the Commission with respect to registration, any statement which was (at the time and in light of circumstances under which it was made) false or misleading with respect to any material fact;
- omitting to state in any such registration, application, or report any material fact which is required to be stated therein; or
- failing to reasonably supervise (within the meaning of Section 15(b)(4)(E) of the Exchange Act or Section 203(e)(5) of the Investment Advisers Act, with a view to preventing violations of the provisions of such statutes rules and regulations) another person who commits such a violation, if such other person is subject to the respondent's supervision. n146

In considering whether a penalty is "in the public interest," the Commission (or appropriate regulatory agency) may consider the following factors: n147

- whether the act or omission involved fraud, deceit, manipulation, or deliberate or reckless disregard of a regulatory requirement; n148
- the harm to other persons resulting either directly or indirectly from the act or omission; n149
- the extent to which "any person" was unjustly enriched, taking into account any restitution made to injured persons; n150
- whether the respondent previously has been found by the Commission, another appropriate regulatory agency, or self-regulatory organization to have violated the Federal securities laws, State securities laws, or the rules of a self-regulatory organization; has been enjoined by a court of competent jurisdiction from violating such laws or rules; or has been convicted by a court of competent jurisdiction of violating such laws or of any felony or misdemeanor described in Section 15(b)(4)(B) of the Exchange Act or Section 203(e)(2) of the Investment Advisers Act; n151
- the need to deter the respondent and other persons from committing the acts or omissions n152; and
- such other matters as justice may require. n153

In considering whether a penalty is "in the public interest," the Commission or appropriate regulatory agency may, in its discretion, also consider evidence submitted by the respondent of such respondent's ability to pay the penalty. n154 Such evidence may relate to the respondent's ability to continue in business and the collectability of a penalty, taking into account any other claims of the United States or third parties upon the respondent's assets and the amount of the respondent's assets. n155 Additionally, the Commission may take into consideration whether or not the defendant cooperated with the investigation. n156 The Commission, however, is not permitted to impose a monetary penalty based solely upon the entry of an injunction or a criminal conviction. n157

[b] Maximum Amount of Penalty. The maximum penalty that may be imposed by the Commission depends upon whether the act or omission: n158

- involved fraud, deceit, manipulation, or deliberate or reckless disregard of a regulatory requirement;
- or

- directly or indirectly resulted in substantial losses or created a significant risk of substantial losses to others or resulted in substantial pecuniary gain to the person who committed the act or omission. n159

If neither factor is present (a "first tier" penalty), the maximum amount of the penalty for each act or omission is \$6,500 for a natural person and \$65,000 for any other person. n160 If the first factor is present (a "second tier" penalty), the maximum amount of the penalty for each act or omission is \$65,000 for a natural person and \$325,000 for any other person. n161 If both factors are present (a "third tier" penalty), the maximum amount of the penalty for each act or omission is \$130,000 for a natural person and \$650,000 for any other person. n162 Under Section 308 of the Sarbanes-Oxley Act, these penalties may, under certain circumstances, be paid into a fund for restitution to defrauded investors. n163

[c] Accounting and Disgorgement. In any proceeding in which the Commission or appropriate regulatory agency may impose a penalty, the Commission or other agency may enter an order requiring accounting and disgorgement, including reasonable interest. n164 The purpose of disgorgement is to force the respondent to give up the amount by which he or she was unjustly enriched, rather than to compensate any victims for their loss. n165 Similarly, the Sarbanes-Oxley "fair funds" provisions enable the SEC to distribute, at its discretion, disgorgements (returns of wrongful profits) and penalties (fines) to defrauded investors. n166 The *Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010*, enacted on July 22, 2010, amended Section 308 of *Sarbanes-Oxley* to broaden the sources of funds available to the SEC for inclusion in compensation funds. It authorizes the SEC to, for the first time, allocate a portion of a civil penalty obtained as part of a settlement or judgment in any judicial or administrative action to a "disgorgement fund or other fund established for the benefit of the victims of [a securities] violation." n167

[9] Cease-and-Desist Proceedings

[a] Permanent Orders

[i] Authority to Enter. If the Commission finds, after notice and an opportunity for a hearing, that any person is violating, has violated, or is about to violate any provision of the securities laws (or any rule or regulation there under) the Commission may publish its findings and enter an order requiring a person to cease-and-desist from committing or causing such violation or a future violation of the same provision, rule, or regulation. n168 The cease-and-desist order may also require compliance (or steps to effect compliance) with the provision, rule, or regulation upon the conditions and within the time specified by the Commission. n169

The Commission's cease-and-desist authority allows the Commission to take remedial action in the form of injunctive relief without establishing the usual requirements for injunctive relief necessary in federal court. n170

The cease-and-desist order may issue against the violator or any other person who is, was, or would be a cause of the violation due to an act or omission such person knew or should have known would contribute to the violation. n171

The notice instituting the above must set a hearing date 30 to 60 days after service of the notice. n172 The Commission and the respondent may agree to an earlier or a later hearing date. n173

[ii] Accounting, Disgorgement and Civil Penalties. As with proceedings in which the Commission may impose a monetary penalty, n174 the Commission may enter an order requiring accounting and disgorgement, including reasonable interest, in any cease-and-desist proceeding. n175 Under the *Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010*, the SEC is now authorized to impose civil penalties against any person, not just SEC-regulated entities, in administrative cease-and-desist proceedings. n176

[iii] Officer and Director Bars. Pursuant to Section 1105 of the *Sarbanes-Oxley Act*, n177 the Commission may, in a cease-and-desist proceeding, prohibit any individual found in violation of the antifraud provisions of the securities

laws from acting as an officer or director of a registered issuer "if the conduct of that person demonstrates unfitness to serve" in that capacity. Prior to the Sarbanes-Oxley Act, this remedy was only available to the Commission in federal court (and then only for "*substantial* unfitness"). n178 The officer or director bar may be conditional or unconditional, and permanent or for such time as the Commission orders. The *Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010* has expanded the scope of the collateral bar; previously, the SEC could only bar an individual from participating in the type of business the person was in when the violation occurred, now the SEC can bar a person from working in any aspect of the securities business. n179

[iv] Review of Permanent Orders. Review of permanent orders is governed by the procedure typically applicable to review of Commission proceedings. n180

[b] Temporary Orders

[i] Authority to Enter. The Commission also has the authority to enter temporary orders against certain respondents. n181 The Commission may enter a temporary order whenever it determines that the violation or threatened violation set forth in the notice instituting proceedings is likely to result any of the following prior to the completion of proceedings:

- significant dissipation or conversion of assets;
- significant harm to investors; or
- substantial harm to the public interest, including losses to the Securities Investor Protection Corporation. n182

The temporary order may require the respondent, pending the completion of proceedings on a permanent order, to cease-and-desist from the violation, and to take such action as the Commission deems appropriate to prevent the violation or threatened violation and to prevent the dissipation or conversion of assets, significant harm to investors, or substantial harm to the public interest. n183

The temporary order can be entered only after notice and an opportunity for a hearing unless the Commission (notwithstanding Section 40(a) of the Investment Company Act or Section 211(c) of the Investment Advisers Act) determines that notice and hearing prior to entry of the order would be impracticable or contrary to the public interest. n184 A temporary order issued *ex parte* is intended to be an extraordinary remedy, rather than a wholesale substitute for the other enforcement options available to the Commission. n185

Temporary orders are effective upon service. n186 Unless set aside or limited upon review, n187 the temporary order remains effective until the completion of the proceedings. n188

[ii] Review of Temporary Orders. A respondent who is served with a temporary order has two avenues of appeal--administrative and judicial--depending on when the appeal is sought and whether the respondent has had an opportunity for a hearing before the Commission.

If the respondent has not had a hearing prior to receiving a temporary cease-and-desist order, the respondent has 10 days from the date of service to request a hearing on an application to have the order set aside, limited, or suspended. n189 A hearing must then be held and a decision on such application must be rendered at the earliest possible time. n190

If the respondent has had a hearing prior to receiving a temporary cease-and-desist order, the respondent has 10 days n191 to apply to a United States district court for an order setting aside, limiting, or suspending the effectiveness or enforcement of the order. n192 The commencement of the judicial process does not stay the temporary order unless the court directs otherwise. n193 Venue for the application is proper in the district in which the respondent resides or has its

principal place of business, or in the District of Columbia. n194

A prerequisite to judicial review is a Commission hearing (whether held before or after the order is issued). n195 Therefore, if the respondent did not have a hearing prior to receiving a temporary order and failed to request a hearing within 10 days of service of the order, the respondent cannot judicially appeal the temporary order. n196 The respondent's only recourse would be an application to the Commission to have the order set aside, limited, or suspended, but without the possibility of either a hearing on the application or judicial review of the determination. n197

This procedure supplants Section 25 of the Exchange Act, Section 9(a) of the Securities Act, Section 43 of the Investment Company Act, and Section 213 of the Investment Advisers Act, and is the exclusive means by which a respondent can judicially appeal a temporary order. n198

[c] Enforcement of Cease-and-Desist Orders. A violation of a permanent and temporary cease-and-desist order is punishable by a court-imposed civil penalty and a mandatory injunction directing compliance with the Commission's order. n199 The consequences of failing to comply with a cease-and-desist order can be severe. Each day the respondent fails to comply with the cease-and-desist order constitutes a separate offense, punishable by up to \$500,000 per day (or higher, if the respondent's pecuniary gain from the violation is higher). n200

This ability to obtain such a civil penalty, plus the provision permitting the Commission to enter an order requiring accounting and disgorgement, n201 makes the cease-and-desist remedy more effective than a proceeding brought pursuant to Section 15(c)(4) of the Exchange Act. n202

FOOTNOTES:

(n1)Footnote 1. Similar proceedings may be conducted pursuant to Section 9(b) of the Investment Company Act and Sections 203(e) and (f) of the Investment Advisers Act of 1940. But the pertinent provision of the Investment Advisers Act, Section 203(f), is modeled on the Exchange Act and limits administrative proceedings there under to persons "associated or seeking to become associated" with investment advisers. *See In re Milton J. Wallace*, 45 SEC 694 (1975). The version of this section that was in effect from 1964 to 1975 was not limited to associated persons. It permitted administrative proceedings under the Exchange Act against "any person" and was sometimes used to publicize misconduct by people who had never been in the securities business. Proceedings of that character are still theoretically possible under the Investment Company Act because the older, unrestricted "any person" formulation survives in Section 9(b) of that statute.

(n2)Footnote 2. John Kilpatrick, Exch. Act Rel. No. 33-23251, 35 SEC Docket 914 (1986).

(n3)Footnote 3. Sections 15(b)(4) and 15(b)(6) of the Exchange Act and Sections 203(e) and 203(f) of the Investment Advisers Act.

(n4)Footnote 4. *See Arthur Lipper Corp. v. SEC*, 547 F.2d 171 (2d Cir.1976), cert. denied, 434 U.S. 1009 (1978), where the dissenting opinion to the order denying the rehearing referred approvingly to this practice.

(n5)Footnote 5. *Butz v. Glover Livestock Comm'n Co., Inc.*, 411 U.S. 182 (1973), suggests that this discretion is virtually unlimited. Hence the Commission cites *Butz* frequently, although it was not an SEC case. However, the specific disciplinary action there involved was a short suspension for what appears to have been a gross fraud. Even so, two justices dissented. *Id.* at 189-191.

(n6)Footnote 6. *Arthur Lipper Corp. v. SEC*, 547 F.2d 171, 184 (2d Cir. 1976), cert. denied, 434 U.S. 1009 (1978): "The purpose of... severe sanctions must be to demonstrate not only to petitioners but to others that the Commission will deal harshly with egregious cases." On the facts, however, the *Lipper* court found the severe sanction the Commission imposed an abuse of discretion. *Beck v. SEC*, 430 F.2d 673 (6th Cir. 1970), which held the

deterrence of others an illegitimate objective, has not been followed by other courts.

(n7)Footnote 7. *Steadman v. SEC*, 603 F.2d 1126, 1143 (5th Cir. 1979) , *aff'd on other grounds*, 450 U.S. 91 (1981) , remanding to the Commission for reconsideration of the sanction of exclusion and holding that "When the Commission imposes the most drastic sanctions at its disposal, it has a duty to articulate carefully the grounds for its decision, including an explanation of why lesser sanctions will not suffice."

(n8)Footnote 8. Section 19(d)(2) of the Exchange Act.

(n9)Footnote 9. Section 19(d)(1) of the Exchange Act and Rule 19d-1 there under require these bodies to report most of their final disciplinary actions to the Commission.

(n10)Footnote 10. Hence, the argument that self-regulation or cooperative regulation involves a constitutionally impermissible delegation of lawmaking power to private groups has been repeatedly rejected. *See Todd & Co. v. SEC*, 557 F.2d 1008 (3d Cir. 1977) ; *R.H. Johnson & Co. v. SEC*, 198 F.2d 690 (2d Cir.) , *cert. denied*, 344 U.S. 855 (1952) .

(n11)Footnote 11. Section 19(e)(2).

(n12)Footnote 12. Section 8(d) of the Securities Act. Section 8(b) provides for so-called "refusal orders with respect to filings deficient on their face." But the time constraints are so tight that this authority is not used in practice.

(n13)Footnote 13. Efforts to avoid the requisite findings by frustrating the inquiry are unavailing. The last sentence of Section 8(e) reads: "If the issuer or underwriter shall fail to cooperate or shall obstruct or refuse the making of an examination, such conduct shall be proper ground for the issuance of a stop order."

(n14)Footnote 14. *See In re Haddam Distillers Corporation*, 1 S.E.C. 37, 47(1934) ("stop order proceedings go only to the truth of the statements... made"); *In re Herman Hanson Oil Syndicate*, 2 SEC 743, 746 (1937) .

(n15)Footnote 15. *See, e.g., In re Franchard Corporation*, 42 S.E.C. 163, 174 (1964) : "We may, of course consider whether certain information could reasonably have been provided... But that issue is separate and distinct from the basic question of whether or not the absence of that information made the registration statement deficient under the statutory standards."

(n16)Footnote 16. *See In re Franchard Corporation*, n.17 *supra*, at 185 ; *see also, In re Miami Window Corporation*, 41 SEC 68 (1962) ; *In re The Londontown Manufacturing Company*, 41 S.E.C. 676 (1963) .

(n17)Footnote 17. *See 17 C.F.R. § 230.261*. For discussion of proceedings under Regulation A, which permits an issuer to make exempt public offerings of securities having an aggregate offering price not exceeding \$1.5 million (\$100,000 when the offering is on behalf of a person in a control relationship), *see Chapter 5 supra*.

(n18)Footnote 18. Failure to request a hearing also causes the suspension to become permanent.

(n19)Footnote 19. *See In re Philadelphia Stock Exchange*, [1979-80 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 82,475 at 82,996 (1980); *San Francisco Mining Exchange v. SEC*, 378 F.2d 162 (9th Cir. 1967) (exchange's registration revoked).

(n20)Footnote 20. 436 U.S. 103 (1978) .

(n21)Footnote 21. *See Section 12(j) of the Exchange Act. See also SEC v. Sloan*, 436 U.S. 103, 112-113 (1978) .

(n22)Footnote 22. The word "practitioner" has been substituted for the words "practicing lawyer" because the Commission also applies this approach to accountants.

(n23)Footnote 23. *In re Emanuel Fields*, 45 SEC 262 (1973) , *aff'd without opinion sub nom.*, *Fields v. SEC*, 495 F.2d 1075 (D.C. Cir. 1974) .

(n24)Footnote 24. 15 U.S.C. § 78d-3.

(n25)Footnote 25. 17 C.F.R. § 201.102(e)(1).

(n26)Footnote 26. Under Section 4C(b), "improper professional conduct" means: (A) Intentional or knowing conduct, including reckless conduct, that results in a violation of applicable professional standards; or (B) Either of the following two types of negligent conduct: (1) A single instance of highly unreasonable conduct that results in a violation of applicable professional standards in circumstances in which an accountant knows, or should know, that heightened scrutiny is warranted; or (2) Repeated instances of unreasonable conduct, each resulting in a violation of applicable professional standards, that indicate a lack of competence to practice before the Commission.

(n27)Footnote 27. *Checkosky v. SEC*, 139 F.3d 221 (D.C. Cir. 1998) (attacking Rule 102(e) as unconstitutionally vague).

(n28)Footnote 28. One school of thought concedes the Commission's power to discipline accountants but denies the existence of any such power over lawyers on the ground that the Commission has neither the authority nor the expertise to set ethical standards for the bar. See the dissents of former Commissioner Karmel in, *In re Keating, Muething & Klekamp*, [1979 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 82,124 at 81,993-81,996 (1079); *In re Bernard J. Coven*, Exch. Act Rel. No. 33-16648, 19 SEC Docket 12, 13 (1979) . It has also been suggested that Rule 102(e) involves a constitutionally impermissible assault on the client's right to vigorous representation by counsel of his own choice. See Freeman, *Recent Governmental Attacks on the Private Lawyer As an Infringement of the Constitutional Right to the Assistance of Counsel*, 36 Bus. Law. 1791 (1981).

(n29)Footnote 29. See, e.g., *Dearlove v. SEC*, 573 F.3d 801 (D.C. Cir. 2009) (accountant not denied due process); *McCurdy v. SEC*, 396 F.3d 1258 (D.C. Cir. 2005) (affirming SEC order suspending attorney from practicing before the Commission for one year because of a violation of SEC Rule 102(e)).

(n30)Footnote 30. Rule 102(e)'s first paragraph uses these locutions.

(n31)Footnote 31. See 17 C.F.R. § 201.102(f), which states that practicing before the Commission includes but is "not limited to" the transaction of business with the Commission and the preparation of papers filed with it. The Commission has prohibited lawyers from rendering advice. See Stephen Joel Sitomer, Sec. Exch. Act Rel. No. 33-12501 (1976); *In re Richard D. Hodgin*, [1979-80 Transfer Binder] Fed. Sec. L. Rep.(CCH) P 82,334 (1979); see also *SEC v. Ezrine*, [1972-73 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 93,594 (S.D.N.Y. 1972) (suspended attorney enjoined from accepting or retaining legal fees for opinions about securities matters).

(n32)Footnote 32. See Marsh, *Rule 2(e) Proceedings*, 35 Bus. Law. 987, 994 (1980).

(n33)Footnote 33. The Commission has often done this. There have been many Rule102(e) proceedings in which national accounting firms have been named as respondents. See, e.g., *In re Ernst & Ernst*, 46 SEC 1234, 1270 (1978) : "[W]e have consistently held that where... a firm of public accountants permits a report or certificate to be executed in its name, it will be held responsible therefor." For example, the Commission censured the Arthur Andersen firm itself for the misconduct of certain partners in certifying materially false financial statements issued by Waste Management, Inc. between 1993 and 1996. Citing principles of "enterprise liability," the Commission concluded that the "circumstances of this case, including the positions within the firm of the partners who were consulted by the engagement team, the gravity and duration of the misconduct, and the nature and magnitude of the misstatements mandate that the firm be held responsible for the acts of its partners in causing the firm to issue false and misleading audit reports in the firm's name." *In the Matter of Arthur Andersen LLP*, Sec. Exch. Act. Rel. No. 44444, 2001 SEC LEXIS 1174 (June 19, 2001) . Although cases of this sort against law firms are much more rare, they are not wholly

unknown. Thus, for example, in *SEC v. National Student Marketing Corp.*, 457 F. Supp. 682 (D.D.C. 1978) , the Commission brought an injunctive action against two prominent law firms on the basis of allegations that could reasonably be viewed as essentially ethical. And, in *In re Keating, Muething & Klekamp*, [1979 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 82,124 (1979), Rule 2(e) sanctions were imposed on an entire law firm. *See also* J.M. Ferguson, Sec. Act Rel. No. 33-5523, 5 SEC Docket 3738 n.3 (1974) , where changes in a law firm's procedure were among the factors that led the Commission to accept an offer of settlement from one of its partners. But a footnote to the Second Circuit's decision in *Touche Ross & Co. v. SEC*, 609 F.2d 570, 582 n.21 (2d Cir. 1979) raises the question posed in the text. Moreover, the concurring opinion stated that "if sanctions are unjustifiably extensive in scope-- e.g., embracing every partner despite the isolated transgressions of a few--the corrective process of judicial review may be called into play." *Id.* at 583 .

(n34)Footnote 34. 46 SEC at 1271 n.68 . In *In the Matter of Arthur Andersen LLP*, the Commission's Rule 102(e) administrative proceeding against the firm was accompanied by similar administrative proceedings against individual firm partners and by an injunctive proceeding in federal court under the anti-fraud provisions of the 1934 Act. *See* SEC Litig. Rel. No. 1410 (June 19, 2001) (describing judicial and administrative proceedings). In settling the related administrative and judicial proceedings, the firm itself agreed to harsh sanctions, accepting not only the censure noted above but also an injunction against further violations of the 1934 Act, which included an express finding that the firm and its individual partners had committed violations of the statute, and a monetary penalty of \$ 7 million. *See* SEC v. Arthur Andersen LLP, et al., Civil Action No. 01 CV 01348 (D.D.C.) (consent judgment filed June 19, 2001). In its press release announcing the settlement, the Commission trumpeted the results as the then "largest-ever civil penalty" and the "first antifraud injunction in more than 20 years" against a "Big Five" accounting firm. SEC Press Release, S.E.C. 01-62 (June 19, 2001). The individual partners agreed to prohibitions against practicing before the Commission for periods ranging from one to five years. *See* SEC Litig. Rel. No. 1410 (June 19, 2001).

(n35)Footnote 35. *See* Ferrara, *Administrative Disciplinary Proceedings under Rule 2(e)*, 36 Bus. Law. 1807 (strong defense by the Commission's then General Counsel). *See also* *Touche Ross & Co. v. SEC*, 609 F.2d 570, 583 (2d Cir. 1979) concurring opinion: "Our opinion... affirms the ability of the SEC to ensure that the professionals who practice before it--on whose probity the viability of the regulatory process depends--meet the highest ethical standards... But in recognition that any power may be misused, dispassionate panels of Article III judges stand ready to correct the occasional excesses and errors that are an inevitable part of the administrative process."

(n36)Footnote 36. 17 C.F.R. § 201.2(e)(7): "All hearings... held under this paragraph (e) shall be public unless otherwise ordered by the Commission on its own motion or after considering the motion of a party."

(n37)Footnote 37. Sec. Act Rel. No. 33-6662, [1986-87 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,030 (1986). A 1974 proposal to the same effect was withdrawn. Sec. Act. Rel. No. 33-5477, [1973-74 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,738 (1974). Note, however, that the proceedings became public if the administrative law judge thought sanctions appropriate. *See* Sec. Act Rel. No. 5572 (1975). *See also* *In re William R. Carter and Charles J. Johnson, Jr.*, [1979 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 82,175 (1979) (administrative law judge's initial decision imposing sanctions on attorneys, published and proceedings widely commented on although the Commission ultimately reversed and found sanctions inappropriate).

(n38)Footnote 38. This is so even though Rule 2(e) proceedings with respect to lawyers had become rare. The Commission was silent about the area since *In re William R. Carter and Charles D. Johnson, Jr.* [1981 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 82,847 (1981), where it dismissed the proceedings. In this regard, see [1981-82 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 83,089 (1982), reproducing the full text of a speech by Edward F. Greene, Esq., the Commission's then General Counsel, which expressed views about Rule 2(e) and the legal profession narrower and more conservative than those said to have been held by the staff during the 1970's. However, administrative policy could change again. For example, the SEC brought a cease and desist action against an attorney for "aiding and abetting" securities laws violations as a result of incorrect legal advice the attorney administered to his client. The action was eventually settled. *In re Feldman*, Securities Exchange Act of 1934, Release No. 7014 (Sept. 20, 1993).

(n39)Footnote 39. *17 C.F.R. § 201.102(e)(3)*.

(n40)Footnote 40. Moreover, the professional is, in effect, required to turn himself in. *See 17 C.F.R. § 201.102(e)(4)*: "Any person appearing or practicing before the Commission who has been the subject of an order, judgment, decree, or finding as set forth in paragraph (e)(3) shall promptly file with the Secretary [of the Commission] a copy thereof (together with any related opinion or statement of the agency or tribunal involved)."

(n41)Footnote 41. *See 17 C.F.R. § 201.102(e)(3)*.

(n42)Footnote 42. Or, the settlement can call for Rule 102(e) sanctions in lieu of or in addition to an injunction. *See 15 U.S.C. § 7245*.

(n43)Footnote 43. *See 17 C.F.R. Part 205*.

(n44)Footnote 44. *See 17 C.F.R. § 205.3*.

(n45)Footnote 45. *See 17 C.F.R. § 205.6*.

(n46)Footnote 46. *17 C.F.R. § 205.2(a)*; J. Curtis Greene, New Regulations for Lawyers: The SEC's Final Rule for Professional Conduct in the Wake of Sarbanes-Oxley: Challenges for Foreign Attorneys, 14 IND. INT'L & COMP. L. REV. 807 (2004).

(n47)Footnote 47. *See 68 Fed. Reg. 6324 (Feb. 6, 2003)*.

(n48)Footnote 48. No. Civ.A. 03 C 1685, 2003 U.S. Dist. LEXIS 17933 (N.D. Ill. 2003).

(n49)Footnote 49. *17 C.F.R. § 205.7*

(n50)Footnote 50. *See, e.g., 17 C.F.R. 205.1*, which asserts that the SEC's rules preempt conflicting state attorney ethics standards, and the public comments thereto published at *68 Fed. Reg. 6296 (Feb. 6, 2003)*.

(n51)Footnote 51. For example, a survey conducted by one commentator located only twenty-five Rule 102(e) proceedings against attorneys since the passage of the Sarbanes Oxley Act. HAROLD S. B LOOMENTHAL, SARBANES-OXLEY ACT IN PERSPECTIVE § 7.6 (Dec. 2006). In contrast, as of 2006, at least 115 accountants and accounting firms had been named as respondents in 102(e) proceedings since the passage of Sarbanes-Oxley. *Id.*

to prescribe rules within one year requiring ratings agencies to submit annual internal audit reports to the Commission).

(n85)Footnote 85. *Id.* at § 932 (a)(8) (S.E.C. to create a form within one year for credit ratings agencies to use for the publication of the assumptions underlying a credit rating so that the users of the rating can understand it).

(n86)Footnote 86. *Id.* (Within one year, S.E.C. is to create regulations and to establish the form and content of due diligence provider certification).

(n87)Footnote 87. *Id.* at § 932 (a)(4) (S.E.C. to prescribe rules within one year to prevent the a credit rating agency's sales and marketing concerns from influencing the credit rating issued); § 939H (directing the S.E.C. to create rules within one year to prevent conflicts of interest arising where employees of credit ratings agencies are providing services to issuers other than the creation of credit ratings).

(n88)Footnote 88. *Id.* at §§ 932-33.

(n89)Footnote 89. *Id.* at § 932.

(n90)Footnote 90. *Id.*

(n91)Footnote 91. *Id.*

(n92)Footnote 92. An investigative report can be as effective as a formal opinion in alerting injured investors and the plaintiffs' financial bar to possible private rights of action. But since such reports are not adjudications, they have no collateral estoppel effect. This is often an important consideration.

(n93)Footnote 93. See Gellhorn, *Adverse Publicity by Administrative Agencies*, 86 *Harv. L. Rev.* 1380 (1973), cited in ex-Commissioner Karmel's separate statement with respect to the Commission's practice under Section 21(a), [1979 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 82,014 at 81,558-81,559 (1979). This danger can generally be ameliorated by asking for a fair opportunity to review the draft and to suggest revisions. But reports can issue without the target's consent. See, e.g., Fidelity Financial Corporation and Fidelity Savings & Loan Association, [1982 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 83,239 (1982).

(n94)Footnote 94. From their standpoint, however, a general interpretive release that articulates the Commission's views about a problem area without naming names is, of course, far better than the gentlest Section 21(a) report. For examples of such releases, see Insider Trading by Law Firm Employees, [1977-78 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 81,116 (1977); SEC Warning to Investors on Get-Rich Quick Schemes, [1973-74 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,832 (1974).

(n95)Footnote 95. Section 21(a) provides in pertinent part that the Commission may "permit any person to file with it a statement in writing... as to all the facts and circumstances concerning the matter to be investigated." In State National Bank of Maryland, [1979-80 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 82,341 (1979) and in Statement Submitted to Commission in Connection with Non-Public Inquiry into Certain Transactions, [1979 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 82,015 (1979) (sometimes called the "Albert's Inc. release"), the reports consist entirely of statements by investigatees.

(n96)Footnote 96. Staff Report of the Securities and Exchange Commission on the Financial Collapse of the Penn Central Company (August 1972) and Staff Report on Transactions in Securities of the City of New York (August 1977) are noteworthy examples.

(n97)Footnote 97. *In re Ward La France Truck Corporation*, 13 SEC 373 (1943) . Forty-two years later the Commission again resorted to a Section 21(a) report to express its views about the disclosure duties that *Rule 10b-5* imposes on companies engaged in preliminary acquisition discussions. *In re Carnation Company*, [1984-85 Transfer

Binder] Fed. Sec. L. Rep. (CCH) P 83,801 (1985). In both cases the Commission preferred publication of its views about novel legal questions in the non-adversarial Section 21(a) context to litigation in which it might not have prevailed and that would in any event have been a drain on its resources.

(n98)Footnote 98. *See, e.g., In re Merrill Lynch, Pierce, Fenner & Smith, Inc.*, [1982 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 83,258 (1982); *In re Greater Washington Investors Inc.*, [1979 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 82,032 (1979); *Allegheny Corporation*, 6 SEC 960 (1940) .

(n99)Footnote 99. *See, e.g., In re Seaboard Associates, Inc.*, Fed. Sec. L. Rep. (CCH) P 73,428 (1984).

(n100)Footnote 100. *See* § 9.07 *supra*.

(n101)Footnote 101. *See* n. 52 *supra*.

(n102)Footnote 102. 17 C.F.R. § 201.200 (a) and (b).

(n103)Footnote 103. The Commission sometimes deletes or modifies allegations the staff proposes to make.

(n104)Footnote 104. 17 C.F.R. § 201.250.

(n105)Footnote 105. *See In re Carl L. Shipley*, 45 SEC 589 (1974) (proceeding is missed because it was based entirely on statutory provisions that did not authorize administrative remedies).

(n106)Footnote 106. *See FTC. v. Standard Oil Co. of California*, 449 U.S. 232 (1980) .

(n107)Footnote 107. *See* § 9.05[1] *supra*.

(n108)Footnote 108. *See FTC. v. Standard Oil Co. of California*, n.61 *supra* ; *Wolf Corp. v. SEC*, 317 F.2d 139 (D.C. Cir. 1963) ; *R.A. Holman & Co. v. SEC*, 299 F.2d 127 (D.C. Cir.) , *cert. denied*, 370 U.S. 911 (1962) ; 4 K. Davis, *Administrative Law Treatise* 455 (2d ed. 1980) ("The broad theory is that courts review only final action, not interlocutory action."); *see also Heckler v. Chaney*, 470 U.S. 821, 105 S.Ct. 1659 (1985) (a regulatory agency's decision not to take action is presumptively immune from judicial review).

(n109)Footnote 109. Thus, for example, in *Touche Ross & Co. v. SEC*, 609 F.2d 570 (2d Cir. 1979) , the court dealt with the merits of the plaintiff's contention that the Commission had no jurisdiction to discipline accounting firms. *See also, Leedom v. Kyne*, 358 U.S.184, 188-189 (1958) .

(n110)Footnote 110. 17 C.F.R. §§ 201.310 and 201.155(a).

(n111)Footnote 111. 17 C.F.R. §§ 201.220(a) and (f) and 201.155(a).

(n112)Footnote 112. 17 C.F.R. § 201.240.

(n113)Footnote 113. 17 C.F.R. § 201.240. "Final acceptance by the Commission of any offer of settlement will be only its Findings and Opinion issued in the proceedings." This means that, as a matter of strict law, no SEC administration proceedings are ever settled until the Commission's order is issued. Practically, however, counsel who has been told by the staff that the Commission has decided to accept the offer can rest assured. The words of the rule reflect a long abandoned practice under which offers of settlement were routinely re-examined for adequacy after the Commission had given its tentative approval.

(n114)Footnote 114. When the Commission passes on offers of settlement it deems itself to be acting administratively rather than quasi judicially. Hence, its view is that its rejection of a settlement is not a prejudgment on the merits.

2-9 Federal Securities Exchange Act of 1934 § 9.10

(n115)Footnote 115. If the offeror fails to do this, the Commission will never see the offer. 17 C.F.R. § 201.240(c)(3).

(n116)Footnote 116. An opportunity for oral presentation can be sought. However, this is discretionary with the Commission and seldom granted. Much of what was discussed in § 9.07 *supra* about Wells submissions is also applicable to efforts to persuade the Commission to overrule its staff in the offer of settlement context.

(n117)Footnote 117. 17 C.F.R. § 201.240(c)(6).

(n118)Footnote 118. 17 C.F.R. § 201.326.

(n119)Footnote 119. 17 C.F.R. § 201.326.

(n120)Footnote 120. *Samuel H. Moss, Inc. v. FTC*, 148 F.2d 378, 380 (2d Cir.) , *cert. denied*, 326 U.S. 734 (1945) , *quoted and followed in* *Clinton Engines Corp.*, 41 SEC 408, 411-412 (1963) ; *accord*, *In the Matter of City of Anaheim, City of Irvine, Irvine Unified Sch. Dist., North Orange Co. Comm. Coll. Dist., and Orange Co. Bd. of Educ.*, 71 S.E.C. Docket 144 , (S.E.C. Release No. 34-42140 Nov. 16, 1999) ("The Federal Rules of Evidence are designed for juries and do not apply to administrative adjudications. Administrative agencies such as the Commission are more expert fact-finders, less prone to undue prejudice, and better able to weigh complex and potentially misleading evidence than are juries.").

(n121)Footnote 121. *See generally* *Richardson v. Perales*, 402 U.S. 389 (1971) ; *Yancey v. Apfel*, 145 F.3d 106 (2d Cir. 1998) (administrative law judge's reliance on physician reports containing hearsay in denying social security benefits did not constitute an abuse of discretion); 3 K. Davis, *Administrative Law Treatise* 233-255 (2d ed. 1980).

(n122)Footnote 122. 17 C.F.R. § 201.102(b).

(n123)Footnote 123. *Feeney v. SEC*, 564 F.2d 260 (8th Cir. 1977) , *cert. denied*, 435 U.S. 969 (1978) ; *Nees v. SEC* 414 F.2d 211 (9th Cir. 1969) ; *Boruski v. SEC*, 340 F.2d 991 (2d Cir.) , *cert. denied*, 381 U.S. 928 (1965) ; *accord*, *Elliott v. S.E.C.*, 36 F.3d 86 (11th Cir. 1994) (holding there is no there is no statutory or constitutional right to counsel in an administrative proceeding barring operator of financial services firm from associating with any securities broker or dealer).

(n124)Footnote 124. 17 C.F.R. § 201.16(a). Unlike appellate courts, the Commission can review initial decisions on its own initiative. 17 C.F.R. § 201.360(b). But it has not done so since *In re Investors Management Co., Inc.*, 44 SEC 633 (1971) (*sua sponte* review limited to doctrinal questions the Commission thought significant).

(n125)Footnote 125. 17 C.F.R. § 201.360(a).

(n126)Footnote 126. 5 U.S.C. § 557(b)(2).

(n127)Footnote 127. 17 C.F.R. §§ 201.410(b) and 201.360(b).

(n128)Footnote 128. The Commission seldom sees these petitions. They are granted by the Director of the agency's Office of Opinions and Review, the staff unit that assists the Commission on its decisional work. *See* 17 C.F.R. § 200.30-8(a)(v).

(n129)Footnote 129. 17 C.F.R. § 201.410(b).

(n130)Footnote 130. 17 C.F.R. § 201.450.

(n131)Footnote 131. 17 C.F.R. § 201.451. Oral argument can, of course, be waived.

2-9 Federal Securities Exchange Act of 1934 § 9.10

(n132)Footnote 132. 17 C.F.R. § 201.21. *Arthur Lipper Corp. v. SEC*, 547 F.2d 171, 182 n.8 (2d Cir. 1976) , cert. denied, 434 U.S. 1009 (1978) , sustained the validity of this practice where only one of the four Commissioners who decided the case heard the argument. See also, *Falcon Trading Group Ltd. v. S.E.C.*, 102 F.3d 579 (D.C. Cir. 1996) (holding that the SEC could by regulation designate two out of three members as valid quorum therefore affirmance by two members was valid); *Gearhart & Otis, Inc. v. SEC*, 348 F.2d 798 (D.C. Cir. 1965) .

(n133)Footnote 133. Section 9 of the Securities Act, Section 25(a)(1) of the Exchange Act, Section 43 of the Investment Company Act and Section 213 of the Investment Advisers Act.

(n134)Footnote 134. When the parties consent to the Division's participation in the decision, the Commission permits its lawyers to act as adjudicators in cases in which they were formerly advocates. For obvious reasons, waivers that permit members of the enforcement staff to pass on the merits of their own contentions are practically unheard of except in the settlement context where the offer of settlement almost always permits the Division to prepare or at least to participate in the preparation of the document that terminates the proceeding.

(n135)Footnote 135. The term "decisional employees" includes but is not limited to the Commission's administrative law judges, all members of the staff of the Office of Opinions and Review and the Commissioners' legal assistants. See 17 C.F.R. § 200.111(d)(3). Lawyers in the General Counsel's Office often advise the Commission at the decisional stage. See 17 C.F.R. § 200.21(a).

(n136)Footnote 136. This is not true of the Commissioners' legal assistants. They may have been involved at earlier stages. But they are viewed as extensions of the Commissioners for whom they work.

(n137)Footnote 137. See n. 91 *supra*.

(n138)Footnote 138. Injunctive proceedings and criminal references may also have been authorized.

(n139)Footnote 139. See *Withrow v. Larkin*, 421 U.S. 35 (1975) ; *Hortonville Joint School Dist. v. Hortonville Educational Ass'n*, 426 U.S. 482 (1976) ; accord, *Harline v. Drug Enforcement Agency*, 148 F.3d 1199 (10th Cir. 1998) (holding that an ALJ's employment with the DEA did not give rise to a colorable claim that physician's due process rights would be violated if the ALJ presided over a hearing concerning the DEA's revocation of a physician's registration to dispense controlled substances).

(n140)Footnote 140. Moreover, the Commission need not write at length when it rejects a staff contention. The staff cannot seek judicial review. So elaborate opinions are unnecessary. Hence decisions adverse to the staff are sometimes short and cryptic. See, e.g., *In re Alan Bennett Harp*, Sec. Exch. Act Rel. No. 33-22511, 34 SEC Docket 344 (1985) (case dismissed without discussion of the facts). Or the Commission may dismiss in the exercise of its administrative discretion without reaching the legal issues presented. See, e.g., *In re Lee Petillar*, 45 SEC 762 (1975) . However, full opinions rejecting the staff's position in toto can be found. See, e.g., *In re Wall Street West, Inc.*, [1983-84 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 83,477 (1984); *In re International Shareholders Services Corp.*, 46 SEC 378, 386, [1975 -76 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 80,493 n.19 (1976) (which rebuked the staff for misconduct); *Edgerton, Wyckoff & Co.*, 36 SEC 583 (1955) ; *In re Otis & Co.*, 35 SEC 650 (1954) .

(n141)Footnote 141. *Steadman v. SEC*, 450 U.S. 91 (1981) ; *S.E.C. v. Moran*, 922 F. Supp. 867 (S.D.N.Y. 1996) . *Whitney v. SEC*, 604 F.2d 676 (D.C. Cir. 1979) and *Collins Securities Corp. v. SEC*, 562 F.2d 820 (D.C. Cir. 1977) , which held the Commission limited by the "clear and convincing" standard where fraud was alleged and severe sanctions imposed, are no longer authoritative. Cf. *Herman & MacLean v. Huddleston*, 459 U.S. 375, 387-91 (1983) (preponderance standard governs in private actions for fraud and also noting that circumstantial evidence can be "more than sufficient" to establish scienter).

(n142)Footnote 142. Section 9(a) of the Securities Act, Section 25(a)(1) of the Exchange Act, Section 43(a) of the Investment Company Act and Section 213(a) of the Investment Advisers Act.

2-9 Federal Securities Exchange Act of 1934 § 9.10

(n143)Footnote 143. See 5 K. Davis, *Administrative Law Treatise* 435-460(2d ed. 1980).

(n144)Footnote 144. See *Kivitz v. SEC*, 475 F.2d 956 (D.C. Cir. 1973) (evidence against lawyer in Rule 2(e) proceeding insufficient); *Klopp v. SEC*, 427 F.2d 455 (6th Cir. 1970) (Commission's order based on investor testimony the court found unreliable vacated).

(n145)Footnote 145. The Commission's opinions customarily state that they are based on an "independent review of the record." That review is generally made by the Commission's Office of Opinions and Review, which prepares the initial drafts of the opinions and the orders that the Commission issues in contested cases.

(n146)Footnote 146. See Exch. Act § 21B(a); Inv. Co. Act § 9(d)(1); Inv. Adv. Act. § 203(i)(1). Sections 21B, 9(d), and 203(i) are codified at 15 U.S.C. §§ 78u-2, 80a-9(d), and 80b-3(i), respectively.

(n147)Footnote 147. Consideration of the factors is permissive and not mandatory because not all of the factors would apply in any given case. H.R. Rep. No. 616, 101st Cong., 2d Sess. 20, reprinted in 1990 U.S. Code Cong. & Admin. News 1379 (hereinafter cited as "1990 House Report" using citations to the original report pages). Furthermore, the factors that are applicable need not be accorded the same weight. *Id.*

(n148)Footnote 148. This factor takes into account the violator's culpability, including whether the violator acted with scienter. 1990 House Report, n.104 *supra*, at 20. An example of a violator who deliberately or recklessly disregards a regulatory requirement is an investment adviser who fails to maintain required books and records notwithstanding prior warnings. *Id.*

(n149)Footnote 149. This factor relates to the gravity of the violation and can be evaluated regardless of the violator's culpability. 1990 House Report, n.104 *supra*, at 20.

(n150)Footnote 150. The phrase "any person" is intended to take into account the situation where a group of persons act together to violate the federal securities laws. 1990 House Report, n.104 *supra*, at 20.

(n151)Footnote 151. This factor recognizes that the Commission may properly impose a higher penalty on repeat offenders. 1990 House Report, n.104 *supra*, at 21.

(n152)Footnote 152. This factor recognizes that the civil penalty should be higher if the economic gain to be derived from the violation is relatively higher or the violation is relatively more difficult to detect. 1990 House Report, n.104 *supra*, at 21.

(n153)Footnote 153. Exch. Act § 21B(c); Inv. Co. Act § 9(d)(3); Inv. Adv. Act. § 203(i)(3). The phrase "such other matters as justice may require" is taken from the Federal Trade Commission Act, 15 U.S.C. § 45(m)(C). 1990 House Report, n.104 *supra*, at 21. It is intended to give the Commission the latitude to take into account any equitable considerations that are unforeseeable, that are not readily susceptible to statutory delineation, or that do not fit directly into the factors that are enumerated. *Id.* For example, the Commission may consider the threat of harm (rather than the "actual harm" in factor 2), or any history of delinquency by the violator that did not result in an actual agency or court adjudication (factor 4). *Id.*

(n154)Footnote 154. Exch. Act § 21B(d); Inv. Co. Act § 9(d)(4); Inv. Adv. Act. § 203(i)(4). Without elaboration, the legislative history of these provision notes that the respondent's ability to pay is "an important consideration." See 1990 House Report, n.104 *supra*, at 21.

(n155)Footnote 155. Exch. Act § 21B(d); Inv. Co. Act § 9(d)(4); Inv. Adv. Act. § 203(i)(4).

CHAPTER 9 SEC Enforcement--Legal Considerations

2-9 Federal Securities Exchange Act of 1934 § 9.11

AUTHOR: Theodore Altman and Joshua S. Sohn

§ 9.11 Judicial Enforcement

In addition to the administrative forum, the SEC may bring its enforcement proceeding in federal court. The preponderance of the evidence standard governs judicial enforcement actions brought by the SEC. n1

[1] Injunctive Actions

[a] Statutory Authority. Whenever it shall appear to the Commission that any person is engaged or about to engage in any act or practice that constitutes or will constitute a violation of the federal securities laws, the Commission may, in its discretion, bring an action in federal court to enjoin such acts and practices. n2

Section 20(c) of the Securities Act and Section 21(e) of the Exchange Act provide the Commission with authority to petition a federal district court to "issue a writ of mandamus commanding any person to comply with the provisions of this title or any order of the Commission made in pursuance thereof."

Although the Federal Rules of Civil Procedure abolished writs of mandamus, n3 these provisions are still important. They permit mandatory injunctions to enforce compliance with reporting requirements and with the Commission's orders. n4 The Investment Company and Investment Advisers Acts expressly authorize such actions. n5

Section 21(d) of the Exchange Act permits the Commission to seek injunctions restraining violations of rules promulgated by the exchanges, the NASD, the registered clearing agencies and the Municipal Securities Rulemaking Board. Section 21(e) of the Exchange Act permits the Commission to obtain an order commanding any national securities exchange or registered securities association to enforce compliance with its rules or the Exchange Act (or the rules, regulations, or orders thereunder), or commanding a registered clearing agency to enforce compliance with its rules. The Commission may not, however, bring an action under Sections 21(d) or 21(e) to require compliance with the rules of a self-regulatory organization unless it appears to the Commission that such organization is unable or unwilling to act, or such action is necessary or appropriate in the public interest or for the protection of investors. n6

[b] Standard for Granting Injunction. The statutory provisions cited above are written in mandatory terms. They state that injunctions "shall be granted without bond" whenever the Commission makes "a proper showing."

For many years, the Commission considered that these provisions required little more than proof of the violation itself, n7 and found support for this position from the Supreme Court. In *SEC v. Capital Gains Research Bureau*, n8 the Supreme Court stated that an SEC injunction was no more than a "mild prophylactic" and made it clear that the Commission was not required to establish "irreparable injury." n9 Injunctions merely direct defendants to obey the law, which they are supposed to do in any event. n10

Although a showing of "cognizable danger of recurrent violation" was always essential, n11 the Commission maintained that past misconduct was a sufficient basis for the requisite inference of probable future misconduct and that the public interest in effective enforcement outweighed the inconvenience to the defendant. Courts often agreed, n12 and injunctions issued freely.

In egregious cases, they still do. n13 However, the reasonable likelihood of future violation requirement has become more of a stumbling block for the Commission than it used to be. n14 The agency must "go beyond the mere facts of past violations and demonstrate a realistic likelihood of recurrence." n15 In determining the likelihood of recurrence, courts examine the totality of the circumstances surrounding the violation. n16 Some courts say that the Commission must offer "positive proof" that future violations are likely. n17

This can scarcely have been meant literally. "Positive proof" that a person is "likely" to do something in the future seems something of a contradiction in terms. However, the rigor of the formulation underscores the late Judge Friendly's statement in 1976 that "the current judicial attitude toward the issuance of injunctions on the basis of past violations at the SEC's request has become more circumspect. n18 The Supreme Court's decision in *Aaron v. SEC* n19 is of great import in this regard. n20

Since the Commission's fraud complaints always invoke Sections 17(a)(2) and 17(a)(3), these semantic distinctions are of little practical moment. Hence the Chief Justice's concurring opinion in *Aaron* commented that "this dispute, though pressed vigorously by both sides, may be much ado about nothing." n21

Thus, the real significance of *Aaron* as a precedent appears to lie in what it said about injunctions restraining future violations of statutory provisions that do not require scienter. Significantly, the Court stated: "This is not to say that scienter has no bearing at all on whether a district court should enjoin a person violating or about to violate Section § 17(a)(2) or § 17(a)(3)." n22 In addition, the Court observed that "the Commission must establish a sufficient evidentiary predicate to show that... future violation may occur" and that "[a]n important factor... is the degree of intentional wrongdoing evident in a defendant's past conduct." n23 Chief Justice Burger spelled this out in a concurring opinion that said: "[I]t will almost always be necessary for the Commission to demonstrate that the defendant's sins have been the result of more than negligence. Because the Commission must show some likelihood of a future violation, defendants whose past actions have been in good faith are not likely to be enjoined... That is as it should be. An injunction is a drastic remedy, not a mild prophylactic, and should not be obtained against one acting in good faith." n24

In addition to this degree of intentional wrongdoing or scienter with respect to defendant's past conduct, the courts have considered other factors in assessing the totality of the circumstances to determine whether there is a likelihood of future violations. These factors include the isolated or recurrent nature of the violation, defendant's recognition of the wrongful nature of the conduct, the sincerity of the defendant's assurances against future violations, the risk of future violations created by defendant's professional occupation, the egregiousness of the violation, and defendant's age and health. n25

In *SEC v. Unifund SAL*, n26 the Second Circuit added another stumbling block for the Commission in obtaining a preliminary injunction. Although the Court reaffirmed that the Commission must establish a likelihood of future violation, it held that the strength of the showing that must be made depends upon the nature of the injunctive relief sought. n27 When the Commission seeks preliminary relief that goes beyond preservation of the status quo, it must make a more substantial showing of likelihood of future violation (as well as a more substantial showing with respect to

a current violation). n28 The more significantly the status quo is altered, the more substantial the showing must be. n29

[c] Consequences of an SEC Injunction. SEC injunctions n30 are "drastic" because not only do they inflict reputational damage, n31 but they are also enforceable in contempt proceedings that can lead to imprisonment or substantial fines. n32 The magnitude of each varies greatly from case to case, but can be considerable. n33 Moreover, injunctions may also have significant collateral consequences under state and federal law.

Moreover, injunctions must be disclosed in various SEC filings. n34

Injunctions can have a devastating impact on those engaged in regulated activities and on those who seek to raise new capital. n35 This is so because injunctions are an express statutory ground for disciplinary action against broker-dealers, n36 investment advisers n37 and persons associated or seeking to become associated with them. n38 They also bar enjoined entities and persons from any meaningful association with registered investment companies. n39 SEC injunctions can also spawn disciplinary proceedings by states, by exchanges, and by the NASD. In addition, an injunction against an issuer or any of its officers, directors, controlling persons, or underwriters bars financing under the Securities Act's exemptive regulations. n40 Finally, adverse findings in an SEC injunctive action may have potent collateral estoppel effects in private litigation. n41 This is so, even when no injunction issues. n42 However, a defendant that consents to the injunction without admitting or denying the Commission's allegations will not be bound by collateral estoppel in subsequent litigation. The doctrine, therefore, provides a significant incentive for settlement. n43

[2] Monetary Penalties

[a] Authority of the Commission. In addition to an injunction (or lieu of an injunction or any other equitable relief), n44 the Commission is authorized to obtain civil penalties against defendants in federal court. Whenever it appears to the Commission that a person has violated the Exchange Act, the Securities Act, the Investment Company Act, the Investment Advisers Act, the rules or regulations thereunder, or a cease-and-desist order, n45 the Commission may bring an action in federal district court for a civil penalty against the violator. n46

[b] Amount of the Penalty. The amount of the penalty to be imposed "shall be determined by the court in light of the facts and circumstances." n47 The maximum penalty that may be imposed upon the defendant is the greater of:

- the gross amount of the pecuniary gain to the defendant as a result of the violation; or
- certain statutory amounts that vary with the defendant's culpability and the gravity of the harm that was or could have been caused by the violation. n48

These statutory amounts are divided into three "tiers." If the violation involved fraud, deceit, manipulation, or deliberate or reckless disregard of a regulatory requirement, and directly or indirectly resulted in substantial losses or created a significant risk of substantial losses to others (a "third tier" penalty), the maximum statutory amount is \$120,000 for a natural person and \$600,000 for any other person. n49 If the violation only involved fraud, deceit, manipulation, or deliberate or reckless disregard of a regulatory requirement (a "second tier" penalty), the maximum statutory amount is \$60,000 for a natural person and \$300,000 for any other person. n50 If neither factor is present (a "first tier" penalty), the maximum statutory amount is \$6,500 for a natural person and \$60,000 for any other person. n51

A civil penalty may be imposed in addition to an order of disgorgement. n52 Therefore, the defendant could be required to pay up to twice the amount of that defendant's profits due to the violation--that is, disgorgement of the defendant's profits plus a monetary penalty equal to the gross amount of the defendant's pecuniary gain as a result of the violation. n53

A separate penalty, as set forth above, may be imposed for each violation. n54 In an action by the Commission to

enforce a cease-and-desist order, n55 each separate violation of such order is a separate offense. n56 In the case of a continuing failure to comply with a cease-and-desist order, each day the defendant fails to comply is a separate offense. n57 However, in its discretion the court can determine that despite numerous technical violations, a penalty based on one violation is appropriate. n58

[c] Collection of the Penalty. Except where directed by the Commission into a disgorgement fund, n59 the penalty imposed on the defendant is payable into the U.S. Treasury. n60 If the defendant fails to pay the penalty in a timely manner, the Commission may refer the matter to the Attorney General for collection. n61 Such action may be brought in addition to any other action the Commission or the Attorney General is entitled to bring. n62 For jurisdiction and venue purposes, a collection action is deemed to be an action to enforce a liability or a duty. n63

[d] Fair Funds Provision. Section 308 of the Sarbanes-Oxley Act, n64 known as the "Fair Funds" provision, provides that where the Commission obtains an order of disgorgement against any person for violation of the securities laws, either through judicial or administrative proceedings, and the Commission also obtains civil penalties, such penalties shall, at the direction of the Commission, be paid into the disgorgement fund instead of the U.S. Treasury. The effect of this provision is to make civil penalties available for compensating investors who were victims of the securities violations.

Former SEC Chairman Harvey Pitt described the Fair Funds provision as "one of the most important new tools we have received under Sarbanes-Oxley." n65 The Commission has announced its intent "to use the provision whenever reasonably possible, consistent with its mission to protect investors." n66 Some commentators have noted that the ability to use civil penalties for compensatory purposes has heightened the rationale for imposing them and that the Commission should be expected to become (and has become) more aggressive in seeking penalties, particularly against entities not otherwise directly regulated by the Commission (such as broker-dealers and audit firms). n67 A notable example of use of this provision was the settlement reached by the Commission in the WorldCom fraud; the penalty payment of \$750 million was to be paid into a disgorgement fund for benefit of defrauded shareholders. n68 The Commission similarly announced that the \$255 million in disgorgement and penalties obtained against J.P. Morgan Chase and Citigroup in connection with the Enron and Dynegy frauds would be completely paid into a fund for investors pursuant to Section 308. n69 More specifically, from 2003 to 2007, the SEC and courts ordered \$13.8 billion in disgorgement and civil penalties to be paid to the SEC. n70 The SEC has returned approximately \$6.6 billion in disgorgement and Fair Fund distributions to injured investors since the passage of the Sarbanes-Oxley Act--with \$2.1 billion distributed in 2009 alone. n71 As previously discussed, the *Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010*, enacted on July 22, 2010, amended Section 308 of *Sarbanes-Oxley* to authorize the S.E.C. to allocate a portion of a civil penalty obtained in a settlement or judgment in any judicial or administrative action to a "disgorgement fund or other fund established for the benefit of the victims of [a securities] violation." n72

[3] Ancillary Relief

The inherent equitable powers of the federal courts are proverbially broad and flexible. When the public interest is involved, "those equitable powers assume an even broader and more flexible character than when only a private controversy is at stake." n73 Hence, the Commission's complaints often pray for a variety of relief "ancillary" to the injunctions that it is expressly authorized to seek. n74 Indeed, any doubt as to the Commission's power to seek broad equitable relief was clarified by Section 305(b) of the Sarbanes-Oxley Act which states that "the Commission may seek, and any Federal court may grant, any equitable relief that may be appropriate or necessary for the benefit of investors." n75 Such ancillary relief is frequently obtained, n76 including:

- monetary relief, such as rescission, restitution, and disgorgement; n77
- orders directing the adoption of procedures designed to prevent the recurrence of the violations charged; n78

- receiverships; n79
- court-appointed directors; n80
- orders mandating special reports to the Commission enabling it to monitor the defendants' compliance with the injunction; n81
- freezes on assets: n82
- the appointment of special counsel; n83
- the appointment of a special master; n84 and
- the formation of a compliance review committee. n85

In addition to the above, the court is authorized by statute in injunction actions to prohibit any person from acting as an officer or a director of any issuer that has a class of securities registered pursuant to Section 12 or that is required to file reports pursuant to Section 15(d) if such person has violated Section 10(b) of the Exchange Act (or the rules and regulations thereunder) or Section 17(a)(1) of the Securities Act, and the person's conduct demonstrates unfitness to serve as an officer or a director of such issuer. n86 By specifically authorizing such ancillary relief by statute, Congress did not intend to limit the ancillary relief available to the Commission to officer and director bars. n87 Neither did it intend to limit officer and director bars to scienter-based fraud violations of the securities laws. n88 The legislative history of Section 21(d)(2) of the Exchange Act and Section 20(e) of the Securities Act suggests that a federal district court already possesses the equitable power to prohibit any person from acting as an officer or a director in any case when it "necessary or appropriate." n89

Prior to the adoption of Section 305 of the Sarbanes-Oxley Act, a court could prohibit an individual from serving as an officer or director if the individual's conduct demonstrated "substantial unfitness" to serve. Section 305 reduced the threshold articulated in Sections 21(d)(2) of the Exchange Act and 20(e) of the Securities Act from "substantial unfitness" to "unfitness." In practice, however, courts seem to employ a very similar test, both pre and post adoption of Section 305, in determining what an individual must demonstrate before he or she will be prohibited from serving as a director or officer. When making this determination, courts typically consider six factors: the egregiousness of the violation, whether the defendant was a repeat offender, the defendant's role in the violation, scienter, the defendant's economic stake in the violation and the likelihood that the misconduct will recur. n90

Cases of consensual ancillary relief are far more numerous than those in which such relief was obtained over the defendants' opposition. Defendants have found it advisable to consent to a variety of remedies.

Though the effects have generally been good and though the Division of Enforcement has shown admirable ingenuity and creativity in this area, ancillary relief has its problems.

Consider, for example, a case in which the appointment of a receiver accelerates debt maturities, entitles customers and suppliers to rescind contracts beneficial to the company, and "protects" investors into a total loss. n91

When a company's financial condition is very poor and when its securities-related infractions appear serious, some of the Commission's Regional Offices occasionally urge bankruptcy proceedings. Court-appointed special counsel may also be inappropriate. As noted earlier, the ambiguity of the relationship between such a counsel and his or her nominal corporate client can negate the attorney-client privilege. n92 The resulting confidentiality concerns may actually impede the investigation and make it less effective than it would have been had special counsel been selected in a different way.

Another negative factor has been stated as follows by a perceptive commentator:

Faced with an incomplete or ambiguous mandate, an ambitious special counsel might probe more aggressively than is warranted by the facts and inflict more disruption on corporate affairs than would the Commission's own enforcement personnel, who are accustomed to exercising investigative or quasi-prosecutorial discretion. As a result, the company would be saddled both with the special counsel's fees and with the resultant business uncertainty and burdens on management resources. n93

A searching, good faith self-investigation by a competent, wholly disinterested special counsel selected by the company or by its outside directors will often be both more effective and less detrimental than a judicially mandated special counselship. If such counsel is already in the picture, the Commission sometimes withholds enforcement action or defers it until counsel completes his or her own inquiry.

Because it can take so many forms and because the appropriateness of a particular remedy in a specific case is an intensely factual matter, SEC ancillary relief defies generalization. Each case calls for a careful analysis of "the needs to be served" n94 and for a judicious balancing of the equities. n95

FOOTNOTES:

(n1)Footnote 1. *SEC v. Moran*, 922 F. Supp. 867 (S.D.N.Y. 1996) .

(n2)Footnote 2. change fn to 2 and renumber accordingly Section 20(b) of the Securities Act, Section 21(d)(1) of the Exchange Act, Section 42(d) of the Investment Company Act, and Section 209(d) of the Investment Advisers Act. The Securities Act and Exchange Act use the words "is engaged or about to engage" reproduced in the text. But the Investment Company and Investment Advisers Acts authorize injunctive actions when the defendant "has engaged or is about to engage" in conduct in violation of those statutes. The Commission prefers the latter formulation because it expressly authorizes injunctions against violations that are not ongoing. Accordingly, it has tried, on a number of occasions, to persuade Congress to amend the earlier statutes. These efforts have been unsuccessful. *See SEC v. Commonwealth Chemical Securities, Inc.*, 574 F.2d 90, 99 n.7 (2d Cir. 1978) . However, this difference in terminology is of little substantive significance. *See* H. R. Rep. No. 229, 94th Cong., 1st Sess. 102 (1975) (Congressional conferees did not believe that existing law required clarification).

(n3)Footnote 3. F.R.C.P. 81(b). change to fn 3

(n4)Footnote 4. F.R.C.P. 81(b) provides that relief formerly available by mandamus "may be obtained under the practice prescribed in these rules."

Savoy Industries, Inc.*, 587 F.2d 1149, 1169 (D.C. Cir. 1978) , *cert. denied*, 440 U.S. 913 (1979) ; *SEC v. Commonwealth Chemical Securities, Inc.*, 574 F.2d 90, 102 (2d Cir. 1978) ; *accord*, *Aaron v. S.E.C.*, 446 U.S. 680, 689, 700-01, 100 S.Ct 1945 (1980) (holding that the S.E.C. has the authority under the Securities Exchange Act to bring an action in district court to enjoin individuals from engaging in acts or practices constituting a violation of any provision of the securities laws and that an injunction will be issued upon a "proper showing" which includes "at a minimum, proof that a person is engaging in or is about to engage in a substantive violation of either of the Acts or of the regulations promulgated thereunder"); *b'ut see SEC v. Unifund SAL*, 910 F.2d 1028, 1039-40 (2d Cir. 1990) (where the Commission seeks preliminary relief that goes beyond preservation of the status quo, it must make a more substantial showing of likelihood of success with respect to

a current violation).

(n8)Footnote 8. *SEC v. Capital Gains Research Bureau*, 375 U.S. 180, 193 (1963) .

(n9)Footnote 9. *Id.* at 195 ; *see also SEC v. Unifund SAL*, 910 F.2d 1028, 1039-40 (2d Cir. 1990) (the Commission need not show irreparable injury or unavailability of a remedy at law); *but see SEC v. Cherif*, 933 F.2d 403, 407-08 (7th Cir.1991) (noting the standard set forth by the Second Circuit in *Unifund*, but applying the traditional injunction standard because of the parties' failure to argue that a different standard should be applied), *Dial Information Services Corp. v. Thornburgh*, 938 F. 2d. 1535 (2d. Cir. 1991) , *cert. denied*, 112 S. Ct. 966 (1992) . Furthermore, it has been held that the Commission may not (even if it wants to) obtain a preliminary injunction using an alternative test available to private litigants of irreparable injury plus both sufficiently serious questions going to the merits and a balance of hardships tipping decidedly to the party seeking the preliminary relief. *Unifund*, 910 F.2d at 1039-40 .

Another traditional principle vainly invoked by defendants in SEC injunctive actions is that equity will not enjoin a crime. *See SEC v. Carriba Air, Inc.*, 681 F.2d 1318, 1321(11th Cir. 1982) .

(n10)Footnote 10. *See SEC v. Thermodynamics, Inc.*, 464 F.2d 457, 461 (10th Cir. 1972) . *But see SEC v. Unifund SAL* 910 F.2d 1028, 1039-40 (2d Cir. 1990) (an injunction prohibiting future securities laws violations held to require a substantial showing of current violation and likelihood of future violation by the Commission, because it places the defendant at risk with respect to all future securities transactions).

(n11)Footnote 11. *S.E.C. v. Med. Comm. for Human Rights*, 404 U.S. 403, 406, 92 S.Ct 577 (1972) (case moot where "the allegedly wrongful behavior could not reasonably be expected to recur"); *United States v. W. T. Grant Co.*, 345 U.S. 629, 633 (1953) .

(n12)Footnote 12. *See, e.g., SEC v. Management Dynamics, Inc.*, 515 F.2d 801, 808 (2d Cir. 1975) ("SEC appears... not as an ordinary litigant, but as a statutory guardian charged with safeguarding the public interest in enforcing the securities laws.").

(n13)Footnote 13. *See, e.g., SEC v. Carriba Air, Inc.*, 681 F.2d 1318 (11th Cir. 1982) .

(n14)Footnote 14. Injunctions have been denied because of a want of this element. *SEC v. Unifund SAL* 910 F.2d 1028, 1039-40 (2d Cir. 1990) (an injunction prohibiting future securities laws violations held to require a substantial showing of current violation and likelihood of future violation by the Commission, because it places the defendant at risk with respect to all future securities transactions); *SEC v. Caterinicchia*, 613 F.2d 102 (5th Cir. 1980) ("violation... resulted from a misguided attempt to protect investors by saving the company from bankruptcy and liquidation"); *SEC v. Monarch Fund*, 608 F.2d 938 (2d Cir. 1979) (court found no violation but also held that an injunction would be inappropriate even if there had been a violation, because the allegations were stale and because there was no evidence of prior or subsequent violations); *SEC v. Bausch & Lomb, Inc.*, 565 F.2d 8 (2d Cir. 1977) (isolated instance of misconduct unlikely to recur); *SEC v. National Student Marketing Corp.*, 457 F. Supp. 682 (D.D.C. 1978) (no injunction against lawyer-defendants because the court was "confident that they will take appropriate steps to ensure that their professional conduct in the future comports with the law").

(n15)Footnote 15. *SEC v. Commonwealth Chemical Securities, Inc.*, 574 F.2d 90, 100 (2d Cir. 1978) .

(S.D.N.Y. 1997) .

(n18)Footnote 18. *SEC v. Commonwealth Chemical Securities, Inc.*, 574 F.2d 90, 99 (2d Cir. 1978) ; see also, *SEC v. American Board of Trade, Inc.*, 751 F.2d 529 (2d Cir.1984) ("We begin by... emphasizing the gravity of an injunction against violation of the securities laws.").

(n19)Footnote 19. 446 U.S. 680 (1980) .

(n20)Footnote 20. The primary issue in the case was the need for a showing of deceptive intent or "scienter." The Court held such a showing essential under Section 10(b) of the Exchange Act and *Rule 10b-5* thereunder because it had previously found this mandated by Section 10(b)'s words. *Ernst & Ernst v. Hochfelder*, 425 U.S. 185 (1976) , a private action for money damages. The Commission's argument that those words meant one thing in private actions at law and another quite different thing in SEC suits for equitable relief was held untenable. Turning to Section 17(a) of the Securities Act, the Court held that "The language of § 17(a)(1), which makes it unlawful 'to employ any device, scheme or artifice to defraud' plainly evinces an intent on the part of Congress to proscribe only knowing or intentional misconduct." Hence, scienter was found required under Section 17(a)(1). Not so, however, under subdivisions (2) and (3) of Section 17(a). Subdivision (2) simply prohibits "any untrue statement of a material fact or any omission to state a material fact." The Court saw nothing in that "which smacks of scienter or intent to defraud." Subdivision 3, which makes it unlawful "to engage in any transaction, practice, or course of business which operates or would operate as a "fraud or deceit was read the same way. True, Section 17(a)(3) speaks of "fraud." But the Court concluded that the words "operate or would operate" focus on the "effect [emphasis by the Court] of particular conduct... rather than upon the culpability of the person responsible." 446 U.S. at 696-97 .

(n21)Footnote 21. 446 U.S. at 703, *Fed. Sec. L. Rep. (CCH)* at 97,686 .

(n22)Footnote 22. 446 U.S. at 701, *Fed. Sec. L. Rep. (CCH)* at 97,685 .

(n26)Footnote 26. 910 F.2d 1028 (2d Cir. 1990) .

(n27)Footnote 27. 910 F.2d at 1039 .

(n28)Footnote 28. 910 F.2d at 1039-40 ; see also n.6 *supra*.

(n29)Footnote 29. See 910 F.2d at 1040 , 1042. The court held that a prohibition against future securities laws violations required a heightened showing by the Commission, because it places the defendant at risk with respect to all future securities transactions. See *id.* at 1040-41 . On the other hand, the requisite showing by the Commission for an order freezing the defendant's assets is less onerous. *Id.* at 1041 . Such an order "does not place [a defendant] at risk of

contempt in all future securities transactions... [i]t simply assures that any funds that may become due can be collected." *Id.*

(n30)Footnote 30. For comprehensive discussion, see Andre, *The Collateral Consequences of SEC Injunctive Relief: Mild Prophylactic or Perpetual Hazard*, 1981 U. Ill. L. J. 625.

(n31)Footnote 31. "The sting of the decree lies in the implication that the defendants are dishonest." *Timetrust, Inc. v. SEC*, 130 F.2d 214, 220 (9th Cir. 1942) .

(n32)Footnote 32. See *Frank v. United States*, 395 U.S. 147 (1969) (no right to jury trial if term of imprisonment does not exceed six months); *United States v. Custer Channel Wing Corp.*, 376 F.2d 675 (4th Cir.) , cert. denied, 389 U.S. 850 (1967) ; *A.V. By Versace, Inc. v. Gianni Versace, S.p.A.*, 279 F.Supp.2d 341 (S.D.N.Y. Mar. 31, 2004) (after repeated failure to comply with the court's orders, including contempt orders issuing coercive fines, court was left with "no recourse other than to enter this Order and severe sanction" imprisoning defendant until he complied with the order); *S.E.C. v. Credit Bancorp*, 2000 U.S. Dist. LEXIS 9755 (S.D.N.Y. July 3, 2000) ; *SEC v. Ormont Drug & Chemical Co., Inc.*, 739 F.2d 654 (D.C. Cir. 1984) ; *U.S. v. Kormel, Inc.*, 230 F. Supp. 275 (D. Nev. 1964) .

(n33)Footnote 33. See, e.g., *SEC v. Thermodynamics, Inc.*, 464 F.2d 457, 459 (10th Cir. 1972) , cert. denied, 410 U.S. 927 (1973) (difficulty in obtaining credit, injunction mentioned in Dun & Bradstreet report, and need to explain to business associates); *SEC v. Warren*, 583 F.2d 115 (3d Cir. 1978) (loss of corporate directorships and preclusion from several substantial business opportunities in addition to embarrassment and humiliation). Both cases involved applications to dissolve SEC injunctions that had been entered on consent. The application was granted in *Warren* but denied in *Thermodynamics*.

(n34)Footnote 34. See, e.g., 17 C.F.R. § 229.401(f), discussed in *Federal Securities Exchange Act of 1934*, A.A. Sommer, Jr., General Editor, § 4.03[5][a][vi] (Matthew Bender & Co., Inc. 2007); Item 11 of Form S-1, discussed in § 7.03[3][k] *supra*; Item 1 of Form 10, discussed in *Federal Securities Exchange Act of 1934*, A.A. Sommer, Jr., General Editor § 4.01[3][a] (Matthew Bender & Co., Inc. 2007); and Item 6(a) of Schedule 14A, discussed in *Federal Securities Exchange Act of 1934* A.A. Sommer, Jr., General Editor, § 7.04[2][a] (Matthew Bender & co., Inc. 2007). With respect to broker-dealers, see Item 10(a)(iii) of Form B-D, discussed in *Federal Securities Exchange Act of 1934*, A.A. Sommer, Jr., General Editor, § 3.03[2][a] (Matthew Bender & Co., Inc. 2007). With respect to investment advisers, see Item 10(c) of Form ADV.

(n35)Footnote 35. See § 9.10[6] *supra* for possible effects under Rule 2(e) of the Commission's Rule of Practice on professionals who practice before the Commission.

(n36)Footnote 36. Section 15(b)(4)(C) of the Exchange Act.

(n37)Footnote 37. Section 203(e)(3) of the Investment Advisers Act.

(n38)Footnote 38. Section 15(b)(6) of the Exchange Act and Section 203(f) of the Investment Advisers Act. Because of the potential hardships stemming from these provisions, courts sometimes refuse to enjoin. See, e.g., *SEC v. Geon Industries, Inc.* 531 F.2d 39, 54-56 (2d Cir. 1976) .

(n39)Footnote 39. Section 9(a)(2) of the Investment Company Act imposes an automatic bar, which the Commission can lift under Section 9(c) of that statute. See *In re E.F.Hutton & Co.*, [1986-87 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 84,024 (1986).

(n40)Footnote 40. See 17 C.F.R. §§ 230.252(c)-(f), 230.306(a)(2) and 230.505(b)(2)(iii). However, the Commission has discretionary authority to grant relief from this disqualification. 17 C.F.R. § 230.252(g).

(n41)Footnote 41. *Parklane Hosiery Co. v. Shore*, 439 U.S. 322 (1979) . In other contexts, however, there are

limitations on the use that private persons can make of the Commission's injunctive actions. Thus, for example, they cannot initiate contempt proceedings to enforce an SEC injunction. *SEC v. Vickers Christy Co.*, 1965 U.S. Dist. LEXIS 9838 (S.D.N.Y. 1965) ("The Securities and Exchange Commission alone acting in the public interest can seek enforcement of this court's injunction. In this instance, the... Commission requests no relief. Petitioners are seeking to use this court's contempt power to... collect a private debt."). Nor can they delay the Commission's case by causing it to be consolidated with their parallel actions. Such consolidation requires the Commission's consent. Section 21(g) of the Exchange Act.

(n42)Footnote 42. *Parklane*, 439 U.S. 322 was such a case. The Commission succeeded in establishing that the proxy statement involved there was false, but an injunction was found unwarranted. Nevertheless, the factual findings in the Commission's unsuccessful injunctive suit enabled private plaintiffs to obtain a partial summary judgment in their parallel action.

(n43)Footnote 43. See § 9.13 *infra*.

(n44)Footnote 44. 1 H.R. Rep. No. 616, 101st Cong., 2d Sess. 22, reprinted in 1990 U.S. Code Cong. & Admin. News 1379 (hereinafter cited as "1990 House Report" using citations to the original report pages).

(n45)Footnote 45. For a discussion of cease-and-desist orders, see § 9.10[10] *supra*.

(n46)Footnote 46. Exch. Act § 21(d)(3)(A); Sec. Act § 20(d)(1); Inv. Co. Act § 42(e)(1); Inv. Adv. Act. § 209(e)(1). Violations subject to a penalty pursuant to Section 21A, which concerns civil penalties for insider trading, are excluded from the operation of Section 21(d)(3) of the Exchange Act and Section 20(d) of the Securities Act. Exch. Act. § 21(d)(3)(A); Sec. Act § 20(d)(1). For a discussion of Section 21A, see § 9.12[2] *infra*. Sections 21(d)(3), 20(d), 42(e), and 209(e) are codified at 15 U.S.C. §§ 78u(d)(3), 77t(d), 80a-41(e), and 80b-9(e), respectively.

(n47)Footnote 47. Exch. Act § 21(d)(3)(B)(i); Sec. Act § 20(d)(2)(A); Inv. Co. Act § 42(e)(2)(A); Inv. Adv. Act. § 209(e)(2)(A). In this respect, the legislative history contemplates that the Commission would not seek a monetary penalty when a failure to comply with Commission requirements involves isolated or unintentional conduct. 1990 House Report, n.1 *supra*, at 18. On the other hand, when the defendant's conduct rises to the level of a criminal violation, a higher penalty may be appropriate. *Cf. id. at 18-19*.

(n48)Footnote 48. See Exch. Act § 21(d)(3)(B); Sec. Act § 20(d)(2); Inv. Co. Act § 42(e)(2); Inv. Adv. Act. § 209(e)(2).

(n49)Footnote 49. Exch. Act § 21(d)(3)(B)(iii); Sec. Act § 20(d)(2)(C); Inv. Co. Act § 42(e)(2)(C); Inv. Adv. Act. § 209(e)(2)(C). The penalty amounts prescribed by these statutes are subject to adjustment for inflation under the Debt Collection Improvement Act of 1996, Pub. L. No. 104-134, Title III, § 310001, 110 Stat. 1321-358. See 17 C.F.R. § 201.1002.

(n66)Footnote 66. *See* Report Pursuant to Section 308(a) of the Sarbanes-Oxley Act, at 22 (*available at* <http://www.sec.gov/news/studies/sox308creport.pdf>). In this report, the Commission also recommended that Congress amend the Fair Funds provision to eliminate the requirement that disgorgement be obtained before penalties may be used for investor restitution. *Id.* at 33-34 .

(n67)Footnote 67. *See, e.g.*, William R. Baker III & Christopher E. Campbell, *Sarbanes-Oxley Enhancements to the SEC's Enforcement Authority*, Practising Law Institute Corporate Law and Practice Course Handbook Series, Securities Litigation & Enforcement Institute 2003 (PLI Order No. B0-01QX).

(n68)Footnote 68. *See SEC. v. WorldCom, Inc.*, 273 F. Supp. 2d 431 (S.D.N.Y. 2003) . Judge Rakoff's opinion also contains an interesting discussion of the degree to which Section 308 permissibly transforms the purpose of civil penalties from punishment or deterrence to compensation, stating that "to determine the size of the penalty primarily on the basis of how much shareholder loss will thereby be recompensed ... would run contrary to the primary purposes of S.E.C. fraud penalties themselves." This analysis is, to be fair, also reflective of the fact that WorldCom was in bankruptcy and Judge Rakoff's concern that an SEC penalty designed to compensate shareholders would place shareholders in a better position than otherwise permissible in bankruptcy proceedings.

(n69)Footnote 69. *See* SEC Press Release 2003-87 (July 28, 2003) (*available at* www.sec.gov/news/press/2003-87.htm).

(n70)Footnote 70. *See* U.S. Sec. & Exch. Comm'n, 2007 Performance and Accountability Report 2, at 26, *available at* <http://www.sec.gov/about/secpar/secpar2007.pdf>.

(n86)Footnote 86. Exch. Act § 21(d)(2); Sec. Act § 20(e). The Commission was also given the power to impose such bars in administrative cease-and-desist proceedings. See § 9.10[10][a][iii] *supra*.

(n87)Footnote 87. H.R. Rep. No. 616, 101st Cong., 2d Sess. 28, reprinted in 1990 U.S.Code Cong. & Admin. News 1379 (hereinafter cited as "1990 House Report" using citations to the original report pages).

(n88)Footnote 88. 1990 House Report, n.14 *supra* at 27.

(n89)Footnote 89. 1990 House Report, n.14 *supra*, at 27; see also *SEC v. Materia*, 745 F.2d 197, 200 (2d Cir. 1984) , cert. denied, 471 U.S. 1053 (1985) ("once the equity jurisdiction of the district court properly has been invoked, the court has power to order all equitable relief necessary under the circumstances"). Indeed, long before Sections 21(d)(2) and 20(e) became law, one court prohibited a defendant from acting as an officer or a director as relief ancillary to an injunction. In *SEC v. Techni-Culture, Inc.*, [1973-74 Transfer Binder] Fed. Sec. L. Rep. (CCH) P 94,501 (D. Ariz. 1974), the court enjoined the defendants from violating Section 10(b) of the Exchange Act and Section 17(a) of the Securities Act. The court further ordered that one defendant be prohibited from assuming a position as or continuing to act as an officer or a director of any public company except upon a showing that measures have been taken to prevent repetition of the same or similar conduct.

(n90)Footnote 90. *SEC v. Patel*, 61 F.3d 137 (2d Cir. 1995) .

(n91)Footnote 91. Companies that face this prospect try to avoid it by consenting to other less drastic forms of ancillary relief. Even in contested cases where serious wrongdoing was involved, limited purpose trusteeships have been ordered in lieu of general receiverships. See, e.g., *SEC v. Manor Nursing Centers, Inc.*, 458 F.2d 1082 (2d Cir. 1972) .

(n92)Footnote 92. See § 9.09[3][c] *supra*. See also Gruenbaum and Oppenheimer, *Special Investigative Counsel; Conflicts and Roles*, 33 Rutgers L. Rev. 865 (1982).

(n93)Footnote 93. Farrand, *Ancillary Remedies in SEC Civil Enforcement Suits*, 89 Harv. L. Rev. 1779, 1811 n.164 (1976). The author goes on to point out that the other side of this coin is that "special counsel may choose to read his ambiguous mandate in a narrow or restrictive way and to conduct his investigation accordingly" and that "[s]hould this occur, neither the SEC nor the special counsel will unearth information that should come to light in a well-conducted enforcement proceeding."

(n94)Footnote 94. *General Stores Corp. v. Shlensky*, 350 U.S. 462, 466 (1956) (choice between different types of reorganization proceedings under the Bankruptcy Act of 1938).

(n95)Footnote 95. *See, e.g.*, SEC v. Falstaff Brewing Corp., n.9 *supra* , where court-appointed directors were found inappropriate, and *SEC v. Parklane Hosiery Co.*, 422 F. Supp. 477, 486 (S.D.N.Y. 1976) , *aff'd*, 558 F.2d 1083 (2d Cir. 1977) (Commission's request for the appointment of special counsel to determine the fair value of certain securities denied as "wholly unnecessary" because private litigation seeking that end had already been instituted).

CHAPTER 9 SEC Enforcement--Legal Considerations

2-9 Federal Securities Exchange Act of 1934 § 9.12

AUTHOR: Theodore Altman and Joshua S. Sohn

§ 9.12 Specialized Treatment of Illicit Insider Trading

[1] Background

Concern about the prevalence and the evil effects of illicit insider trading has produced a specialized remedial scheme for that offense. Its keystone, a civil penalty, was introduced by the Insider Trading Sanctions Act of 1984. n1 That penalty was sharpened by, and the Insider Trading Sanctions Act strengthened by, the Insider Trading and Securities Fraud Enforcement Act of 1988. n2

These statutes do not define the offense with which they deal. Nor has the Commission done so. The substantive law of the subject is rooted in the Commission's *Rule 10b-5*, n3 a general proscription against fraud and deception that makes no express mention of insider trading. n4 However, courts have constructed a body of doctrine around the rule through case-by-case adjudication in traditional common law fashion. n5

The special insider-trading legislation first enacted in 1984 and materially strengthened at the end of 1988 deals solely with remedies for and deterrents to an undefined offense. That peculiar state of affairs reflects the following legislative judgments. First, the courts "have established clear guidelines for the vast majority of traditional insider trading cases." n6 Second, further refinements are best left to the judiciary because "a statutory definition could potentially be narrowing, and in an unintended manner facilitate schemes to evade the law." n7 Finally, the truly serious problem with pre-1984 insider trading jurisprudence was that the remedies were ineffective and that there was no real deterrent. n8

[2] Civil Fines

Section 21A of the Exchange Act authorizes the Commission to seek, and the district courts to order, the payment to the United States Treasury of as much as three times the profit gained or the loss avoided as a result of the unlawful transaction. n9 Since the recovery goes to the United States and not to the victims of the wrong, n10 the penalty does not displace the disgorgement remedy that the Commission previously succeeded in establishing. n11 Rather, it supplements that remedy by adding what Congress hoped would be an effective deterrent. n12

This means that the SEC may be able to effect the collection of as much as four times the illicit gain n13 --disgorgement for the injured investors plus the trebled penalty for the United States. Trebling is not mandatory. n14 However, the

2-9 Federal Securities Exchange Act of 1934 § 9.12

Commission will be able to make a strong argument that it was intended to be the general rule at least when sophisticated professional traders are involved. n15

These substantial liabilities can be imposed on aiders and abettors who did not trade themselves. n16 In *Central Bank of Denver v. First Interstate Bank*, n17 the Supreme Court held that there is no civil liability for aiding and abetting under Section 10(b). This decision was later clarified by legislation that specified that SEC enforcement actions may be brought against persons who aid and abet violations of Section 10(b). n18 The Supreme Court in *Stoneridge Investment Partners, LLC v. Scientific-Atlanta, Inc.*, however, made plain that only the SEC had the right to bring aiding and abetting claims, and that the private right of action permitted under § 10(b) and *Rule 10b-5* did "not extend to aiding and abetting." n19 Tipsters are as liable as tippees. n20 The tippee's payment of the penalty does not extinguish the tipster's liability. n21

The *Dodd-Frank Wall Street Reform and Consumer Protection Act* granted the SEC the express right to bring aiding-and-abetting claims under the federal securities laws including Section 10(b). Additionally, *Dodd-Frank* lowered the required mental state for aiding-and-abetting liability from "actual knowledge" to "recklessness" thereby abrogating the "knowing" standard for an aiding-and-abetting violation of the 34 Act under the Private Securities Litigation Reform Act of 1995. n22

Thus, a person who derived no pecuniary benefit from the unlawful trading may nevertheless be liable for very large amounts. Moreover, a tipster may be liable for profits realized by his tippees, even if the tippee is not held liable as an insider trader. n23

Tippees may be found liable even where it is shown that the tipster did not know that his or her breach of fiduciary obligation would lead the tippee to trade on the information. n24 To impose the Section 21A civil penalty, the Commission must establish that the defendant:

- had material nonpublic information;
- bought or sold securities while in possession of such information or conveyed that information to others who bought and sold; and
- the illicit transaction was "on or through the facilities of a national securities exchange or from or through a broker or dealer" and "not part of a public offering by an issuer of securities other than standardized options." n25

The exclusions reflect the purpose of the Act, the deterrence of informational abuses in the impersonal trading markets. n26 For face-to-face transactions and for public offerings by issuers, existing remedies were obviously deemed adequate. n27

There are several other noteworthy points about the civil fine. Profits gained or losses avoided are computed by comparing the price paid or received with the market price "a reasonable period after public dissemination of the nonpublic information." n28 In addition, there is a five-year statute of limitations, applicable only to actions under the Insider Trading Sanctions Act. n29 Finally, although the statute says nothing about jury trial, the *Seventh Amendment* entitles the defendant to a jury on the question of whether the law has been violated. This is so because "[a]ctions by the Government to recover civil penalties under statutory provisions... historically have been viewed as one type of action in debt requiring trial by jury." n30

The assessment of the penalty is another matter. That involves "highly discretionary calculations that take into account multiple factors." These are "traditionally performed by judges." Hence "the trial court and not the jury should determine the amount of penalty, if any." n31

[3] Vicarious Liability

The 1984 predecessor of present Section 21A reached only those who actually tipped or traded. No fines could be exacted from the people and the firms who "controlled" those tipplers and tippees. n32 Therefore, corporate entities and employers were immune from the penalty unless they had themselves tipped or traded. n33

The 1988 legislation changed this. It does not, however, take a mechanistic *respondeat superior* approach. Rather, it seeks to stimulate employers to supervise vigorously by penalizing "those broker-dealers, investment advisers and others who failed to take appropriate steps to prevent... violations from occurring." n34

The general rule is still that "[n]o controlling person shall be subject to a penalty." n35 Penalties, however, can be imposed when the Commission "establishes" that:

- the controlling person "knew or recklessly disregarded the fact that such controlled person was likely to engage in the act or acts constituting the violation and failed to take appropriate steps to prevent such act or acts before they occurred;" n36 or
- the controlling person "knowingly or recklessly failed" to establish, maintain, or enforce policies and procedures reasonably designed to prevent the misuse of material non-public information. n37

Note that the controlling person's fine may be much higher than that of the trader or tipper whom he or she controlled. That is so because the primary violator's fine can in no event "exceed three times the profit gained or loss avoided." n38 The controlling person's fine, on the other hand, may be that or it may be \$1 million, whichever is more. n39

However, there is a special rule when the controlled person is a non-trading tipper. In that situation, his or her employer n40 is not responsible for the gains of an "endless chain" of tippees. n41 The employer is responsible only for "the profit gained or loss avoided" by the person or persons to whom the controlled person directed such communication. n42 Even then, however, the million dollar ceiling, which is unrelated to the pecuniary aspects of the particular situation, could haunt the employer in an egregious case.

[4] Whistleblower Protections and Rewards

Previously, people who supplied information that led to the imposition of a penalty on a wrongdoer could receive a portion of the fine imposed. n43 The bounty-hunter's portion, however, could not exceed 10% of the amount recovered, n44 and there was no "right" to it because the questions of whether to pay, whom to pay, and how much to pay "shall be in the sole discretion of the Commission." n45 The Commission's determinations were "final and not subject to judicial review." n46 In 1989, the Commission promulgated rules that set forth the procedures regarding applications for bounty awards. n47 The rules provided that applications for bounty payments must be filed with the Commission within 180 days after the court enters the order requiring an insider trader to pay a penalty. n48 If the application was the communication in which the bounty hunter seeks to inform the Commission of insider trading activity, the application could have been anonymous. Should the bounty hunter have wished to collect the reward after the proceeding, he or she would have had to amend the bounty application, setting forth sufficient information to prove that he or she was the original informant. n49

The *Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010* expanded whistleblower rewards and protections and thereby provided the SEC with another tool to facilitate investigations of securities violations. *Dodd-Frank* contains provisions that allow whistleblowers who report securities violations to recover a percentage of any settlement or sanction. Under the law, the SEC is required to give a whistleblower who provides original information leading to civil enforcement or criminal prosecution between 10 % and 30% of any sanction imposed, so long as the sanction collected exceeds \$1 million. n50 (Under the old law, whistleblower rewards were capped at 10%

of penalties enforced and limited to the insider-trading context.) The size of the reward will turn on the significance of the information and the level of cooperation provided by the individual. n51 Under the Act, other prosecuting agencies may be rewarded, including the DOJ or foreign regulators, based the usefulness of their original information. n52 The SEC has 270 days from enactment, until April 17, 2011, to prescribe rules implementing the new whistleblower protections and award program. n53 It is unclear how this additional bounty will affect the number of tips to the SEC or the number of enforcement actions ultimately brought.

Furthermore, the *Restoring American Financial Stability Act of 2010* provides enhanced whistleblower protections including an express private right of action for whistleblowers whose employers retaliate against them. n54 Additionally, the Act modifies whistleblower protections under *Sarbanes-Oxley* by extending the statute of limitations for whistleblower claims from 90 days to 180 days, forbidding the waiver of any rights or remedies provided to whistleblowers, and subjecting subsidiaries and affiliates that are consolidated with public companies for accounting purposes to whistleblower provisions. n55

[5] Employers' Supervisory Responsibilities

Section 15(f) of the Exchange Act and Section 204A of the Investment Advisers Act require registered broker-dealers and investment advisers to "establish, maintain, and enforce written policies and procedures reasonably designed... to prevent the misuse... of material nonpublic information." Both sections give the Commission broad rulemaking authority "to require specific policies or procedures." Although the Commission has not yet done so, these statutory provisions are still the "law" and must be complied with, whether or not the Commission elects to issue rules in this area. The legislative history states that Congress expects "that a firm's supervisory system would include, at a minimum, employment policies... requiring personnel to conduct their securities trading through in-house accounts or requiring that any trading in outside accounts be reported expeditiously to the employing firm." Reference was also made to the desirability of:

- restrictions on access to files likely to contain nonpublic information;
- continuing education programs concerning insider trading;
- restricting or monitoring trading in securities [about] which the firm's employees possess nonpublic information; and
- the need for vigorous monitoring and reviewing trading for the account of the firm or of individuals.

n56

[6] Private Rights of Action

The 1988 Act created an express private right of action against illicit inside traders. That right, under Section 20A of the Exchange Act, inures to the benefit of those who traded "contemporaneously" with the insider on the side opposite to him. At first blush, the need for this section seems obscure since contemporaneous traders have long had an implied right of action in these circumstances. n57

However, the courts have refused to permit contemporaneous traders to recover against those who acquired nonpublic information in a legitimate way and there after misappropriated it to enrich themselves. They have seen no breach of duty to the investing public in that situation. The leading case is *Moss v. Morgan Stanley*. n58 Congress disagrees with its holding, which it finds "inconsistent with the remedial purposes of the Exchange Act." n59 Accordingly, Section 20A is "specifically intended to overturn court cases which have precluded recovery... upon the misappropriation theory." n60

Contemporaneous traders who wish to bring a claim under Section 20A (or Section 10(b)) must adhere to the Fed. R. Civ. P. 9(b) requirement that fraud must be pled with particularity.

That no express right of action was given persons other than contemporaneous traders does not indicate hostility to such claims. On the contrary, the 1988 House Committee report expresses great sympathy for them. n61 However, Congress thought it best "to avoid creating an express private cause of action which might have the unintended effect of freezing the law or in any way restricting the potential rights of action which have been implied by the courts in this area." n62

Finally, claims under Section 20A cannot be predicated on *respondeat superior*. n63 In addition, damages cannot "exceed the profit gained or loss avoided in the transaction or transactions that are the subject of the violation." n64

FOOTNOTES:

(n1)Footnote 1. 98 Stat. 1264. That statute also made other enforcement-related changes. These amended Section 32 of the Exchange Act to increase the maximum criminal fine for a violation of the securities laws from \$10,000 to \$100,000, extended the Commission's power to require corrections under Section 15(c)(4) of the statute (see § 9.10[3] *supra*) to tender offers and proxy statements, and made violations of the Commodity Exchange Act an express ground for SEC disciplinary action against broker-dealers and their associated persons.

(n2)Footnote 2. Public Law 100-704, signed by the President on November 19, 1988. Like the 1984 statute, this statute is not limited to insider trading. Criminal penalties under Section 32 of the Exchange Act, which had been raised in 1984, were further increased. The maximum jail term for a violation of the securities laws is now 10 years, the maximum criminal fine for individuals has been raised from \$100,000 to \$1 million, and the maximum criminal fine for non-natural persons is now \$2.5 million, as against a previous limit of \$500,000. 15 U.S.C. § 78ff.

(n3)Footnote 3. 17 C.F.R. § 240.10b-5.

(n4)Footnote 4. Analogous provisions in Section 17(a) of the Securities Act, Section 14(e) of the Exchange Act which deals with tender offers, as well as Section 206 of the Investment Advisers Act are also invoked on occasion.

(n5)Footnote 5. The Supreme Court has set out two separate theories of liability under Section 10(b). Under the classical theory, an insider who buys or sells securities on the basis of non-public information violates *Rule 10b-5*. See *Dirks v. SEC*, 463 U.S. 646 (1983); *Chiarella v. United States*, 445 U.S. 222 (1980). Under the misappropriation theory, an individual who misappropriates material nonpublic information by breaching a duty arising out of a relationship of trust and confidence and uses that information in a securities transaction, regardless of whether he was an insider and owed any duties to the shareholders of the traded stock. *U.S. v. O'Hagan*, 521 U.S. 642 (1997).

(n6)Footnote 6. H. R. Rep. No. 910, 100th Cong., 2d Sess. (1988) (hereinafter cited as "1988 House Report") at 11. The Committee also observed that "the legal principles governing insider trading cases are well-established and widely-known."

(n7)Footnote 7. *Id.*

(n8)Footnote 8. On the patent ineffectiveness of mere disgorgement, see *SEC v. Randolph*, 564 F. Supp. 137 (N.D. Cal. 1983), *rev'd on other grounds*, 736 F.2d 525 (1984): "An insider can trade on nonpublic information secure in the knowledge that if he is caught he need only restore his illicitly acquired proceeds."

(n9)Footnote 9. Section 21A was added by the 1988 statute. It replaced the now-repealed Section 21(d)(2), enacted in 1984 which had initially introduced the civil fine. Section 21A is codified at 15 U.S.C. § 78u-1.

(n10)Footnote 10. As previously discussed, under the Fair Funds provisions of Sarbanes-Oxley, the S.E.C. may, at its discretion, distribute monies collected through disgorgement and fines to victims of the securities violation.

(n11)Footnote 11. See *SEC v. Texas Gulf Sulphur Co.*, 446 F.2d 1301 (2d Cir.) , cert. denied, 404 U.S. 1005 (1971) ; *SEC v. Shapiro*, 494 F.2d 1301 (2d Cir. 1974) ; *SEC v. MacDonald*, 699 F.2d 47 (1st Cir. 1983) (en banc).

MacDonald is an important authority on the measure of damages in disgorgement. It bases the damages on the price of the security "a reasonable time after public dissemination of the... information." 699 F.2d at 52 . The Commission's argument for a harsher rule seizing the insider's total profit was rejected.

Congress has also rejected it. Committee reports cite *MacDonald* with approval and state that the penalty is to be computed in accordance with its teaching. 1988 House Report at 20. In addition, Section 21A(f) expressly provides that the fine is to be "measured by the trading price of the security a reasonable period after public dissemination of the information."

In *United States v. Mooney*, 425 F.3d 1093 (8th Cir. 2005) , the Court of Appeals for the Eighth Circuit declined to extend MacDonald's market-absorption theory, based on the loss of the victim, in the criminal securities law context. *Mooney*, instead, held that the proper metric to determine punishment is the gain to the culprit. *Id.* at 1101 .

There is some disagreement concerning the issue of whether the expenses incurred in perpetrating securities fraud, such as brokers fees, should be deducted from the amount to be disgorged. Compare *SEC v. Thomas James Assocs., Inc.*, 738 F. Supp. 88, 94 (W.D.N.Y. 1990) (Court may consider sums paid to effect a fraudulent transaction) and *Litton Indus. Inc. v. Lehman Bros. Kuhn Loeb, Inc.*, 734 F. Supp. 1071, 1077 (S.D.N.Y. 1990) , rev'd on other grounds, 967 F.2d 742 (2d Cir. 1992) (permitting offset for expenses and costs), with *SEC v. Great Lakes Equities Co.*, 775 F. Supp. 211, 215 n. 22 (E.D. Mich. 1991) (offset for overhead and other expenses incurred in perpetrating fraud not warranted) and *SEC v. Dimensional Entertainment Corp.*, 493 F. Supp. 1270, 1283 (S.D.N.Y. 1980) (expenses incurred in perpetrating fraud not deducted from amount to be disgorged).

(n12)Footnote 12. See 1988 House Report at 14: "[T]he scandals of the last two years demand a legislative response." *Id.* at 11 : "Despite the stiffer penalties enacted by Congress in 1984, the last few years have seen a dramatic increase in insider trading cases, including cases against some of the most prominent officials in Wall Street investment banking firms."

(n13)Footnote 13. Criminal fines could add to this. Those could be as much as \$1 million for each wrongful transaction. For a non-natural person, that million dollar figure rises to \$2.5 million. Defendants may be required to disgorge the profits made through insider trading as well as pay a criminal fine, "to make sure that wrongdoers will not profit from their wrong doing." *SEC v. Shah*, 1993 U.S. Dist. LEXIS 10347 at 11 , quoting *SEC v. Tome*, 833 F.2d 1086, 1096 (2d Cir. 1987) .

(n14)Footnote 14. The statute says that "The amount of the penalty... shall be determined by the court in light of the facts and circumstances," without supplying any standards or criteria. Section 21A(a)(2).

(n15)Footnote 15. See H. R. Rep. No. 355, 98th Cong., 1st Sess. (1983): "In appropriate cases, the Commission might seek a penalty less than three times the amount of profit gained or loss avoided." (Emphasis added.) The quotation is from the Commission's memorandum in support of the bill that became the Insider Trading Sanctions Act.

(n16)Footnote 16. However, persons who aid and abet "in a manner other than by communicating material nonpublic information" are not subject to the penalty. Former Section 21(d)(2)(B) so provided. The deletion of that provision in 1988 did not change the rule. See 1988 House Report at 19 n.15.

(n17)Footnote 17. 511 U.S. 164 (1994) .

(n18)Footnote 18. 15 U.S.C. § 78t.

(n19)Footnote 19. 128 S. Ct. 761, 763 (2008) .

(n20)Footnote 20. *U.S. v. Libera*, 989 F.2d 596 (2d Cir. 1993) .

(n21)Footnote 21. See *SEC v. Gaffney*, [1984-85 Transfer Binder] Fed. Sec. L. Rep. (CCH) § 92,002 (S.D.N.Y. 1985) (civil penalty imposed on tipper who did not trade and also on his tippees who did trade).

(n22)Footnote 22. See Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 § 929M.

(n23)Footnote 23. *SEC v. Clark*, 915 F.2d 439, 453 (9th Cir. 1990) (citing *Dirks*, 463 U.S. at 664).

(n24)Footnote 24. Section 21A(a)(1). Section 21A(c) gives the Commission rule-making authority to exempt other classes of persons or transactions.

(n25)Footnote 25. The 1984 and 1988 legislation was a response to the insider trading scandals of the mid- and late-1980s, all of which involved insider trading in markets.

(n26)Footnote 26. See Langevoort, *The Insider Trading Sanctions Act of 1984 and its Effect on Existing Law*, 37 *Vand. L. Rev.* 1273, 1279 n.31 (1984) (in face-to-face transactions defrauded people have a clear incentive to sue, and in public offerings "the strict disclosure requirements imposed under the Securities Act will presumably prevent most forms of abuse").

(n27)Footnote 27. Section 21A(f).

(n28)Footnote 28. Section 21A(d)(5). None of the other statutory provisions authorizing the Commission to seek civil relief provides for a limitation period. Hence it has been held that under Section 21A, lapse of time does not bar the Commission from seeking an injunction and that this is so even when the Commission asks for disgorgement. *SEC v. O'Hagan*, 793 F. Supp. 218, 220 (D. Minn. 1992) . However, the passage of time has led courts to deem injunctive relief inappropriate. See, e.g., *SEC v. Monarch Fund*, 608 F.2d 938, 943 (2d Cir. 1979) (dictum, since court found no violation); *SEC v. Parklane Hosiery Co.*, 422 F. Supp. 477, 486 (S.D.N.Y. 1976) , *aff'd*, 558 F.2d 1083 (2d Cir. 1977) ; *SEC v. National Student Marketing Corp.*, 457 F. Supp. 682, 716 (D.D.C. 1978) . With respect to administrative proceedings, a laches contention failed in *Irish v. SEC*, 367 F.2d 637 (9th Cir. 1966) , *cert. denied*, 386 U.S. 911 (1967) (respondent not prejudiced by delay).

(n29)Footnote 29. 15 U.S.C. § 78u-1.

(n30)Footnote 30. *Tull v. United States*, 481 U.S. 412, 418-419 (1987) (unanimous holding in an action for civil penalties under the Clean Water Act). The Court divided on the question of who should fix the fine. Two justices thought the *Seventh Amendment* was applicable to the remedy as well as to the right. 481 U.S. at 427-428 .

(n31)Footnote 31. Former Section 21(d)(2)(B) provided that: "No person shall be subject to a sanction under... this paragraph solely because that person aided and abetted a transaction... in a manner other than by communicating material nonpublic information. Section 20(a) of this title [which imposes liability on those who control others] shall not apply to an action brought under this paragraph. No person shall be liable under this paragraph solely by reason of employing another person who is liable under this paragraph."

(n32)Footnote 32. See 1988 House Report at 17.

(n33)Footnote 33. *Id.*

(n34)Footnote 34. Section § 21A(b)(1); see also Section 21A(b)(2): "No person shall be subject to a penalty solely [emphasis added] by reason of employing another person who is subject to a penalty."

(n35)Footnote 35. Exch. Act § 21A(b)(1)(A).

(n36)Footnote 36. Exch. Act § 21A(b)(1)(B).

(n37)Footnote 37. Exch. Act § 21A(a)(2).

(n38)Footnote 38. Exch. Act § 21A(a)(3).

(n39)Footnote 39. The relationship between the controlling and the controlled person is generally that of employer and employee. However, "control" is a complex securities law concept that is not limited to the employment context. See the Commission's Rule 405 under the Securities Act of 1933, *17 C.F.R. § 230.405*. See also House Report at 17: "'Controlling person' may include... any person with power to influence or control... another... The Committee expects the Commission and the courts to continue to interpret the term 'controlling person' on a case-by-case basis according to the actual circumstances." (Citations omitted.)

(n40)Footnote 40. *Id.* at 19 .

(n41)Footnote 41. Exch. Act § 21A(a)(3), second sentence.

(n42)Footnote 42. Exch. Act § 21A(e), which provides that "no payment shall be made to any member, officer, or employee of any appropriate regulatory agency, the Department of Justice or a self-regulatory organization."

What about people in the securities business? Congress was ambivalent about them. The 1988 House Report says (at page 20): "[T]he Committee expects that bounty payments would not be made to supervisory and compliance officers of securities firms in situations in which a reward would undermine substantially the compliance programs within such firms. The Committee's adoption of an affirmative statutory obligation to supervise employees indicates the importance the Committee places on the internal compliance programs of these firms. See § 9.12[5] *infra*. The Committee is sympathetic to the concern that bounty payments, if indiscriminately awarded, would substantially undermine the authority of broker-dealer firms to carry out their supervisory duties to detect and prevent insider trading. On the other hand, there may be circumstances in which it would be appropriate to award a bounty to a broker-dealer employee. Thus, the bill gives the Commission discretion to award bounties to broker-dealer firms in appropriate cases."

(n43)Footnote 43. Exch. Act § 21A(e).

(n44)Footnote 44. Exch. Act § 21A(e).

(n45)Footnote 45. The 1988 Committee report explains (at page 22) that "The purpose of this provision is to assist the Commission and the Department of Justice in developing better information in their investigation and prosecution of insider trading cases."

(n46)Footnote 46. See *17 C.F.R. §§ 201.61-201.68*

CHAPTER 9 SEC Enforcement--Legal Considerations

2-9 Federal Securities Exchange Act of 1934 § 9.13

AUTHOR: Theodore Altman and Joshua S. Sohn

§ 9.13 Certification Requirements Under Sarbanes-Oxley Act

[1] Generally

In response to a wave of corporate scandals in 2001 and an increased demand for accountability in corporate governance, Congress enacted Sections 302 and 906 of the Sarbanes-Oxley Act of 2002. n1 Sections 302 and 906 require financial certifications by chief executive officers and impose civil and criminal penalties for false certifications. n2 Section 302 and 906 certifications are applicable to all types of issuers that file reports under Section 13(a) or 15(d) of the Exchange Act, including foreign private issuers, banks and savings associations, issuers of asset-backed securities, small business issuers, and registered investment companies.

[2] Applicability and Requirements

Section 302 requires an issuer's principal executive and financial officers to certify information addressing disclosure and internal controls procedures. n3 Section 302 requires the principal executive and financial officers to certify in each quarterly and annual report filed or submitted by the issuer to the SEC under section 13(a) or 15(d) of the 1934 Act that he or she has reviewed the report, and that based on his or her knowledge, the report and financial statements do not contain any material misstatements or omissions. n4 Additionally, with regards to disclosure and internal controls and procedures, the principal executive and financial officers must certify that they are responsible for establishing these controls and procedures and that they have designed them to ensure that financial statements prepared for external purposes are reliable and comply with Generally Accepted Accounting Principles ("GAAP"). Further, the principal executive and financial officers must certify that they have disclosed to the issuer's auditors all significant deficiencies in the design or operation of internal controls, including any fraud that may involve management or other employees who play a significant role in designing or implementing the issuer's internal controls. n5 The certification requirement of Section 302 applies to annual reports on Forms 10-K, 10-KSB, 20-F and 40-F, as well as quarterly reports on Forms 10-Q and 10-QSB. Forms 6-K and 8-K, as opposed to quarterly or annual reports, are not covered by the certification requirement.

Similarly, Section 906 of the Sarbanes-Oxley Act requires that the Chief Executive Officer and Chief Financial Officer of an issuer "certify that the periodic reporting containing the financial statements fully complies with the requirements of section 13(a) or section 15(d) of the Exchange Act" n6 and that the information contained in the periodic reports

fairly presents, in all material respects, the financial condition and results of operations of the issuer. n7

[3] Liability and Penalties for Violations

Prior to the adoption of Section 302, officers of an issuer could be liable as signatories for the issuer's disclosures under Exchange Act liability provisions. Providing a false certification under Section 302, however, may also expose CEOs and CFOs to personal liability, including SEC enforcement actions and/or private actions for violations of federal securities laws.

Violations of Section 906 may result in criminal liability. Pursuant to Section 906, a CEO or CFO that certifies a financial statement knowing that it does not comply with the requirements under this provision may be fined up to \$1 million, imprisoned for up to ten years, or both. n8 An officer who "willfully" certifies any statement knowing that the statement does not comport with all the requirements in the section shall be fined up to \$5 million and imprisoned for a period not to exceed twenty years. n9 Although courts have not meaningfully explained the difference between the standards for these two penalties, the court in *United States v. Scrushy*, explained that to "willfully" certify a financial report requires an act that is volitional, intentional and not merely accidental. n10 As a result, the act cannot be deemed criminal unless it satisfies strict scienter requirements. n11

In addition, Section 304, widely referred to as the "claw back" provision, provides that if an issuer files an accounting restatement as a result of "material noncompliance" with financial reporting requirements under the federal securities laws, the CEO and CFO must make certain reimbursements to the issuer. n12 Specifically, they must "reimburse the issuer for--(1) any bonus or other incentive-based or equity-based compensation received by that person from the issuer during the 12-month period following the first public issuance or filing with the Commission (whichever first occurs) of the financial document embodying such financial reporting requirement; and (2) any profits realized from the sale of securities of the issuer during that 12-month period." n13 Section 304 essentially prevents chief financial officers and chief executive officers from profiting by selling company stock, or receiving company bonuses, while misleading the public and regulators about the actual financial health of the company.

While the SEC has the authority to enforce the provisions of Section 304, n14 several federal courts have concluded that no private right of action exists under Section 304 and companies may not assert this right in an action to recoup losses against a former CEO or CFO. n15 In *Kogan v. Robinson* the court explicitly stated that "Congressional intent to grant such a remedy is not evident in the text and structure of the statute, particularly where Congress has explicitly created a private remedy in a neighboring provision but did not do so in Section 304." n16 The Ninth Circuit in *In re Digimarc* agreed. n17

In *In re Digimarc* a derivative plaintiff filed suit alleging that current and former officers and directors breached their fiduciary duties by issuing misleading financial statements and misrepresenting business prospects of the corporation in violation of Section 304. n18 After comparing Section 304 to other sections of the Sarbanes-Oxley Act that explicitly provide for a private right of action, the court ruled that Section 304 is devoid of any similar language relating to the availability of an action to enforce its mandate or a forum in which to do so. n19 The court determined that Section 304 does not provide an implied right of action because it could not "find in Congress' silence in section 304 an intent to create a private right of action where it was not silent in creating such a right to similar equitable remedies in other sections of the same Act." n20

CHAPTER 9 SEC Enforcement--Legal Considerations

2-9 Federal Securities Exchange Act of 1934 § 9.14

AUTHOR: Theodore Altman and Joshua S. Sohn

§ 9.14 SEC Discovery Obligations in Enforcement Actions

[1] 30(b)(6) Depositions

Unlike in a civil litigation between private parties, in a SEC enforcement action, the defendant is typically unable to depose a SEC representative to obtain information relating to the SEC's investigation and factual basis for bringing the enforcement action. Courts have denied defendants' attempts to depose a SEC representative under Federal Rule of Civil Procedure 30(b)(6) on the basis that such a deposition is equivalent to deposing opposing counsel, and therefore the information sought is privileged. n1

In *SEC v. Buntrock* the SEC commenced an action against an officer of a corporation for violating federal securities laws by allegedly manipulating the corporation's stock price. n2 In response, the officer served the SEC with a Rule 30(b)(6) notice of deposition requiring the SEC to identify and produce an individual who could testify to the subject matters discussed in the notice. n3 The court quashed the notice of deposition, holding that the notice impermissibly "seeks to invade the SEC's attorney work product." n4 Similarly, in *SEC v. Rosenfeld* the court granted a protective order pursuant to Rule 26(c) to shield SEC attorney work product that a defendant was "impermissibly" seeking through a Rule 30(b)(6) notice of deposition. n5 The *Rosenfeld* court ruled that deposing an SEC official who maintained the requisite knowledge under Rule 30(b)(6) would inevitably lead to the disclosure of the SEC attorneys' "preliminary positions and legal theories concerning the suspected conduct of defendant." n6

[2] E-Discovery Obligations

In contrast to the SEC's position vis-a-vis depositions, it is obligated to behave like a typical civil litigant in connection with document discovery. For example, the United States District Court for the Southern District of New York in *SEC v. Collins & Aikman Corp.*, held that the government is obligated, just like any litigant, to abide by the Federal Rules of Civil Procedure during the course of discovery--"[i]t is not entitled to special consideration concerning the scope of discovery, especially when it voluntarily initiates an action." n7 The Court rejected the government's attempt to "dump" 1.7 million documents on defendants--most of which were collected during the SEC's investigation and maintained in thirty-six separate databases--in response to defendant's discovery requests. n8 In the course of maintaining the documents, the SEC segregated them into 175 file folders correlating to specific factual contentions, but despite document requests seeking specific documents supporting certain factual allegations, did not produce them in the

manner they had been maintained. n9 The defendant objected to the production and sought the subsets that the SEC had already organized the documents into. n10

The court examined three primary issues surrounding the government's production of documents including whether:

(1) The government identifying responsive documents that have been organized by the producing party invades the protection accorded to attorney work-product. (2) Whether a government agency may unilaterally restrict the scope of its search based on an assertion of an 'undue burden' on limited public resources ... (3) Whether a government agency may unilaterally exclude its own e-mail from document production on the ground that most--but not all--will be privileged. n11

First, the court held that the production of a compilation of documents organized and selected by the SEC to support factual allegations in the complaint is not "core" work product. n12 Rather, the court ruled that the compilation of legal documents would only implicate work product concerns if it were organized by legal theory or strategy. n13 Therefore, "[p]ermitting a party to shield production of a compilation simply because an attorney makes the decision to *continue* to hold the documents in the same manner would result in impermissible gamesmanship and an unwarranted expansion of the work product doctrine." n14

Second, the *Collins* court rejected the government's contention that the SEC may unilaterally restrict the scope of its search based on an assertion of "undue burden" on limited public resources. n15 While a court may consider a party's resources, here, the court held that the defendant's requests were reasonable. n16 The 175 file folders prepared by SEC attorneys were not protected by the work product doctrine because "[i]t is patently inequitable to require a party to search ten million pages to find documents already identified by its adversary as supporting the allegations of a complaint." n17

Lastly, the court flatly rejected the SEC's blanket refusal to produce any incoming or outgoing emails on the basis that nearly all of the documents and email generated or received by the Commission would purportedly be "privileged, protected, or non-substantive." n18 The court stated that the SEC could not reasonably contend that the examination of a party's email in civil litigation is beyond the scope of its capability. Therefore, the court directed the parties to negotiate a reasonable search protocol and to apply the protocol to a segment of the SEC's email to determine whether relevant (non-privileged) material might be identified and produced. n19

CHAPTER 9 SEC Enforcement--Legal Considerations

2-9 Federal Securities Exchange Act of 1934 § 9.15

AUTHOR: Theodore Altman and Joshua S. Sohn

§ 9.15 Settlements and Consents

Though the Commission's enforcement program has contributed much to the annals of the law, a fully litigated SEC enforcement proceeding is the exception rather than the rule. The agency's administrative policies are reflected in the fact that most SEC cases are settled. Resources are allocated and budgets fashioned on the well-founded assumption that trial-type hearings will be relatively few. n1

High settlement rates enhance the effectiveness of the enforcement program by enabling the Commission to do more with less. Of course, those rates also show that defendants and respondents n2 generally find settlement advantageous. n3 Litigation against or before the Commission is expensive, time-consuming and often has adverse business effects. n4 It is also hazardous. Though the Commission and its staff are fallible and though some of the agency's cases are weaker than others, SEC enforcement proceedings in which complete vindication is totally certain are very rare. n5

To proceed without deviation on the premise that one's own case is among those rarities and to refuse to give an inch at any time is to pursue a high-risk strategy. People who contemplate that course should realize that even if they turn out to be right in the end, n6 they will have endured several blasts of adverse publicity on the road to ultimate triumph. n7 Moreover, that road can be quite long. A favorable decision in the district court or before one of the Commission's own administrative law judges is a good beginning, but the Commission and its staff are tenacious professional litigants. They appeal frequently, and their appeals are skillfully presented. n8

This propensity to appeal reflects considerations that transcend the particulars of the specific case. The Commission worries about "bad" precedent and does all it can to influence the direction of legal development. n9 Its adversaries seldom share these concerns. n10 Thus, they normally prefer livable settlements to long, expensive doctrinal battles. n11

Few insider trading cases would be treated in this fashion. However, accounting and financial disclosure questions about which it wishes to write freely with an eye to the future often lead the Commission to forego injunctive action in favor of an offer of settlement in an administrative proceeding under Section 15(c)(4) of the Exchange Act or, in some circumstances, an investigative report under Section 21(a) of that statute. n12 The Commission considers precedential the documents in which it writes at length about offers of settlement. It distinguishes such dispositions from

"nonadjudicative orders" that simply accept offers of settlement without discussion. n13

Settlement negotiations can begin at any time. n14 Many cases are settled by consenting to the institution of the proceeding and to its simultaneous disposition on agreed terms. The great advantage of this is that there is only one round of publicity instead of several. n15 It may also be possible to negotiate the language of the release in which the SEC describes the case. Another public-relations concern that can be addressed in a prefiling settlement is the venue of an injunctive action. Offerors occasionally ask the Commission to file its complaint in the District of Columbia or in the Southern District of New York rather than in their home districts where the effect will be more damaging.

Of course, these advantages are often outweighed by other factors that make hasty settlement inadvisable. n16 Whatever the stage at which they are reached, consent decrees in SEC injunctive actions n17 and consent orders in the agency's own administrative proceedings are as valid and as binding as those entered after trial. n18 Moreover, the Commission will not accept settlements in which the offeror insists on innocence. Its statement of policy about that reads:

The Commission has adopted the policy that in any civil lawsuit brought by it or in any administrative proceeding of an accusatory nature pending before it, it is important to avoid creating, or permitting to be created, an impression that a decree is being entered or a sanction imposed, when the conduct alleged did not, in fact, occur. Accordingly, it hereby announces its policy not to permit a defendant or respondent to consent to a judgment or order that imposes a sanction while denying the allegations in the complaint or order for proceedings. In this regard, the Commission believes that a refusal to admit the allegations is equivalent to a denial, unless the defendant or respondent states that he or she neither admits nor denies the allegations. n19

A related SEC policy not enshrined in the agency's rules but consistently followed insists that offers of settlement state that they are voluntary and have not been induced by threats or promises. Because of these policies, post-settlement second thoughts are generally unavailing.

By consenting to the court's judgment or the Commission's order without admitting or denying the agency's allegations and by stipulating that they do so "solely for purposes of this proceeding and any other proceeding brought by or on behalf of the Commission." n20

Of course, the Commission may insist on an administrative as well as an injunctive sanction. If so, every effort should be made to dispose of both proceedings at the same time, so that defendants and respondents avoid the collateral estoppel effects that findings made after trial can have in private litigation. n21 Moreover, SEC consent judgments have been held inadmissible in other proceedings because they involve neither admissions nor adjudications. n22

In administrative proceedings, settlements become final when the Commission accepts them. n23 However, the presentation of a consent judgment to the district court is a request for the exercise of judicial power. Hence, the court may require a showing in support of the settlement. n24 However, the only appellate decision on point holds the Commission's prosecutorial judgments entitled to great deference, n25 and such deference is uniformly given. n26

The settlement process relates only to civil proceedings that the Commission is empowered to institute. Hence, one cannot settle criminal matters with the Commission. n27 Authority and responsibility with respect to them "are vested in the Attorney General and representatives of the Department of Justice." n28

FOOTNOTES:

(n1)Footnote 1. In *SEC v. Clifton*, 700 F.2d 744, 748 (D.C. Cir. 1983), the Commission's counsel told the court at oral argument that over 90% of the agency's injunctive actions are settled. With respect to administrative proceedings in broker-dealer disciplinary cases, a study made in the 1970's found an 80% settlement rate. Thomforde, *Negotiating Administrative Settlements in SEC Broker-Dealer Disciplinary Proceedings*, 52 N.Y.U. L. Rev. 237 (1977) (1973-1975

data).

(n2)Footnote 2. Those against whom administrative proceedings are brought are called "respondents" rather than "defendants."

(n3)Footnote 3. *SEC v. Clifton*, 700 F.2d 744 (D.C. Cir. 1983) , discusses the factors involved.

(n4)Footnote 4. Its pendency may, for example, impede financing, trigger vexatious private litigation, and create difficulties with other government agencies.

(n5)Footnote 5. These tend to be winnowed out at the investigative stage. Internal staff review, persuasive presentations by counsel at an early point, Wells submissions (see § 9.07 *supra*), and the Commission's reactions to staff recommendations have a filtering effect.

(n6)Footnote 6. Litigation being what it is and the Commission's cases being what they are, it is seldom possible to be totally sanguine on this score.

(n7)Footnote 7. With the exception of those administrative proceedings that are initiated privately, the Commission invariably broadcasts the initiation of the case as well as each significant subsequent development therein in its Litigation Releases.

(n8)Footnote 8. See the description of the General Counsel's Office in § 9.01 *supra* . Although the General Counsel's office does not normally participate in appeals from administrative law judges' initial decisions in administrative proceedings, the Division of Enforcement sometimes asks for its assistance. Counsel should not underestimate the prowess of the Division's staff.

(n9)Footnote 9. Hence it often files *amicus curiae* briefs in private lawsuits that present questions it deems significant to its mission. Counsel involved in such litigation who think the Commission likely to sympathize with their cause generally try to obtain its support. Of course, this does not assure success. See *International Brotherhood of Teamsters v. Daniel*, 439 U.S. 551, 566 n.20 (1979) , and cases cited therein: "On a number of occasions in recent years this Court has found it necessary to reject the SEC's interpretation of various provisions of the Securities Acts." However, the Commission's well-crafted, scholarly briefs command respect in the appellate forum. *Amicus* filings in trial courts are rare. But they have been made on occasion when requested by the court.

(n10)Footnote 10. Or, as one high-ranking staff member used to say, "[t]he Commission is interested in 'principle.' The other side is interested in 'principal.' "

(n11)Footnote 11. When novel questions are involved, respondents in administrative proceedings can sometimes settle on favorable terms if they give the Commission an opportunity to make an appeal-proof statement of its views and to warn that future cases of the same type will be viewed seriously. Much law has been made that way. See, e.g., *In re Cady, Roberts & Company*, 40 SEC 907 (1961) (seminal Commission opinion in a case of first impression about impersonal insider trading accepting an offer of settlement under which respondent agreed to a 20-day suspension from the New York Stock Exchange); see also *In re Certain Trading in the Common Stock of Faberge, Inc.*, 45 SEC 249, [1973Transfer Binder] Fed. Sec. L. Rep. (CCH) P 79,378 (1973), another early insider trading case in which the Commission accepted settlement offers that imposed no sanctions and conceded only that the offerors' conduct was "censurable" but in which it also took "this opportunity to emphasize the gravity with which we view... the misuse of material non-public information to the detriment of the investing public" and to write at length on that theme.

(n12)Footnote 12. See §§ 9.10[3] and 9.10[7] *supra* .

(n13)Footnote 13. *In re Carl L. Shipley*, 45 SEC 589, 591-592 n.6 (1974) .

(n14)Footnote 14. An internal Commission guideline reprinted in *SEC v. National Student Marketing Corp.*, 68 F.R.D. 157, 165-166 (D.D.C. 1975), *aff'd*, 538 F.2d 404 (1976), *cert. denied sub nom. White & Case v. SEC*, 429 U.S. 1073 (1977) directs the staff to refrain from negotiating settlements before the Commission authorizes the initiation of proceedings. However, the staff is free to ask the Commission for permission to negotiate at an early point in a particular case. And it is often well for counsel to suggest to the staff that it seeks such authority. Prospective defendants and respondents can also make unsolicited offers of settlement, which the staff transmits to the Commission together with its recommendations. Moreover, the Commission's authorization of the proceeding frees the staff to negotiate. True, the guideline states that "the complaint should be filed forthwith." But that directive is applied flexibly to permit pre-filing settlement discussions in appropriate cases.

(n15)Footnote 15. *See* n.9 *supra*.

(n16)Footnote 16. Like other litigants, the Division of Enforcement sometimes reappraises its initial assessment of a matter. On the other hand, the staff may raise its demands after it has made a substantial investment in a case.

(n17)Footnote 17. Trial judges sometimes have much to do with these. The judge's reaction at a settlement conference may induce the staff to reduce its demands by dropping some defendants or by accepting a self-dissolving injunction for a limited term. Counsel should also be aware of the fact that the Commission occasionally accepts so-called "final orders" in lieu of injunctions. These orders recite the defendant's undertakings, direct the defendant to comply with them, can be enforced in contempt proceedings and must be discussed. So the Commission attains its basic enforcement goal while the consenting defendant is not stigmatized by an injunction. Moreover an offer of settlement can preclude the initiation of parallel administrative proceedings.

(n18)Footnote 18. *SEC v. Dennett*, 429 F.2d 1303, 1304 (10th Cir. 1970) ("The decree is reviewable where it is claimed that there was in fact no consent, but if the record demonstrates that there was consent the decree is affirmed without consideration of the merits of the case."); *see also SEC v. Clifton*, 700 F.2d 744, 748 (D.C. Cir. 1983). In *SEC v. Bausch & Lomb, Inc.*, 82 F.R.D. 50 (S.D.N.Y. 1979), defendants who had consented to a judgment of permanent injunction moved for vacation after the non-settling defendants prevailed at trial. *See SEC v. Bausch & Lomb, Inc.*, 420 F. Supp. 1226 (S.D.N.Y. 1976), *aff'd*, 565 F.2d 8 (2d Cir. 1977). The application was denied. These cases involved consent injunctions. But their reasoning is also applicable to administrative orders entered on consent. *But see S.E.C. v. Pentagon Capital Mgmt.*, 2010 U.S. Dist. LEXIS 25092 (S.D.N.Y. Mar. 17, 2010) (admitting into evidence an Order of the S.E.C. making findings of facts discovered pursuant to its investigative authority and not part of the actual compromise negotiations where the Order is not being offered to establish liability).

(n19)Footnote 19. 17 C.F.R. § 202.5(e).

(n20)Footnote 20. This is the standard wording used by the SEC. Occasionally, however, the consent is limited to the particular proceeding. When an injunction is consented to on condition that no administrative proceedings will be based thereon, the narrower formulation is, of course, advisable. The judgment may state that it cannot serve as the predicate for an administrative proceeding, which makes this distinction moot.

(n21)Footnote 21. With respect to injunctions, *see Parklane Hosiery Co. v. Shore*, 439 U.S. 322 (1979), discussed in § 9.11[1] *supra*. Adverse determinations in administrative proceedings can also have preclusive effects. *See United States v. Utah Construction & Mining Co.*, 384 U.S. 394, 422 (1966). For comprehensive analysis, *see* Kerr and Stillman, *Collateral Estoppel Implications of SEC Adjudications*, 42 *Bus. Law.* 941 (1987).

(n22)Footnote 22. *See Lipsky v. Commonwealth United Corp.*, 551 F.2d 887, 893 (2d Cir. 1976) (Allegations about an SEC consent injunction stricken from a private plaintiff's pleading because "a consent judgment is not the result of an adjudication of any of the issues"); *United States v. Cook*, 557 F.2d 1149 (5th Cir. 1977), *cert. denied*, 434 U.S. 1020 (1978) (criminal conviction reversed because prosecutor was permitted to point to an SEC consent injunction as evidence of guilt).

(n23)Footnote 23. *See* § 9.10[8][d] *supra*. Save for the fact that there is no occasion for an SEC order, the Commission's internal decisional process with respect to offers of settlement in injunctive proceedings is the same as the one described in the earlier section with regard to administrative proceedings.

(n24)Footnote 24. Sometimes it does so because of concern about possible overreaching by the Commission. For example, in *SEC v. Nashwinter*, 559 F. Supp. 33 (E.D. Va. 1983) , the court refused to enter a consent injunction against a pro se settling defendant on the Commission's papers. It asked for an evidentiary showing of both the violation and the reasonable likelihood of future violation.

(n25)Footnote 25. *SEC v. Randolph*, 564 F. Supp. 137 (N.D. Cal. 1983) , *rev'd on other grounds*, 736 F.2d 525, 529 (9th Cir. 1984) ("The initial determination whether the consent decree is in the public interest is best left to the SEC and its decision deserves our deference"). *Randolph* was an insider trading case that arose prior to the enactment of the Insider Trading Sanctions Act so that the Commission's remedies were limited to injunctive relief plus simple disgorgement. Disturbed by the inadequacy of that relief and by the fact that the Commission had waived interest, the district court refused to enter the consent judgment. It saw no case or controversy and viewed the defendants' undertaking as a mere contract. *Id.* The Court of Appeals held this reasoning erroneous and reversed "with directions to enter the consent decree." The opinion pointed out that "The SEC's resources are limited, and that is why it often uses consent decrees as a means of enforcement."

(n26)Footnote 26. The broad social consequences that flow from consensual resolutions in such fields as antitrust and civil rights are lacking. Courts know this. Accordingly, SEC consent decrees are seldom subjected to strict judicial scrutiny. *See* Kronstein, *SEC Settlements--Is There a Need for a Judicial Rubber Stamp?*, 11 Sec. Reg. L. J. 284 (1983).

(n27)Footnote 27. *See* the discussion of immunity in § 9.09[4] *supra* .

CHAPTER 9 SEC Enforcement--Legal Considerations

2-9 Federal Securities Exchange Act of 1934 § 9.16

AUTHOR: Theodore Altman and Joshua S. Sohn

§ 9.16 Criminal References

[1] Statutory Authority

Any willful violation of the federal securities laws or of any rule or regulation thereunder or any willful false filing is a crime. n1 The federal securities laws authorize the SEC to transmit evidence to the Attorney General who may, in his or her discretion, institute the necessary proceedings. n2

[2] Formal Criminal References

Formal criminal references are written reports from the SEC to the Department of Justice. n3 Prepared by the SEC staff, they include a recital of facts and underlying evidence, a discussion of the theory of the case and the applicable law, a list of witnesses, and a list of persons recommended for indictment.

[3] Informal Criminal References

SEC staff members notify the office of the United States Attorney of investigations that may be of interest to the Department of Justice. These referrals have been held not to constitute a violation of due process. n4 The SEC is under no obligation to inform the subject of an investigation that the character of the investigation has changed from civil to criminal. n5 However, the SEC may not mislead a person respecting its intent to refer a matter for criminal prosecution. n6

FOOTNOTES:

(n1)Footnote 1. Section 24 of the Securities Act; Section 32(a) of the Exchange Act; Section 49 of the Investment Company Act; Sections 207 and 217 of the Investment Advisers Act.

(n2)Footnote 2. Section 20(b) of the Securities Act; Section 21(e) of the Exchange Act; Section 42(e) of the Investment Company Act; Section 209(e) of the Investment Advisers Act.

(n3)Footnote 3. The "close working relationship between the Justice Department and the SEC" is well known to Congress and to the courts. *See United States v. Fields*, 592 F.2d 638, 646 n.19 (2d Cir. 1978) , *cert. denied*, 442 U.S.

917 (1979) (*quoting* H. R. Rep. No. 95-650, 95th Cong., 1st Sess. 10 (1977)). But this does not mean that every criminal prosecution under the securities laws is SEC-inspired. The Justice Department sometimes develops its own securities cases. *See, e.g., United States v. Matthews*, 787 F.2d 38, 45 (2d Cir. 1986) . "[T]he United States Attorney's office proceeded on its own. In fact, both the then local SEC Administrator and a former SEC General Counsel publicly questioned the wisdom of trying Matthews on the securities count... The results of proceeding without the benefit of SEC expertise are evident... ." (citation and footnote omitted).

(n4)Footnote 4. *SEC v. Dresser Industries, Inc.*, 628 F.2d 1368 (D.C. Cir. 1980) , *cert. denied*, 449 U.S. 993 (1980) ; *United States v. Fields*, 592 F.2d 638 (2d Cir.1978) , *cert. denied*, 442 U.S. 917 (1979) .

(n5)Footnote 5. *United States v. Posada Carrilles*, 541 F.3d 344, 354 (5th Cir. 2008) (noting that it is a "well-settled rule that the government may conduct simultaneous civil and criminal proceedings without violating the due process clause or otherwise departing from proper standards in administering justice"); *United States v. Light*, 394 F.2d 908 (2d Cir. 1968) .

(n6)Footnote 6. *SEC v. ESM Gov't Sec., Inc.*, 645 F.2d 310, 311-12, 317 (5th Cir. Unit B 1981) (holding that government deception is grounds for denying an administrative subpoena where an SEC investigator failed to disclose the existence of an investigation and instead obtained access to the company's records under the guise of obtaining "education" for himself); *United States v. Fields*, 592 F.2d 638 (2d Cir. 1978) , *cert. denied*, 442 U.S. 917 (1979) ; *United States v. Rodman*, 519 F.2d 1058 (1st Cir. 1975) .

CHAPTER 9 SEC Enforcement--Legal Considerations

2-9 Federal Securities Exchange Act of 1934 § 9.17

AUTHOR: Theodore Altman and Joshua S. Sohn

§ 9.17 Freedom of Information Act

[1] Purpose and Effect

Enacted in 1967 and amended in 1975 to broaden its coverage and narrow its exemptions, the Freedom of Information Act ("FOIA") n1 seeks to compel each federal agency to make available promptly to any person (rather than only to a party to a litigation) records that he or she has identified and requested in accordance with the agency's procedural rules. The FOIA requires an agency within 10 business days after a request for records has been received to make an initial decision whether to comply with that request. n2

The Commission's Public Information Officer, the director of a staff division, or an office head whose zone or responsibility relates to the requested records is given authority to determine whether a record is required to be made available. n3

If the decision has been made not to make a record available, an administrative appeal of that decision must be decided by the Commission within 20 days after receipt of the appeal. n4 If, on appeal, the Commission upholds the denial of a request for information, the Commission must so notify the person making the request and must advise him of the provisions of the FOIA n5 providing for judicial review of the Commission's determination. n6

[2] Exemptions

Exemptions from the FOIA n7 include:

- materials classified under an executive order for reasons of defense or foreign policy;
- materials related solely to the internal personnel rules and practices of an agency; n8
- materials specifically exempted from disclosure by statute; n9
- trade secrets; n10

- inter or intra agency memoranda; n11
- personnel and medical files;
- investigatory records compiled for law enforcement purposes, but only to the extent that the production of such records would: interfere with enforcement proceedings; deprive a person of a right to a fair trial or an impartial adjudication; constitute an unwarranted invasion of personal privacy; disclose the identity of a confidential source; disclose investigative techniques or procedures; or endanger the life or physical safety of law enforcement personnel; n12
- materials relating to financial institutions; n13 and
- geological and geophysical information.

Under the exemption for investigatory records from FOIA, the Commission will not publicly disclose investigatory records "if doing so would interfere with enforcement proceedings, deprive a person of a right to a fair trial or an impartial adjudication or disclose the identity of a confidential source." n14

"Investigatory records" include, but are not limited to, documents, records, transcripts, evidentiary materials, correspondence, related memoranda and work product concerning any examination or investigation (whether formal or informal) or any related litigation, which pertain to or may disclose any violation of the federal securities laws. Also included are all written communications from or to any person complaining of or furnishing information respecting such possible violations. n15 Records will remain non-public so long as a concrete prospect of enforcement action (to which the records would be relevant) continues to exist.

An individual may request confidential treatment of information disclosed during an SEC investigation. SEC Rule 83, adopted on September 12, 1980 provides the procedures by which a person may request confidential treatment of information that would otherwise be publicly available under FOIA. n16 The procedures have two components: notice and substantiation. n17 The notice phase consists of the person informing the Commission of the request for confidential treatment. n18 The substantiation process begins upon the SEC receiving a request for disclosure under FOIA. n19 If the SEC cannot find an independent basis for not disclosing the information, the SEC asks the person who requested confidentiality to substantiate their request. n20 If the substantiation is rejected by the SEC, the requesting person may appeal the decision to SEC's General Counsel. n21

Any person who has previously given testimony or supplied documentary evidence in a Commission investigation may write the Commission if he or she believes that a particular testimony or document would be exempt from disclosure.

Records may be made available with identifying details deleted, *e.g.*, apparently defamatory statements made about any person, information received by or given to the Commission in confidence, or any contents of personnel and medical and similar files. n22

In *SEC v. Republic National Life Insurance Co.*, n23 an accounting firm sought an order enjoining the SEC from withholding information the firm considered material to its examination of a client's financial statements. The SEC refused to release the information claiming it had been obtained pursuant to an investigation that was still in progress. The court held this decision within the scope of the discretion granted the Commission by Congress. Though somewhat dubious about the way in which the Commission had exercised that discretion, the court found itself constrained to dismiss for want of jurisdiction. n24

CHAPTER 9 SEC Enforcement--Legal Considerations

2-9 Federal Securities Exchange Act of 1934 § 9.18

AUTHOR: Theodore Altman and Joshua S. Sohn

§ 9.18 Equal Access to Justice Act

The Equal Access to Justice Act ("EAJA") n1 helps victims of bureaucratic injustice by requiring government agencies to reimburse the litigation expenses of parties who prevail against them in civil litigation. The Act applies to administrative adjudications n2 as well as to judicial proceedings. n3

Although the securities laws expressly bar the assessment of costs against the Commission in judicial proceedings (Section 22 of the Securities Act, Section 27 of the Exchange Act, Section 44 of the Investment Company Act, and Section 214 of the Investment Advisers Act), the SEC does not resist EAJA liability on that ground.

Two factors limit the EAJA's scope in the SEC context. The first is that EAJA relief is available only to those who prevail in litigation. It does not extend to investigation. n4 An investigation that does not lead to the initiation of an adjudicatory proceeding creates no EAJA entitlement. n5 The second factor to bear in mind is that successful litigants have no right to reimbursement when "the position of the agency was substantially justified... or special circumstances make an award unjust." n6

These limitations are significant, because truly weak SEC cases tend to be winnowed out at the investigative stage. The Commission is not prone to concede that its litigation decisions lacked substantial justification. Moreover, it can often make a persuasive showing on that critical issue. n7

However, a few victors in SEC civil enforcement proceedings have recovered under the EAJA. n8 Since both the Commission and its staff are fallible, there will doubtless be other such recoveries in the future.

Procedure under the EAJA depends on whether the case was judicial or administrative. If judicial, the application is made to the district court. n9 If administrative, it is made to the administrative law judge who heard the case. n10

As its name indicates, the EAJA is intended to mitigate the disparities in litigation resources that handicap private persons in quest of justice from the Government. Hence, the Act is available only to parties whose resources do not exceed specified limits. These limits, however, are quite generous. Individuals are barred only if their net worth exceeds \$2 million. When they are sole proprietors, the more permissive enterprise test governs. That makes the Act available to

firms with a net worth of as much as \$7 million, provided that they have no more than 500 employees. Eligibility depends on net worth and on the number of employees when the civil action was filed or the administrative proceedings instituted. n11

Equal Access to Justice Act matters can be settled. n12 Time limits under this statute are very tight. The application must be filed "within thirty days of a final disposition in the adversary adjudication." n13

The "fees and other expenses" recoverable include "the reasonable expenses of expert witnesses, the reasonable cost of any study, analysis, engineering report, test or project... necessary for the preparation of the party's case, and reasonable attorney or agent fees." n14

Fees are "based upon prevailing market rates." n15 In a judicial proceeding the court has discretion to fix a higher fee on the basis of its assessment of the needs of the particular case. n16 Unfortunately, however, the Commission lacks this power. n17 Expert witnesses cannot be compensated at rates more generous than those the government pays its own experts. n18

FOOTNOTES:

(n1)Footnote 1. This statute has a complicated history. It was originally part of the Small Business Export Expansion Act of 1980, Pub. L. No. 96-481, tit. II, 94 Stat. 2321, 2325-2330 (1980). That was an experiment and expired pursuant to an automatic repealer on October 1, 1984. But the repealer was itself repealed and the statute revived by Pub. L. No. 99-80, 99 Stat. 183-186 (1985). Editorial notes to 5 U.S.C. § 504 in the United States Code Annotated summarize this history. For an excellent general discussion, see Note, *The Equal Access to Justice Act in the Federal Courts*, 84 *Colum. L. Rev.* 1089 (1984).

(n2)Footnote 2. 5 U.S.C. § 504.

(n3)Footnote 3. 28 U.S.C. § 2412(d).

(n4)Footnote 4. 5 U.S.C. § 504 begins with the words "An agency that conducts an adversary adjudication shall award... ." 28 U.S.C. § 2412(d)(1)(A) speaks of "any civil action (other than cases sounding in tort)."

(n5)Footnote 5. *Family Television, Inc. v. SEC*, 608 F. Supp. 882 (D.D.C. 1985) (allegations that investigation was "abusive and harassing," lasted for three years, and cost the investigatee \$385,000 in attorneys' fees did not convert the proceeding into an adversary adjudication); *In the Matter of Michael Flanagan, Ronald Kindschi, and Spectrum Administration, Inc.*, 81 S.E.C. Docket 2406, (S.E.C. Release No. ID-241 (Nov. 24, 2003) (holding, amongst other things, that staff investigations are not adversary adjudications under the EAJA).

(n6)Footnote 6. 5 U.S.C. § 504(a)(1); 28 U.S.C. § 2412(d)(1)(A). The "special circumstances" safety valve may immunize agencies from liability for the good faith assertion of novel but credible claims. See *S.E.C. v. Universal Exp., Inc.*, 2009 U.S. Dist. LEXIS 55064 (S.D.N.Y. June 25, 2008) ("The SEC's reading of the Florida secondhand dealer statute—which presented an issue of first impression—is precisely the sort of novel but credible interpretation that Congress determined should not form the basis of an EAJA award. Accordingly, it also substantially justified the SEC's decision to file the Motion."); *Midwest Research Institute v. United States*, 554 F. Supp. 1379, 1392 (W.D. Mo. 1983) (citing legislative history showing an intent "to insure that the Government is not deterred from [that course]"). Because the Commission and its staff are prone to experiment with novel approaches, the "special circumstances" exception to the general statutory rule could prove of considerable import in SEC equal access jurisprudence.

(n7)Footnote 7. See, e.g., *SEC v. Switzer*, 590 F. Supp. 756, 767-768 (W.D. Okla. 1984) (EAJA award denied because "the SEC presented strong circumstantial evidence in support of its [unsuccessful] theory" in an insider trading case predicated on an inadvertent revelation); but see *S.E.C. v. Zahares*, 374 F.3d 624 (8th Cir. 2004) (reversing denial of EAJA award where SEC's failure to appropriately and adequately investigate broker according to its own rules and

guidelines led SEC to bring action based on ungrounded and unsubstantiated legal theory, and without sufficient factual support).

(n8)Footnote 8. These are unreported. For a reported case of an EAJA recovery against the Commission in a non-enforcement context, see *United Church Board for World Ministries v. SEC*, 649 F. Supp. 492 (D.D.C. 1986) (Commission gave inadequate notice of a proposed rulemaking and its attempt to defend its position in subsequent litigation was "clearly unreasonable" and "not substantially justified").

(n9)Footnote 9. 28 U.S.C. § 2412(d)(1)(a).

(n10)Footnote 10. 5 U.S.C. § 504(a)(1) directs that the decision be made by "the adjudicative officer of the agency." The statute does not provide for an appeal from the adjudicative officer to the agency itself. But the Commission's rules do. 17 C.F.R. § 201.57. Some question the validity of this rule because they think it is contrary to the statute.

(n11)Footnote 11. See the definition of "party" in 5 U.S.C. § 504(b)(1)(B) and in 28 U.S.C. § 2412(d)(2)(B). The Commission revised its rules in 1989 to track the statute. See 17 C.F.R. § 201.34. EAJA applications to the Commission must be accompanied by a net worth exhibit. 17 C.F.R. § 201.42.

(n12)Footnote 12. 17 C.F.R. § 201.54; see also 17 C.F.R. § 201.52(b) (joint statement by the applicant and the Division of Enforcement of intent to negotiate a settlement extends the Division's time to answer). The unreported recoveries referred to in n.8 *supra* involved settlements.

(n13)Footnote 13. 5 U.S.C. § 504(a)(2). 17 C.F.R. § 201.44(a) is peremptory in this regard. The 30-day rule applicable to judicial proceedings appears in 28 U.S.C. § 2412(d)(1)(B).

(n14)Footnote 14. 5 U.S.C. § 504(b)(1)(A); 28 U.S.C. § 2412(d)(2)(A).

(n15)Footnote 15. *Id.*

(n16)Footnote 16. The court can determine that "an increase in the cost of living or a special factor such as the limited availability of qualified attorneys for the proceedings involved, justifies a higher fee." 28 U.S.C. § 2412(a)(2)(A).

(n17)Footnote 17. The Commission can provide for higher fees by regulation. 5 U.S.C. § 504(b)(1)(A)(ii). But it has not done so. Its rules state that "No award for the fee of an attorney or agent... may exceed \$75.00 per hour." 17 C.F.R. § 201.36(b). The regulation does allow for an award of reasonable expenses if the attorney, agent or witness ordinarily changes for such expense.

(n18)Footnote 18. 28 U.S.C. § 2412(d)(2)(A) ("highest rate of compensation for expert witnesses paid by the United States"); 5 U.S.C. § 504(b)(1)(A)(i) ("highest rate of compensation for expert witnesses paid by the agency involved").

CHAPTER 9 SEC Enforcement--Legal Considerations

2-9 Federal Securities Exchange Act of 1934 § 9.19

AUTHOR: Theodore Altman and Joshua S. Sohn

§ 9.19 SEC Enforcement Actions Against Hedge Funds

Hedge funds are typically structured in order to avoid the burdensome registration and regulatory requirements of the Investment Company Act of 1940. n1 Section 3(a)(1) of the Investment Company Act of 1940 generally defines an investment company as an issuer of securities engaged primarily in the business of investing in securities. n2 If a fund falls within this definition, then it must register as a fund, unless an exception applies. Registration under the Investment Company Act requires the fund to comply with statutory and regulatory requirements imposed on registered funds.

Hedge funds escape registration under the Investment Company Act by falling within the "private investment company" exceptions of Sections 3(c)(1) and 3(c)(7). n3 There are two requirements under the "private investment company" exception: first, the company must be "an issuer whose outstanding securities (other than short-term paper) are beneficially owned by not more than one hundred persons" and second, "which is not making and does not presently propose to make a public offering of its securities." n4

The first SEC investigation into hedge funds occurred in January 1969, and this early investigation was inhibited by a lack of information about the industry. n5 A new era of SEC investigation into hedge funds commenced with the issuance of the Heyman Memorandum. The Memorandum was written by then Director of the Division of Market Regulation and Investment Management, William H. Heyman, to then-SEC Chairman, Richard Breeden. n6 The Heyman Memorandum conveyed the SEC's position on hedge fund investigations, "[T]he regulatory issues potentially relevant to hedge funds, however, involve not so much the protection of the investors who invest in them--typically high net worth individuals or institutions--but the potential of these funds to affect the market due to their size and active market presence." n7

In 2005 the SEC took a substantial step towards regulation of hedge funds by amending the rule previously governing when hedge fund managers are required to register with the SEC. Prior to the 2005 rule change, hedge fund managers could avoid registration under the Investment Advisors Act of 1940 by treating a hedge fund as a single client. Thus, hedge fund managers fell within the exception of investment advisors with fourteen or fewer clients. n8 The SEC rule required hedge fund managers to count as clients all the individual investors of the fund. n9 In *Goldstein v. SEC*, however, the rule was invalidated as an arbitrary and unreasonable interpretation of the word 'client.' n10

The *Goldstein* reversal, however, has not ended the SEC's actions against hedge funds. The SEC also imposed a \$250 million fine against Bear, Sterns & Co. for helping favored hedge fund clients evade the rules designed to protect long-term mutual fund investors from the harm of market-timing and late trading. n11 Despite hedge funds being largely exempt from traditional SEC regulation, the SEC has instituted enforcement actions against a large number of hedge funds involving private investment in public equity (PIPE) transactions. n12 These cases often involve insider trading charges based on allegations that the hedge fund traded on material, non-public information about a PIPE that it had agreed to keep confidential.

As a result of modern financial scandals, including an alleged \$50 billion ponzi scheme perpetrated by Bernard Madoff, on January 29, 2009, the Senate introduced the Hedge Fund Transparency Act of 2009 (HFTA), which would bring hedge funds under the scrutiny of the SEC. n13 If passed, HFTA would have a significant impact on not only hedge funds but also private equity funds, venture capital funds, and structured finance vehicles. n14 The bill attempts to close what some senators view as a loophole in securities law that allows hedge funds to operate beyond the reach of the SEC. n15 HFTA attempts to amend current exceptions to the Investment Company Act of 1940, thereby requiring funds of \$50 million or more to register with the SEC, maintain books and records as mandated by the SEC, file annual disclosure statements that include both the identities of the funds' investors and the value of the fund assets, and cooperate with SEC requests for information or examination. n16 Additionally, the bill proposes requiring these funds to establish anti-money laundering compliance programs. n17

In 2009, the SEC launched a series of internal reforms designed to further regulate hedge funds in the aftermath of several high profile ponzi scheme frauds and the burst of the mortgage backed security bubble. First, the SEC is in the process of studying and developing new rules to regulate and limit "naked short selling" n18 through the use of price tests, circuit breaker rules, and pre-borrow and disclosure requirements. n19 Second, the SEC "created the Industry and Market Fellows Program in order to hire highly seasoned financial experts who will enhance the agency's expertise and perspectives on emerging issues and trends in the securities markets." n20 Third, in May 2009, the SEC proposed "a yearly 'surprise exam' of investment advisers performed by an independent public accountant to verify client assets." n21 Fourth, in September 2009, the SEC created a Division of Risk, Strategy, and Financial Innovation by combining the Office of Economic Analysis and the Office of Risk Assessment. This "new division will focus on strategic and long-term analysis, identifying new developments and trends in financial markets and systemic risk, and recommending ways to adjust Commission policies and practices to adapt to these new developments and trends." n22

The 2009 prosecutions of *Galleon* and *Cutillo* exemplify the increased SEC scrutiny of hedge funds. Both cases involved the use of wire-taps to amass evidence of complex insider trading rings involving hedge fund managers, Wall Street professionals, attorneys, and high-level corporate insiders. In the prosecution of Galleon Management LP and its billionaire hedge fund adviser, Raj Rajaratnam, the SEC filed charges against twenty-nine individuals who allegedly participated in an illegal scheme to generate \$53 million in profits. According to the SEC, the *Galleon* and *Cutillo* cases are important for two reasons: first, they include the use of traditional law enforcement surveillance techniques to prosecute illegal insider trading schemes; n23 and second, the cases evidence that insider trading may be a "business model" (rather than incidences of opportunistic conduct), which merits further investigation of hedge fund strategies going forward. n24 Accordingly, *Galleon* and *Cutillo* indicate that SEC oversight of hedge funds will be more vigorous in the near term.

Some commentators have referred to the Dodd-Frank legislation as the largest overhaul of the financial system since the 1930s. The "Volcker Rule" is one of the many reforms adopted as part of the *Dodd-Frank Wall Street Reform and Consumer Protection Act*. The Volcker Rule prohibits any "banking entity" from engaging in proprietary trading and sponsoring or investing in a hedge fund or private equity fund. n25 "Banking entities" are defined as any insured bank or thrift, any company that controls an insured bank or thrift, any company that is a bank holding company under the International Banking Act of 1978, and any affiliate of any such entity. Once the rule is in effect, n26 except for certain limited circumstances, banking entities will no longer be able to have an equity, partnership, or ownership interest in any hedge fund or private equity fund. At the time of publication, the SEC was still developing the final rules

implementing the Volcker Rule.

Additionally, the Dodd-Frank Wall Street Reform Act regulates advisors to hedge funds. Importantly, the Act eliminates the registration exemptions for private advisors and intrastate advisors who advise private companies. However, new exemptions are created for advisors to venture capital funds, investment advisors who exclusively work with private companies with less than \$150 million under management. n27 The Act raises the registration threshold for investment advisors to \$100 million in assets under management and subjects all registered advisors to more stringent record keeping rules.

Furthermore, the Dodd-Frank Wall Street Reform Act amends the definition of "accredited investor" and "qualified client" and thereby restricts who is eligible to participate in a hedge fund. The net-worth threshold for an "accredited investor" is raised to \$1 million, excluding the value of the investor's primary residence. n28 "Qualified client" is defined as an entity or person with \$750,000 assets under management and a net worth of \$1.5 million, adjusted annually for inflation for six years after the Act's enactment, through 2016. n29

Although it is unclear precisely how the new Dodd-Frank legislation and recent SEC initiatives will manifest themselves in the day-to-day regulation of hedge funds, it is clear that the SEC will continue its efforts to increasingly police hedge funds for the foreseeable future.

CHAPTER 10 Private RICO Litigation

2-10 Federal Securities Exchange Act of 1934

AUTHOR: Frederick Robinson Matthew H. Kirtland*

SUMMARY OF THIS CHAPTER

The Racketeer Influenced and Corrupt Organizations Act ("RICO"), enacted in 1970 to provide the government with a weapon against the infiltration of organized crime into legitimate businesses, contains a private civil remedy. Broad and widely differing judicial interpretation of this provision of RICO has led to the rapid growth of private civil RICO litigation. RICO is the only basis for federal jurisdiction in many cases. *See § 10.01 infra.*

A civil RICO claim is built on three elements: pattern of racketeering activity; enterprise; and the injurious impact of the racketeering activity on the enterprise. Racketeering activity is defined by reference to a list of "predicate acts." The principal predicate acts for civil RICO claims traditionally were mail fraud, wire fraud, and securities fraud. However, the passage of the Private Securities Litigation Reform Act in late 1995 eliminated as predicate acts securities fraud and any conduct that would have been actionable as securities fraud. *See § 10.01 infra.*

The "pattern" element requires, at a minimum, two or more acts of related racketeering activity that pose a threat of continued criminal activity. *See § 10.02[1] infra.*

In order to satisfy RICO's civil standing requirement, the plaintiff must establish injury to plaintiff's business or property proximately caused by a RICO violation. The circuits are split on the issue of whether injuries caused solely by the predicate act, distinguished from injury caused by use or investment of the income derived from that act, is sufficient to support a RICO claim. A plaintiff does not have standing to sue for conspiracy to violate RICO if the injury is caused by a conspirator's acts that do not constitute one of the delineated predicate acts. Plaintiffs must plead and prove the causal nexus between the RICO activity and the injury. *See § 10.03 infra.*

If the plaintiff has established the elements of a private RICO claim, RICO requires that the plaintiff recover treble damages and attorneys' fees. *See § 10.04 infra.*

Jurisdiction over violations of RICO is conferred on the federal courts. However, state courts have concurrent jurisdiction with federal courts in private RICO cases. Venue in RICO civil cases exists in any district in which the

defendant resides, is found, has an agent, or transacts affairs, and where it is shown that the "ends of justice" require. A four-year statute of limitations applies to RICO civil actions. The circuits are split as to when the RICO claim is deemed to accrue. *See § 10.05[3] infra.*

CHAPTER 10 Private RICO Litigation

2-10 Federal Securities Exchange Act of 1934 § 10.01

AUTHOR: Frederick Robinson Matthew H. Kirtland*

§ 10.01 Background

Enacted in 1970, but undiscovered by the private bar until 1980, the Racketeer Influenced and Corrupt Organizations Act ("RICO")ⁿ¹ has become a fixture of private civil litigation. Promulgated largely as an attempt to provide the government with a new weapon against the infiltration of organized crime into legitimate businesses, RICO has become a vehicle, in the view of many courts, for the federalization of common business disputes.

As originally proposed, enforcement of the Act was left solely to the government. However, a private civil remedy was suggested in hearings before a subcommittee of the House Judiciary Committee,ⁿ² and toward the end of the legislative process the full Committee approved an amendment including the private remedy provision in its present form.ⁿ³ It provides that "[a]ny person injured in his business or property by reason of a violation ... may sue therefor... and shall recover threefold the damages he sustains and the cost of the suit, including a reasonable attorney's fee" ⁿ⁴ While the language is drawn directly from the antitrust laws,ⁿ⁵ Congress offered virtually no guidance as to how this provision was to be interpreted in the very different context of RICO.

Perhaps because of this absence of legislative direction, RICO's private civil section has been stretched to the limits of its language, with a concomitant growth of private civil RICO litigation. RICO is often the only basis for federal jurisdiction in many cases, which would otherwise be brought as common law fraud actions in the commercial parts of state courts.

Seeking to stem this imposition on their dockets, many federal courts initially responded by erecting various barriers to private RICO claims in the form of judicially-created requirements of "standing." A Second Circuit opinion was typical in its vehement opposition to the expansive use of RICO:

The uses to which private civil RICO has been put have been extraordinary, if not outrageous. Section 1964(c) has not proved particularly useful for generating treble damage actions against mobsters by victimized business people. It has, instead, led to claims against ... respected and legitimate "enterprises" ... labeled as "racketeers" in civil RICO claims. ⁿ⁶

However, in 1985, the Supreme Court made clear in *Sedima, S.P.R.L. v. Imrex Co., Inc.* that these judicially-crafted

limitations would not be tolerated. n7 In *Sedima*, the Court focused on the broad language of the RICO statute and refused to countenance any limitation that could not find some basis in such language. Recognizing that this rendered the scope of the statute broader than Congress may have intended, the Court nonetheless left it to Congress to correct this error if Congress found it to be an error. Since then, while there have been repeated legislative proposals to narrow the broad scope of the RICO statute, none has generated the necessary support.

In addition to the controversy engendered by the breadth of the statute, the vague language and peculiar phrasing of the statute have led to widely differing interpretations among the circuits. They also have led to repeated attempts to hold the statute unconstitutional, but virtually all such attempts have failed. n8 In some circuits, even the most common garden-variety fraud case may be expected to contain a RICO count. This expansion of RICO has led the Seventh Circuit to observe that "the murkiness of RICO's parameters coupled with its alluring remedies have led many plaintiffs to take garden variety business disputes and dress them up as elaborate racketeering schemes." n9 The explosion in the private use of RICO, combined with the wide variance of interpretation among the circuits, make it imperative for the practitioner to keep abreast of recent developments in this extensive body of law.

For the securities practitioner, the passage in December 1995 of the Private Securities Litigation Reform Act drastically limited the applicability of RICO to claims grounded in securities fraud. n10 Previously, securities fraud had been relied upon as a predicate act in many RICO claims. However, the Private Securities Litigation Reform Act amended Section 1964(c) to read: "No person may rely upon any conduct that would have been actionable as fraud in the purchase or sale of securities to establish a violation of Section 1962." As phrased, the Act provides that even claims based on mail or wire fraud may be dismissable if they could have been framed as securities fraud claims. Moreover, at least one court has held that plaintiffs may not rely on a party aiding and abetting securities fraud as a predicate RICO act. n11 However, it is likely that until the courts' interpretation and application of the Act becomes settled, practitioners will attempt to reframe their securities fraud claims as mail fraud, wire fraud, or some other still valid RICO predicate. n12

Since 1995, plaintiffs have attempted to bring RICO claims based on conduct occurring before the Private Securities Litigation Reform Act was passed. The Third, Seventh, Eighth and Ninth Circuits have dismissed such claims, holding that the Act's ban on RICO claims grounded in securities fraud applies to claims based upon a pattern of conduct that predates passage of the Act. The key date for viability of a RICO claim, according to these decisions, is the date the plaintiff filed the action. n13

The Ninth Circuit has held that the PSLRA's bar on securities actions claims extends to individual claims as well as to class actions. n14

CHAPTER 10 Private RICO Litigation

2-10 Federal Securities Exchange Act of 1934 § 10.02

AUTHOR: Frederick Robinson Matthew H. Kirtland*

§ 10.02 The Elements of a RICO Claim

Given its vague language, peculiar construction, and conflicting interpretations, RICO can be intimidating to the newcomer. RICO decisions often devote extensive discussion to the scope and meaning of critical terms included in the statute, and draw fine fact-specific distinctions that make it difficult to predict the outcome of future decisions.

However, while RICO is certainly not without complexity, in essence, it is built around three basic concepts: pattern of racketeering activity; enterprise; and the injurious impact of the pattern of activity on the enterprise. To appreciate the significance of these concepts, however, it is important to focus at the outset on the fact that RICO prohibits four particular kinds of activity, set forth in section 1962 of Title 18.

Specifically, Section 1962(a) makes it unlawful for "any person who has received any income derived, directly or indirectly, from a pattern of racketeering activity ... to use or invest... any part of such income ... in acquisition of any interest in, or the establishment or operation of, any enterprise"

Section 1962(b) makes it unlawful for any person "through a pattern of racketeering activity ... to acquire or maintain, directly or indirectly, any interest in or control of any enterprise"

Section 1962(c) makes it unlawful for "any person employed by or associated with any enterprise ... to conduct or participate, directly or indirectly, in the conduct of such enterprise's affairs through a pattern of racketeering activity"

Section 1962(d) makes it unlawful for any person to conspire with others to violate Sections (a), (b) or (c).

Given these prohibitions, the importance of understanding the scope and meaning of "pattern of racketeering enterprise" and the nature of its prohibited impact on a RICO "enterprise" becomes manifest.

[1] Pattern of Racketeering Activity

[a] Racketeering Activity

Racketeering activity is defined in section 1961(1) by reference to a long list of acts, known as "predicate acts," that are chargeable under state criminal law and punishable by imprisonment for more than one year, or indictable or punishable under various provisions of the federal criminal law. The principal predicates for private commercial litigation under RICO are mail fraud and wire fraud. If an act is not included on the list, it may not be relied upon as a predicate act. However, given the breadth of criminal activity captured by this list, a large variety of disputes can be transformed into alleged violations of RICO's predicates. n1

As the use of the terms "chargeable," "indictable," and "punishable" indicate, an act may qualify as a predicate act even if the defendant has never been convicted of the alleged crime. In *Sedima, S.P.R.L. v. Imrex Co., Inc.*, the Supreme Court reversed the Second Circuit's decision that a complaint must allege that the defendant had been criminally convicted of a predicate act, and noted that the RICO statute defined racketeering action to consist of "not facts for which the defendant has been convicted, but of acts for which he could be." n2 Any other interpretation, the Court noted, would be inconsistent with Congress's broad underlying policy concerns and severely handicap potential plaintiffs. n3

The mail fraud and wire fraud statutes, n4 among the broadest of any federal criminal statutes, respectively prohibit even incidental use of the mails or wires in connection with any kind of fraudulent scheme. The fraud language is identical in the two statutes, covering schemes to defraud or to obtain money or property by fraudulent devices, and each statute expressly applies both to a person who makes a communication and one who "causes" a communication to be made. The only practical difference between the two statutes is that the requisite mailing may be wholly intrastate, while the requisite wire transmittal must be made in interstate or foreign commerce. Courts consider these statutes to be *in pari materia* and have looked to mail fraud precedent in construing the wire fraud provision. n5

To establish a violation of the mail or wire fraud statutes, a plaintiff must show that there was a scheme to defraud, a specific intent by the defendant to defraud, and a use of the mails or wires to carry out the scheme. n6 The mailing itself need not cause injury, and it need not contain a misrepresentation. A mailing will suffice as long as it is part of the scheme to defraud, even if it is a minor, inconsequential part. As a result, almost any mailing or communication by wire by the defendant will suffice.

Fraudulently stating materially incomplete information is actionable, n7 as is representing without a factual basis or giving opinions not honestly held. n8 Where a fiduciary duty to disclose exists, omission of material information may be actionable. n9 In one case, the Seventh Circuit held that the omission of a material fact can constitute mail fraud even in the absence of a specific duty to disclose the information. n10 In some cases, no active misrepresentation or omission is necessary. n11 For example, a course of conduct that constitutes a scheme to defraud, such as check kiting, may be actionable upon use of the mails or wires even though no particular misstatements or omissions are made. n12

Although the defendant must have a specific intent to defraud, n13 this may be imputed from reckless indifference or disregard of the truth, or from a pattern of conduct. n14 While a good faith defense can negate the requisite intent, n15 honest belief in the ultimate success of the endeavor is not sufficient. n16

Contemplation of the use of mail or wire facilities need not be part of the scheme. n17 To "cause" use of the mails or wires, the defendant need only act in circumstances under which mailing or wire transmittal can reasonably be foreseen; actual intent to cause the communication is not required. n18

Each use of the mails or wires in furtherance of the scheme is a separate offense, even if each relates to the same scheme. Because there may be numerous mailings as part of a single scheme, courts evaluating whether a defendant engaged in a pattern of racketeering courts typically "look beyond the mailings and examine the underlying scheme or artifice." n19 Thus, although the mailing is the criminal act, the "deceit constituting the underlying fraudulent scheme" is more relevant to the continuity analysis. n20 As noted, such a communication is actionable even if it is wholly ineffective. n21

Until recently, there had been some uncertainty as to whether a plaintiff must establish reliance on the mailing in order to prove injury by reason of the mailing. Some circuits had concluded that the predicate-act element of a private RICO action grounded in mail and wire fraud could not be satisfied without proof of reliance on the fraudulent representation.
n22

The Fourth Circuit, in *Brandenburg v. Seidel*, n23 came to the same conclusion but analyzed the issue somewhat differently. After noting that Section 1964(c) limits private lawsuits to persons who are injured in their business or property "by reason of" the defendant's misconduct, the court held that proof of reliance was a required element of a private civil RICO action grounded in fraud, not because reliance was a required element of the predicate acts of mail and wire fraud, but because it was part of what was meant by causation under Section 1964(c). The court stated:

While, as we have noted, it is not necessary to establish detrimental reliance by the victim in order to make out of a violation of the federal mail fraud statute ... such reliance is necessary to establish injury to business or property "by reason of" a predicate act of mail fraud within the meaning of § 1964(c). n24

In comparison, other courts ignored the issue of reliance as an aspect of RICO causation and focused instead on the fact that reliance is not an element of the criminal offense of mail fraud or wire fraud. These courts held that no proof of reliance was required to satisfy the predicate-act element of RICO. n25 For example, the Third Circuit in an *en banc* decision held that completely innocent mailings could satisfy the mailings element and found that there was no requirement that the mailings be relied upon by the victim of the fraud. n26

The Court resolved this apparent conflict in *Bridge v. Phoenix Bond & Indemnity Co.*, when it held that a plaintiff asserting a RICO claim predicated on mail fraud does not need to plead or prove that it relied on the defendant's misrepresentations, either as an element of its claim or as a prerequisite to establishing proximate causation. n27 In *Bridge*, the RICO claim was brought against participants in Illinois tax lien auctions who allegedly filed false compliance attestations in order to obtain a disproportionate share of the auctioned liens. n28 The defendants argued that because the alleged fraudulent mailings were made to the county, not to the plaintiffs who were rival bidders, a RICO claim could not be brought by the plaintiffs. n29 In overruling the defendants' arguments, the Court held that reliance by the plaintiff (so-called "first-party reliance") on the alleged fraudulent statement was not a required element of a RICO offense:

If petitioners' proposed requirement of first-party reliance seems to come out of nowhere, there is a reason: Nothing on the face of the relevant statutory provisions imposes such a requirement. Using the mail to execute or attempt to execute a scheme to defraud is indictable as mail fraud, and hence a predicate act of racketeering under RICO, even if no one relied on any misrepresentation. n30

The Court further held that a showing of reliance on the alleged fraud *by the plaintiff* is not necessary to meet RICO's proximate cause requirement. However, the Court cautioned that this did not mean that it was not necessary to allege and prove that *someone* relied upon the alleged fraud in order to prove causation (so-called "third-party" reliance"). n31 The Court merely clarified that, " 'the fact that proof of reliance is often used to prove an element of the plaintiff's cause of action, such as the element of causation, does not transform reliance itself into an element of the cause of action.' " n32

Mention should also be made of the Hobbs Act, n33 which is capable of being broadly construed to cover a wide range of activity often ranging far beyond the type of activity traditionally viewed as "extortion." n34 For example, in *National Organization for Women v. Schneider*, n35 a RICO claim was brought against a coalition of anti-abortion groups that were charged with conspiring to use threatened or actual force to induce health care clinic employees and doctors to give up their jobs, and patients to forfeit their right to obtain medical services. While the court did not reach the issue of the Hobbs Act violation, it did note that plaintiffs had alleged injury resulting from defendant's conduct that

was sufficient for standing purposes at the pleading stage. The Court rejected the argument that the Hobbs Act required the defendant to profit economically from the extortion. n36 Moreover, prompted by concern about the scope of the activity alleged as a Hobbs Act violation, Justice Souter, in a concurring opinion, stressed that the conduct alleged as a Hobbs Act violation might be fully protected *First Amendment* activity, and urged courts to consider this issue carefully. On remand, the District Court found that the plaintiffs had adequately alleged violations of the Hobbs Act. n37 The Court noted that extortion under the Hobbs Act focuses on loss to the victim, which had been alleged and issued a nationwide injunction. n38 The Seventh Circuit affirmed. n39

Once again, however, the Supreme Court reversed and ruled that the claimed property taken from the plaintiff -- the right of a woman to seek medical services and the right of doctors to perform their jobs -- was outside the scope of the Hobbs Act's definition of property. n40 The defendant's acts could therefore not be considered extortion and the case was once again remanded to the lower courts. n41

On remand, the Seventh Circuit held that four separate acts of violence or threats of violence unrelated to extortion might constitute Hobbs Act violations. n42 For the third time, the Supreme Court reversed. n43 In an 8-0 decision, the Court ruled that in order for acts of violence or threats of violence to violate the Hobbs Act, it must be "in furtherance of a plan or purpose to engage in robbery or extortion." n44 "[F]reestanding physical violence" was not enough. n45

[b] The Pattern

Merely alleging commission of acts of racketeering activity is not in itself sufficient to make out a RICO "pattern." Something more is required, but the courts have labored with difficulty to determine exactly what. Section 1961(5) defines a RICO "pattern of racketeering activity" only by stating that it "requires at least two acts of racketeering activity, one of which occurred up to the effective date of this chapter [October 15, 1970] and the last of which occurred within ten years ... after the commission of a prior act of racketeering activity." n46

Prior to the 1985 Supreme Court decision in *Sedima, S.P.R.L. v. Imrex & Co.*, n47 several lower courts specifically equated two predicate acts with pattern. n48 Other courts were more demanding, requiring that the predicate acts be linked by some common plan, scheme, or motive for accomplishing the objective of the RICO violation. n49

In *Sedima*, the Court, in the course of rejecting judicially-crafted standing obstacles to private RICO claims, discussed the nature of the pattern requirement and noted that "two isolated acts of racketeering activity do not constitute a pattern." n50 The Court cited a Senate Report that stated that "[t]he infiltration of legitimate business normally requires more than one 'racketeering activity' and the threat of continuing activity to be effective. It is this factor of continuity plus relationship which combines to produce a pattern." n51 The Court also referred to the definition of "pattern" in the (since-repealed) repeat offender sentencing statute, n52 which provided that "criminal conduct forms a pattern if it embraces criminal acts that have the same or similar purposes, results, participants, actions, or methods of commission, or otherwise are interrelated by distinguishing characteristics and are not isolated events." n53 This language, the Court commented, "may be useful in interpreting other sections of the Act."

Following *Sedima*, the lower courts adopted a wide variety of often conflicting approaches to the definition of "pattern." One common approach focused on whether there were two or more schemes involved, n54 while another found a pattern if there were "at the least, acts relating to two or more episodes within a single scheme." n55 The only common thread among various interpretations was the tendency to find a pattern present in criminal RICO cases and absent in civil RICO cases, reflecting the prevailing view that the overextension of the statute was chiefly occurring in the civil context. n56

By 1989, the Supreme Court was forced to admit, in *H.J. Inc. v. Northwestern Bell Telephone Co.*, that developing a meaningful concept of "pattern" within the existing statutory framework was no easy task. n57 In *H.J. Inc.*, the Eighth Circuit had interpreted RICO's pattern concept to require proof of multiple illegal schemes. The Supreme Court rejected

this view, noting that, while Congress intended a more stringent requirement than proof simply of two predicate acts, it also envisioned a "concept of sufficient breadth that it might encompass multiple predicates within a single scheme that were related and that amounted to, or threatened the likelihood of continued criminal activity." n58 Harking back to the dictum in *Sedima*, the Court rejected any more definite test than that "the racketeering predicates are related, *and* that they amount to or pose a threat of continued criminal activity." n59

With respect to the "relatedness" requirement, the Court specifically adopted the definition from the repeat offender statute, n60 which states that acts are related if they "have the same or similar purposes, results, participants, victims or methods of commission, or otherwise are interrelated by distinguishing characteristics and are not isolated events." n61

As for the "continuity" requirement, the Court stated that continuity was "both a closed and open-ended concept, referring either to a closed period of repeated conduct, or to past conduct that by its nature projects into the future with a threat of repetition." n62 The Court further explained that predicate acts extending over only a few months without threatening future criminal conduct would be insufficient to establish a pattern. n63

As for open-ended continuity, the Court noted that if the related predicates involved a distinct threat of long-term racketeering activity, n64 or were part of an ongoing entity's regular way of doing business, the threat of continuity may be established.

Unable to provide additional guidance as to these concepts, the Court conceded that "the precise methods by which relatedness and continuity or its threat may be proved, cannot be fixed in advance with such clarity that it will always be apparent whether in a particular case a 'pattern of racketeering activity' exists. The development of these concepts must await future cases, absent a decision by Congress to revisit RICO to provide clearer guidance as to the Act's intended scope." n65

In a dissent joined by three other justices, Justice Scalia wrote that the majority opinion had done nothing to improve the prior guidance in *Sedima*, which had produced the "widest and most persistent Circuit split on an issue of federal law in recent memory." n66 To the contrary, the dissent contended that the majority opinion had actually increased the degree of vagueness in the definition of pattern. The dissent therefore openly invited a constitutional challenge to RICO on these grounds. Despite Justice Scalia's invitation, relatively few litigants have raised challenges to the constitutionality of RICO since *H.J. Inc.*, and virtually all of such challenges have failed. n67

While, in the wake of *H.J. Inc.*, the lower courts continue to employ a variety of approaches to assessing the existence of a "pattern," they have largely abandoned rigid conceptual formulas and have moved toward a more practical test that can be briefly defined as continuous criminal activity lasting (or threatening to last) more than at least a year.

[i] Relatedness

The requirement of relatedness is satisfied if acts have the same or similar purposes, results, participants, victims, or methods of commission, or are otherwise interrelated by distinguishing characteristics such that the acts cannot be considered isolated events. n68 While this is not a difficult test to meet, something more than a coincidental connection must be shown. n69

Moreover, the relationship must be between the acts themselves, and not simply a relationship to a common enterprise, unless the enterprise itself has a predominantly unlawful purpose. For example, in *Vild v. Visconsi*, n70 a mere allegation that the defendants used wire and mail fraud in two otherwise dissimilar schemes did not satisfy the relationship test. The court distinguished the relationship test in the civil context from the test applied in the criminal context:

In a criminal prosecution context, predicate acts committed by organized crime families are

necessarily related because they have the same purpose and relationship as the enterprise. The same does not hold true in civil cases in which businesses may have multiple legitimate purposes and the predicate acts are not related to the enterprise in the same way. n71

Nevertheless, because relatedness is not typically an obstacle to a RICO claim, the vast majority of cases dealing with the pattern requirement turn on the continuity prong of the test.

In *Heller Financial, Inc. v. Grammco Computer Sales, Inc.*, n72 the Fifth Circuit recognized that although the relatedness test was difficult to apply, the Court was required to attempt to give some meaning to the relationship prong of the pattern requirement. The Court concluded "we interpret the relationship prong of the pattern requirement to require more than an articulable factual nexus," and held that a plaintiff must prove a relationship between the criminal aspects of the predicate criminal acts, thereby supporting the conclusion that the criminal acts are ordered or arranged.

[ii] Continuity

Even courts that apply a multi-factor test have recognized that duration is the *sine qua non* of continuity. n73 In fact, in *Neely v. Campos*, the Ninth Circuit was unable to find a single case in which pattern had been satisfied by activity lasting less than a year. n74 The Second Circuit has observed that since *H.J., Inc.*, it had found closed-ended continuity only twice, and in those instances, the pattern had extended for an extensive period of time. The court noted that although giving such weight to the duration of criminal activities was somewhat mechanistic, it was "required to effectuate Congress' intent to target long-term criminal conduct."

While closed-end continuity appears to require acts of more than a year's duration, n75 shorter-term activity may suffice to establish open-ended continuity as long as there is a reasonable spectre that the activity will continue for more than a year. n76 The existence of open-ended continuity has been found even from a single scheme taking place over only six days, n77 and from a single scheme lasting a few weeks, n78 where there was a reasonable threat that the scheme would continue indefinitely. There are however, no clear guidelines as to when conduct may be deemed to raise the threat of continuing activity. The Second Circuit has observed that in cases where the acts of the defendant or the enterprise are inherently unlawful, such as murder or obstruction of justice, and are in pursuit of inherently unlawful goals, such as narcotics trafficking, the courts generally find continuity established by the nature of the activity even if its duration is brief. n79

[2] Enterprise

To constitute a RICO violation, the pattern of racketeering must impact on an "enterprise." n80 An enterprise, as defined in Section 1961(4), "includes any individual, partnership, corporation, association, or other legal entity, and any union or group of individuals associated in fact although not a legal entity." As the Supreme Court noted in *United States v. Turkette*, n81 the existence of an enterprise is a separate element to be proved by a plaintiff. Evidence of the commission of a number of acts of racketeering, constituting a pattern of racketeering action, does not establish the existence of an enterprise. To the contrary, even where, as in *Turkette*, the enterprise is an unlawful conspiracy that perpetuates numerous acts of misconduct, the enterprise is still theoretically "an entity separate and apart from the pattern of activity in which it engages." n82

In *Turkette*, the Supreme Court stated that enterprise "is proved by evidence of an ongoing organization, formal or informal, and by evidence that the various associates function as a continuing unit." n83 An enterprise need not be a legitimate entity; the Supreme Court has held that RICO is equally applicable to a criminal enterprise that has no legitimate aspect or has yet to acquire one. n84

An existing, ongoing formal organization of the type enunciated in the first part of Section 1961(4), i.e., a partnership, corporation, association, or other legal entity, generally will qualify as an enterprise under the standards set forth in

Turkette. n85 In fact, the Eighth Circuit has held that the participation of a corporation in a racketeering scheme is sufficient, in and of itself, to give the enterprise a structure separate from the racketeering activity. n86 A wide range of legitimate enterprises may be named as the vehicle through which racketeering acts are committed, including benevolent and nonprofit organizations, such as unions and benefit funds, governmental units, courts and judicial offices, police departments and motorcycle clubs. n87 However, the second part of the definition, referring to "any union or group of individuals associated in fact" has proven to be more difficult to apply and has led to conflicting views as to the circumstances in which such a group rises to the level of a RICO enterprise.

Since *Turkette*, the circuit courts have disagreed as to whether a RICO "association-in-fact" enterprise must have " 'ascertainable structure' *distinct from* that inherent in the conduct of a pattern of racketeering activity ... or [is established] even when the 'enterprise was, in effect, no more than the sum of the predicate racketeering acts.' " n88

The decision by the Third Circuit in *United States v. Console* n89 exemplifies the approach adopted by those courts that require proof that the enterprise have an ascertainable, independent structure. In *Console*, the government alleged that the RICO enterprise was an association in fact composed of a law firm and a medical practice. The government charged the defendants with a scheme to defraud insurance companies by submitting inflated medical bills on behalf of accident victims represented by the law firm.

The defendants contended that there was no proof that there was any kind of organizational structure for decision making, or that the enterprise existed separate and apart from the racketeering actions as alleged. Rather, the defendants contended that all that was shown was that the two offices combined to commit mail fraud on an *ad hoc* basis.

In rejecting the defendants' contention, the Third Circuit focused on each of the three elements enumerated by the Supreme Court in *Turkette*: proof of an ongoing organization; proof that the associates function as a continuing unit; and proof that the enterprise is an "entity separate and apart from the pattern of activity in which it engages." n90 The Third Circuit held that each of these elements "describes a separate aspect of the life of the enterprise" and requires different proof. n91

To satisfy the first test, the court held that the government was required to show that "some sort of structure exists within the group for the making of decisions, whether it be hierarchical or consensual. There must be some mechanism for controlling and directing the affairs of the group on an ongoing, rather than an *ad hoc*, basis." n92 Having found, however, that the individual defendants supervised the execution of their agreement and supervised the activities of their employees and clients in furtherance of their scheme, the court in *Console* found that the first test, the existence of an ongoing organization, was established.

The second test, according to the court, requires proof that each person "performed a role in the group consistent with the organizational structure established by the first element and which furthers the activities of the organization." n93 This requirement was satisfied by evidence that various employees of the defendants each performed roles within the structure that advanced the scheme devised and directed by the individual defendants.

The third element, according to the court, requires proof that the enterprise has an "existence beyond that which is necessary merely to commit each of the acts charged as predicate racketeering offenses." n94 Supervision and coordination of the commission of the predicate acts and of other activities on an on-going basis is sufficient to satisfy this requirement. In *Console*, this test was satisfied since the defendants continued to provide legitimate services at the same time as they were supervising the illegal scheme.

As *Console* illustrates, even a seemingly strict structural test of enterprise can frequently be satisfied. n95 Moreover, other courts, rejecting the "structure" requirement, have expressed the view that the existence of an association in fact is often more readily proven by what it does, rather than by an analysis of the structure, n96 and that proof of various racketeering acts may be relied on to establish the existence of the enterprise. To courts holding this view, even a

showing of an informal association of persons to conduct an illegal activity will usually suffice to establish an enterprise. n97 The Seventh Circuit, while noting that an enterprise must have a "structure and goals separate from the predicate acts themselves," also observed that RICO applies not only to formal enterprises, but to informal ones like criminal gangs. n98 The Court concluded that there need not be much structure to distinguish an enterprise from a conspiracy. On the other hand, the Seventh Circuit has required that group members have a common purpose, if they are to be considered an enterprise. n99

Despite the fact that the definition of enterprise in Section 1961(4) specifies only single formal entities and a "group of individuals associated in fact although not a legal entity," the Ninth and Second Circuits, and lower courts in the Third and Fourth Circuits, have held that a group or association of formal entities, such as an association solely of corporations, can only qualify as a rationalized RICO enterprise. n100 As the district court reasoned in *Chisholm v. Charlie Falk's Auto Wholesale Inc.*: n101

In enacting RICO, Congress recognized that organized crime in the United States had become a highly sophisticated, organized and widespread business ... Eliminating associations-in-fact of corporations from the reach of RICO would thus allow the most powerful, sophisticated and potentially dangerous criminals to escape punishment. This was certainly not the intent of Congress ... [A]n association in fact of corporations can be an enterprise for purposes of RICO.

However, an association-in-fact enterprise typically cannot consist solely of a corporation and its wholly-owned subsidiaries or divisions, or of an employer and its employees or outside agents, unless their alleged illegal activities go beyond the scope of their regular and intended course of business. n102 On the other hand, controlling shareholders may sometimes be found to be part of an enterprise with the corporations that they control. n103

Until recently, there was great uncertainty as to whether the enterprise, or the pattern of racketeering activity engaged in by the enterprise, had to be economically motivated. n104 However, in *National Organization for Women v. Scheidler*, n105 the Supreme Court resolved this issue by concluding that neither the enterprise nor the racketeering activity engaged in by the enterprise must be economically motivated.

In *Scheidler*, the Seventh Circuit had affirmed the dismissal of RICO claims brought against anti-abortion protesters on the grounds that "non-economic crimes committed in furtherance of non-economic motives are not within the ambit of RICO." n106 The Supreme Court reversed, finding that neither the definitional sections nor the other provisions of the statute provided any indication that an economic motive was required. The Court of Appeals had concluded that, since use of the term "enterprise" in Sections 1962(a) and (b) appears to be connected to economic motivation, the term should have the same meaning in Section 1962(c). The Supreme Court rejected this inference, noting the different roles played by the enterprise in the various subsections. The "enterprise" referred to in subsections (a) and (b) was defined as "something acquired through the use of illegal activities or by money obtained from illegal activities" (though, as the Court noted, even this did not mandate that such an enterprise be profit-seeking). In contrast, the Court found that the enterprise in Section 1962(c) generally was the vehicle through which the unlawful pattern of activity was committed, rather than the victim. The Court stated: "since the enterprise in subsection (c) is not being acquired, it need not have a property interest that can be acquired nor an economic motive for engaging in illegal activity; it need only be an association in fact that engages in a pattern of racketeering activity." n107

[3] Prohibited Activities

If a pattern of racketeering activity has been established, and an appropriate RICO enterprise identified, the next step is to determine whether the acts of the defendant affected the identified enterprise in one, or more, of the four ways prohibited by Section 1962:

(a) It shall be unlawful for any person who has received any income derived, directly or indirectly, from

a pattern of racketeering activity ... to use or invest, directly or indirectly, any part of such income, or the proceeds of such income, in acquisition of any interest in, or the establishment or operation of, any enterprise which is engaged in, or the activities of which affect, interstate or foreign commerce

(b) It shall be unlawful for any person through a pattern of racketeering activity ... to acquire or maintain, directly or indirectly, any interest in or control of any enterprise which is engaged in, or the activities of which affect, interstate or foreign commerce.

(c) It shall be unlawful for any person employed by or associated with any enterprise engaged in, or the activities of which affect, interstate or foreign commerce, to conduct or participate, directly or indirectly, in the conduct of such enterprise's affairs through a pattern of racketeering activity

(d) It shall be unlawful for any person to conspire to violate any of the provisions of subsection (a), (b) or (c)

As the Supreme Court has noted, the three substantive subsections describe a progression from misconduct outside the enterprise through misconduct in gaining access to the enterprise to misconduct entirely from within the enterprise. n108

[a] § 1962(a): Use or Investment of Income or Proceeds of Racketeering Activity to Acquire Interest in or Establish an Operation or Enterprise

The Third Circuit has observed that Section 1962(a) is directed at "halting the investment of racketeering proceeds into legitimate business." n109 Under this section, a plaintiff must demonstrate: that the defendant has received money from a pattern of racketeering activity; that defendant invested that money in an enterprise; and that the enterprise affected interstate commerce. n110 The majority of courts also have held that the plaintiff's injury must be caused by the defendant's use or investment of income in the enterprise, and not by the predicate acts themselves. n111

"Mere investment of racketeering income is insufficient; the plaintiff's injury must stem from the investment of funds by the defendant." n112 As the Third Circuit has observed, if the mere reinvestment of racketeering income were to suffice, the use-or-investment injury requirement would be almost completely eviscerated when the alleged pattern of racketeering is committed on behalf of a corporation:

RICO's pattern requirement generally requires long-term continuing criminal conduct. Over the long term, corporations generally reinvest their profits regardless of the source. Consequently, almost every racketeering act by a corporation will have some connection to the proceeds of a previous act § 1962(c) is the proper avenue to redress injuries caused by the racketeering acts themselves. If plaintiff's reinvestment injury concept were accepted, almost every pattern of racketeering by a corporation would be actionable under 1962(a), and the distinction between 1962(a) and 1962(c) would become meaningless. n113

[b] § 1962(b): Acquisition or Maintenance of Interest in or Control of Enterprise Through Pattern of Racketeering Activity

As with Section 1962(a), the enterprise in Section 1962(b) is the victim of defendant's racketeering activity. To state a claim under section 1962(b), the plaintiff must allege two basic things: the defendant acquired or maintained an interest in an alleged enterprise through a pattern of racketeering activity; and the plaintiff suffered injury to business or property as a result of that acquisition or maintenance. n114 The interest referred to in Section 1962(b) relates to a proprietary interest, such as the acquisition of stock or ownership equity and the classic example of 1962(b) injury is injury to the owner of a legitimate business as a result of infiltration of the business by racketeering activity such as

loan-sharking or extortion. n115

An owner of an enterprise infiltrated by the defendant as a result of racketeering activities may bring suit if the owner is injured by the defendant's acquisition or control of his enterprise. n116 However, it is not enough to show that a person engaged in racketeering has an otherwise legitimate interest in the enterprise: "It must be established firmly that there is a nexus between the interest and the alleged racketeering activities." n117 In all circuits except the Eleventh, an allegation that a pattern of racketeering was used to acquire the interest or control is not sufficient. n118 Rather, a plaintiff must show a causal relationship between the violations and his or her damages. n119

[c] § 1962(c): Unlawful for a Person Employed by or Associated with an Enterprise to Conduct or Participate in Conduct of Enterprise's Affairs Through a Pattern of Racketeering Activity

Section 1962(c) is the section most commonly relied upon by civil RICO plaintiffs. Under Section 1962(c) it is unlawful "for any person employed by or associated with any enterprise engaged in, or the activities of which affect, interstate or foreign commerce, to conduct or participate, directly or indirectly, in the conduct of such enterprise's affairs through a pattern of racketeering activity." Section 1962(c) also proscribes the "collection of unlawful debt," although this provision is rarely invoked in civil RICO actions. n120 Caselaw concerning Section 1962(c) falls into two basic lines. One concerns the scope of activity included within Section 1962(c)'s requirement that the defendant "conduct or participate in the conduct" of an enterprise's activities. The other concerns whether the individual or entity alleged to be the liable person may also be the enterprise.

[i] Participation in the Conduct of an Enterprise.

In *Reves v. Ernst & Young*, n121 the Supreme Court held that to be subject to liability under Section 1962(c) "one must participate in the operation of management of the enterprise itself." n122

Prior to *Reves*, the circuits were split as to the level of participation required to show that a defendant had conducted or participated in the conduct of the affairs of an enterprise through a pattern of racketeering. The split was of considerable practical importance, since under some but not all of the circuits' tests, it was possible to hold outsiders, such as attorneys, accountants, and bankers, liable for Section 1962(c) violations.

In *Reves*, an action under Section 1962(c) was brought against Arthur Young, an independent accounting firm, that had provided audit services for a farmers' cooperative. Plaintiffs alleged that the accounting firm knowingly certified false financial records and otherwise assisted management in perpetrating a fraud on the cooperative's noteholders.

The district court, relying on Eighth Circuit precedent, granted summary judgment for Arthur Young on the RICO claim, holding:

Plaintiffs have failed to show anything more than that the accountants reviewed a series of completed transactions, and certified the Co-Op's records as fairly portraying its financial status as of a date three or four months preceding the meetings of the directors and the shareholders at which they presented their reports. We do not hesitate to declare that such activities fail to satisfy the degree of management [test] n123

The Court of Appeals affirmed, and the Supreme Court granted *certiorari*.

The Supreme Court began its analysis by focusing on the construction of the word "conduct." The Court concluded that, as defined, the term requires some element of direction. The Court then considered the scope of the word "participate," and found that "participate" meant "to take part in" the required direction. Based on these findings, the Court held that "In order 'to participate, directly or indirectly, in the conduct of such enterprise's affairs,' one must have some part in

directing those affairs," n124 *i.e.*, some part in directing the enterprise's "operation or management."

In explaining the scope of this test, the Supreme Court stressed that liability was not limited in application to the upper management of an enterprise. The Court stated:

An enterprise is "operated" not just by upper management but also by lower-rung participants in the enterprise who are under the direction of upper management. An enterprise also might be "operated" or "managed" by others "associated with" the enterprise who exert control over it as, for example, by bribery. n125

Rejecting assertions that the "operation or management" test would preclude the application of RICO to "outsiders," the Court noted that Section 1962(a) and (b) both address the infiltration of legitimate organizations by outsiders, and that outsiders could still be liable under Section 1962(c) if they are associated with the enterprise and participate in the operation or management of the enterprise itself, as in the bribery example. Nonetheless, applying its test to the facts of *Reves*, the Court concluded that Arthur Young's creation of financial statements for the co-op, based on information provided by management, did not constitute the requisite "participation." Accordingly, the Supreme Court affirmed the summary judgment for the defendant.

Taking directions and performing tasks that are necessary or helpful to the enterprise, without more, are insufficient to bring a defendant within the scope of Section 1962(c) because they do not exhibit management or operation of the enterprise's affairs. n126 Further, "[s]imple exertion of control over one aspect of an enterprise's activities does not evince control over the enterprise itself" and will not bring the defendant within the liability of § 1962(c). n127 The First Circuit, however, has rejected a claim that mere employees, by definition, cannot participate in the operation or management of an enterprise, n128 concluding "we think Congress intended to reach all who participate in the conduct of a loan sharking enterprise, whether they are general or foot soldiers."

The *Reves* decision has significantly limited the potential RICO liability of outside professionals, such as accountants and attorneys. Since *Reves*, almost every court to consider the issue has declined to find such advisers directly liable under Section 1962(c). n129 In one case, a bank that performed an essential function, which was the cornerstone of an enterprise, and that decided who among the investors in the enterprise would be paid, was held not to have participated in the operation or the management of the enterprise. n130 In that case, the Court found that it is not enough that the RICO enterprise might not have been able to function without the banking scheme in place. "Even the provision of services essential to the operation of the RICO enterprise itself, is not the same as participating in the conduct of the affairs of the enterprise." n131

A number of decisions however, have held that outside professionals may be liable under Section 1962(c) where they "aided and abetted" the RICO violation of another party who did meet the "operation or management" test. n132 Others have sought to incorporate the "operation or management" test into this realm as well, finding that only inside directors and certain top officers can be liable as aiders and abettors. n133 More broadly, however, the "aiding and abetting" theory may no longer be viable in light of the Supreme Court's decision in *Central Bank of Denver, N.A. v. First Interstate Bank of Denver, N.A.* n134 In *Central Bank*, the Court refused to allow "aiding and abetting" liability under Section 10(b) of the Securities Exchange Act of 1934 because the statute nowhere specifies such secondary liability. As the RICO statute similarly makes no reference to "aiding and abetting" liability (except with respect to the little used portion of Section 1962(a) concerning the collection of an unlawful debt), similar reasoning would seem to preclude aiding and abetting liability under RICO. n135

[iii] Separation of the Defendant and the Enterprise Under § 1962(c)

Section 1962(c) liability extends, by its terms, only to a person "employed by or associated with" the enterprise. The Circuit Courts have uniformly held that § 1962(c) requires some distinctness between the RICO defendant and the

RICO enterprise. n136 This "distinctness" principle was explored in the Supreme Court's decision in *Cedric Kushner Promotions, Ltd. v. King*, n137 in which the president and sole shareholder of a closely held corporation conducted the corporation's affairs in a RICO-forbidden way while acting within the scope of his authority as the corporation's employee. Because the owner/employee was distinct from the corporation itself by virtue of the incorporation, creating a legally different entity with different rights and responsibilities, the "separateness" or "distinctness" requirement of RICO was satisfied. n138 The Court specifically stated that it did not "quarrel with the basic principle that to establish liability under § 1962(c) one must allege and prove the existence of two distinct entities: (1) a 'person'; and (2) an 'enterprise' that is not simply the same 'person' referred to by a different name." n139 Further, the Court distinguished its decision in *Kushner* from prior case law based on different circumstances in which the "distinctness" requirement had not been met, such as: when a corporation is the "person" and the corporation together with all its employees and agents were the "enterprise" n140; or the corporate subsidiaries were "persons" and the subsidiaries taken together as the parent were the "enterprise" n141; or cases in which the same entity was alleged to be both the "person" and the "enterprise." n142 The Court concluded that the RICO statute requires "no more than the formal legal distinction between 'person' and 'enterprise' (namely, incorporation) ... [and therefore] the RICO provision ... applies when a corporate employee unlawfully conducts the affairs of the corporation of which he is the sole owner -- whether he conducts those affairs within the scope, or beyond the scope, of corporate authority." n143

[d] § 1962(d): Conspiracy

Under Section 1962(d) it is unlawful "for any person to conspire to violate any of the provisions of 1962(a), (b) or (c)." Liability under Section 1962 is thus based on the defendants' agreement to engage in activity prohibited by one of the other, substantive subsections of Section 1962. n144

There are two main issues under Section 1962(d) that have divided the courts. The first is whether the acts that allegedly injured the plaintiff can simply be overt acts in furtherance of the conspiracy or must be predicate acts under Section 1961(1). The second is whether a RICO defendant, in order to be held liable, must agree to commit personally at least two requisite acts himself or whether his agreement to be a member of the conspiracy will itself suffice.

The Supreme Court answered the first question in 2000 in *Beck v. Prupis*, n145 holding that "a person may not bring suit under § 1964(c) predicated on a violation of § 1962(d) for injuries caused by an overt act that is not an act of racketeering or otherwise unlawful under the statute." n146 In the *Beck* case, this meant that the former president, CEO, and director of an insurance company could not maintain a § 1962(d) civil RICO conspiracy claim against certain directors and officers of the company who had engaged in acts of racketeering and had orchestrated Beck's employment termination when he brought their wrongdoing to the attention of authorities. Beck's theory was that his injury was caused by the overt act of his employment termination which was done in furtherance of the defendants' conspiracy. The Court rejected this theory, however, and resolved a conflict among the Courts of Appeals, by referring to the well-established common law of civil conspiracy and holding that an "injury caused by an overt act that is not an act of racketeering or otherwise wrongful under RICO is not sufficient to give rise to a cause of action under § 1964(c) for a violation of § 1962(d)." n147

As for the second issue, the Third, Fourth, Sixth, Seventh, Eighth, Ninth and Eleventh Circuits all reject the requirement that a Section 1962(d) defendant participate personally in the commission of two predicate offenses. n148 Rather, "§§ 1962(d)'s target, like that of all provisions prohibiting conspiracies, is the *agreement* to violate RICO's substantive provisions, not the actual violations themselves. Accordingly, ... an individual can be charged under §§ 1962(d) even if he personally does not agree to commit two predicate acts of racketeering. 'The touchstone of liability under §§ 1962(d) is an agreement to participate in an endeavor which, if completed, would constitute a violation of the substantive statute.' Hence, in order to state a viable claim for conspiracy under §§ 1962(d), a plaintiff must allege that (1) the defendant agreed to maintain an interest in or control of an enterprise or to participate in the affairs of an enterprise through a pattern of racketeering activity, and (2) the defendant further agreed that someone would commit at least two predicate acts to accomplish those goals." n149 In these Circuits, a defendant may be liable if he or she simply agrees to

be a member of a conspiracy to violate Section 1962 in one of the ways specified in Section 1962(a), (b) or (c). Proof of an agreement is required and there must be knowledge of and voluntary participation in an agreement to do an illegal act. n150

By contrast, the First and Second Circuits both require that the defendant agree to personally commit at least two of the predicate acts forming the basis of the RICO claim. n151 In *United States v. Ruggiero*, n152 the Second Circuit rejected the government's assertion that a RICO conspiracy charge could be based on the defendants' entry into a conspiracy to engage in an enterprise through a pattern of racketeering acts committed by others. The court stated: "to convict on a RICO conspiracy [the government] must prove that defendant himself at least agreed to commit two or more predicate crimes." n153

Since liability under Section 1962(d) stems from the agreement to engage in actions prohibited under Section 1962(a), (b) or (c), it is not necessary to show that one actually violated those sections to be liable under Section 1962(d). For example, although the *Reves* decision mandates that there can be no violation of Section 1962(c) unless the defendant participates in the operation or management of the enterprise, a district court held that an outside attorney could be liable under Section 1962(d) if he *conspired* to participate in the operation or management of the enterprise. n154

The Seventh Circuit agreed, noting that "to hold that under 1962(d) [the agreement] must show that an alleged co-conspirator was capable of violating the substantive offense under 1962(d), that is, that he participated to the extent required by *Reves*, would add an element to RICO conspiracy that Congress did not direct." n155

FOOTNOTES:

(n1)Footnote 1. The following *state* offenses qualify as predicate acts under § 1961(1)(A):

[A]ny act or threat involving murder, kidnapping, gambling, arson, robbery, bribery, extortion, dealing in obscene matter, or dealing in a controlled substance or listed chemical (as defined in section 102 of the Controlled Substances Act), which is chargeable under State law and punishable by imprisonment for more than one year.

The following *federal* offenses qualify as predicate acts:

Under § 1961(1)(B):

-bribery (18 U.S.C. § 201);-sports bribery (18 U.S.C. 224);-counterfeiting (18 U.S.C. §§ 471-473);-theft from interstate shipment if felonious (18 U.S.C. § 659);-embezzlement from pension and welfare funds (18 U.S.C. § 664);-extortionate credit transactions (18 U.S.C. §§ 891-894);-fraud and related activity in connection with identification documents (18 U.S.C. § 1028);-fraud and related activity in connection with access devices (18 U.S.C. § 1029);-transmission of gambling information (18 U.S.C. § 1084);-mail fraud (18 U.S.C. § 1341);-wire fraud (18 U.S.C. § 1343);-financial institution fraud (18 U.S.C. § 1344);-procurement of citizenship or naturalization unlawfully (18 U.S.C. § 1425);-reproduction of naturalization or citizenship papers (18 U.S.C. § 1426);-sale of naturalization or citizenship papers (18 U.S.C. § 1427);-dealing in obscene matter (18 U.S.C. §§ 1461-1465);-obstruction of justice (18 U.S.C. § 1503);-obstruction of criminal investigations (18 U.S.C. § 1510);-obstruction of state or local law enforcement (18 U.S.C. § 1511);-tampering with a witness, victim, or an informant (18 U.S.C. § 1512);-retaliating against a witness, victim, or an informant (18 U.S.C. § 1513);-false statement in application and use of passport (18 U.S.C. § 1542);-forgery or false use of passport (18 U.S.C. § 1543);-misuse of passport (18 U.S.C. § 1544);-fraud and misuse of visas, permits, and other documents (18 U.S.C. § 1546);-peonage and slavery (18 U.S.C. §§ 1581-1588);-interference with commerce, robbery, or extortion (18 U.S.C. § 1951);-racketeering (18 U.S.C. § 1952);-interstate transportation of wagering paraphernalia (18 U.S.C. § 1953);-unlawful welfare fund payments (18 U.S.C. § 1954);-illegal

gambling businesses (*18 U.S.C. § 1955*);-laundering of monetary instruments (*18 U.S.C. § 1956*);-engaging in monetary transactions in property devised from specified unlawful activity (*18 U.S.C. § 1957*);-use of interstate commerce facilities in the commission of murder-for-hire (*18 U.S.C. § 1958*);-use of illegal money transmitters (*18 U.S.C. § 1960*);-sexual exploitation of children (*18 U.S.C. §§ 2251, 2251A, 2252, and 2260*);-interstate transportation of stolen motor vehicles (*18 U.S.C. §§ 2312-2313*);-interstate transportation of stolen property (*18 U.S.C. §§ 2314-2315*);-trafficking in counterfeit labels for phonorecords, computer programs, or computer program documentation or packaging and copies of motion pictures or other audiovisual works (*18 U.S.C. § 2318*);-criminal infringement of a copyright (*18 U.S.C. § 2319*);-unauthorized fixation of and trafficking in sound recordings and music videos of live musical performances (*18 U.S.C. § 2319A*);-trafficking in goods or services bearing counterfeit marks (*18 U.S.C. § 2320*);-trafficking in certain motor vehicles or motor vehicle parts (*18 U.S.C. § 2321*);-trafficking in contraband cigarettes (*18 U.S.C. §§ 2341-2346*);-white slave traffic (*18 U.S.C. §§ 2421-2424*);-violating prohibitions on biological weapons (*18 U.S.C. §§ 175-178*);-violating prohibitions on chemical weapons (*18 U.S.C. §§ 229-229F*);-violating prohibitions on nuclear weapons (*18 U.S.C. § 831*).

Under § 1961(1)(C):

-restrictions on payments and loans to labor organizations (*29 U.S.C. § 186*); or-embezzlement from union funds (*18 U.S.C. § 501(c)*).

Under § 1961(1)(D):

[A]ny offense involving fraud connected with a case under title 11 [Bankruptcy] (except a case under section 157 of this title), fraud in the sale of securities or the felonious manufacture, importation, receiving, concealment, buying, selling, or otherwise dealing in a controlled substance or listed chemical (as defined in section 102 of the Controlled Substances Act), punishable under any law of the United States.

Under § 1961(1)(E): Any act indictable under the Currency and Foreign Transactions Reporting Act, Pub. L. No. 91-508, 84 Stat. 1118, codified at *31 U.S.C. §§ 1051-1062, 1081-1083, 1101-1105, 1121, 1122* (1982).

Under § 1961(1)(F): Any act indictable under the following provisions of the Immigration and Nationality Act, if committed for purpose of financial gain:

-bringing in and harboring certain aliens (*8 U.S.C. § 1324*);-aiding or assisting certain aliens to enter the United States (*8 U.S.C. § 1327*); or,-importation of alien for immoral purpose (*8 U.S.C. § 1328*).

Under § 1961(1)(G): Any act indictable under any provision listed in *18 U.S.C. § 2332b(g)(5)(B)* regarding acts of terrorism transcending national boundaries.

The meaning of "involving" under Section 1961(1)(A) and (D) appears not yet to have been defined by the courts.

(n56)Footnote 56. See *Torwest DBC, Inc. v. Dick*, 810 F.2d 925, 929 (10th Cir. 1987) (alleged scheme to recover secret profits by self-dealing of some of plaintiff's directors in sale of property to an enterprise; removal of defendants from the boards of the enterprises eliminated any threat of continuity); *Holmberg v. Morrisette*, 800 F.2d 205, 210 (8th Cir. 1986) , (one scheme to draw down three letters of credit securing a defendant's transactions with a third party absent any indication that defendants had engaged in like activities in the past or that they were engaged in other criminal activities); *Superior Oil Co. v. Fulmer*, 785 F.2d 252, 257 (8th Cir. 1986) (several related acts of mail and wire fraud in pursuit of gas conversion from plaintiff's pipeline were part of one isolated scheme; court noted that there was no indication that defendants had done these acts in the past nor that they were engaged in other criminal acts elsewhere); *Kredietbank, N.V. v. Joyce Morris, Inc.*, Civ. No. 84-1903, 1986 U.S. Dist. LEXIS 30653, at *9-11 (D.N.J.

Oct. 11, 1985) (two alleged mail frauds in submission of allegedly false affidavits in a prior lawsuit lacked ongoing nature); *Allington v. Carpenter*, 619 F. Supp. 474, 478 (C.D. Cal. 1985) (three alleged acts of wire fraud in inducement of a single loan took place in only one criminal episode); *Northern Trust Bank/O'Hare, N.A. v. Inryco, Inc.*, 615 F. Supp. 828, 831-33 (N.D. Ill. 1985) (alleged taking of four kickbacks on a single warehouse construction project, involving at least two and perhaps more uses of the mails, lacked the required "multiplicity of events").

But see *Bank of America Nat'l Trust & Sav. Ass'n v. Touche, Ross & Co.*, 782 F.2d 966, 970, 970-71 (11th Cir. 1986) (pattern requirement satisfied by allegations of nine distinct mail and wire fraud violations involving the same parties that were part of a single three-year scheme to prepare false financial statements and reports to induce plaintiff banks to lend money to the enterprise); *R.A.G.S. Couture, Inc. v. Hyatt*, 774 F.2d 1350, 1354-55 (5th Cir. 1985) (two acts of alleged mail fraud, five months apart, in a single scheme to collect on false invoices could constitute a pattern).

(n57)Footnote 57. *H.J. Inc. v. Northwestern Bell Tel. Co.*, 492 U.S. 229, 236, 109 S. Ct. 2893, 106 L. Ed. 2d 195 (1989) ("[D]eveloping a meaningful concept of 'pattern' within the existing statutory framework has proved to be no easy task.").

Supp. 18, 21 (D.P.R. 1990) , *aff'd*, 948 F.2d 41 (1st Cir. 1991) ("the term 'enterprise' must signify an association that is substantially different from the acts which form the 'pattern of racketeering activity.' ").

For cases decided by the Seventh Circuit see, e.g., *Segreti v. Lome*, 747 F. Supp. 484, 486 (N.D. Ill. 1990) ("enterprise must be an entity separate and apart from the pattern of racketeering activity in which it engages" and must be defined "by what it is, not what it does.") (internal quotations omitted). But see, *United States v. King*, 850 F. Supp. 750, 751, 753 (C.D. Ill. 1994) (court rejects jury instruction requiring Government to prove the existence of an enterprise separate and apart from the racketeering activity in which it engaged).

(n92)Footnote 92. *Console*, 13 F.3d at 651 (citing *United States v. Riccobene*, 709 F.2d 214, 222 (3d Cir. 1983)) .

(n93)Footnote 93. *Console*, 13 F.3d at 651 .

(n94)Footnote 94. *United States v. Console*, 13 F.3d 641, 651 (3d Cir. 1993) .

(n95)Footnote 95. *Console*, 13 F.3d at 652 . See also *Libertad v. Welch*, 854 F. Supp. 19, 25-28 (D.P.R. 1993) , *aff'd in part, rev'd in part, remanded*, 53 F.3d 428 (1st Cir. 1995) (alleged association-in-fact could not constitute a valid RICO enterprise where it had no structure or organization beyond that necessary to commit the underlying predicates).

In the Seventh Circuit, see *Chicago HMO v. Trans Pacific Life Ins. Co.*, 622 F. Supp. 489, 495 (N.D. Ill. 1985) (if the defendants "were involved in a fairly long term, continuing relationship that had some [distinct] identity ... it is conceivable that such an entity could constitute an 'enterprise.' ").

In the Ninth Circuit, see *Allington v. Carpenter*, 619 F. Supp. 474, 478-79 (C.D. Cal. 1985) . See also *United Energy Owners Comm., Inc. v. United States Energy Management Systems, Inc.*, 837 F.2d 356, 362 n.13 (9th Cir. 1988) (approving of the *Allington* opinion).

Cf. McCullough v. Suter, 757 F.2d 142, 144 (7th Cir. 1985) (sole proprietorship could be an enterprise because proprietor had several employees, all of whom together were more than "just a one-man band").

(n96)Footnote 96. *United States v. Coonan*, 938 F.2d 1553, 1559 (2d Cir. 1991) citing *United States v. Bagaric*, 706 F.2d 42,, 56 (2d Cir. 1983) ; *United States v. Darden*, 70 F.3d 1507, 1521 (8th Cir. 1995) .

(n97)Footnote 97. *United States v. Weinstein*, 762 F.2d 1522, 1537 (11th Cir. 1985) ("[T]he definitive factor in determining the existence of a RICO enterprise [is] an association of individuals, however loose or informal ..."). *United States v. Bagaric*, 706 F.2d 42 (2d Cir. 1983) . See also *United States v. Bagnariol*, 665 F.2d 877 (9th Cir. 1981) *vacated on other grounds sub nom*, *United States v. Walgren*, 885 F.2d 1417 (9th Cir. 1989) .

CHAPTER 10 Private RICO Litigation

2-10 Federal Securities Exchange Act of 1934 § 10.03

AUTHOR: Frederick Robinson Matthew H. Kirtland*

§ 10.03 Injury, Causation, and Standing

[1] Standing

Section 1964(c) sets forth the standing requirements for a private civil RICO action:

Any person injured in his business or property by reason of a violation of § 1962 of this chapter may sue therefor in any appropriate United States district court and shall recover threefold the damages he sustains and the cost of the suit, including a reasonable attorney's fee, except that no person may rely upon any conduct that would have been actionable as fraud in the purchase or sale of securities to establish a violation of section 1962. The exception contained in the preceding sentence does not apply to an action against any person that is criminally convicted in connection with the fraud, in which case the statute of limitations shall start to run on the date on which the conviction becomes final. n1

To satisfy RICO's private civil standing requirement, the courts have held that a plaintiff must establish, in addition to a violation of Section 1962, an injury to plaintiff's business or property proximately caused by a RICO violation. The first question thus presented is whether the injury must result from the underlying predicate acts or from the further "RICO" act (the impact on the enterprise) specified in Section 1962. n2

Prior to the Supreme Court's decision in *Sedima, S.P.R.L. v. Imrex Co.*, n3 several courts had held that injury resulting from the predicate acts of racketeering alleged was insufficient even in an action brought under Section 1962(c). Instead, these courts held that the plaintiff must prove some distinct racketeering or competitive injury that was either "different in kind from that occurring as a result of the predicate acts themselves, or not simply caused by the predicate acts, but also caused by an activity which RICO was designed to deter. n4 This analysis mirrored the standing test applied in the antitrust context, which required special antitrust injury. n5

In *Sedima*, the Supreme Court rejected the notion that RICO required any distinct "racketeering injury" requirement under Section 1962(c). The Court reasoned that:

[t]he compensable injury necessarily is the harm caused by predicate acts sufficiently related to constitute a pattern, for the essence of the violation is the commission of those acts in connection with

the conduct of an enterprise Any recoverable damages ... will flow from the commission of the predicate acts. n6

Sedima, however, did not resolve the issue of whether an injury flowing only from the predicate acts was sufficient under Section 1962(a) and (b).

Section 1962(a) makes it unlawful for a person who has received income from a "pattern of racketeering activity" to "use or invest" the income so obtained in an enterprise engaged in commerce. Despite *Sedima*, a number of courts have held that injuries caused solely by the predicate racketeering activity, as distinguished from injury caused by the "use or investment" of the income derived from that racketeering, are insufficient to support a claim under 1962(a). n7

In *Ouaknine v. MacFarlane*, n8 for example, the Court reasoned that, "under the plain terms of the statute," a violation of Section 1962(a) is created not by mere participation in predicate acts of racketeering but by the investment or use of income derived from that racketeering to acquire an interest in, establish or operate an enterprise. n9 Similarly, in *Brittingham v. Mobil Corp.*, n10 the Third Circuit concluded that a Section 1962(a) injury allegedly resulting from the mere reinvestment of racketeering income in an enterprise, that still allowed the enterprise to continue its operations, was insufficient. n11

The contrary view, now a distinct minority view, was expressed by the Fourth Circuit, *en banc*, in *Busby v. Crown Supply Inc.* n12 In *Busby*, the court examined the language of the statute and found that nothing in the "by reason of" language of Section 1964(c) limits the compensable racketeering injuries to those sustained *after* the investment and/or use of the income. The Fourth Circuit noted that plaintiffs may sustain injury from a Section 1962(a) violation "in the process of the [defendant] corporation's receipt and use of the illegally obtained income" and that recovery for such injury is proper even if the defendants use of the proceeds did not contribute to or cause the injury. n13 Referring to the fact that RICO is to be liberally interpreted, the Fourth Circuit concluded that if the investment use rule were applied:

[c]orporate liability under RICO will be eviscerated. Given that the named "person" and the named "enterprise" must be separate for 1962(c) purposes ... plaintiffs injured by corporate racketeering have only § 1962(a) to turn to for relief Invoking the "investment use" rule would close this avenue off, as it is virtually impossible to prove that the invested income caused the alleged injury. n14

Although the case law is much less developed under Section 1962(b), there appears to be a similar split. n15

The circuits have also split on the issue of whether a person has standing to sue for conspiracy to violate RICO if he or she is injured by a conspirator's overt acts that do not constitute specifically delineated predicate acts of racketeering. This is similar to the split over the requirements for a RICO conspiracy violation, *see* § 10.02[3][d], *supra*, which was resolved in *Beck v. Prupis*, n16 in which the Supreme Court held that "a person may not bring suit under § 1964(c) predicated on a violation of § 1962(d) for injuries caused by an overt act that is not an act of racketeering or otherwise unlawful under the statute." n17

By contrast, the First, Second, Sixth, Eighth, and Ninth Circuits, as well as a district court in the D.C. Circuit all have held that injury in a Section 1962(d) conspiracy claim must result from a predicate act committed in furtherance of a conspiracy to violate RICO. n18 The Eighth Circuit, expressing the majority view, concluded:

Imposing the predicate act requirement on civil claims based on violations of § 1962(d) narrows the focus of those suits to the specified racketeering activity that lies at the heart of the RICO statute. While this might appear to collapse a civil RICO suit based on a § 1962(d) conspiracy into those suits based on substantive RICO violations as delineated in 1962(a)-(c), any other result would render this decision merely a guide to an artful pleader. n19

[2] Injury

Under any of these approaches to any of RICO's violations, the only compensable injury is injury to business or property, as specified in section 1964(c). In construing this requirement, the courts have repeatedly held that neither personal injury nor emotional distress can provide the basis for injury under RICO. n20 As the Third Circuit explained:

Congress' apparent unwillingness to allow recovery for personal injuries under RICO appears to be consistent with enacting RICO and its specific intention to thwart the organized criminal invasion and acquisition of legitimate business enterprises and property. Ample law already existed to provide recovery for wrongfully inflicted personal injuries ... We discern no injustice in limiting a RICO plaintiff's recovery for his personal injuries to ordinary non-RICO legal measures. n21

However, while the Ninth Circuit has held that injury requires proof of concrete financial loss, perhaps even requiring proof that the plaintiff actually paid out money as a result of racketeering activity, n22 other courts have held that intangible economic injuries can constitute RICO "injury." n23

[3] Causation

Finally, plaintiffs must plead and prove the requisite causal nexus between the RICO activity and the plaintiffs' injuries. Section 1964(c) defines this nexus with the words "by reason of." Considering this language in *Holmes v. SIPC*, the Supreme Court held that to prove that an injury resulted "by reason of" the actions of the defendant, the plaintiff must show that the defendant's violations were a "proximate" cause of the plaintiff's injury *i.e.*, more than simple factual causality is required. n24 In reaching this conclusion, the Court noted that Congress, in promulgating Section 1964(c), modeled it on the civil action provision of the federal antitrust laws, section 4 of the Clayton Act, and, in so doing, intended that proximate cause, which is required under the Clayton Act, also would be required under RICO. n25 Under the Clayton Act, "proximate cause" is defined as some close or "direct relation between the injury asserted and the injurious conduct alleged." n26

In *Holmes*, The Supreme Court found several virtues in the "direct relation" requirement:

First, the less direct an injury is, the more difficult it becomes to ascertain the amount of a plaintiff's damages attributable to the violation, as distinct from other, independent factors Second, quite apart from problems of proving factual causation, recognizing claims of the indirectly injured would force courts to adopt complicated rules apportioning damages among plaintiffs removed at different levels of injury from the violative acts, to obviate the risk of multiple recoveries ... And, finally, the need to grapple with these problems is simply unjustified by the general interest in deterring injurious conduct, since directly injured victims can generally be counted on to vindicate the law as private attorneys general, without any of the problems attendant upon suits by plaintiffs injured more remotely. n27

As applied, the proximate cause requirement has led to the dismissal of numerous claims. For example, in *Anza v. Ideal Steel Supply Corp.*, plaintiff, a steel supply company, alleged one of its competitors committed wire and mail fraud by failing to charge its cash-paying customers sales tax and then investing the illegally obtained income in competing offices. n28 The plaintiff claimed these actions directly caused him to lose a significant share of his business due to his competitor's unfair market advantage. n29 Relying on the analysis in *Holmes*, the Court ruled that the "direct victim" of defendant's conduct was the State of New York, not the plaintiff, since plaintiff's harms stemmed from "a set of actions (offering lower prices) entirely distinct from the alleged RICO violation (defrauding the State)." n30 The fact that plaintiff's lost sales could have resulted from any number of causes "implicates fundamental concerns expressed in *Holmes*." n31 The Court therefore declined to find proximate causation for a violation of § 1962(c) and remanded the case to the Second Circuit to determine whether defendant's alleged violation proximately caused plaintiff's injuries under § 1962(a). n32

In the majority of circuit cases where the courts have ruled on the issue of causation, they have held that the alleged pattern of racketeering was not the proximate cause of the plaintiff's injury. n33 In a sizable minority, however, proximate cause was found. n34 When factors other than the defendant's fraud are an intervening direct cause of plaintiff's injury, plaintiff's claim will be rejected as his injury cannot be said to have occurred by reason of the defendant's actions. n35

However, a business that loses contracts to a competitor who hires and underpays undocumented aliens (a RICO predicate offense) has standing to bring a civil RICO action since there is a direct proximate relationship between the business's injury of losing contracts and the competitor's pattern of racketeering. n36 Further, the Seventh Circuit held that the *Holmes* decision did not preclude all possibility of recovery for injury that was transmitted indirectly, and held that a RICO suit could be brought by a business derivatively injured by acts aimed at its potential customers. n37

In the context of mail and wire fraud -- two of the more commonly alleged predicate acts -- the circuits are split on the question of whether a plaintiff must rely on the defendants' misrepresentation to establish proximate cause. n38 The Second, Sixth, Eighth, and Eleventh Circuits have adopted the position that an act of mail or wire fraud may only serve as a predicate act if the plaintiff has actually relied on defendant's fraudulent misrepresentations. n39 In contrast, the First and Fifth Circuits have rejected the idea that detrimental reliance by the plaintiff is required. n40

Newell*, No. 91-2899, 1993 U.S. App. LEXIS 3243, at *12-15 (7th Cir. Feb. 25, 1993) (competitor's bribery of mayor did not cause police chief to stop making referrals to plaintiff); *Scivally v. Graney*, No. 92-11688 1993 U.S. Dist. LEXIS 7826, at *8 n.3 (D.C. Mass June 7, 1993) , aff'd, 1994 U.S. App. LEXIS 7834 (1st Cir. Apr. 15, 1994) (alleged pattern of bribery did not cause plaintiff to lose her position on employee committee); *First Nationwide Bank v. Gelt Funding Inc.*, No. 92-0790, 1992 U.S. Dist.

LEXIS 18278, at *15-29 (S.D.N.Y. Nov. 30, 1992) (bank's injury resulted from downturn in real estate market not alleged misrepresentations).

(n34)Footnote 34. See, e.g., *Commercial Cleaning Servs. v. Colin Serv. Sys., Inc.*, 271 F.3d 374, 381-83 (2d Cir. 2001) (allegation that underbidding cleaning business kept its costs low by hiring illegal aliens and underpaying them satisfied the proximate cause requirement for civil RICO); *Standardbred Owners Ass'n v. Roosevelt Raceway Ass'n, L.P.*, 985 F.2d 102, 104 (2d Cir. 1993) (scheme to sell racetrack caused direct injury to horse owners, trainers and others); *Cox v. Administrator, United States Steel & Carnegie*, 17 F.3d 1386, 1399 (11th Cir. 1994) (Union negotiators' request for pension benefits from company could have been proximate cause of union's concessions on bargaining issues, causing injury to union members).

(n35)Footnote 35. *Powers v. British Vita, PLC*, 57 F.3d 176, 189 (2d Cir. 1995) (finding that a decline in the market value of stock was an intervening cause).

(n36)Footnote 36. *Commercial Cleaning Servs. v. Colin Serv. Sys., Inc.*, 271 F.3d 374, 383 (2d Cir. 2001) (if the business can prove that but for the lower wage costs related to the illegal hiring scheme, it would have won the contract in question and earned a profit on it, "it will have shown a proximately caused injury, compensable under RICO").

(n37)Footnote 37. *Israel Travel Advisory Service, Inc. v. Israel Identity Tours*, 61 F.3d 1250, 1257-58 (7th Cir. 1995) (plaintiff could not base its claim on predicate acts of mail fraud, however, since the mail fraud statute protected customers only, and not those who were potential vendors to customers).

(n38)Footnote 38. Recently, in *Anza*, the Supreme Court did not reach whether reliance is necessary to plead mail or wire fraud because the plaintiff had otherwise failed to adequately plead proximate cause. In a lengthy dissent, Justice Thomas disagreed with the majority's proximate cause analysis and moreover found that a plaintiff did not have to plead reliance. *Anza*, 126 S. Ct. at 2007. He stated that while reliance may be one method to establish causation, it was not the only one, since the defendant's fraudulent actions could harm the plaintiff in other ways than where the plaintiff relied on defendant's fraudulent misrepresentations. *Id.* at 2008.

(n39)Footnote 39. See *Central Distributors of Beer Inc. v. Conn.*, 5 F.3d 181 (6th Cir. 1993); *Pelletier v. Zweifel*, 921 F.2d 1465 (11th Cir. 1991) (requiring plaintiff to have relied on misrepresentations to his detriment); *County of Suffolk v. Long Island Lighting Co.*, 907 F.2d 1295 (2d Cir. 1990) (finding that phrase "by reason of" requires plaintiff to allege reliance on misrepresentation); *Flowers v. Cont'l Grain Co.*, 775 F.2d 1051 (8th Cir. 1985).

(n40)Footnote 40. See *System Management Inc. v. Loiselle*, 303 F.3d 100, 104 (1st Cir. 2002) (finding that "criminal fraud under the federal [RICO] statute does not require 'reliance' by anyone: it is enough that the defendant sought to deceive, whether or not he succeeded."); *Proctor & Gamble Co. v. Amway Corp.*, 280 F.3d 519, 61 U.S.P.Q.2d 1385 (5th Cir. 2002) (reliance not required so long as other elements of proximate causation are met).

CHAPTER 10 Private RICO Litigation

2-10 Federal Securities Exchange Act of 1934 § 10.04

AUTHOR: Frederick Robinson Matthew H. Kirtland*

§ 10.04 Damages and Other Relief

Once the elements of a private civil RICO claim have been established, Section 1964(c) requires that a plaintiff recover treble damages and attorneys' fees. n1 A few examples of these kinds of damages are as follows:

- When a pattern of predicate acts in violation of RICO forces competitors out of business, RICO recovery is available to the injured competitors for lost profits, and to the monopolist's purchasers for excess costs; n2
- when a pattern of predicate acts in violation of RICO requires protection money, purchase of certain goods, or hiring of certain employees, RICO recovery is available for added costs accruing from these payments; and
- when a pattern of predicate acts in violation of RICO enables the perpetrator to gain control of a business, RICO recovery is available to displaced owners for the loss of control, to competitors due to any enhanced position the enterprise achieved from the predicate acts or from continuing predicate acts, and to customers upon whom the enterprise may force added costs.

However, damages for indirect injuries were held insufficient in a case in which county taxpayers sought recovery for higher assessments of their property. The assessments were allegedly attributable to defendant's alleged bribery scheme securing lower tax assessments for his clients. n3 The court analogized to the antitrust *Illinois Brick* doctrine n4 under which only the direct purchaser may recover from an overcharging antitrust violator.

Other cases have held that a stockholders' derivative action for injury to the corporation and concomitant decrease in the value of stockholdings does not lie. These cases have stated that stockholders lacked standing to sue for their indirect loss that merely reflected the decrease in the value of the corporation, and that their rights must be asserted through the corporation. n5

The Second Circuit has held that shareholders lack standing to bring a derivative action on behalf of the corporation where the alleged wrongful activity was intended to benefit the corporation and any injury to the corporation occurred,

not as a result of that activity, but rather as a result of the public exposure thereof. Since the injury to the corporation was neither the preconceived purpose nor the intended consequence of the defendant's acts, the Court held that plaintiffs lacked standing to assert a shareholder derivative action. n6

A case of apparent first impression decided that there is no right to contribution on a third-party complaint under RICO, at least as to third-party defendants who did not participate in the underlying allegedly fraudulent acts. n7 Meanwhile, the D.C. Circuit ruled that disgorgement of profits is not an available remedy under § 1964(a). n8 The language of the RICO statute indicated that the jurisdiction of § 1964(a) is limited to forward looking remedies designed to "prevent and restrain" RICO violations. Disgorgement, meanwhile, is a primarily backward-looking remedy meant to deal with past conduct. n9 The court therefore concluded that "[t]he order of disgorgement is not within the terms of that statutory grant, nor any necessary implication of the language of the statute." n10

In pleading damages, a plaintiff may also claim "racketeering injury" damages flowing from the RICO violation itself rather than directly from the predicate acts, which, even though not required under Section 1962(c), are allowable.

The question of whether private injunctive or other equitable relief is available under RICO is still an open one. n11 Some district courts have denied request for this kind of relief on the ground that it is not provided for by the statute. n12 Circuit courts have expressed serious doubt that these remedies are available in a private action. n13 Moreover, Congress has twice rejected amendments that would have expressly conferred a right to equitable relief on private RICO plaintiffs. n14 However, some district courts have granted injunctions or other equitable relief, n15 or denied a motion to dismiss the claim, n16 while others have tacitly assumed the existence of equitable remedies either by denying the relief on other grounds without questioning the propriety of the claim n17 or by recognizing the allowability of the remedy in dicta. n18

The Seventh Circuit in *NOW v. Scheidler*, n19 held that the RICO statute authorized private parties to seek injunctive relief. The court affirmed the district court's issuance of a permanent nationwide injunction prohibiting the defendants from physically blocking access to abortion clinics after the jury found RICO violations and awarded treble damages.

CHAPTER 10 Private RICO Litigation

2-10 Federal Securities Exchange Act of 1934 § 10.05

AUTHOR: Frederick Robinson Matthew H. Kirtland*

§ 10.05 Miscellaneous Matters

[1] Commerce

In *United States v. Robertson*,ⁿ¹ the Supreme Court concluded that a corporation is "generally engaged in commerce when it is itself directly engaged in the production, distribution or acquisition of goods and services in interstate commerce," and found that when equipment and supplies for a gold mine were purchased out of state and when workers were solicited and hired from out of state and the mine's output taken out of state, the activities of the gold mine brought it well within the "engaged in" interstate commerce language of Section 1962(a). The Court found it unnecessary to address the issue of whether the gold mine's activities had affected interstate commerce because it found that such a test was relevant only when assessing whether certain intrastate activity had substantial interstate affects.

[2] Jurisdiction and Venue

Jurisdiction over violations of RICO is conferred on the federal district courts by Section 1964(a), and section 1964(c) grants the private right of action. Additional bases of federal jurisdiction are 28 U.S.C. § 1331 (action arising from federal law) and, in appropriate cases, 28 U.S.C. § 1332 (diversity of citizenship). Since RICO does not contain a provision governing personal jurisdiction, obtaining personal jurisdiction depends on the law of the state in which the action is brought. Ordinary principles of pendent jurisdiction apply for collateral jurisdiction over related state claims.
n2

In early 1990, a unanimous Supreme Court held in *Taflin v. Levitt*ⁿ³ that state courts have concurrent jurisdiction with federal courts in private RICO cases.

As for venue, RICO has both an ordinary and an extraordinary venue provision. Under RICO's ordinary provision, venue exists in any district in which the defendant resides, is found, has an agentⁿ⁴ or transacts affairs.ⁿ⁵ While this provision does not by its terms include venue where the claim arose, as does the general federal provision,ⁿ⁶ courts have viewed RICO's provision as non-exclusive and have found venue where the claim arose by reference to the general federal statute.ⁿ⁷

RICO's extraordinary venue provision, contained in Section 1965(b), allows suit to proceed in any district where it is

shown that the "ends of justice" so require. Section 1965(b) was employed in a case arising from the liquidation of two broker-dealer firms to exercise venue over numerous out-of-district defendants and enable trial of all claims in the same forum. n8

[3] RICO Case Statements

In order to clarify allegations, avoid unsubstantiated claims, and allow courts to determine the validity of RICO claims, many federal district courts now require that plaintiffs alleging RICO violations file a RICO Case Statement. Oftentimes exacting, RICO Case Statements ordinarily require plaintiffs to respond to specific questions patterned after the specific elements of their RICO claim. Some courts have standing orders requiring that a RICO Case Statement automatically be filed along with the complaint, while others may order the filing of a case statement upon request by the defendant, in response to a Fed. R. Civ. P. 12(b)(6) motion to dismiss for failure to state a claim, Fed. R. Civ. P. 12(e) motion for more definite statement, or in later stages of litigation. n9

Courts have noted that the statements help to implement Federal Rule of Civil Procedure 9(b)'s requirement that plaintiffs plead fraud with particularity. n10 Plaintiffs who are unable to provide the required information may have their RICO claims dismissed. RICO Case Statements are subject to the mandates of Federal Rule of Civil Procedure 11. n11

[4] RICO and State Law Conflicts

The Supreme Court had occasion to determine whether RICO impaired a state law which proscribed the same conduct but which provided different remedies in *Humana, Inc. v. Forsyth*. n12 Beneficiaries of group health insurance plans issued by the defendant insurance company brought a RICO suit alleging a pattern of racketeering activity. The defendants moved for summary judgment citing the McCarran-Ferguson Act, n13 which precludes application of a federal statute if it "invalidates, impairs, or supersedes" any state law enacted to regulate insurance unless the federal law specifically relates to the business of insurance. The Court held that because RICO "advances the State's interest in combating insurance fraud, and does not frustrate any articulated Nevada policy, ... the McCarran-Ferguson Act [did] not block the respondent beneficiaries' recourse to RICO." n14

[5] Limitation Periods

[a] Four Year Statute of Limitations

In *Agency Holding Corp. v. Malley-Duff & Associates, Inc.*, n15 the United States Supreme Court recognized the need for a uniform federal statute of limitations in civil RICO cases and held that the four-year statute of limitations applicable to Clayton Act civil enforcement actions n16 applies to RICO civil enforcement actions.

The cause of action in *Malley-Duff* arose in February, 1978 when petitioner, Crown Life Insurance Company, terminated its relationship with its agent, respondent Malley-Duff, for failure to meet a production quota. In March 1981, Malley-Duff brought suit under RICO alleging, *inter alia*, that the petitioner's true reason for the termination was to acquire Malley-Duff's lucrative territory. n17 The federal district court granted the petitioner's motion for summary judgment on all counts and dismissed Malley-Duff's RICO claims on the ground that they were barred by Pennsylvania's two-year statute of limitations period for fraud. n18 The District Court concluded that this was the best state law analogy for Malley-Duff's claims. The Court of Appeals for the Third Circuit reversed, n19 holding that under *Wilson v. Garcia*, n20 Pennsylvania's "catchall" six-year residual statute of limitations n21 was the appropriate statute of limitations for all RICO claims arising in the state. n22

The Supreme Court concluded in *Malley-Duff* that a better approach for the federal courts would be a uniform federal statute of limitations. n23 Part of the Court's reasoning was that predicate acts that may establish a civil RICO violation are far ranging and cannot be reduced to a single generic classification. Also, important RICO concepts such as a RICO

"enterprise" and "pattern of racketeering activity" were unknown to common law. For these reasons, the Court concluded that a uniform federal statute of limitations was required to avoid intolerable uncertainty and time-consuming litigation. n24

Another reason for having a uniform federal statute of limitations cited by the Court was the multistate nature of RICO. The possibility of multiple state statutes of limitations plainly presents the dangers of forum shopping and of complex, expensive, and unnecessary litigation. n25 Moreover, application of a uniform federal limitations period avoids the possibility of the application of unduly short state statutes of limitations that would defeat the legislative purpose of creating an effective remedy. n26

After comparing the language of both statutes, the Court concluded that RICO's private enforcement provision was patterned after Section 4 of the Clayton Act. n27 Therefore, the Court reasoned, the Clayton Act provides a far closer analogy to RICO than any state statute. Both acts seek to remedy economic injury. Both encourage attorneys general with a treble damage remedy, and each requires a plaintiff to demonstrate injury to business or property by reason of a violation. n28 Moreover, aside from the similarities in purpose and structure between RICO and the Clayton Act, the Court concluded that there was clear legislative intent to pattern RICO's civil enforcement provision on the Clayton Act. n29

Finally, the Court stated that there was no Congressional intent opposing a uniform federal statute of limitations. n30 Therefore, the federal policies that lay behind RICO and the practicalities of RICO litigation made the selection of the four-year statute of limitations for Clayton Act actions the most appropriate limitations period for civil RICO actions. n31 As a result, it is clear that the four-year period applies to all RICO claims regardless of the limitations period applicable to the underlying predicate act.

[b] Accrual of RICO Claim

Prior to 1997 there were three distinct approaches for determining when the statute of limitations period in a RICO action had begun:

- (1) the "last predicate act" rule, in which the statute of limitations began to run as soon as the plaintiff knew or should have known of the injury and the pattern of racketeering but that could begin to run anew with each predicate act that formed part of the same pattern; n32
- (2) the "injury and pattern discovery" rule in which the RICO claim accrued only when the claimant discovered, or should have discovered, an injury and a pattern of RICO activity; n33 and
- (3) the "injury discovery" rule in which the statute of limitations began to run when the plaintiff knew or should have known of the injury. n34

The Supreme Court's 1997 decision *Klehr v. A.O. Smith Corp.*, n35 eliminated the "last predicate act" rule and the Court's 2000 decision in *Rotella v. Wood*, n36 eliminated the "injury and pattern discovery" rule for purposes of the accrual of a RICO claim. The "last predicate act" rule was rejected because it created a limitations period that was longer than Congress could have contemplated -- with each predicate act separated by as many as ten years, the limitations period could go on for decades. n37 In addition, the "last predicate act" rule was inconsistent with the ordinary rule of the Clayton Act, upon which the civil RICO statute was patterned. n38 The "injury and pattern discovery" rule was rejected by the Supreme Court for similar reasons:

We start with the realization that under the provision recognizing the possibility of finding a pattern of racketeering in predicate acts 10 years apart, even an injury occurrence rule unsoftened by a discovery feature could in theory open the door to proof of predicate acts occurring 10 years before injury and 14

before commencement of litigation. A pattern discovery rule would allow proof of a defendant's acts even more remote from time of trial and, hence, litigation even more at odds with the basic policies of all limitations provisions: repose, elimination of stale claims, and certainty about a plaintiff's opportunity for recovery and a defendant's potential liabilities. n39

Any accrual rule that includes a pattern discovery feature ties the start of the limitations period to a plaintiff's "reasonable discovery of a pattern" instead of to the point of injury or its reasonable discovery. The pattern discovery feature extends the potential limitations period for most civil RICO cases well beyond the time when the cause of action is complete. n40 In *Rotella* the Court specifically declined to decide whether "civil RICO allows for a cause of action when a second predicate act follows the injury, or what limitations accrual rule might apply in such a case." n41

Having struck down both the "last predicate act" and the "injury and pattern discovery" rules, the Court acknowledged that this left the "injury discovery" rule, but the Court declined to "settle on a final rule" noting that in addition to the various forms of the injury discovery rule in the Courts of Appeals, there is the possibility of a straight injury *occurrence* rule, under which discovery would be irrelevant. n42

[c] Tolling the Statute of Limitations; Fraudulent Concealment

Courts generally have incorporated the concept of equitable tolling into RICO, and have thereby delayed the running of the limitation period while a victim diligently investigates the possible existence and extent of a pattern of racketeering. n43

Fraudulent concealment is another equitable doctrine that is read into RICO. Because the RICO limitations period is derived from the Clayton Act, courts have adopted federal fraudulent concealment doctrine for civil RICO claims. n44 Fraudulent concealment will serve to toll a statute only if: (1) the plaintiff lacked actual knowledge of the defendant's unlawful activities, (2) the defendant took "affirmative steps" to conceal its actions, and (3) the plaintiff exercised "reasonable diligence" in trying to discover the cause of action. n45

The Supreme Court reaffirmed the importance of the plaintiff's "due diligence" in the civil RICO context in *Klehr v. A.O. Smith Corp.*, n46 holding that "a plaintiff who is not reasonably diligent may not assert 'fraudulent concealment.'" The Court rejected the holdings of some circuits that when the plaintiff does not know of a defendant's unlawful activity and the defendant had affirmatively concealed the activity, the statute of limitations is tolled regardless of whether the plaintiff "should have known" of the defendant's unlawful activity. The Court again drew the parallel between RICO and antitrust in holding that the fraudulent concealment requirement can only be satisfied if the plaintiff shows that he did not know nor, in the exercise of due diligence, could have known of the offense. Further, the Court stated that in both antitrust and civil RICO, "private civil actions seek not only to compensate victims but also to encourage those victims themselves [to] diligently investigate and thereby to uncover unlawful activity." n47

[6] Vicarious Liability

In the absence of Supreme Court direction on the issue of vicarious liability, wide discrepancies among the lower courts have arisen concerning the application of vicarious liability in RICO cases. Most courts have adopted "middle" positions, requiring as a necessary condition of vicarious liability that the defendant company be more than a mere "victim" of the racketeering activity, n48 that the company be the "direct beneficiary" of the pattern of racketeering activity, n49 that the company be a "central figure" or "aggressor" rather than a "conduit," n50 or that there be some unspecified "more" than simply applying the respondeat superior doctrine. n51

The language of the RICO statute does not expressly address the issue of vicarious liability. However, since civil RICO is a form of statutory tort, some courts have reasoned that "general agency principles" should apply as fully as to other torts. n52 Certainly, in civil RICO claims finding liability under §§ 1962(a) or (b), when the principal has derived some

benefit from the agent's wrongful acts, there is no barrier to vicarious liability. n53

Most courts of appeals, however, have held that Section 1962(c)'s limitation of liability to employees and associates of an enterprise who conduct the enterprise's affairs through a pattern of racketeering activity would be rendered effectively meaningless if the enterprise itself could be held liable on a respondeat superior theory. n54 For example, the Fifth Circuit noted:

It would be incongruous here to find that while [defendant,] as the enterprise, cannot be a RICO person, it can be held vicariously liable for the acts of [one of its agents]. If this were the rule, all legal enterprises could be found liable under RICO if their employees or agents were involved in perpetrating predicate acts through or against them. This is contrary to the rule Congress meant to impose as evidenced by the language of the statute. n55

In the Eleventh Circuit, which has rejected the limitation on liability under 1962(c) applied by the other circuits, the Court of Appeals has held that vicarious liability applies without exception to all RICO claims and that "liability for the act's of one's agents is simply a reality to be faced by corporate entities." n56 The Eleventh Circuit also suggested that the RICO exception to vicarious liability applied by other circuits "is a narrow one [that] ... protects only those employees who are also the RICO enterprise for purposes of 1962(c)." n57

However, the Eleventh Circuit's interpretation is questionable in light of the broad language used by the other circuits in rejecting vicarious liability claims. Thus, the Seventh Circuit has stated: "we follow the First and Eighth Circuits in rejecting the doctrine of respondeat superior in civil RICO cases." n58 Similarly, the Eighth Circuit has held that "corporations will not be liable under RICO based solely on the respondeat superior doctrine." n59

As the Supreme Court noted in *Reves v. Ernst & Young*, RICO's liability provisions are primarily focused on "the infiltration of organized crime and racketeering into legitimate organizations." n60 In light of this focus, one district court observed: "the notion that a corporation should be vicariously responsible under RICO for the independent fraudulent acts of its employees is a rather startling one ... Indeed, the initial intent of the statute was to protect corporations from criminal infiltration, not to make them the responsible parties." n61

In an attempt to apply principles of vicarious liability in a manner consistent with the overriding intent of the statute, one district court limited vicarious liability under RICO to situations in which the putatively liable company is more of an "aggressor" than a "passive instrumentality" of the violation. n62 The court suggested that factors such as whether high-level employees were involved in the unlawful activity, whether they knew of the unlawful activity, and acquiesced in it, and whether the company directly and substantially benefited from the racketeering activity all should be taken into consideration. n63 This approach has been adopted by numerous district courts in the Second Circuit and appears to be finding favor in other jurisdictions as well. n64

Vicarious liability also has been applied in the partnership context. A district court held that as neither the language nor the legislative history of RICO spoke to the issue of vicarious or partnership liability, there was no basis for concluding that the statutory scheme would be disrupted by the application of partnership liability in a civil RICO context. n65 In one case, a court refused to find a union vicariously liable for the racketeering acts of its president where there was no allegation that the union had retained any benefits from the alleged violations. The court concluded that the union could not be liable merely for acquiescing in the fraudulent scheme, and concluded that vicarious liability should be reserved for aggressor entities which serve as central figures in an unlawful scheme rather than mere conduit organizations. The court stated "Although agency law does recognize that failure to repudiate can act as an affirmation of an unauthorized transaction... we do not think that this doctrine should be used to undermine the federal policy of punishing only culpable RICO parties." n66

[7] In Pari Delicto

At least two circuits have held *in pari delicto* to be a valid defense in RICO cases, blocking recovery of damages. n67 *In pari delicto* depends upon a plaintiff's active participation in the violation and the policy goals of the federal statute. n68 In distinguishing RICO cases from antitrust cases where the Supreme Court found that *in pari delicto* did not apply, the 11th Circuit stated that "[i]n contrast with antitrust violations, a federal RICO violation requires affirmative and deliberate participation." n69 Regarding the policy goals of RICO, the 11th Circuit further stated:

It would be anomalous, to say the least, for the RICO statute to make racketeering unlawful in one provision, yet award the violator with treble damages in another provision of the same statute. "Congress intended RICO's civil remedies to help eradicate 'organized crime from the social fabric' by divesting 'the association of the fruits of ill-gotten gains.' " n70

More recently, the 5th Circuit adopted the 11th Circuit's reasoning, noting that "a wealth transfer among similarly situated conspirators" would not further RICO's deterrence goals. n71

[8] Territorial Limitations

The RICO Act applies only to organized crime occurring within the United States or directed at the United States. n72 In *Castellanos v. Pfizer, Inc.*, the court dismissed the claim, arising out of a dispute over distribution rights in Ecuador. n73 The court held that because the underlying alleged organized crime did not occur within or against the United States, dismissal was appropriate for failure to state a claim upon which relief could be granted. n74

(n22)Footnote 22. Prior to *Malley-Duff*, the federal courts' approach to the problem of selecting the most appropriate statute of limitations for civil RICO claims was confusing and inconsistent. Some courts simply used the state limitations period most similar to the predicate offenses alleged in the particular RICO claim. Others, such as the Court of Appeals in this case, chose a uniform statute of limitations applicable to all civil RICO actions brought within a given state. The courts, however, had uniformly looked to state statutes of limitations rather than a uniform federal statute of limitations.
